General university requirements and procedures for completing the Master of Science degree are described in the Academic Regulations section of this catalog. In addition to these, the following departmental requirements must be fulfilled.

- The student must complete a total of not less than 30 semester units for the industrial/organizational concentration as specified in the degree below.
- Candidates in the MS Industrial/Organizational program must complete a thesis or thesis project as part of their 30 semester unit degree requirement. The nature of the thesis is to be determined in consultation with a committee of three committee members. The thesis ordinarily consists of a quantitative investigation. The thesis will generally constitute the final comprehensive examination.
- The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. Courses that satisfy the GWAR are listed in the course requirements for the program.

Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR).

Master's Requirements (30 units)

Core Courses (15 units)

- PSYC 240 - Research Design and Applied Psychometrics 3 unit(s)
- PSYC 249 - Field Work in Industrial/Organizational Psychology 1-6 unit(s) (3 units required)
- PSYC 270 - Seminar in Industrial and Organizational Psychology 3 unit(s) (GWAR)
- PSYC 271 - Seminar in Personnel Psychology 3 unit(s)
- STAT 235 - Multivariate Analysis 3 unit(s)

Electives (9 units)

9 units of department advisor-approved electives

Culminating Experience (6 units)

Complete one course from:

- PSYC 298 - Special Problems 1-6 unit(s)
- PSYC 299 - Master's Thesis 1-6 unit(s)

Total Units Required (30 units)

Psychology, Research and Experimental Psychology Concentration, MA

- Admission Requirements
- Degree Requirements
- Master's Requirements (30 units)
- Program Learning Outcomes

The Master of Arts Program in Psychology, offered by the Department of Psychology, affords its candidates an opportunity for advanced study of psychological theory and research techniques with the following objectives in mind:

- **To ultimately earn a doctorate in psychology** - the course work and experience obtained in the Psychology Program is designed to enhance students' credentials when applying to highly competitive doctoral programs.
- **To succeed in business, industry or a research setting** - our program's emphasis on the mastery of statistical and methodological procedures, research experience, and critical thinking produces graduates that are well suited for many careers in business, government, and/or an array of research settings.

Admission Requirements

To be eligible for admission into our program, you must:

Meet all of the University's graduate admission requirements:

- Have the equivalent of a U.S. baccalaureate degree
- Have completed a minimum of 30 semester units in undergraduate psychology
- Have a minimum GPA of 3.0 in the last 60 semester units (90 quarter units) of all college and/or university course work

- Have a minimum GPA of 3.0 in all college and/or university psychology courses taken

Degree Requirements

General university requirements and procedures for completing the Master of Arts degree are described in the Academic Regulations section of this catalog. In addition to these, the following departmental requirements must be fulfilled.

General Program Requirements

- The student's combined total of approved undergraduate and graduate work in psychology must be at least 60 semester units, including 30 units for the MA Degree Program.
- The student must complete at least 30 approved graduate units. At least 27 of these 30 units must be psychology or statistics units; of the 27, at least 24 must be 200-level courses, i.e., up to six units may be from 100-level courses with the program coordinator's approval.
- The candidate must complete an acceptable thesis. This thesis will be a quantitative investigation of some degree of originality and of publication caliber.
- Satisfactory performance on a final examination is required. This examination may be written, oral or both, as determined by the student's thesis advisory committee. This is typically satisfied through the oral defense of the student's thesis research.
- The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. Courses that satisfy the GWAR are listed in the course requirements for the program.

Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR).

Thesis Requirement

The thesis serves as the culmination of a student's course work, research experience, and growth as a scholar and scientist. This process is guided closely by a thesis advisor; a tenured or tenure-track faculty member of the Department of Psychology. As the student's ideas develop into a full thesis proposal, a thesis advisory committee is formed to provide further guidance and expertise. Collection of the thesis data begins once the proposal has been approved by the committee and the proper human subjects approval has been obtained. The introduction, analysis, and interpretations of these data will form the core of the student's written master's thesis. These efforts all culminate in an oral presentation and defense before the thesis committee. A detailed statement of thesis policies is available in the Psychology Department Office and on the departmental website.

Master's Requirements (30 units)

Core (12 units)

- PSYC 280 - General Seminar 3 *unit(s)* (GWAR)
- PSYC 220 - Seminar in Experimental Psychology 3 *unit(s)*
- STAT 235 - Multivariate Analysis 3 *unit(s)*
- STAT 245 - Advanced Statistics 3 *unit(s)*

Breadth (12 units)

Complete any four courses from:

- PSYC 200 - Seminar in Personality Theory 3 *unit(s)*
- PSYC 204 - Seminar in Developmental Psychology 3 *unit(s)*
- PSYC 230 - Seminar in Physiological Psychology 3 *unit(s)*
- PSYC 235 - Seminar in Cognitive Psychology 3 *unit(s)*
- PSYC 237 - Psychology of Language 3 *unit(s)*
- PSYC 254 - Social Psychology Seminar 3 *unit(s)*
- PSYC 255 - Seminar in Learning 3 *unit(s)*
- PSYC 256 - Seminar in Perception 3 *unit(s)*

Culminating Experience (6 units)

- PSYC 299 - Master's Thesis 1-6 *unit(s)*
- Elective 3 *unit(s)*

Total Units Required (30 units)

Public Administration, MPA

- Admissions Requirements
- Requirements for Advancement to Graduate Candidacy
- Requirements for Graduation
- Master's Requirements (36 units)
- Program Learning Outcomes

The program leads to the professional degree of Master of Public Administration (MPA). It provides pre-service students with the knowledge and skills necessary for effective administration of local, state, and federal government agencies and of nonprofit organizations. It also offers mid-career administrators and professionals in public service an opportunity to improve their management skills and qualifications. For the convenience of students who are employed full-time, all courses are offered in the evening. Alumni assist with orientation and mentoring activities.

The MPA program, offered by the Department of Urban and Regional Planning, provides each student with a basic understanding of the environment of public policy and the ability to deal with:

- Political and legal institutions and processes
- Economic and social institutions and processes
- Organization and management concepts, and human resource administration
- Concepts and techniques of budgeting and financial administration
- Application of quantitative and qualitative techniques of analysis in policy and program formulation, implementation and evaluation, and decision making and problem-solving

Students also develop the ability to:

- Define and diagnose public problems, engage in supported decision-making, collect relevant data including big data, perform logical analyses, develop alternatives, implement an effective and ethical course of action, and evaluate results.
- Organize and communicate information clearly to a variety of audiences through formats including oral presentations, written memoranda and technical reports, and statistical charts, graphs, and tables.

- Recognize and value diversity and diverse viewpoints within the community, and integrate diverse views and perspectives into community problem solutions.
- Apply information technology to public administration problems, including community service provision and cybersecurity of systems.

For more information on the program please go to the MPA program's website.

Admissions Requirements

The MPA program accepts students in unclassified and classified standing. People in unclassified standing must meet all admissions requirements, but may be lacking one or more of the prerequisites for the program. These prerequisites must be completed before registering for the fifth MPA course. People admitted in classified standing have met all requirements for admission to the program.

Minimum requirements for admission to the Graduate Division are outlined in the catalog.

The MPA does not use the GRE, as it is not a good predictor of performance especially for people who have been in the professional workforce for several years. The MPA program is primarily designed for working professionals, although well-qualified recent graduates may be admitted.

Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage. For the MPA a minimum score of 575 is required.

Preparation

A bachelor's degree or its equivalent, from an accredited college or university is required. No specific undergraduate major is necessary. Preparation must include introductory courses in American government, micro-economics and statistics from an accredited community college or university, and competency in spreadsheet use. These are known as prerequisites, requirements to be met before beginning the MPA program. Deficiencies in preparation must be removed before advancement to candidacy and before completion of four MPA courses. Transcripts for the baccalaureate, including from all colleges where prerequisites were taken, must be sent directly to Graduate Admissions & Program Evaluation (GAPE) upon applying to the program, not to the department. Transcripts for the missing prerequisites submitted after admission must go to the MPA Director directly.

Grade Point Average (GPA) Requirements

Applicants applying directly after graduating from an undergraduate school need an overall grade point average of 3.0 in all courses, or in the last 60 units as an undergraduate, or in the major. Applicants applying three or more years after completing the BA degree need a grade point average of 2.75 overall, or in the last 60 units of undergraduate courses, or in the major. These are minimum qualifications for consideration, and may not result in admission. In addition, applicants should submit evidence of professional development, such as promotions noted on a resume or in letters of recommendation.

Requirements for Advancement to Graduate Candidacy

Students must apply for advancement to candidacy as early as possible, but no later than the last semester of their graduate program. University requirements for advancement to candidacy for the master's degree are outlined in the Graduate Policies and Procedures section of this catalog.

Final date for submission in each semester may be found at the GAPE Deadlines webpage. In addition to meeting the university requirements for advancement to candidacy, applicants must have submitted an approved program for the degree.

Candidacy includes the successful completion of the Graduation Writing Assessment Requirement (GWAR). Within the MPA program, PADM 210 meets the GWAR.

Requirements for Graduation

University Graduation Requirements

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR).

This requirement is satisfied by passing PADM 210.

Culminating Experience

Plan A (with Thesis)

A thesis demonstrating the student's competence in original research and acceptable to the department must be submitted to the department at least eight weeks prior to the date on which the degree is to be awarded. This thesis must conform to the SJSU Master's Thesis and Doctoral Dissertation Guidelines and be approved by the Associate Dean of Graduate Studies.

Plan B (with Project)

In lieu of a thesis, a student may complete an academically rigorous research project by enrolling in PADM 298 - Special Problems. In PADM 298 the student will complete a substantial paper under faculty supervision to complete the project component of Plan B.

Master's Requirements (36 units)

Core Courses (15 units)

The courses form a base of knowledge and skills that prepare students for advanced seminars. Students must complete these courses before taking PADM 298.

Complete fifteen units from:

- PADM 210 - Introduction to Public Administration 3 unit(s) (GWAR)
- PADM 212 - Administrative Research Methods 3 unit(s)
- PADM 213 - Policy Analysis and Evaluation 3 unit(s)
- PADM 214 - Introduction to Public Management 3 unit(s)
- PADM 218 - Public Budgeting 3 unit(s)

Advanced Seminars Electives (9-18 units)

Complete three courses from:

- PADM 202 - Regional Governance 3 *unit(s)*
- PADM 215 - Public Personnel Administration 3 *unit(s)*
- PADM 217 - Organizational Theory 3 *unit(s)*
- PADM 219 - Public Financial Administration 3 *unit(s)*
- PADM 220 - Non-Profit Management 3 *unit(s)*
- PADM 223 - Law and Public Administration 3 *unit(s)*
- PADM 295 - Topics in Public Administration 3 *unit(s)*

Additional Electives (0-9 units)

Depending on thesis or project arrangements, electives may include additional MPA courses

- PADM 281 - Public Administration Internship 3 *unit(s)*
- PADM 284 - Directed Reading 1-3 *unit(s)*
- PADM 297 - Advanced Seminar in Public Management 3 *unit(s)* (or approved 100- or 200-level courses in political science or other departments, up to a maximum of 9 units)

Culminating Experience (3 units)

Complete One Option (Plan A or Plan B):

Plan A (with Thesis) (3 units)

- PADM 299 - Master's Thesis 3 *unit(s)*

Plan B (with Project)

- PADM 298 - Special Problems 3 *unit(s)*

Total Units Required (36 units)

No more than six units of 100-level course work may be applied towards the MPA degree.

No more than six units of transfer credit from other universities may be applied toward the MPA degree.

Students who do not have substantial management work experience related to the curriculum are required to register for PADM 281 and complete an appropriate internship.

Elective courses must be planned in consultation with the Graduate Advisor.

Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU cumulative grade point averages of 3.0 in order to graduate.

Urban Planning, MUP

- Admissions Requirements
- Requirements for Advancement to Candidacy
- Requirements for Graduation
- Master's Requirements (48 units)
- Program Learning Outcomes

The Master in Urban Planning (MUP) program trains skilled professionals who graduate with a strong education in general planning practice and theory as well as specialized training in planning subfields. The program allows students to develop professional skills in an area of specialization such as Affordable Housing and Community Development Finance, Applications of Technology in Planning, Community Design and Development, Environmental Planning, Real Estate Development, or Transportation and Land Use Planning.

Graduates leave the program prepared with practical skills and theoretical knowledge that they can employ in jobs working to improve the quality of life and economic opportunity for all residents of urban regions as well as improving the quality of the natural environment.

A special mission of the program is to provide planning education opportunities for a diverse student population, including working students who prefer to attend the program on a part-time basis.

The MUP is an accredited professional degree program nationally recognized by the Planning Accreditation Board.

Information about the program and important dates can be obtained at the Department of Urban and Regional Planning website.

Admissions Requirements

Candidates must meet all the university admission requirements. To complete your application, you must submit materials through Cal State Apply. Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage.

Materials to be submitted through Cal State Apply:

- Fill out the online application form in Cal State Apply. The Master of Urban Planning (MUP) program at SJSU is listed on the online application form under Urban Planning.
- Domestic Students - Submit one set of official transcripts from all higher educational institutions attended (even those where you did not get a degree) to the Graduate Admissions & Program Evaluation (GAPE) Office. Do not send transcripts to the Department of Urban & Regional Planning.
- International Students - International students are advised to closely follow guidelines for submitting transcripts and any other supporting documents, including demonstrating competence in English, available on the Graduate Program Test Requirement webpage.
- A Statement of Purpose (approximately 1.5 single-spaced typed pages) that indicates how a graduate degree will help you to achieve your career objectives and what motivates you to pursue graduate education in urban planning or geography. This can be the same statement as included in your online application. This statement should indicate which semester you are applying for and your current contact information, including mailing address, phone number, and e-mail address. If you have previously applied to the program and are re-applying, please indicate for which semester you previously applied. A well-written, clearly structured, spell-checked, grammar-checked and carefully proofread Statement of Purpose will make a favorable impression on our Admissions Committee members who read them very carefully. As well, please submit your CV/résumé with your statement.
- Three original signed letters of recommendation from university instructors who taught you or supervisors who managed you in paid or volunteer work. It is highly recommended that at least one letter come from a university instructor. If this is not possible, ask your letter writers to include an evaluation of your writing and analysis skills.

Requirements for Advancement to Candidacy

Students must complete all university requirements for advancement to candidacy for the master's degree as outlined in the Graduate Policies and Procedures in this catalog. Candidacy includes the successful completion of the Graduation Writing Assessment Requirement (GWAR).

Requirements for Graduation

University Graduation Requirements

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR).

Culminating Experience

URBP 298A and URBP 298B are graded on a Credit/No credit (CR/NC) basis. Receiving an NC in URBP 298A or URBP 298B has the following implications:

- An "NC" is the equivalent of failing the class. The "NC" will remain permanently on the student's record, although the student's GPA is not affected by the "NC."
- Students who receive an "NC" in URBP 298A or URBP 298B can enroll again in the class only if there is space available, with the department giving enrollment priority to students who meet the prerequisites and have not previously taken the class.
- Students who receive an "NC" in URBP 298A or URBP 298B will be placed on administrative-academic probation. To return to good standing, a student must re-enroll in the class and receive a grade of "CR."
- Students who receive a second "NC" in URBP 298A or URBP 298B will be disqualified from the MUP program.

Master's Requirements (48 units)

Core Courses (25 units)

- URBP 200 - Seminar on Urban and Regional Planning *4 unit(s) (GWAR)*
- URBP 204 - Quantitative Methods *4 unit(s)*
- URBP 225 - Land Use Planning and Law *4 unit(s)*
- URBP 236 - Urban and Regional Planning Policy Analysis: Tools and Methods *4 unit(s) (GWAR)*
- URBP 241 - Planning Sustainable Cities *2 unit(s)*
- URBP 275G - Geographic Information Systems Overview: Urban Planning Applications *1 unit(s)*
- URBP 295 - Capstone Studio: Community Planning *6 unit(s)*

Electives (17 units)

Seventeen units of coursework chosen from Urban and Regional Planning courses. Students are strongly encouraged to take at least 12 units from within a single MUP specialization. Electives from outside the Urban &

Regional Planning Department (either upper-division undergraduate or graduate courses) may be taken, but must first be approved by the Graduate Advisor.

- URBP 103 - Local Government and Politics 4 *unit(s)*
- URBP 125 - Urban Anthropology 3 *unit(s)*
- URBP 145 - Race, Policy, and Urban Cities 4 *unit(s)*
- URBP 163 - Twentieth Century Urban Design 3 *unit(s)*
- URBP 185 - Environmental Impact Analysis 4 *unit(s)*
- URBP 190 - Advanced Environmental Impact Assessment 4 *unit(s)*
- URBP 205 - Private Development and Urban Planning 3 *unit(s)*
- URBP 206 - Market Analysis, Appraisal, & Finance of Real Estate Development 3 *unit(s)*
- URBP 208 - Urban Real Estate Development Studio 3 *unit(s)*
- URBP 223 - Housing Economics and Policy 4 *unit(s)*
- URBP 226 - Regional Transportation Planning 4 *unit(s)*
- URBP 231 - Urban Design in Planning 4 *unit(s)*
- URBP 232 - Urban Design Studio 4 *unit(s)*
- URBP 233 - Social Issues in Planning 4 *unit(s)*
- URBP 240 - Environmental Planning 4 *unit(s)*
- URBP 248 - Spatial Visualization Tech in Urb Plan 1-4 *unit(s)*
- URBP 250 - Urban Planning Public Finance 4 *unit(s)*
- URBP 255 - Urban and Regional Growth Management 4 *unit(s)*
- URBP 256 - Sustainable Transportation Planning 4 *unit(s)*
- URBP 260 - Environmental Planning Topics 4 *unit(s)*
- URBP 275 - Urban Planning Topics 1-4 *unit(s)*
- URBP 276 - Social Media in Planning 1-4 *unit(s)*
- URBP 278 - Introduction to GIS for Urban Planning 4 *unit(s)*
- URBP 279 - Advanced GIS for Urban Planning 4 *unit(s)*
- URBP 280 - Planning Research Topics 1-4 *unit(s)*

Culminating Experience (6 units)

- URBP 298A - Special Study: Planning Report 3 *unit(s)*
- URBP 298B - Special Study: Planning Report Completion 3 *unit(s)*

Total Units Required (48 units)

All electives must be 100-level or 200-level courses as arranged and approved in conference with the Graduate Advisor advisor. Electives to be taken will depend on the student's background and interests.

Students must earn a "B" or better grade in 100-level classes in order for the department to give credit for those classes towards the MUP degree.

The maximum number of upper-division undergraduate units that can be applied toward the master's degree is 15.

Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU cumulative grade point averages of 3.0 in order to graduate.

Basic Certificate(s)

Global Citizenship Certificate

Global Studies at SJSU is an interdisciplinary program that encourages students to look at the world holistically. The tremendous international migrations of people, movements of goods, technology transfers, and mixing of cultures makes it important to study the world as a human community in ways we haven't considered in the past. The program is designed to train future leaders to grapple with some of the most pressing issues of our time, from a global perspective. The focus of our program on studying global issues from multiple perspectives provides students the intellectual foundation and the analytical and communication skills to prepare for careers in government, education, NGOs, international development agencies, international philanthropic organizations, law, consulting, global health organizations, writing, and graduate study. We are the only Global Studies program in the San Francisco Bay Area and one of the few in the CSU system that offers an interdisciplinary program that includes a suite of core courses in Global Studies. Global Studies is a relatively new field and our program is at the leading edge of shaping this field for the future.

Global Citizenship is an interdisciplinary certificate program, offered by the Department of Environmental Studies, intended to assist students and members of the non-student community in understanding the interconnectedness of peoples, genders, cultures, and societies and celebrating the richness of human diversity in a global context. The program complements SJSU's goals of globalizing the campus and graduating students who are globally responsible citizens. Students will examine questions of meaning and value associated with citizenship in today's increasingly connected world. Students will also develop their own understanding of personal, social, and corporate responsibility to the global community. In a rapidly changing world, it is necessary for college students to acquire the knowledge, skills, values, and attitudes to adapt and thrive in the enlarged and evolving global context.

University Basic Certificate Requirements

Basic certificate programs provide opportunities for students to pursue specialized, often pre-professional, focused educational objectives that may be separate from a degree program. At least 6 units must be completed at SJSU. Students must have a minimum GPA of 2.0 in basic certificate coursework in order to be awarded a certificate. Generally, a maximum of 33% of basic certificate units (e.g., 3 units for a 9-unit certificate) can be completed in non-matriculated status at SJSU with approval from the department or school. In some cases, a basic certificate may be completed entirely through Open University if the student has completed a Bachelor's degree and received approval from the department or school (University Policy S16-17 A). If a student has completed a Bachelor's degree and received approval from the department or school, a basic certificate may be completed entirely through Open University.

The advisor/director of the program is responsible for verifying a student's satisfactory completion of the academic requirements established for the program and for forwarding a copy of the certificate completion form to the Office of the Registrar. The Office of the Registrar records the completion of the program on the student's transcript.

Certificate Requirements (15 units)

Lower Division Electives (6 units)

Complete two courses from:

- ANTH 11 - Cultural Anthropology 3 *unit(s)* (D)
- ARTH 70B - Art History, Renaissance to Modern 3 *unit(s)* (C1)
- ARTH 70C - Arts of Asia 3 *unit(s)* (C1)
- COMM 74 - Fundamentals of Intercultural Communication 3 *unit(s)* (E)
- ENGL 40 - Contemporary World Fiction 3 *unit(s)* (C2)
- GEOG 10 - Cultural Geography 3 *unit(s)* (D)
- GEOG 12 - World Regional Geography 3 *unit(s)* (D)
- GLST 1A - Introduction to Global Studies 3 *unit(s)*
- HIST 1A - World History to 1500 3 *unit(s)*
- HIST 1B - World History from 1500 3 *unit(s)*

- MUSC 19 - Music in World Cultures 3 *unit(s)* (C1)
- POLS 2 - Introduction to Comparative Politics 3 *unit(s)* (D)
- POLS 4 - Introduction to International Relations 3 *unit(s)* (D)
- RELS 70 - Gods, Guns, Gurus, Grails-World Religion 3 *unit(s)* (C2)

Upper Division Electives (6 units)

Note: Students who have not satisfied the prerequisites for SJSU Studies will select the 3 courses that are not SJSU Studies Courses. Alternatively those students may wait to satisfy this requirement until completion of SJSU Studies prerequisites.

Complete two courses from:

- GLST 143 - Gender, Power, Intl Dev 3 *unit(s)* (V)
- GLST 156 - Technology of the Modern World 3 *unit(s)*
- GLST 162 - Contemporary Global Issues 3 *unit(s)*
- GLST 164 - Advanced Seminar in Global Citizenship 3 *unit(s)*
- GLST 167 - Changing Ecologies of Globalization 3 *unit(s)* (R)
- HIST 155 - 20th Century World 3 *unit(s)* (V)

Additional Requirements (3 units)

Note: Students may take GLST 189 either for a volunteer or internship abroad or for working with a local community with approval of the Global Studies advisor. A semester abroad or FLP summer class may also be substituted for this requirement.

Complete one course from:

- GLST 188 - Special Topics in International Experiences 3 *unit(s)* (V)
- GLST 189 - Global Experience 1-3 *unit(s)*

Total Units Required (15 units)

Advanced Certificate(s)

Advanced Certificate in Geographic Information Systems (GIS) Certificate

The Advanced Certificate in Geographic Information Systems (GIS) Certificate is offered by the Department of Urban and Regional Planning.

University Advanced Certificate Requirements

Advanced certificate programs offer post-baccalaureate students coursework leading to a specific, applied, focused goal. In order to be eligible for admission to an advanced certificate, students complete an intake form or apply through CalState Apply and submit an official transcript(s) (noting the completion of a U.S. bachelor's degree from an accredited institution or the equivalent of a U.S. bachelor's degree from an accredited and/or recognized institution from a foreign country). To be admitted, students must have a minimum of 2.5 undergraduate GPA.

Students must maintain a minimum GPA of 3.0 in all advanced certificate coursework, and no course with a grade less than "C" may be counted toward the certificate. A maximum of 4 units of coursework with a grade of "C" can count toward an advanced certificate. A maximum of 4 units of coursework may be repeated. Undergraduate lower division courses are not applicable to advanced certificates.

Generally, a maximum of 33% of advanced certificate units (e.g., 3 units for a 9-unit certificate) can be completed in non-matriculated status at SJSU with approval from the department or school. In some cases, an advanced certificate may be completed entirely in non-matriculated status if the student has received approval from the department or school and the Associate Dean of Graduate Programs in the College of Graduate Studies.

A maximum of 30% of any graduate degree program units (e.g., 9 units for a 30-unit Master's degree) can be completed from another institution and/or units from Open University (including advanced certificate courses) at SJSU with approval from the department or school.

The choice of grading requirements may have implications for transferability to degree programs (University Policy S16-17).

The advisor/director of the program is responsible for verifying a student's satisfactory completion of the academic requirements established for the program and for forwarding a copy of the certificate audit completion form to the Office of Graduate Admissions and Program Evaluations. The Office of the Registrar records the completion of the program on the student's transcript.

Certificate Prerequisite (4 units)

- GEOG 70 - Introduction to Geographic Information Systems 4 *unit(s)*

Certificate Requirements (16 units)

- GEOG 171 - Advanced Geographic Information Systems 4 *unit(s)*
- GEOG 290 - Seminar in Research Design for Geographic Information Science 3 *unit(s)* (GWAR)
- Advisor-approved 100- or 200-level elective 3 *unit(s)*

Complete One Course From:

- GEOG 239 - Geographic Information Technology 3 *unit(s)*
- GEOG 279 - Geographic Information Science Applications 3 *unit(s)*

Complete One Course From:

- GEOG 282 - Advanced Geographic Techniques 3 *unit(s)*
- URBP 279 - Advanced GIS for Urban Planning 4 *unit(s)*

Total Units Required (16 units)

Affordable Housing and Community Development Finance Certificate

In this certificate program, offered by the Department of Urban and Regional Planning, students gain domain-specific knowledge as well as a deep understanding of interrelationships between urban & regional development, housing markets (especially affordable housing market), and financing of public infrastructure and services.

University Advanced Certificate Requirements

Advanced certificate programs offer post-baccalaureate students coursework leading to a specific, applied, focused goal. In order to be eligible for admission to an advanced certificate, students complete an intake form or apply through CalState Apply and submit an official transcript(s) (noting the completion of a U.S. bachelor's degree from an accredited institution or the equivalent of a U.S. bachelor's degree from an accredited and/or recognized institution from a foreign country). To be admitted, students must have a minimum of 2.5 undergraduate GPA.

Students must maintain a minimum GPA of 3.0 in all advanced certificate coursework, and no course with a grade less than "C" may be counted toward the certificate. A maximum of 4 units of coursework with a grade of "C" can count toward an advanced certificate. A maximum of 4 units of coursework may be repeated. Undergraduate lower division courses are not applicable to advanced certificates.

Generally, a maximum of 33% of advanced certificate units (e.g., 3 units for a 9-unit certificate) can be completed in non-matriculated status at SJSU with approval from the department or school. In some cases, an advanced certificate may be completed entirely in non-matriculated status if the student has received approval from the department or school and the Associate Dean of Graduate Programs in the College of Graduate Studies.

A maximum of 30% of any graduate degree program units (e.g., 9 units for a 30-unit Master's degree) can be completed from another institution and/or units from Open University (including advanced certificate courses) at SJSU with approval from the department or school.

The choice of grading requirements may have implications for transferability to degree programs (University Policy S16-17).

The advisor/director of the program is responsible for verifying a student's satisfactory completion of the academic requirements established for the program and for forwarding a copy of the certificate audit completion form to the Office of Graduate Admissions and Program Evaluations. The Office of the Registrar records the completion of the program on the student's transcript.

Certificate Core (12 units)

- URBP 223 - Housing Economics and Policy 4 *unit(s)*
- URBP 225 - Land Use Planning and Law 4 *unit(s)*
- URBP 250 - Urban Planning Public Finance 4 *unit(s)*

Electives (3-4 units)

Complete one course from:

- URBP 205 - Private Development and Urban Planning 3 *unit(s)*
- URBP 255 - Urban and Regional Growth Management 4 *unit(s)*
- PADM 220 - Non-Profit Management 3 *unit(s)*

Total Units Required (15-16 units)

Applications of Technology in Planning Certificate

In this certificate program, offered by the Department of Urban and Regional Planning, students develop their knowledge and skills at using information technologies in the planning process. Classes and studies draw on the rich agglomeration of technical applications and skills available in the Silicon Valley region.

University Advanced Certificate Requirements

Advanced certificate programs offer post-baccalaureate students coursework leading to a specific, applied, focused goal. In order to be eligible for admission to an advanced certificate, students complete an intake form or apply through CalState Apply and submit an official transcript(s) (noting the completion of a U.S. bachelor's degree from an accredited institution or the equivalent of a U.S. bachelor's degree from an accredited and/or recognized institution from a foreign country). To be admitted, students must have a minimum of 2.5 undergraduate GPA.

Students must maintain a minimum GPA of 3.0 in all advanced certificate coursework, and no course with a grade less than "C" may be counted toward the certificate. A maximum of 4 units of coursework with a grade of "C" can count toward an advanced certificate. A maximum of 4 units of coursework may be repeated. Undergraduate lower division courses are not applicable to advanced certificates.

Generally, a maximum of 33% of advanced certificate units (e.g., 3 units for a 9-unit certificate) can be completed in non-matriculated status at SJSU with approval from the department or school. In some cases, an advanced certificate may be completed entirely in non-matriculated status if the student has received approval from the department or school and the Associate Dean of Graduate Programs in the College of Graduate Studies.

A maximum of 30% of any graduate degree program units (e.g., 9 units for a 30-unit Master's degree) can be completed from another institution and/or units from Open University (including advanced certificate courses) at SJSU with approval from the department or school.

The choice of grading requirements may have implications for transferability to degree programs (University Policy S16-17).

The advisor/director of the program is responsible for verifying a student's satisfactory completion of the academic requirements established for the program and for forwarding a copy of the certificate audit completion form to the Office of Graduate Admissions and Program Evaluations. The Office of the Registrar records the completion of the program on the student's transcript.

Core Courses (8 units)

- URBP 225 - Land Use Planning and Law 4 *unit(s)*
- URBP 278 - Introduction to GIS for Urban Planning 4 *unit(s)*

Electives (1-4 units)

Complete one course from:

- URBP 232 - Urban Design Studio 4 *unit(s)*
- URBP 248 - Spatial Visualization Tech in Urb Plan 1-4 *unit(s)*
- URBP 276 - Social Media in Planning 1-4 *unit(s)*
- URBP 279 - Advanced GIS for Urban Planning 4 *unit(s)*

Total Units Required (9-12 units)

Community Design and Development Certificate

In this certificate program, offered by the Department of Urban and Regional Planning, students gain the knowledge and skills required to address a community's needs through the design of the physical environment. Courses examine the interactions among social, economic, political, and cultural factors, and the built environment.

University Advanced Certificate Requirements

Advanced certificate programs offer post-baccalaureate students coursework leading to a specific, applied, focused goal. In order to be eligible for admission to an advanced certificate, students complete an intake form or apply through CalState Apply and submit an official transcript(s) (noting the completion of a U.S. bachelor's degree from an accredited institution or the equivalent of a U.S. bachelor's degree from an accredited and/or recognized institution from a foreign country). To be admitted, students must have a minimum of 2.5 undergraduate GPA.

Students must maintain a minimum GPA of 3.0 in all advanced certificate coursework, and no course with a grade less than "C" may be counted toward the certificate. A maximum of 4 units of coursework with a grade of "C" can count toward an advanced certificate. A maximum of 4 units of coursework may be repeated. Undergraduate lower division courses are not applicable to advanced certificates.

Generally, a maximum of 33% of advanced certificate units (e.g., 3 units for a 9-unit certificate) can be completed in non-matriculated status at SJSU with approval from the department or school. In some cases, an advanced certificate may be completed entirely in non-matriculated status if the student has received approval from the department or school and the Associate Dean of Graduate Programs in the College of Graduate Studies.

A maximum of 30% of any graduate degree program units (e.g., 9 units for a 30-unit Master's degree) can be completed from another institution and/or units from Open University (including advanced certificate courses) at SJSU with approval from the department or school.

The choice of grading requirements may have implications for transferability to degree programs (University Policy S16-17).

The advisor/director of the program is responsible for verifying a student's satisfactory completion of the academic requirements established for the program and for forwarding a copy of the certificate audit completion form to the Office of Graduate Admissions and Program Evaluations. The Office of the Registrar records the completion of the program on the student's transcript.

- URBP 206 - Market Analysis, Appraisal, & Finance of Real Estate Development *3 unit(s)*
- URBP 208 - Urban Real Estate Development Studio *3 unit(s)*
- URBP 225 - Land Use Planning and Law *4 unit(s)*

Total Units Required (13 units)

Transportation and Land Use Planning Certificate

In this certificate program that is offered by the Department of Urban and Regional Planning, students learn the principles of transportation and land-use planning at the location and regional levels. In today's rapidly growing regions, planners recognize that transportation and land use planning are intricately connected. They must be planned together to allow residents and freight carriers to access destinations quickly and efficiently, improve accessibility options for residents who cannot or choose not to drive, and build economically and environmentally sustainable communities.

University Advanced Certificate Requirements

Advanced certificate programs offer post-baccalaureate students coursework leading to a specific, applied, focused goal. In order to be eligible for admission to an advanced certificate, students complete an intake form or apply through CalState Apply and submit an official transcript(s) (noting the completion of a U.S. bachelor's degree from an

accredited institution or the equivalent of a U.S. bachelor's degree from an accredited and/or recognized institution from a foreign country). To be admitted, students must have a minimum of 2.5 undergraduate GPA.

Students must maintain a minimum GPA of 3.0 in all advanced certificate coursework, and no course with a grade less than "C" may be counted toward the certificate. A maximum of 4 units of coursework with a grade of "C" can count toward an advanced certificate. A maximum of 4 units of coursework may be repeated. Undergraduate lower division courses are not applicable to advanced certificates.

Generally, a maximum of 33% of advanced certificate units (e.g., 3 units for a 9-unit certificate) can be completed in non-matriculated status at SJSU with approval from the department or school. In some cases, an advanced certificate may be completed entirely in non-matriculated status if the student has received approval from the department or school and the Associate Dean of Graduate Programs in the College of Graduate Studies.

A maximum of 30% of any graduate degree program units (e.g., 9 units for a 30-unit Master's degree) can be completed from another institution and/or units from Open University (including advanced certificate courses) at SJSU with approval from the department or school.

The choice of grading requirements may have implications for transferability to degree programs (University Policy S16-17).

The advisor/director of the program is responsible for verifying a student's satisfactory completion of the academic requirements established for the program and for forwarding a copy of the certificate audit completion form to the Office of Graduate Admissions and Program Evaluations. The Office of the Registrar records the completion of the program on the student's transcript.

Certificate Core (8 units)

- URBP 225 - Land Use Planning and Law 4 *unit(s)*
- URBP 226 - Regional Transportation Planning 4 *unit(s)*

Electives (4 units)

Complete one course from:

- URBP 250 - Urban Planning Public Finance 4 *unit(s)*
- URBP 255 - Urban and Regional Growth Management 4 *unit(s)*
- URBP 256 - Sustainable Transportation Planning 4 *unit(s)*

Total Units Required (12 units)

Spartan Accelerated Graduate Education (SAGE) Scholars

Spartan Accelerated Graduate Education (SAGE) Programs programs are combined bachelor's and master's programs at SJSU (per University Policy F19-1). Sometimes they may also satisfy the requirements for a credential. Students in these programs pursue a bachelor's and master's degree simultaneously. These program allow students to earn graduate credit while in their junior and/or senior year, reducing the number of semesters required for completion of a master's degree.

African American Studies, BA + Single Subject Credential in Social Science + Teaching, MAT

- Admissions Requirements
- Graduate Standing Requirements
- Program Requirements (149 units)
- Advising Roadmap

This Spartan Accelerated Graduate Education (SAGE) Scholars Program prepares students to teach History, Social Science, and Ethnic Studies in California public high schools. The Department of African American Studies provides an interdisciplinary curriculum and comprehensive liberal arts education by training students to appreciate diversity and multicultural American society. As juniors, African American Studies, BA majors are eligible to apply for a SAGE Scholars program that allows them to be concurrently enrolled in the Single Subject Credential - Social Science and Teaching, MAT programs (with an optional Spanish bilingual authorization) as an undergraduate. This combined degree pathway can be completed in five years.

To add a Spanish Bilingual Authorization to this pathway, students simultaneously apply to the Critical Bilingual Authorization program (CBAP). This requires an additional personal essay in their SAGE Scholars application and an interview in Spanish. CBAP students take one credential course in Spanish (EDTE 208B instead of EDTE 208) and take specified sections of several other credential courses. They do their student teaching in bilingual classrooms and are required to register for 2 seminars of EDTE 297B - Advanced Issues in Bilingual Education (2 units) during their student teaching semesters, for an additional 4 units.

Total SAGE Program Units (BA + Credential + MAT) 149

For more information, contact the **Program Coordinator** Travis Boyce.

Admissions Requirements

Most native and transfer students will become eligible to apply for the SAGE Scholars program in the Fall semester of Year 3 and enter the pathway during the Spring semester of Year 3. Applications will be processed by the Department of Teacher Education and without an application fee. Students will not need to apply formally for graduate admission if accepted into this program.

- Students must have successfully completed a minimum of 60 undergraduate degree applicable units and not more than 120 undergraduate degree applicable units at the time of program.
- Students must be enrolled in or have completed the undergraduate Graduation Writing Assessment Requirement (GWAR) prior to admission into the program.
- Students must have a minimum 2.75 cumulative GPA at the time of admission. GPA is calculated by the last 60 semester (or 90 quarter) units taken or a student's cumulative GPA, whichever is higher. Note that this is a higher GPA standard than other SAGE Scholars programs.
- Students must meet the Teaching, MAT and Single Subject Credential admissions requirements.

Students who have reached up to their first semester as classified seniors will remain eligible for entry into the SAGE program. Second semester, senior-level students enrolled in the term they expect to graduate from their baccalaureate degree are not eligible to enter into the SAGE program as these students will not gain the accelerated graduate-level benefit offered through the SAGE blended program option.

Graduate Standing Requirements

Continuation requirements: SAGE Scholars must meet the same requirements to remain in the undergraduate and graduate programs as students in traditional pathways. Requirements for program continuation and advancement to candidacy in the graduate program, include:

- Successfully complete 9 units of graduate coursework in the Secondary Education program;
- Maintain GPA of 3.0 or higher;

- Demonstrate aptitude for advanced work in professional education as measured by instructor appraisals, evaluation of previous academic work, recommendation by qualified professionals, or other assessments;
 - Meet with a graduate advisor to plan a formal course of study. The MAT degree approved programs are individually designed to meet specific student objectives;
 - To enter student teaching, students must have completed the Subject Matter Competency requirements (CSETs or Subject Matter Competency waiver, if applicable);
 - To convert to graduate status, students must have completed their 45 hours of pre-professional service in a public school setting: 25(+) in the secondary subject area and up to 20 hours any work with youth;
 - To convert to graduate status, students must have completed all *lower-division* work (including lower and upper-division general education courses and American Institutions courses); and,
 - The proposed graduate program must be approved by the graduate coordinator before the student may be considered a candidate for the MA degree.
 - Students are converted to graduate status when they have completed 120 SAGE program-applicable units. The following University Requirements are satisfied with required courses in the major: American Institutions and GE Areas D and F. Alternate courses that may satisfy these requirements are not counted in the calculation of the 120 SAGE program-applicable units unless they are listed in the University Electives section of the major.
- Graduation requirements: SAGE Scholars must meet the same undergraduate graduation requirements as African American Studies majors, including University and GE requirements, to be conferred the BA. As graduate students, SAGE Scholars must meet all current graduate program requirements. Upon completion of the credential requirements, students must have achieved a SJSU cumulative grade point average of 3.0 in their graduate work order to be recommended for a credential.

Program Requirements (149 units)

African American Studies, BA (103 units)

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment, and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Note Abbreviations).

University Requirements (35 units)

The Lower and Upper Division General Education requirements may be satisfied by coursework outlined below. To satisfy the Graduation Writing Assessment Requirement (GWAR), students must pass the 100W course with a grade of "C" or better ("C-" not accepted).

- GE Areas A, B, C, E 30 *unit(s)*
- Any Social Sciences 100W (recommend AFAM 100W) 3 *unit(s)*
- Physical Education 2 *unit(s)*

Major Requirements (51 units)

Lower Division Requirements (15 units)

- AFAM 2A - African Americans and the Development of America's History and Government 3 *unit(s)* (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 *unit(s)* (D+US123)
- AFAM 22 - The Humanities in African American Culture 3 *unit(s)* (F)
- AFAM 40 - African Origins **OR** AFAM 111 - African Nations: History, Politics, and Culture 3 *unit(s)*
- HIST 99 - History Fundamentals 3 *unit(s)* (*Teacher Preparation*)

Upper Division Requirements (18 units)

- CCS 185 - Teaching in a Diverse Society 3 unit(s) (Teacher Preparation)
- AFAM 134 - The Black Civil Rights Movements 3 unit(s) (F)
- AFAM 151 - Race, Class and the Environment 3 unit(s) (R eff Spring 2025)
- AFAM 152 - Black Feminisms 3 unit(s) (S)
- SOCS 138 - US History for Teachers 3 unit(s) (S) (Teacher Preparation)
- SOCS 139 - World History for Teachers 3 unit(s) (V) (Teacher Preparation)

Major Electives (18 units)

Complete six courses from:

- AFAM 102 - Black Music 3 unit(s)
- AFAM 105 - Race and Health Inequities in the US 3 unit(s)
- AFAM 106 - Black Diasporas 3 unit(s)
- AFAM 110 - Race and Education in the US 3 unit(s)
- AFAM 112 - Black Immigrant Communities 3 unit(s)
- AFAM 115 - The Great Migration and Black Communities 3 unit(s)
- AFAM 120 - Sociology of Black Communities 3 unit(s)
- AFAM 125 - Black Kinship in the US - Black Families Past and Present 3 unit(s)
- AFAM 130 - Black Perspectives in Psychology - Black Psychology 3 unit(s)
- AFAM 137 - Introduction to Black Religion 3 unit(s)
- AFAM 142 - Race, Justice, and the Legal System 3 unit(s)
- AFAM 145 - Race, Policy, and Urban Cities 4 unit(s)
- AFAM 156 - Black Women's Writing 3 unit(s)
- AFAM 157 - Race, Tech, and Global Futures 3 unit(s)
- AFAM 158 - Race, Sport, Activism & Social Movements 3 unit(s) (F)
- AFAM 159 - The Racial Wealth Gap in America 3 unit(s) (S)
- AFAM 160 - Black Political Power in the US 3 unit(s)
- AFAM 161 - Black Representations in Media and New Technology 3 unit(s)
- AFAM 162 - The Aesthetics of Hip-Hop 3 unit(s) (F)
- AFAM 165 - Topics in Ethnic American Literature 4 unit(s)
- AFAM 166 - Black Women's Histories 3 unit(s)
- AFAM 170 - Interracial Intimacies and Mixed Race Identity in the U.S. 3 unit(s) (S)
- AFAM 180 - Individual Studies 1-4 unit(s)
- AFAM 184 - Directed Reading 1-4 unit(s)
- AFAM 185 - Special Topics in African American Studies 3 unit(s)
- AFAM 190 - Internship in Community Development 1-4 unit(s)
- AFAM 198 - Senior Seminar in African American Studies 3 unit(s)
- AFAM 298 - Special Studies 1-6 unit(s)

Subject Matter Competency Coursework or CSET + University Electives (17 units)

There is currently no CSET waiver program for the African American Studies BA. SAGE. Students must fulfill Social Science subject matter competency (SMC):

- Path Option 1: Students can take the following courses (17 units)
- SOCS 137 - California History for Teachers 3 units OR HIST 189A - California History to 1900 4 units (US3)
- POLS 101 - American Government for Teachers 3 units OR POLS 15 - Essentials of U.S. & California Government 3 units (D+US23)
- ECON 109 - Analysis of Economic Issues for Teachers 3 units OR ECON 1A - Principles of Economics: Macroeconomics 3 units

- Upper Division course in US History* 3 units
- Upper Division course in World History** 3 units
- University Electives 2 units
- Path Option 2: Students can take all three Social Science CSETs (California Subject Examinations for Teachers)*** and 17 units of University Electives.

Teaching, MAT + Single Subject Credential in Social Science (46 units)

Upon completion of the MAT and credential requirements, students must have achieved a SJSU cumulative grade point average of 3.0 in order to be recommended for a credential. Completion of the MAT also requires a minimum grade of "C" in all courses taken and a minimum overall GPA of 3.0.

- EDTE 208 - Educational Sociology 3 unit(s)
- EDTE 224 - Seminar in Educational Psychology 3 unit(s) (*Multicultural Foundations*)
- EDTE 250 - Qualitative Research in Education 3 unit(s) (*Research Core*) (GWAR)
- EDTE 260 - Critical Perspectives on Schooling for a Pluralist Democracy 3 unit(s)
- EDTE 262 - Classroom Issues in the Language/Literacy Development of L2 Learners 3 unit(s)
- EDTE 282 - Assessment and Evaluation 3 unit(s)
- EDTE 294 - Research/Practices in Health and Special Education 3 unit(s)
- EDTE 297C - CalTPA Support 1 unit(s)
- EDSC 184P - Introduction to Student Teaching 1 unit(s)
- EDSC 184X - Student Teaching I 6 unit(s) (6 units required)
- SSED 184Y - Student Teaching II - Classroom Teaching 4 unit(s) (4 units required)
- SSED 184Z - Student Teaching III - Classroom Teaching 4 unit(s) (4 units required)
- SSED 378 - Social Science Methods 3 unit(s)

Culminating Experience (6 units)

Students must satisfy the culminating experience requirement by completing Plan B (Project), and a **presentation on the same at the department's colloquium**, which is held near the end of each fall and spring semester.

Plan A (Thesis): Write a master's thesis. The thesis will include original research on a topic approved by the thesis committee, and must meet university requirements as stipulated in this catalog and in the SJSU Master's Thesis and Doctoral Dissertation Guidelines. The thesis identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation. Thesis proposals must be approved by the graduate committee, which is made up of two department faculty and a third faculty member from outside the department. Students enroll in:

- EDTE 299 - Master's Thesis

Plan B (Project): Complete a master's project report. A project is a significant undertaking that evidences originality and independent thinking, appropriate form and organization, and a rationale. It is described and summarized in a report that includes the project's significance, objectives, methodology and a conclusion or recommendation. Students enroll in:

- EDTE 298 - Special Studies in Education

Spanish Bilingual Authorization: Complete student teaching (EDSC 184X/SCED 184Y/SCED 184Z) in Spanish bilingual classrooms and attend an extra seminar session in these student teaching classes; and take the following courses in Spanish: EDTE 208, and EDTE 262.

Total Units Required (149 units)

Students must complete a minimum of 120 units to satisfy the bachelor's degree and a minimum of 30 units to satisfy the master's degree. In order to satisfy these requirements, 17 units of the credential count towards the bachelor's degree and 20 units of the credential count towards the master's degree.

*Courses that fulfill the requirement for Upper Division US History

- HIST 171 - U.S. Constitutional & Legal History
- HIST 173 - New World Encounters, 1400-1750
- HIST 174 - Colonial & Revolutionary America
- HIST 175 - Inventing America, 1800-1860
- HIST 176 - The Civil War and Reconstruction
- HIST 177 - Industrial America, 1877-1920
- HIST 178 - Crash, Depression and War, 1920-1950
- HIST 179 - Cold War America, 1950-Present
- HIST 181 - Advanced Topics in American History
- HIST 185 - LGBTQ+ History in the United States
- HIST 188 - History of Women in the United States

**Courses that fulfill the requirement for Upper Division World History

- HIST 104 - Advanced Topics in Ancient History
- HIST 109A - History of China
- HIST 109B - History of China
- HIST 110A - History of Japan
- HIST 110B - History of Japan
- HIST 112 - Ancient West to 500 BCE
- HIST 114 - The Ancient West, 500 BCE-400 CE
- HIST 121A - Medieval Worlds, 400-1000
- HIST 121B - Medieval Worlds, 1000-1500
- HIST 124 - Early Modern Europe
- HIST 126 - Advanced Topics in Medieval History
- HIST 132 - Advanced Topics in World History
- HIST 143 - Europe, 1750-1900
- HIST 144 - Europe, 1900-1945
- HIST 145 - Europe and the World Since 1945
- HIST 146 - Advanced Topics in European History
- HIST 155 - 20th Century World
- HIST 162 - Colonial Latin America
- HIST 163 - Modern Latin America, 1800-Present
- HIST 167 - Advanced Topics in Latin American History
- HIST 173 - New World Encounters, 1400-1750

***Social Science CSETs

- CSET I - World History
- CSET II - United States History
- CSET III - Principles of American Democracy; Principles of Economics; California History

Chicana and Chicano Studies, BA + Single Subject Credential in Social Science + Teaching, MAT

This Spartan Accelerated Graduate Education (SAGE) Program prepares students to teach History, Social Science, and Ethnic Studies in California public high schools. The Department of Chicana and Chicano Studies provides

an interdisciplinary curriculum that trains undergraduate students in Social Science-based methodologies and critical pedagogies of the Humanities and Arts to foster comprehensive knowledge of the diversity and multiculturalism intrinsic to American society. As juniors, Chicana and Chicano Studies, BA majors are eligible to apply for a SAGE Scholars program, which allows them to be concurrently enrolled in the Single Subject Credential - Social Science and Teaching, MAT programs (with an optional Spanish bilingual authorization. This combined degree pathway can be completed in five years.

To add a Spanish Bilingual Authorization to this pathway, students simultaneously apply to the Critical Bilingual Authorization program (CBAP). This requires an additional personal essay in their SAGE Scholars application and an interview in Spanish. CBAP students take one credential course in Spanish (EDTE 208B instead of EDTE 208) and take specified sections of several other credential courses. They also complete their student teaching in bilingual classrooms and are required to register for 2 seminars of EDTE 297B - Advanced Issues in Bilingual Education (2 units) during their student teaching semesters, for an additional 4 units.

Total SAGE Program Units (BA + Credential + MAT) 149

For more information, contact the CCS Department's undergraduate advisor:: Marina Corrales.

Admissions Requirements

Most students who started their undergraduate education at SJSU, as well as transfer students, become eligible to apply for the SAGE program in the Spring semester of Year 3 and enter the pathway during their Fall semester of Year 4. Applications will be processed by the Department of Chicana and Chicano Studies and without an application fee. Students will not need to apply formally for graduate admission if accepted into this program.

- Students must have successfully completed a minimum of 60 undergraduate degree applicable units and not more than 120 undergraduate degree applicable units at the time of program;
- Students must be enrolled in or have completed the undergraduate Graduation Writing Assessment Requirement (GWAR) prior to admission into the program;
- Students must have a minimum 2.75 cumulative GPA at the time of admission. GPA is calculated by the last 60 semester (or 90 quarter) units taken or a student's cumulative GPA, whichever is higher Note that this is a higher GPA standard than other SAGE Scholars programs;
- Students must meet the Teaching, MAT and Single Subject Credential admissions requirements.

Graduate Standing Requirements

Continuation requirements: SAGE Scholars must meet the same requirements to remain in the undergraduate and graduate programs as students in traditional pathways. Requirements for program continuation and advancement to candidacy in the graduate program, include:

- Successfully complete 9 units of graduate coursework in the Secondary Education program;
- Maintain GPA of 3.0 or higher;
- Demonstrate aptitude for advanced work in professional education as measured by instructor appraisals, evaluation of previous academic work, recommendation by qualified professionals, or other assessments;
- Meet with a graduate advisor to plan a formal course of study. The MAT degree approved programs are individually designed to meet specific student objectives;
- To enter student teaching, students must have completed the Subject Matter Competency requirements (CSETs or Subject Matter Competency waiver, if applicable);

- To convert to graduate status, students must have completed their 45 hours of pre-professional service in a public school setting: 25(+) in the secondary subject area and up to 20 hours any work with youth;
- To convert to graduate status, students must have completed all lower-division work (including lower and upper-division general education courses and American Institutions courses); and,
- The proposed graduate program must be approved by the graduate coordinator before the student may be considered a candidate for the MA degree.
- Students are converted to graduate status when they have completed 120 SAGE program-applicable units. The following University Requirements are satisfied with required courses in the major: American Institutions and GE Areas D and F. Alternate courses that may satisfy these requirements are not counted in the calculation of the 120 SAGE program-applicable units unless they are listed in the University Electives section of the major.

Graduation requirements: SAGE Scholars must meet the same undergraduate graduation requirements as Chicana and Chicano Studies majors, including University and GE requirements, to be conferred the BA. As graduate students, SAGE Scholars must meet all current graduate program requirements. Upon completion of the credential requirements, students must have achieved a SJSU cumulative grade point average of 3.0 in their graduate work order to be recommended for a credential.

Program Requirements (151 units)

Chicana and Chicano Studies, BA (103 units)

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment, and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Note Abbreviations).

University Requirements (38 units)

The Lower and Upper Division General Education requirements may be satisfied by coursework outlined below. To satisfy the Graduation Writing Assessment Requirement (GWAR), students must pass the 100W course with a grade of "C" or better ("C-" not accepted).

- GE Areas A, B, C, E, R 33 *unit(s)*
- Any Social Sciences 100W 3 *unit(s)*
- Physical Education 2 *unit(s)*

Major Requirements (52 units)

Lower Division Requirements (10 units)

- CCS 1 - Introduction to Chicana and Chicano Studies 3 *unit(s)* (F)
- CCS 2 - Library Studies 1 *unit(s)*
- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 *unit(s)* (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 *unit(s)* (D+US123)

Upper Division Requirements (21 units)

- CCS 125 - Chicana/o Community Studies 3 *unit(s)*
- CCS 135 - Contemporary Chicana/o Issues 3 *unit(s)*
- CCS 150 - Research Methods 3 *unit(s)*
- CCS 151 - Theory in Chicana/o Studies 3 *unit(s)*
- CCS 190 - Chicana and Chicano Studies Capstone 3 *unit(s)*
- SOCS 138 - US History for Teachers 3 *unit(s)* (S) (*Teacher Preparation*)
- SOCS 139 - World History for Teachers 3 *unit(s)* (V) (*Teacher Preparation*)

Additional Upper Division Courses (21 units)

All Majors will select a specific specialization area and will take 9 units in that area and 6 units in each of the other two areas for a total of 21 units.

Cultural and Creative Expression

- CCS 144 - Chicana/o Literature 3 *unit(s)*
- CCS 145 - Chicana/o Folklife and Popular Culture 3 *unit(s)*
- CCS 147 - Music in Mexican America 3 *unit(s)*
- CCS 152 - The Story of Chicano Spanish 3 *unit(s)*
- CCS 170 - Chicana/Chicano Film 3 *unit(s)*

Institutions and Community Engagement

- CCS 115 - Chicana/o Families 3 *unit(s)*
- CCS 127 - Chicanas/os and the Criminal Justice System 3 *unit(s)*
- CCS 185 - Teaching in a Diverse Society 3 *unit(s)*

Transnationalism and Global Relations

- CCS 105 - Chicanos: United States/Mexico Relations 3 *unit(s)*
- CCS 120 - Political Economy and Chicana/o Communities 3 *unit(s)*
- CCS 175 - Human Migrations: Global Reach 3 *unit(s)*

Subject Matter Competency Coursework or CSET + University Electives (15 units)

There is currently no CSET waiver program for the Chicana and Chicano Studies BA. SAGE. Students must fulfill Social Science subject matter competency (+ optional CSET LOTE for the bilingual authorization) by the beginning of student teaching (EDSC 184X). There are two paths to fulfill Social Science subject matter competency:

- Path Option 1: Students can take the following courses (15 units)
- SOCS 137 - California History for Teachers 3 *units* OR HIST 189A - California History to 1900 4 *units* (US3)
- POLS 101 - American Government for Teachers 3 *units* OR POLS 15 - Essentials of U.S. & California Government 3 *units* (D+US23)
- ECON 109 - Analysis of Economic Issues for Teachers 3 *units* OR ECON 1A - Principles of Economics: Macroeconomics 3 *units*
- Upper Division course in US History* 3 *units*
- Upper Division course in World History** 3 *units*
- Path Option 2: Students can take all three Social Science CSETs (California Subject Examinations for Teachers)*** and 15 units of University Electives.

Teaching, MAT + Single Subject Credential in Social Science (46 units)

Upon completion of the MAT and credential requirements, students must have achieved a SJSU cumulative grade point average of 3.0 in order to be recommended for a credential. Completion of the MAT also requires a minimum grade of "C" in all courses taken and a minimum overall GPA of 3.0.

- EDSC 184P - Introduction to Student Teaching 1 *unit(s)*
- EDTE 208 - Educational Sociology 3 *unit(s)*
- EDTE 224 - Seminar in Educational Psychology 3 *unit(s)* (Multicultural Foundations)
- EDTE 250 - Qualitative Research in Education 3 *unit(s)* (Research Core) (GWAR)
- EDTE 260 - Critical Perspectives on Schooling for a Pluralist Democracy 3 *unit(s)*
- EDTE 262 - Classroom Issues in the Language/Literacy Development of L2 Learners 3 *unit(s)*
- EDTE 282 - Assessment and Evaluation 3 *unit(s)*
- EDTE 294 - Research/Practices in Health and Special Education 3 *unit(s)*
- EDTE 297C - CalTPA Support 1 *unit(s)*
- EDSC 184X - Student Teaching I 6 *unit(s)* (6 *units* required)
- SSED 184Y - Student Teaching II - Classroom Teaching 4 *unit(s)* (4 *units* required)
- SSED 184Z - Student Teaching III - Classroom Teaching 4 *unit(s)* (4 *units* required)
- SSED 378 - Social Science Methods 3 *unit(s)*

Culminating Experience (6 units)

Students must satisfy the culminating experience requirement by completing Plan B (Project), and a presentation on the same at the department's colloquium, which is held near the end of each fall and spring semester.

Plan A (Thesis): Write a master's thesis. The thesis will include original research on a topic approved by the thesis committee, and must meet university requirements as stipulated in this catalog and in the SJSU Master's Thesis and Doctoral Dissertation Guidelines. The thesis identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation. Thesis proposals must be approved by the graduate committee, which is made up of two department faculty and a third faculty member from outside the department. Students enroll in:

- EDTE 299 - Master's Thesis

Plan B (Project): Complete a master's project report. A project is a significant undertaking that evidences originality and independent thinking, appropriate form and organization, and a rationale. It is described and summarized in a report that includes the project's significance, objectives, methodology and a conclusion or recommendation. Students enroll in:

- EDTE 298 - Special Studies in Education

Spanish Bilingual Authorization: Complete student teaching EDSC 184X/SCED 184Y/SCED 184Z) in Spanish bilingual classrooms and attend an extra seminar session in these student teaching classes; and take the following courses in Spanish: CCS 185, EDTE 208, and EDTE 262.

Total Units Required (151 units)

Students must complete a minimum of 120 units to satisfy the bachelor's degree and a minimum of 30 units to satisfy the master's degree. In order to satisfy these requirements, 17 units of the credential count towards the bachelor's degree and 20 units of the credential count towards the master's degree.

*Courses that fulfill the requirement for Upper Division US History

- HIST 171 - U.S. Constitutional & Legal History
- HIST 173 - New World Encounters, 1400-1750

- HIST 174 - Colonial & Revolutionary America
 - HIST 175 - Inventing America, 1800-1860
 - HIST 176 - The Civil War and Reconstruction
 - HIST 177 - Industrial America, 1877-1920
 - HIST 178 - Crash, Depression and War, 1920-1950
 - HIST 179 - Cold War America, 1950-Present
 - HIST 181 - Advanced Topics in American History
 - HIST 185 - LGBTQ+ History in the United States
 - HIST 188 - History of Women in the United States
- **Courses that fulfill the requirement for Upper Division World History

- HIST 104 - Advanced Topics in Ancient History
- HIST 109A - History of China
- HIST 109B - History of China
- HIST 110A - History of Japan
- HIST 110B - History of Japan
- HIST 112 - Ancient West to 500 BCE
- HIST 114 - The Ancient West, 500 BCE-400 CE
- HIST 121A - Medieval Worlds, 400-1000
- HIST 121B - Medieval Worlds, 1000-1500
- HIST 124 - Early Modern Europe
- HIST 126 - Advanced Topics in Medieval History
- HIST 132 - Advanced Topics in World History
- HIST 143 - Europe, 1750-1900
- HIST 144 - Europe, 1900-1945
- HIST 145 - Europe and the World Since 1945
- HIST 146 - Advanced Topics in European History
- HIST 155 - 20th Century World
- HIST 162 - Colonial Latin America
- HIST 163 - Modern Latin America, 1800-Present
- HIST 167 - Advanced Topics in Latin American History
- HIST 173 - New World Encounters, 1400-1750

***Social Science CSETs

- CSET I - World History
- CSET II - United States History
- CSET III - Principles of American Democracy; Principles of Economics; California History

Economics, BA + Economics, Applied Economics Concentration, MA

The Economics, BA + Economics, Applied Economics Concentration, MA Spartan Accelerated Graduate Education (SAGE) Scholar Program enables qualified students in the Bachelor of Arts in Economics program to simultaneously complete the requirements for both the baccalaureate and master's degrees. Students can progress from undergraduate to graduate status seamlessly, with a simplified application process and no application fee, and complete both degrees in a year's less time as compared to completing them separately. This will provide significant cost savings to the student.

Total SAGE Program Units (BA + MA) 142

For more information, contact the **SAGE Program Coordinator**: Rui Liu.

Admission Requirements

Most students will become eligible to apply for the SAGE program in the Fall semester of their Year 3 and enter the pathway during the Spring semester of Year 4. To be eligible, students must:

- Completed a minimum of 75 units towards the BA degree (but no more than 120 units);
- Completed ECON 101, ECON 102, ECON 103A, and ECON 100W with a grade of B or better in each course;
- Have an institutional or college cumulative GPA of 3.0 or better, or GPA of 3.0 or better in the last 60 semester units;
- Completed all lower division GE requirements;
- Completed all lower division courses (1-99);
- Students must submit a personal statement that explains how they arrived at their decision to continue with Economics, Applied Economics Concentration, MA degree.

Graduate Standing Requirements

Requirements for program continuation and advancement to candidacy in the graduate program, include:

- Students must maintain a GPA of 3.0 or higher, with no individual grade below a C. Students not maintaining these standards will be placed on probation initially, followed by disqualification if the grades are not improved within two semesters.
- Meeting every semester with an academic advisor to plan and track coursework and graduate status. Once the BA degree is conferred, students meet every semester with their graduate advisor to plan a formal course of study.
- The proposed graduate program must be approved by the graduate coordinator before the student may be considered a candidate for the Economics, Applied Economics Concentration, MA degree.

Offramps

For SAGE students who opt out of or fail to complete any portion of the SAGE program, the following will apply:

- Students will be returned to their respective stand-alone undergraduate degree program and allowed to complete the degree.
- All university policies will be followed regarding probation and disqualification.
- Credit earned for graduate coursework and used to complete the Bachelor's degree may not be used to satisfy unit requirements of the Master's degree. Thus, if a student returns to the stand-alone Master's degree, graduate courses already used in the undergraduate degree cannot be used towards the stand alone Master's degree. If the course is required for the program, credit can be given for taking the course, but another course must be substituted to fulfill unit requirements. Subject to University Policy F19-1.
- Credit earned for graduate coursework, and not used towards the undergraduate degree may be counted toward the Master's degree, and shall be available for application to an SJSU graduate program upon subsequent approval by the program and subject to University Policy S17-7, graduate course revalidation.

When a student chooses to opt out or is disqualified from a SAGE program, the process depends on whether the student has fulfilled all requirements for the undergraduate degree. If all requirements are met, the student can proceed to apply for the undergraduate degree. However, if the student has not fulfilled all requirements for the undergraduate degree, any credits earned for graduate coursework that were used to fulfill the undergraduate degree may not be applied toward meeting the unit requirements for the Master's degree. Consequently, the program initiates an Advisor Request to the Registrar's Office, and the student is transitioned back to the regular undergraduate program. During this phase, the advisor collaborates with the student to formulate a plan for completing any remaining undergraduate requirements. Once all prerequisites for the undergraduate degree are fulfilled, the student is eligible to submit an application for the undergraduate degree.

Program Requirements (142 units)

Economics, BA (120 units)

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment, and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Note Abbreviations).

University Graduation Requirements (47 units)

The Lower and Upper Division General Education requirements may be satisfied by coursework outlined below. To satisfy the Graduation Writing Assessment Requirement (GWAR), students must pass ECON 100W with a grade of "C" or better ("C-" not accepted).

- GE Areas A1, A2, A3, B1, B2, B3, C1, C2, D/American Institutions (US123), E, and F 36 *unit(s)*
- SJSU Studies R, S, V 9 *unit(s)*
- Physical Education 2 *unit(s)*

Major Preparation (6 units)

The following courses in Preparation for the Major must be completed with a grade of "C-" or better:

- Any Statistics course 3 *unit(s)* (including SOCI 15 (B4), SOCS 15 (B4), STAT 95 (B4), BUS2 90)
- MATH 71 - Calculus for Business and Aviation 3 *unit(s)* (B4)
MATH 71X may be used instead of MATH 71. MATH 30 or MATH 30X also accepted.

Major Requirements (50 units)

All courses required in the major must be completed with a minimum grade of "C-".

Core Courses (26 units)

- ECON 1A - Principles of Economics: Macroeconomics 3 *unit(s)*
- ECON 1B - Principles of Economics: Microeconomics 3 *unit(s)*
- ECON 100W - Writing Workshop: Economic Reports 4 *unit(s)*
- ECON 101 - Microeconomic Analysis 4 *unit(s)*
- ECON 102 - Macroeconomic Analysis 4 *unit(s)*
- ECON 103 - Intro to Econometrics 4 *unit(s)*

Capstone Experience

Complete one course:

- ECON 190 - History of Economic Thought 4 *unit(s)*
- ECON 191 - Economic Thought of Nobel Prize Winners 4 *unit(s)*

Upper Division Economics Electives (24 units)

- ECON 104 - Mathematical Methods for Economics 4 *unit(s)*
Complete two courses from:
- ECON 108 - Cost-Benefit Analysis 4 *unit(s)*
- ECON 113A - Economic History of the United States 4 *unit(s)*

- ECON 121 - Industrial Organization 4 *unit(s)*
- ECON 133 - Public Choice 4 *unit(s)*
- ECON 138 - Business and Economic Forecasting 4 *unit(s)*
- ECON 166 - Urban Economics 4 *unit(s)*
- Complete three additional 100-level ECON courses (except ECON 109)

University Electives (17 units)

A minor in a field recommended by the advisor is encouraged.

Economics, Applied Economics Concentration, MA (22 units)

Core Courses (12 units)

- ECON 201 - Seminar in Microeconomic Analysis 3 *unit(s)*
 - ECON 203A - Economic Research Methods 3 *unit(s)*
 - ECON 205 - Workshop in Economic Analysis 3 *unit(s)*
- Complete one course:*
- ECON 202 - Seminar in Macroeconomic Analysis 3 *unit(s)*
 - ECON 235 - Seminar in Monetary Theory and Policy 3 *unit(s)*

Concentration Requirements (9 units)

- ECON 203B - Seminar in Econometric Methods 3 *unit(s)*
- Complete two courses:*
- ECON 232 - Seminar in Public Finance 3 *unit(s)*
 - ECON 241 - Seminar in Law and Economics 3 *unit(s)*
 - ECON 251 - Seminar in Labor Economics 3 *unit(s)*

Culminating Experience (1 unit)

- ECON 298E - Special Study Comprehensive Exam 1 *unit(s)*

Total Units Required (142 units)

The standalone Economics, Applied Economics Concentration, MA requires completion of ECON 104 and two economics electives. Students satisfy these requirements in this SAGE Scholars Program by taking ECON 104 and two upper division courses as Upper Division Economics Electives. These 12 units are considered to count toward both the graduate and undergraduate degrees, thus allowing SAGE students to meet the minimum unit requirements for both degrees.

Economics, BA + Economics, MA

The Economics, BA + Economics, MA Spartan Accelerated Graduate Education (SAGE) Scholar Program enables qualified students in the Bachelor of Arts in Economics program to simultaneously complete the requirements for both the baccalaureate and master's degrees. Students can progress from undergraduate to graduate status seamlessly, with a simplified application process and no application fee, and complete both degrees

in a year's less time as compared to completing them separately. This will provide significant cost savings to the student.

Program Requirements (142 units)

Economics, BS (120 units)

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment, and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Note Abbreviations).

University Graduation Requirements (47 units)

The Lower and Upper Division General Education requirements may be satisfied by coursework outlined below. To satisfy the Graduation Writing Assessment Requirement (GWAR), students must pass ECON 100W with a grade of "C" or better ("C-" not accepted).

- GE Areas A1, A2, A3, B1, B2, B3, C1, C2, D/American Institutions (US123), E, and F 36 unit(s)
- SJSU Studies R, S, V 9 unit(s)
- Physical Education 2 unit(s)

Major Preparation (6 units)

The following courses in Preparation for the Major must be completed with a grade of "C" or better.

- Any Statistics course 3 unit(s) (including SOCI 15 (B4), SOCS 15 (B4), STAT 95 (B4), BUS2 90)
- MATH 30 - Calculus I 3 unit(s) (B4) MATH 30X may be used instead of MATH 30.

Major Requirements (50 units)

All courses required in the major must be completed with a minimum grade of "C-".

- ECON 1A - Principles of Economics: Macroeconomics 3 unit(s)
- ECON 1B - Principles of Economics: Microeconomics 3 unit(s) (D)
- ECON 100W - Writing Workshop: Economic Reports 4 unit(s) (WID)
- ECON 101 - Microeconomic Analysis 4 unit(s)
- ECON 102 - Macroeconomic Analysis 4 unit(s)
- ECON 103A - Introduction to Econometrics and Research Methods 4 unit(s)
- ECON 103B - Econometric Methods 4 unit(s)

- ECON 104 - Mathematical Methods for Economics 4 *unit(s)*

Upper Division Economics Electives (20 units)

Complete two courses from:

- ECON 108 - Cost-Benefit Analysis 4 *unit(s)*
- ECON 113A - Economic History of the United States 4 *unit(s)*
- ECON 121 - Industrial Organization 4 *unit(s)*
- ECON 133 - Public Choice 4 *unit(s)*
- ECON 138 - Business and Economic Forecasting 4 *unit(s)*
- ECON 166 - Urban Economics 4 *unit(s)*
- Complete three additional 100-level ECON courses (except ECON 109)

University Electives (17 units)

A minor in a field recommended by the advisor is encouraged.

Economics, MA (22 units)

Core Courses (12 units)

- ECON 201 - Seminar in Microeconomic Analysis 3 *unit(s)*
- ECON 203A - Economic Research Methods 3 *unit(s)* (GWAR)
- ECON 205 - Workshop in Economic Analysis 3 *unit(s)*

Complete one course:

- ECON 202 - Seminar in Macroeconomic Analysis 3 *unit(s)*
- ECON 235 - Seminar in Monetary Theory and Policy 3 *unit(s)*

Concentration Requirements (9 units)

- ECON 203B - Seminar in Econometric Methods 3 *unit(s)*

Complete two courses:

- ECON 138 - Business and Economic Forecasting 4 *unit(s)*
- ECON 232 - Seminar in Public Finance 3 *unit(s)*
- ECON 241 - Seminar in Law and Economics 3 *unit(s)*
- ECON 251 - Seminar in Labor Economics 3 *unit(s)*

Culminating Experience (1 unit)

- ECON 298E - Special Study Comprehensive Exam 1 *unit(s)*

Total Units Required (142 units)

The standalone Economics, MA requires completion of ECON 104 and two economics electives. Students satisfy these requirements in this SAGE Scholars Program by taking ECON 104 as an Economics, BS Core Course and two upper division courses as Upper Division Economics Electives. These 12 units are considered to count toward both the graduate and undergraduate degrees, thus allowing SAGE students to meet the minimum unit requirements for both degrees.

Economics, BS + Economics, MA

- Admission Requirements
- Graduate Standing Requirements
- Program Requirements (142 units)
- Advising Roadmap

The Economics, BS + Economics, MA Spartan Accelerated Graduate Education (SAGE) Scholar Program enables qualified students in the Bachelor of Science in Economics program to simultaneously complete the requirements for both the baccalaureate and master's degrees. Students can progress from undergraduate to graduate status seamlessly, with a simplified application process and no application fee, and complete both degrees in a year's less time as compared to completing them separately. This will provide significant cost savings to the student.

Total SAGE Program Units (BA + MA) 142

For more information, contact the **SAGE Program Coordinator**: Rui Liu.

Admission Requirements

Most students will become eligible to apply for the SAGE program in the Fall semester of their Year 3 and enter the pathway during the Spring semester of Year 4. To be eligible, students must:

- Completed a minimum of 75 units towards the BA degree (but no more than 120 units);
- Completed ECON 101, ECON 102, ECON 103A, and ECON 100W with a grade of B or better in each course;
- Have an institutional or college cumulative GPA of 3.0 or better, or GPA of 3.0 or better in the last 60 semester units;
- Completed all lower division GE requirements;
- Completed all lower division courses (1-99);
- Students must submit a personal statement that explains how they arrived at their decision to continue with the Economics, MA degree.

Graduate Standing Requirements

Requirements for program continuation and advancement to candidacy in the graduate program, include:

- Students must maintain a GPA of 3.0 or higher, with no individual grade below a C. Students not maintaining these standards will be placed on probation initially, followed by disqualification if the grades are not improved within two semesters.
- Meeting every semester with an academic advisor to plan and track coursework and graduate status. Once the BA degree is conferred, students meet every semester with their graduate advisor to plan a formal course of study.
- The proposed graduate program must be approved by the graduate coordinator before the student may be considered a candidate for the MA degree.

Offramps

For SAGE students who opt out of or fail to complete any portion of the SAGE program, the following will apply:

- Students will be returned to their respective stand-alone undergraduate degree program and allowed to complete the degree.

- All university policies will be followed regarding probation and disqualification.
- Credit earned for graduate coursework and used to complete the Bachelor's degree may not be used to satisfy unit requirements of the Master's degree. Thus, if a student returns to the stand-alone Master's degree, graduate courses already used in the undergraduate degree cannot be used towards the stand alone Master's degree. If the course is required for the program, credit can be given for taking the course, but another course must be substituted to fulfill unit requirements. Subject to University Policy F19-1.
- Credit earned for graduate coursework, and not used towards the undergraduate degree may be counted toward the Master's degree, and shall be available for application to an SJSU graduate program upon subsequent approval by the program and subject to University Policy S17-7, graduate course revalidation.

When a student chooses to opt out or is disqualified from a SAGE program, the process depends on whether the student has fulfilled all requirements for the undergraduate degree. If all requirements are met, the student can proceed to apply for the undergraduate degree. However, if the student has not fulfilled all requirements for the undergraduate degree, any credits earned for graduate coursework that were used to fulfill the undergraduate degree may not be applied toward meeting the unit requirements for the Master's degree. Consequently, the program initiates an Advisor Request to the Registrar's Office, and the student is transitioned back to the regular undergraduate program. During this phase, the advisor collaborates with the student to formulate a plan for completing any remaining undergraduate requirements. Once all prerequisites for the undergraduate degree are fulfilled, the student is eligible to submit an application for the undergraduate degree.

Program Requirements (142 units)

Economics, BS (120 units)

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment, and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Note Abbreviations).

University Graduation Requirements (47 units)

The Lower and Upper Division General Education requirements may be satisfied by coursework outlined below. To satisfy the Graduation Writing Assessment Requirement (GWAR), students must pass ECON 100W with a grade of "C" or better ("C-" not accepted).

- GE Areas A1, A2, A3, B1, B2, B3, C1, C2, D/American Institutions (US123), E, and F 36 *unit(s)*
- SJSU Studies R, S, V 9 *unit(s)*
- Physical Education 2 *unit(s)*

Major Preparation (6 units)

The following courses in Preparation for the Major must be completed with a grade of "C" or better.

- Any Statistics course 3 *unit(s)* (including SOCI 15 (B4), SOCS 15 (B4), STAT 95 (B4), BUS2 90)
- MATH 30 - Calculus I 3 *unit(s)* (B4) MATH 30X may be used instead of MATH 30.

Major Requirements (50 units)

All courses required in the major must be completed with a minimum grade of "C-".

Core Courses (30 units)

- ECON 1A - Principles of Economics: Macroeconomics 3 *unit(s)*
- ECON 1B - Principles of Economics: Microeconomics 3 *unit(s)* (D)
- ECON 100W - Writing Workshop: Economic Reports 4 *unit(s)* (WID)
- ECON 101 - Microeconomic Analysis 4 *unit(s)*
- ECON 102 - Macroeconomic Analysis 4 *unit(s)*
- ECON 103A - Introduction to Econometrics and Research Methods 4 *unit(s)*
- ECON 103B - Econometric Methods 4 *unit(s)*
- ECON 104 - Mathematical Methods for Economics 4 *unit(s)*

Upper Division Economics Electives (20 units)

Complete two courses from:

- ECON 108 - Cost-Benefit Analysis 4 *unit(s)*
- ECON 113A - Economic History of the United States 4 *unit(s)*
- ECON 121 - Industrial Organization 4 *unit(s)*
- ECON 133 - Public Choice 4 *unit(s)*
- ECON 138 - Business and Economic Forecasting 4 *unit(s)*
- ECON 166 - Urban Economics 4 *unit(s)*
- Complete three additional 100-level ECON courses (except ECON 109)

University Electives (17 units)

A minor in a field recommended by the advisor is encouraged.

Economics, MA (22 units)

Core Courses (12 units)

- ECON 201 - Seminar in Microeconomic Analysis 3 *unit(s)*
- ECON 203A - Economic Research Methods 3 *unit(s)* (GWAR)
- ECON 205 - Workshop in Economic Analysis 3 *unit(s)*

Complete one course:

- ECON 202 - Seminar in Macroeconomic Analysis 3 *unit(s)*
- ECON 235 - Seminar in Monetary Theory and Policy 3 *unit(s)*

Electives (9 units)

- Approved 200-level courses

Culminating Experience (1 unit)

- ECON 298E - Special Study Comprehensive Exam 1 *unit(s)*

Total Units Required (142 units)

The standalone Economics, MA requires completion of ECON 104 and two economics electives. Students satisfy these requirements in this SAGE Scholars Program by taking ECON 104 as an Economics, BS Core Course and two upper division courses as Upper Division Economics Electives. These 12 units are considered to count toward both

the graduate and undergraduate degrees, thus allowing SAGE students to meet the minimum unit requirements for both degrees.

Justice Studies, BS + MS

The Justice Studies Spartan Accelerated Graduate Education (SAGE) Scholars Program enables qualified students in the Bachelor in Science in Justice Studies program to simultaneously complete the requirements for both the baccalaureate and master's degrees. Students can progress from undergraduate to graduate status seamlessly, with a simplified application process and no application fee, and complete both degrees in a year's less time as compared to completing them separately. This will provide significant cost savings to the student.

Total SAGE Program Units (BS + MS) 141

For more information, contact the **SAGE Scholars Program Coordinator** Ericka Adams.

Admissions Requirements

Most students will become eligible to *apply* for the SAGE program in the Fall semester of their Year 3 and enter the pathway during the Spring semester of Year 4. To be eligible, students must:

- Successfully complete a minimum of 60 undergraduate degree applicable units and not more than 120 undergraduate degree applicable units at the time of admission into the SAGE program;
- Have completed the undergraduate Graduation Writing Assessment Requirement (Writing in the Disciplines/100W/GWAR) prior to admission into the SAGE program;
- Completion of JS 10 or JS 12 or JS 25;
- Completion of JS 15 or STAT 95;
- Have a cumulative GPA of 3.0 or better, or GPA of 3.0 or better in the last 60 semester units;
- Completed all lower division GE requirements;
- Must not be declared in another major;
- 2 academic letters of recommendation addressing the applicant's qualifications and potential for success in the combined SAGE program;
- A 1,250 word, double-spaced essay responding to the following prompt: *Describe and discuss a justice-related issue you see as important to our society and/or particularly relevant to contemporary times. In your essay, you may want to focus on one or more of the following questions: What are the social causes of this issue? What are its historical origins? What explains its persistence? How does it impact the human rights of individuals involved? How is this issue being addressed by our society? Could it be addressed differently? What policy changes would be needed?* (Students should cite and reference any sources used.)

Graduate Standing Requirements

- Students must maintain a GPA of 3.0 or higher, with no individual grade below a C. Students not maintaining these standards will be placed on probation initially, followed by disqualification if the grades are not improved within two semesters. To advance to candidacy in the graduate program, students must have completed 9 units of graduate coursework in the MS Justice Studies program and have a 3.0 cumulative GPA in all graduate coursework.
- SAGE students must meet the same undergraduate graduation requirements as BS Justice Studies majors, including University and GE requirements, to be conferred the BS. As graduate students, SAGE students must meet all current graduate program requirements including having a cumulative grade point average of 3.0 or higher in their graduate work.
- Students are converted to graduate status when they have completed 120 SAGE program-applicable units. The following University Requirements are satisfied with required courses in the major: GE Areas B4 and SJSU Studies

(S and V). Alternate courses that may satisfy these requirements are not counted in the calculation of the 120 SAGE program-applicable units unless they are listed in the University Electives section of the major.

Program Requirements (141 units)

Justice Studies, BS (108 units)

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment, and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Note Abbreviations).

University Requirements (41 units)

The Lower and Upper Division General Education requirements may be satisfied by coursework outlined below. To satisfy the Graduation Writing Assessment Requirement (GWAR), students must pass JS 100W with a grade of "C" or better ("C-" not accepted).

- GE Areas A, B, C1, C2, D/American Institutions (US123), E, F; SJSU Studies Areas R, V 39 *unit(s)*
- Physical Education (2 *units*)

Major Preparation (6 units)

Complete one course from:

- FS 11 - Survey of Forensic Science 3 *unit(s)*
- JS 10 - Introduction to Justice Studies 3 *unit(s)*
- JS 12 - Introduction to Legal Studies 3 *unit(s)*
- JS 25 - Introduction to Human Rights and Justice 3 *unit(s)* (D)

Statistics Course

Complete one course:

- JS 15 - Introductory Statistics in Justice Studies 3 *unit(s)* (B4)
- STAT 95 - Elementary Statistics 3 *unit(s)* (B4) (UNVS 15 may be used in lieu of the statistics course required by this major.)

Major Requirements (33 units)

Justice Studies Core (21 units)

- JS 100W - Writing Workshop 3 *unit(s)* (WID)
- JS 101 - Critical Issues and Ideas in Justice 3 *unit(s)*
- JS 114 - Research Methods in Justice Studies 3 *unit(s)*
- JS 132 - Race, Gender, Inequality and the Law 3 *unit(s)* (S)
- JS 151 - Criminological Theory 3 *unit(s)*
- JS 171 - Human Rights and Justice 3 *unit(s)* (V)

Complete One Course From:

- FS 169 - FS Senior Seminar: Studies in Contemporary FS Issues 3 *unit(s)*
- JS 189 - Senior Seminar: Contemporary Problems 3 *unit(s)*

Additional Courses (12 units)

Students must complete 12 units from the following areas

Area A: Theory Courses (3-6 units)

Complete three to six units from:

- FS 160 - Special Topics in Forensic Science 1-5 *unit(s)*
- JS 103 - Courts and Society 3 *unit(s)*
- JS 153 - Crime and Justice Across the Life Course 3 *unit(s)*
- JS 157 - Deviance and Justice 3 *unit(s)*
- JS 185 - Special Topics in Law and Justice 3 *unit(s)* (*When class topic Area A Theories is offered.*)

Area B: Methodology Courses (0-3 units)

Complete up to three units from:

- FS 160 - Special Topics in Forensic Science 1-5 *unit(s)*
- FS 162 - Forensic Science Applications 3 *unit(s)*
- JS 107 - Justice Management and Ethics 3 *unit(s)*
- JS 117 - Qualitative Research Methods 3 *unit(s)*
- JS 131 - Crisis Intervention, Mediation and Restorative Justice 3 *unit(s)*
- JS 143 - Criminal Evidence and Procedure 3 *unit(s)*
- JS 185 - Special Topics in Law and Justice 3 *unit(s)* (*When class topic Area B Methods is offered.*)

Area C: Critical Inquiry Courses (0-3 units)

Complete up to three units from:

- FS 160 - Special Topics in Forensic Science 1-5 *unit(s)*
- FS 171 - Forensic Criminology 3 *unit(s)*
- JS 122 - Drugs and Society 3 *unit(s)*
- JS 128 - Punishment, Culture and Society 3 *unit(s)*
- JS 130 - Sexuality & Justice 3 *unit(s)*
- JS 136 - Family and Community Violence 3 *unit(s)*
- JS 144 - Criminal Law 3 *unit(s)*
- JS 146 - Guns and the Law 3 *unit(s)*
- JS 150 - Gender and Crime 3 *unit(s)*
- JS 185 - Special Topics in Law and Justice 3 *unit(s)* (*When class topic Area C Critical Inquiry is offered.*)

Area D: Local, Transnational, Historical Courses (0-3 units)

Complete up to three units from:

- FS 160 - Special Topics in Forensic Science 1-5 *unit(s)*
- FS 170 - Forensic Science in Human Rights Investigations 3 *unit(s)*
- JS 121 - Media and Justice 3 *unit(s)*
- JS 123 - Terrorism, Intelligence, and Security 3 *unit(s)*
- JS 127 - Immigration and Justice 3 *unit(s)*
- JS 129 - International Crime and Deviance 3 *unit(s)*
- JS 137 - Collaborative Response to Family Violence 3 *unit(s)*
- JS 145 - White Collar Crime 3 *unit(s)*
- JS 156 - Gangs, Criminal Syndicates & Justice 3 *unit(s)*
- JS 158 - The Prison Community 3 *unit(s)*
- JS 161 - Introduction to Cybercrime 3 *unit(s)*
- JS 172 - Human Trafficking and Modern Day Slavery 3 *unit(s)*
- JS 173 - Advancing Human Rights Through Diversity, Equity and Inclusion 3 *unit(s)*
- JS 185 - Special Topics in Law and Justice 3 *unit(s)* (*When class topic Area D Local, Transnational, Historical is offered.*)

Area E: Experiential Learning Courses (0-3 units)

Complete up to three units from:

- JS 140 - Record Clearance Project 3 *unit(s)*
- JS 141 - Record Clearance Project Representation 3 *unit(s)*
- JS 142 - Record Clearance Project - Advanced Study and Community Involvement 3 *unit(s)*
- JS 179 - Human Rights Practicum and Seminar 3 *unit(s)*
- JS 180 - Individual Studies 1-3 *unit(s)*
- JS 181 - Internship: Justice Studies 1-6 *unit(s)* (*JS 181 may be taken again for elective credit.*)
- JS 184 - Directed Reading 1-3 *unit(s)*

University Electives (28 units)

A minor is strongly recommended

Justice Studies, MS (33 units)

Core Courses (18 units)

- JS 201 - Justice and Social Theory 3 *unit(s)*
- JS 202 - Survey of Research Methods 3 *unit(s)*
- JS 203 - Seminar in Applied Statistics in Justice 3 *unit(s)*
- JS 207 - Seminar in Qualitative Research Methods 3 *unit(s)*
- JS 211 - Historical Issues in Justice Studies 3 *unit(s)*
- JS 220 - Seminar: Criminological Theory 3 *unit(s)*

Electives (9 units)

Complete 9 units from:

- JS 204 - Justice Organizations, Ethics & Change 3 *unit(s)*
- JS 205 - Seminar in Law and Courts 3 *unit(s)*

- JS 206 - Seminar in Juvenile Justice 3 *unit(s)*
- JS 208 - Seminar: Punishment & Society 3 *unit(s)*
- JS 209 - Seminar in Police and Social Control 3 *unit(s)*
- JS 212 - Local & Global Perspectives on Human Rights 3 *unit(s)*
- JS 214 - Seminar: Social Movement, Community Organizing, and Social Justice 3 *unit(s)*
- JS 218 - Seminar: Immigration, Law & Justice 3 *unit(s)*
- JS 221 - Seminar: Deviance & Social Control 3 *unit(s)*
- JS 223 - Seminar: Comparative Criminology & Criminal Justice 3 *unit(s)*
- JS 281 - Justice Practicum 1-3 *unit(s)*
- JS 298 - Special Study 1-3 *unit(s)*

Culminating Experience (6 units)

Complete Plan A (with Thesis) or Plan B (Project).

Plan A (with Thesis)

- JS 299 - Master's Thesis 3-6 *unit(s)* (6 units required)

Plan B (Project)

- JS 297 - Program Evaluation Project 3 *unit(s)*
- Additional 3 units electives 3 *unit(s)*

Total Units Required (141 units)

The standalone Justice Studies, BS program requires completion of JS 141, JS 142, or JS 181. Students satisfy this requirement in this SAGE Scholars Program by completing JS 220. Additionally, students will satisfy 9 units of Area major electives in this SAGE Scholars Program by completing JS 201, JS 202, and JS 211 in the Justice Studies, MS program. These 12 credits are considered to count toward both the graduate and undergraduate degrees, thus allowing SAGE students to meet the minimum unit requirements for both degrees.

Justice Studies, Criminology Concentration, BS + Justice Studies, MS

The Justice Studies Spartan Accelerated Graduate Education (SAGE) Scholars Program enables qualified students in the Bachelor in Science in Justice Studies program to simultaneously complete the requirements for both the baccalaureate and master's degrees. Students can progress from undergraduate to graduate status seamlessly, with a simplified application process and no application fee, and complete both degrees in a year's less time as compared to completing them separately. This will provide significant cost savings to the student.

Total SAGE Program Units (BS + MS) 141

For more information, contact the **SAGE Scholars Program Coordinator**: Ericka Adams.

Admissions Requirements

Most students will become eligible to *apply* for the SAGE program in the Fall semester of their Year 3 and enter the pathway during the Spring semester of Year 4. To be eligible, students must:

- Successfully complete a minimum of 60 undergraduate degree applicable units and not more than 120 undergraduate degree applicable units at the time of admission into the SAGE program;
- Have completed the undergraduate Graduation Writing Assessment Requirement (Writing in the Disciplines/100W/GWAR) prior to admission into the SAGE program;
- Completion of JS 10 or JS 12, or JS 25;
- Completion of JS 15 or STAT 95;
- Have a cumulative GPA of 3.0 or better, or GPA of 3.0 or better in the last 60 semester units;
- Completed all lower division GE requirements;
- Must not be declared in another major;
- 2 academic letters of recommendation addressing the applicant's qualifications and potential for success in the combined SAGE program;
- A 1,250 word, double-spaced essay responding to the following prompt: *Describe and discuss a justice-related issue you see as important to our society and/or particularly relevant to contemporary times. In your essay, you may want to focus on one or more of the following questions: What are the social causes of this issue? What are its historical origins? What explains its persistence? How does it impact the human rights of individuals involved? How is this issue being addressed by our society? Could it be addressed differently? What policy changes would be needed?* (Students should cite and reference any sources used.)

Graduate Standing Requirements

- Students must maintain a GPA of 3.0 or higher, with no individual grade below a C. Students not maintaining these standards will be placed on probation initially, followed by disqualification if the grades are not improved within two semesters. To advance to candidacy in the graduate program, students must have completed 9 units of graduate coursework in the MS Justice Studies program and have a 3.0 cumulative GPA in all graduate coursework.
- SAGE students must meet the same undergraduate graduation requirements as BS Justice Studies majors, including University and GE requirements, to be conferred the BS. As graduate students, SAGE students must meet all current graduate program requirements including having a cumulative grade point average of 3.0 or higher in their graduate work.
- Students are converted to graduate status when they have completed 120 SAGE program-applicable units. The following University Requirements are satisfied with required courses in the major: GE Areas B4 and SJSU Studies (S and V). Alternate courses that may satisfy these requirements are not counted in the calculation of the 120 SAGE program-applicable units unless they are listed in the University Electives section of the major.

Program Requirements (141 units)

Justice Studies, Criminology Concentration, BS (108 units)

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment, and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Note Abbreviations).

University Requirements (41 units)

The Lower and Upper Division General Education requirements may be satisfied by coursework outlined below. To satisfy the Graduation Writing Assessment Requirement (GWAR), students must pass JS 100W with a grade of "C" or better ("C-" not accepted).

- GE Areas A, B, C1, C2, D/American Institutions (US123), E, F; SJSU Studies Areas R, V 39 *unit(s)*
- Physical Education (2 *units*)

Major Preparation (6 units)

Complete one course from:

- FS 11 - Survey of Forensic Science 3 *unit(s)*
- JS 10 - Introduction to Justice Studies 3 *unit(s)*
- JS 12 - Introduction to Legal Studies 3 *unit(s)*
- JS 25 - Introduction to Human Rights and Justice 3 *unit(s)* (D)

Statistics Course

Complete one course:

- JS 15 - Introductory Statistics in Justice Studies 3 *unit(s)* (B4)
- STAT 95 - Elementary Statistics 3 *unit(s)* (B4) (UNVS 15 may be used in lieu of the statistics course required by this major.)

Major Requirements (33 units)

Justice Studies Core (21 units)

- JS 100W - Writing Workshop 3 *unit(s)* (WID)
- JS 101 - Critical Issues and Ideas in Justice 3 *unit(s)*
- JS 114 - Research Methods in Justice Studies 3 *unit(s)*
- JS 132 - Race, Gender, Inequality and the Law 3 *unit(s)* (S)
- JS 151 - Criminological Theory 3 *unit(s)*
- JS 171 - Human Rights and Justice 3 *unit(s)* (V)

Complete One Course From:

- FS 169 - FS Senior Seminar: Studies in Contemporary FS Issues 3 *unit(s)*
- JS 189 - Senior Seminar: Contemporary Problems 3 *unit(s)*

Concentration Required Courses (12 units)

- JS 102 - Police and Society 3 *unit(s)*
- JS 104 - Penal Politics & Institutions 3 *unit(s)*
- JS 152 - Juvenile Delinquency & Justice 3 *unit(s)*
- JS 155 - Victimology 3 *unit(s)*

University Electives (28 units)

A minor is strongly recommended

Justice Studies, MS (33 units)

Core Courses (18 units)

- JS 201 - Justice and Social Theory 3 *unit(s)*
- JS 202 - Survey of Research Methods 3 *unit(s)*
- JS 203 - Seminar in Applied Statistics in Justice 3 *unit(s)*
- JS 207 - Seminar in Qualitative Research Methods 3 *unit(s)*
- JS 211 - Historical Issues in Justice Studies 3 *unit(s)*
- JS 220 - Seminar: Criminological Theory 3 *unit(s)*

Electives (9 units)

Complete 9 units from:

- JS 204 - Justice Organizations, Ethics & Change 3 *unit(s)*
- JS 205 - Seminar in Law and Courts 3 *unit(s)*
- JS 206 - Seminar in Juvenile Justice 3 *unit(s)*
- JS 208 - Seminar: Punishment & Society 3 *unit(s)*
- JS 209 - Seminar in Police and Social Control 3 *unit(s)*
- JS 212 - Local & Global Perspectives on Human Rights 3 *unit(s)*
- JS 214 - Seminar: Social Movement, Community Organizing, and Social Justice 3 *unit(s)*
- JS 218 - Seminar: Immigration, Law & Justice 3 *unit(s)*
- JS 221 - Seminar: Deviance & Social Control 3 *unit(s)*
- JS 223 - Seminar: Comparative Criminology & Criminal Justice 3 *unit(s)*
- JS 281 - Justice Practicum 1-3 *unit(s)*
- JS 298 - Special Study 1-3 *unit(s)*

Culminating Experience (6 units)

Complete Plan A (with Thesis) or Plan B (Project).

Plan A (with Thesis)

- JS 299 - Master's Thesis 3-6 *unit(s)* (6 *units required*)

Plan B (Project)

- JS 297 - Program Evaluation Project 3 *unit(s)*
- Additional 3 units electives 3 *unit(s)*

Total Units Required (141 units)

The standalone Justice Studies, Criminology Concentration, BS program requires completion of JS 141, JS 142, or JS 181. Students satisfy this requirement in this SAGE Scholars Program by completing JS 220. Additionally, students will satisfy 9 units of Area major electives in this SAGE Scholars Program by completing JS 201, JS 202, and JS 211 in the Justice Studies, MS program. These 12 credits are considered to count toward both the graduate and undergraduate degrees, thus allowing SAGE students to meet the minimum unit requirements for both degrees

SJSU Online

The mission of SJSU Online is to expand higher education access and degree attainment for learners requiring a fully online degree pathway. These upper division degree completion programs are offered through a special session that

requires a separate application process. If interested, please contact one of our Enrollment Counselors for more information.

Economics, BA (SJSU Online)

Fully Online Degree Completion Program

The mission of SJSU Online is to expand higher education access and degree attainment for learners requiring a fully online degree pathway. This upper division degree completion program is offered through a special session that requires a separate application process.

The Department of Economics has one core mission: to train both graduate and undergraduate students in the economic way of thinking and market process. Our internationally recognized faculty will guide your exploration of economic theory, equipping you with the analytical decision-making skills to prepare you to succeed in careers in business, public policy, government service, data management, as well as providing a solid foundation for future doctoral studies in economics.

Economics is a general program, flexible enough to allow for a variety of student objectives. The Economics BA has 7 units of open electives. These elective units give students the flexibility to supplement the thinking skills developed in economics with technical skills developed in such fields as finance, marketing, and public relations. A bachelor degree in economics serves as an excellent springboard to an MBA or law degree.

- Program Learning Outcomes

Program Delivery

The program is delivered completely online. Classes will be delivered fully online both asynchronously (no designated days/times) and synchronously (designated days/times).

Summary of Degree Units

Transfer Units	60
University Graduation Requirements	9
Major Requirements	44
University Electives	7
Total	120

Program Roadmaps

The 2-Year Roadmaps are available online. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums).

Transfer Units (60 units)

- All applicants are required to have completed at least 60 transferable semester or 90 quarter units with an overall grade point average of 2.0 or better.
- Applicants must also have completed the Core Lower Division General Education Requirements (39 units).

- All four CSU-approved Basics Skills courses must be completed with a C- or better:
 - (A1) Oral Communication/Speech
 - (A2) Written English Composition
 - (A3) Critical Thinking/Logic
 - (B4) Math/Quantitative Reasoning (above the level of intermediate algebra)
- GE Area F - Ethnic Studies must be completed with a C- or better to meet the requirement at San Jose State University.
- Completion of at least 12 units of the following courses (or equivalents):
 - ECON 1A - Principles of Economics: Macroeconomics 3 unit(s) (with a grade of "C-" or better)
 - ECON 1B - Principles of Economics: Microeconomics 3 unit(s) (D) (with a grade of "C-" or better)
 - Any Statistics course 3 unit(s) (B4) (with a grade of "C-" or better)
 - MATH 71 - Calculus for Business and Aviation 3 unit(s) (B4)
 - MATH 71X - Calculus for Business and Aviation may be used instead of MATH 71. MATH 30 or 30X also accepted.*

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment, and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Note Abbreviations).

Core Lower Division General Education

The Core Lower Division General Education Requirements (39 units) must be completed before transferring from a community college or any university.

Upper Division General Education (9 units)

Of the 9 units required by the university, 0 units may be satisfied by coursework outlined below. Consult your major advisor before selecting courses to satisfy the Upper Division General Education Requirements.

American Institutions

Recommend completion before transferring from a community college or any university. The American Institutions (AI) Requirement (US123) is normally satisfied with the completion of General Education Area D. Consult your major advisor to confirm you have satisfied the requirement.

Physical Education

The Physical Education Requirement (2 units) is recommended to be completed before transferring from a community college or any university. All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students' needs and interests, the university offers a diverse selection of activity courses.

Graduation Writing Assessment Requirement

At SJSU, students must pass a Writing in the Disciplines (100W) course with a grade of C or better (C- not accepted) to meet graduation requirements. For this major, the Graduation Writing Assessment Requirement (GWAR) is satisfied by a course in the major.

Major Requirements (44 units)

All courses required in the major (Core, Capstone, and major electives) must be completed with a minimum grade of "C-".

Core Courses (16 units)

- ECON 100W - Writing Workshop: Economic Reports 4 unit(s) (WID+R)
- ECON 101 - Microeconomic Analysis 4 unit(s)
- ECON 102 - Macroeconomic Analysis 4 unit(s)
- ECON 103A - Introduction to Econometrics and Research Methods 4 unit(s)

Capstone Experience (4 Units)

Complete one course:

- ECON 190 - History of Economic Thought 4 unit(s)
- ECON 191 - Economic Thought of Nobel Prize Winners 4 unit(s)

Upper Division Economics Electives (24 units)

Select six 100-level courses with the Department of Economics with the exception of ECON 109, which is not intended for majors.

University Electives (7 units)

Total Units Required (120 units)

Professional & Global Engagement

Professional & Global Engagement (PGE) offers professional education programs tailored to meet the diverse needs of current and prospective students, as well as professionals aiming to enhance their careers. Our innovative programs are designed to provide real-world knowledge and are delivered through flexible modes such as online learning, asynchronous study, and convenient off-site locations. In addition to our professional programming, we offer programs and comprehensive support tailored to the unique needs of our international student community. Through our Global Engagement programming and services, we strive to create a welcoming and inclusive environment, offering a range of services designed to enhance academic success, cultural integration, and overall student experience. From technical skill development to cultural immersion opportunities, we are committed to empowering students for success in a diverse and interconnected world.

SJSU Online

The mission of SJSU Online is to expand higher education access and degree attainment for learners requiring a fully online degree pathway. The special session degree completion programs offered through SJSU Online meet these potential graduates where they are, offering flexible 100% online pathways for degree attainment focused on the needs of the working learner, including multiple admission cycles, 8-week academic terms, and a per-unit tuition structure that is cost-effective for the part-time learner. These programs are offered through a special session that requires a separate application process. If interested, please contact one of our Enrollment Counselors for more information.

Professional Education

Professional & Global Engagement (PGE) offers professional education programs to current and prospective students and professionals seeking to expand their learning and advance in their careers by applying real-world knowledge. Our programs, offered in innovative modes (online, asynchronous, and accessible off-site locations) with accessible schedules (evenings, weekends, and summers) ensure that individuals from all walks of life (traditional students, re-entrants to the workforce, career changers, and working professionals) have access to our program offerings.

An academically and financially viable unit of San José State University, PGE is one of the most diverse (in types of programs offered), innovative, and successful units in the twenty-three campus California State University (CSU) system and has been serving the largest number of students over the past three years with the most extensive portfolio of graduate and undergraduate academic programs.

In partnership with the seven academic colleges, we offer a variety of professional degree programs at the Master's level, fully online undergraduate degree completion programs, advanced certificates, credential programs, and more.

In addition to our degree programs, we offer credit-earning courses to augment and complement regularly scheduled classes. Open University allows course access to non-matriculated students (including disqualified students) on a space-available basis to pursue their educational or personal enrichment goals and earn college credit.

Winter Intersession and Summer Intersession allow current SJSU students and the public an opportunity to take classes for college credit in winter and summer; we have a robust offering of courses, including General Education (GE) courses. These accelerated-format university courses are perfect for meeting prerequisites, completing GE or major course requirements, or enabling a faster pace toward graduation.

PGE also has non-credit continuing education courses to offer professionals (e.g., teachers, nurses, etc.) an opportunity to quantify their time in professional development and training activities by having the university maintain a record of their educational accomplishments for non-credit educational and career enhancement experiences.

Global Engagement

We are committed to internationalizing our campus to cultivate an environment of diversity and inclusion, and to graduate students who are prepared to live and lead in an increasingly globalized world.

SJSU serves more international students than any other master's granting university in the U.S. Our students have high success in obtaining internships and work opportunities in Silicon Valley via curriculum practical training during their studies, and once they graduate, they have opportunities to participate in OPT/STEM OPT.

Our International Student & Scholar Services office (ISSS) offers comprehensive immigration advising and co-curricular support programming for our international students and scholars. The goal of ISSS is to enhance the students' experience in the U.S. and integrate them into our community, while also contributing to their success during their tenure at SJSU and beyond.

In addition, our Study Abroad and Away office offers an extensive portfolio of off-campus globally-focused programs that strive to meet the personal, academic, and professional goals of our students. We aim to provide programs for all

SJSU students to learn and discover other cultures first-hand, including study abroad (international) and away (domestic), short-term (winter, spring, and summer breaks), and long-term (semester and year-long) options.

Our International Gateways unit provides comprehensive support services and instruction to help non-matriculated international students thrive at our University. Through International Conditional Admissions, we help students apply for Conditional Admission/Eligibility to SJSU undergraduate and graduate degree programs. International students interested in studying abroad in Silicon Valley can participate in our Semester at SJSU program. In addition to regularly scheduled programs, we partner with global universities and SJSU academic departments to develop and deliver customized non-credit programs for students and professionals.

Our International House (I-House) provides a welcoming intercultural living environment to U.S. and international students and scholars affiliated with San Jose State University. The residents of I-House live together under one roof as an extended family in their home away from home at 360 S. 11th Street, near SJSU's main campus. With a supportive, skillful, and dedicated staff, it offers opportunities to enhance academic success and participate in a myriad of socio-cultural activities while facilitating intercultural communication and competence.

Overview

Intercollegiate athletics offers a comprehensive spectrum of 22 sports (9 men's and 13 women's) which compete at the NCAA Division I level (the highest level of collegiate competition). San Jose State University is a member of the Mountain West Athletic Conference. Over the years, San Jose State athletics teams have won 10 NCAA team and 50 individual championships.

Course offerings are designed to satisfy the needs and interests of highly skilled student-athletes and provide them with the highest level of intercollegiate athletics experience. Note: Courses are open only to those SJSU students who are currently on one of the Spartan team rosters.

Leadership:

Marc d'Alarcao, Dean

Jeffrey Honda, Associate Dean of Graduate Programs

Amy Leisenring, Associate Dean of Inclusive Student Success

The College of Graduate Studies assists graduate programs and their faculty and students to succeed. The College of Graduate Studies supports program development, advising faculty in transforming existing degree and certificate programs or building new ones at the post-baccalaureate, master's, or doctoral level. The College of Graduate Studies is also a resource for students seeking scholarships or who are facing special challenges such as probation or disqualification. The college helps maintain academic integrity through the fair and consistent administration of graduate policies, including those issued by the Chancellor and by the university's Academic Senate. Its Graduate Admissions and Program Evaluations (GAPE) division supports students as they enter and work their way through various degree requirements. The College of Graduate Studies interprets and administers the policies and procedures outlined in the sections that follow.

The Interdisciplinary Studies Major for either a Master of Arts or a Master of Science degree provides an alternative for individuals whose desired study plans do not fit the degree offerings of any single existing degree program on campus. In most cases, a thesis is required for this degree. Applicants or graduate students in other majors who wish to undertake the Interdisciplinary Studies major should consult the College of Graduate Studies Interdisciplinary Studies website to obtain the Information and Application for Interdisciplinary Studies Majors [pdf]. The guide contains the Proposal for Interdisciplinary Studies Major, which must be completed to obtain initial approval by the Associate Dean of Graduate Studies to be able to enter the program.

- Interdisciplinary Studies, MA
- Interdisciplinary Studies, MS

Degrees

Lucas College and Graduate School of Business

The Lucas Graduate School of Business in the Lucas College and Graduate School of Business offers the following degree programs:

- Accounting and Analytics, MS
- Business Administration, MBA
- Early Career
- For Professionals
- Finance, MS
- Taxation, MS
- Transportation Management, MS

Connie L. Lurie College of Education

The Connie L. Lurie College of Education offers the following degree programs:

- Child and Adolescent Development, MA
- Counseling and Guidance, MA
- Educational Leadership, Concentration in Emancipatory School Leadership, MA
- Educational Leadership, EdD (Fully Online)
- Educational Leadership, EdD (Hybrid)
- Higher Education Leadership, MA
- Multilingual and Multicultural Literacy Education, MA
- Special Education, MA
- Speech Language Pathology, MS
- Teaching, Critical Bilingual Education (Spanish) Concentration, MAT
- Teaching, MAT

Charles W. Davidson College of Engineering

The Charles W. Davidson College of Engineering offers the following degree programs:

- Aerospace Engineering, MS
- Artificial Intelligence, MS
- Biomedical Engineering, Biomedical Devices Concentration, MS
- Biomedical Engineering, MS (General)
- Chemical Engineering, MS
- Civil Engineering, MS
- Computer Engineering, MS
- Electrical Engineering, MS
- Engineering Management, MS
- Engineering Technology, MS
- Engineering, MS
- Human Factors/Ergonomics, MS
- Human Factors/Ergonomics, User Experience Concentration, MS
- Industrial and Systems Engineering, MS
- Materials Engineering, MS
- Mechanical Engineering, MS
- Quantum Technology, MS

- Software Engineering, MS

College of Health and Human Sciences

The College of Health and Human Sciences offers the following degree programs:

- Audiology, AUD
- Kinesiology, MS
- Nursing, Family Nurse Practitioner Concentration, MS
- Nursing, MS
- Nursing Practice, DNP
- Nutritional Science, MS
- Occupational Therapy, MS
- Occupational Therapy Doctorate, OTD
- Public Health, MPH
- Social Work, MSW

College of Humanities and the Arts

The College of Humanities and the Arts offers the following degree programs:

- Art, Art History and Visual Culture Concentration, MA
- Art, Digital Media Art Concentration, MFA
- Art, Photography Concentration, MFA
- Art, Pictorial Art Concentration, MFA
- Art, Spatial Art Concentration, MFA
- Computational Linguistics, MS
- Creative Writing, MFA
- Design, MDes
- English, MA
- Linguistics, MA (Not Accepting Students)
- Mass Communications, MS
- Music Education, MA
- Music, MM
- Philosophy, MA
- Spanish, MA
- Teaching English to Speakers of Other Languages (TESOL), MA (Not Accepting Students)

College of Information, Data & Society

The College of Information, Data & Society offers the following degree programs:

- Archives and Records Administration, MARA
- Data Analytics, MS
- Informatics, MS
- Library and Information Science, MLIS

College of Science

The College of Science offers the following degree programs:

- Applied Mathematics, MS
- Bioinformatics, MS
- Biological Sciences, MA
- Biological Sciences, Ecology and Evolution Concentration, MS
- Biological Sciences, Molecular Biology and Microbiology Concentration, MS
- Biological Sciences, Physiology Concentration, MS
- Biotechnology, MBT
- Chemistry, MA
- Chemistry, MS
- Computer Science, MS
- Data Science, MS
- Geology, MS
- Marine Science, MS
- Mathematics, MA (General)
- Medical Product Development Management, MS
- Meteorology, MS
- Physics, MS
- Quantum Technology, MS
- Science Education, MS
- Statistics, MS

College of Social Sciences

The College of Social Sciences offers the following degree programs:

- Applied Anthropology, MA
- Chicana and Chicano Studies, MA
- Clinical Psychology, MS
- Communication Studies, MA
- Criminology, Global Criminology Concentration, MS
- Economics, MA
- Economics, Applied Economics Concentration, MA
- Environmental Studies, MS
- Geography, MA
- History, MA
- Justice Studies, MS
- Psychology, Industrial/Organizational Psychology Concentration, MS
- Psychology, Research and Experimental Psychology Concentration, MA
- Public Administration, MPA
- Urban Planning, MUP

Certificates

- Accounting Fundamentals Certificate
- Advanced Accounting Topics Certificate
- Advanced Certificate in Geographic Information Systems (GIS) Certificate
- Advanced Communication(s) and Research Methods Certificate
- Advanced Global Leadership Certificate

- Advanced Social Work Practice in Gerontology Certificate
- Advanced Social Work Practice in Mental Health Certificate
- Advanced Taxation Certificate
- Affordable Housing and Community Development Finance Certificate
- Applications of Technology in Planning Certificate
- Business Analytics Certificate
- Clinical Genetic Molecular Biologist Scientist Training Program Certificate
- Clinical Laboratory Scientist (CLS) Training Program Certificate
- Community Design and Development Certificate
- Computational Linguistics Certificate
- Cybersecurity Engineering Certificate
- Cybersecurity Foundations Certificate
- Cybersecurity: Core Technologies Certificate
- Environmental Planning Certificate
- Ethics of Science and Emerging Technologies, Advanced Certificate
- Fundamentals of Cybersecurity Certificate
- Global Citizenship Certificate
- Global Philosophical Traditions Certificate
- Graduate TESOL Certificate (Not accepting students)
- High Technology Taxation Certificate
- High-Speed and Intercity Rail Management Certificate
- Higher Education Teaching Certificate
- International Taxation Certificate
- Library and Information Science Post-Master's Certificate
- Mindfulness-Based Health and Human Services Certificate
- Nursing Specialty Advanced Certificate
- Philosophy Post-baccalaureate Certificate
- Professional and Technical Writing Certificate
- Real Estate Development Certificate
- Secure Software Engineering Certificate
- Secure Test Engineering Certificate
- Six Sigma Black Belt Certificate
- Strategic Management of Digital Assets and Services Certificate
- Tax Practice Certificate
- Theory, Knowledge and Practice about Autism Spectrum Disorders Certificate (Not Accepting Students)
- Translation and Interpretation Certificate
- Transportation and Land Use Planning Certificate
- Transportation Management Certificate
- Transportation Safety, Security, and Emergency Management (TSSEM) Certificate
- Undergraduate TESOL Certificate

Credentials

- California Library Media Teacher Services Credential - now Teacher Librarian Credential
- Education Specialist Preliminary Teaching Credential: Early Childhood Special Education
- Education Specialist Preliminary Teaching Credential: Extensive Support Needs
- Multiple Subject Credential
- PK-3 Early Childhood Education (PK-3 ECE) Specialist Instruction Credential
- Pupil Personnel Services (PM-PPSC) Post-Master's Credential
- Education Specialist Preliminary Teaching Credential: Mild/Moderate Support Needs

- Pupil Personnel Services (PPS) School Counseling Credential
- Pupil Personnel Services (PPSC) Credential (Social Work)
- Single Subject Credential - Art
- Single Subject Credential - English
- Single Subject Credential - Mathematics
- Single Subject Credential - Music
- Single Subject Credential - Physical Education
- Single Subject Credential - Science
- Single Subject Credential - Social Science
- Single Subject Credential - World Languages
- Teacher Librarian Credential

Added Authorizations

- Adapted Physical Education Added Authorization
- Bilingual Authorization in Spanish
- Child Welfare and Attendance (CWA) Authorization
- Introductory Computer Science Supplementary Authorization
- Early Childhood Special Education Added Authorization (Not Accepting Students)

Master(s)

Interdisciplinary Studies, MA

- Overview
- Admissions Requirements
- Requirements for Advancement to Graduate Candidacy
- Requirements for Graduation

Overview

The Interdisciplinary Studies master's program for either an MA or MS provides an alternative for individuals whose desired plan of study does not fit into the degree offerings of any single existing graduate degree program on campus.

More information about the program can be found on the College of Graduate Studies website at www.sjsu.edu/cgs.

Admissions Requirements

Candidates apply separately to the university to obtain approval for university-level admission and to the College of Graduate Studies for admission to the Interdisciplinary Studies program. Candidates must meet all university admission requirements. They must also satisfy programmatic requirements, including a minimum 3.25 GPA in the last 60 semester units of post-secondary academic work.

The student must then complete, sign, and route the DocuSign PowerForm: Information and Application for Interdisciplinary Studies Majors. In brief, the application includes the signature of a tenured or tenure-track faculty member from San Jose State who agrees to chair the master's committee of the student. Approval of the proposed curriculum, periodic advice, and supervision of the student's research and culminating experience are required of the

faculty mentor. A summary of the proposed research and reasons for the appropriateness of the Interdisciplinary Studies program are also needed in advance of a positive admissions decision.

Finally, all coursework listed in the program of study must receive documented permission from the department(s) offering the courses to enroll. Once the application is completed, the application is routed to the applicant's advisor and the College of Graduate Studies Graduate Program Coordinator (Dr. Ted Butryn) who will make the final admissions decision. A copy will be sent to the Associate Dean (AD) of Graduate Studies. Please be sure to use proper email addresses for both your proposed program advisor and Dr. Butryn so that the form is reviewed and approved.

Applicants from countries in which the official language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage at GAPE.

Requirements for Advancement to Graduate Candidacy

General university requirements for advancement to candidacy for the Interdisciplinary Studies master's degree are detailed in the Graduate Policies and Procedures section. Candidacy includes the successful completion of the Graduation Writing Assessment Requirement (GWAR).

Requirements for Graduation

University Graduation Requirements

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

MA or MS - Interdisciplinary Studies Graduation Requirements

The program consists of an individualized program of 30 units in classes taken from at least two different departments; a minimum of half of the units must be in graduate-level classes. Prerequisite classes must be taken in excess of the 30 unit total. The program may be Plan A (thesis), Plan B (project, but under highly restricted circumstances), or Plan C (creative project). All courses must be approved by the AD of Graduate Studies. The culminating experience must be approved by the student's master's program advisor.

Interdisciplinary Studies, MS

- Overview
- Admissions Requirements
- Requirements for Advancement to Graduate Candidacy
- Requirements for Graduation

Overview

The Interdisciplinary Studies master's program for either an MA or MS provides an alternative for individuals whose desired plan of study does not fit into the degree offerings of any single existing graduate degree program on campus.

More information about the program can be found on the College of Graduate Studies website at www.sjsu.edu/cgs.

Admissions Requirements

Requirements for Advancement to Graduate Candidacy

General university requirements for advancement to candidacy for the Interdisciplinary Studies master's degree are detailed in the Graduate Policies and Procedures section. Candidacy includes the successful completion of the Graduation Writing Assessment Requirement (GWAR).

Requirements for Graduation

University Graduation Requirements

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

MA or MS - Interdisciplinary Studies Graduation Requirements

The program consists of an individualized program of 30 units in classes taken from at least two different departments; a minimum of half of the units must be in graduate-level classes. Prerequisite classes must be taken in excess of the 30 unit total. The program may be Plan A (thesis), Plan B (project, but under highly restricted circumstances), or Plan C (creative project). All courses must be approved by the AD of Graduate Studies. The culminating experience must be approved by the student's master's program advisor.

Advanced Certificate(s)

Advanced Communication(s) and Research Methods Certificate

The Advanced Communication(s) and Research Methods certificate program will allow postgraduate students to pursue interests in interdisciplinary study and earn an advanced certificate by enrolling in graduate or upper-division courses in writing, oral communication and data analysis across a wide array of academic discipline choices. Development of these skills are important in strengthening personal and professional relationships, enhance teamwork, and assist in job performance and advancement. Additionally, this program will allow the student to carefully consider pursuing a MA/MS Interdisciplinary Studies degree by allowing time to meet with potential advisors and develop a research project or thesis during their first academic semester and explore various academic avenues through a customized course of study.

This certificate should be completed through the course of a single semester. Students who wish to continue towards completion of either the Interdisciplinary Studies master's degree or other graduate degree should transfer into the program before their second semester. Students who require a second semester to complete the certificate should contact the Associate Dean of Graduate Studies for more information.

The College of Graduate Studies Associate Dean (CGS AD) serves as advisor for the certificate program and will review all student programs of study to ensure the following:

1. That students take at least one 3-unit course to fulfill each program requirement (i.e. writing, oral communication, and a methodology course).
2. Approved courses for enrollment are chosen based on student interest, potential double-counting into a graduate program, fulfillment of course prerequisites (if listed below), and evaluating a student's potential success in a proposed course (based on undergraduate record and previous course history).
3. As graduate-level courses are lower capped and may be restricted to students in a specific program, enrollment in a graduate course is permitted only after approval from either the course instructor or graduate coordinator.

Student Admissions

Students who wish to apply for this program do so through Cal State Apply for this regular session, advanced certificate program. Additionally:

1. Students will be admitted under the current Interdisciplinary Studies Master's admission standards for fall and spring semester.
2. Students will only be admitted to the program if they have met with the faculty program coordinator and drafted an approved course of study through the College of Graduate Studies application process currently used for the master's program. The approved courses will require either that the student has successfully completed prerequisites or have been given instructor approval.
3. Students will earn a certificate once the minimum 9 units have been completed. If a student wishes to move to the master's program, the student will do a Program Transfer via Office of Graduate Admissions and Program Evaluations and move into the master's if they are currently matriculated. If a student falls out of status, then they would have to reapply into the program.

University Advanced Certificate Requirements

Advanced certificate programs offer post-baccalaureate students coursework leading to a specific, applied, focused goal. In order to be eligible for admission to an advanced certificate, students complete an intake form or apply through CalState Apply and submit an official transcript(s) (noting the completion of a U.S. bachelor's degree from an accredited institution or the equivalent of a U.S. bachelor's degree from an accredited and/or recognized institution from a foreign country). To be admitted, students must have a minimum of 2.5 undergraduate GPA.

Students must maintain a minimum GPA of 3.0 in all advanced certificate coursework, and no course with a grade less than "C" may be counted toward the certificate. A maximum of 4 units of coursework with a grade of "C" can count toward an advanced certificate. A maximum of 4 units of coursework may be repeated. Undergraduate lower division courses are not applicable to advanced certificates.

Generally, a maximum of 33% of advanced certificate units (e.g., 3 units for a 9-unit certificate) can be completed in non-matriculated status at SJSU with approval from the department or school. In some cases, an advanced certificate

may be completed entirely in non-matriculated status if the student has received approval from the department or school and the Associate Dean of Graduate Programs in the College of Graduate Studies.

A maximum of 30% of any graduate degree program units (e.g., 9 units for a 30-unit Master's degree) can be completed from another institution and/or units from Open University (including advanced certificate courses) at SJSU with approval from the department or school.

The choice of grading requirements may have implications for transferability to degree programs (University Policy S16-17).

The advisor/director of the program is responsible for verifying a student's satisfactory completion of the academic requirements established for the program and for forwarding a copy of the certificate audit completion form to the Office of Graduate Admissions and Program Evaluations. The Office of the Registrar records the completion of the program on the student's transcript.

Certificate Requirements (9-12 units)

Graduate Writing (3-4 units)

In consultation with the CGS AD, choose one of the following courses graduate writing courses (GWAR certified/graduate level):

- ECON 203A - Economic Research Methods 3 *unit(s)* (GWAR)
- EDLD 212 - Diversity, Equity, and Social Justice in Higher Education 3 *unit(s)* (GWAR)
- EDTE 208 - Educational Sociology 3 *unit(s)* (GWAR)
- HIST 221 - Seminar in World History 4 *unit(s)* (GWAR)
- HIST 230 - Seminar in Ancient and Medieval Europe 4 *unit(s)* (GWAR)
- HIST 240 - Seminar in Pre-Twentieth Century Europe 4 *unit(s)* (GWAR)
- HIST 241 - Seminar in Twentieth Century Europe 4 *unit(s)* (GWAR)
- HIST 272 - Seminar in American Diplomatic History 4 *unit(s)* (GWAR)
- HIST 274 - Seminar in US Social & Cultural History 4 *unit(s)* (GWAR)
- HIST 276 - Seminar in Early American History 4 *unit(s)* (GWAR)
- HIST 280 - Seminar in Recent American History 4 *unit(s)* (GWAR)
- HIST 283 - Seminar in California and Western History 4 *unit(s)* (GWAR)
- HIST 288 - Seminar in the History of Women in the United States 4 *unit(s)* (GWAR)
- JS 201 - Justice and Social Theory 3 *unit(s)* (GWAR)
- KIN 250 - Fundamentals of Quantitative Research 3 *unit(s)* (GWAR)
- LLD 250W - Becoming a Professional in Linguistics/TESOL 3 *unit(s)* (GWAR)
- MCOM 210 - Media and Social Issues 3 *unit(s)* (GWAR)

Leadership:

Heather Lattimer, Interim Vice Provost for Undergraduate Education (Education)
Melinda Jackson, Associate Dean of Undergraduate Education (Political Science)

Overview

Undergraduate Education (UE) is involved with all aspects of undergraduate academic matters that support retention and graduation of students. It includes the following areas and programs: Academic Preparation Programs, Campus Reading Program, Center for Community Learning and Leadership, CommUniverCity, General Education, Catalog, and Curriculum.

The courses offered by UE under the subject **University Studies (UNVS)** promote leadership, integrated and applied interdisciplinary academic experiences for students. UE also sponsors the Interdisciplinary Studies undergraduate degree, which is an individually designed course of study leading to a BA or BS degree. The Interdisciplinary Studies degree is designed for situations in which no existing university-level SJSU undergraduate degree major adequately accommodates academic professional aims. Students who complete an Interdisciplinary Studies degree shall be able to demonstrate the characteristics of "intentional learners" who can adapt to new environments, integrate knowledge from different sources, and continue learning throughout their life.

Undergraduate Major(s)

Interdisciplinary Studies, BA

The Office of Undergraduate Education sponsors the Interdisciplinary Studies, BA. The Interdisciplinary Studies major is designed for situations in which no existing SJSU undergraduate degree adequately accommodates academic professional aims. Students who complete the major shall be able to demonstrate the characteristics of "intentional learners" who can adapt to new environments, integrate knowledge from different sources, and continue learning throughout their life.

The Interdisciplinary Studies major is an individually designed, interdisciplinary course of study leading to a BA that gives a student who has a specific educational objective the opportunity to accomplish that goal. It is not to be used to bypass normal graduation requirements or projected programs of the University, nor to substitute for a major in which a student is having academic difficulty.

- Major Requirements (40 units)
- Procedures to Apply for the Interdisciplinary Studies BA

Program Learning Outcomes

The proposed course of study must be a coherent program organized around an academic theme. Students who complete the major shall be able to demonstrate: "the ability to analyze an issue or problem, integrating at least two disciplinary perspectives." In addition, students identify two or more student learning outcomes related to their specific areas of study in consultation with a major faculty advisor. They demonstrate their attainment of the learning outcomes through a portfolio or senior project completed in a capstone course.

Eligibility Requirements

Applicants must have both a cumulative and SJSU GPA of at least 2.75, at least sixty units earned (upper division standing), and at least one year of academic work still to be completed to meet minimum degree requirements. Interdisciplinary Studies majors are considered on a case-by-case basis. Approval is based on the academic merit of the proposed course of study, the applicant's proposed rationale and potential for successful completion of the program, and the ability of the university to support the proposed program. Students apply for consideration for the major through the Office of Undergraduate Education.

University Requirements

Students must satisfy all of the major and Undergraduate University Graduation Requirements, which includes unit, GPA, and residency requirements as well as the below identified General Education, American Institutions, Graduation Writing Assessment, and Physical Education requirements. Courses that meet Undergraduate University Graduation Requirements are noted with an area designation (see Course Note Abbreviations).

Core Lower Division General Education (39 units)

Courses that meet GE Areas A1, A2, A3, B4, or F must be passed with a "C-" or better to meet the requirement. Consult with a major advisor for details.

Upper Division General Education (9 units)

American Institutions (6 units)

Complete one 6-unit sequence of American Institutions (US123) courses, which also satisfies GE Area D. Students may also satisfy the American Institutions Requirement with other courses, but these may not satisfy other GE areas.

The American Studies sequence (AMS 10/AMS 11; 6 units) satisfies the American Institutions Requirement and additional GE Areas (see course descriptions for details).

Consult with a major advisor to select the appropriate sequence.

African American Studies (6 units)

- AFAM 2A - African Americans and the Development of America's History and Government 3 *unit(s)* (D)
- AFAM 2B - African Americans and the Development of America's History and Government 3 *unit(s)* (D+US123)

Asian American Studies (6 units)

- AAS 33A - Asian Americans in U.S. History I 3 *unit(s)* (D)
- AAS 33B - Asian Americans in U.S. History II 3 *unit(s)* (D+US123)

Chicana and Chicano Studies (6 units)

- CCS 10A - Mexican Americans and the Development of U.S. History and Government 3 *unit(s)* (D)
- CCS 10B - Mexican Americans and the Development of U.S. History and Government 3 *unit(s)* (D+US123)

U.S. History and Government (6 units)

Complete One US1: US History Course

- AMS 10 - Stories that Make America 3 *unit(s)* (C2+US1)
- HIST 15 - Essentials of U.S. History 3 *unit(s)* (D+US1)
- HIST 170S - Topics in American History: American Identities and Institutions 3 *unit(s)* (S+US1)

Complete One US23: US Constitution and California Government Course

- AMS 11 - Visions of Democracy 3 *unit(s)* (D+US23)
- POLS 15 - Essentials of U.S. & California Government 3 *unit(s)* (D+US23)
- POLS 16 - Power and Ideas in American Politics 3 *unit(s)* (C2+US23)
- POLS 170V - American Politics in Global Perspective 3 *unit(s)* (V+US23)

Physical Education (2 units)

All SJSU undergraduate students, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate students' needs and interests, the university offers a diverse selection of activity courses.

Graduation Writing Assessment Requirement (3 units)

At SJSU, students must pass a Writing in the Disciplines (100W) course with a grade of C or better (C- not accepted) is required to meet graduation requirements. Exceptions to the GVAR may be found in the Graduation Writing Assessment Requirement (GVAR) section.

Major Requirements (40 units minimum)

- Students must formally request admission to the Interdisciplinary Studies major program through the Office of Undergraduate Education.
- The student must cite academic and professional objectives and describe the nature of the proposed major. The student must have at least one year of academic work still to be completed to meet the minimum degree requirements.
- The student must have both cumulative and an SJSU GPA of at least 2.75.

Procedures

Before, during, and after the initial consultation with the Associate Dean for Undergraduate Education, student must complete the following:

- A written reflective statement that includes:
 - description of the proposed major;
 - discussion of why existing majors are not suitable;
 - a reflection on what it means to the student to be an "educated person" and how this major will help the student to become one;
 - academic, professional, and personal objectives; and,
 - how does your Interdisciplinary Studies major help you to meet your academic, professional, and personal objectives?
- Note: Students requesting academic accommodations due to disability-related limitations are encouraged to register with the Accessible Education Center as soon as possible. Register online at [How to Register With AEC](#).
- A major course of study plan that includes:
 - 40-45 total units in the major;
 - 24 units in residence at SJSU; and,
 - 30-40 units in upper division.

- Student must meet with department advisor(s) and have a suggested major advisor (Undergraduate Education does not assign advisors, students pick major advisor).
- Completion of the major course of study plan in consultation with the suggested major advisor and other departments involved in the program;
- Preparation of the Interdisciplinary Studies Major worksheet and evaluation of General Education and graduation requirements in consultation with the Associate Dean for Undergraduate Education. Approval of Interdisciplinary Studies Major Worksheet; and,
- Approval of modifications in Course of Study by Associate Dean for Undergraduate Education.
- If Interdisciplinary Studies Major is approved, students must complete the following:
 - A Change of Major Form;
 - Major Form (will be completed between the student, department advisor(s), and Associate Dean for Undergraduate Education);
 - Application for Graduation; and,
 - Forms must be completed and submitted at least 1 year prior to graduation.

Diploma and transcript will contain the title (Interdisciplinary Studies) followed by the exact title of the major listed in the Major Form.

University Electives (27 units)

Total Units Required (120 units)

Interdisciplinary Studies, BS

The Office of Undergraduate Education sponsors undergraduate degrees as an Interdisciplinary Studies, BS. The major is designed for situations in which no existing SJSU undergraduate degree major adequately accommodates academic professional aims. Students who complete a Interdisciplinary Studies major shall be able to demonstrate the characteristics of "intentional learners" who can adapt to new environments, integrate knowledge from different sources, and continue learning throughout their life.

The Interdisciplinary Studies major is an individually designed, interdisciplinary course of study leading to a BS that gives a student who has a specific educational objective the opportunity to accomplish that goal. It is not to be used to bypass normal graduation requirements or projected programs of the University, nor to substitute for a major in which a student is having academic difficulty.

- Major Requirements (40 units)
- Procedures to Apply for the Interdisciplinary Studies BS

Program Learning Outcomes

The proposed course of study must be a coherent program organized around an academic theme. Students who complete the Interdisciplinary Studies major shall be able to demonstrate: "the ability to analyze an issue or problem, integrating at least two disciplinary perspectives." In addition, students identify two or more student learning outcomes related to their specific areas of study in consultation with a major faculty advisor. - Forms must be completed and submitted at least 1 year prior to graduation.

Diploma and transcript will contain the title (Interdisciplinary Studies) followed by the exact title of the major listed in the Major Form.

University Electives (27 units)

Total Units Required (120 units)

Undergraduate Minor(s)

Interdisciplinary Studies Minor

The Interdisciplinary Studies Minor provides a curricular mechanism to motivate students to take interdisciplinary courses in service of solving pervasive social and societal problems. Students in any major will benefit from a minor that teaches them how to approach pressing problems from multiple perspectives and to arrive at solutions and recommendations that align with their interests and that draw on their academic training. Students work in supervised teams to ask historical, ethical, and technical questions; do research; propose and prototype solutions.

Students with at least a 3.5 GPA in the minor will receive an Honors designation on the transcript.

Minor Prerequisites

Students must have completed 60 units when they start the minor, be in good academic standing, and submit an application. For more information, email honorsx@sjsu.edu.

Minor Requirements (9 units)

- UNVS 120 - Conceptualizing Complex Problems 3 *unit(s)*
- UNVS 121 - Social Problems Topics 3 *unit(s)*
- UNVS 122 - Steps in Real-World Problem Solving 3 *unit(s)*

Additional Required Courses (6 units)

Complete any combination of courses from the following:

- UNVS 101 - Leadership and Career Accelerator
- UNVS 123 - HonorsX Explorations
- UNVS 124 - HonorsX Research or Practicum Experience
- One or more General Education (GE) courses relating to HonorsX topic 3 *unit(s)*

Note: Any upper-division GE course(s) related to the HonorsX topic can double-count for the Minor.

- One or more upper-division electives relating to HonorsX topic 3 *unit(s)*

Note: Any upper-division elective(s) related to the HonorsX topic can double-count for the Minor.

- One upper-division course from your major relating to HonorsX topic 3 *unit(s)*

Note: One course for your major requirements relating to the HonorsX topic can double-count for the Minor.

Total Units Required (15 units)

Basic Certificates University Requirements

Basic certificate programs provide opportunities for students to pursue specialized, often pre-professional, focused educational objectives that may be separate from a degree program. At least 6 units must be completed at SJSU. Students must have a minimum GPA of 2.0 in basic certificate coursework in order to be awarded a certificate. Generally, a maximum of 33% of basic certificate units (e.g., 3 units for a 9-unit certificate) can be completed in non-matriculated status at SJSU with approval from the department or school. In some cases, a basic certificate may be completed entirely through Open University if the student has completed a Bachelor's degree and received approval from the department or school (University Policy S16-17 A). If a student has completed a Bachelor's degree and received approval from the department or school, a basic certificate may be completed entirely through Open University.

The advisor/director of the program is responsible for verifying a student's satisfactory completion of the academic requirements established for the program and for forwarding a copy of the certificate completion form to the Office of the Registrar. The Office of the Registrar records the completion of the program on the student's transcript.

Advanced Certificates University Requirements

Advanced certificate programs offer post-baccalaureate students coursework leading to a specific, applied, focused goal. In order to be eligible for admission to an advanced certificate, students complete an intake form or apply through CalState Apply and submit an official transcript(s) (noting the completion of a U.S. bachelor's degree from an accredited institution or the equivalent of a U.S. bachelor's degree from an accredited and/or recognized institution from a foreign country). To be admitted, students must have a minimum of 2.5 undergraduate GPA.

Students must maintain a minimum GPA of 3.0 in all advanced certificate coursework, and no course with a grade less than "C" may be counted toward the certificate. A maximum of 4 units of coursework with a grade of "C" can count toward an advanced certificate. A maximum of 4 units of coursework may be repeated. Undergraduate lower division courses are not applicable to advanced certificates.

Generally, a maximum of 33% of advanced certificate units (e.g., 3 units for a 9-unit certificate) can be completed in non-matriculated status at SJSU with approval from the department or school. In some cases, an advanced certificate may be completed entirely in non-matriculated status if the student has received approval from the department or school and the Associate Dean of Graduate Programs in the College of Graduate Studies.

A maximum of 30% of any graduate degree program units (e.g., 9 units for a 30-unit Master's degree) can be completed from another institution and/or units from Open University (including advanced certificate courses) at SJSU with approval from the department or school.

The choice of grading requirements may have implications for transferability to degree programs (University Policy S16-17).

The advisor/director of the program is responsible for verifying a student's satisfactory completion of the academic requirements established for the program and for forwarding a copy of the certificate audit completion form to the Office of Graduate Admissions and Program Evaluations. The Office of the Registrar records the completion of the program on the student's transcript.

Minors Policy

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major, and coursework for the minor must include a minimum of 6 upper-division units (University Policy S16-4). Minor preparation or minor support courses do not count toward the 12 distinct units. Of the coursework for the minor, at least 6 units must be completed in residence at SJSU. The minimum aggregate GPA for all coursework required for the minor must be at least 2.0.

Administration and Leadership

A Shared Vision

Leadership at San Jose State is defined by a belief that shared decision making and collaborative university governance is at the core of our culture. With this inclusive approach as a guide, President Cynthia Teniente-Matson and the university's leadership promote discussion and engagement among faculty, staff, students and the community to shape and accomplish the goals of San Jose State.

Overview

Since 1928, the College of Business has served the business education needs of our community. We provide San José and Silicon Valley with talent, thought leadership and service, ensuring our region's growth in the global marketplace. An institution of opportunity, our accessible, high-value education empowers and transforms the lives of people of all ages and backgrounds. Both our challenging undergraduate curriculum and our innovative graduate program in the Donald and Sally Lucas Graduate School of Business equip graduates with the tools, work ethic and skills to succeed in the ever-changing global economy.

The Donald and Sally Lucas College and Graduate School of Business is the institution of opportunity, providing innovative business education and research for the Silicon Valley region and beyond since 1928. The College offers an accessible, high value education that empowers people of all ages and backgrounds to transform their lives. Faculty and staff are strongly committed to the College's mission; maintain a collegial, inclusive teaching and learning environment; and are dedicated to continuous improvement in all areas of academic achievement, scholarship, teaching and service.

The college is an active member of the San José and Silicon Valley community and provides a talent pool, thought leadership and service that supports the region's growth in the global marketplace. The college is one of the 755 institutions worldwide that are accredited by the prestigious AACSB International, the Association to Advance Collegiate Schools of Business. Fewer than five percent of business programs worldwide have earned the AACSB's certification of excellence. In addition, the college is accredited by the WASC Senior College and University Commission (WSCUC) and the California State Board of Education.

The college is dedicated to equipping graduates with the tools, work ethic and skills to succeed in the ever-changing global economy. This is accomplished through a challenging undergraduate curriculum and an innovative, high quality graduate education in the Donald and Sally Lucas Graduate School of Business.

The Business Honors Practicum

The Business Honors Practicum provides the best students in the College of Business with the opportunity to apply what they have learned in the classroom to real business problems. Students are selected based on a combination of high GPA, prerequisites, and excellent communication skills. Students are typically placed in groups of three to work on projects at Silicon Valley businesses for college course credit. The program also includes international study trips, executive level guest speakers, and networking events. Through seminar sessions students are also exposed to current issues, ideas, and practices in their own disciplines and other fields of business. Students who complete two semesters in the program, have a 3.5 GPA or above and write a scholarly paper qualify to graduate with honors from the College of Business.

Undergraduate Business Education

The college provides a rich undergraduate education through six departments and schools - Accounting and Finance, Global Innovation and Leadership, Hospitality, Tourism and Event Management, Information Systems and Technology, Management, and Marketing and Business Analytics. Infused throughout the undergraduate program are opportunities to develop competencies in a number of key areas -- communication, teamwork, global perspectives, critical thinking, ethics, entrepreneurship, community service, and innovation. The rigorous and challenging curriculum prepares graduates to be future leaders that succeed in the global economy.

The college is building upon its existing expertise in entrepreneurship, management, global finance, accounting, and leadership and organizational change. In addition, the college showcases the best and brightest students through the Business Honors Program and the Thompson Global Internship Program.

Jack Holland Student Success Center

Email: jackholland-center@sjsu.edu

Website: <https://www.sjsu.edu/lcobssc/>

The Jack Holland Student Success Center, located on the garden level of the Boccardo Business Center, provides advice to students about undergraduate business courses and programs. Prospective students are encouraged to talk with advisors about requirements for business major and general education courses. Prospective graduate students are encouraged to meet a graduate advisor in the Graduate Program Office in the Business Tower.

Business Tutoring Centers

Peer Connections supports students through tutoring, mentoring, supplemental instructions, learning assistants and student success events in an inclusive, welcoming environment. Peer Connections serves business students in the Boccardo Business Center room BBC 303 for 1:1 tutoring and in the Business Tower room BT 053 for group tutoring sessions.

Donald and Sally Lucas Graduate School of Business

The Donald and Sally Lucas Graduate School of Business offers a high-value education with a global focus, innovative programs, and deep ties to Silicon Valley corporations and leaders. Our distinguished faculty provide a relevant business education focusing on excellence in teaching and applied research and serving the needs of diverse students from the Silicon Valley and beyond.

We offer an Early Career MBA program with three tracks: accelerated (12 months), full-time (21-24 months), and part-time (33-36 months). Our MBA for Professionals is a flexible part-time program suitable for working professionals who set their own pace. We also offer a STEM designated Master of Science in Accounting and Analytics, Master of Science in Finance, Master of Science in Taxation, and Master of Science in Transportation Management.

Overview

The Accounting and Finance Department teaches students broadly in the areas of accounting, finance, and accounting information systems. The curriculum develops analytical mindsets and technical competencies needed to prepare, analyze, and interpret data, make sound financial decisions, and communicate to stakeholders. Extensive career prospects, breadth of concentration choices, and numerous experiential and networking opportunities make admission to this department and its concentrations highly competitive.

Overview

Where better to study hospitality management than in the heart of Silicon Valley, San Jose, California and the Bay Area? Thanks to our world-renowned high tech companies, and vibrant metropolitan location, we attract millions of national and international visitors each year. According to a recent CSU impact report, hospitality ranks as one of the state's top growth industries, ensuring that the demand for hospitality professionals will only increase. Our innovative, technology-driven curriculum and faculty provide the theoretical, practical, and professional training students need to pursue successful and meaningful careers. Our Bachelor of Science in Business Administration concentration in Hospitality, Tourism and Event Management pairs academic study with hands-on experience and internships. Our graduates find employment as hotel/resort general managers, restaurant managers, private club managers, controllers, sales and marketing managers, human resources managers, concierge, catering and corporate event coordinators/producers, and convention and tradeshow managers. Come join our team!

Overview

Students interested in a career in marketing or business analytics can choose from one of two concentrations in the Department of Marketing and Business Analytics. A concentration in Marketing prepares students to pursue a career in a number of different areas such as sales and promotion, marketing management and social media marketing, in just about any sector.

For students interested in quantitative approaches to business decision-making, the Department of Marketing and Business Analytics offers a concentration in Business Analytics that prepares students to pursue a career as business analyst in any area (e.g., marketing analyst, financial analyst), in just about any sector.

Lucas Graduate School of Business

Office: Business Tower 350

Telephone: 408-924-3420

Email: lucas-school@sjsu.edu

Website: www.sjsu.edu/lucasgsb

The Donald and Sally Lucas Graduate School of Business offers the following graduate degree programs:

- Master of Business Administration
 - Early Career MBA
 - MBA for Professionals (Special Session)
- Master of Science in Accounting and Analytics
- Master of Science in Finance
- Master of Science in Taxation (Special Session)
- Master of Science in Transportation Management (Special Session)

All of the Lucas School's business degree programs are accredited by AACSB International - The Association to Advance Collegiate Schools of Business.

Mission of the Donald and Sally Lucas Graduate School of Business

The Lucas School provides advanced business and professional education to high potential individuals with diverse backgrounds and work experiences. We prepare our graduates to make responsible, personally enriching, and professionally advantageous decisions. The Lucas School's business programs bring together an interesting mix of full-time and part-time students from a variety of academic, career, and cultural backgrounds. Given SJSU's Silicon Valley location, students come to the classroom with a wealth of real-world experience, including technical expertise (in engineering or software, for example), and a desire to develop business acumen, advance in managerial positions, or deepen their knowledge base.

Our Programs

The programs are innovative in design and delivery and offer a range of academically challenging and multi-disciplinary opportunities that enable students to improve and keep pace continuously within the dynamic Silicon Valley environment.

1. The **Master of Business Administration** provides advanced management education with the opportunity for a generalist degree. The Lucas MBA programs offer high caliber applied learning in an enriching

environment thoroughly integrated with the Silicon Valley Experience. Courses are taught by an optimal faculty mix of academics involved in cutting edge research and professionals with extensive experience in the mosaic of businesses that constitute Silicon Valley. Students are exposed to leading business practices in the classroom and networking opportunities as an integral part of an innovative educational experience. The Lucas MBA programs consist of forty-two semester units including thirty units of core courses and twelve units of elective courses. Within an MBA program, all students complete the same core courses whereas the elective courses are selected depending on the individual's interests and learning objectives.

1. The Early Career MBA is a program tailored for individuals with limited professional work experience (0-5 years). Classes are conducted in a hybrid format, with a mix of in-person classes and live online classes. In-person class sessions meet on the vibrant San José State University Campus where students have access to a wealth of resources. Courses typically meet evenings and Saturdays in eight-week sessions during the Fall and Spring semesters and five-week sessions during the Summer semester. Students follow a pre-set sequence of core courses and select elective courses depending on their individual interests. An approved three unit Internship may count as one of the elective courses. This unique MBA program offers three different tracks that vary in length and pace:
 - Accelerated Track - Designed for individuals who are willing to follow a very intense academic pace and wish to complete their MBA degree in 12 months.
 - Full-Time Track - Designed for individuals who are interested in completing their MBA degree in 21-24 months. The full-time track is ideal for international students and complies with all student visa requirements.
 - Part-Time Track - Designed for individuals who are working in full-time professional positions and are interested in completing their MBA degree in 33 to 36 months.
2. The MBA for Professionals is a Special Session program that is tailored for individuals with extensive professional work experience (5+ years). Offering a high level of flexibility, this program accommodates students with demanding work and life schedules. Classes are conducted in a hybrid format, with a mix of in-person classes and live online classes. In-person class sessions meet on the vibrant San José State University Campus where students have access to a wealth of resources. The diverse educational and professional backgrounds of the students makes the Silicon Valley Experience for Professionals an integral part of the MBA curriculum. Courses typically meet evenings and Saturdays in eight-week sessions during the Fall and Spring semesters and five-week sessions during the Summer semester, with some elective courses available online. Students are able to choose and adjust the pace at which they complete their degree. This program can be completed in 2 to 3 years.
2. The MS - Accounting and Analytics (MSAA) is a STEM designated program that prepares students for careers in public, corporate, and governmental accounting. Students develop and apply an analytics-oriented mindset to audit, tax, advisory and managerial scenarios. Coursework is structured to combine academic learning and accounting internship experience in a well-rounded preparation for careers in professional accounting. The program balances technical study and preparation for the CPA exam with business soft skills needed for recruitment and a career in accounting. The 30-unit program admits both accounting and non-accounting undergraduate majors in a competitive process. Non-accounting undergraduate students have the opportunity to prepare for the program in a 15-unit summer certificate program preceding fall enrollment in the MSA. Courses are taught in a hybrid format with a mix of live online and in-person classes. In-person classes meet on the San Jose State University Campus.
3. The MS - Taxation (MST) is a Special Session program that offers students technical tax knowledge, an understanding of tax policies and research and analytical skills development. Study of the tax law is enhanced through discussion of related accounting, legal and financial concepts and issues. The academic calendar is designed around the scheduling needs of working tax professionals. The extensive range of courses allows students flexibility in career specialization. The MST courses are offered on the San José State University Campus.
4. The MS - Transportation Management (MSTM) is a Special Session program that provides opportunities for individuals from both technical and non-technical disciplines to obtain advanced specialization in surface transportation management. The program draws on the latest in transportation policy, administration and management concepts from several disciplines, and enables students to develop a fuller understanding of

the diverse and sometimes conflicting needs of modern transportation management for better serving their employers, community and society. The degree is available through distance-learning facilities and online video-conferencing.

Overview

The School of Management offers two concentrations - Management and Human Resource Management. The Management concentration provides students with opportunities to develop technical, interpersonal, communication, and decision-making skills to effectively carry out management functions. Graduating with this concentration leads to occupations such as project managers, consultants, and entry level managers. The Human Resource Management concentration focuses on how to maximize the efforts and productivity of employees within organizations. This concentration provides students the opportunity to acquire HR positions such as HR generalists, recruiters, and compensation analysts.

Leadership:

Heather Lattimer, Dean
Mark Felton, Associate Dean of Research

Overview

The Connie L. Lurie College of Education is a professional community of students, faculty and staff engaged in supportive partnerships to serve a community of culturally diverse children, youth and families by pursuing and promoting scholarly and reflective inquiry, and access to a quality lifelong education. Faculty, staff and graduates are compassionate and ethical professionals who are mindful of our responsibilities in a democratic society. The College's core values are excellence and equity. Excellence is manifested in the rigor of our academic programs, in our teacher/scholar faculty contributions, and in the high level of staff service. We challenge our students to strive for excellence in their academic and personal pursuits, as informed and active citizens in their own communities. To achieve equity, our students, faculty, and staff continuously work for social justice and educational opportunities for all members of our society.

The college offers Bachelor's and Master's degrees, a doctoral program, and numerous professional credentials. Programs are offered through six academic departments.

- Child and Adolescent Development
- Communicative Disorders and Sciences
- Counselor Education
- Educational Leadership
- Special Education
- Teacher Education

The college, housed in William Sweeney Hall, offers a variety of resources including the Student Success Center, the Kay A. Armstead Center for Communication Disorders and the Child Development Laboratory Preschool, as well as two computer laboratories that are open to both undergraduate and graduate students. Students also have access to other high tech education applications.

Student Service Centers

The Kay A. Armstead Center for Communication Disorders provides speech-language-hearing evaluations and therapy services to students, staff, faculty, and the local San Jose community.

The Child Development Laboratory Preschool includes the Toddler and Multi-Age Labs on the SJSU campus. These programs provide undergraduates with both observation and hands-on clinical/practicum opportunities and engagement.

The Credential Services Office recommends candidates for their credentials upon program completion. Additionally, the office provides resources and services to aid in meeting various requirements, including basic skills, subject matter competency, and other prerequisites for program admission and completion. Information regarding elementary (Multiple Subject), secondary (Single Subject), and special education (Education Specialist) teaching credentials, alongside other service credentials and certificate programs, is readily accessible.

The Lurie College Student Success Center provides in-person and virtual academic advising for undergraduate students majoring or intending to major in any of the departments in the College of Education. The Student Success Center team provides academic planning, including General Education (GE), university policies and procedures, change of major/minor, academic notice, disqualification, and reinstatement. We promote lifelong learning and provide students with resources to make informed decisions about their academic and career goals. We are committed to creating a clear path to graduation and student success.

Advising

Advising and information related to applications are handled through the six academic departments.

These departments include Child and Adolescent Development, Communicative Disorders and Sciences, Counselor Education, Educational Leadership, Special Education, and Teacher Education.

Overview

Interested in becoming an elementary school teacher? An early childhood educator? An advocate working with agencies to serve children, youth, and families? A degree in child and adolescent development is excellent training for careers involving children and families. Or perhaps you already possess entry-level credentials, already work with children and youth and want to advance your career. A wide range of professionals - from childcare administrators to parent educators, child/youth advocates to child and family counselors; to pediatric nurses to healthcare workers - have gained the knowledge and expertise they needed to move ahead in the workplace through our bachelor's and master's degree programs. ChAD's curriculum incorporates theory, research, policy and practice, providing students with a comprehensive understanding of children and adolescents. The department offers hands-on training with numerous activities in community agencies and the department's campus laboratory preschool. Students graduate as well-informed, responsible individuals, sensitive to the commonalities and diversities of the world and its people.

Honors Program

Students who are majoring in Child and Adolescent Development and have maintained a 3.5 GPA in the major are eligible to apply to the Child and Adolescent Development Honors Program. Once accepted into the program, students must enroll in CHAD 199 - Honors in Child & Adolescent Development. Students who maintain the required GPA and successfully complete CHAD 199 will graduate with Honors in Child and Adolescent Development. Interested students should contact the Child and Adolescent Development department for more information.

Overview

The mission of the Department of Communicative Disorders and Sciences is to prepare creative, evidence-informed, critical thinkers and change agents for a profession in speech-language pathology and related fields. This work prioritizes clinical education and research that reflect, elevate, and advocate for the interests and needs of our diverse communities. We do this with a culturally responsive and student-centered focus. One of the first Communicative Disorders and Sciences programs in California, the department has prepared students for careers as speech-language pathologists and audiologists for more than 50 years. Speech-language pathologists identify, evaluate, and provide interventions for children and adults with speech, language, cognitive-communicative, and swallowing disorders. Audiologists diagnose and treat individuals with hearing and balance disorders. Our academic and pre-clinical undergraduate curriculum provides the basis for further graduate study, required for a career in speech-language pathology and audiology. Our Master's Degree program in Speech Language Pathology is accredited by the Council on Academic Accreditation of the American Speech-Language and Hearing Association and by the California Commission on Teacher Credentialing. Members of the SJSU community and the larger community receive speech, language, and hearing services at the Kay Armstead Center for Communicative Disorders (KACCD).

Overview

The Counselor Education Department prepares individuals to work as counselors in culturally and economically diverse K-12 schools, postsecondary education settings, and community-based organizations. The department offers a Master's degree in Counseling and Guidance, with specializations in K-12 School Counseling [including a Pupil Personnel Services (PPS) School Counseling Credential, and a Child Welfare and Attendance (CWA) authorization], Higher Education, and Professional Clinical Counseling. Faculty work closely with graduate students to build effective counseling and assessment skills; nurture reflective thinking and intercultural awareness; and provide the experiences needed to become dynamic, culturally-sustaining counselors who are committed to advocacy, social justice, and lifelong learning. Graduates are prepared to support the personal growth, holistic wellness, and healthy development of individuals and groups through counseling approaches that are strengths-based and grounded in theory, research, and effective practices.

Please see the Counselor Education Department website for most current program offerings and requirements.

Overview

The Department of Educational Leadership prepares leaders to champion anti-racist and emancipatory approaches to leadership. We equip our graduates with the skills, knowledge, and experience to engage with and learn from the community cultural wealth of the diverse communities we serve.

The department offers undergraduate, masters, doctoral, and certificate programs. The Ed.D. program in Educational Leadership emphasizes social justice and human centered approaches to educational leadership. The program builds on the view that educational leaders serve in learner-centered systems in which inquiry, learning, equity and social justice, and human care are central concerns. The program's vision is to prepare the next generation of leaders with the knowledge, skills, and dispositions necessary to understand the causes of inequitable outcomes in PK-12 and higher educational institutions. Students in this program assess and develop pedagogies, practices, policies, and curricula that hold the potential to improve the life chances of all students, especially minoritized students.

The department offers a streamlined pathway from the MA to the Ed.D. to students in the Emancipatory School Leadership Program (MELS) and the Higher Education Leadership Program (HELM). Eligible students must be currently enrolled in the MELS or HELM program in good academic standing, with no probation and/or academic notices, and with intentions to pursue an Ed.D. in Educational Leadership.

Overview

The SJSU Department of Special Education prepares candidates to be transformative leaders in the field, and lifelong learners who respond to racism, ableism, bigotry, and prejudice in their schools and communities. To this end, we center anti-racist and anti-ableist policies and practices in our teaching, research, and service to disrupt systemic racism that has historically prevented full inclusion and equity for students with disabilities including our BIPOC (Black, Indigenous, People of Color) students, staff, and faculty. We engage culturally sustaining pedagogies and the principles of UDL in our coursework and fieldwork, partnering with our local districts to push for the success of students with disabilities in inclusive settings.

The Department of Special Education offers a Master's of Arts in Special Education as well as three Preliminary Education Specialist Teaching Credentials: Mild/Moderate Support Needs, Extensive Support Needs, and Early Childhood Special Education. Students have the option to complete the program as a traditional student, an intern student or as part of a Teacher Residency Program. The SJSU Education Specialist credential programs are accredited by the California Commission on Teacher Credentialing and students must meet requirements set forth by this agency and the state of California in order to earn a teaching credential, which include meeting testing and fieldwork requirements in addition to SJSU coursework.

Department of Special Education Credential Programs Admission Requirements

1. CSU Apply application with statement of purpose.
2. Bachelor's degree from a regionally accredited institution of higher education.
3. Grade point average (GPA) of at least 2.75 in last 60 units of coursework.
4. 45 hours of Pre-professional experience.
5. Certificate of Clearance (fingerprint clearance) from California Commission on Teacher Credentialing (CTC).
6. Two letters of recommendation.
7. Verification of Basic Skills or the California Basic Education Skills Test (CBEST) - submit by end of first semester in program.
8. Verification of Subject Matter Competency or California Subject Examination for Teachers - submit by end of first semester in program.

Upon review of submitted document applicants may be called for a department interview. Additional requirements must be met for candidates to be eligible for the Intern Program. Applicants are encouraged to attend a department information session for more information about the application process and program offerings. Students must complete each class with a B or higher and maintain a GPA of 3.0 in the program.

Overview

The Teacher Education Program (TED) at San José State University is California's oldest public teacher preparation program. We are committed to preparing the highest quality PK-12 educators, with knowledge, skills, dispositions, and ethics to teach students in our culturally diverse and technologically complex global communities. Teaching is a reliable and rewarding profession for those desiring to influence the lives of children and adolescents. TED prepares teachers who focus on students and their learning needs through culturally sustaining pedagogy, antiracist practices, and other asset-oriented approaches to emancipatory education.

TED offers preparation for PK-3 ECE Specialist Instruction (Pre-kindergarten - Grade 3, pending approval), Multiple Subject (Transitional Kindergarten - Grade 8) and Single Subject (middle and high school) teaching credentials that allow graduates to teach preschool, elementary, middle, and high school students in a California public school. These programs are post-baccalaureate, offered at the graduate level, and are accredited by the CCTC (California Commission on Teacher Credentialing). TED offers a teaching credential-only option (in PK-3 ECE, Multiple Subject, or Single Subject) or a teaching credential plus a Master of Arts in Teaching (MAT) degree. For experienced teachers, a Reading and Literacy Leadership Specialist Credential program with a Master of Arts in Multilingual and Multicultural Literacy Education degree is offered. Undergraduate pathways to the PK-3 ECE (pending approval), Multiple Subject, or Single Subject credential are available through ITEP and SAGE programs.

Bilingual Authorization program options are available in Spanish, Mandarin, and Vietnamese; they may also be available in other Asian languages upon request.

Undergraduate students intending to enter a teaching credential program should view the Teacher Preparation section of the catalog for more information.

Xiao Su, Associate Dean of Graduate Studies and Research

Overview

The Charles W. Davidson College of Engineering offers undergraduate and graduate programs in Aerospace Engineering; Aviation (BS only); Biomedical, Chemical and Materials Engineering; Civil and Environmental Engineering; Computer and Software Engineering; Electrical Engineering; Engineering Technology, Interdisciplinary Engineering; Industrial and Systems Engineering; and Mechanical Engineering. Additional graduate programs are offered in Artificial Intelligence, Engineering Management, Human Factors/Ergonomics, and Quantum Technology. Each department offers a variety of major and minor programs which are identified in their respective parts of this catalog.

Engineering Student Success Center (ESSC)

Office: Engineering Building 116

Telephone: 408-924-3990

Email: success-engineering@sjsu.edu

Website: www.sjsu.edu/essc

The mission of the Engineering Student Success Center (ESSC) is to empower engineering students from application to graduation, support their academic and personal growth, and engage them as lifetime members of the college learning community. The ESSC will provide programs and advising for undergraduate and graduate students in the College of Engineering that support students' smooth transition to SJSU, their transformation into active learners and owners of their academic careers, and promote their personal and professional development.

The Community for Engineering Learning and Living (CELL) is a themed living community offered by the University Housing Services for first year engineering students. CELL's objectives are to provide a cooperative learning environment, to encourage and build the engineering community and to foster a sense of belonging and responsibility to the community. Through facilitated study groups, CELL students will experience the academic support and cooperation of a community committed to academic success. CELL students will have regular access to faculty, advisors and industry professionals through workshops and programs. CELL is about shared experiences and creating a vibrant and caring engineering community.

MESA Engineering Program

Office: Engineering Building 366

Telephone: 408-924-3830

Email: mesa.engineering@sjsu.edu

The MESA Engineering Program and the Women in Engineering Program work to increase the number of graduates entering the engineering profession from traditionally under-represented and economically disadvantaged groups. The MESA Engineering Program actively recruits students, provides support services until graduation and acts as liaison with companies offering employment experiences. It assists students with admissions, academic and personal counseling, financial aid and scholarships, and registration. The MESA Engineering Program also maintains a study center for tutoring, workshops, individual and group study and social functions. A summer job placement program assists students in obtaining jobs in industry.

Preparation for Engineering Programs

To prepare for engineering, the high school student should take as much advanced math and science as possible, as well as high school engineering and technology courses that may be available at their school. Students with scores of 3 or above on the AP Calculus exams may be able to reduce the number of math courses taken at SJSU; students who are not calculus-ready on entrance may take a longer time to graduate. Students transferring from California community colleges will be given junior level standing in the major if they have successfully completed the following course work:

- 12 semester units of calculus and differential equations
- 5-10 semester units of chemistry
- 8-13 semester units of physics which require calculus as a prerequisite
- 10-14 units of lower division engineering appropriate to their engineering major

All engineering majors require certain coursework (typically two semesters of calculus and one of calculus-based physics) before transfer. Completion of supplemental major-specific coursework will result in improved chances for admission and shorter time to graduation. The list of required and supplemental courses for each major can be found [here](#). Transfer students should use assist.org or this SJSU online catalog to determine the specific lower division requirements of their major. Graduation following two academic years of study is possible if the student completes all lower division units before transfer, satisfactorily completes the required upper division coursework and remains in good standing in the major.

Preparation for Technology and Aviation Programs

To prepare for technology and aviation majors, the high school student should take industrial technology classes such as electronics, computer-aided design, and manufacturing, or any engineering classes offered at their school, and should complete courses in physics, chemistry, and pre-calculus or calculus. Community college students are urged to complete as many of the lower division requirements as possible in chemistry, physics, mathematics and technology or aviation at the community college.

Progress to Degree Requirements

All College of Engineering undergraduates are required to stay in good standing in their major by maintaining a Major GPA of 2.0 or above. The Major GPA includes all courses required for the major, including both lower and upper division math, science, engineering, technology, aviation or business courses required by their major. Some departments have additional grade requirements for individual courses, groups of courses or all courses taken in their department. See departmental sections for these requirements. Additional university GPA requirements are specified elsewhere in this catalog. The Engineering Major Academic Notice Policy can be found on the Engineering Student Success Center website.

Incoming Engineering frosh, or other students seeking to change major into Engineering, must complete MATH 30 (or 30X), MATH 31 (or 31X) and PHYS 50 within their first 60 units at SJSU. Change of major information can be found on the Engineering Student Success Center website.

General Education Requirements

Of the 51 units required by the university up to 30 units may be satisfied by specified major and support requirements for most programs. Most engineering majors may satisfy the remaining units by taking AMS 1A-AMS 1B or courses covering similar requirements (12 units), ENGL 1A (3 units), Oral Communication (3 units) and Ethnic Studies (3 units). Transfer students may satisfy core GE through the IGETC or CSU breadth requirements. Students should consult advisors in the Engineering Student Success Center for details for their specific programs.

Undergraduate Programs Offered

The College of Engineering offers BS degrees in:

- Aerospace Engineering, BS
- Aviation, BS
- Biomedical Engineering, BS
- Chemical Engineering, BS
- Civil Engineering, BS
- Computer Engineering, BS
- Electrical Engineering, BS
- Engineering Technology, Computer Network System Management (CNSM) Concentration, BS
- Engineering Technology, Manufacturing Systems Concentration, BS
- Industrial and Systems Engineering, BS
- Interdisciplinary Engineering, BS
- Interdisciplinary Engineering, BS (SJSU Online) (Currently Not Accepting Students)
- Materials Engineering, BS
- Mechanical Engineering, BS
- Software Engineering, BS

Please see the Majors and Programs or Colleges and Departments listings in this catalog for information about each undergraduate major.

Graduate Programs Offered

The College of Engineering offers graduate work leading to Master of Science degrees in:

- Aerospace Engineering, MS
- Artificial Intelligence, MS
- Biomedical Engineering, MS
- Biomedical Engineering, Biomedical Devices Concentration, MS
- Chemical Engineering, MS
- Civil Engineering, MS
- Computer Engineering, MS
- Electrical Engineering, MS
- Engineering Management, MS
- Engineering Technology, MS

- Engineering, Electronic Materials and Devices Concentration, MS (Discontinued Eff Fall 2024)
- Engineering, MS
- Human Factors/Ergonomics, MS
- Human Factors/Ergonomics, User Experience Concentration, MS
- Industrial and Systems Engineering, MS
- Materials Engineering, MS
- Mechanical Engineering, MS
- Quantum Technology, MS (offered jointly by Departments of Electrical Engineering and Physics and Astronomy)
- Software Engineering, MS

Graduate work offered by the College of Engineering reflects and supports the advanced scientific and technological endeavor which is typical of California industry, government and business.

Departmental curricula provide full- and part-time students the opportunity either to obtain master's degrees or to take specialized courses to improve job capabilities.

The Master of Science in Engineering offered by the Interdisciplinary Engineering program has unique, interdisciplinary characteristics which may be particularly appealing to persons with a bachelor's degree in engineering who are currently working in a technical management area and wish to extend their education.

For students whose native language is not English please see the English Language Proficiency (ELP) test requirements on the Graduate Admissions website. Students who meet this and the requirements for admission to the Graduate Division as outlined in this catalog should see individual department listings for requirements for admission to classified standing, conditionally classified standing and advancement to candidacy for the specific degree in engineering.

In addition to departmental requirements, the University requires that all graduate students demonstrate competency in written English as a condition for advancement to candidacy. Please refer to the SJSU catalog section titled "Graduation Writing Assessment Requirement (GWAR)" for details. Each graduate program has a designated GWAR course embedded within the program degree requirements. In addition, all graduates must complete an acceptable thesis, project or comprehensive examination.

Engineering Extended Studies (EES)

Engineering Extended Studies (EES) Department at San Jose State University within the Charles W. Davidson College of Engineering supports innovative programs and continuous learning in a climate of constant disruption.

Overview

Aerospace engineers research, design, and develop high-speed transportation vehicles, such as airplanes, spacecraft, space stations, planetary vehicles, and space probes. Approximately half of all aerospace engineers work in the aerospace industry (e.g. Boeing, Lockheed-Martin, Cessna, etc.), 15% work for government agencies (e.g. NASA, Department of Defense, etc.), and the rest work in engineering services, research, testing, and navigation functions. Aerospace engineers also work in industries not associated with aerospace, such as automotive, where they work on the improvement of the aerodynamics of automobiles, as well as in other areas, as allowed by the breadth of their preparation. Students in our program have opportunities to participate in international design-build-fly competitions (e.g. AIAA Design-Build-Fly, SAE Aero Design, Spaceport America Cup) or work with NASA engineers to design-build-test and launch microsatellites into space (NASA TechEdSat). The Aerospace Engineering Bachelor of Science degree program is accredited by the Engineering Accreditation Commission of ABET, under the General Program Criteria and the Aerospace and Similarly Named Engineering Programs Program Criteria.

Overview

Aviation

The largest provider of aviation degrees on the West Coast, the Aviation program in the Department of Aviation and Technology prepares students for careers as professional pilots, airport managers, flight operations professionals, and other aviation industry professionals. Students receive hands-on experience in both basic and advanced aviation principles and procedures, including aircraft design, aviation safety, air traffic control, and legal and labor issues in national and international aviation. Bachelor's degree candidates have the option to focus on professional flight, flight operations, aviation management, or maintenance management—a specialty that complements an AS-level Federal Aviation Administration (FAA)-approved community college (A and P) maintenance program. Aviation classes are held both on campus and off-site at our Reid-Hillview Airport facility.

Technology

Choose a career in applied engineering design and management focused on computer network systems and advanced manufacturing systems. Two undergraduate Engineering Technology programs, accredited by the Association of Technology, Management, and Applied Engineering (www.ATMAE.org), are offered by the Department of Aviation and Technology: an Engineering Technology BS with a concentration in Computer Network System Management (CNSM) and an Engineering Technology BS with a concentration in Manufacturing Systems. The Department also offers graduate work leading to the Master of Science in Engineering Technology (MSET) with specializations in Applied Network Systems and Smart Manufacturing.

Note to Veterans

Those students who have successfully completed armed forces instructional programs in aviation and who have been awarded units by the Admissions Office for this service training may apply such credit as appropriate toward any of the major or minor programs offered by the department.

Honors Program

Students who have maintained a 3.5 grade point average in all aviation courses are eligible for the departmental honors program. Qualified candidates may apply or be nominated by the faculty, during their junior year. To meet the honors course requirements, candidates must enroll in at least one unit of Aviation 180H Individual Studies. Students who successfully complete the one-unit honors course, and who maintain the required 3.5 grade point average, will qualify for the award of departmental honors at graduation.

Overview

Biomedical engineering is an inherently interdisciplinary field that lies at the intersection of engineering and the biological and health sciences. Biomedical engineers use the principles of engineering to develop solutions for a wide variety of products and technologies that improve the quality of life. Students majoring in biomedical engineering will have the satisfaction of being actively engaged in a discipline that has human health and welfare as its primary focus.

The mission of the Biomedical Engineering Department is to be a recognized leader in translational biomedical research; to provide hands-on education focused on solving real world biomedical problems; and to foster innovation and entrepreneurship in the service of human well-being.

The BS and MS Biomedical Engineering programs have been designed, in consultation with potential employers, to prepare graduates for the wide variety of emerging careers in biomedical devices, bioelectronics and instrumentation, imaging, bioinformatics, and manufacturing, among others. The coursework prepares students to function effectively in a U.S. Food & Drug Administration-regulated environment. These programs also promote the development of soft skills, such as oral and written communication, and teamwork, that are necessary for professional success and lifelong learning in the global marketplace. The ability to address and deal with ethical issues, which are of paramount importance in biomedical engineering, is also cultivated, and communications skills are integrated into the classes throughout the curriculum.

In addition to BS and MS degrees in biomedical engineering, we offer an undergraduate minor in biomedical engineering, appropriate for students pursuing other fields of study but still interested in applications in biomedical engineering. The Biomedical Engineering Bachelor of Science degree program is accredited by the Engineering Accreditation Commission of ABET, under the General Program Criteria and the Bioengineering and Biomedical and Similarly Named Engineering Programs Program Criteria.

Overview

Researchers, chemical and materials process engineers, pharmaceutical engineers, failure analysis engineers, and polymer engineers are some of the jobs that graduates from the Department of Chemical and Materials Engineering over the past 70 years obtain in Silicon Valley and beyond. Our graduates and alumni find employment in industrial sectors as diverse as oil and gas, alternative energy, carbon capture, semiconductors and microelectronics, additive manufacturing, nanotechnology, biotechnology, biomedical engineering, food process engineering, cosmetics engineering, and environmental remediation. Based on their interest, students can specialize in tracks by taking courses focused on these specializations. Our program is continually updated in consultation with industry advisors to

reflect the changing needs of the society. In addition to bachelor's and master's degrees in Chemical Engineering and Materials Engineering, we offer undergraduate minors in Materials Science and Engineering, and Sustainable Engineering. Many of our graduates pursue masters of science and doctoral degrees at various universities across the country.

The Chemical Engineering Bachelor of Science degree program is accredited by the Engineering Accreditation Commission of ABET, under the General Program Criteria and the Chemical, Biochemical, Biomolecular and Similarly Named Engineering Programs Program Criteria. The Materials Engineering Bachelor of Science degree program is accredited by the Engineering Accreditation Commission of ABET, under the General Program Criteria and the Materials (1), Metallurgical (2), Ceramics (3) and Similarly Named Engineering Programs Program Criteria.

Overview

Civil engineers plan, design and supervise the construction of water supply systems, communications networks and transportation systems. They construct buildings and foundations. Using modern technology, they solve pollution and planning problems and tackle other engineering challenges. The Department of Civil and Environmental Engineering offers both bachelor's and master's degree programs. The undergraduate program includes course work in construction, environmental, geotechnical, structural, transportation and water resources engineering. Classroom instruction is supplemented by hands-on laboratory experiences, and the opportunity to participate in student clubs, including the American Society of Civil Engineers, Associated General Contractors, Institute of Transportation Engineers, Water Environmental Federation and American Water Works Association. To accommodate graduate students who also work, graduate courses are scheduled in the late afternoon and evening. The Civil Engineering Bachelor of Science degree program is accredited by the Engineering Accreditation Commission of ABET, under the General Program Criteria and the Civil and Similarly Named Engineering Programs Program Criteria.

Overview

Located in the center of Silicon Valley, the Department of Computer Engineering provides local and national high-tech companies with high quality, practice-oriented computer graduates. Bachelor's degree programs are offered in computer engineering and software engineering. Master's degree programs are offered in computer engineering, software engineering, and artificial intelligence. Course topics range from computer hardware design and embedded systems to software design and construction of real-time systems, virtual systems, and enterprise software.

Curriculum integrates concepts and hands-on practice using the latest developments in emerging technologies, design, verification, implementation, and computer systems applications to provide students with advanced hardware and software skills. High-tech companies seek out our graduates. Our alumni work in hardware/software analysis, design and verification, hardware/software co-design, systems software, domain applications and product testing at many Silicon Valley firms from start-ups to Fortune 100 companies.

The Computer Engineering Bachelor of Science degree program is accredited by the Engineering Accreditation Commission of ABET, under the General Program Criteria and the Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs Program Criteria. The Software Engineering Bachelor of Science degree program is accredited by the Engineering Accreditation Commission of ABET, under the General Program Criteria and the Software and Similarly Named Engineering Programs Program Criteria.

Overview

The Electrical Engineering Department powers Silicon Valley. We provide more electrical engineering graduates to this region than are provided by any other college or university anywhere. At the forefront of technological research and innovation in multimedia computing, global communications, and high-speed integrated circuitry, electrical engineers push technology to the limits of physical and mathematical laws. There is no greater challenge for the creative mind. We prepare students for exciting careers in diverse areas of hi-tech engineering, including micro and nano technologies, chip-scale integration, embedded hardware and software systems, controls, robotics and autonomy, power electronics and energy systems, communication and machine learning, networking and

cybersecurity, quantum computing and quantum communication. Our accomplished faculty brings real-world experience to the classroom, and the department's links with local industry ensure that our laboratories are among the area's most advanced instructional facilities with up-to-date, state-of-the-art equipment. The Electrical Engineering Bachelor of Science degree program is accredited by the Engineering Accreditation Commission of ABET, under the General Program Criteria and the Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs Program Criteria.

Overview

Industrial and Systems Engineers figure out how to do things better by engineering processes and systems that improve quality and productivity. ISEs make significant contributions to their employers by saving money, increasing productivity, and making the workplace better for workers. Industrial and Systems Engineers focus on productivity improvement with respect for the human aspect of work. ISE bridges the gap between management and operations by applying six sigma principles, lean manufacturing processes, principles of organizational improvement, continuous improvement, and ergonomics. The undergraduate degree prepares engineers for challenges in manufacturing or service systems analysis and design. Students in our master's program build on an aptitude already in evidence for advanced professional work in industrial engineering. Our alumni are employed in a variety of industries, businesses and institutions, from retail establishments to manufacturing plants to government agencies to hospitals. The Industrial and Systems Engineering Bachelor of Science degree program is accredited by the Engineering

Accreditation Commission of ABET, under the General Program Criteria and the Industrial and Similarly Named Engineering Programs Program Criteria.

Overview

Do you like to design and innovate? Are you good at math and science? Would you like to help solve problems facing our society? Consider a BS or MS in Mechanical Engineering. These programs are part of the Charles W. Davidson College of Engineering, which is ranked #3 in the nation among public universities that do not offer a doctorate (excluding military academies). We place hands-on labs and projects as a priority, and interaction with faculty is substantial. Mechanical engineering students focus on mechanical design, mechatronics, thermal-fluids engineering, or a combination of those areas. Our BS and MS graduates work in industries including product design, sustainable energy, transportation solutions, biomedical devices, aerospace systems, sensor technology, and semiconductor manufacturing. Please visit the Mechanical Engineering Department website at sjsu.edu/me for more information. The Mechanical Engineering Bachelor of Science degree program is accredited by the Engineering Accreditation Commission of ABET, under the General Program Criteria and the Mechanical and Similarly Named Engineering Programs Program Criteria.

Leadership:

Audrey Shillington, Dean
Matthew Masucci, Associate Dean
Joseph (Joe) Grzywacz, Associate Dean of Research

Overview

The College of Health and Human Sciences provides both liberal and well-defined professional education at the undergraduate and graduate levels. Course work prepares students to be competent and transformative professionals in a technologically complex and culturally diverse society. The college's courses and programs provide students with a theoretical base that is developed and tested through: (1) research; (2) knowledge that can be applied in diverse systems; (3) processes that incorporate human understanding, social justice and cooperation, and (4) supervised practice through internships, field work and/or preceptorships in a variety of career-related settings. Graduates become leaders and establish professional careers as administrators, educators, practitioners, information specialists and applied researchers in a variety of settings. These settings include both private and public agencies, government institutions at all levels, community and health care organizations and educational institutions. The

College of Health and Human Sciences values and respects diversity, inclusion, civility and individual uniqueness; we recognize the strength these factors bring to our community and learning environment. All of our interactions should reflect trust, caring and mutual respect. We value education and intellectual curiosity above all. The academic freedom of faculty and students is vital to our role of promoting life-long learning through intellectual inquiry, scholarship and the pursuit of knowledge. An overarching goal is that faculty and our academic programs will be recognized for outstanding research, teaching and service across disciplinary and geographic boundaries. A list of programs and courses can be found on each department page in the catalog.

- Department of Aerospace Studies (Air Force ROTC)
- Department of Audiology
- Department of Kinesiology
- Department of Military Science (Army ROTC)
- Department of Nutrition, Food Science and Packaging

College of Health and Human Sciences (CHHS) Student Success Center

Offices/Telephone: MacQuarrie Hall (MH) 533 / 408-924-2910; Health Building (HB) 105 / 408-924-8601

Email: CHHSsuccesscenter@sjsu.edu

Website: www.sjsu.edu/chhs-ssc

The College of Health and Human Sciences (CHHS) Student Success Center provides advising for undergraduate students majoring (or interested in majoring) in programs offered in CHHS Departments and Schools. Students are invited to stop by one of our two locations or call the Center for help with applying into a CHHS major, general education advising, academic policy related questions, peer mentoring, health professions advising, and/or to attend any of our various presentations and workshops.

The CHHS Student Success Center is also home to the Undeclared Pre-Nursing (UPN) Program, which is responsible for advising students in the UPN academic track. To find out more about the program and how to apply please visit us.

Internships

The departments/schools within the College offer internships that involve advanced practical experience, fieldwork or clinical experience in a professional work setting under direct supervision of qualified professionals. Interns would be assigned various duties and experiences related to their particular areas of specialization. Internships may include seminars, practica or preceptorships to further develop beginning and advanced level practice skills.

Teaching Credential Programs

The Department of Kinesiology, in collaboration with the Connie L. Lurie College of Education, provides two single subject professional programs designed for individuals who are interested in teaching physical education or adapted physical education in grades K-12. The California School Nurse Credential prepares Registered Nurses at the Master's and Post Master's level to provide and manage health services and programs in the school setting.

Organized Research Units and Unique Programs

The programs of the College of Health and Human Sciences are further enriched by educational, research, global partnerships, as well as cultural and training opportunities provided by the following specialized research units and unique programs: Institute of Nursing Research and Practice, Human Rights Institute, Timpany Center, The Center for Applied Research on Human Services (CARHS), and the Center for Healthy Aging in Multicultural Populations (CHAMP).

SPARTANS Occupational Career Life Studies Program

The Successful Postsecondary Access & Related Transition Activities for Neurodiverse Students Occupational Career Life Studies (SPARTANS OCLS) Program is designed for college-aged students with intellectual disabilities who did not meet the original admission requirements at SJSU. The program aims to provide inclusive academic, social, and work experiences to support students in their pursuit of independent employment based on person-centered career goals.

Each student's path in the SPARTANS OCLS program will be individualized according to their person-centered plans. The program is a two-year, non-degree, non-residential program offered through a collaboration between the College of Health and Human Sciences, the Lurie College of Education, and Professional & Global Engagement at SJSU. The 36-unit program consists of the following components:

1. **General Education (GE) Requirements:** A minimum of 12 credits, including 1 course from each of the four GE areas, selected through person-centered planning;
2. **Job Track Requirements:** A minimum of 12 credit hours, selected through person-centered planning; and
3. **Supervised Job Internship(s):** A minimum of 12 units, including 6 units of SPARTANS OCLS Internship Seminar and 6 units of SPARTANS OCLS Internship for on- and off-campus job placements/internships related to the chosen job track.

Note: This program currently is not eligible for Federal Financial Aid.

Overview

San José State University supports a wing of Air Force Reserve Officer Training Corps (AFROTC) with cadets from San José State University, Santa Clara University, Stanford University, UC Santa Cruz, and many local community

colleges. The Air Force ROTC program provides instruction in leadership, management, and national security studies along with military education and training. This program prepares the cadet for assignment to positions of responsibility and importance in the modern Air and Space Forces. Instruction is conducted on and off campus. This program offers all eligible SJSU students the opportunity to obtain an officer's commission in the United States Air Force or Space Force while earning their college degrees.

Program Overview

Our faculty brings a wealth of experience and diversity to the program. Instructors are active duty Air Force or Space Force officers from various career areas and provide students with a first rate academic education and military training experience. Each faculty member also acts as a student advisor to guide students through the program and help them reach the goal of an officer's commission in the United States Air and Space Forces.

College students wishing to commission as an Air or Space Force officer through ROTC may enroll in a three, three-and-a-half, or four-year program. Students attend Air Force ROTC classes along with other college courses and receive elective academic credit.

After successfully completing all requirements, the cadets are commissioned as Air or Space Force officers with a minimum four-year active duty service commitment.

Four-Year Program

The first two years of the Air Force ROTC four-year program, the General Military Course (GMC), consist of 1 hour of classroom work, two hours of leadership laboratory, and a minimum of two hours of physical conditioning each week. Upon completion of GMC requirements, cadets who wish to compete for entry into the last two years of the program, the Professional Officer Course (POC), must do so under the requirements of the POC selection system. This system uses qualitative factors, such as grade point average, unit commander's evaluation, aptitude test scores and physical fitness test scores to determine a student's officer potential. After selection, students must successfully complete a three-week summer field training program at Maxwell Air Force Base in Montgomery, AL before entering the POC.

In the POC, cadets attend class three hours a week, participate in a weekly leadership laboratory lasting two hours, and perform a minimum of two hours of physical conditioning per week. Cadets apply what they have learned in the GMC and at field training. POC cadets conduct the leadership laboratories and manage the unit's cadet corps. Each unit has a cadet corps based on the Air Force organizational pattern of flight, squadron, group, and wing. POC classes are small, with emphasis on group discussions and cadet presentations. Classroom topics include leadership, communication skills and national defense policy. Once enrolled in the POC, all cadets enlist in the Air Force Reserve and are assigned to the Obligated Reserve Section.

Scholarships

Current emphasis in the Air Force ROTC College Scholarship Program is to award scholarships to candidates pursuing undergraduate engineering or other scientific and technical disciplines. More than half of Air Force ROTC scholarships are awarded to students in these disciplines. Additionally, scholarships are available for foreign language majors; contact the Aerospace Studies department for more information regarding which foreign languages majors are eligible. Students in every degree program may enjoy scholarship opportunities, as the Air Force seeks to engage students who excel both academically and militarily.

Air Force ROTC offers several types of scholarships, awarded in increments of two, three, and four years. All types of awards provide an allowance for books, most required fees and a monthly nontaxable stipend. All junior and senior level cadets are on scholarship. All scholarship cadets are required to meet certain academic, military, and physical fitness standards to earn and maintain scholarship benefits.

Field Training

Field Training, in many cases, is a cadet's first exposure to a working Air Force environment and the Aerospace Expeditionary Force (AEF) concept. The program develops military leadership and discipline, and provides Air Force officer familiarization, orientation and motivation. At the same time, the Air Force can evaluate each cadet's potential as an officer and entry into the POC.

Field training provides Air Force leadership opportunities, professional development, marksmanship training, team building, physical fitness, and AEF orientation. Lodging, meals and transportation (from the cadet's home of record or school) are provided at no cost.

Medical Professions

Nursing majors may apply for an AFROTC scholarship and graduates agree to accept a commission in the Air Force Nurse Corps and serve four years on active duty after successfully completing their licensing examination. Cadet premedical scholarship recipients who are accepted to medical school within one year of graduating may be sponsored in their pursuit of medical degrees.

Legal Professions

Both first-year and second-year law students can apply for ROTC scholarships. Students complete either a one-year or a two-year ROTC program while attending law school.

Additionally, second-year law students can pursue an Air Force commission through Air Force ROTC's graduate law program. This program guarantees judge advocate duty after a student completes all Air Force ROTC, law school, and bar requirements. After graduating from an American Bar Association-accredited law school, the student must be admitted to practice law before the highest state court of any state or a federal court. The new lawyer is then commissioned into the Air Force in the grade determined by the laws and directives in effect at the time of call to active duty.

Aerospace Studies Minor

All undergraduate students are eligible for the minor in aerospace studies. Those wishing to pursue a career as an Air Force officer after graduation should contact the Department of Aerospace Studies.

Department of Audiology

Office: MacQuarrie Hall, #407

Telephone: 408-924-1754

Website: www.sjsu.edu/aud

Professors

Wendy Quach, Interim Chair

Assistant Professors

Anusha Yellamsetty

Overview

The mission of the Doctor of Audiology Program in the Department of Audiology is to provide students with an academic and clinical educational program that emphasizes a solid theoretical framework and facilitates learning outstanding clinical skills for providing high-quality services to individuals with hearing and balance disorders in our community. Graduates of our program will be ethical; culturally sensitive; committed to evidence-based practices; prepared to assume leadership roles; and experienced in, and appreciative of, an interprofessional team approach to patient care.

The Doctor of Audiology (AuD) program at San José State University is accredited for the period of February 6, 2024 to February 28, 2034 by the Accreditation Commission for Audiology Education (ACAE), Office of the American Academy of Audiology, 11480 Commerce Park Drive, Suite 220, Reston, VA 20191 (703) 226-1056).

The doctoral program in audiology (AuD) at San José State University is a Candidate for Accreditation by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association. This is a "pre-accreditation" status with the CAA awarded to developing or emerging programs for a maximum period of five years. The full address and telephone number for CAA is Council on Academic Accreditation in Audiology and Speech-Language Pathology, American Speech-Language-Hearing Association, 2200 Research Boulevard, #310, Rockville, MD 20850, 800-498-2071.

