What are Catalog Rights?

Undergraduate Students

Students may elect to satisfy degree requirements for a different academic catalog years for their major and/or their Undergraduate University Graduation Requirements. Talk to your advisor about your Undergraduate Catalog Rights.
Graduate Students

Students, who since gaining Classified Graduate Standing status have maintained continuous enrollment, may elect to satisfy the degree requirements in effect at the time of gaining Classified Graduate Standing status or at the time of completing their degree requirements.

What's New?

Organizational Changes

- The Department of Hospitality, Tourism and Event Management moved from the College of Health and Human Sciences to the Lucas College and Graduate School of Business effective July 1, 2021.

Programs

New Degrees (7)

- Animation & Illustration, BFA (elevated from concentration)
- Climate Science, BS (elevated from concentration)
- Clinical Mental Health Counseling, MS (elevated from concentration)
- Information Science and Data Analytics, BS (online degree completion)
- Special Education, MA (elevated from concentration)
- Speech Language Pathology, MS (elevated from concentration)
- Teaching, MAT (elevated from concentration)

New Concentrations (4)

- Advanced Standing Program - Social Work, MSW
- Business Administration, Hospitality, Tourism and Event Management Concentration, BS (formerly Hospitality, Tourism and Event Management, BS)
- Interdisciplinary Studies, Educational and Community Leadership Concentration, BA (online degree completion)
- Nursing, Integrated Community College Pathway, BS

New Certificate (1)

- Nursing Specialty Advanced Certificate

New Minors (4)

- Transformative Leadership Minor
- Robotics Minor
- Sports Journalism Minor
- Wildfire Sciences Minor
Major Program Revisions (6)

- Broadcast Meteorology Minor (formerly Meteorology Minor)
- Earth System Science, BS (formerly Earth Science, BA)
- Engineering Technology, Computer Network System Management Concentration, BS (formerly Industrial Technology, BS and new CIP Code)
- Engineering Technology, Manufacturing Systems Concentration, BS (formerly Industrial Technology, BS and new CIP Code)
- Interdisciplinary Engineering, BS (formerly General Engineering, BS)
- Interdisciplinary Studies, BA/Interdisciplinary Studies, BS (formerly Special Major BA/Special Major BS)
- Science Education, MS (formerly Science Education, MA)

General Education Program

Per Amendment C to University Policy S14-5, the General Education Program was revised to create a 3-unit GE Area F Ethnic Studies and reduce the GE Area D Social Sciences unit requirement from 9 units to 6 units to bring SJSU in alignment with California Education Code 89032. Amendment D to University Policy S14-5 replaced the Area D language and added the Area F language in the 2014 GE Guidelines.

- MUSC 10C - Pop and Rock in the U.S. (C1)
- MUSC 10D - Introduction to Hip Hop (C1)
- SPAN 20A - Spanish for Heritage Speakers I (C2)
- TAG 1A - Elementary Tagalog I (C2)
- TAG 1B - Elementary Tagalog II (C2)
- VIET 1A - Elementary Vietnamese (C2)
- VIET 1B - Elementary Vietnamese (C2)
- MUSC 8 - The Artist's Way (E)
- AAS 1 - Introduction to Asian American Studies (F)
- AAS 159 - Asian American Media Representation and Popular Culture (F)
- AFAM 22 - The Humanities in African American Culture (F)
- AFAM 134 - The Black Civil Rights Movements (F)
- CCS 1 - Introduction to Chicana and Chicano Studies (F)
- AAS 25 - The Changing Majority: Power and Ethnicity in America (F)
- AFAM 25 - The Changing Majority: Power and Ethnicity in America (F)
- CCS 25 - The Changing Majority: Power and Ethnicity in America (F)
- AMS 139 - Animals and Society (R)
- METR 116 - Impacts of Extreme Weather under Climate Change (R)
- NURS 164AR - Community Health Theory for Nursing BS Program (R)
- NURS 172R - Community Health Theory for RN to BSN Program (R)
- GEOG 107 - Mapping the World (R)
- GEOG 140 - The United States (S)

Spartan Accelerated Graduate Education (SAGE) Scholars Programs (10)

Spartan Accelerated Graduate Education (SAGE) Scholars programs are combined bachelor's and master's programs at SJSU (per University Policy F19-1). Sometimes they may also satisfy the requirements for a credential.
Students in these programs pursue a bachelor's and master's degree simultaneously. These programs allow students to earn graduate credit while in their junior and/or senior year, reducing the number of semesters required for completion of a master's degree.

- African American Studies BA + Minor in U.S. History + Single Subject Credential in Social Science + Teaching MAT
- Art, Preparation for Teaching, BA + Single Subject Credential + Teaching MAT
- Biomedical Engineering BS + MS (effective Fall 2022)
- Chemical Engineering BS + MS
- Electrical Engineering BS + MS
- Kinesiology, Preparation for Teaching, BS + Single Subject Credential + Teaching MAT
- Liberal Studies, Preparation for Teaching, BA + Multiple Subject Credential + Teaching MAT
- Liberal Studies, Preparation for Teaching, BA + Education Specialist Credential + Special Education MA
- Materials Engineering BS + MS
- Social Science, Preparation for Teaching, BA + Single Subject Credential + Teaching MAT

**New Courses (126)**

Effective Fall 2021 (unless otherwise indicated).

**Business**

- BUS2 135B - Services Marketing
- BUS4 118B - Business Intelligence
- BUS4 118I - Digital Innovation
- BUS5 164C - Doing Business in China
- MTM 226C - Transportation Safety and Compliance Management

**Education**

- CHAD - 76 - Child Development Among Media and Emerging Technologies (Spring 2022)
- CHAD 156 - Social Media and Youth Civic Engagement
- EDLD 110 - Introduction to Educational and Community Leadership
- EDLD 120 - The Right to Learn: Language, Dignity, and Education
- EDLD 130 - Antiracist Leadership: Cases, Frameworks, and Praxis
- EDLD 140 - Identity, Solidarity, and Social Justice Leadership
- EDLD 150 - Communication, Leadership, and Social Justice
- EDSE 192D - Introduction to Special Education Policy and Law

**Engineering**

- AE 149 - Advanced Dynamics and Simulation
- BME 116 - Biosensors and Bioinstrumentation
- BME 276 - Project Management in Biomedical Technologies
- BME 280 - Graduate Research Studies
- CE 204 - Advanced GIS Applications in Civil Engineering
- CHE 142 - Principles of Thermal Analysis
• CHE 191 - Bioseparations
• EE 282A - Reinforcement Learning for Multi-Robot Networks
• EE 226 - Cryogenic Nanoelectronics (Spring 2022)
• ENGR 130 - Introduction to Intellectual Property for Engineers (Spring 2022)
• ENGR 131 - Introduction to Patents for Engineers (Spring 2022)
• ENGR 241 - Modeling and Control of Energy Systems (Spring 2022)
• ENGR 242 - Power Converters for Alternative Energy Systems (Spring 2022)
• ENGR 243 - Energy Storage Applications & Manufacturing (Spring 2022)
• ENGR 244 - Risk Management, Resilience, and Reliability of Energy Systems (Spring 2022)
• ISE 133 - Data Mining and Analysis for Industrial Systems (Spring 2022)
• ISE 234 - Electricity Markets & Power Systems Analytics (Spring 2022)
• TECH 177 - Data Science in Industrial Systems Management
• MATE 150 - Intro to Computational Materials Engineering (Spring 2022)

Health and Human Sciences

• AUD 511 - Pediatric Audiology
• AUD 512 - Pediatric Auditory Habilitation
• AUD 514 - Audiological Assessment III
• AUD 515 - Hearing Aids II
• AUD 516 - Adult Auditory Rehabilitation
• AUD 510A - Clinical Rotation in Audiology I
• KIN 108 - Adapted Physical Activity for Young Adults with Disabilities
• KNED 189 - Student Teaching Seminar in Adapted PE
• NUF S 243 - Nutrition and Dietetics Leadership
• NURS 164AR - Community Health Theory for Nursing BS Program (R)
• NURS 172R - Community Health Theory for RN to BSN Program (R)
• NURS 205O - Ostomy Care
• NURS 205W - Wound Care
• NURS 253ITL - International Family Nurse Practitioner Practicum I
• OCTH 505 - Occupational Therapy Doctorate Exploration I
• OCTH 515 - Occupational Therapy Doctorate Exploration II
• OCTH 516 - Evaluations in Occupational Therapy
• OCTH 524 - Occupational Therapy Practice in the Community
• OCTH 526 - Occupational Therapy with Children
• OCTH 533 - Professional Development - Leadership
• OCTH 536 - Occupational Therapy with Youth
• OCTH 555 - Qualitative Research Methods in Occupational Therapy
• PH 188 - Community Health Assessment
• PH 189 - Community Health Education Capstone
• PH 191 - Applied Epidemiology
• PH 197 - Quantitative Analysis
• PH 198 - Qualitative Methods
• PH 199 - Population Data Science Capstone
• PKG 160 - Hazardous Materials Packaging

Humanities and the Arts
• AMS 139 - Animals and Society (R)
• HUM 95 - Introduction to Digital Humanities

• SPAN 260C - Hispanic Literature (Spring 2022)

Professional and Global Education

• DATA 260 - Applied Intelligent Systems
• DATA 270 - Data Analytics Processes (GWAR)
• INFM 284 - Seminar in Informatics
• ISDA 20A - Query Languages
• ISDA 20B - Python Programming
• ISDA 20C - Web Development
• ISDA 20D - Computer Operating Systems
• ISDA 100 - Technical Writing for Information
• ISDA 101 - Online Learning: Tools and Strategies for Success
• ISDA 110 - Technology, Culture, and Society
• ISDA 111 - Information and Data Science
• ISDA 120 - Information Security
• ISDA 121 - Human Centered Cybersecurity
• ISDA 122 - Privacy, Security, Ethics
• ISDA 123 - Information Assurance
• ISDA 130 - User Centered Interface Architecture
• ISDA 131 - Information Architecture
• ISDA 140 - Big Data Analytics and Management
• ISDA 141 - Information Visualization
• ISDA 170 - The Emerging Future: Technology Issues and Trends
• MARA 286 - Information Assurance
• MARA 287 - Developing an Information Governance Strategy

Science

• BIOL 111 - Fire Ecology
• BIOL 161 - Marine Ecology and Biology
• CS 171 - Introduction to Machine Learning
• MATH 151 - Fundamentals of Data Science
• METR 55 - Introduction to Broadcast Meteorology
• METR 116 - Impacts of Extreme Weather under Climate Change (R)
• METR 127 - Introduction to Atmospheric Chemistry
• MS 253 - Marine Pollution

Social Sciences

• AAS 1 - Introduction to Asian American Studies (F)
• AAS 159 - Asian American Media Representation and Popular Culture (F)
• AFAM 158 - Race, Sport, Activism & Social Movements
• AFAM 162 - The Aesthetics of Hip-Hop
• AFAM 185 - Special Topics in African American Studies
• AFAM 155B - Triumphs and Trials of the Black Athlete in the U.S., 2000-Present
• CCS 145 - Chicana/o Folklife and Popular Culture
• COMM 185F - Health Communication
• COMM 186I - Research Methods in Health Communication
• COMM 187P - Communication and Community Wellness
• ECON 297 - Experimental Methods in Economics (Spring 2022)
• ENVS 175 - Wildfire Policy and Management
• FS 12 - Introduction to Digital Evidence Investigations
• FS 130 - Digital Forensic Analysis
• FS 131 - Digital Forensic Applications
• FS 171 - Forensic Criminology
• FS 173 - Death Scene Investigation
• PSYC 136 - Cognitive Science
• WGSS 135 - Trans Studies: Identities, Embodiment, & Politics
Message from the President

Dear student,

Welcome to the 2021-2022 academic year!

As a university, we are committed to helping you complete your degree in a timely manner and ensuring that you depart with the skills and knowledge you need to be successful in your life and career.

To that end, the SJSU Academic Catalog is designed with your educational aspirations in mind. Used in parallel with advisor support and other resources, the catalog is meant to help you plan your path to graduation.

Within these pages, you will find a detailed overview of the extensive degree and certificate programs currently offered by San José State. You will see that we offer more than 140 degrees at the bachelor’s level, nearly 100 master’s programs, three doctoral programs and a variety of credential, certificate and other programs. No matter your academic and career goals, I am confident you will find our course offerings to be robust, varied and well-suited to your needs.

Whether you are the first in your family to attend college or are continuing a college-going legacy, we are delighted to have you here as a student at San José State. As always, the members of our superb faculty and staff are available to offer advice, answer questions about the university and help continue to guide you to become actively engaged at SJSU.

As a Spartan, you are part of our university's long legacy of academic achievement, spirit of innovation and social and civic engagement. Collectively, those attributes led Money magazine to rank SJSU the Most Transformative University in the nation. We are proud of that and other distinctions and accolades!

SJSU sends more college graduates into the Silicon Valley workforce than any other institution, and this is largely due to the variety and quality of programs we offer in a wide range of disciplines. This includes business, engineering and science, education, social sciences, arts and humanities.

Our Academic Catalog is just one of countless resources we offer our students. We want to help you discover your passions and direct you to all that is available to help you learn and engage with your classmates and faculty members, so we offer more than 400 student-recognized clubs and organizations, for example, as well as opportunities for you to sharpen your leadership skills and become an actively engaged SJSU Spartan. I encourage you to make the most of these opportunities.

I hope you will familiarize yourself with the contents of our Academic Catalog, bookmark it or take advantage of the useful My Favorites tool for easy reference in the future. You will be glad you did!

Sincerely,

Dr. Mary A. Papazian
President
The California State University

Welcome to the California State University (CSU) - the nation's largest comprehensive university system with 23 unique campuses and eight off-campus centers serving approximately 486,000 students and employing more than 56,000 faculty and staff.

Each year, the university awards more than 129,000 degrees. CSU graduates are serving as leaders in the industries that drive and build California's economy, including business, agriculture, entertainment, engineering, teaching, hospitality and healthcare. To learn more, visit the California State University website.

A Tradition of Excellence for More than Six Decades

Since 1961, the CSU has provided an affordable, accessible, and high-quality education to more than 3.9 million living alumni throughout California. While each campus is unique based on its curricular specialties, location and campus culture, every CSU is distinguished for the quality of its educational programs. All campuses are fully accredited, provide a high-quality broad liberal educational program and offer opportunities for students to engage in campus life through the Associated Students, Inc., clubs and service learning. Through leading edge programs, superior teaching and extensive workforce training opportunities, CSU students graduate with the critical thinking skills, industry knowledge and hands-on experience necessary for employment and career advancement.

Facts

- Today, one of every 20 Americans with a college degree is a CSU graduate.
- 1 of every 10 employees in California is a CSU graduate.
- The CSU awards about half of the bachelor's degrees earned in California.
- The CSU awards 46% of California's undergraduate nursing degrees.
- The CSU is the leading provider of teacher preparation programs in the state.
- In 2019-20, the CSU students earned nearly 24,000 business degrees and more than 10,000 engineering degrees.
- The CSU offers more than 160 fully online and 150 hybrid degree programs and concentrations.
- The CSU offers more than 45,700 online courses per term, providing more educational options to students who may prefer an online format to a traditional classroom setting.
- The CSU's online concurrent enrollment program gives students the ability to enroll in courses offered by other campuses in the CSU.
- Over a recent four year period, the CSU has issued nearly 50,000 professional development certificates in education, health services, business and technology, leisure and hospitality, manufacturing, international trade and many other industries.
- CSU Centers for Community Engagement and Service Learning make available nearly 3,200 service learning courses.
- 64,000 CSU students participated in, contributing 934 thousand hours of service last year.

Governance

The CSU is governed by the Board of Trustees, most of whom are appointed by the governor and serve with faculty and student representatives. The CSU Chancellor is the chief executive officer, reporting to the Board. The campus presidents serve as the campus-level chief executive officers. The Trustees, Chancellor and presidents develop university-wide educational policy. The presidents, in consultation with the CSU Academic Senate and other campus stakeholder groups, render and implement local and system-wide policy decisions.
CSU Historical Milestones

The individual California State Colleges were established as a system with a Board of Trustees and a chancellor in 1960 by the Donahoe Higher Education Act. In 1972, the system was designated as the California State University and Colleges, and in 1982 the system became the California State University. Today, the CSU is comprised of 23 campuses, including comprehensive and polytechnic universities and, since July 1995, the California State University Maritime Academy, a specialized campus.

The oldest campus-San José State University-was founded in 1857 and became the first institution of public higher education in California. The newest-California State University Channel Islands-opened in fall 2002, with freshmen arriving in fall 2003.

In 1963, the CSU's Academic Senate was established to act as the official voice of CSU faculty in university-wide matters. Also, the California State College Student Presidents Association - which was later renamed the California State Student Association - was founded to represent each campus student association on issues affecting students.

Through its many decades of service, the CSU has continued to adapt to address societal changes, student needs and workforce trends. While the CSU's core mission has always focused on providing high-quality, affordable bachelor's and master's degree programs, over time the university has added a wide range of services and programs to support student success - from adding health centers and special programs for veterans to building student residential facilities to provide a comprehensive educational experience.

To improve degree completion and accommodate students working full- or part-time, the educational paradigm was expanded to give students the ability to complete upper-division and graduate requirements through part-time, late afternoon, and evening study. The university also expanded its programs to include a variety of teaching and school service credential programs, specially designed for working professionals.

In 2010, in an effort to accommodate community college transfer students, the CSU, in concert with the California Community Colleges (CCC), launched the Associate Degree for Transfer (ADT), which guarantees CCC transfer students with an ADT admission to the CSU with junior status. ADT has since proven to be the most effective path to a CSU for transfer students.

Always adapting to changes in technology and societal trends to support student learning and degree completion, the CSU launched CourseMatch, which enables CSU students to complete online courses at other CSU campuses, expanding enrollment opportunities and providing more educational opportunities for students who may prefer an online format to a traditional classroom setting.

The CSU marked a significant educational milestone when it broadened its degree offerings to include doctoral degrees. The CSU independently offers Doctor of Education (Ed.D.), Doctor of Physical Therapy (DPT), Doctor of Audiology (AuD) and Doctor of Nursing Practice (DNP) degree programs. Additionally, the CSU was recently authorized to offer the independent Doctor of Occupational Therapy (OTD). A limited number of other doctoral degrees are offered jointly with the University of California and private institutions in California.

The CSU strives to continually develop innovative programs, services and opportunities that will give students the tools they need to meet their full potential. In 2016, the university launched Graduation Initiative 2025, a bold plan to support students, increase the number of California's graduates earning high-quality degrees and eliminate achievement and equity gaps for all students. Through this initiative, the CSU is ensuring that all students have the opportunity to graduate according to their personal goals, positively impacting their lives, families and communities.

By providing an accessible, hands-on education that prepares graduates for career success, the CSU has created a network of alumni that is so extensive and renowned that it spans across the globe. As of 2020-21, more than 3.9 million CSU alumni are making a difference in the lives of the people of California and the world.

CSU Trustees

**Ex Officio Trustees**

The Honorable Gavin Newsom  
Governor of California

The Honorable Eleni Kounalakis  
Lieutenant Governor of California

The Honorable Anthony Rendon  
Speaker of the Assembly

The Honorable Tony Thurmond  
State Superintendent of Public Instruction

Dr. Joseph I. Castro  
Chancellor of the California State University

**Officers of the Trustees**

The Honorable Gavin Newsom - President  
Lillian Kimbell - Chair  
Wenda Fong - Vice Chair  
Andrew Jones - Secretary  
Steve Relyea - Treasurer

**Appointed Trustees**

Appointments are for a term of eight years, except student, alumni, and faculty trustees whose terms are for two years. Terms expire in the year in parentheses. Names are listed alphabetically.

Silas Abrego (2021)  
Larry L. Adamson (2022)  
Diego Arambula (2028)  
Jane W. Carney (2022)  
Jack B. Clarke Jr. (2027)  
Adam Day (2023)  
Douglas Faigin (2025)  
Debra S. Farar (2022)  
Jean P. Firstenberg (2026)  
Wendy Fong (2024)  
Maryana Khames (2021)  
Lillian Kimbell (2024)  
John "Jack" McGrory (2023)  
Anna Ortiz-Morfit (2025)

Programs & Services

Academic Advising and Pre-Admissions Counseling

Academic Advising ensures academic success and graduation in a timely manner. Undergraduates will have access to academic advisors in the College Student Success Center and in the major department. Academic advisors assist you with selecting courses and developing a plan for fulfilling SJSU requirements or choosing major requirements. Students should visit their college student success center for any questions they have about general education, probation and disqualification advising, assistance with interpreting your Degree Progress Report (MyProgress), academic planning using MyPlanner, and the process for late drop and withdrawal petitions.

Academic Counseling Center for Excellence in the Social Sciences (ACCESS)

Academic Counseling Center for Excellence in the Social Sciences (ACCESS) is the student success center for the College of Social Sciences (CoSS). Both current CoSS students and those students interested in minoring or majoring in a social sciences degree program are encouraged to see an advisor at ACCESS for general education advising, graduation support, and/or help with changing majors. We provide both drop-in advising and appointments. We also offer career counseling and tutoring in both social sciences statistics and writing.

Clark Hall 240
408-924-5363
www.sjsu.edu/access/

College of Health and Human Sciences (CHHS) Student Success Center (SSC)

The College of Health and Human Sciences (CHHS) Student Success Center (SSC) provides advising for undergraduate students majoring or wanting to major or minor in programs offered in CHHS Departments and Schools.

All CHHS students and students interested in a CHHS major are invited to stop by the Center for advising. The Center's services include general education advising, help with changing majors, academic policy related questions, meeting with peer mentors, peer tutoring, and various regularly scheduled presentations and workshops. Looking for academic advice or maybe just some tips about how to navigate your way around SJSU? Check out the CHHS Student Success Center! It's also a great place to meet, study, and learn. Laptop computers are also available for use in our Center.

Contact the CHHS Student Success Centers at:
Engineering Student Success Center (ESSC)

The Engineering Student Success Center provides advising services and student success programming for undergraduate and graduate students in the College of Engineering. We offer both drop-in advising and appointments.

The ESSC works in partnership with the Engineering major departments to offer a wide variety of advising and support services such as course planning, university policies, campus academic resources, and general support to help students persist to graduation. As students progress through their programs, we also offer graduation advising and assistance with post-college transitions, whether students decide to pursue graduate studies or begin their career in Silicon Valley and beyond.

Humanities and the Arts Student Success Center (HASSC)

The Humanities and Arts Student Success Center, located in Clark Hall, provides academic advising services to all students with majors and minors in the College of the Humanities and the Arts. Services include university requirements advising which encompasses general education, academic planning support, career advising and career exploration events, and mentoring to undergraduate students.

H&A Spartans are highly encouraged to proactively meet with our professional advisors for guidance on developing successful pathways toward graduation. H&A Spartans are also encouraged to study in our office, learn more about the majors and minors in our College, and participate in our scheduled activities including workshops and networking events.

Jack Holland Student Success Center (J HSSC)

The Jack Holland Student Success Center, located on the garden level of the Boccardo Business Center, provides advice to students about undergraduate business courses and programs. Prospective students are encouraged to talk with advisors about requirements for business major and general education courses. Prospective graduate students are encouraged to meet a graduate advisor in the Graduate Program Office in the Business Tower.

Business Tutoring Center
The Tutoring Center gives individual and group assistance to business students seeking subject matter tutoring. It is located on the ground level of the Boccardo Business Center.

**Boccardo Business Center (BBC) 008**

408-924-3435  
www.sjsu.edu/lcobssc/

**Lurie College of Education Student Success Center (LCOE-SSC)**

The Lurie College of Education Student Success Center provides a range of activities including academic advising, professional development workshops, mentoring, networking events, and access to university, college, and career resources.

All current LCOE undergraduate and graduate students, and students interested in learning more about majors and minors in Education, are encouraged to come by the Center to meet with an advisor, participate in our scheduled activities, or to utilize the study space.

**College of Science Advising Center (COSAC)**

The College of Science Advising Center is located in Duncan Hall, Room 212. COSAC provides general education advising, academic advising for lower division Biology, Chemistry and Computer Science majors and other advising and student success services for students in the College of Science.

COSAC offers Change of Major workshops for students that would like to change into a Biology, Chemistry or Computer Science major. In addition, we process Chemistry Minor applications for students interested in adding a Chemistry minor. We also provide tutoring for many of our lower division and some upper division courses.

**Duncan Hall (DH) 212**

**Accessible Education Center (AEC)**

AEC facilitates the delivery and referral of services for students with disabilities. Students who register and create a confidential file with AEC are eligible to receive a wide spectrum of services based on individualized needs. AEC recommends students submit an application through MyAEC prior to registering for classes; however, students can register anytime during the semester with the AEC. Access to MyAEC can be found on AEC's home page. Accommodations and services include, but are not limited to the following:

**Center for Accessible Technology (CAT)**

Students registered with the AEC receive individual training in the use of assistive technology and have access to an open lab located in The Center for Accessible Technology (MLK 230).

**Curriculum Accommodations**
An array of academically related services is provided on a case-by-case basis for students with verified disabilities to support curriculum requirements. Accommodations include but are not limited to: accessible technology, alternative media, notetaking, sign language interpreters and test accommodations.

**Deaf and Hard of Hearing (DHOH)**

The DHOH Program provides Educational Sign Language Interpreters or Real-Time Educational Captioners for students who are Deaf or Hard of Hearing. Eligibility for this service is determined by the Deaf and HOH Coordinator and is based in part on the professional documentation provided by the student.

**Registration Priority**

As noted in University Policy, F17-4, priority registration is provided to assist students to manage their disability related limitations in consideration of their course schedule.

**Accessible Education Center**

Career Center

Preparing for the college-to-career transition starts the moment you arrive on campus. Engage with us to discover your career interests, find internships and jobs that help you develop in-demand skills and learn how to design a meaningful future career.

Career Readiness

• Major and career exploration resources
• Personalized career counseling and coaching from master-level career counselors with industry experience to guide you on your career journey
• Strategies to build career experience through on- and off-campus roles.
• Mentoring programs to help you build your professional network
• Internship, job and graduate study preparation to help you meet your career goals

Career Opportunities

• Access to SJSU Handshake, our job and internship database, offering thousands of new opportunities each month for SJSU students
• Career fairs, networking events, and interviews with top employers to help you stand out from the crowd

Services are available to:

• Currently enrolled SJSU students
• New SJSU graduates (within 1 year of graduation)
• Alumni who purchase a Career Center annual membership or a la carte services

Case Management
The office of Case Management serves both the University and the individual student by working in a holistic manner with students who are experiencing higher levels of distress, life challenges, or barriers which could be interfering with their ability to be successful. Besides our 1:1 non-clinical case management support, our office also operates the SJSU Cares, Spartan Food Pantry, and Behavioral Intervention Team programs. Learn more at sjsu.edu/casemanagement/

**Supporting Basic Needs through SJSU Cares**

SJSU Cares assists students who are facing an unforeseen economic crisis by providing direct support and referrals around basic needs including food, housing, emergency assistance and more. Students needing support can submit a Request for Assistance at sjsu.edu/sjsucares

**Spartan Food Pantry**

The Spartan Food Pantry is a walk-in, full-service, staffed, food assistance program offering non-perishable goods, fresh produce, and refrigerated items to eligible students. Review eligibility, donation guidelines, and volunteer opportunities at sjsu.edu/spartanfoodpantry

**Behavioral Intervention Team (BIT)**

The mission of the Behavioral Intervention Team (BIT) is to improve campus safety through a pro-active, thoughtful, and caring approach to situations that pose, or may reasonably pose, a threat to the safety and well-being of the SJSU community. If you are concerned about a Spartan in Distress please complete a Concerning Behavior Referral form or learn more at sjsu.edu/bit/

**Case Management Office**

Clark 140
408-924-1234
sjsucares@sjsu.edu

**Counseling and Psychological Services (CAPS)**

Professionally trained multi-culturally sensitive staff provides confidential counseling services to enrolled SJSU students. Responding to the many pressures and demands facing students at different times, Counseling and Psychology Services (CAPS) offers confidential counseling; groups and workshops; crisis intervention services; resource referral and consultation; and outreach presentations. The private offices in CAPS support an atmosphere of safety and confidentiality between a counselor and a student.

**Personal/ Psychological Counseling**

Counselors can work with you to improve your mood, decrease your anxiety, increase your skills in handling stress, improve your skills in relationships, and help you make better decisions. Our professional staff includes licensed psychologists, professional clinical counselors, social workers, marriage family therapists and advanced doctoral-level clinical trainees supervised by licensed professionals.

**Crisis Intervention Services**
CAPS provides 24 hour crisis intervention services. To get connected to a crisis counselor for psychological emergencies, please call 408-924-5910 (option 4). For urgent situations, please contact the University Police Department at 408-924-2222, or dial 911. Students may also utilize the following resources:

- Santa Clara County Crisis/Suicide Hotline: 855-278-4204
- Crisis Text Line: text "HOME" or "HELLO" to 741741

**Educational Counseling**

CAPS Educational Programs provides students with life skills that promote academic success. Our programs assist students in navigating the University by informing them of SJSU resources and policies, and serving as a bridge to personal counseling to help students' overall well-being.

Each semester, CAPS Life Skills Workshops and Student Peer Groups are offered to help students become more successful at SJSU.

**Outreach Service**

Our professional counselors offer a variety of presentations on topics of interest to campus organizations and student groups free of charge. Outreach services also include tabling, interviews, and supportive debriefs for the campus community. Requests for presentations or interviews should be made with two weeks advance notice.

**Groups**

Groups are a great way for students to connect with peers, learn new skills and strategies, and grow both emotionally and educationally! We offer numerous types of groups every semester that get students interacting and connecting to help each other.

**Suicide Prevention Training**

We provide learning opportunities to gain knowledge in assessment skills, awareness in suicide, and mental health crises and interventions (e.g. QPR, Mental Health First Aid, and ASIST). All trainings are free and open to all SJSU members.

**Additional Mental Health Resources**

Additional resources students can use include:

- You@SJSU
- TAO (Therapy Assisted Online)
- ThrivingCampus

**Counseling and Psychological Services (CAPS)**

Student Wellness Center, 3rd Floor, Room 300B
408-924-5910
www.sjsu.edu/counseling

**Educational Opportunity Program (EOP)**
Applicants who are low-income, and who would be the first generation in their family to earn a baccalaureate degree, are encouraged to apply online through CSU Apply for consideration in the Educational Opportunity Program. For more information see http://www.calstate.edu/apply.

**EOP (Educational Opportunity Program)**

Clark Hall  
408-924-2637  
www.sjsu.edu/eop  
educational.opportunity.program@sjsu.edu

**Emergency Information**

Dial 911 from any on-campus or pay phone (or 408-924-2222 from mobile phones) to report a crime in progress or any life-threatening police, fire or medical emergency.

**Bluelight Phones**

Bluelight emergency phones are located throughout the campus grounds and inside buildings, elevators and in parking lots and garages. Bluelight phones connect to University Police 24 hours a day and can be used to report emergencies or request an evening safety escort, shuttle ride or motorist assistance. Depending on the location, Bluelight phones are activated by either pressing a call button or picking up the phone receiver.

**Non-Emergency and General Information**

To report crimes not in progress, general concerns or request information, contact University Police at 408-924-2222 or visit UPD on the first floor of the University Police Building 24 hours a day.

**Alert-SJSU Notifications and Major Emergency Information**

Alert-SJSU is the campus emergency notification system that provides information about what to do and where to go during a natural disaster or life threatening emergency. To register or update alert settings (most students are already automatically registered), sign in to MySJSU, select Alert-SJSU and enter your contact phone numbers and e-mail addresses. For more information during a major emergency, call 408-924-SJSU and not University Police (unless you are reporting a crime in progress or a life threatening emergency).

**Facilities Unique to SJSU**

- **Africana Center** functions both as a library resource center and a community center, with the goals of scholarship, leadership, and community responsibility about and for Africana people, a term that refers to all people of African descent. The Africana Center supports and sponsors programs and scholarship specific to Africana life, history and culture.
- **Art Foundry**, located one mile south of campus, provides facilities for casting and fabricating large-scale sculptures in bronze, aluminum, iron and steel as well as work in stone and other materials.
- **Asian American Resource Center** is a place to study, research, gather and connect to SJSU. Community members bridge the gap between SJSU and the rich history and contributions of Asian-Americans to this region.
- **Aviation Facility** provides hands-on aviation operation and maintenance experience from its classroom, laboratory and hanger facility at Reid-Hillview Airport.
- **Biological Sciences Research Collections** include entomology, herpetology, vertebrate and invertebrate museums and the Carl Sharsmith Herbarium.
• **The Bloomberg Lab** at the Lucas College of Business houses fifteen Bloomberg Terminals providing hands-on experience with the industry standard investment research platform. Supports the investment course and finance course modules, as well as the student managed Spartan Investment Fund.

• **Chicano Resource Center** provides a single locus for books, periodicals, reference tools, pamphlets and clippings relating to Mexican-American history, culture and community.

• **Electro-Acoustical Studios** offer undergraduate music students access to digital synthesizers.

• **Engineering Laboratories** are state-of-the-art, the result of a $41 million project supported by many of the nation's leading high technology corporations.

• **The Hammer Theatre** is a city-owned venue operated by the university. The Hammer offers dynamic, diversified performing arts, educational, and technology related programming.

• **Ira F. Brilliant Center for Beethoven Studies** is the only research facility and document repository in North America dedicated solely to the study of the life and performance of the works of Ludwig van Beethoven.

• **Phyllis Forward Simpkins International House** is a large residence hall, located one block from campus, that is home to overseas and U.S. students interested in widening their international experience.

• **Journalism Laboratories** include the newsroom and advertising offices of the Spartan Daily, the studios of television's Update News, and the production room of the student magazine, Access, that provide applied experience in specific media.

• **Moss Landing Marine Laboratories** provides access to the geologically and biologically important Monterey Bay Canyon and to some of the world's richest ocean and salt marsh research areas.

• **Science Education Resource Materials Center** makes available to student teachers educational aids for science classes, including live fauna and geological models.

• **Speech and Hearing Center** is an on-campus multilingual audiology and speech pathology community clinic.

• **Timpany Center** is owned by Santa Clara County and operated by the Department of Kinesiology in collaboration with other schools/departments within the College of Health and Human Sciences to provide internships/research opportunities in health and physical activity for those with disability, older populations, and the obese.

### Financial Aid and Scholarships

The Financial Aid and Scholarships Office awards federal, state and local grants, loans and scholarships. Start by filing the federal Free Application for Federal Student Aid (FAFSA). Eligible AB540 students (undocumented immigrant status) may qualify for state grant programs by completing the CA Dream Application. Both applications are available beginning on October 1 for the next academic year and the priority filing deadline is March 2. The priority deadline is March 2 of every year. You must apply every year to be considered for financial aid for the following academic year. By completing the process, we establish your financial need. Need is the difference between a typical student budget and what you and your family are expected to pay. Aid is awarded via:

#### Grants

Since grants generally do not have to be repaid, grants typically are awarded to undergraduate students with the greatest need. SJSU distributes the Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (SEOG), Federal Teacher Education Assistance for College and Higher Education (TEACH) Grant; California Grants A, B; Middle Class Scholarship (MCS), the State Graduate Fellowship, Educational Opportunity Program (EOP), Graduate Professional Business, Ed.D Program - Educational Leadership Grant, Audiology Program Grant for the Doctor of Audiology Program, Spartan Completion Grant and the State University Grants.

#### Loans

...
Loans can be helpful, but they must be repaid. If you must borrow, limit the amount to what you really need. It may seem nice now, but you will be repaying the funds, with interest, after you leave school. SJSU awards the following loan type: Kuhlman Loan, a loan program funded from the estate of a generous alumna. Also, loans are awarded through the federal government for the Federal Direct Stafford Subsidized and Unsubsidized Loans and Federal Plus Loans (for parents of college students). In addition, graduate students are eligible to borrow through the Federal Graduate Plus Loan Program, CA Dream Loans are available to students who complete the CA Dream Application and meet eligibility criteria.

**Scholarships**

Apply online. The Scholarship Office has information to assist you with your scholarship search.

**Work Study**

Rather than take loans, the Federal Work-Study program allows students to work part-time while learning job skills. There are both on-campus and off-campus job listings for qualified students.

**Fee Deferrals**

Once you have submitted all requested documents, a fee deferral will be assigned to your record to hold your classes and delay the payment of registration fees while your financial aid process is completed. To prevent enrollment cancellation, it is your responsibility to submit all requested documents prior to the scheduled fee payment deadline. Be sure to monitor your account at MySJSU for file status changes and "To Do" items. Financial Aid fee deferrals are temporary and are issued once all requested financial aid documents are submitted.

**Financial Aid and Scholarships**

Student Services Center
408-283-7500
www.sjsu.edu/faso

**Financial Assistance**

The following information concerning student financial assistance may be obtained from the Director of Financial Aid and Scholarships, Student Services Center, 408-283-7500:

- A description of the federal, state, institutional, local, and private student financial assistance programs available to students who enroll at San José State University;
- For each aid program, a description of procedures and forms by which students apply for assistance, student eligibility requirements, criteria for selecting recipients from the group of eligible applicants, and criteria for determining the amount of a student's award;
- A description of the rights and responsibilities of students receiving financial assistance, including federal Title IV student assistance programs, and criteria for continued student eligibility under each program;
- The satisfactory academic progress standards that students must maintain for the purpose of receiving financial assistance and criteria by which a student who has failed to maintain satisfactory progress may reestablish eligibility for financial assistance;
- The method by which financial assistance disbursements will be made to students and the frequency of those disbursements;
- The terms of any loan received as part of the student's financial aid package, a sample loan repayment schedule, and the necessity for repaying loans;
• The general conditions and terms applicable to any employment provided as part of the student's financial aid package;
• The responsibility of San José State University for providing and collecting exit counseling information for all student borrowers under the federal student loan programs; and
• The terms and conditions for deferral of loan payments for qualifying service under the Peace Corps Act, the Domestic Volunteer Service Act of 1973, or comparable volunteer community service.

Honors

The university recognizes outstanding academic achievement of its students through a variety of different honors.

Honors in the Major

Students who have completed an approved honors in the major receive "honors at graduation" as distinct from "university honors at graduation." The following departments offer honors in the major programs:

• Department of Aviation and Technology
• Department of Biological Sciences
• Department of Chemistry
• Department of Child and Adolescent Development
• Department of Communication Studies
• Department of Computer Science
• Department of Economics
• Department of English and Comparative Literature
• Department of Environmental Studies
• Department of Geology
• Department of History
• Department of Mathematics and Statistics
• Department of Political Science
• Department of Psychology
• Department of Sociology and Interdisciplinary Social Sciences
• Lucas College and Graduate School of Business
• School of Music and Dance

President and Dean Scholars

Each spring the Honors Convocation recognizes and encourages superior undergraduate academic achievement of Presidents’ and Deans’ Scholars. There are two levels of Honors Scholars:

• President’s Scholars: Any undergraduate student who has earned a 4.0 grade point average at San José State University during Fall or Spring terms.
• Deans’ Scholars: Any undergraduate student who has earned a 3.65 or higher grade point average at San José State University during Fall or Spring terms.

The minimal load allowed for the award of academic honors is the student's full program of graded courses or 12 units. CR (Credit) grades are not counted toward the calculation of the grade point average nor toward the 12 unit minimum. Only SJSU courses for which grades are posted, including the clearance of incompletes made during that time period, shall be used.
Recognition of these Honors Scholars through the Honors Convocation was inaugurated at the university in 1962 by the three honor societies - Phi Kappa Phi, Sigma Xi and the Phi Beta Kappa Faculty Club. It is currently under the sponsorship of the University Honors and Honors Programs Committee.

Certain grades are not counted for honors: credit by examination, "overseas" grades, extension courses, "credit" grades and incompletes. Designation as a President's or Dean's Scholar does not apply to second baccalaureate, credential or graduate students.

**Outstanding Graduating Senior Awards**

Announced each year at Commencement by the University President, the Outstanding Graduating Senior Awards recognize exceptional scholarship and service to the university and community based on the following criteria:

- An overall cumulative GPA of at least 3.75;
- Significant demonstrated SJSU leadership area(s) of university life and/or;
- Significant contributions to the welfare of the university and/or the community, and/or;
- Evidence of a high level of intellectual, artistic, or academic accomplishment, and/or personal contribution as an undergraduate student;
- At least one professional nomination letter submitted by a SJSU faculty or staff member.

To be considered for this honor, visit the Student Affairs website at www.sjsu.edu/studentaffairs and follow the programs link for Outstanding Graduating Senior Awards or contact the Office of the Vice President for Student Affairs at 408-924-5900.

**University Honors at Graduation**

Criteria used to determine honors at graduation are those in effect as of the date of graduation. Honors at graduation are only bestowed upon undergraduates (as described in University Policy, S17-13).

- Summa Cum Laude is awarded to those undergraduate students achieving a cumulative grade point average in all university and college work and a cumulative grade point average in all work undertaken at SJSU of not less than 3.85.
- Magna Cum Laude is awarded to those undergraduate students achieving a cumulative grade point average in all university and college work and a cumulative grade point average in all work undertaken at SJSU of not less than 3.70.
- Cum Laude is awarded to those undergraduate students achieving a cumulative grade point average in all university and college work and a cumulative grade point average in all work undertaken at SJSU of not less than 3.50.

**Housing**

SJSU's residence halls and apartments provide you with a great opportunity to transition into university life. Living on campus is a great way to connect with the academic, social, and cultural aspects of our campus. Immerse yourself in study groups, clubs, athletic events and social activities for the total on-campus living experience!

Visit the University Housing website for more information and to fill out an online application.

**Housing License Agreement**
University Housing Services strives to create a residential community that supports and enhances academic success, fosters the learning and development of our students, and promotes student involvement and civic engagement. As a department, our practices promote efficiency, operational effectiveness and fiscal responsibility.

Freshman On-Campus Housing Requirements

For more information related to campus housing policies and requirements, refer to the Housing website.

University Housing Services

uhs-frontdesk@sjsu.edu

Institutional Assistance

- Information concerning the cost of attending San José State University is available from the Financial Aid and Scholarship Office, and includes tuition and fees; the estimated costs of books and supplies; estimates of typical student room, board, and transportation costs; and, if requested, additional costs for specific programs.

- Information concerning the refund policies of San José State University for the return of unearned tuition and fees or other refundable portions of institutional charges is available from the Bursar's Office.

- Information concerning policies regarding Federal Title IV student assistance funding and return of those funds as required by regulation is available from the Financial Aid and Scholarship Office.

- Information regarding facilities and services available to students with disabilities may be obtained from the Director of the Accessible Education Center.

- Information concerning San José State University policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus may be obtained from the University Police Department.

- Information concerning San José State University Annual Campus Safety report may be obtained from the Chief of Police, University Police Department.

- Information concerning the prevention of drug and alcohol abuse and rehabilitation programs may be obtained from the Executive Director of Student Health Center.

- Information regarding student retention and graduation rates at San José State University and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest may be obtained from the College of Graduate Studies or Undergraduate Education.

- Information concerning athletic opportunities available to male and female students and the financial resources and personnel that San José State University dedicates to its men's and women's teams may be obtained from the Athletics Director of Compliance.

- Information concerning teacher preparation programs at San José State University, including the pass rate on teacher certification examinations, may be obtained from Credential Services.
• Information concerning grievance procedures for students who feel aggrieved in their relationships with the university, its policies, practices and procedures, or its faculty and staff may be obtained from the Ombudsperson.

• The federal Military Selective Service Act (the "Act") requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. For more information on the Selective Service System and to initiate the registration process, visit the official Selective Service Systems website.

International House

The SJSU International House is home to 72 U.S. and international students attending SJSU. Residents come from approximately 30 countries including the U.S. and enjoy outstanding facilities including fully-equipped computer room, wireless internet access throughout the building, study room, grand and upright pianos, spacious living and dining rooms, sports equipment and games. I-House staff promotes cross-cultural learning and communication, encouraging active participation in a wide variety of programs and activities.

I-House meets the on-campus living requirement for freshmen.

Visit the I-House website for more information and an application.

SJSU International House

360 South 11th Street
San José, CA 95112-2217

Library

The Dr. Martin Luther King, Jr. Library, an innovative collaboration that integrates the collections, services and staffs of two major institutions: The SJSU University Library and the San José Public Library is a unique learning and community center where the entire Silicon Valley Community--students, faculty, and residents--can learn for life. The combined collections include more than 1.5 million items and the building houses 33 delightful public art installations.

King Library

408-808-2000
www.sjlibrary.org

one.sjsu.edu
One.SJSU.edu is the primary website for important transactions between students and the campus.

- Applicants can access information sent to them by the admissions offices (Undergraduate Admissions & Outreach and GAPE) by logging in to check application status and view messages.
- Admitted and enrolled students can view their enrollment appointment start date and time for registration.
- Admitted and enrolled students can register for classes.
- Admitted and enrolled students can search for open sections of classes.
- Admitted and enrolled students can print their own class schedule.
- Admitted and enrolled students pay fees online.
- Undergraduates can view their degree progress using MyProgress.
- Continuing and former students can print grades from Spring 1991 to the present.

**ID - SJSU ID Number**

An SJSU ID number is assigned to all students. To protect your privacy, the SJSU ID number replaces the use of Social Security Number for most SJSU transactions. This number cannot be changed. New students receive this information via admission office communications. See SJSU ID, also Tower Card.

**SJSU ID Password**

Access One.SJSU.edu on the web using your SJSU ID number and password. MySJSU uses your SJSUOne login information. If you have not yet set your password, you can navigate to One.SJSU.edu to MySJSU and click the Set/Reset Password button to create a password.

Having trouble logging in? If you cannot reset your password using the Set/Reset Password button, please contact itservicedesk@sjsu.edu for assistance. Include your full name, SJSU ID if known (also known as your Tower ID), date of birth, and mailing address.

**IT Help Desk**

The IT Help Desk provides assistance with campus software and network issues, including MySJSU, Canvas, Wi-Fi, SJSU Email, and many other applications. If you need technical assistance, start here.

itservicedesk@sjsu.edu
408-924-1530

Operating hours for phone and chat support available on IT Service Desk website.

**MyProgress Report**

The MyProgress Report, linked at your MySJSU account, allows matriculated students, advisors, and evaluators to determine what requirements a student has satisfied and what requirements are still needed. The MyProgress report matches academic requirements (university and major) against a student's individual academic record.

The report is a valuable tool in tracking your degree requirements, as well as an advising tool to assist you and your advisor in monitoring your academic progress. You should consult with your major advisor on a regular basis.

Official verification of completion of your degree requirements will be processed by the Graduation Evaluators.
Parking Permits

Parking Online Services

Parking Services at San José State University uses virtual permits and License Plate Recognition (LPR) on campus.

Virtual permits allow you to park in your designated area without being required to display a physical permit. The license plate registered when purchasing your parking session will become your virtual parking permit. As each vehicle's license plate is used as your parking permit, license plates must be registered precisely to avoid being issued a citation. Errors in license plate registration are the responsibility of the registrant and will cause the issuance of a violation. License plates of vehicles must be accessible to read from the end of the parking space. You can register up to three vehicles on your permit. Only one vehicle is allowed on campus at a time. Paid parking session is required at all times when parking on campus. 24 hours a day, 7 days a week. License Plate Recognition (LPR) verifies parking session in all garages and lots. SJSU LPR Usage and Privacy Policy is available online.

Benefits of Virtual Permits

- Eliminates the requirement to display physical permits and the need to move permits from vehicle-to-vehicle
- Eliminates the need to come to the Office to pick up physical permits. No More Lines!!!
- Easy to upgrade or downgrade semester or academic virtual parking permit
- Lost or stolen permits and the associated replacement fees, police reports, and processing times will be eliminated
- Your permit is active as soon as the permit effective date
- No more forgetting your permit or worrying about a permit being displayed improperly

No parking permit will be sold at the Bursar's Office. Student parking virtual permits are available for sale through Parking Online Services. For more information, please visit Parking Services, e-mail parking@sjsu.edu, or call 408-924-6556.

Student virtual permits purchased online with a credit card are active as soon as the permit effective date. For other forms of payment, please contact Parking Services.

Availability

Please note that parking permits do not guarantee on-campus parking availability during peak periods (typically Monday through Thursday, 9:00 am to 12:00 pm). During peak periods, commuters are encouraged to use Transportation Alternatives (see next section) or the Park & Ride Lot located at 1281 S. 7th St.

parking@sjsu.edu

Organized Research and Training Units

Research units involve industry/university partnerships to enhance technology transfer, encourage development of new products and improve education.
• Accounting Advancement Center Links SJSU students and accounting professional firms; facilitates student networking and professional opportunities; sponsors student seminars on current accounting issues; and rewards excellence among students and faculty members through scholarships and grants.

• Bay Area Retail Leadership Center Consists of a multilateral partnership between SJSU students, retail industry partners, and SJSU faculty, administration, and staff. A program of Center-sponsored events brings constituents together in an effort to provide co-curricular, experiential learning opportunities designed to build students' leadership skills as well as their awareness and knowledge about retailing as a career destination.

• Biotechnology Education and Research Institute Directs the development of biotechnology through inter-departmental cooperation and serves as a clearinghouse; promotes cooperation between industry, government, and the university in biotechnology research and development. Contact the College of Science for more information.

• Center for Applied Mathematics, Computation, and Statistics Provides an innovative educational program to develop training through practical experience.

• Center for Applied Research on Human Services Housed in the College of Health and Human Sciences, the Center provides support and services to SJSU faculty interested in applied human services research, including a Grants Academy, writing groups, statistical consultation, and methodological workshops.

• Center for Asian Studies Provides information and counsel about studies in Asia.

• Center for Banking and Financial Services The mission of the Center is to provide an important complementary component to students' curricular education in the area of financial intermediation. One of its major goals is to create a link between SJSU students and the banking and financial services sector. By promoting professional development events, the Center provides students with opportunities to interact with professionals. Another major goal is to provide value to the college and university by enhancing the students' knowledge of financial topics. In fact, the Center sponsors presentations and lectures focusing on topics related to financial intermediation. Finally, the Center rewards excellence among students and faculty members by providing financial support through scholarships and research grants.

• Center for Comparative Philosophy Aims at promoting and enhancing the research and scholarship in comparative philosophy, the concerns of which cut across different disciplines as well as different areas of philosophy, for the sake of contributing to the academic mission of SJSU and the international scholarship of comparative philosophy.

• Center for Human Language Technology Supports the study of computational linguistics, acts as a resource for Silicon Valley technology industries, and explores applications of human language technology in industry, education, and society at large.

• Center for International Sport and Human Performance Promotes and facilitates cross-national and cross-cultural interaction of individuals and their ideas in the context of sport and human performance.

• Center for Literary Arts of San José Provides programs featuring major contemporary writers, poets, and scholars.

• Center for Organizational Resilience Resilience (noun /raˈziləns/) - "the ability to withstand and recover from deliberate attacks, accidents, or naturally occurring threats or incidents" (US Presidential Policy Directive 21, 2013). In a world of accelerating change, resilience is recognized as ever more crucial to survival, not just for individuals but for organizations as well. The mission of the Center for Organizational Resilience (COR) at San Jose State University is to serve as Silicon Valley's Center of Excellence for theory and practice in the emerging field of Resilience Management. COR supports a network of subject matter experts coalescing to provide resilience thought leadership and research and to disseminate leading practices to academia and the public and private sectors through training, seminars and a variety of digital channels.

• Center for Service Systems Engineering and Innovation The Center for Service Systems Engineering and Innovation (CSSEI) focuses on the development and application of the principles of service science and management to complex service systems. CSSEI's focus is on investigations related to creating and/or applying technological innovations and human-centered systems engineering processes to improve the customer's Access to services and the customer's Service Experience. CSSEI forms collaborations of
faculty, students, and industry partners to improve the performance of any healthcare and regional transportation service system or organization.

- Center for Smart Technology, Computing, and Complex Systems The Center for STCCS is focused on delivering state-of-the-art engineering solutions to industrial partners and funding agencies, and provides high-quality technical consulting services and technology training to young researchers and local professionals. Experienced academic faculty, students, and research staff at the Center carry out highly focused R&D projects addressing current and future challenges and needs in businesses, social communities, and government agencies.

- Center for the Development of Recycling A national clearinghouse for recycling information and for applied waste management research aimed to increase the scope and availability of recycling information and to increase the effectiveness of recycling as a solid waste management strategy.

- Center on Ethics Facilitates the planning and coordination of research-related activities concerned with issues of professional and business ethics.

- Collaborative for Disaster Mitigation A proactive partnership of the public, private, and academic sectors to encourage and facilitate implementation of mitigation measures to minimize the consequences of natural and other disasters.

- Early Childhood Institute Recognizing the potential each and every child brings into the world, the Early Childhood Institute (ECI) at SJSU promotes equitable, high-quality, inclusive early learning experiences by 1) expanding and enhancing the training of early childhood professionals; 2) collaborating with campus and community partners to advance applied research; and 3) engaging in advocacy efforts that benefit educators, young children, and families.

- Global Leadership Advancement Center Housed in SJSU's Lucas College and Graduate School of Business, its mission is advancing, fostering, and disseminating cutting-edge knowledge on global leadership and its development via diverse programs for scholars, students, and the community. GLAC has two innovative student programs unique to San Jose State: the GLLab, which is an assessment center for global competencies, and the Global Leadership Passport Program, a co-curricular program in which students earn stamps for activities that prepare them for global work. GLAC's Social Innovation Initiative leverages the symbiotic relationship among San José State University, social entrepreneurs, the City of San José, foundations, and other innovation organizations to encourage and train people to apply technology and innovation for the good of the local community.

- Human Rights Institute A research and policy institute in the heart of Silicon Valley. To ensure its lasting success and for those looking to invest in effective policy solutions and distinguish SJSU as a new center for human rights scholarship-anonymously or to leave a deliberate legacy-there are plenty of opportunities to give.

- Institute for Emancipatory Education facilitates community-engaged research and advances emancipatory pedagogies that support the redesign of learning from preschool through post-secondary.

- Institute for Metropolitan Studies Facilitates the exchange of knowledge and expertise regarding urban problems and critical matters related to metropolitan development.

- Institute for Modern Optics Facilitates communication, collaboration, and coordination in the area of lasers and optics and promotes research projects in non-linear effects at surfaces, laser beam characteristics, two-wave laser mixing, holography, light emission from thin film tunnels, and laser spectroscopy; contact the Physics Department for more information.

- Institute for Nursing Research and Practice Promotes the climate of inquiry within the School of Nursing by coordinating and promoting research projects and interests of nursing faculty in order to develop innovative models for nursing research, practice, and education.

- Institute for People and Performance The Institute for People and Performance (IPP), housed in San Jose State University's Lucas College and Graduate School of Business aspires to be a center of excellence aimed at advancing knowledge of human capital management, through a combination of training, research, and engagement with industry and professional organizations.

- Institute for the Study of Sport, Society and Social Change Encourages, creates and facilitates interdisciplinary collaboration to illuminate the substance, dynamics, and significance of the institution of sport as a social sphere within which issues of power and ideology are created, reaffirmed and challenged.
is dedicated to research, analysis and education focused on the intersection of sport and social justice with activities guided by the theoretical, methodological and applied research perspectives and traditions of the sociology of sport.

- Ira F. Brilliant Center for Beethoven Studies The only research facility and document repository in North America dedicated solely to the study of the life of and performance of the works of Ludwig van Beethoven.
- Martha Heasley Cox Center for Steinbeck Studies Houses one of the most extensive collections of the Nobel Prize-winning author's manuscripts, letters, photographs, and artifacts, fostering research concerning the life and work of the author.
- Materials Characterization and Metrology Center Provides materials imaging and chemical analysis capabilities for applications in various fields of science and engineering. Instruments are located in various buildings across campus.
- Mineta Transportation Institute Focuses on international surface transportation policy issues as related to three primary responsibilities: research, education, and technology transfer. MTI receives policy oversight from an internationally respected board of trustees who represent all of the major transportation modes.
- Research Institute for Foster Youth Initiatives Explores ways to eliminate barriers that current and former foster youth face in obtaining a suitable education. Research initiated through this institute will examine how to identify those factors that limit education for this special population and identify strategies to mitigate those limitations. Contact the College of Health and Human Sciences for more information.
- Silicon Valley Big Data and Cybersecurity Center Directs the development of cybersecurity and big data research projects through multidisciplinary cooperation. Serves as a clearinghouse and promotes cooperation between industry, government, and SJSU in research & development, policy analysis & development, and workforce training.
- Silicon Valley Center for Entrepreneurship Promotes effective entrepreneurship through knowledge creation, knowledge dissemination, collaborative partnerships and outreach activities.
- Silicon Valley Center for Operations and Technology Management A knowledge portal for sharing academic and industrial information related to operations, supply chain, and technology management among students, faculty members, and industry partners. It is also the point of training for supplying and supporting the professional needs of the industry. The Center serves as a future knowledge hub through research on state-of-the-art topics relevant to the Center's themes.
- Sourisseau Academy for State and Local History Promotes a better understanding of California's state and local history, with an emphasis on the history of Santa Clara Valley, through graduate scholarships and collections of historical source materials.

For more detailed information, visit Organized Research and Training Units.

Peer Connections

Peer Connections offers a range of programs to support students in their personal and academic growth including, but not limited to the development of critical thinking skills, independent learning strategies and effective study habits. All services are available free of charge to students enrolled in SJSU courses. Peer Connections' offerings consist of:

- Tutoring in over 150 different courses including writing, math, business, and science classes.
- Mentoring to guide students in their personal adjustment to college, helping students connect with other students and get the resources needed to thrive.
- Organized study groups with Supplemental Instruction Leaders for the most challenging classes.
- Support in certain classes to offer smaller group discussions and interactive collaborative learning.
- Appointments and drop-in services both in-person and online

Peer Connections

Student Services Center, 600
408-924-2587
peerconnections.sjsu.edu
Pre-Professional Study

Several sources of information and assistance are available for students who plan to enter the professions of art administration, dentistry, medicine, law, pharmacy, optometry, veterinary medicine, physical therapy, social work and theology. General information, including names and locations of faculty members who have been designated as "pre-professional" advisors, may be obtained from the appropriate academic department office. Interested students should also contact the university of their choice for information regarding the professional prerequisites for that institution. Consultants are available at the Career Center to discuss possible career paths. Application forms for admissions tests to law school, medical school and dental school are available in the Testing Office.

Student associations in pre-law, pre-medicine and pre-dentistry conduct active programs which include information about admission to professional schools, test preparation and seminars/workshops in the profession.

Pre-Law Programs

Students planning to attend law school and pursue careers in law should be aware that no major has a special advantage in preparing them to compete on the Law School Admission Test or for admission into even the most prestigious law schools. The American Bar Association emphasizes this point in its publication Law as a Career: "An undergraduate should be aware that there is no particular course of study that is required or preferred by law schools. Accordingly, students from a wide variety of majors (e.g., philosophy, physics, political science, engineering, and business) are admitted to law schools each year. There is no true pre-law curriculum. Generally, a broad-based education that is rigorous and that stresses analytical and verbal communication skills will be useful." Students with undergraduate degrees in the humanities and the arts as well as the social, health, and natural sciences are consistently successful in achieving competitive scores on the LSAT and in obtaining admission to law schools of distinction.

However, students should keep in mind that successful pursuit of a career in law depends on skills acquired only through particular kinds of courses. The Law School Admission Council's Official Guide to U.S. Law Schools explains: "While no single curricular path is the ideal preparation for law school, you should choose courses that sharpen analytical reasoning and writing skills. Law schools prefer students who can think, read, and write well, and who have some understanding of what shapes human experience."

Students considering careers in law should consult regularly with a pre-law faculty advisor. The number and kind of courses that prepare students for law can be offered by a variety of departments. It is therefore important that students consult with a faculty member familiar with the curricular choices that best align student aspirations with law school expectations. A faculty advisor can also provide valuable information concerning law school and law careers that will not be acquired through any set of courses. The following departments offer pre-law advising: Justice Studies, Philosophy, Political Science. A further resource for students considering a career in law is the Law School Advisor provided by Student Services.

Pre-Medical Programs

Medical schools do not require any specific major. While many applicants major in biology or biochemistry, the admission rate is quite good for non-science majors, in particular for psychology, because these graduates will have shown strength in two academic areas. At a minimum, during their college years, applicants must complete two years of major chemistry with lab, physics with lab, math through calculus, one year of English composition, and one year, preferably two, of biology with lab. Students interested in any medical field should get as much hands-on experience as possible volunteering or working in medical settings so that they fully understand how physicians and other health professionals spend their time. There are pre-medical advisors in Biological Sciences, Chemistry, and Psychology; consult them early and often.
Office of the Registrar

The Office of the Registrar is responsible for registration, grades, verification of enrollment and degree, official transcripts, residency determinations, reinstatement, undergraduate graduation (which includes diplomas), visitor/concurrent enrollment, Step-to-College, cross-enrollment, document imaging, and FERPA Compliance. Contact Information:

Email: General Inquiries: registrar@sjsu.edu | DocuSign Forms Submission: records-regist@sjsu.edu

Research and Innovation, Division

Students have opportunities in many majors to work with faculty on research, scholarship and creativity activity projects. Those who do can present their work in the spring semester in the SJSU Student Research Competition. Finalists of the SJSU competition are eligible for the CSU Student Research Competition.

Division of Research and Innovation

Service Learning

In March 2000, the California State University Board of Trustees passed a landmark resolution in response to a request from the governor for a community service requirement for all students in California's public institutions of higher education. The CSU Board of Trustees' resolution called for the chancellor and each CSU president to "ensure that all students have opportunities to participate in community service, service learning (deemed academically appropriate by faculty), or both."

To learn more about general education service learning classes, courses in your major, or other service-based leadership opportunities for students, contact the Center for Community Learning and Leadership.

Center for Community Learning and Leadership

Student Government

Associated Students, SJSU, was founded in 1897 to provide representation and services to students at San José Teachers College. Since then, the organization has evolved from a student club to a fully operational student government entity. Also, as an auxiliary to the University, we provide services that allow students to enhance their college experience.

Originally, voluntary fees were first collected in 1910 to provide services and activities. By 1957, all students were paying a portion of their registration fees to support their student government organization.

Associated Students was incorporated in 1980 and the Student Council also became the Corporation's Board of Directors.

Review our website for more information and policies related to services provided.

Student Wellness Center

The Student Wellness Center (SWC) is the central location for students to resolve acute health concerns and build strategies to maintain overall wellness. The SWC contains Counseling and Psychological Services, the Student Health Center, Wellness and Health Promotion, a pharmacy, a lactation room, and a variety of other wellness services.

Counseling and Psychological Services

Please see details in the previous section on Counseling and Psychological Services.

Student Wellness Center, 3rd Floor, Room 300B
408-924-5910
www.sjsu.edu/counseling

Student Wellness Center

The Student Health Center provides quality, convenient, affordable medical care to registered SJSU students. Primary care is covered by your registration fees. Additional services, such as select laboratory tests, immunizations, procedures, pharmacy, and specialty visits, are provided at a nominal fee. Contact the Student Health Center for fee information.

Student Wellness Center
408-924-6122
www.sjsu.edu/studenthealth

Wellness and Health Promotion

Wellness and Health Promotion, offers workshops, coordinates outreach events, and hosts activities in the Wellness Lounge, where students can access services and learn strategies to support their well-being.

Student Wellness Center 101

Student Organizations
With over 400 student organizations at SJSU, getting involved is the best way to connect with campus life! For more information on department programs and services, please visit our Recognized Student Organizations website.

**Study Abroad and Away Programs**

Study Abroad and Away contributes to the internationalization of San José State University by providing students the opportunity to study abroad on long-term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. Through these channels, we seek to cultivate a diverse global community through international and domestic academic opportunities and partnerships.

**CSU International Programs**

Developing intercultural communication skills and international understanding among its students is a vital mission of the California State University (CSU). Since its inception in 1963, the CSU International Programs (CSU IP) has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year in all programs and a semester option in some countries and programs.

More than 20,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or study center abroad. CSU IP serves the needs of students in more than 100 designated academic majors. Affiliated with more than 50 recognized universities and institutions of higher education in 18 countries, CSU IP also offers a wide selection of study abroad destinations and learning environments.

Students participating in CSU IP pay CSU tuition and program fees, and are responsible for airfare, accommodations, meals and other personal expenses. Financial aid, with the exception of Federal Work-Study, is available to qualified students and limited scholarship opportunities are also available. All programs require students to maintain good academic and disciplinary standing, many programs are open to sophomores or graduate students. California Community College transfer students are eligible to apply (to select programs) directly from their community colleges. Students must possess a current cumulative grade point average of 2.75 or 3.0, depending on the program, and must fulfill all coursework prerequisites. Additional program information and application instructions can be found on the International Programs Website.

International Student Exchange Programs (ISEP)

SJSU is a member of ISEP, a non-profit organization that offers study abroad options at over 200 universities in 51 countries. Study with ISEP for an academic year, a semester, or a summer! Immerse yourself in classes at local universities and receive SJSU credits for each course. If you are interested in studying abroad in a place that is off the beaten path, ISEP has the program for you!

SJ SUs Faculty-Led Programs (FLP) & Summer School Abroad (SSA)

SJSU Faculty-Led Programs and Summer School Abroad programs are 1-8 week study abroad programs that take place domestically and abroad during the summer or winter sessions. FLPs are led by an SJSU faculty member and SSA programs offer direct placement into a partner university's summer school abroad for a short-term program. Both experiences provide students the opportunity to earn SJSU credit while participating in a global experience.

SJSU Alternative Break Programs

Alternative Break Programs provide San José State University students the opportunity to experience other cultures through community visits, service learning projects, group activities, and discussions. These non-credit bearing programs allow you to explore another region of the U.S. or an international destination with a group of your classmates and an SJSU leader during spring break or summer!

Testing Office

Information on TEAS (Test of Essential Academic Skill), WST (Writing Skills Test); graduate examinations (GRE, LSAT, MCAT, etc.), including registration materials.

Services include but are not limited to make-up tests; proctored examinations; as well as Waiver Exams (American Institutions, U.S. History).
Tower Card

- The Tower ID Card with the student's photo is issued to students who pay the campus fees. Paper IDs are available to students who request them for other programs, i.e., Open University and Special Session.
- To obtain an SJSU Tower Card, students must present a valid driver's license, state ID (issued by the DMV), passport, or other government-issued ID at the Tower Card Window located in the Student Services Center.
- Newly admitted students receive their Tower Cards after registering for classes.
- You are required to use this card as student identification to obtain services at the Event Center, Health Center, Student Services Center (including Admissions, Bursar's, Registrar Services), Career Center, MLK Library, Santa Clara County Valley Transportation Authority (buses and light rail) as well as to obtain parking permits and other frequently used student services.
- Replacement ID cards are $5, Cash only.
- Visit www.sjsu.edu/bursar for more information.

Undergraduate Admission Counseling

- No appointments are needed. Students are seen on a first-come, first-serve basis
- All applicants: use access information sent to you by the Undergraduate Admissions office.
- Apply online at Calstate.edu/apply for undergraduate and graduate admission.
- Receive information on admission requirements and information on majors offered at SJSU.
- Get help with questions about the undergraduate admission process or about your admission status.
- For campus tours, by appointment only, please go to SOAR or call the Welcome Center at 408-924-2786.
- Pick up campus directions and self-guided tour map.

Student Outreach and Recruitment (SOAR)

Veterans Resource Center

Military and Veteran Student Services

The Veterans Resource Center (VRC) is designed as a one-stop resource that plays a primary role in serving the university’s growing community of veterans and military students. The one-stop VRC is dedicated to assisting eligible student Veterans, Reservists, National Guard, Active Duty, and dependents with state/federal education benefits and certification, campus resources, and intentional student programs that aid in the transition from military to education to career.

Student Union Building, room 1500

Writing Center

The San José State University Writing Center offers a variety of resources to help students become better writers, and all our services are free for SJSU students. Our mission is to enhance the writing skills of SJSU students so they can communicate clearly in any setting (informal, academic, or professional). All our writing tutors have gone through a rigorous hiring process, and they are well trained to assist all students at all levels within all disciplines to become better writers. We accomplish this goal through offering the following services:

- tutoring appointments;
- drop-in tutoring sessions;
- online tutoring;
- one-hour workshops on various writing topics;
- numerous online resources, including videos, handouts, and a blog;
- special programming, such as writing retreats and conversation groups.
Contact Information:

Locations:

Clark Hall, Suite 126 (drop-in tutoring)
Second Floor, MLK Library (scheduled tutoring appointments)
Online Tutoring (Scheduled appointment conducted via Zoom)
Disclaimer

Although every effort has been made to assure the accuracy of the information in this academic catalog, students and others who use this academic catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the Chancellor or designee of the California State University, or by the President or designee of the campus. It is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, school, or administrative office.

Nothing in this academic catalog shall be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the Chancellor of the California State University, or the President of the campus. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies that apply to students. This academic catalog does not constitute a contract or the terms and conditions of a contract between the student and the institution or the California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President and their duly authorized designees.

The annual update of SJSU policies is recommended as an up-to-date source of information on course offerings, general education, registration procedures, schedule of fees and other pertinent information on policies and procedures.

Information in this academic catalog is subject to change.

Institutional Learning

Mission

In collaboration with nearby industries and communities, SJSU faculty and staff are dedicated to achieving the university's mission as a responsive institution of the state of California: To enrich the lives of its students, to transmit knowledge to its students along with the necessary skills for applying it in the service of our society, and to expand the base of knowledge through research and scholarship.

Relationship of Course Learning Outcomes through the University Mission: Adapted from National Institute for Learning Outcomes Assessment.

University Learning Goals (ULGs)

Developed in 2013 and revised in 2017, University Learning Goals (ULG) define the skills and knowledge of San José State University graduates at both the graduate and undergraduate level. These goals help students understand the purpose of their time at SJSU and guide academic planning and curriculum development.

The SJSU experience is designed to ensure that students have the power to be lifelong learners and have successful futures. At the baccalaureate level this preparation begins as students complete their general education requirements, and continues through SJSU Studies and their majors. For graduate students, these goals are integrated throughout their coursework and research.

University Goals Power Lifelong Learning

The student learning experience at SJSU is centered on helping students achieve five important goals. These goals represent the skills and knowledge that power lifelong learning and career success. San José State University graduates will have developed:

1. Social and Global Responsibilities. An ability to consider the purpose and function of one's degree program training within various local and/or global social contexts and to act intentionally, conscientiously, and ethically with attention to diversity and inclusion.

2. Specialized Knowledge. Depth of knowledge required for a degree, as appropriate to the discipline.

3. Intellectual Skills
   a. Fluency with specific theories, assumptions, foundational knowledge, analytical and interpretive protocols, tools, and technologies appropriate to the discipline or field of study.
   b. Skills necessary for mastery of a discipline at a level appropriate to the degree and leading to lifelong learning, including critical and creative thinking and practice, effective communication, thorough and ethical information gathering and processing, competence with quantitative and/or qualitative methodologies, and productive engagement in collaborative activities.
   c. For undergraduate students in a baccalaureate program: an understanding of critical components of broad academic areas, including the arts, humanities, social sciences, quantitative reasoning, and sciences.

4. Integrative Knowledge and Skills

General Education Learning Goals

Students who complete the General Education curriculum should be able to demonstrate:

Goal 1: To develop students' core competencies for academic, personal, creative, and professional pursuits. Goal 1 has five learning outcomes (PLOs 1-5):

- **PLO 1. [Oral Communication]**
  Create and deliver logically-organized, well-supported, and compelling messages both in presentation and in conversation for specific audiences and diverse settings.

- **PLO 2. [Written Communication]**
  Develop and practice a writing process that accounts for the goals, dynamics, and genres of written communication, with special attention to the conventions of writing at the university.

- **PLO 3. [Critical Thinking]**
  Identify and analyze a subject/topic/issue/problem of significance by evaluating the merits of different positions or perspectives; support the analysis with relevant evidence and information while stating assumptions; and draw evidence-based conclusions.

- **PLO 4. [Quantitative Reasoning]**
  Analyze, interpret, and represent quantitative information in various forms to examine a question; explain the processes behind data collection and generation; and communicate evidence in support of an argument or purpose while stating assumptions, limitations, and biases, and drawing appropriate conclusions.

- **PLO 5. [Information Literacy]:** Identify information needs, locate and access relevant and credible information while accounting for bias, and use information legally and ethically.

Goal 2: To enact the university's commitment to diversity, inclusion, and justice by ensuring that students have the knowledge and skills to serve and contribute to the well-being of local and global communities and the environment. Goal 2 has two learning outcomes (PLOs 6 and 7):

- **PLO 6. [Diversity, Inclusion, and Justice]**
  Examine diverse cultures, communities, and environments; explore different perspectives; analyze connections to issues of justice/injustice; and prepare to live and work responsibly and cooperatively in multicultural societies.

- **PLO 7. [Civic and Global Engagement]**
  Engage with global perspectives and knowledge; develop civic skills, interests, and values; and apply knowledge, skills and values to multicultural, community, and environmental interests.

Goal 3: To offer students integrated, multidisciplinary, and innovative study in which they pose challenging questions, address complex issues, and develop cooperative and creative responses. Goal 3 has two learning outcomes (PLOs 8 and 9):
PLO 8. [Integration and Application]
Integrate and apply knowledge and methods from more than one discipline or area of study to explore a complex question, address an issue, or produce a creative work.

PLO 9. [Reflection and Self-Assessment]
Evaluate and reflect on one’s own learning while building on prior knowledge and life experiences.

Developing Educated Persons

Each of the General Education areas develop students to become educated persons.

Basic Skills

Basic Skills of an Educated Person (A1-3, B4) develop students' communication and analytical skills. An educated person can communicate ideas effectively verbally and in writing. An educated person must also have strong reasoning powers in order to analyze all types of information. Per CSU policy, each Basis Skills course must be passed with a grade of C- or better to fulfill graduation requirements.

Basic Knowledge

Basic Knowledge of an Educated Person (B1-3, C1-2, D, E, F) develop students' understanding and appreciation of the fundamentals of science, arts and letters, and the forces that shape the individual and modern society throughout the lifespan. This fundamental knowledge is crucial to understanding more advanced topics, including a major field of study.

Integrative Knowledge

Integrative Knowledge of an Educated Person (R, S, V, Z) help students integrate knowledge between and among disciplines. An educated person is able to apply concepts and methods learned in one area to other areas as part of a lifelong learning process. SJSU Studies courses develop abilities that enable students to live and work intelligently, responsibly, and cooperatively in a multicultural society and to develop abilities to address complex issues and problems using disciplined analytical skills and creative techniques.

Course Learning Outcomes (CLOs)

Course Learning Outcomes are identified on each course syllabus (per University Policy S16-9).
Basic Skills of an Educated Person (A1-3, B4)

By completing these GE requirements, students gain the power to understand and use numerical and graphical information, think critically and come to conclusions through rational processes, and express those thoughts with a confident voice and effective use of the written word.

Learning Outcomes

Oral Communication (A1)

Courses cultivate an understanding of the social, psychological, political and practical significance of communication, with special emphasis on the roles of public communication in a free society. Students will give oral presentations and be encouraged to develop their sense of voice, which means speaking with confidence in public forums in ways that reflect their unique perspective and identity. Students will learn and appreciate a range of public speaking styles and forms of eloquence, while respecting the freedom of expression of all members of the community.

Students shall be able to:

1. Identify and assess socially significant and intellectual topics, then compose and deliver extemporaneous oral presentations on these topics;
2. Engage in critical and analytical listening;
3. Analyze audiences, adapt oral presentations to audiences and use that information to accomplish the purpose of the speech; and
4. Assume the ethical responsibilities of the public speaker, including basic understanding of the economic, legal, and social issues surrounding the access and use of information.

Written Communication (A2)

Courses should cultivate an understanding of the writing process and the goals, dynamics, and genres of written communication, with special attention to the nature of writing at the university. Students will develop college-level reading abilities, rhetorical sophistication, and writing styles that give form and coherence to complex ideas and feelings.

Students shall write complete essays that demonstrate the ability to:

1. Demonstrate the ability to read actively and rhetorically
2. Demonstrate the ability to perform the essential steps in the writing process (prewriting, organizing, composing, revising, and editing) and demonstrate an awareness of said performance
3. Articulate an awareness of and write according to the rhetorical features of texts, such as purpose, audience, context, and rhetorical appeals
4. Demonstrate the ability to integrate their ideas and those of others by explaining, analyzing, developing, and criticizing ideas effectively in several genres
5. Demonstrate college-level language use, clarity, and grammatical proficiency in writing

Critical Thinking (A3)

In Critical Thinking courses, students will understand logic and its relationship to language: courses include a series of integrated reading, writing, oral, and research assignments that engage students in complex issues requiring critical thinking and effective argumentation. Students will develop language that distinguishes fact and judgment; articulates elementary inductive and deductive processes; parses fact, assumption and conclusion; integrates rebuttal
and qualification as appropriate. Students will develop the ability to analyze, criticize, and advocate complex ideas, reason inductively and deductively, research and rebut information and arguments, and reach well—supported factual conclusions and judgments.

Students should be able to:

1. Locate and evaluate sources, through library research, and integrate research through appropriate citation and quotation.
2. Present effective arguments that use a full range of legitimate rhetorical and logical strategies to articulate and explain their positions on complex issues in dialogue with other points of view.
3. Effectively locate, interpret, evaluate, and synthesize evidence in a comprehensive way in support of one’s ideas.
4. Identify and critically evaluate the assumptions in and the context of an argument.
5. Effectively distinguish and convey inductive and deductive patterns as appropriate, sequencing arguments and evidence logically to draw valid conclusions and articulate related outcomes (implications and consequences).

**Mathematical Concepts (B4)**

The major goal is to enable the student to use numerical and graphical data in personal and professional judgments and in coping with public issues.

The mathematical concepts course should prepare the student to:

1. Use mathematical methods to solve quantitative problems, including those presented in verbal form;
2. Use mathematics to solve real-life problems; and
3. Arrive at conclusions based on numerical and graphical data.
Basic Knowledge of an Educated Person (B1-3, C1-2, D, E, F)

Students complete these courses to gain a foundation of knowledge to power their exploration and integration of many fields of study. At the end, students will have self-knowledge and awareness, and master the fundamentals of science, arts and letters, and the forces that shape the individual and modern society through which they will travel their lives.

Learning Outcomes

Physical and Life Science (B1-B3)

Science courses develop students’ understanding of the scientific method as a continuous and adaptive process of discovery and communication about the physical universe and its life forms. These courses equip students with the quantitative and qualitative skills necessary for understanding scientific theories, concepts, and data about both living and non-living systems.

Students will be able to:
1. use methods derived from current scientific inquiry in life or physical science to question existing explanations;
2. demonstrate ways in which science influences and is influenced by complex social factors, including political and moral issues; and
3. recognize methods of science in which quantitative, analytical reasoning techniques are used.

Arts and Letters (C)

Courses in Arts and Letters develop students’ knowledge and understanding of significant works of the human intellect and imagination. Students examine the interaction of analytical and creative processes in the production and perception of such works, along with the significance of the historical and cultural contexts in which the works are created and interpreted. Courses enable students to participate in social and cultural communities associated with artistic and literary endeavors, thus enriching their personal and professional lives.

Arts (C1)

The Arts and Letters disciplines provide knowledge and understanding of significant works of the human intellect and imagination. All students will examine the interaction of analytical and creative processes in the production and perception of such works, and the significance of the historical and cultural contexts in which the works are created and interpreted. Courses should enable students to participate in social and cultural communities associated with artistic and literary endeavors, enriching their personal and professional lives.

Students will be able to:
1. recognize aesthetic qualities and processes that characterize works of the human intellect and imagination;
2. make connections between the arts and cultural and social issues; and
3. respond to works of art both analytically (in writing) and affectively (in writing or through other forms of personal and artistic expression).

Letters (C2)

Students will be able to:
1. analyze and appreciate works of philosophical and cultural importance;
2. explore and articulate their own subjective aesthetic and intellectual experiences; and
3. write effective personal responses to and research-based critical analyses of works of the human intellect and imagination.

**Social Sciences (D)**

Students learn from Area D courses that human behavior is inextricably interwoven with social, political, and economic institutions. By exploring the principles, methodologies, values systems, and ethics employed in social scientific inquiry, students come to appreciate processes of social change and social continuity, the role of human agency in those social processes, and the forces that engender social cohesion and fragmentation.

Students shall be able to:

1. demonstrate understanding of the ways in which social institutions, culture, and environment shape and are shaped by the behavior of individuals, both past and present;
2. compare and contrast the dynamics of two or more social groups or social systems in a variety of historical and/or cultural contexts;
3. place contemporary social developments in cultural, environmental, geographical, or historical contexts; and,
4. draw on social/behavioral science information from various perspectives to formulate applications appropriate to contemporary social issues.

**Human Understanding and Development (E)**

Students will understand themselves as integrated physiological, social, and psychological beings capable of formulating strategies for lifelong personal development. Courses shall address challenges confronting students who are entering the complex social system of the university, so that students can access university resources to support academic and personal development. It is strongly recommended that students complete this course during their first two semesters of university study.

Students shall:

1. understand physiological, social/cultural, and psychological influences on their well-being and reflect upon the interrelationships among these factors;
2. know how to access social and academic resources that enhance learning and facilitate positive interpersonal relationships with diverse groups and individuals; and
3. recognize themselves as individuals undergoing a stage of development in the human lifespan.

**Ethnic Studies (F)**

Approved courses shall meet at least three of the five following student learning outcomes: Students shall be able to:

1. Analyze and articulate concepts such as race and racism, racialization, ethnicity, equity, ethno-centrism, eurocentrism, white supremacy, self-determination, liberation, decolonization, sovereignty, imperialism, settler colonialism, and anti-racism;
2. Apply ethnic studies theory and knowledge to describe and actively engage with anti-racist and anti-colonial issues and the practices and movements that have and continue to facilitate the building of a more just and equitable society;
3. Critically analyze the intersection of race and racism as they relate to class, gender, sexuality, religion, spirituality, national origin, immigration status, ability, tribal citizenship, sovereignty, language, and/or age;
4. Critically review how struggle, resistance, racial and social justice, solidarity, and liberation are relevant to current and structural issues such as communal, national, international, and transnational politics as, for example, in immigration, reparations, settler-colonialism, multiculturalism, language policies; and,

5. Describe and actively engage with anti-racist and anti-colonial issues and the practices and movements that have contributed to the building of a more just and equitable society.
Integrative Knowledge of an Educated Person (R, S, V, Z)

When students have completed these courses they will have the power to live and work intelligently, responsibly, and cooperatively in a complex and ever-changing multicultural society. They will be able to use disciplined analytic skills and creative techniques to problem-solve and innovate. They will have the power to make wise decisions, to navigate the multicultural societies within and outside of the US, and to communicate these understandings through effective writing.

Learning Goals

Science (R): Earth and Environment

Students will cultivate knowledge of the scientific study of the physical universe or its life forms. Students will understand and appreciate the interrelationship of science and human beings to each other.

Within the particular scientific content of the course, a student should be able to:

1. demonstrate an understanding of the methods and limits of scientific investigation;
2. distinguish science from pseudo-science; and
3. apply a scientific approach to answer questions about the earth and environment.

Social Sciences (S): Self, Society and Equality in the United States

Students will study the interrelationship of individuals, racial groups, and cultural groups to understand and appreciate issues of diversity, equality, and structured inequality in the U.S., its institutions, and its cultures.

After successfully completing the course, students shall be able to:

1. describe how identities (i.e. religious, gender, ethnic, racial, class, sexual orientation, disability, and/or age) are shaped by cultural and societal influences within contexts of equality and inequality;
2. describe historical, social, political, and economic processes producing diversity, equality, and structured inequalities in the U.S.;
3. describe social actions which have led to greater equality and social justice in the U.S. (i.e. religious, gender, ethnic, racial, class, sexual orientation, disability, and/or age); and
4. recognize and appreciate constructive interactions between people from different cultural, racial, and ethnic groups within the U.S.

Humanities (V): Culture, Civilization, and Global Understanding

Courses in Culture, Civilization, and Global Understanding should give students an appreciation for human expression in cultures outside the U.S. and an understanding of how that expression has developed over time. These courses should also increase students' understanding of how traditions of cultures outside the U.S. have influenced American culture and society, as well as how cultures in general both develop distinctive features and interact with other cultures.

After successfully completing the course, students shall be able to:

1. compare systematically the ideas, values, images, cultural artifacts, economic structures, technological developments, and/or attitudes of people from more than one culture outside the U.S.;
2. identify the historical context of ideas and cultural traditions outside the U.S. and how they have influenced American culture; and
3. explain how a culture outside the U.S. has changed in response to internal and external pressures.

**Written Communication (Z)**

Students shall be able to:

1. Produce discipline-specific written work that demonstrates upper-division proficiency in:
   - language use
   - grammar
   - clarity of expression

2. Explain, analyze, develop, and criticize ideas effectively, including ideas encountered in multiple readings and expressed in different forms of discourse

3. Organize and develop essays and documents for both professional and general audiences

4. Organize and develop essays and documents according to appropriate editorial and citation standards

5. Locate, organize, and synthesize information effectively to accomplish a specific purpose, and to communicate that purpose in writing
Undergraduate Program Learning Outcomes

Graduates will be able to satisfy the following program learning outcomes.

A

Advertising, BS

PLO 1 Demonstrate knowledge of the diversity of groups in a global society in relationship to communications.
PLO 2 Demonstrate the ability to think critically, creatively and independently.
PLO 3 Write correctly and clearly in forms and styles appropriate for the communications professions, audiences, and purposes they serve.
PLO 4 Demonstrate the ability to use tools and technologies appropriate for the communications professions in which they work.

Aerospace Engineering, BS

PLO 1 Problem Solving - Identify, formulate, and solve complex aerospace engineering problems through application of mathematics, science, and engineering principles.
PLO 2 Design to Meet Requirements and Constraints - Design aerospace vehicles that meet specified requirements and subject to public health, safety and welfare, global, cultural, social, environmental, and economic constraints.
PLO 3 Communicate Effectively - Communicate effectively with a range of audiences.
PLO 4 Ethical and Professional Responsibilities - Recognize ethical and professional responsibilities in engineering situations and make informed judgments, considering the impact of engineering solutions in global, economic, environmental, and societal contexts.
PLO 5 Teamwork - Function effectively on a team, whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
PLO 6 Experiments and Data Analysis - Design and conduct appropriate experiments, analyze and interpret data, and use engineering judgment to draw conclusions.
PLO 7 Knowledge Acquisition - Acquire knowledge as needed, using appropriate learning strategies.

African American Studies, BA

PLO 1 Describe global linkages between African Americans and other people of African descent throughout the world, articulate the impact of slavery of African peoples in U.S. society and explain how American society and its institutions have historically shaped Black Americans/African Americans.
PLO 2 Describe and explain African-centered theories, concepts, and research.
PLO 3 Critique historical and contemporary research literature, formulate research, interpret historical records, documents, and audiovisual materials, collect and analyze data, and draw conclusions that follow logically from the analysis.
PLO 4 Demonstrate strong oral and written communication skills.
PLO 5 Apply knowledge on behalf of the university, local, state, regional, national, and/or global community.

Anthropology, BA

PLO 1 Understanding culture as the distinguishing phenomenon of human life, and the relationship of human biology and evolution.
PLO 2 Awareness of human diversity and the ways humans have categorized diversity.
PLO 3 Knowledge of the significant findings of archaeology, cultural anthropology, and physical anthropology, and familiarity of the important issues in each sub-discipline.
PLO 4 Knowledge of the history of anthropological thought and its place in modern intellectual history.
PLO 5 Comprehension of migration, colonialism, and economic integration as significant phenomenon shaping global society.
PLO 6 Ability to access various forms of anthropological data and literature.
PLO 7 Awareness of importance and value of anthropological knowledge in contemporary society, and the ability to apply it to social issues.
PLO 8 Knowledge of the research methods of the sub-disciplines of anthropology, and the ability to apply appropriate research methods in at least one sub-discipline.
PLO 9 Ability to present and communicate anthropological knowledge and the results of anthropological research to different audiences.
PLO 10 Knowledge of political and ethical implications of social research.

Applied Mathematics, BS (Concentrations in Applied and Computational Mathematics and Statistics)

PLO 1 Use mathematical models to solve real-world problem.
PLO 2 Read mathematics with understanding and communicate mathematical ideas with clarity and coherence.
PLO 3 Perform standard mathematical computations with accuracy.
PLO 4 Use technology to solve mathematical problems.

Art History and Visual Culture, BA

PLO 1 Recognize and identify significant artworks and of the canon of historical periods customary in Western and Non-Western traditions.
PLO 2 Translate visual perception into verbal analysis, using a variety of strategies to clearly communicate with an intended audience.
PLO 3 Describe, analyze and explain artworks from differing historical and cultural contexts, using terms and concepts appropriate to specific historical and contemporary cultures.
PLO 4 Investigate and communicate art historical information through research, documentation, and clearly written arguments that integrate appropriate theoretical perspectives.
PLO 5 Discuss the theoretical, historiographic, and professional foundations of the discipline of Art History and apply this understanding to explaining and solving research problems.

Animation & Illustration, BFA

PLO 1 Create drawn images that demonstrate an understanding of the principles of color, design, optics, and perspective and the application of basic skills in life drawing and the physics of motion.
PLO 2 Demonstrated ability in life drawing, applied knowledge of both digital and traditional painting, and intermediate studies in the physics of motion. Create sequential narratives that apply storytelling principles, and demonstrate the ability to work cooperatively.
PLO 3 Create and develop original narrative, sequential projects-short films and tests incorporating visual development, modeling, storyboarding and animation.
PLO 4 Apply professional standards and practices including proficiency in visual development, modeling, animation, or storyboarding.
PLO 5 Demonstrate an understanding of art, film and animation history, theory, and criticism from a variety of perspectives, including those of art historians, animators and filmmakers, by creating, drawing, and applying knowledge to classroom tasks.

Art, BFA (Concentrations in Digital Media Art, Photography, Pictorial Art, and Spatial Art)

PLO 1 Analyze and research visual and conceptual problems and both apply and explain their use of basic design principles, concepts, tools, techniques, media, materials, formats, and visual languages to solve those problems. We expect our students to bring their expertise in finding visual-verbal solutions to problems as they embark on a lifetime of self- and professional employment in a variety of careers. As students they will demonstrate their development and application of art knowledge in a wide range of studio courses, culminating in a capstone course.
PLO 2 Demonstrate increasing skills in the use of diverse materials, tools, and media, and be able to explain and evaluate success/failure in individual and group critiques. We expect our graduates to be lifelong problem-identifiers and problem solvers, always on the lookout for new and better skills. Prior to graduation, they will demonstrate their making/evaluating skills in studio courses and their skills of self-assessment and explanation in a sequence of
interdisciplinary professional courses and in a capstone course.

**PLO 3** Demonstrate their commitment to valuing art's role in offering cultural critique and addressing issues of social responsibility in a global society. As creative professionals, our graduates will, we hope, assume leadership roles in engaging with social and cultural change—as teachers, as critics, as spokespersons for important issues that cannot yet be imagined. As undergraduates, our students will demonstrate their understanding of the values of contemporary art in their visual and written responses to class assignments in studio courses and in the interdisciplinary core and capstone courses (where these qualities will be assessed), in their work on collaborative group projects, in the successful articulation of their ideas in exhibitions and artist statements.

**PLO 4** Apply their knowledge of visual history and theory to their creative endeavors and to their professional practice. They will be able to speak and write clearly about art and global culture, using appropriate terminology and demonstrating their understanding of the contemporary art world. They will demonstrate their ability to place their own work within the broader context of historical and contemporary art and ideas. Our graduates will commit to continued personal engagement with intellectual issues in contemporary art and culture. As students, they will demonstrate their understanding of visual history and theory in assignments completed for their art history courses and their understanding of the intellectual context and historical precedents of their own work in assignments completed for their professional core and capstone courses.

**PLO 5** Demonstrate their readiness for careers as creative professionals by completing a more sequenced and specialized course of study in sculpture, installation and other three-dimensional art forms. Admission to the BFA requires students to demonstrate their ability to work independently as artists. Students will have successfully developed and presented for review by the Department's faculty (a) a unified body of work (10 images), (b) an artist statement (of purpose) and then secured (c) support and commitment of two area faculty members willing to serve on that student's BFA committee. Each BFA candidate then (d) successfully completes the professional BFA seminar and (e) schedules and mounts in one of the Department's student exhibition galleries a solo exhibition (as the work for ART 199) that meets the approval of the student's BFA committee. Our BFA graduates will embark on professional careers as practicing artists and creative professionals and/or apply to MFA programs for further instruction and certification for college/university teaching.

**Art, BA (Concentration in Studio Practice and Studio Practice - Preparation for Teaching)**

**PLO 1** Analyze and research visual and conceptual problems; both apply and explain their use of basic design principles, concepts, tools, techniques, media, materials, formats, and visual languages to solve those problems; demonstrate their development and application of art knowledge in a wide range of studio courses, culminating in a capstone course.

**PLO 2** Demonstrate increasing skills in the use of diverse materials, tools, and media; explain and evaluate success/failure in individual and group critiques; demonstrate their making/evaluating skills in studio courses and their skills of self-assessment and explanation in a sequence of interdisciplinary professional courses and in a capstone course.

**PLO 3** Demonstrate their commitment to valuing art's role in offering cultural critique and addressing issues of social responsibility in a global society; demonstrate their understanding of the values of contemporary art in their visual and written responses to class assignments in studio courses (and in the interdisciplinary core and capstone courses where these qualities will be assessed), in their work on collaborative group projects, and in the successful articulation of their ideas in exhibitions and artist statements.

**PLO 4** Apply knowledge of visual history and theory to creative endeavors and to their professional practice; speak and write clearly about art and global culture, using appropriate terminology and demonstrating their understanding of the contemporary art world; demonstrate their ability to place their own work within the broader context of historical and contemporary art and ideas; demonstrate their understanding of visual history and theory in assignments completed for their art history courses and their understanding of the intellectual context and historical precedents of their own work in assignments completed for their professional core and capstone courses.

**Aviation, BS**

**PLO 1** Apply current knowledge and adapt to emerging applications in aviation.

**PLO 2** Function effectively on teams.

**PLO 3** Communicate effectively.

**PLO 4** Understand the role and processes in team development, dynamics and management.
PLO 5 Understand economic principles including: production theory and costs, cost benefit analysis, economic
growth concepts, and international economic relationships and apply them to management of aviation operations.
PLO 6 Understand career planning, flight certification, and the attributes and behavior of an aviation professional.
PLO 7 Demonstrate an understanding of aircraft design, performance, operating characteristics, and maintenance as it relates to the student's career goals.
PLO 8 Analyze and explain the role and regulations regarding aviation safety and human factors.
PLO 9 Describe the legal and labor issues in national and international aviation operations.
PLO 10 Describe meteorology and environmental issues as they relate to aviation.
PLO 11 Apply business accounting and statistical analysis principles to financial situations in aviation.

Behavioral Science, BA

PLO 1 Provide opportunities for students to synthesize the perspectives of the disciplines of anthropology,
psychology, and sociology.
PLO 2 Provide opportunities to apply the perspectives of the behavioral sciences to a variety of contemporary issues and professional settings.

Biological Sciences, BA

PLO 1 Demonstrate the ability to formulate hypotheses and design experiments to address a scientific question.
PLO 2 Demonstrate an understanding of the relevant content in their discipline.
PLO 3 Demonstrate laboratory or field skills in their discipline.
PLO 4 Demonstrate proficiency in scientific writing skills.
PLO 5 Demonstrate proficiency in oral presentation skills.

Biological Sciences, BS (Concentrations in Microbiology, BS, Molecular Biology, and Systems Physiology)

PLO 1 Demonstrate the ability to formulate hypotheses and design experiments to address a scientific question.
PLO 2 Demonstrate an understanding of the relevant content in their discipline.
PLO 3 Demonstrate laboratory or field skills in their discipline.
PLO 4 Demonstrate proficiency in scientific writing skills.
PLO 5 Demonstrate proficiency in oral presentation skills.

Biomedical Engineering, BS

PLO 1 Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
PLO 2 Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
PLO 3 Communicate effectively with a range of audiences.
PLO 4 Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
PLO 5 Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
PLO 6 Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
PLO 7 Acquire and apply new knowledge as needed, using appropriate learning strategies.

Business Administration, BS

PLO 1 Understand basic business principles and demonstrate discipline-specific competencies as applied to local and global environments.
PLO 2 Communicate ideas clearly, logically, and persuasively in oral and written format, using technology.
appropriately.

**PLO 3** Recognize, analyze, and articulate solutions to ethical issues that arise in business.

**PLO 4** Comprehend the challenges and opportunities of leading and working in diverse teams and environments.

**PLO 5** Comprehend, analyze, and critically evaluate complex and unstructured qualitative and quantitative business problems, using appropriate tools and technology.

**PLO 6** Recognize, analyze, and articulate strategies for promoting creativity and innovation.

---

**Chemica and Chicano Studies, BA**

**PLO 1** **General/Overview of the Major** - Identify and explain the significance of historical, social, political and cultural events in shaping the Chicana and Chicano experience in the U.S.

**PLO 2** **Theory & Research** - Identify and use social theories to analyze historical and contemporary contexts in the U.S. Chicana and Chicano experience including analysis of the intersections of identity with gender, class, race/ethnicity, sexuality, nation, ability and citizenship status.

**PLO 3** **Global Perspective** - Describe and explain the significance of global migration and immigration in Chicana and Chicano histories and within contemporary communities.

**PLO 4** **Skills** - Effectively use oral, written, and creative communication to demonstrate critical thinking, research, and advocacy.

---

**Chemical Engineering, BS**

**PLO 1** Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

**PLO 2** Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

**PLO 3** Communicate effectively with a range of audiences.

**PLO 4** Recognize ethical and professional responsibilities in engineering situations and make informed judgments, considering the impact of engineering solutions in global, economic, environmental, and societal contexts.

**PLO 5** Function effectively on a team, whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

---

**Chemistry, BA**

**PLO 1** Demonstrate understanding of core concepts, methods and limits of scientific investigation to effectively solve problems in inorganic chemistry.

**PLO 2** Demonstrate understanding of core concepts, methods and limits of scientific investigation to effectively solve problems in organic chemistry.

**PLO 3** Demonstrate understanding of core concepts, methods and limits of scientific investigation to effectively solve problems in analytical chemistry.

**PLO 4** Demonstrate understanding of core concepts, methods and limits of scientific investigation to effectively solve problems in physical chemistry.

**PLO 5** Demonstrate understanding of core concepts, methods and limits of scientific investigation to effectively solve problems in biochemistry.

**PLO 6** Answer questions regarding safe practices in the laboratory and chemical safety.

**PLO 7** Demonstrate safe laboratory skills (including proper handling of materials and chemical waste) for particular laboratory experiments.

**PLO 8** Effectively present a scientific paper that applies the scientific approach to address a chemical problem in a poster session, as at an American Chemical Society symposium.

**PLO 9** Effectively present a scientific paper orally applying the scientific approach, as at an American Chemical Society symposium.

**PLO 10** Write a formal scientific laboratory report which applies the scientific approach to address a chemical problem and follows the format and style of an article in a peer-reviewed American Chemical Society journal.
Chemistry, BS (Concentrations in General Chemistry and Biochemistry)

PLO 1 Demonstrate understanding of core concepts, methods and limits of scientific investigation to effectively solve problems in inorganic chemistry.
PLO 2 Demonstrate understanding of core concepts, methods and limits of scientific investigation to effectively solve problems in organic chemistry.
PLO 3 Demonstrate understanding of core concepts, methods and limits of scientific investigation to effectively solve problems in analytical chemistry.
PLO 4 Demonstrate understanding of core concepts, methods and limits of scientific investigation to effectively solve problems in physical chemistry.
PLO 5 Demonstrate understanding of core concepts, methods and limits of scientific investigation to effectively solve problems in biochemistry.
PLO 6 Answer questions regarding safe practices in the laboratory and chemical safety.
PLO 7 Demonstrate safe laboratory skills (including proper handling of materials and chemical waste) for particular laboratory experiments.
PLO 8 Effectively present a scientific paper that applies the scientific approach to address a chemical problem in a poster session, as at an American Chemical Society symposium.
PLO 9 Effectively present a scientific paper orally applying the scientific approach, as at an American Chemical Society symposium.
PLO 10 Write a formal scientific laboratory report which applies the scientific approach to address a chemical problem and follows the format and style of an article in a peer-reviewed American Chemical Society journal.

Child and Adolescent Development, BA (including a Preparation for Teaching Program)

PLO 1 Define and understand basic elements of the four domains of development and draw on multiple perspectives to understand the interrelationships among these domains.
PLO 2 Describe and evaluate different contextual perspectives that affect the growth and socialization experiences of children and adolescents.
PLO 3 Identify and describe recognized ways to apply research, theory and problem-solving skills to address social policy, education, intervention, and practical situations.
PLO 4 Differentiate between sources of information (research, professional, and popular) and evaluate the credibility and validity of each type of information source.
PLO 5 Identify and describe key developmental questions in our field and define methods to investigate these questions.
PLO 6 Demonstrate effective communication and interpersonal skills in fieldwork settings that exemplifies professional behavior designed to best facilitate the development of children and adolescents.
PLO 7 Demonstrate understanding of effective advocacy and describe ethical issues present in our field and how these issues inform advocates’ decision-making.

Chinese, BA

PLO 1 Demonstrate intermediate mid to high (ACTFL) skills in listening, speaking, reading, and writing
PLO 2 Use the language to investigate, explain, and reflect on products, practices, and perspectives of the cultures studied
PLO 3 Analyze and compare critically a wide variety of literary texts to demonstrate knowledge of major genres, authors, critical theory, and literary movements as they relate to cultural and artistic movements
PLO 4 Identify and describe linguistic patterns of the target language
PLO 5 Demonstrate introductory translation skills of a variety of texts
PLO 6 Develop and carry out research projects, including term papers and bibliographic research, in accordance with a major style guideline

Civil Engineering, BS

PLO 1 Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
PLO 2 Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

PLO 4 Communicate effectively with a range of audiences.

PLO 4 Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

PLO 5 Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

PLO 6 Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.

PLO 7 Acquire and apply new knowledge as needed, using appropriate learning strategies.

Communication Studies, BA

PLO 2.1 Inquiry - Demonstrate an understanding of methods of communication research and analysis such as rhetorical, critical, interpretive, performative and social scientific approaches and their ethical implications.

PLO 2.2 Inquiry - Develop and apply analytical skills and ethical practices for understanding, conducting, and evaluating communication research studies. Major Theories Students can explain, apply, and critique a major theory that has shaped a specific area of Communication Studies.

PLO 3.1 Practice - Demonstrate the ability to communicate competently and in a theoretically informed manner in a variety of contexts.

PLO 3.2 Practice - Demonstrate social responsibility, ethical awareness, and community engagement. Rationale Students can explain the rationale underlying practices and approaches in communication research and their ethical implications.

Communicative Disorders and Sciences, BA

PLO 1 Demonstrate effective oral and written communication skills.

PLO 2 Demonstrate effective problem solving and critical thinking skills.

PLO 3 Demonstrate knowledge of research methods and application of evidence-based practice.

PLO 4 Demonstrate knowledge of basic communication and communicative disorders and differences across the lifespan.

PLO 5 Demonstrate knowledge of clinical management of communicative disorders and differences.

PLO 6 Recognize the role of related professions and interprofessional collaborative models in service delivery.

PLO 7 Demonstrate a knowledge of professionalism and ethical standards.

PLO 8 Demonstrate an awareness of and appreciation for their role as future professionals in a diverse society.

Computer Engineering, BS

PLO 1 Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

PLO 2 Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

PLO 3 Communicate effectively with a range of audiences.

PLO 4 Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

PLO 5 Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

PLO 6 Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.

PLO 7 Acquire and apply new knowledge as needed, using appropriate learning strategies.

Computer Science, BS
PLO 1 Apply computing and math knowledge an ability to apply knowledge of computing and mathematics to solve problems.
PLO 2 Analyze a problem an ability to analyze a problem, and identify and define the computing requirements appropriate to its solution.
PLO 3 Design, implement, evaluate system, process, component, or program An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs.
PLO 4 Teamwork An ability to function effectively on teams to accomplish a common goal.
PLO 5 Professional, ethical, legal, security, social issues An understanding of professional, ethical, legal, security and social issues and responsibilities.
PLO 6 Communicate effectively An ability to communicate effectively with a range of audiences.
PLO 7 Analyze local and global impact An ability to analyze the local and global impact of computing on individuals, organizations, and society.
PLO 8 Continuing professional development Recognition of the need for and an ability to engage in continuing professional development.
PLO 9 Current techniques, skills, tools for computing An ability to use current techniques, skills, and tools necessary for computing practice.
PLO 10 Tradeoffs in design choices An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the tradeoffs involved in design choices.
PLO 11 Apply design and development principles An ability to apply design and development principles in the construction of software systems of varying complexity.

Creative Arts, BA

PLO 1 Perform interdisciplinary analysis of various forms of creative arts, attending to connections and commonalities as well as differences, in both written and oral formats.
PLO 2 Identify and articulate various and sometimes contested functions and purposes of the creative arts.
PLO 3 Demonstrate the ability to develop and use practice-based and digital humanities methodologies in research projects.
PLO 4 Identify, select, use and cite information sources appropriately.
PLO 5 Create class projects that demonstrate innovative thinking.
PLO 6 Collaborate effectively with other students in the completion of team projects.

D

Dance, BA

PLO 1 Identify and work conceptually with the elements of dance.
PLO 2 Understand the choreographic processes, aesthetic properties of style, and the ways these shapes and are shaped by artistic and cultural ideas and contexts.
PLO 3 An acquaintance with a wide selection of dance repertory, the principal eras, genres, and cultural sources.
PLO 4 Develop and defend critical evaluations.
PLO 5 Fundamental knowledge of the body and of kinesiology as applicable to work in dance.
PLO 6 Perform consistent with the goals and objectives of the specific liberal arts degree program being followed, and appropriate to the individuals' needs and interests.
PLO 7 An understanding of procedures for realizing a variety of dance styles.
PLO 8 Knowledge and/or skills in one or more areas of dance beyond basic course work and performance appropriate to the individuals' needs and interests, and consistent with the goals and objectives of the specific liberal arts degree program being followed.

Dance, BFA

PLO 1 Highest level of technical skill in at least one area of performance.
PLO 2 Achieve highest possible level of conceptual understanding of the medium and its expressive possibilities.
PLO 3 Technical proficiency standards.
PLO 4 Have a fundamental knowledge of the body and kinesiology
PLO 5 Develop basic knowledge and skills in dance pedagogy.
PLO 6 Develop basic knowledge and skills in choreography and have opportunities to develop their choreographic potential in studies that include traditional and/or experimental approaches.
PLO 7 Demonstrate their competence by developing a body of work for evaluation in the major area of study.
PLO 8 Be able to place dance in historical, cultural, and stylistic contexts.
PLO 9 Develop and understanding of the common elements and vocabulary and the interaction of these elements and to be able to employ this knowledge in analysis of dance.
PLO 10 Form and defend analysis and critiques of dance and to communicate dance ideas, concepts, and requirements to professionals and lay persons related to practice of the major filed.
PLO 11 Learn to analyze dance perceptively and to evaluate.
PLO 12 Form and defend individual critiques.

Design Studies, BA

PLO 1 Utilize knowledge gained in classroom to develop discipline-based skills in materials and techniques.
PLO 2 Demonstrate professional depth of knowledge within their field of study.
PLO 3 Engage in global views and weigh design decisions within the parameters of ecological, socio-economic, and cultural contexts.
PLO 4 Demonstrate all aspects of the design process to identify complex problems and generate solutions that optimize human experiences.
PLO 5 Engage in multi-disciplinary collaborative work team structures.
PLO 6 Demonstrate discipline-based design ideas verbally, visually and digitally.

E

Earth System Science, BS

PLO 1 Develop the skill to read and accurately interpret topographic and geologic maps.
PLO 2 Effectively communicate scientific ideas and results in writing.
PLO 3 Use the fundamentals of chemistry, physics, and math to solve geologic problems.
PLO 4 Classify and identify geological materials such as minerals, rocks, and fossils, and understand their relationships to each other and interacting earth systems.
PLO 5 Visualize and comprehend geologic structures and processes.
PLO 6 Understand how geologists measure deep time and reconstruct earth history.

Biological Sciences - Ecology and Evolution, BS

PLO 1 Hypotheses and Experiments Students will demonstrate the ability to formulate hypotheses and design experiments to address a scientific question.
PLO 2 Biology Content Students will demonstrate an understanding of the relevant content in their concentration.
PLO 3 Laboratory or Field Skills Students will demonstrate laboratory or field skills relevant to their concentration.
PLO 4 Scientific Writing Skills Students will demonstrate proficiency in scientific writing skills by effectively writing an advanced scientific paper.
PLO 5 Oral Presentations Students will demonstrate proficiency in oral presentation skills by effectively presenting scientific research.

Economics, BA

PLO 1 Define, describe and illustrate microeconomic concepts, using verbal, written, graphical and mathematical expression, in three microeconomic “hallmark” areas: Incentives (the law of demand, law of supply, rational decision making on the margin), Opportunity Costs (sunk costs, production possibilities, gains from interpersonal & international trade, comparative advantage) and Supply and Demand (movement versus shift, welfare analysis,
understanding the S&D model as a representation of individual choices in exchange,) and also be able to examine, assess and criticize policies, projects and other current events, using core microeconomic theory, through the Intermediate level.

**PLO 2** Define, describe and illustrate macroeconomic concepts, using verbal, written, graphical and mathematical expression, in three macroeconomic "hallmark" areas: Comparative Advantage (specialization and the gains from trade; globalization), Macroeconomic Measures (real versus nominal calculations; components and concept of GDP; components and concept of unemployment figures; calculation of inflation), Macroeconomic Models (circular flow; monetary and fiscal policy; the market for loanable funds & interest rate determination; the demand and supply of money & price level determination) and also be able to examine, assess and criticize policies, projects and other current events, using core macroeconomic theory, through the Intermediate level.

**PLO 3** Describe the contours of, and differences and similarities between, qualitative and quantitative economic research methodologies, including the case study, historical narrative, applied econometric, and policy analysis methods, and to produce an original economic study using an economics methodology.

**PLO 4** Define, describe and illustrate intermediate theoretical concepts, using verbal, written, graphical and mathematical expression, important to one or more of these areas, to discuss one or more research methods common to a specialist area, and to produce an original economic study using an economics methodology from the specialist area.

**PLO 5** Describe and explain conclusions, recommendations, and implications from theory and methods of micro and macro theory, and specialist areas of economics, using written, spoken and other forms of communication.

Economics, BS

**PLO 1** Define, describe and illustrate microeconomic concepts, using verbal, written, graphical and mathematical expression, in three microeconomic "hallmark" areas: Incentives (the law of demand, law of supply, rational decision making on the margin), Opportunity Costs (sunk costs, production possibilities, gains from interpersonal & international trade, comparative advantage) and Supply and Demand (movement versus shift, welfare analysis, understanding the S&D model as a representation of individual choices in exchange,) and also be able to examine, assess and criticize policies, projects and other current events, using core microeconomic theory, through the Intermediate level.

**PLO 2** Define, describe and illustrate macroeconomic concepts, using verbal, written, graphical and mathematical expression, in three macroeconomic "hallmark" areas: Comparative Advantage (specialization and the gains from trade; globalization), Macroeconomic Measures (real versus nominal calculations; components and concept of GDP; components and concept of unemployment figures; calculation of inflation), Macroeconomic Models (circular flow; monetary and fiscal policy; the market for loanable funds & interest rate determination; the demand and supply of money & price level determination) and also be able to examine, assess and criticize policies, projects and other current events, using core macroeconomic theory, through the Intermediate level.

**PLO 3** Describe the contours of, and differences and similarities between, qualitative and quantitative economic research methodologies, including the case study, historical narrative, applied econometric, and policy analysis methods, and to produce an original economic study using an economics methodology.

**PLO 4** Define, describe and illustrate intermediate theoretical concepts, using verbal, written, graphical and mathematical expression, important to one or more of these areas, to discuss one or more research methods common to a specialist area, and to produce an original economic study using an economics methodology from the specialist area.

**PLO 5** Describe and explain conclusions, recommendations, and implications from theory and methods of micro and macro theory, and specialist areas of economics, using written, spoken and other forms of communication.

Electrical Engineering, BS

**PLO 1** Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

**PLO 2** Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

**PLO 3** Communicate effectively with a range of audiences.

**PLO 4** Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
PLO 5 Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

PLO 6 Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.

PLO 7 Acquire and apply new knowledge as needed, using appropriate learning strategies.

Engineering Technology, Computer Network System Management Concentration, BS

PLO 1 Demonstrate strong communication, critical thinking, and interpersonal skills;
PLO 2 Use skills in team development, dynamics, and management to work as team players;
PLO 3 Demonstrate ethical behavior and concern for colleagues, society, and the environment;
PLO 4 Demonstrate leadership skills for a technology professional;
PLO 5 Implement and manage computer and network systems;
PLO 6 Solve problems related to daily interruptions of information flow;
PLO 7 Design and interface components for connected products;
PLO 8 Manage databases and cloud computing systems and services;
PLO 9 Implement and manage Internet of Things (IoT) systems;
PLO 10 Apply cybersecurity techniques to protect networks from attacks.

Engineering Technology, Manufacturing Systems Concentration, BS

PLO 1 Demonstrate strong communication, critical thinking, and interpersonal skills;
PLO 2 Use skills in team development, dynamics, and management to work as team players;
PLO 3 Demonstrate ethical behavior and concern for colleagues, society, and the environment;
PLO 4 Demonstrate leadership skills for a technology professional;
PLO 5 Apply science and math principles to solve technical problems in manufacturing.
PLO 6 Integrate principles of design, materials selection, and manufacturing processes into product development;
PLO 7 Implement automation, advanced and smart manufacturing including robotics, 3D printing and IIoT to improve manufacturing operations and processes;
PLO 8 Apply lean principles and quality assurance to product development, management and decision making in manufacturing enterprises; and,
PLO 9 Demonstrate cross-functional skills to address professional practices, as well as global and societal issues relevant to manufacturing.

English, BA (Concentrations in General English, Creative Writing, Preparation for Teaching (Single Subject), and Professional and Technical Writing)

PLO 1 Read closely in a variety of forms, styles, structures, and modes, and articulate the value of close reading in the study of literature, creative writing, or rhetoric.
PLO 2 Show familiarity with major literary works, genres, periods, and critical approaches to British, American, and World Literature.
PLO 3 Write clearly, effectively, and creatively, and adjust writing style appropriately to the content, the context, and nature of the subject.
PLO 4 Develop and carry out research projects, and locate, evaluate, organize, and incorporate information effectively.
PLO 5 Articulate the relations among culture, history, and texts, including structures of power.

Environmental Studies, BA (including a Preparation for Teaching Program)

PLO 1 Write a logical analytical paper using good writing style and construction supported by appropriate research.
PLO 2 Determine, apply and interpret appropriate basic statistical or other quantitative analyses to environmental data.
PLO 3 Develop proficiency in the interdisciplinary sustainability principles that are the foundations of environmental studies; they will know the key environmental challenges facing the planet, know relevant interdisciplinary information about these challenges, and be able to develop/identify feasible solutions.
PLO 4 Productively conduct group/team work to deliver professional quality presentations and reports and also engage in community service and democratic participation.

PLO 5 Demonstrate in-depth knowledge and skills in a non-science field.

Environmental Studies, BS

PLO 1 Write a logical analytical paper using good writing style and construction supported by appropriate research.

PLO 2 Determine, apply and interpret appropriate basic statistical or other quantitative analyses to environmental data.

PLO 3 Develop proficiency in the interdisciplinary sustainability principles that are the foundations of environmental studies; they will know the key environmental challenges facing the planet, know relevant interdisciplinary information about these challenges, and be able to develop/identify feasible solutions.

PLO 4 Productively conduct group/team work to deliver professional quality presentations and reports and also engage in community service and democratic participation.

PLO 5 Demonstrate in-depth knowledge and skills in a science or technical field.

F

Forensic Science, BS (Concentrations in Biology, Chemistry, and Digital Evidence)

PLO 1 Apply the scientific method to draw logical conclusions about crime scenes.

PLO 2 Demonstrate competence in the recognition, documentation, collection, and analysis of forensic evidence.

PLO 3 Identify sources and causes of error in forensic science.

PLO 4 Interpret evidence and communicate findings clearly in both written reports and oral testimony.

PLO 5 Contextualize forensic science within the fields of criminal justice, human rights, and physical and mental health.

French, BA (Including a Preparation for Teaching Program)

PLO 1 Demonstrate intermediate mid to high (ACTFL) skills in listening, speaking, reading, and writing.

PLO 2 Use the language to investigate, explain, and reflect on products, practices, and perspectives of the cultures studied.

PLO 3 Analyze and compare critically a wide variety of literary texts to demonstrate knowledge of major genres, authors, critical theory, and literary movements as they relate to cultural and artistic movements.

PLO 4 Identify and describe linguistic patterns of the target language.

PLO 5 Demonstrate introductory translation skills of a variety of texts.

PLO 6 Develop and carry out research projects, including term papers and bibliographic research, in accordance with a major style guideline.

G

Interdisciplinary Engineering, BS

PLO 1 Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

PLO 2 Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

PLO 3 Communicate effectively with a range of audiences.

PLO 4 Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

PLO 5 Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

PLO 6 Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment
to draw conclusions.
PLO 7 Acquire and apply new knowledge as needed, using appropriate learning strategies.

Geography, BA

PLO 1 Demonstrate understanding of and ability to analyze spatial relationships.
PLO 2 Demonstrate understanding of, and ability to analyze and critique human and environment interactions.
PLO 3 Define and use basic geography tools and techniques.
PLO 4 Demonstrate ability to analyze and compare/contrast global regions.
PLO 5 Demonstrate ability to read and understand research literature and engage in productive research activities.
PLO 6 Demonstrate professional communication skills.

Geology, BS

PLO 1 Develop the skill to read and accurately interpret topographic and geologic maps.
PLO 2 Effectively communicate scientific ideas and results in writing.
PLO 3 Use the fundamentals of chemistry, physics, and math to solve geologic problems.
PLO 4 Classify and identify geological materials such as minerals, rocks, and fossils, and understand their relationships to each other and interacting earth systems.
PLO 5 Visualize and comprehend geologic structures and processes.
PLO 6 Understand how geologists measure deep time and reconstruct earth history.

Global Studies, BA

PLO 1 Engage in interdisciplinary studies and demonstrate an understanding of complex global events and processes of globalization in relationship to culture, politics, gender studies, sustainability, and foreign language.
PLO 2 Demonstrate the ability to write, speak, research, and critically analyze complex global events and processes of globalization.
PLO 3 Analyze, synthesize, and interpret texts, images, and experiences, demonstrating quantitative literacy, innovation of thought and creation of theoretical or practical solutions to global problems.
PLO 4 Demonstrate a critical understanding of the ethical implications of global citizenship, informed by global awareness and cross-cultural understanding.

Graphic Design, BFA

PLO 1 Apply the principles of color, composition, hierarchy, typography as they relate in the various media-digital, print, motion, 3-D, etc.-that exist in design.
PLO 2 Demonstrate the ability to create and develop original concepts, build prototypes, integrate feedback and carry projects through to the production process.
PLO 3 Apply principles of visual communication as they relate to reaching audiences, the role of design in society, and the ability to work cooperatively.
PLO 4 Identify key aspects of graphic design history, theory and criticism from a variety of perspectives, including prominent designers, historians and contemporary writers and thought-leaders.
PLO 5 Show fluency in the breadth of disciplines that graphic design encompasses, with deep exploration into information architecture, user interface design, interactive design, motion graphics, iterative image-making, exhibition design and typeface design.
PLO 6 Demonstrate understanding of the design process, design thinking and professional standards and practices, including real-project learning scenarios and a transition into preparing a portfolio to enter the working force.

History, BA

PLO 1 Describe and explain how peoples and societies evolved across time and space demonstrating the importance of context (social, political, economic, cultural, environmental, ideological, and technological).
PLO 2 Illustrate the complexity of historical causality and describe past events from multiple perspectives.
PLO 3 Analyze the credibility of historical sources and arguments, revising interpretations as new evidence warrants.
PLO 4 Conceive and carry out historical research, constructing persuasive evidence-based arguments using primary and secondary sources according to recognized standards of the historical discipline.

Humanities, American Studies Concentration, BA

PLO 1 Demonstrate the ability to frame questions and pursue answers to aesthetic, social, cultural and global problems using interdisciplinary methods.
PLO 2 Demonstrate the ability to describe and compare the roles, impacts and ethical implications of ideas, texts, social movements, contemporary situations, and creations of the human imagination.
PLO 3 Demonstrate skill in written and verbal communication, including argumentation.
PLO 4 Demonstrate the ability to identify, select, use, and cite information sources appropriately.
PLO 5 Explain how current events and contemporary issues are understood with knowledge of the historical and cultural background of a particular world area (e.g., America, East Asia, Europe, or the Middle East), including processes of cultural formation, historical development, and social change.

Humanities, Liberal Arts Concentration, BA

PLO 1 Demonstrate the ability to frame questions and pursue answers to aesthetic, social, cultural and global problems using interdisciplinary methods.
PLO 2 Demonstrate the ability to describe and compare the roles, impacts and ethical implications of ideas, texts, social movements, contemporary situations, and creations of the human imagination.
PLO 3 Demonstrate skill in written and verbal communication, including argumentation.
PLO 4 Demonstrate the ability to identify, select, use, and cite information sources appropriately.

Humanities, Religious Studies Concentration, BA

PLO 1 Demonstrate the ability to frame questions and pursue answers to aesthetic, social, cultural and global problems using interdisciplinary methods.
PLO 2 Demonstrate the ability to describe and compare the roles, impacts and ethical implications of ideas, texts, social movements, contemporary situations, and creations of the human imagination.
PLO 3 Demonstrate skill in written and verbal communication, including argumentation.
PLO 4 Demonstrate the ability to identify, select, use, and cite information sources appropriately.
PLO 5 Demonstrate a high level of religious literacy, including the ability to articulate etic and emic perspectives for specific religions, and a functional understanding of at least five major world religious systems (e.g. Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, Taoism, Sikhism, Jainism, a specific geographic set of indigenous religions (African, Australian, North American, South American, Pacific Islander, North Asian, pre-Christian European), Wicca, Afro-Caribbean religions).
PLO 6 Function adroitly within the interdisciplinary nature of comparative religious studies. Describe how religion, as a phenomenon, can be analyzed historically, philosophically, psychologically, sociologically, geographically, and artistically, as well as Theologically. Demonstrate ability to write and speak about religions in a scholarly, civil, and respectful manner, using the academic discourses that have evolved for this purpose. Foster civil discourse about religion by encountering and engaging community members, faculty, and students who hold diverse views within and about religious traditions.

Industrial and Systems Engineering, BS

PLO 1 Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
PLO 2 Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
PLO 3 Communicate effectively with a range of audiences.
PLO 4 Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
PLO 5 Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
PLO 6 Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
PLO 7 Acquire and apply new knowledge as needed, using appropriate learning strategies.

Industrial Design, BS

PLO 1 Demonstrate a functional knowledge of design aesthetics to create appropriate 2D and 3D artifacts, as well as have the ability to think visually and develop design concepts utilizing rapid 2D and 3D visualization tools and techniques.
PLO 2 Articulate a functional understanding of manufactured products, including being able to explain how products work, what constitutes their structural integrity, and what materials and manufacturing processes are required to produce them.
PLO 3 Apply their knowledge of end-user psychology, ergonomics, anthropometry, and user interaction to the design of manufactured products.
PLO 4 Investigate, analyze, synthesize, and make design decisions based on an ecological understanding of the impact of a design, including the reconciliation of priorities and concerns of end users with those of business, society, and the environment.
PLO 5 Employ a design process that generates products that are useful, usable, and desirable to specific segments of the human population, including an understanding of how designers define problems, researching contextual issues, determining design requirements, and conceptualizing and evaluating alternatives to test and refine solutions.

Information Science and Data Analytics, BS

PLO 1 Apply information science and data analytics concepts and methods by thinking critically and creatively to conceptualize and solve real-world problems.
PLO 2 Demonstrate an understanding of the data lifecycle, including data curation and stewardship, distributed computing, and the data pipeline ecosystem.
PLO 3 Demonstrate an understanding of professional and ethical responsibility in data ownership security, sensitivity of data, and consequences and privacy concerns of data analysis.
PLO 4 Demonstrate an ability to identify user-centric information and data needs of diverse populations and to interpret data findings effectively to diverse audiences, orally, visually, and in written formats.
PLO 5 Demonstrate an understanding of how people from diverse backgrounds and cultures interact with technology and with each other in technological contexts; and how to plan strategically for emerging technologies and the changing technological landscape.

Interior Design, BFA

PLO 1 Understand concepts, principles, and theories of sustainability as they pertain to building methods, materials, systems, and occupants within the parameters of ecological, socio-economic, and cultural contexts.
PLO 2 Express ideas clearly through visual media (ideation drawings and sketches), the production of presentation drawings across a range of appropriate media and to produce integrated contract documents including drawings, schedules, and specifications appropriate to project size and scope.
PLO 3 Understand and apply laws, codes, standards, accessibility guidelines and industry-specific regulations that impact the design of interior spaces.
PLO 4 Be informed by knowledge of human factors and theories of human behavior related to the built environment, including an understanding of the diverse social and behavioral norms that affect design decisions.
PLO 5 Apply theories of human behavior in the built environment by selecting, interpreting, and applying appropriate anthropometric data when designing a space.
PLO 6 Be able to work in a multi-disciplinary collaborative environment to identify and explore complex problems and generate creative solutions that optimize the human experience within the interior environment.
Japanese, BA

PLO 1 Demonstrate intermediate mid to high (ACTFL) skills in listening, speaking, reading, and writing.
PLO 2 Use the language to investigate, explain, and reflect on products, practices, and perspectives of the cultures studied.
PLO 3 Analyze and compare critically a wide variety of literary texts to demonstrate knowledge of major genres, authors, critical theory, and literary movements as they relate to cultural and artistic movements.
PLO 4 Identify and describe linguistic patterns of the target language.
PLO 5 Demonstrate introductory translation skills of a variety of texts.
PLO 6 Develop and carry out research projects, including term papers and bibliographic research, in accordance with a major style guideline.

Journalism, BS

PLO 1 Demonstrate knowledge of the diversity of groups in a global society in relationship to communications.
PLO 2 Demonstrate the ability to think critically, creatively and independently.
PLO 3 Write correctly and clearly in forms and styles appropriate for the communications professions, audiences, and purposes they serve.
PLO 4 Demonstrate the ability to use tools and technologies appropriate for the communications professions in which they work.

Justice Studies, BS (Concentrations in General Justice Studies and Criminology)

PLO 1 Explain the major concepts, theories, and historical trends within studies of crime, law, and social justice at all levels, from local to global.
PLO 2 Describe and apply ways to gather valid information and conduct research to answer questions about crime, law, and social justice issues.
PLO 3 Understand and critically analyze individual, institutional, and societal responses to crime, law, and social justice issues.
PLO 4 Employ interdisciplinary perspectives on systems of inequality and concepts of justice to propose grounded, informed, and sustainable solutions to social problems in communities and/or institutions.
PLO 5 Articulate compelling, reasoned, and empirically-informed positions on issues of justice to diverse audiences. Students will value empirical evidence, tolerate ambiguity, act ethically, and recognize their role and responsibility as a member of society.

K

Kinesiology, BS (Including a Preparation for Teaching Program)

PLO 1 Explain, identify, and/or demonstrate the theoretical and/or scientific principles that can be used to address issues or problems in the sub-disciplines in kinesiology.
PLO 2 Effectively communicate in writing (clear, concise and coherent) on topics in kinesiology.
PLO 3 Effectively communicate through an oral presentation (clear, concise and coherent) on topics in kinesiology.
PLO 4 Utilize their experiences across a variety of health-related and skill-based activities to inform their scholarship and practice in the sub disciplines in kinesiology.
PLO 5 Identify and analyze social justice and equity issues related to kinesiology for diverse populations.
Liberal Studies, BA (Including Integrated Teacher Education, Integrated Teacher Education - Spanish Bilingual, and Preparation for Teaching Programs)

PLO 1 Demonstrate the ability to frame questions and pursue answers to aesthetic, social, cultural and global problems using interdisciplinary methods.
PLO 2 Demonstrate the ability to describe and compare the roles, impacts and ethical implications of ideas, texts, social movements, contemporary situations, and creations of the human imagination.
PLO 3 Demonstrate skill in written and verbal communication, including argumentation.
PLO 4 Demonstrate the ability to identify, select, use and cite information sources appropriately.
PLO 5 Demonstrate foundational knowledge in subjects taught in K-8 schools.
PLO 6 Demonstrate understanding of how to engage and support learning for all K-8 students by creating lesson plans that use a variety of instructional strategies, resources and technologies to meet students' diverse learning needs.
PLO 7 Demonstrate understanding of how to create and maintain effective learning environments through reflection and through the development of lesson that promote student learning, reflect diversity and encourage constructive interactions among students.
PLO 8 Demonstrate understanding of how to plan instruction and assess student learning by creating lesson plans that use formative and summative assessment data to plan, differentiate and modify instruction.

Linguistics, BA

PLO 1A Transcribe, using the International Phonetic Alphabet, and produce speech sounds of the world's languages. Apply concepts of acoustic theory in analyses of speech data.
PLO 1B Analyze linguistic sound patterns in terms of their function, their structure, and the pressures that influence their change over time.
PLO 1C Analyze words and their internal structure in terms of their meanings, their sound properties, and the pressures that influence their change over time.
PLO 1D Analyze sentence structure in any language in terms of grammatical relations and constituent structure, and recognize the typological diversity of syntactic phenomena.
PLO 1E Analyze the meaning of words and sentences, elaborate on the role of linguistic and pragmatic context in the interpretation of meaning, and understand the role of theories in the analysis of semantic data.
PLO 1F Identify phonological, morphological, syntactic and semantic changes in the history of a language, discuss the contribution of social factors to language variation and change, explain the genetic and typological classification of languages, and use the comparative method to reconstruct ancestors of related languages.
PLO 1G Analyze phonetic, phonological, morphological, syntactic, semantic, and historical linguistics data.
PLO 1H Critically evaluate competing approaches to the analysis of linguistic data.
PLO 1I Use library and electronic research sources effectively.
PLO 1J Use reading and writing skills effectively.
PLO 1K Demonstrate proficiency equivalent to one-year college level study in a language other than their native language.
PLO 1L Discuss issues in speech synthesis, speech recognition, natural language processing, and develop speech recognition, speech synthesis and natural language processing programs.
PLO 1M Evaluate theories of first and second language acquisition, and second language teaching.
PLO 1N Identify language-related social programs in areas such as education, the law, the workplace, etc., and discuss the feasibility of various empirically-based solutions.

M

Biological Sciences - Marine Biology, BS

PLO 1 Hypotheses and Experiments Students will demonstrate the ability to formulate hypotheses and design experiments to address a scientific question.
PLO 2 Biology Content Students will demonstrate an understanding of the relevant content in their concentration.
PLO 3 Laboratory or Field Skills Students will demonstrate laboratory or field skills relevant to their concentration.
PLO 4 Scientific Writing Skills Students will demonstrate proficiency in scientific writing skills by effectively writing an advanced scientific paper.

PLO 5 Oral Presentations Students will demonstrate proficiency in oral presentation skills by effectively presenting scientific research.

Materials Engineering, BS

PLO 1 Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

PLO 2 Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

PLO 3 Communicate effectively with a range of audiences.

PLO 4 Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

PLO 5 Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

PLO 6 Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.

PLO 7 Acquire and apply new knowledge as needed, using appropriate learning strategies.

Mathematics, BA (Including a Preparation for Teaching Program)

PLO 1 Write proofs of mathematical statements using definitions, theorems, and various forms of logical argument.

PLO 2 Demonstrate an understanding of fundamental ideas in mathematics by answering conceptual questions.

PLO 3 Perform mathematical procedures accurately using multiple methods.

Mechanical Engineering, BS

PLO 1 Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

PLO 2 Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

PLO 3 Communicate effectively with a range of audiences.

PLO 4 Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

PLO 5 Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

PLO 6 Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.

PLO 7 Acquire and apply new knowledge as needed, using appropriate learning strategies.

Meteorology, BS

PLO 1 Read and interpret various meteorological diagrams, and develop and present a short-to-medium-term forecast with considerable skill.

PLO 2 Explain meteorological phenomena at various scales in terms of basic physical and dynamic processes, including radiative forcing, thermodynamics, microphysics, and dynamics.

PLO 3 Know the design and use of meteorological instruments, and techniques for collecting and interpreting the data.

PLO 4 Explain current climate in terms of basic physical and dynamical processes, and explain the mechanisms responsible for climate change.

PLO 5 Explain ideas and results through written, statistical, graphical, oral and computer-based forms of communication.

Climate Science, BS
PLO 1 Explain current climate in terms of basic physical and dynamic processes.
PLO 2 Explain the mechanisms responsible for climate change.
PLO 3 Know and be able to practice the techniques used for collecting, analyzing, and interpreting various forms of climate data.
PLO 4 Demonstrate an ability to synthesize concepts from a broad range of disciplines, and apply them to problems in climate science.
PLO 5 Explain ideas and results through written, statistical, graphical, oral and computer-based forms of communication.

Music, BA

PLO 1 Hear, identify, and work conceptually with the melodic, harmonic, and rhythmic elements of music, including sight-reading, keyboard proficiency, and analysis.
PLO 2 Identify, discuss, and write about the history, traditions, practices, and cultures of the Western art-music tradition, along with related materials of non-Western music's.
PLO 3 Competently perform repertory appropriate to a university music program, utilizing skills and knowledge gained from the previous two learning outcomes.
PLO 4 Work proficiently with basic music technology, its applications, and its use in their area of specialization.
PLO 5 Successfully complete a capstone experience appropriate to their area of specialization.

Music, BM (Concentrations in Composition, Jazz Studies, Music Education, and Performance)

PLO 1 Hear, identify, and work conceptually with the melodic, harmonic, and rhythmic elements of music, including sight-reading, keyboard proficiency, and analysis.
PLO 2 Identify, discuss, and write about the history, traditions, practices, and cultures of the Western art-music tradition, along with related materials of non-Western music's.
PLO 3 Competently perform repertory appropriate to a university music program, utilizing skills and knowledge gained from the previous two learning outcomes.
PLO 4 Work proficiently with basic music technology, its applications, and its use in their area of specialization.
PLO 5 Successfully complete a capstone experience appropriate to their area of specialization.
PLO 6 Perform standard repertoire competently and expressively, and provide musical leadership appropriate to a university music program as soloists, as conductors, and as members of major performing ensembles and smaller chamber ensembles.
PLO 7 Identify and discuss the repertory in their major performance area; perform from a cross-section of that repertory through a successful capstone experience (a senior solo recital or senior recital of original compositions).
PLO 8 (For Music Education Concentration only) Demonstrate basic performance skills as well as pedagogical and classroom methods appropriate for a music education major entering the field of public-school teaching.

N

Nursing, BS (Concentration in General Nursing, Family Nurse Practitioner, and Integrated Community College Pathway)

PLO 1 Conduct comprehensive focused assessments of biological and social determinants of health and illness in clients, using culturally appropriate approaches.
PLO 2 Conduct comprehensive focused assessments of biological and social determinants of health and illness in clients, using culturally appropriate approaches.
PLO 3 Deliver client-centered education that integrates the application of developmental stages across the lifespan, cultural background, educational level, and health literacy considerations.
PLO 4 Act as an advocate to develop collaborative, evidence-based strategies for interprofessional, client-centered care.
PLO 5 Demonstrates accountability for safe administration and evaluation of pharmacologic agents and complementary modalities used in health promotion as well as acute and chronic illnesses.
PLO 6 Use relevant technology and informatics to support nursing care that contributes to safe and high-quality client care.
outcomes.
PLO 7 Communicate effectively with clients and members of the interprofessional healthcare team to improve client outcomes. [Essent. 6]
PLO 8 Demonstrate beginning levels of clinical judgment, systems thinking, and accountability for client outcomes when delegating to and supervising other members of the healthcare team. [Essent. 2 & 4]
PLO 9 Assumes responsibility for and evaluates own professional nursing practice according to the ethical standards of the ANA Code for Nurses, standards of nursing practice, and legal mandates.
PLO 10 Coordinate healthcare for clients and populations across the lifespan to maximize health, independence, functional ability, and quality of life.
PLO 11 Analyze the influence of the social determinants of health, health care policy, financial drivers, and regulatory environments on nursing practice in the global community.

Nutritional Science, BS (Concentrations in Dietetics, Applied Nutrition and Food Sciences, and Food Management)
PLO 1 Obtain a critical understanding and the ability to apply theoretical and scientific knowledge from the subdisciplines in nutrition.
PLO 2 Effectively communicate the essential theories, scientific applications, and ethical considerations related to the discipline.
PLO 3 Identify global, social, environmental, and/or cultural issues related to the discipline for diverse populations.

Organizational Studies, BA

PLO 1 Identify the variety of organizations humans have created to achieve their goals.
PLO 2 Understand the relationships between organizational structure and process, and the social and natural environments in which they operate.
PLO 3 Use quantitative and qualitative research methods to understand organizations and their environments.
PLO 4 Identify the importance of understanding human diversity within organizations.
PLO 5 Recognize the moral dimensions of human actions, and be able act ethically and effectively within organizations.
PLO 6 Demonstrate skills in addressing real-world organizational problems.

Packaging, BS
PLO 1 Assess a package’s functional properties;
PLO 2 Demonstrate knowledge of package material properties to meet particular physical needs;
PLO 3 Describe a package production system in order to present design and develop cost comparisons between various package configurations;
PLO 4 Assess a distribution channel to identify particular stresses incurred;
PLO 5 Design a package system (primary, secondary and tertiary) to contain, protect and transport products from manufacturer to consumer;
PLO 6 Develop reproducible test methodologies for evaluating particular properties in a package/material; and,
PLO 7 Organize and assemble presentations describing package systems, operations, designs, and cost comparisons.

Philosophy, BA

PLO 1 Be able to identify, discuss and constructively engage with, in both written and oral fashion, core areas and methods of Philosophy, and major figures and ideas in various historical periods and in various traditions from around the world.
PLO 2 Have the ability to understand texts and oral presentations and to identify and critique the arguments
expressed in these texts.
PLO 3 Have the ability successfully to collect and evaluate information and carry out research projects and
successfully share the results in both written and oral form.
PLO 4 Have an understanding of the demands of responsible citizenship and an understanding of how to make and
defend ethical choices.
PLO 5 Have an understanding of the ways in which culture, race, ethnicity, gender, economic class, sexual
orientation, and national membership influence perceptions about reality, knowledge, and value.

Physics, BA

PLO 1 Formulate specific research questions and design and/or interpret experiments that address these questions.
PLO 2 Demonstrate an understanding of a breadth of physics concepts by solving physics problems related to these
concepts.
PLO 3 Demonstrate laboratory, modeling, computational and/or data analysis skills relevant to physics research.
PLO 4 Communicate scientific content and thinking effectively as evidenced by productive collaboration with peers,
well-reasoned professionally formatted written papers and visual and oral presentations.
PLO 5 Demonstrate an understanding of how work in physics influences technology, society and culture.

Physics, BS

PLO 1 Formulate specific research questions and design and/or interpret experiments that address these questions.
PLO 2 Demonstrate an understanding of a breadth of physics concepts by solving physics problems related to these
concepts.
PLO 3 Demonstrate laboratory, modeling, computational and/or data analysis skills relevant to physics research.
PLO 4 Communicate scientific content and thinking effectively as evidenced by productive collaboration with peers,
well-reasoned professionally formatted written papers and visual and oral presentations.
PLO 5 Demonstrate an understanding of how work in physics influences technology, society and culture.

Physics, Preparation for Teaching, BA

PLO 1 Know basic physics principles.
PLO 2 Apply their knowledge to practical, theoretical and experimental problems.
PLO 3 Be prepared for careers in science, industry and education.

Political Science, BA

PLO 1 Breadth Students should possess a broad knowledge of the theory and methods of the various branches of
the discipline.
PLO 2 Application and Disciplinary Methods Students should be able to formulate research questions, engage in
systematic literature searches using primary and secondary sources, evaluate research studies, and critically analyze
and interpret influential political texts. Students should be able to apply these techniques to identify, understand, and
analyze domestic and international political issues and organizations.
PLO 3 Communication Skills Students should master basic competencies in oral and written communication skills
and be able to apply these skills in the context of political science. This means communicating effectively about
politics and/or public administration, public policy, and law.
PLO 4 Citizenship Students should acquire an understanding of the role of the citizen in local, state, national, and
global contexts and appreciate the importance of lifelong participation in political processes.

Psychology, BA

PLO 1 Demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical
trends in psychology.
PLO 2 Design, implement, and communicate basic research methods in psychology, including research design, data
analysis, and interpretations.
PLO 3 Use critical and creative thinking, skeptical inquiry, and a scientific approach to address issues related to
behavior and mental processes.
PLO 4 Apply psychological principles to individual, interpersonal, group, and societal issues.
PLO 5 Value empirical evidence, tolerate ambiguity, act ethically, and recognize their role and responsibility as a member of society.

Psychology, BS (Not Accepting Students)

PLO 1 Demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.
PLO 2A Design, implement, and communicate basic research methods in psychology, including research design, data analysis, and interpretations.
PLO 2B Design, implement, and communicate advanced research methods in two or more focused domains within psychology, including research design, data analysis, and interpretations within each domain.
PLO 3 Use critical and creative thinking, skeptical inquiry, and a scientific approach to address issues related to behavior and mental processes.
PLO 4 Apply psychological principles to individual, interpersonal, group, and societal issues.
PLO 5 Value empirical evidence, tolerate ambiguity, act ethically, and recognize their role and responsibility as a member of society.

Public Health, BS (Concentrations in Community Health Education and Population Data Science)

PLO 1 Social Justice - Apply principles of social justice, through the lens of cultural humility, to achieve and sustain health equity.
PLO 2 Factors of Health - Explain the intersectionality of environmental, social, economic, behavioral, biological and political factors influencing human health and identify opportunities for change.
PLO 3 Ethics - Interpret and apply ethical principles to the practice of public health.
PLO 4 Communication - Demonstrate an ability to deliver public health messages in written, oral, and media-based formats to both public and professional audiences.
PLO 5 Research - Use public health methods and tools to collect and analyze population health data.
PLO 6 Research - Interpret the basic concepts of human health and disease and research grounded in the history, philosophy, and practice of public health.
PLO 7 Policy - Analyze the effects of multiple levels of policy and health systems on population and individual health outcomes and employ strategies to participate in the policy process.
PLO 8 Community - Use public health processes and practices, including working collaboratively with diverse individuals and communities, to create relevant interventions or investigations that engage and build community capacity, promote health, and reduce health inequities and disparities.

Public Relations, BS

PLO 1 Demonstrate knowledge of the diversity of groups in a global society in relationship to communications.
PLO 2 Demonstrate the ability to think critically, creatively and independently.
PLO 3 Write correctly and clearly in forms and styles appropriate for the communications professions, audiences, and purposes they serve.
PLO 4 Demonstrate the ability to use tools and technologies appropriate for the communications professions in which they work.

Radio-Television-Film, BA

PLO 1 Become media literate: Know the history, processes and current structure of the electronic media, its ethical parameters, and the social and political effects of electronic and mass communication (radio, television, film, new media) on an audience.
PLO 2 Tell meaningful stories through production of good narratives in radio, television, and film. Appreciate the art and aesthetics of media.
PLO 3 Communicate information and entertainment to diverse cultures using radio, television and film. Be sensitive to the ways and processes of, and the attitudes held by races, religions, political and social groups that are not their own.

PLO 4 Understand how to plan, produce, write and direct radio, television and film/cinema projects. Achieve professional-level skills of production. Select and operate video/television, film, and audio/radio technologies.

PLO 5 Determine what type of information is needed for a research question, problem, or issue, and be able to retrieve, evaluate and effectively use such information to produce scholarship and production in radio, television, film and new media.

Recreation, BS (Concentrations in General Recreation, Recreation Management, and Recreation Therapy)

PLO 1 Demonstrate summative knowledge and skills across the core curriculum integrating the standards of the Recreation profession within the context of a rapidly changing world.

PLO 2 Plan, implement, and evaluate a recreation program or special events that are inclusive, culturally grounded and sensitive to diverse populations.

PLO 3 Demonstrate budgeting and financial skills in the framework of sustainability and ethical stewardship.

PLO 4 Demonstrate professional behavior and competencies in the framework of ethics, personal, and social responsibility.

PLO 5 Demonstrate proficient and professional written communication keeping in mind the global communities they will be working in.

Social Science, Preparation for Teaching (Single Subject), BA

PLO 1 The major will provide students with the opportunity to learn and apply content knowledge, discipline-specific analysis skills, and pedagogical methods and theories that underlie the K-12 social science curriculum.

PLO 2 The major will prepare prospective teachers to analyze complex discipline-based issues especially as they relate to the theory and practice of teaching social science. Students will learn to synthesize information from multiple sources and perspectives and communicate this knowledge effectively in a variety of oral and written formats.

PLO 3 The major will equip students with the necessary knowledge to use appropriate technologies especially as they relate to K-12 social science teaching.

PLO 4 The major will provide students with the essential understanding, knowledge and appreciation of diverse perspectives and contributions by and about diverse groups.

PLO 5 The major provides prospective teachers with planned, structured field experiences in classrooms; the field experiences are linked to coursework and give breadth of experience with diverse populations.

Social Work, BA

PLO 1 Demonstrate Ethical and Professional Behavior.

PLO 2 Engage Diversity and Difference in Practice.

PLO 3 Advance Human Rights and Social, Economic, and Environmental Justice.

PLO 4 Engage In Practice-informed Research and Research-informed Practice.

PLO 5 Engage in Policy Practice.

PLO 6 Engage with Individuals, Families, Groups, Organizations, and Communities.

PLO 7 Assess Individuals, Families, Groups, Organizations, and Communities.

PLO 8 Intervene with Individuals, Families, Groups, Organizations, and Communities.

PLO 9 Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities.

Sociology, BA (Concentrations in General Sociology, Community Change, Race and Ethnic Studies, Social Interaction, and Women, Gender, and Sexuality Studies)

PLO 1 Think sociologically about the relationship between social structure, interaction, identities, and inequalities.

PLO 2 Identify and explain major sociological theories and apply them to everyday life.
PLO 3 Be proficient in qualitative and quantitative research design, data collection and data analysis.
PLO 4 Be proficient in oral and written communication skills appropriate to the discipline.
PLO 5 Practice sociology as educated and civically engaged persons.

Software Engineering, BS

PLO 1 Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
PLO 2 Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
PLO 3 Communicate effectively with a range of audiences.
PLO 4 Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
PLO 5 Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
PLO 6 Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
PLO 7 Acquire and apply new knowledge as needed, using appropriate learning strategies.

Spanish, BA

PLO 1 Demonstrate intermediate mid to high (ACTFL) skills in listening, speaking, reading, and writing
PLO 2 Use the language to investigate, explain, and reflect on products, practices, and perspectives of the cultures studied
PLO 3 Analyze and compare critically a wide variety of literary texts to demonstrate knowledge of major genres, authors, critical theory, and literary movements as they relate to cultural and artistic movements
PLO 4 Identify and describe linguistic patterns of the target language
PLO 5 Demonstrate introductory translation skills of a variety of texts
PLO 6 Develop and carry out research projects, including term papers and bibliographic research, in accordance with a major style guideline

Interdisciplinary Studies, BA

PLO 1 Analyze an issue or problem, integrating at least two disciplinary perspectives.

Interdisciplinary Studies, BS

PLO 1 Analyze an issue or problem, integrating at least two disciplinary perspectives.

Theatre Arts, BA

PLO 1 Demonstrate a literacy of language of stage and/or screen; know how to analyze a script, understand the historical and contemporary structure of a script, and the social and political effects of a performance on an audience.
PLO 2 Demonstrate an ability to tell meaningful stories through performance; correlate performance to production; demonstrate acting skills and development of a character.
PLO 3 Communicate information and entertainment to diverse cultures using stage and/or screen; demonstrate sensitivity to the processes of and the attitudes held by races, religions, political and social groups that are not their own.
PLO 4 Demonstrate how to plan, perform, produce, write and direct for stage and screen; demonstrate professional-level skills of production; design for and operate contemporary technologies.
PLO 5 Demonstrate what type of information is needed for a research question, problem, or issue, and be able to retrieve, evaluate and effectively use such information to produce quality scholarship.
Graduate Program Learning Outcomes

Graduates will be able to satisfy the following program learning outcomes.

A

Accountancy, MS

PLO 1 Apply accounting, auditing, and tax principles within the context of a complex business environment.
PLO 2 Evaluate information technology and internal control processes and their role in financial and managerial reporting.
PLO 3 Demonstrate conceptual and analytical skills and their real world applications.
PLO 4 Develop effective oral and written communication skills in a context of conducting research.
PLO 5 Examine ethical implications of accounting practice.

Aerospace Engineering, MS

PLO 1 Model and Solve Problems - Use graduate level mathematics to model and solve aerospace engineering problems.
PLO 2 Analysis and Design - Apply aerospace engineering science (aerodynamics, propulsion, flight mechanics, stability & control, aerospace structures & materials, etc.) to perform an in-depth analysis and / or design of an aerospace engineering system taking into consideration economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability constraints.
PLO 3 Computational and Experimental Tools - Use modern tools (computational or experimental).
PLO 4 Literature Review - Perform a literature search related to a given problem, cite the references in appropriate ways, and demonstrate an understanding of the cited literature.
PLO 5 Technical Writing - Graduate level technical writing ability, including correct language and terminology, appropriate visuals, and summarizing key ideas.

Applied Anthropology, MA

PLO 1 Understand a range of anthropological research methods and be able to conduct research relevant to problem solving in various settings and for different clients/partners.
PLO 2 Know basic models of applying anthropology in different settings and have the skills to be able to function as practitioners of several of them.
PLO 3 Be knowledgeable about (1) the discipline of anthropology in general and how it contributes to understanding and improving contemporary society, and (2) a particular field of anthropology in greater depth.
PLO 4 Be able to function effectively in at least one content area or domain of application.
PLO 5 Understand personal, political and ethical issues inherent in research and application.
PLO 6 Develop professionally as practitioners with skills in contracting, project management, and budgeting, as well as the ability to communicate about project goals and findings and the discipline of anthropology to diverse audiences.
PLO 7 Be knowledgeable about the region as a social and cultural system with complex state national and global interconnections.

Archives and Records Administration, MARA

PLO 1 Articulate the ethics, values, and foundational principles of archives and records management professionals and appreciate the important role record keepers play in social memory and organizational accountability.
PLO 2 Recognize the social, cultural, and economic dimensions of records, recordkeeping, and records use.
PLO 3 Understand the evolution of information recordkeeping systems in response to technological change.
PLO 4 Have expertise in the basic concepts and principles used to identify, evaluate, select, organize, maintain, and provide access to records of current and enduring value.
PLO 5 Understand the system of standards and structures endorsed and utilized by the recordkeeping professions, particularly in the areas of electronic records and digital assets management.

PLO 6 Apply fundamental management theories and principles to the administration of records and recordkeeping organizations.

PLO 7 Know the legal requirements and ethical principles involved in records management and the role the recordkeeper plays in institutional compliance and risk management.

PLO 8 Be conversant with current information technologies and best practices relating to records preservation and security.

PLO 9 Understand research design and research methods and possess the analytical, written, and oral communication skills to synthesize and disseminate research findings.

PLO 10 Identify ways in which archivists and records managers can contribute to the cultural, economic, educational, and social well being of our global communities.

Art, Art History and Visual Culture Concentration, MA

PLO 1 Art History Knowledge - Demonstrate knowledge (visual recognition and identification) of significant artworks and of the canon of historical periods customary in Western and Non-Western traditions.

PLO 2 Art History Skills - Demonstrate increasing skills of visual analysis appropriate to describing and explaining artworks from a variety of historical contexts.

PLO 3 Writing and Research - Demonstrate the writing and research skills necessary for the accurate and complete investigation and communication of art historical information.

PLO 4 Methodology - Demonstrate a theoretical, historiographic, and professional understanding of the discipline of Art History and apply this understanding to explaining and solving research problems.

Art, MFA (Concentrations in Digital Media Art, Photography, Pictorial Art, and Spatial Art)

PLO 1 Analyze and research visual and conceptual problems and both apply and explain their sophisticated use of the elements and principles of art to solve those problems. Our graduates will be artists capable of studio practice and exhibition at the professional level.

PLO 2 Demonstrate increased technical capabilities and skills relevant to their areas of expertise and be able to explain and evaluate success/failure in individual and group critiques. We expect our graduates to be lifelong problem-identifiers and problem-solvers, always on the lookout for new and better skills. Prior to participation in a final thesis exhibition, MFA candidates will already have demonstrated their skills in portfolio reviews, frequent faculty and peer critiques, evaluations by thesis committee members, and in solo and group exhibitions.

PLO 3 Demonstrate their commitment to valuing art's role in offering cultural critique and addressing issues of social responsibility in a global society. As creative professionals, our graduates will, we hope, assume leadership roles in engaging with social and cultural change--as teachers, as critics, as spokespersons for important issues which cannot yet be imagined. As graduate students, our MFA candidates will demonstrate their understanding of the values of contemporary art in their visual and written responses to class assignments in area and interdisciplinary seminars and in the successful articulation of their ideas in exhibitions and artist statements.

PLO 4 Apply their knowledge of visual history and theory to their creative endeavors and to their professional practice. They will be able to speak and write clearly about art and global culture and demonstrate their understanding of the contemporary and global art world. They will demonstrate their ability to place their own work within the broader context of historical and contemporary art and theory. Our graduates will commit to continued personal engagement with intellectual issues in contemporary art and culture.

PLO 5 Not only be capable of studio practice and exhibition at the professional level but also will have demonstrated the ability to organize and present technical and intellectual information and to lecture/teach on a variety of specialized topics in digital media art. Those students who seek teaching positions while still in graduate school will be mentored in classroom assistant capacity for two semesters, carefully screened for a teaching pool, trained as teachers, and carefully evaluated when hired as Teaching Associates. We expect our graduates to be experienced and professional teachers.

Artificial Intelligence, MS
PLO 1 Identify and apply fundamental concepts, algorithms, and methodologies to formulate, analyze, design, and evaluate artificial intelligence and machine learning systems.

PLO 2 Tackle complex machine learning and artificial intelligence problems using contemporary principles, algorithms, technologies, methodologies, and tools.

PLO 3 Lead and participate in a team to develop AI and machine learning applications.

PLO 4 Recognize the ethical, economic and environmental implications of their work, as appropriate.

PLO 5 Sustain a process of life-long learning in engineering or other professional areas.

PLO 6 Communicate effectively and persuasively with a variety of audiences.

Audiology, AUD

PLO 1 Specialized Knowledge - Recall, apply, and synthesize their knowledge of the hearing and balance mechanisms, including normal processes, disorders, and treatments.

PLO 1A Demonstrate knowledge and skill competencies outlined by the Council on Academic Accreditation (CAA) and the Accreditation Commission for Audiology Education (ACAE).

PLO 2 Social Responsibilities - Summarize and describe the contexts in which they may practice audiology and advise patients, with attention to local and culturally sensitive models of health care.

PLO 2A Demonstrate the ability to act ethically, intentionally, and conscientiously regarding issues related to inclusion and diversity.

PLO 3 Intellectual Skills - Correctly interpret theories, assumptions, and protocols appropriate to audiology practice (i.e., diagnosis and treatment) within quantitative and qualitative methodologies. They will also demonstrate the ability to think critically and creatively, effectively communicate, gather and process information thoroughly and ethically, write in a scientific voice, and engage in inter-professional activities.

PLO 4 Integrative Knowledge and Skills - Design, complete, and present a scholarly research project that will reflect the depth of contemporary audiology knowledge and contribute to knowledge in hearing science or to improvements in audiology practice, policy, or client outcomes.

PLO 5 Applied Knowledge and Skills - Apply classroom theories and prior clinical experiences to new clinical settings, age groups, disorders, technologies, and devices, with increasing speed, effectiveness, and independence.

B

Bioinformatics, MS

PLO 1 Demonstrate effective scientific written communication skills.

PLO 2 Demonstrate effective scientific oral communication skills.

PLO 3 Demonstrate the ability to independently answer complex biological questions using computational methods.

PLO 4 Demonstrate the ability to develop a research plan using information gained through critical analysis of primary literature

Biological Sciences, MA (concentrations in General Biology, Ecology and Evolution, Molecular Biology and Microbiology, and Physiology)

PLO 1 Develop effective written communication skills, as assessed by a research proposal at baseline, followed by a written exam.

PLO 2 Develop effective oral communication skills, as assessed by a research proposal at baseline, followed by an oral exam.

PLO 3 Demonstrate the ability to independently answer questions regarding their specific field of study, as assessed by a research proposal at baseline, followed by an oral exam.

PLO 4 Demonstrate the ability to develop, present, defend and critically analyze hypotheses and conclusions using information gained through searches of primary literature, as assessed by a research proposal at baseline, followed by an oral exam.

Biomedical Engineering, MS (Concentrations in General Biomedical Engineering and Biomedical Devices)
PLO 1 Solve complex engineering problems and tasks, and use engineering, science and statistics principles to justify recommendations.
PLO 2 Evaluate the impact of their work on society, including ethical, economic, global and environmental aspects.
PLO 3 Can deliver effective presentations of engineering results in written and oral formats.
PLO 4 Have life-long learning skills and are able to apply their engineering knowledge to critically evaluate relevant literature and new technologies or systems.
PLO 5 Are effective leaders, capable of working in diverse environments.
PLO 6 Are able to apply their engineering education to a variety of career paths.

Biotechnology, MBT

PLO 1 Apply the five ACRL (Assoc. of College Research Librarians) standards.
PLO 2 Demonstrate advanced understanding of topics at the interface of biology and business central to the biotechnology industry.
PLO 3 Demonstrate their ability to efficiently work in teams.
PLO 4 Demonstrate their ability to communicate effectively, verbally and written, to convey scientific and commercial ideas.

Business Administration, MBA (Including Early Career and Professional Programs)

PLO 1 Develop a strategic level understanding of the key functions of business including marketing, accounting, finance, and organizational behavior.
PLO 2 Understand decision making methods including decision trees, expected value, risk and uncertainty, and the value of information.
PLO 3A Understand the major issues facing multinational corporations in the management of their international operations-particularly those of an intercultural nature.
PLO 3B Explain the ethical, legal, and social consequences that ensue when ethics and the law are disregarded in favor of other objectives.
PLO 4 Comprehend the factors that contribute to effective leadership of teams and understanding of the skills and behaviors necessary to be an effective team member.
PLO 5A Demonstrate an ability to understand and adapt to global market changes.
PLO 5B Demonstrate an ability to integrate knowledge and develop innovative solutions to remain competitive given industry dynamics (strategic integration).
PLO 6A Demonstrate an ability to plan, prepare, organize, and present effective oral presentations.
PLO 6B Demonstrate the principles and processes of effective written communications.

Chemical Engineering, MS

PLO 1 Are able to solve complex engineering problems and tasks, and use engineering, science and statistics principles to justify recommendations.
PLO 2 Are able to evaluate the impact of their work on society, including ethical, economic, global and environmental aspects.
PLO 3 Can deliver effective presentations of engineering results in written and oral formats.
PLO 4 Have life-long learning skills and are able to apply their engineering knowledge to critically evaluate relevant literature and new technologies or systems.
PLO 5 Are effective leaders, capable of working in diverse environments.
PLO 6 Are able to apply their engineering education to a variety of career paths.

Chemistry, MA

PLO 1 Demonstrate an advanced understanding of selected topics in chemistry.
PLO 2 Demonstrate information literacy skills for acquiring knowledge of chemistry, both as a student and as a life-
long learner.
PLO 3 Demonstrate an understanding of experimentation, observation and data analysis, and their application to defined questions in chemistry.
PLO 4 Demonstrate a familiarity with available instrumentation for conducting specific scientific research.
PLO 5 Communicate effectively, verbally and written, for the purposes of conveying chemical information to both professional scientists and to the public.

Chemistry, MS

PLO 1 Demonstrate an advanced understanding of selected topics in chemistry.
PLO 2 Demonstrate information literacy skills for acquiring knowledge of chemistry, both as a student and as a lifelong learner.
PLO 3 Demonstrate an understanding of experimentation, observation and data analysis, and their application to defined questions in chemistry.
PLO 4 Demonstrate a familiarity with available instrumentation for conducting specific scientific research.
PLO 5 Communicate effectively, verbally and written, for the purposes of conveying chemical information to both professional scientists and to the public.

Chicana and Chicano Studies, MA

PLO 1 Identify and analyze the major issues, questions, and debates driving theory and research in Chicana/o Studies through written and oral discourse, particularly the central role of race and ethnicity and its intersectional relationship to other socially constructed categories, such as gender, class/SES, and normative heterosexuality, and its historically evolving role in shaping individual and group identities, opportunities, and outcomes in US institutions.
PLO 2 Analyze major theories, paradigms, and methods used to study Chicana/o/Latinx communities historically and today, critically evaluate scholarship in the discipline, and conduct an ethically-based research, creative, or community-based project in Chicana/o Studies.
PLO 3 Effectively present and write insights related to PLOs 1 & 2 in chosen area of emphasis through capstone project that demonstrates the significance of this work and is adequate for effective instruction at the college level.

Child and Adolescent Development, MA

PLO 1 Articulate an advanced understanding of the complexity of the four domains of development (cognitive, emotional, social, and physical) and characterize the impact of the interrelations among domains on child and adolescent development.
PLO 2 Analyze the significance of context on child and adolescent growth and evaluate how different contextual perspectives contribute to both dominant assumptions and alternative viewpoints in our field.
PLO 3 Apply research, theory and problem-solving skills to evaluate best practices in social policy, education, intervention, and practical situations relevant to child and adolescent development.
PLO 4 Categorize, investigate, and critically analyze different sources of information with respect to credibility and validity and determine the appropriate contexts to use each type of source.
PLO 5 Analyze existing questions as well as formulate new questions that are relevant to our field and describe and apply the appropriate methodologies for seeking answers to these questions.
PLO 6 Evaluate different styles of, and engage in, audience-appropriate forms of communication that lead to a shared understanding of developmental issues through negotiation and translation across multiple modes of communication.
PLO 7 Delineate different methods of advocacy, elaborate on key ethical issues, and articulate how differing ethical perspectives influence their decision-making as advocates in our field.

Civil Engineering, MS

PLO 1 Apply advanced concepts, theory and analysis for problem solving.
PLO 2 Synthesize and integrate necessary engineering concepts into engineering solution process.
PLO 3 Apply modern tools for computations, simulations, analysis and design.
PLO 4 Communicate effectively.
Communication Studies, MA

PLO 1 Conceptual Foundations - Identify, explain and critique the major paradigms and theories that have shaped the field of communication, including their historical development and current trends.
PLO 2 Conceptual Foundations - Articulate the ethical and social responsibilities in communicating with others in different social contexts (i.e. interpersonal, organizational, intercultural, mediated, and public).
PLO 3 Inquiry and Research - Interpret and critique research methods used in published communication research studies.
PLO 4 Inquiry and Research - Design and conduct scholarly research using one or more method of inquiry.
PLO 5 Professional Practice - Articulate in-depth understanding of conceptual foundations and research methods through advanced scholarly writing and oral communication.
PLO 6 Professional Practice - Design, facilitate, and evaluate applied communication activities (i.e. presentations, workshops, forums, training’s, group discussions, etc.) in professional contexts utilizing conceptual foundations and research methods.

Computer Engineering, MS

PLO 1 Demonstrate an understanding of advanced knowledge of the practice of computer engineering, from vision to analysis, design, validation, and deployment.
PLO 2 Tackle complex engineering problems and tasks using contemporary engineering principles, methodologies and tools.
PLO 3 Demonstrate leadership and the ability to participate in teamwork in an environment with different disciplines of engineering, science, and business.
PLO 4 Be aware of ethical, economic, and environmental implications of their work, as appropriate.
PLO 5 Advance successfully in the engineering profession and sustain a process of life-long learning in engineering or other professional areas.
PLO 6 Communicate effectively in both oral and written forms.

Computer Science, MS

PLO 1 Breadth of knowledge in computer science with course work in at least three of the subject areas Foundations, Architecture, Systems Software, Software Engineering, Specialty.
PLO 2 Depth of knowledge in an advanced topic in computer science, including the ability to carry out original work that builds upon the existing body of knowledge in the field.
PLO 3 Ability to communicate effectively both orally and in writing Computer Science topics to researchers, practitioners, and the public.

Counseling and Guidance, MA

PLO 1 Design culturally sustaining prevention and intervention counseling programs within educational environments.
PLO 2 Model ethical and inclusive leadership skills that promote equity, social justice, and student success.
PLO 3 Apply effective and inclusive assessment practices within their work with school and community stakeholders.
PLO 4 Create social, cultural, and educational interventions that support students’ academic advancement.
PLO 5 Select and apply relevant research methods to conduct program evaluations, supported by effective technological applications.

Creative Writing, MFA

PLO 1 Demonstrate a high level of ability to write and complete a publishable, full-length work of literature in a primary genre concentration (fiction, creative nonfiction, poetry, or scriptwriting).
PLO 2 Demonstrate a high level of proficiency to write works of literature in a secondary genre concentration (fiction, creative nonfiction, poetry, or scriptwriting).
PLO 3 Demonstrate an appropriate level of knowledge of literary history, literary theory, and craft and theory of creative writing.
PLO 4 Demonstrate critical and analytical skills in the evaluation and interpretation of literary texts.
PLO 5 Demonstrate a command of written academic English, including the abilities to: a) organize and present
material in a cogent fashion; b) formulate and defend original arguments; c) employ effectively the language of their discipline; d) write under time constraints.

Criminology, Global Criminology Concentration, MS

**PLO 1** Describe ways to create social change through a critical understanding of the local and global dimensions of crime.

**PLO 2** Articulate and evaluate scholarly-grounded perspectives on issues of crime and justice, including ways that criminology explains crime and reactions to crime, through academic, professional and social media.

**PLO 3** Explain theories, assumptions, foundational knowledge, analytical and interpretive protocols, tools, and technologies within the field of criminology at a level demonstrating preparation for advanced professional responsibilities, or pursuing a PhD in criminology-related areas.

**PLO 4** Demonstrate skills in each step of an investigative, creative, or practical project (e.g., brainstorming, planning, formulating hypotheses or complex questions, designing, creating, completing, and communicating) that helps advance understanding of a criminological or related issue.

**PLO 5** Employ global perspectives on criminology and concepts of justice to support research-informed solutions to contemporary social problems.

D

Data Analytics, MS

**PLO 1** Integrate multidisciplinary knowledge to engage in practical data analytics projects, from analyzing requirements to managing data, building models, presenting results, and assessing societal impacts.

**PLO 2** Identify, use, and evaluate current and emerging multidisciplinary data analytics technologies and tools.

**PLO 3** Apply effective oral and written communication skills necessary to professional work including collaboration and presentation to multidisciplinary audiences.

**PLO 4** Perform independent research in applying data analytics to specific domains.

**PLO 5** Utilize quantitative skills from a rich foundation of essential knowledge to solve complex, dynamic, and practical data analytics problems in various professional domains.

**PLO 6** Work productively as individuals and in teamwork to perform data analytics tasks as part of a multidisciplinary team.

**PLO 7** Identify ways in which data analytics professionals can contribute to the cultural, economic, educational and social well-being in diverse and multicultural local, national and global contexts.

Data Science, MS

**PLO 1** Apply computer science knowledge and tools to assist in performing data science tasks.

**PLO 2** Summarize and evaluate statistical and machine learning concepts, models and techniques.

**PLO 3** Integrate multidisciplinary knowledge and software to tackle challenging, complex data science tasks.

**PLO 4** Communicate effectively, both orally and in writing, data science concepts, algorithms, and results to a broad audience.

**PLO 5** Identify ways in which data scientists can contribute to the cultural and economic well-beings of diverse societies in local, national and global scopes.

E

Economics, MA (Concentrations in General Economics and Applied Economics)

**PLO 1** Define, describe and illustrate a wide array of microeconomic concepts, using verbal, written, graphical and mathematical expression, and also be able to examine, assess and criticize policies, projects and other current events, using core microeconomic theory, through the advanced level.

**PLO 2** Define, describe and illustrate a wide array of macroeconomic concepts, using verbal, written, graphical and
mathematical expression, and also be able to examine, assess and criticize policies, projects and other current events, using core macroeconomic theory, through the Advanced level.

PLO 3 Describe the contours of, and differences and similarities between, qualitative and quantitative economic research methodologies, including the case study, historical narrative, applied econometric, and policy analysis methods, and to produce an original economic study using an economics methodology.

PLO 4 Define, describe and illustrate advanced theoretical concepts, using verbal, written, graphical and mathematical expression, important to one or more of these areas, to discuss one or more research methods common to a specialist area, and to produce an original economic study using an economics methodology from the specialist area.

PLO 5 Describe and explain conclusions, recommendations, and implications from theory and methods of micro and macro theory, and specialist areas of economics, using written, spoken, and other forms of communication.

Education, Curriculum and Instruction (LACES) Concentration, MA

PLO 1 Understand foundational and theoretical literature related to education in a specific content area (e.g., literacy, mathematics, science, social studies, etc.).

PLO 2 Understand how to critically examine and evaluate methods of instruction including those used with struggling K-12 learners and non-native speakers of English.

PLO 3 Use ongoing assessment data to teach students from diverse linguistic and cultural backgrounds.

PLO 4 Discuss and critique different perspectives of curriculum and explore how these perspectives relate to K-12 classrooms and schooling.

PLO 5 Discuss and identify the important aspects of history, language, and culture undergirding assumptions, values, and beliefs of competing perspectives in education.

PLO 6 Review and critique theoretical and research literature in one's field of interest.

PLO 7 Design and implement a study to address a question in one's field of interest that supports a defensible conclusion and considers relevant implications.

Educational Leadership, Concentration in Emancipatory School Leadership, MA

PLO 1 Build organizational cultures that reflect the diversity of experience and knowledge within school communities.

PLO 2 Identify approaches to educational leadership that includes the cultural wealth present in communities that schools serve.

PLO 3 Design professional development that challenges bias and inequity in school settings.

PLO 4 Create culturally sustaining approaches to instructional leadership.

PLO 5 Implement policies and practices that reflect emancipatory school leadership principles.

Educational Leadership, EdD

PLO 1 Analyze the relationship between system structure and system behavior and propose appropriate structural changes to bring about desirable educational outcomes.

PLO 2 Compare and contrast the strengths and limitations of research and scholarly literature, on the basis of validity, reliability, credibility, bias, and interpretability.

PLO 3 Apply systemic leadership perspectives for creatively addressing complex challenges in educational settings.

PLO 4 Apply concepts such as validity, reliability, bias, and consequences to evaluate the technical quality of qualitative and quantitative data.

PLO 5 Analyze current education policy and school reform trends for equity with integration of research, policy, and practical considerations.

PLO 6 Design and evaluate educational organizations to foster learner-centered teaching, learning, and research-based professional development.

PLO 7 Analyze the role of political, social, and economic forces in perpetuating opportunity gaps for BIPOC and other minoritized learners in K-20 educational institutions.

Electrical Engineering, MS
PLO 1 Base analysis, problem-solving and design on core advanced EE theory.
PLO 2 Demonstrate high-level of expertise and competence in an area of concentration in electrical engineering.
PLO 3 Apply modern tools for research, computation, simulations, analysis, and design.
PLO 4 Demonstrate leadership skills in the workplace, to function professionally in a globally competitive world, and to communicate engineering results effectively.

Engineering, MS

PLO 1 Evaluate and apply advanced engineering principles, methods, and tools to solving problems or improving efficiency.
PLO 2 Design and implement a component, system, or process to meet design specifications and objectives.
PLO 3 Understand and advance the frontiers of emerging technologies.
PLO 4 Understand the social, economic and political context of contemporary engineering practice and its ethics and understand the impact of engineering solutions on society and the environment.
PLO 5 Communicate effectively in both oral and written forms.

Engineering Management, MS

PLO 1 Have an advanced level of ability in applying engineering management knowledge in engineering management decision making.
PLO 2 Have an advanced level of ability in identifying, formulating, analyzing, and solving managerial decision-making problems.
PLO 3 Have an advanced level of ability in effectively interpreting, communicating, and implementing managerial solutions of technical and non-technical problems.
PLO 4 Recognize the need for and to engage in life-long learning.
PLO 5 Recognize professional and ethical responsibility.
PLO 6 Recognize different types of leadership in different types of organizational structures.
PLO 7 Have an advanced level of ability in using techniques and skills in constructing lean solutions to organizational technical problems.
PLO 8 Have an advanced level of ability in constructing economical, environmentally friendly, and socially responsible managerial decisions.

Engineering, Electronic Materials and Devices Concentration, MS

PLO 1 Work individually or collaboratively to plan and develop deliverables to meet project specifications and requirements.
PLO 2 Apply advanced theory, engineering practice and analytical methods to solve engineering problems.
PLO 3 Create written documents and deliver oral presentations for a range of audiences.
PLO 4 Appraise ethical, social, economic, and environmental implications of engineering practice in local and global contexts.

English, MA

PLO 1 Demonstrate an appropriate level of expertise in literary history, literary theory, and rhetoric.
PLO 2 Demonstrate high-level proficiency in literary research and in the synthesis of research.
PLO 3 Demonstrate critical and analytical skills in the interpretation and evaluation of literary texts.
PLO 4 Demonstrate a command of written academic English, including the abilities to a) organize and present material in a cogent fashion, b) formulate and defend original arguments, c) employ effectively the language of their discipline and d) write under time constraints.

Environmental Studies, MS

PLO 1 Thoroughly review literature and research in a specific area of environmental studies and able to formulate original research questions based on critical analysis of aforementioned review.
PLO 2 Develop appropriate and feasible methods for original research project.
PLO 3 Possess thorough knowledge of the history of environmental thought.
PLO 4 Tarry out original research plan and write a high-quality scholarly thesis or professional report.
PLO 5 Present original research results in a public oral defense.

G

Geography, MA

PLO 1 Critically evaluate and interpret published research on the theoretical foundations of geographical information science.
PLO 2 Explain contemporary issues in geographic information science in the context of current theory.
PLO 3 Define a research problem and design and execute a research program.
PLO 4 Evaluate and interpret research results in the context of current theory.
PLO 5 Communicate research results in written, graphic, and verbal form.
PLO 6 Demonstrate understanding of how geographic information science and technology may be applied to a variety of problems.

Geology, MS

PLO 1 Formulate scientifically sound and logistically reasonable plans for solving geologic problems.
PLO 2 Apply the appropriate techniques to acquire and interpret data to arrive at scientifically sound conclusions.
PLO 3 Demonstrate scientific writing of acceptable quality.
PLO 4 Demonstrate the ability to present results of scientific research in oral format.

H

History, MA

PLO 1 Identify, summarize, and synthesize historical arguments about how peoples and societies evolved across time and space.
PLO 2 Interpret, evaluate, compare, and critique historiographical arguments.
PLO 3 Construct persuasive evidence-based historical arguments using original research including primary sources.

Human Factors/Ergonomics, MS

PLO 1 Have an ability to apply knowledge of the sciences of human factors and workplace ergonomics.
PLO 2 Have an ability to design and conduct experiments, as well as to analyze and interpret data.
PLO 3 Have an ability to design a system, component, or process to meet accepted human factors and workplace ergonomics standards within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
PLO 4 Have an ability to function on multi-disciplinary teams.
PLO 5 Have an ability to identify, formulate and solve human factors and workplace ergonomics problems.
PLO 6 Understand professional and ethical responsibility.
PLO 7 Have an ability to communicate effectively.
PLO 8 Have the broad education necessary to understand the impact of human factors and workplace ergonomics solutions in a global, economic, environmental, and societal context.
PLO 9 Have a recognition of the need for, and an ability to engage in, life-long learning.
PLO 10 Have the knowledge of contemporary issues.
PLO 11 Have an ability to use the techniques, skills, and modern human factors and workplace ergonomics tools necessary for industrial and systems engineering practice.
Industrial and Systems Engineering, MS

PLO 1 Apply discipline knowledge and provide effective leadership to derive solutions to problems/challenges within an organization.
PLO 2 Effectively and productively participate in teams.
PLO 3 Recognize organizational processes and behaviors.
PLO 4 Have an advanced level knowledge of methodological and computational skills with which they are able to operate (apply) effectively.
PLO 5 Have an advanced level of ability in collecting, analyzing, and interpreting data.
PLO 6 Have an advanced level of ability in synthesizing and designing solutions for unstructured problems.
PLO 7 Have an advanced level of ability in evaluating the impact of these solutions in the broader context of the organization and society.
PLO 8 Have an advanced level of ability in effectively communicating solutions in the form of written, oral and electronic media.
PLO 9 Develop skills to support life-long learning within the field of profession of ISE.

Informatics, MS

PLO 1 Apply technology informatics skills to solve specific industry data and information management problems, with a focus on usability and designing for users.
PLO 2 Evaluate, manage, and develop electronic records programs and applications in a specific organizational setting.
PLO 3 Demonstrate strong understanding of security and ethics issues related to informatics, user interface, and inter-professional application of informatics in specific fields by designing and implementing appropriate information assurance and ethics and privacy solutions.
PLO 4 Identify user needs, ideate informatics products and services, prototype new concepts, and evaluate a prototype’s usability.
PLO 5 Work collaboratively in teams and use project management practices effectively to solve user-centric information and data problems.
PLO 6 Conduct informatics analysis and visualization applied to different real-world fields, such as health science and sports.

Justice Studies, MS

PLO 1 Evaluate the relationships between social justice and criminal justice across different societies and historical periods.
PLO 2 Demonstrate knowledge and skills needed to fulfill professional responsibilities or to pursue further postgraduate education in justice-related fields.
PLO 3 Synthesize knowledge of scholarly approaches, theoretical perspectives, empirical findings, and historical trends within the subject areas of criminal justice and social justice.
PLO 4 Design, implement, and evaluate research projects in the fields of criminal and social justice, including data collection, analysis, and interpretation.
PLO 5 Apply multidisciplinary notions and principles of justice when formulating responses to social problems in communities and/or justice-related institutions.

Kinesiology, MA (Concentrations in General Kinesiology, Exercise Physiology, Sport Management, and Sport Studies)
PLO 1 Demonstrate the ability to conduct and critique research using theoretical and applied knowledge.
PLO 2 Interpret and apply research findings to a variety of disciplines within Kinesiology.
PLO 3 Effectively communicate essential theories, scientific applications, and ethical considerations in each student's Kinesiology program concentration.
PLO 4 Interpret and apply research findings through acquired skills in order to become agents of change to address issues in Kinesiology through the application of knowledge and research.

Library and Information Science, MLIS

PLO 1 Demonstrate awareness of the ethics, values, and foundational principles of one of the information professions, and discuss the importance of those principles within that profession.
PLO 2 Describe and compare different organizational settings in which information professionals' practice.
PLO 3 Articulate the importance of designing programs and services supportive of diversity, inclusion, and equity for clientele and employees.
PLO 4 Apply the fundamental principles of planning, management, marketing, and advocacy.
PLO 5 Design, query, and evaluate information retrieval systems.
PLO 6 Use the basic concepts and principles related to the selection, evaluation, organization, and preservation of physical and digital information items.
PLO 7 Demonstrate understanding of basic principles and standards involved in organizing information such as classification and controlled vocabulary systems, cataloging systems, metadata schemas or other systems for making information accessible to a particular clientele.
PLO 8 Demonstrate proficiency in identifying, using, and evaluating current and emerging information and communication technologies.
PLO 9 Describe the fundamental concepts of information-seeking behaviors and how they should be considered when connecting individuals or groups with accurate, relevant and appropriate information.
PLO 10 Design collaborative or individual learning experiences based on learning principles and theories.
PLO 11 Demonstrate understanding of quantitative and qualitative research methods, the ability to design a research project, and the ability to evaluate and synthesize research literature.
PLO 12 Demonstrate professional leadership and communication skills.
PLO 13 Evaluate programs and services using measurable criteria.
PLO 14 Understand global perspectives on effective information practices that are supportive of cultural, economic, educational, or social well-being.

Linguistics, MA

PLO 1A Transcribe, using the International Phonetic Alphabet, and produce speech sounds of the world's languages. Apply concepts of acoustic theory in analyses of speech data.
PLO 1B Analyze linguistic sound patterns in terms of their function, their structure, and the pressures that influence their change over time.
PLO 1C Analyze sentence structure of typologically diverse languages using current formalism and explain how syntactic and semantic structures interface.
PLO 1D Analyze the meaning of linguistic expressions, elaborate on the role of linguistic, pragmatic, and cultural context in the interpretation of meaning, and understand the role of theories in the analysis of semantic data.
PLO 1E Show an understanding of current linguistic theories; compare and evaluate different theoretical approaches.

PLO 2A Extract patterns from complex data sets, motivate categorization procedures, and apply learned analytical principles over such patterns.
PLO 2B Carry out independent empirical, experimental or theoretical research involving formulating a research project, presenting a literature review, using appropriate methodology, collecting data pertinent to the project, and interpreting the data.
PLO 2C Use library and electronic research sources effectively.
PLO 2D Use reading and writing and oral skills effectively.
PLO 2E Demonstrate proficiency equivalent to a two-year of an Indo-European or a one-year of a non- Indo-European college level study in a language other than their native language.

PLO 3A Discuss issues in speech synthesis, speech recognition, natural language processing, and develop speech recognition, speech synthesis and natural language processing programs.

PLO 3B Evaluate theories of first and second language acquisition, and second language teaching.

PLO 3C Apply linguistic knowledge to address societal issues related to language variation and diversity, and intercultural communication.

PLO 3D Recognize the relation between language and cognition and evaluate theories of their interaction.

PLO 3E Identify phonological, morphological, syntactic and semantic changes in the history of a language, discuss the contribution of social factors to language variation and change, explain the genetic and typological classification of languages, and use the comparative method to reconstruct ancestors of related languages.

PLO 4 Instill in students an appreciation for the diversity and dynamic nature of human languages and cultures in the U.S. and the world.

M

Marine Science, MS

PLO 1A Demonstrate an understanding of fundamental concepts in a particular category of oceanography and marine science.

PLO 1B Be able to synthesize and integrate across all of these fields, yet achieve a depth of understanding in the student's individual specialty or field of study.

PLO 2 Demonstrate the ability to critically analyze scientific research, whether the student's own research, or that performed by others.

PLO 3 Pose relevant scientific hypotheses or questions that may then serve to guide thesis research.

PLO 4 Demonstrate proficiency in the design and implementation of experiments or data collection methodologies to address specific hypotheses/questions.

PLO 5 Master the skills and tools of data collection and analysis (including analytical and statistical techniques as appropriate) specific to the student's scientific field of study.

PLO 6 Demonstrate the ability to place one's own research within the larger context of relevant field of scientific study and to clearly identify the implications of this research for that field.

PLO 7 Demonstrate proficiency in oral and written communication by being able to present research clearly and concisely. This includes thoughtful and thorough oral and written presentation of their thesis and their responses to questions.

Mass Communications, MS

PLO 1 Demonstrate knowledge of the diversity of groups in a global society in relationship to communications.

PLO 2 Demonstrate the ability to think critically, creatively and independently.

PLO 3 Write correctly and clearly in forms and styles appropriate for the communications professions, audiences, and purposes they serve.

PLO 4 Demonstrate the ability to use tools and technologies appropriate for the communications professions in which they work.

Materials Engineering, MS

PLO 1 Are able to solve complex engineering problems and tasks, and use engineering, science and statistics principles to justify recommendations.

PLO 2 Are able to evaluate the impact of their work on society, including ethical, economic, global and environmental aspects.

PLO 3 Can deliver effective presentations of engineering results in written and oral formats.

PLO 4 Have life-long learning skills and are able to apply their engineering knowledge to critically evaluate relevant
literature and new technologies or systems.
PLO 5 Are effective leaders, capable of working in diverse environments.
PLO 6 Are able to apply their engineering education to a variety of career paths.

Mathematics, MA

PLO 1 Demonstrate a specialized knowledge of mathematics consistent with the graduate-level course sequences.
PLO 2 Evaluate and synthesize research articles in their subfield of mathematics.
PLO 3 Develop effective oral communication skills in their subfield of mathematics.
PLO 4 Develop effective writing communication skills in their subfield of mathematics.

Mathematics, MS

PLO 1 Formulate, apply and evaluate the appropriateness of a mathematical model to solve real-world problems.
PLO 2 Use computation to solve mathematical problems
PLO 3 Communicate and present specialized mathematical concepts to a broad audience.

Mechanical Engineering, MS

PLO 1 A strong foundation beyond the undergraduate level in their chosen focus area as well as in mathematics, basic science and engineering fundamentals, to successfully compete for technical engineering positions in the local, national and global engineering market, advance in their current position or pursue doctoral studies.
PLO 2 Professional and lifelong learning skills to be able to apply and extend theory to solve practical contemporary engineering problems.
PLO 3 The expertise necessary to design mechanical engineering systems with possible specialization in areas such as energy systems, electronics cooling, electronics packaging & reliability, finite element analysis & CAD, mechatronics & MEMS, product design, robotics, automation & manufacturing.
PLO 4 Strong verbal and written communication skills, including the ability to read, write and comprehend technical documents.
PLO 5 Think and work independently to perform design and in-depth analysis in solving open-ended mechanical engineering problems.

Medical Product Development Management, MS

PLO 1 Demonstrate the ability to write a cited, research review paper or design an independent research project that addresses an issue in clinical research / clinical trials.
PLO 2 Demonstrate knowledge of the clinical trial skills and Good Clinical Practices (GCP) relevant to safely and effectively conduct clinical research in human participants
PLO 3 Demonstrate proficiency in scientific writing skills by effectively writing an advanced research paper
PLO 4 Exhibit proficiency in oral presentation skills by effectively presenting project outcome or experience.
PLO 5 Demonstrate leadership, teamwork, and decision-making skills by effectively conducting a capstone / culminating

Meteorology, MS

PLO 1 Conduct an independent research project, and communicate the results in written and oral form in acceptable professional formats.
PLO 2 Explain meteorological phenomena in terms of advanced physical and dynamic concepts.
PLO 3 Understand and be able to apply advanced numerical methods to solve atmospheric and climate science problems.

Music, MM

PLO 1 Perform, compose, conduct, or research at a professionally competent level, to be assessed in the final recital or project.
PLO 2 Have an increased breadth of knowledge and skills beyond the undergraduate level in the foundational areas
of music theory and history and in other areas related to their music concentration, assessed with final projects in 201, 202, 203 and the WCE for music theory and history.

**PLO 3** Identify and use standard digital and paper research tools in music and produce a comprehensive bibliography that shows their ability to utilize standard scholarly tools relevant to their concentration area according to standards set in a research and bibliographic rubric, to be assessed in final projects for 200 and WCE.

**PLO 4** Produce an independent creative or scholarly product that demonstrates technical proficiency in their concentration area and effective artistic and intellectual judgments, assessed in final projects for 203, 201, 200, 202, WCE, and in-class participation.

Music Education, MA

**PLO 1** Perform, compose, conduct, or research at a professionally competent level, to be assessed in the final recital or project.

**PLO 2** Have an increased breadth of knowledge and skills beyond the undergraduate level in the foundational areas of music theory and history and in other areas related to their music concentration.

**PLO 3** Identify and use standard digital and paper research tools in music and produce a comprehensive bibliography that shows their ability to utilize standard scholarly tools relevant to their concentration area according to standards set in a research and bibliographic rubric.

**PLO 4** Produce an independent creative or scholarly product that demonstrates technical proficiency in their concentration area and effective artistic and intellectual judgments.

N

Nursing, MS (Concentration in Family Nurse Practitioner)

**PLO 1** Apply critical thinking and ethical decision-making including the use of the nursing and research processes.

**PLO 2** Provide theory and research-based culturally competent, safe therapeutic nursing interventions for clients in advanced nursing practice.

**PLO 3** Employ advanced interpersonal skills in professional relationships with clients, families/caregivers, and multidisciplinary health care team members.

**PLO 4** Support health promotion and disease prevention activities in developing and monitoring holistic plans of care for well and at-risk clients, considering access, quality and cost.

**PLO 5** Demonstrate the collaborative and leadership skills required in advanced nursing practice within a multidisciplinary and multicultural (community) health care context.

**PLO 6** Plan, implement, and evaluate advanced nursing practice that promotes and preserves health and healthy lifestyles of individual clients and aggregates.

**PLO 7** Plan, implement, and evaluate advanced therapeutic nursing practice in a rapidly changing, multicultural health care environment.

**PLO 8** Implement care management, including but not limited to case management, resource management, advocacy, and outcome evaluation.

**PLO 9** Employ information technology in advanced nursing practice to evaluate and improve health care delivery and outcomes.

**PLO 10** Actualize the advanced nursing practice role by incorporating professional standards, ethical guidelines, legal mandates, and professional activities.

Nursing Practice, DNP

Advanced Nursing Practice

**PLO 1** Conduct a comprehensive and systematic assessment of health and illness parameters in complex situations, incorporating diverse and culturally sensitive approaches.

**PLO 2** Design, implement, and evaluate therapeutic interventions based on nursing science and other sciences.

**PLO 3** Develop and sustain therapeutic relationships and partnerships with patients (individual, family or group) and other professionals to facilitate optimal care and patient outcomes.
PLO 4 Demonstrate advanced levels of clinical judgment, systems thinking, and accountability in designing, delivering, and evaluating evidence-based care to improve patient outcomes.

PLO 5 Guide, mentor, and support other nurses to achieve excellence in nursing practice.

PLO 6 Educate and guide individuals and groups through complex health and situational transitions.

PLO 7 Use conceptual and analytical skills in evaluating the links practice, organizational, population, fiscal, & policy issues.

Clinical Prevention & Population Health

PLO 1 Analyze epidemiological, biostatistical, environmental, and other appropriate scientific data related to individual, aggregate, and population health.

PLO 2 Synthesize concepts, including psychosocial dimensions and cultural diversity, related to clinical prevention and population health in developing, implementing, and evaluating interventions to address health promotion/disease prevention efforts, improve health status/access patterns, and/or address gaps in care of individuals, aggregates, or populations.

PLO 3 Evaluate care delivery models and/or strategies using concepts related to community, environmental and occupational health, and cultural and socioeconomic dimensions of health.

Clinical Scholarship

PLO 1 Use analytic methods to critically appraise existing literature and other evidence to determine and implement the best evidence for practice.

PLO 2 Design and implement processes to evaluate outcomes of practice, practice patterns, and systems of care within a practice setting, health care organization, or community against national benchmarks to determine variances in practice outcomes and population trends.

PLO 3 Design, direct, and evaluate quality improvement methodologies to promote safe, timely, effective, efficient, equitable, and patient-centered care.

PLO 4 Apply relevant findings to develop practice guidelines and improve practice and the practice environment.

PLO 5.1 Use information technology and research methods appropriately to collect appropriate and accurate data to generate evidence for nursing practice.

PLO 5.2 Use information technology and research methods appropriately to inform and guide the design of databases that generate meaningful evidence for nursing practice.

PLO 5.3 Use information technology and research methods appropriately to analyze data from practice.

PLO 5.4 Use information technology and research methods appropriately to design evidence-based interventions.

PLO 5.5 Use information technology and research methods appropriately to predict and analyze outcomes.

PLO 5.6 Use information technology and research methods appropriately to examine patterns of behavior and outcomes.

PLO 5.7 Use information technology and research methods appropriately to identify gaps in evidence for practice.

PLO 6 Function as a practice specialist/consultant in collaborative knowledge-generating research.

PLO 7 Disseminate findings from evidence-based practice and research to improve healthcare outcomes.

Healthcare Policy

PLO 1 Critically analyze health policy proposals, health policies, and related issues from the perspective of consumers, nursing, other health professions, and other stakeholders in policy and public forums.

PLO 2 Demonstrate leadership in the development and implementation of institutional, local, state, federal, and/or international health policy.

PLO 3 Influence policy makers through active participation on committees, boards, or task forces at the institutional, local, state, regional, national, and/or international levels to improve health care delivery and outcomes.

PLO 4 Educate others, including policy makers at all levels, regarding nursing, health policy, and patient care outcomes.

PLO 5 Advocate for the nursing profession within the policy and healthcare communities.

PLO 6 Develop, evaluate, and provide leadership for health care policy that shapes health care financing, regulation, and delivery.

PLO 7 Advocate for social justice, equity, and ethical policies within all healthcare arenas.
Interprofessional Collaboration

PLO 1 Employ effective communication and collaborative skills in the development and implementation of practice models, peer review, practice guidelines, health policy, standards of care, and/or other scholarly products.
PLO 2 Lead interprofessional teams in the analysis of complex practice and organizational issues.
PLO 3 Employ consultative and leadership skills with intraprofessional and interprofessional teams to create change in health care and complex healthcare delivery systems.

Organizational & Systems Leadership

PLO 1 Develop and evaluate care delivery approaches that meet current and future needs of patient populations based on scientific findings in nursing and other clinical sciences, as well as organizational, political, and economic sciences.
PLO 2.1 Use advanced communication skills/processes to lead quality improvement and patient safety initiatives in health care.
PLO 2.2 Employ principles of business, finance, economics, and health policy to develop and implement effective plans for practice-level and/or system-wide practice initiatives that will improve the quality of care delivery.
PLO 2.3 Develop and/or monitor budgets for practice initiatives.
PLO 2.4 Analyze the cost-effectiveness of practice initiatives accounting for risk and improvement of health care outcomes.
PLO 2.5 Demonstrate sensitivity to diverse organizational cultures and populations, including patients and providers.
PLO 3 Develop and/or evaluate effective strategies for managing the ethical dilemmas inherent in patient care, the health care organization, and research.

Patient Care Technology

PLO 1 Use analytic methods to critically appraise existing literature and other evidence to determine and implement the best evidence for practice.
PLO 2 Analyze and communicate critical elements necessary to the selection, use and evaluation of health care information systems and patient care technology.
PLO 3 Demonstrate the conceptual ability and technical skills to develop and execute an evaluation plan involving data extraction from practice information systems and databases.
PLO 4 Provide leadership in the evaluation and resolution of ethical and legal issues within healthcare systems relating to the use of information, information technology, communication networks, and patient care technology.
PLO 5 Evaluate consumer health information sources for accuracy, timeliness, and appropriateness.

Scientific Underpinnings

PLO 1 Integrate nursing science with knowledge from ethics, the biophysical, psychosocial, analytical, and organizational sciences as the basis for the highest level of nursing practice.
PLO 2.1 Use science-based theories and concepts to determine the nature and significance of health and health care delivery phenomena.
PLO 2.2 Use science-based theories and concepts to describe the actions and advanced strategies to enhance, alleviate.
PLO 2.3 Use science-based theories and concepts to ameliorate health and health care delivery phenomena as appropriate.
PLO 2.4 Use science-based theories and concepts to evaluate outcomes.
PLO 3 Develop and evaluate new practice approaches based on nursing theories and theories from other disciplines.

Nutritional Science, MS

PLO 1 To demonstrate advanced competency in professional writing and oral communication of the essential theories, scientific applications, and/or ethical considerations related to the profession.
PLO 2 To identify and articulate social and cultural issues related to nutrition/packaging for various populations.
PLO 3 To analyze and critique published research, and design and conduct research studies using the scientific method.
**Occupational Therapy, MS**

**PLO 1** Be educated as a generalist with a broad exposure to the delivery models and systems used in settings where occupational therapy is currently practiced and where it is emerging as a service.

**PLO 2** Achieve entry level competence.

**PLO 3** Articulate and apply occupational therapy theory, models of practice, clinical reasoning to evidence-based evaluations and interventions to achieve expected outcomes.

**PLO 4** Uphold the ethical standards, values, and attitudes of the occupational therapy profession.

**PLO 5** Be a competent and critical consumer of research and knowledge that supports practice.

**PLO 6** Understand and value the occupational core of the profession.

**PLO 7** Identify the social, political, economic and cultural issues in a diverse society that impact the ability of individuals, communities and populations (clients) to participate in meaningful occupations.

**PLO 8** Advocate for individuals, communities and populations (clients) and actively promote occupational therapy.

**PLO 9** Demonstrate professional and leadership behaviors.

**PLO 10** Be prepared to make a positive impact on occupational pursuits for the health and well-being of society.

**PLO 11** Be self-directed, life-long learners.

**Philosophy, MA**

**PLO 1** Identify, understand and critically discuss, both orally and in a sustained major written essay, and in a written exam taken without the benefit of notes, major figures and ideas in various historical periods and in various traditions from around the world. Identify and discuss, both orally and in a sustained major written essay, core areas of Philosophy.

**PLO 2** Have high level skills in communication, critical inquiry and the ability to collect and evaluate information successfully, and to use all of these skills in their own original research.

**PLO 3** Have an understanding of the demands of responsible citizenship and an understanding of how to make and defend ethical choices.

**PLO 4** Understand the ways in which culture, race, ethnicity, gender, economic class, sexual orientation, and national membership influence perceptions about reality, knowledge and value.

**PLO 5** Teach and assess all these skills and competencies at the lower division undergraduate level.

**Physics, MS**

**PLO 1** Formulate specific research questions, design and perform experiments and research that address these questions.

**PLO 2** Demonstrate a deep understanding of physics concepts by applying those concepts to research in physics.

**PLO 3** Apply laboratory, modeling, computational and/or data analysis skills to their physics research.

**PLO 4** Communicate scientific content and thinking effectively as evidenced by productive collaboration with peers, well-reasoned professionally formatted written research papers and visual and oral presentations of research topics.

**PLO 5** Demonstrate an understanding of how work in physics influences technology, society and culture.

**Clinical Mental Health Counseling, MS**

**PLO 1A** Demonstrate breadth of knowledge of a variety of psychotherapy theories and in-depth knowledge of one chosen theory of intervention.

**PLO 1B** Demonstrate knowledge of empirically supported clinical interventions and evidence ability to select treatments for individual clients given this literature.

**PLO 2A** Demonstrate effective integration and communication of clinical case material.

**PLO 2B** Demonstrate the ability to synthesize contextual and cultural variables into presentations of client materials.
PLO 2C Effectively respond to queries about clinical material and engage in discussions about their clients with supervisors and peers.

PLO 2D Think and discuss cases other than their own, applying theories, principles, and relevant empirical findings to those cases.

PLO 3 Demonstrate understanding of different assessment devices and strategies for assessing client outcome over the course of treatment including standardized nomothetic and idiographic approaches.

PLO 4 Demonstrate depth and breadth of understanding in areas including, but not limited to, psychotherapy theory, service delivery, ethics, assessment, research methods, family therapy, cultural diversity, psychopharmacology, and issues relevant to adult and child clinical populations. Students will be able to apply this knowledge to clinical cases.

PLO 5 Demonstrate fulfillment of coursework and other pre-degree licensing requirements outlined by the Board of Behavioral Sciences.

Psychology, Industrial/Organizational Psychology Concentration, MS

PLO 1A Learn core psychological competencies including: History of I/O Psychology and its integration into the broader discipline and Related fields of psychology (i.e. social psychology, personality psychology, psychometrics, motivation, learning theory).

PLO 1B Students will learn core I/O competencies including: Ethical, legal and professional issues; Measurement of individual differences; Criterion theory and development; Job and task analysis; Employee selection; Performance appraisal and feedback; Training and development; Work motivation; Attitude theory; Organization theory; and Organizational development.

PLO 1C Learn data collection and analysis skills including: Research methods (i.e. methods, procedures, and techniques used to conduct empirical research in I/O psychology) and Statistical methods (i.e. techniques used in the analysis of data generated by empirical research).

PLO 2 Perform professional activities related to I/O Psychology including, but not limited to: Administering employee surveys; Evaluating organizational interventions; Conducting job analyses; Creating selection tests; and Developing performance management systems.

Psychology, Research and Experimental Psychology Concentration, MA

PLO 1 Demonstrate advanced knowledge of the major theoretical perspectives and research methods across areas of experimental psychology (i.e., Developmental, Social, Cognitive, and Physiological).

PLO 2 Possess an advanced level of competence in research methods, statistical techniques, and technical writing skills. Students completing the MA in Psychology program are required to complete a thesis. The thesis will demonstrate: creative problem-solving in the design, implementation of empirical research; project management skills in the implementation of empirical research; advanced competency in the statistical analysis and interpretation of empirical research findings; communication (oral and written) of research findings at a professional level.

PLO 3 Achieve career enhancement through placement in a doctoral program or acceptance of a position requiring a master's in psychology in the public or private sector.

Public Administration, MPA

PLO 1 Lead and manage in public governance

PLO 1A Apply the project management approach to public management models.

PLO 1B Manage projects.

PLO 1B Understand the relationships between public policy, whether proposed or enacted, and leadership and management in implementation.

PLO 2 Participate in and contribute to the public policy process

PLO 2A Apply techniques for program evaluation and policy analysis.

PLO 2B Describe and execute the policy making process, including defining the problem, setting the agenda, formulate policy, implement policy and evaluate policy.

PLO 2C Prepare a budget reflecting policy priorities.
PLO 3 Analyze, synthesize, think critically, solve problems and make decisions
PLO 3A Employ analytical tools for collecting, analyzing, presenting and interpreting data, including appropriate statistical concepts and techniques.
PLO 3B Identify and employ alternative sources of funding, including grants, taxes and fees.
PLO 3C Understand and apply the legal context of public affairs, administration and policy.

PLO 4 Articulate and apply a public service perspective
PLO 4A Behave ethically and with integrity: tell the truth, keep confidences, admit mistakes.
PLO 4B Understand and apply criteria appropriate to public affairs, administration and policy.
PLO 4C Maintain privacy and security of documents and understand Big Data challenges.

PLO 5 Communicate and interact productively with a diverse and changing workforce and citizenry
PLO 5A Communicate effectively in writing: prepares clear, concise and well-organized written materials tailored to the audience's level of expertise and needs.
PLO 5B Communicate effectively in speech: presents oral information accurately, clearly, concisely persuasively tailored level of expertise and needs.
PLO 5C Work productively in teams.

Public Health, MPH

PLO 1 Apply quantitative and qualitative forms of analysis to emerging trends, priorities, and assets in order to predict future individual, community, and population health needs and opportunities, taking into account public health's historical foundations and current evidence base, and to communicate the implications for health promotion policy and practice.

PLO 2 Apply concepts and theories of behavior, education, systems, complexity, communication, and ecological frameworks to design, plan, implement, evaluate, and disseminate health education and health promotion interventions and policy in accordance with public health objectives, community needs, and organizational and community goals.

PLO 3 Provide technical assistance and act as a health education resource across a broad range of settings to promote community health through community building and organizing with identified stakeholders, including community members, consumers, health practitioners and health care providers, policy and decision-makers.

PLO 4 Apply principles and skills of leadership and management to human, fiscal, capital, and social resources when administering health education strategies, interventions, and programs.

PLO 5 Apply the principles and skills of effective inclusive and multicultural practice when engaging with individuals, groups, organizations, and communities from diverse cultures and backgrounds.

PLO 6 Apply policy analysis methods and develop an advocacy strategy to advance public health policy.

PLO 7 Advance public health practice and the health education profession by drawing upon historical and contemporary contributions of the field and applying principles of social justice.

PLO 8 Adhere to standards for ethical practice and research based on their personal values and mission statements, institutional mandates, and the Code of Ethics for the Health Education Profession, in order to apply them to fields of public health and community health education.

Science Education, MS

PLO 1A Synthesize primary literature from science education research and apply how it fits to their project.

PLO 1B Demonstrate knowledge of at least two areas (e.g. inquiry based instruction, learning theory, assessment) that are related to, or supportive of research for their project.

PLO 2A Present science and science education content in the form of graduate seminars or in the oral defense of their project (also known as the culminating experience).

PLO 2B Organize and write the results of their project in a manner consistent with standards in professional science education publications.
Social Work, MSW

PLO 1 Demonstrate Ethical and Professional Behavior.
PLO 2 Engage Diversity and Difference in Practice.
PLO 3 Advance Human Rights and Social, Economic, and Environmental Justice.
PLO 4 Engage In Practice-informed Research and Research-informed Practice.
PLO 5 Engage in Policy Practice.
PLO 6 Engage with Individuals, Families, Groups, Organizations, and Communities.
PLO 7 Assess Individuals, Families, Groups, Organizations, and Communities.
PLO 8 Intervene with Individuals, Families, Groups, Organizations, and Communities.
PLO 9 Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities.

Sociology, MA (Not Accepting Students)

PLO 1 Identify and describe current social issues and social problems in their cultural, historical, and socio-political contexts, and formulate potential solutions to them, using relevant sociological literature.
PLO 2 Explain, and evaluate the ways in which sociological theories and methods are used outside of academic settings in the practice of sociology and the production of positive social change.
PLO 3 Use social theory to critically interpret and evaluate both published social scientific research and social policies and programs.
PLO 4 Produce research (qualitative, quantitative, and/or evaluative) using theory-driven research questions and understand the ethical issues involved with various methodological approaches.
PLO 5 Employ oral, written, and other technologically driven mediums to communicate and present sociological knowledge.
PLO 6 Demonstrate expertise in a select subfield of sociology.

Software Engineering, MS

PLO 1 Demonstrate an understanding of advanced knowledge of the practice of software engineering, from vision to analysis, design, validation and deployment.
PLO 2 Tackle complex engineering problems and tasks, using contemporary engineering principles, methodologies and tools.
PLO 3 Demonstrate leadership and the ability to participate in teamwork in an environment with different disciplines of engineering, science and business.
PLO 4 Be aware of ethical, economic and environmental implications of their work, as appropriate.
PLO 5 Advance successfully in the engineering profession, and sustain a process of life-long learning in engineer or other professional areas.
PLO 6 Communicate effectively, in both oral and written forms.

Spanish, MA

PLO 1 Ability to understand the historical development of the Spanish language in its external (history, culture) and internal development (morphology, syntax and semantics).
PLO 2 Knowledge of and familiarity with the linguistic variation of Spanish and its main dialects, including phonology, geographical variation, social dialects, and registers.
PLO 3 Knowledge of the literatures and cultures of the Spanish-speaking world (Spain, Spanish America and the Hispanic U.S.) and relevant literary and cultural criticism.
PLO 4 Ability to write and present orally in a scholarly fashion.

Special Education, MA

PLO 1 Assess and identify the educational needs and strengths of students with disabilities from diverse socioeconomic, cultural and linguistic backgrounds.
PLO 2 Critically evaluate pedagogy, curricula and instructional materials grounded in quality indicators of evidence-based practices for students with disabilities.
PLO 3 Plan, design, implement, and monitor linguistically and culturally appropriate instruction that meets the unique
needs of students with disabilities.

PLO 4 Apply knowledge of the purpose, characteristics, and appropriate use of different types of assessments used for special education eligibility, placement, and service selection.

PLO 5 Utilize research-based knowledge and theoretical, conceptual and evidence-based practices related to individuals with disabilities to improve services and instruction in the field.

Speech Language Pathology, MS

PLO 1 Demonstrate foundational knowledge of speech, language, hearing, and swallowing disorders.

PLO 2 Demonstrate clinical competence in assessment, differential diagnosis, and intervention in working with clients from diverse backgrounds.

PLO 3 Provide collaborative, inter-professional and family-centered services to clients.

PLO 4 Integrate evidence-based practice to guide and inform clinical decisions and service delivery.

PLO 5 Demonstrate professionalism, ethical actions, and advocacy for persons with speech, language, hearing, and swallowing disorders.

PLO 6 Demonstrate skills in oral and written or other forms of communication sufficient for entry into professional practice of speech-language pathology.

Statistics, MS

PLO 1 Carry out appropriate inferential procedures based on probability theory and the mathematical theory of statistics.

PLO 2 Use technology and statistical software to perform advanced statistical analyses.

PLO 3 Communicate and present specialized statistical concepts clearly in oral, graphical, and written forms using appropriate technical terms in a way that is accessible to a general audience.

Taxation, MS

PLO 1 Identify, understand and resolve complex and multijurisdictional tax issues within the context of our global economy and society.

PLO 2 Learn and acquire research skills for exploring both familiar and novel areas of the tax law and to communicate the findings using clear terms.

PLO 3 Develop conceptual and critical analytic skills with real world applications.

PLO 4 Appreciate tax policy issues and foundations of the tax law.

PLO 5 Understand the ethical implications of tax practice.

PLO 6 Develop skills for effective tax practice including keeping current, interacting with others, and career advancement.

Teaching, MAT

PLO 1 Review and critique foundational, theoretical, and empirical literature related to education.

PLO 2 Critically examine, evaluate, and apply curricula and methods of instruction, including those used with struggling K-12 learners and non-native speakers of English.

PLO 3 Use on-going assessment data to teach students from diverse linguistic and cultural backgrounds.

PLO 4 Identify and discuss important aspects of history, language, and culture undergirding assumptions, values, and beliefs of competing perspectives in education.

PLO 5 Design, implement, and report on a study to address a question in one’s field of interest that supports a defensible conclusion and considers relevant implications.

Teaching English to Speakers of Other Languages (TESOL), MA

PLO 1A Analyze language as a system consisting of phonology, morphology, syntax, semantics, lexis, pragmatics, and discourse and articulate the relationships between the various intrasentential levels and features of English.
structure.

**PLO 1B** Correlate the knowledge and analytical skills in objective 1A with the four skills of reading, writing, listening, and speaking with sufficient precision to teach and assess proficiency in English as a non-native language.

**PLO 2A** Demonstrate an understanding of the role of pragmatic knowledge and knowledge of text structure in the comprehension, production, and acquisition of a second language.

**PLO 2B** Demonstrate an understanding of the intersection between culture, language, language learning and teaching, and language use with particular reference to English as a global language.

**PLO 2C** Apply theoretical knowledge of second language acquisition in second language learning/acquisition contexts.

**PLO 3A** Identify the instructional strategies that go with the established teaching methods and apply them to various language learning and teaching situations.

**PLO 3B** Critically evaluate the teaching of actual ESL classes with regard to teaching strategies and activities and with regard to goals 1 and 2.

**PLO 3C** Demonstrate an understanding of the theory and practice of needs analysis, curriculum design, and assessment techniques.

**PLO 3D** Develop ESL curriculum for diverse target groups, design supplementary materials for use with particular instructional strategies, and develop language tests and assessment instruments by synthesizing the objectives of goals 1 and 2 and the teaching strategies in objective 3A.

**PLO 4A** Critically examine concepts such as race, ethnicity, identity, and culture and their relationship to language teaching and learning in the context of a globalized world.

**PLO 4B** Design syllabi that create classroom and program environments that foster global cultural consciousness.

**PLO 5A** Complete a one-semester supervised practicum in which they plan lessons and teach English to an actual ESL class.

**PLO 5B** Carry out independent research.

**PLO 5C** Effectively write and present for professional audiences.

**Transportation Management, MS**

**PLO 1** Transportation Systems and Society - Develop a systems-savvy and global perspective on solving transportation management challenges.

a. Develop systems-savvy solutions to transportation management challenges.

b. Develop globally-aware solutions to transportation management challenges.

**PLO 2** Transportation Policy - Develop solutions to transportation management challenges that integrate knowledge of the transportation policy environment.

a. Analyze policy problems to identify the relevant legislative and administrative structures that guide the decision.

b. Analyze a transportation management scenario to identify the appropriate roles for different government entities, as well as for political, private sector, and/or nonprofit actors.

c. Analyze transportation tax or fee proposals to determine if and how they contribute to achieving transportation system performance objectives and broad social policy goals.

**PLO 3** Leadership - Identify and analyze leadership styles and traits.

a. Articulate one's own leadership capacity based on an examination of personal leadership style, skills, and preferences.

**PLO 4** Communications - Communicate effectively with a diverse workforce and citizenry.

a. Prepare written materials that are clear, grammatically correct and free of typos, and tailored to the audience's needs and level of expertise.

b. Deliver oral presentations that are clear, concise, and tailored to the audience's needs and level of expertise.
PLO 5 **Analytical Skills** - Identify and evaluate transportation management issues using appropriate data and methods.
   a. Collect, analyze, and synthesize information from multiple sources using appropriate data and methods.

**U**

Urban Planning, MUP

PLO 1 Conceptualize planning problems from complex, real-world situations so that the problems are meaningful to clients, and are research-worthy.

PLO 2 Communicate effectively.

PLO 3 Work effectively as team members and leaders of planning teams, and to apply an understanding of interpersonal and group dynamics to assure effective group action.

PLO 4 Analyze and synthesize planning knowledge and apply it to address actual planning problems.

PLO 5 Develop planning strategies to advance community priorities through collaborative engagement with stakeholders, and do so in a manner that deliberately incorporates multicultural and historical perspectives.

General Education Requirements

General Education Requirements

A university brings together many separate areas of learning, yet it is more than just a collection of specialized disciplines. SJSU's general education program establishes a strong foundation of versatile skills, fosters curiosity about the world, and prepares students to engage and contribute responsibly and cooperatively in a multicultural, information-rich society. General education classes integrate areas of study and encourage progressively more complex and creative analysis, expression, and problem solving. The program aims to equip students with the knowledge, skills, and values they need for a lifetime of intellectual and personal growth. Review the learning goals and outcomes, policies, academic advisement information, and previous requirements.

General Education Requirements

General Education Core - Lower Division Requirements

Students must complete 39 units of Core GE courses. Courses that must be completed as a part of a sequence or are designed for specific majors only are identified in parentheses next to the course. Students may satisfy an Intensive GE sequences in science, math, or music.

Humanities Honors Sequence: GE Areas A/C/D, and the American Institutions (US123) may be entirely satisfied when completing HUM 1A, HUM 1B, HUM 2A, and HUM 2B with grades of "C- or better.

A. English Language Communication and Critical Thinking

9 units

Minimum Grade: A minimum grade of "C-" or better (per the CSU General Education Breadth Requirements).

1. Oral Communication

Oral Communication courses should cultivate an understanding of the social, psychological, political and practical significance of communication, with special emphasis on the roles of public communication in a free society.

- CCS 74 - Public Address 3 unit(s)
- COMM 20 - Public Speaking 3 unit(s)
- COMM 20N - Public Speaking for Nonnative Speakers 3 unit(s)
- COMM 40 - Argumentation and Advocacy 3 unit(s)
- HUM 2A - Honors - Modern World Cultures A 6 unit(s) (must complete sequence with a "C-" or better)

2. Written Communication I
Written Communication I courses should cultivate an understanding of the writing process and the goals, dynamics, and genres of written communication, with special attention to the nature of writing at the university. First year students are expected to complete this requirement within their first two semesters at SJSU.

- ENGL 1A - First Year Writing 3 unit(s)
- ENGL 1AS - First-Year Writing: Stretch English II 3 unit(s)
- HUM 1B - Honors - World Cultures and Societies B 6 unit(s) (must complete sequence with a "C-" or better)

3. Critical Thinking and Writing

Critical Thinking and Writing courses should help students learn to recognize, analyze, evaluate, and produce reasoning.

- ANTH 13 - Archaeology 3 unit(s)
- COMM 41 - Critical Decision Making 3 unit(s)
- COMM 45 - Media and Culture 3 unit(s)
- ENGL 2 - Critical Thinking and Writing 3 unit(s)
- HIST 50 - Historical Process: Understanding Historical Reasoning 3 unit(s)
- HUM 2B - Honors - Modern World Cultures B 6 unit(s) (must complete sequence with a "C-" or better)
- HUM 80 - Reading the World 3 unit(s)
- LING 21 - Language and Thinking 3 unit(s)
- LING 24 - Language Variation in Space, Time, & Culture 3 unit(s)
- PHIL 57 - Logic and Critical Reasoning 3 unit(s)
- POLS 20 - Controversial Legal Issues 3 unit(s)

B. Scientific Inquiry and Quantitative Reasoning

9 units

Complete at least one course in 1. Physical Science, 2. Life Science, and 4. Mathematical Concepts. At least one lab course (L) must be completed.

In Physical, Life, and Laboratory Science courses (B1-3), students should master sufficiently essential quantitative and qualitative skills that are necessary to understand scientific knowledge and methods. Students should be able to incorporate scientific knowledge into the workplace and everyday life experiences.

1. Physical Science

**Intensive Science**: Students who have completed the Intensive Science courses with a "C- or better", will be allowed to use these courses to fulfill the requirement in B1/B3 or B2/B3. Students may petition to have (1) grades below C- (very rarely approved), or (2) other Intensive Science courses not on the list approved as intensive science courses. Additionally, the following packages of courses, all completed with "C- or better", will satisfy Areas B1, B2, and B3: Two courses from PHYS 50, PHYS 51, or PHYS 52, and CHEM 1A; or PHYS 2A and PHYS 2B and CHEM 1A; or CHEM 1A and CHEM 1B, plus a physics course. See details on the Office of Undergraduate Education's Student Petitions website.

- ASTR 10 - Descriptive Astronomy 3 unit(s)
- CHEM 1A - General Chemistry 5 unit(s) (L) (Intensive Science)
- CHEM 1B - General Chemistry 5 unit(s) (L) (Intensive Science)
- CHEM 30A - Introductory Chemistry 3 unit(s) (L)
2. Life Science

**Intensive Science:** Students who have completed the Intensive Science courses with a "C- or better", will be allowed to use these courses to fulfill the requirement in B1/B3 or B2/B3. Students may petition to have (1) grades below C- (very rarely approved), or (2) other Intensive Science courses not on the list approved as intensive science courses. Additionally, the following packages of courses, all completed with "C- or better", will satisfy Areas B1, B2, and B3: Two courses from PHYS 50, PHYS 51, or PHYS 52, and CHEM 1A; or PHYS 2A and PHYS 2B and CHEM 1A; or CHEM 1A and CHEM 1B, plus a physics course. See details on the Office of Undergraduate Education's Student Petitions website.

- ANTH 12 - Introduction to Human Evolution 3 unit(s)
- BIOL 10 - The Living World 3 unit(s)
- BIOL 20 - Ecological Biology 3 unit(s) (L)
- BIOL 21 - Human Biology 3 unit(s) (L)
- BIOL 30 - Principles of Biology I 4 unit(s) (L) (Intensive Science)
- BIOL 31 - Principles of Biology II 4 unit(s) (L) (Intensive Science)
- BIOL 65 - Human Anatomy 4 unit(s) (L) (Intensive Science)
- BIOL 65O - Human Anatomy 4 unit(s) (L) (Intensive Science)
- BIOL 66 - Human Physiology 5 unit(s) (L) (Intensive Science)
- ENVS 10 - Life on a Changing Planet 3 unit(s)
- GEOL 8 - The Age of the Dinosaurs 3 unit(s)
- GLST 1B - Introduction to Global Studies 3 unit(s)
- MICR 20 - General Bacteriology 5 unit(s) (L) (Intensive Science)
- NUFS 16 - Science, Physiology, and Nutrition 3 unit(s)

3. Laboratory

The following courses meet the Lab requirement only.

- BIOL 65L - Anatomy Lab for Transfer Students 1 unit(s)
- BIOL 150 - Field Studies in Natural History 1-2 unit(s) (L)
4. Mathematical Concepts

Mathematical concepts courses enable students to use numerical and graphical data in personal and professional judgments and in coping with public issues. **First year students are expected to complete this requirement within their first two semesters at SJSU.**

**Minimum Grade:** A minimum grade of "C-" or better (per the CSU General Education Breadth Requirements).

**Intensive Math:** Students who have completed an Intensive Math course with a "C- or better", will be allowed to use these courses to fulfill the requirement in B4: MATH 30, MATH 30X, MATH 31, MATH 31X, MATH 32, MATH 32X, MATH 70, MATH 71, or MATH 71X.

- JS 15 - Introductory Statistics in Justice Studies 3 unit(s)
- LING 26 - Quantitative Reasoning in Linguistic Diversity 3 unit(s)
- MATH 1 - Mathematical Reasoning 3 unit(s)
- MATH 10 - Mathematics for General Education 3 unit(s)
- MATH 10A - Mathematics in Art and Music 3 unit(s)
- MATH 10D - Probability, Data Science, Ethics, and You 3 unit(s)
- MATH 10P - Mathematics in Politics 3 unit(s)
- MATH 12 - Number Systems 3 unit(s)
- MATH 18A - College Algebra 3 unit(s)
- MATH 19 - Precalculus 5 unit(s)
- MATH 30 - Calculus I 3 unit(s) (Intensive Science)
- MATH 30X - Calculus I 3 unit(s) (Intensive Science)
- MATH 31 - Calculus II 4 unit(s) (Intensive Science)
- MATH 31X - Calculus II 4 unit(s) (Intensive Science)
- MATH 32 - Calculus III 3 unit(s) (Intensive Science)
- MATH 32X - Calculus III 3 unit(s) (Intensive Science)
- MATH 70 - Finite Mathematics 3 unit(s) (Intensive Science)
- MATH 71 - Calculus for Business and Aviation 3 unit(s) (Intensive Science)
- PH 67 - Introductory Health Statistics 3 unit(s)
- PHIL 9 - Mathematics and Logic for General Education 3 unit(s)
- SOCI 15 - Statistical Applications in the Social Sciences 3 unit(s)
- SOCS 15 - Statistical Applications in the Social Sciences 3 unit(s)
- STAT 95 - Elementary Statistics 3 unit(s)
- UNVS 15F - Statway Part A: Statistics-Concepts & Methods 3 unit(s) (must complete sequence)
- MATH 15F - Statway Part A: Statistics-Concepts & Methods 3 unit(s) (must complete sequence)
- UNVS 15S - Statway Part B: Statistics-Concepts & Methods 3 unit(s) (must complete sequence)
- MATH 15S - Statway Part B: Statistics-Concepts & Methods 3 unit(s) (must complete sequence)

C. Arts and Letters

9 units

Complete no fewer than 9 semester units, with at least one course in the Arts (C1) and one in the Letters (C2).
Arts and Letters courses should give students knowledge and understanding of significant works of the human intellect and imagination. Courses should enable students to participate in social and cultural communities associated with artistic and literary endeavors, enriching their personal and professional lives.

**Intensive Music:** Students who have completed the Intensive Music courses, MUSC 4A, MUSC 4B and MUSC 12, with a "C or better", will be allowed to use these courses to fulfill the requirements of Area C. Students may petition to have (1) grades below C (very rarely approved), or (2) other Intensive Music courses not on the list approved as intensive music courses. See details on the Office of Undergraduate Education's Student Petitions website.

1. **Arts**
   - AMS 1A - American Cultures to 1877 6 unit(s) *(must complete sequence)*
   - ARTH 15 - Intro to Visual Culture 3 unit(s)
   - ARTH 70A - Art History, Prehistoric to Medieval 3 unit(s)
   - ARTH 70B - Art History, Renaissance to Modern 3 unit(s)
   - ARTH 70C - Arts of Asia 3 unit(s)
   - ASIA 70C - Arts of Asia 3 unit(s)
   - ARTH 72 - Design in Society 3 unit(s)
   - CA 95 - Introduction to Queer Arts 3 unit(s)
   - DANC 10 - Dance Appreciation 3 unit(s)
   - HUM 1A - Honors - World Cultures and Societies A 6 unit(s) *(must complete sequence with a "C-" or better)*
   - KIN 68 - Visual Representations of Sport in Popular Culture 3 unit(s)
   - MUSC 4A - Music Systems IVA 2 unit(s) *(Intensive Music)*
   - MUSC 4B - Music Systems IVB 1 unit(s) *(Intensive Music)*
   - MUSC 10A - Music Appreciation 3 unit(s)
   - MUSC 10B - Introduction to Music 3 unit(s)
   - MUSC 10C - Pop and Rock in the U.S. 3 unit(s)
   - MUSC 10D - Introduction to Hip Hop 3 unit(s)
   - MUSC 19 - Music in World Cultures 3 unit(s)
   - PHIL 66 - Introduction to Aesthetics 3 unit(s)
   - RTVF 10 - The Art of Film 3 unit(s)
   - TA 5 - Acting 3 unit(s)
   - TA 10 - Theatre Appreciation 3 unit(s)
   - TA 55 - Intro to Design for Theatre 3 unit(s)

2. **Letters**
   - AMS 1B - American Cultures 1877 to Present 6 unit(s) *(must complete sequence)*
   - CHIN 1A - Elementary Chinese 4 unit(s)
   - CHIN 1B - Elementary Chinese 4 unit(s)
   - CHIN 25A - Intermediate Chinese 4 unit(s)
   - CHIN 25B - Intermediate Chinese 4 unit(s)
   - ENGL 1B - Argument and Analysis 3 unit(s)
   - ENGL 10 - Great Works of Literature 3 unit(s)
   - ENGL 20 - The Graphic Novel 3 unit(s)
   - ENGL 21 - Mystery and Detective Fiction 3 unit(s)
   - ENGL 22 - Fantasy and Science Fiction 3 unit(s)
   - ENGL 30 - Literature and the Environment 3 unit(s)
ENGL 40 - Contemporary World Fiction 3 unit(s)
ENGL 71 - Creative Writing 3 unit(s)
ENGL 78 - Introduction to Shakespeare’s Drama 3 unit(s)
FREN 1A - Elementary French 4 unit(s)
FREN 1B - Elementary French 4 unit(s)
FREN 25A - Intermediate French: Reading 4 unit(s)
FREN 25B - Intermediate French: Writing 4 unit(s)
GERM 1A - Elementary German 4 unit(s)
GERM 1B - Elementary German 4 unit(s)
GERM 25A - Intermediate German 4 unit(s)
GERM 25B - Intermediate German 4 unit(s)
HUM 1A - Honors - World Cultures and Societies A 6 unit(s) (must complete sequence with a "C-" or better)
HUM 2B - Honors - Modern World Cultures B 6 unit(s) (must complete sequence with a "C-" or better)
HUM 90 - Bible History and Literature 3 unit(s)
ITAL 1A - Elementary Italian 4 unit(s)
ITAL 1B - Elementary Italian 4 unit(s)
JPN 1A - Elementary Japanese 4 unit(s)
JPN 1B - Elementary Japanese 4 unit(s)
JPN 25A - Intermediate Japanese 4 unit(s)
JPN 25B - Intermediate Japanese 4 unit(s)
JWSS 90 - Bible History and Literature 3 unit(s)
LSTP 10 - Chronicles of Education 3 unit(s)
MDES 90 - Bible History and Literature 3 unit(s)
MUSC 12 - Medieval and Renaissance Music 3 unit(s) (Intensive Music)
PHIL 10 - Introduction to Philosophy 3 unit(s)
PHIL 61 - Moral Issues 3 unit(s)
PHIL 70A - Ancient Philosophy 3 unit(s)
PHIL 70B - Modern Philosophy 3 unit(s)
POLS 3 - Introduction to Political Thought 3 unit(s)
PORT 1A - Elementary Portuguese I 4 unit(s)
PORT 1B - Elementary Portuguese II 4 unit(s)
RELS 70 - Gods, Guns, Gurus, Grails-World Religion 3 unit(s)
RELS 90 - Bible History and Literature 3 unit(s)
RUSS 1A - Elementary Russian I 4 unit(s)
RUSS 1B - Elementary Russian II 4 unit(s)
SPAN 1A - Elementary Spanish 4 unit(s)
SPAN 1B - Elementary Spanish 4 unit(s)
SPAN 20A - Spanish for Heritage Speakers I 4 unit(s)
SPAN 25A - Intermediate Spanish 4 unit(s)
SPAN 25B - Intermediate Spanish 4 unit(s)
TA 13 - Great Comedies for Theatre 3 unit(s)
TAG 1A - Elementary Tagalog I 4 unit(s)
TAG 1B - Elementary Tagalog II 4 unit(s)
VIET 1A - Elementary Vietnamese 3 unit(s)
VIET 1B - Elementary Vietnamese 3 unit(s)

D. Social Sciences
6 units

Complete no fewer than 6 units in at least two different subject prefixes (for example, ANTH and POLS). To earn American Institutions (US123) credit, students may complete two D courses. Some courses may require completion of a 2-semester sequence in order to receive American Institutions credit (AFAM 2A/AFAM 2B, AAS 33A/AAS 33B, CCS 10A/CCS 10B).

Social Science courses should increase the student's understanding of human behavior and social interaction in the context of value systems, economic structures, political institutions, social groups, and natural environments.

Courses in the Social Sciences must be completed in at least two different disciplines. Students may meet this requirement by either (1) Taking two lower-division Area D courses in different disciplines, or (2) Taking two lower-division Area D courses in the same discipline and an Area S upper-division GE course in a different discipline.

- AAS 20 - Women of Color in the U.S. 3 unit(s)
- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (must complete sequence)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (must complete sequence)
- AFAM 2A - African Americans and the Development of America’s History and Government 3 unit(s) (must complete sequence)
- AFAM 2B - African Americans and the Development of America’s History and Government 3 unit(s) (must complete sequence)
- AMS 1A - American Cultures to 1877 6 unit(s) (must complete sequence)
- AMS 1B - American Cultures 1877 to Present 6 unit(s) (must complete sequence)
- ANTH 11 - Cultural Anthropology 3 unit(s)
- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (must complete sequence)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (must complete sequence)
- CCS 30 - Race and Ethnicity in Public Space 3 unit(s)
- CHAD 75 - Imagination, Play and Adult Creativity 3 unit(s)
- COMM 10 - Communication and Human Relationships 3 unit(s)
- COMM 21 - Performing Culture and Society 3 unit(s)
- CS 25 - The Digital World and Society 3 unit(s)
- ENGR 25 - The Digital World and Society 3 unit(s)
- ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s)
- ENV 1 - Introduction to Environmental Issues 3 unit(s)
- GEOG 10 - Cultural Geography 3 unit(s)
- GEOG 12 - World Regional Geography 3 unit(s)
- HIST 1A - World History to 1500 3 unit(s)
- HIST 1B - World History from 1500 3 unit(s)
- HIST 10A - Western Civilization 3 unit(s)
- HIST 10B - Western Civilization 3 unit(s)
- HIST 15 - Essentials of U.S. History 3 unit(s) (must complete sequence)
- HUM 2B - Honors - World Cultures and Societies B 6 unit(s) (must complete sequence with a "C-" or better)
- HUM 2A - Honors - Modern World Cultures A 6 unit(s) (must complete sequence with a "C-" or better)
- JOUR 50 - Navigating the News 3 unit(s)
- JS 25 - Introduction to Human Rights and Justice 3 unit(s)
- LING 20 - Nature of Language 3 unit(s)
- LING 24 - Language Variation in Space, Time, & Culture 3 unit(s)
- LING 25 - Languages of the World 3 unit(s)
• MCOM 72 - Mass Communication and Society 3 unit(s)
• PH 15 - Human Life Span 3 unit(s)
• POLS 2 - Introduction to Comparative Politics 3 unit(s)
• POLS 4 - Introduction to International Relations 3 unit(s)
• POLS 15 - Essentials of U.S. & California Government 3 unit(s) (must complete sequence)
• PSYC 1 - Introduction to Psychology 3 unit(s)
• RECL 15 - Human Life Span 3 unit(s)
• SOCI 1 - Introduction to Sociology 3 unit(s)
• SOCI 80 - Social Problems 3 unit(s)
• WGSS 5Q - Gender, Race & Sexuality in Media 3 unit(s)
• WGSS 10 - Women, Gender, and Sexuality Studies 3 unit(s)
• WGSS 20 - Women of Color in the U.S. 3 unit(s)

**E. Human Understanding & Development**

3 units

Complete one course.

Human Understanding and Development courses will enable students to understand themselves as integrated physiological, social, and psychological entities who are able to formulate strategies for lifelong personal development. Students will also learn skills to employ available university resources to support academic and personal development.

• ANTH 25 - Human Lifecourse in Context 3 unit(s)
• BIOL 54 - Human Understanding 3 unit(s)
• BUS3 12 - Managing My life 3 unit(s)
• CA 60 - Creativity Matters 3 unit(s)
• CHAD 60 - Child Development 3 unit(s)
• CHAD 70 - Lifespan Development in the 21st Century 3 unit(s)
• COMM 74 - Fundamentals of Intercultural Communication 3 unit(s)
• COMM 74Q - Fundamentals of Intercultural Communication 3 unit(s)
• EDCO 4 - Personal, Academic and Career Exploration 3 unit(s)
• EDCO 4FY - Personal, Academic and Career Exploration 3 unit(s)
• ENGR 10 - Introduction to Engineering 3 unit(s) (specified majors only)
• GEOL 5 - Human Development and the Natural World 3 unit(s)
• GERO 99 - Death, Dying and Religions 3 unit(s)
• HUM 99 - Death, Dying and Religions 3 unit(s)
• KIN 69 - Stress Management: A Multidisciplinary Perspective 3 unit(s)
• LING 22 - Language across the Lifespan 3 unit(s)
• MUSC 8 - The Artist's Way 3 unit(s)
• NUFS 9 - Introduction to Human Nutrition 3 unit(s)
• NUFS 10 - Basic Life Skills 3 unit(s)
• PH 1 - Understanding Your Health 3 unit(s)
• PHIL 12 - Philosophy of the Person 3 unit(s)
• PSYC 2Q - Identity Development and Prejudice 3 unit(s)
• RECL 10 - Creating a Meaningful Life 3 unit(s)
• RELS 99 - Death, Dying and Religions 3 unit(s)
• SCED 5 - Human Development and the Natural World 3 unit(s)
• SCI 2 - Success in Science 3 unit(s)
• SOCI 57 - Community Involvement and Personal Growth 3 unit(s)
• TA 48 - Voice & Movement for the Actor 3 unit(s)

F. Ethnic Studies

3 units

Complete one course.

Ethnic Studies courses will give students the knowledge and skills necessary for comprehending settler colonial histories, the racial and ethnic dynamics, and continued sovereignty and social justice movements in the United States. Students will gain the skills to better operate as responsible, informed, and constructive citizens in an evolving multiracial and multicultural democracy.

Transfer students may have catalog rights to the General Education pattern that was in place when they started their college education - see your advisor.

• AAS 1 - Introduction to Asian American Studies 3 unit(s)
• AAS 25 - The Changing Majority: Power and Ethnicity in America 3 unit(s)
• AAS 159 - Asian American Media Representation and Popular Culture 3 unit(s)
• AFAM 22 - The Humanities in African American Culture 3 unit(s)
• AFAM 25 - The Changing Majority: Power and Ethnicity in America 3 unit(s)
• AFAM 134 - The Black Civil Rights Movements 3 unit(s)
• CCS 1 - Introduction to Chicana and Chicano Studies 3 unit(s)
• CCS 25 - The Changing Majority: Power and Ethnicity in America 3 unit(s)

SJSU Studies - Upper Division Requirements

Students complete 9 to 12 units of SJSU studies: 9 units of upper division general education courses (Areas R/S/V) and 0 to 3 units of 100W (Area Z). In some cases, SJSU Studies areas are integrated in a single course or overlap with the major.

Grade Option: Areas R, S, V, and Z must be taken for a letter grade.

Second baccalaureate students who earned their first bachelor degree from a regionally accredited institution in the U.S. are not required to take SJSU Studies unless specific courses are required by the major.

Transfer students who complete any portion of upper division GE at another CSU campus may request equivalency for coursework in SJSU Studies. Contact the Undergraduate Education Office for evaluation of coursework.

Areas R, S, and V

9 units

Complete one course from each area.

Minimum Prerequisites:

1. Completion of core GE;
2. Satisfaction of Writing Skills Test (temporarily suspended - see the Writing Across the Curriculum website). Students who fail the WST may satisfy this requirement by passing ENGL 100A or LLD 100A with a grade of "C or better:";
3. Upper division standing; and,
4. Pre/Corequisite: a 100W course is strongly recommended.

Minimum Grade: minimum aggregate GPA of 2.0 for areas R, S, and V. If more than one course is taken in any of the individual R, S, or V areas, then the highest grade in that individual area will be used to calculate the aggregate SJSU Studies GPA. If any student took one or more Area R/S/V courses in the Spring 2020 semester (regardless of whether the student chooses to receive a grade or opts for Credit/No Credit), the requirement for a minimum aggregate 2.0 GPA in R/S/V courses will be waived.

Year-Long Course Sequences: Students enroll in 6 units in the fall and 3 units in the spring. Must earn a grade of "C" or better in each course to satisfy R/S/V.

- COMM 168A/168B, ENVS 168A/168B, GEOL 168A/168B, HUM 168A/168B, METR 168A/168B - Global Climate Change II; or,
- HUM 177A/177B - Advanced Honors in Integrated Science, Social Science, and Humanities.

R. Earth and Environment

Courses in Earth and Environment will cultivate a student's knowledge of the scientific study of the physical universe and its life forms. Students will understand and appreciate the interrelationship of science and human beings to each other.

- AMS 139 - Animals and Society 3 unit(s)
- ANTH 160 - Reconstructing Lost Civilizations 3 unit(s)
- ASTR 101 - Modern Astronomy 3 unit(s)
- BIOL 101 - Origins of Life 3 unit(s)
- BIOL 110 - Biodiversity and Biopolitics 3 unit(s)
- BIOL 135B - Eukaryotic Cell and Molecular Biology II 3 unit(s) (specified majors only)
- BIOL 159 - Integrative Biology 3 unit(s) (specified majors only)

S. Self, Society & Equality in the U.S.

Students in courses in Self, Society & Equality in the U.S. will study the interrelationships of individuals, racial groups, and cultural groups to understand and appreciate issues of diversity, equality, and structured inequality in the U.S., its institutions, and its cultures.
Courses in the Social Sciences must be completed in at least two different disciplines. Students may meet this requirement by either (1) Taking two lower-division Area D courses in different disciplines, or (2) Taking two lower-division Area D courses in the same discipline and an Area S upper-division GE course in a different discipline.

- AE 171A - Aircraft Design I 3 unit(s) (specified majors only)

V. Culture, Civilization & Global Understanding
Students in courses in Culture, Civilization & Global Understanding should receive an appreciation for human expression in cultures outside the U.S. and an understanding of how that expression has developed over time. Additionally, students should understand how traditions of cultures outside the U.S. have influenced American culture and society.

- AE 171B - Aircraft Design II 3 unit(s) (specified majors only)

Z. Written Communication II

3 units

All students must satisfy the Graduation Writing Assessment Requirement (GWAR) by earning a "C" or better in a 100W course, OR earn a waiver score on the Writing Skills Test (WST). WST temporarily suspended - see the Writing Across the Curriculum website.

In Written Communication II courses, students will develop advanced proficiency in college-level writing and appropriate contemporary research strategies and methodologies to communicate effectively to both specialized and general audiences. For most degree programs, students should take the 100W course that is required as part of the major program.

Minimum Prerequisite: A passing score on the WST or a grade of "C" or better for ENGL 100A or LLD 100A.

Minimum Grade: A minimum grade of "C" or better (C- not accepted per the Undergraduate University Graduation Requirements).

Waiver of the 100W Course: A waiver score on the WST satisfies Area Z without the need to complete a 100W course only in majors that permit a waiver score.

Majors that require students complete the 100W course and do not accept the waiver score on the Writing Skills Test include:

• African American Studies, BA
• Biological Sciences - Ecology and Evolution, BS
• Biological Sciences - Marine Biology, BS
• Biological Sciences, BA
• Biological Sciences, Ecology and Evolution Concentration, MS
• Biological Sciences, Microbiology Concentration, BS
• Biological Sciences, Molecular Biology Concentration, BS
• Biological Sciences, Systems Physiology Concentration, BS
• Chemistry, BA
• Chemistry, Biochemistry Concentration, BS
• Chemistry, BS
• Child and Adolescent Development, BA
• Child and Adolescent Development, Preparation for Teaching W/CSET Waiver, BA
• Child and Adolescent Development, Preparation for Teaching, BA
• Communication Studies, BA
• Earth System Science, BS
• Economics, BA
• Economics, BS
• Engineering (all majors)
• English, BA
• English, Creative Writing Concentration, BA
• English, Preparation for Teaching (Single Subject), BA
• English, Professional and Technical Writing Concentration, BA
• Environmental Studies, BA
• Environmental Studies, BS
• Environmental Studies, Preparation for Teaching, BA
• Geography, BA
• Geology, BS
• Global Studies, BA
• History, BA
• Meteorology, BS
• Climate Science, BS
• Nursing, BS
• Political Science, BA
• Psychology, BA
• Social Science, Preparation for Teaching (Single Subject), BA
• World Languages and Literatures (all majors)

Transfer students who complete the Graduation Writing Assessment Requirement (GWAR) while matriculated at another CSU, or equivalent coursework at another university prior to SJSU enrollment.

100W Courses

• AFAM 100W - Writing Workshop 3 unit(s)
• ANTH 100W - Writing Workshop 3 unit(s)
• ART 100W - Writing Workshop: Fine Arts 3 unit(s)
• BIOL 100W - Scientific Communication Workshop 3 unit(s)
• CHAD 100W - Writing Workshop 3 unit(s)
• CHEM 100W - Writing Workshop: Chemical Communications 3 unit(s)
• COMM 100W - Writing Workshop: Writing for Influence 3 unit(s)
• CS 100W - Technical Writing Workshop 3 unit(s)
• DSGN 100W - Writing Workshop: Design 3 unit(s)
• ECON 100W - Writing Workshop: Economic Reports 4 unit(s)
• ENGL 100W - Writing Workshop 4 unit(s)
• ENGL 100WB - Written Communication: Business 3 unit(s)
• ENGR 100W - Engineering Reports 3 unit(s)
• ENVS 100W - Environmental Research and Writing 3 unit(s)
• FORL 100W - Writing Workshop 3 unit(s)
• FS 100W - Forensic Science Writing Workshop 3 unit(s)
• GEOG 100W - Writing Workshop 3 unit(s)
• GLST 100W - Writing Workshop 3 unit(s)
• HIST 100W - History Writers' Workshop 3 unit(s)
• HUM 100W - Writing in the Humanities & Interdisciplinary Arts 3 unit(s)
• AMS 100W - Writing in the Humanities & Interdisciplinary Arts 3 unit(s)
• RELS 100W - Writing in the Humanities & Interdisciplinary Arts 3 unit(s)
• NUFS 100W - Writing Workshop 3 unit(s)
• PH 100W - Writing Workshop 3 unit(s)
• NURS 100WE - Evidence Based Practice Writing Workshop 3 unit(s)
• JS 100W - Writing Workshop 3 unit(s)
• KIN 100W - Writing Workshop 3 unit(s)
• LLD 100W - Writing Workshop 3 unit(s)
• LLD 100WB - Writing Workshop for Business Students 3 unit(s)
• MCOM 100W - Writing Workshop: Mass Communications 3 unit(s)
• METR 100W - Writing Workshop: Meteorological Reports 3 unit(s)
• MUSC 100W - Written Communication II 3 unit(s)
• PHYS 100W - Methods of Research and Communication in Physics 3 unit(s)
• POLS 100W - Writing Workshop 3 unit(s)
• PSYC 100W - Writing Workshop 3 unit(s)
• RECL 100W - Writing Workshop 3 unit(s)
• SCWK 100W - Writing Workshop 3 unit(s)
• SOCI 100W - Writing Workshop 3 unit(s)
• TA 100W - Writing Workshop: Theatre Arts 3 unit(s)
General Education Academic Advisement

Your college student success center and Academic Advising and Retention Services provides general education academic advising to ensure your academic success and help you achieve your educational goals. To make the most of your advising sessions, please observe the following:

- You must be a currently matriculated student at the time you make an appointment.
- Bring a complete set of all college transcripts—unofficial copies are acceptable.
- Bring a copy of your General Education certification if you attended a California Community College. A partial certification is acceptable.
- Review your MyProgress and MyPlanner reports prior to your appointment
- Learn the requirements for your major—see the SJSU Catalog for details.
- See your major advisor.

Note: Admitted students should wait until after attending an orientation program before requesting an appointment. Students who have not yet been admitted to SJSU should make an appointment for advising with Student Outreach and Recruitment at 408-924-2564.

General Education Policies

Per the CSU General Education Breadth Requirements and University Policy S14-5.

1. All students must complete 48 units of approved GE courses with letter grades. If a requirement is waived without unit credit, additional approved GE courses must be taken to complete a minimum of 48 GE units.

2. All three areas of the following must be completed by all students: Core GE (39 units), SJSU Studies (9 upper division GE units and 100W) and American Institutions (US123) (0-6 units).

3. Transfer students may fulfill all lower division core GE by completing the Intersegmental GE Transfer Curriculum (IGETC) or a CSU GE 39-unit breadth certification prior to transfer. Having completed the IGETC or CSU GE Breadth certification, the transfer student cannot be held to additional lower division core GE requirements.

4. All students must satisfy SJSU Studies at SJSU regardless of GE completed at other institutions. Exceptions:
   - Written Communication II (100W) may be satisfied prior to transfer, unless also specified as a course requirement in the major.
   - A complete 48 unit GE Certification from another CSU is submitted, showing lower and upper division completed.
   - Second baccalaureate students who earned their first bachelor degree from a regionally accredited institution in the U.S.
   - Student completes an approved upper division GE course at another CSU, in person or online.

5. If a course is listed as a sequence (A-B), the entire sequence must be completed to satisfy the requirement.

6. Oral Communication (A1), Written Communication I (A2), Critical Thinking and Writing (A3), and Mathematical Concepts (B4) courses each require a minimum grade of "C-" or better.

7. Completion of Written Communication I (Area A2) with a "C-" or better is a prerequisite to the WST. Satisfying the WST requirement is prerequisite to any SJSU Studies course. The WST has been temporarily suspended. See Temporary WST Policy for more information.

8. To find approved courses, check the Course Abbreviations listed for the requirement. This designator is printed by each GE class section in the MySJSU Schedule of Classes (access through One.SJSU.edu).

9. All GE courses must be on the approved list of the California Community College (CCC), California State University (CSU) or University of California (UC) for CSU Breadth Requirements or the Intersegmental General Education Transfer Curriculum (IGETC) where and when the course is taken.

10. The following GE courses require prerequisites to enroll:
    - Oral Communication (Area A1) & Written Communication I (Area A2), both passed with grades of "C-" or better, are prerequisites to Critical Thinking and Writing (Area A3).
    - Satisfaction of the Writing Skills Test (WST) requirement and upper division standing are prerequisites to SJSU Studies (Areas R, S, V, Z).
    - Completion of Area A3 (or a 2nd semester composition course) with a "C-" or better is a prerequisite to Area Z (100W).

See the Testing section for additional information about these exams.

11. Subsequent to completion of all CSU General Education Requirements (at the lower and upper divisions), a student may not be required to satisfy additional general education requirements outside of the major program requirements.

12. Complete information on specific requirements and approved courses is found each semester in the General Education Requirements.
General Education Program Goals and Outcomes

Students who complete the General Education curriculum should be able to demonstrate:

**Goal 1:** To develop students’ core competencies for academic, personal, creative, and professional pursuits. Goal 1 has five learning outcomes (PLOs 1-5):

- **PLO 1. [Oral Communication]**
  Create and deliver logically-organized, well-supported, and compelling messages both in presentation and in conversation for specific audiences and diverse settings.

- **PLO 2. [Written Communication]**
  Develop and practice a writing process that accounts for the goals, dynamics, and genres of written communication, with special attention to the conventions of writing at the university.

- **PLO 3. [Critical Thinking]**
  Identify and analyze a subject/topic/issue/problem of significance by evaluating the merits of different positions or perspectives; support the analysis with relevant evidence and information while stating assumptions; and draw evidence-based conclusions.

- **PLO 4. [Quantitative Reasoning]**
  Analyze, interpret, and represent quantitative information in various forms to examine a question; explain the processes behind data collection and generation; and communicate evidence in support of an argument or purpose while stating assumptions, limitations, and biases, and drawing appropriate conclusions.

- **PLO 5. [Information Literacy]**:
  Identify information needs, locate and access relevant and credible information while accounting for bias, and use information legally and ethically.

**Goal 2:** To enact the university’s commitment to diversity, inclusion, and justice by ensuring that students have the knowledge and skills to serve and contribute to the well-being of local and global communities and the environment. Goal 2 has two learning outcomes (PLOs 6 and 7):

- **PLO 6. [Diversity, Inclusion, and Justice]**
  Examine diverse cultures, communities, and environments; explore different perspectives; analyze connections to issues of justice/injustice; and prepare to live and work responsibly and cooperatively in multicultural societies.

- **PLO 7. [Civic and Global Engagement]**
  Engage with global perspectives and knowledge; develop civic skills, interests, and values; and apply knowledge, skills and values to multicultural, community, and environmental interests.

**Goal 3:** To offer students integrated, multidisciplinary, and innovative study in which they pose challenging questions, address complex issues, and develop cooperative and creative responses. Goal 3 has two learning outcomes (PLOs 8 and 9):

- **PLO 8. [Integration and Application]**
  Integrate and apply knowledge and methods from more than one discipline or area of study to explore a complex question, address an issue, or produce a creative work.

- **PLO 9. [Reflection and Self-Assessment]**
  Evaluate and reflect on one’s own learning while building on prior knowledge and life experiences.

Developing Educated Persons
Each of the General Education areas develop students to become educated persons.

**Basic Skills**

Basic Skills of an Educated Person (A1-3, B4) develop students' communication and analytical skills. An educated person can communicate ideas effectively verbally and in writing. An educated person must also have strong reasoning powers in order to analyze all types of information. Per CSU policy, each Basis Skills course must be passed with a grade of C- or better to fulfill graduation requirements.

**Basic Knowledge**

Basic Knowledge of an Educated Person (B1-3, C1-2, D, E, F) develop students' understanding and appreciation of the fundamentals of science, arts and letters, and the forces that shape the individual and modern society throughout the lifespan. This fundamental knowledge is crucial to understanding more advanced topics, including a major field of study.

**Integrative Knowledge**

Integrative Knowledge of an Educated Person (R, S, V, Z) help students integrate knowledge between and among disciplines. An educated person is able to apply concepts and methods learned in one area to other areas as part of a lifelong learning process. SJSU Studies courses develop abilities that enable students to live and work intelligently, responsibly, and cooperatively in a multicultural society and to develop abilities to address complex issues and problems using disciplined analytical skills and creative techniques.
Previous General Education Requirements

Students approved for earlier GE patterns have four options:

1. Follow the General Education Requirements pattern in this catalog;
2. Continue to follow their previous pattern using courses that now appear in categories that are the same as the previous pattern;
3. Use courses previously taken when approved for the required categories; or,
4. Use courses in new categories to substitute for previous requirements.

The patterns for the GE Fall 2019-Spring 2021, GE Fall 2018-Spring 2019, and GE Spring 2018 & Earlier are available for reference.
Exceptions for University Graduation Requirements

Exceptions and in rare cases modifications to University Graduation Requirements apply only to student's graduating with the below listed majors. View Course Abbreviations for a list of GE area abbreviations. Some majors waive the Physical Education Requirement for ADT Transfer Students only. Students may petition to waive some graduation requirements though the Office of Undergraduate Education.

- Aerospace Engineering, BS: GE Area A3 met with completion of major; Area B2 (Intensive Science with completion of the major); only requires 6 units of GE Area C (3 units of each C1 and C2); Physical Education Waived; Areas S and V met in the major (AE 171A/AE 171B or AE 172A/AE 172B plus ENGR 195A/ENGR 195B)
- Animation & Illustration, BFA: Physical Education Waived
- Aviation, BS: GE Area B2 (Intensive Science with completion of major); Physical Education Waived
- Biological Sciences, BA: GE Area R (completion of major, BIOL 115 or BIOL 118 and one of the following BIOL 160, BIOL 178, BIOL 135B, or MICR 127)
- Biological Sciences - Ecology and Evolution, BS: Area R (completion of major, BIOL 115 and BIOL 160)
- Biological Sciences - Marine Biology, BS: GE Area A3 met with completion of the major, Area R (completion of major, BIOL 118)
- Biological Sciences, Microbiology Concentration, BS: GE Area R (completion of major, MICR 166 and MICR 127)
- Biological Sciences, Molecular Biology Concentration, BS: GE Area R (completion of major, BIOL 115 and BIOL 135B)
- Biological Sciences, Systems Physiology Concentration, BS: GE Area R (completion of major, BIOL 115 and BIOL 178)
- Biomedical Engineering, BS: GE Area A3 met with completion of major; Area B2 (Intensive Science with completion of the major); only requires 6 units of GE Area C (3 units of each C1 and C2); Physical Education Waived; Areas S and V met in the major (Permalink/Permalink plus ENGR 195A/ENGR 195B)
- Chemical Engineering, BS: GE Area A3 met with completion of major; Area B2 (Intensive Science with completion of the major); only requires 6 units of GE Area C (3 units of each C1 and C2); Physical Education Waived
- Chemistry, BA: GE Area B2 (Intensive Science with completion of the major)
- Chemistry, BS: GE Area B2 (Intensive Science with completion of the major); only requires 6 units of GE Area C (3 units of each C1 and C2)
- Chemistry, Biochemistry Concentration, BS: GE Area A3 met with completion of the major; Area R with CHEM 130A and CHEM 131B
- Child and Adolescent Development, Preparation for Teaching W/CSET Waiver, BA: only requires 6 units of GE Area C (3 units of each C1 and C2)
- Civil Engineering, BS: GE Area A3 met with completion of major; Area B2 (Intensive Science with completion of the major); only requires 6 units of GE Area C (3 units of each C1 and C2); Physical Education Waived
- Computer Engineering, BS: GE Area A3 met with completion of major; only requires 6 units of GE Area C (3 units of each C1 and C2); Physical Education Waived; Areas S and V met in the major (CMPE 195A/CMPE 195B plus ENGR 195A/ENGR 195B)
- Computer Science, BS: only requires 6 units of GE Area C (3 units of each C1 and C2)
- Dance, BA and Dance, BFA: Physical Education with completion of the major
- Earth System Science, BS: GE Area B2 (Intensive Science with completion of the major)
- Electrical Engineering, BS: GE Area A3 met with completion of major; Area B2 (Intensive Science); only requires 6 units of GE Area C (3 units of each C1 and C2); Physical Education Waived; Areas S and V met in the major (EE 198A/EE 198B plus ENGR 195A/ENGR 195B)
• Engineering Technology, Computer Network System Management Concentration, BS and Engineering Technology, Manufacturing Systems Concentration, BS: Area B2 (Intensive Science with completion of the major); only requires 6 units of GE Area C (3 units of each C1 and C2); Physical Education Waived
• Environmental Studies, BA: only requires 6 units of GE Area C (3 units of each C1 and C2)
• Environmental Studies, BS: only requires 6 units of GE Area C (3 units of each C1 and C2)
• Environmental Studies, Preparation for Teaching, BA: only requires 6 units of GE Area C (3 units of each C1 and C2)
• Geology, BS: GE Area A3 met with completion of major; Area B2 (Intensive Science with completion of the major)
• Industrial Design, BS: Physical Education Waived
• Industrial and Systems Engineering, BS: GE Area A3 met with completion of major; Area B2 (Intensive Science with completion of the major); only requires 6 units of Area C (3 units each of C1 and C2); Physical Education Waived
• Interdisciplinary Engineering, BS: GE Area A3 met with completion of major; Area B2 (Intensive Science with completion of the major); only requires 6 units of GE Area C (3 units of each C1 and C2); Physical Education Waived; SAreas S and V met the major (Permalink/Permalink plus ENGR 195A/ENGR 195B)
• Kinesiology, BS: BIOL 65 and BIOL 66 fulfill GE Area B2.
• Liberal Studies, Integrated Teacher Education Program, BA: only requires 6 units of GE Area C (3 units of each C1 and C2)
• Materials Engineering, BS: GE Area A3 met with completion of major; Area B2 (Intensive Science with completion of the major); only requires 6 units of GE Area C (3 units of each C1 and C2); Physical Education Waived; Areas S and V met in the major (Permalink/Permalink plus ENGR 195A/ENGR 195B)
• Mechanical Engineering, BS: GE Area A3 met with completion of major; Area B2 (Intensive Science with completion of the major); only requires 6 units of GE Area C (3 units of each C1 and C2); Physical Education Waived; Areas S and V met in the major (ME 195A/ME 195B or ENGR 195C/ENGR 195D plus ENGR 195A/ENGR 195B)
• Meteorology, BS: Area B2 (Intensive Science with completion of the major); Physical Education Waived
• Music, BM with concentrations in Composition, Jazz Studies, and Performance: Physical Education Waived
• Nutritional Science, Applied Nutrition and Food Sciences Concentration, BS: only requires 6 units of GE Area C (3 units of each C1 and C2)
• Nutritional Science, Dietetics Concentration, BS: only requires 6 units of GE Area C (3 units of each C1 and C2)
• Nutritional Science, Food Management Concentration, BS: only requires 6 units of GE Area C (3 units of each C1 and C2)
• Physics, BA and Physics, BS: Area B2 (Intensive Science with completion of the major)
• Nursing, BS: Physical Education Waived
• Software Engineering, BS: GE Area A3 met with completion of major; only requires 6 units of GE Area C (3 units of each C1 and C2); Physical Education Waived; Areas S and V met in the major (CMPE 195A/CMPE 195B plus ENGR 195A/ENGR 195B)

Physical Education Waivers for ADT Transfers

The following Associate for Transfer (ADT) Roadmaps include Physical Education (PE) Waivers:

• Art History and Visual Culture, BA
• Behavioral Science, BA (with AA-T in Global Studies or AA-T in Social Justice Studies)
• Biological Sciences, BA
• Biological Sciences, Microbiology Concentration, BS
• Biological Sciences, Molecular Biology Concentration, BS
• Biological Sciences, Systems Physiology Concentration, BS
• Business Administration, Business Analytics Concentration, BS
• Business Administration, Entrepreneurship Concentration, BS
• Business Administration, Finance Concentration, BS
• Business Administration, General Business Concentration, BS
• Business Administration, Global Operations Management Concentration, BS
• Business Administration, Hospitality, Tourism and Event Management Concentration, BS
• Business Administration, Human Resource Management Concentration, BS
• Business Administration, Management Concentration, BS
• Chemistry, BA
• Chemistry, BS
• Chinese, BA (with AA-T in Global Studies or AA-T in Social Justice Studies)
• Computer Science, BS
• Economics, BA (with AS-T in Business Administration)
• English, BA
• English, Creative Writing Concentration, BA
• English, Professional and Technical Writing Concentration, BA
• Forensic Science, Biology Concentration, BS
• Forensic Science, Chemistry Concentration, BS
• French, BA (with AA-T in Global Studies or AA-T in Social Justice Studies)
• Geography, BA
• Humanities, Religious Studies Concentration, BA
• Japanese, BA (with AA-T in Global Studies or AA-T in Social Justice Studies)
• Mathematics, BA
• Mathematics, Integrated Teacher Education Program, BA
• Physics, BS
• Radio-Television-Film, BA
• Social Science, Preparation for Teaching (Multiple Subject), BA (Not Accepting Students) (with AA-T in Elementary Education)
• Spanish, BA
• Spanish, BA (with AA-T in Global Studies or AA-T in Social Justice Studies)
• Spanish, BA, Preparation for Teaching Program
Majors Not Accepting Waiver of 100W

Majors that require students complete the 100W course and do not accept the waiver score on the Writing Skills Test include:

- African American Studies, BA
- Biological Sciences - Ecology and Evolution, BS
- Biological Sciences - Marine Biology, BS
- Biological Sciences, BA
- Biological Sciences, Ecology and Evolution Concentration, MS
- Biological Sciences, Microbiology Concentration, BS
- Biological Sciences, Molecular Biology Concentration, BS
- Biological Sciences, Systems Physiology Concentration, BS
- Chemistry, BA
- Chemistry, Biochemistry Concentration, BS
- Chemistry, BS
- Child and Adolescent Development, BA
- Child and Adolescent Development, Preparation for Teaching W/CSET Waiver, BA
- Child and Adolescent Development, Preparation for Teaching, BA
- Communication Studies, BA
- Earth System Science, BS
- Economics, BA
- Economics, BS
- Engineering (all majors)
- English, BA
- English, Creative Writing Concentration, BA
- English, Preparation for Teaching (Single Subject), BA
- English, Professional and Technical Writing Concentration, BA
- Environmental Studies, BA
- Environmental Studies, BS
- Environmental Studies, Preparation for Teaching, BA
- Geography, BA
- Geology, BS
- Global Studies, BA
- History, BA
- Meteorology, BS
- Climate Science, BS
- Nursing, BS
- Political Science, BA
- Psychology, BA
- Social Science, Preparation for Teaching (Single Subject), BA
- World Languages and Literatures (all majors)

Course Credit & Numbering

- Unit of Credit
- Credit Hour
- Course Numbering System
- Course Repeats with Grades Averaged
- Duplicate Credit - Inadmissible Repeats
- Excess Units
- Maximum Unit Loads
- Transcript of Record
- Repetition of Courses
- Verification of Unit Load

Unit of Credit

The unit of credit is the semester unit. Transferred work from a quarter system college or university will be converted to semester system units and grade points. Each semester unit is equal to one and one-half quarter units.

Credit Hour

On July 1, 2020, the United States Department of Education changed its definition of the student credit hour. Fundamentally, the change now shifts responsibility for credit hour compliance to the accreditation agency and/or to the state.

As such, the CSU’s accreditor, the WASC Senior College and University Commission (WSCUC), has published its own updated definition of student credit hour and related accreditation processes. The new regulations no longer require an accrediting agency to review an institution’s credit hour policy and procedures. It does require the WSCUC to review the institution’s definition of credit hour and (as a newly introduced practice) an institutions’ processes and policies for ensuring the credit hour policy is followed.

The CSU credit hour definition is consistent with federal law (600.2 and 600.4 revised July 1, 2020) and the requirements of the WSCUC. The CSU defines a credit hour as an amount of work represented in stated learning outcomes and verified by evidence of student achievement. Such evidence is an institutionally established equivalency that:

1. Approximates not less than:
   - One hour of direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately 15 weeks for one semester or equivalent amount of work over a different amount of time; or
   - At least an equivalent amount of work as required in paragraph 1.a. of this definition for other academic activities as established by the institution including laboratory work, internships, practica, studio work and other academic work leading to the award of credit hours; and

2. Permits an institution, in determining the amount of work associated with a credit hour, to take into account a variety of delivery methods, measurements of student work, academic calendars, disciplines and degree levels. Institutions have the flexibility to award a greater number of credits for courses that require more student work.

As in the past, a credit hour is assumed to be a 50-minute (not 60-minute) period. In some courses, such as those offered online, in which “seat time” does not apply, a credit hour may be measured by an equivalent amount of work, as demonstrated by student achievement.
For purposes of accreditation, all CSU campuses are required to develop, communicate and implement procedures for regular, periodic review of this credit hour policy to ensure that credit hour assignments are accurate, reliable and consistently applied. WSCUC published new draft guidelines that will take effect in June 2021. Campuses are responsible (effective summer 2021) for publishing a clearly stated practice or process that ensures they are in compliance with the student credit hour definition. The Office of Academic Scheduling produces a Class Meeting Time Report with the publication of each regular session semester Schedule of Classes. The College of Professional and Global Education is responsible for auditing special session courses.

Course Numbering System

**1-99 Lower Division Courses (Freshmen and Sophomores)**

Lower division courses are numbered 1-99 and should be designed for freshmen and sophomores. Many lower division courses have articulation agreements secured with California community colleges. The articulation agreements are available, as well as General Education (GE) articulation agreements. Visit the Articulation webpage for more information.

**100-199 Upper Division Courses (Juniors and Seniors)**

Upper division courses are numbered 100-199 and should be designed for juniors and seniors. It is recommended that upper division courses have a minimum prerequisite of upper division standing. Articulation agreements are available between university to university and other regionally accredited colleges and universities. Visit the Articulation webpage for more information.

**200-299 Master's Courses**

Master's courses are numbered 200-299.

**300-499 Methods / Professional / Continuing Education Units**

Courses in the 300 and 400-series are specially designed for professional in-service and relicensure purposes. Continuing Education Units (CEUs) are given for these courses. Courses are not applicable to degree programs and units earned do not affect grade point totals or average. These courses given by or for other departments are allowed upper division credit and are numbered 300-499.

**500-599 Doctoral Courses**

Doctoral courses are numbered 500-599.

**180 Individual Study and 184 Directed Reading**

Individual Studies (180) and Directed Reading (184) are used for independent study and are generally reserved for majors within a department. Normally, no more than four units of 180 and/or 184 may be taken for baccalaureate credit (see Undergraduate University Graduation Requirements).

**96, 196, 296, and 596 Experimental Courses**
Courses numbered 96, 196, 296, and 596 are offered to meet special demands for experimental courses on a temporary basis and are listed in the Schedule of Classes, but not in the academic catalog.

1000 No Degree Credit

Courses in the 1000-series do not earn credit toward any degree program. Examples: remedial courses and units devoted to thesis, project, or dissertation beyond minimum required units. (Effective May 30, 2016)

Course Repeats with Grade Points Averaged

1. Undergraduate and post-baccalaureate students may repeat a maximum of 28 units for graduation credit (including units repeated for Grade Forgiveness; excluding grades of "W"). After the pool of Grade Forgiveness units have been depleted or used to the fullest extent allowable, the repeat grade shall not replace the original grade. Instead grade points and units from all attempts shall be calculated in the student's SJSU cumulative GPA and overall GPA.
2. Graduate students may repeat a maximum of 9 units of upper division or graduate course work for graduation credit.
3. Course repeats with Grade Points Averaged will be assigned automatically for all eligible courses as soon as a student registers. When the pool of available units that may be repeated for graduation credit is insufficient for the next repeated course, unused units may be applied to a future course of lower unit value or simply left unused in the pool. If a repeated course is dropped prior to the Drop Deadline or a "W" is recorded for a repeated course, then the Grade Averaged units return to the pool of available units.

Students who (1) have repeated the maximum allowable units, (2) are otherwise making appropriate progress to degree, and (3) still need to repeat courses to fulfill specific major or minor requirements necessary for graduation may petition for an exception to the 28-unit limit. Undergraduate Education and the Registrar's Office will administer the petition process. Any course(s) approved for repeating by this petition process will have Grade Points Averaged.

Duplicate Credit - Inadmissible Repeats

Unless a course is designated "Repeatable for Credit" in the catalog, repeating a course in which a "C or better" was earned on the first attempt is not admissible. This restriction applies whether the first attempt was at another institution and the second attempt at SJSU, or the reverse. Articulation agreements determine if the course at another institution is considered equivalent to an SJSU course. See the course-to-course articulation information.

If the "inadmissible repeat" (second attempt) is taken at SJSU before the transfer record from the first non-SJSU attempt is posted, the units and grade points will appear on the transcript and the grade will initially be calculated into the SJSU and All College grade point averages. Students should be aware that units completed and grade points cannot be earned for "inadmissible repeats" and will be removed at any time prior to graduation. The grade earned will be indicated on the student's record. Students should keep track of these units and not count them twice for graduation purposes.

This same restriction about duplicate credit applies to credit earned by AP, CLEP and IB exams. AP, CLEP and IB exams that articulate to specific SJSU courses. See credit by exam articulation information. When an exam and a course duplicate credit, the exam credit shall be removed or reduced according to the amount of overlap (EO 1036).

Excess Units

Enrollment limits for undergraduate students will be set on a semester by semester basis. Petitions and information are available at the Registrar's Office.
**Maximum Unit Loads**

An undergraduate student who enrolls in 12 or more units is classified as full-time for the purposes of financial aid. An average unit load of at least 30 units per academic year (15 units per semester without summer or winter coursework) is required to complete an undergraduate degree in four years. Advising is essential to be able to complete a degree in a timely and efficient manner. Students with work or family responsibilities outside of school should consult with an advisor and reduce their study loads appropriately.

The maximum load for graduate students is normally 15 semester units. Reasonable exceptions beyond this number up to 18 units may be approved, by the graduate advisor and department chair, for sufficient cause, but permission must also be garnered from the Associate Dean of Graduate Studies by means of the Graduate Petition for Excess Units. Loads beyond 18 units for graduate students are prohibited by the CSU. The Graduate Studies & Research Committee strongly recommends that graduate students carry no more than 12 units of 200-level work in any one semester. There is no official minimum load for graduate students other than for those who wish to receive financial assistance or other benefits.

Immigration and Customs Enforcement (ICE) regulations on international students require that undergraduates maintain full-time status of 12 semester units and graduate students 9 semester units, excluding summer in both cases. To appeal this regulation, go to International Student and Scholar Services (ISSS).

**Transcript of Record**

**Transcript Requests**

Current and former San José State students have several ways to order official and unofficial transcripts

- Current students should use their MySJSU Account.
- Former students must order from our vendor Credentials Inc. You do not need your SJSU ID number to place an order.
- For an unofficial transcript, log into your MySJSU Account. Tutorial available online. If you no longer have access to MySJSU, and you’ve attended after 1991, contact the Registrar's Office, you must order an official transcript via Credentials Inc.

Visit the Registrar's Office website, for more information on Transcripts.

**Holds**

Holds may be placed on your student records by other campus departments for various reasons (e.g. fees, books, housing, equipment or documents).

**General Transcript Regulations:**

1. Transcripts are a complete record of all courses and/or degrees completed at San José State University. Transcripts do not include course work completed at other institutions. Only the transferable units are reflected on transcripts under "Transfer Credit". Transcripts from high schools or other colleges cannot be duplicated. You must apply directly to each school for copies of their transcripts.
2. For students who have undergraduate and post-baccalaureate or graduate course work, please be aware that it is not possible to separate undergraduate coursework from the post-baccalaureate or graduate course work. All careers will appear on the transcript as it is considered one official record.
3. Transcript requests will not be accepted by fax or email.
4. We do not accept requests for unofficial transcripts. Unofficial transcripts can be obtained through your Student Center page on the mySJSU portal (current and newly graduated students only). If you need assistance with your mySJSU account, please contact the IT Help Desk via e-mail: ithelpdesk@sjsu.edu

**Repetition of Courses**

In accordance with University Policy, F08-2, undergraduate and post-baccalaureate students (regular enrollment and Open University) may repeat courses only if they earned grades lower than a "C" (including "WU", "IC", and "NC").

Special programs, such as credential programs, that are governed by external standards may require grades higher than a C. In courses specific to those programs, a course repeat may be permitted when the grade does not meet the necessary standard.

Graduate students may repeat courses only if they earned grades lower than a "B" (including "WU", "IC", and "NC").

Repeating a course with an Incomplete ("I") grade is not allowed; a grade must be assigned or the "I" must revert to an "IC" prior to repeating the course. Repeating a course with an "RP" is allowed, although the course instructor and individual departments should be consulted for their requirements in this regard.

The limits on course repetition apply only to units completed at SJSU.

1. See Repeating a class for more information.
2. Courses designated "Repeatable for Credit" may be repeated even if the original grade was "C" or better.
3. The policies regarding repetition of courses with Grade Forgiveness or Grade Averaging apply only to courses taken and repeated at SJSU.

**Verification of Unit Load**

In verifying enrollments to the Veterans' Administration, scholarship boards and loan agencies, the university reports the total number of units enrolled as the official unit load for an undergraduate.

The definition of "full-time student" made by the United States Citizenship and Immigration Service (USCIS), Veterans Administration and other agencies may vary. Students who are concerned with their status are urged to contact the specific agency involved to determine its policies. Full veterans' subsistence payments require a course load of 12 weighted semester units for both graduate and undergraduate students. Graduate students from foreign countries who are in the U.S. on student visas must normally carry nine semester units to maintain full-time student status, while undergraduate international students must carry 12 semester units to maintain the required full-time status.

Students may request verification of unit load from the Registrar's office located in the Student Services Center.
Grades

- Change of Grade
- Grade Appeals and Grade Assignments
- Grade Disputes and Grievances
- Grade Forgiveness
- Grading System
  - Letter Graded
  - Auditing
  - Credit/No Credit
  - Incomplete
  - Report Delayed
  - Report in Progress
  - Withdrawal
- Grading System for Graduate Work
- Timely Feedback on Class Assignments

Change of Grade

The basic principle underlying changes of grade is that all students be treated fairly and be given equal opportunities to demonstrate their academic learning and earn course grades representing that learning. Application of this criterion precludes the assignment of extra credit unless such assignments were made known and available to all students in the class. It further precludes reconsideration of an individual's graded work unless such opportunity for change of grade is made equally available to all students in the class.

Unless a reconsideration is applied fairly and equally for all students in a class, a change of grade request may be submitted only when there is an error in grading an assignment or course component, or in the case of a clerical, computational, transcriptional, or other administrative error. The specific nature of the error shall be recorded on the form requesting the change of grade. Once approved, the original grade will be removed from the transcript and the new (changed) grade will replace it.

A change of grade request must be submitted by the department office directly to the Office of the Registrar in a timely fashion. Normally, such requests must be received by the drop deadline of the following Spring or Fall semester and will require the signatures of the instructor and the department chair. Further extension of this deadline will be considered only when there is documentation of the student's attempt(s) to contact both the instructor and the department chair, and the late submission of the change of grade form is clearly beyond the student's control.

A change of grade request received after the drop deadline of the following Spring or Fall semester and within one calendar year after the posting of the grade requires the signature of the appropriate college Associate Dean in addition to those of the instructor and the department chair.

A change of grade request received more than one year after the posting of the grade will also require the approval of the Associate Dean for Undergraduate Education or Associate Dean for College of Graduate Studies, as appropriate.

If a request for a change of grade is approved by the instructor but denied at a subsequent level of review, a written explanation for the denial shall be provided to the student, the faculty member, and the department chair.

Grade Appeals and Grade Assignments

Student Fairness Dispute, University Policy S14-3

Assignment of Grades and Provisions for Appeals

The following principles support the minimum standards governing the assignment of grades and provisions for appeals (per CSU Executive Order 1037):
1. Faculty have the sole right and responsibility to provide careful evaluation and timely assignment of appropriate grades.

2. There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise.

3. In the absence of compelling reasons, such as instructor or clerical error, prejudice or capriciousness, the grade assigned by the instructor of record is to be considered final.

4. Process for student appeal
   1. Students who believe that an appropriate grade has not been assigned should first seek to resolve the matter informally with the instructor of record (per Change of Grade section).
   2. If the matter cannot be resolved informally, the student may pursue a grade appeal and present his or her case to the Student Fairness Committee (according to University Policy S14-3, Student Fairness Dispute Resolution), have it reviewed and, where justified, receive a grade correction.

5. If the instructor of record does not assign a grade, or if he or she does not change an assigned grade when the necessity to do so has been established by appropriate campus procedures, it is the responsibility of other qualified faculty as determined by the appropriate campus entity. "Qualified faculty" means one or more persons with academic training comparable to the instructor of record who are presently on the faculty at that campus.

6. SJSU shall maintain and implement existing policy and procedures covering the assignment of grades and grade appeals that include the following provisions:
   1. The time and manner of reporting course grades including provisions for assuring that such grades have been assigned by the instructor of record.
   2. Circumstances under which the instructor of record may change a grade once assigned, and procedures for making such changes.
   3. A means for preliminary review of potential appeals that may resolve differences before initiation of formal proceedings.
   4. Grounds for which a grade appeal is permitted.
   5. One or more committees for hearing grade appeals that shall provide safeguards to assure due process for both student and instructor. Such committees shall include student membership. Student members shall not participate in assignment of grades.
   6. Procedures whereby grades are assigned by other qualified faculty in circumstances where the instructor of record does not do so, including those instances where a grade change is recommended by a grade appeals committee and the instructor of record does not carry out that recommendation.
   7. Specification of time limits for completion of various steps in the appeal process and of the time period during which an appeal may be brought.
   8. Description of the extent of the authority of the appeals committee(s), including provisions that clearly limit grade changes to instances where there is a finding that the grade was improperly assigned.
   9. Limitation of committee authority to actions that are consistent with other campus and system policies.
  10. A statement that there is a presumption that grades assigned are correct. Thus, the burden of proof rests with the individual who is appealing.
  11. Procedures for dealing with allegations of improper procedure.
  12. Assignment of authority to revise policies and procedures for grade appeals to the campus Academic Senate. The campus president is responsible for ensuring that such revisions conform to the principles and provisions of this executive order.
  13. Provision for annual reporting to the President and Academic Senate on the number and disposition of cases heard.

Change of Grade (Not Resulting from a Grade Appeal)

1. The basic principle underlying changes of grade is that all students be treated fairly and be given equal opportunities to demonstrate their academic learning and earn course grades representing that learning.
Application of this criterion precludes the assignment of extra credit unless such assignments were made known and available to all students in the class. It further precludes rejudgment, afterthought, or reconsideration of an individual's graded work unless such opportunity for change of grade is made equally available to all students in the class.

2. Unless a rejudgment, afterthought, or reconsideration is applied fairly and equally for all students in a class, a change of grade request may be submitted only when there is an error in grading an assignment or course component, or in the case of a clerical, computational, transcriptional, or other administrative error. The specific nature of the error shall be recorded on the form requesting the change of grade. Once approved, the original grade will be removed from the transcript and the new (changed) grade will replace it.

3. A change of grade request must be submitted by the department office directly to the Office of the Registrar in a timely fashion. Normally, such requests must be received by the drop deadline of the following Spring or Fall semester and will require the signatures of the instructor and the department chair. Further extension of this deadline will be considered only when there is documentation of the student's attempt(s) to contact both the instructor and the department chair, and the late submission of the change of grade form is clearly beyond the student's control.

4. A change of grade request received after the drop deadline of the following Spring or Fall semester and within one calendar year after the posting of the grade requires the signature of the appropriate college Associate Dean in addition to those of the instructor and the department chair.

5. A change of grade request received more than one year after the posting of the grade will require, additionally, the approval of the Associate Dean for Undergraduate Studies or Graduate Studies, as appropriate.

6. If a request for a change of grade is approved by the instructor but denied at a subsequent level of review, a written explanation for the denial shall be provided to the student, the faculty member, and the department chair.

**Integrity of the Academic Record**

1. All grades reported at the end of each semester are final, unless changes have been made according to the provisions given above, or those of University Policy F08-2. Students are responsible for reviewing their grades for accuracy before the beginning of the subsequent term. They are also responsible for verifying their transcripts for changes, e.g., from grade forgiveness, withdrawals, clearance of Incomplete grades, or clearance of Report Delayed (RD) grades.

2. A student who believes he or she has received a grade in error should contact the instructor to verify and, if appropriate, correct the grade. If an instructor is unavailable or absent during the subsequent semester, the student should promptly consult with the department chair about the grade in question. If the department chair is unable to contact the instructor, they shall notify the Associate Dean of the college in writing, requesting that an extension of the grade correction deadline be granted. The Associate Dean will then contact the Office of the Registrar if the request for an extension is deemed valid.

3. After a degree has been posted, no further adjustments can be made on the record except under extraordinary circumstances as determined by Undergraduate Education or College of Graduate Studies.

**Grade Disputes and Grievances**

**What is a Grievance?**

A grievance is an allegation of an unauthorized or unjustified act or decision by a faculty or staff or an administrative officer (hereafter referred to as university employee(s)), that in any way adversely affects the status, rights or privileges of a student.

**What is a Grade Dispute?**

There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise (EO 1037).
We encourage you to contact the University Ombudsperson with questions or concerns related to a grievance or dispute. The Ombudsperson is a neutral, confidential, and impartial resource accessible to students, faculty, and staff.

For more information, please visit: www.sjsu.edu/ombudsperson.

Grade Forgiveness

Course Repeats with "Grade Forgiveness."

Grade Forgiveness is the circumstance in which the new grade replaces the former grade with respect to the calculation of GPA. The original grade remains on the transcript. The policy regarding repetition of courses with Grade Forgiveness applies only to courses taken and repeated at SJSU (as stated in University Policy F08-2).

1. Undergraduate and postbaccalaureate students may repeat a maximum of 16 units of total Grade Forgiveness, consisting of a combination of up to 9 units (maximum) of lower division (numbered 0-99) course work, and up to 9 units (maximum) of upper division (numbered 100-199) course work.
2. Graduate (numbered 200-299) course work is not eligible for Grade Forgiveness. Graduate students are not eligible for Grade Forgiveness, but may repeat up to 9 units of upper division or graduate course work through Grade Averaging.
3. Grade Forgiveness will be assigned automatically for all eligible courses as soon as a student registers. Eligible courses include those courses with earned grades lower than a "C" (including "WU", "IC"; but excluding "NC"). Once the pool of available units is insufficient for the next repeated course, unused units may be applied to a future course of lower unit value or simply left unused in the pool. If a repeated course is dropped prior to the Drop Deadline or a "W" is recorded for a repeated course, then the Grade Forgiveness units return to the pool of available lower division or upper division units, as appropriate.
4. To opt out of grade forgiveness: A student may petition to have a repeated course NOT be granted Grade Forgiveness. Such petitions must be submitted prior to the Census Date for the term in which the course is repeated. See www.sjsu.edu/ue for instructions and forms.
5. Students may repeat an individual course for Grade Forgiveness only once.
6. Grade Forgiveness shall not be applicable to courses for which the original grade was the result of a finding of academic dishonesty.

Grade Forgiveness that results in a higher GPA will not remove a prior academic standing.

Grading System for Undergraduate Courses - "Traditional Grade Rules"

SJSU does not mail grades. Grades from Spring 1991 to the present are available at MySJSU (Search "MySJSU" in the Search Bar at One.SJSU.edu). SJSU ID and Password required.

See Transcripts in the Directory for information on official transcript requests.

Letter Graded - "Graded" or "Normal Grade Rules"

The grading policy of SJSU provides that A, B, C, D, F, shall be the basic grading system and shall apply to all course work acceptable toward a degree program except for those courses in which it is mandatory or permissible that Credit/No Credit grades be used. To determine a student's standing, whether "good," probationary or disqualified, quality of performance and progress toward degree completion are considered based on units attempted, grade points earned and grade point average (GPA). The scholarship average is based on courses in which letter grades
are earned (the total number of grade points divided by the number of units in letter graded courses). Grade points are assigned as follows.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points Per Unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+, A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.3</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>C-</td>
<td>1.7</td>
</tr>
<tr>
<td>D+</td>
<td>1.3</td>
</tr>
<tr>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>D-</td>
<td>0.7</td>
</tr>
<tr>
<td>F</td>
<td>0.0</td>
</tr>
<tr>
<td>WU, NC, CR, I, IC, AU, W, WB, RP</td>
<td>0.0</td>
</tr>
</tbody>
</table>

The grades of "CR," "NC," "AU" (audit), "I," "W," "WB," and "RP" (report in progress) receive no grade points and the units are not considered in computing grade point average. A plus or minus sign following a grade of "A," "B," "C," or "D" will affect the grade points allowed as indicated in the table. A grade of "A+" cannot exceed 4.0 grade points per California Code of Regulations, Title 5, Division 5, Chapter 1, Subchapter 2, Article 2, 40104.

Undergraduate and postbaccalaureate students must maintain an SJSU Cumulative GPA of 2.0 or better (calculated by dividing grade points (GP) by units graded (UG). See Disqualification and Probation for Undergraduate and Postbaccalaureate students.

**Auditing a Class - "AU"**

An auditor must be officially enrolled in the course. Enrollment as an auditor is subject to permission of the instructor provided there is space available in the course. Auditors are subject to the same fee structure as credit students and regular class attendance is expected. Once enrolled as an auditor, a student may not change to credit status unless such a change is requested no later than the last day to add classes in that term. A student who is enrolled for credit may not change to audit after the last day to add classes in that term.

**Credit/ No Credit - "CR/ NC"**
Credit/No Credit (CR/NC) - Elective (Undergraduates Only)

An upper-division (Junior or Senior) student shall have the option of taking a maximum of 12 semester units as long as the units are not in the major or minor, or in support of, preparation for or prerequisite to the major or minor, or for General Education on the basis of Credit/No Credit for courses under the basic letter grade system. Eligible students may choose this option by turning in the CR/NC Option Form, by the add deadline. Students may accumulate a maximum of 60 semester units of Credit/No Credit grades toward a baccalaureate degree.

In addition to turning in the CR/NC Option form, you must have officially added the class. For undergraduate courses: Credit = A, A-, B+, B, B-, C+, C, C-; No Credit = D+, D, D-, F, IC, WU.

Credit/No Credit (CR/NC) - Mandatory

"CR/NC" grades are mandatory for thesis and remedial course work. It is also normally used in projects, field work, internships, individual studies, or directed reading. As recommended by departments and approved by the college dean, credit/no credit grades may be used in activity and laboratory courses, workshops, and selected seminars (colloquia). Students may accumulate a maximum of 60 semester units of Credit/No Credit grades toward a baccalaureate degree (excluding any remedial course work). A maximum of 30 percent of the units required in a graduate degree can be credit/no credit (e.g., 10 units in a 30 unit program). In accordance with University Policy F18-5:

For undergraduate courses: Credit = A, A-, B+, B, B-, C+, C, C-; No Credit = D+, D, D-, F, IC, WU.
For graduate courses: Credit = A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F, IC, WU.

Incomplete - "I/IC"

The symbol "I" (Incomplete Authorized) indicates that a portion of required course work has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that there is still a possibility of earning credit. The student cannot re-enroll in the course. It is the responsibility of the student to bring pertinent information to the attention of the instructor (regarding the unforeseen reason(s) for requesting an Incomplete) and to determine from the instructor the remaining course requirements that must be satisfied to remove the Incomplete. A final grade is assigned when the work agreed upon has been completed and evaluated. Clearing an incomplete grade does not permit retaking previously completed portions of the course, nor does it permit assignment of additional graded work (e.g., extra credit) that was not available to other students in the class.

An "I" must normally be made up within one calendar year immediately following the end of the term during which it was assigned.

This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work will result in an "I" being converted to an "IC" symbol, or an "NC" for non-traditionally graded courses, unless the faculty member assigns a specific letter grade at the time the Incomplete is assigned, which would replace the "I" in the student's record after the calendar year deadline.

Failure to complete the assigned work within the established calendar year period for an "I" grade will result in an automatic grade change to an "IC" grade which calculates as a failing grade for grade point average and progress point computation.

Report Delayed - "RD"

The "RD" symbol may be used where a delay in the reporting of a grade is due to circumstances beyond the control of the student. The symbol may be assigned by the registrar only and, if assigned, shall be replaced by a substantive grading symbol as soon as possible.
Report in Progress - "RP"

The "RP" symbol is used in connection with courses that typically extend beyond one academic term. It indicates that work is in progress but that assignment of a final grade must await completion of additional work. Work is to be completed within one year except for graduate degree projects and theses (supervised courses, e.g., 298 & 299 courses), which have a two-year time limit. Failure to complete the assigned work for an "RP" grade will result in an automatic grade change to an "NC" grade unless a request for an extension has been made and approved.

A final grade will be assigned to all segments of the course on the basis of overall quality. Any extension of this time period must receive prior authorization by the instructor and department chair or school director.

Note: RP grades earned through the Early Start Program between Summer 2012 and Summer 2018 mean that the Early Start requirement was satisfied but remediation was not completed. These RP grades do not need to be replaced and may appear on a student's final transcript.

Withdrawal - "W"

The symbol "W" on the official transcript indicates that the student was permitted to withdraw from the course after the drop deadline for the term with the approval of the appropriate campus administrator. It carries no connotation of quality of student performance and is not used in calculating grade point average or progress points. However, there are limits on the number of allowable units of "W" on the official transcript. Undergraduate students may withdraw from no more than 18 units. Postbaccalaureate students may withdraw from no more than 12 units. Graduate students may withdraw from no more than 9 units. Exceptions to these unit limits are granted when the cause of withdrawal is due to circumstances clearly beyond the student's control and the assignment of an Incomplete is not practicable. Such exceptions are designated "WB" for internal processing of drops and withdrawals, and will revert to "W" on the transcript (University Policy S09-7). The grading symbols "WA" (withdrawals granted only during the first 80% of the term for serious and compelling reasons) and "WB" (withdrawals granted anytime during the term, or retroactively after the term, for serious and compelling reasons due to circumstances clearly beyond the student's control) shall appear on the unofficial transcript. "WA* and "WB* grades will revert to "W* grades on the official transcript.

Undergraduates may download the appropriate petition (course drop or withdrawal from all courses forms). Graduate Students may download the Course Drop/Semester Withdrawal petition.

Withdrawal Unauthorized - "WU"

The symbol "WU" indicates that an enrolled student did not officially withdraw from the course and also failed to complete course requirements. It is used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of academic performance possible. For purposes of grade point average and progress point computation this symbol is equivalent to an "F."

Grading System for Graduate Work

Traditional letter grades are used for all courses taken by graduate students except for field work, thesis, project, individual study and internship courses, which are usually graded Credit/No Credit or Credit/No Credit/Report in Progress. Incomplete grades are not permitted for thesis or project courses, and Credit may not be given for a thesis or project course before completion of the coursework. Graduate students do not have the option of choice between the traditional or non-traditional grading system. A grade of Credit in a graduate-level course indicates performance by the student equal to a letter grade of "B-" or above.
The cumulative GPA for the master's degree (3.0 minimum) includes all letter-graded work in 100-level or 200-level courses completed within the preceding seven years and for which the student received graduate credit, excluding transfer courses taken at another institution and those taken as an undergraduate at SJSU. Both the cumulative GPA and GPA of all of the course grades on the student's candidacy form, with the exception of non-Open University transfer courses, must be at least at the 3.0 level. Both the cumulative GPA and the GPA of all courses on the candidacy form must be a minimum of 3.0.

The cumulative GPA of the graduate student is computed by dividing the total number of grade points earned by the total number of graded units attempted at SJSU, excluding Open University courses that are not counted as degree requirements, subsequent to enrollment in the graduate school.

**Timely Feedback on Class Assignments**

In accordance with Students' Rights to Timely Feedback on Class Assignments, University Policy F13-1, every student has the right to know, within reasonable time, his or her academic test scores, to review his or her papers and examinations, and to be provided with an explanation of the determination of a his or her course grade.

With changing pedagogical perspectives and increasing use of technology, instructors give a much wider range of assignment types - presentations, online discussion, group projects, etc. - and students should be granted the same expectation for feedback on all assignments within a reasonable period as with papers, tests, and examinations.
CSU Tuition Fees Policies

- Mandatory Fees Including Non-Resident Tuition
- Fees and Debts Owed to the University
- Nonresident Students (U.S. and Foreign) Tuition
- Determination of Residency for Tuition Purposes
- Average Support Cost Per Full-Time Equivalent Student and Sources of Funds
- Cancellation of Registration or Withdrawal from the University
- Fee Waivers and Exemptions - CSU Systemwide
- Nonresident Alien Tax Assessment
- Dishonored Checks
- Establishment or Abolishment of Campus-Based Mandatory Fees
- Voluntary

Mandatory Fees Including Non-Resident Tuition

Regulations governing the refund of tuition and mandatory fees, including nonresident tuition, for students enrolling at the California State University are included in Section 41802 of Title 5, California Code of Regulations. For purposes of the refund policy, mandatory fees are defined as those systemwide and campus fees that are required to be paid in order to enroll in state-supported academic programs at the CSU. Refunds of fees and tuition charges for self-support, special session, and Professional Education programs or courses at the CSU are governed by a separate policy established by the University, available in the FAQ page for the College of Professional and Global Education (CPGE).

In order to receive a full refund of tuition and mandatory fees, including nonresident tuition, less an administrative charge established by the campus, a student must cancel registration or drop all courses prior to the first day of instruction for the term. For more information, visit www.sjsu.edu/bursar.

For state-supported semesters, quarters, and non-standard terms or courses of four (4) weeks or more, a student who withdraws during the term in accordance with the university's established procedures or drops all courses prior to the campus-designated drop period will receive a refund of tuition and mandatory fees, including nonresident tuition, based on the portion of the term during which the student was enrolled. No student withdrawing after the 60 percent point in the term will be entitled to a refund of any mandatory fees or nonresident tuition.

A student who, within the campus designated drop period and in accordance with campus procedures, drops units resulting in a lower tuition and/or mandatory fee obligation shall be entitled to a refund of applicable tuition and mandatory fees less an administrative charge established by the campus.

For state-supported non-standard terms or courses of less than four (4) weeks, no refunds of tuition and mandatory fees, including nonresident tuition, will be made unless a student cancels registration or drops all classes, in accordance with the university's established procedures and deadlines, prior to the first day of instruction for state-supported non-standard terms or courses or prior to the first meeting for courses of less than four (4) weeks.

Students will also receive a refund of tuition and mandatory fees, including nonresident tuition, under the following circumstances:

- The tuition and fees were assessed or collected in error;
- The course for which the tuition and fees were assessed or collected was canceled by the university;
- The university makes a delayed decision that the student was not eligible to enroll in the term for which tuition and mandatory fees were assessed and collected and the delayed decision was not due to incomplete or inaccurate information provided by the student; or
• The student was activated for compulsory military service.
Students who are not entitled to a refund as described above may petition the Bursar's Office for a refund demonstrating exceptional circumstances and the chief financial officer of the university or designee may authorize a refund if he or she determines that the fees and tuition were not earned by the university.

Information concerning any aspect of the refund of fees may be obtained from the Bursar's Office, Student Services Center, 408-924-1601 or via e-mail at bursar@sjsu.edu.

Parking Permit Refunds

Parking permits can be returned for a prorated refund minus an administrative fee. No returns are accepted during the last month of each semester. More information can be found at the Parking Services website.

Fees and Debts Owed to the University

Should a student or former student fail to pay a fee or a debt owed to the institution, including tuition and student charges, the institution may "withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt" until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381).

Prospective students who register for courses offered by the university are obligated for the payment of charges and fees associated with registration for those courses. Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student charges and fees including any tuition for the reservation of space in the course.

The institution may withhold permission to register or other services offered by the institution from anyone owing fees or another debt to the institution. The institution may also report the debt to a credit bureau, offset the amount due against any future state tax refunds due the student, refer the debt to an outside collection agency and/or charge the student actual and reasonable collection costs, including reasonable attorney fees if litigation is necessary, in collecting any amount not paid when due.

The institution may not withhold an official transcript of grades by the institution from anyone owing fees or another debt to the institution (see Title 1.6C.7 (commencing with Section 1788.90) Part 4 of Division 3 of the Civil Code). The institution can still charge a fee for the issuance of the transcript pursuant to their published transcript processing fees.

If a person believes he or she does not owe all or part of an asserted unpaid obligation, that person may contact the Bursar's Office. The Bursar's Office to which the business office may refer the person, will review all pertinent information provided by the person and available to the campus and will advise the person of its conclusions.

Failure to pay full registration fees when due or to clear any debt by the given deadline may result in an additional Administrative Fee or cancellation of classes.

Nonresident Students (U.S. and International) Tuition

Nonresident Tuition (in addition to basic tuition fees and other systemwide fees charged all students): $396 per unit each semester. The total nonresident tuition paid per term will be determined by the number of units taken.

Exemption from Non-Resident Tuition for Certain Students
If you attended high school in California for at least three full years and graduated or earned an equivalent, you may be eligible for resident tuition. Students must file an affidavit with the CSU campus stating that they have filed an application with USCIS to legalize their immigration status or will do so as soon as they are eligible. You will need to show proof of attendance and graduation.

**Determination of Residency for Tuition Purposes**

University requirements for establishing residency for tuition purposes are independent from requirements for establishing residency for other purposes, such as for tax purposes, or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or nonresident of California, but rather to determine whether a student qualifies to pay university fees at the in-state or out-of-state rate. A resident for tuition purposes is someone who meets the requirements set forth in the Uniform Student Residency Requirements. These laws governing residency for tuition purposes at the California State University are California Education Code sections 68000-68086, 68120-68133, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41915. This material can be viewed by accessing the California State University Office of General Counsel website.

Each campus's Admissions Office is responsible for determining the residency status of that campus's new and returning students based, as applicable, on the student's Application for Admission, Residency Questionnaire, and, as necessary, other information the student furnishes. A student who fails to provide sufficient information to establish resident status will be classified a nonresident.

**Residency Requirements**

**Initial Determination: Legal Capacity, Physical Presence and Intent**

To be classified as a resident for tuition purposes, a student must show they have been a legal California resident for more than one year immediately prior to the Residence Determination Date for the term of the application is made. Depending on the age, immigration status or visa type, a student may not have the legal capacity to establish California residency.

Generally, establishing California residency for tuition purposes requires a combination of physical presence and intent to remain indefinitely in the State of California. An adult who, at least 366 days prior to the residency determination date for the term in which resident status is sought, can demonstrate that both physical presence in the state combined with evidence of intent to remain in California indefinitely, may establish California residency for tuition purposes. A student under the age of 19 by the residency determination date derives residency from the parent(s) with whom the student resides or most recently resided. In addition, non-citizens establish residency in the same manner as citizens, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States.

Evidence demonstrating intent to remain in the State of California indefinitely may vary from case to case, but will include, and is not necessarily limited to, the absence of residential ties to any other state, California voter registration and history of actually voting in California elections, maintaining California vehicle registration and driver's license, maintaining active California bank accounts, filing California income tax returns and listing a California address on federal tax returns, owning residential property or occupying or renting a residence where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California.

**Exceptions**
Exceptions to the general residency requirements are contained in California Education Code sections 68070-68086 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906-41906.6, 41910. Whether an exception applies to a particular student can only be determined after the submission of an application for admission and, as necessary, additional supporting documentation. Because neither the campus nor the Chancellor's Office staff may give legal advice, applicants are strongly urged to review the material for themselves and consult with a legal advisor.

Residency determination dates are set each term. They are:

<table>
<thead>
<tr>
<th>Quarter Term Campuses</th>

</tbody>
</table>

Reclassification - Financial Independence (only applies to continuing students)

A student classified as a nonresident for a prior term may seek reclassification in any subsequent term; however, reclassification requires that, in addition to satisfying the requirements of physical presence and intent to remain indefinitely in the state, the student must also satisfy the requirement of financial independence. A student seeking reclassification is required to complete a Residency Questionnaire that includes questions concerning financial independence. For additional information on intent, physical presence and financial independence requirements, refer to the California Residency for Tuition Purposes Website.

Residency Appeals

A student classified as a nonresident may appeal a final campus decision within 30 days of notification by the campus. Appeals will be accepted only if at least one of the following criteria applies:

1. The decisions was based on:
   1. a significant error of fact by the campus;
   2. a significant procedural error by the campus; or
   3. an incorrect application of the law which, if corrected would require that the student be reclassified as a California resident; and/or
2. Significant new information, not previously known or available to the student, became available after the date of the campus decision classifying the student as a nonresident and based on the new information, the classification as a nonresident is incorrect. Instructions to submit an appeal and additional information can be found on the California Residency for Tuition Purposes Website.

Appeals via email, fax and U.S. mail will not be accepted. A student with a documented disability who is requesting an accommodation to submit an appeal through the CSU website should contact Student Affairs and Enrollment Management at residencyappeals@calstate.edu.

The Chancellor’s Office will either decide the appeal or send the matter back to the campus for further review.

A student incorrectly classified as a resident or incorrectly granted an exception from nonresident tuition is subject to reclassification as a nonresident or withdrawal of the exception and subject to payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student may also be subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations. A student previously classified as a resident or previously granted an exception is required to immediately notify the Admissions Office if the student has reason to believe that the student no longer qualifies as a resident or no longer meets the criteria for an exception.

Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residency for tuition purposes in California between the time this information is published and the relevant residency determination date. Students are urged to review the statutes and regulations stated above.

### Average Support Cost Per Full-Time Equivalent Student and Sources of Funds

The total support cost per full-time equivalent student (FTES) includes the expenditures for current operations, including payments made to students in the form of financial aid, and all fully reimbursed programs contained in state appropriations. The average support cost is determined by dividing the total cost by the number of FTES. The total CSU 2020-21 budget amounts were $3,722,806,000 from state General Fund (GF) appropriations before a $42.7 million CalPERS retirement adjustment, $2,626,783,000 from gross tuition revenue, and $612,221,000 from other fee revenues for a total of $6,961,810,000. The 2020/21 resident FTES target is 374,131 and the nonresident FTES based on past-year actual is 22,154 for a total of 396,285 FTES. The GF appropriation is applicable to resident students only whereas fee revenues are collected from resident and nonresident students. FTES is determined by dividing the total academic student load (e.g. 15 units per semester) (the figure used here to define a full-time student's academic load).

<table>
<thead>

</tr>
</tbody>
</table>

*Represents state GF appropriation in the Budget Act of 2020/21; GF is divisible by resident students only (374,131 FTES).
**Represents CSU Operating Fund, gross tuition and other fees revenue amounts (net of tuition fee discounts) submitted in campus August 2020/21 final budgets. Revenues are divisible by resident and nonresident students (396,285 FTES).

The 2020/21 average support cost per FTES based on GF appropriation and net tuition fee revenue only is $16,235 and when including all three sources as indicated below is $17,780, which includes all fee revenue (e.g. tuition fees, application fees, and other campus mandatory fees) in the CSU Operating Fund. Of this amount, the average net tuition and other fee revenue per FTES is $7,829.

The average CSU 2020/21 academic year, resident, undergraduate student basic tuition and other mandatory fees required to apply to, enroll in, or attend the university is $7,363 ($5,742 tuition fee plus $1,621 average campus-based fees). However, the costs paid by individual students will vary depending on campus, program, and whether a student is part-time, full-time, resident, or nonresident.

**Cancellation of Registration or Withdrawal from the University**

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the university’s official withdrawal procedures. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from the Office of the Registrar.

Students who receive financial aid funds must consult with Financial Aid and Scholarships prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. If a recipient of student financial aid funds withdraws from the institution during an academic term or a payment period, the amount of grant or loan assistance received may be subject to return and/or repayment provisions.

For further information, consult www.sjsu.edu/bursar and www.sjsu.edu/faso.

**Fee Waivers and Exemptions - CSU Systemwide**

**The California Education Code provides for the waiver of mandatory systemwide tuition fees as summarized below:**

Section 66025.3 -

Military

Dependent eligible to receive assistance under Article 2 of Chapter 4 of Division 4 of the Military and Veterans Code; child of any veteran of the United States military who has a service-connected disability, has been killed in service, or has died of a service-connected disability, and meets specified income provisions; dependent, or surviving spouse who has not remarried of any member of the California National Guard who, in the line of duty, and while in the active service of the state, was killed, died of a disability resulting from an event that occurred while in the active service of the state, or is permanently disabled as a result of an event that occurred while in the active service of the state; and any undergraduate student who is a recipient of a Medal of Honor, or undergraduate student who is a child of a recipient of a Medal of Honor who is no more than 27 years old, who meets the income restriction and California residency requirement.

Foster Youth
Current or former foster youth who are 25 years of age or younger; have been in foster care for at least 12 consecutive months after reaching 10 years of age; meet one of the following: is under a current foster care placement order by the juvenile court, was under a foster care placement order by the juvenile court upon reaching 18 years of age, or was adopted, or entered guardianship, from foster care; completes and submits the Free Application for Federal Student Aid (FAFSA); maintains a minimum grade point average and meets the conditions necessary to be in good standing at the campus; and meets the financial need requirements established for Cal Grant A awards. The waiver of mandatory systemwide tuition and fees under this section applies only to a person who is determined to be a resident of California pursuant to Chapter 1 (commencing with Section 68000) of Part 41 of the California Education Code.

Section 66602 - A qualifying student from the California State University who is appointed by the Governor to serve as Trustee of the California State University for the duration of his or her term of office.

Section 68120 - Surviving spouse or child of a deceased resident who was employed by a public agency, or was a contractor or an employee of a contractor, performing services for a public agency, and was killed or died as a result of an industrial injury or illness arising out of and in the course of the performance of his/her principal duties of active law enforcement or active fire suppression and prevention duties (referred to as Alan Pattee Scholarships).

Additionally, a person who qualifies for the waiver under this section as a surviving child of a contractor or of an employee of a contractor, who performed services for a public agency, must have enrolled as an undergraduate student at the California State University and meet the applicable income restriction requirement with supporting documentation (i.e. his/her income, including the value of parent support, does not exceed the maximum household income and asset level for an applicant for a Cal Grant B award).

Section 68121 - A qualifying student enrolled in an undergraduate program who is the surviving dependent of any individual killed in the September 11, 2001, terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Government Code Section 69432.7 for the Cal Grant A Program and either the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001.

Section 69000 - A person who has been exonerated, as that term is defined in Section 3007.05(e) of the Penal Code; completes and submits the FAFSA; and meets the financial need requirements established for Cal Grant A awards. The waiver of mandatory systemwide tuition and fees under this section applies only to a person who is determined to be a resident of California pursuant to Chapter 1 (commencing with Section 68000) of Part 41 of the California Education Code.

Students who may qualify for the above benefits should contact the Admissions/Registrar's Office for further information and/or an eligibility determination.

The California Education Code provides for the following nonresident tuition exemptions as summarized below:

Section 68075 - A student who is a member of the Armed Forces of the United States stationed in this state, except a member of the Armed Forces assigned for educational purposes to a state-supported institution of higher education, is entitled to resident classification only for the purpose of determining the amount of tuition and fees.

If that member of the Armed Forces of the United States who is in attendance at an institution is thereafter transferred on military orders to a place outside this state where the member continues to serve in the Armed Forces of the United States, he or she shall not lose his or her resident classification so long as he or she remains continuously enrolled at that institution.

Section 68075.7 - A nonresident student is exempt from paying nonresident tuition or any other fee that is exclusively applicable to nonresident students if the student (1) resides in California, (2) meets the definition of "covered
individual” as defined in either: (A) Section 3679(c)(2)(A) or (B)(ii)(l) of Title 38 of the United States Code, as that provision read on January 1, 2017 or (B) Section 3679(c)(2)(B)(i) or (ii)(II) of Title 38 of the United States Code, as that provision read on January 1, 2017, and (3) is eligible for education benefits under either the federal Montgomery GI Bill-Active Duty program (30 U.S.C. § 3001 et seq.) or the Post-9/11 GI Bill program (38 U.S.C. § 3301 et seq.) as each read on January 1, 2017.

Section 68122 - A student who is a victim of trafficking, domestic violence, and other serious crimes who has been granted T or U visa status (respectively under Section 1101(a)(15)(T)(i) or (ii), or Section 1101(a)(15)(U)(i) or (ii), of Title 8 of the United States Code) shall be exempt from paying nonresident tuition to the same extent as individuals who are admitted to the United States as refugees under Section 1157 of Title 8 of the United States Code.

Section 68130.5 - A student, other than a nonimmigrant alien (8 U.S.C. § 1101(a)(15)), who is not a resident of California is exempt from paying nonresident tuition if the student meets the requirements of (1) through (4), below:

1. Satisfaction of the requirements of either subparagraph (A) or subparagraph (B):
   A. A total attendance of, or attainment of credits earned while in California equivalent to, three or more years of full-time attendance or attainment of credits at any of the following:
      i. California high schools.
      ii. California high schools established by the State Board of Education.
      iii. California adult schools established by a county office of education, a unified school district or high school district, or the Department of Corrections and Rehabilitation (subject to the class hours’ requirement).
      iv. Campuses of the California Community Colleges (subject to the credit requirements).
      v. A combination of those schools set forth in clauses (i) to (iv), inclusive.
   B. Three or more years of full-time high school coursework, and a total of three or more years of attendance in California elementary schools, California secondary schools, or a combination of California elementary and secondary schools.

2. Satisfaction of any of the following:
   A. Graduation from a California high school or attainment of the equivalent thereof.
   B. Attainment of an associate degree from a campus of the California Community Colleges.
   C. Fulfillment of the minimum transfer requirements established for the California State University for students transferring from a campus of the California Community Colleges.

3. Registration as an entering student at, or current enrollment at, an accredited institution of higher education in California not earlier than the fall semester or quarter of the 2001-02 academic year.

4. In the case of a person without lawful immigration status, the filing of an affidavit with the institution of higher education stating that the student has filed an application to legalize his or her immigration status, or will file an application as soon as he or she is eligible to do so.

Nonresident Alien Tax Assessment

International students and scholars receiving payments from San José State University must comply with all federal and state tax reporting responsibilities. The Internal Revenue Service requires that SJSU comply with specific federal tax withholding and reporting regulations when making payments to nonresident aliens. Non-U.S. citizens will be required to complete a Foreign National Information Form to assist in the determination of tax residency and applicable tax withholding liability. Payments affected by these IRS rules include, but are not limited to: compensation, wages, honoraria, consulting fees, scholarships, fellowships, stipends, and some reimbursements for travel and other expenses. Questions regarding nonresident alien tax assessment can be addressed by contacting the Human Resources Service Group at 408-924-2250.

Dishonored Checks

An individual is not officially enrolled until the university has received full payment of fees. The university has not received payment if personal checks or eChecks are subsequently dishonored by the bank.
Individuals paying registration fees by personal check or eCheck are hereby given notice that if their check is dishonored from the bank for any reason, the registration is subject to cancellation. A $25 fee is charged for the first returned check and $35 thereafter. An additional administrative fee may be charged. All dishonored checks must be paid with money order, cashier check or cash.

**Establishment or Abolishment of Campus-Based Mandatory Fees**

The law governing the California State University provides that specific campus fees defined as mandatory, such as a student association fee and a student center fee, may be established. A student association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 89300). The campus president may adjust the student association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose. The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus president containing the signatures of 10 percent of the regularly enrolled students at the university. Student association fees support a variety of cultural and recreational programs, childcare centers, athletics, and special student support programs. A student center fee may be established only after a fee referendum is held which approves by a two-thirds favorable vote the establishment of the fee (Education Code, Section 89304). Once bonds are issued, authority to set and adjust student center fees is governed by provisions of the State University Revenue Bond Act of 1947, including, but not limited to, Education Code sections 90012, 90027, and 90068.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committee and a consultation or student referendum process as established by California State University Student Fee Policy, Section III or any successor policy. The campus president may use consultation mechanisms if he/she determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation, and referendum is not required by the Education Code or Student Success Fee policy. Results of the referendum and the fee committee review are advisory to the campus president. The president may adjust campus-based mandatory fees but must request the chancellor to establish a new mandatory fee. The president shall provide to the campus fee advisory committee a report of all campus-based mandatory fees. The campus shall report annually to the chancellor a complete inventory of all campus-based mandatory fees.

For more information or questions, please contact the System Budget Office in the CSU Chancellor's Office at 562-951-4560.

**Voluntary**

The CSU Board of Trustees established a voluntary student fee, the Student Involvement and Representation Fee (SIRF), which went into effect in the fall 2015 term. This is charged to all students unless they choose to opt out of the fee, which can be done via the student portal. The fee amount is $2.00 per term. For more information, please visit the California State Student Association (CSSA) website at www.csustudents.org.
Registration Fees

Course Load Classifications

Audit enrollment does not yield unit load credit for other than fee purposes. Financial aid recipients must enroll at least half-time to qualify for payment from most campus-awarded funds. Payments will be prorated for full-time, three-quarter-time, half-time and in some limited cases less-than-half-time enrollment. Payments to unclassified graduate students and graduate credential candidates will be based on the credit totals defined for undergraduate students.

Undergraduate Classifications

All undergraduates are classified as full- or part-time by credit totals:

**Fall/Spring Semesters**

- Full Time = 12.0 or more units
- Three Quarter (3/4) Time = 8.0-12.0 units
- Greater Than Half (1/2) Time = 6.1-7.5 units
- Less than Half (1/2) Time = 4.0-6.0 units
- Quarter (1/4) Time = 1.0-3.0 unit(s)

**Summer Semester**

5 Week Session

- Full Time = 3.5 or more units
- Three Quarter (3/4) Time = 3.0 units
- Half (1/2) Time = 2.0-2.5 units
- Quarter (1/4) Time = 1.0-1.5 unit(s)

10 Week Session

- Full Time = 7.0 or more units
- Three Quarter (3/4) Time = 5.5-6.0 units
- Half (1/2) Time = 4.0-5.0 units
- Quarter (1/4) Time = 1.0-3.5 unit(s)

Notes:

- During the fall/spring/summer terms these classifications also apply to postbaccalaureate unclassified students, 2nd bachelor's students, and credential students.
- International students enrolled in 12 units are classified as full-time during fall/spring/summer.
- Veterans should refer to the Veterans Benefits Overview website for additional classification information for Veterans and Vocational Rehabilitation and Employment benefits.
- Financial Aid applicants should contact the Financial Aid Office for eligible enrollment level.

Graduate Classifications

Postbaccalaureate students enrolled for 4 or more credits of coursework applicable to a graduate program are classified as full-time or part-time according to the unit totals shown below.

**Fall/Spring Semesters**
- Full Time = 8.0 or more units
- Three Quarter (3/4) Time = 6.0-7.5 units
- Greater Than Half (1/2) Time = 4.5-5.5 units
- Less than Half (1/2) Time = 2.5-4.0 units
- Quarter (1/4) Time = 1.0-2.0 unit(s)

**Summer Semester**

**5 Week Session**

- Full Time = 1.5 or more units
- Three Quarter (3/4) Time = 1.0 unit
- Half (1/2) Time = *not available*
- Quarter (1/4) Time = 0.5 unit

**10 Week Session**

- Full Time = 3.0 or more units
- Three Quarter (3/4) Time = 2.5 units
- Half (1/2) Time = 2.0 units
- Less than Half (1/2) Time = 1.5 units
- Quarter (1/4) Time = 1.0 unit

**Notes:**

- International classified graduate students enrolled in 8 units are considered full-time and unclassified graduate students enrolled in 12 units are considered full-time students during fall/spring/summer.
- Veterans should refer to the Veterans Benefits Overview website for additional classification information for Veterans and Vocational Rehabilitation and Employment benefits.

**Schedule of Tuition Fees - 2021/22**

The CSU makes every effort to keep student costs to a minimum. Tuition and fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, CSU reserves the right, even after tuition or fees are initially charged or initial payments are made, to increase or modify any listed tuition fees. All listed fees, other than mandatory systemwide tuition, are subject to change without notice, until the date when instruction for a particular semester or quarter has begun. All CSU-listed tuition and fees should be regarded as estimates that are subject to change upon approval by the Board of Trustees, the Chancellor, or the Presidents, as appropriate. Changes in mandatory systemwide tuition will be made in accordance with the requirements of the Working Families Student Fee Transparency and Accountability Act (Sections 66028 through 66028.6 of the California Education Code).

The following reflects applicable systemwide tuition and fees for semester campuses. **These rates are subject to change.**

**All Students**

Application fee (nonrefundable), payable online at the time of application via credit card, e-check or PayPal: $70

Credit Cards:
Visa, MasterCard, American Express and Discover credit cards may be used for payment of student tuition and fees but may be subject to a non-refundable credit card processing fee.

*Applicable term tuition applies for campuses with special terms, as determined by the campus. Total college year tuition cannot exceed the academic year plus summer term tuition. The summer term tuition for the education doctorate at quarter campuses is equal to the per semester tuition listed in the table. Total tuition for the education doctorate over the college year equals the per academic year tuition plus the per semester tuition for the summer term at all CSU campuses.

**Mandatory Campus Fees Per Semester**

Students are charged campus fees in addition to tuition fees and other systemwide fees.

1.0 or more  $6,974.00  

Note: These fees do not include the $2.00 optional Student Involvement and Representation Fee (SIRF).

Fees and dates subject to change without notice

Graduate Business Professional Fee

The charge per unit per semester is $270.

The graduate business professional fee is paid on a per unit basis in addition to basic tuition and campus fees for the following graduate business programs:

- Master of Business Administration (M.B.A.)
- Master of Science (M.S.) programs in Accountancy
- Master of Science (M.S.) programs in Business Administration
- Master of Science (M.S.) programs in Health Care Management
- Master of Science (M.S.) programs in Business and Technology
- Master of Science (M.S.) programs in Information Systems
- Master of Science (M.S.) programs in Taxation

Billing

SJSU does not issue bills. To see the amount of fees owed in MySJSU (One.SJSU.edu), after you register for classes, go to: Student Center> Scroll down to Finances> Account Inquiry (link) > Charges Due (tab). Due dates are posted within 24 hours after class registration. It is the student's responsibility to make payments by the stated deadline - failure to pay fees by the due date or making a partial payment will result in all classes being dropped. Note: SJSU does not automatically drop classes after census. If you are on a waitlist, please check your account daily since enrollment in waitlisted classes may result in additional fees owed.

Changing your unit load from 6.0 units to 6.1 or more, will result in additional fees being charged. Check your MySJSU account for your payment due date.

Fees for Non-Residents/ International Students
Nonresident tuition (in addition to basic tuition and other systemwide fees charged all students) for all campuses: The charge per unit per semester is $396.00. Adding classes will increase the balance on the student account for nonresident students, so check your account after adding classes.

The total nonresident tuition paid per term will be determined by the number of units taken.

Mandatory systemwide tuition is waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see section on fee waivers).

Students are charged campus fees in addition to tuition and systemwide fees. Information on campus fees can be found by contacting the individual campus(es).

**Graduate Business Professional Tuition Fee**

For students pursuing the MBA or MS Accountancy degrees, the Graduate Business Professional Fee is charged on a $270.00 per unit basis in addition to basic tuition and campus fees.

**Parking Fees**

A variety of parking permits of varying pricing and duration are available for sale through Parking Online Services. For more information, please visit Parking Services, e-mail parking@sjsu.edu, or call 408-924-6556.

**Nonresident Tuition Exemptions (AB 540)**

If you attended high school in California for at least three full years and graduated or earned an equivalent, you may be eligible for resident tuition. Students must file an affidavit with SJSU stating that they have filed an application with INS to legalize their immigration status or will do so as soon as they are eligible. You will need to show proof of attendance and graduation.

On October 11, 2001, Governor Gray Davis signed Assembly Bill 540 (now Education Code Section 68130.5) creating a new exemption from nonresident tuition for any student who meets ALL of the following criteria:

a. attended high school in California for 3 or more years;
b. graduated from a California high school or attained the equivalent;
c. is registered at, or attending an accredited institution of higher education in California not earlier than Fall 2001; and
d. if a student without lawful immigration status files an affidavit with the campus stating that he or she has applied to legalize immigration status (using INS form I-130, Petition for Alien Relative) or will do so as soon as he or she is eligible.

See Exemption FAQs for additional information.

**Registration Late Fees**

<table>
<thead>
<tr>
<th>Description</th>
<th>Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>Students eligible for participation in advance registration who do not register</td>
<td>$25</td>
</tr>
<tr>
<td>Registration after add deadline through census</td>
<td>$45</td>
</tr>
<tr>
<td>Post Census Late Enrollment Fee</td>
<td>$200</td>
</tr>
</tbody>
</table>
Those exempt from the late fee(s) prior to enrollment census date are:

- Students enrolled in the Step to College program
- Graduate students who cannot enroll in lower division classes during Advance Registration.

Late Registration Participants

If you add classes during the Late Registration period which change your unit load from 6.0 units to 6.1 or less, additional tuition fees will be due. Review your account via MySJSU (one.sjsu.edu) to find the amount due and the payment deadline. Billing statements are not issued.

Registration - Deferrals and Waivers

In order to receive a tuition fee deferral, your financial aid file must be complete and all requested documents submitted. Check your "To Do" list at MySJSU for requested documents. Once you have submitted all requested documents, a fee deferral will be assigned to your record to hold your classes and delay the payment of registration tuition fees while your financial aid process is completed. To prevent enrollment cancellation, it is your responsibility to submit all requested documents prior to the scheduled tuition fee payment deadline. Be sure to monitor your account at MySJSU for file status changes and "To Do" items.

Important! Financial Aid fee deferrals are temporary and are issued once all requested financial aid documents are submitted. A financial aid fee deferral holds classes and delays the payment of enrollment fees while the financial aid process is completed. To prevent enrollment cancellation, it is the student's responsibility to submit all requested financial aid documents prior to the scheduled fee payment deadline. The financial aid fee deferral does not cover housing charges.

If your tuition fees are to be paid by a third party (i.e. employer, government agency, college savings plan, or foreign embassy), documents must be on file before your payment deadline authorizing the university to bill the agency for your fees. Authorization may be given in person, mailed or faxed to the Bursar's Office at 408-924-1654. If documentation is not received by your payment due date, classes may be dropped.

When financial aid or the amount to be paid by a third party is less than the amount due, you must pay the difference owed.

Federal regulations prevent the university from deducting parking permit charges from financial aid. Financial aid recipients must pay for parking permits separately.

Payment Deadlines - Registration

Check the Bursar's Office website for the latest registration payment deadlines and due dates.

If students do not pay the amount due by the payment due date(s), all classes may be dropped. Note: We do not automatically drop classes after census. Students wishing to partially drop or withdraw from all classes must do so by following the university policies and procedures.

For more information
Installment Payment Plans (IPPs)

The university offers payment plans to assist students in making their payments over a period of time. The university now offers two payment plans, one for tuition and campus fees* and non-resident fees, and one for housing only.

- Tuition and campus fees only payment plan. Sign-up for this plan if you need a monthly payment plan for tuition and campus fees.
- Housing only payment plan. Sign-up for this plan if you need a monthly payment for housing charges. Sign-up for both plans if you need a monthly payment plan for both tuition and fees, and housing charges.

To enroll in the installment plan, login to MySJSU, navigate to Self service > Student Center > scroll to Finance section > Payment Plans and Account Services. See Bursar's Office for more detailed information on payment plans.

</tr>
</tbody>
</table>

Payment Plan Features

Two fees are not included in either payment plan. They are due with the first installment of the payment plan. They are the Health Center Operations Fee and the Student Involvement and Representation Fee (SIRF).

Loan, Short Term

Short Term loans are available through the Bursar's Office to assist students with expenses over and above tuition, fees and housing. Short term loans are not intended for paying your student account, as they are funds that you borrow against your account, to be paid back during the semester.

To be eligible, you must:

- Be current on any outstanding debts to the university
- Must have sufficient financial aid or be gainfully employed
- Must be enrolled in at least half-time (six undergraduate or four graduate units).

Selective Service-Eligibility for Aid

The federal Military Selective Service Act (the "Act") requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959 may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.
Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online.

Refunds - Registration

A 100% refund of basic and/or non-resident fees will be given to students who drop all classes or withdraw from the university no later than one day before classes begin. Refundable fees include basic registration fees, non-resident fees, course fees and the miscellaneous SJSU fees. See the Pro-Rata Refund Schedule for detailed information on refund percentages at www.sjsu.edu/bursar.

Students who drop units resulting in a lower fee structure and/or mandatory fee obligation will be entitled to a refund of applicable tuition and mandatory fees up to the end of the designated SJSU Late Registration drop period. There are no refunds for individual course drops after this date. See the Pro-Rata Refund Schedule for detailed information on refund percentages at www.sjsu.edu/bursar.

Financial Aid Students

When students who are receiving financial aid withdraw, the unearned portion of federal and state funds must be returned to the appropriate fund. Financial aid eligibility will be recalculated according to a federal formula. Since funds are based on attendance for the entire semester, financial aid must be recalculated on the actual number of days attended.

For All Students

See Bursar's Office for specific refund details.

Special Session and Open University students

Consult CPGE for specific refund policies.

Non-Resident

If a student completely withdraws or there is a reduction in units, any adjustments to the non-resident tuition is based on the transaction date according to the refund schedule as noted above.

Refunds - Parking Permits

Parking permits can be returned for a prorated refund (which adjusts weekly) minus a $10 administrative fee. No returns are accepted during the last month of each semester.

For questions or additional information, please contact Parking Services at 408-924-6556 or via email at parking@sjsu.edu.

All refunds are processed at Parking Services, located in the University Police Building.
Alternative Enrollment Programs

- Dual Enrollment Program

e-Learning

San José State University delivers distance education courses via Web-based learning management systems and resources. These courses are offered by individual departments in regular and special sessions.

Intrasystem and Intersystem Enrollment Programs

Fully matriculated students enrolled at any CSU campus will have access to courses at other CSU campuses on a space available basis unless those campuses/programs are impacted or desired programs/admission categories. This access is offered without students being required to be admitted formally to the host campus and sometimes without paying additional fees. Although courses taken on any CSU campus will transfer to the student's home CSU campus as elective credit, students should consult their home campus academic advisors to determine how such courses may apply to their specific degree programs before enrolling at the host campus.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California Community Colleges. Additional information about these programs is available from the Registrar's Office.

CSU Concurrent Enrollment

Matriculated students in good standing may enroll on a space available basis at both their home CSU campus and a host CSU campus during the same term. Credit earned at the host campus is reported at the student's request to the home campus to be included on the student's transcript at the home campus. Many online courses at CSU campus are available for concurrent enrollment.

CSU Fully Online Courses - CourseMatch and AB386

Matriculated students in good standing may request enrollment in one course per term, offered by a CSU host campus. Enrollment requests will be granted based on available space, as well as completion of any stated pre-requisites. Credit earned at the host campus is electronically reported to the student's home campus to be included on the student's transcript, as transfer credit, at the home campus. Courses completed via the CSU Fully Online Courses program are treated as units completed in residence.

CSU Visitor Enrollment

Matriculated students in good standing enrolled at one CSU campus may enroll on a space available basis at another CSU campus for one term. Credit earned at the host campus is reported at the student's request, as transfer credit, to the home campus to be included on the student's transcript at the home campus.

Cross Enrollment at Other CSU, UC or CCC Campuses

Matriculated CSU, UC, or community college undergraduate students may enroll on a space available basis for one course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home campus. This program is not available to graduate students.
Dual Enrollment Program

SJSU sponsors a low-cost concurrent enrollment program, for area high school students, to earn college credit. Students must have permission from their school principal and meet all SJSU course prerequisites, including placement exams. For applications and more information visit the Registrar's Office.

Student Services Center
408-283-7500, then follow the prompt for Registrar
registrar@sjsu.edu

Open University

Open University is not available to matriculated students.

Open University allows students to earn degree units from SJSU or to take noncredit or Continuing Education Unit programs.

- Fall schedule available online in July.
- Spring schedule available online in December.

College of Professional and Global Education (CPGE)

cpge@sjsu.edu

Summer Session

Summer Session offers both matriculated and non-matriculated students the opportunity to enroll in summer classes at San José State University. The program offers hundreds of courses to choose from across three sessions. Schedule policy, procedures and course information are available in April.

cpge@sjsu.edu

Winter Session

Winter Session offers both matriculated and non-matriculated students the opportunity to earn up to four units in three weeks during SJSU's winter intersession. The program allows students to complete graduation requirements, enroll in highly sought after classes, and advance towards their degree.

College of Professional and Global Education (CPGE)
Professional Degree Programs Offered Through Special Session

Professional degree programs offered through Special Session, offer unique opportunities to both traditional students and working professionals to earn graduate degrees and certificates on an alternate/flexible schedule, often online and/or off campus.

Registration Fees, Payments and Refunds

Caution!

- Fees are subject to change without notice.
- You are responsible for keeping your MySJSU and email address (which can be accessed through the One.SJSU.edu portal) account current.
- If a check or eCheck is dishonored by the bank for any reason, including keying errors for e-checks, your registration is subject to cancellation.
- Any delinquent outstanding charges owed to the university will be submitted to the Franchise Tax Board for tax refund offset.

All payments apply to the oldest balance on your account. For example, if you are making a registration payment and you have a housing balance with an earlier due date, the payment will apply to the housing charges first. Keep your account current to avoid the possibility of enrollment cancellation.

When you register, your MySJSU will show the balance due and due date. Fees are payable by the due date(s) and must be posted to your account before or on the due date to avoid enrollment cancellation. Please see acceptable methods of payment and payment plan options on the Bursar's Office website.

Failure to pay fees by the due date will result in enrollment cancellation and all classes will be dropped. Note: Classes are not automatically dropped after census. Students wishing to partially drop or withdraw from all classes must do so by following the university policies and procedures.

Final Examination Policy

• Time Frame for Culminating Activities
• Exceptions to Time Frame for Culminating Activities
• Circumstances in which students may request the rescheduling of a culminating activity
• Oversight of Culminating Activities

In accordance with University Policy S17-1, faculty members are required to have a culminating activity for their courses, which can include a final examination, a final research paper or project, a final creative work or performance, a final portfolio of work, or other appropriate assignment. Supervision, internship and individual study courses are not required to have a culminating activity. Visit the Class Schedules Calendar for a detailed listing of the latest term's final exam schedule.

Time Frame for Culminating Activities:

In the case where there is to be a timed, sit down final examination or an online synchronous final, it must occur during the scheduled final examination time for that course. The required submission date and time for take-home examinations, final papers or other culminating activities must fall no earlier than the beginning of the scheduled final examination time for the course. Online asynchronous final exams are to be treated like take-home exams. Final exams shall not be given, nor culminating activities due, during regularly scheduled class periods or on "Study/Conference Day."

Exceptions to Time Frame for Culminating Activities:

Exceptions for the above time frame are justified in the following circumstances:

• Performance courses in which it is impractical to examine each student individually in the time period assigned for final examinations; e.g. performance courses in theater arts, music, or athletics.
• Other such circumstances as approved by the chair with notification and rationale to be provided to the dean.

Circumstances in which students may request the rescheduling of a culminating activity:

a. A student may request the rescheduling of a culminating activity if there is a verifiable emergency.

b. A student may request the rescheduling of a culminating activity if three or more are scheduled/due within a 24-hour period. Requests must be made at least three weeks prior to the last class meeting of the semester.
   • If one of the three or more culminating activities scheduled for the same day is a paper or project, the deadline for the paper/project will be moved to a mutually agreeable time within the final examination period.
   • If three or more finals are scheduled on the same day, the student may request an alternative exam date and/or time from any one of the instructors.
   • The final exam makeup day may be used for rescheduled exams.

c. Regarding a and b above: if a student and instructor are unable to reach agreement on rescheduling, the chair will first be consulted. If no agreement can be found through the department chair, the dean (or designee) will be consulted.

d. Graduate students should refer to section on Master's Examinations - Finals.
Oversight of Culminating Activities

The department chairperson will oversee culminating activities (examinations; portfolios; research or creative projects) in a manner that assures that the rules for culminating activities are followed. If a dispute arises, the dean (or designee) will be consulted.
Leaves of Absence and Withdrawal

One Semester Leaves

Students who have attended at least one semester as matriculated students and who are in good or probationary academic standing may choose to be voluntarily absent from the university ("stop out" or not enroll) for one semester (Fall or Spring) without submission of a leave-of-absence petition or any penalty. A student must return the semester following a stop-out semester and continue their enrollment as a matriculated student unless the stop-out semester is immediately followed by an approved leave of absence. If a student does not return in the semester following the one semester stop-out, application for re-admission for the next available admission term is required. If the student is in disqualified status or was disenrolled the previous semester for nonpayment of fees, they can neither apply for a leave of absence nor enroll after the initial absent semester without application for re-admission.

The exception to this rule is that graduate students who have completed all degree requirements except their culminating experience and who either have an RP grade in a project or thesis course or will be taking comprehensive exams may not stop out but must maintain continuous enrollment (see University Policy S17-5). They can do so by taking a 1-unit special session course designed for this purpose. Students should consult their Colleges and Departments or their majors to determine the course to take (1290R). Also consult the section entitled Thesis and Project Work - RP Status. At this stage of the graduate student career, leaves of absence other than medical or military duty will rarely be permitted.

Students who are members of an academic cohort may be restricted by their respective departments or schools in the duration of their leaves. Thus one-semester leaves may not be possible if it is necessary for course enrollment to join a future cohort, which usually would start after one academic year. The individual program director or graduate advisor of the cohort program should be consulted before and after an absence to determine the semester of eligibility to return.

Leaves of Absence

By University Policy S15-3, a formal leave of absence for undergraduate or graduate students in the first or subsequent semesters for medical, care-giving, military service, personal hardship, or educational reasons may be requested by submission of the fully signed and documented Leave of Absence Petition. Submission to the Registrar's Office must precede the leave period except in the rarely granted cases of retroactive leaves. Leaves can be 1-4 semesters in length (with some exceptions). If a stop-out semester is taken prior to the formal leave, that semester counts in the 4-semester maximum period. Following the leave period, re-enrollment is required to avoid application for re-admission. An early return from leave must be accompanied by written notice to the Registrar's Office. Students granted a leave are guaranteed a return to their department even if it is or becomes a program restricting the number of applicants.

Graduate students are eligible for all leaves of absence except when finished with all degree requirements other than their culminating experience (thesis, project, and/or comprehensive exam plus any other components required of the major). At that point, neither stopping out (voluntary absence for a semester) nor financial leaves are permissible and students must register for 1 unit of University Studies (UNVS) 1290R or a Departmental 1290R (Thesis/Project Supervision) through special session every semester until graduation (See Thesis and Project Work - RP Status) to maintain continuous enrollment (see University Policy S17-5). During this stage of a graduate student's career, leaves of absence for any reason beyond medical or military shall be precluded except under rare circumstances.
Time Limits

Course expiration, as per long-standing SJSU practice, (10 years on undergraduate courses and 7 years on graduate courses) shall remain in effect even for students who have taken leaves of absence. Upon a student's return, the student's catalog rights shall pertain to his or her most recent admission date. Graduate students - see the Graduate Policies & Procedures - Time Limits section for more information on time limits.

Types of Leaves

Documentation and a personal statement are always required (though see certain limitations below). Supporting memos from faculty advisors or mentors may be included but are optional, except in the case of educational leaves.

First-Semester Leaves of Absence

These leaves, which are to be awarded sparingly, are for matriculated students exclusively. Therefore, the student must have been admitted into the university rather than merely applying for admission. Any conditions or provisions imposed on admission status that are still in effect shall carry over to the semester of re-enrollment following the leave.

International Student Leaves

International students must be enrolled in a full course of study (12 units for undergraduate students; 9 units for graduate students) for two semesters annually (summer and winter breaks not included). International students are eligible for leaves of absence only when authorized by International Student and Scholar Services (ISSS). Lack of enrollment for any reason other than prevention of the ability to pursue one's studies by severe medical circumstances shall result in the student having to leave the US. If the student is able to return from abroad at the expiration of the leave period, he or she shall derive the benefits of having had the formal leave, such as avoiding the readmission process. However, other restrictions, such as in the ability to work within the US, may be imposed by federal immigration regulations. International students in need of a leave of absence must first speak with an international student advisor. Walk in advising is available at ISSS in Student Union CPGE.

International students may not take a leave of absence and must remain in the United States except for documented medical reasons. International students must be enrolled in a full course of study (9 units) for two semesters annually. Winter and Summer registration are not required. If you have further questions please contact the International Student and Scholar Services Student Advising.

Medical Leaves

These leaves (including physical and mental health leaves) must be supported by submission of the Treating Healthcare Professional's Verification of Medical Condition Form. Details of the medical condition or the type of healthcare professional consulted should not be included, only that there is a medical condition that justifies the leave and is supported by a State-certified healthcare professional's authorization with respect to both the severity of the medical condition and the period of need for a leave, as given by means of the Treating Healthcare Professional's Verification of Medical Condition Form. A semester of pregnancy, maternity, or paternity leave (beyond the first stop-out semester) is acceptable.

Planned Student Educational Leaves

An Educational Leave permits a student to be absent from regular attendance for one or more terms while maintaining continuing enrollment status. Applicants must have an intention to return to formal study within a
specified period and a plan for how the time is to be spent. There must be a clear educational objective for award of the leave. At least one supporting letter from an advisor, mentor, or chair from SJSU as well as the consent of the associate dean of the college is also necessary.

The opportunity to apply for such leave is available to all non-international students except those attending their first semester and those in disqualified status.

Leave arrangements must be made in advance with the department in which the student is majoring. Undergraduate students in undeclared status will make leave arrangements with Academic Advising and Retention Services (AARS) in the Student Services Center. Graduate students will make leave arrangements with the graduate program coordinator in their department.

**Primary Caregiver Leaves**

In most cases, a healthcare professional’s certification of need for the care must be included by submission of the Treating Healthcare Professional’s Verification of Medical Condition Form, as indicated above.

**Personal Leaves**

**Personal Hardship Leave**

This category encompasses a variety of social or financial insecurities, including, but not limited to, financial hardship, temporary job relocation, increased work hours in order to maintain employment, or housing insecurity. A personal statement of understanding is required and must include objectives to resolve the personal insecurity to be able to return successfully to one’s studies.

**International Military Service**

For international students called to active military duty, leave requests must be supported by a copy of the military orders. Such leaves may not exceed four consecutive semesters.

**Retroactive Leaves of Absence**

Retroactive leaves may be granted for up to two semesters after the semester of the student's last enrollment, excluding summer and winter sessions. These leaves shall modify the enrollment status retroactively. After two semesters, the student will be required to reapply and be subject to current application deadlines.

**U.S. Military Deployment Leaves**

For students called to U.S. active duty, leave requests must be supported by a copy of the U.S. military orders. Such leaves may be for as long as five years. They may occur during the first semester of matriculation

**Withdrawal from the University**

Students may withdraw officially from all courses during the first two weeks of instruction without academic penalty (no "W" grade on academic record). Students who have compelling reasons to cancel their registration or who wish to withdraw from all classes after the last day to drop without a "W" grade should consult their instructors, department chair or school director, academic advisor, and, for undergraduates, Academic Advising and Retention Services in the Student Services Center. Counseling & Psychological Services might also be sought for assistance.
A completed Petition for Withdrawal form for undergraduates or a Graduate Petition for Course Drop/Semester Withdrawal for graduate students must be submitted. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses. Students who leave the university but who do not officially withdraw will receive a grade of "WU" (denotes failure for unauthorized drop or withdrawal) in all of their classes. No personnel actions, grades, or transcript services will be permitted until all financial obligations, such as unpaid fines have been settled. If a student fails to return the semester immediately following withdrawal, reapplication for admission at www.calstate.edu/apply will be required.

Students who receive financial aid must consult with the Financial Aid and Scholarship Office prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. If a recipient of student financial aid withdraws from the institution during an academic term or a payment period, the amount of grant or loan assistance received may be subject to return and/or repayment provisions.

Students holding visas must consult with International Student and Scholar Services (ISSS) regarding effects on their visa status before submitting a withdrawal petition.

Refer to the section on for Continuous Attendance and Catalog Rights information about the possible effect a break in attendance may have on requirements for graduation.
Registration and Attendance

- Make sure you have access to One.SJSU.edu
- Make sure your browser (Chrome, Explorer, Firefox or Safari) supports access to MySJSU portal.

For your convenience, computer access locations are available at these campus locations:

- Clark Hall
- King Library
- Associated Students Computer Lab, Student Union
- Lobby, Student Services Center
- Peer Connections, Student Services Center
- Campus wireless hotspots

SJISU ID

- Use your SJSUOne login information to sign into MySJSU. Your SJISU ID, also known as your Tower ID, is the number found on the front of your Tower Card.
- Your ID cannot be changed.
- New students receive this information from Admissions Office communications shortly after submitting a completed application for admission.

Primary Name (Legal Name)

- Will be used on all official university documentation such as the diploma, official/ unofficial transcript, the SJISU ID (Tower) Card, and any documentation involving financial aid or student accounts.
- Must be used when conducting official university business.
- Will be used for student's SJISU email address in this format: FirstName.LastName@sjsu.edu.

If an update or correction is needed, Personal Information Change form [pdf] is required.

Preferred Name

San Jose State University recognizes that members of our community may choose names other than their legal names to identify themselves. SJISU allows preferred names as long as the name is not used to misrepresent or evade legal obligations. Inappropriate use of the preferred name policy may result in a violation of the Student Conduct Code and be referred to the Office of Student Conduct and Ethical Development. The university reserves the right to remove a preferred name if it is being used improperly. Students should check to ensure that their preferred email is current each semester.

- Current students can set up a "preferred name" by changing first and/or middle names on MySJSU
- The preferred name will only be seen on Class Rosters and Grade Rosters. The student's Primary name (Legal name) will appear on all official documents such as transcripts and diplomas.
• The student’s SJSU.edu email address will be the student’s Primary name (Legal name) in this format: FirstName.LastName@sjsu.edu.
• CANVAS does have an internal process that allows you to display your preferred name.

Password

• You can set your password for the first time or reset it if you have forgotten it by navigating to One.SJSU.edu and clicking on the Password Help tile.
• When setting or changing your password, pay close attention to the case in which you enter the letters.
• Remember, your password is case sensitive!
• If you are having difficulty resetting your password, please contact itservicedesk@sjsu.edu for assistance. Include your full name, SJSU ID if known, your date of birth, and your mailing address.

What to do if you can't log in

• Contact itservicedesk@sjsu.edu for assistance, submit a ticket: Open a help ticket, or visit an IT Service Desk.

Appointments and Class Schedule

Do your research and plan your schedule

Check your enrollment appointment on your MySJSU account by logging on to One.SJSU.edu. The MySJSU tile will appear as a "Most Popular". You can also use the One.SJSU.edu search bar to search for MySJSU. For more tutorials and guides on how to get started with One.SJSU.edu and to customize the portal, visit the IT Support site.

You will not be able to register before your appointment time, but you can enter the system, run MyProgress and MyPlanner, and research course offerings, degree requirements, course prerequisites, etc. You will not be able to register until you clear registration holds (see Registration Holds).

It is your responsibility to monitor your account to see when the appointment time is posted. Note that enrollment appointments are not mailed or emailed to students.

Create a registration worksheet before logging on

Build a sample schedule and have alternate schedules or classes prepared in the event courses are either closed or cancelled. SJSU offers course listings to you in 3 ways:

1. Use MyScheduler to find the schedule options that work for you. You can import your semester plan from MyPlanner to MyScheduler and you can block out times you have work or other commitments.
2. MySJSU class schedule search function: Real-time updates of available courses (open and closed sections, seats remaining).
3. SJSU Catalog: Instructions, policies, procedures and course listings at one URL. Searchable, linked to SJSU Catalog degree templates.
4. Check out the Roadmap for your major requirements and run MyPlanner.

Course Offerings and Cancelled Classes
The courses listed in the online SJSU Schedule of Classes reflect the scheduled offerings by the departments available at the publication deadline. The online schedule of classes posted at MySJSU provides real-time status of classes. Departments have the option, based on enrollment, to cancel and/or add sections or courses.

**Priority Groups**

Current units-in-progress is used to determine class level for registration purposes. All priority groups are established per University Policy F17-4.

**Group One**

*Priority Students*

Students who are required by external agencies such as the National Collegiate Athletic Association, or by law, to receive priority. This excludes students covered by SB 412, the California Promise program unless they also fall under another group with required priority registration.

Students whose contributions to the university are recognized as being so extensive that their graduation would be postponed by the amount of time spent on their extracurricular duties.

Students serving on Senate committees that require student participation in order to perform essential functions.

Students who are part of any group that has a contractual agreement with SJSU to provide a full course load. Groups in this category include:

- Accessible Education Center (AEC) students
- AEC note takers
- Associated Students Board of Directors
- Student Fairness Committee Members
- NCAA Athletics
- Guardian Scholars
- Reciprocal Exchange students
- Veterans (as per Cal. Educ. Code 66025.8)
- Students serving on Academic Senate committees that require student participation in order to perform essential functions
- Students who are part of any group that has a contractual agreement with SJSU to provide a full course load
- Appropriately certified students with disabilities

**Group Two**

- Graduating seniors (bachelors-level students who have a graduation application on file with an anticipated graduation date for the current or next semester) in the California Promise program
- Remaining graduating students (bachelors- and graduate-level students who have a graduation application on file with an anticipated graduation date for the current or next semester)

**Group Three**

- Non-graduating graduate students based on alphabetical groupings
Group Four

- Seniors in the California Promise Program
- Non-graduating Seniors based on alphabetical groupings

Group Five

- Second Baccalaureate students based on alphabetical groupings

Group Six

- Juniors in the California Promise Program
- All other Juniors based on rotating alphabetical groupings

Group Seven

- Sophomore and continuing Freshmen in the California Promise Program
- All other Sophomores and continuing Freshmen based on rotating alphabetical groupings

Note: First-Time Frosh registration is completed through Frosh Orientation. Incoming transfer students have a registration date dependent on when they matriculate.

Adding a Class

- Navigate to One.SJSU.edu
- Enter your SJSU ID and Password to log into MySJSU
- Navigate to Academics > Add a Class
- Select the correct term. If you do not see the desired term, you are not eligible to enroll. New students should contact Admissions. Continuing students should contact the Registrar's Office.

Choose the class you wish to add.

- Two ways to select a class:
  1. If you know the class number for the class you wish to add, you can simply type the 5 digit Class Number and click the Enter button.
  2. Click the green "Search Button." Make sure the Course Career is set to Graduate or Undergraduate depending on the class you are searching for. If you find a class you wish to add, click the "Select Class" button to place it in your shopping cart.
- Once you have chosen a class, a new page called "Class Enrollment Options" will appear. Verify that the course is the one you selected.
- If required, enter permission number (see Department or Instructor Consent below)
- Select any related component classes if applicable (see below), and click okay.
- The Add Classes page will appear, and you will see your classes in your shopping cart.

Warning: you have not yet added your classes. You must click on "Finish Enrolling" to add the class.
Component Classes

If the course has related components attached to it (e.g., lab, seminar), the system will prompt you to select the one you wish to add.

Department or Instructor Consent

- Please note that classes designated "Department Consent Required" require a Permission Number (add code).
- If you received a Class Permission Number, enter it in the available field.
- Please note that most classes will require a Class Permission Number if you are adding during the Late Registration period, beginning on the first day of instruction.

Switching Class Sections?

You must drop the section (lecture and labs/seminar, as well, if they have related components or corequisites) before adding the new class section(s).

Add Additional Classes

If you want to add another class to your add classes list, simply repeat the previous steps.

Warning: Finish Enrolling

Make sure you complete the process! Once you have added all your classes to your shopping cart, click the green button that says "Proceed to Step 2 of 3." On the next page you will be given the chance to review your enrollment and make sure that it is accurate. Once you have verified your classes, click the green "Finish Enrolling" button to submit your registration.

Verify Add

Check to make sure you did not receive any errors for the classes you added. If you did, you can see a message explaining why you could not add the class, for example, prerequisites not met, or the class is full. Finally, check your class schedule to make sure all the classes you added appear.

"Instructor Consent" or "Department Consent"

Should you receive a registration error indicating that "Instructor Consent" is required, you must go to the instructor to obtain the Permission number. To add the course, use the Permission Number with the 5-digit Class Number for that specific course section, as listed in the course schedule.

"Department Consent" requires students to go to the department that offers the course to obtain the Permission Number. To add the course, use the Permission Number with the 5-digit Class Number for that specific course section, as listed in the course schedule.

Permission numbers become 'used' only after an enrollment request is successful. To assure a successful enrollment request if you are adding using a permission number, remember the following before clicking the submit button:
Check that you have no holds.
Check that you have met all prerequisites.
If you know the 5-digit class number, enter the number. If not, use "search" function and enter Course Subject e.g. SOCI and course number e.g. 101. See the guide with screenshots on how to enroll
Enter the permission number in the permission number box (see page 5 on the guide)
Enter any and all Component Courses (e.g., corequisite labs or seminars) and determine what required course is approved even before trying to "Enroll in the Class."

Adding Classes on the First Day of Instruction

At the first class meeting, Group 3: Graduating Students (bachelors and graduate level students who have a graduation application on file with an anticipated graduation date for the current or next semester) shall have top priority for any available spaces. Students seeking to add the course should provide documentation showing that they are graduating seniors as defined above.

An impartial procedure (such as a lottery or any other method of random selection) shall be used to choose, from among the graduating seniors, those who will fill the available spaces.

University Policy F20-1

Adding Classes after the Last Day to Add

- Before the Census date, students can submit the Pre-census Late Enrollment petition form to the Registrar's office. This petition is valid through census date per University Policy F09-2.
- After census date, students can petition for a late add using the Post-Census Late Enrollment form. This form replaces the Retroactive add petition form. Petition forms can be found on the Registrar's website

Late Fee Assessed

Students registering for classes after the term begins are assessed a late registration fee. Students in the Step to College programs are not required to pay the late registration fee.

<table>
<thead>
<tr>
<th>Amount</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>$25.00</td>
<td>Begins the first day of instruction for initial enrollment within the term.</td>
</tr>
<tr>
<td>$45.00</td>
<td>Begins after late registration deadline and before census for any classes added.</td>
</tr>
<tr>
<td>$200.00</td>
<td>Begins after census for any classes added (includes Retroactive Adds - which begins the first day after instructions ends).</td>
</tr>
</tbody>
</table>

Waitlisting

SJSU has "waitlisting" for all classes. Waitlisting puts you in line to get a space in a closed class, should a space become available before the end of the Advance Registration period and 9 days from the first day of instruction. See University Policy F20-1 for more details on the waitlist policy.

Where do I sign up?
You may sign up for the waitlist via MySJSU. If a class is full, you may place yourself on a waitlist.

**Waitlist When You Add Classes**

- Navigate to 'add classes.'
- At "Step 1, Select classes to add," search for your preferred course.
- If the class is full and the waitlist option is available, you will see the yellow waitlist icon.
- To place yourself on the waitlist, you must click the checkbox next to "Waitlist if class is full."
- You will be returned to Step 1. You must complete the remaining steps of the process to add classes.
- When you finish enrolling in the class, you will see a message indicating that you are on the waitlist and your current position number on the list.
- Monitor your waitlist position by navigating to "My Class Schedule" at MySJSU.

**Feedback**

Problems? Questions? Comments? Contact Registrar@sjsu.edu

**Validity**

You can add yourself to the waitlist for a class when the class is full until the end of Advance Registration period and 9 days from the first day of instruction.

- Waitlists become null and void 9 days from the first day of class instruction.
- There is no guarantee you will be enrolled in the class from the waitlist.
- The waitlist cannot enroll you for a different section of the same class and cannot override a time conflict.
- When classes begin, the automated waitlist process will add the students based on priority given to graduating seniors with a graduation application on file, and an approved candidacy form for graduating graduate students and 21 units earned. Check your schedule regularly at MySJSU to monitor your position on a waitlist.
- Check your schedule regularly at MySJSU to monitor your position on a waitlist.

If you decide you no longer wish to wait for space to become available, as a courtesy to other students, drop yourself from the waitlist.

**Registration Procedures**

- You may place yourself on the waitlist for classes that have a waitlist and if the class is already full.
- If you are already enrolled in another section of the same course, you will not be moved from the waitlist if space becomes available unless you drop the section in which you are enrolled.
- If there is a time conflict with a class for which you are already enrolled, you will not be enrolled from the waitlist.
- You must meet any requisites for the class before you can be placed on the waitlist, e.g., course prerequisites, section corequisites, major and class level restrictions. See related catalog/course descriptions at MySJSU.
- When you place yourself on a waitlist, you hold a position that changes as students ahead of you get enrolled in the class or drop off the waitlist.
- You may not go over your enrollment limit. For example, if moving into a course from a waitlist exceeds your enrollment limit, you will not be enrolled in the class.
Waitlists have priority over all general add requests. If students drop from a full class, students from the waitlist will be placed in the class before any student who logs in and requests the class, but is not on the class waitlist.

If you are moved from the waitlist into the class, you will receive a confirmation message in your MySJSU account.

As with any class, when you move from the waitlist into a class, it is your responsibility to drop the class if you decide not to attend. Failure to properly drop the class will result in a "WU" grade on your record which will lower your grade point average.

It is your responsibility to monitor your movement up the waitlist, your enrollment limit, potential time conflicts and any additional fees due.

For Variable Waitlist Unit Limit process visit the Registrar's website for more information

How do I move from the waitlist into the class?

Students are moved from the waitlist into the class if space becomes available, in the order they have been placed on the waitlist and subject to the restrictions described.

Students will be moved from the waitlist and enrolled in the class if other students drop or are dropped due to non-payment of fees.

Registration Issues

- There is a time conflict with another registered class: compare the exact time of the classes for which you have registered—even a 15 minute overlap will prevent you from moving from the waitlist into the class. Since potential time conflicts are not checked when you place yourself on a waitlist, it is your responsibility to make sure that waitlisted classes do not conflict with your enrolled schedule.
- You are already enrolled in another section of the same course: you will not be moved from the waitlist if space becomes available unless you drop the section in which you are enrolled.
- If you are repeating the course: you will not be moved into the class. Instructors will have the discretion to allow you to register for the class with a permission number during Late Registration—the first day of instruction through the last day to add.
- For a course with components: you can waitlist in any section, but you must select all desired sections (lecture, lab and seminar). Space must open in all sections for you to be added to the class.
- You will not be enrolled from the waitlist if a hold is placed on your record after you sign on to the waitlist. If—for any of the reasons given above—you cannot be moved from the waitlist, you will be skipped over and the next student considered. You will not be reconsidered until the next time space becomes available in the class.

Registration Billing

- You may be added into waitlisted classes at any time which might incur additional charges. It is important to check your class schedule and amount due daily to avoid possible cancellation of all your classes for failure to pay your fees in full by your payment due date.

0118 | **Permission Codes**: Permission Numbers (add codes) will be given the First Day of Instruction.

**Dropping a Class**

**Go to MySj SU**

- Enter your SJSU ID and Password
- If you drop a class, you must do so prior to the time you submit payment to ensure that your registration fees are properly assessed.

**Navigate to "Self Service" > Student center > Drop a class"**

- Click on "Drop Classes"
- Click the checkbox next to each class you wish to drop and click "Drop Selected Classes."
- Review your selection and click "Finish Dropping."
- It is the student's responsibility to make sure classes are dropped.

**Dropping Without Penalty**
Courses may be added during the first fourteen days of classes. Courses may be dropped without academic penalty during the first nine days of classes. See the Calendar section for exact dates and deadlines. Courses dropped during this initial period will not appear on the student's transcript. With instructor consent, students may late add a class up to one week later. Please view the pro-rata refund schedule for the appropriate semester.

**Dropping Classes After Drop Deadline**

**Dropping Classes After the Fourteenth Day of Instruction**

Students may petition to late or retroactively drop a course or withdraw from an entire semester of courses for serious and compelling reasons after the drop deadline. Check the official academic calendar to verify the date.

Conditions and circumstances are defined as "serious and compelling" only if beyond the student's control. Those acceptable as justifications for a late drop must have occurred after the drop deadline. A personal statement with supporting documentation must be submitted with the late and retroactive drop and withdrawal forms.

Undergraduates may download the appropriate petition (course drop or withdrawal from all courses). Graduate students may download the appropriate petition.

Submission of these forms, even with an instructor's signature, does not constitute approval. Continue attending class and complete all assignments until the petition is approved or denied.

**Instructor Drops**

Instructors are permitted to drop a student who fails to establish a committed presence in the class. "Establishing a committed presence" is defined in University Policy F15-3 as the following options for the student:

1. In-person classes. Attending the first class meeting or informing the instructor of the intention to continue in the class before 48 hours after the first official class meeting.
2. Online classes. Logging on to the LMS class shell on the first scheduled day of the class or informing the instructor of the intention to continue in the class before 48 hours after the official class start date.

Some instructors may drop students who do not meet the stated course prerequisites. However, they are not required to do so. It is the student's responsibility to make sure classes are dropped.

Detailed information for instructors is available for download.

**Late Drop Petitions**

Students may petition to Late Drop for serious and compelling reasons after the drop deadline. To verify the official dates, see Calendar for links to the official academic calendar. Petitions are available at AARS for undergraduates and GAPE for graduate students.

Conditions and circumstances are defined as 'serious and compelling' and are considered beyond the student's control, and which occurred after the drop deadline.

A personal statement submitted without supporting documentation is not acceptable. Acceptable documentation includes:

**Personal health or serious family illness**

Serious health reasons out of your control (e.g. personal health, serious family illness or assigned caretaker). Attach the Healthcare Provider Form.
Military (orders from CO)
Submit military assignment papers.

Divorce
Divorce papers or certification of pending divorce.

Natural Disaster: (e.g. fire, earthquake)
Submit verifiable documentation.

Employment
Letter from employer, on letterhead indicating reason(s) for work schedule circumstances conflicting with the class requested to drop and date of change in schedule.

Personal/Other (rarely approved)
Submit verifiable and appropriate documentation other than the student's statement.

Administrative Error
University documentation from appropriate departments. Students must understand that their personal letter alone will not suffice as verifiable documentation.