Overview

Kinesiology majors study human movement, the physical activity involved in work and play. Many of our graduates work as athletic directors, athletic trainers, coaches, teachers, personal trainers and sports managers; others continue on to medical school or receive advanced degrees in physical therapy. A charter member of the American Kinesiology Association, our department is a recognized leader in the CSU system as well as in kinesiology education and other allied health professions throughout the country. We offer bachelor's degrees in kinesiology and teaching, and a master's degree in kinesiology that allows degree candidates to focus on exercise physiology, sport management, sport studies, and other areas of specialization. We support several student organizations, including the Adapted Physical Activity Club, a student service organization that advocates for individuals with disabilities; the Pre-PT Club; the pre-OT Club; and the Kinesiology Ambassadors' Club, which seeks to spread information about the field of kinesiology.

Overview

Nutritionists, food scientists, dietitians, foodservice and packaging professionals. The Department of Nutrition, Food Science and Packaging trains graduates for rewarding careers in settings as diverse as community organizations, educational institutions, hospitals, nutrition and research laboratories, corporations and government agencies. The first nutrition department in the CSU system, our department traces its roots to 1911. We currently offer a master's degree in nutritional science, and two undergraduate degrees in the field: a BS degree in nutritional science with three concentrations: dietetics; applied nutrition and food sciences; and food management, and a BS degree in packaging. Students can complete a combined BS + MS through the SAGE Scholars program in all three concentrations in the nutritional science and packaging programs. Our dietetics program is accredited by the Academy of Nutrition and Dietetics (AND) and the Accreditation Council for Education in Nutrition and Dietetics

(ACEND) qualifying our students to apply for ACEND accredited internships and to work toward becoming registered dietitians.

Overview

The SJSU Department of Occupational Therapy offers the oldest accredited OT program in the CSU system. Founded in 1943, the Master of Science in Occupational Therapy (MSOT) degree program is designed for those who have already earned a baccalaureate degree in another field. The program of study enables students to obtain the education and degree necessary to be eligible to practice as an occupational therapist. Once the MS degree in Occupational Therapy is complete, including the successful completion of the OCH 201A and OCH 201B courses, the student is eligible to sit for the national certification examination. Successful completion of the examination qualifies the candidate to apply for national certification and state licensure.

The MSOT program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 6116 Executive Blvd., Suite 200, North Bethesda, MD 20852-4929. ACOTE's telephone number. The National Board for Certification in Occupational Therapy (NBCOT) School Program Performance Data is also available.

In addition to the MSOT, SJSU now offers an entry-level Occupational Therapy Doctorate (OTD) program. The OTD program is designed to develop occupational therapy leaders, advocates, and innovators with a clear focus on community engagement and social justice for underserved populations. Once the OTD program is completed, including the successful completion of the OCH 201AD and OCH 201BD courses and the Capstone project, the student is eligible to sit for the national certification exam. The OTD program has full WSCUC approval and is awaiting ACOTE approval (Accreditation Council for Occupational Therapy Education (ACOTE) of the American

Occupational Therapy Association (AOTA), located at 6116 Executive Blvd., Suite 200, North Bethesda, MD 20852-4929. ACOTE's telephone number is 301-652-6611.

Courses are taught by nationally recognized faculty who have clinical, research and teaching expertise across a broad range of traditional and emerging practice areas. The Student Occupational Therapy Association (SOTA) provides a myriad of social, educational and leadership opportunities. Always in high demand, our graduates are hired by private and public health care institutions and agencies.

Department of Public Health and Recreation

Formerly Health Science and Recreation

Office: Spartan Complex, 201

Telephone: 408-924-2971

Susan Ross (Recreation)

Ni Zhang (Public Health)

Assistant Professors

Rachel Berkowitz (Public Health)

Anji Buckner-Capone, Undergraduate Program Coordinator (Public Health)

Andrew Carter (Public Health)

Vicky Gomez (Public Health)

Chulwoo (Charles) Park (Public Health)

Overview

The Department of Public Health and Recreation prepares leaders and practitioners who promote health and improve the environments in which we live, work, learn, and play. We strive to embrace a Teacher-Scholar-Practitioner Model through student, alumni, faculty, and community engagement to advance practices in public health and recreation fields. Our undergraduate curriculum in public health examines the multiple dimensions and determinants of health (physical, emotional, social, environmental, and spiritual) and the scientific and practical basis for understanding and promoting health at the population level (including epidemiology, policies, and community health) to create the optimal, meaningful conditions for health and wellness for all.

Our recreation degree program, founded in 1947 (the oldest undergraduate recreation degree program in the State of California), has a core curriculum continuously accredited by the Council on Accreditation of Park, Recreation, and Tourism Related Professions (COAPRT) since 1987. We offer concentrations in Recreation Management and Recreation Therapy, as well as a minor in recreation and a minor in recreation and nature.

Founded in 1970, the Master of Public Health (MPH) program has been accredited by the Council on Education for Public Health (CEPH) since 1974 and is offered in two formats. Our campus format is a regular session and offers the flexibility to complete the program full or part-time. Our synchronous online format is offered through the Professional and Continuing Education as a cohort model completed in two years. Our MPH students engage in an integrated program of learning, scholarship, and internships in partnership with a diverse network of community agencies.

The undergraduate public health program prepares students for entry level careers in public health and allied health services in addition to serving as a solid foundation for graduate studies in a variety of disciplines. The mission of the BS in Public Health is to foster an environment that embraces diversity and inspires active, critical, interdisciplinary teaching and learning to improve population health.

The Public Health and Recreation undergraduate and graduate programs incorporate student-centered curricula with our commitment to community development, social justice, interdisciplinary and intercultural approaches. We emphasize rigor and innovation, high-impact experiential learning, and career-focused application.

Department of Military Science (Army ROTC)

Office: Department of Military Science; Varsi Hall, Room 232, Santa Clara University; 500 El Camino Real, Santa Clara, CA 95053

Website: www.sjsu.edu/armyrotc

Professors

Lieutenant Colonel, Sean C. Chang
Captain Travis Newman
Captain Chris Strain
Master Sergeant Geoffery Landon
Sergeant First Class Cristhian Sanchez

Enrollment Officer

Mario Morales
Telephone: 408-554-6840

Overview

Military Science offers an interdepartmental minor which consists of courses taught by active duty Army personnel. The purpose of the minor is to acquaint the university student with the fundamental principles of national security and military history, to introduce the techniques and principles of modern warfare, and to develop character and leadership skills. All undergraduate students are eligible for a minor in Military Science. Those wishing a career as an Army Officer after graduation should contact the Department of Military Science.

Basic Course

Fundamentals of Leadership and Management. The term Basic Course refers to first and second year courses (MILS 1A-MILS 1B, and MILS 2A, MILS 2B, MILS 2C), which are designed for beginning students who want to qualify for entry into the Advanced Course and for those students who may want to try Military Science without obligations. A number of popular or challenging extracurricular activities are associated with these courses. A student can also

qualify for entry into the Advanced Course by completing only the summer encampment, Leader's Training Course (LTC) (MILS 2C). Outstanding students in this course may receive a two-year scholarship.

Advanced Course

Advanced Leadership and Management. The Advanced Course consists of the courses MILS 2A, MILS 2B, MILS 2C, and MILS 140A-MILS 140B. It is open to students who have completed the Basic Course or earned placement credit for it (various methods). The Advanced Course qualifies a student for a commission as an officer in the United States Army. Students must complete MILS 130C, a five week leadership evaluation camp during the summer, in sequence unless otherwise approved by the Professor of Military Science. Students receive a monthly stipend during the school year. Students who do not desire to compete for a commission as an officer in the Army may take these courses for academic credit with approval by the Professor of Military Science.

Labs and Field Exercises

During each semester of class work, weekly leadership lab participation is required. Two off-campus exercises involving adventure training, rappelling, rifle marksmanship, leadership training and survival skills are optional for non-scholarship basic course students. Two off-campus exercises for Advanced course students are mandatory with the focus on leadership and military skills.

Overview

Social work is a dynamic and challenging profession that presents exceptional opportunities for personal job satisfaction. A professional social worker helps people cope with interpersonal and social problems and obtain the resources they need to live with dignity. Additionally, social workers help communities mobilize and deliver the services and support they require. The School of Social Work is committed to the core values of service, social justice, the dignity and worth of individuals, human rights, competence, integrity and scientific inquiry. We honor diversity. Employing a transcultural perspective, we train our students to practice professionally with a broad range of ethnic and cultural groups, the disenfranchised, and the marginalized. Our undergraduate and graduate degree programs are accredited by the Council on Social Work Education. Our On-Campus MSW Program may be completed in two or three years; our Online/Hybrid MSW Program is completed in two years through continuous year-round enrollment. Our Advanced Standing option provides qualified students from an accredited Social Work Program degree to complete the MSW degree in one summer and one year, offered in both on-campus and online formats.

Overview

The Valley Foundation School of Nursing offers an innovative curriculum and varied experiential opportunities for students. The baccalaureate, master's, and doctoral degree programs in The Valley Foundation School of Nursing at San Jose State University are accredited by the California Board of Registered Nursing and the Commission on Collegiate Nursing Education. These programs prepare nursing professionals to be socially and ethically responsible clinicians and scholars who are able to meet the changing healthcare needs of a diverse global community. Under faculty supervision, baccalaureate nursing students participate in clinical experiences in both hospital and community

agencies. In addition, a student who is already a Registered Nurse or in the Concurrent Enrollment Program can earn a baccalaureate degree. Nurses returning for their master's degree will gain additional knowledge and skills needed for either advanced practice concentration in the Family Nurse Practitioner role or as a Nurse Educator. San Jose State University offers a post-master's Doctor of Nursing Practice (DNP) Program that prepares professional nurses to assume leadership positions in clinical practice.

Shannon Miller, Dean

Roula Svorou, Associate Dean of Student Success and Academic Programs

Overview

The College of Humanities and the Arts seeks to instill in students an understanding of human existence that is tolerant, moral and appreciative of human creativity as manifested in works of language and literature, the visual and performing arts, philosophy and theology, and by engagement in the creation of art and criticism.

Through its programs, the College aims to develop engaged participants in the local communities as well as in the global dimension of cultural, intellectual, and economic life. College faculty educate students for lifelong learning as well as for their first job after graduation. Building upon a foundation of excellent oral and written communication, the College helps students pursue a wide variety of paths to knowledge and careers, through specialized study in many fields, including art history, animation, advertising, comparative literature, dance, film, foreign languages, journalism, musical composition and performance, painting, public relations, radio broadcasting, sculpture, television, linguistics, comparative religion, philosophy, theater, and technical and creative writing.

Faculty in all disciplines of the College engage in research published by major scholarly journals and university presses, supported by the major national grants and foundations, and presented at the major scholarly conferences. Artists within the College publish in important literary journals, exhibit at nationally recognized venues, or participate in prestigious performing arts productions. Throughout the College, faculty seek to produce scholarship or creative works that achieve national recognition.

College curricula develop the individual's power to communicate effectively and to analyze critically the conditions upon which cultural perceptions are built. Courses in the College attempt to reveal the evolving aspiration toward aesthetic and intellectual power in human cultures by exposing the student to important ideas, achievements, and experiences in the humanities and the creative arts. In its many professional arts programs, the College develops the talent of those who have the skill to perform or create works of art, fixing in vivid form the values of diverse heritages. In its programs in language, literature, philosophy, and other areas of the humanities, the College engages students in the discovery and exploration of works from around the world that deepen understanding of how human imagination and intellect function within different historical and cultural contexts. A primary purpose of a humanities education is to develop the skills and confidence that support a creative, analytical mind capable of lifelong learning and adaptation to different contexts and opportunities. Students in design, animation, journalism, and advertising frequently win awards at state and national competitions.

Through its General Education, Arts, and many scholarly programs and research units, such as the Martha Heasley Cox Center for Steinbeck Studies, the Ira F. Brilliant Center for Beethoven Studies, the Center for Literary Arts, the Center on Ethics, and the Center for Comparative Philosophy, the College of Humanities and the Arts makes an indispensable contribution to the SJSU community and the region surrounding it. A list of programs and courses can be found on each department page in the catalog.

Humanities and the Arts Student Success Center (HASSC)

Office: Washington Square Hall 120

Telephone: 408-924-5095

Email: ha-successcenter@sjsu.edu

Website: <https://www.sjsu.edu/ha-advising/>

The Humanities and the Arts Student Success Center provides general education advising, academic planning and serves as a resource to other programs at SJSU. We serve undergraduate students who are pursuing major(s) within the College of Humanities and the Arts. We offer both drop-in advising and appointments. All students within the college are encouraged to meet with an academic advisor to discuss a plan that will ensure timely graduation.

Internships

Internships provide students with the opportunity to incorporate work experience in a professional setting as part of their academic programs. Internship representatives are available within each department.

Special Centers

The College of Humanities and the Arts is home to the Martha Heasley Cox Center for Steinbeck Studies, the Ira F. Brilliant Center for Beethoven Studies, the Center for Literary Arts, the Center on Ethics, and the Center for Comparative Philosophy. The College manages the San José State University Writing Center, a resource for all SJSU students to help them become better writers. The College also manages the Hammer Theatre, a city-owned venue that offers a professional venue for our best students in theater, music, and dance.

Teaching Credential Preparation Programs

Teaching credential preparation programs are offered by the School of Music, the Department of Art and Art History, the Department of English and Comparative Literature, and the Department of Humanities (Liberal Studies).

Overview

Visual art and art history play a central role in our increasingly visual and interactive culture. Without the barriers of language, the visual arts are able to foster the kind of cross-cultural understanding required of global citizens. Founded in 1913, the Department of Art and Art History is committed to researching, teaching and practicing conceptual creativity and creative problem solving in media which encompass equally the most contemporary technologies and the most ancient forms of artistic practice. We are dedicated to the understanding and analysis of visual communication, to complex critical thinking and writing, and to the interpretation of local and global culture, past and present. Our BA, BFA, MA, and MFA degrees, accredited by the National Association of Schools of Art and Design (NASAD), offer students the opportunity to study with award-winning faculty in a "best-in-the-West" combination of facilities for making, exhibiting, and researching art across many media. All programs are supported and enriched by a diverse schedule of exhibitions in the Natalie and James Thompson Gallery, eight student galleries, and weekly public lectures.

Overview

The Department of Design at San José State University is one of the top design programs in California and the best value in design education. Our mission is to shape the next generation of social, political, and environmental innovators by taking full advantage of our proximity to Silicon Valley, the global center of high technology, innovation, venture capital, and social media. We are a community of creative technologists, who are teaching and learning technological and fabrication skills that are inclusive and adaptive, poetic, cutting edge, and experimental. We understand that design is everywhere and is transformative throughout the world. We use our skills and knowledge to make our world safer, healthier, more equitable, and to create positive change.

The Department offers a wide range of majors and minors in Animation & Illustration, Graphic Design, Industrial Design, Interaction Design, and Interior Design. All of our programs are focused on giving students real-life, practical, design experiences that will help them find their place in the broader design community and in turn, the world. Through internships, funded research, and community engagement projects, we are able to prepare students to launch their careers with a wide range of abilities, including digital design skills such as 3D-printing and augmented and virtual reality knowledge. Because our students are engaged in co-curricular activities beyond the classroom, they learn strategy, leadership, communication, and how social and emotional intelligence can impact design outcomes.

The department is accredited by the National Association of Schools of Art and Design (NASAD).

Professional Design Programs

The Department of Design offers professional programs in Animation & Illustration, Graphic, Industrial, and Interior Design. The curricula of the four programs combine the aesthetic sensitivity and technical knowledge necessary to function creatively in design, business and industry. Internships in design offices are integral to all four programs.

Admission Requirements for Animation & Illustration, Graphic, Industrial, and Interior Design

1. Meet University admission requirements; attain upper division standing by completing 60 transferable semester units or 90 transferable quarter units prior to enrollment.
2. Admission to the BFA in Animation and Illustration is determined at the time students apply for admission to the University. There is no internal change of major into this program. Students admitted to the BA Design Studies may be admitted to the BFA in Graphic or Interior Design or the BS in Industrial Design on a space available basis after successfully completing required portfolio reviews in their first two years of study.

Portfolio reviews are typically held each semester for the following semester. Instructions for applying for the BFA or BS are available from each program coordinator. The following courses are required as preparation for the portfolio review:

- Animation & Illustration: ANI 10, ANI 11, ANI 13, ANI 21, ANI 31, ANI 71, ANI 15, ANI 111, ANI 121.
- Graphic Design: ANI 11, DSGD 63, DSGD 83, DSGD 99, DSGD 100, DSGD 104, DSGD 109.
- Industrial Design: DSID 21, DSID 22, DSID 31, DSID 32, DSID 32A.
- Interior Design: DSIT 5, DSIT 10, DSIT 29, DSIT 83, DSIT 33, DSIT 34. Portfolio Review occurs after concurrent courses DSIT 33 and 34.

Overview

Study with award-winning teachers and professional writers. Develop editing and production skills by working on Reed Magazine, one of the oldest literary journals in the West. Prepare for a variety of careers in teaching, career and technical writing, or advanced study in English, law and medicine. The Department of English and Comparative Literature offers programs in English, American, world, and comparative literature, and creative and professional writing. Our MA prepares students for teaching careers or doctoral studies. Our MFA in creative writing trains professional writers in the history and craft of poetry, creative nonfiction, fiction, script- and screen-writing. Home to the Steinbeck Fellows and the Lurie Visiting Distinguished Author programs, the department also houses the Center for Literary Arts, which brings distinguished poets, fiction writers and creative nonfiction writers to campus to give public readings.

Undergraduate Honors Program

Upper-division students with a minimum grade point average of 3.0 overall and 3.5 in the major are eligible for Departmental Honors. Honors students must complete a graduate course in English or ENGL 190 - Honors Colloquium. Application to the honors program should be made through the English Department Office (English@sjsu.edu).

Overview

The Department of Film and Theatre prepares students for successful careers and leadership roles in performance and media. We develop media artists, directors, screenwriters, actors, designers, cinematographers, producers, technicians, educators, and scholars of the highest possible caliber. The entertainment industry is one of the largest contributors to the national economy, and media creators and performers are some of the strongest influencers in our society. To produce and distribute media that influence cultural dialogue requires a rigorous liberal arts education. All aspects of Film and Theatre are under the guidance of award-winning filmmakers and theatre professionals, many of whom work in the industry. As a center for the training of future artists, the Department of Film and Theatre is committed to introducing a diversity of fine arts and cultures to students. The Department provides students with the foundation to enter the entertainment industry, giving them excellent preparation to attend graduate school or enter the profession directly after graduating with their program degree.

Renowned for its rigor and depth, the Dance program offers students an exciting world that is at once physical, artistic, and intellectual, with the intensity of a conservatory and the warmth and care of a large family. At the end of their studies, students are ready for the field as performers, choreographers, teachers, technicians, fitness instructors, and more. Throughout the program, dancers at every level train weekly in a number of different dance genres. This not only enlarges a dancer's vocabulary but also offers distinct methods of conceiving movement, shaping the body, and communicating through one's physical instrument. All dancers learn to be choreographers in choreographic workshops, where they are challenged to develop their creative acumen and to begin to experience themselves as unique artists with their own movement signature.

Performance, where technique and creation come together, is the heartbeat of Dance at SJSU in many ways. With a committed faculty of esteemed professional artists active in the field, performance threads itself throughout the curriculum. Whether it is one's first year or senior year, dancers have the chance to rehearse and showcase their own and others' work before supportive audiences. For those pursuing a BFA, the University Dance Theater (UDT) is a key component; while BA students are welcome to audition, UDT participation is optional. Renowned guests are a vital part of SJSU's training, too. Each year, established or up-and-coming artists join the department as artists-in-residence, rubbing shoulders with students, opening eyes to new ways of dancing or thinking of dance, and even including them in staged work. Recent artists include Kyle Abraham, Doug Varone, Camille Brown, Gallim Dance, and Mike Esperanza. Amid such abundance, the curriculum is anchored by courses in history, culture, science, technical training and self-care.

The BA in Radio-Television-Film focuses on the development of creative voice and artistic expression in the context of a rigorous liberal arts education. This comprehensive program emphasizes a hands-on, project-based approach in which students will learn all the aspects of radio, audio, television and film production through the use of our state-of-the-art facilities and best industry practices. Students will receive a solid foundation in the areas of Television/Film Production including sound-for film, Screenwriting, Radio-Television-Film Studies and Radio Production. Our Radio-Television-Film Studies program offers a comprehensive study of media from historical, cultural, and critical perspectives. While earning a BA in Radio-Television-Film, students gain industry experience working with Spartan Studios (our in-house film studio), developing their directing skills for television and film, interning for local film festivals, or working on numerous media projects from the Bay Area to Los Angeles, across the country, and internationally. Students can also gain hands-on experience working with KSJS 90.5-FM, SJSU's student-run, award-winning radio station that has been on-air, 24/7 365 days a year for over 60 years. Finally, the RTVF program is proud to have an active student networking club, the Film Production Society, where students can develop and produce independent RTVF projects.

The BA in Theatre gives students an opportunity to participate in a strong professional theatre curriculum with high-quality productions that serve as a learning laboratory in which students collaborate with faculty and guest

professionals; through studio workshops and advanced productions at San Jose State University's newly acquired Hammer Theatre. The Theatre Program offers three areas of study with the specific goals of serving each student: acting and directing for film, television and theatre; musical theatre; and design and technology. While earning their BA in theatre, students gain real-world experience from working onstage and backstage with professional organizations such as the California Shakespeare Theatre, Magic Theatre, San Francisco Playhouse, TheatreWorks, and the Berkeley Repertory Theatre.

Welcome to the Humanities Department

The Home of Creative and Transdisciplinary Studies!

The mission of the Humanities Department is to cultivate global citizens who are sensitive to difference, complication, change, conflict, and injustice. Students in the department learn to practice and integrate multiple approaches to creating and critiquing knowledge as they seek to understand what people value and why. They continue to shape their own intentional engagement with the world, and are prepared to work across many professional fields.

The Humanities Department at SJSU is a prominent center for innovative and interdisciplinary study and research. We offer three different BA Programs for our students: the Liberal Studies Teacher Preparation BA; the Creative Arts BA; and the Humanities BA, in which students pursue a concentration in American Studies, Liberal Arts, or Comparative Religious Studies.

The Liberal Studies Teacher Prep BA offers several pathways toward becoming a teacher in the State of California. In the last few years, we have opened up new pathways that allow eligible students to complete the credential in ways that reduce barriers to becoming a teacher. The SJSU Liberal Studies program offers a traditional BA pathway, a BA with an Integrated Teacher Education Program (ITEP) focus, and four Spartan Accelerated Graduate Education (SAGE) pathways. SAGE pathways combine a Liberal Studies BA with a credential (Multiple Subject or Education Specialist) and a Master's Degree (MAT). The ITEP and SAGE pathways reduce the number of units to earn these degrees, and provide students with a seamless road to a graduate career. All Liberal Studies programs with a credential include an option to earn a Critical Spanish Bilingual Authorization.

The Creative Arts BA is a cutting-edge program in the interdisciplinary arts in which students pay close attention to the creative process and the use of the arts for social justice. (Consider the role of murals in the #BLM Movement, for example.)

Our Humanities majors embrace a global view of human meaning-making and relationships across cultures, geographies, ecosystems, and species. Our inquiry extends across issues of human and non-human species rights, social justice, global migration, technology, the arts, culture, society, education, and communication. We are currently expanding our view to include the Digital Humanities, Environmental Humanities, Global Humanities, and Human-Animal curricula to provide students with additional toolkits needed to address some of the most important questions of our time.

Our faculty are teacher-scholars who are experts at the use of high-impact practices and who are able to inspire our students. To continually enrich our work with students, as a faculty, we are committed to serious scholarship and creative work, as well as to forms of public scholarship and the scholarship of engagement, which often reach a wider audience.

The Humanities Department is also home to many minor programs in Humanities, American Studies, Religious Studies, and Creative Arts. And we are home to the Humanities Honors program for lower division students.

Advisors

Creative Arts, majors and minors

- Shannon Rose Riley

Humanities, all majors and minors

- J. Todd Ormsbee
- Funie Hsu

General Education Curriculum

Humanities Honors

The Humanities Honors program is open to all students looking for a challenging yet rewarding and supportive experience. Courses in the Humanities Honors program introduce students to major events, sites, texts, and artworks of world history with an emphasis on points of contact between global cultures including cultural exchange, borrowing, inheritance, and appropriation. The Honors curriculum prioritizes learning community, cohort experiences, and discovering connections between material taught in different courses. Honors courses are team-taught by faculty with expertise in different disciplines. Each course explores its topic through 3 to 4 cultural units that examine cultural connections along three axes: East-West; Global North-Global South; and past-present. Students in the program complete 12 units of GE requirements: oral communication (A1), arts (C1), critical thinking and writing (A3), and humanities (C2). In addition, the Humanities Honors program offers a two-course upper-division sequence of Advanced Honors (HUM 177A/HUM 177B), which meets the earth, environment, and sustainability (R); self, society, and equality in the U.S. (S);, and culture and global understanding (V) SJSU Studies requirements.

Overview

Linguistics, the scientific study of human language, explores what language is, how it works and which features human languages have in common. Our curriculum focuses on understanding how the languages of the world work and on addressing the English language needs of our culturally diverse society. Students in the Department of Linguistics and Language Development (LLD) are part of an ethnically and linguistically diverse student body, taught by nationally and internationally recognized faculty. We offer graduate and undergraduate degrees in linguistics, a certificate in computational linguistics, a master's degree in TESOL (Teaching English to Speakers of Other Languages), and undergraduate and graduate certificates in TESOL. Our research infrastructure includes a state-of-the-art computer lab, a phonology lab, and access to computerized language data. Approximately 25% of our students come from other countries and contribute greatly to our programs.

Overview

Philosophy majors read and discuss ideas generated by some of the greatest thinkers in history and learn to examine contemporary theoretical problems from a philosophical perspective. Noted for its treatment of philosophy in a global context as well as its engagement with issues reflecting its Silicon Valley setting, the Department of Philosophy offers classes taught by faculty recognized and highly regarded for both teaching and scholarship. Our curriculum is equally strong in traditional and innovative areas of philosophy, such as feminist and applied philosophy, and we offer both undergraduate and graduate degree programs. Because the study of philosophy develops a student's ability to analyze ideas and arguments, to think critically and to write well, a major in philosophy provides pre-professional training in a number of fields, including the fields of law, medicine, psychology and theology.

Overview

Connect with the world. Study abroad. Become multilingual. Deepen your understanding of other cultures. Read great works of literature. The Department of World Languages and Literatures helps students communicate effectively and thrive in a global context. Our programs are multifaceted, our faculty and students are multicultural, our curriculum is international.

We offer majors and minors in four of the most widely spoken languages in the world: Mandarin Chinese, Japanese, French, and Spanish, and an M.A. program in Spanish. We also offer language minors in International Business, Portuguese, German, Asian Studies and Latin American Studies, and a single subject teaching credential program in French, Japanese, Mandarin Chinese and Spanish.

We offer language and culture courses in Hebrew, Filipino/Tagalog, Russian and Vietnamese. Our graduates work as teachers, executives, translators, interpreters, civil servants, journalists, and hold many other occupations in global business and finance.

Language Proficiency

The appropriate level of proficiency in the language of study is required of candidates for a teaching credential and is a prerequisite for enrollment in any graduate course.

School of Journalism and Mass Communications

Overview

Founded in 1936, the School of Journalism and Mass Communications is the largest school of its kind in Northern California. In 2012, the journalism program was ranked among the top two in California, and the top 50 in the U.S. It is also nationally accredited by the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC). We offer undergraduate degrees in advertising, convergence journalism and public relations, and a master's degree in mass communications. Timely, ethical and responsible visual storytelling utilizing new technologies is the focus in all our degree programs. We offer students access to scholarships, regional and global internships, and competitive prizes unavailable to students in non-accredited programs. Our faculty are experienced multimedia journalists, photographers, writers, graphics designers and advertising, public relations, and social media executives. Our graduates have won six Pulitzer Prizes and excelled in careers as online content producers, publishers, editors, news directors, and communication executives.

Students who wish to change their major at SJSU to one of those offered in the JMC School must fulfill department-specific coursework and GPA requirements as specified on the department website.

Overview

Located in the heart of Silicon Valley, SJSU's School of Music is a recognized leader in the performing arts. Accredited by the National Association of Schools of Music (NASM), the National Council of Accreditation of Teacher Education (NCATE), and the California Commission on Teacher Credentialing (CCTC), the School produces some of the finest music teachers, composers, performers, and scholars in the world. Our curriculum includes courses in composition, performance, music skills, technology, pedagogy, and improvisation. Student performance organizations include, among others, Concert Choir, Choraliers, Jazz Orchestra, Opera Theater, Wind Ensemble, Symphony Orchestra, and the Spartan Marching Band. Our music education program produces some of California's leading

educators, and administrators, and our certified music teacher graduates are in particularly high demand in the Bay Area and throughout California.

Music Honors Program

The Music Honors Program is designed for the superior student who has outstanding talent and scholastic ability. The program is open to senior music majors with a 3.5 average in the major and an overall university grade point average of 3.0. Approval by the student's major advisor and the director is required prior to registering for honors courses. The proposed program may follow one of three general plans: a senior recital with an accompanying project paper (a historical-programmatic essay on the recital content); a major written project on some aspect of history, literature, or music education; or a major project in the field of music composition. Following official school approval, the student will register for three units of directed study in MUSC 190A (1 unit) and MUSC 190B (2 units) under a designated faculty member. The student must maintain a grade point average of 3.5 in the school and a 3.0 overall university grade point average throughout the senior year, and complete MUSC 190A and MUSC 190B to receive departmental honors at the awarding of the baccalaureate degree.

College of Information, Data & Society

Office: Student Union West

Telephone: 408-924-2670

Email: cpge@sjsu.edu

Website: www.sjsu.edu/cpge

Leadership:

Michael Meth, Interim Dean
Sandy Hirsh, Associate Dean Academics

Overview

The mission of the College of Information, Data & Society is to provide access to relevant educational programs that allow individuals to gain knowledge in a dynamic and innovative environment and become engaged, productive members of an evolving global society. We aspire to be a globally recognized College that shapes the future of the workforce, preparing students for professions that exist today and those that have yet to be created. Our college is the nexus for connecting professionals, institutions, businesses and industries, locally and from around the world, to the knowledge, resources, and talents of Silicon Valley's premier public university.

Academics

The College of Information, Data & Society offers interdisciplinary and forward-looking academic programs that prepare professionals to address the world's increasing challenges around analyzing, managing, protecting, securing, designing, organizing, and preserving data, information, records, and archives through technology-oriented and user-focused practices. The two academic units within the College of Information, Data & Society are the Department of Applied Data Science and the School of Information. Students have the opportunity to study full-time or part-time, learn in person or online, and pursue their education through a bachelor's degree, master's degrees, a credential program, and certificate programs.

This college offers the following programs:

- BS in Information Science and Data Analytics
- MS in Data Analytics
- MS in Informatics
- Master in Library and Information Science
- Master in Archives and Records Administration
- Teacher Librarian Credential
- Post Master's Certificate in Library and Information Science
- Advanced Certificate in Strategic Management of Digital Assets and Services

Department of Applied Data Science

Assistant Professors

Shih Yu Chang
Guannan Liu
Mohammad Masum
Vishnu Pendyala
Shayan Shams

Overview

The Applied Data Science Department offers academic programs to address emerging workforce demands of interdisciplinary talents designing and deploying intelligent solutions to real-world data challenges. Students acquire a comprehensive understanding and knowledge of the principles, methodologies and technologies of data science. Silicon Valley is known for its leadership in the big data economy and its demand for talent in response to the exponential growth of data. The department continuously seeks guidance from leading data professionals and companies to ensure that the curriculum is relevant for growing the talents needed in Silicon Valley.

Local data professionals regularly interact with our students through teaching classes, speaking at seminars, sponsoring internships, and supervising master projects. Faculty members actively engage with industry partners and sponsors to assess our curricula and update learning objectives in order to provide the most up-to-date skills for supporting the innovations from this region.

The department is an academic hub, in partnership with other SJSU departments and industry partners, for promoting education and research in applied data science. The MS in Data Analytics program is designed to address the immense demands of data science professionals and provides students with the advanced education necessary to draw insights from real data and apply analytical skills to solve practical problems.

Overview

The San Jose State University (SJSU) School of Information prepares individuals for careers as information professionals. Graduates work in diverse areas of the information profession, such as user experience design, digital asset management, information architecture, electronic records management, information governance, digital preservation, and librarianship. The SJSU School of Information is a recognized leader in online education and received the Online Learning Consortium's Outstanding Online Program award. For more information: ischool.sjsu.edu

Miri VanHoven, Associate Dean for Research

Overview

San José is at the center of Silicon Valley, known worldwide for its research institutes and industries that set the standard for scientific and technological innovation. San José State is the metropolitan university of the region, and the academic programs of the College of Science prepare students for rewarding careers through our bachelor's and master's level degree programs in the biological sciences, physical sciences, mathematics and computer science fields. Our departments have established partnerships with local employers where students find training and employment opportunities.

The College of Science provides the lower division core biology, chemistry, mathematics and physics courses supporting majors in other technical disciplines (such as engineering). As part of the university general education requirements, we offer courses in quantitative reasoning, the physical universe and its life forms, and earth and the environment. Furthermore, we teach the discipline-specific courses for the science and mathematics teacher credential programs.

Successful science students come from many backgrounds. Some enter the university immediately upon graduation from high school. Others, who have worked or have various life experiences, enroll as either full or part-time students in order to continue their education and better their career opportunities. The maturity, laboratory skills and experience of these students enrich our programs. We have several programs to increase the participation of women and underrepresented students in professional level science. Our College of Science Student Success Center, formerly COSAC, is available to assist students with their academic advising questions.

There are active student clubs associated with each major, several of which have won national recognition for their professional and community service activities. Club members provide mutual support and are able to network with professionals in their field. A list of programs and courses can be found on each department page in the catalog.

- Department of Biological Sciences

Website: www.sjsu.edu/science-ssc/

Special Centers

The College of Science has several unique interdisciplinary instructional research centers and programs: the Master of Biotechnology, MBT, the Medical Product Development Management, MS, the Clinical Lab Scientist Certificate Program, the Clinical Genetic Molecular Biology Molecular Biologist Advanced Certificate, the Center for Applied Mathematics, Computation and Statistics, the Institute for Modern Optics, the Materials Characterization and Metrology Center, the W.M. Keck Facility for Chemical Research, and the Moss Landing Marine Laboratories. Partially funded by external grants and contracts, these centers provide our students opportunities to participate in sponsored research projects. Cooperative programs with local industries and government laboratories are additional sources of professional experience and financial support for our science majors.

Teaching Credential Programs

Two single subject credential programs are coordinated by the College of Science, in collaboration with the Connie L. Lurie College of Education. The single subject professional programs are designed for individuals who are interested in teaching science or mathematics in middle schools or high schools. The Science Education Program offers single subject credential programs in biology, chemistry, earth science and physics. The Department of Mathematics and Statistics offers a mathematics single subject credential program. For detailed information, contact the appropriate program coordinator.

Vivan Tran, Pharmacovigilance & Drug Safety

Overview

The Masters of Science (MS) degree in Medical Product Development Management (MPDM) is offered by SJSU's College of Science, in collaboration with Professional & Global Engagement and the Lucas Graduate School of Business. The MPDM MS program combines clinical research, regulatory affairs, bioinformatics and customized technical classes with MBA-level business and management courses. The industry-relevant curriculum was designed in collaboration with experts from biomedical companies in the greater San Francisco Bay area to prepare students for careers in the biopharmaceutical, medical devices and in-vitro diagnostics industries. To accommodate students who work full-time, courses are offered during evenings or weekends, and several classes are offered online for scheduling flexibility.

Overview

As leaders in the education of a highly trained and diverse scientific workforce, our mission is to provide a dynamic educational experience by engaging our students in hands-on, inquiry-based learning activities at the bench and in the field while cultivating an inclusive learning environment that acknowledges and respects individuals from all backgrounds. Through these experiences, our students will gain a conceptual and experiential understanding of the biological sciences spanning from molecules to ecosystems.

Our Program goals are to:

- Promote the success of our diverse student population in an inclusive and equitable community.
- Make substantial contributions to the scientific community through our research efforts and that of our students.

- Foster creativity, a sound theoretical foundation, and the ability to communicate effectively and interact cooperatively with people from diverse backgrounds.
- Provide students with rigorous laboratory and field experiences within the context of their regular coursework.
- Create individualized mentoring opportunities and state-of-the-art learning experiences within the context of our faculty research programs.
- Educate students to be intellectually agile and technologically proficient.
- Affirm students' intersecting identities while supporting and fostering their academic development.

Honors Program

Students may apply for the honors program in Biology in BS - Biological Sciences (all concentrations). Students wishing to complete the honors program must:

1. Have a GPA of 3.5 or higher in courses required in the major,
2. Have an overall SJSU GPA of 3.0 or higher, and
3. Complete BIOL 186, BOT 186, or ZOOL 186 - Senior Thesis.

Senior thesis courses involve the student in the completion of a research project under the direct supervision of a faculty member. As such, the research project must be on a mutually agreed upon topic. It is recommended that the student submit a proposal for research to the faculty member and have that proposal approved in the last semester of his/her junior year. The student is required to present the results of the research in written form and as a seminar.

Overview

Chemistry plays an integral role in solving everyday problems in areas such as energy production, pollution control and disease prevention. Our graduates go on to gain advanced degrees in chemistry, medicine, pharmacy, and dentistry or enter the job market directly, building careers in the biotechnological, biomedical, pharmaceutical, energy and green technology sectors. We provide broad access, high-quality education in the molecular sciences at both the bachelor's degree and master's degree levels. Undergraduates may specialize in biochemistry. Graduate degree candidates focus on analytical, bio-, computational, inorganic, nuclear, organic, polymer, or physical chemistry. Our curriculum, taught by experts in each of the subfields of chemistry, supplements traditional classroom courses with hands-on laboratory and research instruction. For teaching purposes, as well as to support the department's research mission, we maintain a large collection of state-of-the-art instrumentation, including mass spectrometers, spectrophotometers, and lasers.

Undergraduate Honors Program

Students must be nominated by their research advisor and are selected for department honors by the Chemistry Department faculty. To be nominated, chemistry majors need at least a 3.5 GPA in all chemistry coursework required for the major and a minimum of two semesters of research by the time of graduation. The student would also have to submit, in electronic form, a written research report to support the nomination.

Non-Compliance with Safety Rules

Failure to comply with proper procedures and prescribed safety precautions shall subject the student to removal from the laboratory and/or disciplinary action.

1. Any student who engages in unauthorized experimentation or who seriously disregards safety, thereby endangering themselves or others shall be withdrawn immediately from the class with a grade of "F".
2. Any student who shows persistent disregard for safety may have their grade lowered, and may risk being withdrawn with a final grade of "F".

Prerequisites

To enroll in a Chemistry Course that has another Course as a prerequisite requires that a grade of "C or better" (C- not accepted) be earned in the prerequisite course. Exceptions may be made only with instructor consent or if not explicitly stated in the course description.

Overview

Computer science is all about algorithms: inventing, testing, debugging and improving algorithms that might control a robot's brain, encrypt a stock trade, even simulate an ecosystem. Our bachelor's degree, provides a solid foundation in the basic theories that underpin computer software technology. For those who wish to pursue more advanced studies, our master's degree program offers convenient late afternoon and evening classes. Our prime Silicon Valley location fosters high-tech employment opportunities for our graduates, who currently make up a significant portion of the area's programmers, software architects, system analysts and computer scientists.

Honors Program

The requirements for computer science majors to graduate with departmental honors are: (1) at least a 3.0 G.P.A. overall, (2) at least a 3.5 G.P.A. in the major, (3) Completion of CS 180H - Individual Studies for Honors.

Minimum Grade Requirement

A grade of "C-" or better is required for courses being used to meet any requirement in any minor or major offered by the Department of Computer Science, including support courses.

Overview

Sustainability, sea-level rise, water resources, landslides, earthquakes, agriculture - the Department of Geology specializes in increasing students' understanding of Earth's processes and resources. We offer general education courses, a rigorous, integrated undergraduate curriculum, and graduate courses and research. Our bachelor's degree program in Geology prepares students for graduate study in the geosciences as well as for careers in engineering and environmental consulting firms, regulatory agencies, and state and federal organizations (e.g., NASA, USGS, NOAA). Our bachelor's program in Earth System Science focuses on the complex processes within and feedbacks between the Earth Systems (geosphere, hydrosphere, biosphere, and atmosphere), including the interactions of humans with the Earth. Students obtaining this degree are well-positioned for careers in environmental remediation, natural resource management, and environmental policy. Our master's degree program particularly emphasizes the study of applied geology, surface processes, and tectonics, enabling graduates to advance to Ph.D programs and to secure jobs in fields such as environmental consulting, hydrogeology, geotechnical engineering, and hazards assessment.

Geology and Earth System Science Honors Program

Departmental honors in the BS Geology and Earth System Science degree programs are awarded to those majors who have achieved a 3.5 grade point average in their required departmental courses and have completed an undergraduate research project. A proposal for undergraduate research, including an identified Geology faculty supervisor, must be approved by the Geology honors committee for acceptance into the honors program. Completion of two units of Geology 180 and both written and oral presentation of research results are required for completion of the program.

Overview

One of the oldest intellectual disciplines, mathematics plays a key role in many fields: cryptography, computer graphics, operations research, engineering and science. Students majoring in mathematics learn to communicate mathematical ideas effectively and to use basic computational skills, mathematical models and technology to solve practical problems. The Department of Mathematics and Statistics offers both undergraduate and graduate programs that prepare our alumni to work in industry and to teach in secondary schools or community colleges. In addition to a BA in Mathematics, we offer a BS in Applied Mathematics that trains students for more technical careers and incorporates student research projects at the Center for Applied Mathematics, Computation and Statistics (CAMCOS). The BS in Statistics provides foundational training for careers in statistics, data analytics, and data science, and also prepares students for graduate studies in statistics and related fields. We also offer four master's degrees: an MS and an MA in Mathematics, an MS in Statistics, and an MS in Data Science.

Honors Program

The requirements for mathematics majors to graduate with departmental honors are: (1) at least a 3.0 G.P.A. overall, (2) at least a 3.5 G.P.A. in the major, (3) Completion of MATH 180H - Individual Studies for Honors.

Restriction on Enrollment for Credit

Enrollment for credit in MATH 10, MATH 12, MATH 18A, MATH 70, MATH 71, MATH 71X, MATH 105, and MATH 106 will not be allowed for students who have received credit in MATH 19, MATH 30, MATH 30X, MATH 31, MATH 31X, MATH 32, or MATH 32X, unless the particular course in question is required for the student's major, minor or credential requirements.

Precalculus Proficiency Assessment (PPA)

Many students who wish to enroll in MATH 30, MATH 30X, MATH 42, MATH 42X, MATH 70, MATH 71 or MATH 71X are required to take the Precalculus Proficiency Assessment (PPA). Information regarding the PPA can also be found in the Mathematics and Statistics Department website.

Overview

The only one of its kind in the CSU system, the Department of Meteorology and Climate Science provides students with an in-depth knowledge of the atmosphere, preparing them for careers in the atmospheric sciences. Meteorology focuses on day-to-day weather; in climate science the focus is on the evolution of Earth's climate. We train students to measure, analyze, model and predict the state of the atmosphere into the next week and on into the next century, offering undergraduate and graduate programs that are strong in both theoretical and applied courses. Among our alumni are weather forecasters with both the National Weather Service and in the private sector, air pollution specialists, environmental consultants, science teachers, university professors, science writers and top scientists in the National Atmospheric and Oceanographic Administration (NOAA), the U.S. Armed Forces, and NASA. We are one of the most research-active departments on campus, enabling students at all levels to participate and benefit from supervised research activities.

Overview

At the core of all science, physics helps us understand chemical reactions, protein folding, the Earth's interior, and the life cycle of stars. Among much else, physicists invented the semiconductor, the laser, and the electron microscope. They play key roles in the design and operation of spacecraft and in the development of electronic and optical instrumentation. The Department of Physics and Astronomy offers two MS degrees in Physics and Quantum Technology, and three undergraduate degrees: (1) a BS that prepares students for professional careers in applied physics or graduate study, and (2) a BA that combines a strong foundation in physics with electives that allow for a second area of concentration, such as computer science, chemistry, science education, or math and (3) a BA preparation for teaching which prepares students for teaching Physics in high-school or middle school and has them earn units towards their single-subject credential. Our faculty are experts in lasers and optics, computational physics, condensed matter, astrophysics, and physics education research. The department receives on average approximately \$1.8 million annually in external funding for sponsored research.

Overview

The second oldest marine lab on Monterey Bay, Moss Landing Marine Laboratories, (MLML), established in 1966, has an international reputation for excellence in marine science research and education. MLML administers the interdisciplinary master's of science degree in marine science for seven California State University (CSU) campuses: East Bay, Fresno, Monterey Bay, Sacramento, San Francisco, San José and Stanislaus. MLML's hands-on, field-oriented approach places students, faculty, research and staff where discoveries are made: at the frontiers of marine science worldwide. The wealth of nearby marine resources, excellent marine facilities and operations, renowned faculty and research-based curriculum combine to make the MLML program one of the best graduate programs of its kind in the United States. MLML provides students with a cutting-edge education that prepares them for careers in science, education and outreach, conservation, policy and management, and for doctoral studies.

Overview

The College of Science's Science Education program offers courses that aim to develop research-based approaches to teaching and learning at the secondary and higher education levels. In cooperation with the Connie L. Lurie College of Education and the Department of Teacher Education, we oversee the single subject teacher credential

program in science through advising, coursework offerings and student teacher supervision. We support the preparation of justice-centered, socially responsive science teachers in the areas of biology, chemistry, earth science, and physics. In addition, we offer a master's degree in Science Education engaging our students in innovative science education research. We also train undergraduate learning assistants, and we offer a minor in Science Education.

Lois Takahashi, Associate Dean for Research and Faculty Success

Overview

Programs in the College of Social Sciences prepare students for work and life in Silicon Valley and a rapidly changing world. Our twelve departments provide training for careers in counseling, criminology, environmental restoration, computerized mapping, public administration, economic analysis, organizational communication, international relations, ergonomics, urban and regional planning, and countless other fields in business, government, teaching and human services. Major courses of study emphasize the contributions of the many cultures that form our community. Internships are encouraged to help students relate academic work to the opportunities and needs of this diverse region. Completion of one of our undergraduate majors also provides an excellent foundation for advanced graduate work in one of the disciplines or at a professional school such as law or business.

New technologies increasingly improve our instruction and link us to the innovative industry of our region and to the educational resources of the world, but personal interaction between students and faculty is still prized within the College of Social Sciences. Capable and interesting teachers, active student clubs and small classes provide ideal environments for learning. If you are interested in majoring in one of the social sciences, contact an advisor in one of our departments or the dean's office. A list of programs and courses can be found on each department page in the catalog.

The College of Social Sciences Success Center (CoSS SSC) is dedicated to providing a welcoming and inclusive advising environment for students. We are committed to student success, promoting lifelong learning, and providing students the tools to make informed decisions about their academic goals. We provide General Education advising for undergraduate students majoring or intending to major in any of the departments in the College of Social Sciences (CoSS). We are committed to helping you develop a clear path to graduation and supporting your academic success.

Centers and Institutes

The Centers and Institutes of the College of Social Sciences further enriched the educational, research and training opportunities provided to our students and faculty.:

- The Spatial Analytics and Visualization (SAVI) Center uses the power of geography and Geographic Information Science to produce impactful research and facilitate knowledge exchange by organizing public events, and bringing together scholars and professionals.
- Burdick Military History Project supports the study and teaching of military history through public lectures, the Veterans Oral History Project, and its specialized collection of materials relating to military history. Contact the Department of History.
- The Center for Economic Education supports high school teachers interested in developing Advanced Placement (AP) courses or improving existing AP Economics courses. Contact the Department of Economics.
- The SJSU Communication Center offers academic support for students seeking help with their public speaking, writing, and general communication skills through workshops and individual tutoring.
- College of Social Sciences Ethnic Studies Collaborative works to strengthen African American Studies, Asian American Studies, Chicana and Chicano Studies, and Native American and Indigenous Studies programs at SJSU and throughout the CSU. See the CSU Task Force on the Advancement of Ethnic Studies report for more information.
- East Asian Regional Materials and Resources Center (EARMARC) provides audio-visual materials for high school and college students in Northern California. The video and film library currently holds about 200 videos and reels, most of which are related to China or Japan. The collection also includes slide sets and audio materials. Almost all areas of East Asian society and culture are covered.

- The Environmental Resource Center (ERC) is run by student directors and supervised by a faculty advisor. In addition to organizing behavior changes via on campus events, the ERC is working to move our campus towards sustainable use of water, energy and materials.
- The Human Rights Institute is an "Organizational Research and Training Unit" under the California State University system that specializes in human rights research, journalism, and policy design. HRI students and faculty study pressing social problems and work with community organizations, stakeholders, and policy makers to inform and design solutions according to relevant scholarship, human rights law, and international best practices. Further, the SJSU HRI is building the Human Rights News Network-a source of original and relevant human rights reporting from students, faculty, and Institute partners.
- The Institute for Metropolitan Studies is an interdisciplinary center for research, service, and public programming with a focus on issues of significance to San José and the greater San Francisco Bay Area. It engages in the issues facing our region through hosting powerful public events, often in collaboration with other institutions and community groups.
- The Institute for Public Affairs and Civic Engagement (IPACE) is designed to facilitate the study of politics and public policy in the Silicon Valley and the civic engagement of students through internships, service learning, and sponsorship of research talks led by SJSU faculty and members of the broader community.
- The Record Clearance Project provides presentations regarding expungement law and employment rights of people with criminal convictions, LiveScan fingerprinting, Speed Screening interviews and others.
- The Sourisseau Academy for State and Local History promotes a better understanding of California's state and local history, with an emphasis on the history of Santa Clara Valley, through graduate scholarships and collections of historical source materials.

Programs

Teaching Preparation Programs

- Social Science, Preparation for Teaching (Single Subject), BA - This major is designed for students interested in teaching history, political science (government), economics, or ethnic studies in high school or middle school. The following course work satisfies San José State University's requirements for a BA in Social Science Preparation for Teaching. The BA Social Science Preparation for Teaching, offered by the Department of History, is an approved program by the California Commission on Teacher Credentialing (CCTC). Students completing the program qualify for a waiver of the subject matter examination (CSET for Social Science) required to earn a teaching credential.
- The Environmental Studies, Preparation for Teaching, BA offered by the Department of Environmental Studies is designed for students interested in teaching in elementary or middle school. The coursework satisfies University requirements for a BA in Environmental Studies and is a program approved by the Teacher Credentialing in the State of California (CTC) for waiver of the Commission-approved subject matter examination (CSET for Multiple Subjects). Thus, students completing this program are eligible to apply for the Multiple Subject Teaching Credential (K-8) program.
- African American Studies, BA + Single Subject Credential in Social Science + Teaching, MAT SAGE Program - This Spartan Accelerated Graduate Education (SAGE) Scholars Program prepares students to teach History, Social Science, and Ethnic Studies in California public high schools. The Department of African American Studies provides an interdisciplinary curriculum and comprehensive liberal arts education by training students to appreciate diversity and multicultural American society. As juniors, African American Studies, BA majors are eligible to apply for a SAGE Scholars program that allows them to be concurrently

enrolled in the Single Subject Credential - Social Science and Teaching, MAT programs (with an optional Spanish bilingual authorization) as an undergraduate. This combined degree pathway can be completed in five years.

- Chicana and Chicano Studies, BA + Single Subject Credential in Social Science + Teaching, MAT - This Spartan Accelerated Graduate Education (SAGE) Program prepares students to teach History, Social Science, and Ethnic Studies in California public high schools. The Department of Chicana and Chicano Studies provides an interdisciplinary curriculum and comprehensive liberal arts education by training students to appreciate diversity and multicultural American society. As juniors, Chicana and Chicano Studies, BA are eligible to apply for a SAGE Scholars program that allows them to be concurrently enrolled in the Single Subject Credential - Social Science and Teaching, MAT programs (with an optional Spanish bilingual authorization) as an undergraduate. This combined degree pathway can be completed in five years.

Overview

An indispensable part of the mission of a metropolitan university, the Department of African American Studies provides a comprehensive liberal arts education by training our students to appreciate diversity and multicultural American society. Our unique interdisciplinary curriculum focuses on the areas of: race & technology, interracial intimacies and mixed race identity in the U.S., politics, urbanization, religion, U.S. history, sociology, psychology, African history/politics, gender, the civil rights movement, and general education courses. Our faculty contributes to scholarship in the field, and we are intellectually and professionally linked to local and national African American communities through our membership and support of professional associations such as the National Council for Black Studies, the Association for the Study of African American Life and History, (ASALH), the Association for Ethnic Studies, among others.

Overview

Anthropology Program

Anthropology majors study how humans live and have lived, present and past, and apply that knowledge to contemporary issues, learning how to articulate an anthropological perspective on human behavior. Our students develop skills in research, data analysis and clear and effective communication, preparing them to live in a complex, culturally diverse world. The Department of Anthropology's core curriculum provides an overview to the discipline as well as courses in cultural anthropology, archaeology, and physical anthropology. There are many opportunities for students to engage in research and service projects, and our faculty are scholars who bring their research into the classroom to enhance learning. We offer a BA in anthropology, an MA in applied anthropology, and a BA in behavioral science. Our graduates pursue careers in a wide range of professions, including law, medicine, business, social work, and health care.

Behavioral Sciences Program

Behavioral science majors develop an interdisciplinary perspective on human behavior and an understanding of the psychological, social and cultural dimensions to being human in a complex society. Offered cooperatively by the Departments of Anthropology, Psychology and Sociology, the Behavioral Science Program is housed in the Department of Anthropology, which oversees academic advising. The program prepares graduates for a variety of jobs that require working with social science data and with people. Many of our alumni have pursued graduate work in health care, social work, human resources, and other fields. The Department of Anthropology provides all academic advising for the Behavioral Science Program.

Overview

Created in 1968, the Department of Chicana and Chicano Studies (CCS) at San José State University educates and serves students through interdisciplinary education based on principles of social justice. CCS at SJSU is the oldest Graduate Program in Chicana/o Studies in the United States and is one of only five Graduate Programs in Chicana/o Studies in California and the only one north of Santa Barbara, California. The CCS department prepares students to understand and respond to conceptualizations of race and ethnicity, as they relate to and are challenged by Chicana/o communities. CCS students develop critical thinking skills and comparative analyses between Chicana and other People of Color communities. Thus, CCS students integrate major sociopolitical issues, cultural experiences, and intellectual theories from their CCS courses that they then apply to their careers, lives, and other post-graduate work.

CCS offers an academic major with three areas of specialization in Cultural and Creative Expression, Institutions and Community Engagement, and Transnationalism and Global Relations; an academic minor for SJSU undergraduate students, open to all academic majors; and a graduate program with three areas of specialization in Policy Studies, Education, and Comparative Ethnic Studies.

Overview

The Department of Communication Studies prepares competent and ethical communicators for meaningful participation in diverse local and global communities. The B.A. and M.A. programs focus on four primary areas, or cornerstones: democracy, diversity, technology, and globalization. Democracy affirms the balance of individual freedom and socio-political consensus shaped through dialogue, argument, and persuasion between individuals and groups. Diversity explores the variety and complexity of communication efforts to shape beliefs, values, and perceptions in different communities and cultures. Technology interrogates the implications of human communication in a mediated world. Globalization recognizes the interconnectedness, integration, fragmentation, and conflict within human societies and cultures in global contexts. Our undergraduate and graduate degree programs prepare alumni for a wide range of careers in areas such as education, sales, marketing, public relations, human resource development, law, politics, and community service.

Honors Program

Students requesting departmental honors in Communication Studies will be evaluated against the following criteria: (1) a minimum GPA of 3.5 in all four unit upper division courses in the major (Foundations, Inquiry, Practice Courses, 101C and 199C); (2) have at least a 3.0 overall GPA; and (3) satisfactorily complete one of the department's four-unit graduate seminars.

Overview

Economics stresses the role of markets and institutions on business, political and socioeconomic outcomes. By emphasizing applied economics, the program encourages majors to hone their strategic thinking skills, learn to

anticipate the unintended consequences of actions, and engage in consequential thinking about changes over time. By stressing oral and written communication and statistical analysis, the program encourages majors to acquire the skills necessary to communicate ideas. Economics graduates use economic tools to evaluate and pose reasoned solutions to multi-faceted, complex problems, as a result, they are in high demand in any field where decision making and reasoning are emphasized. Our bachelor's degree is an excellent springboard to an MBA or law degree. Our master's program prepares graduates for research and policy positions in government and business. Although we emphasize applied economics, we also provide students with the rigorous preparation necessary to pursue doctorates in economics.

Honors Program

To graduate with Economics Department honors student must have an overall GPA of 3.2; a GPA of 3.5 for all upper division economics courses. For more information, and to apply for honors, please consult the Economics Department website.

Costanza Rampini

Overview

The mission of the Department of Environmental Studies is to provide students with rigorous interdisciplinary tools to study, manage and resolve environmental challenges. As part of this mission, we are committed to providing an inclusive, multicultural and anti-racist education for all our students. Among the first such programs in the country, the Department of Environmental Studies at SJSU has been granting degrees and training environmental professionals since 1970. Today, our students experience hands-on learning through field courses, the Center for Development of Recycling, the Environmental Resource Center and off-campus internships. Alumni career paths include environmental impact assessment, habitat restoration, renewable energy, water policy, environmental education, sustainable agriculture, recreation and park management, environmental policy, integrated waste management, and recycling. The Department offers MS, BS, and BA degrees in Environmental Studies (including BA Teacher Prep) and a BA in Global Studies. The Global Studies degree is an interdisciplinary program that looks at the world holistically, examining the connections between international human migrations, the movement of goods, technology transfers, and environmental change. We also offer a range of minors to students across campus, from environmental restoration to sustainable energy. The Department's MS in Environmental Studies is one of the few research-based Master of Science degrees in Environmental Studies in the country.

Structure of the Environmental Studies BS, BA and MS Degrees

The undergraduate Environmental Studies degrees are structured around four components: 1) a preparation sequence; 2) core classes in Environmental Studies, which provide a solid foundation in environmental issues integrating natural and physical science, social science, and the humanities; 3) an advisor-approved minor focused on a specific career pathway; and 4) electives. Electives may consist of classes both within and outside the department and generally require advance approval by an Environmental Studies faculty advisor. The Master of Science graduate degree is a thesis-based program that requires original research. Information on all aspects of these degrees is found on the advising sheets available in the department office in Washington Square Hall 118 and on the department website.

Overview

History provides the tools to understand the world and to make sense of it in the past, present, and future. The SJSU Department of History offers undergraduate and graduate programs that teach our students to read carefully, compare sources, make judgments, and communicate persuasively using evidence-based research. Graduates of our programs often become teachers, but most work in other fields such as law, journalism, the arts, museums, libraries, archives, media, non-profits, consulting, government, and every field of business. Internships are available and Phi Alpha Theta, the History honors society, sponsors academic and social activities for our students. The Social Science Teacher Preparation (SSTP) program helps prepare students for teaching careers. At the graduate level, our primary fields of study are U.S. history, European history, and World history. Many of our MA graduates teach at local middle schools, high schools, and community colleges. Our faculty and students conduct research that draws on the special resources of the MLK Library as well as outstanding local archives such as History San José, the California History Center at De Anza College, the Hoover Institution at Stanford University, and the Bancroft Library at the University of California, Berkeley.

Honors Program in History

History and/or Social Science Teacher Preparation majors may qualify for admission to the History Department honors program after completing 15 upper division units in history. To apply to graduate with History departmental honors, the student must have an overall GPA of 3.0, a GPA of 3.5 for all History upper division courses, or the permission of the chair. If accepted, qualified seniors must complete one of the following: HIST 221, HIST 230, HIST 240, HIST 241, HIST 272, HIST 274, HIST 276, HIST 280, HIST 283, or HIST 288, with a grade "B" or higher.

Overview

Since 1930, the Department of Justice Studies has developed, promoted and fostered social justice and empowered communities. In an ever-changing social, political and economic environment, we remain committed to academic excellence, social activism and policy-relevant research. We offer BS and MS degrees in justice studies, a BS in forensic science and minors in justice studies, forensic studies, an MS in Criminology, legal studies and human rights. Among other topics, our widely regarded faculty conduct research in the areas of human rights, immigration, violence against women, sex offender behavior, family violence, and DNA profiling. Student groups and clubs include Alpha Phi Sigma, Chi Pi Sigma and the Forensic Science Students. Our graduates work in a multitude of settings including

probation, parole, corrections, law enforcement, crime labs, and nonprofit agencies, or they continue their education in law school or other graduate programs.

Overview

Political science majors tackle the public issues of the day as well as the timeless issues of government, public policy and the political process. The Department of Political Science offers a BA in political science. Our courses cover U.S. politics and public administration, public law, comparative politics, international relations and political theory. Our extensive internship program includes funded internships in Sacramento and Washington, D.C., and our students have the opportunity to participate in a Model United Nations and the honor society Pi Sigma Alpha. We prepare our graduates for advanced graduate study as well as careers in law, public policy analysis, teaching, government service, legislative staffing, political consulting, interest group representation, international relations and other fields. Contact us at 408-924-5550 or visit us at the Political Science Department website.

Honors Program

The achievements of political science majors with an overall GPA of 3.20 and a 3.50 GPA in political science are recognized by the department honors program. These outstanding students are eligible to enroll in POLS 190H - Honors Thesis. Students who attain the required GPA and complete the honors thesis graduate with Honors in Political Science. Interested students should consult the department chairperson.

Overview

The Department of Psychology seeks to develop skilled critical thinkers who use their knowledge of the principles of human behavior, cognition, and emotion to work and live effectively and fully in a multicultural global society. Our curriculum covers the major areas in the field of psychology to help students understand the complexities of human thought and behavior in a sociocultural context. In addition, the Department provides students with training in research methods, statistics, and scientific writing. Psychology students have opportunities to gain practical experience by working with our faculty in research labs, community outreach projects, Silicon Valley companies, and so on. The Department offers a BA in Psychology, a minor in Human Systems Integration, a minor in Psychology, an MA in Research and Experimental Psychology, an MS in Clinical Mental Health Counseling, and an MS in Industrial and Organizational Psychology. Detailed information about our faculty, students, and programs may be found on the Psychology Department website.

Psychology Honors Program

Students requesting departmental honors in psychology will be evaluated against the following criteria at graduation: (1) a minimum aggregate GPA of 3.5 across all psychology course work; (2) evidence of distinguished scholarly work, as indicated by the completion of a BA thesis (PSYC 199), the honors seminar (PSYC 195), or work leading to a published paper or presentation at a professional meeting; (3) both PSYC 117 and STAT 115; (4) completion of a section of PSYC 121A, B, C, E. Contact a psychology advisor for details.

Overview

The Department of Sociology and Interdisciplinary Social Sciences educates students about the social processes that create, maintain, and transform our society. The department has four programs: Asian American Studies; Native American and Indigenous Studies; Sociology; and Women, Gender and Sexuality Studies.

The Asian American Studies (AAS) major provides an interdisciplinary liberal arts education. The AAS program is designed to develop student skills in critical analysis, writing, communication and reasoning, while retrieving, documenting and analyzing the diverse artistic, economic, social, political and historical experiences of Asian Americans in the United States.

The Sociology major uses sociological foundations and applications as well as interdisciplinary approaches to the study of society and in teacher education training. Sociologists analyze how social institutions and social structures such as the economy, politics, education, the family, mass media, and the criminal justice system affect individuals in society. The major provides students with the skills and knowledge to navigate the social, political, economic,

historical, and cultural issues that build and sustain effective leadership in our complex global society. Sociology has two major degree program tracks: Sociology, Sociology with Concentrations in (1) Community Change and (2) Race and Ethnic Studies.

The Women, Gender, and Sexuality major investigates how lives are shaped by gender and gender identity, race, class, sexuality, and nation. The program emphasizes the importance of understanding gender as integral to social and political structures of power. Students will obtain skills to cultivate critical thinking, cultivation of dialogue, coalition building, appreciation of diversity, and contribution to social change based on feminist frameworks.

The department offers several minor courses of study: Asian American Studies; Sociology; Sociology of Education; and Women, Gender and Sexuality Studies. These degree programs lead to careers in education, government and public policy, criminal justice, nonprofit organizations, marketing research, human resource management, social work, and other areas.

Department of Urban and Regional Planning

Department Overview

The Department of Urban and Regional Planning at SJSU offers undergraduate and graduate degrees in Geography, and an accredited Master in Urban Planning degree as well as an accredited Master in Public Administration degree. The department also offers minors in Geography, Geographic Information Science, and Urban Studies. In addition, the department offers seven advanced graduate certificates emphasizing different focus areas such as affordable housing, community development, environmental planning, geographic information science, real estate development, transportation, and urban design. Planning and geography are multi-disciplinary fields and our world class faculty have diverse disciplinary backgrounds including architecture, economics, history, geography, sociology and urban planning. Our programs emphasize experiential learning and career-oriented academic preparation, enhanced by our downtown San Jose location. The department has cultivated long-standing relationships with industry partners, government agencies, and community-based organizations. Our graduates go on to rewarding careers in Silicon Valley companies such as Apple, Facebook and Google as well as government agencies and non-profit organizations in the Bay Area.

Certificates

The Department of Urban and Regional Planning at San José State University offers seven advanced certificates (listed below).

The certificate programs are open to graduate degree students enrolled in any program at San José State University (SJSU). Members of the public who hold an undergraduate degree may also complete any of the graduate certificate programs through SJSU's Open University, upon submission of an application form to the Graduate Advisor, and subsequent approval by the Graduate Advisor. To earn a certificate, students must complete a total of nine to sixteen units of course work, depending on the certificate. If course work is taken through Open University, the maximum number of units allowed by SJSU policy may be applied towards the MUP degree. In addition, the student must:

- Maintain a minimum GPA of 3.0 over all semester credits of coursework applied towards the certificate.
- Earn a minimum grade of "B Minus" in every course applied towards the certificate.
- Complete all the course work within seven years.

For detailed information on these programs, see the department website or contact the department's Graduate Student Advisor.

Geography Program

Geographers study places to understand and explain what makes places special and unique. Geographers study the natural environment, the built environment, and the socio-demographic characteristics of people. Geographic Information Science (GIS) uses the power of location integrated with computing technologies to analyze large volumes of data to make informed decisions. As the only Geography degree-granting program in Silicon Valley, the program takes advantage of its downtown San Jose location to emphasize urban and cultural geography, economic geography, and geospatial methods. The program has developed and cultivated long-standing relationships with government agencies, other universities, and the City of San Jose. GIS is a rapidly growing field and our courses will give students the analytic and problem-solving abilities necessary to begin rewarding careers immediately after graduation. Prospective students are encouraged to consult the department website for additional information.

Geography Honors Program

Graduation with departmental honors in geography can be achieved by successful completion of any geography graduate seminar open to those seniors with a 3.5 GPA in geography, or completion of an Honors Project under supervision of a department faculty member. Students must have a 3.5 GPA in geography to qualify for an Honors Project option.

Urban Planning Program

The Department of Urban and Regional Planning began at SJSU in 1970 and offers the only accredited Master in Urban Planning degree in Silicon Valley. Urban planners balance visionary thinking with pragmatic problem solving, working in partnership with multiple stakeholders to address challenges related to growth and change. Urban planners work within the frameworks of formal and informal institutions to solve problems related to affordable housing, climate change, economic development, environmental protection, public health, and transportation. The program has a long history of working in partnership with local communities to address their planning needs. As a graduate program, Urban Planning attracts a diverse student body, including many non-traditional students who come to the program with a wealth of knowledge and experience. The program has a strong network of alumni who work in the region in city, county, and state government agencies, private sector firms, and nonprofit organizations.

Professional & Global Engagement

Professional & Global Engagement (PGE) offers professional education programs tailored to meet the diverse needs of current and prospective students, as well as professionals aiming to enhance their careers. Our innovative programs are designed to provide real-world knowledge and are delivered through flexible modes such as online learning, asynchronous study, and convenient off-site locations. In addition to our professional programming, we offer programs and comprehensive support tailored to the unique needs of our international student community. Through our Global Engagement programming and services, we strive to create a welcoming and inclusive environment, offering a range of services designed to enhance academic success, cultural integration, and overall student experience. From technical skill development to cultural immersion opportunities, we are committed to empowering students for success in a diverse and interconnected world.

SJSU Online

The mission of SJSU Online is to expand higher education access and degree attainment for learners requiring a fully online degree pathway. The special session degree completion programs offered through SJSU Online meet these potential graduates where they are, offering flexible 100% online pathways for degree attainment focused on the needs of the working learner, including multiple admission cycles, 8-week academic terms, and a per-unit tuition structure that is cost-effective for the part-time learner. These programs are offered through a special session that requires a separate application process. If interested, please contact one of our Enrollment Counselors for more information.

Professional Education

Professional & Global Engagement (PGE) offers professional education programs to current and prospective students and professionals seeking to expand their learning and advance in their careers by applying real-world knowledge. Our programs, offered in innovative modes (online, asynchronous, and accessible off-site locations) with accessible schedules (evenings, weekends, and summers) ensure that individuals from all walks of life (traditional students, re-entrants to the workforce, career changers, and working professionals) have access to our program offerings.

An academically and financially viable unit of San José State University, PGE is one of the most diverse (in types of programs offered), innovative, and successful units in the twenty-three campus California State University (CSU) system and has been serving the largest number of students over the past three years with the most extensive portfolio of graduate and undergraduate academic programs.

In partnership with the seven academic colleges, we offer a variety of professional degree programs at the Master's level, fully online undergraduate degree completion programs, advanced certificates, credential programs, and more.

In addition to our degree programs, we offer credit-earning courses to augment and complement regularly scheduled classes. Open University allows course access to non-matriculated students (including disqualified students) on a space-available basis to pursue their educational or personal enrichment goals and earn college credit.

Winter Intersession and Summer Intersession allow current SJSU students and the public an opportunity to take classes for college credit in winter and summer; we have a robust offering of courses, including General Education (GE) courses. These accelerated-format university courses are perfect for meeting prerequisites, completing GE or major course requirements, or enabling a faster pace toward graduation.

PGE also has non-credit continuing education courses to offer professionals (e.g., teachers, nurses, etc.) an opportunity to quantify their time in professional development and training activities by having the university maintain a record of their educational accomplishments for non-credit educational and career enhancement experiences.

Global Engagement

We are committed to internationalizing our campus to cultivate an environment of diversity and inclusion, and to graduate students who are prepared to live and lead in an increasingly globalized world.

SJSU serves more international students than any other master's granting university in the U.S. Our students have high success in obtaining internships and work opportunities in Silicon Valley via curriculum practical training during their studies, and once they graduate, they have opportunities to participate in OPT/STEM OPT.

Our International Student & Scholar Services office (ISSS) offers comprehensive immigration advising and co-curricular support programming for our international students and scholars. The goal of ISSS is to enhance the students' experience in the U.S. and integrate them into our community, while also contributing to their success during their tenure at SJSU and beyond.

In addition, our Study Abroad and Away office offers an extensive portfolio of off-campus globally-focused programs that strive to meet the personal, academic, and professional goals of our students. We aim to provide programs for all SJSU students to learn and discover other cultures first-hand, including study abroad (international) and away (domestic), short-term (winter, spring, and summer breaks), and long-term (semester and year-long) options.

Our International Gateways unit provides comprehensive support services and instruction to help non-matriculated international students thrive at our University. Through International Conditional Admissions, we help students apply for Conditional Admission/Eligibility to SJSU undergraduate and graduate degree programs. International students interested in studying abroad in Silicon Valley can participate in our Semester at SJSU program. In addition to regularly scheduled programs, we partner with global universities and SJSU academic departments to develop and deliver customized non-credit programs for students and professionals.

Our International House (I-House) provides a welcoming intercultural living environment to U.S. and international students and scholars affiliated with San Jose State University. The residents of I-House live together under one roof as an extended family in their home away from home at 360 S. 11th Street, near SJSU's main campus. With a supportive, skillful, and dedicated staff, it offers opportunities to enhance academic success and participate in a myriad of socio-cultural activities while facilitating intercultural communication and competence.

Overview

Intercollegiate athletics offers a comprehensive spectrum of 22 sports (9 men's and 13 women's) which compete at the NCAA Division I level (the highest level of collegiate competition). San Jose State University is a member of the Mountain West Athletic Conference. Over the years, San Jose State athletics teams have won 10 NCAA team and 50 individual championships.

Course offerings are designed to satisfy the needs and interests of highly skilled student-athletes and provide them with the highest level of intercollegiate athletics experience. Note: Courses are open only to those SJSU students who are currently on one of the Spartan team rosters.

Leadership:

Marc d'Alarcao, Dean

Jeffrey Honda, Associate Dean of Graduate Programs

Amy Leisenring, Associate Dean of Inclusive Student Success

The College of Graduate Studies assists graduate programs and their faculty and students to succeed. The College of Graduate Studies supports program development, advising faculty in transforming existing degree and certificate programs or building new ones at the post-baccalaureate, master's, or doctoral level. The College of Graduate Studies is also a resource for students seeking scholarships or who are facing special challenges such as probation or disqualification. The college helps maintain academic integrity through the fair and consistent administration of graduate policies, including those issued by the Chancellor and by the university's Academic Senate. Its Graduate Admissions and Program Evaluations (GAPE) division supports students as they enter and work their way through various degree requirements. The College of Graduate Studies interprets and administers the policies and procedures outlined in the sections that follow.

The Interdisciplinary Studies Major for either a Master of Arts or a Master of Science degree provides an alternative for individuals whose desired study plans do not fit the degree offerings of any single existing degree program on campus. In most cases, a thesis is required for this degree. Applicants or graduate students in other majors who wish to undertake the Interdisciplinary Studies major should consult the College of Graduate Studies Interdisciplinary Studies website to obtain the Information and Application for Interdisciplinary Studies Majors [pdf]. The guide contains the Proposal for Interdisciplinary Studies Major, which must be completed to obtain initial approval by the Associate Dean of Graduate Studies to be able to enter the program.

- Interdisciplinary Studies, MA
- Interdisciplinary Studies, MS

Degrees

Lucas College and Graduate School of Business

The Lucas Graduate School of Business in the Lucas College and Graduate School of Business offers the following degree programs:

- Accounting and Analytics, MS
- Business Administration, MBA
 - Early Career
 - For Professionals
- Finance, MS
- Taxation, MS
- Transportation Management, MS

Connie L. Lurie College of Education

The Connie L. Lurie College of Education offers the following degree programs:

- Child and Adolescent Development, MA
- Counseling and Guidance, MA
- Educational Leadership, Concentration in Emancipatory School Leadership, MA
- Educational Leadership, EdD (Fully Online)
- Educational Leadership, EdD (Hybrid)
- Higher Education Leadership, MA
- Multilingual and Multicultural Literacy Education, MA
- Special Education, MA
- Speech Language Pathology, MS
- Teaching, Critical Bilingual Education (Spanish) Concentration, MAT
- Teaching, MAT

Charles W. Davidson College of Engineering

The Charles W. Davidson College of Engineering offers the following degree programs:

- Aerospace Engineering, MS
- Artificial Intelligence, MS

- Biomedical Engineering, Biomedical Devices Concentration, MS
- Biomedical Engineering, MS (General)
- Chemical Engineering, MS
- Civil Engineering, MS
- Computer Engineering, MS
- Electrical Engineering, MS
- Engineering Management, MS
- Engineering Technology, MS
- Engineering, MS
- Human Factors/Ergonomics, MS
- Human Factors/Ergonomics, User Experience Concentration, MS
- Industrial and Systems Engineering, MS
- Materials Engineering, MS
- Mechanical Engineering, MS
- Quantum Technology, MS
- Software Engineering, MS

College of Health and Human Sciences

The College of Health and Human Sciences offers the following degree programs:

- Audiology, AUD
- Kinesiology, MS
- Nursing, Family Nurse Practitioner Concentration, MS
- Nursing, MS
- Nursing Practice, DNP
- Nutritional Science, MS
- Occupational Therapy, MS
- Occupational Therapy Doctorate, OTD
- Public Health, MPH
- Social Work, MSW

College of Humanities and the Arts

The College of Humanities and the Arts offers the following degree programs:

- Art, Art History and Visual Culture Concentration, MA
- Art, Digital Media Art Concentration, MFA
- Art, Photography Concentration, MFA
- Art, Pictorial Art Concentration, MFA
- Art, Spatial Art Concentration, MFA
- Computational Linguistics, MS
- Creative Writing, MFA
- Design, MDes
- English, MA
- Linguistics, MA (Not Accepting Students)
- Mass Communications, MS
- Music Education, MA

- Music, MM
- Philosophy, MA
- Spanish, MA
- Teaching English to Speakers of Other Languages (TESOL), MA (Not Accepting Students)

College of Information, Data & Society

The College of Information, Data & Society offers the following degree programs:

- Archives and Records Administration, MARA
- Data Analytics, MS
- Informatics, MS
- Library and Information Science, MLIS

College of Science

The College of Science offers the following degree programs:

- Applied Mathematics, MS
- Bioinformatics, MS
- Biological Sciences, MA
- Biological Sciences, Ecology and Evolution Concentration, MS
- Biological Sciences, Molecular Biology and Microbiology Concentration, MS
- Biological Sciences, Physiology Concentration, MS
- Biotechnology, MBT
- Chemistry, MA
- Chemistry, MS
- Computer Science, MS
- Data Science, MS
- Geology, MS
- Marine Science, MS
- Mathematics, MA (General)
- Medical Product Development Management, MS
- Meteorology, MS
- Physics, MS
- Quantum Technology, MS
- Science Education, MS
- Statistics, MS

College of Social Sciences

The College of Social Sciences offers the following degree programs:

- Applied Anthropology, MA
- Chicana and Chicano Studies, MA
- Clinical Psychology, MS
- Communication Studies, MA

- Criminology, Global Criminology Concentration, MS
- Economics, MA
- Economics, Applied Economics Concentration, MA
- Environmental Studies, MS
- Geography, MA
- History, MA
- Justice Studies, MS
- Psychology, Industrial/Organizational Psychology Concentration, MS
- Psychology, Research and Experimental Psychology Concentration, MA
- Public Administration, MPA
- Urban Planning, MUP

Certificates

- Accounting Fundamentals Certificate
- Advanced Accounting Topics Certificate
- Advanced Certificate in Geographic Information Systems (GIS) Certificate
- Advanced Communication(s) and Research Methods Certificate
- Advanced Global Leadership Certificate
- Advanced Social Work Practice in Gerontology Certificate
- Advanced Social Work Practice in Mental Health Certificate
- Advanced Taxation Certificate
- Affordable Housing and Community Development Finance Certificate
- Applications of Technology in Planning Certificate
- Business Analytics Certificate
- Clinical Genetic Molecular Biologist Scientist Training Program Certificate
- Clinical Laboratory Scientist (CLS) Training Program Certificate
- Community Design and Development Certificate
- Computational Linguistics Certificate
- Cybersecurity Engineering Certificate
- Cybersecurity Foundations Certificate
- Cybersecurity: Core Technologies Certificate
- Environmental Planning Certificate
- Ethics of Science and Emerging Technologies, Advanced Certificate
- Fundamentals of Cybersecurity Certificate
- Global Citizenship Certificate
- Global Philosophical Traditions Certificate
- Graduate TESOL Certificate (Not accepting students)
- High Technology Taxation Certificate
- High-Speed and Intercity Rail Management Certificate
- Higher Education Teaching Certificate
- International Taxation Certificate
- Library and Information Science Post-Master's Certificate
- Mindfulness-Based Health and Human Services Certificate
- Nursing Specialty Advanced Certificate
- Philosophy Post-baccalaureate Certificate
- Professional and Technical Writing Certificate

- Real Estate Development Certificate
- Secure Software Engineering Certificate
- Secure Test Engineering Certificate
- Six Sigma Black Belt Certificate
- Strategic Management of Digital Assets and Services Certificate
- Tax Practice Certificate
- Theory, Knowledge and Practice about Autism Spectrum Disorders Certificate (Not Accepting Students)
- Translation and Interpretation Certificate
- Transportation and Land Use Planning Certificate
- Transportation Management Certificate
- Transportation Safety, Security, and Emergency Management (TSSEM) Certificate
- Undergraduate TESOL Certificate

Credentials

- California Library Media Teacher Services Credential - now Teacher Librarian Credential
- Education Specialist Preliminary Teaching Credential: Early Childhood Special Education
- Education Specialist Preliminary Teaching Credential: Extensive Support Needs
- Multiple Subject Credential
- PK-3 Early Childhood Education (PK-3 ECE) Specialist Instruction Credential
- Pupil Personnel Services (PM-PPSC) Post-Master's Credential
- Education Specialist Preliminary Teaching Credential: Mild/Moderate Support Needs
- Pupil Personnel Services (PPS) School Counseling Credential
- Pupil Personnel Services (PPSC) Credential (Social Work)
- Single Subject Credential - Art
- Single Subject Credential - English
- Single Subject Credential - Mathematics
- Single Subject Credential - Music
- Single Subject Credential - Physical Education
- Single Subject Credential - Science
- Single Subject Credential - Social Science
- Single Subject Credential - World Languages
- Teacher Librarian Credential

Leadership:

Heather Lattimer, Interim Vice Provost for Undergraduate Education (Education)

Melinda Jackson, Associate Dean of Undergraduate Education (Political Science)

Overview

Undergraduate Education (UE) is involved with all aspects of undergraduate academic matters that support retention and graduation of students. It includes the following areas and programs: Academic Preparation Programs, Campus Reading Program, Center for Community Learning and Leadership, CommUniverCity, General Education, Catalog, and Curriculum.

The courses offered by UE under the subject **University Studies (UNVS)** promote leadership, integrated and applied interdisciplinary academic experiences for students. UE also sponsors the Interdisciplinary Studies undergraduate degree, which is an individually designed course of study leading to a BA or BS degree. The Interdisciplinary Studies degree is designed for situations in which no existing university-level SJSU undergraduate degree major adequately accommodates academic professional aims. Students who complete an Interdisciplinary Studies degree shall be able to demonstrate the characteristics of "intentional learners" who can adapt to new environments, integrate knowledge from different sources, and continue learning throughout their life.

Course Descriptions

Activity/Physical Education Classes

The Department of Kinesiology identifies the following courses as "activity classes". DANC 154A and DANC 154B may also be used to satisfy the requirements in the Kinesiology, BS and Kinesiology, Preparation for Teaching, BS.

KIN 1 - Adapted Physical Activities

1 unit(s)

Structured individualized physical activities to enhance physical/motor fitness and develop an active, health-oriented lifestyle for students unable to participate in the general activity program.

Satisfies PE: Physical Education.

Repeatable for credit with instructor consent.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 2A - Beginning Swimming

1 unit(s)

This course is designed for the non-swimmer and beginning swimmer. It is assumed that all students enrolled in the class have had little or no experience in learning the basic skills of swimming. The course is designed to instruct the student in the basic skills necessary to enable him/her to swim safely in deep water. There are no prerequisites for the course.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 2B - Intermediate Swimming

1 unit(s)

This course is designed to meet the needs of students who have satisfactorily completed the skills involved in beginning swimming.

Satisfies PE: Physical Education.

Prerequisite(s): Beginning level or its equivalent.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 2C - Advanced Swimming

1 unit(s)

This course is designed to refine and extend the development of advanced skills in swimming.

Satisfies PE: Physical Education.

Prerequisite(s): Intermediate level or its equivalent.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 3 - Water Polo

1 unit(s)

Fundamental skills, techniques, strategies, rules, and knowledge necessary to safely and correctly play water polo.

Prerequisite(s): Beginning level swimming proficiency.

Grading: Letter Graded

Note(s): Movement Area 5 Team

KIN 7 - Mexican Folklorico Dance

1 unit(s)

Introduction to Mexican Folklorico Dance. Focus is on the development of fundamental Mexican Folk dance skills and knowledge. Review of the interrelationship of dance culture to origins, holidays, people, and historical context. Students learn danzas & Mestizo dances from various states and regions of Mexico (e.g. Veracruz Huasteca, Tamaulipas Norte) and indigenous community (e.g. Oaxaca Mixe) dance categories.

Satisfies PE: Physical Education.

Course may be repeated for credit for up to 4 units.

Grading: Letter Graded

Note(s): Movement Area 3 Dance

Cross-listed with CCS 7. Chicana Chicano Studies is responsible for scheduling.

KIN 8 - Skin and SCUBA Diving

2 unit(s)

Both skin and SCUBA diving skills for enjoyment and to understand dangers connected with the sport. Only one unit can be applied for the physical education graduation requirement.

Misc/Lab: Lecture 1 hour/activity 3 hours.

Satisfies PE: Physical Education.

Prerequisite(s): KIN 2C (or equivalent).

Grading: Letter Graded

Note(s): Movement Area 6 Adventure

KIN 9A - Beginning Sailing

1 unit(s)

Basic skills and safety knowledge in small boats for those with little or no sailing experience.

Satisfies PE: Physical Education.

Prerequisite(s): Student must be able to swim 100 yards without stopping, tread water for 5 minutes, and exit from an overturned dinghy. Students will be tested for this in the SPX pool.

Grading: Letter Graded

Note(s): Movement Area 6 Adventure

KIN 10A - Beginning Kayaking

1 unit(s)

Beginning skills and knowledge for those with little or no experience of flat water kayaking. The emphasis will be on safe operation at all times.

Satisfies PE: Physical Education.

Prerequisite(s): Students must be able to swim 100 yards without stopping, tread water for 5 minutes, and exit from an overturned kayak. Students will be tested for this in the SPX pool.

Grading: Letter Graded

Note(s): Movement Area 6 Adventure

KIN 11A - Beginning Rowing

1 unit(s)

Basic skills and knowledge for those with little or no experience of sweep rowing or sculling. Initial classes will be on indoor rowing machines, then eight-oared boats will be used. Students will learn both how to row and how to cox; improvement of strength / fitness is central.

Satisfies PE: Physical Education.

Prerequisite(s): Swim 100 yards without stopping; tread water for 5 minutes; don lifejacket in the water. Tested in a pool.

Grading: Letter Graded

Note(s): Movement Area 5 Team

KIN 13A - Beginning Rugby

1 unit(s)

This course is designed to familiarize the student with the rules, skills and basic concepts of modern Rugby Union Football. The class will equip the student to be an informed rugby spectator and/ or participant.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 5 Team

KIN 14A - Beginning Volleyball

1 unit(s)

This course provides the student with the opportunity to learn and develop the basic rules and skills of volleyball, the 6-6 offense and the defense against the 6-6 offense.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 5 Team

KIN 14B - Intermediate Volleyball

1 unit(s)

This course provides the intermediate student with the opportunity to refine and perfect the basic volleyball skills and to master individual positions when using the 6-2 offense and the defense against the offense.

Satisfies PE: Physical Education.

Prerequisite(s): Beginning level or its equivalent.

Grading: Letter Graded

Note(s): Movement Area 5 Team

KIN 14C - Advanced Volleyball

1 unit(s)

This course is designed to teach advanced skills, principles and techniques necessary and fundamental to understanding and playing volleyball.

Satisfies PE: Physical Education.

Prerequisite(s): Intermediate level or its equivalent.

Grading: Letter Graded

Note(s): Movement Area 5 Team

KIN 15A - Beginning Basketball

1 unit(s)

This course is designed to assist students in the development of fundamental skills necessary for effective involvement in playing the game of basketball.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 5 Team

KIN 15B - Intermediate Basketball

1 unit(s)

This course provides the intermediate student with the opportunity to refine and perfect basic basketball skills.

Satisfies PE: Physical Education.

Prerequisite(s): Beginning level or its equivalent.

Grading: Letter Graded

Note(s): Movement Area 5 Team

KIN 16A - Beginning Team Handball

1 unit(s)

Development of beginning team handball skills. Knowledge and skills commensurate with playing beginning team handball. Improves the health-related components of fitness through a variety of drills and plays. Also provides an overall historical background of the sport of team handball.

Satisfies PE: Physical Education

Grading: Letter Graded

Note(s): Movement Area 5 Team

KIN 18A - Beginning Handball

1 unit(s)

This course is focused on the development of fundamental handball skills, basic tactics, simple strategies, etiquette and sportsmanship, rules, and their application in beginning games.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 18B - Intermediate Handball

1 unit(s)

Course focuses on improving the quality of fundamental handball skills, learning intermediate handball skills/drills and application, developing intermediate handball tactics and strategies, good sportsmanship, and playing more effective single and double games in different formats.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 19A - Beginning Soccer

1 unit(s)

This course is designed to introduce students to the game of soccer, and to provide students with the fundamental ability and knowledge needed to enjoy this game as players and as spectators.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 5 Team

KIN 19B - Intermediate Soccer

1 unit(s)

Designed for students with previous soccer experience to refine technical skills, enhance offensive and defensive tactical awareness, learn various strategy and game philosophies, and improve conditioning. Develop a greater understanding of the rules of the game with an emphasis on the application of skills and strategy in game play.

Satisfies PE: Physical Education.

Prerequisite(s): KIN 19A (or equivalent) or Instructor Consent.

Grading: Letter Graded

Note(s): Movement Area 5 Team

KIN 20A - Beginning Badminton

1 unit(s)

This course is focused on the development of fundamental badminton skills, basic tactics, simple strategies, etiquette, rules, and their application in single and double games.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 20B - Intermediate Badminton

1 unit(s)

This course is focused on improving the quality of fundamental badminton skills, learning intermediate badminton skills and their application, developing intermediate badminton tactics and strategies, good sportsmanship, and playing more effective single and double games in elimination, round robin, and team competitions.

Satisfies PE: Physical Education.

Prerequisite(s): Completed SJSU beginning badminton class or have equivalent skills/knowledge.
Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 20C - Advanced Badminton

1 unit(s)

This course is focused on improving the quality of fundamental and intermediate badminton skills, learning advanced skills and their application, developing advanced badminton tactics and strategies, good sportsmanship, and playing high level games.

Satisfies PE: Physical Education.

Prerequisite(s): Completed SJSU intermediate class or show equivalent skills/knowledge.
Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 21A - Beginning Tennis

1 unit(s)

This course is designed to give students a basic understanding of the game of tennis. Students will be given a chance to learn through lecture, demonstration, drilling and match play.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 21B - Intermediate Tennis

1 unit(s)

This course is focused on improving the quality of fundamental tennis skills, learning intermediate tennis skills and drills and application, developing intermediate tennis tactics and strategies, establishing proper manners, and playing more effective single and double games in elimination, round robin, and team competitions.

Satisfies PE: Physical Education.

Prerequisite(s): Completed SJSU beginning class or have equivalent skills/knowledge.
Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 22A - Beginning Racquetball

1 unit(s)

This course is focused on the development of fundamental racquetball skills, basic tactics, simple strategies,

etiquette, rules, and their application in single and double games.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 22B - Intermediate Racquetball

1 unit(s)

This course is focused on improving the quality of fundamental racquetball skills, learning intermediate racquetball skills/drills and application, developing intermediate racquetball tactics and strategies, good sportsmanship, and playing more effective single and double games in different formats.

Satisfies PE: Physical Education.

Prerequisite(s): Completed SJSU beginning class or have equivalent skills/knowledge.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 23A - Beginning Archery

1 unit(s)

This course is designed to introduce the student to the basic skills and concepts, provides the opportunity to learn, practice and analyze correct shooting form and to participate in a variety of archery tournaments.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 23B - Intermediate Archery

1 unit(s)

This course builds upon beginning level skills and knowledge and provides the opportunity to shoot a variety of different archery rounds.

Satisfies PE: Physical Education.

Prerequisite(s): Beginning level or its equivalent.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 24A - Beginning Bowling

1 unit(s)

This course is designed to give students an understanding of the sport of bowling and develop fundamental

bowling skills.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 24B - Intermediate Bowling

1 unit(s)

This course is designed to meet the needs of students who have satisfactorily completed the skills in beginning bowling. The course will add more advanced theory and techniques.

Satisfies PE: Physical Education.

Prerequisite(s): Beginning level or its equivalent.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 25A - Beginning Golf

1 unit(s)

Designed for those who have never played golf or who have played very little and have had no basic formal instruction. Provides the student with a sound set of fundamentals to prepare for further instruction, if desired.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 25B - Intermediate Golf

1 unit(s)

Development of intermediate golf skills and knowledge with a focus on technique that facilitates the acquisition of consistent intermediate level performance.

Satisfies PE: Physical Education.

Prerequisite(s): KIN 25A or equivalent.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 27A - Beginning Table Tennis

1 unit(s)

This course is focused on the development of fundamental table tennis skills, basic tactics, simple

strategies, etiquette, rules, and their application of in single and double games.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 27B - Intermediate Table Tennis

1 unit(s)

This course is focused on improving the quality of fundamental table tennis skills, learning intermediate table tennis skills and drills and their application, developing intermediate tactics and strategies, good sportsmanship, and playing more effective single and double games in elimination, round robin, and team competitions.

Satisfies PE: Physical Education.

Prerequisite(s): Completed SJSU beginning class or have equivalent skills/knowledge.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 28A - Beginning Gymnastics

1 unit(s)

This course is designed to develop the student's awareness and performance of basic skills in gymnastics.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 29 - Cardio Kickboxing

1 unit(s)

Cardio Kickboxing is a non-contact aerobic conditioning activity combining punches, kicks, traditional aerobic skills, and fitness activities. The course is designed to enhance cardiovascular endurance, muscular strength, and muscular endurance.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 30 - Pilates

1 unit(s)

Pilates employs an established exercise protocol designed to develop core strength, flexibility, posture, and

range of motion. The course covers the fundamentals of a Pilates workout with an emphasis on breathing, alignment, neutral spine, and core stability.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 31 - Body Sculpting

1 unit(s)

Body sculpting employs exercise augmented with moderate weights to enhance fitness. The course is designed to improve muscle tone and endurance, flexibility, balance, and core stability.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 32 - Aerobics

1 unit(s)

Aerobics incorporates exercise and music, using large, continuous, rhythmic movements to elevate the heart rate and produce a training effect. The course is designed to improve muscle tone and enhance cardiorespiratory endurance.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 33 - Advanced Aerobic Activities

1 unit(s)

Aerobic activities incorporating high intensity interval training, circuit training, cardio kickboxing, power step, and resistance training. This course is designed to enhance cardiorespiratory endurance, muscular strength and muscular endurance.

Satisfies PE: Physical Education.

Prerequisite(s): KIN 32 or KIN 34 or instructor consent.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 34 - Step Training

1 unit(s)

Step training is a low-impact aerobic conditioning activity designed to enhance cardiorespiratory endurance, muscular strength, and muscular endurance.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 35A - Beginning Weight Training

1 unit(s)

This course is designed to teach the basic concepts of weight training for muscular strength and endurance. Its goal is to provide students with knowledge about the principles involved in weight training and the health-related components of fitness through a variety of exercises.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 35B - Intermediate Weight Training

1 unit(s)

Designed for individuals with prior training experience and involves higher level exercises. Students will be exposed to a wide variety of machines as well as free weight exercises and will then design a program based on individual needs.

Satisfies PE: Physical Education.

Prerequisite(s): Beginning level or its equivalent.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 36 - Conditioning through Cross Training

1 unit(s)

Designed to teach basic concepts of health and fitness by using a variety of exercise modalities to increase cardiovascular fitness and improve full-body strength and power. Students will acquire knowledge about the principles involved with cardiovascular fitness, physical conditioning, and the health and skill related components of physical fitness.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 37 - Fitness Walking

1 unit(s)

Fitness walking is a low-impact conditioning activity designed to develop cardiovascular fitness.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 38 - Beginning Jogging

1 unit(s)

Jogging is a moderate-impact activity designed to improve cardiovascular fitness.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 40A - Topics in Modern Dance I

2 unit(s)

Training experience in the field of beginning modern dance with varied topics. Can be repeated when topic changes.

Misc/Lab: Activity 4 hours.

Satisfies PE: Physical Education.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

Note(s): Movement Area 3 Dance

Cross-listed with DANC 40A. Film and Theatre is responsible for scheduling.

KIN 41A - Topics in Ballet I

2 unit(s)

Training experience in the field of beginning ballet dance with varied topics. Can be repeated when topic changes.

Misc/Lab: Activity 4 hours.

Satisfies PE: Physical Education.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

Note(s): Movement Area 3 Dance

Cross-listed with DANC 41A. Film and Theatre is responsible for scheduling.

KIN 42A - Topics in Jazz Dance I

2 unit(s)

Training experience in the field of beginning Jazz dance with varied topics. Can be repeated when topic changes.

Misc/Lab: Activity 4 hours.

Satisfies PE: Physical Education.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

Note(s): Movement Area 3 Dance

Cross-listed with DANC 42A. Film and Theatre is responsible for scheduling.

KIN 45A - Beginning Lindy Hop and Night Club Swing

1 unit(s)

This course is focused on the development of fundamental Swing dance skills and knowledge. Steps, technique, and styling will be drawn from Lindy Hop, Jitterbug, Street Swing, Jive and Triple-Time Swing dances.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 3 Dance

Cross-listed with DANC 45A. Kinesiology is responsible for scheduling.

KIN 46A - Beginning Social Dance

1 unit(s)

This course is focused on the development of fundamental social dance skills and knowledge. Dances will be selected from the American Smooth (e.g. Waltz, Tango), American Rhythm (e.g. Rumba, Cha Cha) and night club (e.g. Hustle, West Coast Swing) dance categories.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 3 Dance

Cross-listed with DANC 46A. Kinesiology is responsible for scheduling.

KIN 47A - Beginning West Coast Swing

1 unit(s)

Designed to improve students' understanding of West Coast Swing dancing and to improve fundamental dance skills common to the dance.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 3 Dance

KIN 48A - Beginning Latin Dance

1 unit(s)

This course is focused on the development of fundamental Latin dance skills and knowledge. Dances will be selected from the International Latin, American Rhythm (e.g. Rumba, Cha Cha) and night club (e.g. Salsa) dance categories.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 3 Dance

Cross-listed with DANC 48A. Kinesiology is responsible for scheduling.

KIN 49A - Topics in Tap Dance I

1 unit(s)

Training and experience in the field of beginning tap dance with varied topics. Can be repeated when topic changes.

Misc/Lab: Activity 3 hours.

Course may be repeated for credit for up to 2 units.

Grading: Letter Graded

Note(s): Movement Area 3 Dance

Cross-listed with DANC 49A. Film and Theatre is responsible for scheduling.

KIN 50 - Tai Chi (Non-Combative)

1 unit(s)

Emphasis on knowledge and skill, development of the standard Simplified Tai Chi Form and applications of Tai Chi for life. It is assumed that students enrolled in the class have had little or no experience in Tai Chi.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 51A - Beginning Aikido

1 unit(s)

This course is focused on the philosophy, history, and basic skills related to the Japanese-derived martial art of Aikido.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 1 Combatives

KIN 51B - Intermediate Aikido

1 unit(s)

This course is focused on the development of intermediate level skills and knowledge related to the Japanese-derived martial art of Aikido. It builds upon the basic movement patterns and falling skills introduced in the beginning class.

Satisfies PE: Physical Education.

Prerequisite(s): KIN 51A or equivalent Aikido skills and experience.

Grading: Letter Graded

Note(s): Movement Area 1 Combatives

KIN 52A - Beginning Judo

1 unit(s)

Course is focused on developing the fundamental skills and knowledge related to Judo. Included are basic groundwork and throwing techniques.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 1 Combatives

KIN 52B - Intermediate Judo

1 unit(s)

This course is focused on development of intermediate level ground and throwing skills and learning in-depth strategies, philosophy, and culture related to Judo. It builds upon the basic ukemi, newaza, and tachiwaza techniques learned in the beginning class.

Satisfies PE: Physical Education.

Prerequisite(s): KIN 52A or equivalent judo skills and experience.

Grading: Letter Graded

Note(s): Movement Area 1 Combatives

KIN 52C - Competitive Judo

1 unit(s)

Prepares students to use Judo techniques in competitive tournaments. The course will offer intermediate and advanced skills (standing, mat and falling techniques) and strategies to improve competitiveness.

Satisfies PE: Physical Education.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): KIN 52A or KIN 52B, and/or instructor consent.

Grading: Letter Graded

Note(s): Movement Area 1 Combatives

KIN 53A - Beginning Karate

1 unit(s)

This course is focused on development of fundamental skills and knowledge related to Karate. Included are basic kicking, punching, and blocking techniques.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 1 Combatives

KIN 53B - Intermediate Karate

1 unit(s)

This course is focused on development of intermediate level skills and knowledge related to Karate. It builds upon the fundamental skills and techniques developed in the beginning class.

Satisfies PE: Physical Education.

Prerequisite(s): KIN 53A or equivalent karate skills and experience.

Grading: Letter Graded

Note(s): Movement Area 1 Combatives

KIN 54A - Beginning Tae Kwon Do

1 unit(s)

This course is focused on development of fundamental skills and knowledge related to Tae Kwon Do. Included are basic patterns (poomse), kicking and one-step defenses.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 1 Combatives

KIN 54B - Intermediate Tae Kwon Do

1 unit(s)

This course is focused on development of intermediate level skills and knowledge related to Tae Kwon Do. It builds upon the fundamental skills and techniques developed in the beginning Tae Kwon Do class.

Satisfies PE: Physical Education.

Prerequisite(s): KIN 54A or equivalent Tae Kwon Do skills and experience.

Grading: Letter Graded

Note(s): Movement Area 1 Combatives

KIN 55A - Beginning Self-Defense

1 unit(s)

This course is focused on development of fundamental skills and knowledge related to self defense. Included are mental and physical self-defense skills and techniques applicable under a variety of conditions.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 1 Combatives

KIN 58A - Introductory Brazilian Jiu-Jitsu

1 unit(s)

Development of the essential skills and principles of Brazilian jiu-jitsu practice. Included are the basic escapes, sweeps, and submissions from the most common positions.

Grading: Letter Graded

Note(s): Movement Area 1 Combatives

KIN 61A - Beginning Hatha Yoga

1 unit(s)

In this course the student will learn the correct movements, postures, and sequence used in traditional Hatha Yoga.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 61B - Intermediate Hatha Yoga

1 unit(s)

Further exploration of the theories and practices of Hatha Yoga encompassing the second level series of traditional intermediate Hatha Yoga postures, breathing exercises, and relaxation techniques.

Satisfies PE: Physical Education.

Prerequisite(s): Beginning level or its equivalent.

Grading: Letter Graded

Note(s): Movement Area 2 Fitness

KIN 62A - Beginning Ice Skating

1 unit(s)

A beginning ice skating course that covers the skills identified by the International Ice Skating Association (IISA).

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 4 Individual/Dual

KIN 63A - Beginning Hiking and Backpacking

1 unit(s)

An introductory course designed to impart skills such as topographical map reading, navigation and hiking. The emphasis is on logistics and operations of adventure excursions and fitness in various wilderness environments.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 6 Adventure

KIN 65A - Beginning Ice Hockey

1 unit(s)

Basic skills, techniques, strategies and rules of ice hockey. No previous skating is required but the ability to skate is highly recommended.

Satisfies PE: Physical Education.

Grading: Letter Graded

Note(s): Movement Area 5 Team

Advertising

ADV 91 - Introduction to Advertising

3 unit(s)

Comprehensive survey of the basic principles of advertising. Topics include: strategic planning, integrated communications, audience targeting, creative strategy, advertising media, social responsibility, advertising ethics, international advertising and current issues in advertising.

Grading: Letter Graded

ADV 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ADV 93 - Design Fundamentals for Advertising 1

3 unit(s)

Introduces students to the ideation and design process as it relates to advertising. Students learn design thinking, ideation techniques, print design, screen design, advertising formats and storytelling across media platforms.

Grading: Letter Graded

ADV 94 - Design Fundamentals for Advertising 2

3 unit(s)

Introduction to digital video production and editing. Focus on learning how to tell a story by combining video and audio, story boarding, script writing, framing, creating a shot sequence, video editing and special effects using industry-standard software.

Grading: Letter Graded.

ADV 95 - Working With Type

3 unit(s)

Theory and practice of typography as they apply to graphics, advertising and other areas of visual communication. Through a series of projects students develop a greater sensitivity to typographic details to create successful typographic messages.

Grading: Letter Graded

ADV 116 - Spartan Daily Advertising Staff

3 unit(s)

Class constitutes the paid advertising staff of the online and print editions of the Spartan Daily. Students work with clients and handle the newspaper's advertising sales and production. Experience in selling and managing advertising space, both print and broadcast, and the practical applications of newspaper layout and design and the use of market research and market interpretation.

Daily lecture and production.

May be repeated for credit for up to 6 units.

Prerequisite(s): ADV 91 or instructor consent.

Grading: Letter Graded

ADV 121 - Strategic Planning/Communications

3 unit(s)

Tools and frameworks for marketing management and strategic communications, including addressing communication issues such as budgets, coordinating agency functions, and delivering an effective marketing and communications plan.

Course may be repeated for credit for up to 6 units.

Grading: Letter Graded

ADV 122 - Business-to-Business Advertising

3 unit(s)

Principles and practices of developing marketing communications programs and collateral materials for business-to-business products and services; translating technical information into persuasive communications; direct marketing, and other forms of sales support communications.

Prerequisite(s): ADV 91.

Grading: Letter Graded

ADV 123 - Introduction to Branded Content

3 unit(s)

History, development, and current applications of traditional broadcast advertising, the Internet as an advertising medium, and the implications of emerging new media. Focus is on creative strategy and media strategy.

Prerequisite(s): ADV 91.

Grading: Letter graded

ADV 124 - Copywriting

3 unit(s)

Conceptual development. Advertising theory used in the development of writing, editing and evaluating advertising copy. Research methods and techniques. Ethical problems.

Prerequisite(s): ADV 91, MCOM 100W and ENGL 71.

Grading: Letter Graded

ADV 125 - Advertising Layout and Production

3 unit(s)

Principles of design applied to print advertising; print production theory and practical application. Preparation of layouts and mechanicals utilizing latest computer applications. Instruction in use of type, printing processes, types of paper, uses of color.

Prerequisite(s): ADV 91.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

ADV 126 - Media Planning and Buying

3 unit(s)

Theory, evaluation and selection of advertising media for a variety of target audiences; demographics and psychographics. Students plan, buy and measure the success of a real media plan.

Prerequisite(s): ADV 91 and BUS2 130.

Grading: Letter Graded

ADV 127 - Practical Qualitative Research in Advertising

3 unit(s)

Course will explore the kinds of questions to which qualitative research can provide answers, the roles & functions of researchers, the processes & tools used in developing, executing and presenting the results of a research project, the typical relationship between agency & client research departments. Students will explore how to respond to a research brief, develop & present a formal research proposal, execute a research project and present its findings, conclusions and proposed next steps.

Prerequisite(s): ADV 91, ADV 121.

Grading: Letter Graded.

ADV 128 - Integrated Marketing Communications (IMC)

3 unit(s)

Learn how advertising, public relations, promotions, and marketing all work together to achieve campaign objectives. Strategic planning, budgeting, research, tactics, evaluation, presentation skills and team building.

Prerequisite(s): Three ADV courses and BUS2 130.

Grading: Letter Graded

ADV 129 - Advertising Campaign Planning and Management

3 unit(s)

Capstone course in which students engage hands-on in the process and methods employed to develop a fully integrated advertising campaign based on the marketing objectives established by a real-world client.

Prerequisite(s): MCOM 111 or ADV 116.

Grading: Letter Graded

ADV 130 - Advertising Portfolio 1

3 unit(s)

Apply fundamentals of design thinking, teamwork, and various media methods to creating a body of advertising work in the form of a portfolio. Students work on a series of projects and award show briefs in creative teams.

Prerequisite(s): ADV 91, ADV 93, and ADV 94

Grading: Letter Graded

ADV 131 - Advertising Portfolio 2

3 unit(s)

Students enhance portfolios developed in Advertising Portfolio 1 with more award show work and live client projects. Each brief requires development of technical skills across media platforms and production of professional work.

Prerequisite(s): ADV 91, ADV 93, ADV 94, ADV 130

Grading: Letter Graded

ADV 132 - UX UI Design for Advertising

3 unit(s)

Human centered design process as it pertains to user interaction (UI) and user experience (UX) design. Students conduct basic user research to create personas that guide the development of content strategy, information architecture, feature sets, wireframes and annotations as they pertain to (1) large scale web development and (2) integrated campaign assignments that cover a wide range of interactive platforms.

Prerequisite(s): ADV 91, ADV 93, and ADV 94

Grading: Letter Graded

ADV 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Aerospace Engineering

AE 15 - Air & Space Flight: Past, Present, and Future

1 unit(s)

Introduction to the history, basic principles, current and future developments of the aerospace engineering field through projects, guest speakers and field trips.

Grading: Letter Graded

AE 20 - Computer-Aided Design for Aerospace Engineers

2 unit(s)

Introduction to the fundamentals of drafting and computer-aided design with applications in aircraft and spacecraft design.

Lecture 1 hour/Lab 3 hours

Grading: Letter Graded

AE 30 - Computer Programming for Aerospace Engineers

2 unit(s)

C language: Variables, data types, operators, functions, modular programming, input/output sequence, pointers and memory addressing, external libraries, dynamic memory allocation. MATLAB: Variables, scripts, operations, visualization, plotting and programming. Equation solving and curve fitting. Symbolics, Simulink and I/O building block.

Lecture 1 hour/Lab 3 hours

Grading: Letter Graded

AE 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

AE 100 - Fundamentals of Aerospace Engineering

3 unit(s)

Introduction to the fundamental disciplines and concepts of aerospace engineering and in particular of aerodynamics, aerospace structures, stability and control, propulsion, and flight mechanics.

Prerequisite(s): C or better in (MATH 30 or MATH 30X) and PHYS 50, or graduate standing.

Grading: Letter Graded

AE 105 - Mathematical Methods for Aerospace Engineers

3 unit(s)

This is a semester-long course designed for undergraduate and graduate students in Aerospace engineering, applied and computational mathematics, physical sciences, and related fields. The course delves into the fundamentals of a wide range of important topics in modern mathematics with emerging applications in Aerospace sciences and engineering. These topics are primarily derived from ordinary and partial differential equations, as well as applied linear algebra. The emphasis is on developing proficiency in both analytical and computational methods to solve physical systems in Aerospace engineering. To a lesser extent, the course will touch upon topics in statistics, probability theory, and uncertainty quantification.

Prerequisite(s): MATH 32 or MATH 32X.

Corequisite(s): MATH 33A.

Grading: Letter Graded.

AE 110 - Space Systems Engineering

3 unit(s)

Introduction to design, analysis and operation of spacecraft power, communications, attitude determination/control, structures, propulsion, thermal management systems. Typical payload systems design and operation, including remote Earth sensors. System integration issues. Lab experiments.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): C or better in AE 100 or AE 165, or graduate standing.

Grading: Letter Graded

AE 112 - Aerospace Structures and Materials I

4 unit(s)

Aircraft loads, V-n diagram; spacecraft boost loads. Free-body diagrams. 2-D force and moment equilibrium. Centroid and area moment of inertia. Internal loads diagrams (axial and shear forces, torsional and bending moments); cantilevered wings & internal support structures; stress/strain relationships; material properties, microstructure, and imperfections; material selection. Experimental strain measurement, experimental material properties testing.

Prerequisite(s): "C" or better in PHYS 50 and (MATH 31 or MATH 31X) or graduate standing.

Grading: Letter Graded.

AE 112W - AE Structural Analysis I Problem-Solving Workshop

1 unit(s)

Each workshop begins with a problem statement, coordinated with the material discussed in the AE 112 lectures. Students work alone but may ask the instructor for help. After each session, solutions are posted on Canvas.

Corequisite(s): AE 112.

Grading: Letter Graded

AE 114 - Aerospace Structures and Materials II

3 unit(s)

Aircraft, missile, spacecraft structural design and analysis. Static, elastic and stress analysis of structures.

Structural materials. Deflection analysis of structural systems. Conventional, stiffened, sandwich and composite structures. Structural dynamics. Thermal effects. Experimental stress measurements.

Prerequisite(s): C or better in AE 112 or graduate standing.

Grading: Letter Graded

AE 114W - AE Structural Analysis II Problem-Solving Workshop

1 unit(s)

Each workshop begins with a problem statement, coordinated with the material discussed in the AE 114 lectures. Students work alone but may ask the instructor for help. After each session, solutions are posted on Canvas.

Corequisite(s): AE 114.

Grading: Letter Graded

AE 119 - Finite Element Analysis for Aerospace Applications

3 unit(s)

Physical and mathematical foundations of the finite element method with emphasis on aerospace applications.

Topics include: static FEM for the analysis of flexible wings as 1D, 2D and 3D bodies, optimal mesh definition, introduction to modeling of damping and inertia loads, introduction to FEM modal and harmonic analyses for space systems based on launcher requirements. Applications using commercial FEA software packages for aerospace systems.

Prerequisite(s): AE 114 with C or better.

Grading: Letter graded.

AE 138 - Vector-Based Dynamics for Aerospace Applications

3 unit(s)

Vector mechanics of three degree-of-freedom particle motion. Particle kinematics, reference frames and rotational relative motion. Two degree-of-freedom rigid body motion, moments/products of inertia. Particle & rigid body equations of motion and numerical time histories.

Prerequisite(s): C or better in (MATH 32 or MATH 32X) and PHYS 50, or graduate standing.

Corequisite(s): AE 112.

Grading: Letter Graded

AE 138W - Vector-Based Dynamics Problem-Solving Workshop

1 unit(s)

Each workshop begins with a problem statement, coordinated with the material discussed in the AE 138 lectures. Students work alone but may ask the instructor for help. After each session, solutions are posted on Canvas.

Corequisite(s): AE 138.

Grading: Letter Graded

AE 140 - Rigid Body Dynamics

3 unit(s)

Coordinate frames and descriptions of absolute and relative motion. General equations of rotational motion for single and multibody systems in Euler and Lagrangian formulations. Elasticity and dissipation effects. Spinning body motions. Impulsive motions. Applications to aerospace vehicles.

Prerequisite(s): C or better in AE 138 or graduate standing.

Grading: Letter Graded

AE 140W - Rigid Body Dynamics Problem-Solving Workshop

1 unit(s)

Each workshop begins with a problem statement, coordinated with the material discussed in the AE 140 lectures. Students work alone but may ask the instructor for help. After each session, solutions are posted on Canvas.

Corequisite(s): AE 140.

Grading: Letter Graded

AE 142 - Astrodynamics

3 unit(s)

Two-body problem analysis and orbit design; Kepler's Laws; Single-impulse orbit transfers; Hohmann transfers; Circularization; Plane changes; Kepler's Equation; Planetary sphere of influence; Vector mechanics and relative motion of interplanetary flight; Patched conic trajectory model; Gravity-assist trajectories; Case studies; Restricted three-body problem.

Prerequisite(s): C or better in AE 138 or graduate standing.

Grading: Letter Graded

AE 149 - Advanced Dynamics and Simulation

3 unit(s)

Matlab scripting of Runge Kutta and Adams Bashforth Moulton numerical integration algorithms. Derivation of equations of motion with Lagrange's equations (with and without a potential energy). Power/energy rate principle. Kane's equations. Analytical derivation and simulation. Multi-body dynamics. Planar two and three-body astrodynamics. Quaternions. Matlab motion animation.

Prerequisite(s): C or better in AE 30 and AE 140, or graduate standing.

Grading: Letter Graded

AE 157 - Aerospace Automatic Control Systems Design

3 unit(s)

Modeling and analysis of aerospace feedback control systems. Stability analysis, root locus design, and frequency response methods for aerospace vehicles and associated automatic control systems. Nyquist/Bode diagrams. Lead-lag, PID compensator designs for aircraft and spacecraft.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): C or better in MATH 33A, AE 105, and AE 138, or graduate standing.

Grading: Letter Graded

AE 160 - Aerodynamics I

3 unit(s)

Introduction to incompressible, inviscid and viscous aerodynamics through problem solving, computer simulations, water and wind-tunnel experiments, films, and service learning. Topics include aerodynamic forces and moments, flow classification and similarity, conservation laws with applications in the calculation of lift and drag, and boundary layer theory with emphasis on calculation of skin friction and pressure drag.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): "C" or better in (MATH 31 or MATH 31X) and PHYS 50 or graduate standing.

Corequisite(s): ENGR 100W.

Grading: Letter Graded

AE 160W - Aerodynamics I Problem-Solving Workshop

1 unit(s)

Optional support course for AE 160, Aerodynamics I. Workshop content and activities are coordinated with material discussed in the AE 160 lecture.

Corequisite(s): AE 160.

Grading: Letter Graded

AE 162 - Aerodynamics II

3 unit(s)

Two-dimensional and three-dimensional, incompressible and compressible potential flow theory. Airfoil and wing theory for subsonic, supersonic, and hypersonic flows. Flow visualization in a water tunnel. Lift and drag measurements in a subsonic wind tunnel.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): C or better in ENGR 100W, MATH 33A and (AE 160 or ME 111), or graduate standing.

Grading: Letter Graded

AE 162W - Aerodynamics II Problem-Solving Workshop

1 unit(s)

Workshop to support aerodynamics material discussed in AE 162 lecture. Students work independently in the workshop with support from the instructor to solve and reflect on problems that are coordinated with the lecture topics.

Corequisite(s): AE 162.

Grading: Letter Graded

AE 164 - Aerothermodynamics

5 unit(s)

Thermodynamic laws. Shock and expansion waves with applications to supersonic airfoils and wings. Nozzle flow. Flow with heat addition and friction. Aerodynamic heating. Conduction, convection and radiative heat transfer.

Prerequisite(s): C or better in PHYS 52 and AE 160, or graduate standing.
Grading: Letter Graded

AE 164W - Aerothermodynamics Problem-Solving Workshop

1 unit(s)

Optional support course for AE 164, Aerothermodynamics. Workshop content and activities are coordinated with material discussed in the AE 164 lecture.

Corequisite(s): AE 164.
Grading: Letter Graded

AE 165 - Aerospace Flight Mechanics

3 unit(s)

Trajectory dynamics of atmospheric flight (aircraft and missiles) and spaceflight (orbital mechanics). Influence of vehicle design on trajectory. Aircraft static performance, stability and control. Rocket launch and re-entry dynamics. Computer simulations.

Prerequisite(s): C or better in (MATH 31 or MATH 31X) and PHYS 50, or graduate standing.
Grading: Letter Graded

AE 166 - Rocketry

3 unit(s)

Introduction to rocketry through theory, computer simulations, and development / launch of an amateur level rocket. Topics include basic principles of aerodynamics, vehicle structures, rocket propulsion, flight mechanics, avionics, as well as past and current launch vehicle technologies.

Seminar 2 hours/Lab 2 hours.

Prerequisite(s): C or better in AE 100 or AE 165.
Grading: Letter Graded

AE 167 - Aerospace Propulsion

3 unit(s)

Basic one-dimensional flows: isentropic, area change, heat addition. Overall performance characteristics of propellers, ramjets, turbojets, turbofans, rockets. Performance analysis of inlets, exhaust nozzles, compressors, burners, and turbines. Rocket flight performance, single-/multi-stage chemical rockets, liquid/solid propellants and design problems.

Prerequisite(s): C or better in AE 164, or graduate standing.
Grading: Letter Graded

AE 168 - Aerospace Vehicle Dynamics and Control

3 unit(s)

Aircraft/spacecraft dynamics, stability and control. Linearization and Euler transformations. Eigenvalues and eigenvectors. State space and transfer function analysis of dynamics of aerospace vehicles. Feedback

control design and synthesis using advanced control techniques.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): C or better in AE 140, AE 157, and AE 165, or graduate standing.

Grading: Letter Graded

AE 169 - Computational Fluid Dynamics

3 unit(s)

Physical and mathematical foundations of computational fluid mechanics with emphasis on applications. Solution methods for the advection, diffusion model equations, the Euler and the Navier-Stokes equations. The finite volume formulation of the equations. Classification of partial differential equations and solution techniques. Truncation errors, stability analysis.

Prerequisite(s): "C" or better in AE 105 and AE 160 or graduate standing. Mechanical Engineering majors may substitute ME 130 and ME 111 .

Grading: Letter Graded.

AE 171A - Aircraft Design I

3 unit(s)

First course in a two-semester sequence, in which students work in teams to complete the conceptual and preliminary design of an aircraft. Students are challenged to consider the relationship of aerospace engineering to the broader community.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Must be senior in good standing with C or better in AE 20, AE 162, AE 165, and ENGR 100W, or graduate standing. Completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses.

Pre/Corequisite(s): AE 164, AE 168, and ENGR 195A.

Grading: Letter Graded

Note(s): Meets GE Areas S and V when course is taken in combination with: AE 171B, ENGR 195A and ENGR 195B.

AE 171B - Aircraft Design II

3 unit(s)

Second course in a two-semester sequence, in which students work in teams to complete the conceptual and preliminary design of an aircraft. Students are challenged to consider the relationship of aerospace engineering to the broader community.

Satisfies SJSU Studies V: Cultures and Global Understanding (when taken with AE 171A, ENGR 195A, and ENGR 195B)

Prerequisite(s): C or better in AE 171A and ENGR 195A and senior in good standing, or graduate level standing.

Corequisite(s): ENGR 195B.

Grading: Letter Graded.

Note(s): Meets GE areas S and V when course is taken in combination with: AE 171A, ENGR 195A and ENGR 195B.

AE 172A - Spacecraft Design I

3 unit(s)

First course in a two-semester sequence in which students work in teams to complete the conceptual and preliminary design of a spacecraft. Students are challenged to consider the relationship of aerospace engineering to the broader community.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Must be senior in good standing with C or better in AE 20, AE 162, AE 165, ENGR 100W, or graduate standing. Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses.

Pre/Corequisite(s): AE 164, AE 168, and ENGR 195A.

Grading: Letter Graded

Note(s): Meets GE Areas S and V when course is taken in combination with: AE 172B, ENGR 195A and ENGR 195B.

AE 172B - Spacecraft Design II

3 unit(s)

Second course in a two-semester sequence, in which student teams complete the conceptual, preliminary, and detailed design of a spacecraft. Projects integrate general education (GE) student learning outcomes including the relationship of aerospace engineering to the broader community both in the U.S. and worldwide, ethics, safety and liability issues, as well as issues of culture, civilization and global understanding in relationship to aerospace engineering practice.

Satisfies SJSU Studies V: Cultures and Global Understanding (when taken with AE 172A, ENGR 195A, and ENGR 195B)

Prerequisite(s): "C" or better in AE 172A and ENGR 195A, Senior in good standing or Graduate standing.

Corequisite(s): ENGR 195B.

Grading: Letter Graded.

Note(s): Meets GE Areas S and V when course is taken in combination with: AE 172A, ENGR 195A and ENGR 195B.

AE 173 - Uncrewed Air Vehicle Design

3 unit(s)

Introduction of uncrewed aircraft systems (UAS) and relevant design and operation considerations. Vehicle dynamics and flight controls. UAS flight path planning and optimization. Computer simulations.

Prerequisite(s): C or better in AE 30 or graduate standing.

Corequisite(s): AE 168 or graduate standing.

Grading: Letter Graded

AE 180 - Individual Studies

1-3 unit(s)

Individual work on special topics. By arrangement.

Prerequisite(s): Upper division standing and instructor consent. Not available to Open University Students.

Grading: Letter Graded

AE 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

AE 199 - Special Topics in Aerospace Engineering

1-4 unit(s)

Special topics that are currently of interest to industry and academia. Content varies from semester to semester.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

AE 200 - Engineering Analysis of Aerospace Systems

3 unit(s)

Advanced engineering mathematics including linear algebra, Ordinary Differential Equations (ODEs), Fourier analysis, Partial Differential Equations (PDEs) and numerical methods with applications in Aerospace Engineering.

Prerequisite(s): BS in Aerospace Engineering or instructor consent.

Grading: Letter Graded

AE 210 - Advanced Space Systems Engineering

3 unit(s)

Overview of the engineering process used in aerospace mission and system design spanning the entire system life cycle for the near-Earth and outer space environment. Effects of gravity field, temperature and radiation on physical systems and the human organism. Mission program inception, proposal development, cost analysis and risk management.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): BS in Aerospace Engineering or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GVAR in this master's program.

AE 242 - Orbital Mechanics and Mission Design

3 unit(s)

Two-body problem, conic sections, time of flight. Gibb's method of orbit determination, maneuver analysis for Earth orbiters and interplanetary flight. Euler-Hill equations. Mission design constraints on orbit geometry and launch window analysis.

Prerequisite(s): BS in Aerospace Engineering or instructor consent.

Grading: Letter Graded

AE 243 - Advanced Astrodynamics

3 unit(s)

Analysis of spacecraft motion using different dynamic models and perturbations. Use of the state transition matrix and differential corrections technique for trajectory computation. Orbit determination and station-keeping methods. Introduction to the three-body problem. Application of computational and analytic methods to solve astrodynamics problems.

Prerequisite(s): BS in Aerospace Engineering or instructor consent.

Grading: Letter Graded

AE 245 - Spacecraft Dynamics and Control

3 unit(s)

Rigid body dynamics review. Attitude kinematical representations. Development and solution of general equations of motion. Single and dual-spin, zero and biased-momentum spacecraft. Control system design strategies. Common torquer elements. Computer simulations.

Prerequisite(s): BS in Aerospace Engineering or instructor consent.

Grading: Letter Graded

AE 246 - Advanced Aircraft Stability and Control

3 unit(s)

Natural longitudinal and lateral/directional motion of aircraft; mode shapes, eigenvalues, eigenvectors. Analysis and synthesis of various aircraft autopilots using classical and state space formulations.

Prerequisite(s): BS in Aerospace Engineering or instructor consent.

Grading: Letter Graded

AE 247 - Trajectory Optimization in Aerospace Applications

3 unit(s)

Formulation and solution of optimization problems in aerospace engineering. Parameter optimization, minima of functions and functionals, necessary conditions, calculus of variations, control formulation, two-point boundary-value problems. Primer vector theory. Applications to typical problems in aerospace engineering, such as optimal launch, minimum time to climb, maximum range, and optimal space trajectories.

Prerequisite(s): BS in Aerospace Engineering or instructor consent.
Grading: Letter Graded

AE 250 - Advanced Structures and Materials

3 unit(s)

Design and analysis of modern flight structures including static and dynamic structural response; materials design including metals, alloys, composites. Introduction to modern computational methods including finite elements.

Prerequisite(s): BS in Aerospace Engineering or instructor consent.
Grading: Letter Graded

AE 251 - Structural Vibrations for Aerospace Applications

3 unit(s)

Introduces the analysis of vibrations of very flexible bodies encountered as elements of aircraft wings and space structures. Topics include: free and forced vibrations of single- and multi-degree of freedom systems, simplified analysis of vibrations induced by flutter, free and forced vibrations of wings in bending and torsion, signal processing techniques for time-varying signals, forced and ground vibration testing of aerospace components, finite element analysis for wings and space structures, spacecraft and aircraft dynamic design loads.

Prerequisite(s): BS in Aerospace Engineering or BS in Mechanical Engineering or instructor consent.
Grading: Letter Graded

AE 262 - Advanced Aerodynamics

3 unit(s)

Thin airfoil theory. Prandtl's lifting-line theory. Subsonic and supersonic airfoil and wing theory. High-angle of attack aerodynamics. Boundary layer theory; Blasius and Falkner-Skan solutions, compressible boundary layers, turbulent flows, separation criteria.

Prerequisite(s): BS in Aerospace Engineering or instructor consent.
Grading: Letter Graded

AE 264 - Gas Dynamics

3 unit(s)

Advanced topics in compressible flow theory with emphasis on the design of high subsonic, supersonic and hypersonic vehicles. In addition to classical compressible flow theory and problem solving, the course may include supersonic wind tunnel experiments and computer simulations.

Prerequisite(s): BS in Aerospace Engineering or BS in Mechanical Engineering or instructor consent.
Grading: Letter Graded

AE 265 - Boundary Layers

3 unit(s)

Boundary layer analysis on airfoils and aerodynamic surfaces: integral methods (Pohlhausen, Thwaites-

Walz). Self-similar solutions for laminar boundary layers: Blasius solution and Falkner-Skan flows. Explicit finite difference methods for the solution of incompressible, laminar boundary layers with and without external pressure gradients. Compressible, boundary layers: general solutions, self-similar solutions in supersonic and hypersonic flow regimes. Turbulent boundary layers: transition, universal law of the wall, turbulence models.

Prerequisite(s): BS in Aerospace Engineering or instructor consent.

Grading: Letter Graded

AE 266 - Hypersonics

3 unit(s)

Fundamental principles of hypersonic aerodynamics. Development of important theory and techniques, discussion of salient results with emphasis on physical aspects, and presentation of modern thinking on the subject.

Prerequisite(s): Graduate standing or instructor consent

Grading: Letter Graded

AE 267 - Space Propulsion Systems

3 unit(s)

Rocket propulsion fundamentals. propulsion requirements for: multi-stage launch; orbit establishment, maneuvers and maintenance; spacecraft attitude control. Nozzle flow, thermochemical calculation of performance. Design and performance calculations for systems and components of chemical rockets (liquid, solid, hybrid), electric rockets and advanced concepts.

Prerequisite(s): BS in Aerospace Engineering or BS in Mechanical Engineering or instructor consent.

Grading: Letter Graded

AE 269 - Advanced Computational Fluid Dynamics

3 unit(s)

Advanced topics in computational fluid dynamics and numerical techniques to solve the Euler and Navier-Stokes equations. The student will use MatLAB, grid generation, CFD and visualization software for homework, and projects.

Seminar 2 hours/lab 3 hours.

Prerequisite(s): BS in Aerospace Engineering or BS in Mechanical Engineering or instructor consent.

Grading: Letter Graded

AE 271 - Advanced Aircraft Design

3 unit(s)

Project course in which students complete the preliminary design of an airplane of their choice. The design process involves defining the mission requirements, weight sizing, performance sizing, fuselage design, wing, high-lift system and lateral controls design, landing gear design, weight and balance, stability and control, drag polars, and final drawings. Final report includes discussion of environmental, economic and safety considerations for the airplane.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): BS in Aerospace Engineering or BS in Mechanical Engineering or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

AE 273 - Aircraft Subsystems

3 unit(s)

Aircraft subsystem analysis and design: flight controls; avionics and electrical systems; cabin systems; landing gear and other mechanical systems; systems safety analysis.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): BS in Aerospace Engineering or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

AE 295A - Aerospace Engineering Masters Project I

3 unit(s)

This is a first-semester aerospace engineering Master's Project supervision course. Students perform original, graduate level research or design or development, involving aerospace systems under the supervision of an aerospace engineering faculty member or engineers from NASA / aerospace industry.

Prerequisite(s): Advancement to candidacy for the master's degree and a written proposal approved by the instructor and the Graduate Coordinator. Not available to Open University Students.

Grading: Letter Graded/Incomplete.

AE 295B - Aerospace Engineering Masters Project II

3 unit(s)

This is a second-semester aerospace engineering Master's Project supervision course, following AE295A. Students perform original, graduate level research and/or design and/or development, involving aerospace systems or subsystems under the supervision of an aerospace engineering faculty member and/or engineers from NASA / aerospace industry.

Prerequisite(s): "B" or better in AE 295A.

Grading: Letter Graded/RP.

AE 297 - Special Topics in Aerospace Engineering

1-4 unit(s)

Special topics that are currently of interest to industry and academia. Content varies from semester to semester. Repeatable for up to six units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Graduate Standing or instructor consent

Grading: Letter Graded

AE 298 - Special Projects in Aerospace Engineering

1-3 unit(s)

Advanced individual work in Aerospace Engineering.

Repeatable for credit.

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit/RP.

AE 299 - Aerospace Engineering Masters Thesis

3 unit(s)

Master's thesis work in aerospace engineering.

Prerequisite(s): "CR" in 1st semester to continue in 2nd semester.

Grading: Mandatory Credit/No Credit/RP

AE 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project beyond minimum required units, for cases in which final deliverables are still in progress.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): RP grade in a preceding thesis or project semester.

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Aerospace Studies

AS 1A - Heritage and Values

1 unit(s)

Introduces students to the Department of the Air Force (DAF) and provides an overview of the basic characteristics, missions, communications and organization of the Air and Space Forces.

Grading: Letter Graded

Note(s): Year course. Enrollment in leadership lab required.

AS 1B - Heritage and Values

1 unit(s)

Introduces students to the Department of the Air Force (DAF) and provides an overview of the basic

characteristics, missions, communications and organization of the Air and Space Forces.

Grading: Letter Graded

Note(s): Year course. Enrollment in leadership lab required.

AS 2A - Team Leadership Fundamentals

1 unit(s)

Provides a fundamental understanding of both leadership and team building, including aspects such as listening, understanding themselves, being a good follower and problem solving efficiently. Students apply these leadership perspectives when completing team building activities and discussing issues like conflict management. Students should demonstrate basic verbal and written communication skills. Cadets apply these lessons at Field Training.

Grading: Letter Graded

AS 2B - Team Leadership Fundamentals

1 unit(s)

Provides a fundamental understanding of both leadership and team building, including aspects such as listening, understanding themselves, being a good follower and problem solving efficiently. Students apply these leadership perspectives when completing team building activities and discussing issues like conflict management. Students should demonstrate basic verbal and written communication skills. Cadets apply these lessons at Field Training.

Grading: Letter Graded

AS 131A - Leading People and Effective Communication

3 unit(s)

Utilizes student's field training experience to take a more in-depth look at leadership. Special emphasis is placed on enhancing communication skills and why that is important as a leader. Students practice these leadership and management techniques in a supervised environment.

Prerequisite(s): AS 1A and AS 1B, AS 2A and AS 2B, or as determined by department chair.

Grading: Letter Graded

Note(s): Year course. Enrollment in Leadership lab required.

AS 131B - Leading People and Effective Communication

3 unit(s)

Utilizes student's field training experience to take a more in-depth look at leadership. Special emphasis is placed on enhancing communication skills and why that is important as a leader. Students practice these leadership and management techniques in a supervised environment.

Prerequisite(s): AS 1A and AS 1B, AS 2A and AS 2B, or as determined by department chair.

Grading: Letter Graded

Note(s): Year course. Enrollment in Leadership lab required.

AS 141A - National Security, Leadership & Commissioning Prep

3 unit(s)

Provides students with the foundation to understand their role as military officers and how they are directly tied to our National Security Strategy. Provides an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level.

Pre/Corequisite(s): AS 131A.

Grading: Letter Graded

Note(s): Enrollment in leadership lab required.

AS 141B - National Security, Leadership & Commissioning Prep

3 unit(s)

Provides students with the foundation to understand their role as military officers and how they are directly tied to our National Security Strategy. Provides an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level.

Pre/Corequisite(s): AS 131B.

Grading: Letter Graded

Note(s): Enrollment in leadership lab required.

American Studies

AMS 1A - American Cultures to 1877

6 unit(s)

American culture examined through political, literary, artistic, economic and social development. American values, ideas and institutions from popular culture as well as traditional sources.

Lecture 3 hours/lecture 3 hours

Satisfies C1 + D: Arts and Social Sciences.

Grading: Letter Graded.

Note(s): Entire sequence satisfies GE Areas C1+C2+D+American Institutions (US123).

AMS 1B - American Cultures 1877 to Present

6 unit(s)

American culture examined through political, literary, artistic, economic and social development. American values, ideas and institutions from popular culture as well as traditional sources.

Lecture 3 hours/lecture 3 hours.

Satisfies C2 + D + US123: Humanities + Social Sciences + American Institutions.

Prerequisite(s): AMS 1A.

Grading: Letter Graded.

Note(s): Entire sequence satisfies GE Areas C1+C2+D+American Institutions (US123).

AMS 10 - Stories that Make America

3 unit(s)

Introduces students to the political and historical origins of the U.S., as well as the ways these origins have been mythologized and reimagined in literature and social constructions of public memory. Along with studying primary source documents and archives within their historical context, students learn to analyze literature, popular culture, and public discourse to better understand the uses and misuses of historical memory. Focuses on a 100+ year span of history.

Satisfies C2: Humanities + US1: US History. When taken with AMS 11, completes the US1 + US2 + US3 (American Institutions) requirements.

Pre/Corequisite(s): Completion of, or co-registration in, ENGL 1A is required.

Grading: Letter Graded

AMS 11 - Visions of Democracy

3 unit(s)

Foregrounds social movements as a way to understand the impact of the U.S. government and the State of California on their residents. Focus on how both the U.S. and California governments work, how they are interrelated, and how groups of Americans have responded to their experiences of injustice and the failures of democracy through art, literature, social action, and politics.

When taken with AMS 10, completes the American Institutions requirements (US1, US2, and US3).

Satisfies D: Social Sciences + US2: US Constitution + US3: California Government.

Grading: Letter graded.

AMS 12 - Intro to US Popular Culture: Serious Fun!

3 unit(s)

Focuses on the relationships among power, representation, audience, historical context, and genre in American popular culture through the study of aesthetics, representation, visual technology, and public discourse. Develops a foundational understanding of the histories, practices, and aesthetic strategies that have shaped popular culture in the U.S., and explores the intersections of gender, race, class, sexuality, colonialism, im/migration, and community identity that shape its production and consumption, as well as its potential as a platform for social change.

Satisfies C1: Arts.

Grading: Letter graded.

AMS 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

AMS 100W - Writing in the Humanities & Interdisciplinary Arts

3 unit(s)

Advanced workshop in composition and reading for the critical and comparative study of the humanities and interdisciplinary arts. Students explore and practice the thinking and writing skills that help us communicate insight, critique, interpretation, description, and analysis of arts, literature, history, and culture, including expository writing and library research. Readings and objects of study include a range of topics and at least two different art forms.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second-semester composition course (with a grade of C- or better); completion of core GE; and upper-division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

Cross-listed with HUM 100W / RELS 100W. Humanities is responsible for scheduling.

AMS 129 - The U.S. in a Global Context

3 unit(s)

The United States has been interconnected with and part of a larger Western hemisphere, as well as part of global political, economic, ecological, and cultural networks, from the times of European colonization to the present. This course explores the ways that Indigenous American and U.S. cultures, peoples, and institutions have been globally interconnected. To explore these connections and links, students will analyze a range of texts, artifacts, works of art, etc., from around the world. Topics may include foreign policy, colonization & decolonization, immigration, mercantilism and global capitalism, consumerism, propaganda, mass culture, warfare, environmental colonialism, etc.

Prerequisite(s): Upper division standing

Grading: Letter Graded

AMS 139 - Animals and Society

3 unit(s)

Introduction to the practices of animal observation and the critical methods of the interdisciplinary field of Human-Animal Studies, paying particular attention to intersections among behavior, ecology, space, and critical theories of race, class, gender, colonialism, and power. To engage more deeply with the scientific methods and cultural theories that underpin this course, students engage in field observations and read texts from ethology (the study of animal behavior), evolutionary biology, ecological theory, history,

philosophy, literature, and cultural studies.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

AMS 159 - Nature and World Cultures

3 unit(s)

The influence of industrialization and globalization on earth and the environment as seen through culture.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ENVS 159 / HUM 159. Humanities is responsible for scheduling.

Sustainability Focused - SDG 15: Life on Land

AMS 160 - Special Topics in Humanities

3 unit(s)

Comparative studies of vital issues and enduring ideas (ethical, political, social, cross-cultural, etc.). Content varies each semester and with each instructor. Repeatable for up to 9 units of credit when course topic changes.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): Upper-division Standing.

Grading: Letter Graded

Cross-listed with HUM 160. Humanities is responsible for scheduling.

AMS 169 - The American Dream

3 unit(s)

The American search for identity and meaning, the struggle for equality and success, in relation to myths, illusions and realities reflected in history, literature and the arts.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with HUM 169. Humanities is responsible for scheduling.

AMS 179 - Issues in US Popular Culture

3 unit(s)

Explores a specific genre of popular culture (e.g., fantasy, romance, westerns, etc.), form (e.g., comics, sports, television, pop music, dime novels, etc.), time period (e.g., the 1960s), or social issue (race, class, immigration, globalization, etc.). Through this in-depth study, we illuminate the interaction between American culture industries and U.S. society and cultures at large.

May be repeated for credit when content changes for up to 6 units.

Prerequisite(s): Upper-division standing.

Grading: Letter Graded

Cross-listed with HUM 179. Humanities is responsible for scheduling.

AMS 180 - Individual Studies

1-4 unit(s)

Supervised study of a particular aspect of American culture not covered in a regular course offering.

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit

AMS 190 - Senior Seminar in Humanities

3 unit(s)

Readings, discussions and individual research projects relating to an interdisciplinary theme selected by the instructor.

Pre/Corequisite(s): Upper-division Standing. Any 100W class.

Grading: Letter Graded.

Cross-listed with HUM 190 / RELS 190. Humanities is responsible for scheduling.

AMS 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

African American Studies

AFAM 2A - African Americans and the Development of America's History and Government

3 unit(s)

Major events in America's development, emphasizing African Americans' relationship to government and other basic institutions.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Note(s): Must complete the entire sequence (AFAM 2A and AFAM 2B) to satisfy American Institutions (US123).

AFAM 2B - African Americans and the Development of America's History and Government

3 unit(s)

Major events in America's development, emphasizing African-Americans' relationship to government and other basic institutions.

Satisfies D + US123: Social Sciences and American Institutions.

Prerequisite(s): AFAM 2A.

Grading: Letter Graded.

Note(s): Must complete the entire sequence (AFAM 2A and 2B) to satisfy American Institutions (US123).

AFAM 22 - The Humanities in African American Culture

3 unit(s)

Analysis of several of the most important African American creative art forms and personalities. Special attention to Black contributions in music, literature, cinema, photography and painting.

Satisfies F: Ethnic Studies.

Grading: Letter Graded

AFAM 25 - The Changing Majority: Power and Ethnicity in America

3 unit(s)

Comparative and historical analysis of racial minorities. Focus on Euro American response to American Indians, Asian Americans, African Americans and Mexican Americans to provide understanding of minority experience in the U.S. as well as American culture.

Satisfies F: Ethnic Studies.

Grading: Letter Graded

Cross-listed with AAS 25 / CCS 25. Chicana Chicano Studies is responsible for scheduling.
Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

AFAM 40 - African Origins

3 unit(s)

Ancient African civilizations to the advent of the slave trade. Folklore and mythology manifested in ceremonies, rituals and rhythmic movements are examined.

Grading: Letter Graded

AFAM 100W - Writing Workshop

3 unit(s)

Development of advanced writing skills through study of principal techniques of communication in the Black community related to Black music, literature and politics.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

AFAM 102 - Black Music

3 unit(s)

Analysis of styles and techniques of major traditions in Black music. Development of music from slave work-a-day songs to rhythm and blues and modern jazz, 1950's to the present.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

AFAM 105 - Race and Health Inequities in the US

3 unit(s)

A review of the health and health-related issues of Blacks/African Americans within the U.S.. Major disease health trends are discussed as by-products of the interaction of biological, cultural, economic and social forces in the U.S.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

AFAM 106 - Black Diasporas

3 unit(s)

Examination of the role of race and ethnicity amongst persons of African descent i.e., the role race and ethnicity plays in primary and secondary relationships amongst Blacks and between Black and non-Black peoples.

Grading: Letter Graded

AFAM 110 - Race and Education in the US

3 unit(s)

Analysis of economic, sociocultural and educational issues that affect Black students. Emphasis directed at elementary and secondary school systems.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

AFAM 111 - African Nations: History, Politics, and Culture

3 unit(s)

Examination, exploration, and analysis of societies, history, and culture of nations on the African continent over time.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

AFAM 112 - Black Immigrant Communities

3 unit(s)

An overview of Black immigrants from the African continent in the United States from 1970 to the present.

Grading: Letter Graded

AFAM 115 - The Great Migration and Black Communities

3 unit(s)

Analysis of historical development of African-Americans including migrational trends of Blacks from the rural South to urban North. Search for alternatives in new institutions and modification of old ones.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

AFAM 119 - Africana Philosophy and Culture

3 unit(s)

Philosophical examination of the ideological roots of social movements in black diaspora cultures from Be-Bop to Hip-Hop.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

Cross-listed with PHIL 119. Philosophy is responsible for scheduling.

AFAM 120 - Sociology of Black Communities

3 unit(s)

Sociological analysis of the African American community traces development of the community from its historical inception to contemporary urban settings. Analyzes important trends, shifting values, institutional development and urban problems. Also examines how patriarchy, race, and class shape African Americans in their everyday lives in American society.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

AFAM 125 - Black Kinship in the US - Black Families Past and Present

3 unit(s)

Sociological analysis of the Black family from its African roots to twenty-first century types. Influence of the American experience and the African American relationship practices

Prerequisite(s): Upper division standing.

Grading: Letter Graded

AFAM 130 - Black Perspectives in Psychology - Black Psychology

3 unit(s)

Impact of Black society and culture on personality growth in light of current sociological and social-psychological studies. Social interaction, group membership within the Black community and its influence on the shaping of behavior.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

AFAM 133 - Introduction to Social Issues in Planning

4 unit(s)

Contemporary social issues related to urban and regional planning. Assessment of community social needs and resident planning. Focus on ethnic areas such as African, Asian and Mexican American neighborhoods.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with URBP 133 Urban and Regional Planning is responsible for scheduling.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

AFAM 134 - The Black Civil Rights Movements

3 unit(s)

Origins and development of the Civil Rights movement from 1865 to present. Analysis of the role of Martin L. King. Examines how political, social, economic, and cultural issues have shaped both American and African American life in terms of race relations in the United States in relationship to the origins and development of the Civil Rights movement since the Reconstruction era (1865-77).

Satisfies F: Ethnic Studies.

Grading: Letter Graded

Note(s): While this course is open to all undergraduate students including freshmen, this is an upper division course best suited for sophomore, junior or senior level students.

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

AFAM 137 - Introduction to Black Religion

3 unit(s)

Analysis of formation and development of African American religious ideas and institutions (i.e., Christianity, Islam, Judaism) in the Black community and their effect on the African American personality.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with RELS 137. African American Studies is responsible for scheduling.

AFAM 142 - Race, Justice, and the Legal System

3 unit(s)

Analysis of the politics of law and race in the U.S. with a focus on the experience of African-Americans and other racial and ethnic minorities as offenders, victims and as citizens engaged in a continuing movement for equality and an end to injustice.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

AFAM 145 - Race, Policy, and Urban Cities

4 unit(s)

Effects of public policy decisions on inner city populations. Implications of urban planning processes for differential consumption costs of public goods and services.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with URBP 145. African American Studies is responsible for scheduling.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

AFAM 151 - Race, Class and the Environment

3 unit(s)

Analysis of the relationship between the environmental crisis and people of color and poor communities in the U.S., emphasizing the interplay among race/ethnicity, class and politics in the struggle for environmental justice and survival by communities of color and poor people.

Satisfies SJSU Studies Area R. Earth, Environment & Sustainability

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Note(s): This course must be passed with a C- or better to satisfy the CSU graduation requirement.

Cross-listed with ENVS 151. African American Studies is responsible for scheduling.
Sustainability Focused - SDG 10: Reduced Inequalities

AFAM 152 - Black Feminisms

3 unit(s)

Exploration of the social, historical, and cultural factors influencing the Black women in U.S. society.

Satisfies SJSU Studies Area S - Self, Society & Equality in the U.S

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Sustainability Focused - SDG 5: Gender Equality

AFAM 155A - Triumphs and Trials of the Black Athlete in the U.S., 1850-1999

3 unit(s)

Examines the significance and impact of Black athletes on popular culture, race relations and historical and social movements in the U.S. and abroad from 1850 - 1999.

Grading: Letter Graded

AFAM 155B - Triumphs and Trials of the Black Athlete in the U.S., 2000-Present

3 unit(s)

Examines the significance and impact of Black athletes on popular culture, race relations and historical and social movements in the U.S. and abroad from 2000 - Present.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

AFAM 156 - Black Women's Writing

3 unit(s)

Comparative analysis of the meaning and developmental stages of womanhood for women of African ancestry as depicted in the fiction of women of African ancestry. Emphasis on the role of race and culture in shaping contemporary conceptions of womanhood among Black women.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ENGL 156 / WGSS 156. African American Studies is responsible for scheduling.
Sustainability Related - SDG 10: Reduced Inequalities

AFAM 157 - Race, Tech, and Global Futures

3 unit(s)

Examines the impact of globalization and technology on youth worldwide from the perspective of youth in different cultures and countries. Topics vary and focus on specific countries. Some sessions are faculty-led international programs.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

AFAM 158 - Race, Sport, Activism & Social Movements

3 unit(s)

Examines the significance and impact of Black sport activism, social movements, and liberation & freedom efforts.

Satisfies F: Ethnic Studies.

Grading: Letter Graded

Note(s): A grade of C- (1.7) or better is required to satisfy GE Area F. While this course is open to all undergraduate students including freshmen, this is an upper division course best suited for sophomore, junior or senior level students.

AFAM 159 - The Racial Wealth Gap in America

3 unit(s)

Analysis of continuing racial economic disadvantage in context of corporate and public policies. Exploration of new economic development and career opportunities emerging from changed environmental protection priorities.

Satisfies SJSU Studies Area S - Self, Society & Equality in the U.S

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Note(s): Upper division standing or instructor consent. Course must be passed with a C- or better to satisfy the CSU graduation requirement.

Sustainability Focused - SDG 8: Decent Work and Economic Growth

AFAM 160 - Black Political Power in the US

3 unit(s)

Examines the lives and major contributions of African-Americans to politics and U.S. society.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

AFAM 161 - Black Representations in Media and New Technology

3 unit(s)

Examination of the representation of Black people in film, TV, and traditional and social media as well as new/alternative technological informational sources.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

AFAM 162 - The Aesthetics of Hip-Hop

3 unit(s)

Exploration of the interrelated art forms that comprise hip hop, a culture conceived by African American, Afro-Caribbean and Latinx youth in the South Bronx in the 1970s, including hip hop culture's aesthetic strategies through a survey history of its four elements and tracing their wide influence in music, visual culture, dance, theatre and politics.

Satisfies F: Ethnic Studies.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Note(s): While this course is open to all undergraduate students including freshmen, this is an upper division course best suited for sophomore, junior or senior level students.

AFAM 164 - Black Entrepreneurship

3 unit(s)

Private sector businesses from the perspective of racial ownership and consumption patterns. Historical development, future trends, consumer market, government regulations and funding support as they impact the success of Black business.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 10: Reduced Inequalities

AFAM 165 - Topics in Ethnic American Literature

4 unit(s)

Focused study of a topic in ethnic American Literature, such as African American, Asian American, Latino American, or ethnic autobiography. Topics change; check schedule of classes for current offering.

Course may be repeated for credit for a total of 8 units.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with ENGL 165. English and Comparative Literature is responsible for scheduling.

AFAM 166 - Black Women's Histories

3 unit(s)

Role of African American women in shaping U.S. history through a shared afrocentric gender legacy of activism and public life guardianship. Resulting impacts on abolition, lynching deterrence, labor unions, civil rights and professional activities.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

AFAM 170 - Interracial Intimacies and Mixed Race Identity in the U.S.

3 unit(s)

Course introduces students to the complex histories, experiences, political influences, and cultural productions of mixed race people, their families, and the communities and society that defined them. Using texts, art, objects, video, and films, students will explore changing social attitudes towards interracial sex and marriage and mixed race identity in the U.S. while also considering the impact of policies, judicial decisions, and legislative acts regarding the social status of mixed race people from colonization and slavery to the contemporary moment.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Note(s): Course must be passed with a C- or better to satisfy the CSU graduation requirement.

AFAM 180 - Individual Studies

1-4 unit(s)

Individual research project and field activity on phase or topic not covered in regular course offerings.

Prerequisite(s): Upper division standing.

Grading: Credit/No Credit

AFAM 184 - Directed Reading

1-4 unit(s)

Limited to qualified upper division students.

Prerequisite(s): Upper division standing.

Grading: Credit/No Credit

AFAM 185 - Special Topics in African American Studies

3 unit(s)

Special Topics in African American Studies. Topics vary and will be announced each semester. Repeatable for credit under different subtitles.

Course is repeatable for degree credit 3 times for a total of 9 units.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

AFAM 190 - Internship in Community Development

1-4 unit(s)

Supervised placement in practical situations where community workers are employed: community planning, correctional services, community development agencies, etc.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Credit/No Credit

Sustainability Focused - SDG 11: Sustainable Cities and Communities

AFAM 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

AFAM 198 - Senior Seminar in African American Studies

3 unit(s)

Major themes and topics in the African American experience analyzed through readings, reports and discussions. Topics and materials vary each semester. Course is repeatable for 6 unit maximum.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): AFAM 2A, AFAM 2B and senior standing.

Grading: Letter Graded

AFAM 298 - Special Studies

1-6 unit(s)

Advanced individual research and projects related to the Black community.

Prerequisite(s): Consent of graduate advisor.

Grading: Credit/No Credit/RP.

AFRS 142 - African Politics

4 unit(s)

Basic concepts, theoretical perspectives, and information to understand the evolution of contemporary African states. Begins with a study of colonialism, and proceeds to nationalism, personalistic and military rule, development, democratization, and inter-state and civil war.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with POLS 142. Political Science is responsible for scheduling.

AFRS 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

History is responsible for scheduling.

Animation

ANI 1A - Animation Foundations Bridge 1A

3 unit(s)

Supplemental foundational skills for transfer students with introductory drawing techniques. Topics include rendering in analog media; rendering surfaces and textures; linear perspective; physics of spatial geometry and illumination; professional conduct, ideation and reference techniques.

Activity 6 hours.

Grading: Letter graded.

ANI 1B - Animation Foundations Bridge 1B

3 unit(s)

Supplemental foundational animation skills for transfer students with introductory drawing techniques. Topics include linear and tonal drawing; introduction to gesture; shape-based drawing; photo referencing; and observational drawing.

Activity 6 hours.

Grading: Letter graded.

ANI 10 - Light and Optics

3 unit(s)

An investigation into the physical properties of light and optics relevant to the visualization of artwork for the screen arts industry.

Prerequisite(s): BFA Animation/Illustration majors only

Grading: Letter Graded

ANI 11 - Illustration Fundamentals I

3 unit(s)

Basic principles of animation and illustration stressing composition, sequential visual storytelling, value drawing and other visual art techniques utilized by professionals in the screen arts industry.

Prerequisite(s): BA Design Studies or BFA Animation/Illustration majors only

Grading: Letter Graded

ANI 13 - Drawing for Animation/Illustration I

3 unit(s)

Principles of drawing for illustration and animation: gesture, construction, anatomy and technique. An intensive study of the human figure from life, and its use in working in animation and the screen arts industry.

Prerequisite(s): ANI 11. Allowed Declared Majors: Animation/Illustration.

Grading: Letter Graded

ANI 15 - Visual Storytelling

3 unit(s)

Basic principles of animation and illustration stressing composition, sequential visual storytelling, value drawing and other visual art techniques utilized by professionals in the screen arts industry.

Prerequisite(s): ANI 10 and ANI 11. Allowed Declared Majors: Animation/Illustration.

Grading: Letter Graded

ANI 21 - Color Principles for Screen Arts

3 unit(s)

Exploration of basic illustration problems involving studies in color, light, painting technique, and their application to color scripting in the screen arts industry.

Misc/Activity: 6 hours activity

Prerequisite(s): Allowed declared Animation major only Note: ANI 21 (formerly ANI 14) is treated as a repeat for students who have taken ART 14.

Grading: Letter Graded

ANI 31 - 2D Animation I

3 unit(s)

Introduction to the basic elements of animation and representation. Included are motion and animation exercises to understand mass movement through space, and reaction to external forces.

Prerequisite(s): Allowed Declared Majors: Animation/Illustration or Design Studies.

Grading: Letter Graded

ANI 41 - Introduction to 3D Modeling

3 unit(s)

Emphasis is on generating an in-depth understanding of digital media using commercial 2-D and 3-D software. Students are introduced to the underlying mathematical and conceptual processes of computer graphics.

Prerequisite(s): ANI 11 and BFA Animation/Illustration major only

Grading: Letter Graded

ANI 61 - Introduction to 3D Animation

3 unit(s)

Basic concepts and professional practices used in 3D computer animation. Application of traditional principles of animation to the 3D digital environment.

Prerequisite(s): BFA Animation/Illustration majors only

Grading: Letter Graded

ANI 71 - Visual Principles

3 unit(s)

Presents concepts of 2D design as they apply to the creation of sequential narrative imagery for the screen arts.

Prerequisite(s): BFA Animation/Illustration Majors only

Grading: Letter Graded

ANI 111 - Drawing for Animation/Illustration II

3 unit(s)

Principles of drawing for illustration and animation: gesture, construction, anatomy and technique. An intensive study of the human figure from life, and its use in working in animation and the screen arts industry.

Prerequisite(s): ANI 13. Allowed Declared Majors: Animation/Illustration.

Grading: Letter Graded

ANI 112 - Conceptual Illustration

3 unit(s)

Advanced course in illustration professionalism, stressing individual responses to assignments that typify those expected of freelance illustration providers. Emphasis on individual expression and development of personal direction.

Prerequisite(s): ANI 122 and passage of Mid-Program Review. Allowed Declared Majors: Animation/Illustration.

Grading: Letter Graded

ANI 121 - Illustration Fundamentals II

3 unit(s)

Exploration of basic illustration problems involving studies in color, light, painting technique, and their application to the screen arts industry.

Prerequisite(s): ANI 21, BFA Animation/Illustration Major

Grading: Letter Graded

ANI 122 - Illustration Fundamentals III

3 unit(s)

Completion of a complex painting incorporating knowledge of drawing principles, construction, composition, value and technique.

Misc/Lab: Activity 6 hours.

Prerequisite(s): ANI 121; Allowed declared Animation major only

Grading: Letter Graded

ANI 123 - Visual Development I

3 unit(s)

Narrative problems for illustrative assignments, professional processes and technical accomplishment. Studio course that examines advanced principles of illustration and their practical application in contemporary visual communication and design.

Activity 6 hours.

Prerequisite(s): ANI 121; Allowed Declared Majors: Animation.

Grading: Letter Graded

ANI 124 - Visual Development II

3 unit(s)

Advanced visual development projects with emphasis on attaining professional standards. Explores experimentation with the exaggeration and abstraction of realistic imagery to realize new, stylized imagery.

Misc/Activity: 6 hours activity

Prerequisite(s): ANI 123; Allowed Declared Majors: Animation

Grading: Letter Graded

ANI 131 - 2D Animation II

3 unit(s)

Fundamentals of 2D animation involving the completion of a series of basic exercises in motion, action analysis and kinetics.

Misc/Lab: Activity 6 hours.

Prerequisite(s): ANI 31, Passage of Mid-Program Portfolio Review; Allowed declared Animation major only

Grading: Letter Graded

ANI 132 - 2D Animation III

3 unit(s)

Demonstrate understanding of 2D animation principles through the completion of a series of advanced exercises in motion study, action analysis, pre-production, and narrative development; culminating in the completion of a short, animated film.

Prerequisite(s): ANI 131. Allowed Declared Majors: Animation/Illustration.

Grading: Letter Graded

ANI 133 - Animation Production - Storyboarding

3 unit(s)

Special problems in animation studies: storyboarding, sequential visual narrative, film making, professional practices and portfolio preparation.

Pre/Corequisite(s): ANI 132. Allowed Declared Majors: Animation/Illustration.

Grading: Letter Graded

ANI 134 - Animation Production - Storyboarding II

3 unit(s)

Advanced concepts of storyboarding, sequential visual narrative, film making, editing, and professional practices; principles necessary to put advanced animation skills into practical application.

Activity 6 hours

Prerequisite(s): ANI 133

Grading: Letter Graded

ANI 141 - Digital Modeling I

3 unit(s)

Intermediate level 3D digital modeling techniques using current industry standard software for the creation of 3D digital models. Introduction to the concept of production pipelines, with focus on modeling.

Prerequisite(s): ANI 41. Allowed Declared Majors: Animation/Illustration.

Grading: Letter Graded

ANI 142 - Digital Modeling II

3 unit(s)

Advanced level 3D digital modeling techniques using current industry standard software for the creation of 3D digital models. Students re-investigate the character pipeline with focus on human characters with complicated costuming and accessories.

Prerequisite(s): ANI 141. Allowed Declared Majors: Animation/Illustration.

Grading: Letter Graded

ANI 161 - Digital Animation I

3 unit(s)

Creation of believable movement by applying the traditional principles of animation to 3D digital characters, focusing on body mechanics, with emphasis on the building blocks of an animated scene, and the work flow from planning phase to final animation.

Prerequisite(s): ANI 61 and Passage of Mid-Program Portfolio Review. Allowed Declared Majors: Animation/Illustration.

Grading: Letter Graded

ANI 162 - Digital Animation II

3 unit(s)

Application of the traditional principles of animation for intermediate level 3D character animation, with focus on arcs, overlapping action, spacing, squash and stretch, strong posing and silhouette. In terms of workflow, the emphasis is on achieving a strong blocking more efficiently, and on techniques for polishing the animation.

Prerequisite(s): ANI 161. Allowed Declared Majors: Animation/Illustration.

Grading: Letter Graded

ANI 175 - Professional Practices in Entertainment Design

3 unit(s)

Current professional practices in the field of Entertainment Design. Technically and conceptually sophisticated projects foster a deeper understanding of narrative, stylization, individual point of view, acting and character, through hands-on creative work, class critiques and discussions.

Activity 6 hours.

Course repeatable for up to 6 units only when the topic of the course changes.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

ANI 179 - Special Topics in Animation/Illustration

3 unit(s)

Special Topics in Animation and Illustration.

Activity 6 hours.

Repeatable when topic changes for up to 12 units.

Prerequisite(s): Instructor Consent, and Passage of Mid-Program Portfolio Review. Allowed Declared Majors: Animation/Illustration.

Grading: Letter Graded

ANI 180 - Individual Studies

3-6 unit(s)

Special topics or projects by arrangement with instructor

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Upper-division standing in Animation/Illustration; Allowed declared Animation major only

Grading: Credit/No Credit

ANI 192 - International Program Studies

1-9 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ANI 198 - Senior Seminar Animation/Illustration

3 unit(s)

The first in a two-course sequence that constitutes the capstone for the BFA degree in Animation/Illustration. Students undertake the necessary research to prepare for project in the second course in the sequence.

Activity 6 hours.

Prerequisite(s): ANI 134 or ANI 142 or ANI 175; Allowed declared majors: Animation.

Grading: Letter Graded

ANI 199 - Senior Project Animation/Illustration

3 unit(s)

A project demonstrating professional competence in area of concentration. A gallery exhibition with the approval of the student's advisory committee is required.

Misc/Activity: 6 hours activity

Prerequisite(s): ANI 198; Allowed declared Animation major only

Grading: Letter Graded

ANI 240 - Visual Narratives

2 unit(s)

Visual narrative and story structure as it pertains to different mediums, such as animated television series, feature films, short films, and interactive media, such as games, AR, and VR. Addresses the principles governing each type of visual narrative and challenges/concerns for developing stories for different mediums.

Course is repeatable for up to 4 units.

Prerequisite(s): Master of Design (MDes) students only.

Grading: Letter graded.

ANI 250 - Intellectual Property

2 unit(s)

Examines topics related to intellectual property and copyright law. Students will learn practical considerations of developing intellectual property for projects such as games, TV series, film, VR, and AR, and will have hands-on practice on formatting and pitching their own original IP during this course.

Course is repeatable for up to 4 units.

Prerequisite(s): Master of Design (MDes) students only.

Grading: Letter graded.

ANI 255 - Sound Landscapes

2 unit(s)

Introduction to the tools and techniques used to create music and sound for games, films, or other media with a narrative component. Subject areas covered include: DAWs, MIDI, music theory, working with loops, and synthesis with samplers. Students will build simple soundtracks using industry standard tools. Knowledge of music and musical instruments are beneficial, but no experience is necessary.

Course is repeatable for up to 4 units.

Prerequisite(s): Master of Design (MDes) students only.

Grading: Letter graded.

ANI 257 - New Technologies Studio

4 unit(s)

Explores the intersection of animation and computational design. Current emerging technologies will be employed with the goal of bringing interactive experiences into the realm of narrative based animation.

Course is repeatable for up to 8 units.

Prerequisite(s): Master of Design (MDes) students only.

Grading: Letter graded.

ANI 258 - Interactive Studio

2 unit(s)

Advanced tools and techniques necessary for the creation of interactive games, films, or other media with a narrative component. Students will learn and apply techniques from coding, modeling, and animation to build an interactive project.

Course is repeatable for up to 4 units.

Prerequisite(s): Master of Design (MDes) students only.

Grading: Letter graded.

ANI 259 - Post Production Techniques

2 unit(s)

Focuses on digital post-production, applying the latest software and techniques of the computer graphics entertainment industry, as used in the production of games, TV, films, and special effects.

Course is repeatable for up to 4 units.

Prerequisite(s): Master of Design (MDes) students only.

Grading: Letter graded.

ANI 260 - The Synthetic Image

2 unit(s)

Digital lighting and imagery, from the classic three-point lighting concept (used in photography) to advanced digital techniques such as global illumination, subsurface scattering, and caustics.

Course is repeatable for up to 4 units.

Prerequisite(s): Master of Design (MDes) students only.

Grading: Letter graded.

ANI 265 - Visual Styles for Animation

2 unit(s)

Focuses on the development of a complete visual language in order to build imaginary worlds for feature films, games, TV series, etc. Students will learn to create advanced visual development assets such as character design, environment design, and prop design.

Course is repeatable for up to 4 units.

Prerequisite(s): Master of Design (MDes) students only.

Grading: Letter graded.

ANI 270 - The Synthetic Movement

2 unit(s)

Explores digital animation techniques, starting from where each student is technically and artistically, and from there creating an individual itinerary that will foster the achievement of a higher level of digital animation. Investigates techniques that will support the execution of each student's final creative project and dynamically adapts content to the individual project needs of each artist.

Course is repeatable for up to 4 units.

Prerequisite(s): Master of Design (MDes) students only.

Grading: Letter graded.

Anthropology

ANTH 11 - Cultural Anthropology

3 unit(s)

Basic concepts, theories and methods used in the comparative study of socio-cultural systems. Includes cultural ecology and change; political, economic and kinship systems; language, art and religion; cultural perspectives on contemporary issues.

Satisfies D: Social Sciences.

Grading: Letter Graded.

ANTH 12 - Introduction to Human Evolution

3 unit(s)

The human organism from an evolutionary perspective. The foundations of life and evolutionary theory. Introduction to primate behavior and the fossil record. Human biocultural evolution over the last sixty million years.

Satisfies B2: Life Science.

Grading: Letter Graded

ANTH 13 - Archaeology

3 unit(s)

How archaeologists invent their own version of the past, illustrated with compelling Old and New World discoveries from early prehistory to the present. How archaeological sites are discovered, excavated and analyzed; how facts are tested and fictions unmasked.

Satisfies A3: Critical Thinking and Writing.

Prerequisite(s): Completion of GE Area A2 with a grade of C- or better.

Grading: Letter Graded

ANTH 25 - Human Lifecourse in Context

3 unit(s)

Human development and its physiological, psychological and sociocultural contexts. Cross-cultural perspectives on infancy, childhood, adolescence, adulthood and old age. The role of university education in the life span.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

ANTH 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ANTH 100W - Writing Workshop

3 unit(s)

Practice in improvement of writing skills appropriate to the fields of anthropology and behavioral science. Includes essays, reports and scholarly communication.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

ANTH 102 - Silicon Valley Connections

3 unit(s)

Examines issues of cultural diversity, work and family. technology in daily life, attachment to organizations, and community building in Silicon Valley through an anthropological perspective. Connections to other global regions are explored; public policy implications are developed and analyzed.

Prerequisite(s): Upper Division Standing

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

ANTH 105 - Applied Anthropology

3 unit(s)

Use of anthropological knowledge in problem solving and policy making. Survey of applied anthropology, models of applying anthropology and affecting policy making, and the use of anthropology by non-professionals in diverse careers.

Prerequisite(s): ANTH 11 or instructor consent.

Grading: Letter Graded

ANTH 107 - Eating Culture: The Anthropology of Food

3 unit(s)

This course will explore the many ways in which humans seek, collect, grow, transform and consume foods. We will examine elements of human evolutionary history that mold our current consumption choices. Changes in subsistence strategies, human migration, and colonial expansions remade our landscapes, kitchens, cuisines and our bodies. We will identify and analyze the material processes of food production, preparation and consumption; the cognitive models that define our food choices and the ways in which power and inequality drive global feast and famine. The course will draw on archaeological, biological and cultural anthropologies, as well as examining the potential applications by anthropologists of food.

Prerequisite(s): ANTH 11, Upper Division Standing.

Grading: Letter Graded

ANTH 108 - Medical Anthropology

3 unit(s)

A comprehensive examination of culture, sickness and healing in a cross-cultural perspective, emphasizing ecological/evolutionary bases of disease and healing and cultural dimensions of health in modern world.

Prerequisite(s): ANTH 11 or instructor consent.

Grading: Letter Graded

ANTH 114 - Legacy of Asia

3 unit(s)

Interdisciplinary focus on continuity and change in China and India as these ancient civilizations responded to challenges throughout their history.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ASIA 114 / HUM 114 / RELS 114. Humanities is responsible for scheduling.

ANTH 115 - The Emerging Global Culture

3 unit(s)

Introduction to systems concepts and approach as a way to investigate the global impacts of industrial technology on political, economic, social and moral/psychological structures of humankind.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ASIA 115. Anthropology is responsible for scheduling.
Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

ANTH 122 - Magic, Science and Religion

3 unit(s)

Exploring the ways in which people have attempted to gain mastery over the natural and supernatural worlds beginning with prehistoric times and concluding with modern day society and the contemporary world.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with RELS 122. Humanities is responsible for scheduling.

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

ANTH 125 - Urban Anthropology

3 unit(s)

Anthropological theories and methods in analyzing the global effects of urban growth. Relevance of anthropological approach in understanding our local multiethnic metropolitan area.

Prerequisite(s): ANTH 11 or instructor consent.

Grading: Letter Graded

Cross-listed with URBP 125. Anthropology is responsible for scheduling.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

ANTH 129 - Environmental Anthropology

3 unit(s)

Anthropological examination of humans' relationship to their biological environment. Course topics include population growth, resource consumption, human induced climate change, biodiversity, solid and hazardous waste, economic and cultural patterns affecting the environment, environmental risk, water resources, hazards, disasters, sustainable initiatives.

Prerequisite(s): ANTH 11

Grading: Letter Graded

Sustainability Focused - SDG 13: Climate Action SDG 15: Life on Land

ANTH 130 - Kin, Kith, and Community: The Anthropology of Social Organization

3 unit(s)

Overview of social organization focused on local forms of human relationships: kinship, non-kin relations such as friendship and networking, and community. Explores the principles of kinship and community-building. Examples will be drawn from small-scale, complex and international societies.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ANTH 131 - Theories of Culture

3 unit(s)

Seminar on evolutionary, functional and structural theories of culture. Analysis of contemporary theory and development of the discipline of anthropology.

Prerequisite(s): Upper division standing; ANTH 11; ANTH 12 or ANTH 13 or declared Anthropology major or instructor consent.

Grading: Letter Graded

ANTH 132 - Creating Built Worlds

3 unit(s)

Cross-cultural exploration of material expressions of culture. Analysis of production and consumption of places, shelters, and goods. Implications for design and policy.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

ANTH 133 - Organizational Cultures

3 unit(s)

Complex organizations as dynamic sociocultural systems. Topics include organizational culture, cross-cultural study of organizations, organizational ethnography, cultural diversity, organizational learning and relevance of a cultural approach to enhance organizational effectiveness in a rapidly-changing world.

Prerequisite(s): ANTH 11 or instructor consent.

Grading: Letter Graded

ANTH 134 - Systemic Leadership

3 unit(s)

Examination of systemic leadership thought and practice, especially its application to helping resolve complex problematic issues more effectively and responsibly. Focus is on leading collaborative change efforts with diverse sets of stakeholders in group, organizational, community, cultural, and global settings.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ANTH 136 - Thought Control in Contemporary Society

3 unit(s)

Anthropological analysis of sociocultural controls influencing and regulating human thought and behavior in the contemporary period. Topics include propaganda, censorship, undue influence, coercive persuasion and "brainwashing," groupthink, messianic cults, totalitarianism, technologies of control, ritualized rebellion, resistance movements, and democratic alternatives.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ANTH 140 - Human Sexuality

3 unit(s)

Biological and sociocultural facets of human sexuality. Evolution and physiology of sex, reproductive biology/ethics and cross-cultural expression of sexual behavior.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): Not acceptable as an elective in the Biology major.

Cross-listed with BIOL 140 / PH 140. Anthropology is responsible for scheduling.

ANTH 142 - Culture in Mind

3 unit(s)

Exploration of self, identity and behavior in cultural context. Cognition, socialization, cross-cultural mental health issues and comparison of intercultural communication modes.

Prerequisite(s): ANTH 11, ANTH 25 or instructor consent.

Grading: Letter Graded

ANTH 143 - Culture and Adaptation

3 unit(s)

Explores the relationship between adaptive human behavior and the environment. Theories of interaction between biology, environment and culture are illustrated by examples of mobile foraging peoples, village sedentary farmers, complex chiefdoms and state-level societies.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

ANTH 144 - Gifts, Markets, and Power

3 unit(s)

Cross-cultural analysis of economic systems. Topics include reciprocity, redistribution, and market exchange; the history of money and virtual currencies; the cultural construction of debt and credit; corporate capitalism and cyclical crises; global economic integration; and contemporary "alternative" economic systems.

Prerequisite(s): ANTH 11 or Instructor Consent

Grading: Letter Graded

ANTH 145 - Middle Eastern Traditions

3 unit(s)

Introduction to the peoples and cultures of the Middle East through exploration of the cooperation, competition, conflict and dialogues between the ethnic, national, and religious communities of contemporary Middle Eastern countries.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with MDES 145 / RELS 145. Humanities is responsible for scheduling.

ANTH 146 - Culture and Conflict

3 unit(s)

Problems of change, especially in multiethnic societies of both established and emerging nations. Technological development, modernization, social changes and value conflicts.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

ANTH 148 - Religion and Anthropology

3 unit(s)

Comparative anthropological study of religious systems and world views; Anthropological theories concerning origin and evolution of religion; structure and function of ritual and myth; types of religious specialists.

Prerequisite(s): ANTH 11, ANTH 25 or instructor consent.

Grading: Letter Graded

Cross-listed with RELS 148. Anthropology is responsible for scheduling.

ANTH 149 - Ethnographic Methods

3 unit(s)

Qualitative methods: research design, participant observation, collection of life histories, ethical responsibilities, interviewing, analysis and ethnographic writing.

Prerequisite(s): ANTH 11 or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

ANTH 151 - Modernity and Disease

3 unit(s)

Modernity and Disease explores the effects of the modern world on human biology, with specific emphasis on adaptations to the last several decades of environmental changes. Topics include reproduction, diet, and infectious, geriatric and environmental diseases.

Prerequisite(s): ANTH 12 or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 3: Good Health and Well-Being

ANTH 152 - Becoming Human

3 unit(s)

This course reviews the fossil evidence for human evolution. It emphasizes areas of scientific controversy in paleoanthropology by assessing recent fossil discoveries and molecular data. Lectures are supplemented with lab demonstration of modern skeletal materials and reproductions of fossil hominids.

Prerequisite(s): ANTH 12 or instructor consent.

Grading: Letter Graded

ANTH 154 - Monkeys, Apes and Humans

3 unit(s)

Behavior, ecology and evolution of our closest animal relatives, the nonhuman primates. Interpretive emphasis toward broader understanding of human evolution and behavior.

Prerequisite(s): Any lower division anthropology or psychology course or instructor consent.

Grading: Letter Graded

ANTH 155 - Forensic Osteology

3 unit(s)

The human skeletal system for forensic identification. Lab experience in identification of osteological material to answer questions regarding sex, age, ethnicity and cause of death.

Prerequisite(s): ANTH 12 or Instructor Consent.

Grading: Letter Graded

ANTH 156 - Bioarchaeology

3 unit(s)

Study of human skeletal remains from archaeological setting to aid in reconstructing the biological and cultural past. Current theoretical and methodological issues in bioarchaeology. Emphasis on potential of skeletal analysis for uncovering disease and trauma, subsistence patterns, biological relatedness, physical activity and diverse reactions to stressors.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ANTH 157 - Forensic Anthropology

3 unit(s)

An overview of forensic anthropological methods and applications emphasizing the recovery and interpretation of human remains within the context of multidisciplinary scientific death investigation. Topics include the history of the discipline and a concentrated hands-on overview of basic human osteological identification.

Prerequisite(s): ANTH 12, BIOL 10, BIOL 21, or BIOL 65.

Grading: Letter Graded

ANTH 159 - Mummies

3 unit(s)

Explore mummies from around the world. Examine the archaeological and biological evidence of how and why mummification was practiced in these cultures, plus what the examination of mummies can tell us about past peoples cultures, diseases, and lifestyles.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

ANTH 160 - Reconstructing Lost Civilizations

3 unit(s)

Explores scientific archaeology and the reconstruction of civilizations. Topics include framing hypotheses, site selection, excavation, analysis of artifacts and ecofacts, and reconstructing social systems.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

ANTH 161 - Old World Civilizations

3 unit(s)

Prehistoric cultural development in Europe, Asia, and Africa from the Paleolithic to the development of civilizations. Discussions of early states include social organization, economic systems, art, architecture and intellectual achievements.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ANTH 162 - Inca, Aztec and Maya Civilization

3 unit(s)

Ancient high civilizations of Mexico, Central America and Andean South America, their predecessors and contemporaries. Explores sociocultural systems with emphasis on art, architecture and intellectual achievements.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ANTH 164 - North America before 1492

3 unit(s)

Archaeology and history of North American peoples before 1492. Precolumbian culture areas and relationships between them; development of state societies; relationships with and resistance to European colonizers.

Prerequisite(s): Upper division standing or instructor approval

Grading: Letter Graded

ANTH 165 - Historical Archaeology

3 unit(s)

Course centers on the archaeology of the recent past. Students explore how to employ archaeological material analysis and archival research to develop a fuller understanding of the development of the modern industrialized world.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ANTH 168 - Archaeological Methodology

3 unit(s)

Central methods of archaeological practice. Methods of archaeological inquiry, research design, and the cultural resource management presented through case studies in historic and prehistoric archaeology.

Prerequisite(s): ANTH 13.

Grading: Letter Graded

ANTH 169 - Archaeological Site Excavation

3 unit(s)

Artifact recovery and analysis during archaeological field project. All phases of professional archaeological practice leading to publication of findings. Sites may be local or distant.

Misc/Activity: 6 hours activity

Prerequisite(s): ANTH 13 or instructor consent.

Grading: Letter Graded

ANTH 173 - Multimedia Anthropology

3 unit(s)

Planning, production, and presentation of ethnographic materials using various media. Theoretical and applied aspects of multimedia anthropology. Use of multiple media in data collection, analysis, evaluation, and representation of culture including photographs, documentary video, websites, social networking platforms, and infographics.

Prerequisite(s): ANTH 11 or instructor consent.

Grading: Letter Graded

ANTH 175 - Anthropology of Native America

3 unit(s)

Anthropological survey of North American indigenous peoples and issues from historical and contemporary perspectives. Topics include cultural variation and diversity, decolonizing narratives of indigenous histories, resistance, social and environmental justice, law, and politics.

Prerequisite(s): Any lower division Anthropology course or Instructor Consent.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

ANTH 176 - Native California: Past and Present

3 unit(s)

Native Californian cultures before and after white contact, emphasizing ecological, sociopolitical and religious interrelationships, colonialism, resistance, and struggles for tribal sovereignty. Ethnographic, archaeological and documentary sources.

Prerequisite(s): ANTH 11 or Instructor Consent.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

ANTH 177 - Anthropology of Asia

3 unit(s)

Sociocultural themes of selected Asia cultures. Covers cultural pluralism, intercultural contact, social organization, worldview and economic adaptations. Explores connections within the Pacific Rim, especially to the local region. Course is repeatable once for credit when different cultures are emphasized.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with ASIA 177. Anthropology is responsible for scheduling.

ANTH 180 - Individual Studies

1-4 unit(s)

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit

ANTH 184 - Directed Reading

1-4 unit(s)

Directed reading in cultural anthropology, physical anthropology or archaeology to gain a broader understanding of a particular topic, culture or theoretical issue.

Prerequisite(s): Upper division standing and instructor consent.

Grading: Credit/No Credit

ANTH 190 - Designing Research

3 unit(s)

Describes research conception, development and implementation for academic research and applied careers alike. Emphasizes writing grant proposals, academic theses, and professional contracts. Topics include research question identification, methodological and technical approaches, broader significance and impact of research, and ethical considerations.

Prerequisite(s): Declared major in Anthropology or Behavioral Sciences; Completion of Area Z (100W); Two of the following courses: ANTH 11, ANTH 12, ANTH 13 or Instructor consent.

Grading: Letter Graded

ANTH 191 - Frontiers of Anthropology

3 unit(s)

Critical contemporary social issues that cut across archaeology and cultural and physical anthropology. Anthropology as a holistic social science. Seminar format uses reading, simulations and class discussions. Professionalism in the discipline stressed.

Prerequisite(s): ANTH 131 and senior standing or instructor consent.

Grading: Letter Graded

ANTH 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ANTH 193 - Behavioral Science in Practice

3 unit(s)

Capstone workshop for behavioral science majors. Students assess methods and knowledge of anthropology, psychology and sociology, and synthesize them by reflecting upon case studies of individual, organizational, community, and global issues. Emphasis is on cooperative learning, reflection and synthesis of skills and knowledge.

Prerequisite(s): Senior standing. Allowed Declared Major: Behavioral Science or Behavioral Science double major.

Grading: Letter Graded

Cross-listed with PSYC 193 / SOCI 193. Anthropology is responsible for scheduling.

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

ANTH 195 - Anthropology Practicum

1-6 unit(s)

Advanced practicum in archaeology, ethnography, physical anthropology or linguistics.

Repeatable for credit.

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit

ANTH 198 - Special Projects

1-4 unit(s)

Independent research in cultural anthropology, physical anthropology or archaeology.

Prerequisite(s): Upper division standing and instructor consent.

Grading: Credit/No Credit

ANTH 230 - Theory in Practice

3 unit(s)

In-depth analysis of anthropological and related theory and accompanying methodology, emphasizing the use of theory in practice.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): ANTH 131 or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ANTH 231 - Applications Core

3 unit(s)

Methods for the analysis of sociocultural systems, ethnographic evaluation, and program/design development. Emphasis on professionalism, project management, budgeting, ethics, and contracts.

Prerequisite(s): ANTH 232, ANTH 105 or instructor consent.

Grading: Letter Graded

ANTH 232 - Applications Core

3 unit(s)

Methods for the analysis sociocultural systems, ethnographic evaluation, and program/design development. Emphasis on professionalism, project management, budgeting, ethics, and contracts

Prerequisite(s): ANTH 231 or instructor consent.

Grading: Letter Graded

ANTH 233 - Fields of Application

3 unit(s)

Survey of domains in which anthropological skills and knowledge are applied. Topics include health,

business and industry, sustainable regions, and immigration. Emphasis is on opportunities for anthropological contributions.

Corequisite(s): ANTH 231 or instructor consent.

Grading: Letter Graded

ANTH 234 - Advanced Research Methods

3 unit(s)

Advanced research methods including individual and group interviewing, structured observation, and formal analytical methods. Emphasis on data management, ethnographic writing, and presentation of data through different media.

Prerequisite(s): ANTH 149 or equivalent.

Grading: Letter Graded

ANTH 235 - Quantitative Methods

3 unit(s)

Advanced quantitative methods to gain comprehension of statistical analyses, especially in regards to predictive value for regional issues. Emphasis will be on understanding statistics, creating databases, using statistical software packages, and employing proper statistics.

Prerequisite(s): STAT 95 or equivalent.

Grading: Letter Graded

ANTH 280 - Individual Studies

1-4 unit(s)

Advanced individual research and projects.

Prerequisite(s): Instructor consent and department chair approval.

Grading: Credit/No Credit/Incomplete.

ANTH 287 - Special Topics

1-3 unit(s)

Contemporary issues in applied and practicing anthropology not covered in other courses. Course is repeatable once for credit on different topic with advisor consent. Repeatable for credit when topic changes.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

ANTH 292 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad

Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ANTH 298 - Anthropology Project

1-6 unit(s)

Course consists of supervised units applying anthropology in a project, the documentation of that project and the evaluation of the project in a written report. Course is repeatable for credit in the same semester.

Grading: Credit/No Credit/RP.

ANTH 299 - Master's Thesis

1-6 unit(s)

Independent anthropological research conducted under supervision of faculty advisor.

Prerequisite(s): Graduate standing.

Grading: Credit/No Credit/RP.

ANTH 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on project or thesis.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in a project or thesis class

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Art

ART 1 - Professional Preparation in Art

1 unit(s)

Introduction to skills and documents needed in preparation for professional careers in the arts; orientation to SJSU. Intended for BA/BFA ART majors and minors.

Grading: Credit/No Credit

ART 2 - The Artist in Contemporary Culture

3 unit(s)

Introduces art beginners to roles that artists play in contemporary culture. Critical readings and problem-solving: principles of form and theory and research applied to real-world situations confronted by contemporary artists. Orientation to SJSU.

Grading: Letter Graded

ART 3 - Medium and Message

3 unit(s)

This undergraduate seminar introduces intermediate-level artists to a research and project-based approach to artmaking with a focus on contemporary, idea-appropriate mediums and methods. Orientation to SJSU.

Grading: Letter Graded

ART 12 - Two-Dimensional Design and Color Concepts

3 unit(s)

Theories and applications of two-dimensional design and color in visual art and design. Studio practice.

6 hours activity

Grading: Letter Graded.

Note(s): ART 12 is treated as a repeat for students who have taken ANI 10 (formerly ANI 12).

ART 13 - Three-Dimensional Design Concepts

3 unit(s)

Theories and applications of three-dimensional form in visual art and design. Studio practice.

Misc/Activity: 6 hours activity

Grading: Letter Graded

ART 14 - Color

3 unit(s)

Attributes of color. Studio practice exploring theories and creative use of color in visual art and design.

6 hours activity

Grading: Letter Graded.

Note(s): ART 14 is treated as a repeat for students who have taken ANI 21 (formerly ANI 14).

ART 15 - Digital 2D Foundations

3 unit(s)

Course is an introduction to the fundamentals of digital 2D making, from research and ideation to evaluation and reflection.

Activity 6 hours.

Grading: Letter Graded.

ART 24 - Drawing I

3 unit(s)

Elements and principles of drawing. Studio practice emphasizing line, shape and light-dark used in visual art and design.

6 hours activity

Grading: Letter Graded.

Note(s): ART 24 is treated as a repeat for students who have taken ANI 11 (formerly ANI 24)..

ART 25 - Expressive Drawing

3 unit(s)

Drawing concepts emphasizing creative expression. Studio practice with a variety of methods and materials.

Misc/Activity: 6 hours activity

Prerequisite(s): ART 24.

Grading: Letter Graded

ART 26 - Drawing II

3 unit(s)

Observation and depiction of volume and perspective.

Misc/Activity: 6 hours activity

Prerequisite(s): ART 24.

Grading: Letter Graded

ART 39 - Multicultural Arts for Children

3 unit(s)

Focus on teaching arts of many cultures, places and times to young people (preschool through high school).

Misc/Lab: Lab 6 hours.

Grading: Letter Graded

ART 46 - Introduction to Ceramics

3 unit(s)

Studio work in ceramics; a survey of methods used by contemporary artists. Includes use of the potter's wheel, handbuilding techniques, clay preparation, glazing and firing for utilitarian and sculptural work.