Late drops are to be submitted to the counter of Academic Advising and Retention Services in the Student Services Center or using the DocuSign petition.

Neither an instructor's signature nor submission of a Late Drop petition constitutes approval of the drop. Continue attending class and complete all assignments until you are notified via MySJSU message that the petition has been approved or denied.

Academic Renewal
Graduating seniors with a grade point average (GPA) below 2.0 in the major, minor, SJSU, or overall college coursework, may request that all grades earned in a previous semester (or two semesters) be disregarded, to permit graduation. If the petition is approved, all grades and units earned during the semester will be disregarded when calculating GPAs for graduation, but the courses and grades will still appear on the transcript.

All of the following conditions must be met:

- You must have applied for graduation and be ready to graduate.
- You must have a GPA below 2.0 in a category required for graduation (major, minor, overall, SJSU)
- At least 5 years must have elapsed since the semester you want to disregard.
- You must have at least a 3.0 GPA in your most recent 15 units at SJSU, or 2.5 in the past 30 units, or 2.0 in the past 45 units.
- No courses or units earned during the semester you want to disregard may be counted toward graduation.
- You must document extenuating circumstances associated with the semester you want disregarded and show that your performance is not representative of your ability.

Students need to apply for Academic Renewal.

Cancellation of Registration or Withdrawal From the Institution
Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the university’s official withdrawal procedures. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from Academic Advising and Retention Services (AARS) at 408-924-2129.

Students who receive financial aid funds must consult with the Financial Aid office prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. Students who have received financial aid and withdraw from the institution during the academic term or payment period may need to return or repay some or all of the funds received, which may result in a debt owed to the institution.

Please contact the Office of the Registrar at 408-924-5680 for more information

**Restrictions**

**Graduate students**

Cannot enroll in lower division classes during Advance Registration. Lower division classes will need to be starting on the first day of instruction for the term.

**Matriculated SJ SU students cannot concurrently enroll in Open University.**

Matriculated students are those who have been admitted to SJSU as regular students for the current semester or were registered as matriculated students in at least one of the two previous semesters and did not graduate. This policy does not apply to disqualified students.

**Students returning after an absence:**

After an absence of more than one semester (without a formal leave of absence petition), students must reapply for admission before access to registration is granted.

**Maximum Unit Load:**

During the Advance Registration period a cap is placed on the maximum number of units that students can enroll in. After a specified date, the cap is raised. Students wishing to enroll in excess units must submit an Excess Units petition their Department Chair. Please check the Office of the Registrar for more information.

**Repeating a Class**

In accordance with University Policy, F08-2, any matriculated student who is repeating a course for the first time shall be allowed to register for the course during the Advance Registration period no earlier than approximately three weeks prior to the start of the semester. Students who have received a grade of “W” will be treated as a first-time registrant for a course. Students who are repeating a class for two or more times shall submit a completed petition to the Registrar’s Office by 1) DocuSign - preferred & most secure method; 2) Use your SJSU e-mail to send form(s) to records-regist@sjsu.edu; 3) Overnight drop box by Student Services Center entrance or 4) USPS mail. The petition form is available online at the Registrar's forms website.
Returning After an Absence

If you are in good standing and you were not disenrolled for non-payment of fees and you choose not to enroll or "stop out" for one semester, there is no need to reapply for admission. However, in order to maintain your matriculation at SJSU, you must enroll in classes the semester immediately following the one semester you stopped out. Some examples:

- You attended a spring term, earned grades and you are still in good standing. You do not enroll in the fall term, but you must return to take classes in the following spring. You do not need to reapply for admission.

When must you reapply for admission

- You attended a fall term, earned grades and are in good standing. You do not enroll in the next spring and fall terms (absence for a full year). You must reapply for admission.
- If you take a full year off from school--you must reapply for admission. Consider alternatives: read the "leave of absence" section.
- You do not enroll in classes in your initial admission term and wish to attend a subsequent term. You must reapply for admission.

How to reapply for admission

Complete the online application at Cal State Apply.

If you intend to stop out for one semester but decide to extend your absence, you may not request a leave of absence.

If you return to SJSU after an absence of more than one semester you must reapply for admission before access to registration is granted. Note that a summer term is not included in this policy.

First Year Course Placement - English and Mathematics/ Quantitative Reasoning Supported Instruction

- Students required to participate in Supported Instruction in Math and/or English may be restricted from enrolling in certain classes for which they do not meet prerequisites. Visit Supported Instruction for more details.
- Students required to participate in Supported Instruction in Math and/or English are required to enroll in an appropriate Math and/or English class during their first year and each successive term until those classes are completed with a grade of at least C-.
- All entering SJSU frosh assigned to enrollment category W-II or W-III must enroll in their A2 course(s) during their first academic year. All entering SJSU frosh assigned to enrollment category M-II or M-III must enroll in their B4 course(s) during their first academic year (Spring admits choosing either Stretch English or Statway, both of which start only in Fall semesters, may extend their enrollment start date to their first Fall semester.)
- Entering SJSU frosh assigned to enrollment category W-IV must enroll in their appropriate A2 course(s) in Fall of their first academic year. Entering SJSU frosh assigned to enrollment category M-IV must enroll in their appropriate B4 course(s) in Fall of their first academic year. (Spring admits choosing either Stretch English or Statway, both of which start only in Fall semesters, may extend their enrollment start date to their first Fall semester.)
- Students required to participate in Supported Instruction in Math and/or English who do not enroll or who drop out of the appropriate class(es) during any registration period for fall or spring terms without consultation with the specified advisor in Academic Advising and Retention Services may be subject to having all courses dropped. If this occurs, students must re-register for courses with no guarantee that classes in which they were previously enrolled will be available.
• Entering SJSU frosh who have not completed A2 or B4 within a year of first registration will be placed on Administrative Academic Probation. Entering SJSU frosh who have not completed A2 or B4 within two years of first registration will be administratively academically disqualified.

**Writing Skills Test (WST) - Registration Restriction**

The WST requirement has been temporarily suspended. See Temporary WST Policy for a self directed placement exercise to help you determine whether to take 100A or 100W.

- Are you planning on taking an SJSU Studies General Education course?
- Are you planning on taking a 100W course outside of your major?

You must satisfy the WST requirement in order to register for any SJSU Studies (Area R, S, V, and Z) course. This is true even if you want to take the class for a major requirement, instead of GE. If you have not yet taken the WST, plan to take it as soon as possible. Check the Undergraduate Graduation Requirements - Unit Overview for an explanation.

SJSU offers courses (LLD 100A and ENGL 100A) that satisfy the WST requirement, if completed with a grade of "C" or better.

There are designated 100W classes for most degree programs. Clear any substitutions with your major advisor before attempting to register for a 100W class that is included in your major's required courses.

**CSU Immunization Requirements**

Entering CSU students are required to present proof of the following immunizations to the CSU campus they will be attending before the beginning of their first term of enrollment.

**Measles, Mumps, and Rubella (MMR):** Two (2) doses with first dose on or after 1st birthday; OR positive titer (laboratory evidence of immunity to disease).

**Hepatitis B (Hep B):** All new students who will be 18 years of age or younger at the start of their first term at a CSU campus must provide proof of full immunization against Hepatitis B before enrolling. Full immunization against Hepatitis B consists of three timed doses of vaccine over a minimum 4 to 6 months' period. If you need further details, please consult the Student Health Center.

**Varicella (Chickenpox):** Two (2) doses with first dose on or after 1st birthday; OR positive titer (laboratory evidence of immunity to disease) prior to enrollment.

**Tetanus, Diphtheria, Pertussis (Tdap):** One (1) dose after age 7.

**Meningococcal conjugate (Serogroups A, C, Y, & W-135):** One (1) dose on or after 16 for all students and age 21 or younger.

**Tuberculosis Screening/Risk Assessment:** All incoming students must complete a Tuberculosis risk questionnaire. Incoming students who are at higher risk* for TB infection, as indicated by answering "yes" to any of the screening questions, should undergo either skin of blood testing for TB infection within one year of CSU entry.

*Higher risk include travel or living in South or Central America, Africa, Asia, Eastern Europe, and the Middle East; prior positive TB test; or exposure to someone with active TB disease.

The above are not admission requirements, but are required of students as conditions of enrollment in CSU.

**Immigration Requirements for Licensure**
The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193), also known as the Welfare Reform Act, includes provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial license provided by a local, state, or federal government agency in order to engage in an occupation for which the CSU may be training them must meet the immigration requirements of the Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure. Information concerning the regulation these requirements are available from the Registrar's Office, Student Services Center.

**Registration Holds**

Students should periodically check for holds at MySJSU (which can be accessed through the One.SJSU.edu portal). Follow the instructions on how to clear them.

Holds on student accounts and records will prevent students from registering. Students should periodically check for holds at MySJSU. Follow the instructions on how to clear them. Monetary holds of $50.00 or more will block you from registration, diplomas and other miscellaneous services.

**College of Engineering Advising**

All College of Engineering undergraduates must see an advisor every semester, prior to registration. Graduate Engineering students (except Civil and Environmental Engineering, Computer Engineering, General Engineering, and Industrial Systems Engineering) must also see a major advisor prior to enrolling every semester.

**College of Science Advising**

All undergraduate College of Science majors and graduate students in Chemistry, Computer Science and Physics must see a major advisor prior to registering every semester.

**AARS Advising Hold**

All Undeclared and Undeclared-PreNursing students are required to see an advisor in Academic Advising and Retention Services (AARS) prior to registering every semester.

**Financial Holds**

Do you have a balance due on your student account? If so, you will not be able to register until the debt has been paid. Be aware - balances can fluctuate on your student account depending on activity. Clear up any balance as soon as possible by paying your outstanding balance using the Pay Now option at MySJSU (which can be accessed through the One.SJSU.edu portal) after the log-in under Self Service. Remember, payments are applied to the oldest balance first. Keep your account current by paying all charges by the assigned due date.

**Online Title IX Training Hold**

All incoming students (undergraduate and graduate) are expected to complete online title IX training course addressing sexual assault prevention. A hold (HW1) will be placed if the course is not completed. Questions? Email titleixeducation@sjsu.edu
AlcoholEdu Hold

All incoming undergraduates are expected to complete AlcoholEdu, an online training course addressing alcohol abuse prevention. A hold (HW2) will be placed if the course is not completed. Questions? Email titleixeducation@sjsu.edu

Hepatitis B Immunization Series

- Are you a first time SJSU student?
- Will you be 18 years or younger on the first day of instruction?
If the answer to both of these questions is yes, you may be required to submit proof of full immunization or immunity against Hepatitis B.

For further details please visit Student Health Center.

International Student Health Insurance

Proof of health insurance is required prior to registration each semester. For questions about this hold, please call International Student and Scholar Services (ISSS) (408) 924-5920.

Measles and Rubella

- Are you a new or readmitted SJSU student?
- Were you born on or after January 1, 1957?
If the answer to both of these questions is yes, you may be required to submit proof of full immunization or immunity against Measles and Rubella. For further details please visit Student Health Center.

Missing Document Holds

If you owe documents or transcripts to the Undergraduate Admissions office, please submit by the deadline posted in your MySJSU account. You must submit final, official transcripts or official documents as instructed in your MySJSU "to do" items before you are allowed to register.

Probation Holds

- Is your SJSU cumulative grade point average below 2.00 for undergraduates (3.00 for graduate students)?
- Are you on a reinstated status on probation?
For undergraduates, if the answer is yes to either question, you must see your major advisor or an Academic Advising and Retention Services advisor before you can register. This will happen each term until you are no longer on probation.

Graduation Registration Restriction

Students who have not taken the WST by the time they earn 75 units (counting no more than 70 transfer units) may have their registration held after being notified of the need to test. (The WST hold will not be in force while the temporary suspension is in force. See Temporary WST Policy for more information.) Students with 120 or more units who have not applied for graduation will not be allowed to register until they have submitted that application. Students with 150 or more units may be required to meet with an advisor in Academic Advising and Retention Services before
registration and may have their registration for remaining requirements managed. Students who have changed their graduation date multiple times or who are otherwise in potential violation of Presidential Directive 2009-05 may be required to meet with an AARS advisor.
Records Holds

SJSU has the authority to withhold permission to register, receive services, materials, food or merchandise, or any combination of these, from any person owing a debt to the university. A debt is defined as an unpaid obligation of a student or former student, however incurred, arising while the debtor was a student. For students who have been recipients of Federal Perkins Loan funds, SJSU has the authority to withhold certain services for failure to complete a Perkins Exit Interview upon departure from SJSU.

A Record Hold is a method of implementing these restrictions or for a past due amount of the Federal Perkins Loan.

An automatic financial hold will be placed against the student's records whenever a student has a past due balance with the University. Read more about Assembly Bill-1313 Higher Education: prohibited debt collection practices.

Services that may be held include, but are not limited to:

- Registration
- Grades
- Diploma

When all due debts are cleared, the financial hold will be removed.
Undergraduate Policies & Procedures

Information about course credit and number, including grades, registration and attendance is found in Policies and Procedures section of the catalog.

Catalog Rights

Undergraduate students remaining in attendance in regular sessions at any California State University campus, at any California community college, or any combination of California community colleges and campuses of the California State University may, for purposes of meeting graduation requirements, elect to meet the requirements in effect at the campus from which they will graduate either:

1. at the time the student began such attendance, or
2. at the time of entrance to the campus, or
3. at the time of graduation.

Continuous attendance is defined as enrollment in at least one semester or two quarters in each calendar year. Absence related to an approved educational leave or for attendance at another accredited institution of higher learning is not considered an interruption, providing the absence does not exceed two years. Campus authorities may authorize or require substitutions for discontinued courses and may also require students changing their major or any minor field of study to complete the major or minor requirements in effect at the time of the change. Students who do not maintain continuous enrollment will be held to any new requirements approved by the university at the time of their readmission.

Continuous Attendance and Catalog Rights

Undergraduate students acquire "catalog rights" with respect to the requirements for a degree program by maintaining continuous attendance. A student who has been enrolled either at a California community college (CCC) or in regular sessions at a CSU campus for at least one semester or two quarters of consecutive calendar years is considered to be in "continuous attendance." Once a student has established his or her "catalog rights," an absence related to an approved leave of absence or for attendance at another accredited institution of higher learning (for undergraduates only) shall not be considered an interruption, providing the absence does not exceed two years.

This concept is important because continuous attendance affects the requirements a student must meet to graduate from a CSU campus. SJSU issues a new online catalog every year, which is the official record of all the degrees and degree requirements for the programs at SJSU. These degree requirements may change from one catalog to the next.

Students who have been in continuous attendance may meet the SJSU campus graduation requirements:

1. at the time they began continuous enrollment at a CCC or other CSU campus; or
2. at the time they entered SJSU; or
3. at the time they graduate from SJSU.

By maintaining continuous attendance and selecting option (1) or (2), students can be assured that their SJSU campus graduation requirements will not change. Their right to choose one of these options is called "catalog rights." SJSU will use the matriculation term (i.e., option 2) as the initial option (default) for all students; however, students transferring from a CCC or CSU campus, who would benefit from an earlier term based on continuous enrollment, may request option (1) or (3) from their departments or the Office of the Registrar.

If a student follows an earlier version of a program in which his or her department has discontinued or modified required courses, the department may authorize appropriate substitutions. If, while enrolled, a student changes major, concentration, or minor, he or she may be required to complete the major or minor requirements in effect at
the time of the change. However, he or she may continue to follow the university, General Education, and mathematics and writing requirements listed in the university catalog for which "catalog rights," are claimed.

SJSU affords graduate students the same rights as indicated above with the exception of the references to CCCs.

**Change of Major/ Degree Objective**

Undergraduate students who wish to change their degree major objectives should obtain a change of major form. The form requires the approval and signatures of the appropriate university official(s). The completed form for students with fewer than 90 or more units must be returned to the Registrar’s Office. Students with 90 or more units must obtain approval signatures from the major advisor, Department Chair, and College Associate Dean of the major they wish to enter. Students changing to undeclared or undeclared-prenursing major must submit the completed form to Academic Advising and Retention Services (AARS). The completed forms need to be submitted to the Registrar’s Office.

The change of major is not official until the approved form is on file with the Registrar’s Office. This form may also be used to move from undeclared to a major; declare a second major, or change a minor (change of undergraduate major and minor forms or graduate change of major forms).

Students who have earned more than 90 earned units (counting no more than 70 community college transfer units) are not likely to be approved and will need to appeal.

Change of major is not guaranteed.

**Classification of Students**

San José State University students are classified in the lower or upper division or in graduate standing based on the units completed. The basis of classification is as follows:

**Lower Division**

Freshmen are those who have earned a total of fewer than 30 semester units. Sophomores are those who have earned a total of 30 through 59 semester units.

**Upper Division**

Juniors are those who have earned from 60 through 89 semester units. Seniors are those who have earned 90 semester units or more. Second or Post-baccalaureate students are those possessing a recognized baccalaureate degree and enrolled in an undergraduate degree program. Unless otherwise noted, post-baccalaureate students follow the same policies and procedures as upper division undergraduates.

**Graduate Standing**

Graduate standing is the classification for those who possess a recognized baccalaureate degree and are enrolled in graduate studies or in school credential programs.

**Disqualification and Probation - Undergraduate & Post-baccalaureate**

Disqualified students may enroll in Professional Education programs.
Disqualification - Academic

Undergraduate students on academic probation are subject to academic disqualification if their Fall or Spring term GPA falls below 2.0. Freshmen on Academic Probation are allowed a second consecutive semester of probation if their SJSU cumulative GPA is in the range 1.50 to 1.99.

An undergraduate student reinstated on probation must achieve a grade-point average of 2.0 or better each semester following reinstatement until such time as they have achieved a cumulative SJSU GPA of 2.00. A student who fails to do so will be disqualified again (even if this occurs prior to readmission).

Undergraduate students are eligible to repeat a limited number of courses with grades of "C-", "D+", "D", "D-", "F", "NC", "WU", or "IC" through SJSU's Open University. All work taken through Open University is included in the cumulative record and is considered in the determination of probation and disqualification. Graduate students should see the section on graduate disqualification section.

Disqualified students should also refer to the section on reinstatement.

Unless otherwise noted, post-baccalaureate (second baccalaureate) students follow the same policies and procedures as upper division undergraduates.

Academic disqualification policies were revised in University Policy S16-16 and are effective with the determination of Academic Standing at the end of the Fall or Spring semester.

Disqualification - Administrative-Academic

A student who has been placed on administrative-academic probation may be disqualified from further attendance if:

1. The conditions for removal of administrative-academic probation are not met within the period specified;
2. The student becomes subject to academic probation while on administrative-academic probation;
3. The student becomes subject to administrative-academic probation for the same or similar reason for which he or she has been placed on administrative-academic probation previously, although not currently in such status.

When such action is taken, the student will receive written notification, including an explanation of the basis for the action.

In addition, an appropriate campus administrator may disqualify a student who at any time during enrollment has demonstrated behavior so contrary to the standards of the profession for which the student is preparing as to render them unfit for the profession. In such cases, disqualification will occur immediately upon notice to the student, which shall include an explanation of the basis for the action, and the campus may require the student to discontinue enrollment as of the date of the notification.

Administrative Academic Disqualification of Students

Section 41300 in Title 5 of the California Code of Regulations permits administrative-academic probation or disqualification from academic programs in the CSU for unsatisfactory scholastic progress regardless of cumulative GPA. See University Policy S16-16 for details.

Disqualification - Major

Each college, school, program and/or department has the option of employing a guideline for disqualification from the major. Those that opt to disqualify from the major must have published criteria for determining probation in the major, disqualification from the major, and reinstatement into the major. Such criteria may include individual course grades below "C" (2.0) or "CR", a major GPA below 2.0, or a university GPA below 2.0. Students disqualified under this
guideline must be notified by the department, school or college when placed on probation in the major or disqualified by the major.

Students disqualified from their major are listed as Undeclared, report to Academic Advising and Retention Services, and may do academic work to be reinstated to the major (if permitted by guideline), or change to another major for which they are qualified. Appeals may be submitted to the Academic Disqualification and Reinstatement Review Committee via the Office of Undergraduate Education.

Impacted degree programs are those most likely to have policies for disqualification in the major, but even non-impacted programs may have such policies. The Office of Undergraduate Education will maintain current information about disqualification in the major.

**Probation - Academic**

An undergraduate student is placed on academic probation if the SJSU cumulative grade point average falls below a "C" average (2.0). Students will remain on academic probation until they return to good academic standing (SJSU cumulative GPA greater than or equal to 2.0) or are disqualified. All work taken through Open University is included in the cumulative record and is considered in the determination of probation and disqualification.

Unless otherwise noted, post-baccalaureate (second baccalaureate) students follow the same policies and procedures as upper division undergraduates.

**Probation - Administrative-Academic**

A student may be placed on administrative-academic probation by action of the Provost for any of the following reasons:

1. Withdrawal from all or a substantial portion of a program of studies in two successive terms or in any three terms. A student whose withdrawal is directly associated with a chronic or recurring disability or its treatment is not subject to administrative-academic probation for such withdrawal.
2. Repeated failure to progress toward the stated degree or other program objective, including that resulting from assignment of 15 units of "NC", when such failure appears to be due to circumstances within the student's control.
3. Failure to comply, after due notice, with an academic requirement or regulation which is routine for all students or a defined group of students (examples: failure to complete a required CSU or campus examination, failure to complete a required practicum, failure to satisfy GE Areas A2 and B4 by the beginning of the 2nd year, failure to comply with professional standards appropriate to the field of study, failure to complete a specified number of units as a condition for receiving student financial aid or making satisfactory progress in the academic program).

When such action is taken, the student will be notified in writing and provided with the conditions for removal from probation and the circumstances which would lead to disqualification, should probation not be removed.

**Double Major**

If a student has completed the requirements for two or more majors leading to the same baccalaureate degree (e.g., two B.A. degrees or two B.S. degrees) for the same graduation application period, those majors shall be acknowledged on a single diploma and on the student's transcripts. Each major, not including courses in preparation for the major, must consist of at least 36 units for Bachelor of Science degree majors, or at least 24 units for Bachelor of Arts degree majors, units that are completely separate and distinct from the other degree. The University has the right to restrict students from pursuing double majors, particularly when resources must be equitably distributed among all students.
Double Concentration

If a student has completed the requirements for two or more concentrations within the same baccalaureate degree (e.g., two concentrations for the same B.S. degree) for the same graduation application period, those concentrations shall be acknowledged on a single diploma and on the student's transcripts. Each concentration, not including courses in preparation for or in support of the major, generally must consist of at least 12 units that are completely separate and distinct from the other concentration. Individual degree programs may set higher limits for the number of units that are completely separate and distinct from the other concentration. Exceptions to allow two concentrations with fewer than 12 units unique to each concentration will require the approval of both the appropriate college Associate Dean and the Associate Dean for Undergraduate Education. The University has the right to restrict students from pursuing double concentrations, particularly when resources must be equitably distributed among all students.

Graduate Credit Earned by SJ SU Undergraduate Students

Per University Policy S20-3

1. Undergraduate students shall petition through their major advisor to earn graduate credit for a graduate course (200 level or higher) taken.
2. Undergraduate students shall meet the following criteria before enrolling in graduate level courses for graduate credit:
   a. Will have applied to graduate from their baccalaureate degree program prior to enrolling in graduate level courses;
   b. No more than 30 units are needed to complete the baccalaureate degree at San José State University;
   c. None of the courses to be taken for graduate credit is required for the baccalaureate degree or minor;
   d. Normally, a grade point average of 2.75 or better on all work completed in upper division standing at San José State University;
   e. Normally, a maximum of 16 units is attempted in the semester in which the courses for graduate credit are proposed.
3. Graduate credit will appear on the student's official transcript, but that credit does not imply admission to any graduate degree program.
4. The student may not elect to take letter-graded graduate courses as CR/NC when graduate credit is requested.
5. If a student is admitted to an SJSU graduate degree program, the maximum graduate credit earned, including through the process described within this policy, that may be transferred into the graduate program is limited to 30% of the total units of the graduate degree (per University Policy S13-8) and must be approved by the appropriate program authority.

This policy applies solely to graduate classes taken at SJSU; courses taken at other universities or undergraduate classes taken during the undergraduate career do not qualify for transfer into an SJSU graduate program. If the student subsequently matriculates into a graduate program at SJSU and the courses are approved by the program's graduate advisor, the units will be transferred into the graduate career. The grade points will not be included in the student's cumulative grade point average after admission to the Graduate Division.

These policies also apply to students in second baccalaureate status. No courses taken while a student is in second baccalaureate status shall be awarded graduate credit unless the student is within 15 semester units of qualifying for award of the second baccalaureate degree and meets the criteria specified above (including enrollment in all units required for completion of the second baccalaureate degree).

It is recommended that students obtain permission for future graduate credit in writing before enrolling in the graduate classes by means of the Request for Validation of Transfer Credit form.
Minors

An undergraduate student may elect to complete a minor. Some departments require or recommend a minor as part of the undergraduate degree.

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University Policy S16-4). Minor preparation or support courses do not count toward the 12 distinct units. Of the coursework for the minor, at least 6 units must be completed in residence at SJSU. The minimum aggregate GPA for all coursework required for the minor must be at least 2.0.

If a minor is completed after a degree has been granted, the minor is not recorded on the student’s permanent record. Minors are only available to undergraduate students.

Double Minors

If a student has completed the requirements for two or more minors, each minor must independently satisfy the criteria for a single minor. Additionally, each minor must include a minimum of 12 units of coursework completely distinct and separate from the course work in the other minor(s).

Open University - Courses

San José State University's Open University program permits enrollment by non-matriculated students in specified regular curriculum classes on a space available basis. Formal admission to the university is not required. Registration is not possible prior to the first class meeting. A maximum of 24 semester units may be applied toward bachelor degree and not more than nine units for a 30-unit master degree (30% of the degree program total) . Units earned in Open University may not be used to meet residence unit requirements for a degree. For undergraduate students, exceptions to these restrictions may be granted by petitions.

Regular (matriculated) students in good standing may not enroll as Open University students. Matriculated students are those who have been admitted to San José State University as a regular student for the current semester or were registered as a matriculated student in the previous semester and who have not graduated.

Disqualified students who seek reinstatement following disqualification must see their advisor to develop a plan to meet the required GPA standard for readmission to the university. In addition to reinstatement, disqualified students must reapply and be readmitted in order to become regular (matriculated) students once again.

All prerequisites, including WST are enforced when enrolling through Open University.

International Students

International students must be regular full-time matriculated students admitted to a degree program. Enrollment in Open University does not qualify international students for the immigration document necessary to enter the United States, to transfer to SJSU from another U.S. university, or to maintain their legal F-1 status. Academically disqualified international students are eligible to enroll through Open University but must transfer to another I-20 issuing institution to maintain their F-1 student status, or apply for reinstatement to F-1 student status from the U.S. Citizenship and Immigration Services after being re-admitted to SJSU.

Summer Session
Summer Session allows both matriculated and non-matriculated (i.e. Open University) students to enroll in summer classes at San José State University. Credit earned may be applied to residence unit requirements for previously matriculated students.

**Winter Session**

Both matriculated and non-matriculated students may enroll in this session. Credit earned may be applied to residence unit requirements for previously matriculated students.

**Readmission - Former Students Returning (FSR)**

Readmission is the process of reapplying to the next available application cycle through CSU Apply and it is dependent on meeting all eligibility criteria.

Those that are intending to return to SJSU whether in good academic standing or disqualified are encouraged to submit the Readmission Petition. This petition process is based upon University Policy F12-7 which outlines enrollment priorities for Former Students Returning (FSR). Former Students Returning may complete and submit this petition by the deadlines stated on the petition found on the Office of Registrar’s website in order to receive priority consideration for admission prior to impaction processing for the term indicated by department administration.

**To be eligible to submit this petition you must:**

1. Have previously enrolled at SJSU as a fully admitted and matriculated student. (Students who have completed Open University units only are not eligible.) PLEASE NOTE: Students who left SJSU due to disqualification must complete the reinstatement process prior to or concurrently with submitting this petition.
2. Submit an application and application fee for admission by the deadline to apply via CSU's Cal State Apply for the term indicated on this petition. No exceptions.
3. Meet the admission requirements as an upper(Junior) division student. Transfer requirements.
4. Complete all the required steps for admission by the published deadlines for the term indicated. For example, transcripts must be submitted, intent to enroll must be completed, orientation must be attended, etc.

For the most up to date readmission information for former students returning, please visit Admission website.

**Disqualified**

Students disqualified at the close of their last enrollment must petition for reinstatement. See the section titled Disqualification and Probation for detailed information. Students seeking reinstatement to the university are also advised to make early application for readmission and meet all application and admission deadlines posted at http://www.calstate.edu/apply. Contact the Student Services Center for details, or read the Petition for Reinstatement form.

A. Students disqualified from San José State University who wish to be considered for readmission should:
   1. Read the section of this catalog titled Disqualification and Probation.
   2. Complete a Petition for Reinstatement. Petition guidelines can be found on page 1 of the petition form.

Approval for reinstatement to the University after disqualification does not ensure readmission to any particular semester or specific degree objective.

B. Students who have been disqualified from the college or university of last attendance (other than SJSU) will not be considered for admission to a regular session until:
   1. They have reapplied for admission, as upper division transfers, during the next available admission application cycle and meet all posted deadlines.
2. The official transcript of record indicates eligibility to re-enroll
3. Former Students Returning (FSR) should complete an "FSR petition" from SJSU in addition to applying for admission. Details may be found at FSR Petition.
4. Register and attend Transfer Orientation, once re-admitted and reinstated.

**Probation**

Students on probation at the close of their last enrollment may be readmitted on probation as upper divisions transfers, provided they are otherwise eligible. They must meet all application and admission deadlines. Students must furnish transcripts of any college work taken during their absence.

Former Students Returning (FSR) should complete an "FSR petition" from SJSU in addition to applying for admission. Details may be found at FSR Petition.

**Good Standing**

Undergraduates in good standing at the close of their last enrollment may be readmitted as upper divisions transfer provided they are otherwise eligible. They must meet all application and admission deadlines. All students must furnish transcripts of any college work taken during their absence.

Former Students Returning (FSR) should complete an "FSR petition" from SJSU in addition to applying for admission. Details may be found at FSR Petition.

**Residency**

**Determination**

University requirements for establishing residency are independent from those of other types of residency, such as for tax purposes, or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or nonresident of California, but rather to determine whether a student should pay tuition on an in-state or out-of-state basis. A resident for tuition purposes is someone who meets the requirements set forth in the Uniform Student Residence Requirements. These laws governing residence for tuition purposes at the California State University (CSU) are California Education Code sections 68000-68085, 68120-68134, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41916. This material can be viewed on the Internet by accessing the CSU's GC Resources web page.

Each campus's Registrar's Office is responsible for determining the residency status of all new and returning students based on the Application for Admission, Residency Questionnaire, and, as necessary, other evidence furnished by the student. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

Generally, establishing California residency for tuition purposes requires a combination of physical presence and intent to remain indefinitely. An adult who, at least 366 days prior to the residence determination date for the term in which enrollment is contemplated, can demonstrate both physical presence in the state combined with evidence of intent to remain in California indefinitely may establish California residency for tuition purposes. A minor normally derives residence from the parent(s) with whom they reside or with whom they most recently resided.

Evidence demonstrating intent may vary from case to case but will include, and is not limited to, the absence of residential ties to any other state, California voter registration and voting in California elections, maintaining California vehicle registration and driver's license (or California identification card), maintaining active California bank accounts, filing California income tax returns and listing a California address on federal tax returns, owning residential property...
or leasing an apartment where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California.

Nonresident students seeking reclassification are required to complete a supplemental questionnaire that includes questions concerning their financial independence. Financial independence is required, along with physical presence and intent, to be eligible for reclassification. Financial independence is established if in the calendar year the reclassification application is made and in any of the three calendar years preceding the reclassification application the student:

- has not and will not be claimed as an exemption for state and federal tax purposes by his/her parent;
- has not and will not receive more than seven hundred and fifty dollars ($750) per year in financial assistance from his/her parent; and
- has not lived and will not live longer than six (6) weeks in the home of his/her parent.

A nonresident student who has been appointed as a graduate student teaching assistant, a graduate student research assistant, or a graduate student teaching associate on any CSU campus and is employed on a 0.49 or more time basis is exempt from the financial independence requirement.

Non-citizens establish residence in the same manner as citizens, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States.

Exceptions to the general residence requirements are contained in California Education Code sections 68070-68085 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906-41906.6, and include, but are not limited to, members of the military and their dependents, certain credentialed employees of school districts and most students who have attended three or more years of high school in California and graduated from a California high school or attained the equivalent of graduation. Whether an exception applies to a particular student cannot be determined before the submission of an application for admission and, as necessary, additional supporting documentation. Because neither campus nor Chancellor's Office staff may give advice on the application of these laws, applicants are strongly urged to review the material for themselves and consult with a legal advisor.

**Appeals**

Students classified as non-residents may appeal a final campus decision within 30 days of notification by the campus. For more information please visit the Residency website from the Chancellor's Office.

**Residency Determination Dates**

At San José State University, the residence determination dates are:

- Fall - September 20
- Spring - January 25
- Summer - June 1

The Office of General Counsel can either decide the appeal or send the matter back to the campus for further review.

Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations.

Resident students who become nonresidents, or who no longer meet the criteria for an exception, must immediately notify the Registrar's Office.

Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residence for tuition purposes in California between the time this information is published and the relevant residence determination date. Students are urged to review the statutes and regulations stated above.
Reinstatement

Reinstatement of Undergraduate Students After Academic Disqualification

Reinstatement is a different process from readmission. Readmission of a disqualified student is not possible unless reinstatement has been approved, but students must note that reinstatement is not readmission nor does it guarantee readmission. There may even be some situations in which reinstatement is sought with no intention of reapplying to SJSU, such as for admission to another institution or program.

In most situations, students will need to apply for readmission prior to being reinstated. All returning students must submit an application for admission to SJSU. Reapply for the next available term at Cal State Apply by the published deadline. If you miss the deadline for your desired term, you will need to submit an application for the next available term. The major listed on your application must match the major on the Petition for Reinstatement. If the majors differ, the major listed on your application will be changed to reflect the major listed on the Petition for Reinstatement. For more information regarding Readmission, see Readmission - Former Students Returning (FSR).

Categories for Reinstatement

1. SJSU cumulative GPA 2.0 or better. This category is for disqualified students who have attended SJSU through Open University and brought their SJSU cumulative GPA up to 2.0 or better. Raising the GPA to 2.0 or better does not guarantee that a department will approve the petition. Many departments place restrictions on reinstatement to their major degree programs. Please consult with your major advisor(s) as early as possible.

2. Extenuating Circumstances. Reinstatements in this category will only be granted for serious and compelling reasons that were clearly beyond a student's control. Generally, all acceptable extenuating circumstances fall into one of the following eight categories: administrative error, employment, military, natural disaster, death of an immediate family member, personal health or serious family illness, divorce, or personal/other (rarely approved). The following are not valid reasons for reinstatement under this category: Poor academic performance, non-attendance, change of major, or lack of prerequisite(s). In addition to the required documentation of extenuation, approvals will require demonstration that poor performance in a particular semester was atypical.

3. Special Consideration. This category is reserved for students whose petitions cannot be accommodated within the other categories. Typically, such students have spent substantial time away from SJSU since their disqualification (five years or more) and feel that their life experiences have prepared them for a successful return to school.

4. Petitioned Grade Change. This category is reserved for changes of grade approved under Section III (Grade Appeal) and Section IV (Change of Grade) of University Policy S09-7. If you are petitioning under this category, you must clearly explain which course grade was changed, when it was changed, and the reason for the change.

Reinstatement Petition Deadlines and Processing

Petitions for Reinstatement are accepted and evaluated on an ongoing basis. Allow at least fifteen business days for processing after submitting the completed petition form to the Registrar's Office. You may petition under more than one category, but if you do so, your personal statement and documentation must support each category you have selected. Your petition will not be processed if you are not using the current form.

Second or Additional Baccalaureate Degree
Effective Fall 2011: Post-baccalaureate students who have earned a first baccalaureate from a regionally accredited U.S. college or university, the second or additional baccalaureate degree will be awarded when the student has filed for graduation with Office of the Registrar and a graduation check determines that all major requirements have been satisfied. For such students, residence, university, GE, American Institutions, and PE requirements normally associated with first baccalaureate degrees are not applicable to second or additional baccalaureate degrees.

Due to enrollment restrictions and impaction, SJSU no longer accepts applications from post-baccalaureate/second baccalaureate students. The only exception is for Nursing.

For post-baccalaureate students who have earned a first baccalaureate from an institution that is not a regionally accredited U.S. college or university, the second or additional baccalaureate degree will be awarded when the student has filed for graduation with Office of the Registrar and a graduation check determines that all university requirements have been satisfied. To be eligible for the degree, students must complete all course work which constitutes the second or additional degree in at least two additional semesters with a minimum of 30 units of work beyond the first degree in accordance with the minimum residence requirement. Second or additional baccalaureate degree candidates must meet the academic regulations required of all undergraduate students, including the residency requirement (30 units in residence, 24 of which must be upper division, 12 in the major and 9-12 in SJSU Studies).

Coursework completed in the second or additional baccalaureate degree status will be classified as undergraduate work. Students cannot pursue a graduate degree objective and a second or additional baccalaureate degree at the same time at the university.

**Interdisciplinary Studies**

The courses offered by the Office of Undergraduate Education under University Studies (UNVS) promote leadership, integrated and applied interdisciplinary academic experiences for students.

The office also sponsors undergraduate degrees as Interdisciplinary Studies, which is an individually designed course of study leading to a BA or BS degree. The Interdisciplinary Studies degree is designed for situations in which an existing university-level SJSU undergraduate degree major does not adequately accommodate academic or professional aims. Students who complete the Interdisciplinary Studies degree shall be able to demonstrate the characteristics of "intentional learners" who can adapt to new environments, integrate knowledge from different sources, and continue learning throughout their life.

Interdisciplinary Studies is an individually designed, interdisciplinary course of study leading to a BA or BS that gives a student who has a specific educational objective the opportunity to accomplish that goal. It is not to be used to bypass normal graduation requirements or projected programs of the University, nor to substitute for a major in which a student is having academic difficulty.

The proposed course of study must be a coherent program organized around an academic theme. Students who complete the Interdisciplinary Studies degree shall be able to demonstrate: "the ability to analyze an issue or problem, integrating at least two disciplinary perspectives." In addition, students identify two or more student learning outcomes related to their specific areas of study in consultation with a major faculty advisor. They demonstrate their attainment of the learning outcomes through a portfolio or senior project completed in a capstone course.

Applicants must have both a cumulative and SJSU GPA of at least 2.75 and have sixty units (upper division standing) and at least one year of academic work still to be completed to meet minimum degree requirements. Interdisciplinary Studies degrees are considered on a case-by-case basis. Approval is based on the academic merit of the proposed course of study, the applicant's proposed rationale and potential for successful completion of the program, and the ability of the university to support the proposed program. Students apply for consideration for the Interdisciplinary Studies degree through the Office of Undergraduate Education, ADM 159.

For more information visit Undergraduate Education's Interdisciplinary Studies web page.
**Time Limit**

Courses taken to meet degree requirements at San José State University are subject to a time limitation of 10 years. Students are required to meet those requirements in the major in effect no earlier than 10 years prior to receiving the degree. Students with an unusual problem may petition the major department chair for a waiver of the 10-year requirement.

Graduate students should refer to the section on Graduate Degree - Time Limits.

**Facilitating Graduation**

Effective Spring 2010, any undergraduate or graduate student will be precluded from enrolling in any additional state-supported courses when that student has already met all necessary requirements for the degree for which that student is matriculated. Moreover, students who have met all requirements for graduation prior to any semester in which they are enrolled will be permitted to drop all courses for which they are registered, with little or no penalty, and to graduate at the next available date. Students who have earned more than enough units to graduate but have some remaining requirements to complete, will be advised and precluded from registering in any courses other than those required for a timely graduation.

**Undeclared Majors**

The university accepts freshmen who are not ready to declare a major academic objective or who do not meet impaction criteria for their desired major objective into the undeclared category.

Students selecting the undeclared category for admission must declare a degree major objective prior to attaining junior standing (earning 60 units). Students must obtain prior approval from the department in which they ultimately choose their major in accordance with university regulations.

Students who are in doubt about their degree program are encouraged to seek assistance from Academic Advising and Retention Services in the Student Services Center. AARS serves as the major department for Undeclared students and requires advising every semester. AARS also serves as the major department for Undeclared-PreNursing students.

Trained counselors are also available in Counseling & Psychological Services and in the Career Center. Students will be assisted on an individual basis with the appropriate use of career assessment when necessary. Staff and resources exist in the Career Center to support major and career exploration.

Undeclared students should report to Academic Advising & Retention Services in the Student Services Center for General Education and other academic advisement aimed at discovering an appropriate major degree program.

**Units from 4-Year Colleges/ Universities**

At least 50 of the total units required for graduation with a bachelor's degree must be earned from 4-Year Colleges/Universities. This is commonly referred to as a maximum of 70 units of Community College academic work that may count toward the minimum 120 units needed for all baccalaureate degrees.
Undergraduate University Graduation Requirements

To Qualify for an Undergraduate Degree

The University offers the following undergraduate (or baccalaureate) degrees: Bachelor of Arts (BA), Bachelor of Science (BS), Bachelor of Music (BM), and the Bachelor of Fine Arts (BFA). View the Undergraduate Graduation Requirements Unit Overview. Students must satisfy the specific degree requirements for their undergraduate major and fulfill the following University degree requirements:

1. Academic
2. General Education (GE)
3. American Institutions (AI)
4. Graduation Writing Assessment Requirement (GWAR)
5. Physical Education (PE)
6. Units in Residence
7. Upper Division Units
8. Undergraduate Policies & Procedures
9. Apply for Graduation

Information about the Commencement Ceremony and Conferral of the Degree

University Graduation Requirements earning goals and outcomes are included in the Mission and Institutional Learning Goals section of the catalog. Exceptions for University Graduation Requirements, including exemptions and waivers, are approved for specific majors and on a case-by-case evaluation only. Students may submit a University Graduation Requirement petitions to the Office of Undergraduate Education.

1. Academic

An "All College" average of "C or better" (2.0), a "C or better" average earned in all units taken at SJSU (as indicated on the transcript by "SJSU Cum"), a "C or better" average in both the requirements for the major and the minor (if applicable), a "C- or better" in each of the four GE basic skills courses (Areas A1, A2, A3, and B4), an aggregate "C or better" average in the nine units of upper division GE (Areas R, S, and V), and a "C or better" in Area Z (100W) (GWAR), are required for graduation with a baccalaureate degree. Upon the completion of their programs, credential candidates must have a GPA of 3.0 or higher to be recommended for a credential.

A minimum of 120 semester units of credit must be earned for graduation with the baccalaureate degree. Normally, no more than four units of Individual Studies (180) and/or Directed Reading (184) may count for the baccalaureate degree. Exceptions must have approval from the major department.

All requirements listed here may be met either by passing external examinations (Advanced Placement (AP) Exams, College Level Exam Program (CLEP), or International Baccalaureate (IB)), waiver examinations, where available, or by individual course challenge exams, or by course work. Students should note that success in a waiver examination satisfies a requirement but does not yield unit credit. For information about the examinations, contact the SJSU Testing Office.

Any additional academic requirements are specified on the undergraduate major catalog pages.

2. General Education (GE)

A university brings together many separate areas of learning, yet it is more than just a collection of specialized disciplines. The General Education Program establishes a strong foundation of versatile skills, fosters curiosity about the world, and prepares students to engage and contribute responsibly and cooperatively in a multicultural, information-rich society. General education classes integrate areas of study and encourage progressively more
complex and creative analysis, expression, and problem solving. The program aims to equip students with the knowledge, skills, and values they need for a lifetime of intellectual and personal growth. Review the learning goals and outcomes, policies, academic advisement information, and previous requirements.

### 3. American Institutions (AI)

U.S. History, U.S. Constitution, California State and Local Government. State law requires all students graduating from a CSU campus to demonstrate knowledge of these three areas, also referred to as the American Institutions and Ideals, Title 5, or the "state code" requirement. Students may complete waiver exams or coursework to satisfy the requirements. Consult the Testing Office for information about the waiver examinations. Students should consult an advisor to determine which of the various course combinations are best for their undergraduate major.

Courses in American Institutions should expose students to alternative interpretations of the historical events and political processes that have shaped the social, economic, and political systems in which we live. All three requirements (1) US History, (2) US Constitution, and (3) California Government must be completed from the following coursework.

#### US123 Requirements (6-12 units)

Courses satisfy General Education Requirements as specified by the Course Abbreviations in parentheses. The Writing Skills Test (WST) is only a prerequisite for HIST 170S and POLS 170V.

#### U.S. History + U.S. Constitution + California Government (US123)

All of these sequences satisfy General Education Requirements listed in parentheses. All courses in the sequence must be completed to satisfy the requirement.

#### African American Studies (6 units)

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 unit(s) (D+US123)

#### American Studies (12 units)

- AMS 1A - American Cultures to 1877 6 unit(s) (C1+D)
- AMS 1B - American Cultures 1877 to Present 6 unit(s) (C2+D+US123)

#### Asian American History (6 units)

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

#### Chicana and Chicano Studies (6 units)

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
• CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

**Humanities Honors (12 units)**

Satisfies eight GE areas, including third Area C, and all of American Institutions completed when completed with grades of "C-" or better.

- HUM 1A - Honors - World Cultures and Societies A 6 unit(s) (C1+C2)
- HUM 1B - Honors - World Cultures and Societies B 6 unit(s) (A2+D)
- HUM 2A - Honors - Modern World Cultures A 6 unit(s) (A1+D)
- HUM 2B - Honors - Modern World Cultures B 6 unit(s) (A1+C2+US123)

**U.S. History and Government (6 units)**

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

**American History Only (US1)**

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- HIST 20A - History of the American People 3 unit(s) (US1)
- HIST 20B - History of the American People 3 unit(s) (US1)
- HIST 170 - Topics in American History 3 unit(s) (US1)
- HIST 170S - Topics in American History: American Identities and Institutions 3 unit(s) (S+US1)

**U.S. Constitution + California Government Only (US23)**

- POLS 1 - American Government 3 unit(s) (US23)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)
- POLS 170V - American Politics in Global Perspective 3 unit(s) (V+US23)

**California Government Only (US3)**

- HIST 189A - California History to 1900 4 unit(s) (US3)
- HIST 189B - California History Since 1900 4 unit(s) (US3)
- POLS 102 - State Government and Politics 4 unit(s) (US3)

**4. Graduation Writing Assessment Requirement (GWAR)**

The CSU Graduation Writing Assessment Requirement (GWAR) states that all students must demonstrate competency in writing skills as a requirement for graduation by completing the following:

1. **Pass the Writing Skills Test (WST)**
   - *The WST has been temporarily suspended. See Temporary WST Policy for details and link to the self directed placement exercise.*

   All undergraduate SJSU students are required to pass the Writing Skills Test (WST). A satisfactory score on
the WST (or completion of ENGL 100A / LLD 100A with a grade of "C or better" (C- not accepted) after failing the WST) is required to enroll in the 100W course designated by the major.

2. **Satisfy the GWAR Requirement**
   All undergraduate students must satisfy the GWAR by either:
   a. passing a 100W course with a "C or better" (C- not accepted). The 100W Writing Workshop must be passed with a "C or better" (C- not accepted) when satisfying the CSU Graduation Writing Assessment Requirement. View a list of SJSU Studies Area Z Written Communication II - 100W Courses, or
   b. by earning a waiver score on the WST. Some majors require an Area Z Written Communication II - 100W as part of the major degree program regardless of the WST score. A student may also satisfy the GWAR while matriculated at another CSU campus.

Students should consult with their major advisors, the Testing Office, or Academic Advising and Retention Services (AARS) for major appropriate advice to satisfy this requirement. Graduate students should refer to the Graduate Policies - Graduation Writing Assessment Requirement (GWAR) section.

5. **Physical Education (PE)**

All undergraduate students who matriculate at SJSU, except those students in majors that are exempt (see Exceptions for University Graduation Requirements), are required to complete two units of activity courses that satisfy the Physical Education requirement (University Policy S14-11). Students may satisfy this requirement by either:

1. taking two distinct 1-unit activity courses (may include 2 units of Intercollegiate Athletics courses), or
2. taking one single activity course of 2-or-more units.

Veterans who have completed at least one year of active duty in the armed services (Army, Navy, Air Force, Marines, Coast Guard or Space Force) have satisfied the physical education requirement (Credit for Military Training in Non-Collegiate Settings section). Activity courses at SJSU are not repeatable for credit, unless indicated in the course description. KIN 1 - Adapted Physical Activities, specifically designed to accommodate individuals with disabilities, is repeatable for credit with instructor consent. To petition a course to satisfy the Physical Education Requirement, students must submit a petition to the Office of Undergraduate Education, who will consult with the Department of Kinesiology, at least one semester prior to graduation.

6. **Units in Residence**

For all bachelor's degrees, including second baccalaureates, a **minimum of 30 units** shall be earned in residence after matriculation at the campus granting the degree. A **minimum of 24 units** shall be upper division. Of these upper division units, a **minimum of 12 units** shall be in the major. Extension credit or credit by evaluation shall not be used to fulfill any of the thirty (30) units. Summer and Winter Session for previously matriculated students earns residence credit; Open University units are not applicable toward the residence requirement.

7. **Upper Division Units**

A **minimum of 40 of the total units** required for graduation with the bachelor's degree must be upper division. For the **BA**, a **minimum of 12 units of upper division credit** in the major is required and for the **BS**, a **minimum of 18 units of upper division credit** in the major is required. Upper division credit will be allowed by the university and applied toward the baccalaureate degree only for SJSU courses numbered 100 or above and for courses from other universities clearly designated as junior or senior level courses.

8. **Undergraduate Policies**
All Undergraduate Policies & Procedures apply to students seeking to earn a baccalaureate degree.

9. Apply for Graduation

- You should apply for graduation at least two semesters in advance, after completing at least 85 semester units (must be in good standing). See major for specific graduation course and unit requirements.
- File your application no later than the Processing Deadline dates. Submitting your application by the priority processing deadline allows us to review your graduation requirements before Advance Registration ends for your last term of attendance.
- The graduation application processes for each program are described on the Registrar's Office web page.
- For most programs, MyProgress is used to evaluate completion of undergraduate degree requirements. Please work with your advisor to ensure that MyProgress accurately reflects all of your coursework and test credit. For programs that do not use MyProgress, a Major or minor form is needed. Contact your department office for more information on Major/Minor Forms.
- All courses and requirements must be completed by the date of graduation and transcripts received within one month after graduation. Any Incomplete (I) or Report Delayed (RD) grade must be cleared before your degree can be awarded. Once your degree has been posted, no grade changes will be made to your record.
- If you are unable to complete the coursework, or if the date of graduation is delayed, a "Graduation Date Change Form" must be submitted to the Registrar's Office. A $10.00 administrative fee must be paid at the Bursar's Office.

Apply by the priority processing deadline dates. Applications will continue to be accepted up to the last day to add classes for the term of graduation; however, delays may occur in the initial and final evaluation of your application and names may not appear in the commencement book if application is received after the priority processing deadline. If we receive your application after the final deadline date for the term for which you are applying, your application will automatically be set up for the next available graduation date. Students from specific majors can now apply online for graduation via their MySJSU. See the Graduation page for further guidance.

Graduation Application Process

Candidates for the baccalaureate degree must file an application for graduation at least two semesters prior to the expected graduation date in order to allow time to make up any deficiencies or correct any discrepancies that may delay graduation. At least 85 semester units must be completed before an application for graduation may be submitted. In addition to fulfilling curricular graduation requirements, a student, to be eligible for a bachelor's degree, must have a grade point average of at least 2.0 (C) in each one of the following categories:

1. all college work (the overall average),
2. all units attempted at SJSU,
3. all units in the major,
4. all units in the minor (if any), and
5. all nine units of upper division GE (Areas R, S, and V).

Undergraduate students need to check with their major departments or their college success centers when they are ready to apply for graduation. Students from specific majors can now apply online for graduation via their MySJSU. See this page for guidance: Application for Graduation web page.

The graduation application for Master's or doctoral degrees are available to eligible students through their MySJSU account. Eligible students will be messaged once they are eligible to apply online. A tutorial and video instructions for completing the application are available at the linked website under Graduation.

Those planning to attend a college or university other than SJSU during the final semester must notify the Office of the Registrar. Courses must be completed by the date of graduation and transcripts received within one month after graduation.
If a candidate is unable to complete the coursework as expected, or if the date of graduation is to be delayed for any reason, a Change of Graduation Date form must be submitted, accompanied with the fee, prior to the new expected graduation date.

**College of Business Graduation Applicants**

The College of Business requires that students apply for graduation to the Jack Holland Student Success Center. Graduation deadlines and procedures differ from those established by the University. For further information, check with the Jack Holland Student Success Center, BBC 008, 408-924-3435.

**Commencement Ceremony and Conferral of the Degree**

Degrees are conferred three times a year - in August, December and May - at the close of summer, fall and spring terms. The date of the diploma reflects the term during which the degree requirements were completed. **There are two graduation or commencement ceremonies each academic year, held at the close of the spring and fall semesters.** Students who have completed all requirements in the previous summer and fall semester, or expect to complete their degree requirements in the spring semester, are eligible to participate.

CSU Application Procedures and Policies for Undergraduate

Requirements for admission to San José State University are in accordance with Title 5, Chapter 1, Subchapter 3, of the California Code of Regulations. Complete information is available on the California State University website.

All CSU applications must be submitted online on the Cal State Apply website. An acknowledgment will be sent to the applicant when the online application has been submitted.

Importance of Filing Complete, Accurate, and Authentic Application Documents

San José State University advises prospective students that they must supply complete and accurate information on the application for admission, residency questionnaire, and financial aid forms. Further, applicants must, when requested, submit authentic and official transcripts of all previous academic work attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of registration or academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

Undergraduate Application Procedures

Prospective students applying for part-time or full-time undergraduate programs of study must submit a completed undergraduate application. The $70 nonrefundable application fee should be paid online at the time of application via credit card, e-check, or PayPal and may not be transferred or used to apply to another term. An alternate major is required when submitting the application. The applications of persons denied admission to an impacted and/or closed campus may be redirected to another campus at no cost, but only if the applicant is CSU eligible. Upper Division Transfer applicants are required to complete a supplemental application to be considered for admission. More information can be found at SJSU Admissions.

Impacted Programs

The CSU designates programs as impacted when more applications from CSU regularly eligible students are received in the initial filing period (October and November for fall terms and August for spring terms) than can be accommodated. Some programs are impacted at every campus where they are offered; others are impacted only at a few campuses. Candidates for admission must meet supplementary admission criteria if applying to an impacted program.

The CSU will announce during the fall filing period those campuses or programs that are impacted. Detailed information on campus and program impaction will be available on the Impaction at the CSU website.

Campuses will communicate supplementary admission criteria for all impacted programs to high schools and community colleges in their application service area and will disseminate this information to the public through appropriate media. This information will also be published on the CSU campus website.
Applicants must file applications for admission to an impacted program during the initial filing period. Applicants who wish to be considered for impacted programs at more than one campus should file an application at each campus for which they seek admission consideration.

**Supplemental Criteria**

Each campus with impacted programs or class-level admission categories uses supplementary admission criteria in screening applicants. Supplementary criteria may include rank-ordering of freshman applicants based on the CSU eligibility index or rank-ordering of transfer applicants based on verification of the Associate in Arts for Transfer (AA-T) or Associate in Science Transfer (AS-T) degrees, the overall transfer grade point average (GPA), completion of specified prerequisite courses, and a combination of campus-developed criteria. Beginning with the Fall 2021 application cycle, SAT and ACT scores will not be considered in the admission process. Details about the factors used to evaluate applicants for admissions can be found on the SJSU Admissions site. Applicants who wish to be considered for admission to SJSU as an upper division transfer must complete a supplemental application. Details regarding the supplemental application process are posted to SJSU Admissions.

The supplementary admission criteria used by individual campuses to screen applicants are made available by the campuses to all applicants seeking admission to an impacted program.

**Application Filing Periods**

Note: Not all terms/programs are open for admission.

Admission to San José State is competitive in all majors because SJSU continues to have more qualified applicants than available new student spaces. This situation is called "impaction" and it means that meeting the minimum California State University (CSU) requirements does not guarantee admission to SJSU. We will no longer have the enrollment capacity to accept all CSU eligible applicants, including some from local high schools and community colleges.

San José State gives preference in the competitive admission process to "local" applicants. For freshmen, you are considered a "local" applicant if you will graduate from a high school in Santa Clara County. For transfer applicants, you are considered a "local" applicant if you will earn the majority of your transferable units at a college located in Santa Clara or Santa Cruz county.

All applicants are strongly encouraged to apply to an alternative campus that offers your preferred major. If applying after the initial filing period, consult SJSU Admissions for current information. Similar information is conveniently available at Cal State Apply.

**Application Acknowledgment**

About a week after applying at Cal State Apply, you will receive an email with your nine-digit SJSU ID included. This nine-digit number will be your primary university identification throughout your career at SJSU. Make sure the spam filters on your email account are set to accept email from @sjsu.edu.

For more information regarding the process go to SJSU Admissions.
**Hardship Petitions**

At the present time, because of severe budget limitations and the resulting campus-wide impaction, SJSU does not accept hardship petitions.

**Notification**

The Office of Undergraduate Admissions normally begins sending acceptance letters to applicants late February for admission to the fall semester and beginning in late September for admission to the spring semester. Letters from departments or faculty do not constitute admission to the university.

Applicants are not admitted as students in the regular session of the university until they have received an official letter of admission from the Office of Undergraduate Admissions. In addition to the official letter of admission, International student applicants for F-1 and J-1 status will be issued the appropriate form I-20 or DS-2019 for immigration processing.

**Selection**

The university reserves the right to select its students and deny admission to the university or any of its programs as the university, in its sole discretion, determines admission based on an applicant's suitability and the best interests of the university.

**California Promise**

The California Promise Program enables a specific number of campuses of the California State University (CSU) to establish pledge programs for entering first time students who are both interested and able to complete baccalaureate degrees in four years. All campuses have also established programs for students with Associate Degrees for Transfer from any California Community College to complete their baccalaureate degrees in two years. The program is limited to students who are residents of California.

Students who commit to enter either the four-year or two-year pledge will be given an early registration appointment for each state-supported enrollment period and will be provided with routine and thorough academic advisement. In order to remain in the program, students must meet with their advisors as prescribed, develop an enrollment plan, and complete 30 semester units or quarter equivalent units within each academic year, including summer. Students must have started Fall 2017 or later, fill out the SJSU pledge form, and have a two or four-year plan in place in MyPlanner. The pledge form can be found online. Interested students entering the CSU in the fall term should contact californiapromise@sjsu.edu or visit the Cal State California Promise website.

**Other Applicants**

Fully matriculated students enrolled at any CSU campus have access to courses at other CSU campuses on a space available basis unless those campuses/ programs are impacted. This access is offered without students being required to be formally admitted to the host campus and in most cases without paying additional fees. Students should consult their home campus academic advisors to determine how such courses may apply to their specific degree programs before enrolling at the host campus.

CSU Fully Online Courses - Matriculated students in good standing may request enrollment in one course per term, offered by a CSU host campus. Enrollment requests will be granted based on available space, as well as completion of any stated prerequisites. Credit earned at the host campus is electronically reported to the student's home campus to be included on the student's transcript at the home campus.
CSU Visitor Enrollment - Matriculated students in good standing enrolled at one CSU campus may enroll at another CSU campus for one term. Credit earned at the host campus is reported at the student's request to the home campus to be included on the student's transcript at the home campus.

Intersystem Cross Enrollment - Matriculated CSU, UC, or community college students may enroll on a "space available" basis for one course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home campus.

Appeal of Admission Decision

Section 89030.7 of the California Education Code requires that the CSU establishes specific requirements for appeal procedures for a denial of admission. Each CSU campus must publish appeal procedures for applicants denied admission to the University. The procedure is limited to addressing campus decisions to deny an applicant admission to the University.

Admissions appeal procedures must address the basis for appeals, provide 15 business days for an applicant to submit an appeal, stipulate a maximum of one appeal per academic term, provide specific contact information for the individual or office to which the appeal should be submitted, and indicate a time estimate for when the campus expects to respond to an appeal. The appeal procedures must be included in all denial of admission notifications to students, and must also be published on the campus website. Applicants should consult with SJSU Admissions.

Orientation

Frosh Orientation

Orientation is an important first step to help new students learn to navigate SJSU, register for classes, and make the connections they need to be successful! These mandatory programs assist new students with making the transition to college. Orientation is delivered collaboratively by two SJSU departments, Academic Advising and Retention Services and New Student and Family Programs. These departments work with new students at Orientation and beyond by utilizing student leaders who are trained in approaches for effective transition. During the program, professional staff advise students about the General Education program, major courses, and prerequisites. Orientation staff who are knowledgeable about the campus guide students and parents/guardians through experiences that educate them about campus programs and services.

Transfer Orientation

Transfer Orientation is a mandatory program that acquaints students with the campus, introduces them to their colleges and major departments, and provides them with critical academic planning information. This program is managed by New Student and Family Programs in collaboration with AARS and other campus offices.

Freshman Requirements

Generally, applicants will qualify for consideration for first-time freshman admission if they meet the following requirements:

1. Have graduated from high school, have earned a Certificate of General Education Development (GED), or have passed the California High School Proficiency Examination (CHSPE);
2. Complete the 15-unit comprehensive “a-g” pattern of college preparatory courses;
3. Have completed, with grades of C- or better, each of the courses in the comprehensive pattern of college preparatory subject requirements also known as the "a-g" pattern (see "Subject Requirements"); and
   - The CSU will accept "Credit" or "Pass" grades to satisfy "a-g" requirements completed during Winter, Spring, Summer or Fall 2020 terms and during Winter, Spring or Summer 2021 terms. The CSU expects and assumes that high school Pass (Credit) grades will represent work completed at the C or higher level.

Eligibility Index

The California State University (CSU) will continue to temporarily suspend the use of ACT/SAT examinations in determining admission eligibility for all CSU campuses for the 2022-2023 academic year. This temporary change of admission eligibility applies for the following terms: Fall 2021, Winter 2022, Spring 2022, Fall 2022, Winter 2023 and Spring 2023 admission cycles. First-time freshmen must meet the following eligibility requirements: be a high school graduate or equivalent; complete the 15-unit comprehensive "a-g" pattern of college preparatory course; and earn a qualifying "a-g" grade point average (GPA) as described below.

- California residents and graduates of California high schools will be eligible for admission by earning a 2.50 or greater "a-g" GPA.
- Any California high school graduate or resident of California earning a GPA between 2.00 and 2.49 may be evaluated for admission based upon supplemental factors such as number of courses exceeding minimum "a-g" requirements, household income, extracurricular involvement, and other available information that would inform the campus admission decision. Each CSU campus will determine the supplemental factors used with GPA to determine eligibility in these cases and communicate these criteria publicly for prospective students.
- Non-California residents may be eligible for admission to the CSU by earning a 3.00 or greater "a-g" GPA along with other supplemental factors utilized by the individual campus, including those outlined by impacted campuses and programs.

If you apply for admission before you graduate from high school, you should compute your GPA using grades earned in a-g courses completed after the 9th grade. Do not include grades you expect to earn in courses during the remainder of 12th grade.

Provisional Admission

The offer of provisional admission is based on the academic information that applicants report on the CSU Apply application. All academic information must be verified before the admitted student will be allowed to enroll and register for classes at SJSU. The admission status will remain "provisional" until an official, final transcript(s) passes verification and confirmation of graduation from high school has been made. The offer of provisional admission to the academic plan (major) listed on the admission letter is only valid for the admit term and may not be deferred to another semester. In addition, it is not possible to change majors prior to enrollment at SJSU.

Applicants will qualify for regular (non-provisional) admission when the university verifies that they have graduated and received a high school diploma, have met qualifying minimum eligibility criteria, have completed the comprehensive pattern of college preparatory "a-g" subjects, and, if applying to an impacted program or campus, have met all supplementary criteria.

SAT and ACT Tests

The CSU has suspended the use of ACT and SAT scores in the admission review process. This temporary change applies for the following terms: Fall 2021, Winter 2022, Spring 2022, Fall 2022, Winter 2023 and Spring 2023 admission cycles.
Though they will not be considered as part of the admission review process, we highly recommend that you submit your SAT and/or ACT scores, as these scores may be used to assess math and English placement for admitted students who enroll at SJSU.

**Subject Requirements**

The California State University requires that first-time freshman applicants complete, with grades of "C-" or better, a comprehensive pattern of college preparatory study totaling 15 units. A "unit" is one year of study in high school.

- 2 years of social science, including 1 year of U.S. history, or U.S. history and government.
- 4 years of English
- 3 years of math (algebra, geometry and intermediate algebra).
- 2 years of laboratory science (1 biological and 1 physical, both must include laboratory instruction).
- 2 years in the same foreign language (subject to waiver for applicants demonstrating equivalent competence).
- 1 year of visual and performing arts: art, dance, drama/theater, or music.
- 1 year of electives: selected from English, advanced mathematics, social science, history, laboratory science, foreign language, visual and performing arts or other courses approved and included on the UC/CSU "a-g" list.

**Placement Measures for First-Year GE Written Communication and Mathematics/ Quantitative Reasoning Courses**

Freshman skills assessment and placement for general education written communication and mathematics/quantitative reasoning shall be based on systemwide skills assessment standards that include the CAASPP/EAP Achievement Levels, ACT scores and/or SAT scores, high school coursework, high school GPA and math GPA. (Note: SAT and ACT scores will not be used for admission between Fall 2021 and Spring 2023 but may be used for course placement if submitted.) Skills assessments are not a condition for admission to the CSU; they are a condition of enrollment. These skills assessments are designed to inform entering freshmen of placement in appropriate baccalaureate-level courses based on their skills and needs.

First-time freshmen in need of support as determined by the skills assessment will be placed in supported instruction. Supported instruction is designed to assist students in credit bearing courses. Students may also be required to participate in the Early Start Program. The Early Start Program gives students the opportunity to earn college credit in written communication and mathematics/quantitative reasoning the summer before their first term.

More information on supported instruction is found online.

**Assessments and Placement for GE Written Communication**

**Has Fulfilled the GE Area A2 Writing Requirement**

The student has met the requirement via completion of one of the following:

**Advanced Placement (AP) Test**

- 3 or above: AP Language and Composition
- 3 or above: AP Composition and Literature

**International Baccalaureate (IB) Exam**
• 4 or above: IB Language A - Language and Literature (HL)
• 4 or above: IB Literature (HL)
• 4 or above: IB Language A1 (HL)

**College Level Examination Program (CLEP)**

• 50 or above: CLEP College Composition
• 50 or above: CLEP College Composition Modular

**College Transfer Coursework**

• Completed approved college course that satisfies CSU GE Area A2 (written communication) with a grade of C- or better (official transcript required).

**Placement in a GE Subarea A2 Writing Course**

The student has met examination standards and/or multiple measures- informed standards via one of the criteria below:

**English CAASPP/EAP Test:**

• Standard Exceeded (Level 4)  
• Standard Met (Level 3) and completed 12th grade approved year-long English course (CSU ERWC, AP, Weighted Honors English) with grade of C- or better

**SAT Evidence-Based Reading and Writing Test:**

• 550 or above  
• 510 - 540 and completed 12th grade approved year-long English course (CSU ERWC, AP, Weighted Honors English) with grade of C- or better

**ACT English Test:**

• 22 or above  
• 19-21 and completed 12th grade approved year-long English course (CSU ERWC, AP, Weighted Honors English) with grade of C- or better

**High School Courses and GPA:**

• Weighted GPA 3.3 or above  
• GPA 3.0 or above and completed approved 12 grade year-long English course (AP, CSU ERWC, Weighted Honors English) with a grade of C- or better  
• GPA 3.0 or above and completed Honors English  
• GPA 3.0 or above and 5 or more years of high school English

**Placement in a Supported GE Subarea A2 Writing Course and Participation in the Early Start Program Recommended**

The student has met examination standards and/or multiple measures- informed standards via one of the criteria below:

**SAT Evidence-Based Reading and Writing Test:**

• 510 - 540 and 4 or more years of high school English

**ACT English Test:**
• 19 - 21 and 4 or more years of high school English

**High School Courses and GPA:**

• Weighted GPA 3.0 or above and 4 or more years of high school English

**Placement in a Supported GE Subarea A2 Writing Course and Participation in the Early Start Program Required**

Based on multiple measures evaluation, the student is in need of additional academic support, including participation in the Early Start Program. Visit the Early Start Program page to learn about the Early Start Program Requirement.

Has Fulfilled the GE Subarea B4 Math/Quantitative Reasoning Requirement

The student has met the requirement via completion of one of the following:

**Advanced Placement (AP) Test:**

• 3 or above on AP Calculus BC
• 3 or above on AP Statistics
• 3 or above on AP Computer Science Principles

**International Baccalaureate (IB) Test:**

• 4 or above on Math Higher Level (HL)

**College Level Examination Program (CLEP):**

• 50 or above on: Calculus, College Algebra, College Algebra-Trigonometry, Pre-Calculus or Trigonometry

**College Transfer Coursework:**

• Completed math/quantitative reasoning college course with a C- or better that satisfies CSU GE Area B4 (official transcript required).

**Placement in a GE Subarea B4 Math/ Quantitative Reasoning Course**

The student has met examination standards and/or multiple measures-informed standards via one of the following criteria:

**CAASPP/EAP Math Exam:**

• Standard Exceeded (Level 4)
• Standard Met (Level 3) and completed 12th grade approved year-long math course beyond Algebra 2 or Integrated Math 3, with a C- or better
• Standard Met and 4 or more years of high school math or quantitative reasoning

**SAT Math Test:**

• 570 or above
• 550 or above on Subject Test in Math Level 1 or 2
• 520 - 560 and completed 12th grade approved year-long math course beyond Algebra 2 or Integrated Math 3, with a C- or better

**ACT Math Test:**

• 23 or above
• 20 - 22 and completed 12th grade approved year-long math course beyond Algebra 2 or Integrated Math 3, with a C- or better
• SAT score conversion for scores prior to March 2016 (old SAT)

**High School Courses and GPA:**

• Weighted math GPA 3.0 or above and completed 12th grade approved year-long math course beyond Algebra 2 or Integrated Math 3, with a C- or better
• Weighted math GPA 3.0 or above and 5 or more years of high school math or quantitative reasoning
• Weighted high school GPA 3.7 or above
• Weighted high school GPA 3.5 or above and 4 or more years of high school math or quantitative reasoning

**Placement in a Supported GE Subarea B4 Math/ Quantitative Reasoning Course and Participation in the Early Start Program Recommended**

The student has met examination standards and/or multiple measures- informed standards via one of the criteria below:

**High School MATH GPA:**

• Weighted math GPA 3.3 or above

**Placement in a Supported GE Subarea B4 Math/ Quantitative Reasoning Course and Participation in the Early Start Program Required**

Based on multiple measures evaluation, the student needs additional academic support including participation in the Early Start Program. Visit the Early Start Program page to learn about the Early Start Program Requirement.

**Assessments and Placement for GE Mathematics/ Quantitative Reasoning: Pre-STEM/ STEM and Other Math- Intensive Majors**

Has Fulfilled the GE Subarea B4 Math/Quantitative Reasoning Requirement

The student has met the requirement via completion of one of the following:

**Advanced Placement (AP) Test:**

• 3 or above on AP Calculus AB
• 3 or above on AP Calculus BC
• 3 or above on AP Statistics
• 3 or above on AP Computer Science Principles

**International Baccalaureate (IB) Test:**

• 4 or above on Math Higher Level (HL)

**College Level Examination Program (CLEP):**

• 50 or above on: Calculus, College Algebra, College Algebra-Trigonometry, Pre-Calculus or Trigonometry

**College Transfer Coursework:**

• Completed math/quantitative reasoning college course with a C- or better that satisfies CSU GE Area B4 (official transcripts required).

### Placement in a GE Subarea B4 Math/ Quantitative Reasoning Course

The student has met examination standards and/or multiple measures- informed standards via one of the criteria below:

**CAASPP/EAP Math Exam:**

• Standard Exceeded (Level 4)
• Standard Met (Level 3) and completed 12th grade approved year-long math course beyond Algebra 2 or Integrated Math 3 with a C- or better

**SAT Math Test:**

• 570 or above
• 550 or above on Subject Test in Math Level 1 or 2
• 520 - 560 and completed 12th grade approved year-long math course beyond Algebra 2 or Integrated Math 3 with a C- or better

**ACT Math Test:**

• 23 or above
• 20 - 22 and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better

**High School Courses and GPA:**

• Weighted math GPA 3.5 or above and completed 12th grade approved year-long math course beyond Algebra 2 or Integrated Math 3 with a grade of C- or better
• Weighted math GPA 3.5 or above and 5 or more years of high school math or quantitative reasoning
• Weighted high school GPA 3.7 or above
• SAT score conversion for scores prior to March 2016 (old SAT)

### Placement in a Supported GE Subarea B4 Math/ Quantitative Reasoning Course and Participation in the Early Start Program Recommended

The student has met examination standards and/or multiple measures- informed standards via the criteria below:

**High School Math GPA:**

• Weighted math GPA 3.3 or above
Placement in a Supported GE Subarea B4 Math/ Quantitative Reasoning Course and Participation in the Early Start Program Required

Based on multiple measures evaluation, the student needs additional academic support including participation in the Early Start Program. Visit the Early Start Program page to learn about the Early Start Program Requirement.

Early Start Program

The goal of the Early Start Program (ESP) is to:

- Better prepare students in written composition and mathematics/quantitative reasoning before the fall term of freshman year, improving students' chances of successful completion of a baccalaureate degree.
- If required to participate in ESP, as determined by multiple measures, students will begin in the summer before the start of the freshman year.
- For general information about ESP including fees and course listings, visit CSU Student Success - Early Start. Students are encouraged to visit the SJSU Early Start Program website information once admitted.
- Eligible financial aid applicants with an Estimated Family Contribution (EFC) of $6,000 or less will be eligible for waiver of the per unit ESP fee.

For more information on assessments, placements and the Early Start Program, please visit CSU Student Success - Early Start.

To facilitate appropriate first-year course placement, the CSU evaluates entering students for academic preparation in two areas: quantitative reasoning and written communication. The evaluation process takes into account several factors, including grade point average, completed high school coursework, transfer-level coursework, and scores on standardized tests such as the SAT, ACT, CAASPP/EAP, and Advanced Placement and International Baccalaureate examinations.

On the basis of this evaluation, some students who may benefit from additional academic preparation are required to participate in summer skill-building activities through the Early Start Program. The Early Start program provides students with an opportunity to take college level courses in the summer. This will allow the student to begin earning units towards their degree and have an early transition to SJSU. This requirement may be satisfied through live or online Early Start courses offered by any CSU campus. Students with an Early Start requirement will receive information about the program, including specific course options, through MySJSU starting in the first week of May and continuing throughout the summer. Regular financial aid packages may not be applied to Early Start classes; however, fee waivers are automatically given to qualifying students.

Students who need sign language interpreters or other accommodations should contact the Accessible Education Center (AEC) at (408) 924-6000 as soon as possible, or at least two weeks prior to the first day of Early Start classes. For more information about obtaining accommodations contact the AEC.

Students who fall into one or more of the following categories are excused from the Early Start requirement, regardless of their academic record:

1. Non-residents of California (See Registrar's Office for information on residency.)
2. International students (F-1 and J-1 visas only)
3. Students admitted after June 1st

In addition, students who have a serious and compelling reason for not participating in the program may petition for an exception to the requirement. Exceptions are granted only when program participation is impossible or would lead to undue hardship. (Summer vacation plans are not considered grounds for an exception.) The petition can be found online. For a petition to be approved, documentation will be required.
Students who do not satisfy their Early Start requirement may be sanctioned as outlined in the SJSU Early Start Expectations for Completion section of the web site.

The Early Start requirement applies to students admitted in the fall semester only. Students admitted in the spring semester are exempt from the Early Start Program.

**Subject Requirement Substitution for Students with Disabilities**

If you are unable to complete certain subjects because of your disability, please call the Accessible Education Center at 408-924-6000 or by email aec-info@sjsu.edu.

**Step to College/ Unitrack - High School Students**

See Alternative Enrollment Programs.

**Transfer Requirements**

Applicants who have completed fewer than 60 transferable semester college units (fewer than 90 quarter units) are considered lower division transfer students. Applicants who have completed 60 or more transferable semester college units (90 or more quarter units) are considered upper division transfer students. Applicants who complete college units during high school or through the summer immediately following high school graduation are considered first-time freshmen and must meet the CSU minimum eligibility requirements for first-time freshman admission. Transferable courses are those designated for baccalaureate credit by the college or university offering the courses and accepted as such by the campus to which the applicant seeks admission.

**Transfer Policies of CSU Campuses**

Most commonly, college level credits earned from an institution of higher education accredited by a regional accrediting agency recognized by the United States Department of Education is accepted for transfer to campuses of the CSU; however, authority for decisions regarding the transfer of undergraduate credits is delegated to each CSU campus.

California Community Colleges and other authorized certifying institutions can certify up to 39 semester (58.5 quarter) units of General Education-Breadth (GEBreath) or 37 semester (55.5 quarter) units of the Intersegmental General Education Transfer Curriculum (IGETC) for transfer students to fulfill lower-division general education requirements for any CSU campus prior to transfer.

"Certification" is the official notification from a California Community College or authorized institution that a transfer student has completed courses fulfilling lower-division general education requirements. The CSU GE-Breadth and the Intersegmental General Education Transfer Curriculum (IGETC) certification course lists for particular community colleges can be accessed at the official transfer and articulation system for California's public colleges and universities website, www.assist.org.

CSU campuses may enter into course-to-course or program-to-program articulation agreements with other CSU campuses, any or all of the California Community Colleges, and other regionally accredited institutions. Established CSU and California Community College articulations may be found on www.assist.org. Students may be permitted to transfer no more than 70 semester (105 quarter) units to a CSU campus from an institution which does not offer bachelor's degrees or their equivalents, for example, community colleges. Given the university's 30-semester (45-quarter) unit residency requirement, no more than a total of 90-semester (135-quarter) units may be transferred into the University from all sources.
Lower Division Transfer Requirements

An applicant who completes fewer than 60 semester (90 quarter) units of college credit is considered a lower division transfer student. Due to enrollment demands most CSU campuses, including SJSU, do not admit lower-division transfers so that more upper-division transfers can be accommodated.

Having fewer than 60 semester (90 quarter) units at the point of transfer may affect eligibility for registration priority at CSU campuses and may affect the student's financial aid status.

California resident transfer applicants with fewer than 60 semester or 90 quarter units must:

- Have a cumulative grade point average of 2.0 (C) or better in all transferable units attempted;
- Have completed, with a grade of C- or better, a course in written communication and a course in mathematics or quantitative reasoning at a level satisfying CSU General Education Breadth Area A2 and B4 requirements, respectively;
- Be in good standing at the last institution attended; and
- Meet any one of the following eligibility standards.

Generally, applicants will qualify for admission as a lower division transfer student if they have a cumulative GPA of at least 2.0 (C or better) in all transferable units attempted, are in good standing at the last college or university attended, and meet any of the following standards:

1. Will meet the freshman admission requirements (GPA and subject requirements) in effect for the term to which they are applying (see "Freshman Requirements"); or
2. Were eligible as a freshman at the time of high school graduation except for the subject requirements, and have been in continuous attendance in an accredited college since high school graduation, and have made up the missing subjects.

Applicants who graduated from high school prior to 1988 should contact the Admissions Office to inquire about alternative admission programs.

Making Up Missing College Preparatory Subject Requirements

San José State University does not allow students to make up missing college preparatory (a-g) subjects over the summer sessions. All work must be completed by the end of the 8th semester of high school with a "C- or Better" grade.

Upper Division Transfer Requirements

Generally, applicants will qualify for consideration for upper-division transfer admission if they meet all of the following requirements:

1. Cumulative grade point average of at least 2.0 (C or better) in all transferable units attempted;
2. In good standing at the last college or university attended; and
3. Completed at least sixty (60) transferable semester (90 quarter) units of college level coursework with a grade point average of 2.0 or higher and a grade C- or better in each course used to meet the CSU general education requirements in written communication, oral communication, critical thinking, and quantitative reasoning, e.g. mathematics.

The 60 units must include at least 30 units of courses that meet CSU general education requirement including all of the general education requirements in communication in the English language (both oral and written) and critical thinking and the requirement in mathematics/quantitative reasoning (usually 3 semester units) OR the Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communication and mathematical concepts and quantitative reasoning.
All applicants for transfer will be required to complete a supplemental application including grades for all coursework completed and a list of all coursework in progress.

Any transfer applicant who wishes to be considered for admission must complete and submit the supplemental application by the deadline posted to his or her MySJSU To Do List.

For more information about the way that this information will be considered for admission and a list of major-specific coursework, please see Program Specific Supplemental Coursework section.

Questions about the Supplemental Application can be answered by consulting our help guide.

**Associate Degrees for Transfer (ADT: AA-T or AS-T)**

**Student Transfer Achievement Reform (STAR) Act (SB 1440)**

The Associate in Arts for Transfer (AA-T) and the Associate in Science for Transfer (AS-T) degrees offered at the California Community Colleges (CCC) are designed to provide California Community College students with the optimum transfer preparation and a clear admission pathway to those CSU degree majors. Students who have completed these transfer degrees and are admitted to a similar CSU major program or option for that discipline will be able to complete the Baccalaureate Degree within 60 semester or 90 quarter units providing that all remaining required courses are completed successfully without a break in attendance and providing that no supplemental courses for minors or areas of emphasis are undertaken.

CCC students who earn an Associate Degree for Transfer (AA-T or AS-T) are guaranteed admission with junior standing to a CSU and given priority admission over other transfer applicants when applying to a local CSU campus or non-impacted CSU program. AA-T or AS-T admission applicants are given limited priority consideration based on their eligibility ranking to an impacted campus/program or to campuses/programs that have been deemed similar to the degree completed at the community college. Students who have completed an AA-T/AS-T in a program deemed similar to a CSU major are able to complete remaining requirements for graduation within 60 semester (90 quarter) units. It is the responsibility of the student who has earned an AA-T/AS-T to provide documentation of the degree to the CSU campus.

Students who earn associate degrees for transfer and apply to a CSU campus but cannot be admitted due to impaction will be redirected to another CSU campus and offered admission for the same term. In order to qualify for the priority admission guarantee, transfer applicants must be conferred an approved Associate Degree for Transfer (AA-T/AS-T) by a California Community College, apply for admission to California State University campuses for an open term by the published deadline, submit all requested transcripts and documents, meet CSU admission eligibility requirements for the campus and/or program, and comply with any other prescribed admission requirements. It is the responsibility of these transfer students to provide documentation about the completion of the degree to each CSU campus that has received an application for admission.

**Transfers - Provisional Admission**

The offer of provisional admission is based on the academic information that applicants report on the CSU Apply application. All academic information must be verified before the admitted student will be allowed to enroll and register for classes at SJSU. The admission status will remain "provisional" until an official, final transcript(s) passes verification and confirmation of completion of any spring work in progress. The offer of provisional admission to the academic plan (major) listed on the admission letter is only valid for the admit term and may not be deferred to another semester. In addition, it is not possible to change majors prior to enrollment at SJSU.

**Post-baccalaureate (Second Baccalaureate)**
Due to enrollment restrictions and impaction, SJSU no longer accepts applications from post-baccalaureate/second baccalaureate students. The only exception is for Nursing.

**International Student Requirements**

The following information pertains to specific requirements for SJSU International Students.

**Admission Requirements**

The CSU must assess the academic preparation of international students. For this purpose, "international students" include those who hold U.S. temporary visas as students (F-1), exchange visitors (J-1), or in other nonimmigrant classifications.

The CSU uses separate requirements and application filing dates in the admission of "international students." Verification of English proficiency (see the section on the English Language requirement for undergraduate applicants), financial resources, and academic performance are each important considerations for admission. Academic records from international institutions must be on file by the posted deadlines and, if not in English, must be accompanied by certified English translations.

**Insurance Requirement**

Effective August 1, 1995, as a condition of receiving an I-20 or DS-2019 form, all F-1 and J-1 visa applicants must agree to obtain and maintain health insurance as a condition of registration and continued enrollment in the California State University. Such insurance must be in amounts as specified by the United States Department of State and San José State University. The campus president or designee shall determine which insurance policies meet these criteria. Further information may be obtained from International Student and Scholar Services, Student Union - CPGE.

**English-Language Proficiency Exam Requirement**

All undergraduate applicants whose native language is not English and who have not attended schools at the secondary level or above for at least three years full time where English is the principal language of instruction must present a score of 61 or above on the Test of English as a Foreign Language (TOEFL). Some majors and class levels may require a higher score. For graduate student applicants, please refer to Graduate Admissions. A few programs may also use alternative methods of assessing English fluency: Pearson Test of English Academic (PTE Academic) and the International English Language Testing System (IELTS).

SJSU will assign "to do" items in MySJSU to notify applicants to submit test scores to the admissions office.

**Transcript Requirements**

**Transcript Submission**
All transcripts submitted must be official and sent directly from the originating school or college to the Office of Admissions. San José State University accepts electronic transcripts as the preferred method. If possible please request your school to send your transcripts electronically. Electronic transcripts save processing time. Transcripts submitted by the student are not acceptable unless submitted in a sealed envelope. All records submitted become the property of the university, part of the student's file, and will not be released. If a student does not complete the application or enroll, the records will be kept on file for one year only.

Undergraduate students with college transfer work who are accepted for admission, and who desire advising, will be required to present a set of college transcripts to their departmental advisor. It is suggested that you order a set of transcripts for yourself at the same time you order transcripts sent to the Office of Admissions.

**Freshmen Applicant Transcripts**

Students applying for admission to the university while still attending high school may be evaluated on their self-reported application information. A final high school transcript with the date of graduation must be sent to the Office of Admissions at the time of graduation and by the assigned due date.

**Transfer Applicant Transcripts**

Transfer applicants who have completed 60 or more semester units of transferable credits and who are applying to the university need not file the high school transcript. However, applicants are cautioned that if, during the evaluation process, it is determined that fewer than 60 semester units of transferable credit have been earned, processing will stop and the application will be withdrawn.

All undergraduate applicants must file one official transcript from each college or institution in which they have enrolled. This includes USAFI, the Defense Language Institute, Special Sessions (Winter Session and Professional Development), correspondence and audited courses, as well as any college in which the student was enrolled and withdrew without earning credit.

Former students need not order transcripts of work completed at SJSU whether this work was accomplished in the regular session, Open University, Special Sessions, or through the university Professional Development Program. Similarly, they need not reorder transcripts that were previously forwarded to this university. But if they did college work in the interim, such transcripts must be filed with their papers. Students absent from the university for a period of seven years or longer must resubmit all documents required for admission.

**Credential Applicant Transcripts**

Applicants to credential programs are required to file one official transcript from each and every college in which they have enrolled. Transcripts must be sent directly from the originating institution to the Office of Graduate Admissions & Program Evaluations (GAPE). Transcripts submitted by the student are not acceptable unless submitted in an official sealed envelope.

All college work must be reported. Failure to comply with this requirement may void the student's application.

**Test Requirements**

**EPT/ ELM Placement Tests**

EPT/ELM Placement Tests in English and Math
Prior to August 2017 the CSU required that each entering undergraduate, except those who qualified for an exemption, take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. As of Spring 2018, these placement tests have been replaced by alternative assessments. See section on alternative assessments elsewhere in the policies section of the catalog.

Although the ELM/EPT are no longer offered, scores for students who previously took the ELM and EPT will be honored.

SAT and ACT

The CSU has suspended the use of ACT and SAT scores in the admission review process. This temporary change applies for the following terms: Fall 2021, Winter 2022, Spring 2022, Fall 2022, Winter 2023 and Spring 2023 admission cycles. Students may submit their official SAT and/or ACT should they be offered admission to be used for course placement purposes, but the standardized tests will not be considered in the admission decision. Registration forms and dates for the SAT or ACT are available from school or college counselors or from a CSU campus testing office. Or students may contact:

**The College Board (SAT)**

Registration Unit, Box 6200
Princeton, New Jersey 08541-6200
609-771-7588
www.collegeboard.org

**ACT Registration Unit**

P.O. Box 414
Iowa City, Iowa 52240
319-337-1270
www.act.org

**Placement by Examination**

**Advanced Standing by Examination**

Advanced standing by examination permits accelerated progress toward the degree and a wider selection of course work.

Advanced standing by examination is divided into three categories: (1) advanced placement by examination (no unit credit awarded); (2) waiver of requirements (no unit credit awarded); and (3) advanced credit by examination.

**Course Placement by Examination**

See the policies below and the respective departments for details about all placement examinations.

**Mathematics**

The Precalculus Proficiency Assessment is offered to students who would like to place into MATH 30, MATH 30X, MATH 71, or MATH 71X and have not yet satisfied the prerequisites (MATH 71: MATH 18A/MATH 19 or SAT 570+ or ACT 23+; MATH 30: MATH 19 with B or better; MATH 30X: MATH 19 with C- or better). Contact the Math Department for more information or contact the Testing Office; testing-office@sjsu.edu.

**Foreign Language**
Placement examinations in French, German and Spanish are recommended for those students who studied language in high school or acquired language skills through life experiences.

Students having completed college level foreign language (at SJSU or elsewhere) generally will not take the placement examination but will enroll in the course for which they qualify on the basis of units completed.

Music

All new and transfer music majors, including graduate students and returning former students, must report to the School of Music and Dance for auditions, advising and placement examinations. Music majors and minors must also audition for a major ensemble before completing registration.

Precalculus Proficiency Assessment (PPA)

The Precalculus Proficiency Assessment (PPA) is offered to students who would like to place into MATH 30, MATH 30X, MATH 42, MATH 42X, MATH 70, MATH 71, or MATH 71X and have not yet satisfied the prerequisites. For more information, consult the Testing Office at testing.sjsu.edu or testing-office@sjsu.edu.

- Entering freshmen who plan to take MATH 30, MATH 30X, MATH 42, MATH 42X, MATH 70, MATH 71, or MATH 71X their first semester should take the Precalculus Proficiency Assessment prior to attending orientation. Exams are offered throughout September through January for Spring admits and May through August for Fall admits. Check the Testing Office website for details at testing.sjsu.edu.
- For more information about the courses and their prerequisites, please read the Calculus and Discrete Mathematics web pages.

Placement Through External Exams

Information regarding external exams, Advanced Placement (AP) Exams and College Level Exam Program (CLEP), can be found in the linked sections of this catalog. Specific score information regarding MATH course prerequisites is found on the Calculus and Discrete Mathematics web pages.

Precalculus Proficiency Assessment through ALEKS PPL

The Precalculus Proficiency Assessment at SJSU is conducted through ALEKS PPL, an adaptive online program that uses artificial intelligence to map a student's strengths and weaknesses.

It consists of 3 parts:

1. Initial Assessment (approximately 30 questions, about 60-90 minutes to complete)
2. Prep and Learning Module (individualized, self-paced online review, with up to 2 practice tests)
3. Access to 2 Proctored Placement Assessments (Proctored in-person or online at SJSU. For non-local students, we can make arrangements for proctoring in person if available at other testing locations.)

For additional information on the PPA, visit testing.sjsu.edu/CalcPE.

Registration and Payment

See information on testing.sjsu.edu.

Accommodations

Students needing accommodations can take the Precalculus Proficiency Assessment through the Accessibility Education Center (AEC). Registration can be done after payment and directly through the AEC.

Foreign Language Placement Examination
The placement test is recommended for those students who studied a language in high school or acquired language skills through life experiences such as foreign travel or study abroad.

If you have taken college level foreign language courses (at SJSU, a community college, or other university), you do not need to be tested. Just enroll in the course for which you qualify on the basis of units accumulated. If you are unsure about course equivalencies, call 408-924-4602 and you will be referred to an advisor.

Students may also take the Placement Test for Chinese, French, German, Japanese, Spanish or Vietnamese on an individual basis for the following semester. For details, call the Carmen Sigler Media Center at 408-924-4696.

For other languages, call 408-924-4602.

**Waiver Examinations**

A satisfactory score on one or more of the following tests will result in a waiver of the requirement, but no unit credit will be awarded. Information on all waiver examinations is available in the Testing Office. There is a test fee associated with some of these exams.

**American Institutions**

A waiver examination (giving no unit credit) is available in the Testing Office to challenge the California Government graduation requirement (Area US3).

**Written Communication II Course (100W)**

Students who have earned a waiver-eligible score on the Writing Skills Test (WST) at SJSU, or who have satisfied the CSU Graduation Writing Assessment Requirement at another CSU campus, are not required to take a 100W course unless their degree programs do not accept a waiver of the course. Consult the General Education section for a list of majors that do not accept the waiver. **Note that the Writing Skills Test requirement has been temporarily suspended. Students should consult the following website for information: Current WST information**

**Credit by Exam (CBE) for Challenge Examinations**

In accordance with University Policies F15-5 and F15-11, academic credit may be earned through CBE for any department-approved 0-100 level course for which an equivalent CLEP exam is not available. Credit earned from CBE is non-transferable and awarded on a Credit/No Credit basis. It can only be used to clear SJSU requirements and assist with progress towards a degree at SJSU. CBE can be attempted only once per course, up to a maximum of 30 units. This 30 unit maximum also includes course credit earned through CLEP examinations.

If you are seeking Credit By Examination, you must meet the following criteria:

- You are a currently matriculated student at SJSU.
- You cannot be enrolled in the course, and have never received a grade (other than W) for the course or an equivalent course.
- You can only use the course towards completion of degree requirements at SJSU.
- You have never attempted CBE for the course before.
- You have fewer than the maximum of 30 units allowed for CBE/CLEP credit.

Contact the Testing Office to request a petition form. Visit testing.sjsu.edu/CBE for more information.

**Credit by Examination**

**Standardized Exams**
SJSU grants credit toward its undergraduate degrees for successful completion of various standardized exams. The following are the guidelines for the credit that may be granted at SJSU for each standardized exam. Students may not earn duplicate credit by examination if they have previously taken or subsequently take equivalent exams or coursework.

**Display information for:** Advanced Placement (AP) Exams

**Display information for:** College Level Exam Program (CLEP)

**Display information for:** International Baccalaureate (IB)

**Writing Skills Test (WST)**

All students, regardless of where they began their college studies, are required by the California State University to satisfy an upper division written communication requirement. At SJSU the writing requirement has two parts: passing the WST and passing a 100W course. The WST requirement has been temporarily suspended. Please see the following website for more information: Current WST Policy. The WST has been temporarily suspended. See Temporary WST Policy for details and link to the self directed placement exercise.

- A satisfactory score on the Writing Skills Test (WST) is required prior to enrollment in Written Communication II (100W courses) and all SJSU Studies (upper division general education, Areas R, S, and V) courses. To make timely progress to their degree, students should register for, and take, the first available WST they can after completing ENGL 1A course (CSU GE Area A2) and a critical thinking course (CSU GE Area A3).
- The WST requirement cannot be waived, though the test has been temporarily suspended. See note above
- High WST scores may also be used to waive the required Written Communication II course (100W). Some majors do not permit waiving of 100W no matter what score the student receives on the WST. Individual score reports explain each student's status.

The prerequisite for the WST is completion of ENGL 1A (CSU GE Area A2) with a grade of "C- or better". Completion of a second semester composition course (e.g. Area A3 courses or ENGL 1B at SJSU) is strongly recommended for students prior to taking the WST. For SJSU students who completed their English composition courses at SJSU prior to Fall 2014, ENGL 1A and ENGL 1B (or equivalent) were prerequisites for the WST.

Once the writing courses have been completed with grades of "C- or better", students should visit testing.sjsu.edu/wst to view upcoming test dates and register for the WST. Completion of the WST prior to reaching upper division standing will prevent any delays in registration for any courses which require the WST or 100W as a prerequisite for enrollment. Transfer students should complete the WST prior to their first semester at SJSU to prevent any delays in registration.

Consult testing.sjsu.edu for the most current information about the WST. The following students do not need to take the WST to enroll in any classes:

1. Students who have completed the Graduate Writing Assessment Requirement (GWAR) at SJSU or at another CSU campus as a matriculated student at the time of completion. Note: If you have satisfied the GWAR at another CSU campus, your department may still require that you take 100W to satisfy the requirements of the major, even though the university GWAR requirement has been met;
2. Post-baccalaureate students who have earned a baccalaureate degree from a regionally accredited U.S. college or university;
3. Students who have submitted a Written Communication II petition and received approval granting equivalency based on satisfactory completion of an upper division composition course completed at another university, or the submission of published work for which the student is the primary author.

For students who have failed the WST, SJSU offers ENGL 100A and LLD 100A. Either course satisfies the WST requirement if passed with a "C or Better." See Directed self placement for 100A or 100W.
If you have questions about your status, contact the Testing Office at testing-office@sjsu.edu.

If you will not be in the U.S. for one of the spring or summer WST exams, take the first available exam in the fall semester.

If you will not be in the U.S. for one of the fall WST exams, take the first available exam in the spring semester. Students who live more than 50 miles away from campus may request to have their WST proctored at an approved testing center in the US. E-mail testing-office@sjsu.edu for more information.

Students must take the WST no later than the term in which they reach 75 earned units (counting no more than 70 transfer units). If they do not pass, they must retake the WST or, if the WST has been failed once, take a 100A course each term until they pass. Students who reach 90 earned units without passing the test must enroll in 100A. (Updated - Presidential Directive 2009-05) (This part of the directive has been temporarily suspended, but students are expected to take and pass the 100W class required for their major no later than earning 100 units.)

WST Scores

The WST has been temporarily suspended. See WST for more details.

Scores will be reported on your MySJSU account. Contact Testing Office for detailed WST score information.

How to prepare for this exam

- WST information sample test questions, and registration materials may be obtained from helpful links can be found at Testing Office.
- The Writing Center offers tutorial help and workshops on various writing topics.

To register

1. Register at least 4 weeks in advance with the Testing Office, dates are available on testing website. Students who require disability-related accommodations must register and contact AEC at least four weeks prior to the posted test date.
2. The non-refundable test fee is $38.00, payable online via credit card, or at the Testing Office (Industrial Studies 228) with cash or check.

Graduate Students and the WST

All graduate students are required to satisfy the Graduation Writing Assessment Requirement (GWAR) through the completion of courses designed for this purpose in order to advance to candidacy and to graduate. The current list of courses can be found online. Some of these courses require the WST for registration. Waivers of the exam are issued for graduate students. The prerequisites described above (ENGL 1A and a second semester composition course) are assumed to have been completed during the undergraduate education. Exceptions to the course requirements can be found on Graduate Admissions and in the section on Graduation Writing Assessment Requirement - Graduate. See your department graduate advisor for more information.

Test Accommodations

Students requiring test accommodations must submit the appropriate documentation to the Accessible Education Center (AEC). To ensure accommodations can be made, an appointment must be scheduled with an AEC counselor at least one month prior to a standardized or placement exam to determine eligibility and prescribe test accommodations. Students unable to meet this deadline should contact the AEC as soon as possible.

Transfer Credit

SJSU has extensive articulation with many colleges and universities in California. Course-to-course articulation agreements identify courses of comparable content for major and minor requirements for undergraduate degree
programs at SJSU. The articulation agreement assures students that the approved transfer courses on the transfer campus will be accepted "in lieu of" the comparable SJSU courses. Information about the courses for each campus that SJSU has agreements with can be found at our comprehensive on-line transfer planning site.

Generally, transfer credit will be posted within the first semester of attendance or sooner in some cases. It is important to submit official transcript(s) from all institutions attended for work completed to ensure that transfer credit is posted.

San José State University accepts electronic transcripts as the preferred method. If possible please request your school to send your transcripts electronically. Electronic transcripts save processing time. If you have questions or need assistance with your transfer credit, please email eval@sjsu.edu.

Credit from Other Colleges and Universities

California Community Colleges will certify to the California State University those courses that are of baccalaureate level and therefore transferable for at least elective credit. Credits earned in accredited community colleges will be evaluated by the Office of Undergraduate Admissions in accordance with Title 5 of the California Code of Regulations, Section 40409: A maximum of 70 semester units earned in a community college may be applied toward the degree, with the following limitations:

a. No upper division credit may be allowed for courses taken at a community college, though content equivalence to upper division courses may be approved so that lower division courses may be articulated for "content credit only."
b. No credit may be allowed for professional courses in education taken at a community college, other than an introduction to education course.

Credits earned at a regionally accredited colleges will be evaluated by the Office of Undergraduate Admissions and advanced standing allowed on the basis of the evidence submitted. Credit toward the fulfillment of graduation requirements will be allowed only insofar as the courses satisfactorily completed meet the standards and the requirements of the basic course pattern of the college.

Credits earned at non-accredited colleges may be accepted as a basis for advanced standing only to the extent that the applicant can demonstrate to the satisfaction of the university that a satisfactory degree of proficiency has been attained in the course in question.

For details on transferring graduate credits from other institutions, see the section on Transfer Credit in the Graduate Program.

Credit for Military Training in Non-Collegiate Settings

SJSU grants undergraduate degree credit for successful completion of non-collegiate instruction, either military or civilian, as recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The number of units allowed is based on the recommendation in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.

Six semester units of credit are awarded for being on active duty for at least one year in the Army, Navy, Air Force, Marines, Coast Guard, or Space Force. Three of these units can be used to complete Area E of the CSU General Education Program, two units will apply to the physical education requirement for SJSU graduation, and one unit is applied toward elective credit.

Documents that should be submitted to assess credit for military education are:

- Joint Service Transcripts (JTS; Army, Navy, Marines, Coast Guard, Space Force)
- Community College of the Air Force transcript (CCAF)
DD-214 (or DD-295 for students still in the military)

SJSU also awards credit for College Level Examination Program (CLEP) subject examinations. The specific credit for the 36 different College Level Exam Program (CLEP) exams can be found under credit by exam.

The Office of Undergraduate Admissions will assist students with questions they may have about transfer credit in order to determine student level and admission eligibility.

Credit for Professional Education

Special Session

Courses numbered 100-399 earn degree and residence credit. While the university may accept this work toward baccalaureate and graduate degrees, it is a matter of individual department evaluation as to whether such work is accepted as applying toward the major or minor. A record of this work is maintained by the Registrar's Office. Transcripts are available once credit is posted.

Continuing Education Units (CEUs)

Courses numbered 400-499 offer Continuing Education Units (CEUs), a nationally-recognized unit of measurement for a variety of noncredit programs applying toward licensure, promotion or career advancement. CEUs are not applicable to a degree nor to residence unit requirements. A record of this work is maintained by the College of Professional and Global Education. Transcripts are available once credit is posted. Contact College of Professional and Global Education.

Credit for Non Collegiate Instruction

San José State University grants undergraduate degree credit for successful completion of non collegiate instruction, either military or civilian, appropriate to the baccalaureate degree, that has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The numbers of units allowed are those recommended in the

- National Guide to Educational Credit for Training Programs.

Credit for Home Study

The university does not offer and rarely accepts credit for correspondence (home study) courses.

Credit for Work Experience
No unit credit is allowed toward bachelors' degrees or master's degrees for teaching or other practical experience. Specific requirements in certain departments may be waived, however, on the basis of previous experience.
### Eligibility Index Table for California High School Graduates or Residents of California

The CSU uses only the ACT score or the SAT mathematics and critical reading scores in its admission eligibility equation. The SAT or ACT writing scores are not currently used by CSU campuses.

GPA Below 2.00 does not qualify for regular admission.
**Advanced Placement (AP) Exams**

SJSU grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Board. Students who present scores of three or better will be granted up to six semester units (nine quarter units) of college credit for each exam (no duplicate credit granted). The number of units granted, course equivalence, and satisfaction of requirements vary.

Requires scores of 3-5 for credit to be granted.

For historical AP credit by exam information, please visit the TES website and type the College Board in the institution search field.

International Baccalaureate (IB)

Students who present the following official higher level IB Exam scores of four or better, taken before college matriculation, will be granted up to six semester units of lower division baccalaureate credit. The course equivalence and satisfaction of requirements vary.

Requires score of 4-7 on higher level exams for any credit to be granted. Course equivalence dependent on major advisor for major, minor, or support credit.

Graduate Admissions

- Graduate Admissions and Program Evaluations (GAPE)
- Graduate Program Applicants
- CSU Application Procedures and Policies for Graduate and Post-Baccalaureate
- Prospective Students
- Requirements for Applicants
- Transcript Submission
- Graduate Orientation

We appreciate your interest in pursuing a graduate career at San José State University. In this section you will find out more about SJSU, the programs we offer, our application process and requirements, and important deadlines and forms related to applying for graduate admission. Some additional external links that might be of interest to prospective students are also listed, including information about housing and other available services.

Graduate Admissions and Program Evaluations (GAPE)

GAPE processes the admission for all graduate and teaching credential programs. For most programs, admissions process is two-step, whereby applicants apply to the university and the department program. Applicants must first pass CSU eligibility and then pass the admission criteria of the department program.

For new students, the GAPE office:

- Receives all university applications, including supplemental materials such as transcripts, residency information, and declaration of finances
- Reviews documents for completeness
- Refers applications that meet minimum CSU eligibility requirements to departmental graduate advisors
- Sends out official letters of acceptance for those applicants accepted by both the university and the academic program.

For continuing students, GAPE evaluators assigned to each degree program review advancement to candidacy and graduation requests for accuracy and alignment with policies and procedures of the university and the academic programs.

Graduate Admissions and Program Evaluations

Graduate Program Applicants

Doctoral, Master's, Credential, and Graduate Certificates

All graduate applicants (new and returning, including disqualified students who have an approved Program of Study agreement with their graduate department) must submit a complete graduate application by applying through the CSU Cal State Apply system at calstate.edu/apply. A $70 nonrefundable fee is required to submit the university application. Applicants for graduate programs are limited to the choice of a single program on each application.
Those wishing to take SJSU classes in any capacity other than through extended education programs (e.g., Open University) must apply for admission to the university and, for most programs, to the department offering the degree in which applicants are interested. After formal admission, the applicant must enroll in classes in the first term of admission to retain active matriculation status.

Former students who have previously attended SJSU and have had a break of two or more consecutive semesters in their enrollment (not counting summer/winter session) must apply for readmission to regain their matriculation status. A former student of SJSU, whether returning after an official leave of absence or continuing immediately after receiving a baccalaureate, master’s, or doctoral degree must also apply for admission. Reapplication by a previously matriculated student also results in loss of catalog rights. Therefore, returning students are subject, at departmental discretion, to current department policies and requirements.

**CSU Application Procedures and Policies**

**For Graduate and Post-Baccalaureate**

All graduate applicants and post-baccalaureate (e.g., doctoral applicants, master’s degree applicants, those seeking educational credentials or certificates, where permitted, holders of baccalaureate degrees interested in taking courses for personal or professional growth students, students who have stopped out for more than one semester, students who have been disqualified) must file a complete graduate application as described in the graduate admission materials on the Cal State Apply website.

Applicants seeking a second bachelor’s degree must submit the undergraduate application for admission. Applicants who completed undergraduate degree requirements in the preceding term are also required to complete and submit an application and the $70 nonrefundable application fee. To be assured of initial consideration by more than one campus, it is necessary to submit separate applications (including fees) to each. All CSU applications must be submitted online via the Cal State Apply website. An acknowledgment will be sent to the applicant when the online application has been submitted.

**Prospective Students**

Students intending to pursue graduate work at San José State University may obtain pertinent information from a variety of sources. Careful reading of several publications will save time and prevent many difficulties that often arise due to lack of information. Publications recommended are:

- SJSU Academic Catalog - the listing of graduate courses offered, degree program requirements, and policies, procedures, and regulations by which the academic programs are governed;
- Office of Graduate Admissions & Program Evaluations (GAPE);
- College of Graduate Studies; and,
- various departmental publications available from department offices and advisors.

The prospective student is encouraged to consult an academic advisor for detailed information about his or her specific program of interest. Persons assigned responsibility for advising students in specific graduate programs are listed in various sections of the SJSU catalog. In addition, the Graduate Admissions website provides detailed information about university admission procedures and requirements.

**Requirements for Applicants**

Graduate and post-baccalaureate applicants may apply for a degree objective, a credential or an advanced certificate objective. Depending on the objective, the CSU will consider an application for graduate admission as follows:
General Requirements - The minimum requirements for admission to graduate and post-baccalaureate studies at a CSU campus are in accordance with university regulations as well as Title 5, Chapter 1, Subchapter 3 of the California Code of Regulations.

Specifically, a student shall at the time of enrollment:
1. Have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed equivalent academic preparation as determined by appropriate campus authorities;
2. Be in good academic standing at the last college or university attended;
3. Have earned a grade point average of at least 2.5 on the last degree completed by the candidate or have attained a grade point average of at least 2.5 (A=4.0 grading scale) in the last 60 semester (or 90 quarter) units attempted; and
4. Satisfactorily meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as appropriate campus authorities may prescribe. In unusual circumstances, a campus may make exceptions to these criteria through a formal request for special action.

Students who meet the minimum requirements for graduate and post-baccalaureate studies may be considered for admission in one of the four following categories:

- **Graduate Classified** - To pursue a graduate degree, applicants are required to fulfill all of the professional, personal, scholastic and other standards, including qualifying examinations, prescribed by the campus; or
- **Graduate Conditionally Classified** - Applicants may be admitted to a graduate degree program in this category if, in the opinion of appropriate campus authority, deficiencies may be remedied by additional preparation; or
- **Post-Baccalaureate Classified**, e.g. admission to an education credential program - Persons wishing to enroll in a credential or certificate program will be required to satisfy additional professional, personal, scholastic and other standards, including qualifying examinations, prescribed by the campus; or
- **Post-Baccalaureate Unclassified** - To enroll in undergraduate courses as preparation for advanced degree programs or to enroll in graduate courses for professional or personal growth, applicants must be admitted as post-baccalaureate unclassified students. By meeting the general requirements, applicants are eligible for admission as post-baccalaureate unclassified students. Admission in this status does not constitute admission to, or assurance of consideration for admission to, any graduate degree or credential program. (Most CSU campuses do not offer admission to unclassified post-baccalaureate students.)

These and other CSU admission requirements are subject to change as policies are revised and laws are amended. The CSU website and the admission portal are good sources for the most up-to-date information.

### Requirements for International Students

The CSU must assess the academic preparation of international students. The designation, "international students" includes those who are seeking to hold a student visa, hold U.S. temporary visas as students (F-1), exchange visitors (J-1), or are in other nonimmigrant classifications.

The CSU uses specific requirements and application submission dates in the admission of international (F-1/J-1 seeking) students. Verification of English proficiency (see the section English Language Proficiency Requirement), financial resources, and academic performance are all important considerations for admission. Academic records from foreign institutions must be on file at least by April 20 for Fall and by October 20 for Spring for the first term. World Education Services (WES) are used to collect academic records from international institutions. WES evaluations must be on file by the stated deadlines for the admission term. Although WES evaluations are used for the authentication of academic documents, the evaluation of credentials and GPA will be conducted by the evaluation team at the Office of Graduate Admissions & Program Evaluations (GAPE) office.

### Test Requirements
New graduate students enrolling at SJSU who matriculate with graduate degree objectives may be required to take one or more parts of the Graduate Record Examination (GRE). Students with graduate objectives in Business (MBA, MSTax, MSAcct, MSTmMgt) are required to take the Graduate Management Admission Test (GMAT). Some departments may require a locally developed qualification examination in their subject matter areas. Test Requirements can be viewed online and on graduate program web pages.

Applications and information about dates of administration for the GRE and GMAT are available in the Testing Office.

**English Language Proficiency Requirement**

All graduate and post-baccalaureate applicants, regardless of citizenship, whose native language is not English and whose preparatory education was principally in a language other than English must demonstrate competence in English. SJSU does not accept English-medium of instruction as a substitute for an English-language proficiency exam such as TOEFL, IELTS, the Pearson’s Test of English, or other English language proficiency tests. Letters from applicants or institutions will not be accepted. Note that scores lower than the minimum will not be accepted and waivers will not be given for lower scores. Also note that a few of our graduate programs do require a higher minimum score than what is posted by the university on the Test Requirements website.

**Transcript Submission**

Transcripts submitted for admission purposes must be official and sent directly from the originating school or college to Graduate Admissions & Program Evaluations (GAPE), San José State University, One Washington Square, San José, CA 95192-0017. International applicants must request WES evaluations to be sent electronically and directly to San José State University. Unofficial transcripts submitted via the student are not acceptable for this purpose. Records submitted become the property of the university and will not be released to the student. If a student does not fully complete an application and enroll, the records will be kept on file for approximately one year and then destroyed.

Graduate applicants must submit to the GAPE office one official transcript or WES evaluation from each accredited institution attended. Failure to report to the university on the admissions application all previous college-level enrollment and to provide transcripts certifying that enrollment are regarded as serious infractions of university policy and may be punishable by permanent separation from the university. SJSU transcripts for prior coursework do not need to be requested to be sent to the Graduate Admissions office. Some departments may also require applicants to file additional transcripts with their graduate advisor. Program requirements are located on departmental websites, which can be accessed by clicking on the program name at Admissions Requirements for Degree Programs website.

**Graduate Orientation**

The College of Graduate Studies presents an all-day program designed to inform incoming graduate students of university-wide policies and resources beyond those of individual departments and colleges and to integrate students
into the SJSU campus community. Attendance is not mandatory but is highly encouraged. New F-1 international students are required to report to the Office of International Student and Scholars Services (ISSS). Students must check-in with ISSS in order to meet U.S. government requirements.
Graduate Studies Requirements

To Qualify for a Graduate Degree

Students must fulfill the specific program requirements as outlined in the graduate program catalog pages. All candidates for graduation must satisfy the master’s requirements or doctoral requirements as described in the linked catalog sections.

College of Graduate Studies

Office: Administration Building 145
Telephone: 408-924-2484
Email: graduate-studies@sjsu.edu
Website: www.sjsu.edu/cgs

Leadership:
Marc d’Alarcao, Dean
Jeffrey Honda, Associate Dean of Graduate Programs
Amy Leisenring, Associate Dean of Inclusive Student Success

The College of Graduate Studies assists graduate programs and their faculty and students to succeed. The College of Graduate Studies supports program development, advising faculty in transforming existing degree and certificate programs or building new ones at the post-baccalaureate, master’s, or doctoral level. The College of Graduate Studies is also a resource for students seeking scholarships or who are facing special challenges such as probation or disqualification. The college helps maintain academic integrity through the fair and consistent administration of various graduate policies, including those issued by the Chancellor and by the university’s Academic Senate. Its Graduate Admissions and Program Evaluations (GAPE) division supports students as they enter and work their way through various degree requirements. The College of Graduate Studies interprets and administers the policies and procedures outlined in the sections that follow.

The Interdisciplinary Studies Major for either a Master of Arts or a Master of Science degree provides an alternative for individuals whose desired study plans do not fit the degree offerings of any single existing degree program on campus. In most cases, a thesis is required for this degree. Applicants or graduate students in other majors who wish to undertake the Interdisciplinary Studies major should consult the College of Graduate Studies website at Interdisciplinary Studies website to obtain the Guide for Interdisciplinary Studies Majors. The guide contains the
Proposal for Interdisciplinary Studies Major, which must be completed to obtain initial approval by the Associate Dean of Graduate Studies to be able to enter the program.

- Interdisciplinary Studies, MA
- Interdisciplinary Studies, MS

**Degrees**

**Lucas College and Graduate School of Business**

The Lucas Graduate School of Business in the Lucas College and Graduate School of Business offers the following degree programs:

- Accountancy, MS
- Business Administration, MBA
  - Early Career
  - For Professionals
- Taxation, MS
- Transportation Management, MS

**Connie L. Lurie College of Education**

The Connie L. Lurie College of Education offers the following degree programs:

- Child and Adolescent Development, MA
- Counseling and Guidance, MA
- Education, Curriculum and Instruction (LACES) Concentration, MA
- Educational Leadership, Concentration in Emancipatory School Leadership, MA
- Educational Leadership, EdD
- Special Education, MA
- Speech Language Pathology, MS
- Teaching, MAT

**Charles W. Davidson College of Engineering**

The Charles W. Davidson College of Engineering offers the following degree programs:

- Artificial Intelligence, MS
- Aerospace Engineering, MS
- Biomedical Engineering, MS (General)
- Biomedical Engineering, Biomedical Devices Concentration, MS
- Chemical Engineering, MS
- Civil Engineering, MS
- Computer Engineering, MS
- Electrical Engineering, MS
- Engineering Management, MS
- Engineering, MS
- Human Factors/Ergonomics, MS
Industrial and Systems Engineering, MS
Materials Engineering, MS
Mechanical Engineering, MS
Quality Assurance, MS
Software Engineering, MS

College of Health and Human Sciences

The College of Health and Human Sciences offers the following degree programs:

- Audiology, AUD
- Kinesiology, MA (General)
- Kinesiology, Exercise Physiology Concentration, MA
- Kinesiology, Sport Management Concentration, MA
- Kinesiology, Sport Studies Concentration, MA
- Nursing, Family Nurse Practitioner Concentration, MS
- Nursing, MS
- Nursing Practice, DNP
- Nutritional Science, MS
- Occupational Therapy, MS
- Public Health, MPH
- Social Work, MSW

College of Humanities and the Arts

The College of Humanities and the Arts offers the following degree programs:

- Art, Art History and Visual Culture Concentration, MA
- Art, Digital Media Art Concentration, MFA
- Art, Photography Concentration, MFA
- Art, Pictorial Art Concentration, MFA
- Art, Spatial Art Concentration, MFA
- Creative Writing, MFA
- English, MA
- Linguistics, MA
- Mass Communications, MS
- Music Education, MA
- Music, MM
- Philosophy, MA
- Spanish, MA
- Teaching English to Speakers of Other Languages (TESOL), MA

College of Professional and Global Education

The College of Professional and Global Education offers the following degree programs:

- Archives and Records Administration, MARA
• Data Analytics, MS
• Informatics, MS
• Library and Information Science, MLIS

**College of Science**

The College of Science offers the following degree programs:

• Bioinformatics, MS
• Biological Sciences, MA
• Biological Sciences, Ecology and Evolution Concentration, MS
• Biological Sciences, Molecular Biology and Microbiology Concentration, MS
• Biological Sciences, Physiology Concentration, MS
• Biotechnology, MBT
• Chemistry, MA
• Chemistry, MS
• Computer Science, MS
• Data Science, MS
• Geology, MS
• Marine Science, MS
• Mathematics, MA (General)
• Mathematics, MS
• Medical Product Development Management, MS
• Meteorology, MS
• Physics, MS
• Science Education, MS
• Statistics, MS

**College of Social Sciences**

The College of Social Sciences offers the following degree programs:

• Applied Anthropology, MA
• Chicana and Chicano Studies, MA
• Clinical Mental Health Counseling, MS
• Communication Studies, MA
• Criminology, Global Criminology Concentration, MS
• Economics, MA
• Economics, Applied Economics Concentration, MA
• Environmental Studies, MS
• Geography, MA
• History, MA
• Justice Studies, MS
• Psychology, Industrial/Organizational Psychology Concentration, MS
• Psychology, Research and Experimental Psychology Concentration, MA
• Public Administration, MPA
• Sociology, MA (Not Accepting Students)
• Urban Planning, MUP
Certificates

- Accounting Fundamentals Certificate
- Advanced Accounting Topics Certificate
- Advanced Global Leadership Certificate
- Advanced Taxation Certificate
- Affordable Housing and Community Development Finance Certificate
- Applications of Technology in Planning Certificate
- Business Analytics Certificate
- Clinical Lab Scientist Certificate
- Collaborative Response to Family Violence Certificate
- Community Design and Development Certificate
- Computational Linguistics Certificate
- Cybersecurity Engineering Certificate
- Cybersecurity Foundations Certificate
- Cybersecurity: Core Technologies Certificate
- Environmental Planning Certificate
- Fundamentals of Cybersecurity Certificate
- Global Citizenship Certificate
- Graduate TESOL Certificate
- High Technology Taxation Certificate
- High-Speed and Intercity Rail Management Certificate
- International Taxation Certificate
- Mindfulness-Based Health and Human Services Certificate
- Nursing Specialty Advanced Certificate
- Professional and Technical Writing Certificate
- Real Estate Development Certificate
- Secure Software Engineering Certificate
- Secure Test Engineering Certificate
- Six Sigma Black Belt Certificate
- Six Sigma Green Belt Certificate
- Strategic Management of Digital Assets and Services Certificate
- Tax Practice Certificate
- Theory, Knowledge and Practice about Autism Spectrum Disorders Certificate
- Transportation Safety, Security, and Emergency Management (TSSEM) Certificate

Credentials

- California Library Media Teacher Services Credential
- Education Specialist Preliminary Teaching Credential: Early Childhood Special Education Credential
- Education Specialist: Mild/Moderate Disabilities Credential
- Education Specialist: Moderate/Severe Disabilities Credential
- Multiple Subject Credential
- Pupil Personnel Services (PM-PPSC) Post-Master's Credential
- Pupil Personnel Services (PPSC) Credential
- Single Subject Credential
• Teacher Librarian Credential

**Added Authorizations**

• Adapted Physical Education Added Authorization
• Early Childhood Special Education Added Authorization
Graduate Policies & Procedures

Information about course credit and number, including grades, registration and attendance is found in the Policies and Procedures section.

Change of Graduate Program

Official changes in a student graduate program are to be initiated through GAPE by submitting a Change of Graduate Program Petition. Submission of this request does not guarantee approval, as the new department must review and approve the student as a candidate for their program. The student should be aware of any additional admission requirements by the prospective program. The department must follow-up with the student request by approving the Change of Program request and returning its decision to the GAPE office. The GAPE office will then update the student's status to reflect the new program change.

If a student obtains permission to change their program or concentration after advancing to candidacy and the second program has different requirements than the first, then a new candidacy form (Petition for Advancement to Graduate Candidacy) with the signature of the new graduate advisor must be filed. Graded courses listed from the previous program candidacy form can be eliminated on the second candidacy form if not part of the new curriculum.

Switching culminating experience from Plan A (thesis) or C (creative project) to Plan B (project or comprehensive exams) or vice versa, do not require a new candidacy form. However, for Plan A or C students converting to a Plan B, any 299 units, project course units, or exam preparation course units in which credit was given must be retroactively dropped or changed to NC (no credit) grade. Furthermore, project and exam preparation courses as well as additional content courses might then be required, depending on the program. These changes all require that GAPE be informed by means of filing the Request for a Core Course Substitution in Master's Degree Program for each course change. Degree requirements for the new plan must be satisfied in full. Therefore, retroactively adding a 298 (project) class, for example, in place of a 299 (thesis) class will be permitted only if all the requirements of the project have been met. The requirements for projects include a written report in every case.

Change in Classification Status

Notification of a change from conditionally classified to classified status within the same graduate program before advancement to candidacy is made to the GAPE office by the graduate advisor by means of the Change in Classification in Master's Program form. However, an advisor signature on the candidacy form indicates that the advisor has checked that all conditions have been fulfilled, allowing the conditional status to be lifted and establishing the classified status without the need for the Change in Classification in Master's Program form. Graduate students must be in classified status in the graduate program to advance to candidacy. Once a student has advanced to candidacy and progressed to classified status, any conditions discovered still unfulfilled are sacrificed and can no longer be required.

Enrollment for Culminating Experience - 1290R

or Continuous Enrollment

Continuous enrollment is required of all graduate students between completion of regular courses and satisfactory completion of the culminating experience. Graduate students who receive an RP (report in progress) grade in a thesis (299), project (often 298), dissertation (599), doctoral project (often 598), or other culminating experience course, as well as those who have completed course requirements but not the program comprehensive examination, may maintain enrollment by registering for other courses or by registering for one unit of University Studies (UNVS) 1290R or departmental 1290R (Thesis/Project Supervision) through Special Sessions for each Fall and Spring semester until
completion. Effective with the Fall 2018 semester, graduate students preparing for comprehensive exams or completing a courses-only program culminating experience are included in this policy.

Graduate students who have completed their course work but are still working on their culminating experience (thesis, project, or comprehensive exam) no longer may stop out for even one semester, and they cannot be granted leaves of absence for any reasons other than military leave and severe medical issues.

Departments may require repeated enrollment in project, thesis, or comprehensive exam-preparation classes each semester until completion, thereby precluding the need for the 1290R course. There are no formal class meetings for this course. Failure to register for this $280 1 unit course will result in a graduation hold until the unit is retroactively added.

Registration for 1290R

Registration for the 1-unit UNVS 1290R or departmental 1290R course must be delayed to give students the opportunity to enroll in other courses. Students who have an RP grade in a culminating experience course, a graduation date in the current or future semester, and no enrollment in other courses will be notified after the add period by the Registrar's Office and given appointments for the UNVS 1290R or departmental 1290R. Graduate advisors of courses-only programs and those with culminating experiences not attached to courses with the RP grade option will need to generate appointments by submitting student names to Graduate Studies. Students with appointments may then register online through MySJSU. No permission or add code is needed. Students will have until the last day of course instruction to register for the course. To maintain their immigration status, international students are encouraged to add the course as soon as their appointments are available. Federal regulations require international students to be fully enrolled in classes within the first 30 days of the start of the semester. Those international students who fail to add 1290R within the first 30 days of the start of the semester will be out of compliance. Student F-1 status will be terminated which will result in the student's immediate U.S. departure. In each subsequent fall and spring semester, students still completing their culminating experience will have to register for this course and will be precluded from registering for any other. The RP grade in the project or thesis course remains on the official record until a culminating memo is submitted by the graduate advisor to the Office of Graduate Admissions & Program Evaluations (GAPE), the course instructor in which the RP was received has petitioned for a grade change, and the student has submitted the online graduation application through their MySJSU account.

The Associate Dean of Graduate Studies is officially the instructor of record for all 1290R courses and is responsible for assigning the grades as well as establishing the courses with the College of Professional and Global Education each semester. Departments should not attempt to add 1290R courses on their own. Students may retroactively add a 1290R course by completing an online Retroactive Request for 1290R form, available at www.sjsu.edu/registrar/forms and paying associated tuition and fees.

More details regarding the continuous enrollment policy may be found in University Policy S17-5. Details on the RP (Report in Progress) administrative grading symbol may be found in University Policy S09-7.

For more information on required enrollment for culminating graduate students and Graduate 1290R Enrollment, please visit the Graduate Studies website.

Graduation Writing Assessment Requirement (GWAR)

The CSU Graduation Writing Assessment Requirement (GWAR) states that all students must demonstrate competency in writing skills as a requirement for graduation. Information on currently available ways to meet this graduation requirement may be obtained from the Testing Office or Academic Advising and Retention Services (AARS).

Prior to Fall 2020 Semester
Graduate students enrolled in their program prior **prior to the Fall 2020 semester** may meet their Graduation Writing Assessment Requirement (GWAR) requirement in one of four ways following rescinded University Policy S94-7:

- Satisfactory completion of a baccalaureate degree at a CSU campus;
- Satisfactory completion of a GWAR course. Each graduate program has a designated GWAR course embedded within the degree requirements. Students should refer to their program’s degree requirements - see a list of graduate programs on the College of Graduate Studies section of the catalog;
- Approval by the Associate Dean of Graduate Studies of a well-written, professional (peer-reviewed) publication, graduate thesis or dissertation in which the student was the sole author;
- Satisfactory completion of a discipline-specific upper-division writing course at another university judged by the Associate Dean of Graduate Studies to be equivalent in content and writing requirements to the SJSU 100W. To satisfy the requirement under this category, students are required to submit to their department graduate advisors a transcript (unofficial acceptable) showing completion of the substituting course and the grade received (a "B" or better is required); the syllabus of the substituting course; and original, single-authored writing samples from the course, including especially a large term paper from the course with instructor feedback visible. If the graduate advisor approves of the substitution for an SJSU GWAR course, he or she would then petition the Associate Dean of Graduate Studies on behalf of the student. Students may not petition College of Graduate Studies directly.

**Fall 2020 Semester or Later**

Graduate students enrolling in the **Fall 2020 semester or later** must follow University Policy S19-3 which requires that all graduate students demonstrate competency in written English for advancement to candidacy within a master’s program. Graduate students may satisfy the Graduation Writing Assessment Requirement (GWAR) in one of three ways:

- Satisfactory completion of a GWAR course. Each graduate program has a designated GWAR course embedded within the degree requirements. Students should refer to their program’s degree requirements - see a list of graduate programs on the College of Graduate Studies section of the catalog;
- Approval by the College of Graduate Studies of a professional publication written in English for which the candidate was a primary author.
- Completion of a master's or doctoral program with a substantive writing requirement at an accredited university in which the primary language of instruction is English unless a department requires additional documentation of writing proficiency.

Candidates should be aware that each department may establish its own criteria within these policy guidelines, and candidates must abide by the department decision. By policy, each program has identified a GWAR certified course which can be found here. Thus, even if a student has satisfied one of the criteria above, the department must approve the waiver and can require that its GWAR-satisfying course still be taken. Waiving the program GWAR requirement will require the addition of an elective selected in consultation with the graduate advisor. Graduate courses cannot be taken for credit by examination.

**Open University & Special Session**

Also see the Alternative Enrollment Programs section of the catalog.

**Open University**

Open University, often known elsewhere as extended, is set up primarily as an option for community members to take college courses. It is attended by non-matriculated, post-baccalaureate students seeking to gain future admission to a SJSU graduate program or who wish to take classes to prepare for a professional degree program, such as medicine. It can also be part of the program-of-study mechanism by which scholastically disqualified SJSU graduate students
Non-matriculated students who enroll only for Open University courses are reminded that they must apply for admission to the university and graduate program and complete other details of matriculation if they wish to obtain a degree or credential from SJSU. Enrollment in Open University courses is governed by specific policies, as follows:

- Fees differ from those in regular and special sessions.
- Open University enrollment in a given graduate class is permitted only with instructor and department chair or school director approval and only after reasonable efforts are made to provide full enrollment opportunities to regularly matriculated students.
- Matriculated students may not take Open University courses. This restriction also applies, without special permission of the Associate Dean of Graduate Studies, to formerly matriculated students who have gone out of matriculation by stopping out or being disqualified.
- Letter-graded or CR/NR courses may be taken through Open University with the exception of supervisory courses, such as independent study courses and project or thesis courses.
- Either regular (state-support) or special (self-support) classes may be taken through Open University if all other requirements are met.
- Open University course enrollment in 200-level courses are only open to holders of baccalaureate degrees who meet course prerequisite requirements. Neither disqualified students nor those denied admission into a graduate program for reasons other than limitations imposed by enrollment caps are permitted to enroll in 200-level courses.
- Open University courses do not qualify for residence credit toward a master's degree, as specified by Title 5.
- Upper-division (100-level) and graduate (200-level) Open University units up to 30% of the degree program total and taken prior to matriculation may be applied to a master's degree program with the consent of the program's graduate advisor. Note that these units are considered to be transfer units into the master's program, and the allowable total of all transfer units is 30%, with the exception of transfers from credential programs into master's programs (40% of degree unit total allowed, i.e., 12 units in a 30 unit master's program). Upper-division courses taken as part of a program of study for reinstatement after disqualification may be applied to the graduate program if they were already present on the student's candidacy form or were otherwise approved by the graduate advisor.

All upper-division (100 level) and graduate-level (200 level) courses, including SJSU Open University courses taken as a post-baccalaureate, will be used in the calculation of SJSU cumulative GPA. Those taken in the post-baccalaureate career (before matriculation and enrollment in the semester admitted) are also counted in the candidacy GPA if transferred into the graduate program. Because the university cannot determine whether the courses are part of the degree program until they appear on the candidacy form, it is not until advancement to candidacy that the grade points are transferred. Thus, a student may conceivably be disqualified before advancing to candidacy even if courses to be transferred would have raised the GPA to a passing level.

For further information concerning special session or Open University offerings and policies, contact at the College of Professional and Global Education.

**Special Session**

Special session is often confused with Open University. Although both are administered by the College of Professional and Global Education, special session programs and open university course offerings are different means for registering into graduate courses.

Special session classes are offered via different delivery modes or by schedules different from the regular session term. Matriculation is required for special sessions courses. Credit earned in 100-level, 200-level, or 300-level special session courses at SJSU is entered on the matriculated graduate student's record as graduate credit, provided the student holds an acceptable baccalaureate degree from an accredited institution at the time of enrollment in the courses. Courses taken through special session receive residence credit.
For further information concerning special sessions and policies, contact at the College of Professional and Global Education.

**Facilitation of Graduation**

Pursuant to Title 5, Section 40411, and Presidential Directive (PD) 2009-05, undergraduate or graduate students are precluded from enrolling in any additional state-supported courses when that student has already met all necessary requirements for the degree for which that student is matriculated. Moreover, students who have met all requirements for graduation prior to any semester in which they are enrolled will be permitted to drop all courses for which they are registered, with little or no penalty, and to graduate at the next available date. Students who have earned more than enough units to graduate but have some remaining requirements to complete will be advised and precluded from registering in any courses other than those required for a timely graduation.

**Repeat Policy**

University Policy F08-2 on course repetition stipulates that graduate students may repeat a maximum of 9 units in their graduate careers, regardless of the number of units required in a degree program. This total does not include classes in the catalog that are repeatable for credit. A graduate student may repeat any 100-level or 200-level course in which a grade below a "B," including an "NC," "WU" or "IC," was received in the first attempt. The student's academic record will indicate the course as repeated and the grade earned. Units attempted and grade points earned for both the original and repeated course will be calculated for both the program and cumulative GPA. Additional units gained by repeating a given course will not contribute to the degree total. Graduate students and 200-level courses are not eligible for "grade forgiveness."

Courses on the approved candidacy form in which a grade of any kind has been earned cannot be removed from the candidacy form; the grades will be averaged with other courses even when compensated for by additional coursework. Courses listed on the candidacy form in which grades of "NC," "I," "IC," "RP," "RD," or letter grades below "C" have been recorded will prevent graduation until completed, repeated, or compensated for in another way. This is also true of courses in programs that have special grade requirements beyond those of the university standard, e.g., requirement of "B" grades in all core classes.

SJSU (only) courses can be repeated when they have gone beyond the prescribed time period for completion of master's or doctoral degree requirements, which is seven or five years, respectively. Teaching credential courses cannot be repeated if the 7-year limit is exceeded.

See Repetition of Courses for more information about registering for a class you are repeating.

**Time Limits**

For masters students, Section 40510(b)(2), California Code of Regulations, Title 5, Education, requires that courses in completed master's degree programs be no older than seven years at the time of the degree award. The seven-year period is counted from the end of the semester in which the course was completed. Thus, no more than seven years may elapse between the time the first course in a graduate program is completed and the time the last course in the program is completed. Candidates have the following options to revalidate a course:

- Repeat the outdated course with a passing grade but without credit. The new grades will be factored into the GPA for graduation, and all grade requirements, such as the 3.0 minimum GPA, will still be in effect.
- Under some circumstances, another course (one already completed or to be taken) may be used to substitute for an outdated course. Permission for the substitution must be obtained from both the program's graduate advisor and the Associate Dean of Graduate Studies. This practice is highly discouraged, as it...
violates the rule that completed courses may not be removed from the candidacy form. If the original course is available for enrollment, it is unlikely that permission will be granted.

- Revalidate the outdated SJSU course by examination. Revalidation of courses is governed by University Policy S17-7. A student may revalidate a maximum of 9 units of a 30-unit master's degree program, or 12 units for a program with more than 30 units. Only courses in which a student has earned a "B" or better may be revalidated. Permission to revalidate from Graduate Studies or from GAPE is not required; examination can proceed and the results communicated to the program evaluator at GAPE by the form entitled Request for Revalidation of Course that Has Exceeded the Seven-Year Time Limit - see the GAPE Forms. Course work completed at other institutions is not eligible for revalidation, but transfer courses taken at SJSU may be revalidated. Courses designated CR/NC, including supervisory courses such as project and thesis courses, seminar courses, independent study courses, and internship courses cannot be revalidated.

Veterans who are candidates for graduate degrees and who have had their graduate programs interrupted by military service may petition through the Associate Dean of Graduate Studies to extend the time limit imposed by the above regulations by the amount of time spent in military service. Nevertheless, students in this situation should apply for formal leaves of absence through the University Registrar, thereby making it unnecessary to contact the College of Graduate Studies.

For doctoral students, Title 5, language is consistent that all degree requirements must be completed in five years. The Associate Dean of Graduate Studies should be petitioned to extend the time for completion of the requirements if 1) the extension is warranted by individual circumstances and 2) the student demonstrates current knowledge of research and practice in their field of study. Doctoral candidates are encouraged to check with both their graduate advisor and Associate Dean of the College of Graduate Studies for more information specific to their program.

Transfer Credit

Students who have completed coursework at other regionally accredited colleges or universities may be eligible to apply credit toward master's degree requirements at SJSU. To be transferable, the coursework must have been taken at a regionally accredited U.S. university, or accredited international institution, whether through regular session, special session, online programs, or extension. In the case of extension or online courses, the graduate advisor must petition the Associate Dean for the College of Graduate Studies on behalf of the student and provide documentation that the courses have been approved for degree credit at that institution. To be transferable, courses must not have been in professional development courses. They must have been at the upper-division or graduate level and must have been taken within seven years from the time of posting of the grade for the course to the date of conferral of the graduate degree from SJSU.

As stipulated in University Policy S13-8, not less than 70% of course work required for the master's degree must be completed in residence. Therefore, for example, a maximum of 9 units can be transferred into a 30-unit graduate program. This total includes all transferred classes, including those from Open University and the SJSU undergraduate career. Transfer work from any source may be applied toward the degree program only if it is approved by the graduate advisor. Those taken at SJSU, whether through Open University or as a matriculated undergraduate, may be revalidated in accordance with the rules on revalidation if surpassing the 7-year limit on course viability. Those taken at any institution other than SJSU cannot be revalidated.

No courses may be transferred if taken during a graduate (master's, PhD, or other) degree program in which the degree was awarded, whether used to satisfy requirements for those degrees or not. The only exception to this rule is that letter-graded courses from previous master's degree programs taken at SJSU may be included up to a total of one third of the current degree total (i.e., 10 units in a 30-unit program) if approved by the graduate advisor. If a course was taken as part of a prior SJSU graduate degree program that was not finished (thus there was no award of degree), then the courses qualify for transfer credit.

For university approval of transfer units up to the 30% limit, the courses are entered on the Petition for Advancement to Graduate Candidacy in the Transfer Course section. The graduate advisor has full authority to allow or disallow
transfer credit for those courses that meet the university requirements of eligibility. The signature of the graduate advisor on the candidacy form is sufficient to indicate departmental approval of the courses without additional forms. If the courses meet all of the requirements stipulated above, the university will accept the courses for advancement to candidacy and for graduation requirements. Credit is awarded for transferred courses of all categories, but grade points are not included in the cumulative GPA for transferred courses other than those from the SJSU Open University program; therefore, the cumulative grade-point-average (GPA) calculation will not include those units nor will the GPA calculation for advancement to candidacy or graduation. Any approved transferred course must have an earned grade of "C" or better.

Official transcripts for all courses transferred from another university, if taken prior to application to the SJSU graduate school, must have been submitted directly to the GAPE office during your initial application to SJSU. Failure to have provided those transcripts precludes the later transfer of the courses. If the courses were taken or grades for them were posted after the application process, then the transferred courses must subsequently be verified by official transcripts sent to GAPE from that university at the time of transfer; failure to provide transcripts will result in a denial of advancement to candidacy and/or award of degree.

Research Policies and Procedures

Institutional Review Board

Human Subjects Research

The IRB reviews all research protocols involving human subjects. Students and faculty are required to submit a research protocol for IRB review and approval before beginning any data collection from participants if their work entails research involving human subjects. Instructions, forms, and templates can be found at www.sjsu.edu/research/irb.

Office of Research

IRB Coordinator
408-924-2479
www.sjsu.edu/research

Animal Care and Use Committee

If the dissertation includes research activities involving vertebrate animals or select invertebrate species, the care and use of animals or their tissues must be approved by the SJSU Institutional Animal Care and Use Committee (IACUC). Information concerning IACUC requirements and procedures is available from the IACUC Coordinator and online at http://www.sjsu.edu/research/iacuc/index.html. Animal research approval from SJSU must be obtained prior to data collection even if the work is done in conjunction with another institution from which approval has been granted. SJSU prohibits retroactive approval of animal research that is considered ongoing or completed. The official letter of protocol review, obtained with IACUC approval, must be submitted along with the dissertation whether as an appendix or as a separate document. Failure to submit the necessary documentation can result in a delay or denial of the dissertation by the College of Graduate Studies.

The Institutional Biosafety Committee

The Institutional Biosafety Committee (IBC) reviews research activities involving hazardous biological agents, recombinant or synthetic nucleic acid molecules, materials derived from humans and nonhuman primates, toxins, select agents, or agents of dual use research concern. The IBC provides oversight for biological safety and ensures compliance pursuant to the NIH Guidelines and University policies. University faculty and students intending to
perform research under the above areas must submit a Biological Use Authorization (BUA) application for IBC review and approval before initiating the research. See the BUA page for more details on submitting BUA for approval.

**Copyright Permission**

If a student copies a figure, table or a significant section of someone else's work and it is believed that the use of these copyrighted materials is beyond that permitted by "fair use," the student will be required to obtain separate written permission letters from the publishers or authors of the works cited. It must be indicated in the text or figure caption within the dissertation that the material is "copied with permission." The student should plan well so that permission letters will be received in time. If letters of permission are not submitted with the final copies of the dissertation, the College of Graduate Studies will not approve the dissertation, and University Microfilms International (UMI) will not microfilm the work.

The permission letters should be included with the initial submission of the thesis as well as when the thesis is submitted for publication. For questions about the process, including whether permission is required for a particular insertion, contact the thesis coordinator at the College of Graduate Studies.

**Latin Honors**

**Not Available for Graduate Students**

Latin honors are reserved at SJSU, for those earning baccalaureate degrees per University Policy, S17-13. Because graduate students are required to maintain a minimum cumulative GPA of 3.0, all finishing graduate students would receive honors. Thus they are not considered for receipt of Latin honors. Individual programs are free to award other forms of recognition to outstanding graduate students. For more information, see University Honors at Graduation.

**Academic Standing**

Probation | Disqualification | Discontinuation | Appeal | Reinstatement | Readmission

**Probation**

Students are strongly advised to review University Policy S16-16 for more information.

**Academic Probation**

Graduate students enrolled in a degree, credential or advanced certificate program are subject to academic probation if their SJSU cumulative GPA falls below 3.0 (grade of "B" on a 4.0-point scale) in all units attempted subsequent to matriculation in either conditionally classified or classified status. Lower division courses (numbered 01-99) are listed on the transcript but cannot be used for graduate degree credit nor are they included in the GPA computation. Courses taken through SJSU Open University before matriculation will also be listed on the transcript and may, with advisor consent on the candidacy form, be used toward the graduate degree if adhering to the transfer course limitation and residency requirement. Such courses will be figured into the GPA for advancement to candidacy and for the candidacy GPA computation at the completion of the program. All SJSU Open University course grades will be included in the SJSU Cumulative GPA, which is used to determine academic standing for degree conferral. However, courses transferred into the graduate program from other institutions or from the SJSU undergraduate career will not count in the cumulative GPA computation.
At the completion of the degree program, should the SJSU cumulative GPA fall below 3.0 at the same time that the candidacy GPA is above 3.0, the student's academic standing will reflect the former only. In this unusual circumstance, the student or program must make the Associate Dean of Graduate Studies aware of this discrepancy.

Each Winter, Spring, Summer and Fall term while on probation, the student must achieve a 3.0 GPA in the semester's work to avoid academic disqualification. To avoid disqualification, at least one graded course must be taken each Spring and Fall semester, while on probation. The student remains on continued probation as long as each individual term's work is equal to or above the 3.0 threshold but the overall GPA is still below 3.0. Probation is cleared when the SJSU cumulative GPA rises to 3.0 or better in any subsequent Winter, Spring, Summer or Fall term.

Graduate students are eligible to repeat courses with letter grades lower than "B" or with grades of "NC," "WU," or "IC" up to a total of 9 units, no matter how many units there are in the individual degree program. Exceptions may be made by the Associate Dean of Graduate Studies in this course repetition limit with respect to high unit clinical or field courses, as long as the exceptions do not violate probation and disqualification policies established in the major (see sections on Administrative Academic below and Disqualification (Administrative)). Repeated and elective courses may not be taken through Open University. Elective classes already taken in the degree program may be added to the candidacy form by means of the Request for Elective Course Substitution in Graduate Degree form. However, all courses taken will be calculated in the GPA because any course taken with its associated grade cannot be removed from the candidacy form. The total allowable units that can be added as either repeated classes or substituted electives can be no greater than 30% of the total number of units for the individual degree for the entire graduate career. To clarify, in a 30-unit degree program, a student may add electives or repeat classes only up to a total of 9 units.

Failure to Achieve a 3.0 Grade Point Average on Completed Graduate Degree Program

If a master's candidate does not complete the graduate degree program with a minimum 3.0 GPA in both the overall coursework and the candidacy coursework, the student's major department may terminate the candidacy or permit completing additional courses in an attempt to raise the GPA in the program to the minimum 3.0 threshold. Elective courses may be added to the candidacy form if approved by the graduate advisor. Alternatively, courses can be repeated up to a limit of 9 units (per University Policy F08-2). In the entire graduate career, the combination of added elective units and repeated units cannot exceed 30% of the total number of units in the major. Failure to raise the candidacy and cumulative GPA to 3.0 after completing this additional coursework will result in a termination of the student's candidacy and an inability to earn the degree. Thus, the student would be academically disqualified without the ability to be reinstated by normal means.

Credential candidates who fail to achieve a 3.0 GPA upon completion of the credential program will be precluded by the department from attempting additional coursework and therefore not be recommended for an award of a credential by the State of California.

Administrative Academic Probation

Per Sections 41300.1 Title 5, graduate students may be placed on probation or may be disqualified by appropriate campus authorities for unsatisfactory scholastic progress regardless of cumulative grade point average or progress points. Such actions shall be limited to those arising from repeated withdrawal, failure to progress toward an educational objective, and noncompliance with an academic requirement..." Therefore, regardless of the cumulative GPA, administrative academic probation or disqualification can be imposed by the university.

Most instances of administrative academic probation and disqualification result from probation in and disqualification from the graduate major. Thus, despite maintaining an SJSU cumulative GPA of 3.0 or better, a graduate student's academic performance in the major may fall below the minimum standards established in that major. In these cases, while students remain in overall good standing with the university, they are subject to probation and disqualification
from the graduate major. Departments have an obligation to inform students of these policies in writing which is forwarded to both the College of Graduate Studies and the Office of the Registrar.

In most cases, a direct reassignment from good standing in the major to disqualification from the major is prohibited. In other words, at least one semester of probation in the major is required prior to disqualification from the major. By the same token, there must also be a way of returning from the probationary status to good standing that should be clearly documented. Exceptions to these regulations are described below under Disqualification - Administrative Academic.

The department and university may impose administrative academic probation for any of the following reasons:

1. Failure to progress satisfactorily toward the degree or other program objective, including that resulting from assignment of 9 units of "NC," when such failure appears to be due to circumstances within the student's control, failure to pass writing requirements, or failure to take a reasonable number of courses in the student's own degree program.
2. Failure to comply, after due notice, with an academic requirement or regulation that is routine for all students or a defined group of students (examples: failure to complete a required CSU or campus examination, failure to complete a required practicum, failure to make satisfactory progress in the academic program, failure to put together a graduate committee of qualified individuals in programs that require a committee).
3. Failure to achieve a set of academic standards of the department.
4. For example, a program might require the achievement of grades of "B" in every class or in particular classes with a stipulated number of repetitions permitted. Similarly, an acceptable standard would be to require a "CR" in field, student teaching, or internship courses with a stipulated number of "NC" grades allowed for repetition.
5. Programs may restrict a student to two attempts of any course offered by the program. Cohort programs may require that a minimum number of courses/units be taken each semester in order to best use resources or to ensure that the program is completed while student knowledge is still current. A maximum number of units can be set for students on probation.

When such action is taken, the student will be notified in writing and provided with the conditions for removal from probation and the circumstances that would lead to disqualification should probation not be removed.

Disqualification

Students are strongly advised to review University Policy S16-16 for more information.

Academic Disqualification

A graduate student who is on academic probation is academically disqualified if they fail to earn a term 3.0 GPA in any subsequent semester that they have been placed on probation and their cumulative GPA remains less than 3.0. This requires enrollment in at least one letter-graded course each Spring or Fall semester (but not Winter or Summer term) that the student is on probation. Teaching credential candidates are subject to the GPA dictates of the State Department of Education. Credential candidates will be notified of those requirements by their department within the College of Education in which they are seeking their credential preparation. At this time, the minimum GPA requirement matches that of the graduate division as a whole, that is, the 3.0 level. Credential candidates who fail to meet this standard are academically disqualified and are not eligible for reinstatement. Similarly, if at the time of completion of all credential requirements, a student's candidacy GPA or cumulative GPA is below the 3.0 threshold, the student is academically disqualified and will not be afforded the option of repeating credential courses to raise the GPA.

For master's candidates who complete all minimum degree requirements but fail to achieve a 3.0 GPA, the department may exercise its option to terminate the candidate. The department may also allow the student to repeat classes within the university limit of 9 units per graduate career or to add elective courses. The total units in the added courses and repeated courses (100 and 200 level coursework) cannot exceed in the entire graduate career
30% of the units of the degree program's total. If a student fails to raise the candidacy and SJSU cumulative GPA to 3.0 after these measures, they are academically disqualified without a possible reinstatement.

In many cases, students may apply for reinstatement following a first disqualification. Departments have the option of reinstating or refusing to reinstate a graduate student, and, if reinstatement is achieved, the student is guaranteed readmission to the program when they reapply for a future term.

After a second disqualification at the graduate level, reinstatement will not be granted and the student's candidacy will be terminated.

**Administrative Academic Disqualification**

Upon notice by the coordinator of the graduate program in which a student has been placed on administrative academic probation, the student may be administrativelyacademically disqualified from further attendance by the Associate Dean of College of Graduate Studies if the conditions for removal of administrative academic probation are not met within the period specified.

As mentioned in the section on administrative academic probation, a probationary period must normally precede a disqualification. However, exemptions to this general rule include the following:

1. In clinical courses, laboratory courses, student teaching assignments, or other types of programmatic requirements, there may be such serious concerns about the safety or well-being of the student, other students, clients, patients, and so forth that repetition of the courses is not reasonable. For such courses or programmatic experiences, departments may establish "no repeat" policies, i.e., a course may not be repeated if not passed on the first attempt. In clinical or lab settings in which safety or well-being are severely compromised, an instructor may disenroll a student from the course, which may lead to disqualification from the major.

2. A program can disqualify a student without a probationary period for behavior that fails to comply with professional standards of conduct appropriate to the field of study. This conduct could occur in or out of class. Examples include threatening behavior, repeated disruptions of classes that interfere with the educational opportunities of other students and repeated acts of professorial disrespect, badgering, rudeness, interruptions and verbal or written abuse.

3. Conditional acceptance to a program is, in effect, acceptance under probation in the major. Typically, a specified set of courses or requirements must be passed prior to attaining good standing in the program. There may be time limits or unit limits established to satisfy the conditions, which, if not met, may lead to disqualification from the major degree program without an intervening term on explicit probation. Cohort programs must provide in their policies a reasonable accommodation for students who must stop out for legitimate reasons.

In most cases (unless stipulated by the program in writing), graduate students administratively academically disqualified from their majors have no means for reinstatement. However, unlike academic disqualification, reinstatement and readmission are not absolutely necessary for continuation at the university after administrative academic disqualification. If a student finds another program willing to accept him or her within one semester, an Application for a Change of Graduate Program form can be filed with the office of Graduate Admissions and Program Evaluations and enrollment can resume following formal acceptance into the new program. Graduate students cannot be categorized as "undeclared", and thus a student must be accepted into some program to register for courses at the university other than through Open University. If more than one semester elapses from the point of disqualification, the student will be considered to have stopped out of enrollment and will be required to apply for readmission if a second department indicates willingness to allow a transfer.

**International Students & Disqualification**

To maintain their legal status in the U.S., international students must be matriculated within a degree program. After disqualification from SJSU, international students must transfer to another institution to maintain their legal status.
Enrollment in Open University alone does not qualify them for the immigration document needed to remain in the U.S. Disqualified international students who have transferred out to another university may enroll in Open University for a program of study in order to be academically reinstated but must seek immigration reinstatement from SJSU. Disqualified international students must speak with an international student advisor in the International Student and Scholar Services (ISSS) Office as soon as possible.

**Discontinuation from the University**

Students who fail to register for classes in two successive semesters are placed in a discontinued status and are no longer matriculated at the university. Discontinuation requires readmission to the university and program before a student may be permitted to enroll again. This policy also applies to students who leave the university after having registered for classes but who do not officially withdraw or withdraw from all courses after the semester drop deadline. The courses will be assigned a grade of "WU" (denotes unauthorized drop or withdrawal). No personnel actions, grades, or transcript services will be permitted until all financial obligations, such as unpaid fees, have been settled. If the student fails to return the semester immediately following withdrawal, reapplication for admission will be necessary at www.calstate.edu/apply.

The exception to this policy is for students who file for a formal leave of absence. See the description of the options and regulations governing leaves under Leave of Absence - Master's Requirements or Doctoral Requirements sections.

**Appeal of Disqualification and Probation**

Students may appeal their probation or disqualification by petitioning the Academic Disqualification and Reinstatement Review Committee after the programmatic appeal process has been exhausted. The student should begin the appeal process by consulting with the graduate advisor. The appeal, in writing to the Associate Dean of College of Graduate Studies, should contain a description of actions by the department contrary to departmental rules or university policy or an explanation of extenuating circumstances that led to the action.

The student must present documentation- for example, physician's letters, police reports, and/or transcripts- that the circumstances were beyond his or her control, that they disrupted previously satisfactory scholastic performance, and that they no longer affect the student's academic work. The Associate Dean of Graduate Studies has the authority to deny further appeal on the basis of reasonable grounds for appeal. If grounds exist, a subcommittee of the Academic Disqualification and Reinstatement Review Committee will in turn hold a formal hearing to confirm or rescind the probation or disqualification. Please review University Policy S16-16 for complete details.

**Reinstatement for Disqualification**

Graduate students may appeal their probation or disqualification by petitioning the Academic Disqualification and Reinstatement Review Committee after the programmatic appeal process has been exhausted. The Graduate Petition for Reinstatement form indicates that there are four categories by which a student can be reinstated: extenuating circumstances, special consideration, grade change and program of study. The student should begin the appeal process by consulting with the graduate advisor. The appeal, in writing to the Associate Dean for the College of Graduate Studies, should contain a description of actions by the department contrary to departmental or university policy or an explanation of extenuating circumstances that led to the action. The student must present documentation- for example, physician's letters, police reports, and/or transcripts- that the circumstances were beyond his or her control, that they disrupted previously satisfactory scholastic performance, and that they no longer affect the student's academic work. The Associate Dean for the College of Graduate Studies has the authority to deny further appeal on the basis of reasonable grounds for appeal. If grounds exist, a subcommittee of the Academic Disqualification and Reinstatement Review Committee will in turn hold a formal hearing to confirm or rescind the probation or disqualification.
Extenuating Circumstances

Similar to the appeal process for probation or disqualification, a request for reinstatement due to extenuating circumstances must meet the conditions indicated above for that process. The petition is submitted along with evidence of the circumstances and their role in the decline in scholastic performance. After securing the requisite signatures, the form is submitted to the Associate Dean for the College of Graduate Studies for a final decision.

Special Consideration

This category is reserved for individuals who have been absent from the university for five or more years and who have in that time achieved a renewed sense of purpose through job activities or through increased maturity that would prompt a greater chance of academic success. Often this request is accompanied by a switch in major from that in which the disqualification occurred.

Change of Grade

If a grade that was changed results in an increase in the semester GPA or in the cumulative GPA to 3.0 or above, the student may qualify for reinstatement in this category. In addition, retroactive (after the last day of classes) actions by students, such as completion of Incomplete ("I") grades or course drops, can also raise the SJSU cumulative GPA. The Change-of-Grade Form must be submitted by the department office directly to the Office of the Registrar by the drop deadline of the following spring or fall semester. Extension of this deadline will be considered only when there is documentation of the student's attempt(s) to contact both the instructor and the department chair and only when the late submission of the Change-of-Grade Form is clearly shown to be beyond the student's control. If these conditions are met, the disqualification (or probation) will be rescinded. If the conditions are not met, even if the grade is subsequently changed and the GPA elevated, the probationary or disqualified status will remain unchanged. Note that a course or semester withdrawal is not considered to be a grade change, and reinstatement in this category would not be appropriate.

Program of Study

The most common grounds for reinstatement is the completion of a program of study. A student must confer with the graduate advisor to develop a schedule of classes appropriate to the student's major. The courses must amount to a minimum of 6 and maximum of 9 units per semester, and all must be taken in a single semester. They must be letter graded, upper division (100-level), and taken through the SJSU Open University Winter or Summer session. The 100-level courses may or may not be part of the graduation requirements for the student's degree program. The advisor may require more than 6 units of course work. Graduate (200-level) courses are not permitted on the program of study, and disqualified students cannot enroll in 200-level courses. Under no circumstances will courses be accepted that were taken prior to approval of the program of study via submission of the Graduate Petition for Reinstatement. Also precluded from the program of study are courses taken at another university, 300-level or 400-level or 500-level courses, and lower division courses. If the student plans to pursue a different degree program upon readmission to the university, the program of study must be applicable to the new major, be developed in conjunction with the graduate advisor of the new major, and demonstrate the student's capacity to complete the new graduate degree requirements. If a course on an approved program of study becomes unavailable, another reinstatement petition must be submitted and approved immediately after enrollment in a substitute course. Once the program of study has been completed such that the student earns a minimum grade point average of 3.3 ("B+"), he or she will be reinstated and, after reapplication to the university, readmitted to the university and department. Reinstated students cannot be denied admission on the basis of their lack of good standing.

Reinstatement is not allowed for a second disqualification. Unless extenuating circumstances can be cited that result in rescinding the second disqualification, a Graduate Petition for Reinstatement will not be accepted from students who have been disqualified more than once.
If the student plans to pursue a different degree program upon readmission to the university, the program of study must be applicable to the new major, be developed in conjunction with the graduate advisor of the new major, and demonstrate the student's capacity to complete the new graduate degree requirements.

 Unless the disqualification is rescinded as above, reinstated students must apply to the university and department for readmission. Reapplication via www.calstate.edu/apply can be done during the semester in which the program of study is underway or in which the reinstatement petition is being considered. The application will be placed on hold at Graduate Admissions and Program Evaluations until the program-of-study grades are posted and students are reinstated. Under most circumstances, a department is expected to readmit students who have successfully completed programs of study signed off by that department. Disqualified, reinstated students seeking readmission are, nevertheless, subject to the same enrollment limitations and admission application requirements as all other applicants. Learn more about the reinstatement processes.

**Readmission**

A graduate student readmitted after academic disqualification may still retain a sub-3.0 GPA and, therefore, remains on continued probation until the cumulative graduate GPA is raised to a minimum of 3.0. Following reinstatement, if a student fails to achieve a term GPA equal to or above 3.0 in any Winter, Spring, Summer, or Fall term while on probation, they will be disqualified a second and final time. Probationary status is removed once the cumulative GPA meets or exceeds 3.0.

While disqualified, the graduate student has no capacity, outside of possible degree-satisfying courses taken as part of a program of study, to raise the GPA. Unlike an undergraduate student in disqualified status, courses taken by a graduate student through Open University or at other institutions during this period are not counted in university GPA calculations, except in the case of the program of study courses that are applicable to the degree program. Disqualified students lose their privileges for course registration and so are effectively removed from the university. Readmission differs from reinstatement. An academically disqualified student may apply for and be granted reinstatement. However, class enrollment requires that they also be readmitted into the university. Readmission is possible only after proper reinstatement is achieved, formal reapplication through Cal State Apply is submitted, university review is complete, and acceptance by the department graduate program is confirmed. This applies whether the student is returning to their previous program or if a student has been academically disqualified and is returning to begin a newly approved program. The student can reapply as early as the term following a first disqualification, even if reinstatement has not yet been achieved. The university will make special arrangements, before an official term begins, for former students who wish to return to their studies. The Associate Dean for the College of Graduate Studies should be contacted if these circumstances apply.
General Information and Student Messaging for 1290R Enrollment

Per University Policy S17-5, graduate students with an RP grade in a thesis (299), dissertation (699), or project (often 298) course in the Spring 2012 or later semester are required to enroll in the 1-unit CR/NC course, 1290R, each semester until degree completion for the purpose of continuous enrollment. Enrollment must be repeated each semester until degree completion except in cases in which the department requires repeated enrollment in the original project or thesis course. There are no class meetings for the course as it is supervisory in nature; however, there will be a $288 fee associated with 1290R. “Stopping out” or a voluntary absence from the university will not be permitted unless a leave of absence petition is approved for either medical or military reasons. Failure to register will result in a hold being put on graduation until the unit is retroactively added, and a late fee will be associated with the retroactive action. To retroactively add any previous semesters in which a 1290R course was not taken, use the linked DocuSign form.

The College of Professional and Global Education is responsible for scheduling 1290R:

1. **1290Rs are special session courses**, and students must have special session registration appointments (i.e., time/date window) to add via MySJSU.
   a. The College of Graduate Studies oversees both grading and roster management for all 1290R courses (both UNVS 1290R and any department generated 1290R [e.g. BIOL 1290R]). The Associate Dean of Graduate Studies serves as the instructor of record for all 1290R courses, no matter the prefix.
   b. One class for each department with an enrollment cap of 100 students can be generated.
   c. UNVS 1290R is used only in cases in which the department has not designated its own 1290R. Tuition generated in this case does not go to the department.

2. Students can add 1290R only if they are not enrolled in any other courses for the current semester.

   **Appointments to enroll for 1290R begins the day following the last day to add courses.**
   a. Because 1290R is scheduled through Special Sessions, and the Office of the Registrar delays appointments to allow students to register for other courses, 1290R registration is delayed until the day following the last day to add (see example email sent to students below).
   b. Domestic students have until the last day of instruction (11:59 pm) to enroll in 1290R.
   c. Note: International students in F-1 status: Federal regulations require that students enroll in 1290R within the first 30 days of the start of the semester although they will not be able to complete the 1290R enrollment until they receive their appointment. Students who do not complete enrollment during that time will be out of compliance and their F-1 status will be terminated, resulting in immediate departure from the U.S. Therefore, it is critical that they do not delay in registering for 1290R once they have an appointment. Please contact International Student and Scholar Services (ISSS) for more information.
   d. Students enroll in 1290R just as they would a regular course through their MySJSU Student Center (see the PDF Instructions).
   e. Any 1290R enrollments after the last day of instruction become retroactive adds. Students will then be required to add 1290R retroactively for the course once the deadline has passed.

The Office of the Registrar is responsible for screening students, messaging, and posting grades for 1290R eligible students:

1. Registration appointments are assigned to graduate students based on the following criteria:
   a. Students who have an "RP" grade Spring 2012 or thereafter in a thesis/project course or applied to graduate in the current semester and/or following two semesters;
   b. Students who are not enrolled in any courses for the current semester;
   c. Completed all degree requirements other than thesis or project.

**Important Notes:**

1. Students who do not have a graduation date for either the current semester or two subsequent semesters, must update their graduation date. Students who have not applied to graduate or have a past graduation date will not automatically receive a 1290R appointment via messaging.
2. Students who do not have an RP course in their program, do not have any recorded status for their pending culminating experience such as comprehensive exams (i.e., courses only), or have an "I" reported for their culminating experience will not automatically receive an appointment invitation from the Office of the Registrar. In these cases, the student or graduate advisor must contact the Associate Dean of Programs, College of Graduate Studies, in order to notify the Office of the Registrar to provide the student a 1290R registration appointment via email. The following information is required:
   a. Student contact information (name, ID number, email, and phone number);
   b. Program and culminating experience.

Sample Email to Students

From the Office of the Registrar after census date.

Dear Student,

A registration appointment is now available for you to enroll in your department prefix 1290R or UNVS 1290R (a 1-unit thesis/project supervisory course for continuous enrollment), as our records indicate that you have met all of the conditions below for [current semester]. Registration is via MySJSU, and no permission number is needed. Failure to register for this course will result in a hold on your graduation until you retroactively add the course. Please be aware that retroactively adding this course will incur a $200 late fee.

Conditions:

1. Graduate student
2. "RP" grade issued in Spring 2012 or thereafter in a thesis/project course or applied to graduate in [current semester, or the following two successive semesters]
3. Enrolled in no other courses for the current term
4. Completed all degree requirements other than thesis or project

Questions can be directed to Dr. Jeffrey Honda, Associate Dean of Programs, College of Graduate Studies.

For other Graduate policy guidelines, visit the College of Graduate Studies Policy website.
Processes for Reinstatement

Reinstatement Processes

Per S16-16, academically disqualified students may apply for reinstatement. Academic disqualification occurs when graduate students on probation or continued probation earn a fall, or spring term GPA below 3.0. The disqualified status is shown on the transcript. Graduate students disqualified from the university for the first time can petition to be reinstated, unless otherwise disallowed by an accrediting body or other governing agency. **Reinstatement is a process separate from readmission.** Students must file an application for readmission with Cal State Apply through GAPE to register for classes following reinstatement. Application for readmission can be done during the semester in which the program of study is underway or in which the reinstatement petition is being considered. Please note the process below for students wishing to apply for reinstatement:

1. Students who are disqualified from the University will receive notification from the Office of the Registrar (see sample disqualification notice). Once this occurs, the student may immediately apply for reinstatement using this Petition for Reinstatement form.
2. Students must complete a Reinstatement Petition with their advisor and obtain all necessary signatures and documentation. Consideration is given for:
   a. Extenuating circumstances
   b. Special Consideration
   c. Change of grade
   d. Program of Study: **Note:** because Program of Study requires taking courses the semester following disqualification through Open University, students must submit their petitions for their Program of Study by the following deadlines to ensure that they can be reinstated for the next earliest semester:
      i. Spring March 1st (if the Program of Study is to be done during the Spring semester)
      ii. Summer July 1st (if the Program of Study is to be done during the Summer semester)
      iii. Fall October 1st (if the Program of Study is to be done during the Fall semester)
      iv. Example: If a student is disqualified in the fall semester, the student can take a Program of Study the following spring semester, and if the Program of Study is successfully satisfied, and if the application cycle is still open, they would be eligible to return the following fall semester (or possibly earlier during the summer semester depending on their program).
      v. It is the student's responsibility to ensure that documentation reaches the College of Graduate Study for final approval and meets any of the above deadlines (see sample Program of Study confirmation letter).
   e. A Program of Study must conform to the following policies:
      i. Courses must be letter graded, upper division (100-level), and taken through SJSU Open University or SJSU's Extended Studies winter or summer session. Graduate courses cannot be used in a Program of Study
      ii. The 100-level courses may or may not be part of the graduation requirements for the student's degree program.
      iii. The advisor may require more than 6 units of coursework but no more than 9 units.
      iv. Courses for a Program of Study cannot be from a past term.
      v. If the student plans to pursue a different degree program upon readmission to the university, the Program of Study must be applicable to the new major, be developed in conjunction with the graduate advisor of the new major, and demonstrate the student's capacity to complete the new graduate degree requirements.
      vi. If a course on an approved Program of Study becomes unavailable, another reinstatement petition must be submitted and approved immediately after enrollment in a substitute course.
      vii. Once the Program of Study has been completed successfully with a minimum GPA of 3.3 ("B+") and no grades lower than B, the student will be reinstated and, **after reapplication to the university**, readmitted to the university and the department.
viii. Should the student fail to achieve the 3.3 minimum GPA, additional programs of study are permissible with entirely new classes and consent of the graduate advisor of the incoming major.

f. Petitions are approved by the Associate Dean of Graduate Programs and forwarded to the Office of the Registrar. In the case of denial, department and student are notified.

Readmission and Appeals Processes

1. Simultaneous to the reinstatement process, students must also reapply for readmission to gain matriculated status once again.
   a. Students must reapply to SJSU using the Cal State Apply processes and meet all regular admissions eligibility criteria, pay appropriate fees, and follow the regular term application deadlines.
   b. To meet filing deadlines, students may need to start the readmission process before reinstatement is complete.
   c. GAPE will not readmit students until transcript states that the student has been reinstated any requests are held until reinstatement is approved
   d. Note: in some cases such as extenuating circumstances and change of grade petitions, readmission is not necessary if petitions are provided in a timely manner
   e. See sample reinstatement letter

2. Students whose petitions are denied can appeal to the Academic Disqualification Reinstatement Review Committee
   a. Process is initiated through the Graduate Advisor
   b. Personal Statement must be provided to the Associate Dean of Programs for the College of Graduate Studies

Sample Letters to Students

Disqualification Notice

Dear Student,

Our records [for most recently completed semester] show that you have been disqualified as a regular matriculated student. Consequently, you will be dis-enrolled from your [next semester] classes. However, if enrolled in Summer [only if you were disqualified for the fall semester] classes, you will not be dropped (unless you are a graduate student enrolled in a 200 level course or state supported courses). Last day to add via MySJSU for Summer Session One is today, June 10. Advance Registration for Summer Session Two is ongoing until July 2.

If you wish to re-enroll for the [subsequent semester], you may do so as an Open University student, during the Late Registration period. Late Registration begins on August 21. Please note that Open University registration is on a space available basis and a permission number from the instructor will be required.

Online registration via MySJSU will not be available in your first semester of Open University enrollment. To enroll as Open University, complete the registration form, and submit it to window "R" in the Student Services Center (SSC) between August [first date to enroll] and Open University Add deadline. For more information about Open University, visit the Open University website.

Undergraduate students: a separate messaging will be sent to you from the Academic Advising & Retention Services (AARS) regarding the next steps you may need to take pertaining to your disqualification from the university.

Please be aware that all disqualified students must apply for reinstatement and re-apply for re-admission. For
Program of Study Notice

Dear Student,

This letter is to confirm that your Reinstatement Petition for the [semester following disqualification] semester has been received and is being processed. If you do not register for these courses, you will be required to submit a new Petition for Reinstatement.

Reinstatement and readmission are two separate processes. If you have any questions about being readmitted, please contact the Undergraduate Admissions or Graduate Admissions Office directly. You may only take courses through Open University. Open University registration information and forms can be found online at http://ies.sjsu.edu. Please verify your Program of Study courses below:

SJSU - OPEN UNIVERSITY (Note that these courses must be registered through Open University)

ISE 102 - Engineering Economic Systems
ISE 151 - Introduction to Engineering Management

Note that courses must be 100-level courses and not graduate courses

Please remember that you must earn at least a B+ (3.300) in each course of your Program of Study to be guaranteed reinstatement. Be aware that you must also meet this minimum requirement in additional non-Program of Study courses that you register for. If you do not meet these requirements, your petition will be forwarded to the Academic Disqualification and Reinstatement Review Committee for evaluation.

Sincerely,

Reinstatement Coordinator Office of the Registrar

Reinstatement Notice

Dear Student,

I am pleased to inform you that you have been academically reinstated on the recommendation of the Academic Disqualification and Reinstatement Review Committee. You have been reinstated in good standing.

You must maintain a minimum 3.000 SJSU cumulative grade point average to stay in good academic standing. This requirement applies to courses taken as a matriculated student and through Open University. If your cumulative SJSU grade point average drops below 3.000 you will disqualify a second time. Please note: Graduate students CANNOT be reinstated from a second disqualification.

It is important to note that reinstatement and readmission are two separate processes. Reinstatement is not readmission to San Jose State University for any particular semester or degree objective. To return to San José State as a regular, matriculated student you must also reapply for the next available application cycle and pay the application fee online at https://www2.calstate.edu by no later than the published closing deadline. If you have any
questions about being admitted, please contact the Undergraduate Admission or Graduate Admissions directly. Please be aware that you will not be readmitted if you have not satisfied all remedial requirements.

Be sure to clear any existing holds on your record, as they will prevent you from being able to add classes.

As of this notice, your reinstatement process has been completed by the Registrar's Office.

If you have any questions regarding this letter, please send an email to: joni.talley@sjsu.edu.

Sincerely,

Reinstatement Coordinator

Office of the Registrar
Spartan Accelerated Graduate Education (SAGE) Programs

Spartan Accelerated Graduate Education (SAGE) Scholars programs are combined bachelor's and master's programs at SJSU. Sometimes they may also satisfy the requirements for a credential. Students in these programs pursue a bachelor's and master's degree simultaneously. These program allow students to earn graduate credit while in their junior and/or senior year, reducing the number of semesters required for completion of a master's degree. For a list of approved programs, view the Majors and Programs or MyRoadmaps Catalog - SAGE pages.

Why apply to the SAGE Scholars program? View the SAGE Scholars Program flyer.

Objectives

The Spartan Accelerated Graduate Education Scholars Programs offer:

1. To provide an accelerated route to a graduate degree, with simultaneous awarding of both Bachelor's and Master's degrees.

2. In most cases, to allow for the possibility of students' earning graduate credit for several of their senior electives, effectively decreasing the summed unit requirements for both degrees (pending approval by the CSU Chancellor's Office - expected by late Spring or early Summer 2021).

3. To provide a seamless process whereby students can progress from undergraduate to graduate status without having to apply through the Admissions Office (thereby eliminating the need to pay the application fee).

4. To provide a meaningful capstone experience that in some cases integrates the senior project with the graduate thesis or project.

Admissions Requirements

SAGE programs may require additional admissions requirements.

1. Students must successfully complete a minimum of 60 undergraduate degree applicable units and not more than 120 undergraduate degree applicable units at the time of admission into the SAGE program.

2. Students must be enrolled in or have completed the undergraduate Graduation Writing Assessment Requirement (Area Z/100W/GWAR prior to admission into the SAGE program).

3. Students must have a minimum 2.5 cumulative GPA at the time of admission into the SAGE program. Note that there may be SAGE programs that require a higher GPA admission standard.

4. Students must have completed all lower division courses (designated as 1-99) BEFORE transitioning into the SAGE graduate degree objective status.

Maintaining Academic Standing in SAGE Programs

SAGE scholars are required to maintain good academic standing per University Policy S16-16. Additionally, SAGE scholars are expected to meet with their SAGE advisor each semester to review their academic progress and standing. When a student does not maintain academic standing as required in their SAGE program, the student will be placed on academic probation in the SAGE program. The advisor will document the probation and outline measures the student must take in order to be removed from SAGE academic probation. Typically, the student will have one semester to address these measures and return to acceptable academic standing. If these measures are
not met, the advisor will notify either the Office of the Registrar or the Office of Graduate Admissions and Program Evaluations (GAPE) to disqualify the student from the SAGE program; the student will subsequently be placed in the home department's undergraduate or graduate program to allow completion of the respective degree. For a step by step process from application to graduation for SAGE Scholars students, including the process to opting out of or being disqualified from a SAGE program, view the SAGE Scholars Process document.

**Master's Requirements**

- General Graduate Policies & Procedures
- Advancement to Candidacy
- Examinations
- Master's Thesis Requirements
- Graduation
- Second Master's Degree
- Interdisciplinary Studies

**Advancement to Candidacy**

Students should seek advancement to candidacy as soon as possible for their given program and on the advice of their graduate advisor. Graduate students may submit a Petition for Advancement to Graduate Candidacy form to the GAPE office after satisfying the following:

- achieved classified status
- completed a minimum of nine letter-graded units with all grades "C" or higher
- fulfilled the GWAR requirement
- achieved a minimum cumulative and program 3.0 GPA, and,
- graduate within the seven-year time limit for degree completion.

Graduate students must submit their petition no later than one semester prior to graduating.

University Policy S19-3 requires that the Graduation Writing Assessment Requirement (GWAR) be fulfilled before advancement to candidacy. However, for special cases, the candidacy form may be filed during the semester in which a GWAR-satisfying course is taken.

Note that Title V (CCR 40510) requires a minimum 3.0 grade point average for all courses to satisfy graduate degree program requirements. Should courses in the graduate degree program be completed with unsatisfactory grades, these grades must remain in the program and will continue to be computed in the grade point average of the program. Therefore, the candidacy form will record each program course repeated and the grade earned. Course grades will be effectively averaged in the GPA calculation for advancement to candidacy and graduation. Please review University Policy F08-2 for more details.

Finally, students should be aware as to which catalog year they wish to declare and use to fulfill their graduation requirements. As program requirements may change slightly over a student's course of study, catalog rights should also be discussed with an advisor as needed.

**Graduate Degree Program**

As indicated above, the Petition for Advancement to Graduate Candidacy ("candidacy form") is submitted to GAPE when the student is qualified to advance to candidacy. This form lists all courses and culminating experiences that must be fulfilled for degree award. The proposed program must meet the following requirements:

- statement of the total number of units in the degree program.
- at least half of the units included on the form must be in 200-level courses.
- at least 60% of all units included must be in letter-graded course work.
- at least 70% of the units included must be in residence at SJSU. Therefore, a maximum of 9 units may be transferred into a 30-unit program from all sources.
Included coursework may be entirely within the major department, or may include a combination of courses drawn from other fields accepted by the major advisor. If deficiencies in the student's record are identified, including prerequisites for required courses, additional coursework can be assigned by the major advisor. This coursework would not appear on the candidacy form and would not be counted in the total number of units required for the degree.

Coursework that may not be applied to the graduate degree include lower-division work (numbered 1-99), courses used to earn any prior degree (except other master's degrees at SJSU), courses taken at unaccredited institutions, directed (student) teaching, 300-level residence or 400-level Professional Education courses taken at SJSU, or courses taken over seven years previous to current degree conferral. Graduate credit by examination is not permitted.

There is no restriction in the number of units for project or dissertation research attempted, however, students completing a thesis must include at least one 299 unit on the candidacy form, and the total number of units must equal program unit requirements. Students may not receive credit for project or dissertation units unless successfully completed; instead either an RP, or NC grade will be assigned in the semester of enrollment. For courses in RP status, students may enroll in 1290R to maintain continuous enrollment until completion of their culminating experience. Students earning a NC must enroll in the course again and earn a CR to fulfill their culminating experience.

The original copy of the completed, signed Petition for Advancement to Graduate Candidacy should be submitted to the GAPE office by the deadlines. The student will be informed by the approval or denial of the petition through the student's MySJSU account under "Other Indicators".

**Program Course Work**

Once approved, the candidacy form, is an official contract between the student and university. It can be changed only with the permission of the graduate advisor via written petition to the Associate Dean of the College of Graduate Studies. Both elective and core course substitutions can be made by submitting appropriate course substitution forms found at www.sjsu.edu/gape/forms. A course may not be dropped from the candidacy form, once it has been completed and approved.

If a student obtains permission to change programs and the second program has different requirements than the first one, then a new candidacy form must be filed; graded courses on the first form can be eliminated on the second form if not part of the new curriculum.

**Examinations**

It is university policy to require final examinations or defenses in all master's degree programs. Departmental examinations vary; they may be oral, written, or a combination of both. Students following Plans A and C are usually examined primarily over areas of their theses or projects. Plan B students are generally required to demonstrate their competence by writing in a broad field of concentration, by taking comprehensive examinations, or by completing a broad course project.

In all cases, it is the candidate's responsibility to register through the departmental coordinator of graduate studies to take all required final examinations. The candidate's advisor and/or the departmental graduate coordinator will provide general information concerning the nature of the examinations and recommended preparation for them.

The master's degree cannot be considered for conferral to the candidate until the major department certifies to the program evaluator at GAPE either through messaging or by submitting a Verification of Culminating Experience memo that final examinations have been completed satisfactorily.
Master's Thesis Requirements

Time is critical during the semester thesis submission and timelines should be planned carefully to ensure that all department and university submission deadlines are met. Students must allow enough time for multiple draft preparation, committee feedback, formatting/word processing, and allowances for faculty time constraints. Students must leave time for the final reading and signing by the committee members. A minimum of two months may be needed for the entire process, and departments may require a longer period. Students must have completed all degree requirements within seven years of achieving classified standing in the master's program. All instructions for thesis formatting and submission to Graduate Studies are located in the SJSU Thesis and Dissertation Guidelines.

These instructions provide general thesis guidelines. Students should read the guidelines carefully and consult with their advisors concerning options for thesis formatting, and professional style guide to use. Departments may also provide students with more additional formatting instructions. In rare cases, the College of Graduate Studies will provide individual assistance.

SJSU partners with the University Microfilm International (UMI) Dissertation Information Service. Students completing theses and dissertations are required to email their committee-approved manuscript and accompanying documents to Graduate Studies according to Thesis and Dissertation Guidelines instructions.

Checking the Manuscript

The College of Graduate Studies does not serve as an editor nor content reviewer. The author and graduate committee members should carefully proofread the thesis before submission and are responsible for content and formatting. The review conducted by the College of Graduate Studies should also be regarded as an indicator of problems to be addressed globally throughout the manuscript. A careful review of feedback should be done by the student as a guide to correcting similar errors in the entire manuscript. Making only the changes specifically indicated by the College of Graduate Studies rather than applying the feedback to the remainder of the document may result in a substandard thesis. The College of Graduate Studies may reject a thesis with excessive errors.

Students can prevent thesis rejection by ensuring that the final manuscript is free of the following frequent errors: pages for which no numbers are assigned, failure to apply reference style consistently or to cite references when needed, careless spacing or centering, inappropriate margins, incorrect footnotes or bibliography entries, redundancy, awkward or unclear sentences, grammatical errors, punctuation errors, spelling errors, word-usage errors and inconsistencies in or lack of adherence to style-manual formatting rules.

Neither SJSU nor any of its separate offices or departments are responsible for matters concerning a student's relationships or agreements with any outside agency or individual consulted for manuscript preparation. Neither the university nor any of its offices will take part in disagreements between students and typists, editors or copy shops with regard to thesis preparation services, expected costs or billed costs. A student conducting thesis research off site, for example at a local company, must be free to include all of it in the thesis SJSU's legal relationship is only with the student and their compliance with the rules set forth in this and related documents and does not include any obligations to the company in question unless expressly agreed upon in a separate legal document.

For information about copyright permission, IBC, IRB & human subjects research, and animal research requirements, view the Research Policies and Procedures section.

Plans A, B and C

SJSU offers three plans for candidates for master's degrees.

Plan A - Thesis Plan
This plan requires approval by the candidate's advisor and other members of the thesis committee. Plan A requires registration in departmental 299, Master's Thesis, for at least one unit. Departmental 298 units or other department-specific thesis research or methodology courses are often also taken during the data-gathering stages of the thesis research. While the total number of 298 and 299 units, as well as units in any other project or thesis-research or preparatory course, is restricted to six units for degree credit (and therefore inclusion on the candidacy form) by departmental rules and university policy, the total number of these units taken is not restricted.

**Plan B - Degree-Without-Thesis Plan**

Plan B is characterized by substitution of the thesis and departmental 299 units with another set of courses and either a project or comprehensive exam. The plan is expected to provide substantial practical experiences by means of the tools and techniques of advanced study in the field. The purpose of Plan B is most often to provide breadth, rather than specialization, and so is tailored by the selection of courses and the nature of the final, comprehensive exam. The exam may be oral, written, or both and constitutes the culminating experience in the plan. Many departments historically have assigned students to Plan B for projects, whether they are also accompanied by a comprehensive exam or not. The projects are usually conducted as part of a departmental 298 or otherwise numbered 200-level project course for a maximum of six units, as stipulated by the department, and the write-up for the project is required as part of the culminating experience. Departmental 299 units are not permitted for graduate credit under this plan.

**Plan C - Special Plans Including Creative Projects**

This plan is reserved for exceptional cases for which needs will be served best through a special arrangement of courses and/or special creative assignments. The assignments might include original paintings, dramatic presentations, motion picture productions, works of sculpture, electronic media or videotapes. In these cases, the candidate is required to submit a written report on the creative project in the form of a supplementary guide or handbook that puts the work into historical, cultural and/or professional context. This written report is to be cataloged in the university's institutional repository in the University Library in the same manner as regular theses discussed under Plan A. Departmental advisors will provide further information on special requirements of the plan. Plan C requires registration in a minimum of one unit of departmental 299. Note that creative projects can also be conducted under the Plan B umbrella without the submission of a thesis or taking departmental 299 units.

**Thesis/Creative Project Unit Conditions**

Registration for departmental 299 thesis courses occurs only after advancement to candidacy for the master's degree. By that point, the thesis committee should be fully established in accordance with the SJSU University policy. Before collection of data from human subjects, prior approval must be granted by the Institutional Review Board; see the section on Human Subjects Data Collection. Similarly, prior approval for research on or employing animals must be granted by the Institutional Animal Care and Use Committee; see the section on Animal Research Guidelines. Finally, prior approval for research utilizing hazardous biological agents, recombinant or synthetic nucleic acid molecules, materials derived from humans and nonhuman primates, toxins, or select agents must be granted by the Institutional Biosafety Committee; see the section on recombinant DNA and hazardous biological agents.

A student is allowed a maximum of six semester units of thesis research and writing courses (departmental 299 and usually 298 but other thesis courses apply) for graduate credit in Plan A and Plan C, although more of these units can be attempted. The student may register for any or all of the required thesis units in one semester, but the sequence should follow departmental guidelines and regulations. All 299 units will receive a grade of "RP" until a final grade ("CR" or "NC") is awarded when the thesis is approved by Graduate Studies. "RP" units cannot be changed to "CR" until that time. Extensions of the two-year period for completing thesis work under the "RP" designation should be made before the period expires by means of the form available at www.sjsu.edu/gape/forms. Upon satisfactory completion of the thesis, a "CR" is submitted by the thesis chair via the Change-of-Grade form to the Registrar to clear the "RP." A separate form must be submitted for each occurrence of "RP" (each semester the grade is displayed) on the record.
Approval

The last three steps in the thesis process are outlined below:

1. After the thesis has received final departmental (graduate committee) approval, as indicated by committee signatures, the complete document should be emailed along with the completed Thesis Information Packet. Deadline dates for submission may be found at Thesis and Dissertation Information. The deadlines are firm, and exceptions are extremely rare.

2. The thesis will be read and returned to the student with an assessment by the staff from the College of Graduate Studies as accepted without corrections, provisionally accepted with corrections, or not accepted.

3. If the manuscript has an abundance of errors in formatting, grammar, punctuation or other writing parameters, corrections will have to be made. The advisors on the student’s graduate committee should be consulted about these corrections. It bears repeating that the College of Graduate Studies staff reads and edits only portions of the manuscript, but it is expected that errors of the kinds indicated be corrected throughout the manuscript. If the manuscript is accepted with corrections, the student will be instructed to resubmit it within about a four-week period from the point of notification. If it is rejected, the revised manuscript may not be submitted until the following semester.

Graduation

Graduation Requirements

After being admitted to candidacy for the master's degree, the student is then required to:

- Maintain a minimum grade point average of 3.0 ("B") in completing requirements in the graduate degree program. The program is defined as completed courses included in the original graduate degree program plus all additions or substitutions.
- Complete all courses in the graduate degree program with grades between "A" and "C," or "CR." Grades of "C-" or lower, including "NC," "U," "IC" and "WU," are considered to be unsatisfactory. Should courses in the graduate degree program be completed with unsatisfactory grades, these grades must remain in the program and will continue to be computed in the grade point average of the program whether they are repeated or not.
- Complete all requirements for the degree as listed in the degree template in the university catalog. Substitutions for core and other required courses in the template must be justified and approved by graduate advisor and department chair by submitting a Core Substitution Petition.
- Complete an acceptable thesis, project or comprehensive examination. The thesis (Plan A) or creative project (Plan C) requires that one copy be submitted to the Associate Dean for Graduate Studies. In Plan B, completed projects are submitted to the student's major department and a final comprehensive oral and/or written examination over the field of concentration for the degree must usually be successfully completed. Failure on initial attempts at these exams results in administrative-academic probation. Failure of the final attempt results in administrative-academic disqualification from the degree program. The program evaluator at GAPE is notified of passage of the exam by means of graduate advisor completion of the Verification of Culminating Experience memo or in some cases, verification through a message to the GAPE evaluator.
- Complete all work on the graduate degree program within seven years preceding award of the degree. If courses become outdated, the candidate should consult the section titled Time Limits on Courses in Graduate Degree Programs concerning steps to be followed.
- Apply for award of the master's degree by the posted deadline dates through your MySJSU account two weeks after achieving advancement to candidacy.
• Note that failure to clear incomplete ("I"), report-in-progress ("RP"), or report-delayed ("RD") grades will prevent graduation. An "I" obtained in a graded class results in an automatic grade change to an "IC" grade after one academic year has elapsed and conditions to remove the "I" are not met. This calculates to an "F" grade on the transcript, even after separation or graduation. In an ungraded ("CR/NC") course, the "I" reverts to a no credit ("NC") grade and is, therefore, also unsatisfactory for graduation if in a course on the candidacy form.

• Be in good academic standing (cumulative 3.0 minimum GPA in Graduate Division) at San José State University to receive a degree from this university.

Applying for the Master's Degree

The Petition for Advancement to Graduate Candidacy Form must be approved by the GAPE office before applying for graduation. Students should apply for graduation at least one semester before the date of anticipated graduation. However, it is highly advised that students apply at least one year before their future graduation date.

Advancement to candidacy is permitted only when all conditions of admission, if applicable, are met, nine letter-graded units, all with grades of C or better and a GPA of 3.0 or better have been achieved, and the graduate GWAR has been completed. For detailed information about these requirements, please visit the GAPE website or the above section on Advancement to Candidacy.

IMPORTANT: Eligible students can apply for graduation through self-service within their MySJSU account approximately two weeks after students have been approved for advancement to candidacy by the GAPE office. Students will be sent a MySJSU message including instructions and prompting them to apply for graduation. Only students who apply for graduation will be considered for graduation review.

Please note the following:

• All courses and requirements must be completed by the date of graduation.
• Any Incomplete (I), Report Delayed (RD), or Report Pending (RP) grades must be cleared before the degree can be awarded.
• Once the degree has been posted, no grade changes can be made to the record unless the Associate Dean for the College of Graduate Studies petitions the Registrar's Office on the student's behalf and only in rare cases.
• If a student is unable to complete the course work stipulated on the candidacy form or if the date of graduation is delayed, a Graduation Date Change Request for Award of Master's Degree must be requested through www.sjsu.edu/gape/forms (see Online Graduation Date Change Request)
• Required forms must be submitted by the deadlines posted on the GAPE website at deadlines website.
• Students are urged not to delay; failure to submit forms by the deadlines posted could delay graduation.

Master's Degree - Second or Sequential and Simultaneous Master's Degree

There are two options for acquiring a second master's degree. Graduate students who have completed one master's degree program at San José State University may, with the approval of the new department, complete requirements for a second master's degree at this institution.

In the first option, the student interested in a sequential second graduate degree after finishing another master's degree must apply for admission to the second graduate degree program after the first degree is completed and recorded on the permanent record. All policies and procedures listed in this catalog applicable to satisfactory completion of a master's degree apply to completion of requirements for a second master's degree, including that
program requirements must be completed within a seven-year period. Graduate Studies at SJSU will not admit an applicant in pursuit of a master's degree if it is determined that the applicant has a similar degree already. Pursuit of a second master's degree will receive a lower priority for admission.

The second option is pursuit of two simultaneous master's degrees. A student in good standing enrolled in one master's program may pursue a second master's degree. Matriculated master's students do not need to formally reapply to the university through Cal State Apply. However, the student must secure approval from and admission into the second master's degree program. This requires submission of all application materials previously requested of applicants by the department or school to the first degree program, as well as any additional materials required by the second program. Current transcripts, GRE scores, English-language test scores and letters of recommendation might be among those items required by the second department or school. The student is responsible for making those items available to the department regardless of his or her date of matriculation into the first major. Individual department deadlines apply for acceptance in any particular semester. Note: Approval for admission into the second master's program is given by means of its graduate advisor's signature on the Master's Level Double Degree Application; Contact the GAPE office for more information on this process.

The stipulation, however, is that a student pursuing simultaneous master's degrees cannot apply for graduation or be awarded either degree until both degree programs are complete. Both degrees must effectively be completed at the same time, and diplomas are issued for both degrees. If a student gains admission into a second degree program while still pursuing the first degree and applies for graduation before finishing the second program, he or she will be awarded the first master's degree and then lose matriculated status. Student status will thus be revoked and pursuit of a second master's degree prohibited. To satisfy this procedural requirement, a student should simply delay the request for award of the first degree until the second degree program requirements have been fulfilled. Please keep in mind that graduate units expire after seven years.

Alternatively, if a second master's degree is desired but will not be completed at the same time as the first, the student must file for graduation from the first degree program and formally apply for admission into the second program. That would require a full application, submission of all documentation required by the university and the department of the second master's program, and acceptance by both entities. Pursuit of a second master's degree will receive a lower priority for admission.

Per University Policy F77-1, an approved program for a second master's degree should be prepared by the student and graduate advisor in the new field. If the new program happens to include coursework taken in the first degree, a maximum of 33% of the total units required for the new degree may be courses completed in the previous degree at this institution. For example, a student might be permitted to apply up to 10 units toward a 30-unit program. Such courses must have been completed by the student with a grade of "A," "B" or, in special cases, "CR." The courses must be approved by the graduate advisor, who may limit the number of transferred units. The 33% level is allowed only for transfer of units from master's degree programs taken at SJSU. Transfer from completed degree programs at other institutions is not allowed.

Please note that both simultaneous degree programs must be completed in the same semester to qualify for the double degree award. Both programs must also be completed within seven years. The student who finds he or she cannot complete both degree programs in the same semester has the option of dropping one of the programs and receiving a single degree. Dropping one of the programs requires informing GAPE in writing.

**Interdisciplinary Studies Master's Program**

See the College of Graduate Studies.
Doctoral Requirements

- General Graduate Policies & Procedures
- Advancement to Candidacy
- Examinations
- Doctoral Dissertation and Project Requirements
- Graduation

Advancement to Candidacy

Students should seek advancement to candidacy as soon as possible for their given program and on the advice of their graduate advisor. Graduate students may submit a Petition for Advancement to Graduate Candidacy form after satisfying the following:

- completed a minimum of one year of study
- achieved classified status
- completed a minimum of nine letter-graded units with all grades "C" or higher
- fulfilled the GWAR requirement
- achieved a minimum cumulative and program 3.0 GPA, and,
- graduate within the five-year time limit for degree completion.

Doctoral students must submit their petition no later than one semester prior to graduating.

University Policy S19-3 requires that the Graduation Writing Assessment Requirement (GWAR) be fulfilled before advancement to candidacy. However, for special cases, the candidacy form may be filed during the semester in which a GWAR-satisfying course is taken.

Note that Title V (CCR 40510) requires a minimum 3.0 grade point average for all courses to satisfy graduate degree program requirements. Should courses in the graduate degree program be completed with unsatisfactory grades, these grades must remain in the program and will continue to be computed in the grade point average of the program. Therefore, the candidacy form will record each program course repeated and the grade earned. Course grades will be effectively averaged in the GPA calculation for advancement to candidacy and graduation. Please review University Policy F08-2 for more details.

Finally, students should be aware as to which catalog year they wish to declare and use to fulfill their graduation requirements. As program requirements may change slightly over a student’s course of study, catalog rights should also be discussed with an advisor as needed

Graduate Degree Program

As indicated above, the Petition for Advancement to Graduate Candidacy ("candidacy form") is submitted to GAPE when the student is qualified to advance to candidacy. This form lists all courses and culminating experiences that must be fulfilled for degree award. Students are advised to work closely with their advisor and GAPE evaluator prior to advancing to candidacy to ensure that the candidacy form is filled out accurately and in a timely manner.

There is no restriction in the number of units for project or dissertation research attempted but not included on the candidacy form. However, students completing a dissertation must include at least one 599 unit on the form, and the total number of units must be commensurate with program requirements. Students may not receive credit for project or dissertation units unless successfully completed; instead either an RP or NC grade will be assigned in the semester of enrollment. For courses in RP status, students may enroll in 1290R to maintain continuous enrollment until completion of their culminating experience. Students earning a NC must enroll in the course again and earn a CR to fulfill their culminating experience.
The original copy of the completed, signed Petition for Advancement to Graduate Candidacy should be submitted to GAPE in the Student Services Center by the deadlines. The student will be informed by the approval or denial of the petition through the student's MySJSU account under "Other Indicators" or via mail.

**Program Course Work**

Once approved, the candidacy form is an official contract between the student and university. Course substitutions (either a core or an elective course) can be made by submitting the appropriate substitution form to GAPE available at www.sjsu.edu/gape/forms. A course may not be dropped from the graduate degree program, once a course has been completed.

**Examinations**

**Doctor of Audiology - AuD**

It is California State University policy to require a qualifying examination and an oral defense of the culminating doctoral project in Doctor of Audiology (AuD) programs. Departmental requirements for these examinations vary. In all cases, it is the candidate's responsibility to register through the departmental graduate coordinator to take all required examinations and the dissertation oral defense. The candidate's advisor and/or the departmental graduate coordinator will be able to provide general information concerning the nature of the examinations and recommended preparation for them.

The AuD diploma cannot be transmitted to the candidate until the major department certifies to the program evaluator at GAPE via the Verification of Culminating Experience form available at www.sjsu.edu/gape/forms that the oral defense of the Doctoral Project has been completed satisfactorily. The student shall have completed all requirements for the degree within five years of achieving classified standing in the doctoral program. The appropriate campus authority may extend the time for completion of the requirements.

More details on the Doctor of Audiology Degree and its requirements may be found in the California Code of Regulations Title 5 §40517 and §40518.

**Doctor of Education Degree - EdD**

It is California State University policy to require a qualifying examination and an oral defense of the dissertation in Doctor of Education Degree (EdD) programs. Departmental requirements for these examinations vary. In all cases, it is the candidate's responsibility to register through the departmental graduate coordinator to take all required examinations and the dissertation oral defense. The candidate's advisor and/or the departmental graduate coordinator will be able to provide general information concerning the nature of the examinations and recommended preparation for them.

The EdD diploma cannot be transmitted to the candidate until the major department certifies to the program evaluator at GAPE via the Verification of Culminating Experience form available at www.sjsu.edu/gape/forms that the oral defense has been completed satisfactorily. The student shall have completed all requirements for the degree within five years of achieving classified standing in the doctoral program. The appropriate campus authority may extend the time for completion of the requirements.

More details on the Doctor of Education Degree and its requirements may be found in the California Code of Regulations Title 5 §40511 and §40512.

**Doctor of Nursing Practice (DNP)**
It is California State University policy to require a doctoral qualifying examination or assessment and an oral presentation of the doctoral project in Doctor of Nursing Practice (DNP) programs. Departmental requirements for these examinations vary. In all cases, it is the candidate's responsibility to register through the departmental coordinator of graduate studies to take all required examinations or undergo assessments and to give the oral presentation of the doctoral project. The candidate's advisor and/or the departmental graduate coordinator will be able to supply general information concerning the nature of the examination or assessment and the oral presentation and recommended preparation for them.

The DNP diploma cannot be transmitted to the candidate until the major department certifies to the program evaluator at GAPE via the Verification of Culminating Experience form available at www.sjsu.edu/gape/forms that the oral defense has been completed satisfactorily. The student shall have completed all requirements for the degree within five years of matriculation into the doctoral program.

More details on the Doctor of Nursing Practice Degree and its requirements may be found in the California Code of Regulations Title 5 §40513 and §40514.

**Doctoral Dissertation and Project Requirements**

**Doctoral Project Requirements - Doctor of Audiology Degree**

It is California State University policy to require a doctoral project in Doctor of Audiology (AuD) programs. A doctoral project proposal must be approved by program faculty. Approved proposals may be undertaken as projects that are developed under the guidance of faculty and approved by the doctoral project committee.

Project options may include, but are not limited to, one or more of the following:

1. **Evidence-Based Project**
   Evidence-based projects shall demonstrate a thorough synthesis of evidence related to a defined clinical question pertinent to the profession of audiology.

   Students shall produce a critical analysis of the literature, addressing the strength of evidence, synthesizing the findings of individual studies, interpreting the results, and applying the evidence to audiology practice. Both the written document and oral presentation will be reviewed according to a set of defined criteria specified in the AuD student handbook.

2. **Hearing Science Project**
   Projects shall demonstrate a thorough synthesis of evidence. Students shall produce a critical analysis of the literature, addressing the strength of evidence, synthesizing the findings of individual studies and interpreting the results. Both the written document and oral presentation will be reviewed according to a set of defined criteria specified in the AuD student handbook.

3. **Clinical Research Project**
   CSU AuD programs may use a clinical research project significant to the field of audiology. The project may be in the form of a meta-analysis, systematic review, clinical research project, or single-case research design project. Both the written document and oral presentation shall be reviewed according to a set of defined criteria specified in the AuD student handbook.

   Time is critical during the semester of submission of a doctoral project. Students must allow enough time for preparation of the draft, consideration by graduate committee members by the deadline dates set in departments, word processing, and the inevitable corrections. Students must leave time for the final reading and signing by the committee members. A minimum of two months is needed for the entire process, and departments may require a longer period. Students should confer with each committee member in advance regarding the time each requires for review and whether each will be in town and available when the review and signatures are due. The student shall
have completed all requirements for the degree within five years of matriculation into the doctoral program. The appropriate campus authority may extend by up to two years the time for completion of the requirements.

**Doctoral Project Requirements - Doctor of Nursing Practice Degree**

It is California State University policy to require a doctoral project in Doctor of Nursing Practice (DNP) programs. Per that policy, the DNP doctoral project shall be the written product of a systematic, rigorous, evidence-based endeavor focused on a significant nursing practice issue. The doctoral project is expected to contribute to an improvement in professional practices, policy, or patient outcomes. It shall evidence originality, critical and independent thinking, appropriate form and organization, and adequate rationale. The DNP doctoral project shall reflect a command of the scholarly literature and shall demonstrate the student's mastery of evidence-based practice at the doctoral level. The written component of the doctoral project shall be organized in an appropriate form and shall identify the problem statement and purpose, state the major theoretical perspectives, explain the significance of the undertaking, relate it to the relevant scholarly and professional literature, identify the methods of gathering and analyzing the data, and offer a conclusion or recommendation.

**Doctoral Dissertation Requirements - Doctor of Education Degree**

It is California State University policy to require a dissertation in Doctor of Education Degree (EdD) programs. Per that policy, the EdD dissertation shall be the written product of systematic, rigorous research on a significant professional issue. It is expected to contribute to an improvement in professional practices or policy. It shall evidence originality, critical and independent thinking, appropriate form and organization, and a rationale. The EdD dissertation shall also identify the research problem and question(s), state the major theoretical perspectives, explain the significance of the undertaking, relate it to the relevant scholarly and professional literature, set forth the appropriate sources for and methods of gathering and analyzing the data, and offer a conclusion or recommendation. It shall include a written abstract that summarizes the significance of the work, objectives, methodology, and a conclusion or recommendation.

Time is critical during the semester of submission of a dissertation and timelines should be planned carefully to ensure that all department and university submission deadlines are met. Students must allow enough time for multiple draft preparation, committee feedback, formatting/word processing, and allowances for faculty time constraints. Students must leave time for the final reading and signing by the committee members. A minimum of two months may be needed for the entire process, and departments may require a longer period. Students must have completed all degree requirements within five years of achieving classified standing in the doctoral program. The appropriate campus authority may extend the time for completion of the requirements.

All instructions for dissertation formatting and submission to Graduate Studies are located in the SJSU Thesis and Dissertation Guidelines.

These instructions provide general guidance for authors of doctoral dissertations at SJSU. Examples of front pages are provided in the guidelines. Students should read the guidelines carefully and consult their advisors concerning the format of the thesis or dissertation, the professional style guide to use, and journal articles to emulate, if applicable. The major department sometimes provides students with more complete formatting instructions. In rare cases, the College of Graduate Studies will provide assistance.

SJSU participates in the University Microfilm International (UMI) Dissertation Information Service. Students completing theses and dissertations are required to email their committee-approved manuscript and accompanying documents to Graduate Studies according to the instructions provided in the SJSU Thesis and Dissertation Guidelines.

**Checking the Dissertation Manuscript**
The College of Graduate Studies does not serve as an editor nor content reviewer. The student and graduate committee members should carefully proofread the dissertation before it is submitted and are responsible for its content and ensuring that it is correctly formatted. A careful review should be used by the student as a guide to correcting similar errors in the entire manuscript. The review conducted by the College of Graduate Studies should also be regarded as an indicator of problems to be addressed globally throughout the manuscript. Making only the changes specifically indicated, rather than applying the feedback to the remainder of the document, may result in a substandard dissertation. The College of Graduate Studies may reject a dissertation with excessive errors.

Students can prevent rejection of the dissertation by ensuring that the final manuscript is free of the following frequent errors: pages for which no numbers are assigned, failure to apply reference style consistently or to cite references when needed, careless spacing or centering, inappropriate margins, incorrect footnotes or bibliography entries, redundancy, awkward or unclear sentences, grammatical errors, punctuation errors, spelling errors, word-usage errors, and inconsistencies in or lack of adherence to style-manual formatting rules.

Neither SJSU nor any of its separate offices or departments is responsible for matters concerning a student's relationships or agreements with any outside agency or individual consulted for manuscript preparation. Neither the university nor any of its offices will take part in disagreements between students and typists, editors or copy shops with regard to dissertation preparation services, expected costs or billed costs. A student conducting dissertation research off site, for example at a local company, must be free to include all of it in the dissertation. SJSU's legal relationship is only with the student and their compliance with the rules set forth in this and related documents and does not include any obligations to the company in question unless expressly agreed upon in a separate legal document.

For information about copyright permission, IRB & human subjects research, IBC, and animal research requirements, view the Research Policies and Procedures section.

Approval

The last three steps in the dissertation-approval process are outlined below:

1. After the dissertation has received final departmental (graduate committee) approval, as indicated by committee signatures, the complete document should be emailed along with the completed Dissertation Information Packet. Deadline dates for submission may be found at Thesis and Dissertation Information. The deadlines are firm, and exceptions are extremely rare.
2. The dissertation will be read and returned to the student with an assessment by the staff of the College of Graduate Studies as accepted without corrections, provisionally accepted with corrections, or not accepted.
3. If the manuscript has an abundance of errors in formatting, grammar, punctuation or other writing parameters, corrections will have to be made. The advisors on the student's graduate committee should be consulted about these corrections. It bears repeating that the College of Graduate Studies staff reads and edits only portions of the manuscript, but it is expected that errors of the kinds indicated be corrected throughout the manuscript. If the manuscript is accepted with corrections, the student will be instructed to resubmit it within about a four-week period from the point of notification. If it is rejected, the revised manuscript may not be submitted until the following semester.

Graduation

Graduation Requirements

After being admitted to candidacy for the doctorate degree, the student is then required to
• Maintain a minimum grade point average of 3.0 ("B") in completing requirements in the graduate degree program. The program is defined as completed courses included in the original graduate degree program plus all additions or substitutions.

• Complete all courses in the graduate degree program with grades between "A" and "C," or "CR." Grades of "C-"or lower, including "NC," "U," "IC" and "WU," are considered to be unsatisfactory. Should courses in the graduate degree program be completed with unsatisfactory grades, these grades must remain in the program and will continue to be computed in the grade point average of the program whether they are repeated or not.

• Complete all requirements for the degree as listed in the degree template in the university catalog. Substitutions for core and other required courses in the template must be justified and approved by graduate advisor and department chair by submitting a Core Substitution Petition.

• Complete an acceptable dissertation or project. The dissertation requires that one copy be submitted to the Associate Dean for College of Graduate Studies. Completed projects are submitted to the student's major department and a final comprehensive oral and/ or written examination over the field of concentration for the degree must usually be successfully completed. Failure on initial attempts at these exams results in administrative-academic probation. Failure of the final attempt results in administrative-academic disqualification from the degree program. The program evaluator at GAPE is notified of passage of the exam by means of graduate advisor completion of the Verification of Culminating Experience memo.

• Complete all work on the graduate degree program within five years preceding award of the degree. If courses become outdated, the candidate should consult the section titled Time Limits on Courses in Graduate Degree Programs concerning steps to be followed.

• Apply for the award of degree by the posted deadline dates through your MySJSU account two weeks after achieving advancement to candidacy.

• Note that failure to clear incomplete ("I"), report-in-progress ("RP"), or report-delayed ("RD") grades will prevent graduation. An "I" obtained in a graded class results in an automatic grade change to an "IC" grade following one academic year, which calculates to an "F" grade on the transcript, even after separation or graduation. In an ungraded ("CR/NC") course, the "I" reverts to a no credit ("NC") grade and is, therefore, also unsatisfactory for graduation if in a course on the candidacy form.

• Be in good academic standing (cumulative 3.0 minimum GPA in Graduate Division) at San José State University to receive a degree from this university.

Applying for the Doctoral Degree

The Petition for Advancement to Graduate Candidacy Form must be approved by the GAPE office before applying for graduation (see "Advancement to Candidacy"). Students should apply for graduation at least one semester before the date of anticipated graduation before filing for candidacy. However, it is highly advised that students apply at least one year before their future graduation date.

For detailed information about these requirements, please visit Steps for Completing Your Graduate Degree and the catalog section Graduate Degree - Advancement to Candidacy.

IMPORTANT: Eligible students can apply for graduation through self-service within their MySJSU account approximately two weeks after students have been approved for advancement to candidacy by the GAPE office. Students will be sent a MySJSU message including instructions and prompting them to apply for graduation. Only students that apply for graduation will be considered for graduation review.

Please note the following:

• All courses and requirements must be completed by the date of graduation.

• Any Incomplete (I), Report Delayed (RD), or Report Pending (RP) grades must be cleared before the degree can be awarded.
• Once the degree has been posted, no grade changes can be made to the record unless the Associate Dean for the College of Graduate Studies petitions the Registrar's Office in rare circumstances.

• If a student is unable to complete the course work stipulated on the candidacy form or if the date of graduation is delayed, a Graduation Date Change Request for Award of Graduate Degree must be requested through www.sjsu.edu/gape/forms (see Online Graduation Date Change Request)

• Required forms must be submitted by the deadlines posted on the GAPE website.

• Students are urged not to delay; failure to submit forms by the deadlines posted could delay graduation.
CSU Nondiscrimination Policy and Complaint Procedures

CSU Executive Order 1045

California State University (CSU) Student/Applicant for Admission Discrimination/ Harassment/ Retaliation Complaint Process Timeline

Systemwide Policy Prohibiting Discrimination, Harassment and Retaliation, Sexual Misconduct, Dating and Domestic Violence, and Stalking against Students and Systemwide Procedure for Addressing Such Complaints by Students

California State University Executive Order 1097 governs the procedures that SJSU follows when students make a complaint regarding Discrimination, Harassment and Retaliation, Sexual Misconduct, Dating and Domestic Violence, and Stalking.

California State University Executive Order 1097 informs students of their rights and responsibilities when they make a complaint and describes the Campus Early Resolution Process, Campus Investigation Process, Appeal Review-Office of the Chancellor, and Remedies that may be imposed.

Campus Climate

Tolerance, Respect and Understanding

As members of a university community it is our responsibility to advocate tolerance, respect and understanding at a level above that which is minimally required of us by law. While SJSU has largely succeeded in creating a diverse campus community, it must also actively promote a civil campus climate. This may require changes in attitudes and behaviors as we develop our common bonds.

Several of the values that might help us as members of an educational institution create these bonds are:

Respect for the individual: In recognition of individual uniqueness and value, whether as students, faculty, staff or administrators, it is our commitment to appropriately discourage any actions, behaviors, communication or programs that erode this fundamental concern for the individual.

Commitment to issue and problem resolution: It is the intent of the university to recognize the process of problem and issue resolution as integral to the successful achievement of its mission. SJSU is committed to addressing problems and issues in a responsive, equitable and timely manner.

Open communication and feedback: The university endorses and supports an environment of open communication and feedback. In support of this principle, the university will develop internal programs to educate, evaluate and provide feedback to support the growth process, including the growth of community and civility.

Protected Status
Genetic Information, Marital Status, Medical Condition, Nationality, Race or Ethnicity (including color or ancestry), Religion or Religious Creed, and Veteran or Military Status

California State University does not discriminate on the basis of age, genetic information, marital status, medical condition, nationality, race or ethnicity (including color and ancestry), religion (or religious creed), and veteran or military status - as these terms are defined in CSU Executive Order 1097 - in its programs and activities, including admission and access. Federal and state laws, including Title VI of the Civil Rights Act of 1964 and the California Equity in Higher Education Act, prohibit such discrimination.

CSU Executive Order 1097 Revised August 14, 2020, (or any successor policy) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party. The Director of Compliance has been designated to coordinate the efforts of San José State University to comply with all applicable federal and state laws prohibiting discrimination on these bases. Inquiries concerning compliance may be presented to the Director at 408-924-1200 or the Office for Equal Opportunity, UPD 303, 408-924-2250.

Disability

The California State University does not discriminate on the basis of disability (physical and mental) - as this term is defined in CSU Executive Order 1097 - in its programs and activities, including admission and access. Federal and state laws, including sections 504 and 508 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, prohibit such discrimination. Each campus has been designated to coordinate the efforts to comply with all applicable federal and state laws prohibiting discrimination on the basis of disability. Inquiries concerning compliance may be presented to this person at the Office for Equal Opportunity. CSU Executive Order 1097 Revised August 14, 2020, (or any successor policy) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party.

The Office for Equal Opportunity has been designated to coordinate the efforts of SJSU to comply with all relevant disability laws. Inquiries concerning compliance may be addressed to this office at 408-924-2250.

Gender (or sex), Gender Identity (including transgender), Gender Expression and Sexual Orientation

California State University does not discriminate on the basis of gender (or sex), gender (including transgender), gender expression or sexual orientation - as these terms are defined in CSU policy - in its programs and activities, including admission and access. Federal and state laws, including Title IX of the Education Amendments of 1972, prohibit such discrimination. The California State University is committed to providing equal opportunities to all CSU students in all campus programs, including intercollegiate athletics. Inquiries concerning compliance may be presented to this person at 408-924-1200 or the Office for Equal Opportunity, UPD 303, 408-924-2250. CSU Executive Order 1097 Revised August 14, 2020, (or any successor policy) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party.

Title IX of the Education Amendments of 1972 protects all people regardless of their gender, gender identity, gender expression or sexual orientation from gender discrimination, which includes sexual harassment and violence:

Sexual Discrimination or Gender Discrimination means an adverse action taken against a student by the CSU, a CSU employee, or another student because of gender or sex (including sexual harassment, sexual violence, domestic violence, dating violence, and stalking) that is perpetrated against an individual on a basis prohibited by

Sexual Harassment, a form of sex discrimination, is unwelcome verbal, nonverbal or physical conduct of a sexual nature that includes, but is not limited to, sexual advances, requests for sexual favors, and any other conduct of a sexual nature where:

1. Submission to, or rejection of, the conduct is explicitly or implicitly used as the basis for any decision affecting a complainant's academic status or progress, or access to benefits and services, honors, programs, or activities available at or through the university; or
2. The conduct is sufficiently severe, persistent or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the complainant, and is in fact considered by the complainant, as limiting his or her ability to participate in or benefit from the services, activities or opportunities offered by the university; or
3. The conduct is sufficiently severe, persistent or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the complainant, and is in fact considered by the complainant, as creating an intimidating, hostile or offensive environment.

Sexual harassment could include being forced to engage in unwanted sexual contact as a condition of membership in a student organization; being subjected to video or photographic exploitation, or a campaign of sexually explicit graffiti; or frequently being exposed to unwanted images of a sexual nature in a classroom that are unrelated to the coursework.

Sexual harassment also includes acts of verbal, non-verbal or physical aggression, intimidation or hostility based on gender or sex-stereotyping, even if those acts do not involve conduct of a sexual nature.

Executive Order 1097 covers unwelcome conduct of a sexual nature. While romantic, sexual, intimate, personal or social relationships between members of the University community may begin as consensual, they may evolve into situations that lead to sexual harassment or sexual misconduct, including dating or domestic violence, or stalking, subject to this policy. Claiming that the conduct was not motivated by sexual desire is not a defense to a complaint of harassment based on gender.

Sexual Misconduct: All sexual activity between members of the university community must be based on affirmative consent. Engaging in any sexual activity without first obtaining affirmative consent to the specific activity is sexual misconduct, whether or not the conduct violates any civil or criminal law. Sexual activity includes, but is not limited to, kissing, touching intimate body parts, fondling, intercourse, penetration of any body part, and oral sex. It also includes any unwelcome physical acts, such as unwelcome sexual touching, sexual assault, sexual battery, rape, and dating violence. When based on gender, domestic violence or stalking also constitute sexual misconduct. Sexual misconduct may include using physical force, violence, threat or intimidation, ignoring the objections of the other person, causing the other person's intoxication or incapacitation through the use of drugs or alcohol, or taking advantage of the other person's incapacitation (including voluntary intoxication) to engage in sexual activity. Men as well as women can be victims of these forms of sexual misconduct. Sexual activity with a minor is never consensual when the complainant is under 18 years old, because the minor is considered incapable of giving legal consent due to age.

Sexual Assault is a form of sexual misconduct and is an attempt, coupled with the ability, to commit a violent injury on the person of another because of that person's gender or sex.

Sexual Battery is a form of sexual misconduct and is any willful and unlawful use of force or violence upon the person of another because of that person's gender or sex as well as touching an intimate part of another person against that person's will and for the purpose of sexual arousal, gratification or abuse.

Rape is a form of sexual misconduct and is non-consensual sexual intercourse that may also involve the use of threat of force, violence, or immediate and unlawful bodily injury or threats of future retaliation and duress. Any sexual penetration, however slight, is sufficient to constitute rape. Sexual acts including intercourse are considered non-consensual when a person is incapable of giving consent because they are incapacitated from alcohol and/drugs, is
under 18 years old, or if a mental disorder or developmental or physical disability renders the person incapable of giving consent. The respondent's relationship to the person (such as family member, spouse, friend, acquaintance or stranger) is irrelevant.

**Acquaintance Rape** is a form of sexual misconduct committed by an individual known to the victim. This includes a person the victim may have just met; i.e., at a party, introduced through a friend, or on a social networking website.

**Affirmative Consent** means an informed, affirmative, conscious, voluntary, and mutual agreement to engage in sexual activity. It is the responsibility of each person involved in the sexual activity to ensure that they have the affirmative consent of the other participant(s) to engage in the sexual activity. Lack of protest or resistance does not mean consent nor does silence mean consent. Affirmative consent must be voluntary, and given without coercion, force, threats or intimidation.

- The existence of a dating or social relationship between those involved, or the fact of past sexual activities between them, should never by itself be assumed to be an indicator of affirmative consent. A request for someone to use a condom or birth control does not, in and of itself, constitute affirmative consent.
- Affirmative consent can be withdrawn or revoked. Consent to one form of sexual activity (or sexual act) does not constitute consent to other forms of sexual activity. Consent given to sexual activity on one occasion does not constitute consent on another occasion. There must always be mutual and affirmative consent to engage in sexual activity. Consent must be ongoing throughout a sexual activity and can be revoked at any time, including after penetration. Once consent is withdrawn or revoked, the sexual activity must stop immediately.
- A person who is incapacitated cannot give affirmative consent. A person is unable to consent when they are asleep, unconscious or is incapacitated due to the influence of drugs, alcohol, or medication so that they could not understand the fact, nature or extent of the sexual activity. A person is incapacitated if they lack the physical and/or mental ability to make informed, rational decisions.
- Whether an intoxicated person (as a result of using alcohol or other drugs) is incapacitated depends on the extent to which the alcohol or other drugs impact the person's decision-making capacity, awareness of consequences, and ability to make fully informed judgments. A person's own intoxication or incapacitation from drugs or alcohol does not diminish that person's responsibility to obtain affirmative consent before engaging in sexual activity.
- A person with a medical or mental disability may also lack the capacity to give consent.
- Sexual activity with a minor (a person under 18 years old) is not consensual, because a minor is considered incapable of giving legal consent due to age.
- It shall not be a valid excuse that a person affirmatively consented to the sexual activity if the respondent knew or reasonably should have known that the person was unable to consent to the sexual activity under any of the following circumstances:
  - The person was asleep or unconscious;
  - The person was incapacitated due to the influence of drugs, alcohol or medication, so that the person could not understand the fact, nature or extent of the sexual activity;
  - The person was unable to communicate due to a mental or physical condition.
- It shall not be a valid excuse that the respondent believed that the person consented to the sexual activity under either of the following circumstances:
  - The respondent's belief in affirmative consent arose from the intoxication or recklessness of the respondent;
  - The respondent did not take reasonable steps, in the circumstances known to the respondent at the time, to ascertain whether the person affirmatively consented.

**Consensual Relationships:** Consensual relationship means a sexual or romantic relationship between two persons who voluntarily enter into such a relationship. While sexual and/or romantic relationships between members of the University community may begin as consensual, they may evolve into situations that lead to discrimination, harassment, retaliation, sexual misconduct, dating or domestic violence, or stalking.
• A university employee shall not enter into a consensual relationship with a student or employee over whom they exercise direct or otherwise significant academic, administrative, supervisory, evaluative, counseling, or extracurricular authority. In the event such a relationship already exists, each campus shall develop a procedure to reassign such authority to avoid violations of this policy.

• This prohibition does not limit the right of an employee to make a recommendation on the personnel matters concerning a family or household member where the right to make recommendations on such personnel matters is explicitly provided for in the applicable collective bargaining agreement or MPP/confidential personnel plan.

Domestic Violence is abuse committed against someone who is a current or former spouse, current or former cohabitant, someone with whom the abuser has a child, someone with whom the abuser has or had a dating or engagement relationship, or a person similarly situated under California domestic or family violence law. Cohabitant means two unrelated persons living together for a substantial period of time, resulting in some permanency of relationship. It does not include roommates who do not have a romantic, intimate, or sexual relationship. Factors that may determine whether persons are cohabiting include, but are not limited to (1) sexual relations between the parties while sharing the same living quarters, (2) sharing of income or expenses, (3) joint use or ownership of property, (4) whether the parties hold themselves out as husband and wife, (5) the continuity of the relationship, and (6) the length of the relationship. For purposes of this definition, "abuse" means intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable apprehension of imminent serious bodily injury to himself or herself, or another. Abuse does not include non-physical, emotional distress or injury.

Dating Violence is abuse committed by a person who is or has been in a social or dating relationship of a romantic or intimate nature with the victim. This may include someone the victim just met; i.e., at a party, introduced through a friend, or on a social networking website. For purposes of this definition, "abuse" means intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable apprehension of imminent serious bodily injury to himself or herself, or another. Abuse does not include non-physical, emotional distress or injury.

Stalking means a repeated course of conduct directed at a specific person that would cause a reasonable person to fear for their or others’ safety or to suffer substantial emotional distress. For purposes of this definition:

• Course of conduct means two or more acts, including but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveys, threatens, or communicates to or about a person, or interferes with a person's property;

• Reasonable person means a reasonable person under similar circumstances and with the same protected status(es) as the complainant;

• Substantial emotional distress means significant mental suffering or anguish that may, but does not necessarily, require medical or other professional treatment or counseling.

See further information in the SJSU sexual violence and prevention and education statement, Title IX Notice of Nondiscrimination (which includes facts and myths about sexual violence), and Victim's Rights and Options Notice, at www.sjsu.edu/diversity/titleix.

Whom to Contact If You Have Complaints, Questions or Concerns

Title IX requires the university to designate a Title IX Coordinator to monitor and oversee overall Title IX compliance. The campus Title IX Coordinator is available to explain and discuss the university's complaint process, including the investigation and hearing process; the availability of reasonable supportive measures (both on and off campus regardless of whether the person chooses to report the conduct); the right to file a criminal complaint (for example, in cases of sexual misconduct); how confidentiality is handled; and other related matters. If you are in the midst of an emergency, please call the police immediately by dialing 9-1-1.

Wendi Liss
Title IX and Gender Equity Officer
Title IX requires the university to adopt and publish complaint procedures that provide for prompt and equitable resolution of gender discrimination complaints, including sexual harassment and misconduct, as well as provide training, education and preventive measures related to sex discrimination. CSU Executive Order 1097, revised August 14, 2020 (or any successor policy) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party.

Duty to Report. Except as provided below under confidentiality and sexual misconduct, dating violence, domestic violence, and stalking, any university employee who knows or has reason to know of allegations or acts that violate university policy shall promptly inform the Title IX Coordinator. These employees are required to disclose all information including the names of the parties, even where the person has requested that their name remain confidential. The Title IX Coordinator will determine whether confidentiality is appropriate given the circumstances of each such incident. (See confidential reporting options outlined below.)

Regardless of whether an alleged victim of gender discrimination ultimately files a complaint, if the campus knows or has reason to know about possible sexual discrimination, harassment or misconduct, it must review the matter to determine if an investigation is warranted. The campus must then take appropriate steps to eliminate any gender discrimination/harassment/misconduct, prevent its recurrence, and remedy its effects.

U.S. Department of Education, Office of Civil Rights (OCR):

(800) 421-3481 (main office), or (415) 486-5555 (California Office), or (800) 877-8339 (TDD) or ocr@ed.gov (main office) or ocr.sanfranscisco@ed.gov (California Office)

If you wish to fill out a complaint form online with the OCR, you may do so using the OCR Electronic Complaint Form.

Safety of the Campus Community is Primary

The university's primary concern is the safety of its campus community members. The use of alcohol or drugs never makes the victim at fault for gender discrimination, harassment or misconduct; therefore, victims should not be deterred from reporting incidents of sexual misconduct out of a concern that they might be disciplined for related violations of drug, alcohol or other university policies. Except in extreme circumstances, victims of sexual misconduct shall not be subject to discipline for related violations of the Student Conduct Code.

Racial Incidents at Educational Institutions

Federal Statute and Guidelines on Handling Racial Incidents at Educational Institutions

Title VII of the Civil Rights Act of 1964 is enforced by the U.S. Department of Education's Office for Civil Rights issued guidelines for educational institutions receiving federal assistance to follow in handling "Racial Incidents and Harassment Against Students at Educational Institutions." These guidelines clarify conduct that violates Title VI:
"Under Title VI of Civil Rights Act of 1964 (Title VI) and its implementing regulations, no individual may be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination on the ground of race, color or national origin under any program or activity that receives federal funds. Racially based conduct that has such an effect and that consists of different treatment of students on the basis of race by agents or employees, acting within the scope of their official duties, violates Title VI. In addition, the existence of a racially hostile environment that is created, encouraged, accepted, tolerated or left uncorrected ... also constitutes different treatment on the basis of race in violation of Title VI."

These same Title VI guidelines further define a "racially hostile environment" as harassing conduct (e.g. physical, verbal, graphic or written) that is sufficiently severe, pervasive or persistent so as to interfere with or limit the ability of an individual to participate in or benefit from the services, activities or privileges provided.

**Discrimination, Harassment and Retaliation Reporting and Protection**

SJSU policies prohibit retaliation against persons who file a complaint of discrimination, or assist with or participate in an SJSU or government agency investigation, proceeding or hearing concerning discrimination complaint. Retaliation complaints can be separately filed in the Office for Equal Opportunity, 408-924-1115. Or go to www.sjsu.edu/hr for more information.

San José State University is committed to creating an atmosphere in which all persons and groups can work and study free of unlawful discrimination.

Unit 11 Academic Student Employee: See Office of Faculty Affairs

**Students**

If you have any complaints regarding unlawful discrimination or harassment follow the complaint guidelines outlined in CSU Executive Order 1097 and complete the Student Complaint Form for Discrimination, Harassment, Retaliation & Sexual Misconduct under Title IX and return it to Office of Equal Opportunity.

For more information, see our FAQs or contact Office for Equal Opportunity.

For more information, visit the Students Harassment Complaints website.

**Sexual Harassment Policy and Complaints**

SJSU is committed to maintaining a working and learning environment free from sexual harassment for its students, employees and those who apply for employee or student status. Sexual harassment is conduct subject to disciplinary action.

CSU policy defines sexual harassment to include "such behavior as sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature directed towards an employee, student or applicant when one or more of the following circumstances are present:

- Submission to, or rejection of, the conduct is explicitly or implicitly used as the basis for any decision affecting a Complainant's academic status or progress, or access to benefits and services, honors, programs, or activities available at or through the University; or
- The conduct is sufficiently severe, persistent or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the Complainant, and is in fact considered by the
Complainant, as limiting his or her ability to participate in or benefit from the services, activities or opportunities offered by the University; or

- The conduct is sufficiently severe, persistent or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the Complainant, and is in fact considered by the Complainant, as creating an intimidating, hostile or offensive environment.

Sexual Harassment could include being forced to engage in unwanted sexual contact as a condition of membership in a student organization; being subjected to video exploitation or a campaign of sexually explicit graffiti; or frequently being exposed to unwanted images of a sexual nature in a classroom that are unrelated to the coursework.

Sexual Harassment also includes acts of verbal, non-verbal or physical aggression, intimidation or hostility based on Gender or sex-stereotyping, even if those acts do not involve conduct of a sexual nature.

Executive Order 1097 covers unwelcome conduct of a sexual nature. While romantic, sexual, intimate, personal or social relationships between members of the University community may begin as consensual, they may evolve into situations that lead to Sexual Harassment or Sexual Misconduct, including Dating or Domestic Violence, or Stalking, subject to this policy.

Claiming that the conduct was not motivated by sexual desire is not a defense to a complaint of harassment based on Gender.

All complaints dealing with sexual harassment should be directed to the Director, Office for Equal Opportunity, who has been designated to investigate such allegations.

**ROTC Recruiting**

San José State University hosts the Air Force Reserve Officers Training Corps program on campus solely in compliance with the federal requirements contained in The Solomon Amendment. This law, passed as an attachment to the FY97 Federal Appropriations Bill, allows the government to deny federal funding, including federal student aid, to any school that does not provide access to ROTC programs and military recruiters on its campus.

San José State University is guided by the principle of equal opportunity, including the conviction that there will be no differential treatment or harassment of persons because of race, color, religion, national origin, age, sex, marital status, pregnancy, disability, veteran's status, or sexual orientation. The university has a firm and unambiguous commitment to the active elimination of discrimination, and the affirmative recruitment of a diverse, multi-racial community of students, faculty and staff.

**Information Regarding Campus, Criminal and Civil Consequences of Committing Acts of Sexual Violence**

Individuals alleged to have committed sexual misconduct may face criminal prosecution by law enforcement and may incur penalties as a result of civil litigation. In addition, students may face discipline at the university, up to and including suspension or expulsion and withholding of their degrees. Employees may face sanctions up to and including suspension, demotion, or dismissal from employment, pursuant to established CSU policies and provisions of applicable collective bargaining unit agreements.

Students who are charged by the university with gender discrimination, harassment or sexual misconduct will be subject to discipline, pursuant to the California State University Student Conduct Procedures (see Executive Order 1089, revised August 14, 2020, or any successor executive order) and will be subject to appropriate sanctions. In addition, during any investigation, the university may implement interim measures in order to maintain a safe and non-discriminatory educational environment. Such measures may include but not be limited to: immediate interim suspension from the university; a required move from university-owned or affiliated housing; adjustments to course schedule; and/or prohibition from contact with parties involved in the alleged incident.
Confidentiality and Sexual Misconduct, Dating Violence, Domestic Violence and Stalking

The university encourages victims of sexual misconduct, dating violence, domestic violence or stalking to talk to someone about what happened - so they can get the support they need, and so the university can respond appropriately.

Privileged and Confidential Communications

Physicians, Psychotherapists, Professional Licensed Counselors, Licensed Clinical Social Workers, and Clergy - Physicians, psychotherapists, professional, licensed counselors, licensed clinical social workers, and clergy who work or volunteer on or off campus, acting solely in those roles or capacities as part of their employment, and who provide medical or mental health treatment or counseling (and those who act under their supervision, including all individuals who work or volunteer in their centers and offices) including those who act in that role under their supervision) may not report any information about an incident of sexual misconduct to anyone else at the university, including the Title IX Coordinator, without the victim's consent. A victim can seek assistance and support from physicians, psychotherapists, professional, licensed counselors, licensed clinical social workers and clergy without triggering a university investigation that could reveal the victim's identity or the fact of the victim's disclosure. However, see limited exceptions below regarding when health care practitioners must report to local law enforcement agencies. Health care practitioners should explain these limited exceptions to victims, if applicable.

Sexual Assault and Domestic Violence Counselors and Advocates - Sexual assault and domestic violence counselors and advocates who work or volunteer on or off campus in sexual assault centers, victim advocacy offices, women's centers and health centers (including those who act in that role under their supervision, along with non-professional counselors or advocates who work or volunteer in sexual assault centers, victim advocacy offices, women's centers, gender equity centers, or health centers), may talk to a victim without revealing any information about the victim and the incident of sexual misconduct to anyone else at the university, including the Title IX Coordinator, without the victim's consent. A victim can seek assistance and support from these counselors and advocates without triggering a university investigation that could reveal his/her identity or that a victim disclosed an incident to them. However, see limited exceptions below regarding when sexual assault and domestic violence counselors and advocates must report to local law enforcement agencies. Counselors and advocates should explain these limited exceptions to victims, if applicable.

The university will be unable to conduct an investigation into a particular incident or pursue disciplinary action against a perpetrator if a victim chooses to (1) speak only to a physician, professional licensed counselor, licensed clinical social worker, clergy member, sexual assault counselor, domestic violence counselor or advocate; and (2) maintain complete confidentiality. Even so, these individuals will assist victims in receiving other necessary protection and support, such as victim advocacy, disability, medical/health or mental health services, or legal services, and will advise victims regarding their right to file a Title IX complaint with the university and a separate complaint with local or university police. If a victim insists on confidentiality, such professionals, counselors and advocates will likely not be able to assist the victim with: university academic support or accommodations; changes to university-based living or working schedules; or adjustments to course schedules. A victim who at first requests confidentiality may later decide to file a complaint with the university or report the incident to the police, and thus have the incident fully investigated. These counselors and advocates can provide victims with that assistance if requested by the victim. These counselors and advocates will also explain that Title IX includes protections against retaliation, and that the university will not only take steps to prevent retaliation when it knows or reasonably should know of possible retaliation, but will also take strong responsive action if retaliation occurs.

EXCEPTIONS: Under California law, any health practitioner employed in a health facility, clinic, physician's office, or local or state public health department or clinic is required to make a report to local law enforcement if he or she provides medical services for a physical condition to a patient/victim who he or she knows or reasonably suspects is suffering from (1) a wound or physical injury inflicted by a firearm; or (2) any wound or other physical injury inflicted
upon a victim where the injury is the result of assaultive or abusive conduct (including sexual misconduct, domestic violence, and dating violence). This exception does not apply to sexual assault and domestic violence counselors and advocates. Health care practitioners should explain this limited exception to victims, if applicable.

Additionally, under California law, all professionals described above (physicians, psychotherapists, professional counselors, licensed clinical social workers, clergy, and sexual assault and domestic violence counselors and advocates) are mandatory child abuse and neglect reporters, and are required to report incidents involving victims under 18 years of age to local law enforcement. These professionals will explain this limited exception to victims, if applicable.

Finally, some or all of these professionals may also have reporting obligations under California law to: (1) local law enforcement in cases involving threats of immediate or imminent harm to self or others where disclosure of the information is necessary to prevent the threatened danger; or (2) to the court if compelled by court order or subpoena in a criminal proceeding related to the sexual misconduct, dating or domestic violence, or stalking incident. If applicable, these professionals will explain this limited exception to victims.

**Reporting to the University or Local Police**

If a victim reports to local or university police about sexual misconduct crimes, the police are required to notify victims that their names will become a matter of public record unless confidentiality is requested. If a victim requests that his/her identity be kept confidential, his/her name will not become a matter of public record and the police will not report the victim's identity to anyone else at the university, including the Title IX Coordinator. University police will, however, report the facts of the incident itself to the Title IX Coordinator being sure not to reveal to the Title IX Coordinator victim names/identities or compromise their own criminal investigation. The university is required by the federal Clery Act to report certain types of crimes (including certain sex offenses) in statistical reports. However, while the university will report the type of incident in the annual crime statistics report known as the Annual Safety Report, victim names/identities will not be revealed.

**Reporting to the Title IX Coordinator and Other University Employees**

Most university employees have a duty to report incidents of sexual misconduct when they are on notice of it. When a victim tells the Title IX Coordinator or another university employee about an incident of sexual misconduct, the victim has the right to expect the university to take immediate and appropriate steps to investigate what happened and to resolve the matter promptly and equitably. In all cases, the university strongly encourages victims to report incidents of sexual misconduct directly to the campus Title IX Coordinator. As detailed above, in the "Privileged and Confidential Communications" section of this policy, all university employees except physicians, licensed professional counselors, licensed clinical social workers, sexual assault counselors and advocates, must report to the Title IX Coordinator all relevant details about any incidents of sexual misconduct of which they become aware. The university will need to determine what happened - and will need to know the names of the victim(s) and the prepetrator, any witnesses, and any other relevant facts, including the date, time, and specific location of the incident.

To the extent possible, information reported to the Title IX Coordinator or other university employees will be shared only with individuals responsible for handling the university's response to the incident. The university will protect the privacy of individuals involved in a sexual misconduct violence incident except as otherwise required by law or university policy. A report of sexual misconduct may result in the gathering of extremely sensitive information about individuals in the campus community. While such information is considered confidential, university policy regarding access to public records and disclosure of personal information may require disclosure of certain information concerning a report of sexual misconduct. In such cases, efforts will be made to redact the records, as appropriate, in order to protect the victim's identity and privacy and the privacy of other involved individuals. Except as detailed in the section on "Privileged and Confidential Communications" above, no university employee, including the Title IX
Coordinator, should disclose the victim's identity to the police without the victim's consent or unless the victim has also reported the incident to the police.

If a victim requests of the Title IX Coordinator or another university employee that their identity remain completely confidential, the Title IX Coordinator will explain that the university cannot always honor that request or guarantee complete confidentiality. If a victim wishes to remain confidential or request that no investigation be conducted or disciplinary action taken, the university must weigh that request against the university's obligation to provide a safe, non-discriminatory environment for all students, employees, and third parties, including the victim. Under those circumstances, the Title IX Coordinator will determine whether the victim's request for complete confidentiality and/or no investigation can be honored under the facts and circumstances of the particular case, including whether the university has a legal obligation to report the incident, conduct an investigation or take other appropriate steps. Without information about a victim's identity, the university's ability to meaningfully investigate the incident and pursue disciplinary action against the perpetrator may be severely limited. See Executive Order 1095 (or any successor executive order) for further details around confidential reporting, and other related matters.

SJ SU Policies

San José State University does not discriminate on the basis of accent, age, ancestry, citizenship status, color, creed, disability, ethnicity, gender, genetic information, marital status, medical condition, national origin, race, religion or lack thereof, sex, sexual orientation, transgender, or veteran's status. This policy applies to all SJSU students, faculty and staff programs and activities. Title IX of the Education Amendments of 1972, and certain other federal and state laws, prohibit discrimination on the basis of sex in all education programs and activities operated by the university (both on and off campus). Questions regarding this policy should be directed to the Office for Equal Opportunity, 408-924-1115.

San José State University is committed to creating a safe, healthy, and supportive learning environment for our whole community. In this spirit, and to comply with educational mandates under CSU Chancellor's Office Executive Order 1095, all students are required to complete sexual assault prevention training annually.
Title IX (Nondiscrimination)

SJSU does not discriminate on the basis of sex in the educational programs and activities it conducts. Such programs and activities include admission of students and employment.

Department of Education, Office for Civil Rights: (800) 421-3481 or ocr@ed.gov

If you wish to fill out a complaint form online with the OCR, you may do so at: www2.ed.gov/about/offices/list/ocr/complaintintro.html.

Title IX requires the university to adopt and publish complaint procedures that provide for prompt and equitable resolution of gender discrimination complaints, including sexual harassment and misconduct as well as provide training, education and preventive measures related to sex discrimination. CSU Executive Order 1097 (http://www.calstate.edu/EO/EO-1097-rev-10-5-16.pdf) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party.

Except as provided below under confidentiality and sexual misconduct, dating violence, domestic violence, and stalking, any University employee who knows or has reason to know of allegations or acts that violate University policy shall promptly inform the Title IX Coordinator. These employees are required to disclose all information including the names of the parties, even where the person has requested that his/her name remain confidential. The Title IX Coordinator will determine whether confidentiality is appropriate given the circumstances of each such incident (see confidential reporting options outlined below).

Regardless of whether an alleged victim of gender discrimination ultimately files a complaint, if the campus knows or has reason to know about possible sexual discrimination, harassment or misconduct, violence, it must review the matter to determine if an investigation is warranted. The campus must then take appropriate steps to eliminate any gender discrimination/harassment/misconduct, prevent its recurrence, and remedy its effects.

Inquiries and complaints concerning the application of Title IX to programs and activities of SJSU may be referred to the Director of Compliance, SAB 106, 408-924-1200 or the Office for Equal Opportunity, UPD 303, 408-924-1115.

Reporting to the Title IX Coordinator and Other University Employees

Most university employees have a duty to report incidents of sexual misconduct when they are on notice of it. When a victim tells the Title IX Coordinator or another university employee about an incident of sexual misconduct, the victim has the right to expect the university to take immediate and appropriate steps to investigate what happened and to resolve the matter promptly and equitably. In all cases, the university strongly encourages victims to report incidents of sexual misconduct directly to the campus Title IX Coordinator. As detailed above, in the "Privileged and Confidential Communications" section of this policy, all university employees except physicians, licensed professional counselors, licensed clinical social workers, sexual assault counselors and advocates, must report to the Title IX Coordinator all relevant details about any incidents of sexual misconduct of which they become aware. The university will need to determine what happened - and will need to know the names of the victim(s) and the perpetrator(s), any witnesses, and any other relevant facts, including the date, time and specific location of the incident.

Student Complaint Procedure (Complaints Regarding the CSU)

The California State University takes very seriously complaints and concerns regarding the institution. If you have a complaint regarding the CSU, you may present your complaint as follows:
1. If your complaint concerns CSU's compliance with academic program quality and accrediting standards, you may present your complaint to the Western Association of Schools and Colleges (WASC) at www.wascsenior.org/comments. WASC is the agency that accredits the CSU's academic program. If you believe that your complaint warrants further attention after you have exhausted all the steps outlined by WASC, you may file an appeal with the Assistant Vice Chancellor, Academic and Student Affairs at the CSU Chancellor's Office.

2. If your complaint concerns an alleged violation by CSU of any law that prohibits discrimination, harassment or retaliation based on a protected status (such as age, disability, gender (or sex), gender identity, gender expression, nationality, race or ethnicity (including color or ancestry), religion or veteran or military status), you may present your complaint as described in Section XVI (Nondiscrimination Policy).

3. If your complaint concerns an alleged violation by the CSU of other state law, including laws prohibiting fraud and false advertising, you may present your claim to the campus president or designee. See Procedure for Student Complaints-Executive Order No. 1063 for details regarding the complaint requirements and complaint process: www.calstate.edu/eo/eo-1063.html.

4. Other complaints regarding the CSU may be presented to the campus dean of students, who will provide guidance on the appropriate campus process for addressing your particular issue.

This procedure should not be construed to limit any right that you may have to take legal action to resolve your complaint.

**Civil and Criminal Penalties for Violation of Federal Copyright Laws**

Anyone who is found to be liable for copyright infringement may be liable for either the owner's actual damages along with any profits of the infringer or statutory damages of up to $30,000 per work infringed. In the case of a willful infringement, a court may award up to $150,000 per work infringed. (See 17 U.S.C. §504.) Courts also have discretion to award costs and attorneys' fees to the prevailing party. (See 17 U.S.C. §505.) Under certain circumstances, willful copyright infringement may also result in criminal penalties, including imprisonment and fines. (See 17 U.S.C. §506 and 18 U.S.C. §2319.)

**Health Policies**

**Health Risks**

Federal Law requires the university to provide a description of health risks associated with alcohol and drug abuse.

**Alcohol**

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts. Moderate to high doses of alcohol caused marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described. Repeated use of alcohol can lead to dependence and addiction. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations and convulsions. Addictions often require medical support. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and liver.
Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

**California Alcohol and Drug Abuse Law**

The Alcoholic Beverage Control Act was enacted in 1953. This Act is intended to protect the safety, welfare, health, peace and morals of Californians, eliminate the unlicensed and unlawful manufacture, sale and disposal of alcoholic beverages and promote temperance in the consumption and use of alcoholic beverages. (Bus and Prof. Code 23001)

A person convicted of a violation of the Alcohol and Beverage Control Act is guilty of a misdemeanor or felony depending on the violation.

The Uniform Controlled Substances Act may be found in the Health and Safety Code, Section 11000-11651. This Act is the result of a growing concern over substances. Controlled Substances are divided into five Schedules and the substances under each Schedule may be found in Sections 11053-11058.

**Local Laws**

Local laws generally are consistent with Federal and State laws.

**University Regulations**

**Use and Abuse of Alcohol and Other Drugs- University Policy F10-1**

This policy delineates University policy concerning alcohol and illegal drugs or substances, provides procedural guidelines, and communicates the consequences of failing to adhere to established policies. Provision for the purchase, sale, service, and consumption of alcoholic beverages on campus is a privilege accorded to University members with the understanding that they will comply with internal rules, regulations, and relevant legislation (local, state or national). All members of the University community as well as their guests have a responsibility to ensure that alcohol is used in a responsible manner by persons twenty-one (21) years of age or older. The use of alcohol and other drugs should not interfere with the primary mission of the University as an educational institution.

Review the full policy here [http://www.sjsu.edu/senate/docs/F10-1.pdf](http://www.sjsu.edu/senate/docs/F10-1.pdf)

University regulations controlling student behavior may be found in the Student Conduct Code (Title 5 of the California Code of Regulations Section 41301). The Campus Alcohol Policy includes procedures for serving alcoholic beverages on campus.

The University is required to post in designated areas information concerning the use of anabolic steroids.

**Conduct Regarding Drugs and Alcohol**

SJSU students, faculty and staff are expected to comply with Federal, State and Local laws governing the use of alcohol and illicit drugs on the University campus and as part of university activities both on and off the campus. These laws control the possession, use and distribution of alcohol and unlawful drugs.

All incoming students are expected required to complete online training on sexual assault and alcohol abuse prevention. Incoming students will receive MySJSU notifications on training dates and course instructions when they are available.

The sale, possession, distribution or use of illicit drugs will not be tolerated. Students, faculty and staff are expected to comply with laws governing the possession, distribution and consumption of alcohol as promulgated by the State of California and the university.
It is the responsibility of every student, faculty member and employee to report incidents involving infractions of federal, state and local drug and alcohol laws on campus or at officially sponsored Off-Campus Activities to University Personnel or the Vice President for Student Affairs.

As is the case in courts, lack of awareness and/or failure to comprehend the regulations are not acceptable defense of one's actions.

Available Drug or Alcohol Counseling and Treatment Programs

SJSU students are encouraged to seek assistance for drug and alcohol problems at the Counseling & Psychological Services (CAPS) or at the Student Health Center. The State also maintains an Employee Assistance Program to help employees and their dependents with problems of alcohol and drugs.

Federal Trafficking Penalties

Federal penalties for trafficking are dependent upon several conditions including the substance, amounts involved and whether the matter is a first or second offense.

Penalties involve monetary sanctions and/or prison terms up to and including life in prison.

Federal Penalties and Sanctions For Illegal Possession Of A Controlled Substance 21 U.S.C. 844(a) - 1st conviction:
Up to 1 year imprisonment and fined at least $1,000 but not more than $100,000 or both.

After 1 prior drug conviction: At least 15 days in prison, not to exceed 2 years and fined at least $2,500 but not more than $250,000 or both.

After 2 or more prior drug convictions: At least 90 days in prison, not to exceed 3 years and fined at least $5,000 but not more than $250,000 or both.

Special sentencing provisions for possession of crack cocaine: Mandatory at least 5 years in prison, not to exceed 20 years and fined up to $250,000 or both if:

- 1st crack conviction and the amount of crack possessed exceeds 5 grams.
- 2nd crack conviction and the amount of crack possessed exceeds 3 grams.
- 3rd or subsequent crack conviction and the amount of crack possessed exceeds 1 gram.

21 U.S.C. 853(a)(2) and 881(a)(7) - Forfeiture of personal and real property used to possess or to facilitate possession of a controlled substance if that offense is punishable by more than 1 year imprisonment.
21 U.S.C. 881 (a)(4) - Forfeiture of vehicles, boats, aircraft or any other conveyance used to transport or conceal a controlled substance.

21 U.S.C. 844a - Civil fine of up to $10,000 (pending adoption of final regulations).

21 U.S.C. 853a - Denial of Federal benefits, such as student loans, grants, contracts and professional and commercial licenses, up to 1 year for first offense, up to 5 years for second and subsequent offenses.

18 U.S.C. 922(g) - Ineligible to receive or purchase a firearm.

**Tobacco**

As of August 2015, SJSU is a Smoke and Tobacco Free campus. For more information see Presidential Directive (PD1014-01 [http://www.sjsu.edu/president/directives]) and CSU Executive Order 1108.

For more information: [http://www.sjsu.edu/tobaccofree/](http://www.sjsu.edu/tobaccofree/)

**For tobacco cessation services:**

- Student Health Center- Wellness and Health Promotion
  408-924-6202
  www.sjsu.edu/wellness/tobacco
- Low Cost Nicotine Replacement Therapies (NRT):
  Patches and gum are available at Student Health Center Pharmacy
  408-924-6115
- California Smoker's Helpline
  1-800-662-8887 (1-800-NO-BUTTS)
- VA-San Jose Community Clinic
  408-363-3000

Some of the rationale for a smoke free campus includes:

- Tobacco, both smoked and smokeless, is the leading cause of cancers of the cheeks, gums, palate, tongue and lips.
- A one-pack-a-day smoker increases their chances of cancer of the esophagus by as much as 500%.
- Cigarette smokers are ten times more likely to die of lung cancer than non-smokers.
- Cancer is not the only disease associated with smoking.
- Cigarette smokers are twice as likely to get peptic ulcers as are non-smokers.
- Nicotine is a powerful constrictor of blood vessels and small arteries and results in the restriction of oxygen flow to the heart and elsewhere.
- Heart attacks and strokes are results of oxygen restriction.
- Smoking more than 1/2 pack daily is also associated with higher incidence of infertility in women.
- Babies born to women who smoke are lighter and smaller than those born to non-smokers. This is important because birth weight is a predictor of infant health.

**Human Immunodeficiency Virus (HIV)/ Acquired Immune Deficiency Syndrome (AIDS)**

HIV/AIDS is a viral disease which destroys the body's ability to fight specific illnesses.

The risks of HIV/AIDS can be reduced by:
• Avoiding the exchange of body fluids. HIV can be passed through the exchange of blood, semen, vaginal secretions and breast milk.
• Using condoms correctly and consistently to greatly reduce the exchange of body fluids.
• Reducing the number of sexual partners.
• Avoiding the use of intravenous drugs or sharing needles.
• Abstinence.
• Communicating with sexual partners before having sex about being tested for sexually transmitted infections and protection.

For more information about HIV/AIDS prevention, confidential testing, safer sex and free condoms, contact:

Student Health Center, Wellness and Health Promotion

Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students' privacy in their records maintained by the campus. The statute and regulations govern access to certain student records maintained by the campus and the release of such records. FERPA provides that the campus must give students access to most records directly related to the student, and must also provide opportunity for a hearing to correct the records if the student claims they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. FERPA generally requires the campus obtain a student's written consent before releasing personally identifiable data pertaining to the student. The campus has adopted a set of policies and procedures governing implementation of FERPA and the regulations. Copies of these policies and procedures may be obtained at (designate location on campus). Among the types of information included in the campus statement of policies and procedures are: (1) the types of student records maintained and the information they contain; (2) the official responsible for maintaining each type of record; (3) the location of access lists indicating persons requesting or receiving information from the record; (4) policies for reviewing and expunging records; (5) student access rights to their records; (6) the procedures for challenging the content of student records; (7) the right of the student to file a complaint with the Department of Education. The Department of Education has established an office and review board to investigate complaints and adjudicate violations. The designated office is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202-5920.

FERPA authorizes the campus to release "directory information" pertaining to students. "Directory information" may include the student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, grade level, enrollment status, degrees, honors, and awards received, and the most recent previous educational agency or institution the student attended. The campus may release this "directory information" at any time unless the campus has received prior written objection from the student specifying the information the student requests not be released. Written objections must be sent to the Registrar's Office. "Directory information" may include the student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, grade level, enrollment status, degrees, honors, and awards received, and the most recent previous educational agency or institution attended by the student. It should be noted, however, that University Policy S66-20 is more restrictive than the law. SJSU policy guidelines indicate that the only directory information routinely released to outside parties without student consent is enrollment status and degree completion (if applicable). Requests for addresses and telephone numbers are not honored, especially if requested for commercial purposes.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons have responsibilities in the campus's academic, administrative or service functions and have reason for accessing student records associated with their campus or other related academic responsibilities. Student records will be disclosed to the Chancellor's Office of the CSU in order to conduct research, to analyze trends, or to provide other administrative services on behalf of the CSU. Student records may also be disclosed to other persons or organizations under certain conditions (e.g., as part of the accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; or to other institutions to which the student is transferring).

University Development (Advancement) Programs

Directory information (see definition earlier) may be used by the university for the development of campus affiliated programs.

Career Placement Information
The Career Center may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. Any such data provided must be in a form that does not allow for the identification of any individual student. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all campuses in the California State University system.

**Student Identification Information**

**SJ SU ID Number**

San José State University is concerned about keeping your personal data private. We are required to use Social Security numbers to process payroll; award financial aid and document fees paid for tax relief purposes. However, for all other purposes, we will use your SJSU ID number for identification, rather than your Social Security Number.

**Use of Social Security Number**

Applicants are required to include their correct social security numbers in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C. 6109). The university uses the social security number to identify students and their records including identification for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the university to file information returns that include the student's social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.
Professional Education Scholastic Regulations

Disqualified students may enroll in Professional Education programs; however, the university, in considering applications for readmission and reinstatement, does not accept 400-series course credit as evidence of qualification for reinstatement.

Students desiring to apply extension credit toward the requirements for any degree or teachers' credentials must secure approval from the department that is authorizing the reinstatement.

All students enrolling through Professional Education must meet course prerequisites and are bound by all applicable university regulations given in this catalog, or in the most recent Winter Session, Summer Session or Open University schedule of classes.

Information concerning tuition fees, admission and registration policies and procedures, withdrawal and refund policies, grading systems, academic standards and student advisement may be found in this catalog. Regulations concerning the application of Professional Education credit toward bachelor's degrees and toward residence credit in the university are given elsewhere under Credit for Professional Education. For more information, visit the SJSU's State Authorization website, or contact stateauthorization@sjsu.edu.

State Authorization for Distance Education

Distance education authorization only impacts prospective students who are interested in completing a SJSU degree or certificate program (S16-17) while simultaneously residing in another state.

States expect institutions to obtain approval for regulated activities that occur in their state. These activities may include but are not limited to online learning, practical experiences, faculty teaching from another state, marketing, and advertising. The requirements as to which activities require authorization, the application processes, and the costs to comply vary greatly from state to state. An institution's compliance (or lack thereof) can affect its ability to receive federal financial aid.

Accreditation

San José State University is accredited by the Senior College and University Commission of the Western Association of Schools and Colleges (ACSWASC). To view SJSU's most recent accreditation letter as well as learn more about visits and reports, please visit the Accreditation website.

Resolving a Grievance

Students residing outside of California (while attending San José State University's (SJSU's) distance education programs) wishing to resolve a grievance should contact the appropriate office (e.g. Bursar's Office, Financial Aid Office etc.). If the issue persists, please follow the CSU Internal Complaint Process.

CSU Internal Complaint Process

Prior to filing a complaint with a state agency, see Executive Order No. 1063 for details regarding the complaint requirements and process. If you are a student wishing to file a complaint in your home state, please select the state contact at the State Higher Education Executive Officers Association (members list) to file a complaint directly in your state.
Disclosures

Arkansas

Arkansas Higher Education Coordinating Board certification does not constitute an endorsement of any institution, course or degree program. Such certification merely indicates that certain minimum standards have been met under the rules and regulations of institutional certification as defined in Arkansas Code § 6-61-301.

Georgia

After exhausting the below CSU Student Internal Complaint Process, Georgia residents may also file a complaint with the State of Georgia Nonpublic Postsecondary Education Commission using the student complaint form.

Maryland

The following content may be found on the Maryland Higher Education Commission website's:

1. Information on registration with the Commission; and,
2. The process for Maryland students to make complaints.

Minnesota

San José State University is registered with the office pursuant to sections 136A.61 to 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions.

Oregon

According to the Oregon Administrative Rules (OAR 583-030-0035(18)(c)), after classes begin for a term, an Oregon student who withdraws from a course is eligible for a partial refund through the middle week of the term. Refunds shall be based on unused instructional time and shall be prorated on a weekly basis for schools using a semester calendar.

Washington

San José State University is authorized by the Washington Student Achievement Council and meets the requirements and minimum educational standards established for degree-granting institutions under the Degree-Granting Institutions Act. This authorization is subject to periodic review and authorizes San José State University to offer field placement components for specific degree programs. The Council may be contacted for a list of currently authorized programs. Authorization by the Council does not carry with it an endorsement by the Council of the institution or its programs. Any person desiring information about the requirements of the act or the applicability of those requirements to the institution may contact the Council at P.O. Box 43430, Olympia, WA 98504-3430 or by email at degreeauthorization@wsac.wa.gov.

The transferability of credits earned at San José State University is at the discretion of the receiving college, university, or other educational institution. Students considering transferring to any institution should not assume that credits earned in any program of study at San José State University will be accepted by the receiving institution. Similarly, the ability of a degree, certificate, diploma, or other academic credential earned at San José State University to satisfy an admission requirement of another institution is at the discretion of the receiving institution. Accreditation does not guarantee credentials or credits earned at San José State University will be accepted by or
transferred to another institution. To minimize the risk of having to repeat coursework, students should contact the receiving institution in advance for evaluation and determination of transferability of credits and/or acceptability of degrees, diplomas, or certificates earned.

The Washington Student Achievement Council (WSAC) has authority to investigate student complaints against specific schools. WSAC may not be able to investigate every student complaint. Visit wsac.wa.gov/student-complaints for information regarding the WSAC complaint process.

**Refund Policy**

If SJSU plans to be authorized to offer a program in a particular state but does not obtain approval before the term starts, the student's application fee will be refunded.

University Policies

To see official SJSU University Policies, see www.sjsu.edu/senate/policies.

Academic Standards

Students studying for a baccalaureate degree are expected to maintain a grade point average of 2.0 "C" or better in their academic work at SJSU and in their overall collegiate record in order to continue in good standing. In determining a student's eligibility to remain enrolled in the university, both quality of performance and progress toward the student's objective are weighed. Use of grade points and grade point average for all letter-graded courses determines quality of performance. The length of time in meeting requirements is a factor in determining progress toward objectives. While the Registrar's Office makes every effort to notify students of their academic status, it is the student's responsibility to continuously monitor his or her own academic standing at MySJSU (which can be accessed through the One.SJSU.edu portal) (one.sjsu.edu).

Attendance Policy

University Policy F15-12, Attendance and Participation

Students are expected to attend all meetings for the courses in which they are enrolled as they are responsible for material discussed therein, and active participation is frequently essential to ensure maximum benefit to all class members. In some cases, attendance is fundamental to course objectives; for example, students may be required to interact with others in the class. Attendance is the responsibility of the student.

Participation may be used as a criterion for grading when the parameters and their evaluation are clearly defined in the course syllabus and the percentage of the overall grade is stated.

Academic Integrity Policy

The University emphasizes responsible citizenship and an awareness of ethical choices inherent in human development. Academic honesty and fairness foster ethical standards for all those who depend upon the integrity of the university, its courses, and its degrees. University degrees are compromised and the public is defrauded if faculty members or students knowingly or unwittingly allow dishonest acts to be rewarded academically. This policy sets the standards for such integrity and shall be used to inform students, faculty and staff of the university's Academic Integrity Policy (University Policy F15-7). University Academic Integrity Policies at http://www.sjsu.edu/studentconduct/policies.

Student Role
The San José State University Academic Integrity Policy requires that each student:

1. Know the rules that preserve academic integrity and abide by them at all times. This includes learning and abiding by rules associated with specific classes, exams and course assignments.
2. Know the consequences of violating the Academic Integrity Policy.
3. Know the appeal rights, and the procedures to be followed in the event of an appeal.
4. Foster academic integrity among peers.

**Faculty Member Role**

The San José State University Academic Integrity Policy requires that each faculty member:

1. Provide a clear and concise course syllabus that apprises students of the Academic Integrity Policy and the ethical standards and supporting procedures required in a course.
2. Make every reasonable effort to foster honest academic conduct. Specifically, examinations should be appropriately proctored or monitored to prevent students from copying, using non-cited resources, or exchanging information. Examinations and answers to examination questions should be kept private. Efforts should be made to give unique and varied assignments.
3. Take action against a student in accordance with this policy when supporting evidence indicates that the student has violated the Academic Integrity Policy.
4. Comply with the rules and standards of the Academic Integrity Policy.

**Office of Student Conduct and Ethical Development Role**

The San José State University Academic Integrity Policy requires that the Student Conduct Administrator, the Director of the Office of Student Conduct and Ethical Development (SCED)

1. Comply with and enforce the Student Conduct Code which includes the Academic Integrity Policy.
2. Adjudicate student conduct cases and assign administrative sanctions to students who have violated the Student Conduct Code.
3. Serve as a resource for faculty, staff and students on matters of academic integrity and this policy.
4. Ensure dissemination of the policy to the campus community when changes are made to the policy or procedures.

**1.0 Definitions Of Academic Dishonesty**

**1.1 Cheating**

At SJSU, cheating is the act of obtaining credit, attempting to obtain credit, or assisting others to obtain credit for academic work through the use of any dishonest, deceptive, or fraudulent means. Cheating at SJSU includes but is not limited to:

1.1.1. Copying, in part or in whole, from another's test or other evaluation instrument including homework assignments, worksheets, lab reports, essays, summaries, quizzes;
1.1.2. Submitting work previously graded in another course without prior approval by the course instructor or by departmental policy;
1.1.3. Submitting work simultaneously presented in two or more courses, without prior approval of all course instructors or by the department policies of all departments;
1.1.4. Using or consulting sources, tools, or materials prohibited by the instructor prior to or during an examination;
1.1.5. Altering or interfering with the grading process;
1.1.6. Sitting for an examination by a surrogate, or as a surrogate;
1.1.7. Any other act committed by a student in the course of their academic work which defrauds or misrepresents, including aiding others in any of the actions defined above.

1.2 Plagiarism

At SJSU plagiarism is the act of representing the work of another as one's own without giving appropriate credit, regardless of how that work was obtained, and/or submitting it to fulfill academic requirements. Plagiarism at SJSU includes but is not limited to:

1.2.1 knowingly or unknowingly incorporating the ideas, words, sentences, paragraphs, parts of sentences or paragraphs, or the specific substance of another's work without giving appropriate credit, and representing the product as one's own work;
1.2.2 Representing another's artistic/scholarly works such as computer programs, instrument printouts, inventions, musical compositions, photographs, paintings, drawings, sculptures, novels, short stories, poems, screen plays, or television scripts, as one's own.

2.0 Notification of Standards of Detecting Plagiarism

San José State University or its faculty may subscribe to or use plagiarism-detection services. Any plagiarism-detection service used by faculty or with which San José State University contracts shall ensure compliance with FERPA, university data security policies, and accessibility requirements.

Except for the stated purpose of storing submitted work in databases solely for the purpose of detecting plagiarism, any plagiarism-detection service with which San José State University contracts shall, to the fullest extent possible, agree to assure that ownership rights of all submitted work shall remain with the work's author and not with the plagiarism-detection service.

3.0 Sanctions

There shall be two major classifications of sanctions that may be imposed for violations of this policy: academic and administrative. Academic sanctions are those actions related to the course work and/or grades which are the province of the faculty. Administrative sanctions are concerned with a student’s status on campus and are acted on by the Office of Student Conduct and Ethical Development. The imposition of either an academic or administrative sanction will not preclude the additional imposition of the other.

3.1 Academic Sanctions

Faculty members are responsible for determining the type of academic sanction to be applied to students involved in incidents of cheating or plagiarism. Faculty may find it helpful to consult with their department chair, senior faculty, and/or the director of SCED in consideration of appropriate academic sanctions. Such sanctions shall be proportional to the offense against the Academic Integrity Policy that has occurred. Usually a form of “grade modification” will be employed. Before sanctions can be employed, the faculty member must have verified the instances of academic dishonesty by personal observation and/or documentation. In all cases, the violation must be reported to the Office of Student Conduct & Ethical Development on the reporting form for violations to the Academic Integrity Policy. The faculty member is expected to maintain in confidence notes and communications between the student and the faculty member as they may be relevant in subsequent disciplinary proceedings or any subsequent legal actions:

Recommended academic sanctions include:

3.1.1 oral reprimand;
3.1.2 repetition of the assignment with sufficient change in instructions such that none of the original assignment can be utilized;
3.1.3 lower grade on the evaluation instrument;
3.1.4 failure on the evaluation instrument;
3.1.5 reduction in course grade;
3.1.6 failure in the course;
3.1.7 recommendation of additional administrative sanctions (SCED to review for possible violations of the Student Conduct Code).

Faculty Discretion
Incidents involving the careless or inept handling of quoted material that fall short of the definitions of cheating or plagiarism, as defined in Items 1.1 and 1.2 of this policy, may be dealt with at the discretion of the faculty member concerned.

The faculty member also has the discretion and obligation to determine whether specific acts by a student fall under the description in 1.1.7.

3.2 Administrative Sanctions
As stipulated in the California Administrative Code, Section 41301 (and outlined in Executive Order 1098: Student Conduct Procedures), violations of the student conduct code and/or cheating or plagiarism in connection with an academic program may warrant expulsion, suspension, probation or a lesser sanction. Administrative action involving academic dishonesty at SJSU is the responsibility of the Office of Student Conduct & Ethical Development.

The Office of Student Conduct & Ethical Development will respond to:

1. referrals from the faculty of violations of the Academic Integrity Policy;
2. repeat violations as brought to attention by the faculty or through the centralized reports filed in the Office of Student Conduct & Ethical Development.

Faculty members will be notified by the Office of Student Conduct & Ethical Development when action has been taken. The Office of Student Conduct & Ethical Development shall maintain a record of students who have been reported for violating the Academic Integrity Policy. The information in this record will be used to identify and discipline students who have been reported.

4.0 Evaluation and Reporting

When a faculty member suspects a violation of the Academic Integrity Policy and is in possession of evidence to substantiate that violation (not excluding a statement of personal observation of the infraction by the faculty member or other SJSU personnel or students in the class), it is the faculty member's responsibility to take the following steps:

4.1 Confront the situation discreetly; that is, faculty members shall not discuss specific charges of cheating, plagiarism, or any other violations involving specific individuals in the classroom or elsewhere before other members of the class.

4.2 Communicate with the student concerning the alleged violation and arrange for a conference to present documentation. In this conference, the student should be advised of the allegation and be made aware of the supporting evidence and probable consequences. The student should be provided the opportunity to provide his/her perspective and respond to the allegation. Faculty members should make their best effort to meet with the student in person, but if that is not feasible, they can communicate in writing. The faculty member is expected to maintain in confidence notes and communications between the student and the faculty member except as they may be relevant in subsequent disciplinary proceedings or any subsequent legal actions.

4.3 Inform the student of the sanctions imposed in accordance with Section 4.0 if the faculty member still believes that a violation of the Academic Integrity Policy has occurred.

4.4 Report the alleged infraction and the academic action taken to the Office of Student Conduct & Ethical Development on the reporting form for violations to the Academic Integrity Policy. The form identifies the faculty member, student involved, and type of violation (cheating or plagiarism) and includes a description of the incident and
the academic sanctions imposed. Office of Student Conduct & Ethical Development shall review the academic sanctions imposed by the faculty member and determine whether they are justified in light of the provisions of the Student Conduct Code and commensurate with university norms of severity. Office of Student Conduct & Ethical Development shall further determine whether it will impose administrative sanctions. The faculty member must submit a copy of the supporting documentation to the Academic Integrity Reporting Form. After this initial report, no additional academic sanctions may be levied. Academic sanctions may not be imposed without a report to the Office of Student Conduct & Ethical Development. Should the faculty member neglect to file an appropriate report to the Office of Student Conduct & Ethical Development, any academic sanction imposed is invalid until the report is filed. All instances of ethical misconduct should be known to the university and reported to the Office of Student Conduct & Ethical Development. They should be reviewable and alterable by university oversight personnel, specifically the Director of the Office of Student Conduct & Ethical Development.

4.4 The instructor may impose the recommended penalty and make the report called for in section 4.4 without a conference when a student fails to attend a scheduled conference to discuss the alleged dishonesty, or when the apparent dishonesty is detected only near the end of the semester and the faculty makes a good-faith effort to contact the student but is unable to do so. In either case, the student's right to appeal is preserved.

5.0 Protection of Rights

5.1 Students are guaranteed due process, including the right to be informed of the charges and nature of the evidence supporting the charges and to have a meeting with the faculty member, Office of Student Conduct & Ethical Development, or other decision makers. At any such meeting, statements and evidence on behalf of the student may be submitted. This policy is not intended to deny the right to appeal of any decision through appropriate university channels.

5.2 Office of Student Conduct & Ethical Development shall review the academic sanction imposed by a faculty member on a student and determine whether evidence exists in support of the instructor's allegation. It shall also make an assessment of the proportionality of the sanction to the severity of the infraction and may recommend a reduction or increase in sanction severity. This assessment shall be made in consideration of consistency across the campus.

5.3 If upon review by the Office of Student Conduct & Ethical Development, the student is found not responsible of the charges or if insufficient evidence has been presented by the instructor to establish responsibility, then the student shall be exonerated and the case dismissed. In this event, the record of the alleged violation shall be expunged and academic sanctions against the student prohibited, barring an appeal by the faculty member to the Board of Academic Freedom and Professional Responsibility (BAFPR). If the Office of Student Conduct & Ethical Development finds that sanctions should be modified, the instructor must make those modifications, again barring an appeal by the faculty member to the BAFPR. Should the instructor refuse to lift or modify the sanctions recommended by SCED, the case shall be referred to the BAFPR. This section represents an exception to University Policy S99-9, Section IV.2.

5.4 If the BAFPR upholds the findings of the Office of Student Conduct & Ethical Development to exonerate the student or to modify the sanction, the instructor must lift the sanction imposed or modify it accordingly. If the instructor refuses to do so, as per CSU Executive Order 1037, "it is the responsibility of other qualified faculty to do so ... [i.e.] one or more persons with academic training comparable to the instructor of record who are presently on the faculty at that campus." Preferably, the department chair or school director, in conjunction with associate dean of the relevant college, shall be compelled to do so. If the remedial action has not been taken within a reasonable time as determined by the BAFPR, a request to the President, Provost or appropriate vice president can be made by the BAFPR chair and/or student to expedite the resolution.

5.5 All reasonable accommodations shall then be provided to the exonerated student if there is a fear of retaliation by the instructor. Accommodations might include the ability to retake the course without charge from a different instructor or to substitute a different course (the latter if approved by the student's advisor). If retaking the same
course, credit for assignments completed in the previous attempt shall be afforded if comparable. Academic standing shall revert to the standing that would have existed if the sanction had not been imposed.

5.6 Student Appeal Process. An appeal must be filed in writing to the BAFPR before the last day of instruction of the semester following that in which the academic sanction was imposed. The sanctions imposed and the Office of Student and Ethical Conduct findings shall be taken up by the BAFPR within 30 days of the official filing of the appeal. Evidence submitted by both student and faculty member shall be considered and the determination of responsibility shall be assessed.

6.0 Threats

Threats against any member of the faculty as a consequence of implementing this policy on academic integrity shall be cause for disciplinary action under Section 41301, Title 5, California Code of Regulations, and may also result in civil and criminal action.

7.0 Dissemination of Information

7.1 This policy shall be published in the University Catalog and on the university website. There shall also be copies of this policy in every department office and in the Office of Student Conduct & Ethical Development.

7.2 Dissemination of this information shall be the responsibility of the Office of Student Conduct & Ethical Development.

7.3 The Office of Student Conduct & Ethical Development shall submit a statistical report on the number and type of infractions and their eventual disposition to the Academic Senate annually.

7.4 Colleges and departments are encouraged to discuss periodically this policy at faculty meetings, including discussion of strategies for ensuring academic integrity among students and consistency among faculty.

7.5 Department chairs and school directors should ensure that new faculty members receive a copy of this policy and an oral explanation at the time they are given their first class assignment.

Complaints

A student involved in a dispute must first attempt to resolve the matter with the other party. If an agreement is not reached, the student should seek the aid of the University Ombudsperson or the immediate supervisor of the other party. Students may seek the counsel of the Ombudsperson before speaking with parties directly involved in the conflict. If this informal process fails to resolve the matter, the student should contact the University Ombudsperson regarding the formal complaint process.

Complaint Procedures - Alleged Violations of State Law

Student/Applicant Complaint Procedure for Alleged Violations of State Law Not Covered by Another CSU Complaint Procedure

Executive Order 1069 fulfills the requirements of the Higher Education Act Title IV, 34 Code of Federal Regulations sections 600.9(a)(1)(i)(A) and 668.43(b), by establishing a complaint procedure for CSU students and student applicants alleging that the CSU has violated one or more state laws, where there is no other applicable CSU complaint procedure.
I. Scope of Procedure
This complaint procedure is for CSU students and student applicants who believe the CSU has violated one or more state laws. It does not encompass complaints already covered by another CSU complaint procedure (e.g., student complaints alleging discrimination, harassment and retaliation, covered by Executive Order No. 1045). It also does not encompass complaints regarding CSU's compliance with academic program quality and accrediting standards; such complaints may be filed with the Western Association of Schools and Colleges (WASC), the agency that accredits the CSU's academic program, at http://www.wascsenior.org/comments.

II. The Complaint
A. The complaint must be filed within 30 work days of the CSU's alleged violation of one or more state laws, or the complainant's discovery thereof.
B. The complaint must be made in writing and clearly indicate the intent to file a complaint alleging that the CSU violated one or more state laws or specifically reference this executive order.
C. The complaint must contain the following:
   i. The complainant's name, student I.D. number, mailing address and telephone number.
   ii. The term and year of the complainant's last active academic status or the term and year the complainant sought admission to the university.
   iii. A detailed description of the specific actions that constituted the alleged violation of one or more state laws, including the specific law or laws alleged to have been violated and, if known, the name(s) and title(s) of the responsible CSU employee(s).
   iv. The date(s) the alleged improper activities occurred or the condition developed.
   v. A list of witnesses, if any, including their contact information and the facts known by each.
   vi. Copies of any documentary evidence that supports the complaint.
   vii. Descriptions of documents that support the complaint and, if known, where the documents are maintained and by whom if the actual documents are not in the possession of the complainant.
   viii. A dated and signed statement by the complainant under penalty of perjury that the complaint is true, or is believed by the complainant to be true.
D. The complaint may be filed with the campus president or designee (“campus administrator”).
E. The complaint must be personally delivered, or sent by electronic or certified mail. The complaint filing date is the date of personal service, the date on the electronic transmission or the postmark date of the mailing.

III. The Level I Campus Investigation
A. The campus administrator shall review the complaint to determine whether it is timely filed, contains all the required information and falls within the scope of this executive order. If it does, the campus administrator shall notify the complainant in writing within 10 work days of receipt of the complaint that the complaint has been accepted. If it is untimely or does not contain all of the required information, the campus administrator shall notify the complainant in writing within 10 work days of receipt of the complaint that the complaint has not been accepted and state the reasons.

If it is determined that the complaint falls within the scope of another CSU complaint procedure, the campus administrator shall forward the complaint to the appropriate campus official and shall notify the complainant in writing within 10 work days of receipt of the complaint that the complaint has been forwarded. The administrator shall not forward the complaint or disclose the complainant's identity to anyone who has or appears to have a conflict of interest in regard to the allegation(s).
B. If the complaint raises any new allegations after the complaint has been accepted, the campus administrator shall decide whether to include those allegations as part of the complaint. If they are not included as part of the initial complaint, the complainant shall be advised of the need to file a new complaint to address those allegations.
C. The campus administrator shall investigate the claim, or may appoint a third party to conduct an investigation. The investigator shall be a management personnel plan employee or an external consultant experienced in conducting investigations. If the complaint is against the CSU, the
chancellor or any Chancellor's Office employee, campus president or vice president, the campus
administrator shall consult with the Associate Vice Chancellor, Academic Affairs at the Chancellor's
Office, who shall determine the appropriate handling of the complaint. The timelines and
procedures for the process remain the same.

D. The complainant is required to fully cooperate in the investigation, and must participate in a timely
intake interview. If the complainant does not cooperate, the campus administrator may end the
investigation.

E. CSU employees are required to cooperate with the investigation, be truthful, maintain
confidentiality, and provide all relevant and/or requested information to the investigator.

F. Complaints and other information gathered during the course of the investigation by the university
shall be shared only with individuals who have a legitimate business reason to know.

IV. The Level I Campus Decision
The campus administrator shall make the final decision and issue a letter of determination to the
complainant no later than 60 work days from the date the complaint was filed, unless s/he determines that
extenuating circumstances warrant an extension of time. In no case shall the decision letter be issued later
than 90 work days from the date the complaint was filed.

i. Within the investigation period, the investigator must make findings of fact and conclusions
regarding the allegations, which s/he shall reduce to an investigative report. Preponderance of the
evidence is the applicable standard: in order to establish a fact, the investigator must find that the
evidence on one side outweighs the evidence on the other side.

ii. The report should include the following information:
   1. A summary of the allegations.
   2. A description of the investigative process.
   3. The preponderance of the evidence standard used to determine whether a violation
      occurred.
   4. The evidence considered.

iii. A determination of whether the allegations were found to be substantiated.

iv. Within the time frame specified above, the campus administrator shall notify the complainant in
writing of the outcome. The notification should include a summary of the allegations, a description
of the investigative process, the preponderance of the evidence standard used, the evidence
considered and a determination of whether the allegations were found to be substantiated. The
notification shall also inform the complainant what, if any, actions were or will be taken (specific
employee discipline is confidential), and of his/her option to file an appeal under Article V of this
executive order. The campus administrator shall maintain a copy of the notification as required by
the applicable document retention policy(ies).

II. The Level II Chancellor's Office Review and Decision
A. If the complainant is not satisfied with the campus decision, s/he may file a Level II appeal with the
Office of the Chancellor no later than 10 work days after receipt of the Level I decision. Level II
appeals shall be addressed to: Associate Vice Chancellor, Academic Affairs, CSU Office of the
Chancellor, 401 Golden Shore 6th Floor, Long Beach, California 90802.

B. The appeal shall be in writing and must detail the specific disagreements with the campus decision.
The issues raised on appeal shall be limited to those raised during the Level I process.

C. The Associate Vice Chancellor, Academic Affairs or designee shall review the issues raised on
appeal to determine whether the campus has adequately processed and addressed the complaint
and/or whether the preponderance of the evidence indicates that there has been a violation of state
law.

D. The Associate Vice Chancellor, Academic Affairs or designee shall issue a decision no later than
60 work days after receipt of the appeal unless s/he determines that extenuating circumstances
warrant an extension of time. In no case shall the final decision letter be issued later than 90 work
days from the date the appeal was filed. The decision shall include a summary of the issues raised
on appeal, a description of the review process, the preponderance of the evidence standard used,
the evidence considered and a final decision. The notification shall also inform the complainant
what, if any, actions were or will be taken (specific employee discipline is confidential), and note
that the CSU's review of the complaint is now considered final and complete. A copy of the final decision letter shall be provided to the campus administrator.

II. General Provisions

A. Work days are defined as Monday through Friday, excluding all official holidays or campus closures at the campus where the complaint originated.

B. A student/applicant must proceed with a complaint in good faith. A student who knowingly and intentionally files a false complaint, abuses this policy, or files a malicious or frivolous complaint may be subject to discipline. Discipline shall be taken in accordance with Section 41301, Title 5, California Code of Regulations.

C. When issuing a Level I or II response, personal delivery or certified mail shall be used. If personal delivery is used, a signature acknowledging the calendar date of delivery shall be obtained which will establish the date of response. If certified mail delivery is used, the postmark shall establish the date of response.

D. The CSU is not obligated under this executive order to investigate a complaint not timely filed under its provisions. Regardless, the CSU may investigate the underlying allegations if it determines the circumstances warrant investigation. Also, if the circumstances warrant investigation, the CSU may waive the time limits and choose to process the complaint under the complaint process set forth herein.

E. CSU will notify the California Department of Finance, Office of State Audits and Evaluation, and the Bureau of State Audits, of all cases of actual or suspected fraud, theft or other irregularities it learns of as the result of any complaint made under this executive order.

F. Time periods set forth in this executive order may be extended by the campus administrator and, at Level II, by the Associate Vice Chancellor, Academic Affairs up to the specified maximums, if any, provided s/he informs the complainant of the new time period in writing.

G. Care shall be taken to keep confidential the identity of the complainant in so far as feasible and consistent with the law.

H. CSU employees are prohibited from retaliating against complainants or others who cooperate with the investigation.

Effective: September 1, 2011

Model Complaint Procedure

Model complaint procedure for CSU students/applicants in compliance with HEA Title IV, 34 CFR, Sections 600.9 (a)(1)(i)(A) and 668.43(b)

Student/Applicant Complaint Procedure Notice

The California State University takes very seriously complaints and concerns regarding the institution. If you have a complaint regarding the CSU, you may present your complaint as follows:

1. If your complaint concerns CSU's compliance with academic program quality and accreditation standards, you may present your complaint on the Western Association of Schools and Colleges (WASC) website. WASC is the agency that accredits the CSU's academic program.

2. If your complaint concerns an alleged violation by CSU of a state law, including laws prohibiting fraud and false advertising, you may present your claim to the campus president or designee at [e-mail address]. The president or designee will provide guidance on the appropriate campus process for addressing your particular issue.

If you believe that your complaint warrants further attention after you have exhausted all the steps outlined by the president or designee, or by WASC, you may file an appeal with the Associate Vice Chancellor, Academic Affairs at the CSU Office of the Chancellor.

Note: Most complaints made to media outlets or public figures, including members of the California legislature, Congress, the Governor, or individual CSU trustees, are referred to the chancellor of the CSU.
Nothing in this disclosure should be construed to limit any right that you may have to take civil or criminal legal action to resolve your complaint.

The CSU has provided this disclosure to you in compliance with the requirements of the Higher Education Act of 1965, as amended, as regulated in 34 Code of Federal Regulations sections 600.9(a)(1)(i)(A) and 668.43(b).

**Course Syllabi**

Course Syllabi, University Policy, S16-9.pdf

Course syllabi enable students to better understand and fulfill their responsibilities as learners in courses. They are a necessary tool in higher education to enable students to take part in the learning process through knowing what is expected of them and what they can expect from the course. Student success is aided by students knowing in advance as much as possible about the course requirements so that they can plan their study time and coordinate work on assignments from multiple courses. Student success is also aided by encouraging students to contact their professors and providing information about key university policies to which they are subject. In addition, syllabi provide an opportunity to model thorough, clear, professional communication.

Review Syllabi Information Website.

**Educational Equity**

The California State University defines "educational equity" to be "justice, equal opportunity, fairness and impartiality in the educational processes affecting under-represented minorities. It involves the implementation of programs designed to attract, admit and support students heretofore excluded from full participation in the university by conditions of educational and economic disadvantages" (Educational Equity: A Continuing Commitment, published by the California State University, 1989).

The Office of Diversity, Equity and Inclusion leads university-wide efforts to ensure a welcoming, safe climate for every member of the San José State community.

San José State University defines diversity as the active appreciation, engagement, and support of ALL campus members in terms of their backgrounds, identities and experiences (as constituted by gender, socioeconomic class, political perspective, age, race, ethnicity, religion, sexual orientation, disability, regional origin, nationality, occupation, language, among others, and the intersection of these aspects).

For more information, visit: www.sjsu.edu/diversity.

**Equal Opportunity**

San José State University does not discriminate on the basis of accent, age, ancestry, citizenship status, color, creed, disability, ethnicity, gender, genetic information, marital status, medical condition, national origin, race, religion or lack thereof, sex, sexual orientation, transgender, or veteran's status. This policy applies to all SJSU students, faculty and staff programs and activities. Title IX of the Education Amendments of 1972, and certain other federal and state laws, prohibit discrimination on the basis of sex in all education programs and activities operated by the university (both on and off campus). Questions regarding this policy should be directed to the Office for Equal Opportunity, 408-924-1115

The California State University is committed to providing equal opportunities to men and women CSU students in all campus programs, including intercollegiate athletics.

For more information, please visit the Universal Personnel website.
Establishing a Committed Presence in Class

Establishing a Committed Presence in a Class, University Policy F15-3.pdf

Six instructional days before Census Day, i.e. the 14th day of instruction, is the last day for the student to add a class; this is also the last day for an instructor to drop a student who fails to establish a committed presence in the class. "Establishing a committed presence" is defined as the following options for the student:

- In-person classes. Attending the first class meeting or informing the instructor of the intention to continue in the class before 48 hours after the first official class meeting.
- Online classes. Logging on to the LMS class shell on the first scheduled day of the class or informing the instructor of the intention to continue in the class before 48 hours after the official class start date.

Faculty Office Hours

University Policy S12-1.pdf, Faculty Office Hours

Today's teaching and learning dynamics have changed dramatically for both students and faculty, with a much greater reliance on electronically mediated methods for communication. Faculty may now spend many hours in "unofficial" office hour time (including evenings and weekends) responding to students' instructional needs. These consultations are frequently held outside of the physical "official" office hours, but nonetheless constitute instructional and advising time. Faculty members are expected to be available to their students for instruction-related support and advising. To achieve this availability faculty members are expected to schedule office hours during which they will be available to their students for consultation.

Disciplinary Action Statement

Students who fail to comply with federal, state, and local laws governing the use of alcohol, illicit drugs, and other grounds upon which student discipline can be based, will be subject to sanctions ranging from disciplinary probation up to and including expulsion from the California State University. California State University Executive Order 1098 entitled Student Conduct Procedures governs the procedures that the University follows in student discipline cases.

Any permanent or probationary employee of the California State University may be dismissed, demoted or suspended for any one of several causes, including addiction to the use of controlled substances, conviction of a felony or conviction of any misdemeanor involving moral turpitude or drunkenness on duty (Educ. Code 89535). Employees challenging the imposition of such sanctions may appeal to the State Personnel Board and receive a hearing before an impartial body. Faculty employees have alternative appeal processes outlined in their collective bargaining agreement.

Student Fairness Committee

The Student Fairness Committee is under the jurisdiction of the university's Academic Senate and is guided by University Policy S14-3.pdf. This committee hears complaints of violations of student rights in instructional and curricular matters, including grade appeals, and, when appropriate, makes recommendations for redress. The committee also hears and seeks redress of non-instructional student grievances concerning individual members of the faculty, administration or staff and, when appropriate, makes recommendations for redress.

A grievance can be brought as a result of an unauthorized or unjustified act or decision by a member of the faculty or staff or an administrative officer which in any way adversely affects the status, rights, or privileges of a student. The SFC does not have the authority to receive complaints on matters of sexual harassment, civil rights, disability rights, or equity and diversity. Nor does the SFC deal with allegations of violations of the student code of conduct.
Disputes arising out of assignment of grades or grade appeals shall be considered and decided in accordance with Executive Order 1037. There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise (EO 1037).

The SFC will hear grade dispute petitions when petitions are deemed to be appropriate and include evidence related to the following conditions:

1. When there is evaluation of students that differs from announced requirements.
2. When there are belated impositions of requirements.
3. When grades are based on criteria other than academic performance in the course.
4. When grading criteria do not provide a clear and consistent method of evaluating students' work or performance.
5. When students' requests for information during the semester regarding their academic progress in the course are not responded to in a reasonable time (e.g., two weeks after the request is made).
6. When students' requests for an explanation of how the posted course grades for a term were determined are not responded to in a reasonable time (e.g., the later of two weeks after the request is made or one week before the add deadline for the fall or spring semester following the term in question).
7. When students are penalized for expressing opinions.
8. When students are given to understand that they are removed from a course without due process of a hearing.

Petitions must be filed no later than the end of the subsequent fall or spring semester following that in which the alleged cause of the dispute occurred. Prior to lodging a formal complaint, the student must secure informal, confidential advisement from the University Ombudsman. Before the committee will accept a petition, the student must exhaust all available avenues for informal resolution (i.e., prior to filing a petition, consult with the instructor, Department Chair, and the College Dean - if applicable - about the specific complaint).

Any student may contact the University Ombudsman ADM 269, 408-924-5995.

**Ombudsperson**

**What steps should I take if I feel my rights have been violated?**

If you feel that your rights have been violated or you would like to have an informal discussion with a confidential and neutral point person on campus you are encouraged to connect with the University Ombudsperson.

The University Ombudsperson is an advocate for procedural fairness who supports the integrity of the campus policies and procedures and ensures the equity of their application.

The Ombudsperson provides a neutral, confidential, and informal place to discuss a concern with the assurance that no action will be taken, nor will the visit be disclosed to anyone, without consent.

Religious Holidays

Accommodation to Students' Religious Holidays, University Policy S14-7.pdf

San José State University shall provide accommodation on any graded class work or activities for students wishing to observe religious holidays when such observances require students to be absent from class. It is the responsibility of the student to inform the instructor, in writing, about such holidays before the add deadline at the start of each semester. If such holidays occur before the add deadline, the student must notify the instructor, in writing, at least three days before the date that he/she will be absent. It is the responsibility of the instructor to make every reasonable effort to honor the student request without penalty, and of the student to make up the work missed.

Student Conduct & Ethical Development

The Office of Student Conduct and Ethical Development promotes fairness and consistency in the administration of the student conduct process while supporting a safe and inclusive living and learning environment. Student Conduct and Ethical Development commits to the principles of empathy, ethics, equity, integrity, and respect.

Through effective prevention (interactions, outreach, presentations) and response (student conduct process) initiatives, Student Conduct and Ethical Development facilitates ethical development, effective decision making, and problem solving skills and contributes to students' personal and academic success.

Student Conduct & Ethical Development

Student Conduct Code

Title 5, California Code of Regulations, §41301. Standards for Student Conduct

a. Campus Community Values
   The university is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the campus community should choose behaviors that contribute toward this end. Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the campus community, and contribute positively to student and university life.

b. Grounds for Student Discipline
   Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences.

   The following behavior is subject to disciplinary sanctions and are the grounds upon which student discipline can be based:
   1. Dishonesty, including:
      A. Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage.
      B. Furnishing false information to a university official, faculty member, or campus office.
      C. Forgery, alteration, or misuse of a university document, key, or identification instrument.
D. Misrepresenting oneself to be an authorized agent of the university or one of its auxiliaries.
2. Unauthorized entry into, presence in, use of, or misuse of university property.
3. Willful, material and substantial disruption or obstruction of a university-related activity, or any on-campus activity.
4. Participating in an activity that substantially and materially disrupts the normal operations of the university, or infringes on the rights of members of the university community.
5. Willful, material and substantial obstruction of the free flow of pedestrian or other traffic, on or leading to campus property or an off-campus university-related activity.
6. Disorderly, lewd, indecent, or obscene behavior at a university-related activity, or directed toward a member of the university community.
7. Conduct that threatens or endangers the health or safety of any person within or related to the university community, including physical abuse, threats, intimidation, harassment, or sexual misconduct.
8. Hazing, or conspiracy to haze. Hazing is defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury to any former, current, or prospective student of any school, community college, college, university or other educational institution in this state (Penal Code 245.6), and in addition, any act likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm, to any former, current, or prospective student of any school, community college, college, university or other educational institution. The term "hazing" does not include customary athletic events or school sanctioned events.

Neither the express or implied consent of a victim of hazing, nor the lack of active participation in a particular hazing incident is a defense. Apathy or acquiescence in the presence of hazing is not a neutral act, and is also a violation of this section.

9. Use, possession, manufacture, or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and university regulations) or the misuse of legal pharmaceutical drugs.
10. Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and university regulations), or public intoxication while on campus or at a university-related activity.
11. Theft of property or services from the university community, or misappropriation of university resources.
12. Unauthorized destruction, or damage to university property or other property in the university community.
13. Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons, or dangerous chemicals (without the prior authorization of the campus president) on campus or at a university-related activity.
14. Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for a commercial purpose.
15. Misuse of computer facilities or resources, including:
   A. Unauthorized entry into a file, for any purpose.
   B. Unauthorized transfer of a file.
   C. Use of another’s identification or password.
   D. Use of computing facilities, campus network, or other resources to interfere with the work of another member of the university community.
   E. Use of computing facilities and resources to send obscene or intimidating and abusive messages.
   F. Use of computing facilities and resources to interfere with normal university operations.
   G. Use of computing facilities and resources in violation of copyright laws.
   H. Violation of a campus computer use policy.
16. Violation of any published university policy, rule, regulation or presidential order.
17. Failure to comply with directions of, or interference with, any University official or any public safety officer while acting in the performance of his/her duties.
18. Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well-being of members of the university community, to property within the university community or poses a significant threat of disruption or interference with university operations.
19. Violation of the Student Conduct Procedures, including:
   A. Falsification, distortion, or misrepresentation of information related to a student discipline matter.
   B. Disruption or interference with the orderly progress of a student discipline proceeding.
   C. Initiation of a student discipline proceeding in bad faith.
   D. Attempting to discourage another from participating in the student discipline matter.
   E. Attempting to influence the impartiality of any participant in a student discipline matter.
   F. Verbal or physical harassment or intimidation of any participant in a student discipline matter.
   G. Failure to comply with the sanction(s) imposed under a student discipline proceeding.
20. Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.

c. Procedures for Enforcing this Code
The Chancellor shall adopt procedures to ensure students are afforded appropriate notice and an opportunity to be heard before the university imposes any sanction for a violation of the Student Conduct Code. [Note: At the time of publication, such procedures are set forth in California State University Executive Order 1098 (Revised June 23, 2015), available at http://calstate.edu/eo/EO-1098-rev-6-23-15.html.]
d. Application of this Code
Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting degrees, and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the campus community, or substantially disrupts the functions or operation of the University is within the jurisdiction of this Article regardless of whether it occurs on or off campus. Nothing in this Code may conflict with Education Code section 66301 that prohibits disciplinary action against students based on behavior protected by the First Amendment.

Title 5, California Code of Regulations, §41302. Disposition of Fees: Campus Emergency; Interim Suspension.

The president of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which they are suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the president of the individual campus, the president may, after consultation with the chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The president may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the president or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.
Student Conduct Procedures

SJSU is committed to ensuring a safe learning and living environment for students, faculty, and staff. The privilege of attending San José State University is accompanied by certain responsibilities to ensure this environment. The California Code of Regulations, Title 5, Section 41301 establishes behavioral expectations of our students to promote safety and good citizenship. The California State University issued Executive Order 1098, entitled, Student Conduct Procedures, on June 23, 2015 to outline the procedures for administering the Student Conduct Code as well as ensuring students' rights to due process. The process is intended to be educational in nature, and appropriate sanctions may be administered.

Policy and Implementation

At San José State University the responsibility for administering the Student Conduct Code resides with the Director of Student Conduct and Ethical Development in the Division of Student Affairs. This position is responsible for carrying out the duties in Executive Order No. 1098 assigned to the Student Conduct Administrator, including the determination of whether to initiate disciplinary action.

Students may be accompanied by an advisor of their choice. The advisor's role is limited to observing and providing consultation, support, and advice to the Student. The advisor may not speak on the Student's behalf.

San José State University excludes attorneys from student discipline proceedings except in limited circumstances where there are (a) pending criminal (felony) charges or (b) the recommended sanction is Expulsion. (Refer to Executive Order 1098, Article II, Section C for additional details about attorneys.)

The duties of the president in Executive Order No. 1098 are delegated to the Vice President for Student Affairs, including the appointment of hearing officers (Article II, section B), review of final reports of hearing officers and issuing notice of the final decision (Article III, Sections E and F), and the imposition of interim suspension (Article VI, Sections H and I).

Student Discipline and Conduct

Questions regarding student disciplinary matters should be directed to Student Conduct & Ethical Development, Administration 218, 408-924-5985 or www.sjsu.edu/studentconduct.

Student Disciplinary Process

The student conduct process is governed by Executive Order 1098. Copies of this document are available in Student Conduct & Ethical Development, Administration 218, 408-924-5985 or www.sjsu.edu/studentconduct.

California Code of Regulations

Inappropriate conduct by students or by applicants for admission is subject to discipline as provided in Sections 41301 through 41304 of Title 5, California Code of Regulations.

Disposition of Fees

Disposition of Fees - Campus Emergency - 41302 - Interim Suspension
The President of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such a student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which they are suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the president of the individual campus, the President may, after consultation with the chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

**Conduct by Applicants for Admission - 41303**

Notwithstanding any provision in this Chapter 1 to the contrary, admission or readmission may be qualified or denied to any person who, while not enrolled as a student, commits acts which, were they enrolled as a student, would be the basis for disciplinary proceedings pursuant to Sections 41301 or 41302. Admission or readmission may be qualified or denied to any person who, while a student, commits acts which are subject to disciplinary action pursuant to Section 41301 or Section 41302. Qualified admission or denial of admission in such cases shall be determined under procedures adopted pursuant to Section 41304.

**Student Disciplinary Procedures for the California State University - 41304**

The chancellor shall prescribe, and may from time to time revise, a code of student disciplinary procedures for the California State University. Subject to other applicable law, this code shall provide for determinations of fact and sanctions to be applied for conduct which is a ground of discipline under Sections 41301 or 41302, and for qualified admission or denial of admission under Section 41303; the authority of the campus president in such matters; conduct-related determinations on financial aid eligibility and termination; alternative kinds of proceedings, including proceedings conducted by a hearing officer; time limitations; notice; conduct of hearings, including provisions governing evidence, a record and review; and such other related matters as may be appropriate. The chancellor shall report to the board actions taken under this section.

**Drug-Free Schools Statement**

In accordance with the Drug-Free Workplace and the Drug-Free Schools and Communities Act (P.L. 102-226) and the Presidential Directive (90-92), SJSU recognizes that the abuse of alcohol and other drugs is a threat to the health and welfare of the campus community and is not compatible with an environment where education takes place. Therefore, the following principles will serve as standards of conduct.

The unlawful manufacture, possession, distribution or use of a controlled substance is prohibited on campus. Violation of this standard may result in dismissal under the applicable regulations of the Title V and will be subject to civil and criminal penalties.
No individual below the age of 21 and no intoxicated individual may use, purchase or possess alcoholic beverages or they may be subject to the penalties imposed by local, state and federal laws.

SJSU recognizes that its policy on illicit drugs and alcohol meets the legal requirements of public laws 101-226, 100-440, 100-690 and the California Penal Code. For more explicit information on the policy and sanctions, contact the Office of the Vice President for Student Affairs or the Student Health Center.

**SJ SU's Commitment to Student Health and Safety**

SJSU is sincerely concerned for the welfare of all members of its community. The university recognizes that college and university campuses may be particularly vulnerable to the abuse of alcohol and other drugs. Concern for the potential impairment of education and learning and the safety and good health of all members of the campus community, as well as the effective conduct of campus affairs, has led SJSU to issue this information.

This information was prepared to inform members of the campus community of the problems associated with alcohol and illicit drug abuse; to indicate sources of assistance for such problems; to emphasize standards of conduct desired of students, faculty and employees; and to note sanctions associated with infractions of these standards and other illegal acts related to abuse.

All colleges and universities that receive federal funds in any form are required to comply with Public Law 101-226. Partial compliance with this new law requires annual distribution of information to students and employees. This law, in addition to the Drug Free Workplace Act (Public Law 100-690) which requires applicants for federally funded grants and contracts (including certain forms of student financial aid) to certify that they will take affirmative steps to prohibit the unlawful manufacture, distribution, possession and use of controlled substances in the workplace, establishes the legal requirements for SJSU.

A more complete compendium on Federal, State and Local laws is available at the following locations:

- Vice President for Student Affairs, ADM 242
- Human Resources, UPD
- Wellness and Health Promotion Office, Student Wellness Center 101

**Safety Report**

The Annual Safety Report is published each year in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. The report contains important safety information, SJSU policies, and crime statistics for the previous 3 years.

**University Police**

[www.sjsu.edu/police](http://www.sjsu.edu/police)
408-924-2172

**Sexual Harassment**

San José State University is committed to maintaining a learning and working environment free from sexual harassment of its students, employees, and those who apply for employee or student status. Sexual harassment is conduct subject to disciplinary action.

SJSU policy defines sexual harassment to include "behaviors such as sexual advances, request for sexual favors, and other verbal or physical conduct of a sexual nature directed towards an employee, student, or applicant when one or more of the following circumstances are present:
• Submission to or toleration of the conduct is an explicit or implicit term or condition of appointment, employment, admission or academic evaluation

• Submission to or rejection of such conduct is used as a basis for a personnel decision or an academic evaluation affecting an individual

• The conduct has the purpose of interfering with an employee’s work performance or creating an intimidating, hostile, offensive or otherwise adverse working environment

• The conduct had the purpose or effect of interfering with a student’s academic performance, creating an intimidating, hostile, offensive or otherwise adverse learning environment, or adversely affecting any student.

All complaints dealing with sexual harassment should be directed to the Office for Equal Opportunity.
Programs Leading to Licensure and Credentialing

Per CSU Memo: Federal Requirements for Posting Licensure and Certification Eligibility

Admission into programs leading to licensure and credentialing does not guarantee that students will obtain a license or credential. Licensure and credentialing requirements are set by agencies that are not controlled by or affiliated with the CSU and requirements can change at any time. For example, licensure or credentialing requirements can include evidence of the right to work in the United States (e.g., social security number or taxpayer identification number) or successfully passing a criminal background check. Students are responsible for determining whether they can meet licensure or credentialing requirements. The CSU will not refund tuition, fees or any associated costs to students who determine subsequent to admission that they cannot meet licensure or credentialing requirements. Information concerning licensure and credentialing requirements are available from the program directors.

The California State University has not determined whether its programs meet other states’ educational or professional requirements for licensure and certification. Students enrolled in a California State University program who are planning to pursue licensure or certification in other states are responsible for determining whether they will meet their state’s requirements for licensure or certification. This disclosure is made pursuant to 34 CFR §668.43(a)(5)(v)(C).

The list of all U.S. states and territories identifies for which the institution has determined that:

- Yes - Curriculum meets the state educational requirements for licensure or certification;
- No - Curriculum does not meet the state educational requirements for licensure or certification; or,
- Blank - Institution has not made a determination that its curriculum meets the state educational requirements for licensure or certification.

PhD, Cleveland State University

Alexander, Laura - **Assistant Athletics Director for Student Wellness, Student-Athlete Academic Services** (2013)

MS, Chapman University

Allen, Monica - **Assistant Professor, Public Health and Recreation** (2013)

BS and MPH, Loma Linda University

DPH, University of California, Berkeley

Allen, Heather - **Associate Professor, Music and Dance** (2009)

BSN, San Jose State University

MA, California State University, Long Beach

Alimo, Craig - **Diversity Trainer** (2019). BA, 1992, Rider College

BA, Rider College, New Jersey

MS, 1995, Northeastern University

PhD 2010, University of Maryland, College Park

Altura, Thomas - **Assistant Professor, School of Management** (2015)

BA, MBA, and PhD, University of California, Los Angeles

Alvarez, Mildred - **Associate Professor, Psychology** (1990)

BA, Florida International University

MA and PhD, Boston University

Amirkulova, Feruza - **Assistant Professor, Mechanical Engineering** (2018)

BS AND PhD, Samarkand State University named after Alisher Navoiy

MS and PhD, Rutgers University, New Brunswick

Anagnos, Thalia - **Vice Provost, Undergraduate Education** (1984)

BA, University of California, San Diego

MS and PhD, Stanford University

Anderson, Benjamin - **Assistant Professor, Accounting and Finance** (2015)
BS and MAc, Truman State University
PhD, University of Arkansas, Little Rock

Anderson, Curt - Senior Director, Marketing, Communications, and Outreach (2013)
BA and MA, San Francisco State University

Anderson, James - Associate Director, Student Affairs Systems and Student Success Programs (1998)
BS, San Jose State University

Anderson, Selena - Assistant Professor, English (2017)
PhD

Andonian, Lynne - Professor, Occupational Therapy (2004)
BS, Boston University
MA, The Pratt Institute
PhD, Saybrook Graduate Institute

Andreopoulos, William - Assistant Professor, Computer Science (2019)
BS, McMaster University, Canada
MS, University of Toronto, Canada
PhD, York University, Canada

Arabit, Luis - Assistant Professor, Occupational Therapy (2018)
BS, University of the Philippines, Manila
MS, Texas Tech University
DOT, University of Saint Augustine, Florida

Armaline, William - Associate Professor, Sociology and Interdisciplinary Social Sciences (2007)
BA, University of Toledo
MA and PhD, University of Connecticut

Armani, Amir - Assistant Professor, Mechanical Engineering (2018)
PhD, Missouri University of Science and Technology

Armstrong, Amber - Director of Special Events (2019)
BA, St. Mary's University
JD, University of Texas School of Law

Armstrong, Cole - Assistant Professor, Kinesiology (2015)
BS and MS, University of Central Missouri
PhD, Florida State University

Asplund, Curtis - Assistant Professor, Physics and Astronomy (2020)

PhD, University of California, Santa Barbara

Asuncion, Arlene - Professor, Psychology (1995)

BA and PhD, University of California, Santa Barbara

Attar, Nada - Assistant Professor, Computer Science (2018)

BSs, King AbdulAziz University, Saudi Arabia

MS, Tufts University

PhD, University of Massachusetts, Boston

August, Amy - Assistant Professor, Sociology and Interdisciplinary Social Sciences (2020)

BA and MA, University of Illinois at Chicago

MA, Dominican University, River Forest

PhD, University of Minnesota

Austin, Thomas - Associate Professor, Computer Science (2013)

BA, Santa Clara State University

MS, San Jose State University

PhD, University of California, Santa Cruz

Avena, Jennifer - Assistant Professor, Biological Sciences (2020)

PhD, University of Colorado at Boulder

Azcona, Stevan - Assistant Professor, Chicana and Chicano Studies (2018)

BA, University of California, Santa Barbara

MM and PhD, University of Texas, Austin

Badawy, Mohamed - Assistant Professor, Electrical Engineering (2016)
   BS, Cairo University
   MS and PhD, University of Akron

Baer, Cynthia - Assistant Professor, English (1981)
   BA, San Jose State University
   PhD, University of Washington

Bahuguna, Ramendra - Professor, Physics and Astronomy (1989)
   BS, Bareilly College, India
   MS and PhD, Indian Institute of Technology, New Delhi

Bailey, Christa - Senior Assistant, University Library (2003)
   BS, Santa Clara University
   MS, San Jose State University

Bagley, Brian - Senior Landscape Manager, Ground (2017)
   BS, University of California, Davis

Bakhru, Tanya - Professor, Sociology and Interdisciplinary Social Sciences (2008)
   Ba, University of Redlands
   MA, San Diego State University
   PhD, University College Dublin, Ireland

Balogh, Randy - Director of Planned Giving (2016)
   MS, Bowling Green State University

Bang, Janet - Assistant Professor, Child and Adolescent Development (2020)
   BS, University of California, Los Angeles
   PhD, McGill University, Canada

Barash, Mark - Assistant Professor, Justice Studies (2019)
   BS and MS, Hebrew University of Jerusalem, Israel
PhD, Bond University, Australia

Barez, Fred - *Professor and Chair, Mechanical Engineering* (1985)
  BS, Michigan Technological University
  MS and PhD, University of California, Berkeley

Bargas, Darlene - Manager, *Instructional and Meeting Spaces* (2005)
  AS, Monterey Peninsula College

Barrera, Magdalena - *Professor, Chicana and Chicano Studies Department and Interim Vice Provost for Faculty Success, Office of Provost* (2008)
  BA, University of Chicago
  PhD, Stanford University

Bashash, Saeid - *Assistant Professor, Mechanical Engineering* (2015)
  BS, Sharif University of Technology
  MS and PhD, Clemson University

  BEcon (Hons), University of Delhi, India
  MBA, Indian Institute of Management, India
  MPhil and PhD, University of Cambridge, United Kingdom

Bates, Brian - *Associate Vice President, Alumni and Community Engagement* (2007)
  BA, Washington State University

Baur, Joshua - *Assistant Professor, Public Health and Recreation* (2014)
  BA, University of California, San Diego
  MS, University of Michigan
  PhD, Oregon State University

Baweł-Brinkley, Karen - *Professor, Nursing* (2004)
  BS, University of Evansville
  MS and PhD, Indiana University, South Bend

Bechert, Andrea - *Assistant Professor, Film and Theatre* (2016)
  BS, Northern Arizona University
  MFA, Ohio State University

Bechkoff, Jennifer - *Professor, Marketing and Business Analytics* (2008)
BS and MBA, California State University, Fresno
PhD, University of Cincinnati

Becker, Bernd - Librarian, University Library (2009)
MLIS, San Jose State University

Bejar Lopez, Sergio - Associate Professor, Political Science (2015)
PhD, University of Notre Dame

Belcastro, Frank - Administrative Bureau Commander (2008)
BS, Fordham University

Bellofiore, Alessandro - Associate Professor, Biomedical Engineering (2014)
MS and PhD, Università Federico II di Napoli, Italy

Benson, Jeffrey - Associate Professor, Music and Dance (2011)
BS, New York University
MM and PhD, Florida State University

Beresford, Melissa - Assistant Professor, Anthropology (2019)
PhD, Arizona State University

Bernier, Anthony - Professor, School of Information (2005)
BA and MLIS, University of California, Berkeley
MA and PhD, University of California, Irvine

Betre, Kassahun - Assistant Professor, Physics and Astronomy (2020)
PhD, Stanford University

Beyersdorf, Peter - Professor, Physics and Astronomy (2005)
BS, University of Michigan
PhD, Stanford University

Bhagat, Shaum - Professor and Chair, Audiology (2017)
BA, Washington State University
MS, The University of Arizona
PhD, University of Texas, Austin

Bindal, Ahmet - Professor, Computer Engineering (2007)
BS, Bogazici University, Turkey
MS and PhD, University of California, Los Angeles
Blackmer Reyes, Kathryn - Librarian, University Library (2007)
   MA, Binghamton University
   MLIS, San Jose State University
Blanton, Andrew - Assistant Professor, Art and Art History (2014)
   MFA, University of North Texas
Blisniuk, Kimberly - Assistant Professor, Geology (2015)
   PhD, University of California, Davis
Blockus, Marilyn - Professor, Mathematics (1977)
   BA, Elmira College
   PhD, John Hopkins University
Bodart, Joni - Associate Professor, School of Information (2003)
   BS, BA, MLIS, MA, and PhD, Texas Woman's University
Boero, Natalie - Professor, Sociology and Interdisciplinary Social Sciences (2006)
   BA, Linfield College
   MA and PhD, University of California, Berkeley
Bolding, Deborah - Associate Professor, Occupational Therapy (1993)
   BS, The University of Florida
   MS, Boston University
   PhD, Capella University
Bolton, Shawna - Assistant Professor, Justice Studies (2017)
   PhD, University of Wolverhampton, United Kingdom
Bogie, Nathaniel - Assistant Professor, Geology (2019)
   BS, University of California, Santa Cruz
   PhD, University of California, Merced
Bonakdar, Sara - Director of Strategic Outsourcing (2016)
   BA, University of California, San Diego
   MA, University of Nevada, Reno
Bonesteel, Eric - Associate Director, Silicon Valley Outreach (2008)
   BA, San Jose State University
Botha, Jan - Professor, Civil and Environmental Engineering (1989)
PhD, University of California, Berkeley

Bowen, Dore - Associate Professor, Art and Art History (2005)
MA, San Francisco State University
PhD, University of Rochester

BS, James Madison University
MA, Austin Peay State University

Bowsky, Sonja - Manager, Distribution and Asset Services (2014)

Boyce, Travis - Associate Professor and Chair, African American Studies (2020)
BA, Claflin University
MA and PhD, Ohio University

Boylan-Ashraf, Peggy - Assistant Professor, General Engineering (2015)
BS, MEng, and PhD, Iowa State University

Brada, Angela - Professor and Chair, English (1998)
BA, University of California, Berkeley
MA and PhD, University of California, Santa Barbara

Brady, Jacquelyn - Assistant Professor, Psychology (2020)
BA, California State University, San Marcos
MS, Washington State University
PhD, Portland State University

Brandt, Kirsten - Assistant Professor, Film and Theatre (2019)
BA, University of California, San Diego
MFA, Goddard College

Bremer, Martina - Professor, Mathematics (2007)
BS, University of Hanover, Germany
MS and PhD, Purdue University

Brennan, Brent - Head Coach, Football (2005)
BA, University of California, Los Angeles

Brent, James - Professor, Political Science (1994)
BA, Southern Methodist University
MA and PhD, Ohio State University

Briceno, Allison - Assistant Professor, Teacher Education (2015)

BA, University of Pennsylvania
MA, Stanford University
DED, University of San Francisco

Bridger, Alison - Professor, Meteorology and Climate Science (1984)

BS, Sussex University, United Kingdom
MS, Reading University, United Kingdom
PhD, Colorado State University

Brinkman, Daniel - Assistant Professor, Mathematics (2016)

BS, University of Minnesota
PhD, University of Cambridge

Broberg, Scott - Director, Operations and Finance (2017)

BS, Santa Clara University

Brook, David - Professor, Chemistry (2006)

BS, University of Lancaster, United Kingdom
PhD, University of Colorado at Boulder

Brown, Calvin - Associate Director, Custodial and Moving Services, MLK Library Facility (2003)

Brown, Corie - Assistant Professor, Music and Dance (2019)

BME, Alma College
MA, University of Oregon
DMA, University of Colorado at Boulder

Brown, Étienne - Assistant Professor, Philosophy (2019)

BA and MA, University of Ottawa, Canada
PhD, Université Paris-Sorbonne, France

Brown, Karin - Professor, Philosophy (2001)

BA, Hunter College, The City University of New York
PhD, The Graduate Center, The City University of New York

Brown, Patrick - Assistant Professor, Meteorology and Climate Science (2012)

BS, University of Wisconsin
Bruce, Emily - Associate Professor, School of Social Work (1998)
  BS, University of California, Davis
  MSW, University of Washington
  PhD, University of California, Berkeley

Buckner-Capone, Anji - Assistant Professor, Public Health and Recreation (2005)
  MPH and DED, San Jose State University

Bui, Viet Anh - Assistant Director for Enterprise, Accounting Services (2018)
  BS, San Jose State University

Bullen, Maria - Associate Professor, Accounting and Finance (2014)
  PhD, University of California, Los Angeles

Burciaga, Maria Rebeca - Associate Professor, Chicana and Chicano Studies and Educational Leadership; Interim Chair, Educational Leadership (2010)
  BA, University of California, Santa Cruz
  EdM, Harvard Graduate School of Education
  PhD, University of California, Los Angeles

Burrell, Jalylah - Assistant Professor, African American Studies (2020)
  BA, Spelman College
  MA, New York University
  MA, M.Phi, and PhD, Yale University

Burrill, Gerald - Executive Managing Director for Hammer Theatre (2016)
  MFA, University of California, Irvine

Busch, Joel - Associate Professor, Accounting and Finance (2013)
  BS and MS, San Jose State University,
  JD, Monterey College of Law

Bustillo, Pamela - Associate Registrar (2014)
  BS, Santa Clara University

Butler, Stanley - Associate Professor, Kinesiology (1989)
  BS, Culver-Stockton College
Butryn, Theodore - Professor, Kinesiology (1997)
  BA, University of Tennessee-Knoxville
  BS, San Jose State University
  PhD, University of Tennessee, Knoxville

Butzlaff, Alice - Assistant Professor, Nursing (2016)
  PhD, University of California, San Francisco

Buurman, Erica - Assistant Professor, Music and Dance (2019)
  BM, MM, and PhD, University of Manchester

Byrd, Marquita - Associate Professor, Communication Studies (1991)
  BS, Central Missouri State University
  MA, Southern Illinois University
  PhD, University of Missouri, Columbia

Cabot, Matt - Associate Professor, Journalism and Mass Communications (2007)
  BA, University of the Pacific
  MS, San Jose State University
  MA, San Francisco Theological Seminary
  PhD, Regent University

Cabrera, Peggy - Associate Librarian, University Library (2005)
  MA, University of Arizona

Callaghan, Glenn - Professor, Psychology (1998)
  BA, University of California, Irvine
  PhD, University of Nevada, Reno

Campbell, Toni - Professor, Child and Adolescent Development (1985)
  BA, San Francisco State University
  Med, University of Houston
  MA and PhD, University of Kansas
Campisi, Marion - *Assistant Professor, Mathematics* (2015)

BA, University of California, Santa Cruz
PhD, University of California, Davis

Campsey, Billy - *Professor, Accounting and Finance* (1982)

BA and BBA, University of Texas, Arlington
MBA, University of Houston
PhD, University of Texas, Arlington

MA, Saint Mary's College of California

Canham, Daryl - Professor, Nursing (1979)

BS, University of New Mexico
MS, San Diego State University
DED, Nova University

Capdevila, Lucia - *Assistant Professor, Aerospace Engineering* (2017)

BS, MS, and PhD, Purdue University

Capizzi, Lorri - *Assistant Professor, Counselor Education* (2020)

MA, San Jose State University
EdD, San Francisco State University

Capriotti, Matthew - *Associate Professor, Psychology* (2016)

BA and BS, University of Florida
MS and PhD, University of Wisconsin, Milwaukee

Caraves, Jack - *Assistant Professor, Sociology and Interdisciplinary Social Sciences* (2019)

BA, University of California, Santa Cruz
PhD, University of California, Los Angeles

Cargill, Shelley - *Professor and Chair, Biological Sciences* (2009)

BS, California Polytechnic State University, San Luis Obispo
MS and PhD, University of California, Davis

Carr, Valerie - *Associate Professor, Psychology* (2015)

BS, College of William and Mary
PhD, University of California, Los Angeles
Carter, Andrew - Assistant Professor, Public Health and Recreation (2019)
   MA, San Jose State University
   MPh and PhD, University of Memphis

Carter, Benjamin - Associate Professor, Biological Sciences (2015)
   BS, California Polytechnic State University, San Luis Obispo
   PhD, University of California, Berkeley

Cascella, Paul - Professor, Communicative Disorders and Sciences (2015)
   BS, Marquette University
   MA, State University of New York, Buffalo
   PhD, University of Connecticut

Castillo, Francisco - Managing Director, JHSSC, Holland Student Success Center (2011)
   BA, University of California, Santa Barbara
   MS, California State University, Long Beach

Castillo Vardaro, Jessica - Assistant Professor, Biological Sciences (2019)
   PhD, Oregon State University

Cayco-Gajic, Maria - Professor, Mathematics (1988)
   BS, University of the Philippines
   MS, University of Connecticut
   PhD, Carnegie Mellon University

Celano, Justin - Police Lieutenant, UPD Patrol Division (2003)

Chagolla, Placentina - Custodial Crew Manager (2006)

Chai, David - Professor, Design (2004)
   BA and MA, San Jose State University

Chan, Emily - Associate Dean for Research and Scholarship, University Library (2011)
   MLIS, San Jose State University

Chan, Rebecca - Assistant Professor, Philosophy (2017)
   BA, Boston University
   MA and JD, University of Colorado
   PhD, University of Notre Dame

Chancellor-Freeland, Cheryl - Professor, Psychology (1996)
BA, San Jose State University  
PhD, University of California, Santa Barbara  

Chang, Lee - Professor, Applied Data Science (1986)  
PhD, University of Texas, Austin  

Chang, Megan - Associate Professor, Occupational Therapy (2012)  
BS, MA, and PhD, University of Southern California  

Chang, Seung Ho - Assistant Professor, Kinesiology (2016)  
BS and MA, Seoul National University, South Korea  
PhD, Ohio State University  

Chang, Shih Yu - Assistant Professor, Applied Data Science (2018)  
PhD, University of Michigan, Ann Harbor  

Cheers, Duane - Associate Professor, Journalism and Mass Communications (2006)  
PhD, Howard University  

Chen, Caroline - Assistant Professor, Accounting and Finance (2016)  
BS, Rutgers University Business School  
JD, American University  
LLM in Taxation, Georgetown University Law Center  

Chen, Gong - Professor, Kinesiology (1990)  
BEd, Shenyang Physical Education Institute  
MEd, Beijing University of Physical Education  
PhD, University of Arkansas, Fayetteville  

Chen, Guangliang - Assistant Professor, Mathematics (2014)  
BS, University of Science and Technology of China  
PhD, University of Minnesota  

Chen, Hsuanwei - Associate Professor, School of Information (2013)  
BS and MS, National Taiwan University, China  
PhD, University of Texas, Austin  

Chen, Yu - Assistant Professor, Information Systems and Technology (2018)  
BE, Huazhong University of Science and Technology, China  
MS, Norwegian University of Science and Technology, Norway
MS, Aalto University, Finland
PhD, Swiss Federal Institute of Technology at Lausanne, Switzerland

Cheng, Cheng - Senior Assistant, University Library (2018)
MLIS, State University of New York, Buffalo

Cheruzel, Lionel - Professor, Chemistry (2009)
PhD, University of Louisville
PDF, California Institute of Technology

Chiao, Sen - Professor, Meteorology and Climate Science (2011)
PhD, North Carolina State University

Chierichetti, Maria - Assistant Professor, Aerospace Engineering (2019)
BS and MS, Politecnico di Milano, Italy
PhD, Georgia Institute of Technology

Chin, Elaine - Professor, Teacher Education (2007)
BA and MA, University of Chicago
PhD, Stanford University

Chin, Jessica - Associate Professor, Kinesiology (2008)
BA, St. Mary's College of Maryland
MA, American University
PhD, University of Maryland

Cho, Jang Hyung - Professor, Accounting and Finance (2008)
PhD, Florida International University

Choi, Kyoung Mi - Associate Professor, Counselor Education (2019)
MA, MS, PhD, Syracuse University

Choo, Chang - Professor, Electrical Engineering (1991)
MS and PhD, Rensselaer Polytechnic Institute

Chopra, Ruma - Professor, History (2008)
PhD, University of California, Davis

Chou, Chengkuo - Associate Director, Planning and Operations (2017)
MS, University of California, Riverside

Chua, Peter - Professor, Sociology and Interdisciplinary Social Sciences (2001)
BS, University of Texas, Austin
MA and PhD, University of California, Santa Barbara

Chu, Helen - Associate Director, Enrollment Image and Archive Operations (2019)

BS, New Jersey Institute of Technology

Chun, Robert - Professor, Computer Science (1995)

BS, MS, PhD, University of California, Los Angeles

Chung, Wenchiang - Professor, Chemical and Materials Engineering (1987)

PhD, Auburn University

Cisar, Craig - Professor, Kinesiology (1986)

BS, University of South Dakota

MS, PhD, University of Nebraska-Lincoln

Clapp, John - Associate Professor, Design (1994)

MA, Syracuse University

Clements, Craig - Professor and Director of the Fire Weather Research Laboratory, Meteorology and Climate Science (2007)

BS, University of Nevada

MS, University of Utah

PhD, University of Houston

Clark, Robert - Deputy Director of Athletics, External Athletic Operations (2020)

BA, Occidental College

PhD, Texas A&M University

Coelho, Raquel - Associate Professor, Design (2009)

MFA, School of Visual Arts

Cohen, Edward - Professor, School of Social Work (2007)

MSW and PhD, University of California, Berkeley

Cohen, Fred - Professor and Chair, Music and Dance (2014)

BA, University of California, Santa Cruz

MA and PhD, Cornell University

Colbert, Beth - Associate Vice President, Advancement and Campaign Operations (2005)

BA and MS, San Jose State University
Coleman, James - Assistant Professor, English (2020)
    PhD, University of Pennsylvania

Colmenares, Erica - Assistant Professor, Humanities (2020)
    DED, Columbia University

Cole, Kristen - Assistant Professor, Communication Studies (2019)
    PhD, University of New Mexico

Combs, Howard - Professor, Marketing and Business Analytics (1996)
    BA and MBA, Virginia Polytechnic Institute and State University
    PhD, University of Georgia

Connolly, Thomas - Assistant Professor, Moss Landing Marine Lab (2015)
    BS, Stanford University
    MS and PhD, University of Washington

Coopman, Stephanie - Professor, Communication Studies (1990)
    BS, Western Michigan University
    MA, Central Michigan University
    PhD, University of Kentucky

Corcoran, Janine - Director of Development for Intercollegiate Athletics, External Athletic Operations (2018)
    BS, University of Delaware

Cordero, Eugene C - Professor, Meteorology and Climate Science (2002)
    BS and MS, California State University, Northridge
    PhD, University of California, Davis

Coria, Alfredo - Investigator, University Personnel (2018)
    BA, Sonoma State University
    JD, University of California Hastings of the Law

Correa-Morris, Carole - Director of Data and Resource Management (1990)
    BA and BS, San Jose State University

Craig, Richard - Professor, Journalism and Mass Communications (2000)
    BA, University of California, San Diego
    PhD, University of Illinois at Urbana-Champaign

Craighead, Jamie - Women's Basketball Head Coach, Women's Basketball (2013)
BA, University of Oregon

Cross, Eric - Parking Manager (2018)
BS, Austin Peay State University
MPA, University of Phoenix

BA

Crunk, Steven - Professor, Mathematics (2001)
BA
MS, California State University, Northridge
PhD, University of Pennsylvania

Cruz, Rebecca - Assistant Professor, Special Education (2020)
PhD, University of California, Berkeley

Cuellar, Megan - Assistant Professor, Communicative Disorders and Sciences (2020)
PhD, Tennessee State University

Currin-Percival, Mary - Assistant Professor, Political Science (2012)
PhD, University of California, Riverside

Curry-Rodriguez, Julia - Professor, Chicana and Chicano Studies (2000)
BA, University of California, Santa Barbara
MA and PhD, University of Texas, Austin

Cushing, Katherine - Professor and Director of the Office of Sustainability, Environmental Studies (2003)
BS, Northwestern University
MS and PhD, Stanford University

Czerwinski, David - Professor, Marketing and Business Analytics (2008)
BS, Stanford University
PhD, Massachusetts Institute of Technology

D

D’Alarcao, Marc - Dean, College of Graduate Studies (2007)
BS, Bridgewater State College
PhD, University of Illinois at Urbana-Champaign

D’Andrade, Amy - Professor, School of Social Work (2003)
MA and PhD, University of California, Berkeley

Da Silva, Nancy - *Professor and Director, School of Management* (2000)

BS, University of Toronto, Canada

MA and PhD, University of Houston

Daley, Eileen - *Senior Associate Athletics Director, Student-Athlete Academic Services* (2005)

BA, Sonoma State University

MA, John F. Kennedy University

Danh, Binh - *Assistant Professor, Art and Art History* (2006)

MFA, Stanford University

Daniels, Sonja - *Associate Vice President, Campus Life* (2016)

AA, Tyler Junior College

BBA, Texas Christian University

MA, New York University

DED, University of Southern California

Danzig, Arnold - *Professor and Director, Educational Leadership* (2013)

MA and PhD, University of Maryland

Dao, Michael - *Assistant Professor, Kinesiology* (2019)

BS and MA, San Jose State University

PhD, University of Toronto, Canada

Darrah, Chuck - *Professor, Anthropology* (1979)

PhD, Stanford University

Daum, David - *Assistant Professor, Kinesiology* (2015)

BA and MA, California State University, Chico

PhD, University of Illinois at Urbana-Champaign

Davis, Kathryn - *Professor, Environmental Studies* (2001)

BA and MA, San Francisco State University

PhD, University of California, Berkeley

Davis, Theresa - *Vice President, University Advancement* (2020)

MA, University of Southern California

Davoudi Kakhki, Fatemeh - *Assistant Professor, Technology* (2018)
Dawkins, Denise - Assistant Professor, Nursing (2019)
BS, City University of New York, Hunter College
MS, California State University, Bakersfield
PhD, California State University, Northern California Consortium (DNP)

Day, Patrick - Vice President, Student Affairs (2018)
MED, Texas Tech University

de Bourbon, Soma - Assistant Professor, Sociology and Interdisciplinary Social Sciences (2013)
BA, University of California, Berkeley
PhD, University of California, Santa Cruz

De Giorgi, Alessandro - Professor and Program Coordinator, Justice Studies (2007)
PhD, Keele University, United Kingdom

De La Cruz, Teresa - Director of Education Opportunity Program (2006)
BA and MA, San Francisco State University

Delacruz, John - Associate Professor, Journalism and Mass Communications (2012)
BA, Humberside Polytechnic
MA, Manchester Metropolitan University

Del Casino, Vincent - Provost and Senior Vice President, Academic Affairs (2019)
BA, Bucknell University
MS, University of Wisconsin, Madison
PhD, University of Kentucky

Desalvo, Jean-Luc - Professor, World Languages and Literatures (1995)
PhD, University of Virginia

Dessouky, Yasser - Professor and Chair, Industrial and Systems Engineering (1997)
BS, University of Wisconsin, Madison
MS and PhD, Arizona State University

DeVries, Maya - Assistant Professor, Biological Sciences (2020)
PhD, University of California, Berkeley

Deyo, Darwyn - Assistant Professor, Economics (2017)
BS, Saint Mary's College of California
MA and PhD, George Mason University

Dhar, Subhankar - *Professor, Information Systems and Technology* (2001)

PhD, University of South Florida

Di Napoli, Gina - *Chief of Police, University Police* (2019)

BA, Union Institute and University, Cincinnati

MS University of Portsmouth, England

Diao, Minghui - *Associate Professor, Meteorology and Climate Science* (2015)

BS, Peking University, China

PhD, Princeton University

Diridon, Sabra - *Interim Associate Vice President, Development University Advancement* (2011)

MPA, San Jose State University

Dirlam, Philip - *Assistant Professor, Chemistry* (2019)

MS, California Polytechnic State University, San Luis Obispo

PhD, University of Arizona

Diwan, Sadhna - *Professor, School of Social Work* (2005)

BA, University of Bombay, India

MS and PhD, Case Western Reserve University

Do, Hien - *Professor, Sociology and Interdisciplinary Social Sciences and Coordinator, Asian American Studies Program* (1992)

PhD, University of California, Santa Barbara

Donahue, Kathleen - *Executive Assistant for Administration and Operations* (2015)

BA, University of California, Santa Cruz

MED, Chapman University

Dougan, Marcelle - *Assistant Professor and Undergraduate Program Coordinator, Public Health and Recreation* (2015)

MS, Imperial College of Science

MPH, Columbia University

PhD, Harvard University

Douglas, Gordon - *Assistant Professor and Director of The Institute of Metropolitan Studies, Urban and Regional Planning* (2016)

BA and MA, University of Southern California
Drabble, Laurie - **Professor and Interim Associate Dean of Research, College of Health and Human Sciences** (2001)

- MSc, London School of Economics and Political Science, United Kingdom
- PhD, University of Chicago

Drury, Robert - **Senior Director for Resource Management** (1999)

- MSW, California State University, Long Beach
- MPH and PhD, University of California, Berkeley

Du, Winncy - **Professor, Mechanical Engineering** (2000)

- BS, Jilin University, China
- MS, West Virginia University
- MS and PhD, Georgia Institute of Technology

Dubus, Nicole - **Associate Professor, School of Social Work** (2015)

- BA, University of California, Santa Cruz
- MSW, San Francisco State University
- PhD, Boston University

Duckor, Brent - **Associate Professor, Teacher Education** (2008)

- BA, University of California, Santa Cruz
- MA, Columbia University
- MA and PhD, University of California, Berkeley

DuCros, Faustina - **Associate Professor, Sociology and Interdisciplinary Social Sciences** (2014)

- BA, California State University, Long Beach
- MA and PhD, University of California, Los Angeles

Dudley, Danijela - **Assistant Professor, Political Science** (2012)

- PhD, University of California, Riverside

Dudley, Nancy - **Associate Professor, Nursing** (2019)

- MA, MSN, PhD, University of California, San Francisco

Duh, Shinchieh - **Associate Professor, Psychology** (2014)

- BS, University of California, Los Angeles
- MA, San Francisco State University
Dunn, Wendy - Interim Director of Operations and Administrative Services, University Library (2005)
BS, Miami University, Oxford
MA, San Jose State University

Easter, Marilyn - Professor, Marketing and Business Analytics (2000)
BA, University of Colorado at Boulder
MSW and MA, Denver University
EdD, University of San Francisco

Eastwood, Adrienne - Professor, English (2005)
MA, San Diego State University
BA and PhD, University of California, San Diego

Edwards, Frances - Professor and Director of MPA Program, Political Science (2004)
PhD, New York University

Eggers, Daryl - Professor, Chemistry (2002)
BS, Rose-Hulman Institute of Technology
MS, University of California, Berkeley
PhD, University of California, San Francisco

Ehrman, Sheryl - Dean, College of Engineering (2017)
BS, University of California, Santa Barbara
PhD, University of California, Los Angeles

Eirinaki, Magdalini - Professor and Associate Chair, Computer Engineering (2007)
BSc, University of Piraeus, Greece
MSc, Imperial College, United Kingdom
PhD, Athens University of Economics and Business, Greece

Elsibai, Stacey - Manager, Employee and Labor Relations (2015)
BA, University of Hawaii at Manoa

Emmert, David - Counselor II, Counseling and Psychological Services (2007)
PhD, Alliant International University
   BA, California State University, Fresno
   MA and PhD, University of California, Santa Barbara

Erdogan, Ayca - *Associate Professor, Industrial and Systems Engineering* (2014)
   BS, Istanbul Technical University, Turkey
   PhD, North Carolina State University

Erogbogbo, Folarin - *Associate Professor, Biomedical Engineering* (2013)
   PhD, State University of New York, Buffalo

   BS, San Jose State University

Esker, Nicholas - *Assistant Professor, Chemistry* (2019)
   BA, Florida Atlantic University
   PhD, University of California, Berkeley

Estrada, Ignacio - *Custodial Crew Manager* (2010)

Etherington, Joshua - *Manager, Leave Programs and Worker's Compensation* (2019)

F

Faas, A.J. - *Associate Professor and Graduate Coordinator, Anthropology* (2014)
   PhD, University of South Florida

Faas, Charlie - *Vice President, Administration and Finance/Chief Financial Officer* (2016)
   BBA, Siena College
   MBA, University of California, Los Angeles

Fadiman, Jeffrey - *Professor, Marketing and Business Analytics* (1983)
   PhD, University of Wisconsin, Madison

Falter, Benjamin - *Senior Student Affairs Case Manager* (2015)
   BS, Saint Vincent College
   MA, Indiana University of Pennsylvania

Fang, Chiao-Ju - *Assistant Professor, Occupational Therapy* (2018)
   BS, National Taiwan University, China
   MA and PhD, New York University
Fassett, Deanna - Assistant Vice Provost for Faculty Development, Center for Faculty Development (2000)
   BA, University of California, San Diego
   MS and PhD, Southern Illinois University
Fatoohi, Rod - Professor and Chair, Computer Engineering (1996)
   MS, Syracuse University
   PhD, Old Dominion University
Faulkner, Matthew - Assistant Professor, Accounting and Finance (2019)
   PhD, Florida Atlantic University
Favaro, Francesca - Assistant Professor, Aviation (2016)
   PhD, Georgia Institute of Technology
Fayad, Mohamed - Professor, Computer Engineering (2002)
   BS, Cairo University, Egypt
   MS and PhD, University of Minnesota, Twin Cities
Feist, Gregory - Professor, Psychology (2006)
   BA, University of Massachusetts, Amherst
   PhD, University of California, Berkeley
Felton, Mark - Professor, Teacher Education (1999)
   BA, Stanford University
   PhD, Columbia University
Feng, Xi - Assistant Professor, Nutrition, Food Science and Packaging (2018)
   PhD, Iowa State University
Ferdolage, Traci - Senior Associate Vice President, Facilities Development & Operations (2020)
   MBA, California State University, Humboldt
Feria, Cary - Associate Professor, Psychology (2008)
   BA, University of California, Santa Barbara
   MA and PhD, University of California, Irvine
Ferguson, Jason - IT Support Manager, Desktop Support (1996)
   BA and BS, San Jose State University
Fernández, Vanessa - Assistant Professor and Teaching Associate Program Coordinator, World Languages and Literatures (2016)
BA, Princeton University
MEd, Columbia University
MA and PhD, University of California, Los Angeles
Ferris, Braley - Associate Director, Marketing and Membership (2018)
BA, University of Michigan, Ann Arbor
Fisher, Michael - Assistant Professor, African American Studies (2020)
BS and MD, Howard University
MA and PhD, Vanderbilt University
Fletcher, Shaun - Assistant Professor, Journalism and Mass Communications (2018)
BS, San Jose State University
MA, University of Central Florida
PhD, Howard University
Fouad, Ashraf - Senior Director for Plan Design and Construction, Facilities Planning (2016)
MA, University of California, Berkeley
Francique, Akilah - Executive Director, Sports, Society, and Social Change (2019)
BS, University of Houston
MED and PhD, University of Georgia
Francisco, Richard - Counselor III, Counseling and Psychological Services (1997)
PhD, University of Oregon
Franks, Patricia - Professor, School of Information (2009)
BS, Bloomsburg University
MASS, Binghamton University
PhD, Capella University
Frazier, Stefan - Associate Professor, Linguistics and Language Development (2005)
BA, Trinity University
MA, San Francisco State University
PhD, University of California, Los Angeles
Freedman, Marjorie - Professor, Nutrition, Food Science and Packaging (2005)
PhD, University of California, Davis
French, Rachael - Professor, Biological Sciences (2010)
BS, University of California, Davis
PhD, University of Washington

Frey, Shirley - Creative Director, Strategic Communication and Marketing (2011)
BS, California Polytechnic State University, San Luis Obispo
MFA, L'Ecole des Beaux-Arts

Friedman-Biglin, Noah - Assistant Professor, Philosophy (2015)
BA, Saint Mary's College of California
PhD, University of St Andrews and the University of Stirling, United Kingdom

Froehlich, Alexandra - Director, Student Conduct and Ethical Development (2017)
BA, Loyola Marymount University
MA, University of the Pacific

Fryer, Dashiell - Assistant Professor, Mathematics (2015)
BS and BA, San Jose State University
PhD, University of Illinois at Urbana-Champaign

Fujimoto, Kell - Director, Counseling and Psychological Services (2002)
BA and MED, University of Hawaii at Manoa
PhD, Argosy University, Honolulu

Furman, Burford - Professor, Mechanical Engineering (1994)
BS and MS, University of California, Davis
PhD, Stanford University

Furman, Pablo - Professor and Coordinator, Music and Dance (1989)
PhD, University of California, Los Angeles

Fusaro, Maria - Associate Professor, Child and Adolescent Development (2012)
Med and PhD, Harvard University

G

Gabet, Manny - Professor, Geology (2007)
PhD, University of California, Santa Barbara

Gaglia, Sela - Director of Development, College of Engineering (2015)
BA and MFA, San Diego State University
Gamblin, Kim - Associate Director, Purchasing and Payments (2012)
   AA, West Valley College
   BA, University of California, Santa Cruz
Gao, Ge - Professor, Communication Studies (1990)
   PhD, Arizona State University
Gao, Jerry - Professor, Computer Engineering (1997)
   BS, Nanjing University, China
   BS, Hohai University, China
   MS and PhD, University of Texas, Arlington
Gao, Jie - Assistant Professor, Hospitality, Tourism and Event Management (2019)
   PhD, Pennsylvania State University
Garcia, Alberto - Assistant Professor, History (2017)
   BA, University of California, Davis
   MA, Stanford University
   MA and PhD, University of California, Berkeley
Garcia, Alejandro - Professor and Project Director of the Physics Foundation, Physics and Astronomy (1989)
   PhD, University of Texas, Austin
Garcia, Carlos - Professor, Sociology and Interdisciplinary Social Sciences (2006)
   PhD, University of Oklahoman, Norman
Garcia, Moctezuma - Assistant Professor, School of Social Work (2020)
   PhD
Garcia, Tony - Interim Manager, Recruitment and Retention (2001)
   BS, San Jose State University
Gardner, Bruce - Interim IT Support Manager, College Support (2002)
   BA, San Jose State University
Garud Patkar, Nisha - Assistant Professor, Journalism and Mass Communications (2018)
   PhD, Ohio University
Gaudinski, Julia - Director of Research Development (2019)
   BS, University of California, Santa Cruz
   PhD, University of California, Irvine
Gavino, Monica - Associate Professor, School of Management (2016)
    PhD, University of Chicago

Gehrt, Kenneth - Professor, Marketing and Business Analytics (2002)
    PhD, University of Kentucky

Geller, Jonathan - Professor, Moss Landing Marine Lab (1998)
    BS and MS, University of California, Davis
    PhD, University of California, Berkeley

Gendzel, Glen - Professor and Chair, History (2005)
    BA, University of California, Berkeley
    MA and PhD, University of Wisconsin, Madison

Genes, Marna - Senior Associate Vice President, Finance (2010)
    BA, University of California, Santa Cruz
    MS, San Jose State University

Geneson, Jesse - Assistant Professor, Mathematics (2020)
    PhD, Massachusetts Institute of Technology

    BA, California State University, Chico

Gerami, Shahin - Professor, Sociology and Interdisciplinary Social Sciences (2006)
    JD, University of Tehran, Iran
    PhD, University of Oklahoma

Gerrick, Alexandria - Counselor I, Counseling and Psychological Services (2013)
    PhD, Chicago School of Professional Psychology

Ghatak, Sambuddha - Assistant Professor, Justice Studies (2017)
    PhD, University of Tennessee

Ghosh, Souvick - Assistant Professor, School of Information (2020)
    PhD, Rutgers University, Camden

Gieng, John - Assistant Professor, Nutrition, Food Science and Packaging (2017)
    BS, University of California, Berkeley
    PhD, Pennsylvania State University

Giron, Daan - Director of Development, College of Social Sciences (2011)
BA, San Jose State University

Glazer Connolly, Amy - Professor, Film and Theatre (1991)

BFA, Eckerd College

MFA, California School of the Arts

Glogoski, Carolyn - Associate Professor, Occupational Therapy (1988)

MA, San Jose State University

PhD, The Wright Institute

Gold, Clifton - Associate Creative Director, Special Events (2020)

Goldston, Daniel - Professor, Mathematics (1983)

PhD, University of California, Berkeley

Golloher, Andrea - Assistant Professor, Special Education (2013)

BA, Washington University, Saint Louis

Med, Vanderbilt University

PhD, University of California, Berkeley and San Francisco State University

Gomez, Jonathan - Assistant Professor, Chicana and Chicano Studies (2018)

BA, University of California, Santa Cruz

BA and PhD, University of California, Santa Barbara

Gomez, Luis Felipe - Associate Professor, Communication Studies (2012)

BA, Tecnológico de Monterrey, Mexico

MA, Katholieke Universiteit Leuven, Belgium

PhD, University of Texas, Austin

Gomez, Vicky - Assistant Professor, Public Health and Recreation (2018)

PhD, University of California, Berkeley

Gonzales, Deanna - Director, Undergraduate Admissions and Outreach (1989)

AA, De Anza College

BA and MA, San Jose State University

Gonzalez, Roberto - Professor and Chair, Anthropology (2001)

PhD, University of California, Berkeley

Gorman-DaRif, Meghan - Assistant Professor, English (2019)
PhD, University of Texas, Austin

Gorman, Mike - Associate Professor, School of Social Work (1999)

MPH and MSW, University of California, Berkeley

PhD, University of Chicago

Goshev, Roman - Digital Prod/Project Manager, Strategic Communications and Marketing (2020)

Gottlieb, Andrea - Associate Professor, Mathematics (2012)

PhD, University of California, Davis

Goyal, Deepika - Professor, Nursing (2002)

BS and MS, San Jose State University

PhD, University of California, San Francisco

Grace, Elizabeth - Professor and Chair, Accounting and Finance (1986)

PhD, University of Pennsylvania

Graham, Michael - Professor, Moss Landing Marine Lab (2003)

BA, University of California, Santa Barbara

MS, San Jose State University

PhD, University of California, San Diego

Grand, Maxime - Assistant Professor, Moss Landing Marine Lab (2018)

BS, University of Hawaii at Manoa

MS, University of Plymouth, United Kingdom

PhD, University of Hawaii at Manoa

Grazioli, Gianmarc - Assistant Professor, Chemistry (2020)

PhD, University of California, Irvine

Green, Tonja - Program Director, College of Science (2008)

MA, San Jose State University

Greet, Erika - Assistant Director, Ceremonies and Events (2019)

Gregg, Jennifer - Professor, Psychology (2004)

PhD, University of Nevada-Reno

Grillo-Hill, Bree - Assistant Professor, Biological Sciences (2016)

BA, Occidental College

PhD, Washington University, Saint Louis
Guel, Carolyn - Associate Director, Financial Aid Counseling (2000)
   BA, San Jose State University
   MA, John F. Kennedy University

Guerrazzi, Diane - Professor, Journalism and Mass Communications (2008)
   BA, University of California, Berkeley
   MA, University of Southern California

Gunderson, Hilary - Director of Constituent Engagement, Alumni and Community Engagement (2020)
   BS and MBA, Oregon State University

Guzun, Gheorghi - Assistant Professor, Computer Engineering (2017)
   BS, Technical University of Moldova, Moldova
   PhD, University of Iowa

H

Ha, Jooyeon - Associate Professor, Hospitality, Tourism and Event Management (2014)
   PhD, Purdue University

Haight, Colleen - Professor, Economics (2006)
   BA, University of California, Los Angeles
   MBA, Notre Dame de Namur University
   PhD, George Mason University

Hajikhameneh, Aidin - Assistant Professor, Economics (2018)
   BS and MS, University of Tehran, Iran
   PhD, Simon Fraser University, Canada

Halualani, Rona - Professor, Communication Studies (1998)
   BA, University of California, Davis
   MA, Sacramento State University
   PhD, Arizona State University

Halushka, John - Assistant Professor, Justice Studies (2017)
   BA, University of California, Berkeley
   PhD, New York University

Ham, Michiel - Lead Project Manager (1982)
Hambaba, Mohamed - *Professor, General Engineering* (1996)

PhD, Stevens Institute of Technology

Hambrook, Kyle - *Assistant Professor, Mathematics* (2018)

BS, University of Lethbridge, Canada

MS and PhD, University of British Columbia, Canada

Hamedi-Hagh, Sotoudeh - *Professor, Electrical Engineering* (2005)

PhD, University of Toronto, Canada

Hamilton, Scott - *Professor, Moss Landing Marine Lab* (2011)

BA, Princeton University

PhD, University of California, Santa Barbara

Hampton, Michelle - *Associate Professor, Nursing* (2018)

PhD, University of California, San Francisco

Han, Crystal - *Assistant Professor, Mechanical Engineering* (2018)

PhD, Stanford University

Han, KyungMo - *Professor and Director of Professional Athletic Training Program, Kinesiology* (2006)

BS, Seoul National University, South Korea

MA, New York University

PhD, Brigham Young University

Han, Meekyung - *Professor and Co-Chair of Institute for Community-Partnered Research, School of Social Work* (2004)

MSW, Washington University, Saint Louis

PhD, University of California, Berkeley

Han, Yoon Chung - Assistant Professor, Design (2018)

MFA, University of California, Los Angeles

PhD, University of California, Santa Barbara

Hancock, Mark - *Lead Custodial Crew Manager, MLK Library Facility* (2004)

Hanson, Lauren - *Head Women’s Soccer Coach* (2014)

BA, University of Portland

Haramaki, Gordon - *Associate Professor and Graduate Coordinator, Music and Dance* (2006)

BA, MA, and PhD, University of California, Los Angeles
Harlan, Mary Ann - Assistant Professor, School of Information (2015)

BA, University of California, Santa Cruz
MLIS, San Jose State University
PhD, Queensland University of Technology, Australia

Harper, Jennifer - Title IX Investigator, Office of Diversity (2017)

BA, American University
MA, San Diego State University

Harris, Katherine - Professor, English (2005)

BA, California State University, Los Angeles
MA, New York University
PhD, City University of New York

Hart, Tabitha - Associate Professor, Communication Studies (2012)

BA, University of California, San Diego
MA, Sacramento State University
PhD, University of Washington

Hartle, Jennifer - Assistant Professor, Public Health and Recreation (2016)

BA, University of California, Berkeley
MS and PhD, Johns Hopkins Bloomberg School of Public Health

Harvey, James - Director, Moss Landing (1989)

PhD, Oregon State University

Hatton, Oona - Assistant Professor, Communication Studies (2013)

PhD, Northwestern University

Haverfield, Marie - Assistant Professor, Communication Studies (2019)

PhD, Rutgers University, New Brunswick

He, Daoping - Professor, Accounting and Finance (2006)

PhD, University of Hawaii at Manoa

He, Lili - Professor, Electrical Engineering (1998)

PhD, State University of New York, Buffalo

Hebert, Christopher - Associate Professor, Justice Studies (1997)

PhD, Pennsylvania State University
Heiden, Lynda - *Professor, Psychology* (1990)

   MS, San Jose State University
   PhD, West Virginia University

Heindl, Ranko - *Associate Professor, Physics and Astronomy* (2012)

   PhD, University of South Florida

Heller, Philip - *Assistant Professor, Computer Science* (2016)

   BS, University of California, Berkeley
   MS, San Jose State University
   PhD, University of California, Santa Cruz

Hendrick, Timothy - *Associate Professor, Journalism and Mass Communications* (2003)

   MA, Brigham Young University

Hicks, Deborah - *Assistant Professor, School of Information* (2018)

   BA, University of King’s College, Canada
   MA, York University, Canada
   MLIS, Dalhousie University, Canada
   PhD, University of Alberta, Canada

Higgins, Silke - *Associate Librarian, University Library* (2011)

   MLIS, San Jose State University

Hilde, Libra - *Professor, History* (2005)

   BA, University of California, Berkeley
   MA and PhD Harvard University

Hill, Henderson - *Director, Student Involvement* (2017)

   BA, Tennessee State University
   MA, University of Missouri, Kansas City

Hill, Timothy - *Professor, Information Systems and Technology* (1998)

   BS and MSE, Purdue University
   MBA and PhD, Indiana University, Bloomington

Hirsh, Sandra - *Associate Dean, Academics, CPGE Central Administration* (2010)

   PhD, University of California, Los Angeles

Hoang, Olivia - *Assistant Professor, Civil and Environmental Engineering* (2020)
PhD, University of California, Berkeley
Hobbs, G. Craig - Associate Professor, Art and Art History (2012)
BFA, California Institute of the Arts
MFA, University of California, Santa Cruz
Hofman, Darra - Assistant Professor, School of Information (2020)
PhD, University of British Columbia iSchool
Holberton, Rhonda - Assistant Professor, Art and Art History (2017)
BFA, California College of the Arts
MFA, Stanford University
Holian, Matthew - Professor and Chair, Economics (2008)
PhD, Ohio State University, Lima
Hollenbeck, Clarie - Professor and Graduate Research Coordinator, Nutrition, Food Sciences and Packaging (1995)
PhD, Oregon State University
Hollinger, Diana - Professor, Music and Dance (2003)
MM, University of North Texas
DMA, Arizona State University
Hom, Margaret - Associate Director for Facilities Operations, Housing Building Maintenance (1979)
AA, City College of San Francisco
BA, San Jose State University
Honda, Jeffrey - Associate Dean of Graduate Studies, College of Graduate Studies (2014)
BS, San Jose State University
MS and PhD, University of California, Riverside
Hosoda, Megumi - Professor, Psychology (1998)
PhD, State University of New York, Albany
Hou, Xiaojia - Associate Professor, History (2015)
BA and MA, Peking University, China
PhD, Cornell University
Howard, Grace - Assistant Professor, Justice Studies (2019)
PhD, Rutgers University, Camden
Hsu, Ping - Professor, Electrical Engineering and Director, Interdisciplinary Engineering Program (1990)
PhD, University of California, Los Angeles

Hsu, Funie - Assistant Professor, Humanities (2015)

BA, University of California, Davis
MEd, Harvard University
PhD, University of California Berkeley

Hsu, Timothy - Professor, Mathematics (2001)

PhD, Princeton University

Hu, Xiaolu - Professor, Counselor Education (1990)

PhD, Kent State University

Huang, Yinghua - Associate Professor, Hospitality, Tourism and Event Management (2012)

BBA and MS, Xiamen University, China
PhD, Oklahoma State University

Huard, Ruth - Dean, College of Professional and Global Studies (2009)

BA, Claremont McKenna College
PhD, Stanford University

Huerta Espinosa, Esperanza - Associate Professor, Accounting and Finance (2014)

PhD, Claremont Graduate University

Hughes, Peg - Professor, Special Education (1999)

PhD, University of California, Los Angeles

Hung, Donald - Professor, Computer Engineering (1999)

PhD, Case Western Reserve University

Huntsman, Laree - Professor, Psychology (1986)

BA and MA, San Jose State University
PhD, University of Wisconsin, Milwaukee

Hurst, Hilary - Assistant Professor, Physics and Astronomy (2020)

PhD, University of Maryland

Hutchins, Christine - Senior Associate Vice President for Strategic Communications and Marketing (2018)

BA, The University of Chicago
MBA, Massachusetts Institute of Tech

Huynh, Frank - Assistant Professor, Biological Sciences (2018)
PhD, University of British Columbia, Canada

Huynh, Hien - Information Security Officer (2014)

BA, Simon's Rock College of Bard

MS and MBA, University of Maryland University College

Hwang, Connie - Professor, Design (2008)

MFA, University of Washington

Inaba, Seiichiro - Professor, World Languages and Literatures (1998)

PhD, University of Hawaii at Manoa

Ivanov, Stoyu - Professor, Accounting and Finance (2009)

PhD, University of Nebraska-Lincoln

Iwasaki, Yoshitaka - Professor and Chair, Public Health and Recreation (2018)

PhD, University of Waterloo, Canada

Izenstark, Dina - Assistant Professor, Child and Adolescent Development (2017)

BS, MS, and PhD, University of Illinois at Urbana-Champaign

Jackson, Melinda - Associate Dean, Undergraduate Studies (2005)

BA, Simon's Rock College of Bard

PhD, University of Minnesota, Twin Cities

Jacobs, Walter - Dean, College of Social Sciences 2015)

BA, Georgia Institute of Technology

MA and PhD, Indiana University, Bloomington

Jahanbekam, Sogol - Assistant Professor, Mathematics (2018)

BA, Shiraz University, Iran

MS, Sharif University of Technology, Iran

PhD, University of Illinois at Urbana-Champaign

Janes, Michael - Director, Executive Communications for Strategic Communications and Marketing (2018)

BA, Western Washington University
MA, Seton Hall University

Jarvie, Scott - Assistant Professor, English (2020)

PhD, Michigan State University

Jaynes, Susan - Capital Financial Planning and Analysis Manager (2016)

BS, Indiana University, Bloomington

Jensen, Areum - Assistant Professor, Kinesiology (2016)

BS, Sangmyung University, South Korea

MS, San Francisco State University

PhD, University of Missouri

Jensen, Scott - Associate Professor, Information Systems and Technology (2013)

PhD, Indiana University, Bloomington

Jetcheva, Jorjeta - Assistant Professor, Computer Engineering (2020)

BA, Mount Holyoke College

PhS, Carnegie Mellon University

Jeyachandran, Indumathi - Assistant Professor, Civil and Environ Engineering (2015)