Misc/Activity: 6 hours activity

Grading: Letter Graded

ART 47 - Introduction to Metalsmithing

3 unit(s)

Introduction to tools, materials and techniques for small scale metal work. Primer course for metalsmithing and jewelry.

Misc/Activity: 6 hours activity

Grading: Letter Graded

ART 61 - Beginning Painting

3 unit(s)

Studio practice in selected media. Specific content, materials and subject matter may vary with instructors.

Misc/Activity: 6 hours activity

Prerequisite(s): ART 12 and ART 24

Grading: Letter Graded

ART 68 - Beginning Sculpture: Object & Concept

3 unit(s)

Introduction to core sculptural media: woodworking, welding, mold-making, metal-casting and working with found objects. Emphasis on concept development and critical thinking.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 6 units.

Prerequisite(s): ART 13 or instructor consent.

Grading: Letter Graded

ART 74 - Introduction to Digital Media

3 unit(s)

Fundamental concepts and methods of Digital Media production. Introduction to visualization software applications and web presentation techniques.

Misc/Lab: Activity 6 hours.

Grading: Letter Graded

ART 75 - Introduction to Digital Video Art

3 unit(s)

Introduction of the fundamental skills, software and techniques involved in the production of Digital Video. Critical discourse and contemporary art theories will be explored.

Misc/Activity: 6 hours activity

Grading: Letter Graded

ART 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ART 100W - Writing Workshop: Fine Arts

3 unit(s)

Advanced writing course for fine art majors, based upon philosophical issues and current professional practice in art. Clear analytical and critical writing in examination of these topics.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level. Allowed Declared Majors: Art, Art History, Interior Design, Industrial Design, Graphic Design, Fine Arts.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

ART 101 - Digital Media Art

3 unit(s)

Experimental applications in creative coding as an art practice. Focus includes programming interactivity, generative graphics, intro to data visualization and user interface and user experience strategies.

Misc/Activity: 6 hours activity

Prerequisite(s): ART 74, ART 75 or instructor consent

Grading: Letter Graded

ART 102 - 3D Modeling and Printing

3 unit(s)

Introduces experimental 3D methods with a focus on conceptual and creative processes using 3D modeling software and 3D printing technology while addressing contemporary uses for artistic production.

Misc/Activity: 6 hours activity

Prerequisite(s): ART 75 or instructor consent.

Grading: Letter Graded

ART 103 - Art as System

3 unit(s)

Experimental applications in the use of systems-based approach for art making. Focus on various CNC 3D printing/cutting methods, parametric art, CAD/CAM techniques, physical computing integration and collaborative art models.

Misc/Lab: Activity 6 hours.

Prerequisite(s): ART 75 and ART 101

Grading: Letter Graded

ART 104 - Interdisciplinary Seminar in Digital Media Art

3 unit(s)

Investigation of theoretical topics in digital media art and analysis of contemporary technology research issues.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

ART 105 - Advanced Digital Video

3 unit(s)

Advanced exploration of digital video within the context of conceptual art practice. Focus on issues and applications of digital technology and critical thinking in art with specific focus on video, the Internet and alternative media applications.

Misc/Lab: Lab 9 hours.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): ART 75 or permission of instructor.

Grading: Letter Graded

ART 106 - Topics in Human Machine Interface

3 unit(s)

Experimental applications in physical computing in art. Topics include computer-controlled sensors and actuators, the nature of the cyborg and interactive electronic interfaces for sculpture, environments and performance. Course is repeatable up to 6 units, when course topic changes.

Misc/Lab: Activity 6 hours.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): ART 75 and ART 101 or permission of instructor.

Grading: Letter Graded

ART 107 - Advanced Projects in Digital Media Art

3 unit(s)

Advanced issues and applications of digital technology in art. Application of interactive technology in installation and performance. Emphasis on collaborative projects, user interaction, and experience. Course is repeatable up to 6 units.

Misc/Lab: Activity 6 hours.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): ART 75 or permission of instructor.

Grading: Letter Graded

ART 108 - Introduction to Game Studies

3 unit(s)

Introduction to the systems, design, history, and cultural analysis of games with emphasis on critical studies, development, technological literacy, markets and impact on society.

Misc/Activity: 6 hours activity.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded.

Cross-listed with CS 108. Art and Art History is responsible for scheduling.

ART 109 - Web Development in HTML, CSS and JavaScript

3 unit(s)

Tracing the emergence of networked, online, and screen-based contexts for the exhibition of new media art, course explores programming, tools and methodologies for the creation of websites, web applications and net-based digital media artworks. Students develop website architectures, user interfaces, style sheets, animation and web-optimized content using industry-standard tools and techniques. Development of a collaborative networked installation environment and/ or online gallery for the exhibition of culminating work.

Prerequisite(s): ART 75 and ART 101.

Grading: Letter Graded

ART 110 - History and Theory of New Media

3 unit(s)

The history of art and technology introducing contemporary critical theory and practice. Course will address digital visualization, simulation, interactive network technologies in the arts and speculate on the artistic implications of advances in engineering and science.

Prerequisite(s): ARTH 70B or ARTH 72 or instructor consent.

Grading: Letter Graded

Cross-listed with ARTH 110. Art and Art History is responsible for scheduling.

ART 132 - Topics in Intermediate Ceramics

3 unit(s)

Investigation of ceramic form and surface design with emphasis on the vessel. Development of skills on the potter's wheel and in glazing, kiln loading and firing. Included are raku, salt, earthenware, stoneware and porcelain. Repeatable for up to 9 units of credit when course topic changes.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 9 units.

Prerequisite(s): ART 46 or instructor consent

Grading: Letter Graded

ART 133 - Topics in Ceramic Sculpture

3 unit(s)

Focus on handbuilding and nontraditional techniques in clay and related media. Includes gallery and studio visits.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 9 units.

Prerequisite(s): ART 13, ART 46 or instructor consent.

Grading: Letter Graded

ART 134 - Topics in Advanced Ceramics

3 unit(s)

Focus on personal stylistic development, individual critiques and portfolio preparation. Includes gallery and studio visits. Repeatable for Credit when topic changes, up to 3 times.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 9 units.

Prerequisite(s): ART 132 or ART 133.

Grading: Letter Graded

ART 135 - Topics in Moldmaking for Artists

3 unit(s)

Introduction to moldmaking for upper division/graduate students. Course will include techniques for rubber molds for wax or plastic, molds for pressed clay, slip casting and waste molds. Course is repeatable for a total of 6 units.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 9 units.

Prerequisite(s): ART 13 or instructor consent.

Grading: Letter Graded

Note(s): Offered only occasionally.

ART 137 - Figure Modeling

3 unit(s)

Representation of the human figure in three dimensions. Sculpting in clay from a live model. Course is repeatable for a total of 6 units.

Misc/Lab: Activity 6 hours.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): ART 13 and ART 55 or instructor consent.

Grading: Letter Graded

ART 138 - Elementary Art Methods

3 unit(s)

Equips prospective pre-K through high school educators with the basic knowledge, skills, and strategies to effectively organize and provide sequential art education. Emphasis on art teaching methods, art curriculum development, and art experiences.

Misc/Activity: 6 hours activity

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ART 139 - Teaching Diversity through Art

3 unit(s)

Strategies for teaching ideas of diversity through art in the preschool through high school classroom. Students deepen their understanding of culture and context and of why the arts matter.

Misc/Activity: 6 hours activity

Prerequisite(s): upper-division standing or instructor consent

Grading: Letter Graded

Cross-listed with CA 139. Art and Art History is responsible for scheduling.

Sustainability Related - SDG 4: Quality Education

ART 140 - Topics in Glass

3 unit(s)

Introduction to glass working techniques, chemistry, history and concept. Basic glass blowing, sand casting, slumping, fusing, cold working, stained glass and gluing techniques. Taught through a series of hands-on projects. Repeatable for up to 9 units when topic changes.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 9 units.

Grading: Letter Graded

ART 141 - Topics in Advanced Glass

3 unit(s)

Technical and esthetic aspects of glass for sculpture and design. Advanced blowing, kiln casting, mold making, lamp working, lathe techniques and surface treatments. Repeatable for up to 9 units of credit, when topic changes.

Misc/Lab: Activity 6 hours.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): ART 140, ART 13 or instructor consent.

Grading: Letter Graded

ART 147 - Topics in Metalsmithing and Jewelry

3 unit(s)

Technical and esthetic aspects of metalsmithing and jewelry design. Fabricating, surfacing, soldering, raising, forming and forging. Repeatable for 12 units of credit when topic changes.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 12 units.

Prerequisite(s): ART 47.

Grading: Letter Graded

ART 149 - Topics in Jewelry and Small Sculpture

3 unit(s)

Technical and esthetic aspects of metalcasting for small-scale sculpture and jewelry. Pattern materials, gating techniques, burnout procedure, vacuum casting, centrifugal casting and finishing. Repeatable for 12 units of credit when topic changes.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Upper division standing or permission of instructor.

Grading: Letter Graded

ART 150 - Topics in Printmaking and Letterpress

3 unit(s)

Introduction to relief printing, letterpress and related processes. Studio practice.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 6 units.

Prerequisite(s): ART 12 and ART 24

Grading: Letter Graded

ART 151 - Topics in Screen-Printing

3 unit(s)

Screen printing and related photographic processes. Studio practice. Repeatable for Credit when topic changes.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 9 units.

Grading: Letter Graded

ART 152 - Topics in Lithography

3 unit(s)

Studio practice. A comprehensive study of the practice of stone and metal plate lithography. Course is repeatable for a total of 9 units when topic changes.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 9 units.

Prerequisite(s): ART 61 (or equivalent).

Grading: Letter Graded

ART 153 - Topics in Intaglio Processes

3 unit(s)

Studio practice towards an understanding of the methods, techniques and procedures necessary to make intaglio prints. Course is repeatable for a total of 9 units when course topic changes.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 9 units.

Prerequisite(s): ART 61 (or equivalent)

Grading: Letter Graded

ART 155 - Topics in Monotype

3 unit(s)

Studio practice. An investigation of the methods, techniques and syntax of the monotype and monoprint. Course is repeatable for total of 9 units when course topic changes.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 9 units.

Prerequisite(s): ART 61 (or equivalent).

Grading: Letter Graded

ART 158 - Topics in Drawing III

3 unit(s)

Form and expression in drawing. Selected media. Course Repeatable for up to 9 units of credit when topic changes.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 9 units.

Prerequisite(s): ART 25 or ART 26

Grading: Letter Graded

ART 162 - Watercolor

3 unit(s)

Painting with various water base media.

Misc/Activity: 6 hours activity

Prerequisite(s): ART 12 and ART 24.

Grading: Letter Graded

ART 164A - Intermediate Painting

3 unit(s)

Emphasis may vary with instructor. Course is repeatable for a total of 6 units.

Misc/Activity: 6 hours activity

Prerequisite(s): ART 61 (or equivalent).

Grading: Letter Graded

ART 164B - Intermediate Painting II

3 unit(s)

Intermediate Painting II expands and builds on the concepts and skills introduced in ART 164A-Intermediate Painting I; with the goal of developing more complex content and process in preparation for Advanced Painting.

Misc/Activity: 6 hours activity

Prerequisite(s): ART 61 and ART 164A or instructor consent

Grading: Letter Graded

ART 165 - Topics in Figure Painting

3 unit(s)

Figure and portrait painting from the model. Repeatable for up to 9 units of credit when course topic changes.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 9 units.

Prerequisite(s): ART 26 and ART 61.

Grading: Letter Graded

ART 166 - Topics in Advanced Painting

3 unit(s)

Emphasis may vary with instructor. Repeatable for 9 units of credit when topic changes.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 9 units.

Prerequisite(s): ART 61, ART 164A, ART 164B and ART 165 or equivalent, or instructor consent

Grading: Letter Graded

ART 168 - Topics in Woodworking

3 unit(s)

Introduction to the physical structure of wood and to the design and construction of furniture and sculptural objects in wood. Also, an introduction to the historical use of wood joinery in man-made objects. Course is repeatable for 6 units of credit.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 6 units.

Prerequisite(s): ART 13 or instructor consent.

Grading: Letter Graded

ART 169 - Topics in Metal Sculpture

3 unit(s)

Conception and creation of three-dimensional aesthetic form using metal techniques including casting, welding, fabrication and other forming processes. Repeatable for up to 9 units when topic changes.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 9 units.

Prerequisite(s): ART 13.

Grading: Letter Graded

ART 170 - Topics in Fabricated Sculpture

3 unit(s)

Fabricated Sculpture includes welding training, a concise history of fabricated metal sculpture since 1945, and studio time wherein the student practices skills and executes three steel sculptures. Repeatable for up to 9 units of credit when course topic changes.

Misc/Lab: Lab 6 hours.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): ART 13.

Grading: Letter Graded

ART 172 - Intermediate Sculpture: System/Structure

3 unit(s)

This is an intermediate-level sculpture class with a focus on contemporary materials and processes. Students will make sculptural responses to timely issues raised in course readings and lectures.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 6 units.

Prerequisite(s): ART 68 or instructor consent.

Grading: Letter Graded

ART 173 - Topics in Installation Art

3 unit(s)

Exploration of cross-disciplinary artmaking, with an emphasis on conceptual development and critical dialogue. Students make installation art and site-specific artworks using a variety of techniques and processes, including time-based media. Course can be repeated for up to 6 units when course topic changes.

Misc/Activity: 6 hours activity

Course may be repeated for credit for up to 6 units.

Prerequisite(s): ART 13 or instructor consent.

Grading: Letter Graded

ART 174A - Museum and Gallery Operations

3 unit(s)

Theoretical and technical problems of gallery and museum work including administration, security and curatorship.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with ARTH 174A. Art and Art History is responsible for scheduling.

ART 174B - Internship: Museum and Gallery Operations

3 unit(s)

Supervised internship in museum or gallery. Experience including installation, curating and administration. Course is repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): ART 174A.

Grading: Credit/No Credit

Cross-listed with ARTH 174B. Art and Art History is responsible for scheduling.

ART 175 - Special Topics in Studio Art

3 unit(s)

Varying concepts, media or techniques. Emphasizing individual expression, professional ability and recent movements and directions in art.

Misc/Activity: 6 hours activity

Prerequisite(s): Upper division standing in art.

Grading: Letter Graded

ART 177 - Professional & Business Practices

3 unit(s)

An introduction to the ways and means necessary to build a career in the arts while successfully negotiating its challenges, this course will provide information on portfolio development and professional and business practices essential for the practicing artist.

Prerequisite(s): Upper division or graduate standing.

Grading: Letter Graded

ART 178 - Art Field Work

1-3 unit(s)

Professional practice in a selected field.

Prerequisite(s): Application for assignment made preceding semester. Supervisor and department approval.

Grading: Credit/No Credit

ART 179 - Special Problems in Art

3 unit(s)

Individual study on a tutorial basis.

Prerequisite(s): Qualified seniors or graduates.

Grading: Credit/No Credit

ART 180 - Individual Studies

1-3 unit(s)

Special topics or projects by arrangement with instructor. Course is repeatable up to 4 units of credit toward graduation.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Majors or minors with Department of Art & Art History consent.

Grading: Credit/No Credit

ART 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ART 193 - Digital Materials

3 unit(s)

Technical skills to facilitate the realization of projects conceptually rooted in an analysis of computational media and its relationship to the physical world. Introduction to video and computational outputs integrated with tangible presentation methods. Material survey, exhibition strategies, and introductory fabrication techniques that facilitate projects bridging computation, architecture, objects, and the body.

6 hours activity.

Prerequisite(s): ART 74 and ART 75.

Grading: Letter Graded

Cross-listed with DSGN 193. Art is responsible for scheduling.

ART 195 - BFA Group Exhibition

3 unit(s)

Student develop individual approaches, methodologies, and practices in the creation of art and participate in a final group show demonstrating professional competence in the students area of concentration. Participation in the final exhibition with the approval of the student's advisory committee is required.

Prerequisite(s): 30 units of upper division art, admission to the BFA program and ART 198, or ART 210 with advisor's approval.

Grading: Credit/No Credit

ART 197 - BA Senior Project

3 unit(s)

Creation of a studio art or design capstone project consisting of new work in media selected by student to be documented and presented to studio or design faculty.

Prerequisite(s): 15 units of upper division work in the major.

Grading: Credit/No Credit

ART 198 - BFA Seminar

3 unit(s)

Preparation for BFA project and postgraduate career planning, this course includes field trips, class discussions and studio visits with art professionals.

Prerequisite(s): Prior acceptance in the B.F.A. program.

Grading: Letter Graded

ART 199 - BFA Project

3 unit(s)

A project demonstrating professional competence in area of concentration. A gallery exhibition with the approval of the student's advisory committee is required.

Prerequisite(s): 30 units of upper division art, admission to the BFA program and ART 198, or ART 178 with advisor's approval.

Grading: Credit/No Credit

ART 200W - Professional Writing in Contemporary Art

3 unit(s)

Graduate seminar focusing on issues and practices of writing about contemporary art, including artist statements, exhibition catalogs and art criticism.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Graduate Standing in Department of Art & Art History.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ART 208 - Graduate Photography Critique

3 unit(s)

Professional practice in the discipline of fine art photography is multi faceted and complex. To embrace this diversity, Art 208 Graduate Photography Critique offers rotating topics that influence portfolio development, emphasize an ongoing critique of work, and build a healthy professional practice. Repeatably for up to 18 units of credit when course topic changes.

Misc/Activity: 9 hours lab

Course may be repeated for credit for up to 18 units.

Prerequisite(s): Classified status in art or instructor consent.

Grading: Letter Graded

ART 210 - Seminar in Digital Media Art

3 unit(s)

Theoretical discourse involving art and information culture. Review and analysis of contemporary theory and critical literature. Emphasis on collaborative activities and art practice.

Prerequisite(s): Classified status in art or instructor consent.

Grading: Letter Graded

ART 217 - Tutorials in Pictorial Arts

3 unit(s)

Individual projects in painting, drawing and printmaking supervised by an instructor.

Prerequisite(s): Classified or conditionally classified status in art and instructor consent.

Grading: Letter Graded

ART 219 - Tutorials in Spatial Art

3 unit(s)

Individual projects in sculpture, installation, performance and other 3-D media supervised by an instructor.

Prerequisite(s): Classified or conditionally classified status in art and instructor consent.

Grading: Letter Graded

ART 220 - Tutorials in Digital Media Art

3 unit(s)

Individual problems in selected area of research or practice.

Prerequisite(s): Classified status in art and instructor consent.

Grading: Letter Graded

ART 222 - Tutorials in Photography

3 unit(s)

Individual projects employing photographic media supervised by an instructor.

Prerequisite(s): Classified or conditionally classified status in art and instructor consent.

Grading: Letter Graded

ART 260 - Special Tutorials in Art

3 unit(s)

Individual problems in a selected art area supervised by an instructor.

Prerequisite(s): Classified or conditionally classified status in art and instructor consent.

Grading: Credit/No Credit.

ART 276 - Artists Teaching Art

3 unit(s)

Seminar will examine theoretical and practical issues of art education which relate to traditional institutions of higher learning as well as to other teaching opportunities in the community.

Prerequisite(s): Classified graduate status or instructor consent.

Grading: Letter Graded

ART 281 - Interdisciplinary Critique Seminar

3 unit(s)

Interdisciplinary peer group critiques and discussion of individual student work. Repeatable for up to 9 units when topic changes.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): Admission to the MFA in Art program.

Grading: Letter Graded

ART 282A - Seminar in the Theory and Criticism of Contemporary Art

3 unit(s)

A historical approach to the thought of major critics and theoreticians of contemporary art.

Prerequisite(s): ARTH 191A and admission to classified MFA status in art or instructor consent.

Grading: Letter Graded

ART 282B - Seminar in Contemporary Art

3 unit(s)

An examination of a particular theme in contemporary art theory. Repeatable for credit.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): ARTH 191A and admission to classified MFA status in art or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ART 297A - Master's Special Study

3 unit(s)

Advanced individual research in an area closely related to the master's thesis, research or project. Course may be repeated for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Acceptance of qualifications for candidacy by Art Graduate Committee and permission of Thesis, Research or Project Committee chair.

Grading: Credit/No Credit/Incomplete.

ART 297B - Master's Project

3 unit(s)

Advanced projects in Creative Expression.

Prerequisite(s): Advancement to candidacy for the master's degree in art.

Grading: Credit/No Credit/RP.

ART 298A - MFA Project Planning Seminar

3 unit(s)

MFA Project (exhibition and written portion) preparation through advance research, professional practice, and project management activities.

Prerequisite(s): Advancement to candidacy for the MFA in Art degree.

Grading: Credit/No Credit/RP

ART 298B - MFA Project

3 unit(s)

A creative project of professional caliber.

Prerequisite(s): Advancement to candidacy for the MFA in Art degree.

Grading: Mandatory Credit/No Credit/RP

ART 1290R - Culminating Experience Supervision

1 unit(s)

This course satisfies the requirement that all graduate students must remain enrolled during semesters in which they are working solely on their theses or projects, for which they have previously received but not cleared an RP grade.

Course may be repeated for credit for up to 20 units.

Prerequisite(s): Existing RP grade in a graduate-level thesis or project course

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Art Education

ARED 150 - Field Experience in the Arts

3 unit(s)

Provides opportunities for those considering teaching, K-12 levels, to interact with outstanding teachers of the arts in the region through structured field experiences in classrooms, reflective writing, community service, and weekly discussion in a seminar setting.

Prerequisite(s): ART 138 or ART 139, upper division standing, or instructor consent.

Grading: Letter Graded

Cross-listed with CA 150. Art and Art History is responsible for scheduling.

ARED 184Y - Student Teaching II - Classroom Teaching

4 unit(s)

Minimum 80-120 class periods of classroom, teaching laboratory or field teaching in appropriate single subjects, grades K-12 and related teaching activities and seminar.

Prerequisite(s): Major and Education Department joint approval.

Grading: Credit/No Credit

ARED 184Z - Student Teaching III - Classroom Teaching

4 unit(s)

See ARED 184Y for course description.

Grading: Credit/No Credit

Note(s): May be in different subject/school and will be at a different grade level.

ARED 238 - Principles of Art Education

3 unit(s)

This course is designed to equip prospective art educators with the knowledge, skills, and strategies to effectively organize and implement sequential art instruction at the secondary level with an emphasis on Art Teaching Methods and Art Curriculum Development.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

ARED 365 - Field Experience Seminar in Art Education

1 unit(s)

This companion to the Phase II/III student teaching experience in the Single Subject Credential Program provides a forum for discussing field experiences and prepared candidates for the program's capstone assessment: The performance Assessment for California Teachers (PACT).

Prerequisite(s): EDSC 184X

Corequisite(s): ARED 184Z (except for candidates in the Single Subject Internship Program).

Grading: Credit/No Credit.

Art History

ARTH 11 - Modern Art History

3 unit(s)

Introductory survey of 20th and 21st century art, its history, and its contexts. Related developments in illustration, design, other forms of art production, and cultural institutions such as museums, galleries, publications also considered.

Pre/Corequisite(s): ART 12 or ART 13 or PHOT 40 or instructor consent.

Grading: Letter Graded

ARTH 15 - Intro to Visual Culture

3 unit(s)

Key ideas and debates pertaining to visual culture considered through interdisciplinary study of art and media as significant social forces.

Satisfies C1: Arts.

Grading: Letter Graded

ARTH 70A - Art History, Prehistoric to Medieval

3 unit(s)

Western painting, sculpture and architecture from Prehistoric times through the Middle Ages. Important art works of Egypt, Greece, Rome and Medieval Europe.

Satisfies C1: Arts.

Grading: Letter Graded

ARTH 70B - Art History, Renaissance to Modern

3 unit(s)

Western painting, sculpture and architecture from the Renaissance to the present. Masters of the Renaissance, Baroque, Rococo, Neo-Classic, Romantic and Modern periods, including Da Vinci, Michelangelo, Durer, Rembrandt, Vermeer, David, Delacroix and Monet.

Satisfies C1: Arts.

Grading: Letter Graded

ARTH 70C - Arts of Asia

3 unit(s)

Major trends in the art of China, India and Japan, as well as Southeast and Central Asia and Korea, from the Neolithic period to the twentieth century.

Satisfies C1: Arts.

Grading: Letter Graded

Cross-listed with ASIA 70C. Art and Art History is responsible for scheduling.

ARTH 72 - Design in Society

3 unit(s)

Considers the cultural role of design in addressing human needs in shaping the environment, in providing shelter, clothing, utilitarian objects, and transportation, in visual communication for political and entertainment purposes.

Satisfies C1: Arts.

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

ARTH 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ARTH 101 - Introduction to Practice of Art History

3 unit(s)

Introduction to practice of art history including visual analysis, research tools, and examination of professional options.

Prerequisite(s): Art History and Visual Culture major or instructor consent.

Grading: Letter Graded

ARTH 110 - History and Theory of New Media

3 unit(s)

The history of art and technology introducing contemporary critical theory and practice. Course will address digital visualization, simulation, interactive network technologies in the arts and speculate on the artistic implications of advances in engineering and science.

Prerequisite(s): ARTH 70B or ARTH 72 or instructor consent.

Grading: Letter Graded

Cross-listed with ART 110. Art and Art History is responsible for scheduling.

ARTH 126 - History of Photography

3 unit(s)

Technical developments and aesthetic trends in photography traced from its invention in the nineteenth century to the present day. Slide presentations, discussions, field trips.

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

Cross-listed with PHOT 126. Art and Art History is responsible for scheduling.

ARTH 127 - Photography, Film, and Architecture

3 unit(s)

This course presents a closely contextualized examination of major photographers, architects and film-makers through their work and their interpretations of modern culture and its spaces. Lectures will cover developments in photography, film and architecture, as well as the changing relationship among these media and other domains visual culture.

Prerequisite(s): ARTH 70B or Instructor Consent

Grading: Letter Graded

ARTH 150 - Modern Textiles: A Global History of Art and Design

3 unit(s)

Course examines modern textile art and design through the lens of techniques and textile typologies as they emerge in different cultural traditions and through developments in technology. It considers how historical textile practices inform contemporary artistic expression.

Prerequisite(s): Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

ARTH 160 - Modern Architecture

3 unit(s)

Development of modern architecture from the late 19th century to the present, including Richardson, Sullivan, Wright, Le Corbusier, the Bauhaus, Mies van der Rohe, Meier and Gehry.

Prerequisite(s): ARTH 70B, ARTH 72 or instructor consent.

Grading: Letter Graded

ARTH 161 - Contemporary Architecture

3 unit(s)

History of contemporary architecture since 1945, covering major trends and issues in a global context; includes Louis Kahn, Frank Gehry and Zaha Hadid.

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

ARTH 162 - California Architecture

3 unit(s)

History of architecture in California since 1700, covering major architectural developments in a national and transnational context; includes Bernard Maybeck, Richard Neutra and Morphosis.

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

ARTH 163 - Twentieth Century Urban Design

3 unit(s)

History of urban design since 1900, covering theories and practices of urban design in the industrialized world; includes Camillo Sitte, Le Corbusier and Frank Lloyd Wright.

Prerequisite(s): ARTH 70B or URBP 151 or instructor consent.

Grading: Letter Graded

Cross-listed with URBP 163. Art and Art History is responsible for scheduling.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

ARTH 174A - Museum and Gallery Operations

3 unit(s)

Theoretical and technical problems of gallery and museum work including administration, security and curatorship.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with ART 174A. Art and Art History is responsible for scheduling.

ARTH 174B - Internship: Museum and Gallery Operations

3 unit(s)

Supervised internship in museum or gallery. Experience including installation, curating and administration. Course is repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): ART 174A.

Grading: Credit/No Credit

Cross-listed with ART 174B. Art and Art History is responsible for scheduling.

ARTH 175 - Theories of Art History and Art Criticism

3 unit(s)

The study of approaches used by professional art historians and critics. The focus will be on 20th century writers who helped shape the development of contemporary art history and criticism.

Prerequisite(s): Upper division standing, 6 units of ARTH 70A, ARTH 70B, and/or ARTH 70C or instructor

consent.

Grading: Letter Graded

ARTH 176A - Graphic Design History and Theory

3 unit(s)

The history of graphic design and typography with an emphasis on the 20th century. Define technological, historical and theoretical concerns and influences on individuals and movements in graphic design.

Prerequisite(s): ARTH 72, completion of Area Z, or instructor consent.

Grading: Letter Graded

Cross-listed with DSGD 176A. Art and Art History is responsible for scheduling.

ARTH 178 - Art History Field Work

1-3 unit(s)

Professional practice in a selected field of Art History.

Prerequisite(s): Application for assignment made preceding semester. Supervisor and department approval.

Grading: Credit/No Credit

ARTH 180 - Individual Studies in Art History

1-4 unit(s)

Special topics or projects by arrangement with instructor. Course is repeatable up to 4 units of credit toward graduation.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Majors or minors with Department of Art & Art History consent.

Grading: Letter Graded

ARTH 181 - Special Topics in Art History

3 unit(s)

In-depth analysis of a selected art historical topic.

Prerequisite(s): ARTH 70A and ARTH 70B or instructor consent.

Grading: Letter Graded

ARTH 182A - Art of the Americas

3 unit(s)

A survey of architecture, ceramics, metalwork, sculpture, painting and textiles of North, South, and Meso American cultures.

Prerequisite(s): ARTH 70A or instructor consent.

Grading: Letter Graded

ARTH 182B - American Art

3 unit(s)

From the Colonial Period to 1940. Social context of America.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ARTH 183A - Art of Egypt and Mesopotamia

3 unit(s)

The Arts of Egypt, Sumer, Akkad, Babylonia, Assyria, Anatolia, Hittites, and Persia (Elamite to Sassanian).

Prerequisite(s): ARTH 70A or instructor consent.

Grading: Letter Graded

Cross-listed with MDES 183A. Art and Art History is responsible for scheduling.

ARTH 185 - Art of the Classical World

3 unit(s)

Focus on the ancient arts of Greece, Roman and Etruria from the 8th century BC through the 4th century AD. Major monuments: Parthenon, Altar of Zeus at Pergamon, Ara Pacis and Forum of Trajan.

Prerequisite(s): ARTH 70A or instructor consent.

Grading: Letter Graded

ARTH 186 - Medieval Art

3 unit(s)

Introductory survey of art and architecture from from the end of the Western Roman Empire, circa 500 AD to the beginning of the Italian Renaissance, circa 1400 AD. Focuses on the meanings and uses of art and architecture within their specific historical and cultural contexts.

Grading: Letter Graded

ARTH 187A - Art of the Italian Renaissance, Fifteenth Century

3 unit(s)

Early Renaissance art and architecture. Masaccio, Botticelli, Brunelleschi and Donatello.

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

ARTH 187B - Art of the Italian Renaissance, Sixteenth Century

3 unit(s)

High Renaissance and Mannerism in Italy. Leonardo, Michelangelo, Raphael and Titian.

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

ARTH 187C - The Art of Renaissance Venice

3 unit(s)

A study of Venetian art and its urban ideology, 11th through 18th century, emphasizing the great painters and architects of the Renaissance (Carpaccio, Bellini, Titian, Tintoretto and Veronese, Mauro Codussi, Sansovino and Palladio).

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

ARTH 188A - Northern Renaissance Fourteenth and Fifteenth Centuries

3 unit(s)

Survey of art of Netherlands, France and Bohemia from mid-fourteenth through fifteenth century. Principal artists covered include the Limbourg Brothers, Van Eyck, Van der Weyden, Memling and Fouquet. Emphasis on northern painting, manuscripts, tapestry traditions, iconography and social history of northern European art.

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

ARTH 188B - Northern Renaissance, Sixteenth Century

3 unit(s)

Survey of fifteenth and sixteenth century art of Netherlands, France and Germany. Principal artists covered include Bosch, Durer, Grunewald, Holbein and Bruegel. Emphasis on northern painting, printmaking traditions, iconography, social history of northern European art.

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

ARTH 189A - Baroque Art and Architecture in Europe

3 unit(s)

The art and architecture of Europe in the late 16th and 17th centuries. Broad trends and issues; artists such as Caravaggio, Bernini, Borromini, Vermeer, Rembrandt, Poussin, Mansart, Velazquez.

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

ARTH 189B - Global Baroque Art and Architecture

3 unit(s)

Art and architecture in the empires of Spain, Portugal and the Netherlands with a focus on painting, sculpture, and architecture, including the ways in which these artworks and artists circulated globally.

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

ARTH 190A - Art of the Nineteenth Century

3 unit(s)

Western Europe from Neoclassicism through Post-Impressionism including David, Delacroix, Goya, Manet, Monet, Cassatt, Cezanne, Van Gogh and Gauguin.

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

ARTH 190B - Early Modernist Art

3 unit(s)

Critical investigation of modern art from the 1880's (Post Impressionism) to World War I with an emphasis on painting and sculpture with some attention paid to architecture, photography, printmaking and design.

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

ARTH 190C - 20th Century Art: from Dada to Pop

3 unit(s)

Critical investigation of modernist art from World War I to the 1960s (from Dada to Pop art) with an emphasis on painting and sculpture but some attention paid to architecture, photography, printmaking and design.

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

ARTH 190D - German Art, 1800-2000

3 unit(s)

This course is an upper-division survey of historical figures, movements and developments in German art, architecture, aesthetics and design from the late Enlightenment to the present era.

Prerequisite(s): ARTH 70B or completion of Area Z or instructor consent

Grading: Letter Graded

ARTH 191A - Issues in Contemporary Art

3 unit(s)

A critical investigation of a theme which bears on the arts from mid-century to the present, looking closely at major artists and trends in order to understand their philosophies, objectives, styles, and contexts. Course is repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): ARTH 70B.

Grading: Letter Graded

ARTH 191B - Women in Art

3 unit(s)

Contributions made to Western culture by women involved in the arts from the Middle Ages to the present and the influence on art of attitudes held about women.

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

ARTH 191C - Contemporary Art in Mexico, the U.S., and Latin America

3 unit(s)

Contemporary Art in Mexico, the U.S., and Latin America. Includes Mexican modernism, social movements of post-revolutionary Mexico (1910-1940), and works influenced by the Chicano Civil Rights Movement (El Movimiento) in the United States (1960s-1990s) up to the present day.

Prerequisite(s): ARTH 70B or completion of Area Z or instructor consent

Grading: Letter Graded

ARTH 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ARTH 192A - Modern Design

3 unit(s)

History of design philosophy and practice from the Industrial Revolution to the present including Art Nouveau and Art Deco, the Bauhaus, International Style, Functionalism vs. Formalism, Post-Modern and Deconstructivism.

Prerequisite(s): ARTH 72, completion of Writing in the Disciplines (WID) course, or instructor consent.

Grading: Letter Graded

ARTH 192C - History of Interior Design

3 unit(s)

Survey of interior design through historical, political, social, economic, technological, and aesthetic factors that shape the built environment. Design will be analyzed formally and through parallel developments in the arts.

Prerequisite(s): ARTH 70B or ARTH 72, completion of Writing in the Disciplines (WID) course, or instructor consent.

Grading: Letter Graded

Cross-listed with DSIT 192C. Art and Art History is responsible for scheduling.
Sustainability Related - SDG 12: Responsible Consumption and Production

ARTH 193A - Worlds of Art and Culture

3 unit(s)

Focuses on the use of art images as primary sources for the study of cultural development in a globalized context and ways in which past cultures and their interactions influence the modern world.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

ARTH 193B - East Meets West in Art

3 unit(s)

Comparative study of Eastern and Western art. Emphasis on cross-fertilization. Historical and cultural backgrounds. Includes lectures, discussions and presentations. Research or art project and paper required.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ASIA 193B. Art and Art History is responsible for scheduling.

ARTH 194A - Art of China

3 unit(s)

Architecture, sculpture and painting in China from prehistoric times to the Republic.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ASIA 194A. Art and Art History is responsible for scheduling.

ARTH 195 - Art of Japan

3 unit(s)

Architecture, sculpture and painting in Japan from prehistoric times to Edo era.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ASIA 195. Art and Art History is responsible for scheduling.

ARTH 199 - Art History Capstone Seminar

3 unit(s)

This seminar explores art history as an academic discipline. Topics include: discovering subfields within art history; constructing art historical arguments; and the methods and practices of art history.

Prerequisite(s): ARTH 70A or ARTH 70C; ARTH 70B; ART 100W.

Grading: Letter Graded

ARTH 272 - Seminar in Renaissance Art

3 unit(s)

Directed group research in area of European art history of Renaissance period on topic designated by instructor. Research project required. Course is repeatable for up to 9 units of credit when course topic changes.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): At least two upper division art history courses or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ARTH 273 - Seminar in Baroque Art

3 unit(s)

Directed group research in area of European or Latin American art history of Baroque period on topic designated by instructor. Research projects required. Course is repeatable for up to 9 units of credit when course topic changes.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): At least two upper division art history courses or instructor consent.

Grading: Letter Graded

ARTH 274 - Seminar in Nineteenth Century Art

3 unit(s)

Directed group research in area of European or American art of nineteenth century on topic designated by instructor. Research projects required. Course is repeatable for up to 9 units of credit when course topic changes.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): At least two upper division art history courses or instructor consent.

Grading: Letter Graded

ARTH 275 - Seminar in Twentieth Century Art

3 unit(s)

Directed group research in area of European or American art of twentieth century on topic designated by

instructor. Research projects required. Course is repeatable for up to 9 units of credit when course topic changes.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): At least two upper division art history courses or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ARTH 277 - Seminar in Historiography

3 unit(s)

Directed group research in theories and methodologies of art history. Research projects required. Course is repeatable for up to 9 units of credit when course topic changes.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): At least two upper division art history courses or instructor consent.

Grading: Letter Graded

ARTH 291 - Graduate Problems in Art History

3 unit(s)

Independent studies on a focused research project.

Grading: Letter Graded

ARTH 298 - Master's Project

3 unit(s)

Advanced problems in research. Course may be repeated for a total of 6 units.

Course may be repeated for a total of 6 units.

Prerequisite(s): Advancement to candidacy for the Master's degree in Art.

Grading: Credit/No Credit/RP.

ARTH 299 - Master's Thesis

3 unit(s)

Advanced problems in research. Course may be repeated for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Advancement to candidacy for the master's degree in art.

Grading: Credit/No Credit/RP

ARTH 1290R - Culminating Experience Supervision

1 unit(s)

This course satisfies the requirement that all graduate students must remain enrolled during semesters in which they are working solely on their theses or projects, for which they have previously received but not cleared an RP grade.

Course may be repeated for credit for up to 20 units.

Prerequisite(s): Existing RP grade in a graduate-level thesis or project course

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Asian American Studies

AAS 1 - Introduction to Asian American Studies

3 unit(s)

Introductory examination of Asian Pacific Islander Desi/Americans (APID/A) through U.S.-national and transnational frameworks, concerned with contests over the production of racial knowledge, power, and citizenship and belonging. Develops an account of racialization beyond the black-white binary in the context of US war and empire in Asia and the Pacific Islands, settler colonialism, globalization, migration, and popular culture.

Satisfies F: Ethnic Studies.

Grading: Letter Graded

AAS 25 - The Changing Majority: Power and Ethnicity in America

3 unit(s)

Comparative and historical analysis of racial minorities. Focus on Euro American response to American Indians, Asian Americans, African Americans and Mexican Americans to provide understanding of minority experience in the U.S. as well as American culture.

Satisfies F: Ethnic Studies.

Grading: Letter Graded

Cross-listed with AFAM 25 / CCS 25. Chicana Chicano Studies is responsible for scheduling.

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

AAS 33A - Asian Americans in U.S. History I

3 unit(s)

Historical and political processes shaping U.S. culture, institutions and society from before European expansion to the Civil War. Focus on the roles of workers, immigrants, and people of color from a comparative perspective.

Satisfies D: Social Sciences.

Grading: Letter Graded

Note(s): Must complete the entire sequence (AAS 33A and AAS 33B) to satisfy American Institutions (US123).

AAS 33B - Asian Americans in U.S. History II

3 unit(s)

Historical and political factors that shaped U.S. culture, institutions and society from the mid-nineteenth century to the current era. Focus on experiences of Asian Americans as well as other immigrants and people of color.

Satisfies D + US123: Social Sciences and American Institutions.

Grading: Letter Graded

Note(s): Must complete the entire sequence (AAS 33A and 33B) to satisfy American Institutions (US123).

AAS 125 - Filipino Experience in the United States

3 unit(s)

Filipinos in the United States beginning with immigration and culminating with analysis of past and contemporary issues facing Filipino Americans.

Grading: Letter Graded

AAS 158 - Asian American Intersections

3 unit(s)

Intermediate, breadth-focused study of how Asian American experiences overlap with other axes of social differentiation such as gender, sexuality, class, citizenship, ability, and/or religion. Focus may differ by instructor.

Prerequisite(s): AAS 1 or AAS 33B; Upper-division standing, or instructor consent.

Grading: Letter Graded.

AAS 159 - Asian American Media Representation and Popular Culture

3 unit(s)

Considers how popular culture provides us with the scripts to practice femininities, masculinities, and sexualities, and how these practices are infused with race and class. Examines how we exchange knowledge about race and gender through popular culture. Includes a historical survey of Asian American popular representation, beginning with ideas of orientalism and colonialism and concluding with the current digital age. Reviews how changing political, social, and cultural discourses have affected Asian American participation in media production, and how these forces have shaped media representations of Asians. Discusses the influence of form, content, funding, and circumstances of production on how these films, videos, and digital media works came to be.

Satisfies F: Ethnic Studies.

Grading: Letter Graded

Note(s): While this course is open to all undergraduate students including freshmen, this is an upper division course best suited for sophomore, junior or senior level students.

AAS 170 - Special Topics in Asian American Studies

3 unit(s)

Focus varies each semester and is announced in the schedule of classes. Repeatable for credit with program coordinator approval.

Grading: Letter Graded

AAS 175 - Asian American Communities

3 unit(s)

Asian American demography, institutions and contemporary issues.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

AAS 180 - Individual Studies

1-4 unit(s)

Individual study and research.

Prerequisite(s): Not available to Open University Students.

Grading: Credit/No Credit

AAS 184 - Ethnic Studies Theory

3 unit(s)

Intermediate to advanced study of theories foundational to critical/comparative ethnic studies and Asian American studies as a scholarly field. Emphasis on analyzing systems and structural conditions of racism and dispossession that connect Asian Americans to Black, Indigenous, and other communities of color.

Prerequisite(s): AAS 1 and AAS 33B.

Grading: Letter Graded.

AAS 185 - Ethnic Studies Methodologies

3 unit(s)

Examination of historical and sociocultural perspectives of American ethnic and racial minorities in relation to knowledge production and research. Theoretical and methodological approaches to study of power and American ethnic and racial minorities.

Prerequisite(s): Upper division or Graduate/PBAC standing.

Grading: Letter Graded.

AAS 186 - Southeast Asian Diaspora in the US

3 unit(s)

Introduction to the field of critical refugee studies and Southeast Asian American studies. Focuses on the diasporic movements of people due to the Wars in Southeast Asia, popularly known as the "Vietnam War". Analyzes war, empire, militarism, and humanitarianism to better conceptualize a refugee epistemology. Examines how particular refugee subjects - Vietnamese, Cambodian, Lao, Hmong - negotiate their refugee status and stories via memory and cultural production.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

AAS 190 - Internship

1-4 unit(s)

On-site experience with an Asian American community organization. Regular class meetings scheduled to discuss knowledge, skills and ideas related to the internship experience. Repeatable for credit with program coordinator approval.

Prerequisite(s): AAS 33B or instructor consent.

Grading: Credit/No Credit

AAS 192 - History of Japanese Americans

3 unit(s)

The Japanese in America from approximately 1800. Includes relocation, wartime conditions, post-war history and contemporary situations.

Grading: Letter Graded

Asian Studies

ASIA 19 - Music in World Cultures

3 unit(s)

Introduction to music in various cultural contexts outside European classical tradition. Live performances, film, video tapes and slides. Projects involving related arts encouraged.

Satisfies C1: Arts.

Grading: Letter Graded

Cross-listed with MUSC 19. Music is responsible for scheduling.

ASIA 70C - Arts of Asia

3 unit(s)

Major trends in the art of China, India and Japan, as well as Southeast and Central Asia and Korea, from the Neolithic period to the twentieth century.

Satisfies C1: Arts.

Grading: Letter Graded

Cross-listed with ARTH 70C. Art and Art History is responsible for scheduling.

ASIA 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Letter Graded

Humanities is responsible for scheduling.

ASIA 102 - Chinese Culture

4 unit(s)

Traditional Chinese culture in light of contemporary values. Ideographs, folk tales, festivals, creeds and customs, myths and superstitions, opera and the arts, women, the art of living.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Note(s): Taught in English.

Cross-listed with CHIN 102. World Languages and Literatures is responsible for scheduling.

ASIA 104 - Asian Philosophy

3 unit(s)

Philosophical examination of Confucianism, Daoism, Buddhism and some other significant movements of thought originated in Asia. Comparison with Western philosophy.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with PHIL 104 / RELS 104. Philosophy is responsible for scheduling.

ASIA 109A - History of China

4 unit(s)

Traditional society from earliest times to 1800.

Prerequisite(s): Upper Division Standing
Grading: Letter Graded

Cross-listed with HIST 109A. History is responsible for scheduling.

ASIA 109B - History of China

4 unit(s)

China's revolutions and ongoing modernization.

Prerequisite(s): Upper division standing or instructor consent.
Grading: Letter Graded

Cross-listed with HIST 109B. History is responsible for scheduling.

ASIA 110A - History of Japan

4 unit(s)

Development of state and society from prehistoric times to 1750. Major topics include the controversy over the origins of the Japanese people; the adaptation of Chinese cultural, religious, and political models; the role of the emperor in state formation; the classical era of Japanese culture during the Heian period; the rise of the samurai elites; and the development of military rule under the shoguns.

Prerequisite(s): Upper division standing or consent of instructor.
Grading: Letter Graded

Cross-listed with HIST 110A. History is responsible for scheduling.

ASIA 110B - History of Japan

4 unit(s)

Since 1750 emphasizing the process of modernization.

Prerequisite(s): Upper division standing or instructor consent.
Grading: Letter Graded

Cross-listed with HIST 110B. History is responsible for scheduling.

ASIA 114 - Legacy of Asia

3 unit(s)

Interdisciplinary focus on continuity and change in China and India as these ancient civilizations responded to challenges throughout their history.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Grading: Letter Graded

Cross-listed with ANTH 114 / HUM 114 / RELS 114. Humanities is responsible for scheduling.

ASIA 115 - The Emerging Global Culture

3 unit(s)

Introduction to systems concepts and approach as a way to investigate the global impacts of industrial technology on political, economic, social and moral/psychological structures of humankind.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ANTH 115. Anthropology is responsible for scheduling.

Sustainability Related - SDG 9: Industry, Innovation and Infrastructure

ASIA 122 - English as a World Language

3 unit(s)

A survey of the ways and the purposes which English is used in diverse societies and cultures around the world, including the United States; implications for international and cross-cultural communication.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with LING 122. Linguistics and Language Development is responsible for scheduling.

ASIA 133B - Relationship Marketing: Pacific Rim

3 unit(s)

Why not use PacRim marketing methods in PacRim markets? Americans tend to be short-term, sales-oriented. Asians tend to be relationship oriented. Why not master both marketing methods? Focus: Launching a "start-up". Topics: PacRim forms of product-launch, sales presentation, negotiation, promotion, PacRim risks.

Prerequisite(s): BUS2 130.

Grading: Letter Graded

Cross-listed with BUS2 133B. Marketing is responsible for scheduling.

ASIA 140 - Chinese Culture and Politics Through Literature

3 unit(s)

Exploration of the interaction between culture, politics and literature as reflected in the contemporary (post-1949) narrative, poetry and drama of China, Taiwan and Hong Kong.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): Taught in English.

Cross-listed with CHIN 140. World Languages and Literatures is responsible for scheduling.

ASIA 142 - Contemporary Buddhism and its Roots

3 unit(s)

Teachings of Gautama, the Buddha and ways in which those teachings were modified in forms of Buddhism that followed: Theravada in southeast Asia and Mahayana in East Asia.

Prerequisite(s): Upper-division standing or instructor consent.

Grading: Letter Graded

Cross-listed with HUM 142 / RELS 142. Humanities is responsible for scheduling.

ASIA 144 - Chinese Traditions

3 unit(s)

Religious thought and practice of China's three Great Traditions (Buddhism, Taoism and Confucianism) as well as China's Little Tradition (Chinese folk religion). The role of these traditions within traditional Chinese culture and their relevance to the modern world, including China.

Prerequisite(s): Upper-division standing or instructor consent.

Grading: Letter Graded

Cross-listed with HUM 144 / RELS 144. Humanities is responsible for scheduling.

ASIA 145 - Asian Politics

4 unit(s)

Study of unfolding events in Asia. Themes include: the Asian economic 'miracle,' the implications of China's rise for international security, nuclear proliferation and terrorism, and sustainability; specifically, energy, environment and human rights.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with POLS 145. Political Science is responsible for scheduling.

Sustainability Related - SDG 7: Affordable and Clean Energy

ASIA 160 - East and South Asia

3 unit(s)

Geography of Eastern, Southeastern, and Southern Asia. Themes include environmental, historical, political, and economic geographies at the scales of the region, its countries, and selected cities. Particular emphasis

is given to comparing and analyzing the variable rates of economic progress across the region.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with GEOG 160. Geology is responsible for scheduling.

Sustainability Related - SDG 15: Life on Land

ASIA 177 - Anthropology of Asia

3 unit(s)

Sociocultural themes of selected Asia cultures. Covers cultural pluralism, intercultural contact, social organization, worldview and economic adaptations. Explores connections within the Pacific Rim, especially to the local region. Course is repeatable once for credit when different cultures are emphasized.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with ANTH 177. Anthropology is responsible for scheduling.

ASIA 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Humanities and the Arts is responsible for scheduling.

ASIA 193B - East Meets West in Art

3 unit(s)

Comparative study of Eastern and Western art. Emphasis on cross-fertilization. Historical and cultural backgrounds. Includes lectures, discussions and presentations. Research or art project and paper required.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ARTH 193B. Art and Art History is responsible for scheduling.

ASIA 194A - Art of China

3 unit(s)

Architecture, sculpture and painting in China from prehistoric times to the Republic.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ARTH 194A. Art and Art History is responsible for scheduling.

ASIA 195 - Art of Japan

3 unit(s)

Architecture, sculpture and painting in Japan from prehistoric times to Edo era.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ARTH 195. Art and Art History is responsible for scheduling.

Astronomy

ASTR 10 - Descriptive Astronomy

3 unit(s)

A generally non-mathematical examination of principles, facts and logic of astronomy, emphasizing arrangement, origin and evolution of the solar system.

Satisfies B1: Physical Science.

Grading: Letter Graded

ASTR 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ASTR 101 - Modern Astronomy

3 unit(s)

A principally non-mathematical discussion of current scientific observational and theoretical understanding of the origin and evolution of stars, galaxies and the cosmos.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all

SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

ASTR 117A - Astrophysics I

3 unit(s)

Physical and observational foundations of astronomy and astrophysics. Celestial coordinates, telescopes, astronomical observations, orbital motion, physics and chemistry of planetary systems; introduction to stellar physics. Computer models and simulations may be used.

Prerequisite(s): PHYS 52 and MATH 32 or MATH 32X with a "C-" or better, or instructor consent.

Grading: Letter Graded

ASTR 117B - Astrophysics II

3 unit(s)

Physics of stellar structure and evolution; observed properties of stars; physics and chemistry of the interstellar medium; galaxies and cosmology.

Prerequisite(s): PHYS 52 and MATH 31 or MATH 31X with a "C-" or better, or instructor consent.

Grading: Letter Graded

ASTR 155 - Topics in Modern Astrophysics

3 unit(s)

Topics vary each semester and may include observational and/or computational techniques. Course is repeatable for a total of 9 units.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): PHYS 52 with a C- or better, or instructor consent.

Grading: Letter Graded.

ASTR 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Athletics (Intercollegiate)

ATH 2I - Men's Baseball

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate men's baseball including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 2S - Men's Skills Development, Baseball

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate men's baseball. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 4I - Men's Basketball

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate men's basketball including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 4S - Men's Skills Development, Basketball

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate men's basketball. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 6I - Women's Basketball

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's basketball including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 6S - Women's Skills Development, Basketball

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's basketball. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 12I - Football

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate football including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 12S - Skills Development, Football

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate football. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 14I - Men's Golf

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate men's golf including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 14S - Men's Skills Development, Golf

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate men's golf. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 16I - Women's Golf

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's golf including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 16S - Women's Skills Development, Golf

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's golf. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 20I - Women's Gymnastics

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's gymnastics including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 20S - Women's Skills Development, Gymnastics

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's gymnastics. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 26I - Women's Tennis

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's tennis including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 26S - Women's Skills Development, Tennis

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's tennis. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 30I - Men's Soccer

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate men's soccer including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 30S - Men's Skills Development, Soccer

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate men's soccer. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 32I - Softball

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate softball including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 32S - Skills Development, Softball

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate softball. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 34I - Women's Swimming

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's swimming including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 34S - Women's Skills Development, Swimming

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's swimming. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 36I - Women's Volleyball

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's volleyball including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 36S - Women's Skills Development, Volleyball

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's volleyball. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 42I - Women's Cross Country

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's cross country including drills, assignments, film study, scrimmages and competitions not to exceed

20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 42S - Women's Skill's Development, Cross Country

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's cross country. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 44I - Women's Soccer

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's soccer including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 44S - Women's Skills Development, Soccer

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's soccer. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 46I - Women's Water Polo

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's water polo including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 46S - Women's Skills Development, Water Polo

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's water polo. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 48I - Men's Cross Country

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate men's cross country including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 48S - Men's Skills Development, Cross Country

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate men's cross country. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 50I - Women's Track & Field

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's track & field including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 50S - Women' Skills Development, Track & Field

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's track & field. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 52I - Men's Water Polo

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate men's water polo including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

ATH 52S - Men's Skills Development, Water Polo

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate men's water polo. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 54I - Men's Track & Field

1 unit(s)

Activities include mental and physical skill development for successful participation in NCAA intercollegiate men's track & field including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

ATH 54S - Men' Skills Development, Track & Field

1 unit(s)

Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate men's track & field. Approximately 8 hours per week.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

Audiology

AUD 501 - Acoustics and Instrumentation

3 unit(s)

Fundamentals of the physics of sound and techniques for measuring and analyzing sound and sound environments related to audiological practice.

Prerequisite(s): Matriculation into Doctor of Audiology Program.

Grading: Letter Graded

AUD 502 - Anatomy and Physiology

3 unit(s)

Anatomy and physiology of the auditory and vestibular systems, including outer ear, middle ear, and inner ear; embryologic origins and development of structures related to body systems.

Prerequisite(s): Matriculation into Doctor of Audiology Program.

Grading: Letter Graded

AUD 503 - Psychoacoustics

3 unit(s)

Psychoacoustic theory and methods; auditory perception in normal hearing and hearing-impaired listeners. Includes lab demonstrations and projects.

Prerequisite(s): Matriculation into Doctor of Audiology Program.

Grading: Letter Graded

AUD 504 - Audiological Assessment I

3 unit(s)

Evaluation of hearing using the standard audiological test battery (pure tone audiometrics, speech audiometry, acoustic immittance, and OAEs); differential diagnosis of hearing loss.

Prerequisite(s): Matriculation into Doctor of Audiology Program.

Grading: Letter Graded

AUD 505A - Professional Issues I

3 unit(s)

Topics related to the professional practice of audiology, including: the role of professional associations; scope of practice; code of ethics; HIPAA regulations; introduction to interprofessional practice; introduction to evidence-based practice. Clinical observations and experiences that underscore concepts will be included.

Prerequisite(s): Matriculation into the Doctor of Audiology Program.

Grading: Letter Graded.

AUD 505B - Professional Issues II

3 unit(s)

Topics related to the professional practice of audiology, including patient and family counseling; report writing; role of audiologist in the IEF/IFSP process.

Prerequisite(s): AUD 505A.

Grading: Letter Graded

AUD 505C - Professional Issues III

3 unit(s)

Interprofessional identification, diagnosis, and treatment of adults and children with hearing loss and other disabilities including seminar discussion and clinical practicum experience.

Prerequisite(s): Third year standing.

Grading: Letter Graded

AUD 505D - Professional Issues IV

2 unit(s)

Business practices in audiology, including billing and coding; practice management; interview strategies and processes for obtaining fourth year externships.

Prerequisite(s): Third year standing.

Grading: Letter Graded

AUD 505E - Professional Issues V

3 unit(s)

Cultural competency, multicultural issues.

Grading: Letter Graded

AUD 506 - Anatomy and Physiology of the Central Auditory Nervous System (CANS)

3 unit(s)

The organization and function of the central auditory nervous system (CANS), including the effects of hearing loss on brain organization. The relationship between visual/proprioceptive systems and hearing and balance also will be examined.

Prerequisite(s): AUD 502 and AUD 503.

Grading: Letter Graded

AUD 507 - Hearing Aids I

3 unit(s)

Electroacoustical characteristics of hearing aids and group amplification systems. Topics include signal processing strategies and software used by audiologists to provide audible, intelligible, and comfortable amplification. Devices used in specialized hearing aid fittings also will be examined.

Grading: Letter Graded

AUD 508 - Audiological Assessment II

3 unit(s)

Advanced concepts in tympanometry and otoacoustic emissions, and their role in the evaluation and differential diagnosis of hearing loss.

Prerequisite(s): AUD 504.

Grading: Letter Graded

AUD 509 - Practicum in Audiology

3 unit(s)

Placement in SJSU on-campus audiology clinic for supervised training in providing audiological services to the local community. May be repeated for credit.

Prerequisite(s): AUD 504 and AUD 505A.

Grading: Letter Graded

AUD 510A - Clinical Rotation in Audiology I

3 unit(s)

Supervised clinical practice in audiology at an on-campus or off-site location. Doctoral students are expected to become increasingly independent and knowledgeable about patient care with each subsequent placement.

Prerequisite(s): Successful completion of Fall and Spring year 1.

Grading: Letter Graded

AUD 510B - Clinical Rotation in Audiology II

3 unit(s)

Supervised clinical practice in audiology at an off-site location. Doctoral students are expected to become increasingly independent and knowledgeable about patient care with each subsequent placement.

Prerequisite(s): Second year standing.

Grading: Letter Graded

AUD 510C - Clinical Rotation in Audiology III

3 unit(s)

Supervised clinical practice in audiology at an off-site location. Doctoral students are expected to become increasingly independent and knowledgeable about patient care with each subsequent placement.

Prerequisite(s): Second year standing.

Grading: Letter Graded

AUD 510D - Clinical Rotation in Audiology IV

3 unit(s)

Supervised clinical practice in audiology at an off-site location. Doctoral students are expected to become increasingly independent and knowledgeable about patient care with each subsequent placement.

Prerequisite(s): Second year standing.

Grading: Letter Graded

AUD 510E - Clinical Rotation in Audiology V

3 unit(s)

Supervised clinical practice in audiology at an off-site location. Doctoral students are expected to become increasingly independent and knowledgeable about patient care with each subsequent placement.

Prerequisite(s): Third year standing.

Grading: Letter Graded

AUD 510F - Clinical Rotation in Audiology VI

3 unit(s)

Supervised clinical practice in audiology at an off-site location. Doctoral students are expected to become increasingly independent and knowledgeable about patient care with each subsequent placement.

Prerequisite(s): Third year standing.

Grading: Letter Graded

AUD 511 - Pediatric Audiology

3 unit(s)

Topics related to hearing loss in children, including common etiologies and syndromes; newborn hearing screening procedures; and behavioral and electrophysiological diagnostic tests.

Prerequisite(s): AUD 504.

Grading: Letter Graded

AUD 512 - Pediatric Auditory Habilitation

3 unit(s)

Topics related to the management of children diagnosed with hearing loss, including: interprofessional practices; early intervention; communication modalities; hearing aid selection, provision, orientation, and follow up; FM systems; introduction to cochlear implants; Deaf community.

Prerequisite(s): AUD 505B and AUD 507.

Grading: Letter Graded

AUD 513 - Research Methods

3 unit(s)

Design and analysis of research experiments, including the role of evidence-based practice in patient care.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Second year standing.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this doctoral program.

AUD 514 - Audiological Assessment III

3 unit(s)

Theoretical and applied aspects of electrophysiological testing, including: brainstem responses; middle-latency responses; and cognitive potentials.

Prerequisite(s): Second year standing.

Grading: Letter Graded

AUD 515 - Hearing Aids II

3 unit(s)

Selection, fitting, and verification methods for optimizing hearing aid use, satisfaction, and benefits.

Prerequisite(s): Second year standing.

Grading: Letter Graded

AUD 516 - Adult Auditory Rehabilitation

3 unit(s)

Topics related to the management of adults with hearing loss, including the impact of hearing loss on adults of all ages; diagnosis of handicap; communicative strategies; speechreading; individual and group therapy techniques.

Prerequisite(s): Second year standing.

Grading: Letter Graded

AUD 517 - Audiological Assessment IV

3 unit(s)

Theoretical and applied aspects of vestibular assessment, including the administration and interpretation of electronystagmography (ENG), rotation, and posturography.

Prerequisite(s): Second year standing.

Grading: Letter Graded

AUD 518 - Hearing Conservation

3 unit(s)

The effects of noise on hearing. Topics include definitions and measurement of occupational and recreational noise; changes in auditory physiology as a result of noise exposure; psychological effects of noise on function and productivity; federal and state regulations regarding workplace safety; and elements of hearing conservation programs (measurement; counseling; provision of ear protection).

Prerequisite(s): Second year standing.

Grading: Letter Graded

AUD 519 - Hearing Aids III

3 unit(s)

Advanced concepts in selecting, fitting, and verification of specialized hearing devices, including cochlear implants; middle-ear implants; assistive communication technologies for individuals with hearing loss.

Prerequisite(s): Second year standing.

Grading: Letter Graded

AUD 521 - Medical Audiology

3 unit(s)

Pathologies of the ear and medical diagnosis and treatment; interprofessional practice in the audiological and medical community.

Prerequisite(s): Second year standing.

Grading: Letter Graded

AUD 522 - Tinnitus

2 unit(s)

Etiology, diagnosis, and evidence-based treatments for patients with tinnitus.

Prerequisite(s): Second year standing.

Grading: Letter Graded

AUD 523 - Pharmacology

1 unit(s)

Principles and applications of pharmacology for audiologists.

Prerequisite(s): Second year standing.

Grading: Letter Graded

AUD 524 - Speech Perception and Language Development

3 unit(s)

Topics include normal speech and language development; effects of hearing loss on speech and language development; specialized tests of speech recognition in quiet and noise; and central auditory processing evaluation and treatment.

Prerequisite(s): Third year standing.

Grading: Letter Graded

AUD 525 - Genetics

1 unit(s)

Applications of genetics for audiologists, including syndromes involving the auditory and vestibular systems.

Prerequisite(s): Third year standing.

Grading: Letter Graded

AUD 526A - Clinical Externship in Audiology I

3 unit(s)

Full time clinical placement in an off-site facility. Placements coordinated by the Director of Clinical

Education.

Grading: Letter Graded.

AUD 526B - Clinical Externship in Audiology II

3 unit(s)

Full time clinical placement in an off-site facility. Placements coordinated by the Director of Clinical Education.

Grading: Letter Graded.

AUD 526C - Clinical Externship in Audiology III

3 unit(s)

Full time clinical placement in an off-site facility. Placements coordinated by the Director of Clinical Education.

Prerequisite(s): Fourth year standing; Successful completion of AUD 510E, AUD 526A, and AUD 526B.

Grading: Letter Graded.

AUD 598A - Research Project

2 unit(s)

Readings and discussion of topics in preparation for doctoral student research. A research question and its justification, as well as an outline of the intended experimental process, will be finalized.

Repeated for credit for 4 times for a total of 8 units.

Prerequisite(s): Second year standing.

Grading: Credit/No Credit/RP.

AUD 598B - Research Project II

2 unit(s)

Methodology for student research projects will be finalized and IRB approval obtained, if needed.

Prerequisite(s): AUD 598A.

Grading: Credit/No Credit/RP.

AUD 598C - Research Project III

2 unit(s)

Data collection and analysis for doctoral student research projects.

Prerequisite(s): AUD 598A and AUD 598B.

Grading: Credit/No Credit/RP.

AUD 598D - Research Project IV

2 *unit(s)*

Completion of student research projects; oral presentations.

Prerequisite(s): AUD 598A, AUD 598B, and AUD 598C.

Grading: Credit/No Credit/RP.

EDAU 115 - Hearing Science

3 *unit(s)*

Anatomy, physiology and psychoacoustics of the auditory system; theories of hearing and physics of sound.

Prerequisite(s): Communicative Disorders and Sciences major and upper division standing, or instructor consent.

Grading: Letter Graded

EDAU 170 - Introduction to Audiology

3 *unit(s)*

Theory and application of the fundamentals of pure tone and speech audiometric procedures and immittance measurements for identifying hearing loss and the differential diagnosis of peripheral auditory problems.

Prerequisite(s): EDAU 115 or instructor consent.

Grading: Letter Graded

EDAU 172 - Principles of Aural Rehabilitation

3 *unit(s)*

Principles and methods of aural rehabilitation procedures in adults and children. Components include treatment of listening, visual and oral communication skills; psychosocial aspects of hearing loss.

Prerequisite(s): EDAU 115 and EDAU 170.

Grading: Letter Graded

EDAU 177 - Practicum in Audiology

1-3 *unit(s)*

Supervised clinical experience in screening, testing and treatment of children and adults with hearing impairments.

Prerequisite(s): EDAU 170 and EDAU 172, or instructor consent.

Grading: Credit/No Credit

EDAU 273 - Aural Rehabilitation

3 *unit(s)*

Aural rehabilitative services and procedures for the hearing impaired. Emphasis on governmental agencies, community services, especially for adult and geriatric populations, school programs and the professional role and responsibilities of the audiologist.

Grading: Letter Graded

EDAU 298 - Special Studies

1-3 unit(s)

Supervised study in a specific field of audiology.

Prerequisite(s): Consent of area coordinator.

Grading: Mandatory Credit/No Credit/RP

Aviation

AVIA 1 - Introduction to the Aviation Industry

3 unit(s)

Career planning, paths, and opportunities within the aviation industry. Concepts and knowledge building blocks for any aviation professional, including: history of aviation; qualifications and privileges of aviation professionals; basics of aeronautics.

Grading: Letter Graded

AVIA 2 - Private Pilot Ground

3 unit(s)

Foundational concepts of aviation studies for professional pilots. Ground course for private pilot FAA certification. Aeronautics basics, weather, visual navigation, regulations, and operational environment for conducting flights under visual flight rules.

Pre/Corequisite(s): AVIA 1

Grading: Letter Graded

AVIA 3 - Introduction to Private Pilot Part 141 Flight

2 unit(s)

This course covers the FAA requirements leading up to the award of the FAA Private Pilot Certificate. The course consists of flight training segments in an FAA-approved FAR part 141 flight training program.

Prerequisite(s): AVIA 2

Grading: Credit/No Credit

AVIA 31 - Aircraft Theory and Design

3 unit(s)

Aerodynamics and aeroelastics force. Load analysis of flight vehicles. Aircraft design optimization, material selection along with, safe-life, fail-safe and damage tolerance in design.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): AVIA 2, PHYS 2A, MATH 71 or MATH 71X.

Pre/Corequisite(s): PHYS 2B.

Grading: Letter Graded

AVIA 42 - Aircraft Systems

3 unit(s)

Operational and analytical aspects of key aircraft systems such as propulsion, flight control, electrical, and hydraulic. Reliability and maintainability concepts related to the design of aircraft systems. Emphasis is placed on general aviation aircraft.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): AVIA 1 or AVIA 2 , PHYS 2A.

Pre/Corequisite(s): PHYS 2B

Grading: Letter Graded

AVIA 43 - Propulsion Theory

3 unit(s)

Propulsion theory of piston engines. Aircraft fuel systems and components. Fundamental systems, maintainability, and reliability methods. Aviation regulations related to engines. Maintenance cycles for engines and components.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): AVIA 1 or AVIA 2 , PHYS 2A.

Pre/Corequisite(s): PHYS 2B.

Grading: Letter Graded

AVIA 62 - Instrument Pilot Ground

3 unit(s)

Flight procedures, radio navigation, air traffic control, use of instrument charts. Flight simulator exercises on instrument flight maneuvers, departure and approach procedures.

Prerequisite(s): AVIA 2.

Grading: Letter Graded

AVIA 63 - Instrument Rating Part 141 Flight

2 unit(s)

This course covers the FAA requirements leading up to the award of the FAA Instrument Rating Certificate. The course consists of 29 instrument flight training segments in an FAA approved FAR part 141 instrument flight training program.

Prerequisite(s): AVIA 3 or FAA Private Pilot Certificate, AVIA 73

Grading: Credit/No Credit

AVIA 68 - Avionics and Airborne Communication

3 unit(s)

Communications and navigation systems installed on a typical general aviation aircraft. History of avionics. Laboratory exercises will include field-testing and airworthiness evaluation.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Pre/Corequisite(s): AVIA 42.

Grading: Letter Graded

AVIA 73 - Air Traffic Control

3 unit(s)

Air Traffic Control System Structure and Communications. Current configuration and future design of the National Airspace System. Oceanic and International Air Traffic Control. Automation issues and Emerging Technologies.

Prerequisite(s): AVIA 1 or AVIA 2.

Grading: Letter Graded

AVIA 78 - Introduction to Aviation Management

3 unit(s)

History and fundamentals of aviation management. Pilot relations to Fixed Base Operators (FBOs). Overview of aviation human resources; basics of aviation maintenance and risk management. Basic financial management analysis.

Grading: Letter Graded

AVIA 91 - Aircraft Turbine Engines

3 unit(s)

A study of gas turbine fundamentals, including various gas turbine cycles, components and component efficiency, thrust, specific fuel consumption, duct flow and inlet diffuser, centrifugal and axial compressors, combustion chambers and jet nozzles for aircraft propulsion.

Prerequisite(s): AVIA 43.

Grading: Letter Graded

AVIA 110 - Aviation Weather

3 unit(s)

Introduction to meteorology with emphasis on aviation applications. Causes of weather, characteristics of common weather phenomena, and climatology. Aviation weather resources and reporting, and weather briefings in relation to visual and instrument meteorological conditions for flying.

Prerequisite(s): AVIA 73, AVIA 78

Grading: Letter Graded

AVIA 112 - Commercial Pilot Ground

3 unit(s)

Material necessary for the FAA requirements leading up to the award of the FAA Commercial Pilot Certificate. Formatted as a ground school and covers the aeronautical knowledge requirements for the Commercial Pilot Knowledge Test.

Prerequisite(s): AVIA 31, AVIA 42, and AVIA 91.

Grading: Letter Graded

AVIA 113 - Commercial Professional Pilot Part 141 Flight

2 unit(s)

This course covers the FAA requirements leading up to the award of the FAA Commercial Pilot Certificate. The course consists of 58 flight training segments in an FAA approved FAR part 141 flight training program.

Prerequisite(s): FAA Private Pilot Certificate

Corequisite(s): AVIA 112

Grading: Credit/No Credit

AVIA 114 - Certified Flight Instructor Preparation

3 unit(s)

A comprehensive ground school training course to prepare students to teach those seeking Recreational, Private, Commercial pilot certification, and to satisfactorily meet the requirements to pass the FAA Knowledge Exam FAR 61.185(a)(1) - Fundamentals of Instructing and FAR 61.185(a)(2) Flight/Ground Instructor.

Pre/Corequisite(s): AVIA 112

Grading: Letter Graded

AVIA 116 - Aircraft Multi-Engine Land Rating

1 unit(s)

Introduction to the Private and Commercial Aircraft Multi/Engine Land Airman Certification Standard (ACS) to evaluate performance. Designed to provide and prepare aviation students for an aircraft Multi-Engine Land Rating to a Private/Commercial Certificate.

Prerequisite(s): AVIA 2, AVIA 62.

Corequisite(s): AVIA 113.

Grading: Letter graded.

AVIA 128 - Aviation Safety and Security

3 unit(s)

Safety in aviation design, operation, and maintenance; hazardous materials; airport environment issues; security regulations for aviation.

Prerequisite(s): AVIA 1 or AVIA 2.

Grading: Letter Graded

Sustainability Related - SDG 9: Industry, Innovation and Infrastructure

AVIA 129 - Aviation Cybersecurity

3 unit(s)

Fundamentals of cybersecurity and cyber risk management in aviation industry related to communication of information between aircraft and air traffic control and ground services. Impact of cyber attacks on flight data

and safety. Implementation of cyber security in aviation.

Prerequisite(s): AVIA 78, AVIA 128.

Grading: Letter graded.

AVIA 141 - Human Factors in Aviation

3 unit(s)

Effects of time zone changes, sleep disruption, drugs on pilot performance. Role of FAA inspectors, physicians, cabin attendants, unions. Cockpit crew coordination; pilot psychology; aviation safety and accident investigation. Experimental avionics.

Prerequisite(s): AVIA 73, AVIA 78

Grading: Letter Graded

AVIA 150 - Unmanned Aerial Systems

3 unit(s)

Introduction to Unmanned Aerial Systems (UAS). Overview of UAS classes and typical UAS missions. Application of sensors/payload analysis, basic design concepts, current regulations in the U.S., and mishaps examination.

Prerequisite(s): AVIA 31 or Instructor Consent

Grading: Letter Graded

AVIA 160 - Aircraft Dispatch

3 unit(s)

Students will practice actual flight preparations as an aircraft dispatcher. Preparing students for the FAA certification as an Aircraft Dispatcher. Areas of instruction to include weather, performance data, weight and balance calculations, special conditions encountered in flight planning.

Prerequisite(s): AVIA 73 and AVIA 78, or instructor consent.

Grading: Letter Graded.

AVIA 173 - Aviation Law

3 unit(s)

Law and legal issues in aviation from both a national and international perspective. Rights and responsibilities of individuals, organizations, and the aviation community. Regulations and liability pertaining to the design, manufacture, operation and maintenance of aircraft.

Prerequisite(s): AVIA 78.

Grading: Letter Graded

AVIA 176 - Airline Operations and Management

3 unit(s)

Aspects of managing air transportation companies. Integration of technical, environmental, market and regulatory considerations in the decision-making process in airline management. Future planning techniques.

Prerequisite(s): AVIA 78
Grading: Letter Graded

Sustainability Related - SDG 9: Industry, Innovation and Infrastructure

AVIA 177 - General Aviation Operations and Management

3 unit(s)

Aspects of managing general aviation companies, such as the structure of the general aviation industry, supply and demand of products, and technical and regulatory constraints.

Prerequisite(s): AVIA 1 or AVIA 2.
Grading: Letter Graded

AVIA 178 - Airport Planning and Management

3 unit(s)

Design, planning, and management of airports in the US including airport development and airport design. Legal responsibilities as an airport manager. Issues and regulations applicable to airport planning and management.

Prerequisite(s): AVIA 78.
Grading: Letter Graded

AVIA 179 - Advanced Airport Planning and Management

3 unit(s)

Noise generation and abatement. Leasing and property management including the impact of federal regulations. Concession planning. Use of technology to increase efficiency and security in airports.

Prerequisite(s): AVIA 178.
Grading: Letter Graded

AVIA 180 - Individual Studies

1-3 unit(s)

Special topics by arrangement. Course is repeatable for a maximum of 3 units.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): Aviation majors or minors after advisor consultation and department chair approval.
Grading: Credit/No Credit

AVIA 180H - Individual Studies

1-2 unit(s)

Individual honors studies by arrangement. Course is repeatable for maximum of 2 units.

Course may be repeated for credit for up to 2 units.

Prerequisite(s): Acceptance into Aviation Honors Program.

Grading: Credit/No Credit

AVIA 190 - Senior Capstone Seminar

3 unit(s)

Current industry analysis and career development; leadership skills for an aviation professional. Aviation standard procedures. Ethical principles for Aviation. Student projects related to Aviation major.

Prerequisite(s): Graduating senior, major form completed.

Grading: Letter Graded

AVIA 192I - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

AVIA 193 - Aerodynamics

3 unit(s)

Aerodynamic forces involved in an airplane in flight. Fundamental flowing gas, incompressible and compressible flow, Bernoulli's Principles, circulation forces, boundary layer, airfoils, measurement methods, laminar and turbulent flow, force and vortex interactions.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): PHYS 2A, MATH 71 or MATH 71X, AVIA 31.

Grading: Letter Graded

AVIA 194 - Advanced Aircraft Systems

3 unit(s)

Operations of avionics as found on modern general aviation aircraft and turboprop/turbofan aircraft. Major systems used on general aviation aircraft including GPS, FMS, navigation systems, fuel systems, hydraulic systems, environmental systems, landing gear.

Prerequisite(s): AVIA 42, AVIA 43.

Grading: Letter Graded

AVIA 195 - Internship with the Aviation Industry

1-6 unit(s)

Practical experience with aviation industry under direct supervision of aviation professionals. Experience will relate to air carrier or general aviation aircraft operation/management/maintenance, fixed-based operation

management and/or airport operation/management. Course is repeatable for a maximum of 12 units.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Junior standing and instructor consent.

Grading: Credit/No Credit

AVIA 198 - Aviation and Human Civilization

3 unit(s)

Critical analysis of the role of aviation in human civilization focusing on cultures outside the US and how their development impacted US practices. Topics include: aviation early history; impact of aviation on global economy; gender disparity in the field.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

AVIA 199A - Special Topics in Aviation Management

3 unit(s)

Special topics in Aviation Management. Content varies from semester to semester. Course is repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

AVIA 199B - Special Topics in Aviation Operations

3 unit(s)

Special topics in Aviation Operations. Content varies from semester to semester. Course is repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Biological Sciences

BIOL 10 - The Living World

3 unit(s)

Provides students with an understanding of the most fundamental concepts of modern biology including ecology (the interaction between organisms and their environment), human inheritance, the structure and function of living organisms, evolution, strategies for survival and reproduction, and biotechnology.

Satisfies B2: Life Science.

Grading: Letter Graded

Note(s): Not an elective in the department majors.

Sustainability Related - SDG 15: Life on Land

BIOL 20 - Ecological Biology

3 unit(s)

Introduction to diversity, ecology, evolution and behavior. In conjunction with BIOL 21 a more complete survey of biology.

Misc/Lab: Lecture 2 hours/lab 3 hours/field trips.

Satisfies B2 + B3: Life Science & Lab.

Grading: Letter Graded

Note(s): Not an elective in the department majors.

BIOL 21 - Human Biology

3 unit(s)

Introduction to physiology, reproduction, development, heredity and aging. With BIOL 20 a more complete survey of biology.

Misc/Lab: Lecture 2 hours/Lab 3 hours.

Satisfies B2 + B3: Life Science & Lab.

Grading: Letter Graded

Note(s): Not an elective in the department majors.

BIOL 30 - Principles of Biology I

4 unit(s)

Cellular and physiological aspects of biological diversity. Concepts include: biomolecules, cellular structures/function, cell-cell communication, cellular energetics, molecular evolution, gene expression, enzymes, and animal physiological systems.

Misc/Lab: Lecture 3 hours/Lab 3 hours.

Satisfies B2 + B3: Life Science & Lab.

Prerequisite(s): Writing Enrollment Group W-I or W-II, or ENGL 1AF with a grade of CR, or ENGL 1A with a grade of C- or better; Math Enrollment Group M-I or M-II, or completion of a GE Area B4 course. Must be majoring in Biology (all), Biomedical Eng, Biochemistry, ENVS (all), Forensic Science (all), Nutritional Science, Meteorology-CS, Kinesiology, Computer Science, and Communicative Disorders.

Grading: Letter Graded

BIOL 31 - Principles of Biology II

4 unit(s)

The diversity of life and the mechanisms by which that diversity has arisen. Concepts include: scientific method, origins of life, adaptation of organisms to different environments, ecology, and evolution.

Lecture 3 hours/Lab 3 hours

Satisfies B1 + B3: Physical + Lab Science.

Prerequisite(s): BIOL 30 (with a grade of "C-" or better for all Biology majors). Must be majoring in Biology (all), Biomedical Eng, Biochemistry, Forensic Science (all), Environmental Studies (all), Nutritional Science, Meteorology - Climate Science Concentration, Kinesiology, Computer Science, and Communicative Disorders.

Grading: Letter Graded.

BIOL 54 - Human Understanding

3 unit(s)

Major issues in health and disease, learning and memory, maturation and aging (such as diet, exercise, mind-body medicine, and addictions). Emphasis on learning how to understand and apply physiologic information for personal growth and lifelong learning.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

BIOL 55 - Biostatistics

3 unit(s)

Introductory experimental design and statistical analysis of biological data from manipulated experiments. Experience in designing and analyzing experiments utilizing both univariate and multivariate tests.

Lecture 2 hours/Lab 3 hours

Prerequisite(s): BIOL 30 or BIOL 31 with a grade of C- or better, or instructor consent. Must be a declared Biology Major (all) or Environmental Studies Major (all).

Grading: Letter Graded

BIOL 65 - Human Anatomy

4 unit(s)

Introductory study of gross and microscopic human anatomy including corresponding pathology. For majors in nursing and kinesiology.

Misc/Lab: Lecture 3 hours/lab 3 hours.

Satisfies B2 + B3: Life Science & Lab.

Grading: Letter Graded

Note(s): Not an elective in the department majors.

BIOL 65O - Human Anatomy

4 unit(s)

Introductory study of gross and microscopic human anatomy including corresponding pathology. For majors in nursing and kinesiology. This online anatomy course is not intended for students pursuing degrees in kinesiology, recreation (therapeutic recreation) or to meet the anatomy prerequisite for occupational therapy at SJSU. Students who intend to transfer the human anatomy course to another institution which requires an "in class" lab should enroll in BIOL 65.

Misc/Lab: Lecture 3 hours/lab 3 hours.

Satisfies B2 + B3: Life Science & Lab.

Grading: Letter Graded

Note(s): Not an elective in the department majors.

BIOL 66 - Human Physiology

5 unit(s)

Explanation of physiological principles from the molecular and cellular-levels to organ systems. Neural and endocrine controls and integration among systems. Health care orientation.

Misc/Lab: Lecture 3 hours/lab 3 hours/seminar 1 hour.

Satisfies B2 + B3: Life Science & Lab.

Prerequisite(s): High school algebra. Recommended: Human Anatomy, CHEM 30A.

Grading: Letter Graded.

Note(s): Not an elective in the major departments. A grade of "C-" or better is required to earn B2 and B3 Intensive Science GE credit.

BIOL 100W - Scientific Communication Workshop

3 unit(s)

Analysis and communication of scientific research to both scientific and general audiences. Satisfies upper division writing requirement.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability + Writing in the Disciplines (WID).

Prerequisite(s): BIOL 30 and BIOL 31 (with grades of "C-" or better); A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level. Allowed Declared Majors: Biology (all).

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

BIOL 101 - Origins of Life

3 unit(s)

Process of evolution, fossil evidence for life origins, and the place of humans in nature.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): Not an elective in the Biological Sciences Department majors.

BIOL 105 - Principles of Developmental Biology

3 unit(s)

Emphasis on human development. Other animal systems (fly, frog, chick, mouse) will also be studied to aid in understanding anatomical, physiological, genetic and molecular mechanisms operating during gametogenesis, fertilization, cleavage, gastrulation and organogenesis.

Prerequisite(s): BIOL 30 and BIOL 31 (with a grade of "C-" or better in each), or instructor consent; BIOL 115 (with a grade of "C" or better). Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 106 - Physiological Ecology

3 unit(s)

Study of the interaction of an organism with its environment. Looking at both plants and animals, students examine how both structure and function interact to enable an organism to survive under particular environmental conditions.

Prerequisite(s): BIOL 115 or BIOL 118 (with a grade of C or better); BIOL 100W; CHEM 8 or CHEM 112A and CHEM 112B (with a grade of C- or better), upper division standing, or instructor consent. Must be a declared major in Biological Sciences; other majors with instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 15: Life on Land

BIOL 106L - Physiological Ecology Lab

1 unit(s)

Experimental labs that illustrate/demonstrate key physiological concepts of plant and animal adaptations to their environment, as discussed in the lecture section, BIOL 106 - Physiological Ecology.

3 hours lab.

Prerequisite(s): BIOL 115 or BIOL 118 (with a grade of C or better); BIOL 100W; CHEM 8 or CHEM 112A and CHEM 112B (with a grade of C- or better); upper division standing, or instructor consent. Must be a declared major in Biological Sciences; other majors with instructor consent.

Corequisite(s): BIOL 106.

Grading: Letter Graded.

BIOL 107 - Immunology

3 unit(s)

Provides information about all areas of immunology with emphasis on the basic concepts of immune mechanisms of the acquired and innate immune systems. Uses the basic information to study immune disorders and the immune response to infectious agents.

Prerequisite(s): MICR 101 (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 107L - Immunology Laboratory

2 unit(s)

The experiments in this beginning immunology laboratory are designed to study both the innate and acquired immune systems. Experimentation into the formation, function and detection of antibodies provides students with skills in basic immunologic techniques. Flow cytometry is used in identification of immune cells as well as functional assays of complement mediated phagocytosis.

Lab 3 hours.

Prerequisite(s): Must be a declared Biology Major (all).

Pre/Corequisite(s): BIOL 107 or instructor consent.

Grading: Letter Graded

BIOL 109 - Human Neuroanatomy and Physiology

4 unit(s)

Gross and microscopic structure and function of the human nervous system. Introduction to experimental and clinical techniques.

Misc/Lab: Lecture 3 hours/lab 3 hours.

Prerequisite(s): BIOL 65 or instructor consent

Grading: Letter Graded

Note(s): Not an elective in the department majors.

BIOL 110 - Biodiversity and Biopolitics

3 unit(s)

Application of ecological principles to the conservation of biodiversity and the management of ecosystems. Analysis of biological, economic, social and political interrelationships involved in conservation.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): Not an elective in the Biological Sciences Department majors.

Sustainability Focused - SDG 15: Life on Land

BIOL 111 - Fire Ecology

4 unit(s)

Fire is a fundamental ecological process in many terrestrial ecosystems. Examination of fire ecology and ecologically-based management of a variety of ecosystems.

Lecture 2 hours/Lab 6 hours.

Prerequisite(s): Any GE Area B1 or B2 class. Biology major (all) or Wildfire Science minor. Other majors considered with instructor consent.

Grading: Letter Graded

BIOL 113 - Principles of Systematics

3 unit(s)

Students gain the understanding and skills needed to taxonomically study biodiversity, including the use of morphological and DNA sequence characters to examine phylogeny, and use of a range of biodiversity research techniques and tools.

Prerequisite(s): BIOL 115 or BIOL 118 (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with BOT 113 / ENT 113 / ZOOL 113. Biological Sciences is responsible for scheduling.

BIOL 114 - Functional Morphology

3 unit(s)

Develops understanding and skills needed to taxonomically study biodiversity, including the use of morphological and DNA sequence characters to examine phylogeny, and use of a range of biodiversity research techniques and tools.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 115 or BIOL 118 (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with BOT 114 / ENT 114 / ZOOL 114. Biological Sciences is responsible for scheduling.

BIOL 115 - General Genetics

4 unit(s)

Principles and methods of microbial, plant and animal genetics. Mendelism, cytogenetics, molecular genetics, mutation, quantitative genetics and genetic aspects of evolution.

Lecture 3 hours/Discussion 1 hour.

Prerequisite(s): BIOL 30 and BIOL 31 (with a grade of "C-" or better in each), or instructor consent; CHEM 1A and CHEM 1B (with a grade of "C" or better in each). Must be a declared Biology (all) or Chemistry (all) or Forensic Science (Biology concentration only) major.

Grading: Letter Graded

BIOL 116 - Molecular Genetics

4 unit(s)

Molecular genetics of eukaryotes. Replication, repair, mutation, regulation of gene expression, gene organization and methods of recombinant DNA research.

Prerequisite(s): BIOL 115 or MICR 166, and CHEM 135 (all with a grade of "C" or better). Must be a declared Biological Sciences BS, Molecular Biology concentration major. Other Biological Sciences majors must get instructor consent.

Corequisite(s): BIOL 116L.

Grading: Letter Graded

BIOL 116L - Molecular Genetics Laboratory

3 unit(s)

Lab experience in modern molecular biology techniques used in research and industry settings. Techniques may include nucleic acid purification, enzymatic modification of nucleic acids, recombinant DNA cloning, PCR, Quantitative PCR, bacterial transformation and culture, agarose gel electrophoresis. The techniques chosen depend upon the course instructor.

Lecture 1 hours/Lab 6 hours.

Corequisite(s): BIOL 116, and must be a declared Biological Sciences BS, Molecular Biology concentration major. Other Biological Sciences majors must get instructor consent.

Grading: Letter Graded

BIOL 117 - Human Genetics

3 unit(s)

Mendelian traits, classical and molecular cytogenetics, DNA variation, sex determination, gene mapping, mutation, population genetics, multifactorial inheritance, genetic counseling and prenatal diagnosis.

Prerequisite(s): BIOL 115 (with a grade of "C" or better). Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 118 - Evolution

4 unit(s)

An analysis of the patterns and processes of biological evolution. Topics include: history and philosophy of evolutionary thought; macroevolution and biogeography; selection, adaptation, and other forces; sexual selection and behavior; genetics, genomics, and the molecular basis of evolution.

Lecture 3 hours/Seminar 1 hour.

Prerequisite(s): BIOL 30 and BIOL 31 (with a grade of "C-" or better in each for Biology Majors). Must be a declared Biology or Chemistry Major (all).

Grading: Letter Graded

Sustainability Related - SDG 15: Life on Land

BIOL 119 - Neurogenetics

3 unit(s)

Cellular and molecular neuroscience at the neuron, synapse and circuit level, including electrical and chemical signaling. Neurophysiology of development, maintenance and modification of neural circuits. Molecular genetics of neurological disorders such as autism, schizophrenia, Alzheimer's disease, and mood disorders.

Prerequisite(s): BIOL 115 (with a grade of "C" or better). Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 122 - Bacterial Diversity

2 unit(s)

Study of the characteristics and microecology of unusual prokaryotes. Molecular and traditional approaches will be discussed.

Prerequisite(s): MICR 101 (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with MICR 122. Biological Sciences is responsible for scheduling.
Sustainability Related - SDG 15: Life on Land

BIOL 122L - Bacterial Diversity Laboratory

2 unit(s)

Laboratory techniques in bacterial diversity.

6 hours Lab

Prerequisite(s): MICR 101 (with grade of "C" or better) or Instructor Consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with MICR 122L. Biological Sciences is responsible for scheduling.

BIOL 123A - Bioinformatics I

3 unit(s)

Introduction to algorithms, tools, and databases of Bioinformatics. Biological foundations: central dogma; sequence databases; pairwise alignment algorithms and tools; Blast; phylogenetics. Possible additional topics: protein structure, multiple sequence alignment, next-gen sequencing, epigenetics, CRISPR. Project applying these approaches to real-world problems.

Prerequisite(s): CS 46B or BIOL 31, or instructor consent; Allowed Majors: Computer Science, Data Science, Software Engineering, Biology, Chemistry or MS Bioinformatics.

Grading: Letter Graded

Cross-listed with CS 123A / SE 123A. Computer Science is responsible for scheduling.

BIOL 123B - Bioinformatics II

3 unit(s)

Advanced Bioinformatics algorithms, tools, databases. Biological background; protein structure/function; sequencing technology; sequence identification; transcriptomics; metagenomics; CRISPR. Possible additional topics: functional genomics; protein networks; drug discovery; pathway analysis; immunoinformatics; analysis pipelines; machine learning applications. Project applying advanced approaches to real-world problems.

Prerequisite(s): CS 123A / BIOL 123A / SE 123A; Allowed Majors: Computer Science, Data Science, Software Engineering, Biology, Chemistry or MS Bioinformatics.

Grading: Letter Graded

Cross-listed with CS 123B / SE 123B. Computer Science is responsible for scheduling.

BIOL 124 - Systems Physiology

3 unit(s)

Physiology of organ systems with emphasis on the human. Neural & hormonal communication, muscle, cardiovascular, respiratory, urinary, digestive, endocrine, and reproductive physiology.

Prerequisite(s): BIOL 115; PHYS 2A, PHYS 2B ; CHEM 112A; All courses with a "C- or better". Must be a declared Biology Major (all).

Corequisite(s): BIOL 125 highly recommended.

Grading: Letter Graded

BIOL 125 - Systems Physiology Laboratory

2 unit(s)

Selected lab units to demonstrate complex physiological mechanisms and the physiology of organ systems. Methods include animal experiments and physiological recording and stimulation.

Lab 6 hours.

Prerequisite(s): Must be a declared Biology Major (all).

Pre/Corequisite(s): BIOL 124 (with grade of "C-" or better), or instructor consent.

Grading: Letter Graded

BIOL 129 - Neuroscience

3 unit(s)

Principles of brain organization and function underlying behavior. Topics include neuroanatomy and physiology of language, vision, sexual behavior, memory and abnormal behavior.

Prerequisite(s): Either PSYC 30 and 3 units of biology, or 9 units of biology.

Grading: Letter Graded

Note(s): Not acceptable as an elective in the Biology major.

Cross-listed with PSYC 129. Psychology is responsible for scheduling.

BIOL 131 - Endocrine Physiology

3 unit(s)

Emphasis on mammalian systems. Mechanisms of hormone action, secretion and physiological effects; hormone assay techniques.

Prerequisite(s): BIOL 124 (with grade of "C-" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 134 - Vertebrate Histology

4 unit(s)

Light and electron microscopic structure of vertebrate tissues with consideration of related functions. Emphasis on the examination of human tissues including corresponding pathology.

Lecture 2 hours/Lab 6 hours.

Prerequisite(s): BIOL 124 (with grade of "C-" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 135A - Eukaryotic Cell and Molecular Biology I

3 unit(s)

First semester of a year-long cell and molecular biology course. Topics include membrane structure, signal transduction, cytoskeletal structure, cell migration, and gene expression.

Prerequisite(s): BIOL 115, CHEM 112A, CHEM 112B, and CHEM 135 (with a grade of "C" or better in each). Must be a declared Biology major.

Grading: Letter Graded

BIOL 135B - Eukaryotic Cell and Molecular Biology II

3 unit(s)

BIOL 135B is the second semester of a year-long cell and molecular biology course. Topics covered include chromosome structure and maintenance, stem cell biology, cell death, and cancer biology.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): BIOL 115; BIOL 135A; BIOL 100W (with a grade of "C" or better in each). Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 135L - Molecular Cell Biology Lab

3 unit(s)

Lab experience in nucleic acid and protein purification, enzyme assay, bacterial and mammalian cell culture, immunofluorescence, column chromatography, agarose and polyacrylamide gel electrophoresis, spectrophotometry, light microscopy, etc.

Lecture 1 hour/Lab 6 hours.

Prerequisite(s): BIOL 135A (with grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 136 - Vertebrate Neurophysiology

3 unit(s)

Review of topics from the molecular to the organismal level. Chemical and electrotonic phenomena of membranes, neurochemistry, sensory transduction, information coding, neural control, and additional rotating topics.

Prerequisite(s): BIOL 124 (with a grade of "C-" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 136L - Vertebrate Neurophysiology Laboratory

1 unit(s)

Course-based undergraduate research experience using electrophysiological techniques to study nervous system function. Topics include chemical and electrotonic phenomena of membranes, information coding, and additional rotating topics.

Lab 3 hours.

Prerequisite(s): BIOL 124 with a C- or better.

Corequisite(s): BIOL 136. Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 137 - Introduction to Principles of Toxicology

3 unit(s)

Emphasis on basic principles of toxicology. Toxicity of several classes of compounds covered in depth. Focus on basic chemical principles and appropriate applications.

Course is repeatable for up to 3 units.

Prerequisite(s): BIOL 124; CHEM 112B (all with a grade of "C-" or better). Must be a declared Biology Major (all).

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

BIOL 138 - Stem Cell Biology

3 unit(s)

Topics in the growing field of stem cell biology. Topics include: properties of embryonic and adult stem cells, use of stem cells in scientific research, regulation of stem cells, and invertebrate and vertebrate models of stem cell research.

Prerequisite(s): BIOL 115 with a C or better. Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 139 - Cancer Biology

3 unit(s)

Basic principles of cancer biology needed to gain an overall understanding of cellular and molecular events that lead to the formation and progression of cancer. Topics include normal and abnormal cell behaviors, the steps leading to the development of malignancy, in-depth discussions of specific cancers, such as breast, colon, and myeloid leukemias, and the development of diagnostic tools and therapies.

Prerequisite(s): BIOL 115 with a C or better, or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 140 - Human Sexuality

3 unit(s)

Biological and sociocultural facets of human sexuality. Evolution and physiology of sex, reproductive biology/ethics and cross-cultural expression of sexual behavior.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): Not acceptable as an elective in the Biology major.

Cross-listed with ANTH 140 / PH 140. Anthropology is responsible for scheduling.

BIOL 142 - Paleontology

4 unit(s)

Study of the major groups of invertebrate and vertebrate fossils and their use in the study of geology, paleoecology, and macroevolution.

Lecture 3 hours/lab 3 hours and field trips.

Prerequisite(s): GEOL 1 and GEOL 7, or instructor consent.

Grading: Letter Graded

Cross-listed with GEOL 142. Geology is responsible for scheduling.

BIOL 143 - Biogeography

3 unit(s)

Examination of the patterns of biodiversity over space and through time. Using data and models from a variety of sources including botany, zoology, ecology, evolutionary biology, paleontology, and geology, effects of isolation, elevation, and latitude are examined to understand spatial patterns of biodiversity.

Prerequisite(s): BIOL 31 or equivalent (with a grade of "C-" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with BOT 143 / ENT 143 / ZOOL 143. Biological Sciences is responsible for scheduling.
Sustainability Related

BIOL 145 - Advanced Undergraduate Biology Seminar

1-3 unit(s)

Undergraduate Seminar in Biology. May be taken concurrently with BIOL 145L.

Course is repeatable when content changes for up to 12 units.

Prerequisite(s): Completion of 9 units of upper division major coursework, or instructor consent. Must be a declared Biology Major.

Grading: Letter Graded

BIOL 145L - Advanced Undergraduate Biology Lab

1-2 unit(s)

Advanced undergraduate laboratory or field experience. May be taken concurrently with BIOL 145. Course is repeatable for credit when content changes.

3 hours lab.

Course is repeatable for up to 12 units.

Prerequisite(s): Completion of nine (9) units of upper division majors' coursework. Instructor Consent. Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 148 - Molecular Ecology

4 unit(s)

Applying molecular genetics approaches to ecological questions. Topics include: population genetics/genomics, landscape genetics/genomics, conservation genetics/genomics, non-invasive sampling, eDNA, etc. Lab section includes experience in modern molecular biology techniques.

Lecture 2 hours/Lab 6 hours.

Prerequisite(s): BIOL 118 with a grade of C or better is required. Must be a declared major in Biological Sciences; other majors with instructor consent.

Grading: Letter Graded.

BIOL 150 - Field Studies in Natural History

1-2 unit(s)

Field courses given on site, typically covering general ecology, botany, geology, zoology and specialized natural areas such as Baja California, Death Valley, seacoasts and mountains. Repeatable for up to a total of 3 units of credit when location or content changes.

Satisfies B3: Laboratory Science.

Grading: Letter Graded

Note(s): Not an elective in the department majors.

Cross-listed with GEOL 150. Biological Sciences is responsible for scheduling.
Sustainability Related - SDG 15: Life on Land

BIOL 155 - Hypothesis Testing

3 unit(s)

Experimental design and statistical analysis of biological data from manipulative experiments. Experience in designing and analyzing experiments using t-tests, 1- and 2-way ANOVA, Randomized Block ANOVA, Nested ANOVA, Linear Regression and Tests of Independence.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 30 and BIOL 31 (with grade of "C-" or better), or instructor consent. Must be a declared Biology or Environmental Studies Major (all).

Grading: Letter Graded

BIOL 156 - Ecological Sampling Design and Analyses

3 unit(s)

Sampling design and statistical analysis of biological patterns. In this course, students design and execute a field experiment (one required weekend field trip) that incorporates multivariate measurements. Students analyze the data with Log Linear analysis, Logistic Regression, Principal Components Analysis, Canonical Correlation and various Regression techniques.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 31 (with a grade of "C-" or better). Must be a declared Biology or Environmental Studies major; other majors with instructor consent.

Grading: Letter Graded

BIOL 159 - Integrative Biology

3 unit(s)

Capstone course in the BA Biological Science degree. Critical reading of scientific literature, experimental design and scientific communication skills will be emphasized. Topics covered may vary for a given semester.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Senior standing, completion of A3, ENGL 1B, or equivalent with a C- or better; BIOL 115 or BIOL 118; BIOL 55 or BIOL 155, (all with grade of "C" or better). Allowed Declared Majors: BIOL majors only.

Grading: Letter Graded

BIOL 160 - Ecology

4 unit(s)

Factors that influence the distribution and abundance of organisms; some aspects of applied ecology.

Lecture 3 hours/Lab 3 hours.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability for Biology Majors only.

Prerequisite(s): BIOL 113 (with a grade of "C or better"); Allowed Declared Majors (Biology, Natural Science); Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Pre/Corequisite(s): BIOL 55 or BIOL 155 or BIOL 156 or equivalent Biostatistics course, or instructor consent.

Grading: Letter Graded.

Cross-listed with BOT 160. Biological Sciences is responsible for scheduling.

Sustainability Focused

BIOL 161 - Introduction to Marine Ecology

4 unit(s)

Introduction to the major ecological processes that determine the structure and diversity of species assemblages in marine and estuarine environments through field-oriented activities.

Lecture 2 hours/Lab 6 hours.

Prerequisite(s): BIOL 118 with a grade of C or better AND BIOL 155 or BIOL 156 with a grade of C- or better. Must be a declared major in Biological Sciences; other majors with instructor consent.

Grading: Letter Graded.

BIOL 162 - Marine Biology and Oceanography

4 unit(s)

(Formerly as Introduction to Biological Oceanography) Introduction to the major physical, chemical, ecological, and biological processes, including human influences, that govern life in marine environments.

Lecture 2 hours, Lab 6 hours.

Prerequisite(s): BIOL 31 with a C- or better. Must be a declared major in Biological Sciences; other majors with instructor consent.

Pre/Corequisite(s): BIOL 115 or BIOL 118 with a grade of C or better.

Grading: Letter Graded.

BIOL 163 - Conservation Biology

3 unit(s)

Principles of conservation biology, including management for the preservation of biodiversity and maintenance of viable populations. Examples from plants and animals

Prerequisite(s): BIOL 115 or BIOL 118 (with grade of "C" or better), or instructor consent. Must be a declared major in Biological Sciences; other majors with instructor consent.

Grading: Letter Graded.

Sustainability Focused - SDG 15: Life on Land

BIOL 164 - Ecological Field Methods

3 unit(s)

Techniques for evaluating and managing the abundance and diversity of plants and animals.

Lecture 1 hour/Lab 6 hours.

Prerequisite(s): BIOL 113 or (with a grade of "C" or better), or instructor consent. Must be a declared major in Biological Sciences.

Grading: Letter Graded

Sustainability Focused - SDG 15: Life on Land

BIOL 165 - Advanced Human Anatomy

4 unit(s)

Study of human anatomy, including clinical correlations, for pre-professional students. Not open to student who have completed BIOL 65.

Lecture 2 hours/Lab 6 hours.

Prerequisite(s): BIOL 30, BIOL 31 and BIOL 115 (all with a grade of "C-" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 167 - Cardiorespiratory Physiology

3 unit(s)

Covers the normal anatomy and physiology of the cardiovascular and respiratory systems, as well as how they function following perturbations in homeostasis. Focuses on the mammalian system with some discussion of comparative physiology.

Prerequisite(s): BIOL 124 (with a grade of "C-" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 168 - Reproductive Physiology

3 unit(s)

Reproductive Physiology covers the anatomy and physiology of the reproductive system, as well as how deviations from the norm affect reproduction. Course focuses on the mammalian system with discussion of comparative physiology.

Prerequisite(s): BIOL 124 (with a grade of "C-" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 170 - Cellular and Molecular Physiology

3 unit(s)

Introduction to the structure and physiological function of cells. Topics include synthesis of cellular macromolecules such as DNA, RNA and proteins; internal cellular organization; biochemical reactions necessary for cell growth, death and cellular communication. Relevant pathophysiology examples of cellular dysfunction are presented.

Prerequisite(s): BIOL 124 (with a grade of "C-" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 177 - Physiology for Engineers

3 unit(s)

Structure and function of physiological systems and discussion of topics of particular importance to the design, development, construction and clinical application of biomedical devices. Practical laboratory application of technologies to monitor, repair, replace or augment physiological systems.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 30, CHEM 1B, PHYS 50

Grading: Letter Graded

Cross-listed with BME 177. Biomedical Engineering is responsible for scheduling.

BIOL 178 - Integrative Physiology

3 unit(s)

Integrative Physiology is the capstone course in the Systems Physiology concentration. The specific physiology topics covered may vary depending on the semester. Critical reading of scientific literature, experimental design and scientific communication skills will be emphasized.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability for Biology Majors only.

Prerequisite(s): BIOL 100W, BIOL 115, BIOL 124 at least one upper division systems physiology elective (all with a grade of "C-" or better); completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Must be a declared Biology Major (all).

Grading: Letter Graded.

BIOL 180 - Individual Studies

1-4 unit(s)

Undergraduate advanced lab or field work in special fields.

Repeatable for credit.

Prerequisite(s): Instructor consent. Must be a declared Biology Major (all). Not available to Open University Students.

Grading: Credit/No Credit

BIOL 181 - Introduction to Health Care

1-3 unit(s)

Participation and observation with a medical doctor, dentist, optometrist, pharmacist, or veterinarian in private practice, hospital or retail setting.

Prerequisite(s): Instructor consent. Must be a declared Biology Major (all). Not available to Open University Students.

Grading: Credit/No Credit

Note(s): Hepatitis B or other vaccinations may be required in some settings.

BIOL 182 - Tutor Assistant in Biology

1-2 unit(s)

Supervised classroom or field experience as a tutor-assistant in experiments, demonstrations and discussion. Course may be repeated for credit.

Repeatable for credit.

Prerequisite(s): Sophomore or Upper division standing, instructor consent and appropriate academic background. Not available to Open University Students. Must be a declared Biology Major (all).

Grading: Credit/No Credit

BIOL 184 - Directed Reading

1-4 unit(s)

Assigned readings of selected books, journals and papers chosen to fill gaps in training or for contact with new fields. Evaluation through weekly reports and conferences.

Repeatable for credit.

Prerequisite(s): Instructor consent. Not available to Open University Students. Must be a declared Biology Major (all).

Grading: Credit/No Credit

BIOL 186 - Senior Thesis

2-4 unit(s)

Advanced library, laboratory or field research under the supervision of a faculty member, culminating in a senior thesis.

Prerequisite(s): Instructor consent. Not available to Open University Students. Must be a declared Biology Major (all).

Grading: Credit/No Credit

BIOL 190 - Field Studies in Biology

1-4 unit(s)

Field program involving planning and execution of a project. Course is repeatable for a maximum of 12 units.

Course is repeatable for up to 12 units.

Prerequisite(s): Instructor consent. Not available to Open University Students. Must be a declared Biology Major (all).

Grading: Credit/No Credit

Sustainability Related - SDG 15: Life on Land

BIOL 198 - Undergraduate Research

0.5-4 unit(s)

Field or laboratory biological research under the direction of a faculty member.

Course is repeatable for up to 8 units.

Prerequisite(s): Instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

BIOL 201 - Graduate Seminar in Biological Sciences

1 unit(s)

Seminar designed to introduce principles and topics in biological research. Mandatory during first semester of enrollment.

Course may be repeated for credit for up to 4 units.

Grading: Letter Graded

BIOL 202 - Graduate Studies in Biology

3 unit(s)

A seminar on current research and theory in the life sciences, emphasizing scientific writing and formal oral presentations.

Lecture/seminar/discussion 5 hours.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

BIOL 202TA - Biotech Seminar: Biotech Products

3 unit(s)

Seminar course in which students develop professional skills in writing, speaking, literature review, and critical thinking. Assignments are targeted at developing expertise and knowledge useful in the biotechnology industry. Focuses on biotechnology products.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Enrollment in the Master of Biotechnology Program.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

BIOL 202TB - Biotech Seminar: Drug Development Process

3 unit(s)

Seminar course in which students develop their professional skills. Assignments are targeted at developing expertise and knowledge useful in the biotechnology industry. Focuses on the development of drugs and other biotechnology products.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Enrollment in the Master of Biotechnology Program.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

BIOL 202TC - Biotech Seminar: Biotech Business I

2 unit(s)

BIOL 202TC is a seminar course in which students develop their professional skills. Assignments are targeted at developing expertise and knowledge useful in the biotechnology and pharmaceutical industries. BIOL 202TC focuses on the financial aspects of business development in biotechnology.

Prerequisite(s): Enrollment in the Master of Biotechnology Program.

Grading: Letter Graded

BIOL 202TD - Biotech Seminar: Biotech Business II

2 unit(s)

Seminar course in which students develop their professional skills. Assignments target developing expertise and knowledge useful in the biotechnology and pharmaceutical industries. Focuses on business development in biotechnology and a team project in which students develop a business plan.

Prerequisite(s): BIOL 202TC or instructor consent

Grading: Letter Graded

BIOL 203 - Biology Teaching Forum

3 unit(s)

Introduction to effective methods for teaching undergraduate biology laboratories, activities, seminars and/or lectures. Emphasis on pedagogy and application of best practices and strategies for teaching biology to a diverse audience. Course administration, student conduct and expectations, and assessment will also be covered.

Prerequisite(s): graduate standing or instructor consent

Grading: Letter Graded

BIOL 205 - Advanced Molecular Techniques

4 unit(s)

Emphasizes the laboratory techniques of modern molecular biology. Depending on instructor, focus will be on animal, plant, yeast, bacterial or viral systems. Course is repeatable for credit if content changes.

Misc/Lab: Lecture 2 hours/lab 6 hours.

Prerequisite(s): BIOL 135L or instructor consent.

Grading: Letter Graded

BIOL 205T - Advanced Molecular Techniques for Biotechnology

4 unit(s)

Emphasizes the laboratory techniques of modern molecular biology especially: report writing and communication of research results. Depending on instructor, focus will be on animal, plant, yeast, bacterial, or viral systems.

Misc/Lab: Lecture 2 hours/lab 6 hours.

Prerequisite(s): BIOL 135L and admission into the Master of Biotechnology program.

Grading: Letter Graded

BIOL 215 - Seminar in Advanced Genetics

3 unit(s)

Selected topics of current interest in advanced genetics. Each semester will emphasize a particular field of genetics; e.g., molecular genetics, human genetics, developmental genetics, population genetics, etc.

Grading: Letter Graded

BIOL 218 - Advanced Evolution

3 unit(s)

Integrated use of modern molecular techniques and classical evolutionary theory to address a broad array of questions in evolutionary biology.

Prerequisite(s): BIOL 115 and instructor consent.

Grading: Letter Graded

BIOL 220 - Science Communication

3 unit(s)

This course will focus on learning to effectively present ongoing scientific research to a wide audience, with an emphasis on developing science communication skills, learning to place data within the context of a field, and developing critical thinking skills.

Pre/Corequisite(s): BIOL 202

Grading: Letter Graded

BIOL 221T - Advanced Bioinformatics for Biotechnology

4 unit(s)

Bioinformatics/computer applications to solve advanced problems in molecular and cell biology by manipulation and analysis of DNA, RNA, and protein sequences.

Prerequisite(s): BIOL 116 or either CHEM 130A, CHEM 135, or Chem 136 and admission into the Master of Biotechnology program.

Grading: Letter Graded

BIOL 227 - Advanced Physiology

3 unit(s)

Integrated discussion of modern physiological techniques to address a broad array of questions in physiology. Each semester will emphasize a particular field of physiology.

Prerequisite(s): Graduate standing and completion of an upper division physiology course or instructor consent.

Grading: Letter Graded

BIOL 227T - Principles of Pharmacology

3 unit(s)

Principles of pharmacology, especially as related to the pharmaceutical industry and clinical applications.

Prerequisite(s): BIOL 30 or equivalent; Physiology recommended

Grading: Letter Graded

BIOL 230 - Comparative Animal Physiology

3 unit(s)

A seminar in the functional relationships of invertebrates and vertebrates. Evolutionary patterns and environmental adaptations are considered.

Prerequisite(s): An upper division course in physiology or instructor consent.

Grading: Letter Graded

BIOL 233 - Immunological Techniques

3 unit(s)

Principles, concepts and mechanisms relative to serological and other immunological procedures and reactions with emphasis on practical applications.

Misc/Lab: Lab 9 hours.

Prerequisite(s): Upper division microbiology or cell biology, or organic chemistry and instructor consent.

Grading: Letter Graded

BIOL 233T - Immunological Techniques for Biotechnology

3 unit(s)

Principles, concepts, and mechanisms relative to serological and other immunological procedures and reactions with emphasis on applications in the biotechnology industry.

Prerequisite(s): Immunology laboratory (grade "B" or better) or equivalent experience and admission to the Master of Biotechnology program.

Grading: Letter Graded

BIOL 242 - Advanced Paleontology

4 unit(s)

The lecture portion of this course will be conducted as a seminar; students will read and discuss classic and important newer papers on macroevolutionary theory and paleobiology. In the lab portion of this course, students will use fossil samples to develop and test scientific hypotheses that will be part of a semester-long project.

Misc/Lab: Lecture 4 hours/Lab 3 hours.

Prerequisite(s): Suitable background in geology or evolutionary biology.

Grading: Letter Graded

Cross-listed with GEOL 242. Geology is responsible for scheduling.

BIOL 255E - Advanced Topics: Ecology and Evolution

1-4 unit(s)

Advanced Topics: Ecology and Evolution is a rotating topics course; each offering will have different content. The purpose of the seminar is to help students develop a deeper understanding of specific aspects of ecology and evolution through thorough examination of primary scientific literature, discussion and presentations. Enrollment in at least 3 units of BIOL 255E is mandatory for the MS Biological Sciences: concentration in Ecology and Evolution program.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Graduate standing or Instructor consent

Grading: Letter Graded

Sustainability Focused - SDG 15: Life on Land

BIOL 255L - Advanced Biology Laboratory

1-4 unit(s)

Laboratory or field experience in advanced biology. Course is repeatable for credit when content changes.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Note(s): May be taken concurrent with any 255 seminar.

BIOL 255M - Advanced Topics: Molecular & Microbiology

1-4 unit(s)

Advanced study in molecular and microbiology. Course is repeatable for credit when content changes.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

BIOL 255P - Seminar in Advanced Biology: Physiology

1-4 unit(s)

Advanced study in plant or animal physiology. Course is repeatable for credit when content changes.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): graduate standing or instructor consent

Grading: Letter Graded

BIOL 255T - Introduction to Stem Cell Techniques

4 unit(s)

This laboratory/lecture course exposes students to the theoretical and practical aspects of contemporary stem cell techniques. Students will culture mouse embryonic stem cells on feeders and characterize them using immunofluorescence and flow cytometry, differentiate various lineages and observe genetic modifications. Students will prepare inducible pluripotent stem cells (iPS) from primary cells. This includes both the theoretical and practical aspects of applied stem cell in regenerative approaches as well as models of disease for research purposes. Students are expected to keep a laboratory notebook and document their experiments and results. Additionally, students will present scientific papers on recent topics in stem cell basic research, as published in scientific journals of recent year. The goal of this course will be to provide students with basic experience in methods used in stem cell laboratories, so that they can transition to an internship in a stem cell laboratory (although many of these techniques are applicable in a number of diverse fields), and to provide students with the most current stem cell topics while practicing effective presentation and evaluation skills.

Grading: Letter Graded

BIOL 256 - Advanced Experimental Design and Analysis

3 unit(s)

Provides training in advanced statistical procedures and experimental designs for graduate-level research. The content is tailored to research needs of enrolled students. Includes sampling schemes, randomization analyses, complex ANOVA and multivariate analyses.

Prerequisite(s): Upper division statistics course; graduate standing.

Grading: Letter Graded

BIOL 280 - Master's Individual Studies

1-3 unit(s)

Graduate level research projects designed in conjunction with faculty advisor.

Course is repeatable for up to 6 units.

Prerequisite(s): Graduate standing and instructor consent. Not available to Open University Students.

Grading: Credit/No Credit.

BIOL 280T - Internship in the Biotechnology Industry

2 unit(s)

A 8-10 week internship at a Bay Area biotechnology company in R&D, quality control, manufacturing, human resources, marketing, or sales.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Admission to the Master of Biotechnology program.

Grading: Credit/No Credit.

BIOL 281T - Individual Studies in Biotechnology

1-4 unit(s)

Supervised, advanced work in specialized fields relevant to biotechnology.

Prerequisite(s): Admission to the Master of Biotechnology program; instructor consent and Program Director.

Grading: Letter Graded

BIOL 282C - Biotechnology Company Management

3 unit(s)

Provides general management perspectives of biotechnological innovation; focuses on challenges of managing the development of new technologies, products, and processes in biotech sectors; examines management concepts, industry practices, and cases relevant to the biotechnology sector.

Grading: Letter Graded

BIOL 283T - Topics in Biotech Regulatory Affairs

3 unit(s)

Introduction to laws regulating the pharmaceutical, biotechnology, medical device industries. Discussions of company organization; product development and commercialization; Good Manufacturing Practice.

Lecture 2 hours/Activity 2 hours.

Prerequisite(s): Admission to the Master of Biotechnology program and consent of the Program Director.

Grading: Letter Graded

BIOL 284 - Master's Directed Reading

1-3 unit(s)

Directed reading and discussion of biological literature and/or individualized preparation for culminating graduate experience. Not available to Open University Students.

Prerequisite(s): Graduate Standing in MA program; instructor consent
Pre/Corequisite(s): Graduate standing in MA program and instructor consent.
Grading: Mandatory Credit/No Credit/RP

BIOL 285 - Colloquium in Biological Sciences

1 unit(s)

Meetings for the presentation and discussion of advanced studies in special fields including original work by the faculty, guest investigators and graduate students. Topics will vary from year to year.

Grading: Credit/No Credit

BIOL 285T - Colloquium in Biotechnology

1 unit(s)

Meetings for reporting, by written and oral presentations, progress through the MBT program.

Prerequisite(s): Admission to the Master of Biotechnology program.
Grading: Credit/No Credit

BIOL 291A - Introduction to Molecular Diagnostics I

3 unit(s)

Graduate level course which will include topics relevant to all tests and methods used to identify a disease or the predisposition for a disease through DNA, RNA, or protein analysis. Methods for isolation from human clinical samples.

Prerequisite(s): Instructor consent.
Grading: Letter Graded

BIOL 291B - Introduction to Molecular Diagnostics II: Human Genetic Diseases and Detection

3 unit(s)

Graduate level course which will include topics relevant to all tests and methods used to identify a disease or the predisposition for a disease through DNA or RNA analysis of human samples.

Prerequisite(s): BIOL 291A or Instructor Consent.
Grading: Letter Graded

BIOL 297 - Graduate Research

1-4 unit(s)

Advanced graduate lab or field research projects designed in conjunction with faculty advisor. Repeatable for credit, up to 10 units can be applied towards the degree.

Course is repeatable for up to 10 units.

Prerequisite(s): Graduate Standing and Instructor Consent.
Grading: Mandatory Credit/No Credit/RP

BIOL 298 - MS Project Culminating Experience

1 unit(s)

Culminating experience for MS Project Option, consisting of the development of a manuscript describing student's research and following journal guidelines for manuscript preparation, followed by a public seminar defending the research project.

Course may be repeated for credit for up to 2 units.

Prerequisite(s): Advancement to candidacy for the Master of Science degree

Grading: Mandatory Credit/No Credit/RP

BIOL 298M - MA Culminating Experience

1 unit(s)

Advanced individual work toward program Plan B (Comprehensive Exam or Master's Project).

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Advancement to candidacy for the MA in Biological Sciences and graduate advisor approval.

Grading: Credit/No Credit/RP.

BIOL 299 - Master's Thesis

1-4 unit(s)

Culminating experience for MS Thesis Option, consisting of the development of a thesis describing the student's research, followed by a public seminar defending the research project.

Prerequisite(s): Advancement to candidacy for the Master of Science degree. Must be a declared Biology Major. Not available to Open University Students.

Grading: Credit/No Credit/RP.

BIOL 1290R - Culminating Experience Supervision

1 unit(s)

This course covers the same topics and has the same objectives as BIOL 298/BIOL 298M/BIOL 299.

Course is repeatable for up to 16 units.

Prerequisite(s): Must have received an RP in BIOL 298/BIOL 298M/BIOL 299. Must be a declared Biology Major (all).

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Biomedical Engineering

BME 25 - Introduction to Biomedical Engineering Design

2 unit(s)

Introduction to the broader field of biomedical engineering, with emphasis on design of biomedical devices. Development of familiarity with standards and software tools relevant to the biomedical engineering industry, packages for design and analysis, FDA and EU guidelines.

Prerequisite(s): CHEM 1A, ENGR 10, with a grade of "C-" or better.

Corequisite(s): MATH 31 or MATH 31X, and PHYS 50.

Grading: Letter Graded

BME 65 - Biomedical Applications of Statics

3 unit(s)

Detailed study of bodies in equilibrium as they apply to biomedical systems. Two-dimensional analysis of human joints and load-bearing implants are explored. Topics include free body diagrams, anthropometric measurements, internal forces, loading types, and stress shielding.

2 hours lecture/3 hours lab.

Prerequisite(s): MATH 31 or MATH 31X, and PHYS 50.

Grading: Letter Graded

BME 68 - Biomedical Applications of Metals and Ceramics

3 unit(s)

Fundamentals of the structure, processing, and properties of metals and ceramics used in medical technology. Emphasis is placed on using metals and ceramics for implantable and non-implantable biomedical devices. Recent trends in biomaterials are explored.

Prerequisite(s): CHEM 1A, MATH 31 or MATH 31X, PHYS 50.

Grading: Letter Graded

BME 115 - Foundations of Biomedical Engineering

4 unit(s)

Introduction to the fundamental principles of biomedical engineering. Core conservation equations are applied to mass, energy, charge, and momentum transfer in biomedical systems. Additional topics provide a breadth of exposure in cell and molecular biology, diagnostics and analytical techniques, statistical analysis of biomedical data, bioinformatics, bioinstrumentation, FDA regulations, and biomedical ethics.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 30, CHEM 1B, ENGR 10, MATH 32 or MATH 32X, and PHYS 50.

Grading: Letter Graded

BME 116 - Biosensors and Bioinstrumentation

3 unit(s)

Biomedical applications of biosensors and instrumentation systems. Design and development of new instrumentation. Systems for measuring biological signals, biopotentials, pressure, stress, temperature, and optical properties. Biosensors based on different transducer systems and sensing elements. USFDA regulations and safety considerations.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): PHYS 51, BME 115, BME 177, or instructor consent.

Grading: Letter Graded

BME 117 - Biotransport Phenomena

3 unit(s)

Applications of fundamentals of thermodynamic and kinetic aspects of energy and mass transport phenomena to biological systems. Development of quantitative description of transport processes beginning from the molecular level to entire organ systems.

Prerequisite(s): BME 115, MATH 33A or MATH 33LA, BME 130 all with a grade of C- or better.

Grading: Letter Graded

BME 130 - Numerical Methods in Biomedical Engineering

3 unit(s)

Course applies computational and numerical analysis techniques to myriad Engineering problems. The course focus is on application of numerical analysis to BME topics ranging from image analysis to nonlinear systems. We will employ various computational tools, including MATLAB/Simulink and ImageJ.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): MATH 32 or MATH 32X, BIOL 30, and CHEM 1B all with a grade of C- or better.

Corequisite(s): BME 115, MATH 33A or MATH 33LA.

Grading: Letter Graded

BME 133 - Programming Applications in Biomedical Engineering

1 unit(s)

Introduction to applied programming applications in biomedical engineering. Use of Python, JMP. ImageJ to gather, organize, analyze, and present various data types, especially those pertinent to biomedical engineers working in FDA-regulated environments.

Lab 3 hours.

Prerequisite(s): BME 25.

Grading: Letter Graded

BME 135 - Biomedical Engineering Design Methods

2 unit(s)

Review of FDA-required design methods. Application of engineering drafting and design principles to the development of biomedical devices and manufacturing processes. Use of computer-aided design (CAD) tools to generate 3-D models and 2-D drawings of parts and assemblies. Application tolerances for statistical process control.

Lecture 1 hour/lab 3 hours.

Prerequisite(s): BME 25 and ENGR 10.

Grading: Letter Graded

BME 147 - Quantitative and Statistical Methods for Biomedical Engineers

3 unit(s)

Descriptive statistics; hypothesis testing; linear and nonlinear model regression; statistical approach to medical device verification and validation; statistical sampling plans; analysis of survival data; bioinformatics; quantitative methods for design and testing of biomedical devices; programming for statistical analysis (R, Matlab).

Prerequisite(s): MATH 32 or MATH 32X or MATH 32H with a grade of "C-" or better.

Grading: Letter Graded

BME 165 - Applied Engineering Biomechanics

3 unit(s)

Exploration of structural biomechanics applied to the human body. Students compare linear and nonlinear elastic, and viscoelastic models for describing the behavior of musculoskeletal tissues and implants. Concepts include bone remodeling, osteoarthritis, implant failure, muscle contraction, and cardiac mechanics.

Prerequisite(s): CE 95, CE 99, BME 65 or equivalent; And MATE 25 or BME 68 or equivalent.

Grading: Letter Graded

BME 168 - Medical and Biological Polymers

3 unit(s)

Polymers applications in medical devices and equipment, biological and biodegradable polymers, structure-processing-properties relationships, chemistry, thermal transitions, mechanical, electrical and optical properties, clinical outcomes and complications arising from use of polymers, regulatory framework for polymer use in humans.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BME 68 or MATE 25 with "C-" or better

Grading: Letter Graded

BME 174 - Biomedical Regulatory Requirements

3 unit(s)

Study of Food and Drug Administration regulations for design of biomedical engineering products and processes, including design review and documentation processes; Good Laboratory Practices; Good Manufacturing Practices; quality and reliability requirements.

Prerequisite(s): ENGR 100W, BME 115

Corequisite(s): BME 177

Grading: Letter Graded

BME 177 - Physiology for Engineers

3 unit(s)

Structure and function of physiological systems and discussion of topics of particular importance to the design, development, construction and clinical application of biomedical devices. Practical laboratory application of technologies to monitor, repair, replace or augment physiological systems.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 30, CHEM 1B, PHYS 50

Grading: Letter Graded

Cross-listed with BIOL 177. Biomedical Engineering is responsible for scheduling.

BME 178 - Biomedical Product Realization

3 unit(s)

Basics of product realization from concept to clinical trials to prepare students for career(s) in multiple bioengineering sectors. Specific topics include: Product Concept, Research & Development, Design Controls in Application, Design Verification and Design Validation, Process Control in Application, Software Validation, Effective Risk Management, Engineering and Quality Management System Practices.

Prerequisite(s): ENGR 100W, BME 147, BME 174 all with a grade of C- or better.

Grading: Letter Graded

BME 180 - Individual Studies

1-3 unit(s)

Individual work on special topics. Students work with faculty and/or industry mentors on design, research, lab development or other types of projects.

Prerequisite(s): Upper division standing

Grading: Credit/No Credit

BME 182 - Orthotics and Prosthetics

3 unit(s)

Diagrammatic breakdown of prosthetic design covering patient interfaces, socket designs, materials, modular components, prosthetic feet, prosthetic knees, upper extremity designs. Treatment options within current standard of care, device design trends, future device, material, and design needs.

Prerequisite(s): CE 95 or CE 99, MATE 25, BME 115, BME 177

Grading: Letter Graded

BME 185 - Digital Health

3 unit(s)

Benefits and challenges related to digital health, the technology trends, and the modernization of medical devices. Specific topics include software as a medical device, related cybersecurity elements and FDA/NIST guidance, device software functions, mobile medical applications, health information technology, medical device data systems, medical device interoperability, telemedicine, and wireless medical devices.

Prerequisite(s): BME 115, BME 133

Grading: Letter Graded

BME 187 - Medical Device Quality Systems

3 unit(s)

Introduction to the quality management system (QMS) framework for medical devices, principles of QMS, product and service quality evaluation, and control. Topics include: document control, supplier management, training, audits, reliability assessment, feedback and monitoring, quality tools for investigation, and continuous improvement techniques.

Prerequisite(s): BME 174.

Pre/Corequisite(s): BME 147 or instructor consent.

Grading: Letter Graded

BME 188 - Biomedical Device Manufacturing

3 unit(s)

Overview of manufacturing processes for producing biomedical devices, implants, instruments, prosthetics, and capital equipment. Introduction to design processes and tools that facilitate start-up and expansion of manufacturing activities.

Prerequisite(s): BME 25, MATE 25, BME 115, BME 177, all with C- or better

Grading: Letter Graded

BME 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

BME 198A - Senior Design Project I

2 unit(s)

Descriptive statistics; hypothesis testing; linear and nonlinear model regression; statistical approach to medical device verification and validation; statistical sampling plans; analysis of survival data; bioinformatics; quantitative methods for design and testing of biomedical devices; programming for statistical analysis (R, Matlab).

Lecture 1 hour/Lab 3 hours.

Satisfies SJSU Studies S: Self, Society & Equality in U.S. when taken with BME Major sequence.

Prerequisite(s): MATH 32 or MATH 32H or MATH 32X , BME 115, and BME 177 all with a grade of "C-" or

better. Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Allowed Declared Major: Biomedical Engineering or Graduate Standing.

Corequisite(s): BME 147.

Grading: Letter Graded

Note(s): Meets GE Areas S and V when course is taken in combination with: BME 198B, ENGR 195A and ENGR 195B.

BME 198B - Senior Design Project II

2 unit(s)

Continuation of BME 198A. Culmination of project requiring formal oral presentation and report consisting of documentation of project methodology and results.

Lecture 1 hour/Lab 3 hours.

Satisfies SJSU Studies V: Cultures and Global Understanding (when taken with BME major sequence).

Prerequisite(s): BME 198A with C or better; BME 147 with C- or better. Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Allowed Declared Major: Biomedical Engineering or Graduate Standing.

Pre/Corequisite(s): ENGR 195B.

Grading: Letter Graded.

Note(s): Meets GE Areas S and V when course is taken in combination with: BME 198A, ENGR 195A and ENGR 195B.

BME 207 - Experimental Methods in BME

3 unit(s)

Introduction to experimental methods and techniques used in Biomedical Engineering. Principles of data representation, analysis, and experimental designs in bioreactors, biomaterials, and medical devices. Topics include error analyses, modeling, normality testing, hypothesis testing. This is a hands-on course, and students will operate equipment in the departments laboratories.

2 hours lecture/3 hours lab.

Prerequisite(s): BME 115 and graduate standing.

Grading: Letter Graded

BME 210 - Mathematical Methods in Biomedical Engineering

3 unit(s)

Mathematical and computational methods applied to biomedical engineering. Topics include: i) statistical analysis of biomedical datasets, ii) design of experiments to meet FDA requirements, iii) solution techniques for partial differential equations, and iv) modeling of stochasticity in biological systems including error analysis. Prerequisite(s): CMPE 30, MATH 33LA or MATH 33A. Or Graduate standing or by instructor consent.

Grading: Letter Graded

BME 217 - Experimental and Computational Biofluid Mechanics

3 unit(s)

Introduction to blood rheology, cardiovascular fluid mechanics, blood flow dynamics in blood vessels and in proximity of implanted cardiovascular devices, airflow in the lungs, and other physiological flow phenomena. Healthy and diseased states will be considered. Students will familiarize with both experimental and computational approaches to measure physiological flows.

Prerequisite(s): BME 117 and BME 210 and Graduate standing; or instructor consent.

Grading: Letter Graded

BME 254 - Microscale Biomedical Systems: Physics and Applications

3 unit(s)

Introduction to microscale physics and phenomena used in biomedical systems; analytical techniques and diagnostic applications. Course will discuss: microscale fluid mechanics (Navier-Stokes), electrical phenomena (Maxwell), and particle/molecule/device interactions. Case studies focus on applications of microscale physics to biomedical engineering analyses.

Prerequisite(s): BME 117, MATH 33A or MATH 33LA, and graduate standing; or instructor consent.

Grading: Letter Graded

BME 256 - Biomedical Applications of Nanoplatfoms

3 unit(s)

Biomedical applications of nanoplatfoms explores the development of three cutting edge sub fields: nanoplatfoms in therapeutics; nanoplatfoms in prosthesis and implants; and nanoplatfoms in diagnosis and screening. The socioeconomic risks and solutions of nanoplatfoms in biomedical applications are also explored.

Prerequisite(s): BME 177, Graduate Standing or instructor consent

Grading: Letter Graded

BME 258 - Medical Imaging for Engineers

3 unit(s)

Introduction to the principles and clinical applications of medical imaging. Interaction of radiation with matter. Image acquisition and manipulation. Clinical imaging techniques: X-ray radiography and computed tomography, ultrasound imaging, magnetic resonance imaging. Safety considerations. Computer laboratory: image enhancement, segmentation, contouring.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): PHYS 51, MATH 33A or MATH 33LA, BME 177, and BME 210. Or Instructor consent.

Grading: Letter Graded

BME 272 - Biomedical Device Design and Principles

3 unit(s)

Principles involved in designing medical devices to function reliably in human body; interaction between synthetic and biological materials; use of design principles during conception and development of medical

devices; effect of design on manufacture clinical performance, reliability and quality/regulatory assurance.

Prerequisite(s): BME 115, Graduate standing or instructor consent.

Grading: Letter Graded

BME 274 - Regulatory, Clinical and Manufacturing Aspects of Medical Devices

3 unit(s)

FDA regulations related to medical devices; planning and implementation of clinical trials; sterilization techniques; failure mode analysis; quality control for medical device manufacture; intellectual property; field trips to device manufacturers.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): BME 115, Graduate standing; or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

BME 276 - Project Management in Biomedical Technologies

3 unit(s)

Context for the emergence of project management as a credible business discipline increasingly integrated into the functional and decision-making fabric of companies in the biomedical technology sector; exploration of the typical skillset of the modern project management professional and the teams they lead in companies developing medical devices and pharmaceutical therapies; fundamentals of applied traditional project management tools and techniques to medical device, pharmaceutical and combination product research, development and commercial launch; overview of typical development cycles including regulatory pathways, timeline management and risk mitigation approaches; exposure to contemporary technical project management challenges emerging from value perception, organizational politics, people and power dynamics including the imbalance of technical and commercial conflicts.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

BME 280 - Graduate Research Studies

1-3 unit(s)

Supervised individual research or directed studies for graduate students. Students work with faculty mentors on research-oriented projects, including comprehensive critical literature reviews, development of new testing or analysis methodologies, experimental or numerical investigations.

The course is repeatable for credit up to two times for a maximum of 3 units.

Prerequisite(s): Graduate classified standing or instructor consent.

Grading: Mandatory Credit/No Credit/RP

BME 288 - Tissue Engineering

3 unit(s)

This course strikes a balance among the diversity of subjects that are related to tissue engineering, including biology, chemistry, material science, and engineering, among others. Emphasis on research areas of clinical value for engineering new organ systems.

Prerequisite(s): Graduate Standing or Instructor Consent

Grading: Letter Graded

BME 291 - MS Thesis/Project Preparation Seminar

3 unit(s)

Assists graduate students in the development and completion of their Master's thesis/project research proposal and exposes them to research projects being done by others in the BME program.

Prerequisite(s): BME 207, Good standing (minimum GPA 3.0), classified status in the BME MS program, and Petition for Advancement to Graduate Candidacy form submitted.

Grading: Letter Graded

BME 298 - MS Project

3 unit(s)

Master's project work in Biomedical Engineering.

Prerequisite(s): Advancement to candidacy and BME 291.

Grading: Credit/No Credit/RP.

BME 298I - Masters Project Internship

1-2 unit(s)

Masters project work in Biomedical Engineering. This section is for students completing their Masters project work at an off-campus location.

Prerequisite(s): Advancement to candidacy and BME 291.

Grading: Mandatory Credit/No Credit/RP

BME 299 - MS Thesis

3 unit(s)

Masters thesis work in Biomedical Engineering.

Prerequisite(s): Advancement to candidacy, BME 291, BME 298.

Grading: Mandatory Credit/No Credit/RP

BME 299I - Master's Thesis Internship

1-3 unit(s)

Master's thesis work in Biomedical Engineering. This section is for students completing their Master's thesis work at an off-campus location.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): Advancement to candidacy; BME 291; BME 298 or BME 298I; or instructor consent.
Grading: Mandatory Credit/No Credit/RP

BME 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on dissertation, thesis, or project or in preparation for comprehensive exams beyond the minimum required units for cases in which final deliverables are still in progress and all other degree requirements except the culminating experience have been fulfilled.

Prerequisite(s): Outstanding RP grade in a previous semester in BME 298 or BME 299
Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Botany

BOT 104 - Plant Taxonomy

4 unit(s)

Taxonomic relations and classification of ferns, conifers and flowering plants, with practice in their collection and identification. Selected techniques of cytotoxicology, chemotaxonomy, palynology and numerical taxonomy.

Prerequisite(s): BIOL 115 or BIOL 118 (with a grade of C or better). Must be a declared major in Biological Sciences; other majors with instructor consent.
Grading: Letter Graded

BOT 113 - Principles of Systematics

3 unit(s)

Students gain the understanding and skills needed to taxonomically study biodiversity, including the use of morphological and DNA sequence characters to examine phylogeny, and use of a range of biodiversity research techniques and tools.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 115 or BIOL 118 (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).
Grading: Letter Graded

Cross-listed with BIOL 113 / ENT 113 / ZOOL 113. Biological Sciences is responsible for scheduling.

BOT 114 - Functional Morphology

3 unit(s)

Develops understanding and skills needed to taxonomically study biodiversity, including the use of morphological and DNA sequence characters to examine phylogeny, and use of a range of biodiversity research techniques and tools.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 115 or BIOL 115 (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with BIOL 114 / ENT 114 / ZOOL 114. Biological Sciences is responsible for scheduling.

BOT 143 - Biogeography

3 unit(s)

Examination of the patterns of biodiversity over space and through time. Using data and models from a variety of sources including botany, zoology, ecology, evolutionary biology, paleontology, and geology, effects of isolation, elevation, and latitude are examined to understand spatial patterns of biodiversity.

Prerequisite(s): BIOL 31 or equivalent (with a grade of "C-" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with BIOL 143 / ENT 143 / ZOOL 143. Biological Sciences is responsible for scheduling.

Sustainability Related

BOT 160 - Ecology

4 unit(s)

Factors that influence the distribution and abundance of organisms; some aspects of applied ecology.

Lecture 3 hours/Lab 3 hours.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability for Biology Majors only.

Prerequisite(s): BIOL 113 (with a grade of "C or better"); Allowed Declared Majors (Biology, Natural Science); Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Pre/Corequisite(s): BIOL 55 or BIOL 155 or BIOL 156 or equivalent Biostatistics course, or instructor consent.

Grading: Letter Graded.

Cross-listed with BIOL 160. Biological Sciences is responsible for scheduling.

BOT 165 - Plant Communities of California

4 unit(s)

Ecology, species composition and vegetation structure of California plant communities. Origins, history and changes brought about by natural succession and human impact.

Lecture 2 hours/Lab-Field 6 hours (some weekend field trips).

Prerequisite(s): BIOL 115 or BIOL 118 with a grade of C or better. Must be a declared major in Biological Sciences; other majors with instructor consent.

Grading: Letter Graded.

Sustainability Related - SDG 15: Life on Land

BOT 180 - Individual Studies

1-4 unit(s)

Advanced work in special fields.

Repeatable for credit.

Prerequisite(s): Instructor consent. Must be a declared Biology Major (all).

Grading: Credit/No Credit

BOT 186 - Senior Thesis

2-4 unit(s)

Advanced laboratory or field research under supervision of faculty member, culminating in a senior thesis.

Prerequisite(s): Instructor consent. Must be a declared Biology Major (all).

Grading: Credit/No Credit

Business - Accounting and Finance

BUS1 20 - Financial Accounting

3 unit(s)

Accounting concepts and methods to analyze and record transactions, construct financial statements, and interpret financial data.

Prerequisite(s): MATH 70 or any of the following if completed with a C or better: MATH 30, 30X, 31, 31X, 32, 32X, 70X, 71, or 71X.

Grading: Letter Graded

BUS1 20N - Survey of Accounting

3 unit(s)

Accounting concepts and methods for accumulating and summarizing financial data and interpretation of financial statements. For business minors and non-business majors.

Prerequisite(s): Sophomore status recommended, non-business majors only.

Grading: Letter Graded

BUS1 21 - Managerial Accounting

3 unit(s)

Accounting systems and concepts including managerial decisions, relevant costs, cost data, cost-volume-profit analysis, and budgeting.

Prerequisite(s): BUS1 20 or BUS1 20N.

Grading: Letter Graded

BUS1 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

BUS1 120A - Accounting Information Systems

3 unit(s)

Accounting information systems for decision-making and organizational control. Topics include: business processes, documentation, risk, internal controls, and processing of accounting information using computerized and non-computerized procedures.

Prerequisite(s): BUS 20 with a "C" or better. Declared Major in Accounting, Accounting Information Systems or Corporate Accounting and Finance. Upper division standing.

Grading: Letter Graded

BUS1 120B - Advanced AIS and IS Risk Assessment

3 unit(s)

Hands-on project-oriented computer lab to develop working knowledge and skills in using Microsoft Excel and Access as application development tools. Students design a prototype accounting system and generalized audit module prototype assessing integrity of previously designed databases.

Prerequisite(s): BUS 120A and COMM 100W or ENGL 100WB or LLD 100WB with a minimum grade of "C" or better in both. Upper division standing.

Grading: Letter Graded

BUS1 120C - Network Environment and Accounting Controls

3 unit(s)

Introduction to current network arrangements in small, medium and large corporations, including hardware/software components used to control the integrity, and access of networks. Internet interfaces including TCP/IP basics and network configurations. A practical NT domain and its administration will be included.

Prerequisite(s): BUS1 120A with a minimum grade of 'C'. Upper division standing.

Grading: Letter Graded

BUS1 120D - Accounting Topics in IT Audit

3 unit(s)

Students will be exposed to real life audit environment cases. Students will apply the EDP auditing techniques of integrated audit risk management, auditing of platforms, applications, and network as appropriate. Discussion of network security, including telecommunications, firewall, encryption and other current IT Audit issues will be included as part of IT discussion.

Prerequisite(s): BUS1 120B and BUS1 120C with a grade of 'C' in each. Upper division standing.
Grading: Letter Graded

BUS1 120G - Programming and Systems Development in AIS

3 unit(s)

This course covers the process, technical elements and current techniques used in accounting systems development. Programming topics include business reporting languages. Systems development topics include requirements analysis, functional specification, system design, implementation, testing, and maintenance.

Prerequisite(s): BUS1 20 with a minimum grade of "C".
Grading: Letter Graded

BUS1 121A - Intermediate Accounting I

3 unit(s)

Principles, control, and theory of accounting for assets; revenue recognition; preparation and analysis of income statement; correction of prior year's earnings. Projects involving data analysis required.

Prerequisite(s): BUS 20 with a minimum grade of 'C' and Upper division standing. Student must be a declared Accounting, Accounting Information Systems, Finance, or Corporate Financial Management major to enroll.

Grading: Letter Graded

BUS1 121B - Intermediate Accounting II

3 unit(s)

Principles, control, and theory of accounting for liabilities and equities; preparation, utilization, and analysis of cash flow; financial statement analysis using ratios. Projects involving data analysis required.

Prerequisite(s): BUS1 121A (with minimum grade of "C"). Upper division standing.
Grading: Letter Graded

BUS1 122A - Management Accounting and Control Systems

3 unit(s)

Examination of the concepts and procedures of cost management as applied to product and service costing, cost-volume-profit relationships, cost and profit planning, budgeting, cost structure for control and motivation, and decision-making.

Prerequisite(s): BUS1 20 with a minimum grade of "C" and upper division standing. Declared Major in Accounting, Accounting Information Systems, or Corporate Accounting and Finance.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

BUS1 123A - Taxation of Businesses and Investments

3 unit(s)

Federal taxation of businesses and investments, including property transactions, deferral techniques,

accounting periods, accounting methods, ethics, and research techniques with emphasis on corporations.

Prerequisite(s): BUS1 20 with a minimum grade of "C", Upper division standing and declared major in Accounting, Accounting Information Systems, or Corporate Accounting Finance.

Grading: Letter Graded

BUS1 123C - Taxation of Individuals

3 unit(s)

Federal taxation of individuals and the factors involved, including taxable income, exclusions, deductions, filing status, dependents, investments, credits, and pass-through entities.

Prerequisite(s): BUS1 123A with a grade of "C" or better. Upper division standing. Business Minor or Accounting or Corporate Accounting Finance major.

Grading: Letter Graded

BUS1 124 - Forensic Accounting

3 unit(s)

This course will examine the various frauds that are perpetrated on companies and discuss ways the accountant can uncover the frauds. The criminal justice system will be reviewed and the various litigation-support functions provided to attorneys by accountants will be discussed.

Prerequisite(s): BUS1 20; COMM 100W or ENGL 100W or LLD 100W; BUS1 121A and BUS1 121B with a minimum grade of "C" in each. Accounting and Corporate Accounting Finance Majors only.

Grading: Letter Graded

BUS1 125 - Special Topics in Accounting

3 unit(s)

Analysis of specialized and emerging accounting topics with emphasis on research, application, and analytical skills.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB; BUS1 121A and BUS1 121B (with minimum grade of "C" in each). Accounting and Corporate Accounting Finance Majors or Business Minor only.

Grading: Letter Graded

BUS1 125A - Advanced Writing for Accounting

3 unit(s)

Students learn to communicate accounting and other specialized financial information to a variety of audiences including employers, clients and the investing public in a manner that promotes clarity, accuracy and professionalism.

Prerequisite(s): BUS1 121A

Grading: Letter Graded

BUS1 126 - Advanced Accounting

3 unit(s)

Accounting principles for complex business entities including: consolidated reporting issues, transfer pricing issues, translating foreign currency transactions and operations, hedging foreign currency exposures, goodwill, and business combinations. Extensive use of data analytics tools.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB; BUS1 121A and BUS1 121B (with minimum grade of "C" in each). Accounting or Corporate Accounting Finance Majors or Business Minor only.

Grading: Letter Graded

BUS1 127A - Honors Practicum in Corporate Financial Management

3 unit(s)

Corporate sponsored projects in accounting and finance. Students are assigned to a host company and are required to work with the host company and faculty advisor on a topic in financial management. A report will be presented. Students are admitted based on an average 3.0 GPA in four prerequisite courses.

Course is repeatable for up to 6 units.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB; BUS1 121A, BUS1 121B, BUS1 122A and BUS1 170 with a minimum grade of "C" in each and instructor approval. Upper division standing.

Grading: Letter Graded

BUS1 127B - Advanced Honors Practicum

3 unit(s)

Course involves advanced corporate sponsored projects in accounting and finance. Students are assigned to supervisory personnel at the host company under the advisement of the instructor. Course is repeatable for credit for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Declared major in Accounting, Finance, AIS or Corporate Financial Management and instructor consent.

Grading: Letter Graded

BUS1 128 - Accounting for Nonprofit Organizations

3 unit(s)

Principles, objectives and methods of accounting for governmental and other nonprofit organizations.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB and BUS 121A (with minimum grade of "C" in both). Accounting or Corporate Accounting Finance Majors or Business Minor only.

Grading: Letter Graded

Sustainability Related - SDG 17: Partnerships for the Goals

BUS1 129A - Financial Auditing

3 unit(s)

Examines public accounting profession, application of relevant professional standards, auditing procedures, and professional ethics. Emphasis on understanding and applying generally accepted auditing standards.

Focus on the process of forming an opinion on the "fairness of presentation" of financial statements.

Prerequisite(s): BUS1 120A, BUS1 121A with grade of C or better.

Grading: Letter Graded

Sustainability Related - SDG 8: Decent Work and Economic Growth

BUS1 129B - Operational Auditing

3 unit(s)

Study of professional and technical aspects of internal and operational auditing with emphasis on concepts, ethical conduct and significance in preparation/implementation of the audit and its findings. Effectiveness and efficiency of audits in industry and not-for-profits will be covered.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB; BUS1 120A; BUS1 121A; BUS1 121B and BUS1 122A (with minimum grade of "C" in each).

Grading: Letter Graded

BUS1 170 - Fundamentals of Finance

3 unit(s)

The finance function and its relationship to other decision-making areas in the firm. The study of time value of money along with theory and techniques in acquisition and allocation of financial resources from an internal management perspective.

Prerequisite(s): BUS1 21 or BUS1 122A; ECON 1A, ECON 1B and BUS2 90.

Grading: Letter Graded

BUS1 171A - Financial Institutions and Markets

3 unit(s)

Study of financial markets and institutions that operate in them. Examinations of money and capital markets, interest rates and financial institutions, both depository and non-depository. Emphasis on past, current and future industry and regulatory authorities.

Prerequisite(s): BUS 170 (with minimum grade of "C"). Upper division standing. Business Administration Finance or Corporate Accounting and Finance majors only.

Grading: Letter Graded

BUS1 171B - Commercial Banking

3 unit(s)

Analytical tools for the evaluation of the performance and risk of commercial banks. The measurement and management of interest rate, liquidity, credit and solvency risks. Historical and current banking regulations. Commercial credit analysis and loan policies.

Prerequisite(s): BUS1 171A with a minimum grade of "C".

Grading: Letter Graded

BUS1 172A - Investment Analysis

3 unit(s)

Procedures and tools necessary to evaluate investment variables, determine value and analyze risk/return characteristics of equity, fixed income securities, and alternative individual investments. Emphasizes responsible decisions and provides background for portfolio analysis.

Prerequisite(s): BUS 170 (with minimum grade of "C"). Upper division standing. Business Administration Finance or Corporate Accounting and Finance Majors only.

Grading: Letter Graded

BUS1 172B - Portfolio Management

3 unit(s)

Basic procedures and analytical tools necessary to construct, analyze, evaluate and revise investment portfolios or groups of assets, including computerized portfolio models. Approach and content consistent with objectives of Chartered Financial Analyst (CFA) program.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB and BUS 172A with a minimum grade of "C" in both. Upper division standing.

Grading: Letter Graded

BUS1 172C - Futures and Options

3 unit(s)

The use of derivatives for risk management by individuals, banks and corporations. The functioning of the futures and options markets for equities, fixed income and commodities. Option valuation models; Black-Scholes and beyond. Applications in personal investment strategies.

Prerequisite(s): BUS1 172A with a minimum grade of "C".

Grading: Letter Graded

BUS1 172D - Student Managed Investment Fund

3 unit(s)

Manage donated funds using Wall Street techniques. Design and evaluate fund investment strategy. Analyze firms for portfolio inclusion. Communicate buy-hold-sell recommendation.

Prerequisite(s): BUS1 170

Grading: Letter Graded

BUS1 173A - Financial Management: Theory and Policy

3 unit(s)

From the financial manager's perspective, considerations and alternatives for maximizing a firm's value. Tools for understanding what determines value and what managerial actions can alter value, by combining theory with practical knowledge of marketplace limitations.

Prerequisite(s): BUS 170 (with minimum grade of "C"). Upper division standing. Business Administration Finance or Corporate Accounting and Finance Majors only.

Grading: Letter Graded

BUS1 173B - Problems in Financial Management

3 unit(s)

Advance study of business case materials, including assessment of financial condition; projection of capital requirements; and analysis of decisions pertaining to working capital, capital expenditures, financing, capital structure, dividends, mergers and reorganization.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB and BUS1 173A with a minimum grade of "C" in both. Upper division standing.

Grading: Letter Graded

BUS1 173C - Entrepreneurial Finance

3 unit(s)

Basic principles of finance applied to new ventures and small businesses. Topics include incorporation, venture capital, business models, financial analysis, valuation, capital structure, cash flow forecasting, growth and exit strategies.

Prerequisite(s): BUS 170 with a minimum grade of 'C.' and Upper Division Standing

Grading: Letter Graded

BUS1 175 - Real Estate Finance

3 unit(s)

Real estate financing from the viewpoint of borrower and lender, financing mathematics, legal aspects of lending, appropriate financial instruments, taxes and real estate, loan cost analysis, loan valuation, development and assumability. Mortgage markets/institutions considered together with alternative financing techniques for various types of properties.

Prerequisite(s): BUS1 170 (with minimum grade of "C"). Upper division standing.

Grading: Letter Graded

BUS1 176 - Business Valuation

3 unit(s)

Explores the fundamentals of business valuation from a theoretical and an applied viewpoint. Utilizes accounting and financial data to apply valuation techniques in a variety of business settings. Focuses on publicly traded companies with discussions on differences around private company valuation, venture capital valuation, and other settings.

Prerequisite(s): BUS1 173A or BUS1 172A with a grade of C or better. Upper division standing.

Grading: Letter Graded

BUS1 177 - International Business Finance

3 unit(s)

Focuses on the determinants of exchange rates and the workings of international financial markets. Develops exchange rate parity relationships and introduces arbitrage strategies. Exposure to exchange rate risk is examined from the business perspective, and various hedging strategies are discussed.

Prerequisite(s): BUS1 170 (with minimum grade of "C"). Upper division standing.

Grading: Letter Graded

Sustainability Related

BUS1 179B - Selected Topics in Business Finance

3 unit(s)

Extensive investigation of selected topics with major emphasis on integration of finance theory and practice within a current business context.

Prerequisite(s): BUS1 173A (with minimum grade of "C"). Upper division standing.

Grading: Letter Graded

BUS1 180A - Individual Study Accounting

1-4 unit(s)

Prerequisite(s): Not available to Open University Students.

Grading: Credit/No Credit.

BUS1 180C - Individual Study Finance

1-4 unit(s)

Prerequisite(s): Not available to Open University Students.

Grading: Credit/No Credit.

BUS1 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Business - Global Innovation and Leadership

BUS5 16 - Introduction to Leadership & Innovation

3 unit(s)

This interdisciplinary course covers basic theories of leadership and innovation and investigates key topics that influence contemporary social leadership issues. Students assess their leadership styles to create personal development plans leading toward positive, innovative impacts on society. A service learning component of 10 hours for the semester is required.

Grading: Letter Graded

BUS5 92 - International Program Studies

1-14 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

BUS5 140 - Fundamentals of Operations Management

3 unit(s)

Familiarizes students with processes that transform inputs into finished goods and services; helps students understand the importance of operations management and how it interacts with other parts of the organization; develops skills in applying appropriate analytical tools to business operations challenges.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

BUS5 141 - Procurement and Supply Management

3 unit(s)

Comprehensive survey of forecasting, inventory management (including just-in-time), purchasing, supplier relations, warehousing (tiered, centralized, decentralized) and distribution methods. Make-or-buy analysis and specification/standardization techniques.

Prerequisite(s): Upper Division Standing or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

BUS5 141B - Transportation & Supply Chain Logistics

3 unit(s)

Coverage of the fundamentals of transportation management combined with a focus on its role in global supply management. The challenge of managing the various modes of transportation is combined with strategies for their use in the supply chain environment.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

BUS5 142 - Total Quality Management

3 unit(s)

Holistic approach to managing quality: interaction of production design, work design and the manufacturing process. International view and roles qualitative and quantitative techniques play in successful quality management programs.

Prerequisite(s): Upper Division Standing or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

BUS5 142B - Business Process Management

3 unit(s)

Includes concepts and methods to optimize business processes relevant for creating value for the customers and adding value to an organization. Provides capability of designing and managing business processes and the interfaces between Operations Management and other business functions.

Prerequisite(s): Upper Division Standing or instructor consent

Grading: Letter Graded

BUS5 144 - Supply Chain Management

3 unit(s)

Addresses concepts/tools for effective and efficient management of supply chains. Topics include materials planning/control, sourcing strategy, strategic alliances, information technology role, quality/customer issues, inventory management, and distribution/logistics management.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

BUS5 144B - Operations & Supply Chain Analytics

3 unit(s)

Builds analytic thinking for improving operations and supply chain management (OSCM). Introduces analytical methods, tools, and software to analyze OSCM problems and then derive managerial implications and decisions in global business operations perspectives.

Prerequisite(s): BUS5 140 or Instructor Consent and Upper Division Standing. BUS4 91A or BUS2 190 is strongly recommended.

Grading: Letter Graded

BUS5 145 - Operations & Supply Chain Strategy

3 unit(s)

Studies operations management issues unique to manufacturers with extensive international operations. Educational objectives are to develop an understanding of: the strategic tradeoffs associated with global operations, total supply chain management and the economics of transnational logistics.

Prerequisite(s): Upper Division Standing or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

BUS5 145B - Healthcare Operations Management

3 unit(s)

Operations Management (OM) approaches across a broad range of healthcare settings: clinical, management, and support processes in the medical and public healthcare systems. Apply OM tools including flowcharting, process analysis, queuing, forecasting, six-sigma, health worker scheduling.

Prerequisite(s): Upper Division Standing or instructor consent

Grading: Letter Graded

BUS5 146 - Fundamentals of Project Management

3 unit(s)

Fundamentals of managing projects, basic concepts and techniques underlying project management, and application using the appropriate software.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

BUS5 147 - Service Operations Management

3 unit(s)

Develops skills in setting formal standards for product attributes and operating procedures that comprise service experience. Categories of services; indirect and direct consumption. Psychological/social characteristics of the consumer/server encounters, enhancing ability to monitor service quality. Total quality management.

Prerequisite(s): Upper Division Standing or instructor consent. Business Minor.

Grading: Letter Graded

BUS5 148 - Sustainable Operations Management

3 unit(s)

Introduces a holistic view of the interaction between operations activities and the environment. Builds awareness of major environmental problems and issues in the operations function of business, and learns environmental assessment and management tools for operations management.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

High Impact Practice: Service Learning

Sustainability Focused - SDG 12: Responsible Consumption and Production

BUS5 162 - International and Comparative Management

3 unit(s)

Management functions and practices in an international context; comparison of management and business practices from various political and cultural perspectives; emphasis on what managers need to be aware of in order to perform in the international environment.

Prerequisite(s): Any 100w, BUS 187 or instructor consent. Upper division standing.

Grading: Letter Graded

BUS5 162A - International Business Strategy

3 unit(s)

Course focuses on the strategic challenges and the strategic management of firms that operate and compete in a global environment. Course provides an overarching experience in international business by integrating knowledge and previous international business learning.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB, BUS 187, or instructor consent.

Grading: Letter Graded

BUS5 163A - Negotiating Globally

3 unit(s)

Introduces a theoretical framework and skill-building exercises for negotiating agreements, resolving disputes, and making decisions across cultures. Builds awareness of the global negotiating environment including cultural and institutional factors. Applicable to commercial transactions, employee relations, contract disputes, and international diplomacy.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

BUS5 163B - Business and Innovation in Emerging Economies

3 unit(s)

Management functions and practices in an international context; comparison of management and business practices from various political and cultural perspectives; emphasis on what managers need to be aware of in order to perform in the international environment.

Prerequisite(s): Upper division standing and 100W, or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 8: Decent Work and Economic Growth

BUS5 164 - Doing Business Globally

1-4 unit(s)

Comprehensive study of the business and management practices of a featured country or region. Includes historical, institutional, sociopolitical and cultural context. May be offered as a faculty-led program abroad or include a virtual study or internship component.

May be repeated for credit with a different featured country or region. Course may be repeated for up to 6 units.

Prerequisite(s): Upper division standing and 100W, or instructor consent.

Grading: Letter Graded

BUS5 164A - Doing Business in Japan

3 unit(s)

Comprehensive study of the management and business practices in Japan. Includes the historical, institutional, sociopolitical, and cultural contexts that are relevant to conducting business in Japan and

working effectively with Japanese business partners.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

BUS5 164B - Doing Business in India

3 unit(s)

Comprehensive study of the business and management practices in India. Includes historical, institutional, sociopolitical, industrial and cultural context, along with economic and industrial organizational dynamics.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

BUS5 164C - Doing Business in China

3 unit(s)

Comprehensive study of the business and management practices in China. Includes historical, institutional, sociopolitical, industrial and cultural context, along with economic and industrial organizational dynamics.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Grade

BUS5 165A - Global Leadership

3 unit(s)

This course introduces students to global leadership and its development and is designed for students who want to work effectively with people in diverse settings. Taught experientially, the course involves simulations, innovation projects, and extensive individual feedback.

Prerequisite(s): Any 100W.

Grading: Letter Graded

BUS5 167 - Managing Environmental Issues

3 unit(s)

The management of environmental issues, including the relationship of business to the natural environment; the public policy context of management decision-making; and the greening of the corporation and implications for strategic management, operations, human resources, marketing and accounting.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with ENVS 167. Global Innovation & Leadership is responsible for scheduling.
Sustainability Focused - SDG 9: Industry, Innovation and Infrastructure

BUS5 169A - Honors Seminar

3 unit(s)

Introduces some of the consulting and research practices used in the fields of Entrepreneurship, International Business, Operations and Supply Chain Management. Integrates conceptual and experiential

exercises, as students apply scientific, evidence-based decision making to address organizational opportunities and challenges. Training on and application of conducting interviews with stakeholders (e.g. managers, employees, customers), gathering qualitative and quantitative data from primary and secondary sources, and analyzing these data to provide actionable recommendations.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB, Upper division standing, instructor consent.
Grading: Letter Graded

BUS5 169B - Honors Practicum in Organization and Management

3 unit(s)

Second part of a two-semester honors program sequence. Student teams will work on a project sponsored by a company or other organization, under the supervision of the sponsor and the instructor. Teams will present their final report to the sponsor.

Prerequisite(s): BUS3 160 or BUS3 161A and permission of the instructor.
Grading: Letter Graded

BUS5 180D - Individual Study

1-3 unit(s)

Individual work on special topics by arrangement. Petition and plan of study must have consent of instructor and Chairperson.

Course may be repeated for credit for up to 3 units.

Grading: Credit/No Credit

BUS5 181 - Introduction to Entrepreneurship

3 unit(s)

Insight into the characteristics of entrepreneurs, the approaches they use to create, identify and evaluate opportunities for new ventures and the skills that are needed to start and manage new ventures and develop a preliminary business plan.

Prerequisite(s): Upper division standing
Grading: Letter Graded

BUS5 182 - Business Plans for New Ventures

3 unit(s)

An integrative course involving teamwork to prepare complete plans for starting a new business. This will require analyzing the industry and potential market, the competitive advantage of the business proposition, human and financial resource requirements and the founders' skills.

Prerequisite(s): BUS 181 or instructor consent. Upper division standing.
Grading: Letter Graded

BUS5 182A - Startup Founders & Funders

3 unit(s)

Exploration of the early decisions that have important long-term consequences for founders and funders. Examines the motivations, mechanics and resources available for those interested in investing in early stage ventures as an angel investor or venture capitalist.

Grading: Letter Graded

BUS5 183 - Global Entrepreneurship

3 unit(s)

Will explore the opportunities that entrepreneurs create, encounter and change in the global and cross-cultural arena. It will examine how entrepreneurs adapt to and succeed in a global economy and how institutional networks facilitate global and immigrant entrepreneurship.

Prerequisite(s): Upper Division or instructor consent

Grading: Letter Graded

Sustainability Related - SDG 10: Reduced Inequalities

BUS5 184A - Management of Innovation

3 unit(s)

Discusses types of innovation and their impact. Analyzes industry practices in management of innovation for corporate growth and renewal through new products, processes, organization, and business models. Examines strategic and tactical aspects of the innovation process and alignment of innovation efforts with strategy.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

BUS5 185 - Family Business Dynamics

3 unit(s)

This course explores and analyzes the unique issues and challenges of family businesses in terms of the dynamic relationship between the family and business and its impact on decision-making and performance of the business.

Prerequisite(s): BUS5 181 or instructor consent.

Grading: Letter Graded

BUS5 186H - Entrepreneurship Laboratory

3 unit(s)

Explores all facets of growing an entrepreneurial organization, including building the team, sales, marketing, operations, and finance. Opportunity to learn with practical internship and roundtables with entrepreneurs, venture capitalists and others in the new venture ecosystem.

Prerequisite(s): Instructor's consent.

Grading: Letter Graded

BUS5 186V - Venture Lab

3 unit(s)

VLAB is an experiential course in which students work on the process of developing and testing the idea(s) for a new venture. The course combines theory with hands-on entrepreneurship. Students will test each aspect of the business model outside the class, and share the insights with their peers in class. By the end of the course, they will have completed a prototype and be able to demonstrate the business opportunity.

Prerequisite(s): Upper Division Standing or Instructor Consent

Grading: Letter Graded

BUS5 187 - Global Dimensions of Business

3 unit(s)

An integrative interdisciplinary course that provides an overview of economic, social, cultural, political and legal factors and institutional forces influencing cross-border business; introduces the global dimensions of business functions; develops the ability to identify and manage the unique opportunities and challenges presented in global business.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

BUS5 192 - International Program Studies

1-14 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

BUS5 194 - Business Organization and Management of Technology Enterprise

3 unit(s)

This course provides a "top down" overview of how commercial business works, including the business components: Corporate Environments, Human Resources, Legal, Marketing, Customer Insights, Management/Leadership. Communication and business soft skills will be covered providing a foundation for a solid business acumen. All class sessions focus on local and global perspectives.

Prerequisite(s): BUS 193 or ENGR 193.

Grading: Letter Graded

Cross-listed with ENGR 194. General Engineering is responsible for scheduling.

BUS5 196E - Startup Founders and Funders

3 unit(s)

Covers the early decisions that have important long-term consequences for founders and funders. It also examines the motivations, mechanics and resources available for those interested in investing in early stage ventures as an angel investor or venture capitalist.

Prerequisite(s): BUS5 181 or Instructor Permission

Grading: Letter Graded

Business - Graduate Level

BUS 200F - Leadership Communication for Finance Professionals

2 unit(s)

Hands-on course designed to simulate business communication scenarios encountered by finance professionals. Students will practice and apply both practical and theoretical aspects of organizational communication, including mechanics, style, and appropriateness of messages and methods based on specific organizational situations.

Grading: Letter graded.

BUS 200L - Leadership Communication

2 unit(s)

Hands-on course designed to simulate business communication scenarios encountered by professionals. Students will practice and apply both practical and theoretical aspects of organizational communication, including mechanics, style, and appropriateness of messages and methods based on specific organizational situations.

Prerequisite(s): Graduate Standing.

Grading: Letter Graded

BUS 200W - Business Research and Communications

3 unit(s)

Using a case approach, students will learn about communication within the business world, with the intention that they will practice interpersonal, team, and presentation skills that are expected of effective managers.

Prerequisite(s): Graduate standing. Restricted to Business - MBA majors only.

Grading: Letter Graded

BUS 201 - Business Communications

1 unit(s)

This business communications course develops students' written and oral communication skills, emphasizing clear, concise and coherent articulation via a multitude of channels: e-mails, memos, cover letters, resumes, presentations, reports, etc. The course enables students to continue practicing effective communication in all aspects of their academic and professional careers.

Grading: Letter Graded

BUS 202 - Managing in the Global Economy

3 unit(s)

This course investigates the world economy, including how markets, institutions and organizations vary from country to country, and how global competition, climate change, digital and emerging economics, and shifting from manufacturing to a service economy affect management practice.

Prerequisite(s): Graduate standing. Restricted to Business - MBA majors only

Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

BUS 203 - International Experience for American Executives

3 unit(s)

An intensive one-week program at one of the nine EMBA Consortium partner schools with opportunities to collaborate with classmates from around the globe. Develop your global business acumen while learning about the unique culture and business practices of the region you visit. The course consists of classroom work, company visits, and cultural experiences.

Prerequisite(s): Instructor Consent

Grading: Letter Graded

BUS 210 - Developing and Managing People

3 unit(s)

Based on the philosophy that increased self-awareness and effective self-management leads to more effective management of others, uses experientially focused, integrating models, principles, and activities.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Graduate standing. Restricted to Business - MBA majors only.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

BUS 220 - Financial Accounting

3 unit(s)

Introduces students to financial accounting, including the sources, applications, and limitations of accounting information used by managers within the firm and investors outside the firm.

Prerequisite(s): Graduate standing and restricted to Business - MBA and MSF majors only.

Grading: Letter Graded

BUS 220A - Financial Statement Analysis

3 unit(s)

Focuses on interpretation and analysis of financial information. Examines the relationship between financial statement information and capital markets, merging traditional valuation methodologies and technological advances.

Prerequisite(s): Graduate standing in MS Accountancy or MS Finance programs.

Grading: Letter Graded.

BUS 220B - Financial Reporting and Analysis I

3 unit(s)

Principles, control and theory of accounting for assets; correction of prior year's earnings; measurement and determination of income.

Prerequisite(s): MSA classified standing.

Grading: Letter Graded

BUS 220C - Accounting Information Systems I

3 unit(s)

Will provide conceptual framework concerning contemporary accounting information systems including: database concepts, internal control, use of systems technology, applications, management, systems analysis/design and auditing.

Prerequisite(s): MSA classified standing.

Grading: Letter Graded

BUS 220E - Financial Reporting and Analysis II

3 unit(s)

Continuation of Financial Reporting and Analysis I. Principles, controls, and theory of accounting for liabilities and equities; preparation, utilization, and analysis of cash flow statements; financial ratios and statistical analysis of financial statements accounting data.

Prerequisite(s): MSA classified standing.

Grading: Letter Graded

BUS 220F - Management Accounting and Control Systems

3 unit(s)

Provides the student techniques with an overview of the concepts and procedures of cost accounting relevant to managerial decision-making. Emphasizes planning and control, inventory valuation and income determination, and performance measurement.

Prerequisite(s): MSA classified standing.

Grading: Letter Graded

BUS 220G - Tax Factors of Business and Investment Decisions: Theory and Practice

3 unit(s)

Introduces essentials of tax research methodology, focusing on taxation of corporations and shareholders. Includes taxation of property transactions, deferral techniques, accounting periods, and accounting methods.

Prerequisite(s): MSA classified standing.

Grading: Letter Graded

BUS 220H - Auditing: Concepts and Practice

3 unit(s)

Discusses the public accounting profession and its socio-economic role; auditing techniques with an emphasis on EDP environment; audit procedures, practice and programs; working paper preparation; unqualified and qualified report writing.

Prerequisite(s): MSA classified standing. Graduate Standing only.

Grading: Letter Graded

BUS 220I - Forensic Accounting

3 unit(s)

Course will examine the frauds perpetrated on companies and methods of discovery. The criminal justice system will be reviewed and litigation support services provided by accountants to attorneys, including damage computations and testifying techniques and skills will be covered.

Grading: Letter Graded

BUS 220J - Business Communications & Ethics

3 unit(s)

Emphasizes communication effectiveness and skill building for influencing and guiding people. Includes fundamental skill building in researching, organizing and writing reports, making persuasive presentations that are sensitive to the needs and requirements of clients, peers and managers.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): MSA classified standing.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

BUS 220K - Accounting Practicum

3 unit(s)

The Accounting Practicum is an internship with an accounting firm or corporate finance group. This provides opportunities to apply program content to real-world environments, gain appreciation of work expectations and demands, and relate field experience to remaining program curriculum.

Prerequisite(s): MSA classified standing.

Grading: Credit/No Credit

BUS 220M - Accounting Ethics

3 unit(s)

Examines professional ethical standards for accountants. Focuses on professional codes of conduct and

workplace decisions for professionals in the fields of auditing, managerial accounting and taxation.

Prerequisite(s): BUS 220H, Graduate Standing only.

Grading: Letter Graded

BUS 220P - Taxation of Individuals and Flow-Through Entities

3 unit(s)

Taxation of individuals and pass-through entities (partnerships, LLCs, S corporations, estates and trusts) with emphasis on unique rules and factors in the Internal Revenue Code and Treasury Regulations.

Prerequisite(s): MSA classified standing.

Grading: Letter Graded

BUS 220R - Data Analytics for Accounting

3 unit(s)

Technology to store and analyze accounting data including relational and non-relational databases. Analysis and visualization of structured and unstructured data using modern methodologies such as snowflake schemas, sentiment analysis, process automation, and transaction analysis.

Prerequisite(s): BUS 220C or equivalent. MSA Graduate program standing.

Grading: Letter Graded.

BUS 220S - Financial Reporting and Analysis III

3 unit(s)

Accounting for multi-unit operations: consolidated reporting issues, transfer pricing issues, globalization issues (foreign tax structures, organizational forms and international accounting), translation of foreign currency transactions and operations, hedging foreign currency exposures, goodwill and brief exposure to business combinations.

Prerequisite(s): MSA classified standing.

Grading: Letter Graded

BUS 220U - Information Technology Audit

3 unit(s)

Analytical methods to assess risk and controls for computerized accounting information systems. Artificial intelligence to identify patterns and assist in the audit of structured and unstructured data. Generative AI for audit support.

Prerequisite(s): MSA Classified Standing.

Grading: Letter Graded.

BUS 220V - Special Topics in Accounting

3 unit(s)

Current special topics in accounting including an understanding of the financial accounting policies and procedures followed by state, county, and municipal governments, universities, and other non-profits for accounting and budgeting of the receipt and expenditure of tax and related revenues.

Prerequisite(s): MSA Classified Standing.
Grading: Letter Graded

BUS 220X - Business Analysis and Valuation Using Financial Statements

3 unit(s)

Development of Accounting based valuation framework that integrates a firm's strategy, accounting performance, and value; assessing a firm's value proposition and identifying key value drivers and risks; evaluating degree to which a firm's accounting policies capture the underlying business reality.

Prerequisite(s): MSA classified standing.
Grading: Letter Graded

BUS 220Z - Advanced Data Science and Analytics for Accounting

3 unit(s)

Advanced data science and analytics to solve real-world problems. Using software development kits (SDKs), extract, transform, and load data (ETL) to create and populate database schemas. Use supervised and unsupervised ML and AI techniques to conduct predictive analytics, Monte Carlo simulations, decision trees, prediction, classification and clustering. Visualize and present analysis results with the help of generative AI tools.

Prerequisite(s): Graduate standing in MS Accountancy program.
Grading: Letter Graded.

BUS 222 - Profit Planning and Control

3 unit(s)

Course covers how financial planning and control systems operate, and are used to deploy strategy, align interests, improve operations, and facilitate strategic change, maximizing firm value. Includes disciplined processes of decision-making, resource allocation, performance measurement to link strategy, management action, and shareholder accountability.

Prerequisite(s): BUS 220 and graduate standing.
Grading: Letter Graded

BUS 223A - Tax Research and Decision Making

3 unit(s)

Develops basics for tax research and evaluates the interrelationships of statutes, regulations, rulings and court cases. Identifies tax services and other primary research materials with emphasis on their use in tax decision-making. Emphasizing critical thinking and communication skills.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Graduate standing.
Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

BUS 223B - Taxation of Partnerships

3 unit(s)

Income tax treatment of partners and partnerships and LLCs, including the creation, operation, liquidation and sale or other amalgamation of organizations. Special allocation and non-recourse debt arrangements are also covered.

Prerequisite(s): BUS 223A and BUS 223G

Grading: Letter Graded

BUS 223F - Tax Accounting Methods/Periods

3 unit(s)

Definition and importance of accounting methods and periods; timing rules for income, expenditures, inventory and R&D; change procedures; special methods; book-tax differences; introduction to provision for income taxes.

Pre/Corequisite(s): BUS 223A

Grading: Letter Graded

BUS 223G - Taxation of Business Entities

3 unit(s)

Income tax treatment of different types of business entities and their owners. Focuses on operations, reporting, formation, restructuring and termination. Selected special state and international tax rules, tax planning, and underlying tax policies also covered.

Corequisite(s): BUS 223A

Grading: Letter Graded

BUS 223H - Tax Policy Capstone

3 unit(s)

Capstone course that examines the principles and policies that underlie and shape tax systems and rules. Students gain a broader perspective of the tax law beyond its technical application, and learn how tax, economic, social and environmental policies interact.

Prerequisite(s): BUS 223A, BUS 223F, BUS 223G

Grading: Letter Graded

BUS 225A - Taxation of Estates and Trusts

3 unit(s)

Excise and transfer tax treatment of estates, gifts, trusts, creators, beneficiaries and fiduciaries. Distinguishes between revocable and irrevocable trusts, including proper trusts to achieve desired goals. Reviews taxation of asset sales and dissolution or liquidation of estates or trusts. Analyzes estate evaluation, family limited partnerships, trusts, GST, and planning opportunities.

Pre/Corequisite(s): BUS 223A

Grading: Letter Graded

BUS 225B - Taxation of Corporate Reorganizations

3 unit(s)

Income tax treatment of corporate reorganizations and amalgamations, including acquisitions, tax-free and taxable as well as corporate division. Tax treatment of net operating losses, earnings and profits, property basis and other corporate attributes.

Prerequisite(s): BUS 223A and BUS 223G

Grading: Letter Graded

BUS 225C - International Tax - US Corporations with Foreign Activities

3 unit(s)

Taxation of outbound investment and activities of the US corporations. Topics include sourcing, foreign tax credit, subpart F, Sections 482 and 367, foreign currency, establishing foreign operations, state taxation of outbound operations, and issues affecting expanding US multinational technology firms.

Prerequisite(s): BUS 223G and BUS 225W

Grading: Letter Graded

BUS 225E - Data Analytics and Security

3 unit(s)

Understanding and hands-on practice of identifying and using data for tax and accounting applications, when and how to use, practice with key tools. Understand security issues in tax work and practices and tools for avoiding problems.

Prerequisite(s): MST Graduate Standing

Grading: Letter Graded

BUS 225F - State Taxation Fundamentals

3 unit(s)

Introduction to the legal foundation, nature and operation of key state and local taxes. Constitutional constraints regarding nexus, sourcing and apportionment are covered. Additional topics include research techniques, compliance and planning considerations, current issues and state tax reform.

Pre/Corequisite(s): BUS 223A

Grading: Letter Graded

BUS 225G - Taxation of S Corporations

3 unit(s)

Topics include: Income tax treatment of S Corporations and their shareholders, built-in gains tax and excess net passive income tax; operating and distribution rules, shareholders basis, NOL pass-through rules; formation, reorganizations, QSUBS, and state income tax consequences.

Prerequisite(s): BUS 223A and BUS 223G

Grading: Letter Graded

BUS 225H - Taxation of Property Transactions

3 unit(s)

Key rules and planning considerations of property development, transfer, lease, abandonment, worthlessness, and destruction; depreciation and amortization; special types of intangibles and relevant tax rules; property indebtedness; sale of a business; tax-deferred transactions; sale of a principal residence; and basics of non-income taxes applicable to property and property transactions.

Pre/Corequisite(s): BUS 223A

Grading: Letter Graded

BUS 225I - Tax Practices, Penalties and Procedures

3 unit(s)

Procedures applicable to filing returns, amended returns and claims for refund. Also covers key procedural matters governing examinations, appeals, and adjudication of disputes. Relevant penalty provisions and rules of conduct are also examined. While the focus is on federal rules, key procedural differences in California law are also covered.

Pre/Corequisite(s): BUS 223A

Grading: Letter Graded

BUS 225K - Advanced Individual Taxes

3 unit(s)

Course includes interest tracing, passive activity losses, net operating losses, divorce, AMT's impact on individuals and individual California income taxes.

Pre/Corequisite(s): BUS 223A, Graduate Standing only.

Grading: Letter Graded

BUS 225L - Accounting for Income Taxes

3 unit(s)

Financial accounting rules regarding the calculation and presentation of a company's provision for income taxes.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

BUS 225P - Advanced International Tax - US Corporations

3 unit(s)

Advanced study of income tax treatment of international corporate transactions including international reorganizations and Section 367, Section 304 and corporate inversions. Planning for intangibles, subpart F planning, foreign entity structuring including use of check-the-box entities, foreign currency transactions, and foreign tax credit planning.

Prerequisite(s): BUS 223A and BUS 225C

Grading: Letter Graded

BUS 225Q - Tax Practicum

3 unit(s)

Internship with an accounting firm or corporate tax department. Provides opportunities to apply program content to real-world environments, gain appreciation of work expectations and demands, and relate field experience to remaining program curriculum.

Prerequisite(s): BUS 223A and BUS 223G.

Grading: Credit/No Credit

BUS 225S - Consolidated Returns

3 unit(s)

Review and analysis of theory, rules and practice involving affiliated entities and filing of consolidated returns.

Prerequisite(s): BUS 223A and BUS 223G

Grading: Letter Graded

BUS 225U - Fundamentals of Transfer Pricing

3 unit(s)

Introduction to the fundamental principles of intercompany pricing, applications of transfer pricing methods to related party transactions under U.S. transfer pricing regulations and OECD Guidelines, and the economic analysis required for intercompany transactions of multinational corporations.

Prerequisite(s): BUS 223A and BUS 225W

Grading: Letter Graded

BUS 225V - Tax Considerations for High Tech Companies

3 unit(s)

Explores the nature of high tech companies, special features, and why tax issues exist. In depth learning about tax incentives for innovation including the research credit, treatment of intangibles, stock options, multi-stage financing, multijurisdictional considerations, and book-tax differences.

Prerequisite(s): BUS 223A

Grading: Letter Graded

BUS 225W - Introduction to International Taxation

3 unit(s)

Introduction to the structure, basic rules, and policies of the federal income tax system with respect to international transactions of US and foreign persons. Topics include residency, sourcing, tax treaties, foreign tax credit, transfer pricing, and compliance.

Prerequisite(s): BUS 223A, BUS 223G

Grading: Letter Graded

BUS 225X - International Taxation - US and Foreign Individuals

3 unit(s)

Taxation of US and foreign individuals with investments and activities outside their home country. Topics include FTC, treaties, withholding taxes, US expatriates, foreign nationals, mobile employees, and compliance considerations, including US Bank Secrecy Act, FATCA and PFICs.

Prerequisite(s): BUS 223A and BUS 225W

Grading: Letter Graded

BUS 227A - Individual Tax Compliance

1 unit(s)

Basics of federal income tax compliance from information gathering to return filing. Includes practice preparing various individual forms and schedules, software tools, engagement letters, rules of conduct, disclosures, record keeping, key California adjustments, and completion of a moderately complex Form 1040.

Corequisite(s): BUS 223A.

Grading: Letter Graded

BUS 227B - Ethics for Tax Practitioners

1 unit(s)

Review of rules of conduct, tax penalties and professional ethical behavior relevant to tax compliance and planning. Key rules applicable to a CPA are covered in the context of their application in the day-to-day work of a tax practitioner.

Prerequisite(s): Graduate Standing only.

Corequisite(s): BUS 223A.

Grading: Letter Graded

BUS 227C - Tax Symposium

1 unit(s)

Tax symposium topics may vary from year to year to allow for focus on new developments or special tax topics. Check the MST schedule for the topic description.

Course may be repeated for credit for up to 3 units.

Corequisite(s): BUS 223A.

Grading: Letter Graded

BUS 227D - Employment Taxation and the Modern Workforce

1 unit(s)

An overview to the types of employment tax and related issues that can arise for companies and workers when employees telecommute or have multiple work locations. The basics of federal employment taxes are covered along with worker classification rules as well as selected state and international tax issues and rules relevant for today's workforce.

Pre/Corequisite(s): BUS 223A

Grading: Letter Graded

BUS 227E - Foundation for Understanding Taxation

1 unit(s)

Legal foundation of taxes, types of taxes, and underlying theories, definitions and concepts. How to analyze transactions and activities for tax consequences. Helps strengthen one's overall understanding of taxation and application of analytical skills to resolving tax issues.

Prerequisite(s): Undergraduate tax course

Grading: Letter Graded

BUS 227F - Personal and Business Leadership Skills for Tax Practitioners

1 unit(s)

Learn the intrapersonal and interpersonal skills and knowledge a tax practitioner needs for personal and professional success. Includes listening, oral and written communication, ethical reasoning, relationship and team building, establishment and assessment of accountability measures, time management, and career planning.

Prerequisite(s): Graduate Standing

Grading: Letter Graded

BUS 227G - Tax Compliance & Planning (TCP)

1bus unit(s)

Course is designed for students preparing for the Tax Compliance & Planning (TCP) portion of the CPA exam. Content focuses on exam areas not covered elsewhere in the MST program, exam preparation strategies, and tax planning for individuals and business entities for both exam prep and tax practice.

Pre/Corequisite(s): BUS 223A, BUS 223G.

Grading: Letter Graded.

BUS 230 - Marketing Management

3 unit(s)

Fundamental concepts and skills required for understanding markets and managing marketing efforts. Includes market orientation, consumer and industrial buyer behavior, market segmentation, target market identification, product development, pricing, distribution channels, marketing communication, strategy development, and marketing planning and control.

Prerequisite(s): Graduate standing. Restricted to Business - MBA majors only

Grading: Letter Graded

BUS 231 - Consumer and Market Behavior

3 unit(s)

Influence of consumer behavior upon marketing management strategy; examination of behavioral concepts as they relate to purchase decisions; types of consumer research instructions and applications; focus on buyer behavior in action-oriented environments.

Prerequisite(s): BUS 230 and graduate standing.

Grading: Letter Graded

BUS 233 - Business to Business Marketing

3 unit(s)

Course deals with business-to-business marketing, that is, the marketing of goods, services, and ideas to business and non-retail institutions. Covers product, price, promotion and distribution with emphasis on strategy development and marketing decision-making.

Prerequisite(s): BUS 230 and graduate standing.

Grading: Letter Graded

BUS 234A - Social Media Marketing

3 unit(s)

Approaches to social media marketing. Benefits and opportunities companies face as online social networking influences company marketing strategies. Use of emerging technology to promote brand awareness and strategies for social recovery.

Grading: Letter Graded

BUS 235A - Introduction to Business Analytics

3 unit(s)

Many successful companies derive their competitive edge from the innovative use of business analytics. Students will master several fundamental skills for business analytics: data manipulation, data visualization, and statistical modeling. Students will make extensive use of the R statistical environment, a cutting-edge business analytics tool.

Prerequisite(s): Graduate Standing only.

Grading: Letter Graded

BUS 235B - Business Research

3 unit(s)

This course introduces participants to 21st Century business research methodology. The emphasis here is not on issues related to ongoing data sources but rather to unique, one-time problems that are best solved with custom research projects. Quantitative methods are emphasized but the advantages of the qualitative perspective are not overlooked. Other topics include questionnaire design, data collection, analysis, and presentation, highlighting appropriate new technology. The aim is to prepare managers to conduct research as well as to enable them to engage collaboratively with their research consultants.

Prerequisite(s): Graduate Standing only.

Grading: Letter Graded

BUS 235C - Data Mining for Business Analytics

3 unit(s)

Data mining is used to discover patterns and relationships in data. Emphasis is on large complex data sets such as those in transactional databases or gathered through web mining. Topics: data visualization, association rules, clustering, and various modern classification techniques.

Prerequisite(s): Graduate Standing only.

Grading: Letter Graded

BUS 235D - Business Analytics Simulation

3 unit(s)

Transforming diverse data into knowledge-driven business decisions. Participants make tactical and strategic decisions based on consumer, competitor, aggregate market, financial, etc. Success is gauged by monitoring a dashboard that includes manufacturing productivity, return on investment, investment in the future, market share, product quality, financial performance, etc.

Prerequisite(s): Graduate Standing only.

Grading: Letter Graded

BUS 235E - Data Visualization and Management

3 unit(s)

Learn the essential SQL and Tableau skills for business analytics. Use SQL to select, filter, sort, aggregate, and join data. Learn a variety of visualization methods in Tableau, including building interactive Dashboards and telling stories with data.