PhD, University of Utah

Jimenez, Julie - Director of Financial and Administrative Services, University Advancement (1984)

AA, Evergreen Valley College

Jin, Li - Assistant Professor, Kinesiology (2019)

BS, Shanghai University of Sport, China

MS and PhD, University of Oregon

Johnson, Allison - Assistant Professor, English (2018)

PhD, University of California, Los Angeles

Johnson, Colleen - Counselor II, Counseling and Psychological Services (2012)

PhD, University of North Dakota

Johnson, Camille - Associate Dean, Research and Faculty Success (2007)

BA, Carleton College

MA, Claremont Graduate School

PhD, Ohio State University

Johnson, Joel - Director, Web and Campus Applications (2015)
BA, San Jose State University

Johnston, Jennifer - Assistant Professor, Biological Sciences (2017)
MS, Southern Illinois University
PhD, Emory University

Jones, Frank - Professor, Accounting and Finance (2003)
BA and BS, University of Notre Dame
MS, Cornell University
MBA, University of Pittsburgh
PhD, Stanford University

Jordan, Ryan - Assistant Athletics Director for Compliance (2018)
JD, Marquette University Law School
BA, University of Wisconsin, La Crosse

Jordan, Valin - Equity and Accessible Trainer/Educator, Center for Faculty Development (2020)
DED, George Washington University

Jurney, Patrick - Assistant Professor, Biomedical Engineering (2019)
BS, University of Portland
MS and PhD, University of Texas, Austin

K

Kahn, Amanda - Assistant Professor, Moss Landing Marine Lab (2019)
BS, California State University, East Bay
MS, California State University, Monterey Bay
PhD, University of Alberta, Canada

Kao, Katy - Associate Professor, Chemical and Materials Engineering (2019)
PhD, University of California, Los Angeles

Karimianbahnmiri, Nima - Assistant Professor, Computer Engineering (2018)
MS and PhD, University of Connecticut

Karp, Fernanda - Deputy Diversity Officer (2002)
BA, San Jose State University

Kassab, Lara - Assistant Professor, Teacher Education (2010)
BA, Holy Names University
MA California State University, Fullerton
PhD, University of San Francisco

Kato, Cynthia - Director, Student Success Services (2005)
MA, Purdue University

Katsuura, Hidefumi - Professor, Mathematics (1984)
PhD, University of Delaware

Kaufman, Michael - Dean, College of Science (1997)
PhD, Johns Hopkins University

Kauppila, Paul - Associate Librarian, University Library (2001)
BA, San Francisco State University
MLIS, University of Texas, Austin

Kaye, Melissa - Assistant Professor, Occupational Therapy (2014)
MS, San Jose State University
EdD, University of San Francisco

Kazemifar, Farzan - Assistant Professor, Mechanical Engineering (2019)
BS, Sharif University of Technology, Iran
MS and PhD, University of Illinois at Urbana-Champaign

KC, Santosh - Assistant Professor, Chemical and Materials Engineering (2019)
BS and MS, Tribhuvan University, Nepal
MS and PhD, University of Texas, Dallas

Keles, Ozgur - Assistant Professor, Chemical and Materials Engineering (2015)
BS and MS, Middle East Technical University, Turkey
PhD, Purdue University

Kelly, Resa - Professor and Director of Science Education, Chemistry (2005)
BA, University of Notre Dame
BA and MA, University of Northern Iowa
MS and PhD, University of Northern Colorado

Kenyon, Paula - Research Development Specialist, Office of Research (2020)
BA and MA, California State University, Chico
Kersten, Trent - **Volleyball Head Coach, Women's Volleyball** (2020)
   BS, University of California, Los Angeles

Khatami, Ehsan - **Associate Professor, Physics and Astronomy** (2014)
   BS, Isfahan University of Technology, Iran
   MS, Sharif University of Technology, Iran
   PhD, University of Cincinnati

Khavul, Susanna - **Professor, School of Management** (2017)
   DBA, Boston University

Kil, Sang - **Associate Professor, Justice Studies** (2007)
   MA and PhD, Arizona State University

Kim, Chang Kim - **Professor, Design** (2000)
   MFA, Hongik University, South Korea
   MFA, University of Illinois at Urbana-Champaign

Kim, Suneuy - **Associate Professor, Computer Science** (2001)
   PhD, Pennsylvania State University

Kini, Mitesh - **Director, Enterprise Systems** (2013)
   BE, Veermata Jijabai Technological Institute, India
   MS, North Carolina State University

Kinney, Edith - Associate Professor, Justice Studies (2014)
   JD and PhD, University of California, Berkeley

Kinney, Kevin - **Director of Residential Life, Housing Coordination** (2016)
   BS, Bloomsburg University of Pennsylvania
   MA, Montclair State College

Klaw, Elena - **Professor, Psychology** (2000)
   PhD, University of Illinois at Urbana-Champaign

Klee, Gary - **Professor, Environmental Studies** (1977)
   PhD, University of Oregon

Klein, Michael - **Assistant Professor, Marketing and Business Analytics** (2017)
   PhD, McGill University, Canada

Klock, Metha - **Assistant Professor, Environmental Studies** (2019)
PhD, Louisiana State University
Knepper, Paul - Professor and Chair, Justice Studies (2020)

PhD, Arizona State University
Kochanski, Adam - Assistant Professor, Meteorology and Climate Science (2020)

PhD, University of Nevada
Koev, Plamen - Professor, Mathematics (2008)

PhD, University of California, Berkeley
Komives, Claire - Professor, Chemical and Materials Engineering (1999)

BS, Tufts University
MS and PhD, University of Pittsburgh
Koo, Hahn - Associate Professor, Linguistics and Language Development (2008)

BA, Seoul National University, South Korea
PhD, University of Illinois at Urbana-Champaign
Korani, Tina - Assistant Professor, Journalism and Mass Communications (2017)

BA, Art University of Tehran, Iran
MFA, Louisiana State University
Kothari, Tanvi - Associate Professor, Global Innovation and Leadership (2012)

BS, University of Mumbai, India
PhD, Temple University
Kraskouskas, Jennifer - Cashiering Manager (2017)

MBA, Boston University
Kress, Monika - Professor and Chair, Physics and Astronomy (2004)

BA and PhD, Rensselaer Polytechnic Institute
Krishnaswamy, Revathi - Professor and Graduate Coordinator, English (2994)

PhD, Kent State University
Kubelka, Richard - Professor, Mathematics (1983)

BA, University of California, Berkeley
MS and PhD, Stanford University
Kubota, Jamie - Assistant Professor, Nutrition, Food Science and Packaging (2008)

MS, San Jose State University
Kulkarni, Saili - *Assistant Professor, Special Education* (2018)

BA, Boston University

MS and PhD, University of Wisconsin, Madison

Kumar, Anil - *Associate Professor and Associate Director of Human Factor/Ergonomics, Industrial and Systems Engineering* (2015)

PhD, Western Michigan University

Kwan, Yvonne - *Assistant Professor, Sociology and Interdisciplinary Social Sciences* (2017)

PhD, University of California, Santa Cruz

L

Lage, Kathryn - *Associate Librarian, Moss Landing Marine Lab* (2016)

BA, University of California, Santa Cruz

MLIS, San Jose State University

Laker, Jason - *Professor, Counselor Education* (2010)

PhD, University of Arizona

Lattimer, Heather - *Dean, College of Education* (2018)

DED, University of San Diego

Lambrecht, Susan - *Professor, Biological Sciences* (2004)

PhD, Oregon State University

Lane, Emily - *Director of Development, College of Science* (2016)

BA, University of California, Sacramento

Laraway, Sean - *Professor, Psychology* (2008)

BA, Central Michigan University

MA and PhD, Western Michigan University

LaSalle, Colette - *Assistant Professor, Nutrition, Food Science and Packaging* (2013)

PhD, University of California, Davis

Lasser, Robin - *Professor, Art and Art History* (1990)

BA, University of California, Los Angeles

MFA, Mills College

Lau, Sau Foon Feyon - *University Ombudsman, Student Services* (2019)
MA, San Jose State University

Lazerson, Danielle - Assistant Professor, Accounting and Finance (2020)
MBA, Chapman University
PhD, Louisiana State University

Le, Binh - Assistant Professor, Electrical Engineering (2019)
BS, University of California, Berkeley
MS and PhD, Stanford University

Le, Thuy - Professor and Chair, Electrical Engineering (1996)
BS, MS, and PhD, University of California, Berkeley

Leddy, Thomas - Professor, Philosophy (1983)
PhD, Boston University

Ledesma Limon, Maria - Associate Professor, Educational Leadership (2020)
PhD, University of California, Los Angeles

Lee, Bee Leng - Professor, Mathematics (2005)
BSS, National University of Singapore
MS and PhD, University of Wisconsin, Madison

Lee, Diane - Assistant Professor, Design (2018)
BS, University of Cincinnati
MFA, Rhode Island School of Design

Lee, Hojeong - Assistant Professor, Film and Theatre (2021)
BA, Ewha Womans University, South Korea
MA, Yonsei University, South Korea
MA, New York University
PhD, Temple University

Lee, Hyojin - Assistant Professor, Marketing and Business Analytics (2016)
BS and MS, Seoul National University, South Korea
PhD, Ohio State University

Lee, James - Senior Director, Faculty Affairs (2005)
BA, University of Notre Dame
MA, University of Florida
Lee, Jihyun - Assistant Professor, Kinesiology (2017)
BS and MS, Seoul National University
PhD, Ohio State University

Lee, Peter Allen - Professor and Director, School of Social Work (1999)
MSW and PhD, University of California, Berkeley

Lee, Sang Eun - Professor, School of Social Work (2006)
BA, Seoul Women's University, South Korea
MSW, University of Michigan, Ann Arbor
PhD, University of California, Los Angeles

Lee, Sang-Joon - Professor, Mechanical Engineering (2002)
PhD, Massachusetts Institute of Technology

Lee, Seungjoon - Assistant Professor, Applied Data Science (2020)
MS and PhD, Brown University

Lee, Steven - Professor and Director of Forensic Science Justice Studies, Justice Studies (2003)
BS, State University of New York, Binghamton
MS, New York University
PhD, University of California, Berkeley

PhD, Purdue University

Lee, Wendy - Assistant Professor, Computer Science (2018)
BS, University of Waterloo, Canada
MS, San Jose State University
MS and PhD, University of California, Santa Cruz

LeFever, James - Director, Technology (1984)
San Francisco State University

Leineweber, Matthew - Assistant Professor, Biomedical Engineering (2017)
BS, University of Portland
MS and PhD, Cornell University

Leisenring, Amy - Associate Dean, Inclusive Student Success, College of Graduate Studies (2016)
BA, Miami University, Ohio
MA, New Mexico State University
PhD, University of Colorado

Lemon Osterling, Kathy - Associate Professor, School of Social Work (2006)
BA, University of California, Santa Cruz
MSW, San Jose State University
PhD, University of California, Berkeley

Lester, Gretchen - Associate Professor, School of Management (2012)
PhD, University of Nebraska-Lincoln

Lester, Thomas - Associate Professor, Urban and Regional Planning (2019)
BA, University of Pennsylvania
MUPP, University of Illinois
PhD, University of California, Berkeley

Li, Hua - Professor, Computer Engineering (1997)
BS, Tianjin University, China
MS and PhD, University of Iowa

Li, Kara - Associate Vice President for Strategic Planning and Portfolio (2016)
BBA, Georgia State University

Li, Zongchao - Assistant Professor, Journalism and Mass Communications (2016)
PhD, University of Miami

Lim, Bob - Vice President, Information Technology and Chief Information Officer
MBA, Saint Mary's College of California

Lington, Aaron - Professor, Music and Dance (2004)
BM, University of Houston
MM and DMA, University of North Texas

Lira, Leonard - Assistant Professor, Political Science (2017)
BA, Sam Houston State University
MA, Syracuse University
PhD, University of Kansas

Liss, Wendi - Title IX Officer, Office of Diversity (2017)
JD, Loyola University of Chicago

Liu, Hongrui - Assistant Professor, Industrial and Systems Engineering (2017)
PhD, University of Washington

Liu, Kaikai - Assistant Professor, Computer Engineering (2015)
PhD, University of Florida

Liu, Geoffrey - Professor, School of Information (2995)
BA and MA, Wuhan University, China
PhD, University of Hawaii at Manoa

Liu, Rui - Associate Professor, Economics (2013)
BS, Nankai University, China
MS, City University of Hong Kong, Hong Kong
PhD, University of California, Irvine

Liu, Xiaojing - Assistant Professor, Nutrition, Food Science and Packaging (2016)
BA and PhD, Wuhan University of Technology, China

Liu, Ziming - Professor, School of Information (2000)
MS, Zhongshan University, China
PhD, University of California, Berkeley

Liz, Jordan - Assistant Professor, Philosophy (2018)
PhD, University of Memphis

Loatfi, Morgan - Lead Project Manager (2017)
BS, West Virginia University

Loertscher, David - Professor, School of Information (1996)
BS, University of Utah
ML, University of Washington
PhD, Indiana University, Bloomington

Lohmann, Tammy - Head Coach, Softball (2020)
MA, Bradley University

Lombardi, Paul-Vincent - Assistant Professor, Economics (2018)
PhD, University of California, Irvine

Long, Avizia - Assistant Professor, World Languages and Literatures (2018)
BA, University of North Carolina at Chapel Hill
MA, North Carolina State University
MA and PhD, Indiana University
Long, Katrina - Assistant Professor, Occupational Therapy (2020)
   BA, California State University, Channel Islands
   MA, Thomas Jefferson University
   PhD, Columbia University
Loomba, Arvinder - Professor, Global Innovation and Leadership (1999)
   BMe, Bangalore University, India
   MBA, California State University, East Bay
   PhD, University of Southern California
Loomis, John - Professor, Design (2008)
   MA, Columbia University
   BA and MPA, San Jose State University
Louie, Therese - Professor, Marketing and Business Analytics (2003)
   PhD, University of California, Los Angeles
Love, Matthew - Assistant Professor, Special Education (2018)
   BS, MEd, and PhD, University of Nevada, Las Vegas
Love, Robin - Associate Professor, Child and Adolescent Development (1988)
   MA, University of California, Berkeley
   PhD, Stanford University
Lowe, Carli - Senior Assistant, University Library (2019)
   MLIS, University of Illinois at Urbana-Champaign
Lu, Mei-Yan - Professor, Educational Leadership (1988)
   MA, University of Wisconsin, River Falls
   PhD, Arizona State University
Luo, Lili - Professor, School of Information (2007)
   BA and MS, Peking University, China
   PhD, University of North Carolina at Chapel Hill
Lupton, Nathaniel - Assistant Professor, Global Innovation and Leadership (2020)
MBA, Carleton University, Canada
PhD, Richard Ivey School of Business, Canada

Lustigman, Lyle - Assistant Professor, Communicative Disorders and Sciences (2016)
BA, MA, and PhD, Tel Aviv University, Israel

Luu, Raymond - Associate Director of Commercial Services (2019)
BS, San Francisco State University

Ly, Anh - Director of Development, Dr. Martin Luther King, Jr. Library (2017)
PhD, Northwestern University

Ma-Kellams, Christine - Assistant Professor, Psychology (2019)
BA, University of California, Berkeley
PhD, University of California, Santa Barbara

Maciejewski, Wesley - Assistant Professor, Mathematics (2016)
BSc, University of Alberta, Canada
University Calgary, Canada
PhD, Queen's University, Canada

Madadi, Mahboubeh - Assistant Professor, Marketing and Business Analytics (2019)
BS, Shahid Beheshti University, Iran
MS, University of Tehran
MS, University of Arkansas
PhD, University of Arkansas

Madura, Thomas - Assistant Professor, Physics and Astronomy (2016)
PhD, University of Delaware

Maffini, Cara - Associate Professor, Child and Adolescent Development (2014)
BA and BS, University of California, Davis
MA, Sacramento State University
PhD, Indiana University, Bloomington

Maguire, Matthew - Assistant Professor, School of Management (2018)
BA, Cornell University
MSc, London School of Economics and Political Science
PhD, Boston University

Mahendra, Nidhi - Associate Professor and Chair, Communicative Disorders and Sciences (2016)
BSc, All India Institute of Medical Sciences, India
MS, All India Institute of Speech and Hearing, India
PhD, University of Arizona

Mahzabeen, Fariah - Assistant Professor, Technology (2017)
PhD, Stanford University

Main, Linda - Professor, School of Information (1985)
BA and MA, University of Dublin, Ireland
MLIS, University of Wales
PhD, University of Illinois at Urbana-Champaign

Malinowski, David - Assistant Professor, Linguistics and Language Development (2018)
BA, University of California, Berkeley
MA, San Francisco State University
PhD, University of California, Berkeley

Malloy, Suzanne - Professor and Undergraduate Coordinator, Nursing (1981)
BSN, University of Utah
MSN, University of Nebraska-Omaha
PhD, Nova University

Malutta, Jennifer - Director of Local and State Relations (2019)
BA, University of Kansas

Manuel, Anita - Associate Director of Career Education (2004)
BA, University of California, Santa Barbara
MA, Santa Clara University

Marachi, Roxana - Associate Professor, Teacher Education (2006)
BS, University of Washington
MA and PhD, University of Michigan, Ann Arbor

Maraghehmoghaddam, Armin - Assistant Professor, Technology (2020)
PhD, Iowa State University

Marbouti, Farshid - Assistant Professor, General Engineering (2016)
    BS, Sharif University of Technology, Iran
    MS, Amirkabir University of Technology, Iran
    MA, Simon Fraser University, Canada
    PhD, Purdue University

Marota, Cynthia - Director, Accessible Education Center (1993)
    BA, San Jose State University

Marouf, Essam - Professor, Electrical Engineering (1990)
    PhD, Stanford University

Marsh, Eleanor - Associate Professor, World Languages and Literatures (2007)
    PhD, University of California, Davis

Marx, Robert - Assistant Professor, Child and Adolescent Development (2019)
    BA, Brandeis University
    MAT, Boston University
    PhD, Vanderbilt University

Mashinchi, Kenneth - Senior Director of Media Relations (2020)
    BA, California State University, Stanislaus
    MS, University of Southern California

Massey, Kimberly - Professor and Associate Chair, Film and Theatre (1987)
    BS, University of Texas, Austin
    MA, San Francisco State University
    PhD, University of Utah

Masucci, Matthew - Associate Dean, College of Health and Human Sciences (2002)
    BA, Salisbury University
    MA, Ohio University
    PhD, University of Tennessee

Mathias, Harold - Associate Professor, Film and Theatre (2012)
    BA and MA, San Francisco State University

Mathur, Gita - Professor, School of Management (2002)
BTech and MTech, Indian Institute of Technology, India
MBA, University of California, Berkeley
PhD, Rensselaer Polytechnic Institute
DBA, Harvard University
Mathur, Ravisha - Associate Professor, Child and Adolescent Development (2002)
   BS, Pennsylvania State University
   MA and PhD, Purdue University
Mathur, Shishir - Professor, Urban and Regional Planning (2004)
   BA, Regional Engineering College Tiruchirappalli, India
   MUP, School of Planning and Architecture, India
   PhD, University of Washington
Mattarelli, Elisa - Associate Professor, School of Management (2019)
   MS, University of Bologna, Italy
   PhD, University of Padova, Italy
Mauldin, Kasuen - Associate Professor, Nutrition, Food Science & Packaging (2011)
   BS and PhD, Southern Methodist University
   PhD, University of California, Berkeley
McClusky, John - Professor, Design (2002)
   BS, University of Cincinnati
   MA, Ohio State University
McConnell, Kathleen - Professor, Communication Studies (2009)
   BA, Evergreen State College
   MA, Bowling Green State University
   PhD, Indiana University, Bloomington
McCullough, June - Professor, Communicative Disorders and Sciences (1989)
   BA and MA, California State University, Fullerton
   PhD, University of Iowa
McDonald, Birgitte - Assistant Professor, Moss Landing Marine Lab (2015)
   MA, Sonoma State University
   PhD, University of California, Santa Cruz
McElroy, Coleetta - *Senior Associate Vice President for Enrollment Management* (1988)
   BA, California State University, Long Beach
   MS, University of Baltimore
McGee, Elizabeth - *Professor, Biological Sciences* (1997)
   BA and MA, University of California, Berkeley
   MA and PhD, State University of New York, Stony Brook
McGiven, Kevin - *Football Assistant Coach/Offensive Coordinator* (2018)
   BSA, Utah Valley University
   MS, Brigham Young University
McKee, Alison - *Professor and Vice Chair, Film and Theatre* (2002)
   BA and MA, University of California, Santa Barbara
   PhD, University of California, Los Angeles
McKenzie, Craig - *Assistant Professor, Music and Dance* (2018)
   BM, University of Colorado at Boulder
   MA, San Jose State University
   DMA, University of Miami
McMullin, Kurt - *Professor, Civil and Environmental Engineering* (1996)
   BS, Iowa State University
   MS and PhD, University of California, Berkeley
McNabb, Richard - *Professor, Associate Chair and Writing Programs Administrator, English* (2014)
   PhD, University of Arizona
McNeil, Melanie - *Professor, Chemical and Materials Engineering* (1990)
   BS, MS, and PhD, University of California, Santa Barbara
McSharry, Kathleen - *Professor, English* (2015)
   PhD, University of Wisconsin, Madison
Mcvey, Mary - *Professor and Associate Dean, Child and Adolescent Development* (1992)
   PhD, Stanford University
Mead-Nytko, Danielle - *Assistant Professor, Child and Adolescent Development* (2016)
   BS, University of Mary Washington
MA and PhD, George Mason University

Medders, Carrie - Senior Director, Tech and Training (1998)
  BS, Arizona State University
  MS, West Virginia University

Megwalu, Anamika - Associate Librarian, University Library (2016)
  PhD, Long Island University, Brooklyn

Meldal, Sigurd - Professor, Computer Engineering (2002)
  PhD, University of Oslo, Norway

Memarzadeh, Faranak - Assistant Professor, Hospitality, Tourism and Event Management (2015)
  PhD, Texas Tech University

Mena, Dolores - Professor and Chair, Counselor Education (2005)
  PhD, University of California, Santa Cruz

Mendoza, Valerie - Associate Professor, Art and Art History (2004)
  BFA, San Jose State University
  MFA, California College of Arts and Crafts

Meniketti, Marco - Professor, Anthropology (2006)
  BA, University of California, Berkeley
  MA, Michigan State University
  MS, Michigan Technological University
  PhD, Michigan State University

Merz, Michael - Professor and Chair, Marketing and Business Analytics (2008)
  PhD, University of Hawaii at Manoa

Merz, Miwa - Associate Professor, Marketing and Business Analytics (2011)
  PhD, University of Hawaii at Manoa

Meshcheryakov, Artem - Assistant Professor, Accounting and Finance (2015)
  BA, Volgograd State Technical University, Russia
  MBA, Marshall University
  PhD, Texas Tech University

Messing, Nicholas - Student and Regional Alumni Engagement Specialist, Alumni & Community Engagement (2020)
  BA, MidAmerica Nazarene University
MS, University of Central Missouri

Metzger, Ellen - *Professor, Geology* (1989)

PhD, Syracuse University

Middaugh, Ellen - *Assistant Professor, Child and Adolescent Development* (2014)

BA, George Washington University

PhD, University of California, Berkeley

Miller, Jonathan - *Professor, Geology* (1999)

PhD, University of North Carolina

Miller, Shannon - *Dean, College of Humanities and Arts* (2014)

BA, Dartmouth College

MA and PhD, University of California, Santa Barbara

Miller Conrad, Laura - *Assistant Professor, Chemistry* (2014)

BA, Macalester College

PhD, University of California, Berkeley

Millora, Lisa - *Chief of Staff* (2019)

BA and MA, Boston College

MA and PhD, University of California, Los Angeles

Mir, Nader - *Professor, Electrical Engineering* (2001)

MS and PhD, Washington University, Saint Louis

Miranda, Celinda - *Counselor II, Counseling and Psychological Services* (2015)

MSW, San Jose State University

MDI, American Baptist Seminary of the West

Miranda-Ramirez, Elisha - *Associate Professor and Chair, Film and Theatre* (2018)

BA, University of California, Berkeley

MCP, Massachusetts Institute of Technology

MFA, Columbia University

PhD, University of Southern California

BS, San Jose State University
Moh, Melody - **Professor and Interim Chair, Computer Science** (1991)
   PhD, University of California, Davis

Moh, Teng-Sheng - **Professor, Computer Science** (2004)
   PhD, University of California, Davis

Mohlenhoff, Marko - **Student Affairs Case Manager** (2017)
   BA, Cornell University
   MED, Colorado State University

Mok, Gwendolyn - **Professor, Music and Dance** (2003)
   BA, Yale University
   MM and DMA, State University of New York, Stony Brook

Monday, Nyle - **Librarian, University Library** (2005)
   BA, University of Hawaii at Manoa
   MA, California State University, Bakersfield
   MS, San Jose State University

Monsur, Sami - **Senior Director of Academic Budgeting and Administration, Academic Affairs** (2003)
   BA, San Jose State University

Moore, Dorothy - **Assistant Professor, Nursing** (2018)
   DNP, California State University, Fresno

Morellos-Zaragoza, Robert - **Professor, Electrical Engineering** (2002)
   BSEE and MSEE, National Autonomous University of Mexico, Mexico
   PhD, University of Hawaii at Manoa

Moriarty, Thomas - **Professor, English** (2014)
   PhD, Purdue University

Morris, Susannah - **Director, Study Abroad and Away** (2016)
   MA, School for International Training

Morris, Nicole - **Director of Cleary and Drug-Free Schools and Communities Act Compliance** (2019)
   BA and MS, Portland State University

Moshavi, Dan - **Dean, College of Business** (2017)
   BA and MBA, George Washington University
   PhD, University of Oregon
Mou, Bo - *Professor, Philosophy* (2000)
   PhD, University of Rochester

Mourtos, Nikos - *Professor and Chair, Aerospace Engineering* (1985)
   BS, University of Patras, Greece
   MS and PhD, Stanford University

Mullin, Deborah - *Manager, Academic Resources, College of Social Sciences* (2016)

Mullen, Elizabeth - *Associate Professor, School of Management* (2015)
   PhD, University of Illinois at Chicago

Muller, Gilles - *Professor, Chemistry* (2012)
   BS and MS, University Louis Pasteur, France
   PhD, University of Lausanne, Switzerland

Mullin, Jim - *Custodial Crew Manager* (2016)

Mulvaney, Dustin - *Professor, Environmental Studies* (2011)
   BA and MS, New Jersey Institute of Technology
   PhD, University of California, Santa Cruz

Munaganti, Pavankumar - *Assistant Professor, Marketing and Business Analytics* (2020)
   PhD, Washington State University

Mune, Christina - *Associate Dean, Innovation and Research Management, University Library* (2012)
   MLIS, San Jose State University

Munoz-Munoz, Eduardo - *Assistant Professor, Teacher Education* (2014)
   MA, University of California, Berkeley
   MA and PhD, Stanford University

Murphy, Veronica - *Director, Donor Relations and Stewardship* (2006)
   BA, San Jose State University

Muthig, Michael - *Director of Innovation, Office of Innovation* (2020)
   BS and PhD, University of South Carolina
   MS, University of Kentucky

Myers-Lipton, Scott - *Professor, Sociology and Interdisciplinary Social Sciences* (1999)
   MA, San Francisco State University
   PhD, University of Colorado at Boulder
N

Nathan-Roberts, Dan - Associate Professor, Industrial and Systems Engineering (2014)
   BS, University of Rochester
   MSE and PhD, University of Michigan

Ndon, Udeme - Professor, Civil and Environmental Engineering (1996)
   PhD, University of Iowa

Nellen, Annette - Professor and Director of MST Program, Accounting and Finance (1990)
   BS, California State University, Northridge
   MBA, Pepperdine University
   JD, Loyola Law School

Nelson, Joshua - Associate Professor, Design (2013)
   MA, University of Washington

Ng, Ho-Kuen - Professor, Mathematics (1984)
   PhD, University of California, Berkeley

Nguyen, Leon - IT Program Director, Strategic Plan and Portfolio Management (1999)
   BA, San Jose State University

Nguyen, Ngoc - Assistant Parking Manager (2002)
   AS, Mission College
   BS, San Jose State University

Nguyen, Nancy - Associate Director of Student Involvement (2015)
   BS, University of the Pacific
   MA, San Diego State University

Nieva Jr., Norberto - Chief Engineer (2019)
   BSEE, Adamson University
   MBA, University of Phoenix

Norris, Keenan - Assistant Professor, English (2017)
   PhD, University of California, Riverside

Novak, Jean - Professor, Communicative Disorders and Sciences (1991)
   PhD, University of California, Berkeley
Nymeyer, Matt - Director, Environmental Health and Safety (2014)
   BS, Northern Arizona University
   MS, Arizona State University

O'Brien, Stephen - Deputy Director, Athletics (2017)
   BA, Santa Clara University
   JD, University of Southern California

Obaid, Samih - Professor, Mathematics (1985)
   PhD, Pennsylvania State University

Oberdorfer, June - Professor, Geology (1983)
   PhD, University of Hawaii at Manoa

Obi, Samuel - Professor and Director, Technology (1989)
   BS and MS, Southeastern Oklahoma State University
   PhD, University of Northern Iowa

O'Dell, Shaun - Assistant Professor, Art and Art History (2019)
   MFA, Stanford University

O'Leary-Kelley, Colleen - Professor and Director, Nursing (2001)
   BS, Mount Saint Mary's University
   MS and PhD, University of California, San Francisco

O'Malley, Rachel - Professor, Environmental Studies (1998)
   PhD, University of California, Santa Cruz

O'Rorke, Ryan - Assistant Athletics Director for Marketing (2018)
   BA, University of North Carolina at Chapel Hill

Odum, Derrick - Assistant Football Coach/Defensive Coordinator (2016)
   BS, University of Utah

Oh, Dahyun - Assistant Professor, Chemical and Materials Engineering (2017)
   BS, Seoul National University, South Korea
   PhD, Massachusetts Institute of Technology

Okamoto, Nicole - Professor and Chair, Mechanical Engineering (2001)
PhD, University of Illinois at Urbana-Champaign

Okuda, Roy - Professor, Chemistry (1990)
  BA, University of California, San Diego
  PhD, University of Hawaii

Olson, Katharine - Assistant Professor, History (2016)
  BA, University of Chicago
  PhD, Harvard University

Olson, Nathan - Director of Annual Giving for Intercollegiate Athletics, External Athletic Operations (2019)
  BA, University of Minnesota, Morris
  MED, University of Washington

Onita, Colin - Assistant Professor, Accounting and Finance (2018)
  BBA, Academy of Economic Studies, Romania
  MSc, Fogelman College of Business and Economics
  PhD, University of Memphis

Onkvisit, Sak - Professor, Marketing and Business Analytics (1986)
  PhD, University of Kentucky

Ormsbee, Todd - Associate Professor, Humanities (2005)
  MA and PhD, University of Kansas

Osland, Asbjorn - Professor, Global Innovation and Leadership (2002)
  PhD, Case Western Reserve University

Ostovari, Pouya - Assistant Professor, Technology (2017)
  PhD, Temple University

Ottoes, Scott - Director, IT Program Management and Communications (2018)
  BS, University of Wyoming

Ouverney, Cleber - Professor, Biological Sciences (2005)
  BS, Occidental College
  MS, California State University, East Bay
  PhD, University of Southern California

Oyamot, Clifton - Professor and Chair, Psychology (2005)
  BA, Reed College
PhD, University of Minnesota, Twin Cities

Ozemek, Haluk - Professor, Computer Engineering (1982)

PhD, University of Arkansas, Fayetteville

P

Pagani, Marco - Associate Dean, Lucas College and Graduate School of Business (2006)

MS, University of Montreal

PhD, Georgia State University

Paisant, Julie - Senior Director of Employee Relations, Retention, and Equal Opportunity, University Personnel (2012)

Pala, Atulkumar - Senior Director of IT Computing Services, Computing Services (2006)

BA, Foreign Institution

Palmer, Evan - Associate Professor and Graduate Coordinator, Psychology (2016)

BA, MA, and PhD, University of California, Los Angeles

Panahi, Maggie - IT Project Director (2015)

PhD, University of San Francisco

Papadopoulos, Periklis - Professor, Aerospace Engineering (1998)

PhD, Stanford University

Parent, David - Professor, Electrical Engineering (1999)

BS, MS, and PhD, University of Connecticut

Park, Chulwoo - Assistant Professor, Public Health and Recreation (2020)

BS, University of Utah

MSPH, Johns Hopkins Bloomberg School of Public Health

PhD, George Washington University

Park, Hyun-Sook - Professor, Special Education (2002)

PhD, University of California, Berkeley

Park, Taeho - Professor and Director, Global Innovation and Leadership (1988)

PhD, University of Wisconsin, Madison

Park, Younghee - Associate Professor, Computer Engineering (2013)

PhD, North Carolina State University
Patel, Niranjani - *Professor and Graduate Coordinator, Industrial and Systems Engineering* (2002)
  BSc and MSc, Maharaja Sayajirao University of Baroda, India
  MS, University of Illinois at Chicago
  MS and PhD, Georgia Institute of Technology

Paul, Cassandra - *Associate Professor, Physics and Astronomy* (2012)
  BA, State University of New York, Oswego
  MS, University of Wyoming
  PhD, University of California, Davis

Payumo, Nino Alexander - *Assistant Professor, Biological Sciences* (2020)
  PhD, Stanford University

Pearce, Jon - *Professor, Computer Science* (1982)
  PhD, University of California, Berkeley

Pence, Barbara - *Professor, Mathematics* (1974)
  PhD, Stanford University

Pendyala, Vishnu - *Assistant Professor, Applied Data Science* (2021)

Peng, Chunhui - *Assistant Professor, World Languages and Literatures* (2010)
  PhD, University of California, San Diego

Peck, Deanna - *Peer Academic Success Services Program Director* (1999)
  MA, Indiana University Southeast

Percival, Garrick - *Associate Professor and Chair, Political Science* (2012)
  BA and MA, San Diego State University
  PhD, University of California, Riverside

Pereira, Gary - *Assistant Professor, Geography* (2002)
  PhD, University of Minnesota, Twin Cities

Pereira Pignotti, Giselle - Assistant Professor, Nutrition, Food Science and Packaging (2014)
  BS and MS, University of São Paulo
  PhD, Arizona State University

Perez-Guerra, Marla - *Associate University Risk Manager* (2016)

Peter, Kenneth - *Professor, Political Science* (1990)
  BA, Stanford University
MA, University of Chicago
MA and PhD, Princeton University

Pham-Hi, Ninh - Internal Control, Director (2003)
MA, Chicago State University

Phillabaum, Scott - Associate Professor and TESOL Coordinator Linguistics and Language Development (2008)
BA, Tulane University
MA, Louisiana State University
PhD, University of California, Los Angeles

Pickering, Mary - Professor, History (1994)
BA, MA, and PhD, Harvard University

Pietsch, Carlie - Assistant Professor, Geology (2017)
PhD, University of Southern California

Pizarro, Marcos - Associate Dean of College of Education (1999)
BA, Stanford University
PhD, University of Los Angeles

Plato, Peggy - Professor, Kinesiology (1976)
BS, San Jose State University
MS, University of Arizona
PhD, Ohio State University

Pogodzinski, Joseph - Professor, Economics (1987)
PhD, State University of New York, Stony Brook

Pollett, Christopher - Professor, Computer Science (2001)
PhD, University of California, San Diego

Ponniah, Jonathan - Assistant Professor, Electrical Engineering (2017)
PhD, University of Illinois at Urbana-Champaign

Poo, Adriana - Senior Assistant, University Library (2012)

Porfilio, Bradley - Professor and Director, Educational Leadership Program (2019)
BA and MS, Niagara University
MA, State University of New York at Brockport College
PhD, University at Buffalo
Portner, Ryan - Assistant Professor, Geology (2017)
    PhD, Macquarie University, Australia

Potika, Aikaterini - Assistant Professor, Computer Science (2015)
    PhD, National Technical University of Athens, Greece

Poza, Luis - Assistant Professor, Teacher Education (2018)
    BA, Yale University
    MS, Columbia University
    PhD, Stanford University

Prado, Carolina - Assistant Professor, Environmental Studies (2018)
    BA, San Diego State University
    PhD, University of California, Berkeley

Preston, Stephanie - Counselor I, Counseling and Psychological Services (2013)
    MS, Pacific Northwest College of Art
    PhD, Pacific University School of Professional Psychology

Prioleau, Jean - Men's Basketball Head Coach (2017)
    BS, Fordham University

Pritsker, Jeffrey - Associate Athletics Director, Finance (2018)
    BS, Purdue University
    MBA, Miami University
    PhD, Florida State University

Prothro-Jones, Lennon - Assistant Director of Staff, Lead, and PM (2017)
    BA, San Jose State University
    MED, Ashford University

Prunty, Kathleen - Associate Vice President for Business Services (2018)
    BA, Pitzer College

Pruthi, Sarika - Associate Professor, Global Innovation & Leadership (2014)
    PhD

Pyeon, Jae-Ho - Associate Professor, Civil and Environmental Engineering (2007)
    PhD, University of Florida
Quach, Wendy - Associate Professor and Graduate Program Director, Communicative Disorders and Sciences (2007)

BA and MA, University of Alberta, Canada
PhD, University of Nebraska-Lincoln

Quan, Gina - Assistant Professor, Physics and Astronomy (2019)

BA, University of California Berkeley
PhD, University of Maryland, College Park

Quan, Xiaohong - Professor, Global Innovation and Leadership (2007)

BS and ME, Peking University, China
PhD, University of California, Berkeley

Quill, Lawrence - Professor, Political Science (2006)

PhD, University of Essex, England

Quintanar, Mary - Associate Athletics Director, Human Resources (2019)

PhD, Stanford University

R

Rabin, Colette - Professor, Teacher Education (2006)

BA, Reed College
MA, San Jose State University
PhD, Mills College

Radford, Cameron - Director of Football Digital Communications, Football (2017)

BS, Oregon State University

Radlauer, Madalyn - Assistant Professor, Chemistry (2017)

BS, Stanford University
PhD, California Institute of Technology

Raghuram, Sumita - Associate Professor, School of Management (2019)

PhD, University of Minnesota

Rajan, Mahesh - Professor, Marketing and Business Analytics (2001)

PhD, University of California, Irvine

Rajkovic, Tijana - Assistant Professor, Accounting and Finance (2015)
BS, University of Belgrade, Serbia
PhD, University of Missouri

Raman, Priya - Associate Professor, Communication Studies (2008)
BS, Osmania University College for Women, India
MA, University of Arizona
PhD, University of Arizona

Ramasubramanian, Anand - Professor, Chemical and Materials Engineering (2016)
BS, Annamalai University, India
MS, Indian Institute of Science, India
PhD, Rice University, Texas

Ramasubramanian, Laxmi - Professor and Chair, Urban and Regional Planning (2019)
MCP, Massachusetts Institute of Technology
PhD, University of Wisconsin, Milwaukee

Ramirez, Maria -- Director of Advancement Services (1998)

Ramirez, Ruby - Assistant Professor, World Languages and Literatures (2016)
PhD, University of California, Riverside

Rampini, Costanza - Assistant Professor, Environmental Studies (2016)
PhD, University of California, Santa Cruz

Rao, Alaka - Associate Professor, School of Management (2009)
PhD, University of California, Irvine

Rascon, Alberto - Associate Professor, Chemistry (2013)
BS, California State University, Bakersfield
PhD, University of Arizona

Rasmussen, David - Senior Associate Athletics Director for Compliance (2018)
BA, Brigham Young University
JD, Pennsylvania State University

Rauch, Lisa - Assistant Professor and Co-Curriculum and Compliance Coordinator, Nursing (2004)
AA, De Anza College
BS and MS, San Jose State University
PhD, University of San Francisco
Raynsford, Anthony - Associate Professor, Art and Art History (2008)
   PhD, University of Chicago
Reade, Carol - Professor, Global Innovation and Leadership (2005)
   PhD, London School of Economics and Political Science, England
Rebmann, Kristen - Professor, School of Information (2007)
   PhD, University of California, San Diego
Rech, Sabine - Professor and Director of Biotechnology Program, Biological Sciences (1986)
   BS, University of Santa Clara
   MA, San Jose State University
   PhD, University of California, Davis
Record, Matthew - Assistant Professor, Political Science (2017)
   PhD, Ohio State University
Redd, Jennifer - Director, eCampus (2011)
   BS and MED, University of Nevada, Las Vegas
   MS, California State University, Fullerton
   PhD, Iowa State University
Reed, Ben - Assistant Professor, Computer Science (2018)
   BA, Miami University, Oxford
   MS, DePaul University
   PhD, University of California, Santa Cruz
Reed, Donald - Professor, Geology (1991)
   PhD, University of California, San Diego
Reekie, Shirley - Professor, Kinesiology (1982)
   BA, University of Liverpool, England
   MA, University of Leeds, England
   PhD, Ohio State University
Rees, Matthew - Senior Director, University Housing (2005)
   MA, Teachers College, Columbia University
Reimer, Kendra - Director of Track/Field/Cross Country, Women's Cross Country (2018)
   MS, Texas A&M University
Rejeb, Jalel - Associate Professor, Electrical Engineering (2000)
   PhD, Syracuse University

Reyes, Migdalia - Professor and Chair, School of Social Work (1994)
   BA, University of Puerto Rico, Rio Piedras Campus, Puerto Rico
   MSW, University of Connecticut
   PhD, University of Massachusetts, Amherst

Richardson, Pamela - Professor and Chair of the Accreditation Review Committee, Occupational Therapy (1998)
   BS, University of Puget Sound
   MS and PhD, University of Washington

Rickman Patrick, Sheri - Assistant Professor, Nursing (2017)
   BS, University of California, Davis
   BS, Bethel College
   MSN, University of California, San Francisco
   DNP, Northern California Consortium

Rietz, Justin - Assistant Professor, Economics (2011)
   BA, Stanford University
   MBA, University of California, Berkeley
   MA, San Jose State University
   PhD, University of Santa Cruz

Riley, Shannon Rose - Professor, Chair, and Coordinator of Creative Arts Program, Humanities (2008)
   BFA, Maine College of Art
   MFA, Tufts University
   PhD, University of California, Davis

Rios, Shauna - Associate Director for Financial Support and Innovation (2007)
   AA, Modesto Junior College
   BA and MPA, California State University, Stanislaus

Rivera, Ferdinand - Professor, Mathematics (2002)
   PhD, Ohio State University

Rivers, Daniel - Assistant Professor, Humanities (2019)
   BA, Sonoma State University
MA, New York University
PhD, Claremont Graduate University

Roberts-Douglass, Karisman - Counselor II, Counseling and Psychological Services (2010)
PsyD, Alliant International University

Rodan, Simon - Professor, School of Management (2002)
BS, Imperial College, England
MBA and PhD, Institut Européen d'Administration des Affaires, France

Roddick, Cheryl - Professor, Mathematics (1998)
PhD, Ohio State University

Rodgers, Bernadette - Associate Director, Enrollment Services Communication (2011)
BA, California State University, Chico

Rodriguez, Patricia - Administrative Resources Specialist, Office of Research (2001)
BS and MA, San Jose State University

Roe, Kathleen - Professor, Public Health and Recreation (1986)
BA, MPH, PhD, University of California, Berkeley

Rogers, Ronald - Associate Dean, Academic Programs and Student Success (1999)
BA, University of California, Santa Cruz
MA and PhD, Rutgers University

Rohn, Leslie - Chief Operating Officer (2006)
BBA, Florida International University

Rohrmeier, Kerry - Assistant Professor, Urban and Regional Planning (2014)
BA, Sierra Nevada College
MA, California Polytechnic State University, San Luis Obispo
PhD, University of Nevada, Reno

Rojas, Carlos - Assistant Professor, Computer Engineering (2019)
PhD, University of California, Davis

Roldan, Maria - Professor, Information Systems and Technology (2011)
PhD, University of California, Los Angeles

Rollerson, Eric - Executive Director, University Housing Services (2019)
MS, Oklahoma State University
Romanowsky, Aaron - **Associate Professor, Physics and Astronomy (2012)**

BS, University of California, Santa Barbara

MA and PhD, Harvard University

Rondilla, Joanne Marie - **Assistant Professor, Sociology & Interdisciplinary Social Sciences (2017)**

PhD, University of California, Berkeley

Rosenblum, Ruth - **Associate Professor and Program Coordinator of Northern Consortium, Nursing (2006)**

BS, University of Wisconsin

MS, Northwestern University

DNP, University of San Francisco

Rosenfeld, Liat - **Assistant Professor, Chemical & Materials Engineering (2015)**

BS, MS, and PhD, Israel Institute of Technology, Israel

Ross, Susan - **Assistant Professor, Coordinator of Recreation Therapy, and Coordinator of Complementary and Alternative Medicine, Public Health and Recreation (1999)**

PhD, California Institute of Integral Studies

Rostankowski, Cynthia - **Associate Professor and Coordinator of Humanities Honors and Advanced Honors Programs, Humanities (1987)**

PhD, Stanford University

Roth, Jonathan - **Professor and Director of the Burdick Military History Project, History (1994)**

BA, University of California, Berkeley

MA and PhD, Columbia University

Rouse, Wendy - **Associate Professor and Coordinator of Social Science Teacher Preparation Program, History (2012)**

BA and MA, California State University, Sacramento

PhD, University of California, Davis

Roy, Mantra - **Senior Assistant, University Library (2019)**

PhD, University of South Florida

Rudy, Preston - **Assistant Professor, Sociology & Interdisciplinary Social Sciences (2004)**

BA, University of Texas, Austin

MA and PhD, University of California, Davis

Ruiz Duarte, Jose - **Assistant Professor, Marketing and Business Analytics (2020)**

PhD, University of Arizona
Russell, William - Professor, Environmental Studies (2004)
  BS, University of California, Santa Cruz
  MS, San Jose State University
  PhD, University of California, Berkeley

Ryan, Tricia - Director, Graduate Admissions and Program Evaluation (2005)
  BA, San Francisco State University
  MS, California State University
  MA, San Jose State University

Rycenga, Jennifer - Professor and Coordinator of Comparative Religious Studies Program, Humanities (1990)
  BA, Yale University
  MM, University of Toronto, Canada
  MA, Sacred Heart University
  PhD, Graduate Theological Union

S

Sabalius, Romey - Professor, World Languages and Literatures (1995)
  PhD, University of Southern California

Saldamli, Gokay - Assistant Professor, Computer Engineering (2016)
  PhD, Oregon State University

Saleem, Mohammad - Professor, Mathematics (1990)
  PhD, University of California, Davis

Salinas, Cynthia - Manager for Organizational Planning & Projects, University Personnel (2016)
  BA and MBA, San Jose State University
  MA, University of San Francisco

Salvadalena, Adam - Associate Director of Energy, Co-Generation Plant (2015)
  BS, California Polytechnic State University, San Luis Obispo

Samuelson, Cheyla - Associate Professor, World Languages and Literatures (2014)
  PhD, University of California, Santa Barbara

San Fratello, Virginia - Associate Professor, Design (2010)
  MA, Columbia University
San Nicolas-Rocca, Tonia - Associate Professor, School of Information (2013)
  BA and MBA, California State University, San Bernardino
  PhD, Claremont Graduate University
Sanchez, Carlos - Professor, Philosophy (2000)
  BS, San Jose State University
  PhD, University of New Mexico
Sanfilippo, Bradley - Head Coach, Baseball (2012)
  BA, University of California, Davis
Santos, Michael - Police Lieutenant, Administrative Division (1998)
  BA, San Jose State University
Sasaki, Blake - Senior Associate Athletics Director for External Relations, External Athletic Operations (2013)
  BA, University of California, Davis
  MA, Ohio University
Sasikumar, Karthika - Professor, Political Science (2009)
  MA, Jawaharlal Nehru University, India
  MA, English and Foreign Language University, India
  PhD, Cornell University
Sauzade, Alena - Art Gallery Director and Collections Manager (2020)
  BA, Mills College
  PhD, State University of New York, Stony Brook
Saxena, Navrati - Assistant Professor, Computer Science (2020)
  BS, Kampur University, India
  MS, Agra University, India
  PhD, Università di Trento, Italy
Schettler, Jordan - Assistant Professor, Mathematics (2015)
  BS, University of Tennessee
  PhD, University of Arizona
Schmidt, Teresa - Interim University Bursar, Bursar’s Office (2019)
  BBA, Ohio University
  MBA, Ashland University
Schultz-Krohn, Winifred - Professor, Occupational Therapy (1996)

BS, University of Minnesota
MA, University of Hartford
PhD, Saybrook Graduate Institute

Schuster, David - Associate Professor, Psychology (2013)

BA, University of Tampa
MA and PhD, University of Central Florida

Sclafani-Jackson, Jennifer - Director, Enrollment Services Technical Implementation and Communication (2006)

MA and MS, San Jose State University

Scott, Kohar - Assistant Professor, Design (2015)

BS, Art Center College of Design
MA, San Francisco State University

Seah, Diana - Associate Professor, Design (2002)

MA, Iowa State University

Selvaduray, Guna - Professor and Chair, Biomedical Engineering (1978)

BE, Tokyo Institute of Technology, Japan
MS and PhD, Stanford University

Semerjian, Tamar - Professor and Chair, Kinesiology (2007)

BA, University of California, Berkeley
MA and PhD, University of Iowa

Sen, Soma - Professor, School of Social Work (2007)

MSW, University of Minnesota, Twin Cities
PhD, Arizona State University

Sequeira, Emmanual - Assistant Professor, Accounting and Finance (2020)

BS, Metropolitan State University of Denver
MS and PhD, University of Texas, El Paso

BS, Menlo College

Sexton, Randall - Professor, Design (1986)

BFA, University of Washington
Sexton, Victoria - **Student Affairs Case Manager** (2020)
   BA, University of Iowa
   MS, University of Central Missouri

Seymour, Chafin - **Assistant Professor, Music and Dance** (2019)
   MFA, University of Iowa

Shaffer, Scott - **Professor, Biological Sciences** (2009)
   BS, San Diego State University
   MS and PhD, University of California, Santa Cruz

Shams, Shayan - **Assistant Professor, Applied Data Science** (2021)

Shi, Tianqin - **Assistant Professor, Global Innovation and Leadership** (2015)
   PhD, University of Illinois at Urbana-Champaign

Shifflett, Bethany - **Professor, Kinesiology** (1987)
   BA, Southern Connecticut State College
   MA and PhD, University of Iowa

Shillington, Audrey - **Dean, College of Health & Human Science** (2020)

Shim, Sang - **Professor, Computer Engineering** (1997)
   PhD, University of Minnesota, Twin Cities

Shirani, Ashraf - **Professor, Information Systems and Technology** (2000)
   MBA, University of Ark, Fayetteville
   PhD, University of Mississippi

Shiverdecker, Adam - **Assistant Professor, Art and Art History** (2015)
   MFA, University of South Carolina

Shojaei, Rahimeh - **Assistant Professor, Film and Theatre** (2020)
   MA, Savannah State College

Shukla, Namrata - **Associate Dean, College of Professional and Global Education** (2008)
   MBA, University of Houston

Sibley, Robert - **Associate Professor, Marketing and Business Analytics** (2002)
   PhD, Georgia State University

Siebert, Erin - **Assistant Professor, Kinesiology** (2017)
   BS and MS, University of Wisconsin
MPH and PhD, Oregon State University

Silberman, Shai - Director, Network Services (2013)

MBA, San Jose State University

Simic, Slobodan - Professor, Mathematics (2004)

PhD, University of California, Berkeley

Simocko, Chester - Assistant Professor, Chemistry (2016)

BS, Rensselaer Polytechnic Institute

PhD, University of Florida

Simon, Melinda - Assistant Professor, Biomedical Engineering (2017)

BS, University of Cincinnati

MS, University of California, Davis

PhD, University of California, Irvine

Simpson, Craig - Associate Librarian, University Library (2017)

MA, Marquette University

Simpson, Lisa - Assistant Professor, Special Education (2014)

BS and MED, Texas Tech University

DED, University of San Francisco

Singhal, Sonia - Assistant Professor, Biological Sciences (2020)

PhD, University of Washington

Singmaster, Karen - Professor and Chair, Chemistry (1988)

BS, University of Puerto Rico, Puerto Rico

PhD, University of California, Berkeley

Sirkeci, Birsen - Professor, Electrical Engineering (2007)

BS, Middle East Technical University, Turkey

MS, Northeastern University

PhD, Cornell University

Skinnell, Ryan - Associate Professor and Assistant Writing Program Administrator, English (2015)

BA, University of California, Santa Barbara

MA, California State University, Northridge

PhD, Arizona State University
Skovran, Elizabeth - *Associate Professor, Biological Sciences* (2012)
PhD, University of Wisconsin, Madison

Skyberg, John - *Senior Director for Facilities Services, Maintenance and Operations* (1980)

Slusser, Emily - *Associate Professor and Chair, Child and Adolescent Development* (2012)
BA, MA, and PhD, University of California, Irvine

Smallwood, Christopher - *Assistant Professor, Physics and Astronomy* (2018)
BA, Harvard University
MA and PhD, University of California, Berkeley

Smallwood, Evan - *Director, Leadership Annual Giving* (2019)
BA, University of Mary Washington

Smith, Grinell - *Professor, Teacher Education* (2006)
PhD, University of Alabama

Smith, Jerilyn - *Associate Professor and Chair, Occupational Therapy* (2003)
BS and MS, San Jose State University
PhD, Trident University

Smith, Maureen - *Professor, Child and Adolescent Development* (1999)
BA, University of California, Davis
MA and PhD, Cornell University

Smith, Michelle - *Director of Corporate and Found, Development University Advancement* (2019)
BA, Santa Clara University
MPS, California State University, East Bay

Sncerski, Susan - *Associate Professor, Psychology* (2005)
BA, Central Michigan University
MA and PhD, Western Michigan University

BS and MA, University of Hong Kong, Hong Kong
PhD, University of California, Santa Barbara

Soldofsky, Alan - *Professor and Director of Creative Writing, English* (1985)
MFA, University of Iowa

Sorkhabi, Nadia - *Professor, Child and Adolescent Development* (2007)
PhD, University of California, Berkeley
Soto, Julio - *Professor, Biological Sciences* (1999)
PhD, University of California, Berkeley
Spangler, Matthew - *Professor, Communication Studies* (2005)
  BS, Northwestern University
  MA, Trinity College Dublin, Ireland
  PhD, University of North Carolina at Chapel Hill
  BA, California State University, Humboldt
  MA, University of Wyoming
  PhD, Indiana University, Bloomington
Spilker, Arlene - *Assistant Professor, Nursing* (2008)
  BS and MS, San Jose State University
  DNP, California State University, Fresno
Spitzer, Julie - *Professor, Mathematics* (2000)
  PhD, University of North Carolina at Chapel Hill
Stamp, Mark - *Professor, Computer Science* (2002)
  BS, Morningside College
  PhD, Texas Tech University
Stansberry, Julie - *Interim Associate Director, Student Athlete Success Service* (2005)
  BA and BA, San Jose State University
Stanton, Liam - *Assistant Professor, Mathematics* (2018)
  PhD, Northwestern University
Stasiewicz, Amanda - *Assistant Professor, Environmental Studies* (2020)
  BS, Siena College
  MS and PhD, University of Idaho
Stemwedel, Janet - *Professor, Philosophy* (2002)
  PhD, Stanford University
Stenberg, Joseph - *Assistant Professor, Philosophy* (2019)
  PhD, University of Colorado at Boulder
Stephens, Michael - Associate Professor, School of Information (2011)
    BA and MLS, Indiana University
    PhD, University of North Texas

Stewart, Nancy - Senior Director, Annual Giving (2003)
    BA, Santa Clara University

Stork, Nancy - Professor, English (1994)
    PhD, University of Toronto, Canada

Stroh, Patricia - Librarian, Beethoven Center (1986)
    BM, University Of Illinois at Urbana-Champaign
    MA, Univ Of California, Berkeley

Struer, Amanda - Director, Advancement Research and Prospect Management (2014)
    BA, Copenhagen Business School
    MA, Temple University

Su, Xiao - Professor and Associate Dean for Graduate Studies and Research, College of Engineering (2002)
    PhD, University Of Illinois at Urbana-Champaign

Sullivan-Green, Laura - Professor and Chair, Civil and Environmental Engineering (2008)
    BS, University of Dayton
    MS and PhD, Northwestern University

Sunseri, Charlotte - Associate Professor, Anthropology (2011)
    PhD, University of California, Santa Cruz

Svec, Adam - Assistant Professor, Audiology (2020)
    PhD, University of Minnesota, Twin Cities

Svorou, Soteria - Associate Dean, SSAP (1990)
    BA, University of Athens
    MA and PhD, State University of New York, Buffalo

Swan, Julia - Assistant Professor, Linguistics and Language Development (2017)
    PhD, University of Chicago

Swanson, Patricia - Professor and Chair, Teacher Education (1997)
    PhD, Stanford University

Sweet, Elizabeth - Assistant Professor, Sociology & Interdisciplinary Social Sciences (2017)
BA, Oregon State University
MA and PhD, University of California, Davis

Switz, Neil - Associate Professor, Physics and Astronomy (2016)
PhD, University of California, Berkeley

T

Tahsin, Salman - Assistant Professor, Accounting and Finance (2019)
PhD, University of Ark, Fayetteville

Talley, Joni - Associate Registrar (2006)
MA, California State University, Fullerton

Tan, Edwin - Director of Advocacy and Community, Organizational Development (2020)
BA, University of California, Riverside
MA and PhD, University of California, Irvine

Taylor, David - Associate Professor, Computer Science (2002)
PhD, University of California, Los Angeles

Taylor, Nicholas - Professor and Director of Martha Heasley Cox Center for Steinbeck Studies, English (2007)
MFA, University of Virginia

Taylor Siegel, Matthew - Director of Development, College of Humanities and the Arts (2016)
BA, Santa Clara University

Terrill, Roger - Associate Professor, Chemistry (1998)
BA, University of California, Santa Cruz
MS, Fresno State University
PhD, University of North Carolina

Thiele, Megan - Associate Professor, Sociology & Interdisciplinary Social Sciences (2013)
PhD, University of California, Irvine

Thienes, Benjamin - Assistant Athletics Director for Football Operations, Football (2017)
MS, Boise State University

Thompson, Gisi - Interim Associate Director, Student Conduct and Ethical Development (2014)
BS, University of Florida
MA, University of Central Florida
Thompson, Mark - Associate Professor and Director of Professional and Technical Writing Program, English (2013)
PhD, Carnegie Mellon University

Thompson Taiwo, Wendy - Assistant Professor, African American Studies (2018)
PhD, University of Maryland, College Park

Thompto, Chelsea - Assistant Professor, Art and Art History (2020)
BFA, University of Iowa
MFA, University of Wisconsin, Madison

Tian, Shaonan - Associate Professor, Marketing and Business Analytics (2013)
PhD, University of Cincinnati

Tian, Yao - Associate Professor, Accounting and Finance (2012)
BS, University of Saskatchewan, Canada
PhD, University of Waterloo, Canada

Tien, Shu-Hwa Sara - Nurse Manager (2019)
MPH, University of Texas Health Science Center at Houston

Tillinghast, Diana - Professor, Journalism and Mass Communications (1983)
PhD, Michigan State University

Tiwana, Ravneet - Interim Associate Director, Evaluation, Research, and Assessment (2017)
PhD, University of California, Los Angeles

To, Trang - Assistant Director for General Accounting, Accounting Services (1998)
BS, San Jose State University

Todd, Anne Marie - Associate Dean, Academic Programs & Student Success (2002)
BA, Emory University
MA and PhD, University of Southern California

Tohidi, Ali - Assistant Professor, Mechanical Engineering (2020)
PhD, Clemson University

Tokunaga, Howard - Professor, Psychology (1989)
PhD, University of California, Berkeley

Tortora, Cristina - Assistant Professor, Mathematics (2016)
PhD, University of Naples Federico II, Italy

Tran, Ngoc-Yen - Associate Librarian, University Library (2016)
MS, University of Washington

Trulio, Lynne - *Professor and Chair, Environmental Studies* (1991)

BA, Goucher College

PhD, University of California, Davis

Tsai, Chia - *Associate Director of Planning* (2016)

BS, University of San Francisco

MED, San Francisco State University

Tsai, Kim - *Assistant Professor, Child and Adolescent Development* (2017)

BA, University of California, Santa Cruz

PhD, University of California, Los Angeles

Tsai, Pei-Tzu - *Associate Professor, Communicative Disorders & Sciences* (2011)

BA, National Chengchi University, Taiwan

MA and PhD, University of Maryland, College Park

Tsao, Jacob - *Professor, Industrial and Systems Engineering* (2018)

BA, National Chiao-Tung University, Taiwan

MS, University of Texas, Dallas

PhD, University of California, Berkeley

Tseng, Chris - *Professor, Computer Science* (2001)

BS, National Taiwan University, Taiwan

MS and PhD, University of Illinois at Urbana-Champaign,

Tsuruike, Masaaki - *Associate Professor, Kinesiology* (2012)

BS, Osaka University of Health and Sport Sciences, Japan

MS and PhD, Indiana University, Bloomington

Tucker, Virginia - *Assistant Professor, School of Information* (2005)

BA, Stanford University

MLS, University of California, Berkeley

PhD, Queensland University of Technology, Australia

Tuite, Marie - *Director of Athletics* (2010)

MED, Central Michigan University

MBA, Hamilton University

Tzeng, Christina - Assistant Professor, Psychology (2020)

BA, Columbia University
MA and PhD, Emory University

U

Ukil, Patralekha - Assistant Professor, Economics (2020)

BS, Presidency College
MS, University of Warwick
PhD, University of Connecticut

Ulate, Jody - Senior Director, Strategic Communication and Marketing (2006)

BA, American University
MA, San Jose State University

Uresti, Aubrey - Assistant Professor, Counselor Education (2020)

BA, San Francisco State University
MA, Saint Mary's College
PhD, University of California, Davis

Uribe, Gary - Head Athletic Performance Coach, Strength and Conditioning (2013)

MS, Azusa Pacific University

BS and MA, San Jose State University

Uryu, Michiko - Assistant Professor and Japanese Advisor, World Languages and Literatures (2019)

PhD, University of California, Berkeley

V

Vagenas, Panagiotis - Research Development Specialist, Office of Research (2020)

MPH, Yale University
PhD, Imperial College London, England

Vaidya, Anand - Professor and Director of the Center for Comparative Philosophy, Philosophy (2005)

BA, University of California, Los Angeles
PhD, University of California, Santa Barbara

Valero Pérez, Mario Miguel - Assistant Professor of Wildfire Behavior and Remote Sensing (2021)
MS, Universidad Politécnica de Madrid
MS and PhD, Universitat Politècnica de Catalunya

Van Selst, Mark - Professor, Psychology (1997)
BA, University of British Columbia, Canada
MA and PhD, University of Waterloo, Canada

Van Wyngarden, Annalise - Associate Professor, Chemistry (2009)
BA and BS, Hope College
PhD, University of California, Berkeley

Vang, Chao - Associate Director, Institutional Research (2007)
BA, California State University, Sacramento

VanHoven, Miri - Professor and Associate Dean of Research, Biological Sciences (2008)
PhD, University of California, San Francisco

Vanniarajan, Swathi - Professor and Chair, Linguistics and Language Development (1995)
MLitt, Central Institute of English & Foreign Languages, India
MA, Ottawa University, Canada
PhD, University of California, Los Angeles

Vartan, Brad - Senior Director of Development, College of Business (2015)
BA, Columbia College

Vasquez, Anita - Director, Benefits and Payroll (1995)

Vasquez, Nathan - Interim Associate Director, Maintenance and Operations (2013)

Vera Sanchez, Claudio - Associate Professor, Justice Studies (2008)
MA and PhD, University of Illinois at Chicago

Verducci, Susan - Professor, Humanities (2004)
BFA, University of California, Santa Barbara
MFA, Rutgers University
MA and PhD, Stanford University

Vergine, Fabrizio - Assistant Professor, Aerospace Engineering (2017)
BS and MS, University of Rome, Italy
PhD, University of Texas, Arlington

Vickerman, David - *Associate Professor, Music and Dance* (2017)

BM, CSU Stanislaus

MM, Oregon State University

DMA, John Hopkins University

Villagran, Michele - *Assistant Professor, School of Information* (2018)

BS, University of Nevada, Las Vegas

MSLS and MBA, University of North Texas

MDR and DED, Pepperdine University

Villagran, Jose - *Assistant Professor, English* (2019)

PhD, University of California, Berkeley

Villavelazquez-Hill, Ignacia - *Associate Director, Accessible Education Center* (2005)

BA, University of California, Santa Cruz

MA, San Jose State University

Vinuales, Gema - *Assistant Professor, Marketing and Business Analytics* (2019)

PhD, University Of Rhode Island

Viswanathan, Vimal Kumar - *Associate Professor and Associate Chair, Mechanical Engineering* (2016)

BTech, National Institute of Technology, India

MS and PhD, Texas A&M University

Virick, Meghna - *Associate Dean, Undergraduate Programs for the College of Business* (2005)

MBA, Texas Christian University

PhD, University of Texas, Arlington

Visintainer, Tammie - *Assistant Professor, Teacher Education* (2017)

BS, University of Wisconsin, Madison

MS, San Francisco State University

PhD, University of California, Berkeley

Voss Plaxton, Catherine - *Interim Associate Vice President, Student Services* (2014)

BA, University of Michigan, Ann Arbor

MA, University to San Francisco

Vukazich, Steven - *Professor, Civil and Environmental Engineering* (1993)
BA, University of California, Davis
MA, University of California, Berkeley
PhD, University of California, Davis

W

Wagle, Ashwini - Professor, Chair, and Director of Didactic Program in Dietetics (DPD), Nutrition, Food Science and Packaging (2003)
   MS, Indiana University of Pennsylvania
   DED, University of New England
Wagner, David - Assistant Professor, Chemical and Materials Engineering (2016)
   PhD, University of Utah
Wallace, Danielle - Director, Administrative Services (2014)
   ABA, Las Positas College
Waller, Michael - Senior Associate Athletic Director, Business Operations (2015)
   BS, Central Missouri State University
Walsh, Elizabeth - Associate Professor, Meteorology and Climate Science (2012)
   BS, Harvey Mudd College
   MS and PhD, University Of Washington
Wang, Chunlei - Associate Professor, School of Management (2008)
   PhD, Stanford University
Wang, Haonan - Assistant Professor, Computer Engineering (2020)
   PhD, Marymount University
Wang, Ningkun - Assistant Professor, Chemistry (2017)
   BS, University of Utah
   PhD, University of Michigan, Ann Arbor
Wang Tung, Wei-Chen - Professor, Nursing (2020)
   PhD, University of Utah
Wang, Yun - Assistant Professor, Biomedical Engineering (2020)
   PhD, Michigan State University
Ward, Douglas - Director of Financial Planning and Analysis (2019)
MS, University of Wisconsin

Ward, Ryan - Director of Advocacy and Federal Relations, Organizational Development (2020)
  BA, Willamette University
  JD, University of Washington

Warner, Mary - Professor, English (2004)
  BA, Mount Mary College
  MA, Creighton University
  PhD, University of Michigan

Warren, Jodie-Ann - Assistant Professor, Justice Studies (2019)
  PhD, Simon Fraser University, Canada

Webb, G. Kent - Professor, Information Systems and Technology (1989)
  BA, Utah State University
  MA, MSE, MBA, and PhD, University of Pennsylvania

Wei, Belle - Professor, General Engineering (1987)
  PhD, University of California, Berkeley

Wei, Wenbin - Professor and Director, Aviation (2003)
  PhD, University of California, Berkeley

Wei, Yupeng - Assistant Professor, Industrial and Systems Engineering (2020)
  PhD, Pennsylvania State University

Weiler, Luke - Assistant Professor, Accounting and Finance (2020)
  MSBA and MAcc, University of Arkansas, Fayetteville
  PhD, Michigan State University

Weiss, Elizabeth - Professor, Anthropology (2004)
  BA, University of California, Santa Cruz
  MA, California State University, Sacramento
  PhD, University of Ark, Fayetteville

Wesley, Leonard - Associate Professor, Computer Science (1995)
  PhD, University Of Massachusetts, Amherst

West, Phylis - Professor and Director, Journalism & Mass Communications (2016)
  PhD, Southern Illinois University
West, Sara - Assistant Professor, English (2018)

PhD, University of Arkansas

Westlake, Bryce - Assistant Professor, Internship Coordinator, and International Experience Coordinator, Justice Studies (2015)

PhD, Simon Fraser University, Canada

Wharton, Kenneth - Professor, Physics and Astronomy (2001)

BA, Stanford University

PhD, University Of California, Los Angeles

White, Brandon - Professor, Biological Sciences (2007)

BS, Auburn University

PhD, University of Alabama, Birmingham

Whitenack, David - Professor, Teacher Education (1996)

BA, Dartmouth College

MED, Harvard University

PhD, Stanford University

Whitney, Robin - Assistant Professor, Nursing (2019)

BA, Bowdoin College

BS, University of Southern Maine

PhD, University of California, Davis

Widaman, Adrianne - Assistant Professor, Nutrition, Food Science and Packaging (2016)

BS and PhD, University of California, Davis

Wiggins, Yolanda - Assistant Professor, Sociology and Interdisciplinary Social Sciences (2020)

BA, West Virginia University

MA and PhD, University of Massachusetts, Amherst

Wilhelm, Brenda - Academic Resources Manager (1992)

BA, Ohio State University

Wilkin, Katherine - Assistant Professor, Biological Sciences (2020)

BS and MS, California Polytechnic State University-San Luis Obispo

PhD, University of California, Berkeley

Wilkinson, Katherine - Associate Professor, Biological Sciences (2020)
BA and BS, University of Pittsburgh
PhD, University of California, San Diego

Willey, Sharon - Senior Director of Student Affairs (1992)
MA, Bowling Green State University

Wilson, Ruth - Professor and Chair, African American Studies (2001)
BA, University of California, Santa Cruz
MA and PhD, Stanford University

Wolcott, Abraham - Assistant Professor, Chemistry (2015)
BS and PhD, University of California, Santa Cruz

Wolcott, Gregory - Associate Vice President for Student Transition and Retention Services (2001)
MA, Ohio University
DED, University of California, San Francisco

Wolf, Jennifer - Associate Professor, School of Social Work (2020)
MSW and PhD, University of California, Berkeley

Wong, Alan - Director, Business Development and External Relation (2014)
BS, San Jose State University
PhD, University of California, Davis

Wong, Kathleen - Chief Diversity Officer (2016)
BA, California State University, East Bay
PhD, Arizona State University

Wong, Heidi - Assistant Director for Budgeting Planning, Academic Planning and Budgets (2002)
AA, De Anza College

Wong, Hiu Yung - Assistant Professor, Electrical Engineering (2018)
BE and MA, Chinese University of Hong Kong, Hong Kong
PhD, University of California, Berkeley

Wong, Vivian - Professor and Director of the Wound and Ostomy Education Program, Nursing (2005)
BS, University of Texas, Arlington
MS, University of Florida
PhD, University of California, San Francisco

Wood, Andrew - Professor, Communication Studies (1998)
PhD, Ohio University

Wood, April - Assistant Professor, Nursing (2007)

BS and BSN, University of Iowa
MS, San Jose State University
DNP, American Sentinel University

Wood, Robert - Professor, School of Management (2001)

BA, Williams College
DBA, Boston University

Woodhead, Erin - Associate Professor, Psychology (2012)

BS, Pennsylvania State University
MS and PhD, West Virginia University

Worthen, Miranda - Associate Professor, Public Health and Recreation (2012)

BA, Harvard University
MA, Oxford University
PhD, University of California, Berkeley

Wright, Christie - Associate Director, Graduate Administration and Program Evaluation (2010)

BA, Averett College
MA, University of Texas, Arlington

Wright, Joanne - Senior Associate Vice President, University Personnel (2015)

BA, University of California, Santa Cruz
JD, Rutgers University, Camden

Wright, Shannon - Professor and Program Coordinator, Art and Art History (2002)

BFA, School of the Art Institute of Chicago
MFA, Virginia Commonwealth University

Wright, Sonia - Senior Director of Development for the College of Health and Human Sciences (2014)

MA, University of Oregon

Wu, Angela - Assistant Professor, Design (2010)

BA, University of California, Berkeley
MA, San Jose State University

Wu, Ching-seh - Assistant Professor, Computer Science (2018)
Wu, Yan - Associate Professor, Global Innovation and Leadership (2019)

Wu, Wencen - Assistant Professor, Computer Engineering (2018)

Wughalter, Emily - Professor, Kinesiology (1991)

Xiao, Fangjun - Assistant Professor, Accounting and Finance (2019)

Yagci Sokat, Kezban - Assistant Professor, Marketing and Business Analytics (2020)

Yambrach, Fritz - Professor and Director, Nutrition, Food Science and Packaging (2007)

Yan, David - Assistant Professor, Technology (2017)

Yanai, Yasue - Professor, Coordinator, and Advisor for Japanese Program, World Languages and Literatures (2009)
Yang, Minji - Counselor I, Counseling and Psychological Services (2017)
    PhD, University of Maryland, College Park
Yao, Marian - University Registrar (2005)
    BS, University of the Philippines
    MBA, Cleveland State University
Ybarra, Barbara - Director of Development for the College of Education (2020)
    BA and MBA, University of California, Santa Barbara
Yeboah, Nikki - Assistant Professor, Communication Studies (2016)
    PhD, Northwestern University
Yee, David - Assistant Professor, Design (2007)
    BS, San Jose State University
    MFA, University of Hartford
Yee, Raymond - Professor, Engineering Off-Campus Programs (2000)
    BS, California Polytechnic State University, San Luis Obispo
    MS and PhD, University of California, Berkeley
Yen, Tsu-Hong - Professor and Chair, Hospitality, Tourism and Event Management (2002)
    PhD, University of Illinois At Chicago
Yu, Weider - Professor, Computer Engineering (2002)
    PhD, Northwestern University
Yuan, Yue - Assistant Professor, Justice Studies (2016)
    PhD, Indiana University, Bloomington

Z

Zandiataashbar, Ahoura - Assistant Professor, Urban and Regional Planning (2020)
    BA, Shiraz Azad University, Iran
    MS, Rensselaer Polytechnic Institute
    PhD, University of Texas, Arlington
Zartoshty, Parinaz - Director, International Student and Scholar Services (2018)
    BA, Cornell University
    MA, Boston University
Zhang, Ni (Jennie) - Assistant Professor, Public Health and Recreation (2015)
   PhD, University of Iowa
Zhang, Jian - Professor, Accounting and Finance (2006)
   PhD, Arizona State University
Zhang, Jing - Professor, Marketing and Business Analytics (2011)
   PhD, University of Illinois at Urbana-Champaign
Zhang, Yan - Assistant Professor, Mathematics (2016)
   BA, Harvard University
   PhD, Massachusetts Institute of Technology
Zhao, Juzi - Assistant Professor, Electrical Engineering (2017)
   PhD, George Washington University
Zheng, Lilian -- Director of Institutional Research (2020)
   DED, University of California, Berkeley
Zhou, Ming - Professor, Global Innovation and Leadership (2006)
   PhD, University of Maryland, College Park
Zhou, Shu - Associate Professor, Global Innovation and Leadership (2007)
   PhD, Cornell University
Zipp, Robert - Leadership Annual Giving Officer (2019)
   BA, Swarthmore College
Emeritus Faculty

Year in parentheses indicates date of retirement of the faculty or staff member.

A

Acrivos, Juana - Emeritus Faculty, Chemistry (2006)
Adams, Michael - Emeritus Faculty, Film and Theatre (2013)
Adelman, Toby - Emeritus Faculty, Nursing (2019)
Ahlquist, Roberta - Emeritus Faculty, Teacher Education (2017)
Albers, Patricia - Lecturer Emerita, Art and Art History (2019)
Allmen, Cheryl - Emeritus Staff, Career Center (2012)
Alperin, Roger - Emeritus Faculty, Mathematics (2016)
Amiras, Mira - Emeritus Faculty, Humanities (2013)
Andersen, David - Emeritus Faculty, Geology (2018)
Anthrop, Donald - Emeritus Faculty, Geography (2006)
Antoine, Rosa - Emeritus Staff, Computer Engineering (2017)
Antokal, Gale - Emeritus Faculty, Art and Art History (2019)
Araya, Agustin - Emeritus Faculty, Computer Science (2011)
Ashton, Sally - Lecturer Emerita, English (2019)
Asquith, David - Emeritus Faculty, College of Social Sciences (2010)
Austin-Lett, Genelle - Emeritus Faculty, College of Social Sciences (2013)
Averett, Janet - Emeritus Faculty, Music and Dance (2021)
Avila, John - Emeritus Faculty, Computer Science (2007)

B

Baker, Diana - Emeritus Staff, History (2016)
Bakke, Celia - Emeritus Faculty, University Library (2011)
Baldwin, Cecilia - Emeritus Faculty, Journalism and Mass Communications (2014)
Barela, Albert - Emeritus Faculty, Art and Art History (2005)
Barnes, Judith - Emeritus Faculty, Communication Studies (2005)
Baroody-Hart, Cynthia - Emeritus Faculty, Justice Studies (2012)
Barozzi, Louie - Emeritus Staff, International Student and Scholar Services (2010)

Bates, Seth - Emeritus Faculty, Technology (2016)

Becker, Joanne - Emeritus Faculty, Mathematics (2015)

Becker, Joseph - Professor Emeritus, Physics and Astronomy (2013)

Beckett, Alvin - Emeritus Faculty, College of Business (2005)

Beeson, Michael - Emeritus Faculty, Computer Science (2014)

Belanger, Sandra - Emeritus Faculty, University Library (2006)

Belet, Brian - Emeritus Faculty, Music and Dance (2020)

Belo, Panfilo - Emeritus Faculty, Nutrition, Food Science and Packaging (2014)

Berger, Florie - Emeritus Faculty, University Library (2010)

Bernardini, Eugene - Emeritus Faculty, Humanities (2007)

Bernhardt, John - Emeritus Faculty, History (2016)

Betten, Paul - Emeritus Faculty, College of Education (2007)

Bienenfeld, Sheila - Emeritus Faculty, Psychology (2015)

Billik, Martin - Emeritus Faculty, Mathematics (2007)

Block, Joan - Emeritus Staff, Sociology and Interdisciplinary Social Sciences (2008)

Blockus, Marilyn - Emeritus Faculty, Mathematics (2020)

Bloomer, Iris - Emeritus Faculty, Physics and Astronomy (2010)

Blythe, William - Emeritus Faculty, Civil and Environmental Engineering (2008)

Boekema, Carolus - Emeritus Faculty, Physics and Astronomy (2017)

Bohn, Ralph - Emeritus Faculty, Technology (2007)

Boothby, John - Emeritus Faculty, Biological Sciences (2015)

Bornstein, Robert - Emeritus Faculty, Meteorology and Climate Science (2010)

Boschken, Herman - Emeritus Faculty, School of Management (2014)

Bossard, Earl - Emeritus Faculty, Urban and Regional Planning (2010)

Bowman, Mary - Emeritus Faculty, Kinesiology (2006)

Boyacigiller, Nakiye - Emeritus Faculty, School of Management (2007)

Braley, Loy - Emeritus Faculty, Psychology (2008)

Brannen, Mary - Emeritus Faculty, School of Management (2009)

Branz, Stephen - Emeritus Faculty, Chemistry (2019)
Brinegar, Anthony - *Emeritus Faculty*, Biological Sciences (2019)
Brook, Sharon - *Emeritus Faculty*, Music and Dance (2020)
Bros, Shannon - *Emeritus Faculty*, Biological Sciences (2017)
Browne, Clare - *Lecturer Emerita*, English (2019)
Bruck, David - *Emeritus Faculty*, Biological Sciences (2021)
Bryant, James - *Emeritus Faculty*, Kinesiology (2007)
Buell, Cathy - *Emeritus Faculty*, Kinesiology (2011)
Burkhard, Richard - *Emeritus Faculty*, Information Systems and Technology (2020)
Burkom, Selma - *Emeritus Faculty*, English (2007)
Burton, Ester - *University Staff*, Retired, Engineering Student Success Center (2019)
Buzanski, Peter - *Emeritus Faculty*, History (2010)

**C**

Calegari, Mary - *Emeritus Faculty*, Accounting and Finance (2020)
Cara, Elizabeth - *Emeritus Faculty*, Occupational Therapy (2017)
Carlson, Margaret - *Emeritus Staff*, College of Social Sciences (2015)
Carlson, Steven - *Emeritus Faculty*, Art and Art History (2011)
Carranza, Elihu - *Emeritus Faculty*, Communication Studies (2011)
Carroll, Mary - *Emeritus Faculty*, Political Science (2006)
Carter, Alice - *Emeritus Faculty*, Design (2016)
Carrasco, Jose - *Emeritus Faculty*, Mexican American Studies (2005)
Cate, Sandra - *Emeritus Faculty*, Anthropology (2015)
Chang, Ji-Mei - *Emeritus Faculty*, Special Education (2016)
Chen, Ray - Emeritus Faculty, Electrical Engineering (2017)
Cheng, Guang-Meei - Emeritus Faculty, Economics (2016)
Chiao, Sun-Hai - Emeritus Faculty, Electrical Engineering (2019)
Chiarito, Robert - Emeritus Faculty, Art and Art History (2018)
Chow, Balance - Emeritus Faculty, English (2020)
Christensen, Carol - Emeritus Faculty, Kinesiology (2004)
Christensen, Terry - Emeritus Faculty, College of Social Sciences (2013)
Coale, Kenneth - Emeritus Faculty, Moss Landing Marine Lab (2018)
Coates, Floyd - Emeritus Faculty, Art and Art History (2005)
Cody, Arthur - Emeritus Faculty, Philosophy (2007)
Cohen, Isaac - Emeritus Faculty, School of Management (2015)
Cohen, Jayne - Emeritus Faculty, Nursing (2018)
Cohen, Kathleen - Emeritus Faculty, Art and Art History (2005)
Collins, Elaine - Emeritus Faculty, Research Foundation for Work Study (2021)
Collins, Gloria - Emeritus Faculty, English (2016)
Combs, Howard - Emeritus Faculty, Marketing and Business Analytics (2019)
Connell, Elva - Emeritus Staff, Psychology (2016)
Conniff, Michael L - Emeritus Faculty, History (2017)
Connolly, Phyllis - Emeritus Faculty, Nursing (2011)
Conry, Barbara - Emeritus Faculty, Kinesiology (2012)
Cook, S D - Emeritus Faculty, Philosophy (2015)
Cooper, Robert - Emeritus Faculty, Psychology (2016)
Corcoran, Gertrude - Emeritus Faculty, College of Education (2005)
Cornford, Daniel - Emeritus Faculty, History (2010)
Cowden, Robert - Emeritus Faculty, Music and Dance (2007)
Cox, Bonita - Emeritus Faculty, English (2015)
Cross, Sharyl - Emeritus Faculty, Political Science (2011)
Crowe, Edith - Emeritus Faculty, University Library (2007)
Cullen, Robert - Emeritus Faculty, English (2015)
Culley, James - Emeritus Faculty, Film and Theatre (2013)
Curry, Cherie - *Emeritus Faculty*, Music and Dance (2006)

D

Danopoulos, Constantine - *Emeritus Faculty*, Political Science (2018)
Daoud, Adnan - *Emeritus Faculty*, Sociology and Interdisciplinary Social Sciences (2011)
Darrah, Charles - *Emeritus Faculty*, Anthropology (2020)
Decena, Peter - *Chief of Police*, Parking Services (2011)
Demers, Anne - *Emeritus Faculty*, Public Health and Recreation (2019)
Devincenzi, William - *Emeritus Faculty*, Accounting and Finance (2016)
Dietz, Elizabeth - *Emeritus Faculty*, Nursing (2013)
Doi, Steven - *Emeritus Faculty*, Sociology and Interdisciplinary Social Sciences (2017)
Don, Patricia - *Emeritus Faculty*, History (2013)
Dorosti, Javad - *Emeritus Faculty*, General Engineering (2018)
Douglass, Malcolm - *Emeritus Faculty*, English (2019)
Dresser, Rocio - *Emeritus Faculty*, Teacher Education (2018)

E

Earle, James - *Emeritus Faculty*, Film and Theatre (2011)
Eastman, Lucius - *Emeritus Faculty*, College of Humanities and Arts (2010)
Eden, Terri - *Emeritus Staff*, Degree Audit (2016)
Edfelt, Ralph - *Emeritus Faculty*, School of Management (2009)
Engell, John - Emeritus Faculty, English (2019)

Estabrook, Reed - Emeritus Faculty, Art and Art History (2015)

Evans, Gail - Emeritus Faculty, Kinesiology (2013)

F

Fallon, Michael - Emeritus Faculty, Sociology and Interdisciplinary Social Sciences (2017)

Fanos, Joanna - Lecturer C -Psychology, Psychology (2020)

Fimbel, Nancie - Emeritus Faculty, Marketing and Business Analytics (2015)

Fimbres, Manuel - Emeritus Faculty, School of Social Work (2019)

Finkelstein, Alan - Emeritus Faculty, Nutrition, Food Science and Packaging (2019)

Fisher, William - Emeritus Faculty, School of Information (2013)

Fister, A - Emeritus Staff, Economics (2015)

Fjelstad, Karen - Emeritus Faculty, Anthropology (2016)

Floyd, Karel - Emeritus Staff, College of Social Sciences (2018)

Foldvary, Fred - Emeritus Faculty, Economics (2019)

Fosdick, Scott - Emeritus Faculty, Journalism and Mass Communications (2020)

Foster, Leslie - Emeritus Faculty, Mathematics (2015)

Fountain, Anne - Emeritus Faculty, World Languages and Literatures (2016)

Fowler, Robert - Emeritus Faculty, Biological Sciences (2013)

Frank, Joseph - Emeritus Faculty, Music and Dance (2019)

Franks, Joel - Emeritus Faculty, Sociology and Interdisciplinary Social Sciences (2019)

Freeman, James - Emeritus Faculty, Anthropology (2006)

Freeman, James - Emeritus Faculty, College of Engineering (2011)

Freund, Louis - Emeritus Faculty, College of Engineering (2017)

Friebel, Allen - Emeritus Faculty, College of Business (2008)

Fruin, William - Emeritus Faculty, School of Management (2015)

Furst, David - Emeritus Faculty, Kinesiology (2006)

G

Garcia, Julio - Emeritus Faculty, Technology (2016)

Gaylle, Debrayh - *Emeritus Faculty*, Nursing (2019)

George, William - *Emeritus Faculty*, Music and Dance (2005)

Gerstman, Buddy - *Emeritus Faculty*, Public Health and Recreation (2016)

Gifford, Marjorie - *Emeritus Faculty*, Mathematics (2010)

Gliner, Robert - *Emeritus Faculty*, Sociology and Interdisciplinary Social Sciences (2008)

Glines, Daniel - *Emeritus Faculty*, Kinesiology (2009)

Goldman, Aaron - *Emeritus Faculty*, History (2008)

Goldston, Daniel - *Emeritus Faculty*, Mathematics (2020)

Gonzales, Irene - *Emeritus Faculty*, Nursing (2012)

Goodman, Jindra - *Emeritus Faculty*, Meteorology and Climate Science (2010)

Gorenberg, Bobbye - *Emeritus Faculty*, Nursing (2007)

Gorman, Edward - *Emeritus Faculty*, School of Social Work (2020)

Gomey-Moreno, Mary - *Emeritus Faculty*, Nursing (2010)

Gotliffe, Harvey - *Emeritus Faculty*, Journalism and Mass Communications (2008)

Grant, George - *Emeritus Faculty*, English (2007)

Greb, Gordon - *Emeritus Faculty*, Journalism and Mass Communications (2007)

Grilione, Patricia - *Emeritus Faculty*, Biological Sciences (2011)

Grindstaff, Beverly - *Emerita Faculty*, Art and Art History (2019)

Guenter, Scot - *Emeritus Faculty*, Humanities (2019)

Haas, Peter - *Emeritus Faculty*, Political Science (2017)
Habal, Estella - *Emeritus Faculty*, Sociology and Interdisciplinary Social Sciences (2014)
Hagemann, Janet - *Emeritus Faculty*, Justice Studies (2015)
Hamann, Eloise - *Emeritus Faculty*, Mathematics (2007)
Hamill, Patrick - *Emeritus Faculty*, College of Science (2008)
Hansen, Debra - *Emeritus Faculty*, School of Information (2019)
Harden, Deborah - *Emeritus Faculty*, Geology (2006)
Harris, Cobie - *Emeritus Faculty*, Political Science (2013)
Harris, Edward - *Emeritus Faculty*, Music and Dance (2018)
Hatch, David - *Emeritus Faculty*, Art and Art History (2011)
Haycock, Kenneth - *Emeritus Faculty*, School of Information (2010)
Heisch, Allison - *Professor Emerita*, English (2009)
Heisinger, H. Brent - *Professor Emeritus*, Music and Dance (2007)
Helgren, David - *Emeritus Faculty*, Geography (2007)
Helmbold, Lois - *Emeritus Faculty*, College of Social Sciences (2011)
Herrold, Rebecca - *Emeritus Faculty*, Music and Dance (2007)
Hibshoosh, Aharon - *Emeritus Faculty*, Marketing and Business Analytics (2015)
Hill, Patricia - *Emeritus Faculty*, History (2021)
Ho, Stuart - *Emeritus Staff*, Institutional Research (2018)
Holley, Daniel - *Emeritus Faculty*, Biological Sciences (2015)
Hollingsworth, Sandra - *Emeritus Faculty*, Teacher Education (2008)
Holmes, Brian - *Emeritus Faculty*, Physics and Astronomy (2018)
Hsu, Tai-Ran - Emeritus Faculty, Mechanical Engineering (2021)
Huebner, Thomas - Emeritus Faculty, Linguistics and Language Development (2013)
Hwang, Shirley - Emeritus Staff, University Library (2015)
Hyde, Robert - Emeritus Faculty, Biological Sciences (2012)

I

Ibrahim, Azmy - Emeritus Faculty, Sociology and Interdisciplinary Social Sciences (2006)
Iltis, Wilfred - Emeritus Faculty, Biological Sciences (2006)
Inghram, Patricia - Emeritus Staff, College of Health and Human Sciences (2012)

J

Jackson, Bradley - Emeritus Faculty, Mathematics (2019)
Jaehne, Dennis - Emeritus Faculty, Communication Studies (2020)
Jankovich, J - Emeritus Faculty, School of Management (2013)
Jennings, Michael - Emeritus Faculty, Chemical and Materials Engineering (2016)
Jerke, Iris - Emeritus Faculty, History (2015)
Jerrell, Stephen - Emeritus Faculty, School of Management (2010)
Jiang, William - Emeritus Faculty, School of Management (2016)
Jochim, Christian - Emeritus Faculty, Humanities (2020)
Johnston, Janet - Emeritus Faculty, Justice Studies (2011)
Jones, Curtis - Emeritus Faculty, Electrical Engineering (2017)
Jordan, Kevin - Emeritus Faculty, Psychology (2015)
Jurmain, Robert - Emeritus Faculty, Anthropology (2010)

K

Kahn, David - Emeritus Faculty, Film and Theatre (2016)
Kajiwara, Sandra - Emeritus Faculty, University Library (2007)
Kallis, Morton - Emeritus Faculty, Marketing and Business Analytics (2018)
Kao, Arthur - Emeritus Faculty, Art and Art History (2011)
Karlinsky, Stewart - Emeritus Faculty, Accounting and Finance (2007)
Kaschak, Ellyn - Emeritus Faculty, Psychology (2004)
Katzen, Rina - Emerita Faculty, World Languages and Literatures, 2021
Keady, Richard - Emeritus Faculty, Humanities (2013)
Keesey, Donald - Emeritus Faculty, English (2006)
Kellum, Kenneth - Emeritus Faculty, Mathematics (2014)
Kelly, John - Emeritus Faculty, Psychology (2005)
Kemp, Jerry - Emeritus Faculty, College of Education (2007)
Kendall, Susan - Emeritus Faculty, University Library (2019)
Kenk, Vida - Emeritus Faculty, University Library (2010)
Kennedy, Jean - Emeritus Faculty, Biological Sciences (2015)
Khuri, Sami - Emeritus Faculty, Computer Science (2019)
Kibler, Ruthann - Emeritus Faculty, Biological Sciences (2009)
Kifer, Ruth - Emeritus Staff, University Library (2016)
Killingsworth, Amy - Emeritus Faculty, Occupational Therapy (2010)
Kim, Chungsoon - Emeritus Faculty, Child and Adolescent Development (2007)
Kimbarow, Michael - Emeritus Faculty, Communicative Disorders and Sciences (2019)
Kirchherr, Walter - Emeritus Faculty, Computer Science (2007)
Klingberg, Susan - Emeritus Faculty, University Library (2010)
Kowalcyzk, Bridget - Emeritus Faculty, University Library (2015)
Kowalewski Ward, Julie - Emeritus Staff, University Library (2018)
Krovetz, Martin - Emeritus Faculty, Educational Leadership (2007)
Kumamoto, Robert - Emeritus Faculty, History (2010)
Kumaravadivelu, B - Emeritus Faculty, Linguistics and Language Development (2019)
Kupcho, Marilyn - Emeritus Staff, College of Education (2006)
Kurzweil, Jack - Emeritus Faculty, Electrical Engineering (2007)
Kutilek, Michael - Emeritus Faculty, College of Science (2011)
Kwan, Stephen - Emeritus Faculty, College of Business (2017)

L

Lam, Lui - Emeritus Faculty, Physics and Astronomy (2018)
Lamendella, John - Emeritus Faculty, Linguistics and Language Development (2007)
Langdon, Henriette - Emeritus Faculty, Communicative Disorders and Sciences (2017)
Lappin, Linda - Lecturer Emerita, English (2019)
Larson, Richard - Emeritus Faculty, Nutrition, Food Science and Packaging (2019)
Lawrence, Anne - Emeritus Faculty, School of Management (2018)
Lawrence, Clyde - Emeritus Faculty, Journalism and Mass Communications (2008)
Lawson, Lucinda - University Staff, Retired, Electrical Engineering (2019)
Layton, Thomas - Emeritus Faculty, Anthropology (2011)
Le, Tuan - Emeritus Faculty, KSJS Radio (2009)
Lee, Rose - Emeritus Staff, Administration and Finance (2011)
Lessow-Hurley, Judith - Emeritus Faculty, Teacher Education (2015)
Leung, Kai - Emeritus Faculty, World Languages and Literatures (2006)
Leventhal, Alan - Emeritus Staff, College of Social Sciences (2019)
Levine, Linda - Emeritus Faculty, Public Health and Recreation (2018)
Lewis, Carolyn - Emeritus Faculty, Athletic Director's Office (2006)
Lewis, Edward - Emeritus Faculty, College of Education (2006)
Lewis, Irene - Emeritus Faculty, Nursing (2012)
Lindholm-Leary, Kathryn - Emeritus Faculty, Child and Adolescent Development (2011)
Linsdell, Jeanne - Emeritus Faculty, Interdisciplinary Engineering (2019)
Liu, Mengxiong - Emeritus Faculty, University Library (2016)
Liu, Susana - Emeritus Faculty, University Library (2014)
Lore, Craig - Lecturer Emeritus, English (2019)
Louden, Kenneth - Emeritus Faculty, Computer Science (2010)
Lovell, Jonathan - Emeritus Faculty, English (2019)
Lowenberg, Peter - Emeritus Faculty, Linguistics and Language Development (2010)
Lu, Nancy - Emeritus Faculty, Nutrition, Food Science and Packaging (2011)
Lynch, Divina - Emeritus Faculty, University Library (2015)
Macrae, Anne - Emeritus Faculty, Occupational Therapy (2015)
Maio, Samuel - Emeritus Faculty, English (2020)
Maldonado-Colon, Elba - Emeritus Faculty, College of Education (2019)
Male, Marilyn - Emeritus Faculty, Special Education (2007)
Mamary, Edward - Emeritus Faculty, Public Health and Recreation (2020)
Manning, Rita - Emeritus Faculty, Philosophy (2020)
Maples, Susan - Emeritus Staff, College of Engineering (2015)
Margolin, Cynthia - Emeritus Faculty, Psychology (2008)
Markowitz, Nancy - Emeritus Faculty, Teacher Education (2016)
Martin, Harris - Emeritus Faculty, History (2005)
Martinelli, Kathleen - Emeritus Faculty, Journalism and Mass Communications (2018)
Master, Peter - Emeritus Faculty, Linguistics and Language Development (2004)
Masters, Gary - Emeritus Faculty, Music and Dance (2015)
Mathews, Fred - Emeritus Faculty, Film and Theatre (2019)
Matson, John - Emeritus Faculty, Biological Sciences (2009)
May, Anthony - Emeritus Faculty, Art and Art History (2009)
Mayer, Ludwig - Emeritus Faculty, Chemistry (2012)
McClintick, Anita - Emeritus Staff, Music and Dance (2019)
McClory, Susan - Emeritus Faculty, Mathematics (2016)
McCraw, William - Emeritus Faculty, Political Science (2006)
McIntyre, Michael - Emeritus Faculty, Geography (2011)
McNiesh, Susan - Emeritus Faculty, Nursing (2018)
McWilliams, Mallory - Lecturer Emeriti, Accounting and Finance (2020)
Mckinnon, Tamara - Emeritus Faculty, Nursing (2019)
McProud, Lucy - Emeritus Faculty, Nutrition, Food Science and Packaging (2018)
Megginson, Nancy - Emeritus Faculty, Kinesiology (2018)
Meldal, Sigurd - Emeritus Faculty, Computer Engineering (2020)
Melkonian, Lina - Emeritus Staff, Development University Advancement (2014)
Menges, Howard - Emeritus Faculty, Kinesiology (2005)
Merdinger, Joan - Emeritus Faculty, Social Work (2012)
Meredith, William - Emeritus Faculty, Music and Dance (2016)
Meserve, Harry - Emeritus Faculty, University Library (2010)
Mesher, David - Emeritus Faculty, Humanities (2018)
Meyers, Susan - Emeritus Faculty, Special Education (2009)
Miller, Cathleen - Emeritus Faculty, English (2020)
Millner, Steven - Emeritus Faculty, African American Studies (2019)
Moore, Robert - Emeritus Faculty, College of Health and Human Sciences (2009)
Mora-Torres, Gregorio - Emeritus Lecturer, Chicana and Chicano Studies (2020)
Moran, Meredith - Emeritus Faculty, Student Involvement (2006)
Mori, Joseph - Emeritus Faculty, Accounting and Finance (2010)
Moriarty, Eugene - Emeritus Faculty, Electrical Engineering (2012)
Morris, Hedley - Emeritus Faculty, Mathematics (2007)
Moschetti, Thomas - Emeritus Faculty, Accounting and Finance (2016)
Mostafavi, Masoud - Emeritus Faculty, Electrical Engineering (2013)
Moustakas, Evangelos - Emeritus Faculty, Electrical Engineering (2007)
Movassat, Johanna - Lecturer Emerita, Art and Art History (2019)
Mukhopadhyay, Carol - Emeritus Faculty, Anthropology (2010)
Mumby, H. Hugh - Emeritus Faculty, Kinesiology (2006)
Murphy, Susan - Emeritus Faculty, Nursing (2007)
Murray, Denise - Emeritus Faculty, Linguistics and Language Development (2006)
Murray, Susan - Emeritus Faculty, Sociology and Interdisciplinary Social Sciences (2019)
Myatt, Rodney - Emeritus Faculty, Biological Sciences (2009)

N

Nakamura, Phyllis - Emeritus Staff, Psychology (2008)
Nance, William - Emeritus Faculty, Information Systems and Technology (2017)
Nichols, Patricia - Emeritus Faculty, Linguistics and Language Development (2011)
Nino, Mary - Emeritus Staff, University Library (2015)
Noble, Lela - Emeritus Faculty, Political Science (2002)
Nobuhiro, K - *Emeritus Staff, Academic Planning and Budgets* (2010)
Norwood, B - *Emeritus Faculty, School of Management* (2004)
Nuger, Kenneth - *Emeritus Faculty, Political Science* (2016)

**O**

Obaid, Evelyn - *Emeritus Faculty, Computer Science* (2007)
Ochoa, Maria - *Emeritus Faculty, Sociology and Interdisciplinary Social Sciences* (2017)
Okerlund, Arlene - *Emeritus Faculty, English* (2007)
Olcott, Marianina - *Emeritus Faculty, Humanities* (2015)
Olliges, Sandra - *Emeritus Faculty, Kinesiology* (2018)
Ortega, Lydia - *Emeritus Faculty, Economics* (2020)
Osland, Joyce - *Emeritus Faculty, College of Business* (2020)
Otten, Charles - *Emeritus Faculty, Sociology and Interdisciplinary Social Sciences* (2005)

**P**
Parker, Joan - *Emeritus Faculty, University Library* (2016)
Parrish, James - *Emeritus Faculty, Biological Sciences* (2019)
Parrish, Vicki - *Emeritus Faculty, Computer Engineering* (2018)
Parsons, Sharon - *Emeritus Faculty, Teacher Education* (2011)
Parsons, Virgil - *Emeritus Faculty, Nursing* (2009)

Overview

Since 1928, the College of Business has served the business education needs of our community. We provide San José and Silicon Valley with talent, thought leadership and service, ensuring our region's growth in the global marketplace. An institution of opportunity, our accessible, high-value education empowers and transforms the lives of people of all ages and backgrounds. Both our challenging undergraduate curriculum and our innovative graduate program in the Donald and Sally Lucas Graduate School of Business equip graduates with the tools, work ethic and skills to succeed in the ever-changing global economy. The college is accredited by the Western Association of Schools and Colleges, the California State Board of Education, and the prestigious AACSB International (www.aacsb.edu). Fewer than five percent of business programs worldwide have earned the AACSB's certification of excellence.

The Donald and Sally Lucas College and Graduate School of Business is the institution of opportunity, providing innovative business education and research for the Silicon Valley region and beyond since 1928. The College offers an accessible, high value education that empowers people of all ages and backgrounds to transform their lives. Faculty and staff are strongly committed to the College's mission; maintain a collegial, inclusive teaching and learning environment; and are dedicated to continuous improvement in all areas of academic achievement, scholarship, teaching and service.

The college is an active member of the San José and Silicon Valley community and provides a talent pool, thought leadership and service that supports the region's growth in the global marketplace. The college is one of the 755 institutions worldwide that are accredited by the prestigious AACSB International, the Association to Advance Collegiate Schools of Business. In addition, the college is accredited by the Western Association of Schools and Colleges and the California State Board of Education.

The college is dedicated to equipping graduates with the tools, work ethic and skills to succeed in the ever-changing global economy. This is accomplished through a challenging undergraduate curriculum and an innovative, high quality graduate education in the Donald and Sally Lucas Graduate School of Business.

The Gary J. Sbona Honors Practicum

The Gary J. Sbona Honors Practicum provides the best students in the College of Business with the opportunity to apply what they have learned in the classroom to real business problems. Students are selected based on a combination of high GPA, prerequisites, and excellent communication skills. Students are typically placed in groups
of three to work on projects at Silicon Valley businesses for college course credit. The program also includes international study trips, executive level guest speakers, and networking events. Through seminar sessions students are also exposed to current issues, ideas, and practices in their own disciplines and other fields of business. Students who complete two semesters in the program, have a 3.5 GPA or above and write a scholarly paper qualify to graduate with honors from the College of Business.

Undergraduate Business Education

The college provides a rich undergraduate education through six departments and schools - Accounting and Finance, Global Innovation and Leadership, Hospitality, Tourism and Event Management, Information Systems and Technology, Management, and Marketing and Business Analytics. Infused throughout the undergraduate program are opportunities to develop competencies in a number of key areas -- communication, teamwork, global perspectives, critical thinking, ethics, entrepreneurship, community service, and innovation. The rigorous and challenging curriculum prepares graduates to be future leaders that succeed in the global economy.

The college is building upon its existing expertise in entrepreneurship, management, global finance, accounting, and leadership and organizational change. In addition, the college showcases the best and brightest students through the Gary J. Sbona Honors Program and the Thompson Global Internship Program.

Jack Holland Student Success Center

Email: jackholland-center@sjsu.edu
Website: www.sjsu.edu/cobssc

The Jack Holland Student Success Center, located on the garden level of the Boccardo Business Center, provides advice to students about undergraduate business courses and programs. Prospective students are encouraged to talk with advisors about requirements for business major and general education courses. Prospective graduate students are encouraged to meet a graduate advisor in the Graduate Program Office in the Business Tower.

Business Tutoring Center

The Tutoring Center gives individual and group assistance to business students seeking subject matter tutoring. It is located on the ground level of the Boccardo Business Center.

Donald and Sally Lucas Graduate School of Business

The Donald and Sally Lucas Graduate School of Business offers a high-value education with a global focus, innovative programs, and deep ties to Silicon Valley corporations and leaders. Our distinguished faculty provide a relevant business education focusing on excellence in teaching and applied research and serving the needs of diverse students from the Silicon Valley and beyond.

We offer an on-campus Early Career MBA program with three tracks: accelerated (12 months), full-time (21-24 months), and part-time (33-36 months). Our off-campus MBA for Professionals is a flexible part-time program suitable for working professionals who set their own paces. We also offer Master of Science in Accountancy, Master of Science in Taxation, Master of Science in Transportation Management programs and a dual degree MBA/Master of Science in Software Engineering or MBA/Master of Science in Engineering with a specialization in Systems Engineering.

Undergraduate Minor(s)
Business Minor

A minor consists of a minimum of 15 units and may be designed to fit the needs of a student majoring in any non-business department. The Minor in Business, offered by the Lucas College and Graduate School of Business, must include at least BUS1 20N and BUS3 160, and nine additional units. Six units must be completed in residence. Some majors have specific minor requirements.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University Policy S16-4). Minor preparation or support courses do not count toward the 12 distinct units. Of the coursework for the minor, at least 6 units must be completed in residence at SJSU. The minimum aggregate GPA for all coursework required for the minor must be at least 2.0.

Minor Requirements (15 units)

Core Courses (15 units)

- BUS1 20N - Survey of Accounting 3 unit(s)
- BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
- 2 Lower Division or Upper Division Courses 6 unit(s)
- 1 Upper Division Course 3 unit(s)

Total Units Required (15 units)

Associate Professors
Overview

The Accounting and Finance Department teaches students broadly in the areas of accounting, finance, and accounting information systems. The curriculum develops analytical mindsets and technical competencies needed to prepare, analyze, and interpret data, make sound financial decisions, and communicate to stakeholders. Extensive career prospects, breadth of concentration choices, and numerous experiential and networking opportunities make admission to this department and its concentrations highly competitive.

Undergraduate Major(s)

Business Administration, Accounting Concentration, BS

Accounting is a profession concerned with identification, recording, and communication of relevant information in financial statements and reports. Accountants must understand how to prepare financial and tax information, but also analyze, interpret, and safeguard information and systems. The concentration, offered by the Department of Accounting and Finance, includes coursework in financial statement preparation, taxation, auditing, internal control, and costing systems. Offered by the Department of Accounting and Finance, the curriculum prepares students for careers as certified public accountants (CPA), certified management accountants (CMA), certified internal auditors (CIA), and corporate officers for public accounting firms, corporations, governments and not-for-profit organizations.

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums).

Major-Specific Graduation Requirements

All courses in the Concentration Requirements for the Accounting Foundation Courses must be completed with a grade of "C or better". The following Preparation for the Major and Required for the Major courses must be completed with a grade of "C or better": ENGL 2, MATH 71, BUS1 20, BUS2 90.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Core Lower Division General Education (27 units)

Of the 39 units required by the university, 12 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Upper Division General Education (3 units)

Of the 9 units required by the university, 6 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

African American Studies (6 units)

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 unit(s) (D+US123)
Asian American Studies (6 units)

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

Chicana and Chicano Studies (6 units)

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

U.S. History and Government (6 units)

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

Physical Education (2 units)

All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students' needs and interests, the university offers a diverse selection of activity courses.

Graduation Writing Assessment Requirement

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

Major Preparation (15 units)

- ECON 1A - Principles of Economics: Macroeconomics 3-4 unit(s)
- ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s) (D)
- ENGL 2 - Critical Thinking and Writing 3 unit(s) (A3) (or equivalent)
- MATH 71 - Calculus for Business and Aviation 3 unit(s) (B4) (Transfer students with MATH 30 (C or better) may use this in lieu of MATH 71.)

Written Communication (3 units)

- ENGL 100WB - Written Communication: Business 3 unit(s) (Z)
- COMM 100W - Writing Workshop: Writing for Influence 3 unit(s) (Z)
- LLD 100WB - Writing Workshop for Business Students 3 unit(s) (Z)

Major Requirements (64 units)

Core Courses (40 units)
Lower Division Courses (10 units)

- BUS1 20 - Financial Accounting 3 unit(s)
- BUS3 80 - Legal Environment of Business 3 unit(s)
- BUS2 90 - Business Statistics 3 unit(s) (Transfer students with STAT 95 (C or better) may use this in lieu of BUS2 90.)
- BUS4 91L - Computer Tools for Business 1 unit(s)

Upper Division Business Fundamentals Courses (15 units)

- BUS2 130 - Introduction to Marketing 3 unit(s)
- BUS5 140 - Fundamentals of Operations Management 3 unit(s)
- BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
- BUS1 170 - Fundamentals of Finance 3 unit(s)
- BUS2 190 - Quantitative Business Analysis 3 unit(s)

Upper Division Business Integration and Perspectives Courses (15 units)

- BUS5 187 - Global Dimensions of Business 3 unit(s)
- BUS4 188 - Business Systems and Policy 3 unit(s)
- BUS3 189 - Strategic Management 3 unit(s)
- PHIL 186 - Professional and Business Ethics 3 unit(s) (S)
- One non-business global perspectives course in Area V 3 unit(s)

Concentration Requirements (24 units)

Additionally, to qualify for a baccalaureate degree in business administration with an Accounting concentration, all courses in the Accounting foundation classes must be completed with a grade of "C" or better. A cumulative 2.0 GPA is required in all business classes.

Accounting Foundation Courses (15 units)

- BUS1 120A - Accounting Information Systems 3 unit(s)
- BUS1 121A - Intermediate Accounting I 3 unit(s)
- BUS1 121B - Intermediate Accounting II 3 unit(s)
- BUS1 122A - Management Accounting and Control Systems 3 unit(s)
- BUS1 123A - Tax Factors of Business and Investment Decision 3 unit(s)

Required Electives (9 units)

Complete three course from:
- BUS1 120B - Advanced AIS and IS Risk Assessment 3 unit(s)
- BUS1 120G - Programming and Systems Development in AIS 3 unit(s)
- BUS1 123C - Taxation of Individuals and Pass Through Entities 3 unit(s)
- BUS1 124 - Forensic Accounting 3 unit(s)
- BUS1 125 - Special Financial Reporting Topics 3 unit(s)
- BUS1 126 - Advanced Accounting 3 unit(s)
University Electives (3 units)

Total Units Required (120 units)

Business Administration, Accounting Information Systems Concentration, BS

This concentration integrates accounting and management information systems disciplines to prepare students for careers in accounting information technology. Offered by the Department of Accounting and Finance, the curriculum focuses on relevant accounting, internal control, and information technology issues. AIS students take courses in database design, networking and data communications, systems analysis and design, and information technology audit, all with an accounting emphasis. Students who complete this concentration enter a fast-growing, dynamic area in accounting. Graduates are attractive to public accounting firms and corporations, and their careers take paths in information technology or internal audit, forensic accounting, risk management, or litigation services. AIS students are qualified to sit for the Computer Information Systems Auditor (CISA) examination.

Written Communication (3 units)

- COMM 100W - Writing Workshop: Writing for Influence 3 unit(s) (Z)
- ENGL 100WB - Written Communication: Business 3 unit(s) (Z)
- LLD 100WB - Writing Workshop for Business Students 3 unit(s) (Z)

Major Requirements (67 units)

Core Courses (40 units)

Lower Division Courses (10 units)

- BUS1 20 - Financial Accounting 3 unit(s)
- BUS3 80 - Legal Environment of Business 3 unit(s)
- BUS2 90 - Business Statistics 3 unit(s) (Transfer students with STAT 95 (C or better) may use this in lieu of BUS2 90.)
- BUS4 91L - Computer Tools for Business 1 unit(s)

Business Fundamentals (15 units)

- BUS2 130 - Introduction to Marketing 3 unit(s)
- BUS5 140 - Fundamentals of Operations Management 3 unit(s)
- BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
- BUS1 170 - Fundamentals of Finance 3 unit(s)
- BUS2 190 - Quantitative Business Analysis 3 unit(s)

Business Integration and Perspectives Courses (15 units)
• BUS5 187 - Global Dimensions of Business 3 unit(s)
• BUS4 188 - Business Systems and Policy 3 unit(s)
• BUS3 189 - Strategic Management 3 unit(s)
• PHIL 186 - Professional and Business Ethics 3 unit(s) (S)
• One non-business global perspectives course in Area V 3 unit(s)

**Concentration Requirements (27 units)**

Additionally, to qualify for a baccalaureate degree in business administration with an accounting information systems concentration, all courses in the concentration must be completed with a grade of "C" or better. A cumulative 2.0 GPA is required in all business classes.

**Accounting Information Systems Foundation Courses (24 units)**

• BUS1 120A - Accounting Information Systems 3 unit(s)
• BUS1 120B - Advanced AIS and IS Risk Assessment 3 unit(s)
• BUS1 120C - Network Environment and Accounting Controls 3 unit(s)
• BUS1 120D - Accounting Topics in IT Audit 3 unit(s)
• BUS1 120G - Programming and Systems Development in AIS 3 unit(s)
• BUS1 121A - Intermediate Accounting I 3 unit(s)
• BUS1 121B - Intermediate Accounting II 3 unit(s)
• BUS1 122A - Management Accounting and Control Systems 3 unit(s)

**Required Electives (3 units)**

Complete one course from:

• BUS1 123A - Tax Factors of Business and Investment Decision 3 unit(s)
• BUS1 124 - Forensic Accounting 3 unit(s)
• BUS1 127A - Honors Practicum in Corporate Financial Management 3 unit(s)
• BUS1 129A - Financial Auditing 3 unit(s)
• BUS1 129B - Operational Auditing 3 unit(s)

**Total Units Required (120 units)**

**Business Administration, Corporate Accounting and Finance Concentration, BS**

This concentration integrates accounting and finance disciplines to prepare students for careers in corporate financial management. Offered by the Department of Accounting and Finance, the curriculum develops an understanding of how to obtain capital, distribute funds, manage cash flow, evaluate competing projects, and run a firm from a financial perspective. This concentration teaches how to record, analyze and interpret financial information. The curriculum enhances the attractiveness of its graduates to corporate finance groups as entry-level hires, and for the long-term, positions them for roles as controller, treasurer, and chief financial officer. CAF graduates are able to move between accounting and finance careers, increasing their marketability in a field with great opportunities.

Major Core Requirements 40
Concentration Requirements 27
Total 120

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums).

Major-Specific Graduation Requirements

All courses in the Concentration Requirements for Corporate Accounting Finance must be completed with a grade of "C or better". The following Preparation for the Major and Required for the Major courses must be completed with a grade of "C or better": ENGL 2, MATH 71, BUS1 20, BUS2 90.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Core Lower Division General Education (27 units)

Of the 39 units required by the university, 12 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Upper Division General Education (3 units)

Of the 9 units required by the university, 6 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.
African American Studies (6 units)

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 unit(s) (D+US123)

Asian American Studies (6 units)

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

Chicana and Chicano Studies (6 units)

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

U.S. History and Government (6 units)

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

Physical Education (2 units)

All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students' needs and interests, the university offers a diverse selection of activity courses.

Graduation Writing Assessment Requirement

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

Major Preparation (15 units)

- ECON 1A - Principles of Economics: Macroeconomics 3-4 unit(s)
- ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s) (D)
- ENGL 2 - Critical Thinking and Writing 3 unit(s) (A3) (or equivalent)
- MATH 71 - Calculus for Business and Aviation 3 unit(s) (B4) (Transfer students with MATH 30 (C or better) may use this in lieu of MATH 71.)

Written Communication (3 units)

- COMM 100W - Writing Workshop: Writing for Influence 3 unit(s) (Z)
- ENGL 100WB - Written Communication: Business 3 unit(s) (Z)
• LLD 100WB - Writing Workshop for Business Students 3 unit(s) (Z)

Major Requirements (67 units)

Core Courses (40 units)

Lower Division Courses (10 units)

- BUS1 20 - Financial Accounting 3 unit(s)
- BUS3 80 - Legal Environment of Business 3 unit(s)
- BUS2 90 - Business Statistics 3 unit(s) (Transfer students with STAT 95 (C or better) may use this in lieu of BUS2 90.)
- BUS4 91L - Computer Tools for Business 1 unit(s)

Business Fundamentals (15 units)

- BUS2 130 - Introduction to Marketing 3 unit(s)
- BUS3 140 - Fundamentals of Operations Management 3 unit(s)
- BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
- BUS1 170 - Fundamentals of Finance 3 unit(s)
- BUS2 190 - Quantitative Business Analysis 3 unit(s)

Business Integration and Perspective Courses (15 units)

- BUS5 187 - Global Dimensions of Business 3 unit(s)
- BUS4 188 - Business Systems and Policy 3 unit(s)
- BUS3 189 - Strategic Management 3 unit(s)
- PHIL 186 - Professional and Business Ethics 3 unit(s) (S)
- One non-business global perspectives course in Area V 3 unit(s)

Concentration Requirements (27 units)

Additionally, to qualify for a baccalaureate degree in business administration with a Corporate Finance Management concentration, all courses in the concentration must be completed with a grade of "C" or better. A cumulative 2.0 GPA is required in all business classes.

Required Accounting Courses (12 units)

- BUS1 120A - Accounting Information Systems 3 unit(s)
- BUS1 121A - Intermediate Accounting I 3 unit(s)
- BUS1 121B - Intermediate Accounting II 3 unit(s)
- BUS1 122A - Management Accounting and Control Systems 3 unit(s)

Required Finance Courses (9 units)

- BUS1 171A - Financial Institutions and Markets 3 unit(s)
• BUS1 173A - Financial Management: Theory and Policy 3 unit(s)
• BUS1 173B - Problems in Financial Management 3 unit(s)

**Concentration Electives (6 units)**

Complete two courses from:

- BUS1 120B - Advanced AIS and IS Risk Assessment 3 unit(s)
- BUS1 123A - Tax Factors of Business and Investment Decision 3 unit(s)
- BUS1 124 - Forensic Accounting 3 unit(s)
- BUS1 125 - Special Financial Reporting Topics 3 unit(s)
- BUS1 126 - Advanced Accounting 3 unit(s)
- BUS1 127A - Honors Practicum in Corporate Financial Management 3 unit(s) OR BUS1 127B - Advanced Honors Practicum 3 unit(s)
- BUS1 128 - Accounting for Nonprofit Organizations 3 unit(s)
- BUS1 129B - Operational Auditing 3 unit(s)
- BUS1 171B - Commercial Banking 3 unit(s)
- BUS1 172A - Investment Analysis 3 unit(s)
- BUS1 172B - Portfolio Management 3 unit(s)
- BUS1 172C - Futures and Options 3 unit(s)
- BUS1 173C - Entrepreneurial Finance 3 unit(s)
- BUS1 175 - Real Estate Finance 3 unit(s)
- BUS1 177 - International Business Finance 3 unit(s)
- BUS1 179B - Selected Topics in Business Finance 3 unit(s)

**Total Units Required (120 units)**

**Business Administration, Finance Concentration, BS**

Students studying finance learn to make decisions in three areas: corporate finance, investments and financial institutions. Corporate finance courses prepare students for financial analysis and planning. The investments area emphasizes decision-making processes required to value securities such as stocks or bonds and teaches principles of managing an investment portfolio. Students study financial institutions, including commercial banks, savings and loan associations, mutual funds, and insurance companies, to understand the function of U.S. and international money and capital markets. Offered by the Department of Accounting and Finance, the curriculum prepares students for careers as financial officers responsible for investment and financing decisions for corporations or financial institutions.

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

Major-Specific Graduation Requirements

All courses in the Concentration Requirements for Finance must be completed with a grade of "C or better". The following Preparation for the Major and Required for the Major courses must be completed with a grade of "C or better": ECON 1A, ECON 1B, ENGL 2, MATH 71, BUS1 20, BUS1 21, BUS2 90, BUS1 170.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Core Lower Division General Education (27 units)

Of the 39 units required by the university, 12 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Note: Students who have completed the ADT Transfer degree (under SB 1440) for this major will have completed all lower division GE requirements and should follow the 60 unit guarantee roadmap. Meet with an advisor prior to registering for your first semester for the 60 unit roadmap or specific questions.

Upper Division General Education (3 units)

Of the 9 units required by the university, 6 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

African American Studies (6 units)
- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 unit(s) (D+US123)

**Asian American Studies (6 units)**

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

**Chicana and Chicano Studies (6 units)**

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

**U.S. History and Government (6 units)**

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

**Physical Education (2 units)**

All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students' needs and interests, the university offers a diverse selection of activity courses.

**Graduation Writing Assessment Requirement**

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

*A grade of C or better (C- not accepted) is required to meet graduation requirement.*

**Major Preparation (15 units)**

*All of the following courses must be completed with a grade of "C" or better prior to taking any upper division major coursework.*

- ECON 1A - Principles of Economics: Macroeconomics 3-4 unit(s)
- ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s) (D)
- ENGL 2 - Critical Thinking and Writing 3 unit(s) (A3) (or equivalent)
- MATH 71 - Calculus for Business and Aviation 3 unit(s) (B4) *(Transfer students with MATH 30 (C or better) may use this in lieu of MATH 71.)*

**Written Communication (3 units)**

- COMM 100W - Writing Workshop: Writing for Influence 3 unit(s) (Z)
- ENGL 100WB - Written Communication: Business 3 unit(s) (Z)
• LLD 100WB - Writing Workshop for Business Students 3 unit(s) (Z)

Major Requirements (61 units)

Core Courses (43 units)

Lower Division Courses (13 units)

• BUS1 20 - Financial Accounting 3 unit(s)
• BUS1 21 - Managerial Accounting 3 unit(s)
• BUS3 80 - Legal Environment of Business 3 unit(s)
• BUS2 90 - Business Statistics 3 unit(s) (Transfer students with STAT 95 (C or better) may use this in lieu of BUS2 90.)
• BUS4 91L - Computer Tools for Business 1 unit(s)

Upper Division Business Fundamentals Courses (15 units)

• BUS1 170 - Fundamentals of Finance 3 unit(s)
• BUS2 130 - Introduction to Marketing 3 unit(s)
• BUS5 140 - Fundamentals of Operations Management 3 unit(s)
• BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
• BUS2 190 - Quantitative Business Analysis 3 unit(s)

Upper Division Business Integration and Perspectives Courses (15 units)

• BUS5 187 - Global Dimensions of Business 3 unit(s)
• BUS4 188 - Business Systems and Policy 3 unit(s)
• BUS3 189 - Strategic Management 3 unit(s)
• PHIL 186 - Professional and Business Ethics 3 unit(s) (S)
• One non-business global perspectives course in Area V 3 unit(s)

Concentration Requirements (18 units)

Must achieve a grade of "C" or better in the following required courses

Required Courses (9 units)

• BUS1 171A - Financial Institutions and Markets 3 unit(s)
• BUS1 172A - Investment Analysis 3 unit(s)
• BUS1 173A - Financial Management: Theory and Policy 3 unit(s)

Concentration Electives (9 units)

Complete three courses from:

Choose BUS1 127A or BUS1 127B do not take both
- BUS1 127A - Honors Practicum in Corporate Financial Management 3 unit(s) OR BUS1 127B - Advanced Honors Practicum 3 unit(s)
- BUS1 171B - Commercial Banking 3 unit(s)
- BUS1 172B - Portfolio Management 3 unit(s)
- BUS1 172C - Futures and Options 3 unit(s)
- BUS1 172D - Student Managed Investment Fund 3 unit(s)
- BUS1 173B - Problems in Financial Management 3 unit(s)
- BUS1 173C - Entrepreneurial Finance 3 unit(s)
- BUS1 175 - Real Estate Finance 3 unit(s)
- BUS1 177 - International Business Finance 3 unit(s)
- BUS1 179B - Selected Topics in Business Finance 3 unit(s)

University Electives (6 units)

Total Units Required (120 units)

BUS1 20 - Financial Accounting

3 unit(s)
Accounting postulates and principles; application of accounting theory to accumulate and summarize financial data; critical analysis and interpretation of financial statements.

Prerequisite(s): MATH 71 or MATH 71X
Grading: Letter Graded

BUS1 20N - Survey of Accounting

3 unit(s)
Introduction to accounting theory and techniques for business minors and non-business majors. Principles are applied to accumulating and summarizing financial data; critical analysis and interpretation of financial statements.

Prerequisite(s): Sophomore status recommended, non-business majors only.
Grading: Letter Graded

BUS1 21 - Managerial Accounting

3 unit(s)
Uses of accounting data for managerial decision-making. Topics include: cost accumulation for product costing; cost structure for control and motivation; cost-volume-profit relationships; profit planning; standard costing; flexible budgets; and relevant costs for non-routine decisions.

Prerequisite(s): BUS1 20 or BUS1 20N.
Grading: Letter Graded

BUS1 92 - International Program Studies

1-12 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student
Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

**Grading:** Mixed Grading

**BUS1 120A - Accounting Information Systems**

3 unit(s)

Documentation, flow and processing of accounting information in business organizations; related principles of internal control; system design principles. Computerized and non-computerized procedures are used for processing.

**Prerequisite(s):** BUS 20 with a "C" or better. Declared Major in Accounting, Accounting Information Systems or Corporate Accounting and Finance. Upper division standing.

**Grading:** Letter Graded

**BUS1 120B - Advanced AIS and IS Risk Assessment**

3 unit(s)

Hands-on project-oriented computer lab to develop working knowledge and skills in using Microsoft Excel and Access as application development tools. Students design a prototype accounting system and generalized audit module prototype assessing integrity of previously designed databases.

**Prerequisite(s):** BUS 120A and COMM 100W or ENGL 100WB or LLD 100WB with a minimum grade of "C" or better in both. Upper division standing.

**Grading:** Letter Graded

**BUS1 120C - Network Environment and Accounting Controls**

3 unit(s)

Introduction to current network arrangements in small, medium and large corporations, including hardware/software components used to control the integrity, and access of networks. Internet interfaces including TCP/IP basics and network configurations. A practical NT domain and its administration will be included.

**Prerequisite(s):** BUS 120A with a minimum grade of 'C'. Upper division standing.

**Grading:** Letter Graded

**BUS1 120D - Accounting Topics in IT Audit**

3 unit(s)

Students will be exposed to real life audit environment cases. Students will apply the EDP auditing techniques of integrated audit risk management, auditing of platforms, applications, and network as appropriate. Discussion of network security, including telecommunications, firewall, encryption and other current IT Audit issues will be included as part of IT discussion.

**Prerequisite(s):** BUS1 120B and BUS1 120C with a grade of 'C' in each. Upper division standing.

**Grading:** Letter Graded

**BUS1 120G - Programming and Systems Development in AIS**
3 unit(s)
This course covers the process, technical elements and current techniques used in accounting systems development. Programming topics include business reporting languages. Systems development topics include requirements analysis, functional specification, system design, implementation, testing, and maintenance.

Prerequisite(s): BUS1 20 with a minimum grade of "C".
Grading: Letter Graded

BUS1 121A - Intermediate Accounting I

3 unit(s)
Principles, control and theory of accounting for assets; correction of prior year's earnings; measurement and determination of income. Projects involving spreadsheet software required.

Prerequisite(s): BUS 20 with a minimum grade of 'C' and Upper division standing. Student must be a declared Accounting, Accounting Information Systems, Finance, or Corporate Financial Management major to enroll.
Grading: Letter Graded

BUS1 121B - Intermediate Accounting II

3 unit(s)
Principles, controls, and theory of accounting for liabilities and equities; preparation, utilization, and analysis of cash flow and fund statements; financial ratios and statistical analysis of financial statements accounting data. Projects involving spreadsheet software required.

Prerequisite(s): BUS1 121A (with minimum grade of "C"). Upper division standing.
Grading: Letter Graded

BUS1 122A - Management Accounting and Control Systems

3 unit(s)
Examination of the nature, objectives and procedures of cost management as applied to product and service costing, decision-making and cost planning and control systems.

Prerequisite(s): BUS 20 with a minimum grade of "C" and upper division standing. Declared Major in Accounting, Accounting information systems or Corporate Accounting and finance.
Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

BUS1 123A - Tax Factors of Business and Investment Decision

3 unit(s)
Introductory course in taxation with emphasis on certain themes that pervade the federal income tax system and its impact on business. Property transactions, deferral techniques, accounting periods, accounting methods and research techniques with emphasis on corporations.

Prerequisite(s): BUS 20 with a minimum grade of "C". Upper division standing and declared Accounting, Accounting Information Systems or Corporate Accounting Finance Major.
Grading: Letter Graded
BUS1 123C - Taxation of Individuals and Pass Through Entities

3 unit(s)
Emphasis on the unique factors involved in taxation of individuals and pass-through entities (partnerships, S corporations, estates and trusts). Taxation of the transfer of wealth through gifts and inheritance.

Prerequisite(s): BUS 123A with a grade of "C" or better. Upper division standing. Business Minor or Accounting or Corporate Accounting Finance major
Grading: Letter Graded

BUS1 124 - Forensic Accounting

3 unit(s)
This course will examine the various frauds that are perpetrated on companies and discuss ways the accountant can uncover the frauds. The criminal justice system will be reviewed and the various litigation-support functions provided to attorneys by accountants will be discussed.

Prerequisite(s): BUS1 20; COMM 100W or ENGL 100W or LLD 100W; BUS1 121A and BUS1 121B with a minimum grade of "C" in each. Accounting and Corporate Accounting Finance Majors only.
Grading: Letter Graded

BUS1 125 - Special Financial Reporting Topics

3 unit(s)
Analysis of specialized and emerging accounting topics (such as interim reporting, deferred taxes, post-employment benefits and new FAS pronouncements) with emphasis on research, application and analytical skills.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB; BUS1 121A and BUS1 121B (with minimum grade of "C" in each). Accounting and Corporate Accounting Finance Majors or Business Minor only.
Grading: Letter Graded

BUS1 125A - Advanced Writing for Accounting

3 unit(s)
Students learn to communicate accounting and other specialized financial information to a variety of audiences including employers, clients and the investing public in a manner that promotes clarity, accuracy and professionalism.

Prerequisite(s): BUS 121A
Grading: Letter Graded

BUS1 125B - Accounting Ethics

3 unit(s)
Students study accounting ethics, professional codes of conduct and the application of accounting ethics in various fields of accounting including auditing, managerial accounting and taxation.

Prerequisite(s): BUS1 121A, BUS1 122A
Grading: Letter Graded

BUS1 126 - Advanced Accounting
Accounting for multi-unit operations: consolidated reporting issues, transfer pricing issues, globalization issues (foreign tax structures, organizational forms, and international accounting) translating foreign currency transactions and operations, hedging foreign currency exposures, goodwill, and business combinations. Extensive use of spreadsheets (Excel).

**Prerequisite(s):** COMM 100W or ENGL 100WB or LLD 100WB; BUS1 121A and BUS1 121B (with minimum grade of "C" in each). Accounting or Corporate Accounting Finance Majors or Business Minor only.

**Grading:** Letter Graded

**BUS1 127A - Honors Practicum in Corporate Financial Management**

3 unit(s)
Corporate sponsored projects in accounting and finance. Students are assigned to a host company and are required to work with the host company and faculty advisor on a topic in financial management. A report will be presented. Students are admitted based on an average 3.0 GPA in four prerequisite courses.

*Course is repeatable for up to 6 units.*

**Prerequisite(s):** COMM 100W or ENGL 100WB or LLD 100WB; BUS1 121A, BUS1 121B, BUS1 122A and BUS1 170 with a minimum grade of "C" in each and instructor approval. Upper division standing.

**Grading:** Letter Graded

**BUS1 127B - Advanced Honors Practicum**

3 unit(s)
Course involves advanced corporate sponsored projects in accounting and finance. Students are assigned to supervisory personnel at the host company under the advisement of the instructor. Course is repeatable for credit for a total of 6 units.

*Course may be repeated for credit for up to 6 units.*

**Prerequisite(s):** Declared major in Accounting, Finance, AIS or Corporate Financial Management and instructor consent.

**Grading:** Letter Graded

**BUS1 128 - Accounting for Nonprofit Organizations**

3 unit(s)
Principles, objectives and methods of accounting for governmental and other nonprofit organizations.

**Prerequisite(s):** COMM 100W or ENGL 100WB or LLD 100WB and BUS 121A (with minimum grade of "C" in both). Accounting or Corporate Accounting Finance Majors or Business Minor only.

**Grading:** Letter Graded

**Sustainability Related - SDG 17: Partnerships for the Goals**

**BUS1 129A - Financial Auditing**

3 unit(s)
Emphasis on process by which an accountant forms an opinion on financial statement fairness of presentation.
Examines public accounting profession, application of relevant professional standards, auditing procedures, and professional ethics.

**Prerequisite(s):** BUS1 120A, BUS1 121A with grade of C or better.
**Grading:** Letter Graded

*Sustainability Related - SDG 8: Decent Work and Economic Growth*

**BUS1 129B - Operational Auditing**

3 unit(s)
Study of professional and technical aspects of internal and operational auditing with emphasis on concepts, ethical conduct and significance in preparation/implementation of the audit and its findings. Effectiveness and efficiency of audits in industry and not-for-profits will be covered.

**Prerequisite(s):** COMM 100W or ENGL 100WB or LLD 100WB; BUS1 120A; BUS1 121A; BUS1 121B and BUS1 122A (with minimum grade of "C" in each).
**Grading:** Letter Graded

**BUS1 170 - Fundamentals of Finance**

3 unit(s)
The finance function and its relationship to other decision-making areas in the firm; the study of theory and techniques in acquisition and allocation of financial resources from an internal management perspective.

**Prerequisite(s):** BUS1 21 or BUS1 122A; ECON 1A, ECON 1B and BUS2 90. Upper division standing.
**Grading:** Letter Graded

**BUS1 171A - Financial Institutions and Markets**

3 unit(s)
Study of financial markets and institutions that operate in them. Examinations of money and capital markets, interest rates and financial institutions, both depository and non-depository. Emphasis on past, current and future industry and regulatory authorities.

**Prerequisite(s):** BUS 170 (with minimum grade of "C"). Upper division standing. Business Administration Finance or Corporate Accounting and Finance majors only.
**Grading:** Letter Graded

**BUS1 171B - Commercial Banking**

3 unit(s)
Analytical tools for the evaluation of the performance and risk of commercial banks. The measurement and management of interest rate, liquidity, credit and solvency risks. Historical and current banking regulations. Commercial credit analysis and loan policies.

**Prerequisite(s):** BUS1 171A with a minimum grade of "C".
**Grading:** Letter Graded

**BUS1 172A - Investment Analysis**
3 unit(s)
Procedures and tools necessary to evaluate investment variables, determine value and analyze risk/return characteristics of equity, fixed income securities, and alternative individual investments. Emphasizes responsible decisions and provides background for portfolio analysis.

**Prerequisite(s):** BUS 170 (with minimum grade of "C"). Upper division standing. Business Administration Finance or Corporate Accounting and Finance Majors only.
**Grading:** Letter Graded

**BUS1 172B - Portfolio Management**

3 unit(s)
Basic procedures and analytical tools necessary to construct, analyze, evaluate and revise investment portfolios or groups of assets, including computerized portfolio models. Approach and content consistent with objectives of Chartered Financial Analyst (CFA) program.

**Prerequisite(s):** COMM 100W or ENGL 100WB or LLD 100WB and BUS 172A with a minimum grade of "C" in both. Upper division standing.
**Grading:** Letter Graded

**BUS1 172C - Futures and Options**

3 unit(s)
The use of derivatives for risk management by individuals, banks and corporations. The functioning of the futures and options markets for equities, fixed income and commodities. Option valuation models; Black-Scholes and beyond. Risk arbitrage. Applications in personal investment strategies.

**Prerequisite(s):** BUS1 170 and BUS1 172A with a minimum grade of "C" in each.
**Grading:** Letter Graded

**BUS1 172D - Student Managed Investment Fund**

3 unit(s)

**Prerequisite(s):** BUS1 170
**Grading:** Letter Graded

**BUS1 173A - Financial Management: Theory and Policy**

3 unit(s)
From the financial manager’s perspective, considerations and alternatives for maximizing a firm’s value. Tools for understanding what determines value and what managerial actions can alter value, by combining theory with practical knowledge of marketplace limitations.

**Prerequisite(s):** BUS 170 (with minimum grade of "C"). Upper division standing. Business Administration Finance or Corporate Accounting and Finance Majors only.
**Grading:** Letter Graded

**BUS1 173B - Problems in Financial Management**
3 unit(s)
Advance study of business case materials, including assessment of financial condition; projection of capital
requirements; and analysis of decisions pertaining to working capital, capital expenditures, financing, capital
structure, dividends, mergers and reorganization.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB and BUS1 173A with a minimum grade of "C" in
both. Upper division standing.
Grading: Letter Graded

BUS1 173C - Entrepreneurial Finance

3 unit(s)
Basic principles of finance applied to new ventures and small businesses. Topics include incorporation, venture
capital, business models, financial analysis, valuation, capital structure, cash flow forecasting, growth and exit
strategies.

Prerequisite(s): BUS 170 with a minimum grade of 'C.' and Upper Division Standing
Grading: Letter Graded

BUS1 175 - Real Estate Finance

3 unit(s)
Real estate financing from the viewpoint of borrower and lender, financing mathematics, legal aspects of lending,
appropriate financial instruments, taxes and real estate, loan cost analysis, loan valuation, development and
assumability. Mortgage markets/institutions considered together with alternative financing techniques for various
types of properties.

Prerequisite(s): BUS1 170 (with minimum grade of "C"). Upper division standing.
Grading: Letter Graded

BUS1 177 - International Business Finance

3 unit(s)
Focuses on the determination of exchange rates and the workings of international financial markets. Develops
exchange rate parity relationships and techniques for hedging exchange rate risk. Strategies for managing working
capital, long term debt, fixed asset selection and international financial reporting are also examined.

Prerequisite(s): BUS 170 (with minimum grade of "C"). Upper division standing.
Grading: Letter Graded

Sustainability Related

BUS1 179B - Selected Topics in Business Finance

3 unit(s)
Extensive investigation of selected topics with major emphasis on integration of finance theory and practice within a
current business context.

Prerequisite(s): BUS1 173A (with minimum grade of "C"). Upper division standing.
Grading: Letter Graded
BUS1 180A - Indiv Study Acctg

1-4 unit(s)
Prerequisite(s): Not available to Open University Students.
Grading: Credit/No Credit

BUS1 180C - Indiv Study Finan

1-4 unit(s)
Prerequisite(s): Not available to Open University Students.
Grading: Credit/No Credit

BUS1 192 - International Program Studies

1-12 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

BUS1 196B - Corporate Finance II

3 unit(s)
Introduction to selected topics of corporate finance: mergers and acquisitions, bankruptcy, initial public offerings, working capital management, payout policy, capital structure, multinational financial management. Application of finance theory to investment and financing decisions of a corporation.

Prerequisite(s): BUS1 173A
Grading: Letter Graded

Overview

Where better to study hospitality management than in the heart of Silicon Valley, San Jose, California and the Bay Area? Thanks to our world-renowned high tech companies, and vibrant metropolitan location, we attract millions of national and international visitors each year. According to a recent CSU impact report, hospitality ranks as one of the state's top growth industries, ensuring that the demand for hospitality professionals will only increase. Our innovative, technology-driven curriculum and faculty provide the theoretical, practical, and professional training students need to pursue successful and meaningful careers. Our Bachelor of Science in Business Administration concentration in Hospitality, Tourism and Event Management pairs academic study with hands-on experience and internships. Our graduates find employment as hotel/resort general managers, restaurant managers, private club managers, controllers, sales and marketing managers, human resources managers, concierge, catering and corporate event coordinators/producers, and convention and tradeshow managers. Come join our team!

Undergraduate Major(s)

Business Administration, Hospitality, Tourism and Event Management Concentration, BS

The Business Administration BS concentration in Hospitality, Tourism and Event Management (HTEM), offered by the Department of Hospitality, Tourism and Event Management, prepares graduates for leadership roles in food and beverage services, restaurants, hotels, resorts, event planning and management, corporate events management, destination marketing and management, and other travel and tourism business. Students who complete the program will gain a solid foundation of business functions and management coupled with industry-specific professional preparation courses with an emphasis on hands-on experience.

Summary of Degree Units

University Graduation Requirements 38

Major Preparation 15

Major Core Requirements 43

Concentration Requirements 21

University Electives 3

Total 120

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.
Major-Specific Graduation Requirements

All courses in the Concentration Requirements for Management must be completed with a grade of "C- or better". The following Preparation for the Major and Required for the Major courses must be completed with a grade of "C or better": ENGL 2, MATH 71, BUS1 20, BUS2 90.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Core Lower Division General Education (27 units)

Of the 39 units required by the university, 12 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Note: Students who have completed the ADT Transfer degree (under SB 1440) for this major will have completed all lower division GE requirements and should follow the 60 unit guarantee roadmap. Meet with an advisor prior to registering for your first semester for the 60 unit roadmap or specific questions.

Upper Division General Education (3 units)

Of the 9 units required by the university, 6 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

African American Studies (6 units)

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 unit(s) (D+US123)

Asian American Studies (6 units)

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)
Chicana and Chicano Studies (6 units)

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

U.S. History and Government (6 units)

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

Physical Education (2 units)

All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students’ needs and interests, the university offers a diverse selection of activity courses.

Graduation Writing Assessment Requirement

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

Major Preparation (15 units)

- ECON 1A - Principles of Economics: Macroeconomics 3-4 unit(s)
- ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s) (D)
- ENGL 2 - Critical Thinking and Writing 3 unit(s) (A2) (or equivalent.)
- MATH 71 - Calculus for Business and Aviation 3 unit(s) (B4) (Transfer students with MATH 30 or MATH 30X (C or better) may use this in lieu of MATH 71.)

Written Communication (3 units)

- COMM 100W - Writing Workshop: Writing for Influence 3 unit(s) (Z)
- ENGL 100WB - Written Communication: Business 3 unit(s) (Z)
- LLD 100WB - Writing Workshop for Business Students 3 unit(s) (Z)

Major Requirements (64 units)

Core Courses (43 units)

Lower Division Courses (13 units)

- BUS1 20 - Financial Accounting 3 unit(s)
- BUS1 21 - Managerial Accounting 3 unit(s)
• BUS3 80 - Legal Environment of Business 3 unit(s)
• BUS2 90 - Business Statistics 3 unit(s)
• BUS4 91L - Computer Tools for Business 1 unit(s)

Business Fundamentals (15 units)

• BUS2 130 - Introduction to Marketing 3 unit(s)
• BUS5 140 - Fundamentals of Operations Management 3 unit(s)
• BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
• BUS1 170 - Fundamentals of Finance 3 unit(s)
• BUS2 190 - Quantitative Business Analysis 3 unit(s)

Business Integration and Perspectives Courses (15 units)

• BUS5 187 - Global Dimensions of Business 3 unit(s)
• BUS4 188 - Business Systems and Policy 3 unit(s)
• BUS3 189 - Strategic Management 3 unit(s)
• PHIL 186 - Professional and Business Ethics 3 unit(s) (S)
• One non-business global perspectives course in Area V 3 unit(s)

Concentration Requirements (21 units)

Required Courses (6 units)

• HSPM 1 - Introduction to Hospitality Management 3 unit(s)
• HSPM 177 - Hospitality Service Management 3 unit(s)

Concentration Electives (15 units)

Select five (5) courses from the below.

• HSPM 101 - Multicultural & Intl Issues Hospitality 3 unit(s)
• HSPM 108 - Hospitality Information Systems 3 unit(s)
• HSPM 111 - Customs and Courtesies in Hospitality 3 unit(s)
• HSPM 161 - Cruise Operations and Management 3 unit(s)
• HSPM 191 - Hospitality, Tourism and Event Management Internship 1-4 unit(s)

Event Courses

• HSPM 86 - Special Events Management in Hospitality 3 unit(s)
• HSPM 130 - Hospitality Event Production 3 unit(s)
• HSPM 140 - Meeting, Convention and Event Industry 3 unit(s)
• HSPM 142 - Tradeshow Event & Meeting Mgmt 3 unit(s)
• HSPM 143 - Tourism Destination Marketing and Management 3 unit(s)

Food and Beverage Courses

• HSPM 11 - Restaurant Management 3 unit(s)
• HSPM 12 - Cost Control in Hospitality 3 unit(s)
- HSPM 152 - Hotel Catering and Banquet Management 3 unit(s)

**Lodging Courses**
- HSPM 102 - Hotel & Lodging Operations 3 unit(s)
- HSPM 105 - Finance in Hospitality (To Be Inactivated after Spring 2023) 3 unit(s)
- HSPM 141 - Resort and Club Management 3 unit(s)
- HSPM 154 - Revenue Management 3 unit(s)

**University Electives (3 unit)**

**Total Units Required (120 units)**

**HSPM 1 - Introduction to Hospitality Management**

3 unit(s)
Overview of structure and financial performances of hospitality industry; food and lodging, resorts, tourism enterprises, attractions and related operations. Focus on orientation to customer service, cultural/economic trends and career opportunities.

**Grading:** Letter Graded

*Sustainability Related - SDG 8: Decent Work and Economic Growth*

**HSPM 11 - Restaurant Management**

3 unit(s)
Overview of food and beverage with emphasis on food quality.

Pre/Corequisite(s): HSPM 1.
Grading: Letter Graded

**HSPM 12 - Cost Control in Hospitality**

3 unit(s)
Food, beverage and payroll systems, including standards determination; variable, semi-variable and fixed costs; the operating budget; income and cost control and menu pricing. Cost control simulation exercises implemented through software programs.

Prerequisite(s): HSPM 1.
Corequisite(s): HSPM 11.
Grading: Letter Graded

Cross-listed with NUFS 12. Hospitality Management is responsible for scheduling.

**HSPM 20 - Sanitation and Environmental Issues in the Hospitality Industry**

2 unit(s)
Sanitation in food service, hotel and travel/tourism industries; study of pathogenic organisms and food handling procedures. Occupational health, safety and environmental control in the hospitality industry.
Grading: Letter Graded

Cross-listed with NUFS 20. Nutrition, Food Science and Packaging is responsible for scheduling. 
Sustainability Related - SDG 8: Decent Work and Economic Growth

HSPM 22 - Catering and Beverage Management

2 unit(s)
Planning and executing catering and buffet functions. Evaluation of alcoholic and non-alcoholic beverages regarding purchasing, storage, preparation, merchandising and regulations.

Misc/Lab: Lecture/lab 4 hours.

Prerequisite(s): NUFS 20 or instructor consent.

Grading: Letter Graded

Cross-listed with NUFS 22. Nutrition, Food Science and Packaging is responsible for scheduling.

HSPM 65 - Professional Seminar in Hospitality Mgmt (To Be Inactivated after Fall 2022)

1 unit(s)
Designed for students who have declared a major in the Hospitality, Tourism and Event Management degree. The topics selected will facilitate the student's entry into the academic program and the profession of hospitality management.

Corequisite(s): HSPM 1.

Grading: Letter Graded

Note(s): This course is part of the teach out plan for the Hospitality, Tourism, and Event Management BS. It will be offered in Fall 2021 and Fall 2022. The course will subsequently be discontinued.

HSPM 86 - Special Events Management in Hospitality

3 unit(s)
Hands-on experience in the operation, coordination, and management of special events as they relate to hospitality and tourism. Students develop management skills and experience in planning and execution of a major event.

Course may be repeated for credit for up to 6 units.

Grading: Letter Graded

HSPM 92 - International Program Studies

1-12 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.
Grading: Mixed Grading

**HSPM 101 - Multicultural & Intl Issues Hospitality**

3 unit(s)
Multicultural/international issues in the hospitality industry; historical, socioeconomic, cultural and linguistic variables presented in relationship to these issues.

Prerequisite(s): HSPM 1.
Grading: Letter Graded

Sustainability Related - SDG 8: Decent Work and Economic Growth

**HSPM 102 - Hotel & Lodging Operations**

3 unit(s)
Principles of organization, management and decision models applied to the tasks and challenges of hotel operations. Involves techniques of problem solving (including planning, organizing, staffing, directing and controlling operations) in areas of front office operations, housekeeping, food/beverage and personnel.

Pre/Corequisite(s): HSPM 1.
Grading: Letter Graded

**HSPM 105 - Finance in Hospitality (To Be Inactivated after Spring 2023)**

3 unit(s)
This course provides an introduction to the fundamentals of hotel and restaurant finance and develops an understanding of the strategic roles and financial analysis and finance play in internal management decision-making.

Prerequisite(s): HSPM 1, HSPM 65, BUS1 20 or BUS1 20N, and HSPM 102.
Grading: Letter Graded

Note(s): This course is part of the teach out plan for the Hospitality, Tourism, and Event Management BS. It will be offered in Fall 2021, Spring 2022, Fall 2022, and Spring 2023. The course will subsequently be discontinued.

**HSPM 108 - Hospitality Information Systems**

3 unit(s)
Focuses on the application of various information systems to the management of facilities, programs, services, finances and accounting, products, marketing and sales, human resources and other major functions of hospitality, recreation, and tourism organizations/ agencies.

Grading: Letter Graded

**HSPM 111 - Customs and Courtesies in Hospitality**

3 unit(s)
An exploration of a variety of customs and courtesies that demonstrate the influences of history, traditions, social customs, religious beliefs, language, and other cultural elements on hospitality service etiquette and manners in different cultures and countries.
HSPM 130 - Hospitality Event Production

3 unit(s)
Planning and execution of a hospitality event. Topics include strategic planning, event design, event project management, event related technology, financial management, human resources, event marketing, and on-site management.

Grading: Letter Graded

HSPM 140 - Meeting, Convention and Event Industry

3 unit(s)
Leisure service system planning through explanation of the scope and segmentation of the conference, convention and event market. Strategies in planning, developing and implementing meeting and convention services.

Grading: Letter Graded

HSPM 141 - Resort and Club Management

3 unit(s)
Management and operation of resort and private club properties from their historical development to their economic and environmental impact; marketing and managing of services provided by these facilities within the leisure industry.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

HSPM 142 - Tradeshows Event & Meeting Mgmt

3 unit(s)
Management and operations of tradeshows from business, economic and hospitality service perspectives; understanding the marketing, fiscal, and evaluative processes necessary to provide large scale meetings including hotel negotiations, food service, contract negotiation, and onsite management.

Grading: Letter Graded

HSPM 143 - Tourism Destination Marketing and Management

3 unit(s)
Principles of destination marketing and management in formulating strategies to promote tourism in a variety of locations. Appraising a destination's potential and developing a destination's products/services and marketing campaign to attract both business and leisure travelers.

Grading: Letter Graded

HSPM 148 - Wine Appreciation
3 unit(s)
Introduces the student to the significance of wine in the dining experience. The class will study the wine-making process, wine grape varieties, health and legal issues of wine and include in-class evaluation of wine.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

**HSPM 149 - Beer Appreciation**

3 unit(s)
Examining the history, business and economic impact of beer from its international brewery markets to the small craft beer distributors. Explore beer styles, regions, brewing processes and food pairings through weekly tastings and sensory applications of the principles of beer making.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

**HSPM 152 - Hotel Catering and Banquet Management**

3 unit(s)
Overview of hotel group sales, convention services, catering sales and banquet operations. Learn tools and applications necessary to be successful in providing catering and banquet operations for hotel, restaurant, or corporate events.

Grading: Letter Graded

**HSPM 154 - Revenue Management**

3 unit(s)
Formulating tactical pricing decisions to maximize revenues for hospitality organizations. Topics include: history of revenue management, reservation systems, forecasting demand, inventory control, cost analysis, pricing strategy, channel management, revenue management tactics, and applications.

Grading: Letter Graded

**HSPM 161 - Cruise Operations and Management**

3 unit(s)
This course examines the major aspects of cruise operations and management including history, global cruise market, economic significance, geography of cruising, itinerary design, anatomy of a cruise ship, operations, sales and marketing procedures, passenger services, event planning and management, and career opportunities.

Grading: Letter Graded

**HSPM 168 - Gaming Management**

3 unit(s)
Introduction to the casino's external environments and the casino's impact on the consumer and the local economy. Topics cover the history of gaming and gaming development, casino organization and operation, the mathematics of casino games, and casino management.
**Grading:** Letter Graded

**HSPM 177 - Hospitality Service Management**

3 unit(s)
Develop skills in setting formal service standards and procedures to deliver customer experience and evaluate service quality for hospitality businesses. Topics include service experience design, psychological/social characteristics of customer satisfaction, service delivery processes, consumer/server encounters, service quality, and service recovery.

**Prerequisite(s):** HSPM 1 and senior standing.

**Grading:** Letter Graded

**HSPM 180 - Individual Studies**

1-3 unit(s)
Investigation of special problems, including research projects and/or field experience.

**Prerequisite(s):** Instructor or department consent. Not available to Open University Students.

**Grading:** Credit/No Credit

**HSPM 184 - Directed Reading**

1-4 unit(s)
Directed reading in journals and books by authorities in Hospitality, Recreation, Tourism and related fields. Assessment by project(s) and/or paper(s).

*Course may be repeated for credit for up to 4 units.*

**Prerequisite(s):** Instructor approval or department consent. Not available to Open University Students.

**Grading:** Credit/No Credit

**HSPM 191 - Hospitality, Tourism and Event Management Internship**

1-4 unit(s)
Supervised professional broad-based work experience in hospitality, tourism, or event management industry.

*Course is repeatable for up to 4 units.*

**Prerequisite(s):** Instructor or department consent.

**Grading:** Credit/No Credit

**HSPM 192 - International Program Studies**

1-12 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Overview

Students interested in a career in marketing or business analytics can choose from one of two concentrations in the Department of Marketing and Business Analytics. A concentration in Marketing prepares students to pursue a career in a number of different areas such as sales and promotion, marketing management and social media marketing, in just about any sector.

For students interested in quantitative approaches to business decision-making, the Department offers a concentration on Business Analytics. The Department also houses the Bay Area Retailer Leadership Center, through which students can interface with leaders in retail and allied industries.

Undergraduate Major(s)
Business Administration, Business Analytics Concentration, BS

Business Analytics is a quantitative approach to business, driven by the intelligent use of data and mathematical models. Practitioners leverage methods from statistics and operations research to form insights and make decisions that improve business performance. Business analytics is crucial to a broad range of industries. Banks need to perform credit risk analysis and analyze streaming transactions in real time to quickly identify potential fraud. Utility companies need to analyze energy usage data to gain a better understanding of demand patterns. Retailers need to perform markdown optimizations, firm-wide liquidity management, and understand the social sentiment around their products and markets to develop more effective campaigns and promotions. Business Analytics, offered by the Department of Marketing and Business Analytics, helps such organizations uncover insights from big data, build models that relate actions to consequences, and perform optimization and simulation analyses that lead to quality decisions and better outcomes in shorter times. The job opportunities for graduates with data analytical skills have never been more numerous. The business analytics concentration is designed to cater to this need by equipping our undergraduates with the skills needed to crunch huge data sets into meaningful information to further facilitate smart business decision-making.

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

Major-Specific Graduation Requirements

All courses in the Concentration Requirements for Business Analytics must be completed with a grade of "C- or better". The following Preparation for the Major and Required for the Major courses must be completed with a grade of "C or better": ENGL 2, MATH 71, BUS1 20, BUS2 90.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Core Lower Division General Education (27 units)
Of the 39 units required by the university, 12 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Note: Students who have completed the ADT Transfer degree (under SB 1440) for this major will have completed all lower division GE requirements and should follow the 60 unit guarantee roadmap. Meet with an advisor prior to registering for your first semester for the 60 unit roadmap or specific questions.

Upper Division General Education (3 units)

Of the 9 units required by the university, 6 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

African American Studies (6 units)

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 unit(s) (D+US123)

Asian American Studies (6 units)

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

Chicana and Chicano Studies (6 units)

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

U.S. History and Government (6 units)

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

Physical Education (2 units)
All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students’ needs and interests, the university offers a diverse selection of activity courses.

Graduation Writing Assessment Requirement

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

Major Preparation (15 units)

- ECON 1A - Principles of Economics: Macroeconomics 3-4 unit(s)
- ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s) (D)
- ENGL 2 - Critical Thinking and Writing 3 unit(s) (A3) (or equivalent)
- MATH 71 - Calculus for Business and Aviation 3 unit(s) (B4) (Transfer students with MATH 30 (C or better) may use this in lieu of MATH 71.)

Written Communication (3 units)

- COMM 100W - Writing Workshop: Writing for Influence 3 unit(s) (Z)
- ENGL 100WB - Written Communication: Business 3 unit(s) (Z)
- LLD 100WB - Writing Workshop for Business Students 3 unit(s) (Z)

Major Requirements (61 units)

Core Courses (43 units)

Lower Division Courses (13 units)

- BUS1 20 - Financial Accounting 3 unit(s)
- BUS1 21 - Managerial Accounting 3 unit(s)
- BUS3 80 - Legal Environment of Business 3 unit(s)
- BUS2 90 - Business Statistics 3 unit(s) (Transfer students with STAT 95 (C or better) may use this in lieu of BUS2 90.)
- BUS4 91L - Computer Tools for Business 1 unit(s)

Business Fundamentals (15 units)

- BUS2 130 - Introduction to Marketing 3 unit(s)
- BUS5 140 - Fundamentals of Operations Management 3 unit(s)
- BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
- BUS1 170 - Fundamentals of Finance 3 unit(s)
- BUS2 190 - Quantitative Business Analysis 3 unit(s)
Business Integration and Perspective Courses (15 units)

- BUS5 187 - Global Dimensions of Business 3 unit(s)
- BUS4 188 - Business Systems and Policy 3 unit(s)
- BUS3 189 - Strategic Management 3 unit(s)
- PHIL 186 - Professional and Business Ethics 3 unit(s) (S)
- One non-business global perspectives course in Area V 3 unit(s)

Concentration Requirements (18 units)

Additionally, to qualify for a baccalaureate degree in Business Administration with concentration in Business Analytics, all courses in the concentration must be completed with a grade of "C-" or better. A cumulative 2.0 GPA is required in all business classes.

- BUS2 194A - Statistical Analysis 3 unit(s)
- BUS2 194B - Business Analytics 3 unit(s)

Complete Four Courses From:

- BUS2 132B - Business Logistics 3 unit(s)
- BUS2 137A - Soft Skills 3 unit(s)
- BUS2 137H - Marketing Honors Practicum 3 unit(s)
- BUS2 138 - Marketing Research 3 unit(s)
- BUS2 191 - Decision Making Under Uncertainty 3 unit(s)
- BUS2 193 - Data Mining 3 unit(s)
- BUS2 195A - Spreadsheet Modeling 3 unit(s)
- BUS2 195B - Data Visualization 3 unit(s)
- BUS2 195C - Simulation Modeling and Analysis 3 unit(s)
- BUS2 195D - Analytic Strategy 3 unit(s)
- BUS4 116 - Advanced Database Management Systems 3 unit(s)
- BUS4 118S - Special Topics in MIS 3 unit(s)

University Electives (6 units)

Total Units Required (120 units)

Business Administration, General Business Concentration, BS

The General Business concentration, offered by the Department of Marketing and Business Analytics, offers students a broad spectrum of courses to prepare them for careers in small, medium-sized or family businesses and for jobs with companies that train new employees in a specific job largely unrelated to a functional area such as managing a large retail store or servicing technology company’s customers.

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

Major-Specific Graduation Requirements

All courses in the Concentration Requirements for General Business must be completed with a grade of "C- or better". The following Preparation for the Major and Required for the Major courses must be completed with a grade of "C or better": ENGL 2, MATH 71, BUS1 20, BUS2 90.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Core Lower Division General Education (27 units)

Of the 39 units required by the university, 12 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Note: Students who have completed the ADT Transfer degree (under SB 1440) for this major will have completed all lower division GE requirements and should follow the 60 unit guarantee roadmap. Meet with an advisor prior to registering for your first semester for the 60 unit roadmap or specific questions.

Upper Division General Education (3 units)

Of the 9 units required by the university, 6 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.
The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

**African American Studies (6 units)**

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 unit(s) (D+US123)

**Asian American Studies (6 units)**

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

**Chicana and Chicano Studies (6 units)**

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

**U.S. History and Government (6 units)**

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

**Physical Education (2 units)**

All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students' needs and interests, the university offers a diverse selection of activity courses.

**Graduation Writing Assessment Requirement**

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

*A grade of C or better (C- not accepted) is required to meet graduation requirement.*

**Major Preparation (15 units)**

- ECON 1A - Principles of Economics: Macroeconomics 3-4 unit(s)
- ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s) (D)
- ENGL 2 - Critical Thinking and Writing 3 unit(s) (A3) (or equivalent)
- MATH 71 - Calculus for Business and Aviation 3 unit(s) (B4) *(Transfer students with MATH 30 (C or better) may use this in lieu of MATH 71.)*
Written Communication (3 units)

- ENGL 100WB - Written Communication: Business 3 unit(s) (Z)
- COMM 100W - Writing Workshop: Writing for Influence 3 unit(s) (Z)
- LLD 100WB - Writing Workshop for Business Students 3 unit(s) (Z)

Major Requirements (61 units)

Core Courses (43 units)

Lower Division Courses (13 units)

- BUS1 20 - Financial Accounting 3 unit(s)
- BUS1 21 - Managerial Accounting 3 unit(s)
- BUS3 80 - Legal Environment of Business 3 unit(s)
- BUS2 90 - Business Statistics 3 unit(s) (Transfer students with STAT 95 (C or better) may use this in lieu of BUS2 90.)
- BUS4 91L - Computer Tools for Business 1 unit(s)

Upper Division Business Fundamentals Courses (15 units)

- BUS2 130 - Introduction to Marketing 3 unit(s)
- BUS5 140 - Fundamentals of Operations Management 3 unit(s)
- BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
- BUS1 170 - Fundamentals of Finance 3 unit(s)
- BUS2 190 - Quantitative Business Analysis 3 unit(s)

Upper Division Business Integration and Perspectives Courses (15 units)

- BUS5 187 - Global Dimensions of Business 3 unit(s)
- BUS4 188 - Business Systems and Policy 3 unit(s)
- BUS3 189 - Strategic Management 3 unit(s)
- PHIL 186 - Professional and Business Ethics 3 unit(s) (S)
- One non-business global perspectives course in Area V 3 unit(s)

Concentration Requirements (18 units)

Required Courses (12 units)

Courses selected must include at least one each from Marketing and Organization and Management. There could be as many as 12 units from any one department and as many as 6 units of advisor approved transfer credit. All these courses require grades of "C-" or better.

Additional Courses (6 units)
Any upper division business courses. Please see an advisor for a current list of acceptable courses. All these courses require grades of "C-" or better.

**University Electives (6 units)**

**Total Units Required (120 units)**

**Business Administration, Marketing Concentration, BS**

Business graduates with a Marketing concentration are prepared to pursue careers in small business and retail store management; in marketing, product or advertising management; also direct marketing, customer service and sales. The Marketing program, offered by the Department of Marketing and Business Analytics, focuses on the business function concerned with market definition and objectives, product or service development, customer segmentation and product positioning, sales management, advertising and promotion, pricing and distribution.

Upper Division Business Fundamentals Courses (15 units)

- BUS2 130 - Introduction to Marketing 3 unit(s)
- BUS5 140 - Fundamentals of Operations Management 3 unit(s)
- BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
- BUS1 170 - Fundamentals of Finance 3 unit(s)
- BUS2 190 - Quantitative Business Analysis 3 unit(s)

Upper Division Business Integration and Perspectives Courses (15 units)

- BUS3 189 - Strategic Management 3 unit(s)
- BUS4 188 - Business Systems and Policy 3 unit(s)
• BUS5 187 - Global Dimensions of Business 3 unit(s)
• PHIL 186 - Professional and Business Ethics 3 unit(s) (S)
• One non-business global perspectives course in Area V 3 unit(s)

Concentration Requirements (21 units)

Additional requirements for graduation: to qualify for a baccalaureate degree in business administration with a marketing concentration, all marketing courses must be completed with a grade of "C-" or better. Marketing courses are those numbered in the BUS2 130 - BUS2 139 sequence.

Required Courses (12 units)

• BUS2 134A - Consumer Behavior 3 unit(s)
• BUS2 134B - Integrated Marketing Communications 3 unit(s)
• BUS2 138 - Marketing Research 3 unit(s)
• BUS2 139 - Marketing Management 3 unit(s)

Additional Courses (9 units)

Complete three courses from:
• BUS2 131A - Business to Business Marketing 3 unit(s)
• BUS2 131B - Retail Marketing Management 3 unit(s)
• BUS2 131D - Marketing in New Ventures 3 unit(s)
• BUS2 132B - Business Logistics 3 unit(s)
• BUS2 133A - International Marketing 3 unit(s)
• BUS2 133B - Relationship Marketing: Pacific Rim 3 unit(s)
• BUS2 133C - International Marketing: Developing Nations 3 unit(s)
• BUS2 134C - Social Media Marketing 3 unit(s)
• BUS2 135 - Sales Management 3 unit(s)
• BUS2 135B - Services Marketing 3 unit(s)
• BUS2 136 - Product Development 3 unit(s)
• BUS2 137A - Soft Skills 3 unit(s)
• BUS2 137H - Marketing Honors Practicum 3 unit(s)
• BUS2 137S - Special Topics in Marketing 3 unit(s)

University Electives (3 units)

Total Units Required (120 units)

BUS2 90 - Business Statistics

3 unit(s)
In terms of theory and application: collection and presentation of data; measures of central values and spread; probability as a measure of uncertainty; sampling and sampling distribution of the sample mean; confidence intervals; hypothesis testing; regression and correlation.
**Prerequisite(s):** MATH 71 MATH 71X.

**Grading:** Letter Graded

**BUS2 92 - International Program Studies**

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

**Grading:** Mixed Grading

**BUS2 130 - Introduction to Marketing**

3 unit(s)

Analysis of marketing opportunities; planning of marketing programs with emphasis on product, price, promotion and distribution; control of the marketing effort; social and ethical responsibilities of marketing. Recommended: COMM 100W or ENGL 100WB or LLD 100WB.

**Prerequisite(s):** Upper division standing

**Grading:** Letter Graded

**BUS2 131A - Business to Business Marketing**

3 unit(s)

Marketing of goods, services and ideas to businesses. Examines distribution, pricing, promotion, marketing research and planning. Emphasizes strategy development and the decision-making processes of customers.

**Prerequisite(s):** BUS2 130. Upper division standing.

**Grading:** Letter Graded

**BUS2 131B - Retail Marketing Management**

3 unit(s)

Special issues faced and approaches taken in retailing. Topics include store location, merchandise selection and display, financial management, promotion, store layout and image.

**Prerequisite(s):** BUS2 130. Upper division standing.

**Grading:** Letter Graded

**Note(s):** Offered only occasionally.

**BUS2 131D - Marketing in New Ventures**

3 unit(s)

Examines and explores the roles of marketing in the new venture. Focuses on learning conceptual framework for understanding customers, designing appropriate marketing activities, making marketing decisions and addressing marketing problems in building a new venture. Students analyze cases and undertake projects.
Prerequisite(s): BUS2 130.
Grading: Letter Graded

BUS2 132B - Business Logistics

3 unit(s)
Logistics in the process of planning, implementing and controlling the efficient, effective flow and storage of goods, services and related information from the point of origin to the point of consumption for the purpose of conforming to customer requirements.

Prerequisite(s): BUS2 130 and BUS2 190. Upper division standing.
Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

BUS2 133A - International Marketing

3 unit(s)
Impact of the international business environment on the development of marketing strategy and marketing mix, with emphasis on development of a global perspective and cultural sensitivity. Also covers international trade, importing and exporting.

Prerequisite(s): BUS2 130. Upper division standing.
Grading: Letter Graded

BUS2 133B - Relationship Marketing: Pacific Rim

3 unit(s)
Why not use PacRim marketing methods in PacRim markets? Americans tend to be short-term, sales-oriented. Asians tend to be relationship oriented. Why not master both marketing methods? Focus: Launching a "start-up". Topics: PacRim forms of product-launch, sales presentation, negotiation, promotion, PacRim risks.

Prerequisite(s): BUS2 130.
Grading: Letter Graded

Cross-listed with ASIA 133B. Marketing is responsible for scheduling.

BUS2 133C - International Marketing: Developing Nations

3 unit(s)

Prerequisite(s): BUS 130. Upper division standing.
Grading: Letter Graded

Sustainability Related - SDG 17: Partnerships for the Goals

BUS2 133E - Marketing to Eastern/Western Europe
3 unit(s)
To market in Europe, one must learn how Europeans market. Developed and evolved over centuries, European business methods are complex, subtle, and largely unknown to America. This course provides insights into these methods.

Prerequisite(s): BUS2 130
Grading: Letter Graded

BUS2 134A - Consumer Behavior

3 unit(s)
An examination of psychological, sociological, and other factors that affect customer behavior. These factors are examined in an effort to help businesses and other organizations to accurately assess and effectively satisfy customer needs.

Prerequisite(s): BUS 130, and Any 100w. Upper division standing
Grading: Letter Graded

BUS2 134B - Integrated Marketing Communications

3 unit(s)
Focus is on design and delivery of marketing messages to targeted audiences. Analysis and planning seeks integration of messages delivered through advertising, sales promotion, personal selling, public relations, and other communication methods.

Prerequisite(s): BUS2 130 and Any 100w. Upper division standing.
Grading: Letter Graded

Sustainability Related

BUS2 134C - Social Media Marketing

3 unit(s)
This course seeks to provide students with insights into the latest technologies and media platforms available to marketers and used in marketing practice. Students will learn about major theories, best practices, new technologies and new media platforms and apply them to real-life examples.

Prerequisite(s): BUS2 130
Grading: Letter Graded

BUS2 135 - Sales Management

3 unit(s)
Teaches skills in personal selling with guidelines for designing and managing the sales function. Topics include advanced sales techniques, high impact questioning methodologies, closing techniques and managing objections, account and territory planning and management, resource planning and management, and sales compensation programs.

Prerequisite(s): BUS2 130. Upper division standing.
Grading: Letter Graded
BUS2 135B - Services Marketing

3 unit(s)
Exploration of the unique marketing needs and challenges faced by service organizations and goods-oriented firms that use service as a competitive strategy in an increasingly challenging global environment.

Prerequisite(s): BUS2 130 and upper division standing.
Grading: Letter Graded

BUS2 136 - Product Development

3 unit(s)
Integrative analysis of product development related to life-cycle management. Emphasis is on new product/service planning.

Prerequisite(s): BUS2 130. Upper division standing.
Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

BUS2 137A - Soft Skills

3 unit(s)
An examination of the soft skills (self-management skills and people skills) employers feel recent college graduates are lacking. Some of these skills include, but aren't limited to, listening skills, likability, flexibility, giving/receiving criticism, work ethic, dining etiquette, cultural sensitivity, etc.

Prerequisite(s): BUS2 130
Grading: Letter Graded

BUS2 137H - Marketing Honors Practicum

3 unit(s)
Course involves sponsored projects in the area of Marketing. Students are assigned to a host company and are required to work with the host company and faculty advisor on a topic in Marketing. A report will be presented.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): BUS2 130, or Instructor consent.
Grading: Letter Graded

BUS2 137S - Special Topics in Marketing

3 unit(s)
Special topics in the management of marketing or in the marketing environment. The instructor may choose to address one special topic, theme, or several related topics. Requires one or more projects, at instructors discretion.

Prerequisite(s): BUS2 130.
Grading: Letter Graded
BUS2 138 - Marketing Research

3 unit(s)
Fundamentals of empirical study in marketing, including hypotheses formulation, testing, and the basis of inference. Questionnaire and experimental design, attitude measurement, sampling and data collection, and analysis are emphasized along with applications to marketing decision-making.

Prerequisite(s): BUS2 90, BUS2 130, any 100W, and upper division standing.
Grading: Letter Graded

BUS2 139 - Marketing Management

3 unit(s)
Marketing management is a capstone course whose purpose is to provide the student with the opportunity to demonstrate and integrate the capabilities acquired from the prerequisite courses.

Prerequisite(s): BUS2 130, BUS2 134A, BUS2 134B, BUS2 138, COMM 100W or ENGL 100WB or LLD 100WB and Senior standing. BUS2 190 is strongly recommended.
Grading: Letter Graded

BUS2 180F - Indiv Study Mktg

1-4 unit(s)
Prerequisite(s): Not available to Open University Students.
Grading: Credit/No Credit

BUS2 190 - Quantitative Business Analysis

3 unit(s)
Quantitative models and computer software used in business decision-making. Studies of network and transportation models, linear programming, CPM/PERT project analysis, decision analysis, simulation and other techniques used in management science applications.

Prerequisite(s): BUS2 90, and MATH 71 or MATH 71X. Upper Division Standing. Not available to Open University Students.
Grading: Letter Graded

BUS2 191 - Decision Making Under Uncertainty

3 unit(s)
Decision analysis models and methods for optimizing decision policies: Bayes' Theorem, decision trees, influence diagrams, utility functions and certainty equivalence functions for risk-averse analyses, measures of the value of information, use of relevant spreadsheet computer tools.

Prerequisite(s): BUS2 90 or any one of the following: BUS2 190, PH 167, ISE 130, ECON 3, ECON 103A or Instructor Consent.
Grading: Letter Graded

Note(s): Offered only occasionally.
BUS2 192A - International Program Studies

1-14 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

BUS2 193 - Data Mining

3 unit(s)
Data Mining is used to discover patterns and relationships in data. Emphasis is on large complex data sets such as those in very large databases or through web mining. Topics: data visualization, association rules, clustering, and various modern classification techniques.

Prerequisite(s): BUS2 90 or instructor consent.
Grading: Letter Graded

BUS2 194A - Statistical Analysis

3 unit(s)
This course develops fundamental knowledge and skills for applying statistics in business decision-making. Topics include hypothesis testing, simple and multiple regression, experimental design, time series analysis and non-parametric estimation.

Prerequisite(s): BUS2 90
Grading: Letter Graded

BUS2 194B - Business Analytics

3 unit(s)
This course covers applications of linear, nonlinear, and discrete optimization as well as the modeling of stochastic processes, including inventory control models and waiting line models.

Prerequisite(s): BUS2 190
Grading: Letter Graded

BUS2 195A - Spreadsheet Modeling

3 unit(s)
Develop your analytical modeling skills and learn advanced features of Excel. Focus is on using Excel to model real-world decision-making problems. Covers Excel features including IF functions, lookup tables, date and text manipulation, sorting, filtering, graphing, and VBA.

Prerequisite(s): BUS2 190
Grading: Letter Graded
**BUS2 195B - Data Visualization**

3 unit(s)

This course focuses on state-of-the-art data techniques for creating effective visualizations for structured and unstructured data. The course targets students who are interested in using visualizations to better understand information and communicate with other people.

**Prerequisite(s):** BUS2 90  
**Grading:** Letter Graded

**BUS2 195C - Simulation Modeling and Analysis**

3 unit(s)

Building and using simulation models in business systems using both Excel and high-level simulation software package. Topics include discrete-event simulation, Monte Carlo simulation, simulation input data collection and analysis, statistical analysis of simulation output.

**Prerequisite(s):** BUS2 190.  
**Grading:** Letter Graded

**BUS2 195D - Analytic Strategy**

3 unit(s)

This course provides hands-on experience in transforming large amounts of diverse data into business decisions. This is accomplished via an engaging, complex simulation in which participants develop data-driven tactical and strategic decisions.

**Prerequisite(s):** BUS2 194A and BUS2 194B  
**Grading:** Letter Graded

The Donald and Sally Lucas Graduate School of Business offers the following graduate degree programs:

- Master of Business Administration  
  - Early Career MBA  
  - MBA for Professionals (Special Session)
- Master of Science in Accountancy  
- Master of Science in Taxation (Special Session)  
- Master of Science in Transportation Management (Special Session)

All of the Lucas School's business degree programs are accredited by AACSB International - The Association to Advance Collegiate Schools of Business.
Mission of the Donald and Sally Lucas Graduate School of Business

The Lucas School provides advanced business and professional education to high potential individuals with diverse backgrounds and work experiences. We prepare our graduates to make responsible, personally enriching, and professionally advantageous decisions. The Lucas School's business programs bring together an interesting mix of full-time and part-time students from a variety of academic, career, and cultural backgrounds. Given SJSU's Silicon Valley location, students come to the classroom with a wealth of real-world experience, including technical expertise (in engineering or software, for example), and wanting to develop business acumen, advance in managerial positions, or deepen their knowledge base.

Our Programs

The programs are innovative in design and delivery and offer a range of academically challenging and multi-disciplinary opportunities that enable students to improve and keep pace continuously within the dynamic Silicon Valley environment.

1. The Master of Business Administration provides advanced management education with the opportunity for a generalist degree. The Lucas MBA programs offer high caliber applied learning in an enriching environment thoroughly integrated with the Silicon Valley Experience. Courses are taught by an optimal mix of academics involved in cutting edge research and professionals with extensive experience in the mosaic of high-tech and service businesses that constitute Silicon Valley. Students are exposed to leading business practices in the classroom and networking opportunities as an integral part of an innovative educational experience. The Lucas MBA programs consist of forty-two semester units including thirty units of core courses and twelve units of elective courses. Within an MBA program, all students complete the same core courses whereas the elective courses are selected depending on the individual's interests and learning objectives.