Grading: Letter Graded

BUS 235F - Forecasting for Business Analytics

3 unit(s)

Learn about time series and forecasting methods for business. Identify trends and seasonal patterns. Perform smoothing, regression modeling, and ARIMA using modern business analytics software.

Grading: Letter Graded

BUS 237 - Sales Management

3 unit(s)

Learn to recognize and capitalize on emerging market opportunities. Develop ability to manage different personality types, enhance communication skills, and increase cultural sensitivity. Sales forecasting, training, motivational techniques, and ethics.

Grading: Letter Graded

BUS 240 - Electronic Commerce

3 unit(s)

Focuses on organizational uses of information technology, impacts of IT on organizational operations and strategies, and increasing importance of Internet in business activities. Covers fundamentals of IT, organizational applications of IT and Internet, and successfully developing and implementing IT-based applications.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

BUS 243 - Database Management

3 unit(s)

Introduction to database approach of planning, design and implementation of information systems applications in organizations from the viewpoint of the manager as a knowledgeable user. Includes data modeling, data integrity and practical project assignments.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

BUS 244 - Information Technologies for Business: Essentials & Emerging

3 unit(s)

Exposes students to a range of technologies, assignments, and case studies that will help them develop the skills and knowledge needed to leverage technology in their own business fields. By gaining a solid understanding of technology in business, students will be equipped to succeed in the modern workplace and contribute to the growth and success of their organizations.

Prerequisite(s): Graduate standing. Restricted to Business - MBA Students.

Grading: Letter Graded.

BUS 247 - Big Data Management

3 unit(s)

Exploration of Big Data and how businesses are succeeding (or failing) in using it. Learn to extract value from Big Data by getting data ready for analysis ("data wrangling"), and by understanding and communicating the business value.

Grading: Letter Graded

BUS 248 - Cyber Risk Management

3 unit(s)

This course surveys cyber risk management concepts and best practices. Topics include cyber security threats, countermeasures, vulnerabilities, cost/benefit analysis, incident handling/response, business contingency planning, ethics, and legal imperatives within the organizational context.

Grading: Letter Graded

BUS 250 - Law and Ethics

3 unit(s)

Course focuses on both law and ethics in the business environment, how individuals and organizations approach law and ethics, as well as the ethical, legal and social consequences of disregarding law and ethics in favor of other objectives.

Prerequisite(s): Graduate standing. Restricted to Business - MBA majors only

Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

BUS 251 - Strategic Human Capital Performance Management

3 unit(s)

This course utilizes case and research discussions as well as quantitative costing and utility analyses to develop practical skills in the global deployment of human resources to achieve and sustain strategic competitive advantage.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

BUS 252 - Managing Organizational Change

3 unit(s)

The focus will be upon applied organizational change by covering organizational behavior from a normative, policy-oriented perspective. The perspective will be one of viewing the person (student) as an actual or potential change agent; a consultant (internal or external), innovative personnel specialist, or middle or top level manager.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

BUS 253 - Negotiation and Conflict Management

3 unit(s)

Introduces a theoretical framework and skill-building exercises/simulations for negotiating agreements in adversarial or competitive relationships. Explores conflict resolution methods applicable to commercial transactions, employee relations, union management negotiation and contract disputes, as well as international diplomacy.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

BUS 255 - Diversity in the Workforce

3 unit(s)

Analysis of communication, leadership, motivation, group dynamics, decision-making, problem solving, training, change, conflict resolution and other behavioral concerns as they apply to the management of the multicultural workforce.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

BUS 260 - Managerial Decision Analysis

3 unit(s)

Concerns the inherent complexities in the process of choice. Covers decomposition of the decision environment, the use of decision trees, value theory, analysis of criterion, the statistical measurement of risk and uncertainty, preposterior analysis, and problems of collective choice.

Prerequisite(s): Business statistics and graduate standing; restricted to Business - MBA majors only

Grading: Letter Graded

BUS 262 - Leadership

3 unit(s)

Explores classic and contemporary models of leaders and leadership and defines the difference between management and leadership. Practical applications of theory emphasizing the contingency perspective.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

BUS 262A - Global Leadership and Innovation

3 unit(s)

A focused approach to how global leadership fosters innovation and global change. The course integrates a business, industry, and ecosystem perspective on leading innovation and change. A variety of learning tools including analysis of case studies and the development of actionable consultative reports. Participants learn how to foster innovation at all levels of the organization, in themselves, and in those they lead in global industries. Counts towards Advanced Global Leadership Certificate.

This course provides an in-depth introduction to global leadership and its development and to fostering innovation and global change. Through assessments and behavioral simulations, it prepares students to do global work effectively in a complex context with people from various cultures.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

BUS 262B - Global Leadership Development

3 unit(s)

Development of leadership skills for personal self-awareness and organizational growth outcomes required in innovative global environments. The course explores classic and contemporary models of leadership in a multi-domain context using evidence-based management approaches. Emphasizes the experiential nature of applying these skills in organizations to address the challenges in the innovative global workplace. Counts towards Advanced Global Leadership Certificate.

Prerequisite(s): Graduate Standing.

Grading: Letter Graded.

BUS 265 - Silicon Valley Experience

2 unit(s)

This course is designed to develop the "whole student" for success in the business world, including professionalism, ethics, case competitions, communications, networking, career success, and work/life balance. It includes lectures, speakers, panels, competitions, and other events providing students with an in-depth exposure to Silicon Valley.

Grading: Letter Graded

BUS 265F - Silicon Valley Experience for Finance Professionals

1 unit(s)

Develop the "whole student" for success in the business world, including professionalism, ethics, case competitions, communications, networking, career success, and work/life balance. Includes lectures,

speakers, panels, competitions, and other events providing students with an in-depth exposure to Silicon Valley.

Grading: Letter graded.

BUS 265P - Silicon Valley Experience for Professionals

1 unit(s)

Supports professionals as they advance into managerial roles. Focus is on advanced soft-skills, communication skills, career planning, and leadership development. Class consists of roundtable discussions, career coaching, presentation feedback, and soft-skills workshops. Speaker events and company visits are also incorporated.

Prerequisite(s): Graduate Standing.

Grading: Letter Graded

BUS 268 - Managing Across Cultures

3 unit(s)

A comprehensive foundation for understanding, managing, and successfully interacting in the multi-faceted, culturally-embedded contexts of multinational firms. Understanding major issues facing multinational corporations in the management of international operations including what fosters innovative environments; insights into cultural, historical and institutional factors; managing innovation across cultures; skills for working effectively in international multicultural teams. Counts towards Advanced Global Leadership Certificate.

Prerequisite(s): Graduate standing.

Grading: Letter Graded.

BUS 270 - Financial Management

3 unit(s)

Introduces the structure, markets and regulatory factors within the financial system. Develops basic skills in preparing financial plans/budgets, valuing capital costs, financial assets and evaluating the firm's capital structure, cost of capital, working capital, dividend policies, financing and investment decisions.

Prerequisite(s): Graduate standing; restricted to Business - MBA and MSF majors only.

Corequisite(s): BUS 220

Grading: Letter Graded.

BUS 270A - Financial Planning and Analysis

3 unit(s)

Introduces financial metrics, analytic tools, and use of accounting information for financial analysis, budgeting, forecasting, and control. Develops skills to provide management with the relevant financial information for the efficient and profitable use of the company's resources.

Prerequisite(s): BUS 270.

Grading: Letter graded.

BUS 270B - Financial Derivatives for Corporate Finance

3 unit(s)

Introduces financial derivatives such as forwards, futures, options, and swaps at a graduate level with a special emphasis on the application to corporate finance. Financial derivatives will be applied not only to valuation of various securities, but also to capital budgeting, compensation, raising capital, and financial risk management.

Prerequisite(s): BUS 270.

Grading: Letter graded.

BUS 270C - Financial Modeling and Data Visualization

3 unit(s)

Presents the practical application of financial management theories and concepts. Emphasis is placed on computer-based modeling and forecasting using MS Excel, machine learning, and other tools to forecast the impact of financial decisions concerning financial statement analysis, capital budgeting, cost of capital, and capital stock allocation. Variety of techniques such as sensitivity and scenario analysis, optimization methods, and regression analysis are used throughout the course.

Prerequisite(s): BUS 270.

Grading: Letter graded.

BUS 270D - Case Studies in Corporate Finance

3 unit(s)

Advanced study of corporate finance case materials integrating finance theory and business practice. Use of statistical techniques to analyze big data in case studies. Apply best practices in financial analytics, project management, information management and knowledge management. Topics include assessing financial conditions; valuation, cash flow, and capital budgeting analysis; and decision-making pertaining to working capital, capital expenditures, capital allocation, capital structure, payout policy, IPOs, mergers, acquisitions, divestitures, FinTech, ethics, and corporate governance.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): BUS 270.

Grading: Letter graded.

Note(s): This course satisfies graduate-level GWAR in this master's program.

BUS 270S - Special Topics in Finance

3 unit(s)

Special topics in finance to augment regularly-scheduled electives in the MS Finance program.

Course may be repeated for credit up to 9 units.

Prerequisite(s): Graduate standing.

Grading: Letter graded.

BUS 273 - Business Valuation

3 unit(s)

Course uses accounting and market data to determine the value of public and private businesses. The course considers methods and models whereby business values are created and destroyed. Techniques, from basic rules of thumb to holistic computer models are considered.

Prerequisite(s): BUS 220 and BUS 270.

Grading: Letter Graded

BUS 276 - New Venture Finance

3 unit(s)

New ventures face different business and financing environments than large, publicly-traded firms. The risk of R&D failure is more severe for new ventures. Examines how business and financing decisions are intertwined. Topics: Venture capital, joint ventures and intrapreneurship.

Prerequisite(s): BUS 270 and graduate standing.

Grading: Letter Graded

BUS 277 - Investment Analysis and Management

3 unit(s)

Principles of financial and portfolio analysis applied to investments in common stocks and bonds. Descriptive characteristics of financial markets reviewed, with main emphasis on application of financial theory and statistics to understanding movements in security prices and portfolio values. A financial management viewpoint will be taken in conducting fundamental valuation analysis and formulating portfolio policy.

Prerequisite(s): BUS 270 and graduate standing.

Grading: Letter Graded

BUS 280 - Operations and Supply Chain Management

3 unit(s)

Analysis of effective and efficient flow of materials, products, services, and information within and across organizations. Includes: process flow analysis, capacity planning, quality, lean supply chain, layout, aggregate planning, supply chain networks, inventory management, sourcing, ERP, and logistics planning.

Prerequisite(s): Graduate standing. Restricted to Business - MBA majors only

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

BUS 280IS - Independent Study

1-6 unit(s)

Independent study for the student with a specific project in mind, in an area not covered by existing coursework. The student must submit a one-page formal proposal to be accepted by an assigned faculty member and approved by the appropriate graduate program director. Number of units assigned are based on depth and breadth of project.

Course may be repeated for credit for up to 6 units.

Grading: Credit/No Credit

BUS 282A - Essentials of Management and Organizational Behavior

3 unit(s)

Familiarizes students with the challenges that arise for managers in organizational settings; surveys theories and practices relating to managerial roles, organizational cultures, strategy, planning, team building, communication, motivation, leadership, decision-making, control, structure, and change.

Prerequisite(s): Enrollment in the MBT program.

Grading: Letter Graded

BUS 282B - Essentials of Operations Management

3 unit(s)

Familiarizes students with the role and importance of operations management and how it interacts with other parts of the organization; develops skills in applying analytical tools and techniques to operations management challenges.

Prerequisite(s): Enrollment in the MBT program.

Grading: Letter Graded

BUS 283 - Entrepreneurship

3 unit(s)

Examines the growth and nature of entrepreneurship and the support infrastructure of tasks, people, finances and technology. Emphasizes entrepreneur characteristics sought by venture capitalists and investors, role of the business plan and evolutionary stages of start-up activity.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

BUS 284 - Managing Product Development

3 unit(s)

Views product development as a cross-functional business process. Examines concepts used and management challenges faced in structuring product development activity and in strategically managing a portfolio of product development projects.

Prerequisite(s): Graduate Standing.

Grading: Letter Graded

BUS 284C - Managing Medical Product Development

3 unit(s)

Views medical product development as a cross-functional business process. Examines concepts used and management challenges faced in structuring medical product development activity and in strategically managing a portfolio of medical product development projects. Examines industry practices and cases relevant to medical product development.

Prerequisite(s): Admission to MPDM program and completion of BUS 224C , BUS 286 and SMPD 289A.

Grading: Letter Graded

BUS 286 - Project Management

3 unit(s)

Covers both strategic and operational points of view for managing projects. Quantitative methods include project planning, budgeting, selection, scheduling, evaluation and control. Qualitative methods include project organization, staffing and team building.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

BUS 290 - Strategic Thinking

3 unit(s)

Integrative focus on managing the total enterprise, including corporate and business-level strategy formation. Applies market and industry analysis, using qualitative and quantitative techniques, to position companies in their competitive environment. Students create a strategic plan for on-going or new organization.

Prerequisite(s): Completion of BUS 201, BUS 202, BUS 210, BUS 220, BUS 230, BUS 250, BUS 260, BUS 270, BUS 280 and graduate standing; restricted to Business - MBA majors only. for MBA for Professional students: BUS 200W, BUS 202, BUS 210, BUS 220, BUS 230, BUS 250, BUS 260, BUS 270, BUS 280 and graduate standing; restricted to Business - MBA majors only.

Grading: Letter Graded

Note(s): Must receive a minimum grade of "B" on project.

Sustainability Related

BUS 292 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

BUS 294 - Management Simulation Competition

3 unit(s)

Developing analytical and general management decision-making skills as member of a team competing in the regional business schools' management simulation game. Extensive use of computers for simulation and analytical/planning tools.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

BUS 297A - Special Topics in Business Administration

1-4 unit(s)

Special topics to augment regularly-scheduled electives.

Prerequisite(s): Graduate standing and prerequisite courses as specified.

Grading: Letter Graded

BUS 297D - Special Topics in Business Administration

3 unit(s)

Special topics to augment regularly-scheduled electives.

Prerequisite(s): Graduate standing and prerequisite courses as specified.

Grading: Letter Graded

BUS 298 - Master's Project

3 unit(s)

Supervised completion of the Plan B (Project) culminating experience.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Advancement to Candidacy and instructor consent. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

BUS 298C - Applied Business Experience Internship

3 unit(s)

The course provides students with an opportunity to translate their academic training into real world practice and gain overall knowledge of key functional areas of business. The internship must offer students a valuable learning experience and must significantly increase their knowledge of business organizations. Students are responsible for identifying a specific internship opportunity and obtaining an official offer from an employer. Upon approval from the MBA Director, the students will be able to enroll in the 3-unit course which will count as one of the MBA electives. The course requires the preparation of an internship journal & report. The internship qualifies as Curricular Practical Training (CPT) for international students.

Prerequisite(s): Advancement to Candidacy

Grading: Letter Graded

BUS 298I - Applied Business Experience Internship

1 unit(s)

For the student with a specific internship providing a quality experience that reinforces the curriculum and involves meaningful work. The student must submit a one-page formal proposal to the graduate program director. A final report is required. The internship must qualify as Curricular Practical Training (CPT) for international students.

Course may be repeated for credit for up to 2 units.

Prerequisite(s): Approved advancement to candidacy.

Grading: Mandatory Credit/No Credit/RP

BUS 299 - Master's Thesis

1-4 unit(s)

Master's Thesis Plan A.

Prerequisite(s): Approval of the instructor and advancement to candidacy. Not available to Open University Students

Grading: Mandatory Credit/No Credit/RP

Business - Hospitality, Tourism and Event Management

HSPM 1 - Travel to Learn, Learn to Travel

3 unit(s)

Course examines the relations among tourists, locals, and the tourism industry and how the global tourism industry facilitates diverse travelers' travel experience from beginning to end. Focus on the industry's history, growth, development, impacts, trends, technology and career opportunity.

Grading: Letter Graded.

Sustainability Related - SDG 8: Decent Work and Economic Growth

HSPM 11 - Restaurant Entrepreneurship

3 unit(s)

The comprehensive process of conceptualizing, planning, starting, and managing a restaurant business. The topics cover business planning, operations, menu planning, staffing, marketing, and customer service.

Grading: Letter Graded.

HSPM 12 - Data Analytics in Restaurant Operations

3 unit(s)

A comprehensive exploration of the essential aspects of restaurant data, including sales trends, customer behavior, operational efficiency, marketing impact, financial management, employee performance, and menu optimization.

Grading: Letter Graded.

Cross-listed with NUFS 12. Hospitality Management is responsible for scheduling.

HSPM 20 - Sanitation and Environmental Issues in the Hospitality Industry

2 unit(s)

Sanitation in food service, hotel and travel/tourism industries; study of pathogenic organisms and food handling procedures. Occupational health, safety and environmental control in the hospitality industry.

Grading: Letter Graded

Cross-listed with NUFS 20. Nutrition, Food Science and Packaging is responsible for scheduling.
Sustainability Related - SDG 8: Decent Work and Economic Growth

HSPM 22 - Catering and Beverage Management

3 unit(s)

Planning and executing catering and buffet functions. Evaluation of alcoholic and non-alcoholic beverages regarding purchasing, storage, preparation, merchandising and regulations.

Misc/Lab: Lecture 2 hours /lab 3 hours.

Prerequisite(s): NUFS 20 or instructor consent.

Grading: Letter Graded

Cross-listed with NUFS 22. Nutrition, Food Science and Packaging is responsible for scheduling.

HSPM 65 - Professional Seminar in Hospitality Mgmt (To Be Inactivated after Fall 2022)

1 unit(s)

Designed for students who have declared a major in the Hospitality, Tourism and Event Management degree. The topics selected will facilitate the student's entry into the academic program and the profession of hospitality management.

Corequisite(s): HSPM 1.

Grading: Letter Graded

Note(s): This course is part of the teach out plan for the Hospitality, Tourism, and Event Management BS. It will be offered in Fall 2021 and Fall 2022. The course will subsequently be discontinued.

HSPM 86 - Special Events Management in Hospitality

3 unit(s)

Hands-on experience in the operation, coordination, and management of special events as they relate to hospitality and tourism. Students develop management skills and experience in planning and execution of a major event.

Course may be repeated for credit for up to 6 units.

Grading: Letter Graded

HSPM 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to

study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

HSPM 101 - Multicultural & Intl Issues Hospitality

3 unit(s)

Multicultural/international issues in the hospitality industry; historical, socioeconomic, cultural and linguistic variables presented in relationship to these issues.

Grading: Letter Graded.

Sustainability Related - SDG 8: Decent Work and Economic Growth

HSPM 102 - Hotel & Lodging Operations

3 unit(s)

Principles of organization, management, and decision models applied to the tasks and challenges of hotel operations. Involves techniques of problem-solving (including planning, organizing, staffing, directing, and controlling operations) in areas of front office operations, housekeeping, food/beverage, and personnel.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

HSPM 108 - Hospitality Information Systems

3 unit(s)

Focuses on the application of various information systems to the management of facilities, programs, services, finances and accounting, products, marketing and sales, human resources and other major functions of hospitality, recreation, and tourism organizations/agencies.

Grading: Letter Graded

HSPM 111 - Customs and Courtesies in Hospitality

3 unit(s)

An exploration of a variety of customs and courtesies that demonstrate the influences of history, traditions, social customs, religious beliefs, language, and other cultural elements on hospitality service etiquette and manners in different cultures and countries.

Grading: Letter Graded

HSPM 130 - Special Event Planning

3 unit(s)

Planning and production of a special event related to tourism and hospitality. Topics include setting event goals, developing the event plan, site selection, event infrastructure, guest experience, event technology,

marketing, event analytics, budget, risk management, on-site management, and career opportunities.

Grading: Letter Graded

HSPM 140 - Corporate Event Management

3 unit(s)

Corporate event planning, production, and management through examinations of the corporate's goals and the planner's role. Topics include industry overview, types of corporate events, typical event components, technology, event branding and marketing, entertainment, guest experience, budgeting, evaluation, and career opportunities.

Grading: Letter Graded

HSPM 141 - Resort and Club Management

3 unit(s)

Management and operation of resort and private club properties from their historical development to their economic and environmental impact; marketing and managing of services provided by these facilities within the leisure industry.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

HSPM 142 - Trade Show and Exhibition Management

3 unit(s)

Management and operations of trade shows and exhibitions from the perspectives of show organizers and exhibitors. Topics include strategic goals setting, economic impacts, registration, marketing, floor plan design, booth design, exhibition technologies, sponsorships, sustainability, budget, evaluation, and career opportunities.

Grading: Letter Graded

HSPM 143 - Tourism Destination Marketing and Management

3 unit(s)

Principles of destination marketing and management in formulating strategies to promote tourism in a variety of locations. Appraising a destination's potential and developing a destination's products/services and marketing campaign to attract both business and leisure travelers.

Grading: Letter Graded

HSPM 148 - Wine Appreciation

3 unit(s)

Introduces the student to the significance of wine in the dining experience. The class will study the wine-making process, wine grape varieties, health and legal issues of wine and include in-class evaluation of wine.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

HSPM 149 - Beer Appreciation

3 unit(s)

Examining the history, business and economic impact of beer from its international brewery markets to the small craft beer distributors. Explore beer styles, regions, brewing processes and food pairings through weekly tastings and sensory applications of the principles of beer making.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

HSPM 152 - Hotel Catering and Banquet Management

3 unit(s)

Overview of hotel group sales, convention services, catering sales and banquet operations. Learn tools and applications necessary to be successful in providing catering and banquet operations for hotel, restaurant, or corporate events.

Grading: Letter Graded

HSPM 154 - Revenue Management

3 unit(s)

Formulating tactical pricing decisions to maximize revenues for hospitality organizations. Topics include: history of revenue management, reservation systems, forecasting demand, inventory control, cost analysis, pricing strategy, channel management, revenue management tactics, and applications.

Grading: Letter Graded

HSPM 155 - Sustainable Hospitality and Tourism Management

3 unit(s)

Concepts and principles of sustainable operations in tourism, hospitality, and event management organizations. Topics include the UN's 17 Sustainable Development Goals, socio-cultural, economic, and environmental dimensions of sustainable development, impacts of development, corporate social responsibility, and current trends/issues in sustainable operations.

Grading: Letter graded.

HSPM 161 - Cruise Operations and Management

3 unit(s)

This course examines the major aspects of cruise operations and management including history, global cruise market, economic significance, geography of cruising, itinerary design, anatomy of a cruise ship, operations, sales and marketing procedures, passenger services, event planning and management, and career opportunities.

Grading: Letter Graded

HSPM 168 - Gaming Management

3 unit(s)

Introduction to the casino's external environments and the casino's impact on the consumer and the local economy. Topics cover the history of gaming and gaming development, casino organization and operation, the mathematics of casino games, and casino management.

Grading: Letter Graded

HSPM 177 - Hospitality Service Management

3 unit(s)

Develop skills in setting formal service standards and procedures to deliver customer experience and evaluate service quality for hospitality businesses. Topics include service experience design, psychological/social characteristics of customer satisfaction, service delivery processes, consumer/server encounters, service quality, and service recovery.

Prerequisite(s): Senior standing.

Grading: Letter Graded.

HSPM 180 - Individual Studies

1-3 unit(s)

Investigation of special problems, including research projects and/or field experience.

Prerequisite(s): Instructor or department consent. Not available to Open University Students.

Grading: Credit/No Credit

HSPM 184 - Directed Reading

1-4 unit(s)

Directed reading in journals and books by authorities in Hospitality, Recreation, Tourism and related fields. Assessment by project(s) and/or paper(s).

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Instructor approval or department consent. Not available to Open University Students.

Grading: Credit/No Credit

HSPM 191 - Hospitality, Tourism and Event Management Internship

1-4 unit(s)

Supervised professional broad-based work experience in hospitality, tourism, or event management industry.

Course is repeatable for up to 4 units.

Prerequisite(s): Instructor or department consent.

Grading: Credit/No Credit

HSPM 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Business - Information Systems and Technology

BUS4 91A - Advanced Computer Tools for Business

1 unit(s)

Students learn advanced spreadsheet and presentation software skills through individual lessons and through application in team case projects.

Prerequisite(s): Basic Excel and PowerPoint skill proficiency

Grading: Credit/No Credit

BUS4 91L - Computer Tools for Business

1 unit(s)

Fundamentals of spreadsheet software through in-class exercises and individual assignments. Team projects to improve students' collaboration and communication skills, using online tools to produce slide and video presentations.

Grading: Credit/No Credit

BUS4 92 - Introduction to Business Programming

3 unit(s)

Analysis of business problems to design and implement the software component of an information system. Emphasis on structured design and programming.

Grading: Letter Graded

BUS4 92I - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

BUS4 110A - Fundamentals of Management Information Systems

3 unit(s)

Prepares students for upper division MIS courses by providing an overview of the strategic and managerial issues involved in the design, implementation, and maintenance of information systems. Includes an introduction to business application programming.

Prerequisite(s): BUS 92 , upper division standing.

Grading: Letter Graded

BUS4 110B - Systems Analysis and Design

3 unit(s)

Introduction to systems development methodologies, techniques and tools. Emphasis on enterprise, process, data and object modeling techniques. Students use UML and prototyping tools to analyze and design an information system.

Grading: Letter Graded.

BUS4 111 - Networking and Data Communications

3 unit(s)

Emphasis on the concepts, architectures, components, protocols and standards for message movement within information networks. Uses the network design process to develop understanding of business and information technology perspectives.

Prerequisite(s): Upper Division Standing

Grading: Letter Graded

BUS4 112 - Database Management Systems

3 unit(s)

Introduction to intermediate database management concepts, methods, and technologies, stressing the design and development of relational databases and data analysis. Emphasis on data modeling, data integrity, and SQL. Non-relational data and information management technologies are also introduced.

Grading: Letter Graded

BUS4 115 - Advanced Networking and Data Communications

3 unit(s)

Integration of telecommunications and database management systems concepts in a distributed information systems environment. Emphasis on information systems architectures, systems integration, open systems and other advanced topics.

Prerequisite(s): BUS4 111

Grading: Letter Graded

BUS4 116 - Advanced Database Management Systems

3 unit(s)

Advanced topics in relational data management and analysis including advanced SQL, PL/SQL, and database functions, procedures, and triggers; dimensional modeling, data warehousing, and data visualization; non-relational (NoSQL, big data) databases and data analysis.

Prerequisite(s): BUS4 112

Grading: Letter Graded

BUS4 118A - Cloud Computing for Data Professionals

3 unit(s)

Introduces concepts, terminology, and hands-on components of the cloud infrastructure including compute, storage, networking, security, and compliance on a major cloud platform such as Microsoft Azure. The course also introduces topics in relational and non-relational data, AI, and analytics workloads on the cloud.

Prerequisite(s): BUS4 92 and BUS4 112.

Grading: ABC-/No Credit

BUS4 118B - Business Intelligence

3 unit(s)

Applied business analytics for enterprise performance management and decision support. Perform descriptive and predictive analysis using statistical, computing, data mining, and data visualization techniques to address business issues. Emphasis on hands-on work and business use cases.

Prerequisite(s): BUS4 112

Grading: Letter Graded

BUS4 118C - Information Security and Assurance Management

3 unit(s)

Introduces the spectrum of threats and associated best practices for managing information security and assurance in organizations. Covers use of education/training, policy/procedure and technology to balance information confidentiality, integrity and accessibility requirements against associated costs to support organizations' strategic goals.

Corequisite(s): BUS4 111

Grading: Letter Graded

Note(s): Offered only occasionally.

BUS4 118D - Big Data

3 unit(s)

How to formulate business questions and use current Big Data analytics technologies through hands-on assignments to wrangle, query, and graph relationships using a large unstructured dataset. Issues relating to developing the business proposition, Big Data strategies, and ethical considerations.

Prerequisite(s): BUS4 112

Corequisite(s): BUS4 110A

Grading: Letter Graded

BUS4 118H - Honors Practicum in MIS I

3 unit(s)

Honors student teams formulate, develop and initiate implementation of an MIS project for an organization in our community. Requirements include using industry-standard project management tools and methods, interacting with project stakeholders in a professional manner, and applying appropriate technical skills/processes to the project.

Prerequisite(s): BUS4 110A, BUS4 110B, 100W, admission to MIS Honors Program

Corequisite(s): BUS4 112

Grading: Letter Graded

BUS4 118I - Artificial Intelligence (AI) for Social Good

3 unit(s)

Leverages multidisciplinary knowledge - design thinking, cutting-edge information technologies, social innovation - to address important social problems. Use of design thinking, including identifying problems through user interviews, creating prototypes using emerging technologies, and validating the solutions through user research. Hands-on experience with emerging technologies, such as AI and IoT.

Prerequisite(s): BUS4 110A

Grading: Letter Graded

BUS4 118S - Special Topics in MIS

3 unit(s)

Special topics to augment regularly scheduled electives. Course is repeatable for credit, maximum 9 units.

Course is repeatable for up to 9 units.

Prerequisite(s): BUS4 111; BUS4 112; and COMM 100W or ENGL 100WB or LLD 100WB.

Grading: Letter Graded

BUS4 118W - Web Based Computing

3 unit(s)

Explores Web applications for personal, E-Commerce and corporate computing. Covers essentials of WWW protocols. Students will learn to design and program both client and server-side applications using HTML and extensions, JavaScript, Perl, VBScript, Active Server Pages, database connections, XML, Java.

Prerequisite(s): Grade of "C" or better in BUS4 110A and BUS4 112.

Grading: Letter Graded

BUS4 119A - Practicum in MIS

3 unit(s)

Students, working in teams, complete an MIS project for a community organization. Requirements include using industry-standard project management tools and methods, interacting with project stakeholders in a

professional manner, and applying appropriate technical skills and processes to the project.

Prerequisite(s): Any 100W or equivalent; BUS4 110A, BUS4 110B, BUS4 111 and BUS4 112 (all with a C or Better).

Grading: Letter Graded

BUS4 119B - Business Strategy and Information Systems

3 unit(s)

Analysis of the effective use of information systems and technology for competitive advantage by a business organization for enterprise, business-to-business, and e-Commerce computing. Emphasis on integration of information systems and technology with business strategy, financial justification, personnel and organizational considerations. Intended for the last semester before graduation.

Prerequisite(s): Any 100W or equivalent, BUS4 110A, BUS4 110B, BUS4 111, BUS4 112

Grading: Letter Graded

BUS4 119H - Honors Practicum in MIS II

3 unit(s)

Honors student teams develop and complete implementation of an MIS project for an organization in the community initiated in 118H. Requirements include using industry-standard project management tools and methods, interacting with project stakeholders in a professional manner, and applying appropriate technical skills/processes to the project.

Prerequisite(s): BUS4 118H

Grading: Letter Graded

BUS4 180I - Individual Studies MIS

1-4 unit(s)

Prerequisite(s): Not available to Open University Students

Grading: Credit/No Credit.

BUS4 188 - Business Systems and Policy

3 unit(s)

Provides system perspective on organizations, using information as an integrating vehicle. Examines how information systems can serve business functions and integrate value chain activities.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB

Pre/Corequisite(s): Fundamental courses

Grading: Letter Graded

Sustainability Related

BUS4 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International

Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Business - Management

BUS3 10 - Discovering Business

3 unit(s)

Simulates setting up a small business to explore the many facets of an enterprise (marketing, accounting, finance, management, information systems, etc.). Through self-assessment and readings, directs students toward career paths that best reflect their personal aptitudes and interests.

Prerequisite(s): Highly recommended for SJSU freshman business majors, optional for others.

Grading: Letter Graded

BUS3 12 - Managing My life

3 unit(s)

An interdisciplinary course in personal development that introduces basic concepts and practical skills for improving and enhancing life during college and beyond. The course includes how to succeed in college, manage one's finances, plan one's career, manage stress, and increase overall happiness and well-being.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

BUS3 80 - Legal Environment of Business

3 unit(s)

Understand the judicial system and dispute resolution with emphasis on the role of law in purchasing, contracting and administering a business as it impacts the firm's constituencies and society as a whole.

Prerequisite(s): Sophomore status.

Grading: Letter Graded

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

BUS3 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad

and Away programs.

Grading: Mixed Grading

BUS3 149 - Negotiation and Conflict Resolution

3 unit(s)

Provides conflict resolving and negotiation techniques. Case studies demonstrate applications of these methods in real world business, personal, interpersonal and international situations. Emphasis on acquiring and improving skills.

Grading: Letter Graded

BUS3 150 - Fundamentals of Human Resource Management

3 unit(s)

Theories, concepts and processes of human resource management; specific topics include EEO, employee motivation, job analysis and work design, strategic human resource planning, recruitment and selection, talent assessment and development, performance management, compensation and benefits, OSH, and employee rights and discipline.

Prerequisite(s): BUS 91L or instructor consent. Upper division standing. Lower Division Business Pool or Business Minor.

Grading: Letter Graded

BUS3 151 - Labor Relations

3 unit(s)

Private sector union-management relations; labor history, basic labor economics. Legislative, judicial, administrative issues in collective bargaining; contract negotiations, grievance procedures, dispute resolution. Overview of public sector collective bargaining and comparative labor relations. Current trends, including labor-management cooperation.

Prerequisite(s): Upper division standing

Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

BUS3 152 - Human Resources Analytics

3 unit(s)

Examines how Human Resource (HR) professionals can use data analytics to inform HR decisions. Includes descriptive, predictive, and prescriptive analytics. Concepts are applied using software tools such as Qualtrics, SPSS, Excel, and Tableau.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

BUS3 153 - Management of Diversity

3 unit(s)

Cross-cultural differences in effective HR management; organizational culture, cross-cultural communication, opportunity structures, organizational change; legal compliance and planning models such as Equal Employment Opportunity and Affirmative Action; conflict resolution strategies; dealing with internal and external compliance agencies.

Prerequisite(s): BUS3 150 or instructor consent. Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

BUS3 154 - Workforce Planning, Staffing and Training

3 unit(s)

Examines basic concepts, strategies and current issues in recruitment, talent acquisition, selection and training. Involves use of computer tools to analyze impacts of legal compliance, diversity, technology, outsourcing, restructuring and downsizing on effective management of human resources.

Prerequisite(s): BUS 150 and COMM 100W or ENGL 100WB or LLD 100WB. Upper division standing.

Grading: Letter Graded

BUS3 155 - Performance Management and Development

3 unit(s)

Assessment and performance management of individuals, groups and organizations in a rapidly changing environment. Explores need for change management skills such as organizational development, career development and coaching to assess and improve the talent base of organizations. Project required.

Prerequisite(s): BUS 150, COMM 100W or ENGL 100WB or LLD 100WB.

Grading: Letter Graded

BUS3 155B - Special Topics in Human Resource Management

3 unit(s)

Analysis and application of the latest economic, technological, global, and workforce trends that impact on how HRM practices are designed. Examples include prevalence of economic pressures, information technology, globalization, changing workplace demographics, and pandemics. Drawing upon theory and concepts, builds students' skills to stay current with recent developments and increase their relevance in the job market.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB; BUS3 150; and, BUS3 157 or BUS3 158. Allowed Declared Major: Business Administration/Human Resource Management. Graduating Senior Status.

Grading: Letter Graded

BUS3 157 - Legal Issues in Human Resource Management

3 unit(s)

Legal aspects of the employment relationship, including employment at will; contract, privacy, public policy, and whistleblower exceptions; EEO and affirmative action; prohibitions against discrimination and harassment; arbitration, trade secrets and non-competition agreements; occupational safety/health;

compensation, benefit and family leave laws. Project required.

Prerequisite(s): BUS3 80, BUS3 150 and BUS100W or COMM 100W or ENGL 100WB or LLD 100WB. Upper division standing. Allowed Declared Major: Bus Admin/Human Resource Mgmt or Business Minor.
Grading: Letter Graded

Sustainability Related - SDG 8: Decent Work and Economic Growth

BUS3 158 - Compensation and Reward Systems

3 unit(s)

Theories and practices of compensation and benefits; strategies to establish and administer equitable pay structures; job analysis, and evaluation, salary surveys, pay and motivation, skill-based pay systems, long-term and short-term performance plans, merit increase, bonus, stock options, profit-sharing, executive compensation and computer tools in compensation.

Prerequisite(s): BUS4 91L and BUS3 150. Upper division standing.
Grading: Letter Graded

BUS3 159 - Senior Seminar in Human Resource Management

3 unit(s)

Extension and integration of student knowledge, skills and abilities in strategic HRM; critical analysis of current HRM issues; exploration of HR career options; analysis of existing organization to develop methods of improving HRM decision-making in a real-world setting.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB; BUS3 150; BUS3 154, BUS3 157 and BUS3 158. Allowed Declared Major: Bus Admin/Human Resource Mgmt. Graduating Senior Status.
Grading: Letter Graded

BUS3 160 - Fundamentals of Management and Organizational Behavior

3 unit(s)

Provides a foundation for major topics in management and organizational behavior by surveying theories and practices relating to managerial roles, organizational cultures, fundamental strategic issues, planning, team building, communication, motivation, leadership, decision-making, control, structure and change.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

BUS3 161A - Applied Organizational Behavior

3 unit(s)

Focuses on high-level application, analysis, synthesis and evaluation of group dynamics, interpersonal communication, motivation, leadership, perception and attitudes, individual power and politics, conflict and stress management. In-depth emphasis on key theories plus interpersonal managerial skills.

Prerequisite(s): BUS3 160, COMM 100W or ENGL 100WB or LLD 100WB.
Grading: Letter Graded

BUS3 161B - Organization Theory

3 unit(s)

Managing organization-wide structural and cultural changes leading to designs that enhance organizational effectiveness. Change issues of managing growth, resistance, intervention phases, crisis management, intergroup conflict/power are combined with design issues of balancing innovation and predictability, decentralization and centralization.

Prerequisite(s): BUS3 160, COMM 100W or ENGL 100WB or LLD 100WB. Upper division standing.

Grading: Letter Graded

BUS3 165 - Analysis and Design of Teams

3 unit(s)

Team formation, team structures, team communication, team dynamics, team performance, and team management challenges prevalent in organizations. Study of team types from a broad selection of business functions and industry contexts.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

BUS3 166 - Business, Government, & Society

3 unit(s)

Analysis of the American business system in terms of socio-economic and political constraints imposed upon business organizations by external, physical, legal, political, social and economic environments. Special reference to ethical issues in business, corporate social responsibility, profit maximization and countervailing powers in a pluralistic society.

Prerequisite(s): COMM 100W or ENGL 100WB or LLD 100WB. Upper division standing.

Grading: Letter Graded

Sustainability Related - SDG 17: Partnerships for the Goals

BUS3 169A - Honors Seminar

3 unit(s)

This course will introduce some of the seminal theories in management and related fields. The seminar will provide a variety of views on organizations, organizational life and the way organizations function. The course will be cross-disciplinary, drawing on readings about organizations from a variety of sources and disciplines. Students will be required to apply theoretical concepts to their own work, field study, or internship experiences.

Prerequisite(s): BUS3 160 or BUS3 161B.

Grading: Letter Graded

BUS3 169B - Honors Practicum

3 unit(s)

Second semester of a two-semester honors program sequence. Student teams collaborate on a project sponsored by a company or other organization, under the supervision of the sponsor and the instructor. Teams present their final report to the sponsor.

Prerequisite(s): Completion of BUS3 160 and acceptance into the Honors Program. Students are encouraged to take BUS3 169A beforehand, though BUS3 169A and BUS3 169B can be taken out of sequence with instructor permission.

Grading: Letter Graded

BUS3 180D - Individual Studies Organizational Mgmt

1-6 unit(s)

Prerequisite(s): Not available to Open University Students.

Grading: Credit/No Credit.

BUS3 184N - Business Network Experience

3 unit(s)

Further students' understanding of how Silicon Valley emerged as an innovation ecosystem, how the business of technology has evolved, and how to lead innovation as a professional in Silicon Valley. Supports students' advancement into professional roles with focus on advanced soft-skills, communication skills, career planning, and leadership development. Includes roundtable discussions, career coaching, presentation feedback, soft-skills workshops, speaker events and company visits.

Prerequisite(s): BUS3 160; BUS3 150.

Corequisite(s): BUS3 189.

Grading: Letter Graded.

BUS3 186 - Professional and Business Ethics

3 unit(s)

Interdisciplinary study of types of ethical problems which arise within the contexts of business occupations and professions. Major ethical theories, critique of economic and criminal justice. Focus is on issues of justice and equality in the U.S. Case studies.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with PHIL 186. Philosophy is responsible for scheduling.

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

BUS3 189 - Strategic Management

3 unit(s)

Integrative capstone seminar analyzing interrelationships of managerial decisions/actions within and between the firm and its environment. Applies multi-disciplinary techniques to diagnose and recommend actions appropriate to specific company situations, using case method.

Prerequisite(s): Restricted to students who completed the Jack Holland Student Success Center graduation application process. Any 100W.

Grading: Letter Graded

BUS3 192 - International Program Studies

1-14 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Business - Marketing & Business Analytics

BUS2 90 - Business Statistics

3 unit(s)

In terms of theory and application: collection and presentation of data; measures of central values and spread; probability as a measure of uncertainty; sampling and sampling distribution of the sample mean; confidence intervals; hypothesis testing; regression and correlation.

Prerequisite(s): MATH 70 or MATH 70X.

Grading: Letter Graded

BUS2 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

BUS2 130 - Introduction to Marketing

3 unit(s)

Analysis of marketing opportunities; planning of marketing programs with emphasis on product, price, promotion and distribution; control of the marketing effort; social and ethical responsibilities of marketing. Recommended: COMM 100W or ENGL 100WB or LLD 100WB.

Prerequisite(s): Upper division standing

Grading: Letter Graded

BUS2 131A - Business to Business Marketing

3 unit(s)

Marketing of goods, services and ideas to businesses. Examines distribution, pricing, promotion, marketing

research and planning. Emphasizes strategy development and the decision-making processes of customers.

Prerequisite(s): BUS2 130. Upper division standing.

Grading: Letter Graded

BUS2 131B - Retail Marketing Management

3 unit(s)

Special issues faced and approaches taken in retailing. Topics include store location, merchandise selection and display, financial management, promotion, store layout and image.

Prerequisite(s): BUS2 130. Upper division standing.

Grading: Letter Graded

Note(s): Offered only occasionally.

BUS2 131C - Marketing of High Technology

3 unit(s)

Course is for students who have exposure to Marketing and who want to apply marketing concepts and methods in a high technology situation. A hands-on course as much as possible. Toward the end students will pursue individual group projects and several in-class exercises.

Prerequisite(s): BUS2 130

Grading: Letter graded.

BUS2 131D - Marketing in New Ventures

3 unit(s)

Examines and explores the roles of marketing in the new venture. Focuses on learning conceptual framework for understanding customers, designing appropriate marketing activities, making marketing decisions and addressing marketing problems in building a new venture. Students analyze cases and undertake projects.

Prerequisite(s): BUS2 130.

Grading: Letter Graded

BUS2 132B - Supply Chain Analytics

3 unit(s)

Analysis of the process of planning, implementing and controlling the efficient, effective flow and storage of goods, services, and related information from the point of origin to the point of consumption for the purpose of conforming to customer requirements.

Prerequisite(s): BUS2 130 and BUS2 190. Upper division standing.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

BUS2 133A - International Marketing

3 unit(s)

Impact of the international business environment on the development of marketing strategy and marketing mix, with emphasis on development of a global perspective and cultural sensitivity. Also covers international trade, importing and exporting.

Prerequisite(s): BUS2 130. Upper division standing.

Grading: Letter Graded

BUS2 133B - Relationship Marketing: Pacific Rim

3 unit(s)

Why not use PacRim marketing methods in PacRim markets? Americans tend to be short-term, sales-oriented. Asians tend to be relationship oriented. Why not master both marketing methods? Focus: Launching a "start-up". Topics: PacRim forms of product-launch, sales presentation, negotiation, promotion, PacRim risks.

Prerequisite(s): BUS2 130.

Grading: Letter Graded

Cross-listed with ASIA 133B. Marketing is responsible for scheduling.

BUS2 133C - International Marketing: Developing Nations

3 unit(s)

Why not use Third World marketing methods in Third World markets? Russian, African and Islamic regions pose special risks for U.S. marketers. Focus: Third World ways to cope. Topics: Bribery, corruption, terrorism, smuggling, as well as Anti-Americanism, Market-Communism, Fundamentalist Islam.

Prerequisite(s): BUS 130. Upper division standing.

Grading: Letter Graded

Sustainability Related - SDG 17: Partnerships for the Goals

BUS2 133E - Marketing to Eastern/Western Europe

3 unit(s)

To market in Europe, one must learn how Europeans market. Developed and evolved over centuries, European business methods are complex, subtle, and largely unknown to America. This course provides insights into these methods.

Prerequisite(s): BUS2 130

Grading: Letter Graded

BUS2 134A - Consumer Behavior

3 unit(s)

An examination of psychological, sociological, and other factors that affect customer behavior. These factors are examined in an effort to help businesses and other organizations to accurately assess and effectively satisfy customer needs.

Prerequisite(s): BUS2 130 and any 100W, or SJSU Online Program student and any 100W. Upper division

standing

Grading: Letter Graded

BUS2 134B - Integrated Marketing Communications

3 unit(s)

Focus is on design and delivery of marketing messages to targeted audiences. Analysis and planning seeks integration of messages delivered through advertising, sales promotion, personal selling, public relations, and other communication methods.

Prerequisite(s): BUS2 130 and Any 100w. Upper division standing.

Grading: Letter Graded

Sustainability Related

BUS2 134C - Social Media Marketing

3 unit(s)

This course seeks to provide students with insights into the latest technologies and medial platforms available to marketers and used in marketing practice. Students will learn about major theories, best practices, new technologies and new media platforms and apply them to real-life examples.

Prerequisite(s): BUS2 130

Grading: Letter Graded

BUS2 135 - Sales Management

3 unit(s)

Teaches skills in personal selling with guidelines for designing and managing the sales function. Topics include advanced sales techniques, high impact questioning methodologies, closing techniques and managing objections, account and territory planning and management, resource planning and management, and sales compensation programs.

Prerequisite(s): BUS2 130. Upper division standing.

Grading: Letter Graded

BUS2 135B - Services Marketing

3 unit(s)

Exploration of the unique marketing needs and challenges faced by service organizations and goods-oriented firms that use service as a competitive strategy in an increasingly challenging global environment.

Prerequisite(s): BUS2 130 and upper division standing.

Grading: Letter Graded

BUS2 135C - Entertainment Marketing

3 unit(s)

Introduction to film marketing, as well as an overview of related issues in music, fashion, and other fields. Explores the players who work in all aspects of entertainment marketing. Covers the basic elements of various transactions: copyright exploitation, distribution, financing and money flow.

Prerequisite(s): BUS2 130

Grading: Letter graded.

BUS2 135D - Sports Marketing

3 unit(s)

Survey of the essentials of sport marketing. Includes planning, promotions, operations and market analysis with an emphasis on intercollegiate athletics and professional sports. Examines the central role of the customer experience and service quality.

Prerequisite(s): BUS2 130

Grading: Letter graded.

BUS2 136 - Product Development

3 unit(s)

Integrative analysis of product development related to life-cycle management. Emphasis is on new product/service planning.

Prerequisite(s): BUS2 130. Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

BUS2 137A - Soft Skills

3 unit(s)

An examination of the soft skills (self-management skills and people skills) employers feel recent college graduates are lacking. Some of these skills include, but aren't limited to, listening skills, likability, flexibility, giving/receiving criticism, work ethic, dining etiquette, cultural sensitivity, etc.

Prerequisite(s): BUS2 130

Grading: Letter Graded

BUS2 137D - Special Topics in Business Analytics

3 unit(s)

Special topics in business analytics. The instructor may choose to address one special topic, theme, or several related topics. Requires one or more projects, at instructor's discretion.

Prerequisite(s): BUS2 90.

Grading: Letter Graded.

BUS2 137H - Marketing and Business Analytics Honors Practicum

3 unit(s)

Students work on sponsored projects in the areas of Marketing and Business Analytics. Students are assigned to a host company, work with the host company and faculty advisor on a topic in Marketing and Business Analytics, and present a project report.

May be repeated for credit for up to 6 units.

Prerequisite(s): BUS2 130 or BUS2 190 or Instructor consent.

Grading: Letter Graded

BUS2 137S - Special Topics in Marketing

3 unit(s)

Special topics in the management of marketing or in the marketing environment. The instructor may choose to address one special topic, theme, or several related topics. Requires one or more projects, at instructor's discretion.

Prerequisite(s): BUS2 130.

Grading: Letter Graded

BUS2 138 - Marketing Research

3 unit(s)

Fundamentals of empirical study in marketing, including hypotheses formulation, testing, and the basis of inference. Questionnaire and experimental design, attitude measurement, sampling and data collection, and analysis are emphasized along with applications to marketing decision-making.

Prerequisite(s): BUS2 90, BUS2 130, any 100W, and upper division standing.

Grading: Letter Graded

BUS2 139 - Marketing Management

3 unit(s)

Marketing management is a capstone course whose purpose is to provide the student with the opportunity to demonstrate and integrate the capabilities acquired from the prerequisite courses.

Prerequisite(s): BUS2 130, BUS2 134A, BUS2 134B, BUS2 138, COMM 100W or ENGL 100WB or LLD 100WB and Senior standing. BUS2 190 is strongly recommended.

Grading: Letter Graded

BUS2 180F - Individual Study Marketing

1-4 unit(s)

Prerequisite(s): Not available to Open University Students.

Grading: Credit/No Credit.

BUS2 190 - Fundamentals of Business Analytics

3 unit(s)

Quantitative models and computer software used in business decision-making. Studies of network and transportation models, linear programming, CPM/PERT project analysis, decision analysis, simulation, and other techniques used in management science applications.

Prerequisite(s): BUS2 90, and MATH 70 or MATH 70X or equivalent. Upper Division Standing. Not available to Open University Students.

Grading: Letter Graded

BUS2 192A - International Program Studies

1-14 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

BUS2 193 - Data Mining

3 unit(s)

Data Mining is used to discover patterns and relationships in data. Emphasis is on large complex data sets such as those in very large databases or through web mining. Topics: data visualization, association rules, clustering, and various modern classification techniques.

Prerequisite(s): BUS2 90 or instructor consent.

Grading: Letter Graded

BUS2 194A - Statistical Analysis

3 unit(s)

This course develops fundamental knowledge and skills for applying statistics in business decision-making. Topics include hypothesis testing, simple and multiple regression, experimental design, time series analysis and non-parametric estimation.

Prerequisite(s): BUS2 90

Grading: Letter Graded

BUS2 194B - Prescriptive Analytics in Business

3 unit(s)

This course covers applications of linear, nonlinear, and discrete optimization as well as the modeling of stochastic processes, including inventory control models and waiting line models.

Prerequisite(s): BUS2 190

Grading: Letter Graded

BUS2 195A - Spreadsheet Modeling

3 unit(s)

Develop your analytical modeling skills and learn advanced features of Excel. Focus is on using Excel to model real-world decision-making problems. Covers Excel features including IF functions, lookup tables, date and text manipulation, sorting, filtering, graphing, and VBA.

Prerequisite(s): BUS2 190

Grading: Letter Graded

BUS2 195B - Data Visualization and Exploration

3 unit(s)

Introduction to basic database management concepts, methods, and technologies. Experience in writing queries using Structured Query Language (SQL). Creating effective visualizations for structured and unstructured data using Tableau and Power BI. The course targets students who are interested in using database management and visualizations to better understand information and make it more communicable to others.

Prerequisite(s): BUS2 90.

Grading: Letter Graded

BUS2 195C - Simulation Modeling and Analysis

3 unit(s)

Building and using simulation models in business systems using both Excel and high-level simulation software package. Topics include discrete-event simulation, Monte Carlo simulation, simulation input data collection and analysis, statistical analysis of simulation output.

Prerequisite(s): BUS2 190.

Grading: Letter Graded

BUS2 195D - Analytic Strategy

3 unit(s)

This course provides hands-on experience in transforming large amounts of diverse data into business decisions. This is accomplished via an engaging, complex simulation in which participants develop data-driven tactical and strategic decisions.

Prerequisite(s): BUS2 194A and BUS2 194B

Grading: Letter Graded

Chemical Engineering

CHE 109 - Heat Transfer in Electronics

3 unit(s)

Introduction to thermodynamics and heat transfer, including conduction, convection and radiation. An emphasis on applications for electronics; including heat transfer in computer components, heat sinks, liquid and air cooling and heat pipes.

Prerequisite(s): EE 98, PHYS 51 and one of the following courses: MATH 39 or MATH 33LA . Allowed Declared Majors: Computer Engineering, Electrical Engineering, Engineering, Industrial and Systems Engineering.

Grading: Letter Graded

Cross-listed with ME 109. Chemical Engineering is responsible for scheduling.

CHE 110A - Mathematical Methods in Chemical Engineering

2 unit(s)

Mathematical methods applied to engineering problems using chemical engineering examples. The development of mathematical models to describe chemical process dynamic behavior. Mathematical methods focus on linear algebra, ordinary differential equations and partial differential equations with specific applications to chemical engineering.

Lecture 1 hour/lab 3 hours.

Prerequisite(s): MATH 32 or MATH 32H or MATH 32X, and PHYS 51 with grade C or better.

Grading: Letter Graded

CHE 110B - Computational Methods in Chemical Engineering

2 unit(s)

Computational methods applied to engineering problems using chemical engineering examples. The solution of mathematical models to describe chemical process dynamic behavior. Computational tools focus on MATLAB, CAD design and simulation packages with specific applications to chemical engineering.

Lecture 1 hour/lab 3 hours.

Prerequisite(s): CHE 110A with a grade of "C-" or better or instructor consent

Pre/Corequisite(s): CHE 115 with a grade of "C-" or better.

Grading: Letter Graded

CHE 115 - Industrial Chemical Calculations

3 unit(s)

Methods of formulation and solution of material and energy balances as applied to chemical processes.

Prerequisite(s): PHYS 51 (with a grade of "C-" or better).

Pre/Corequisite(s): MATH 33A (prerequisite) or CHE 110A (corequisite).

Grading: Letter Graded.

CHE 131 - Air Pollution Meteorology

3 unit(s)

Quantitative description of contaminants in the atmosphere: sources, dispersion and sinks; their effects on atmospheric energy balance and condensation.

Prerequisite(s): METR 121B or instructor consent.

Grading: Letter Graded

Cross-listed with ENVS 131 / METR 131. Meteorology and Climate Science is responsible for scheduling.

Sustainability Focused - SDG 3: Good Health and Well-Being

CHE 133 - Sustainable Engineering

3 unit(s)

Concepts of sustainable system design in engineering with an emphasis on measuring sustainability, designing for sustainability, and implementing sustainability. Applications include a chemical focus that incorporates process engineering fundamentals and green chemistry principles.

Prerequisite(s): CHE 110A or MATH 33LA with a grade of C- or better, instructor consent.

Grading: Letter Graded

CHE 137 - Pollution Control Engineering

3 unit(s)

Sources and effects of air pollution. Design aspects of mitigation, abatement, and strategies for control of air pollution and subsequent water and soil pollution.

Prerequisite(s): CHE 110A or MATH 33LA with a grade of C- or better, instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

CHE 142 - Principles of Thermal Analysis

1 unit(s)

Principles and practice of thermal analysis. Basic theory and skills development of thermogravimetry and calorimetry. Analysis of devolatilization, heating, and cooling of materials/samples.

Lab 3 hours.

Prerequisite(s): Senior standing or instructor consent.

Grading: Letter Graded.

CHE 151 - Process Engineering Thermodynamics

4 unit(s)

Analysis of the ideal and real behavior of gases, liquids and solids from a macroscopic viewpoint; 1st and 2nd Law; phase rule, volumetric properties of fluids; heat effects; solution theory and applications; vapor-liquid and solid-solid equilibrium; chemical reaction equilibria.

Misc/Lab: Lecture 3 hours/calculation period 3 hours.

Prerequisite(s): CHE 115 and ENGR 10

Grading: Letter Graded

CHE 158 - Kinetics and Reactor Design

3 unit(s)

Analysis of unsteady chemical processes with emphasis on kinetics of reaction and application of fundamental principles to the design and operation of commercial reactors.

Misc/Lab: Lecture 2 hours/calculation period 3 hours.

Prerequisite(s): CHE 115, CHE 151, CHE 160A, CHE 162 and CHE 190 (with an average of "C" or better in the five courses); ENGR 100W.

Grading: Letter Graded

CHE 160A - Unit Operations I

4 unit(s)

Materials transportation, fluid metering, mixing, sedimentation, filtration, heat exchange and evaporation; types of equipment used and numerous practical applications. Introduction to transport theory.

Lecture 3 hours/lab 3 hours.

Prerequisite(s): CHE 110B, CHE 115, CHE 190 (all with a grade of "C-" or better).

Grading: Letter Graded.

CHE 160B - Unit Operations II

4 unit(s)

Continuation of CHE 160A. Mass transfer operations, diffusion, absorption, extraction, distillation, humidification, membrane separations, drying and crystallization. Field trips to process industries. Integrate global and social issues in engineering.

Lecture 3 hours/calculation period 3 hours.

Prerequisite(s): CHE 115, CHE 151, CHE 160A, CHE 162, and CHE 190 (with an average of "C" or better in the five courses); ENGR 100W. Allowed Declared Major: Chemical Engineering.

Grading: Letter Graded

CHE 161 - Process Safety and Engineering Ethics

1 unit(s)

Topics include principles of chemical process safety, risk assessment, analysis of ethics issues, and the application of the engineering ethical code using case studies. Integrate global and social issues in engineering.

Misc/Lab: Lecture 1 hour.

Prerequisite(s): CHEM 1B.

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

CHE 161L - Undergraduate Chemical Engineering Laboratory

2 unit(s)

Quantitative study of chemical engineering processes, with emphasis on fluid flow and heat transfer operations. Written and oral reports required.

Lecture 1 hour/Lab 3 hours.

Prerequisite(s): CHE 115, CHE 162, and CHE 190 (with an average of C or better in the three courses); and ENGR 100W.

Corequisite(s): CHE 151 and CHE 160A.

Grading: Letter Graded

CHE 162 - Engineering Statistics and Analysis

2 unit(s)

Topics will include error analysis, probability, statistics including hypothesis testing, confidence limits and control variables, design of experiments and statistical process control as they are utilized in the chemical, materials and process engineering industries.

Lecture 1 hours/Lab 3 hours.

Prerequisite(s): MATH 33A

Grading: Letter Graded

Cross-listed with ISE 162. Chemical Engineering is responsible for scheduling.

CHE 163L - Undergraduate Chemical Engineering Laboratory II

2 unit(s)

Chemical engineering principles with an emphasis on traditional and novel applications in focuses such as environmental engineering and biotechnology. Written and oral reports are required.

Lecture 1 hour/Lab 3 hours.

Prerequisite(s): ENGR 100W, CHE 161L , CHE 190, and CHE 160A.

Corequisite(s): CHE 158 and CHE 160B.

Grading: Letter Graded.

CHE 165A - Plant Design I

2 unit(s)

Introduction to the technical and economic evaluation of a chemical processing plant design. Introduction to project design and effective team management. First of a two-course sequence.

Lecture 1 hour/Lab 3 hours.

Corequisite(s): CHE 158 and CHE 160B; instructor consent.

Grading: Letter Graded.

CHE 165B - Plant Design II

2 unit(s)

Continuation of the technical and economic evaluation of a chemical processing plant, including most aspects of a typical industrial design. Major plant design project report required. Second of two-course sequence.

1 hour lecture/ 3 hours lab.

Prerequisite(s): CHE 165A; instructor consent.

Grading: Letter Graded

CHE 172 - Biofuels Process Engineering

3 unit(s)

Focus on the practical applications of engineering principles and practices used to produce the three major

biofuels products commonly available today: ethanol, biodiesel and methane. Differences between entrepreneurial efforts and more traditional processes will be explored.

Prerequisite(s): MATH 32 or MATH 32H or MATH 32X, and junior standing.

Grading: Letter Graded

Sustainability Focused - SDG 7: Affordable and Clean Energy

CHE 174 - Hazardous Materials

3 unit(s)

Review of current methods and procedures for management of hazardous materials and hazardous wastes; analysis of contaminated systems and remedial actions.

Prerequisite(s): PHYS 51 and CHEM 1A, or instructor consent.

Grading: Letter Graded

Cross-listed with GEOL 174. Chemical Engineering is responsible for scheduling.

Sustainability Focused - SDG 12: Responsible Consumption and Production

CHE 176 - Energy Storage Systems

3 unit(s)

Principles and technology of energy conversion related to energy storage systems such as batteries, fuel cells, solar cells, and super capacitors. Relationships among electricity, chemistry, heat and mass transfer in energy storage systems. Energy storage system design and applications are emphasized.

Prerequisite(s): Junior Standing. Engineering and Science majors only

Grading: Letter Graded

Sustainability Focused - SDG 7: Affordable and Clean Energy

CHE 178 - Smart Sensors and Biosensors

3 unit(s)

Theoretical and experimental understanding of design, operation, and performance of sensors and biosensors and integration into wired and wireless monitoring systems. Types include magnetic, optical, bio, chemical, radiation, electrical, and mechanical. In-class activities explore sensor design parameters such as sensitivity, dynamic range, specificity, stability, repeatability, and compatibility and the integration of sensors with data acquisition to create a smart system.

Prerequisite(s): Completion of Junior Core with a C- or better, ENGR 100W, or Instructor consent.

Grading: Letter Graded.

CHE 180 - Individual Studies

1-3 unit(s)

Individual work on special topics by arrangement.

Prerequisite(s): Not available to Open University Students

Grading: Credit/No Credit

CHE 180R - Undergraduate Research and Projects

1-3 unit(s)

Individual work on special topics by arrangement. This section is for students working on formal, structured research or projects that are substantial enough to meet the requirements of the elective ChE lab requirement in each of the emphasis tracks.

Course may be repeated for credit for up to 6 units.

Grading: Letter Graded

CHE 185 - Chemical Process Dynamics and Control

2 unit(s)

Dynamic behavior of representative chemical processes. Process control; dynamics of open-loop systems; techniques of closed-loop control.

Lecture 1 hour/lab 3 hours.

Prerequisite(s): CHE 160B.

Grading: Letter Graded

CHE 190 - Introduction to Transport Phenomena

3 unit(s)

Introduction to thermodynamics, fluid mechanics and heat transfer. Basic thermodynamics with first and second laws. Laminar and turbulent flow of incompressible fluids. Boundary layer analysis. Convection and steady state and transient conduction.

Prerequisite(s): CHE 110A or MATH 33LA with a grade of "C-" or better, PHYS 51 with a grade of "C" or better, CE 95 or CE 99. Or instructor consent.

Grading: Letter Graded

CHE 191 - Bioseparations

3 unit(s)

Downstream bioprocesses including design, troubleshooting, scale-up, economics and validation with a focus on biopharmaceutical products.

Prerequisite(s): CHE 192 or Biochemistry or relevant industrial experience.

Grading: Letter Graded

CHE 192 - Introduction to Biochemical Engineering

3 unit(s)

Enzyme kinetics and enzyme reactors, enzyme isolation and purification, cellular regulation and recombinant DNA technology, microbial kinetics and design/operation of fermenters.

Prerequisite(s): CHEM 112A, or both CHEM 130A and CHEM 130B, or CHEM 135 or CHE 158.

Grading: Letter Graded

CHE 194 - Biochemical Engineering Lab

3 unit(s)

Principles, concepts and mechanisms of growth and purification of products from biological systems investigated, with emphasis on scale-up procedures. Recombinant DNA techniques and bioinformatics included.

Lecture 2 hours/lab 3 hours.

Pre/Corequisite(s): CHEM 130A or CHEM 135 or CHE 192.

Grading: Letter Graded.

CHE 199 - Special Topics in Chemical and Materials Engineering

3 unit(s)

Special Topics in Chemical and Materials Engineering. Content varies from semester to semester. Course is repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Cross-listed with MATE 199. Chemical Engineering is responsible for scheduling.

CHE 200 - Research Methods

3 unit(s)

Introduction to key statistical, experimental, and computational tools for independent project and research investigation in chemical and materials engineering. Literature review, experiments, data analysis, and individual written reports.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Conditional graduate standing in Chemical or Materials Engineering.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

CHE 207 - Mass Transfer

3 unit(s)

An advanced study of the principles of mass transfer in the diffusional operations of distillation, absorption, extraction, drying and humidification.

Prerequisite(s): CHE 160B.

Grading: Letter Graded

CHE 211 - Advanced Chemical Engineering Thermodynamics

3 unit(s)

Quantitative development of fundamental laws of thermodynamics and their application to chemical processes. Equilibria and thermal effects in homogeneous and heterogeneous systems. Studies of behavior of complex mixtures and high pressure phenomena.

Prerequisite(s): CHE 151 and MATH 33A.

Grading: Letter Graded

CHE 218 - Reaction Kinetics

3 unit(s)

Theoretical background of simple homogeneous reactions collision theory and absolute reaction rate theory; mechanisms of complex homogeneous reactions. Mechanisms of reactions catalyzed by solids; diffusion in solid catalyst. Reactor design.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): MATH 33A, CHE 151, and CHE 158.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

CHE 219 - Transport Processes

3 unit(s)

Derivation of general differential equations for transport of heat, mass and momentum; kinetic theory of fluids and its application to transport phenomena based on molecular motion; methods for estimating transport coefficients in fluids.

Prerequisite(s): CHE 160B.

Grading: Letter Graded

CHE 280 - Graduate Research

2 unit(s)

Supervised individual research or directed studies for the student with adequate preparation. Students must have a research advisor and topic.

Course may be repeated for credit for up to 10 units.

Grading: Credit/No Credit.

Note(s): Only one section of CHE 280/280I/283 can be taken per semester. Not available to Open University students.

CHE 280I - Graduate Research Internship

2 unit(s)

Supervised individual research or directed studies for the student with adequate preparation. Students must have a research advisor and topic.

Course may be repeated 5 times for credit for up to 10 units.

Grading: Credit/No Credit.

Note(s): This course is for students completing their research work at an off-campus location. Only one section of CHE 280/280I/283 can be taken per semester. Not available to Open University students.

CHE 281 - MS Thesis/Project Preparation Seminar

3 unit(s)

Development of project or thesis proposal.

Lecture 2 hours/ Lab 3 hours.

Prerequisite(s): Classified standing, completion of minimum 9 units towards MS degree, candidacy form submitted, satisfactory completion of university graduate writing requirement.

Grading: Credit/No Credit

Cross-listed with MATE 281. Materials Engineering is responsible for scheduling.

CHE 282 - Applied Graduate Research

3 unit(s)

Supervised master's research project directed by an SJSU faculty member research advisor. Students must be working on their master's experimental research at least 12-15 hours per week, and submit SJSU research advisor approved confirmation of research hours completed each week.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): CHE 200.

Grading: Credit/No Credit.

Note(s): Not available to Open University students. Only one section of CHE 280/280I/282 per semester.

CHE 283C - Graduate Curricular Practical Training

1-3 unit(s)

Curricular Practical Training (CPT) for graduate students. A report is required at the end of the semester.

Course is repeatable for up to 6 units.

Prerequisite(s): Graduate standing, in good standing, and completed at least one semester of master's level work at SJSU.

Grading: Credit/No Credit.

Note(s): Not available to Open University students. This course is for students completing their Curricular Practical Training (CPT) at an off-campus location.

CHE 291 - Industrial Bioseparations

3 unit(s)

Industrial considerations for downstream bioseparation processes including design, troubleshooting, scale-up, economics and validation with a focus on pharmaceutical products.

Prerequisite(s): CHE 192 or biochemistry or relevant industrial experience.

Grading: Letter Graded

CHE 293 - Applied Bioinformatics

3 unit(s)

Bioinformatics theory and applications including sequence search, proteomics, molecular modeling, and combinatorial chemistry. Students will work in teams and be guided in independent inquiry to solve practical bioinformatics problems.

Prerequisite(s): Senior or graduate standing in engineering or science.

Grading: Letter Graded

Cross-listed with CHEM 293. Chemical Engineering is responsible for scheduling.

CHE 298 - MS Research/Project

1-2 unit(s)

Master's project work in Chemical Engineering.

Repeatable up to 30 units.

Prerequisite(s): Advancement to candidacy. CHE 281 (Co-requisite with research advisor approval). Not available to Open University Students

Grading: Credit/No Credit/RP.

CHE 298I - MS Research/Project Internship

1-3 unit(s)

Master's project work in Chemical Engineering. This section is for students completing their Master's project work at an off campus location.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): Advancement to candidacy. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

CHE 299 - Master's Thesis

1-3 unit(s)

Master's thesis work in Chemical Engineering.

Prerequisite(s): Advancement to candidacy. CHE 281. CHE 281 may be taken concurrently with research advisor approval. Not available to Open University Students.

Grading: Credit/No Credit/RP.

CHE 299I - Master's Thesis Internship

1-3 unit(s)

Master's thesis work in Chemical Engineering. This section is for students completing their Master's thesis work at an off campus location.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): CHE 281, CHE 298. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

Note(s): CHE 298 may be taken co-currently with instructor approval.

CHE 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on dissertation, thesis, or project or in preparation for comprehensive exams beyond the minimum required units for cases in which final deliverables are still in progress and all other degree requirements except the culminating experience have been fulfilled.

Prerequisite(s): Outstanding RP grade in a previous semester in CHE 298 or 299

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit

Chemistry

CHEM 1A - General Chemistry

5 unit(s)

Topics including stoichiometry, reactions, atomic structure, periodicity, bonding, states of matter, energy changes, solutions using organic and inorganic examples. Lab program complements lecture.

Misc/Lab: Lecture 3 hours/lecture 1 hour/lab 3 hours.

Satisfies B1 + B3: Physical + Lab Science.

Prerequisite(s): Proficiency in high school chemistry or CHEM 10 (with a grade of "C" or better; "C-" not accepted) or instructor consent; proficiency in high school algebra and eligibility for MATH 19; Writing Enrollment Group W-I or W-II, or ENGL 1AF with a grade of CR, or ENGL 1A with a grade of C- or better.

Grading: Letter Graded

CHEM 1B - General Chemistry

5 unit(s)

Topics including stoichiometry, colligative properties, kinetics, equilibria, thermodynamics and electrochemistry. Lab program complements lecture.

Lecture 3 hours, lab/activity 5.5 hours.

Satisfies B1: Physical Science + B3: Laboratory.

Prerequisite(s): CHEM 1A (with a grade of "C" or better; "C-" not accepted).

Grading: Letter Graded

CHEM 2 - Academic Excellence Workshop

1-2 unit(s)

Cooperative learning activity to accompany selected College of Science courses and sections.

Activity 4 hours.

Corequisite(s): Enrollment in course and section accompanying workshop.

Grading: Credit/No Credit

Note(s): No credit toward requirements for any science major or minor. May be used for university electives.

CHEM 8 - Organic Chemistry

3 unit(s)

Introduction to the chemistry of carbon compounds for allied health majors and others requiring only 3 units of organic chemistry lecture.

Prerequisite(s): CHEM 1B (with a grade of "C" or better; "C-" not accepted).

Grading: Letter Graded

Note(s): CHEM 8 is not a satisfactory prerequisite for CHEM 112B. No credit toward Chemistry major or minor.

CHEM 9 - Organic Chemistry Lab

1 unit(s)

Organic chemistry laboratory for allied health majors and others requiring only 1 unit of organic chemistry lab.

Lab 3 hours.

Pre/Corequisite(s): CHEM 8.

Grading: Letter Graded

Note(s): No credit toward Chemistry major or minor.

CHEM 10 - Chemical Calculations and Concepts

3 unit(s)

Fundamental concepts in chemistry and problems in chemical symbolism and calculations. For students wishing to continue in chemistry, but lacking prerequisites for CHEM 1A.

Misc/Lab: Lecture 2 hours/activity 2 hours.

Prerequisite(s): One year high school algebra.

Grading: Letter Graded

Note(s): No credit towards chemistry major or minor.

CHEM 30A - Introductory Chemistry

3 unit(s)

The physical world as seen by a chemist; the ways this world affects humans, other animals and plants used as illustrations of fundamental general chemistry.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Satisfies B1 + B3: Physical + Lab Science.

Grading: Letter Graded

Note(s): No credit toward Chemistry major or minor.

CHEM 30B - Introductory Chemistry

3 unit(s)

Organic compounds produced both in nature and artificially and the reactions they undergo, particularly in the human.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): CHEM 30A or CHEM 1A (with a grade of "C" or better; "C-" not accepted).

Grading: Letter Graded

Note(s): No credit toward Chemistry major or minor.

CHEM 55 - Quantitative Analysis

2 unit(s)

Introduction to theories and techniques of chemical analysis.

Prerequisite(s): CHEM 1B (with a grade of "C" or better; "C-" not accepted)

Grading: Letter Graded

CHEM 55L - Quantitative Analysis Laboratory

2 unit(s)

Introduction to chemical analysis techniques.

Lab 6 hours.

Pre/Corequisite(s): CHEM 55.

Grading: Letter Graded

CHEM 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

CHEM 100W - Writing Workshop: Chemical Communications

3 unit(s)

Improvement of skills in scientific writing and speaking.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): CHEM 55 or CHEM 112A (with grades of "C" or better; "C-" not accepted). A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Allowed Declared Majors: Chemistry, Biochemistry. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

CHEM 105 - Computational Data Analysis in Chemistry

3 unit(s)

Computational methods for analyzing and storing chemical data sourced from both experiments and molecular simulations. Emphasis on the use of Excel and Python; no previous coding experience needed.

Lecture 2 hours/activity 2 hours.

Prerequisite(s): CHEM 55 and MATH 30 or MATH 30X (with a grade of "C" or better; "C-" not accepted).

Grading: Letter Graded.

Note(s): Offered online.

CHEM 112A - Organic Chemistry

3 unit(s)

Chemistry of the carbon compounds, both aliphatic and aromatic, emphasizing underlying concepts.

Prerequisite(s): CHEM 1B (with a grade of "C" or better; "C-" not accepted).

Grading: Letter Graded

CHEM 112B - Organic Chemistry

3 unit(s)

Continuation of CHEM 112A.

Prerequisite(s): CHEM 112A (with a grade of "C" or better; "C-" not accepted).

Grading: Letter Graded

CHEM 113A - Organic Chemistry Lab

2 unit(s)

Fundamental techniques for the isolation, characterization and synthesis of organic compounds.

Misc/Lab: Lab 6 hours.

Prerequisite(s): CHEM 112A (with a grade of "C" or better; "C-" not accepted). Chemistry, Biology, Forensic Science-Chemistry, Forensic Science-Biology, and Chemical Engineering majors only, all others by department consent.

Grading: Letter Graded.

CHEM 113B - Organic Chemistry Lab

3 unit(s)

Continuation of CHEM 113A including more advanced work.

Lecture 1 hour/lab 6 hours.

Prerequisite(s): CHEM 113A (with a grade of "C" or better; "C-" not accepted). Chemistry majors only or instructor consent.

Pre/Corequisite(s): CHEM 112B.

Grading: Letter Graded

CHEM 114 - Advanced Organic Chemistry Lab

3 unit(s)

A capstone course on special topics in laboratory experiments utilizing modern chemical, physical and spectrometric methods. A grade of "C" or better is required for majors.

Lecture 1 hour/lab 6 hours.

Prerequisite(s): CHEM 55, CHEM 100W, CHEM 112B and CHEM 113B (with grades of "C" or better; "C-" not accepted).

Grading: Letter Graded

CHEM 118 - Special Topics in Organic Chemistry

1 unit(s)

Introduction to a wide range of subjects typically missing from the traditional organic chemistry sequence (CHEM 112A and CHEM 112B, CHEM 113A, and CHEM 113B). Consult schedule of classes for current offering(s).

May be repeated for credit for up to 2 units.

Prerequisite(s): CHEM 112B (with a grade of "C" or better; "C-" not accepted).

Grading: Letter Graded

CHEM 120S - Chemical Safety Seminar

1 unit(s)

Safety protocol appropriate to working with hazardous chemicals. Physical nature of hazards, biological effects, permissible exposures, safety precaution techniques. OSHA requirements.

Prerequisite(s): College level chemistry course. Upper division standing.

Grading: Credit/No Credit

CHEM 121S - Radiation Safety

1-2 unit(s)

Health hazards involved in working with radioactive substances. Physical nature of hazards, biological effects, standards of permissible exposures, safety precautions and protection techniques. Two units meet State of California recommendations.

Prerequisite(s): Lower division calculus, chemistry and physics.

Grading: Letter Graded

Cross-listed with NUCS 121S / PHYS 121S. Chemistry is responsible for scheduling.

CHEM 126 - Introduction to Nuclear Science

3 unit(s)

Properties of the atomic nucleus. Applications of nuclear science in biology, chemistry, engineering, geology and physics.

Prerequisite(s): Lower division calculus, chemistry and physics.

Grading: Letter Graded

Cross-listed with NUCS 126 / PHYS 126. Chemistry is responsible for scheduling.

CHEM 127 - Nuclear Science Lab

3 unit(s)

Basic techniques and procedures used in nuclear science. Nuclear decay, nuclear reactions, radiation detection and measurements, nuclear analytical methods, and tracer techniques.

Lecture 1 hour/lab 6 hours.

Prerequisite(s): NUCS 121S, CHEM 100W, and CHEM 126 (with grades of "C" or better; "C-" not accepted); or instructor consent.

Grading: ABC-/No Credit

Cross-listed with NUCS 127 / PHYS 127. Chemistry is responsible for scheduling.

CHEM 130A - Biochemistry

4 unit(s)

Chemistry of amino acids, carbohydrates, lipids, and nucleotides. Studies of protein structure and function, protein isolation, enzyme kinetics, and enzyme mechanisms.

Prerequisite(s): CHEM 112B (with grade of "C" or better; "C-" not accepted).

Grading: Letter Graded

Note(s): CHEM 130A and CHEM 135 cannot both be applied towards a Chemistry major or a Chemistry minor.

CHEM 130B - Biochemistry

4 unit(s)

Continuation of CHEM 130A. Concepts of bioenergetics; biochemical pathways of degradation and synthesis; metabolic regulation.

Prerequisite(s): CHEM 130A and BIOL 30 (with grades of "C" or better; "C-" not accepted).

Grading: Letter Graded

CHEM 130C - Biochemistry

3 unit(s)

Advanced biochemical topics selected from the fields of immunology, physiology, molecular and cell biology.

Prerequisite(s): CHEM 130A and BIOL 30 (with grades of "C" or better; "C-" not accepted).

Grading: Letter Graded

CHEM 131A - Biochemistry Lab

2 unit(s)

Fundamental qualitative and quantitative techniques and methodology in modern biochemistry.

Lab 6 hours.

Prerequisite(s): CHEM 55 and CHEM 113A (with a grade of "C" or better; "C-" not accepted).

Pre/Corequisite(s): CHEM 130A.

Grading: Letter Graded

CHEM 131B - Biochemistry Lab II

3 unit(s)

Second course of a two semester biochemistry laboratory sequence, with laboratory work associated with intermediate qualitative and quantitative techniques in modern biochemistry. It serves as a capstone course on advanced isolation techniques and enzyme methodology that requires students to integrate principles, theories, and methods learned in previous courses through a research project.

Lecture 1 hour/lab 6 hours.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): CHEM 100W, CHEM 130A, and CHEM 131A (with grades of "C" or better; "C-" not accepted).

Pre/Corequisite(s): CHEM 130B or CHEM 130C.

Grading: Letter Graded

CHEM 132 - Introductory Biochemistry

4 unit(s)

Cellular and nutritional biochemistry for those who do not plan to continue in biochemistry, such as nutritional science and other science majors.

Prerequisite(s): CHEM 30B or CHEM 8 (with grades of "C" or better; "C-" not accepted).

Grading: Letter Graded

Note(s): No credit toward Chemistry major or minor.

CHEM 132L - Introductory Biochemistry Lab

1 unit(s)

Lab work associated with chemistry of foods and nutrition, cellular metabolism, biomacromolecules, vitamins, and the structure of carbohydrates, lipids, proteins, and nucleic acids.

Lab 3 hours.

Prerequisite(s): CHEM 30B or CHEM 8 (with a grade of "C" or better, "C-" not accepted).

Pre/Corequisite(s): CHEM 132.

Grading: Letter Graded

Note(s): No credit toward Chemistry major or minor.

CHEM 135 - General Biochemistry

4 unit(s)

Survey course on structure/function of biological molecules such as amino acids, proteins including enzymes, lipids/membranes, carbohydrates, and nucleic acids. Course topics include intermediary metabolism, regulation, and molecular biology.

Prerequisite(s): BIOL 30 (Biology majors only; with a grade of "C-" or better), CHEM 112B (with a grade of "C" or better; "C-" not accepted).

Grading: Letter Graded.

Note(s): CHEM 135 and CHEM 130A cannot both be applied toward a chemistry major or a chemistry minor.

CHEM 145 - Inorganic Chemistry

3 unit(s)

Development of unifying principles to understand the chemistry of the elements. An introduction to the chemistry, bonding theories, and applications of coordination compounds.

Prerequisite(s): CHEM 112B (with grade of "C" or better; "C-" not accepted).

Corequisite(s): CHEM 113A.

Grading: Letter Graded

CHEM 146 - Physical-Inorganic Techniques

3 unit(s)

Application of advanced instrumental and preparative techniques to the study of structure, reactivity, and spectroscopy of inorganic and organic substances including materials. This is a capstone course. A grade of "C" or better is required for majors.

Lecture 1 hour/lab 6 hours.

Prerequisite(s): CHEM 100W, CHEM 113A, and CHEM 145 (with grades of "C" or better; "C-" not accepted) or instructor consent.

Grading: Letter Graded

CHEM 155 - Instrumental Analysis

4 unit(s)

Principles and practices in the use of instrumental methods in chemical analysis. Basic physical chemistry necessary to understand the operation and limitations of the instruments.

Lecture 3 hours/lab 3 hours.

Prerequisite(s): CHEM 55, CHEM 55L, and CHEM 100W or JS 100W or ENGR 100W (with grades of "C" or better; "C-" not accepted).

Grading: Letter Graded.

CHEM 159 - Advanced Analytical Chemistry

1-2 unit(s)

A lecture and problem course which considers advanced topics in chemical analysis. Consult schedule of classes for current offering(s).

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Note(s): A total of 6 units may apply toward degree.

CHEM 160 - Physical Chemistry

4 unit(s)

Introduction to the fundamental principles of physical chemistry. Thermodynamics, kinetics, quantum mechanics, and spectroscopy.

Prerequisite(s): CHEM 55, PHYS 2B, and MATH 30 or MATH 30X (all with grades of "C" or better; "C-" not accepted).

Grading: Letter Graded

CHEM 161A - Physical Chemistry

3 unit(s)

Principles of classical physical chemistry. Chemical thermodynamics, kinetics, and electrochemistry.

Prerequisite(s): CHEM 55 (or CHEM 1B and upper division standing for engineering majors), PHYS 50,

and MATH 32 or MATH 32X (all with grades of "C" or better; "C-" not accepted).

Grading: Letter Graded

CHEM 161B - Physical Chemistry

3 unit(s)

Principles of modern physical chemistry. Quantum chemistry, spectroscopy, and statistical mechanics.

Prerequisite(s): CHEM 161A and PHYS 52 (with grades of "C" or better; "C-" not accepted). Upper division standing.

Grading: Letter Graded

CHEM 162L - Physical Chemistry Lab

2 unit(s)

Physical chemical measurements with data analysis and written reports.

Lab 6 hours.

Prerequisite(s): CHEM 100W or ENGR 100W; CHEM 161A or CHEM 160 (all prerequisites with grades of "C" or better; "C-" not accepted).

Corequisite(s): If using CHEM 161A as a prerequisite, either CHEM 161B or CHE 158 are required as a co-requisite.

Grading: Letter Graded

CHEM 170A - Macromolecular, Supramolecular & Nanoscale Systems

1 unit(s)

Introduction to macromolecular, supramolecular, and nanoscale systems and the principles that govern them including preparation, characterization, and physical properties, with an emphasis on applications of these materials in chemistry and beyond.

Prerequisite(s): CHEM 112B with grade of "C" or better (C- not accepted) or with instructor consent.

Grading: Letter Graded

CHEM 172 - Chemistry of Wine

1 unit(s)

Introduction to the chemistry of important components (organic acids, pigments, tannins, flavor constituents, etc.) of grape wine. Chemical changes that occur during fermentation, maturation, and aging.

Prerequisite(s): CHEM 1B (with a grade of "C" or better; "C-" not accepted) or instructor consent.

Grading: Letter Graded

CHEM 180 - Individual Studies

1-4 unit(s)

Advanced supervised lab work. Work and results described in written and oral reports as required by the instructor. An honors course.

Prerequisite(s): Instructor consent. Not available to Open University Students.

Grading: Credit/No Credit

Note(s): Based on university policy, no more than 4 units of Individual Studies (180) and/or Directed Reading (184) may count for the baccalaureate degree, in total. For students in the Biochemistry Concentration, only 3 CR/NC units can count towards upper division electives. High Impact Practice: Undergraduate Research

CHEM 184 - Directed Reading

1-3 unit(s)

Assigned readings of selected books, journals and papers to fill gaps in training or for contact with new fields. Regular conferences with instructor. Written report required. An honors course.

Prerequisite(s): Instructor consent and CHEM 55. Not available to Open University Students

Grading: Credit/No Credit

CHEM 190 - Introduction to Research

1 unit(s)

Supplemental course taken simultaneously with lower and upper division chemistry lecture courses. Foundational techniques for doing research. Preparation and active participation expected.

Grading: Letter Graded

CHEM 191 - Undergraduate Seminar

0.5 unit(s)

Engaging with presentations of topics within specialized sub-areas of chemistry by SJSU Master's students, SJSU faculty, and faculty and other professionals in the chemistry enterprise beyond SJSU. A total of 2 units may be repeated.

Course may be repeated for credit for up to 2 units.

Grading: Letter Graded

CHEM 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

CHEM 199 - Senior Thesis or Project

1 unit(s)

Prerequisite(s): Minimum of 2 units of CHEM 180 or CHEM 184, instructor consent and CHEM 100W. Not

available to Open University Students

Grading: Credit/No Credit

CHEM 213 - Organic Synthesis

3 unit(s)

Synthetic methods and their application to multistep organic syntheses. Emphasis will be placed on synthetic strategy and a mechanistic understanding of synthetic reactions.

Prerequisite(s): CHEM 112B (or equivalent with a grade of "C" or better; "C-" not accepted). Alternate years
3 units.

Grading: Letter Graded

CHEM 216 - Physical Organic Chemistry

3 unit(s)

Application of molecular orbital theory to organic chemistry and related topics.

Prerequisite(s): CHEM 112B and CHEM 161B (or equivalents with grades of "C" or better; "C-" not accepted).

Grading: Letter Graded

Note(s): Alternate years.

CHEM 218 - Organotransition Metal Chemistry

3 unit(s)

Structure and reaction chemistry of compounds which contain transition metal-carbon bonds. Applications to catalytic processes and to organic synthesis.

Prerequisite(s): CHEM 112B and CHEM 145 (or equivalents with grades of "C" or better; "C-" not accepted) or instructor consent.

Grading: Letter Graded

Note(s): Alternate years.

CHEM 231 - Advanced Biochemistry

3 unit(s)

Chemistry of the amino acids, peptides and proteins, the chemistry of enzyme action and introduction to the metabolism of amino acids and related compounds.

Prerequisite(s): CHEM 130B or CHEM 135 (or equivalent with a grade of "C" or better; "C-" not accepted).

Grading: Letter Graded

Note(s): Alternate years.

CHEM 232 - Nucleic Acids

3 unit(s)

Topics include structural features of DNA and RNA, protein-DNA or RNA interactions, chemical and

enzymatic basis for gene expression, and recombinant DNA methods.

Prerequisite(s): CHEM 130C or CHEM 135 (or equivalent with a grade of "C" or better; "C-" not accepted).

Grading: Letter Graded

Note(s): Alternate years.

CHEM 234 - Enzymology

3 unit(s)

Enzyme structure, function, classification, isolation and methodology, mechanisms, theory of catalysis, enzyme kinetics, pH effects, allosterism and regulation.

Prerequisite(s): CHEM 130B or CHEM 135 (or equivalent with a grade of "C" or better; "C-" not accepted).

Grading: Letter Graded

Note(s): Alternate years.

CHEM 236 - Biophysical Methods

3 unit(s)

Advanced lectures on theory and methodology of biophysical measurements. Topics selected from spectroscopic, electromigration and hydrodynamic methods. Practice, limitations and data reduction procedures for each method examined.

Prerequisite(s): CHEM 130A or CHEM 135 (or equivalent with a grade of "C" or better; "C-" not accepted) or instructor consent.

Grading: Letter Graded

Note(s): Alternate years.

CHEM 245 - Advanced Inorganic Chemistry

3 unit(s)

Advanced topics of current interest in inorganic chemistry.

Prerequisite(s): CHEM 145 (or equivalent with grade of "C" or better; "C-" not accepted).

Grading: Letter Graded

Note(s): Alternate years.

CHEM 250 - Current Topics in Analytical Chemistry

3 unit(s)

Lecture, discussion and reading assignments on special topics in analytical chemistry. Topics vary each semester. Course may be repeated for credit for different topics.

Prerequisite(s): CHEM 155 (or equivalent with a grade of "C" or better; "C-" not accepted).

Grading: Letter Graded

CHEM 268 - Laser Spectroscopy

3 unit(s)

Importance of spectroscopy. Interaction of radiation with matter. Instrumentation for laser spectroscopy. Examples of various techniques, cw and pulsed.

Prerequisite(s): PHYS 110B, PHYS 158 or instructor consent.

Grading: Letter Graded

Cross-listed with PHYS 268. Physics and Astronomy is responsible for scheduling.

CHEM 270 - Advanced Chemistry

1-5 unit(s)

Lectures, discussions, and reading assignments in special fields of chemistry. Topics vary. May be repeated for a maximum of 15 units.

Course may be repeated for credit for up to 15 units.

Prerequisite(s): Satisfactory background in upper division chemistry and instructor consent.

Grading: Letter Graded

CHEM 276 - Physical Polymer Chemistry

3 unit(s)

Techniques for characterizing molecular weights of polymers, their distribution functions, polymer chain statistics and solution thermodynamics.

Prerequisite(s): Satisfactory background in upper division chemistry or materials science or instructor consent.

Grading: Letter Graded

Note(s): Alternate years.

CHEM 285 - Seminar

0.5 unit(s)

Presentation of chemical topics by graduate students, faculty and guests. A maximum of 3 units may be repeated.

Course may be repeated for credit for up to 3 units.

Grading: Letter Graded

CHEM 293 - Applied Bioinformatics

3 unit(s)

Bioinformatics theory and applications including sequence search, proteomics, molecular modeling, and combinatorial chemistry. Students will work in teams and be guided in independent inquiry to solve practical bioinformatics problems.

Prerequisite(s): Senior or graduate standing in engineering or science.

Grading: Letter Graded

Cross-listed with CHE 293. Chemical Engineering is responsible for scheduling.

CHEM 297 - MA Special Study

1-3 unit(s)

Supervised individual MA project. Maximum of 12 units may be repeated.

Course may be repeated for credit for up to 12 units.

Pre/Corequisite(s): CHEM 201 and instructor consent. Not available to Open University Students

Grading: Credit/No Credit

CHEM 298 - Research

1-6 unit(s)

Supervised individual laboratory work or directed chemical field studies for the student with adequate preparation. Maximum of 12 units may be repeated.

Course may be repeated for credit for up to 12 units.

Pre/Corequisite(s): CHEM 120S, CHEM 201 and instructor consent. Not available to Open University Students

Grading: Mandatory Credit/No Credit/RP

CHEM 299 - Master's Thesis

1-6 unit(s)

Maximum of 6 units may be repeated.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): CHEM 298, instructor consent and advancement to candidacy for the master's degree. Not available to Open University Students

Grading: Mandatory Credit/No Credit/RP

Note(s): 1-2 units per semester.

CHEM 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in CHEM 299, Master's Thesis

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Chicana and Chicano Studies

CCS 1 - Introduction to Chicana and Chicano Studies

3 unit(s)

Through an interdisciplinary perspective, students learn how Chicana and Chicano Studies examines social issues to analyze theories, problems, resistance, historical development, identity choices, social/cultural contributions, and consciousness among Chicanas and Chicanos.

Satisfies F: Ethnic Studies.

Grading: Letter Graded

CCS 2 - Library Studies

1 unit(s)

An introduction to the library, its resources, and skills for students to be successful in the CCS major and at SJSU. Topics will cover developing a research topic, developing a research strategy, and finding and evaluating print and non-print sources.

May be repeated for credit for up to 2 units.

Grading: Credit/No Credit

CCS 7 - Mexican Folklorico Dance

1 unit(s)

Introduction to Mexican Folklorico Dance. Focus is on the development of fundamental Mexican Folk dance skills and knowledge. Review of the interrelationship of dance culture to origins, holidays, people, and historical context. Students learn danzas & Mestizo dances from various states and regions of Mexico (e.g. Veracruz Huasteca, Tamaulipas Norte) and indigenous community (e.g. Oaxaca Mixe) dance categories.

Satisfies PE: Physical Education

Course may be repeated for credit for up to 4 units.

Grading: Letter Graded

Cross-listed with KIN 7. Chicana Chicano Studies is responsible for scheduling.

CCS 10A - Mexican Americans and the Development of U.S. History and Government

3 unit(s)

The American people and institutions from various ethnic points of view. Historical similarities and differences of various groups that make up the U.S. and its historical/political institutions. From pre-Columbian times to 1865. GE Area: D, meets additional GE Areas when taken with CCS 10B.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Note(s): Must complete the entire sequence (CCS 10A and CCS 10B) to satisfy American Institutions (US123).

CCS 10B - Mexican Americans and the Development of U.S. History and Government

3 unit(s)

The American people and institutions from various ethnic points of view. Historical similarities and differences of various groups that make up the U.S. and its historical/political institutions. From 1865 to the present. GE Area: D, meets additional GE Areas when taken with CCS 10A.

Satisfies D + US123: Social Sciences and American Institutions

Prerequisite(s): CCS 10A.

Grading: Letter Graded.

Note(s): Must complete the entire sequence (CCS 10A and 10B) to satisfy American Institutions (US123).

CCS 25 - The Changing Majority: Power and Ethnicity in America

3 unit(s)

Comparative and historical analysis of racial minorities. Focus on Euro American response to American Indians, Asian Americans, African Americans and Mexican Americans to provide understanding of minority experience in the U.S. as well as American culture.

Satisfies F: Ethnic Studies.

Grading: Letter Graded

Cross-listed with AAS 25 / AFAM 25. Chicana Chicano Studies is responsible for scheduling.

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

CCS 30 - Race and Ethnicity in Public Space

3 unit(s)

This course focuses on race and ethnicity. Using readings, field trips, media images, and course discussion students learn about racialization in American society. We explore uses of racial and ethnic categories and their institutionalization in everyday life.

Satisfies F: Ethnic Studies.

Grading: Letter Graded.

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

CCS 40 - Chicana/o Theater: Social Justice Performance Art

3 unit(s)

Explores the history and activist art of Chicana/o theater and performance by reading and discussing works by vanguard dramatists and theater troupes. Culminates in a student-led theater performance that applies the principles of social justice to racial-ethnic representations and the politics of public space at the center of

Chicana/o Theater.

Lecture 1 hour/activity 2 hours.

Grading: Letter Graded.

CCS 74 - Public Address

3 unit(s)

Techniques of effective oral communication. Principles of rhetoric through analysis and critique of contemporary issues concerning Mexican Americans.

Satisfies A1: Oral Communication.

Grading: Letter Graded

CCS 105 - Chicanos: United States/Mexico Relations

3 unit(s)

Exploration of U.S./Mexico relations through the Chicana/o perspective. Emphasis is on both historical and contemporary issues.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

CCS 115 - Chicana/o Families

3 unit(s)

Examines Mexican and Mexican American families from the 19th to the 21st century. Special attention is given to the diversity of family structures in terms of incorporation, settlement, and socio-cultural interfacing within group and with diverse race/ethnic communities.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

CCS 120 - Political Economy and Chicana/o Communities

3 unit(s)

Analysis of the American political and economic systems and institutions and their inter-connections from a Chicana/o perspective. Focus on the changing roles of Chicanas/os in the U.S. and global economies and political processes.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

CCS 125 - Chicana/o Community Studies

3 unit(s)

This course is designed to facilitate the growth of interdisciplinary and social justice frameworks and

methodologies in students. It showcases the diversity of research within the Arts, Humanities, and Social Sciences, engaging and informing students in dialogues rooted in abolition and a politics of relationality (interdisciplinarity). It centers on three themes: Self-Knowledge and Chicana/o Studies Skills, Professional Development, and the responsibilities and ethics of Community Engagement.

Grading: Letter Graded.

CCS 127 - Chicanas/os and the Criminal Justice System

3 unit(s)

Crime, delinquency and the interaction between Chicano/Latino communities and the criminal justice system. The roles of government agencies, local law enforcement, the courts and corrections.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

CCS 130 - Chicanas and Chicanos in American Society

3 unit(s)

Analysis of the Chicana/o community and its role in US society, emphasizing understanding social change. Covers critical areas of the Chicana/o experience, including: family, politics, gender and sexual orientation, education, immigration, identity, institutional racism and discrimination, class, and environmental justice.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

CCS 135 - Contemporary Chicana/o Issues

3 unit(s)

Analysis of selected issues/topics involving Chicano/Latino communities. May be repeated with different topic/issue.

Prerequisite(s): ENGL 1A or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

CCS 144 - Chicana/o Literature

3 unit(s)

An examination of selected Chicana/o literature including poetry, short stories, essays, and novels. May be repeated with different topic.

Prerequisite(s): ENGL 1A or instructor consent.

Grading: Letter Graded

CCS 145 - Chicana/o Folklife and Popular Culture

3 unit(s)

Introduction to the expressive culture that emerges from the everyday, lived, and shared experiences within U.S. ethnic Mexican culture. Illustrates the processes by which Chicana/o communities express cultural, political, and cultural identities differently as felt through expressive culture genres, such as music, dance, verbal art and literature, visual arts, and cultural expressions of religion.

Grading: Letter Graded

CCS 147 - Music in Mexican America

3 unit(s)

Introduction to historical and stylistic musical developments in the experience of ethnic Mexicans in the U.S. The course surveys various styles and genres (such as corridos, conjunto, Tejano, Chicana/o rock and rap). No musical (performance) experience is required.

Grading: Letter Graded

CCS 150 - Research Methods

3 unit(s)

A survey of research methods used in Chicana/o studies that address issues in Chicana/o communities.

Prerequisite(s): CCS 2 and CCS 151 or instructor consent. Students should have completed or be currently enrolled in 100W.

Grading: Letter Graded

CCS 151 - Theory in Chicana/o Studies

3 unit(s)

An introduction to the theories and study of race, gender and sexuality in Chicana/o communities. Study of the various theoretical and analytical frameworks that are or have been used in the scholarly field.

Prerequisite(s): CCS 1 and CCS 2

Grading: Letter Graded

CCS 152 - The Story of Chicano Spanish

3 unit(s)

Exploration of the origins, development, and use of the Spanish spoken by Mexican Americans and Chicanas/os in the United States. Examines Chicano Spanish from its roots in Colonial Mexico through its development and use in the United States since the first Spanish/Mexicans settled the American Southwest. Particular focus on the etymology of Chicano Spanish.

Grading: Letter Graded

CCS 160 - Gender and Sexuality in the Chicana/o Community

3 unit(s)

An examination of how patriarchy, race, and class shape Chicanas in their everyday lives in American society. It explores how women resist and challenge the limitations placed on them as a result of being women and members of a racial/ethnic group.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 5: Gender Equality

CCS 170 - Chicana/Chicano Film

3 unit(s)

Analysis of how Chicana/os have been represented in mainstream and independent cinema, as well as how films have shaped the socio-political relations between Chicanas/os and the dominant society.

Prerequisite(s): ENGL 1A and ENGL 2 or instructor consent.

Grading: Letter Graded

CCS 175 - Human Migrations: Global Reach

3 unit(s)

Examines Mexican immigration to the United States within the context of global movements as both historical and contemporary phenomena. Considers social, political, cultural, and economic forces that influence immigration.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Related - SDG 10: Reduced Inequalities

CCS 180 - Individual Studies

1-4 unit(s)

Individual research projects and field activities.

Prerequisite(s): Upper division standing and instructor consent.

Grading: Credit/No Credit

CCS 185 - Teaching in a Diverse Society

3 unit(s)

This course will provide future teachers with an understanding of the ways in which diversity in the classroom influences the learning process and how specific teaching strategies can enhance student learning.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

CCS 190 - Chicana and Chicano Studies Capstone

3 unit(s)

Seminar integrating concepts, analyses, and theories used in Chicana and Chicano Studies and drawing on interdisciplinary research methods to address pressing questions. Students produce an academic capstone project.

Prerequisite(s): CCS 125 CCS 150, CCS 151; Senior Standing; Allowed Declared Major or Minor: Chicana/o Studies.

Grading: Letter graded.

CCS 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

CCS 200 - Ideology and the Chicana/o Experience

3 unit(s)

Seminar examining the ideological and philosophical forces that shape Chicana/o experiences and identities.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

CCS 205 - Chicana/o History

3 unit(s)

Seminar exploring the historical experiences of Chicanas/os, from the indigenous past to the present. Integrates historiography, as it is grounded in an analysis of the development of and changes in the field of Chicana/o history.

Grading: Letter Graded

CCS 210 - Foundations in Chicana/o Studies

3 unit(s)

An analysis of the evolution of Chicana/o thought and intellectual production and the development of the field of Chicana/o Studies. Analyzes the basic constructs and theories underlying Chicana/o Studies, from early works to the present.

Grading: Letter Graded

CCS 215 - Chicanas/os and Education

3 unit(s)

Focus is on key educational issues facing Chicanas/os both historically and currently, including policy, curriculum, cultural conflict, and the different efforts to address them.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

CCS 225 - The Impact of American Institutions on the Chicana/o Community

3 unit(s)

Seminar analyzing the impact of social, political, economic, and cultural systems on Chicana/o communities.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

CCS 230 - Policy Analysis and the Chicana/o Community

3 unit(s)

Policy analysis focusing on a specific institution or institutions. Emphasis is on analyzing major issues and social policies that affect the Chicana/o community. Effective strategies to affect social change are examined.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

CCS 240 - Applied Chicana/o Studies Seminar

3 unit(s)

Integrates major issues and theories from CCS core courses and applies them to current problems. Includes analyses of the latest research on: politics, economics, gender, immigration, education, community development, sexual orientation, and interethnic conflicts and collaborations.

Prerequisite(s): CCS core.

Grading: Letter Graded/RP.

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

CCS 252 - Comparative Ethnic Studies

3 unit(s)

Interdisciplinary introduction to critical topics and debates in comparative ethnic studies, including race and representation, racialized and gendered labor and citizenship, indigeneity, feminism, nationalism, segregation and environmental injustices.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

CCS 275 - Research Methods

3 unit(s)

Seminar exploring the methodological challenges posed by Chicana/o Studies. The course helps students develop skills in specific research methods of their choice as well as research proposals for the project/thesis, or other areas of post-graduate work.

Prerequisite(s): Core courses.

Grading: Letter Graded

CCS 298 - Special Studies

1-6 unit(s)

Supervised project with advisor.

Prerequisite(s): Completion of core courses and written consent of the department's graduate advisor.

Grading: Mandatory Credit/No Credit/RP

CCS 299 - Master's Thesis

3-6 unit(s)

Supervised thesis.

Prerequisite(s): Advancement to candidacy for master's degree and written consent of the department's graduate advisor.

Grading: Mandatory Credit/No Credit/RP

CCS 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on dissertation, thesis, or project or in preparation for comprehensive exams beyond the minimum required units for cases in which final deliverables are still in progress and all other degree requirements except the culminating experience have been fulfilled.

Prerequisite(s): Graduate Student, RP recorded for thesis or project courses.

Corequisite(s): Enrollment in no other courses, all degree requirements completed except thesis or project.

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Child and Adolescent Development

CHAD 60 - Child Development

3 unit(s)

Foundational course explores child development, from prenatal life through the adolescent years, in the context of the family, community, and culture. Reviews major theories, influences, and milestones of physical, cognitive, and socioemotional domains of development. Requires service-learning in an approved setting.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

CHAD 70 - Lifespan Development in a Global Context

3 unit(s)

Explores influences on physical, cognitive, social, and emotional development across the lifespan (from conception through older adulthood). Special focus on understanding development within a global context through investigation of theories, research, and the role of cultural commonalities and differences in human development around the world.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

CHAD 75 - Imagination, Play and Adult Creativity

3 unit(s)

Explores childhood play and imagination as well as adult creativity and the influence of value systems, economic structures, political institutions, social groups and natural environments on the development of play, imagination and creativity.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Sustainability Focused - SDG 4: Quality Education

CHAD 76 - Child Development Among Media and Emerging Technologies

3 unit(s)

Introduction to research on how the changing media landscape interacts with cultural context to influence child and adolescent behavior and development as well as family functioning. Students evaluate the risks and benefits of engagement with varied types of media at each period of development, make recommendations for ethical policy and practice, and propose new ideas for leveraging emerging technologies to enhance developmental supports for children and families.

Satisfies D: Social Sciences.

Grading: Letter Graded

CHAD 80 - Quantitative Analysis in Developmental Science

3 unit(s)

Practical approach to descriptive and inferential statistics applied to real-world problems related to child and adolescent development. Focus on calculating and translating statistical findings to a variety of audiences. Includes discussion of central tendency, distributions, analysis of variance (ANOVA), correlation, and regression.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Math Enrollment Category M-I or M-II, or any GE Area B4 course with a grade of C- or better.

Grading: Letter Graded

Note(s): This course must be passed with a C- or better as a CSU graduation requirement.

CHAD 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

CHAD 100W - Writing Workshop

3 unit(s)

Development of advanced writing skills in the field of child and adolescent development, with a focus on the development of scientific, professional, analytic, and persuasive writing styles. Students will learn to use writing to clearly convey ideas to specialized and general audiences.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): Upper division standing and completion of A3, ENGL 1B, HUM 2B, or equivalent with a C- or better. Or Graduate/Postbaccalaureate standing.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

CHAD 101 - Research Methods in Developmental Science

3 unit(s)

Study of data collection techniques and methods used in child and adolescent development research, including observation, interview, experiment, and survey. Special attention to interpreting and evaluating the

quality of information reported from a variety of sources.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

CHAD 102 - Development of Self in a Culturally Diverse Society

3 unit(s)

Examines the influence of institutions and society on families and the psychosocial development of children and adolescents from diverse backgrounds in the United States. Topics include attitude and belief formation, identity development, prejudice and discrimination, structural inequality, constructive communication among individuals, and social movements for equality.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

CHAD 104 - Program Evaluation and Assessment in Community-Based Programs

3 unit(s)

Program evaluation and assessment enables non-profit organizations to better understand and optimize the services they provide to children, youth, and families. Through lecture, discussion, and case studies, students learn the principles and methods of evaluation, with special attention to underlying ethical issues and cultural competencies.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

CHAD 106 - Concepts of Childhood

3 unit(s)

Explores the historical diversity in the ways in which childhood has been defined; investigates diverse cultural definitions of childhood; examines the impacts of those beliefs and definitions on human development.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

CHAD 130 - Coding for Scientific Discovery

3 unit(s)

The physical universe and its life forms are studied through scientific investigations (via computer modeling/coding) that reflect the epistemology and reasoning of scientific practices. These investigations are contextualized with issues related to diversity, equity, ethics, and the teaching/learning of science.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

CHAD 131 - Equity, Resilience, and Risk in Public Schools

3 unit(s)

Students study the interrelationship of individuals, racial groups, and cultural groups to understand and appreciate issues of diversity, equality, and structured inequality in the U.S., its institutions, and its cultures. Specifically, students explore micro and macro influences that place children's educational trajectory and achievement at risk. Students examine protective factors, at both micro and macro levels, that can help achieve educational equality for all children.

Satisfies SJSU Studies S: Self, Society & Equality in US

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Note(s): All of SJSU Studies courses require upper division standing.

Sustainability Focused - SDG 4: Quality Education

CHAD 132 - Education from a Global Perspective

3 unit(s)

Explores the meaning of education as a concept, or philosophy, both within the US and around the globe. Concepts of education, such as education as empowerment or education as meeting national goals, are examined. Explores how educational traditions outside the US have influenced American education systems (with respect to culture and societal norms), how cultures develop distinctive education systems and how those education systems interact with education systems in other cultures. Provides a foundation for understanding K-8 visual and performing arts standards as well as standards for K-8 history and social studies.

Satisfies SJSU Studies V: Culture, Civil & Global Understanding

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

CHAD 133 - Introduction to K-8 Math/Science Instruction

3 unit(s)

Introduction to effective instruction and assessment in K-8 math/science. Reviews learning and pedagogical theories and methods for adapting curriculum for all learners. Reviews developmental processes related to

achievement in math/science. Students develop knowledge of Common Core Standards for math/science.

Prerequisite(s): Upper division standing; probationary admission to the ChAD credential program; and passing the CBEST.

Grading: Letter Graded

CHAD 134 - K-8 Math & Science Practicum

6 unit(s)

Prepares teachers to teach mathematics and science in culturally, ethnically, and linguistically diverse K-8 classrooms. Examines the rationale for interdisciplinary curriculum design and enables students to make informed decisions about creating and implementing interdisciplinary curriculum that strengthens the teaching/learning process.

Prerequisite(s): Upper division standing; admission to the ChAD credential program; passing the CSET; CHAD 133; Certificate of Clearance from the CTC; and current (last 3 years) TB tests (negative results).

Grading: Letter Graded

CHAD 135 - Development of Language & Literacy in Children

3 unit(s)

An overview of the development of children's communicative competence as well as the foundations of language and literacy in the context of a diverse society. Course content covers theories, contexts for development, linguistic diversity, and information/media literacy. A service learning component of 15 hours for the semester is required.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

CHAD 136 - Foundations of K-8 Language Arts & Social Studies

3 unit(s)

Introduction to effective instruction and assessment in reading/language arts/social studies. Reviews learning/pedagogical theories, methods for adapting curriculum for all learners, and developmental processes underlying achievement in these areas. Students develop knowledge of Common Core Standards for language arts/social science.

Prerequisite(s): Upper division standing, Admission to the ChAD credential program and a passing score on the CBEST and CSET.

Grading: Letter Graded

CHAD 137 - K-8 Language Arts & Social Studies Practicum

6 unit(s)

Prepares educators to teach language arts/social science in culturally, ethnically, and linguistically diverse K-8 classrooms. Discusses methods/strategies and development of a balanced, comprehensive, evidence-based program that addresses the needs of all learners. Technology use and curricular integration are explored.

Prerequisite(s): Admission to the ChAD credential program, CHAD 136, and a passing score on the

CBEST and CSET.

Grading: Letter Graded

CHAD 138 - K-8 Student Teaching and Seminar

12 unit(s)

Supervised teaching in a public school classroom. Student Teaching in the field and seminar on campus. Students explore their teaching experiences in the context of research on effective teaching and learning and complete the Cal-TPA. Meets all requirements for student teaching.

Prerequisite(s): Admission to the ChAD credential program; Certificate of clearance, and passage of the CBEST and CSET; Program Director Consent.

Grading: Credit/No Credit

CHAD 149 - Child Health and Activity

3 unit(s)

Explores concepts, frameworks, and national standards regarding children's health and physical education using an interdisciplinary curriculum. Special attention is given to factors that influence children's health and wellness, safety and prevention, motor skill development, and lifelong healthy practices.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

Cross-listed with KIN 149. Child and Adolescent Development is responsible for scheduling.

CHAD 150 - Development of Language and Communicative Competence

3 unit(s)

Survey of major topics in the development of language and communicative competence. Includes discussion of language acquisition, contexts for development, language assessment, relationships between language/cognition and language/culture, and bilingualism.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

CHAD 151 - Developing Literacy in a Diverse Society

3 unit(s)

Introduces an understanding of learning and teaching literacy in a linguistically and culturally diverse and technologically complex society. Presents a balanced approach to developing literacy, including an understanding and use of the major descriptors of developing literacy, appropriate assessment methods and instruments, and a developmental and analytical appreciation for reading and writing strategies, conventions, and applications. A service learning component of 15 hours for the semester is required.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

CHAD 152 - Foundations for Early Childhood Curriculum

3 unit(s)

Introduces foundations for implementing integrated developmentally appropriate and comprehensive curriculum connected to children's purposeful and playful experiences. Addresses historical and theoretical issues of curriculum models; assessment of children's learning; research and standards applicable to curriculum in language, literacy, and STEAM (science, technology, engineering, arts, and math) content areas. A service learning component of 15 hours for the semester is required.

A service learning component of 15 hours for the semester is required.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

Note(s): The majority of approved service learning sites require proof of a negative TB test and background clearance.

CHAD 156 - Social Media and Youth Civic Engagement

3 unit(s)

Exploration of the impact of social media on youths' ability to learn about, discuss, and act on social issues that matter to them. Students analyze online dialogue about pressing social issues, learn about promising strategies developed by activists and educators, and develop and practice techniques for using social media to raise awareness about and discuss social issues.

Grading: Letter Graded

CHAD 157 - Program Management in Community Organizations

3 unit(s)

Explores program management and leadership within nonprofit and community-based organizations serving children, youth, and families. Gives attention to features of positive developmental settings, organizational structure and leadership, development and maintenance of resources (e.g., fundraising, partnerships, volunteers), staff supervision, evaluation, and development as well as maintaining an ethical and culturally competent organization. A service learning component of 15 hours for the semester is required.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

CHAD 158 - Practicum in Community Organizations

3 unit(s)

Practical application of the theoretical information acquired across the ChAD major coursework. Students will participate in the context of a community-based organization that enhances equitable outcomes for children, youth and families.

Lecture 1 hours/Lab 6 hours.

Prerequisite(s): CHAD 60 or CHAD 70, and upper division standing.

Grading: Letter Graded

Note(s): Course requires 6 hours per week of non-paid fieldwork in an approved non-profit setting.

Practicum sites for this course typically require availability during weekday afternoons as well as a TB test and background clearance. Please check with your academic advisor if you have any concerns.

CHAD 159 - Practicum in K-8 Education

3 unit(s)

Practical application of evidence-based and culturally sustaining practices through student participation in K-8 classrooms. Includes a review of pedagogical principles and instructional techniques. Meets pre-professional fieldwork hours for students seeking to enter a Multiple Subject Teacher Credential program.

Lecture 1 hours/Lab 6 hours.

Prerequisite(s): CHAD 60 or CHAD 70, and upper division standing.

Grading: Letter Graded

Note(s): Course requires 6 hours per week of non-paid fieldwork in a public school classroom (K to 8th grade). Middle school placements must be in a self-contained or core classroom. Practicum sites usually require a TB test and a background clearance. Please check with your academic advisor if you have any concerns.

CHAD 160 - Practicum in Early Childhood Education

3 unit(s)

Practical application of evidence-based practices based on early childhood education principles and theories while engaging with young children in the SJSU's Child Development Lab Preschool Programs. These programs follow Title 22 Licensing Regulations.

Lecture 1 hour/Lab 6 hours.

Prerequisite(s): CHAD 60 or CHAD 70, and upper division standing.

Grading: Letter Graded

Note(s): Course requires 6 hours per week of non-paid fieldwork at SJSU Lab Preschool. There are two programs students may choose from: Toddler Lab (2-3 year olds) and Multi-Age Lab (3-5 year olds). Requires TB test, background clearance, and proof of vaccinations. Please check with your academic advisor if you have any concerns.

Sustainability Related - SDG 4: Quality Education

CHAD 161 - Administration of Early Childhood Programs

3 unit(s)

Surveys appropriate administrative policies and procedures relevant to designing, administering, and assessing high quality early learning programs. Focus is on family engagement, staff development, integrated curriculum design, and program administration.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

CHAD 162 - Cultural Influences in Childhood and Adolescence

3 unit(s)

Examination of similarities and differences in social, emotional, cognitive, and language development among children and adolescents from different cultural and ethnic groups in the United States and around the world. Agents, processes, and contexts that contribute to continuity of and change in cultural systems.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

Sustainability Related - SDG 4: Quality Education

CHAD 163 - Critical Issues in Adolescent Development

3 unit(s)

Examines important changes in adolescents' physical, cognitive, social and emotional growth with special attention on contextual factors that shape the diverse experiences of adolescents during this period of transition from childhood to adulthood.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

Sustainability Related - SDG 4: Quality Education

CHAD 164 - Contemporary Parenting

3 unit(s)

Explores concepts, theories, and substantive issues in parenting from a multicultural perspective. Focuses on how parenting changes as the child ages and current issues in parenting. Special attention is given to variation in family structure, race and ethnicity, cultural expectations, community context, and the impact of parenting on parent-child relationships.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

CHAD 165 - Risk and Resilience in a Community Context

3 unit(s)

Explores and applies theories and current research to understand concepts of risk and resilience at the individual, family, community, societal, and global levels. Examines risk and protective factors as well as prevention and intervention resources associated with adversity and resilience to promote healthy youth development across diverse communities and cultures.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

CHAD 168 - Social and Emotional Development

3 unit(s)

Explores areas of social and emotional development including processes related to self-regulation, identity development, and social relationships. Emphasis is placed on cultural influences on children's and

adolescents' social and emotional well-being.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

CHAD 169 - Motivating Children and Adolescents in Educational Settings

3 unit(s)

Examines theories of motivation from historical and contemporary perspectives. Focuses on theory and empirical evidence bearing upon the psychological process influencing behavior. Explores issues of diversity and the practical implications for informal and formal educational settings.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

CHAD 170 - Cognitive Development in Context

3 unit(s)

An empirical and theoretical examination of children's thinking from birth through young adulthood. The course covers major topics and issues in cognitive development with an emphasis on how contextual factors, such as family, school, and other cultural environments, influence individual differences.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

CHAD 173 - Critical Issues in Infant/Toddler Development

3 unit(s)

Examines physical, cognitive, social, emotional, and language development in the first three years of life, and contextual factors (e.g., culture, family, childcare) that influence these developmental changes. Attention given to best practices in infant and toddler education and care, factors that place infants and toddlers at risk (e.g., racial and economic inequities), and strengths-based perspectives of young children and their families.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

CHAD 180 - Individual Studies

1-4 unit(s)

Individual work on special topics by arrangement.

May be repeated for credit.

Prerequisite(s): Upper division standing.

Grading: Credit/No Credit

CHAD 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International

Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

CHAD 195 - Senior Seminar in Child & Adolescent Development

3 unit(s)

Provides students with an integrated understanding of critical social problems and research in child and adolescent development. Focuses on policy and advocacy across a range of contexts, including poverty, family, health, and education.

Prerequisite(s): CHAD major, 12 units completed in CHAD, senior standing, and completion of CHAD 100W or LLD 100W with a grade of 'C' or better ('C-' not accepted).

Grading: Letter Graded

CHAD 199 - Honors in Child & Adolescent Development

1-3 unit(s)

Senior project on advanced topics in Child and Adolescent Development. Written paper and oral presentation of a project required. Enrollment limited to seniors pursuing departmental honors.

Prerequisite(s): Senior or graduate standing and instructor consent.

Grading: Credit/No Credit

CHAD 252 - Community Leadership for Child & Family Wellness

3 unit(s)

Seminar helps students refine management and leadership skills to effectively evaluate programs; assess and address risk; and promote resilience with children and families. Course prepares students to use an equity lens to empower children and families, and to promote health and wellness in their communities.

Grading: Letter Graded

CHAD 254 - Professional Practice with Children and Families

3 unit(s)

Course provides opportunities for practical application of theory and research to working with diverse children, youth, and families in community settings. Students will apply leadership, advocacy, and evaluation skills in community-based organizations that enhance equitable outcomes for diverse children, youth and families.

Grading: Letter Graded

CHAD 260A - Seminar in Child and Adolescent Development: Research

3 unit(s)

Advanced study of recent child and adolescent development research. Examination of quantitative and qualitative research methodologies used in the field.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Graduate standing; 12 units in CHAD or related disciplines; CHAD 101 (or equivalent); CHAD majors.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

CHAD 260B - Seminar in Child and Adolescent Development

3 unit(s)

Capstone course with advanced study of recent research and writings in the area of child and adolescent development. Course includes completion of the cumulative experience project.

Prerequisite(s): Graduate standing; 9 units in CHAD MA core courses, co-registration in CHAD 298; CHAD majors.

Grading: Letter Graded

CHAD 261 - Seminar in Early Childhood Curriculum

3 unit(s)

Advanced understanding of early childhood curriculum and practice, including foundational information; integrated curriculum planning across content areas; family engagement; and assessments of learning and development. Includes the practical application of developmentally appropriate and culturally sustaining practices through student participation in an early childhood practicum experience.

Lecture 2 hours/lab 3 hours. Course requires 3 hours per week of non-paid fieldwork in an approved ECE setting. Practicum sites for this course typically require availability during the weekday as well as a TB test and background clearance. Please check with your academic advisor if you have any concerns.

Grading: Letter graded.

CHAD 262 - Culture and Diversity in Child & Adolescent Development

3 unit(s)

Examination of factors influencing the development of children and adolescents in a multicultural society. Attention to theory and research related to diverse populations with a focus on cultural diversity and social justice. Strength-based approaches to advocacy, policy, and services are discussed.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

CHAD 264 - Seminar in Family Systems

3 unit(s)

Examination of the interconnectedness among family subsystems and its influence on child/adolescent development and family well-being. Application of family systems perspectives to develop evidence-based practices to promote child, adolescent, and family well-being.

Grading: Letter graded.

CHAD 266 - U.S. Social Policy Affecting Children and Families

3 unit(s)

Survey of dominant social issues which affect the development of children, youth, and families and the role of public policy in addressing those issues.

Grading: Letter Graded

CHAD 268 - Seminar in Social and Emotional Development

3 unit(s)

Examination of current issues in childhood and adolescent social and emotional development: processes underlying self-esteem and self-control and emergence of the self. Contributions of family, school and society are considered.

Prerequisite(s): 9 units in CHAD or related disciplines.

Grading: Letter Graded

CHAD 270 - Seminar in Cognitive and Language Development

3 unit(s)

Examination of major topics in cognitive and language development: stages of development, nature/nurture controversy, stability of behavior over time. Individual differences in cognition and cognitive styles are also explored.

Prerequisite(s): 9 units in CHAD or related disciplines.

Grading: Letter Graded

CHAD 272 - Seminar in Early Childhood Development

3 unit(s)

Examination of major topics in early childhood development in the first eight years, such as cognitive, language, and physical development; processes underlying social and emotional regulation; and adult-child relationships. Individual differences in development and contributions of family, school, and society are also explored. The course provides a holistic foundation of knowledge in early childhood development (ages 0-8 years) that can be applied to developmentally and culturally appropriate practices involving young children in classrooms and other settings.

Grading: Letter graded.

CHAD 274 - Seminar in Middle Childhood and Adolescent Development

3 unit(s)

Advanced study of major topics in socioemotional and cognitive development, and the contexts that influence that development, in middle childhood and adolescence. Provides a foundation of knowledge in middle childhood and adolescent development to facilitate developmentally and culturally appropriate practices with children, youth, and families in a range of settings.

Grading: Letter graded.

CHAD 285 - Special Topics in Child & Adolescent Development

3 unit(s)

Content varies by semester. Topics may include bilingual and multilingual development, the role of nature and context on family wellbeing, and gender identity development, among others. May be repeated for credit when content changes for a maximum of 6 units.

May be repeated for credit for up to 6 units.

Prerequisite(s): Graduate standing.

Grading: Letter graded.

CHAD 298 - Special Studies in Child and Adolescent Development

3-6 unit(s)

Supervised study in the field of child development.

Prerequisite(s): Advancement to candidacy for the master's degree.

Grading: Mandatory Credit/No Credit/RP

CHAD 299 - Master's Thesis

3-6 unit(s)

Supervised thesis in the field of child development.

Prerequisite(s): Advancement to candidacy for the master's degree.

Grading: Mandatory Credit/No Credit/RP

Chinese

CHIN 1A - Elementary Chinese

4 unit(s)

Basic skills and structure of the language in the context of culture.

Satisfies C2: Humanities.

Grading: Letter Graded

CHIN 1B - Elementary Chinese

4 unit(s)

Basic skills and structure of the language in the context of culture.

Satisfies C2: Humanities.

Prerequisite(s): CHIN 1A (or equivalent).

Grading: Letter Graded

CHIN 25A - Intermediate Chinese

4 unit(s)

Development of basic skills in the use of Mandarin; preparation for advanced courses in the language.

Satisfies C2: Humanities.

Prerequisite(s): 8 units of college Chinese (or equivalent)

Grading: Letter Graded

CHIN 25B - Intermediate Chinese

4 unit(s)

Continuation of CHIN 25A. Preparation for advanced courses in the language.

Satisfies C2: Humanities.

Prerequisite(s): 12 units of college Chinese (or equivalent)

Grading: Letter Graded

CHIN 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

CHIN 101A - Advanced Chinese

4 unit(s)

Readings related to culture, discussion, syntax and composition. May be repeated once for credit.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Four semesters of college Chinese (or equivalent).

Grading: Letter Graded

Note(s): Year course.

CHIN 101B - Advanced Chinese

4 unit(s)

Readings related to culture, discussion, syntax and composition. May be repeated once for credit.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): 20 units of college Chinese (or equivalent)

Grading: Letter Graded

Note(s): Year course.

CHIN 102 - Chinese Culture

4 unit(s)

Traditional Chinese culture in light of contemporary values. Ideographs, folk tales, festivals, creeds and customs, myths and superstitions, opera and the arts, women, the art of living.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Note(s): Taught in English.

Cross-listed with ASIA 102. World Languages and Literatures is responsible for scheduling.

CHIN 110 - Structure of the Chinese Language

4 unit(s)

Introduction to study of Chinese dialects and Mandarin grammar from historical viewpoint, with reference to early development and present diversity. Emphasis on the writing system and areal features of the language.

Prerequisite(s): CHIN 25B or instructor consent.

Grading: Letter Graded

CHIN 130 - Readings in Chinese Culture

4 unit(s)

Readings in selected aspects of Chinese culture, e.g., philosophical, social, political, historical. Texts may be chosen from scholarly essays, newspaper articles or creative narrative. May be repeated when content changes.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): CHIN 101B or instructor consent

Grading: Letter Graded

CHIN 132 - Special Topics in Chinese for Careers

4 unit(s)

Chinese 132 provides a focus on the use of Chinese for various professions, and examines in depth selected topics in regard to Chinese in the professional world. Course repeatable when content changes.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): CHIN 25B or instructor consent.

Grading: Letter Graded

CHIN 140 - Chinese Culture and Politics Through Literature

3 unit(s)

Exploration of the interaction between culture, politics and literature as reflected in the contemporary (post-1949) narrative, poetry and drama of China, Taiwan and Hong Kong.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): Taught in English.

Cross-listed with ASIA 140. World Languages and Literatures is responsible for scheduling.

CHIN 180 - Individual Studies in Chinese

1-3 unit(s)

Individual work by arrangement.

Prerequisite(s): Upper division standing in Chinese (or equivalent) and instructor consent.

Grading: Credit/No Credit

CHIN 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Civil and Environmental Engineering

CE 8 - Plane Surveying

3 unit(s)

Theory and practice of engineering measurements. Techniques and instruments used establishing horizontal and vertical control. Topographic methods.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): MATH 19 (or eligibility for MATH 30 or MATH 30X). Allowed Declared Majors: Civil

Engineering, and Geology.

Grading: Letter Graded

CE 20 - Engineering Graphics, CAD and Programming

3 unit(s)

Develop visualization skills by using technical sketching, AutoCAD and manual drafting to solve civil engineering graphical problems. Subjects include: isometric sketching, orthographic projection, descriptive geometry, and plan reading. Writing computer programming code and logic flow.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): MATH 19 (or eligibility for MATH 30 or MATH 30X).

Grading: Letter Graded

CE 95 - Theory and Application of Statics

3 unit(s)

Detailed study of bodies in equilibrium to provide background for advanced study of engineering mechanics. Applications to general three-dimensional bodies and structural systems. Topics include free body diagrams, centroids, internal forces, distributed loads, moments of inertia and friction.

Prerequisite(s): MATH 31X or MATH 31, and PHYS 50.

Grading: Letter Graded

CE 99 - Introductory Statics

2 unit(s)

Introduction to the study of two-dimensional bodies in equilibrium. Applications to two-dimensional particles and structural systems. Topics include free body diagrams, centroids, and moments of inertia.

Prerequisite(s): MATH 31 and PHYS 50. Computer Engineering and Software Engineering majors only.

Grading: Letter Graded

CE 104 - Introduction to GIS in Civil Engineering

3 unit(s)

Fundamentals of geographic information systems (GIS) for civil engineering applications. Topics include: GIS data types, projections, coordinate transformations, spatial analysis approaches, raster and vector analyses, and map generation.

Prerequisite(s): CE 8, CE 20, MATH 33A, and CE 192.

Grading: Letter Graded

CE 112 - Mechanics of Materials

3 unit(s)

Stress distributions, strain, stresses and deformations in machines and structures subject to axial, bending and torsional loads, including combined loads. Stability of columns.

Prerequisite(s): CE 95 or CE 99, MATH 33A. Allowed Declared Majors: Any Engineering.

Grading: Letter Graded

CE 120 - Construction Materials Laboratory

1 unit(s)

Properties, testing and design of civil engineering construction materials, including aggregates for concrete and bituminous mixes. Theory and design of bituminous and portland cement-aggregate mixes.

Misc/Lab: Lab 3 hours.

Prerequisite(s): CE 112. Allowed Declared Major: Civil Engineering.

Grading: Letter Graded

CE 121 - Transportation Engineering

3 unit(s)

Principles, theories, practices in transportation engineering design; planning surveys and data analysis; traffic flow characteristics; location and geometric design of systems to include highways, rail, airports, waterways and pipelines. Problems in planning, design and operations.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): CE 8, CE 20, MATH 32 or MATH 32X, PHYS 50. Allowed Declared Major: Civil Engineering.

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

CE 122 - Traffic Engineering

3 unit(s)

Design of traffic control systems to include traffic signals and other traffic control devices for safe and efficient vehicular flow; traffic surveys; traffic operations.

Prerequisite(s): MATH 32 or graduate standing. Junior standing. Allowed Declared Major: Civil Engineering.

Grading: Letter Graded

CE 123 - Highway and Street Design

3 unit(s)

Geometric design of highways and streets. Discussion of design policy. Safety and operational features as well as the evaluation of improvements.

Prerequisite(s): CE 121 or graduate standing

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

CE 130 - Civil Engineering Economic Analysis

2 unit(s)

Marginal theoretic procedures for identifying optimal investment alternatives. Algorithmic approaches to one-dimensional deterministic benefit-cost analysis. Multidimensional and probabilistic decision problems.

Prerequisite(s): MATH 32 or MATH 32X. Allowed Declared Major: Civil Engineering.

Grading: Letter Graded

CE 131 - Introduction to Construction Engineering

3 unit(s)

Introduction to construction engineering, construction contract types, contracting documents, project delivery methods, owner-engineer-contractor relationships, professional liability, engineering ethics, construction cost estimates, construction planning, basic concepts and techniques of scheduling, creating CPM scheduling, updating and reporting a schedule.

Prerequisite(s): CE 130.

Grading: Letter Graded

CE 132 - Construction Methods and Equipment

3 unit(s)

Construction earthmoving, excavating, loading, compacting; safety; equipment productivity; construction methods and materials.

Prerequisite(s): CE 130, CE 140 or graduate standing

Grading: Letter Graded

CE 134 - Project Management for Construction

3 unit(s)

Methods of planning and controlling construction including the participants, processes and techniques required to maintain the life cycle of a construction project. Planning construction operations, estimating, analyzing the bid process, jobsite operations and functions, safety, quality and scheduling.

Prerequisite(s): CE 131 or Graduate standing. Junior Standing in Engineering.

Grading: Letter Graded

CE 140 - Geotechnical Engineering

3 unit(s)

Soil as an engineering material; Classification, compaction, consolidation, shear strength, and permeability of soils; Basic design concepts for bearing capacity of shallow foundations, lateral earth pressures and slope stability.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): CE 20, CE 112, ME 111, ENGR 100W. Allowed Declared Majors: Civil Engineering, Geology.

Grading: Letter Graded

CE 144 - Groundwater and Filtration

3 unit(s)

Flow of water through soil; Groundwater and Geologic Processes; Flow nets for soil barriers; Pollutant Flow and Remediation; Seepage; Construction Dewatering.

Prerequisite(s): CE 140 and CE 150 or graduate standing.

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

CE 145 - Foundation Engineering

3 unit(s)

Use of field data in Geotechnical design; Design of shallow foundations for bearing capacity and settlement; Design of deep foundations for shear and tip resistance; Analysis of mat foundations. Design of retaining walls.

Prerequisite(s): CE 140 or graduate standing

Grading: Letter Graded

CE 150 - Introduction to Hydrology and Hydraulics

3 unit(s)

Analysis and design of open channels and pipe networks. Introduction to hydraulic structures, machinery, basic hydrology, and computer modeling. Social impacts of Civil Engineering.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): CE 20, ME 111, ENGR 100W.

Grading: Letter Graded

CE 152 - Engineering Hydrology

3 unit(s)

Hydrologic processes; streamflow, hydrographs and flood routing; groundwater hydraulics; flood frequency analysis.

Prerequisite(s): CE 150 or graduate standing

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

CE 154 - Hydraulic Design

3 unit(s)

Design of hydraulic structures-reservoirs, dams, spillways, energy dissipators, outlet works, hydroelectric systems and flood control.

Prerequisite(s): CE 150 or graduate standing.

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

CE 160 - Structural Analysis

3 unit(s)

Analysis of statically determinate beams, frames, and plane trusses. Force method of analysis of statically indeterminate structures. Applications to building design. Introduction to computer analysis.

Misc/Lab: Lecture 2 hours/computation period 3 hours.

Prerequisite(s): CE 20, CE 112, and ME 101. Allowed Declared Major: Civil Engineering.

Grading: Letter Graded

CE 162 - Structural Concrete Design

3 unit(s)

Strength design and alternative load and strength reduction factor theories of reinforced concrete. Design of beams, Slabs, compression members, foundations and building frames. Design project required. Social impacts of Civil Engineering.

Lecture 2 hours/Design Period 3 hours.

Prerequisite(s): CE 120, CE 160, and ENGR 100W. Allowed Declared Major: Civil Engineering.

Grading: Letter Graded

CE 163 - Design of Steel Structures

3 unit(s)

Structural steel design elements for buildings and bridges, tension members, beams, columns, bolted and welded connections. Design project.

Prerequisite(s): CE 160 or graduate standing. Allowed Declared Major: Civil Engineering.

Grading: Letter Graded

CE 164 - Design of Wood Structures

3 unit(s)

Design of structural elements for wood buildings. Horizontal and vertical plywood diaphragms for seismic and wind loads. Tension members, beams, columns and connections. Design project using the National Design Specifications and the Uniform Building Code.

Prerequisite(s): CE 160 and graduate standing

Grading: Letter Graded

CE 165 - Earthquake Resistant Design

3 unit(s)

Seismic resistant design according to the provisions of the Uniform Building Code. Elements of seismic hazard analysis.

Prerequisite(s): CE 160 or graduate standing

Grading: Letter Graded

Sustainability Related - SDG 1: No Poverty

CE 170 - Principles of Environmental Engineering

3 unit(s)

Introduction to environmental (water, air and land) pollution problem, surface water and groundwater quality, water and wastewater treatment processes, drinking water and wastewater treatment flowsheets, design of drinking water treatment processes, contemporary environmental issues, and environmental sustainability.

Misc/Lab: Lecture 2 hours; lab/design 3 hours.

Prerequisite(s): CE 20, ME 111, CHEM 1A, and ENGR 100W

Grading: Letter Graded

Sustainability Focused - SDG 6: Clean Water and Sanitation

CE 172 - Solid Waste Management Engineering

3 unit(s)

Introduction to engineering analysis, planning and design problems associated with storage, collection, processing, treatment and disposal of solid waste.

Prerequisite(s): CE 170 or graduate standing.

Grading: Letter Graded

Sustainability Related - SDG 11: Sustainable Cities and Communities

CE 174 - Design of Water Distribution and Wastewater Collection Systems

3 unit(s)

Application of environmental engineering and fluid mechanics to the design of water distribution systems, wastewater collection systems, water/wastewater storage systems, and appurtenances.

Prerequisite(s): CE 150 and CE 170

Grading: Letter Graded

Sustainability Focused - SDG 6: Clean Water and Sanitation

CE 180 - Individual Studies

1-3 unit(s)

Individual work on special topics by arrangement. Repeatable: Repeatable for credit.

Prerequisite(s): Upper division standing. Allowed Declared Major: Civil Engineering. Not available to Open University Students.

Grading: Credit/No Credit

CE 181 - Civil Engineering Systems

3 unit(s)

Principles of systems design for civil engineers, including formulation of project objectives, constraints, problem statements, alternatives generation, alternatives evaluation and decision analysis. Principles demonstrated through case studies.

Prerequisite(s): CE 121, CE 130, CE 131, CE 140, CE 150, CE 160, CE 170, CE 192

Grading: Letter Graded

CE 185 - Undergraduate Curricular Practical Training

1 unit(s)

Fieldwork for Civil Engineering undergraduate students. A report is required at the end of the semester addressing goals set at the start of the assignment.

Course is repeatable once for credit.

Prerequisite(s): Upper division standing, in good standing, and completed at least two semesters of bachelor's level work at SJSU. Allowed Declared Majors: Civil Engineering.

Grading: Credit/No Credit

CE 190 - Numerical Solutions of Civil Engineering Problems

2 unit(s)

Reformulating linear and non-linear, static and dynamic civil engineering problems for numerical solution by computers.

Prerequisite(s): MATH 33A, ENGR 10. Allowed Declared Majors: Any Engineering.

Grading: Letter Graded

CE 192 - Probabilistic Models for Civil Engineering Decisions

2 unit(s)

Elementary concepts of probability theory, statistics and decision theory. Applications to modeling and decision-making.

Prerequisite(s): MATH 32 MATH 32X.

Grading: Letter Graded

CE 192I - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

CE 204 - Advanced GIS Applications in Civil Engineering

3 unit(s)

Advanced spatial data analysis and modeling using GIS pertaining to the core areas of Civil Engineering. Topics include: analyzing vector and raster data, processing Digital Elevation Model (DEM), using spatial analyst and network analyst tools, and automating geoprocessing tasks using model builder.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): CE 104 or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

CE 210 - Advanced Mechanics

3 unit(s)

Beams on elastic foundations, curved beams, torsion of non-circular sections, introduction to the theory of elasticity, three dimensional stress and strain, failure theories, deep beams.

Prerequisite(s): CE 160 and MATH 33A (or equivalent).

Grading: Letter Graded

CE 212 - Structural Dynamics

3 unit(s)

Analysis of lumped and distributed parameter systems subject to dynamic loading; matrix analysis and orthogonal functions applied to beams, frames and complex structures. Introduction to earthquake response spectrum analysis.

Prerequisite(s): CE 160 (or equivalent).

Grading: Letter Graded

CE 220 - Rigid and Flexible Pavement Design

3 unit(s)

Advanced study of the theories and practices in the structural design of flexible and rigid pavements for highways and airports; magnitude and arrangement of wheel loads; stresses in flexible and rigid pavements; pavement behavior under moving loads; design of bases and subbases; methods of structural design of flexible and rigid pavements; pavement evaluation, strengthening and selection criteria; accelerated traffic and loading tests.

Prerequisite(s): CE 120 and CE 140 (or equivalent).

Grading: Letter Graded

CE 221 - Advanced Highway Design

3 unit(s)

Advanced study of highway location and design principles; advanced analysis of criteria controlling geometric design of highways including design speed, design volume, vehicle requirements and capacity; advanced theory and practice in the design of alignment, grade and cross-section; design of intersections and interchanges; access control, frontage roads.

Prerequisite(s): CE 121 (or equivalent).

Grading: Letter Graded

Sustainability Related - SDG 11: Sustainable Cities and Communities

CE 222 - Transportation Engineering Planning

3 unit(s)

Technical and economic evaluation of transportation improvements; capacity restraints; geometric design factors, location and relocation principles; optimization theory in transportation system design; user costs and benefits; transport equipment; operation and safety; economic impact, construction and maintenance practices; intergovernmental coordination, cooperation, responsibility and financial participation.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): CE 121 and CE 130.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Sustainability Related - SDG 11: Sustainable Cities and Communities

CE 224 - Traffic Operations

3 unit(s)

Flow, density and speed characteristics. Capacity and level of service analysis of transportation facilities with emphasis on highways and streets. Analysis of strategies and tactics, including traffic control, related to optimal use of facilities.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

CE 225 - Public Transportation Systems

3 unit(s)

Performance characteristics of public transportation systems. Planning, design and operational issues related to public transportation systems. Emerging technologies.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): CE 121 or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

CE 226 - Topics in Transportation Engineering

3 unit(s)

Presentation and discussion of special topics in transportation engineering. Topics may vary each semester. Course may be repeated with instructor consent.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 11: Sustainable Cities and Communities

CE 232 - Construction Estimating and Cost Analysis

3 unit(s)

Estimating and bid preparation in the construction industry including cost analysis techniques for labor, materials, equipment and overhead costs on a construction project. Development of schedules and networks for construction.

Prerequisite(s): CE 130 and CE 131.

Grading: Letter Graded

CE 234 - Construction Law

3 unit(s)

Construction contracts and specifications, bid documents, sources of law, agency relationships, contract formation, breach of contract, tort law, contract interpretation, changes, mechanics liens, claims and disputes.

Prerequisite(s): CE 131 (or equivalent).

Grading: Letter Graded

CE 236 - Construction Operations Analysis

3 unit(s)

Overall aspects of productivity improvement for construction operations. Quantitative methods for measuring, analyzing and improving productivity at job sites. Concepts of computer simulation to study, plan and optimize construction operations.

Prerequisite(s): CE 132 or instructor consent.

Grading: Letter Graded

CE 237 - Sustainable Construction

3 unit(s)

Green construction processes, sustainable construction materials, material recycling and reuse in construction, green construction policy, green building case study, economic analysis of green buildings, and LEED rating systems and certification.

Prerequisite(s): CE 130 and CE 131, or instructor consent.

Grading: Letter Graded

CE 238 - Advanced Construction Project Management

3 unit(s)

Provides the principles and techniques of construction project management and develops the engineering project management skills necessary to successfully participate in the management of the project delivery process.

Prerequisite(s): CE 131 or instructor consent.

Grading: Letter Graded

CE 239 - Information Technology in Construction

3 unit(s)

Provides information technology applications in construction, from traditional computer applications to emerging web-based and mobile technologies. Design, development, and implementation of decision support systems for construction management applications.

Prerequisite(s): CE 131 or instructor consent.

Grading: Letter Graded

CE 240 - Advanced Soil Mechanics

3 unit(s)

Advanced study of classical and modern soil mechanics theories, including: consolidation, stress and deformation, shear strength. In-depth discussion of stress paths, flow nets and stress variants.

Prerequisite(s): CE 140 (or equivalent).

Grading: Letter Graded

CE 243 - Advanced Foundation Design

3 unit(s)

Advanced analysis of foundation design for atypical soil conditions. Seismic design of foundations. Laterally loaded foundations. Structural design of shallow foundations.

Prerequisite(s): CE 141 (or equivalent).

Grading: Letter Graded

CE 245 - Geotechnical/Structural Seminar

3 unit(s)

Meetings for the presentation and discussion of special topics and case histories of significant engineering projects by the faculty, guest lecturers and graduate students. Topics will vary each semester. May be repeated for credit when content changes.

Prerequisite(s): CE 140 (or equivalent).

Grading: Letter Graded

CE 246 - Geotechnical Earthquake Engineering

3 unit(s)

Wave propagation in soils, seismology, fundamentals of dynamic soil behavior, seismic hazard analysis, site effects, liquefaction, and seismic design.

Prerequisite(s): CE 140 (or equivalent).
Grading: Letter Graded

Sustainability Related - SDG 1: No Poverty

CE 247 - Earth Retention and Stability

3 unit(s)

Design of classic retaining walls using lateral earth pressure theory; Slope stability of earthen embankments, cut slopes and natural slopes; Design of modern earth-retention systems, including soil nails, mechanically-stabilized earth walls, soil anchors, etc.

Prerequisite(s): CE 140 or instructor consent
Grading: Letter Graded

CE 248 - Forensic Engineering and Failure Analysis

3 unit(s)

Analysis of civil engineering failures. Investigation into causes of failure, implications of failure and lessons learned from failure. Legal obligations and responsibilities of ethical engineers.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Graduate Standing.
Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

CE 250 - Modeling in Water Resources Engineering

3 unit(s)

Various modeling techniques for optimal planning and operation of water resources systems, which involve many random variables.

Prerequisite(s): Instructor consent.
Grading: Letter Graded

CE 251 - Hydraulics of Open Channels

3 unit(s)

Conveyance curves, the varied flow equation, specific energy, channel transitions, waves, routing of floods and super-critical flow.

Prerequisite(s): ME 111; MATH 33A or instructor consent.
Grading: Letter Graded

CE 252 - Advanced Hydrology

3 unit(s)

Advanced topics in hydrograph analysis, flood routing, statistical methods and groundwater flow.

Prerequisite(s): CE 150 and CE 152.

Grading: Letter Graded

Sustainability Related - SDG 6: Clean Water and Sanitation

CE 254 - Integrated Water Resources Management

3 unit(s)

Integrated Approaches to Water Resources Management. Topics include: emerging water issues and challenges, surface water and groundwater management, roles of water agencies, water allocation law, water use conflicts, and other related topics.

Prerequisite(s): CE 140 and CE 150, or instructor's consent.

Grading: Letter Graded

CE 255 - Sediment Transport

3 unit(s)

Introduction to sediment transport; concepts of bedload, suspended load, bed formation, stable channels and regime theory; environmental issues.

Prerequisite(s): CE 150.

Grading: Letter Graded

Sustainability Related - SDG 14: Life Below Water

CE 256 - Sustainable Water Resources Engineering

3 unit(s)

Low impact development practices for sustainable stormwater management, designing sustainable water infrastructure systems. Topics include: low impact development practices, rain water harvesting, green roofs, permeable concrete pavements, water conservation, urban water demand, and other related topics.

Prerequisite(s): CE 150 or instructor's consent.

Grading: Letter Graded

CE 260 - Matrix Analysis of Structures

3 unit(s)

Linear static and dynamic analysis of structures by matrix methods, including sidesway of frames and multistory buildings. Introduction to finite element analysis of structural systems. Discussion of computer-aided design of structures.

Prerequisite(s): CE 160 (or equivalent).

Grading: Letter Graded

CE 261 - Advanced Structural Concrete Design

3 unit(s)

Design of beams, columns, slabs, walls and connections according to provisions of the American Concrete

Institute. Advanced topics in compression elements, shear torsion and development. Elements of bridge and building systems.

Prerequisite(s): CE 160 and CE 162 (or equivalent).

Grading: Letter Graded

CE 264 - Prestressed Concrete Design

3 unit(s)

Basic concepts and history; pretensioned and post-tensioned systems; prestress losses; cracking and ultimate moments; design of simple spans, continuous spans and slabs; composite beams; tanks.

Prerequisite(s): CE 160 and CE 162 (or equivalent).

Grading: Letter Graded

CE 265 - Advanced Seismic Design

3 unit(s)

Design of frames, shear walls and other building systems to resist earthquake accelerations. Applications of dynamic analysis. Introduction to performance-based engineering.

Corequisite(s): CE 212 or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 1: No Poverty

CE 267 - Advanced Steel Design

3 unit(s)

LRFD (Load Resistant Design) of steel structures, including buildings and bridges. Detailing of steel frames for seismic resistance. Structural details of connections.

Prerequisite(s): CE 163 or instructor consent.

Grading: Letter Graded

CE 269 - Advanced Topics in Structural Design

3 unit(s)

Concepts in reinforced masonry, seismic isolation, structural retrofitting, computer aided design and modern construction materials. Topics to be specified at beginning of semester. May be repeated for credit when content changes.

Grading: Letter Graded

CE 270 - Environmental Engineering Process Kinetics

3 unit(s)

Process kinetics in drinking water and wastewater treatment.

Prerequisite(s): CE 170

Grading: Letter Graded

CE 271 - Physical/Chemical Processes in Environmental Pollution Control

3 unit(s)

Theory, analysis and engineering design of physical and chemical systems in environmental pollution control. Topics include mechanisms involved in physical/chemical destruction of pollutants, clarification, softening, coagulation and others.

Prerequisite(s): CE 170 or instructor consent.

Grading: Letter Graded

CE 272 - Biological Processes in Environmental Pollution Control

3 unit(s)

Theory, analysis and engineering design of biological systems in environmental pollution control. Topics include mechanism of biological destruction of pollutants, aerobic and anaerobic processes, nutrient removals and others.

Prerequisite(s): CE 170 or instructor consent.

Grading: Letter Graded

CE 273 - Water Treatment and Plant Design

3 unit(s)

Studies in the theory, design and operation of water treatment facilities. Water quality standards and water quality control.

Prerequisite(s): CE 170 or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 6: Clean Water and Sanitation

CE 274 - Wastewater Treatment and Plant Design

3 unit(s)

Studies in the theory, design and operation of traditional primary and secondary sewage treatment facilities. Review of water pollution control laws and regulations.

Prerequisite(s): CE 170 or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 6: Clean Water and Sanitation

CE 275 - Industrial and Hazardous Waste Management and Treatment

3 unit(s)

Study of industrial and hazardous wastes. Sources, characteristics, management, treatment and disposal. Effects on the environment.

Prerequisite(s): CE 170 or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

CE 276 - Management and Reuse of Process Solids

3 unit(s)

Solids production at water and wastewater treatment plants, types, characteristics, processing, management and reuse including biofuel production from wastewater biosolids, and disposal of residual matter.

Prerequisite(s): CE 271 and CE 272.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

CE 277 - Environmental Sustainability

3 unit(s)

Studies of various engineering designs and practices for sustainable environment.

Prerequisite(s): CE 170 or Instructor Consent

Grading: Letter Graded

Sustainability Related - SDG 9: Industry, Innovation and Infrastructure

CE 279 - Special Topics in Environmental Engineering

3 unit(s)

Current problems in environmental engineering. Course is repeatable for credit with instructor consent.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

CE 285 - Graduate Curricular Practical Training

1 unit(s)

Fieldwork for Civil Engineering graduate students. A report is required at the end of the semester addressing goals set at the start of the assignment.

Course is repeatable once for credit.

Prerequisite(s): Graduate standing, classified, in good standing, and completed at least one semester of master's level work at SJSU. Allowed Declared Majors: Civil Engineering. Or instructor consent.

Grading: Credit/No Credit

CE 297 - Special Topics in Civil Engineering

1-4 unit(s)

Special topics to augment regularly-scheduled graduate courses.

Grading: Letter Graded

CE 298 - Special Problems

1-6 unit(s)

Advanced individual research and projects.

Prerequisite(s): Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

CE 299 - Master's Thesis

1-6 unit(s)

Prerequisite(s): Advancement to candidacy for the MS degree. Not available to Open University Students

Grading: Credit/No Credit/RP

Communication Studies

COMM 10 - Communication and Human Relationships

3 unit(s)

Examines the role of communication in developing/maintaining human relationships. Discussion focuses on relational communication processes as they occur in various settings, such as the intercultural, the family, the intimate, the organizational, the public, and among/within genders.

Satisfies D: Social Sciences.

Grading: Letter Graded

COMM 20 - Public Speaking

3 unit(s)

Principles of rhetoric applied to oral communication; selecting, analyzing, adapting, organizing and delivering ideas effectively.

Satisfies A1: Oral Communication.

Grading: Letter Graded

COMM 20EL - Public Speaking for English Language Learners

3 unit(s)

Principles of rhetoric applied to oral communication; selecting, analyzing, adapting, organizing and delivering ideas effectively. Emphasis on intercultural communication.

Satisfies A1: Oral Communication.

Prerequisite(s): Intended for English language learners/nonnative speakers.

Grading: Letter Graded

COMM 21 - Performing Culture and Society

3 unit(s)

Live performance is used as a method for exploring human behavior as it occurs within contemporary cultures and societies. Performance assignments will draw from among the following: performance of texts, street performance, personal narrative, oral history, everyday life, and social justice.

Satisfies D: Social Sciences.

Grading: Letter Graded.

COMM 40 - Argumentation and Advocacy

3 unit(s)

Principles of inquiry and advocacy in public discussion and necessary basic skills for informed participation in discussion and debate.

Satisfies A1: Oral Communication.

Grading: Letter Graded

COMM 41 - Critical Decision Making

3 unit(s)

Critical reasoning and problem solving in group discussion. Examination of the relationship between critical decision-making and group communication. Practice in group problem solving as a means for developing critical thinking skills.

Satisfies A3: Critical Thinking and Writing.

Prerequisite(s): Completion of GE Area A2 with a grade of C- or better.

Grading: Letter Graded

COMM 45 - Media and Culture

3 unit(s)

Application of critical thinking, writing, and oral communication skills in the analysis of media representations of culture. Practice in reasoning, advocating ideas, researching and evaluating arguments, developing well supported factual conclusions, and engaging in meaningful dialogue on diverse issues.

Satisfies A3: Critical Thinking and Writing.

Prerequisite(s): Completion of GE Area A2 with a grade of C- or better.

Grading: Letter Graded

COMM 74 - Fundamentals of Intercultural Communication

3 unit(s)

Emphasis on direct experience and the development of skill in intercultural communication. Provides opportunity for discussion of variations within and among cultures. Encourages students to examine their own cultural heritage.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

Note(s): All courses with a 'Q' suffix are designated as First Year Experience courses.

COMM 74Q - Fundamentals of Intercultural Communication

3 unit(s)

Emphasis on direct experience and the development of skill in intercultural communication. Provides opportunity for discussion of variations within and among cultures. Encourages students to examine their own cultural heritage.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

Note(s): All courses with a 'Q' suffix are designated as First Year Experience courses.

COMM 80 - Communication Workshop

1 unit(s)

Designed to enhance students' personal and professional communication and public speaking skills. Flexible student-directed course that requires completion of instructional modules and workshops.

3 hours activity.

Course may be repeated for credit.

Grading: Credit/No Credit

COMM 91A - Activity Project in Forensics: Intramural Debate

1 unit(s)

Supervised activity in the forensics program. A: Intramural competition in debate. A total of 3 units applicable to the major may be repeated.

Course may be repeated for credit for up to 3 units.

Grading: Credit/No Credit

COMM 91J - Judge Training

1 unit(s)

Community service course designed to train students to judge high school speech and debate tournaments. Students are taught the rules and given criteria for judging each event in oral interpretation of prose poetry, and drama; platform speaking; debate; and Student Congress. Students are required to write cogent ballots that help competitors.

Grading: Credit/No Credit

COMM 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Course may be repeated for credit for up to 12 units.

Grading: Mixed Grading

COMM 100W - Writing Workshop: Writing for Influence

3 unit(s)

Current conventions and forms of exposition, argument and persuasion. Writing for the general and specialized audience from the thesis statement approach.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Allowed Declared Majors: Communication Studies, Communication Disorders, Speech Pathology, Business.

Grading: Letter Graded.

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

COMM 101C - Junior Seminar: Theorizing Communication

4 unit(s)

Overview of the communication studies discipline based on survey of historical, theoretical, and practical responses to communication problems arising from changing social contexts. Discussion of communication literature, resources, and modes of inquiry.

Lecture 3 hours/Activity 2 hours

Prerequisite(s): Completion of GE oral communication and declared Communication Studies major.

Grading: Letter Graded.

COMM 105P - Communication, Self, and Society

4 unit(s)

Examines the role of communication in the development of the self and the creation of social worlds. Students develop an appreciation for and practical skills in negotiating self-society tensions inherent in a diverse, global, and mediated environment.

Prerequisite(s): Completion of A1 Core GE requirement or instructor consent.

Grading: Letter Graded

COMM 110F - Interpersonal Communication

4 unit(s)

Integration of theory and practice to facilitate student understanding and skills in evaluating and participating in interpersonal relationships across contexts and the lifespan.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

COMM 111P - Interviewing

4 unit(s)

Setting and achieving communicative goals essential in preparing for and conducting interviews. Special attention on developing effective questions and responses. Participation in a variety of interviews, including employment, appraisal, journalistic, research, survey, health care, and persuasive.

Prerequisite(s): Completion of GE Area A1 (Oral Communication).

Grading: Letter Graded

COMM 112P - Communicating at Work

4 unit(s)

Application of best practices from communication theory and research to creating and maintaining effective interpersonal relationships across global workplace contexts. Addresses topics such as confronting harassment, promoting cultural diversity, expressing dissent, proposing ideas, and managing digital work environments.

Prerequisite(s): Completion of GE Area A1 Oral Communication.

Grading: Letter Graded

COMM 113P - Games in Everyday Life

4 unit(s)

Games serve key communicative functions in promoting fun, play, collaboration, competition, and learning. Explores games and the use of game elements across communication contexts, including interpersonal, small group, organizational/business, health, and education.

Prerequisite(s): Completion of GE Area A1.

Grading: Letter Graded

COMM 114P - Business and Professional Speaking

4 unit(s)

Application of current theory and research to develop communications skills within larger global and ethical issues across a range of professional and workplace contexts, including interviews, oral reports, persuasive presentations, group meetings, and mediated public speaking.

Prerequisite(s): Completion of A1 Core GE requirement or instructor consent.

Grading: Letter Graded

COMM 115P - Communication and Conflict

4 unit(s)

Focus on theories of communication as related to interpersonal and group conflict. Development of communication skills in conflict management, and applied activity in interpersonal conflict management.

Prerequisite(s): Completion of A1 Core GE requirement or instructor consent.

Grading: Letter Graded

COMM 116P - Mediation: Theory and Practice

4 unit(s)

Theoretical background and communication skills training in Mediation Practice. Basic 40 hours of training includes readings, analysis, and role plays as well as some observation.

Prerequisite(s): Completion of A1 Core GE requirement or instructor consent.

Grading: Letter Graded

COMM 117F - Understanding Play & Games

4 unit(s)

Examines play and games as fundamental social experiences central to developing cultural norms and structures. Explores topics such as gameplay, identity, narrative, and serious games. Special attention to communication theories that provide insight into the nature of play and games.

Prerequisite(s): Upper Division Standing.

Grading: Letter Graded

COMM 119I - Researching Games

4 unit(s)

Introduction to research methods commonly used to study games and human communication, such as observation, textual analysis, interviewing, and surveys. Students develop and apply analytical skills and ethical practices for understanding, conducting, and evaluating research in games and communication.

Prerequisite(s): Upper Division Standing.

Grading: Letter Graded

COMM 120P - Persuasive & Presentation Skills

4 unit(s)

Applies theories, concepts, and research associated with persuasive communication to develop effective presentation skills. Considers broader issues of persuasion and influence at societal and global levels, examining how those issues provide a context for everyday persuasion.

Prerequisite(s): Completion of A1 Core GE requirement or instructor consent.

Grading: Letter Graded

COMM 121P - Performance as Practice

4 unit(s)

Exploration of performance as a site of communication and embodied practice. Will examine the many ways in which performance exists and operates in our culture with a focus on adaptation of literature, personal

narrative, and everyday rituals.

Prerequisite(s): Completion of A1 Core GE requirement or instructor consent.

Grading: Letter Graded

COMM 122F - Performance Studies

4 unit(s)

Examines the constitutive effects of performance, broadly understood, across a variety of communication contexts. Special attention paid to the performative elements of culture, everyday life, ritual, political protest, social belonging, and identity.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

COMM 123I - Performance of Ethnodrama

4 unit(s)

Explores how live performance can be used to create, interpret, and present arts-based scholarship. Students will read ethnodramatic texts and engage in original research, script writing, rehearsal, and performance. Emphasis is on cross-cultural performances.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

COMM 124P - Communication Training and Development

4 unit(s)

Principles of designing and delivering ethical and socially responsible communication training programs including needs assessment, setting objectives, program design, selection and development of training materials, presentation skills, facilitation skills, and training evaluation.

Prerequisite(s): Completion of A1 Core GE requirement or instructor consent.

Grading: Letter Graded

COMM 125P - Ensemble Performance

4 unit(s)

Students collaborate to conceive, write, rehearse, and produce an ensemble project culminating in a public performance. Readings and written work focus on performance as a community-building process as well as dramaturgical research for the production.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Completion of A1 of Core GE requirement or instructor consent.

Grading: Letter Graded

COMM 126F - Race and Performance

4 unit(s)

Examination of the various ways in which racial identities are performed across a variety of communication

contexts, including daily life, popular entertainment, ritualized behavior, cultural practice, and the public sphere.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

COMM 130F - Activism, Action, and Resistance

4 unit(s)

Examines national and global historical and contemporary social movements in the context of communication practices ranging from street protests to use of media and the internet. Resistance is explored using a variety of theoretical and cultural perspectives.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

COMM 131P - New Media/You Media

4 unit(s)

Practical application of current communication theories and research to facilitate skill development in the use and critique of new media tools, such as social networking sites, blogs, microblogs, wikis, personal webpages, video sharing sites, and similar digital communication venues.

Prerequisite(s): Completion of GE Area A1.

Grading: Letter Graded

COMM 132F - Dis/Ability Communication

4 unit(s)

Theoretical foundations in dis/ability communication facilitate student understanding of the social construct of disabilities and provide means to deconstruct communication surrounding difference.

Prerequisite(s): Upper Division Standing.

Grading: Letter Graded

Sustainability Focused - SDG 10: Reduced Inequalities

COMM 133F - Ethical Problems in Communication

4 unit(s)

Examines current and historical theoretical approaches to ethical problems across communication contexts, including workplace, interpersonal, and mediated settings. Explores the role of cultural and societal practices in ethical communication.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

COMM 140P - Argumentation and Debate

4 unit(s)

Principles of argumentation including analysis of propositions, issues, evidence and reasoning. Training and experience in debate forms.

Prerequisite(s): Completion of A1 of Core GE requirement or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

COMM 141P - Small Group Communication

4 unit(s)

An applied approach to small groups and teamwork that links theory and practice across a variety of contexts. Emphasis on the relationships between group communication and larger cultural issues, such as diversity and democracy.

Prerequisite(s): Completion of GE Area A1 (Oral Communication).

Grading: Letter Graded

COMM 144F - Organizational Communication

4 unit(s)

Application of organizational communication theories and concepts to communication processes and functions in organizational life. Examines topics such as ethics, leadership, teams, culture, networks, power, diversity, identity, and assessment of communication practices.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

COMM 145I - Rhetorical and Cultural Criticism

4 unit(s)

Survey of leading theorists, critics, and movements in the area of rhetoric and cultural studies. Examines interpretations of speech and discourse as an approach to understanding both real life issues and advanced work in communication studies.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

COMM 146F - Communication and the Environment

4 unit(s)

Examination of communication in environmental issues, especially conflicting values and modes of discourse that assume different meanings of human-nature relationship. Emphasis on environmentalism as a popular movement, rhetoric of radical ecology, and the technical discourse of environmental policy administration.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ENVS 146F. Communication Studies is responsible for scheduling.
Sustainability Focused - SDG 4: Quality Education

COMM 147P - Argumentation and Persuasion in Courts of Law

4 unit(s)

Principles of legal argumentation, cross-examination, jury selection and strategy. Selected trial transcripts studied to explore differing uses of the trial forum.

Prerequisite(s): Completion of GE Area A1 (Oral Communication).

Grading: Letter Graded

COMM 149F - Rhetoric and Public Life

4 unit(s)

Knowledge of rhetorical theory and practice as they relate to public life, democratic governance, and social conflict and consensus from the classical era to contemporary times.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

COMM 150I - Inquiry in Organizational Communication

4 unit(s)

Introduction to research methods commonly used in studies of organizational communication, such as focus group, interviewing, survey, ethnography, appreciative inquiry, and textual analysis.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

COMM 151I - New Media/New Methods

4 unit(s)

Examines the internet and related digital communication systems as both a site of and a tool for communication research. Special attention to legal and ethical concerns associated with communication research in digital environments.

Prerequisite(s): Upper division standing

Grading: Letter Graded

COMM 152I - Communication in World Cultures

4 unit(s)

Origins of human communication studies in early societies, including those of China, Egypt, Greece, India, Mesopotamia, and Rome. Special attention to the cultural origins of classic texts and significant patterns of communication, which continue to inform our contemporary experiences.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

COMM 153I - Discourse Analysis

4 unit(s)

Introduction to discourse analytic approaches to studying situated communication practices, including research design, data collection, data analysis, and ethical issues pertaining to conducting discourse analysis.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

COMM 154I - Ethnography for Communication Studies

4 unit(s)

Introduction to ethnography from a communication studies perspective, i.e. ethnographic approaches to studying situated communication practices in particular cultural milieus, such as ethnography of communication, critical ethnography, digital ethnography, autoethnography, and/or other types relevant to communication studies.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

COMM 155I - Quantitative Communication Inquiry

4 unit(s)

Quantitative social scientific approaches to communication facilitate students' understanding of the philosophical foundations of quantitative methods and skills in hypothesis testing, research design, data collection, analysis, and interpretation. Methods to be covered include experimental design, survey research, and content analysis.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

COMM 156I - Observation and Interviewing Methods

4 unit(s)

Observation and interviewing methods, or qualitative approaches to communication, facilitate student understanding of the philosophical foundations of developing research questions, research design, data collection, analysis and interpretation. Methods covered include ethnography and participant observation, interviewing, focus groups, and action research.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

COMM 157SL - Community Action/Community Service

3 unit(s)

A campus-wide service learning program with opportunities for direct involvement with local community services, both off campus and on campus. Weekly seminars held on campus or at the field site, plus four to six hours of community service work per week at the field site.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with EDUC 157SL / ENGR 157SL / HA 157SL / SCI 157SL. Communication Studies is responsible for scheduling.

Sustainability Related - SDG 11: Sustainable Cities and Communities

COMM 160F - Language, Meaning, and Culture

4 unit(s)

Course addresses the question of how language, symbols, and society work together. Students will learn about the nature of language and how language and symbols shape individual and collective actions.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

COMM 161F - Communication and Culture

4 unit(s)

Human communication is explored as a mechanism of control and as a vehicle of cultural change. Applies theoretical principles of communication to social issues and communication settings in different cultures.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

COMM 164F - Communication and Global Organizations

4 unit(s)

Examines the relationships among culture, communication, technology, and ways of organizing in various types of global organizations (e.g. nongovernmental organizations, not-for-profits, corporations). Explores the unique communicative processes and ethical issues that arise in international organizing.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 17: Partnerships for the Goals

COMM 165P - Communication and Organizational Philanthropy

4 unit(s)

A broad look at the history of philanthropy, fundraising, legal and compliance issues, messaging and marketing, recruitment and managing of volunteers, technology, evaluating non-profits, and philanthropy as a career choice.

Prerequisite(s): Completion of Area A1 of core GE or instructor consent.

Grading: Letter Graded

COMM 168A - Climate Action and Leadership I

6 unit(s)

Scientific and social scientific approaches to the process and effects of global climate change: Climate changes in the Earth's past, interactions between climate and life, anthropogenic climate change, socioeconomic contexts of environmental effects, cultural influences on climate change mitigation strategies.

Satisfies SJSU Studies S+V: Self, Society & Equality in the U.S. + Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ENVS 168A / METR 168A. Communication Studies is responsible for scheduling.
Sustainability Focused - SDG 13: Climate Action

COMM 168B - Climate Action and Leadership II

3 unit(s)

Scientific and social scientific approaches to the process and effects of global climate change: Climate changes in the Earth's past, interactions between climate and life, anthropogenic climate change, socioeconomic contexts of environmental effects, cultural influences on climate change mitigation strategies.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of COMM 168A / ENVS 168A / METR 168A with a C- or better. Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ENVS 168B / METR 168B. Communication Studies is responsible for scheduling.
Sustainability Focused - SDG 13: Climate Action

COMM 169I - The Media: Response and Criticism

4 unit(s)

Examination of media as a locus of meaning making. Critical analysis of communication practices and content in a variety of venues, such as television, film, radio, social networking, and other sites of web-based communication.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

COMM 170F - Persuasion

4 unit(s)

Explores theories, concepts, and research associated with persuasive communication. Considers broader issues of persuasion and ethics at societal and global levels, examining how those issues provide a context for the kinds of persuasion encountered in everyday life.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

COMM 172F - Multicultural Communication in the United States

4 unit(s)

Analysis of the communication process between and among people in a culturally diverse domestic population (United States). Topics cover speech communication principles, conflict management, language, script analysis, attitudes and values. Includes both theory and activity-based exercises.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

COMM 173F - Intercultural Communication and Global Understanding

4 unit(s)

Analysis of communication among persons from different U.S. and world cultures. Experiences and research in intercultural communication. The influence of varying values, norms, belief structures, and roles. Prejudice, ethnocentrism, nationalism, and racism in communication.

Prerequisite(s): Upper division standing

Grading: Letter Graded

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

COMM 174 - Intercultural Comm and Structural Inequalities

3 unit(s)

Analysis of intercultural communication in the U.S. as it relates to social inequalities, power differences, and diversity. Examines identities and interactions among people of different racial/ethnic backgrounds. Investigates influence of sociocultural forces on intercultural communication encounters and relationships.

Satisfies SJSU Studies Area S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 10: Reduced Inequalities

COMM 175F - Nonverbal Communication

4 unit(s)

A look at differences between and the interdependency of verbal and nonverbal messages. Students will study the role of nonverbal communication in everyday life.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

COMM 176P - Communication and Gender

4 unit(s)

An analysis of issues and problems related to communication and gender. The course considers theoretical and practical perspectives across gendered interactions in a variety of situations and cultures.

Prerequisite(s): Completion of A1 of Core GE requirement or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 5: Gender Equality

COMM 178F - Critical Intercultural Communication Studies

4 unit(s)

An overview of the critical paradigmatic perspective in intercultural communication. Such a perspective proffers an exploration of power dimensions and macro structures that frame and shape micro-intercultural communication encounters, episodes, and contexts.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

COMM 179 - Global Media and Resistance

3 unit(s)

Study of communication issues facing global resistance movements, particularly the role of new technology and social media in public dissent. Covers the application of social movements and resistance theories and concepts.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Related - SDG 10: Reduced Inequalities

COMM 180 - Individual Studies

1-3 unit(s)

Supervised study in specific fields of speech not covered by offered courses.

Prerequisite(s): Department chair consent.

Grading: Credit/No Credit

COMM 181F - New Media/New World

4 unit(s)

Explores the impact of the internet, mobile devices, and other information and communication technologies on social interaction, self-representation, business, politics, and cultural production. Covers the application of mediated communication theories and concepts.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

COMM 182P - Communication in the Classroom

4 unit(s)

Analysis of the classroom as a communication system. Application of communication principles to the

facilitation of educational dialogue.

Prerequisite(s): Completion of GE Area A1 (Oral Communication).

Grading: Letter Graded

COMM 184 - Directed Reading

1-2 unit(s)

A total of 3 units may be repeated.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): Upper division or graduate standing and department chair approval.

Grading: Credit/No Credit

COMM 185F - Health Communication

4 unit(s)

Theories of verbal and nonverbal communication, organizational communication, interviewing, intercultural understanding, and critical approaches to communication through examination of health narratives, competencies needed by health care professionals, patients and caregivers, and the complexities of healthcare politics. Communication problems encountered in healthcare and theory-driven strategies for improving and coping with these problems.

Prerequisite(s): Upper division standing (60 units completed) or instructor consent.

Grading: Letter Graded

COMM 186I - Research Methods in Health Communication

4 unit(s)

Comprehensive overview of research methods in health communication as a discipline and professional practice including social scientific, observational, narrative, meta-analytic, rhetorical, and critical methods. Explorations of the unique ethical responsibilities of health communication researchers as well as various processes of research design and data collection, practices of analysis, and tools for academic and professional writing.

Prerequisite(s): Upper division standing (60 units completed) or instructor consent.

Grading: Letter Graded.

COMM 187P - Communication and Community Wellness

4 unit(s)

Introduction to the various layers of communication (family, media, community, and institutional) that inhibit and foster individual health and well-being. Exposure to literature in the area of community health and wellness, including theoretical, methodological, and policy debates. Students consider and develop their own community-based solutions to public health challenges.

Prerequisite(s): Completion of GE Area 1 (oral communication).

Grading: Letter Graded

COMM 190 - Activity Projects in Speech

1-6 unit(s)

Supervised activity in communication studies. Application of principles and theories of communication in business, community and professional settings.

Prerequisite(s): Upper division or graduate standing and department chair approval.

Grading: Credit/No Credit

COMM 190I - Activity Proj in Speech International

1-6 unit(s)

Supervised activity in communication studies for international students. Application of principles and theory of communication in business, community, and professional settings with specific attention to the needs of visiting international students.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Upper division or graduate standing, or department chair approval.

Grading: Letter Graded

COMM 191A - Activity Projects in Forensics

1-3 unit(s)

Supervised activity in the forensics program. A: Competition in debate. B: Individual events-Platform Speaking including persuasive speaking and communication analysis. C: Individual events oral interpretation (field trips required). J: Preparation for and judging competitive speaking activities (debates, individual events in college and high school forensics tournaments, community-sponsored speech contests). M: Research and oral presentation of appellate court arguments from simulated cases before law judges or in intercollegiate tournaments. A total of 6 units applicable to the major may be repeated.

Course may be repeated for credit for up to 6 units.

Grading: Credit/No Credit

COMM 191B - Activity Projects in Forensics

1-3 unit(s)

Supervised activity in the forensics program. A: Competition in debate. B: Individual events-Platform Speaking including persuasive speaking and communication analysis. C: Individual events oral interpretation (field trips required). J: Preparation for and judging competitive speaking activities (debates, individual events in college and high school forensics tournaments, community-sponsored speech contests). M: Research and oral presentation of appellate court arguments from simulated cases before law judges or in intercollegiate tournaments. A total of 6 units applicable to the major may be repeated.

Course may be repeated for credit for up to 6 units.

Grading: Credit/No Credit

COMM 191C - Activity Projects in Forensics

1-3 unit(s)

Supervised activity in the forensics program. A: Competition in debate. B: Individual events-Platform

Speaking including persuasive speaking and communication analysis. C: Individual events oral interpretation (field trips required). J: Preparation for and judging competitive speaking activities (debates, individual events in college and high school forensics tournaments, community-sponsored speech contests). M: Research and oral presentation of appellate court arguments from simulated cases before law judges or in intercollegiate tournaments. A total of 6 units applicable to the major may be repeated.

Course may be repeated for credit for up to 6 units.

Grading: Credit/No Credit

COMM 191J - Activity Projects in Forensics

1 unit(s)

Supervised activity in the forensics program. A: Competition in debate. B: Individual events-Platform Speaking including persuasive speaking and communication analysis. C: Individual events oral interpretation (field trips required). J: Preparation for and judging competitive speaking activities (debates, individual events in college and high school forensics tournaments, community-sponsored speech contests). M: Research and oral presentation of appellate court arguments from simulated cases before law judges or in intercollegiate tournaments. A total of 6 units applicable to the major may be repeated.

Course may be repeated for credit for up to 6 units.

Grading: Credit/No Credit

COMM 191M - Activity Projects in Forensics

1 unit(s)

Supervised activity in the forensics program. A: Competition in debate. B: Individual events-Platform Speaking including persuasive speaking and communication analysis. C: Individual events oral interpretation (field trips required). J: Preparation for and judging competitive speaking activities (debates, individual events in college and high school forensics tournaments, community-sponsored speech contests). M: Research and oral presentation of appellate court arguments from simulated cases before law judges or in intercollegiate tournaments. A total of 6 units applicable to the major may be repeated.

Course may be repeated for credit for up to 6 units.

Grading: Credit/No Credit

COMM 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

COMM 193 - Activity Projects in Intercultural/International Communication

1-3 unit(s)

Supervised activity in communication studies for students participating in immersive experiences in different cultural environments. Students demonstrate proficiency in evaluating and applying core communication concepts relevant to the experience of living, studying, and/or working in a different cultural environment.

Course may be repeated for credit for up to 6 units.

Grading: Letter Graded

COMM 195 - Special Topics in Communication Studies

1-3 unit(s)

Investigation of topics not included in regular departmental offerings. Focus varies each semester and is announced in the schedule of classes. Course is repeatable with department chair consent no more than 3 times. Course is repeatable with department chair consent no more than 3 times.

Course may be repeated for credit for up to 9 units.

Grading: Letter Graded

COMM 198 - Applied Activity in Communication

1-2 unit(s)

Practical application of communication theory to real world settings to provide meaningful applied capstone experiences. Students demonstrate proficiency in the critical application of core communication requirements to speech acts and contexts outside the traditional classroom.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): COMM 101 or COMM 101C; upper division standing.

Grading: Credit/No Credit

COMM 199C - Senior Seminar: Synthesis & Application

4 unit(s)

Capstone overview of the contemporary discipline of communication studies that builds on theory, concepts, and skills learned in COMM 101C and upper-division major courses. Synthesis and application of communication literature, resources, and modes of inquiry.

Prerequisite(s): COMM 101C; upper division standing

Grading: Letter Graded.

COMM 200C - Graduate Study in Communication

4 unit(s)

History of and current research in the communication field; theory-building and metatheoretical issues; reviewing and critiquing studies; preparing research questions/hypotheses and prospectus.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Admission to the Communication Studies, MA program; Graduate standing.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

COMM 201C - Methods and Methodologies of Communication Studies

4 unit(s)

Introduction to a representative number of research methods and methodologies pertinent to the field of communication studies, encompassing quantitative, qualitative, and rhetorical methods reflecting social scientific, interpretive, rhetorical, and/or critical approaches to research.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

COMM 210F - Interpersonal Communication

4 unit(s)

Examination of the role of communication in creating and maintaining social relationships. Draws on interpretive, critical, and/or quantitative theories and methods for investigating relationships in different cultural contexts and across the life span.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

COMM 221I - Performing Narratives

4 unit(s)

Practice in the application of theories and methods for performing narratives, broadly construed. Students will practice creating, directing, and performing work adapted from literary texts, ethnographic interviews, social justice issues, and/or lived experience. Required of graduate students who wish to do thesis performances.

Prerequisite(s): Graduate standing or instructor consent

Grading: Letter Graded

Cross-listed with TA 221I. Communication Studies is responsible for scheduling.

COMM 222F - Performance and Culture

4 unit(s)

Explores cultural identity as constructed, contested, and displayed through acts of performance such as theatre, dance, storytelling, performance art, film, literature, and everyday behavior. Focuses on performance as a site of cultural manifestation and transformation.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Graduate standing or instructor consent

Grading: Letter Graded

COMM 244F - Organizational Communication

4 unit(s)

Examination of internal communication processes in large organizations. Emphasis on social construction processes in organizations, the communicative constitution of organizations, communication networks, communication relationships, and the understanding of different communication processes and structures in organizations. Experience in gathering and analyzing data to monitor and assess organizational communication.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

Note(s): MBA recommended elective.

COMM 245I - Communication Criticism

4 unit(s)

Theories guiding critical evaluation of messages communicated in a variety of media, from oral to digital. Emphasis on the historical, political, and social contexts where such messages are designed, transmitted, interpreted, and used.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

COMM 249F - Rhetorical Theory

4 unit(s)

Study of rhetorical theory, its foundations, insights, and implications for social practice.

Prerequisite(s): Graduate standing, or instructor consent.

Grading: Letter Graded

COMM 250F - Communication Theory: Critical and Interpretive

4 unit(s)

Major theorists and theories of communication in the rhetorical, historical, critical, empirical, and philosophical traditions.

Prerequisite(s): Graduate standing.

Pre/Corequisite(s): COMM 200C.

Grading: Letter Graded

COMM 255F - Seminar in Communication Theory

4 unit(s)

Review and evaluation of communication theories and research, past and present. Examination of methods of theory construction and scholarly inquiry. Experience in applying theory to designing and conducting communication research.

Prerequisite(s): Graduate standing or instructor consent

Grading: Letter Graded

COMM 265 - Seminar in Crisis Communication

3 unit(s)

Role of public communication in crisis situations; types of crisis; pre- and post-crisis planning; crisis communication management; risk communication; crisis narratives and rhetoric; ethical obligations of crisis communication; dealing with media; image restoration. Independent research project required.

Prerequisite(s): Graduate standing or instructor consent

Grading: Letter Graded

COMM 274F - Intercultural Communication

4 unit(s)

Advanced study of the theories, perspectives, and processes that affect intercultural communication among diverse cultural groups in the world.

Prerequisite(s): Graduate standing.

Pre/Corequisite(s): COMM 200C.

Grading: Letter Graded

COMM 280 - Independent Study

1-4 unit(s)

Supervised and specialized study in specific fields of communication not covered by offered courses or that extend beyond what can be covered in an offered course.

Course is repeatable for up to 4 units.

Prerequisite(s): Department Chair consent

Grading: Credit/No Credit/Incomplete.

COMM 282P - Communication Pedagogy

4 unit(s)

Investigation and analysis of the intersections of communication and instruction, including communication education, instructional communication, and critical communication pedagogy.

Prerequisite(s): Graduate standing or instructor consent

Grading: Letter Graded

COMM 285A - Teaching Associate Practicum I

2 unit(s)

Instruction and supervised experience in teaching university level courses in Communication Studies. Topics include curriculum design, instructional objectives, and activities and assessment.

Prerequisite(s): Appointment as Graduate Teaching Associate or instructor consent

Grading: Credit/No Credit

COMM 285B - Teaching Associate Practicum II

1-3 unit(s)

Instruction and supervised experience in teaching university level courses in Communication Studies. In

addition to advanced discussion of topics from 285A, topics will include theories of teaching and learning, identity, culture, and power.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Appointment as Graduate Teaching Associate and COMM 285A, or instructor consent
Grading: Credit/No Credit

COMM 290 - Thesis and project supervision

1 unit(s)

Continued work on thesis or project.

Prerequisite(s): Outstanding RP grade in a preceding semester on a thesis or project.
Grading: Mandatory Credit/No Credit/RP

COMM 291 - Communication Studies Graduate Internship Program

1-4 unit(s)

Practical application of communication theory and research methods to real world settings to provide applied capstone experiences. Students demonstrate proficiency in the critical application of core communication requirements to speech acts in engaged and applied settings outside the traditional classroom.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Graduate Standing, Permission of Director.
Grading: Credit/No Credit

COMM 292 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

COMM 295I - Special Topics in Communication Inquiry

4 unit(s)

Advanced application of communication research methods with emphasis on current literature. The topic will vary from term to term.

Course may be repeated with instructor and advisor consent.

Grading: Letter Graded

COMM 297C - Advanced Writing Workshop

4 unit(s)

Advanced course in writing and presentation skills. Course learning goals will focus on grammar, syntax, and argumentation in written work, as well as oral performance.

Satisfies Graduation Writing Assessment Requirement (GWAR).

Pre/Corequisite(s): COMM 200C.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

COMM 298 - Master's Project or Comprehensive Exam

1-4 unit(s)

Supervised project work in the field of Communication Studies or individual preparation for the comprehensive exam.

Prerequisite(s): Advancement to candidacy for the Master's degree, completion of core requirements, and instructor consent.

Grading: Mandatory Credit/No Credit/RP

COMM 299 - Master's Thesis

1-6 unit(s)

Supervised thesis work in the field of Communication Studies.

Prerequisite(s): Advancement to candidacy for the master's degree, completion of core requirements and instructor consent.

Grading: Mandatory Credit/No Credit/RP

Comparative Literature

COLT 122 - Topics in Comparative World Literature

4 unit(s)

An exemplary theme as treated in various literatures from different national sites, e.g., war, love, freedom, colonialism, environmental disaster.

Grading: Letter Graded

Cross-listed with ENGL 122 / FORL 122 / HUM 122. English and Comparative Literature is responsible for scheduling.

COLT 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad

and Away programs.

Grading: Mixed Grading

Computer Engineering

CMPE 30 - Programming Concepts and Methodology

3 unit(s)

Introduction to programming; overview of computer organization and introduction to software engineering. Topics include methodologies for program design, development, style, testing, and documentation; algorithms, control structures, functions, and elementary data structures.

Lecture 2 hours/lab 3 hours.

Corequisite(s): MATH 30 or MATH 30X or equivalent.

Grading: Letter Graded

CMPE 50 - Object-Oriented Concepts and Methodology

3 unit(s)

Application of object-oriented software engineering techniques to the design and development of larger programs; data abstraction, structures, classes and associated algorithms.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): CMPE 30 with a minimum grade of "C-". Computer Engineering and Software Engineering Majors only.

Grading: Letter Graded

CMPE 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

CMPE 102 - Assembly Language Programming

3 unit(s)

Assembly programming; assembly-C interface; CPU and memory organization; addressing modes; arithmetic, logic and branch instructions; arrays, pointers, subroutines, stack and procedure calls; software interrupts; multiplication, division and floating point arithmetic.

Prerequisite(s): CMPE 50 or CS 46B (with grade of "C-" or better) Sophomore or upper division standing.

Allowed Declared Majors: Computer Engineering, Software Engineering.

Grading: Letter Graded

CMPE 110 - Electronics for Computing Systems

3 unit(s)

RC, RL and RLC circuit analysis, diodes and diode circuits, MOSFET and bipolar transistor I-V characteristics and circuits, CMOS logic circuits, CMOS-TTL interface, sensors and signal conditioning circuits using operational amplifiers, A/D and D/A converters, electromechanical device control.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): EE 97, EE 98, MATH 33LA or MATH 39 + MATH 33A, all with a grade of "C" or better.

Allowed Declared Majors: Computer Engineering and Software Engineering.

Grading: Letter Graded.

CMPE 120 - Computer Organization and Architecture

3 unit(s)

Introduction to computer organization and architecture, system buses, internal memory and external memory, input/output, central processing unit CPU, instruction sets, CPU structure and function, RISC, control unit.

Prerequisite(s): CMPE 50 or CS 46B (with a grade of "C-" or better). Computer Engineering and Software Engineering Majors Only.

Grading: Letter Graded

CMPE 124 - Digital Design I

3 unit(s)

Combinational and sequential logic theory and circuits. Emphasis on mixed logic and algorithmic state machines. Design projects using standard integrated circuit packages.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): EE 97 and EE 98 (both with C or better). Computer Engineering or Software Engineering Majors Only.

Grading: Letter Graded

CMPE 125 - Digital Design II

3 unit(s)

Digital system building blocks, data path and control units, system-level RTL design, Verilog HDL for design and verification, contemporary design flow and methodology, lab experiments using industry standard CAD tools and field programmable gate array (FPGA) devices.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): CMPE 124 (with grade of "C-" or better). Computer Engineering or Software Engineering Majors Only.

Grading: Letter Graded

CMPE 126 - Algorithms and Data Structure Design

3 unit(s)

Object-oriented data organization and representation as strings, arrays, stacks, queues, dequeues, lists, sets, trees, tables, and graphs. Sorting and searching and algorithm design and performance analysis.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): ENGR 10, CMPE 50, and MATH 42 or MATH 42X (all with a grade of "C-" or better).

Allowed Declared Majors: Computer Engineering or Software Engineering.

Grading: Letter Graded

CMPE 127 - Microprocessor Design I

3 unit(s)

Microprocessor architecture and assembly language. Design of peripheral blocks and their interfaces to the microprocessor. Design projects using standard integrated circuit packages.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): CMPE 124 with a grade of "C-" or better; Computer Engineering or Software Engineering Majors Only.

Grading: Letter Graded

CMPE 130 - Advanced Algorithm Design

3 unit(s)

Design and analysis of data structures and algorithms. Advanced tree structures, hashing, searching and sorting. Divide-and-conquer, greedy and dynamic programming algorithm design techniques.

Prerequisite(s): CMPE 126, and either ISE 130 or MATH 161A (with grades of "C-" or better). Computer Engineering or Software Engineering Majors Only.

Grading: Letter Graded

CMPE 131 - Software Engineering I

3 unit(s)

Why software engineering? What is software engineering? Software development lifecycle activities: project planning and management requirements analysis, requirement specification. Software design, software testing, verification, validation, and documentation. Software quality assurance and review techniques, software maintenance, team-based projects.

Prerequisite(s): CMPE major: CMPE 126 (C- or better); SE major: CS 46B (C- or better); other majors: CMPE 30, and MATH 32 or MATH 32H or MATH 32X (C- or better).

Grading: Letter Graded

CMPE 132 - Information Security

3 unit(s)

A study of computer and network security from centralized systems to distributed networks. Cryptology, vulnerabilities and controls. Firewalls, privacy enhanced e-mail, viruses and worms. Case studies will be

featured.

Prerequisite(s): CMPE 126 with a C- or better. Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 133 - Software Engineering II

3 unit(s)

Software Architecture, Software Technical Metrics, evaluating products, processes, and resources, improving predictions, products, processes, and resources. Advanced topics such as: Formal Methods, Software Reuse, Reengineering, Client/Server Software Engineering, Computer-Aided Software Engineering, Team-Based Projects.

Prerequisite(s): CMPE 131 with a grade of "C-" or better.

Grading: Letter Graded

CMPE 135 - Object-Oriented Analysis and Design

3 unit(s)

Feasibility analysis and system requirements determination, object-oriented design methodology, and information systems design using object-oriented modeling techniques. Emphasis on both theoretical and practical aspects of object-oriented systems analysis and design. Team-based design project.

Prerequisite(s): For SE Majors: CS 46B or for others CMPE 126. See SJSU Catalog for detail list of prerequisites

Grading: Letter Graded

Cross-listed with SE 135. Computer Engineering is responsible for scheduling.

CMPE 137 - Wireless Mobile Software Engineering

3 unit(s)

Mobility analysis, design principles, techniques, and methods for software systems on a variety of wireless and mobile Internet based computing and communication platforms, such as advanced pocket/tablet PCs, GPS, Bluetooth, Infrared, Wi-Fi, and RFID. Design multi-disciplined mobile project.

Prerequisite(s): CMPE 131. Computer Engineering or Software Engineering Majors Only.

Grading: Letter Graded

Cross-listed with SE 137. Computer Engineering is responsible for scheduling.

CMPE 138 - Database Systems I

3 unit(s)

File organization and storage structure, database system architecture, entity relationship model, normalization techniques, SQL, relational algebra, storage organization, query processing, and concurrency control.

Prerequisite(s): CMPE 126 (with a grade of "C-" or better). Computer Engineering or Software Engineering Majors Only.

Grading: Letter Graded

CMPE 139 - Fundamentals of Data Mining

3 unit(s)

Introduction to data management and data mining, data preprocessing, OLAP and data warehousing, frequent pattern mining and association rules, clustering, classification, web mining, web search, recommender systems, social network analysis.

Prerequisite(s): CMPE 126 or CS 146 (with C- or better). Computer Engineering or Software Engineering Majors Only.

Grading: Letter Graded

Cross-listed with SE 139. Computer Engineering is responsible for scheduling.

CMPE 140 - Computer Architecture and Design

3 unit(s)

Pipelining and timing issues in CPU data-paths. Principles of RISC-type CPU instruction set and architecture. Structural, data and control hazards in a RISC processor, forwarding loops, branch mechanisms. Memory architectures in CPUs such as register files and caches.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): CMPE 125 (with grade of "C-" or better), Computer Engineering or Software Engineering Majors Only.

Grading: Letter Graded

CMPE 142 - Operating Systems Design

3 unit(s)

Overview: history, concepts, system calls and structures. Management of major components: processes, memory, input/output and files. Design of system calls and device drivers for hardware dependence. Concepts of kernel and shell, file protection and interactive computation.

Prerequisite(s): CMPE 102, CMPE 126 (all with grades of "C-" or better). Computer Engineering or Software Engineering Majors Only.

Pre/Corequisite(s): CMPE 130 (with grade of "C-" or better).

Grading: Letter Graded

CMPE 146 - Real-Time Embedded System Co-Design

3 unit(s)

Embedded system architecture with real-time operating system including microcontrollers, interfacing techniques for industrial applications using transducers, sensors, and A/D-D/A converters. Hardware/software integration and codesign.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): CMPE 110 and CMPE 127 with grade of "C-" or better. Computer Engineering or Software Engineering Majors Only.

Grading: Letter Graded.

CMPE 148 - Computer Networks I

3 unit(s)

Comparative evaluation of network architecture, layering model, standards, protocol examples for ISO and TCP/IP layers. Network applications, transport layer protocols, Internet routing, data link and physical transmissions. Applications in world wide web, file transfer, electronic mail, peer-to-peer and other areas.

Prerequisite(s): For CMPE major: CMPE 124 and CMPE 126 (with a grade of C- or better); for SE major: CMPE 120 and CS 146 (with a grade of C- or better); Computer Engineering or Software Engineering Majors Only.

Grading: Letter Graded

CMPE 150 - System Architecture and Electronic Design for Robotics

3 unit(s)

Design and architecture for generating autonomous and human-reliant robots, algorithm development for object perception, electronic design and system integration for cognitive and sensory capabilities of robots, mechanisms for actuation and mobility, fault diagnosis and self-calibration.

Prerequisite(s): CMPE 110, CMPE 124

Grading: Letter Graded

CMPE 152 - Compiler Design

3 unit(s)

Principles of lexical analysis, finite state automata and parsing; issues of variable declarations, variable types, control statements, function calls, nested scopes and efficient assembler target code.

Prerequisite(s): CMPE 126 and CMPE 102 both with a "C-" or better

Grading: Letter Graded

CMPE 163 - Introduction to Computer Graphics and Augmented Reality

3 unit(s)

Introduction to 2D and 3D vector and pixel graphics, 2D and 3D transformations, world to viewer transformation pipeline, perspective projection, hidden line and surface removal, decoration algorithm and texture mapping, integration of pixel graphics and augmented reality, and hands-on laboratories.

Prerequisite(s): CMPE 127; MATH 33LA or MATH 39 or EE 112. All with a C- or better.

Pre/Corequisite(s): ENGR 100W.

Grading: Letter Graded

Cross-listed with SE 163. Computer Engineering is responsible for scheduling.

CMPE 165 - Software Engineering Process Management

3 unit(s)

Integrated approach to managing development within small teams; including mission statement, synthesis of design concepts, tradeoff studies, risk assessment and the interactions encountered in the optimal design, development, manufacture and test of systems.

Prerequisite(s): CMPE 131 with a "C-" or better.

Grading: Letter Graded

CMPE 172 - Enterprise Software Platforms

3 unit(s)

Introduction to enterprise software systems. Covers network operating systems, DBMS, transaction monitors, groupware, distributed objects, system management and the Web. Covers standards such as J2EE, CORBA, SQL, JDBC, and HTTP; and emerging software technologies.

Prerequisite(s): CMPE 142 or CS 149 with grade of 'C-' or better. Computer Engineering or Software Engineering Majors Only.

Grading: Letter Graded

CMPE 180 - Individual Studies

1-3 unit(s)

Individual work in computer engineering.

Prerequisite(s): Upper division standing and instructor consent. Not available to Open University Students.

Grading: Credit/No Credit

Cross-listed with SE 180. Computer Engineering is responsible for scheduling.

CMPE 180A - Data Structures and Algorithms in C++

3 unit(s)

Data representation and preprocessing, proximity, finding nearest neighbors, dimensionality reduction, exploratory analysis, association Object-oriented data organization and representation as strings, arrays, stacks, queues, dequeues, lists, sets, trees, tables, and graphs. Sorting and searching and algorithm design and performance analysis. Testing methods and data are discussed.

Prerequisite(s): Admission into MS Artificial Intelligence, MS Computer Engineering or MS Software Engineering.

Grading: Credit/No Credit

CMPE 180B - Database Systems

3 unit(s)

File organization and storage structure, database system architecture, entity relationship model, normalization techniques, SQL, relational algebra, storage organization, query processing, and concurrency control.

Prerequisite(s): Admission into MS Artificial Intelligence, MS Computer Engineering or MS Software Engineering.

Grading: Credit/No Credit

CMPE 180C - Operating Systems Design

3 unit(s)

History, concepts, system calls and structures. Management of major components: processes, memory,

input/output and files. Design of system calls and device drivers for hardware dependence. Concepts of kernel and shell, file protection and interactive computation.

Prerequisite(s): Admission into MS Computer Engineering or MS Software Engineering

Grading: Credit/No Credit

CMPE 180D - Digital Design and Microprocessors

3 unit(s)

Binary codes/number representations, binary arithmetic, combinatorial logic design with gates, logic minimization, decoders, encoders, adders; sequential logic design with latches, flip-flops, registers, counters, state machine design; basic microprocessor architectures (control/data paths) and memory subsystems, asynchronous logic (racing, glitches, timing diagrams).

Prerequisite(s): Admission into MS Computer Engineering

Grading: Credit/No Credit

CMPE 181 - Internet of Things Platforms

3 unit(s)

Internet of Things (IoT) landscape, fundamentals, architecture, standards and protocols, software and hardware systems, security, and data analytics. Investigate state-of-the-art IoT platforms. Develop hands-on expertise in IoT system development.

Prerequisite(s): For CMPE major: CMPE 124 and CMPE 126, both with a C- or better; for SE major: CMPE 120 and CS 146, both with a C- or better.

Grading: Letter Graded

CMPE 182 - Internet of Things Security

3 unit(s)

Secure Internet of Things (IoT) system design, vulnerabilities, attacks, and countermeasures, principles of privacy-by-design, secure IoT system development and lifecycle. Blockchains, distributed consensus, and identity management systems for connected devices.

Prerequisite(s): CMPE 126 or CS 146, with a C- or better.

Grading: Letter Graded

CMPE 183 - Cryptocurrencies and Blockchains

3 unit(s)

Technical aspects of cryptocurrencies, blockchains, distributed consensus, and decentralized applications. Basics of Bitcoin and Ethereum including Byzantine agreement, smart contracts and solidity as well as legal aspects, regulations and token economics.

Prerequisite(s): CMPE 126 or CS 146.

Grading: Letter Graded

CMPE 185 - Autonomous Mobile Robots

3 unit(s)

Basic concepts and algorithms for mobile robots that act autonomously in complex environments. Emphasis on mobile robot locomotion and kinematics, environment perception, probabilistic map-based localization and mapping, motion planning, and programming in Robot Operating System (ROS).

Prerequisite(s): ISE 130 or MATH 161A; and MATH 33LA; and, CMPE 126 or CS 146.

Grading: Letter Graded

CMPE 187 - Software Quality Engineering

3 unit(s)

Software testing and quality assurance engineering concepts, processes, models, criteria, and methods. Software unit testing, integration, function validation, system performance and reliability evaluation; Software security testing methods and tools; software quality management, control systems, standards, and evaluation metrics.

Prerequisite(s): CMPE 131 with a C- or better. Computer Engineering or Software Engineering Majors Only.

Grading: Letter Graded

CMPE 188 - Machine Learning for Big Data

3 unit(s)

Introduction to machine learning and pattern recognition for big data analytics; machine learning concepts, theories, approaches, algorithms, and big data analytic applications; supervised learning unsupervised learning and learning theory.

Prerequisite(s): CMPE 126 or CS 146

Grading: Letter Graded

Cross-listed with SE 188. Computer Engineering is responsible for scheduling.

CMPE 189 - Special Topics in Computer Engineering

3 unit(s)

Advanced topics in Computer Engineering. Content varies from semester to semester.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

CMPE 192 - International Program Studies

1 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

CMPE 195A - Senior Design Project I

2 unit(s)

Comprehensive plan and preliminary design of a group computer/software engineering project; integration of knowledge in science, technologies and team processes; group written report and oral presentation; global and social issues in engineering; individual professional development plans. when taken as part of CMPE major sequence.

Lab 6 hours.

Satisfies SJSU Studies S when taken as part of CMPE major sequence.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses.

For CMPE Majors: CMPE 125, CMPE 127, CMPE 130, CMPE 131 (all with a C- or better); ENGR 100W (with a grade of C or better); in good academic and major standings and graduation application on file.

For SE Majors: CMPE 133, ISE 130 or MATH 161A (all with a grade of C- or better), ENGR 100W (with a grade of C or better); in good standing academic and major standings and graduation application on file.

Corequisite(s): ENGR 195A.

Grading: Letter Graded

Note(s): Meets GE Areas S and V when course is taken in combination with: CMPE 195B, ENGR 195A and ENGR 195B.

CMPE 195B - Senior Design Project II

3 unit(s)

Implementation of group design project initiated in CMPE 195A; group oral presentation and written report; integrated global and social issues in engineering.

Misc/Lab: Lab 9 hours.

Satisfies SJSU Studies V: Cultures and Global Understanding when taken as part of CMPE major sequence.

Prerequisite(s): CMPE 195A (with grade of "C" or better). Juniors and Seniors only. Allowed declared majors: Computer Engineering, Engineering, Software Engineering.

Corequisite(s): ENGR 195B

Grading: Letter Graded.

Note(s): Meets GE Areas S and V when course is taken in combination with: CMPE 195A, ENGR 195A and ENGR 195B.

CMPE 195E - Senior Design Project I

1 unit(s)

Comprehensive plan and preliminary design of a group computer/software engineering project; integration of knowledge in science, technologies and team processes; group written report and oral presentation; individual professional development plans.

Prerequisite(s): For CMPE Majors: CMPE 125, CMPE 127, CMPE 130, CMPE 131 (all with a C- or better); ENGR 100W (with a grade of C or better); in good academic and major standings and graduation application on file. For SE Majors: CMPE 133, ISE 130 or MATH 161A (all with a grade of C- or better), ENGR 100W (with a grade of C or better); in good standing in the major, graduation application on file.

Grading: Letter Graded

CMPE 195F - Senior Design Project II

3 unit(s)

Implementation of group design project initiated in CMPE 195E; group oral presentation and written report.

Lab 9 hours.

Prerequisite(s): CMPE 195A (grade of C or better); in good academic and major standings.

Grading: Letter Graded

CMPE 198 - Technology and Civilization

3 unit(s)

History, development, and use of technology in different cultures. Technology's impact on society, global environment, the workplace, cultural values, gender roles, and newly industrialized countries of the world.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ENGR 198 / ME 198 / TECH 198. Technology is responsible for scheduling.

Sustainability Related - SDG 9: Industry, Innovation and Infrastructure

CMPE 200 - Computer Architecture

3 unit(s)

Computer design overview, processor instruction set architecture and microarchitecture, instruction-level parallelism, memory hierarchy, storage and I/O systems, multicore/multiprocessor and data/thread-level parallelism, introduction to parallel programming.

Prerequisite(s): CMPE 180D or instructor consent. Artificial Intelligence or Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 202 - Software Systems Engineering

3 unit(s)

Integrated approach to software design and development including requirements elicitation and analysis, system design and construction through studying multiple facets of software development processes, design methodologies, modeling approaches, and implementation techniques.

Prerequisite(s): Classified graduate standing or instructor consent. Artificial Intelligence or Computer

Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 206 - Computer Network Design

3 unit(s)

Network topology and queuing theory. The seven layers of the ISO reference model: physical, data link, network, transport, session, presentation and application. Example networks. Network design project.

Prerequisite(s): Classified standing, or instructor consent. Allowed Declared Majors: Artificial Intelligence, Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 207 - Network Programming and Application

3 unit(s)

Development and implementation of networking software for building distributed applications. Application Programming Interfaces: BSD Sockets, Winsock, Remote Procedure Call and Middleware. Network programming project.

Prerequisite(s): CMPE 206, or instructor consent.

Grading: Letter Graded

CMPE 208 - Network Architecture and Protocols

3 unit(s)

In-depth study of the principles and architecture of Internet protocols in current practice. Analysis of protocols of network, transport, and application layers. Topics will also cover emerging network architecture and protocols. Network analysis project..

Prerequisite(s): CMPE 206 or instructor consent.

Grading: Letter Graded

CMPE 209 - Network Security and Applications

3 unit(s)

Network security protocols and applications, cryptography algorithms, authentication systems, intrusion detection and response systems, network attacks and defenses, system security including malware analysis, and building of secure systems.

Prerequisite(s): CMPE 206, EE 281, or instructor consent. Computer Engineering or Software Engineering or Artificial Intelligence or Electrical Engineering majors only.

Grading: Letter Graded

CMPE 210 - Software-defined Networks and Network Functions Virtualization

3 unit(s)

The course covers development and implementation of Software-defined Networks and Network Functions Virtualization for building programmable network applications. It includes their concepts with various use

cases. Students conduct a network programming project related to SDN/NFV by using open source projects.

Prerequisite(s): CMPE 206 (or equivalent graduate network courses) or instructor consent.

Grading: Letter Graded

CMPE 211 - Advanced Network Security in IoT

3 unit(s)

Advanced security topics in the Internet of things (IoT). SDN/NFV(Software Defined Networking and Network Function Virtualization) and blockchain to defend against IoT attacks and protect IoT infrastructure. Network security protocols and applications, intrusion detection, network attacks and defenses, and system-level security issues.

Prerequisite(s): CMPE 206 or Instructor Consent

Grading: Letter Graded

CMPE 212 - System Verification

3 unit(s)

Introduction to SoC system configuration and integration; on chip protocols; assertion based verification; code and functional coverage metrics; methodologies, tools, and environments for functional verification of special function blocks (IPs) and integrated SoC-based computer systems.

Prerequisite(s): CMPE 200 and CMPE 264 or instructor consent.

Grading: Letter Graded

CMPE 213 - Parallel Computing

3 unit(s)

How to effectively program parallel computers, from smartphones to large clusters. Types of parallel architectures, routing, communication operations, parallel programming models, performance analysis, parallel algorithms for sparse matrix and graph problems, load balancing, advanced topics. Applications to Big Data Analytics.

Prerequisite(s): Classified graduate standing or instructor consent

Grading: Letter Graded

CMPE 214 - GPU Architecture and Programming

3 unit(s)

Explores state-of-the-art parallel architecture and various parallel programming techniques. Investigate the architectural difference between CPU and various parallel architectures including GPU, programming basics of parallel platforms such as CUDA, optimization and debugging techniques.

Prerequisite(s): CMPE 140 or CMPE 200

Grading: Letter Graded

CMPE 217 - Human AI Interaction

3 unit(s)

Intention, joint intention and action, artificial agency, autonomy, shared autonomy, different types of

collaboration, teleoperation, team work, human feedback, assistance, inference, trajectory optimization, inverse reinforcement learning, learning from feedback.

Prerequisite(s): Classified graduate standing or instructor consent. Computer Engineering and/or software engineering and/or AI majors only.

Grading: Letter Graded.

CMPE 219 - Cybersecurity Clinics with HCI

3 unit(s)

Design, evaluation, and implementation of interactive computing systems for human use in order to develop a cybersecurity solution. The interdisciplinary area between Human-Computer Interaction and cybersecurity: common vulnerabilities, explainable AI, human-centered security design concepts, social and ethical issues, and Internet of Things.

Prerequisite(s): Classified graduate standing or instructor consent.

Grading: Letter Graded.

CMPE 220 - System Software

3 unit(s)

System software overview, assemblers, macro-assemblers, loaders and linkers, compilers and operating systems. Design project.

Prerequisite(s): CMPE 180A and CMPE 180C, or classified standing. Artificial Intelligence or Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 226 - Database Systems

3 unit(s)

Database architectures, technologies, and practices for enterprise systems that use structured, semi-structured, and unstructured data. Provides opportunities to research and acquire experience using modern and emerging concepts in relational and non-relational database theory and technologies.

Prerequisite(s): CMPE 272 or instructor consent. Artificial Intelligence or Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 235 - Mobile Software System Design

3 unit(s)

Study of wireless-based software systems in design and engineering, underlying networks, infrastructures and frameworks, wireless security, mobile user security & privacy (i.e. biometric security), emergent mobile programming platforms and technologies (such as RFID/Barcode/NFC), mobile commerce and service application systems.

Prerequisite(s): CMPE 220 or CMPE 202 or instructor consent. Artificial Intelligence or Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 240 - Advanced Computer Design

3 unit(s)

Architecture of a computing system including system bus, memory subsystems and peripherals. Unidirectional and bidirectional bus architectures. SRAM, SDRAM and FLASH memories. Design of DMA, interrupt controller, transmitter/receiver, timer, display adapter, A/D and D/A converters and other system peripherals. Design of memory and peripheral bus interfaces.

Prerequisite(s): CMPE 180D or instructor consent. Artificial Intelligence or Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 242 - Embedded Hardware Design

3 unit(s)

Advanced topics dealing with microprocessor and microcontroller hardware and firmware including processor architecture, advanced memory and I/O systems design, multilevel bus architecture, interrupt systems. Design project.

Prerequisite(s): CMPE 180A and CMPE 180D, classified standing, or instructor consent. Artificial Intelligence or Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 243 - Embedded Systems Applications

3 unit(s)

Embedded system interfacing techniques; peripheral devices; discussion of industrial, telecommunication, automotive, medical, and consumer applications of embedded systems. Design project.

Prerequisite(s): CMPE 180A and CMPE 180D, classified standing, or instructor consent. Artificial Intelligence or Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 244 - Embedded Software

3 unit(s)

Experiments dealing with advanced embedded software programming concepts, interfacing techniques, hardware organization, and software development using embedded systems. Individual projects.

Prerequisite(s): CMPE 180A and CMPE 180D, classified standing, or instructor consent. Artificial Intelligence or Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 245 - Embedded Wireless Architecture

3 unit(s)

Embedded wireless architecture with basic communication protocols and hands-on labs with state of the art embedded system development tools.

Prerequisite(s): CMPE 180A and CMPE 180D, classified standing, or instructor consent. Artificial

Intelligence or Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 246 - Interface Design in Embedded Systems

3 unit(s)

Oscillator configuration, parallel and serial I/O port initialization and interface building techniques with Microchip DSP microcontrollers. Integration of external memory blocks, MEMS sensors, MEMS microphone, ADC, DAC and image recognition camera to achieve a specific system functionality. Servo motor, stepper motor and brushless motor interface designs and control. Design specification and development with Microchip MPLABX design tools.

Prerequisite(s): CMPE 180A and CMPE 180D, classified standing, or instructor consent.

Grading: Letter Graded

CMPE 249 - Intelligent Autonomous Systems

3 unit(s)

Introduction to autonomous systems and intelligent solutions for self-driving cars, advanced topics in multi-modal sensing, sensor fusion, AI computing, mapping, deep learning, object detection, perception, localization, prediction, path planning, control, reinforcement learning, and Robotic Operating System (ROS).

Prerequisite(s): CMPE 252 or CMPE 257 or instructor consent.

Grading: Letter Graded

CMPE 252 - Artificial Intelligence and Data Engineering

3 unit(s)

Introduction to important concepts and techniques from the fields of artificial intelligence, evolution of AI systems, intelligent agents, problem solving by searching, machine learning, neural networks, reinforcement learning, and knowledge representation. The data engineering and science process is covered as well as applications of AI and ethical considerations.

Prerequisite(s): Classified graduate standing.

Grading: Letter Graded

CMPE 255 - Data Mining

3 unit(s)

Data representation and preprocessing, proximity, finding nearest neighbors, dimensionality reduction, exploratory analysis, association analysis and sequential patterns, supervised learning: model selection and evaluation, overfitting, clustering, advanced topics.

Prerequisite(s): CMPE 180A, classified standing, or instructor consent. Artificial Intelligence or Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 256 - Advanced Data Mining

3 unit(s)

Data mining and machine learning algorithms and applications for big data. Recommender systems, ranking and evaluation, graph mining, social network analysis, sentiment analysis, advanced topics.

Prerequisite(s): CMPE 180A, classified standing, or instructor consent. Artificial Intelligence or Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 257 - Machine Learning

3 unit(s)

Machine learning concepts, feasibility and learning types, theory of generalization, bias and variance, linear models for classification and regression, nonlinear transformation, regularization and validation, kernel methods, radial basis functions, support vector machines, ensemble methods, neural networks, and hands-on projects.

Prerequisite(s): CMPE 180A, classified standing, or instructor consent. Artificial Intelligence or Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 258 - Deep Learning

3 unit(s)

Deep neural networks and their applications to various problems, e.g., speech recognition, image segmentation, and natural language processing. Covers underlying theory, the range of applications to which it has been applied, and learning from very large data sets.

Prerequisite(s): CMPE 255 or CMPE 257 or instructor consent. Artificial Intelligence or Computer Engineering or Software Engineering majors only.

Grading: Letter Graded

CMPE 259 - Natural Language Processing

3 unit(s)

Theory, design, and implementation of Natural Language Processing (NLP) systems. Topics include language representation and modeling, sequence modeling, Hidden Markov Models, probabilistic context-free grammars, Bayesian networks, Conditional Random Fields, and deep learning architectures for sequence processing.

Prerequisite(s): CMPE 252 or CMPE 255 or CMPE 257, or instructor consent. Artificial Intelligence, Computer Engineering, and Software Engineering Master's students only.

Grading: Letter graded.

CMPE 260 - Reinforcement Learning

3 unit(s)

Reinforcement Learning (RL) and Deep Reinforcement Learning (DRL). Topics include RL formalism, Markov decision process, Deep Q-Network, and reinforcement learning programming platforms. Also covered are relevant applications of RL in various fields.

Prerequisite(s): CMPE 252 or CMPE 255 or CMPE 257 or instructor consent.

Grading: Letter Graded

CMPE 264 - Advanced Digital and Computing System Design

3 unit(s)

Advanced topics in register-transfer-level design of complex digital functional blocks, application-specific instruction set processors, and system-level integration/validation using Verilog/VHDL/C-level hardware description languages.

Prerequisite(s): CMPE 200 or instructor consent.

Grading: Letter Graded

CMPE 265 - High Speed Digital System Design

3 unit(s)

Introduction to high speed interface design techniques and analyzing high speed circuits utilizing latest modeling and simulation tools to provide necessary knowledge for the printed circuit board layout.

Prerequisite(s): CMPE 200 or instructor consent.

Grading: Letter Graded

CMPE 266 - Big Data Engineering and Analytics

3 unit(s)

New big data related technologies, architecture, tool, algorithms and analytics to manage and extract values and hidden knowledge from data whose scale, diversity, speed and complexity are big.

Prerequisite(s): CMPE 272 or Instructor Consent

Grading: Letter Graded

CMPE 270 - Information Engineering

3 unit(s)

Technologies, strategies and systems for planning, analyzing, designing and implementing data resources in order to ensure and continuously improve processes in the enterprise; object-oriented development, Computer-Aided Software/Systems Engineering (CASE); information superhighway, client/server computing and distributed database management systems.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): CMPE 30 or instructor consent. Allowed Declared Majors: Any Engineering.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Cross-listed with ISE 270. Industrial and Systems Engineering is responsible for scheduling.

CMPE 272 - Enterprise Software Platforms

3 unit(s)

Enterprise software, system and virtualized platforms. OSs, NOS, security, databases (OLTP, big data, analytics), transactions, groupware, components, web services, web, systems management, and app development. Standards and emerging technologies.

Prerequisite(s): Artificial Intelligence or Computer Engineering or Software Engineering majors or instructor consent.

Grading: Letter Graded

CMPE 273 - Enterprise Distributed Systems

3 unit(s)

Introduction to application protocols for large scale distributed systems including object request brokers, asynchronous messaging, and Web services. Lab is based on using protocols to build distributed systems.

Prerequisite(s): Java programming or instructor consent. Artificial Intelligence or Computer Engineering or Software Engineering majors only.

Corequisite(s): CMPE 272

Grading: Letter Graded

CMPE 274 - Business Intelligence Technologies

3 unit(s)

This course covers technologies that are key to delivering business intelligence to an enterprise. The goal of business intelligence is to analyze and mine business data to understand and improve business performance by transforming business data into information into knowledge.

Prerequisite(s): CMPE 272 or instructor consent. Computer Engineering and Software Engineering majors only.

Grading: Letter Graded

CMPE 275 - Enterprise Application Development

3 unit(s)

Distributed component design, scalability, messaging, and integration practices for modern and emerging architectures and technologies.

Prerequisite(s): CMPE 273 or instructor consent. Computer Engineering and Software Engineering majors only.

Grading: Letter Graded

CMPE 277 - Smartphone Application Development

3 unit(s)

Architectures, technologies, and programming concepts for developing smartphone applications. Covers current smartphone/tablet OSs, application development, and deployment environments.

Prerequisite(s): Classified graduate standing or instructor consent. Computer Engineering and Software Engineering majors only.

Grading: Letter Graded

CMPE 279 - Software Security Technologies

3 unit(s)

Fundamental concepts, methods, and tools used to design and implement software security technologies for constructing trustworthy centralized, distributed, or enterprise-wide software systems.

Corequisite(s): CMPE 272 or CMPE 220 or instructor consent.

Grading: Letter Graded

CMPE 280 - Web UI Design and Development

3 unit(s)

Web User-interface (UI) design and development with contemporary web standards. Understand interaction and interface design principles and processes for rich web applications, mobile web, web graphics, web design fundamentals, tools, interaction using client side scripting and server side frameworks.

Prerequisite(s): Classified graduate standing or instructor consent. Computer Engineering and Software Engineering majors only.

Grading: Letter Graded

CMPE 281 - Cloud Technologies

3 unit(s)

Cloud computing concepts, evolution, architectures, infrastructures, opportunities, risks, enterprise adoption strategies, standards and policies, Software-as-a-Service (SaaS), Platform-as-a-Service (PaaS), Infrastructure-as-a-Service (IaaS), modern cloud computing technologies and tools, case studies and team projects.

Corequisite(s): CMPE 272 or instructor consent. Computer Engineering and Software Engineering majors only.

Grading: Letter Graded

CMPE 282 - Cloud Services

3 unit(s)

Cloud service architecture and layering, administrative issues, resiliency and security considerations; business development, operations and business support service, case studies and team projects.

Prerequisite(s): CMPE 281 or instructor consent. Computer Engineering and Software Engineering majors only.

Grading: Letter Graded

CMPE 283 - Virtualization Technologies

3 unit(s)

Virtualization concepts, components and infrastructure, hardware and software virtualization, virtualization machine life cycle management, virtualization services, case studies, and team projects.

Corequisite(s): CMPE 272 or instructor consent. Computer Engineering and Software Engineering majors only.

Grading: Letter Graded

CMPE 284 - Storage and Network Virtualization

3 unit(s)

Network and storage technologies, network virtualization and storage virtualization, including virtual local area networks, load balancers, firewalls, virtual private networks, network attached storage and storage area networks, case studies, and team projects.

Prerequisite(s): CMPE 283 or instructor consent. Computer Engineering and Software Engineering majors only.

Grading: Letter Graded

CMPE 285 - Software Engineering Processes

3 unit(s)

Software system development with emerging software engineering processes and technologies; planned and agile development processes, processes of Service-Oriented Architecture; component-based, Web-based, mobile based, event programming, wireless, user interface, and database access technologies.

Corequisite(s): CMPE 202 or CMPE 220 or instructor consent. Computer Engineering and Software Engineering majors only.

Grading: Letter Graded

CMPE 286 - Internet of Things

3 unit(s)

Designed to give an overview of Internet of Things (IoT) as well as associated foundations including model layers, key performance characteristics, key requirements for communication over the Internet, sensing technologies, constrained devices, protocol stacks, and the IoT service platform.

Prerequisite(s): MSSE graduate standing or instructor consent.

Grading: Letter Graded

CMPE 287 - Software Quality Assurance and Testing

3 unit(s)

Software testing concepts, processes, models, criteria, and methods; software unit testing, integration, function validation, system performance measurement, and reliability evaluation; software security testing methods, assurance criteria, and validation tools; software security assurance process, standards, techniques, and case study.

Corequisite(s): CMPE 202 or CMPE 220 or instructor consent. Computer Engineering and Software Engineering majors only.

Grading: Letter Graded

CMPE 292 - International Program Studies

1-9 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing

other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

CMPE 294 - Computer Engineering Seminar

3 unit(s)

Provides graduate students with a background to conduct research, write proposals and present results in oral and written form.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

CMPE 294A - Cyber Security Seminar

3 unit(s)

Provides graduate students with the background and capability to conduct research and write technical reports in the area of cyber security

Prerequisite(s): Instructor consent

Grading: Letter Graded

CMPE 295A - Master Project I

3 unit(s)

Comprehensive plan and preliminary design of a computer/software engineering project; integration of knowledge in technologies, processes and management to support program outcomes.

Lab 9 hours.

Prerequisite(s): Classified status, good standing, completion of at least 15 units of graduation degree credit, completion of two degree core courses and at least one specialization course, and graduate director consent.

Grading: Letter Graded/Incomplete.

CMPE 295B - Master Project II

3 unit(s)

Completion of an in-depth project to achieve the program outcomes and satisfy the cumulating experience; write a detailed project report; make a comprehensive presentation and demonstration.

Lab 9 hours.

Prerequisite(s): CMPE 295A (with a B or better) or CMPE 295W (with a B or better), completion of all degree core courses and two specialization courses from the same specialization, advancement to

candidacy, and graduate director consent.

Grading: Letter Graded/RP.

CMPE 295W - Master's Project

3 unit(s)

In-depth developmental engineering work relating to problems of interest. Project includes proposal formulation, analysis, design, implementation, and testing.

9 hours lab.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Completed degree and specialization core requirements, classified status, in good standing and graduate advisor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

CMPE 297 - Special Topics in Computer/Software Engineering

3 unit(s)

Special topics to augment regularly-scheduled graduate courses. May be taken up to three times in different topic areas.

Course is repeatable for up to 9 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

CMPE 298 - Special Problems

1-6 unit(s)

Advanced individual work in computer engineering.

Prerequisite(s): Instructor consent. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

CMPE 298I - Computer/Software Engineering Internship

1-6 unit(s)

Field work for computer and software engineering graduate students. A report is required at the end of the semester addressing the goals set at the start of the assignment.

Prerequisite(s): Completed 6 units degree core plus six additional degree program units, classified status, in good standing and graduate advisor consent

Grading: Mandatory Credit/No Credit/RP

CMPE 299A - Master Thesis I

3 unit(s)

The first part of a thesis culminating the work for the master's degree in the specialization.

Prerequisite(s): Classified status, good standing, completion of at least 15 units of graduation degree credit, two core courses, and at least one specialization course; and graduate director consent.

Grading: Credit/No Credit/RP.

CMPE 299B - Master Thesis II

3 unit(s)

The second part of a thesis culminating the work for the master's degree in the specialization.

Prerequisite(s): CMPE 299A with a CR grade or CMPE 295W with a B or better, completion of all core courses and two specialization courses, advancement to candidacy, and graduate director consent.

Grading: Credit/No Credit/RP.

Computer Science

CS 22A - Python for Everyone

3 unit(s)

Introduction to Python programming in interesting, relevant, and practical contexts. Programming skills are developed to solve problems in such fields as life sciences, mathematics, and business. Fundamental programming constructs: data structures and algorithms, iterations, and functions. Course is intended for students who have no prior programming experience.

Satisfies B4: Mathematics/Quantitative Reasoning.

Corequisite(s): CS 1022AS is required for Math Enrollment Category M-III and M-IV.

Grading: Letter Graded

CS 22B - Python Programming for Data Analysis

3 unit(s)

Hands-on Python programming skills for data analysis. Skills include finding a solution for a given problem and casting it as an algorithm, translating an algorithm to executable code, and debugging and testing code. Applications focus on computational techniques to understand, analyze, and visualize data.

Prerequisite(s): CS 22A with a grade of C- or better, or consent of the instructor; Allowed Majors: Data Science, Biology (all) or Chemistry (all).

Grading: Letter Graded

CS 25 - The Digital World and Society

3 unit(s)

The secure, effective and ethical use of information technology. The effect of such technology on people and institutions. Technology-related challenges to society and policy. Frameworks for the analysis of information technology with respect to its cultural, historical, environmental, and spatial contexts.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Cross-listed with ENGR 25. General Engineering is responsible for scheduling.

CS 42 - Discrete Mathematics

3 unit(s)

Sets, logic, methods of proof including mathematical induction, functions, relations, elementary combinatorics, probability, Boolean algebras.

Prerequisite(s): Math Enrollment Category M-I or M-II and satisfactory score on the Precalculus Proficiency Assessment; AP Calculus AB score 4 to 5, AP Calculus BC score 4 to 5, or AP Pre-Calculus score 4 to 5 to waive the exam; MATH 19 with a grade of "B" or better to waive the exam; or MATH 18A and MATH 18B, with a grade of "B" or better in each to waive the exam.

Grading: Letter Graded.

Note(s): Students who are repeating MATH 42 and MATH 42X are not eligible for this class and must take MATH 42X.

Cross-listed with MATH 42. Mathematics and Statistics is responsible for scheduling.

CS 42X - Discrete Mathematics

3 unit(s)

Sets, logic, methods of proof including mathematical induction, functions, relations, elementary combinatorics, probability, Boolean algebras.

Prerequisite(s): Math Enrollment Category M-I, M-II, M-III and satisfactory score on the Precalculus Proficiency Assessment; AP Calculus AB score 4 to 5, AP Calculus BC score 4 to 5, or AP Pre-Calculus score 4 to 5 to waive the exam; MATH 19 with a grade of C- or better to waive the exam; or MATH 18A and MATH 18B with a grade of C- or better in each to waive the exam.

Corequisite(s): MATH 42W.

Grading: Letter Graded.

Cross-listed with MATH 42X. Mathematics and Statistics is responsible for scheduling.

CS 46A - Introduction to Programming

4 unit(s)

Introduction to programming for anyone new to the field or who needs a refresher with basic Java programming syntax, object-oriented paradigm, control structures, iteration, etc. Hands-on activities in writing, compiling, executing, and debugging programs for solving real-world problems.

Lecture 3 hours/lab 3 hours.

Prerequisite(s): Math Enrollment Category M-I, M-II, or M-III, or MATH 1 with a grade of C- or better; and a major of Computer Science, Data Science, Computer Science and Linguistics, Mathematics, Statistics, Applied and Computational Math, Software Engineering, Forensic Science: Digital Evidence, or Undeclared; or instructor consent.

Grading: Letter Graded

CS 46AW - Introduction to Programming Workshop

1 unit(s)

Designed to help all students excel in Introduction to Programming. Students work in groups on challenging problems to help them understand programming concepts more deeply and lay the groundwork for success in future courses.

Repeatable for a total of 2 units.

Prerequisite(s): CS 46A (in an object-oriented language) or CS 46AX, or current enrollment in CS 46AX.

Grading: Credit/No Credit.

CS 46AX - Introduction to Programming

4 unit(s)

Introduction to programming for anyone new to the field or who needs a refresher with basic Java programming syntax, object-oriented paradigm, control structures, iteration, etc. Hands-on activities in writing, compiling, executing, and debugging programs for solving real-world problems.

Prerequisite(s): Math Enrollment Category M-I, M-II, or M-III, or MATH 1 with a grade of C- or better; and a major of Computer Science, Data Science, Computer Science and Linguistics, Mathematics, Statistics, Applied and Computational Math, Software Engineering, Forensic Science: Digital Evidence, or Undeclared; or instructor consent.

Corequisite(s): CS 46AW.

Grading: Letter Graded.

CS 46B - Introduction to Data Structures

4 unit(s)

Fundamental data structures including lists, stacks, queues, and trees, with algorithms for inserting, deleting, searching, and sorting information within them efficiently. Additional topics include Big-O analysis, exceptions, hashing, Java collections framework, generics, iterators, interfaces, recursion, and debugging. Weekly hands-on activities.

Lecture 3 hours/lab 3 hours.

Prerequisite(s): CS 46A or CS 46AX (with grade of C- or better). (If CS 46A was not in Java, then CS 46AW also required.) Math Enrollment Category M-I or M-II and satisfactory score on the Precalculus Proficiency Assessment (70 or higher), or MATH 19 with a C- or better, or MATH 18A and MATH 18B with C- or better; Allowed Majors: Computer Science, Data Science, Computer Science and Linguistics, Stats, Applied/Computational Math, Software Engineering or Forensic Science: Digital Evidence.

Grading: Letter Graded

CS 47 - Introduction to Computer Systems

3 unit(s)

Instruction sets, assembly language and assemblers, linkers and loaders, data representation and manipulation, interrupts, pointers, function calls, argument passing, and basic gate-level digital logic design.

Prerequisite(s): CS 42 / MATH 42 or CS 42X / MATH 42X, and CS 46B (with a grade of "C-" or better); Allowed Majors: Computer Science, Data Science, Forensic Science: Digital Evidence.

Grading: Letter Graded.

CS 48 - Applied Algorithms

1 unit(s)

Creating and implementing algorithms to solve problems. Techniques covered include using built-in collection classes, bitwise operators, modulo operator, and input/output classes. Emphasis on using data structures learned in CS 46B. Students write a Java program every week.

Prerequisite(s): CS 46B and one Java course (with grades of C- or better), or instructor consent.

Grading: Letter Graded.

CS 49C - Programming in C

3 unit(s)

Beginning course in the C language.

Prerequisite(s): Previous programming experience and completion of math GE; Allowed Majors: Computer Science, Math, Math ITEP or Forensic Science: Digital Evidence.

Grading: Letter Graded

CS 49J - Programming in Java

3 unit(s)

Introduction to the Java programming language and libraries. Topics include fundamental data types and control structures, object-oriented programming, string processing, input/output, and error handling. Use of Java libraries for mathematics, graphics, collections, and for user interfaces.

Prerequisite(s): CS 46B or equivalent in a language other than Java; Allowed Majors: Computer Science, Data Science, Math, Math ITEP, Stats, Applied/Computational Math, Software Engineering, Forensic Science: Digital Evidence, or Undeclared.

Grading: Letter Graded

CS 50 - Scientific Computing I

2 unit(s)

Computer systems and structured programming, emphasizing solutions of problems in the atmospheric sciences using Python programming. Includes the UNIX operating system, mass data handling and data visualization.

Lecture 1 hour/Lab 3 hours.

Prerequisite(s): MATH 30 or MATH 30X.

Corequisite(s): For METR majors: MATH 31 or MATH 30X, METR 60, PHYS 50. For Climate Science majors: METR 60 and CHEM 1A.

Grading: Letter Graded

Cross-listed with MATH 50 / METR 50. Meteorology and Climate Science is responsible for scheduling.

CS 85A - Practical Computing Topics

1 unit(s)

Computing topics of current interest in industrial practice. Emphasis on effective use and integration of software/hardware. Different topics may be offered at different times in a short-course lecture/lab format.

Different versions of this course may be repeated for credit.

Prerequisite(s): Varies with topic

Grading: Credit/No Credit

CS 85C - Practical Computing Topics

3 unit(s)

Computing topics of current interest in industrial practice. Emphasis on effective use and integration of software/hardware. Different topics may be offered at different times in a short-course lecture/lab format. Different versions of this course may be repeated for credit.

Prerequisite(s): Additional Varies with topic

Pre/Corequisite(s): eligibility for MATH 19

Grading: Letter Graded

CS 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

CS 100W - Technical Writing Workshop

3 unit(s)

Advanced writing through preparation of technical reports and presentations. Improving skills for writing subject-related reports, project proposals and personal resumes through practice and evaluation. Course assignments will be related to issues concerning careers in computer science.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level. Allowed Declared Majors: Computer Science, Data Science, Computer Science and Linguistics, or Mathematics.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

CS 108 - Introduction to Game Studies

3 unit(s)

Introduction to the systems, design, history, and cultural analysis of games with emphasis on critical studies, development, technological literacy, markets and impact on society.

Misc/Activity: 6 hours activity.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded.

Cross-listed with ART 108. Art and Art History is responsible for scheduling.

CS 116A - Introduction to Computer Graphics

3 unit(s)

Vector geometry, geometric transformations and the graphics pipeline. Basic raster graphics algorithms for drawing discrete lines, clipping, visible surface determination and shading. Display of curves and surfaces. Graphics data structures.

Prerequisite(s): Prerequisite(s): MATH 31 or MATH 31X, MATH 39, CS 146 (with a grade of "C-" or better in each) and previous programming experience in C/C++; Allowed Majors: Computer Science, Data Science, Software Engineering or Applied/Computational Math or instructor's consent.

Grading: Letter Graded

Cross-listed with SE 116A. Computer Science is responsible for scheduling.

CS 116B - Computer Graphics Algorithms

3 unit(s)

In-depth discussion of algorithms and techniques used in computer graphics and their implementation. Topics include: animation, fractals, anti-aliasing, fill algorithms, visible surface algorithms, color and shading, ray tracing, radiosity and texture maps. Substantial programming required.

Prerequisite(s): CS 116A (with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

Note(s): Offered only occasionally.

Cross-listed with SE 116B. Computer Science is responsible for scheduling.

CS 122 - Advanced Programming with Python

3 unit(s)

Advanced features of the Python programming language with emphasis on programming practice. Course involves substantial programming projects in Python.

Prerequisite(s): CS 146 (with a grade of "C-" or better) or instructor consent. Computer Science, Data Science, Computer Science and Linguistics, Applied and Computational Math, or Software Engineering majors only.

Grading: Letter Graded

CS 123A - Bioinformatics I

3 unit(s)

Introduction to algorithms, tools, and databases of Bioinformatics. Biological foundations: central dogma; sequence databases; pairwise alignment algorithms and tools; Blast; phylogenetics. Possible additional

topics: protein structure, multiple sequence alignment, next-gen sequencing, epigenetics, CRISPR. Project applying these approaches to real-world problems.

Prerequisite(s): CS 46B or BIOL 31, or instructor consent. Allowed Majors: Computer Science, Data Science, Software Engineering, Biology, Chemistry or MS Bioinformatics.

Grading: Letter Graded

Cross-listed with BIOL 123A / SE 123A. Computer Science is responsible for scheduling.

CS 123B - Bioinformatics II

3 unit(s)

Advanced Bioinformatics algorithms, tools, databases. Biological background; protein structure/function; sequencing technology; sequence identification; transcriptomics; metagenomics; CRISPR. Possible additional topics: functional genomics; protein networks; drug discovery; pathway analysis; immunoinformatics; analysis pipelines; machine learning applications. Project applying advanced approaches to real-world problems.

Prerequisite(s): CS 123A/BIOL 123A/SE 123A; Allowed Majors: Computer Science, Data Science, Software Engineering Biology, Chemistry or MS Bioinformatics.

Grading: Letter Graded

Cross-listed with BIOL 123B / SE 123B. Computer Science is responsible for scheduling.

CS 131 - Processing Big Data - Tools and Techniques

3 unit(s)

In-depth study of essential tools and techniques for processing big data over the UNIX operating system and/or other operating systems. On UNIX, it includes using grep, sed, awk, join, and programming advanced shell scripts for manipulating big data.

Prerequisite(s): CS 46B or BIOL 123B with a grade of C- or better. Allowed Declared Majors: Computer Science BS, Data Science BS, MS Bioinformatics (MS BI).

Grading: Letter Graded

CS 133 - Introduction to Data Visualization

3 unit(s)

Topics in data analysis and visualization. Covers tools and techniques to efficiently analyze and visualize large volumes of data in meaningful ways to help solve complex problems in fields such as life sciences, business, and social sciences.

Prerequisite(s): CS 146 with a grade of C- or better, or [CS 22B and graduate standing]. Computer Science, Data Science, Computer Science and Linguistics, or Software Engineering majors only.

Grading: Letter Graded

CS 134 - Computer Game Design and Programming

3 unit(s)

Architectures and object-oriented patterns for computer game design. Animation, simulation, user interfaces, graphics, and intelligent behaviors. Team projects using an existing game engine framework.

Prerequisite(s): CS 146 and either CS 151 or CMPE 135 (with a grade of "C-" or better in each); Allowed Majors: Computer Science, Applied and Computational Math, Software Engineering; or instructor consent
Grading: Letter Graded

Cross-listed with SE 134. Computer Science is responsible for scheduling.

CS 136 - Introduction to Computer Vision

3 unit(s)

Fundamental and advanced Computer Vision algorithms. Basic image processing techniques (image convolution, and region and edge detection). Complex vision algorithms for contour detection, depth perception, dynamic vision, and object recognition. Core topics (color processing, texture analysis, and visual geometry).

Prerequisite(s): CS 146, MATH 39, and CS 49C or equivalent (with a grade of "C-" or better in each).
Grading: Letter Graded

CS 143C - Numerical Analysis and Scientific Computing

3 unit(s)

Development and comparison of important algorithms for scientific computing in terms of efficiency, accuracy and reliability. Topics include nonlinear equations, interpolation, approximation theory, differentiation, integration, differential equations, numerical stability and error analysis. Substantial assignments using contemporary software packages and professional subprogram libraries.

Prerequisite(s): MATH 32 or MATH 32X, one of CS 22A, MATH 50, CS 46A, CS 49C or CS 49J, one of MATH 33A, MATH 33LA, or MATH 34 (with a grade of "C-" or better in each); or instructor consent.
Grading: Letter Graded

Cross-listed with MATH 143C / METR 143C. Mathematics and Statistics is responsible for scheduling.

CS 143M - Numerical Analysis and Scientific Computing

3 unit(s)

Development and comparison of important algorithms for scientific computing in terms of efficiency, accuracy and reliability. Topics include systems of linear equations-direct and iterative methods, least squares problems, eigenvalues and eigenvectors, numerical stability and error analysis. Substantial assignments using contemporary software packages and professional subprogram libraries.

Prerequisite(s): MATH 39, one of CS 22A, MATH 50, CS 46A or CS 49C (each with a grade of "C-" or better). Or instructor consent.
Grading: Letter Graded

Cross-listed with MATH 143M. Mathematics and Statistics is responsible for scheduling.

CS 144 - Advanced C++ Programming

3 unit(s)

Advanced features of C++, including operator overloading, memory management, templates, exceptions, multiple inheritance, RTTI, namespaces, tools.

Prerequisite(s): CS 46B and CS 49C (with a grade of C- or better in each), or equivalent knowledge of object-oriented programming and C, or instructor consent; Allowed Major: Computer Science only.

Grading: Letter Graded

CS 146 - Data Structures and Algorithms

3 unit(s)

Implementations of advanced tree structures, priority queues, heaps, directed and undirected graphs. Advanced searching and sorting techniques (radix sort, heapsort, mergesort, and quicksort). Design and analysis of data structures and algorithms. Divide-and-conquer, greedy, and dynamic programming algorithm design techniques.

Prerequisite(s): MATH 30, MATH 42, CS 46B, and [(CS 48 or CS 49J) if CS 46B was not in Java], each with a grade of C- or better; Computer Science, Applied and Computational Math, Forensic Science: Digital Evidence, Software Engineering, Data Science, Computer Science and Linguistics majors only; or instructor consent.

Grading: Letter Graded

CS 147 - Computer Architecture

3 unit(s)

Introduction to the basic concepts of computer hardware structure and design, including processors and arithmetic logic units, pipelining, and memory hierarchy.

Prerequisite(s): CS 47 or CMPE 102 (with a grade of "C-" or better), Computer Science or Forensic Science: Digital Evidence majors only.

Grading: Letter Graded.

CS 148 - Applied Algorithms II

1 unit(s)

Applying basic data structures to implement programs to solve problems. Emphasis on using the data structures and algorithms learned in CS 146. Students will be expected to write a Java program every week.

Prerequisite(s): CS 146.

Grading: Letter Graded.

CS 149 - Operating Systems

3 unit(s)

Fundamentals: Contiguous and non-contiguous memory management; processor scheduling and interrupts; concurrent, mutually exclusive, synchronized and deadlocked processes; parallel computing; files. Substantial programming project required.

Prerequisite(s): CS 47 or CMPE 102 (with a grade of "C-" or better), and CS 146 (with a grade of "C-" or better). Allowed Declared Majors: Computer Science, Applied and Computational Math, Forensic Science: Digital Evidence, or Software Engineering Majors only; or Instructor Consent.

Grading: Letter Graded

CS 151 - Object-Oriented Design

3 unit(s)

Design of classes and interfaces. Object-oriented design methodologies and notations. Design patterns. Generics and reflection. Exception handling. Concurrent programming. Graphical user interface programming. Software engineering concepts and tools. Required team-based programming assignment.

Prerequisite(s): MATH 42, CS 46B, and [(CS 48 or CS 49J) if CS 46B was not in Java], each with a grade of C- or better; Allowed Declared Majors: Computer Science, Applied and Computational Math, Software Engineering, or Data Science; or instructor consent.

Grading: Letter Graded

CS 152 - Programming Paradigms

3 unit(s)

Programming language syntax and semantics. Data types and type checking. Scope, bindings, and environments. Functional and logic programming paradigms, and comparison to other paradigms. Extensive coverage of a functional language.

Prerequisite(s): CS 151 or CMPE 135 (with a grade of "C-" or better); Computer Science or Software Engineering Majors only.

Grading: Letter Graded.

Cross-listed with SE 152. Computer Science is responsible for scheduling.

CS 153 - Concepts of Compiler Design

3 unit(s)

Theoretical aspects of compiler design, including parsing context free languages, lexical analysis, translation specification and machine-independent code generation. Programming projects to demonstrate design topics.

Prerequisite(s): CS 47 or CMPE 102, CS 146, and CS 154 (with a grade of "C-" or better in each); Allowed Major: Computer Science only; or instructor consent.

Grading: Letter Graded

Cross-listed with SE 153. Computer Science is responsible for scheduling.

CS 154 - Formal Languages and Computability

3 unit(s)

Finite automata, context-free languages, Turing machines, computability.

Prerequisite(s): MATH 42 or MATH 42X and CS 46B (with a grade of "C-" or better in each); Allowed Majors: Computer Science, Computer Science and Linguistics, or Software Engineering.

Grading: Letter Graded.

Cross-listed with SE 154. Computer Science is responsible for scheduling.

CS 155 - Introduction to the Design and Analysis of Algorithms

3 unit(s)

Algorithm design techniques: dynamic programming, greedy algorithms, Euclidean and extended Euclidean

algorithms, Discrete and Fast Fourier transforms. Analysis of algorithms, intractable problems and NP-completeness. Additional topics selected from: selection algorithms and adversary arguments, approximation algorithms, parallel algorithms, and randomized algorithms.

Prerequisite(s): CS 146 (with a grade of "C-" or better); Allowed Majors: Computer Science, Data Science, Computer Science and Linguistics, Applied and Computational Mathematics or Software Engineering; or instructor consent.

Grading: Letter Graded

CS 156 - Introduction to Artificial Intelligence

3 unit(s)

Basic concepts and techniques of artificial intelligence: problem solving, search, deduction, intelligent agents, knowledge representation. Topics chosen from logic programming, game playing, planning, machine learning, natural language, neural nets, robotics.

Prerequisite(s): CS 146 (with a grade of "C-" or better); Allowed Majors: Computer Science, Data Science, Computer Science and Linguistics, Applied and Computational Mathematics or Software Engineering; or instructor consent.

Grading: Letter Graded

Cross-listed with SE 156. Computer Science is responsible for scheduling.

CS 157A - Introduction to Database Management Systems

3 unit(s)

Relational data model. Relational algebra. Standard SQL. Design theory. Conceptual data modeling. Integrity constraints and triggers. Views and indexes. Transactions. Distributed data management. Interactive and programmatic interfaces to database systems. Application programming project using a prominent database system.

Prerequisite(s): CS 146 (with a grade of "C-" or better); Computer Science, Applied and Computational Math, Forensic Science: Digital Evidence, Software Engineering, Data Science, or Computer Science and Linguistics majors only; or instructor consent.

Grading: Letter Graded

CS 157B - Database Management Systems II

3 unit(s)

Survey course. Object-oriented data model, definition language, query language. Object relational database systems. Database trends like active, temporal, multimedia, deductive databases. Web database topics, namely, architectures, introduction to interface languages. Team projects.

Prerequisite(s): CS 157A (with a grade of "C-" or better); Computer Science, Applied and Computational Math, Forensic Science: Digital Evidence, or Software Engineering Majors only; or instructor consent.

Grading: Letter Graded

Cross-listed with SE 157B. Computer Science is responsible for scheduling.

CS 157C - NoSQL Database Systems

3 unit(s)

NoSQL Data Models: Key-Value, Wide Column, Document, and Graph Stores. CAP Theorem. Distribution Models. Current NoSQL Databases: Configuration and Deployment, CRUD operations, Indexing, Replication, and Sharding. Public Data Sets. API Coding and Application Development. NoSQL in the Cloud. Team Project.

Prerequisite(s): CS 157A with a "C- or better". Computer Science or Software Engineering majors only.

Grading: Letter Graded

CS 158A - Computer Networks

3 unit(s)

Introduction to computer networks, including network layered architectures, local and wide area networks, mobile wireless networks, Internet TCP/IP protocol suite, network resource management, network programming, network performance, network security, network applications.

Prerequisite(s): CS 146 and CS 47 (with grades of "C-" or better); Computer Science or Software Engineering majors only, or instructor consent.

Grading: Letter Graded

CS 158B - Computer Network Management

3 unit(s)

Principles and technologies of network management: reference models, functions (fault, configuration, performance, security and accounting management), management information, communication protocols, integration, and assessment. Network security and cyber defense: cryptography, key distribution, authentication protocols, network attacks, access control, and example systems.

Prerequisite(s): CS 158A or CMPE 148 (with a grade of "C-" or better); Allowed Majors: Computer Science, Software Engineering or Forensic Science: Digital Evidence; or instructor consent

Grading: Letter Graded

Cross-listed with SE 158B. Computer Science is responsible for scheduling.

CS 159 - Introduction to Parallel Processing

3 unit(s)

Major parallel architectures: shared memory, distributed memory, SIMD, MIMD. Parallel algorithms: techniques for scientific applications, measures of performance. Parallel programming: principles and implementations in various languages. Assignments on available parallel and vector computers.

Prerequisite(s): CS 146 (with a grade of "C-" or better); Computer Science, Applied and Computational Math, or Software Engineering Majors only; or instructor consent.

Grading: Letter Graded

CS 160 - Software Engineering

3 unit(s)

Software engineering principles, software process and process models, requirements elicitation and analysis, design, configuration management, quality control, project planning, social and ethical issues. Required team-based software development, including written requirements specification and design

documentation, oral presentation, and tool use.

Prerequisite(s): CS 146, CS 151 (with a grade of "C-" or better in each); CS 100W (with a grade of "C" or better) or instructor consent. Computer Science majors only.

Grading: Letter Graded

CS 161 - Software Project

3 unit(s)

A substantial project based on material from an advanced area of computer science. Includes lectures on the project topic and the design and testing of software systems. At least 50% of the course grade to be based on the project.

Prerequisite(s): CS 160 (with a grade of "C-" or better) or instructor consent. Computer Science and Software Engineering Majors only.

Grading: Letter Graded

CS 163 - Data Science Senior Project

3 unit(s)

Semester-long individual or team project. Apply knowledge and technology to solve a realistic data science problem, including the entire process of collecting and processing real-world data, applying suitable analytic methods, explaining analysis outcomes, and making appropriate recommendations.

Prerequisite(s): CS 100W, CS 131, and either CS 156 or CS 171.

Grading: Letter Graded

CS 166 - Information Security

3 unit(s)

Fundamental security topics including cryptography, authentication, access control, network security, security protocols, and software security. Networking basics are covered. Additional security topics selected from multilevel security, biometrics, blockchain, machine learning, information warfare, e-commerce, intrusion detection, system evaluation and assurance.

Prerequisite(s): CS 146 (with a grade of "C-" or better) and either CS 47 or CMPE 102 or CMPE 120 (with a grade of "C-" or better); Computer Science, Data Science, Computer Science and Linguistics, Applied and Computational Math, Forensic Science: Digital Evidence, or Software Engineering Majors only; or instructor consent.

Grading: Letter Graded

CS 168 - Blockchain and Cryptocurrencies

3 unit(s)

Cryptocurrencies and the blockchain. Centralized clearinghouse solutions vs. distributed consensus solutions. The blockchain and its validation approaches: proof-of-work, proof-of-stake, proof-of-storage, etc. Cryptocurrency wallets. Smart contracts.

Prerequisite(s): CS 166 (with a grade of C- or better). Computer Science or Software Engineering majors only, or instructor consent.

Grading: Letter Graded

CS 171 - Introduction to Machine Learning

3 unit(s)

Covers a selection of classic machine learning techniques including backpropagation and several currently popular neural networking and deep learning architectures. Hands-on lab exercises are a significant part of the course. A major project is required.

Prerequisite(s): CS 146 (with a grade of C- or better). Computer Science, Data Science, Computer Science and Linguistics, or Software Engineering majors only.

Grading: Letter Graded

CS 174 - Server-side Web Programming

3 unit(s)

Development and deployment of multi-tier web-based applications. Introduction to HTML, XML, enterprise design patterns, web services and database access.

Prerequisite(s): CS 46B (with a grade of "C-" or better); Allowed Majors: Computer Science or Software Engineering Majors.

Grading: Letter Graded

Cross-listed with SE 174. Computer Science is responsible for scheduling.

CS 175 - Mobile Device Development

3 unit(s)

Mobile Platform APIs including those for networking, touch, graphics, data, location, and camera. Testing and profiling on devices and emulators/simulators.

Prerequisite(s): CS 47, and knowledge of Java equivalent to that of CS 46A or CS 49J; Allowed Majors: Computer Science or Forensic Science: Digital Evidence.

Grading: Letter Graded

CS 176 - Introduction to Social Network Analysis

3 unit(s)

The Web and social networks are complex networks. We study them by unifying tools from different disciplines: computer science, economics, and social sciences. Topics include graph theory, information networks, search, advertisement, auctions.

Prerequisite(s): CS 146 (with a grade of C-); or instructor consent. Computer Science, Data Science, Computer Science and Linguistics, or Software Engineering majors only, or instructor consent.

Grading: Letter Graded

CS 180 - Individual Studies

1-3 unit(s)

Individual study in a specific field.

Prerequisite(s): Department chair consent. Not available to Open University Students

Grading: Credit/No Credit

CS 180H - Individual Studies for Honors

3 unit(s)

Senior project on advanced topics in computer science as determined by the instructor. Written paper or oral presentation of the project required. Intended for students graduating with departmental honors.

Prerequisite(s): At least junior standing as computer science major. GPA of 3.5 or higher in the major and department chair consent.

Grading: Credit/No Credit

CS 185A - Advanced Practical Computing Topics

1 unit(s)

Computing topics of current interest in industrial practice. Emphasis on effective use and integration of software/hardware. Different topics may be offered at different times in a short-course lecture/lab format and may be repeated for credit.

Prerequisite(s): Varies with topic

Grading: Credit/No Credit

CS 185C - Advanced Practical Computing Topics

3 unit(s)

Computing topics of current interest in industrial practice. Emphasis on effective use and integration of software/hardware. Different topics may be offered at different times in a short-course lecture/lab format and may be repeated for credit.

Prerequisite(s): Varies with topic; Allowed Majors: Computer Science or Data Science.

Grading: Letter Graded

CS 190 - Internship Project

1 unit(s)

Work on an approved semester-long paid project at an industrial site. Meet once per week on campus. Progress reports, oral presentations, final report, and evaluation by project supervisor will be used to demonstrate the acquisition of skills identified as goals prior to the start of the assignment.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): CS 146 (with a grade of "C-" or better) or graduate standing, selection by a company, and instructor consent

Grading: Letter Graded

CS 190I - Internship Project

3 unit(s)

Work on an approved semester-long paid project at an industrial site. Meet once per week on campus. Progress reports, oral presentations, final report, and evaluation by project supervisor will be used to demonstrate the acquisition of skills identified as goals prior to the start of the assignment.

Prerequisite(s): CS 146 (with a grade of "C-" or better) or graduate standing, selection by a company, and

instructor consent.

Grading: Letter Graded

CS 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

CS 200W - Graduate Technical Writing

3 unit(s)

Graduate technical writing workshop to develop advanced communication skills that will meet the professional needs of computer scientists, along with research methodologies and proper documentation for the master's thesis project.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Graduate standing. Allowed Declared Major: Bioinformatics, Computer Science, Data Science, Mathematics, or Statistics. Or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program. This course does NOT satisfy the undergraduate GE Area Z requirement.

CS 216 - Physically Based Modeling for Computer Graphics

3 unit(s)

Course provides a physically based approach to creating realistic images and animation applicable to film, games and other industries. In a project-based approach, students will study the algorithms commonly used for animation and modeling in computer graphics. Course provides a physically based approach to creating realistic images and animation applicable to film, games and other industries. In a project-based approach, students will study the algorithms commonly used for animation and modeling in computer graphics.

Prerequisite(s): CS 116A with a grade of B or better, or its equivalent, or with permission from the instructor.

Grading: Letter Graded.

CS 218 - Topics in Cloud Computing

3 unit(s)

Topics in cloud computing, including distributed system models, virtual machines, virtualization, cloud platform architectures (IaaS, PaaS, SaaS), service-oriented architectures, cloud programming and software environments, peer-to-peer computing, ubiquitous cloud, cloud security and trust management.

Prerequisite(s): CS 149 and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 223 - Advanced Bioinformatics

3 unit(s)

The course investigates algorithms for solving computational problems in bioinformatics, and the life processes underlying those algorithms. Metagenomics, bioinformatic machine learning, single-cell RNA sequencing, variant discovery. Possible additional topics: genome assembly, advanced phylogenetics, long-read sequencing, and structural bioinformatics.

Prerequisite(s): CS 123B / BIOL 123B / SE 123B. Allowed Declared Major: Computer Science, Bioinformatics, Data Science.

Grading: Letter Graded.

CS 224 - Next Generation Sequencing & Genome Assembly

3 unit(s)

Genomic concepts and methods with a focus on Next Generation Sequencing (NGS) are presented. The practice and methods of collecting, analyzing, and assembling DNA and RNA sequences using de novo and reference-based methods along with variant calling are also presented.

Prerequisite(s): BIOL 123B and MATH 162 or CS 156 or CS 171, or instructor consent. Graduate Standing. Allowed Declared Major: Computer Science, Bioinformatics, and Data Science.

Grading: Letter Graded/RP.

CS 225 - Topics in Sequence-based Machine Learning for Bioinformatics

3 unit(s)

A study of recent advances in machine learning methods with applications to solving sequence analysis problems in molecular biology. The methods examined include word embeddings, vector space representations, language models, and deep learning architectures. A substantial course project is required.

Prerequisite(s): BIOL 123B and MATH 162 or CS 156 or CS 171, or instructor consent. Graduate standing. Allowed Declared Major: MS Computer Science, MS Bioinformatics, MS Data Science.

Grading: Letter Graded

CS 235 - User Interface Design

3 unit(s)

Human-computer interaction principles. Direct manipulation, focus plus context, interaction history; interfaces for websites and website collections; usability testing; role of metaphors; case studies; advanced topics include information visualization, interfaces for collaboration, intelligent interfaces, and software agents.

Prerequisite(s): CS 130 or CS 116A, and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 247 - Advanced Computer Architecture

3 unit(s)

Advanced topics in vector architectures, including: pipelined architectures, dataflow computers, VLSI architectures, butterfly connections; bus and memory architectures; cache structures; hardware implementations of algorithms.

Prerequisite(s): CS 147, CS 149, and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 249 - Distributed Computing

3 unit(s)

Current issues in operating systems, including multiprocessor systems and distributed computing, networks, security and performance. Case studies of current operating systems.

Prerequisite(s): CS 149 and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 251 - Obj Oriented Anlyls

3 unit(s)

Introduction to important concepts, activities, and artifacts of the analysis and design phases of object-oriented software development. Use of CASE tools, UML, and pattern catalogs to build requirements models, domain models, design models, and reusable frameworks for a variety of software systems.

Prerequisite(s): CS 160 and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 252 - Advanced Programming Language Principles

3 unit(s)

Language design and paradigms, including concepts underlying functional, logic, object-oriented and parallel paradigms. Theoretical foundations, including lambda calculus, denotational and axiomatic semantics. Proofs of program correctness. Programming projects emphasizing different aspects of language design.

Prerequisite(s): CS 152 and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 253 - Advanced Compiler Design

3 unit(s)

Review of attribute analysis and static semantic evaluation. Runtime environments and code generation. Basic blocks and flow graphs. Register allocation and storage classes. Common subexpression elimination and constant propagation. Loop optimizations. Global data flow analysis. Completion of a code optimization project.

Prerequisite(s): CS 153 and Graduate standing. Allowed Declared Major: Computer Science,

Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 254 - Theory of Computation

3 unit(s)

Models of computation; decidability; complexity measures; hierarchies; P, NP and other complexity classes; intractable problems.

Prerequisite(s): CS 154 and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 255 - Design and Analysis of Algorithms

3 unit(s)

Randomized algorithms. Parallel algorithms. Distributed algorithms. NP-completeness of particular problems. Approximation algorithms.

Prerequisite(s): CS 155 and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 256 - Topics in Artificial Intelligence

3 unit(s)

Introduction to topics in artificial intelligence such as problem solving methods, game playing, understanding natural languages, pattern recognition, computer vision and the general problem of representing knowledge. Students will be expected to use LISP.

Prerequisite(s): CS 156 and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 257 - Database System Principles

3 unit(s)

Design management and performance issues on: file organization and access methods, buffer management and storage management. Query processing and query optimization, transaction management, recovery, and concurrency control techniques. Reliability, protection and integrity techniques. Extensive programming project.

Prerequisite(s): CS 157B and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 258 - Computer Communication Systems

3 unit(s)

Design, analysis and survey of the latest advancements in network and Internet technologies, such as supporting TCP/IP over various network media, software-defined networks, networks supporting cloud

computing, network security, peer-to-peer and overlay networks, and quality of services.

Prerequisite(s): CS 158A and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 259 - Advanced Parallel Processing

3 unit(s)

An advanced hardware architecture and software development class focused on multi-threaded, parallel processing algorithms and techniques. A study of high-performance parallel hardware architectures and parallel programming languages. Applications of parallel and GPU processing, including computer gaming.

Prerequisite(s): Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 262 - Randomized Algorithms and Applications

3 unit(s)

Design and analysis of algorithms which incorporate randomness in their design. Applications will be given in several of the following areas: data structures, pattern matching, cryptography, parallel computing, distributed computing, and interactive proof systems.

Prerequisite(s): CS 154 or CS 155, and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 265 - Cryptography and Computer Security

3 unit(s)

Security mechanisms for protecting information in computer systems and networks. Includes cryptography and its applications to security services in distributed systems, mathematics of cryptography, access control, protection models, security policies, design of secure systems, firewalls, and intrusion detection.

Prerequisite(s): CS 149 and CS 166, or instructor consent. Graduate standing. Allowed Declared Major: Computer Science MS, Bioinformatics MS, and Data Science MS.

Grading: Letter Graded

CS 266 - Topics in Information Security

3 unit(s)

Advanced topics in the area of information security. Content differs with each offering. Possible topics include, but are not restricted to: Network Security, Software Reverse Engineering and Cryptanalysis.

Prerequisite(s): CS 166 and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 267 - Topics in Database Systems

3 unit(s)

Advanced topics in the area of database and information systems. Content differs in each offering. Possible topics include though not restricted to: Data Mining, Distributed Databases and Transaction Processing.

Prerequisite(s): CS 157B and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 268 - Topics in Wireless Mobile Networking

3 unit(s)

Advanced topics in the area of wireless mobile networking. Content may differ in each offering. Possible topics include though not restricted to: wireless local and metropolitan area networks, mobile Internet, sensor networks, mobile computing, wireless network security. Repeatable when topic changes.

Prerequisite(s): CS 158A and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 271 - Topics in Machine Learning

3 unit(s)

Variable topics in machine learning. Content may include hidden Markov models, principal component analysis, support vector machines, clustering, boosting, random forests, neural networks, and deep learning. Relevant applications will be covered.

Prerequisite(s): CS 157A. Graduate standing. Allowed Declared Major: MS in Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 272 - Reinforcement Learning and Sequential Decision Making

3 unit(s)

Introduction to reinforcement learning, deep reinforcement learning, other online learning algorithms, and their applications.

Prerequisite(s): CS 157A. Allowed Declared Major: MS in Computer Science, Bioinformatics, Data Science.

Grading: Letter Graded

CS 273 - Topics in Natural Language Processing

3 unit(s)

Variable topics in Natural Language Processing. Content may include regression/classification model evaluation, text processing, spell correction, language models, sentiment classification, keyword search, and other NLP-based systems.

Prerequisite(s): Graduate standing. CS 156 or CS 171 or instructor consent.

Grading: Letter graded.

CS 274 - Topics in Web Intelligence

3 unit(s)

Topics in web intelligence including finding similar items, mining data streams, link analysis, frequent itemsets, advertising on the web, recommender systems, and mining social-network graphs. Relevant applications will be covered. Significant programming project is required.

Prerequisite(s): CS 157A and Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 276 - Machine Learning on Graphs

3 unit(s)

Graphs are a powerful way to model networks. Networks contain a plethora of valuable information about the underlying data of various scientific fields. Introduction to various network analysis and machine learning techniques to extract, analyze and visualize networks.

Prerequisite(s): CS 146

Grading: Letter graded.

CS 280 - Graduate Individual Studies

1-3 unit(s)

Individual study in specific field.

Prerequisite(s): Department chair consent. Not available to Open University Students

Grading: Credit/No Credit

CS 286 - Advanced Topics in Computer Science

3 unit(s)

Selected topics in computer science. Topics vary each semester and may be repeated for a maximum of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Suitable upper division background in mathematics and computer science as set by instructor. Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Letter Graded

CS 297 - Preparation for Writing Project or Thesis

3 unit(s)

Supervised individual research and project work to prepare for a master's writing project or thesis.

Prerequisite(s): Fully classified standing in the MS Computer Science, MS Bioinformatics, or MS Data Science program, department chair consent. Not available to Open University Students.

Grading: Credit/No Credit

CS 298 - Master's Writing Project

3 unit(s)

Prerequisite(s): CS 297 or CS 240, and department chair consent and advancement to candidacy for the MS degree. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

CS 298B - Bioinformatics Master's Project

3 unit(s)

Supervised individual research of an advanced character for the completion of the masters project.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): Fully classified standing in the MS in Bioinformatics program and department chair consent. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

CS 299 - Master's Thesis

3 unit(s)

Prerequisite(s): CS 297 and Department Chair consent and advancement to candidacy for the MS degree. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

CS 1022AS - Support Course for CS 22A

1 unit(s)

Review of relevant background material prior to the corresponding content for CS 22A.

Misc/Lab: Activity 2 hours.

Corequisite(s): Required corequisite for enrollment category M-III and M-IV students in CS 22A.

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

CS 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project beyond minimum required units, for cases in which final deliverables are still in progress.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): RP grade in a preceding thesis or project semester. Graduate standing. Allowed Declared Major: Computer Science, Bioinformatics, Data Science. Or instructor consent.

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Counselor Education

EDCO 4 - Personal, Academic and Career Exploration

3 unit(s)

This course explores the concepts and applications of personal decision-making. Introduction to life-span development concepts through the use of self-assessment instruments and procedures. Orientation to San Jose State University.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

EDCO 4FY - Personal, Academic and Career Exploration

3 unit(s)

This course explores the concepts and applications of personal decision-making. Introduction to life-span development concepts through the use of self-assessment instruments and procedures. Orientation to San Jose State University.

Misc/Lab: 2 hours lecture/ 2 hours Lab

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

EDCO 10 - Adjunct Learning

1-2 unit(s)

Reading/writing/learning skills necessary for comprehension of textbooks and lectures in various disciplines; includes notetaking, exam preparation and library techniques. Not repeatable for graduation credit.

Grading: Credit/No Credit

EDCO 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

EDCO 180 - Individual Studies

1-3 unit(s)

Supervised study in specific fields of counselor education not covered by other courses.

Prerequisite(s): Program director consent.

Grading: Credit/No Credit

EDCO 215 - Introduction to Counseling and Guidance

3 unit(s)

Introduction to counseling and guidance research, theories, concepts, and competencies. Provides an overview of the related professional roles and settings.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

EDCO 218 - Counseling Process & Techniques

3 unit(s)

Foundational course in individual and small group counseling process, skills, and techniques. Examines the characteristics of an effective counselor, the role of the counselor in the counseling process, and fundamental counseling microskills and techniques.

Grading: Letter Graded

EDCO 221 - Research in Counselor Education

3 unit(s)

Exploration of research and evaluation in education and counseling. Research procedures, forms of evaluation, and data collection and analysis techniques are examined. Coursework focuses on the conceptualization and development of a research proposal.

Prerequisite(s): EDCO 215

Grading: Letter Graded

EDCO 227 - School-Family-Community Collaboration

3 unit(s)

Exploration of the socio-cultural and psychological dynamics influencing home, school, and community relations. To provide knowledge to collaborate effectively with diverse families, communities, and school personnel to support students' learning, achievement, and psychological well-being.

Grading: Letter Graded

EDCO 232 - Law & Ethics in Counseling

3 unit(s)

Examination of the professional ethical standards guided by the American School Counselor Association (ASCA) and American Counseling Association (ACA) codes of ethics. To explore local, state and federal laws relating to youth and child welfare, adults, and families.

Grading: Letter Graded

EDCO 244 - Cultural Perspectives in Counseling

3 unit(s)

Exploring, identifying, and broadening personal perspectives, with an emphasis on culture and diversity in the context of counseling. Raising awareness regarding multicultural diversity and social justice issues.

Prerequisite(s): EDCO 215, EDCO 218, EDCO 232, EDCO 248

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

EDCO 248 - Dynamics of Behavior and Development

3 unit(s)

Study of the dynamics of individual and group behavior over the lifespan. Specific study of selected personality and development theory and practices.

Grading: Letter Graded

EDCO 266 - Education and Career Planning

3 unit(s)

Study of theory and practice of educational and career planning. Includes sources, uses, evaluation and filing of educational and career information and procedures for working with both individuals and groups.

Grading: Letter Graded

EDCO 267 - Practicum in Lifespan and Career Development

1-3 unit(s)

Practicum in lifespan development and career planning with emphasis on the development of applied skills in career counseling. May be repeated for credit when an alternate focus is shown in the Schedule of Classes.

Prerequisite(s): Core curriculum.

Grading: Letter Graded

EDCO 268 - Lifespan Development

3 unit(s)

Examination of human development across the lifespan, through multiple theoretical and cultural perspectives, with a holistic integration of physical, cognitive, and socio-emotional aspects of development. To deepen knowledge to assist children, adolescents, and adults with life challenges.

Grading: Letter Graded

Cross-listed with GERO 268. Counselor Education is responsible for scheduling.

EDCO 279 - Advanced Group Process Theory and Practice

3 unit(s)

Focus on diverse theoretical approaches in group dynamics, group facilitation/leadership and the group as an instrument of learning within varying institutional settings.

Prerequisite(s): Core curriculum and instructor consent.
Grading: Letter Graded

EDCO 280 - Multicultural Counseling

3 unit(s)

Practical application of multicultural counseling theories and techniques. Examine and understand personal cultural perspectives; develop empathy and understanding of various community cultures.

Prerequisite(s): EDCO 215, EDCO 218, EDCO 232, EDCO 248, EDCO 266 and EDCO 244
Grading: Letter Graded

EDCO 282 - Assessment for Counselors

3 unit(s)

Exploration of the assessment and diagnostic process, including differential diagnosis and use of diagnostic tools including the current edition of the Diagnostic and Statistical Manual. Discuss development of pathology; applicable for use within educational and counseling agency settings.

Prerequisite(s): EDCO 215, EDCO 218, EDCO 232, EDCO 248
Grading: Letter Graded

EDCO 283 - Advanced Educational Assessment

3 unit(s)

Concept and practice in uses of standardized evaluative instruments in school and community. Emphasis on generating curriculum and guidance hypotheses for groups.

Prerequisite(s): Core curriculum.
Grading: Letter Graded

EDCO 285 - Trauma Counseling & Crisis Intervention

3 unit(s)

Advanced seminar addressing cognitive, affective, behavioral, physiological, and interpersonal effects of trauma. To learn to assess and respond to crises as well as brief and long-term counseling interventions for individuals and groups in K-12, higher education, and agency settings.

Prerequisite(s): EDCO 215, EDCO 218, EDCO 232, EDCO 248, EDCO 266, EDCO 282
Grading: Letter Graded

EDCO 286 - Organizational Change and Development

3 unit(s)

Examination of organizational change within educational and community settings. To develop knowledge and increase skills in using institutional change strategies and innovations in various settings. Concepts and skills are applied through the design and planning of a change intervention.

Prerequisite(s): EDCO 215, EDCO 218, EDCO 232, EDCO 248, EDCO 266, and EDCO 282
Grading: Letter Graded

EDCO 287 - Comprehensive School Counseling Analysis

3 unit(s)

Examination of the planning, development, organization, and evaluation of comprehensive K-12 school counseling programs based on national standards. Coursework is designed to increase effective use of data and technology to promote students' academic, career, and personal/social development. Hybrid course format.

Prerequisite(s): EDCO 227

Grading: Letter Graded

EDCO 288 - Seminar in Counseling Theory and Practice

3 unit(s)

Assists students in the clarification of philosophical and psychological theory and develops a consistent individual and group counseling theory in relation to a defined lifestyle and the study of practice in school and agency settings.

Prerequisite(s): Core curriculum in the Counseling and Guidance MA or K-12 School Counseling Credential.

Corequisite(s): EDCO 280.

Grading: Letter Graded

EDCO 289 - Seminar in Professional Counseling

3 unit(s)

A culminating seminar which emphasizes a critical review and critique of theory and research in application of human development specialties. May be repeated for credit when an alternate focus is shown in the Schedule of Classes.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

EDCO 292 - Supervised Experience in Counseling

3-6 unit(s)

Supervised field experience in guidance and counseling. Assignments to public schools or agencies.

Prerequisite(s): Core curriculum.

Grading: Credit/No Credit/Incomplete.

EDCO 293 - Practicum in Child and Substance Abuse

3 unit(s)

A practicum in peer group systems and psychodrama counseling intervention for treatment of addiction, physical and sexual abuse, teen pregnancy and other at-risk groups. Required participation in a peer group counseling process.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

EDCO 294 - Practicum in Self-Development

3 unit(s)

Facilitates training in individual and group counseling methods, including transpersonal journal, psychodrama and peer group techniques.

Grading: Letter Graded

EDCO 298 - Special Studies in Counselor Education

3 unit(s)

Supervised study for master's degree counselor education candidates with a final course product that satisfies the department and university Plan B requirement.

Prerequisite(s): EDCO 215 and EDCO 221

Grading: Mandatory Credit/No Credit/RP

EDCO 299 - Master's Thesis

3 unit(s)

Supervised thesis in the field of counseling and guidance.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): Advanced to candidacy, satisfactory completion of EDCO 221 advisor/designated faculty consent

Grading: Mandatory Credit/No Credit/RP

Creative Arts

CA 60 - Creativity Matters

3 unit(s)

Study why creativity matters to you from imagining possible career paths to improving communication, expressing ideas, and flourishing over the course of one's lifetime. Creativity is not just for artists and inventors! It is a human faculty that matters for life.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

CA 70 - Visual & Media Arts for K-8 Teachers

3 unit(s)

Introductory and interdisciplinary course in the Visual Arts and Media Arts designed for students interested in teaching in K-8 classrooms. Basic techniques and processes a prospective teacher needs in the Visual Arts and Media Arts to instruct students. Students actively engage in the art forms as well as explore standards-based instructional strategies, classroom management strategies, and aesthetic inquiry. Introduction to Arts Education research, advocacy, and community arts resources.

Grading: Letter Graded

CA 75 - Performing Arts for K-8 Teachers

3 unit(s)

Basic dance, theatre, and music techniques and processes a prospective teacher needs to create dance/movement, vocal and instrumental music, creative dramatics and formal theatre with K-8 students. Students actively engage in the three arts disciplines, as well as explore standards-based instructional strategies, classroom management strategies, and aesthetic inquiry. Students are introduced to Performing Arts Education research, advocacy, and community arts resources.

Grading: Letter Graded

CA 95 - Introduction to Queer Arts

3 unit(s)

Exploration of the ways that LGBTQ individuals and groups have used the arts, in various times and places, to make their lives, communities, and selves meaningful and to resist the domination of non-queer cultures.

Satisfies C1: Arts.

Grading: Letter Graded

Sustainability Related - SDG 10: Reduced Inequalities

CA 134 - Religion Film & Media

3 unit(s)

Depictions of religion, religions, religious behavior, and religious propaganda in film and media. Exploring these from several perspectives, (e.g. emic and etic, cross-national, aesthetic) and examining the murky problem of "the truth" in the depiction of religious and spiritual experience.

Prerequisite(s): Upper-division standing or instructor consent.

Grading: Letter Graded

Cross-listed with HUM 134 / RELS 134. Humanities is responsible for scheduling.

CA 139 - Teaching Diversity through Art

3 unit(s)

Strategies for teaching ideas of diversity through art in the preschool through high school classroom. Students deepen their understanding of culture and context and of why the arts matter.

Misc/Activity: 6 hours activity

Prerequisite(s): upper-division standing or instructor consent

Grading: Letter Graded

Cross-listed with ART 139. Art and Art History is responsible for scheduling.

Sustainability Related - SDG 4: Quality Education

CA 148 - Voice & Movement for Performance

3 unit(s)

Explores the expressive, restorative and communicative nature of movement and voice as applied to human performance, the arts, therapy, education and management. Techniques focus on students developing their "natural voice" and exploring elements of physical expression by examining how the body can communicate story. Course content may change each semester and be tailored to be more advanced for those students repeating the course.

Lecture 2 hours/lab 3 hours.

May be repeated 2 times for up to 6 units.

Corequisite(s): TA 48 or upper division standing.

Grading: Letter Graded

Cross-listed with TA 148. Film and Theatre is responsible for scheduling.

CA 150 - Field Experience in the Arts

3 unit(s)

Provides opportunities for those considering teaching, K-12 levels, to interact with outstanding teachers of the arts in the region through structured field experiences in classrooms, reflective writing, community service, and weekly discussion in a seminar setting.

Prerequisite(s): ART 138 or ART 139, upper division standing, or instructor consent.

Grading: Letter Graded

Cross-listed with ARED 150. Art and Art History is responsible for scheduling.

CA 172 - The Arts in U.S. Society

3 unit(s)

Study of American arts and artists in their aesthetic, social, and political contexts, focusing on 20th and 21st centuries. Arts examined may include architecture, poetry, music, visual arts, dance, theatre, performance art, and fiction. Special emphasis on issues of cultural diversity and social justice.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ENGL 172 / MUSC 172 / TA 172. Humanities is responsible for scheduling.

Sustainability Related - SDG 10: Reduced Inequalities

CA 173 - Thinking About Contemporary World Arts

3 unit(s)

An interdisciplinary investigation of the connections between the contemporary arts and global cultures. Use of critical and creative thinking to develop global understanding and to explore personal and cultural identities.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ENGL 173 / MUSC 173 / TA 173. Humanities is responsible for scheduling.

CA 175 - Seminar in Creative Process

3 unit(s)

An exploration of the creative process across the creative domains and of the use of practice-based research in the humanities and creativity studies.

Prerequisite(s): CA 60 or upper division standing

Grading: Letter Graded

CA 176 - Creativity and Creative Leadership

3 unit(s)

Relationships among creativity, the arts, and leadership. Contemporary theories of creativity applied to the study of leadership within education, the arts, and social change through exploration of research, role models, and case studies. Application of relevant theories of creativity and leadership through collaborative projects, participant observation, or critical analysis of theories in practice.

Grading: Letter Graded

CA 177 - Interdisciplinary Arts for Teaching

3 unit(s)

Creativity in teaching and learning—a course designed for prospective teachers; connections between the various arts disciplines, integrating other core subjects taught in California's classrooms.

Grading: Letter Graded

Sustainability Related

CA 178 - Senior Seminar in Creative Arts

3 unit(s)

A capstone seminar in two sections. First, students present and facilitate discussion of a major book or topic in creative arts or, when appropriate, humanities. Second, students devote themselves to senior projects (a written thesis or work in other media).

Prerequisite(s): CA 172 or CA 173.

Grading: Letter Graded

CA 180 - Individual Studies

1-4 unit(s)

Individual work on special topics, by arrangement.

Prerequisite(s): Coordinator approval.

Grading: Credit/No Credit

Note(s): ["Mixed Grading"].

CA 190 - Field Work/Internship

1-3 unit(s)

Pre-professional experience in arts management/program design/implementation in a public setting.

Prerequisite(s): Coordinator approval.

Grading: Credit/No Credit

CA 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Course may be repeated for credit for up to 6 units.

Grading: Mixed Grading

CA 194 - Community Building through Arts Orgs

3 unit(s)

In-depth study of strategies and methods for building community through creative arts organizations, both for-profit and non-profit.

Prerequisite(s): Upper Division Standing

Grading: Letter Graded

Dance

DANC 10 - Dance Appreciation

3 unit(s)

A survey of dance as art in the Western world. The course examines the diversity of people, cultures and events that led to the development of Ballet, Modern, Jazz, Tap and Musical Theatre Dance.

Satisfies C1: Arts.

Grading: Letter Graded

DANC 12 - Ensemble Dance Rehearsal and Performance

2 unit(s)

ENS: Training and performance experience in the field of dance. Fully-staged productions of original professional choreographic works.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

DANC 40A - Topics in Modern Dance I

2 unit(s)

Training experience in the field of beginning modern dance with varied topics. Can be repeated when topic changes.

Misc/Lab: Activity 4 hours.

Satisfies PE: Physical Education.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

Cross-listed with KIN 40A. Film and Theatre is responsible for scheduling.

DANC 41A - Topics in Ballet I

2 unit(s)

Training experience in the field of beginning ballet dance with varied topics. Can be repeated when topic changes.

Misc/Lab: Activity 4 hours.

Satisfies PE: Physical Education.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

Cross-listed with KIN 41A. Film and Theatre is responsible for scheduling.

DANC 42A - Topics in Jazz Dance I

2 unit(s)

Training experience in the field of beginning Jazz dance with varied topics. Can be repeated when topic changes.

Misc/Lab: Activity 4 hours.

Satisfies PE: Physical Education.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

Cross-listed with KIN 42A. Film and Theatre is responsible for scheduling.

DANC 43 - Dance Improvisation

1 unit(s)

Introduction to dance improvisation, developing skills in creativity in preparation for DANC 145A.

Prerequisite(s): Intermediate technique standing and permission of instructor.

Grading: Letter Graded

DANC 45A - Beginning Lindy Hop and Night Club Swing

1 unit(s)

This course is focused on the development of fundamental Swing dance skills and knowledge. Steps, technique, and styling will be drawn from Lindy Hop, Jitterbug, Street Swing, Jive and Triple-Time Swing dances.

Satisfies PE: Physical Education.

Grading: Letter Graded

Cross-listed with KIN 45A. Kinesiology is responsible for scheduling.

DANC 46A - Beginning Social Dance

1 unit(s)

This course is focused on the development of fundamental social dance skills and knowledge. Dances will be selected from the American Smooth (e.g. Waltz, Tango), American Rhythm (e.g. Rumba, Cha Cha) and night club (e.g. Hustle, West Coast Swing) dance categories.

Satisfies PE: Physical Education.

Grading: Letter Graded

Cross-listed with KIN 46A. Kinesiology is responsible for scheduling.

DANC 48A - Beginning Latin Dance

1 unit(s)

This course is focused on the development of fundamental Latin dance skills and knowledge. Dances will be selected from the International Latin, American Rhythm (e.g. Rumba, Cha Cha) and night club (e.g. Salsa) dance categories.

Satisfies PE: Physical Education.

Grading: Letter Graded

Cross-listed with KIN 48A. Kinesiology is responsible for scheduling.

DANC 49A - Topics in Tap Dance I

1 unit(s)

Training and experience in the field of beginning tap dance with varied topics. Can be repeated when topic changes.

Misc/Lab: Activity 3 hours.

Satisfies PE: Physical Education

Course may be repeated for credit for up to 2 units.

Grading: Letter Graded.

Cross-listed with KIN 49A. Film and Theatre is responsible for scheduling.

DANC 51A - Dance Production

3 unit(s)

Practical experience in technical aspects of producing a dance concert.

Misc/Lab: Lecture 1 hour/activity 3 hours.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

DANC 51B - Topics in Dance Crewing

0.5 unit(s)

The purpose of this course is to apply practical application of skills in dance production.

Course may be repeated for credit for up to 1 units.

Grading: Credit/No Credit

DANC 53 - World Dance

1 unit(s)

Traditional or theatrical dance forms selected from one or at the most two specific cultures. Classical ballet, modern, jazz, and tap dance are excluded.

Misc/Lab: Activity 3 hours.

Prerequisite(s): Level II technique standing.

Grading: Letter Graded.

DANC 54 - Topics in Dance Technique II

3 unit(s)

Beginning/Intermediate Dance with varied topics.

Satisfies PE: Physical Education

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Audition or Instructor Consent

Grading: Letter Graded

DANC 75 - Rhythm and Dynamics in Dance

1 unit(s)

Basic music theory and the relationship of dance and music.

Misc/Lab: Activity 2 hours.

Grading: Letter Graded

DANC 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Course may be repeated for credit for up to 6 units.

Grading: Mixed Grading

DANC 102 - Dance in World Cultures

3 unit(s)

Survey of dance in selected world cultures; the role of dance in society; consideration of style, historical background and religious/cultural influences. Included are: Caribbean, West African, Mexican, Balkan, European, Asian and American cultures.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

DANC 112 - ENS: Dance Rehearsal and Performance

2 unit(s)

ENS: Training and performance experience in the field of dance. Fully-staged productions of original professional choreographic works of varying styles.

Misc/Lab: Lab hours required.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Audition and instructor consent

Grading: Credit/No Credit

DANC 144A - Dance History and Repertory

3 unit(s)

History of dance and dances from ancient time to the court of King Louis XIV. Selected repertory works.

Misc/Lab: Lecture 2 hours/activity 3 hours.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

DANC 145A - Choreography I

3 unit(s)

Presentation and criticism of solo choreography; introduction to improvisational techniques.

Misc/Lab: Activity 4 hours.

Prerequisite(s): DANC 43 and Audition.

Grading: Letter Graded

DANC 145B - Choreography II

3 unit(s)

Styles; forms; use of improvisation; presentation and criticism of small group dance.

Misc/Lab: Activity 4 hours.

Prerequisite(s): DANC 145A and Audition.

Grading: Letter Graded

DANC 145C - Choreography III

3 unit(s)

Practical application of external style in relationship with art from tribal to contemporary times. Concepts, styles and forms of modern dance in the twentieth century.

Misc/Lab: Activity 4 hours.

Prerequisite(s): DANC 145B and Audition.

Grading: Letter Graded

DANC 147A - Dance Seminar

3 unit(s)

Course geared toward the understanding of a broader perspective of the Art of Dance with emphasis on current trends, development of personal artistic statement and introductory teaching techniques.

Prerequisite(s): Senior standing and completion or concurrent enrollment in DANC 144A and/or DANC 144B .

Grading: Letter Graded

DANC 148 - Children's Dance

3 unit(s)

Study of dance for children as personal expression through movement. Use of creative dance as a tool for the enrichment of learning. Experiencing dance in a variety of cultures.

Misc/Lab: Lecture 2 hours/activity 2 hours.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with HUM 148. Film and Theatre is responsible for scheduling.

DANC 150A - Kinesiology I

3 unit(s)

This course is designed to help provide the dancer with essential information about structure and function of the human body and the achievement of optimal performance through the science of human motion.

Misc/Lab: Lecture 2 hours/lab 2 hours.

Grading: Letter Graded

DANC 150B - Kinesiology II

3 unit(s)

This course is designed to help provide the dancer with essential information about injury prevention and introduce active somatic techniques to increase muscular efficiency, balance and overall awareness of the body.

Misc/Lab: Lecture 2 hours/activity 2 hours.

Prerequisite(s): DANC 150A.

Grading: Letter Graded

DANC 151 - Introduction to Dance Pedagogy

2 unit(s)

Examines methods and modes of teaching dance as an art form, and embodied practice for producing and constructing knowledge and as movement research. Course investigates both theory and practice with concentrated focus on experiential, relational and holistic learning modes.

Misc/Lab: 1 hour lecture/ 2 hours activity

Prerequisite(s): DANC 54 and instructor approval
Grading: Letter Graded

DANC 154A - Topics in Dance Technique III

3 unit(s)
Intermediate/advanced dance with varied topics.

Satisfies PE: Physical Education

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Two semesters of DANC 54 or by Audition.
Grading: Letter Graded

DANC 154B - Topics in Dance Technique IV

3 unit(s)
Advanced Dance with varied topics.

Satisfies PE: Physical Education

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Two semesters of DANC 154A or by Audition.
Grading: Letter Graded

DANC 192 - International Program Studies

1-12 unit(s)
Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

DANC 194 - Dance Repertory Activity

1 unit(s)
Training and performance experience in the field of dance. Fully-staged productions of original student choreographic works. Can be repeated up to 12 times when repertory changes.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): DANC 51A or instructor consent.
Grading: Mandatory Credit/No Credit/RP

DANC 198 - Internship in Dance

1-3 unit(s)

Supervised internship with approved dance organization. Written evaluation submitted by organizations and student after field work.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit

Data Analytics

DATA 200 - Computational Programming for Data Analytics

3 unit(s)

Computational thinking and problem solving; data structures, algorithms, iterations, functions, and other core concepts; standard libraries; functional programming and object-oriented programming; applications to data processing, data analytics, data visualization, and database manipulation.

Prerequisite(s): Admission into MS in Data Analytics and graduate advisor consent.

Grading: Credit/No Credit.

DATA 201 - Database Technologies for Data Analytics

3 unit(s)

File organization and storage structure, database system architecture, entity relationship model, normalization techniques, SQL, relational algebra, storage organization, query processing, and concurrent control.

Prerequisite(s): Admission into MS in Data Analytics and graduate advisor consent.

Grading: Credit/No Credit.

DATA 202 - Mathematics for Applied Data Science

3 unit(s)

Mathematical and statistical methods for applied data science; selected topics from probability, descriptive statistics, linear algebra, and calculus principles; programming for numerical implementation of mathematical and statistical methods.

Prerequisite(s): Admission into MS in Data Analytics and graduate advisor consent.

Grading: Credit/No Credit.

DATA 220 - Mathematical Methods for Data Analytics

3 unit(s)

Advanced Mathematical and statistical methods for data analytics, machine learning, and time series analysis; selected topics from probability, statistics, linear algebra, and mathematical optimization; programming for numerical implementation of mathematical and statistical algorithms.

Prerequisite(s): Admission into MS in Data Analytics and graduate advisor consent.

Grading: Letter Graded.

DATA 225 - Database Systems for Analytics

3 unit(s)

Design operational and analytical databases with relational, dimensional, and NoSQL data models; deploy data analytics applications with SQL programming and data access APIs; perform data cleansing, extract, transform, and load (ETL) operations for data warehouses and online analytical processing (OLAP).

Prerequisite(s): Admission into MS in Data Analytics and graduate advisor consent.

Grading: Letter Graded.

DATA 226 - Data Warehouse and Pipeline

3 unit(s)

Design analytical databases with dimensional and NoSQL data models; deploy data analytics applications with SQL programming; perform data cleansing, extract, transform, and load (ETL) operations for data warehouses; build data pipeline; and perform online analytical processing (OLAP).

Prerequisite(s): Admission into MSDA program and graduate advisor consent.

Grading: Letter graded.

DATA 228 - Big Data Technologies and Applications

3 unit(s)

Leverage emerging big data systems, technologies, and applications to transform data into knowledge through capturing, managing, analyzing, and understanding large data at volumes and rates; design analytical solutions in data warehouse, big data databases, data streaming, security and governance.

Prerequisite(s): DATA 230 (with a C or better grade).

Grading: Letter Graded.

DATA 230 - Business Intelligence and Data Visualization

3 unit(s)

Learn data visualization as an analytical tool and interactive dashboards; apply theories and design principles in the development of business intelligence and visualizations; and create data dashboards using BI tools, software packages, and environments.

Prerequisite(s): Admission into MS in Data Analytics and graduate advisor consent.

Grading: Letter Graded.

DATA 236 - Distributed Systems for Data Engineering

3 unit(s)

Learn big data distributed systems, large scale distributed systems framework, distributed messaging framework, distributed system building with cloud technologies, and REST (Representational State Transfer) service development and deployment.

Prerequisite(s): DATA 226 (with a C or better grade).

Grading: Letter graded.

DATA 240 - Data Mining and Analytics

3 unit(s)

Learn concepts, tools, and algorithms for data mining, statistical modeling, implementation techniques, and applications of data mining with a focus on data mining functions: pattern discovery, cluster analysis, exploratory data analysis, and anomaly detection with real-world examples.

Prerequisite(s): DATA 225 (with a C or better grade).

Grading: Letter Graded

DATA 245 - Machine Learning Technologies

3 unit(s)

Learn concepts, techniques and algorithms in machine learning for the development of real-world applications; build, evaluate and refine machine learning models to predict patterns from trained data sets; apply supervised and unsupervised learning methodologies in solving classification and regression problems.

Prerequisite(s): DATA 220 (with a "C" or better grade).

Grading: Letter Graded.

Note(s): This course satisfies graduate-level GWAR in this master's program. This course does NOT satisfy the undergraduate Writing in the Disciplines (WID) requirement.

DATA 250 - Large Scale Data Analytics

3 unit(s)

Learn and apply data analytics technologies and processes to large amount of data in various application domains; technologies include big data analytics algorithms, process and solutions, technology platforms, and data repositories; processes include validation, cleaning, preprocessing, and visualization.

Prerequisite(s): DATA 245 (with a "C" or better grade).

Grading: Letter Graded.

DATA 255 - Deep Learning Technologies

3 unit(s)

Study deep learning theory, techniques and technologies; implement neural networks using deep learning frameworks to solve problems in various application domains; build convolutional networks for image recognition, recurrent networks for sequence generation, and generative adversarial networks for image generation.

Prerequisite(s): DATA 228 and DATA 245 (with a "C" or better grade).

Corequisite(s): DATA 265 or DATA 266.

Grading: Letter Graded.

DATA 260 - Applied Intelligent Systems

3 unit(s)

Apply modern computational intelligent techniques, methodologies, tools and environments to develop integrated systems for solving practical problems; incorporate development processes, architectures, smart components, models and algorithms in building intelligent systems; perform integration, operations, management and evaluation tasks of intelligent systems.

Prerequisite(s): DATA 245 (with a "C" or better grade).

Grading: Letter Graded.

DATA 265 - Large Language Model Applications

3 unit(s)

Learn fundamentals of language models, application of large language models, entity recognition, including the use of prompt engineering, LangChain, advanced features of ChatGPT, and fine tuning of Large Language models and their applications.

Prerequisite(s): DATA 240 (with a C or better grade) and DATA 245 (with a C or better grade).

Corequisite(s): DATA 255.

Grading: Letter graded.

DATA 266 - Generative Model Applications

3 unit(s)

Learn application of generative models, including auto encoders, generative adversarial network, latent and stable diffusion, large language models, and generative model applications, including the use of prompt engineering and advanced features of ChatGPT.

Prerequisite(s): DATA 236 (with a C or better grade) and DATA 245 (with a C or better grade).

Corequisite(s): DATA 255.

Grading: Letter graded.

DATA 270 - Data Analytics Processes

3 unit(s)

Data analytics processes to complete project lifecycle; project scope, requirements and management; data planning and exploration; model selection, development and presentation; results evaluation and visualization; planning and analyzing processes of data analytics projects through case studies of various domains.

Prerequisite(s): DATA 225 or DATA 226 (both with a "C" or better grade).

Grading: Letter Graded.

DATA 292 - Special Topics in Data Analytics

1-3 unit(s)

Special topics in Data Analytics. Content varies from semester to semester. Repeatable in different topic areas.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): Graduate advisor consent.

Grading: Letter Graded.

DATA 294 - Data Analytics Seminar

3 unit(s)

Advanced and domain specific topics in the area of data analytics; content is updated in each offering; possible topics include though not restricted to research design and data analytics for the applications of business, engineering, natural science, social science, etc.

Prerequisite(s): Graduate standing and instructor consent.

Grading: Letter Graded

DATA 295 - Special Problems in Data Analytics

1-3 unit(s)

Advanced individual work in data analytics. Repeatable in different problem areas.

Course is repeatable for credit up to 6 units.

Prerequisite(s): Graduate advisor consent.

Grading: Letter Graded.

DATA 297 - Data Analytics Internship

1 unit(s)

Fieldwork for MS in Data Analytics students. A report is required at the end of the semester addressing the goals set at the start of the assignment.

Prerequisite(s): Completed 12 units degree required courses, classified status, in good standing, and graduate advisor consent

Grading: Credit/No Credit

DATA 298A - MSDA Project I

3 unit(s)

Comprehensive plan and preliminary design of data analytics project; integration of knowledge in technologies, processes and management to support program outcomes.

9 hours lab.

Prerequisite(s): Classified status, good standing, DATA 228 (with a C or better grade), DATA 245 (with a C or better grade), satisfied GVAR, completed 12 units of MSDA courses, and graduate advisor consent.

Grading: Letter Graded/Incomplete.

DATA 298B - MSDA Project II

3 unit(s)

Completion of an in-depth project to achieve the program outcomes and satisfy the culminating experience; write a detailed project report; make a comprehensive presentation and demonstration.

Prerequisite(s): Advancement to candidacy, DATA 298A, and graduate advisor consent.

Grading: Letter Graded/RP.

DATA 299A - MSDA Thesis I

3 unit(s)

First of a two-course sequence for the Plan A (Thesis) culminating experience.

Prerequisite(s): Classified status, good standing, DATA 228 (with a C or better grade), DATA 245 (with a C or better grade), satisfied GVAR, completed 12 units of MSDA courses, and graduate advisor consent.

Grading: Credit/No Credit/Incomplete.

DATA 299B - MSDA Thesis II

3 unit(s)

Second of the two-course sequence for the Plan A (Thesis) culminating experience.

Prerequisite(s): Advancement to candidacy, DATA 299A, and graduate advisor consent.

Grading: Mandatory Credit/No Credit/RP

Design

DSGN 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Satisfies D: Social Sciences.

Grading: Mixed Grading.

DSGN 100W - Writing Workshop: Design

3 unit(s)

Advanced writing course for design majors, based upon philosophical issues and current professional practices in design. Clear analytical and critical writing in examination of these topics.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GVAR).

DSGN 101 - Design Thinking Studio

3 unit(s)

Through iterative design sprints, practicing the design phases of Empathize, Define, Ideate, Prototype, and Test, students learn the fundamentals of human-centered design. Through techniques such as observation, interviewing, empathy mapping, usability testing, and competitive product analysis students develop expertise in keeping individuals' and communities' needs and goals at the center of the design process.

Activity 6 hours.

Grading: Letter Graded.

DSGN 127 - Internship

1-4 unit(s)

Experience in the methods and procedures employed by professional designers in consulting offices and corporate design departments. Professional responsibilities in local design offices on a weekly basis. Course is repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Completion of 3 units of DSIT 104, DSGD 186, or DSID 123, with GPA in major of at least 3.0, or instructor consent.

Grading: Credit/No Credit

DSGN 148 - Introduction to Spatial Visualization Technology in Urban Planning

1-4 unit(s)

Lab-based course in digital visualization for urban spatial representation using industry standard software such as Adobe Photoshop, Adobe Illustrator and Trimble Sketch-Up.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with URBP 148. Urban and Regional Planning is responsible for scheduling.

DSGN 180 - Individual Studies

1-3 unit(s)

Special topics or projects by arrangement with faculty.

Prerequisite(s): Art and design majors with upper division standing.

Grading: Credit/No Credit

DSGN 192 - International Program Studies

1-14 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International

Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Art and Art History is responsible for scheduling.

DSGN 197 - BA Senior Project

3 unit(s)

In-depth study of current issues in the design fields. Utilizes interdisciplinary approaches and concepts to provide a capstone experience for the design studies student.

Activity 6 hours.

Prerequisite(s): DSGD 99 and DSGD 100. Allowed Declared Majors: BA Design Studies, Concentration in Graphic Design.

Grading: Letter Graded

DSGN 200W - Professional Writing in Design

4 unit(s)

Introduction to a variety of advanced writing formats based in professional and academic practices.

Satisfies Graduation Writing Assessment Requirement (GWAR).

Prerequisite(s): Master of Design (M.Des) students only.

Grading: Letter graded.

Note(s): This course satisfies graduate-level GWAR in this master's program.

DSGN 201 - Graduate Seminar in Design

4 unit(s)

Examination of critical theories and their relation to design practice in experience design and animation. Also explores a variety of broad themes and approaches within the field of experience design and animation.

May be repeated for credit for up to 8 units.

Prerequisite(s): Master of Design (M.Des) students only.

Grading: Letter graded.

DSGN 203 - Contextual Studies

4 unit(s)

Students will gain a broad understanding of design and animation, past and present, to inspire and inform projects of their own.

Prerequisite(s): Master of Design (M.Des) students only.

Grading: Letter graded.

DSGN 210 - Graduate Studio: Experience Design

4 unit(s)

Students will engage in various design methodologies and approaches related to experience design as they develop a design project.

May be repeated for credit for up to 8 units.

Prerequisite(s): Master of Design (M.Des) students only.

Grading: Letter graded.

DSGN 211 - Design Research Methodologies

4 unit(s)

Introduces students to the advanced concepts and skills of design research methodologies, with an emphasis placed on how these can be applied to address real-world problems.

Prerequisite(s): Master of Design (M.Des) students only.

Grading: Letter graded.

DSGN 212 - Human Dimensions in Experience Design

4 unit(s)

Study and application of human factors and participatory, or co-design, theory, including the development of an advanced design project that involves user, or stakeholder, participation and addresses a complex problem within the studio setting.

May be repeated for credit for up to 8 units.

Prerequisite(s): Master of Design (M.Des) students only.

Grading: Letter graded.

DSGN 213 - Designing with Data & Emergent Technology

4 unit(s)

Introduction to a variety of approaches to the application of data and emerging technologies within the design process.

Prerequisite(s): Master of Design (M.Des) students only.

Grading: Letter graded.

DSGN 248 - Spatial Visualization Tech in Urb Plan

1-4 unit(s)

Lab-based course in digital visualization for urban spatial representation using industry standard software such as Adobe Photoshop, Adobe Illustrator and Trimble Sketch-Up.

Grading: Letter Graded

Cross-listed with URBP 248. Urban and Regional Planning is responsible for scheduling.

DSGN 280 - Professional Practices

4 unit(s)

Students will engage in one of the following types of pre-approved professional practice and/or mentorship activities: (1) an advanced student-mentor creative project; (2) a professional internship; or (3) a teaching assistantship.

May be repeated for credit for up to 8 units.

Prerequisite(s): Master of Design (M.Des) students only.

Grading: Credit/No Credit.

DSGN 291 - Pre-Proposal

4 unit(s)

Graduate students will develop a proposal for their master's project.

Prerequisite(s): Master of Design (M.Des) students only.

Grading: Letter graded.

DSGN 292 - Proposal

4 unit(s)

Graduate students will develop a final proposal for their project, including a thoughtful project description, a question/problem that the project aims to address, a research itinerary, initial schedule, list of collaborators or consultants, initial bibliography, and a formal presentation.

Prerequisite(s): DSGN 201, DSGN 291. Master of Design (M.Des) students only.

Grading: Letter graded.

DSGN 293 - Special Study

4 unit(s)

Advanced individual research in areas related to the graduate student's Master-level creative project.

May be repeated for credit for up to 16 units.

Prerequisite(s): DSGN 291. Master of Design (M.Des) students only.

Grading: Letter graded.

DSGN 298 - Master's Project

4 unit(s)

Students work with an approved faculty chair and committee to execute, publicly exhibit, and defend the merits of their Master's project.

Prerequisite(s): DSGN 292. Master of Design (M.Des) students only.

Grading: Credit/No Credit/RP.

Early Start Program English

ESE 1001 - Introduction-College Reading and Composition

1-2 unit(s)

This rhetoric-based course introduces students to the demands of college-level expository, analytical, and argumentative reading and writing. Students will study the relationships between authorial purpose, structure, and intended audience; types and use of evidence; the impact of rhetorical strategies; and the social, political, and philosophical assumptions that underlie the text. Students will receive feedback on their writing in every class. Full attendance and participation satisfies the Early Start requirement in English. An end of course analytical essay may be used to improve freshman English placement for SJSU students.

Prerequisite(s): Writing enrollment category W-III or W-IV and Undergraduate Transitory (UGT) program.

Grading: Early Start Program English

Note(s): No Degree Credit

ESE 1003 - Introduction to Analytical Writing

1 unit(s)

Students will submit an analytical essay on an assigned topic, master a rubric for evaluating analytical writing, peer review essays written by classmates, and then reevaluate their own writing. All deadlines must be strictly adhered to. Online course.

Prerequisite(s): Writing enrollment category W-III or W-IV and Undergraduate Transitory (UGT) program.

Grading: Early Start Program English

Note(s): No Degree Credit

Early Start Program Math

ESM 1 - Mathematical Reasoning

3 unit(s)

Focus on foundational mathematical skills and knowledge in the context of contemporary society.

Satisfies B4: Mathematics/Quantitative Reasoning.

Corequisite(s): ESM 1001S required for Math Enrollment Categories M-III and M-IV.

Grading: ABC-/No Credit

Note(s): Early Start students only. Course is equivalent to MATH 1.

ESM 9 - Mathematics and Logic for General Education

3 unit(s)

A survey of basic concepts and methods, focusing on logic, computation, sets, numbers, geometry and probability. Emphasis will be placed on using these concepts in daily life and in coping with public issues.

Satisfies B4: Mathematics/Quantitative Reasoning.

Corequisite(s): ESM 9W required as a corequisite for Math Enrollment Categories M-III and M-IV; and recommended for Enrollment Category M-II.

Grading: ABC-/No Credit

Note(s): Early Start students only. Course is equivalent to PHIL 9.

ESM 9W - Mathematics & Logic for General Education Workshop

1 unit(s)

Companion laboratory-style course for ESM 9; concurrent enrollment in both is required. Focuses on providing extra help and support for students with both concepts and techniques from propositional logic and from first-order logic.

Corequisite(s): ESM 9

Grading: ABC-/No Credit

Note(s): Early Start students only. Equivalent to PHIL 9W.

ESM 10A - Mathematics in Art and Music

3 unit(s)

An accessible look into some beautiful ideas of mathematics in art and music. Topics include plane symmetries, tilings, perspective drawing, musical intervals, scales and temperament, timbre and periodic functions.

Satisfies B4: Mathematics/Quantitative Reasoning.

Corequisite(s): ESM 1010AS required for Math Enrollment Categories III/IV.

Grading: ABC-/No Credit

Note(s): Early Start students only. Course is equivalent to MATH 10A.

ESM 10D - Probability, Data Science, Ethics, and You

3 unit(s)

An accessible introduction to the basic principles of probability and data science with a focus on ethical considerations.

Satisfies B4: Mathematics/Quantitative Reasoning.

Corequisite(s): ESM 1010DS required for Math Enrollment Categories III/IV.

Grading: ABC-/No Credit

Note(s): Early Start students only. Course is equivalent to MATH 10D.

ESM 10P - Mathematics in Politics

3 unit(s)

An accessible look into some beautiful ideas of mathematics in politics. Topics include voting systems, apportionment and gerrymandering.

Satisfies B4: Mathematics/Quantitative Reasoning.

Corequisite(s): ESM 1010PS required for Math Enrollment Categories M-III and M-IV.

Grading: ABC-/No Credit

Note(s): Early Start students only. Course is equivalent to MATH 10P.

ESM 15 - Statway: Statistics-Concepts & Methods

3 unit(s)

Concepts and methods of statistics with an emphasis on data analysis. Topics include methods for collecting data, graphical and numerical descriptive statistics, correlation, simple linear regression, basic concepts of probability, confidence intervals and hypothesis tests for means and proportions, and chi-square tests.

Lecture 1 hour / Activity 4 hours

Satisfies B4: Mathematics/Quantitative Reasoning requirement with completion with a grade of C- or better.

Grading: ABC-/No Credit

Note(s): Early Start students only. Course is equivalent to UNVS 15.

ESM 18A - College Algebra

3 unit(s)

Review of basic algebra. Complex numbers, functions, graphs, polynomials, inverse functions, exponential and logarithmic functions.

Satisfies B4: Mathematics/Quantitative Reasoning.

Corequisite(s): ESM 1018AS

Grading: ABC-/No Credit

Note(s): Early Start students only. Course is equivalent to MATH 18A.

ESM 19 - Precalculus

5 unit(s)

Preparation for calculus: polynomial, rational, exponential, logarithmic and trigonometric functions; analytic geometry.

Lecture 4 hour/Lab 3 hours.

Satisfies B4: Mathematics/Quantitative Reasoning

Prerequisite(s): Math Enrollment Category M-I, M-II, or M-III; or MATH 1 with a grade of C- or better. Early Start students only. Course is equivalent to MATH 19.

Corequisite(s): MATH 1019S required as a corequisite for Enrollment Category M-III, and recommended for Enrollment Category M-II.

Grading: ABC-/No Credit

Note(s): A grade of C- (1.7) or better is required to satisfy GE Area B4.

ESM 26 - Quantitative Reasoning in Linguistic Diversity

3 unit(s)

An introduction to descriptive and inferential statistics, including the visual interpretation and presentation of data about linguistic diversity and related social phenomena like education and immigration. Interpretation of numerical and graphical data to draw inferences about complex social issues.

Satisfies B4: Mathematics/Quantitative Reasoning

Prerequisite(s): Mathematics Enrollment Category M-I or M-II; for Categories III and IV, LING 26W is required as a corequisite, unless a GE Area B4 course was previously completed with a grade of C- or better. Early Start students only. Course is equivalent to LING 26.

Grading: ABC-/No Credit.

Note(s): A grade of C- or better is required to satisfy GE Area B4.

ESM 1001S - Supported Instruction for ESM 1

1 unit(s)

Reviews relevant background material prior to the corresponding content for ESM 1.

Activity 2 hours.

Corequisite(s): Required corequisite for enrollment category M-III and M-IV students in ESM 1.

Grading: Credit/No Credit. No Degree Credit.

Note(s): Credit/No Credit, No Degree Credit. Early Start students only. Course is equivalent to MATH 1001S.

ESM 1010AS - Support Course for ESM 10A

1 unit(s)

Support course that reviews relevant background material prior to the corresponding content for ESM 10A.

Activity 2 hours.

Corequisite(s): Enrollment in Early Start program/plan. Required for ESM 10A students in Math Enrollment Category III/IV.

Grading: Credit/No Credit. No Degree Credit.

Note(s): Credit/No Credit, No Degree Credit. Early Start students only. Course is equivalent to MATH 1010A.

ESM 1010DS - Support Course for ESM 10D

1 unit(s)

Support course that reviews relevant background material prior to the corresponding content for ESM 10D.

Activity 2 hours.

Corequisite(s): Required for ESM 10D students in Math Enrollment Category III/IV.

Grading: Credit/No Credit. No Degree Credit.

Note(s): Credit/No Credit, No Degree Credit. Early Start students only. Course is equivalent to MATH 1010D.

ESM 1010PS - Support Course for ESM 10P

1 unit(s)

Corequisite support course to review relevant background material prior to the corresponding content for ESM 10P.

Activity 2 hours.

Corequisite(s): Required for ESM 10P students in Math Enrollment Categories III/IV.

Grading: Credit/No Credit. No Degree Credit.

Note(s): Credit/No Credit, No Degree Credit. Early Start students only. Course is equivalent to MATH 1010P.

ESM 1018AS - Support Course for ESM 18A

1 unit(s)

Support course that reviews relevant background material prior to the corresponding content for ESM 18A.

Activity 2 hours.

Corequisite(s): Required for Category M-III and Category M-IV students in ESM 18A.

Grading: Credit/No Credit. No Degree Credit.

Note(s): Credit/No credit, No Degree Credit. Early Start students only. Course is equivalent to MATH 1018AS.

Economics

ECON 1A - Principles of Economics: Macroeconomics

3 unit(s)

Determination of economic aggregates such as total output, total employment, the price level and the rate of economic growth.

Grading: Letter Graded

Note(s): May be taken concurrently or prior to ECON 1B. Offered in Fall 2021 as 4 units and Spring 2022 as 3 units.

ECON 1B - Principles of Economics: Microeconomics

3 unit(s)

Allocation of resources and distribution of income as affected by the workings of the price system and by government policies.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Note(s): May be taken concurrently or prior to ECON 1A.

ECON 2A - Principles of Macroeconomics Online Lab

1 unit(s)

Self-paced, online lab guides students through practice and ["Graded"] problem sets of key macroeconomics tools and concepts.

Grading: Credit/No Credit

ECON 2B - Principles of Microeconomics Online Lab

1 unit(s)

Self-paced on line lab guides students through practice and ["Graded"] problem sets of key microeconomics tools and concepts.

Grading: Credit/No Credit

ECON 2C - Statistics Lab

1 unit(s)

This 1 unit, credit/no credit statistics lab is designed for transfer students who have taken a 3 semester-unit elementary statistics course. (SJSU Economics Department requires 4 semester units of introductory statistics. Transfer students who are economics majors and minors must make-up the missing unit.) The lab also is useful for those who have taken an elementary statistics course and are in need of a refresher. Basic statistical concepts and methods that emphasize understanding the principles of data collection and analysis rather than theory. Discussions of how statistics is commonly used in the real world.

Grading: Credit/No Credit

ECON 3 - Economic Statistics

4 unit(s)

Elementary statistical analysis of economic data, probability theory, probability distributions, sampling, sampling distributions, estimation, hypothesis testing, simple linear regression, correlation and index numbers.

Misc/Lab: Lecture 3 hours/lab 2 hours.

Prerequisite(s): ECON 1A, and ECON 1B

Grading: Letter Graded

ECON 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ECON 100W - Writing Workshop: Economic Reports

4 unit(s)

Writing skills appropriate to majors in economics of lucid expression in essays, reports and other types of communication.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): ECON 1A and ECON 1B; A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

ECON 101 - Microeconomic Analysis

4 unit(s)

Consumer behavior determining demands for goods and services. Theory of the firm including theories of production and cost. Theory of distribution to production factors.

Prerequisite(s): ECON 1B and Calculus (MATH 30 or MATH 30X or MATH 71 or MATH 71X).

Grading: Letter Graded

ECON 102 - Macroeconomic Analysis

4 unit(s)

Theory of aggregate demand and related topics: national income accounting, employment and inflation, monetary and fiscal policies, economic stability, growth and balance of payments equilibrium.

Prerequisite(s): ECON 1A.

Grading: Letter Graded

ECON 103 - Intro to Econometrics

4 unit(s)

Use of econometric methods in analyzing economic data. Simple and multiple regression. Problems of autocorrelation multicollinearity and heteroskedasticity.

Misc/Lab: Lecture 3 hours/lab 2 hours

Prerequisite(s): ECON 3 or equivalent.

Grading: Letter Graded

ECON 103A - Introduction to Econometrics and Research Methods

4 unit(s)

Research methods and core econometric techniques for analysis of causal effects, from difference-in-means tests of experimental data through multiple regression analysis of observational data. Topics include selecting an appropriate research question, reviewing the relevant literature, and obtaining data. Core econometric techniques used to analyze data in an original term paper.

Prerequisite(s): Introductory statistics (SOCI 15, STAT 95, UNVS 15, or equivalent).

Grading: Letter Graded

ECON 103B - Econometric Methods

4 unit(s)

Continuation of the econometric techniques and research methods introduced in ECON 103A. Econometric techniques for panel data, instrumental variables, regression discontinuity and difference-in-difference designs, and an introduction to time series topics. Term paper building on research projects completed in ECON 103A required.

Prerequisite(s): ECON 100W and ECON 103A.

Grading: Letter Graded

ECON 104 - Mathematical Methods for Economics

4 unit(s)

Applications of linear algebra and differential calculus to economic analysis. Topics include market equilibrium, properties of production functions, multipliers, optimization methods, comparative statics analysis.

Prerequisite(s): ECON 1A, ECON 1B, and a grade of "C" or better in MATH 30 or MATH 30X or MATH 71 or MATH 71X.

Grading: Letter Graded

ECON 106 - Managerial Economics

4 unit(s)

Applications of economic analysis to practical problems in the private and public sector. Demand and cost analysis, market structure, statistical estimation and forecasting; case studies.

Prerequisite(s): ECON 1B.

Grading: Letter Graded

ECON 107 - Introduction to Environmental Economics and Policy

4 unit(s)

Analysis of basic economic and political factors related to the environmental crisis. Surveys policy approaches to the problem: regulation, taxes, subsidies, cost benefit analysis.

Lecture 3 hours/Lab 2 hours.

Prerequisite(s): ECON 1B or instructor consent.

Grading: Letter Graded.

Cross-listed with ENVS 107. Environmental Studies is responsible for scheduling.

Sustainability Focused - SDG 17: Partnerships for the Goals

ECON 108 - Cost-Benefit Analysis

4 unit(s)

Theory and practice of cost-benefit analysis applied to various topics including public projects and environment. Welfare foundations of CBA, valuation of goods (such as clean air, wilderness, and sports arenas), discounting future values and cost.

Prerequisite(s): ECON 1B and ECON 3 or STAT 95, or instructor consent

Grading: Letter Graded

Cross-listed with ENVS 108. Economics is responsible for scheduling.

Sustainability Focused - SDG 12: Responsible Consumption and Production

ECON 109 - Analysis of Economic Issues for Teachers

3 unit(s)

Economic analysis of such topics as unemployment, inflation, poverty, pollution, education and international trade will be covered within the context of K-12 education.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Note(s): Not acceptable for Economics majors, except double majors; acceptable for Economics minors.

ECON 112 - Economic Development

4 unit(s)

Theories of development and underdevelopment. Problems of initiating and sustaining growth. Relations between developed and underdeveloped regions. Economic reform and change in the underdeveloped world.

Prerequisite(s): ECON 1A and ECON 1B.

Grading: Letter Graded

Sustainability Related - SDG 17: Partnerships for the Goals

ECON 113A - Economic History of the United States

4 unit(s)

Economic analysis of U.S. and Canadian history to the mid-20th century and its application to understanding the causes, patterns and consequences of economic development.

Prerequisite(s): ECON 1A and ECON 1B, or instructor consent.

Grading: Letter Graded

ECON 113B - Economic History of Europe

4 unit(s)

Economic analysis of European history to the mid-20th century and its application to understanding the causes, patterns and consequences of economic development.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

ECON 121 - Industrial Organization

4 unit(s)

Microeconomic theory applied to pricing of products by seller having different market structures such as competition, imperfect competition, monopoly, public utility regulation or government pricing.

Prerequisite(s): ECON 1B.

Grading: Letter Graded

ECON 132 - Public Finance

4 unit(s)

Microeconomics of the public sector. Role of government in market systems. Cost-benefit analysis, public choice theory, taxation, fiscal federalism. State and local government sector.

Prerequisite(s): ECON 1B.

Grading: Letter Graded

ECON 133 - Public Choice

4 unit(s)

Economic analysis applied to non-market decision making. Topics may include: voting, special interests, rent-seeking, legislative decision-making, bureaucracy, collective action problems, judicial decision-making, political business cycles, and comparative political institutions.

Prerequisite(s): ECON 1B

Grading: Letter Graded

ECON 135 - Money and Banking

4 unit(s)

Monetary institutions and theory, central banking, Federal Reserve System, interest rates, foreign exchange, price level theory, flow of funds, policy relative to private, government and international finance.

Prerequisite(s): ECON 1A.

Grading: Letter Graded

ECON 136 - International Economics

4 unit(s)

International trade theory, customs union, tariffs, quota policies. International monetary system balance of payments problems, foreign exchange markets.

Prerequisite(s): ECON 1A and ECON 1B.

Grading: Letter Graded

ECON 137A - Fundamentals of Corporate Finance

4 unit(s)

Net present value criterion for investment and financial decisions, portfolio analysis, capital assets pricing model, information efficiency of security markets, influence of dividend policy on stock prices and optimality of financial structure of corporations.

Prerequisite(s): ECON 1B.

Grading: Letter Graded

ECON 137B - Topics in Corporate Finance

4 unit(s)

Analytical coverage of topics such as role of leverage, valuation of options (warrants, puts, calls and convertibles), valuation of risky debt, capital budgeting, mergers, financial planning and international aspects of corporate finance.

Prerequisite(s): ECON 137A or instructor consent.

Grading: Letter Graded

ECON 138 - Business and Economic Forecasting

4 unit(s)

Use of regression techniques to forecast movements in economic conditions having effects on business firms and governments.

Prerequisite(s): ECON 1A, ECON 1B, ECON 103A, and a semester of statistics.

Grading: Letter Graded.

ECON 139 - Principles of Investments

4 unit(s)

Stocks, bonds, money market instruments, options, futures and real estate. Institutions, markets and theory. Speculation, present value theory, yields, term structure, taxes, portfolios and insurance.

Prerequisite(s): ECON 1A and ECON 1B.

Grading: Letter Graded

ECON 141 - Law and Economics

4 unit(s)

Examines the economic effects of legal institutions, existing and proposed, and application of economic analysis to the law. Evaluation of the interactions between legal and economic principles and introduction to standard topics such as property rights, contracts, liability, and torts.

Prerequisite(s): ECON 1A or ECON 1B.

Grading: Letter Graded

ECON 151 - Labor Economics

4 unit(s)

Development of labor institutions and markets, public regulation of unions, economics of collective bargaining. Theories of wages, employment and labor income.

Prerequisite(s): ECON 1A and ECON 1B.

Grading: Letter Graded.

ECON 155 - Principles of Austrian Economics

4 unit(s)

Examines the discipline of Austrian economics and differentiates from other economic disciplines. Uses the Austrian approach to analyze and understand the consequences of various policy prescriptions.

Prerequisite(s): ECON 1A and ECON 1B

Grading: Letter Graded

ECON 158 - Economics of Entrepreneurship

4 unit(s)

Examines how economists have approached the phenomenon of entrepreneurship, from its behavioral foundations to its effects on economic growth and progress. Explores the role of entrepreneurship in theory and policy, and emphasizes its cultural, legal, and political determinants.

Prerequisite(s): ECON 1A and ECON 1B.

Grading: Letter Graded

ECON 165 - Regional Economics

4 unit(s)

The economic structure of a region, including the economic base and its relation to industries serving the local market, the relationships among the subregions and the location of industry.

Prerequisite(s): ECON 1A or ECON 1B or instructor consent.

Grading: Letter Graded

ECON 166 - Urban Economics

4 unit(s)

Analysis of major economic problems of metropolitan areas: taxation, financing of urban services, transportation, residential and industrial development, local growth controls, zoning and housing.

Prerequisite(s): ECON 1B.

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

ECON 170 - Health Economics

4 unit(s)

Introduction to the application of economics to healthcare and medical care issues including demand and supply of healthcare, health insurance, health quality and safety, and the role of regulations within a healthcare system.

Prerequisite(s): ECON 1A and ECON 1B

Grading: Letter Graded

ECON 180 - Individual Studies

1-4 unit(s)

Prerequisite(s): Instructor consent and department chair approval.

Grading: Credit/No Credit

ECON 185 - Applied Economics Internship

1-8 unit(s)

Supervised work with a private or public employer. Provides opportunity to gain experience in applied economics or in a discipline closely related to economics.

Course may be repeated for credit.

Prerequisite(s): Junior or senior standing and consent of internship coordinator.

Grading: Credit/No Credit

ECON 190 - History of Economic Thought

4 unit(s)

Course includes Ancient Greek thought; the School of Salamanca; mercantilism; Adam Smith and classical political economy; the pre-Marxian socialists and Karl Marx; the marginalist revolution and the development of neoclassical economics; and monetary theory from David Hume to Keynes.

Prerequisite(s): ECON 101, ECON 102, ECON 100W, and ECON 103A; or instructor consent.

Grading: Letter Graded

ECON 191 - Economic Thought of Nobel Prize Winners

4 unit(s)

Exploration of lectures and essays related to economics Nobel Prize Winners since 1969. Topics include market theory, information theory, game theory, macroeconomic models, and new developments. Students submit weekly questions, three papers, and a presentation on a Nobel Prize winner.

Prerequisite(s): ECON 101, ECON 102, ECON 100W, and ECON 103A; or instructor consent.

Grading: Letter Graded

ECON 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ECON 197 - Experimental Economics

4 unit(s)

Experimental Economics uses computerized laboratory experiments, field experiments, and quasi-natural experiments to test economic theory and human behavior. The course covers game theory, markets and auctions, experimental methodology and design, and field experiments.

Prerequisite(s): ECON 1B and introductory statistics.

Grading: Letter Graded.

ECON 201 - Seminar in Microeconomic Analysis

3 unit(s)

Advanced analysis of costs, pricing, revenue, market structures, economic efficiency, rates of wages, rent, interest, profits and allocation of resources; analytical models and economic equilibrium.

Prerequisite(s): Classified graduate standing and ECON 104.

Grading: Letter Graded

ECON 202 - Seminar in Macroeconomic Analysis

3 unit(s)

Aggregate analyses of inflation and unemployment (and of alternative fiscal and monetary policies) using general equilibrium and dynamic disequilibrium adjustment models of real output, labor, real capital and financial markets (both domestic and international).

Prerequisite(s): Classified graduate standing.

Grading: Letter Graded

ECON 203A - Economic Research Methods

3 unit(s)

Illustrates how to construct an economic study. Topics include basic statistical methods, cost-benefit analysis, data analysis, other quantitative techniques, literature reviews, and the professional standards of the discipline.

Satisfies Graduation Writing Assessment Requirement (GWAR).

Prerequisite(s): Classified graduate standing.

Grading: Letter Graded

ECON 203B - Seminar in Econometric Methods

3 unit(s)

Elements of statistical inference (t, F and Chi-square tests); the classical regression model and simultaneous equations models; estimation and prediction; the use of lagged and dummy variables; problems of multicollinearity, heteroskedasticity, serial correlation of disturbances and errors in the variables.

Prerequisite(s): ECON 203A or instructor consent.

Grading: Letter Graded

ECON 205 - Workshop in Economic Analysis

3 unit(s)

Capstone writing course in the program. Students prepare a written report on some topic of economic analysis and present the results to the class.

Prerequisite(s): ECON 201, ECON 202 or ECON 235, and ECON 203A; or instructor consent.

Grading: Letter Graded

ECON 212 - Economic Development

3 unit(s)

Theories of development and underdevelopment. Problems of initiating and sustaining growth. Relations between developed and underdeveloped regions. Economic reform and change in the underdeveloped world.

Grading: Letter Graded

ECON 221 - Industrial Organization

3 unit(s)

Analysis of the relations between industry structures, business conduct and economic performance under conditions of limited governmental interference. Appraises the role of competition and monopoly in the American economy. Stresses the role played by antitrust laws and regulatory commissions in the U.S. economy.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

ECON 232 - Seminar in Public Finance

3 unit(s)

Determination of objectives of the public sector; pricing and output in the public sector; taxes, their distribution and allocative effects; public expenditure theory; public debt theory and policy.

Prerequisite(s): Classified graduate standing.

Grading: Letter Graded

ECON 235 - Seminar in Monetary Theory and Policy

3 unit(s)

Concentration on the theoretical aspects of money and monetary policy. Early and modern theories of money demand; early Keynesian and Monetarist monetary analysis; expectations and dynamic monetary business cycles; monetary policy under the Keynesian, Monetarist and New Classical assumptions; open economy monetary theory.

Prerequisite(s): Classified graduate standing.

Grading: Letter Graded

ECON 236 - Seminar in International Trade and Finance

3 unit(s)

Advanced theory of international trade and finance and its application to current problems in international economics.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Note(s): Not offered on a regular basis.

ECON 241 - Seminar in Law and Economics

3 unit(s)

Examines the economic effects of legal institutions, existing and proposed, and economic analysis applied to the law. Evaluation of the interactions between legal and economic principles and introduction to standard topics such as property rights, contracts, liability, and torts. Includes case studies, a proposal, research paper and oral presentation.

Prerequisite(s): Classified graduate standing.

Grading: Letter Graded

ECON 251 - Seminar in Labor Economics

3 unit(s)

Analysis of labor markets, utilizing economic theory and empirical techniques with applications to public policy. Topics include: investment in human capital; employee compensation issues; compensating wages; discrimination; unions; and public sector labor markets.

Prerequisite(s): Graduate Standing or Instructor consent.

Grading: Letter Graded

ECON 281 - Advanced Topics in Economics

3 unit(s)

This course addresses current developments or special-interest topics in economics.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor Consent

Grading: Letter Graded

ECON 285 - Applied Economics Internship

3-6 unit(s)

Supervised work with a private or public employer.

Prerequisite(s): Graduate standing and 3.0 GPA.

Grading: Credit/No Credit

ECON 297 - Experimental Methods in Economics

3 unit(s)

Study economic decision-making through the lens of laboratory and field experiments. Review many of the contributions of experimental economists to the understanding of human sociality, human rationality, markets, and institutions. This course also covers the methodological tools required to design and run experiments.

Prerequisite(s): ECON 201 and classified standing, or instructor consent.

Grading: Letter Graded

ECON 298 - Special Study

1-3 unit(s)

Advanced individual research projects.

Prerequisite(s): Instructor consent and department chair approval.

Grading: Mandatory Credit/No Credit/RP

ECON 298E - Special Study Comprehensive Exam

1 unit(s)

Individual preparation for the comprehensive exam. Approval of department chair, graduate advisor, or instructor is required. Satisfactory completion satisfies culminating experience requirement.

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit/RP

ECON 298P - Master's Project

1-6 unit(s)

Open only to approved candidates for the MA - Economics degree.

Repeatable for credit.

Grading: Credit/No Credit/RP.

ECON 299 - Master's Thesis

1-6 unit(s)

Open only to approved candidates for the MA - Economics degree.

Repeatable for credit.

Grading: Credit/No Credit/RP.

ECON 1290R - Culminating Experience Supervision

1 unit(s)

Department and University support for progress to completion of culminating experience.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in a culminating experience class or project.

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Ed.D Leadership Program

EDD 501 - Quantitative Analysis for Educational Research

3 unit(s)

Students will develop a comprehensive understanding of the statistical principles used in the description and analysis of data. Students will also learn how to conduct appropriate statistical analyses, interpret findings, and compose meaningful reports while examining how these skills can lead to being a more informed and involved educator.

Prerequisite(s): Acceptance into the Ed.D. Program

Grading: Letter Graded

EDD 502 - Qualitative Methods in Educational Research

3 unit(s)

Explores qualitative research approaches and methods including participant observation, interviews, ethnography, narrative and case study approaches; includes methods of data analysis such as discourse analysis, dialogic analysis, and visual analysis.

Prerequisite(s): Acceptance into the Ed.D. Program

Grading: Letter Graded

EDD 510 - Educational Leadership: Theory and Practice

3 unit(s)

This course presents an overview of the major concepts and theories that constitute the knowledge base in the leadership of education, including an examination of leadership theories from early models of hierarchical control to contemporary models of shared leadership and organizational transformation.

Prerequisite(s): Acceptance into the Ed.D. Program

Grading: Letter Graded

EDD 511 - Leadership for Learner Centered Organizations

3 unit(s)

Students will develop the knowledge and skills for examining, designing and implementing organizational, classroom, and training conditions that support quality learning experiences for individuals in the organization.

Prerequisite(s): Acceptance into the Ed.D. Program

Grading: Letter Graded

EDD 512 - Leadership, Complexity, and Systems Thinking

3 unit(s)

This course presents principles, theories, attributes related to individual leadership development. It includes concepts related to systems thinking that are critical to the long-term sustainability of your school, agency, or organization.

Prerequisite(s): Acceptance into the Ed.D. Program

Grading: Letter Graded

EDD 515 - Leadership, Diversity, and Culture: Family, School and Community Connections

3 unit(s)

Educational leadership and management issues related to an increasingly diverse student body in educational institutions. Reviews educational research, practice, theory and legal matters within local and global contexts. Students engage in activities and discussions focused on strategies utilized by social justice advocates that have the potential to improve educational experiences and opportunities in P-12 settings, and in university-school-community partnerships. Emphasis placed on the interaction between underrepresented segments of society and educational institutions with attention to varying cultural backgrounds, communication patterns, social networks, leadership and administrative styles.

Prerequisite(s): Acceptance into the Ed.D. Program

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

EDD 520 - Organizational Behavior and Change in Education

3 unit(s)

This course seeks to interpret and analyze observed organizational processes, behavior, and potential solutions using theoretical insights. The course relies on seminar discussions, theory applications, and an organizational change design project and evaluation research design.

Prerequisite(s): Acceptance into the Ed.D. Program

Grading: Letter Graded

EDD 522 - Communication and Educational Leadership

3 unit(s)

This course analyzes popular narratives on education and practices persuasive, rhetorical strategies for using those narratives to shape public expectations of educators, students, and schools.

Prerequisite(s): Acceptance into the Ed.D. Program

Grading: Letter Graded

EDD 530 - Assessment, Testing and Evaluation: Contexts and Implications for School Reform

3 unit(s)

This course provides a historical, analytical and empirical framework for understanding assessment, testing and evaluation in K-12 education. The context aims at exploring the current national and state accountability policy regimes in the U.S. particularly those linked to the Common Core Standards movement.

Prerequisite(s): Acceptance into the Ed.D. Program

Grading: Letter Graded

EDD 535 - Education Policy, Resource Allocation and School Reform

3 unit(s)

This course is designed for students to develop understanding of education policy. The course explores the formation, design, and implementation of school reform efforts across different levels of educational system.

Prerequisite(s): Acceptance into the Ed.D. Program

Grading: Letter Graded

EDD 536 - The Politics of Education and Finance of Schooling

3 unit(s)

This course presents an overview of the major concepts and theories that constitute the knowledge base in the politics of education and finance of schooling.

Grading: Letter Graded

EDD 540 - Education and Leadership in Global Context: Globalization & Narrative Ethics

3 unit(s)

This course provides global perspectives on education and leadership in contemporary society with emphasis on social, political, and economic factors that affect access and equity and the role of leadership.

Grading: Letter Graded

EDD 585 - Field Experience: Global Context

3 unit(s)

Lectures, field visits, and extended study of education and leadership in global context

Grading: Mandatory Credit/No Credit/RP

EDD 591A - Proseminar I: Introduction to Doctoral Studies in Educational Leadership

3 unit(s)

This course provides an orientation to the doctoral program in educational leadership, doctoral studies more generally, and an overall introduction to educational leadership studies. The seminar will discuss the skills and practices needed to be successful doctoral students, both as consumers and producers of research.

Grading: Credit/No Credit

EDD 591B - Proseminar II - Practitioner-Led Research

3 unit(s)

The course content focuses on practice-led research methods and the problems they are best suited to answer. In practice-led research, the primary focus of the research is to advance knowledge about practice, or to advance knowledge within practice.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this doctoral program.

EDD 591C - Professional Seminar III: Structuring & Writing a High Quality Dissertation

3 unit(s)

The focus of the seminar is to facilitate the production of a high quality dissertation. Candidates will gain a deep understanding of the expectations of dissertation writing by examining published dissertations and considering relevant applications to their own dissertation writing.

Grading: Mandatory Credit/No Credit/RP

EDD 599 - Dissertation

3 unit(s)

Under the supervision of the advisor, conduct, complete, and defend research-based dissertation. Write and publish the final dissertation following official guidelines.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Acceptance into the Ed.D. Program

Grading: Credit/No Credit/RP.

Note(s):

EDD 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on dissertation or project.

Prerequisite(s): Outstanding RP grade in a preceding semester in a project or thesis class

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Education

EDUC 80 - Independent Study

1-3 unit(s)

Supervised study related to the field of education appropriate to lower division undergraduate students. Individuals work on special topics by arrangement with a faculty member.

Course may be repeated for credit for up to 3 units.

Grading: Credit/No Credit

EDUC 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

EDUC 157SL - Community Action/Community Service

3 unit(s)

A campus-wide service learning program with opportunities for direct involvement with local community services, both off campus and on campus. Weekly seminars held on campus or at the field site, plus four to six hours of community service work per week at the field site.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with COMM 157SL / ENGR 157SL / HA 157SL / SCI 157SL. Communication Studies is responsible for scheduling.

Sustainability Related - SDG 11: Sustainable Cities and Communities

EDUC 186 - Using Instructional Media

3 unit(s)

Selection, utilization and evaluation of instructional media in adult learning configurations. Analysis of communication and learning theories. Design and production of teaching and learning materials.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

EDUC 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

EDUC 298 - Individualized Studies in Education

1-6 unit(s)

Supervised study in school administrations for both the preliminary and professional services credential programs.

Prerequisite(s): Admission to Graduate department, EDLD 200, or advisor consent.

Grading: Mandatory Credit/No Credit/RP

Educational Leadership

EDD 590 - Research Seminar and Colloquium in Educational Leadership

3 unit(s)

Research seminar and colloquium sessions engage students with invited experts who are conducting research on current topics at the intersection of fields that affect educational leadership. Designed to deepen and make connections with students' ongoing research interests.

Prerequisite(s): Acceptance into the EdD Program.

Grading: Credit/No Credit.

EDD 598 - Dissertation Research Development

1-2 unit(s)

Supervised individual research in support of the dissertation research. Write and defend the dissertation proposal and obtain IRB to conduct the research.

Repeatable for credit up to 6 units.

Prerequisite(s): Successful completion of first set of summer Ed.D. courses, or dissertation advisor consent. Not available to students outside of the Ed.D. Program.

Grading: Credit/No Credit.

EDLD 10 - Talking Back to Research: Critical Skills for Leaders

3 unit(s)

An introduction to the foundations of research from different interdisciplinary traditions and perspectives. With a particular focus on oral communication and public discourse, students gain applied competencies in professional development, public speaking, and research methodology and process.

Grading: Letter Graded

EDLD 11 - Making Research Work: Explorations in Career Pathways

1 unit(s)

An interdisciplinary exploration into research career pathways and professional development. Students prepare for and present at the Undergraduate Research Opportunity Program end-of-year research symposiums.

Prerequisite(s): EDLD 10

Grading: Credit/No Credit.

EDLD 101 - Rediscovering Disability Studies at the Intersections

3 unit(s)

As an introduction to the field of disability studies and various theorizations on disability and normalcy in relationship to education and society, students are exposed to seminal and emerging content about disability as a social, cultural, historical and political phenomenon, as well as complicated embodiments that intersect with race, gender, sexuality, religion, and other cultural identities. Content of the course is obtained from multiply marginalized, disabled community scholars.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

EDLD 110 - Introduction to Educational and Community Leadership

3 unit(s)

Designed to assist students in a mindful, collective investigation of their aspirations to best serve the communities they are members of. In addition to identifying healthy approaches to work-life-school balance to reach their professional goals, students systematically examine what educational and community-based professionals do, why they do it, and how they can develop as agents of social change.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

EDLD 120 - The Right to Learn: Language, Dignity, and Education

3 unit(s)

Through the lens of linguistic diversity and human dignity, this course invites debate about the role of formal schooling within a democratic society and fosters analysis of the ways in which access to schooling and its benefits have been disparately allocated across US history.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

EDLD 130 - Antiracist Leadership: Cases, Frameworks, and Praxis

3 unit(s)

Explores historical and contemporary cases of antiracist action, for example, the Montgomery bus boycott and the elimination of the Oakland Unified School District's police department. Models of leadership from a variety of frameworks, such as Kendi's on antiracism, are studied and used to engage in intersectional analysis. Co-constructed among instructor(s) and students, who may share their knowledge of cases and / or frameworks with other course members. Includes designing and possibly enacting a plan of social action related to a local, regional, statewide, national, or global issue.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

EDLD 140 - Identity, Solidarity, and Social Justice Leadership

3 unit(s)

Examine, assess, and strengthen understandings of students' own, and others' social identities; and build capacity for multiculturally-skilled leadership for social justice. Critically explore causes, reinforcements, and remedies for injustices; and meanings and experiences of solidarity and liberation.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

EDLD 160 - 1st Generation College Students Pathways

3 unit(s)

Designed to review and discuss research-based issues of educational equity and the experience of first-generation college students pathways to undergraduate and graduate school. Students will also have opportunities to engage research, theory, and practice through introductory approaches to qualitative research method called autoethnography.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

EDLD 200 - The School Manager

3 unit(s)

Management skills for leading effective school organizations. Present and emerging issues in our society and how they relate to schooling. Governance of education.

Prerequisite(s): Admission to Graduate Division.

Grading: Letter Graded

EDLD 201 - Epistemologies of Educational Leadership: Personal, Political, & Intellectual

3 unit(s)

Introduction to the personal, political, and intellectual dimensions that inform one's epistemology of educational leadership. Students engage with research on practices in the field of Educational Leadership alongside an autoethnographic exploration of how their experiences influence their approaches to leadership and identify areas of growth.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Admission to the Graduate Division.

Grading: Letter Graded

Note(s): Course satisfies Graduate Writing Assessment Requirement (GWAR).

EDLD 202 - Emancipatory Teaching and Learning

3 unit(s)

Close study of instructional leadership and the ways school leaders have supported critical pedagogies including ethnic studies to highlight best practices that have resulted in increased student and community engagement.

Repeatable for credit.

Prerequisite(s): EDLD 201 and admission to the SJSU Graduate Division.

Grading: Letter Graded

EDLD 204 - Critical Studies of Educational Policy

3 unit(s)

A close study of historical and current educational policies. Engagement with local, statewide, and national advocates who have worked on writing and advocating for educational policies for social change.

Prerequisite(s): EDLD 206.

Grading: Letter Graded

EDLD 205 - Equity & Access: Practices, Policies, & Pedagogies

3 unit(s)

Engagement with common problems of practice in school communities to improve equity and access challenges for historically underserved students. Development of collaborative approaches to emancipatory leadership practices, policies, and pedagogies with teacher leaders and school leaders.

Prerequisite(s): EDLD 202 and admission to the Graduate Division, or department permission.

Grading: Letter Graded

EDLD 206 - Emancipatory Leadership as Praxis Seminar

3 unit(s)

Intensive experiential learning through applied consulting on living case studies aimed to challenge inequitable policies and practices to improve students' opportunities to learn. Students work closely with the selected site or situation, as well as with their faculty member and the Lurie College Leadership Fellow.

Prerequisite(s): EDLD 205 or department permission.

Grading: Letter Graded

Note(s): Applied Culminating Experience.

EDLD 210 - Socio-Cultural Foundations of U.S. Higher Education

3 unit(s)

Examines major events in the development of colleges and universities in the United States. It considers how historical, social, legal, economic, political forces have shaped and continue to influence the development of contemporary U.S. higher education policies and practices.

Grading: Letter Graded

EDLD 211 - Higher Education Leadership

3 unit(s)

Designed to enhance the students' understanding of leadership issues within the context of higher education organizations. Examines a broad range of leadership theories, concepts, practices, and issues. The course will involve analysis of case studies, engagement in interactive exercises and class discussions, guest speakers, and guest presentations. Encompasses the development of knowledge and skills to educational organizational leadership in higher education, and specifically to develop educational leaders who can create a culture that is conducive to learning for all students and staff.

Grading: Letter Graded

EDLD 212 - Diversity, Equity, and Social Justice in Higher Education

3 unit(s)

Examines topics related to diversity, social justice, and inclusion in the field of Higher Education. Development and knowledge of theories related to diversity, equity, and inclusion will be explored.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

EDLD 212C - Diversity, Equity, and Social Justice in Higher Education

3 unit(s)

Examines topics related to diversity, social justice, and inclusion in the field of Higher Education. Development and knowledge of theories related to diversity, equity, and inclusion will be explored.

Satisfies Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

EDLD 213 - Policy and Ethics of Higher Education Governance and Finance

3 unit(s)

The purpose of this course is to explore the link between higher education governance and finance. Particular attention will be paid to exploring finance history and trends, understanding why finance challenges emerge, analyzing new and existing policies, examining budget processes and cycles, and reviewing how governance through finance may impact educational quality, equity, accountability, and sustainability.

Grading: Letter Graded

EDLD 214 - Critical Data Analysis in Higher Education

3 unit(s)

The purpose of this course is to provide working knowledge of the skills required to conduct scientific inquiry pertaining to education and human service programs. Knowledge derived from this course will prepare each student to be: (1) a critical consumer of research and evaluation information, and (2) a beginning practitioner in conducting investigative efforts

Grading: Letter Graded

EDLD 215 - Contemporary Issues in Higher Education

3 unit(s)

Examines current issues in higher education and prepares educational leaders on how to critically approach the topics addressed in the course. Development and knowledge of current issues and trends in higher education will be explored, including but not limited to: academic governance, external relations, access and admissions, student financial aid, student services, campus climate, affirmative action, privatization, and proprietary education, to name a few. During the semester, our primary goal is to unpack the complex social, economic, historical, and political implications associated with emerging higher education policy trends and debates.

Grading: Letter Graded

EDLD 216 - Law, Policy, and Ethics in Higher Education

3 unit(s)

Seminar on law, policy, and ethics in higher education. Emphasis is directed toward critical analysis of current issues and related scenarios. This collaborative and interactive course will center on dialogue, reflection, practice, and critique of legal, policy, and ethical issues in higher education.

Grading: Letter Graded

EDLD 217A - Equity-Minded Leadership in Higher Education: Practices, Policies, and Pedagogies

3 unit(s)

Offers students the opportunity to engage first hand with common problems of practice in higher education. Through exposure to real-world challenges, students will work on developing critical, collaborative, and equity-minded approaches to higher education leadership practices, policies, and pedagogies with local higher education faculty and administrators. The key aims of this exercise include developing leadership skills and improving the equity, access, and success of historically underrepresented students in academia.

Grading: Letter Graded

EDLD 217B - Equity-Minded Leadership in Higher Education as Praxis

3 unit(s)

Intensive experiential learning through applied consulting on living case studies aimed to challenge inequitable policies and practices to improve students' opportunities to learn in higher education.

Prerequisite(s): EDLD 217A

Grading: Letter Graded

EDLD 250 - Emancipatory Pedagogy in Higher Education

3 unit(s)

Explores theories and practices of teaching as a practice of freedom that strives for a stronger, flourishing democracy in which all people can meaningfully participate. Emancipatory pedagogy engages with students holistically and in mutualistic relations toward the shared construction of knowledge and dismantling of oppressive systems.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

EDLD 251 - Higher Education Teaching Practicum

3 unit(s)

Designed to be a practical application of the methods and pedagogies acquired in EDLD 212 and EDLD 250. The practicum student is mentored by an expert higher education instructor in one section of a course at a community college or four-year institution.

Prerequisite(s): EDLD 212 and EDLD 250

Grading: Letter Graded

EDLD 253 - Envisioning Emancipatory Leadership for Schools

3 unit(s)

Capstone course to synthesize personal and intellectual areas of growth. Students complete a 3-year action plan, outlining their core values, write a personal vision statement, cite current and lacking leadership skills and develop actionable goals to practice areas of growth.

Prerequisite(s): Concurrent Enrollment in or Completion of EDLD 204, or department permission.

Grading: Letter Graded

EDLD 280 - Individual Studies in Educational Leadership

1-4 unit(s)

Supervised individual study in specific fields of education not covered by offered courses.

Course may be repeated for credit for up to 30 units.

Prerequisite(s): Admission to Graduate program and department consent.

Grading: Credit/No Credit.

EDLD 298 - Higher Education Leadership Master's Capstone/Culminating Experience Course

3 unit(s)

Provides students in the Higher Education Leadership Master's Program with a structured learning experience as they develop and finalize their capstone projects required to satisfy degree completion.

Grading: Letter Graded

EDSP 150 - Communication, Leadership, and Social Justice

3 unit(s)

Formerly EDLD 150. Students utilize a critical lens to develop a foundation for analysis of oral and written communication in the community. Students expand personal written and oral communication styles to help amplify their voices in the community and in their careers.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded.

Electrical Engineering

EE 30 - Introduction to Programming Micro-Controllers for Electrical Engineering

3 unit(s)

Introduction to C language program development using an integrated development environment. Program development includes program design, development, debugging, testing and documentation. Electrical engineering application examples dealing with circuits, systems, data converters and signal processing concepts are used throughout the course.

Lecture 3 hours/Lab 3 hours.

Prerequisite(s): Allowed Declared Majors: Electrical Engineering.

Grading: Letter Graded

EE 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to

study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

EE 97 - Introductory Electrical Engineering Laboratory

1 unit(s)

Basic instruments and experimental techniques in electrical engineering. Oscilloscopes, function generators, frequency counters and multiple-use meters. Measurements of voltage, current, frequency response, transient response and computer simulation of circuits.

Lab 3 hours.

Prerequisite(s): Allowed Declared Majors: Any Engineering.

Corequisite(s): EE 98.

Grading: Letter Graded

EE 98 - Introduction to Circuit Analysis

3 unit(s)

Circuit laws and nomenclature, resistive circuits with DC sources, ideal operational amplifier, controlled sources, natural and complete response of simple circuits, steady-state sinusoidal analysis and power calculations.

Prerequisite(s): PHYS 51 with a C- or better. Allowed Declared Majors: Any Engineering.

Corequisite(s): MATH 33A or MATH 33LA.

Grading: Letter Graded

EE 98H - Honors Introduction to Circuit Analysis

3 unit(s)

A project and design based approach to the introduction of circuit laws and analysis methods such as nodal analysis, superposition, equivalent circuits and phasor analysis for circuits involving RLC and operational amplifiers.

Prerequisite(s): PHYS 51 (with a grade of "B" or better).

Corequisite(s): MATH 33A or MATH 33LA.

Grading: Letter Graded

EE 98W - Introduction to Circuit Analysis Workshop

1 unit(s)

Workshop designed to help all students excel in EE 98. Students work in groups on challenging circuit analysis problems to help them understand EE 98 concepts more deeply and lay the groundwork for success in engineering courses.

Corequisite(s): EE 98 or EE 98H

Grading: Credit/No Credit

EE 102 - Probability and Statistics in Electrical

3 unit(s)

Introduction to probability and statistical analysis for undergraduate EE students. Discrete probability theory, theory of single random variables, introduction to statistics and hypothesis testing, and EE applications.

Prerequisite(s): EE 112 with a grade of "C-" or better. Allowed Declared Major: Electrical Engineering.

Grading: Letter Graded

EE 104 - Applied Programming in Electrical Engineering

3 unit(s)

Review of matrix algebra. Solution of linear, non-linear and ordinary differential equations. Interpolation and integration. Approximation of functions. Python programming in electrical engineering applications, which include signal analysis, neural networks, system modeling.

Prerequisite(s): EE 110 and EE 112 both with grades of "C-" or better. Allowed Declared Major: Electrical Engineering.

Grading: Letter Graded

EE 106 - Fundamentals of Mechatronics Engineering

4 unit(s)

Foundational concepts in mechatronics including analog and digital electronics, sensors, actuators, microprocessors and microprocessor interfacing to electromechanical systems. Hands-on laboratory experiments with components and measurement equipment used in the design of mechatronic products.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): EE 98 and ME 30 (or CS 49C or EE 30 or CMPE 30 or their equivalents) (each with a grade of "C-" or better). For IT majors: TECH 60 and MATH 71 or MATH 71X (each with a grade of 'C-' or better).

Grading: Letter Graded

Cross-listed with ME 106. Mechanical Engineering is responsible for scheduling.

EE 110 - Circuits and Systems

3 unit(s)

Continuous-time signals, circuits and systems. Impulse response and convolution. Laplace and Fourier transforms. Frequency response, transfer function, poles/zeros, filtering. Application to passive and active circuits, and to basic control, communications, and bio-systems.

Prerequisite(s): EE 98 and MATH 33A or MATH 33LA (each with grade of C- or better). Allowed Declared Major: Electrical Engineering.

Corequisite(s): EE 110L.

Grading: Letter Graded

EE 110L - Continuous and Discrete Time Systems Lab

1 unit(s)

Matlab, LTspice, and lpython used to solve realistic continuous and discrete time signals, circuits and systems problems. Application to passive and active circuits, to basic control, communications, and bio systems.

Lab 3 hours.

Prerequisite(s): EE 98 and MATH 33A or MATH 33LA (each with grade of "C-" or better).

Corequisite(s): EE 110.

Grading: Letter Graded

EE 110W - Circuits and Systems Workshop

1 unit(s)

Workshop designed to help all students excel in EE 110. Students work in groups on challenging circuit analysis and systems problems to improve their understanding of concepts in EE 110 and lay the groundwork for success in future EE courses.

Prerequisite(s): EE 98 and MATH 33A or MATH 33LA (each with a "C-" or better).

Corequisite(s): EE 110 and EE 110L.

Grading: Credit/No Credit

EE 112 - Introduction to Signal Processing

3 unit(s)

Introduction to discrete-time signal processing. Sampling and aliasing. Frequency response, transfer function, poles/zeros. Z-transform. FIR and IIR filtering. The four Fourier transforms. Computing spectra and spectrograms. Bio-systems, speech, music, image processing applications with Matlab.

Prerequisite(s): EE 98 and MATH 33A (each with grade of C- or better) and Satisfactory Score on the Circuit Concepts and Problem Solving Placement Exam. Allowed Declared Major: Electrical Engineering.

Grading: Letter Graded

EE 118 - Digital Logic Circuit Design

4 unit(s)

Fundamentals of digital logic design. Boolean logic, MUXes, DEMUXes, decoders, encoders, comparators, arithmetic blocks, flip-flops, counters, registers, RAMs/ROMs, PLDs and FPGAs. Design of a simple computer CPU. Schematic capture and Hardware Description Language (HDL), particularly, Verilog.

Lecture 3 hours/lab 3 hours.

Prerequisite(s): EE 97 and EE 98 both with grades of "C-" or better. Allowed Declared Major: Electrical Engineering.

Grading: Letter Graded

EE 120 - Microprocessor Based System Design

4 unit(s)

Advanced algorithmic processes using MSI and SSI integrated circuits. Organization and interface requirements for a microcomputer. Hardware-software tradeoffs in digital systems.

Lecture 3 hours/lab 3 hours.

Prerequisite(s): EE 118 with grade of "C-" or better. Allowed Declared Major: Electrical Engineering.

Grading: Letter Graded

EE 122 - Electronic Design I

4 unit(s)

Design of circuits based on OPAMPS, diodes, MOSFETs and BJT's, as applied to the contemporary issues of biomedical devices and power generation (solar cell modules), and power usage. Electronic CAD tools (LTSPICE) will be used extensively, PCB board design.

Lecture 4 hours/lab 3 hours.

Prerequisite(s): EE 110 and EE 97 both with grades of "C-" or better. Allowed Declared Majors: Electrical Engineering.

Grading: Letter Graded

EE 124 - Electronic Design II

4 unit(s)

Analysis and design of Analog integrated circuits using Bipolar and CMOS transistors. Topics include current sources, active loads, differential amplifiers, frequency response, frequency compensation, output stages, feedback amplifiers and operational amplifiers.

Lecture 3 hours/lab 3 hours.

Prerequisite(s): EE 122 and EE 128 both with grades of "C-" or better. Allowed Declared Major: Electrical Engineering.

Grading: Letter Graded

EE 127 - Electronics for Biomedical Applications

3 unit(s)

Study of the fundamental concepts of electrical circuits relevant to the use and design of biomedical instruments and devices currently used for patient care using several examples.

Prerequisite(s): EE 98 with a grade of "C-" or better.

Grading: Letter Graded

EE 128 - Physical Electronics

3 unit(s)

Review of semiconductor theory. Methods of device fabrication; p-n junctions; bipolar junction transistors; field-effect transistors (FETS); MOSFETs; and equivalent circuits.

Lecture 3 hours.

Prerequisite(s): MATE 153 with a grade of "C-" or better. Allowed Declared Major: Electrical Engineering.
Grading: Letter Graded

EE 129 - Introduction to Integrated Circuits Processing and Design

3 unit(s)

Basic processes involved in fabrication of integrated circuits; semiconductor physics, material preparation, oxidation, diffusion; photolithographic, thin-film deposition and etching. Simple component layout and evaluation of device parameters.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): MATE 25 or MATE 153 with a grade of "C-" or better. Allowed Declared Majors: Any Engineering. Or Graduate/PBAC level.

Grading: Letter Graded

Cross-listed with MATE 129. Materials Engineering is responsible for scheduling.

EE 130 - Electric Machines and Drives

3 unit(s)

This course introduces the theory of operation and the control of electro-mechanical machines including DC machines, DC brushless machines, and AC synchronous machines and their electric drive systems. Applications include robotics, electric vehicle, and electric power generation.

Lecture 3 hours.

Prerequisite(s): EE 110 and EE 112 both with grades of "C-" or better.

Grading: Letter Graded

EE 132 - Theory of Automatic Controls

3 unit(s)

Theory of linear feedback control systems. Transfer functions and block diagrams; root-locus techniques; frequency analysis techniques; compensation; transducers and servo-system elements.

Prerequisite(s): EE 110 and EE 112 both with grades of "C-" or better. Allowed Declared Major: Electrical Engineering.

Grading: Letter Graded

EE 134 - Power Systems

3 unit(s)

Introduction to power systems including: complex power, power factor correction, power quality, power flow analysis, grid steady state and transient stability, fault analysis, integration of renewable energy, theory and modeling of transformers, transmission lines, and synchronous generators.

Prerequisite(s): EE 110 and EE 112 both with grades of "C-" or better.

Grading: Letter Graded

EE 136 - Semiconductor Power Electronics

3 unit(s)

Study of power electronic circuits and applications including switch-mode regulators, AC-DC, DC-DC and DC-AC conversion, uninterruptible power supplies, variable speed drives, active filtering and harmonic cancellation; laboratory demonstrations. Applications include electric vehicle propulsion and spacecraft power systems.

Prerequisite(s): EE 122 with a grade of "C-" or better.

Grading: Letter Graded

EE 138 - Embedded Control System Design

3 unit(s)

Introduction to designing microcontroller-based embedded control systems using C programs to control input/output peripherals including general purpose I/Os, state machines, analog interfaces, pulse width modulation, digital filter implementation, design of control systems for motor, interrupt concepts, and real-time operating systems.

Lecture 2 hours/Lab 3 hours

Prerequisite(s): EE 112 and EE 120 both with grades of "C-" or better.

Grading: Letter Graded

EE 140 - Principles of Electromagnetic Fields

3 unit(s)

Static electromagnetic fields and waves using vector calculus methods. Development of Maxwell's Equations. Dynamic effect of time varying electromagnetic fields and its applications.

Prerequisite(s): PHYS 52, EE 110, and EE 110L all with grades of "C-" or better. Allowed Declared Major: Electrical Engineering.

Grading: Letter Graded

EE 153 - Introduction to Digital Signal Processing

3 unit(s)

Digital signal processing fundamentals, discrete system theory, convolution, DFT, and design of IIR and FIR filters. MATLAB based lab exercises are used for verification of DSP principles, signal analysis, and design of filters for audio signals.

Prerequisite(s): EE 112 with a grade of "C-" or better.

Grading: Letter Graded

EE 160 - Principles of Communication Systems

3 unit(s)

Introduction to communication systems. Harmonics for analysis of amplifiers and amplitude modulators. Sampling and its application to frequency shifting. Communication receiver architectures: Direct-conversion and heterodyne. Amplitude modulators and demodulators. Basic binary modulation techniques.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): EE 112 with a grade of "C-" or better.

Grading: Letter Graded

EE 161 - Digital Communication Systems

3 unit(s)

Introduction to communication systems and noise. Binary communication systems. Pulse amplitude modulation. Digital modulation of amplitude, phase and frequency of a carrier signal. Modulation and signaling for wireless communication channels. Digital wireless communication using multiple antennas.

Prerequisite(s): EE 102 and EE 112 both with grades of "C-" or better. Allowed Declared Major: Electrical Engineering.

Grading: Letter Graded

EE 165 - Photovoltaic Fabrication/Testing Lab

1 unit(s)

Laboratory course covering photovoltaic (solar cell) design, fabrication, and testing. TCAD simulation tools will be used in design. Fabrication processes will include cleaning, surface texturing, deposition, diffusion, metallization, photolithography, etching, and electrical testing.

Misc/Lab: Lab 3 hours.

Prerequisite(s): MATE 25 or MATE 153 with a grade of "C-" or better; or corequisite of MATE 129.

Grading: Letter Graded

Cross-listed with MATE 165. Materials Engineering is responsible for scheduling.

Sustainability Focused - SDG 7: Affordable and Clean Energy

EE 166 - Design of CMOS Digital Integrated Circuits

3 unit(s)

Analysis and design of MOS based combinational sequential digital integrated circuits. Industry standard CAD tools (Cadence) will be used extensively in homework and a group final project.

Prerequisite(s): EE 128 with a grade of "C-" or better. Allowed Declared Major: Electrical Engineering.

Grading: Letter Graded

EE 168 - Microfluid Fabrication and Design

1 unit(s)

Hands-on design, fabrication, and testing of microfluidic devices. Processes including photolithography, soft lithography, and plasma bonding. Design problems for microfluidic devices. Introduction to microfluidics simulation.

Prerequisite(s): MATE 25 or MATE 153 or MATE 129 / EE 129.

Grading: Letter Graded

Cross-listed with MATE 168 / ME 168. Mechanical Engineering is responsible for scheduling.

EE 169 - Microelectromechanical Systems Fabrication and Design

1 unit(s)

Hands-on design, fabrication, and testing of micro electro-mechanical systems (MEMS). Processes including photolithography, etching, and metal deposition applied to MEMS. Design problems for MEMS transducer components. Introduction to MEMS simulation.

Misc/Lab: Lab 3 hours.

Prerequisite(s): MATE 25 or MATE 153 or MATE 129 / EE 129.

Grading: Letter Graded

Cross-listed with MATE 169 / ME 169. Mechanical Engineering is responsible for scheduling.

EE 171 - Introduction to Machine Learning for Electrical Engineers

3 unit(s)

Introduction to machine learning with hardware implementation. Topics include linear algebra and probability review, linear regression, multilayer perceptrons, stochastic gradient descent, and convolutional neural networks. Includes hands-on lab component in which students train neural networks using Keras and deploy the models to Field Programmable Gate Arrays (FPGAs).

Prerequisite(s): EE 102 (may be taken concurrently) and EE 118 (with grade of "C-" or better).

Grading: Letter Graded.

EE 172 - Introduction to Microwave Engineering

3 unit(s)

Topics in Microwave Engineering: Standard RF measurements, waveguide resonator and antenna. Transmission line theory, impedance matching, and design approach of selected microwave components. Emphasis will be on the fundamental principles and industrial practice of the designs. Commercial CAD tools.

Prerequisite(s): EE 98, PHYS 52, and MATH 33A or MATH 33LA (all with grades of "C-" or better). Allowed Declared Major: Electrical Engineering.

Corequisite(s): EE 140.

Grading: Letter Graded

EE 174 - Analog Peripheral for Embedded Systems

3 unit(s)

Introduction to analog peripherals for embedded systems such as ADC/DAC, DC-DC Converters, Energy harvesting and solar cells, near field communication, RF-IDs, phase lock loops, clock generators, displays and touch screens. Industry based projects and applications are integral to the course.

Prerequisite(s): EE 110 and EE 112 both with grades of "C-" or better. Allowed Declared Major: Electrical Engineering.

Grading: Letter Graded

EE 176 - Computer Architecture and Organization

3 unit(s)

Course introduces the principles of computer organization and the basic architecture concepts. The course emphasizes performance and cost analysis, instruction set design, addressing modes, processor arithmetic, processor data and control path, pipelining, data and control hazard, parallelism, memory technology, memory hierarchy and management, and I/O systems.

Prerequisite(s): EE 120 with a grade of "C-" or better.

Grading: Letter Graded.

EE 178 - Digital Design with FPGAs

3 unit(s)

Advanced Digital Design Technologies as they relate to synchronous digital systems. Requires student design projects that deal with the use of CAD tools for the Design, Simulation, and Implementation of Systems with FPGAs.

Prerequisite(s): EE 118 with a grade of "C-" or better.

Grading: Letter Graded

EE 180 - Individual Studies

1-3 unit(s)

Individual work on special topics arranged by the student and faculty mentor. Enrollment is handled by the EE department office. A completed and approved application is required.

Prerequisite(s): BS in Electrical Engineering Senior in good standing. Allowed Declared Major: Electrical Engineering. Not available to Open University Students.

Grading: Credit/No Credit

EE 181 - Fundamentals of Internetworking

3 unit(s)

Data communication concepts, protocols, algorithms; 7-layer OSI reference model and implementations; physical media (fiber, wire); switching systems; LAN architectures and components, Ethernet, FDDI, TCP/IP, and related standards.

Prerequisite(s): EE 118 with a grade of "C-" or better.

Grading: Letter Graded

EE 182 - Analog and Mixed-Signal IC Test Development

3 unit(s)

Introduction to analog and mixed-signal IC and component measurements and automated testing. Test specifications, methods, techniques, and interfaces. Measurement accuracy, correction, and calibration. Automated test equipment (ATE) hardware and software. DAC/ADC testing and DSP-based testing. Analog and mixed-signal design for test (DFT). Laboratory exercises and mini projects.

Prerequisite(s): EE 112, EE 118, and EE 122 all with grades of "C-" or better.

Corequisite(s): EE 102 can be taken concurrently.

Grading: Letter Graded

EE 183 - Electronics Test Design Engineering II

3 unit(s)

Best practices in Test methods and techniques; ATE Test hardware/software, Device characterization; Multi-system reliability; Device interface board design, building, debug; ATE development and Execution.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): EE 182 with grade "C-" or better.

Grading: Letter Graded

EE 189 - Special Topics in Electrical Engineering

3 unit(s)

Advanced topics in Electrical Engineering. Content varies from semester to semester.

Course may be repeated for credit when topic changes.

Prerequisite(s): Instructor consent/senior standing.

Grading: Letter Graded.

EE 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

EE 198A - Senior Design Project I

1 unit(s)

Team design project proposal, business plan, oral design presentations of the initial phases of the design project, a written and oral defense of the proposed design project. Global and social issues in engineering. Individual written reports on professional development plans.

Lab 3 hours

Satisfies SJSU Studies S: Self, Society & Equality in U.S. when taken as part of EE major sequence.

Prerequisite(s): Electrical Engineering Senior in good standing in major, ENGR 100W (with grade of "C" or better), EE 120, EE 122, and EE 128 (with grades of "C-" or better).

Pre/Corequisite(s): concurrent enrollment with ENGR 195A or completion of ENGR 195A or completion of GE Area S.

Grading: Letter Graded

Note(s): Meets GE Areas S and V when course is taken in combination with: EE 198B, ENGR 195A and ENGR 195B.

Sustainability Related - SDG 7: Affordable and Clean Energy

EE 198B - Senior Design Project II

3 unit(s)

Implementation of group design projects initiated in EE 198A. Group oral and written reports. Integrate global and social issues in engineering.

Lab 9 hours.

Satisfies SJSU Studies V: Cultures and Global Understanding when taken as part of the EE major sequence.

Prerequisite(s): Electrical Engineering Senior in good standing in major, EE 198A with a grade of "C-" or better, ENGR 100W with a grade of "C" or better. Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses.

Pre/Corequisite(s): Concurrent enrollment with ENGR 195B or completion of ENGR 195B or completion of GE Area V.

Grading: Letter Graded.

Note(s): Meets GE Areas S and V when course is taken in combination with: EE 198A, ENGR 195A and ENGR 195B.

Sustainability Related - SDG 7: Affordable and Clean Energy

EE 209 - Network Security

3 unit(s)

Network security protocols and applications, cryptography algorithms, authentication systems, intrusion detection, network attacks and defenses, system-level security issues, and building of secure systems.

Prerequisite(s): EE 281 or instructor consent.

Grading: Letter Graded

EE 210 - Linear System Theory

3 unit(s)

Comprehensive overview of signals and linear systems with discrete-time emphasis. System attributes. Fourier transform families and properties. Convolution and correlation. The 2-sided z-transform. FIR and IIR filters analysis and realizations. State variable modeling. Sampling, filtering, and other applications. Computer simulations.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

EE 220 - Radio Frequency Integrated Circuit Design I (RFIC Design I)

3 unit(s)

Study of transmitter and receiver architectures and their building blocks for modern wireless communication standards, high frequency modeling of passive and active circuit components realized in CMOS and

BiCMOS technologies, networks theory, wideband matching, nonlinearity and noise link budgets.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

EE 221 - Semiconductor Devices I

3 unit(s)

Study of semiconductors in equilibrium and nonequilibrium conditions; principles of semiconductor device fabrication, p-n junctions; and junction transistors; device modeling for circuit analysis.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

EE 222 - Advanced Integrated Devices

3 unit(s)

Complementary Metal-Oxide Semiconductor (CMOS) device scaling; Silicon-On-Insulator (SOI) and 3D transistor technologies; Device modeling and simulation; Surveys on Wide-Band-Gap power electronics; 3D and cross-point memories, neuromorphic computing, opto-electronics and superconductor electronics.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

EE 223 - Analog Integrated Circuits

3 unit(s)

Introduction to analog integrated circuits. Bipolar and MOS transistor models. Analysis and design of monolithic operational amplifiers. Frequency response. Feedback amplifier theory and design. Applications to specific case studies, such as phase-locked oscillators and wide-band amplifiers. Switched-capacitor filters.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

EE 224 - High Speed CMOS Circuits

3 unit(s)

Analysis and design of digital integrated circuits; bipolar and MOS inverters and logic gates; semiconductor memories; gate arrays; standard cells; programmable logic array; computer-aided design; SPICE program is used extensively.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

EE 225 - Introduction to Quantum Computing

3 unit(s)

Basic linear algebra with an emphasis on quantum computing will be introduced followed by quantum gates and quantum algorithms such as Shor's algorithm. Simulation and hardware implementation will be used to enhance the learning experience. Requires a minimal background in linear algebra and quantum mechanics.

Prerequisite(s): Graduate standing or instructor approval.
Grading: Letter Graded

EE 226 - Cryogenic Nanoelectronics

3 unit(s)

Introduces the cryogenic nanoelectronics used in emerging technologies, such as quantum computers. The cryogenic and room temperature properties of the devices and circuits will be discussed and contrasted. Design skills of nanoelectronics devices and circuits at cryogenic temperature will be emphasized.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded

EE 230 - Radio Frequency Integrated Circuit Design II

3 unit(s)

Low noise amplifiers, mixers, power amplifiers, LC voltage controlled oscillators, phase shifters, patch antennas and advanced layout to improve noise, stability, efficiency and bandwidth performance of nanoscale CMOS integrated circuits.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded

EE 231 - Automatic Control Theory

3 unit(s)

Fundamentals of state space techniques in the analysis and synthesis of dynamic control systems; relationship to classical control theory via the Laplace transform; controllability; observability; performance indices discrete systems; introduction to optimal control and Kalman filtering.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded

EE 237 - Vector Control of AC Machines

3 unit(s)

This course introduces modeling and control of electrical drive for AC motors and generators including induction, permanent magnet, and synchronous machines. The dynamic model, control methods, current regulation, and space vector modulation are discussed by both analysis and computer simulation.

Prerequisite(s): EE 210
Grading: Letter Graded

EE 238 - Advanced Power Electronics

3 unit(s)

Adv. study of switching regulators in power management, including energy conversion topologies, state space averaging techniques, assessing voltage mode/current mode control to embedded hardware. Applications include photo-voltaic /solar grid-tied inverters, active power factor correction, analysis, computer simulation.

Prerequisite(s): Graduate Standing
Grading: Letter Graded

Sustainability Focused - SDG 7: Affordable and Clean Energy

EE 239 - Advanced Applications of Power Converters

3 unit(s)

Covers advanced applications for power electronic converters including the design and simulation of power converters in renewable energy systems such as solar energy and wind energy, electrified transportation including electric vehicles and electrified aircrafts, and data centers.

Prerequisite(s): Graduate Standing or instructor consent.
Grading: Letter Graded

EE 250 - Probabilities, Random Variables and Stochastic Processes

3 unit(s)

Random variables, random processes, power spectral density, optimum linear systems, queuing theory.

Prerequisite(s): Graduate standing.
Grading: Letter Graded

EE 251 - Digital Communication Systems

3 unit(s)

Review of random processes. Gaussian noise. Sampling, quantization and pulse transmission. Bandlimited channels and equalization. Signal space analysis. Digital modulation techniques. Tradeoffs between power and transmission rate.

Prerequisite(s): EE 250.
Grading: Letter Graded

EE 252 - Advanced Communication Systems

3 unit(s)

Digital modulation techniques for power and bandwidth limited communication systems. Offset QPSK, GMSK, noncoherent modulation and detection. Multipath fading channels, diversity and combining methods.

Prerequisite(s): EE 250
Grading: Letter Graded

EE 253 - Digital Signal Processing

3 unit(s)

DSP systems analysis and design. Spectral analysis and spectrograms. FIR and IIR digital filters. Quantization effects. Decimation, interpolation, and sample rate conversion. Perfect reconstruction filter banks. The discrete wavelet transform and applications. Computer implementations.

Prerequisite(s): Graduate standing or instructor consent

Grading: Letter Graded

EE 254 - Machine Learning for Signal Processing

3 unit(s)

Comprehensive introduction to classical and modern data-driven machine learning for signal/image processing algorithms and applications. Optimal adaptive signal processing. Steepest and stochastic gradient descent implementations. General least-square linear regression. Basic signal/data classification algorithms. Introduction to deep learning implementations. Principal and independent components analyses. Sparse signal representation and sparsity promoting algorithms. Compressed sensing. Example applications.

Prerequisite(s): Graduate standing

Grading: Letter Graded

EE 257 - Machine Learning for Electrical Engineers

3 unit(s)

Introduction to machine learning for electrical engineers. Course covers statistical models for data analysis, inference, and prediction. Case studies and projects related to applications in Electrical Engineering.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

EE 258 - Neural Networks

3 unit(s)

Fundamentals and applications of neural networks and learning processes. Course covers models of a neuron, perceptrons, Linear Mean Square (LMS) algorithm, multilayer perceptrons, back propagation algorithm, and radial basis function networks. Deep feedforward networks, regularization for deep learning, and optimization for deep models. Convolutional neural networks. Recurrent and recursive networks.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

EE 259 - Selected Topics in Signal Processing

3 unit(s)

Advanced topics in signal processing. Content varies from semester to semester.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

EE 260 - RFID Systems

3 unit(s)

This course gives an introduction to RFID systems. Emphasis is on RFID technology applications in biomedical devices, object tracking and identification. Complemented with practical laboratory experiments. A final project (written report and oral presentation) covers RFID applications in a topic of interest to the student.

Prerequisite(s): EE 251 or instructor consent.

Grading: Letter Graded

EE 263 - Digital Image Processing

3 unit(s)

Teaches the fundamental principles and algorithms for digital image processing and introduces students to computer vision and important applications. Topics include image formation, modeling, transforms, enhancement, segmentation, representation, feature extraction, and object recognition. Through a set of homework assignments and a comprehensive project, students will implement cutting-edge computer vision algorithms.

Prerequisite(s): Graduate Standing.

Grading: Letter Graded

EE 265 - Software-Defined Radio Communications

3 unit(s)

Experimental approach to designing and building wireless communications. Topics include analog/digital transmission, ADC/DAC, and wireless channel modeling. Students are exposed to MATLAB, software defined radios (USRP boards), GNU Radio, GRC (GNU Radio Companion) in homework assignments and projects.

Prerequisite(s): EE 210 or instructor consent.

Grading: Letter Graded

EE 267 - Computer Vision with Artificial Intelligence Applications

3 unit(s)

Fundamental concepts of computer vision and image processing with applications in artificial intelligence (AI). The course first covers basic techniques of digital image processing and computer vision, including image convolution, transformation, segmentation, and pattern recognition. In connection with these techniques, the theory of Convolutional Neural Network (CNN) and related DNN is covered, with AI applications including object recognition and scene understanding for various autonomous systems.

Prerequisite(s): Graduate Standing or instructor consent.

Grading: Letter Graded

EE 270 - Advanced Logic Design

3 unit(s)

Logic design theory, advanced logic minimization, design and analysis of sequential circuits, asynchronous circuit design, logic circuit testing and design for testability. Review Verilog/VHDL. CAD tools are used for design, modeling and simulation.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

EE 271 - Digital System Design and Synthesis

3 unit(s)

In depth study of concepts and practices in modern digital system design, such as high-speed arithmetic, cache memory design, advanced pipelining and processor design. Verilog or VHDL is used for simulation and synthesis.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

EE 272 - SoC Design & Verifi. with System Verilog

3 unit(s)

The course covers topics in System-on-Chip design and verification with SystemVerilog. Major topics include top-down SoC design; design metrics, techniques, and system-level synthesis; IP integration and system-level verification; SystemVerilog design hierarchy, data types, assertions, interfaces, verification constructs, and testbench structures.

Prerequisite(s): EE 271 or instructor consent.

Grading: Letter Graded

EE 273 - Logic Verification with UVM

3 unit(s)

Covers non-design System Verilog and Universal Verification Methodology (UVM). It introduces logic verification methodologies and techniques. No prior object oriented programming is assumed. UVM is practiced on sample designs in lab projects with industrial simulation tools.

Prerequisite(s): EE 271 or instructor consent.

Grading: Letter Graded

EE 274 - Quantum Computing Architectures

3 unit(s)

Introduce the hardware implementations of qubits. Josephson Junction superconducting qubit, spin qubit in quantum dots, trapped ion qubit, photonic qubit, and other types of physical qubits will be discussed. The manipulation and read-out techniques of the qubits will be covered.

Prerequisite(s): EE 225 or PHYS 161 or instructor approval.

Grading: Letter Graded

EE 275 - Advanced Computer Architectures

3 unit(s)

Performance metrics, instruction set architectures, instruction pipelining and pipeline hazards, instruction-level parallelism, multithreading, cache and virtual memory, I/O performance and advanced topics in storage systems, topologies and hardware/software issues of interconnection networks.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

EE 277 - Embedded Systems Design

3 unit(s)

Design, implement, and test a processor on the FPGA hardware using high-level functional specifications, standard hardware description, and software programming languages.

Prerequisite(s): Graduate standing or instructor approval.

Grading: Letter Graded

EE 277A - Embedded SoC Design

3 unit(s)

Embedded system design challenge and metrics. Processor and compiler technologies. Software and hardware architectures for embedded system design. The design of co-processors, parallel processors, graphics processors and MPSOC processors. Basic concept of high performance computing (HPC)

Prerequisite(s): Graduate Standing.

Grading: Letter Graded.

EE 278 - Digital Design for AI and DSP

3 unit(s)

Digital design and FPGA/ASIC/VLSI-based implementation of high-performance DSP/AI/Machine Learning systems. FPGA and GPU architectures, various deep neural network design examples of video/imaging/speech and AI/machine learning include applications to object recognition for autonomous vehicles and speech recognition.

Prerequisite(s): EE 271.

Grading: Letter Graded

EE 279 - Special Topics in Digital Systems

3 unit(s)

Advanced topics in digital systems. Content varies from semester to semester.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

EE 280 - Advanced Network Security

3 unit(s)

Current topics in advanced network security topics related to IoT systems, blockchain, SDN (software-defined networks), wireless networks, and cloud computing. Machine/deep learning with applications in network security. Course blends theory and practice.