   1. The Early Career MBA is a program tailored for individuals with limited professional work experience (0-5 years). Classes meet on the vibrant San José State University Campus where students have access to a wealth of resources. Courses typically meet evenings and Saturdays in eight-week sessions during the Fall and Spring semesters and five-week sessions during the Summer semester. Students follow a pre-set sequence of core courses and select elective courses depending on their area of interest. An approved three unit Internship may count as one of the elective courses. This unique MBA program offers three different tracks that vary in length and pace:

      • Accelerated Track - Designed for individuals who are willing to follow a very intense academic pace and wish to complete their MBA degree in 12 months.
      • Full-Time Track - Designed for individuals who are interested in completing their MBA degree in 21-24 months. The full-time track is ideal for international students and complies with all student visa requirements.
      • Part-Time Track - Designed for individuals who are working in full-time professional positions and are interested in completing their MBA degree in 33 to 36 months.

2. The MBA for Professionals is a Special Session program that is tailored for individuals with extensive professional work experience (5+ years). Offering a high level of flexibility, this program accommodates students with a demanding work and life schedule. Classes meet on the vibrant San José State University Campus where students have access to a wealth of resources. The diverse educational and professional backgrounds of the students makes the Silicon Valley Experience an integral part of the MBA classroom. Courses typically meet evenings and Saturdays in eight-week sessions during the Fall and Spring semesters and five-week sessions during the Summer semester, with some courses available on-line. Students are able to choose and adjust the pace in which they complete their degree. This program can be completed in 2 to 3 years.

2. The MS - Accountancy (MSA) program prepares students for careers in public, corporate, and governmental accounting. Students develop and apply an analytics-oriented mindset to audit, tax, advisory and managerial
scenarios. Coursework is structured to combine academic learning and accounting internship experience in a well-rounded preparation for careers in professional accounting. The program balances technical study and preparation for the CPA exam with business soft skills needed for recruitment and a career in accounting. The 30-unit program, taught on the SJSU campus, admits both accounting and non-accounting undergraduate majors in a competitive process. Non-accounting undergraduate students have the opportunity to prepare for the program in a 15-unit summer certificate program preceding fall enrollment in the MSA.

3. The MS - Taxation (MST) is a Special Session program that offers students technical knowledge, an understanding of tax policies and research and analytical skills development. Study of the tax law is enhanced through discussion of related accounting, legal and financial concepts and issues. The academic calendar is designed around the scheduling needs of working tax professionals. The extensive range of courses allows students flexibility in career specialization. The MST courses are offered on the San José State University Campus.

4. The MS - Transportation Management (MSTM) is a Special Session program that provides opportunities for individuals from both technical and non-technical disciplines to obtain advanced specialization in surface transportation management. The program draws on the latest in transportation policy, administration and management concepts from several disciplines, and enables students to develop a fuller understanding of the diverse and sometimes conflicting needs of modern transportation management for better serving their employers, community and society. The degree is available through distance-learning facilities and online video-conferencing.

5. The MBA/MS Engineering (with specializations in Systems Engineering and Software Engineering) - is a Special Session Off-Campus accelerated evening sequential degree program is a combined program for engineering professionals who wish to pursue technical and executive management positions.

Master(s)

Accountancy, MS

- Educational Objectives
- Benefits of the MSA
- Admissions Requirements
- Program of Study Requirements
- Master's Requirements (30 units)
- Program Learning Outcomes

The Master of Science in Accountancy (MSA) program, offered by the Lucas College and Graduate School of Business, prepares students for careers in public and corporate accounting. It teaches students to develop and apply an analytics-oriented mindset to audit, tax, advisory and managerial scenarios. Course work is structured to combine academic learning and accounting internship experience in a well-rounded preparation for careers in professional accounting. The program balances technical study and preparation for the CPA exam with business soft skills needed for recruitment and a career in accounting. The MSA is a full-time, 9-month, daytime program, although students with flexible employers may be able to study part-time. The 30-unit program, taught on the SJSU campus, admits both accounting and non-accounting undergraduate majors in a competitive process. Non-accounting undergraduate students have the opportunity to prepare for the program in a 15-unit summer certificate program preceding Fall enrollment in the MSA.

For more information, see the Lucas Graduate School of Business website.

Purpose of the MSA Program
The MSA program prepares students for a career in public or corporate accounting by providing them with a strong foundation for both public accounting certification (CPA) and career advancement.

**Educational Objectives**

Students with an MSA degree should understand the accounting principles and procedures involved in measuring, recording, summarizing, and reporting financial and non-financial data for business organizations; taxation concepts; auditing and control procedures; and the ethical and legal challenges in an accounting career. They should communicate effectively, both orally and in writing, evaluate information technology, and demonstrate analytical proficiency.

**Benefits of the MSA**

The program is designed for people with undergraduate degrees in accounting who want to further their studies in accounting while acquiring an additional 30 units needed for CPA licensure. It also allows liberal arts/sciences/business undergraduates who are interested in changing careers an entrance into the accounting profession. The course work and optional internship provide opportunities to build a framework for a successful and rewarding career in public or corporate accounting.

**Admissions Requirements**

**University Admissions**

Applicants must submit a complete graduate application by applying through the CSU Cal State Apply system and meet all the university admission requirements. Applicants apply separately to the department to obtain admission into the MSA program.

Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage at GAPE.

**Requirements for Admission to Classified Standing**

To be fully accepted into the MSA in classified standing, an applicant must have:

- A four-year bachelor's degree from an accredited college or university in the United States or from a recognized institution if the degree was earned outside of the United States.
- A preferred GPA of 3.0 or better (on a 4.0 scale) in the last 60 semester units or 90 quarter units of course work (Professional Development and Certificate Program course work cannot be included in this calculation);
- A Graduate Management Admission Test (GMAT) or the Graduate Record Examination (GRE) exam. Scores at the 50th percentile in both the quantitative and verbal sections of the exam are considered competitive. SJSU students are waived from the GMAT/GRE requirement; and
- Taken an English proficiency exam if the applicant graduated from a post-secondary institution in a country where English is not the principal language. Accepted exams include the TOEFL (Test of English as a Foreign Language) with a preferred score of 90, the International English Language Testing System (IELTS) with a preferred score of 7.5, and the Pearson Test of English (PTE) with a preferred score of 75.

In addition, a personal interview may be conducted for each applicant.

**Requirements for Admission to Conditionally Classified Standing**
If not accepted into classified standing, the applicant may qualify for conditionally classified status. Ambitious, highly motivated applicants with undergraduate degrees in liberal arts, sciences, or business will need to complete the intensive Certificate in Accounting Fundamentals program during the summer semester before matriculation into the MSA degree program. The individual admission letter will explain the required terms and conditions for attaining Classified standing.

**Program of Study Requirements**

To receive the Master of Science in Accountancy, students must complete 30 semester units of prescribed coursework. Specific program policies include the following:

**Prerequisites**

The curriculum requires completion of two lower-division and five upper-division prerequisite courses (3 semester hours or equivalent) within the past five years with an average grade in the courses of "B" (3.0) or better prior to the start of the program. All upper-division prerequisites must be completed at an accredited four-year university in the U.S. The seven prerequisite courses are:

1. Introductory Financial Accounting (lower-division course, gateway to upper-division courses 2-6)
3. Intermediate Financial Accounting II
4. Accounting Information Systems
5. Management Accounting and Control Systems
6. Taxation of Individuals and Flow-Through Entities
7. Statistics (lower division course)

Students may be conditionally admitted into the program pending completion of the prerequisite courses. Students must, at a minimum, submit completion and/or verification of enrollment in Introductory Financial Accounting and Statistics by the published GAPE document submission deadline. One way to fulfill the rest of the prerequisites is to enroll in the Certificate in Accounting Fundamentals at SJSU to complete courses 2-6 with an average of B in the summer preceding Fall enrollment in the MSA program.

**Course Requirements**

The 30 semester units of coursework include three core courses (9 units) required of all students, two core courses (6 units) from a list of designated topics, a culminating experience course (3 units), and four elective MSA courses (12 units). Electives may be taken from offerings in the MST and/or MBA programs with approval from the MSA director.

**Internship**

The courses in the MSA program are designed to prepare students for internships with public accounting firms, governmental agencies, and corporations. From January through March, students may enroll in an internship course, BUS 220K. Students in this course gain practical work experience, participate in firm training programs, and attend roundtable meetings to discuss topics such as professional ethics, working in the professional environment, communication effectiveness, marketing professional services, and planning for professional growth.

**Graduation Writing Assessment Requirement**

The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Program Evaluations website at www.sjsu.edu/gape.
Culminating Experience

Plan B (Project)

All students must complete a comprehensive project integrating business functional and interdisciplinary areas. The MSA culminating experience is incorporated into BUS 220N - Management of Organizations and Projects and into BUS 220A - Financial Statement Analysis for Accountants. An individual written project report is required and may take the form of a field study, business plan, research project, or business simulation.

Maintenance of 3.0 GPA

Students must maintain a grade point average of 3.0 or better on all graduate-level coursework. Students who receive grades of C-, D, F, or U in any business graduate course must repeat that course to achieve a grade of C or better.

Other University Requirements

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures. Students must comply with all other graduate requirements contained in this catalog.

Prerequisite Courses

Any of the prerequisite courses may be waived through evidence of recent prior equivalency (within the last five years with a grade of "B" or better)

- Introductory Financial Accounting
- Intermediate Financial Accounting I
- Intermediate Financial Accounting II
- Accounting Information Systems
- Management Accounting and Control Systems
- Taxation of Individuals and Flow-Through Entities
- Statistics

Master's Requirements (30 units)

Required Courses (15 units)

If more than two courses are taken, two fulfill the core course requirements and all others are electives.

- BUS 220J - Business Communications & Ethics 3 unit(s) (GWAR)
- BUS 220U - IT Audit & Internal Controls 3 unit(s)
- BUS 220Z - Data Analytics for Accounting 3 unit(s)

Choose two courses:

Choose two of the following courses in consultation with graduate advisor. If more than two courses are taken, two fulfill the core course requirements and all others are electives.
Electives (12 units)

12 units of elective courses selected in consultation with the graduate advisor.

Culminating Experience (3 units)

Plan B (Project)

Complete one course. If both courses are taken, one is the comprehensive project and the other is an elective.

- BUS 220A - Financial Statement Analysis for Accountants 3 unit(s)
- BUS 220N - Management of Organizations and Projects 3 unit(s)

Total Units Required (30 units)

Elective courses must be planned in consultation with the Graduate Advisor.

The maximum number of upper-division undergraduate units that can be applied toward the master's degree is 15.

Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU Cumulative grade point averages of 3.0 in order to graduate.

Business Administration (Early Career), MBA

- Purpose of the MBA Program
- Educational Objectives
- Benefits of the MBA
- Lucas MBA Programs
- Admission Requirements
- Program of Study Requirements for the MBA Degree
- Early Career MBA Requirements (42 units)
- Program Learning Outcomes

Purpose of the MBA Program

The MBA program provides a strong foundation of business concepts, models, skills, and methods with which to face immediate and future managerial challenges. The basic program aims at creating general management (rather than a functional specialist) perspective. Pragmatic in approach, the focus is on problem analysis and synthesis, decision making, action taking throughout the functional areas of business, and understanding the international context of business. The Lucas Graduate School of Business prepares students through a broad curriculum of functional core courses, cross-functional and integrative courses, and elective courses.
Educational Objectives

The educational objectives of the Donald and Sally Lucas Graduate School of Business MBA are threefold: to provide a solid base of interdisciplinary business theories and techniques; to apply theory and analytic tools to the practical improvement of organizational performance; to explore personal beliefs and values as they affect ethical and economic organizational practices. Key processes involve: investigating opportunities and problems; defining causes or contributing factors to problems, including those that cut across organizational units; generating alternatives from which feasible programs of action are selected and implemented; and monitoring and changing, where necessary, the progress of enacted decisions.

These skills are developed using a combination of approaches including the case method, experiential exercises, computer simulations, team projects, and problem sets. Students are expected to develop competencies both as action-oriented leaders and as logical decision-makers.

Benefits of the MBA

The program is geared to the professionally-oriented person who aspires to move into middle management or to undertake greater managerial responsibility. It is designed to aid those who have the capabilities or potential to be action initiators rather than those who prefer to develop reports and recommendations for decision-makers. The MBA program accommodates students with a variety of educational and work backgrounds. Business development projects are available to MBA students. The Lucas School has alliances with business incubator partners in Silicon Valley. Students have an opportunity to work with international businesses and entrepreneurial Silicon Valley startups.

Lucas MBA Programs

Although SJSU grants one unique MBA degree, the Lucas Graduate School of Business offers two distinct MBA programs that differ according to student profile, flexibility, degree completion time, admission cycle, and cost.

The Early Career MBA program is tailored to students who have fewer than five years of work experience. Classes are held on the SJSU campus during evenings and Saturdays in eight-week sessions. The Early Career Program offers three tracks that vary in length and pace: Accelerated Track (12 months), Full-Time Track (21-24 months), and Part-Time Track (33-36 months).

The MBA for Professionals is designed for working professionals with more than five years of work experience. This program offers a high level of flexibility in order to accommodate professionals with demanding life and work schedules. Classes meet evenings and Saturdays in eight-week sessions year-round, with some courses available online. Classes are held on the SJSU campus.

Admission Requirements

Requirements for Admission to Classified Standing

To be fully accepted into classified standing, an applicant must have:

1. A bachelor's degree from an accredited university in the U.S. or the equivalent of a U.S. bachelor's degree earned from a recognized institution if the degree was earned outside of the U.S.
2. A preferred GPA of 3.0 on a 4.0 scale.
3. Taken an English language proficiency examination if the previously earned degree was from an institution in which the principal language of instruction was not English. The university's minimum entrance score for
the TOEFL is 213 (computer-based) or 80 (internet-based). The minimum score required on the IELTS is 6.5, and the minimum PTE score is 53.

4. Taken the Graduate Management Admission Test (GMAT) or the Graduate Record Examination (GRE). Scores at the 50th percentile in both the quantitative and verbal sections of either exam are considered competitive. Conditional on the approval of the MBA Director, the GMAT/GRE requirement may be waived if the applicant has any of the following:
   1. Earned a Master's degree or Ph.D. from an accredited institution in the United States.
   2. Graduated with honors from the Lucas College of Business Gary J. Sbona Honors Program within the last five years.
   3. A GPA of at least 3.2 AND completed at least 5 years of full-time professional work experience with increasing responsibilities and a managerial role over people and/or budgets. An interview with the MBA Director and/or a letter from the supervisor attesting to the level of work responsibilities may be required.

5. Completed two prerequisite courses (Economics and Statistics, with a grade of B or higher). The economics course may be one of the following: Introduction to Microeconomics, Introduction to Macroeconomics, or Principles of Economics. An applicant may be admitted to the MBA program on a conditional admission basis prior to completion of these two courses but will need to provide proof of completion of all prerequisites before the day of orientation.

6. A personal statement of one to two pages explaining how an MBA can help to achieve the applicant's career objectives.

7. A resume detailing your professional and academic experiences.

8. (Optional) Two letters of recommendation.

The Lucas School does not follow a set formula for determining admission to the MBA programs. Our goal is to admit academically qualified candidates who show potential for completing the program and advancing into a successful business career. We seek to admit students whose backgrounds will enable them to contribute to the academic excellence and the demographic, educational, and experiential diversity of each class.

An applicant's academic profile - undergraduate major and institution, any graduate-level work, GPA, and GMAT or GRE scores - is a major factor in the admission decision. Other important areas of evaluation include a personal statement, work experience, letters of recommendation, writing skills, and extracurricular, community, and professional activities. From this overall review, we assess an applicant's potential for success and compatibility with our MBA program.

The GMAT or GRE score is just one part of a candidate's overall profile. We realize that the GMAT/GRE has certain limitations, as does any standardized test; however, these exams do allow comparison among applicants from different schools, different countries, and different majors. We encourage all applicants to prepare for the exam, take it as early as possible, and retake it if their score is not competitive.

The average GPA of admitted candidates is 3.3. Ideally, a candidate's GPA will be at 3.0 or above. Many circumstances may exist which offer an explanation for a GPA below 3.0; candidates are encouraged to submit a statement of explanation if this is the case. However, please note that an absolute minimum GPA of 2.5 is required for graduate admission at San José State University.

**Program of Study Requirements for the MBA Degree**

To earn the MBA degree, all students must satisfy the following requirements:

**Business Prerequisite Courses**

- Introduction of Macroeconomics (at SJSU this course is ECON 1A) or Introduction to Microeconomics (at SJSU this course is ECON 1B) or Principles of Economics
- Statistics (at SJSU this course is BUS2 90)
Advanced Management Courses (Core Courses)

In both the Early Career MBA and the MBA for Professionals, all students are required to successfully complete eleven core courses for a total of thirty-semester units. Although the total units of core courses are identical across the two MBA programs, the composition of the core curriculum is slightly different to account for the differences in student academic and professional profiles. The advanced graduate courses (core courses - 30 units) ensure breadth in general management knowledge and help the student to develop mastery in applying essential business skills.

Elective Courses

Four elective courses (12 units) are required of all students. As an elective course, a graduate student can select a maximum of one upper-division business undergraduate course (100-level) OR one graduate non-business course (200-level). Enrollment in such an elective course is conditional on the written approval by the MBA Director and it is specific to a given course and a given semester.

Comprehensive Project

The comprehensive project is incorporated in the Strategic Thinking course (BUS 290). The comprehensive project is a culminating experience integrating business functional and interdisciplinary areas. An individual written project report is required and an oral examination may be included. The project may take the form of a field study, research project, business simulation, or a strategic plan for an organization, as assigned by the Business 290 instructor. Students must receive an overall equivalent grade of “B” or better on the comprehensive project and may be given a maximum of two opportunities to satisfy requirements.

Graduation Writing Assessment Requirement

The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Program Evaluations website at www.sjsu.edu/gape.

Maintenance of 3.0 GPA

Students must maintain a grade point average of 3.0 or better on all graduate-level coursework. Students who receive grades of “C-,” “D,” “F,” or “WU” in any business graduate course must repeat that course to achieve a grade of “C” or better.

Transfer Credit

Subject to the approval of the Donald and Sally Lucas Graduate School of Business MBA Program Director and validation by the College of Graduate Studies, students may transfer a maximum of twelve-semester units of business graduate course work from another regionally accredited institution. Grades in the transfer courses must be “B” or better.

Other University Requirements

Students must comply with all other graduate requirements contained in this catalog.

Early Career MBA Requirements (42 units)
Advanced Management Courses (Breadth Requirements) (27 units)

- BUS 201 - Business Communications 1 unit(s)
- BUS 202 - Managing in the Global Economy 3 unit(s)
- BUS 210 - Developing and Managing People 3 unit(s) (GWAR)
- BUS 220 - Financial and Managerial Accounting 3 unit(s)
- BUS 230 - Marketing Management 3 unit(s)
- BUS 250 - Law and Ethics 3 unit(s)
- BUS 260 - Managerial Decision Analysis 3 unit(s)
- BUS 265 - Silicon Valley Experience 2 unit(s)
- BUS 270 - Financial Management 3 unit(s)
- BUS 280 - Operations and Supply Chain Management 3 unit(s)

Electives (12 units)

Four elective courses. Students may take a maximum of one 100-level business course OR 200-level non-business course with written approval of the MBA director.

Culminating Experience (3 units)

Plan B (Project)

- BUS 290 - Strategic Thinking 3 unit(s)

Total Units Required (42 units)

The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Program Evaluations website at www.sjsu.edu/gape.

Maintenance of 3.0 GPA

Students must maintain a grade point average of 3.0 or better on all graduate-level course work. Students who receive grades of "C-", "D", "F", or "WU" in any business graduate course must repeat that course to achieve a grade of "C" or better.

Transfer Credit

Subject to the approval of the Donald and Sally Lucas Graduate School of Business MBA Program Director and validation by the College of Graduate Studies, students may transfer a maximum of twelve-semester units of business graduate course work from another regionally accredited institution. Grades in the transfer courses must be "B" or better.

Other University Requirements

Students must comply with all other graduate requirements contained in this catalog.

MBA for Professionals Requirements (42 units)
Advanced Management Courses (Breadth Requirements) (27 units)

- BUS 200L - Leadership Communication 2 unit(s) (GWAR)
- BUS 210 - Developing and Managing People 3 unit(s) (GWAR)
- BUS 220 - Financial and Managerial Accounting 3 unit(s)
- BUS 230 - Marketing Management 3 unit(s)
- BUS 250 - Law and Ethics 3 unit(s)
- BUS 260 - Managerial Decision Analysis 3 unit(s)
- BUS 265P - Silicon Valley Experience for Professionals 1 unit(s)
- BUS 270 - Financial Management 3 unit(s)
- BUS 280 - Operations and Supply Chain Management 3 unit(s)

Complete One Course From:

- BUS 202 - Managing in the Global Economy 3 unit(s)
- BUS 203 - International Experience for American Executives 3 unit(s)

Electives (12 units)

Four elective courses. Students may take a maximum of one 100-level business course OR 200-level non-business course with written approval of the MBA director.

Culminating Experience (3 units)

Plan B (Project)

- BUS 290 - Strategic Thinking 3 unit(s)

Total Units Required (42 units)

Note: Four elective courses must be taken in addition to the Advanced Management Courses (Core Courses) in order to achieve the total of 42 semester units. A graduate student can select a maximum of one upper-division business undergraduate course OR one graduate non-business course conditional upon the written approval of a given course and a given semester by the MBA Director. Enrollment in BUS 203 is conditional on the approval of the MBA Director and the BUS 203 instructor.

Special Session Program Information

Academic Programs offered through Special Session are operated by the College of Professional and Global Education (CPGE). Registration and enrollment in a Special Session course or program must use the special session application form and will follow special session fee and course schedules. Note that regular session students seeking to enroll simultaneously in a special session course or program will trigger a separate and additional set of fees. This may require an additional enrollment appointment from the Registrar and it may have implications for financial aid status or requirements. Please visit the CPGE website for more information.

Taxation, MS
The Master of Science in Taxation (MST) Program is a 30-unit program designed to provide individuals with the conceptual understanding and sound technical knowledge necessary to compete successfully in the ever-changing tax world. It is appropriate for individuals already working in public accounting, a corporate tax department, a law practice or government service. College graduates with an accounting degree who wish to pursue a career in taxation and/or meet the 150 unit requirement to become a CPA will also benefit from the program. (State fee schedule does not apply.)

More information can be found on the Lucas Graduate School of Business Website: sjsu.edu/lucasgsb/prospective-students/mst.

Admissions Requirements

University Admissions

Applicants must submit a complete graduate application by applying through the CSU Cal State Apply system and meet all the university admission requirements. Applicants apply separately to the department to obtain admission into the MST program.

Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage at GAPE.

Requirements for Admission to Classified Standing

To be fully accepted into the MST in classified standing, an applicant must have:

1. Earned a Master's degree or Ph.D. from an accredited institution in the United States.
2. Completed the following undergraduate courses (or equivalent) prior to admission.
   - BUS1 20 - Financial Accounting
   - BUS1 21 - Managerial Accounting
   - BUS1 121A - Intermediate Accounting I
   - BUS1 121B - Intermediate Accounting II
   - BUS1 123A - Tax Factors of Business and Investment Decision
   These requirements may be fulfilled at a community college. If your undergraduate degree is in Accounting, you have satisfied the course prerequisites.
3. A four-year bachelor's degree from an accredited college or university in the United States or from a recognized institution if the degree was earned outside of the United States.
4. A GPA of 3.0 or better (on a 4.0 scale) in your last 60 semester units or 90 quarter units of course work (Professional Development and Certificate Program course work cannot be included in this calculation).
5. A Graduate Management Admission Test (GMAT) or the Graduate Record Examination (GRE) exam. Scores at the 50th percentile in both the quantitative and verbal sections of the exam are considered competitive. Conditional on the approval of the MST Director, the GMAT/GRE requirement may be waived if the applicant has any of following:
   1. Passed all parts of the CPA exam (in the United States).
   2. Passed the Enrolled Agent exam administered by the IRS.
3. Scored 145 or higher in the LSAT exam.
4. Graduated with honors from the Lucas College of Business Gary J. Sbona Honors Program within the last five years.
5. A GPA of at least 3.2 from an accredited U.S. university AND completed at least three years of full-time work experience in taxation. An interview with the MST Director and/or a letter from the supervisor attesting to type of work responsibilities may be required.
6. A GPA of at least 3.75 from an accredited U.S. university. An interview with the MST Director may be required.

Program of Study Requirements for the Master of Science in Taxation

Core Taxation Courses

Six core taxation courses (18 units) are required of all students. Of the core courses, two must be selected from a list of designated topic areas (business entities and multijurisdictional taxation); see below for details.

Elective Courses

Students complete a minimum of 12 units of taxation elective courses.

Graduation Writing Assessment Requirement

The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. For the MST Program, the required writing course is BUS 223A.

Culminating Experience

The culminating experience is a comprehensive individual written project incorporated into the capstone course, BUS 223H - Tax Policy Capstone. An oral examination may be included.

Maintenance of 3.0 GPA

Students must maintain a grade point average of 3.0 or better on all graduate-level course work. Students who receive grades of "C-", "D", "F", or "U" in any business graduate course must repeat that course to achieve a grade of "C" or better.

Transfer Credit

Subject to the approval of the MST Program Director, students may transfer a maximum of nine semester units of business graduate course work from another accredited institution to be applied to advanced level course work requirements. Grades in the transfer courses must be "B" or better. MST courses taken via "Open University" are treated as transferred into the MST Program (and thus count toward the maximum of nine semester units of transferable course work).

Other University Requirements
Students must comply with all other graduate requirements contained in this catalog.

Requirements for Advancement to Graduate Candidacy

Students must meet the university requirements for candidacy. General university requirements for advancement to candidacy for the MST degree are detailed in the Graduate Policies and Procedures section. Candidacy includes the successful completion of the Graduation Writing Assessment Requirement (GWAR).

Special Session Program Information

Academic Programs offered through Special Session are operated by the College of Professional and Global Education (CPGE). Registration and enrollment in a Special Session course or program will follow the special session fees and course schedules. Note that regular session students seeking to enroll simultaneously in a special session course or the program will trigger a separate and additional set of fees. This may require an additional enrollment appointment from the Registrar and it may have implications for financial aid status or requirements. Please visit the CPGE website for more information.

Master's Requirements (30 units)

Required Core (15 units)

- BUS 223A - Tax Research and Decision Making 3 unit(s) (GWAR)
- BUS 223F - Tax Accounting Methods/Periods 3 unit(s)
- BUS 223G - Taxation of Business Entities 3 unit(s)

Business Entities Elective (3 units)

Choose one of the following courses in consultation with graduate advisor:

- BUS 223B - Taxation of Partnerships 3 unit(s)
- BUS 225B - Taxation of Corporate Reorganizations 3 unit(s)
- BUS 225G - Taxation of S Corporations 3 unit(s)
- BUS 225S - Consolidated Returns 3 unit(s)

Multijurisdictional Taxation Elective (3 units)

Choose one of the following courses in consultation with graduate advisor:

- BUS 225C - International Tax - US Corporations with Foreign Activities 3 unit(s)
- BUS 225D - International Tax - Individuals and Foreign Corporations 3 unit(s)
- BUS 225F - State Taxation Fundamentals 3 unit(s)
- BUS 225P - Advanced International Tax - US Corporations 3 unit(s)
- BUS 225U - Fundamentals of Transfer Pricing 3 unit(s)
- BUS 225W - Introduction to International Taxation 3 unit(s)
- BUS 225X - International Taxation - US and Foreign Individuals 3 unit(s)

Electives (12 units)
Complete 12 units from:

- BUS 223B - Taxation of Partnerships 3 unit(s)
- BUS 225A - Taxation of Estates and Trusts 3 unit(s)
- BUS 225B - Taxation of Corporate Reorganizations 3 unit(s)
- BUS 225C - International Tax - US Corporations with Foreign Activities 3 unit(s)
- BUS 225D - International Tax - Individuals and Foreign Corporations 3 unit(s)
- BUS 225F - State Taxation Fundamentals 3 unit(s)
- BUS 225G - Taxation of S Corporations 3 unit(s)
- BUS 225H - Taxation of Property Transactions 3 unit(s)
- BUS 225I - Tax Practices, Penalties and Procedures 3 unit(s)
- BUS 225K - Advanced Individual Taxes 3 unit(s)
- BUS 225L - Accounting for Income Taxes 3 unit(s)
- BUS 225P - Advanced International Tax - US Corporations 3 unit(s)
- BUS 225S - Consolidated Returns 3 unit(s)
- BUS 225U - Fundamentals of Transfer Pricing 3 unit(s)
- BUS 227A - Individual Tax Compliance 1 unit(s)
- BUS 227B - Ethics for Tax Practitioners 1 unit(s) (Note: Course counts towards the required ethics courses to become a CPA in California)
- BUS 227C - Tax Symposium 1 unit(s) (Note: Topic changes each time offered; may be taken more than once.)
- BUS 227D - Employment Taxation and the Modern Workforce 1 unit(s)
- BUS 227E - Foundation for Understanding Taxation 1 unit(s)
- BUS 227F - Personal and Business Leadership Skills for Tax Practitioners 2 unit(s) (Note: Course counts towards the required ethics courses to become a CPA in California)
- BUS 298 - Master's Project 3 unit(s) (1-6 units required)

Culminating Experience (3 units)

Plan B (Project)

- BUS 223H - Tax Policy Capstone 3 unit(s)

Total Units Required (30 units)

Elective courses must be planned in consultation with the graduate advisor.

Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU cumulative grade point averages of 3.0 in order to graduate.

Transportation Management, MS

- Admission Requirements
• Requirements for Advancement to Candidacy
• University Graduation Requirements
• Master's Requirements (30 units)
• Program Learning Outcomes

The Master of Science in Transportation Management (MSTM), offered by the Lucas Graduate School of Business with support from the Mineta Transportation Institute, is a fully accredited, 30-unit program that takes two and half or three years to complete as a part-time student. The curriculum consists of six required courses, two electives, and a two-course culminating capstone experience.

The curriculum is led by nationally recognized instructors who are academic or industry experts. The MSTM is fully accredited by the Association to Advance Collegiate Schools of Business (AACSB).

Classes are held on weekday evenings, allowing students to work full time while earning their degrees. Students generally take one course at a time, one night per week, for each ten-class session, for a total of four classes per year. Students attend class online or from in-person video-conferencing at locations throughout California.

**Admission Requirements**

**University Admissions**

Applicants must submit a complete graduate application by applying through the CSU Cal State Apply system and meet all the university admission requirements. Applicants apply separately to the department to obtain admission into the Special Session MS, Transportation Management degree program. See the GAPE Graduate Admissions website and this Catalog for general information about graduate admissions at SJSU.

Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage at GAPE. For TOEFL Requirements, see the Policies and Procedures section, Graduate and Post-Baccalaureate Information.

**Admission to the Department**

Applicants who meet university and program requirements will be considered for classified admission. Admission to the Special Session MS, Transportation Management degree program requires the following (more details about these requirements are provided at the "Admissions" tab from transweb.sjsu.edu/education/graduate):

- A bachelor's degree from an accredited university in the U.S. or the equivalent of a U.S. bachelor's degree earned from a recognized institution if the degree was earned outside of the U.S.
- A preferred 3.0 (on a 4.0 scale) grade point average (GPA) in the last 60 semester units or 90 quarter units of study. An absolute minimum GPA of 2.5 is required for graduate admission at SJSU. Four-year undergraduate degree from an accredited institution, with a minimum 3.0 GPA for the last 60 units preferred.
- Graduate Management Admission Test (GMAT) or the Graduate Record Examination (GRE) exam scores. Scores at the 50th percentile in both the quantitative and verbal sections of the exam are considered competitive. Conditional on the approval of the MSTM Program Director, the GMAT/GRE score requirement may be waived if the applicant meets at least one of the three conditions listed below. An interview with the MSTM Program Director may be required before approving the waiver.
  1. Earned a master's degree or Ph.D. in the United States from an accredited institution.
  2. Has at least five years of relevant full-time professional work experience in the transportation sector or a related field.
  3. Graduated with honors from the Lucas College of Business Gary J. Sbona Honors Program within the last five years.
• A statement of purpose explaining how a Master of Science in Transportation Management will help you to achieve your career objectives (500 to 800 words).
• A resume detailing your professional and academic experiences.
• A letter of recommendation written by a supervisor who managed you in paid or volunteer work or by a university instructor who taught you. Letters should include an evaluation of your writing and analysis skills.
• For students who did not earn a 4-year bachelor's degree, master's degree, or Ph.D. from an institution in which the principal language of instruction was English: Scores from an English language proficiency examination. The university minimum entrance score for the TOEFL is 213 (computer-based) or 80 (internet-based). The minimum score required on the IELTS is 6.5, and the minimum PTE score is 53.

Admission in Conditionally Classified Standing

Applicants not accepted into classified standing may qualify for conditionally classified status. The individual admission notification will explain required coursework, terms and conditions for removing deficiencies and attaining classified standing.

Requirements for Advancement to Candidacy

Candidacy denotes that the student is fully qualified to complete the final stages of the MS - Transportation Management. In order to achieve candidacy, students must meet the university requirements for candidacy. General university requirements for advancement to candidacy for the master's degree are detailed in the Graduate Policies and Procedures section. The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Program Evaluations website at www.sjsu.edu/gape.

University Graduation Requirements

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

Students disqualified from the MSTM program must follow the Disqualification and Probation - Graduate Students procedures in the SJSU catalog. It is the policy of the Donald and Sally Lucas Graduate School of Business not to readmit disqualified graduate students after a second disqualification.

Transfer Credit

With the approval of the MSTM Program Director, the Donald and Sally Lucas Graduate School of Business Associate Dean for Graduate Programs, and the SJSU Associate Vice President for Graduate Studies and Research, students may transfer a maximum of six units of related graduate course work from another accredited university in the United States to satisfy elective course requirements. Grades in the transfer courses must be "B" or better. Extension course work from other institutions is not acceptable.

Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR).

MTM 201 serves as the GWAR requirement for this program.

Culminating Experience
Plan B (Project)

The program culminating experience is incorporated into MTM 283 and MTM 290. Students use these courses to design and then carry out an individual, comprehensive project.

Special Session Program Information

Academic Programs offered through Special Session are operated by the College of Professional and Global Education (CPGE). Registration and enrollment in a Special Session course or program must use the special session application form and will follow special session fee and course schedules. Note that regular session students seeking to enroll simultaneously in a special session course or program will trigger a separate and additional set of fees. This may require an additional enrollment appointment from the Registrar and it may have implications for financial aid status or requirements. Please visit the CPGE website for more information.

Master's Requirements (30 units)

Required Core (18 units)

- MTM 201 - Transportation Systems and Society 3 unit(s) (GWAR)
- MTM 202 - Introduction to Transportation Funding and Finance 3 unit(s)
- MTM 203 - Transportation Marketing and Communications Management 3 unit(s)
- MTM 214 - Transportation Policy and Regulation 3 unit(s)
- MTM 215 - Transportation Planning and Project Development 3 unit(s)
- MTM 217 - Leadership and Management of Transportation Organizations 3 unit(s)

Electives (6 units)

Complete two courses from:

- MTM 226A - Transportation Emergency Management 3 unit(s)
- MTM 226B - Transportation Security Management 3 unit(s)
- MTM 226C - Transportation Safety and Compliance Management 3 unit(s)
- MTM 236 - Managing Technology Innovations in Transportation 3 unit(s)
- MTM 245 - High-Speed and Intercity Rail: Planning & Design 3 unit(s)
- MTM 246 - High-Speed and Intercity Rail Operations/Engineering 3 unit(s)
- MTM 250 - Transportation and the Environment 3 unit(s)
- MTM 260 - Project Management in Transportation 3 unit(s)

Culminating Experience (6 units)

Plan B (Project)

- MTM 283 - MSTM Capstone - Project Design 3 unit(s)
- MTM 290 - MSTM Capstone - Evaluation Report 3 unit(s)

Total Units Required (30 units)
Elective courses must be planned in consultation with the MSTM Program Director. With prior approval from the Program Director, students may count towards the elective requirement one graduate or upper-division undergraduate course (3 units) from another SJSU program.

The maximum number of upper-division undergraduate units that can be applied toward the master's degree is 15.

Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU Cumulative grade point averages of 3.0 in order to graduate.

Students must comply with all other graduate requirements contained in this catalog.

Certificate(s)

Accounting Fundamentals Certificate

The Accounting Fundamentals Certificate, offered by the Lucas Graduate School of Business, is an intensive program providing a broad foundation of concepts and practices in financial reporting, managerial accounting, accounting information systems and corporate taxation. Over the course of one semester, it covers essential topics needed both for a career in accounting and for graduate study. The program is taught in its entirety during the summer, with each course taught in either two- or five-week sessions. The program is designed for both non-matriculated students and those satisfying entrance requirements for both the MS in Accountancy program. As this certificate is comprised of fundamental accounting knowledge and skills, students entering MSA program without an undergraduate degree in accounting will be required to complete this certificate before enrolling in MSA classes.

University Advanced Certificate Requirements

Advanced certificate programs offers postbaccalaureate students coursework leading to a specific, applied, focused goal. In order to be eligible for admission to an advanced certificate, students complete an intake form or apply through CalState Apply and submit an official transcript(s) (noting the completion of a U.S. bachelor's degree from an accredited institution or the equivalent of a U.S. bachelor's degree from an accredited and/or recognized institution from a foreign country). Students must have a minimum of 2.5 undergraduate GPA.

Students must maintain a minimum GPA of 3.0 in all advanced certificate coursework, with no less than the grade of "C" in any course. A maximum of 4 units of coursework with a grade of "C" can count toward an advanced certificate. A maximum of 4 units of coursework may be repeated. Undergraduate lower division courses are not applicable to advanced certificates. A maximum of 30% of any graduate degree program units (e.g., 9 units for a 30-unit Master's degree) can be completed from another institution and/or units from Open University (including advanced certificate courses) at SJSU with approval from the department or school. The choice of grading requirements may have implications for transferability to degree programs (University Policy S16-17).

The advisor/director of the program is responsible for verifying a student's satisfactory completion of the academic requirements established for the program and for forwarding a copy of the certificate audit completion form to the Office of the Graduate Admissions and Program Evaluations. The Office of the Registrar records the completion of the program on the student's transcript.

Certificate Requirements (15 units)

- BUS 220B - Financial Reporting and Analysis I 3 unit(s)
- BUS 220C - Accounting Information Systems I 3 unit(s)
- BUS 220E - Financial Reporting and Analysis II 3 unit(s)
- BUS 220F - Management Accounting and Control Systems 3 unit(s)
- BUS 220P - Taxation of Individuals and Flow-Through Entities 3 unit(s)
Total Units Required (15 units)

Advanced Accounting Topics Certificate

The Advanced Accounting Topics Certificate, offered by the Lucas Graduate School of Business, provides an in-depth study of topics useful for CPA exam preparation and a career in accounting. It supplements coursework in the Certificate in Accounting Fundamentals and in the MSA program with advanced issues and topics relevant for a career in accounting. Specialized issues covered in the certificate program deepen understanding of accounting practice, broaden career preparation and better equip students for the CPA examination.

University Advanced Certificate Requirements

Advanced certificate programs offer postbaccalaureate students coursework leading to a specific, applied, focused goal. In order to be eligible for admission to an advanced certificate, students complete an intake form or apply through CalState Apply and submit an official transcript(s) (noting the completion of a U.S. bachelor's degree from an accredited institution or the equivalent of a U.S. bachelor's degree from an accredited and/or recognized institution from a foreign country). Students must have a minimum of 2.5 undergraduate GPA.

Students must maintain a minimum GPA of 3.0 in all advanced certificate coursework, with no less than the grade of "C" in any course. A maximum of 4 units of coursework with a grade of "C" can count toward an advanced certificate. A maximum of 4 units of coursework may be repeated. Undergraduate lower division courses are not applicable to advanced certificates. A maximum of 30% of any graduate degree program units (e.g., 9 units for a 30-unit Master's degree) can be completed from another institution and/or units from Open University (including advanced certificate courses) at SJSU with approval from the department or school. The choice of grading requirements may have implications for transferability to degree programs (University Policy S16-17).

The advisor/director of the program is responsible for verifying a student's satisfactory completion of the academic requirements established for the program and for forwarding a copy of the certificate audit completion form to the Office of the Graduate Admissions and Program Evaluations. The Office of the Registrar records the completion of the program on the student's transcript.

Certificate Requirements (12 units)

Complete 12 units from:

- BUS 220S - Financial Reporting and Analysis III 3 unit(s)
- BUS 220L - Legal and Ethical Environment of Accounting Practice 3 unit(s)
- BUS 220H - Auditing: Concepts/Practice 3 unit(s)
- BUS 220U - IT Audit & Internal Controls 3 unit(s)
- BUS 220I - Forensic Accounting 3 unit(s)
- BUS 220V - Special Topics in Accounting 3 unit(s)
- BUS 220X - Business Analysis and Valuation Using Financial Statements 3 unit(s)
- BUS 220M - Accounting Ethics 3 unit(s)
- BUS 220A - Financial Statement Analysis for Accountants 3 unit(s)

Total Units Required (12 units)

Advanced Global Leadership Certificate

The Advanced Global Leadership Certificate, offered by the Lucas Graduate School of Business, is a focused program designed for those who want to develop their global leadership skills and embark upon a career that will
involve global work. This skill set has become a highly valued commodity in an environment that is growing increasingly globalized, but lags in the human capital necessary to succeed in this new environment.

**University Advanced Certificate Requirements**

Advanced certificate programs offer postbaccalaureate students coursework leading to a specific, applied, focused goal. In order to be eligible for admission to an advanced certificate, students complete an intake form or apply through CalState Apply and submit an official transcript(s) (noting the completion of a U.S. bachelor's degree from an accredited institution or the equivalent of a U.S. bachelor's degree from an accredited and/or recognized institution from a foreign country). Certificate Requirements (12 units)
• BUS 235A - Introduction to Business Analytics 3 unit(s)
• BUS 235B - Business Research 3 unit(s)
• BUS 235C - Data Mining for Business Analytics 3 unit(s)
• BUS 235D - Business Analytics Simulation 3 unit(s)

Total Units Required (12 units)

High Technology Taxation Certificate

The advanced certificates in taxation, offered by the Lucas Graduate School of Business, provide an in-depth study of topics to help a tax practitioner advance in his/her career or develop a specialization. The coursework supplements prior graduate study in the tax area, in essence, serving as a post-Master's program.

University Advanced Certificate Requirements

Advanced certificate programs offers postbaccalaureate students coursework leading to a specific, applied, focused goal. In order to be eligible for admission to an advanced certificate, students complete an intake form or apply through CalState Apply and submit an official transcript(s) (noting the completion of a U.S. bachelor's degree from an accredited institution or the equivalent of a U.S. bachelor's degree from an accredited and/or recognized institution from a foreign country). Students must have a minimum of 2.5 undergraduate GPA.

Students must maintain a minimum GPA of 3.0 in all advanced certificate coursework, with no less than the grade of "C" in any course. A maximum of 4 units of coursework with a grade of "C" can count toward an advanced certificate. A maximum of 4 units of coursework may be repeated. Undergraduate lower division courses are not applicable to advanced certificates. A maximum of 30% of any graduate degree program units (e.g., 9 units for a 30-unit Master's degree) can be completed from another institution and/or units from Open University (including advanced certificate courses) at SJSU with approval from the department or school. The choice of grading requirements may have implications for transferability to degree programs (University Policy S16-17).

The advisor/director of the program is responsible for verifying a student's satisfactory completion of the academic requirements established for the program and for forwarding a copy of the certificate audit completion form to the Office of the Graduate Admissions and Program Evaluations. The Office of the Registrar records the completion of the program on the student's transcript.

Certificate Requirements (9 units)

Complete three courses from below in consultation with MST program director.

Any course listed for the International Taxation Certificate.

• BUS 223B - Taxation of Partnerships 3 unit(s)
• BUS 225B - Taxation of Corporate Reorganizations 3 unit(s)
• BUS 225S - Consolidated Returns 3 unit(s)
• BUS 225V - Tax Considerations for High Tech Companies 3 unit(s)
• BUS 227C - Tax Symposium 1 unit(s) (3 units required)
• BUS 227D - Employment Taxation and the Modern Workforce 1 unit(s) (3 units required)

Total Units Required (9 units)

High-Speed and Intercity Rail Management Certificate
The Certificate in High-Speed and Intercity Rail Management, offered by the Lucas Graduate School of Business, provides graduate study in transportation management, with specialized courses on managing high-speed and intercity rail systems, from planning and design to engineering and operations. The certificate is intended primarily for professionals working in the fields of public transportation or rail who wish to enhance their qualifications for advancement and promotion, or to provide opportunities for professionals from related fields to move into rail management. The program enables students to earn 9 graduate units of course credit that may later be applied to the Master of Transportation Management (MSTM) program.

**Certificate Requirements (12 units)**

Complete 12 units (or four courses) from:

- MTM 201 - Transportation Systems and Society 3 unit(s) (GWAR)
- MTM 202 - Introduction to Transportation Funding and Finance 3 unit(s)
- MTM 203 - Transportation Marketing and Communications Management 3 unit(s)
- MTM 214 - Transportation Policy and Regulation 3 unit(s)
- MTM 215 - Transportation Planning and Project Development 3 unit(s)
- MTM 217 - Leadership and Management of Transportation Organizations 3 unit(s)
- MTM 236 - Managing Technology Innovations in Transportation 3 unit(s)
- MTM 250 - Transportation and the Environment 3 unit(s)

**Total Units Required (12 units)**

**Transportation Safety, Security, and Emergency Management (TSSEM) Certificate**

The Certificate in Transportation Safety, Security, and Emergency Management (TSSEM) (formerly Transportation Security Management), housed in the Lucas Graduate School of Business, offers students a unique opportunity to develop expertise across the three interrelated topics of transportation safety, security, and emergency management. Safety management protects from harm caused by non-intentional hazards, security management protects from intentional human behaviors, and emergency management prepares organizations for effective organizational response in the face of emergencies.

While safety, security, and emergency management are each independently critical to protecting human life, property, and the environment, transportation professionals are much more successful at managing any one of the three when knowledgeable about all three topics.

Completing the certificate prepares students for careers across the transportation industry. Public-sector transportation organizations are required by law to have staff working on both safety and emergency management, and in recent years new federal mandates require public transit agencies to prioritize safety management. Students who complete the program would be well prepared for such positions as Chief Safety Officer of a public transit operator and emergency manager or security manager for a transit or transportation agency.
The program enables students to earn 9 units of course credit that may later be applied to the Master of Science in Transportation Management (MSTM) program. Additionally, students who complete the emergency management course (MTM 226A) earn certification in the California Standardized Emergency Management System (SEMS). Students who complete the security course (MTM 226B) also earn two certificates from the Department of Homeland Security/New Mexico Tech.

**Certificate Requirements (12 units)**

- MTM 201 - Transportation Systems and Society 3 unit(s) *(GW)*
- MTM 226A - Transportation Emergency Management 3 unit(s)
- MTM 226B - Transportation Security Management 3 unit(s)
- MTM 226C - Transportation Safety and Compliance Management 3 unit(s)

**Total Units Required (12 units)**

**BUS 200L - Leadership Communication**

2 unit(s)

Hands-on course designed to simulate business communication scenarios encountered by professionals. Students will practice and apply both practical and theoretical aspects of organizational communication, including mechanics, style, and appropriateness of messages and methods based on specific organizational situations.

**Prerequisite(s):** Graduate Standing.

**Grading:** Letter Graded

**BUS 200W - Business Research and Communications**

3 unit(s)

Using a case approach, students will learn about communication within the business world, with the intention that they will practice interpersonal, team, and presentation skills that are expected of effective managers.
Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Graduate standing. Restricted to Business - MBA majors only.
Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

BUS 201 - Business Communications

1 unit(s)
This business communications course develops students' written and oral communication skills, emphasizing clear, concise and coherent articulation via a multitude of channels: e-mails, memos, cover letters, resumes, presentations, reports, etc. The course enables students to continue practicing effective communication in all aspects of their academic and professional careers.

Grading: Letter Graded

BUS 202 - Managing in the Global Economy

3 unit(s)
This course investigates the world economy, including how markets, institutions and organizations vary from country to country, and how global competition, climate change, digital and emerging economics, and shifting from manufacturing to a service economy affect management practice.

Prerequisite(s): Graduate standing. Restricted to Business - MBA majors only
Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

BUS 203 - International Experience for American Executives

3 unit(s)
An intensive one-week program at one of the nine EMBA Consortium partner schools with opportunities to collaborate with classmates from around the globe. Develop your global business acumen while learning about the unique culture and business practices of the region you visit. The course consists of classroom work, company visits, and cultural experiences.

Prerequisite(s): Instructor Consent
Grading: Letter Graded

BUS 210 - Developing and Managing People

3 unit(s)
Based on the philosophy that increased self-awareness and effective self-management leads to more effective management of others, uses experientially focused, integrating models, principles, and activities.

Satisfies GWAR: Graduation Writing Assessment Requirement

Prerequisite(s): Graduate standing. Restricted to Business - MBA majors only
Grading: Letter Graded
Note(s): This course satisfies graduate-level GWAR in this master's program.

BUS 220 - Financial and Managerial Accounting

3 unit(s)
Introduces students to financial and managerial use of accounting information systems and concepts, including the sources, uses and limitations of accounting information as used by investors outside the firm and by managers within the firm.

Prerequisite(s): Graduate standing. Restricted to Business - MBA majors only
Grading: Letter Graded

BUS 220A - Financial Statement Analysis for Accountants

3 unit(s)
Course develops the ability to understand, interpret, and analyze financial information, and examines the relationship between financial statement information and the capital markets. Students develop financial analysis skills, and expand business knowledge from an accounting perspective.

Prerequisite(s): MSA Classified Standing.
Grading: Letter Graded

BUS 220B - Financial Reporting and Analysis I

3 unit(s)
Principles, control and theory of accounting for assets; correction of prior year's earnings; measurement and determination of income.

Prerequisite(s): MSA classified standing.
Grading: Letter Graded

BUS 220C - Accounting Information Systems I

3 unit(s)
Will provide conceptual framework concerning contemporary accounting information systems including: database concepts, internal control, use of systems technology, applications, management, systems analysis/design and auditing.

Prerequisite(s): MSA classified standing.
Grading: Letter Graded

BUS 220D - Financial Analysis and Markets

3 unit(s)
Provides an overview of the required skills and the environment appropriate to the financial and economic decision-making function of the firm. The integrated approach of this course is designed to identify and analytically evaluate those internal and external variables which contribute to economic and financial decisions. Strategies of financial management in practical settings, application of concepts and analytical tools.
Prerequisite(s): MSA classified standing.
Grading: Letter Graded

BUS 220E - Financial Reporting and Analysis II

3 unit(s)
Continuation of Financial Reporting and Analysis I. Principles, controls, and theory of accounting for liabilities and equities; preparation, utilization, and analysis of cash flow statements; financial ratios and statistical analysis of financial statements accounting data.

Prerequisite(s): MSA classified standing.
Grading: Letter Graded

BUS 220F - Management Accounting and Control Systems

3 unit(s)
Provides the student techniques with an overview of the concepts and procedures of cost accounting relevant to managerial decision-making. Emphasizes planning and control, inventory valuation and income determination, and performance measurement.

Prerequisite(s): MSA classified standing.
Grading: Letter Graded

BUS 220G - Tax Factors of Business and Investment Decisions: Theory and Practice

3 unit(s)
Introduces essentials of tax research methodology, focusing on taxation of corporations and shareholders. Includes taxation of property transactions, deferral techniques, accounting periods, and accounting methods.

Prerequisite(s): MSA classified standing.
Grading: Letter Graded

BUS 220H - Auditing: Concepts/Practice

3 unit(s)
Discusses the public accounting profession and its socio-economic role; auditing techniques with an emphasis on EDP environment; audit procedures, practice and programs; working paper preparation; unqualified and qualified report writing.

Prerequisite(s): MSA classified standing. Graduate Standing only.
Grading: Letter Graded

BUS 220I - Forensic Accounting

3 unit(s)
Course will examine the frauds perpetrated on companies and methods of discovery. The criminal justice system will be reviewed and litigation support services provided by accountants to attorneys, including damage computations and testifying techniques and skills will be covered.
BUS 220J - Business Communications & Ethics

3 unit(s)
Emphasizes communication effectiveness and skill building for influencing and guiding people. Includes fundamental skill building in researching, organizing and writing reports, making persuasive presentations that are sensitive to the needs and requirements of clients, peers and managers.

Satisfies GWAR: Graduation Writing Assessment Requirement

Prerequisite(s): MSA classified standing.
Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

BUS 220K - Accounting Practicum

3 unit(s)
The Accounting Practicum is an internship with an accounting firm or corporate finance group. This provides opportunities to apply program content to real-world environments, gain appreciation of work expectations and demands, and relate field experience to remaining program curriculum.

Prerequisite(s): MSA classified standing.
Grading: Credit/No Credit

BUS 220L - Legal and Ethical Environment of Accounting Practice

3 unit(s)
Emphasizes knowledge in the areas of the Law of Contracts and selected portions of the Uniform Commercial Code: Sales of Goods; Commercial Paper and other Negotiable Instruments; and Secured Transactions.

Prerequisite(s): MSA classified standing.
Grading: Letter Graded

BUS 220M - Accounting Ethics

3 unit(s)
Examines professional ethical standards for accountants. Focuses on professional codes of conduct and workplace decisions for professionals in the fields of auditing, managerial accounting and taxation.

Prerequisite(s): BUS 220H, Graduate Standing only.
Grading: Letter Graded

BUS 220N - Management of Organizations and Projects

3 unit(s)
Examines the integrative role of the general manager as a strategist responsible for leading and managing multi-functional projects and develop skills related to leadership, planning, decision-making, motivating, scheduling and shaping organizational team culture by making extensive use of team building exercises/cases.
Prerequisite(s): MSA Classified Standing.
Grading: Letter Graded

BUS 220P - Taxation of Individuals and Flow-Through Entities

3 unit(s)
Taxation of individuals and pass-through entities (partnerships, LLCs, S corporations, estates and trusts) with emphasis on unique rules and factors in the Internal Revenue Code and Treasury Regulations.

Prerequisite(s): MSA classified standing.
Grading: Letter Graded

BUS 220R - Software Applications for Accounting

3 unit(s)
Creation, internal controls, evaluation and audit of advanced electronic spreadsheets. Students learn to use complex queries to extract information from databases.

Prerequisite(s): BUS 220C or equivalent
Grading: Letter Graded

BUS 220S - Financial Reporting and Analysis III

3 unit(s)
Accounting for multi-unit operations: consolidated reporting issues, transfer pricing issues, globalization issues (foreign tax structures, organizational forms and international accounting), translation of foreign currency transactions and operations, hedging foreign currency exposures, goodwill and brief exposure to business combinations.

Prerequisite(s): MSA classified standing.
Grading: Letter Graded

BUS 220T - Accounting Information/Tax

6 unit(s)

Prerequisite(s): MSA classified standing.
Grading: Letter Graded

BUS 220U - IT Audit & Internal Controls

3 unit(s)
The course provides an understanding of the types of risk that arise in computer environments and consider the impact these risk and threats have on the audit by examining computer-assisted audit tools and techniques.

Prerequisite(s): MSA Classified Standing.
Grading: Letter Graded
BUS 220V - Special Topics in Accounting

3 unit(s)
Current special topics in accounting including an understanding of the financial accounting policies and procedures followed by state, county, and municipal governments, universities, and other non-profits for accounting and budgeting of the receipt and expenditure of tax and related revenues.

Prerequisite(s): MSA Classified Standing.
Grading: Letter Graded

BUS 220X - Business Analysis and Valuation Using Financial Statements

3 unit(s)
Development of Accounting based valuation framework that integrates a firm's strategy, accounting performance, and value; assessing a firm's value proposition and identifying key value drivers and risks; evaluating degree to which a firm's accounting policies capture the underlying business reality.

Prerequisite(s): MSA classified standing.
Grading: Letter Graded

BUS 220Z - Data Analytics for Accounting

3 unit(s)
Basic principles and practices of data analytics as applied to accounting.

Prerequisite(s): Graduate standing in MS Accountancy program
Grading: Letter Graded

BUS 223A - Tax Research and Decision Making

3 unit(s)
Develops basics for tax research and evaluates the interrelationships of statutes, regulations, rulings and court cases. Identifies tax services and other primary research materials with emphasis on their use in tax decision-making. Emphasizing critical thinking and communication skills.

Satisfies GWAR: Graduation Writing Assessment Requirement

Prerequisite(s): Graduate standing.
Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

BUS 223B - Taxation of Partnerships

3 unit(s)
Income tax treatment of partners and partnerships and LLCs, including the creation, operation, liquidation and sale or other amalgamation of organizations. Special allocation and non-recourse debt arrangements are also covered.

Prerequisite(s): BUS 223A and BUS 223G
Grading: Letter Graded
BUS 223F - Tax Accounting Methods/Periods

3 unit(s)
Definition and importance of accounting methods and periods; timing rules for income, expenditures, inventory and R&D; change procedures; special methods; book-tax differences; introduction to provision for income taxes.

Pre/Corequisite(s): BUS 223A
Grading: Letter Graded

BUS 223G - Taxation of Business Entities

3 unit(s)
Income tax treatment of different types of business entities and their owners. Focuses on operations, reporting, formation, restructuring and termination. Selected special state and international tax rules, tax planning, and underlying tax policies also covered.

Corequisite(s): BUS 223A
Grading: Letter Graded

BUS 223H - Tax Policy Capstone

3 unit(s)
Capstone course that examines the principles and policies that underlie and shape tax systems and rules. Students gain a broader perspective of the tax law beyond its technical application, and learn how tax, economic, social and environmental policies interact.

Prerequisite(s): BUS 223A, BUS 223F, BUS 223G
Grading: Letter Graded

BUS 224 - Financial Statement Analysis

3 unit(s)
Course develops the ability to understand, interpret, and analyze financial information, and examines the relationship between financial statement information and the capital markets. Students develop financial analysis skills, and expand perspectives of business and professional roles.

Prerequisite(s): BUS 220 and graduate standing.
Grading: Letter Graded

BUS 225A - Taxation of Estates and Trusts

3 unit(s)
Excise and transfer tax treatment of estates, gifts, trusts, creators, beneficiaries and fiduciaries. Distinguishes between revocable and irrevocable trusts, including proper trusts to achieve desired goals. Reviews taxation of asset sales and dissolution or liquidation of estates or trusts. Analyzes estate evaluation, family limited partnerships, grants, GST, and planning opportunities.

Pre/Corequisite(s): BUS 223A
Grading: Letter Graded
BUS 225B - Taxation of Corporate Reorganizations

3 unit(s)
Income tax treatment of corporate reorganizations and amalgamations, including acquisitions, tax-free and taxable as well as corporate division. Tax treatment of net operating losses, earnings and profits, property basis and other corporate attributes.

Prerequisite(s): BUS 223A and BUS 223G
Grading: Letter Graded

BUS 225C - International Tax - US Corporations with Foreign Activities

3 unit(s)
Taxation of outbound investment and activities of the US corporations. Topics include sourcing, foreign tax credit, subpart F, Sections 482 and 367, foreign currency, establishing foreign operations, state taxation of outbound operations, and issues affecting expanding US multinational technology firms.

Prerequisite(s): BUS 223G and BUS 225W
Grading: Letter Graded

BUS 225D - International Tax - Individuals and Foreign Corporations

3 unit(s)
Taxation of individuals with foreign activities, and inbound investment and activities of foreign corporations. Topics include taxation of US expatriates and foreign nationals, foreign tax credit, tax treaties, foreign-owned US real estate, and issues of mobile employees.

Prerequisite(s): BUS 223G and BUS 225W
Grading: Letter Graded

BUS 225E - Data Analytics and Security

3 unit(s)
Understanding and hands-on practice of identifying and using data for tax and accounting applications, when and how to use, practice with key tools. Understand security issues in tax work and practices and tools for avoiding problems.

Prerequisite(s): MST Graduate Standing
Grading: Letter Graded

BUS 225F - State Taxation Fundamentals

3 unit(s)
Introduction to the legal foundation, nature and operation of key state and local taxes. Constitutional constraints regarding nexus, sourcing and apportionment are covered. Additional topics include research techniques, compliance and planning considerations, current issues and state tax reform.

Pre/Corequisite(s): BUS 223A
Grading: Letter Graded
BUS 225G - Taxation of S Corporations

3 unit(s)
Topics include: Income tax treatment of S Corporations and their shareholders, built-in gains tax and excess net passive income tax; operating and distribution rules, shareholders basis, NOL pass-through rules; formation, reorganizations, QSUBS, and state income tax consequences.

Prerequisite(s): BUS 223A and BUS 223G
Grading: Letter Graded

BUS 225H - Taxation of Property Transactions

3 unit(s)
Key rules and planning considerations of property development, transfer, lease, abandonment, worthlessness, and destruction; depreciation and amortization; special types of intangibles and relevant tax rules; property indebtedness; sale of a business; tax-deferred transactions; sale of a principal residence; and basics of non-income taxes applicable to property and property transactions.

Pre/Corequisite(s): BUS 223A
Grading: Letter Graded

BUS 225I - Tax Practices, Penalties and Procedures

3 unit(s)
Procedures applicable to filing returns, amended returns and claims for refund. Also covers key procedural matters governing examinations, appeals, and adjudication of disputes. Relevant penalty provisions and rules of conduct are also examined. While the focus is on federal rules, key procedural differences in California law are also covered.

Pre/Corequisite(s): BUS 223A
Grading: Letter Graded

BUS 225K - Advanced Individual Taxes

3 unit(s)
Course includes interest tracing, passive activity losses, net operating losses, divorce, AMT's impact on individuals and individual California income taxes.

Pre/Corequisite(s): BUS 223A, Graduate Standing only.
Grading: Letter Graded

BUS 225L - Accounting for Income Taxes

3 unit(s)
Financial accounting rules regarding the calculation and presentation of a company's provision for income taxes.

Prerequisite(s): Graduate standing.
Grading: Letter Graded

BUS 225P - Advanced International Tax - US Corporations
3 unit(s)
Advanced study of income tax treatment of international corporate transactions including international reorganizations and Section 367, Section 304 and corporate inversions. Planning for intangibles, subpart F planning, foreign entity structuring including use of check-the-box entities, foreign currency transactions, and foreign tax credit planning.

Prerequisite(s): BUS 223A and BUS 225C
Grading: Letter Graded

BUS 225Q - Tax Practicum

3 unit(s)
Internship with an accounting firm or corporate tax department. Provides opportunities to apply program content to real-world environments, gain appreciation of work expectations and demands, and relate field experience to remaining program curriculum.

Prerequisite(s): BUS 223A and BUS 223G.
Grading: Credit/No Credit

BUS 225S - Consolidated Returns

3 unit(s)
Review and analysis of theory, rules and practice involving affiliated entities and filing of consolidated returns.

Prerequisite(s): BUS 223A and BUS 223G
Grading: Letter Graded

BUS 225U - Fundamentals of Transfer Pricing

3 unit(s)
Introduction to the fundamental principles of intercompany pricing, applications of transfer pricing methods to related party transactions under U.S. transfer pricing regulations and OECD Guidelines, and the economic analysis required for intercompany transactions of multinational corporations.

Prerequisite(s): BUS 223A and BUS 225W
Grading: Letter Graded

BUS 225V - Tax Considerations for High Tech Companies

3 unit(s)
Explores the nature of high tech companies, special features, and why tax issues exist. In depth learning about tax incentives for innovation including the research credit, treatment of intangibles, stock options, multi-stage financing, multijurisdictional considerations, and book-tax differences.

Prerequisite(s): BUS 223A
Grading: Letter Graded

BUS 225W - Introduction to International Taxation

3 unit(s)
Introduction to the structure, basic rules, and policies of the federal income tax system with respect to international transactions of US and foreign persons. Topics include residency, sourcing, tax treaties, foreign tax credit, transfer
pricing, and compliance.

**Prerequisite(s):** BUS 223A  
**Corequisite(s):** BUS 223G  
**Grading:** Letter Graded

**BUS 225X - International Taxation - US and Foreign Individuals**

3 unit(s)  
Taxation of US and foreign individuals with investments and activities outside their home country. Topics include FTC, treaties, withholding taxes, US expatriates, foreign nationals, mobile employees, and compliance considerations, including US Bank Secrecy Act, FATCA and PFICs.

**Prerequisite(s):** BUS 223A and BUS 225W  
**Grading:** Letter Graded

**BUS 225Y - Accounting Ethics**

3 unit(s)  
Covers professional responsibilities for accountants; meets CA licensure rules for a 3-unit accounting ethics course. Addresses CA statutory and regulatory ethics, AICPA rules of professional conduct, SSTS, and Circular 230, emphasizing compliance, history, process of change, and research.

**Grading:** Letter Graded

**BUS 225Z - Personal & Business Leadership Skills for Tax Professionals**

3 unit(s)  
Learn intrapersonal and interpersonal skills and knowledge a tax practitioner needs for personal and professional success. Includes listening, oral and written communication, ethical reasoning, relationship and team building, conflict minimization, leadership behaviors, EQ, mindfulness, and career planning.

**Prerequisite(s):** Graduate Standing  
**Grading:** Letter Graded

**BUS 227A - Individual Tax Compliance**

1 unit(s)  
Basics of federal income tax compliance from information gathering to return filing. Includes practice preparing various individual forms and schedules, software tools, engagement letters, rules of conduct, disclosures, record keeping, key California adjustments, and completion of a moderately complex Form 1040.

**Corequisite(s):** BUS 223A.  
**Grading:** Letter Graded

**BUS 227B - Ethics for Tax Practitioners**

1 unit(s)  
Review of rules of conduct, tax penalties and professional ethical behavior relevant to tax compliance and planning. Key rules applicable to a CPA are covered in the context of their application in the day-to-day work of a tax practitioner.
Prerequisite(s): Graduate Standing only.
Corequisite(s): BUS 223A.
Grading: Letter Graded

BUS 227C - Tax Symposium

1 unit(s)
Tax symposium topics may vary from year to year to allow for focus on new developments or special tax topics. Check the MST schedule for the topic description.

Course may be repeated for credit for up to 3 units.

Corequisite(s): BUS 223A.
Grading: Letter Graded

BUS 227D - Employment Taxation and the Modern Workforce

1 unit(s)
An overview to the types of employment tax and related issues that can arise for companies and workers when employees telecommute or have multiple work locations. The basics of federal employment taxes are covered along with worker classification rules as well as selected state and international tax issues and rules relevant for today's workforce.

Pre/Corequisite(s): BUS 223A
Grading: Letter Graded

BUS 227E - Foundation for Understanding Taxation

1 unit(s)
Legal foundation of taxes, types of taxes, and underlying theories, definitions and concepts. How to analyze transactions and activities for tax consequences. Helps strengthen one's overall understanding of taxation and application of analytical skills to resolving tax issues.

Prerequisite(s): Undergraduate tax course
Grading: Letter Graded

BUS 227F - Personal and Business Leadership Skills for Tax Practitioners

2 unit(s)
Learn the intrapersonal and interpersonal skills and knowledge a tax practitioner needs for personal and professional success. Includes listening, oral and written communication, ethical reasoning, relationship and team building, establishment and assessment of accountability measures, time management, and career planning.

Prerequisite(s): Graduate Standing
Grading: Letter Graded

BUS 230 - Marketing Management

3 unit(s)
Fundamental concepts and skills required for understanding markets and managing marketing efforts. Includes
market orientation, consumer and industrial buyer behavior, market segmentation, target market identification, product development, pricing, distribution channels, marketing communication, strategy development, and marketing planning and control.

**Prerequisite(s):** Graduate standing. Restricted to Business - MBA majors only
**Grading:** Letter Graded

**BUS 231 - Consumer and Market Behavior**

3 unit(s)
Influence of consumer behavior upon marketing management strategy; examination of behavioral concepts as they relate to purchase decisions; types of consumer research instructions and applications; focus on buyer behavior in action-oriented environments.

**Prerequisite(s):** BUS 230 and graduate standing.
**Grading:** Letter Graded

**BUS 231C - High Tech Marketing**

3 unit(s)
Course will give students exposure to marketing in technology industries. Principal ideas from the technology adoption life cycle form the conceptual basis for the course. Differences between technology marketing and other kinds of marketing are explored and special skills identified.

**Prerequisite(s):** BUS 230, business statistics, and graduate standing.
**Grading:** Letter Graded

**BUS 233 - Business to Business Marketing**

3 unit(s)
Course deals with business-to-business marketing, that is, the marketing of goods, services, and ideas to business and non-retail institutions. Covers product, price, promotion and distribution with emphasis on strategy development and marketing decision-making.

**Prerequisite(s):** BUS 230 and graduate standing.
**Grading:** Letter Graded

**BUS 234A - Social Media Marketing**

3 unit(s)
Approaches to social media marketing. Benefits and opportunities companies face as online social networking influences company marketing strategies. Use of emerging technology to promote brand awareness and strategies for social recovery.

**Grading:** Letter Graded

**BUS 235A - Introduction to Business Analytics**

3 unit(s)
Many successful companies derive their competitive edge from the innovative use of business analytics. Students will master several fundamental skills for business analytics: data manipulation, data visualization, and statistical
modeling. Students will make extensive use of the R statistical environment, a cutting-edge business analytics tool.

**Prerequisite(s):** Graduate Standing only.

**Grading:** Letter Graded

**BUS 235B - Business Research**

3 unit(s)

This course introduces participants to 21st Century business research methodology. The emphasis here is not on issues related to ongoing data sources but rather to unique, one-time problems that are best solved with custom research projects. Quantitative methods are emphasized but the advantages of the qualitative perspective are not overlooked. Other topics include questionnaire design, data collection, analysis, and presentation, highlighting appropriate new technology. The aim is to prepare managers to conduct research as well as to enable them to engage collaboratively with their research consultants.

**Prerequisite(s):** Graduate Standing only.

**Grading:** Letter Graded

**BUS 235C - Data Mining for Business Analytics**

3 unit(s)

Data mining is used to discover patterns and relationships in data. Emphasis is on large complex data sets such as those in transactional databases or gathered through web mining. Topics: data visualization, association rules, clustering, and various modern classification techniques.

**Prerequisite(s):** Graduate Standing only.

**Grading:** Letter Graded

**BUS 235D - Business Analytics Simulation**

3 unit(s)

Transforming diverse data into knowledge-driven business decisions. Participants make tactical and strategic decisions based on consumer, competitor, aggregate market, financial, etc. Success is gauged by monitoring a dashboard that includes manufacturing productivity, return on investment, investment in the future, market share, product quality, financial performance, etc.

**Prerequisite(s):** Graduate Standing only.

**Grading:** Letter Graded

**BUS 237 - Sales Management**

3 unit(s)

Learn to recognize and capitalize on emerging market opportunities. Develop ability to manage different personality types, enhance communication skills, and increase cultural sensitivity. Sales forecasting, training, motivational techniques, and ethics.

**Grading:** Letter Graded

**BUS 238 - International Marketing**
3 unit(s)
The development of international marketing strategy. Focus on the evaluation of the various environmental variables, selection of target markets, methods of entry, developing an appropriate marketing mix and planning/control of the international marketing effort.

Prerequisite(s): BUS 230 and graduate standing.
Grading: Letter Graded

BUS 240 - Electronic Commerce

3 unit(s)
Focuses on organizational uses of information technology, impacts of IT on organizational operations and strategies, and increasing importance of Internet in business activities. Covers fundamentals of IT, organizational applications of IT and Internet, and successfully developing and implementing IT-based applications.

Prerequisite(s): Graduate standing.
Grading: Letter Graded

BUS 243 - Database Management

3 unit(s)
Introduction to database approach of planning, design and implementation of information systems applications in organizations from the viewpoint of the manager as a knowledgeable user. Includes data modeling, data integrity and practical project assignments.

Prerequisite(s): Graduate standing.
Grading: Letter Graded

BUS 247 - Big Data Management

3 unit(s)
Exploration of Big Data and how businesses are succeeding (or failing) in using it. Learn to extract value from Big Data by getting data ready for analysis (data wrangling), and by understanding and communicating the business value.

Grading: Letter Graded

BUS 248 - Cyber Risk Management

3 unit(s)
This course surveys cyber risk management concepts and best practices. Topics include cyber security threats, countermeasures, vulnerabilities, cost/benefit analysis, incident handling/response, business contingency planning, ethics, and legal imperatives within the organizational context.

Grading: Letter Graded

BUS 250 - Law and Ethics

3 unit(s)
Course focuses on both law and ethics in the business environment, how individuals and organizations approach law and ethics, as well as the ethical, legal and social consequences of disregarding law and ethics in favor of other
objectives.

Prerequisite(s): Graduate standing. Restricted to Business - MBA majors only
Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

BUS 251 - Strategic Human Capital Performance Management

3 unit(s)
This course utilizes case and research discussions as well as quantitative costing and utility analyses to develop practical skills in the global deployment of human resources to achieve and sustain strategic competitive advantage.

Prerequisite(s): Graduate standing.
Grading: Letter Graded

BUS 252 - Managing Organizational Change

3 unit(s)
The focus will be upon applied organizational change by covering organizational behavior from a normative, policy-oriented perspective. The perspective will be one of viewing the person (student) as an actual or potential change agent; a consultant (internal or external), innovative personnel specialist, or middle or top level manager.

Prerequisite(s): Graduate standing.
Grading: Letter Graded

BUS 253 - Negotiation and Conflict Management

3 unit(s)
Introduces a theoretical framework and skill-building exercises/simulations for negotiating agreements in adversarial or competitive relationships. Explores conflict resolution methods applicable to commercial transactions, employee relations, union management negotiation and contract disputes, as well as international diplomacy.

Prerequisite(s): Graduate standing.
Grading: Letter Graded

BUS 254 - Advanced Personnel Management

3 unit(s)
Selected human resource management topics are studied, including: computer applications and quantitative methods, forecasting, job analysis, personnel recruitment and selection, training and development, EEO, compensation, performance appraisal, OSHA requirements, labor relations.

Prerequisite(s): BUS 251 (or equivalent); statistics and computer applications; graduate standing.
Grading: Letter Graded

BUS 259 - Mg Legal Aspects of Tech & New Prod Dev

3 unit(s)
This course addresses emerging issues in intellectual property - patent, copyright, trademark, and trade secrets laws - with an emphasis toward managing and protecting innovation and new product development in areas such as
computer technology, biotechnology, and cyber-space.

**Prerequisite(s):** Graduate standing.
**Grading:** Letter Graded

**BUS 260 - Managerial Decision Analysis**

3 unit(s)
Concerns the inherent complexities in the process of choice. Covers decomposition of the decision environment, the use of decision trees, value theory, analysis of criterion, the statistical measurement of risk and uncertainty, preposterior analysis, and problems of collective choice.

**Prerequisite(s):** Business statistics and graduate standing; restricted to Business - MBA majors only
**Grading:** Letter Graded

**BUS 262 - Leadership**

3 unit(s)
Explores classic and contemporary models of leaders and leadership and defines the difference between management and leadership. Practical applications of theory emphasizing the contingency perspective.

**Prerequisite(s):** Graduate standing.
**Grading:** Letter Graded

**BUS 262A - Global Leadership and Innovation**

3 unit(s)
This course provides an in-depth introduction to global leadership and its development and to fostering innovation and global change. Through assessments and behavioral simulations, it prepares students to do global work effectively in a complex context with people from various cultures.

**Prerequisite(s):** Graduate standing.
**Grading:** Letter Graded

**BUS 262B - Global Leadership Development**

3 unit(s)
Students learn about global leadership and, in particular, its development in the Global Leadership Laboratory. As GLLab Associates, they help facilitate high impact experiential exercises, learn to give feedback, and supervise and coach student teams in global leadership courses.

**Prerequisite(s):** Graduate Standing
**Grading:** Letter Graded

**BUS 263 - High Performance Management**

3 unit(s)
An intense analysis of management with main focus on understanding organizations as systems. Use of academic theories as tools with which you solve real-world tactical performance problems. Emphasizes critical thinking and problem solving.
Prerequisite(s): Graduate standing.
Grading: Letter Graded

BUS 264 - Introduction to Technology Planning and Management

3 unit(s)
Develops technology strategies through a qualitative (scenario and strategy map-based) and a quantitative (decision analysis and option theory-based) approach for technology portfolio planning and management. It provides practical, stimulating, and easy-to-use methods for realistic applications.

Prerequisite(s): Graduate standing.
Grading: Letter Graded

BUS 265 - Silicon Valley Experience

2 unit(s)
This course is designed to develop the "whole student" for success in the business world, including professionalism, ethics, case competitions, communications, networking, career success, and work/life balance. It includes lectures, speakers, panels, competitions, and other events providing students with an in-depth exposure to Silicon Valley.

Grading: Letter Graded

BUS 265P - Silicon Valley Experience for Professionals

1 unit(s)
Supports professionals as they advance into managerial roles. Focus is on advanced soft-skills, communication skills, career planning, and leadership development. Class consists of roundtable discussions, career coaching, presentation feedback, and soft-skills workshops. Speaker events and company visits are also incorporated.

Prerequisite(s): Graduate Standing.
Grading: Letter Graded

BUS 268 - Managing Across Cultures

3 unit(s)
A comprehensive foundation for understanding, managing, and successfully interacting in the multi-faceted, culturally-embedded contexts of multinational firms. Understanding major issues facing multinational corporations in the management of international operations; insights into cultural, historical and institutional factors; skills for working effectively in international multicultural teams.

Prerequisite(s): Graduate standing.
Grading: Letter Graded

BUS 270 - Financial Management

3 unit(s)
Introduces the structure, markets and regulatory factors within the financial system. Develops basic skills in preparing financial plans/budgets, valuing capital costs, financial assets and evaluating the firm's capital structure, cost of capital, working capital, dividend policies, financing and investment decisions.
Prerequisite(s): BUS 220 or BUS 231B and graduate standing; restricted to Business - MBA majors only  
Grading: Letter Graded

BUS 271 - Capital Markets

3 unit(s)
Driven by technological change, deregulation and globalization, course provides students an overview of the U.S. and international financial environment through financial media, spreadsheets and the Internet. Students leave the class with knowledge of interest rates, flow of funds, derivatives, money and capital markets and financial intermediaries.

Prerequisite(s): BUS 270 and graduate standing.  
Grading: Letter Graded

BUS 272 - Current Topics in Finance

3 unit(s)
Presented as a collection of topics of current interest and concern to managers, investors and creditors. A seminar approach emphasizes discussion, illustrations, examples and applications drawn from current financial practice to encourage exploration of all facets of select financial issues.

Prerequisite(s): BUS 270 and graduate standing.  
Grading: Letter Graded

BUS 273 - Business Valuation

3 unit(s)
Course uses accounting and market data to determine the value of public and private businesses. The course considers methods and models whereby business values are created and destroyed. Techniques, from basic rules of thumb to holistic computer models are considered.

Prerequisite(s): BUS 220 and BUS 270.  
Grading: Letter Graded

BUS 274 - Financial Analysis of Technology-Based Firms

3 unit(s)
Students will learn to develop financial strategies in practical settings. This includes the ability to construct and interpret pro forma financial statements, planning and control models, working capital analysis, capital structure studies, capital budgeting and cost of capital models, and valuation analysis.

Prerequisite(s): BUS 270 and graduate standing.  
Grading: Letter Graded

BUS 275 - Corporate Finance: Cases in High Tech Firms

3 unit(s)
Course is a continuation of corporate finance where finance concepts directly related to high technology firms are examined. The concepts are enhanced by using five Harvard cases. Other data and handouts are provided to supplement these cases and the textbook.
Prerequisite(s): BUS 270 and graduate standing.
Grading: Letter Graded

BUS 276 - New Venture Finance

3 unit(s)
New ventures face different business and financing environments than large, publicly-traded firms. The risk of R&D failure is more severe for new ventures. Examines how business and financing decisions are intertwined. Topics: Venture capital, joint ventures and intrapreneurship.

Prerequisite(s): BUS 270 and graduate standing.
Grading: Letter Graded

BUS 277 - Investment Analysis and Management

3 unit(s)
Principles of financial and portfolio analysis applied to investments in common stocks and bonds. Descriptive characteristics of financial markets reviewed, with main emphasis on application of financial theory and statistics to understanding movements in security prices and portfolio values. A financial management viewpoint will be taken in conducting fundamental valuation analysis and formulating portfolio policy.

Prerequisite(s): BUS 270 and graduate standing.
Grading: Letter Graded

BUS 278 - International Corporate Finance

3 unit(s)
The finance manager's responsibilities, risks, problems and need for strategic planning. Unique aspects of financial analysis for international business discussed and applied to real and/or similar decision situations.

Prerequisite(s): BUS 270 and graduate standing.
Grading: Letter Graded

BUS 280 - Operations and Supply Chain Management

3 unit(s)
Analysis of effective and efficient flow of materials, products, services, and information within and across organizations. Includes: process flow analysis, capacity planning, quality, lean supply chain, layout, aggregate planning, supply chain networks, inventory management, sourcing, ERP, and logistics planning.

Prerequisite(s): Graduate standing. Restricted to Business - MBA majors only
Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

BUS 280IS - Independent Study

1-6 unit(s)
Independent study for the student with a specific project in mind, in an area not covered by existing coursework. The student must submit a one-page formal proposal to be accepted by an assigned faculty member and approved by the appropriate graduate program director. Number of units assigned are based on depth and breadth of project.
Course may be repeated for credit for up to 6 units.

Grading: Credit/No Credit

BUS 281 - Management of High Technology Organizations

3 unit(s)
Investigates ingredients for sustained profitable innovation. Emphasizes management of technological innovation, including: innovation strategies, organization, project selection, project management, managing and integrating functional areas. Analyzes developmental processes which enable small firms to grow and prevent large organizations from stifling innovation.

Prerequisite(s): Graduate standing.
Grading: Letter Graded

BUS 282 - Silicon Valley: The Business of Technology

3 unit(s)
The Silicon Valley Business of Technology course prepares students for fast-paced and pressure-packed conditions to accelerate development of Critical Thinking Skills; providing a unique insight into the Silicon Valley culture. Students will apply technology to various industries by understanding its origins, categories, and functionality.

Prerequisite(s): Graduate Standing
Grading: Letter Graded

BUS 282A - Essentials of Management and Organizational Behavior

3 unit(s)
Familiarizes students with the challenges that arise for managers in organizational settings; surveys theories and practices relating to managerial roles, organizational cultures, strategy, planning, team building, communication, motivation, leadership, decision-making, control, structure, and change.

Prerequisite(s): Enrollment in the MBT program.
Grading: Letter Graded

BUS 282B - Essentials of Operations Management

3 unit(s)
Familiarizes students with the role and importance of operations management and how it interacts with other parts of the organization; develops skills in applying analytical tools and techniques to operations management challenges.

Prerequisite(s): Enrollment in the MBT program.
Grading: Letter Graded

BUS 283 - Entrepreneurship

3 unit(s)
Examines the growth and nature of entrepreneurship and the support infrastructure of tasks, people, finances and technology. Emphasizes entrepreneur characteristics sought by venture capitalists and investors, role of the business plan and evolutionary stages of start-up activity.
Prerequisite(s): Graduate standing.
Grading: Letter Graded

BUS 284 - Managing Product Development

3 unit(s)
Views product development as a cross-functional business process. Examines concepts used and management challenges faced in structuring product development activity and in strategically managing a portfolio of product development projects.

Prerequisite(s): Graduate Standing.
Grading: Letter Graded

BUS 284C - Managing Medical Product Development

3 unit(s)
Views medical product development as a cross-functional business process. Examines concepts used and management challenges faced in structuring medical product development activity and in strategically managing a portfolio of medical product development projects. Examines industry practices and cases relevant to medical product development.

Prerequisite(s): Admission to MPDM program and completion of BUS 224C, BUS 286 and SMPD 289A.
Grading: Letter Graded

BUS 286 - Project Management

3 unit(s)
Covers both strategic and operational points of view for managing projects. Quantitative methods include project planning, budgeting, selection, scheduling, evaluation and control. Qualitative methods include project organization, staffing and team building.

Prerequisite(s): Graduate standing.
Grading: Letter Graded

BUS 290 - Strategic Thinking

3 unit(s)
Integrative focus on managing the total enterprise, including corporate and business-level strategy formation. Applies market and industry analysis, using qualitative and quantitative techniques, to position companies in their competitive environment. Students create a strategic plan for on-going or new organization.

Prerequisite(s): Completion of BUS 201, BUS 202, BUS 210, BUS 220, BUS 230, BUS 250, BUS 260, BUS 270, BUS 280 and graduate standing; restricted to Business - MBA majors only. for MBA for Professional students: BUS 200W, BUS 202, BUS 210, BUS 220, BUS 230, BUS 250, BUS 260, BUS 270, BUS 280 and graduate standing; restricted to Business - MBA majors only.
Grading: Letter Graded

Note(s): Must receive a minimum grade of "B" on project.

Sustainability Related
BUS 292 - International Program Studies

1-6 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

BUS 294 - Management Simulation Competition

3 unit(s)
Developing analytical and general management decision-making skills as member of a team competing in the regional business schools' management simulation game. Extensive use of computers for simulation and analytical/planning tools.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded

BUS 297A - Special Topics in Business Administration

1-4 unit(s)
Special topics to augment regularly-scheduled electives.

Prerequisite(s): Graduate standing and prerequisite courses as specified.
Grading: Letter Graded

BUS 297D - Special Topics in Business Administration

3 unit(s)
Special topics to augment regularly-scheduled electives.

Prerequisite(s): Graduate standing and prerequisite courses as specified.
Grading: Letter Graded

BUS 298 - Master's Project

3 unit(s)
Supervised completion of the Plan B (Project) culminating experience.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Advancement to Candidacy and instructor consent. Not available to Open University Students.
Grading: Mandatory Credit/No Credit/RP

BUS 298C - Applied Business Experience Internship
The course provides students with an opportunity to translate their academic training into real world practice and gain overall knowledge of key functional areas of business. The internship must offer students a valuable learning experience and must significantly increase their knowledge of business organizations. Students are responsible for identifying a specific internship opportunity and obtaining an official offer from an employer. Upon approval from the MBA Director, the students will be able to enroll in the 3-unit course which will count as one of the MBA electives. The course requires the preparation of an internship journal & report. The internship qualifies as Curricular Practical Training (CPT) for international students.

**Prerequisite(s):** Advancement to Candidacy  
**Grading:** Letter Graded

### BUS 298I - Applied Business Experience Internship

1 unit(s)  
For the student with a specific internship providing a quality experience that reinforces the curriculum and involves meaningful work. The student must submit a one-page formal proposal to the graduate program director. A final report is required. The internship must qualify as Curricular Practical Training (CPT) for international students.

**Course may be repeated for credit for up to 2 units.**

**Prerequisite(s):** Approved advancement to candidacy.  
**Grading:** Mandatory Credit/No Credit/RP

### BUS 299 - Master's Thesis

1-4 unit(s)  
Master's Thesis Plan A.

**Prerequisite(s):** Approval of the instructor and admission to candidacy. Not available to Open University Students  
**Grading:** Mandatory Credit/No Credit/RP

### MTM 201 - Transportation Systems and Society

3 unit(s)  
Core transportation knowledge and systems thinking. Characteristics of travel modes and infrastructural elements that produce transportation systems; public, private, and nonprofit actors involved in transportation; transportation systems as levers toward achieving economic vitality, social equity, environmental sustainability, and community goals; and key challenges transportation system managers will face in the coming decade.

**Satisfies GWAR: Graduation Writing Assessment Requirement**

**Grading:** Letter Graded

**Note(s):** This course satisfies the GWAR for the MSTM program.

### MTM 202 - Introduction to Transportation Funding and Finance

3 unit(s)  
Introduces financial and managerial uses of accounting information systems and concepts. Includes standard costs, cost-volume-profit relationships, contribution analysis, budgeting, performance measurement, variance analysis,
working capital, valuing capital costs and financing investment decisions. Explores use of complex information
decision systems.

Grading: Letter Graded

MTM 203 - Transportation Marketing and Communications Management

3 unit(s)
Emphasizes positioning services to meet the needs of particular groups/market segments and marketing the system
to new users/user groups (including developing the public/private sector relationship). Examines strategies for
developing the community relationship with marketing and public relations efforts (and using the media to advantage).

Grading: Letter Graded

MTM 214 - Transportation Policy and Regulation

3 unit(s)
Surveys political frameworks of governments as both customer and provider; development of transportation policy
with public involvement; and performance measurement with public oversight. Reviews policy impact on intermodal
development in seeking to manage public and private objectives and diverse agendas of federal, state and local
agencies.

Grading: Letter Graded

MTM 215 - Transportation Planning and Project Development

3 unit(s)
Examines management of transportation planning and project development processes, including: regional and state
system-wide planning; project-level planning; environmental review; obtaining governmental approvals and permits;
contract management; and project management.

Prerequisite(s): MTM 201 or instructor approval.
Grading: Letter Graded

MTM 217 - Leadership and Management of Transportation Organizations

3 unit(s)
A study of the human resource aspects of managing transportation systems, including labor/management
collaboration/negotiation and consultative employee relations programs. Builds skills in leadership and team building
within the context of bringing about organizational change in a complex transportation system.

Grading: Letter Graded

MTM 226A - Transportation Emergency Management

3 unit(s)
Examines the role of emergency management within transportation agencies and the role of transportation and
related resources in community-wide responses to emergencies disasters. Includes instruction in Standardized

Grading: Letter Graded
MTM 226B - Transportation Security Management

3 unit(s)
Examines contemporary challenges to transportation security. Topics to be covered include: management of infrastructure challenges (such as tunnel, bridge, road and rail vulnerabilities) prevention of and response to theft, workplace violence, disruptive terrorism, suicide and placement bombing attacks, and their related protection strategies. Students will learn about federal and state grants for security, as well as regional transportation planning for disaster response planning.

Grading: Letter Graded

MTM 226C - Transportation Safety and Compliance Management

3 unit(s)
Examines contemporary challenges to transportation safety and regulatory compliance. Topics to be covered include the history and evolution of safety principles, developing and managing a safety culture, hazard identification and management, along with federal and state regulatory compliance and safety certification processes. Students will also be introduced to the federal rulemaking process and the role of the National Transportation Safety Board.

Grading: Letter Graded

MTM 236 - Managing Technology Innovations in Transportation

3 unit(s)
Management challenges posed by five technological trends: electrification, vehicle automation, connected vehicles and infrastructure, car sharing and ride sharing, and mobility as a service. Topics include: impacts on infrastructure, financing, and labor; managing technologies to support environmental, equity, and economic efficiency policy goals; and supporting collaboration between public agencies and private sector firms.

Grading: Letter Graded

MTM 245 - High-Speed and Intercity Rail: Planning & Design

3 unit(s)
Course introduces students to fundamental principles for managing the planning and design of high-speed and intercity rail projects. Students analyze the challenges and opportunities that high-speed and intercity rail services face in the U.S., given prevailing travel behavior patterns, land-use patterns, and funding sources. Topics include the interrelationship of high-speed rail with conventional intercity rail and urban public transportation, the roles of different levels of government in planning and design, and the delivery and governance of rail corridors and stations. The course takes an international perspective, drawing lessons from around the globe and applying these principles to the U.S. context.

Grading: Letter Graded

MTM 246 - High-Speed and Intercity Rail Operations/Engineering

3 unit(s)
Course introduces students to best practices for managing the engineering and operations of high-speed and intercity rail. Topics covered include day-to-day operational concerns such as customer experience, service scheduling, and security management. In addition, the class covers strategic issues such as operating blended service that accommodates both passenger and freight service, managing public communications, and contracting approaches
for both construction and operations.

**Grading:** Letter Graded

**MTM 250 - Transportation and the Environment**

3 unit(s)
Students will be introduced to the complexities in the relationship of transportation and the environment. An important theme of this class is that real world trade-offs are inherent in addressing transportation as an important cause of environmental degradation. Solutions considered have technical, socio-economic, and cultural impediments. Students will learn from case studies of success in creating more environmentally-benign forms of access and mobility. Students will contribute their own ideas in class discussions and a term paper on innovation in transportation policy to address environmental concerns.

**Grading:** Letter Graded

**MTM 260 - Project Management in Transportation**

3 unit(s)
Reviews project management, program, and portfolio practices defined by the Project Management Institute (PMI) and the International Organization for Standardization (ISO). Examines how those practices apply to transportation and compares project management practices in the US transportation industry to other industry sectors and to general practices in other countries.

**Grading:** Letter Graded

**MTM 283 - MSTM Capstone - Project Design**

3 unit(s)
Provides the first part of a culminating experience in which students design and carry out an individual, comprehensive policy or program evaluation. Students conduct background research and develop a Policy or Program Evaluation Proposal that demonstrates their capacity to do independent research, analysis, and writing about a complex transportation management problem.

**Prerequisite(s):** Completion of 21 units towards the Master of Science in Transportation Management degree

**Grading:** Credit/No Credit

**MTM 290 - MSTM Capstone - Evaluation Report**

3 unit(s)
Provides the second part of a culminating experience in which students design and carry out an individual, comprehensive policy or program evaluation. Students complete a Policy or Program Evaluation following the proposal design they developed in MTM 283. The final report demonstrates their capacity to do independent research, analysis, and writing about a complex transportation management problem.

**Prerequisite(s):** MTM 283

**Grading:** Mandatory Credit/No Credit/RP

Overview
The School of Global Innovation and Leadership prepares students to become innovative leaders with a global perspective in one of three concentrations: Global Operations Management, Entrepreneurship and International Business. All three concentrations provide students with cutting-edge knowledge and opportunities for practice and skill development.

Undergraduate Major(s)

Business Administration, Entrepreneurship Concentration, BS

The concentration in Entrepreneurship, offered by the School of Global Innovation and Leadership, prepares students with a drive for innovation and the passion to create new businesses to be entrepreneurs or corporate innovators. Students who complete the program will gain a global perspective of entrepreneurship, an understanding of the key management principles across business functions and the need to embrace change in a rapidly evolving environment due to global competition, new technology and changing customer requirements.

• Program Learning Outcomes

Summary of Degree Units

University Graduation Requirements 38
### Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

### Major-Specific Graduation Requirements

All courses in the Concentration Requirements for Entrepreneurship must be completed with a grade of "C- or Better". The following Preparation for the Major and Required for the Major courses must be completed with a grade of "C or better": ENGL 2, MATH 71, BUS1 20, BUS2 90.

### University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

#### Core Lower Division General Education (27 units)

Of the 39 units required by the university, 12 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

**Note:** Students who have completed the ADT Transfer degree (under SB 1440) for this major will have completed all lower division GE requirements and should follow the 60 unit guarantee roadmap. Meet with an advisor prior to registering for your first semester for the 60 unit roadmap or specific questions.

#### Upper Division General Education (3 units)

Of the 9 units required by the university, 6 units may be satisfied by coursework outlined below. Consult with major advisor for details.

#### American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.
The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

**African American Studies (6 units)**
- AFAM 2A - African Americans and the Development of America’s History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America’s History and Government 3 unit(s) (D+US123)

**Asian American Studies (6 units)**
- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

**Chicana and Chicano Studies (6 units)**
- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

**U.S. History and Government (6 units)**
- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

**Physical Education (2 units)**
All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students' needs and interests, the university offers a diverse selection of activity courses.

**Graduation Writing Assessment Requirement**
At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

_A grade of C or better (C- not accepted) is required to meet graduation requirement._

**Major Preparation (15 units)**
- ECON 1A - Principles of Economics: Macroeconomics 3-4 unit(s)
- ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s) (D)
- ENGL 2 - Critical Thinking and Writing 3 unit(s) (A3) (or equivalent)
- MATH 71 - Calculus for Business and Aviation 3 unit(s) (B4) (Transfer students with MATH 30 (C or better) may use this in lieu of MATH 71.)
Written Communication (3 units)

- COMM 100W - Writing Workshop: Writing for Influence 3 unit(s) (Z)
- ENGL 100WB - Written Communication: Business 3 unit(s) (Z)
- LLD 100WB - Writing Workshop for Business Students 3 unit(s) (Z)

Major Requirements (61 units)

Core Courses (43 units)

Lower Division Courses (13 units)

- BUS1 20 - Financial Accounting 3 unit(s)
- BUS1 21 - Managerial Accounting 3 unit(s)
- BUS3 80 - Legal Environment of Business 3 unit(s)
- BUS2 90 - Business Statistics 3 unit(s) (Transfer students with STAT 95 (C or better) may use this in lieu of BUS2 90.)
- BUS4 91L - Computer Tools for Business 1 unit(s)

Upper Division Business Fundamentals Courses (15 units)

- BUS2 130 - Introduction to Marketing 3 unit(s)
- BUS5 140 - Fundamentals of Operations Management 3 unit(s)
- BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
- BUS1 170 - Fundamentals of Finance 3 unit(s)
- BUS2 190 - Quantitative Business Analysis 3 unit(s)

Upper Division Business Integration and Perspective Courses (15 units)

- BUS5 187 - Global Dimensions of Business 3 unit(s)
- BUS4 188 - Business Systems and Policy 3 unit(s)
- BUS3 189 - Strategic Management 3 unit(s)
- PHIL 186 - Professional and Business Ethics 3 unit(s) (S)
- One non-business global perspectives course in Area V 3 unit(s)

Concentration Requirements (18 units)

Additionally, to qualify for a baccalaureate degree in business administration with an entrepreneurship concentration, all courses in the concentration must be completed with a grade of "C- or Better".

Required Courses (9 units)

- BUS2 131D - Marketing in New Ventures 3 unit(s)
- BUS5 181 - Introduction to Entrepreneurship 3 unit(s)
- BUS5 182 - Business Plans for New Ventures 3 unit(s)
Concentration Electives (9 units)

Complete Two Courses From:

- BUS5 182A - Startup Founders & Funders 3 unit(s)
- BUS5 183 - Global Entrepreneurship 3 unit(s)
- BUS5 184A - Management of Innovation 3 unit(s)
- BUS5 185 - Family Business Dynamics 3 unit(s)
- BUS5 186H - Entrepreneurship Laboratory 3 unit(s) (Instructor permission only)
- BUS5 186S - Current Issues in Entrepreneurship 3 unit(s)
- BUS5 186V - Venture Lab 3 unit(s)

Additional Elective Courses

Complete one course from the following list or from electives listed above, if not already completed.

- BUS1 173C - Entrepreneurial Finance 3 unit(s)
- BUS2 131A - Business to Business Marketing 3 unit(s)
- BUS2 131B - Retail Marketing Management 3 unit(s)
- BUS2 134C - Social Media Marketing 3 unit(s)
- BUS2 136 - Product Development 3 unit(s)
- BUS3 153 - Management of Diversity 3 unit(s)
- BUS5 146 - Fundamentals of Project Management 3 unit(s)
- BUS5 162 - International and Comparative Management 3 unit(s)
- BUS5 163 - Management Issues in High Technology Companies 3 unit(s)
- BUS5 163A - Negotiating Globally 3 unit(s)
- BUS5 163B - Business and Innovation in Emerging Economies 3 unit(s)
- BUS5 165A - Global Leadership 3 unit(s)
- BUS5 167 - Managing Environmental Issues 3 unit(s)
- BUS5 169B - Honors Practicum in Organization and Management 3 unit(s)

University Electives (6 units)

Total Units Required (120 units)

Business Administration, Global Operations Management Concentration, BS

The Global Operations Management (GOM) concentration, offered by the School of Global Innovation and Leadership, prepares graduates with state-of-the-art knowledge of managing operations in a global context. The focus will be on contemporary issues related to operations function which are of relevance in a firm's ability to effectively collaborate with its supply chain partners in order to remain competitive in a global economy. The GOM concentration prepares students for careers with global manufacturing, service, and consulting organizations by offering a variety of courses in management of materials, quality, supply chains, services, global projects, and operations strategy. As part of this concentration, students have an opportunity to interact with GOM-related industry professionals as facilitated by the Global Operations Management Association, a GOM-affiliated student club at
SJSU. They can also work on real-world consulting projects or explore internships in operations as facilitated by Silicon Valley Center of Operations and Technology Management.

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

Major-Specific Graduation Requirements

All courses in the Concentration Requirements for Global Operations Management must be completed with a grade of "C- or better". The following Preparation for the Major and Required for the Major courses must be completed with a grade of "C or better": ENGL 2, MATH 71, BUS1 20, BUS2 90.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Core Lower Division General Education (27 units)

Of the 39 units required by the university, 12 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Note: Students who have completed the ADT Transfer degree (under SB 1440) for this major will have completed all lower division GE requirements and should follow the 60 unit guarantee roadmap. Meet with an advisor prior to registering for your first semester for the 60 unit roadmap or specific questions.

Upper Division General Education (3 units)

Of the 9 units required by the university, 6 units may be satisfied by coursework outlined below. Consult with major advisor for details.
American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

African American Studies (6 units)

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 unit(s) (D+US123)

Asian American Studies (6 units)

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

Chicana and Chicano Studies (6 units)

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

U.S. History and Government (6 units)

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

Physical Education (2 units)

All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students' needs and interests, the university offers a diverse selection of activity courses.

Graduation Writing Assessment Requirement

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

Major Preparation (15 units)
• ECON 1A - Principles of Economics: Macroeconomics 3-4 unit(s)
• ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s) (D)
• ENGL 2 - Critical Thinking and Writing 3 unit(s) (A3) (or equivalent.)
• MATH 71 - Calculus for Business and Aviation 3 unit(s) (B4) (Transfer students with MATH 30 (C or better) may use this in lieu of MATH 71.)

Written Communication (3 units)
• COMM 100W - Writing Workshop: Writing for Influence 3 unit(s) (Z)
• ENGL 100WB - Written Communication: Business 3 unit(s) (Z)
• LLD 100WB - Writing Workshop for Business Students 3 unit(s) (Z)

Major Requirements (64 units)

Core Courses (43 units)

Lower Division Courses (13 units)
• BUS1 20 - Financial Accounting 3 unit(s)
• BUS1 21 - Managerial Accounting 3 unit(s)
• BUS3 80 - Legal Environment of Business 3 unit(s)
• BUS2 90 - Business Statistics 3 unit(s) (Transfer students with STAT 95 (C or better) may use this in lieu of BUS2 90.)
• BUS4 91L - Computer Tools for Business 1 unit(s)

Upper Division Business Fundamentals Courses (15 units)
• BUS1 170 - Fundamentals of Finance 3 unit(s)
• BUS2 130 - Introduction to Marketing 3 unit(s)
• BUS2 190 - Quantitative Business Analysis 3 unit(s)
• BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
• BUS5 140 - Fundamentals of Operations Management 3 unit(s)

• BUS3 189 - Strategic Management 3 unit(s)
• BUS4 188 - Business Systems and Policy 3 unit(s)
• BUS5 187 - Global Dimensions of Business 3 unit(s)
• PHIL 186 - Professional and Business Ethics 3 unit(s) (S)
• One non-business global perspectives course in Area V 3 unit(s)

Concentration Requirements (21 units)

All concentration courses must be passed with a C- or better.

Required Courses (15 units)
• BUS5 142 - Total Quality Management 3 unit(s)
• BUS5 144 - Supply Chain Management 3 unit(s)
• BUS5 146 - Fundamentals of Project Management 3 unit(s)

Complete Two Courses From:

• BUS5 141 - Procurement and Supply Management 3 unit(s)
• BUS5 142B - Business Process Management 3 unit(s)
• BUS5 144B - Global Operations Analytics 3 unit(s)
• BUS5 145 - Global Operations Strategy 3 unit(s)
• BUS5 147 - Service Operations Management 3 unit(s)

Concentration Electives (6 units)

Complete two courses from the following list or from required courses listed above if not already counted:

• BUS2 131A - Business to Business Marketing 3 unit(s)
• BUS3 153 - Management of Diversity 3 unit(s)
• BUS5 141B - Transportation & Logistics Management 3 unit(s)
• BUS5 145B - Healthcare Operations Management 3 unit(s)
• BUS5 148 - Sustainable Operations Management 3 unit(s)
• BUS5 162 - International and Comparative Management 3 unit(s)
• BUS5 163A - Negotiating Globally 3 unit(s)
• BUS5 163B - Business and Innovation in Emerging Economies 3 unit(s)
• BUS5 165A - Global Leadership 3 unit(s)
• BUS5 167 - Managing Environmental Issues 3 unit(s)
• BUS5 169B - Honors Practicum in Organization and Management 3 unit(s)
• BUS5 183 - Global Entrepreneurship 3 unit(s)
• BUS5 184A - Management of Innovation 3 unit(s)

University Electives (3 units)

Total Units Required (120 units)

Business Administration, International Business Concentration, BS

The concentration in International Business (IB) is designed to prepare students for today's global business environment. IB as an interdisciplinary program builds capacity around key challenges and opportunities confronting all global businesses, including managing across borders, fostering innovation and entrepreneurship, and developing effective global strategies. In addition students may select an area of specialization, either a business functional area, an industry area, a geographic area of study, or language studies. Study abroad is required with one of three options: 1) a short-term faculty-led program; 2) a semester of study at a foreign university approved by CSU; or 3) an internship through AIESEC or other international internship program. The Director of the School of Global Innovation and Leadership can waive this requirement (e.g., international students need not study abroad). Study abroad courses that are regarded as equivalent can be substituted for IB program course requirements. This interdisciplinary approach provides a foundation for starting an international career. Graduates work in a variety of international areas and industries such as import/export, global operations, marketing, finance, hospitality and tourism, consulting, and project management, in both the private sector as well as governmental and non-governmental organizations.

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums).

Major-Specific Graduation Requirements

All courses in the Concentration Requirements for International Business must be completed with a grade of "C- or better". The following Preparation for the Major and Required for the Major courses must be completed with a grade of "C or better": ENGL 2, MATH 71, BUS1 20, BUS2 90.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Core Lower Division General Education (27 units)

Of the 39 units required by the university, 12 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Upper Division General Education (3 units)

Of the 9 units required by the university, 6 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).
Consult with a major advisor to select the appropriate sequence.

**African American Studies (6 units)**

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 unit(s) (D+US123)

**Asian American Studies (6 units)**

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

**Chicana and Chicano Studies (6 units)**

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

**U.S. History and Government (6 units)**

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

**Physical Education (2 units)**

All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students' needs and interests, the university offers a diverse selection of activity courses.

**Graduation Writing Assessment Requirement**

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

>A grade of C or better (C- not accepted) is required to meet graduation requirement.

**Major Preparation (15 units)**

- ECON 1A - Principles of Economics: Macroeconomics 3-4 unit(s)
- ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s) (D)
- ENGL 2 - Critical Thinking and Writing 3 unit(s) (A3) (Or equivalent.)
- MATH 71 - Calculus for Business and Aviation 3 unit(s) (B4) (Transfer students with MATH 30 (C or better) may use this in lieu of MATH 71.)

**Written Communication (3 units)**
Major Requirements (67 units)

Core Courses (43 units)

Lower Division Courses (13 units)

- BUS1 20 - Financial Accounting 3 unit(s)
- BUS1 21 - Managerial Accounting 3 unit(s)
- BUS3 80 - Legal Environment of Business 3 unit(s)
- BUS2 90 - Business Statistics 3 unit(s) (Transfer students with STAT 95 (C or better) may use this in lieu of BUS2 90.)
- BUS4 91L - Computer Tools for Business 1 unit(s)

Upper Division Business Fundamentals Courses (15 units)

- BUS1 170 - Fundamentals of Finance 3 unit(s)
- BUS2 130 - Introduction to Marketing 3 unit(s)
- BUS2 190 - Quantitative Business Analysis 3 unit(s)
- BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
- BUS5 140 - Fundamentals of Operations Management 3 unit(s)

Upper Division Business Integration and Perspectives Courses (15 units)

- BUS3 189 - Strategic Management 3 unit(s)
- BUS4 188 - Business Systems and Policy 3 unit(s)
- BUS5 187 - Global Dimensions of Business 3 unit(s)
- PHIL 186 - Professional and Business Ethics 3 unit(s) (S)
- One non-business global perspectives course in Area V 3 unit(s)

Concentration Requirements (24 units)

Additional requirements for graduation: to qualify for a baccalaureate degree in business administration with an international business concentration all courses in the concentration must be completed with a grade of "C-" or better.

Required Courses (12 units)

- BUS5 162 - International and Comparative Management 3 unit(s)
- BUS5 162A - International Business Strategy 3 unit(s)
- BUS5 183 - Global Entrepreneurship 3 unit(s)

Complete One Course From:
Concentration Electives (12 units)

Select 12 units of concentration electives or an area of specialization

Do not take course if taken as part of required courses

- BUS5 163A - Negotiating Globally 3 unit(s)
- BUS5 163B - Business and Innovation in Emerging Economies 3 unit(s)
- BUS5 164 - Doing Business Globally 1-4 unit(s)
- BUS5 164A - Doing Business in Japan 3 unit(s)
- BUS5 164B - Doing Business in India 3 unit(s)
- BUS5 164C - Doing Business in China 3 unit(s)
- BUS1 177 - International Business Finance 3 unit(s)
- BUS2 133A - International Marketing 3 unit(s)
- BUS3 156 - International Issues in Human Resource Management 3 unit(s)
- BUS3 169A - Honors Seminar 3 unit(s)
- BUS5 146 - Fundamentals of Project Management 3 unit(s)
- BUS5 163A - Negotiating Globally 3 unit(s)
- BUS5 163B - Business and Innovation in Emerging Economies 3 unit(s)
- BUS5 164 - Doing Business Globally 1-4 unit(s)
- BUS5 164A - Doing Business in Japan 3 unit(s)
- BUS5 164B - Doing Business in India 3 unit(s)
- BUS5 164C - Doing Business in China 3 unit(s)
- BUS5 169B - Honors Practicum in Organization and Management 3 unit(s)
- BUS5 186H - Entrepreneurship Laboratory 3 unit(s)
- BUS5 197 - Special Topics in International Business 3 unit(s)

Area of Specialization

Students can choose a set of 12 units of concentration electives or an Area of Specialization from Business Functional Areas, Industry Areas, Area Studies, or Language Studies. In order to complete the Area of Specialization, a student requires a minimum of 9 units, however, one needs to complete a total of 12 units to fulfill the International Business concentration requirements. Hence, the additional 3 units may be taken from the same area of specialization thus making it 12 units. Alternatively, students can choose 3 units from the list of concentration electives as indicated in the course catalog. Consult a business advisor in BBC008 for details on the Areas of Specialization.

Total Units Required (120 units)

BUS5 16 - Introduction to Leadership & Innovation

3 unit(s)
This interdisciplinary course covers basic theories of leadership and innovation and investigates key topics that influence contemporary social leadership issues. Students assess their leadership styles to create personal development plans leading toward positive, innovative impacts on society.

Grading: Letter Graded
BUS5 40 - Developing Your Entrepreneurial Potential

3 unit(s)
This course introduces foundational concepts in innovation and entrepreneurship. It provides insights into the characteristics and motivations of entrepreneurs, and the factors that foster an entrepreneurial mind-set and enable individuals to translate positive attitudes toward entrepreneurship into actual behavior.

Grading: Letter Graded

BUS5 92 - International Program Studies

1-14 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

BUS5 140 - Fundamentals of Operations Management

3 unit(s)
Familiarizes students with processes that transform inputs into finished goods and services; helps students understand the importance of operations management and how it interacts with other parts of the organization; develops skills in applying appropriate analytical tools to business operations challenges.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

BUS5 141 - Procurement and Supply Management

3 unit(s)
Comprehensive survey of forecasting, inventory management (including just-in-time), purchasing, supplier relations, warehousing (tiered, centralized, decentralized) and distribution methods. Make-or-buy analysis and specification/standardization techniques.

Prerequisite(s): Upper Division Standing or instructor consent.
Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

BUS5 141B - Transportation & Logistics Management

3 unit(s)
Coverage of the fundamentals of transportation management combined with a focus on its role in global supply management. The challenge of managing the various modes of transportation is combined with strategies for their use in the supply chain environment.
Prerequisite(s): Upper division standing or instructor consent
Grading: Letter Graded

BUS5 142 - Total Quality Management

3 unit(s)
Holistic approach to managing quality: interaction of production design, work design and the manufacturing process. International view and roles qualitative and quantitative techniques play in successful quality management programs.

Prerequisite(s): Upper Division Standing or instructor consent.
Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

BUS5 142B - Business Process Management

3 unit(s)
Includes concepts and methods to optimize business processes relevant for creating value for the customers and adding value to an organization. Provides capability of designing and managing business processes and the interfaces between Operations Management and other business functions.

Prerequisite(s): Upper Division Standing or instructor consent
Grading: Letter Graded

BUS5 144 - Supply Chain Management

3 unit(s)
Addresses concepts/tools for effective and efficient management of supply chains. Topics include materials planning/control, sourcing strategy, strategic alliances, information technology role, quality/customer issues, inventory management, and distribution/logistics management.

Prerequisite(s): Upper division standing or instructor consent
Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

BUS5 144B - Global Operations Analytics

3 unit(s)
Builds analytic thinking for improving global operations management (GOM). Introduces analytical methods, tools, and software to analyze GOM problems and then derive managerial implications and decisions in global business operations perspectives.

Prerequisite(s): Upper Division Standing or Instructor Consent
Grading: Letter Graded

BUS5 145 - Global Operations Strategy

3 unit(s)
Studies operations management issues unique to manufacturers with extensive international operations. Educational objectives are to develop an understanding of: the strategic tradeoffs associated with global operations, total supply
chain management and the economics of transnational logistics.

**Prerequisite(s):** Upper Division Standing or instructor consent.
**Grading:** Letter Graded

*Sustainability Related - SDG 12: Responsible Consumption and Production*

**BUS5 145B - Healthcare Operations Management**

3 unit(s)  
Operations Management (OM) approaches across a broad range of healthcare settings: clinical, management, and support processes in the medical and public healthcare systems. Apply OM tools including flowcharting, process analysis, queuing, forecasting, six-sigma, health worker scheduling.

**Prerequisite(s):** Upper Division Standing or instructor consent  
**Grading:** Letter Graded

**BUS5 146 - Fundamentals of Project Management**

3 unit(s)  
Fundamentals of managing projects, basic concepts and techniques underlying project management, and application using the appropriate software.

**Prerequisite(s):** Upper division standing or instructor consent  
**Grading:** Letter Graded

**BUS5 147 - Service Operations Management**

3 unit(s)  
Develops skills in setting formal standards for product attributes and operating procedures that comprise service experience. Categories of services; indirect and direct consumption. Psychological/social characteristics of the consumer/server encounters, enhancing ability to monitor service quality. Total quality management.

**Prerequisite(s):** Upper Division Standing or instructor consent. Business Minor.  
**Grading:** Letter Graded

**BUS5 148 - Sustainable Operations Management**

3 unit(s)  
Introduces a holistic view of the interaction between operations activities and the environment. Builds awareness of major environmental problems and issues in the operations function of business, and learns environmental assessment and management tools for operations management.

**Prerequisite(s):** Upper division standing or instructor consent  
**Grading:** Letter Graded

*Sustainability Focused - SDG 12: Responsible Consumption and Production*

**BUS5 162 - International and Comparative Management**
3 unit(s)
Management functions and practices in an international context; comparison of management and business practices from various political and cultural perspectives; emphasis on what managers need to be aware of in order to perform in the international environment.

Prerequisite(s): Any 100w, BUS 187 or instructor consent. Upper division standing.
Grading: Letter Graded

BUS5 162A - International Business Strategy

3 unit(s)
Course focuses on the strategic challenges and the strategic management of firms that operate and compete in a global environment. Course provides an overarching experience in international business by integrating knowledge and previous international business learning.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB, BUS 187, or instructor consent. 
Grading: Letter Graded

BUS5 163 - Management Issues in High Technology Companies

3 unit(s)
Provides an overview of a wide variety of key managerial concerns, industry knowledge and management techniques that are especially relevant in high technology companies. Such organizations compete within an environment characterized by rapid technological change and a high degree of uncertainty.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

BUS5 163A - Negotiating Globally

3 unit(s)
Introduces a theoretical framework and skill-building exercises for negotiating agreements, resolving disputes, and making decisions across cultures. Builds awareness of the global negotiating environment including cultural and institutional factors. Applicable to commercial transactions, employee relations, contract disputes, and international diplomacy.

Prerequisite(s): Upper division standing or instructor consent
Grading: Letter Graded

BUS5 163B - Business and Innovation in Emerging Economies

3 unit(s)
Management functions and practices in an international context; comparison of management and business practices from various political and cultural perspectives; emphasis on what managers need to be aware of in order to perform in the international environment.

Prerequisite(s): Upper division standing and 100W, or instructor consent.
Grading: Letter Graded

Sustainability Related - SDG 8: Decent Work and Economic Growth
BUS5 164 - Doing Business Globally

1-4 unit(s)
Comprehensive study of the business and management practices of a featured country or region. Includes historical, institutional, sociopolitical and cultural context. May be offered as a faculty-led program abroad or include a virtual study or internship component.

*May be repeated for credit with a different featured country or region. Course may be repeated for up to 6 units.*

**Prerequisite(s):** Upper division standing and 100W, or instructor consent.
**Grading:** Letter Graded

BUS5 164A - Doing Business in Japan

3 unit(s)
Comprehensive study of the management and business practices in Japan. Includes the historical, institutional, sociopolitical, and cultural contexts that are relevant to conducting business in Japan and working effectively with Japanese business partners.

**Prerequisite(s):** Upper division standing or instructor consent.
**Grading:** Letter Graded

BUS5 164B - Doing Business in India

3 unit(s)
Comprehensive study of the business and management practices in India. Includes historical, institutional, sociopolitical, industrial and cultural context, along with economic and industrial organizational dynamics.

**Prerequisite(s):** Upper division standing or instructor consent.
**Grading:** Letter Graded

BUS5 164C - Doing Business in China

3 unit(s)
Comprehensive study of the business and management practices in China. Includes historical, institutional, sociopolitical, industrial and cultural context, along with economic and industrial organizational dynamics.

**Prerequisite(s):** Upper division standing or instructor consent.
**Grading:** Letter Grade

BUS5 165A - Global Leadership

3 unit(s)
This course introduces students to global leadership and its development and is designed for students who want to work effectively with people in diverse settings. Taught experientially, the course involves simulations, innovation projects, and extensive individual feedback.

**Prerequisite(s):** Any 100W.
**Grading:** Letter Graded
BUS5 165B - Leadership & Innovation Practicum

3 unit(s)
This is a project-based practicum course for students interested in global leadership and innovation. Course topics include project management of multicultural teams, innovation, and change management. Students apply theory and skills gained in previous courses as they implement personal leadership projects.

Prerequisite(s): Any 100W; BUS5 16; BUS5 165A; or instructor consent.
Grading: Letter Graded

BUS5 167 - Managing Environmental Issues

3 unit(s)
The management of environmental issues, including the relationship of business to the natural environment; the public policy context of management decision-making; and the greening of the corporation and implications for strategic management, operations, human resources, marketing and accounting.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

Cross-listed with ENVS 167. Global Innovation & Leadership is responsible for scheduling.
Sustainability Focused - SDG 9: Industry, Innovation and Infrastructure

BUS5 169B - Honors Practicum in Organization and Management

3 unit(s)
Second part of a two-semester honors program sequence. Student teams will work on a project sponsored by a company or other organization, under the supervision of the sponsor and the instructor. Teams will present their final report to the sponsor.

Prerequisite(s): BUS3 160 or BUS3 161A and permission of the instructor.
Grading: Letter Graded

BUS5 180D - Individual Study

1-3 unit(s)
Individual work on special topics by arrangement. Petition and plan of study must have consent of instructor and Chairperson.

Course may be repeated for credit for up to 3 units.

Grading: Credit/No Credit

BUS5 181 - Introduction to Entrepreneurship

3 unit(s)
Insight into the characteristics of entrepreneurs, the approaches they use to create, identify and evaluate opportunities for new ventures and the skills that are needed to start and manage new ventures and develop a preliminary business plan.
Prerequisite(s): Upper division standing
Grading: Letter Graded

BUS5 182 - Business Plans for New Ventures

3 unit(s)
An integrative course involving teamwork to prepare complete plans for starting a new business. This will require analyzing the industry and potential market, the competitive advantage of the business proposition, human and financial resource requirements and the founders' skills.

Prerequisite(s): BUS 181 or instructor consent. Upper division standing.
Grading: Letter Graded

BUS5 182A - Startup Founders & Funders

3 unit(s)
Exploration of the early decisions that have important long-term consequences for founders and funders. Examines the motivations, mechanics and resources available for those interested in investing in early stage ventures as an angel investor or venture capitalist.

Grading: Letter Graded

BUS5 183 - Global Entrepreneurship

3 unit(s)
Will explore the opportunities that entrepreneurs create, encounter and change in the global and cross-cultural arena. It will examine how entrepreneurs adapt to and succeed in a global economy and how institutional networks facilitate global and immigrant entrepreneurship.

Prerequisite(s): Upper Division or instructor consent
Grading: Letter Graded

Sustainability Related - SDG 10: Reduced Inequalities

BUS5 184A - Management of Innovation

3 unit(s)
Discusses types of innovation and their impact. Analyzes industry practices in management of innovation for corporate growth and renewal through new products, processes, organization, and business models. Examines strategic and tactical aspects of the innovation process and alignment of innovation efforts with strategy.

Prerequisite(s): Upper division standing or instructor consent
Grading: Letter Graded

BUS5 185 - Family Business Dynamics

3 unit(s)
This course explores and analyzes the unique issues and challenges of family businesses in terms of the dynamic relationship between the family and business and its impact on decision-making and performance of the business.
Prerequisite(s): BUS5 181 or instructor consent.
Grading: Letter Graded

BUS5 186H - Entrepreneurship Laboratory

3 unit(s)
Explores all facets of growing an entrepreneurial organization, including building the team, sales, marketing, operations, and finance. Opportunity to learn with practical internship and roundtables with entrepreneurs, venture capitalists and others in the new venture ecosystem.

Prerequisite(s): Instructor's consent.
Grading: Letter Graded

BUS5 186S - Current Issues in Entrepreneurship

3 unit(s)
A presentation of topics of current interest to entrepreneurs and intrapreneurs. Focuses on one or more special topics of concern to current practice, such as green entrepreneurship, social entrepreneurship, or managing high-growth ventures.

Prerequisite(s): BUS3 181 or instructor consent.
Grading: Letter Graded

BUS5 186V - Venture Lab

3 unit(s)
VLAB is an experiential course in which students work on the process of developing and testing the idea(s) for a new venture. The course combines theory with hands-on entrepreneurship. Students will test each aspect of the business model outside the class, and share the insights with their peers in class. By the end of the course, they will have completed a prototype and be able to demonstrate the business opportunity.

Prerequisite(s): Upper Division Standing or Instructor Consent
Grading: Letter Graded

BUS5 187 - Global Dimensions of Business

3 unit(s)
An integrative interdisciplinary course that provides an overview of economic, social, cultural, political and legal factors and institutional forces influencing cross-border business; introduces the global dimensions of business functions; develops the ability to identify and manage the unique opportunities and challenges presented in global business.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

BUS5 192 - International Program Studies

1-14 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study
abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

**BUS5 194 - Business Organization and Management of Technology Enterprise**

3 unit(s)
This course provides a "top down" overview of how commercial business works, including the business components: Corporate Environments, Human Resources, Legal, Marketing, Customer Insights, Management/Leadership. Communication and business soft skills will be covered providing a foundation for a solid business acumen. All class sessions focus on local and global perspectives.

Prerequisite(s): BUS 193 or ENGR 193.
Grading: Letter Graded

Cross-listed with ENGR 194. General Engineering is responsible for scheduling.

**BUS5 196E - Startup Founders and Funders**

3 unit(s)
Covers the early decisions that have important long-term consequences for founders and funders. It also examines the motivations, mechanics and resources available for those interested in investing in early stage ventures as an angel investor or venture capitalist.

Prerequisite(s): BUS 181 or Instructor Permission
Grading: Letter Graded

**BUS5 196F - Critical Thinking in Business**

3 unit(s)
Development of critical thinking skills in business through analysis of current news stories, business case studies, and videos to assess credibility of sources, biases, assumptions, and inferences, and generate alternative hypotheses based on logic and facts. Analysis of a current social issue including its sources, associated biases, related assumptions, current attempts at the solving the issue, and generation of solutions based on logic and facts.

Prerequisite(s): COMM 100W, ENGL 100W or LLD 100W
Grading: Letter Graded

**BUS5 197 - Special Topics in International Business**

3 unit(s)
This course features special topics in International Business. The course can be taken for credit on campus or in a study abroad or short-term faculty-led program. It may be repeated for credit in the case of different special topics.

Prerequisite(s): Upper Division Standing or Instructor Consent
Grading: Letter Graded

**School of Information Systems and Technology**
Overview

The School of Information Systems and Technology is home to the Management Information Systems (MIS) concentration within the Business major. The School is distinguished by a team of award-winning instructors spanning both academic and industry perspectives and a curriculum reflecting the best practice recommendations of the Association of Information Systems as well as the local business environment in Silicon Valley. The MIS program prepares students to excel professionally and contribute meaningfully to the knowledge/information economy of the 21st century.

Undergraduate Major(s)

Business Administration, Management Information Systems Concentration, BS

The Concentration in Management Information Systems, offered by the School of Information Systems and Technology, merges information technology and business. Students gain practical knowledge and skills in applying technology to address business challenges and take advantage of business opportunities. Graduates of the MIS concentration are in high demand and go on to successful careers in businesses of all kinds and sizes, across all industries, as well as non-profits and public sector organizations.

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

Major-Specific Graduation Requirements

All courses in the Concentration Requirements for Management Information Systems must be completed with a grade of "C or better". The following Preparation for the Major and Required for the Major courses must be completed with a grade of "C or better": ENGL 2, MATH 71, BUS1 20, BUS2 90.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Core Lower Division General Education (27 units)

Of the 39 units required by the university, 12 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Upper Division General Education (3 units)

Of the 9 units required by the university, 6 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

African American Studies (6 units)

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
• AFAM 2B - African Americans and the Development of America’s History and Government 3 unit(s)  
   (D+US123)

Asian American Studies (6 units)

• AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
• AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

Chicana and Chicano Studies (6 units)

• CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
• CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

U.S. History and Government (6 units)

• HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
• POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

Physical Education (2 units)

All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students’ needs and interests, the university offers a diverse selection of activity courses.

Graduation Writing Assessment Requirement

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

Major Preparation (15 units)

• ECON 1A - Principles of Economics: Macroeconomics 3-4 unit(s)
• ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s) (D)
• ENGL 2 - Critical Thinking and Writing 3 unit(s) (A3) (or equivalent.)
• MATH 71 - Calculus for Business and Aviation 3 unit(s) (B4) (Transfer students with MATH 30 (C or better) may use this in lieu of MATH 71.)

Written Communication (3 units)

• COMM 100W - Writing Workshop: Writing for Influence 3 unit(s) (Z)
• ENGL 100WB - Written Communication: Business 3 unit(s) (Z)
• LLD 100WB - Writing Workshop for Business Students 3 unit(s) (Z)

Major Requirements (67 units)
Core Courses (40 units)

Lower Division Courses (13 units)

- BUS1 20 - Financial Accounting 3 unit(s)
- BUS1 21 - Managerial Accounting 3 unit(s)
- BUS3 80 - Legal Environment of Business 3 unit(s)
- BUS2 90 - Business Statistics 3 unit(s) (Transfer students with STAT 95 (C or better) may use this in lieu of BUS2 90.)
- BUS4 91L - Computer Tools for Business 1 unit(s)

Upper Division Business Fundamentals Courses (15 units)

- BUS2 130 - Introduction to Marketing 3 unit(s)
- BUS5 140 - Fundamentals of Operations Management 3 unit(s)
- BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
- BUS1 170 - Fundamentals of Finance 3 unit(s)
- BUS2 190 - Quantitative Business Analysis 3 unit(s)

Upper Division Business Integration and Perspectives Courses (12 units)

- BUS5 187 - Global Dimensions of Business 3 unit(s)
- BUS3 189 - Strategic Management 3 unit(s)
- PHIL 186 - Professional and Business Ethics 3 unit(s) (S)
- One non-business global perspectives course in Area V 3 unit(s)

Concentration Requirements (27 units)

Additional requirements for graduation: to qualify for a baccalaureate degree in business administration with a management information systems concentration, all courses in the concentration must be completed with a grade of "C" (2.0) or better.

Required Courses (21 units)

- BUS4 92 - Introduction to Business Programming 3 unit(s)
- BUS4 110A - Fundamentals of Management Information Systems 3 unit(s)
- BUS4 110B - Systems Analysis and Design 3 unit(s)
- BUS4 111 - Networking and Data Communications 3 unit(s)
- BUS4 112 - Database Management Systems 3 unit(s)
- BUS4 119B - Business Strategy and Information Systems 3 unit(s)

Complete One Course From:

- BUS4 119A - Practicum in MIS 3 unit(s)
- BUS4 119H - Honors Practicum in MIS II 3 unit(s)
Additional Courses (6 units)

Complete two courses from:

- BUS4 115 - Advanced Networking and Data Communications 3 units
- BUS4 116 - Advanced Database Management Systems 3 units
- BUS4 118C - Information Security and Assurance Management 3 units
- BUS4 118D - Big Data 3 units
- BUS4 118H - Honors Practicum in MIS I 3 units
- BUS4 118S - Special Topics in MIS 3 units
- BUS4 118W - Web Based Computing 3 units

Total Units Required (120 units)

BUS4 91A - Advanced Computer Tools for Business

1 unit
Students learn advanced spreadsheet and presentation software skills through individual lessons and through application in team case projects.

Prerequisite(s): Basic Excel and PowerPoint skill proficiency
Grading: Credit/No Credit

BUS4 91L - Computer Tools for Business

1 unit
Fundamentals of spreadsheet software through in-class exercises and individual assignments. Team projects to improve students' collaboration and communication skills, using online tools to produce slide and video presentations.

Grading: Credit/No Credit

BUS4 92 - Introduction to Business Programming

3 units
Analysis of business problems to design and implement the software component of an information system. Emphasis on structured design and programming.

Grading: Letter Graded

BUS4 92I - International Program Studies

1-12 units
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading
BUS4 110A - Fundamentals of Management Information Systems

3 unit(s)
Prepares students for upper division MIS courses by providing an overview of the strategic and managerial issues involved in the design, implementation, and maintenance of information systems. Includes an introduction to business application programming.

Prerequisite(s): BUS 92, upper division standing.
Grading: Letter Graded

BUS4 110B - Systems Analysis and Design

3 unit(s)
Introduction to systems development methodologies, techniques and tools. Emphasis on enterprise, process, data and object modeling techniques. Students use UML and prototyping tools to analyze and design an information system.

Corequisite(s): BUS4 92.
Grading: Letter Graded

BUS4 111 - Networking and Data Communications

3 unit(s)
Emphasis on the concepts, architectures, components, protocols and standards for message movement within information networks. Uses the network design process to develop understanding of business and information technology perspectives.

Prerequisite(s): Upper Division Standing
Grading: Letter Graded

BUS4 112 - Database Management Systems

3 unit(s)
Introduction to intermediate database management concepts, methods, and technologies, stressing the design and development of relational databases and data analysis. Emphasis on data modeling, data integrity, and SQL. Non-relational data and information management technologies are also introduced.

Prerequisite(s): BUS4 92 with a grade of C or better
Grading: Letter Graded

BUS4 115 - Advanced Networking and Data Communications

3 unit(s)
Integration of telecommunications and database management systems concepts in a distributed information systems environment. Emphasis on information systems architectures, systems integration, open systems and other advanced topics.

Prerequisite(s): BUS4 111
Grading: Letter Graded
BUS4 116 - Advanced Database Management Systems

3 unit(s)
Advanced topics in relational data management and analysis including advanced SQL, PL/SQL, and database functions, procedures, and triggers; dimensional modeling, data warehousing, and data visualization; non-relational (NoSQL, big data) databases and data analysis.

Prerequisite(s): BUS4 112
Grading: Letter Graded

BUS4 118B - Business Intelligence

3 unit(s)
Applied business analytics for enterprise performance management and decision support. Perform descriptive and predictive analysis using statistical, computing, data mining, and data visualization techniques to address business issues. Emphasis on hands-on work and business use cases.

Prerequisite(s): BUS4 112.
Grading: Letter Graded

BUS4 118C - Information Security and Assurance Management

3 unit(s)
Introduces the spectrum of threats and associated best practices for managing information security and assurance in organizations. Covers use of education/training, policy/procedure and technology to balance information confidentiality, integrity and accessibility requirements against associated costs to support organizations' strategic goals.

Corequisite(s): BUS4 111.
Grading: Letter Graded

Note(s): Offered only occasionally.

BUS4 118D - Big Data

3 unit(s)
How to formulate business questions and use current Big Data analytics technologies through hands on assignments to wrangle, query, and graph relationships using a large unstructured dataset. Issues relating to developing the business proposition, Big Data strategies, and ethical considerations.

Prerequisite(s): BUS4 112
Corequisite(s): BUS4 110A
Grading: Letter Graded

BUS4 118H - Honors Practicum in MIS I

3 unit(s)
Honors student teams formulate, develop and initiate implementation of an MIS project for an organization in our community. Requirements include using industry-standard project management tools and methods, interacting with project stakeholders in a professional manner, and applying appropriate technical skills/processes to the project.
Prerequisite(s): BUS4 110A, BUS4 110B, 100W, admission to MIS Honors Program
Corequisite(s): BUS4 112
Grading: Letter Graded

BUS4 118I - Digital Innovation

3 unit(s)
Leverages multidisciplinary knowledge - design thinking, cutting-edge information technologies, social innovation - to address important social problems. Use of design thinking, including identifying problems through user interviews, creating prototypes using emerging technologies, and validating the solutions through user research. Hands-on experience with emerging technologies, such as AI and IoT.

Prerequisite(s): BUS4 110A.
Grading: Letter Graded

BUS4 118S - Special Topics in MIS

3 unit(s)
Special topics to augment regularly scheduled electives. Course is repeatable for credit, maximum 9 units.

Course is repeatable for up to 9 units.

Prerequisite(s): BUS4 111; BUS4 112; and COMM 100W or ENGL 100WB or LLD 100WB.
Grading: Letter Graded

BUS4 118W - Web Based Computing

3 unit(s)
Explores Web applications for personal, E-Commerce and corporate computing. Covers essentials of WWW protocols. Students will learn to design and program both client and server-side applications using HTML and extensions, JavaScript, Perl, VBScript, Active Server Pages, database connections, XML, Java.

Prerequisite(s): Grade of “C” or better in BUS4 110A and BUS4 112.
Grading: Letter Graded

BUS4 119A - Practicum in MIS

3 unit(s)
Students, working in teams, complete an MIS project for a community organization. Requirements include using industry-standard project management tools and methods, interacting with project stakeholders in a professional manner, and applying appropriate technical skills and processes to the project.

Prerequisite(s): Any 100W or equivalent; BUS4 110A, BUS4 110B, BUS4 111 and BUS4 112
Grading: Letter Graded

BUS4 119B - Business Strategy and Information Systems

3 unit(s)
Analysis of the effective use of information systems and technology for competitive advantage by a business organization for enterprise, business-to-business, and e-Commerce computing. Emphasis on integration of information systems and technology with business strategy, financial justification, personnel and organizational
considerations. Intended for last semester before graduation.

Prerequisite(s): Any 100W or equivalent, BUS4 110A, BUS4 110B, BUS4 111, BUS4 112
Grading: Letter Graded

BUS4 119H - Honors Practicum in MIS II

3 unit(s)
Honors student teams develop and complete implementation of an MIS project for an organization in the community initiated in 118H. Requirements include using industry-standard project management tools and methods, interacting with project stakeholders in a professional manner, and applying appropriate technical skills/processes to the project.

Prerequisite(s): BUS4 118H
Grading: Letter Graded

BUS4 180I - Ind Studies MIS

1-4 unit(s)
Prerequisite(s): Not available to Open University Students.
Grading: Credit/No Credit

BUS4 188 - Business Systems and Policy

3 unit(s)
Provides system perspective on organizations, using information as an integrating vehicle. Examines how information systems can serve business functions and integrate value chain activities.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB.
Pre/Corequisite(s): Fundamental courses.
Grading: Letter Graded

Sustainability Related

BUS4 192 - International Program Studies

1-6 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

School of Management

Office: Business Tower 650
Telephone: 408-924-3550
Email: schoolofmanagement@sjsu.edu
Overview

The School of Management offers two concentrations - Management and Human Resource Management. The Management concentration provides students with opportunities to develop technical, interpersonal, communication, and decision-making skills to effectively carry out management functions. Graduating with this concentration leads to occupations such as project managers, consultants, and entry level managers. The Human Resource Management concentration focuses on how to maximize the efforts and productivity of employees within organizations. This concentration provides students the opportunity to acquire HR entry-level positions such as HR generalists, recruiters, and compensation analysts.

Undergraduate Major(s)

Business Administration, Human Resource Management Concentration, BS

The program offered by the School of Management provides the academic foundation for careers concerned with activities related to creating and sustaining the competitive advantage of organizations through the effective management of human capital. This area of study is concerned with both the strategic and current day-to-day activities in areas such as performance management, human resource planning and information systems, recruitment and staffing, training and employee development, compensation and benefits and union-management relations in an environment that changes rapidly due to competition, globalization, diversity, technology and laws. The program qualifies graduates for positions in private sector, non-profit and public sector organizations.

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

Major-Specific Graduation Requirements

All courses in the Concentration Requirements for Human Resource Management must be completed with a grade of "C- or better". The following Preparation for the Major and Required for the Major courses must be completed with a grade of "C or better": ENGL 2, MATH 71, BUS1 20, BUS2 90.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Core Lower Division General Education (27 units)

Of the 39 units required by the university, 12 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Note: Students who have completed the ADT Transfer degree (under SB 1440) for this major will have completed all lower division GE requirements and should follow the 60 unit guarantee roadmap. Meet with an advisor prior to registering for your first semester for the 60 unit roadmap or specific questions.

Upper Division General Education (3 units)

Of the 9 units required by the university, 6 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.
The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

**African American Studies (6 units)**

- **AFAM 2A** - African Americans and the Development of America’s History and Government 3 unit(s) (D)
- **AFAM 2B** - African Americans and the Development of America’s History and Government 3 unit(s) (D+US123)

**Asian American Studies (6 units)**

- **AAS 33A** - Asian Americans in U.S. History I 3 unit(s) (D)
- **AAS 33B** - Asian Americans in U.S. History II 3 unit(s) (D+US123)

**Chicana and Chicano Studies (6 units)**

- **CCS 10A** - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- **CCS 10B** - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

**U.S. History and Government (6 units)**

- **HIST 15** - Essentials of U.S. History 3 unit(s) (D+US1)
- **POLS 15** - Essentials of U.S. & California Government 3 unit(s) (D+US23)

**Physical Education (2 units)**

All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students’ needs and interests, the university offers a diverse selection of activity courses.

**Graduation Writing Assessment Requirement**

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

*A grade of C or better (C- not accepted) is required to meet graduation requirement.*

**Major Preparation (15 units)**

- **ECON 1A** - Principles of Economics: Macroeconomics 3-4 unit(s)
- **ECON 1B** - Principles of Economics: Microeconomics 3-4 unit(s) (D)
- **ENGL 2** - Critical Thinking and Writing 3 unit(s) (A3) (or equivalent)
- **MATH 71** - Calculus for Business and Aviation 3 unit(s) (B4) *(Transfer students with MATH 30 (C or better) may use this in lieu of MATH 71.)*
Written Communication (3 units)

- ENGL 100WB - Written Communication: Business 3 unit(s) (Z)
- COMM 100W - Writing Workshop: Writing for Influence 3 unit(s) (Z)
- LLD 100WB - Writing Workshop for Business Students 3 unit(s) (Z)

Major Requirements (61 units)

Core Courses (43 units)

Lower Division Courses (13 units)

- BUS1 20 - Financial Accounting 3 unit(s)
- BUS1 21 - Managerial Accounting 3 unit(s)
- BUS3 80 - Legal Environment of Business 3 unit(s)
- BUS2 90 - Business Statistics 3 unit(s) (Transfer students with STAT 95 (C or better) may use this in lieu of BUS2 90.)
- BUS4 91L - Computer Tools for Business 1 unit(s)

Upper Division Business Fundamentals Courses (15 units)

- BUS2 130 - Introduction to Marketing 3 unit(s)
- BUS5 140 - Fundamentals of Operations Management 3 unit(s)
- BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
- BUS1 170 - Fundamentals of Finance 3 unit(s)
- BUS2 190 - Quantitative Business Analysis 3 unit(s)

Upper Division Business Integration and Perspectives Courses (15 units)

- BUS5 187 - Global Dimensions of Business 3 unit(s)
- BUS4 188 - Business Systems and Policy 3 unit(s)
- BUS3 189 - Strategic Management 3 unit(s)
- PHIL 186 - Professional and Business Ethics 3 unit(s) (S)
- One non-business global perspectives course in Area V 3 unit(s)

Concentration Requirements (18 units)

Additionally, to qualify for a baccalaureate degree in business administration with a Human Resource Management concentration, all courses in the concentration must be completed with a grade of "C- or Better".

Required Courses (15 units)

- BUS3 150 - Fundamentals of Human Resource Management 3 unit(s)
- BUS3 154 - Workforce Planning, Staffing and Training 3 unit(s)
- BUS3 157 - Legal Issues in Human Resource Management 3 unit(s)
- BUS3 158 - Compensation and Reward Systems 3 unit(s)
- BUS3 159 - Senior Seminar in Human Resource Management 3 unit(s)

**Additional Courses (3 units)**

Complete one course from:
- BUS3 151 - Labor Relations 3 unit(s)
- BUS3 152 - Human Resources Analytics 3 unit(s)
- BUS3 153 - Management of Diversity 3 unit(s)
- BUS3 155 - Performance Management and Development 3 unit(s)
- BUS3 155B - Special Topics in Human Resource Management 3 unit(s)
- BUS3 156 - International Issues in Human Resource Management 3 unit(s)

**University Electives (6 units)**

**Total Units Required (120 units)**

**Business Administration, Management Concentration, BS**

The Management Program, offered by the School of Management, prepares graduates for successful and innovative careers. We emphasize fundamental principles underlying high-performance in diverse organizations at the team, company, and industry levels. We teach analytical tools, decision-making processes, and best practices for leading and managing workplaces that are legally compliant, ethical, and financially sustainable. Attention is focused on evidence-based management, competitive strategy, behavioral science, and stakeholder management.

- LLD 100WB - Writing Workshop for Business Students 3 unit(s) (Z)

Major Requirements (67 units)

Core Courses (43 units)

Lower Division Courses (13 units)

- BUS1 20 - Financial Accounting 3 unit(s)
- BUS1 21 - Managerial Accounting 3 unit(s)
- BUS3 80 - Legal Environment of Business 3 unit(s)
- BUS2 90 - Business Statistics 3 unit(s) (Transfer students with STAT 95 (C or better) may use this in lieu of BUS2 90.)
- BUS4 91L - Computer Tools for Business 1 unit(s)

Upper Division Business Fundamentals Courses (15 units)
• BUS1 170 - Fundamentals of Finance 3 unit(s)
• BUS2 130 - Introduction to Marketing 3 unit(s)
• BUS2 190 - Quantitative Business Analysis 3 unit(s)
• BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
• BUS5 140 - Fundamentals of Operations Management 3 unit(s)

***Upper Division Business Integration and Perspectives Courses (15 units)***

• BUS5 187 - Global Dimensions of Business 3 unit(s)
• BUS4 188 - Business Systems and Policy 3 unit(s)
• BUS3 189 - Strategic Management 3 unit(s)
• PHIL 186 - Professional and Business Ethics 3 unit(s) (S)
• One non-business global perspectives course in Area V 3 unit(s)

***Concentration Requirements (18 units)***

Additionally, to qualify for a baccalaureate degree in business administration with a Management concentration, all courses in the concentration must be completed with a grade of "C- or Better".

***Required Courses (9 units)***

• BUS3 161A - Applied Organizational Behavior 3 unit(s)
• BUS3 161B - Organization Theory 3 unit(s)
• BUS3 166 - Business, Government, & Society 3 unit(s)

***Additional Courses (9 units)***

**Complete One Course From:**

• BUS3 150 - Fundamentals of Human Resource Management 3 unit(s)
• BUS5 146 - Fundamentals of Project Management 3 unit(s)

**Complete Two Courses From:**

• BUS2 191 - Decision Making Under Uncertainty 3 unit(s)
• BUS2 195A - Spreadsheet Modeling 3 unit(s)
• BUS2 195B - Data Visualization 3 unit(s)
• BUS3 149 - Negotiation and Conflict Resolution 3 unit(s)
• BUS3 152 - Human Resources Analytics 3 unit(s)
• BUS3 153 - Management of Diversity 3 unit(s)
• BUS3 154 - Workforce Planning, Staffing and Training 3 unit(s)
• BUS3 155 - Performance Management and Development 3 unit(s)
• BUS3 169A - Honors Seminar 3 unit(s)
• BUS5 141 - Procurement and Supply Management 3 unit(s)
• BUS5 142 - Total Quality Management 3 unit(s)
• BUS5 148 - Sustainable Operations Management 3 unit(s)
• BUS5 144 - Supply Chain Management 3 unit(s)
• BUS5 145 - Global Operations Strategy 3 unit(s)
• BUS5 147 - Service Operations Management 3 unit(s)
• BUS5 162 - International and Comparative Management 3 unit(s)
• BUS3 165 - Analysis and Design of Teams 3 unit(s)
• BUS5 165A - Global Leadership 3 unit(s)
• BUS5 165B - Leadership & Innovation Practicum 3 unit(s)
• BUS5 169B - Honors Practicum in Organization and Management 3 unit(s)
• BUS5 181 - Introduction to Entrepreneurship 3 unit(s)
• BUS5 183 - Global Entrepreneurship 3 unit(s)

University Electives (6 units)

Total Units Required (120 units)

BUS3 10 - Discovering Business

3 unit(s)
Simulates setting up a small business to explore the many facets of an enterprise (marketing, accounting, finance, management, information systems, etc.). Through self-assessment and readings, directs students toward career paths that best reflect their personal aptitudes and interests.

Prerequisite(s): Highly recommended for SJSU freshman business majors, optional for others.
Grading: Letter Graded

BUS3 12 - Managing My life

3 unit(s)
An interdisciplinary course in personal development that introduces basic concepts and practical skills for improving and enhancing life during college and beyond. The course includes how to succeed in college, manage one's finances, plan one's career, manage stress, and increase overall happiness and well-being.

Satisfies E: Human Understanding & Development.
Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

BUS3 80 - Legal Environment of Business

3 unit(s)
Understand the judicial system and dispute resolution with emphasis on the role of law in purchasing, contracting and administering a business as it impacts the firm's constituencies and society as a whole.

Prerequisite(s): Sophomore status.
Grading: Letter Graded

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions
BUS3 92 - International Program Studies

1-12 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

BUS3 149 - Negotiation and Conflict Resolution

3 unit(s)
Provides conflict resolving and negotiation techniques. Case studies demonstrate applications of these methods in real world business, personal, interpersonal and international situations. Emphasis on acquiring and improving skills.

Grading: Letter Graded

BUS3 150 - Fundamentals of Human Resource Management

3 unit(s)
Theories, concepts and processes of human resource management; specific topics include EEO, employee motivation, job analysis and work design, strategic human resource planning, recruitment and selection, talent assessment and development, performance management, compensation and benefits, OSH, and employee rights and discipline.

Prerequisite(s): BUS 91L or instructor consent. Upper division standing. Lower Division Business Pool or Business Minor.
Grading: Letter Graded

BUS3 151 - Labor Relations

3 unit(s)
Private sector union-management relations; labor history, basic labor economics. Legislative, judicial, administrative issues in collective bargaining; contract negotiations, grievance procedures, dispute resolution. Overview of public sector collective bargaining and comparative labor relations. Current trends, including labor-management cooperation.

Prerequisite(s): Upper division standing
Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

BUS3 152 - Human Resources Analytics

3 unit(s)
Examines how Human Resource (HR) professionals can use data analytics to inform HR decisions. Includes descriptive, predictive, and prescriptive analytics. Concepts are applied using software tools such as Qualtrics, SPSS, Excel, and Tableau.
Prerequisite(s): Upper division standing.
Grading: Letter Graded

BUS3 153 - Management of Diversity

3 unit(s)
Cross-cultural differences in effective HR management; organizational culture, cross-cultural communication, opportunity structures, organizational change; legal compliance and planning models such as Equal Employment Opportunity and Affirmative Action; conflict resolution strategies; dealing with internal and external compliance agencies.

Prerequisite(s): BUS3 150 or instructor consent. Upper division standing.
Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

BUS3 154 - Workforce Planning, Staffing and Training

3 unit(s)
Examines basic concepts, strategies and current issues in recruitment, talent acquisition, selection and training. Involves use of computer tools to analyze impacts of legal compliance, diversity, technology, outsourcing, restructuring and downsizing on effective management of human resources.

Prerequisite(s): BUS 150 and COMM 100W or ENGL 100WB or LLD 100WB. Upper division standing.
Grading: Letter Graded

BUS3 155 - Performance Management and Development

3 unit(s)
Assessment and performance management of individuals, groups and organizations in a rapidly changing environment. Explores need for change management skills such as organizational development, career development and coaching to assess and improve the talent base of organizations. Project required.

Prerequisite(s): BUS 150, COMM 100W or ENGL 100WB or LLD 100WB.
Grading: Letter Graded

BUS3 155B - Special Topics in Human Resource Management

3 unit(s)
Analysis and application of the latest economic, technological, global, and workforce trends that impact on how HRM practices are designed. Examples include prevalence of economic pressures, information technology, globalization, changing workplace demographics, and pandemics. Drawing upon theory and concepts, builds students’ skills to stay current with recent developments and increase their relevance in the job market.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB; BUS3 150; and, BUS3 157 or BUS3 158. Allowed Declared Major: Business Administration/Human Resource Management. Graduating Senior Status.
Grading: Letter Graded

BUS3 156 - International Issues in Human Resource Management

San Jose State University
2021-2022 Academic Catalog
3 unit(s)
Personnel practices in international context; cross-cultural management, human resource planning, recruitment and selection, expatriation/repatriation, training, performance appraisal, compensation and benefits, labor relations as experienced by multinational corporations; comparative human resource management.

Pre/Corequisite(s): BUS3 150 or instructor consent. Upper division standing.
Grading: Letter Graded

BUS3 157 - Legal Issues in Human Resource Management

3 unit(s)
Legal aspects of the employment relationship, including employment at will; contract, privacy, public policy, and whistleblower exceptions; EEO and affirmative action; prohibitions against discrimination and harassment; arbitration, trade secrets and non-competition agreements; occupational safety/health; compensation, benefit and family leave laws. Project required.

Prerequisite(s): BUS3 80, BUS3 150 and BUS100W or COMM 100W or ENGL 100WB or LLD 100WB. Upper division standing. Allowed Declared Major: Bus Admin/Human Resource Mgmt or Business Minor.
Grading: Letter Graded

Sustainability Related - SDG 8: Decent Work and Economic Growth

BUS3 158 - Compensation and Reward Systems

3 unit(s)
Theories and practices of compensation and benefits; strategies to establish and administer equitable pay structures; job analysis, and evaluation, salary surveys, pay and motivation, skill-based pay systems, long-term and short-term performance plans, merit increase, bonus, stock options, profit-sharing, executive compensation and computer tools in compensation.

Prerequisite(s): BUS4 91L and BUS3 150. Upper division standing.
Grading: Letter Graded

BUS3 159 - Senior Seminar in Human Resource Management

3 unit(s)
Extension and integration of student knowledge, skills and abilities in strategic HRM; critical analysis of current HRM issues; exploration of HR career options; analysis of existing organization to develop methods of improving HRM decision-making in a real-world setting.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB; BUS3 150; BUS3 154, BUS3 157 and BUS3 158. Allowed Declared Major: Bus Admin/Human Resource Mgmt. Graduating Senior Status.
Grading: Letter Graded

BUS3 160 - Fundamentals of Management and Organizational Behavior

3 unit(s)
Provides a foundation for major topics in management and organizational behavior by surveying theories and practices relating to managerial roles, organizational cultures, fundamental strategic issues, planning, team building, communication, motivation, leadership, decision-making, control, structure and change.
Prerequisite(s): Upper division standing.
Grading: Letter Graded

BUS3 161A - Applied Organizational Behavior

3 unit(s)
Focuses on high-level application, analysis, synthesis and evaluation of group dynamics, interpersonal communication, motivation, leadership, perception and attitudes, individual power and politics, conflict and stress management. In-depth emphasis on key theories plus interpersonal managerial skills.

Prerequisite(s): BUS3 160, COMM 100W or ENGL 100WB or LLD 100WB.
Grading: Letter Graded

BUS3 161B - Organization Theory

3 unit(s)
Managing organization-wide structural and cultural changes leading to designs that enhance organizational effectiveness. Change issues of managing growth, resistance, intervention phases, crisis management, intergroup conflict/power are combined with design issues of balancing innovation and predictability, decentralization and centralization.

Prerequisite(s): BUS3 160, COMM 100W or ENGL 100WB or LLD 100WB. Upper division standing.
Grading: Letter Graded

BUS3 165 - Analysis and Design of Teams

3 unit(s)
Team formation, team structures, team communication, team dynamics, team performance, and team management challenges prevalent in organizations. Study of team types from a broad selection of business functions and industry contexts.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

BUS3 166 - Business, Government, & Society

3 unit(s)
Analysis of the American business system in terms of socio-economic and political constraints imposed upon business organizations by external, physical, legal, political, social and economic environments. Special reference to ethical issues in business, corporate social responsibility, profit maximization and countervailing powers in a pluralistic society.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB. Upper division standing.
Grading: Letter Graded

Sustainability Related - SDG 17: Partnerships for the Goals

BUS3 169A - Honors Seminar

3 unit(s)
This course will introduce some of the seminal theories in management and related fields. The seminar will provide a
variety of views on organizations, organizational life and the way organizations function. The course will be cross-disciplinary, drawing on readings about organizations from a variety of sources and disciplines. Students will be required to apply theoretical concepts to their own work, field study, or internship experiences.

Prerequisite(s): BUS3 160 or BUS3 161B.
Grading: Letter Graded

BUS3 180D - Indiv St Org Mgmt

1-6 unit(s)
Prerequisite(s): Not available to Open University Students.
Grading: Credit/No Credit

BUS3 186 - Professional and Business Ethics

3 unit(s)
Interdisciplinary study of types of ethical problems which arise within the contexts of business occupations and professions. Major ethical theories, critique of economic and criminal justice. Focus is on issues of justice and equality in the U.S. Case studies.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Passage of the Writing Skills Test (WST) or ENGL 100A / LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Grading: Letter Graded

Note(s): All of SJSU Studies courses require completion of the WST and upper division standing.

Cross-listed with PHIL 186. Philosophy is responsible for scheduling.
Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

BUS3 189 - Strategic Management

3 unit(s)
Integrative capstone seminar analyzing interrelationships of managerial decisions/actions within and between the firm and its environment. Applies multi-disciplinary techniques to diagnose and recommend actions appropriate to specific company situations, using case method.

Prerequisite(s): Any 100W. Restricted to students who completed the Jack Holland Student Success Center graduation application process.
Grading: Letter Graded

BUS3 192 - International Program Studies

1-14 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Overview

The Connie L. Lurie College of Education is a professional community of students, faculty and staff engaged in supportive partnerships to serve a community of culturally diverse children, youth and families by pursuing and promoting scholarly and reflective inquiry, and access to a quality lifelong education. Faculty, staff and graduates are compassionate and ethical professionals who are mindful of our responsibilities in a democratic society. The College's core values are excellence and equity. Excellence is manifested in the rigor of our academic programs, in our teacher/scholar faculty contributions, and in the high level of staff service. We challenge our students to strive for excellence in their academic and personal pursuits, as informed and active citizens in their own communities. To achieve equity, our students, faculty, and staff continuously work for social justice and educational opportunities for all members of our society.

The college offers Bachelor's and Master's degrees, a doctoral program, and numerous professional teaching credentials. Programs are offered through seven academic departments, which are supplemented by a variety of resources including the Armstead Center for Communication Disorders and the Child Development Laboratory Preschool:

- Child and Adolescent Development
- Communicative Disorders and Sciences
- Counselor Education
- Educational Leadership
- Special Education
- Teacher Education

The college, housed in William Sweeney Hall, offers two computer laboratories that are open to both undergraduate and graduate students. Students also have access to other high tech education applications.

Student Service Centers

The Kay A. Armstead Center for Communication Disorders provides speech-language-hearing evaluations and therapy services to students, staff, faculty, and the local San Jose community.
The Child Development Laboratory Preschool is housed in two locations on the SJSU campus, including toddler and pre-school labs. These programs provide undergraduates with both observation and hands-on clinical/practicum opportunities.

The Credential Services Office recommends candidates for their credential upon completion of the program. The office also provides students with information about the California Basic Education Skills Test (CBEST), California Subject Examinations for Teachers (CSET), and Reading Instruction Competence Assessment (RICA). General information on elementary (Multiple Subject), secondary (Single Subject), and special education (Education Specialist) teaching credentials, as well as other service credentials and certificate programs.

The Lurie College Student Success Center provides support to undergraduate, graduate, credential, and doctoral students, including professional development workshops, mentoring, networking events, and access to university, college, and career resources. The Student Success Center also provides academic advising about General Education (GE) requirements, changing a major/minor, and support for students on academic probation or disqualified from the university.

**Advisement**

Advising and information related to applications are handled through the six academic departments and the Educational Leadership (EdD) Program.

These departments include Child and Adolescent Development, Communicative Disorders and Sciences, Counselor Education, Educational Leadership, Special Education, and Teacher Education (formerly Elementary Education and Secondary Education).

**EDUC 80 - Independent Study**

1-3 unit(s)
Supervised study related to the field of education appropriate to lower division undergraduate students. Individuals work on special topics by arrangement with a faculty member.

*Course may be repeated for credit for up to 3 units.*

**Grading:** Credit/No Credit

**EDUC 92 - International Program Studies**

1-12 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

**Grading:** Mixed Grading

**EDUC 157SL - Community Action/Community Service**

3 unit(s)
A campus-wide service learning program with opportunities for direct involvement with local community services, both off campus and on campus. Weekly seminars held on campus or at the field site, plus four to six hours of community service work per week at the field site.
Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Passage of the Writing Skills Test (WST) or ENGL 100A / LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): All of SJSU Studies courses require completion of the WST and upper division standing.

Sustainability Related - SDG 11: Sustainable Cities and Communities

EDUC 186 - Using Instructional Media

3 unit(s)

Prerequisite(s): Upper division standing.
Grading: Letter Graded

EDUC 192 - International Program Studies

1-6 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

EDUC 298 - Individualized Studies in Education

1-6 unit(s)
Supervised study in school administrations for both the preliminary and professional services credential programs.

Prerequisite(s): Admission to Graduate department, EDLD 200, EDLD 270 or advisor consent.
Grading: Mandatory Credit/No Credit/RP

Overview
Interested in K-8 teaching? In childcare? Or in agencies serving children, youth, and families? A degree in child and adolescent development is excellent training for careers involving children and families. Or perhaps you already possess entry-level credentials, already work with children and youth and want to advance your career. A wide range of professionals—from childcare administrators to parent educators to child/youth advocates to child and family counselors to pediatric nurses to healthcare workers—have gained the knowledge and expertise they needed to move ahead in the workplace through our bachelor's and master's degree programs. Our curriculum incorporates theory, research, policy and practice, providing students with a comprehensive understanding of children and adolescents. For hands-on training we offer numerous activities in community agencies and we operate a campus laboratory preschool. We graduate well-informed, responsible individuals, sensitive to the commonalities and diversities of the world and its people.

Honors Program
Students who are majoring in Child and Adolescent Development and have maintained a 3.5 GPA in the major are eligible to apply to the Child and Adolescent Development Honors Program. Once accepted into the program, students must enroll in CHAD 199 - Senior Honors Thesis. Students who maintain the required GPA and successfully complete CHAD 199 will graduate with Honors in Child and Adolescent Development. Interested students should contact the Child and Adolescent Development department for more information.

Undergraduate Major(s)
Child and Adolescent Development, BA

This ChAD program, offered by the Department of Child and Adolescent Development, provides a strong foundation in child development and could be the basis for graduate study in child development and related fields. This major is
designed for students interested in having a career in a variety of child-related fields, such as early childhood education, childcare, community settings, and/or agencies serving children, youth, and families. Students who have declared Child and Adolescent Development (ChAD) as their major should meet with the Department advisor for consultation and approval of program roadmaps. Information about ChAD advising and how to make an appointment can be found on the department website.

**Program Roadmaps**

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

**University Requirements**

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

**Core Lower Division General Education (27 units)**

Of the 39 units required by the university, 12 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

**Note:** Students who have completed the ADT Transfer degree (under SB 1440) for this major will have completed all lower division GE requirements and should follow the 60 unit guarantee roadmap. Meet with an advisor prior to registering for your first semester for the 60 unit roadmap or specific questions.

**Upper Division General Education (6 units)**

Of the 9 units required by the university, 3 units may be satisfied by coursework outlined below. Consult with major advisor for details.

**American Institutions (6 units)**

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.
The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

**African American Studies (6 units)**

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 unit(s) (D+US123)

**Asian American Studies (6 units)**

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

**Chicana and Chicano Studies (6 units)**

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

**U.S. History and Government (6 units)**

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

**Physical Education (2 units)**

All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students' needs and interests, the university offers a diverse selection of activity courses.

**Graduation Writing Assessment Requirement**

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

*A grade of C or better (C- not accepted) is required to meet graduation requirement.*

**Major Requirements (51-52 units)**

**Lower Division Core (12 units)**

- CHAD 60 - Child Development 3 unit(s) (E)
- CHAD 70 - Lifespan Development in the 21st Century 3 unit(s) (E)
• PSYC 1 - Introduction to Psychology 3 unit(s) (D)
• STAT 95 - Elementary Statistics 3 unit(s) (B4) (May substitute STAT 95 with SOCS 15/SOCI 15)

Upper Division Core (24 units)

• CHAD 101 - Research Methods in Child Development 3 unit(s)
• CHAD 165 - Risk and Resilience in a Community Context 3 unit(s)
• CHAD 168 - Social and Emotional Development in Childhood and Adolescence 3 unit(s)
• CHAD 169 - Motivating Children and Adolescents in Educational Settings 3 unit(s)
• CHAD 170 - Contextual Influences on Cognitive Development 3 unit(s)
• CHAD 195 - Senior Seminar in Child Development 3 unit(s)

Complete one course:

• CHAD 100W - Writing Workshop 3 unit(s) (Z)
• LLD 100W - Writing Workshop 3 unit(s) (Z)

Complete one course:

• CHAD 162 - Childhood and Adolescence in a Multicultural Society 3 unit(s)
• CHAD 164 - Contemporary Parenting 3 unit(s)

Area of Specialization (15-16 units)

Specializations are a cluster of courses used by departments for advising purposes. Specializations will not appear on transcripts or diplomas. Please see advisor for more details. Complete one of the following specializations:

Early Childhood Focus (15 units)

• CHAD 150 - Development of Communicative Competence 3 unit(s)
• CHAD 152 - Foundations for Early Childhood Curriculum 3 unit(s)
• CHAD 160 - Child Development Practicum 3 unit(s)
• CHAD 161 - Administration of Early Childhood Programs 3 unit(s)
• CHAD 173 - Critical Issues in Infant/Toddler Development 3 unit(s)

Community Focus (15-16 units)

• CHAD 104 - Program Evaluation and Assessment in Community-Based Programs 3 unit(s)
• CHAD 157 - Adult Supervision for Programs Serving Children, Youth, and Families 3 unit(s)
• CHAD 158 - Practicum in Community-Based Organizations Serving Children and Youth 3 unit(s)

Critical Issues in Child and Adolescent Development (3 units)

Complete one course:

• CHAD 163 - Critical Issues in Adolescent Development 3 unit(s)
• CHAD 173 - Critical Issues in Infant/Toddler Development 3 unit(s)

Interdisciplinary Elective (3-4 units)

Complete one course:

• COMM 144F - Organizational Communication 4 unit(s)
• PH 145 - Community Mental Health 3 unit(s)
• JS 152 - Juvenile Delinquency & Justice 3 unit(s)
• LING 129 - Culture, Language and Ethnicity in the U.S. 3 unit(s) (S)
• SOCI 151 - Violence in the Family 3 unit(s)
• SOCI 170 - Sociology of Family 3 unit(s)
• URBP 133 - Introduction to Social Issues in Planning 4 unit(s)

University Electives or Minor (27-28 units)

Total Units Required (120 units)

CHAD 158, CHAD 160 and CHAD 195 may only be repeated once.

Child and Adolescent Development, Preparation for Teaching W/ CSET Waiver, BA

This major is designed for students interested in teaching in elementary school or middle school. The following coursework satisfies San José State University's requirements for a BA in Child and Adolescent Development (ChAD) with Preparation for Teaching. This specific pathway has been approved by the California Commission on Teacher Credentialing (CCTC) to serve as a waiver of the CSET for Multiple Subjects requirement for post-bac teacher credential programs. Note that this pathway includes several lower-division course requirements. Students are encouraged to see a department advisor to identify appropriate coursework. Information about ChAD advising and instructions to make an appointment can be found on the department website.

The Commission on Teacher Credentialing in the state of California (CCTC) recognizes Teacher Prep degrees as verification of subject matter competence. The following coursework, offered by the Department of Child and Adolescent Development, satisfies San José State University's requirements for a BA in Child and Adolescent Development, and is a program approved by the CCTC for waiver of the subject matter examination (CSET for Multiple Subjects) required to earn a teaching credential. The department also offers a Child and Adolescent Development, Preparation for Teaching, BA without a CSET waiver.

Maintaining a minimum grade point average (GPA) of at least 2.87 and completion of the program will not guarantee admission to the credential program. Like all other applicants, students must meet credential program standards and undergo screening for admission. See the Teacher Preparation section of the catalog for information on application and admission to credential programs.

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Exceptions for University Graduation Requirements apply to this major.

Core Lower Division General Education (9 units)

Of the 39 units required by the university, 30 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a “C-” or better to meet the requirement. Consult with major advisor for details.

Upper Division General Education

Of the 9 units required by the university, 9 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

African American Studies (6 units)

- AFAM 2A - African Americans and the Development of America’s History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America’s History and Government 3 unit(s) (D+US123)
Asian American Studies (6 units)
- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

Chicana and Chicano Studies (6 units)
- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

U.S. History and Government (6 units)
- HiST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

Physical Education (2 units)
All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students’ needs and interests, the university offers a diverse selection of activity courses.

Graduation Writing Assessment Requirement
At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

Major Requirements (39 units)

Lower Division Core (12 units)
- CHAD 60 - Child Development 3 unit(s) (E)
- CHAD 70 - Lifespan Development in the 21st Century 3 unit(s) (E)
- PSYC 1 - Introduction to Psychology 3 unit(s) (D)
- STAT 95 - Elementary Statistics 3 unit(s) (B4) (May substitute STAT 95 with SOCS 15/SOCI 15)

Upper Division Core (27 units)
- CHAD 101 - Research Methods in Child Development 3 unit(s)
- CHAD 159 - Child Development K-8 Practicum 3 unit(s)
- CHAD 168 - Social and Emotional Development in Childhood and Adolescence 3 unit(s)
- CHAD 169 - Motivating Children and Adolescents in Educational Settings 3 unit(s)
- CHAD 170 - Contextual Influences on Cognitive Development 3 unit(s)
- CHAD 195 - Senior Seminar in Child Development 3 unit(s)
Complete one course:

- CHAD 100W - Writing Workshop 3 unit(s) (Z)
- LLD 100W - Writing Workshop 3 unit(s) (Z)

Complete one course:

- CHAD 162 - Childhood and Adolescence in a Multicultural Society 3 unit(s)
- CHAD 164 - Contemporary Parenting 3 unit(s)

Complete one course:

- CHAD 163 - Critical Issues in Adolescent Development 3 unit(s)
- CHAD 173 - Critical Issues in Infant/Toddler Development 3 unit(s)

Multiple Subjects Preparation Core Curriculum (63-64 units)

Language and Literature (18-19 units)

- ENGL 1A - First Year Writing 3 unit(s) (A2)
- ENGL 2 - Critical Thinking and Writing 3 unit(s) (A3) (ENGL 1B also accepted for Transfer Students.)
- ENGL 112A - Children's Literature 3 unit(s)
- CHAD 150 - Development of Communicative Competence 3 unit(s)
- CHAD 151 - Developing Literacy in a Diverse Society 3 unit(s)

Complete one course:

- ENGL 103 - Modern English 4 unit(s)
- LING 107 - Patterns of English 3 unit(s)

Mathematics (9 units)

- MATH 12 - Number Systems 3 unit(s) (B4)
- MATH 105 - Concepts in Mathematics, Probability, Statistics 3 unit(s)
- MATH 106 - Intuitive Geometry 3 unit(s)

Science (15 units)

- BIOL 21 - Human Biology 3 unit(s) (B2+B3)
- CHEM 30A - Introductory Chemistry 3 unit(s) (B1+B3)
- ENVS 158 - Environmental Education 3 unit(s)
- GEOL 103 - Earth Systems and the Environment 3 unit(s) (R)
- PHYS 1 - Elementary Physics 3 unit(s) (B1)

Visual and Performing Arts (9 units)
Art Disciplines (3 units)

Complete one course:

- ART 39 - Multicultural Arts for Children 3 unit(s)
- ART 138 - Elementary Art Methods 3 unit(s)
- CA 70 - Visual & Media Arts for K-8 Teachers 3 unit(s)
- CA 75 - Performing Arts for K-8 Teachers 3 unit(s)
- DANC 148 - Children's Dance 3 unit(s)
- TA 131 - Storytelling 3 unit(s)
- TA 167 - Theatre in Education 3 unit(s)

Physical Education and Health (3 units)

- CHAD 149 - Child Health and Physical Activity 3 unit(s)

History (9 units)

- SOCS 137 - California History for Teachers 3 unit(s)
- SOCS 138 - US History for Teachers 3 unit(s) (S)
- SOCS 139 - World History for Teachers 3 unit(s) (V)

University Electives (0-1 units)

Highly recommend world language and technology coursework for teaching credential (see Credential Information Services).

Total Units Required (120 units)

Students in the Child and Adolescent Development, Preparation for Teaching, BA have more flexibility in the selection of their General Education courses.

CHAD 159 and CHAD 195 may be repeated only once.

Child and Adolescent Development, Preparation for Teaching, BA

This major is designed for students interested in teaching in elementary school or middle school. The following course work, offered by the Department of Child and Adolescent Development, satisfies San José State University's requirements for a BA in Child and Adolescent Development (ChAD) with Preparation for Teaching. Students who are transfers or who are changing into this major, in consultation with a department advisor, identify the course work appropriate for the individual. Information about ChAD advising and making an appointment can be found on the department website.

The Commission on Teacher Credentialing in the state of California (CCTC) recognizes Teacher Prep degrees as verification of subject matter competence. The following coursework satisfies San José State University's
requirements for a BA in ChAD, Preparation for Teaching. The department also has a program approved by the CCTC for waiver of the subject matter examination (CSET for Multiple Subjects) required to earn a teaching credential. There are different requirements for this waiver option. If interested, see the Child and Adolescent Development, Preparation for Teaching W/CSET Waiver, BA program.

Maintaining a minimum grade point average (GPA) of at least 2.87 and completion of the program will not guarantee admission to the credential program. Like all other applicants, students must meet credential program standards and undergo screening for admission. See the Teacher Preparation section of the catalog for information on application and admission to credential programs.

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Core Lower Division General Education (24 units)

Of the 39 units required by the university, 15 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Upper Division General Education (9 units)

Of the 9 units required by the university, 3 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions (6 units)
Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

**African American Studies (6 units)**

- AFAM 2A - African Americans and the Development of America’s History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America’s History and Government 3 unit(s) (D+US123)

**Asian American Studies (6 units)**

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

**Chicana and Chicano Studies (6 units)**

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

**U.S. History and Government (6 units)**

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

**Physical Education (2 units)**

All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students' needs and interests, the university offers a diverse selection of activity courses.

**Graduation Writing Assessment Requirement**

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

*A grade of C or better (C- not accepted) is required to meet graduation requirement.*

**Major Requirements (39 units)**

**Lower Division Core (12 units)**
• CHAD 60 - Child Development 3 unit(s) (E)
• CHAD 70 - Lifespan Development in the 21st Century 3 unit(s) (E)
• PSYC 1 - Introduction to Psychology 3 unit(s) (D)
• STAT 95 - Elementary Statistics 3 unit(s) (B4) (May substitute STAT 95 with SOCS 15/SOCI 15)

Upper Division Core (27 units)

• CHAD 101 - Research Methods in Child Development 3 unit(s)
• CHAD 159 - Child Development K-8 Practicum 3 unit(s)
• CHAD 168 - Social and Emotional Development in Childhood and Adolescence 3 unit(s)
• CHAD 169 - Motivating Children and Adolescents in Educational Settings 3 unit(s)
• CHAD 170 - Contextual Influences on Cognitive Development 3 unit(s)
• CHAD 195 - Senior Seminar in Child Development 3 unit(s)

Complete one course:

• CHAD 100W - Writing Workshop 3 unit(s) (Z)
• LLD 100W - Writing Workshop 3 unit(s) (Z)

Complete one course:

• CHAD 162 - Childhood and Adolescence in a Multicultural Society 3 unit(s)
• CHAD 164 - Contemporary Parenting 3 unit(s)

Complete one course:

• CHAD 163 - Critical Issues in Adolescent Development 3 unit(s)
• CHAD 173 - Critical Issues in Infant/Toddler Development 3 unit(s)

Multiple Subjects Preparation Core Curriculum (33-34 units)

Language and Literature (15-16 units)

• ENGL 1A - First Year Writing 3 unit(s) (A2)
• ENGL 112A - Children’s Literature 3 unit(s)
• CHAD 150 - Development of Communicative Competence 3 unit(s)
• CHAD 151 - Developing Literacy in a Diverse Society 3 unit(s)

Complete one course:

• ENGL 103 - Modern English 4 unit(s)
• LING 107 - Patterns of English 3 unit(s)

Mathematics (9 units)
• MATH 12 - Number Systems 3 unit(s) (B4)
• MATH 105 - Concepts in Mathematics, Probability, Statistics 3 unit(s)
• MATH 106 - Intuitive Geometry 3 unit(s)

Science (3 units)

• ENVS 158 - Environmental Education 3 unit(s)

Visual and Performing Arts (3 units)

Complete one course from:
• CA 177 - Interdisciplinary Arts for Teaching 3 unit(s)
• ART 39 - Multicultural Arts for Children 3 unit(s)
• ART 138 - Elementary Art Methods 3 unit(s)
• DANC 148 - Children's Dance 3 unit(s)
• TA 131 - Storytelling 3 unit(s)
• TA 167 - Theatre in Education 3 unit(s)

Physical Education and Health (3 units)

• CHAD 149 - Child Health and Physical Activity 3 unit(s)

University Electives (6-7 units)

Highly recommend world language and technology coursework for teaching credential (see Credential Information Services).

Total Units Required (120 units)

Students interested in the Child and Adolescent Development, Preparation for Teaching W/CSET Waiver, BA are required to satisfy specific General Education courses.

CHAD 159 and CHAD 195 may be repeated only once.

Undergraduate Minor(s)

Atypical Child Studies Minor

The courses for the Minor in Atypical Child Studies, offered by the Department of Child and Adolescent Development, provides a solid foundation in both normative and atypical early childhood development. The minor is particularly beneficial for students who plan to pursue careers in a number of branches of the social and life sciences, education, medicine, and other human services professions focusing on atypical infants/children and their families.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University
Minor Requirements (15 units)

Core Courses (9 units)

- CHAD 60 - Child Development 3 unit(s) (E)
- EDSE 104 - Atypical Development in Young Children 3 unit(s)
- EDSE 108 - Assessment and Evaluation: Atypical Young Children 3 unit(s)

Elective Courses (6 units)

Complete two courses from:
- CHAD 152 - Foundations for Early Childhood Curriculum 3 unit(s)
- CHAD 161 - Administration of Early Childhood Programs 3 unit(s)
- CHAD 164 - Contemporary Parenting 3 unit(s)
- CHAD 168 - Social and Emotional Development in Childhood and Adolescence 3 unit(s)
- EDSE 102 - Speech, Language & Typical, Atypical Dev 3 unit(s) (S)

Total Units Required (15 units)

Child and Adolescent Development Minor

The courses for the Minor in Child & Adolescent Development offer a range of opportunities to examine the course of human development with special emphasis on the period from infancy through adolescence. The minor, offered by the Department of Child and Adolescent Development, is particularly appropriate for students planning to enter the fields of education, social welfare, nursing, child care, and other human services professions.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University Policy S16-4). Minor preparation or support courses do not count toward the 12 distinct units. Of the coursework for the minor, at least 6 units must be completed in residence at SJSU. The minimum aggregate GPA for all coursework required for the minor must be at least 2.0.