Prerequisite(s): EE 281 and EE 209 or instructor consent

Grading: Letter Graded

EE 281 - Internetworking

3 unit(s)

Network layers, packet networks, ATM, SONET, TCP/IP protocols, high-performance switches and routers, queuing theory, error detection coding, quality of service, multicast, IPv6.

Prerequisite(s): EE 250 or equivalent. Allowed Declared Major: Electrical Engineering.
Grading: Letter Graded

EE 282 - Internet Security and Cryptography

3 unit(s)

Internet security principles, protocols and crypto hardware designs, private and public key cryptosystems, DES, RSA, and AES, GPF(p) and encryption engines, hash functions and digital signatures, authentication, key management and security assessments.

Prerequisite(s): EE 281 or equivalent.
Grading: Letter Graded

EE 282A - Reinforcement Learning for Multi-Robot Networks

3 unit(s)

Focus on decentralized multi-robot networks. Deep Q-Learning is applied to robot planning problems followed by strategies for reducing training complexity. Ad-hoc networking protocols are studied for inter-agent coordination, along with simulations of multi-robot tracking.

Prerequisite(s): EE 250.
Grading: Letter Graded

EE 283 - Broadband Communication Networking

3 unit(s)

Broadband Networks Overview, Tunneling, VPNs, and Multi-Protocol Label Switching (MPLS); All-Optical Networks, Architecture of High-Speed Switches and Routers, Data Center Networks, Network Virtualization, Software-Defined Networking (SDN), Packet Delay and Network Queueing Models, and Quality of Service.

Prerequisite(s): EE 281 or equivalent.
Grading: Letter Graded

EE 284 - VoIP and Multimedia Networks

3 unit(s)

Public-Switched Telephone Network and SS7 Protocol, Voice over IP (VoIP) Signaling Protocols, H.323, Session Initiation Protocol (SIP), Internetworking VoIP, Regular, and Wireless Cellular Networks, Media Gateways, Media Preparation and Compression, Codecs, Multimedia Networks, IPTV, VoD, Content Delivery Networks (CDNs).

Prerequisite(s): EE 281 or equivalent
Grading: Letter Graded

EE 286 - Mobile and Wireless Networking

3 unit(s)

This course covers recent and upcoming networking topics on mobile and wireless scenarios and applications. The course focuses on mobile and wireless network standards including cellular (LTE), Wi-Fi, Bluetooth, and routing algorithms including DSDV, DSR, TORA, and AODV.

Prerequisite(s): EE 250
Grading: Letter Graded

EE 287 - ASIC CMOS Design

3 unit(s)

CMOS ASIC design principles. Topics include ASIC architectures, cell libraries, synthesis issues, latches, clocking multiple clock synchronizers, delay calculation, timing closure, I/O specification, and testing.

Prerequisite(s): EE 271 or Instructor consent.
Grading: Letter Graded

EE 288 - Data Conversions/Analog Mixed Signal ICs

3 unit(s)

Study of different architectures for analog to digital convertors and digital to analog convertors. System level modeling & simulation. Design considerations and techniques for circuit implementation. Data conversion testing methods.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

EE 289 - Special Topics in Networking

3 unit(s)

Advanced topics in networking that are currently of high interest to both industry and academia. Content varies from semester to semester, and may include, but not limited to, network security, virtual private network, network availability and reliability, network management.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded

EE 295 - Technical Writing - Engineering Ethics

3 unit(s)

Students learn to analyze and write about issues in engineering ethics. Three types of ethics are explored: ethics of the person, the process, and the product.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Graduate standing.
Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Sustainability Related - SDG 7: Affordable and Clean Energy

EE 297A - MSEE Project Proposal

3 unit(s)

Written project proposal development for MSEE research/design project, subsequently culminating in EE 297B or EE 299B. Approval of project title and abstract by project advisor and graduate seminar participation required.

9 hours lab.

Prerequisite(s): Classified Standing, GPA of 3.0, satisfied GVAR requirement or EE 295 may be taken concurrently.

Grading: Credit/No Credit/Incomplete.

EE 297B - MSEE Project

3 unit(s)

Implementation of the research/design project, culminating the MSEE work proposed in EE 297A or EE 299A. Formal Master's project report and its formal defense required.

Prerequisite(s): EE 297A or EE 299A with grade of CR. Satisfaction of GVAR (EE 295 or ENGR 200W with C or better).

Grading: Letter Graded/RP.

EE 298 - Special Problems

1-6 unit(s)

Advanced individual work in electrical engineering.

Prerequisite(s): Graduate standing. Not available to Open University Students

Grading: Mandatory Credit/No Credit/RP

EE 298I - Electrical Engineering Internship Experience

1-3 unit(s)

For this course a student is employed in industry as an electrical engineering intern or in an equivalent position. The course supplements and supports student's plan of study.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): Graduate standing.

Grading: Mandatory Credit/No Credit/RP

EE 299A - MSEE Thesis Proposal

3 unit(s)

Written Thesis proposal development for research/design, subsequently culminating the MSEE work in EE 299B or EE 297B. Approval of thesis title and abstract by thesis advisor and graduate seminar participation are required.

Prerequisite(s): Classified standing, minimum GPA of 3.0, satisfied GVAR requirement or EE 295 may be taken concurrently.

Grading: Credit/No Credit/Incomplete.

EE 299B - MSEE Thesis

3 unit(s)

Implementation of the research/design, culminating the MSEE work proposed in EE 299A or EE 297A. Formal Master's Thesis report and its formal defense required.

Prerequisite(s): EE 297A or EE 299A with grade of CR and satisfied GWAR requirement

Grading: Mandatory Credit/No Credit/RP

EE 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project beyond minimum required units, for cases in which final deliverables are still in progress.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): RP grade in a preceding thesis or project semester

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Elementary Education

EDEL 102 - Psychological Foundations of Education

3 unit(s)

Cognitive, affective and social/emotional development related to school settings. Theories of development, learning and instruction critically examined. Other topics include individual differences, measurement, evaluation, instructional goals, classroom management and diversity in the classroom.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

EDEL 108A - Curriculum: Reading/Language Arts

3 unit(s)

Elementary school language/literacy acquisition in culturally diverse classrooms; emphasis on listening, speaking, reading and writing within the context of theory and practice. May be repeated for different subtitle.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

EDEL 108B - Curriculum: Science

3 unit(s)

Elementary school science curriculum and theoretical approaches; emphasis on materials, methods, content and evaluation procedures for teaching science in elementary and middle schools in a multicultural and technological society. May be repeated for different subtitle.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

EDEL 108C - Curriculum: Social Studies

3 unit(s)

Elementary school social studies curriculum and instruction with emphasis on the influence of ethnic, linguistic, cultural, economic, gender and disability factors on present day culture.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

EDEL 108D - Curriculum: Mathematics

3 unit(s)

Elementary school mathematics curriculum and methodology relationships between instructional materials and how children construct knowledge; the role of technology and issues that bear on the teaching of school mathematics. May be repeated for different subtitle.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

EDEL 108E - Teaching Reading in Linguistically and Culturally Diverse Classrooms

3 unit(s)

Assessing and teaching reading in diverse classrooms in grades K-8. Integrates research, theory and practice. Requires some classroom observation and working in schools with K-8 students.

Course is repeatable for up to 6 units.

Prerequisite(s): LING 108, ENGL 103 or LING 107.
Grading: Letter Graded

Note(s): Should be taken in final semester of undergraduate program.

EDEL 143A - Beginning Student-Teaching (Phase I)

1-6 unit(s)

Role of state and local government in education. Clinical observation of classroom, school and district organization. Emphasis on lesson planning.

Prerequisite(s): EDTE 162 or EDTE 262.
Grading: Credit/No Credit

EDEL 143B - Advanced Student-Teaching (Phase II)

1-10 unit(s)

Practicum in public school classrooms at two grade levels for student teaching experience; includes field

and campus seminar. Supervision by College of Education faculty.

Prerequisite(s): EDEL 143A.

Grading: Credit/No Credit

EDEL 143P - Introduction to Student Teaching

1 unit(s)

Clinical observation of classroom, school and district organization. Emphasis on lesson planning.

Activity 2 hours.

Repeatable for credit up to 2 units.

Prerequisite(s): Enrolled in a multiple subject credential program.

Grading: Credit/No Credit.

EDEL 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

English

ENGL 1A - First Year Writing

3 unit(s)

English 1A is an introductory course that prepares students to join scholarly conversations across the university. Students develop reading skills, rhetorical sophistication, and writing styles that give form and coherence to complex ideas for various audiences, using a variety of genres.

Satisfies A2: Written Communication.

Prerequisite(s): Completion of Reflection on College Writing

Grading: Letter Graded

ENGL 1AF - First-Year Writing: Stretch English I

3 unit(s)

Stretch I is the first semester of a year-long ENGL 1A that prepares students to join scholarly conversations across the university. Students develop reading skills, rhetorical sophistication, and writing styles that give form and coherence to complex ideas for various audiences, using various genres.

Prerequisite(s): Completion of Reflection on College Writing.

Grading: Credit/No Credit

ENGL 1AS - First-Year Writing: Stretch English II

3 unit(s)

Stretch II is the second semester of a year-long ENGL 1A that prepares students to join scholarly conversations across the university. Students develop reading skills, rhetorical sophistication, and writing styles that give form and coherence to complex ideas for various audiences, using various genres.

Satisfies A2: Written Communication.

Prerequisite(s): ENGL 1AF Stretch English I

Grading: Letter Graded

ENGL 1B - Argument and Analysis

3 unit(s)

English 1B is a writing course that focuses on argumentation and analysis. Through the study of literary, rhetorical, and professional texts, students will develop the habits of mind required to write argumentative and critical essays. Particular emphasis is placed on writing and reading processes. Students will have repeated practice in prewriting, drafting, revising, and editing, and repeated practice in reading closely in a variety of forms, styles, structures, and modes.

Satisfies C2: Humanities.

Prerequisite(s): ENGL 1A or ENGL 1AS with a C- or better.

Grading: Letter Graded

Note(s): ENGL 1B is not open to students who successfully completed ENGL 2.

ENGL 2 - Critical Thinking and Writing

3 unit(s)

Focuses on the relationship between language and logic in composing arguments. Students learn various methods of effective reasoning and appropriate rhetorical strategies to help them invent, demonstrate, and express arguments clearly, logically, and persuasively.

Satisfies A3: Critical Thinking and Writing.

Prerequisite(s): Completion of GE Area A2 with a grade of C- or better.

Grading: Letter Graded

Note(s): ENGL 2 is not open to students who successfully completed ENGL 1B.

ENGL 10 - Great Works of Literature

3 unit(s)

Fiction, drama and poetry for non-English majors. Emphasis on critical appreciation of various literary forms.

Satisfies C2: Humanities.

Grading: Letter Graded

Note(s): No credit in the English major.

ENGL 20 - The Graphic Novel

3 unit(s)

Approaching the graphic novel as a form of popular literature, students examine the narrative and textual aspects of the form including the function of the text, its integration with the graphics, and formal aspects of narrative such as plot, character, theme, and symbol.

Satisfies C2: Humanities.

Grading: Letter Graded

ENGL 21 - Mystery and Detective Fiction

3 unit(s)

Examines mystery or detective fiction from its inception in the 19th century and follow it across the globe as the genre has been taken on and developed by a variety of cultures.

Satisfies C2: Humanities.

Grading: Letter Graded

ENGL 22 - Fantasy and Science Fiction

3 unit(s)

Students will examine works of literary fantasy and science fiction to understand them as expressions of human intellect and Imagination; to comprehend their historical and cultural contexts; and to recognize their diverse cultural traditions. Both contemporary and historical works will be studied.

Satisfies C2: Humanities.

Grading: Letter Graded

Note(s): No credit in the English major.

ENGL 30 - Literature and the Environment

3 unit(s)

Explores the ways in which writers and literary texts engage environmental issues and represent the natural world and humanity's place in it, paying close attention to issues of ecology, the landscape, conservation, sustainability, and human intervention/interference. Possible areas of inquiry include nature writing, ecofeminism, ecocriticism, environmental justice, postcolonial environments, and the Anthropocene.

Satisfies C2: Humanities.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

ENGL 40 - Contemporary World Fiction

3 unit(s)

A study of selected works of fiction in English and in English translation written since 1975. The course both focuses on international texts that address significant themes of our time and explores ways of reading and understanding literature.

Satisfies C2: Humanities.

Grading: Letter Graded

Note(s): No credit in the English major.

ENGL 50 - Beginnings to the American Experiment

3 unit(s)

Exploration of Anglo-Saxon, Medieval, Renaissance, and Early Colonial Writings in Britain, Europe, and America. Class engages literary text, literary history, and historical events that shape the literature and social constructs of the period.

Prerequisite(s): ENGL 1A.

Grading: Letter Graded

ENGL 60 - Literatures of the Atlantic World, 1680-1860

4 unit(s)

Examination of literatures arising out of the circulation of ideas and people across the Atlantic, with particular focus on the formation of distinctly British and American literary traditions within a global context.

Prerequisite(s): ENGL 1A.

Grading: Letter Graded

ENGL 70 - Emerging Modernisms and Beyond

3 unit(s)

Exploration of Modernist and twentieth-century writings. Class engages literary text, literary history, and historical events that shape the literature of the period.

Prerequisite(s): ENGL 1A.

Grading: Letter Graded

ENGL 71 - Creative Writing

3 unit(s)

Examinations of works of poetry, creative nonfiction and short fiction as expression of human intellect and imagination, to comprehend the historic and global cultural contexts, and recognize issues related to writing of diverse cultural traditions. Students will also write poetry, creative nonfiction, and short fiction.

Satisfies C1: Arts.

Grading: Letter Graded.

ENGL 78 - Introduction to Shakespeare's Drama

3 unit(s)

Reading of five or six representative plays. The Elizabethan era, dynamics of performance and close analysis of the plays.

Satisfies C2: Humanities.

Grading: Letter Graded

Note(s): No credit in the English major.

ENGL 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ENGL 96RWS - Integrating Reading and Writing

1 unit(s)

Co-requisite course offered in conjunction with a primary content-area course in which students engage reading and writing activities to learn disciplinary content. Activities support students to learn about their own learning processes as they build content knowledge in a discipline.

Course may be repeated for credit for up to 2 units.

Corequisite(s): Early Start or GE course

Grading: Credit/No Credit

ENGL 100A - Writing Competency Through Genres

3 unit(s)

Prepares students for 100W through drafting, feedback, and revision to demonstrate writing competency. Develops ability to analyze written genres used in the students' chosen disciplines as well as write analytical and reflective essays.

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE.

Grading: Letter Graded.

ENGL 100W - Writing Workshop

4 unit(s)

Integrated writing and literature course to develop advanced proficiency in college-level reading and writing that broadens and deepens understanding of forms and genres, audiences, and purposes of college writing developed in lower-division composition courses while developing mastery of the discourse and methods specific to the field of English literary studies. Repeated practice in close reading of literary texts, writing and revising informal and formal essays of literary analysis, and peer review of other students' writing.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level. Allowed Declared Majors: English. Other College of Humanities & Arts majors must ask for department consent.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR). Required of all English majors before they achieve senior standing.

ENGL 100WB - Written Communication: Business

3 unit(s)

Written communications for business majors; includes minimum of 8,000 words of writing spaced throughout the semester.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Allowed Declared Majors: All Business Administration majors, Industrial Arts, Industrial Technology, Professional & Technical Writing, Public Relations, Hospitality Management, Organizational Studies. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

ENGL 101 - Introduction to Literary Criticism

4 unit(s)

Study and application of various historical and contemporary approaches, including foundational twentieth-century theory as well as contemporary approaches. Applications of critical models to various literary, visual, and digital texts.

Prerequisite(s): ENGL 100W.

Grading: Letter Graded

ENGL 103 - Modern English

4 unit(s)

The growth and structure of modern English, including its phonology, morphology, syntax and semantics. Attention to social and regional varieties, with implications for language development and literacy among

native and nonnative speakers.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 105 - Seminar in Advanced Composition

4 unit(s)

Advanced expository writing.

Prerequisite(s): Upper-division standing required. Prior completion of ENGL 100W is suggested but not required.

Grading: Letter Graded

ENGL 106 - Professional and Technical Editing

4 unit(s)

Copy editing, substantive editing, and reorganization of technical documents. Review of grammar and punctuation to ensure technical mastery and ability to justify editing decisions. Graphics editing, access aids, and professional skills of an editor.

Prerequisite(s): ENGL 2 or A3 equivalent

Grading: Letter Graded

ENGL 107 - Professional and Technical Writing

4 unit(s)

Survey of professional and technical writing. Students learn how to write and design persuasive documents that get real things done in the real world. Projects include resumes, instructions (video and print), presentations, user manuals, and augmented reality apps. Includes learning digital tools used to author and publish writing in the current tech landscape such as DITA, Augmented Reality (AR), SnagIt, Adobe Premiere, and Madcap Flare.

Prerequisite(s): ENGL 2 or A3 equivalent.

Grading: Letter Graded

ENGL 108 - Gaming and Narrative

4 unit(s)

Study of the relationship between literary narrative theory and games, especially plots that branch and fork to produce different stories with different endings in a wide variety of interactive narrative material, including print, film, and software.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Note(s): Complements ART/ CS 108 - Introduction to Game Studies (programming & design).

ENGL 109 - Writing and the Young Writer

4 unit(s)

Emphasis on workshop approach to improve creative and expository writing skills and to transfer knowledge gained as a writer into practice as a prospective teacher of writing.

Grading: Letter Graded

ENGL 110 - UX Design and Visual Communication

4 unit(s)

Combines visual rhetorical theory with design techniques to teach writers about the visual aspects of written and digital communication. In this hands-on course, students design documents, including a poster, a book chapter, and promotional materials for local nonprofits.

Prerequisite(s): ENGL 100W

Grading: Letter Graded

ENGL 111 - Strategic Digital Content and Social Media Writing

4 unit(s)

Content writing and management, creating effective and ethical content, content auditing, integration, and assessment. Applications may include social media posts/campaigns, website copy, promotional materials, videos, podcasts, product and event descriptions, blog posts or articles, how-to/user guides, infographics, and FAQ pages. Activities include producing reports, conducting user research, and giving verbal presentations.

Prerequisite(s): Upper-division standing.

Grading: Letter Graded

ENGL 112A - Children's Literature

3 unit(s)

Study of literature for elementary and intermediate grades, representing a variety of cultures. Evaluation and selection of texts.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 112B - Literature for Young Adults

4 unit(s)

Study of selected literary material, representing a variety of cultures, chosen to motivate secondary school readers.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 113 - Gothic and Horror Fiction

4 unit(s)

Study of the rise of the Gothic from the 19th Century into the 20th & 21st- centuries. Texts may include novels, short stories, games, episodic television, movies, graphic novels, etc.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 115 - The Bible as Literature

4 unit(s)

Study of the Bible from the perspective of literature, examining key portions of the Bible, its subjects, themes, literary styles and genres, and contributions to Western Literature.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 116 - Myth in Literature

4 unit(s)

Relations between archetypes, artistic style and cultural context in masterworks, ancient through modern.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 117A - American Literature, Film, & Culture

3 unit(s)

Using both film and literature, course examines narratives that create and define cultural identities in the United States. A variety of cultural moments in the history of North America as depicted in both film and literature as well as the artistic practices used to shape those representations will be discussed.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

ENGL 117B - Global Film, Literature, and Cultures

3 unit(s)

Using films and literary works, students will appreciate and understand the narratives (myths and other stories) that create and define cultural identity, explore cultural interaction, and illustrate cultural preservation and cultural difference over time.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

ENGL 120 - Theatre History

3 unit(s)

Examines the historical roots, many manifestations, and diversity of theatrical performances with particular

attention to theatre's role within and between cultures.

Prerequisite(s): TA 11 or instructor consent.

Grading: Letter Graded

Cross-listed with TA 120. Film and Theatre is responsible for scheduling.

ENGL 122 - Topics in Comparative World Literature

4 unit(s)

An exemplary theme as treated in various literatures from different national sites, e.g., war, love, freedom, colonialism, environmental disaster.

Grading: Letter Graded

Cross-listed with COLT 122 / FORL 122 / HUM 122. English and Comparative Literature is responsible for scheduling.

ENGL 123A - Literatures of the Americas

3 unit(s)

Examines the literatures of the Americas including the cultural, historical, and political contexts from which they emerge.

Satisfies SJSU Studies Area V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Related - SDG 10: Reduced Inequalities

ENGL 123B - Literatures of Africa

3 unit(s)

Examines the literatures of Africa, including the historical, cultural, and political contexts from which they emerge.

Satisfies SJSU Studies Area V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Related - SDG 10: Reduced Inequalities

ENGL 123C - Literatures of the Pacific

3 unit(s)

Examines the literatures of the Pacific Rim, including Australia, New Zealand, and Samoa, and the historical, cultural, and political contexts from which they emerge.

Satisfies SJSU Studies Area V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Related - SDG 10: Reduced Inequalities

ENGL 123D - Literatures of Asia

3 unit(s)

Course examines the literatures of Asia including the historical, cultural, and political contexts from which they emerge.

Satisfies SJSU Studies Area V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Related - SDG 10: Reduced Inequalities

ENGL 125 - Ancient Literatures

4 unit(s)

A survey course that allows for a critical examination of influential texts from before 1350 CE.

Prerequisite(s): Upper division standing.

Grading: Letter Graded.

ENGL 126 - Holocaust Literature

3 unit(s)

Survey of literature written by survivors or witnesses of the Holocaust, the destruction of European Jewry during World War II, focusing upon diaries, memoirs, fiction, and occasionally poetry and drama. Writers may include Elie Wiesel, Primo Levi, Anne Frank, Charlotte Delbo.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with FORL 126 / HUM 126 / JWSS 126. English and Comparative Literature is responsible for scheduling.

ENGL 127 - Contemporary Theatre

3 unit(s)

Contemporary plays from 1980s to present and important theatre practices for this period. Explores

contemporary theatre by critically examining selected plays and productions of the last fifty years. The course will concentrate how the selected plays and productions express the diversity and complexity of postmodern society. The class will look at various performance styles and how they are a direct response and/or reaction to major changes in the social and political landscape. The course will focus on how theatre represents contemporary views of people, events and ideas through specific performance discourses.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with TA 127. Film and Theatre is responsible for scheduling.

ENGL 128 - Introduction to Playwriting

3 unit(s)

Writing in dramatic form: plot structure, characterization, content and theme. Analysis of plays. Exercises in writing.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with TA 128. Film and Theatre is responsible for scheduling.

ENGL 129 - Writing for Professional Publications

4 unit(s)

Professional and workplace writing where students learn new writing skills and expand their professional portfolio. Content may include writing for social media, marketing copy, nonprofits, and website content. Students write to get published on topics such as food, music, movies, video games, fashion, high-tech, and science. Class projects may include feature articles, reviews, interviews, marketing plans, the English Department magazine, an in-class podcast series, instructional videos, and a weekly updated blog.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 130 - Writing Fiction

4 unit(s)

Workshop in short stories or other short fiction. Beginning the novel in individual cases. May be repeated twice for credit.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): ENGL 71 (or equivalent) or instructor consent.

Grading: Letter Graded

ENGL 131 - Writing Poetry

4 unit(s)

Workshop in verse forms. Study of traditional and contemporary models. May be repeated twice for credit.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): ENGL 71 (or equivalent) or instructor consent.

Grading: Letter Graded

ENGL 133 - Reed Magazine

4 unit(s)

Student-edited and managed literary magazine. Contents selected from local, national and international submissions. Students urged to work on the magazine for the two semesters required for publication. Open to all majors. May be repeated once for credit.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 135 - Writing Nonfiction

4 unit(s)

Advanced creative writing workshop in literary nonfiction. Study of legacy and contemporary models.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): ENGL 71, ENGL 100W, ENGL 105, ENGL 129 or instructor consent.

Grading: Letter Graded

ENGL 139 - Visiting Authors

4 unit(s)

Study of works by contemporary writers participating in the Major Authors series and other programs sponsored by the Center for Literary Arts. Includes meetings with visiting authors and attending their various presentations. Recommended for the Creative Writing Concentration.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 140A - Old English

4 unit(s)

Introduction to the language, with short selections for translation.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 140B - Beowulf

4 unit(s)

This class is the second class in a year-long sequence of Old English. Students will be translating all 3,182 lines of Beowulf and investigating its linguistic, historical and cultural context as the first epic poem recorded in the English language.

Prerequisite(s): ENGL 140A or equivalent

Grading: Letter Graded

ENGL 141 - Medieval Literature

4 unit(s)

Middle English and continental literature, including such forms as the lyric, allegory, narrative, romance and biblically-based drama.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with HUM 141. English and Comparative Literature is responsible for scheduling.

ENGL 142 - Chaucer

4 unit(s)

Chaucer's language and major poetic works. The Legend of Good Women, The Canterbury Tales and Troilus and Cressida.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 144 - Shakespeare I

4 unit(s)

Major plays such as Twelfth Night, Henry IV, Part I and Hamlet.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with TA 144. English and Comparative Literature is responsible for scheduling.

ENGL 145 - Shakespeare and Performance

4 unit(s)

Course examines in depth several of Shakespeare's plays, specifically addressing issues of performance. We will discuss each play in the context of its original performance during Shakespeare's time and its life on stage and screen in the ensuing centuries.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with TA 145. English and Comparative Literature is responsible for scheduling.

ENGL 146 - Studies-Early Modern British Literature

4 unit(s)

Offers students the opportunity to study the poetry, drama, and prose of the influential early modern period in England. The course is broadly construed, enabling individual professors to focus on topics relating to their particular areas of expertise and/or interests.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 151 - 20th and 21st Century Poetry

4 unit(s)

Intensive study of selected poets from the twentieth and twenty-first centuries. Also developments in poetic craft and theory.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 153 - Studies in the British Novel Before 1900

4 unit(s)

Study of the origin, evolution, and spread of the British novel through the 18th and 19th centuries in a global context.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 156 - Black Women's Writing

3 unit(s)

Comparative analysis of the meaning and developmental stages of womanhood for women of African ancestry as depicted in the fiction of women of African ancestry. Emphasis on the role of race and culture in shaping contemporary conceptions of womanhood among Black women.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with AFAM 156 / WGSS 156. African American Studies is responsible for scheduling.

Sustainability Related - SDG 10: Reduced Inequalities

ENGL 157 - Topics in Rhetorical Analysis

4 unit(s)

Focused study of a topic in the theory and practice of rhetoric, such as feminist rhetorics, rhetoric of graphic design, political rhetoric, or rhetorics of new/social media. Check schedule of classes for current offering.

Course is repeatable for up to 8 units.

Prerequisite(s): Upper Division Standing.

Grading: Letter Graded

ENGL 160 - Topics in American Literature

4 unit(s)

Focused study of a topic, period, or genre in American Literature. May include a range of course topics such as "Street Literature," "Ethnic American Memoir," "Narratives of Nation and Dystopia," and "Coming of Age in America." Topics may change; check catalog for current offering. Repeatable once for credit (8 units total) provided the subject matter is significantly different.

Course may be for credit for up to 8 units.

Prerequisite(s): Upper division standing.

Grading: Letter Graded.

ENGL 162 - Indigenous American Literatures

4 unit(s)

Study of texts by Indigenous American writers and storytellers, with genres including but not limited to oral traditions, fiction, poetry, oratory, and political discourse. Potential topics include issues of individual and tribal identity, survivance, and sovereignty.

Prerequisite(s): Upper division standing.

Grading: Letter Graded.

ENGL 163 - Asian American Literatures

4 unit(s)

Study of texts by Asian Americans from a range of periods or genres. Potential course topics include study of a single genre (such as memoir or drama) or a work by a single community (such as a class on Japanese American or Vietnamese American literature).

Prerequisite(s): Upper division standing.

Grading: Letter Graded.

ENGL 165 - Black American Literatures

4 unit(s)

Study of texts by Black American writers and storytellers, with genres including but not limited to oral traditions, fiction, poetry, autobiography, oratory, and political discourse. Potential topics include the development of a distinct literary tradition, Black-owned newspapers, freedom struggle, community formation, definitions of Blackness, and relevance of subject matter to current concerns of Black Americans.

Prerequisite(s): Upper division standing.

Grading: Letter Graded.

Cross-listed with AFAM 165. English and Comparative Literature is responsible for scheduling.

ENGL 166 - Latinx Literatures

4 unit(s)

Study of texts by Chicana and Latinx authors across forms and genres, including but not limited to poetry, fiction, drama, film, and graphic narrative. Potential topics include the politics of naming, histories of colonialism, ethnoracial and national identity, Indigenous and Afro-Latinx experiences, hyphenated and diasporic identities, and citizenship and migration.

Prerequisite(s): Upper division standing.

Grading: Letter Graded.

ENGL 167 - Steinbeck

4 unit(s)

Major works of John Steinbeck. Use of Steinbeck Center for research.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 168 - The American Novel

4 unit(s)

Study of the evolution of the novel in the United States, as well as the forces--political, intellectual, social, and cultural--that shaped the genre.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 169 - Ethnicity in American Literature

3 unit(s)

Study of expressions of ethnic and racial identity in American literature, with close attention to strategies of representation and resistance. Selected texts primarily arise out of the lived experiences of people of color, including Native Americans, Black Americans, Asian Americans, and Latinx Americans.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

ENGL 171 - Pop Cultures

4 unit(s)

Studies in popular literary and visual cultures across forms, mediums, and genres. Students critically examine historical and cultural contexts that shape 'popular' cultural productions and their reception.

Course can be repeated once for credit for up to 8 units provided the subject matter is significantly different.

Prerequisite(s): Upper-division standing.

Grading: Letter Graded.

ENGL 172 - The Arts in U.S. Society

3 unit(s)

Study of American arts and artists in their aesthetic, social, and political contexts, focusing on 20th and 21st centuries. Arts examined may include architecture, poetry, music, visual arts, dance, theatre, performance art, and fiction. Special emphasis on issues of cultural diversity and social justice.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with CA 172 / MUSC 172 / TA 172. Humanities is responsible for scheduling.

ENGL 173 - Thinking About Contemporary World Arts

3 unit(s)

An interdisciplinary investigation of the connections between the contemporary arts and global cultures. Use of critical and creative thinking to develop global understanding and to explore personal and cultural identities.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with CA 173 / MUSC 173 / TA 173. Humanities is responsible for scheduling.

ENGL 176 - The Short Story

4 unit(s)

Analysis and interpretation of selected short stories from the nineteenth century to the present.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 177 - Topics in Fiction Since 1900

4 unit(s)

Course will focus on different topics in modern fiction. Novels and short stories will be examined as works of art and as expressions of intellectual and social movements. May be repeated when course content changes.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 178 - Creative Nonfiction

4 unit(s)

The study of legacy texts in the genre of creative nonfiction and the historical influences which led to the genre's development.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 180 - Individual Studies

1-3 unit(s)

By arrangement with instructor and department chair approval.

Prerequisite(s): Upper division standing.

Grading: Credit/No Credit

ENGL 181 - Special Topics

4 unit(s)

Significant topics or themes in English or Comparative Studies.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 182 - Women, Gender, and Sexuality in Literature

4 unit(s)

Representations of women, gender, and sexuality in literature, with special attention to the intersecting structures of race, ethnicity, and class.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with WGSS 182. English and Comparative Literature is responsible for scheduling.

ENGL 183 - Major Authors

4 unit(s)

One major author's works. Author changes each semester.

Course may be repeated for credit when topic changes.

Prerequisite(s): Upper division standing.

Grading: Letter Graded.

ENGL 184 - Queer Literary Studies

4 unit(s)

Examination of queerness in literature, history, and culture. Explores queerness as it exists across historical contexts, tracing its manifestations in various literary genres and in other cultural artifacts such as film and television, including the ways gender and sexuality intersect with race, class, and ability, as they relate to identity formation and structures of power.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with WGSS 184 English and Comparative Literature is responsible for scheduling.

ENGL 190 - Honors Colloquium

4 unit(s)

Selected topics.

Prerequisite(s): Admission to departmental honors program.

Grading: Letter Graded

ENGL 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ENGL 199 - Writing Internship

3 unit(s)

Internship at a local industry, publisher, arts or public agency. Discussion of experiences and problems in the internship. Study of professional practices and demands, including those of career preparation and development.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): 3.0 GPA both overall and in English; no credit in English major.

Grading: Credit/No Credit

ENGL 201 - Materials and Methods of Literary Research

4 unit(s)

Use and evaluation of resource for literary research; problems in critical writing and literary history. Required for all English Masters students (to be taken as early as possible after achieving Classified standing).

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ENGL 202 - Poetic Craft and Theory

4 unit(s)

Poetry as a literary genre - its patterns and sub-types (such as the epic, lyric, pastoral, and elegy). Attention to the theories of poetics applied to practical criticism. Prior permission of graduate advisor may be repeatable once for credit.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

ENGL 203 - Narrative Craft and Theory

4 unit(s)

Study of prose fiction and nonfiction as a literary genre (with sub-genres) and an art which can be learned through imitation and analysis. Course emphasizes the formal and technical properties of prose narrative, with attention to Narratology. Prior permission of graduate advisor may be repeatable once for credit.

Grading: Letter Graded

ENGL 204 - Seminar in Modern Approaches to Literature

4 unit(s)

Study of modern approaches to the theory and practice of literary criticism. With prior permission of graduate advisor may be repeatable once for credit.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ENGL 207 - Global Anglophone Literatures

4 unit(s)

The study of literature in English since 1900 produced outside the Anglo-American core countries.

Grading: Letter graded.

ENGL 208 - Seminar in Comparative Literature

4 unit(s)

Study of selected topics in comparative literature. Students will be encouraged to do some reading and research in a language other than English. With prior permission of graduate advisor repeatable twice for credit.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ENGL 211 - Seminar in Twentieth Century Poetry

4 unit(s)

Intensive study of selected major English and American poets of the twentieth century. With prior permission of graduate advisor may be repeatable once for credit.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ENGL 215 - Seminar in Myth and Symbolism

4 unit(s)

Comparative study of mythic and symbolic forms in literature, focusing on theory and a variety of texts. With prior permission of graduate advisor may be repeatable once for credit.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ENGL 216 - Seminar in Medieval English Literature

4 unit(s)

Study of selected writings in medieval English literature and their continental sources. With prior permission of graduate advisor may be repeatable once for credit.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ENGL 224 - Studies in English Early Modern Literature

4 unit(s)

Study of selected writers or topics of the sixteenth and seventeenth century.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Classified graduate standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ENGL 225 - Seminar in Shakespeare

4 unit(s)

A close study of selected plays and of selected major issues in Shakespearean criticism. With prior permission of graduate advisor may be repeatable once for credit.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Cross-listed with TA 225. English and Comparative Literature is responsible for scheduling.

ENGL 228 - Seminar in Genre Studies

4 unit(s)

Provides focused study of a single genre of British and/or World Literature.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Classified graduate standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ENGL 230 - Seminar in Thematic Studies in British Literature

4 unit(s)

Focuses on specific themes in British Literature. Possible themes may include gender and sexuality, race and ethnicity, immigration, colonization, crime and punishment, politics and monarchical representation, etc.

Satisfies Graduation Writing Assessment Requirement (GWAR).

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

ENGL 232 - Seminar in Form and Genre Studies in British Literature

4 unit(s)

Focuses on forms and genres in British Literature. Possible forms/genres may include poetic forms (epic, lyric, sonnet, etc.), drama (comedy, tragedy, history, romance), prose works (essays, speeches, dialogues, travel narratives, etc.), novels, and so on.

Satisfies Graduation Writing Assessment Requirement (GWAR).

Repeatable for up to 8 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

ENGL 233 - Seminar in Period Studies of British Literature

4 unit(s)

Focuses on specific periods in British Literature. Possible periods may include Medieval, Early Modern, Restoration, Romantic, Victorian, etc.

Satisfies Graduation Writing Assessment Requirement (GWAR).

Repeatable for credit for up to 8 units with program approval.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ENGL 240 - Poetry Writing Workshop

4 unit(s)

Poetics and poetry writing as preparation for thesis. Includes theory and practice of major trends in contemporary poetry. Intensive workshop experience. May be repeatable for credit for up to 12 units.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Graduate standing and admission via portfolio acceptance to the Writing Focus.

Grading: Letter Graded

ENGL 241 - Fiction Writing Workshop

4 unit(s)

Fiction writing as preparation for thesis. Study of canonical and contemporary fiction and fiction produced by students. Intensive workshop experience. May be repeatable for credit for up to 12 units.

Course may be repeated for credit for up to 12 units.

Grading: Letter Graded

ENGL 242 - Nonfiction Writing Workshop

4 unit(s)

Nonfiction writing as preparation for thesis. Study and critique of canonical and contemporary nonfiction. Intensive workshop experience. May be repeatable for credit for up to 12 units.

Course may be repeated for credit for up to 12 units.

Grading: Letter Graded

ENGL 253 - Seminar in Period Studies of American Literature

4 unit(s)

Focuses on a period of American literature such as Colonial, Revolutionary/Federal, Romantic, Realist, Modernist, Post-modernist. With prior permission of graduate advisor may be repeatable once for credit .

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ENGL 254 - Seminar in Genre Studies of American Literature

4 unit(s)

Focuses of a genre of American Literature such as poetry, the novel, the short story, drama, autobiography, the personal and/or philosophical essay. With prior permission of graduate advisor may be repeatable once for credit.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ENGL 255 - Seminar in Thematic Studies of American Literature

4 unit(s)

Focuses on development of a theme in American Literature. With prior permission of graduate advisor may be repeatable once for credit.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ENGL 256 - Seminar in Twentieth Century British Literature

4 unit(s)

Study of selected British writers since 1900. With prior permission of graduate advisor may be repeatable once for credit.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ENGL 257 - Seminar in the History of Rhetoric

4 unit(s)

Study of rhetorical theory and practice from classical to modern times.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

ENGL 259 - Seminar in Composition Studies

4 unit(s)

Study of current approaches to composition.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

ENGL 281 - Special Topics

4 unit(s)

Significant topic or area reflecting trends and changes in the field. Provides students with an opportunity to gain specialized or advanced knowledge in a small-group setting.

Grading: Letter Graded

ENGL 291 - Lit Practicum

4 unit(s)

This course prepares Creative Writing graduate students to take the MFA exam and develop and begin writing an MFA thesis, customize the MFA exam reading list, prepare to take the MFA comprehensive exam, draft the thesis abstract and thesis preface.

Prerequisite(s): Approval of thesis proposal.

Grading: Credit/No Credit/Incomplete.

ENGL 297 - MA Comprehensive Exam Preparation

2 unit(s)

Workshop in writing and preparing for the two-part comprehensive masters examination.

Course may be repeated for credit for up to 2 units.

Grading: Letter Graded/RP.

ENGL 298 - Special Study

1-6 unit(s)

Advanced and individual research and projects.

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit/Incomplete.

ENGL 299 - University Thesis

1-6 unit(s)

Supervised study. Completed theses are approved by the university and may at some point be uploaded to ProQuest, ScholarWorks or other digital thesis repository.

Prerequisite(s): Advancement to candidacy and successful completion of ENGL 291, assembly of Thesis Committee, and thesis proposal.

Grading: Mandatory Credit/No Credit/RP

ENGL 299D - Departmental Thesis

1-6 unit(s)

Supervised study. Completed thesis is approved by department and not uploaded to ProQuest, ScholarWorks or other digital repository. Recommended for students who wish to protect copyright of creative work for future publication.

Repeatable for credit.

Prerequisite(s): Advancement to candidacy and successful completion of ENGL 291, assembly of Thesis Committee, and thesis proposal.

Grading: Credit/No Credit/RP.

ENGL 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in a project or thesis class

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

English Education

ENED 184Y - Student Teaching II - Classroom Teaching

4 unit(s)

Minimum of 75 periods of classroom teaching, laboratory or field teaching in appropriate subject, grades 7-12, plus related school activities and seminar. Course is repeatable for credit in the same term.

Prerequisite(s): ENED 353.

Grading: Credit/No Credit

ENED 184Z - Student Teaching III - Classroom Teaching

4 unit(s)

See ENED 184Y for course description.

Course may be repeated for credit for up to 8 units.

Grading: Credit/No Credit

Note(s): May be in a different subject/school and will be at a different grade level. Includes final summary project for student teaching.

ENED 353 - Methods of Teaching English

4 unit(s)

Theory and practice of teaching literature and language arts to a diverse student population. Strategies for planning and implementing curricula appropriate to junior and senior high school.

Grading: Letter Graded

ENED 365 - Seminar in English Education

2 unit(s)

Topics in English Education for middle and high school English teachers.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Acceptance into the English Credential Program.

Grading: Credit/No Credit

Entomology

ENT 101 - Insect Diversity

4 unit(s)

Introduction to biology, ecology and behavior of insects. Ways in which insects affect humans and the environment. Students collect, curate and identify common families of insects.

Lecture 2 hours/lab-field 6 hours.

Prerequisite(s): BIOL 31 (with a grade of "C" or better); Must be a declared major in Biological Sciences or

Forensic Sciences, other major with instructor consent.

Pre/Corequisite(s): BIOL 118 (with a grade of "C" or better) or instructor consent.

Grading: Letter Graded

Sustainability Related

ENT 106 - Forensic Entomology

3 unit(s)

Examines the science and methodology used to collect, analyze, and present information regarding insects and other arthropods that are important in legal investigations.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 30 and BIOL 31 (with a grade of "C-" or better in each), or instructor consent. Must be a declared Biology or Forensic Science Major (all).

Grading: Letter Graded

Cross-listed with FS 106. Biological Sciences is responsible for scheduling.

ENT 113 - Principles of Systematics

3 unit(s)

Students gain the understanding and skills needed to taxonomically study biodiversity, including the use of morphological and DNA sequence characters to examine phylogeny, and use of a range of biodiversity research techniques and tools.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 115 or BIOL 118 (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with BIOL 113 / BOT 113 / ZOOL 113. Biological Sciences is responsible for scheduling.

ENT 114 - Functional Morphology

3 unit(s)

Develops understanding and skills needed to taxonomically study biodiversity, including the use of morphological and DNA sequence characters to examine phylogeny, and use of a range of biodiversity research techniques and tools.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 115 or BIOL 118 (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with BIOL 114 / BOT 114 / ZOOL 114. Biological Sciences is responsible for scheduling.

ENT 143 - Biogeography

3 unit(s)

Examination of the patterns of biodiversity over space and through time. Using data and models from a variety of sources including botany, zoology, ecology, evolutionary biology, paleontology, and geology, effects of isolation, elevation, and latitude are examined to understand spatial patterns of biodiversity.

Prerequisite(s): BIOL 31 or equivalent (with a grade of "C-" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with BIOL 143 / BOT 143 / ZOOL 143. Biological Sciences is responsible for scheduling.
Sustainability Related - SDG 15: Life on Land

ENT 180 - Individual Studies

1-4 unit(s)

Advanced lab work in entomology.

Course is repeatable for credit.

Prerequisite(s): Instructor consent. Must be a declared Biology Major (all).

Grading: Credit/No Credit

ENT 185 - Seminar in Entomology

1 unit(s)

Current entomological literature and research and historical development of various entomological concepts.

Prerequisite(s): Must be a declared Biology Major (all).

Grading: Letter Graded

ENT 186 - Senior Thesis

2-4 unit(s)

Advanced laboratory or field research under supervision of faculty member, culminating in a senior thesis.

Prerequisite(s): Instructor consent. Must be a declared Biology Major (all).

Grading: Credit/No Credit

ENT 281 - Advanced Laboratory Skills in Entomology

3 unit(s)

Advanced lab work in entomology.

Prerequisite(s): MA graduate standing.

Grading: Credit/No Credit

ENT 282 - Entomology Internship

3 unit(s)

Professional career development and/or individualized preparation for culminating graduate experience.

Prerequisite(s): Graduate standing.

Grading: Credit/No Credit

ENT 283 - Directed Readings in Entomology

2 unit(s)

Directed reading assignments in entomological literature including but not limited to: research, governmental guidelines/protocols/procedures and risk assessment/management.

Prerequisite(s): MA graduate standing.

Grading: Letter Graded

Environmental Studies

ENVS 1 - Introduction to Environmental Issues

3 unit(s)

What effects are human activities having on the natural environment and our quality of life? Discover the technical and social causes of environmental degradation; learn how your personal and career choices can protect the environment for current and future generations.

Satisfies A3: Critical Thinking and Writing.

Prerequisite(s): Completion of GE Area A2 with a grade of C- or better.

Grading: Letter Graded.

Sustainability Focused - SDG 12: Responsible Consumption and Production

ENVS 10 - Life on a Changing Planet

3 unit(s)

An introduction to basic knowledge and theory in the life sciences, focusing on the theme of environmental change. Examines challenging issues in biology and methods for evaluating conflicting data and claims. Develops students' analytical and writing skills.

Satisfies B2: Life Science.

Prerequisite(s): As required for Core GE courses in B2.

Grading: Letter Graded

Sustainability Focused - SDG 15: Life on Land

ENVS 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ENVS 100W - Environmental Research and Writing

3 unit(s)

Advanced research and writing skills for future environmental professionals. Focus on issues, literature and challenges associated with environmental writing. Emphasis on writing for technical and general audiences.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

Sustainability Focused - SDG 4: Quality Education

ENVS 105 - Environmental Change and Problems, San Francisco Bay Area

3 unit(s)

Systematic inquiry into physical environments of the San Francisco Bay Area, with emphasis on impacts and changes to those systems by human action. Analysis of public action and policies regarding regional environmental issues.

Prerequisite(s): ENVS 1 and ENVS 100W.

Grading: Letter Graded

Note(s): Offered only occasionally.

Sustainability Focused - SDG 17: Partnerships for the Goals

ENVS 106 - Exploring Ocean Environments

3 unit(s)

Understand human interactions with marine environments by exploring the ocean as a place of socio-ecological encounter. Students learn and employ interdisciplinary approaches to conceptualizing, knowing, exploiting, and managing ocean environment.

Grading: Letter Graded

Sustainability Focused - SDG 14: Life Below Water

ENVS 107 - Introduction to Environmental Economics and Policy

4 unit(s)

Analysis of basic economic and political factors related to the environmental crisis. Surveys policy approaches to the problem: regulation, taxes, subsidies, cost benefit analysis.

Lecture 3 hours/Lab 2 hours.

Prerequisite(s): ECON 1B or instructor consent.

Grading: Letter Graded

Cross-listed with ECON 107. Environment Studies is responsible for scheduling.
Sustainability Focused - SDG 17: Partnerships for the Goals

ENVS 108 - Cost-Benefit Analysis

4 unit(s)

Theory and practice of cost-benefit analysis applied to various topics including public projects and environment. Welfare foundations of CBA, valuation of goods (such as clean air, wilderness, and sports arenas), discounting future values and cost.

Prerequisite(s): ECON 1B and ECON 3 or STAT 95, or instructor consent

Grading: Letter Graded

Cross-listed with ECON 108. Economics is responsible for scheduling.
Sustainability Focused - SDG 12: Responsible Consumption and Production

ENVS 110 - Resource Analysis

4 unit(s)

Quantitative analysis of Earth's natural resources. Topics typically include the status and trends of resources such as topsoil, agriculture, water, energy, wildlife and the impacts of human population growth on these resources. Emphasis is on problem solving and computational methods applied to resource management problems.

Misc/Lab: Lecture 4 hours/lab 3 hours.

Prerequisite(s): ENVS 1, ENVS 10, STAT 95.

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

ENVS 111 - Geology and the Environment

3 unit(s)

The effect of Earth processes on humans and their structures. Environmental problems related to earthquakes, landslides, minerals, energy, water and urban growth.

Lecture 3 hours/field trips.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with GEOL 111. Geology is responsible for scheduling.
Sustainability Focused - SDG 1: No Poverty

ENVS 113 - Atmospheric Pollution

3 unit(s)

Descriptive discussion of the sources, effects and fates of pollutants in the atmosphere. Interaction of pollutants and weather systems, including acid precipitation, ozone destruction; air pollution policy and regulations.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with METR 113. Meteorology and Climate Science is responsible for scheduling.

Sustainability Focused - SDG 13: Climate Action

ENVS 116 - Solar Energy Analysis

3 unit(s)

Provides a comprehensive overview of sustainable solar energy resources, economics, and policy. Includes a review of basic solar energy physics and interdisciplinary analysis of economic, social justice, and environmental strategies for a solar powered civilization.

Grading: Letter Graded.

Cross-listed with DSIT 116. Environmental Studies is responsible for scheduling.

Sustainability Focused - SDG 7: Affordable and Clean Energy

ENVS 117 - Human Ecology

3 unit(s)

Diversity and similarity of human adaptation, cultural evolution, cultural change and environmental modification in African, Asiatic, Oceanic and Latin American cultural groups. Emphasis: traditional non-Western conservation practices and their lessons for the modern-day resource manager.

Prerequisite(s): ENVS 1, ENVS 10 and ENVS 100W, or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

ENVS 119 - Energy and the Environment

3 unit(s)

Introduces students to the sources of energy that fuel industrial civilization and the environmental impacts of energy extraction, distribution, and consumption. Explores a range of approaches to moving society toward a more sustainable energy future.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Cross-listed with ENGR 119. Environmental Studies is responsible for scheduling.
Sustainability Focused - SDG 7: Affordable and Clean Energy

ENVS 121 - Population and Global Change

3 unit(s)

Impact of population changes on countries, regions, and their environments. Demographic comparisons of developed and developing societies from perspectives of land use, economics and politics.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with GEOG 121. Urban and Regional Planning is responsible for scheduling.
Sustainability Focused - SDG 17: Partnerships for the Goals

ENVS 122 - Borderlands and the Environment

3 unit(s)

Comparative study of environmental issues in borderland regions, which encompass environmental, economic, cultural, political and social processes surrounding a geopolitical border. Investigation of historical, cultural, and political causes and responses to environmental problems. Analysis of understandings of territory, nation-states, and exclusion based on theories in border studies, environmental studies, and the study of social movements.

Prerequisite(s): ENVS 1 or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 17: Partnerships for the Goals

ENVS 124 - Introduction to Environmental Law

3 unit(s)

Development, interpretation, application and enforcement of environmental laws, regulations and legal policies by legislatures, courts, administrative agencies and citizens. Examination of air and water quality, hazardous materials, workplace, land use and wetlands regulation, international, ethical and efficacy issues.

Prerequisite(s): ENVS 1 or Instructor Consent.

Grading: Letter Graded

Cross-listed with POLS 124. Environmental Studies is responsible for scheduling.
Sustainability Focused - SDG 17: Partnerships for the Goals

ENVS 126 - Environmental Ethics and Philosophy

3 unit(s)

Extensions and applications of Kantian, Lockean, consequentialist and other philosophical theories of value to problems of the environment such as pollution, global warming, species depletion and overpopulation.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

Cross-listed with PHIL 126. Philosophy is responsible for scheduling.
Sustainability Focused - SDG 4: Quality Education

ENVS 127 - Community-Based Participatory Research

3 unit(s)

This course integrates interdisciplinary theory and practice in developing a situated understanding of community-based participatory research (CBPR) toward redressing environmental inequities. Students will apply these theories and practices in their own environmental research and advocacy projects regarding local environmental issues.

Prerequisite(s): Upper Division Standing

Grading: Letter Graded

Cross-listed with SOCI 127. Environmental Studies is responsible for scheduling.

ENVS 128 - Water Resource Management

3 unit(s)

Water uses and supplies; water resource measurement methods; hydrology; erosional processes; sediment production and transport particularly on Northern California coastal watershed; flood hazards and methods of control; groundwater and groundwater aquifers; water quality.

Prerequisite(s): ENVS 129 and STAT 95 or appropriate math course; or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 6: Clean Water and Sanitation

ENVS 129 - Water Policy in the Western U.S.

3 unit(s)

Water resource development; federal reclamation policy; water law and water rights; interbasin transfers; Colorado River, Central Valley Project and State Water Project; groundwater overdrafting; agricultural water and water pricing.

Prerequisite(s): ENVS 1 or Instructor Consent.

Grading: Letter Graded

Sustainability Focused - SDG 6: Clean Water and Sanitation

ENVS 130 - Energy Policy Analysis

3 unit(s)

Energy policy questions and examination of choices including energy pricing, options for controlling oil imports, incentives for reducing consumption, allocation and end use controls, synthetic fuel production, offshore oil development.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 7: Affordable and Clean Energy

ENVS 131 - Air Pollution Meteorology

3 unit(s)

Quantitative description of contaminants in the atmosphere: sources, dispersion and sinks; their effects on atmospheric energy balance and condensation.

Prerequisite(s): METR 121B or instructor consent.

Grading: Letter Graded

Cross-listed with CHE 131 / METR 131. Meteorology and Climate Science is responsible for scheduling.

Sustainability Focused - SDG 3: Good Health and Well-Being

ENVS 132 - Solar Home Design

3 unit(s)

Techniques for designing environmentally-sensitive, healthy, passive solar homes via site selection, energy conservation, lighting, non-hazardous natural building materials. Residential passive solar heating and cooling approaches for retrofits and new construction. For homeowners, teachers, professional designers and architects.

Prerequisite(s): ENVS 1 or instructor consent.

Grading: Letter Graded

Cross-listed with DSIT 132. Environmental Studies is responsible for scheduling.

Sustainability Focused - SDG 7: Affordable and Clean Energy

ENVS 133 - Sustainable Energy Strategies

3 unit(s)

Challenges and opportunities facing sustainable energy pathways for heat, fuel, and electricity with a focus on energy efficiency, solar, wind, geothermal, bioenergy, alternative modes of transportation and other energy consuming infrastructures.

Grading: Letter Graded.

Sustainability Focused - SDG 7: Affordable and Clean Energy

ENVS 135 - U.S. Environmental Policy

3 unit(s)

Inquiry focuses on environmental pollution, public attitudes toward environmental problems, interest groups involved in formulation of policy, and the role of government policy makers in shaping the environmental agenda.

Grading: Letter Graded

Cross-listed with POLS 135. Political Science is responsible for scheduling.

Sustainability Focused - SDG 17: Partnerships for the Goals

ENVS 136 - Introduction to Land Use Planning

4 unit(s)

Land use and facilities planning practices in the context of American cities, emphasizing interrelationships between various land uses and public facilities and service requirements. Study of the role of public law in addressing urban growth and environmental change issues.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with URBP 136. Urban and Regional Planning is responsible for scheduling.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

ENVS 137 - Green Building Design Issues

3 unit(s)

Provides an overview of green building design strategies based on renewable energy, water conservation, healthy interior design, beneficial building orientation, native landscaping, sustainable building materials; includes economics, policy, and green building auditing and certifications.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

ENVS 140 - Politics and the Environment

3 unit(s)

Application of different political strategies to local issues examined through examples from specific environmental challenges facing the Bay Area. Considers relative contributions of the public, elected officials, government employees and interest groups in environmental decision-making.

Prerequisite(s): ENVS 1, ENVS 107 and ENVS 124 or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

ENVS 142 - Introduction to Environmental Planning

4 unit(s)

Environmental sustainability and its application to local planning. Review of regulatory tools and legislation that underlie most environmental planning and current environmental planning topics. Course may be repeated for credit when topic changes.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with URBP 142. Urban and Regional Planning is responsible for scheduling.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

ENVS 144 - California Wetland Controversies

4 unit(s)

Impact of agriculture, urbanization and other human land uses upon the California coastal wetlands with emphasis on current environmental problems and controversies. State public agencies concerned with vital environmental problems and analysis of current environmental legislation.

Lecture 2 hours/lab 4 hours.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): ENVS 1 or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 15: Life on Land

ENVS 146F - Communication and the Environment

4 unit(s)

Examination of communication in environmental issues, especially conflicting values and modes of discourse that assume different meanings of human-nature relationship. Emphasis on environmentalism as popular movement, rhetoric of radical ecology and the technical discourse of environmental policy administration.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with COMM 146F. Communication Studies is responsible for scheduling.

Sustainability Focused - SDG 4: Quality Education

ENVS 148 - Sustainable Materials Management

4 unit(s)

Focuses on practical understanding and approaches to managing discarded materials for sustainability. An interdisciplinary perspective that includes politics, business, economics, marketing, science, and environmental principles. Provides direct experience through field trips and service learning.

Misc/Lab: 3 hours lecture/ 2 hours lab

Prerequisite(s): ENVS 1 or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

ENVS 150 - Introduction to Environmental Thought

3 unit(s)

An introduction to significant works in the field of environmental studies. Topics covered include preservation, conservation, biocentrism, environmental justice, eco-feminism, deep ecology, and environmental activism.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all

SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

ENVS 151 - Race, Class and the Environment

3 unit(s)

Analysis of the relationship between the environmental crisis and people of color and poor communities in the U.S., emphasizing the interplay among race/ethnicity, class and politics in the struggle for environmental justice and survival by communities of color and poor people.

Satisfies SJSU Studies Area R - Earth, Environment, and Sustainability

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Note(s): This course must be passed with a C- or better to satisfy the CSU graduation requirement.

Cross-listed with AFAM 151. African American Studies is responsible for scheduling.

Sustainability Focused - SDG 10: Reduced Inequalities

ENVS 152 - Globalization and the Environment

3 unit(s)

Scientific approach to goods distribution worldwide, and environmental consequences of shipping materials and packaging, which when discarded become waste. Mutual interests of commerce and environment.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with PKG 152. Environmental Studies is responsible for scheduling.

Sustainability Focused - SDG 12: Responsible Consumption and Production

ENVS 154 - Sustainable Agriculture

4 unit(s)

Analysis of and practicum in environmentally sustainable methods of food production, emphasizing biological diversity, water conservation, air quality, social equity and economic justice. Special focus on primary research in natural and social sciences for sustainable agriculture. Field trips and labs.

Misc/Lab: Lecture 3 hours/lab 2 hours.

Prerequisite(s): ENVS 1 and GE B2 course, or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 2: Zero Hunger

ENVS 156 - Introduction to Local Transportation Planning

4 unit(s)

Examination of transportation planning issues addressed at the neighborhood and municipal level such as bicycle and pedestrian planning, traffic calming, and parking policy.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with URBP 156. Urban and Regional Planning is responsible for scheduling.

Sustainability Related - SDG 9: Industry, Innovation and Infrastructure

ENVS 158 - Environmental Education

3 unit(s)

Education of individuals can make a difference in protecting the environment. Comprehensive overview from the perspective of schools, American culture and law. Interdisciplinary approaches for correcting conditions created by modern living, energy and environmental demands.

Prerequisite(s): ENGL 1A and ENGL 2; upper division standing or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

ENVS 159 - Nature and World Cultures

3 unit(s)

The influence of industrialization and globalization on earth and the environment as seen through culture.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with AMS 159 / HUM 159. Humanities is responsible for scheduling.

Sustainability Focused - SDG 15: Life on Land

ENVS 161 - California Wildlands

4 unit(s)

Discussion and field analysis of California's wildlands, including the range of biodiversity, associated agencies, environmental issues, policy choices and management approaches to protect different types of open space.

Misc/Lab: 3 hours lecture/ 2 hours lab

Prerequisite(s): ENVS 1 and ENVS 100W

Grading: Letter Graded

Sustainability Focused - SDG 15: Life on Land

ENVS 165 - National Parks

3 unit(s)

An exploration of the history, philosophy, and science of park and wilderness preservation. Includes site visits to selected parks and wilderness areas.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with GEOG 165. Urban and Regional Planning is responsible for scheduling.

Sustainability Focused - SDG 15: Life on Land

ENVS 166 - Nature and Conservation Photography

4 unit(s)

Still photography of nature and illustrative conservation subjects in both color and black and white. Theory critique sessions supplemented with field experience. May be repeated for a maximum of 8 units.

Misc/Lab: Lecture 2 hours/activity 4 hours.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Photo experience or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

ENVS 167 - Managing Environmental Issues

3 unit(s)

The management of environmental issues, including the relationship of business to the natural environment; the public policy context of management decision-making; and the greening of the corporation and implications for strategic management, operations, human resources, marketing and accounting.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with BUS5 167. Global Innovation & Leadership is responsible for scheduling.

Sustainability Focused - SDG 12: Responsible Consumption and Production

ENVS 168A - Climate Action and Leadership I

6 unit(s)

Scientific and social scientific approaches to the process and effects of global climate change: Climate changes in the Earth's past, interactions between climate and life, anthropogenic climate change, socioeconomic contexts of environmental effects, cultural influences on climate change mitigation strategies.

Satisfies SJSU Studies S+V: Self, Society & Equality in the U.S. + Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with COMM 168A / METR 168A. Communication Studies is responsible for scheduling.
Sustainability Focused - SDG 13: Climate Action

ENVS 168B - Climate Action and Leadership II

3 unit(s)

Scientific and social scientific approaches to the process and effects of global climate change: Climate changes in the Earth's past, interactions between climate and life, anthropogenic climate change, socioeconomic contexts of environmental effects, cultural influences on climate change mitigation strategies.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of COMM 168A / ENVS 168A / METR 168A with a C- or better. Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with COMM 168B / METR 168B. Communication Studies is responsible for scheduling.
Sustainability Focused - SDG 13: Climate Action

ENVS 169 - Introduction to Social Media in Planning

1-4 unit(s)

An introduction to social media tools and their use in urban planning, with a particular emphasis on public participation.

Prerequisite(s): Upper Division standing.

Grading: Letter Graded

Cross-listed with URBP 169. Urban and Regional Planning is responsible for scheduling.
Sustainability Focused - SDG 11: Sustainable Cities and Communities

ENVS 173 - Forest Ecology and Conservation

4 unit(s)

A field based course designed to provide students with the conceptual framework and practical tools necessary for understanding the ecology and conservation of local forest ecosystems. Topics covered include forest restoration, succession, wildlife, diversity, natural and human disturbance, and the history of forest management.

Lecture 3 hours/Lab 2 hours.

Prerequisite(s): ENVS 1, ENVS 10, or upper division standing.

Grading: Letter Graded.

Sustainability Focused - SDG 15: Life on Land

ENVS 175 - Wildfire Policy and Management

3 unit(s)

Introduction to policies, programs, and approaches to wildfire risk management across international, US federal, state, and local contexts. Students learn about and employ policy tools used to manage wildfire risk to people and to natural resources across public and private lands during the three phases of wildfire management: (1) prevention/preparation, (2) suppression/evacuation, and (3) recovery. Explore the factors increasing wildfire risk including land use decisions and climate change impacts.

Prerequisite(s): Completion of GE Areas A2 and D, or instructor consent.

Grading: Letter Graded

ENVS 178 - Intro to Regional Transport Planning

4 unit(s)

Principles and concepts relevant to transportation planning and policy at the regional level, such as historical and current regional transportation planning processes, the relationship between regional travel demand and transportation infrastructure, and travel demand modeling practices.

Prerequisite(s): Upper division standing

Grading: Letter Graded

Cross-listed with URBP 178. Urban and Regional Planning is responsible for scheduling.

Sustainability Focused - SDG 9: Industry, Innovation and Infrastructure

ENVS 179A - Fundamentals of GIS for Urban Planning

4 unit(s)

Exploration of Geographic Information Systems (GIS) area analysis techniques for spatial information management in local government: planning support systems, needs analysis, envisioning neighborhoods utilizing multiple maps, charts, photos and the Internet. Course may be repeated for credit when topic changes.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with URBP 179A. Urban and Regional Planning is responsible for scheduling.

Sustainability Related - SDG 11: Sustainable Cities and Communities

ENVS 181 - Environmental Resource Center

1-3 unit(s)

Supervised projects that support the Environmental Resource Center, a source of sustainability information and activities for the campus and community; projects help students take personal action toward achieving a sustainable lifestyle.

Misc/Lab: Activity 2-6 hours.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): ENVS 1 or instructor consent.

Grading: Credit/No Credit

Sustainability Focused - SDG 4: Quality Education

ENVS 185 - Environmental Impact Analysis

4 unit(s)

Current environmental impact reports subjected to critical review; determination of alternative procedures and mitigating opportunities; extensive field analysis and practice.

Misc/Lab: Lecture 3 hours/lab 2 hours.

Prerequisite(s): ENVS 1, ENVS 124 or instructor consent.

Grading: Letter Graded

Cross-listed with URBP 185. Environmental Studies is responsible for scheduling.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

ENVS 187 - Environmental Restoration

4 unit(s)

Interdisciplinary art and science of restoring destroyed or degraded habitats. Emphasis on the interplay of ecological principles, policy, public involvement and economics in the planning, implementation and monitoring of restoration plans. Field work and independent research required.

Misc/Lab: Lecture 3 hours/lab 2 hours.

Prerequisite(s): ENVS 1, GE B2 course and any 100W, or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 15: Life on Land

ENVS 189 - Coastal Field Studies

4 unit(s)

Introduction to coastal processes, resources, policy, and conservation. Course emphasizes environmental issues, human impact, and protection efforts focusing on adapting to coastal change. Students conduct research and participate in local field trips along the California coast.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): ENVS 1.

Grading: Letter Graded

Sustainability Focused - SDG 14: Life Below Water

ENVS 190 - Advanced Environmental Impact Assessment

4 unit(s)

Advanced work in the field of environmental impact assessment. Analysis of EIA documents for regulatory adequacy, consistency with local planning documents and technical accuracy.

Misc/Lab: Lecture 3 hours/lab 2 hours.

Prerequisite(s): ENVS 185 or instructor consent.

Grading: Letter Graded

Cross-listed with URBP 190. Environmental Studies is responsible for scheduling.
Sustainability Focused - SDG 11: Sustainable Cities and Communities

ENVS 191 - Advanced Environmental Restoration

4 unit(s)

Advanced restoration research and applications. Emphasis on independent literature research and field data collection. Participation in on-going restoration project. Fieldwork and grasp of restoration principles required.

Misc/Lab: Lecture 3 hours/lab 2 hours.

Prerequisite(s): ENVS 187.

Grading: Letter Graded

Note(s): Offered only occasionally.

Sustainability Focused - SDG 15: Life on Land

ENVS 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ENVS 193 - Supervised Projects and Research

1-15 unit(s)

Projects and/or research to build practical environmental skills. Work on or off campus on projects with direct social value.

Course may be repeated for credit for up to 15 units.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

ENVS 194 - Environmental Internship

1-9 unit(s)

Service in a local, city, county, state, or federal environmental/sustainability agency or school; or in environmental/sustainability industry; or with a worthwhile environmental education or protection organization or center.

Prerequisite(s): Senior standing in Environmental Studies or instructor consent.

Grading: Credit/No Credit

Sustainability Focused - SDG 11: Sustainable Cities and Communities

ENVS 195 - Instructor Assistant in Environmental Studies

1-3 unit(s)

Experience as a tutor assistant in classroom demonstrations, field techniques and discussion. May be repeated for a 4 unit maximum, but not for same course or instructor.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Senior standing, ENGL 1A, instructor consent and appropriate academic background.

Grading: Credit/No Credit

Sustainability Focused - SDG 4: Quality Education

ENVS 198 - Senior Seminar

4 unit(s)

Culmination of interdisciplinary curriculum in environmental studies through integration and critical assessment of the field. Primary research, fieldwork, and project presentation supports transition from undergraduate experience to full professionalism.

Prerequisite(s): Filed for graduation, completion of Environmental Studies core, including ENVS 100W.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

ENVS 199 - Senior Thesis

3 unit(s)

Thesis demonstrating grasp of environmental subjects and principles, ability to research in depth particular environmental problems and facility at recommending practical solutions.

Prerequisite(s): Senior standing in Environmental Studies, completion of all Environmental Studies core requirements and university 100W writing requirement.

Grading: Credit/No Credit

ENVS 200 - Seminar: Environmental Methods

3 unit(s)

Rigorous analysis of methods used by social, physical and natural scientists in assessing a region's natural resources and quality of environment. Environmental application of such techniques as field methods, maps, social surveys and project evaluation. Critique of individual research proposals.

Prerequisite(s): ENVS 297 and consent of graduate advisor.

Grading: Letter Graded

Sustainability Focused - SDG 15: Life on Land

ENVS 210 - Current Topics in Environmental Studies

1-3 unit(s)

An investigation of current research topics in the field of Environmental Studies. Lectures by faculty, visiting scholars, and Master's student candidates are accompanied by class discussions and analysis of academic journal articles.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): Graduate Student Standing or instructor consent

Grading: Credit/No Credit

Sustainability Focused - SDG 4: Quality Education

ENVS 227 - Advanced Community Based Participatory Research

3 unit(s)

Integrates interdisciplinary theory and practice in developing a situated understanding of community-based participatory research (CBPR) toward redressing environmental inequities. Course explores the epistemological, environmental and movement-building imperatives for creating effective and responsible community-researcher partnerships for social, health and environmental justice.

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

ENVS 250 - Seminar: Environmental Thought and Philosophy

3 unit(s)

An in-depth critical analysis of significant works in the field of environmental studies. Topics covered include preservation versus conservation, biocentrism, environmental justice, eco-feminism, deep ecology, and environmental activism. Individual student research is presented with oral and written reports.

Prerequisite(s): Graduate standing in Environmental Studies or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

ENVS 270 - Field Studies in Water Resource Management

4 unit(s)

An intensive field investigation of water resource agencies and projects to acquaint resource managers, environmental quality specialists and other interested students with projects and philosophies unique to particular geographic areas.

Misc/Lab: Lecture 4 hours/lab 2 hours.

Prerequisite(s): Upper division standing and ENVS 128 or ENVS 129, or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 6: Clean Water and Sanitation

ENVS 285 - Graduate Internship

3-9 unit(s)

Advanced service in a local, city, county, state agency, federal agency or environmental industry.

Prerequisite(s): Graduate standing in Environmental Studies or instructor consent.

Grading: Credit/No Credit

Sustainability Focused - SDG 17: Partnerships for the Goals

ENVS 291 - Advanced Topics in Environmental Restoration

4 unit(s)

High-level restoration research and applications for advanced students. Emphasis on independent literature research and field data collection/analysis. Participation in ongoing restoration project and/or thesis research. Fieldwork and grasp of restoration principles required. Repeatable for up to 8 units of credit

Misc/Lab: Lecture 4 hours/Activity 2 hours.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Graduate standing and ENVS 187 or equivalent, or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 15: Life on Land

ENVS 292 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ENVS 295 - Graduate Teaching Assistant

3 unit(s)

Teaching experience in environmental studies at the college level. Does not meet requirements for California Certification in Elementary or Secondary Education. May be repeated for maximum of 6 units, but not for same course or instructor.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Graduate standing in Environmental Studies or instructor consent.

Grading: Credit/No Credit

Sustainability Focused - SDG 4: Quality Education

ENVS 297 - Research and Proposal Development

3 unit(s)

Students develop their thesis topic through extensive literature research. The product will be a draft thesis proposal to be circulated among potential committee members.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Repeatable for credit.

Prerequisite(s): Graduate Standing in Environmental Studies or consent of instructor.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Sustainability Focused - SDG 4: Quality Education

ENVS 298 - Special Study

1-4 unit(s)

Advanced individual research and projects.

Prerequisite(s): Graduate standing in Environmental Studies or instructor consent.

Grading: Mandatory Credit/No Credit/RP

ENVS 299 - Master's Thesis

1-6 unit(s)

Masters thesis research.

Repeatable for credit.

Prerequisite(s): Graduate standing in Environmental Studies or instructor consent.

Grading: Credit/No Credit/RP.

Sustainability Focused - SDG 4: Quality Education

ENVS 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on dissertation, thesis, or project or in preparation for comprehensive exams beyond the minimum required units for cases in which final deliverables are still in progress and all other degree requirements except the culminating experience have been fulfilled.

Prerequisite(s): Outstanding RP grade in a preceding semester in a project or thesis class

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Foreign Language Education

FLED 184Y - Student Teaching II - Classroom Teaching

4 unit(s)

Minimum 80-120 class periods of classroom teaching or field teaching in appropriate single subjects, grades K-12 and related teaching activities and seminar.

Prerequisite(s): Joint approval of major and Education departments.

Grading: Credit/No Credit

FLED 184Z - Student Teaching III - Classroom Teaching

4 unit(s)

See FLED 184Y for course description.

Grading: Credit/No Credit

Note(s): May be in different subject/school and will be at a different grade level.

FLED 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

FLED 285 - Student Teaching Seminar In Foreign Language Education

1 unit(s)

As a companion course to the Phase II/III student teaching experience in the Single Subject Credential program in Chinese, French or Spanish at San Jose State University, the seminar provides a framework and support for the Performance Assessment for California Teachers (PACT).

Course may be repeated for credit for up to 4 units.

Prerequisite(s): EDSC 184X.

Corequisite(s): FLED 184Y/FLED 184Z.

Grading: Credit/No Credit

FLED 380 - Teaching Foreign Languages

3 unit(s)

Theory and practice.

Prerequisite(s): College approval and competence in at least one foreign language.

Grading: Letter Graded

Foreign Languages

FORL 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

FORL 96A - Elementary Assyrian Culture and Language

3 unit(s)

This course is designed for heritage or non-native speakers of the Assyrian language with limited speaking fluency and no writing or reading skills. Starting with the alphabet, students will learn reading and writing skills, and acquire elementary oral communication. (Special Session only).

Grading: Letter Graded

FORL 100W - Writing Workshop

3 unit(s)

Advanced composition with practice in research and development of writing skills using a variety of literary and cultural concepts.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

FORL 122 - Topics in Comparative World Literature

4 unit(s)

An exemplary theme as treated in various literatures from different national sites, e.g., war, love, freedom, colonialism, environmental disaster.

Grading: Letter Graded

Cross-listed with COLT 122 / ENGL 122 / HUM 122. English and Comparative Literature is responsible for scheduling.

FORL 126 - Holocaust Literature

3 unit(s)

Survey of literature written by survivors or witnesses of the Holocaust, the destruction of European Jewry during World War II, focusing upon diaries, memoirs, fiction, and occasionally poetry and drama. Writers may include Elie Wiesel, Primo Levi, Anne Frank, Charlotte Delbo.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ENGL 126 / HUM 126 / JWSS 126. English and Comparative Literature is responsible for scheduling.

FORL 150 - Learning a World Language

4 unit(s)

Introduction to the field of second language acquisition with special attention to adult second language learning. Service learning required. Taught in English.

Grading: Letter Graded

FORL 180 - Individual Studies in World Languages and Literatures

3-6 unit(s)

FORL 180 is designed for individual studies in languages taught at SJSU that are not part of a major or minor program, such as Arabic, Hebrew, Persian/Farsi or Vietnamese.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): Upper division standing, instructor approval

Grading: Mandatory Credit/No Credit/RP

FORL 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

FORL 200W - Graduate Research & Writing

4 unit(s)

Techniques of writing research papers and theses. Includes bibliographical sources and style sheets. Comprehensive study of literary genres and techniques for critique of these genres. Emphasis on organization of materials.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course can be taken to satisfy GWAR requirement once. Repeatable for degree program credit four times for up to 16 units.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

FORL 292 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

FORL 298 - Individual Studies in World Languages and Literatures

1-6 unit(s)

Directed study (research projects) in specified fields not covered by offered courses. Student-initiated in-depth study of a mutually agreeable topic conducted under faculty guidance.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor approval, graduate standing.

Grading: Mandatory Credit/No Credit/RP

Forensic Science

FS 11 - Survey of Forensic Science

3 unit(s)

This survey course introduces students to the profession of forensic science. Topics include the field's history and sub-disciplines, the CSI Effect, the application of the scientific method to physical evidence analysis. Virtual labs may be used to augment readings.

Grading: Letter Graded

FS 12 - Introduction to Digital Evidence Investigations

3 unit(s)

Introduction to the field of digital evidence investigation in the United States. Policies, procedures, and best practices for examinations, including technical base knowledge, laws and jurisdiction, identification and evaluation of computer and network artifacts, triage analysis, case-relevant event timelines.

Grading: Letter Graded

FS 57 - Biological Criminalistics

3 unit(s)

Working on a mock case, students gain experience in locating, identifying and collecting biological traces such as blood, semen and saliva. Students learn how to evaluate biological evidence within varied case contexts, culminating in interpretation of the biological test results to aid in addressing activity level propositions for the court. Students also learn the theory of bloodstain pattern analysis and apply this theory within the crime scene simulation suite.

Lecture 2 hours/activity 2 hours.

Prerequisite(s): FS 11 AND any general biology course such as BIOL 30 or BIOL 31 or by instructor consent.

Grading: Letter Graded

FS 100W - Forensic Science Writing Workshop

3 unit(s)

Development of advanced communication skills, both written and oral, with emphasis on forensic laboratory and crime scene report writing and court testimony. A scholarly paper, written in APA format and informed by research, is also required.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): FS 11 or JS 10; A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

FS 101 - Expert Witness Testimony

3 unit(s)

Prepares students for careers requiring courtroom testimony. Students learn the process of scientific testimony in criminal and civil cases and investigate key court rulings, admissibility standards and challenges, how to testify, and ethical considerations. Through a culminating mock trial, students apply course material.

Prerequisite(s): JS 100W/FS 100W, FS 11, or instructor consent

Grading: Letter Graded

FS 106 - Forensic Entomology

3 unit(s)

Examines the science and methodology used to collect, analyze, and present information regarding insects and other arthropods that are important in legal investigations.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 30 and BIOL 31 (with a grade of "C-" or better in each), or instructor consent. Must be a declared Biology or Forensic Science Major (all).

Grading: Letter Graded

Cross-listed with ENT 106. Biological Sciences is responsible for scheduling.

FS 130 - Digital Forensic Analysis

3 unit(s)

Application of appropriate digital forensics analysis procedures for Windows systems and network forensic investigations. Provides best practices foundation with hands-on laboratory experiences, completing full digital forensics examinations from identification, to acquisition, to processing, to analysis, to final reporting.

Lecture 2 hours/lab 2 hours.

Prerequisite(s): Any 100W and FS 12. Strongly recommend FS 100W or JS 100W; FS 11 or JS 10; and CS 147.

Grading: Letter Graded

FS 131 - Digital Forensic Applications

3 unit(s)

Application of appropriate digital forensics investigation practices and procedures through theory and practice with lab exercises. Emphasis on directed learning with case studies and experience completing full digital forensics examinations from acquisition, to analysis, to final reporting.

Lecture 2 hours/Lab 2 hours.

Prerequisite(s): FS 130.

Grading: Letter Graded.

FS 160 - Special Topics in Forensic Science

1-5 unit(s)

Range of topics in Forensic Science which will vary by semester. Topics may include Blood Spatter Analysis, Microscopy and Trace Evidence, Forensic Art, Facial Reconstruction, and others.

Repeatable for up to 9 units credit when content changes.

Prerequisite(s): JS 10 or FS 11 or instructor permission. Justice Studies or Forensic Science major; Forensic Studies minor.

Grading: Letter Graded

FS 161 - Crime Scene Investigation

3 unit(s)

Fundamental theories of physical evidence practically applied and the legal considerations involved in its recognition, collection preservation and presentation in court are covered. Topics include securing and recording the crime scene, collecting evidence, maintaining the chain of custody and reconstruction.

Lecture 2 hours/activity 2 hours

Prerequisite(s): FS 11, JS or FS Major/Minor, Upper Division Standing.

Grading: Letter Graded.

FS 162 - Forensic Science Applications

3 unit(s)

Scientific analysis and interpretation of physical evidence using identification and comparison techniques. Practical lab exercises in human identification, questioned documents, bite marks, trace evidence, presumptive testing, and glass analysis. Additional topics include court testimony, quality assurance, and ethics.

Lecture 2 hours/Activity 2 hours.

Prerequisite(s): FS 11, JS or FS Major/Minor, Upper Division Standing.

Grading: Letter Graded.

FS 163 - Fingerprint Science

3 unit(s)

History and use of fingerprints in criminal identification. Topics include the scientific basis for fingerprint identification, anatomy of friction ridge skin, pattern classification, minutiae marking, the Henry System, AFIS and CAL-ID, court presentation of fingerprint evidence, and causes and sources of error.

Lecture 2 hours/lab 2 hours.

Prerequisite(s): Upper-Division Standing; and FS 11 (Forensic Science majors/minors) or JS 10 (Justice Studies majors/minors).

Grading: Letter Graded

Note(s): The course is recommended for anyone who plans to pursue a career in investigations or latent fingerprint identification.

FS 164 - Crime Scene and Evidence Photography

3 unit(s)

Practical use of photography in documenting crime scenes and evidence. Topics will include 35mm camera operation, lenses, focus, exposure, depth of field, lighting, composition, flash, injury documentation, digital cameras and video, and court presentation of photographic evidence.

Lecture 2 hours/Activity 2 hours.

Prerequisite(s): FS 11, JS or FS Major/Minor, Upper Division Standing. JS Students may substitute JS

10 for FS 11.

Grading: Letter Graded

FS 166 - Forensic Chemistry

3 unit(s)

An exploration of scientific concepts, methods, practices, instrumentation, interpretation, statistics and court issues of chemistry as applied in forensic science including special topics: drug analysis, toxicology, arson and trace analysis emphasizing the instrumentation that allows chemical examination of evidence.

Prerequisite(s): CHEM 1A and CHEM 1B OR CHEM 30A and CHEM 30B; and FS 11.

Grading: Letter Graded.

FS 167 - Forensic Molecular Biology

4 unit(s)

History, scientific concepts, methods, practices, instrumentation, interpretation, statistics and court issues of forensic DNA analysis via lectures, hands-on activities/laboratories, and videos. Collection, documentation and preservation of biological evidence, bioethics, QA, validation, admissibility and training will also be covered.

Misc/Lab: Lecture 3 hours/lab 3 hours.

Prerequisite(s): FS 57, BIOL 31, CHEM 1A, and CHEM 1B : all with C or better grade.

Grading: Letter Graded

FS 169 - FS Senior Seminar: Studies in Contemporary FS Issues

3 unit(s)

Identification, discussion and analysis of selected problems in forensic science. A major term paper, presentation on a selected topic and participation on written as well as in-class assignments and activities are required.

Prerequisite(s): Justice Studies Majors: Senior standing, JS/FS 100W and JS 114 or instructor consent, graduation application filed and you must have already filled out and have a signed major form. Note- JS 114 is waived as a prerequisite for Forensic Science majors. For Forensic Science Majors: Senior standing, JS?FS 100W, FS 161, FS 162, BIOL 30, or by instructor consent; graduation application filed and you must have already filled out and have a signed major form.

Grading: Letter Graded.

Note(s): Department consent required to obtain an add code - you must have applied for graduation, your Major Advisor must have already submitted a graduation check form AND you have applied via online Google form: <https://www.sjsu.edu/justicestudies/current-students/internship-and-seminar-add-codes.php>.

FS 170 - Forensic Science in Human Rights Investigations

3 unit(s)

Role of forensic science in pursuing justice for human rights victims, using documentation, collection, processing and interpretation of evidence in violations of human rights and international humanitarian law and interfaces of law, society, culture, politics, history, ethics and forensic science.

Prerequisite(s): JS 10, JS 25, FS 11, or instructor consent.

Grading: Letter Graded

FS 171 - Forensic Criminology

3 unit(s)

Contextualizes mental processes, intentions, motivations, and reactions of criminals, police, victims, and the courts systems. Critically examines the psychology of deviant behavior, the evidentiary processes in justice systems, and the validity and reliability that come with testimony and criminal defenses.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

FS 172 - Practical Forensic Microscopy

3 unit(s)

The foundations of forensic microscopy techniques, with an emphasis on their practical applications in the laboratory and in criminal investigations.

Lecture 2 hours / Activity 2 hours.

Prerequisite(s): FS 11.

Grading: Letter Graded.

FS 173 - Death Scene Investigation

3 unit(s)

Fundamental theories, principles, and techniques of medicolegal death investigation. Topics include Coroner/Medical Examiner laws of California, recording a death scene, collecting evidence from the scene and the body, autopsy, determining cause and manner of death, working with law enforcement and other government entities, maintaining chain of custody, and preparing written reports. Case studies are used to illustrate methods of investigation and special problems encountered.

Prerequisite(s): FS 11 (FS majors and minors) or JS 10 (JS majors and minors), and upper division standing.

Grading: Letter Graded

FS 174 - Forensic Taphonomy and the Depositional Environment

3 unit(s)

Forensic taphonomy is a subdiscipline of forensic anthropology. It is the postmortem study of the processes that affect the human body from death to recovery and focuses on how the environment impacts the body's rate of decomposition, as well as how the body itself alters the surrounding environment. Course is comprised of a lecture component and an activity component in which students examine and apply the science and methodologies used in this field.

Lecture 2 hours/Activity 2 hours.

Prerequisite(s): FS 11 and FS 162 or by instructor consent.

Grading: Letter Graded.

High Impact Practice: Research

FS 175 - Firearm and Toolmark Evidence Analysis

3 unit(s)

Surveys the methods employed in the forensic examination of firearms, ammunition, and other types of toolmarks, as well as the history of firearms and ammunition, their different types, and the evidentiary value of firearm and toolmark evidence as it relates to criminal investigations. Lectures and lab exercises familiarize students with the different types of testing and equipment used to examine this type of evidence.

Lecture 2 hours/Activity 2 hours.

Prerequisite(s): FS 11

Grading: Letter Graded

FS 176 - Introduction to Fire and Explosion Investigations

3 unit(s)

Introduction to the process of fire scene investigation and specifics of bombing scene examination, including explosives collection and analysis. Topics include conducting an exterior and interior survey, analyzing fire patterns, discriminating the effects of explosions, examining and removing fire debris, reconstructing the area of origin, documenting the scene, constructing investigative notes, processing evidence and maintaining chain of custody, processing victims and fatalities, and preparing a fire investigation report.

Lecture 2 hours/Activity 2 hours.

Prerequisite(s): FS 11; CHEM 1A and CHEM 1B OR CHEM 30A and CHEM 30B.

Grading: Letter Graded.

FS 177 - Forensic Genotyping Technologies

4 unit(s)

Recent advancements in forensic DNA technologies and their implementation into operational casework analysis. Topics include: novel genetic and epigenetic markers of forensic interest, massively parallel sequencing and high-density microarrays; population genetics and genetics of complex human traits; analysis and interpretation of bioinformatic data; applications of forensic molecular phenotyping and forensic genealogy, probative value of forensic intelligence, ethical and legal considerations related to implementation of the advanced genotyping technologies.

Lecture 3 hours/Lab 3 hours.

Prerequisite(s): BIOL 115, FS 11, and FS 167, or by instructor's approval.

Grading: Letter Graded

French

FREN 1A - Elementary French

4 unit(s)

Basic structure of the language in the context of culture.

Satisfies C2: Humanities.

Grading: Letter Graded

FREN 1B - Elementary French

4 unit(s)

Basic structure of the language in the context of culture.

Satisfies C2: Humanities.

Prerequisite(s): FREN 1A (or equivalent).

Grading: Letter Graded

FREN 25A - Intermediate French: Reading

4 unit(s)

Intensive training in reading authentic texts of a broad variety of genres in French to increase the students' proficiency from ACTFL Low Intermediate to Mid and High Intermediate levels.

Satisfies C2: Humanities.

Prerequisite(s): One Year of college-level French (or equivalent or SJSU placement exam).

Grading: Letter Graded

FREN 25B - Intermediate French: Writing

4 unit(s)

Intensive practice in French expository writing to increase the students' written proficiency from ACTFL Low Intermediate to Mid and High levels. Review of major grammatical rules, vocabulary development and introduction to translation.

Satisfies C2: Humanities.

Grading: Letter Graded

FREN 25C - Intermediate French: Oral Communication

4 unit(s)

Practice in pronunciation, listening and speaking in formal and informal situations. Introduction to Francophone cultures and linguistic variations. May be repeated twice for credit.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Two semesters of college French (or equivalent).

Grading: Letter Graded

FREN 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

FREN 101A - Advanced French: Reading and Writing

4 unit(s)

Increase proficiency in reading/writing from intermediate high to advanced. Gain competence in reading abstract and linguistically complex materials (fiction, non fiction and creative). Improve ability to express self in formal and informal writing on practical, social or professional topics.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Two years of college French or equivalent.

Grading: Letter Graded

FREN 101B - Advanced French: Written Communication

4 unit(s)

Increase proficiency in reading/writing from advanced to advanced plus level. Gain competence in reading materials that are abstract and linguistically complex (literary genres). Improve ability to write about topics with precision and describe, narrate and support point of view.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Two years of college French or equivalent.

Grading: Letter Graded

FREN 101C - Advanced French: Oral Communication

4 unit(s)

Ability to participate effectively in most formal and informal exchanges on practical, social, professional and abstract topics. Express and support opinions and hypothesize using native-like discourse strategies.

Course may be repeated for credit up to 8 units, but only 4 units apply to major or minor.

Prerequisite(s): Two years of college French or equivalent.

Grading: Letter Graded

FREN 102A - French Culture

4 unit(s)

History, physical and cultural geography, fine/folk art and daily life of France up to the time of the Revolution.

Prerequisite(s): 20 units of college French (or equivalent).

Grading: Letter Graded

FREN 102B - Francophone Cultures: Through Literature and Cinema

3 unit(s)

History, physical and cultural geography, fine/folk art and daily life of France and French-speaking countries.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): Online - taught in English.

FREN 102C - French Culture

4 unit(s)

French culture from the Revolution to the 21st Century.

Prerequisite(s): 20 units of college French (or equivalent).

Grading: Letter Graded

FREN 105 - Advanced Grammar: Phonetic Analysis

4 unit(s)

Contrastive analysis of French and English sound systems and their practical application to pronunciation. Intensive conversation and reading of poetry and plays. Language laboratory.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Four semesters of college French (or equivalent).

Grading: Letter Graded

FREN 110 - Advanced Grammar: Grammatical Analysis

4 unit(s)

Structural analysis. Comparison of morphological and syntactical patterns of English and French. Course is repeatable for a total of 6 units.

Prerequisite(s): FREN 101B (or equivalent).

Grading: Letter Graded

FREN 120A - French Literature from the Middle Ages to 1600

4 unit(s)

Course may be repeated for credit for up to 8 units.

Prerequisite(s): FREN 101B or instructor consent.

Grading: Letter Graded

FREN 120B - French Literature of the Seventeenth through the Eighteenth Centuries

4 unit(s)

May be repeated for credit when content changes.

Prerequisite(s): FREN 101B (or equivalent).

Grading: Letter Graded

FREN 132 - Special Topics in French for Careers

4 unit(s)

Provides a focus on the use of the French language for various professions, and examines in depth selected topics in regard to French in the professional world. Repeatable for up to 8 units when topic changes.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): 4 semesters of French or instructor consent.

Grading: Letter Graded

FREN 140B - French Literature 20th-21st Centuries

4 unit(s)

May be repeated for credit when content changes.

Course may be repeated for credit up to 8 units.

Prerequisite(s): FREN 101B (or equivalent).

Grading: Letter Graded

FREN 160 - Masters of French Literature

4 unit(s)

Significant periods or genres. May be repeated for credit when content changes.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Two courses from 120, 140 series (or equivalent).

Grading: Letter Graded

FREN 170 - Translation and Comparative Stylistics

4 unit(s)

Theory and practice of translation for various purposes including literary, scientific, and professional ones. Comparative stylistics of English and French.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): FREN 110 (or equivalent).

Grading: Letter Graded

FREN 180 - Individual Studies in French

1-3 unit(s)

Individual work by arrangement.

Prerequisite(s): Upper division standing in French (or equivalent preparation with grade of "B") and instructor consent.

Grading: Credit/No Credit

FREN 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

FREN 292 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Geographic Information Science

GISC 205 - Spatial Data Literacy and Ethics

4 unit(s)

Explore the ethical and social impacts of geospatial technologies, tracing roots in moral philosophy and professional ethics. Analyze complex case studies, critique legal and policy issues, and evaluate organizational ethics in the field. Develop a framework for ethical digital practices and conduct a research project on ethical issues. Course activities include readings, case studies, presentations, discussions, and a final research project.

Satisfies GWAR: Graduation Writing Assessment Requirement

Grading: Letter Graded.

Note(s): This course satisfies graduate-level GWAR in this master's program.

GISC 210 - Spatial Data Science Through Open-Source GIS Technologies

4 unit(s)

Alternative open source tools for practicing GIS besides licensed and conventional tools for hosting, data development, processing, and sharing, e.g., GITHUB , Quantum GIS (QGIS), GeoServer and PostGIS.

Lecture 2 hours/Lab 6 hours.

Prerequisite(s): GISC 171, GISC 182 or MS GISc coordinator consent.

Grading: Letter Graded.

GISC 220 - Spatial Statistics, Analysis, & Modeling

4 unit(s)

Course covers skills for statistics, analysis of patterns in point, area, and field data, detecting non-randomness, measuring spatial autocorrelation, etc.

Lecture 2 hours/Activity 4 hours.

Prerequisite(s): GISC 170 or MS GISc director's consent.

Grading: Letter Graded.

GISC 298A - Master Report 1: Final Project Research Design

3 unit(s)

An 'asynchronous' course with no scheduled class meetings. Students will complete course assignments and meet deadlines as listed on the course Canvas page and in syllabus. Students must take it upon themselves to submit assignments and be in regular communication with their assigned advisor throughout the semester via phone, email, and Zoom.

Grading: Credit/No Credit/RP.

Geography

GEOG 1 - Physical Geography

3 unit(s)

Atmospheric, biologic and geologic processes that create the natural environments of the world. Discovery of local, regional and global patterns in the location and distribution of environmental phenomena, and the human modifications of natural environments.

Satisfies B1: Physical Science.

Grading: Letter Graded

Sustainability Focused - SDG 15: Life on Land

GEOG 3 - Spatial Data Literacy

1 unit(s)

Explore the data used in geospatial technology, including Geographic Information Systems (GIS), Global Positioning Systems (GPS), cartography, remote sensing, and spatial analysis. Learn to store and manage data, create databases, and document metadata.

Grading: Letter graded.

GEOG 4 - Geospatial Ethics & Privacy

1 unit(s)

Introduces future professionals to GIS associations and codes of ethics and uses scenarios and case studies to recognize, analyze, and address legal and ethical and privacy issues occurring in the geospatial field.

Grading: Letter graded.

GEOG 10 - Cultural Geography

3 unit(s)

The human population studied through the perspective of cultural groups, their institutions and geographic distributions, how different people occupy, use, and modify their environment, and the interaction of individuals from one group with those of another.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Sustainability Focused

GEOG 12 - World Regional Geography

3 unit(s)

Comparative geography of our world: regions and countries, natural environments and resources, settlements and land use, cultural diversity, economic and political patterns.

Satisfies D: Social Sciences.

Grading: Letter Graded.

GEOG 70 - Introduction to Geographic Information Systems

4 unit(s)

Foundations of the mapping sciences and geographic information systems. Basics of earth measurement, location and mapping. Thematic map display and analysis. Application through a variety of laboratory experiences.

Lecture 3 hours/lab 3 hours.

Grading: Letter Graded

GEOG 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

GEOG 100W - Writing Workshop

3 unit(s)

Development of skills required for geographical research and writing.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); and upper division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

Cross-listed with GLST 100W. Urban and Regional Planning is responsible for scheduling.

GEOG 103 - Colloquium

1 unit(s)

Presentations of original research by visiting scholars, faculty, and graduate students.

Grading: Credit/No Credit.

GEOG 105 - Urban Geography

3 unit(s)

Spatial patterns in the urban environment: City function and morphology; population patterns and functional zonation; analysis of recent changes.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

GEOG 107 - Mapping the World

3 unit(s)

Scientific understanding of the physical systems and processes of Earth as explored through data and mapping, satellite and aerial imagery, and an introduction to spatial analysis. In this survey of diverse global environments students will create interactive web applications and story maps using ArcGIS Online to visually communicate the interrelationships between humans and their environment.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education, and upper division standing are prerequisites to all SJSU studies course. Completion of, or co-registration in, 100W is strongly recommended

Grading: Letter Graded

GEOG 110 - Urbanization in the Global South

3 unit(s)

This course explores issues and debates that relate to urbanization in the developing world. Students will gain a general understanding of the concept of urbanization in the developing world, and what are some of the issues, challenges, and policy responses found in these urban environments.

Prerequisite(s): Completion of core GE. Upper division standing

Pre/Corequisite(s): 100W

Grading: Letter Graded.

Cross-listed with URBP 110. Geography is responsible for scheduling.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

GEOG 112 - Nations, Cultures & Globalization

3 unit(s)

In a world with rapidly diminishing resources new conflicts are emerging based on factors such as ethnicity, economic opportunity, religion, and nationalism. Explore global circumstances leading to conflict.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

GEOG 113 - Global Cities

3 unit(s)

This course introduces various aspects of global cities, including debates over global cities, urban culture, new urban landscapes, and class/socio-economic disparity. The class includes case studies regarding global cities throughout the world that aim to explore the diversity and/or similarities of the global city formation process.

Grading: Letter Graded

Sustainability Related - SDG 11: Sustainable Cities and Communities

GEOG 115 - Global Development

3 unit(s)

Exploration of the contemporary global economy using a variety of analytical approaches developed by

geographers. Provides geographic perspective on world economy and environmental issues within a spatial context.

Prerequisite(s): Upper division standing. GEOG 101 recommended.

Grading: Letter Graded

Sustainability Related - SDG 17: Partnerships for the Goals

GEOG 120 - Food Supply and Agricultural Systems

3 unit(s)

Geography of world agriculture and nutritional needs of a growing world population. Comparison of traditional and modern agricultural systems in their use of resources and technologies. Effectiveness in meeting demands and sustainability.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 2: Zero Hunger

GEOG 121 - Population and Global Change

3 unit(s)

Impact of population changes on countries, regions, and their environments. Demographic comparisons of developed and developing societies from perspectives of land use, economics and politics.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with ENVS 121. Urban and Regional Planning is responsible for scheduling.

Sustainability Focused - SDG 15: Life on Land

GEOG 124 - Special Topics in Geography

3 unit(s)

Special Topics in Geography. Topics vary; see class schedule for content.

Repeatable for credit when topic changes.

Prerequisite(s): GEOG 1 or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 15: Life on Land

GEOG 130 - Natural Resources

3 unit(s)

Geography of economic, environmental, political and technological factors that define natural resources and affect their availability and use. Focus on water, food-producing and energy resources.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

GEOG 135 - Research Methods in Geography

3 unit(s)

Development of skills required for quantitative and qualitative geographical research addressing diverse geographic problems

Prerequisite(s): ENGL 2.

Grading: Letter Graded

GEOG 140 - The United States

3 unit(s)

Geography of the U.S. emphasizing the continuing changes of America's places and regions. Themes include environmental, culture, economic, and social geographies at community, regional and national scales.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

GEOG 160 - East and South Asia

3 unit(s)

Geography of Eastern, Southeastern, and Southern Asia. Themes include environmental, historical, political, and economic geographies at the scales of the region, its countries, and selected cities. Particular emphasis is given to comparing and analyzing the variable rates of economic progress across the region.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ASIA 160. Geology is responsible for scheduling.

Sustainability Related - SDG 17: Partnerships for the Goals

GEOG 165 - National Parks

3 unit(s)

An exploration of the history, philosophy, and science of park and wilderness preservation. Includes site visits to selected parks and wilderness areas.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ENVS 165. Urban and Regional Planning is responsible for scheduling.

GEOG 168 - Sub-Saharan Africa

3 unit(s)

Regional study of environments, as well as cultural, economic and political geography of Africa south of the Sahara. Special attention given to geographic factors in the progress of less developed countries.

Grading: Letter Graded

GEOG 171 - Advanced Geographic Information Systems

4 unit(s)

Maps as tools of geographic expression and research. Introduction to spatial analysis through geographic information systems. Data collection and description; measuring absolute and relative location, patterns, interaction and association.

Lecture 3 hours/lab 3 hours.

Prerequisite(s): GEOG 70 or instructor consent.

Grading: Letter Graded

GEOG 172 - Cartography and Data Visualization

3 unit(s)

Techniques of compilation, design, construction and production. Lab projects applying computer graphics and geographic information systems to the effective presentation of geographic themes and information.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): GEOG 70 or instructor consent.

Grading: Letter Graded

GEOG 173 - Drones and Spatial Data Collection

3 unit(s)

Methods of capturing data, acquiring, and importing existing spatial data into geographic information systems, deriving spatial information from remotely sensed data, and storing spatial data.

Prerequisite(s): GEOG 70 and GEOG 172, or instructor consent.

Grading: Letter Graded

GEOG 175 - Geographic Information Systems Project Development

3 unit(s)

Creation of geographic information system databases and application software to solve specific problems in such areas as resource and facilities management, demographic analysis and planning.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): GEOG 70 or instructor consent.

Grading: Letter Graded

GEOG 178 - Participatory GIS

3 unit(s)

Exploration of the theoretical foundations and methods related to collaborative and participatory use of geographic information systems in the context of regional and local planning for decision-making.

Prerequisite(s): GEOG 70 and GEOG 171; one of the following: GEOG 173, GEOG 175, GEOG 181, or GEOG 182; or instructor consent.

Grading: Letter Graded

GEOG 180 - Individual Studies

1-4 unit(s)

Student-initiated in-depth study of a mutually agreeable topic conducted under faculty guidance.

Prerequisite(s): Supervisor and department chair approval.

Grading: Credit/No Credit

GEOG 181 - Introduction to Remote Sensing

3 unit(s)

Acquisition, interpretation and applications of imagery obtained from both airborne and satellite platforms. Includes visual interpretation and analysis of airphotos and non-photographic images, such as radar and thermal infrared. Remotely-sensed imagery as a source for mapping and geographic information systems.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): GEOG 70 or instructor consent.

Grading: Letter Graded

GEOG 182 - Programming for GIS

3 unit(s)

Introduction to GIS programming languages for customizing applications and streamlining spatial analysis. Topics include laboratory practice with GIS software environments, programming syntax and styles, interface customization, GIS routines and functions, and basic algorithms.

Prerequisite(s): GEOG 70 or instructor consent.

Grading: Letter Graded

GEOG 186 - Field Methods in Geography

3 unit(s)

Introduction to field methods in physical and human geography. Field trips, archival research, and student projects provide practical and applied skills and an informed view of the relationships between people and their environments.

Prerequisite(s): 6 units of upper division geography courses.

Grading: Credit/No Credit

Sustainability Related - SDG 15: Life on Land

GEOG 187 - Research Experience

3 unit(s)

Conduct faculty mentored research where Geographic Information Science is central to methods employed. Evaluation includes a written report, oral presentation, and digital data.

Repeatable for up to 6 units.

Prerequisite(s): 6 units of upper division geography courses.

Grading: Letter Graded

Sustainability Related - SDG 15: Life on Land

GEOG 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

GEOG 195 - Open Source GIS

3 unit(s)

Introduction to the concepts of open source software for both desktop and web applications such as Quantum GIS (QGIS) and OpenStreetMap (OSM).

Prerequisite(s): GEOG 70 and GEOG 171 or instructor consent.

Grading: Letter Graded

GEOG 197 - Internship

1-6 unit(s)

Work/activity with professional application in off-campus establishment or agency. Course requirements and units determined in consultation with faculty advisor and work/activity supervisor.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): 12 units of geography.

Grading: Credit/No Credit

GEOG 199 - Senior Seminar

3 unit(s)

Capstone course examining the history of geographic thought and themes with emphasis on critical assessment of issues affecting current trends; objective of placing undergraduate experience in a professional context.

Prerequisite(s): Senior standing in geography.

Grading: Credit/No Credit

GEOG 239 - Geographic Information Technology

3 unit(s)

Research in application of technology to the design and implementation of computer mapping, remote sensing, and geographic information systems. Includes spatial database design issues, spatial processing algorithms, and cartographic visualization. Research project and paper. May be repeated for credit when offered as a different technology.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

GEOG 279 - Geographic Information Science Applications

3 unit(s)

Research in applications of geographic information science in such areas as urban spatial analysis, environmental analysis, geo-demographic analysis, regional analysis, facilities management, and geographic education. Research project and paper. May be repeated for credit when offered as a different technology.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

GEOG 282 - Advanced Geographic Techniques

3 unit(s)

Specific topics in display and analysis of geographic information. Possible topics include advanced spatial analysis, cartographic representation, user-interface design, internet map server technology. May be repeated for credit when offered as a different technique.

Prerequisite(s): GEOG 70 or instructor consent.

Grading: Letter Graded

GEOG 290 - Seminar in Research Design for Geographic Information Science

3 unit(s)

Introduction to research in geographic information science. Includes definition of research problems, design of research project, identification of appropriate methodologies for acquiring, organizing and analyzing data, and presentation of research results. Research paper.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

GEOG 298 - Special Study

1-4 unit(s)

Advanced individual research and projects unavailable in other department offerings conducted under the supervision of a faculty member.

Prerequisite(s): Approval of supervising faculty member and department chair.

Grading: Mandatory Credit/No Credit/RP

GEOG 298P - Master's Project

1-6 unit(s)

Repeatable for credit.

Prerequisite(s): Approved master's degree candidate.

Grading: Credit/No Credit

GEOG 299 - Master's Thesis

1-6 unit(s)

Repeatable for credit.

Prerequisite(s): Approved master's degree candidate.

Grading: Credit/No Credit/RP.

Geology

GEOL 1 - General Geology

4 unit(s)

Examination of geologic processes and materials, including volcanoes, earthquakes, rock formation, oceans, streams, and plate tectonics and their importance to society.

Misc/Lab: Lecture 3 hours/Lab 3 hours and field trips.

Satisfies B1 + B3: Physical + Lab Science.

Grading: Letter Graded

Sustainability Related

GEOL 2 - Geology for Engineers

3 unit(s)

This course provides a foundational introduction to geology as applied to civil engineering. The course focuses on learning and applying knowledge of geologic processes to civil engineering works, decision making, and evaluating the suitability of areas for urban infrastructure based upon geologic evidence and reasoning. Field trips are required and may include weekends.

Prerequisite(s): Enrolled as Civil Engineering Major or instructor consent.

Grading: Letter Graded

GEOL 3 - Planet Earth

3 unit(s)

Origins and processes of Earth's interconnected physical and chemical systems, including aspects of astronomy, geology, meteorology, and oceanography. Impacts of these systems on humans, and of humans on the systems.

Satisfies B1: Physical Science.

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

GEOL 4L - Earth Systems Lab

1 unit(s)

Hands-on investigations, measurements, and analysis of Earth's materials, processes, and hazards. Supplements general lecture courses in Geology.

Lab 3 hours.

Satisfies B3: Laboratory Science.

Grading: Letter Graded.

Sustainability Related

GEOL 5 - Sustainability, Human Development, and the Earth

3 unit(s)

Introductory course examining the role and interaction of the natural world on the physiological, social, and psychological development of human beings within the context of the environmental, social, and academic community system.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

Cross-listed with SCED 5. Geology is responsible for scheduling.

Sustainability Related - SDG 15: Life on Land

GEOL 6 - Geology of California

3 unit(s)

California's geology, illustrating physical processes, landscapes, geologic history and resources. California's seismic, volcanic, landslide and flooding hazards, and their impact on society.

Misc/Lab: Lecture 3 hours/field trips.

Satisfies B1: Physical Science.

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

GEOL 7 - Earth, Time and Life

4 unit(s)

Earth's geosphere: processes that act on it and materials that comprise it; how rocks and fossils are used to interpret the history of Earth's geosphere, atmosphere, oceans, and life forms.

Misc/Lab: Lecture 3 hours/lab 3 hours.

Satisfies B1 + B3: Physical + Lab Science.

Grading: Letter Graded

GEOL 8 - The Age of the Dinosaurs

3 unit(s)

Scientific overview of the Mesozoic Era, or "age of dinosaurs." The course will focus on the evolution of dinosaurs and other contemporaneous life forms, as well as the mass extinction events that mark the beginning and end of the Mesozoic.

Satisfies B2: Life Science.

Grading: Letter Graded

GEOL 9 - Earth Disasters

4 unit(s)

Exploration of natural disasters related to earth processes, including earthquakes, volcanoes, landslides, tsunamis, flooding, and climate change, and their impacts on society.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Satisfies B1 + B3: Physical + Lab Science.

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

GEOL 28 - Geology Outdoors

1 unit(s)

Hands-on introduction to geology in a variety of field settings. Develop your observational skills at several of California's spectacular geologic attractions. Includes one-day field trips, a multi-day field trip, and short written reports.

Pre/Corequisite(s): GEOL 1 and GEOL 7.

Grading: Credit/No Credit

GEOL 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

GEOL 103 - Earth Systems and the Environment

3 unit(s)

Fundamental earth/space science concepts. Emphasis on active learning and guided inquiry. Recommended for students preparing for multiple subject credential.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): PHYS 1 or CHEM 30A, Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused

GEOL 104 - Earth Science Teacher Enhancement

0.5-3 unit(s)

A thematic approach to the study of regionally significant topics, including earthquakes, landslides and volcanoes. Development of hands-on classroom activities. Normally offered through University Continuing Education. Field trips.

Prerequisite(s): Teaching credential and instructor consent.

Grading: Credit/No Credit

GEOL 105 - General Oceanography

3 unit(s)

Scientific examination of the impact of oceans on global society, and human impacts on the oceans, through classroom discussions of scientific and news media reports, and computer exercises.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

GEOL 107 - Prehistoric Life

3 unit(s)

Integrated interdisciplinary examination of the fossil record, including information from the fields of

paleontology, genetics and cosmology that aids in the understanding of organic evolution and periodic massive extinctions.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

GEOL 111 - Geology and the Environment

3 unit(s)

The effect of Earth processes on humans and their structures. Environmental problems related to earthquakes, landslides, minerals, energy, water and urban growth.

Lecture 3 hours/field trips.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ENVS 111. Geology is responsible for scheduling.

Sustainability Focused - SDG 1: No Poverty

GEOL 112 - Hazards, Risks of Earthquakes and Volcanoes

3 unit(s)

How, where and why earthquakes and volcanic eruptions occur. Analysis of hazards posed by earthquakes and volcanoes. Risks incurred by humankind due to these hazards. Minimizing risk; economic, social and political problems associated with earthquakes.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

GEOL 120 - Fundamentals of Mineralogy

3 unit(s)

Laboratory course designed to give students basic skills for identifying minerals and basic understanding of geologic processes that form minerals. Emphasis is on hand specimen and microscope identification.

Misc/Lab: Lecture 2 hours / Lab 3 hours

Prerequisite(s): GEOL 1 and GEOL 7.

Grading: Letter Graded

GEOL 122 - Petrology

4 unit(s)

Identification of minerals and rocks in hand sample and under the microscope. Processes of formation, description, and classification of igneous, sedimentary and metamorphic rocks.

Misc/Lab: Lecture 3 hours/lab 3 hours.

Prerequisite(s): GEOL 120; completion of or co-enrollment in CHEM 1A.

Grading: Letter Graded

GEOL 124 - Sedimentology and Stratigraphy

3 unit(s)

Study of the origin and description of sediment and sedimentary rocks; study of the formation, sequence, and correlation of stratified rocks.

Misc/Lab; Lecture 2 hours/lab 3 hours.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): GEOL 1 and GEOL 7; Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

GEOL 125 - Structural Geology

4 unit(s)

Recognition, interpretation and representation of structures of the Earth's crust. Analysis of basic principles of rock deformation.

Misc/Lab: Lecture 3 hours/lab and field 3 hours.

Prerequisite(s): MATH 19, GEOL 1, GEOL 7, GEOL 28

Grading: Letter Graded

GEOL 127 - Tectonics

3 unit(s)

Description of large-scale features of the Earth's crust and upper mantle and the processes which formed them. Emphasis on plate tectonics and its implications for the evolution of North America.

Prerequisite(s): Any 100W, GEOL 122, GEOL 124, and GEOL 125.

Grading: Letter Graded

GEOL 129A - Spring Field Geology

2 unit(s)

Field methods, field mapping and interpretation of geologic and tectonic history. Students stay at camp sites that vary from year to year.

Prerequisite(s): GEOL 120, GEOL 122, GEOL 124 and GEOL 125; or instructor consent.

Grading: Letter Graded

Note(s): Field Trip Fees Required.

GEOL 129B - Advanced Field Geology

4 unit(s)

Geologic field mapping and interpretation of geologic and tectonic history. Students stay at camp sites that vary from year to year.

Misc/Lab: Lab 6-12 hours.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): GEOL 122, GEOL 124, GEOL 125, or Permission of Instructor

Grading: Letter Graded

GEOL 129C - Digital Geologic Field Mapping

2 unit(s)

Produce digital geologic maps and cross sections from field maps and remote sensing data in order to interpret an area's geologic history.

Lab 6 hours.

Prerequisite(s): Any 100W course, GEOL 137 or a GIS course preferably with ArcGIS. GEOL 129A or a similar field course is strongly encouraged.

Grading: Letter Graded.

GEOL 130 - Marine Geology

4 unit(s)

Introduction to the geology of continental margins and ocean basins. Discussions focus on crustal structures and the effect of plate tectonics and oceanographic processes on modern marine sedimentation.

Misc/Lab: Lecture 3 hours/lab 3 hours.

Prerequisite(s): GEOL 1 or GEOL 7; GEOL 3 with instructor approval.

Grading: Letter Graded

GEOL 132 - Planetary Geology

3 unit(s)

Study of the surfaces and atmospheres of planetary bodies in the solar system, focusing on comparative planetology and geological processes at work. Topics include planetary differentiation, impact cratering, tectonics, volcanism, and geomorphic evolution. Explores terrestrial and gas giant planets and their moons.

Prerequisite(s): GEOL 1 or GEOL 3, or instructor consent.

Grading: Letter Graded

Note(s): This course has an Off Campus Field Trip component.

GEOL 134 - Geomorphology

4 unit(s)

Earth's surficial processes and landforms; effects of tectonics, climate and geology; landscape evolution. Landform interpretation using maps; surface water hydrology; applications.

Lecture 3 hours/lab 3 hours.

Prerequisite(s): Introductory Geology course (GEOL 1, or GEOL 3 / GEOL 4L, or GEOL 7, or GEOL 9), MATH 19 (or equivalent), and PHYS 2A (or equivalent); all with a grade of C or better; or instructor consent.

Grading: Letter Graded.

GEOL 135 - Geochemistry

4 unit(s)

Application of geochemical and thermodynamic principles to solution of geologic problems. Topics include: equilibrium-disequilibrium reactions, major and trace element behavior, isotope systematics and modern analytical methods.

Lecture 3 hours/lab 3 hours.

Prerequisite(s): CHEM 1A. Recommend CHEM 1B.

Grading: Letter Graded

GEOL 137 - Introduction to GPS/GIS for Geologic Applications

4 unit(s)

Introduction to digital geologic mapping and analysis using GoogleEarth and ArcGIS.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): GEOL 1 and GEOL 7, or instructor consent. Computer literacy assumed.

Grading: Letter Graded

GEOL 138 - Hydrogeology

4 unit(s)

Geological principles of the occurrence, accumulation and migration of water; groundwater as a manageable resource; groundwater geochemistry and contaminant transport.

Lecture 3 hours/lab 3 hours.

Prerequisite(s): Recommend MATH 32 or MATH 32X, GEOL 125, and GEOL 135.

Grading: Letter Graded

Sustainability Focused - SDG 6: Clean Water and Sanitation

GEOL 140 - Principles of Engineering Geology

4 unit(s)

Qualitative and quantitative analysis of geologic factors influencing site selection, development and use; methods of data collection, interpretation and presentations.

Lecture 3 hours/lab 3 hours.

Prerequisite(s): PHYS 2A or PHYS 50, and MATH 19 or MATH 30 or MATH 30X.

Grading: Letter Graded

GEOL 142 - Paleontology

4 unit(s)

Study of the major groups of invertebrate and vertebrate fossils and their use in the study of geology, paleoecology, and macroevolution.

Lecture 3 hours/lab 3 hours and field trips.

Prerequisite(s): GEOL 1 and GEOL 7, or instructor consent.

Grading: Letter Graded

Cross-listed with BIOL 142. Geology is responsible for scheduling.

GEOL 143 - Active Tectonics

4 unit(s)

This course will introduce students to the interdisciplinary field of Active Tectonics. The aim of the course is to provide students with a comprehensive and quantitative understanding of the tectonic and surficial processes that shape the Earth's surface.

Lecture 4 hours/Lab 3 hours.

Prerequisite(s): GEOL 1, GEOL 7, and GEOL 28.

Grading: Letter Graded

GEOL 145 - Earth System Science

4 unit(s)

Exploration of the interconnected systems and processes that have driven Earth's evolution over time and continue to function today. Capstone course that includes course projects and labs.

Prerequisite(s): GEOL 1, GEOL 7 or instructor consent

Corequisite(s): One semester of Chemistry

Grading: Letter Graded

GEOL 147 - Introduction to Applied Geophysics

4 unit(s)

Introduction to modern geophysical techniques with emphasis and environmental applications. Field techniques and case histories.

Lecture 3 hours/lab 3 hours.

Prerequisite(s): PHYS 2A and PHYS 2B (or equivalent). Any 100W, GEOL 1, and GEOL 7.

Grading: Letter Graded

Sustainability Focused - SDG 15: Life on Land

GEOL 150 - Field Studies in Natural History

1-2 unit(s)

Field courses given on site, typically covering general ecology, botany, geology, zoology and specialized natural areas such as Baja California, Death Valley, seacoasts and mountains. Repeatable for up to a total of 3 units of credit when location or content changes.

Satisfies B3: Laboratory Science.

Grading: Letter Graded

Note(s): Not an elective in the department majors.

Cross-listed with BIOL 150. Biological Sciences is responsible for scheduling.

Sustainability Related - SDG 15: Life on Land

GEOL 174 - Hazardous Materials

3 unit(s)

Review of current methods and procedures for management of hazardous materials and hazardous wastes; analysis of contaminated systems and remedial actions.

Prerequisite(s): PHYS 51 and CHEM 1A, or instructor consent.

Grading: Letter Graded

Cross-listed with CHE 174. Chemical Engineering is responsible for scheduling.

Sustainability Focused - SDG 12: Responsible Consumption and Production

GEOL 180 - Individual Studies

1-3 unit(s)

Advanced lab or field work.

Prerequisite(s): Instructor consent. Not available to Open University Students

Grading: Credit/No Credit

GEOL 184 - Directed Reading

1-3 unit(s)

Reading of books, journals and papers chosen to fill gaps in training. Evaluation through weekly reports and conference.

Prerequisite(s): Not available to Open University Students

Grading: Credit/No Credit

GEOL 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

GEOL 213 - Advanced Igneous and Metamorphic Petrology

4 unit(s)

Igneous and metamorphic processes and the evolution of the lithosphere. Application of field, petrographic and chemical data to models of petrogenesis. Laboratory emphasizes microscope studies and computer modeling.

Lecture 3 hours/lab 3 hours; field trips.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): GEOL 121 (or equivalent).

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

GEOL 214 - Volcanology

4 unit(s)

Investigates the physical and chemical characteristics of volcanic systems from magma generation and ascent to eruption at the surface. Particular focus on eruption styles and products under varying ambient conditions will be given.

Lecture 3 hours/lab 3 hours.

Grading: Letter Graded

GEOL 222 - Advanced Sedimentary Geology

4 unit(s)

Analysis of sedimentary facies, patterns of facies architecture and major controls on evolution of sedimentary basins.

Misc/Lab: Lecture 3 hours/lab 3 hours; field trips.

Prerequisite(s): GEOL 123 and GEOL 127.

Grading: Letter Graded

GEOL 231 - Advanced Structural Geology and Tectonics

4 unit(s)

Analysis of deformed rocks with emphasis on deformation mechanisms, small-scale structures, shear zones, faults and folds. Techniques of strain analysis and analyzing structure on maps are emphasized in the laboratory.

Lecture 3 hours/lab 3 hours.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): GEOL 125, GEOL 143, or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

GEOL 234 - Advanced Geomorphology

4 unit(s)

We will investigate the role of geomorphology in affecting large-scale processes such as mountain uplift and the global climate. Coursework will include the manipulation of data sets from the Himalayas, topographic analysis of the Sierra Nevada, and modeling with Matlab.

Lecture 3 hours/lab 3 hours; 3-day field trip required.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): GEOL 134 (or equivalent).

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

GEOL 238 - Advanced Hydrogeology

4 unit(s)

Numerical methods in groundwater modeling, vadose zone monitoring and transport and geochemistry of natural and contaminated waters.

Lecture 3 hours/lab 3 hours; field trips.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): GEOL 138 or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Sustainability Focused - SDG 6: Clean Water and Sanitation

GEOL 242 - Advanced Paleontology

4 unit(s)

The lecture portion of this course will be conducted as a seminar; students will read and discuss classic and important newer papers on macroevolutionary theory and paleobiology. In the lab portion of this course, students will use fossil samples to develop and test scientific hypotheses that will be part of a semester-long project.

Misc/Lab: Lecture 4 hours/Lab 3 hours.

Prerequisite(s): Suitable background in geology or evolutionary biology.

Grading: Letter Graded

Cross-listed with BIOL 242. Geology is responsible for scheduling.

GEOL 255 - Advanced Geology

4 unit(s)

Selected topics in geology. Topics change with each offering.

Misc/Lab: Lecture 3 hours/lab 3 hours.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Suitable background in geology.

Grading: Letter Graded

GEOL 285 - Seminar

2 unit(s)

Fundamental problems in geology. Topics change with each offering. May be repeated when content changes.

Misc/Lab: Discussion 2 hours.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

GEOL 298 - Research

1-4 unit(s)

Advanced individual study in geology.

Prerequisite(s): Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

GEOL 299 - Master's Thesis

1-4 unit(s)

Prerequisite(s): Advancement to candidacy for the master's degree. Not available to Open University Students

Grading: Mandatory Credit/No Credit/RP

GEOL 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis.

Prerequisite(s): Outstanding RP grade in a preceding semester in a thesis class

Grading: Credit/No Credit/No Degree Credit

German

GERM 1A - Elementary German

4 unit(s)

Basic structure of the language in the context of culture.

Satisfies C2: Humanities.

Grading: Letter Graded

GERM 1B - Elementary German

4 unit(s)

Basic structure of the language in the context of culture.

Satisfies C2: Humanities.

Prerequisite(s): GERM 1A or equivalent.

Grading: Letter Graded

GERM 25A - Intermediate German

4 unit(s)

Review of basic grammar expansion of vocabulary and communication skills in the context of culture.

Satisfies C2: Humanities.

Prerequisite(s): One year of college-level German (or equivalent or SJSU placement exam).

Grading: Letter Graded

GERM 25B - Intermediate German

4 unit(s)

Introduction of complex grammatical features, continued expansion of vocabulary and communication skills in the context of culture.

Satisfies C2: Humanities.

Prerequisite(s): Three semesters of college German or equivalent.

Grading: Letter Graded

GERM 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

GERM 180 - Individual Studies in German

1-3 unit(s)

Individual work by arrangement.

Prerequisite(s): Upper division standing in German (or equivalent with grade of "B") and instructor consent.

Grading: Credit/No Credit

GERM 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Gerontology

GERO 99 - Death, Dying and Religions

3 unit(s)

Is death the end or the beginning? Learn how people integrate the physical, emotional, psychological, and spiritual dimensions of living and dying. Examine religious teachings and practices for making death personally meaningful, socially significant, or even politically powerful.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

Cross-listed with HUM 99 / RELS 99. Humanities is responsible for scheduling.

GERO 107 - Aging and Society

3 unit(s)

Social, psychological and physiological aging processes. Implications of aging for individuals and societies, with emphasis on issues related to diversity, equality and gender in the U.S.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with PH 107 / SCWK 107. Social Work is responsible for scheduling.

Sustainability Focused - SDG 10: Reduced Inequalities

GERO 108 - Health in Later Life

3 unit(s)

Normal age-related health changes and common illnesses in later life. Health status, behavior and attitudes of older adults. The continuum of health care services. Professional and ethical issues in service delivery.

Prerequisite(s): College biological sciences course.

Grading: Letter Graded

Cross-listed with PH 108. Social Work is responsible for scheduling.

GERO 111 - Medical Ethics

3 unit(s)

(Formerly PHIL/GERO/NURS/HS 111) Selected ethical problems in health care practices. For example, abortion, patient rights, national health care, euthanasia and genetic engineering, with emphasis on philosophical methods.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter graded.

Cross-listed with PHIL 111 Philosophy is responsible for scheduling.

Sustainability Related - SDG 3 - Good Health and Well-Being

GERO 114 - Psychology of Aging

3 unit(s)

Psychological development of middle-aged and older adults emphasizing normative (typical) development in the context of cognitive, socioemotional, biological, and cultural processes. Course content also includes age-related health problems and their prevention.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

Cross-listed with PSYC 114. Psychology is responsible for scheduling.

GERO 116 - Aging and Nutrition

3 unit(s)

The aging process, physiological changes, dietary requirements, diseases, environmental factors, housing, economic status, handicaps, personal relations and current programs for the aged.

Prerequisite(s): One college nutrition course or instructor consent.

Grading: Letter Graded

Cross-listed with NUFS 116. Nutrition, Food Science and Packaging is responsible for scheduling.

Sustainability Focused - SDG 3: Good Health and Well-Being

GERO 133 - Gerontology Field Work

3 unit(s)

Supervised work experience in an organization providing services to older adults. Short-term projects, observation of organizational dynamics and individual skills development.

Prerequisite(s): Completion of 9 units in gerontology.

Grading: Credit/No Credit

GERO 166 - Medical Sociology

3 unit(s)

Sociological analysis of medical and mental health institutions, values and roles. Patient-doctor interaction, influence of hospital structure on health care, social class and illness, cultural determinants of illness and related areas of old age (gerontology) and death.

Prerequisite(s): SOCI 1 or equivalent.

Grading: Letter Graded

Cross-listed with SOCI 166. Sociology and Interdisciplinary Social Sciences is responsible for scheduling.

Sustainability Related - SDG 3: Good Health and Well-Being

GERO 185 - Leisure, Recreation and Aging

3 unit(s)

Theory and practice related to the role of leisure services in maximizing the quality of life for older adults. Interrelationship of leisure and other supportive services for older adults in community and institutional settings.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with RECL 185. Public Health and Recreation is responsible for scheduling.

GERO 251 - Social Work in Health and Aging

3 unit(s)

Knowledge and skill development for practice from a transcultural multi-systems perspective in aging and health care settings. Emphasis on Latino, African American, Asian American, and other diverse client

systems. Conceptual frameworks for practice at micro, mezzo, and macro levels.

Prerequisite(s): SCWK 220 and SCWK 221.

Grading: Letter Graded

Cross-listed with SCWK 251. Social Work is responsible for scheduling.

Sustainability Focused - SDG 10: Reduced Inequalities

GERO 260 - Multidisciplinary Health Promotion in Later Life

3 unit(s)

Multidisciplinary assessment and planning. Principles of promoting health and preventing disability in later life. Physical, psychological, social, cultural, spiritual, and environmental factors that affect length and quality of life.

Prerequisite(s): BIOL 66 or GERO 108 or instructor consent.

Grading: Letter Graded

Cross-listed with HPRF 260 / NUFS 260. Nutrition, Food Science and Packaging is responsible for scheduling.

Sustainability Related - SDG 10: Reduced Inequalities

GERO 265 - Seminar in Cognitive Disorders

3 unit(s)

Provides a framework for better understanding the process of cross-generational communication and the improvement of communication competencies for interaction with cognitively impaired persons.

Grading: Letter Graded

Cross-listed with EDSP 265. Communicative Disorders and Sciences is responsible for scheduling.

GERO 268 - Lifespan Development

3 unit(s)

Examination of human development across the lifespan, through multiple theoretical and cultural perspectives, with a holistic integration of physical, cognitive, and socio-emotional aspects of development. To deepen knowledge to assist children, adolescents, and adults with life challenges.

Grading: Letter Graded

Cross-listed with EDCO 268. Counselor Education is responsible for scheduling.

GERO 299 - Master's Thesis

3-6 unit(s)

Supervised individual research in gerontology. Preparation for doctoral level study.

Repeatable for credit.

Prerequisite(s): Advancement to candidacy for the master's degree and instructor consent.

Grading: Credit/No Credit/RP.

Public Health and Recreation is responsible for scheduling.

Global Studies

GLST 1A - Introduction to Global Studies

3 unit(s)

Introduces students to the scope of global studies as seen from the social and cultural perspectives. Readings based on the best critical studies of globalization and its outcomes. Occasionally, visiting professors will give new academic approaches to this field.

Grading: Letter Graded

Sustainability Related - SDG 17: Partnerships for the Goals

GLST 1B - Introduction to Global Studies

3 unit(s)

Presents scientific ways for understanding global phenomena and for developing policy to achieve positive outcomes of globalization. Interdisciplinary approaches require new analytical models. Visiting professors will collaborate with instructor.

Satisfies B2: Life Science.

Grading: Letter Graded

Sustainability Related - SDG 17: Partnerships for the Goals

GLST 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

GLST 100W - Writing Workshop

3 unit(s)

Development of skills required for geographical research and writing.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

Cross-listed with GEOG 100W. Urban and Regional Planning is responsible for scheduling.

GLST 143 - Gender, Power, Intl Dev

3 unit(s)

Explore issues of poverty, gender, economic transformations, inequality while examining the history of development. Consider various meanings given to development by women and men, primarily as residents of particular regions, but also as aid workers, policy makers, and government officials. Explore the underlying political, economic, social, and gender dynamics that make "development" an ongoing problem world-wide.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 5: Gender Equality

GLST 156 - Technology of the Modern World

3 unit(s)

Analysis of development and global diffusion of technology in the 20th and 21st centuries. Interrogates historical narratives of modern technology, reflecting on broader ethical, political, human significance of modern technology. Ecological impacts of technologies. Power, problems, promise of technology.

Grading: Letter Graded

Sustainability Focused - SDG 9: Industry, Innovation and Infrastructure

GLST 162 - Contemporary Global Issues

3 unit(s)

Interdisciplinary approach to contemporary global issues. Understanding and analyzing global issues are the focus of the course. Students will explore, analyze, and articulate the unique challenges each of the issues pose to the global community in ways that will foster student's ability to understand and evaluate causes, consequences, and responses to global challenges.

Prerequisite(s): Upper Division standing or Instructor Consent

Grading: Letter Graded

Sustainability Focused - SDG 17: Partnerships for the Goals

GLST 164 - Advanced Seminar in Global Citizenship

3 unit(s)

Designed to encourage and inspire students to develop their own understanding of the concept of global citizenship and to develop informed perspectives related to concerns of the global community. Students will be asked to consider the impact they may have, as well as their individual and collective responsibilities, as global citizens, within their local, national, and global communities.

Prerequisite(s): Upper Division Standing or Instructor Consent

Grading: Letter Graded

Sustainability Focused - SDG 17: Partnerships for the Goals

GLST 167 - Changing Ecologies of Globalization

3 unit(s)

Environmental and human issues and challenges 1492 to present. Global environmental shifts & relationship to social, demographic, cultural, political change. Human interaction with natural environment.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 17: Partnerships for the Goals

GLST 179 - Capstone Seminar in Global Studies

3 unit(s)

Course is designed for majors to help them to gain coherence in their theoretical knowledge, factual grounding, international living, personal aptitudes, and career aspirations. It will also give them experience in interdisciplinary research through preparation of a major scholarly paper. The format includes discussion, group analysis, visiting professors, and individual work.

Prerequisite(s): Completion of GLST 1A, senior standing.

Grading: Letter Graded

Sustainability Related - SDG 17: Partnerships for the Goals

GLST 188 - Special Topics in International Experiences

3 unit(s)

Study of modern history, government, immigration and impacts on development of diverse communities. Study of effects of immigration, economics, biases, and other factors on community development, as well as comparing and contrasting US and other cultural perspectives. Course offered as FLP in countries outside the U.S.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Course is repeatable for up to 6 units.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all

SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

GLST 189 - Global Experience

1-3 unit(s)

Required for Global Studies majors. Completion of Global Studies sponsored faculty-led international educational study, semester-long residence abroad, for formal study, research, service learning, or internship. Students will develop their programs with the advice and approval of the GLST advisor and the International Programs and Service office. Students may transfer in additional credits from approved study, with prior approval of the GLST advisor.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): Completion of GLST 1A, junior standing.

Grading: Credit/No Credit

GLST 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Graphic Design

DSGD 63 - Fundamental Graphic Visualization

3 unit(s)

Critical examination and theories on how to work with two-dimensional compositional space and the interrelated basic principles, attributes, and elements of graphic design, includes the relationships between some production methods and materials.

Grading: Letter Graded

DSGD 83 - Digital Applications: Basics

3 unit(s)

The fundamental use of features and functions inherent within graphic software programs for graphic design.

Grading: Letter Graded

DSGD 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Letter Graded

DSGD 99 - Introduction to Typography

3 unit(s)

Study and demonstration of letterforms and fundamental typographic principles. Emphasis on the vocabulary of typographic form and its relationship to message/purpose.

Misc/Lab: Activity 6 hours

Prerequisite(s): GD majors: ANI 11 or ART 24, DSGD 83; ANI majors: ANI 11, ANI 71; IT majors: DSIT 33, DSIT 10, DSIT 83; ID majors: completion of DSID 22 or completion of DSGD 83 and concurrently enrolled in DSID 22

Grading: Letter Graded

DSGD 100 - Visual Communication & Process

3 unit(s)

Problems explore methods of visual organization used in graphic communication. Course promotes the critical examination and development of ideas, two-dimensional spaces, and three-dimensional structures, including the relationship between some production methods and materials.

Activity 6 hours.

Prerequisite(s): ANI 11 (or ART 24 or DSID 21 or DSIT 10), DSGD 63 (or ART 12 or ANI 10 or DSID 22 or DSIT 5), DSGD 83 (or ANI 71 or DSID 32 or DSIT 83), and DSGD 99. Allowed Declared Majors: BA Design Studies, BS Industrial Design, BFA Animation/Illustration, BFA Interior Design. Allowed Declared Minor: Graphic Design Minor.

Grading: Letter Graded

DSGD 102 - Intermediate Typography

3 unit(s)

Application of typographic principles to a diverse series of graphic design problems utilizing text and display letterforms, organizational systems, fundamental design theories and conceptual innovation.

Prerequisite(s): Pass BFA portfolio review, DSGD 104

Grading: Letter Graded

DSGD 103A - Advanced Typography I

3 unit(s)

Advanced conceptual investigations, verbal and visual problem solving utilizing typography and image.

Activity 6 hours.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Pass BFA Portfolio Review, DSGD 104. Allowed Declared Major: Graphic Design.

Grading: Letter Graded

DSGD 104 - Introduction to Graphic Design

3 unit(s)

Familiarization to form and message development. Emphasis on visual concepts and fundamental design theory.

Activity 6 hours.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): DSGD 100 and DSGD 99. Allowed Declared Majors: BA Design Studies, BS Industrial Design, BFA Animation/Illustration, BFA Interior Design. Allowed Declared Minor: Graphic Design Minor.

Grading: Letter Graded

DSGD 105 - Intermediate Graphic Design

3 unit(s)

Development of concepts combining image/form, message, typography and function with fundamental design theory.

Activity 6 hours.

Course is repeatable for a total of 6 units.

Prerequisite(s): Pass BFA Portfolio Review, DSGD 104. Allowed Declared Major: Graphic Design.

Grading: Letter Graded

DSGD 106 - Advanced Graphic Design

3 unit(s)

Advanced and diverse series of topics confronting a wide variety of situations and needs emphasizing conceptual innovation, organization, planning and analysis.

6 hours activity.

Prerequisite(s): Pass BFA Portfolio Review, DSGD 102, DSGD 186 and DSGD 110. Allowed Declared Majors: Graphic Design.

Grading: Letter Graded

DSGD 107A - Special Topics in Graphic Design

3 unit(s)

Comprehensive design problems utilizing design theories, analysis, experimentation, innovation and

conceptual development as systematic approaches to structuring various degrees of graphic design issues; database scientific visualization, graphic information system, publication design, and promotion & media graphics.

Misc/Lab: Lab 6 hours.

Prerequisite(s): Pass BFA Portfolio Review

Grading: Letter Graded

DSGD 107B - Special Topics in Experience Design

3 unit(s)

Capstone design problems utilizing design methodologies, theories, and analysis in the area of time-base multimedia design; narrative filming, kinetic typography in motion, interaction design, and event design as related to visual information design.

Misc/Lab: Lab 6 hours.

Prerequisite(s): Pass BFA Portfolio Review

Grading: Letter Graded

DSGD 108 - Graphic Design Portfolio

3 unit(s)

Portfolio preparation using various media and methods for effective professional presentation.

Prerequisite(s): Pass BFA Portfolio Review, DSGD 105, and DSGD 186. Allowed Declared Majors: Graphic Design.

Grading: Letter Graded

DSGD 109 - Digital Apps: Motion & Interaction Design

3 unit(s)

Introduction to fundamental motion and interaction design. Promotes the critical examination and development of basic time-based media design, motion graphics design, and motions in web media based on design theory and design practices by using interdisciplinary approaches and the latest techniques.

Activity 6 hours.

Prerequisite(s): DSGD 63, DSGD 83, and DSGD 99. Allowed Declared Majors: BA Design Studies, BFA Graphic Design.

Grading: Letter Graded.

DSGD 110 - Visual Literacy: Image Making

3 unit(s)

A course that defines the ability to assess and utilizes communications composed of various visual images (hybridization of manual, analog, and digital processes) for goal oriented projects. Students will develop tools needed to critically examine the visual world and strategies for creating unique visual forms and process of visual encoding and visual decoding for incorporating into graphic design projects.

Prerequisite(s): Pass BFA portfolio review; DSGD 104.

Grading: Letter Graded

DSGD 111 - Design Values and Professional Practices

3 unit(s)

Defines and investigates design practices, processes, materials, and vocation and their effects on society, environment, business, and intellectual property. Lectures, discussions, and group and individual projects explore applications of design thinking for positive local to global outcomes.

Misc/Lab: Activity 6 hours.

Prerequisite(s): ANI majors: ANI 50; GD majors: DSGD 63, DSGD 83; IT majors: DSIT 33, DSIT 83; ID majors: DSID 22 or DSGD 83.

Corequisite(s): DSID 22

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

DSGD 120 - Exhibition Design & Info Graphics

3 unit(s)

Introducing principles, processes, and vocabularies of exhibition design. A substantial amount of student activity in the classroom will address acquiring and refining the two- and three-dimensional visualization of objects and spaces.

Prerequisite(s): Pass BFA Portfolio Review, DSGD 110, DSGD 186

Grading: Letter Graded

DSGD 127 - Design Practicum

3 unit(s)

Building a successful design career requires an understanding of best practices and the standards governing the ever-evolving business of graphic design. This course aims to explore the creative business processes, marketing, negotiation and pricing, ethical standards of design business, and professional relationships in design.

6 hours Activity.

Prerequisite(s): Pass BFA Portfolio Review, DSGD 110, DSGD 186

Grading: Letter Graded

DSGD 131 - Motion Graphics

3 unit(s)

A capstone design problems course that exposes students to the principles, methodologies, and elements of motion graphics and narrative design. Students develop techniques and skills for synthesizing the language of motion simultaneously with an emphasis on narrative structure, and text and image in relation to time-based media. The project is examined in terms of its historical, cultural and conceptual implications.

Activity 6 hours.

Prerequisite(s): Pass BFA Portfolio Review, DSGD 102, DSGD 110 and DSGD 186.
Grading: Letter Graded

DSGD 132 - User Interface & Interaction Design

3 unit(s)

An advanced course focusing on the fundamental theory and practice of computer user interface and interactive design with emphasis on: the 2D graphic digital user interfaces, the current interaction development technology, theory, process and methods, and its overall impact on culture and society.

Activity 6 hours.

Prerequisite(s): Pass BFA Portfolio Review, DSGD 102, DSGD 110 and DSGD 186.
Grading: Letter Graded

DSGD 141 - 3D Branding & Promotion Design

3 unit(s)

Experimental problems and themes exploring theories, strategies, and methodologies in 3D branding and Promotion Design such as marketing communication tools, packaging and P.O.P design, emphasizing innovative expression. Projects also examine contextual and conceptual prototyping for point of purchase display.

Activity 6 hours.

Prerequisite(s): Pass BFA Portfolio Review, DSGD 102, DSGD 110 and DSGD 186.
Grading: Letter Graded

DSGD 150 - Degree Project: Senior Studio

3 unit(s)

In-depth studies course focused on research concerning current issues in visual communication/information/graphic design fields. The student develops an individual design approach, process, and methodology for the application of graphic design solutions as the thesis project that fulfills the criteria for the BFA Graphic Design.

Activity 6 hours.

Prerequisite(s): Pass BFA Portfolio Review, DSGD 105, and DSGD 186.
Grading: Letter Graded

DSGD 176A - Graphic Design History and Theory

3 unit(s)

The history of graphic design and typography with an emphasis on the 20th century. Define technological, historical and theoretical concerns and influences on individuals and movements in graphic design.

Prerequisite(s): ARTH 72, completion of Area Z, or instructor consent.
Grading: Letter Graded

Cross-listed with ARTH 176A. Art and Art History is responsible for scheduling.

DSGD 186 - Digital Applications: Methodology

3 unit(s)

Exposes students to the tools, skill sets, and languages that are essential to understanding the fundamentals for web based information and interaction design principles and discovery of its practice in the profession. Activity 6 hours.

Activity 6 hours.

Prerequisite(s): BFA Graphic Design Major, or Interaction Design Minors must complete DSID 126.

Grading: Letter Graded

DSGD 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Health & Human Sciences

CHHS 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

CHHS 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Course may be repeated for credit for up to 6 units.

Grading: Mixed Grading

CHHS 198ITL - International Experience Seminar

1-6 unit(s)

Seminar for students participating in an approved international experience activity. Students will analyze and reflect upon their international experience in relation to discipline-specific knowledge acquired through academic study, their intended career, and their identity as a global citizen.

Grading: Credit/No Credit

Health Professions

HPRF 260 - Multidisciplinary Health Promotion in Later Life

3 unit(s)

Multidisciplinary assessment and planning. Principles of promoting health and preventing disability in later life. Physical, psychological, social, cultural, spiritual, and environmental factors that affect length and quality of life.

Prerequisite(s): BIOL 66 or GERO 108 or instructor consent.

Grading: Letter Graded

Cross-listed with GERO 260 / NUFS 260. Nutrition, Food Science and Packaging is responsible for scheduling.

Sustainability Related - SDG 3: Good Health and Well-Being

Health Science

HS 90 - Introduction to Health Science Professions

3 unit(s)

Provides an overview of the U.S. healthcare system and the health workforce. Specifically, this course will examine issues affecting healthcare delivery including social determinants of health, healthcare reform, and healthcare insurance. This course will also explore the roles and educational requirements of physicians, dentists, nurses, occupational therapists, and other health professionals.

Grading: Letter Graded.

HS 110 - Interprofessional Health Teams

3 unit(s)

Course provides an overview of interprofessional health teams and collaborative care. Competencies for interprofessional collaboration, group and team theory will be introduced and relevant concepts including interprofessional practice, models of teamwork, bias, values and ethics, communication, and the roles and responsibilities of the different professionals of a collaborative health care team will be outlined.

Grading: Letter Graded.

Hebrew

HEBR 1A - Elementary Hebrew

4 unit(s)

Basic skills and structure of the Hebrew language, in the context of the history and range of cultural expressions in the Hebrew speaking world.

Satisfies C2: Humanities.

Grading: Letter Graded.

Cross-listed with JWSS 1A / RELS 1A. World Languages and Literatures is responsible for scheduling.

HEBR 1B - Elementary Hebrew

4 unit(s)

Second level of Elementary Hebrew, further developing students' proficiency in reading, writing, speaking, and listening in Modern Hebrew, delving deeper into the context of the history and range of cultural expressions in the Hebrew speaking world.

Satisfies C2: Humanities.

Prerequisite(s): HEBR 1A (or equivalent).

Grading: Letter Graded.

Cross-listed with JWSS 1B / RELS 1B. World Languages and Literatures is responsible for scheduling.

HEBR 10X - Elementary Hebrew- Individual Learning

1-3 unit(s)

Basic structure of the language in the context of culture.

Course may be repeated for credit for up to 3 units.

Grading: Letter Graded

HEBR 15A - Intermediate Hebrew

3 unit(s)

Developing speaking skills.

Prerequisite(s): HEBR 1A and HEBR 1B (or equivalent).

Grading: Letter Graded.

Cross-listed with JWSS 15A / RELS 15A. World Languages and Literatures is responsible for scheduling.

HEBR 15B - Intermediate Hebrew

3 unit(s)

Developing speaking skills.

Prerequisite(s): HEBR 1A and HEBR 1B (or equivalent).

Grading: Letter Graded.

Cross-listed with JWSS 15B / RELS 15B. World Languages and Literatures is responsible for scheduling.

HEBR 15X - Intermediate Hebrew- Individual Learning

1-3 unit(s)

Developing speaking skills.

Course may be repeated for credit for up to 3 units.

Grading: Letter Graded

HEBR 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

HEBR 102A - Advanced Hebrew

3 unit(s)

Readings, grammar, discussion and composition.

Prerequisite(s): Four semesters of college Hebrew (or equivalent).

Grading: Letter Graded

Cross-listed with JWSS 102A / RELS 102A. World Languages and Literatures is responsible for scheduling.

HEBR 102B - Advanced Hebrew

3 unit(s)

Readings, grammar, discussion and composition.

Prerequisite(s): 12 units of college Hebrew (or equivalent).

Grading: Letter Graded

Cross-listed with JWSS 102B / RELS 102B. World Languages and Literatures is responsible for scheduling.

HEBR 102X - Advanced Hebrew- Individual Learning

1-3 unit(s)

Readings, grammar, discussion and composition.

Course may be repeated for credit for up to 3 units.

Grading: Letter Graded

HEBR 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

History

HIST 1A - World History to 1500

3 unit(s)

Introduces students to the world's regions and civilizations as interconnected entities. HIST 1A examines the growth and development of traditional civilizations to 1500. HIST 1B surveys the transformation of civilizations since 1500.

Satisfies D: Social Sciences.

Grading: Letter Graded.

HIST 1B - World History from 1500

3 unit(s)

Introduces students to the world's regions and civilizations as interconnected entities. HIST 1A examines the growth and development of traditional civilizations to 1500. HIST 1B surveys the transformation of civilizations since 1500.

Satisfies D: Social Sciences.

Grading: Letter Graded.

HIST 10A - Western Civilization

3 unit(s)

History and culture of Europe; social and political structures; roles of individuals and groups; relationships among ideas, institutions, society and culture; to 1648.

Satisfies D: Social Sciences.

Grading: Letter Graded.

HIST 10B - Western Civilization

3 unit(s)

History and culture of Europe; social and political structures; roles of individuals and groups; relationships among ideas, institutions, society and culture; 1648 to present.

Satisfies D: Social Sciences.

Grading: Letter Graded.

HIST 15 - Essentials of U.S. History

3 unit(s)

Treatment of essentials of U.S. history. Satisfies the American Institutions (US1) and the GE Area D: Social Sciences requirements.

Satisfies D + US1: Social Sciences + US History.

Grading: Letter Graded.

HIST 20A - History of the American People

3 unit(s)

Survey of continuity and change in society, culture, institutions and environment. Origins through slavery conflict.

Satisfies American Institutions US1: US History.

Grading: Letter Graded

HIST 20B - History of the American People

3 unit(s)

Survey of continuity and change in society, culture, institutions and environment. Emergence of modern society and world power status.

Satisfies American Institutions US1: US History.

Grading: Letter Graded

HIST 50 - Historical Process: Understanding Historical Reasoning

3 unit(s)

Modes and skills of practical logic and reasoning through study of historical method. Historical problems examined to that end.

Satisfies A3: Critical Thinking and Writing.

Prerequisite(s): Completion of GE Area A2 with a grade of C- or better.

Grading: Letter Graded

HIST 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

HIST 99 - History Fundamentals

3 unit(s)

An introduction to the skills, technology and technique of history reading, writing and research. It is a prerequisite to HIST 100W. Sophomores and transferring juniors are required to take this course.

Prerequisite(s): Open to History and Social Science Teacher Preparation majors only; lower or upper division standing.

Grading: Letter Graded

HIST 100W - History Writers' Workshop

3 unit(s)

Development of skills required for the art and practice of historical research and writing. Library research, oral reports and written exercises dealing with a variety of historical problems.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): HIST 99 required or Department permission. A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level. Allowed Declared Majors: History and Social Science.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

HIST 102 - Historiography

4 unit(s)

Critical study of the writings of great historians.

Prerequisite(s): HIST 99 and HIST 100W.

Grading: Letter Graded

HIST 104 - Advanced Topics in Ancient History

4 unit(s)

An investigation in depth of selected periods or topics in Ancient history. Repeatable for credit when topic changes up to 8 units.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

HIST 109A - History of China

4 unit(s)

Traditional society from earliest times to 1800.

Prerequisite(s): Upper Division Standing.

Grading: Letter Graded

Cross-listed with ASIA 109A. History is responsible for scheduling.

HIST 109B - History of China

4 unit(s)

China's revolutions and ongoing modernization.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ASIA 109B. History is responsible for scheduling.

HIST 110A - History of Japan

4 unit(s)

Development of state and society from prehistoric times to 1750. Major topics include the controversy over the origins of the Japanese people; the adaptation of Chinese cultural, religious, and political models; the role of the emperor in state formation; the classical era of Japanese culture during the Heian period; the rise of the samurai elites; and the development of military rule under the shoguns.

Prerequisite(s): Upper division standing or consent of instructor.

Grading: Letter Graded

Cross-listed with ASIA 110A. History is responsible for scheduling.

HIST 110B - History of Japan

4 unit(s)

Since 1750 emphasizing the process of modernization.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ASIA 110B. History is responsible for scheduling.

HIST 111 - Special Topics in Jewish Studies

3 unit(s)

Special Topics in Jewish Studies. Topics vary and will be announced each semester. Repeatable for credit under different subtitles.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with HUM 111 / JWSS 111 / RELS 111. History is responsible for scheduling.

HIST 112 - Ancient West to 500 BCE

4 unit(s)

Political, social and cultural history of the Ancient West (Europe, the Middle East and North Africa, from ca. 15,000 BCE to 500 BCE).

Prerequisite(s): Upper division standing

Grading: Letter Graded

HIST 114 - The Ancient West, 500 BCE-400 CE

4 unit(s)

Political, social, and cultural history of the Ancient West (Europe, the Middle East, and North Africa), from ca. 500 BCE to 400 CE.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

HIST 118 - Yiddish History and Culture

3 unit(s)

Introduces Yiddish as a lens through which to explore some of the major historical trends in Eastern European and American Jewish life, such as Hasidism, the Jewish Enlightenment (Haskalah), nationalism, immigration, secularization, and antisemitism.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Note(s): Students are strongly encouraged to satisfy GE Areas R, S, and V with courses from departments other than the major department.

Cross-listed with JWSS 118. History is responsible for scheduling.

HIST 121A - Medieval Worlds, 400-1000

4 unit(s)

This course surveys European Medieval History from the late fourth century through the first millennium. It

examines the political, economic, social, cultural, and religious changes that constituted the transformation of the antique world into a unique "European" civilization.

Prerequisite(s): Upper division standing

Grading: Letter Graded

HIST 121B - Medieval Worlds, 1000-1500

4 unit(s)

From 1000 - 1500 emphasizing growth of papal power, commercial revolution and revival of urban life, twelfth century Renaissance, interactions between the European, Byzantine, and Islamic worlds, and late medieval transformations leading to modernity

Prerequisite(s): Upper division standing

Grading: Letter Graded

HIST 124 - Early Modern Europe

4 unit(s)

The European world in transition from 1580 to 1750. A continuation of HIST 122 , exploring the central place of the princely court in the transformation of politics, religion, art, culture, science, technology and philosophy. Introduction to the Enlightenment.

Prerequisite(s): Upper Division Standing

Grading: Letter Graded

HIST 126 - Advanced Topics in Medieval History

4 unit(s)

An investigation in depth of selected periods or topics in Medieval history. Repeatable for credit when topic changes for up to 12 units.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Departmental consent required.

Grading: Letter Graded

HIST 130 - Military History to 1500

4 unit(s)

The development of military force and warfare from its origins to 1500.

Grading: Letter Graded

HIST 131 - Military History from 1500

4 unit(s)

Traces the development of military force and warfare from 1500 to the present. Various aspects of military conflict are considered including technology, organization, culture and leadership. The role of war and armies in culture and in the development of civilization are considered. Students learn about the sources for military history and how historians use them, and are challenged to think about the "why" of military history,

its development and its impact.

Grading: Letter Graded

HIST 132 - Advanced Topics in World History

4 unit(s)

Aspects of world history under various topics. Repeatable for credit when topic changes for up to 12 units.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

Sustainability Related - SDG 10: Reduced Inequalities

HIST 136 - World Jewish History

3 unit(s)

History of the Jewish people and Judaism around the world, from their origins to the present. Covers Jewish development, both as an ethnic group and as a religion, with an emphasis on the diverse ways in which Jews responded to their circumstances. A major focus is the effect of Judaism and the Jews on other cultures and societies.

Satisfies SJSU Studies Area V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended (HIST 100W preferred).

Grading: Letter graded.

HIST 143 - Europe, 1750-1900

4 unit(s)

Major political, economic, social and cultural themes of European history from the Enlightenment to 1900.

Prerequisite(s): Upper division standing

Grading: Letter Graded

HIST 144 - Europe, 1900-1945

4 unit(s)

A history of political, economic, social and cultural developments in Europe during the era of the two world wars.

Prerequisite(s): Upper division standing

Grading: Letter Graded

HIST 145 - Europe and the World Since 1945

4 unit(s)

Political, economic and social developments since World War II, with emphasis on Europe.

Prerequisite(s): Upper division standing

Grading: Letter Graded

HIST 146 - Advanced Topics in European History

4 unit(s)

An investigation in depth of selected periods or topics in European history.

Repeatable for credit when topic changes up to 12 units.

Prerequisite(s): Upper division standing

Grading: Letter Graded

HIST 153 - History of Women in Europe

3 unit(s)

Changes in women's private and public roles in diverse national, class, religious, ethnic and racial contexts from Ancient Greece to Modern Europe.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Related - SDG 5: Gender Equality

HIST 155 - 20th Century World

3 unit(s)

Global perspectives on a century of scientific progress that also saw the violent deaths of millions, with emphasis on the decline of traditional imperialism and the ideological contention that led to World War II and the Cold War.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

HIST 162 - Colonial Latin America

4 unit(s)

The course covers the colonial administration and society of the Spanish and Portuguese colonies in the New World. I also look at social, economic, and political conditions of the Iberian Peninsula and of the Amerindian empires on the eve of the conquest. The course concludes with an overview of the independence movements in Hispanic America and Brazil.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

HIST 163 - Modern Latin America, 1800-Present

4 unit(s)

Latin America since 1800. Focus on major political changes, such as independence, wars, popular uprisings, and systems of government. Also economic and cultural affairs, especially when they disrupt existing societies, and outstanding leaders who charted their nations' destinies.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

HIST 167 - Advanced Topics in Latin American History

4 unit(s)

An investigation in depth of selected periods or topics in Latin American history. Repeatable for credit when topic changes up to 12 units.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

HIST 170 - Topics in American History

3 unit(s)

An investigation in depth of selected periods or problems. Repeatable for credit when topic changes.

Satisfies American Institutions US1: US History.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Note(s): No credit for history majors or minors.

Sustainability Related - SDG 10: Reduced Inequalities

HIST 170S - Topics in American History: American Identities and Institutions

3 unit(s)

An investigation in depth of selected periods or problems. This topic focuses on historical relationships between social groups and the political, social, economic and cultural institutions they created.

Satisfies SJSU Studies S+US1: Self, Society & Equality in the U.S. + American History.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Related - SDG 10: Reduced Inequalities

HIST 171 - U.S. Constitutional & Legal History

4 unit(s)

Origins and evolution of the United States Constitution and federal system from the American Revolution to the present.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

HIST 173 - New World Encounters, 1400-1750

4 unit(s)

Examines the first wave of European expansion, from 1400-1750, through the prism of cultural and religious interactions. Explores how Europeans, Africans, and Indians understood each other during European exploration, conquest, and colonization of the "New World".

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Note(s): Offered only occasionally.

Sustainability Related - SDG 10: Reduced Inequalities

HIST 174 - Colonial & Revolutionary America

4 unit(s)

Investigates the socio-political development of British North America from the 1600s to the era of the American Revolution. Examines how mentalities, voluntary and involuntary immigration, demographic catastrophes, rebellions, and religious revivals shaped the British Atlantic.

Prerequisite(s): Upper division standing

Grading: Letter Graded

HIST 175 - Inventing America, 1800-1860

4 unit(s)

The history of the United States from 1800-1860. Topics include the rise of democratic political culture, industrialization, the emergence of a market economy, pivotal changes in institutions such as the family and church and the redefinition of key American values.

Prerequisite(s): Upper division standing

Grading: Letter Graded

HIST 176 - The Civil War and Reconstruction

4 unit(s)

Course takes a topical approach, examining the political, social, economic, military, and ideological dimensions of the Civil War and Reconstruction. Focus will be on the war and its aftermath as a

revolutionary experience rather than solely as a military struggle.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

HIST 177 - Industrial America, 1877-1920

4 unit(s)

Economic, social, and political history from the end of Reconstruction to the achievement of women's suffrage. Topics include the triumph of industrial capitalism, labor conflict, women's suffrage, Populism/Progressivism, race/ethnicity, and World War I.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

HIST 178 - Crash, Depression and War, 1920-1950

4 unit(s)

The United States from the "Roaring Twenties" through the Great Crash, the Great Depression, the New Deal, World War II, the home front, the Atomic Age, and the beginning of the Cold War.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

HIST 179 - Cold War America, 1950-Present

4 unit(s)

Modern history of the United States since 1950 including the Cold War, the Korean and Vietnam wars, the Civil Rights Movement, postwar society, culture, economics and politics.

Prerequisite(s): Upper division standing or instructor consent

Grading: Letter Graded

HIST 180 - Individual Studies

1-4 unit(s)

Individual work on special topics by arrangement.

Prerequisite(s): History majors or minors.

Grading: Credit/No Credit

HIST 181 - Advanced Topics in American History

4 unit(s)

An investigation in depth of selected periods or topics in American history.

Course is repeatable for credit when topic changes up to 12 units.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 10: Reduced Inequalities

HIST 184 - Directed Reading

1-4 unit(s)

Directed reading on a specific topic in history.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): History major/minor and instructor and department chair consent.

Grading: Credit/No Credit

HIST 185 - LGBTQ+ History in the United States

3 unit(s)

Students use an intersectional framework to examine LGBTQ+ history in the United States. The course emphasizes how the development of institutions and ideals, the formation of identities, and shifting contexts of equality and inequality have impacted LGBTQ+ people through time.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

HIST 188 - History of Women in the United States

3 unit(s)

A multi-faceted history of women in the United States from colonial times to the present.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Repeatable for credit.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 5: Gender Equality

HIST 189A - California History to 1900

4 unit(s)

Topics include Native American civilizations, Spanish discovery and missions, the Mexican era, the American conquest, the Gold Rush, Chinese immigration, the railroad, growth, development, politics and class conflict.

Satisfies American Institutions US3: California Government.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Note(s): Satisfies American Institutions requirement in California government.

HIST 189B - California History Since 1900

4 unit(s)

Topics include the Progressive movement, migration, immigration, growth, prosperity, depression, agriculture, industry, war, politics, protests, riots, environmentalism, nativism, and diversity.

Satisfies American Institutions US3: California Government.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Note(s): Satisfies American Institutions requirement in California government.

HIST 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

HIST 197 - Introduction to Public History

4 unit(s)

Introduction to preservation and presentation of history to the community and to roles historians play in public agencies. Exploration of archives, museums and historic sites. Required for admission to Public History internship.

Prerequisite(s): Upper division standing or consent of instructor.

Grading: Letter graded.

HIST 199 - Public History Internship

3 unit(s)

Supervised placement in historical organizations, public institutions and community agencies concerned with preservation of history. May be repeated for 6 unit maximum.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit

HIST 209 - Colloquium in Ancient and Medieval Europe

4 unit(s)

Intensive readings, discussions and reports on Ancient and Medieval Europe. For areas and field of emphasis see the schedule of classes. May be repeated when content changes.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

HIST 210A - Advanced Colloquium United States History

4 unit(s)

Intensive readings, discussions, and reports on American history in the seventeenth and eighteenth centuries. Repeatable for credit once with different instructor.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Graduate standing

Grading: Letter Graded

HIST 210B - Advanced Colloquium United States History

4 unit(s)

Intensive readings, discussions, and reports on American history in the nineteenth century. Repeatable for credit once with different instructor.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

HIST 210C - Advanced Colloquium United States History

4 unit(s)

Intensive readings, discussions, and reports on American history in the twentieth century. Repeatable for credit once with different instructor.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Graduate standing

Grading: Letter Graded

HIST 211 - Advanced Colloquium in Modern Europe

4 unit(s)

Intensive readings, discussions and reports. Topics have included the French Revolution, the Holocaust in Europe and issues of marginalization of gender and class during the modern period. May be repeated with different instructor or topic.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

HIST 220 - Advanced Colloquium in World History

4 unit(s)

Intensive readings, discussions and reports in Asian, African, European and North and South American history, in one of three eras: ancient and classical eras (before 1000), between 1000 and 1750 or since 1750. May be repeated with different instructor or topic.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Graduate standing or instructor consent

Grading: Letter Graded

HIST 221 - Seminar in World History

4 unit(s)

An intensive study of some area, problem or period in world history. Topics have included World War II, the Atlantic Economy, World Slavery, British Imperialism. Repeatable for up to 8 units when course content changes.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

HIST 230 - Seminar in Ancient and Medieval Europe

4 unit(s)

An intensive study of some areas, problem or period in Ancient or Medieval Europe. Individual research with oral and written reports. May be repeated for up to 8 units with different instructor or topic.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Graduate Standing.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

HIST 240 - Seminar in Pre-Twentieth Century Europe

4 unit(s)

An intensive study of some area, problem or period in European history before 1900. Topics have included economic, social and gender differences in Industrial Europe and social theories of Max Weber.

Satisfies GWAR: Graduation Writing Assessment Requirement.

May be repeated when content changes.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

HIST 241 - Seminar in Twentieth Century Europe

4 unit(s)

An intensive study of some area or problem. Individual research with oral and written reports. Topics have included the Cold War, European diplomacy and international security.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Graduate standing

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

HIST 272 - Seminar in American Diplomatic History

4 unit(s)

An intensive analysis of some chronological period, area or major problem in American diplomatic history. Individual research with oral and written reports.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

HIST 274 - Seminar in US Social & Cultural History

4 unit(s)

Intensive study of some phase of American social, cultural, and/or intellectual history. Individual research with oral and written reports. Topics have included class, race, ethnic, and gender differences. May be repeated when content changes. Repeatable for up to 8 units when topic changes.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): graduate standing or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 10: Reduced Inequalities

HIST 276 - Seminar in Early American History

4 unit(s)

An intensive study of some phase in, or problem of, American history from colonial period through the Civil War. Topics have included American independence from British control, the development of the industrial North and the colonization of the West. May be repeated when content changes.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

HIST 280 - Seminar in Recent American History

4 unit(s)

An intensive study of some phase or problem in the period from the Civil War to the present. Individual research with oral and written reports. May be repeated when content changes.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

HIST 283 - Seminar in California and Western History

4 unit(s)

An intensive study of an area, phase or period of history associated with California or the West. Individual research with oral and written reports. May be repeated for credit when course content changes.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Graduate standing and instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GVAR in this master's program.

HIST 288 - Seminar in the History of Women in the United States

4 unit(s)

An intensive study of some phase of the history of women in the United States. Individual research with oral and written reports.

Satisfies GVAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Graduate Standing.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GVAR in this master's program.

HIST 292 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

HIST 298 - Special Study

1-6 unit(s)

Advanced individual research.

Prerequisite(s): Instructor consent and approval by graduate advisor.

Grading: Mandatory Credit/No Credit/RP

Note(s): More than 3 units only in areas where graduate courses not normally offered.

HIST 299 - Master's Thesis

3-6 unit(s)

Open only to approved master's candidates in history. Reserved for students under Plan A.

Repeatable for credit.

Grading: Credit/No Credit/RP.

HIST 1290R - Culminating Experience Supervision

1 unit(s)

This course is offered in special sessions for 1 unit. It is required of, and limited to, graduate students who have completed all degree coursework and need only pass the Plan B exam to complete the program. Students who have completed all coursework, are preparing for the Plan B, and are not enrolled in any other classes must enroll in HIST1290R. The course is also required of graduate students who have an outstanding RP grade in a preceding semester in a thesis class. If one has an outstanding RP, this course must be taken unless the student is enrolled in any other course. By outstanding, it is meant that the RP grade has not been changed to any other grade, including a CR or NC. The RP grade in the thesis course remains on the official record until a culminating memo has been submitted by the graduate advisor to the Office of Graduate Admissions & Program Evaluations and the course instructor of the class in which an RP was received has petitioned for a grade change to CR.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): HIST 299 or completion of all coursework.

Grading: Credit/No Credit/No Degree Credit

Note(s): This course receives no degree credit and therefore cannot be used on the candidacy form or to fulfill graduation requirements.

Humanities

HUM 10 - Honors Global Oral and Rhetorical Cultures

3 unit(s)

Interdisciplinary study of human cultures, with special attention to the interplay of oral and written cultures and how orality and rhetoric continue to shape modern societies. Studies human cultures from what we know of their beginnings to the present along three axes of cultural interconnection: East-West; Global North-Global South; and past-present. Assignments focus on the development of oral and multimedia presentation skills in order to engage the material on its own terms.

Satisfies A1: Oral Communication.

Prerequisite(s): Completion of or concurrent registration in GE Area A2.

Grading: Letter Graded.

HUM 11 - Honors Critical Thinking across Global Cultures

3 unit(s)

Interdisciplinary study of how major ideas in philosophy and political philosophy from different global cultures can help us to understand world historical events and contemporary social issues. Assignments focus on the development of critical thinking and argumentative writing skills through 3-4 culture units, each focused on a "big question" that resonates across a wide geographic and historical span, covering three axes of cultural interconnection: East-West; Global North-Global South; and past-present. Questions may include how to live a good life, how to determine truth, or how to organize society.

Satisfies A3: Critical Thinking and Writing.

Prerequisite(s): Completion of GE Area A2 with a grade of C- or better.

Grading: Letter Graded.

HUM 20 - Honors Global Material Cultures

3 unit(s)

Interdisciplinary study of human cultures from what we know of their beginnings to the present, with special attention to how culture is materialized through art, architecture, monuments, media, film, and theater representation. Assignments focus on developing the student's ability to interpret, evaluate, and respond to the histories and aesthetic qualities of important artifacts of human culture. Studies human cultures along three axes of cultural interconnection: East-West; Global North-Global South; and past-present.

Satisfies C1: Arts

Prerequisite(s): Completion of or concurrent registration in GE Area A2.

Grading: Letter Graded.

HUM 21 - Honors Reading Difference across Global Cultures

3 unit(s)

Interdisciplinary study of human cultures from what we know of their beginnings to the present, with special attention to how works of literature, art, philosophy, and history create, maintain, and undermine cultural differences. Assignments focus on developing the student's ability to interpret, evaluate, and respond to the role of human culture in the formation of communities and identities, to include consideration of East-West, Global North-Global South, and past-present cultural interactions.

Satisfies C2: Humanities.

Prerequisite(s): Completion of or concurrent registration in GE Area A2.

Grading: Letter Graded.

HUM 80 - Reading the World

3 unit(s)

By studying the history, philosophy, and science of reading, we build a transdisciplinary, critical approach to the value of reading comparative, historical, and cross-cultural texts. Activities and writing assignments enable students to understand the logical construction of arguments to become reflexive participants in reading.

Satisfies A3: Critical Thinking and Writing.

Prerequisite(s): Completion of GE Area A2 with a grade of C- or better.

Grading: Letter Graded

HUM 90 - Bible History and Literature

3 unit(s)

The Bible in context of its history, literary sources and as a reflection of Jewish and Christian traditions. Motifs and themes in light of their original audience, historic usage and contemporary development.

Satisfies C2: Humanities.

Grading: Letter Graded

Cross-listed with JWSS 90 / MDES 90 / RELS 90. Humanities is responsible for scheduling.

HUM 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

HUM 95 - Introduction to Digital Humanities

3 unit(s)

Seminar course that explores how digital technologies create new possibilities for knowledge-making in the humanities. Students engage in digital humanities research using a variety of multi-modal methods to explore how technologies can be harnessed to tell stories, connect information, raise awareness, and visualize complex ideas in interactive ways.

Course is repeatable for up to 6 units.

Grading: Letter Graded

HUM 99 - Death, Dying and Religions

3 unit(s)

Is death the end or the beginning? Learn how people integrate the physical, emotional, psychological, and spiritual dimensions of living and dying. Examine religious teachings and practices for making death personally meaningful, socially significant, or even politically powerful.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

Cross-listed with GERO 99 / RELS 99. Humanities is responsible for scheduling.

HUM 100W - Writing in the Humanities & Interdisciplinary Arts

3 unit(s)

Advanced workshop in composition and reading for the critical and comparative study of the humanities and interdisciplinary arts. Students explore and practice the thinking and writing skills that help us communicate insight, critique, interpretation, description, and analysis of arts, literature, history, and culture, including expository writing and library research. Readings and objects of study include a range of topics and at least two different art forms.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second-semester composition course (with a grade of C- or better); completion of core GE; and upper-division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

Cross-listed with AMS 100W / RELS 100W. Humanities is responsible for scheduling.

HUM 101 - Human Life: Let's Think About It

3 unit(s)

Introduction to interdisciplinary comparative and creative studies. A range of methodologies will be explored through two contrasting subjects. Students learn and synthesize approaches - geography, history, literature, arts, and social science - to achieve a holistic understanding of the topics.

Prerequisite(s): Upper Division Standing.

Grading: Letter Graded

HUM 111 - Special Topics in Jewish Studies

3 unit(s)

Special Topics in Jewish Studies. Topics vary and will be announced each semester. Repeatable for credit under different subtitles. Repeatable for credit when topic changes.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with HIST 111 / JWSS 111 / RELS 111. History is responsible for scheduling.

HUM 114 - Legacy of Asia

3 unit(s)

Interdisciplinary focus on continuity and change in China and India as these ancient civilizations responded to challenges throughout their history.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ANTH 114 / ASIA 114 / RELS 114. Humanities is responsible for scheduling.

HUM 119 - Myths, Heroes, and Global Cultures

3 unit(s)

This course examines cultural developments in Europe, Asia and Africa during the ancient era and middle ages, roughly 700 B.C.E. to 1400 C.E., and the roles of pivotal figures, both mythic and historical, whose actions and ideas created our understanding of the early world.

Prerequisite(s): Upper division standing or permission of instructor

Grading: Letter Graded

HUM 122 - Topics in Comparative World Literature

4 unit(s)

An exemplary theme as treated in various literatures from different national sites, e.g., war, love, freedom, colonialism, environmental disaster.

Grading: Letter Graded

Cross-listed with COLT 122 / ENGL 122 / FORL 122. English and Comparative Literature is responsible for scheduling.

HUM 126 - Holocaust Literature

3 unit(s)

Survey of literature written by survivors or witnesses of the Holocaust, the destruction of European Jewry during World War II, focusing upon diaries, memoirs, fiction, and occasionally poetry and drama. Writers may include Elie Wiesel, Primo Levi, Anne Frank, Charlotte Delbo.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ENGL 126 / FORL 126 / JWSS 126. English and Comparative Literature is responsible for scheduling.

HUM 128 - Perspectives on the Twentieth Century: The West in a Global Context

3 unit(s)

Literature and the arts of selected world cultures contextualized in significant events and concepts of the twentieth century, such as two world wars, totalitarian systems, the revolt against colonial powers, modernity and postmodernity, and the global challenge to western hegemony.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

HUM 134 - Religion Film & Media

3 unit(s)

Depictions of religion, religions, religious behavior, and religious propaganda in film and media. Exploring these from several perspectives, (e.g. emic and etic, cross-national, aesthetic) and examining the murky problem of "the truth" in the depiction of religious and spiritual experience.

Prerequisite(s): Upper-division standing or instructor consent.

Grading: Letter Graded

Cross-listed with CA 134 / RELS 134. Humanities is responsible for scheduling.

HUM 141 - Medieval Literature

4 unit(s)

Middle English and continental literature, including such forms as the lyric, allegory, narrative, romance and biblically-based drama.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with ENGL 141. English and Comparative Literature is responsible for scheduling.

HUM 142 - Contemporary Buddhism and its Roots

3 unit(s)

Teachings of Gautama, the Buddha and ways in which those teachings were modified in forms of Buddhism that followed: Theravada in southeast Asia and Mahayana in East Asia.

Prerequisite(s): Upper-division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ASIA 142 / RELS 142. Humanities is responsible for scheduling.

HUM 144 - Chinese Traditions

3 unit(s)

Religious thought and practice of China's three Great Traditions (Buddhism, Taoism and Confucianism) as well as China's Little Tradition (Chinese folk religion). The role of these traditions within traditional Chinese culture and their relevance to the modern world, including China.

Prerequisite(s): Upper-division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ASIA 144 / RELS 144. Humanities is responsible for scheduling.

HUM 148 - Children's Dance

3 unit(s)

Study of dance for children as personal expression through movement. Use of creative dance as a tool for the enrichment of learning. Experiencing dance in a variety of cultures.

Misc/Lab: Lecture 2 hours/activity 2 hours.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with DANC 148. Film and Theatre is responsible for scheduling.

HUM 159 - Nature and World Cultures

3 unit(s)

The influence of industrialization and globalization on earth and the environment as seen through culture.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with AMS 159 / ENVS 159. Humanities is responsible for scheduling.

Sustainability Focused - SDG 15: Life on Land

HUM 160 - Special Topics in Humanities

3 unit(s)

Comparative studies of vital issues and enduring ideas (ethical, political, social, cross-cultural, etc.). Content varies each semester and with each instructor. Repeatable for up to 9 units of credit when course topic changes.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): Upper-division Standing.

Grading: Letter Graded

Cross-listed with AMS 160. Humanities is responsible for scheduling.

HUM 169 - The American Dream

3 unit(s)

The American search for identity and meaning, the struggle for equality and success, in relation to myths, illusions and realities reflected in history, literature and the arts.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with AMS 169. Humanities is responsible for scheduling.

HUM 177A - Advanced Honors in Integrated Science, Social Science, and Humanities

6 unit(s)

SJSU Studies Honors cultivates scientific study of the physical universe and life forms, explores individuals and groups in the USA regarding diversity, equality, and institutional inequalities and practices, and develops appreciation for human cultures and their diverse development globally over time.

Lecture 3 hours/Seminar 3 hours

Satisfies SJSU Studies R+S+V: Earth, Environment, and Sustainability. + Self, Society & Equality in the U.S. + Cultures and Global Understanding with successful completion of HUM 177A/HUM 177B sequence.

Prerequisite(s): All-college GPA of 3.0 or higher. Completion of Core General Education and upper division

standing are prerequisites to all SJSU studies courses.

Pre/Corequisite(s): 100W pre- or corequisite strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

HUM 177B - Advanced Honors in Integrated Science, Social Science, and Humanities

3 unit(s)

SJSU Studies Honors cultivates scientific study of the physical universe and life form, explores individuals and groups in the USA regarding diversity, equality, and institutional inequalities and practices, and develops appreciation for human cultures and their diverse development globally over time.

Lecture 1.5 hours/Lecture 1.5 hours

Satisfies SJSU Studies R+S+V: Earth, Environment, and Sustainability. + Self, Society & Equality in the U.S. + Cultures and Global Understanding with completion of HUM 177A/HUM 177B sequence.

Prerequisite(s): HUM 177A

Grading: Letter Graded

HUM 179 - Issues in US Popular Culture

3 unit(s)

Music, sports, fashion, popular literature, television and other arts and activities that are main forms of influence, entertainment and escape. Expressions of American attitudes and ideas as important influences upon evolving culture and consciousness.

Prerequisite(s): Upper-division standing.

Grading: Letter Graded

Cross-listed with AMS 179. Humanities is responsible for scheduling.

HUM 180 - Individual Studies

1-3 unit(s)

Directed reading and thesis by arrangement.

Prerequisite(s): Department chair consent.

Grading: Credit/No Credit

HUM 190 - Senior Seminar in Humanities

3 unit(s)

Readings, discussions and individual research projects relating to an interdisciplinary theme selected by the instructor.

Pre/Corequisite(s): Upper-division Standing. Any 100W class.

Grading: Letter Graded.

Cross-listed with AMS 190 / RELS 190. Humanities is responsible for scheduling.

HUM 191 - Religion in America

3 unit(s)

History of social and intellectual influence of religious groups, stressing their African-, Asian-, European-, Latin- and Native-American roots. Highlights contact between groups, immigration, religious diversity and syncretism.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with RELS 191. Humanities is responsible for scheduling.

HUM 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Humanities & the Arts

HA 157SL - Community Action/Community Service

3 unit(s)

A campus-wide service learning program with opportunities for direct involvement with local community services, both off campus and on campus. Weekly seminars held on campus or at the field site, plus four to six hours of community service work per week at the field site.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with COMM 157SL / EDUC 157SL / ENGR 157SL / SCI 157SL. Communication Studies is responsible for scheduling.

Sustainability Related - SDG 11: Sustainable Cities and Communities

HA 187 - Creative Team Practicum

3 unit(s)

Collaborative hands-on practical application of concepts and skills for written and visual communications solutions in a fast-paced client-driven environment supported by an interdisciplinary team of instructors of technical writing, graphic design, videography and photography. Enrollment requirements are based on section topic.

Course may be repeated for credit for up to 6 units.

Grading: Letter Graded

Industrial and Systems Engineering

ISE 102 - Engineering Economic Systems

3 unit(s)

Systems analysis applied to economic decisions in engineering; comparison of alternatives based on cost breakdown structure and time value of money; system life-cycle process; life-cycle economic concepts, costing methodology and applications.

Corequisite(s): MATH 31 or MATH 31X, and ENGR 10. Or equivalents.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

ISE 103 - Life Cycle Engineering

3 unit(s)

Life cycle analysis of products focused on the contexts of reducing energy and the carbon footprint. Methods to analyze and evaluate the environmental impacts of engineering activities. Interdisciplinary case studies and projects related to life cycle engineering.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

ISE 105 - Introduction to Systems Engineering

3 unit(s)

Techniques for integrating engineering problem solving methods with systems theory including principles of problem identification, description, modeling, solution, and implementation; applying traditional and life cycle cost systems to assist engineers in decision making process through the product life cycle.

Prerequisite(s): MATH 31 or MATH 31X. Allowed Declared Majors: Any Engineering.

Grading: Letter Graded

ISE 110 - Manufacturing Processes

3 unit(s)

Fundamentals of manufacturing processes such as machining, forming, casting, molding and welding. Surface treatments, powder-based processes, and microfabrication methods. Materials behavior and

selection for manufacturing. Geometric dimensions and tolerancing.

Prerequisite(s): ME 20 with a grade of "C-" or better.

Pre/Corequisite(s): MATE 25.

Grading: Letter Graded

Cross-listed with ME 110. Mechanical Engineering is responsible for scheduling.

ISE 112 - Occupational Health Engineering

3 unit(s)

Legislative framework and historical perspective of work-related injuries and diseases: prevention assessments, legal and regulatory issues surrounding solutions to occupational health problems, principles of industrial hygiene and program management.

Prerequisite(s): Junior standing in engineering.

Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

ISE 114 - Safety Engineering

3 unit(s)

Hazards, accident prevention and engineering approaches to the design of equipment, facilities and processes. Provides familiarity with system safety, system evaluation and evaluation of alternative countermeasures. Latest safety regulations and agencies responsible for their enforcement.

Prerequisite(s): Junior standing.

Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

ISE 115 - Lean Integrated Manufacturing

3 unit(s)

Analyze, design and integrate manufacturing processes including application of Group Technology, CAM, automated material handling, and flexible automation within lean manufacturing environment. Manage automation in support of a lean enterprise improvement program based upon the Toyota Production System paradigm.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): ISE 120, CMPE 30 or equivalent, Engineering majors only.

Grading: Letter Graded

ISE 120 - Work Methods Design and Measurement

3 unit(s)

Design of efficient and effective work processes; includes process management, methods analysis and improvement and work measurement.

Misc/Lab: Lecture 2 hours/Lab 3

Prerequisite(s): MATH 32. Allowed Declared Majors: Any Engineering.

Corequisite(s): ISE 130.

Grading: Letter Graded

ISE 130 - Engineering Probability and Statistics

3 unit(s)

Probability theory, graphical displays of data, graphical methods of comparisons of samples and hypotheses testing. Statistical estimation and inference. Uses graphical statistical packages.

Prerequisite(s): MATH 32 or MATH 32X. Allowed Declared Majors: Any Engineering and graduate students.

Grading: Letter Graded.

ISE 131 - Statistical Process Control and Improvement

3 unit(s)

Statistical computations, sampling procedures, development and use of control charts and utilization of computerized statistical packages. Design of statistical quality control systems. The seven tools of quality; process capability studies.

Prerequisite(s): ISE 130 (with a grade "C-" or better) or equivalent. Allowed Declared Majors: Any Engineering.

Grading: Letter Graded

ISE 133 - Data Mining and Analysis for Industrial Systems

3 unit(s)

An introduction to the concepts of data mining and analysis, together with practical tools for their execution. Understanding of the fundamental steps of data mining and analysis, such as data collection, data understanding, data preparation, model construction, model evaluation, and model deployment. Applications of data analysis methods on real datasets, to show how they can support problem solving in industrial systems.

Prerequisite(s): ISE 194 or instructor consent.

Grading: Letter Graded

ISE 135 - Design of Experiments

3 unit(s)

Tests of composite hypotheses, analysis of variance, statistical decision theory, sampling procedures, design and implementation of statistical process control systems, response surface experimental design, Taguchi experimental design, system reliability, utilization of computerized statistical packages.

Prerequisite(s): ISE 130 (with grade of "C-" or better) or equivalent. Allowed Declared Majors: Any Engineering.

Grading: Letter Graded

ISE 140 - Operations Planning and Control

3 unit(s)

Design, implementation and evaluation of manufacturing, planning and control systems. Includes MRP II, ERP, JIT.

Prerequisite(s): ISE 102, ISE 120. Allowed Declared Majors: Any Engineering and graduate students.

Grading: Letter Graded

ISE 142 - Service Systems Engineering and Management

3 unit(s)

Operational productivity, operational quality strategy and information technology applications in the service sector through the use of tools, techniques and case studies. Contrasts manufacturing and service sector issues related to supply chain, process quality, information systems and other topics.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

ISE 151 - Engineering Management Systems in Global Society

3 unit(s)

Broad overview of engineering management theory and practice across geographically distributed operations with differing cultural perspectives, including: management's roles, responsibilities, skills, strategy and planning; management systems, human resource management, problem solving and decision-making; engineering ethics.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

ISE 155 - Supply Chain Engineering

3 unit(s)

A comprehensive coverage of supply chain topics; real world applications including logistics, inventory management, risk pooling, value of information, strategic alliance, procurement and outsourcing strategies, information technology, coordinated product and supply chain design, customer value, decision, support systems.

Prerequisite(s): ISE 140.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

ISE 160 - Healthcare Delivery Systems

3 unit(s)

Overview and analysis of health care delivery systems in the US with emphasis on the assessment, analysis, and improvement of operational quality, efficiency, and effectiveness. Impact on primary components of health care systems: facilities, approaches to care and treatment modalities, and personnel.

Quantitative and qualitative techniques and applications to improve health care systems; performance measures used to evaluate access and quality of care. Impact of healthcare policies, laws, economics, and current US health care culture on organizational performance and patient outcomes.

Prerequisite(s): Junior Standing

Grading: Letter Graded

ISE 161 - Medical Errors Reduction and Patients Safety Engineering

3 unit(s)

Standardization of national reporting of medical errors; patient safety and high risks processes performance analysis; Safety improvements utilizing human factors techniques; information technology applications to reduce medication errors and improve patient safety; structured teams and systems to reduce clinical errors.

Prerequisite(s): Junior Standing

Grading: Letter Graded

ISE 162 - Engineering Statistics and Analysis

2 unit(s)

Topics will include error analysis, probability, statistics including hypothesis testing, confidence limits and control variables, design of experiments and statistical process control as they are utilized in the chemical, materials and process engineering industries.

Lecture 1 hours/Lab 3 hours.

Prerequisite(s): MATH 33A

Grading: Letter Graded

Cross-listed with CHE 162. Chemical Engineering is responsible for scheduling.

ISE 164 - Computer and Human Interaction

3 unit(s)

Introduction to human/computer interaction, paradigms for interaction, human performance capabilities, computer input/output device analysis and design, pattern recognition 3D audio, 3D visualization, application to virtual reality and multimedia.

Prerequisite(s): Junior standing.

Grading: Letter Graded

ISE 167 - System Simulation

3 unit(s)

Introduction to simulation. Monte Carlo techniques. Design and use of discrete-event computer simulation modeling techniques; theoretical and practical treatment of input to models; model validation methods and output analysis. Synchronized sampling, model comparisons.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): CMPE 30 or equivalent; ISE 130 (with grade of "C-" or better). Allowed Declared Majors:

Any Engineering and graduate students.

Grading: Letter Graded

ISE 170 - Operation Research

3 unit(s)

Development and application of mathematical models to industrial problems. Linear programming, network analysis, Markov models, game theory, queuing theory and decision analysis.

Prerequisite(s): ISE 130 (with grade of "C-" or better). Allowed Declared Majors: Any Engineering.

Pre/Corequisite(s): MATH 33LA.

Grading: Letter Graded

ISE 180 - Individual Studies

1-3 unit(s)

Individual work on special topics by arrangement.

Prerequisite(s): Upper division standing and instructor consent. Not available to Open University Students.

Grading: Credit/No Credit

ISE 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ISE 194 - Analytics Workshop

1 unit(s)

Application of common analytics programming languages to problems in industrial engineering. A service learning component of 10 hours for the semester is required.

Prerequisite(s): CMPE 30, ISE 135, and Senior Standing.

Grading: Credit/No Credit

ISE 195A - Senior Industrial Engineering Design I

1 unit(s)

Individual or group design projects. Proposal preparation with plans and specifications. Oral and written reports. Professional seminars. global and social issues in engineering.

Misc/Lab: Lab 3 hours.

Prerequisite(s): ISE 105, ISE 120, ENGR 100W, major form on file and good standing in the major.

Grading: Letter Graded

ISE 195B - Senior Industrial Engineering Design II

3 unit(s)

Design of industrial system: Quality function deployment, technology trends, financial analysis, functional specifications, process design, production capability, quality management, manufacturing resource planning, equipment requirements, human resource management, MIS, facility design, and project management. Integrated global and social issues in engineering.

Misc/Lab: Lab 9 hours.

Prerequisite(s): ISE 140 and ISE 195A (with grade of "C" or better). ISE majors only.

Grading: Letter Graded

ISE 200 - Financial Methods for Engineers

3 unit(s)

Systematic approach and methods for engineering decision making where economic outcomes are principal criteria. Accounting analysis and decision making topics that aid in understanding the relationships between various functional areas of business and the decision making processes of engineering managers.

Grading: Letter Graded

ISE 201 - Math Foundations for Decision and Data Sciences

3 unit(s)

Linear algebra and matrix operations in statistics, optimization and artificial intelligence. Statistical concepts and techniques important for decision and data sciences, with motivation by real-world examples. Basic optimization techniques useful for statistics, classification and neural networks.

Prerequisite(s): Graduate Standing in Engineering.