Minor Requirements (15 units)

- CHAD 60 - Child Development 3 unit(s) (E)
- CHAD 70 - Lifespan Development in the 21st Century 3 unit(s) (E)

Minor Electives (9 units)
These focus areas are suggestions only. Students may select any courses from the list below. Specializations will not appear on transcripts or diplomas. Please see your advisor for more details. Complete three courses from any of the following focus areas:

**Child & Adolescent Development (General)**

- CHAD 162 - Childhood and Adolescence in a Multicultural Society 3 unit(s)
- CHAD 163 - Critical Issues in Adolescent Development 3 unit(s)
- CHAD 168 - Social and Emotional Development in Childhood and Adolescence 3 unit(s)
- CHAD 169 - Motivating Children and Adolescents in Educational Settings 3 unit(s)
- CHAD 170 - Contextual Influences on Cognitive Development 3 unit(s)

**Community Focus**

- CHAD 104 - Program Evaluation and Assessment in Community-Based Programs 3 unit(s)
- CHAD 156 - Social Media and Youth Civic Engagement 3 unit(s)
- CHAD 157 - Adult Supervision for Programs Serving Children, Youth, and Families 3 unit(s)
- CHAD 164 - Contemporary Parenting 3 unit(s)
- CHAD 165 - Risk and Resilience in a Community Context 3 unit(s)

**Early Childhood Focus**

- CHAD 150 - Development of Communicative Competence 3 unit(s)
- CHAD 152 - Foundations for Early Childhood Curriculum 3 unit(s)
- CHAD 161 - Administration of Early Childhood Programs 3 unit(s)
- CHAD 164 - Contemporary Parenting 3 unit(s)
- CHAD 173 - Critical Issues in Infant/Toddler Development 3 unit(s)

**Teacher Preparation Focus**

- CHAD 131 - Equity, Resilience, and Risk in Public Schools 3 unit(s)
- CHAD 149 - Child Health and Physical Activity 3 unit(s)
- CHAD 150 - Development of Communicative Competence 3 unit(s)
- CHAD 151 - Developing Literacy in a Diverse Society 3 unit(s)

**Total Units Required (15 units)**

**Master(s)**

**Child and Adolescent Development, MA**

- Admissions Requirements
- Requirements for Advancement to Graduate Candidacy
- Requirements for Graduation
- Master's Requirements (30 units)
- Program Learning Outcomes
The Master of Arts degree in the Department of Child and Adolescent Development (ChAD) prepares students for advanced study leading to a doctorate in the field; for community college teaching; and for professional careers in settings that serve children, youth, and families.

Detailed information about the program can be found on the department website: www.sjsu.edu/chad/programs/ma-chad.

**Admissions Requirements**

Candidates apply separately to the university to obtain approval for university-level admission and to the department to obtain admission to the ChAD master's program. Candidates must meet all the university admission requirements. Note that applicants must have an undergraduate grade point average of 3.0 (B) or better in the last 60 semester units of undergraduate work.

In addition to meeting university requirements, the minimum requirement for admission to the ChAD MA program is 1) a baccalaureate degree awarded by an accredited institution, 2) a completed department application, 3) three letters of recommendation, 4) a 1-2-page typed statement of educational and professional background and professional goals, and 5) an essay on various topic areas in child and adolescent development. In addition, students have the option of submitting GRE scores which will be evaluated within the context of all the applicant's materials. Preference is given to candidates with a background in ChAD or a related field (e.g., Psychology, Sociology, Education, Social Work, Nursing). Applicants can be admitted either in a conditional or classified status.

Applicants from countries in which the official language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage at GAPE.

**Requirements for Advancement to Graduate Candidacy**

Students must meet the university requirements for candidacy. General university requirements for advancement to candidacy for the MA degree are detailed in the Graduate Policies and Procedures section. Candidacy includes the successful completion of the Graduation Writing Assessment Requirement (GWAR).

During the semester that the first 9 units of coursework will be completed, the ChAD MA candidate will need to submit a Departmental Request for Candidacy form [pdf]. This form must be signed by the ChAD graduate program coordinator and submitted to GAPE by the appropriate deadline. Check the deadline for submitting the Petition for Advancement to Graduate Candidacy. Any changes made in the program degree academic plan as listed on the candidacy form need to be requested using the Request for Course Substitution in Graduate Degree Program [pdf]. This form must be signed by the ChAD graduate program coordinator prior to submission to GAPE.

**Requirements for Graduation**

**University Graduation Requirements**

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

**MA - Child and Adolescent Development Graduation Requirements**

Students are expected to complete all required courses and select three electives from the department-approved list. In order to meet degree requirements, candidates for the MA in ChAD must maintain a 3.0 GPA in all courses with no single course grade below a B-. Students who earn less than a B- in any required course (CHAD 260A, CHAD 260B,
CHAD 262, CHAD 266, CHAD 268, and CHAD 270) must retake the course and earn a grade of B- or better. For electives in which the earned grade was less than a B-, students have the option to retake the same course or to select a different elective.

**Graduation Writing Assessment Requirement**

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR).

*This requirement is satisfied by passing CHAD 260A.*

**Master's Requirements (30 units)**

**Core Courses (18 units)**

- CHAD 260A - Seminar in Child and Adolescent Development: Research 3 unit(s) (GWAR)
- CHAD 260B - Seminar in Child and Adolescent Development 3 unit(s)
- CHAD 262 - Multicultural Issues in Child and Adolescent Development 3 unit(s)
- CHAD 266 - Social Policy Issues in American Childhood and Youth 3 unit(s)
- CHAD 268 - Seminar in Social and Emotional Development 3 unit(s)
- CHAD 270 - Seminar in Cognitive and Language Development 3 unit(s)

**Interdisciplinary Electives (9 units)**

Complete three department-approved elective courses with advisor consent. Elective courses must be selected from the department-approved list.

Electives may be taken at any time during the MA program. In some circumstances, MA candidates may petition to take an elective not on the list. Candidates should submit a written statement to the Graduate Program Coordinator with the course request and justification.

**Culminating Experience (3 units)**

Complete One Option (Plan A or Plan B):

**Plan A (Thesis)**

- CHAD 299 - Master's Thesis 3-6 unit(s)

**Plan B (Project)**

- CHAD 298 - Special Studies in Child and Adolescent Development 3-6 unit(s)

**Total Units Required (30 units)**

* Meets the Graduation Writing Assessment Requirement (GWAR). Must be taken in the first semester of enrollment.

** To be completed concurrently with CHAD 260B.
Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU cumulative grade point averages of 3.0 in order to graduate.

**CHAD 60 - Child Development**

3 unit(s)
Foundational course explores child and adolescent development, from prenatal life through the adolescent years, in the context of the family and community. Reviews major theories, influences, and milestones of physical, cognitive, and socioemotional domains of development. Requires service-learning in an approved setting.

*Satisfies E: Human Understanding & Development.*

**Grading:** Letter Graded

**CHAD 70 - Lifespan Development in the 21st Century**

3 unit(s)
Understanding life-long development in the 21st century is promoted through studying theories, research, and the role of culture in shaping physical, cognitive, social, and emotional development. We explore commonalities and differences in human development to understand ourselves as global citizens.

*Satisfies E: Human Understanding & Development.*

**Grading:** Letter Graded

*Sustainability Focused - SDG 4: Quality Education*

**CHAD 75 - Imagination, Play and Adult Creativity**

3 unit(s)
Explores childhood play and imagination as well as adult creativity and the influence of value systems, economic structures, political institutions, social groups and natural environments on the development of play, imagination and creativity.

*Satisfies D: Social Sciences (formerly GE Area D1).*

**Grading:** Letter Graded

*Sustainability Focused - SDG 4: Quality Education*

**CHAD 92 - International Program Studies**

1-12 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

**Grading:** Mixed Grading
CHAD 100W - Writing Workshop

3 unit(s)
Development of advanced skills in writing, particularly in the field of child development. Focus on development of a mature writing style and organization of persuasive and analytical prose.

Satisfies SJSU Studies Z: Written Communication II

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; satisfaction of Writing Skills Test or completion of ENGL 100A or LLD 100A with C or better; and upper division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).

CHAD 101 - Research Methods in Child Development

3 unit(s)
Study of various techniques and methods used in child development research. Development of proposal writing skills.

Prerequisite(s): CHAD 60 or instructor consent.

Grading: Letter Graded

CHAD 102 - Development of Self in a Culturally Diverse Society

3 unit(s)
Examines the influence of various institutions and society on the psychosocial development of children and adolescents from culturally diverse backgrounds in the United States.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Passage of the Writing Skills Test (WST) or ENGL 100A / LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): All of SJSU Studies courses require completion of the WST and upper division standing.

Sustainability Focused - SDG 4: Quality Education

CHAD 104 - Program Evaluation and Assessment in Community-Based Programs

3 unit(s)
Optimizing services for children and families requires knowledge and skills in program evaluation and assessment. Through lecture, discussion and case studies, students are introduced to the principles and varied methods of evaluation, and to underlying ethical issues and cultural competencies.

Prerequisite(s): CHAD 60

Grading: Letter Graded

CHAD 106 - Concepts of Childhood
3 unit(s)
Explores the historical diversity in the ways in which childhood has been defined; investigates diverse cultural definitions of childhood; examines the impacts of those beliefs and definitions on human development.

Satisfies SJSU Studies V: Culture, Civil & Global Understanding.

Prerequisite(s): Passage of the Writing Skills Test (WST) or ENGL 100A / LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): All of SJSU Studies courses require completion of the WST and upper division standing.

Sustainability Focused - SDG 4: Quality Education

CHAD 130 - Coding for Scientific Discovery

3 unit(s)
The physical universe and its life forms are studied through scientific investigations (via computer modeling/coding) that reflect the epistemology and reasoning of scientific practices. These investigations are contextualized with issues related to diversity, equity, ethics, and the teaching/learning of science.

Satisfies SJSU Studies R: Earth & Environment.

Prerequisite(s): Passage of the Writing Skills Test (WST) or ENGL 100A / LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): All of SJSU Studies courses require completion of the WST and upper division standing.

CHAD 131 - Equity, Resilience, and Risk in Public Schools

3 unit(s)
Students study the interrelationship of individuals, racial groups, and cultural groups to understand and appreciate issues of diversity, equality, and structured inequality in the U.S., its institutions, and its cultures. Specifically, students explore micro and macro influences that place children’s educational trajectory and achievement at risk. Students examine protective factors, at both micro and macro levels, that can help achieve educational equality for all children.

Satisfies SJSU Studies S: Self, Society & Equality in US

Prerequisite(s): Passage of the Writing Skills Test (WST) or ENGL 100A / LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): All of SJSU Studies courses require completion of the WST and upper division standing.

Sustainability Focused - SDG 4: Quality Education

CHAD 132 - Education from a Global Perspective
3 unit(s)
Explores the meaning of education as a concept, or philosophy, both within the US and around the globe. Concepts of education, such as education as empowerment or education as meeting national goals, are examined. Explores how educational traditions outside the US have influenced American education systems (with respect to culture and societal norms), how cultures develop distinctive education systems and how those education systems interact with education systems in other cultures. Provides a foundation for understanding K-8 visual and performing arts standards as well as standards for K-8 history and social studies.

Satisfies SJSU Studies V: Culture, Civil & Global Understanding

Prerequisite(s): Passage of the Writing Skills Test (WST) or ENGL 100A / LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): All of SJSU Studies courses require completion of the WST and upper division standing.

CHAD 133 - Introduction to K-8 Math/Science Instruction

3 unit(s)

Prerequisite(s): Upper division standing; probationary admission to the ChAD credential program; and passing the CBEST.

Grading: Letter Graded

CHAD 134 - K-8 Math & Science Practicum

6 unit(s)
Prepares teachers to teach mathematics and science in culturally, ethnically, and linguistically diverse K-8 classrooms. Examines the rationale for interdisciplinary curriculum design and enables students to make informed decisions about creating and implementing interdisciplinary curriculum that strengthens the teaching/learning process.

Prerequisite(s): Upper division standing; admission to the ChAD credential program; passing the CSET; CHAD 133; Certificate of Clearance from the CTC; and current (last 3 years) TB tests (negative results).

Grading: Letter Graded

CHAD 135 - Development of Language & Literacy in Children

3 unit(s)
An overview of the development of children's communicative competence as well as the foundations of language and literacy in the context of a diverse, technologically complex society. Course content covers theories, contexts for development; linguistic diversity, and information/media literacy.

Prerequisite(s): Passage of the Writing Skills Test (WST) or ENGL 100A / LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing, passage of 100W, and acceptance into the ChAD BA Credential Program.

Grading: Letter Graded
**CHAD 136 - Foundations of K-8 Language Arts & Social Studies**

3 unit(s)
Introduction to effective instruction and assessment in reading/language arts/social studies. Reviews learning/pedagogical theories, methods for adapting curriculum for all learners, and developmental processes underlying achievement in these areas. Students develop knowledge of Common Core Standards for language arts/social science.

**Prerequisite(s):** Upper division standing, Admission to the ChAD credential program and a passing score on the CBEST and CSET.

**Grading:** Letter Graded

**CHAD 137 - K-8 Language Arts & Social Studies Practicum**

6 unit(s)
Prepares educators to teach language arts/social science in culturally, ethnically, and linguistically diverse K-8 classrooms. Discusses methods/strategies and development of a balanced, comprehensive, evidence-based program that addresses the needs of all learners. Technology use and curricular integration are explored.

**Prerequisite(s):** Admission to the ChAD credential program, CHAD 136, and a passing score on the CBEST and CSET.

**Grading:** Letter Graded

**CHAD 138 - K-8 Student Teaching and Seminar**

12 unit(s)
Supervised teaching in a public school classroom. Student Teaching in the field and seminar on campus. Students explore their teaching experiences in the context of research on effective teaching and learning and complete the Cal-TPA. Meets all requirements for student teaching.

**Prerequisite(s):** Admission to the ChAD credential program; Certificate of clearance, and passage of the CBEST and CSET; Program Director Consent.

**Grading:** Credit/No Credit

**CHAD 149 - Child Health and Physical Activity**

3 unit(s)
An integrative approach to understanding the multiple factors that impact children's health and physical fitness and that influence the development of lifelong habits. Emphasis is on the inter-relationships between health and fitness and cognitive, social, and emotional well-being.

**Prerequisite(s):** CHAD 60 or instructor consent.

**Grading:** Letter Graded

Cross-listed with KIN 149. Child and Adolescent Development is responsible for scheduling.

**CHAD 150 - Development of Communicative Competence**

3 unit(s)
Survey of major topics in the development of communicative competence (theoretical approaches to understanding language acquisition, contexts for development, language diversity, relationship between language and cognition).
Attention given to language acquisition, media influences and language assessment.

Prerequisite(s): CHAD 60 or instructor consent.
Grading: Letter Graded

CHAD 151 - Developing Literacy in a Diverse Society

3 unit(s)
Knowledge of a balanced literacy approach, including an understanding and use of the major descriptors of developing literacy, appropriate assessment methods and instruments, and a developmental and analytical appreciation for writing strategies, conventions, and applications.

Prerequisite(s): CHAD 60 or instructor consent.
Grading: Letter Graded

CHAD 152 - Foundations for Early Childhood Curriculum

3 unit(s)
Introduces foundations for implementing developmentally appropriate early childhood education curriculum. Addresses history and theories underlying curriculum models; assessment of children's learning; research and standards applicable to curriculum in language, literacy, and STEAM (science, technology, engineering, arts, and math) content areas.

A service learning component of 15 hours for the semester is required.

Prerequisite(s): CHAD 60 or Instructor Consent.
Grading: Letter Graded

Note(s): The majority of approved service learning sites require proof of a negative TB test and background clearance.

CHAD 156 - Social Media and Youth Civic Engagement

3 unit(s)
Exploration of the impact of social media on youths' ability to learn about, discuss, and act on social issues that matter to them. Students analyze online dialogue about pressing social issues, learn about promising strategies developed by activists and educators, and develop and practice techniques for using social media to raise awareness about and discuss social issues.

Grading: Letter Graded

CHAD 157 - Adult Supervision for Programs Serving Children, Youth, and Families

3 unit(s)
Explores program management and leadership within community-based organizations serving children, youth, and families. Reviews features of positive developmental settings and organizational structure. Builds skill sets for staff supervision and evaluation, developing resources (e.g., fundraising, partnerships, volunteers), and establishing ethical and culturally competent organizations.

A service learning component of 15 hours for the semester is required.
Prerequisite(s): CHAD 60.
Grading: Letter Graded

Note(s): The majority of approved service learning sites require proof of a negative TB test and a background clearance.

**CHAD 158 - Practicum in Community-Based Organizations Serving Children and Youth**

3 unit(s)
Practical application of the theoretical information acquired across the Child and Adolescent Development major coursework. Students participate in the context of a community service organization serving youth and families. Course requires 6 hours per week of non-paid fieldwork in an approved non-profit setting. Practicum sites for this course typically require availability during weekday afternoons as well as a TB Test and background check.

*Lecture 1 hours/Lab 6 hours.*

Prerequisite(s): CHAD 60
Grading: Letter Graded

**CHAD 159 - Child Development K-8 Practicum**

3 unit(s)
Principles, techniques, observation and participation in the guidance of elementary and middle school children. Note: Course requires 5 hours per week of non-paid fieldwork in a public school classroom (K to 8th). Middle school placements must be in a self-contained or core classroom. Practicum sites usually require proof of a TB test (within one year) and a background check.

*Lecture 1 hours/Lab 6 hours.*

Prerequisite(s): CHAD 60 or instructor consent.
Grading: Letter Graded

**CHAD 160 - Child Development Practicum**

3 unit(s)
Principles, techniques, observation and participation in the guidance of children. Students choose from two programs: Toddler Lab (2-3 year olds) and Preschool Lab (3-5 year olds). Students must submit a Background Clearance, TB test dated within 1 year of start of semester, and proof of vaccinations for Measles (MMR), Pertussis (DTaP), and Flu (Influenza, fall semester only).

*Lecture 1 hour/Lab 6 hours.*

Prerequisite(s): CHAD 60 or instructor consent.
Grading: Letter Graded

Sustainability Related - SDG 4: Quality Education

**CHAD 161 - Administration of Early Childhood Programs**
3 unit(s)
Survey of practices and procedures integral to designing, administrating, and assessing high quality early learning environments. Focus is on parent involvement, staff development, curriculum design, and program development and administration.

Prerequisite(s): CHAD 152
Grading: Letter Graded

CHAD 162 - Childhood and Adolescence in a Multicultural Society

3 unit(s)
Exploration of the agents and processes by which cultural values and social attitudes are transmitted. Interactions of individuals from four groups in the U.S. examined from culturally monolithic and pluralistic perspectives.

Prerequisite(s): CHAD 60 or instructor consent.
Grading: Letter Graded

Sustainability Related - SDG 4: Quality Education

CHAD 163 - Critical Issues in Adolescent Development

3 unit(s)
Relationships among major socialization agents (family, peers, school, media). Ethnicity, primary language and socioeconomic status as they affect adolescents.

Prerequisite(s): CHAD 60 or instructor consent.
Grading: Letter Graded

Sustainability Related - SDG 4: Quality Education

CHAD 164 - Contemporary Parenting

3 unit(s)
Philosophies and theories of parent-child relationships in a multicultural society.

Prerequisite(s): CHAD 60 or instructor consent.
Grading: Letter Graded

CHAD 165 - Risk and Resilience in a Community Context

3 unit(s)
This course provides students with an understanding of theories, concepts and research that explain risk and resilience. Students will explore community-based organizations that promote resilience and apply their knowledge of risk and resilience to a variety of settings and contexts.

Prerequisite(s): CHAD 60
Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

CHAD 168 - Social and Emotional Development in Childhood and Adolescence
3 unit(s)
Understanding issues in social and emotional development and processes of development underlying the emergence of self, social behavior, and emotional competence. Study coping and models of resiliency as related to familial and extrafamilial contexts of social and emotional development.

Prerequisite(s): CHAD 60 or instructor consent.
Grading: Letter Graded

CHAD 169 - Motivating Children and Adolescents in Educational Settings

3 unit(s)
Perspectives of psychoanalysis, individual psychology, behaviorism and cognitive psychology as applied to the motivation of children and adolescents in educational settings.

Prerequisite(s): CHAD 60 and PSYC 1 (or equivalent) or instructor consent.
Grading: Letter Graded

CHAD 170 - Contextual Influences on Cognitive Development

3 unit(s)
Survey of major topics and issues in cognitive development and the acquisition of communication skills. The influence of family, school and cultural environment on these developmental changes.

Prerequisite(s): CHAD 60 or instructor consent.
Grading: Letter Graded

CHAD 173 - Critical Issues in Infant/Toddler Development

3 unit(s)
Surveys infant and toddler development in five domains (i.e. social, emotional, cognitive, language, physical) as well as relevant contexts (e.g. culture). Attention given to best practices in infant and toddler care and factors that place infants and toddlers at risk.

Prerequisite(s): CHAD 60 (or equivalent) and PSYC 1.
Grading: Letter Graded

CHAD 180 - Individual Studies

1-4 unit(s)
Individual work on special topics by arrangement.

Prerequisite(s): Program director consent.
Grading: Credit/No Credit

CHAD 192 - International Program Studies

1-12 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused
opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

**Grading:** Mixed Grading

**CHAD 195 - Senior Seminar in Child Development**

3 unit(s)
Advanced study of recent and seminal research and writing in the area of child and adolescent development.

**Prerequisite(s):** CHAD major, 12 units completed in CHAD, senior standing, and completion of CHAD 100W or LLD 100W with a grade of 'C' or better ('C-' not accepted).

**Grading:** Letter Graded

**CHAD 199 - Senior Honors Thesis**

1-3 unit(s)
Supervised thesis. Enrollment limited to qualified senior child and Adolescent development majors.

**Prerequisite(s):** Senior or graduate standing and instructor consent.

**Grading:** Credit/No Credit

**CHAD 260A - Seminar in Child and Adolescent Development: Research**

3 unit(s)
Advanced study of recent child and adolescent development research. Examination of quantitative and qualitative research methodologies used in the field.

**Satisfies GWAR:** Graduation Writing Assessment Requirement

**Prerequisite(s):** Graduate standing; 12 units in CHAD or related disciplines; CHAD 101 (or equivalent); CHAD majors.

**Grading:** Letter Graded

**Note(s):** This course satisfies graduate-level GWAR in this master's program.

**CHAD 260B - Seminar in Child and Adolescent Development**

3 unit(s)
Capstone course with advanced study of recent research and writings in the area of child and adolescent development. Course includes completion of the cumulative experience project.

**Prerequisite(s):** Graduate standing; 9 units in CHAD MA core courses, co-registration in CHAD 298; CHAD majors.

**Grading:** Letter Graded

**CHAD 262 - Multicultural Issues in Child and Adolescent Development**

3 unit(s)
Examination of factors influencing the psychosocial development of children and adolescents in a multicultural society. Theoretical and methodological issues affecting the understanding of diversity in child development are also explored.
Prerequisite(s): 9 units in CHAD or related disciplines.
Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

CHAD 266 - Social Policy Issues in American Childhood and Youth

3 unit(s)
Survey of issues in child and adolescent development which are the topics of national debate in the United States. Research background and social policy implications of these topics are addressed.

Prerequisite(s): 9 units in CHAD or related disciplines.
Grading: Letter Graded

CHAD 268 - Seminar in Social and Emotional Development

3 unit(s)
Examination of current issues in childhood and adolescent social and emotional development: processes underlying self-esteem and self-control and emergence of the self. Contributions of family, school and society are considered.

Prerequisite(s): 9 units in CHAD or related disciplines.
Grading: Letter Graded

CHAD 270 - Seminar in Cognitive and Language Development

3 unit(s)
Examination of major topics in cognitive and language development: stages of development, nature/nurture controversy, stability of behavior over time. Individual differences in cognition and cognitive styles are also explored.

Prerequisite(s): 9 units in CHAD or related disciplines.
Grading: Letter Graded

CHAD 298 - Special Studies in Child and Adolescent Development

3-6 unit(s)
Supervised study in the field of child development.

Prerequisite(s): Admission to candidacy for the master's degree.
Grading: Mandatory Credit/No Credit/RP

CHAD 299 - Master's Thesis

3-6 unit(s)
Supervised thesis in the field of child development.

Prerequisite(s): Admission to candidacy for the master's degree.
Grading: Mandatory Credit/No Credit/RP

Overview

The mission of the Department of Communicative Disorders and Sciences is to provide rigorous academic and clinical preparation for students seeking careers working with persons with communication and swallowing disorders, and their families. One of the first Communicative Disorders and Sciences programs in California, the department has prepared students for careers as speech-language pathologists and audiologists for more than 40 years. Speech-language pathologists identify, evaluate and provide interventions for children and adults with speech, language, cognitive-communicative, and swallowing disorders. Audiologists diagnose and treat individuals with hearing and balance disorders. Our academic and pre-clinical undergraduate curriculum provides the basis for further graduate study, required for a career in either field. Our Master's Degree program in Speech Language Pathology is accredited by the Council on Academic Accreditation of the American Speech-Language and Hearing Association and by the California Commission on Teacher Credentialing. Members of the SJSU community and the larger community receive speech, language and hearing services at the Kay Armstead Center for Communication Disorders (Sweeney Hall 118B).

Undergraduate Major(s)

Communicative Disorders and Sciences, BA

The BA Communicative Disorders and Sciences degree, offered by the Department of Communicative Disorders and Sciences, is a pre-professional program intending to prepare students for graduate study in audiology or speech-language pathology.

- Program Learning Outcomes

Summary of Degree Units

University Graduation Requirements 38
Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

Communicative Disorders and Science courses are only offered once per year. That means that students begin CDS courses in Fall semesters only, as Spring semester courses cannot be taken without having completed the Fall semester prerequisites.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Core Lower Division General Education (18 units)

Of the 39 units required by the university, 21 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with a major advisor for details.

Upper Division General Education (9 units)

Of the 9 units required by the university, 0 units may be satisfied by coursework outlined below. Consult with a major advisor for details.

American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

African American Studies (6 units)

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
• AFAM 2B - African Americans and the Development of America’s History and Government 3 unit(s)  
  (D+US123)

Asian American Studies (6 units)

• AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)  
  • AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

Chicana and Chicano Studies (6 units)

• CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)  
  • CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

U.S. History and Government (6 units)

• HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)  
  • POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

Physical Education (2 units)

All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students' needs and interests, the university offers a diverse selection of activity courses.

Graduation Writing Assessment Requirement (3 units)

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

Major Preparation (15-18 units)

• STAT 95 - Elementary Statistics 3 unit(s) (B4)

Complete One Course From:

• BIOL 30 - Principles of Biology I 4 unit(s) (B2B3)  
  • BIOL 10 - The Living World 3 unit(s) (B2)  
  • BIOL 21 - Human Biology 3 unit(s) (B2+B3)

Complete One Course From:

• CHEM 1A - General Chemistry 5 unit(s) (B1+B3)  
  • CHEM 30A - Introductory Chemistry 3 unit(s) (B1+B3)  
  • PHYS 1 - Elementary Physics 3 unit(s) (B1) (must also take B3)
Complete One Course From:

- ANTH 11 - Cultural Anthropology 3 unit(s) (D)
- GERO 107 - Aging and Society 3 unit(s) (S)
- PSYC 1 - Introduction to Psychology 3 unit(s) (D)
- SOCI 57 - Community Involvement and Personal Growth 3 unit(s) (E)
- SOCI 80 - Social Problems 3 unit(s) (D)

Complete One Course from (with Advisor Approval):

- CHAD 60 - Child Development 3 unit(s) (E)
- PH 15 - Human Life Span 3 unit(s) (D)
- PSYC 102 - Psychology of Childhood 3 unit(s)

Major Requirements (42 units)

Core Courses (36 units)

- EDSP 102 - Communication Development in Children 3 unit(s)
- EDSP 110 - Survey of Communication Disorders 3 unit(s)
- EDSP 111 - Introduction to Clinical Phonetics 3 unit(s)
- EDSP 112 - Fundamentals of Clinical Practice 3 unit(s)
- EDSP 113 - Anatomy and Physiology of Communication Disorders 3 unit(s)
- EDSP 120 - Communicative Disorders in Children 3 unit(s)
- EDSP 161 - Neuroanatomy and Neurophysiology of Communication Disorders 3 unit(s)
- EDSP 162 - Communicative Disorders in Adults 3 unit(s)
- EDSP 176 - Guided Professional Clinical Observations 3 unit(s)
- EDAU 115 - Hearing Science 3 unit(s)
- EDAU 170 - Introduction to Audiology 3 unit(s)
- EDAU 172 - Principles of Aural Rehabilitation 3 unit(s)

Practicum (6 units)

Placement in clinical practicum is contingent upon class availability, major GPA verification of 3.0+ and an overall GPA of 2.7+. Students who are not assigned a clinic placement will need to see their advisor to submit a course substitution form.

- EDSP 177 - Practicum in Speech Pathology 1-3 unit(s)
- EDAU 177 - Practicum in Audiology 1-3 unit(s)

University Electives (22-25 units)

Selected in conference with advisor (may include a minor).

Total Units Required (120 units)
The Department of Communicative Disorders and Sciences (CD&S) Master's degree program in Speech-Language Pathology offers an in-depth study of communication disorders with an emphasis on articulation and phonological disorders, fluency disorders (stuttering), augmentative and alternative communication (AAC), voice disorders, dysphagia (swallowing disorders), neurogenic disorders, hearing disorders, language disorders, social aspects of communication, and cognitive-communication disorders. Courses and clinical training opportunities place a high priority on assessment and intervention within an evidence-based, ethical, inclusive, and multicultural framework. Clinical practica are completed in varied settings, including the Kay Armstead Center for Communication Disorders housed in the department. Signature clinics include an AAC clinic, a voice clinic, a clinic for adults with intellectual disability, a clinic for children with language disorders, the Spartan Aphasia Research Clinic, and a summer camp for children with stuttering. Students have clinical opportunities for working with infants, toddlers, children, adolescents, and adults in multiple settings, including public, private and charter schools (preschool, elementary, middle, high schools), rehabilitation agencies, private practices, skilled nursing facilities, and hospitals.

Detailed information about the program can be found on the department website.

Admissions Requirements

University Requirements

Applicants must meet all university admission requirements. The university-level graduate application is separate from the application you send to the department. You will need to apply separately to the university to obtain approval for university-level admission and to the department to obtain admission into the Master of Arts in Education with a concentration in Speech Pathology. Depending on their level of preparation, students can be admitted in either classified or conditionally classified standing. Minimum requirements for admission in classified standing are a completed Bachelor's degree or post-baccalaureate program in communication disorders. An applicant holding a Bachelor's degree in another field of study may be admitted with conditionally classified standing. The admissions letter will detail the preparatory coursework required for advancing to classified standing in the program. Additional requirements for international students are listed below.

Department Requirements

Applicants who meet the following criteria beyond university requirements will be considered for classified admission into the Department of Communicative Disorders and Sciences. The department admission process requires three (3) application processes and nine (9) tasks:

1. Via Communication Sciences and Disorders Centralized Application Service (CSDCAS)
   a. Official Transcripts (3.0 minimum GPA)
   b. Essay (reasons for pursuing Speech-Language Pathology as a career choice; detailing multicultural experience/study and relationship to future educational/health career as an SLP, ability to connect experiences to Lurie College of Education strategic plan focus areas)
A minimum scaled score of 41 in each of the three sections (reading, writing, mathematics). A section score as low as 37 is acceptable if the total scaled score is at least 123.

We generally refer students to take the California Basic Educational Skills Test (CBEST) yet you do not have to if you meet one of the other options outlined in the CTC leaflet cl-667. To submit test scores from one of the CTC leaflet alternatives, you must contact the SJSU Credentials Office (credentials@sjsu.edu) to verify the validity of your scores before submitting them to CSDCAS. The deadline for submission of completed applications is February 1.

Applicants from countries in which the official native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage at GAPE.

**Advancement to Candidacy**

Students must meet the university requirements for candidacy. General university requirements for advancement to candidacy for the MA degree are detailed in the Graduate Policies and Procedures section. Candidacy includes the successful completion of the Graduation Writing Assessment Requirement (GWAR). The department's GWAR is met by completing the EDSP 221 course with a grade of B or better.

**Graduation Requirements**

**University Graduation Requirements**

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures. Completion of the degree also requires a minimum grade of "B" in all courses taken and a minimum overall GPA of 3.0.

**Degree Requirements**

Students are expected to complete all required courses, the culminating experience, clinical practica, and observations. In order to meet degree requirements, candidates for the MA in Education with a concentration in Speech Pathology must maintain a 3.0 GPA in all courses with no single course grade below a B-. Students who earn less than a B- in any required course must retake the course and earn a grade of B- or better.

1. Complete 24 practicum/fieldwork units including EDSP 277 (3 times in 3 different types of clinics), EDSP 276, EDSP 269 (School-based SLP externship), and EDSP 278 (medical/other externship). Candidates for the Master's degree must accumulate a minimum of 375 clock hours in a supervised clinical practicum in three distinctly different settings, and a minimum of 25 hours of observation;
2. Complete 39 units of required academic courses, corresponding to national and state accreditation standards in Speech-Language Pathology;
3. Apply for graduation via MySJSU; and,
4. Culminating Experience: Successfully pass the MS Comprehensive exam or complete a Master's Thesis as a required culminating experience in the graduate program.
In addition to the curriculum, students must demonstrate knowledge of five additional content areas as required by the American Speech-Language-Hearing Association (ASHA) and the California Commission on Teacher Credentialing (CCTC).

1. Biological Sciences, ASHA Requirement;
2. Social/Behavioral Sciences, ASHA Requirement;
3. Physical Sciences, ASHA Requirement;
4. Statistics; and,
5. CCTC Requirement Child and/or Adolescent Development.

Prior to providing any speech, language or communication assessment or intervention services during clinical practica, students must show evidence of all of the following:

a. Certificate of Clearance;
b. Negative TB (tuberculosis) test;
c. Negative Hepatitis test;
d. Physical Clearance to provide speech-language pathology services;
e. Successful completion of online training related to HIPAA (Health Insurance Portability and Accountability Act); and,
f. CPR (Cardiopulmonary resuscitation) Certification.

Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). Program GWAR fulfilled by EDSP 221.

Culminating Experience

Plan A (Comprehensive Exam)

All students in the MA in Speech Language Pathology program must successfully complete the Comprehensive Examination during their last semester (Spring semester of the second year). The examination assesses broad knowledge and competency across topics in speech, language, hearing, cognitive-communication, and swallowing disorders. Upon completion of the program, students receive a Master of Arts degree and are eligible to work as speech-language pathologists.

Plan B (Thesis)

Students who have a strong interest in research may be approved to complete the Thesis (Plan A). It requires students to secure a thesis advisor and a thesis committee and enroll in EDSP 299 during the Fall semester of the second year. (Enrolling in the EDSP 299 adds 3 units to the program for a total of 66 units.) Students electing to take this option are not required to complete the comprehensive examination. Theses must be defended and approved by the thesis committee and follow the College of Graduate Studies Master's Thesis and Doctoral Dissertation Guidelines.

Master's Requirements (63-66 units)

Core Courses (39 units)

- EDSP 221 - Research Seminar in Communicative Disorders 3 unit(s) (GWAR) (Students must earn a B (3.0) or better in EDSP 221)
- EDSP 222 - School Age Language, Literacy, and Social Comm. 3 unit(s)
• EDSP 250 - Seminar in Voice Disorders 3 unit(s)
• EDSP 251 - Seminar in Phonological Disorders 3 unit(s)
• EDSP 252 - Seminar Fluency Disorders 3 unit(s)
• EDSP 254 - Seminar in Neurological Disorders 3 unit(s)
• EDSP 255 - Seminar in Motor Speech Disorders 3 unit(s)
• EDSP 259 - Seminar in Language Disorders in Children 3 unit(s)
• EDSP 260 - Seminar in Dysphagia 3 unit(s)
• EDSP 262 - Speech and Language in a Cross-Cultural Society 3 unit(s)
• EDSP 264 - Contemporary Professional Issues 3 unit(s)
• EDSP 265 - Seminar in Cognitive Disorders 3 unit(s)
• EDSP 288 - Seminar in AAC and Communication Disorders 3 unit(s)

Practicum (24 units)

Complete the following 24 practicum/fieldwork units for a minimum of 400 clinic hours (375 practicum hours + 25 observation hours):

• EDSP 269 - Field Experience in Public Schools - Speech Pathology and Audiology 6 unit(s)
• EDSP 276 - Practicum in Advanced Assessment 3 unit(s)
• EDSP 277 - Advanced Practicum-Speech Pathology 1-3 unit(s) (Students take EDSP 277 (3 units) three times for a total of 9 units)
• EDSP 278 - Clinical Management and Practicum 6-10 unit(s) (Students take EDSP 278 once for a total of 6 units)

Culminating Experience (0-3 units)

Complete One Option (Plan A or Plan B):

Plan A (Comprehensive Exam)

• Comprehensive Exam

Plan B (Thesis)

The Plan B (Thesis) option adds 3 units to program requirements and requires approval from the graduate advisor.

• EDSP 299 - Master's Thesis 1-4 unit(s) (3 units required)

Total Units Required (63-65 units)

Elective courses must be planned in consultation with the Graduate Advisor.

The maximum number of upper-division undergraduate units that can be applied toward the master's degree is 15.

Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU Cumulative grade point averages of 3.0 in order to graduate.

EDAU 115 - Hearing Science
3 unit(s)
Anatomy, physiology and psychoacoustics of the auditory system; theories of hearing and physics of sound.

Prerequisite(s): Communicative Disorders and Sciences major and upper division standing, or instructor consent.
Grading: Letter Graded

EDAU 116 - Audiology for Speech-Language Therapists

3 unit(s)
Basic knowledge of acoustics, anatomy and physiology of the ear and auditory system, auditory perception, and foundations of the clinical practice of audiology.

Prerequisite(s): Communicative Disorders and Sciences major and upper division standing, or instructor consent.
Grading: Letter Graded

EDAU 170 - Introduction to Audiology

3 unit(s)
Theory and application of the fundamentals of pure tone and speech audiometric procedures and immittance measurements for identifying hearing loss and the differential diagnosis of peripheral auditory problems.

Prerequisite(s): EDAU 115 or instructor consent.
Grading: Letter Graded

EDAU 172 - Principles of Aural Rehabilitation

3 unit(s)
Principles and methods of aural rehabilitation procedures in adults and children. Components include treatment of listening, visual and oral communication skills; psychosocial aspects of hearing loss.

Prerequisite(s): EDAU 115 and EDAU 170.
Grading: Letter Graded

EDAU 177 - Practicum in Audiology

1-3 unit(s)
Supervised clinical experience in screening, testing and treatment of children and adults with hearing impairments.

Prerequisite(s): EDAU 170 and EDAU 172, or instructor consent.
Grading: Credit/No Credit

EDAU 257 - Seminar in Audiology

3 unit(s)
Current issues impacting the practice of audiology.

Prerequisite(s): 6 units of graduate work or instructor consent.
Grading: Letter Graded

EDAU 273 - Aural Rehabilitation
3 unit(s)  
Aural rehabilitative services and procedures for the hearing impaired. Emphasis on governmental agencies, community services, especially for adult and geriatric populations, school programs and the professional role and responsibilities of the audiologist.  

Grading: Letter Graded  

**EDAU 277 - Advanced Practicum in Aural Rehabilitation**  
1-3 unit(s)  
Supervised advanced clinical experience with children and adults with complex communicative disorders due to hearing impairments, leading to independence in administering therapeutic services.  

Prerequisite(s): EDAU 177, EDAU 172, and instructor consent.  
Grading: Letter Graded  

**EDAU 298 - Special Studies**  
1-3 unit(s)  
Supervised study in a specific field of audiology.  

Prerequisite(s): Consent of area coordinator.  
Grading: Mandatory Credit/No Credit/RP  

**EDSP 102 - Communication Development in Children**  
3 unit(s)  
Knowledge about the language learning process and theories as well as the factors that interfere with its normal development. Introduction to linguistic terminology, components in language, stages of language development, bilingualism and language diversity.  

Prerequisite(s): Communicative Disorders and Sciences major or instructor consent.  
Grading: Letter Graded  

**EDSP 110 - Survey of Communication Disorders**  
3 unit(s)  
Introduction to person-centered and multicultural perspectives within educational, socialization, and vocational contexts for speech, language, hearing and swallowing disorders across the lifespan.  

Prerequisite(s): Communicative Disorders and Sciences major and upper division standing, or instructor consent.  
Grading: Letter Graded  

**EDSP 111 - Introduction to Clinical Phonetics**  
3 unit(s)  
Introduction to speech sound production, rules of the International Phonetic Alphabet, transcription and application.  

Prerequisite(s): Communicative Disorders and Sciences major and upper division standing, or instructor consent.  
Grading: Letter Graded
EDSP 112 - Fundamentals of Clinical Practice

3 unit(s)
Fundamental principles of clinical practice in speech-language pathology and audiology across the lifespan including ethics, evidence-based practice, and cultural humility.

Prerequisite(s): EDSP 102, EDSP 111, and EDSP 113; or instructor consent.
Grading: Letter Graded

EDSP 113 - Anatomy and Physiology of Communication Disorders

3 unit(s)
Analysis and measurement of the components and processes involved in the production and reception of speech.

Prerequisite(s): Communicative Disorders and Sciences major and upper division standing, or instructor consent.
Grading: Letter Graded

EDSP 120 - Communicative Disorders in Children

3 unit(s)
Overview of communication disorders and relevant treatment strategies for children.

Prerequisite(s): EDSP 102, EDSP 111, and EDSP 113; or instructor consent.
Grading: Letter Graded

EDSP 161 - Neuroanatomy and Neurophysiology of Communication Disorders

3 unit(s)
Neurological substrates and mechanisms underlying typical speech, language, and swallowing function.

Prerequisite(s): Upper division standing and EDSP 113; or instructor consent.
Grading: Letter Graded

EDSP 162 - Communicative Disorders in Adults

3 unit(s)
Overview of communication disorders and relevant management strategies for adults.

Prerequisite(s): EDSP 102, EDSP 111, and EDSP 113; or instructor consent.
Grading: Letter Graded

EDSP 176 - Guided Professional Clinical Observations

3 unit(s)
Guided observation experiences in audiology and speech-language pathology; introduction to: clinical reasoning and clinical mindset; professional conduct; clinician-client interactions and perspectives; efficacy and evidence-based practice; interprofessional collaboration; effective oral, listening, nonverbal, and written clinical communication skills.
**Prerequisite(s):** EDSP 102 and EDSP 111.  
**Grading:** Letter Graded

**EDSP 177 - Practicum in Speech Pathology**

1-3 unit(s)  
Supervised clinical experience with children and adults who have speech and language disorders.

**Prerequisite(s):** EDSP 112, EDSP 120 and EDSP 125 or instructor consent.  
**Grading:** Credit/No Credit

**EDSP 180 - Independent Study in Communicative Disorders and Sciences**

1-3 unit(s)  
Supervised study in specific topics of communicative disorders and sciences.

**Prerequisite(s):** Upper division standing and instructor consent.  
**Grading:** Credit/No Credit

**EDSP 221 - Research Seminar in Communicative Disorders**

3 unit(s)  
An overview of the theory, procedures, application and use of research in educational settings; assist in the study of a specific area of applied research from the current professional literature; and assist in the development of a specific research proposal.

*Satisfies GWAR: Graduation Writing Assessment Requirement*  
**Grading:** Letter Graded

**Note(s):** This course satisfies graduate-level GWAR in this master's program.

**EDSP 222 - School Age Language, Literacy, and Social Comm.**

3 unit(s)  
Explores and discusses connections between listening, speaking, reading and writing with applications in assessing and planning intervention programs for monolingual and bilingual individuals who have a developmental or acquired language-learning disabilities. Required for speech-language pathologists.

*Course may be repeated for credit for up to 6 units.*

**Prerequisite(s):** EDSP 251, EDSP 259, EDSP 262, EDSP 276 or instructor consent.  
**Grading:** Letter Graded

**EDSP 250 - Seminar in Voice Disorders**

3 unit(s)  
Advanced discussion of human voice production, the perceptual, acoustic, and physiologic characteristics of voice disorders, and clinical implications, with hands-on learning of assessment methods and treatment of functional, organic, and neurological voice disorders across the lifespan.
EDSP 251 - Seminar in Phonological Disorders

3 unit(s)
Establishes a level of advanced competency in the knowledge and understanding of phonology and phonological disorders: the procedures of analysis, the assessment of phonological disorders and the establishment of intervention strategies as a logical consequence of diagnostic findings.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded

EDSP 252 - Seminar Fluency Disorders

3 unit(s)
Examines the complex issues related to the clinical management of fluency disorders. Includes contemporary research on etiology, assessment methods and concerns, intervention approaches, interdisciplinary considerations, and technological advancements.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded

EDSP 254 - Seminar in Neurological Disorders

3 unit(s)
Provides an understanding of the neuropsychological, cognitive and linguistic correlates underlying adult neurological disorders. Assessment and treatment for a variety of disorders emphasized.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded

EDSP 255 - Seminar in Motor Speech Disorders

3 unit(s)
Provides an understanding of anatomy, physiology and neurology of motor speech disorders. Emphasis on assessment and treatment of apraxia and dysarthrias.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded

EDSP 259 - Seminar in Language Disorders in Children

3 unit(s)
Provides an understanding of the neuropsychological, cognitive and linguistic correlates of developmental language disorders which underlie the competencies to diagnose and provide treatment for children with language impairments.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded
EDSP 260 - Seminar in Dysphagia

3 unit(s)
A review of the anatomic, neurologic, physiologic, and behavioral correlates of normal and disordered swallowing across the life-span. Assessment and treatment of swallowing disorders will be emphasized in children and adults with genetic and acquired disorders.

Prerequisite(s): EDSP 254, EDSP 255, EDSP 265 or Instructor Consent.
Grading: Letter Graded

EDSP 262 - Speech and Language in a Cross-Cultural Society

3 unit(s)
Communication development and disorders in bilingual clients. Emphasis on the assessment of such disorders to the bilingual population.

Grading: Letter Graded

EDSP 264 - Contemporary Professional Issues

3 unit(s)
Organization and development of profit and nonprofit agencies that serve the communicatively impaired. Role and responsibilities of supervisors included.

Grading: Letter Graded

EDSP 265 - Seminar in Cognitive Disorders

3 unit(s)
Provides a framework for better understanding the process of cross-generational communication and the improvement of communication competencies for interaction with cognitively impaired persons.

Grading: Letter Graded

Cross-listed with GERO 265. Communicative Disorders and Sciences is responsible for scheduling.

EDSP 269 - Field Experience in Public Schools - Speech Pathology and Audiology

6 unit(s)
Supervised teaching in speech pathology and audiology. Two hundred clock hours minimum requirement for credential as speech, language and hearing specialist.

Prerequisite(s): TB clearance, CPR, basic physical, Hep B
Grading: Letter Graded

EDSP 276 - Practicum in Advanced Assessment

3 unit(s)
Supervised clinical experience in assessment of a variety of speech/language disorders. Laboratory and classroom experience required.
Prerequisite(s): Instructor consent.
Grading: Letter Graded

EDSP 277 - Advanced Practicum-Speech Pathology

1-3 unit(s)
Working with children, adult, and group clients within a clinical practicum setting including preparing lesson plans, analyzing assessment results, developing and implementing therapy activities, collecting data, conducting client conferences and writing reports and home programs.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Graduate standing and instructor consent.
Grading: Letter Graded

EDSP 278 - Clinical Management and Practicum

6-10 unit(s)
Supervised clinical experience.

Prerequisite(s): EDSP 254, EDSP 255, EDSP 276, EDSP 277 and instructor consent.
Grading: Credit/No Credit

EDSP 288 - Seminar in AAC and Communication Disorders

3 unit(s)
Exploration of how augmentative and alternative communication is used for individuals with complex communication needs. The impact of cognition, educational, physical, psychosocial and linguistic aspects of behavior on AAC use, assessment, intervention and research will be explored.

Prerequisite(s): EDSP 255, graduate standing or instructor consent.
Grading: Letter Graded

EDSP 298 - Special Studies

1-3 unit(s)
Supervised study in a specific field of speech-language pathology.

Prerequisite(s): Instructor consent.
Grading: Mandatory Credit/No Credit/RP

EDSP 299 - Master's Thesis

1-4 unit(s)
Supervised thesis work in the field of speech-language pathology.

Prerequisite(s): Instructor consent.
Grading: Mandatory Credit/No Credit/RP

Overview

The Counselor Education Department prepares individuals to work as counselors in culturally and economically diverse K-12 schools, postsecondary education settings, and community-based organizations. The department offers a Master's degree in Counseling and Guidance, with specializations in K-12 School Counseling [including a Pupil Personnel Services (PPS) K-12 School Counseling Credential, and a Child Welfare and Attendance (CWA) authorization], Higher Education, and Professional Clinical Counseling. Faculty work closely with graduate students to build effective counseling and assessment skills; nurture reflective thinking and intercultural awareness; and provide the experiences needed to become dynamic, culturally sustaining counselors who are committed to advocacy, social justice, and lifelong learning. Graduates are prepared to support the personal growth, holistic wellness, and healthy development of individuals and groups through counseling approaches that are strengths-based and grounded in theory, research, and effective practices.

Master(s)

Counseling and Guidance, MA

- Admissions Requirements
- Requirements for Advancement to Candidacy
- Requirements for Graduation
- Master's Requirements (48 units)
- Program Learning Outcomes

The Counseling and Guidance MA degree program prepares individuals to apply the theory and principles of guidance and counseling to the provision of support for the personal, social, educational, and vocational development of students, and the organizing of guidance services within elementary, middle, and secondary educational institutions. It includes instruction in legal and professional requirements, therapeutic counselor intervention, vocational counseling, and related sociological and psychological foundations.
Additional information is available on the Department of Counselor Education website: www.sjsu.edu/counselored.

**Admissions Requirements**

Applicants must submit a complete graduate application by applying through the CSU Cal State Apply system and meet all the university admission requirements. Applicants apply separately to the department to obtain admission into the MA in Counseling and Guidance. See the GAPE Graduate Admissions website and this Catalog for general information about graduate admissions at SJSU.

Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage at GAPE. For TOEFL Requirements, see the Policies and Procedures section, Graduate and Post-Baccalaureate Information.

**Requirements for Admission to Classified Standing**

Applicants may be fully admitted if they meet the admissions requirements for the Graduate Division and the department's requirements. The minimum requirements for the program are a bachelor's degree from a regionally accredited college or university in any major/discipline and a 3.0 GPA. Experience serving individuals from diverse backgrounds within K-12 and/or postsecondary education settings, and a strong commitment to equity and social justice. Candidates who do not meet the 3.0 GPA requirement will be considered if they demonstrate considerable experience in the education and/or counseling field with individuals from diverse backgrounds.

A. Candidates must meet all university admission requirements.

B. Department application materials include the items listed below and should be uploaded directly on the Cal State Apply portal. For more information about the Counselor Education Department's application materials and process, visit the department's website.

1. Autobiographical and Professional Goals Statement (three pages typed and double-spaced maximum) that includes the applicant's: a) educational background, b) experiences that demonstrate concern and capacity to work with individuals from diverse backgrounds in addition to any paid or volunteer work experience directly related to the education and/or counseling fields, c) professional goals in pursuing the master's degree with or without a PPS K-12 School Counseling Credential (include areas of interest in counseling), and d) any additional information relevant to pursuing a master's degree with or without a PPS K-12 School Counseling Credential through SJSU's Counselor Education Department.

2. Resume (three pages maximum) that includes degree(s) earned or in progress, employment, volunteer work, research experience, and honors/awards, if any.

3. Three (3) recommendations from current or former professors who can testify to the applicant's ability to successfully pursue an advanced academic degree and/or from employers or supervisors who can address the applicant's experience within the proposed field of study. PPS School Counseling Credential-only applicants are only required to submit two recommendations. The Recommendation Form can be found on the department's website.

C. Official sealed transcripts from each college/university attended can be sent digitally to San José State University or mailed to the SJSU Graduate Admissions office at:

Graduate Admissions and Program Evaluations
San José State University
One Washington Square, SH 404
San Jose CA 95192-0073

**Admission to Conditionally Classified Standing**
Applicants may be conditionally admitted (admitted with conditions) if they meet the admission requirements for the Graduate Division but do not fully meet departmental admissions requirements. The individual admission notification will explain the required terms and conditions for attaining Classified standing.

**Requirements for Advancement to Candidacy**

Candidacy denotes that a student is fully qualified to complete the final stages of the Master of Arts degree. General university requirements for advancement to candidacy are detailed in the Graduate Policies and Procedures section of this catalog. Candidacy includes the successful completion of the Graduation Writing Assessment Requirement (GWAR).

**Department Requirements**

1. Complete 18 units of foundational core courses (EDCO 215, EDCO 218, EDCO 232, EDCO 248, EDCO 266, EDCO 282).
2. Complete 9 units of advanced courses with a "C" or better. These courses can include practicum and fieldwork experience courses.
3. Complete the Graduate Writing Assessment Requirement (GWAR) by completing EDCO 215 or EDCO 266 with a "B" or higher.
4. Maintain an overall graduate GPA of 3.0 or higher.
5. Meet with your advisor to complete the Petition for Advancement to Graduate Candidacy form.

**Requirements for Graduation**

**University Requirements**

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures. Completion of the degree also requires a minimum grade of "C" in all courses taken and a minimum overall GPA of 3.0.

**Department Requirements**

1. Successfully complete all "Requirements for Advancement to Candidacy."
2. Complete 6 practicum/fieldwork units from among [EDCO 267, EDCO 280, EDCO 292 (up to 6 units), EDCO 293, EDCO 294]
3. Complete 6 units of advanced courses (EDCO 288 and EDCO 289)
4. Complete 12 units of advanced elective courses from among the following: EDCO 227, EDCO 244, EDCO 268, EDCO 279, EDCO 283, EDCO 285, EDCO 286, EDCO 287 (can include additional practicum/fieldwork courses)
5. Complete 3 units (EDCO 221) to develop a project proposal (Plan B) or a thesis proposal (Plan A)
6. Apply for graduation via MySJSU
7. Successfully complete either the project (Plan B, EDCO 298) or thesis (Plan A, EDCO 299)

**Graduation Writing Assessment Requirement**

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR).

*This requirement is satisfied by passing EDCO 215 or EDCO 266 with a grade of B or higher.*
Culminating Experience

Students choose a Plan A (Thesis) or Plan B (Project) option as their program culminating experience.

Plan A (Thesis)

Students selecting the Plan A option will write a master's thesis. The thesis will include original research on a topic approved by the thesis committee and must meet university requirements as stipulated in this catalog and in the SJSU Master's Thesis and Doctoral Dissertation Guidelines. Thesis proposals must be approved by the graduate committee, which is composed of two department faculty and a third faculty member from outside the department. Students enroll in EDCO 299 (3 units).

Plan B (Project)

Students selecting the Plan B option will complete a master's degree project or research paper. These students enroll in EDCO 298 (3 units).

Master's Requirements (48 units)

Foundational Core Courses (18 units)

Take EDCO 215 and EDCO 218 in the first semester

- EDCO 215 - Introduction to Counseling and Guidance 3 unit(s) (GWAR)
- EDCO 218 - Counseling Process & Techniques 3 unit(s)
- EDCO 232 - Law & Ethics in Counseling 3 unit(s)
- EDCO 248 - Dynamics of Behavior and Development 3 unit(s)
- EDCO 266 - Education and Career Planning 3 unit(s) (GWAR)
- EDCO 282 - Assessment for Counselors 3 unit(s)

Advanced Courses in Professional Development (18 units)

(required)

- EDCO 288 - Seminar in Counseling Theory and Practice 3 unit(s) (GWAR)
- EDCO 289 - Seminar in Professional Counseling 3 unit(s)

Complete 12 Units From:

- EDCO 227 - School-Family-Community Collaboration 3 unit(s)
- EDCO 244 - Cultural Perspectives in Counseling 3 unit(s)
- EDCO 268 - Lifespan Development 3 unit(s)
- EDCO 279 - Advanced Group Process Theory and Practice 3 unit(s)
- EDCO 283 - Advanced Educational Assessment 3 unit(s)
- EDCO 285 - Trauma Counseling & Crisis Intervention 3 unit(s)
- EDCO 286 - Organizational Change and Development 3 unit(s)
- EDCO 287 - Comprehensive School Counseling Analysis 3 unit(s)

Practicum and Fieldwork (6 units)
Choice of 2 courses and up to 6 units of EDCO 292:

- EDCO 267 - Practicum in Lifespan and Career Development 1-3 unit(s)
- EDCO 280 - Multicultural Counseling 3 unit(s)
- EDCO 292 - Supervised Experience in Counseling 3-6 unit(s)
- EDCO 293 - Practicum in Child and Substance Abuse 3 unit(s)
- EDCO 294 - Practicum in Self-Development 3 unit(s)

Research (3 units)

- EDCO 221 - Research in Counselor Education 3 unit(s)

Culminating Experience (3 units)

Complete One Option (Plan A or Plan B):

Plan A (Thesis)

- EDCO 299 - Master's Thesis 3 unit(s)

Plan B (Project)

- EDCO 298 - Special Studies in Counselor Education 3 unit(s)

Total Units Required (48 units)

Elective courses must be planned in consultation with the Graduate Advisor.

Upon completion of the degree requirements, the student must have achieved minimum candidacy in order to graduate.

Credential(s)

K-12 School Counseling Credential

The Pupil Personnel Services (PPS) K-12 School Counseling Credential, offered by the Department of Counselor Education, is a 54-unit program that qualifies individuals to work as school counselors in K-12 public schools. A Child Welfare and Attendance (CWA) authorization, which focuses on issues related to truancy and dropout prevention, can also be obtained by completing 9 units (3 courses) beyond the requirements for the PPS School Counseling Credential. Please note, a master's degree in Counseling or a related field is required to obtain a clear PPS School Counseling Credential. Therefore, applicants who have not already earned a master's degree in Counseling or a related field, need to apply via the MA in Counseling and Guidance program option. The MA in Counseling and Guidance with a PPS K-12 School Counseling Credential program option requires the completion of 60 units. For more information, see the MA + PPS School Counseling Credential Coursework Advising Sheet.

Individuals admitted into the PPS School Counseling Credential program are eligible to apply for a PPS Internship Credential (valid for up to two years) if they are offered a school counseling position by a local school district before
completing the program requirements. To be eligible, a program candidate must have completed a minimum of 9 units with a 3.0 GPA or higher and passed the CBEST.

PPS Credential Requirements (54 units)

Foundational Core Courses (24 units)

*Take EDCO 215 and EDCO 218 in the first semester*

- EDCO 215 - Introduction to Counseling and Guidance 3 unit(s) (GWAR)
- EDCO 218 - Counseling Process & Techniques 3 unit(s)
- EDCO 227 - School-Family-Community Collaboration 3 unit(s)
- EDCO 232 - Law & Ethics in Counseling 3 unit(s)
- EDCO 248 - Dynamics of Behavior and Development 3 unit(s)
- EDCO 266 - Education and Career Planning 3 unit(s) (GWAR)
- EDCO 282 - Assessment for Counselors 3 unit(s)

Complete One Course From:

- EDCO 244 - Cultural Perspectives in Counseling 3 unit(s)
- EDCO 280 - Multicultural Counseling 3 unit(s)

Professional Development Advanced Courses (21 units)

- EDCO 221 - Research in Counselor Education 3 unit(s)
- EDCO 279 - Advanced Group Process Theory and Practice 3 unit(s)
- EDCO 283 - Advanced Educational Assessment 3 unit(s)
- EDCO 286 - Organizational Change and Development 3 unit(s)
- EDCO 287 - Comprehensive School Counseling Analysis 3 unit(s)
- EDCO 288 - Seminar in Counseling Theory and Practice 3 unit(s) (GWAR)

Complete One Course From:

- EDCO 267 - Practicum in Lifespan and Career Development 1-3 unit(s) (3 units required)
- EDCO 268 - Lifespan Development 3 unit(s)

Supervised Experience (9 units)

Complete 9 units (600 hours) of counseling fieldwork experience - 200 hours for every 3 units. A minimum of 200 hours must be completed within each of two K-12 school levels.

- EDCO 292 - Supervised Experience in Counseling 3-6 unit(s) (9 units required)

Total Units Required (54 units)

Completion of coursework requires a minimum grade of C or higher in courses completed and a minimum overall GPA of 3.0.
EDCO 4 - Personal, Academic and Career Exploration

3 unit(s)
This course explores the concepts and applications of personal decision-making. Introduction to life-span development concepts through the use of self-assessment instruments and procedures. Orientation to San Jose State University.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

EDCO 4FY - Personal, Academic and Career Exploration

3 unit(s)
This course explores the concepts and applications of personal decision-making. Introduction to life-span development concepts through the use of self-assessment instruments and procedures. Orientation to San Jose State University.

Misc/Lab: 2 hours lecture/ 2 hours Lab

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

EDCO 10 - Adjunct Learning

1-2 unit(s)
Reading/writing/learning skills necessary for comprehension of textbooks and lectures in various disciplines; includes notetaking, exam preparation and library techniques. Not repeatable for graduation credit.

Grading: Credit/No Credit

EDCO 92 - International Program Studies

1-12 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

EDCO 180 - Individual Studies

1-3 unit(s)
Supervised study in specific fields of counselor education not covered by other courses.

Prerequisite(s): Program director consent.
Grading: Credit/No Credit
EDCO 215 - Introduction to Counseling and Guidance

3 unit(s)
Introduction to counseling and guidance research, theories, concepts, and competencies. Provides an overview of the related professional roles and settings.

*Satisfies GWAR: Graduation Writing Assessment Requirement*

**Grading:** Letter Graded

**Note(s):** This course satisfies graduate-level GWAR in this master's program.

EDCO 218 - Counseling Process & Techniques

3 unit(s)
Foundational course in individual and small group counseling process, skills, and techniques. Examines the characteristics of an effective counselor, the role of the counselor in the counseling process, and fundamental counseling microskills and techniques.

**Grading:** Letter Graded

EDCO 219 - Practicum in Guidance II

3 unit(s)
Provides for the expansion and extension of the skills with a focus on group systems communication. Media will be used to help students be aware of constructive and destructive elements of interpersonal functioning in group systems. Two intensive training weekends.

**Grading:** Credit/No Credit

EDCO 221 - Research in Counselor Education

3 unit(s)
Exploration of research and evaluation in education and counseling. Research procedures, forms of evaluation, and data collection and analysis techniques are examined. Coursework focuses on the conceptualization and development of a research proposal.

**Prerequisite(s):** EDCO 215

**Grading:** Letter Graded

EDCO 227 - School-Family-Community Collaboration

3 unit(s)
Exploration of the socio-cultural and psychological dynamics influencing home, school, and community relations. To provide knowledge to collaborate effectively with diverse families, communities, and school personnel to support students' learning, achievement, and psychological well-being.

**Grading:** Letter Graded

EDCO 232 - Law & Ethics in Counseling
Examination of the professional ethical standards guided by the American School Counselor Association (ASCA) and American Counseling Association (ACA) codes of ethics. To explore local, state and federal laws relating to youth and child welfare, adults, and families.

**Grading:** Letter Graded

**EDCO 244 - Cultural Perspectives in Counseling**

3 unit(s)
Exploring, identifying, and broadening personal perspectives, with an emphasis on culture and diversity in the context of counseling. Raising awareness regarding multicultural diversity and social justice issues.

**Prerequisite(s):** EDCO 215, EDCO 218, EDCO 232, EDCO 248

**Grading:** Letter Graded

*Sustainability Focused - SDG 4: Quality Education*

**EDCO 248 - Dynamics of Behavior and Development**

3 unit(s)
Study of the dynamics of individual and group behavior over the lifespan. Specific study of selected personality and development theory and practices.

**Grading:** Letter Graded

**EDCO 266 - Education and Career Planning**

3 unit(s)
Study of theory and practice of educational and career planning. Includes sources, uses, evaluation and filing of educational and career information and procedures for working with both individuals and groups.

*Satisfies GWAR: Graduation Writing Assessment Requirement*

**Grading:** Letter Graded

**Note(s):** This course satisfies graduate-level GWAR in this master's program.

**EDCO 267 - Practicum in Lifespan and Career Development**

1-3 unit(s)
Practicum in lifespan development and career planning with emphasis on the development of applied skills in career counseling. May be repeated for credit when an alternate focus is shown in the Schedule of Classes.

**Prerequisite(s):** Core curriculum.

**Grading:** Letter Graded

**EDCO 268 - Lifespan Development**

3 unit(s)
Examination of human development across the lifespan, through multiple theoretical and cultural perspectives, with a
holistic integration of physical, cognitive, and socio-emotional aspects of development. To deepen knowledge to assist children, adolescents, and adults with life challenges.

**Grading:** Letter Graded

Cross-listed with GERO 268. Counselor Education is responsible for scheduling.

**EDCO 279 - Advanced Group Process Theory and Practice**

3 unit(s)
Focus on diverse theoretical approaches in group dynamics, group facilitation/leadership and the group as an instrument of learning within varying institutional settings.

**Prerequisite(s):** Core curriculum and instructor consent.

**Grading:** Letter Graded

**EDCO 280 - Multicultural Counseling**

3 unit(s)
Practical application of multicultural counseling theories and techniques. Examine and understand personal cultural perspectives; develop empathy and understanding of various community cultures.

**Prerequisite(s):** EDCO 215, EDCO 218, EDCO 232, EDCO 248, EDCO 266 and EDCO 244

**Grading:** Letter Graded

**EDCO 282 - Assessment for Counselors**

3 unit(s)
Exploration of the assessment and diagnostic process, including differential diagnosis and use of diagnostic tools including the current edition of the Diagnostic and Statistical Manual. Discuss development of pathology; applicable for use within educational and counseling agency settings.

**Prerequisite(s):** EDCO 215, EDCO 218, EDCO 232, EDCO 248

**Grading:** Letter Graded

**EDCO 283 - Advanced Educational Assessment**

3 unit(s)
Concept and practice in uses of standardized evaluative instruments in school and community. Emphasis on generating curriculum and guidance hypotheses for groups.

**Prerequisite(s):** Core curriculum.

**Grading:** Letter Graded

**EDCO 285 - Trauma Counseling & Crisis Intervention**

3 unit(s)
Advanced seminar addressing cognitive, affective, behavioral, physiological, and interpersonal effects of trauma. To learn to assess and respond to crises as well as brief and long-term counseling interventions for individuals and groups in K-12, higher education, and agency settings.
EDCO 286 - Organizational Change and Development

3 unit(s)
Examination of organizational change within educational and community settings. To develop knowledge and increase skills in using institutional change strategies and innovations in various settings. Concepts and skills are applied through the design and planning of a change intervention.

Prerequisite(s): EDCO 215, EDCO 218, EDCO 232, EDCO 248, EDCO 266, and EDCO 282
Grading: Letter Graded

EDCO 287 - Comprehensive School Counseling Analysis

3 unit(s)
Examination of the planning, development, organization, and evaluation of comprehensive K-12 school counseling programs based on national standards. Coursework is designed to increase effective use of data and technology to promote students' academic, career, and personal/social development. Hybrid course format.

Prerequisite(s): EDCO 227
Grading: Letter Graded

EDCO 288 - Seminar in Counseling Theory and Practice

3 unit(s)
Assists students in the clarification of philosophical and psychological theory and develops a consistent individual and group counseling theory in relation to a defined lifestyle and the study of practice in school and agency settings.

Prerequisite(s): Core curriculum in the Counseling and Guidance MA or K-12 School Counseling Credential.
Corequisite(s): EDCO 280.
Grading: Letter Graded

EDCO 289 - Seminar in Professional Counseling

3 unit(s)
A culminating seminar which emphasizes a critical review and critique of theory and research in application of human development specialties. May be repeated for credit when an alternate focus is shown in the Schedule of Classes.

Prerequisite(s): Instructor consent.
Grading: Letter Graded

EDCO 292 - Supervised Experience in Counseling

3-6 unit(s)
Supervised field experience in guidance and counseling. Assignments to public schools or agencies.

Prerequisite(s): Core curriculum.
Grading: Credit/No Credit
EDCO 293 - Practicum in Child and Substance Abuse

3 unit(s)
A practicum in peer group systems and psychodrama counseling intervention for treatment of addiction, physical and sexual abuse, teen pregnancy and other at-risk groups. Required participation in a peer group counseling process.

Prerequisite(s): Instructor consent.
Grading: Letter Graded

EDCO 294 - Practicum in Self-Development

3 unit(s)
Facilitates training in individual and group counseling methods, including transpersonal journal, psychodrama and peer group techniques.

Prerequisite(s): EDCO 218, EDCO 219 and instructor consent.
Grading: Letter Graded

EDCO 298 - Special Studies in Counselor Education

3 unit(s)
Supervised study for master's degree counselor education candidates with a final course product that satisfies the department and university Plan B requirement.

Prerequisite(s): EDCO 215 and EDCO 221
Grading: Mandatory Credit/No Credit/RP

EDCO 299 - Master's Thesis

3 unit(s)
Supervised thesis in the field of counseling and guidance.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): Advanced to candidacy, satisfactory completion of EDCO 221 advisor/designated faculty consent
Grading: Mandatory Credit/No Credit/RP

Department of Educational Leadership

Professors
Overview

The Department of Educational Leadership prepares leaders to champion anti-racist and emancipatory approaches to leadership. We equip our graduates with the skills, knowledge, and experience to engage with and learn from the community cultural wealth of the diverse communities we serve.

Undergraduate Major(s)

Interdisciplinary Studies, Educational and Community Leadership Concentration, BA

Fully Online Degree Completion Program

The Interdisciplinary Studies BA Concentration in Educational and Community Leadership (pending final approval from the CSU Office of the Chancellor), offered by the Department of Educational Leadership, empowers students to take a role in promoting change for social justice in their communities. The program is designed to enhance students' opportunities for professional advancement in careers in the fields of education, child and youth services, community organizations, and social services with a curriculum that brings together a variety of academic disciplines that explore societal inequities and methods to accentuate strengths of a community and of its members.

- Program Learning Outcomes

Program Delivery

The program is delivered completely online. Classes will be delivered fully online both asynchronously (no designated days/times) and synchronously (designated days/times).

Program Roadmaps
The 2-Year and 3-Year Roadmaps are available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums).

**Transfer Units (60 units)**

All applicants are required to have completed at least 60 transferable semester or 90 quarter units with an overall grade point average of 2.0 or better. Applicants must also have completed the Core Lower Division General Education Requirements (39 units), including all four CSU-approved Basics Skills courses, each with a C- or better:

(A1) Oral Communication/Speech  
(A2) Written English Composition  
(A3) Critical Thinking/Logic  
(B4) Math/Quantitative Reasoning (above the level of intermediate algebra)

Applicants interested in selecting the Early Childhood Education Specialization must have or find access for field placement in a suitable early childhood setting.

**University Requirements**

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

**Core Lower Division General Education**

The Core Lower Division General Education Requirements (39 units) must be completed before transferring from a community college or any university.

**Upper Division General Education (9 units)**

Of the 9 units required by the university, 0 units may be satisfied by coursework outlined below. Consult your major advisor before selecting courses to satisfy the Upper Division General Education Requirements.

**American Institutions**

Recommend completion before transferring from a community college or any university. The American Institutions (AI) Requirement (US123) is normally satisfied with the completion of General Education Area D. Consult your major advisor to confirm you have satisfied the requirement.

**Physical Education**

The Physical Education Requirement (2 units) is recommended to be completed before transferring from a community college or any university. All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students’ needs and interests, the university offers a diverse selection of activity courses.

**Graduation Writing Assessment Requirement**
At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

CHAD 100W requires a grade of C or better (C- not accepted) to meet the graduation requirement.

Major Requirements (36 units)

Required Core (21 units)

- CHAD 100W - Writing Workshop 3 unit(s)
- CHAD 101 - Research Methods in Child Development 3 unit(s)
- EDSE 241 - Emerging Technology for All Learners 3 unit(s)
- EDLD 110 - Introduction to Educational and Community Leadership 3 unit(s)
- EDLD 120 - The Right to Learn: Language, Dignity, and Education 3 unit(s)
- EDLD 140 - Identity, Solidarity, and Social Justice Leadership 3 unit(s)
- EDLD 150 - Communication, Leadership, and Social Justice 3 unit(s)

Specialization (15 units)

Complete one of the following specialization:

Early Childhood Education

Must have or find access for field placement in a suitable early childhood setting to complete this specialization.

- CHAD 60 - Child Development 3 unit(s)
- CHAD 152 - Foundations for Early Childhood Curriculum 3 unit(s)
- CHAD 160 - Child Development Practicum 3 unit(s)
- CHAD 161 - Administration of Early Childhood Programs 3 unit(s)
- CHAD 164 - Contemporary Parenting 3 unit(s)

Inclusive Education

- EDEL 102 - Psychological Foundations of Education 3 unit(s)
- EDEL 108E - Teaching Reading in Linguistically and Culturally Diverse Classrooms 3 unit(s)
- EDSP 110 - Survey of Communication Disorders 3 unit(s)
- EDSE 224 - Methodologies for Second Language Learners in Special Education Programs 1-3 unit(s) (3 units required)
- EDSE 228A - Topics in Collaboration and Transition 3 unit(s)

University Electives (15 units)

May include lower or upper division, at least 9 units must be upper division.

Total Units Required (120 units)
Undergraduate Minor(s)

Transformative Leadership Minor

The Transformative Leadership Minor, offered by the Department of Educational Leadership, is an interdisciplinary approach to leadership development through engagement with anti-racist pedagogies and practices. By building a foundation and framework for developing an intersectional lens, students are supported in developing their personal narrative, and engaged in transforming their communities through meaningful, culturally affirming, and sustaining practices embedded throughout the program.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University Policy S16-4). Minor preparation or support courses do not count toward the 12 distinct units. Of the coursework for the minor, at least 6 units must be completed in residence at SJSU. The minimum aggregate GPA for all coursework required for the minor must be at least 2.0.

Minor Requirements (15 units)

Required Courses (9 units)

- EDLD 120 - The Right to Learn: Language, Dignity, and Education 3 unit(s)
- EDLD 130 - Antiracist Leadership: Cases, Frameworks, and Praxis 3 unit(s)
- EDLD 160 - 1st Generation College Students Pathways 3 unit(s)

Electives Courses (6 units)

Elective options allow students to select which area they want to focus on in their transformative journey: amplifying spoken/written communication, engaging with social media, or additional introspective analysis on positionality and social justice.

- Elective(s) selected with advisor consent, or the following courses:
  - CHAD 156 - Social Media and Youth Civic Engagement 3 unit(s)
  - EDLD 140 - Identity, Solidarity, and Social Justice Leadership 3 unit(s)
  - EDLD 150 - Communication, Leadership, and Social Justice 3 unit(s)

Total Units Required (15 units)

Master(s)

Educational Leadership, Concentration in Emancipatory School Leadership, MA

- Admission Requirements
- Master's Requirements (30 units)
- Program Learning Outcomes
The MA Educational Leadership with a concentration in Emancipatory Leadership for Schools, offered by the Department of Educational Leadership, prepares school leaders through deep engagement with research and practice through applied consulting on living case studies. Emancipatory school leadership approaches create organizational cultures to reflect the diversity of experience and knowledge within school communities through collaborative approaches to deconstruct power systems, challenge inequitable practices and policies, and cultivate community cultural wealth.

**Program Learning Outcomes (PLOs)**

Graduates will be able to:

1. Build organizational cultures that reflect the diversity of experience and knowledge within school communities.
2. Identify approaches to educational leadership that include the cultural wealth present in communities that schools serve.
3. Design professional development that challenges bias and inequity in school settings.
4. Create culturally sustaining approaches to instructional leadership.
5. Implement policies and practices that reflect emancipatory school leadership principles.

**Admissions Requirements**

Applicants must submit a complete graduate application by applying through the CSU Cal State Apply system and meet all the university admission requirements. Applicants apply separately to the department to obtain admission into the Master of Arts degree in Emancipatory Leadership for Schools. See the GAPE Graduate Admissions website and admissions requirements section. Applicants must submit a letter of nomination/recommendation from a school leader as part of their application. Upon review of the applications, all applicant finalists will participate in an interview by the admissions committee to finalize admission to the program. Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on GAPE's Graduate Program Test Requirements webpage. For TOEFL requirements, see the admissions requirements section.

**Requirements for Admission to Classified Standing**

Applicants may be admitted to classified standing if they meet the admissions requirements for both the Graduate Division and the department. The minimum requirements for the program are a bachelor's degree in any discipline, 3 years of experience working with K-12 schools, and a nomination/recommendation from a school leader. Preference is given to candidates who demonstrate a commitment to emancipatory practices in education.

A. Candidates must meet all university admissions requirements.
B. Department application materials include the items listed below and are to be sent directly to the department office at:

Department of Educational Leadership San José State University
One Washington Square, SH 219
San Jose, CA, 95192-0072

1. Autobiographical and Professional Goals Statement (two to three pages, double-spaced) that includes the applicant's:
   a. educational background
   b. experiences demonstrating work with schools
   c. professional goals in pursuing the degree (include areas of interest in leadership)
   d. any additional information explaining interest in the Emancipatory Leadership for Schools master's degree program
2. One nomination/recommendation from a K-12 school leader.
3. Two letters of recommendation from current or former professors and/or employers who can testify to the applicant’s ability to successfully pursue an advanced academic degree and/or discuss the applicant’s experience within the proposed field of study. Forms for these letters can be found on the Department of Educational Leadership website.

C. Official sealed transcripts from each college/university attended should be sent to:

Graduate Admissions and Program Evaluations San José State University
One Washington Square, SH 219
San Jose, CA, 95192-0072

Graduation Requirements

Complete the following requirements:

1. CalAPA Transfer Units or Area of Specialization (12 units);
2. Core Courses: EDLD 201, EDLD 202, EDLD 204, EDLD 205, EDLD 206, and EDLD 253. Students must achieve a minimum of a "C" in each course, a cumulative GPA of 3.0 or better in all their coursework, AND a GPA of 3.0 or higher for the courses listed in the Candidacy form. At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). The GWAR is satisfied with the degree requirements core course EDLD 201;

Master's Requirements (30 units)

CalAPA Transfer Units or Area of Specialization (12 units)

Students who have completed the CalAPA will be able to transfer 12 units of coursework and will take the remaining 18 units.

Students who have not completed the CalAPA will take graduate-level courses as a specialization in an area of interest that is related to educational leadership (e.g. Literacy - Instructional Leadership). These courses will be pre-approved by the department.

Year 1 (12 units)

Summer (6 units)

- EDLD 201 - Epistemologies of Educational Leadership: Personal, Political, & Intellectual 3 unit(s)
- EDLD 202 - Emancipatory Teaching and Learning 3 unit(s)

Fall (3 units)

- EDLD 205 - Equity & Access: Practices, Policies, & Pedagogies 3 unit(s)

Spring (3 units)

- EDLD 206 - Emancipatory Leadership as Praxis Seminar 3 unit(s)
Year 2 (6 units)

Summer (6 units)

- EDLD 204 - Critical Studies of Educational Policy 3 unit(s)
- EDLD 253 - Envisioning Emancipatory Leadership for Schools 3 unit(s) (3-Year Action Plan)

Culminating Experiences

The culminating experience contains an experience-based component requiring enrollment in both EDLD 205 and EDLD 206 in addition to submitting an approved praxis statement after completing EDLD 253.

1. Applied Consulting Project

Living Case Study on School Leadership

Upon identifying a school leadership challenge that a school or district is struggling with (living case study), students work as a cohort to research the problem, explore possible solutions, and work closely with the school or district to address the challenge with emancipatory leadership solutions.

2. Emancipatory Leadership as Praxis Statement

3-Year Action Plan

Students prepare an individualized 3-year leadership action plan that outlines their core values, a personal vision statement, current and lacking leadership skills and actionable goals to practice areas of growth.

Total Units Required (30 units)

EDLD 110 - Introduction to Educational and Community Leadership

3 unit(s)
Designed to assist students in a mindful, collective investigation of their aspirations to best serve the communities they are members of. In addition to identifying healthy approaches to work-life-school balance to reach their professional goals, students systematically examine what educational and community-based professionals do, why they do it, and how they can develop as agents of social change.

Prerequisite(s): Upper division standing or instructor consent.
Grading: Letter Graded

EDLD 120 - The Right to Learn: Language, Dignity, and Education

3 unit(s)
Through the lens of linguistic diversity and human dignity, this course invites debate about the role of formal schooling within a democratic society and fosters analysis of the ways in which access to schooling and its benefits have been disparately allocated across US history.
Prerequisite(s): Upper division standing or instructor consent.

**EDLD 130 - Antiracist Leadership: Cases, Frameworks, and Praxis**

3 unit(s)
Explores historical and contemporary cases of antiracist action, for example, the Montgomery bus boycott and the elimination of the Oakland Unified School District's police department. Models of leadership from a variety of frameworks, such as Kendi’s on antiracism, are studied and used to engage in intersectional analysis. Co-constructed among instructor(s) and students, who may share their knowledge of cases and / or frameworks with other course members. Includes designing and possibly enacting a plan of social action related to a local, regional, statewide, national, or global issue.

Prerequisite(s): Upper division standing or instructor consent.  
Grading: Letter Graded

**EDLD 140 - Identity, Solidarity, and Social Justice Leadership**

3 unit(s)
Examine, assess, and strengthen understandings of students' own, and others' social identities; and build capacity for multiculturally-skilled leadership for social justice. Critically explore causes, reinforcements, and remedies for injustices; and meanings and experiences of solidarity and liberation.

Prerequisite(s): Upper division standing or instructor consent.  
Grading: Letter Graded

**EDLD 150 - Communication, Leadership, and Social Justice**

3 unit(s)
Students utilize a critical lens to develop a foundation for analysis of oral and written communication in the community. Students expand personal written and oral communication styles to help amplify their voices in the community and in their careers.

Prerequisite(s): Upper division standing or instructor consent.  
Grading: Letter Graded

**EDLD 160 - 1st Generation College Students Pathways**

3 unit(s)
Designed to review and discuss research-based issues of educational equity and the experience of first-generation college students pathways to undergraduate and graduate school. Students will also have opportunities to engage research, theory, and practice through introductory approaches to qualitative research method called autoethnography.

Prerequisite(s): Passage of the Writing Skills Test (WST) or ENGL 100A/LLD 100A with a C or better (C- not accepted), upper division standing, and completion of core general education. 100W is strongly recommended as a prerequisite or corequisite.  
Grading: Letter Graded

**EDLD 200 - The School Manager**
3 unit(s)
Management skills for leading effective school organizations. Present and emerging issues in our society and how they relate to schooling. Governance of education.

Prerequisite(s): Admission to Graduate Division.
Grading: Letter Graded

EDLD 201 - Epistemologies of Educational Leadership: Personal, Political, & Intellectual

3 unit(s)
Introduction to the personal, political, and intellectual dimensions that inform one's epistemology of educational leadership. Students engage with research on practices in the field of Educational Leadership alongside an autoethnographic exploration of how their experiences influence their approaches to leadership and identify areas of growth.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Admission to the Graduate Division.
Grading: Letter Graded

Note(s): Course satisfies Graduate Writing Assessment Requirement (GWAR).

EDLD 202 - Emancipatory Teaching and Learning

3 unit(s)
Close study of instructional leadership and the ways school leaders have supported critical pedagogies including ethnic studies to highlight best practices that have resulted in increased student and community engagement.

Repeatable for credit.

Prerequisite(s): EDLD 201 and admission to the SJSU Graduate Division.
Grading: Letter Graded

EDLD 204 - Critical Studies of Educational Policy

3 unit(s)
A close study of historical and current educational policies. Engagement with local, statewide, and national advocates who have worked on writing and advocating for educational policies for social change.

Prerequisite(s): EDLD 206.
Grading: Letter Graded

EDLD 205 - Equity & Access: Practices, Policies, & Pedagogies

3 unit(s)
Engagement with common problems of practice in school communities to improve equity and access challenges for historically underserved students. Development of collaborative approaches to emancipatory leadership practices, policies, and pedagogies with teacher leaders and school leaders.
EDLD 206 - Emancipatory Leadership as Praxis Seminar

*3 unit(s)*
Intensive experiential learning through applied consulting on living case studies aimed to challenge inequitable policies and practices to improve students' opportunities to learn. Students work closely with the selected site or situation, as well as with their faculty member and the Lurie College Leadership Fellow.

**Prerequisite(s):** EDLD 205 or department permission.
**Grading:** Letter Graded

**Note(s):** Applied Culminating Experience.

EDLD 253 - Envisioning Emancipatory Leadership for Schools

*3 unit(s)*
Capstone course to synthesize personal and intellectual areas of growth. Students complete a 3-year action plan, outlining their core values, write a personal vision statement, cite current and lacking leadership skills and develop actionable goals to practice areas of growth.

**Prerequisite(s):** Concurrent Enrollment in or Completion of EDLD 204, or department permission.
**Grading:** Letter Graded

**Department of Special Education**

**Office:** Sweeney Hall 204 (Department of Special Education)

**Telephone:** 408-924-3700 (Voice); 408-924-3701 (Fax)

**Email:** specialed@sjsu.edu

**Website:** www.sjsu.edu/specialed

**Professors**

Peg Hughes, Chair and ECSE Coordinator
Hyun-Sook Park

**Associate Professor**

Lisa Simpson, Intern Coordinator

**Assistant Professors**

Andrea Golloher
Sudha Krishnan
Saili Kulkarni
Matthew Love

**Overview**
Graduates of the Department of Special Education are advocates for children. Our programs provide the knowledge and expertise necessary to teach students and young children with disabilities, to serve as change agents, and to help make lives the very best they can be. Our alumni are passionate about learning and education. We offer preparation for the Preliminary Education Specialist Teaching Credential in three areas (mild to moderate disabilities, extensive support needs, and early childhood special education) that can be completed as an Intern (or first year teacher) or as a traditional student. We also have a program for the Added Authorization in Early Childhood Special Education, as well as the Certificate in Theory, Knowledge and Practice about Autism Spectrum Disorders. We offer a Master’s of Arts degree in Special Education.

The California Commission on Teacher Credentialing (CCTC) and the National Council on the Accreditation of Teacher Education Colleges (NCATE) accredits all teaching credential programs. CCTC identifies and defines the standards that all teachers must satisfy for the credential; students in the Department of Special Education programs meet these standards with completion of the program and then are recommended to CCTC for the Education Specialist credential.

**Credential Programs Admission Requirements**

1. Application for admission to SJSU.
2. Application and required documents for admission to the Department of Special Education.
3. Graduation from an accredited university or college.
4. Passing scores on the California Basic Education Skills Test (CBEST).
5. Grade Point Average (GPA) of at least 2.75.
6. Completion of pre-professional experience.
7. Passing scores on the California Subject Examination for Teachers (CSET).
8. Department interview with passing results.
9. Completion of 165 pre-service coursework hours for Interns.
11. It is recommended that any individual interested in applying for a program attend an orientation meeting and visit the website at www.sjsu.edu/specialed.

**MA Program Admission Requirements**

1. Application for admission to SJSU.
2. Application and required documents for admission to the Department of Special Education.
3. Graduation from an accredited university or college.
4. Grade Point Average (GPA) of 3.0.
5. Department interview with passing results.
6. A passing score on the Department of Special Education writing assessment.
7. Statistics Class

**Undergraduate Minor(s)**

**Deaf Education Minor**

The Minor in Deaf Education is offered by the Department of Special Education.

**University Graduation Requirements**

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University Policy S16-4). Minor preparation or support courses do not count toward the 12 distinct units. Of the coursework for the minor, at least 6 units must be completed in residence at SJSU. The minimum aggregate GPA for all coursework required for the minor must be at least 2.0.
Minor Requirements (12 units)

- EDSE 14A - American Sign Language I 3 unit(s)
- EDSE 14B - American Sign Language II 3 unit(s)
- EDSE 102 - Speech, Language & Typical, Atypical Dev 3 unit(s) (S)
- EDSE 115 - Introduction to Deaf Culture 3 unit(s)

Total Units Required (12 units)

Special Education Minor

The Minor in Special Education is offered by the Department of Special Education.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University Policy S16-4). Minor preparation or support courses do not count toward the 12 distinct units. Of the coursework for the minor, at least 6 units must be completed in residence at SJSU. The minimum aggregate GPA for all coursework required for the minor must be at least 2.0.

Minor Requirements (12 units)

Complete One Track From:

Track 1- Mild/Moderate Disabilities

- EDSE 102 - Speech, Language & Typical, Atypical Dev 3 unit(s) (S)
- EDSE 192A - Including and Supporting Students 3 unit(s)
- EDSE 216A - Teaching Reading and Language Arts 3 unit(s)
- EDSE 241 - Emerging Technology for All Learners 3 unit(s)

Track 2- Moderate/Severe Disabilities

- EDSE 102 - Speech, Language & Typical, Atypical Dev 3 unit(s) (S)
- EDSE 110 - Autism Spectrum Disorders 3 unit(s)
- EDSE 192A - Including and Supporting Students 3 unit(s)
- EDSE 216A - Teaching Reading and Language Arts 3 unit(s)

Track 3- Early Childhood Special Education

- EDSE 102 - Speech, Language & Typical, Atypical Dev 3 unit(s) (S)
- EDSE 104 - Atypical Development in Young Children 3 unit(s)
- EDSE 108 - Assessment and Evaluation: Atypical Young Children 3 unit(s)
- EDSE 110 - Autism Spectrum Disorders 3 unit(s)
Total Units Required (12 units)

Master(s)

Special Education, MA

- Admission Requirements
- Requirements for Admission to Candidacy
- University Graduation Requirements
- Master’s Requirements (30 units)
- Program Learning Outcomes

Advisors: Dr. Peg Hughes, Dr. Hyun-Sook Park, Dr. Lisa Simpson, Dr. Andrea Golloher, Dr. Matthew Love, Dr. Saili Kulkarni, and Dr. Sudha Krishnan

The MA Special Education is a 30-unit program, offered by the Department of Special Education, designed to prepare candidates for leadership roles in Special Education through 12 units of research coursework (4 courses) and 18 units (6 courses) of core courses, which are the same core courses across the three credential programs in the department: early childhood special education; mild/moderate support needs and extensive support needs. Faculty work closely with degree candidates to develop a strong skill set in the area of research and an extensive knowledge base in the field of Special Education. Graduates will be prepared to effectively implement and evaluate evidence based practices for Special Education programs in either public schools or private programs across age groups and disabilities. For more information see www.sjsu.edu/specialed.

Admission Requirements

Applicants must submit a complete graduate application by applying through the CSU Cal State Apply system at calstate.edu/apply and meet all the university admission requirements. Applicants apply separately to the department to obtain admission into the Master of Arts Special Education. See the GAPE Graduate Admissions website and this Catalog for general information about graduate admissions at SJSU. Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on GAPE’s Graduate Program Test Requirements webpage. For TOEFL requirements, see the Policies and Procedures section, Graduate and Post-Baccalaureate Information in this Catalog.

A. Candidates must meet all university admissions requirements.

B. Department application materials include the items listed below and are to be sent directly to the department office at:

Department of Special Education
San José State University
One Washington Square, SH 204
San Jose, CA, 95192-0078

C. Official sealed transcripts from each college/university attended should be sent to:

Graduate Admissions and Program Evaluations
San José State University
One Washington Square
San Jose, CA, 95192-0078
**Department Admission Requirements**

1. Department Application Form  
2. BS/BA minimum GPA 3.0  
3. Two letters of recommendation  
4. Certificate of Clearance  
5. Statement of Purpose Letter  
6. Pass MA Department Writing Exam or GRE Analytical Writing 4.0 score or higher  
7. STAT 095, Elementary Statistics or equivalent basic statistics course with a grade of 3.0 or better; and  
8. Department Interview by Chair  

In addition to the same requirements mentioned above, applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirement webpage at GAPE.

**Requirements for Admission to Candidacy**

To be admitted to candidacy for the Master of Arts degree, a student must first meet the university requirements for the degree as stated in the Advancement to Candidacy section. Applicants may be admitted to classified standing if they meet the admissions requirements for both the Graduate Division and the department. The minimum requirements for the program are a bachelor's degree in any discipline and a 3.0 GPA.

**Requirements for Advancement to Candidacy**

**University Requirements**

Candidacy denotes that a student is fully qualified to complete the final stages of the Master of Arts degree. General university requirements for advancement to candidacy are detailed in the Graduate Policies and Procedures section of this catalog. Candidacy includes successful completion of the Graduation Writing Assessment Requirement (GWAR). For graduate courses that meet the GWAR, by successfully completing EDSE 285 - Seminar on Issues Related to Teaching Exceptional Individuals with a grade of B or higher.

**Department Requirements**

1. Complete the Graduate Writing Assessment Requirement (GWAR) by completing EDSE 285 with a grade of B or higher.  
2. Maintain an overall graduate GPA of 3.0 or higher  
3. Meet with your graduate advisor to complete the Petition for Advancement to Graduate Candidacy form.

**University Graduation Requirements**

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures. Students must pass the Graduation Writing Assessment Requirement (GWAR) course and Culminating experience identified below.

**Master's Requirements (30 units)**

**Core Courses (18 units)**
• EDSE 218A - ASD: Moderate to Severe Disabilities 3 unit(s)
• EDSE 224 - Methodologies for Second Language Learners in Special Education Programs 1-3 unit(s)
• EDSE 228A - Topics in Collaboration and Transition 3 unit(s)
• EDSE 235A - Movement, Mobility, Sensory and Health 3 unit(s)
• EDSE 241 - Emerging Technology for All Learners 3 unit(s)
• EDSE 279 - Managing Behavior and Emotional Problems of Students in Special Education 3 unit(s)

Research Courses (12 units)

• EDSE 231 - Issues and Research in Special Education 3 unit(s)
• EDSE 231X - Educational Research: Design and Implementation 3 unit(s)
• EDSE 285 - Seminar on Issues Related to Teaching Exceptional Individuals 3 unit(s)

Culminating Experience (3 units)

Choose one of the following:

• Plan A (Thesis):  EDSE 299 - Master's Thesis 3 unit(s)
  Students selecting the Plan A option will write a master's thesis. The thesis will include original research on a topic approved by the thesis committee, and must meet university requirements as stipulated in this catalog and in the SJSU Master's Thesis and Doctoral Dissertation Guidelines. Thesis proposals must be approved by the graduate committee made up of two department faculty and a third faculty member from outside the department.

• Plan B (Project):  EDSE 220 - Research Seminar on Exceptional Individuals 3 unit(s)
  Students selecting the Plan B option will complete a master's project or research paper. This is a significant undertaking that evidences originality and independent thinking, appropriate form and organization, and a rationale. The final paper includes the significance, objectives, methodology and a conclusion or recommendation.

Total Units Required (30 units)

The maximum number of graduate units (with a grade of "B" or better) that can transferred from approved accredited universities is 9 units. Continuing education and extended studies units are not accepted for transfer. Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU Cumulative grade point averages of 3.0 in order to graduate.

Certificate(s)

Theory, Knowledge and Practice about Autism Spectrum Disorders Certificate

The Theory, Knowledge and Practice about Autism Spectrum Disorders Certificate is offered by the Department of Special Education. Admission into the program requires the department consent.

University Advanced Certificate Requirements

Advanced certificate programs offers postbaccalaureate students coursework leading to a specific, applied, focused goal. In order to be eligible for admission to an advanced certificate, students complete an intake form or apply
through CalState Apply and submit an official transcript(s) (noting the completion of a U.S. bachelor's degree from an accredited institution or the equivalent of a U.S. bachelor's degree from an accredited and/or recognized institution from a foreign country). Students must have a minimum of 2.5 undergraduate GPA.

Students must maintain a minimum GPA of 3.0 in all advanced certificate coursework, with no less than the grade of "C" in any course. A maximum of 4 units of coursework with a grade of "C" can count toward an advanced certificate. A maximum of 4 units of coursework may be repeated. Undergraduate lower division courses are not applicable to advanced certificates. A maximum of 30% of any graduate degree program units (e.g., 9 units for a 30-unit Master's degree) can be completed from another institution and/or units from Open University (including advanced certificate courses) at SJSU with approval from the department or school. The choice of grading requirements may have implications for transferability to degree programs (University Policy S16-17).

The advisor/director of the program is responsible for verifying a student's satisfactory completion of the academic requirements established for the program and for forwarding a copy of the certificate audit completion form to the Office of the Graduate Admissions and Program Evaluations. The Office of the Registrar records the completion of the program on the student's transcript.

Certificate Requirements (9 units)

Specialized Coursework (9 units)

- EDSE 218A - ASD: Moderate to Severe Disabilities 3 unit(s)
- EDSE 218B - ASD: Mild to Moderate Disabilities 3 unit(s)
- EDSE 218C - ASD: Collaboration and Implementation of Best Practices 3 unit(s)

Total Units Required (9 units)

Credential(s)

Education Specialist Preliminary Teaching Credential: Early Childhood Special Education Credential

The Early Childhood Special Education Credential Program, offered by the Department of Special Education, is a full-time or part-time post baccalaureate graduate program which prepares credential candidates to become fully qualified to work with families and their young children with disabilities, developmental delays or those at risk for developmental delays both in home-based and infant/toddler and preschool settings.

Credential Requirements (33 units)

Core Courses (9 units)

- EDSE 102 - Speech, Language & Typical, Atypical Dev 3 unit(s) (S)
- EDSE 228A - Topics in Collaboration and Transition 3 unit(s)
- EDSE 279 - Managing Behavior and Emotional Problems of Students in Special Education 3 unit(s)

Specialization (24 units)
• EDSE 104 - Atypical Development in Young Children 3 unit(s)
• EDSE 108 - Assessment and Evaluation: Atypical Young Children 3 unit(s)
• EDSE 154 - Practicum and Student Teaching in Special Education 6 unit(s)
• EDSE 218A - ASD: Moderate to Severe Disabilities 3 unit(s)
• EDSE 221 - Intervention for Young Children with Disabilities and Delays 3 unit(s)
• EDSE 235A - Movement, Mobility, Sensory and Health 3 unit(s)
• EDSE 241 - Emerging Technology for All Learners 3 unit(s)

Total Units Required (33 units)

Internship Option (21 units)

Candidates enrolled in this option are able to complete the credential program as an intern, which allows them employment as a special education teacher while taking courses at SJSU. Eligible applicants are encouraged to attend an Intern Orientation and to visit the Intern page for more information regarding this option.

• EDSE 105 - Supervision Induction Plan Evaluation 3-6 unit(s) (Students will take 105 for three semesters.)
• EDSE 224 - Methodologies for Second Language Learners in Special Education Programs 1-3 unit(s) (3 units required)

Education Specialist: Mild/ Moderate Disabilities Credential

All candidates participating in the Mild-Moderate Disabilities Program, offered by the Department of Special Education, are prepared on and evaluated with California Standards for Teaching Preparation. Disabilities in the mild-moderate category include specific learning disabilities, mild to moderate intellectual disability, other health impairment, and serious emotional disturbance.

Required Upper Division Coursework (6 Units)

• EDEL 108D - Curriculum: Mathematics 1-3 unit(s) (3 units required)
• EDSE 102 - Speech, Language & Typical, Atypical Dev 3 unit(s) (S)

Credential Requirements (39 units)

Core Courses (15 units)

• EDTE 294 - Research/Practices in Health and Special Education 3 unit(s)
• EDSE 218B - ASD: Mild to Moderate Disabilities 3 unit(s)
• EDSE 224 - Methodologies for Second Language Learners in Special Education Programs 1-3 unit(s)
• EDSE 241 - Emerging Technology for All Learners 3 unit(s)
• EDSE 279 - Managing Behavior and Emotional Problems of Students in Special Education 3 unit(s)

Specialized Coursework (18 units)

• EDSE 215 - Assessment And Evaluation of Individuals with Mild/Moderate Disabilities 3 unit(s)
• EDSE 216A - Teaching Reading and Language Arts 3 unit(s)
Total Units Required (39 units)

The 39 units required for the credential includes the 6 units of required upper division coursework.

Internship Option (18 units)

Candidates enrolled in this option are able to complete the credential program as an intern, which allows them employment as a special education teacher while taking courses at SJSU. Eligible applicants are encouraged to attend an Intern Orientation and to visit the Intern page for more information regarding this option.

- EDSE 105 - Supervision Induction Plan Evaluation 3-6 unit(s) (Students will take 105 for three semesters)

Education Specialist: Moderate/ Severe Disabilities Credential

The Moderate-Severe Disabilities Education Specialist Credential Program, offered by the Department of Special Education, prepares individuals to teach students from Kindergarten through age 22 who have disabilities such as autism, deaf-blindness, moderate to severe intellectual disability, multiple disabilities, and emotional disturbances.

Coursework covers the areas of functional assessment, curriculum, instructional practices, methods for inclusive education, communication strategies, collaboration skills, and positive behavior support.

Required Upper Division Coursework (3 units)

- EDEL 108D - Curriculum: Mathematics 1-3 unit(s) (3 units required)
- 50 hours of field work in general education setting

Credential Requirements (36 units)

Core Courses (15 units)

- EDSE 102 - Speech, Language & Typical, Atypical Dev 3 unit(s) (S)
- EDSE 192A - Including and Supporting Students 3 unit(s)
- EDSE 216A - Teaching Reading and Language Arts 3 unit(s)
- EDSE 218A - ASD: Moderate to Severe Disabilities 3 unit(s)
- EDSE 279 - Managing Behavior and Emotional Problems of Students in Special Education 3 unit(s)

Specialized Coursework (18 units)

- EDSE 154 - Practicum and Student Teaching in Special Education 6 unit(s)
- EDSE 213A - Curriculum, Instruction and Transition 3 unit(s)
- EDSE 215 - Assessment And Evaluation of Individuals with Mild/Moderate Disabilities 3 unit(s)
- EDSE 235A - Movement, Mobility, Sensory and Health 3 unit(s)
Total Units Required (36 units)

The 36 units required for the credential includes the 3 units of required upper division coursework.

Internship Option (21 units)

Candidates enrolled in this option are able to complete the credential program as an intern, which allows them employment as a special education teacher while taking courses at SJSU. Eligible applicants are encouraged to attend an Intern Orientation and to visit the Intern page for more information regarding this option.

- EDSE 105 - Supervision Induction Plan Evaluation 3-6 unit(s) (Students will take 105 for three semesters)
- EDSE 224 - Methodologies for Second Language Learners in Special Education Programs 1-3 unit(s) (3 units required)

Added Authorization(s)

Early Childhood Special Education Added Authorization

The Added Authorization in Early Childhood Special Education, offered by the Department of Special Education, is available to individuals who hold a Clear Education Specialist Credential. Completion of this authorization extends special education teaching authorization to students with disabilities between the ages of birth and pre-Kinder.

Credenital Requirements (24 units)

Specialized Courses (24 units)

- EDSE 104 - Atypical Development in Young Children 3 unit(s)
- EDSE 108 - Assessment and Evaluation: Atypical Young Children 3 unit(s)
- EDSE 154 - Practicum and Student Teaching in Special Education 6 unit(s)
- EDSE 218A - ASD: Moderate to Severe Disabilities 3 unit(s)
- EDSE 221 - Intervention for Young Children with Disabilities and Delays 3 unit(s)
- EDSE 235A - Movement, Mobility, Sensory and Health 3 unit(s)
- EDSE 241 - Emerging Technology for All Learners 3 unit(s)

Total Units Required (24 units)

EDSE 14A - American Sign Language I

3 unit(s)
Introductory course covering basic vocabulary and grammatical structures, appropriate cultural and linguistic behaviors within the deaf community and basic information about the deaf community.

Grading: Letter Graded

EDSE 14B - American Sign Language II
3 unit(s)
Continuation of EDSE 14A. Covers additional basic vocabulary and grammatical structures, cultural and linguistic behaviors within the deaf community and information about the deaf community.

**Prerequisite(s):** EDSE 14A or instructor consent.
**Grading:** Letter Graded

**EDSE 102 - Speech, Language & Typical, Atypical Dev**

3 unit(s)

*Satisfies SJSU Studies S: Self, Society & Equality in U.S.*

**Prerequisite(s):** Passage of the Writing Skills Test (WST) or ENGL 100A / LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
**Grading:** Letter Graded

**EDSE 104 - Atypical Development in Young Children**

3 unit(s)
Historical and philosophical background of intervention theories of learning related to young children with high risk development. Skills and techniques to promote optimal environments and appropriate methods for early intervention and stimulation of young children with special needs.

**Prerequisite(s):** CHAD 60 (or equivalent).
**Grading:** Letter Graded

*Sustainability Focused - SDG 4: Quality Education*

**EDSE 105 - Supervision Induction Plan Evaluation**

3-6 unit(s)
Supervised observation, support and feedback for new special education teachers and evaluation of the induction plan.

*Course may be repeated for credit for up to 24 units.*

**Prerequisite(s):** Department consent.
**Grading:** Credit/No Credit

**EDSE 108 - Assessment and Evaluation: Atypical Young Children**

3 unit(s)
Identification, description and assessment of atypical children ages birth through 8 years. Introduction to early intervention and collaboration.

**Prerequisite(s):** Department consent.
**Grading:** Letter Graded
EDSE 110 - Autism Spectrum Disorders

3 unit(s)
EDSE 110 provides an overview to autism spectrum disorders and examines theoretical foundations and applications of evidence-based best practices (EBPs) for students on the Autism Spectrum.

Prerequisite(s): Special Education Minor
Grading: Letter Graded

EDSE 115 - Introduction to Deaf Culture

3 unit(s)
This course is an introduction to the American Deaf Culture and provides a comprehensive analysis of how Deaf people are understood from a cultural perspective. The identities, contributions and experiences of Deaf people are explored in educational and linguistic context.

Prerequisite(s): EDSE 14A or EDSE 102
Grading: Letter Graded

EDSE 124 - Methodologies for Eng Learners w/out Dis

3 unit(s)
Examines unique considerations and approaches to working with culturally and linguistically diverse students with special needs. Discussion and application course, emphasizing teaching and learning of language skills and content to English Learners (EL's) with and without disabilities. Focus on legislation requirements, strategies to deliver sheltered instruction, materials, and resources. Candidates become proficient in using the Sheltered Instruction Observation Protocol for English Language Learners.

Satisfies SJSU Studies V: Culture, Civil & Global Understanding.

Prerequisite(s): Upper Division Standing.
Grading: Letter Graded

EDSE 154 - Practicum and Student Teaching in Special Education

6 unit(s)
Field-based course to measure competency in a special education setting.

Prerequisite(s): Department consent.
Grading: Credit/No Credit

EDSE 180 - Individual Studies

1-4 unit(s)
Supervised study of a specific problem or topic.

Prerequisite(s): Upper division standing and instructor consent.
Grading: Credit/No Credit

EDSE 192A - Including and Supporting Students
Preparation for teaching students with disabilities in general education; provides intervention strategies prior to referral for special education with policies and procedures regarding placement of and services for students with disabilities, either in special education or within an inclusive classroom.

Prerequisite(s): Department consent
Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

EDSE 192B - All Learners: An Introduction to Disabilities

Overview of disability incorporating historical, sociocultural, autobiographical and psychological perspectives. The course will include the behavioral, developmental and learning characteristics of P-12 students labeled with mild, moderate, and extensive support needs. The course will introduce information about the 13 disability categories as specified in the Individuals with Disabilities Education Improvement Act (IDEIA) of 2004 and build on existing law and policy information provided in the previous course (EDSE 192A).

Prerequisite(s): EDSE 192A.

EDSE 192C - Inclusive Strategies for Educating Students with Disabilities

Designed to familiarize students with evidenced-based and high-leverage practices for meeting the academic, behavioral, and social emotional needs of students with disabilities in inclusive settings.

Grading: Letter Graded

EDSE 192D - Introduction to Special Education Policy and Law

Introduces special education policy and laws, situating these policies in the historical context in which they developed while highlighting the rights of all students as outlined in federal policy.

Course may be repeated for up to 2 units.

Grading: Letter Graded

EDSE 213A - Curriculum, Instruction and Transition

Exploration of instructional practices and current issues for students with moderate-severe disabilities and English Learners with moderate-severe disabilities. Curriculum design aligned with content standards that promote life skills and successful student transition into school and community settings.

Prerequisite(s): EDSE 206A and department consent.
Grading: Letter Graded

EDSE 215 - Assessment And Evaluation of Individuals with Mild/Moderate Disabilities
3 unit(s)
Formal and non-formal evaluation methods to assess students with mild/moderate disabilities for first and second language learners. Includes standardized and alternative assessment, tools and practices, case studies, report development, and a comprehensive understanding of related research.

Prerequisite(s): Department consent.
Grading: Letter Graded

EDSE 216A - Teaching Reading and Language Arts

3 unit(s)
Emphasis on socio-cultural propensities of diverse groups and theories of culturally relevant pedagogy and a model of teaching reading and writing that is based in scientific research.

Prerequisite(s): Department consent.
Grading: Letter Graded

EDSE 217A - Directed Teaching I

6 unit(s)
Supervised teaching experience in educational settings for students with mild to moderate disabilities. Concurrent seminar.

Prerequisite(s): Department consent.
Grading: Credit/No Credit

EDSE 217B - Directed Teaching II

6 unit(s)
Supervised teaching experience in educational settings for students with mild to moderate disabilities. Concurrent seminar.

Prerequisite(s): Completion of prescribed credential program including EDSE 217A and departmental consent.
Grading: Credit/No Credit

EDSE 218A - ASD: Moderate to Severe Disabilities

3 unit(s)
Theoretical foundations and application of evidence-based best practices for students with ASD and M/S disabilities including social language interventions, social stories, integrated playgroups, positive behavior support, self-advocacy skills inclusive education, recreation and leisure, and special interventions for young children.

Prerequisite(s): Department consent.
Grading: Letter Graded

EDSE 218B - ASD: Mild to Moderate Disabilities

3 unit(s)
Theoretical foundations and application of evidence-based best practices for students with ASD and M/M disabilities including social language interventions, social stories, integrated playgroups, positive behavior support, self-advocacy skills, inclusive education, recreation and leisure, and special interventions for young children.
Prerequisite(s): Department consent.
Grading: Letter Graded

EDSE 218C - ASD: Collaboration and Implementation of Best Practices

3 unit(s)
Focus on collaboration and understanding roles of service providers for students with autism spectrum disorders. Team work and strategies for working with educational professionals and parents or significant others in the life of the students with autism spectrum disorders.

Prerequisite(s): Department consent.
Grading: Letter Graded

EDSE 220 - Research Seminar on Exceptional Individuals

3 unit(s)
Applied research or projects in the field of special education.

Prerequisite(s): Department consent.
Grading: Letter Graded

EDSE 221 - Intervention for Young Children with Disabilities and Delays

3 unit(s)
Intervention strategies for young children with special needs; theory and design of content; linkage between assessment, intervention and evaluation; inclusion of motor, adaptive, cognitive communication and social skills development; attention to multicultural/linguistic considerations. When content changes may be repeated.

Prerequisite(s): Department consent.
Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

EDSE 224 - Methodologies for Second Language Learners in Special Education Programs

1-3 unit(s)
Examines the unique considerations, legislation, and approaches to working with culturally and linguistically diverse students with special education needs.

Prerequisite(s): Department consent.
Grading: Letter Graded

EDSE 228A - Topics in Collaboration and Transition

3 unit(s)
Strategies for effective communication and collaboration practices with members of the various teams that plan and serve students receiving special education services. Emphasis in planning transitional life experiences across the lifespan.
Prerequisite(s): Department consent.
Grading: Letter Graded

EDSE 230A - Curriculum and Instruction M/M

3 unit(s)
Focus on special education alignment with content standards, integrated curriculum design, information literacy, evidence-based practices for differentiated classroom instruction, multiple intelligences and modeling and integrating habits of mind.

Prerequisite(s): Department consent.
Grading: Letter Graded

EDSE 231 - Issues and Research in Special Education

3 unit(s)
Evaluation of research on characteristics and methods of identification of individuals with disabilities; including minority and underachieving students. Current funding issues, research models, research on individuals with disabilities and instructional organization are reviewed and analyzed.

Prerequisite(s): Department consent.
Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

EDSE 231X - Educational Research: Design and Implementation

3 unit(s)
EDSE 231X is a continuation of the process for the development of educational research, implementation of the study, and writing for the Masters of Arts project or thesis started in EDSE 231.

Prerequisite(s): EDSE 231 and EDSE 285.
Grading: Letter Graded

EDSE 234 - Advanced Fieldwork in Special Education

3 unit(s)
Application of knowledge and skills in classrooms. Examination of ethical practices, work with parents, challenges in application, and professional growth.

Prerequisite(s): Department consent.
Grading: Credit/No Credit

EDSE 235A - Movement, Mobility, Sensory and Health

3 unit(s)
Identifies the special services available to students with moderate/severe disabilities and defines the implementation of these services in the school and community. The course will define the role, function and services provided by professionals available to meet the health care and educational needs of students with multiple disabilities. The course will also address appropriate assessment and referral practices for teachers, seizures protocols, basic first aid
and universal precautions, medication administration, positioning and handling for students with severe disabilities and feeding techniques.

Prerequisite(s): Department consent.
Grading: Letter Graded

**EDSE 241 - Emerging Technology for All Learners**

3 unit(s)
Effective use of the computer to meet exceptional learning needs, including special education software evaluation, word processing for written language development, logo, individualized lessons with graphics and speech and database management for cognitive and language development.

Prerequisite(s): Department consent.
Grading: Letter Graded

**EDSE 279 - Managing Behavior and Emotional Problems of Students in Special Education**

3 unit(s)
Introduction to the application of various management approaches to individual and group instruction of exceptional individuals.

Prerequisite(s): Department consent.
Grading: Letter Graded

**EDSE 285 - Seminar on Issues Related to Teaching Exceptional Individuals**

3 unit(s)
Issues, trends and research in educating handicapped students.

Satisfies GWAR: Graduation Writing Assessment Requirement

Prerequisite(s): Department consent.
Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

**EDSE 298 - Special Studies**

1-3 unit(s)
Supervised study in a specific field of special education; to be taken only with the consent of the division head.

Prerequisite(s): Department consent.
Grading: Mandatory Credit/No Credit/RP

**EDSE 299 - Master’s Thesis**

3 unit(s)
Supervised thesis in the field of special education, to be taken only with chair consent.
Prerequisite(s): Department consent.
Grading: Mandatory Credit/No Credit/RP

Overview

The Teacher Education Program at San José State University is California's oldest public teacher preparatory program. We are committed to preparing the highest quality educators (PreK-12), with knowledge, skills, dispositions, and ethics to teach students in our culturally diverse and technologically complex global communities. Teaching is a reliable and rewarding profession for those desiring to influence the lives of children and adolescents.

The Teacher Education Department offers preparation for a California multiple subject (grades PK-8) or single subject (grades 9-12) teaching credential offered by the State of California to teach pre-school, elementary, middle, and high school students in a California public school. These programs are post-baccalaureate, offered at the graduate level, and are accredited by the CCTC (California Commission on Teacher Credentialing). The Teacher Education Department offers many options, including a Teaching Credential only (in multiple or single subject), a Teaching Credential plus a Master of Arts in Teaching (MAT) degree or, for experienced teachers, a Reading and Literacy Leadership Specialist Credential program with a Master of Arts in Education (Curriculum and Instruction) degree.

Click the link to expand Admissions Requirements information.
Undergraduate students intending to enter a teaching credential program, should view the Teacher Preparation section of the catalog for more information.

**Master(s)**

**Education, Curriculum and Instruction (LACES) Concentration, MA**

- University Graduation Requirements
- Master's Requirements (30 units)
- Program Learning Outcomes

The MA in Education, concentration in Curriculum and Instruction (LACES) is offered by the Department of Teacher Education.

**University Graduation Requirements**

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

**Graduation Writing Assessment Requirement**

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR).

**Master’s Requirements (30 units)**

**Core Courses (27 units)**

- EDTE 210 - Becoming a Reader at Any Age 3 unit(s)
- EDTE 211 - Developing Academic Language for Reading Across the Curriculum 3 unit(s)
- EDTE 212 - Leadership, Politics and Literacy Program Evaluation 3 unit(s)
- EDTE 214 - Learning in a High Tech Environment 3 unit(s)
- EDTE 216 - Ongoing Assessment in Your Classroom 3 unit(s)
- EDTE 217A - Reading Practicum 1 3 unit(s)
- EDTE 217B - Reading Practicum 2 3 unit(s)
- EDTE 290C - Research on Literacy Across the Curriculum for an Equitable Society 3 unit(s)
- EDTE 292 - Writing Across Cultures and the Curriculum 3 unit(s) (GWAR)

**Culminating Experience (3 units)**

- MA Presentation at MA Colloquium

**Complete One Option (Plan A or Plan B):**

**Plan A (Thesis)**

- EDTE 299 - Master's Thesis 1-6 unit(s)
Plan B (Project)

- EDTE 298 - Special Studies in Education 1-6 unit(s)

Total Units Required (30 units)

Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU cumulative grade point averages of 3.0 in order to graduate.

Teaching, MAT

- Admissions Requirements
- Conditionally Classified Standing
- Advancement to Candidacy
- Requirements for Graduation
- Master's Requirements (30 units)
- Program Learning Outcomes

The Master of Arts Teaching (MAT) degree program, offered by the Department of Teacher Education, prepares students to engage in social justice teaching practices, contribute to the development of cultural literacy, provide education that promotes democracy, and develop content knowledge expertise to teach in urban and suburban schools. All the program courses will prepare enrolled students to provide instruction for English Learners and students with special needs. Enrolled students also will learn to set up a supportive classroom environment based on social-emotional learning principles and experience collaborative co-teaching experiences with successful mentor teachers in the field. Finally, students will design, carry out, and report on classroom-based teacher inquiry.

Admissions Requirements

Applicants must submit a complete graduate application by applying through the CSU Cal State Apply and meet all the university admissions requirements. Applicants apply separately to the department to obtain admission to the credential program, which generally requires a minimum grade point average (GPA) of 2.87 (exceptions may be made on an individual basis). Provided that admitted teacher candidates remain in good standing, those who want to pursue the MAT degree will complete a program transfer (credential to MAT) during their penultimate semester, usually semester two of a three-semester program. That process allows candidates to complete the MAT in a more financially advantageous way (for themselves). For additional information on admissions, see the SJSU Graduate Admissions and Program Evaluations website (GAPE) and graduate admissions requirements section. Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on GAPE's Test Requirements webpage. For TOEFL requirements, see the Graduate Admissions section.

A. Candidates must meet all university admissions requirements.

B. Program Materials required by the Department are listed on the Department of Teacher Education website. The materials enumerated below must be uploaded to the Cal State Apply application. For additional details go to the Department of Teacher Education website.

1. Subject Matter Competency (via CSET or Teacher Prep Program)
   Revised on 3/12/2020 for applications for Summer 2020 and thereafter CSET Multiple Subject CSET information.
2. **Verification of Meeting the Basic Skills Requirement (CBEST)**
   To pass the CBEST, one must obtain a minimum score of 41 in each of the three sections—reading, writing, and mathematics. However, a score as low as 37 on an individual section is acceptable if the total score is at least 123. Any or all sections of the CBEST can be repeated as many times as necessary to obtain a passing score. CBEST passing scores remain valid indefinitely for all credential purposes. Please see this leaflet for information on how this requirement can be met other than the CBEST.

3. **Pre-Professional Experience**
   Complete a minimum of 45 observation hours of Pre-Professional Experience and upload a completed/signed Pre-Professional Experience Form from the Department of Teacher Education website to the Cal State Apply portal to verify your experience. Pre-Professional Experience in a public elementary school during the regular school day schedule is a requirement for admission. You may contact any California public elementary school and let them know that you are applying to the SJSU Multiple Subject Credential program and need to complete your 45 observation hours of Pre-Professional Experience. SJSU courses accepted to meet this requirement are: LSTP 185 and CHAD 159.

4. **Certificate of Clearance**
   There are 3 steps on how to obtain the Certificate of Clearance (CoC): Do not wait until the last minute to request this item, as it can take weeks for CCTC to issue. For detailed information about how to complete these steps, go to the Department of Teacher Education website.

   Step 1 - Live Scan Service
   Step 2 - Certificate of Clearance Application via CCTC
   Step 3 - Upload a pdf of the granted Certificate of Clearance

5. **Statement of Purpose**
   In your Statement of Purpose, explain how you arrived at your decision to become a teacher and your commitment to complete the requirements for the credential. A second Statement of Purpose is required for Bilingual Authorization Spanish applicants, and must be written in Spanish.

6. **Resume**
   Prepare a brief (one page) resume that details your college-level academic, employment, and volunteer experiences. In describing a position that you held (employment or volunteer service), highlight the duties you performed and any awards/accomplishments you would like us to know about.

7. **Two Letters of Recommendation**
   C. Official sealed transcripts from each college/university attended will be submitted through Cal State Apply and arrive to the department via SJSU Graduate Admissions and Program Evaluations.

**Conditionally Classified Standing**

Because the MAT program is nested within the Multiple Subject Credential and Single Subject Credential program, which requires applicants to meet departmental admissions requirements, admission to conditionally classified standing is not appropriate and is not be permitted.

**Advancement to Candidacy**
Candidacy denotes that a student is fully qualified to complete the final stages of the MAT degree. Requirements for advancement to candidacy, including the Graduation Writing Assessment Requirement (GWAR), are listed on the Graduate Admissions and Program Evaluation website.

**Department Requirements**

1. Complete 12 units of core courses (EDTE 224, EDTE 260, and EDTE 262; and EDTE 294) with a grade of "C" or better in each one.
2. Complete the Graduation Writing Assessment Requirement (GWAR) by completing the core course EDTE 208 with a grade of "B" or higher.
3. Complete the 3-unit core course EDTE 250 to develop a project proposal (Plan B) or a thesis proposal (Plan A) with a grade of "B" or higher.
4. Maintain an overall graduate GPA of 3.0 or higher.
5. In addition to maintaining a 3.0 GPA, earn a minimum of a "B" grade in any Curriculum and Instruction courses listed on the Petition for Advancement to Graduate Candidacy, which must be completed in consultation with and approved by the department graduate advisor.

**Requirements for Graduation**

**University Requirements**

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures. Completion of the degree also requires a minimum grade of "C" in all courses taken and a minimum overall GPA of 3.0.

**Department Requirements**

1. Complete 18 units of core courses (EDTE 208, EDTE 224, EDTE 250, EDTE 260, EDTE 262, and EDTE 294).
2. Complete at least 6 units of subject-area curriculum and instruction courses.
3. Successfully receive approval for a project proposal (Plan B) or thesis proposal (Plan A) while completing EDTE 250.
4. Apply for graduation via MySJSU (through one.SJSU.edu).
5. Successfully complete either a project (Plan B, EDTE 298) or thesis (Plan A, EDTE 299).
6. Satisfy the culminating experience requirements, which typically consist of successful completion of the project or thesis (i.e., 5 above) AND a presentation on the same at the department's colloquium, which is held near the end of each fall and spring semester.

**Culminating Experience**

**Plan A (Thesis)**

Students selecting the Plan A option will write a master's thesis. The thesis will include original research on a topic approved by the thesis committee, and must meet university requirements as stipulated in this catalog and in the SJSU Master's Thesis and Doctoral Dissertation Guidelines. The thesis identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation. Thesis proposals must be approved by the graduate committee, which is made up of two department faculty and a third faculty member from outside the department. Students enroll in EDTE 299 - Master's Thesis.
Plan B (Project)

Students selecting the Plan B option will complete a master's project report. A project is a significant undertaking that evidences originality and independent thinking, appropriate form and organization, and a rationale. It is described and summarized in a report that includes the project's significance, objectives, methodology and a conclusion or recommendation. Students enroll in EDTE 298 - Special Studies in Education.

Master's Requirements (30 units)

Core Courses (15 units)

- EDTE 208 - Educational Sociology 3 unit(s) (GWAR)
- EDTE 224 - Seminar in Educational Psychology 3 unit(s)
- EDTE 260 - Critical Perspectives on Schooling for a Pluralist Democracy 3 unit(s)
- EDTE 262 - Classroom Issues in the Language/Literacy Development of L2 Learners 3 unit(s)
- EDTE 294 - Research/Practices in Health and Special Education 3 unit(s)

Curriculum and Instruction Tracks (6-9 units)

Complete the Elementary Education Track (Multiple Subject Credential) or Secondary Education Track (Single Subject Credential).

Elementary Education Track (9 units)

- EDEL 108A - Curriculum: Reading/Language Arts 2-6 unit(s)
- EDEL 108C - Curriculum: Social Studies 1-3 unit(s)
- EDEL 108D - Curriculum: Mathematics 1-3 unit(s)

Secondary Education Track (6-7 units)

- EDTE 282 - Assessment and Evaluation 3 unit(s)

Methods (3-4 units)

- ARED 238 - Principles of Art Education 3 unit(s)
- ENED 353 - Methods of Teaching English 4 unit(s)
- FLED 380 - Teaching Foreign Languages 3 unit(s)
- KNED 339 - Instructional Materials and Procedures in Physical Education 3 unit(s)
- MTED 394 - Secondary School Mathematics 3 unit(s)
- MUED 370A - Methodology for Music Educators: Elementary K-8 2 unit(s)
- MUED 370B - Methodology for Music Educators: Secondary 2 unit(s)
- SCED 273 - Secondary School Science 3 unit(s)
- SSED 378 - Social Science Methods 3 unit(s)

Research Core (3 units)
• EDTE 250 - Qualitative Research in Education 3 unit(s)

Culminating Experience (3-6 units)

• MAT Presentation at Department Colloquium
• Complete Plan A (Thesis) or Plan B (Project):

Plan A (Thesis)

• EDTE 299 - Master's Thesis 1-6 unit(s)

Plan B (Project)

• EDTE 298 - Special Studies in Education 1-6 unit(s)

Total Units Required (30 units)

Upon completion of the credential requirements, students must have achieved a SJSU cumulative grade point average of 3.0 in order to be recommended for a credential.

Credential(s)

Multiple Subject Credential

The Credential in Multiple Subject Credential is offered by the Department of Teacher Education.

Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR).

Multiple Subject Credential Requirements (41 units)

Core Courses

• EDEL 108A - Curriculum: Reading/Language Arts 2-6 unit(s) (3 units required)
• EDEL 108B - Curriculum: Science 1-3 unit(s) (3 units required)
• EDEL 108C - Curriculum: Social Studies 1-3 unit(s) (3 units required)
• EDEL 108D - Curriculum: Mathematics 1-3 unit(s) (3 units required)
• EDEL 143A - Beginning Student-Teaching (Phase I) 1-6 unit(s) (4 units required)
• EDEL 143B - Advanced Student-Teaching (Phase II) 1-10 unit(s) (Students will take up to 10 units of EDEL 143B)
• EDTE 294 - Research/Practices in Health and Special Education 3 unit(s)
• EDTE 208 - Educational Sociology 3 unit(s) (GWAR)
• EDTE 224 - Seminar in Educational Psychology 3 unit(s)
• EDTE 260 - Critical Perspectives on Schooling for a Pluralist Democracy 3 unit(s)
• EDTE 262 - Classroom Issues in the Language/Literacy Development of L2 Learners 3 unit(s)
Total Units Required (41 units)

Upon completion of the credential requirements, students must have achieved a SJSU cumulative grade point average of 3.0 in order to be recommended for a credential.

Single Subject Credential

The Credential in Single Subject is offered by the Department of Teacher Education.

Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR).

Core Courses (35-39 units)

- EDTE 282 - Assessment and Evaluation 3 unit(s)
- EDSC 184X - Student Teaching I 2-6 unit(s) (6 units required)
- EDTE 294 - Research/Practices in Health and Special Education 3 unit(s)
- EDTE 208 - Educational Sociology 3 unit(s)
- EDTE 224 - Seminar in Educational Psychology 3 unit(s)
- EDTE 260 - Critical Perspectives on Schooling for a Pluralist Democracy 3 unit(s)
- EDTE 262 - Classroom Issues in the Language/Literacy Development of L2 Learners 3 unit(s)

Methods (3-4 units)

Complete one of the methods course listed below:

- ARED 238 - Principles of Art Education 3 unit(s)
- ENED 353 - Methods of Teaching English 4 unit(s)
- FLED 380 - Teaching Foreign Languages 3 unit(s)
- KNED 339 - Instructional Materials and Procedures in Physical Education 3 unit(s)
- MTED 394 - Secondary School Mathematics 3 unit(s)
- MUED 370A - Methodology for Music Educators: Elementary K-8 2 unit(s)
- MUED 370B - Methodology for Music Educators: Secondary 2 unit(s)
- SCED 273 - Secondary School Science 3 unit(s)
- SSED 378 - Social Science Methods 3 unit(s)

Student Teaching Phase II (4 units)

Complete one of the student teaching phase II courses listed below:

- ARED 184Y - Student Teaching II - Classroom Teaching 4-6 unit(s) (4 units required)
- ENED 184Y - Student Teaching II - Classroom Teaching 4 unit(s)
- FLED 184Y - Student Teaching II - Classroom Teaching 4-6 unit(s) (4 units required)
- KNED 184Y - Student Teaching II: Classroom Teaching 4-6 unit(s) (4 units required)
- MTED 184Y - Student Teaching II - Classroom Teaching 4-6 unit(s) (4 units required)
- MUED 184Y - Student Teaching II - Classroom Teaching 4-6 unit(s) (4 units required)
- SCED 184Y - Student Teaching II - Classroom Teaching 4 unit(s)
- SSED 184Y - Student Teaching II - Classroom Teaching 4-6 unit(s) (4 units required)

**Student Teaching Phase III (4-5 units)**

Complete one of the student teaching phase III courses listed below:

- ARED 184Z - Student Teaching III - Classroom Teaching 4-6 unit(s) (4 units required)
- ENED 184Z - Student Teaching III - Classroom Teaching 4 unit(s)
- FLED 184Z - Student Teaching III - Classroom Teaching 4-6 unit(s) (4 units required)
- KNED 184Z - Student Teaching III - Classroom Teaching 4-6 unit(s) (4 units required)
- MTED 184Z - Student Teaching III - Classroom Teaching 4-6 unit(s) (5 units required)
- MUED 184Z - Student Teaching III-Classroom Teaching 4-6 unit(s) (4 units required)
- SCED 184Z - Student Teaching III - Classroom Teaching 4 unit(s)
- SSED 184Z - Student Teaching III - Classroom Teaching 4-6 unit(s) (4 units required)

**Seminar (0-2 units)**

Complete one of the seminar course listed below:

- ARED 365 - Field Experience Seminar in Art Education 1 unit(s)
- ENED 365 - Seminar in English Education 2 unit(s)
- FLED 285 - Student Teaching Seminar In Foreign Language Education 1 unit(s)
- MTED 184S - Math Education Phase II Seminar 1 unit(s)
- SCED 375 - Colloquium in Science Education 2 unit(s)

**Total Units Required (35-39 units)**

Elective courses must be selected in consultation with the Graduate Advisor.

Upon completion of the credential requirements, students must have achieved a SJSU Cumulative grade point average of 3.0 in order to be recommended for a credential.

**Teacher Librarian Credential**

The Teacher Librarian Credential program, offered by the Department of Teacher Education, will prepare you for the next step in your teaching career as a library media specialist.

**Specialized Skills for K - 12 Careers**

Graduates of the Teacher Librarian program at the SJSU School of Information will emerge with a specialization in the functions and skills necessary for employment in K - 12 schools including collaboration, technology leadership, and program administration.

As a teacher librarian, you'll be a teacher, a librarian, and an instructional partner.

**Credential + MLIS Degree**
Students in the Teacher Librarian program can pursue both their Teacher Librarian Services Credential and Library and Information Science, MLIS degree! Teacher librarianship is one of the exciting career pathways students can follow within the MLIS program, which is fully accredited by the American Library Association.

- Sign up for future student emails.
- Download our brochure.
- Attend an online open house or watch a recording.
- Contact Dr. Mary Ann Harlan, Teacher Librarian program coordinator.
- Read the Gainful Employment Disclosure.

Approved Course Work

The Teacher Librarian program course work meets the requirements for the California Teacher Librarian Services Credential. If you live in a state other than California, please check to see if the course work is approved by your home state before undertaking this program.

Required Course Work for the TL Credential

Core Courses:

- INFO 200 - Information Communities 3 unit(s)
- INFO 202 - Information Retrieval System Design 3 unit(s)
- INFO 203 - Online Learning: Tools and Strategies 1 unit(s)
- INFO 204 - Information Professions 3 unit(s)

Program Curriculum and Technology:

- INFO 233 - School Library Media Centers 3 unit(s)
- INFO 250 - Design and Implementation of Instructional Strategies for Information Professionals 3 unit(s)
- INFO 285 - Applied Research Methods 1-4 unit(s)

Information Services and Materials:

- INFO 237 - School Library Media Materials 3 unit(s)
- INFO 248 - Beginning Cataloging and Classification 3 unit(s)
- INFO 266 - Collection Management 3 unit(s)

Capstone Course:

- INFO 295 - School Library Field Work 3 unit(s) (required for ALL Teacher Librarian program students)

Additional Course Work for the MLIS Degree
To complete the required 43 units of course work for the MLIS degree, students add four more courses to the 31 units of required course work for the Teacher Librarian Services Credential, nine more elective units and INFO 298 - Advanced Topics in Library and Information Science (e-Portfolio) or INFO 299 - Thesis.

**Recommended Elective Courses for the MLIS in support of Teacher Librarianship:**

- INFO 210 - Reference and Information Services 1-3 unit(s)
- INFO 240 - Information Technology Tools and Applications 3 unit(s)
- INFO 241 - Automated Library Systems 1-3 unit(s)
- INFO 246 - Information Technology Tools and Applications - Advanced 1-3 unit(s)
- INFO 260A - Programming and Services for Children Ages 0-8 3 unit(s)
- INFO 261A - Programming and Services for Young Adults Ages 9-18 3 unit(s)
- INFO 267 - Services to Youth 1-9 unit(s)
- INFO 275 - Library Services for Racially and Ethnically Diverse Communities 3 unit(s)
- INFO 281 - Seminar in Contemporary Issues 1-3 unit(s)
- INFO 282 - Seminar in Library Management 1-3 unit(s)
- INFO 283 - Marketing of Information Products and Services 1-3 unit(s)
- INFO 286 - Interpersonal Communication Skills for Librarians 1-3 unit(s)
- INFO 287 - Seminar in Information Science 1-3 unit(s)
  (Topics: STEM in Libraries; Innovation and Participatory Practice in Libraries (to include Maker Spaces)

**Contact**

Dr. Mary Ann Harlan  
Teacher Librarian Program Coordinator  
maryann.harlan@sjsu.edu

**EDEL 102 - Psychological Foundations of Education**

3 unit(s)  
Cognitive, affective and social/emotional development related to school settings. Theories of development, learning and instruction critically examined. Other topics include individual differences, measurement, evaluation, instructional goals, classroom management and diversity in the classroom.

**Prerequisite(s):** Upper division standing.  
**Grading:** Letter Graded

**EDEL 103 - Social-Multicultural Foundations of Education**

3 unit(s)  
Foundational preparation focused on implications of social, cultural, linguistic and economic diversity on teaching and learning. Emphasis on understanding the implications of history and social context on the educational endeavor in a pluralistic and democratic society.

**Prerequisite(s):** Upper division standing.  
**Grading:** Letter Graded
EDEL 108A - Curriculum: Reading/Language Arts

2-6 unit(s)
Elementary school language/literacy acquisition in culturally diverse classrooms; emphasis on listening, speaking, reading and writing within the context of theory and practice. May be repeated for different subtitle.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

EDEL 108B - Curriculum: Science

1-3 unit(s)
Elementary school science curriculum and theoretical approaches; emphasis on materials, methods, content and evaluation procedures for teaching science in elementary and middle schools in a multicultural and technological society. May be repeated for different subtitle.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

EDEL 108C - Curriculum: Social Studies

1-3 unit(s)
Elementary school social studies curriculum and instruction with emphasis on the influence of ethnic, linguistic, cultural, economic, gender and disability factors on present day culture.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

EDEL 108D - Curriculum: Mathematics

1-3 unit(s)
Elementary school mathematics curriculum and methodology relationships between instructional materials and how children construct knowledge; the role of technology and issues that bear on the teaching of school mathematics. May be repeated for different subtitle.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

EDEL 108E - Teaching Reading in Linguistically and Culturally Diverse Classrooms

3 unit(s)

Course is repeatable for up to 6 units.

Prerequisite(s): LING 108, ENGL 103 or LING 107.
Grading: Letter Graded
Note(s): Should be taken in final semester of undergraduate program.

**EDEL 143A - Beginning Student-Teaching (Phase I)**

1-6 unit(s)
Role of state and local government in education. Clinical observation of classroom, school and district organization. Emphasis on lesson planning.

**Prerequisite(s):** Upper division standing.
**Grading:** Credit/No Credit

**EDEL 143B - Advanced Student-Teaching (Phase II)**

1-10 unit(s)
Practicum in public school classrooms at two grade levels for student teaching experience; includes field and campus seminar. Supervision by College of Education faculty.

**Prerequisite(s):** EDEL 143A.
**Grading:** Credit/No Credit

**EDEL 192 - International Program Studies**

1-6 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

**Grading:** Mixed Grading

**EDSC 153 - Student Teaching/Seminar for Interns**

2 unit(s)
Third of three courses required of second year interns. Action research, peer observation, and self reflection serve as vehicles for examining how instructional design affects student outcomes in content literacy. Includes classroom observations and professional development activities.

**Prerequisite(s):** EDSC 152.
**Grading:** Credit/No Credit

**EDSC 162 - Language/Literacy Development of L2 Learners**

3 unit(s)

**Prerequisite(s):** Program Director consent.
**Grading:** Letter Graded
EDSC 172A - Social, Philosophical Multicultural Fdn

3 unit(s)
Social, cultural, historical and philosophical concepts in secondary teacher education: Application to problems of curriculum and instruction in multilingual, multicultural classrooms.

Prerequisite(s): Program director consent.
Grading: Letter Graded

EDSC 173 - Psychological Foundations of Secondary Teacher Education

3 unit(s)
Application of developmental cognitive and socio-cultural theories of adolescent psychology and culture as a rationale for teaching and learning.

Prerequisite(s): Program director consent.
Grading: Letter Graded

EDSC 184X - Student Teaching I

2-6 unit(s)
Supervised teaching of public middle or high school students. In-class experience ranging from observation to classroom teaching. Emphasis on application of theories examined in foundation courses.

Prerequisite(s): Program director consent.
Grading: Credit/No Credit

EDSC 184Y - Student Teaching II

2-6 unit(s)
Minimum 80-120 class periods of classroom teaching in grades K-12. Related school activities.

Prerequisite(s): Joint approval of major advisor, program director and field placement coordinator.
Grading: Credit/No Credit

EDSC 184Z - Student Teaching III

1-6 unit(s)
Minimum 80-120 class periods of classroom teaching in grades K-12. Related school activities.

Prerequisite(s): Joint approval of major advisor, program director and field placement coordinator.
Grading: Credit/No Credit

EDSC 192 - International Program Studies

1-6 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused
opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

**Grading:** Mixed Grading

**EDSC 200 - Academic Writing Seminar for Professional Educators**

3 unit(s)
This advanced writing seminar is designed to support COE students in their academic and professional writing. Students will receive support in the writing process and explicit instruction on the conventions of academic and professional writing via class sessions, regular individual conferences, and online dialogue.

**Grading:** Mandatory Credit/No Credit/RP

**EDSC 246 - Learning Communities: Methods and Management**

3 unit(s)
Examine factors that contribute to a healthy, inclusive, and collaborative classroom community. Through critical reflection on their field experiences, teacher credential candidates develop a broad view of classroom management, and develop their own approach to building a learning community.

**Prerequisite(s):** EDSC 184X.
**Grading:** Letter Graded

**EDTE 162 - Meeting the Needs of Second Language Learners**

3 unit(s)
Second Language acquisition theories and application of teaching in diverse secondary classrooms.

**Prerequisite(s):** Upper division standing.
**Grading:** Letter Graded

**EDTE 166 - Pre-Professional Experience**

1-3 unit(s)
Observation of learners; service as teacher assistants in public school classrooms; tutoring. May be repeated once.

*Course may be repeated for credit for up to 6 units.*

**Prerequisite(s):** Upper division standing.
**Grading:** Credit/No Credit

**EDTE 180 - Individual Studies**

1-3 unit(s)
Supervised study in specific fields of elementary or secondary education not covered by offered courses.

**Prerequisite(s):** Division head consent.
**Grading:** Credit/No Credit

**EDTE 190 - Health Education for the Classroom Teacher**
3 unit(s)
Current problems of individual, family and community health. Theories, organization, methods and materials for teaching health education.

**Prerequisite(s):** Upper division standing.

**Grading:** Letter Graded

EDTE 192 - International Program Studies

1-6 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

**Grading:** Letter Graded

EDTE 201 - Critical Issues in Education

3 unit(s)
A cross-disciplinary investigation of fundamental value issues of American education in a democratic society, considered in the context of the problems and prospects of world civilizations.

**Grading:** Letter Graded

EDTE 208 - Educational Sociology

3 unit(s)
Role of education in modern social, economic and political life. The school as institution. Problems in American life which affect and are affected by public schools.

*Satisfies GWAR: Graduation Writing Assessment Requirement*

**Grading:** Letter Graded

**Note(s):** This course satisfies graduate-level GWAR in this master's program.

*Sustainability Focused - SDG 4: Quality Education*

EDTE 210 - Becoming a Reader at Any Age

3 unit(s)
Theory and practice of teaching beginning and struggling readers and writers, both native and nonnative English speakers.

**Prerequisite(s):** EDEL 108A or EDSC 138A.

**Grading:** Letter Graded

EDTE 211 - Developing Academic Language for Reading Across the Curriculum
3 unit(s)
Focus on comprehension across subject areas for first and second language learners: background knowledge, fluency, vocabulary, and metacognition.

**Prerequisite(s):** EDEL 108A or EDSC 138A.
**Grading:** Letter Graded

**EDTE 212 - Leadership, Politics and Literacy Program Evaluation**

3 unit(s)
Review of reading research, public policy and effective literacy programs for curriculum leaders.

**Prerequisite(s):** EDTE 216 and EDTE 217.
**Grading:** Letter Graded

**Note(s):** Open to MA candidates in Reading only.

**EDTE 213 - Multicultural Literature for Children and Young Adults**

3 unit(s)
Literature for children and young adults that reflects diverse experiences and perspectives. Will address the role of this literature in classrooms.

**Grading:** Letter Graded

**EDTE 214 - Learning in a High Tech Environment**

3 unit(s)
Teaching and learning with high technology from student-centered perspectives. Lab activities, field observations and investigations in individual areas of specialization. Includes theory to practice, exploring new uses of technology, logistics, leadership roles. May not repeated in the same semester.

**Prerequisite(s):** EDIT 122 (or equivalent).
**Grading:** Letter Graded

**EDTE 216 - Ongoing Assessment in Your Classroom**

3 unit(s)
Prevention and correction of reading/writing/language difficulties with emphasis on diagnosis and evaluation.

**Prerequisite(s):** EDEL 108A, EDSC 138A or instructor consent.
**Grading:** Letter Graded

**EDTE 217A - Reading Practicum I**

3 unit(s)
For Reading/Language Arts Specialist Credential or Reading Certificate candidates. In a supervised after-school program, candidates work with struggling readers and implement effective ongoing assessment and instructional strategies to meet the needs of diverse struggling readers.

**Misc/Lab:** Lecture 2.5 hours/Activity 1.0 hours
Prerequisite(s): EDTE 210, EDTE 211, EDTE 216, EDTE 292.
Grading: Credit/No Credit

EDTE 217B - Reading Practicum 2

3 unit(s)
For Reading/Language Arts Specialist Credential or Reading Certificate candidates. In a supervised summer school program, candidates work with struggling readers and implement effective ongoing assessment and instructional strategies to meet the need of diverse struggling readers.

Misc/Lab: 2.5 hour Seminar/1.0 hour activity

Prerequisite(s): EDTE 210, EDTE 211, EDTE 216, EDTE 292
Grading: Credit/No Credit

EDTE 223 - The Politics of Literacy

3 unit(s)
State, national and global decisions about literacy instruction and the impact on the profession.

Prerequisite(s): Teaching experience or English major.
Grading: Letter Graded

EDTE 224 - Seminar in Educational Psychology

3 unit(s)
Role of psychology in education. Contributions of educational research to current classroom practice and curriculum design. Applications of educational psychology research to current problems in education. Theoretical and practical approaches to understanding learning and teaching.

Prerequisite(s): EDSC 172A and EDEL 102.
Grading: Letter Graded

EDTE 230 - Mathematics: Teaching Common Core (K-3)

3 unit(s)
Course focuses on the mathematical knowledge for teaching K-3 Common Core content standards and mathematical practices within the domains of number, operations, and algebraic thinking. Additional emphasis on pedagogical strategies to foster motivation, engagement, and development of academic language.

Grading: Letter Graded

EDTE 231 - Math Seminar: Common Core (grades K-3)

3 unit(s)
Seminar focuses on implementation of Common Core standards and mathematical practices within teachers’ specific curricular and school context. Emphasis on classroom implementation of high leverage mathematical practices within foundational K-3 content domains of number and operations, measurement, geometry, and data.

Grading: Letter Graded
EDTE 232 - Mathematics: Teaching Common Core (4-8)

3 unit(s)
Course focuses on mathematical knowledge for teaching 4th -8th grade Common Core content standards and mathematical practices within the domains of number, operations, proportional relationships, and algebra. Additional emphasis on strategies to foster motivation, engagement, and development of academic language.

Grading: Letter Graded

EDTE 233 - Math Seminar: Common Core (grades 4-8)

3 unit(s)
Seminar focuses on implementation of Common Core standards and mathematical practices within teachers' specific curricular and school context. Emphasis on classroom implementation of high leverage mathematical practices within foundational 4-8 content domains of algebraic thinking, measurement, geometry, statistics, and probability.

Grading: Letter Graded

EDTE 242R - Field Experience - Reading/Language Arts Specialist

1-4 unit(s)
Conducting reading/language arts assessments; designing, organizing and implementing reading programs; assisting teachers with reading programs.

Grading: Credit/No Credit

EDTE 244 - Seminar in School Curriculum

3 unit(s)
Curriculum in the elementary and middle level school. Includes current issues and practices, curriculum planning and interrelation of theory and practice in elementary education curriculum.

Prerequisite(s): EDTE 208.
Grading: Letter Graded

EDTE 246 - Classroom Management and Governance

1-3 unit(s)
Study of theory, practice and research related to effective communication in bilingual/cross-cultural settings.

Prerequisite(s): EDEL 102, EDEL 103, EDSC 172A and EDSC 173, or instructor consent.
Grading: Letter Graded

EDTE 247 - Supervisory/Coaching Practices for Teacher Leaders

3 unit(s)
Development of coaching/supervisory behaviors which encourage the development of reflective practitioners. Includes understanding of principles and methods of observing teachers and children, and how to record, analyze and share data to best meet their needs.
Prerequisite(s): Two years of teaching experience.  
Grading: Letter Graded

**EDTE 250 - Qualitative Research in Education**

3 unit(s)  
The role of qualitative research in education and society. Historical theoretical groundings, ethical considerations, procedures in development and evaluation of research proposals, techniques of research data analysis.

Prerequisite(s): EDEL 221 or instructor consent.  
Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

**EDTE 260 - Critical Perspectives on Schooling for a Pluralist Democracy**

3 unit(s)  
Critical study of theory, practice and research related to effective communication in cross-cultural, multilingual settings.

Prerequisite(s): EDEL 103.  
Grading: Letter Graded

**EDTE 261 - Cross-Cultural Communication for Teachers: Critical Studies in Language, Culture and Narrative**

3 unit(s)  
Study of cross-cultural communication for teachers with a focus on theory and practice related to language, culture and narrative in educational settings.

Prerequisite(s): EDTE 225 or instructor consent.  
Grading: Letter Graded

**EDTE 262 - Classroom Issues in the Language/Literacy Development of L2 Learners**

3 unit(s)  
Theories of first and second language acquisition and their application to teaching reading, writing and SDAIE in linguistically diverse classrooms.

Prerequisite(s): EDEL 108A or instructor consent.  
Grading: Letter Graded

**EDTE 281 - Philosophy of Education**

3 unit(s)  
Critical philosophical issues as they bear on education in a democratic society.

Grading: Letter Graded
Cross-listed with PHIL 281. Teacher Education is responsible for scheduling.

**EDTE 282 - Assessment and Evaluation**

3 unit(s)
Principles of educational assessment and evaluation. Instructional and classroom assessment design. Focus on construction, selection and use of embedded instruments. Interpretation of data for teachers and students’ use.

**Prerequisite(s):** Program director consent.
**Grading:** Letter Graded

**EDTE 290C - Research on Literacy Across the Curriculum for an Equitable Society**

3 unit(s)
Emphasis on research/teacher inquiry with attention to research designs and methods from various disciplinary perspectives for the study of literacy. An historical look at three additional program themes: Reading and Writing Across Cultures and the Curriculum; Second Language Learners; and The politics of Literacy.

**Grading:** Letter Graded

**EDTE 292 - Writing Across Cultures and the Curriculum**

3 unit(s)
Research, theory and practice of writing development of instruction for native and nonnative English speakers. Emphasis on writing in an integrated curriculum.

*Satisfies GWAR: Graduation Writing Assessment Requirement*

**Prerequisite(s):** EDEL 108A or instructor consent.
**Grading:** Letter Graded

**Note(s):** This course satisfies graduate-level GWAR in this master's program.

**EDTE 294 - Research/Practices in Health and Special Education**

3 unit(s)
(Formerly EDEL 294) Introduces students to issues in health and special education that are necessary for them to know and be able to meet their legal and professional responsibilities. The course includes identifying, referring, and supporting students who may be at risk of health problems and have special needs. Students will also learn about effective instruction in health and special education content and skill development and how to create and support a safe and healthy environment for learning for all students.

**Prerequisite(s):** Upper division or Graduate standing.
**Grading:** Letter Graded

**EDTE 298 - Special Studies in Education**
1-6 unit(s)
Supervised study in a specific educational field.

Prerequisite(s): Consent of program director.
Grading: Mandatory Credit/No Credit/RP

EDTE 299 - Master's Thesis

1-6 unit(s)
Supervised thesis in the field of education.

Prerequisite(s): Admission to candidacy for the master's degree.
Grading: Mandatory Credit/No Credit/RP

EDTE 1290R - Culminating Experience Supervision

1 unit(s)
Continued work on thesis or project beyond minimum required units, for cases in which final deliverables are still in progress.

Prerequisite(s): RP grade in a preceding thesis or project semester.
Grading: Mandatory Credit/No Credit/RP

Note(s): No Degree Credit.

Teacher Education is responsible for scheduling.

David Whitenack, PhD | Professor, Teacher Education

**Overview**

The Ed.D. in Educational Leadership at San José State University emphasizes human centered approaches to educational leadership. The program builds on the view that educational leaders serve in learner-centered systems in which inquiry, learning, equity, and human care are central concerns. The expected role for educational leaders involves creating a learning community, one that promotes collaboration and shared decision making. This view implies moving towards more distributed models of leadership and creating a public will that is networked, dispersed and charged with successfully educating all students. The doctoral program begins with an intensive on campus five-week summer session that meets three days per week. During the fall and spring semesters in years 1 and 2, two classes each semester are scheduled. Together, the classes meet one evening per week for 8-10 weeks and on 4 or 5 Saturdays. The second summer session includes a required global experience including a two-week educational and cultural experience outside of the United States. No formal class sessions are scheduled during the final two semesters of the Ed.D. program, when students complete independent research as part of the dissertation.

**Doctoral**

**Educational Leadership, EdD**

The Ed.D. Program in Educational Leadership at San José State University is dedicated to developing outstanding education leaders who are well prepared to meet the demands and challenges of schools, today and in the future. The program builds on the following two basic principles: (1) schools are learner-centered organizations; and (2) educational leaders serve in human-care systems. The expected role of educational leaders involves creating a learning community that promotes collaboration and shared decision making. The Ed.D. Program is designed so that it may be completed in nine semesters over three years. This time frame allows for the completion of all coursework, pre proposal/literature review, dissertation proposal, and completion of the dissertation. The program begins with an intensive on-campus five-week summer session that meets three days per week. Fall and spring semester classes are scheduled as hybrid classes and meet on evenings, weekends, and online during the semester. The second summer requires a global component that includes a two-week educational and cultural experience outside of the United States. It is anticipated that students will concurrently be working full time as they pursue their doctoral studies.

Additional information is available in the Educational Leadership (EdD) Program Office or website: www.sjsu.edu/edd.

**Admissions Requirements**
Candidates must meet all university and Ed.D. Program admission requirements. The university-level graduate application is separate from the application that is sent to the Ed.D. Program. Minimum requirements for the program include a master's degree from an accredited institution and a 3.0 grade point average (B or better) in the last 60 semester units completed. In exceptional cases, experience and service will be considered in lieu of the Master's degree requirement.

In addition to the university admissions requirements as outlined in this catalog, applicants must meet the Ed.D. Program requirements below.

- Three letters of recommendation attesting leadership ability and potential for success in a doctoral program. One of the letters should be from a school district employer indicating support for participation in the doctoral program. Recommendation forms are available on the Ed.D. Leadership Program webpage at www.sjsu.edu/edd. Recommendation letters should be submitted directly from the person writing the recommendation letter to edd-leadership@sjsu.edu.
- Current professional resume or curriculum vitae that includes leadership experience and/or leadership strengths as indicated through job experiences, administrative credentials, and/or other evidence of leadership capacity and practice. Resumes or vitae should not exceed 4 pages.
- A written statement of purpose that explains the reasons for pursuing doctoral studies in educational leadership. The statement should include relevant personal and professional history and background, some of the core commitments and principles that drive one's career goals, and challenges facing education and educational leadership in California, nationally, and globally. Statements should not exceed 3 pages, single-spaced.
- A recent writing sample (last 5 years) of an individually authored paper, research projects, or reports (maximum of 20 pages). All writing samples should be single-authored and include citations and references. The writing sample is intended to demonstrate the ability to construct a meaningful argument on an education-related topic and to cite research/literature to support one's views. A PowerPoint presentation is not acceptable.

**Requirements for Advancement to Graduate Candidacy**

Students who have completed matriculation and have achieved classified standing in the Ed.D. Program curriculum will advance to candidacy for the Ed.D. degree. Students advance to candidacy after completing a minimum of 9 units of letter-graded work that is acceptable to the Ed.D. Program and fulfilling other university requirements for advancement to candidacy as detailed in the Graduate Policies and Procedures section. Candidacy includes the successful completion of the Graduation Writing Assessment Requirement (GWAR).

**Requirements for Graduation**

**University Graduation Requirements**

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

**Ed.D. Leadership Program Graduation Requirements**

To be eligible for graduation, the candidate shall have completed all coursework and global out-of-country (or equivalent) requirements, pre-proposal/literature review, the dissertation proposal, IRB, and the doctoral dissertation. Students are required to complete the dissertation proposal in two attempts in order to proceed with the dissertation.

**Dissertation Requirements**
The Ed.D. dissertation is expected to contribute to an improvement in education practice and/or education policy in the context of a particular educational institution. It is expected that the dissertation will show evidence of originality, critical and independent thinking, appropriate form and organization, and a rationale for the examined research problem or question.

The dissertation must meet all university requirements as stipulated in this catalog and in the SJSU Master's Thesis and Doctoral Dissertation Guidelines. It will be written under the guidance of the candidate’s thesis committee chair with assistance from two other members of the dissertation committee. The Dissertation Committee consists of three members, one who serves as the committee chair (or in some cases, two co-chairs can be identified). Two members of the dissertation committee must be tenured or tenure-track members of the San Jose State University faculty. The third member of the committee is expected to be employed at a local school or school district and have achieved the terminal degree (e.g., Ed.D., J.D., Ph.D.).

All students must enroll in a total of 12 units of dissertation credit during the final year of the program: 6 units in the fall semester and 6 units in the spring semester of Year 3 of the program. Once the candidate has enrolled in 12 dissertation units, the maximum allowable, continuous enrollment must be maintained until the dissertation is approved and filed and the degree is awarded.

All students are expected to produce a dissertation that consists of five chapters, namely Introduction, Literature Review, Methodology, Results/Analysis, and Conclusions/Recommendations. This is typically followed by a References section and relevant appendices. Alternatives to the traditional dissertation format will be considered, with approval by the faculty advisor/dissertation committee, within accepted norms of research, scholarship, and creative activities. The Lurie College of Education uses APA style for research and the SJSU Graduate Studies division provides additional formatting/style guidelines for theses and dissertations. An exception to the traditional five-chapter dissertation will be made on a case by case basis.

After completing the dissertation proposal defense and obtaining IRB approval, students carry out the research plan described in the approved proposal, collect and analyze data, and continue writing the dissertation. The Dissertation Committee Chair and committee members will guide the students to ensure their dissertation conveys scholarly work that results from an appropriate research study and contributes to the understanding and/or improvement of educational practice.

All students are expected to submit drafts of their dissertation to their committee members in the appropriate word-processed form. The completed final draft also includes the Abstract, Copyright Page, Title Page, Acknowledgments, Table of Contents, List of Tables, List of Figures, References, and Appendices. The students submit the final draft manuscript to committee members for a final reading and approval. The final dissertation may take a variety of forms depending upon the type of research undertaken. The conventional five-chapter dissertation may be revised to reflect a specific design and purpose.

Dissertation Examination: Every candidate for the Ed.D. degree must successfully pass a final oral examination based on the dissertation. At the final oral defense, the candidate will make a public presentation of his or her dissertation research. The final oral defense is conducted as an open forum led by the candidate and guided by the Committee Chair and the two other members of the Dissertation Committee. The purposes of this formal meeting are to (1) examine and assess the quality of the dissertation; (2) evaluate the ability of the student to present research; and (3) provide an opportunity to share the research with the campus community. Unanimous agreement of the Dissertation Committee is required for approval of the dissertation and recommendation that the Ed.D. degree be conferred on the candidate.

Doctorate Requirements (60 units)

Core Courses (48 units)

Educational Leadership and Education Policy (12 units)

- EDD 510 - Educational Leadership: Theory and Practice 3 unit(s)
• EDD 512 - Leadership, Complexity, and Systems Thinking 3 unit(s)
• EDD 515 - Leadership, Diversity, and Culture: Family, School and Community Connections 3 unit(s)
• EDD 535 - Education Policy, Resource Allocation and School Reform 3 unit(s)

Organizational Behavior and Adult Learning (9 units)

• EDD 511 - Leadership for Learner Centered Organizations 3 unit(s)
• EDD 520 - Organizational Behavior and Change in Education 3 unit(s)
• EDD 522 - Communication and Educational Leadership 3 unit(s)

Contexts for Educational Leadership (12 units)

• EDD 530 - Assessment, Testing and Evaluation: Contexts and Implications for School Reform 3 unit(s)
• EDD 536 - The Politics of Education and Finance of Schooling 3 unit(s)
• EDD 540 - Education and Leadership in Global Context: Globalization & Narrative Ethics 3 unit(s)
• EDD 585 - Field Experience: Global Context 3 unit(s)

Research Methodology: Tools for the Scholar-Practitioner (15 units)

• EDD 501 - Quantitative Analysis for Educational Research 3 unit(s)
• EDD 502 - Qualitative Methods in Educational Research 3 unit(s)
• EDD 591A - Proseminar I: Introduction to Doctoral Studies in Educational Leadership 3 unit(s)
• EDD 591B - Proseminar II - Practitioner-Led Research 3 unit(s) (GWAR)
• EDD 591C - Professional Seminar III: Structuring & Writing a High Quality Dissertation 3 unit(s)
• International Out-of-Country Experience 0 unit(s)

Culminating Experience (12 units)

• EDD 599 - Dissertation 1-12 unit(s) (Students take EDD 599 for two semesters.)
• Dissertation Defense

Total Units Required (60 units)

Satisfactory Academic Progress

All students are expected to make satisfactory progress in accordance with the Ed.D. cohort structure and program of study through the time of advancement to candidacy. The normal expectation is that students will attend and participate in all required program components. In the event that a lack of attendance/participation would cause a student to fail to maintain a grade point average of 3.0, the student would be notified and counseled regarding requirements for satisfactory progress toward the degree in the time specified by program faculty.

A student must earn a grade of "C" or better in all required classes in the doctoral program, with all "sub-C" grades considered as failure; those classes would have to be repeated, and students would have one additional chance to do so. Failure to achieve the "C" grade in two chances would result in a recommendation for administrative academic disqualification. All students are expected to achieve a grade point average of 3.0 or above in all semesters of coursework. In addition to the university requirements for minimal grade point average and academic disqualification, the Ed.D. Program requires that all students achieve a minimum grade point average of 3.0 or above in every semester of coursework. A student who achieves less than a 3.0 GPA in a given semester will be required to attend a
meeting with the Ed.D. Director, the student's advisor (if an advisor has been assigned), and the faculty member teaching the course(s) in which a grade below a "B" has been assigned. Possible outcomes of this meeting include (1) a recommendation for a remediation plan for the student, (2) academic probation in the Ed.D. Program with the recommendation of disqualification if achieved GPA falls below 3.0 in a subsequent semester, or (3) a recommendation that the student be immediately disqualified from taking further coursework in the doctoral program.

Additionally, satisfactory progress pertains to doctoral students' adherence to the high standards of professional ethics. Students must adhere to scholarly and ethical standards in all courses, fieldwork, and research endeavors. Such standards are defined by the faculty, the professional accrediting bodies, policies of the university and the CSU, and relevant statutes of federal, state, and local governments. Students may be placed on probation or disqualified based on unsatisfactory scholastic progress or failure to adhere to professional and ethical standards.

We note that, according to university policy, a student who falls below a 3.0 GPA in an academic term will be notified in writing that he/she has been placed on academic probation. When the student's overall GPA is below 3.0, failure to achieve a term GPA of 3.0 in any subsequent semester results in academic disqualification.

In all cases, a disqualified student will not be allowed to continue in the program, enroll in doctoral-level courses, or register in the doctoral program. The disqualification will be communicated to the student in writing through certified mail. A disqualified student will be permitted to apply for reinstatement into the Ed.D. Program; consideration of the student's application for reinstatement will occur along with consideration for all new applications into the program in a given year.

Students who need to make up assignments must work with the faculty member teaching a particular class, and it is up to each individual faculty member how best to negotiate missed assignments and/or requests for a grade of Incomplete. In the event that lack of attendance/participation causes a student to fail to maintain a GPA of 3.0, the student will be notified of academic probation and counseled regarding requirements for satisfactory progress toward the degree.

Any student may request a leave of absence from the Ed.D. Program for up to one year through a written request to the Ed.D. Director and a formal petition to the university. To be considered, the student should explain the reasons for the request and any mitigating circumstances involved. The request may be approved or denied by the Director in consultation with the Ed.D. Program faculty. If approved, the approval will stipulate the timeline and conditions or options for returning to the doctoral program. One possible option is for the student to join a later cohort and resume taking the classes that were missed.

**EDD 501 - Quantitative Analysis for Educational Research**

*3 unit(s)*

Students will develop a comprehensive understanding of the statistical principles used in the description and analysis of data. Students will also learn how to conduct appropriate statistical analyses, interpret findings, and compose meaningful reports while examining how these skills can lead to being a more informed and involved educator.

**Prerequisite(s):** Acceptance into the Ed.D. Program  
**Grading:** Letter Graded

**EDD 502 - Qualitative Methods in Educational Research**

*3 unit(s)*

Explores qualitative research approaches and methods including participant observation, interviews, ethnography, narrative and case study approaches; includes methods of data analysis such as discourse analysis, dialogic analysis, and visual analysis.

**Prerequisite(s):** Acceptance into the Ed.D. Program  
**Grading:** Letter Graded
EDD 510 - Educational Leadership: Theory and Practice

3 unit(s)
This course presents an overview of the major concepts and theories that constitute the knowledge base in the leadership of education, including an examination of leadership theories from early models of hierarchical control to contemporary models of shared leadership and organizational transformation.

Prerequisite(s): Acceptance into the Ed.D. Program
Grading: Letter Graded

EDD 511 - Leadership for Learner Centered Organizations

3 unit(s)
Students will develop the knowledge and skills for examining, designing and implementing organizational, classroom, and training conditions that support quality learning experiences for individuals in the organization.

Prerequisite(s): Acceptance into the Ed.D. Program
Grading: Letter Graded

EDD 512 - Leadership, Complexity, and Systems Thinking

3 unit(s)
This course presents principles, theories, attributes related to individual leadership development. It includes concepts related to systems thinking that are critical to the long-term sustainability of your school, agency, or organization.

Prerequisite(s): Acceptance into the Ed.D. Program
Grading: Letter Graded

EDD 515 - Leadership, Diversity, and Culture: Family, School and Community Connections

3 unit(s)
Educational leadership and management issues related to an increasingly diverse student body in educational institutions. Reviews educational research, practice, theory and legal matters within local and global contexts. Students engage in activities and discussions focused on strategies utilized by social justice advocates that have the potential to improve educational experiences and opportunities in P-12 settings, and in university-school-community partnerships. Emphasis placed on the interaction between underrepresented segments of society and educational institutions with attention to varying cultural backgrounds, communication patterns, social networks, leadership and administrative styles.

Prerequisite(s): Acceptance into the Ed.D. Program
Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

EDD 520 - Organizational Behavior and Change in Education

3 unit(s)
This course seeks to interpret and analyze observed organizational processes, behavior, and potential solutions using theoretical insights. The course relies on seminar discussions, theory applications, and an organizational
change design project and evaluation research design.

**Prerequisite(s):** Acceptance into the Ed.D. Program  
**Grading:** Letter Graded

**EDD 522 - Communication and Educational Leadership**

3 unit(s)
This course analyzes popular narratives on education and practices persuasive, rhetorical strategies for using those narratives to shape public expectations of educators, students, and schools.

**Prerequisite(s):** Acceptance into the Ed.D. Program  
**Grading:** Letter Graded

**EDD 530 - Assessment, Testing and Evaluation: Contexts and Implications for School Reform**

3 unit(s)
This course provides a historical, analytical and empirical framework for understanding assessment, testing and evaluation in K-12 education. The context aims at exploring the current national and state accountability policy regimes in the U.S. particularly those linked to the Common Core Standards movement.

**Prerequisite(s):** Acceptance into the Ed.D. Program  
**Grading:** Letter Graded

**EDD 535 - Education Policy, Resource Allocation and School Reform**

3 unit(s)
This course is designed for students to develop understanding of education policy. The course explores the formation, design, and implementation of school reform efforts across different levels of educational system.

**Prerequisite(s):** Acceptance into the Ed.D. Program  
**Grading:** Letter Graded

**EDD 536 - The Politics of Education and Finance of Schooling**

3 unit(s)
This course presents an overview of the major concepts and theories that constitute the knowledge base in the politics of education and finance of schooling.

**Grading:** Letter Graded

**EDD 540 - Education and Leadership in Global Context: Globalization & Narrative Ethics**

3 unit(s)
This course provides global perspectives on education and leadership in contemporary society with emphasis on social, political, and economic factors that affect access and equity and the role of leadership.

**Grading:** Letter Graded
EDD 585 - Field Experience: Global Context

3 unit(s)
Lectures, field visits, and extended study of education and leadership in global context

Grading: Mandatory Credit/No Credit/RP

EDD 591A - Proseminar I: Introduction to Doctoral Studies in Educational Leadership

3 unit(s)
This course provides an orientation to the doctoral program in educational leadership, doctoral studies more generally, and an overall introduction to educational leadership studies. The seminar will discuss the skills and practices needed to be successful doctoral students, both as consumers and producers of research.

Grading: Credit/No Credit

EDD 591B - Proseminar II - Practitioner-Led Research

3 unit(s)
The course content focuses on practice-led research methods and the problems they are best suited to answer. In practice-led research, the primary focus of the research is to advance knowledge about practice, or to advance knowledge within practice.

Satisfies GWAR: Graduation Writing Assessment Requirement

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

EDD 591C - Professional Seminar III: Structuring & Writing a High Quality Dissertation

3 unit(s)
The focus of the seminar is to facilitate the production of a high quality dissertation. Candidates will gain a deep understanding of the expectations of dissertation writing by examining published dissertations and considering relevant applications to their own dissertation writing.

Grading: Mandatory Credit/No Credit/RP

EDD 599 - Dissertation

1-12 unit(s)
Over the final year of the program, students must enroll in 12 units of dissertation credit. This course carries degree credits to recognize work done on the dissertation and is to be used on the candidacy form and to fulfill graduation requirements.

Course may be repeated for credit for up to 12 units.
**Prerequisite(s):** Acceptance into the Ed.D. Program  
**Grading:** Mandatory Credit/No Credit/RP

**EDD 1290R - Culminating Experience Supervision**

1 unit(s)  
Continued work on dissertation or project.

**Prerequisite(s):** Outstanding RP grade in a preceding semester in a project or thesis class  
**Grading:** Credit/No Credit/No Degree Credit

**Note(s):** No Degree Credit.
# Teacher Education Admissions Requirements

## Admissions Requirements

The following chart identifies admission requirements for all degree, credential and certificate programs in the Teacher Education Department. Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirement web page at GAPE (Graduation Admissions and Program Evaluations).

**Requirements for Program Continuation / Advancement to Candidacy**

Students must meet the university requirements for candidacy. General university requirements for advancement to candidacy for the MA degree are detailed in the Graduate Policies and Procedures section. Candidacy includes successful completion of the Graduation Writing Assessment Requirement (GWAR). For graduate courses that meet the GWAR, refer to the GWAR Course List on the College of Graduate Studies website.

Applicants must also

- complete successfully 9 units of graduate coursework in the Elementary Education program;
- demonstrate aptitude for advanced work in professional education as measured by instructor appraisals, evaluation of previous academic work, recommendation by qualified professionals, or other assessments;
- meet with a graduate advisor to plan a formal course of study. The MA degree approved programs are individually designed to meet specific student objectives.

The proposed graduate program must be approved by the graduate coordinator before the student may be considered a candidate for the MA degree.

How to Become a Teacher

A California teaching credential is a license to teach in California public schools. A single subject credential is primarily for those who intend to teach in a designated subject area at the secondary (high school) or middle school level. A multiple subject credential is primarily for those intending to teach multiple subjects in the elementary or middle school level. The Education Specialist Credential is for individuals who want to become special educators.

A description of the different options is outlined on these pages. The process, requirements, and application materials are described in detail on each program’s website.

Bilingual/ESL Authorization (Grades K-12)

College

Complete a major in the subject that you want to teach

Consult major department

PhD (or MA/MS for some community colleges)

Becoming an Elementary School Teacher

1. Seek Subject Matter Preparation
   As an undergraduate student consider one of the following programs to strengthen your preparation:
   - Department of Child and Adolescent Development
   - Department of Environmental Studies
   - Department of History
   - Department of Humanities
Each of the above departments has majors with a teacher preparation option that was designed to provide you the opportunity to learn the content you will apply as you teach in grades K-8.

2. Apply for Admission to the Multiple Subject Credential Program
   - Applications to the Credential Program are accepted for Fall, Spring, and Summer semesters.
   - Requirements include:
     - Admission to Graduate Studies at San José State University
     - Grade point average (GPA) of approximately 2.87 (see advisor)
     - Passing score on California Basic Education Skills Test (CBEST)
     - Pre-professional experience in a K-8 public school setting is a requirement for admission to the Multiple Subject Credential Program. This requirement can be met either through fieldwork hours completed as part of a college course, experience in a K-8 classroom, or a combination of the above. Experience observing/assisting or teaching in a Title 1 or "low performing" school is encouraged. Experience in a private school setting or at the preschool level cannot be included as part of 50-hour minimum for pre-professional experience.
     - Passing score on California Subject Examinations for Teachers (CSET): Multiple Subject Tests.
     - Completion of Multiple Subject Credential Program Department Application. See the advisement guide.

3. Complete a professional Preparation Program leading to the Preliminary Multiple Subject Credential.
   Program pathways include Bilingual Authorization, Flexible, Concurrent, Teacher Educator, Middle Level Emphasis and Critical Research Academy.

The following requirements apply to all of the above pathways:

**PRELIMINARY CREDENTIAL**
- Bachelor's degree from a regionally accredited college or university and program. Bachelor's degree must be granted on the same day or after university graduation.
- Prerequisites: Certificate of Clearance for personal and professional fitness
- Foundations: EDEL 102 and EDEL 103
- Dual language: EDTE 162
- Student teaching: EDEL 143A - Beginning Student-Teaching (Phase I) and EDEL 143B - Advanced Student-Teaching (Phase II), including EDTE 246
- In addition, before or during the program, students must take and pass the following courses or their equivalents:
  - EDTE 190 - Health Education for the Classroom Teacher
  - EDSE 192A - Including and Supporting Students
- *Program completers must also take and pass -
  - The Reading Instruction Competence assessment (RICA)
  - The Performance Assessment for California Teachers (PACT)
  - Satisfaction of the U.S. Constitution requirement
  - Level I Technology requirement
  - CPR - Adult, Child, Infant
- When ready, candidates should visit Credential Services to review requirements for the Multiple Subject Credential application process.

**PROFESSIONAL CLEAR CREDENTIAL**
- Employed teachers need to continue professional development for the advanced credential following completion of the Preliminary Credential. To meet the requirements for the advanced teaching credential check with the Commission on Teacher Credentialing (CTC) at www.ctc.ca.gov.

Becoming a Secondary School Teacher
1. **Complete a Single Subject Matter Preparation Program**

Programs with asterisks (*) are majors that are fully compliant with the requirements of the No Child Left Behind (NCLB) Act. Students in other majors may have to take the California Subject Exam for Teachers (CSET). See your department advisor for your particular course of study.

</table>
Major: Theatre Arts  
Credential: English

Students who have completed or wish to complete another major may consult with the teacher preparation advisor from one of the listed programs to determine possible equivalence to Single Subject Matter Competency.

2. Apply for Admission to the Single Subject Credential Program
   Applications to the Credential Program are accepted for both Fall and Spring semesters. Visit the program website at www.sjsu.edu/teachered for information on how to apply. Please note that the process of meeting application requirements can take several months to complete, so plan ahead.

3. Complete a Professional Preparation Program leading to a single subject credential. Requirements include:

   PRELIMINARY CREDENTIAL (LEVEL 1)
   Non-renewable, valid for a maximum of five years.
   - Bachelor's degree from a regionally accredited college or university
   - Prerequisite: Certificate of Clearance of personal and professional fitness
   - EDSC 162 - Language/Literacy Development of L2 Learners
   - EDSC 172A - Social, Philosophical Multicultural Fdn
   - EDSC 173 - Psychological Foundations of Secondary Teacher Education
   - EDSC 246 - Learning Communities: Methods and Management
   - EDTE 294 - Research/Practices in Health and Special Education
   - EDTE 282 - Assessment and Evaluation
   - EDSC 184X - Student Teaching I
   - Phase II Student Teaching: 184Y and 184Z in disciplinary departments
   - CalTPA
   - Subject-specific methods
   - CPR (adult, infant and child)
   - U.S. Constitution requirement
   - Technology requirement

Becoming a Special Education Teacher

1. Apply for admission to the Education Specialist Preliminary Teaching Credential: Early Childhood Special Education Credential, Education Specialist: Mild/Moderate Disabilities Credential, Education Specialist: Moderate/Severe Disabilities Credential. Requirements include:
   - Bachelor's degree from a regionally accredited college or university and program.
   - Admission to San José State University.
   - Grade Point average (GPA) of 2.75, or better.
   - Passing score on the California Basic Education Skills Test (CBEST).
   - Passing score on the California Subject Examinations for Teachers (for the Education Specialist: Mild/Moderate Disabilities Credential and Education Specialist: Moderate/Severe Disabilities Credential)
   - Satisfaction of the Constitution requirement.
   - Completion of 45 hours of verifiable, supervised experience with children in an instructional setting
   - Completion of Department of Special Education application with all required documents
   - Certificate of Clearance for personal and professional fitness.

2. Complete a Professional Preparation Program leading to the Educational Specialist Credential
   To be endorsed for the credential, the following requirements apply to all options:

   PRELIMINARY CREDENTIAL
Satisfied all course requirements for the credential option (see Special Education section of the Catalog).
Grades of "B" or better in all credential courses/GPA of 3.0
Proof of competence in Reading Instruction by passing the RICA, unless having a valid California Multiple Subject Credential or Single Subject Credential.
Satisfactory Dispositions Evaluations

PROFESSIONAL INDUCTION PLAN

To be endorsed for the credential, the following requirements apply to all options:
Candidates must hold a valid Preliminary Education Specialist Credential.
Candidates must apply to the university and department for the Clear Induction Program and complete an Induction program of studies.
Complete a program of studies and experiences (see Special Education section of Catalog).
Professional portfolio demonstrating advanced knowledge and skills.
Grades of "B" or better in all courses for credential.
Engineering

Charles W. Davidson College of Engineering

- Overview
- Engineering Student Success Center (ESSC)
- Preparation for Engineering Programs
- Preparation for Technology and Aviation Programs
- Progress to Degree Requirements
- General Education Requirements
- Undergraduate Programs Offered
- Graduate Programs Offered

Office: Engineering Building 493

Email: engineering@sjsu.edu
Website: engineering.sjsu.edu

Leadership:
Sheryl Ehrman, Dean
TBD, Associate Dean for Undergraduate Programs and Student Success
Raymond Yee, Associate Dean of Extended Studies
Xiao Su, Associate Dean of Graduate Studies and Research

Overview

The Charles W. Davidson College of Engineering offers undergraduate and graduate programs in Aerospace Engineering; Biomedical, Chemical and Materials Engineering; Civil and Environmental Engineering; Computer and Software Engineering; Electrical Engineering; Interdisciplinary Engineering; Industrial and Systems Engineering; Mechanical Engineering; Industrial Technology, and Aviation. Each department offers a variety of major and minor programs which are identified in their respective parts of this catalog. General Engineering also offers interdisciplinary degrees in Engineering.

Engineering Student Success Center (ESSC)

Office: Engineering Building 116
Telephone: 408-924-3990
Email: success-engineering@sjsu.edu
Website: www.sjsu.edu/essc

The mission of the Engineering Student Success Center (ESSC) is to empower engineering students from application to graduation, support their academic and personal growth, and engage them as lifetime members of the college learning community. The ESSC will provide programs and advising for undergraduate and graduate students in the
College of Engineering that support students’ smooth transition to SJSU, their transformation into active learners and owners of their academic careers, and promote their personal and professional development.

The MESA Engineering Program and the Women in Engineering Program work to increase the number of graduates entering the engineering profession from traditionally under-represented and economically disadvantaged groups. MEP actively recruits students, provides support services until graduation and acts as liaison with companies offering employment experiences. MEP assists students with admissions, academic and personal counseling, financial aid and scholarships, housing and registration. MEP maintains a study center for tutoring, workshops, individual and group study and social functions. A summer job placement program assists students in obtaining jobs in industry.