Grading: Letter Graded

ISE 202 - Design and Analysis of Engineering Experiments

3 unit(s)

Review of statistical inference and tests of hypotheses. Introduction to analysis of variance and covariance. Theory and applications of experimental designs for engineering problems. Random and systematic designs. Randomized blocks. Latin squares. Factorial and fractional factorial designs. Taguchi methods.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): ISE 130.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ISE 203 - Agile Systems Engineering

3 unit(s)

Exploration of Lean, Agile, Scrum, Kanban, Large-Scale Scrum, and Scaled Agile Frameworks. Real examples leverage the immersion understanding of Agile. Students acquire Agile knowledge and skills that can be applied to any type of project in any industry.

Prerequisite(s): ISE 213

Grading: Letter Graded

ISE 205 - Data Ethics

3 unit(s)

Data ethics implications of decisions made while conducting and implementing data analysis, ML and AI. Students will learn to identify bias and fairness in a dataset and techniques for reducing the harm.

Prerequisite(s): ISE 130 or instructor's consent.

Grading: Letter graded.

ISE 210 - Human Factors/Ergonomics

3 unit(s)

Analysis and evaluation of work systems in terms of the capabilities and limitations of human participants. Person as a system component. Emphasis is on evaluation of how work affects people and how people affect the work.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

ISE 211 - Experiment Design for Human Factors Engr

3 unit(s)

Hypotheses testing, linear regression, analysis of variance, factorial experiments, fractional factorial designs, Construction/analysis of complete/incomplete block designs, non-parametric statistical methods including alternatives to ANOVA, multiple comparisons, power and sample size determination, and factor analysis.

Prerequisite(s): STAT 115 or ISE 130 or ISE 201 or equivalent (with a grade of B or better)

Grading: Letter Graded

ISE 212 - Human Factors Experiments

3 unit(s)

Research and experimentation on specific aspects of the person as a system or in systems. Particular emphasis is placed on in-depth studies of unique human factors.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): ISE 210 or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ISE 213 - Principles of Engineering Management

3 unit(s)

Functions of engineering managers: planning, organizing, leading, and controlling. Business fundamentals for engineering managers. Engineering leadership and engineering management. Project management methods: planning, scheduling and controlling.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Graduate Standing

Grading: Letter Graded

ISE 214 - Enterprise Engineering

3 unit(s)

The body of knowledge, principles, and disciplines related to the analysis, design, implementation, and operation of all elements associated with an enterprise which is explained through a set of conceptual models and the understanding of an enterprise from engineering perspective.

Prerequisite(s): ISE 213

Grading: Letter Graded

ISE 215 - Usability Evaluation and Testing

3 unit(s)

Seminar is designed to provide students with a comprehensive overview of usability testing methods, as applied to systems products and software-web applications. Course will address testing methods, processes and marketing justification for usability testing.

Prerequisite(s): ISE 210

Grading: Letter Graded

ISE 216 - Service Design: Process and Methods

3 unit(s)

Service Design is a specialization that integrates many aspects of interaction design, organizational psychology, human factors, and systems design. 4 Service Design content areas relevant to employment and ongoing practice in user experience (aka human-computer interaction) will be covered in this course.

Grading: Letter graded.

ISE 217 - Human Computer Interaction

3 unit(s)

Human performance characteristics, computational tools, and HCI applications. How to access/evaluate HCI requirements, to design HCI requirements, to assess the impact of design on performance, and to generalize the design implication to system function.

Grading: Letter Graded.

ISE 218 - Interaction Design I

3 unit(s)

Theory, science and application of user experience interaction design. Latest tools and techniques. Relationship between software interaction design patterns, usability, learnability and human performance in man-machine systems.

Prerequisite(s): Graduate Standing

Grading: Letter Graded

ISE 219 - HCI for Cyber Security

3 unit(s)

The course covers HCI in cyber security that include: authentication and access control, trust, user privacy and data protections, cyber security in social networking, data protection and security in healthcare , cyber security in eCommerce, mobile, computing & cloud computing, compliance and regulation, visualization tools and techniques in cyber security and privacy.

Prerequisite(s): Graduate Standing.

Grading: Letter Graded.

Cross-listed with PSYC 219. Industrial and Systems Engineering is responsible for scheduling.

ISE 220 - Interaction Design II

3 unit(s)

Advanced topics for design of product and service experiences focused on methods that motivate, delight and influence human behavior during engagement with applications and information in multiple media and across devices ranging from wearables to mobile and Web.

Prerequisite(s): ISE 218

Grading: Letter Graded

ISE 222 - Adv Sys Engr

3 unit(s)

Systems engineering and analysis concepts, methodologies, models, and tools needed to understand and implement total life-cycle approach to systems. Model Based Systems Engineering for domain-specific models. System analysis models for economic evaluation, optimization and control. Systems design for reliability, maintainability, usability, producibility, logistics, disposability and sustainability.

Prerequisite(s): ISE 201 or equivalent. Allowed Declared Majors: Any Engineering.

Grading: Letter Graded

ISE 223 - Dec Model Sus Dev

3 unit(s)

Planning and decision models for resource management toward achieving economic, environmental, and social objectives in public and private organizations. Key modeling approaches include life cycle assessment, capital project evaluation, multi-criteria decision making under uncertainty, and machine learning. Exploration of business models for service economy, extended producer responsibility, and

sustainable development.

Prerequisite(s): ISE 130 or equivalent

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

ISE 230 - Advanced Operations Research

3 unit(s)

Advanced operations research techniques and topics. Practical consideration in understanding and utilizing operations research methods. Critical analysis of case studies.

Prerequisite(s): ISE 130.

Grading: Letter Graded

ISE 233 - Operational Data Analysis for Industrial Systems

3 unit(s)

Analysis of how data can be used to improve industrial operations. IoT. Data collection, storage, and communication technologies and approaches. Maintenance, operational performance, and quality applications of operational data analysis and machine learning.

Prerequisite(s): ISE 201 and ISE 140 or instructor consent

Grading: Letter Graded

ISE 234 - Electricity Markets & Power Systems Analytics

3 unit(s)

Overview of electricity industry structure and market operations. Applications of analytics methodologies such as Machine Learning and Artificial Intelligence in electric power systems operations using computer programming languages.

Prerequisite(s): Graduate Standing in Engineering.

Grading: Letter Graded

ISE 235 - Quality Assurance and Reliability

3 unit(s)

Selection of adequate variables to monitor a manufacturing/service process; quality improvement through process design, vendor management, customer feedback and product development; use of statistical control charts, the Pareto principle, PDCA, process capability; design for reliability, statistical techniques for analysis of reliability and reliability growth.

Prerequisite(s): ISE 130 (or equivalent). Allowed Declared Majors: Any Engineering.

Grading: Letter Graded

ISE 240 - Analytics for Systems Engineering

3 unit(s)

Application of data analysis, predictive and prescriptive (optimization) modeling techniques to analyze,

model, and optimize real-world industrial and systems engineering problems using computer programming languages.

Prerequisite(s): ISE 170 or equivalent, ISE 130 or equivalent Classified graduate standing or instructor consent

Grading: Letter Graded

ISE 241 - Advanced Operations Planning and Control

3 unit(s)

Design, implementation and evaluation of production and service systems; manufacturing strategy, choice of processes, resources planning, production and procurement control, forecasting methods, scheduling considerations and decision-making techniques.

Prerequisite(s): ISE 140 or instructor consent.

Grading: Letter Graded

ISE 242 - Advanced Service Systems Engineering and Management

3 unit(s)

Strategies, approaches, and quantitative methods to design services, manage operations, and optimize customer service experience. Applies industrial engineering techniques in real-life business situations. Particular emphasis on the case-method and interactive learning.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

ISE 243 - Advanced Supply Chain Analytics

3 unit(s)

Machine Learning and Artificial Intelligence methodologies and their applications in supply chain applications.

Prerequisite(s): ISE 240, ISE 245 or equivalent.

Grading: Letter Graded

ISE 244 - AI Tools and Practice for Systems Engineering

3 unit(s)

Artificial Intelligence software tools useful for industrial and systems engineering. Emphasis on clear understanding of the mathematics behind them, what tools to use in which conditions, and how to interpret and use the results.

Prerequisite(s): ISE 201 (or equivalent); or instructor consent.

Grading: Letter Graded

ISE 245 - Advanced Supply Chain Engineering

3 unit(s)

Supply chain concepts, strategies; emphasis on analytical tools to solve supply chain problems. Fundamentals of supply chain modeling of inventory, transportation, location, facility planning problems.

Information sharing, risk pooling. Mechanisms for increasing profits.

Prerequisite(s): ISE 140.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

ISE 247 - Logistics for Supply Chain

3 unit(s)

An exploration of logistics for entire supply chain system from inbound movement through material management to physical distribution to customers. Topics include: packaging and handling, material management, transportation and traffic management, facility location and global logistics.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

ISE 250 - Leading the Six Sigma Improvement Project

3 unit(s)

Improvement projects are critical. Covers Six Sigma methodology, problem-solving tools to improve cost, quality, time and variability. Management of projects, teams, change, and benchmarking; root cause problem solving, and implementation effectiveness. Practical experience through course project.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

ISE 251 - Managing the Lean Enterprise Improvement Program

3 unit(s)

The elements of an effective organizational improvement program composed of multiple projects. Covers capabilities-based strategy; dimensions of performance such as cost, quality and time; when to use Six Sigma, Lean, Theory of Constraints and Reengineering.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ISE 260 - Healthcare Delivery Systems

3 unit(s)

Overview and analysis of health care delivery systems in the US with emphasis on the assessment, analysis, and improvement of operational quality, efficiency, and effectiveness. Impact on primary components of health care systems: facilities, approaches to care and treatment modalities, and personnel. Quantitative and qualitative techniques and applications to improve health care systems; performance measures used to evaluate access and quality of care. Impact of healthcare policies, laws, economics, and

current US health care culture on organizational performance and patient outcomes

Prerequisite(s): Graduate Standing

Grading: Letter Graded

ISE 261 - Medical Errors Reduction and Patients Safety Engineering

3 unit(s)

Standardization of national reporting of medical errors; patient safety and high risks processes performance analysis; Safety improvements utilizing human factors techniques; information technology applications to reduce medication errors and improve patient safety; structured teams and systems to reduce clinical errors.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

ISE 265 - Advanced System Simulation

3 unit(s)

Use of computerized simulation and modeling techniques to conduct experiments, evaluate the costs of a process, evaluate alternative inspection policies and determine effects of JIT management models for shop setting.

Prerequisite(s): ISE 167 or instructor consent.

Grading: Letter Graded

ISE 270 - Information Engineering

3 unit(s)

Technologies, strategies and systems for planning, analyzing, designing and implementing data resources in order to ensure and continuously improve processes in the enterprise; object-oriented development, Computer-Aided Software/Systems Engineering (CASE); information superhighway, client/server computing and distributed database management systems.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): CMPE 30 or instructor consent. Allowed Declared Majors: Any Engineering.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Cross-listed with CMPE 270. Industrial and Systems Engineering is responsible for scheduling.

ISE 290 - Human Factors & Ergonomics Professional Seminar

2 unit(s)

Real world skills necessary to start your professional HR/Ergo career, i.e. public presentation, terminology, field evaluations, current research and industry issues in human factors and ergonomics.

Prerequisite(s): Graduate standing.

Grading: Credit/No Credit

ISE 292 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ISE 295C - Graduate Curricular Practical Training

1 unit(s)

Fieldwork for Industrial and Systems Engineering graduate students. A report is required at the end of the semester addressing goals set at the start of the assignment.

Course may be repeated for credit up to 3 units.

Prerequisite(s): Students must be master's level Industrial and Systems Engineering majors or Engineering Management majors or Human Factors Engineering, in good standing, classified (no conditionally classified students), and completed at least one semester of master's level work at SJSU. Students must comply with all federal eligibility requirements for CPT.

Grading: Credit/No Credit.

ISE 297 - Special Topics in Industrial Engineering

1-4 unit(s)

Special topics to augment regularly-scheduled courses.

Prerequisite(s): Graduate standing in industrial engineering.

Grading: Letter Graded

ISE 298 - Special Problems

1-4 unit(s)

Advanced individual work in industrial engineering. Repeatable for up to 18 units when project changes.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Instructor consent. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

ISE 299 - Master's Thesis

1-4 unit(s)

Repeatable: Repeatable for credit.

Prerequisite(s): Consent of thesis advisor. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

ISE 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in a thesis or project class

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Industrial Design

DSID 21 - Visualization I

3 unit(s)

Presenting design concepts in both preliminary and finished states. Appraisal and application of media used in industry. Includes elements of color theory.

Prerequisite(s): Declared BA Design Studies or BS Industrial Design Major

Corequisite(s): DSID 31

Grading: Letter Graded

DSID 22 - Visualization II

3 unit(s)

Sketching techniques commonly used by designers for communicating their concepts.

Prerequisite(s): DSID 21, BA Design Studies or BS Industrial Design majors only.

Corequisite(s): DSID 32

Grading: Letter Graded

DSID 31 - Industrial Design Foundation I

3 unit(s)

Practical exploration of the basics of industrial design aesthetics. Introduction to the design process with special emphasis on 3D form development and presentation.

Prerequisite(s): Declared BS Industrial Design or BA Design Studies Major

Corequisite(s): DSID 21.

Grading: Letter Graded

DSID 32 - Industrial Design Foundation II

3 unit(s)

Development and application of basic industrial design skills, methodology and aesthetics to elementary

product design. Project assignments leading from abstract exercises to actual product design.

Prerequisite(s): DSID 31; BA Design Studies or BS Industrial Design Majors Only

Corequisite(s): DSID 22

Grading: Letter Graded

DSID 32A - ID Portfolio Project I

1 unit(s)

ID portfolio project class combines 2D and 3D skills from previous ID classes, in the first complete product design application. Complete presentation for ID faculty review required.

Misc/Lab: Activity 2 hours

Course may be repeated for credit for up to 2 units.

Prerequisite(s): DSID 21, DSID 31; BA Design Studies and BS Industrial Design Majors only.

Corequisite(s): DSID 22, DSID 32

Grading: Letter Graded

DSID 41 - Materials and Processes I

3 unit(s)

Introduction to materials and manufacturing processes as they relate to product development and the Industrial Design profession.

Misc/Lab: Activity 6 hours.

Prerequisite(s): DSID 22, DSID 32; BS Industrial Design majors only; BA Design Studies majors with department consent.

Grading: Letter Graded

DSID 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Course may be repeated for credit for up to 6 units.

Grading: Mixed Grading

DSID 121 - Industrial Design Process

3 unit(s)

Explores how a conscious and rational approach can enhance creativity. Techniques used include goal setting, brainstorming, time-management, evaluation matrices and journal keeping.

Prerequisite(s): DSID 125A, BS Industrial Design or HFS Graduate Majors Only, or Instructor consent
Grading: Letter Graded

DSID 122 - Cont. & Crit. Studies: Industrial Design

3 unit(s)

This course thematically offers readings in Industrial Design theory, considers specific applications intended to highlight problems in contemporary practice, and is divided into five modules. Course content and examples will be selected to complement the studio projects in the program.

Lecture 3 hours/Lab 1 hour.

Prerequisite(s): DSGN 100W; BA Design Studies or BS Industrial Design Majors Only.
Grading: Letter Graded.

DSID 123 - Intermediate Industrial Design

3 unit(s)

Design theories, methods and presentation techniques used by product designers in small scale product design. Stress application of knowledge of ergonomics, industrial materials and manufacturing processes.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): DSID 32A. BS Industrial Design Majors only
Grading: Letter Graded

DSID 123A - ID Portfolio Project 2

3 unit(s)

Professional practice expectations within the field of industrial design and creation of a professional level design portfolio.

Prerequisite(s): DSID 32A, BS Industrial Design majors only.
Grading: Credit/No Credit

DSID 124 - Design for All

3 unit(s)

Designing for as broad a percentage of the population as possible. Course focuses on accessible design despite physical, cognitive and/or socioeconomic obstacles. Course is repeatable for a total of 6 units.

Misc/Lab: Activity 6 hours.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): DSID 32A (Credit), BS Industrial Design Majors Only or Instructor Consent.
Grading: Letter Graded

Sustainability Focused - SDG 10: Reduced Inequalities

DSID 125 - Advanced Industrial Design

3 unit(s)

Advanced exploration of industrial design theory and practice with projects involving high levels of complexity of technological, functional and aesthetic constraints.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): DSID 123A. BS Industrial Design Majors only

Grading: Letter Graded

DSID 125A - ID Portfolio Project 3

2 unit(s)

Development of design competition entry and cohesive portfolio using work created in prior and concurrent DSID courses by integrating advanced computer graphics and technology knowledge. Comprehensive presentation to ID faculty and invited professionals required.

Prerequisite(s): DSID 123A. BS Industrial Design Majors only

Grading: Credit/No Credit

DSID 126 - Ergonomics for Design

3 unit(s)

Aspects of products affecting human performance, comfort and safety. Emphasis on design of computer interfaces, automobiles and furniture. Topics include visual displays, anthropometry, seating design and safety design.

Activity 6 hours.

Prerequisite(s): BS Industrial Design Majors must complete DSID 22 and DSID 32. Interaction Design Minors must complete ANI 11 or DSID 22 or DSIT 10, and DSID 32 or DSGD 83.

Grading: Letter Graded

DSID 128 - Advanced Projects in Industrial Design

3 unit(s)

Comprehensive, in-depth analysis and design of faculty-assigned projects as well as a student-proposed project. Student-proposed projects must meet with the approval of the Industrial Design faculty.

Lab 6 hours.

Course may be repeated for credit.

Prerequisite(s): DSID 125A, BS Industrial Design majors only.

Grading: Letter Graded

DSID 128A - ID Portfolio Project 4

1 unit(s)

Integration of business and advanced technologies into the special graduating project. Final show and

presentation for ID faculty and invited professionals required.

Misc/Lab: Activity 2 hours.

Course may be repeated for credit for up to 2 units.

Prerequisite(s): DSID 125A, DSID 128, DSGN 127; BS Industrial Design Majors Only.

Grading: Credit/No Credit

DSID 129 - Visualization III

3 unit(s)

Principles of computer graphics, computer-aided technology and applications in industrial design. Emphasis on the transition from 2D applications to 3D applications.

Misc/Lab: Lab 6 hours.

Prerequisite(s): DSID 22, DSID 32; BS Industrial Design Majors only; BA Design Studies with Department consent.

Grading: Letter Graded

DSID 130 - Sustainable Design

3 unit(s)

Design products with a focus on minimizing their impact on the environment. The entire lifespan of designed and manufactured products will be explored. Course is repeatable for credit for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): DSID 32A (Credit); BS Industrial Design Majors only, or Instructor Consent

Grading: Letter Graded

Note(s): Offered only occasionally.

Sustainability Focused - SDG 12: Responsible Consumption and Production

DSID 131 - Interaction Design

3 unit(s)

Advanced practical applications of interaction design theory, with an emphasis on strategies for software products including aspects of both UX (user-experience) and UI (user-interface) design.

Activity 6 hours.

Course is repeatable for up to 6 units.

Prerequisite(s): DSID 126.

Grading: Letter Graded

DSID 132 - Softgoods

3 unit(s)

Design of products that incorporate soft materials and textiles in their construction. Products include furniture, clothing, shoes, and other products that contribute to current lifestyles.

Lab 6 hours.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): DSID 123A; BS Industrial Design majors only.

Grading: Letter Graded

DSID 133 - Design Projects: Making It

3 unit(s)

Students gain experience using experimental or exploratory design and fabrication techniques or technologies to develop a design project.

Activity 6 hours.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): DSID 123A; BS Industrial Design majors only.

Grading: Letter Graded

DSID 134 - Design and Meaning

3 unit(s)

This course will focus on the formal properties of products to better understand how design addresses and projects meaning as it relates to designed and manufactured objects. Coursework will explore this via experiments in specification and fabrication.

Prerequisite(s): DSID 32A; BS Industrial Design Majors Only

Grading: Letter Graded

DSID 135 - Design, Entrepreneurship, Intellectual Property and Professional Practice

3 unit(s)

Strategies for entering the profession as a business owner or design entrepreneur. Course includes the exploration of past and future business models as well as issues of intellectual property protection.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): DSID 123A or Instructor Permission.

Grading: Letter Graded

DSID 136 - Advanced Digital Workshop

3 unit(s)

Advanced Digital modeling and prototyping tools for Industrial Design.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): DSID 129; BA Design Studies or BS Industrial Design Majors only, or Instructor Consent

Grading: Letter Graded

DSID 137 - Advanced Physical Prototyping

3 unit(s)

Advanced prototyping techniques for Industrial Design, including patternmaking, sewing, and casting.

Activity 6 hours.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): DSID 32, BA Design Studies or BS Industrial Design majors only.

Grading: Letter Graded

DSID 143 - Advanced Materials, Process & Technology

3 unit(s)

Advanced Materials, Processes and Technology will enhance themes covered in Materials and Processes coursework with the addition of study of the relevance and implications of advanced materials and technologies on designed artifacts.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): DSID 32, DSID 41; BA Design Studies or BS Industrial Design Majors only, or instructor consent.

Grading: Letter Graded

DSID 144 - Design for Healthcare

3 unit(s)

Introduction to unique theories and challenges associated with the design of objects, experiences and services related to healthcare. Focuses on the application of patient-centered design theories for the betterment of patient experiences and patient-provider relationships.

Misc/Lab: Activity 6 hours.

Prerequisite(s): DSID 123 or instructor consent

Grading: Letter Graded

DSID 192 - International Program Studies

1-14 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

DSID 226 - Ergonomics for Design

3 unit(s)

Aspects of products affecting human performance, comfort and safety. Emphasis on design of computer interfaces, automobiles and furniture. Topics include visual displays, anthropometry, seating design, and safety design.

Prerequisite(s): Graduate status in Human Factors/Ergonomics (HFE) or instructor consent.

Grading: Letter Graded

Informatics

INFM 200 - Informatics: Fundamentals

3 unit(s)

A broad perspective and understanding of informatics as a technical skill set that focuses on user-centered systems and balances legal and ethical considerations and measures. Examines informatics applications in specific and interprofessional contexts.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

INFM 201 - Informatics: Technology Foundations

2 unit(s)

Introduction to computing fundamentals with an emphasis on understanding desktop and network computing, web framework architectures, and basic coding.

Grading: Letter Graded

INFM 202 - Informatics: Security Overview

1 unit(s)

Fundamentals of network security, compliance and operational security; threats and vulnerabilities; application, data, and host security; access control and identity management; and cryptography. Students are provided with an opportunity to gain hands-on experience using typical cybersecurity solutions.

Grading: Letter Graded

INFM 203 - Big Data Analytics and Management

2 unit(s)

Overview and use of important big data technologies, trends, infrastructure, and management issues that enable users to make informed and strategic decisions with the presence of large-scale data sets.

Grading: Letter Graded

INFM 204 - Human Centered Design

2 unit(s)

Designing and developing user-centered knowledge structures for the Web environment. Core topics are: problems addressed by effective human-computer interaction; how to design for findability; design thinking concepts and tools; prototyping; and informing stakeholders about a content-rich product.

Grading: Letter Graded

INFM 205 - Informatics: Project Management

2 unit(s)

Introduces essential strategies and techniques for project management. Topics include: management styles, institutional constraints, project life cycles, stakeholder management, scope definition, risk assessment, project planning tools, and team management.

Grading: Letter Graded

INFM 206 - Electronic Records: Foundations

3 unit(s)

Principles and methods of managing records and information as operational, legal and historical evidence in electronic environments. Examines the ways in which new information technologies challenge organizations' capacities to define, identify, control, manage, and preserve electronic records and information.

Grading: Letter Graded

INFM 207 - DAM: Digital Assets Management

2 unit(s)

Concepts, terminology, practice and application of DAM in the private and public sector. Addresses metadata, workflow, taxonomy, data security, governance, and preservation of digital assets.

Grading: Letter Graded

INFM 208 - Information Security: Info Assurance

1 unit(s)

Overview of Information Assurance and Risk Management theories, principles, and techniques. This course examines the information assurance frameworks and risk management planning structures used to ensure that an organization's information resources and assets are protected.

Grading: Letter Graded

INFM 210 - Health Informatics

3 unit(s)

Health data and standards, electronic health records (EHR) and other healthcare information, data management concerns and technology governance in the health care environment.

Grading: Letter Graded

INFM 211 - Informatics Culminating Project

3 unit(s)

All Informatics students are required to complete a culminating project for the MS in Informatics degree program. The culminating project demonstrates mastery through the application of knowledge and skills developed in the Informatics program. Students select from two options: (1) an Organizational Consulting Project with a real-world partner to address a specific Informatics-related problem; or, (2) a personal e-Portfolio that presents a program-based assessment of all program learning outcomes (core competencies) learned during the MS in Informatics degree program.

Grading: Mandatory Credit/No Credit/RP

INFM 213 - Epidemiological Methods

3 unit(s)

Introduction to the principles and methods of epidemiologic research. Students are enabled to design, conduct, analyze, and interpret epidemiologic research.

Grading: Letter Graded

INFM 214 - Health Data and Analytics

3 unit(s)

Exploration of healthcare informatics and its relation to health information technology. Students will apply basic knowledge and skills from healthcare data mining, data science, data management and professional project management to address practical healthcare business and clinical intelligence issues.

Grading: Letter Graded

INFM 215 - Network Security

3 unit(s)

Technical and administrative aspects of information security and assurance. Includes compliance and operational security, Web application attacks, penetration testing, data loss prevention, cloud computing security, psychological and behavioral traits of users vulnerable to cyber and social engineering attacks, and application programming development security.

Prerequisite(s): Graduate Standing or Instructor Consent

Grading: Letter Graded

INFM 216 - Computer Digital Forensics

3 unit(s)

Digital forensic investigation activities. Data acquisition, forensic imaging, use of Forensic Tool Kit (FTK) suite of applications (using Access Data virtual labs), locking mechanisms, search and seizure procedures,

and report writing.

Prerequisite(s): Graduate Standing or Instructor Consent

Grading: Letter Graded

INFM 217 - Tools Lab

3 unit(s)

Security tools used to detect network security threats and vulnerabilities at a microscopic level. Introduction to penetration testing, packet analyzers, standards and cryptography, reconnaissance and malware, hacking, and vulnerability scanning.

Prerequisite(s): Graduate Standing or Instructor Consent

Grading: Letter Graded

INFM 284 - Seminar in Informatics

1-3 unit(s)

Special topics seminar on emerging trends in Informatics. Examples of topics: Artificial Intelligence, Data Aggregation/Analytics, eSports, Health Dashboards & Data Streams, Health Public Policy, Information Ethics, Machine Learning and Race/Gender for Informatics.

Repeatable with different content for up to 9 units.

Grading: Letter Graded

ISDA 20A - Query Languages

1 unit(s)

Introduction to the features and functionalities of structured query language (SQL) focusing on manipulating data in a database, creating tables and indexes, modifying stored records, creating database objects

Grading: Letter Graded.

Note(s): Should be taken before junior year or before admission for transfer students.

ISDA 20B - Python Programming

2 unit(s)

Hands-on introduction to Python focusing on solving a problem by developing flowcharts and algorithms, building a Python application using Python I/O (input/output), variables and data types, conditionals, and loops, Python packages and integrated development environment (IDE).

Grading: Letter Graded.

Note(s): Should be taken before junior year or before admission for transfer students.

ISDA 20C - Web Development

1 unit(s)

The structure and functionality of the world wide web and modular web design techniques. Covers HTML5,

CSS, and JavaScript. Topics also include cultural issues in website designing, and accessible and responsive web design.

Grading: Letter Graded.

Note(s): Should be taken before junior year or before admission for transfer students.

ISDA 20D - Computer Operating Systems

1 unit(s)

Overview of the design and implementation of computer operating systems (OS) with emphasis on the three major subsystems: process management (processes, threads, CPU scheduling, synchronization, and deadlock), memory management (segmentation, paging, swapping), and file systems; and distributed systems.

Grading: Letter Graded.

Note(s): Should be taken before junior year or before admission for transfer students.

ISDA 100 - Technical Writing for Information

3 unit(s)

Introduces students to the principles of effective communication for technical, scientific, and business environments. Students will create written work in a variety of standard formats and use appropriate style to address the needs of targeted audiences.

Prerequisite(s): LLD 100WB.

Grading: Letter Graded.

ISDA 101 - Online Learning: Tools and Strategies for Success

1 unit(s)

Introduces students to a variety of successful strategies in the use of new and emerging technologies found in today's online learning environment. Covers learning management tools, web conferencing, social software, university resources, skills for success in an online environment.

Grading: Credit/No Credit/RP.

Note(s): Must be taken before or in the first semester of junior year; if unsuccessful must be retaken next semester; if failed a second time, student will be dismissed from the program.

ISDA 110 - Technology, Culture, and Society

3 unit(s)

Navigating the social, political, legal and ethical issues in data processing and use. Topics: social and political factors that interact with data mining, visualization and analytics, explainable AI and FATE (Fairness, Accountability, Transparency, and Ethics).

Corequisite(s): ISDA 101.

Grading: Letter Graded.

Note(s): Should be taken in first semester of junior year.

ISDA 111 - Information and Data Science

3 unit(s)

Conceptual foundations and theoretical underpinnings pertaining to the social, political, and economic factors associated with the information society. Definition of information and information science; constructing information individually and collectively; and emerging information and communications technologies. Concepts, techniques, and tools needed to accomplish various facets of data science practice, including data collection and integration, management, analysis, modeling, and visualization. Data science skills such as product creation, communication, evaluation, presentation, and storytelling.

Prerequisite(s): ISDA 20A, ISDA 20B, and GE Area B4 (STAT 95 preferred).

Grading: Letter Graded.

Note(s): Should be taken in first semester of junior year.

ISDA 120 - Information Security

3 unit(s)

Compliance and operational security, psychological approaches to social engineering attacks, Web application attacks, penetration testing, data loss prevention, cloud computing security, application programming development security, firewalls and intrusion detection systems.

Prerequisite(s): ISDA 20C, ISDA 20D, and ISDA 111.

Grading: Letter Graded.

ISDA 121 - Human Centered Cybersecurity

3 unit(s)

Overview of human interactions with cybersecurity technology. How people react to cybersecurity policies and tools, reasons for behavior, development and evaluation of tools for assisting people in cybersecurity, human factors involved with social engineering attacks and phishing; ethical hacking.

Prerequisite(s): ISDA 20C and ISDA 20D.

Grading: Letter Graded.

ISDA 122 - Privacy, Security, Ethics

2 unit(s)

Data ethics and security will be assessed in terms of privacy, data manipulation, data sharing and ownership, and conflict of interest. Through case studies students will explore real world situations involving interplay between data security, privacy, and ethics.

Prerequisite(s): ISDA 120 or ISDA 121.

Grading: Letter Graded.

ISDA 123 - Information Assurance

2 unit(s)

Focus on information assurance frameworks from both technical and social perspectives. Confidentiality, integrity, and availability, security policies, authentication, data protection and access control, risk management, threat and vulnerability assessment, common attack/defense methods, ethical issues.

Pre/Corequisite(s): ISDA 122

Grading: Letter Graded.

ISDA 130 - User Centered Interface Architecture

3 unit(s)

Focus on approaches to involve the user at different stages of interface design for web- and mobile- environments. Students learn, apply, and evaluate various user interface architectures, modes of interaction, and prototyping, testing, and evaluation techniques.

Prerequisite(s): ISDA 20C, ISDA 20D, and ISDA 111.

Grading: Letter Graded.

ISDA 131 - Information Architecture

3 unit(s)

Project based course developing user-centered knowledge structures for web environments. Core topics are problems addressed by effective IA; designing for findability; user research; best practices; methods for organizing, labeling, and structuring navigation systems; creating client documents and deliverables.

Prerequisite(s): ISDA 130.

Grading: Letter Graded.

ISDA 140 - Big Data Analytics and Management

3 unit(s)

Big data technologies and trends including large-scale databases, map-reduce paradigm, big data mining, and big data platforms. Focus is on hands-on learning with tools such as Splunk and Scala/Hadoop using as applied to real-world data sets.

Prerequisite(s): ISDA 111.

Grading: Letter Graded.

ISDA 141 - Information Visualization

3 unit(s)

Background of information visualization; perceptual and design principles of information visualization; data analysis methods and hands-on applications of visualization techniques as applied to structured and unstructured data; interaction and interface design issues; social visualization and visual analytics.

Prerequisite(s): ISDA 140

Grading: Letter Graded.

ISDA 150 - Topics in Information Science and Data Analytics

1-9 unit(s)

Current and emerging issues, practices, and technologies relevant to Information and Data Science professionals. Topics, which differ each semester, may include: "Hands-on Working with Big Data," "Artificial Intelligence," "Conversational Search Systems," "eSports," "Machine Learning," and "Explainable AI."

Repeatable for up to 9 units when content changes.

Prerequisite(s): Upper Division Standing.

Grading: Letter graded.

Note(s): Topics and prerequisites will vary by semester; may be taken a maximum of 3 times with different topics.

ISDA 160 - User Experience (UX) Research and Design

3 unit(s)

An overview of the concepts, principles, and methods of user experience (UX) research and user-centered design with a focus on inclusivity and equity. Students will design and implement UX studies, analyze results, and document and communicate findings and recommendations.

Grading: Letter Graded.

ISDA 170 - The Emerging Future: Technology Issues and Trends

4 unit(s)

In this capstone course students gain skills to plan strategically for the changing technological landscape. Students participate in forecasting activities through readings, video presentations, guest lectures, introductions to today's futurists, and individual research.

Grading: Letter Graded.

Note(s): Should be taken during last semester of study.

MARA 287 - Developing an Information Governance Strategy

3 unit(s)

Covers the major components of an Information Governance framework - policies, processes, compliance, and audits. The Information Governance Reference Model is used to analyze the stakeholders, standards, processes, technologies, methods, and tools required to develop an effective information governance strategy.

Prerequisite(s): MARA 200 and MARA 204 for all MARA students. These prerequisites are waived for non-MARA majors.

Grading: Letter Graded

Information

INFO 200 - Information Communities

3 unit(s)

Examines information users and the social, cultural, economic, technological, and political forces that shape their information access and use.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Demonstrated computer literacy.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

INFO 202 - Information Retrieval System Design

3 unit(s)

The systems and knowledge structures that information professionals create and use to connect users with information.

Prerequisite(s): Demonstrated computer literacy.

Grading: Letter Graded

INFO 203 - Online Learning: Tools and Strategies

1 unit(s)

This course introduces students to new and emerging technologies used in today's online learning environment. It covers learning management tools, various social networking platforms, web conferencing, as well as strategies and skills needed for success in online learning.

Grading: Credit/No Credit

INFO 204 - Information Professions

3 unit(s)

Examines the organizations and environments in which information professionals work.

Prerequisite(s): Demonstrated computer literacy.

Grading: Letter Graded

INFO 208 - Big Data Technologies

3 unit(s)

Introduction to the technological ecosystem of Big Data and Hadoop as well as the goals and work of Data Science.

Prerequisite(s): Graduate Standing or instructor consent

Grading: Letter Graded

INFO 210 - Reference and Information Services

1-3 unit(s)

Process-oriented examination of how information professionals answer reference questions. Stresses interpersonal skills required for effective question negotiation and sources with which questions are

answered.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): INFO 202.

Grading: Letter Graded

INFO 215 - Information Visualization

3 unit(s)

Applying perceptual and cognitive principles to the design and development of information visualization techniques, such as scatterplots, treemaps, parallel coordinates, and GIS visualizations; interactive visualization interface design and implementation; narrative visualization and storytelling; visual analytics for decision making.

Prerequisite(s): Graduate Standing or Instructor Consent

Grading: Letter Graded

INFO 220 - Resources and Information Services in Professions and Disciplines

1-3 unit(s)

Examination of the nature of resources for, and services to, professions and disciplines. Possible disciplines for study may be law, business and economics, life and/or physical sciences, medical sciences, engineering and computer science, maps, and visual and performing arts.

Course may be repeated for credit for up to 9 units when content changes.

Prerequisite(s):

For Business: INFO 202, INFO 204, INFO 210.

For Science/Technology: INFO 210.

For Visual and Performing Arts: INFO 210.

Grading: Letter Graded

INFO 221 - Government Information Sources

3 unit(s)

Study in government publications and databases, their bibliographic organization, use in all types of libraries and information centers, methods of acquiring information from federal, state and local sources; problems of depository and non-depository collections.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): INFO 210.

Grading: Letter Graded

INFO 230 - Issues in Academic Libraries

3 unit(s)

Investigate current issues that impact the functioning of the academic library. Topics include issues related to social and political environments, clientele, services, collections, physical settings, financing, staffing and

future trends in the academic library sector.

Prerequisite(s): INFO 200, INFO 202 and INFO 204.

Grading: Letter Graded

INFO 231 - Issues in Special Libraries and Information Centers

3 unit(s)

This course will investigate current issues that impact the functioning of special libraries/information centers. Topics covered will include issues related to social and political environments, clientele, services, collections, physical settings, financing and staffing, and future trends in the special library/information center sector.

Prerequisite(s): INFO 200, INFO 202, INFO 204.

Grading: Letter Graded

INFO 232 - Issues in Public Libraries

3 unit(s)

This course will investigate current issues that impact the functioning of the public library. Topics covered will include issues related to social and political environments, clientele, services, collections, physical settings, financing and staffing, and future trends in the public library sector.

Prerequisite(s): INFO 200, INFO 202, INFO 204.

Grading: Letter Graded

INFO 233 - School Library Media Centers

3 unit(s)

The role of the school library media teacher and the school library media program in the educational community. Emphasis on creation of effective learning environments, involvement in the curriculum and teaching process as well as philosophies of service and management.

Prerequisite(s): INFO 204 and INFO 250.

Grading: Letter Graded

INFO 234 - Intellectual Freedom Seminar

3 unit(s)

Focuses on current intellectual freedom issues and the centrality of intellectual freedom to librarianship.

Prerequisite(s): INFO 200, INFO 204.

Grading: Letter Graded

INFO 237 - School Library Media Materials

3 unit(s)

Survey of materials in a variety of formats that meet the needs of K12 students. Materials will be examined that support state and national curriculum standards as well as material that support independent reading and learning.

Course may be repeated for credit one time for up to 3 units.

Prerequisite(s): INFO 200, INFO 202, INFO 203, and INFO 204.

Grading: Letter Graded

INFO 240 - Information Technology Tools and Applications

3 unit(s)

Focuses on building practical skills in a variety of networked computer applications. Topics will vary, but will typically include web coding languages and designing web sites.

Prerequisite(s): INFO 202.

Grading: Letter Graded

INFO 241 - Automated Library Systems

1-3 unit(s)

Review of major systems for library automation. Problems associated with the planning, implementation and use of the systems, negotiation of systems acquisition and trends in the field.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): INFO 200, INFO 202 and INFO 204. Not available to Open University Students.

Grading: Letter Graded

INFO 242 - Database Design and Management

3 unit(s)

Design and implementation of relational databases. Learn about database management systems (such as Oracle), database administration, and database querying with SQL.

Prerequisite(s): INFO 202. Not available to Open University Students.

Grading: Letter Graded

INFO 244 - Online Searching

3 unit(s)

Techniques and concepts for searching online, including strategies, database content, search options, and understanding the information environment. The course includes extensive hands-on experience with subscription search engines.

Prerequisite(s): INFO 202.

Grading: Letter Graded

INFO 246 - Information Technology Tools and Applications - Advanced

1-3 unit(s)

Designing advanced Web applications using technology such as dynamic HTML and XML and Web programming languages such as XSLT, JavaScript, JSP, Perl, PHP, MYSQL, and ASP. May be repeated for up to 12 units when content changes.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): INFO 202.

Grading: Letter Graded

INFO 247 - Vocabulary Design

3 unit(s)

Survey of principles and practices used to index information-bearing objects such as documents or images. Includes term assignment, review of existing vocabularies, thesaurus design, metadata structures and automatic and natural language processes.

Prerequisite(s): INFO 202.

Grading: Letter Graded

INFO 248 - Beginning Cataloging and Classification

3 unit(s)

Theory and practice of bibliographic control including the study of descriptive cataloging standards (RDA with reference to AACR2), online cataloging using MARC format and other standards, and subject representation using Library of Congress Subject Headings (LCSH), Dewey Decimal Classification (DDC), and Library of Congress Classification (LCC).

Prerequisite(s): INFO 202.

Grading: Letter Graded

INFO 250 - Design and Implementation of Instructional Strategies for Information Professionals

3 unit(s)

Examination of concepts of instruction in the use of information technologies, information services and sources. Includes investigation of learning theory and instructional design. Emphasis on application of theory through development of instruction and instructional resources in various media for use in a broad array of institutional environments.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): INFO 200. Not available to Open University Students.

Grading: Letter Graded

INFO 251 - Web Usability

3 unit(s)

Through examination of theory, methodologies, and real-life cases, Info 251 offers a user experience (UX) framework for developing information systems. Students learn the principles of user-centric design and style for particular circumstances and populations.

Prerequisite(s): INFO 202.

Grading: Letter Graded

INFO 254 - Information Literacy and Learning

3 unit(s)

Provides theory and practice for teaching information literacy in an LIS setting. The course emphasizes learning theory as well as the practical aspects of teaching. Students learn methods and tools for teaching in both synchronous and asynchronous settings.

Prerequisite(s): INFO 200

Grading: Letter Graded

INFO 256 - Archives and Manuscripts

3 unit(s)

An introduction to the theory and practice of managing archival documents, such as personal papers, institutional records, photographs, electronic records and other unpublished material. Topics covered include manuscript and records acquisition and appraisal, arrangement and description, conservation and preservation, reference and access.

Prerequisite(s): INFO 200, INFO 202, INFO 204.

Grading: Letter Graded

INFO 259 - Preservation Management

3 unit(s)

An introduction to the philosophies and techniques used to preserve manuscript, printed and digital materials. Examination of the evolution of preservation practice, with emphasis on emerging theories, models and technologies in digital preservation.

Prerequisite(s): INFO 200, INFO 202, INFO 204.

Grading: Letter Graded

INFO 260A - Programming and Services for Children Ages 0-8

3 unit(s)

This course examines the importance of programming for children, including parent education programs, story hours, outreach techniques, services with schools, summer reading programs, and program series such as weekly or monthly programs on manga, knitting, book discussions, or homework help.

Prerequisite(s): INFO 200

Grading: Letter Graded

INFO 261A - Programming and Services for Young Adults Ages 9-18

3 unit(s)

Administration and delivery of professional library and information services with multi-cultural young adult populations: features critical youth studies cultural/historical research, resources, policy, threats, tools, methods, service philosophies and management skills necessary for a comprehensive profile of YA library services.

Prerequisite(s): INFO 200

Grading: Letter Graded

INFO 263 - Materials for Children

3 unit(s)

Survey of materials in a variety of formats including nonfiction, beginning chapter books, fictional genres, paperback series and electronic resources, and how they can help meet developmental needs. Collection development tools and techniques for this material will also be included.

Prerequisite(s): INFO 200, and either INFO 260A or INFO 261A

Grading: Letter Graded

INFO 265 - Materials for Young Adults Ages

3 unit(s)

This course will allow students to take an in depth look at materials in a variety of formats for teens, including fiction, popular nonfiction, graphic novels, movies, computer games, websites, other media, and determine how they can meet developmental needs.

Prerequisite(s): INFO 200, and either INFO 260A or INFO 261A

Grading: Letter Graded

INFO 266 - Collection Management

3 unit(s)

Study of collection management in all types of libraries and information centers. Includes analysis of information needs, criteria for selection, collection use evaluation and resources for collection development.

Prerequisite(s): INFO 202, INFO 204.

Grading: Letter Graded

INFO 267 - Services to Youth

1-9 unit(s)

Seminar in planning, developing and evaluating youth services in public libraries. Special needs of children and young adults in the public library, liaison with schools, reference services, and collection planning will be featured.

Course may be repeated for credit for up to 9 units when content changes.

Prerequisite(s): INFO 200, and either INFO 260A or INFO 261A

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

INFO 268 - History of Youth Literature

3 unit(s)

The history of literature for children and teens from its earliest examples to today's current trends, including how childhood has changed over the years, the influence of culture on those changes, and on the materials created for children and teens.

Prerequisite(s): INFO 200

Grading: Letter Graded

INFO 269 - Early Childhood Literacy

3 unit(s)

Covers a wide variety of topics important for an understanding of early childhood multi-literacies in library and non-library environments, including current research, best practices and practical examples that can be implemented in various work environments with children.

Prerequisite(s): INFO 200

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

INFO 271A - Genres and Topics in Youth Literature

1-9 unit(s)

Various topics and genres in literature for children or teens will be examined in depth, such as graphic novels, poetry, fantasy, science fiction, publishing and writing trends, reading motivation techniques, literature in the classroom, and the art of picture books. Repeatable for up to 9 units.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): INFO 200, and either INFO 260A or INFO 261A

Grading: Letter Graded

INFO 275 - Library Services for Racially and Ethnically Diverse Communities

3 unit(s)

This course focuses on developing skills for planning, implementing and evaluating programs for addressing the information needs of racially, ethnically and linguistically diverse communities. Reviews the major national, state and local studies.

Prerequisite(s): INFO 200 and INFO 204. Not available to Open University Students.

Grading: Letter Graded

INFO 280 - History of Books and Libraries

3 unit(s)

This class traces the development of the book through its many stages and explores how the creation, use, and storage of information are affected by social and technological change. The development of libraries and librarianship and how they have accommodated themselves to the changing form of the book will also be considered.

Prerequisite(s): INFO 200

Grading: Letter Graded

INFO 281 - Seminar in Contemporary Issues

1-3 unit(s)

Investigation of major contemporary issues within the information profession. Topics range from censorship

to the need for a national information policy and change each time the course is offered.

Course may be repeated for credit for up to 9 units when content changes.

Prerequisite(s): INFO 200, INFO 202, and INFO 204.

Grading: Letter Graded

INFO 282 - Seminar in Library Management

1-3 unit(s)

Application of management theory to specific problems. Readings and discussions of the development of effective strategies for planning and implementing organizational change. Content changes each time offered.

Course may be repeated for credit for up to 9 units when content changes.

Prerequisite(s): INFO 200 and INFO 204. Not available to Open University Students.

Grading: Letter Graded

INFO 283 - Marketing of Information Products and Services

1-3 unit(s)

Applications of marketing concepts to library and information services. Market analysis, use surveys, market targeting and introduction of services.

Prerequisite(s): INFO 200 and INFO 204. Not available to Open University Students.

Grading: Letter Graded

INFO 284 - Seminar in Archives and Records Management

1-3 unit(s)

In-depth study of current issues and practices in archives and records management. The course addresses new areas of research and application such as oral history, sound and visual archives, digitization, archival automation, archival security, genealogy, and more.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): INFO 200, INFO 202, INFO 204

Grading: Letter Graded

INFO 285 - Applied Research Methods

1-4 unit(s)

Selection, formulation and development of problems in library and information science research. Evaluation of published research and in the field.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): INFO 200, INFO 202, INFO 204

Grading: Letter Graded

INFO 286 - Interpersonal Communication Skills for Librarians

1-3 unit(s)

The principles and practice of interpersonal communication; small group and peer relationships.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): INFO 200 and INFO 204. Not available to Open University Students.

Grading: Letter Graded

INFO 287 - Seminar in Information Science

1-3 unit(s)

Current issues and problems in information retrieval as related to concepts and theories of information science.

Course may be repeated for credit for up to 12 units when content changes.

Prerequisite(s): INFO 200. Not available to Open University Students.

Grading: Letter Graded

INFO 289 - Advanced Topics in Library and Information Science

3 unit(s)

Advanced independent examination of selected issues and problems in library and information science with a focus on the integration of theory and practice. Issues and problems addressed will vary each semester.

Grading: Mandatory Credit/No Credit/RP

INFO 292 - Professional Experience: Projects

3 unit(s)

Gives students the opportunity to complete a professional project related to the theory and method of Library & Information Science in an information organization or institution, and to gain practical experience in one or more areas of LIS.

Prerequisite(s): INFO 200, INFO 202, INFO 204, plus six advanced courses.

Grading: Credit/No Credit/Incomplete.

INFO 293 - Introduction to Data Networking

3 unit(s)

An introduction to computer networking in both Lan and Wan environments with an emphasis on hands-on projects.

Prerequisite(s): INFO 200, INFO 202, INFO 204. INFO 240 desirable.

Grading: Letter Graded

INFO 294 - Professional Experiences: Internships

2-4 unit(s)

Supervised professional experience in an approved public, academic, or special library or other information-based organization.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): INFO 200, INFO 202, INFO 204, and three advanced courses.

Grading: Credit/No Credit

INFO 295 - School Library Field Work

3 unit(s)

A supervised professional experience of school librarianship at the levels of both elementary and secondary (middle or high) schools. Emphasis is on observation and guided practice with a credentialed school librarian (library media teacher).

Prerequisite(s): INFO 200, INFO 202, INFO 204.

Grading: Credit/No Credit

INFO 298 - Special Studies

1-3 unit(s)

Advanced individual research and projects related to libraries and information systems. Available only to those students who have completed the major portion of the degree coursework.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): INFO 200, INFO 202, INFO 204, instructor consent.

Grading: Mandatory Credit/No Credit/RP

INFO 299 - Thesis

3 unit(s)

Approved thesis proposal and consent of a faculty advisor required.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): INFO 200, INFO 202, INFO 204, INFO 285.

Grading: Mandatory Credit/No Credit/RP

INFO 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in a thesis class

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Instructional Design and Technnology

IDT 201 - Introduction: Instructional Systems & Learning Technologies

3 unit(s)

Introduction to instructional systems, focusing on systematic instructional design approaches, history of the field, theories and models of instructional design and human performance technology (HPT), key concepts, and professional roles. Students apply learning technologies to workplace, instructional, and training contexts.

Grading: Letter Graded.

IDT 202 - Systematic Design: Instruction & Human Performance

3 unit(s)

Application of systematic processes and approaches for designing instructional design systems and improving human productivity and performance. Students explore stages of the instructional systems model and human performance improvement strategies and interventions in a variety of learning environments.

Grading: Letter Graded.

IDT 203 - Trends and Issues in Instructional Design and Human Perf

3 unit(s)

Examination of current and future trends and issues that impact the instructional design and human performance field. Students acquire the knowledge and skills to analyze and apply these trends and issues to instructional and performance solutions.

Grading: Letter Graded.

IDT 204 - Theories of Teaching, Learning, and Human Cognition

3 unit(s)

Examination of major theories that support teaching, learning, and human cognition in the instructional design field. Students apply current learning and instructional theories to real-world scenarios and development of learner-centered instruction. Students create personal theories of learning and instructional design.

Grading: Letter Graded.

IDT 205 - Learning Design and Technologies

3 unit(s)

Exploration of design principles and strategies applied to practical solutions for integrating technologies into instructional products and human performance solutions in a range of education and industry settings. Students design, implement, and evaluate a technology-based instructional or human performance project.

Grading: Letter Graded.

IDT 206 - Advanced Instructional Design and Development

Exploration of advanced techniques and practices in instructional design and development for a variety of design and performance contexts. Students employ theory-based design decisions and reflective problem-solving strategies to design and develop instructional or performance-based projects for complex solutions.

Grading: Letter Graded.

IDT 207 - Learning Analytics and Data-Driven Evaluation and Assessment

3 unit(s)

Examination of educational informatics and learning analytics within a systems design framework to optimize learning and performance solutions. Students learn and apply analytical, system-based approaches to make data-driven decisions about evaluation and assessment for training and human performance technology projects.

Grading: Letter Graded.

IDT 298 - Capstone Applied Project and e-Portfolio

3 unit(s)

For the capstone course, students demonstrate mastery of knowledge and skills acquired during the degree program through 1) an applied project solving an instructional and/or human performance problem; and 2) an e-portfolio demonstrating accomplishment of all program learning outcomes.

Grading: Letter Graded.

Interdisciplinary Engineering

ENGR 5 - Science of High Technology

3 unit(s)

Scientific principles underlying commonly used high technology devices and systems such as the computer, cell phone, IPODS, cameras, and the Internet. Emphasizes practical applications of scientific principles to contemporary engineering products and services.

Satisfies B1: Physical Science.

Grading: Letter Graded

ENGR 8Q - Engineering Success

1 unit(s)

Combination of workshop and lab exercises emphasizing group interaction, communications skills and problem solving for incoming students. May be repeated for a total of 2 units.

Misc/Lab: Activity 2 hours.

Course may be repeated for credit for up to 2 units.

Grading: Credit/No Credit

ENGR 10 - Introduction to Engineering

3 unit(s)

Introduction to engineering through hands-on design projects, case studies, and problem-solving using computers. Students also acquire non-technical skills, such as team skills and the ability to deal with ethical dilemmas.

Lecture 2 hours/Lab 3 hours.

Satisfies E: Human Understanding & Development.

Prerequisite(s): Eligible for MATH 19 and Writing Enrollment Category W-I or W-II, or ENGL 1AF with a grade of CR, or ENGL 1A with a grade of C- or better. Engineering Majors Only

Grading: Letter Graded.

ENGR 25 - The Digital World and Society

3 unit(s)

The secure, effective and ethical use of information technology. The effect of such technology on people and institutions. Technology-related challenges to society and policy. Frameworks for the analysis of information technology with respect to its cultural, historical, environmental, and spatial contexts.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Cross-listed with CS 25. General Engineering is responsible for scheduling.

ENGR 60SL - Engineering Projects in Community Service

1 unit(s)

EPICS is a service-learning course where engineering students work in multidisciplinary teams to undertake community-identified engineering projects. Students will gain insight into design and development processes and perform and report upon tasks consistent with their level of discipline expertise.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Engineering major; non-remedial

Grading: Letter Graded

ENGR 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Course may be repeated for credit for up to 6 units.

Grading: Mixed Grading

ENGR 100W - Engineering Reports

3 unit(s)

Regular technical writing assignments and company-focused oral presentations while integrating effects of environmental factors as they relate to products, systems and engineering processes.

Lecture 3 hours/lab 3 hours.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability + Writing in the Disciplines (WID).

Prerequisite(s): ENGL 1B or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level. Allowed Declared Majors: All Engineering, Aviation, Engineering Technology, Mathematics and Applied Mathematics.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

Sustainability Focused - SDG 9: Industry, Innovation and Infrastructure

ENGR 101 - Engineering Seminar

1 unit(s)

Seminars and guest lectures covering engineering-related career development, ethics, report writing, professionalism, finance, self-assessment and how to effectively function in a multidisciplinary environment. Repeatable course to be taken in consecutive semesters of the junior year of the BS General Engineering.

Course may be repeated for credit for up to 2 units.

Prerequisite(s): Upper Division Standing in General Engineering Program.

Grading: Letter Graded

ENGR 102 - Renewable Energy Engineering

3 unit(s)

Scientific and engineering concepts associated with energy and the environment. Overview of the physical concept of energy and the scientific thoughts and processes associated with energy. Primary sources of energy in use today. Study of conservation of energy, and how energy use has synergism with pollution and its global effects on sustainability.

Prerequisite(s): College level calculus, physics and chemistry.

Grading: Letter Graded

Sustainability Focused - SDG 7: Affordable and Clean Energy

ENGR 119 - Energy and the Environment

3 unit(s)

Introduces students to the sources of energy that fuel industrial civilization and the environmental impacts of energy extraction, distribution, and consumption. Explores a range of approaches to moving society toward a more sustainable energy future.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Cross-listed with ENVS 119. Environmental Studies is responsible for scheduling.

ENGR 120 - Programming Concepts for Behavioral and Social Science Applications

3 unit(s)

This course covers the application of Python programming to the fields of behavioral and social sciences, as well as basic building blocks of computers and the Web. This course also covers how programming is used in various careers.

Prerequisite(s): STAT 95 or MATH 30 or MATH 30X or MATH 71 or MATH 71X.

Grading: Letter Graded

ENGR 121 - Data Structures and Algorithms for Behavioral and Social Science Applications

3 unit(s)

Represent and analyze behavioral and social science data using Python and data structures such as classes, trees, and graphs; use related algorithms to solve behavioral and social science problems.

Prerequisite(s): ENGR 120 with C- or instructor consent

Grading: Letter Graded

ENGR 122 - Data Technology for Behavioral and Social Science Applications

3 unit(s)

Use R programming language to collect, analyze, and present data sets from behavioral and social science applications.

Prerequisite(s): ENGR 120

Grading: Letter Graded

ENGR 130 - Introduction to Intellectual Property for Engineers

3 unit(s)

Covers the general framework for intellectual property law including an overview of patent, trademark, copyright, and trade secret laws. Covers how an engineer can spot and address common intellectual property issues in corporate settings.

Prerequisite(s): Any 100W course with a grade of "C" or better.

Grading: Letter Graded

ENGR 131 - Introduction to Patents for Engineers

3 unit(s)

Covers the core concepts of U.S. patent law and the process of obtaining a patent. Covers contents of a patent and patent strategies including third-party challenges of patentability, patent infringement and defenses.

Prerequisite(s): ENGR 130.

Grading: Letter Graded

ENGR 157SL - Community Action/Community Service

3 unit(s)

A campus-wide service learning program with opportunities for direct involvement with local community services, both off campus and on campus. Weekly seminars held on campus or at the field site, plus four to six hours of community service work per week at the field site.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with COMM 157SL / EDUC 157SL / HA 157SL / SCI 157SL. Communication Studies is responsible for scheduling.

Sustainability Related - SDG 11: Sustainable Cities and Communities

ENGR 160SL - Engineering Projects in Community Service UD

1 unit(s)

EPICS UD is a service-learning course where upper division engineering students work in multidisciplinary teams to undertake community-identified engineering projects. Students will gain insight into design and development processes and perform and report upon tasks consistent with their level of discipline expertise.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Engineering major; upper division standing

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

ENGR 180 - Individual Studies

1-3 unit(s)

Individual work on special topics, by arrangement.

Prerequisite(s): Upper division standing and instructor consent. Allowed Declared Majors: Engineering. Not

available to Open University Students.

Grading: Credit/No Credit

ENGR 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ENGR 194 - Business Organization and Management of Technology Enterprise

3 unit(s)

This course provides a "top down" overview of how commercial business works, including the business components: Corporate Environments, Human Resources, Legal, Marketing, Customer Insights, Management/Leadership. Communication and business soft skills will be covered providing a foundation for a solid business acumen. All class sessions focus on local and global perspectives.

Prerequisite(s): BUS 193 or ENGR 193.

Grading: Letter Graded

Cross-listed with BUS5 194. General Engineering is responsible for scheduling.

ENGR 195A - Global and Social Issues in Engineering

1 unit(s)

Interdisciplinary seminar treating social and global impacts of technology and engineering. This integrated GE experience requires students to apply these concepts in their senior project classes. Students must enroll concurrently in their department senior project course Part A.

Satisfies SJSU Studies S: Self, Society & Equality in U.S. when taken as part of Engineering Major sequence.

Prerequisite(s): ENGR 100W with a C or better. Engineering Majors only. Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses.

Corequisite(s): Enrollment in major capstone course or equivalent.

Grading: Letter Graded

Note(s): Meets GE Areas S and V when course is taken in combination with ENGR 195B and Engineering major specific sequence. Must be passed with a C or better to earn S and V

Sustainability Focused - SDG 9: Industry, Innovation and Infrastructure

ENGR 195B - Global and Social Issues in Engineering

1 unit(s)

Second course in a two-course sequence to support the integration of General Education Area S and Area V into the engineering major. Case study approach to the relationship of engineering to social, ethical and cultural aspects of the broader community both in the U. S. and worldwide. when taken as part of Engineering Major Sequence.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Repeatable for credit.

Prerequisite(s): ENGR 195A (with a grade of "C" or better). Engineering Majors Only. Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Corequisite(s): Enrollment in major capstone course or equivalent.

Grading: Letter Graded

Note(s): To receive credit for GE Areas S and V, students must complete both ENGR 195A and ENGR 195B, each with a grade of C or better. They must also complete their senior project course sequence and earn a grade of C or better in each course.

Sustainability Focused - SDG 9: Industry, Innovation and Infrastructure

ENGR 195C - Interdisciplinary Senior Project I

3 unit(s)

Interdisciplinary team senior design projects. Proposal preparation with feasibility plans and specifications; oral and written reports; professional seminars.

Satisfies SJSU Studies S: Self, Society & Equality in U.S. when taken as part of an engineering major sequence.

Prerequisite(s): ENGR 100W; eligible for senior project course in major.

Grading: Letter Graded

Note(s): Meets GE Areas S and V when course is taken in combination with: ENGR 195D, ENGR 195A and ENGR 195B

ENGR 195D - Interdisciplinary Senior Project II

3 unit(s)

Construction, testing, and evaluation of the design from ENGR 195C culminating in demonstrations and written and oral presentations to faculty, industry mentors and peers.

Satisfies SJSU Studies V: Cultures and Global Understanding when taken as part of an engineering major sequence.

Prerequisite(s): ENGR 195C with a grade of "C" or better.

Grading: Letter Graded

Note(s): Meets GE Areas S and V when course is taken in combination with: ENGR 195C, ENGR 195A and ENGR 195B

ENGR 195E - Interdisciplinary Computing Project

3 unit(s)

Culminating project experience for students to apply computing knowledge and skills to solving problems or generating insights in their chosen area of study such as behavioral and social sciences.

Prerequisite(s): ENGR 120 or Instructor Consent

Grading: Letter Graded

ENGR 197 - Cooperative Education Project

1-3 unit(s)

Professional experience in engineering or engineering technology through a cooperative education project. Part- or full-time on-site paid work experience based on a project assignment in area of student's career objective.

Repeatable for a total of 3 units.

Prerequisite(s): Student must have a co-op or internship secured prior to enrollment. Written proposal signed by the course instructor and the student's co-op or internship supervisor.

Grading: Credit/No Credit

ENGR 198 - Technology and Civilization

3 unit(s)

History, development, and use of technology in different cultures. Technology's impact on society, global environment, the workplace, cultural values, gender roles, and newly industrialized countries of the world.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with CMPE 198 / ME 198 / TECH 198. Technology is responsible for scheduling.

Sustainability Related - SDG 9: Industry, Innovation and Infrastructure

ENGR 199A - Senior Design Project I

1 unit(s)

First semester of year-long team project carried out under faculty supervision. Project proceeds from problem definition to analysis, design and validation, experimentation including possible construction and testing.

Lab 3 hours.

Prerequisite(s): Completed ENGR 100W with a "C" or better and Senior standing in BS Interdisciplinary Engineering Program. Completed at least 9 upper division courses that meet the BS IDE graduation requirements.

Grading: Letter Graded

ENGR 199B - Senior Design Project II

2 unit(s)

Second semester of a two-semester team project carried out under faculty supervision. Project proceeds from problem definition to analysis, design and validation, experimentation including possible construction and testing.

Lab 6 hours.

Prerequisite(s): ENGR 199A with a grade of C or better.

Grading: Letter Graded

ENGR 200W - Engineering Reports and Graduate Research

3 unit(s)

Graduate level technical writing workshop designed to develop advanced communication skills that will readily transfer to the engineer's professional needs, along with research methodologies, copyright issues, and proper documentation for the master's thesis project.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Graduate standing and completion of an undergraduate writing course.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ENGR 201 - Engineering Analysis

3 unit(s)

Mathematical techniques for solving engineering problems. Topics include linear systems analysis, probability and statistics, and differential equations. Applications include modeling and simulation, optimization, projection, experimental design. Several computer projects are required.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

ENGR 202 - Systems Engineering

3 unit(s)

Large scale system design and development. Integrated approach including mission statement, synthesis of design concepts, tradeoff studies, risk assessment and interactions encountered in the optimal design, development, manufacture and test of systems.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ENGR 203 - Engineering Management

3 unit(s)

Students will develop contemporary expertise in the principles of engineering finance, management, IP, operations management, performance metrics, and their application to design, development, and commercialization of new products and services in dynamic environments.

Prerequisite(s): Graduate standing and instructor consent.

Grading: Letter Graded

ENGR 206 - Renewable Energy Systems and Policies

3 unit(s)

Advanced knowledge in renewable energy resources and policies such as solar, wind, geothermal, biomass, waves and tidal energy. Solar resources and technologies, Integrated Resource Planning and System Operations, Enabling technologies and new energy use trends: Smart Grid, Demand Response, Energy Storage, and Electric Vehicles.

Prerequisite(s): Instructor consent.

Grading: Letter Graded.

ENGR 241 - Modeling and Control of Energy Systems

3 unit(s)

Presents the fundamentals of system dynamics and feedback control with applications in alternative energy system; deriving system equations for mechanical, electrical, and electrochemical systems; state-variable and transfer function representation of dynamic systems; transient response analysis; closed-loop control analysis and design; state estimation; simulation of energy systems in the computer environment.

Prerequisite(s): ENGR 201.

Grading: Letter Graded

ENGR 242 - Power Converters for Alternative Energy Systems

3 unit(s)

Covers the use of power converters in modern alternative energy applications, including the design and simulation of power converters in renewable energy systems (solar energy, wind energy, etc.), and electrified transportation (electric vehicles and electrified aircrafts).

Pre/Corequisite(s): ENGR 241.

Grading: Letter Graded

ENGR 243 - Energy Storage Applications and Manufacturing

3 unit(s)

Fundamental topics for understanding alternative energy systems including electrochemistry and manufacturing best practices with application to batteries, solar and fuel cells. Lectures will explore the design process for alternative energy systems and components through applied examples. The course includes examples that follow the design process through from developing requirements/specifications for the system to writing a comprehensive validation and test plan.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

ENGR 244 - Risk Management, Resilience, and Reliability of Energy Systems

3 unit(s)

Introduces Resilience, Reliability and Risk Management as they are critical elements of an effective and sustainable socio-technical and technical systems, including an energy system. The course combines lectures, reference materials and case studies to provide students with high-level concepts, methods and tools and draws from case studies and guest speakers to engage and guide students in the analysis of actual systems and events. The course also demonstrates the interconnectivity, interactivity, and interdependences of various factors including technological, organizational, human operational, outside forces in a given system and concepts and approaches to proactively address uncertainties (risk management), and recover from failures (resiliency), in order to assure the continuity of the system (reliability.)

Prerequisite(s): An undergraduate course on Engineering Systems, Engineering Probability and Statistic, or instructor consent.

Grading: Letter Graded

ENGR 250 - Complex Engineering Systems

3 unit(s)

Complex Engineering Systems (CES) are like Cyber-Physical Systems (CPS) and IIoT. They are systems-of-systems tightly coupled with their cyber (i.e. computation, communication and control) and sensing actuation. Topics include: model-based systems engineering; models integrations and safety analysis; and several innovative techniques: integration and visualization of system models, AI/ML, blockchain, and control/communications techniques.

Grading: Letter Graded

ENGR 251 - Complex Engineering Systems (CES) Cybersecurity

3 unit(s)

The course exposes students to the Complex Engineering Systems, Cyber-Physical Systems, and IIoT foundational concepts of cybersecurity principles. It introduces the Cyber Resiliency Framework based on Cyber Maturity Model Certificate (CMMC), methodologies and application in the early design stages, life-cycle process, security and risks management and mitigations.

Grading: Letter Graded

ENGR 261 - Battery Technologies I

3 unit(s)

ENGR 261 teaches fundamentals of battery technologies. Concepts and understanding of electrochemical interactions, kinetics and thermodynamics in batteries will be covered. Basic concepts, material development and modeling of lithium-ion batteries will be discussed as well as understanding of flow batteries. Advanced and future technologies for next generation batteries will be introduced.

Grading: Letter Graded

Sustainability Related - SDG 7: Affordable and Clean Energy

ENGR 262 - Battery Technologies II

3 unit(s)

This follow-up course will provide an in-depth look at batteries with a focus on cutting-edge research and development. Topics such as material synthesis techniques, science of electrode fabrication, advanced characterization techniques, battery life degradation mechanisms, design of battery electrodes, thermal management, and state-of-charge and state-of-health measurements will be covered.

Grading: Letter Graded

ENGR 263 - Battery Electrochemistry

3 unit(s)

This course will cover the basics of electrochemistry, including thermodynamics, kinetics, mass transfer effects, reference electrodes, porous electrodes, dilute and concentrated solution theory, and electro-analytical methods, including voltammetry, coulometry and impedance spectroscopy.

Grading: Letter Graded

ENGR 264 - Battery Manufacturing

3 unit(s)

Lectures will cover the manufacturing of Li-ion cells and battery packs in detail and the basics steps in manufacturing, equipment, cost considerations, and quality issues related to manufacturing.

Grading: Letter Graded

ENGR 265 - Battery Control Systems

3 unit(s)

Learn how to design, analyze, and perform experiments for model and system validation work on battery control systems in electric vehicles, solar and/or wind renewable energy storage, and retrieval systems for the electric grid.

Grading: Letter Graded

ENGR 271 - Passive Optical Sensing

3 unit(s)

An introduction to passive optical sensing systems, including application areas, phenomenology and component/technology performance analysis. Detector types, principles, noise and sensor cooling issues will be addressed. Case studies and system analysis of complete passive optical sensing systems included.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

ENGR 281 - Master's Project/Thesis Preparation Seminar

1 unit(s)

Preparation for project or thesis research, including development of scope, assembly of committee,

preparation of schedule, completion of literature survey, completion of introductory chapter for final report, and research proposal examination at the end of the course.

Misc/Lab: Lab 3 hours.

Prerequisite(s): Complete common and option core courses, a grade of "B" or better in ENGR 200W or any GS&R approved course that satisfies the Graduate Writing Competency Requirement and advancement to candidacy.

Grading: Credit/No Credit/Incomplete.

ENGR 295A - Master Project I

3 unit(s)

In-depth developmental engineering work relating to problems of interest to an individual or a group of students. Project includes proposal formulation, analysis, design, implementation, and testing.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Graduate Advisor consent. Not available to Open University students.

Grading: Credit/No Credit/Incomplete.

ENGR 295B - Master Project II

3 unit(s)

A continuation of ENGR 295A. Students complete the in-depth project, write a detailed project report and make a comprehensive presentation and demonstration of project.

Prerequisite(s): Advancement to Candidacy of Master's Degree and CMPE 295A or CMPE 295W. Not available to Open University students.

Grading: Mandatory Credit/No Credit/RP

ENGR 297C - Special Topics in Systems Engineering

3 unit(s)

Special seminars and discussions to augment regularly-scheduled graduate courses. Emphasis on systems, process, product, and service integration in short-life cycle product and service industries using systems, concurrent engineering, and cost of ownership principles.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

ENGR 297D - Special Topics in Emerging Technologies

1-3 unit(s)

Special topics in emerging technologies that emphasize new development in technologies, skills and knowledge which are suitable for the new technologies development such as but not limited to Machine Learning, Big Data Processing, Analytics, Data Analysis, and Information retrieval.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

ENGR 298 - Master's Project

2 unit(s)

Completion of an in-depth project, a detailed project report, followed by a comprehensive presentation and demonstration of the project.

Lab 6 hours.

Prerequisite(s): ENGR 281, satisfaction of English Proficiency requirement, advancement to candidacy.

Grading: Mandatory Credit/No Credit/RP

ENGR 298I - MSE Internship

1-3 unit(s)

Student will be employed in an industry as an intern, working in an engineering area to their MSE option. This course supplements and supports the student's program of study.

Prerequisite(s): Students must have graduate standing.

Grading: Mandatory Credit/No Credit/RP

ENGR 299 - Master's Thesis

1-6 unit(s)

Master's thesis work in engineering.

Misc/Lab: Lab 9 hours.

Prerequisite(s): Advancement to candidacy for master's degree; written contract with thesis advisor and graduate coordinator.

Grading: Mandatory Credit/No Credit/RP

ENGR 1081W - Basic Writing Workshop

1 unit(s)

Weekly writing to improve grammar and punctuation skills needed for student success. Repeatable for up to 6 units.

Misc/Lab: Activity 3 hours.

Course may be repeated for credit for up to 6 units.

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

ENGR 1290R - Culminating Experience Supervision

1 unit(s)

This course covers the same topics and has the same objectives as ENGR 298/ENGR 299.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Student must have been enrolled in ENGR 298 or ENGR 299 in a previous semester.

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Interior Design

DSIT 5 - Introduction of Interior Design and Architecture

3 unit(s)

A comprehensive introduction to the field of Interior Architecture. Focuses on social, psychological, economic and aesthetic challenges facing designers in the 21st century. Integration of design principles, creative expression and consumer information pertaining to living environments and public spaces.

Grading: Letter Graded

DSIT 10 - Sketching, Drawing + Modeling

3 unit(s)

Explore the processes of conceptual sketching and drawing. Utilize and teach architectural documentation techniques such as interior: floor plans, reflected ceiling plans, elevations, sections, details, perspectives and axonometric drawings. Demonstrate techniques in pencil, contemporary pens, markers, and artistic visualization techniques.

Corequisite(s): DSIT 5

Grading: Letter Graded

DSIT 29 - Design Process

3 unit(s)

Development of skills to work with point, line and plane to create volumes with spatial relationships.

Grading: Letter Graded

DSIT 33 - Architectural Presentation

3 unit(s)

Further study, exploration, and comprehensive development of the technical and conceptual aspects of architectural drawing and modelmaking used to visualize innovative and functional interior spaces.

Prerequisite(s): DSIT 29

Corequisite(s): DSIT 34

Grading: Letter Graded

DSIT 34 - Interior Architecture Foundation Studio

3 unit(s)

In-depth study exploration and comprehensive development of innovative and functional interior spaces using the technical and conceptual aspects of architectural drawing and architectural model making and the theoretical and conceptual methodologies used to formulate interior architectural space. Course emphasizes design theory, process, programming and human factors. Focus on residential and small-scale commercial building types.

Misc/Activity: Activity 6 hours

Prerequisite(s): DSIT 29

Corequisite(s): DSIT 33

Grading: Letter Graded

DSIT 83 - Visual Communication I

3 unit(s)

Principles of digital drawing and presentation tools essential to 2D architectural representation. Principle skills and disciplines of making 3D forms through the use of digital technology.

Misc/Lab: Activity 6 hours

Prerequisite(s): DSIT 5, DSIT 10.

Corequisite(s): DSIT 015, DSIT 29.

Grading: Letter Graded

DSIT 100 - Building Codes

3 unit(s)

Introduction to building codes and legal regulations related to interior architecture design. Egress, occupancy levels, regulations for the handicapped, general accessibility requirements, finishes and material specifications and fire ratings are highlighted in the class.

Activity 6 hours.

Prerequisite(s): DSIT 34. Allowed Declared Majors: Design Studies BA and Interior Design BFA majors only.

Grading: Letter Graded

DSIT 101 - Architectural Systems and Materials + Adv Modeling

3 unit(s)

This course covers the functional, aesthetic and environmental aspects of building materials and systems focusing on the documentation of design through BIM software.

Lecture 3 hours/Activity 4 hours.

Prerequisite(s): DSIT 33 and DSIT 34. Allowed Declared Majors: Design Studies BA and Interior Design BFA majors only.

Grading: Letter Graded

DSIT 102 - Computer Graphics for Interior Architecture

3 unit(s)

Examination of programs related to the development of state of the art presentation methods and portfolios.

Prerequisite(s): DSIT 34.

Grading: Letter Graded

DSIT 103 - Interior Architecture Conceptual Design Studio

3 unit(s)

Organize programmatic adjacencies and allocate planned spaces based on a singular design concept or objective. Conceptualize and execute a design through the use of 3D modeling software, digital animation and analogue methods of fabrication. Site analysis, formal, thermal and material issues problem-solving, iterative and rigorous production, experimentation, and research. Presentation of work to a jury.

Misc/Lab: Activity 6 hours

Prerequisite(s): DSIT 33 and DSIT 34. Allowed Declared Majors: Interior Design and Art.

Corequisite(s): DSIT 102.

Grading: Letter Graded

DSIT 104 - Interior Architecture Space Planning Studio

3 unit(s)

Further project-oriented study, examination and analysis of planning and designing innovative and functional interior spaces. Emphasis on the space planning of state of the art commercial environments. Additional emphasis on implementation and interpretation of laws, codes and regulations. Course is repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): DSIT 103 and pass portfolio review .

Grading: Letter Graded

DSIT 105 - Interior Architecture Advanced Design Studio

3 unit(s)

In-depth project oriented study, examination and analysis of planning and designing innovative and functional interior spaces. Emphasis on the advanced design of state of art commercial environments. Additional emphasis on implementation and interpretation of laws, codes and regulations.

Prerequisite(s): DSIT 103, and pass portfolio review.

Grading: Letter Graded

DSIT 106 - Architectural Project Materials

3 unit(s)

Discussion and analysis of materials for interior architecture lectures and field trips emphasizing aesthetic sensibilities, human factors, manufacturing processes and specifications.

Prerequisite(s): DSIT 34. Allowed Declared Majors: Interior Design and Art.

Grading: Letter Graded

DSIT 107 - Furniture Design

3 unit(s)

Design and production of original furniture, including drawing, prototypes and materials selection.

Prerequisite(s): DSIT 34 or instructor consent.

Grading: Letter Graded

DSIT 108 - Architectural Lighting Design

3 unit(s)

Theory and practice of architectural lighting emphasizing aesthetics, drawing, specifications, terminology, calculations and advances in technology. Course is repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): DSIT 103, DSIT 104 or upper division standing and instructor consent.

Grading: Letter Graded

DSIT 109 - Object Design for Interiors

3 unit(s)

Advanced exploration of object design theory and practice with projects involving high levels of aesthetic and functional complexity.

Prerequisite(s): DSIT 105, DSIT 106 and DSIT 108.

Grading: Letter Graded

DSIT 110 - Capstone Thesis Studio

3 unit(s)

Students will select an appropriate project type, determine the site, prepare existing drawings, write a project statement and program, and develop a design solution. Work must be presented to a jury of professionals, and exhibited in a thesis exhibition.

Prerequisite(s): DSIT 104, DSIT 105.

Grading: Letter Graded

DSIT 111 - Interior Architecture Seminar

3 unit(s)

A capstone course for discussion of design work and professional values as a basis for portfolio and resume preparation.

Prerequisite(s): DSIT 105 and enrollment in graduation semester. Allowed Declared Majors: Interior Design.

Grading: Letter Graded

DSIT 112 - Professional Practice of Interior Archit

3 unit(s)

Examination of the business, legal, financial, and managerial considerations of interior design practice as well as the role and responsibilities of a design assistant, with emphasis on ethical considerations and the legal issues of the profession and licensing.

Prerequisite(s): DSIT 100.

Grading: Letter Graded

DSIT 116 - Solar Energy Analysis

3 unit(s)

Provides a comprehensive overview of sustainable solar energy resources, economics, and policy. Includes a review of basic solar energy physics and interdisciplinary analysis of economic, social justice and environmental strategies for a solar powered civilization.

Grading: Letter Graded.

Cross-listed with ENVS 116. Environmental Studies is responsible for scheduling.

Sustainability Focused - SDG 7: Affordable and Clean Energy

DSIT 132 - Solar Home Design

3 unit(s)

Techniques for designing environmentally-sensitive, healthy, passive solar homes via site selection, energy conservation, lighting, non-hazardous natural building materials. Residential passive solar heating and cooling approaches for retrofits and new construction. For homeowners, teachers, professional designers and architects.

Prerequisite(s): ENVS 1 or instructor consent.

Grading: Letter Graded

Cross-listed with ENVS 132. Environmental Studies is responsible for scheduling.

Sustainability Focused - SDG 7: Affordable and Clean Energy

DSIT 151 - Introduction to Urban Design

4 unit(s)

Principles, goals and methods of the urban design process. Urban design as the comprehensive treatment of the human-made environment.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with URBP 151. Urban and Regional Planning is responsible for scheduling.

Sustainability Related - SDG 11: Sustainable Cities and Communities

DSIT 152 - Introduction to Urban Design Studio

4 unit(s)

Introduction to the analysis of alternative urban design policies to direct urban form development. Course may be repeated for credit when topic changes.

Misc/lab: Activity 6 hours.

Prerequisite(s): URBP 151 or instructor consent.

Grading: Letter Graded

Cross-listed with URBP 152. Urban and Regional Planning is responsible for scheduling.

Sustainability Related - SDG 11: Sustainable Cities and Communities

DSIT 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Letter Graded

DSIT 192C - History of Interior Design

3 unit(s)

Survey of interior design through historical, political, social, economic, technological, and aesthetic factors that shape the built environment. Design will be analyzed formally and through parallel developments in the arts.

Prerequisite(s): ARTH 70B or ARTH 72, completion of Area Z, or instructor consent.

Grading: Letter Graded

Cross-listed with ARTH 192C. Art and Art History is responsible for scheduling.

Sustainability Related

Italian

ITAL 1A - Elementary Italian

4 unit(s)

Basic skills and structure of the language in the context of culture.

Satisfies C2: Humanities.

Grading: Letter Graded

ITAL 1B - Elementary Italian

4 unit(s)

Basic skills and structure of the language in the context of culture.

Satisfies C2: Humanities.

Prerequisite(s): ITAL 1A (or equivalent).

Grading: Letter Graded

ITAL 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ITAL 180 - Individual Studies in Italian

1-3 unit(s)

Individual work by arrangement.

Grading: Credit/No Credit

ITAL 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Japanese

JPN 1A - Elementary Japanese

4 unit(s)

Basic skills and structure of the language in the context of culture.

Satisfies C2: Humanities.

Grading: Letter Graded

JPN 1B - Elementary Japanese

4 unit(s)

Basic skills and structure of the language in the context of culture.

Satisfies C2: Humanities.

Prerequisite(s): JPN 1A (or equivalent).

Grading: Letter Graded

JPN 25A - Intermediate Japanese

4 unit(s)

Continuation of JPN 1B. Preparation for advanced courses in the language.

Satisfies C2: Humanities.

Prerequisite(s): One Year of college-level Japanese (or equivalent or SJSU placement exam).

Grading: Letter Graded

JPN 25B - Intermediate Japanese

4 unit(s)

Continuation of JPN 25A. Preparation for advanced courses in the language.

Satisfies C2: Humanities.

Prerequisite(s): Three semesters of college Japanese (or equivalent).

Grading: Letter Graded

JPN 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

JPN 101A - Advanced Japanese

4 unit(s)

Readings, oral discussion, study of syntax and composition.

Prerequisite(s): Four semesters of college Japanese (or equivalent).

Grading: Letter Graded

JPN 101B - Advanced Japanese

4 unit(s)

Readings, oral discussion, study of syntax and composition.

Prerequisite(s): Four semesters of college Japanese (or equivalent).

Grading: Letter Graded

JPN 101C - Advanced Conversational Japanese

4 unit(s)

This course focuses on politeness aspects of Japanese language that appear in L19, 20, and 23 of Genki textbook II and heightens conversational competence to intermediate high in ACTFL through project works.

Prerequisite(s): JPN 25B

Grading: Letter Graded

JPN 102A - Japanese Culture

4 unit(s)

History, geography, fine art and daily life of Japan. May be repeated when content changes.

Course is repeatable for up to 8 units.

Prerequisite(s): JPN 25B.

Grading: Letter Graded

JPN 102B - Local and Minority Cultures in Japan

3 unit(s)

Examines how identities and cultures of the ethnic minorities of Japan, such as Okinawans, Amamians, Ainu and Koreans, changed over time from the Edo era to the present, interacting with majority groups in mainland Japan and the U.S. under their political control. Repeatable for credit when topic changes.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

JPN 103 - Japanese Ideography and Calligraphy

4 unit(s)

Ideographs and Kana-syllabaries in their historical contexts-meaning, imagery, socio-anthropological backgrounds, formation and use of modern Japanese. Studio practice.

Prerequisite(s): JPN 101C or equivalent.

Grading: Letter Graded

JPN 105 - Media Japanese

4 unit(s)

Examination of language that appears in Japanese media such as newspapers, Internet news, and TV news to enhance four language skills (listening, reading, speaking and writing) to advanced level.

Prerequisite(s): JPN 101C or equivalent
Grading: Letter Graded

JPN 107 - Japanese for Business Professionals

4 unit(s)

Advanced Japanese course for specific (business) purposes. It will acquaint students with practical vocabulary, a wide range of language structures, business manners, and business customs for developing communication skills useful in conducting business in Japanese.

Prerequisite(s): JPN 101C or equivalent.
Grading: Letter Graded

JPN 110 - Japanese Linguistics

4 unit(s)

Structural analysis of Japanese from historical as well as descriptive perspectives and its application to distinct Japanese social and communicative behaviors.

Prerequisite(s): JPN 101C or equivalent.
Grading: Letter Graded

JPN 120 - Japanese Literature and Translation

4 unit(s)

Examination of Modern Japanese Manga Literature and Light novels and their translation to heighten learners reading and translation skills.

Prerequisite(s): JPN 101C or equivalent.
Grading: Letter Graded

JPN 130 - Readings in Japanese Culture

4 unit(s)

Readings from contemporary texts (including scholarly essays, newspapers and narrative) on various aspects of Japanese culture.

Prerequisite(s): JPN 101C or equivalent.
Grading: Letter Graded

JPN 135 - Japanese Culture and Society in Films

4 unit(s)

Examination of a wide variety of Japanese films to heighten learners listening, reading, translational skills of Japanese language and analytical skills of social and cultural criticism of Japan.

Pre/Corequisite(s): JPN 101B.
Grading: Letter Graded

JPN 140 - Japanese Drama and Lyrics

4 unit(s)

Interpretation of Japanese drama and lyrics from Showa to the present to foster advanced level of Japanese language competence. Analysis of stylistic features, Japanese people and society's socio-cultural values and their historical backgrounds.

Prerequisite(s): JPN 101C or equivalent

Grading: Letter Graded

JPN 150 - Japanese Narratives and Life stories

4 unit(s)

Examination of Japanese narratives (folk tales) and life stories that represent Japanese society and archetype of Japanese people's psychology.

Prerequisite(s): JPN 101C or equivalent

Grading: Letter Graded

JPN 160 - Special Topics in Japanese Studies

3 unit(s)

A 25-day summer program that focuses on Japanese language, culture, and history. Explores Japanese culture and history through culture instruction conducted at cultural centers in Uji-city, Kyoto and field trips to historical sites and Japanese companies in Kyoto and other cities such as Osaka, Nara, Hiroshima, and Tokyo.

Course may be repeated for credit for up to 9 units.

Grading: Letter Graded

JPN 170 - Japanese Language Proficiency Test (JLPT) Preparation

4 unit(s)

Preparation for N2 or N3 level of the Japanese Language Proficiency Test (JLPT). Includes skills to expand vocabulary, grammar and Kanji of the N2/N3 levels, as well as a variety of self-study and test-taking strategies useful for the JLPT.

Prerequisite(s): JPN 101A

Grading: Letter graded.

JPN 180 - Individual Studies in Japanese

1-3 unit(s)

Individual work by arrangement.

Prerequisite(s): 11 units of upper division Japanese (or equivalent with grade of "B") and instructor consent.

Grading: Credit/No Credit

JPN 192 - International Program Studies

1-14 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Jewish Studies

JWSS 1A - Elementary Hebrew

4 unit(s)

Basic skills and structure of the Hebrew language, in the context of the history and range of cultural expressions in the Hebrew speaking world.

Satisfies C2: Humanities.

Grading: Letter Graded.

Cross-listed with HEBR 1A / RELS 1A. Department of World Languages and Literatures is responsible for scheduling.

JWSS 1B - Elementary Hebrew

4 unit(s)

Second level of Elementary Hebrew, further developing students' proficiency in reading, writing, speaking, and listening in Modern Hebrew, delving deeper into the context of the history and range of cultural expressions in the Hebrew speaking world.

Satisfies C2: Humanities.

Prerequisite(s): HEBR 1A (or equivalent).

Grading: Letter Graded.

Cross-listed with HEBR 1B / RELS 1B. World Languages and Literatures is responsible for scheduling.

JWSS 15A - Intermediate Hebrew

3 unit(s)

Developing speaking skills.

Prerequisite(s): HEBR 1A and HEBR 1B (or equivalent).

Grading: Letter Graded.

Cross-listed with HEBR 15A / RELS 15A. World Languages and Literatures is responsible for scheduling.

JWSS 15B - Intermediate Hebrew

3 unit(s)

Developing speaking skills.

Prerequisite(s): HEBR 1A and HEBR 1B (or equivalent).

Grading: Letter Graded.

Cross-listed with HEBR 15B / RELS 15B. World Languages and Literatures is responsible for scheduling.

JWSS 90 - Bible History and Literature

3 unit(s)

The Bible in context of its history, literary sources and as a reflection of Jewish and Christian traditions. Motifs and themes in light of their original audience, historic usage and contemporary development.

Satisfies C2: Humanities.

Grading: Letter Graded

Cross-listed with HUM 90 / MDES 90 / RELS 90. Humanities is responsible for scheduling.

JWSS 102A - Advanced Hebrew

3 unit(s)

Readings, grammar, discussion and composition.

Prerequisite(s): Four semesters of college Hebrew (or equivalent).

Grading: Letter Graded

Cross-listed with HEBR 102A / RELS 102A. World Languages and Literatures is responsible for scheduling.

JWSS 102B - Advanced Hebrew

3 unit(s)

Readings, grammar, discussion and composition.

Prerequisite(s): 12 units of college Hebrew (or equivalent).

Grading: Letter Graded

Cross-listed with HEBR 102B / RELS 102B. World Languages and Literatures is responsible for scheduling.

JWSS 111 - Special Topics in Jewish Studies

3 unit(s)

Special Topics in Jewish Studies. Topics vary and will be announced each semester. Repeatable for credit when topic changes.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with HIST 111 / HUM 111 / RELS 111. History is responsible for scheduling.

JWSS 118 - Yiddish History and Culture

3 unit(s)

Introduces Yiddish as a lens through which to explore some of the major historical trends in Eastern European and American Jewish life, such as Hasidism, the Jewish Enlightenment (Haskalah), nationalism, immigration, secularization, and antisemitism.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Note(s): Students are strongly encouraged to satisfy GE Areas R, S, and V with courses from departments other than the major department.

Cross-listed with HIST 118. History is responsible for scheduling.

JWSS 126 - Holocaust Literature

3 unit(s)

Survey of literature written by survivors or witnesses of the Holocaust, the destruction of European Jewry during World War II, focusing upon diaries, memoirs, fiction, and occasionally poetry and drama. Writers may include Elie Wiesel, Primo Levi, Anne Frank, Charlotte Delbo.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ENGL 126 / FORL 126 / HUM 126. English and Comparative Literature is responsible for scheduling.

JWSS 136 - World Jewish History

3 unit(s)

History of the Jewish people and Judaism around the world, from their origins to the present. Covers Jewish development, both as an ethnic group and as a religion, with an emphasis on the diverse ways in which Jews responded to their circumstances. A major focus is the effect of Judaism and the Jews on other cultures and societies.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing; Completion of, or co-registration in, 100W is strongly recommended (HIST 100W preferred).

Grading: Letter Graded.

Cross-listed with HIST 136 History is responsible for scheduling.

JWSS 144 - Middle Eastern Politics

4 unit(s)

Study of unfolding events in the Middle East. Themes include: the failure of democratic movements, nuclear proliferation and terrorism, US foreign policy towards the region, the Israel-Palestine conflict, urbanization, gender and human rights.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with MDES 144 / POLS 144. Political Science is responsible for scheduling.

JWSS 180 - Individual Studies

1-3 unit(s)

Directed studies in relevant fields not covered by courses offered.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): Instructor consent and program coordinator.

Grading: Credit/No Credit

Journalism

JOUR 50 - Navigating the News

3 unit(s)

Introduction to different forms of news media we consume to become informed and engaged citizens, and how media shape our world. Development of skills to critically evaluate the credibility of news sources, distinguish between real and fake news, and examine contemporary news events and news media coverage in cultural, historical, environmental, and spatial contexts.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Sustainability Related - SDG 4: Quality Education

JOUR 61 - Writing for Print, Electronic and Online Media

3 unit(s)

Introduction to writing for media --newspapers, magazines, electronic and the Internet--as well as producing content for multimedia distribution in a converged media environment. Emphasis on how different media require different writing styles and content.

Repeatable for the English and Spanish version.

Prerequisite(s): ENGL 1A and ENGL 2.

Grading: Letter Graded

Note(s): Writing for Spanish Media Topic: Suggested Spanish requirements include AP Spanish 4 or 5,

and/or SPAN 1A and/or SPAN 1B. Students can choose the language they want to write, with mentorship for those wishing to improve or learn to prepare their stories in Spanish. Students will be introduced to Spanish language media, issues and related culture. Non-bilingual students will be encouraged to participate in exercises that will help them translate or write news stories in Spanish. Native Spanish speakers are strongly encouraged to enroll in the class, but all students are invited to learn how to write and report for Spanish media at their own pace.

JOUR 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Letter Graded

JOUR 95 - Beginning Digital News Photography

3 unit(s)

Basic introduction to news photography and photojournalism field. Includes camera use -- composition, aperture, shutter speed and lens selection -- and processing for print or electronic media using PhotoShop. Emphasis on technical aspects of digital news photography and storytelling with photographs.

Prerequisite(s): Writing Enrollment Category W-I or W-II or completion of ENGL 1AF with grade of CR.

Grading: Letter Graded

JOUR 130 - Student Media Apprentice

3 unit(s)

A deep dive into a pool of multimedia concepts, techniques and skills, while working as a student media apprentice reporter. Includes fundamentals of reporting, writing, shooting and editing, as well as storytelling in video, audio and text with photo.

Prerequisite(s): JOUR 61

Grading: Letter Graded

JOUR 132 - Magazine Reporting, Print and Online

3 unit(s)

Reporting and writing of feature stories for magazines, print and online. Develops expertise in reaching a targeted audience with words and images. While the prerequisite, JOUR 61, teaches breaking news writing, this course explores longer, deeper forms.

Prerequisite(s): JOUR 61

Grading: Letter Graded

JOUR 133 - Editing and News Management

3 unit(s)

Media Lab. for the editor serving as wordsmith and coach, a hands-on approach to copy editing and headline writing for online and print media. Students work as editors for media lab publications.

Prerequisite(s): JOUR 61 or instructor consent.

Grading: Letter Graded

JOUR 136 - Newspaper and Magazine Design

3 unit(s)

Principles of newspaper and magazine design--news judgment, story and headline hierarchy, typography and meaningful visual storytelling through use of photos/art. Practice in creating newspaper pages and magazine layouts and cover designs.

Prerequisite(s): JOUR 61, JOUR 133 or instructor consent.

Grading: Letter Graded

JOUR 137 - Reviewing the Arts

3 unit(s)

Students explore the arts while learning to forge their opinions into reasoned critical journalistic reviews. Students will attend performances and exhibits, meet and interview artists and professional critics, read selected writings in criticism and aesthetics, and learn to support their insightful opinions with evidence.

Prerequisite(s): JOUR 61

Grading: Letter Graded

JOUR 138 - Sports Journalism Investigation

3 unit(s)

Course prepares sports journalists to develop their investigative and technical skills in audio, video, photography, and sports writing across traditional and new media platforms. Students work collaboratively across media to publish sports features weekly. Diversity/inclusion emphasized.

Corequisite(s): JOUR 61 or consent of instructor

Grading: Letter Graded

JOUR 140A - Student Media Production: Update News

1-3 unit(s)

Students report, write, shoot, edit, anchor and produce Update News. Course is run as a working newsroom where accuracy, quality and deadlines are paramount. The various student media work in a spirit of convergence and collaboration.

Activity 6 hours.

Course is repeatable for up to 12 units of credit.

Prerequisite(s): JOUR 61.

Grading: Letter Graded.

JOUR 140AS - Student Media Production in Spanish

3 unit(s)

Students report, write, shoot, edit, anchor and produce 'El Espartano Noticias'. Course is run as a working newsroom where accuracy, quality and deadlines are paramount. Students work in a spirit of convergence and collaboration. Taught in Spanish.

May be repeated for up to 6 units of credit for a major and an additional 3 units can be counted for a minor.

Prerequisite(s): JOUR 61

Grading: Letter Graded.

High Impact Practice: Collaborative Assignment/Project.

JOUR 140B - Student Media Production: Spartan Daily

1-3 unit(s)

A team of reporters, photographers and editors produce student media content in the Spartan Daily. Course is run as a working newsroom where accuracy, quality and deadlines are paramount. Various student media work in collaboration.

Course may be repeated for up to 12 units of credit.

Prerequisite(s): JOUR 61

Grading: Letter Graded.

JOUR 140C - Student Media Production: The Spear

3 unit(s)

Students report, write, shoot, edit, anchor and produce the sports program and/or magazine, The Spear. Course is run as a working newsroom where accuracy, quality and deadlines are paramount. Student media work in collaboration.

Course may be repeated for up to 12 units of credit.

Prerequisite(s): JOUR 61

Grading: Letter Graded.

JOUR 140D - Student Media Production: Magazine

3 unit(s)

A team of reporters, photographers and editors produce a magazine in conjunction with supervising editors in JOUR 150. Course is run as a working magazine office where accuracy, quality and deadlines are paramount. Various student media work in collaboration.

Activity 6 hrs.

Course may be repeated for up to 12 units of credit.

Prerequisite(s): JOUR 61 and JOUR 132.

Grading: Letter Graded.

JOUR 150 - News Media Management

3 unit(s)

Capstone course in which students manage media, by overseeing the operation of publications, broadcasts and digital platforms. Students apply for management positions. Repeatable for credit.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): JOUR 61 and JOUR 140A, or JOUR 140B, or JOUR 140C, or JOUR 140D

Grading: Letter Graded

JOUR 160 - Environmental Journalism

3 unit(s)

Course will introduce students to environmental journalism and distinguish the roles and differences between journalism and communications, in which the student will learn to better understand the watchdog role of the journalist to report the facts within a larger social, political and economic context so that the public is presented with accurate, credible and timely information on science and its implications for sustainability.

Satisfies SJSU Studies R: Earth, Environment & Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Sustainability Related - SDG 13: Climate Action and SDG 16: Peace, Justice, and Strong Institutions

JOUR 167 - Television News Magazine

3 unit(s)

Course dedicated to quality, long-form visual reporting, told through the half-hour show, Equal Time. Each episode focuses on a specific topic in depth. Stories center around news important to Californians, and air on the PBS-TV station, KQED Silicon Valley. The show contains taped packages and live-to-tape roundtable discussions. Students are responsible for aspects of show creation, including reporting, writing, shooting, editing and producing.

Repeatable for up to 6 units when topic changes.

Prerequisite(s): JOUR 61, JOUR 140A; or instructor approval.

Grading: Letter Graded

JOUR 176A - Documentary Unit I - Short Form Feature Production

3 unit(s)

Explores the history and methods of producing a short-form non-fiction visual documentary. Students learn basic camera production techniques to execute their proposals. Students will be introduced to studio lighting, sound and post production skills. Diversity themes emphasized.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 10: Reduced Inequalities

JOUR 176B - Documentary Unit II - Long Form/Series Production

3 unit(s)

Focuses on the making of a long-form documentary production or a documentary feature series (consisting of 2 or more short segments). Students are introduced to field techniques and formats for extended documentary production. Diversity themes emphasized.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

JOUR 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Justice Studies

JS 10 - Introduction to Justice Studies

3 unit(s)

Historical and philosophical development of the justice system. Description, analysis and evaluation of criminal justice agencies. Relationship between theory and practice.

Grading: Letter Graded

JS 12 - Introduction to Legal Studies

3 unit(s)

The course presents historical and modern perspectives of the theories and structures of law, and provides an overview of the economic and sociological challenges to law making. This course also examines the nexus between law, social change, and dispute resolution.

Grading: Letter Graded

JS 15 - Introductory Statistics in Justice Studies

3 unit(s)

Introduction to measures of central tendency, variation, correlation and regression, probability, estimation and hypothesis testing as used in Justice Studies.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Mathematics Enrollment Category M-I or M-II or M-III; for Category IV, completion of a GE Area B4 course with a grade of C- or better.

Grading: Letter Graded

JS 25 - Introduction to Human Rights and Justice

3 unit(s)

This course is a lower division introduction to the history of human rights as a concept and body of international law, and to the complicated role of human rights in contemporary social justice campaigns.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

JS 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Letter Graded

JS 100W - Writing Workshop

3 unit(s)

Development of advanced communication skills, both written and oral. Emphasis on writing formats used by criminal justice professionals. A scholarly paper, written in APA format and informed by research, will be required.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level. Allowed Declared Major: Justice Studies or Forensic Science.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

JS 101 - Critical Issues and Ideas in Justice

3 unit(s)

Interdisciplinary, historical and comparative examination of justice concepts and controversies, including the

state's role in promoting justice and perpetuating injustice; legitimate versus illegitimate violence; human rights, stateless persons, and the international community; the relationship between social justice and criminal justice.

Course is repeatable for up to 3 units.

Prerequisite(s): Upper Division Standing; JS 10, JS 12, JS 25 or FS 11 or equivalent.

Corequisite(s): JS 100W; Justice Studies Minors, Legal Studies Minors: Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

JS 102 - Police and Society

3 unit(s)

A multidisciplinary study of law enforcement from the early 1800's to the present. Focus on significant studies in relation to the role of police and analysis of current models and practices.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 103 - Courts and Society

3 unit(s)

Structure and functions of the court system. Emphasizes attorneys' and judges' roles and the court process. Examination of federal and state legislative, executive and judicial branch actions, including Supreme Court decisions in civil and criminal cases.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Note(s): A grade of "C" or better is required for graduation.

JS 104 - Penal Politics & Institutions

3 unit(s)

Interdisciplinary examination of issues of race, class, gender, ethnicity, economy, and culture as it relates to punishment, the penal process, and social control.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 107 - Justice Management and Ethics

3 unit(s)

The theory and practice of managing justice system agencies, including organizational change and contemporary issues. In-depth examination of ethical challenges in managing justice agencies, and strategies for ensuring ethical practices.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 114 - Research Methods in Justice Studies

3 unit(s)

Introduction to quantitative research methods used in Justice Studies. Includes relationship of theory to empirical evidence; logic underlying methods of inquiry; ethics in conducting empirical research; and methodological design, operationalization, and data analysis.

Prerequisite(s): JS 10, JS 12, JS 25, or FS 11 with a grade of "C" or better; JS 15 or STAT 95 or equivalent with a grade of "C" or better; JS 100W with a grade of "C" or better. Justice Studies Minors: Any 100W and Upper Division Standing.

Grading: Letter Graded

Note(s): Restricted to JS majors and minors and FS majors. Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 117 - Qualitative Research Methods

3 unit(s)

Introduction to qualitative research methods used in Justice Studies. Includes relationship of empirical evidence to theory, ethics in conducting empirical research, methodological design, interviewing techniques, field methods, participant observation, and content analysis.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 121 - Media and Justice

3 unit(s)

This course is an interdisciplinary and comparative media examination of justice concepts and controversies, including forms of violence, human rights, undocumented persons, the state's role in promoting criminalization and social inequality, and the need for social justice and media reform.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

JS 122 - Drugs and Society

3 unit(s)

Examines the physiological effects of psychoactive drugs; history of legal and illegal drug use; causes and rates of use and addiction; drugs in the media; drug-related crime and violence; criminalization, decriminalization, legalization, harm reduction; drug courts; drug treatment.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 123 - Terrorism, Intelligence, and Security

3 unit(s)

Examination of terrorist organizations and activities, definitions of terrorism, and social and political consequences of terrorism. Includes policy responses to terrorism, including roles of intelligence and security agencies, and impacts on law, rights and liberties.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 127 - Immigration and Justice

3 unit(s)

Interdisciplinary analysis of cultural, social and political implications of transnational migrations and their historical and present influences on US culture. Emphasis on issues of social justice and human rights related to contemporary migratory movements.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

Sustainability Focused - SDG 8: Decent Work and Economic Growth

JS 128 - Punishment, Culture and Society

3 unit(s)

Critical analysis of the cultural, political and economic dimensions of penal politics in contemporary American society, with particular reference to the relationships between criminal justice and social justice. Emphasis on issues of racial, economic, and gender inequality.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

JS 129 - International Crime and Deviance

3 unit(s)

This course offers an international perspective on violence. This course analyzes transnational crime and deviance trends, their causes, as well as organizational responses. Topics discussed in this class include international drug markets, sexual commerce, child soldiers, and terrorism.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

Sustainability Focused - SDG 8: Decent Work and Economic Growth

JS 130 - Sexuality & Justice

3 unit(s)

Surveys the relationship between sexuality and social and criminal justice. Students explore the nature and extent of sexual offenses against adults and children. A critical examination of recent public policies aimed at managing sexual aggression is included.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 131 - Crisis Intervention, Mediation and Restorative Justice

3 unit(s)

Review of theory, research and practical skill development in communication and problem resolution strategies using techniques of crisis intervention, mediation and restorative justice in community policing, family court, dependency court and juvenile justice settings.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 132 - Race, Gender, Inequality and the Law

3 unit(s)

History of legal issues and individual and institutional discrimination of women, ethnic/cultural and religious minorities, LGBTQ people and the disabled in education, employment, criminal justice and the family. Solutions for structured inequality in the U.S.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Course is repeatable for up to 3 units.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

Sustainability Focused - SDG 10: Reduced Inequalities

JS 136 - Family and Community Violence

3 unit(s)

Examines abusive relationships and responsive community and justice system policy and preventive interventions. Topics include child abuse, neglect, gang and hate crimes, rape, marital violence and elder abuse.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Course is repeatable for up to 3 units.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 137 - Collaborative Response to Family Violence

3 unit(s)

Employs an ecological framework to explore the scope, effects and response to family violence by diverse services and systems. Students are introduced to theory and practice of interdisciplinary collaboration and how it applies to respond more effectively to family violence.

Pre/Corequisite(s): Any 100W. Completion of JS 136 or previous courses in family violence is suggested but not required.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 140 - Record Clearance Project

3 unit(s)

RCP teaches students to give community education presentations and advise clients regarding court procedures to clear criminal convictions. Students learn legal interviewing, counseling, ethics, reading rap sheets, performing legal research and writing, court interpreting and related skills.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 141 - Record Clearance Project Representation

3 unit(s)

Record Clearance Project Representation teaches students to assist clients in preparing and filing petitions to clear criminal convictions in court, and related tasks. Under attorney supervision, students represent between two to four clients.

Prerequisite(s): JS 140 and instructor consent.

Grading: Credit/No Credit

Note(s): JS 141 fulfills the internship requirement for the Justice Studies major. Students can enroll in JS 141 and JS 142 concurrently.

JS 142 - Record Clearance Project - Advanced Study and Community Involvement

3 unit(s)

Record Clearance Project - Advanced Study and Community Involvement involves assisting RCP mentors (who are former clients) in working with clients who are released from custody, mentoring RCP students in client interviews, coordinating project tasks and events, collecting data from former clients and students, helping with RCP community involvement, and assisting in other tasks.

Prerequisite(s): JS 140 and instructor consent.

Grading: Credit/No Credit

Note(s): JS 142 fulfills the internship requirement for the Justice Studies major. Students can enroll in JS 141 and JS 142 concurrently.

JS 143 - Criminal Evidence and Procedure

3 unit(s)

Origin, development, philosophy and constitutional basis of evidence; administrative and judicial rules and procedures that govern admissibility; examination of judicial decisions interpreting individual rights; exploration of process by which attorneys introduce evidence as proof or exculpation of crime.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 144 - Criminal Law

3 unit(s)

Historical development of philosophy of law and constitutional provisions, legal definitions, classifications of crime, case law, methodology and concepts of criminal law as a social force.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 145 - White Collar Crime

3 unit(s)

Growth and development of white collar crime in the United States: crimes at the workplace, computer fraud, swindles, embezzlement, bribery and graft at the corporate and governmental levels.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Note(s): A grade of "C" or better is required for Justice Studies majors.

JS 146 - Guns and the Law

3 unit(s)

Socio-historical examination of the legal regulation of guns in the United States. Topics include prevalence of gun ownership, gun use, and gun-related violence; Constitutional foundations of gun ownership; and policy debates surrounding gun rights and gun control.

Grading: Letter Graded

JS 150 - Gender and Crime

3 unit(s)

Analysis of gender and its influence upon criminal participation and victimization, treatment in the criminal justice system, and those working in the criminal justice fields. Emphasis on women's experiences.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

Sustainability Focused - SDG 5: Gender Equality

JS 151 - Criminological Theory

3 unit(s)

Analysis of the nature and extent of crime, including causation and prevention. Descriptions of offenses, criminal typologies and victim surveys. Evaluation of various control and prevention strategies.

Prerequisite(s): JS 10, JS 12, JS 25 or FS 11.

Pre/Corequisite(s): JS 100W. Justice Studies Minors: Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 152 - Juvenile Delinquency & Justice

3 unit(s)

History, theory and functions of the juvenile justice system. The legal processes for delinquent minors, status offenders and dependent children, including intake, detention, adjudication and disposition. Current legal issues and debate.

Prerequisite(s): Upper Division Standing.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 153 - Crime and Justice Across the Life Course

3 unit(s)

Explores how crime and justice are experienced by individuals over time. The nature and extent of offending and victimization at various ages across the life course is examined. A critical consideration of the criminal career paradigm is also provided.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 155 - Victimology

3 unit(s)

Examination of the relationship between victim and offender; the behavior and attitudes of family, society and justice system toward the victim; nature and extent of loss, injury and damage to the victim.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 156 - Gangs, Criminal Syndicates & Justice

3 unit(s)

A socio/historical examination of the emergence, evolution, persistence, activities and social structure of gangs and mobs, the effects of social factors, e.g., politics, law, technology and the economy, and consequences for communities and social institutions.

Pre/Corequisite(s): Any 100w

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 157 - Deviance and Justice

3 unit(s)

This course examines various areas of norm violations and rule-breaking behaviors including, alcohol and drug use/abuse, criminal violence, corporate deviance, gang violence, and sexual deviance, child abuse, hate crime, mental illness, computer piracy and evaluates justice policies.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 158 - The Prison Community

3 unit(s)

Analysis of formal and informal systems of organization and interaction among incarcerated people and staff. Effects of the social structure and external system on the organization of the prison community.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 161 - Introduction to Cybercrime

3 unit(s)

Introduces students to the growing legal, technical, and social issues surrounding crimes committed in cyberspace or assisted by computers. Discusses the nature of cybercrime from an international perspective and how the borderless nature of cybercrime impacts regulation and enforcement.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 171 - Human Rights and Justice

3 unit(s)

Interdisciplinary exploration of human rights instruments, institutions, and notable human rights campaigns. The historical development of human rights and contemporary threats to the realization of fundamental dignity for humans and non-humans will also be explored.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

JS 172 - Human Trafficking and Modern Day Slavery

3 unit(s)

Examines the social, cultural, and historical dimensions of global human trafficking and modern-day slavery, with special attention to the efficacy, effectiveness, and unintended consequences of various anti-trafficking policies from around the world, including the United States.

Pre/Corequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

Sustainability Focused - SDG 8: Decent Work and Economic Growth

JS 173 - Advancing Human Rights Through Diversity, Equity and Inclusion

3 unit(s)

Examination of approaches to put theory into practice to leverage the concepts of diversity, equity and inclusion to advance human rights at the institutional, organizational and societal level. Exploration of policy and practice solutions from across the world to advance anti-racism and more just societies.

Prerequisite(s): JS 100W with a grade of "C" or better.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 174 - Reproductive Justice

3 unit(s)

Draws on various theoretical and analytic tools to examine the ways that reproduction is entangled with broader justice issues such as racism, sexism, immigration, incarceration, medicine, civil rights, political economy, population control, and environmentalism.

Prerequisite(s): Any 100W.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better to fulfill Justice Studies major requirements.

JS 179 - Human Rights Practicum and Seminar

3 unit(s)

Complete field experience in human rights advocacy/reporting/organizing while surveying recent human rights scholarship in seminar format.

Prerequisite(s): JS 25, any 100W.

Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

JS 180 - Individual Studies

1-3 unit(s)

Individual work on special topics by arrangement.

Prerequisite(s): Upper division standing. Not available to Open University Students.

Grading: Credit/No Credit

JS 181 - Internship: Justice Studies

1-6 unit(s)

The internship is designed to provide broad exposure to the requirements and operations of a variety of agencies and organizations that range from a criminal justice to social justice focus, including courts, law enforcement agencies, law offices, nonprofit organizations and community-based programs.

Course is repeatable for up to 6 units.

Prerequisite(s): Upper division standing; Justice Studies or Forensic Science major; JS 100W with a "C" or

better; 2.0 GPA; Department Consent, No Open University.

Grading: Credit/No Credit

Note(s): Students can take up to 3 additional units as JS electives.

JS 182 - Themis: Journal of Justice Studies and Forensic Science

3 unit(s)

Themis is a student-run, professional-quality academic journal, publishing original SJSU student research in a broad range of justice-related and forensic science topics. Associate and managing student editors critically evaluate and select journal submissions and work with authors throughout the editing process. Each volume is published in hardcopy and online at Scholarworks at the end of spring semester.

Course may be repeated for up to 6 units with major advisor approval.

Prerequisite(s): Completion of any 100W, approval of managing editor(s) and/or faculty advisor.

Grading: Credit/No Credit

Note(s): Offered spring semester only

JS 183 - Ethics in Criminal Justice

3 unit(s)

In-depth examination of ethical issues in policing, forensic science, and the judicial system. Rhetorical and critical analyses of opposing arguments in justice studies from a variety of ethical perspectives.

Prerequisite(s): JS 10, JS 25 or FS 11 or equivalent.

Pre/Corequisite(s): JS 100W or approved substitute.

Grading: Letter Graded.

JS 184 - Directed Reading

1-3 unit(s)

Designed to meet individual needs and interests.

Prerequisite(s): Upper division standing. Not available to Open University Students.

Grading: Credit/No Credit

JS 185 - Special Topics in Law and Justice

3 unit(s)

Range of law and justice issues and topics may be addressed. Content varies by semester. Topics may include international law and globalization, the struggle for justice, human rights, law, inequality and injustice, and others. May be repeated for credit when content changes for a maximum of 9 units.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

JS 185ITL - Justice Studies International Experience

1-9 unit(s)

The goal of this course is to gain insight into systems of criminal and social justice outside of the U.S. Issues of justice are explored, and the role of the student as a global citizen is emphasized. Includes international experiential component through study abroad.

Course may be repeated for credit for up to 9 units.

Grading: Letter Graded

JS 189 - Senior Seminar: Contemporary Problems

3 unit(s)

Identification, discussion and analysis of selected problems in justice studies. A major term paper on a selected topic is required.

Prerequisite(s): Senior standing in final semester; Justice Studies or Forensic Science major; FS 100W or JS 100W and JS 114 with a "C" or better; Department Consent.

Grading: Letter Graded

Note(s): Must achieve a grade of "C" or better is required for Justice Studies majors.

JS 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

JS 201 - Justice and Social Theory

3 unit(s)

Examines classic and contemporary theories of justice, including legal, social, economic and criminal justice and their application to current social issues.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Sustainability Focused - SDG 10: Reduced Inequalities

JS 202 - Survey of Research Methods

3 unit(s)

Examination of research methods applied to solving problems and resolving issues in justice-related agencies, organizations and processes. Focuses on the application of the scientific method to problem-solving and program evaluation.

Prerequisite(s): STAT 95 or equivalent, JS 114 or equivalent, and graduate standing

Grading: Letter Graded

JS 203 - Seminar in Applied Statistics in Justice

3 unit(s)

An evaluation of specific statistical methods for quantitative and nonquantitative analyses, concentrating on applications and interpretations in justice related settings.

Prerequisite(s): STAT 95 or equivalent, JS 114 or equivalent, and graduate standing

Grading: Letter Graded

JS 204 - Justice Organizations, Ethics & Change

3 unit(s)

An examination of significant organization and management theories, behavioral processes, and organizational change and development.

Prerequisite(s): JS 201 and graduate standing

Grading: Letter Graded

JS 205 - Seminar in Law and Courts

3 unit(s)

Roles of the law in society. Analysis and critique of courts, attorneys, judges and juries; dispute resolution; race, class, sex inequality; law's symbolic functions and unintended consequences; new socio-legal research; and comparative perspectives.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

JS 206 - Seminar in Juvenile Justice

3 unit(s)

Analysis of philosophy, theories, relevant law, research, constitutional issues related to juvenile justice. Structure and purpose of juvenile court proceedings. Minors in criminal and civil court, juvenile corrections, death penalty for juveniles, transfers to adult court, child victims, fetal abuse.

Grading: Letter Graded

JS 207 - Seminar in Qualitative Research Methods

3 unit(s)

Qualitative research methods used in Justice Studies. Includes relationship of empirical evidence to theory, ethics in conducting empirical research, methodological design, interviewing techniques, field methods,

participant observation, and content analysis.

Prerequisite(s): Graduate standing; or instructor permission.

Grading: Letter Graded

JS 208 - Seminar: Punishment & Society

3 unit(s)

Examination of a range of penal ideas and practices; includes historical analysis of punishment, overview of theoretical perspectives and empirical social science research on punishment and alternative sanctions and implications for contemporary penal policy.

Grading: Letter Graded

JS 209 - Seminar in Police and Social Control

3 unit(s)

Critical examination of democratic policing, including internal and external strategies for control and reform. Emphasis on police role in democracy, policy, culture, performance measures for individuals and organizations, and alternative policing methods and policies.

Grading: Letter Graded

JS 211 - Historical Issues in Justice Studies

3 unit(s)

Equips students to do historical research, understand the significance of historical perspectives for contemporary issues, and explore the place of historical obligations and entitlements in theories of justice.

Prerequisite(s): JS 201 and graduate standing

Grading: Letter Graded

JS 212 - Local & Global Perspectives on Human Rights

3 unit(s)

This course is a graduate level exploration of contemporary human rights scholarship and praxis in the United States and in relation to U.S. domestic and foreign policy.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

JS 213 - Seminar in Cybercrime

3 unit(s)

Exploration of the historical and evolving legal, technical, and social issues surrounding crimes committed in cyberspace or aided by technology. Examination of how the borderless nature of cybercrime impacts regulation and enforcement internationally.

Grading: Letter graded.

JS 214 - Seminar: Social Movement, Community Organizing, and Social Justice

3 unit(s)

This course is an exploration of social movement praxis. The class investigates community organizing broadly and discusses the idea of social justice, specifically how it relates to establishing human rights in our communities through the active participation of informed citizens.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

JS 218 - Seminar: Immigration, Law & Justice

3 unit(s)

Graduate level interdisciplinary analysis of the cultural, political and socioeconomic implications of contemporary migratory movements and immigration control policies in the United States, with particular emphasis on notions of international human rights and global justice.

Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

JS 220 - Seminar: Criminological Theory

3 unit(s)

A critical review of classical and contemporary theories and research in criminology. Evaluation of contemporary criminal justice and its relationship to theories of criminal behavior.

Grading: Letter Graded

JS 221 - Seminar: Deviance & Social Control

3 unit(s)

This course examines various areas of norm violations and rule-breaking behaviors including, alcohol and drug use/abuse, criminal violence, corporate deviance, gang violence, and sexual deviance, child abuse, hate crime, mental illness, computer piracy and evaluates justice policies.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

JS 223 - Seminar: Comparative Criminology & Criminal Justice

3 unit(s)

This course provides a comparative perspective on crime, violence and punishment in contemporary global societies. The course analyzes transnational trends in crime, as well as organizational responses to criminality. Topics include international drug markets, sexual commerce, child soldiers, and terrorism.

Prerequisite(s): Graduate Standing

Grading: Letter Graded

JS 224 - Seminar in Reproductive Justice

3 unit(s)

Interdisciplinary exploration of the issues included in the umbrella of the Reproductive Justice framework, including an examination of institutions, laws and policies, historical accounts of these issues, and contemporary threats to reproductive justice.

Grading: Letter graded.

JS 265 - Comparative Criminal Justice Systems

3 unit(s)

Theory-based comparative analysis of US criminal justice system with criminal justice systems around the world. Course focuses on legal traditions, policing, courts and corrections, with emphasis on the role of geographical, historical and cultural traditions in shaping criminal justice.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

JS 266 - Applied Research Methods and Statistics

3 unit(s)

This course introduces research concepts, methodology, design, qualitative and quantitative data analysis, interpretation, and SPSS use for understanding crime and evaluating criminal justice issues, policies, and agency practices.

Prerequisite(s): JS 114 or equivalent

Grading: Letter Graded

JS 267 - Crime and Gender Around the World

3 unit(s)

This course is designed to examine the growing body of literature that deals with women's experiences about crime and justice to understand the impact of gendered relations on criminal behavior and justice outcomes.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

JS 268 - Immigration and International Law

3 unit(s)

This online course provides an overview of the United States legislation and policy relating to immigration and explores the opportunities and challenges facing policy-makers in the context of domestic law and policy, as well as global norms and regimes.

Grading: Letter Graded

JS 269 - Cyber Forensics

3 unit(s)

This online course teaches procedures for identification, preservation and extraction of electronic evidence. Public and private sector responses to cyber security issues in national and international contexts are discussed.

Grading: Letter Graded

JS 270A - Global Terrorism

3 unit(s)

This online course examines terrorism and the role it plays in today's complex world as well as the theory and practice of international terrorism.

Grading: Letter Graded

JS 271 - International Human Rights

3 unit(s)

This online course focuses on the politics and history of the conception, protection, and violation of human rights in global perspectives as well as the examination of the practical applications of the theory.

Grading: Letter Graded

JS 272 - Policing in Global Contexts

3 unit(s)

This online course examines policing from a global perspective. The objective of this course is to orient students as to how police organizations operate in different parts of the world in terms organization, crime control, and crime prevention.

Grading: Letter Graded

JS 273 - International Criminology and Juvenile Delinquency

3 unit(s)

This online course will examine: (1) issues fundamental to criminological and juvenile delinquency research and practical applications; (2) the current and emerging national/international crime and delinquency issues; and (3) criminal and juvenile justice policies adopted by different countries.

Grading: Letter Graded

JS 274 - Applied Project

3 unit(s)

For this project, a substantial paper of a justice agency program, justice policy, and/or organizational issue is required. The contents will be determined by the student in consultation with the instructor, with whom the student meets regularly for supervision.

Grading: Credit/No Credit/Incomplete.

JS 281 - Justice Practicum

1-3 unit(s)

Supervised placement in a justice organization or agency in a position emphasizing analytical and research skills and/or managerial responsibilities. Culminating research or policy paper required.

Prerequisite(s): Graduate standing and graduate coordinator consent.

Grading: Credit/No Credit

JS 288 - Seminar in Special Topics

3 unit(s)

In-depth exploration and analysis of selected justice-related topic. Course will consider relevant theories, issues, and research on the selected topic.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

JS 297 - Program Evaluation Project

3 unit(s)

A substantial paper/mock evaluation of a justice agency program, justice policy, or organizational issue.

Prerequisite(s): JS 201, JS 202, and JS 203. Not available to Open University students.

Grading: Credit/No Credit/RP.

JS 298 - Special Study

1-3 unit(s)

Advanced individual research not covered in a regular course and not related to the project or the thesis topic.

Course may be repeated for credit for up to 18 units.

Prerequisite(s): Instructor and Grad Coordinator permission. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

JS 299 - Master's Thesis

3-6 unit(s)

Six units are required to complete the thesis and oral defense of the thesis. Required for Plan A. Must be repeated for a total of 6 semester units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Advancement to candidacy for the MS degree and thesis chair consent. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

JS 1290R - Thesis/Project Supervision

1 unit(s)

Continued work on thesis or project.

Course may be repeated for credit for up to 2 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in a project or thesis class

Grading: Mandatory Credit/No Credit/RP

Kinesiology

KIN 68 - Visual Representations of Sport in Popular Culture

3 unit(s)

Critical examination of visual representations of sport in popular culture. Facilitate a deeper understanding and appreciation of the artistic qualities that exemplify works of human creativity as related to sport.

Satisfies C1: Arts.

Grading: Letter Graded

KIN 69 - Stress Management: A Multidisciplinary Perspective

3 unit(s)

The stress process and its relation to health, disease, lifestyle, and the sociocultural environment. Physiological, psychological, sociological, and environmental parameters of stress across the lifespan, emphasizing university resources and stress management strategies to enhance academic, personal, and social development.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

Sustainability Focused - SDG 3: Good Health and Well-Being

KIN 70 - Introduction to Kinesiology

3 unit(s)

Explores the broad spectrum of kinesiology as an academic discipline, fundamental concepts and meaning of movement/physical activity, diversity of humans as moving beings, professional/career options, current issues, personal characteristics/professional responsibilities, Kinesiology at SJSU; initiates professional portfolio.

Misc/Lab: Lecture 2 hours/activity 2 hours.

Grading: Letter Graded

Note(s): Required for KIN majors and minors only.

KIN 80 - Individual Activity Program Studies

1 unit(s)

Through engagement in projects, assistance with teaching, and/or independent study related to a class in the Kinesiology physical activity program, further develops sport/fitness skills and knowledge.

Activity 2 hours.

Repeatable 3 times for a total of 3 units.

Prerequisite(s): Instructor consent and overall GPA of 2.0

Grading: Credit/No Credit

KIN 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Satisfies PE: Physical Education

Grading: Mixed Grading

KIN 100W - Writing Workshop

3 unit(s)

Advanced skills in writing. Development of writing style and creation of organized, persuasive and analytical prose. Generalized and specialized forms of writing.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): KIN 70 for major/minors only or instructor consent. A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, and upper division standing. Allowed Declared Major/Minor: Kinesiology. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

KIN 101 - Sport in America

3 unit(s)

The role of sport (recreational and professional) as a social, political and economic institution in American society. Critical examination of contemporary issues affecting sport and sport involvement by diverse cultural groups within American society.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): Not open to Kinesiology majors for major/minor credit.

KIN 105 - Water Safety Instructor's Course

2 unit(s)

Designed to teach the basic concepts, skills and knowledge for successful teaching in the American Red Cross aquatics program. The content and requirements are in accordance with the American Red Cross and the criterion set forth by the organization.

Misc/Lab: Lecture 1 hour/activity 2 hours.

Prerequisite(s): Minimum age of 18.

Grading: Letter Graded

KIN 106 - Advanced SCUBA and Aquatic Technology

3 unit(s)

Underwater navigation, light salvage, searches, biological sampling, communications, weightless simulations, construction problem solving and lighting.

Misc/Lab: Lecture 1 hour/activity 4 hours.

Satisfies PE: Physical Education

Prerequisite(s): NAUI SCUBA certification (or equivalent).

Grading: Letter Graded

KIN 107 - Adapted Aquatics

2 unit(s)

Theories, techniques and practices in the instruction of persons with disabilities as they function in the aquatic environment.

Lecture 1 hour/Lab 2 hours.

Prerequisite(s): KIN 70 and KIN 156 for Kinesiology majors/minors only or instructor consent; passage of swim skills component required (must be able to swim 100 yards without stopping) or demonstrated by completing KIN 2A or KIN 105.

Grading: Letter Graded

KIN 108 - Adapted Physical Activity for Young Adults with Disabilities

2 unit(s)

Theories, techniques, and practices in the design of physical activity promotion for postsecondary transition students with disabilities.

Lecture 1 hour/Lab 2 hours.

Prerequisite(s): KIN 70 and KIN 156 for majors/minors only or instructor consent.

Grading: Letter Graded

KIN 111 - Sport & Movement in a Global Context

3 unit(s)

Human expression through sport, games, and movement in cultures outside the US, and how those expressions have changed over time. Exploration of how sporting traditions in cultures outside the US have influenced US culture and society.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

KIN 111ITL - Sport & Movement in a Global Context: International Experience

3 unit(s)

Human expression through sport, games, and movement in cultures outside the U.S. and how those expressions have changed over time. Exploration of how sporting traditions outside the U.S. have influenced US culture and society.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

KIN 145A - Physical Activity for Older Adults

3 unit(s)

Analyses of development and implementation processes of exercise programs for older adults.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): KIN 70 or instructor consent.

Grading: Letter Graded

KIN 146 - Introduction to Exercise Technology

3 unit(s)

Introduction to the topic of exercise technology and how technologies can be used to manage physical activity, monitor health and support pedagogical practices. Exploration of the potential benefits and risks associated with new technologies.

Prerequisite(s): KIN 70; Completion of KIN 100W is strongly recommended.

Grading: Letter graded.

KIN 147 - Biomechanical Assessment of Movement

3 unit(s)

This class is designed to assist the student in becoming familiar and proficient with the Biomechanical methods and equipment for assessing human movement performance characteristics with the following goals: improving movement effectiveness, preventing injuries, and assessing rehabilitation progress.

Misc/Lab: Lecture 3 hours/Lab 9 hours

Prerequisite(s): KIN 158

Grading: Letter Graded

KIN 149 - Child Health and Activity

3 unit(s)

Explores concepts, frameworks, and national standards regarding children's health and physical education using an interdisciplinary curriculum. Special attention is given to factors that influence children's health and wellness, safety and prevention, motor skill development, and lifelong healthy practices.

Prerequisite(s): CHAD 60 or CHAD 70.

Grading: Letter Graded

Cross-listed with CHAD 149. Child and Adolescent Development is responsible for scheduling.

KIN 151 - Sports and Fitness Marketing

3 unit(s)

Course is designed to apply marketing principles and processes to the sport and fitness industry. Content will focus on the sport and fitness product, consumer behavior, consumer satisfaction/dissatisfaction, and the customer experience in sport and fitness organizations.

Prerequisite(s): KIN 70

Grading: Letter Graded

KIN 152 - Theory of Sport and Fitness Management

3 unit(s)

Basic theory of sport management. Topics include sport management and organizational skills; sport marketing and sales; sport communication; sport finance, economics, law and governance.

Prerequisite(s): KIN 70 for majors/minors only or instructor consent.

Grading: Letter Graded

KIN 153 - Sport Facility and Event Management

3 unit(s)

Provide students with the skills necessary to effectively manage sport and fitness facilities and events.

Prerequisite(s): KIN 70; and KIN 152 for sports management specialization. Open only to declared Kinesiology majors/minors, or instructor consent.

Grading: Letter Graded

KIN 154B - ECG Interpretations and "Graded" Exercise Testing

3 unit(s)

Theoretical background and practical proficiency in the methods and instruments of electrocardiogram interpretations and "Graded" exercise testing.

Lecture 2 hours/activity 2 hours.

Prerequisite(s): KIN 70 (or equivalent) for majors/minors only or instructor consent; KIN 70; KIN 155 with grades of 'C-' or better in each.

Grading: Letter Graded

KIN 155 - Exercise Physiology

3 unit(s)

Physiological responses and adaptations of the human organism to physical activity.

Misc/Lab: Lecture 2 hours/activity 2 hours.

Prerequisite(s): KIN 70; BIOL 66 and CHEM 30A with a grade of 'C-' or better in each; approved GE Math Concept course. Open only to declared KIN majors/minors, or instructor consent.

Grading: Letter Graded

KIN 156 - Introduction to Adapted Physical Activity

3 unit(s)

Focus on attitude change as well as knowledge, comprehension and application of human movement principles related to individuals with disabling conditions.

Lecture 2 hours/Lab 2 hours.

Prerequisite(s): KIN 70 for majors/minors only or instructor consent.

Grading: Letter Graded

KIN 157 - Physiological Assessment

3 unit(s)

Use of exercise physiology instrumentation to assess physiological characteristics of human performance, interpret results, and implement corrective strategies, when appropriate.

Lecture 3 hours/Lab 6 hours.

Prerequisite(s): CHEM 30A, GE Area B4, BIOL 66, KIN 70 (C- or better grade), KIN 155 (C- or better grade)

Grading: Letter Graded.

KIN 158 - Biomechanics

3 unit(s)

Relationship of structural and mechanical principles of the musculoskeletal system to the analysis of human performance.

Misc/Lab: Lecture 2 hours/activity 2 hours.

Prerequisite(s): KIN 70; BIOL 65 with a grade of 'C-' or better; approved GE Math Concept Course. Open only to declared KIN majors/minors, or instructor consent.

Grading: Letter Graded

KIN 159 - Sport and Adapted Activities

3 unit(s)

Principles of kinesiology for adapting sport and activity for individuals with disabling conditions.

Lecture 2 hours/Lab 2 hours.

Prerequisite(s): KIN 70 for majors/minors only or instructor consent.

Grading: Letter Graded

KIN 160 - History of Sport and Physical Education

3 unit(s)

Historical survey of physical education and sport from primitive societies through classical and medieval periods to the nineteenth and twentieth centuries. Development of sport, physical education and recreation in the U.S. and factors affecting their growth.

Prerequisite(s): KIN 70 for majors/minors only or instructor consent.

Grading: Letter Graded

KIN 161 - Philosophical Perspectives of Sport

3 unit(s)

Emphasis on systems of philosophy, aesthetic and moral considerations, metaphysical fitness and contemporary issues. Review of leading human movement theorists.

Prerequisite(s): KIN 70 for majors/minors only or instructor consent.

Grading: Letter Graded

KIN 162 - Advanced Fitness Assessment and Exercise Prescription

3 unit(s)

In-depth study and analysis of the principles and techniques used in the assessment of physical fitness and health as well as the design of conditioning programs and physical activities.

Misc/Lab: Lecture 2 hours/Activity 2 hours.

Prerequisite(s): KIN 70 (or equivalent) for majors/minors only and KIN 155, or instructor consent. Grade of 'C-' or better in KIN 70 and KIN 155.

Grading: Letter Graded

KIN 163 - Science of Physical Fitness and Nutrition

3 unit(s)

Use of scientific principles, scientific investigation, and current technological advances to assess the relationship between diet, physical fitness, and disease. Examine scientific literature to evaluate the effects of nutritional intervention on exercise performance.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Cross-listed with NUFS 163. Nutrition, Food Science and Packaging is responsible for scheduling.

KIN 164 - Sociocultural Perspectives

3 unit(s)

Sociocultural processes of sport and play in contemporary society. The study of phenomena arising out of group relations within the realm of kinesiology.

Prerequisite(s): KIN 70 for Kinesiology majors/minors or Sports Journalism minors or instructor consent or lower division social science core GE.

Grading: Letter Graded

KIN 165 - Motor Development

3 unit(s)

Motor development of the individual from birth to maturity. Emphasis upon motor behavior, needs, capacities and interests.

Prerequisite(s): KIN 70 for majors/minors only or instructor consent.

Grading: Letter Graded

KIN 166 - Motor Learning

3 unit(s)

Concepts, principles and theories of motor learning with application to physical activities.

Misc/Lab: Lecture 2 hours/lab 2 hours.

Prerequisite(s): KIN 70 for majors/minors only or instructor consent; BIOL 66 with a grade of 'C-' or better.

Grading: Letter Graded

KIN 167 - Sports Psychology

3 unit(s)

Psychological aspects of sports, including the value of sports, psychological factors involved in competitive as well as non-competitive athletic activities and the role of sports psychologists.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

Cross-listed with PSYC 167. Kinesiology is responsible for scheduling.

KIN 168 - Psychology of Coaching

3 unit(s)

Social, clinical, child, measuring, industrial, personality and organizational psychology and the practical application of the material to coaching.

Prerequisite(s): KIN 70 for majors/minors only or instructor consent.

Grading: Letter Graded

KIN 169 - Diversity, Stress and Health

3 unit(s)

Impact of structured inequalities on stress and health of diverse populations. Analysis of physiological/psychosocial health factors related to diversity, as well as behavioral interventions and social actions that mediate stress and optimize health and social justice.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with PH 169. Kinesiology is responsible for scheduling.

Sustainability Focused - SDG 3: Good Health and Well-Being

KIN 170D - Fieldwork in Sport Management

1-3 unit(s)

Practical experience in a professional work setting while working and observing 100 hours under direct supervision of qualified sport management professionals. Interns assigned a variety of duties and experiences.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): KIN 70, KIN 152, and upper division standing.

Grading: Credit/No Credit

KIN 170E - Field Experience Coaching on Campus

2 unit(s)

Practical experience in on-campus programs for coaching minors. May be repeated once for credit.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): KIN 70 for majors/minors only or instructor consent.

Grading: Credit/No Credit

KIN 172 - Elementary School Programs, K-6

3 unit(s)

Examines current practices for managing student behaviors, instructional technology, legal regulations, and physical fitness needs as well as exploring adolescent development.

Lecture 2 hours/Activity 2 hours.

Prerequisite(s): KIN 70; KIN 165 or KIN 173. Open only to declared KIN majors/minors or instructor consent.

Grading: Letter Graded.

KIN 173 - Introduction to Teaching Physical Education and Non-Traditional Sports

3 unit(s)

Introduce future physical educators to the teaching profession in today's schools. Includes personal exploration, philosophy of teaching, ethics, standards for the teaching profession, legal and business aspects, current issues and trends, development of learning communities, and observation of effective teaching.

Lecture 3 hours/Lab 3 hours.

Prerequisite(s): KIN 70 for majors/minors only, instructor consent or concurrent enrollment.

Grading: Letter Graded.

KIN 174 - Assessment of Psychomotor Function

3 unit(s)

Basic procedural elements of informal observation, formal performance testing and direct measures of psychomotor function of individuals with disabling conditions.

Lecture 2 hours/Lab 2 hours.

Prerequisite(s): KIN 70 and KIN 156; Open only to declared KIN majors/minors or instructor consent.

Grading: Letter Graded

KIN 175 - Measurement and Evaluation in Kinesiology

3 unit(s)

Designed to develop an understanding of measurement and evaluation concepts and application relevant to assessment in the psychomotor, cognitive and affective domains. Activities include collection and computer analysis of data.

Misc/Lab: Lecture/activity 4 hours.

Prerequisite(s): KIN 70 for majors/minors only or instructor consent; approved GE Math Concept Course.

Grading: Letter Graded

KIN 176 - Exercise Psychology

3 unit(s)

Examines the psychological determinants and consequences of exercise and physical activity. Analysis and

critique of research and theory relevant to exercise adherence, motivation, self-efficacy, and attributional style. Practical applications of theoretical concepts.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

KIN 178 - Management Practices for Physical Education Teachers

3 unit(s)

Examines current practices for managing student behaviors, instructional technology, legal regulations, and physical fitness needs as well as exploring adolescent development.

Lecture 2 hours/lab 2 hours.

Prerequisite(s): KIN 70 for Kinesiology majors/minors only or instructor consent; KIN 156; KIN 172; and upper division standing.

Grading: Letter Graded.

KIN 179 - Design and Assessment of Movement Experiences

3 unit(s)

Integrate concepts from kinesiology, motor learning, and motor development to address sequential movement experiences, including qualitative analysis and interactions with a performer.

Lecture 2 hours/Activity 2 hours.

Prerequisite(s): KIN 70 for Kinesiology majors/minors only or instructor consent; KIN 158, KIN 166 and KIN 178.

Grading: Letter Graded.

KIN 180 - Independent Study

1-6 unit(s)

Independent study through projects or directed reading related to the field of Kinesiology. Repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): GPA overall of 2.0; KIN 70 or instructor consent

Grading: Mandatory Credit/No Credit/RP

KIN 184 - Directed Reading

1-4 unit(s)

Assigned reading of selected books, journals and papers. Conferences with instructor, seminars, reports (oral and written). May be repeated for a total of 4 units.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): KIN 70 for majors/minors only for; instructor and department chair consent.

Grading: Credit/No Credit

KIN 185 - Senior Seminar

1 unit(s)

Active learning capstone course designed to synthesize students' undergraduate preparation, including internship experiences. Capstone course designed to integrate and synthesize students' knowledge and skills gained in their undergraduate preparation through active participation in the class and reflection on the internship experience; requires completion of a professional portfolio and a movement project

Prerequisite(s): KIN 70, Kin Majors ONLY, KIN Minors

Grading: Letter Graded

KIN 187 - Clinical Exercise Physiology

3 unit(s)

Physiological principles applied to the prevention, management, and treatment of chronic health conditions. Focus on the pathophysiology, acute response to exercise, chronic training effects, and development of appropriate conditioning and training programs for chronic conditions.

Prerequisite(s): KIN 70 (or equivalent) for majors/minors only or instructor consent; KIN 155; with grades of 'C-' or better in each.

Grading: Letter Graded

KIN 188 - Prevention and Care of Athletic Injuries

2 unit(s)

Prevention through safe equipment, facilities and protective strapping. Methods used to aid recovery.

Misc/Lab: Lecture/activity 4 hours.

Prerequisite(s): KIN 70, BIOL 65 with a grade of 'C-' or better, or instructor consent.

Grading: Letter Graded

KIN 189 - Prevention and Care of Athletic Injuries Laboratory

1 unit(s)

The laboratory course is designed to provide hands-on experience in the prevention and care of athletic injuries, including preventive and supportive taping techniques, emergency management, and various hands-on experiences related to the prevention of activity related injuries.

Prerequisite(s): KIN 70, KIN 188 (concurrent enrollment acceptable).

Grading: Letter Graded

KIN 191A - Advanced Assessment of Lower Extremity Injuries

3 unit(s)

An advanced course designed to develop knowledge and skills in recognition, assessment, and medical referral of athletic injuries to the lower extremity, thoracolumbar spine, posture and gait. Activity sessions are designed to assist in the development of clinical assessment skills.

Lecture 3 hours/Lab 3 hours.

Prerequisite(s): KIN 70, KIN 188, KIN 189. Open only to declared KIN majors/minors or instructor consent.
Grading: Letter Graded.

KIN 191B - Advanced Assessment of Upper Extremity Injuries

3 unit(s)

An advanced course designed to develop knowledge and skills in recognition, assessment, and medical referral of athletic injuries to the upper extremity, abdomen, thorax, cervical spine, head, and general medical conditions. Activity sessions are designed to develop clinical assessment skills.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): KIN 70; KIN 191A.

Grading: Letter Graded

KIN 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

KIN 193 - Organization & Administration in Athletic Training

2 unit(s)

Theoretical and practical information concerning organization and administration of a modern athletic training program, including managerial styles, personnel, facilities/equipment management, budget, medical records, insurance issues, legal aspects, public relations, and other current topics in athletic training.

Prerequisite(s): KIN 70 for majors/minors only or instructor consent; KIN 188.

Grading: Letter Graded

KIN 194 - Therapeutic Exercise

3 unit(s)

Theoretical and clinical bases for the use of therapeutic exercise in rehabilitation settings; basic biomechanics, indications, contraindications, and proper application procedures of therapeutic exercise in athletic injury rehabilitation.

Misc/Lab: Lecture 2 hours/activity 2 hours.

Pre/Corequisite(s): KIN 191A and KIN 191B.

Grading: Letter Graded

KIN 195 - Therapeutic Modalities

3 unit(s)

Theoretical and clinical aspects of therapeutic modalities in athletic rehabilitation. Includes the physics and physiological effects, indications and contra-indications, as well as application procedures of various therapeutic modalities.

Misc/Lab: Lecture 2 hours/activity 2 hours.

Prerequisite(s): KIN 70 for majors/minors only or instructor consent. KIN 188 and upper division standing.

Grading: Letter Graded

KIN 197A - Practicum in Athletic Training I

1 unit(s)

Introductory level supervised practical experiences at selected athletic training clinical settings.

Repeatable for credit.

Prerequisite(s): BIOL 65 and BIOL 66 with a grade of 'C' in each, KIN 188, KIN 189 and 50 hours of observation. Open only to KIN majors.

Grading: Credit/No Credit

KIN 197B - Practicum in Athletic Training II

1 unit(s)

Observations and experiences within the profession of athletic training to assist in developing required National Athletic Trainers' Association competencies. Interns supervised on a daily basis by a NATA-certified athletic trainer.

Repeatable for credit.

Prerequisite(s): KIN 197A. Open only to KIN majors.

Grading: Credit/No Credit

KIN 197C - Practicum in Athletic Training III

1 unit(s)

Clinical internship in allied health-related situations, e.g., physician's offices, physical therapy sports medicine clinics, etc. Typically off-campus assignment.

Repeatable for credit.

Prerequisite(s): KIN 191A and KIN 191B (concurrent enrollment in KIN 191B is allowed), KIN 197B and professional insurance recommended.

Grading: Credit/No Credit

KIN 197D - Practicum in Athletic Training IV

1 unit(s)

Course is designed to provide the student with advanced, diverse, supervised, and practical experiences in the athletic training profession. Selected on-an-off campus clinical settings will be used to assist the student in the development of professional competencies and proficiencies.

Repeatable for credit.

Prerequisite(s): KIN 195, KIN 197C.

Grading: Credit/No Credit

KIN 198 - Internship in Kinesiology

1-6 unit(s)

Practical professional experiences related to the field of Kinesiology. Experiences are varied and can include exercise testing, prescription and evaluation; program leadership, design, and/or administration; coaching; and sport medicine internships. May be repeated for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Upper division status;GPA overall of 2.0; KIN 70 or instructor consent

Grading: Mandatory Credit/No Credit/RP

KIN 250 - Fundamentals of Quantitative Research

3 unit(s)

Design, analysis and interpretation of quantitative research. Course focuses on the research process from the formulation of a research problem through the analysis of data. Topics include: ethics in research, research design and analysis issues and techniques, psychometrics, descriptive statistics, parametric and non-parametric inferential statistics, critiquing research.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): KIN 175 (or equivalent).

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

KIN 251 - Fundamentals of Qualitative Research

3 unit(s)

Design, analysis and interpretation of qualitative research. Course focuses on the research process from the formulation of a research problem through the analysis of data. Topics include: ethics in research, research design and analysis issues and techniques, data representation, critiquing research.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

KIN 255 - Advanced Exercise Physiology

3 unit(s)

Survey and critical evaluation of current concepts and literature regarding physiological regulatory mechanisms of the oxygen transport system and muscle metabolism. Acute and chronic effects of exercise

with emphasis placed on physiological limitations.

Prerequisite(s): KIN 155 (or equivalent).

Grading: Letter Graded

KIN 256 - Environmental Exercise Physiology

3 unit(s)

Survey and critical evaluation of current concepts and literature regarding various environmental (heat, cold, altitude, etc.) conditions as they affect the typical responses to exercise. Acute effects and chronic adaptations examined.

Prerequisite(s): KIN 155 (or equivalent).

Grading: Letter Graded

KIN 257 - Biomechanics

3 unit(s)

Principles and laws of physics and mechanics as applied to analysis of human movement activities. Critical evaluation of current research findings in sport biomechanics.

Prerequisite(s): KIN 158 (or equivalent).

Grading: Letter Graded

KIN 259 - Advanced Internship in Adapted Physical Activity

1-3 unit(s)

Advanced, supervised practicum for the development of direct service, administration/supervision, in-service training and advocacy/leadership competencies in adapted physical activity.

Prerequisite(s): BS degree with emphasis in adapted physical education and/or satisfactory completion of specified didactic curriculum.

Grading: Credit/No Credit

KIN 260 - Philosophy of Sport and Embodiment

3 unit(s)

Development of a consistent set of basic professional values compatible with individual differences which may serve as a frame of reference for professional behavior.

Prerequisite(s): KIN 161 (or equivalent).

Grading: Letter Graded

KIN 263 - International Sport and Physical Education

3 unit(s)

An analysis of the current structure, organization, and methods of physical education and sport in selected countries. Social, cultural, political, economic, and religious influences in western and non-western cultures will be explored by both national and topical methods of study.

Grading: Letter Graded

KIN 264 - Sport Sociology

3 unit(s)

An in-depth study of the relationship between sport and society. Focus will be on social and cultural factors that affect how Americans play and view sport.

Prerequisite(s): KIN 164 (or equivalent).

Grading: Letter Graded

KIN 265 - Advanced Motor Development

3 unit(s)

Examination of specific theory and research related to the movement changes that occur across the lifespan. Interpretation of recent related research and individually guided investigation of a specific area of concern in motor development.

Prerequisite(s): KIN 165 (or equivalent).

Grading: Letter Graded

KIN 266 - Principles and Concepts of Perceptual Motor Learning

3 unit(s)

Motor behavior and the learning patterns developed in acquiring skill in a motor activity.

Prerequisite(s): KIN 166 (or equivalent).

Grading: Letter Graded

KIN 267 - Advanced Sport Psychology

3 unit(s)

Sport psychology research and its use in field settings. Major theoretical areas (anxiety, motivation, cohesion, etc.) and their application in sport.

Prerequisite(s): KIN 167 and KIN 168 (or equivalent).

Grading: Letter Graded

KIN 268 - Evidence Based Research and Practice in Management and Assessment of Injuries to Lower Extremities

2 unit(s)

Multidisciplinary approach for recognition, initial care, treatment, and rehabilitation used to return athletes to lower extremity pre-injury fitness levels. (First course in two-course series.)

Prerequisite(s): BIOL 65, BIOL 66, KIN 155, KIN 158 and KIN 188.

Grading: Letter Graded

KIN 269 - Evidence Based Research and Practice in the Mgmt and Assessment of Injuries to the Upper Extremity

2 *unit(s)*

Multidisciplinary approach for recognition, initial care, treatment and rehabilitation used to return an athlete to upper extremity pre-injury fitness levels (second course in two-course series).

Prerequisite(s): KIN 268.

Grading: Letter Graded

KIN 271 - Advanced Topics in Athletic Training

3 *unit(s)*

This course is designed to improve the basic knowledge of athletic training students. Topics include outcome research and practical applications for mild traumatic brain injury, alteration evaluation skills for athletic injuries, and research design in the field of athletic training.

Grading: Letter Graded

KIN 272 - Evidence Based Research in the Practice of Therapeutic Exercise

3 *unit(s)*

Investigation of the scientific and philosophical bases of therapeutic exercise and therapeutic modalities with reference to the rehabilitation process, and to acquire skills necessary for prudent application of current modalities and techniques.

Prerequisite(s): KIN 155, KIN 158 and KIN 188 (or equivalent).

Grading: Letter Graded

KIN 273 - Evidence Based Research in the Practice of Therapeutic Modalities

2 *unit(s)*

An advanced course designed to critically evaluate the scientific and philosophical bases of therapeutic modality use. The course is intended to provide the student with the information necessary to perform prudent clinical applications of therapeutic modalities on orthopedic injuries.

Grading: Letter Graded

KIN 276 - Advanced Exercise Psychology

3 *unit(s)*

Psychological issues associated with exercise and physical activity. Analysis and critique of research and theory relevant to exercise adherence, motivation, self-efficacy, and attributional style. Evaluation of practical implications related to diversity, equity, and inclusion in the exercise context.

Prerequisite(s): KIN 176 (or equivalent) recommended.

Grading: Letter graded.

KIN 280 - Advanced Fieldwork in Sport Management

1-3 *unit(s)*

Advanced practical experience in a professional work setting under the direct supervision of qualified sport

management professionals. Interns assigned a variety of duties and experiences.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Credit/No Credit

KIN 281 - Legal and Ethical Aspects of Sport

3 unit(s)

Topics include sport and its relationship to the common law of contracts and torts, the statutory law of labor and antitrust, constitutional and civil rights law, communications law and ethics.

Prerequisite(s): Graduate standing

Grading: Letter Graded

KIN 282 - Marketing and Social Aspects of Sport

3 unit(s)

Sport and its relationship to market research designs, strategies, plans, fundraising, consumer behavior, political, sociological and historical parameters.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

KIN 283 - Management, Leadership and Communication in Sport

3 unit(s)

Management, administration, organizational behavior and communication theories, problems and issues in leadership in sport.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

KIN 284 - Financial Aspects of Sport

3 unit(s)

Examines traditional and innovative methods of revenue acquisition available to sport organizations. Current financial challenges, innovative concepts and strategies used in financing sport operation.

Prerequisite(s): Graduate standing or approval of the instructor.

Grading: Letter Graded

KIN 285 - Internship in Kinesiology

1-3 unit(s)

Advanced practical experience in a professional work setting under direct supervision of qualified professionals. Interns assigned various duties and experiences related to areas of specialization.

Prerequisite(s): Graduate standing and instructor consent.

Grading: Credit/No Credit

KIN 286 - Independent Study

1-3 unit(s)

Independent study through research projects, creative intellectual productions or directed reading/literature review related to the field of Kinesiology. May be repeated for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Graduate Standing

Grading: Credit/No Credit

KIN 287 - Advanced Clinical Exercise Physiology

3 unit(s)

Pathophysiology and recent advances in the diagnosis and treatment of cardiovascular, metabolic, neurologic, and musculoskeletal diseases and disorders, including innovative biotechnological approaches. Content will include physiological mechanisms of these clinical conditions that affect responses to acute exercise and chronic adaptations to exercise training.

Prerequisite(s): KIN 187

Grading: Letter Graded

KIN 289 - Master of Arts Seminar in Kinesiology

3 unit(s)

The purpose of this seminar course is to offer an intensive, comprehensive focus of a specific topic, and/or theme as it relates to the study of kinesiology.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

KIN 292A - Leadership and Administration in Athletic Training

1 unit(s)

Current problems and issues related to the athletic training profession. Topics include professional ethics and competency, medicolegal issues, administration of athletic training programs, stress management and drug testing.

Grading: Letter Graded

KIN 292B - Seminar in Sports Medicine II

2 unit(s)

Current issues related to the athletic training profession. Topics include eating disorders, injury rehabilitation and management. Related topics of medical and scientific nature will be discussed with guest lecturers.

Misc/Lab: Lecture 2 hours/Supervision 1.5 hours

Grading: Letter Graded

KIN 293A - Fieldwork in Athletic Training I

2 unit(s)

Advanced practical experience in athletic training under the direct supervision of qualified sports medicine professionals.

Misc/Lab: Lecture 3 hours/Supervision 1.5 hours.

Grading: Credit/No Credit

KIN 293B - Fieldwork in Athletic Training II

2 unit(s)

Advanced practical experience in athletic training under the direct supervision of qualified sports medicine professionals.

Misc/Lab: Lecture 3 hours/Supervision 1.5 hours.

Prerequisite(s): KIN 293A.

Grading: Credit/No Credit

KIN 293C - Fieldwork in Athletic Training III

2 unit(s)

Advanced practical experience in athletic training under the direct supervision of qualified sports medicine professionals.

Misc/Lab: Lecture 3 hours/Supervision 1.5 hours.

Prerequisite(s): KIN 293A, KIN 293B.

Grading: Credit/No Credit

KIN 293D - Fieldwork in Athletic Training IV

2 unit(s)

Advanced practical experience in athletic training under the direct supervision of qualified sports medicine professionals.

Misc/Lab: Lecture 3 hours/Supervision 1.5 hours.

Prerequisite(s): KIN 293A, KIN 293B and KIN 293C.

Grading: Credit/No Credit

KIN 298 - Special Studies

3 unit(s)

Advanced individual research and projects.

Prerequisite(s): KIN 250.

Grading: Mandatory Credit/No Credit/RP

KIN 299 - Master's Thesis

1-6 unit(s)
Repeatable for credit.

Prerequisite(s): KIN 250 and advancement to candidacy for the master's degree.

Grading: Credit/No Credit/RP.

KNED 184Y - Student Teaching II: Classroom Teaching

4 unit(s)
Minimum 80-120 class periods of classroom, teaching laboratory or field teaching in appropriate single subjects, grades K-12 and related teaching activities and seminar.

Repeatable for credit.

Prerequisite(s): Joint approval of major and Education departments.

Grading: Credit/No Credit

KNED 184Z - Student Teaching III - Classroom Teaching

4 unit(s)
Minimum 80-120 class periods of classroom, teaching laboratory or field teaching in appropriate single subjects, grades K-12 and related teaching activities and seminar.

Repeatable for credit.

Prerequisite(s): Joint approval of major and Education departments.

Grading: Credit/No Credit

Note(s): May be in different subject/school and will be at a different grade level.

KNED 189 - Student Teaching Seminar in Adapted PE

2-5 unit(s)
Minimum 80-120 class periods of classroom, teaching laboratory, or field teaching in supervised experiences in adapted physical education at selected public and private agencies, across grades K-12 as well as related teaching activities and seminar.

Prerequisite(s): KIN 107, KIN 108, KIN 156, KIN 159, and KIN 174. Adapted physical education added authorization (APEAA) candidates only. Candidates concurrently enrolled in teaching credential programs or who have already earned a base credential only.

Grading: Letter Graded

KNED 339 - Instructional Materials and Procedures in Physical Education

3 unit(s)
Application of theories of learning and principles of teaching to the selection of instructional procedures to be used in physical education. Practical experience provided.

Misc/Lab: Lecture/activity 4 hours.

Prerequisite(s): KIN 172 and KIN 179 and department teacher education approval.
Grading: Letter Graded.

Note(s): Physical education majors and minors only.

Latin

LATN 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

LATN 180 - Individual Studies in Latin

1-3 unit(s)

Individual work by arrangement.

Prerequisite(s): Upper Division Standing in Latin and instructor consent.

Grading: Credit/No Credit

Liberal Studies Teacher Prep

LSTP 10 - Chronicles of Education

3 unit(s)

This course uses chronicles, or narratives, to expand traditional views about the sites where education takes place and to articulate the educational forces that shape individuals and societies.

Satisfies C2: Humanities.

Grading: Letter Graded

LSTP 85A - Fieldwork in Humanities A

1 unit(s)

Part of a 3-course series (LSTP 85A, B, C) that provides prospective K-8 teachers to California's public school classrooms with initial exposure to the elementary classroom setting. LSTP 85A combines readings and field experience to familiarize students with the duties and responsibilities that elementary teaching entails. Coursework involves 10 hours of volunteering in a public-school classroom with a credentialed teacher and online assignments.

Grading: Letter Graded

LSTP 85B - Fieldwork in Humanities B

1 unit(s)

Part of a 3-course series (LSTP 85A, B, C) that provides prospective K-8 teachers to California's public school classrooms with initial exposure to the elementary classroom setting. LSTP 85B provides a dual focus on diversity in the classroom and the development of a teaching philosophy. Readings and field experience familiarize students with the various manifestations of diversity (racial, cultural, linguistic, ability) in the classroom and prepare students to create a teaching philosophy that is responsive to the realities of today's diverse classrooms. Coursework involves 10 hours of volunteering in a public-school classroom with a credentialed teacher and online assignments.

Grading: Letter Graded

LSTP 85C - Fieldwork in Humanities C

1 unit(s)

Part of a 3-course series (LSTP 85A, B, C) that provides prospective K-8 teachers to California's public school classrooms with initial exposure to the elementary classroom setting. LSTP 85C focuses on ethnography as a means of gaining a deeper understanding of classroom observations and classroom dynamics. It combines readings on conducting classroom ethnographies with field experience to produce "Ethnographic Snapshots". Coursework involves 10 hours of volunteering in a public-school classroom with a credentialed teacher and online assignments.

Grading: Letter Graded

LSTP 139 - Education and (In)Equality

3 unit(s)

Education and (In)Equality explores the ways in which education cultivates free and empowered individuals that shape democratic egalitarian societies. It also explores the ways education can be used to oppress, dominate, and perpetuate social, economic and political inequalities. SJSU Studies Area: S

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

LSTP 185 - Field Experience in Humanities

3 unit(s)

Supervised field work for liberal studies and humanities majors. Includes weekly meetings to discuss readings and field work experiences and to reflect upon humanities education, multicultural school settings and other nonprofit agencies and organizations that promote the humanities.

Lecture 3 hours/lab 2 hours.

Grading: Credit/No Credit

Linguistics

LING 20 - Nature of Language

3 unit(s)

Introduction to the nature of language as a social institution and practice in observing language structure and use in local speech communities.

Satisfies D: Social Sciences.

Grading: Letter Graded.

LING 21 - Critical Thinking and Language

3 unit(s)

Exploring systems of language and logic in oral and written discourse, with a focus on the role of shared cultural assumptions, language style and the media of presentation in shaping the form and content of argumentation.

Satisfies A3: Critical Thinking and Writing.

Prerequisite(s): Completion of GE Area A2 with a grade of C- or better.

Grading: Letter Graded.

LING 22 - Language across the Lifespan

3 unit(s)

Introduction to what is known about how people successfully learn second languages, with a focus on physiological, psychological, social-cultural and linguistic factors that affect second language acquisition, and on skills and strategies that promote language learning across the lifespan.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

LING 24 - Language Variation in Space, Time, & Culture

3 unit(s)

Exploring the diverse structural patterns and social functions found in English; analyzing the social, cultural, political, historical, and technological factors underlying language change; developing critical thinking and effective argumentation in writing.

Satisfies A3 or D: Critical Thinking and Writing or Social Sciences.

Prerequisite(s): Completion of GE Area A2 with a grade of C- or better.

Grading: Letter Graded.

LING 25 - Languages of the World

3 unit(s)

Explore the diversity of the world's languages through studying major language families, including basic language structure, language change and historical relationships, the sociocultural aspects of language, typological patterns and universals, writing systems and language vitality and endangerment.

Satisfies D: Social Sciences.

Grading: Letter Graded.

LING 26 - Quantitative Reasoning in Linguistic Diversity

3 unit(s)

An introduction to descriptive and inferential statistics, including the visual interpretation and presentation of data about linguistic diversity and related social phenomena like education and immigration. Interpretation of numerical and graphical data to draw inferences about complex social issues.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Mathematics Enrollment Category M-I or M-II; for Categories III and IV, LING 26W is required as a corequisite, unless a GE Area B4 course was previously completed with a grade of C- or better.

Grading: Letter Graded

Note(s): A grade of C- or better is required to satisfy GE Area B4.

LING 26W - Quantitative Reasoning Linguistic Diversity Workshop

1 unit(s)

Support course for LING 26. Provides extra practice and support for students with both concepts and operations related to quantitative reasoning and descriptive statistics.

Corequisite(s): LING 26 required as a corequisite for Math Enrollment Categories M-III and M-IV; recommended for Enrollment Category M-II.

Grading: Letter graded.

LING 92 - International Program Studies

1-9 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

LING 101 - Introduction to Linguistics

3 unit(s)

Scientific study of language. Phonetics, phonology, morphology, syntax, semantics, pragmatics,

sociolinguistics, psycholinguistics, historical linguistics, language universals and typology.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

LING 107 - Patterns of English

3 unit(s)

Description of the sound, word-formation, sentence, semantic and discourse patterns of English. Analysis of contemporary examples of spoken and written English.

Prerequisite(s): Written Communication I (or equivalent).

Grading: Letter Graded

LING 108 - Introduction to Second Language Development, Teaching, and Assessment

3 unit(s)

Theoretical and practical approaches to how people learn first, second, and foreign languages in bilingual and multilingual educational settings. Methods, materials, and assessment of language development for English language learners K-16.

Prerequisite(s): LING 101 or ENGL 103 or LLD 107.

Grading: Letter Graded

LING 111 - Introduction to Linguistic Phonetics

3 unit(s)

Production, recognition and accepted transcription of speech sounds used in languages. Physiological and acoustic analysis of speech.

Prerequisite(s): LING 101 or instructor consent.

Grading: Letter Graded

LING 112 - Introduction to Syntax

3 unit(s)

Introduction to the study of sentence structure: Syntactic constructions; constituent structure; grammatical relations; dependency relations; problems in syntactic analysis; formal systems for describing syntactic structure; typological range of syntactic phenomena.

Prerequisite(s): LING 101.

Grading: Letter Graded

LING 113 - Introduction to Phonology

3 unit(s)

Examination of sound patterns found in the world's languages, their description via traditional phonemic analysis, distinctive feature analysis and rule writing in the format of generative phonology.

Prerequisite(s): LING 101 and LING 111.

Grading: Letter Graded

LING 114 - Introduction to Semantics and Discourse

3 unit(s)

Approaches to meaning, truth conditional semantics, relation of semantics to pragmatics and speech act theory (e.g., presupposition, deixis, adjacency pairs) and text structure (cohesion).

Prerequisite(s): LING 101 or instructor consent.

Grading: Letter Graded

LING 115 - Corpus Linguistics

3 unit(s)

Introduction to the use of large collections of computer-readable text ("corpora") in linguistics. Focus on text processing techniques and quantitative data analysis. Other topics: philosophical foundations; lexical resources; the WWW as corpus; applications to stylistics, language teaching, and sociolinguistics.

Prerequisite(s): LING 101 and CS 22A, or instructor consent

Grading: Letter Graded

LING 122 - English as a World Language

3 unit(s)

A survey of the ways and the purposes which English is used in diverse societies and cultures around the world, including the United States; implications for international and cross-cultural communication.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ASIA 122. Linguistics and Language Development is responsible for scheduling.

LING 123 - Sound and Communication

3 unit(s)

Basic acoustics and nature of sound as applied to the study of vocal communication by humans and other animals. Voice communication as transmission of a speech code via sound.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

LING 124 - Introduction to Speech Technology

3 unit(s)

Strategies in man-machine communication, with a focus on speech recognition and speech synthesis. Computer modeling of speech production and perception.

Prerequisite(s): LING 101, LING 111 or instructor consent.

Grading: Letter Graded

LING 125 - Introduction to Historical and Comparative Linguistics

3 unit(s)

Why and how languages change; how linguists go about studying, documenting and explaining such change. Social and phonetic motivations for change. Language families and proto-languages.

Prerequisite(s): LING 101, LING 111 or instructor consent.

Grading: Letter Graded

LING 129 - Culture, Language and Ethnicity in the U.S.

3 unit(s)

The role of language in the formation of culture and ethnicity in the U.S. Language and culture contact between indigenous, colonial and immigrant peoples.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

LING 161 - Psycholinguistics

3 unit(s)

Psychology of language. Child language acquisition, language disorders, representation of language in the brain, cognitive aspects of linguistic communication, theories of language in linguistics and psychology.

Prerequisite(s): LING 101.

Grading: Letter Graded

LING 162 - Introduction to Morphology

3 unit(s)

Examination of the morphological structure of words; morphological typology; morphemes, morphs and allomorphs; issues in inflectional and derivational morphology; morphophonemics; word syntax; productivity, markedness, iconicity.

Prerequisite(s): LING 101 or instructor consent.

Grading: Letter Graded

LING 165 - Introduction to Natural Language Processing

3 unit(s)

Computer processing of text using data-driven (statistical) and knowledge-driven (rule-based) methods.

Applications including spelling correction, information retrieval, question answering, and machine translation.

Prerequisite(s): LING 101 and LING 115, or instructor consent.

Grading: Letter Graded

LING 166 - Sociolinguistics

3 unit(s)

Relationship between language and society; language and identity (including social constructs of gender, race/ethnicity, age, or social class); introduction to theories of language variation and change and methods used in sociolinguistic research.

Prerequisite(s): LING 101 or Instructor Consent.

Grading: Letter Graded

LING 167 - Multilingualism and Language Contact

3 unit(s)

Offers global and local perspectives on bi-/multilingualism, at the level of the individual (language acquisition, language choice, identity) and society (language ideologies and policies); explores varied social and linguistic outcomes of languages contact (pidgin and creole languages, code-switching, language shift).

Prerequisite(s): LING 101.

Grading: Letter Graded

LING 180 - Individual Studies

1-3 unit(s)

Individual work by arrangement.

Prerequisite(s): Instructor consent and department chair approval.

Grading: Credit/No Credit

LING 192 - International Program Studies

1-9 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

LING 201 - Phonology: Theory and Applications

3 unit(s)

Survey of the theoretical issues in phonology; language universals; notions of markedness and natural rules; psychological reality of phonological constructs. Applications to language teaching, speech synthesis and automatic speech recognition.

Prerequisite(s): LING 101, LING 111 and LING 113.

Grading: Letter Graded

LING 202A - Syntactic Theory

3 unit(s)

Aspects of syntax and grammatical theory.

Prerequisite(s): LING 101 and LING 112.

Grading: Letter Graded

LING 203 - Semantic Structures

3 unit(s)

Aspects of meaning and semantic theory.

Prerequisite(s): LING 101 and LING 114, or instructor consent.

Grading: Letter Graded

LING 213 - Linguistic Field Methods

3 unit(s)

Methods in phonological, morphological and syntactic analysis of linguistic data obtained from native-speaker informants.

Prerequisite(s): LING 101, LING 111, LING 112 and LING 113 (or equivalents).

Grading: Letter Graded

LING 220 - Computational Linguistics I

3 unit(s)

Part 1 of an introduction to the foundations of computational linguistics, including familiarity with the literature and tools of the field. Emphasis on the importance of algorithms, algebra, machine learning, and formal language theory in the development of new tools and software applications. Empirical phenomena in linguistics are sampled from a variety of languages to motivate and illustrate the use of concepts such as representations, processes, and learning.

Prerequisite(s): LING 101 and LING 165, or instructor consent.

Grading: Letter graded.

LING 221 - Computational Linguistics II

3 unit(s)

Part 2 of an introduction to the foundations of computational linguistics including familiarity with the literature and tools of the field. Emphasis on the importance of algorithms, algebra, machine learning, and formal language theory in the development of new tools and software applications. Empirical phenomena in linguistics are sampled from a variety of languages to motivate and illustrate the use of concepts such as representations, processes, and learning.

Prerequisite(s): LING 220

Grading: Letter graded.

LING 230 - Seminar in Linguistics

3 unit(s)

Variable topics in linguistics.

Grading: Letter Graded.

LING 298 - Individual Study

1-4 unit(s)

Advanced individual research.

Prerequisite(s): Instructor consent.

Grading: Mandatory Credit/No Credit/RP

LING 298P - Master's Project

1-6 unit(s)

Project research.

Repeatable for credit.

Grading: Credit/No Credit/RP.

LING 299 - Master's Thesis

1-6 unit(s)

Thesis research.

Grading: Credit/No Credit/RP

LING 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in a project or thesis class.

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Linguistics & Language Development

LLD 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

LLD 100A - Writing Competency through Genres

3 unit(s)

Prepares students for 100W through drafting, feedback, and revision to demonstrate writing competency. Develops ability to analyze written genres used in the students' chosen disciplines as well as write analytical and reflective essays.

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE.

Grading: Letter Graded.

LLD 100W - Writing Workshop

3 unit(s)

Advanced composition. Instruction and practice in reading, discussing and writing about issues germane to the student's major field of study.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, and upper division standing. No Business Administration majors. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

LLD 100WB - Writing Workshop for Business Students

3 unit(s)

Instruction and practice in reading, oral interaction and writing activities germane to the genres of the business world.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): ENGL 2, any A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level.

Allowed Declared Majors: Business Administration, Engineering Technology, Public Relations, Organizational Studies, Information Science and Data Analytics.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

LLD 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

LLD 230 - Seminar in Linguistics/TESOL

3 unit(s)

Topics in TESOL or linguistic theory.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

LLD 250W - Becoming a Professional in Linguistics/TESOL

3 unit(s)

Course focuses on the research and communication skills needed to become an active and effective member of the professional community in linguistics or TESOL.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

LLD 260 - English Structures for Teaching I

3 unit(s)

The phonological, morphological and syntactic structures of English for pedagogical purposes.

Prerequisite(s): LING 101 and LING 107.

Grading: Letter Graded

LLD 261 - English Structures for Teaching II

3 unit(s)

The semantic, pragmatic and discourse structure of English for pedagogical purposes.

Prerequisite(s): LLD 260 or Instructor Consent

Grading: Letter Graded

LLD 270 - Second Language Acquisition

3 unit(s)

Products and processes of child and adult second language acquisition: classroom instruction versus untutored settings; psychological variables; individual differences; interlanguage hypothesis; input and interaction in language development; organization of language systems of bilinguals.

Prerequisite(s): LING 101.

Grading: Letter Graded

LLD 271 - Intercultural Communication and Second Language Acquisition

3 unit(s)

The social and cultural factors that affect first and second language acquisition and use. Understanding how to function in intercultural settings.

Prerequisite(s): LING 101.

Grading: Letter Graded

LLD 280 - Methods and Materials for Teaching English to Speakers of Other Languages

3 unit(s)

A critical approach to evaluating learners' needs, designing curricula, identifying and evaluating materials, and applying appropriate methods and techniques in the ESL classroom.

Prerequisite(s): LING 101.

Grading: Letter Graded

LLD 282 - Practicum in Teaching English to Speakers of Other Languages

3 unit(s)

Directed practical experience in teaching English to speakers of other languages.

Prerequisite(s): LLD 280.

Grading: Credit/No Credit

LLD 283 - Curriculum and Assessment in TESOL

3 unit(s)

Theories and practices of needs analysis, curriculum design and assessment. Hands-on experience in identifying learner needs, determining instructional objectives, designing curricula/syllabi and constructing appropriate assessment instruments.

Prerequisite(s): LLD 280 (or equivalent).

Grading: Letter Graded

LLD 293 - Teaching College-level Reading and Writing

3 unit(s)

Theoretical foundations of literacies; strategies and approaches for teaching academic reading and writing to culturally and linguistically diverse classes in college and other post-secondary contexts

Prerequisite(s): LING 101, LING 107, or ENGL 103

Grading: Letter Graded

LLD 298 - Individual Study

1-4 unit(s)

Advanced individual research.

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit/RP

LLD 298P - Master's Project

1-6 unit(s)

Project research.

Repeatable for credit.

Grading: Credit/No Credit/RP.

LLD 299 - Master's Thesis

1-6 unit(s)

Thesis research.

Grading: Credit/No Credit/RP

LLD 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in a project or thesis class

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Marine Science

MS 103 - Marine Ecology

4 unit(s)

Field-oriented introduction to interrelationship between marine and estuarine organisms and their environment emphasis on quantitative data collection and analysis.

Lecture 2 hours; Lab/Field 6 hours.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Ecology, statistics (or concurrent registration in MS 104), or instructor consent.

Grading: Letter Graded

Note(s): Offered fall semester. This course satisfies graduate-level GWAR in this master's program.

MS 105 - Marine Science Diving

3 unit(s)

Skin and SCUBA diving course; pool-training culminates in ten ocean dives. Topics covered include diving physics physiology, diving environments, night diving and research diving. Successful completion gives NAUI and MLML certification.

Misc/Lab: Lecture 1 hour; lab/field 6 hours.

Prerequisite(s): Certified SCUBA diver (or equivalency as determined by instructor), upper division science major status, thorough physical examination, ability to pass swimming test

Grading: Letter Graded

Note(s): Course cannot be used to meet 30-unit degree requirement. Offered fall & summer.

MS 112 - Marine Birds and Mammals

4 unit(s)

Systematics, morphology, ecology and biology of marine turtles, birds, and mammals.

Misc/Lab: Lecture 2 hours lab/field 6 hours.

Prerequisite(s): Upper division college vertebrate zoology, instructor's consent; MS 103 recommended.

Grading: Letter Graded

Note(s): Course is generally offered alternate fall semesters during the odd years.

MS 113 - Marine Ichthyology

4 unit(s)

A description of the taxonomy, morphology and ecology of marine fishes. Both field and laboratory work concentrate on the structure, function and habits of marine fishes and the ecological interactions of these fishes with their biotic and abiotic surroundings.

Misc/Lab: Lecture 2 hours lab/field 6 hours.

Prerequisite(s): College zoology (or equivalent) or instructor's consent. MS 103 recommended.

Grading: Letter Graded

Note(s): Offered spring semester.

MS 124 - Marine Invertebrate Zoology I

4 unit(s)

A field-oriented introduction to the structure, systematics, evolution and life histories of the major marine phyla.

Misc/Lab: Lecture 2 hours lab/field 6 hours.

Prerequisite(s): College zoology or instructor consent; MS 103 recommended.

Grading: Letter Graded

Note(s): Course is generally offered alternate fall semesters during the odd years.

MS 131 - Marine Botany

4 unit(s)

Introduction to the plants of the sea, marshes and dunes, with emphasis on the morphology, taxonomy and natural history of seaweeds and vascular plants.

Misc/Lab: Lecture 2 hours/lab 6 hours.

Prerequisite(s): MS 103 recommended, or instructor consent.

Grading: Letter Graded

Note(s): Offered fall semester.

MS 135 - Physiological Ecology of Marine Algae

4 unit(s)

Understanding the adaptations of marine algae to their environment, including respiration, enzyme activity, and biochemical composition. Hands-on experience in basic electronic instrumentation, chemical separations, optical measurements, culturing methods and radioisotope techniques. Designed for students interested in the biology of seaweeds and phytoplankton.

Misc/Lab: Lecture 2 hours/lab and field 6 hours.

Prerequisite(s): MS 103, MS 131, MS 144 or instructor consent.

Grading: Letter Graded

Note(s): Offered fall semester.

MS 141 - Geological Oceanography

4 unit(s)

A study of the structures, physiography and sediments of the sea bottom and shoreline.

Lecture 2 hours; Lab/Field 6 hours.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Note(s): Offered fall semester. This course satisfies graduate-level GWAR in this master's program.

MS 142 - Physical Oceanography

4 unit(s)

An introduction to the nature and causes of various oceanic motions including currents, waves, tides and mixing, and the physical properties of seawater including transmission of sound and light. Limited use of calculus.

Lecture 2 hours/lab 4 hours.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): College algebra, college physics recommended, or instructor consent.

Grading: Letter Graded

Note(s): Offered fall semester. This course satisfies graduate-level GWAR in this master's program.

MS 143 - Chemical Oceanography

4 unit(s)

An introduction to the theoretical and practical aspects of the chemistry of the oceans, including major salts, dissolved gases, nutrient ions, carbonate system, transient tracers and shipboard sampling techniques.

Lecture 2 hours/lab 6 hours.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): One year of college chemistry.

Grading: Letter Graded

Note(s): Offered spring semester. This course satisfies graduate-level GWAR in this master's program.

Sustainability Related - SDG 14: Life Below Water

MS 144 - Biological Oceanography

4 unit(s)

The ocean as an ecological system. Emphasis on the complexity of environmental influences on plankton, the transfer of organic matter between trophic levels and nutrient cycles. Laboratory sessions will include methods in sampling, shipboard techniques, identification of the plankton, and current analytical techniques.

Lecture 2 hours/lab 6 hours.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): General biology, general chemistry, or instructor consent.

Grading: Letter Graded

Note(s): Offered spring semester. This course satisfies graduate-level GWAR in this master's program.

Sustainability Related - SDG 14: Life Below Water

MS 180 - Independent Studies

1-4 unit(s)

Faculty-directed study of selected problems; open to undergraduate students with adequate preparation. Offered every semester. May be repeated once for credit.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

MS 201 - Library Research Methods in Marine Science

1 unit(s)

Students will gain an advanced understanding of the nature of scientific information. Lectures, discussions and assignments will provide the framework for using and evaluating a variety of information sources in marine and ocean sciences. Strong emphasis will be placed on developing critical skills to interweave knowledge of the history of science into the context of bibliographic tools including the digital realm.

Prerequisite(s): Graduate standing, instructor consent.

Grading: Letter Graded

Note(s): Offered spring semester.

MS 202 - Oceanographic Instrumentation

4 unit(s)

Principles of instruments used in oceanographic research, introduction to electronics, and applications of instrument measurements. Emphasis will vary from CTD profilers, current meters, radiometry and chemical measurement.

Misc/Lab: Lecture/discussion 2 hours; lab/field 6 hours.

Prerequisite(s): Graduate standing; MS 141, MS 142 and instructor consent.

Grading: Letter Graded

Note(s): Offered alternate spring semesters.

MS 203 - Advanced Marine Ecology

4 unit(s)

Marine ecology is the study of factors determining the distribution and abundance of marine organisms. This course focuses on the major ecological processes determining the structure and diversity of species assemblages at several scales, primarily at that of the community.

2 hours lecture/ 6 hours lab.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Ecology, Statistics, Instructor consent, Graduate level.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

MS 204 - Sampling and Experimental Design

4 unit(s)

Basic design of experiments and field sampling. Biases and problems of sampling marine biota.

Prerequisite(s): Graduate standing; MS 103 and MS 104 .

Grading: Letter Graded

Note(s): Offered spring semester.

MS 205 - Aquaculture

4 unit(s)

Theoretical and technical aspects of commercial and conservation aquaculture including water quality, pathobiology, nutrition, physiology, reproduction, environmental impacts, and regulations. Includes field trips to aquaculture facilities and hands-on practice.

Lecture 2 hours/Lab 6 hours.

Grading: Letter graded.

Sustainability Related - SDG 2: Zero Hunger

MS 206 - Molecular Biological Techniques

4 unit(s)

Laboratory-based overview of concepts and techniques for the isolation, characterization, and analysis of DNA and RNA. Covers standard methods (amplification, cloning, and sequencing), and selected specialized techniques (analysis of gene expression), emphasizing marine science applications.

Misc/Lab: Lecture 2 hours/Lab 6 hours.

Prerequisite(s): Graduate standing; college level genetics, molecular biology, or instructor consent.

Grading: Letter Graded

Note(s): Offered fall semester.

MS 208 - Scientific Methods

4 unit(s)

Course is designed to help students develop an understanding of strengths and limitations of various types of scientific reasoning, methodology, and analysis as they relate to scientific progress. Course centers on: round-table discussions of papers and techniques; interactive computer , laboratory, and field learning experiences; and development of critical thinking and writing skills.

Misc/Lab: Lecture 3 hours/Lab 2 hours.

Prerequisite(s): Graduate standing; instructor consent and approved thesis proposal.

Grading: Letter Graded

Note(s): Offered spring semester.

MS 210 - Advanced Marine Mammals, Birds & Turtles

4 unit(s)

This course examines the biology of marine mammals, birds and turtles. Topics include systematics and evolution, adaptations to the marine environment, diving physiology and behavior, communication and echolocation, ecology, and conservation. This class consists of lectures, discussions of recent literature, and laboratory exercises.

Misc/Lab: 2 hours lecture/ 6 hours lab

Prerequisite(s): Introductory Biology, upper division vertebrate biology (physiology, ecology or similar)

Grading: Letter Graded

Sustainability Related - SDG 14: Life Below Water

MS 211 - Ecology of Marine turtles, Birds, and Mammals

4 unit(s)

Community approach to the ecology of marine birds and mammals using experimental and sampling methodology. The class will examine the distribution, abundance, trophic ecology, and behavior of birds and mammals in Elkhorn Slough and Monterey Bay.

Misc/Lab: Lecture/discussion 2 hours; lab and field 6 hours.

Prerequisite(s): Graduate standing; MS 103, MS 104 and MS 112 and instructor consent.

Grading: Letter Graded

Note(s): Generally offered alternate fall semesters during even years.

Sustainability Related - SDG 14: Life Below Water

MS 213 - Advanced Marine Ichthyology

4 unit(s)

This course covers taxonomy and systematics, functional morphology, physiology, biogeography, and ecology of marine fishes at an advanced level. Accompanying laboratory and field sessions focus on taxonomic identification, morphological structure and function, and habits of marine fishes, and the ecological interactions of these fishes with their biotic and abiotic surroundings.

Misc/Lab: Lecture 4 hours/Lab 12 hours

Prerequisite(s): College zoology or equivalent or consent of instructor; MS 103 recommended.

Grading: Letter Graded

MS 214 - Physiological Ecology of Marine Animals

4 unit(s)

Examines the adaptations animals have evolved to live in marine environments to deal with gradients in water, temperature, salinity, oxygen, exercise, nutrients as well as short-term physiological responses to environmental changes. Topics include metabolism, sensory systems, respiration, circulation, thermoregulation, osmoregulation.

Misc/Lab: 2 hours lecture/ 6 hours lab

Prerequisite(s): upper division vertebrate biology (physiology)

Grading: Letter Graded

Sustainability Related - SDG 14: Life Below Water

MS 221 - Advanced Topics in Marine Invertebrates

1-4 unit(s)

Advanced consideration of the ecology, physiology and phylogeny of the various invertebrate phyla emphasizing current literature and research. Topics and emphasis will vary from term to term. May be once repeated for credit when topic changes.

Misc/Lab: Lecture, laboratory and field work variable.

Prerequisite(s): MS 124 and instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 14: Life Below Water

MS 231 - Biology of Seaweeds

4 unit(s)

Discussions on marine macroalgal biology with extensive reading of original literature. Ecologically-oriented individual research projects involving laboratory culture and field experimentation.

Misc/Lab: Lecture 2 hours; lab/field work 6 hours.

Prerequisite(s): Graduate standing; MS 131 or instructor consent.

Grading: Letter Graded

Note(s): Offered fall semester.

MS 233 - Advanced Topics in Marine Ecology

1-4 unit(s)

Selected topics and current issues in marine ecology. Subjects vary depending on student demand and availability of instructors. May be repeated once for credit when topic changes.

Misc/Lab: Lecture, lab/field work variable.

Prerequisite(s): Graduate standing; MS 103 and instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 14: Life Below Water

MS 241 - Advanced Geological Oceanography

4 unit(s)

Geological Oceanography (also known as Marine Geology) is the study of the past and present geological processes that occur on earth's largest habitat: the oceans. Topics covered include: types and composition of marine rocks and sediments, the shape of the ocean basins, processes occurring in the earth's

lithosphere and how they are interpreted within the broad theory of Plate Tectonics and interactions between geological processes, oceanography and biology in different marine habitats. Includes California's regional geology with visits on local outcrops.

Lecture 2 hours/Lab/Field 6 hours.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter graded.

Note(s): This course satisfies graduate-level GWAR in this master's program.

Sustainability Related - SDG 14: Life Below Water

MS 242 - Advanced Physical Oceanography

4 unit(s)

A comprehensive review of the physical processes involved in ocean transport and mixing on a global scale and in coastal regions. Laboratory component involves the collection, processing, and interpretation of oceanographic data. Students discuss recent scientific literature on the physical dynamics of the climate system and the role of physical processes in interdisciplinary problems in oceanography.

Lecture 2 hours/Lab 6 hours.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Instructor's consent (college algebra, college physics and calculus highly recommended).

Grading: Letter graded.

Note(s): This course satisfies graduate-level GWAR in this master's program.

Sustainability Related - SDG 14: Life Below Water

MS 243 - Advanced Chemical Oceanography

4 unit(s)

Comprehensive study of biogeochemical cycling in the oceans, including major salts, dissolved gases, nutrient ions, carbonate parameters, and transient chemical tracers. Students will participate in field expeditions and laboratory experiments to apply their knowledge to real-world oceanographic problems.

Lecture 2 hours/Lab 6 hours.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): One year of college inorganic chemistry, or instructor consent.

Grading: Letter graded.

Note(s): This course satisfies graduate-level GWAR in this master's program.

Sustainability Related - SDG 14: Life Below Water

MS 244 - Advanced Biological Oceanography

4 unit(s)

Comprehensive study of the ocean as an ecological system. Emphasis on the complexity of environmental influences on plankton, the transfer of organic matter between trophic levels and nutrient cycles. Laboratory sessions include methods in sampling, shipboard techniques, identification of the plankton, and current analytical techniques.

Lecture 2 hours/Lab 6 hours.

Grading: Letter graded.

Sustainability Related - SDG 14: Life Below Water

MS 248 - Marine Benthic Habitat Techniques

4 unit(s)

Collection and interpretation of geophysical data used to characterize marine benthic habitats. Basic geophysical principals will be reviewed. Application of techniques to identify and characterize marine benthic habitats, including echosounders, multibeam bathymetry and backscatter, sidescan sonar, seismic profiling, and GIS.

Misc/Lab: Lecture 2 hours; lab/field work 6 hours.

Prerequisite(s): Graduate standing; MS 141 or instructor consent.

Grading: Letter Graded

Note(s): Offered alternate spring semesters during odd years.

MS 250 - Laboratory Analysis for Marine Scientists

4 unit(s)

Theory and practice with standard and state-of-the-art laboratory techniques in marine sciences for dissolved and particulate constituents of seawater including spectroscopy, flow injection techniques, gas chromatography, ICP-MS, electrochemistry, chemical sensors and chemometrics.

Lecture 2 hours/Lab 6 hours.

Grading: Letter graded.

MS 251 - Marine Geochemistry

4 unit(s)

Geochemical processes in the oceans; low temperature thermodynamics of aqueous reactions, weathering, oxidation-reduction and biologically mediated reactions, processes occurring at the sea floor and air-sea interface.

Lecture 2 hours/Lab or field work 6 hours.

Prerequisite(s): MS 143 or instructor consent.

Grading: Letter Graded

MS 253 - Marine Pollution

4 unit(s)

General aquatic chemistry principles and in-depth analysis of the sources, transport and fate of various contaminants in the marine environment. Topics include nutrients, trace metals, persistent organic pollutants, microplastics, hydrocarbons, radioactive substances and carbon dioxide with accompanying practical experience in the field and laboratory.