The Community for Engineering Learning and Living (CELL) is a themed living community offered by the University Housing Services for first year engineering students. CELL’s objectives are to provide a cooperative learning environment, to encourage and build the engineering community and to foster a sense of belonging and responsibility to the community. Through facilitated study groups, CELL students will experience the academic support and cooperation of a community committed to academic success. CELL students will have regular access to faculty, advisors and industry professionals through workshops and programs. CELL is about shared experiences and creating a vibrant and caring engineering community.

**Preparation for Engineering Programs**

To prepare for engineering, the high school student should take as much advanced math and science as possible, as well as high school engineering and technology courses that may be available at their school. Students with scores of 4 or above on the AP Calculus exams may be able to accelerate their degree program; students who are not calculus-ready on entrance may take a longer time to graduate. Students transferring from California community colleges will be given junior level standing in the Major if they have successfully completed the following course work:

- 12 semester units of calculus and differential equations
- 5-10 semester units of chemistry
- 8-13 semester units of physics which require calculus as a prerequisite
- 10-14 units of lower division engineering appropriate to their engineering major

Transfer students should use assist.org or this SJSU online catalog to determine the specific lower division requirements of their major. Graduation following two academic years of study is possible if the student completes all lower division units before transfer, satisfactorily completes the required upper division coursework and remains in good standing in the Major.

**Preparation for Technology and Aviation Programs**

To prepare for technology and aviation majors, the high school student should take industrial technology classes such as electronics, drafting, and manufacturing, or any engineering classes offered at their school, and should complete courses in physics, chemistry, and pre-calculus or calculus. Community college students are urged to complete as many of the lower division requirements as possible in chemistry, physics, mathematics and technology or aviation at the community college.

**Progress to Degree Requirements**

All College of Engineering undergraduates are required to stay in good standing in their major by maintaining a Major GPA of 2.0 or above. The Major GPA includes all courses required for the major, including both lower and upper division math, science, engineering, technology, aviation or business courses required by their major. Some departments have additional grade requirements for individual courses, groups of courses or all courses taken in their department. See departmental sections for these requirements. Additional university GPA requirements are specified
elsewhere in this catalog. The Probation Engineering Major Policy (defines progress towards degree) can be found on the College advising website.

Incoming Engineering frosh, or other students seeking to change major into Engineering, must complete MATH 30 (or 30X), MATH 31 (or 31X) and PHYS 50 within their first 60 units at SJSU. Change of major information can be found on the College advising website.

**General Education Requirements**

Of the 51 units required by the university up to 27 units may be satisfied by specified major and support requirements. Engineering majors may satisfy the remaining units by taking AMS 1A-AMS 1B (12 units), ENGL 1A-ENGL 1B (6 units), Oral Communication (3 units) and ENGR 100W (3 units). Transfer students may satisfy core GE through the IGETC or CSU breadth requirements. Consult advisors in the Engineering Student Success Center for details.

**Undergraduate Programs Offered**

The College of Engineering offers BS degrees in:

- Aerospace Engineering, BS
- Aviation, BS
- Biomedical Engineering, BS
- Chemical Engineering, BS
- Civil Engineering, BS
- Computer Science, BS
- Electrical Engineering, BS
- Engineering Technology, Computer Network System Management Concentration, BS
- Engineering Technology, Manufacturing Systems Concentration, BS
- Interdisciplinary Engineering, BS
- Industrial and Systems Engineering, BS
- Materials Engineering, BS
- Mechanical Engineering, BS
- Software Engineering, BS

Please see the Majors and Programs or Colleges and Departments listings in this catalog for information about each undergraduate major.

**Graduate Programs Offered**

The College of Engineering offers graduate work leading to Master of Science degrees in:

- Aerospace Engineering, MS
- Artificial Intelligence, MS
- Biomedical Engineering, MS
- Biomedical Engineering, Biomedical Devices Concentration, MS
- Chemical Engineering, MS
- Civil Engineering, MS
- Computer Engineering, MS
- Electrical Engineering, MS
- Engineering Management, MS
Engineering, Electronic Materials and Devices Concentration, MS
Engineering, MS
Human Factors/Ergonomics, MS
Industrial and Systems Engineering, MS
Materials Engineering, MS
Mechanical Engineering, MS
Quality Assurance, MS
Software Engineering, MS

Graduate work offered by the College of Engineering reflects and supports the advanced scientific and technological endeavor which is typical of California industry, government and business.

Departmental curricula provide full- and part-time students the opportunity either to obtain master's degrees or to take specialized courses to improve job capabilities.

The Master of Science in Engineering offered by the Interdisciplinary Engineering has unique, interdisciplinary characteristics which may be particularly appealing to persons with a bachelor's degree in engineering who are currently working in a technical management area and wish to extend their education.

The College of Engineering requires that all students whose native language is not English achieve a minimum score of 550 on the TOEFL examination. Students who meet this and the requirements for admission to the Graduate Division as outlined in this catalog should see individual department listings for requirements for admission to classified standing, conditionally classified standing and admission to candidacy for the specific degree in engineering.

In addition to departmental requirements, the University requires that all graduate students demonstrate competency in written English as a condition for advancement to candidacy. Please refer to the SJSU catalog section titled "Competency in Written English" for details. For graduate courses that meet the competency in written English requirement, please refer to the Graduate Studies and Research website at www.sjsu.edu/gradstudies. In addition, all graduates must complete an acceptable thesis, project or comprehensive examination.

Engineering Extended Studies (EES)

Engineering Extended Studies (EES) Department at San Jose State University is the agile arm of the Charles W. Davidson College of Engineering. The department supports continuous learning in a climate of constant disruption.

Department of Aerospace Engineering

Office: Engineering Building 272
Telephone: 408-924-3965

Professors
Nikos J. Mourtos, Chair
Periklis Papadopoulos

Assistant Professors
Lucia Capdevila
Maria Chierichetti
Fabrizio Vergine
Overview

Aerospace engineers research, design, and develop high-speed transportation vehicles, such as airplanes, spacecraft, space stations, planetary vehicles, and space probes. Approximately half of all aerospace engineers work in the aerospace industry (e.g. Boeing, Lockheed-Martin, Cessna, etc.), 15% work for government agencies (e.g. NASA, Department of Defense, etc.), and the rest work in engineering services, research, testing, and navigation functions. Aerospace engineers also work in industries not associated with aerospace, such as automotive, where they work on the improvement of the aerodynamics of automobiles, as well as on other areas, as allowed by the breadth of their preparation. Students in our program have opportunities to participate in international hands-on design-build-fly competitions or work with engineers from local industry to design-build-test and launch microsatellites into space. The BS Aerospace Engineering program is accredited by the Engineering Accreditation Commission of ABET.

Undergraduate Major(s)

Aerospace Engineering, BS

The Aerospace Engineering BS, offered by the Department of Aerospace Engineering, is based on a strong core of mathematics, science, and engineering science and is designed to prepare students for professional careers in aerospace engineering fields, such as aircraft and space systems research, design, development, testing, and integration. It also provides excellent preparation for graduate study.

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

Major-Specific Graduation Requirements

Students in this major must complete all courses in Required in the Major (All courses in Preparation, Core, and Concentration/Specialization) with a "C or better" to graduate.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).
Exceptions for University Graduation Requirements apply to this major.

Core Lower Division General Education (12 units)

Of the 39 units required by the university, 27 units may be satisfied by coursework outlined below and General Education waivers. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Of the 39 units, the following 12 units are not satisfied in the major:

- GE Area A1 3 unit(s)
- GE Area A2 3 unit(s)
- GE Area C1 3 unit(s)
- GE Area F 3 unit(s)

Upper Division General Education

Of the 9 units required by the university, 9 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

African American Studies (6 units)

- AFAM 2A - African Americans and the Development of America’s History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America’s History and Government 3 unit(s) (D+US123)

Asian American Studies (6 units)

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

Chicana and Chicano Studies (6 units)

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

U.S. History and Government (6 units)
Graduation Writing Assessment Requirement

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

Physical Education

The Physical Education Requirement is waived for this major. See the Exceptions for University Graduation Requirements.

Major Preparation (36 units)

To qualify for a baccalaureate degree in Aerospace Engineering, a student must receive a grade of "C" or better in all courses in preparation for the major.

- CHEM 1A - General Chemistry 5 unit(s) (B1+B3)
- ENGL 1B - Argument and Analysis 3 unit(s) (C2) (or equivalent second semester composition course.)
- MATH 30 - Calculus I 3 unit(s) (B4)
- MATH 31 - Calculus II 4 unit(s) (B4)
- MATH 32 - Calculus III 3 unit(s) (B4)
- MATH 33A - Ordinary Differential Equations for SCI & ENGR 3 unit(s)
- MATH 39 - Linear Algebra I 3 unit(s)
- PHYS 50 - General Physics/Mechanics 4 unit(s) (B1+B3)
- PHYS 51 - General Physics/Electricity and Magnetism 4 unit(s) (B1+B3)
- PHYS 52 - General Physics/Waves, Light, Heat 4 unit(s) (B1+B3)

Major Requirements (66 units)

To qualify for a baccalaureate degree in Aerospace Engineering, a student must receive a grade of "C" or better in all courses required for the major.

Core Courses (16 units)

- EE 98 - Introduction to Circuit Analysis 3 unit(s)
- ENGR 10 - Introduction to Engineering 3 unit(s) (E)
- ENGR 100W - Engineering Reports 3 unit(s) (Z+R)
- MATE 25 - Introduction to Materials 3 unit(s)
- AE 20 - Computer-Aided Design for Aerospace Engineers 2 unit(s)
- AE 30 - Computer Programming for Aerospace Engineers 2 unit(s)

Required Courses (39 units)
• AE 112 - Aerospace Structural Analysis I 4 unit(s)
• AE 114 - Aerospace Structural Analysis II 3 unit(s)
• AE 138 - Vector-Based Dynamics for Aerospace Applications 3 unit(s)
• AE 140 - Rigid Body Dynamics 3 unit(s)
• AE 157 - Aerospace Automatic Control Systems Design 3 unit(s)
• AE 160 - Aerodynamics I 3 unit(s)
• AE 162 - Aerodynamics II 3 unit(s)
• AE 164 - Aerothermodynamics 5 unit(s)
• AE 165 - Aerospace Flight Mechanics 3 unit(s)
• AE 167 - Aerospace Propulsion 3 unit(s)
• AE 168 - Aerospace Vehicle Dynamics and Control 3 unit(s)
• AE 169 - Computational Fluid Dynamics 3 unit(s)

Capstone (8 units)

Complete one of the following options:

Option 1: Aircraft Design

• AE 171A - Aircraft Design I 3 unit(s) (S)
• AE 171B - Aircraft Design II 3 unit(s) (V)
• ENGR 195A - Global and Social Issues in Engineering 1 unit(s) (S)
• ENGR 195B - Global and Social Issues in Engineering 1 unit(s) (V)

Option 2: Spacecraft Design

• AE 172A - Spacecraft Design I 3 unit(s) (S)
• AE 172B - Spacecraft Design II 3 unit(s) (V)
• ENGR 195A - Global and Social Issues in Engineering 1 unit(s) (S)
• ENGR 195B - Global and Social Issues in Engineering 1 unit(s) (V)

Technical Electives (3 units)

A technical elective may be chosen from the following list:

• AE 110 - Space Systems Engineering 3 unit(s)
• AE 142 - Astrodynamics 3 unit(s)
• AE 166 - Rocketry 3 unit(s)
• AE 173 - Design of Unmanned Aerial Vehicles 3 unit(s)
• Selected non-AE courses may also be eligible, with departmental approval 3 unit(s)
• AE 149 - Advanced Dynamics and Simulation 3 unit(s)

Total Units Required (120 units)

Undergraduate Minor(s)
Aerospace Engineering Minor

The Minor in Aerospace Engineering, offered by the Department of Aerospace Engineering, introduces non-majors to aerospace engineering applications and in particular to the basic principles of the fundamental aerospace engineering disciplines, such as aerodynamics, aerospace structures, materials, flight mechanics, aerospace dynamics, stability, and control.

Students must complete a minimum of 12 units as listed under the course requirements. All of these units must be outside the requirements for the student's major, i.e. the same courses cannot be listed on the minor and the major form.

Students in majors other than engineering and certain STEM majors may need to take additional courses to meet prerequisites for the courses required in this minor.

Interested students are recommended to meet with an Aerospace Engineering Minor advisor.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University Policy S16-4). Minor preparation or support courses do not count toward the 12 distinct units. Of the coursework for the minor, at least 6 units must be completed in residence at SJSU. The minimum aggregate GPA for all coursework required for the minor must be at least 2.0.

Minor Preparation (11 units)

- MATH 30 - Calculus I 3 unit(s) (B4)
  MATH 30X may be used instead of MATH 30.
- MATH 31 - Calculus II 4 unit(s) (B4)
  MATH 31X may be used instead of MATH 31.
- PHYS 50 - General Physics/Mechanics 4 unit(s) (B1B3)

Minor Requirements (13 units)

Required Courses (4 units)

- AE 15 - Air & Space Flight: Past, Present, and Future 1 unit(s)
- AE 100 - Fundamentals of Aerospace Engineering 3 unit(s)

Elective Courses (9 units)

Upon completion of the Required Courses, students must choose at least three (3) elective courses:

- AE 110 - Space Systems Engineering 3 unit(s)
- AE 112 - Aerospace Structural Analysis I 4 unit(s)
- AE 160 - Aerodynamics I 3 unit(s)
- AE 165 - Aerospace Flight Mechanics 3 unit(s)
- AE 166 - Rocketry 3 unit(s)
Total Units Required (24 units)

AE 160 Note: Aerospace Engineering minors may take any 100W course.

Master(s)

Aerospace Engineering, MS

- Educational Objectives for Graduate Program
- Admissions Requirements
- Requirements for Advancement to Graduate Candidacy
- Requirements for Graduation
- MS - Aerospace Engineering Graduation Requirements
- Master's Requirements (30 units)
- Program Learning Outcomes

The MSAE Program, offered by the Department of Aerospace Engineering, is designed to prepare students for professional careers in industry or advanced study in Ph.D. programs. Students develop skills in research, design, development, experiment design, testing, and systems integration in air and space transportation systems. In addition to advanced aerospace engineering courses, electives are available in science, business, and other engineering fields. Class schedules are designed for the convenience of employed engineers who wish to pursue graduate work on a part-time basis. The MSAE Program welcomes students with undergraduate degrees in other engineering or science disciplines. For more information visit sjsu.edu/ae/programs/msae.

Educational Objectives for Graduate Program

To provide MSAE graduates with

1. A strong foundation beyond the undergraduate level in their chosen focus area as well as in mathematics, basic science, and engineering fundamentals, to be able to solve current aerospace engineering problems.
2. Contemporary professional and lifelong learning skills to successfully compete for technical engineering positions in the local, national, and global engineering market, advance in their current position or pursue doctoral studies.
3. Expertise necessary to work in the analysis, design, development, and testing of aerospace engineering systems with possible specialization in areas such as aircraft design or space transportation and exploration.
4. Strong verbal and written communication skills, including the ability to write engineering reports.
5. Ability to perform research and work independently to solve open-ended aerospace engineering problems.

Admissions Requirements

Candidates must meet all the university admission requirements. Students can be admitted in either classified or conditionally classified standing. If an applicant's preparation for advanced graduate work is considered inadequate to meet the course prerequisites or other departmental requirements, the conditions will include taking preparatory courses to meet these requirements. Such courses will not count as part of the master's degree program requirements.

To be admitted to classified standing, a student must possess a BS degree in Aerospace Engineering or related field (e.g., Aeronautical Engineering, Astronautical Engineering or Space Engineering, etc.) from an accredited institution with a grade point average of 2.75 or better in the last 60 units.
Students may be admitted with conditionally classified standing if they have a BS degree in any engineering or science discipline from an accredited institution. Students with conditionally classified standing will take a series of BSAE core courses based on their evaluation by the AE Graduate Coordinator.

If an applicant's bachelor's degree is not from a US or Canadian university, a GRE must be taken; minimum scores acceptable for admission are listed on the Graduate Program Test Requirements webpage at GAPE. Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage at GAPE.

**Requirements for Advancement to Graduate Candidacy**

Prior to registering for the first time (or upon re-entering), a student should consult with the AE Graduate Coordinator to develop a schedule of courses. Students admitted as conditionally classified must satisfy the requirements listed in their letter of acceptance. Students who have completed matriculation and achieved classified standing in the master's degree curriculum must next advance to candidacy for the degree. A student may advance to candidacy after completing a minimum of 9 units of graded work as a graduate student in letter-graded 100- or 200-level courses acceptable to the AE Department as well as fulfilling the other university requirements for advancement to candidacy for the MS degree, as detailed in the Graduate Policies and Procedures section. Candidacy includes the successful completion of the Graduation Writing Assessment Requirement (GWAR).

**Requirements for Graduation**

**University Graduation Requirements**

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

**Graduation Writing Assessment Requirement**

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR).

**MS - Aerospace Engineering Graduation Requirements**

The AE Department offers courses designed to provide a flexible curriculum structure that allows students to follow a course of study to meet their individual career goals. As shown below, the program consists of 30 semester units of approved work, including 6 units devoted to a thesis or project. The required coursework includes 6 units of advanced mathematics and computational methods, 12 units of aerospace core subjects, and 6 units of electives.

In selecting a project/thesis topic, the student must first identify a faculty member in his or her area of interest. Once the faculty member agrees to act as the student's project/thesis advisor, a program of study is established, including the project/thesis topic.

**Culminating Experience (Plan A or Plan B)**

In selecting a Plan A (Thesis) or Plan B (Project) topic, the student must first identify a faculty member in his / her area of interest. Once the faculty member agrees to act as the student's advisor, a program of study is established, including the thesis or project topic. In either option students perform graduate-level research and/or design and/ or development, involving aerospace systems or components of aerospace systems under the supervision of an AE faculty member. Students are encouraged to submit and present their work at student and/or professional conferences.
A project or thesis proposal is due to the AE 295A/ AE 299 Course Coordinator no later than the 2nd week of class. A written progress report is due at the end of each month. The first progress report must include a review of the relevant literature. An end-of-semester written report is expected at the end of the 1st semester.

Plan A (Thesis)

A thesis requires approval by a committee of three members. Two of the thesis committee members must be SJSU faculty. An AE faculty member must agree to serve as the chair of the committee. Students must secure the commitment of all three members of their thesis committee. The committee must approve the student’s thesis proposal no later than the 2nd week of the 1st semester. The thesis must meet university requirements as stipulated in this catalog and in the SJSU Master’s Thesis and Doctoral Dissertation Guidelines. It will be written under the guidance of the candidate’s thesis committee chair with the assistance of the other committee members. The candidate for the MSAE degree must successfully pass a final oral defense of the thesis.

Plan B (Project)

In the Project Option students work under the supervision of an AE faculty member.

Master's Requirements (30 units)

Advanced Mathematics and Computational Methods (6 units)

- AE 200 - Engineering Analysis of Aerospace Systems 3 unit(s)
- AE 269 - Advanced Computational Fluid Dynamics 3 unit(s)

Core Courses (15 units)

- AE 267 - Space Propulsion Systems 3 unit(s)

Complete one course:

- AE 271 - Advanced Aircraft Design 3 unit(s) (GWAR)
- AE 273 - Aircraft Subsystems 3 unit(s) (GWAR)

Complete one course:

- AE 242 - Orbital Mechanics and Mission Design 3 unit(s)
- AE 243 - Advanced Astrodynamics 3 unit(s)
- AE 245 - Spacecraft Dynamics and Control 3 unit(s)
- AE 246 - Advanced Aircraft Stability and Control 3 unit(s)
- AE 247 - Trajectory Optimization in Aerospace Applications 3 unit(s)

Complete one course:

- AE 250 - Advanced Structures and Materials 3 unit(s)
- AE 251 - Structural Vibrations for Aerospace Applications 3 unit(s)

Complete one course:
• AE 262 - Advanced Aerodynamics 3 unit(s)
• AE 264 - Gas Dynamics 3 unit(s)
• AE 265 - Boundary Layers 3 unit(s)
• AE 280 - Hypersonics and Reentry Systems 3 unit(s)

Area of Specialization (3 units)

Students may specialize in one of the two areas listed below. Students may choose one elective in consultation with the AE Graduate Coordinator.

Aircraft Design

• One additional elective 3 unit(s)

Space Transportation and Exploration

• One additional elective 3 unit(s)

Culminating Experience (6 units)

Complete One Option (Plan A or Plan B):

Plan A (Thesis)

• AE 299 - Aerospace Engineering Masters Thesis 3 unit(s) (Students take AE 299 twice.)

Plan B (Project)

• AE 295A - Aerospace Engineering Masters Project I 3 unit(s)
• AE 295B - Aerospace Engineering Masters Project II 3 unit(s)

Total Units Required (30 units)

Elective courses must be planned in consultation with the AE Graduate Coordinator. Students may also choose electives from other engineering fields, science, or business.

The maximum number of upper-division undergraduate units that can be applied toward the master's degree is 15.

Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU cumulative grade point averages of 3.0 in order to graduate.

AE 15 - Air & Space Flight: Past, Present, and Future

1 unit(s)
Introduction to the history, basic principles, current and future developments of the aerospace engineering field through projects, guest speakers and field trips.
Grading: Letter Graded

AE 20 - Computer-Aided Design for Aerospace Engineers

2 unit(s)
Introduction to the fundamentals of drafting and computer-aided design with applications in aircraft and spacecraft design.

Lecture 1 hour/Lab 3 hours

Grading: Letter Graded

AE 30 - Computer Programming for Aerospace Engineers

2 unit(s)
C language: Variables, data types, operators, functions, modular programming, input/output sequence, pointers and memory addressing, external libraries, dynamic memory allocation. MATLAB: Variables, scripts, operations, visualization, plotting and programming. Equation solving and curve fitting. Symbolics, Simulink and I/O building block.

Lecture 1 hour/Lab 3 hours

Grading: Letter Graded

AE 92 - International Program Studies

1-12 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

AE 100 - Fundamentals of Aerospace Engineering

3 unit(s)
Introduction to the fundamental disciplines and concepts of aerospace engineering and in particular of aerodynamics, aerospace structures, stability and control, propulsion, and flight mechanics.

Prerequisite(s): C" or better in (MATH 30 or MATH 30X) and PHYS 50 or graduate standing.

Grading: Letter Graded

AE 110 - Space Systems Engineering

3 unit(s)
Introduction to design, analysis and operation of spacecraft power, communications, attitude determination/control, structures, propulsion, thermal management systems. Typical payload systems design and operation, including remote Earth sensors. System integration issues. Lab experiments.
Lecture 2 hours/Lab 3 hours.

Prerequisite(s): "C" or better in (AE 100 or AE 165) or graduate standing.
Grading: Letter Graded

AE 112 - Aerospace Structural Analysis I

4 unit(s)
Aircraft loads, V-n diagram; spacecraft boost loads. Free-body diagrams, 2-D and 3-D force and moment equilibrium. Centroid and area moment of inertia. Shear force and bending moment diagrams; cantilevered wings & internal support structures; stress/strain relationships; Mohr's Circle. Experimental strain measurement.

Prerequisite(s): "C" or better in PHYS 50 and (MATH 31 or MATH 31X) or graduate standing.
Grading: Letter Graded

AE 112W - AE Structural Analysis I Problem-Solving Workshop

1 unit(s)
Each workshop begins with a problem statement, coordinated with the material discussed in the AE 112 lectures. Students work alone but may ask the instructor for help. After each session, solutions are posted on Canvas.

Corequisite(s): AE 112.
Grading: Letter Graded

AE 114 - Aerospace Structural Analysis II

3 unit(s)

Prerequisite(s): AE 112 or graduate standing.
Grading: Letter Graded

AE 114W - AE Structural Analysis II Problem-Solving Workshop

1 unit(s)
Each workshop begins with a problem statement, coordinated with the material discussed in the AE 114 lectures. Students work alone but may ask the instructor for help. After each session, solutions are posted on Canvas.

Activity 2 hours.

Corequisite(s): AE 114.
Grading: Letter Graded

AE 138 - Vector-Based Dynamics for Aerospace Applications

3 unit(s)
Vector mechanics of three degree-of-freedom particle motion. Particle kinematics, reference frames and rotational relative motion. Two degree-of-freedom rigid body motion, moments/products of inertia. Particle & rigid body
equations of motion and numerical time histories.

**Prerequisite(s):** "C" or better in (MATH 32 or MATH 32X) and PHYS 50.
**Corequisite(s):** AE 112.
**Grading:** Letter Graded

**AE 138W - Vector-Based Dynamics Problem-Solving Workshop**

1 unit(s)
Each workshop begins with a problem statement, coordinated with the material discussed in the AE 138 lectures. Students work alone but may ask the instructor for help. After each session, solutions are posted on Canvas.

**Corequisite(s):** AE 138.
**Grading:** Letter Graded

**AE 140 - Rigid Body Dynamics**

3 unit(s)
Coordinate frames and descriptions of absolute and relative motion. General equations of rotational motion for single and multibody systems in Euler and Lagrangian formulations. Elasticity and dissipation effects. Spinning body motions. Impulsive motions. Applications to aerospace vehicles.

**Prerequisite(s):** "C" or better in AE 138 or graduate standing.
**Grading:** Letter Graded

**AE 140W - Rigid Body Dynamics Problem-Solving Workshop**

1 unit(s)
Each workshop begins with a problem statement, coordinated with the material discussed in the AE 140 lectures. Students work alone but may ask the instructor for help. After each session, solutions are posted on Canvas.

**Corequisite(s):** AE 140.
**Grading:** Letter Graded

**AE 142 - Astrodynamics**

3 unit(s)
Two-body problem analysis and orbit design; Kepler's Laws; Single-impulse orbit transfers; Hohmann transfers; Circularization; Plane changes; Kepler's Equation; Planetary sphere of influence; Vector mechanics and relative motion of interplanetary flight; Patched conic trajectory model; Gravity-assist trajectories; Case studies; Restricted three-body problem.

**Prerequisite(s):** "C" or better in AE 138 or graduate standing.
**Grading:** Letter Graded

**AE 149 - Advanced Dynamics and Simulation**

3 unit(s)

**Prerequisite(s):** C" or better in AE 30 and AE 140.
**Grading:** Letter Graded

**AE 157 - Aerospace Automatic Control Systems Design**

3 unit(s)

*Lecture 2 hours/Lab 3 hours.*

**Prerequisite(s):** "C" or better in MATH 33A, MATH 39, and AE 138 or graduate standing.
**Grading:** Letter Graded

**AE 160 - Aerodynamics I**

3 unit(s)
Introduction to incompressible, inviscid and viscous aerodynamics through problem solving, computer simulations, water and wind-tunnel experiments, films, and service learning. Topics include aerodynamic forces and moments, flow classification and similarity, conservation laws with applications in the calculation of lift and drag, and boundary layer theory with emphasis on calculation of skin friction and pressure drag.

*Lecture 2 hours/Lab 3 hours.*

**Prerequisite(s):** "C" or better in (MATH 31 or MATH 31X) and PHYS 50 or graduate standing.
**Corequisite(s):** ENGR 100W.
**Grading:** Letter Graded

**AE 160W - Aerodynamics I Problem-Solving Workshop**

1 unit(s)
Optional support course for AE 160, Aerodynamics I. Workshop content and activities are coordinated with material discussed in the AE 160 lecture.

**Corequisite(s):** AE 160.
**Grading:** AE 160.

**AE 162 - Aerodynamics II**

3 unit(s)
Two-dimensional and three-dimensional, incompressible and compressible potential flow theory. Airfoil and wing theory for subsonic, supersonic, and hypersonic flows. Flow visualization in a water tunnel. Lift and drag measurements in a subsonic wind tunnel.

*Lecture 2 hours/Lab 3 hours.*

**Prerequisite(s):** "C" or better in ENGR 100W, MATH 33A and (AE 160 or ME 111) or graduate standing. Allowed
Declared Majors: Aerospace Engineering, Mechanical Engineering.

Grading: Letter Graded

**AE 162W - Aerodynamics II Problem-Solving Workshop**

1 unit(s)
Workshop to support aerodynamics material discussed in AE 162 lecture. Students work independently in the workshop with support from the instructor to solve and reflect on problems that are coordinated with the lecture topics.

*Activity 2 hours.*

Corequisite(s): AE 162.
Grading: Letter Graded

**AE 164 - Aerothermodynamics**

5 unit(s)

Prerequisite(s): "C" or better in PHYS 52 and AE 160 or graduate standing
Grading: Letter Graded

**AE 164W - Aerothermodynamics Problem-Solving Workshop**

1 unit(s)
Optional support course for AE 164, Aerothermodynamics. Workshop content and activities are coordinated with material discussed in the AE 164 lecture.

Corequisite(s): AE 164.
Grading: Letter Graded

**AE 165 - Aerospace Flight Mechanics**

3 unit(s)
Trajectory dynamics of atmospheric flight (aircraft and missiles) and spaceflight (orbital mechanics). Influence of vehicle design on trajectory. Aircraft static performance, stability and control. Rocket launch and re-entry dynamics. Computer simulations.

Prerequisite(s): "C" or better in (MATH 31 or MATH 31X) and PHYS 50 or graduate standing.
Grading: Letter Graded

**AE 166 - Rocketry**

3 unit(s)
Introduction to rocketry through theory, computer simulations, and development / launch of an amateur level rocket. Topics include basic principles of aerodynamics, vehicle structures, rocket propulsion, flight mechanics, avionics, as well as past and current launch vehicle technologies.

Seminar 2 hours, Lab 2 hours.
Prerequisite(s): "C" or better in AE 100 or AE 165.
Grading: Letter Graded

AE 167 - Aerospace Propulsion

3 unit(s)
Basic one-dimensional flows: isentropic, area change, heat addition. Overall performance characteristics of propellers, ramjets, turbojets, turbofans, rockets. Performance analysis of inlets, exhaust nozzles, compressors, burners, and turbines. Rocket flight performance, single-/multi-stage chemical rockets, liquid/solid propellants and design problems.

Prerequisite(s): "C" or better in AE 160 and AE 164. Allowed Declared Majors: Engineering, Aerospace Engineering, Mechanical Engineering.
Grading: Letter Graded

AE 168 - Aerospace Vehicle Dynamics and Control

3 unit(s)

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): "C" or better in AE 140, AE 157, AE 165 and MATH 39 or graduate standing. Allowed Declared Majors: Aerospace Engineering.
Grading: Letter Graded

AE 169 - Computational Fluid Dynamics

3 unit(s)

Prerequisite(s): "C" or better in MATH 39 and (AE 160 or ME 111) or graduate standing.
Grading: Letter Graded

AE 171A - Aircraft Design I

3 unit(s)
First course in a two-semester sequence, in which students work in teams to complete the conceptual and preliminary design of an aircraft. Students are challenged to consider the relationship of aerospace engineering to the broader community.

Lab 9 hours.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.
Prerequisite(s): Must be senior in good standing with "C" or better in AE 20, AE 162, AE 165, ENGR 100W. Passage of the Writing Skills Test (WST) or ENGL 100A / LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses. Allowed Declared Major: Aerospace Engineering or graduate standing.

Pre/Corequisite(s): AE 164, AE 168, and ENGR 195A.

Grading: Letter Graded

Note(s): Meets GE Areas S and V when course is taken in combination with: AE 171B, ENGR 195A and ENGR 195B. All of SJSU Studies courses require completion of the WST and upper division standing.

AE 171B - Aircraft Design II

3 unit(s)
Second course in a two-semester sequence, in which students work in teams to complete the conceptual and preliminary design of an aircraft. Students are challenged to consider the relationship of aerospace engineering to the broader community.

Satisfies SJSU Studies V: Culture, Civil & Global Understanding.

Prerequisite(s): AE 171 and ENGR 195A with a grade of 'C' or better in each, senior standing or graduate level standing.

Corequisite(s): AE 167, AE 169, and ENGR 195B.

Grading: Letter Graded

Note(s): Meets GE areas S and V when course is taken in combination with: AE 171A, ENGR 195A and ENGR 195B.

AE 172A - Spacecraft Design I

3 unit(s)
First course in a two-semester sequence in which students work in teams to complete the conceptual and preliminary design of a spacecraft. Students are challenged to consider the relationship of aerospace engineering to the broader community.

Misc/Lab: Lab 9 hours.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Must be senior in good standing with C or better in AE 20, AE 162, AE 165, ENGR 100W. Or graduate level. Passage of the Writing Skills Test (WST) or ENGL 100A/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses.

Pre/Corequisite(s): AE 164, AE 168, ENGR 195A

Grading: Letter Graded

Note(s): Meets GE Areas S and V when course is taken in combination with: AE 172B, ENGR 195A and ENGR 195B. All SJSU Studies courses require completion of the WST and upper division standing.

AE 172B - Spacecraft Design II

3 unit(s)
Second course in a two-semester sequence, in which student teams complete the conceptual, preliminary, and detail
design of a spacecraft. Projects integrate general education (GE) student learning outcomes including the relationship of aerospace engineering to the broader community both in the U.S. and worldwide, ethics, safety and liability issues, as well as issues of culture, civilization and global understanding in relationship to aerospace engineering practice.

*Satisfies SJSU Studies V: Culture, Civil & Global Understanding.*

**Prerequisite(s):** AE 172A, ENGR 195A with a grade of 'C' or better, senior in Good Standing or Graduate standing.  
**Corequisite(s):** AE 167, AE 169 and ENGR 195B.  
**Grading:** Letter Graded

**Note(s):** Meets GE Areas S and V when course is taken in combination with: AE 172A, ENGR 195A and ENGR 195B.

**AE 173 - Design of Unmanned Aerial Vehicles**

3 unit(s)  
Conceptual and preliminary design of autonomous aerial vehicles (UAVs). Review of low Reynolds number fixed and rotary wing aerodynamics, with a focus on wing and rotor design. Vehicle dynamics and control, flight path planning and optimization, control system design.

**Grading:** Letter Graded

**AE 180 - Individual Studies**

1-3 unit(s)  
Individual work on special topics. By arrangement.

**Prerequisite(s):** Upper division standing and instructor consent. Not available to Open University Students.  
**Grading:** Letter Graded

**AE 192 - International Program Studies**

1-12 unit(s)  
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

**Grading:** Mixed Grading

**AE 199 - Special Topics in Aerospace Engineering**

1-4 unit(s)  
Special topics that are currently of interest to industry and academia. Content varies from semester to semester.

*Course may be repeated for credit for up to 12 units.*

**Prerequisite(s):** Upper division standing or instructor consent  
**Grading:** Letter Graded
AE 200 - Engineering Analysis of Aerospace Systems

3 unit(s)
Advanced engineering mathematics including linear algebra, Ordinary Differential Equations (ODEs), Fourier analysis, Partial Differential Equations (PDEs) and numerical methods with applications in Aerospace Engineering.

Prerequisite(s): BS Aerospace Engineering.
Grading: Letter Graded

AE 210 - Advanced Space Systems Engineering

3 unit(s)
Overview of the engineering process used in aerospace mission and system design spanning the entire system life cycle for the near-Earth and outer space environment. Effects of gravity field, temperature and radiation on physical systems and the human organism. Mission program inception, proposal development, cost analysis and risk management.

Prerequisite(s): BS Aerospace Engineering or instructor consent.
Grading: Letter Graded

AE 242 - Orbital Mechanics and Mission Design

3 unit(s)

Prerequisite(s): BS Aerospace Engineering or instructor consent.
Grading: Letter Graded

AE 243 - Advanced Astrodynamics

3 unit(s)
Analysis of spacecraft motion using different dynamic models and perturbations. Use of the state transition matrix and differential corrections technique for trajectory computation. Orbit determination and station-keeping methods. Introduction to the three-body problem. Application of computational and analytic methods to solve astrodynamics problems.

Prerequisite(s): AE 242.
Grading: Letter Graded

AE 245 - Spacecraft Dynamics and Control

3 unit(s)

Prerequisite(s): BS Aerospace Engineering or instructor consent.
Grading: Letter Graded
AE 246 - Advanced Aircraft Stability and Control

3 unit(s)
Natural longitudinal and lateral/directional motion of aircraft; mode shapes, eigenvalues, eigenvectors. Analysis and synthesis of various aircraft autopilots using classical and state space formulations.

Prerequisite(s): BSAE or Instructor Consent.
Grading: Letter Graded

AE 247 - Trajectory Optimization in Aerospace Applications

3 unit(s)
Formulation and solution of optimization problems in aerospace engineering. Parameter optimization, minima of functions and functionals, necessary conditions, calculus of variations, control formulation, two-point boundary-value problems. Primer vector theory. Applications to typical problems in aerospace engineering, such as optimal launch, minimum time to climb, maximum range, and optimal space trajectories.

Prerequisite(s): BS Aerospace Engineering or instructor consent.
Grading: Letter Graded

AE 250 - Advanced Structures and Materials

3 unit(s)
Design and analysis of modern flight structures including static and dynamic structural response; materials design including metals, alloys, composites. Introduction to modern computational methods including finite elements.

Prerequisite(s): BS Aerospace Engineering or instructor consent.
Grading: Letter Graded

AE 251 - Structural Vibrations for Aerospace Applications

3 unit(s)
Introduces the analysis of vibrations of very flexible bodies encountered as elements of aircraft wings and space structures. Topics include: free and forced vibrations of single- and multi-degree of freedom systems, simplified analysis of vibrations induced by flutter, free and forced vibrations of wings in bending and torsion, signal processing techniques for time-varying signals, forced and ground vibration testing of aerospace components, finite element analysis for wings and space structures, spacecraft and aircraft dynamic design loads.

Prerequisite(s): BS Aerospace Engineering or BS Mechanical Engineering or instructor consent.
Grading: Letter Graded

AE 262 - Advanced Aerodynamics

3 unit(s)
Thin airfoil theory. Prandtl's lifting-line theory. Subsonic and supersonic airfoil and wing theory. High-angle of attack aerodynamics. Boundary layer theory; Blasius and Falkner-Skan solutions, compressible boundary layers, turbulent flows, separation criteria.

Prerequisite(s): BS Aerospace Engineering or instructor consent.
Grading: Letter Graded
AE 264 - Gas Dynamics

3 unit(s)
Advanced topics in compressible flow theory with emphasis on the design of high subsonic, supersonic and hypersonic vehicles. In addition to classical compressible flow theory and problem solving, the course may include supersonic wind tunnel experiments and computer simulations.

Prerequisite(s): BS Aerospace Engineering or BS Mechanical Engineering or instructor consent.
Grading: Letter Graded

AE 265 - Boundary Layers

3 unit(s)

Prerequisite(s): BS Aerospace Engineering or instructor consent.
Grading: Letter Graded

AE 267 - Space Propulsion Systems

3 unit(s)
Rocket propulsion fundamentals. propulsion requirements for: multi-stage launch; orbit establishment, maneuvers and maintenance; spacecraft attitude control. Nozzle flow, thermochemical calculation of performance. Design and performance calculations for systems and components of chemical rockets (liquid, solid, hybrid), electric rockets and advanced concepts.

Prerequisite(s): BS Aerospace Engineering or BS Mechanical Engineering or instructor consent.
Grading: Letter Graded

AE 269 - Advanced Computational Fluid Dynamics

3 unit(s)
Advanced topics in computational fluid dynamics and numerical techniques to solve the Euler and Navier-Stockes equations. The student will use MatLAB, grid generation, CFD and visualization software for homework, and projects.

Seminar 2 hours/lab 3 hours.

Prerequisite(s): BS Aerospace Engineering or BS Mechanical Engineering or instructor consent.
Grading: Letter Graded

AE 271 - Advanced Aircraft Design

3 unit(s)
Project course in which students complete the preliminary design of an airplane of their choice. The design process involves defining the mission requirements, weight sizing, performance sizing, fuselage design, wing, high-lift system and lateral controls design, landing gear design, weight and balance, stability and control, drag polars, and final drawings. Final report includes discussion of environmental, economic and safety considerations for the airplane.
Satisfies GWAR: Graduation Writing Assessment Requirement

Prerequisite(s): BS Aerospace Engineering or BS Mechanical Engineering or instructor consent.
Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

AE 273 - Aircraft Subsystems

3 unit(s)
Aircraft subsystem analysis and design: flight controls; avionics and electrical systems; cabin systems; landing gear and other mechanical systems; systems safety analysis.

Satisfies GWAR: Graduation Writing Assessment Requirement

Prerequisite(s): BS Aerospace Engineering or instructor consent.
Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

AE 280 - Hypersonics and Reentry Systems

3 unit(s)
Fundamental principles of hypersonic aerodynamics. Development of important theory and techniques, discussion of salient results with emphasis on physical aspects, and presentation of modern thinking on the subject.

Prerequisite(s): BS Aerospace Engineering or instructor consent.
Grading: Letter Graded

AE 295A - Aerospace Engineering Masters Project I

3 unit(s)
This is a first-semester aerospace engineering Master's Project supervision course. Students perform original, graduate level research or design or development, involving aerospace systems under the supervision of an aerospace engineering faculty member or engineers from NASA / aerospace industry.

Prerequisite(s): Admission to candidacy for the master's degree and a written proposal approved by the instructor and the Graduate Coordinator. Not available to Open University Students.
Grading: Letter Graded

AE 295B - Aerospace Engineering Masters Project II

3 unit(s)
This is a second-semester aerospace engineering Master's Project supervision course, following AE295A. Students perform original, graduate level research and/or design and/or development, involving aerospace systems or subsystems under the supervision of an aerospace engineering faculty member and/or engineers from NASA / aerospace industry.

Prerequisite(s): "B" or better in AE 295A.
Grading: Letter Graded
AE 297 - Special Topics in Aerospace Engineering

1-4 unit(s)
Special topics that are currently of interest to industry and academia. Content varies from semester to semester. Repeatable for up to six units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Graduate Standing or instructor consent
Grading: Letter Graded

AE 298 - Special Projects in Aerospace Engineering

1-3 unit(s)
Advanced individual work in Aerospace Engineering.

Repeatable for credit.

Prerequisite(s): Instructor consent.
Grading: Mandatory Credit/No Credit/RP

AE 299 - Aerospace Engineering Masters Thesis

3 unit(s)
Master's thesis work in aerospace engineering.

Prerequisite(s): "B" or better in 1st semester to continue in 2nd semester.
Grading: Mandatory Credit/No Credit/RP

AE 1290R - Culminating Experience Supervision

1 unit(s)
Continued work on thesis or project beyond minimum required units, for cases in which final deliverables are still in progress.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): RP grade in a preceding thesis or project semester.
Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Overview

Aviation

The oldest and largest provider of aviation degrees on the West Coast, the Aviation programs in the Department of Aviation and Technology prepare students for careers as professional pilots, airport managers, technical, marketing and quality control managers, and other aviation industry professionals. Students receive hands-on experience in both basic and advanced aviation principles and procedures, including aircraft design, aviation safety, air traffic control, and legal and labor issues in national and international aviation. Bachelor's degree candidates have the option to focus on professional flight, operations, aviation management, or maintenance management—a specialty that complements an AS-level Federal Aviation Administration (FAA)-approved community college maintenance program. Aviation classes are held both on campus and off-site at our Reid-Hillview Airport facility.

Technology

Choose a career in applied engineering design and management focused on green operations and sustainable manufacturing or in the dynamic, changing field of computer electronics and network technology. Two undergraduate Engineering Technology programs, accredited by the Association for Technology Management and Applied Engineering (www.ATMAE.org), are offered by the Department of Aviation and Technology: an Engineering Technology BS with a concentration in Computer Electronics and Network Technology (CENT) and an Engineering Technology BS with a concentration in Manufacturing Systems (sustainable manufacturing). The curriculum also prepares students who are interested in obtaining single subject teaching credentials in Engineering Technology Education in order to pursue careers as public school teachers and industry trainers. The Department also offers graduate work leading to the Master of Science in Quality Assurance (this program is currently not accepting students).

Note to Veterans

Those students who have successfully completed armed forces instructional programs in aviation and who have been awarded units by the Admissions Office for this service training may apply such credit as appropriate toward any of the major or minor programs offered by the department.

Honors Program
Students who have maintained a 3.5 grade point average in all aviation courses are eligible for the departmental honors program. Qualified candidates may apply or be nominated by the faculty, during their junior year. To meet the honors course requirements, candidates must enroll in at least two units of Aviation 180H Individual Studies. This individual studies course is specifically structured for honors students. Students who successfully complete the two, one-unit honors courses, and who maintain the required 3.5 grade point average, will qualify for the award of departmental honors at graduation.

**Supplementary Authorizations for Teaching Credential**

Students who want to teach Industrial Arts but are completing or have completed a credential in another area should apply for a supplementary authorization. See a Department of Aviation and Technology advisor who specializes in teacher preparation for specific content requirements for a supplementary authorization approved by the California Commission on Teacher Credentialing. Undergraduate students intending to enter a teaching credential program, should view the Teacher Preparation section of the catalog for more information.

**Undergraduate Major(s)**

**Aviation, BS**

The Aviation BS is offered by the Department of Aviation and Technology. The curriculum provides a four-year pattern of coursework for those interested in the several different aspects of aviation. In addition to the required course work in general education, aviation, science and business, the student has the opportunity to choose one of four options - Professional Flight, Operations, Aviation Management, or Maintenance Management.

**Program Roadmaps**

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

**Major-Specific Graduation Requirements**

All courses in the Preparation and Required in Major (all courses in preparation, core, and concentration) must be completed with a grade of "C-" or better. With the exception of ENGR 100W which must be completed with a "C" or better.

**University Requirements**
Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Exceptions for University Graduation Requirements apply to this major.

**Core Lower Division General Education (21 units)**

Of the 39 units required by the university, 15 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details. Of the 39 units, the following 21 units are not satisfied in the major:

- **GE Area A English Language Communication and Critical Thinking** 9 unit(s)
- **GE Area C Arts and Letters** 6 unit(s)
- **GE Area E Human Understanding and Development** 3 unit(s)
- **GE Area F Ethnic Studies** 3 unit(s)

**Upper Division General Education**

Of the 9 units required by the university, 9 units may be satisfied by coursework outlined below. Consult with major advisor for details.

**American Institutions (6 units)**

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

**African American Studies (6 units)**

- **AFAM 2A - African Americans and the Development of America’s History and Government** 3 unit(s) (D)
- **AFAM 2B - African Americans and the Development of America’s History and Government** 3 unit(s) (D+US123)

**Asian American Studies (6 units)**

- **AAS 33A - Asian Americans in U.S. History I** 3 unit(s) (D)
- **AAS 33B - Asian Americans in U.S. History II** 3 unit(s) (D+US123)

**Chicana and Chicano Studies (6 units)**

- **CCS 10A - Mexican Americans and the Development of U.S. History and Government** 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

**U.S. History and Government (6 units)**

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

**Graduation Writing Assessment Requirement**

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

*A grade of C or better (C- not accepted) is required to meet graduation requirement.*

**Physical Education**

The Physical Education Requirement is waived for this major. See the Exceptions for University Graduation Requirements.

**Major Preparation (20 units)**

- BUS2 90 - Business Statistics 3 unit(s)
- GE Area B2 3 unit(s)
- MATH 71 - Calculus for Business and Aviation 3 unit(s) (B4) *(MATH 30 or MATH 30X may be used in lieu of MATH 71)*

**Accounting (3 units)**

Complete one course:

- BUS1 20 - Financial Accounting 3 unit(s)
- BUS1 20N - Survey of Accounting 3 unit(s)

**Physics (8 units)**

Complete one sequence:

**Physics A**

- PHYS 2A - Fundamentals of Physics 4 unit(s) (B1+B3)
- PHYS 2B - Fundamentals of Physics 4 unit(s) (B1+B3)

**Physics B**

- PHYS 50 - General Physics/Mechanics 4 unit(s) (B1+B3)
• PHYS 51 - General Physics/Electricity and Magnetism 4 unit(s) (B1+B3) (Students may use PHYS 2B instead of PHYS 51)

Major Requirements (70 units)

To qualify for a baccalaureate degree in Aviation, students must earn a grade of "C-" or better in each required major and preparation course.

Core Courses (27 units)

• AVIA 78 - Introduction to Aviation Management 3 unit(s)
• AVIA 128 - Aviation Safety and Security 3 unit(s)
• AVIA 141 - Human Factors in the Aviation Environment 3 unit(s)
• AVIA 173 - Aviation Law 3 unit(s)
• AVIA 176 - Airline Operations and Management 3 unit(s)
• AVIA 190 - Senior Capstone Seminar 3 unit(s)
• AVIA 198 - Aviation and Human Civilization 3 unit(s) (V)
• BUS3 186 - Professional and Business Ethics 3 unit(s) (S)
• ENGR 100W - Engineering Reports 3 unit(s) (Z+R)

Specialized Courses (43 units)

Choose one specialization.

Flight Operations

• AVIA 1 - Introduction to the Aviation Industry 3 unit(s)
• AVIA 31 - Aircraft Theory and Design 3 unit(s)
• AVIA 42 - Aircraft Systems 3 unit(s)
• AVIA 43 - Propulsion Theory 3 unit(s)
• AVIA 68 - Avionics and Airborne Communication 3 unit(s)
• AVIA 73 - Air Traffic Control 3 unit(s)
• AVIA 91 - Aircraft Turbine Engines 3 unit(s)
• AVIA 110 - Aviation Meteorology 3 unit(s)
• AVIA 178 - Airport Planning and Management 3 unit(s)
• AVIA 193 - Aerodynamics 3 unit(s)
• AVIA 194 - Pilot Avionics and General Aviation Systems 3 unit(s)
• Major Elective 7 unit(s)

Complete one course:

• AVIA 177 - General Aviation Operations and Management 3 unit(s)
• AVIA 179 - Advanced Airport Planning and Management 3 unit(s)
• AVIA 195 - Internship with the Aviation Industry 1-6 unit(s)

Professional Flight
Students in the Professional Flight option are required to select an affiliated flight school and earn three FAA pilot ratings. The costs of flight training are not included in the tuition at SJSU.

- AVIA 1 - Introduction to the Aviation Industry 3 unit(s)
- AVIA 2 - Private Pilot Ground 3 unit(s)
- AVIA 3 - Introduction to Private Pilot Part 141 Flight 2 unit(s)
- AVIA 31 - Aircraft Theory and Design 3 unit(s)
- AVIA 42 - Aircraft Systems 3 unit(s)
- AVIA 43 - Propulsion Theory 3 unit(s)
- AVIA 62 - Instrument Pilot Ground 3 unit(s)
- AVIA 63 - Instrument Rating Part 141 Flight 2 unit(s)
- AVIA 68 - Avionics and Airborne Communication 3 unit(s)
- AVIA 73 - Air Traffic Control 3 unit(s)
- AVIA 91 - Aircraft Turbine Engines 3 unit(s)
- AVIA 110 - Aviation Meteorology 3 unit(s)
- AVIA 112 - Commercial Pilot Ground 3 unit(s)
- AVIA 113 - Commercial Professional Pilot Part 141 Flight 2 unit(s)
- AVIA 193 - Aerodynamics 3 unit(s)
- Major Elective 1 unit(s)

**Aviation Management**

- AVIA 1 - Introduction to the Aviation Industry 3 unit(s)
- AVIA 31 - Aircraft Theory and Design 3 unit(s)
- AVIA 42 - Aircraft Systems 3 unit(s)
- AVIA 43 - Propulsion Theory 3 unit(s)
- AVIA 73 - Air Traffic Control 3 unit(s)
- AVIA 177 - General Aviation Operations and Management 3 unit(s)
- AVIA 178 - Airport Planning and Management 3 unit(s)
- AVIA 179 - Advanced Airport Planning and Management 3 unit(s)
- BUS1 170 - Fundamentals of Finance 3 unit(s)
- BUS5 146 - Fundamentals of Project Management 3 unit(s)
- ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s) (D)
- Major Elective 4 unit(s)

**Requirements for Minor in Business (6 units)**

- BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)

**Business Elective (3 units)**

Complete one course:

- BUS3 150 - Fundamentals of Human Resource Management 3 unit(s)
- BUS5 141 - Procurement and Supply Management 3 unit(s)
- BUS5 145 - Global Operations Strategy 3 unit(s)
- BUS5 167 - Managing Environmental Issues 3 unit(s)
- BUS5 181 - Introduction to Entrepreneurship 3 unit(s)
Maintenance Management

Airframes and Powerplants (A&P) coursework (30 units)

In order to complete this option, a student must complete an AS-level FAA-approved maintenance programs at an accredited community college, such as those listed below, prior to beginning upper division coursework. See http://avtech.sjsu.edu/department for more information.

SJSU Required Courses (13 units)

The following courses are completed at SJSU.

- BUS5 141 - Procurement and Supply Management 3 unit(s)
- ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s) (D)
- ISE 155 - Supply Chain Engineering 3 unit(s)
- TECH 145 - Lean Manufacturing 3 unit(s)
- Major Elective 1 unit(s)

Total Units Required (120 units)

Engineering Technology, Computer Network System Management Concentration, BS

The Bachelor of Science in Engineering Technology (formerly Industrial Technology) with a concentration in Computer Network System Management (CNSM), offered by the Department of Aviation and Technology, is designed to prepare graduates for the ever-increasing employment opportunities in the field of Computer Network Systems and Management. You will gain knowledge, skills, and practical experiences in the Internet of Things (IoT), network theory and administration, wireless communication, network security and prevention management, and cybersecurity management.

The computer network professional plans for implementation of systems, maintains the software and hardware, monitors the system for potential disturbances, analyzes problems, and develops plans for potential solutions. A computer network specialist professional is a problem solver who assures the network system is operational, secure, and protected at all times against cyber-attacks.

Computer and networking professionals are employed to facilitate the exchange and use of data in an organization in furtherance of organization goals. They also protect individuals, companies, and government organizations and their information throughout the enterprise. This requires that such professionals be knowledgeable about and familiar with constantly changing technologies and security processes. The major priority of the computer networking specialist professional is the day-to-day support that keeps the network functioning and secure. Graduates of the BSIT in Computer Network System Management will be able to:

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

Major-Specific Graduation Requirements

All courses in the Preparation and Required in the Major (all courses in preparation, core, and concentration) must be completed with a grade of "C- or better".

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Exceptions for University Graduation Requirements apply to this major.

Core Lower Division General Education (18 units)

Of the 39 units required by the university, 21 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Upper Division General Education

Of the 9 units required by the university, 9 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).
Consult with a major advisor to select the appropriate sequence.

**African American Studies (6 units)**

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 unit(s) (D+US123)

**Asian American Studies (6 units)**

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

**Chicana and Chicano Studies (6 units)**

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

**U.S. History and Government (6 units)**

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

**Physical Education**

The Physical Education Requirement is waived for this major. See the Exceptions for University Graduation Requirements.

**Graduation Writing Assessment Requirement**

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

*A grade of C or better (C- not accepted) is required to meet graduation requirement.*

**Major Preparation (25 units)**

*May also take PHYS 50 and PHYS 51 instead of PHYS 2A/PHYS 2B*

- CHEM 1A - General Chemistry 5 unit(s) (B1+B3)
- TECH 30 - Introduction to Python Programming 3 unit(s)
- ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s) (D)
- ENGR 10 - Introduction to Engineering 3 unit(s) (E)
- MATH 71 - Calculus for Business and Aviation 3 unit(s) (B4) *(MATH 30 or MATH 30X may be used in lieu of MATH 71)*
- PHYS 2A - Fundamentals of Physics 4 unit(s) (B1+B3)
• PHYS 2B - Fundamentals of Physics 4 unit(s) (B1+B3)

Major Requirements (54 units)

To qualify for a baccalaureate degree in Engineering Technology with a concentration in Computer Network System Management, students must earn a grade of "C-" or better in each major and preparation course.

Core (21 units)

- ENGR 100W - Engineering Reports 3 unit(s) (Z+R)
- TECH 60 - Introduction to Electronics 3 unit(s)
- TECH 65 - Introduction to Networks 3 unit(s)
- TECH 145 - Lean Manufacturing 3 unit(s)
- TECH 190A - Senior Project I 3 unit(s)
- TECH 190B - Senior Project II 3 unit(s)
- TECH 198 - Technology and Civilization 3 unit(s) (V)

Computer Network System Management (CNSM) Concentration (30 units)

- TECH 63 - Analog and Digital Circuits 3 unit(s)
- TECH 66 - Network Administration 3 unit(s)
- TECH 67 - Introduction to Internet of Things 3 unit(s)
- TECH 68 - Internet of Things Systems 3 unit(s)
- TECH 136 - Software Quality Management 3 unit(s)
- TECH 165 - Wireless Communications Technologies 3 unit(s)
- TECH 170 - Connected Products Applications 3 unit(s)
- TECH 171 - Network Security & Prevention Management 3 unit(s)
- TECH 173 - Cloud Computing System Management 3 unit(s)
- TECH 179 - Cyber Security System Management 3 unit(s)

Technical Elective (3 units)

Complete three units from any advisor approved upper division TECH or ENGR courses

Business Minor (15 units)

(required for this major)

- BUS1 20 - Financial Accounting 3 unit(s)
- BUS2 90 - Business Statistics 3 unit(s)
- BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)
- BUS3 186 - Professional and Business Ethics 3 unit(s) (S)

Complete One Course From:

- BUS5 141 - Procurement and Supply Management 3 unit(s)
University Electives (2 unit)

Total Units Required (120 units)

Engineering Technology, Manufacturing Systems Concentration, BS

The Bachelor of Science in Engineering Technology (formerly Industrial Technology) with a concentration in Manufacturing Systems, offered by the Department of Aviation and Technology, is designed to prepare students for technical and management careers in business and industry. Manufacturing Systems prepares you for a career in manufacturing design and management with a special focus on green operations and sustainable manufacturing. You will gain knowledge, skills, and practical experiences in innovative manufacturing processes and management, green product design, computer integrated manufacturing, sustainable manufacturing practices, robotics and control systems, and computer-aided manufacturing.

This dynamic and expanding field applies computer design tools and other advanced technologies to the solving of problems in manufacturing systems, computer aided design and manufacturing (CAD/CAM), and computer integrated manufacturing (CIM). A new, strong emphasis on green design practices and sustainable operations will add to your basic and advanced industrial manufacturing design knowledge.

University Graduation Requirements 27
Major Preparation 25
Major Core Requirements 21
Concentration Requirements 30
Technical Elective 1
Minor Requirements 15
University Elective 1

Total 120

Program Roadmaps

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

Major-Specific Graduation Requirements

All courses in the Preparation and Required in the Major (all courses in preparation, core, and concentration) must be completed with a grade of "C- or better".
University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Exceptions for University Graduation Requirements will apply to this major.

Core Lower Division General Education (18 units)

Of the 39 units required by the university, 21 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Upper Division General Education (3 units)

Of the 9 units required by the university, 6 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions (6 units)

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

African American Studies (6 units)

- AFAM 2A - African Americans and the Development of America’s History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America’s History and Government 3 unit(s) (D+US123)

Asian American Studies (6 units)

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

Chicana and Chicano Studies (6 units)

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)
U.S. History and Government (6 units)

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

Physical Education

The Physical Education Requirement is waived for this major. See the Exceptions for University Graduation Requirements.

Graduation Writing Assessment Requirement

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

Major Preparation (25 units)

- CHEM 1A - General Chemistry 5 unit(s) (B1+B3)
- TECH 30 - Introduction to Python Programming 3 unit(s)
- MATH 71 - Calculus for Business and Aviation 3 unit(s) (B4) (MATH 30 or MATH 30X may be used in lieu of MATH 71)
- ECON 1B - Principles of Economics: Microeconomics 3-4 unit(s) (D)
- ENGR 10 - Introduction to Engineering 3 unit(s) (E)

Physics (8 units)

Complete one sequence:

Physics A

- PHYS 2A - Fundamentals of Physics 4 unit(s) (B1+B3)
- PHYS 2B - Fundamentals of Physics 4 unit(s) (B1+B3)

Physics B

- PHYS 50 - General Physics/Mechanics 4 unit(s) (B1+B3)
- PHYS 51 - General Physics/Electricity and Magnetism 4 unit(s) (B1+B3) (Students may use PHYS 2B instead of PHYS 51)

Major Requirements (52 units)

Core (21 units)

- ENGR 100W - Engineering Reports 3 unit(s) (Z+R)
- TECH 60 - Introduction to Electronics 3 unit(s)
- TECH 65 - Introduction to Networks 3 unit(s)
- TECH 145 - Lean Manufacturing 3 unit(s)
- TECH 190A - Senior Project I 3 unit(s)
- TECH 190B - Senior Project II 3 unit(s)
- TECH 198 - Technology and Civilization 3 unit(s) (V)

Manufacturing Systems Concentration (30 units)

- TECH 20A - Computer-Aided-Graphics 2 unit(s)
- TECH 25 - Introduction to Materials Technology 3 unit(s)
- TECH 31 - Quality Assurance and Control 3 unit(s)
- TECH 41 - Machine Shop Safety 1 unit(s)
- TECH 45 - Sustainable Facilities Design & Planning 3 unit(s)
- TECH 46 - Machine Operation and Management 3 unit(s)
- TECH 115 - Automation and Control 3 unit(s)
- TECH 140 - Green & Sustainable Product Design 3 unit(s)
- TECH 143 - Polymers and Composites Fabrication Technology 3 unit(s)
- TECH 147 - Green Manufacturing Analysis & Management 3 unit(s)
- TECH 149 - Computer Integrated Manufacturing Systems 3 unit(s)

Technical Elective (1 unit)

Complete one unit from any advisor approved upper division TECH or ENGR courses

Business Minor (15 units)

(required for this major)

- BUS5 142 - Total Quality Management 3 unit(s)
- BUS3 160 - Fundamentals of Management and Organizational Behavior 3 unit(s)

Complete One Course From:

- BUS1 20 - Financial Accounting 3 unit(s)
- BUS1 20N - Survey of Accounting 3 unit(s)

Complete One Course From:

- BUS5 141 - Procurement and Supply Management 3 unit(s)
- BUS5 144 - Supply Chain Management 3 unit(s)

Complete One Course From:

- BUS5 140 - Fundamentals of Operations Management 3 unit(s)
- BUS5 145 - Global Operations Strategy 3 unit(s)
University Elective (1 unit)

Total Units Required (120 units)

Undergraduate Minor(s)

Aviation Minor

A Minor in Aviation, offered by the Department of Aviation and Technology, is granted upon the completion of a coherent course of study and may be designed to fit the needs of a student from another major. The minor must include at least 12 units, six of which must be upper-division. Six units must be completed in residence. Contact the department office (IS 111) for more details.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University Policy S16-4). Minor preparation or support courses do not count toward the 12 distinct units. Of the coursework for the minor, at least 6 units must be completed in residence at SJSU. The minimum aggregate GPA for all coursework required for the minor must be at least 2.0.

Electronics Minor

The Minor in Electronics is offered by the Department of Aviation and Technology.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University Policy S16-4). Minor preparation or support courses do not count toward the 12 distinct units. Of the coursework for the minor, at least 6 units must be completed in residence at SJSU. The minimum aggregate GPA for all coursework required for the minor must be at least 2.0.

Minor Requirements (12 units)

Required Courses (6 units)

Complete Two Courses From:

- TECH 60 - Introduction to Electronics 3 unit(s)
- TECH 62 - Analog Circuits 3 unit(s)
- TECH 63 - Analog and Digital Circuits 3 unit(s)

Other Courses (6 units)

Complete six units from:

- TECH 115 - Automation and Control 3 unit(s)
- TECH 163 - Telecommunications Systems 3 unit(s)
- TECH 165 - Wireless Communications Technologies 3 unit(s)
• TECH 167 - Control Systems 3 unit(s)

Total Units Required (12 units)

Engineering Technology Minor

The Minor in Engineering Technology is offered by the Department of Aviation and Technology.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University Policy S16-4). Minor preparation or support courses do not count toward the 12 distinct units. Of the coursework for the minor, at least 6 units must be completed in residence at SJSU. The minimum aggregate GPA for all coursework required for the minor must be at least 2.0.

Minor Requirements (18 units)

Required Courses (9 units)

• TECH 31 - Quality Assurance and Control 3 unit(s)
• TECH 145 - Lean Manufacturing 3 unit(s)
• TECH 198 - Technology and Civilization 3 unit(s) (V)

Other Courses (9 units)

At least 9 units of technical courses chosen from either the Engineering Technology, BS core or the Computer Network System Management or Manufacturing Systems concentrations (a maximum of 6 units of lower division courses).

Total Units Required (18 units)

Manufacturing Minor

The Minor in Manufacturing is offered by the Department of Aviation and Technology.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University Policy S16-4). Minor preparation or support courses do not count toward the 12 distinct units. Of the coursework for the minor, at least 6 units must be completed in residence at SJSU. The minimum aggregate GPA for all coursework required for the minor must be at least 2.0.

Minor Requirements (12 units)

Required Courses (3 units)
TECH 46 - Machine Operation and Management 3 unit(s)

Manufacturing Electives (9 units)

Complete nine units from:

At least six units must be upper division

- TECH 41 - Machine Shop Safety 1 unit(s)
- TECH 45 - Sustainable Facilities Design & Planning 3 unit(s)
- TECH 140 - Green & Sustainable Product Design 3 unit(s)
- TECH 145 - Lean Manufacturing 3 unit(s)
- TECH 147 - Green Manufacturing Analysis & Management 3 unit(s)

Total Units Required (12 units)

Master(s)

Quality Assurance, MS

- Admissions Requirements
- Requirements for Admission to Candidacy
- Requirements for Graduation
- Master's Requirements (30 units)

The Master of Science in Quality Assurance degree program, offered by the Department of Aviation and Technology, prepares students to perform at the master's level in the areas of Quality Systems development, Six-Sigma quality, and various quality system standards. The program emphasizes the acquisition of theoretical and analytical techniques in combination with management and communication skills. This program prepares students to earn globally-recognized Six-Sigma Certification through the American Society for Quality (ASQ).

Admissions Requirements

University Admissions

Applicants must submit a complete graduate application by applying through the CSU Cal State Apply system. Applicants must meet all university admission requirements. See the Graduate Admissions section for general information about graduate admissions at SJSU.

Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage at GAPE. For TOEFL Requirements, see the Graduate Admissions section of this catalog.

Requirements for Admission to Classified Standing

The Department of Aviation and Technology admits students to the Master of Science in Quality Assurance program in Classified or Conditional Standing. Contact the department or see our admissions materials for specific application deadlines. For admission to classified standing the department requires the following:
1. A baccalaureate degree from an accredited academic institution in a technical or scientific discipline. Individuals from non-technical disciplines who demonstrate exceptional promise may be conditionally admitted to the graduate program;
2. Transcripts from an accredited academic institution which verify a minimum grade point average of 3.0 in the last 60 upper-division university units;
3. Evidence of written and oral communication skills essential to meet the demands of graduate-level study and research. A well-written personal statement is often used for partial verification of these competencies; this statement should discuss the applicant's career plans and make note of how the master's degree will enhance career objectives; and
4. Foreign students must present a TOEFL score of at least 550.

**Requirement for Admission to Conditionally Classified Standing**

Applicants from non-technical disciplines may be conditionally admitted to the graduate program pending completion of additional undergraduate course work as prescribed by the program graduate coordinator. Students who are conditionally classified may seek admission to classified standing only after completion of nine units of graduate-level course work with a minimum grade point average of 3.0. The individual admission letter will explain required terms and conditions for attaining Classified standing.

**Requirements for Admission to Candidacy**

General university requirements for advancement to candidacy for the Master of Science degree are outlined in the Academic Regulations section of this catalog. After successfully completing a minimum of 12 graduate units, with a minimum grade point average of 3.0, and satisfied the university GWAR, students must finalize their programs of study with the guidance of the Program's Graduate Advisor.

The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. Successfully passing TECH 200 course meets the GWAR requirement.

**Requirements for Graduation**

**University Graduation Requirements**

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

In consultation with the department graduate coordinator, the candidate will develop and pursue a program of study. The candidate must successfully complete all requirements of the selected plan including the course work specified in the Master's Degree Approval Program.

**Graduation Writing Assessment Requirement**

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR).

**Culminating Experience**

Students choose a Plan A (Thesis) or Plan B (Project) option as their program culminating experience. Both options require a précis presentation prior to the submission of the graduate proposal (TECH 298 or TECH 299). Each précis
shall include the following: An introduction, a literature review, a statement of the problem, research questions or hypothesis, and a methodology. Students must arrange the date of the précis presentation with the graduate coordinator and with reference to the program Deadlines and Due Dates sheet.

Plan A (Thesis)

Students opting to complete a thesis enroll in three units of TECH 299. They must secure the commitment of three faculty members of the department, college or university, two of whom must be members of the faculty (permanent or part-time), to serve as members of the student's Plan A (thesis) committee, with one permanent faculty member agreeing to serve as chair. The committee must approve the student's thesis proposal for the master's degree no later than one semester prior to the end of the semester preceding the one in which enrollment in the final thesis course is planned. The thesis will include original research on a topic approved by the thesis committee, and must meet university requirements as stipulated in this catalog and in the SJSU Master's Thesis and Doctoral Dissertation Guidelines. It will undergo a thorough review and revision process under the guidance of the candidate's thesis committee chair with the assistance of the thesis committee. In addition, the candidate for the MS degree must successfully pass a final oral defense of the thesis. This include a one-hour professional presentation with applicable slides outlining the worked performed including an introduction, background and review of the relevant previous published literature, methodology, analysis/experiment/simulation, results and discussion, followed by conclusion(s).

Plan B (Project)

Students opting to complete a project enroll in three units of TECH 298. They must secure the commitment of three faculty members of the department, college or university, two of whom must be members of the faculty (permanent or part-time), to serve as members of the student's Plan B (Project) committee, with one permanent faculty member agreeing to serve as chair. The committee must approve the student's project proposal for the master's degree no later than one semester prior to the end of the semester preceding the one in which enrollment in the final project course is planned. The project, will include original research on a topic approved by the project committee. It will undergo a thorough review and revision process under the guidance of the candidate's project committee chair and with the assistance of the committee members. In addition, the candidate for the MS degree must successfully pass a final oral defense of the project. This include a one-hour professional presentation with applicable slides outlining the worked performed including an introduction, background and review of the relevant previous published literature, methodology, analysis/ experiment/simulation, results and discussion, followed by conclusion(s).

Master's Requirements (30 units)

Required Courses (24 units)

- TECH 200 - Research Methods for Engineering and Technology 3 unit(s) (GWAR)
- TECH 230 - Six-Sigma and Continuous Improvement Systems Management 3 unit(s)
- TECH 231 - Systems Reliability and Maintainability 3 unit(s)
- TECH 232 - Advanced Statistical Process Control 3 unit(s)
- TECH 233 - Design and Analysis of Experiments 3 unit(s)
- TECH 234 - Quality Systems Management: ISO 9000 and 14000 3 unit(s)
- TECH 235 - Measurement Systems and Analysis 3 unit(s)
- TECH 239 - Design Assurance in Product Development 3 unit(s)

Approved Electives (3 units)

- Three units electives selected in consultation with the graduate advisor 0 unit(s)

Culminating Experience (3 units)
Complete One Option (Plan A or Plan B):

Plan A (Thesis)

- TECH 299 - Master's Thesis 2-6 unit(s) (3 units required)

Plan B (Project)

- TECH 298 - Graduate Project 2-4 unit(s) (3 units required)

Total Units Required (30 units)

Elective courses must be planned in consultation with the Graduate Advisor.

Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU Cumulative grade point averages of 3.0 in order to graduate.

**AVIA 1 - Introduction to the Aviation Industry**

3 unit(s)
Career planning, paths, and opportunities within the aviation industry. Concepts and knowledge building blocks for any aviation professional, including: history of aviation; qualifications and privileges of aviation professionals; basics of aeronautics.

**Grading:** Letter Graded

**AVIA 2 - Private Pilot Ground**

3 unit(s)
Foundational concepts of aviation studies for professional pilots. Ground course for private pilot FAA certification. Aeronautics basics, weather, visual navigation, regulations, and operational environment for conducting flights under visual flight rules.

**Pre/Corequisite(s):** AVIA 1

**Grading:** Letter Graded

**AVIA 3 - Introduction to Private Pilot Part 141 Flight**

2 unit(s)
This course covers the FAA requirements leading up to the award of the FAA Private Pilot Certificate. The course consists of flight training segments in an FAA-approved FAR part 141 flight training program.

**Prerequisite(s):** AVIA 2

**Grading:** Credit/No Credit

**AVIA 31 - Aircraft Theory and Design**

3 unit(s)
Aerodynamics and aeroelastics force. Load analysis of flight vehicles. Aircraft design optimization, material selection
along with, safe-life, fail-safe and damage tolerance in design.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): AVIA 2, PHYS 2A, MATH 71 or MATH 71X.
Pre/Corequisite(s): PHYS 2B.
Grading: Letter Graded

AVIA 42 - Aircraft Systems

3 unit(s)
Operational and analytical aspects of key aircraft systems such as propulsion, flight control, electrical, and hydraulic. Reliability and maintainability concepts related to the design of aircraft systems. Emphasis is placed on general aviation aircraft.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): AVIA 1 or AVIA 2, PHYS 2A.
Pre/Corequisite(s): PHYS 2B.
Grading: Letter Graded

AVIA 43 - Propulsion Theory

3 unit(s)

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): AVIA 1 or AVIA 2, PHYS 2A.
Pre/Corequisite(s): PHYS 2B.
Grading: Letter Graded

AVIA 62 - Instrument Pilot Ground

3 unit(s)
Flight procedures, radio navigation, air traffic control, use of instrument charts. Flight simulator exercises on instrument flight maneuvers, departure and approach procedures.

Prerequisite(s): AVIA 2.
Grading: Letter Graded

AVIA 63 - Instrument Rating Part 141 Flight

2 unit(s)
This course covers the FAA requirements leading up to the award of the FAA Instrument Rating Certificate. The course consists of 29 instrument flight training segments in an FAA approved FAR part 141 instrument flight training program.

Prerequisite(s): AVIA 3 or FAA Private Pilot Certificate, AVIA 73
Grading: Credit/No Credit
AVIA 68 - Avionics and Airborne Communication

3 unit(s)
Communications and navigation systems installed on a typical general aviation aircraft. History of avionics. Laboratory exercises will include field-testing and airworthiness evaluation.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Pre/Corequisite(s): AVIA 42.
Grading: Letter Graded

AVIA 73 - Air Traffic Control

3 unit(s)

Prerequisite(s): AVIA 1 or AVIA 2.
Grading: Letter Graded

AVIA 78 - Introduction to Aviation Management

3 unit(s)
History and fundamentals of aviation management. Pilot relations to Fixed Base Operators (FBOs). Overview of aviation human resources; basics of aviation maintenance and risk management. Basic financial management analysis.

Grading: Letter Graded

AVIA 91 - Aircraft Turbine Engines

3 unit(s)
A study of gas turbine fundamentals, including various gas turbine cycles, components and component efficiency, thrust, specific fuel consumption, duct flow and inlet diffuser, centrifugal and axial compressors, combustion chambers and jet nozzles for aircraft propulsion.

Prerequisite(s): AVIA 43.
Grading: Letter Graded

AVIA 110 - Aviation Meteorology

3 unit(s)
Introduction to meteorology with emphasis on aviation applications. Causes of weather, characteristics of common weather phenomena and climatology. Aviation weather resources and reporting, and weather briefings in relation to visual and instrument meteorological conditions for flying

Grading: Letter Graded

AVIA 112 - Commercial Pilot Ground
3 unit(s)
Material necessary for the FAA requirements leading up to the award of the FAA Commercial Pilot Certificate. Formatted as a ground school and covers the aeronautical knowledge requirements for the Commercial Pilot Knowledge Test.

Prerequisite(s): AVIA 31, AVIA 42, and AVIA 91.
Grading: Letter Graded

AVIA 113 - Commercial Professional Pilot Part 141 Flight

2 unit(s)
This course covers the FAA requirements leading up to the award of the FAA Commercial Pilot Certificate. The course consists of 58 flight training segments in an FAA approved FAR part 141 flight training program.

Prerequisite(s): FAA Private Pilot Certificate
Corequisite(s): AVIA 112
Grading: Credit/No Credit

AVIA 128 - Aviation Safety and Security

3 unit(s)
Safety in aviation design, operation, and maintenance; hazardous materials; airport environment issues; security regulations for aviation.

Prerequisite(s): AVIA 1 or AVIA 2.
Grading: Letter Graded

Sustainability Related - SDG 9: Industry, Innovation and Infrastructure

AVIA 141 - Human Factors in the Aviation Environment

3 unit(s)
Effects of time zone changes, sleep disruption, drugs on pilot performance. Role of FAA inspectors, physicians, cabin attendants, unions. Cockpit crew coordination; pilot psychology; aviation safety and accident investigation. Experimental avionics.

Prerequisite(s): Sophomore or Upper division standing.
Grading: Letter Graded

Note(s): Not an elective in most department majors.

AVIA 150 - Unmanned Aerial Systems

3 unit(s)

Prerequisite(s): AVIA 31 or Instructor Consent
Grading: Letter Graded

AVIA 173 - Aviation Law
3 unit(s)
Law and legal issues in aviation from both a national and international perspective. Rights and responsibilities of individuals, organizations, and the aviation community. Regulations and liability pertaining to the design, manufacture, operation and maintenance of aircraft.

Prerequisite(s): AVIA 78.
Grading: Letter Graded

AVIA 176 - Airline Operations and Management

3 unit(s)
Aspects of managing air transportation companies. Integration of technical, environmental, market and regulatory considerations in the decision-making process in airline management. Future planning techniques.

Prerequisite(s): AVIA 78
Grading: Letter Graded

Sustainability Related - SDG 9: Industry, Innovation and Infrastructure

AVIA 177 - General Aviation Operations and Management

3 unit(s)
Aspects of managing general aviation companies, such as the structure of the general aviation industry, supply and demand of products, and technical and regulatory constraints.

Prerequisite(s): AVIA 1 or AVIA 2.
Grading: Letter Graded

AVIA 178 - Airport Planning and Management

3 unit(s)
Design, planning, and management of airports in the US including airport development and airport design. Legal responsibilities as an airport manager. Issues and regulations applicable to airport planning and management.

Prerequisite(s): AVIA 78.
Grading: Letter Graded

AVIA 179 - Advanced Airport Planning and Management

3 unit(s)
Noise generation and abatement. Leasing and property management including the impact of federal regulations. Concession planning. Use of technology to increase efficiency and security in airports.

Prerequisite(s): AVIA 178.
Grading: Letter Graded

AVIA 180 - Individual Studies

1-3 unit(s)
Special topics by arrangement. Course is repeatable for a maximum of 3 units.
Course may be repeated for credit for up to 3 units.

Prerequisite(s): Aviation majors or minors after advisor consultation and department chair approval.
Grading: Credit/No Credit

**AVIA 180H - Individual Studies**

1-2 unit(s)
Individual honors studies by arrangement. Course is repeatable for maximum of 2 units.

Course may be repeated for credit for up to 2 units.

Prerequisite(s): Acceptance into Aviation Honors Program.
Grading: Credit/No Credit

**AVIA 190 - Senior Capstone Seminar**

3 unit(s)
Current industry analysis and career development; leadership skills for an aviation professional. Aviation standard procedures. Ethical principles for Aviation. Student projects related to Aviation major.

Prerequisite(s): Graduating senior, major form completed.
Grading: Letter Graded

**AVIA 192I - International Program Studies**

1-12 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

**AVIA 193 - Aerodynamics**

3 unit(s)
Aerodynamic forces involved in an airplane in flight. Fundamental flowing gas, incompressible and compressible flow, Bernoulli's Principles, circulation forces, boundary layer, airfoils, measurement methods, laminar and turbulent flow, force and vortex interactions.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): PHYS 2A, MATH 71 or MATH 71X, AVIA 31.
Grading: Letter Graded

**AVIA 194 - Pilot Avionics and General Aviation Systems**

3 unit(s)
Operations of avionics as found on modern general aviation aircraft and turboprop/turbofan aircraft. Major systems
used on general aviation aircraft including GPS, FMS, navigation systems, fuel systems, hydraulic systems, environmental systems, landing gear.

**Prerequisite(s):** AVIA 42, AVIA 43.
**Grading:** Letter Graded

**AVIA 195 - Internship with the Aviation Industry**

1-6 unit(s)
Practical experience with aviation industry under direct supervision of aviation professionals. Experience will relate to air carrier or general aviation aircraft operation/management/maintenance, fixed-based operation management and/or airport operation/management. Course is repeatable for a maximum of 12 units.

*Course may be repeated for credit for up to 12 units.*

**Prerequisite(s):** Junior standing and instructor consent.
**Grading:** Credit/No Credit

**AVIA 197 - Cooperative Education Project**

3 unit(s)
Part or full-time on-site paid work experience based on a pre-approved project assignment in area of student's career objective. Oral presentations, written final report and evaluation by project supervisor. Approved technical elective.

**Prerequisite(s):** Instructor consent.
**Grading:** Letter Graded

Cross-listed with CHE 197 / CMPE 197 / EE 197 / ENGR 197 / ISE 197 / MATE 197 / ME 197 / TECH 197. General Engineering is responsible for scheduling.

**AVIA 198 - Aviation and Human Civilization**

3 unit(s)
Critical analysis of the role of aviation in human civilization focusing on cultures outside the US and how their development impacted US practices. Topics include: aviation early history; impact of aviation on global economy; gender disparity in the field.

*Satisfies SJSU Studies V: Culture, Civil & Global Understanding.*

**Prerequisite(s):** Completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses.
**Grading:** Letter Graded

**AVIA 199A - Special Topics in Aviation Management**

3 unit(s)
Special topics in Aviation Management. Content varies from semester to semester. Course is repeatable for a total of 6 units.

*Course may be repeated for credit for up to 6 units.*
Prerequisite(s): Instructor consent.
Grading: Letter Graded

AVIA 199B - Special Topics in Aviation Operations

3 unit(s)
Special topics in Aviation Operations. Content varies from semester to semester. Course is repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor consent.
Grading: Letter Graded

TECH 20A - Computer-Aided-Graphics

2 unit(s)
Introduction to Computer-Aided-Graphical communication tools. Orthographic projections, section and auxiliary views and dimensioning standards. Development of visualization and technical sketching skills in conjunction with orthographic and pictorial projections. Dimensioning and tolerancing utilizing 2D and 3D commercially available software.

Misc/Lab: 1 hour lecture and 3 hours lab

Grading: Letter Graded

TECH 25 - Introduction to Materials Technology

3 unit(s)
Designed to introduce students to materials used to make consumer and commercial products. Including metals, plastics, and composites. How materials impact our lives and standard of living. Materials selection and the role of experimentation, testing and evaluation procedures.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): MATH 18A or equivalent.
Corequisite(s): CHEM 1A or CHEM 30A or equivalent.
Grading: Letter Graded

TECH 30 - Introduction to Python Programming

3 unit(s)
Introduction to Python programming, data types, arithmetic and strings, conditional execution, loops, functions, lists and files, exception handling, sets and dictionaries.

Prerequisite(s): MATH 71 or MATH 71X or MATH 30 or MATH 30X.
Grading: Letter Graded

TECH 31 - Quality Assurance and Control
3 unit(s)
Introduction to concepts and statistical methods that companies use to manage and improve quality. Sampling inspection, statistical process control, quality function deployment, cost of quality, design of experiment and Taguchi’s method for designing in quality.

Prerequisite(s): BUS2 90 or equivalent.
Grading: Letter Graded

TECH 41 - Machine Shop Safety

1 unit(s)
Introduction to basic machine shop safety and skills. Fabricating of mechanical components and assemblies from engineering drawings, performing tolerance inspection, developing fabrication process plans.

Course is repeatable for up to 3 units.

Prerequisite(s): ME 20, TECH 20A, CE 20 or equivalent.
Grading: Letter Graded

Cross-listed with ME 41. Technology is responsible for scheduling.

TECH 42 - Manufacturing and Machine Shop Projects and Practices

1 unit(s)
Individual manufacturing processes and machine shop practices. Fabrication of mechanical components and assemblies in fulfillment of senior, course, special, and approved student club assignments and projects.

Misc/Lab: 3 hours lab

Course may be repeated for credit for up to 4 units.

Prerequisite(s): TECH 41/ME 41 (with grade "C-" or better).
Grading: Credit/No Credit

Cross-listed with ME 42. Technology is responsible for scheduling.

TECH 45 - Sustainable Facilities Design & Planning

3 unit(s)
Construction, planning, and maintenance of physical facilities and equipment for sustainable manufacturing operations. Green and sustainable practices and standards, plant facilities layout/design, regulatory and environmental compliance, safety/security and energy conservation. Production line planning and OSHA and NIOSH standards.

Prerequisite(s): TECH 20A, CE 20 or equivalent.
Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

TECH 46 - Machine Operation and Management

Lecture 2 hours/lab 3 hours.

**Prerequisite(s):** TECH 20A.
**Corequisite(s):** TECH 41.
**Grading:** Letter Graded

---

**TECH 60 - Introduction to Electronics**

3 unit(s)
Emphasizes practical electronics applications and products. DC and AC theory; Ohm's Law, Kirchhoff's Laws, Power Laws, network theorems, schematic diagrams, instrumentation and measurement, and functions of discrete components.

Lecture 2 hours/lab 3 hours.

**Pre/Corequisite(s):** MATH 71 or MATH 71X or MATH 30 or MATH 30X or equivalent.
**Grading:** Letter Graded

---

**TECH 62 - Analog Circuits**

3 unit(s)
Semiconductor theory; p-n junction, bipolar transistors, JFETs and MOSFETs, optoelectronic devices. Operational amplifiers and 555 timers. Device applications: comparators, signal generators, active filters, instrumentation amplifiers, voltage regulators and power supplies.

Lecture 2 hours/lab 3 hours.

**Prerequisite(s):** TECH 60, MATH 71 or MATH 71X or MATH 30 or MATH 30X.
**Grading:** Letter Graded

---

**TECH 63 - Analog and Digital Circuits**

3 unit(s)
Logic gates emphasizing TTL and CMOS. Design techniques. Combinational circuits, counters, registers, multiplexers, Semiconductor theory. Operational amplifiers. Device applications, signal generators, voltage regulators and power supplies.

**Prerequisite(s):** TECH 60, MATH 71 MATH 71X or MATH 30 MATH 30X or equivalent.
**Grading:** Letter Graded

**Note(s):** Lecture 2 hours/lab 3 hours.

---

**TECH 65 - Introduction to Networks**

3 unit(s)
Introduction to networks and networking concepts. Network architectures. Network media. Configuring network

Lecture 2 hour/lab 3 hours.

Pre/Corequisite(s): TECH 60.
Grading: Letter Graded

TECH 66 - Network Administration

3 unit(s)

Misc/Lab: Lecture 2 hours/Lab 3 hours.

Prerequisite(s): TECH 65.
Grading: Letter Graded

TECH 67 - Introduction to Internet of Things

3 unit(s)
Introduction to Internet of Things (IoT) fundamentals, development of the knowledge and skills required for related technologies and hands-on, problem-solving experience. Designing and connecting IoT devices to capture data and control the physical world.

Misc/Lab: Lec 2 hours/Lab 3 hours.

Prerequisite(s): TECH 60, TECH 65.
Grading: Letter Graded

TECH 68 - Internet of Things Systems

3 unit(s)
Cyber-physical systems as control systems, including problem formulation, mathematical representation, and analysis. IoT system components of switching, routing, security, wireless, virtualization, and their integration into end-to-end IoT systems.

Misc/Lab: Lec 2 hours/Lab 3 hours

Prerequisite(s): TECH 67.
Corequisite(s): CMPE 30.
Grading: Letter Graded

TECH 115 - Automation and Control

3 unit(s)
Theory and application of automation elements including analog and digital sensors, controllers, indicators, actuators. Control modes for proportional, derivative, and integral control systems. Hands-on integration practices among PLC, robots, automatic identification devices, computers, and other industrial equipment.
Lecture 2 hours/lab 3 hours.

Prerequisite(s): TECH 60, PHYS 2A, PHYS 2B, MATH 71 or MATH 71X.
Grading: Letter Graded

TECH 136 - Software Quality Management

3 unit(s)
Software quality management standard processes and techniques, certification standards. Web programming application. Mobile network applications. Software testing methodology. Role of software quality managers in a computer network system organization.

Misc/Lab: 2hrs lecture/3hrs lab

Prerequisite(s): CMPE 30, BUS2 90, TECH 173
Grading: Letter Graded

TECH 140 - Green & Sustainable Product Design

3 unit(s)
Advanced product and process design with a focus on green and sustainable design and on manufacturing green products. Analysis of process and material selection for environmental impact. Composite and advanced materials processing. Laboratory exercises and planning for green manufacturing.

Lecture 3 hours/Lab 3 hours.

Course is repeatable for up to 6 units.

Prerequisite(s): TECH 20A; CHEM 1A or CHEM 30B; MATH 71 or MATH 71X or MATH 30 or MATH 30X.
Grading: Letter Graded

Cross-listed with ME 140. Technology is responsible for scheduling. Sustainability Focused - SDG 12: Responsible Consumption and Production

TECH 143 - Polymers and Composites Fabrication Technology

3 unit(s)

Activity 6 hours.

Prerequisite(s): TECH 20A, CHEM 1A and PHYS 2A.
Grading: Letter Graded

TECH 145 - Lean Manufacturing

3 unit(s)
Exploration and practice of techniques for reducing waste to optimize the value stream in both manufacturing and non-manufacturing environments. Toyota Production System, Value Stream Mapping, 7 Wastes, 5S, Just-in-Time,
TPM, Kaizen.

Prerequisite(s): BUS5 140 or BUS5 145 or ISE 140.
Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

TECH 146 - 3D Printing and Applications

3 unit(s)
Introduction to technologies in 3D printing, equipment, processes, and materials. Applications for a variety of markets and industry in accelerating time to market for products, improving manufacturing operations, and efficiency. Hands-on experience through CAD design to product realization.

Prerequisite(s): TECH 20A, TECH 25, TECH 140
Grading: Letter Graded

TECH 147 - Green Manufacturing Analysis & Management

3 unit(s)
Design, operation, and control of green production systems using techniques to promote sustainability and minimize environmental impact. Emphasis is on the physical design of high performance manufacturing and will include production flow, scheduling, work flow, layout of manufacturing plants, and material handling.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): TECH 45, TECH 46, TECH 115.
Pre/Corequisite(s): TECH 140.
Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

TECH 149 - Computer Integrated Manufacturing Systems

3 unit(s)
Integration of all aspects of a manufacturing enterprise using computer-integrated manufacturing (CIM) technologies. Design development and implementation of manufacturing systems using project management techniques and team work.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Course may be repeated for credit for up to 3 units.

Pre/Corequisite(s): TECH 145, TECH 147.
Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

TECH 163 - Telecommunications Systems

Prerequisite(s): TECH 62, TECH 63.
Grading: Letter Graded

TECH 165 - Wireless Communications Technologies

Misc/Lab: Lecture 3 hours/ Lab 3 hours

Prerequisite(s): TECH 63, TECH 65.
Grading: Letter Graded

TECH 167 - Control Systems

Theory and applications of feedback systems, transfer functions and block diagrams. Transducers, analog and digital controllers, signal conditioners and transmission. Analysis, testing, and troubleshooting of electronic systems with feedback.

Misc/Lab: Lecture 2 hours/ Lab 3 hours.

Prerequisite(s): TECH 63, TECH 115, and CMPE 30 or CS 49C or CS 49J.
Grading: Letter Graded

TECH 169 - Applied Electronic Design

Design, test, simulation, development and implementation of electronic systems for control of industrial processes using project management techniques and team work. Hardware, software, and system interfacing.

Misc/Lab: Lecture 2 hours/ Lab 3 hours.

Pre/Corequisite(s): TECH 167.
Grading: Letter Graded

TECH 170 - Connected Products Applications

Introduction to connected products and applications, defining user (UX) for web and software and UX for Connected Things. Presenting models of human-computer interaction, design processes and product/service definition and strategy. Cases studies of IoT systems and design.

Misc/Lab: Lec 2 hours/ Lab 3 hours.
Prerequisite(s): TECH 68.
Grading: Letter Graded

TECH 171 - Network Security & Prevention Management

3 unit(s)
Approaches to IT system security including physical, application, operating system, cyber-, and network security. Using switches, routers, adaptive security appliance, firewalls, and intrusion protection systems to implement comprehensive security policies. IPv4 and IPv6 security, VPN technology.

Misc/Lab: Lec 2 hours/Lab 3 hours.

Prerequisite(s): TECH 65, TECH 66, TECH 170.
Grading: Letter Graded

TECH 172 - Database Server System Management

3 unit(s)
Practical big data analytics and management systems. Issues and problems involved in massive on-line repository systems. Current practical techniques for satisfying the needs of such systems. Current approaches that are likely to provide a basis for tomorrows solutions.

Misc/Lab: Lec 2 hours/Lab 3 hours.

Prerequisite(s): TECH 171, TECH 173, TECH 179.
Grading: Letter Graded

TECH 173 - Cloud Computing System Management

3 unit(s)
Technologies, hardware and software applications in cloud computing. Implementation of cloud computing in the enterprise through exploration of public and private clouds, comparison. Performance monitoring of data traffic flow and process improvement for the required server systems.

Grading: Letter Graded

TECH 174 - Blockchain Technology and Applications

3 unit(s)
Fundamentals and applications of Blockchain Technology; transparent, secure, immutable and distributed database used as the underlying technology for Cryptocurrency. Types of Blockchain and real-life applications for potentially disruptive technology and its impact on business world and society.

Prerequisite(s): TECH 30 or instructor consent.
Grading: Letter Graded

TECH 175 - Industrial Internet of Things (IIoT)

3 unit(s)
Techniques to collect and analyze sensor data to maximize industrial systems efficiency through predictive and
preventive maintenance, machines monitoring, supply-chain optimization, smart energy, smart grid, big data analytics, smart connected systems, and cyber threats prevention.

Prerequisite(s): TECH 30 and TECH 65; or instructor consent.
Grading: Letter Graded

TECH 176 - Machine Learning Technology and Applications

3 unit(s)
Overview of machine learning in computer network systems with emphasis on practical applications focusing on supervised and unsupervised techniques and methods, including classification and clustering. Emphasis on big data analytics and data mining.

Prerequisite(s): TECH 30 or instructor consent.
Grading: Letter Graded

TECH 177 - Data Science in Industrial Systems Management

3 unit(s)
Focus on applications of descriptive, predictive, and prescriptive analyses in pattern recognition, system improvement and optimization. Data mining techniques, decision tree modeling, regression analysis, and big data management for informed decision making in industrial systems management.

Prerequisite(s): TECH 31 or equivalent courses with instructor consent.
Grading: Letter Graded

TECH 179 - Cyber Security System Management

3 unit(s)
Key issues associated with protecting information assets. Levels of protection and response to security incidents. Planning for security and management of the system. Application of software, cryptography, encryption methods. Mobile and cloud systems security.

Grading: Letter Graded

Sustainability Related

TECH 180A - Individual Studies in Electronics and Computer Technology

1-4 unit(s)
Prerequisite(s): Upper division standing and instructor consent. Not available to Open University Students.
Grading: Credit/No Credit

TECH 180B - Individual Studies in Manufacturing Technology

1-4 unit(s)
Prerequisite(s): Upper division standing and instructor consent. Not available to Open University Students.
Grading: Credit/No Credit

TECH 180J - Individual Studies in Technology Issues
1-4 unit(s)
Prerequisite(s): Upper division standing and instructor consent. Not available to Open University Students.
Grading: Credit/No Credit

TECH 190 - Senior Seminar in Technology

3 unit(s)
Current industry analysis and career development. Technology trends in manufacturing and electronics. Leadership skills for a technology professional. Ethics for technology managers.

Prerequisite(s): Graduating senior, major form completed.
Grading: Letter Graded

TECH 190A - Senior Project I

3 unit(s)
Half of one-year senior team design projects. Professional Development and Proposal preparation with feasibility plans, specifications, oral/written reports, and career and professional seminar participation. Project proceeds over two semesters from problem definition and design to validation, prototype construction, and testing.

Prerequisite(s): Completion of major lower division requirements, senior standing, and consent of instructor.
Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

TECH 190B - Senior Project II

3 unit(s)
Second half of a one-year team project carried out under faculty supervision. Review, construction, testing, and evaluation of the design from TECH 190A culminating in demonstrations and written and oral presentations to faculty and peers.

Prerequisite(s): TECH 190A with a C or better
Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

TECH 192 - International Program Studies

1-14 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

TECH 195 - Cooperative Internship
1-3 unit(s)
Provides an educational strategy that links classroom learning and student interest with the acquisition of knowledge in an applied work setting. Students undertake a significant experiential learning opportunity, typically with a company, non-profit, governmental, or community-based organization.

Prerequisite(s): Upper division standing, course contract, instructor consent
Grading: Credit/No Credit

TECH 197 - Cooperative Education Project

3 unit(s)
Part or full-time on-site paid work experience based on a pre-approved project assignment in area of student's career objective. Oral presentations, written final report and evaluation by project supervisor. Approved technical elective.

Prerequisite(s): Instructor consent.
Grading: Letter Graded

Cross-listed with AVIA 197 / CHE 197 / CMPE 197 / EE 197 / ENGR 197 / ISE 197 / MATE 197 / ME 197. General Engineering is responsible for scheduling.

TECH 198 - Technology and Civilization

3 unit(s)
History, development, and use of technology in different cultures. Technology's impact on society, global environment, the workplace, cultural values, gender roles, and newly industrialized countries of the world.

Satisfies SJSU Studies V: Culture, Civil & Global Understanding.

Prerequisite(s): Passage of the Writing Skills Test (WST) or ENGL 100A / LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Grading: Letter Graded

Note(s): All of SJSU Studies courses require completion of the WST and upper division standing.

Cross-listed with CMPE 198 / ENGR 198 / ME 198. Technology is responsible for scheduling.
Sustainability Related - SDG 9: Industry, Innovation and Infrastructure

TECH 199A - Special Topics in Electronics & Cmp Tech

3 unit(s)
Fundamentals of being a successful college student on the path to a profession in Industrial Technology. Hands-on project oriented course with applications in manufacturing systems, robotics, plant operation, materials and handling, computer network systems, IoT, and internet hardware. Guest speakers and tours of related industries.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor consent.
Grading: Letter Graded

TECH 199B - Special Topics in Manufacturing Systems
3 unit(s)
Special topics in Manufacturing Systems. Content varies from semester to semester. Repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor consent.
Grading: Letter Graded

TECH 200 - Research Methods for Engineering and Technology

3 unit(s)
Current applied research methods applied to problems in engineering, technology, and other technical fields. Exposure to current literature, scientific/technological research ethics, research and experimental design and methods, skills in research proposal development and locating funding.

Prerequisite(s): STAT 115 (or equivalent) and graduate standing.
Grading: Letter Graded

TECH 230 - Six-Sigma and Continuous Improvement Systems Management

3 unit(s)
Six-Sigma quality systems for design production and business processes. Statistical foundations, implementation strategies, and practical industrial applications. Methods and practices of achieving continuous quality improvement, defect reduction, project planning and management methods to achieve universal participation in process improvement.

Prerequisite(s): STAT 115 or equivalent.
Grading: Letter Graded

TECH 231 - Systems Reliability and Maintainability

3 unit(s)
Analysis of models for systems reliability including static, dynamic, and probabilistic engineering models; reliability estimation and optimization, life cycle prediction techniques; failure modes and effects analysis; maintainability prediction and analysis.

Prerequisite(s): TECH 230.
Grading: Letter Graded

TECH 232 - Advanced Statistical Process Control

3 unit(s)
Analysis of advanced statistical process control (SPC) systems for monitoring and controlling process performance. Statistical methods for sample selection, probability theory, partition of variation, blanket studies, out-of-control action plans, process capability measurement, and SPC implementation strategies and analysis.

Prerequisite(s): STAT 115.
Grading: Letter Graded

TECH 233 - Design and Analysis of Experiments
Analysis of experimental design strategies for process and design improvement. Industrial application of single factor, multi-factor, and optimization designs. Experimental analysis using t-tests, ANOVA, Chi-square, linear and multiple regression techniques. Model building and model validation.

Pre/Corequisite(s): TECH 232.
Grading: Letter Graded

TECH 234 - Quality Systems Management: ISO 9000 and 14000

Strategies for developing and implementing ISO standards: Project management and planning, cost estimation, supply chain management, audit plans and documentation systems for ISO system compliance. Analysis of ISO 9000 and 14000 quality systems for product design, development and production.

Grading: Letter Graded

TECH 235 - Measurement Systems and Analysis

Analysis of variables and attributes methods for measurement systems analysis and control including: repeatability, reproducibility, accuracy, linearity and stability. A survey of measurement and testing systems; dimensional metrology, destructive and nondestructive testing, calibration methods, and inspection equipment and techniques.

Prerequisite(s): TECH 232.
Grading: Letter Graded

TECH 239 - Design Assurance in Product Development

Analysis of product development strategies, understanding design constraints and market conditions, design and configuration control systems, documentation and revision control systems, design for manufacturability, phase review approaches for new product introduction, design reviews, and developing and maintaining design guidelines.

Prerequisite(s): TECH 200, TECH 230 and TECH 234.
Grading: Letter Graded

TECH 290 - Graduate Problems

Graduate study or research of technical problems.

Prerequisite(s): TECH 200 and instructor consent. Not available to Open University Students.
Grading: Credit/No Credit

TECH 298 - Graduate Project

Graduate study research of professional problems.

Prerequisite(s): Admission to candidacy for the master's degree and instructor consent. Not available to Open
University Students.

**Grading:** Mandatory Credit/No Credit/RP

**TECH 299 - Master's Thesis**

2-6 unit(s)

**Prerequisite(s):** Admission to candidacy for the master's degree and instructor consent. Not available to Open University Students.

**Grading:** Mandatory Credit/No Credit/RP

**TECH 1290R - Culminating Experience Supervision**

1 unit(s)

Continued work on thesis or project.

*Course may be repeated for credit for up to 16 units.*

**Prerequisite(s):** Outstanding RP grade in a preceding semester in a project or thesis class

**Grading:** Credit/No Credit/No Degree Credit

**Note(s):** No Degree Credit.

**Department of Biomedical Engineering**

Melinda Simon
Yun Wang

**Overview**

Biomedical engineering is an inherently interdisciplinary field that lies at the intersection of engineering and the biological and health sciences. Biomedical engineers use the principles of engineering to develop solutions for a wide
variety of products and technologies that improve the quality of life. Students majoring in biomedical engineering will have the satisfaction of being actively engaged in a discipline that has human health and welfare as its primary focus.

The mission of the Biomedical Engineering Department is to be a recognized leader in translational biomedical research; to provide hands-on education focused on solving real world biomedical problems; and to foster innovation and entrepreneurship in the service of human well-being.

The BS and MS Biomedical Engineering programs have been designed, in consultation with potential employers, to prepare graduates for the wide variety of emerging careers in biomedical devices, bioelectronics and instrumentation, imaging, bioinformatics, and manufacturing, among others. The coursework prepares students to function effectively in a U.S. Food & Drug Administration-regulated environment. These programs also promote the development of soft skills, such as oral and written communication, and team work, that are necessary for professional success and lifelong learning in the global marketplace. The ability to address and deal with ethical issues, which are of paramount importance in biomedical engineering, is also cultivated, and communications skills are integrated into the classes throughout the curriculum.

In addition to BS and MS degrees in biomedical engineering, we offer an undergraduate minor in biomedical engineering, appropriate for students pursuing other fields of study but still interested in applications in biomedical engineering. The BS Biomedical Engineering program is accredited by the Engineering Accreditation Commission of ABET, www.abet.org.

### Undergraduate Major(s)

#### Biomedical Engineering, BS

The Department of Biomedical Engineering is home to dynamic BS and MS engineering programs. Being located in the heart of Silicon Valley, we have developed strong ties and long-standing collaborations with the wide variety of biomedical engineering industries that surround us. These include the spectrum from mature companies that are household names enjoying world-wide recognition to startups that are at the brink of the next revolution in technology. The reputation of our educational programs as providing a unique practical approach built on a strong academic foundation continues to attract students. The department also offers a combined Biomedical Engineering BS + MS program.

**Program Roadmaps**

The 4-Year and 5-Year Roadmap are available online. Roadmaps should be used in consultation with the catalog and your academic advisor to identify additional requirements for completing the major (for example, course grade minimums).

**Major-Specific Graduation Requirements**
All courses required in the major, including all electives, must be completed with a grade of C- or better. This includes all courses in the following sections: Preparation for the Major, Requirements of the Major Core Courses, Biomedical Engineering Required Courses. Note that ENGR 100W, BME 198A, BME 198B, ENGR 195A, AND ENGR 195B must be completed with a grade of C or better.

**Prerequisite Requirements**

Enrollment in any chemistry course requires that the prerequisite courses be passed with a grade of "C or better" (C- not accepted). Exceptions may be made only with instructor consent or if not explicitly stated in the course description. Refer to the SJSU Course Catalog for specific information regarding course prerequisites.

**University Requirements**

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Exceptions for University Graduation Requirements apply to this major.

**Core Lower Division General Education (9 units)**

Of the 39 units required by the university, 30 units may be satisfied by the coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with GE advisor at the Engineering Student Success Center (ESSC) for details.

**Upper Division General Education**

Of the 9 units required by the university, 9 units may be satisfied by the coursework outlined below. Consult with GE advisor at the Engineering Student Success Center (ESSC) for details.

**American Institutions (6 units)**

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

**African American Studies (6 units)**

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 unit(s) (D+US123)

**Asian American Studies (6 units)**
- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

**Chicana and Chicano Studies (6 units)**

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

**U.S. History and Government (6 units)**

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

**Physical Education**

The Physical Education Requirement is waived for this major. See the Exceptions for University Graduation Requirements.

**Graduation Writing Assessment Requirement**

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

*A grade of C or better (C- not accepted) is required to meet graduation requirement.*

**Major Preparation (45 units)**

- BIOL 30 - Principles of Biology I 4 unit(s) (B2+B3)
- CHEM 1A - General Chemistry 5 unit(s) (B1+B3)
- CHEM 1B - General Chemistry 5 unit(s) (B1+B3)
- CHEM 8 - Organic Chemistry 3 unit(s)
- CHEM 9 - Organic Chemistry Lab 1 unit(s)
- ENGL 1A - First Year Writing 3 unit(s) (A2)
- ENGL 1B - Argument and Analysis 3 unit(s) (C2) (or equivalent second semester composition course.)
- MATH 30 - Calculus I 3 unit(s) (B4) (or MATH 30X)
- MATH 31 - Calculus II 4 unit(s) (B4) (or MATH 31X)
- MATH 32 - Calculus III 3 unit(s) (B4) (or MATH 32H or MATH 32X)
- PHYS 50 - General Physics/Mechanics 4 unit(s) (B1+B3)
- PHYS 51 - General Physics/Electricity and Magnetism 4 unit(s) (B1+B3)

**Differential Equations (3 units)**

- MATH 33A - Ordinary Differential Equations for SCI & ENGR 3 unit(s) 
  OR
- MATH 33LA - Differential Equations and Linear Algebra 3 unit(s)
Major Requirements (60 units)

Core Courses (11 units)

- BME 25 - Introduction to Biomedical Engineering Design 2 unit(s)
- BME 65 - Biomedical Applications of Statics 3 unit(s) (CE 95 or CE 99 also accepted)
- ENGR 10 - Introduction to Engineering 3 unit(s) (E)
- ENGR 100W - Engineering Reports 3 unit(s) (Z+R)

Major Courses (43 units)

- BME 68 - Biomedical Applications of Metals and Ceramics 3 unit(s) (MATE 25 also accepted)
- BME 115 - Foundations of Biomedical Engineering 4 unit(s)
- BME 116 - Biosensors and Bioinstrumentation 3 unit(s) (EE 98 also accepted)
- BME 117 - Biotransport Phenomena 3 unit(s)
- BME 130 - Numerical Methods in Biomedical Engineering 3 unit(s)
- BME 133 - Programming Applications in Biomedical Engineering 1 unit(s)
- BME 135 - Biomedical Engineering Design Methods 2 unit(s)
- BME 147 - Quantitative and Statistical Methods for Biomedical Engineers 3 unit(s)
- BME 165 - Applied Engineering Biomechanics 3 unit(s)
- BME 168 - Medical and Biological Polymers 3 unit(s)
- BME 174 - Biomedical Regulatory Requirements 3 unit(s)
- BME 177 - Physiology for Engineers 3 unit(s)
- BME 178 - Biomedical Product Realization 3 unit(s)
- BME 198A - Senior Design Project I 2 unit(s) (S)
- BME 198B - Senior Design Project II 2 unit(s) (V)
- ENGR 195A - Global and Social Issues in Engineering 1 unit(s) (S)
- ENGR 195B - Global and Social Issues in Engineering 1 unit(s) (V)

Technical Electives (6 units)

Electives must be selected from the approved departmental list in consultation with the student's academic advisor.

Total Units Required (120 units)

Undergraduate Minor(s)

Biomedical Engineering Minor

Students must complete a minimum of 13 units as listed under the course requirements. All of these units must be outside the requirements for the student's major, i.e., the same courses cannot be listed both on the minor and the major forms. BME 115 (4 units) and BME 177 (3 units) are required for all students taking this minor. In consultation with the Biomedical Engineering advisor, students must select two additional courses from the group of biomedical engineering-based courses. It is the student's responsibility to make sure that the prerequisites for each course are met. Students in majors other than engineering, biology, chemistry, or physics will probably need to take additional courses to meet prerequisites for the courses required for this minor. This sequence of courses is the recommended
pattern for engineering majors. Alternative patterns may be approved by the biomedical engineering advisor for students majoring in biology, physics, or chemistry.

Interested students are encouraged to meet with a Biomedical Engineering Department Adviser to fill out the Biomedical Engineering Minor Form.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University Policy S16-4). Minor preparation or support courses do not count toward the 12 distinct units. Of the coursework for the minor, at least 6 units must be completed in residence at SJSU. The minimum aggregate GPA for all coursework required for the minor must be at least 2.0.

Minor Requirements (13 units)

- BME 115 - Foundations of Biomedical Engineering 4 unit(s)
- BME 177 - Physiology for Engineers 3 unit(s)

Technical Electives (6 units)

Complete two courses:

- BME 68 - Biomedical Applications of Metals and Ceramics 3 unit(s)
- BME 117 - Biotransport Phenomena 3 unit(s)
- BME 147 - Quantitative and Statistical Methods for Biomedical Engineers 3 unit(s)
- BME 165 - Applied Engineering Biomechanics 3 unit(s)
- BME 168 - Medical and Biological Polymers 3 unit(s)
- BME 174 - Biomedical Regulatory Requirements 3 unit(s)
- BME 178 - Biomedical Product Realization 3 unit(s)
- BME 182 - Orthotics and Prosthetics 3 unit(s)
- BME 187 - Medical Device Quality Systems 3 unit(s)
- BME 188 - Biomedical Device Manufacturing 3 unit(s)
- EE 127 - Electronics for Biomedical Applications 3 unit(s)
- BME 65 - Biomedical Applications of Statics 3 unit(s)
- BME 116 - Biosensors and Bioinstrumentation 3 unit(s)

Total Units Required (13 units)

Master(s)

Biomedical Engineering, Biomedical Devices Concentration, MS

- Requirements for Admission
- Requirements for Candidacy
- Master's Requirements (30 units)
- Program Learning Outcomes
The concentration in Biomedical Devices, offered by the Department of Biomedical Engineering, offers the student the opportunity to focus on the design, development, and manufacture of medical devices that either come into contact with the human body or are implanted within the human body. This concentration area has been created to provide individuals with B.S. degrees in an engineering field or chemistry or physics with the necessary graduate-level education that prepares them to function effectively in this environment.

Requirements for Admission

Applicants must meet all university admission requirements. Applicants who have a major GPA of 3.0 or higher are not required to take the GRE. All others must take the GRE General Test and obtain a combined score of 315 or higher in the Verbal and Quantitative sections, and 3.5 or higher in the Analytical Writing section.

Students can be admitted to either classified or conditionally classified standing. To be admitted to classified standing, a student must possess a BS degree in biomedical engineering, or its equivalent from an accredited institution with a grade point average of 3.0 or better in the last 60 semester units, have met the GRE requirement if their major GPA is below 3.0, and have completed any required Transition Courses, or their equivalents, with grades of B or better.

Conditionally Classified Admission

Students can be admitted to conditionally classified standing if they have a BS degree in an engineering discipline, chemistry, physics, or biology from an accredited institution. Students with conditionally classified standing will take a series of Transition Courses, as determined by the Graduate Coordinator. Once the series is completed satisfactorily, with grades of B or better, students can petition for transfer to classified standing. For more information on the transition courses see the section on Transition Courses below, or, contact the Biomedical Engineering Department Graduate Coordinator at biomedical-engineering@sjsu.edu.

Advancement to Candidacy

Students must meet the university's requirements for candidacy, which include classified standing and the successful completion of a minimum of 9 units of graduate-level classes with grades of B or better. The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy.

Course Requirements

To meet the requirements for the MS, Biomedical Engineering degree, a student must complete 30 units of approved courses. Students must achieve a minimum grade of a "C" in each course, a cumulative GPA of 3.0 or better in all their coursework, AND a GPA of 3.0 or higher for the courses listed in the Candidacy form.

Transition Courses

Students may be required to complete some or all of the following transition courses (or equivalent courses) prior to being admitted to Classified Standing in the major.

- BME 65 - Biomedical Applications of Statics 3 unit(s)
- BME 68 - Biomedical Applications of Metals and Ceramics 3 unit(s)
- BME 115 - Foundations of Biomedical Engineering 4 unit(s)
- BME 147 - Quantitative and Statistical Methods for Biomedical Engineers 3 unit(s)
Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). The GWAR is satisfied with the degree core course requirements of core courses (BME 207 and BME 274, both of which are core courses).

Culminating Experience

Included in the 30 units of approved courses is the requirement that students must also complete a written thesis or project report and an oral defense of their thesis or project. The candidate may choose either the Plan A (thesis) or Plan B (project) option. For either option, the student is required to develop a project proposal in BME 291. This must be approved by the student's project adviser and the reading committee at the culmination of BME 291. Once the proposal is approved, the student is required to:

- Implement the approved research plan using appropriate methods for the investigation
- Use appropriate statistical techniques for analysis of the data and drawing conclusions
- Discuss the results in light of findings reported by other investigators
- Write a professional report of appropriate length
- Present it and defend the project to the reading committee

Plan A (Thesis)

Please see the "Plan A (Thesis)" description under the requirements for the Biomedical Engineering, MS degree.

Plan B (Project)

Please see the "Plan A (Thesis)" description under the requirements for the Biomedical Engineering, MS degree.

Master's Requirements (30 units)

Core Courses (16 units)

- BME 207 - Experimental Methods in BME 3 unit(s) (GWAR)
- BME 210 - Mathematical Methods in Biomedical Engineering 3 unit(s)
- BME 272 - Biomedical Device Design and Principles 3 unit(s)
- BME 274 - Regulatory, Clinical and Manufacturing Aspects of Medical Devices 3 unit(s) (GWAR)
- BME 276 - Project Management in Biomedical Technologies 3 unit(s)
- BME 291 - MS Thesis/Project Preparation Seminar 1 unit(s)

Concentration Requirements (9 units)
- BME 168 - Medical and Biological Polymers 3 unit(s)
- BME 254 - Microscale Biomedical Systems: Physics and Applications 3 unit(s)
- ME 267 - Engineering Biomechanics 3 unit(s)

**Electives (0-3 units)**

Complete 0-3 units:

- BME 217 - Experimental and Computational Biofluid Mechanics 3 unit(s)
- BME 254 - Microscale Biomedical Systems: Physics and Applications 3 unit(s)
- BME 256 - Biomedical Applications of Nanoplatforms 3 unit(s)
- BME 258 - Medical Imaging for Engineers 3 unit(s)
- BME 280 - Graduate Research Studies 1-3 unit(s)
- BME 288 - Tissue Engineering 3 unit(s)

**Culminating Experience (2-5 units)**

**Plan A (Thesis Option) (5 units)**

- BME 298 - MS Project 2 unit(s) or
- BME 298I - Masters Project Internship 1-2 unit(s) and
- BME 299 - MS Thesis 3 unit(s) or
- BME 299I - Master's Thesis Internship 1-3 unit(s)

**Plan B (Project Option) (2 units)**

- BME 298I - Masters Project Internship 1-2 unit(s)
- BME 298 - MS Project 2 unit(s) or

**Total Units Required (30 units)**

**Biomedical Engineering, MS**

- Requirements for Admission
- Advancement to Candidacy
- Master's Preparation
- Master's Requirements (30 units)
- Program Learning Outcomes

Students pursuing the MS, Biomedical Engineering degree, offered by the Department of Biomedical Engineering, will have the satisfaction of being actively engaged in a discipline that has human health and welfare as its primary focus. Biomedical Engineering is an inherently interdisciplinary field in which professionals from engineering and the physical sciences play a major role in developing engineered products for deployment in the human body.

**Requirements for Admission**
Applicants must meet all university admissions requirements. Applicants who have a major GPA of 3.0 or higher are not required to take the GRE. All others must take the GRE General Test and obtain a combined score of 315 or higher in the Verbal and Quantitative sections, and 3.5 or higher in the Analytical Writing section.

Students can be admitted to either classified or conditionally classified standing. To be admitted to classified standing, a student must possess a BS degree in biomedical engineering, or its equivalent from an accredited institution with a grade point average of 3.0 or better in the last 60 semester units, have met the GRE requirement if their major GPA is below 3.0, and have completed the Transition Courses, or their equivalents, with grades of B or better.

**Conditionally Classified Admission**

Students can be admitted to conditionally classified standing if they have a BS degree in an engineering discipline, chemistry, physics, or biology from an accredited institution. Students with conditionally classified standing will take a series of Transition Courses, as determined by the Graduate Coordinator. Once the series is completed satisfactorily, with grades of B or better, students can petition for transfer to classified standing. For more information on the transition courses see the section on Transition Courses below, or contact the Biomedical Engineering Department Graduate Coordinator at biomedical-engineering@sjsu.edu.

**Advancement to Candidacy**

Students must meet the university's requirements for candidacy, which include classified standing and the successful completion of a minimum of 9 units of graduate-level classes with grades of B or better. The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy.

**Course Requirements**

To meet the requirements for the MS, Biomedical Engineering degree, a student must complete 30 units of approved courses. Students must achieve a minimum of a "C" in each course, a cumulative GPA of 3.0 or better in all their coursework, AND a GPA of 3.0 or higher for the courses listed in the Candidacy form.

**Transition Courses**

Students may be required to complete some or all of the following transition courses (or equivalent courses) prior to being admitted to Classified Standing in the major.

- BME 65 - Biomedical Applications of Statics 3 unit(s)
- BME 68 - Biomedical Applications of Metals and Ceramics 3 unit(s)
- BME 115 - Foundations of Biomedical Engineering 4 unit(s)
- BME 147 - Quantitative and Statistical Methods for Biomedical Engineers 3 unit(s)
- BME 165 - Applied Engineering Biomechanics 3 unit(s)
- CHEM 1A - General Chemistry 5 unit(s) (B1+B3)
- CHEM 1B - General Chemistry 5 unit(s) (B1+B3)
- EE 98 - Introduction to Circuit Analysis 3 unit(s)
- MATH 33A - Ordinary Differential Equations for SCI & ENGR 3 unit(s)
- MATH 33LA - Differential Equations and Linear Algebra 3 unit(s)
- PHYS 50 - General Physics/Mechanics 4 unit(s) (B1+B3)
- PHYS 51 - General Physics/Electricity and Magnetism 4 unit(s) (B1+B3)
Graduation Writing Assessment Requirement

At SJSU, students must complete the Graduation Writing Assessment Requirement (GWAR). The GWAR is satisfied with the degree core course requirements of BME 207 and BME 274, both of which are core courses.

Culminating Experience

Included in the 30 approved units is the requirement that students must also complete a written thesis or project report and an oral defense of their thesis or project. The candidate may choose either the Plan A (Thesis) or Plan B (Project) option. For either option, the student is required to develop a project proposal in BME 291. This must be approved by the student's project adviser and the reading committee at the culmination of BME 291. Once the proposal is approved, the student is required to:

a. implement the approved research plan using appropriate methods for the investigation,
b. use appropriate statistical techniques for analysis of the data and drawing conclusions,
c. discuss the results in light of findings reported by other investigators,
d. write a professional report of appropriate length, and
e. present it and defend the project to the reading committee.

Plan A (Thesis)

The student who opts to complete a master's thesis is responsible for securing the commitment of a full-time tenured or tenure-track BME faculty member who agrees to serve as the thesis committee chair. The student must also secure the commitments of two additional committee members, one of whom must be a full-time tenured or tenure-track faculty member at SJSU, to serve on the student's thesis committee. The student must write a thesis proposal and have it approved by the thesis committee and pass BME 291 - MS Thesis/Project Preparation Seminar (1 unit) and BME 298 - MS Project (2 units) or BME 291 - MS Thesis/Project Preparation Seminar before enrolling in the 3-unit BME 299 - MS Thesis or BME 299I - Master's Thesis Internship. The thesis must also meet all university requirements as stipulated in this catalog and in the SJSU Master's Thesis and Doctoral Dissertation Guidelines. It will be written under the guidance of the candidate's thesis committee chair with the assistance of the thesis committee.

Plan B (Project)

Students opting to complete a master's project must pass BME 291 - MS Thesis/Project Preparation Seminar (1 unit) before enrolling in the 2-unit BME 298 - MS Project or BME 299I - Master's Thesis Internship (2 units).

The project proposal is prepared in BME 291 and must be approved by the student's reading committee at the culmination of that course.

Master's Requirements (30 units)

Core Courses (16 units)

- BME 207 - Experimental Methods in BME 3 unit(s) (GWAR)
- BME 210 - Mathematical Methods in Biomedical Engineering 3 unit(s)
- BME 272 - Biomedical Device Design and Principles 3 unit(s)
- BME 274 - Regulatory, Clinical and Manufacturing Aspects of Medical Devices 3 unit(s) (GWAR)
- BME 276 - Project Management in Biomedical Technologies 3 unit(s)
- BME 291 - MS Thesis/Project Preparation Seminar 1 unit(s)
Biomedical Engineering Electives (9-12 units)

Complete 9-12 units:

- BME 117 - Biotransport Phenomena 3 unit(s)
- BME 168 - Medical and Biological Polymers 3 unit(s)
- BME 217 - Experimental and Computational Biofluid Mechanics 3 unit(s)
- BME 254 - Microscale Biomedical Systems: Physics and Applications 3 unit(s)
- BME 256 - Biomedical Applications of Nanoplatforms 3 unit(s)
- BME 258 - Medical Imaging for Engineers 3 unit(s)
- BME 280 - Graduate Research Studies 1-3 unit(s)
- BME 288 - Tissue Engineering 3 unit(s)
- EE 127 - Electronics for Biomedical Applications 3 unit(s)
- ME 267 - Engineering Biomechanics 3 unit(s)
- Other approved electives

Culminating Experience (2-5 units)

Plan A (Thesis Option) (5 units)

- BME 298 - MS Project 2 unit(s) or
- BME 298I - Masters Project Internship 1-2 unit(s)
  and
- BME 299 - MS Thesis 3 unit(s) or
- BME 299I - Master's Thesis Internship 1-3 unit(s)

Plan B (Project Option) (2 units)

- BME 298 - MS Project 2 unit(s) or
- BME 298I - Masters Project Internship 1-2 unit(s)

Total Units Required (30 units)

BME 25 - Introduction to Biomedical Engineering Design

2 unit(s)

Introduction to the broader field of biomedical engineering, with emphasis on design of biomedical devices. Development of familiarity with standards and software tools relevant to the biomedical engineering industry, packages for design and analysis, FDA and EU guidelines.

Prerequisite(s): CHEM 1A, ENGR 10, with a grade of "C-" or better.
Corequisite(s): MATH 31 or MATH 31X, and PHYS 50.
Grading: Letter Graded

BME 65 - Biomedical Applications of Statics
Detailed study of bodies in equilibrium as they apply to biomedical systems. Two-dimensional analysis of human joints and load-bearing implants are explored. Topics include free body diagrams, anthropometric measurements, internal forces, loading types, and stress shielding.

2 hours lecture/3 hours lab.

Prerequisite(s): MATH 31 or MATH 31X, and PHYS 50.
Grading: Letter Graded

BME 68 - Biomedical Applications of Metals and Ceramics

Fundamentals of the structure, processing, and properties of metals and ceramics used in medical technology. Emphasis is placed on using metals and ceramics for implantable and non-implantable biomedical devices. Recent trends in biomaterials are explored.

Prerequisite(s): CHEM 1A, MATH 31 or MATH 31X, PHYS 50.
Grading: Letter Graded

BME 115 - Foundations of Biomedical Engineering

Introduction to the fundamental principles of biomedical engineering. Core conservation equations are applied to mass, energy, charge, and momentum transfer in biomedical systems. Additional topics provide a breadth of exposure in cell and molecular biology, diagnostics and analytical techniques, statistical analysis of biomedical data, bioinformatics, bioinstrumentation, FDA regulations, and biomedical ethics.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 30, CHEM 1B, ENGR 10, MATH 32 or MATH 32X, and PHYS 50.
Grading: Letter Graded

BME 116 - Biosensors and Bioinstrumentation

Biomedical applications of biosensors and instrumentation systems. Design and development of new instrumentation. Systems for measuring biological signals, biopotentials, pressure, stress, temperature, and optical properties. Biosensors based on different transducer systems and sensing elements. USFDA regulations and safety considerations.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): PHYS 51, BME 115, BME 177, or instructor consent.
Grading: Letter Graded

BME 117 - Biotransport Phenomena

Applications of fundamentals of thermodynamic and kinetic aspects of energy and mass transport phenomena to biological systems. Development of quantitative description of transport processes beginning from the molecular level.
to entire organ systems.

Prerequisite(s): BME 115, MATH 33A or MATH 33LA, BME 130 all with a grade of C- or better.
Grading: Letter Graded

BME 130 - Numerical Methods in Biomedical Engineering

3 unit(s)
Course applies computational and numerical analysis techniques to myriad Engineering problems. The course focus is on application of numerical analysis to BME topics ranging from image analysis to nonlinear systems. We will employ various computational tools, including MATLAB/Simulink and ImageJ.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): MATH 32 or MATH 32X, BIOL 30, and CHEM 1B all with a grade of C- or better.
Corequisite(s): BME 115, MATH 33A or MATH 33LA.
Grading: Letter Graded

BME 133 - Programming Applications in Biomedical Engineering

1 unit(s)
Introduction to applied programming applications in biomedical engineering. Use of Python, JMP, ImageJ to gather, organize, analyze, and present various data types, especially those pertinent to biomedical engineers working in FDA-regulated environments.

Lab 3 hours.

Prerequisite(s): BME 25.
Grading: Letter Graded

BME 135 - Biomedical Engineering Design Methods

2 unit(s)
Review of FDA-required design methods. Application of engineering drafting and design principles to the development of biomedical devices and manufacturing processes. Use of computer-aided design (CAD) tools to generate 3-D models and 2-D drawings of parts and assemblies. Application tolerances for statistical process control.

Lecture 1 hour/lab 3 hours.

Prerequisite(s): BME 25 and ENGR 10.
Grading: Letter Graded

BME 147 - Quantitative and Statistical Methods for Biomedical Engineers

3 unit(s)
Descriptive statistics; hypothesis testing; linear and nonlinear model regression; statistical approach to medical device verification and validation; statistical sampling plans; analysis of survival data; bioinformatics; quantitative methods for design and testing of biomedical devices; programming for statistical analysis (R, Matlab).

Prerequisite(s): MATH 32 or MATH 32X or MATH 32H, BME 115, and BME 177 all with a grade of "C-" or better.
Grading: Letter Graded
BME 165 - Applied Engineering Biomechanics

3 unit(s)
Exploration of structural biomechanics applied to the human body. Students compare linear and nonlinear elastic, and viscoelastic models for describing the behavior of musculoskeletal tissues and implants. Concepts include bone remodeling, osteoarthritis, implant failure, muscle contraction, and cardiac mechanics.

Prerequisite(s): CE 95, CE 99, BME 65 or equivalent; And MATE 25 or BME 68 or equivalent. Grading: Letter Graded

BME 168 - Medical and Biological Polymers

3 unit(s)
Polymers applications in medical devices and equipment, biological and biodegradable polymers, structure-processing-properties relationships, chemistry, thermal transitions, mechanical, electrical and optical properties, clinical outcomes and complications arising from use of polymers, regulatory framework for polymer use in humans.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BME 68 or MATE 25 with "C-" or better Grading: Letter Graded

BME 174 - Biomedical Regulatory Requirements

3 unit(s)
Study of Food and Drug Administration regulations for design of biomedical engineering products and processes, including design review and documentation processes; Good Laboratory Practices; Good Manufacturing Practices; quality and reliability requirements.

Prerequisite(s): ENGR 100W, BME 115 Corequisite(s): BME 177 Grading: Letter Graded

BME 177 - Physiology for Engineers

3 unit(s)
Structure and function of physiological systems and discussion of topics of particular importance to the design, development, construction and clinical application of biomedical devices. Practical laboratory application of technologies to monitor, repair, replace or augment physiological systems.

Misc/Lab: Lecture 2 hour/Lab 3 hours.

Prerequisite(s): BIOL 30, CHEM 1B, PHYS 50 Grading: Letter Graded

Cross-listed with BIOL 177. Biomedical Engineering is responsible for scheduling.

BME 178 - Biomedical Product Realization

3 unit(s)
Basics of product realization from concept to clinical trials to prepare students for career(s) in multiple bioengineering
sectors. Specific topics include: Product Concept, Research & Development, Design Controls in Application, Design Verification and Design Validation, Process Control in Application, Software Validation, Effective Risk Management, Engineering and Quality Management System Practices.

**Prerequisite(s):** ENGR 100W, BME 147, BME 174 all with a grade of C- or better.

**Grading:** Letter Graded

**BME 180 - Individual Studies**

1-3 unit(s)

Individual work on special topics. Students work with faculty and/or industry mentors on design, research, lab development or other types of projects.

**Prerequisite(s):** Upper division standing

**Grading:** Credit/No Credit

**BME 182 - Orthotics and Prosthetics**

3 unit(s)

Diagrammatic breakdown of prosthetic design covering patient interfaces, socket designs, materials, modular components, prosthetic feet, prosthetic knees, upper extremity designs. Treatment options within current standard of care, device design trends, future device, material, and design needs.

**Prerequisite(s):** CE 95 or CE 99, MATE 25, BME 115, BME 177

**Grading:** Letter Graded

**BME 187 - Medical Device Quality Systems**

3 unit(s)

Introduction to the quality management system (QMS) framework for medical devices, principles of QMS, product and service quality evaluation, and control. Topics include: document control, supplier management, training, audits, reliability assessment, feedback and monitoring, quality tools for investigation, and continuous improvement techniques.

**Prerequisite(s):** BME 174.

**Pre/Corequisite(s):** BME 147 or instructor consent.

**Grading:** Letter Graded

**BME 188 - Biomedical Device Manufacturing**

3 unit(s)

Overview of manufacturing processes for producing biomedical devices, implants, instruments, prosthetics, and capital equipment. Introduction to design processes and tools that facilitate start-up and expansion of manufacturing activities.

**Prerequisite(s):** BME 25, MATE 25, BME 115, BME 177, all with C- or better

**Grading:** Letter Graded

**BME 192 - International Program Studies**
1-12 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

BME 198A - Senior Design Project I

2 unit(s)
Descriptive statistics; hypothesis testing; linear and nonlinear model regression; statistical approach to medical device verification and validation; statistical sampling plans; analysis of survival data; bioinformatics; quantitative methods for design and testing of biomedical devices; programming for statistical analysis (R, Matlab).

Lecture 1 hour/Lab 3 hours.

Satisfies SJSU Studies S: Self, Society & Equality in U.S. when taken with BME Major sequence.

Prerequisite(s): MATH 32 or MATH 32H or MATH 32X, BME 117, and BME 177 all with a "C-" or better. Passage of the Writing Skills Test (WST) or ENGL 100A / LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. Allowed Declared Major: Biomedical Engineering or Graduate Standing.

Corequisite(s): BME 147.

Grading: Letter Graded

Note(s): Meets GE Areas S and V when course is taken in combination with: BME 198B, ENGR 195A and ENGR 195B. All of SJSU Studies courses require completion of the WST and upper division standing.

BME 198B - Senior Design Project II

2 unit(s)
Continuation of BME 198A. Culmination of project requiring formal oral presentation and report consisting of documentation of project methodology and results. when taken with BME major sequence.

Lecture 1 hour/Lab 3 hours.

Satisfies SJSU Studies V: Culture, Civil & Global Understanding.

Prerequisite(s): BME 198A with C or better; BME 147 with C- or better. Passage of the Writing Skills Test (WST) or ENGL 100A / LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. Allowed Declared Major: Biomedical Engineering or Graduate Standing.

Pre/Corequisite(s): ENGR 195B.

Grading: Letter Graded

Note(s): All of SJSU Studies courses require completion of the WST and upper division standing. Meets GE Areas S and V when course is taken in combination with: BME 198A, ENGR 195A and ENGR 195B.

BME 207 - Experimental Methods in BME
3 unit(s)
Introduction to experimental methods and techniques used in Biomedical Engineering. Principles of data representation, analysis, and experimental designs in bioreactors, biomaterials, and medical devices. Topics include error analyses, modeling, normality testing, hypothesis testing. This is a hands-on course, and students will operate equipment in the department's laboratories.

2 hours lecture/3 hours lab.

Satisfies GWAR: Graduation Writing Assessment Requirement

Prerequisite(s): BME 115, graduate standing.
Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

BME 210 - Mathematical Methods in Biomedical Engineering

3 unit(s)
Mathematical and computational methods applied to biomedical engineering. Topics include: i) statistical analysis of biomedical datasets, ii) design of experiments to meet FDA requirements, iii) solution techniques for partial differential equations, and iv) modeling of stochasticity in biological systems including error analysis. Prerequisite(s): CMPE 30, MATH 33LA or MATH 33A. Or Graduate standing or by instructor consent.

Grading: Letter Graded

BME 217 - Experimental and Computational Biofluid Mechanics

3 unit(s)
Introduction to blood rheology, cardiovascular fluid mechanics, blood flow dynamics in blood vessels and in proximity of implanted cardiovascular devices, airflow in the lungs, and other physiological flow phenomena. Healthy and diseased states will be considered. Students will familiarize with both experimental and computational approaches to measure physiological flows.

Prerequisite(s): BME 117 and BME 210 and Graduate standing; or instructor consent.
Grading: Letter Graded

BME 254 - Microscale Biomedical Systems: Physics and Applications

3 unit(s)
Introduction to microscale physics and phenomena used in biomedical systems; analytical techniques and diagnostic applications. Course will discuss: microscale fluid mechanics (Navier-Stokes), electrical phenomena (Maxwell), and particle/molecule/device interactions. Case studies focus on applications of microscale physics to biomedical engineering analyses.

Prerequisite(s): BME 117, MATH 33A or MATH 33LA, and graduate standing; or instructor consent.
Grading: Letter Graded

BME 256 - Biomedical Applications of Nanoplatforms

3 unit(s)
Biomedical applications of nanoplatforms explores the development of three cutting edge sub fields: nanoplatforms in
therapeutics; nanoplatforms in prosthesis and implants; and nanoplatforms in diagnosis and screening. The socioeconomic risks and solutions of nanoplatforms in biomedical applications are also explored.

Prerequisite(s): BME 177, Graduate Standing or instructor consent
Grading: Letter Graded

BME 258 - Medical Imaging for Engineers

3 unit(s)

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): PHYS 51, MATH 33A or MATH 33LA, BME 177, and BME 210. Or Instructor consent.
Grading: Letter Graded

BME 272 - Biomedical Device Design and Principles

3 unit(s)
Principles involved in designing medical devices to function reliably in human body; interaction between synthetic and biological materials; use of design principles during conception and development of medical devices; effect of design on manufacture clinical performance, reliability and quality/regulatory assurance.

Prerequisite(s): BME 115, Graduate standing or instructor consent.
Grading: Letter Graded

BME 274 - Regulatory, Clinical and Manufacturing Aspects of Medical Devices

3 unit(s)
FDA regulations related to medical devices; planning and implementation of clinical trials; sterilization techniques; failure mode analysis; quality control for medical device manufacture; intellectual property; field trips to device manufacturers.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): BME 115, Graduate standing; or instructor consent.
Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

BME 276 - Project Management in Biomedical Technologies

3 unit(s)
Context for the emergence of project management as a credible business discipline increasingly integrated into the functional and decision-making fabric of companies in the biomedical technology sector; exploration of the typical skillset of the modern project management professional and the teams they lead in companies developing medical devices and pharmaceutical therapies; fundamentals of applied traditional project management tools and techniques to medical device, pharmaceutical and combination product research, development and commercial launch; overview
of typical development cycles including regulatory pathways, timeline management and risk mitigation approaches; exposure to contemporary technical project management challenges emerging from value perception, organizational politics, people and power dynamics including the imbalance of technical and commercial conflicts.

**Prerequisite(s):** Graduate standing or instructor consent.

**BME 280 - Graduate Research Studies**

1-3 unit(s)
Supervised individual research or directed studies for graduate students. Students work with faculty mentors on research-oriented projects, including comprehensive critical literature reviews, development of new testing or analysis methodologies, experimental or numerical investigations.

*The course is repeatable for credit up to two times for a maximum of 3 units.*

**Prerequisite(s):** Graduate classified standing or instructor consent.
**Grading:** Mandatory Credit/No Credit/RP

**BME 288 - Tissue Engineering**

3 unit(s)
This course strikes a balance among the diversity of subjects that are related to tissue engineering, including biology, chemistry, material science, and engineering, among others. Emphasis on research areas of clinical value for engineering new organ systems.

**Prerequisite(s):** Graduate Standing or Instructor Consent
**Grading:** Letter Graded

**BME 291 - MS Thesis/Project Preparation Seminar**

1 unit(s)
Development of project or thesis proposal.

**Prerequisite(s):** Good standing (GPA 3.0), classified status in the BME program, candidacy form submitted, satisfactory completion of graduation writing assessment requirement (GWAR).
**Grading:** Credit/No Credit

**BME 298 - MS Project**

2 unit(s)
Masters project work in Biomedical Engineering.

**Prerequisite(s):** Admission to candidacy. BME 291
**Grading:** Mandatory Credit/No Credit/RP

**BME 298I - Masters Project Internship**

1-2 unit(s)
Masters project work in Biomedical Engineering. This section is for students completing their Masters project work at an off-campus location.
Prerequisite(s): Admission to candidacy and BME 291.
Grading: Mandatory Credit/No Credit/RP

BME 299 - MS Thesis

3 unit(s)
Masters thesis work in Biomedical Engineering.

Prerequisite(s): Admission to candidacy, BME 291, BME 298.
Grading: Mandatory Credit/No Credit/RP

BME 299I - Master's Thesis Internship

1-3 unit(s)
Master's thesis work in Biomedical Engineering. This section is for students completing their Master's thesis work at an off-campus location.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): Admission to candidacy; BME 291; BME 298 or BME 299I; or instructor consent.
Grading: Mandatory Credit/No Credit/RP

BME 1290R - Culminating Experience Supervision

1 unit(s)
Continued work on dissertation, thesis, or project or in preparation for comprehensive exams beyond the minimum required units for cases in which final deliverables are still in progress and all other degree requirements except the culminating experience have been fulfilled.

Prerequisite(s): Outstanding RP grade in a previous semester in BME 298 or BME 299
Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Associate Professor
Overview

Researchers, chemical and materials process engineers, pharmaceutical engineers, failure analysis engineers, and polymer engineers are some of the jobs that graduates of the Department of Chemical and Materials Engineering obtain in the Silicon Valley and beyond. Our graduates and alumni work in the traditional industries of petroleum processing and metallurgy, as well as in industrial sectors as diverse as semiconductors and microelectronics, additive manufacturing, nanotechnology and biotechnology, food engineering and cosmetics engineering, alternative energy and environmental remediation. In addition to bachelor’s and master’s degrees in chemical engineering and materials engineering, we offer undergraduate minors in and materials science and engineering. A high percentage of our graduates pursue masters of science and doctorate degrees in graduate schools across the country. The BS Chemical Engineering, and BS Materials Engineering programs are all accredited by the Engineering Accreditation Commission of ABET; www.abet.org.

Undergraduate Major(s)

Chemical Engineering, BS

Chemical Engineers combine science with engineering technology to make an essential contribution to many industries, including biotechnology, semiconductor processing, environmental engineering, manufacturing and industrial chemicals. The Chemical Engineering degree also provides a strong foundation for graduate degrees in a range of disciplines. The Department of Chemical and Materials Engineering has excellent laboratory facilities for courses and student research. The Chemical Engineering Program at SJSU is designed to provide a solid engineering foundation and then allow the student to develop some specialization in an area of interest. The department also offers a combined Chemical Engineering BS + MS program.

Program Roadmaps
The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

**Major-Specific Graduation Requirements**

The following course in Preparation for the Major must be completed with a "C- or Better": ENGL 1B.

The following required courses in the Major Lower Division Core must be satisfied with a "C or better": PHYS 50, MATH 31, and MATH 32 or MATH 32X.

The CHE Sophomore and Junior Core consists of a 2.0 average in (CHE 110A, CHE 110B, CHE 115, CHE 151, CHE 160A, CHE 161L, CHE 162 and CHE 190) and ENGR 100W. Students receiving a grade less than "C-" in any CHE Junior Core course will have to repeat the course(s). The Junior Core must be satisfied in order to enroll in Senior Core course(s).

The CHE Senior Core consists of (CHE 161L, CHE 163L, CHE 165A, CHE 165B, CHE 185, CHE 160B, and CHE 158). Students receiving any grade less than "C-" in a Senior Core course(s) will have to repeat the courses.

Students can repeat any ChE Junior or Senior Core course only once. Failure to pass any ChE Junior or Senior Core course with a grade of "C- or better" after the second attempt will result in disqualification from the ChE major.

**Prerequisite Requirements**

Enrollment in any chemistry course requires that the prerequisite courses be passed with a grade of "C or better" (C- not accepted). Exceptions may be made only with instructor consent or if not explicitly stated in the course description. Refer to the course descriptions for specific information regarding course prerequisites.

**University Requirements**

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Exceptions for University Graduation Requirements apply to this major.

**Core Lower Division General Education (12 units)**

Of the 39 units required by the university, 27 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

**Upper Division General Education (6 units)**

Of the 9 units required by the university, 3 units may be satisfied by coursework outlined below. Consult with major advisor for details.

**American Institutions (6 units)**

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.
The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

**African American Studies (6 units)**

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 unit(s) (D+US123)

**Asian American Studies (6 units)**

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

**Chicana and Chicano Studies (6 units)**

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

**U.S. History and Government (6 units)**

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)

**Physical Education**

The Physical Education Requirement is waived for this major. See the Exceptions for University Graduation Requirements.

**Graduation Writing Assessment Requirement**

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

_A grade of C or better (C- not accepted) is required to meet graduation requirement._

**Major Preparation (31 units)**

- CHEM 1A - General Chemistry 5 unit(s) (B1+B3)
- CHEM 1B - General Chemistry 5 unit(s) (B1+B3)
- ENGL 1B - Argument and Analysis 3 unit(s) (C2) (or equivalent second semester composition course.)
- MATH 30 - Calculus I 3 unit(s) (B4) (or MATH 30X)
- MATH 31 - Calculus II 4 unit(s) (B4) (or MATH 31X)
- MATH 32 - Calculus III 3 unit(s) (B4) (or MATH 32H or MATH 32X)
• PHYS 50 - General Physics/Mechanics 4 unit(s) (B1+B3)
• PHYS 51 - General Physics/Electricity and Magnetism 4 unit(s) (B1+B3)

Major Requirements (65 units)

Core Courses (11 units)

• CE 99 - Introductory Statics 2 unit(s) (CE 95 also accepted.)
• ENGR 10 - Introduction to Engineering 3 unit(s) (E) (CS 46A or equivalent also accepted, but additional GE Area E units will be required)
• ENGR 100W - Engineering Reports 3 unit(s) (Z+R)
• MATE 25 - Introduction to Materials 3 unit(s)

Major Courses (45 units)

• CHE 110A - Mathematical Methods in Chemical Engineering 2 unit(s)
• CHE 110B - Computational Methods in Chemical Engineering 2 unit(s)
• CHE 115 - Industrial Chemical Calculations 3 unit(s)
• CHE 151 - Process Engineering Thermodynamics 4 unit(s)
• CHE 158 - Kinetics and Reactor Design 3 unit(s)
• CHE 160A - Unit Operations I 4 unit(s)
• CHE 160B - Unit Operations II 4 unit(s)
• CHE 161L - Undergraduate Chemical Engineering Laboratory 2 unit(s)
• CHE 162 - Engineering Statistics and Analysis 2 unit(s)
• CHE 163L - Undergraduate Chemical Engineering Laboratory II 2 unit(s)
• CHE 165A - Plant Design I 2 unit(s)
• CHE 165B - Plant Design II 2 unit(s)
• CHE 185 - Chemical Process Dynamics and Control 2 unit(s)
• CHE 190 - Introduction to Transport Phenomena 3 unit(s)
• CHEM 112A - Organic Chemistry 3 unit(s)
• CHEM 112B - Organic Chemistry 3 unit(s)
• CHEM 113A - Organic Chemistry Lab 2 unit(s)

Technical Electives (9 units)

Electives must be selected from the approved departmental elective track list in consultation with the students' advisor.

Total Units Required (120 units)

Materials Engineering, BS

Materials Engineers design, characterize, and manufacture the "stuff" of our everyday world. Semiconductors, metals, polymers, ceramics, and composites are examples of the materials used to make everything around you - from your computer to the chair you are sitting in, from artificial body parts to the skin of the space shuttle. Materials
scientists and engineers work in nanotechnology, biotechnology, aerospace, alternative energy, microelectronics and virtually every industry sector.

Major areas of study are the relationships between materials' structure, properties, processing, and performance. The MatE program, offered by the Department of Chemical and Materials Engineering, stresses the roles of design, development, and process engineering, and also prepares the exceptional student for research and graduate study. The Department has excellent laboratory facilities for courses and student research.

The BS program in Materials Engineering is accredited by the Engineering Accreditation Commission of ABET. The department also offers a combined Materials Engineering BS + MS program.

**Summary of Degree Units**

| University Graduation Requirements | 18 |
| Major Preparation | 34 |
| Major Requirements | 68 |
| **Total** | **120** |

**Program Roadmaps**

The 4-Year Roadmap is available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Degrees (ADT) Pathways are also available online.

**Major-Specific Graduation Requirements**

The following course in Preparation for the Major must be completed with a "C- or Better": ENGL 1B.

The following required in the Major Lower Division Core must be satisfied with a "C- or Better": MATH 30, MATH 31, MATH 32, MATH 33A, PHYS 50, PHYS 51, CHEM 1A, CHEM 1B, EE 98, CE 99 (or CE 95), ME 20, ME 30, and ENGR 10.

The MATE Junior Core consists of a 2.0 average in {MATE 115, MATE 141, MATE 151, MATE 153, MATE 154 and MATE 155} and ENGR 100W. Students receiving a grade less than "C-" in a Junior Core course may have to repeat the course. The Junior Core must be satisfied in order to enroll in Senior Core courses.

The MATE Senior Core consists of {MATE 195, MATE 198A, MATE 198B, MATE 185, and MATE 152}. Students receiving a grade less than "C-" in a senior core course will have to repeat the course before graduation.

**Prerequisite Requirements**

Enrollment in any chemistry course requires that the prerequisite courses be passed with a grade of "C or better" (C- not accepted). Exceptions may be made only with instructor consent or if not explicitly stated in the course description. Refer to the course descriptions for specific information regarding course prerequisites.

**University Requirements**

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions,
Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Exceptions for University Graduation Requirements apply to this major.

**Core Lower Division General Education (12 units)**

Of the 39 units required by the university, 27 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

**Upper Division General Education**

Of the 9 units required by the university, 9 units may be satisfied by coursework outlined below. Consult with major advisor for details.

**American Institutions (6 units)**

Complete one 6 unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies (AMS 1A/AMS 1B; 12 units) and Humanities Honors (HUM 1A/HUM 1B/HUM 2A/HUM 2B; 24 units) sequences satisfy the American Institutions Requirement and additional GE Areas (see the course description for details).

Consult with a major advisor to select the appropriate sequence.

**African American Studies (6 units)**

- AFAM 2A - African Americans and the Development of America's History and Government 3 unit(s) (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 unit(s) (D+US123)

**Asian American Studies (6 units)**

- AAS 33A - Asian Americans in U.S. History I 3 unit(s) (D)
- AAS 33B - Asian Americans in U.S. History II 3 unit(s) (D+US123)

**Chicana and Chicano Studies (6 units)**

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 unit(s) (D+US123)

**U.S. History and Government (6 units)**

- HIST 15 - Essentials of U.S. History 3 unit(s) (D+US1)
- POLS 15 - Essentials of U.S. & California Government 3 unit(s) (D+US23)
Physical Education

The Physical Education Requirement is waived for this major. See the Exceptions for University Graduation Requirements.

Graduation Writing Assessment Requirement

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. Exceptions to the GWAR may be found at Graduation Writing Assessment Requirement (GWAR).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

Major Preparation (34 units)

- CHEM 1A - General Chemistry 5 unit(s) (B1+B3)
- CHEM 1B - General Chemistry 5 unit(s) (B1+B3)
- ENGL 1B - Argument and Analysis 3 unit(s) (C2) (or equivalent second semester composition course.)
- MATH 30 - Calculus I 3 unit(s) (B4) (or MATH 30X)
- MATH 31 - Calculus II 4 unit(s) (B4) (or MATH 31X)
- MATH 32 - Calculus III 3 unit(s) (B4) (or MATH 32H or MATH 32X)
- MATH 33A - Ordinary Differential Equations for SCI & ENGR 3 unit(s)
- PHYS 50 - General Physics/Mechanics 4 unit(s) (B1+B3)
- PHYS 51 - General Physics/Electricity and Magnetism 4 unit(s) (B1+B3)

Major Requirements (68 units)

Core Courses (14 units)

- EE 98 - Introduction to Circuit Analysis 3 unit(s)
- ENGR 10 - Introduction to Engineering 3 unit(s) (E)
- ENGR 100W - Engineering Reports 3 unit(s) (Z+R)
- MATE 25 - Introduction to Materials 3 unit(s)
- CE 99 - Introductory Statics 2 unit(s) (CE 95 also accepted.)

Major Courses (45 units)

- CHE 161 - Process Safety and Engineering Ethics 1 unit(s)
- CHE 162 - Engineering Statistics and Analysis 2 unit(s)
- MATE 115 - Structure/Properties of Solids 3 unit(s)
- MATE 141 - Structure and Analysis of Materials 3 unit(s)
- MATE 143 - Principles of Scanning Electron Microscopy 1 unit(s)
- MATE 144 - X-Ray Diffraction Lab 1 unit(s)
- MATE 151 - Solid State Thermodynamics 3 unit(s)
- MATE 152 - Solid State Kinetics 3 unit(s)
- MATE 153 - Electronic, Optical and Magnetic Properties of Materials 3 unit(s)
- MATE 154 - Metals and Alloys 3 unit(s)
• MATE 155 - Materials Selection and Process Design 3 unit(s)
• MATE 185 - Ceramics 3 unit(s)
• MATE 186 - Polymers 3 unit(s)
• MATE 195 - Mechanical Behavior of Materials 3 unit(s)
• MATE 198A - Senior Design Project 2 unit(s) (S)
• MATE 198B - Senior Design Project 2 unit(s) (V)
• ME 20 - Design and Graphics 2 unit(s)
• ME 30 - Computer Applications 2 unit(s)
• ENGR 195A - Global and Social Issues in Engineering 1 unit(s) (S)
• ENGR 195B - Global and Social Issues in Engineering 1 unit(s) (V)

Technical Electives (9 units)

Electives must be selected from the approved departmental list in consultation with the students' advisor.

Total Units Required (120 units)

Undergraduate Minor(s)

Materials Science and Engineering Minor

Students enrolled in good standing in an engineering or science major may complete a Minor in Materials Science and Engineering, offered by the Department of Chemical and Materials Engineering. To be awarded the Minor, which appears on the official diploma and transcript, the student must complete 12 units, all of which must be outside the required courses in the major. The 12 units cannot be counted on both the Minor Form and the Major Form. Either MATE 25 or MATE 115 (or both) must be included in the Minor. The student, in consultation with a Materials Engineering academic advisor, should select 12 units in either the electronic materials option, the structural materials option, or the general materials option. Prerequisites for each course must be met unless the student receives instructor permission to waive them.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University Policy S16-4). Minor preparation or support courses do not count toward the 12 distinct units. Of the coursework for the minor, at least 6 units must be completed in residence at SJSU. The minimum aggregate GPA for all coursework required for the minor must be at least 2.0.

Minor Requirements (12 units)

Choose an Option

Electronic Materials and Processing (12 units)

Complete 12 units from:

• MATE 25 - Introduction to Materials 3 unit(s)
• MATE 115 - Structure/Properties of Solids 3 unit(s)
• MATE 129 - Introduction to Integrated Circuits Processing and Design 3 unit(s)
• MATE 141 - Structure and Analysis of Materials 3 unit(s)
• MATE 153 - Electronic, Optical and Magnetic Properties of Materials 3 unit(s)

Structural and Mechanical Materials (12 units)

Complete 12 units from:

• MATE 25 - Introduction to Materials 3 unit(s)
• MATE 115 - Structure/Properties of Solids 3 unit(s)
• MATE 135 - Introduction to Composite Materials 3 unit(s)
• MATE 141 - Structure and Analysis of Materials 3 unit(s)
• MATE 175 - Biomaterials 3 unit(s)
• MATE 185 - Ceramics 3 unit(s)
• MATE 186 - Polymers 3 unit(s)
• MATE 195 - Mechanical Behavior of Materials 3 unit(s)

General Materials (12 units)

• MATE 25 - Introduction to Materials 3 unit(s)
• MATE 115 - Structure/Properties of Solids 3 unit(s)
• 9 additional units from either of the options above

Total Units Required (12 units)

Master(s)

Chemical Engineering, MS

• Requirements for Admission
• Requirements for Candidacy
• Master's Requirements (30 units)
• Program Learning Outcomes

The MS Chemical Engineering program, offered by the Department of Chemical and Materials Engineering, provides advanced study of chemical engineering topics with an emphasis on both the fundamental and applied aspects. Elective courses are also available in science, other engineering fields, and business. This broad-based, multidisciplinary educational program has proven to be an important factor for a student's future success including leading Silicon Valley companies and in Ph.D. programs.

Faculty are involved in research areas including biochemical engineering, semiconductor processing, green and alternative energy, microfluidics, polymers and nanocomposites, nanotechnology, and environmental health and safety engineering, remediation, sustainability, and computational methods. Research activity is sponsored by local industries as well as by government funding agencies.

The MS Chemical Engineering program welcomes students with undergraduate BS degrees in closely related science (e.g. biology, chemistry, physics) and engineering disciplines (e.g. biochemical, biomedical, civil, materials, and mechanical).
Class schedules are designed for the convenience of employed engineers who wish to pursue graduate work on a part-time basis as the majority of classes are scheduled during the evening hours.

Department Website: www.sjsu.edu/cme.

Requirements for Admission

University Admission

Candidates must apply through the CSU admissions portal, Cal State Apply, and meet all university admissions requirements. Applicants should note that some department admission requirements are higher than university admissions requirements.

Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage. The program does not currently require the GRE for admission.

Admission to the Program

Candidates must meet all the university admissions requirements. Students can be admitted in either classified or conditionally classified standing. To be admitted to classified standing, a student must possess a U.S. baccalaureate degree with a major in chemical engineering and a grade point average of 3.0 or better in the last 60 units, from an ABET-accredited chemical engineering program.

Students can be admitted with conditionally classified standing if they have a CHE degree from a U.S. accredited university in which they obtained a 2.7-2.99 GPA in the last 60 units; a U.S. equivalent CHE degree from a non-U.S. institution; or a BS degree in chemistry, biology, physics or closely related engineering discipline from an accredited or equivalent institution. Students admitted with conditionally classified standing will take a series of transition courses. The program admissions letter will explain terms and requirements. Once these conditions are completed satisfactorily, students can petition for classified standing. For more information on transition courses, see the department website.

Requirements for Candidacy

Students must meet the university requirements for candidacy which include successful completion of the Graduation Writing Assessment Requirement (GWAR). The University requires that all graduate students complete the GWAR as a condition for advancement to candidacy. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Program Evaluations website at www.sjsu.edu/gape.

Course Requirements

To meet the requirements for the MS - Chemical Engineering degree, a student must complete 30 units of approved courses. Students must achieve a minimum of a "C" in each course and maintain a cumulative GPA of 3.0 or better. In addition to the 30 approved course units, students must complete a written thesis or project report and an oral defense of their thesis or project. Either Plan A (Thesis) or Plan B (Project) may be chosen in consultation with the student's SJSU research advisor.

Graduation Writing Assessment Requirement
At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR).

**Culminating Experience**

Students in the MS, Chemical Engineering program may complete the program 1-unit Culminating Experience CHE 298 / CHE 298I or CHE 299 / CHE 299I through their choice of a graduate project or master's thesis, respectively.

**Plan A (Thesis)**

Students opting to complete a master's thesis will take CHE 281, CHE 280, and CHE 299 for a total of 6 units. An additional 6 units of CHE 280 may be taken for elective credit. The student is responsible for securing the commitment of a full-time tenured or tenure-track faculty member who agrees to serve as the thesis committee chair. The student must also secure the commitments of two additional committee members, one of whom must be a full or part-time SJSU faculty member, to serve as the student's thesis committee. If the student is completing their thesis research off-site, then one person of their thesis committee must be at least a supervisor-level employee from that off-site facility. The student must write a thesis proposal and have it approved by the thesis committee in order to pass CHE 281. CHE 299 is taken in the semester the student expects to complete their final oral and written defense which will serve as their culminating experience. The MS candidate must successfully pass an oral defense and complete an approved thesis report in order to receive credit for CHE 299. Students must be enrolled in courses every semester with the exception of an approved leave of absence for one semester. Students who have finished all their 30 units with the exception of an RP grade in CHE 299 are eligible for enrollment in CHE 1290R for a reduced tuition fee. The thesis must meet university requirements as stipulated in this catalog and in the SJSU Master's Thesis and Doctoral Dissertation Guidelines. It will be written under the guidance of the candidate's thesis committee chair with the assistance of the thesis committee.

**Plan B (Project)**

Students opting to complete a graduate project will take CHE 281, CHE 280, and CHE 299 for a total of 4 units. An additional 2-8 units of CHE 280 may be taken for elective credit. The student is responsible for securing the commitment of a full-time tenured or tenure-track faculty member who agrees to serve as the project committee chair. The student must also secure the commitments of an additional committee member to serve as the student's project committee. If the student is completing their project research off-site, then one person of their project committee must be at least a supervisor-level employee from that off-site facility. The student must write a project proposal and have it approved by the project committee in order to pass CHE 281. CHE 298 is taken in the semester the student expects to complete their final oral defense and written project report, which will serve as their culminating experience. The MS candidate must successfully pass an oral defense and complete an approved written project report in order to receive credit for CHE 298. Students must be enrolled in courses every semester with the exception of an approved leave of absence for one semester. Students who have finished all their 30 units with the exception of an RP grade in CHE 298 are eligible for enrollment in CHE 1290R for a reduced tuition fee.

**Master's Requirements (30 units)**

**Plan A (Thesis)**

**Core Courses (17 units)**

- CHE 200 - Research Methods 3 unit(s) (GWAR)
- CHE 211 - Advanced Chemical Engineering Thermodynamics 3 unit(s)
- CHE 218 - Reaction Kinetics 3 unit(s) (GWAR)
- CHE 219 - Transport Processes 3 unit(s)
- CHE 280 - Graduate Research 1-3 unit(s) (complete 4 units)
- CHE 281 - MS Thesis/Project Preparation Seminar 1 unit(s)

Approved Electives (12 units)

- 12 units electives selected in consultation with graduate advisor
  May include up to six (6) additional units of CHE 280.

Culminating Experience (1 unit)

- CHE 299 - Master's Thesis 1-3 unit(s)

Plan B (Project)

Core Courses (15-17 units)

- CHE 200 - Research Methods 3 unit(s) (GWAR)
- CHE 211 - Advanced Chemical Engineering Thermodynamics 3 unit(s)
- CHE 218 - Reaction Kinetics 3 unit(s) (GWAR)
- CHE 219 - Transport Processes 3 unit(s)
- CHE 280 - Graduate Research 1-3 unit(s) (complete 2-4 units)
- CHE 281 - MS Thesis/Project Preparation Seminar 1 unit(s)

Approved Electives (12-14 units)

- 12-14 units of electives selected in consultation with graduate advisor
  May include up to six (6) additional units of CHE 280.

Culminating Experience (1 unit)

- CHE 298 - MS Research/Project 1-2 unit(s)

Total Units Required (30 units)

A total of 10 units of CHE 280 are allowed as part of the 30 units required for a MS CHE degree.

Materials Engineering, MS

- Requirements for Admission
- Requirements for Candidacy
- Major Requirements
- Master's Requirements (30 units)
- Program Learning Outcomes

The MS Materials Engineering program is offered by the Department of Chemical and Materials Engineering. The program provides advanced study of materials engineering topics with an emphasis on both the fundamental and applied aspects. A multidisciplinary approach to education is evident in the materials engineering program's
specialization areas of semiconductor processing, polymers, ceramics, structural materials, and biomaterials. Elective courses are also available in science, business, and other engineering fields. This broad-based, multi-disciplinary educational program has proven to be an important factor for a student's future success including leading Silicon Valley companies and in Ph.D. programs. Class schedules are designed for the convenience of employed engineers who wish to pursue graduate work on a part-time basis.

Faculty are actively involved in research areas including electronic and magnetic materials, nanomaterials, energy materials, structural materials, computations, polymers, composites, and biomaterials. Research activity is sponsored by local industries as well as by government funding agencies.

The MS Materials Engineering program welcomes students with undergraduate degrees in a variety of other engineering and science disciplines.

**Department Email:** chemical-materials-engineering@sjsu.edu

### Requirements for Admission

Students can be admitted with conditionally classified standing if they have a MATE degree from a US accredited university in which they obtained a 2.7-2.99 GPA in the last 60 units; a MATE degree from a non-US institution; or if they have a BS degree in a related discipline, such as chemical engineering, chemistry, biology, or physics from an accredited institution. Students with conditionally classified standing will take a series of transition courses. Once these are completed satisfactorily, students can petition from classified standing. For more information on the transition courses, contact the graduate coordinator at bme-engineering@sjsu.edu.

### Requirements for Candidacy

Students must meet the university requirements for candidacy which includes successful completion of the Graduation Writing Assessment Requirement (GWAR). The University requires that all graduate students meet the Graduation Writing Assessment Requirement as a condition for advancement to candidacy. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Program Evaluations website at www.sjsu.edu/gape.

### Major Requirements

To meet the requirements for the MS - Materials Engineering degree, a student must complete 30 units of approved courses. Students must achieve a minimum of a "C" in each course and a cumulative GPA of 3.0 or better. Students must complete a written thesis or project report and an oral defense of their thesis or project. Either Plan A (thesis) or Plan B (project) will be chosen in consultation with the student's SJSU research advisor.

### Graduation Writing Assessment Requirement

Students must pass the Graduation Writing Assessment Requirement (GWAR).

### Master's Requirements (30 units)

Choose a Plan:

**Plan A (Thesis) (30 units)**
Core Courses (20 units)

- CHE 200 - Research Methods 3 unit(s) (GWAR)
- MATE 205 - Advanced Mechanical Behavior of Solids 3 unit(s)
- MATE 215 - Solid State Materials Engineering 3 unit(s)
- MATE 241 - Advanced Methods of Materials Characterization 3 unit(s)
- MATE 251 - Advanced Solid State Thermodynamics 3 unit(s)
- MATE 280 - Graduate Research 1-3 unit(s) (4 units required)
- MATE 281 - MS Thesis/Project Preparation Seminar 1 unit(s)

Approved Electives (9 units)

Culminating Experience (1 unit)

Complete one course:

- MATE 298 - MS Research/Project 1-2 unit(s)
- MATE 298I - Master's Project Internship 1-2 unit(s)
- MATE 299 - Master's Thesis 1-3 unit(s)
- MATE 299I - Master's Thesis Internship 1-3 unit(s)

Plan B (Project) (30 units)

Core Courses (18-20 units)

- CHE 200 - Research Methods 3 unit(s) (GWAR)
- MATE 205 - Advanced Mechanical Behavior of Solids 3 unit(s)
- MATE 215 - Solid State Materials Engineering 3 unit(s)
- MATE 241 - Advanced Methods of Materials Characterization 3 unit(s)
- MATE 251 - Advanced Solid State Thermodynamics 3 unit(s)
- MATE 280 - Graduate Research 1-3 unit(s) (2-4 units required)
- MATE 281 - MS Thesis/Project Preparation Seminar 1 unit(s)

Approved Electives (9-11 units)

Culminating Experience (1 unit)

- MATE 298 - MS Research/Project 1-2 unit(s) (1 unit required)

Total Units Required (30 units)

Spartan Accelerated Graduate Education (SAGE) Scholars

Chemical Engineering BS + MS
The Chemical Engineering Spartan Accelerated Graduate Education (SAGE) Scholars Program enables qualified students in the Chemical Engineering, BS program to simultaneously complete the requirements for both the Chemical Engineering, BS and Chemical Engineering, MS degrees. Students will be able to complete BS and MS degrees in Chemical Engineering within 5 years. The Chemical Engineering SAGE Scholars program will allow students to be hired in better positions in leading Silicon Valley companies and to get into Ph.D. programs within 5 years of starting their Chemical Engineering, BS degree.

### Summary of Degree Units

For more information, contact the SAGE Scholars Program Coordinator Liat Rosenfield.

### Admissions Requirements

All SJSU Chemical Engineering, BS undergraduates are eligible to apply for, and be admitted to, the Chemical Engineering SAGE Scholars program if they fulfill the following requirements:

1. Successfully completed a minimum of 75 Chemical Engineering BS applicable units and not more than 120 undergraduate degree applicable units at the time of admission in the program;
2. Completed CHE 110B, CHE 115, CHE 190 and ENGR 100W with grades "B" or better.
3. Minimum 3.0 cumulative GPA at time of admission. GPA is calculated by the last 60 semester (or 90 quarter) units taken or a student's cumulative GPA, whichever is higher.
4. Have completed all lower-division work (including lower-division general education courses and American Institutions courses).

### Academic Standing

Requirements for program continuation and advancement to candidacy in the graduate program, include:

- Meeting every semester with an academic advisor to plan and track coursework and graduate status. Once the BS degree is conferred, students meet every semester with their graduate advisor to plan a formal course of study;
- Maintain GPA of 3.0 or higher with no individual grade below a C. Students not maintaining these standards will be placed on probation initially, followed by disqualification if the grades are not improved within two semesters; and,
- The proposed graduate program must be approved by the graduate coordinator before the student may be considered a candidate for the MS degree.

### Program Requirements (150 units)

**Chemical Engineering, BS (120 units)**
Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Exceptions for University Graduation Requirements apply to this major.

**University Requirements (24 units)**

The Lower and Upper Division General Education requirements may be satisfied by coursework outlined below. To satisfy the Graduation Writing Assessment Requirement (GWAR), students must pass both the SJSU Writing Skills Test (WST) and ENGR 100W with a grade of "C" or better ("C-" not accepted).

- GE Areas A1, A2, C1, two D/American Institutions (US123), F, S, and V 24 unit(s)

**Major Preparation (31 units)**

- CHEM 1A - General Chemistry 5 unit(s) (B1+B3)
- CHEM 1B - General Chemistry 5 unit(s) (B1+B3)
- ENGL 1B - Argument and Analysis 3 unit(s) (C2) (or equivalent second semester composition course.)
- MATH 30 - Calculus I 3 unit(s) (B4) (or MATH 30X)
- MATH 31 - Calculus II 4 unit(s) (B4) (or MATH 31X)
- MATH 32 - Calculus III 3 unit(s) (B4) (or MATH 32H or MATH 32X)
- PHYS 50 - General Physics/Mechanics 4 unit(s) (B1+B3)
- PHYS 51 - General Physics/Electricity and Magnetism 4 unit(s) (B1+B3)

**Major Requirements (65 units)**

**Core Courses (11 units)**

- CE 99 - Introductory Statics 2 unit(s) (CE 95 also accepted.)
- ENGR 10 - Introduction to Engineering 3 unit(s) (E) (CS 46A or equivalent also accepted, but additional GE Area E units will be required)
- ENGR 100W - Engineering Reports 3 unit(s) (Z+R) A grade of C or better (C- not accepted) is required to meet graduation requirement.
- MATE 25 - Introduction to Materials 3 unit(s)

**Major Courses (45 units)**

- CHE 110A - Mathematical Methods in Chemical Engineering 2 unit(s)
- CHE 110B - Computational Methods in Chemical Engineering 2 unit(s)
- CHE 115 - Industrial Chemical Calculations 3 unit(s)
- CHE 151 - Process Engineering Thermodynamics 4 unit(s)
- CHE 158 - Kinetics and Reactor Design 3 unit(s)
- CHE 160A - Unit Operations I 4 unit(s)
- CHE 160B - Unit Operations II 4 unit(s)
- CHE 161L - Undergraduate Chemical Engineering Laboratory 2 unit(s)
- CHE 162 - Engineering Statistics and Analysis 2 unit(s)
• CHE 163L - Undergraduate Chemical Engineering Laboratory II 2 unit(s)
• CHE 165A - Plant Design I 2 unit(s)
• CHE 165B - Plant Design II 2 unit(s)
• CHE 185 - Chemical Process Dynamics and Control 2 unit(s)
• CHE 190 - Introduction to Transport Phenomena 3 unit(s)
• CHEM 112A - Organic Chemistry 3 unit(s)
• CHEM 112B - Organic Chemistry 3 unit(s)
• CHEM 113A - Organic Chemistry Lab 2 unit(s)

Technical Electives (9 units)

Electives must be selected from the approved departmental list in consultation with the students’ advisor.

Chemical Engineering, MS (30 units)

Core Courses (15-17 units)

• CHE 200 - Research Methods 3 unit(s) (GWAR)
• CHE 211 - Advanced Chemical Engineering Thermodynamics 3 unit(s)
• CHE 218 - Reaction Kinetics 3 unit(s) (GWAR)
• CHE 219 - Transport Processes 3 unit(s)
• CHE 280 - Graduate Research 1-3 unit(s) (Plan A: 4 units required; Plan B: 2-4 units required)
• CHE 281 - MS Thesis/Project Preparation Seminar 1 unit(s)

Approved Electives (12-14 units)

• 12-14 units of electives selected in consultation with graduate advisor.

May include up to six (6) additional units of CHE 280 (no more than 10 units are allowed).

Culminating Experience (1 unit)

Students in the MS, Chemical Engineering program may complete the program 1-unit Culminating Experience CHE 298 / CHE 298I or CHE 299 / CHE 299I through their choice of a graduate project or master's thesis, respectively.

• Plan A (Thesis): Students opting to complete a master’s thesis will take CHE 281, CHE 280, and CHE 299 for a total of 6 units. An additional 6 units of CHE 280 may be taken for elective credit. The student is responsible for securing the commitment of a full-time tenured or tenure-track faculty member who agrees to serve as the thesis committee chair. The student must also secure the commitments of two additional committee members, one of whom must be a full or part-time SJSU faculty member, to serve as the student's thesis committee. If the student is completing their thesis research off-site, then one person of their thesis committee must be at least a supervisor-level employee from that off-site facility. The student must write a thesis proposal and have it approved by the thesis committee in order to pass CHE 281. CHE 299 is taken in the semester the student expects to complete their final oral and written defense which will serve as their culminating experience. The MS candidate must successfully pass an oral defense and complete an approved thesis report in order to receive credit for CHE 299. Students must be enrolled in courses every semester with the exception of an approved leave of absence for one semester. Students who have finished all their 30 units with the exception of an RP grade in CHE 299 are eligible for enrollment in CHE 1290R for a reduced tuition fee. The thesis must meet university requirements as stipulated in this catalog and in the SJSU Master's Thesis and Doctoral Dissertation Guidelines. It will be written under the guidance of the
candidate's thesis committee chair with the assistance of the thesis committee.

- **Plan B (Project):** Students opting to complete a graduate project will take CHE 281, CHE 280, and CHE 299 for a total of 4 units. An additional 2-8 units of CHE 280 may be taken for elective credit. The student is responsible for securing the commitment of a full-time tenured or tenure-track faculty member who agrees to serve as the project committee chair. The student must also secure the commitments of an additional committee member to serve as the student's project committee. If the student is completing their thesis project research off-site, then one person of their project committee must be at least a supervisor-level employee from that off-site facility. The student must write a project proposal and have it approved by the project committee in order to pass CHE 281. CHE 298 is taken in the semester the student expects to complete their final oral defense and written project report, which will serve as their culminating experience. The MS candidate must successfully pass an oral and defense and complete an approved written project report in order to receive credit for CHE 298. Students must be enrolled in courses every semester with the exception of an approved leave of absence for one semester. Students who have finished all their 30 units with the exception of an RP grade in CHE 298 are eligible for enrollment in CHE 1290R for a reduced tuition fee.

**Total Units Required (150 units)**

If the CSU approves a policy to allow unit overlap for SAGE Scholars programs, the Chemical Engineering SAGE Scholars program will decrease by 9 units to 141 total units required. Two Chemical Engineering MS electives (6 units) and CHE 180R (3 units) will be waived. Please consult your advisor regarding the status of the policy.

**Materials Engineering BS + MS**

- Admissions Requirements
- Academic Standing
- Program Requirements (150 units)
- Advising Roadmap

The Materials Engineering Spartan Accelerated Graduate Education (SAGE) Scholars Program provides students the opportunity to earn their Materials Engineering, BS and Materials Engineering, MS degrees simultaneously, completing both degrees in five years, rather than the usual six years when completing them individually. The SAGE Scholars Program Coordinator works closely with the students to ensure a seamless transition from undergraduate to graduate status, without students having to file a formal application for admission to the graduate program. Students have the possibility to combine their senior project and MS project/thesis research requirements, enabling them to undertake more in-depth, publishable quality research which in turn better prepares them for PhD programs as well as professional careers. The Materials Engineering SAGE Scholars Program offers students intellectual stimulation and growth and the opportunity to strengthen their research competencies by working closely with their research mentors for a longer period of time.

**Summary of Degree Units**

Materials Engineering, BS  120

Materials Engineering, MS  30

**Total**  150

For more information, contact the **SAGE Scholars Program Coordinator** Dahyun Oh.

**Admissions Requirements**
All SJSU Materials Engineering, BS undergraduates are eligible to apply for, and be admitted to, the Materials Engineering SAGE Scholars program if they fulfill the following requirements:

1. Completed a minimum of 75 units towards the Materials Engineering BS degree;
2. Completed MATE 115, MATE 141, MATE 151, and ENGR 100W with grades B or better;
3. Have a cumulative GPA of 3.0 or better, or GPA of 3.0 or better in the last 60 semester units;
4. Have completed all lower-division work (including lower-division general education courses and American Institutions courses); and,
5. Must not be declared in another major.

**Academic Standing**

Requirements for program continuation and advancement to candidacy in the graduate program, include:

- Meeting every semester with an academic advisor to plan and track coursework and graduate status. Once the BS degree is conferred, students meet every semester with their graduate advisor to plan a formal course of study;
- Maintain GPA of 3.0 or higher with no individual grade below a C. Students not maintaining these standards will be placed on probation initially, followed by disqualification if the grades are not improved within two semesters; and,
- The proposed graduate program must be approved by the graduate coordinator before the student may be considered a candidate for the MS degree.

**Program Requirements (150 units)**

**Materials Engineering, BS (120 units)**

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Abbreviations).

Exceptions for University Graduation Requirements apply to this major.

**University Requirements (18 units)**

- GE Areas A1, A2, C1, two Ds/American Institutions (US123), and F 18 unit(s)

**Major Preparation (34 units)**

- CHEM 1A - General Chemistry 5 unit(s) (B1+B3)
- CHEM 1B - General Chemistry 5 unit(s) (B1+B3)
- ENGL 1B - Argument and Analysis 3 unit(s) (C2) (or equivalent second semester composition course.)
- MATH 30 - Calculus I 3 unit(s) (B4) (or MATH 30X)
- MATH 31 - Calculus II 4 unit(s) (B4) (or MATH 31X)
- MATH 32 - Calculus III 3 unit(s) (B4) (or MATH 32H or MATH 32X)
- MATH 33A - Ordinary Differential Equations for SCI & ENGR 3 unit(s)
- PHYS 50 - General Physics/Mechanics 4 unit(s) (B1+B3)
- PHYS 51 - General Physics/Electricity and Magnetism 4 unit(s) (B1+B3)
Major Requirements (68 units)

Core Courses (14 units)

- EE 98 - Introduction to Circuit Analysis 3 unit(s)
- ENGR 10 - Introduction to Engineering 3 unit(s) (E)
- ENGR 100W - Engineering Reports 3 unit(s) (Z+R)
- MATE 25 - Introduction to Materials 3 unit(s)
- CE 99 - Introductory Statics 2 unit(s) (CE 95 also accepted.)

Major Courses (45 units)

- CHE 161 - Process Safety and Engineering Ethics 1 unit(s)
- CHE 162 - Engineering Statistics and Analysis 2 unit(s)
- MATE 115 - Structure/Properties of Solids 3 unit(s)
- MATE 141 - Structure and Analysis of Materials 3 unit(s)
- MATE 143 - Principles of Scanning Electron Microscopy 1 unit(s)