Lecture 2 hours/Lab 2 hours.

Prerequisite(s): MS 143 or instructor consent.

Grading: Letter Graded

MS 263 - Data Analysis in Marine Science

4 unit(s)

Introduction to using observational oceanographic data, with hands on practice in scientific programming for data analysis. Lecture, discussion, and practical experience including the use of existing programs and subroutine libraries. Semester project required.

Misc/Lab: Lecture 2 hours/lab 6 hours.

Prerequisite(s): Graduate standing; MS 104 , college math and instructor consent.

Grading: Letter Graded

Note(s): Offer spring semester.

MS 272 - Subtidal Ecology

4 unit(s)

The ecology of nearshore rocky subtidal populations and communities with emphasis on kelp forests. Lectures and discussions of original literature. Field work with SCUBA including group projects on underwater research techniques and community analysis. Individual research on ecological questions chosen by the student. Knowledge of marine algae, invertebrates and statistics recommended.

Misc/Lab: Lecture 2 hours; lab/field work 6 hours.

Prerequisite(s): Graduate standing; MS 103; MLML diver certification and marine ecology.

Grading: Letter Graded

Note(s): Offered alternate spring semesters during odd years.

Sustainability Related - SDG 14: Life Below Water

MS 273 - Marine Environmental Studies of the Gulf of California

4 unit(s)

An analysis of Gulf of California marine environments. Lectures, readings, intensive field work, and written scientific paper based on original research. Topics vary. Taught with Mexican faculty and students from La Paz, Mexico. Must be able to participate in 2 weeks of field work.

Misc/Lab: Lecture 2 hours/lab 6 hours.

Prerequisite(s): Graduate standing; instructor consent.

Grading: Letter Graded

Note(s): Offered spring semester.

Sustainability Related - SDG 14: Life Below Water

MS 274 - Advanced Topics in Oceanography

1-4 unit(s)

Study of selected area in oceanography. Subjects vary depending on student demand and availability of instructors. May be repeated once for credit when topic changes.

Misc/Lab: Lecture, lab/field work variable.

Prerequisite(s): Graduate standing and instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 14: Life Below Water

MS 280 - Scientific Writing

4 unit(s)

Techniques and strategies of scientific writing used for proposals, journal submissions, abstracts of meetings, and scientific posters. Emphasis to develop writing skills by preparing, editing, and reviewing research proposals and literature reviews.

Prerequisite(s): Graduate standing and instructor consent.

Grading: Letter Graded.

Note(s): Offered spring semester.

MS 285 - Graduate Seminar in Marine Science

2 unit(s)

Seminar will be held on topics changing each semester. Each student will be required to give at least one seminar.

Prerequisite(s): Graduate standing and instructor consent.

Grading: Letter Graded

Note(s): Offered fall and spring semesters.

MS 298 - Research in the Marine Science

1-4 unit(s)

Independent investigations of an advanced character for the graduate student with adequate preparation.

Prerequisite(s): Graduate standing and instructor consent.

Grading: Mandatory Credit/No Credit/RP

MS 299 - Master's Thesis

1-4 unit(s)

Offered spring and fall semesters. Available only to MLML Masters' students in good standing with the approval of their major advisor.

Prerequisite(s): Classified graduate standing, advancement to candidacy.

Grading: Mandatory Credit/No Credit/RP

MS 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in MS 299

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Mass Communication

MCOM 63 - New Media

3 unit(s)

Hands on instruction in multimedia and emerging new media technologies. Print and web page design, blogging, podcasting, videocasting, RSS and creation of multimedia presentations by combining still photos, graphics, and video with music and/or audio.

Grading: Letter Graded

MCOM 70 - Visual Communication for Modern Media

3 unit(s)

Design for television, newspapers, advertising, public relations, magazines, film and video. Modules include design and impact of visual imagery and how to apply sound ethical principles.

Grading: Letter Graded

MCOM 72 - Mass Communication and Society

3 unit(s)

Mass communication and its relationship to society. Basic theories in mass communication, contemporary issues and milestones in our understanding of media effects.

Satisfies D: Social Sciences.

Prerequisite(s): Not repeatable for credit if equivalent course has been taken elsewhere.

Grading: Letter Graded.

MCOM 84 - Storytelling in the Age of Intelligent Machines

3 unit(s)

Explores the far-reaching implications of Artificial Intelligence (AI)/Cognitive Computing (CC) on non-fiction and fiction storytelling and how numerous applications, tools and techniques are used to affect various aspects of digital storytelling.

Grading: Letter Graded

MCOM 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

MCOM 94 - Sport, Communication and Society

3 unit(s)

Explores the intersection of sport and society with implications of class, race, and gender-based social issues in youth, college, and professional sport structures. Course is grounded in sociological and communication principles and requires critical thinking to investigate the links between many of the major issues facing sport organizations, media and athletes today.

Grading: Letter Graded.

MCOM 100W - Writing Workshop: Mass Communications

3 unit(s)

Advanced writing across the media -- advertising, journalism and public relations. Writing and research for an increasingly convergent media with multiple media formats from the Web to print and broadcast, including writing to accompany audio and visual images.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Allowed Declared Majors: Public Relations, Journalism, Advertising. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR). Should be taken junior year; required of all advertising, journalism and public relations majors before they reach senior standing.

MCOM 101 - Media Law and Ethics

3 unit(s)

Principles and case studies of mass communications law and ethics. Constitutional guarantees, libel,

privacy, contempt, privilege, copyright, Internet law, FCC and FTC regulatory law.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

MCOM 104 - Introduction to Mass Communications Research

3 unit(s)

Introduction to social science research in mass communications; emphasis on public opinion research, including sampling, survey research design, measurement; also precision journalism, content analysis and external databases; may include class project.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

MCOM 105 - Lifestyles, Diversity and the Media

3 unit(s)

Identifies and evaluates the impact of ethnicity/culture, alternative lifestyles and gender issues on advertising, television, radio, newspapers, magazines and public relations. Examines attitudes, trends and perceptions that help shape mass communication messages.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

MCOM 106 - Global Mass Communication

3 unit(s)

Societal factors behind gathering and disseminating information and entertainment content among mass communication systems of the world. Basic theoretical concepts about international communication and international relations. Impact on economy, politics, culture and governmental communication policies.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

MCOM 107 - Audio Podcasting, Aesthetics and Invention

3 unit(s)

Explores philosophies, methods, and perceptions of sound aesthetics, archiving, and techniques that comprise audio podcasting (and related documentary production) to develop "aural" skills collaboratively across traditional and new media technologies as innovators of sound practice.

Grading: Letter Graded

MCOM 108 - Virtual Worlds, Virtual Reality and Mass Media

3 unit(s)

Explores how virtual reality is shaping our media experiences and expectations, from work, socialization and news reporting. Students learn to investigate, experiment, and interact with virtual and augmented

technologies, structures and people within those media platforms.

Grading: Letter Graded

MCOM 111 - Mass Communications Internship

3 unit(s)

Field work for advertising, journalism and public relations majors near end of junior or beginning of senior year, including summer term.

Course may be repeated up to 9 units for credit.

Prerequisite(s): At least 9 units of major course work in the department (including specified foundation courses) and advisor consent.

Grading: Credit/No Credit.

MCOM 118 - Metaverse, Society and World-Building

3 unit(s)

Examination of the contemporary rise of immersive 3D Virtual Worlds and their impact on society and mass communications across the world. Exploration of Web 3.0 and virtual platforms and comparison between countries through historical recreations of events that provide the foundation for the Metaverse.

Satisfies SJSU Studies Area V: Cultures and Global Understanding

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

MCOM 139 - Special Topics Seminar

3 unit(s)

Mass communication seminar on specific topic during the semester. Seminar may include specialized topic in public relations, advertising, broadcast and print media.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): JOUR 61 and upper division standing; or instructor consent.

Grading: Letter Graded

Note(s): Offered only occasionally.

MCOM 163 - Advanced New Media Technologies

3 unit(s)

Hands on instruction in multimedia and emerging new media technologies. Print and web page design, blogging, podcasting, RSS and creation of interactive multimedia presentations by combining still photos, graphics, and video with music and/or other audio.

Prerequisite(s): MCOM 63 or Instructor Consent

Grading: Letter Graded

MCOM 170 - Strategic Social Media & Digital Marketing

3 unit(s)

Integration of content and social media within the broader digital marketing ecosystem to include paid social, paid search, search engine optimization, influencer marketing & brand storytelling.

Prerequisite(s): MCOM 100W

Grading: Letter Graded

MCOM 172 - Introduction to Spanish Language Media and Journalism

3 unit(s)

Mass media and its relationship to society in Spanish speaking societies, mainly in Latin America. Basic theories in mass communication in Latin America, contemporary issues, and milestones to understand the historical evolution and current state of Spanish speaking media and journalism.

Grading: Letter Graded.

MCOM 175 - Social Media and Web Analytics

3 unit(s)

Fundamentals of social media and web analytics. How to transform data to actionable insights and develop campaign strategies. Data analytics tools, deriving insights from social metrics, and suggesting data informed decisions to intended audiences.

Prerequisite(s): Upper division standing; or instructor consent.

Grading: Letter Graded.

MCOM 180 - Independent Study

1-6 unit(s)

Independent study projects and activities supervised by a Journalism and Mass Communications faculty member. Projects must be directly related to fields within the Journalism and Mass Communications School. All undergraduate Advertising, Journalism, Public Relations and graduate Mass Communications students may enroll.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Upper division standing.

Grading: Credit/No Credit

MCOM 180ITL - JMC International Experience

1-6 unit(s)

Through international study students will examine globalization models to gain a global perspective on geopolitical and economic issues, media and integrated strategic communications, explore the concepts of global citizenship and global corporate citizenship, and learn how to analyze cultural differences.

Course is repeatable for up to 9 units.

Prerequisite(s): SJSU upper division undergraduate or graduate student, or by instructor's permission.

Grading: Letter Graded

MCOM 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

MCOM 199A - Advertising & Public Relations Agency I

4 unit(s)

The first of a two-semester capstone course where seniors will work in teams in a School-sponsored Advertising and Public Relations Agency to plan and execute real-world integrated strategic campaigns as well as to prepare entries for national competitions. Enrollment by permission only.

Prerequisite(s): PR Majors: PR 99, PR 190 or PR 192; PR 191; ADV Majors: ADV 91.

Grading: Letter Graded.

MCOM 199B - Advertising & Public Relations Agency II

4 unit(s)

The second of a two-semester capstone course where seniors will work in teams in a School-sponsored Advertising and Public Relations Agency to plan and execute real-world integrated strategic campaigns as well as to prepare entries for national competitions. Enrollment by permission only.

Prerequisite(s): MCOM 199A.

Grading: Letter Graded

MCOM 210 - Media and Social Issues

3 unit(s)

Selected readings and group discussions of significant published works dealing with mass communications: history, biography and appraisals; law and ethics of the print and broadcast media, advertising and public relations; public opinion and propaganda.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

MCOM 215 - New Media Visionaries

3 unit(s)

Class lecture series by visiting Silicon Valley leaders on the development of new media products, including such topics as idea generation, intellectual property, funding, design, development and integrated communication strategies.

Prerequisite(s): Admission to Graduate program.

Grading: Letter Graded

MCOM 270 - Communication Law and Public Policy

3 unit(s)

A case history approach to the law of communications, including libel, privacy and regulation of broadcasting. Major development and landmark decisions, with emphasis on contemporary ethical and social issues such as free-press/fair trial and new technology.

Grading: Letter Graded

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

MCOM 280 - Communication Management

3 unit(s)

Explores the practice and theory of media management as it applies to: online media, newspapers, magazines, radio stations, television stations, advertising agencies, public relations firms, corporate communications and marketing communications. It incorporates leadership, media economics and conflict resolution.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

MCOM 284 - Advanced User Experience

3 unit(s)

Students work in teams to create, develop and implement hypothetical Web and mobile applications while living the role of the interactive project manager, design manager and development manager. Class focuses on the rapidly changing creative and technological base of interactive Web and mobile application development. Admission to graduate program.

Grading: Letter Graded

Sustainability Related

MCOM 285 - Web Design and Development

3 unit(s)

Introduction to website design, creation, and maintenance. Popular web design and graphics programs including content management systems (WordPress), and Adobe XD.

Grading: Letter Graded

MCOM 290 - Theory of Mass Communications

3 unit(s)

Basic theories of communications systems. Functional comparisons of various communications systems in relation to political structure. Communications theories in related disciplines of psychology, sociology, anthropology, economics and political science.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

MCOM 295 - Mass Communications Research

3 unit(s)

Methodologies of research in mass communications: historical, descriptive and empirical with emphasis on statistical aspects of data processing and interpretation.

Prerequisite(s): MCOM 210 and MCOM 290 or instructor consent.

Grading: Letter Graded

MCOM 298A - Master's Project I

3 unit(s)

Development of master's project literature review and proposal. Identify and work with professional mentors. Collaborative teamwork as appropriate to project goals.

Prerequisite(s): Advancement to Candidacy

Grading: Credit/No Credit/Incomplete.

MCOM 298B - Master's Project II

3 unit(s)

Completion of master's project meeting professional standards in Advertising, Journalism, or Public Relations. Presentation and constructive feedback to peers.

Prerequisite(s): MCOM 298A

Grading: Credit/No Credit/RP.

MCOM 299 - Master's Thesis

3-6 unit(s)

Supervised thesis in the field of mass communications. May be repeated for credit (not in same semester).

Prerequisite(s): Advancement to candidacy for the master's degree and approval of thesis proposal.

Grading: Mandatory Credit/No Credit/RP

Master Archives and Records Administration

MARA 200 - Record and Recordkeeping Professions

3 unit(s)

Overview of the management and role of records and information in business, society and history.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course is not repeatable.

Prerequisite(s): Demonstrated computer literacy through completion of required new student online technology workshop.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

MARA 204 - Management of Archives, Records, Inf. Governance

3 unit(s)

Overview of management and leadership roles and responsibilities in archives, records management, and information governance settings, and application of management principles, techniques and theories to program administration.

Prerequisite(s): Demonstrated computer literacy through completion of required new student online technology workshop.

Grading: Letter Graded

MARA 210 - Records Creation, Appraisal, and Retention

3 unit(s)

Overview of records creation and management processes and documentation of those processes. Topics include electronic records content management, digitization, physical records document control, legal compliance.

Prerequisite(s): MARA 200.

Grading: Letter Graded

MARA 211 - Access, Storage and Retrieval of Records

3 unit(s)

Overview of archival and contemporary records and information access, storage and retrieval. Examines records and information classification retrieval systems, storage operations, archival reference service and outreach, legal and ethical access considerations, and user communities.

Course is not repeatable.

Prerequisite(s): MARA 200 and MARA 204.

Grading: Letter Graded

MARA 249 - Management of Digital Data, Information, Records

3 unit(s)

Principles and methods of managing data, information and records as operational, legal and historical evidence in digital environments. Examines the way in which new information technologies impact an organizations' capacity to define, identify, control, manage, and preserve digital assets.

Course is not repeatable.

Prerequisite(s): MARA 200 and MARA 204.

Grading: Letter Graded

MARA 283 - Enterprise Content Management and Digital Preservation

3 unit(s)

Presents theoretical principles and practical aspects of digital content management and preservation. Explores challenges related to multiple file formats, standards, and retention requirements. Provides hands-on experience using both a digital content management system and a trusted digital repository.

Prerequisite(s): MARA 210, or MARA 211, or MARA 249

Grading: Letter Graded

MARA 284 - Seminar in Archives and Records Management

1-3 unit(s)

This course explores current issues and practices in archives and records management such as Protecting Conflicting Rights in the Digital Environment, Archivist: Meet Web 2.0, Ethics and Computer Forensics, and Implications of Cloud Computing on Records Management.

Course is repeatable for up to 12 units.

Prerequisite(s): MARA 200 and MARA 204.

Grading: Letter Graded

MARA 285 - Research Methods in Records Management and Archival Science

3 unit(s)

Overview of research methods in the social sciences and their application to research about and within archives and records centers. Research design, human subjects, quantitative and qualitative methods, model studies, methodological critique and evaluation, data analysis and presentation.

Grading: Letter Graded.

MARA 286 - Information Assurance

3 unit(s)

An overview of Information Assurance and Risk Management theories, principles, and techniques. Examines the information assurance frameworks and risk management planning structures used to ensure that an organization's information resources and assets are protected.

Prerequisite(s): MARA 200 and MARA 204 for all MARA students. These prerequisites are waived for non-

MARA majors.

Grading: Letter Graded

MARA 289 - Advanced Topics in Archives and Records Administration (ePortfolio)

1-3 unit(s)

Completion of the ePortfolio, integrating theory and practice, to satisfy the Culminating Experience, with the portfolio based on core competencies for archives and records administration professionals as outlined in the MARA 289 Handbook. Completed in final semester. Not repeatable.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): See information about eligibility by looking at the current MARA 289 Handbook and revising the section on "Eligibility".

Grading: Credit/No Credit/RP.

MARA 292 - Professional Certification

3 unit(s)

Through consultation with advisor: preparation exercises, mock exams, information, work experience and registration guidance toward application, submission and completion (completion not required) of ICRM and/or ACA exams for professional certification(s) in archives and records administration.

Prerequisite(s): MARA 200, MARA 202, MARA 204, plus six advanced courses.

Grading: Credit/No Credit/Incomplete.

MARA 294 - Professional Experience

3 unit(s)

Completion of an internship assignment or an organizational consulting project, or a special project related to the field of archives, records management and/or information governance.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): MARA 200 and MARA 204.

Grading: Credit/No Credit

MARA 295 - Organizational Consulting Project (OCP)

3 unit(s)

Organizational Consulting Projects are submitted by an individual or organization, supervised by a professional archivist or records manager, and requires the application of the knowledge and skills developed throughout the program.

Repeatable for up to 6 units. Course may be repeated for credit for up to 6 units.

Prerequisite(s): MARA 200, MARA 204

Grading: Credit/No Credit

Materials Engineering

MATE 25 - Introduction to Materials

3 unit(s)

Atomic and crystal structures; imperfections and atom movement; phase equilibria and transformations; boundaries; heat treatment of metals; mechanical, physical and chemical properties of engineering materials.

Prerequisite(s): CHEM 1A, PHYS 50, and MATH 31 or MATH 31X; all with a grade of "C-" or better.
Allowed Declared Majors: Any Engineering.

Grading: Letter Graded

MATE 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

MATE 115 - Structure/Properties of Solids

3 unit(s)

Bonding and crystal structure; the space lattice and unit cell calculations; crystalline anisotropy; point, line and surface defects; phase equilibria and interpretation of phase diagrams; thermal activation and the vacancy mechanism of mass transport in solids.

Prerequisite(s): PHYS 51, MATH 33A, CHEM 1B, and MATE 25; all with a grade of "C-" or better.

Corequisite(s): ENGR 10.

Grading: Letter Graded

MATE 129 - Introduction to Integrated Circuits Processing and Design

3 unit(s)

Basic processes involved in fabrication of integrated circuits; semiconductor physics, material preparation, oxidation, diffusion; photolithographic, thin-film deposition and etching. Simple component layout and evaluation of device parameters.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): MATE 25 or MATE 153 with a grade of "C-" or better. Allowed Declared Majors: Any Engineering. Or Graduate/PBAC level.

Grading: Letter Graded

Cross-listed with EE 129. Materials Engineering is responsible for scheduling.

MATE 131 - Fundamentals of Additive Manufacturing

3 unit(s)

Introduction to additive manufacturing (AM) and 3D printing, including development of AM, AM process chain, design for AM, and case studies. Focus on capabilities, limitations, and basic principles of various AM techniques, such as material extrusion, vat polymerization, powder bed fusion processes, material jetting, binder jetting, sheet lamination, and directed energy deposition processes.

Prerequisite(s): MATE 25 with "C" or better

Grading: Letter Graded

MATE 135 - Introduction to Composite Materials

3 unit(s)

Introduction to theory, application, and design with composite materials, including high performance resin-matrix fibrous composites and metal-matrix materials. Topics include materials, test techniques, environmental effects, design considerations, and application requirements.

Prerequisite(s): MATE 25 with a grade of "C-" or better.

Grading: Letter Graded

Cross-listed with ME 135. Materials Engineering is responsible for scheduling.

Sustainability Related - SDG 12: Responsible Consumption and Production

MATE 141 - Structure and Analysis of Materials

3 unit(s)

Crystallography and structural analysis of materials by x-rays and electrons. Imaging, diffraction, scattering and spectroscopic methods of characterization.

Seminar 2 hours / Lab 3 hours.

Prerequisite(s): MATE 115 with a grade of "C-" or better.

Corequisite(s): MATE 153.

Grading: Letter Graded.

MATE 143 - Principles of Scanning Electron Microscopy

1 unit(s)

Principles and practice of scanning electron microscopy. Basic theory and skills development of electron microscopy, including electron dispersive spectroscopy. Imaging and compositional analysis of conductive and non-conductive samples.

Lab: 3 hours.

Prerequisite(s): Introductory course in chemistry, physics or materials engineering.

Grading: ABC-/No Credit.

MATE 144 - X-Ray Diffraction Lab

1 unit(s)

Practical applications of X-ray diffraction. Including phase identification, texture analysis, grain size determination.

Pre/Corequisite(s): MATE 141 or instructor consent.

Grading: ABC-/No Credit

MATE 145 - Principles of Scanning Probe Microscopy

1 unit(s)

Principles and practice of various surface probe microscopies including AFM and STM.

Lab 3 hours.

Prerequisite(s): MATE 25 with a grade of "C-" or better.

Grading: ABC-/No Credit

MATE 146 - Experimental Methods in Materials Characterization

3 unit(s)

Principles of atomic force microscopy, scanning electron microscopy, thermal characterization in materials engineering related to solids. Practical applications in imaging, compositional, and thermal analyses of conductive/non-conductive and hard/soft materials.

Lab 6 hours.

Prerequisite(s): MATE 25 (with a C- or higher grade).

Grading: Letter Graded.

MATE 150 - Introduction to Computational Materials Engineering

3 unit(s)

Introduction to some of the methods used in computational materials science and engineering, including calculating atomic, molecular and solid-state properties of materials. Utilizes the quantum chemistry and solid state softwares such as Gaussian, Quantum Espresso and various analysis tools and visualization softwares. Introduction and discussion of computational techniques and their applicability.

Grading: Letter Graded

MATE 151 - Solid State Thermodynamics

3 unit(s)

Analysis of the ideal and real behavior of gases, liquids and solids from a macroscopic viewpoint; 1st and 2nd Law; phase rule, volumetric properties of fluids; heat effects; solution theory and applications; vapor-liquid and solid-solid equilibrium; chemical reaction equilibria.

Prerequisite(s): MATE 115 with a grade of "C-" or better.

Grading: Letter Graded

Note(s): Lecture 3 hours

MATE 152 - Solid State Kinetics

3 unit(s)

Diffusion and rates of reaction in solids. Transformations in solids, including nucleation and growth, martensitic transformation, spinodal decomposition and order-disorder reactions.

Prerequisite(s): 2.0 average and "C-" minimum grade in (MATE 115, MATE 141, MATE 151, MATE 153, MATE 154, MATE 155); ENGR 100W; and CHE 162.

Grading: Letter Graded

MATE 153 - Electronic, Optical, and Magnetic Properties of Materials

3 unit(s)

Crystalline and energy band structure of materials, thermal properties and electrical conduction in semiconductors and metals, optical and magnetic properties of solids.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): PHYS 51, CHEM 1A, EE 98 or MATE 25, and MATH 33A (each with a grade of "C-" or better).

Grading: Letter Graded

MATE 154 - Metals and Alloys

3 unit(s)

Thermal and mechanical processing of metals and alloys. Heat treatments, metallography and interpretation of microstructure. Biomedical, aerospace, automotive and other applications of metals discussed, including precipitation hardening of non-ferrous metal alloys, and the processing/structure/properties relationship in titanium alloys.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): MATE 115 with a grade of "C-" or better.

Corequisite(s): MATE 153 or ENGR 100W.

Grading: Letter Graded

MATE 155 - Materials Selection and Process Design

3 unit(s)

Methodology for selecting materials in process design for engineering applications. Case studies emphasizing materials selection and process parameters. Evaluation of material performance, robust design, and process control on semiconductor manufacturing, bioengineering devices, energy storage and conversion, water purification applications.

Prerequisite(s): MATE 115, CHE 162, and ENGR 10 with a grade of "C-" or better.

Grading: Letter Graded

MATE 165 - Photovoltaic Fabrication/Testing Lab

1 unit(s)

Laboratory course covering photovoltaic (solar cell) design, fabrication, and testing. TCAD simulation tools

will be used in design. Fabrication processes will include cleaning, surface texturing, deposition, diffusion, metallization, photolithography, etching, and electrical testing.

Lab 3 hours.

Prerequisite(s): MATE 25 or MATE 153 with a grade of "C-" or better; or corequisite of MATE 129.

Grading: Letter Graded

Cross-listed with EE 165. Materials Engineering is responsible for scheduling.

Sustainability Focused - SDG 7: Affordable and Clean Energy

MATE 168 - Microfluid Fabrication and Design

1 unit(s)

Hands-on design, fabrication, and testing of microfluidic devices. Processes including photolithography, soft lithography, and plasma bonding. Design problems for microfluidic devices. Introduction to microfluidics simulation.

Prerequisite(s): MATE 25 or MATE 153 or MATE 129 / EE 129.

Grading: Letter Graded

Cross-listed with EE 168 / ME 168. Mechanical Engineering is responsible for scheduling.

MATE 169 - Microelectromechanical Systems Fabrication and Design

1 unit(s)

Hands-on design, fabrication, and testing of micro electro-mechanical systems (MEMS). Processes including photolithography, etching, and metal deposition applied to MEMS. Design problems for MEMS transducer components. Introduction to MEMS simulation.

Misc/Lab: Lab 3 hours.

Prerequisite(s): MATE 25 or MATE 153 or MATE 129 / EE 129.

Grading: Letter Graded

Cross-listed with EE 169 / ME 169. Mechanical Engineering is responsible for scheduling.

MATE 175 - Biomaterials

3 unit(s)

Properties, function, design, characterization, and evaluation of biomaterials used in biosensors, drug delivery systems, bioimaging, biofilms, biocoatings, and bio/nano applications. Fundamental materials properties and chemistry of inorganic biomaterials such as ceramics, metals, composites, glasses; and organic biomaterials including DNA/RNA/protein/peptide systems, polymers, and hydrogels. Interconnectedness of the structure/processing/property relationship and processing conditions and their effect on resulting physical and mechanical properties.

Prerequisite(s): MATE 25 with a grade of "C-" or better.

Grading: Letter Graded

MATE 180 - Individual Studies

1-3 *unit(s)*

Individual work on special topics by arrangement.

Prerequisite(s): Major form on file with department and instructor consent. Not available to Open University Students.

Grading: Credit/No Credit

MATE 185 - Ceramics

3 *unit(s)*

Structure, properties and processing of crystalline and glassy ceramics, including defect thermodynamics, surfaces, ternary phase equilibria, and sintering. Applications include solid oxide fuel cells, oxide based chemical sensors, ceramics for biomedical and dental applications, and processing of electronic components.

Prerequisite(s): MATE 115 and MATE 151 with a grade of "C-" or better; MATE majors must also satisfy Jr. Core requirements.

Grading: Letter Graded

MATE 186 - Polymers

3 *unit(s)*

Structure and properties of solid polymers; chemistry; thermal transitions; mechanical, electrical and optical properties; influence of chemical structure and processing on properties; applications.

Prerequisite(s): MATE 25 with a grade of "C-" or better; MATE majors must also satisfy Jr. Core requirements.

Grading: Letter Graded

MATE 193 - Special Topics in Materials Characterization Lab

2 *unit(s)*

Hands-on laboratory experience in the characterization of special classes of materials including biomaterials, polymers, hydrogels, proteins, and cells, with emphasis on understanding the structure-property-performance relationship in the design and function of materials. Topics selected from chemical characterization, biological characterization, scattering and imaging methods, mechanical techniques, thermal analysis techniques, and surface modification techniques.

Lecture 1 hour/Lab 3 hours.

Course may be repeated for credit for different topics for a maximum of 4 units.

Prerequisite(s): Completion of Junior Core with a C- or better, ENGR 100W. For ChE, MatE, or closely related majors. Instructor consent.

Grading: Letter Graded

MATE 195 - Mechanical Behavior of Materials

3 *unit(s)*

Elasticity, plasticity, anelasticity; deformation mechanisms; effect of microstructure and imperfections; fatigue, creep, fracture; plane stress and plane strain; failure analysis for structural applications involving

engineering devices and systems, bulk and nanomaterials, material compatibility, and interfacial bonding in thin films.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): MATE 115, ENGR 100W, CHE 162, and CE 99 with a grade of "C-" or better; MatE majors must satisfy the Junior core.

Grading: Letter Graded

MATE 198A - Senior Design Project

2 unit(s)

Apply materials engineering principles to the design and implementation of an approved materials engineering project, Integrate global and social issues in engineering.

Misc/Lab: Lecture 1 hour/Lab 3 hours.

Satisfies SJSU Studies S: Self, Society & Equality in U.S. when taken as part of the MATE Major sequence.

Prerequisite(s): 2.0 average and "C-" minimum grade in (MATE 115, MATE 141, MATE 151, MATE 153, MATE 154, MATE 155); ENGR 100W; CHE 162.

Corequisite(s): ENGR 195A, MATE 195 and CHE 161

Grading: Letter Graded

Note(s): Meets GE Areas S and V when course is taken in combination with: MATE 198B, ENGR 195A and ENGR 195B

MATE 198B - Senior Design Project

2 unit(s)

Apply materials engineering principles to the design and implementation of an approved materials engineering project, Integrate global and social issues in engineering.

Misc/Lab: Lecture 1 hour/Lab 3 hours.

Satisfies SJSU Studies V: Cultures and Global Understanding when taken as part of the MATE Major sequence.

Prerequisite(s): MATE 198A with a minimum grade of "C".

Corequisite(s): ENGR 195B

Grading: Letter Graded

Note(s): Meets GE Areas S and V when course is taken in combination with: MATE 198A, ENGR 195A and ENGR 195B.

MATE 199 - Special Topics in Chemical and Materials Engineering

3 unit(s)

Special Topics in Chemical and Materials Engineering. Content varies from semester to semester. Course is repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Cross-listed with CHE 199. Chemical Engineering is responsible for scheduling.

MATE 205 - Advanced Mechanical Behavior of Solids

3 unit(s)

Structure-property relationships in mechanical behavior of materials, including elastic, anelastic and plastic behavior; creep characteristics, fracture, testing methods, dislocation dynamics, strengthening mechanisms.

Prerequisite(s): MATE 115 (or equivalent) and mechanics of materials course (or equivalent courses).

Grading: Letter Graded

MATE 210 - Experimental Methods in Materials Engineering

3 unit(s)

Advanced study of experimental techniques used in materials engineering, including data acquisition and analysis, experiment design strategy and hands-on operation of advanced equipment.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): MATE 115 (or equivalent).

Grading: Letter Graded.

MATE 215 - Solid State Materials Engineering

3 unit(s)

Electrical, optical and magnetic properties. Includes wave mechanics, bonding theory, energy band theory, electronic transport, conduction, semiconduction and insulation.

Prerequisite(s): MATE 115 (or equivalent).

Grading: Letter Graded

MATE 220 - Principles and Applications of Electrochemistry

3 unit(s)

Applied electrochemical systems, such as fuel cells, batteries, electrolytic plating, electrosynthesis. Environmental degradation in biological and material systems. Modern electrochemical techniques in analytical chemistry, including polarography, cyclic voltammetry, coulometric and pulse methods.

Prerequisite(s): MATE 155 (or equivalent) or instructor consent.

Grading: Letter Graded

MATE 232 - Plasma Processing of Materials

3 unit(s)

Principles of low temperature plasmas used for materials processing, including plasma fundamentals, plasma chemistry, collision and heating mechanisms and diagnostics. Material interactions in plasma assisted etching, deposition, and surface treatment will be emphasized.

Prerequisite(s): MATH 33A, MATE 25, and PHYS 51 or equivalent courses.

Grading: Letter Graded

MATE 241 - Advanced Methods of Materials Characterization

3 unit(s)

Methods for characterization and analysis of bulk materials, films, nanoscale structures and surfaces.

Prerequisite(s): Upper division undergraduate course in chemistry, condensed matter physics or materials.

Grading: Letter Graded

MATE 244 - Introduction to Materials Informatics and Data Sciences

3 unit(s)

Introduction to machine learning for materials engineers and other disciplines interested in materials, and materials informatics techniques and related data science practices. Course will cover different types of material databases used in prediction of processing-structure and structure-property relationships.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

MATE 250 - Advanced Computational Materials Engineering

3 unit(s)

Provides hands-on experience with various methods in computational materials science and engineering, including electronic structure calculation and molecular simulation using various software packages such as Gaussian, Quantum Espresso, VASP, LAMMPS and other online tools and visualization software packages such as Xcrysden, and VESTA. The course examines the theoretical details of these various computational methods and their application, and require critical reading of literature papers and computation of materials properties.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

MATE 251 - Advanced Solid State Thermodynamics

3 unit(s)

Thermodynamics of phase changes, nucleation and growth, martensitic changes, diffusion, rate theory, structural changes accompanying transformation, applications of theoretical concepts to materials development.

Prerequisite(s): MATE 115 and MATE 151 (or equivalent).

Grading: Letter Graded

MATE 260 - Theory of Semiconductor Materials

3 unit(s)

Advanced theory of constitution, structure and energy bands in semiconductors; material requirements of devices; different methods of doping, interconnection, isolation of circuits, material processing and failure analysis.

Prerequisite(s): MATE 25, MATE 115, MATE 153 or MATE 129 (or equivalent).

Grading: Letter Graded

MATE 261 - Semiconductor Process Equipment

3 unit(s)

Covers the fundamental principles of equipment used in semiconductor processing. Basic vacuum technology will be covered, as well as processing tools such as CVD, PVD, ALD, Oxidation, Ion Implanter, Ion Beam Etcher, Plasma Etcher, Asher, Diffusion, and Thermal Processing. Both wet and dry tools, including basic plasma principles, will be included.

Grading: Letter Graded

MATE 262 - Semiconductor Wafer Processing

3 unit(s)

Advanced process design, fabrication and testing of transistors for analog integrated circuits. Design of statistical process control procedures for yield management will be covered. Industry standard TCAD tools and IC fabrication equipment will be used extensively in lab.

Grading: Letter Graded

MATE 263 - Semiconductor Device Reliability and Failure Mechanisms

3 unit(s)

Overview of semiconductor device reliability in terms of the reliability criteria, reliability testing methodologies, and accelerated lifetime test methods. Various industry cases studies on failure model analysis and failure mitigation techniques will also be presented.

Grading: Letter Graded

MATE 265 - Principles of Nanomaterials

3 unit(s)

The fundamental properties of nanomaterials including thermodynamic, mechanical, electrical, magnetic, optical and biochemical properties and synthesis and characterization. Applications including nanomaterials for structural composites, memory and logic devices, clean renewable energy technologies, bio materials in drug delivery, and aerospace applications.

Prerequisite(s): CHEM 1A, EE 98, MATH 33A, PHYS 51, MATE 25, and MATE 153.

Grading: Letter Graded

Sustainability Related - SDG 7: Affordable and Clean Energy

MATE 270 - Methods of Thin Film Deposition

3 unit(s)

Chemical and physical methods of thin film deposition including evaporation, sputtering, chemical vapor deposition, and electroplating. Thermodynamics and kinetics of growth; considerations for reactor design; control of deposition to alter film properties; deposition processes used for metals, dielectrics and

semiconductors.

Prerequisite(s): MATE 152 (or equivalent).

Grading: Letter Graded

MATE 280 - Graduate Research

2 unit(s)

Supervised individual research or directed studies for the student with adequate preparation. Students must have a research advisor and topic.

Course may be repeated for credit for a maximum of 10 units.

Grading: Credit/No Credit.

Note(s): Only students doing research on campus are eligible for MATE 280. Only one section of MATE 280/280I can be taken per semester. Not available to Open University students.

MATE 280I - Graduate Research Internship

2 unit(s)

Supervised individual research or directed studies for the student with adequate preparation. Students must have a research advisor and topic.

Course may be repeated for credit for up to 10 units.

Grading: Credit/No Credit.

Note(s): Not available to Open University students. This course is for students completing their research work at an off-campus location. Only one section of MATE 280/280I/282 can be taken per semester.

MATE 281 - MS Thesis/Project Preparation Seminar

3 unit(s)

Development of project or thesis proposal.

Lecture 2 hours/ Lab 3 hours.

Prerequisite(s): Classified standing, completion of minimum 9 units towards MS degree, candidacy form submitted, satisfactory completion of university graduate writing requirement.

Grading: Credit/No Credit.

Cross-listed with CHE 281. Materials Engineering is responsible for scheduling.

MATE 282 - Applied Graduate Research

3 unit(s)

Supervised master's research project directed by an SJSU faculty member research advisor. Students must be working on their master's experimental research at least 12-15 hours per week, and submit SJSU research advisor approved confirmation of research hours completed each week.

Course is repeatable for credit for up to 6 units.

Prerequisite(s): CHE 200

Grading: Credit/No Credit.

Note(s): Not available to Open University students.

MATE 283C - Graduate Curricular Practical Training

1-3 unit(s)

Curricular Practical Training (CPT) for graduate students. A report is required at the end of the semester.

Course is repeatable for credit for up to 6 units.

Prerequisite(s): Graduate standing, in good standing, and completed at least one semester of master's level work at SJSU.

Grading: Credit/No Credit.

Note(s): Not available to Open University students. This course is for students completing their Curricular Practical Training (CPT) at an off-campus location.

MATE 297 - Special Topics in Materials Engineering

1-4 unit(s)

Special topics to augment regularly-scheduled graduate courses.

Prerequisite(s): Graduate standing or instructor permission.

Grading: Letter Graded

Note(s): By arrangement only.

MATE 298 - MS Research/Project

1-2 unit(s)

Master's project work in Materials Engineering.

Prerequisite(s): Advancement to candidacy; MATE 281 (co-requisite with research advisor approval). Not available to Open University Students.

Grading: Credit/No Credit/RP.

MATE 298I - Master's Project Internship

1-2 unit(s)

For students completing their MATE Master's Plan B (Project) work at an off-campus location.

Course may be repeated for credit for up to 2 units.

Grading: Mandatory Credit/No Credit/RP

MATE 299 - Master's Thesis

1-3 unit(s)

Master's thesis work in Materials Engineering.

Prerequisite(s): Advancement to candidacy; MATE 281 (co-requisite with research advisor approval). Not available to Open University Students.

Grading: Credit/No Credit/RP.

MATE 299I - Master's Thesis Internship

1-3 unit(s)

For students completing their MATE Master's thesis work at an off-campus location.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): MATE 281, MATE 298. MATE 298 may be taken concurrently with instructor approval. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

MATE 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on dissertation, thesis, or project or in preparation for comprehensive exams beyond the minimum required units for cases in which final deliverables are still in progress and all other degree requirements except the culminating experience have been fulfilled.

Prerequisite(s): Outstanding RP grade in a previous semester in MATE 298 or MATE 299

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit

Mathematics and Statistics

MATH 1 - Mathematical Reasoning

3 unit(s)

Focus on foundational mathematical skills and knowledge in the context of contemporary society.

Satisfies B4: Mathematics/Quantitative Reasoning.

Corequisite(s): MATH 1001S required for Math Enrollment Categories M-III and M-IV. Allowed Declared Majors: College of Engineering, College of Science, College of Business, Economics, Forensic Science, Packaging, or Undeclared.

Grading: Letter Graded

MATH 10 - Mathematics for General Education

3 unit(s)

Topics include methods of proof, problem solving, trigonometry, probability, statistics, applications to

scheduling and apportionment, population studies, consumer math, theory of games, polyhedra, networks, graph theory, linear programming.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Math Enrollment Category M-I or M-II, or MATH 1 with a grade of C- or better.

Grading: Letter Graded

MATH 10A - Mathematics in Art and Music

3 unit(s)

An accessible look into some beautiful ideas of mathematics in art and music. Topics include plane symmetries, tilings, perspective drawing, musical intervals, scales and temperament, timbre and periodic functions.

Satisfies B4: Mathematics/Quantitative Reasoning.

Corequisite(s): MATH 1010AS required for Math Enrollment Categories M-III and M-IV.

Grading: Letter Graded

MATH 10D - Probability, Data Science, Ethics, and You

3 unit(s)

An accessible introduction to the basic principles of probability and data science with a focus on ethical considerations.

Satisfies B4: Mathematics/Quantitative Reasoning.

Corequisite(s): MATH 1010DS required for Math Enrollment Categories M-III and M-IV.

Grading: Letter Graded

MATH 10P - Mathematics in Politics

3 unit(s)

An accessible look into some beautiful ideas of mathematics in politics. Topics include voting systems, apportionment and gerrymandering.

Satisfies B4: Mathematics/Quantitative Reasoning.

Corequisite(s): MATH 1010PS required for Math Enrollment Categories M-III and M-IV.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

MATH 12 - Number Systems

3 unit(s)

Structure of the real number system, numeration systems, elementary number theory, and problem-solving techniques; technology integrated throughout the course.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Two years of high school algebra; one year of high school geometry; Math Enrollment Category M-I or M-II, or GE Area B4 completed with a grade of C- or better.

Grading: Letter Graded

Note(s): This course is intended for future elementary teachers. The sequence of MATH 12, MATH 105, and MATH 106 satisfies subject matter competence in K-8 mathematics.

MATH 15 - Statway: Statistics-Concepts & Methods

3 unit(s)

Concepts and methods of statistics with an emphasis on data analysis. Topics include methods for collecting data, graphical and numerical descriptive statistics, correlation, simple linear regression, basic concepts of probability, confidence intervals and hypothesis tests for means and proportions, and chi-square tests.

Lecture 1 hour / Activity 4 hours

Satisfies Completion with a grade of C- or better satisfies the GE Area B4: Mathematics/Quantitative Reasoning requirement.

Grading: Letter Graded

Cross-listed with UNVS 15. Mathematics and Statistics is responsible for scheduling.

MATH 18A - College Algebra

3 unit(s)

Review of basic algebra. Complex numbers, functions, graphs, polynomials, inverse functions, exponential and logarithmic functions.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Math Enrollment Category M-I, M-II, or M-III; or MATH 1 with a grade of C- or better. MATH 1018AS required as a corequisite for Enrollment Categories M-III and M-IV, and recommended for Enrollment Category M-II.

Corequisite(s): MATH 18AW recommended.

Grading: Letter Graded

MATH 18AW - College Algebra Workshop

1 unit(s)

Students work in groups on college algebra material to help them understand college algebra concepts more thoroughly since it is the groundwork for success in future math courses.

Misc/Lab: Activity 3 hours.

Course may be repeated for credit for up to 3 units.

Corequisite(s): MATH 18A

Grading: Credit/No Credit

MATH 18B - Trigonometry

3 unit(s)

Trigonometric functions: Unit circle, right triangle, analytic; trigonometric identities. Analytic geometry (conic sections). Other topics chosen from: polar coordinates and complex numbers; vectors in two and three dimensions.

Prerequisite(s): MATH 18A with a grade of "C-" or better.

Grading: Letter Graded

Note(s): With MATH 18A, preparation for MATH 30/MATH 30X.

MATH 18BW - Trigonometry Workshop

1 unit(s)

Students work in groups on trigonometry material presented in MATH 18B, to help them understand trigonometry concepts more thoroughly.

Activity 3 hours.

May be repeated for credit for up to 3 units.

Corequisite(s): MATH 18B.

Grading: Credit/No Credit

MATH 19 - Precalculus

5 unit(s)

Preparation for calculus: polynomial, rational, exponential, logarithmic and trigonometric functions; analytic geometry.

Lecture 4 hours/Lab 3 hours.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Math Enrollment Category M-I, M-II, or M-III; or MATH 1 with a grade of C- or better.

Corequisite(s): MATH 1019S required as a corequisite for Enrollment Category M-III, and recommended for Enrollment Category M-II.

Grading: ABC-/No Credit.

MATH 30 - Calculus I

3 unit(s)

Introduction to calculus including limits, continuity, differentiation, applications and introduction to integration. Graphical, algebraic and numerical methods of solving problems.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Math Enrollment Category M-I or M-II and satisfactory score on the Precalculus Proficiency Assessment; MATH 19 with a grade of B or better to waive the exam; or MATH 18A and MATH 18B, with a grade of B or better in each to waive the exam.

Grading: Letter Graded

Note(s): Students repeating MATH 30 are not eligible for this class and must take MATH 30X, but grade forgiveness can apply. MATH 30X is replacing MATH 30P and MATH 30PL.

MATH 30W - Calculus I Workshop

2 unit(s)

Designed to help all students excel in Calculus I. Students work in groups on challenging calculus problems to help them understand the concepts in Calculus I more deeply and lay the groundwork for success in future math courses.

Lab 6 hours.

Corequisite(s): MATH 30X.

Grading: Credit/No Credit

Note(s): The workshop is 2 units. Activities in this workshop include embedded Precalculus review as well as Calculus I material.

MATH 30X - Calculus I

3 unit(s)

Introduction to calculus including limits, continuity, differentiation, applications, and introduction to integration. Graphical, algebraic and numerical methods of solving problems.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Math Enrollment Category M-I, M-II, or M-III and satisfactory score on the Precalculus Proficiency Assessment; MATH 19 with a grade of C- or better to waive the exam; or MATH 18A and MATH 18B with a grade of C- or better in each to waive the exam.

Corequisite(s): MATH 30W.

Grading: Letter Graded

Note(s): MATH 30X is treated as a repeat for students who have taken MATH 30. MATH 30X is replacing MATH 30P and MATH 30PL.

MATH 31 - Calculus II

4 unit(s)

Definite and indefinite integration with applications. Sequences and series. Graphical, algebraic and numerical methods of solving problems.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): AP Calculus AB score 4 to 5, AP Calculus BC/AB Subscore 4-5, or MATH 30 or MATH 30X (with a grade of B or better).

Grading: Letter Graded

Note(s): Passing this course with a grade of "C-" or better course fulfills GE Area B4. Students who are repeating MATH 31 or MATH 31X are not eligible for this class and must take MATH 31X.

MATH 31W - Calculus II Workshop

1 unit(s)

Support for students to excel in Calculus II. Students work in groups on challenging calculus problems to help them understand the concepts in Calculus II more deeply and lay the groundwork for success in future math courses.

Lab 3 hours.

Course is repeatable for up to 3 units.

Corequisite(s): MATH 31X.

Grading: Credit/No Credit

MATH 31X - Calculus II

4 unit(s)

Definite and indefinite integration with applications. Sequences and series. Graphical, algebraic and numerical methods of solving problems.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): AP Calculus AB score 3 to 5, AP Calculus BC/AB Subscore 3-5, or MATH 30 or MATH 30X (with a grade of C- or better).

Corequisite(s): MATH 31W.

Grading: Letter Graded

Note(s): Passing this course with a grade of "C-" or better course fulfills GE Area B4. Students who are repeating MATH 31 or Math 31X are not eligible for this class and must take Math 31X.

MATH 32 - Calculus III

3 unit(s)

Functions of more than one variable, partial derivatives, multiple integrals and vector calculus. Graphical, algebraic and numerical methods of solving problems.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Score of 4 to 5 on the AP Calculus BC Exam; or MATH 31 or MATH 31X with a grade of B or better.

Grading: Letter Graded

Note(s): Students who are repeating MATH 32 must take MATH 32X.

MATH 32H - Honors Multivariable Calculus

4 unit(s)

Functions of more than one variable, partial derivatives, and multiple integrals. Vector fields, line and surface integrals, Green's Theorem, Stokes' Theorem, Divergence Theorem. Applications to engineering and science.

Misc/Lab: Lecture 3 hours/Lab 3 hours

Prerequisite(s): A score of 4 or 5 on the AP Calculus BC exam or Instructor Consent.

Grading: Letter Graded

MATH 32W - Calculus III Workshop

1 unit(s)

Designed to promote students to excel in Calculus III. Students work in groups on Calculus III material to help them understand Calculus III concepts more thoroughly.

Lab 3 hours.

Course is repeatable for up to 3 units.

Corequisite(s): MATH 32X.

Grading: Credit/No Credit

MATH 32X - Calculus III

3 unit(s)

Functions of more than one variable, partial derivatives, multiple integrals and vector calculus. Graphical, algebraic and numerical methods of solving problems.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Score of 3 to 5 on the AP Calculus BC Exam; or MATH 31 or MATH 31X with a grade of C- or better.

Corequisite(s): MATH 32W.

Grading: Letter Graded

MATH 33A - Ordinary Differential Equations for SCI & ENGR

3 unit(s)

First order differential equations, first order linear systems, second order linear equations, applications, Laplace transforms, series solutions.

Prerequisite(s): MATH 32 or MATH 32H or MATH 32X (with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

MATH 33LA - Differential Equations and Linear Algebra

3 unit(s)

Matrices, determinants, systems of linear equations, vector geometry, linear transformations, eigenvalues and eigenvectors, diagonalization, first order differential equations, linear systems of differential equations, higher order differential equations, Laplace transforms.

Prerequisite(s): MATH 31 or MATH 31X (with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

MATH 39 - Linear Algebra I

3 unit(s)

Matrices, systems of linear equations, vector geometry, matrix transformations, determinants, eigenvectors and eigenvalues, orthogonality, diagonalization, applications, computer exercises. Theory in R^n emphasized; general real vector spaces and linear transformations introduced.

Prerequisite(s): MATH 31 or MATH 31X (with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

MATH 42 - Discrete Mathematics

3 unit(s)

Sets, logic, methods of proof including mathematical induction, functions, relations, elementary combinatorics, probability, Boolean algebras.

Prerequisite(s): Math Enrollment Category M-I or M-II and satisfactory score on the Precalculus Proficiency Assessment; AP Calculus AB score 4 to 5, AP Calculus BC score 4 to 5, or AP Pre-Calculus score 4 to 5 to waive the exam; MATH 19 with a grade of "B" or better to waive the exam; or MATH 18A and MATH 18B, with a grade of "B" or better in each to waive the exam.

Grading: Letter Graded.

Note(s): Students who are repeating MATH 42 and MATH 42X are not eligible for this class and must take MATH 42X.

Cross-listed with CS 42. Mathematics and Statistics is responsible for scheduling.

MATH 42W - Discrete Math Workshop

1 unit(s)

Designed to promote students to excel in Discrete Mathematics. Students work in groups on challenging discrete math problems to help them understand the concepts in discrete math more deeply and lay the groundwork for success in future courses.

Lab 3 hours.

Course is repeatable for up to 3 units.

Corequisite(s): MATH 42X.

Grading: Credit/No Credit

MATH 42X - Discrete Mathematics

3 unit(s)

Sets, logic, methods of proof including mathematical induction, functions, relations, elementary combinatorics, probability, Boolean algebras.

Prerequisite(s): Math Enrollment Category M-I, M-II, or M-III and satisfactory score on the Precalculus Proficiency Assessment; AP Calculus AB score 4 to 5, AP Calculus BC score 4 to 5, or AP Pre-Calculus score 4 to 5 to waive the exam; MATH 19 with a grade of C- or better to waive the exam; or MATH 18A and MATH 18B with a grade of C- or better in each to waive the exam.

Corequisite(s): MATH 42W.

Grading: Letter Graded.

Cross-listed with CS 42X. Mathematics and Statistics is responsible for scheduling.

MATH 50 - Scientific Computing I

2 unit(s)

Computer systems and structured programming, emphasizing solutions of problems in the atmospheric sciences using Python programming. Includes the UNIX operating system, mass data handling and data visualization.

Lecture 1 hour/Lab 3 hours.

Prerequisite(s): MATH 30 or MATH 30X.

Corequisite(s): For METR majors: MATH 31 or MATH 31X, METR 60, PHYS 50. For Climate Science majors: METR 60 and CHEM 1A.

Grading: Letter Graded

Cross-listed with CS 50 / METR 50. Meteorology and Climate Science is responsible for scheduling.

MATH 70 - Mathematics for Business

3 unit(s)

Systems of linear equations, financial mathematics, conceptual calculus, probability and statistics. Emphasis on business and economics applications with a focus on concepts and interpretation.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): MATH 18A or MATH 19 with a grade of B or better. A satisfactory score on the Precalculus Proficiency Assessment, or SAT Math score of 550+ (old version) or 570+ (revised score), or ACT Math score of 23+ waives this prerequisite.

Grading: Letter Graded

Note(s): Students repeating Math 70 are not eligible for this class and must take Math 70X.

MATH 70W - Mathematics for Business Workshop

1 unit(s)

Designed to help all students excel in Mathematics for Business. Students work in groups on challenging problems to help them understand the concepts in business math more deeply and lay the groundwork for success in future courses.

Lab 3 hours.

Course is repeatable for up to 3 units.

Corequisite(s): MATH 70X

Grading: Credit/No Credit

MATH 70X - Mathematics for Business

3 unit(s)

Systems of linear equations, financial mathematics, conceptual calculus, probability and statistics. Emphasis on business and economics applications with a focus on concepts and interpretation.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): MATH 18A or MATH 19 with a grade of C- or better. A satisfactory score on the Precalculus Proficiency Assessment, or SAT Math score of 550+ (old version) or 570+ (revised score), or ACT Math score of 23+ waives this prerequisite.

Corequisite(s): MATH 70W

Grading: Letter Graded

MATH 71 - Calculus for Business and Aviation

3 unit(s)

Functions and graphs, limits, continuity, differentiation, integration, partial differentiation. Emphasis on business and economics applications.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): MATH 18A or MATH 19 with a grade of B or better. A satisfactory score on the Precalculus Proficiency Assessment, or SAT Math score of 550+ (old version) or 570+ (revised score), or ACT Math score of 23+ waives this prerequisite. For detailed information and exceptions for the 2021-2022 Academic Year, visit sjsu.edu/math/calculus/Assessment.

Grading: Letter Graded

Note(s): Students repeating MATH 71 are not eligible for this class and must take MATH 71X.

MATH 71W - Calculus Workshop for Business/Aviation

1 unit(s)

Designed to help all students excel in Calculus for Business/Aviation. Students work in groups on challenging calculus problems to help them understand the concepts in calculus more deeply and lay the groundwork for success in future courses.

Lab 3 hours.

Course is repeatable for up to 3 units.

Corequisite(s): MATH 71X.

Grading: Credit/No Credit

MATH 71X - Calculus for Business and Aviation

3 unit(s)

Functions and graphs, limits, continuity, differentiation, integration, partial differentiation. Emphasis on business and economics applications.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): MATH 18A or MATH 19 with a grade of C- or better. A satisfactory score on the Precalculus Proficiency Assessment, or SAT Math score of 550+ (old version) or 570+ (revised score), or

ACT Math score of 23+ waives this prerequisite. For detailed information and exceptions for the 2021-2022 Academic Year, visit sjsu.edu/math/calculus/Assessment.

Corequisite(s): MATH 71W.

Grading: Letter Graded

MATH 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

MATH 102 - Secondary School Mathematics

3 unit(s)

Secondary school mathematics from an advanced viewpoint, plus topics from higher mathematics. Emphasizes inductive reasoning in problem solving. Applications useful to junior and senior high school teachers.

Prerequisite(s): Equivalent of mathematics minor (with 9 upper division units) or instructor consent.

Grading: Letter Graded

MATH 105 - Concepts in Mathematics, Probability, Statistics

3 unit(s)

Introduction to functions and algebraic reasoning, introduction to probability, data, graphs, statistics, problem solving; technology integrated throughout the course. This course is intended for future elementary teachers. The sequence of MATH 12, MATH 105, and MATH 106 satisfies subject matter competence in K-8 mathematics.

Prerequisite(s): Two years of high school algebra, one year of high school geometry, MATH 12 with a "C-" or better.

Grading: Letter Graded

MATH 106 - Intuitive Geometry

3 unit(s)

Introductory geometry, measurement, inductive and deductive reasoning, introduction to transformations, and problem-solving techniques; technology integrated throughout the course. This course is intended for future elementary teachers. The sequence of MATH 12, MATH 105, and MATH 106 satisfies subject matter competence in K-8 mathematics.

Prerequisite(s): MATH 12 and MATH 105 with grades of "C-" or better

Grading: Letter Graded

MATH 108 - Introduction to Abstract Mathematics and Proofs

3 unit(s)

The course purpose is to develop students' mathematical maturity and skill with proofs. Material covered includes logic; set theory including functions, relations, and cardinality; the real number system, including the completeness axiom; and selected topics.

Prerequisite(s): MATH 31 or MATH 31X, and MATH 42 or MATH 42X (each with a grade of "C-" or better). Or instructor consent.

Grading: Letter Graded

MATH 112 - Vector Calculus

3 unit(s)

Vector fields, line and surface integrals, Green's Theorem, Stokes' Theorem, Divergence Theorem and advanced topics such as differential forms or applications to mechanics, fluid mechanics, or electromagnetism.

Prerequisite(s): MATH 32 or MATH 32X (with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

MATH 115 - Modern Geometry and Transformations

3 unit(s)

Synthetic and analytic theory of projective transformations, similarities, Euclidian motions, inversive geometry and an introduction to non-Euclidean geometry.

Prerequisite(s): MATH 31 or MATH 31X (with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

MATH 126 - Theory of Numbers

3 unit(s)

Divisibility, prime numbers, congruences of first and higher degrees, theorems of Fermat, Euler and Wilson. Quadratic residues.

Prerequisite(s): MATH 31 or MATH 31X, and MATH 42 or MATH 42X (each with a grade of "C-" or better). Or instructor consent.

Grading: Letter Graded

MATH 127 - Applied and Industrial Algebra

3 unit(s)

Fundamental topics of abstract algebra (groups, rings, fields) from the viewpoint of real-world application, such as coding theory, robotics, algorithm design, cryptography, integrated circuit design, and signal processing.

Prerequisite(s): MATH 42 or MATH 42X, and MATH 39 (each with a C- or better). Or instructor consent.

Grading: Letter Graded

MATH 128A - Abstract Algebra I

3 unit(s)

Group theory: permutation groups, abelian groups, morphism theorems, finite groups. Introduction to rings and fields.

Prerequisite(s): MATH 108 and MATH 39 (each with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

MATH 128B - Abstract Algebra II

3 unit(s)

Emphasis on rings, integral domains, fields, field extensions, Galois theory.

Prerequisite(s): MATH 128A (with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

MATH 129B - Linear Algebra II

3 unit(s)

Continuation of MATH 39. Abstract vector spaces and linear transformations, diagonalization, Cayley-Hamilton theorem, minimal polynomials, Jordan canonical form. Selected topics from inner product and adjoint, duality, rational canonical form and applications.

Prerequisite(s): MATH 108 and MATH 39 (each with a grade of "C-" or better). Or instructor consent.

Grading: Letter Graded

MATH 131A - Introduction to Analysis

3 unit(s)

Properties of real numbers including completeness and compactness. Continuous functions, uniform continuity, the derivative.

Prerequisite(s): MATH 32 or MATH 32X, and MATH 108 (each with a grade of "C-" or better). Or instructor consent.

Grading: Letter Graded

MATH 131B - Introduction to Real Variables

3 unit(s)

The theory of the Riemann integral, sequences and series of functions, spaces of functions.

Prerequisite(s): MATH 131A (with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

MATH 132 - Advanced Calculus

3 unit(s)

Calculus of several variables; Jacobian, inverse and implicit function theorems, contracting mapping theorem, change of variables in integration and applications.

Prerequisite(s): MATH 32 or MATH 32X, and MATH 39 (each with a grade of "C-" or better). Or instructor

consent.

Grading: Letter Graded

MATH 133B - Partial Differential Equations

3 unit(s)

Partial differential equations of physics and engineering, Fourier series, Legendre polynomials, Bessel functions, orthogonal functions, the Sturm-Liouville equation.

Prerequisite(s): One of MATH 33A, MATH 33LA, or MATH 34 ; and one of MATH 112 or MATH 132. All with a grade of C- or better.

Grading: Letter Graded

MATH 134 - Ord. Diff. Eqns and Dynamical Systems

3 unit(s)

First order differential equations and phase lines. Linear systems. Phase portraits. Classification of planar linear systems. Existence and uniqueness of solutions. Flows. Stability of equilibria and periodic orbits. Applications in the physical sciences and engineering.

Prerequisite(s): MATH 39 and one of MATH 33A, MATH 33LA, or MATH 34 (with a grade of C- or better). Allowed Declared Major: Mathematics major or minor.

Grading: Letter Graded

MATH 138 - Complex Variables

3 unit(s)

Analytic functions, complex integration, residues and power series.

Prerequisite(s): MATH 32 or MATH 32X (with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

MATH 142 - Introduction to Combinatorics

3 unit(s)

Sets, permutations, combinations, probability, mathematical induction, counting techniques, generating functions, partitions, recurrence relations, inclusion-exclusion. Polya's theorem and applications to computer science, mathematics, engineering and physical sciences.

Prerequisite(s): MATH 31 or MATH 31X, and MATH 42 or MATH 42X (each with a grade of "C-" or better). Or instructor consent.

Grading: Letter Graded

MATH 143C - Numerical Analysis and Scientific Computing

3 unit(s)

Development and comparison of important algorithms for scientific computing in terms of efficiency, accuracy and reliability. Topics include nonlinear equations, interpolation, approximation theory, differentiation, integration, differential equations, numerical stability and error analysis. Substantial assignments using contemporary software packages and professional subprogram libraries.

Prerequisite(s): MATH 32 or MATH 32X, one of CS 22A, MATH 50, CS 46A, CS 49C or CS 49J, one of MATH 33A, MATH 33LA, or MATH 34 (with a grade of "C-" or better in each); or instructor consent.

Grading: Letter Graded

Cross-listed with CS 143C / METR 143C. Mathematics and Statistics is responsible for scheduling.

MATH 143M - Numerical Analysis and Scientific Computing

3 unit(s)

Development and comparison of important algorithms for scientific computing in terms of efficiency, accuracy and reliability. Topics include systems of linear equations-direct and iterative methods, least squares problems, eigenvalues and eigenvectors, numerical stability and error analysis. Substantial assignments using contemporary software packages and professional subprogram libraries.

Prerequisite(s): MATH 39, one of CS 22A, MATH 50, CS 46A or CS 49C (each with a grade of "C-" or better). Or instructor consent.

Grading: Letter Graded

Cross-listed with CS 143M. Mathematics and Statistics is responsible for scheduling.

MATH 146 - An Introduction to Mathematical Cryptography

3 unit(s)

Introduction to mathematics that has been useful in cryptography with a focus on the underlying mathematics (abstract algebra, number theory, probability, and combinatorics), and supporting applications (encryption, hash functions, blockchain). Additional topics may be covered.

Prerequisite(s): MATH 42 or MATH 42X, and MATH 39 (each with C- or better), or instructor consent.

Grading: Letter Graded

Note(s): Recommended (but not required) one of MATH 108, MATH 126, MATH 127, MATH 142, MATH 163.

MATH 150 - Theory of Interest

3 unit(s)

Measurement of interest; time value of money; present and future values of cash flows; applications to annuities, loans, sinking funds, bonds, and portfolios; duration and immunization.

Prerequisite(s): MATH 161A or ISE 130, or instructor consent

Grading: Letter Graded

MATH 151 - Fundamentals of Data Science

3 unit(s)

Introduction to data mining for Applied Mathematics major. Topics: data cleaning, proximity and similarity measures, dimension reduction, regression, classification, clustering, privacy, and ethics.

Prerequisite(s): MATH 39, MATH 163, and MATH 167R, all with a C- or better, or instructor consent.

Allowed Declared Major: Applied Mathematics or Mathematics major or any Mathematics minor.

Grading: Letter Graded

MATH 161A - Applied Probability and Statistics I

3 unit(s)

Descriptive and inferential statistics. Collection and analysis of data, discrete and continuous probability models, random variables, Central Limit Theorem, confidence intervals, hypothesis testing.

Prerequisite(s): MATH 31 or MATH 31X (with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

MATH 161B - Applied Probability and Statistics II

3 unit(s)

A continuation of MATH 161A. Two sample confidence intervals and hypothesis tests, analysis of variance, simple and multiple regression, chi-square tests of homogeneity and goodness-of-fit, other topics as time permits. Use of statistical software is integral to the course. Student project required.

Prerequisite(s): MATH 161A (with a grade of "C-" or better), or instructor consent

Grading: Letter Graded

MATH 161C - Applied Probability and Statistics III

3 unit(s)

A continuation of Math 161B. Parametric and non-parametric procedures, model adequacy checking and model validation for linear models, models for non-continuous response, categorical data analysis. Use of statistical software is integral to the course.

Prerequisite(s): MATH 161B (with C- or better) or equivalent (with instructor consent).

Grading: Letter Graded

MATH 162 - Statistics for Bioinformatics

3 unit(s)

Introduction to the theory and applications of statistical methodology in the biological sciences. Topics include inference, stochastic processes, Markov chains, hidden Markov models, clustering, and gene expression analysis. Applications to current molecular biology and genetics problems. No biology background required.

Prerequisite(s): MATH 161A (with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

MATH 163 - Probability Theory

3 unit(s)

Probability axioms; random variables; marginal and conditional density and distribution functions; binomial, geometric, Poisson, gamma and normal probability laws; mathematical expectations, moment generating functions; limit theorems; sampling distributions.

Prerequisite(s): MATH 32 or MATH 32X, and MATH 161A (each with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

MATH 163W - Probability Workshop

1 unit(s)

Corequisite workshop designed to help all students succeed in MATH 163. Students work in groups on probability problems and review material from MATH161A and MATH 32 or MATH 32X as necessary.

Course is repeatable for up to 2 units.

Grading: Credit/No Credit

MATH 164 - Mathematical Statistics

3 unit(s)

Statistical models, point estimation, finite- and large-sample properties of point estimators, best unbiased estimation, sufficient statistics, interval estimation, and tests of hypotheses.

Prerequisite(s): MATH 163 (with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

MATH 167PS - Introduction to Python Programming and SQL

3 unit(s)

Introduction to Python: data types, control flow, functions. Python for data science: manipulating arrays and data frames (Numpy and Pandas), data visualization (Matplotlib). Applications in Machine Learning (SciKitLearn). SQL basics: designing and accessing a relational database, performing database administration, and writing queries of intermediate complexity.

Prerequisite(s): MATH 39, MATH 161A, and MATH 167R, all with a C- or better, or instructor consent.

Allowed declared major: Mathematics, Statistics, Data Science, or Bioinformatics.

Grading: Letter Graded

MATH 167R - Statistical Programming with R

3 unit(s)

Introduction to the R programming language. Topics include data structures, reading and writing data, databases, data visualization, accessing and creating packages, programming structures and functions.

Prerequisite(s): MATH 161A with a grade of "C-" or better. Allowed Declared Major: Mathematics major/minor, MS Statistics, MS Data Science, or MS Bioinformatics.

Grading: Letter Graded.

MATH 170 - Mathematical Modeling for the Life Sciences

3 unit(s)

Mathematical models used in biology and other life sciences, discrete and continuous processes, mathematical methods for analyzing solutions to the above models, interpretation of mathematical results.

Prerequisite(s): MATH 39 and one of MATH 33A or MATH 34 (both with a grade of C- or better); or MATH 33LA (with a grade of C- or better).

Grading: Letter Graded

MATH 177 - Linear and Non-Linear Optimization

3 unit(s)

Linear inequalities, the simplex method and other algorithms, duality, integer optimization, convex optimization, quadratic optimization, game theory.

Prerequisite(s): MATH 32 and MATH 39, both with a grade of C- or better.

Grading: Letter Graded

MATH 178 - Mathematical Modeling

3 unit(s)

Basic modeling techniques including graphing, proportion, curve fitting and interpolation, optimization, probability and computer simulation, derivatives and differences. Technology will be incorporated to model applied problems from business/economics, physical/life/social sciences and engineering.

Prerequisite(s): MATH 39 (with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

MATH 179 - Introduction to Graph Theory

3 unit(s)

Hamiltonian and Eulerian properties, matching, trees, connectivity, coloring problems and planarity. Emphasis on algorithms and applications, including optimal network flows.

Prerequisite(s): MATH 42 or MATH 42X, and MATH 39 (each with a grade of "C-" or better). Or instructor consent.

Grading: Letter Graded

MATH 180 - Individual Studies

1-4 unit(s)

Individual study in a specific field. Not available to Open University Students.

Course may be repeated but only a total of 4 units may count towards the degree.

Prerequisite(s): Department chair consent.

Grading: Credit/No Credit.

MATH 180H - Individual Studies for Honors

3 unit(s)

Senior project on advanced topics in mathematics as determined by the instructor. Written paper and oral presentation of the project required. Intended for students graduating with departmental honors.

Course may be repeated but only 3 units may count towards the degree.

Prerequisite(s): At least junior standing as mathematics major. GPA of 3.5 or higher in the major and department chair consent.

Grading: Credit/No Credit

MATH 180R - Undergraduate Research in Mathematics

1-4 unit(s)

Advanced work in specific fields with variable units 1 to 4. Students will work on research topics in mathematics which will vary depending the instructor(s).

Course may be repeated but only a total of 4 units may count towards the degree

Prerequisite(s): Mathematics major/minor or consent of instructor

Grading: Credit/No Credit

MATH 185 - Special Topics in Mathematics

3 unit(s)

Selected topics in Mathematics. Topics vary each semester. Course is repeatable for a maximum total of 12 units of credit.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Suitable upper division background in mathematics set by instructor.

Grading: Letter Graded

MATH 188I - Student Internships

3 unit(s)

Professional work experience in an area relevant to the students degree objectives. A written report, oral report and evaluation by a supervisor will be used to demonstrate that the goals of the internship experience have been met.

Course may be repeated 3 times for a total of 9 units.

Prerequisite(s): Math department project coordinator consent.

Grading: Credit/No Credit

MATH 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

MATH 203 - Applied Mathematics, Computation, and Statistics Projects

3 unit(s)

Supervised teamwork to solve a substantial problem in mathematics or computer science usually supplied by an outside agency such as a local company. The number of different projects offered and the topics will

vary widely. A project usually continues for two consecutive semesters.

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit/RP.

MATH 221A - Higher Algebra I

3 unit(s)

Topics from groups, rings, integral domains, modules, fields, vector spaces.

Prerequisite(s): MATH 128B or instructor consent.

Grading: Letter Graded

MATH 221B - Higher Algebra II

3 unit(s)

Continuation of MATH 221A with additional advanced topics in algebra selected by instructor.

Prerequisite(s): MATH 221A or instructor consent.

Grading: Letter Graded

MATH 226 - Theory of Numbers

3 unit(s)

Advanced topics in number theory selected by the instructor. Emphasis may be in algebraic number theory (e.g. Diophantine equations), analytic number theory (e.g. the prime number theorem), and/or computational number theory (e.g. cryptography).

Prerequisite(s): MATH 126 and MATH 128A or instructor consent.

Grading: Letter Graded

Note(s): Alternate years.

MATH 229 - Advanced Matrix Theory

3 unit(s)

Eigenvalues, unitary equivalence and Schur's theorem. Normal, Hermitian and symmetric real matrices. Positive definite matrices, polar and singular value factorizations, and selected topics at the discretion of the instructor.

Prerequisite(s): MATH 129B or instructor consent.

Grading: Letter Graded

MATH 231A - Real Analysis

3 unit(s)

Sigma algebras, construction of measures, differentiation, product measures, integration theory, the spaces L^1 and C .

Prerequisite(s): MATH 131B or instructor consent.

Grading: Letter Graded

MATH 231B - Functional Analysis

3 unit(s)

Function spaces and their duals, operators on function spaces, applications to analysis (classical and functional) and topics selected at the discretion of the instructor.

Prerequisite(s): MATH 231A or instructor consent.

Grading: Letter Graded

MATH 233A - Applied Mathematics I

3 unit(s)

Derivation of the partial differential equations of classical mathematical physics. Existence and uniqueness of solutions of first order ordinary and partial differential equations. The classical theory of initial and boundary value problems for hyperbolic, parabolic and elliptic equations. Fourier series and transforms. Nonlinear partial differential equations.

Prerequisite(s): MATH 133B or instructor consent.

Grading: Letter Graded

MATH 234 - Advanced Dynamical Systems

3 unit(s)

Continuous and discrete dynamical systems with applications. Topics include stability of equilibria and closed orbits, structural stability, applications in classical mechanics, biology and engineering, including control systems.

Prerequisite(s): MATH 134 or instructor consent.

Grading: Letter Graded

Note(s): Alternate years.

MATH 238 - Advanced Complex Variables

3 unit(s)

A course specializing in one or more of the advanced branches of the theory of complex functions.

Prerequisite(s): MATH 138 or instructor consent.

Grading: Letter Graded

Note(s): Alternate years.

MATH 243A - Numerical Solution of PDEs

3 unit(s)

Finite difference methods applied to parabolic, elliptic and hyperbolic equations including numerical methods for solving the discretized problem, convergence, stability, error control, and applications.

Prerequisite(s): MATH 143C or MATH 143M or instructor consent.

Grading: Letter Graded

MATH 243M - Numerical Linear Algebra

3 unit(s)

Advanced topics in numerical linear algebra.

Prerequisite(s): MATH 143C or MATH 143M; and instructor consent

Grading: Letter Graded

MATH 250 - Mathematical Data Visualization

3 unit(s)

Matrix computing in software, data plotting in 3 dimensions or less, advanced linear algebra, dimensionality reduction, visualization of high dimensional data, and spectral clustering.

Prerequisite(s): MATH 32 and MATH 39 (each with a grade of B or better), and MATH 163 (with a grade of C or better).

Grading: Letter Graded

MATH 251 - Statistical and Machine Learning Classification

3 unit(s)

Dimensionality reduction, instance-based classification, discriminant analysis, logistic regression, support vector machine, kernel methods, ensemble learning, neural networks and deep learning, classification of nonnumeric data.

Prerequisite(s): MATH 164 and MATH 250.

Grading: Letter Graded

MATH 252 - Cluster Analysis

3 unit(s)

Cluster analysis techniques. Dissimilarities and distances. Hierarchical clustering, distance-based clustering, fuzzy clustering, spectral clustering, subspace clustering, categorical data clustering. Clustering method for high dimensional datasets.

Prerequisite(s): MATH 32 or MATH 32H or MATH 32X, MATH 39 (each with a grade of "B" or better), MATH 163 and MATH 167R or CS 122. Or instructor consent.

Grading: Letter Graded

MATH 257 - Multivariate Data Analysis

3 unit(s)

Multivariate normal distribution, Hotelling's T-squared distribution, data reduction techniques including principal component and factor analysis, canonical correlation analysis, discrimination and classification techniques. Intensive use of computer analysis and real data sets. As time permits, advanced topics chosen by instructor. Possible topics include basis functions, derivative estimation, functional principal components, functional linear model.

Prerequisite(s): MATH 163 and MATH 261A (each with a grade of "B" or better), or instructor consent.

Grading: Letter Graded

MATH 258 - Categorical Data Analysis

3 unit(s)

Distributions for categorical data, descriptive and inferential methods for contingency tables, introduction to generalized linear models, logit models for binary data, and loglinear models for count data.

Prerequisite(s): MATH 261A with a grade of "B" or better

Grading: Letter Graded

MATH 261A - Regression Theory and Methods

3 unit(s)

Simple linear regression, multiple regression, indicator variables, influence diagnostics, transformations, assumption analysis, generalized linear models, nonlinear regression, CART, hypothesis testing, confidence and prediction intervals, variable selection and model building.

Prerequisite(s): MATH 39, and either MATH 161A or MATH 164 (each with grade "B" or better), MATH 163, MATH 167R.

Corequisite(s): MATH 163 and/or MATH 167R may be taken concurrently.

Grading: Letter Graded

MATH 261B - Design and Analysis of Experiments

3 unit(s)

Principles, construction and analysis of experimental designs. ANOVA; randomized blocks, Latin squares, factorial, nested and other designs; fixed and random effects, multiple comparisons, repeated measures. Expected mean squares. Diagnostics and model comparison.

Prerequisite(s): MATH 261A with grade of "B" or better.

Pre/Corequisite(s): MATH 164

Grading: Letter Graded

MATH 263 - Stochastic Processes

3 unit(s)

Introductory course in stochastic processes and their applications. The course will cover random walks, discrete time Markov chains, the Poisson process, continuous time Markov processes, renewal theory and queuing theory.

Prerequisite(s): MATH 39 and MATH 163 (each with a grade of "B" or better).

Grading: Letter Graded

MATH 264 - Bayesian Data Analysis

3 unit(s)

A graduate-level introduction to Bayesian statistical methods for inference. Exchange-ability. Prior, likelihood, posterior and predictive distributions. Hierarchical models. Model checking.

Prerequisite(s): MATH 164 with a "B" or better

Grading: Letter Graded

MATH 265 - Time Series Theory and Methods

3 unit(s)

Analysis of correlated data in time, trends, seasonal patterns, periodicity, autocorrelation, spectral/frequency analysis, filtering, ARIMA models, state-space models, forecasting. Applications from various fields including economics, signal processing, finance, atmospheric science.

Prerequisite(s): MATH 261A with a grade of "B" or better

Grading: Letter Graded

MATH 267 - Computational Statistics

3 unit(s)

Simulation and Monte Carlo methods, Markov chain Monte Carlo, bootstrap and resampling, optimization, and special topics.

Prerequisite(s): MATH 163, MATH 167R, and MATH 261A each with a grade of "B" or better

Grading: Letter Graded

MATH 269 - Statistical Consulting

3 unit(s)

Theoretical and practical aspects of statistical consulting. Development through classwork, group discussion, role-playing and real consulting activities, of tools necessary to conduct effective consulting sessions, present oral arguments and written reports, and work collaboratively to solve problems.

Prerequisite(s): MATH 163, MATH 164, MATH 261A, MATH 261B (each with a grade of "B" or better); and instructor consent.

Grading: Credit/No Credit

Note(s): this course is normally taken in the last semester of the MS Statistics program.

MATH 275A - Topology

3 unit(s)

Topological spaces and associated concepts (e.g., subspaces, product spaces, quotient spaces); continuous functions; compactness, connectedness (including path connectedness) and their local versions; countability and separation axioms; compactifications and Tychonoff's Theorem; paracompactness and metrization theorems.

Prerequisite(s): MATH 131A with a grade of "B" or better; or instructor consent

Grading: Letter Graded

MATH 275B - Advanced Topics in Topology

3 unit(s)

A course specializing in one or more topics from advanced topology such as homotopy and the fundamental group, homology groups of spaces, continuum theory, function spaces, metrization, dimension theory, manifolds, topological groups.

Prerequisite(s): MATH 275A or instructor consent

Grading: Letter Graded

Note(s): Alternate years.

MATH 279A - Graph Theory

3 unit(s)

Advanced course in graph theory covering graphs, digraphs, trees, networks, connectedness, eulerian circuits, hamiltonian cycles, graph embeddings, matchings, factorizations, graph colorings and Ramsey theory.

Prerequisite(s): MATH 179, or both MATH 142 and an upper division algebra class, or instructor consent.

Grading: Letter Graded

Note(s): Alternate years.

MATH 279B - Advanced Graph Theory

3 unit(s)

Advanced topics in modern graph theory selected by instructor. Possible topics are algebraic graph theory, random graph theory, matroid theory, ramsey theory, expander graphs, and others.

Prerequisite(s): MATH 279A or instructor consent.

Grading: Letter Graded

MATH 280 - Graduate Individual Studies

1-3 unit(s)

Individual study in a specific field.

Course may be repeated but only a total of 3 units may count towards the degree.

Prerequisite(s): Department chair consent. Not available to Open University Students.

Grading: Credit/No Credit.

MATH 281 - Research Seminar

1-3 unit(s)

Weekly participation in the department research seminar. Topics will focus on recent developments in mathematics and emphasis will be placed on written and oral presentations.

Course may be repeated but only a total of 3 units may count towards the degree.

Prerequisite(s): Instructor Consent.

Grading: Letter Graded.

MATH 285 - Advanced Topics in Mathematics

3 unit(s)

Selected topics in Mathematics. Topics vary each semester. A maximum of 12 units may be repeated.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Suitable upper division background in mathematics set by instructor.

Grading: Letter Graded

MATH 285A - Advanced Topics in Applied Mathematics

3 unit(s)

Selected topics in Applied Mathematics. Topics vary each semester.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Upper-division coursework in applied mathematics or instructor consent.

Grading: Letter Graded

MATH 285M - Advanced Topics in Pure Mathematics

3 unit(s)

Selected topics in Pure Mathematics. Topics vary each semester.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Upper-division coursework in mathematics or instructor consent.

Grading: Letter Graded

MATH 287 - Professional Development in College Teaching

1 unit(s)

Required for all teaching assistants in the master's program. Practical and technical aspects of college teaching; current pedagogical techniques and educational issues.

Course may be repeated for credit for up to 2 units.

Corequisite(s): TA position in the Mathematics and Statistics Department

Grading: Credit/No Credit

MATH 288I - Statistics Internships

3 unit(s)

Professional work experience under the supervision of a statistician.

Course may be repeated 3 times for a total of 9 units but may only count once towards the degree.

Prerequisite(s): Graduate standing and MS Statistics Project Coordinator consent.

Grading: Mandatory Credit/No Credit/RP

MATH 288J - Applied Mathematics Internship

3 unit(s)

Professional work experience under the supervision of an applied mathematician.

Course may be repeated but only 3 units may count towards the degree.

Prerequisite(s): Graduate standing in the MS Math program and instructor consent.

Grading: Credit/No Credit/RP.

MATH 295E - Mathematics Comprehensive Exam Preparation

3 unit(s)

Preparation for Mathematics Master's Comprehensive Examination. Review of topics and representative problems covered by the various parts of the Exam. CR grade assigned when student has passed both parts of the Comprehensive Exam. Successful completion satisfies graduate Culminating Experience requirement.

Prerequisite(s): Approval of Mathematics Graduate Advisor is required. Students must file for Advancement to Candidacy before enrolling. Not open to students electing Thesis/Writing Project option.

Grading: Mandatory Credit/No Credit/RP

MATH 297A - Preparation for Writing Project, Research Project or Thesis

3 unit(s)

Supervised individual research and project work to prepare for a master's writing project, research project or thesis.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Fully classified standing in the MS/MA Math or MS Statistics program, department chair consent.

Corequisite(s): GVAR

Grading: Credit/No Credit/RP.

MATH 298 - Special Study

1-4 unit(s)

Advanced individual research and writing projects.

Course may be repeated but only a total of 4 units may count towards the degree.

Prerequisite(s): Advancement to candidacy for the MA or MS degree, MATH 297A and instructor consent.

Not available to Open University Students.

Grading: Credit/No Credit/RP.

MATH 299 - Master's Thesis

1-4 unit(s)

Course may be repeated but only a total of 4 units may count towards the degree.

Prerequisite(s): Advancement to candidacy for the MA or MS degree, MATH 297A and instructor consent.

Not available to Open University Students.

Grading: Credit/No Credit/RP.

MATH 1001S - Supported Instruction for MATH 1

1 unit(s)

Reviews relevant background material prior to the corresponding content for MATH 1.

Misc/Lab: Activity 2 hours.

Course may be repeated for credit for up to 3 units.

Corequisite(s): MATH 1. Required corequisite for enrollment category M-III and M-IV students in MATH 1.

Grading: Credit/No Credit/No Degree Credit.

Note(s): No Degree Credit.

MATH 1010AS - Support Course for Math 10A

1 unit(s)

Support course that reviews relevant background material prior to the corresponding content for MATH 10A.

Activity 2 hours

Course may be repeated for credit for up to 3 units.

Prerequisite(s): Required for MATH 10A students in Math Enrollment Categories III/IV.

Grading: Credit/No Credit/No Degree Credit

MATH 1010DS - Support Course for MATH 10D

1 unit(s)

Support course that reviews relevant background material prior to the corresponding content for MATH 10D.

Activity 2 hours.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): Required for MATH 10D students in Math Enrollment Categories III/IV.

Grading: Credit/No Credit/No Degree Credit

MATH 1010PS - Support Course for Math 10P

1 unit(s)

Corequisite support course to review relevant background material prior to the corresponding content for MATH 10P.

Activity 2 hours

Course may be repeated for credit for up to 3 units.

Corequisite(s): Required for MATH 10P students in Math Enrollment Categories III/IV.

Grading: Credit/No Credit/No Degree Credit

MATH 1015W - Statway Supplemental Activity

1 unit(s)

Supplemental activity course for Statway students who complete UNVS 15F (Statway A) with a grade below C-. Includes review of UNVS 15F and supporting activities for UNVS 15.

Misc/Lab: Activity 2 hours.

Course may be repeated for credit for up to 3 units.

Corequisite(s): UNVS 15

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Cross-listed with UNVS 1015W . Mathematics and Statistics is responsible for scheduling.

MATH 1018AS - Support Course for MATH 18A

1 unit(s)

Support course that reviews relevant background material prior to the corresponding content for MATH 18A. Required for Category M-III and Category M-IV students in MATH 18A.

Misc/Lab: Activity 2 hours.

Course may be repeated for credit for up to 3 units.

Corequisite(s): MATH 18A.

Grading: Credit/No Credit/No Degree Credit

Note(s): Credit/No credit, No Degree Credit.

MATH 1019S - Supported Instruction for MATH 19

1 unit(s)

Reviews relevant background material prior to the corresponding content for MATH 19.

Misc/Lab: Activity 2 hours.

Course may be repeated for credit for up to 3 units.

Corequisite(s): Required corequisite for Math Enrollment Category III/IV students in MATH 19.

Grading: Credit/No Credit/No Degree Credit

MATH 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in a project or thesis class

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

MTED 280 - Research in Math Education

3 unit(s)

Theories of learning mathematics; recent trends in mathematics curriculum and pedagogy; types of research in mathematics education; methods of conducting research in mathematics education; developing research questions; conducting library research; and synthesis of research in various areas of mathematics education.

Prerequisite(s): Graduate-level core class for the MA Math, MS Math, or MS Statistics, or instructor consent.

Grading: Letter Graded

Mathematics Education

MTED 184S - Math Education Phase II Seminar

1 unit(s)

This seminar will support the student teaching field experience. Students will be asked to extend their pedagogical content knowledge in light of their phase II experiences and will be supported in the preparation of their Performance Assessment for California Teachers.

Prerequisite(s): EDSC 184X and good standing in the Secondary Education Credential program

Corequisite(s): MTED 184Y and/or MTED 184Z

Grading: Credit/No Credit

MTED 184X - Student Teaching Phase I

4 unit(s)

Student teaching in Mathematics Education (Phase I) is designed to provide students with the experiences they need to be successful in Phase II. During the Phase I semester, student teachers work with their mentor teacher in a mathematics classroom one period each day, with additional times set aside each week to confer, debrief, and plan.

Prerequisite(s): MTED 394

Grading: Credit/No Credit

MTED 184Y - Student Teaching II - Classroom Teaching

4 unit(s)

Minimum 80-120 class periods of classroom teaching, laboratory or field teaching in appropriate single subjects, grades K-12 and related teaching activities. Attendance at a weekly seminar is required.

Prerequisite(s): MTED 394 and joint approval of Mathematics and Education departments.

Grading: Credit/No Credit

MTED 184Z - Student Teaching III - Classroom Teaching

4 unit(s)

Same as MTED 184Y, including the seminar, but in a different course. May be in a different school.

Prerequisite(s): MTED 394 and joint approval of the Mathematics and Teacher Education Departments.

Grading: Credit/No Credit

MTED 394 - Secondary Mathematics Methods

3 unit(s)

The place and function of mathematics in secondary education, improvement and evaluation of instruction. Teaching the subject matter of secondary mathematics.

Prerequisite(s): Passing score on all 3 CSET math exams or be within 3 courses of completing the subject matter preparation program, or instructor consent.

Grading: Letter Graded.

MTED 394F - Middle School Mathematics Methods

3 unit(s)

The place and function of mathematics in middle grades education, improvement and evaluation of instruction. Teaching the subject matter of middle grades mathematics.

Prerequisite(s): EDEL 108D, Passing scores on CSET I and II or Instructor consent.

Grading: Letter Graded

Mechanical Engineering

ME 20 - Design and Graphics

2 unit(s)

Introduction to design and graphical solutions to three-dimensional design problems involving points, lines, surfaces and solids. Development of visualization and technical sketching skills in conjunction with orthographic and pictorial projections. Focus on computer-aided design and graphical analytical methods.

Lecture 1 hour/lab 3 hours.

Pre/Corequisite(s): ENGR 10 for Engineering majors; no requisite for Technology majors.

Grading: Letter Graded

ME 30 - Computer Applications

3 unit(s)

Using a computer to solve engineering problems through programming and the use of engineering application procedures. Use of procedural and informational problem solving methods and practices applied to software design, application, programming and testing.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Grading: Letter Graded

ME 41 - Machine Shop Operations and Safety

1 unit(s)

Introduction to basic machine shop safety and skills. Fabrication of mechanical components and assemblies from engineering drawings, performing tolerance inspection and developing fabrication process plans.

3 hours lab.

Course is repeatable for up to 3 units.

Prerequisite(s): ME 20 or TECH 20A or CE 20 or equivalent.

Grading: Letter Graded

Cross-listed with TECH 41. Technology is responsible for scheduling.

ME 42 - Manufacturing and Machine Shop Projects and Practices

1 unit(s)

Individual manufacturing processes and machine shop practices. Fabrication of mechanical components and assemblies in fulfillment of senior, course, special, and approved student club assignments and projects.

Misc/Lab: 3 hours lab

Course may be repeated for credit for up to 4 units.

Prerequisite(s): TECH 41/ME 41 (with grade "C-" or better).

Grading: Credit/No Credit

Cross-listed with TECH 42. Technology is responsible for scheduling.

ME 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ME 100 - Mechanical Engineering Career Development

1 unit(s)

Further intellectual, personal, and professional growth in Mechanical Engineering. Directed discussions and activities focused on building professional presence and communication strategies for a professional career starting with the internship and ending with employment post-graduation.

Prerequisite(s): ENGL 1B or second semester Composition Course, Mechanical Engineering Majors Only.

Grading: Credit/No Credit

ME 101 - Dynamics

3 unit(s)

Vector mechanics. Two and three dimensional motion of particles and rigid bodies. Force, energy and momentum principles.

Prerequisite(s): CE 95 or CE 99, and MATH 32 or MATH 32X (each with a grade of "C-" or better).
Sophomore or upper division standing. Allowed Declared Majors: Any Engineering.

Grading: Letter Graded

ME 101H - Honors Dynamics

3 unit(s)

Kinematics and dynamics of particles and rigid bodies. Mass distribution, forces, moments, and torques. Principles of work, power, potential and kinetic energy, impulse, and momentum. Laws of motion. Computational solutions to equations governing dynamic systems. Demonstrations and physical examples.

Prerequisite(s): MATH 32 or MATH 32X and either CE 95 or CE 99 (each with a grade of "B" or better).

Grading: Letter Graded

ME 105 - Introduction to Mechatronic Systems

3 unit(s)

Mechatronics for non-ME students. Topics include analog and digital electronics, sensors, actuators, microcontrollers, microcontroller interfacing to electromechanical systems, computer modeling/simulation, and signal processing/control. Includes hands-on laboratory experiments with components used in the design of mechatronic products.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): EE 98, CMPE 30 (or equivalent).

Grading: Letter Graded.

ME 106 - Fundamentals of Mechatronics Engineering

4 unit(s)

Foundational concepts in mechatronics including analog and digital electronics, sensors, actuators, microprocessors and microprocessor interfacing to electromechanical systems. Hands-on laboratory experiments with components and measurement equipment used in the design of mechatronic products.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): EE 98 and ME 30 (or CS 49C or EE 30 or CMPE 30 or their equivalents) (each with a grade of "C-" or better). For Engineering Technology majors: TECH 60 and MATH 71 or MATH 71X (each with a grade of 'C-' or better).

Grading: Letter Graded

Cross-listed with EE 106. Mechanical Engineering is responsible for scheduling.

ME 109 - Heat Transfer in Electronics

3 unit(s)

Introduction to thermodynamics and heat transfer, including conduction, convection and radiation. An emphasis on applications for electronics; including heat transfer in computer components, heat sinks, liquid and air cooling and heat pipes.

Prerequisite(s): EE 98, PHYS 51 and one of the following courses: MATH 39 or MATH 33LA. Allowed Declared Majors: Computer Engineering, Electrical Engineering, Engineering, Industrial and Systems Engineering.

Grading: Letter Graded

Cross-listed with CHE 109. Chemical Engineering is responsible for scheduling.

ME 110 - Manufacturing Processes

3 unit(s)

Fundamentals of manufacturing processes such as machining, forming, casting, molding and welding. Surface treatments, powder-based processes, and microfabrication methods. Materials behavior and selection for manufacturing. Geometric dimensions and tolerancing.

Prerequisite(s): ME 20 with a grade of "C-" or better.

Pre/Corequisite(s): MATE 25.

Grading: Letter Graded

Cross-listed with ISE 110. Mechanical Engineering is responsible for scheduling.

ME 111 - Fluid Mechanics

3 unit(s)

Fluid properties, statics, dynamics of fluids; continuity, linear and angular momentum and energy principles. Viscous and non-viscous flow. Pumps, turbines, flow in pipes and around submerged obstacles. Dimensional analysis and dynamic similitude.

Prerequisite(s): CE 95 or CE 99, and MATH 32 or MATH 32X (each with a grade of "C-" or better).

Sophomore or upper division standing. Allowed Declared Majors: Engineering, Civil Engineering, Industrial and Systems Engineering, Materials Engineering, Mechanical Engineering.

Grading: Letter Graded

ME 113 - Thermodynamics

4 unit(s)

Properties of simple compressible substances, ideal gas and other equations of state. First and Second Laws of Thermodynamics, energy, and irreversibility. Power cycles and refrigeration cycles. Gas mixtures, gas-vapor mixtures, and air conditions processes.

Prerequisite(s): PHYS 52, and MATH 32 or MATH 32X (with a grade of 'C-' or better in each).

Pre/Corequisite(s): ME 111

Grading: Letter Graded

ME 114 - Heat Transfer

3 unit(s)

Conduction, convection and radiation heat transfer with applications. Analytical, experimental, and computational methods of analyzing heat transfer behavior.

Prerequisite(s): MATH 33A or MATH 33LA, and ME 113 (each with a grade of 'C-' or better).

Grading: Letter Graded

ME 115 - Thermal Engineering Laboratory

1 unit(s)

Thermodynamics and heat transfer experiments. Temperature, pressure, and flow rate measurements. Technical reports and presentations.

Lab: 3 hours.

Pre/Corequisite(s): ME 114.

Grading: Letter Graded.

ME 120 - Experimental Methods

2 unit(s)

Theory and practice of experimental methods and sensors for mechanical measurements; statistical and uncertainty analysis; computer-hosted data acquisition, processing and analysis; formal report writing and presentations.

Lecture 1 hour/lab 3 hours.

Prerequisite(s): CE 112 and ENGR 100W (with a grade of 'C-' or better in each).

Pre/Corequisite(s): ME 130. AE majors may use AE 162 and AE 168 to satisfy corequisite requirements.

Grading: Letter Graded

ME 130 - Applied Engineering Analysis

3 unit(s)

Analytic models for physical systems in mechanical engineering. Practical interpretations of analytical solutions. Introduction to linear algebra and statistics.

Prerequisite(s): MATH 33A and ME 101 (each with a grade of "C-" or better). Allowed Declared Majors: Mechanical Engineering.

Pre/Corequisite(s): ME 113.

Grading: Letter Graded

ME 135 - Introduction to Composite Materials

3 unit(s)

Introduction to theory, application, and design with composite materials, including high performance resin-matrix fibrous composites and metal-matrix materials. Topics include materials, test techniques, environmental effects, design considerations, and application requirements.

Prerequisite(s): MATE 25 with a grade of "C-" or better.

Grading: Letter Graded

Cross-listed with MATE 135. Materials Engineering is responsible for scheduling.
Sustainability Related - SDG 12: Responsible Consumption and Production

ME 136 - Design for Manufacturability

3 unit(s)

Principles and practice of design and manufacturability, design parameters; manufacturing techniques; reliability; design for quality, assembly and environmental considerations; case study projects and laboratory activities.

Prerequisite(s): ME 110 and either ME 154 or AE 114, all with C- or better.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

ME 147 - Dynamic Systems Vibration and Control

3 unit(s)

Mathematical representation of dynamic systems. Damped and undamped free and forced vibrations for single and multiple degree of freedom systems. Vibration control and isolation. Dynamic analysis of control systems. Transient response, frequency response and the stability criteria. State-variables approach. Feedback and feedforward compensation. Emphasis on engineering problems involving analysis and design.

Prerequisite(s): ME 130 (with a grade of 'C-' or better). Upper Division Standing. Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering.

Grading: Letter Graded

ME 149 - Engineering Acoustics

3 unit(s)

Generation, transmission and absorption of sound. Noise measurement. Applications to architectural design, control and reduction of noise.

Prerequisite(s): ME 130. Upper division standing.

Grading: Letter Graded

ME 154 - Mechanical Engineering Design

4 unit(s)

Introduction to the design and analysis of mechanisms and machine elements. Linkage synthesis. Kinematic and dynamic analysis of mechanisms. Application of statics, dynamics, strength of materials, static failure theories and fatigue theory to the design of machine components. Threaded fasteners. Group design project.

Prerequisite(s): ME 20, ME 101, CE 112, MATE 25, all with a C- or better. Junior or senior only. Allowed Declared Majors: Any Engineering.

Pre/Corequisite(s): TECH 41/ME 41.

Grading: Letter Graded

ME 157 - Mechanical System Design

3 unit(s)

Introduction to the mechanical design process. Design and selection of specific machine components including springs, bearings, brakes, clutches and gears. Introduction to fatigue design using fracture mechanics. Application of plastics, composite materials and finite element methods in design. Group design project. Computer applications in the design process and in design optimization.

Prerequisite(s): ME 130, ME 154 with a grade of 'C-' or better.

Pre/Corequisite(s): ME 110.

Grading: Letter Graded

ME 160 - Introduction to Finite Element Method

3 unit(s)

Matrix algebra, interpolation functions. Deformation and stress analysis, using truss, beam, plate and axisymmetric elements.

Prerequisite(s): ME 20, CE 112, and either ME 130 or MATH 39, (each with a grade of "C-" or better).

Grading: Letter Graded

ME 165 - Computer-Aided Design in Mechanical Engineering

3 unit(s)

Theory and application of CAD. 2-dimensional and 3-dimensional modeling, commercial CAD software. Application to finite element analysis.

Prerequisite(s): ME 20, CE 112, and either ME 130 or MATH 39, (each with a grade of "C-" or better).

Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering

Grading: Letter Graded

ME 167 - Introduction to Engineering Biomechanics

3 unit(s)

Introduction to the mechanical behavior of biological systems including cells, biological fluids, blood vessels, blood circulation, and the muscular-skeletal system. Skeletal kinematics and dynamics. Application of engineering fundamentals to the human body and functional relationships between biological structures.

Prerequisite(s): ME 101 or BME 165 with a C- or better.

Grading: Letter Graded

ME 168 - Microfluid Fabrication and Design

1 unit(s)

Hands-on design, fabrication, and testing of microfluidic devices. Processes including photolithography, soft lithography, and plasma bonding. Design problems for microfluidic devices. Introduction to microfluidics simulation.

Prerequisite(s): MATE 25 or MATE 153 or MATE 129 / EE 129.

Grading: Letter Graded

Cross-listed with EE 168 / MATE 168. Mechanical Engineering is responsible for scheduling.

ME 169 - Microelectromechanical Systems Fabrication and Design

1 unit(s)

Hands-on design, fabrication, and testing of micro electro-mechanical systems (MEMS). Processes including photolithography, etching, and metal deposition applied to MEMS. Design problems for MEMS transducer components. Introduction to MEMS simulation.

Misc/Lab: Lab 3 hours.

Prerequisite(s): MATE 25 or MATE 153 or MATE 129 / EE 129.

Grading: Letter Graded

Cross-listed with EE 169 / MATE 169. Mechanical Engineering is responsible for scheduling.

ME 170 - Solar Energy Engineering

3 unit(s)

Fundamentals of solar energy engineering, basic principles, design and operation of solar systems. Solar energy generation, storage and system efficiency.

Prerequisite(s): EE 98 and either ME 109, ME 114 or CHE 190 (with a grade of "C-" or better in each).

Grading: Letter Graded

Sustainability Focused - SDG 7: Affordable and Clean Energy

ME 171 - Energy Management in Manufacturing

3 unit(s)

Working principles of major energy consuming equipment in manufacturing facilities; fundamentals of energy analysis; energy saving measures in industrial facilities; utility analysis for natural gas and electricity; lighting, air conditioning, pumps, fans, motors, process heating and cooling, compressed air, steam.

Prerequisite(s): MATH 32, PHYS 51, and declared engineering major, or instructor's consent.

Grading: Letter graded.

ME 172 - Alternative and Renewable Energy Resources

3 unit(s)

An introduction to alternative energy sources such as solar, wind, nuclear, geothermal, hydroelectric, biomass and fuel cell. Stationary power generation and storage.

Prerequisite(s): ME 114 or CHE 109/ME 109 or CHE 190.

Grading: Letter Graded

Sustainability Focused - SDG 7: Affordable and Clean Energy

ME 180 - Individual Studies

1-3 unit(s)

Individual work on special topics. By arrangement.

Prerequisite(s): Upper division standing and instructor consent. Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering. Not available to Open University Students.

Grading: Credit/No Credit

ME 181 - Fundamentals of Biosensors

3 unit(s)

Operating principles, design and applications of the most commonly used biosensors: Electrochemical (Potentiometric, Amperometric, Voltammetric), Optical-based (Fluorescence, Electrophoresis, and Fiber Optic), Piezoelectric-based (Mechano, QCM Enzyme/Cell, Acoustic), and AFM (Atomic Force Microscopy) biosensors/transducers. Immunosensors and biosensors for virus detection. Biosensor signal processing and electronics. Biosensor design, materials, and applications. Case studies to explore state-of-the-art biosensor products. Invited speakers to share their first-hand experience in biosensor design and manufacturing. Term projects to design practical and functional biosensors.

Prerequisite(s): EE 98 with a C- or better

Grading: Letter Graded

ME 182 - Thermal Systems Design

3 unit(s)

Integration of thermodynamics, fluid mechanics, heat transfer and economics in the design of energy conversion and transfer systems, e.g., power generation, electronics and human thermal control.

Prerequisite(s): ME 114, and either ME 111 or AE 160 (with a grade of 'C-' or better in each).

Grading: Letter Graded

ME 183 - HVAC Systems Design

3 unit(s)

Calculation of heating and cooling loads. Psychrometrics and human comfort. Heating, ventilation and air conditioning systems and equipment. Design of secondary systems for heating and cooling of buildings.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Pre/Corequisite(s): ME 114. Junior or senior only. Allowed Declared Major: Mechanical Engineering.

Grading: Letter Graded

ME 185 - Hybrid and Electric Vehicle Fundamentals

3 unit(s)

This course covers the key technical fundamentals of hybrid and electric vehicles including propulsion system design, controls, batteries and storage management, electric machines and power electronics. Review of critical technologies and components used in modern hybrid and electric vehicles. Hands-on experience through demonstrations, laboratory activities, and a term project. Guest speakers will present technical seminars on selected topics.

Prerequisite(s): EE 98 and ME 130, both with a C- or better

Grading: Letter Graded

Sustainability Focused - SDG 13: Climate Action

ME 186 - Automotive Engineering

3 unit(s)

Overview of automotive engineering including aerodynamics, structures, suspension, steering, brakes and drive-train. Application of engineering principles in automotive design and analysis. Use of vehicle dynamic simulation for performance analysis.

Prerequisite(s): ME 114, ME 130, ME 154 with a grade of C- or better in each.

Grading: Letter Graded

ME 187 - Automatic Control Systems Design

3 unit(s)

Analysis of dynamic systems in time and frequency domain. Design of automatic control systems. Analog and digital control systems design. Computer aided control system design and performance evaluation.

Prerequisite(s): ME 147 with a grade of C- or better. Junior or senior only. Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering.

Grading: Letter Graded

ME 190 - Mechatronics System Design

3 unit(s)

Process modeling from test data. Computer-aided dynamic system control analysis and design. Application and integration of micro-controller for digital process and servo control. Development of smart and intelligent products with micro-controller.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): ME 106, ME 130 (with a grade of 'C-' or better).

Pre/Corequisite(s): ME 147.

Grading: Letter Graded

ME 192 - Robotics and Manufacturing Systems

3 unit(s)

Scientific and engineering principles of robotics in the area of mechanical manipulation, dynamics, sensing, actuation, control, computer vision and manufacturing automation application. Motor, motion control, digital control devices application and integration.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): ME 106 and ME 130 (with a grade of 'C-' or better in each).

Grading: Letter Graded

ME 192I - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ME 195A - Senior Design Project I

3 unit(s)

First half of a one-year team project carried out under faculty supervision. Project proceeds from problem definition to analysis, design and validation, experimentation including possible construction and testing.

Misc/Lab: Lab 3 hours.

Satisfies SJSU Studies S: Self, Society & Equality in U.S. when taken as part of the ME major sequence.

Prerequisite(s): ME 114, ME 154 and ENGR 100W (with a grade of 'C-' or better in each).

Pre/Corequisite(s): ME 120, good standing in the program with an approved major form.

Grading: Letter Graded

Note(s): ME 195A and ME 195B sequence must be completed in the same academic year. Meets SJSU Studies Area S and V when course is taken in combination with: ME 195B, ENGR 195A and ENGR 195B.

ME 195B - Senior Design Project II

3 unit(s)

Continuation of ME 195A. Culmination of project requiring a formal report consisting of documentation of project results and oral presentation.

Misc/Lab: Lab 3 hours.

Satisfies SJSU Studies V: Cultures and Global Understanding (when taken with ME major sequence).

Prerequisite(s): ME 195A with a C- or better

Grading: Letter Graded.

Note(s): ME 195A and B sequence must be completed in the same academic year. Meets SJSU Studies Area S and V when course is taken in combination with: ME 195B, ENGR 195A and ENGR 195B.

ME 198 - Technology and Civilization

3 unit(s)

History, development, and use of technology in different cultures. Technology's impact on society, global environment, the workplace, cultural values, gender roles, and newly industrialized countries of the world.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all

SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with CMPE 198 / ENGR 198 / TECH 198. Technology is responsible for scheduling.

Sustainability Related - SDG 9: Industry, Innovation and Infrastructure

ME 199 - Special Topics in Mechanical Engineering

3 unit(s)

Special Topics in Mechanical Engineering. Content varies from semester to semester. A total of six units may be repeated.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor Consent.

Grading: Letter Graded

ME 201 - Project Planning

3 unit(s)

Preparation for independent projects, research investigations, and professional engineering proposals. Review of scholarly literature. Development of formal objective statements and research hypotheses. Planning and articulation of tangible deliverables, resources, tasks, and milestones.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Good standing in the Mechanical Engineering, MS program.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

ME 210 - Advanced Thermodynamics

3 unit(s)

Application of the first and second laws of thermodynamics to the analysis of engineering systems. Equations of state and thermodynamic property relations. Chemical equilibrium and combustion.

Prerequisite(s): BSME or Instructor Consent.

Grading: Letter Graded

ME 211 - Advanced Heat Transfer

3 unit(s)

Conduction, convection and radiation heat transfer, including conjugate problems. Numerical methods and use of the computer to solve heat transfer problems.

Prerequisite(s): ME 114 or equivalent.

Grading: Letter Graded

ME 221 - Viscous Flow Analysis and Computation

3 unit(s)

The Navier-Stokes equations for laminar flow; exact solutions, lubrication theory and boundary layer forms with computer-based solution techniques. Reynolds-averaging and turbulent flow; solution of the Reynolds-averaged full and boundary layer equations using computers.

Prerequisite(s): Mechanical Engineering BS or instructor consent.

Grading: Letter Graded

ME 230 - Advanced Mechanical Engineering Analysis

3 unit(s)

Designed to supplement and enrich students with advanced mathematical methods in treating problems selected from various areas of mechanical engineering. Topics discussed will include Fourier series, special functions, solutions to partial differential equations and numerical methods.

Prerequisite(s): BSME or BSAE or Instructor Consent.

Grading: Letter Graded

ME 231 - Machine Learning and Optimization in Mechanical Engineering

3 unit(s)

Introduction to the basics of machine learning and optimization employed in engineering. Modules are comprised of lectures and labs including linear/nonlinear programming, convex/nonconvex/multi-objective/global optimization, linear models, neural networks, nonparametric models, semi-supervised learning, and high-performance computing.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): Graduate standing or instructor consent

Grading: Letter Graded

ME 232 - Deep Learning in Mechanical Engineering

3 unit(s)

Introduction to the basics of deep learning methods employed in engineering and exposure to leading-edge research. Modules presented via lectures and labs cover background, feed forward neural networks (NN), convolutional NN, recurrent NN, autoencoders, generative NN, and reinforcement learning.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): Graduate standing or instructor consent

Grading: Letter Graded

ME 240 - Rigid Body Dynamics

3 unit(s)

Introduction to Euler's method, Lagrange's equations of motion and Hamilton's principle. Three-dimensional dynamics in vector and tensor notation. Multi-body dynamics. Application to engineering problems including numerical solutions.

Prerequisite(s): BSME or Instructor Consent.

Grading: Letter Graded

ME 243 - Vibration of Mechanical Systems

3 unit(s)

Vibration of MDOF (Multi-degree of Freedom) systems. Eigenvalue problems. Modal analysis of damped systems. Superposition and direct integration methods. Complex frequency response. Random vibration of MDOF systems. Shock and impulse. Vibration of strings, rods and beams.

Prerequisite(s): BSME degree or instructor consent.

Grading: Letter Graded

ME 250 - Precision Machine Design

3 unit(s)

Principles of precision machine design. Exact kinematic constraint. Error motions of a machine. Integration of mechanical design, materials, sensors, and metrology for precision applications.

Prerequisite(s): BSME or Instructor Consent.

Grading: Letter Graded

ME 256 - Product Design and Development

3 unit(s)

Introduction to the product development process as followed in the industry, latest developments in identifying product opportunities, understanding customer requirements, converting them to technical requirements, functional modeling, concept generation, selection and evaluation, latest trends in product design, patenting and intellectual property rights, group design project.

Prerequisite(s): Graduate standing with solid modelling knowledge

Grading: Letter Graded

ME 260 - Applied Stress Analysis

3 unit(s)

Introduction to stress analysis techniques, including advanced strength of materials, energy methods and theory of elasticity. Elastic-plastic stresses, creep, fatigue, fracture mechanics, failure analysis.

Prerequisite(s): BSME or Instructor Consent. Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering.

Grading: Letter Graded

ME 265 - Computer-Aided Mechanical Engineering Design

3 unit(s)

Integrated approach to CAD including: overview of CAD, numerical techniques for CAD, computer graphics and design, principles and management of design database systems, finite element analysis and CAD, design optimization, computer-aided linkage design and integrated CAD systems.

Prerequisite(s): BSME or Instructor Consent. Allowed Declared Majors: Aerospace Engineering,

Mechanical Engineering.

Grading: Letter Graded

ME 267 - Engineering Biomechanics

3 unit(s)

Application of engineering mechanics to human body structure and function, involving 3-D kinematics, deformable bodies, viscoelastic behavior, and non-Newtonian fluids. Modeling of hard and soft tissues and analysis of response to loading conditions. Design considerations for biomedical and orthopedic devices.

Prerequisite(s): Graduate standing and CE 112 or equivalent.

Grading: Letter Graded

ME 268 - 3D Printing and Additive Manufacturing

3 unit(s)

Application of fundamental technologies in 3D printing and additive processes for polymers, metals, composites, and biomaterials. Equipment, process, and material selection for design applications such as electronics, medical devices, aerospace, vehicles and consumer products. Hands-on experience to design and perform a 3D scanning and converting digital data into physical objects.

Prerequisite(s): Graduate Standing or Instructor Consent

Grading: Letter Graded

ME 271 - Computational Fluid Dynamics for ME

3 unit(s)

Introduction to methods and techniques for computational solutions of fluid mechanics and heat transfer problems. Model problems from mechanical engineering are used to study the interaction of physical processes and numerical techniques. A commercial CFD package is used for analysis.

Prerequisite(s): BSME or instructor's consent

Grading: Letter Graded

ME 273 - Finite Element Methods in Engineering

3 unit(s)

Introduction into various finite element methods for developing stiffness equation. Truss, beam, 2-D, 3-D and axisymmetric elements. Applications and case studies.

Prerequisite(s): BSME or Instructor Consent.

Grading: Letter Graded

ME 274 - Advanced Finite Element Methods In Engineering

3 unit(s)

Advanced concepts in finite element analysis, assembly modeling, contact and welded joints, anisotropy and composites, structural dynamics, nonlinear modeling, linear and nonlinear multiphysics coupled heat transfer and fluid flow, thermal stress analysis, and electromechanical coupling.

Prerequisite(s): ME 160 or ME 273, or instructor consent.

Grading: Letter Graded

ME 280 - Automatic Control Engineering

3 unit(s)

Formulation of multiple dynamic systems in state space form. System transient response, stability, controllability and observability. Design of control system using conventional and modern methods. Optimum system design. Computer aided dynamic system analysis, control system design and simulation.

Prerequisite(s): BSME or Instructor Consent. Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering.

Grading: Letter Graded

ME 281 - Advanced Control System Design

3 unit(s)

Establishment of design criteria. Digital control system design based on conventional and modern approaches. Intelligent control system design. Digital control system hardware and software. Case studies. Microprocessor implementation of control systems.

Prerequisite(s): ME 280 or equivalent.

Grading: Letter Graded

ME 282 - Nonlinear and Adaptive Control

3 unit(s)

Practical considerations in control systems design including nonlinearities, parametric uncertainties, and disturbances; phase plane and Lyapunov stability methods for nonlinear systems; sliding mode, adaptive, and adaptive-sliding control design with real-world applications; nonlinear observers, and repetitive learning control.

Prerequisite(s): ME 280 or equivalent.

Grading: Letter Graded

ME 283 - Automatic Control of Manufacturing Processes

3 unit(s)

Develops general concepts for control of manufacturing processes. The concepts of and tools for process modeling, process optimization and process control. Emphasizes the integrated approach combining statistical process control (SPC) and automatic process control.

Prerequisite(s): BSME or Instructor Consent.

Grading: Letter Graded

ME 284 - Sensor Technology and Principles

3 unit(s)

Sensors and principles, including mechanical and magnetic sensors, optical sensors, chemical sensors, and bio sensors; Sensor circuitry, signal characterization and processing; Sensor design, fabrication and applications.

Prerequisite(s): BSME or Instructor Consent.
Grading: Letter Graded

ME 285 - Mechatronic Systems Engineering

3 unit(s)

Introduction of mechatronic systems. Combine hardware, software and system integration. Subjects include basic circuits, logic gates, OpAmps, encoder/decoder, DC and stepper motor, A/D and D/A, C-language, interfacing and control. Hands-on lab practices.

Misc/Lab: Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BSME or Instructor Consent.
Grading: Letter Graded

ME 286 - Autonomous and Connected Vehicles

3 unit(s)

Application of fundamentals of robotics, computer vision, and mechanical engineering in a vehicle-to-vehicle and vehicle-to-infrastructure connected environment for safe-driving and reducing traffic congestion. Defining levels of autonomy in relation to driver-assist and self-driving technologies. Occupant monitoring, distracted driving, and government regulations.

Prerequisite(s): Graduate Standing or Instructor Consent
Grading: Letter Graded

ME 292 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

ME 295A - Mechanical Engineering Project I

3 unit(s)

Advanced individual work in mechanical engineering, including but not limited to research, design, development, and simulation studies.

Prerequisite(s): Advancement to Candidacy for Master's Degree in Mechanical Engineering; written proposal approved by instructor and graduate advisor. Not available to Open University Students.
Grading: Letter Graded/Incomplete.

ME 295B - Mechanical Engineering Project II

3 unit(s)

Continuation of ME 295A. Students complete the in-depth project, write a detailed engineering report and make a comprehensive presentation.

Prerequisite(s): ME 295A. Not available to Open University Students.

Grading: Letter Graded/RP.

ME 297 - Special Topics in Mechanical Engineering

3 unit(s)

Special topics in Mechanical Engineering. Content varies from semester to semester.

Prerequisite(s): Instructor Consent.

Grading: Letter Graded

ME 298 - Special Project in Mechanical Engineering

1-3 unit(s)

Advanced individual work in mechanical engineering.

Prerequisite(s): Consent of project advisor. Not available to Open University Students

Grading: Mandatory Credit/No Credit/RP

ME 299 - Master's Thesis

3 unit(s)

Advanced individual work in mechanical engineering for Plan A.

Course may be repeated for credit 2 times for a total of 6 units.

Prerequisite(s): Advancement to candidacy for master's degree, consent of thesis committee, and written proposal approved by Graduate Program Advisor. Not available to Open University students.

Grading: Mandatory Credit/No Credit/RP

ME 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project beyond minimum required units, for cases in which final deliverables are still in progress.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): RP grade in a preceding thesis or project semester.

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Medical Product Development Management

SMPD 202T - MPDM Seminars: Biomedical Business

3 unit(s)

Special Topics seminar in the management principles and practices of medical product development. Repeatable for credit when topic changes.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Graduate Standing

Grading: Letter Graded

SMPD 281A - Clinical Development Seminar I

3 unit(s)

Provides a comprehensive overview of the regulated medical product development process. Topics include initial drug development/device invention to drug/device approval and post-market surveillance. Discussions include non-clinical and clinical studies, regulations, clinical indication determination, research methodology and ethical conduct.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Admission to MPDM program or certificate.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

SMPD 281B - Clinical Development Seminar II

2 unit(s)

Current practices for medical product development and the clinical and regulatory pathways required for approval in the USA; including non-clinical study design and GMP process. Emphasis on oral and written communication. Presentations from experts in the field.

Lecture 2 hours/Activity 4 hours.

Prerequisite(s): Admission to the Medical Product Development Management program and completion of SMPD 281A.

Grading: Letter Graded.

SMPD 283A - Regulatory Affairs I, Biopharmaceutical

3 unit(s)

Provide foundational knowledge of the pharmaceutical, biotechnology and biomedical industries with focus on company organization, product development and commercialization-associated activities such as chemical synthesis, device prototyping, quality assurance, regulatory affairs, manufacturing, control, marketing, and post-marketing surveillance.

Grading: Letter Graded

SMPD 283B - Regulatory Affairs II Device-Diagnostics

3 unit(s)

Overview of laws and regulations enforced by the US Food and Drug Administration (FDA) and other

Regulatory Agencies as they relate to biotechnology, medical device and diagnostic industries

Prerequisite(s): Admission to the MPDM program.

Grading: Letter Graded

SMPD 285 - MPDM Research / Practicum

1 unit(s)

Independent research project / practicum to explore deeper understanding or breadth of experience in medical product development management.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Admission to MPDM program.

Grading: Credit/No Credit

SMPD 286 - Statistical Methods in Clinical Trials

3 unit(s)

Overview of statistical methods used in the design and interpretation of clinical trials of drugs and medical devices.

Prerequisite(s): Admission to the MPDM program.

Grading: Letter Graded

SMPD 287 - Informatics in Drug and Device Development

3 unit(s)

Provides business and regulatory perspectives on electronic information technologies, processes and standards in the conduct of clinical trials. Special emphasis: data collection, clinical trial & data management randomization and drug supply, statistical processes, safety databases and electronic regulatory submission, electronic records and signatures, sys validation processes, and data standards.

Prerequisite(s): Admission to the MPDM program and completion of SMPD 286.

Grading: Letter Graded

SMPD 289A - Special Topics in Clinical Trials Management I

2 unit(s)

Seminar focusing on critical issues in clinical development. This programmatic capstone series of seminars challenges the students to demonstrate a mature, professional manner and technical proficiency in the field. Emphasis on oral and written communications. Course includes numerous presentations by industry experts.

Lecture 2 hours/Activity 4 hours.

Prerequisite(s): Admission to MPDM program and completion of SMPD 285.

Grading: Letter Graded.

SMPD 289B - Clinical Trials Seminar II

3 unit(s)

Capstone course of the MPDM program

Prerequisite(s): Admission to MPDM program.

Grading: Letter Graded

Meteorology and Climate Science

METR 10 - Weather and Climate

3 unit(s)

A descriptive introduction to the atmosphere, with emphasis on weather phenomena, climate, climate change, forecasting and air pollution.

Satisfies B1: Physical Science.

Grading: Letter Graded

Sustainability Related - SDG 13: Climate Action

METR 12 - Global Warming: Science and Solutions

3 unit(s)

Examination of past, present and future climates. Examination of global warming and mitigation strategies.

Satisfies B1: Physical Science.

Grading: Letter Graded

Sustainability Focused - SDG 13: Climate Action

METR 40 - Weather Seminar

1 unit(s)

Meteorology program planning; careers in Meteorology; a survey of major problems in the atmosphere; faculty research programs; department, college and university resources, survival in the university; strategies for success.

Grading: Credit/No Credit

METR 50 - Scientific Computing I

2 unit(s)

Computer systems and structured programming, emphasizing solutions of problems in the atmospheric sciences using Python programming. Includes the UNIX operating system, mass data handling and data visualization.

Lecture 1 hour/Lab 3 hours.

Prerequisite(s): MATH 30 or MATH 30X.

Corequisite(s): For METR majors: MATH 31 or MATH 31X, METR 60, PHYS 50. For Climate Science

majors: METR 60 and CHEM 1A.

Grading: Letter Graded

Cross-listed with CS 50 / MATH 50. Meteorology and Climate Science is responsible for scheduling.

METR 51 - Scientific Computing II

2 unit(s)

Computer systems and advanced programming in Python emphasizing solutions of problems in the atmospheric sciences. Other related topics include UNIX scripting, advanced data visualization and basic HTML techniques. Introduction to Fortran.

Lecture 1 hour/Lab 3 hours.

Prerequisite(s): METR 50 (or equivalent).

Corequisite(s): For Meteorology and Climate Science majors: METR 61.

Grading: Letter Graded

METR 55 - Introduction to Broadcast Meteorology

3 unit(s)

Introduction to broadcast meteorology. Students learn to prepare and present a professional weathercast with emphasis on communication skills, computer graphics, and on-camera delivery. Students emulate weather forecasts using presentation software and also train on weather graphics systems used in broadcast media.

Prerequisite(s): METR 10 recommended, but not required.

Grading: Letter Graded

METR 60 - Meteorology and Climate Science I

3 unit(s)

Quantitative introduction to atmospheric science for Meteorology and Climate Science majors. Includes topics such as thermodynamics, radiation, and analysis of weather and climate data.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): MATH 30 or MATH 30P or MATH 30PL or MATH 30X (and PHYS 2B for Climate Science Concentration).

Corequisite(s): MATH 31 or MATH 31X, PHYS 50, METR 50 (or CHEM 1A and METR 50 for Climate Science Concentration).

Grading: Letter Graded

METR 61 - Meteorology and Climate Science II

2 unit(s)

A continuation of METR 60, introducing Meteorology and Climate Science majors to quantitative aspects of the science.

Prerequisite(s): METR 60, CHEM 1A.

Corequisite(s): METR 51, MATH 32 or MATH 32X, PHYS 52 or PHYS 2B, METR 163.

Grading: Letter Graded

METR 100W - Writing Workshop: Meteorological Reports

3 unit(s)

Introduction to scientific writing, research methods and preparation of technical reports in the meteorology field.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level.

Corequisite(s): METR 121A or METR 135, or instructor consent.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

METR 112 - Global Climate Changes

3 unit(s)

Formation and evolution of the atmosphere. Climate changes in the Earth's past. Interactions between climate and life. Anthropogenic climate change.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 13: Climate Action

METR 113 - Atmospheric Pollution

3 unit(s)

Descriptive discussion of the sources, effects and fates of pollutants in the atmosphere. Interaction of pollutants and weather systems, including acid precipitation, ozone destruction; air pollution policy and regulations.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ENVS 113. Meteorology and Climate Science is responsible for scheduling.

Sustainability Focused - SDG 3: Good Health and Well-Being

METR 115 - Wildfire in the Earth System

3 unit(s)

Introduces students to the science of wildland fire on earth and in various ecosystems. Topics include extreme fire behavior in a changing climate, fire weather, fire danger, and national policies on fire suppression strategies and prescribed fire use in land management.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Related - SDG 13: Climate Action

METR 121A - Dynamic Meteorology

4 unit(s)

Theoretical examination of the motion and behavior of the atmosphere. Governing equations and applications; vorticity; waves; numerical prediction; baroclinic instability.

Prerequisite(s): METR 51, METR 61.

Corequisite(s): MATH 33A.

Grading: Letter Graded

Note(s): Year course.

METR 121B - Dynamic Meteorology

3 unit(s)

Theoretical examination of the motion and behavior of the atmosphere. Governing equations and applications; vorticity; waves; numerical prediction; baroclinic instability.

Prerequisite(s): METR 121A.

Grading: Letter Graded

Note(s): Year course.

METR 123 - Advanced Climatology

3 unit(s)

The physical basis of climate with emphasis on the theory of global warming.

Prerequisite(s): METR 61.

Grading: Letter Graded

Sustainability Focused - SDG 13: Climate Action

METR 125 - Physical Meteorology

3 unit(s)

Cloud and precipitation physics, atmospheric electricity, optics and acoustics.

Prerequisite(s): METR 121A or instructor consent.

Grading: Letter Graded

METR 127 - Introduction to Atmospheric Chemistry

3 unit(s)

Integrated scientific background for understanding the factors determining atmospheric composition and its environmental implications for air quality, biogeochemical cycling, and climate. Topics covered include greenhouse gases and climate, local and regional ozone pollution, long-range pollution transport, acid rain, atmospheric particulate matter pollution, and stratospheric ozone depletion.

Prerequisite(s): METR 60 and CHEM 1A.

Grading: Letter Graded

METR 130 - Boundary Layer Meteorology

3 unit(s)

Structure of the atmospheric planetary boundary layer with applications to air pollution, agriculture and cities; meso-circulations such as sea breeze.

Prerequisite(s): METR 121B or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

METR 131 - Air Pollution Meteorology

3 unit(s)

Quantitative description of contaminants in the atmosphere: sources, dispersion and sinks; their effects on atmospheric energy balance and condensation.

Prerequisite(s): METR 121B or instructor consent.

Grading: Letter Graded

Cross-listed with CHE 131 / ENVS 131. Meteorology and Climate Science is responsible for scheduling.

Sustainability Focused - SDG 3: Good Health and Well-Being

METR 135 - The Global Carbon Cycle

3 unit(s)

A quantitative examination of the global carbon cycle through the solid earth, atmosphere, oceans, and biosphere.

Prerequisite(s): METR 61.

Grading: Letter Graded

Sustainability Related - SDG 13: Climate Action

METR 136 - Applied Statistics and Analysis in Meteorology

3 unit(s)

Applications of statistical methods to analysis of meteorological and climatological data; use of the internet to obtain climate data; objective forecasting methods; elementary decision theory; data analysis using contemporary computer software.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): METR 61, or STAT 95 and METR 12 (or METR 112), and upper division standing (for ENVS majors).

Grading: Letter Graded

METR 143C - Numerical Analysis and Scientific Computing

3 unit(s)

Development and comparison of important algorithms for scientific computing in terms of efficiency, accuracy and reliability. Topics include nonlinear equations, interpolation, approximation theory, differentiation, integration, differential equations, numerical stability and error analysis. Substantial assignments using contemporary software packages and professional subprogram libraries.

Prerequisite(s): MATH 32 or MATH 32X, one of CS 22A, MATH 50, CS 46A, CS 49C or CS 49J, one of MATH 33A, MATH 33LA, or MATH 34 (with a grade of "C-" or better in each); or instructor consent.

Grading: Letter Graded

Cross-listed with CS 143C / MATH 143C. Mathematics and Statistics is responsible for scheduling.

METR 150 - Computers in Meteorology III

3 unit(s)

Computer applications to advanced problems in atmospheric science, including specialized computer systems, mass data handling, weather data communications.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): MATH 043, METR 51 or instructor consent.

Grading: Letter Graded

Note(s): Offered only occasionally.

METR 155 - Remote Sensing

3 unit(s)

This course will cover the background of remote sensing, current status of sensors and platforms, and recent satellite-based results on climate change.

Prerequisite(s): METR 121A.

Grading: Letter Graded

METR 161 - Introduction to Hydrometeorology

3 unit(s)

Survey of the transfer of water and energy between the land surface and the lower atmosphere, including

the processes of precipitation, evaporation, and stream flow. Water resources and policy initiatives incorporated where applicable.

Grading: Letter Graded

METR 163 - Meteorological Instrumentation

3 unit(s)

Measurement techniques and instruments used in atmospheric and climate sciences, using lecture, laboratory and field work. Students will learn techniques of instrument calibration, deployment, and data acquisition.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): METR 60 (or PHYS 2B; CHEM 1A; STAT 95; AND METR 12 or METR 112 for ENVS majors).

Corequisite(s): METR 61 (METR majors)

Grading: Letter Graded

METR 164 - Introduction to Fire Weather

3 unit(s)

Quantitative description of weather conditions that lead to fire danger around the world and atmospheric conditions leading to extreme fire behavior.

Prerequisite(s): METR 61.

Grading: Letter Graded

METR 165 - Mountain Meteorology

3 unit(s)

Examination of atmospheric processes in mountain environments including micro and mesoscale wind systems, precipitation processes and convection, snow and avalanche mechanics.

Prerequisite(s): METR 61.

Corequisite(s): METR 121A.

Grading: Letter Graded

METR 168A - Climate Action and Leadership I

6 unit(s)

Scientific and social scientific approaches to the process and effects of global climate change: Climate changes in the Earth's past, interactions between climate and life, anthropogenic climate change, socioeconomic contexts of environmental effects, cultural influences on climate change mitigation strategies.

Satisfies SJSU Studies S+V: Self, Society & Equality in the U.S. + Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with COMM 168A / ENVS 168A. Communication Studies is responsible for scheduling.
Sustainability Focused - SDG 13: Climate Action

METR 168B - Climate Action and Leadership II

3 unit(s)

Scientific and social scientific approaches to the process and effects of global climate change: Climate changes in the Earth's past, interactions between climate and life, anthropogenic climate change, socioeconomic contexts of environmental effects, cultural influences on climate change mitigation strategies.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of COMM 168A / ENVS 168A / METR 168A with a C- or better. Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with COMM 168B / ENVS 168B. Communication Studies is responsible for scheduling.
Sustainability Focused - SDG 13: Climate Action

METR 170A - Weather Briefing

1 unit(s)

Weather briefing associated with METR 121A, METR 121B.

Misc/Lab: Lab 3 hours.

Corequisite(s): METR 121A.

Grading: Credit/No Credit

Note(s): Year course 1 unit each semester.

METR 170B - Weather Briefing

1 unit(s)

Weather briefing associated with METR 121A, METR 121B.

Misc/Lab: Lab 3 hours.

Corequisite(s): METR 121B.

Grading: Credit/No Credit

METR 170C - Weather Briefing III

1 unit(s)

Weather analysis and forecasting lab. Simulated professional forecasts and briefings of the current state of the atmosphere at the large and local scales using real time forecast data.

Lab 3 hours.

Prerequisite(s): METR 170A, METR 170B, and METR 171A.

Corequisite(s): METR 172.

Grading: Credit/No Credit

Note(s): Preparation for WxChallenge.

METR 171A - Synoptic Weather Analysis and Forecasting

3 unit(s)

Structure and behavior of atmospheric circulation systems, practical weather analysis and forecasting techniques. Acquisition, manipulation and display of real-time data sets, verbal presentations of weather analyses and forecasts.

Misc/Lab: Lecture 1 hour/lab 6 hours each semester.

Prerequisite(s): METR 100W, METR 121B or instructor consent.

Pre/Corequisite(s): METR 125.

Grading: Letter Graded

Note(s): Year course.

METR 172 - Mesoscale Meteorology

3 unit(s)

Structure and behavior of mesoscale atmospheric circulations, practical weather forecasting techniques.

Prerequisite(s): METR 171A.

Grading: Letter Graded

METR 173 - Global Climate Modeling

3 unit(s)

Senior-level workshop-based course focused on climate modeling using general circulation model data.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): METR 51, METR 61, METR 100W, and METR 136.

Grading: Letter Graded

Sustainability Focused - SDG 13: Climate Action

METR 174 - Climate Change Capstone

3 unit(s)

Senior level capstone course in which students will define and conduct a project which is both climate change related and of a practical nature.

Prerequisite(s): METR 173 and METR 100W.

Grading: Letter Graded

Sustainability Focused - SDG 13: Climate Action

METR 179 - Topics in Senior Thesis

1-2 unit(s)

Supervised research and the preparation of a senior thesis.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): METR 100W. Not available to Open University Students.

Pre/Corequisite(s): METR 171A (first semester) METR 171B (second semester).

Grading: Credit/No Credit

METR 180 - Individual Studies

1-4 unit(s)

Independent work on topics by special arrangement. A maximum of four units may be repeated.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Meteorology major or minor. Not available to Open University Students.

Grading: Credit/No Credit

METR 182 - Tutor Assistant in Meteorology

1 unit(s)

Supervised instructional experience as a tutor assistant. A maximum of four units may be repeated.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Upper division standing and instructor consent. Not available to Open University Students.

Grading: Credit/No Credit

METR 185 - Special Topics

1-3 unit(s)

Selected topics in meteorology. Topics vary and are announced each semester.

Prerequisite(s): METR 121B.

Grading: Letter Graded

METR 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

METR 202 - Research Methods in Meteorology

3 unit(s)

The nature of research in meteorology with particular reference to formulation of the problem, methods of attack and presentation of results. Proposal writing and selection of MS thesis topic.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Note(s): Offered on an irregular basis only. This course satisfies graduate-level GWAR in this master's program.

METR 205 - Advanced Atmospheric and Climate Dynamics

3 unit(s)

Dynamics of larger-scale atmospheric flows over short and climate timescales. Quasi-geostrophic theory and applications; atmospheric waves; baroclinic instability; energetics of atmospheric and climate systems; dynamics of the general circulation; dynamics of the climate system; dynamics of climate change.

Prerequisite(s): METR 121B or equivalent

Grading: Letter Graded

Sustainability Related - SDG 13: Climate Action

METR 209 - Adv Fire Behavior

3 unit(s)

Advanced topics in meteorology of extreme fire behavior. Includes fire-atmosphere interactions, microscale turbulence, flame properties, combustion physics, fuel dynamics, and extreme fire behavior such as fire whirls. Offered every fourth year.

Prerequisite(s): METR 121A or instructor consent.

Grading: Letter Graded

METR 215 - Advanced Physical Meteorology

3 unit(s)

Thermodynamics of moist air; nucleation processes; particulates in air, microphysics and cloud dynamics, sampling techniques.

Prerequisite(s): METR 125 (or equivalent).

Grading: Letter Graded

METR 240 - Numerical Modeling

3 unit(s)

Numerical analysis and prediction in meteorology. Numerical methods and their errors; finite-difference and spectral methods; atmospheric models.

Prerequisite(s): METR 50 (or equivalent); METR 205A or instructor consent.

Grading: Letter Graded

METR 241 - Parameterization in NWP

3 unit(s)

Studies of parameterization schemes for sub-gridscale physics in numerical models. Included are schemes for surface fluxes, soil-vegetation models, convection, clouds, and radiative transfer. Why these are needed, and how they are developed and implemented.

Prerequisite(s): METR 240

Grading: Letter Graded

METR 280 - Recent Developments in Meteorology

1-3 unit(s)

Intensive study of a particular topic in the atmospheric sciences with special emphasis on recent research results, such as instrumentation or modeling techniques. Topics vary and are announced each semester.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

METR 285 - Colloquium

1 unit(s)

Advanced studies in special fields, including original work by faculty, guest speakers and graduate students. One presentation required of each enrolled student and attendance required for all graduate students.

Prerequisite(s): Instructor consent.

Grading: Mandatory Credit/No Credit/RP

METR 298 - Research

1-4 unit(s)

Supervised individual laboratory or field work.

Prerequisite(s): Instructor consent. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

METR 298P - Master's Project

1-6 unit(s)

Repeatable for credit.

Prerequisite(s): Advancement to candidacy for the MS degree and approval of topic by thesis advisor. Not available to Open University Students.

Grading: Credit/No Credit/RP.

METR 299 - Master's Thesis

1-6 unit(s)
Repeatable for credit.

Prerequisite(s): Advancement to candidacy for the MS degree and approval of topic by thesis advisor. Not available to Open University Students.

Grading: Credit/No Credit/RP.

Microbiology

MICR 20 - General Bacteriology

5 unit(s)

Morphology, physiology, genetics and diversity of bacteria; their control by chemical and physical means; and their role in disease. For majors in allied health professions.

Misc/Lab: Lecture 4 hours/lab 3 hours.

Satisfies B2 + B3: Life Science & Lab.

Prerequisite(s): CHEM 1B, or CHEM 30A with a C or better or instructor consent.

Grading: Letter Graded

Note(s): Not an elective in the department majors.

MICR 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

MICR 101 - General Microbiology

5 unit(s)

Fundamentals of basic microbiology emphasizing cell structure, cell metabolism, molecular genetics, microbial diversity and ecological relationships.

Lecture 3 hours/Lab 6 hours.

Prerequisite(s): BIOL 30 and BIOL 31 (with a grade of "C-" or better in each); CHEM 8 or CHEM 112A (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

MICR 122 - Bacterial Diversity

2 *unit(s)*

Study of the characteristics and microecology of unusual prokaryotes. Molecular and traditional approaches will be discussed.

Prerequisite(s): MICR 101 (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with BIOL 122. Biological Sciences is responsible for scheduling.

Sustainability Related

MICR 122L - Bacterial Diversity Laboratory

2 *unit(s)*

Laboratory techniques in bacterial diversity.

6 *hours Lab.*

Prerequisite(s): MICR 101 (with grade of "C" or better) or Instructor Consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with BIOL 122L. Biological Sciences is responsible for scheduling.

MICR 123 - Food Microbiology

2 *unit(s)*

Detection and enumeration of both normal microbiological flora and spoilage organisms of specific foods. Control of sanitation problems in food production and processing.

Prerequisite(s): MICR 101 (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

MICR 123L - Food Microbiology Laboratory

2 *unit(s)*

Practical microbiological techniques for the detection and enumeration of both normal microbiological flora and spoilage organisms of specific foods; and for the control of sanitation problems in food production and processing. Field trips to local food industries and/or a water treatment plant may be required within lab hours.

Lab 6 hours.

Prerequisite(s): MICR 101 (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded.

MICR 127 - Microbial Physiology

3 unit(s)

Studies of the physiology of microbes specifically focusing on bacteria (growth, metabolism and regulation of gene expression); growth experiments and mutagenesis techniques. SJSU Studies Area: R for Biology Majors only.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): CHEM 135, MICR 166, both with a C or better, or instructor consent. Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses.

Pre/Corequisite(s): BIOL 100W strongly recommended.

Grading: Letter Graded

Note(s): Biological Sciences Majors only.

MICR 127L - Microbial Physiology Laboratory

2 unit(s)

Laboratory experiments involve small and large-scale growth experiments (fermentation, continuous culture and batch culture), techniques used in mutagenesis and mutant characterization as well as construction and studies of reporter fusions.

Lab 6 hours.

Prerequisite(s): MICR 101 (with grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

MICR 140 - Hematology

3 unit(s)

Blood and blood forming organs. Theoretical and clinical aspects of normal and pathologic conditions of the erythrocytic, leukocytic, coagulation and blood group systems.

Course is repeatable for up to 3 units.

Prerequisite(s): MICR 101 (with grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

MICR 140L - Hematology Laboratory

2 unit(s)

Laboratory methodologies used to diagnose hematologic pathology. Prerequisite(s): MICR 101 (with grade of "C" or better), or instructor consent.

Lab 6 hours.

Pre/Corequisite(s): MICR 140. Must be a declared Biology Major (all).

Grading: Letter Graded

MICR 141 - Pathogenic Microbiology I

3 unit(s)

Concepts and principles of medical microbiology, emphasizing the biology of host-parasite interactions and mechanisms of infectious disease pathogenesis.

Prerequisite(s): MICR 101, BIOL 107 (with a grade of "C" or better in each); CHEM 112A or CHEM 8, (with a grade of "C" or better in each); or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

MICR 141L - Pathogenic Microbiology I Laboratory

3 unit(s)

Application of principles of medical microbiology to pathogen isolation, characterization and identification.

Lab 9 hours.

Prerequisite(s): MICR 101, BIOL 107, BIOL 107L (with a grade of "C" or better in each); CHEM 8 or CHEM 112A (with a grade of "C" or better in each), or instructor consent.

Corequisite(s): MICR 141. Must be a declared Biology Major (all).

Grading: Letter Graded

MICR 142 - Pathogenic Microbiology II

3 unit(s)

Concepts and principles of medical microbiology, emphasizing the biology of host-parasite interactions and mechanisms of infectious disease pathogenesis. Continuation of MICR 141.

Lecture 3 hours.

Prerequisite(s): MICR 141 (with grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

MICR 142L - Pathogenic Microbiology II Laboratory

3 unit(s)

Application of principles of medical microbiology to pathogen isolation, characterization and identification.

Lab 9 hours.

Prerequisite(s): MICR 141 and MICR 141L and BIOL 107L (with grades of "C" or better in each), or instructor consent.

Corequisite(s): MICR 142. Must be a declared Biology Major (all).

Grading: Letter Graded

MICR 166 - Bacterial Genetics

4 unit(s)

Fundamental prokaryotic genetic concepts and their incorporation into problem solving and experimental design. Emphasis on how and why someone might use genetic approaches to their benefit when addressing biological questions in bacteria.

Prerequisite(s): MICR 101 (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

MICR 170 - General Virology

3 unit(s)

Molecular and biological aspects of animal, plant and microbial viruses and their relationships with their hosts, with primary emphasis on viruses that infect humans.

Prerequisite(s): MICR 101 with a grade of "C" or better, or instructor consent.

Grading: Letter Graded

MICR 180 - Individual Studies

1-4 unit(s)

Advanced lab work in special fields.

Repeatable for credit.

Prerequisite(s): Instructor consent. Must be a declared Biology Major (all).

Grading: Credit/No Credit

MICR 184 - Directed Reading

1-4 unit(s)

Assigned readings of selected books, journals and papers to fill gaps in training or for contact with new fields. Evaluation through weekly reports and conferences.

Repeatable for credit.

Prerequisite(s): Instructor consent. Must be a declared Biology Major (all).

Grading: Credit/No Credit

MICR 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

MICR 291A - Advanced Hematology

4 unit(s)

Students will engage in advanced study of normal and abnormal hematologic conditions, including molecular diagnosis of disorders.

Grading: Credit/No Credit

MICR 291B - Advanced Pathophysiology

4 unit(s)

Students will engage in advanced study of normal and abnormal physiologic conditions, including but not limited to diseases of glucose metabolism, organ dysfunction, endocrine disorders and electrolyte balance.

Grading: Credit/No Credit

Note(s): Not an elective for Biology majors and not available to Open University students.

MICR 291C - Advanced Human Immunology

4 unit(s)

Students will engage in advanced study of normal and abnormal immunologic conditions in humans, including molecular diagnosis of those disorders.

Grading: Credit/No Credit

Note(s): Not an elective for Biology majors and not available to Open University students.

MICR 291D - Advanced Medical Microbiology

4 unit(s)

Students will engage in advanced study of bacteria, fungi, viruses and other organisms of significance in medical microbiology. Emphasis will be on experience through clinical practice.

Grading: Credit/No Credit

Note(s): Not an elective for Biology majors and not available to Open University students.

MICR 291E - Advanced Immunohematology

4 unit(s)

Students will engage in advanced study of immunohematology and the use of transfused products in medical treatment. Emphasis will be on experience through clinical practice.

Grading: Credit/No Credit

Note(s): Not an elective for Biology majors and not available to Open University students.

MICR 291F - Molecular Based Diagnostic Techniques

4 unit(s)

Students will engage in advanced study of application of molecular techniques for diagnostic purposes. Emphasis will be on advanced practical training.

Grading: Credit/No Credit

Note(s): Not an elective for Biology majors and not available to Open University students.

MICR 291G - Clinical Laboratory Management

4 unit(s)

Students will engage in advanced study of laboratory management skills, including finance, time management, team building, quality control, basic human resources management and other topics. Emphasis will be on practical training.

Grading: Credit/No Credit

Note(s): Not an elective for Biology majors and not available to Open University students.

MICR 292 - Topics and Demonstrations in Clinical Laboratory Science

3 unit(s)

Presentations and demonstrations of topics and selected clinical lab procedures.

Course may be repeated for credit for up to 36 units.

Prerequisite(s): Baccalaureate degree in a biological science, valid license as a CLS Trainee, admission into the CLS Traineeship, and instructor consent. Concurrent enrollment in MICR 291.

Grading: Letter Graded

MICR 293 - CGMBS Lab Management

3 unit(s)

Complements CGMBS Program students' experiences at their assigned clinical molecular laboratory training sites. Emphasis is on laboratory management, quality control and assurance, and safety.

Prerequisite(s): Acceptance into the SJSU CGMBS Training Program.

Grading: Letter graded.

Middle East Studies

MDES 90 - Bible History and Literature

3 unit(s)

The Bible in context of its history, literary sources and as a reflection of Jewish and Christian traditions. Motifs and themes in light of their original audience, historic usage and contemporary development.

Satisfies C2: Humanities.

Grading: Letter Graded

Cross-listed with HUM 90 / JWSS 90 / RELS 90. Humanities is responsible for scheduling.

MDES 144 - Middle Eastern Politics

4 unit(s)

Study of unfolding events in the Middle East. Themes include: the failure of democratic movements, nuclear proliferation and terrorism, US foreign policy towards the region, the Israel-Palestine conflict, urbanization, gender and human rights.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with JWSS 144 / POLS 144. Political Science is responsible for scheduling.

MDES 145 - Middle Eastern Traditions

3 unit(s)

Introduction to the peoples and cultures of the Middle East through exploration of the cooperation, competition, conflict and dialogues between the ethnic, national, and religious communities of contemporary Middle Eastern countries.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ANTH 145 / RELS 145. Humanities is responsible for scheduling.

MDES 156 - Islam, Politics and the West

3 unit(s)

An in-depth look at the roots of Islamic tradition, law, politics, culture, and society. Emphasis on Islam's growing global prominence; relations with the West; stereotypes and misconception, as well as the nature of the Islamic state.

Prerequisite(s): Upper-division standing or instructor consent.

Grading: Letter Graded.

Cross-listed with RELS 156. Humanities is responsible for scheduling.

MDES 180 - Individual Studies

1-4 unit(s)

A project.

Prerequisite(s): Religious studies upper-division major or minor and coordinator consent.

Grading: Credit/No Credit

Cross-listed with RELS 180. Humanities is responsible for scheduling.

MDES 183A - Art of Egypt and Mesopotamia

3 unit(s)

The Arts of Egypt, Sumer, Akkad, Babylonia, Assyria, Anatolia, Hittites, and Persia (Elamite to Sassanian).

Prerequisite(s): ARTH 70A or instructor consent.

Grading: Letter Graded

Cross-listed with ARTH 183A. Art and Art History is responsible for scheduling.

MDES 184 - Directed Reading

1-4 unit(s)

Prerequisite(s): Religious studies upper-division major or minor and coordinator consent.

Grading: Credit/No Credit

Cross-listed with RELS 184. Humanities is responsible for scheduling.

MDES 189 - Feminist Perspectives on Gender and Religion

3 unit(s)

Contemporary feminist theories analyze premises of gender roles in religious cultures and variety of sexual expressions. Course will allow students understand the diversity of religious cultures and communities, in addition to how geographical, political, and social locations, like ethnicity and class affect the gender debate in religious perspectives.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with WGSS 189. Sociology and Interdisciplinary Social Sciences is responsible for scheduling.
Sustainability Focused - SDG 5: Gender Equality

MDES 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Military Science

MILS 1A - Leadership & Personal Development

2 unit(s)

Introduction to the personal challenges and competencies that are critical for effective leadership. The focus is on developing basic knowledge and comprehension of Army leadership dimensions while gaining a big picture understanding of the ROTC program.

Grading: Letter Graded

MILS 1B - Introduction to Tactical Leadership

2 unit(s)

Overviews leadership fundamentals such as setting direction, problem-solving, listening, presenting briefs, providing feedback, and using effective writing skills. Students explore leadership attributes and core leader competencies in the context of practical, hands-on, and interactive exercises.

Grading: Letter Graded

MILS 2A - Innovative Team Leadership

2 unit(s)

Explores creative and innovative tactical leadership strategies and styles by examining team dynamics and trait and behavior theories. Students practice aspects of personal motivation and team building during planning, executing, and assessment of team exercises and participation in leadership labs.

Grading: Letter Graded

MILS 2B - Foundations of Tactical Leadership

2 unit(s)

Examines the challenges of leading tactical teams in today's complex world. The course highlights dimensions of terrain analysis, patrolling, and orders. Students develop greater awareness as they assess their own leadership styles and practice communication and team building skills.

Grading: Letter Graded

MILS 130A - Adaptive Team Leadership

4 unit(s)

Challenges students to study, practice, and evaluate adaptive leadership skills as they overcome challenging squad tactical operations scenarios. Cadets hone their leadership and critical thinking while they prepare for success at ROTC's summer Leadership Development and Assessment Course (LDAC).

Grading: Letter Graded

MILS 130B - Applied Team Leadership

4 unit(s)

Uses situational team leadership challenges to build awareness and skills in leading small units. Students review aspects of full spectrum operations, and conduct military briefings to develop proficiency giving operation orders. This is the final course before students attend LDAC.

Grading: Letter Graded

MILS 140A - Adaptive Leadership

4 unit(s)

Students learn how to train, mentor and evaluate underclassmen. They will learn the duties and responsibilities of an Army staff officer and apply those lessons during weekly training meetings to plan,

execute and assess battalion training events.

Grading: Letter Graded

MILS 140B - Leadership in a Complex World

4 unit(s)

Explores the realities of leading in the Contemporary Operating Environment (COE). Students learn to adapt to operations in unfamiliar lands and international terrorism. The course places significant emphasis on preparing cadets for their first assignment in the US Army.

Grading: Letter Graded

MILS 180 - Individual Studies

1-4 unit(s)

Individual work on special topics by arrangement.

Prerequisite(s): Instructor consent and Military Science Chair approval.

Grading: Credit/No Credit

MILS 199 - American Military History

3 unit(s)

A survey of diplomatic, international, military and economic aspects of American involvement in conflicts from the Anglo-Indian Wars to present time. Study of leadership, weapons technology, politics, humanitarian operations and critical thinking.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Music

MUSC 1A - Music Theory IA

2 unit(s)

First course in a four-semester core sequence of study of analytical systems of music. Topics include rhythm, melody, harmony, timbre, structure, style and contexts for performance and composition.

Prerequisite(s): Placement examination or completion of MUSC 9 with a grade of 'C' or better.

Grading: Letter Graded.

MUSC 1B - Musicianship IB

1 unit(s)

First course in a four-semester core sequence of aural skills acquisition, including dictation, sight-singing and analysis.

Prerequisite(s): Placement examination.

Grading: Letter Graded.

MUSC 2A - Music Theory IIA

2 unit(s)

A comprehensive introduction to the structural principles and compositional techniques of tonal music. Emphasis on diatonic harmony and elementary counterpoint through written exercises, model composition, and analysis..

Prerequisite(s): MUSC 1A or placement examination.

Grading: Letter Graded.

MUSC 2B - Musicianship IIB

1 unit(s)

Musicianship commensurate with MUSC 2A. Melodic, harmonic, and contrapuntal dictation, error detection, and aural perception of basic formal procedures.

Prerequisite(s): MUSC 1B or placement examination.

Grading: Letter Graded.

MUSC 3A - Music Theory IIIA

2 unit(s)

Continued study of the harmonic techniques and structural principles of tonal music, with emphasis on chromatic harmony and contrapuntal elaboration through written exercises, model composition, and analysis.

Prerequisite(s): MUSC 2A or placement examination.

Grading: Letter Graded.

MUSC 3B - Musicianship IIIB

1 unit(s)

Musicianship commensurate with MUSC 3A. Continued work in melodic, harmonic, contrapuntal dictation, and error detection of tonal music.

Prerequisite(s): MUSC 2B or placement examination.

Grading: Letter Graded.

MUSC 4A - Music Theory 4A

2 unit(s)

Continued study of the harmonic techniques and structural principles of tonal music, with emphasis on chromatic harmony and contrapuntal elaboration through written exercises, model composition, and analysis. An introduction to the structural principles and formal procedures of music from the early 20th century to the present.

Satisfies C1: Arts when taken as part of the Music Intensive Package.

Prerequisite(s): MUSC 3A or placement examination.

Grading: Letter Graded.

Note(s): Music Intensive Package also requires MUSC 4B and MUSC 12 .

MUSC 4B - Musicianship 4B

1 unit(s)

Musicianship commensurate with MUSC 4A. Continued work in melodic, harmonic, and contrapuntal dictation, error detection, and compositional trends from the 20th and 21st Century.

Satisfies C1: Arts when taken as part of the Music Intensive Package.

Prerequisite(s): MUSC 3B or placement examination.

Grading: Letter Graded.

Note(s): Music Intensive Package also requires MUSC 12 and MUSC 4A .

MUSC 6 - Jazz Theory

2 unit(s)

Understanding of traditional jazz nomenclature including chord symbols, chord/scale relationships, and jazz harmony. Various scales, their modes and their applications will be addressed as well as their applications to harmonic progressions common to the jazz idiom.

Prerequisite(s): MUSC 1A, MUSC 1B, MUSC 25A.

Grading: Letter Graded

MUSC 8 - The Artist's Way

3 unit(s)

Assists performing artists in becoming successful scholar/artists at SJSU and beyond through strategies for successful completion of studies at SJSU; experiencing and understanding the elements of the performing arts; and understanding and implementing lifelong practices for forging healthy performing arts careers.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

MUSC 9 - Music Fundamentals

3 unit(s)

Understanding music terminology, fundamental concepts in music theory and techniques in music reading. Acceptable as elective credit for music major (as review of fundamentals or for individual instruction in conjunction with applied music study) only with prior advisor approval.

Misc/Lab: Lecture 2 hours/activity 2 hours.

Grading: Letter Graded

MUSC 10A - Music Appreciation

3 unit(s)

General survey of Western music focusing on recorded and live performances.

Satisfies C1: Arts.

Grading: Letter Graded

MUSC 10B - Introduction to Music

3 unit(s)

Beginning piano playing as a means to understanding music. Listening skills developed through exposure to a variety of music: Popular/classical, old/new, Western/non-Western.

Satisfies C1: Arts.

Grading: Letter Graded

MUSC 10BK - Class Piano for Non-Majors

1 unit(s)

Basic note reading and piano playing skills to develop foundational piano technique and musicianship for personal enrichment. Prior experience equivalent to one semester of college group piano class or piano lessons.

Activity 2 hours.

Prerequisite(s): MUSC 10B or permission of the instructor.

Grading: Letter Graded.

MUSC 10C - Pop and Rock in the U.S.

3 unit(s)

Examines the musical attributes, structures, and stylistic choices in American popular music, as well as the historical and cultural underpinnings of the originating forces and influences and how they affect or are affected by social/cultural norms and political and economic developments.

Satisfies C1: Arts.

Grading: Letter Graded

MUSC 10D - Introduction to Hip Hop

3 unit(s)

Examines the origins, development, and importance of the music and culture of Hip Hop with emphasis on its societal implications in the U.S. and worldwide.

Satisfies C1: Arts.

Grading: Letter Graded

MUSC 12 - Medieval and Renaissance Music

3 unit(s)

A brief introduction to the six major periods of music history (Ancient and Medieval, Renaissance, Baroque, Classical, Romantic and Modern) followed by a survey of the Ancient, Medieval, and Renaissance periods with a study of notation, theory, composers, works, and cultural history.

Satisfies C2: Humanities when taken as part of the Music Intensive Package.

Prerequisite(s): MUSC 2A or instructor consent.

Grading: Letter Graded

Note(s): Music Intensive Package also requires MUSC 4A and MUSC 4B

MUSC 13 - Music Technology

1 unit(s)

Hands-on skills development in music hardware and software, including music integration in word processing and graphics, music notation and Internet/WWW-based research tools for music majors or non-music majors with some music background.

Grading: Letter Graded

MUSC 19 - Music in World Cultures

3 unit(s)

Introduction to music in various cultural contexts outside European classical tradition. Live performances, film, video tapes and slides. Projects involving related arts are encouraged.

Satisfies C1: Arts.

Grading: Letter Graded

Cross-listed with ASIA 19. Music is responsible for scheduling.

MUSC 25A - Piano Proficiency I

1 unit(s)

Skills development in performing four-part harmony; harmonizing melodies in pianistic style, modulation, simple score reading and sight-reading. First in three-course sequence to prepare applied music students for piano proficiency exam at the end of MUSC 25C.

Misc/Lab: Activity 2 hours.

Prerequisite(s): MUSC 9 (or equivalent) or instructor consent.

Grading: Letter Graded

MUSC 25B - Piano Proficiency II

1 unit(s)

25B continuation of 25A.

Prerequisite(s): MUSC 25A or equivalent, instructor consent

Grading: Letter Graded

MUSC 25C - Piano Proficiency III

1 unit(s)

Preparation for Piano Proficiency Exam

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 9, MUSC 25B or equivalent, instructor consent

Grading: Letter Graded

MUSC 26A - Voice Fundamentals

1 unit(s)

Principles of voice production and performance.

Prerequisite(s): MUSC 9 or MUSC 10B (or equivalent).

Grading: Letter Graded

MUSC 27A - Fundamentals of Jazz Keyboard I

1 unit(s)

For any instrumental/voice student. Basic skills in jazz keyboard: Chord voicings, symbols, progressions and rhythmic patterns, jazz styles, simple melodic techniques and accompaniment.

Grading: Letter Graded

MUSC 27B - Fundamentals of Jazz Keyboard II

1 unit(s)

Advanced applications of materials presented in MUSC 27A, including keyboard performance of selected lead-sheet literature; chord symbol recognition, keyboard techniques, chord substitutions introduced, polychords.

Prerequisite(s): MUSC 27A (or equivalent).

Grading: Letter Graded

MUSC 28 - Guitar Fundamentals

1 unit(s)

The purpose of this course is to develop basic skills and techniques in guitar playing, applicable to various types of music and teaching.

Grading: Letter Graded.

MUSC 29 - Electro-Acoustics

1-2 unit(s)

Incorporating current music technology and instrumentation in creating works and projects. Required each semester of lower division electro-acoustic majors.

Prerequisite(s): Audition or Instructor Consent

Grading: Letter Graded

MUSC 29A - Electro-Acoustics 1

1-2 unit(s)

APPLIED LESSONS: Electro-acoustics level 1, incorporating current music technology and instrumentation into projects. For music technology majors.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 29AX - Applied Electro-Acoustic 1

1 unit(s)

The course is an intensive study of electro-acoustic music and audio production methods. Works and projects are created incorporating current music technology and instrumentation.

Prerequisite(s): Successful audition into the applied area

Grading: Letter Graded

MUSC 29B - Electro-Acoustics 2

1-2 unit(s)

APPLIED LESSONS: Electro-acoustics level 2, incorporating current music technology and instrumentation into projects. For music technology majors.

Prerequisite(s): Audition and instructor consent, MUSC 29A or equivalent

Grading: Letter Graded

MUSC 29BX - Applied Electro-Acoustic 2

1 unit(s)

The course is an intensive study of electro-acoustic music and audio production methods. Works and projects are created incorporating current music technology and instrumentation.

Prerequisite(s): Successful audition into the applied area

Grading: Letter Graded

MUSC 29C - Electro-Acoustics 3

1-2 unit(s)

APPLIED LESSONS: Electro-acoustics level 3, incorporating current music technology and instrumentation into projects. For music technology majors.

Prerequisite(s): Audition and instructor consent, MUSC 29B or equivalent

Grading: Letter Graded

MUSC 29CX - Applied Electro-Acoustic 3

1 unit(s)

The course is an intensive study of electro-acoustic music and audio production methods. Works and projects are created incorporating current music technology and instrumentation.

Prerequisite(s): Successful audition into the applied area

Grading: Letter Graded

MUSC 29D - Electro-Acoustics 4

1-2 unit(s)

APPLIED LESSONS: Electro-acoustics level 4, incorporating current music technology and instrumentation into projects. For music technology majors.

Prerequisite(s): Audition and instructor consent, MUSC 29C or equivalent

Grading: Letter Graded

MUSC 29DX - Applied Electro-Acoustic 4

1 unit(s)

The course is an intensive study of electro-acoustic music and audio production methods. Works and projects are created incorporating current music technology and instrumentation.

Prerequisite(s): Successful audition into the applied area

Grading: Letter Graded

MUSC 30 - Piano

1-2 unit(s)

Required each semester of lower division piano majors.

Prerequisite(s): Audition or instructor consent.

Grading: Letter Graded

MUSC 30A - Piano 1

1-2 unit(s)

APPLIED LESSONS: Piano level 1. Required of BM piano majors every semester.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 30AX - Applied Piano 1

1 unit(s)

The objective of applied lessons is for the instructor to work intensively with the individual piano major in acquiring skills both technical and interpretive in the mastery of standard repertory.

Prerequisite(s): Successful audition into applied area

Grading: Letter Graded

MUSC 30B - Piano 2

1-2 unit(s)

APPLIED LESSONS: Piano level 2. Lessons required of BM piano majors every semester.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 30BX - Applied Piano 2

1 unit(s)

The objective of applied lessons is for the instructor to work intensively with the individual piano major in acquiring skills both technical and interpretive in the mastery of standard repertory.

Prerequisite(s): Successful audition into applied area

Grading: Letter Graded

MUSC 30C - Piano 3

1-2 unit(s)

APPLIED LESSONS: Piano level 3. Lessons required of BM piano majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 30B or equivalent.

Grading: Letter Graded

MUSC 30CX - Applied Piano 3

1 unit(s)

The objective of applied lessons is for the instructor to work intensively with the individual piano major in acquiring skills both technical and interpretive in the mastery of standard repertory.

Prerequisite(s): Successful audition into applied area

Grading: Letter Graded

MUSC 30D - Piano 4

1-2 unit(s)

APPLIED LESSONS: Piano level 4. Lessons required of BM piano majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 30C or equivalent.

Grading: Letter Graded

MUSC 30DX - Applied Piano 3

1 unit(s)

The objective of applied lessons is for the instructor to work intensively with the individual piano major in acquiring skills both technical and interpretive in the mastery of standard repertory.

Prerequisite(s): Successful audition into applied area

Grading: Letter Graded

MUSC 33 - Voice

1-2 unit(s)

Required each semester of lower division voice majors. Study and development of vocal techniques and performance of representative repertoire from principal periods in music. Includes compositions embracing the English, Italian, French and German languages.

Prerequisite(s): Audition or instructor consent.

Grading: Letter Graded

MUSC 33A - Voice 1

1-2 unit(s)

APPLIED LESSONS: Voice level 1. Required of BM vocal majors every semester.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 33AX - Applied Voice 1

1 unit(s)

Applied Lessons 1-8, required each semester for lower and upper division Voice majors.

Prerequisite(s): Audition and/or the prior course in the sequence

Grading: Letter Graded

MUSC 33B - Voice 2

1-2 unit(s)

APPLIED LESSONS: Voice level 2. Required of BM vocal majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 33A or equivalent.

Grading: Letter Graded

MUSC 33BX - Applied Voice 2

1 unit(s)

Applied Lessons 1-8, required each semester for lower and upper division Voice majors.

Prerequisite(s): Audition and/or the prior course in the sequence

Grading: Letter Graded

MUSC 33C - Voice 3

1-2 unit(s)

APPLIED LESSONS: Voice level 3. Required of BM vocal majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 33B or equivalent.

Grading: Letter Graded

MUSC 33CX - Applied Voice 3

1 unit(s)

Applied Lessons 1-8, required each semester for lower and upper division Voice majors.

Prerequisite(s): Audition and/or the prior course in the sequence

Grading: Letter Graded

MUSC 33D - Voice 4

1-2 unit(s)

APPLIED LESSONS: Voice level 4. Required of BM vocal majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 33C or equivalent.

Grading: Letter Graded

MUSC 33DX - Applied Voice 4

1 unit(s)

Applied Lessons 1-8, required each semester for lower and upper division Voice majors.

Prerequisite(s): Audition and/or the prior course in the sequence

Grading: Letter Graded

MUSC 33X - Applied Voice

1 unit(s)

Applied Lessons 1-8, required each semester for lower and upper division Voice majors.

Prerequisite(s): Audition and/or the prior course in the sequence

Grading: Letter Graded

MUSC 34 - Strings

1-2 unit(s)

Required each semester of lower division string majors.

Prerequisite(s): Audition or instructor consent.

Grading: Letter Graded

MUSC 34A - Strings 1

1-2 unit(s)

APPLIED LESSONS: Strings level 1. Required of BM string majors every semester.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 34AX - Strings 1

1 unit(s)

Applied lessons A-D, required each semester of upper and lower division string majors.

Prerequisite(s): Audition or instructor consent

Grading: Letter Graded

MUSC 34B - Strings 2

1-2 unit(s)

APPLIED LESSONS: Strings level 2. Required of BM string majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 34A or equivalent

Grading: Letter Graded

MUSC 34BX - Strings 2

1 unit(s)

Applied lessons A-D, required each semester of upper and lower division string majors.

Prerequisite(s): Audition or instructor consent

Grading: Letter Graded

MUSC 34C - Strings 3

1-2 unit(s)

APPLIED LESSONS: Strings level 3. Required of BM string majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 34B or equivalent

Grading: Letter Graded

MUSC 34CX - Strings 3

1 unit(s)

Applied lessons A-D, required each semester of upper and lower division string majors.

Prerequisite(s): Audition or instructor consent

Grading: Letter Graded

MUSC 34D - Strings 4

1-2 unit(s)

APPLIED LESSONS: Strings level 4. Required of BM string majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 34C or equivalent

Grading: Letter Graded

MUSC 34DX - Strings 4

1 unit(s)

Applied lessons A-D, required each semester of upper and lower division string majors.

Prerequisite(s): Audition or instructor consent

Grading: Letter Graded

MUSC 34X - Strings

1 unit(s)

Applied lessons A-D, required each semester of upper and lower division string majors.

Prerequisite(s): Audition or instructor consent

Grading: Letter Graded

MUSC 35 - Woodwinds

1-2 unit(s)

Required each semester of lower division woodwind majors.

Prerequisite(s): Audition or instructor consent.

Grading: Letter Graded

MUSC 35A - Woodwinds 1

1-2 unit(s)

APPLIED LESSONS: Woodwinds level 1. Required of BM woodwind majors every semester. Flute, oboe, bassoon, clarinet or saxophone.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 35AX - Woodwinds 1

1 unit(s)

Applied Lessons 1-8, required each semester for lower and upper division woodwind majors.

Prerequisite(s): Audition and/or the prior course in the sequence

Grading: Letter Graded

MUSC 35B - Woodwinds 2

1-2 unit(s)

APPLIED LESSONS: Woodwinds level 2. Required of BM woodwind majors every semester. Flute, oboe, bassoon, clarinet or saxophone.

Prerequisite(s): Audition and instructor consent, MUSC 35A or equivalent

Grading: Letter Graded

MUSC 35BX - Woodwinds 2

1 unit(s)

Applied Lessons 1-8, required each semester for lower and upper division woodwind majors.

Prerequisite(s): Audition and/or the prior course in the sequence

Grading: Letter Graded

MUSC 35C - Woodwinds 3

1-2 unit(s)

APPLIED LESSONS: Woodwinds level 3. Required of BM woodwind majors every semester. Flute, oboe, clarinet, bassoon or saxophone.

Prerequisite(s): Audition and instructor consent, MUSC 35B or equivalent

Grading: Letter Graded

MUSC 35CX - Woodwinds 3

1 unit(s)

Applied Lessons 1-8, required each semester for lower and upper division woodwind majors.

Prerequisite(s): Audition and/or the prior course in the sequence

Grading: Letter Graded

MUSC 35D - Woodwinds 4

1-2 unit(s)

APPLIED LESSONS: Woodwinds level 4. Required of BM woodwind majors every semester. Flute, oboe, bassoon, clarinet or saxophone.

Repeatable for credit with instructor consent.

Prerequisite(s): Audition and instructor consent, MUSC 35C or equivalent

Grading: Letter Graded

MUSC 35DX - Woodwinds 4

1 unit(s)

Applied Lessons 1-8, required each semester for lower and upper division woodwind majors.

Prerequisite(s): Audition and/or the prior course in the sequence

Grading: Letter Graded

MUSC 36 - Brass

1-2 unit(s)

Required each semester of lower division brass majors.

Prerequisite(s): Audition or instructor consent.

Grading: Letter Graded

MUSC 36B - Brass 1

1-2 unit(s)

APPLIED LESSONS: Brass level 1. Required of BM brass majors every semester. Trumpet, trombone, french horn, euphonium, tuba.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 36BX - Brass 1

1 unit(s)

Required each semester for lower and upper division brass majors.

Prerequisite(s): Successful audition into the applied area.

Grading: Letter Graded

MUSC 36C - Brass 2

1-2 unit(s)

APPLIED LESSONS: Brass level 2. Required of BM brass majors every semester. Trumpet, trombone, french horn, euphonium, tuba.

Prerequisite(s): Audition and instructor consent, MUSC 36B or equivalent

Grading: Letter Graded

MUSC 36CX - Brass 2

1 unit(s)

Required each semester for lower and upper division brass majors.

Prerequisite(s): Successful audition into the applied area.

Grading: Letter Graded

MUSC 36D - Brass 3

1-2 unit(s)

APPLIED LESSONS: Brass level 3. Required of BM brass majors every semester. Trumpet, trombone, french horn, euphonium, tuba.

Prerequisite(s): Audition and instructor consent, MUSC 36C or equivalent

Grading: Letter Graded

MUSC 36DX - Brass 3

1 unit(s)

Required each semester for lower and upper division brass majors.

Prerequisite(s): Successful audition into the applied area.

Grading: Letter Graded

MUSC 36E - Brass 4

1-2 unit(s)

APPLIED LESSONS: Brass level 4. Required of BM brass majors every semester. Trumpet, trombone, french horn, euphonium, tuba.

Prerequisite(s): Audition and instructor consent, MUSC 36D or equivalent

Grading: Letter Graded

MUSC 36EX - Brass 4

1 unit(s)

Required each semester for lower and upper division brass majors.

Prerequisite(s): Successful audition into the applied area.

Grading: Letter Graded

MUSC 37 - Percussion

1-2 unit(s)

Required each semester of lower division percussion majors.

Prerequisite(s): Audition or instructor consent.

Grading: Letter Graded

MUSC 37A - Percussion 1

1-2 unit(s)

APPLIED LESSONS: Percussion level 1. Required of BM percussion majors every semester.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 37AX - Applied Percussion 1

1 unit(s)

Applied Lessons - Instruction in technical, stylistic, and aesthetic elements of artistic performance in percussion.

Prerequisite(s): Successful audition into the percussion studio

Grading: Letter Graded

MUSC 37B - Percussion 2

1-2 unit(s)

APPLIED LESSONS: Percussion level 2. Required of BM percussion majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 37A or equivalent.

Grading: Letter Graded

MUSC 37BX - Applied Percussion 2

1 unit(s)

Applied Lessons - Instruction in technical, stylistic, and aesthetic elements of artistic performance in percussion.

Prerequisite(s): Successful audition into the percussion studio

Grading: Letter Graded

MUSC 37C - Percussion 3

1-2 unit(s)

APPLIED LESSONS: Percussion level 3. Required of BM percussion majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 37B or equivalent.

Grading: Letter Graded

MUSC 37CX - Applied Percussion 3

1 unit(s)

Applied Lessons - Instruction in technical, stylistic, and aesthetic elements of artistic performance in percussion.

Prerequisite(s): Successful audition into the percussion studio

Grading: Letter Graded

MUSC 37D - Percussion 4

1-2 unit(s)

APPLIED LESSONS: Percussion level 4. Required of BM percussion majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 37C or equivalent.

Grading: Letter Graded

MUSC 37DX - Applied Percussion 4

1 unit(s)

Applied Lessons - Instruction in technical, stylistic, and aesthetic elements of artistic performance in percussion.

Prerequisite(s): Successful audition into the percussion studio

Grading: Letter Graded

MUSC 38B - Composition 1

1-2 unit(s)

APPLIED LESSONS: Composition level 1. Required of BM composition majors every semester.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 38BX - Applied Instruction in Music Composition 1

1 unit(s)

The course is an intensive study of the materials of art music composition. Works are created incorporating common practice and twentieth century procedures

Grading: Letter Graded

MUSC 38C - Composition 2

1-2 unit(s)

APPLIED LESSONS: Composition level 2. Required of BM composition majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 1A, MUSC 1B, MUSC 38B, with a B or better

Corequisite(s): MUSC 2A and MUSC 2B

Grading: Letter Graded

MUSC 38CX - Applied Instruction in Music Composition 2

1 unit(s)

The course is an intensive study of the materials of art music composition. Works are created incorporating common practice and twentieth century procedures

Grading: Letter Graded

MUSC 38D - Composition 3

1-2 unit(s)

APPLIED LESSONS: Composition level 3. Required of BM composition majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 2A and MUSC 2B, MUSC 38C, with a B or better

Corequisite(s): MUSC 3A and MUSC 3B

Grading: Letter Graded

MUSC 38DX - Applied Instruction in Music Composition 3

1 unit(s)

The course is an intensive study of the materials of art music composition. Works are created incorporating common practice and twentieth century procedures

Grading: Letter Graded

MUSC 38E - Composition 4

1-2 unit(s)

APPLIED LESSONS: Composition level 4. Required of BM composition majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 3A and MUSC 3B, MUSC 38D, with a B or better

Corequisite(s): MUSC 4A and MUSC 4B

Grading: Letter Graded

MUSC 38EX - Applied Instruction in Music Composition 4

1 unit(s)

The course is an intensive study of the materials of art music composition. Works are created incorporating common practice and twentieth century procedures

Grading: Letter Graded

MUSC 39A - Jazz: Improvisation, Composition or Arranging 1

1-2 unit(s)

APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 1. Required of BM Jazz Studies majors every semester.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 39AX - Jazz: Improvisation, Composition or Arranging 1

1 unit(s)

APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 1. Required of BA, BM-Composition, or BM Jazz Studies majors every semester.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 39B - Jazz: Improvisation, Composition or Arranging 2

1-2 unit(s)

APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 2. Required of BM Jazz Studies majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 39A or equivalent

Grading: Letter Graded

MUSC 39BX - Jazz: Improvisation, Composition or Arranging 2

1 unit(s)

APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 2. Required of BA, BM-Composition, or BM Jazz Studies majors every semester.

Prerequisite(s): MUSC 39AX or equivalent

Grading: Letter Graded

MUSC 39C - Jazz: Improvisation, Composition or Arranging 3

1-2 unit(s)

APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 3. Required of BM Jazz Studies majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 39B or equivalent

Grading: Letter Graded

MUSC 39CX - Jazz: Improvisation, Composition or Arranging 3

1 unit(s)

APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 3. Required of BA, BM-Composition, or BM Jazz Studies majors every semester.

Prerequisite(s): MUSC 39BX or equivalent

Grading: Letter Graded

MUSC 39D - Jazz: Improvisation, Composition and Arranging 4

1-2 unit(s)

APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 5. Required of BM Jazz Studies majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 39C or equivalent

Grading: Letter Graded

MUSC 39DX - Jazz: Improvisation, Composition or Arranging 4

1 unit(s)

APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 4. Required of BA, BM-Composition, or BM Jazz Studies majors every semester.

Prerequisite(s): MUSC 39CX or equivalent

Grading: Letter Graded

MUSC 39X - Applied Jazz Saxophone

1 unit(s)

The goal of Applied Jazz Saxophone at any level is to present each student with the appropriate materials to increase his/her ability as an improvising musician. Emphasis will be placed on learning standard jazz repertoire; the transcription of jazz solos; the assimilation of technical patterns associated with improvisation; and internalizing an idiomatic stylistic approach.

Prerequisite(s): MUSC 39AxBxCxDx: Successful audition into the BA Music Degree MUSC 39ABCD: Successful audition into the BM Jazz Studies Degree MUSC 139ABCD: Successful completion of Junior Qualifying Examination MUSC 224: Successful audition into the MM Jazz Studies Degree MUSC 239: With graduate advisors and applied instructors consent

Grading: Letter Graded

MUSC 40A - Jazz Improvisation - I

2 unit(s)

Development of performance skills for lead-sheet interpretation: response and interplay, ear-training for improvisers, basic chord-scales and jazz vocabulary. Vocal, instrumental, and transcription exercises. In-class performance. Emphasis will be placed on blues, modal compositions, and simple song forms.

Misc/Lab: Seminar 1 hour/activity 2 hours.

Pre/Corequisite(s): MUSC 1A, MUSC 1B and MUSC 25A; or equivalent.

Grading: Letter Graded

MUSC 41A - Applied Lyric Diction

1 unit(s)

Pronunciation and applied execution of correct diction in English and Italian for singers in a master class setting. Performance of specific literature of these languages with emphasis on correct usage of the International Phonetic alphabet for lyric diction.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

MUSC 41B - Applied Lyric Diction

1 unit(s)

Pronunciation and applied execution of correct diction in French and German for singers in a master class setting. Performance of specific literature of these languages with emphasis on correct usage of the International Phonetic Alphabet for lyric diction.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

MUSC 50A - ENS: Concert Choir

1 unit(s)

Ensemble. Large select choral ensemble, specializing in advanced a cappella and symphonic major works from all periods.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 51 - ENS: University Chorales

1 unit(s)

ENS: Rehearsal and performance of choral masterpieces and music with wide popular appeal. Students involved in the University Chorales will participate in either the SJSU Women's Chorus, Men's Glee Club, or other specialized choral ensemble and will have the opportunity to study and perform high quality choral literature.

Course may be repeated for credit for up to 5 units.

Grading: Letter Graded

Note(s): Elective course open to music majors and non-music majors.

MUSC 51A - ENS: University Chorales - Treble Choir

1 unit(s)

Vocal ensemble for treble voices. Bi-weekly rehearsals lead to one or more performances per semester.

Activity 2 hours.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition or Instructor Consent

Grading: Letter Graded

MUSC 51B - ENS: University Chorales - Spartan Glee

1 unit(s)

Vocal ensemble for low voices. Bi-weekly rehearsals lead to one or more performances per semester.

Activity 2 hours.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition or Instructor Consent

Grading: Letter Graded

MUSC 52 - ENS: Opera Theater

1 unit(s)

Ens: Training and performance experience in the field of opera. Fully-staged productions of one-act and conventional length works of varying styles.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and instructor consent.

Grading: Letter Graded

MUSC 53 - ENS: University Symphony Orchestra

1 unit(s)

Ens: Rehearsal and performance of standard orchestral and operatic repertory.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

MUSC 54 - ENS: Symphonic Band

1 unit(s)

ENS: Rehearsal and performance of large symphonic band repertory.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

MUSC 55 - ENS: Wind Ensemble

1 unit(s)

ENS: Major performing group open to all wind instrumentalists by audition. Select group that performs the most advanced and high quality contemporary and traditional literature for wind ensemble from all periods. Programming changes every semester. Performances can include but not be limited to state and national conferences.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 56 - ENS: Spartan Marching Band

1 unit(s)

ENS: Open by permission to all students who play saxophone, brass or percussion instruments. Performs at all home and selected away Spartan football games.

Activity 2 hours.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

MUSC 57 - ENS: Jazz Orchestra

1 unit(s)

ENS: Big band jazz performance for instrumentalists and singers. Classic and new repertoire. Concert performances.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

MUSC 59 - ENS: Afro-Latin Jazz Ensemble

1 unit(s)

ENS: Performance of Afro-Latin jazz and popular music repertoires of the US, the Caribbean, and Latin

America. Ensemble techniques and solo improvisation. Concert performances.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

MUSC 60A - ENS: Choraliers

1 unit(s)

ENS: Small select chamber vocal group specializing in music from all periods, Renaissance to Contemporary.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

MUSC 60C - ENS: Chamber Music

1 unit(s)

ENS: In-depth chamber music study and performance of standard repertoire with two or more instruments plus piano.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 60D - ENS: Collegium Musicum

1 unit(s)

ENS: Reinforces music history studies through performance. Authenticating performance of pre-Classical music on period instruments and accurate vocal/instrumental practices. Vocal and instrumental, sacred and secular music performed.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

MUSC 60E - ENS: Jazz Singers

1 unit(s)

ENS: Performance of advanced literature for chamber jazz chorus in concerts, festivals, and special events. Performance techniques, improvisation, musicianship and studio-recording techniques.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

MUSC 60F - ENS: Small Jazz Ensembles

1 unit(s)

ENS: Small-group jazz performance: standard literature, informal ("head") arrangements. In-class and/or public performances.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 1A, MUSC 1B, MUSC 40A and MUSC 140B or equivalent. Instructor consent.

Grading: Letter Graded

MUSC 60G - ENS: Pep Band

1 unit(s)

ENS: Limited to twenty-five woodwind, brass and percussion players; performs at home Spartan basketball games and certain campus functions.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

MUSC 60H - ENS: Percussion Ensemble

1 unit(s)

ENS: Performing class consisting of percussion majors. Master classes during fall semester.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Non-majors by audition and instructor consent

Grading: Letter Graded

MUSC 60I - ENS: Jazz Ensemble

1 unit(s)

ENS: Large jazz ensemble focused on learning standard repertoire, style, pedagogy and improvisation.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 60J - ENS: String Ensemble

1 unit(s)

ENS: Chamber works for various string combinations studied and performed. Rehearsal and performance techniques for small chamber groups.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

MUSC 60K - ENS: Brass Ensemble

1 unit(s)

ENS: Performance of duet, trio, quartet and quintet literature for mixed and homogeneous brass instruments. Literature used represents all style periods with either original or transcription materials.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

MUSC 60L - ENS: Woodwind Ensemble

1 unit(s)

ENS: Chamber works for various woodwind combinations. Rehearsal and performance techniques for small chamber groups.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition or Instructor Consent

Grading: Letter Graded

MUSC 60M - ENS: Saxophone Ensemble

1 unit(s)

ENS: Overview of music for saxophone ensemble for two to twenty players. All styles studied from Renaissance to Jazz.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

MUSC 60O - ENS: Trombone Ensemble

1 unit(s)

ENS: Rehearsal and performance of literature for trombone ensemble. Weekly meetings will also include discussion of brass related topics.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 60S - ModLark - Mobile Device and Laptop Orchestra (Intro. Level)

1 unit(s)

Music performing ensemble of laptops and mobile communication devices presenting original sonic

compositions. Overview of computer music performance, introductory level digital instrument design, and collaborative performance practices.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded.

MUSC 61 - REP: Styles and Interpretation of Opera I

1 unit(s)

REP: Introduction to styles of opera composition and presentation focusing on opera scenes being presented by the Opera Theater.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

MUSC 63 - REP: Styles and Interpretation of Opera II

1 unit(s)

REP: Advanced styles of opera composition and presentation focusing on opera scenes being presented by the Opera Theater

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and Instructor Consent

Grading: Letter Graded

MUSC 64 - New Music Ensemble

1 unit(s)

The New Music Ensemble performs solo, chamber, and large ensemble works drawn from the broad spectrum of contemporary music, including works by living composers.

Activity 2 hours.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and instructor consent.

Grading: Letter Graded

MUSC 65 - Concert Band

1 unit(s)

Concert Band is an ensemble open to all wind and percussion instrumentalists regardless of major. It is designed for instrumentalists that are still developing rehearsal and performance skills in an ensemble setting that culminates in a concert on campus each semester.

Activity 2 hours.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Open to freshmen and sophomores only.

Grading: Letter Graded

MUSC 66A - Mariachi San José

1 unit(s)

Mariachi San José is an advanced-level university ensemble performing repertoire predominantly from Mexico's *música ranchera* genre. The ensemble maintains an active schedule performing throughout the semester for university and community events. Participation in the ensemble requires audition and students are expected to be proficient in mariachi performance practice, as both vocalist and as an instrumentalist on one of the following instruments: violin, trumpet, guitar, *viuela*, *guitarrón*, and/or *arpa folklórico*.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and instructor consent.

Grading: Letter Graded.

MUSC 81 - Concert Listening I

1 unit(s)

Active involvement in the professional musical life of the campus and community through attending programs from the master list published each semester and writing five critical reviews.

Course may be repeated for credit for up to 4 units.

Grading: Credit/No Credit

Note(s): Open to all university students.

MUSC 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

MUSC 100W - Written Communication II

3 unit(s)

Examines the process of critique, creative description, research, and professional communications central to the performing arts. Students develop writing skills through the study of varied formats focused on the arts.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level.
Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

MUSC 102 - Orchestration

3 unit(s)

Ranges, sonorities, transposition and technical considerations of orchestral instruments. Performance of project for full orchestra as culminating activity.

Prerequisite(s): MUSC 13, MUSC 4A and MUSC 4B or equivalents
Grading: Letter Graded

Note(s): May be taken singly or in any sequence.

MUSC 103 - Form and Analysis

3 unit(s)

Formal design and pitch structure of Western art music.

Prerequisite(s): MUSC 4A and MUSC 4B.
Grading: Letter Graded

MUSC 104 - Counterpoint

3 unit(s)

The study of the art of counterpoint from the sixteenth century to the present. Includes analysis, imitative and original composition.

Prerequisite(s): MUSC 4A and MUSC 4B (both with C or better); placement examination.
Grading: Letter Graded

Note(s): May be taken singly or in any sequence. Emphasis may vary.

MUSC 106A - Jazz Arranging I

2 unit(s)

First in a two -semester sequence of jazz arranging and composition required of all jazz majors. Deals primarily with techniques involved in writing and arranging music for the small jazz ensemble and addresses skills used jazz composition.

Prerequisite(s): MUSC 2A, MUSC 2B, MUSC 6, MUSC 40A.
Grading: Letter Graded

MUSC 106B - Jazz Arranging II

2 unit(s)

Second in a two-semester sequence of jazz arranging and composition required of all jazz majors. Deals

primarily with techniques involved in writing and arranging music for the large jazz ensemble. Computer notation is required on all finished projects.

Prerequisite(s): MUSC 2A, MUSC 2B, MUSC 6, MUSC 106A.

Grading: Letter Graded

MUSC 109 - Film Scoring Techniques

3 unit(s)

Production-oriented introduction to techniques of applied composition and sound for film, television, video and related visual media. Concepts of style and orchestration.

Prerequisite(s): Lower division music theory (MUSC 4A and MUSC 4B) or consent of instructor.

Grading: Letter Graded

Note(s): Emphasis may vary.

MUSC 110 - Baroque and Classical Music History

3 unit(s)

Exploration and survey of the Baroque and Classical periods with study of styles, composers, works, music theory, performance practices, and cultural and intellectual history. Application of research and library skills through research assignments.

Prerequisite(s): MUSC 12, MUSC 3A (or equivalent), or instructor consent.

Grading: Letter Graded

MUSC 111 - Romantic and Modern Music History

3 unit(s)

Exploration and survey of Romantic and Modern classical music with study of styles, composers, works, music theory, performance practices, and cultural and intellectual history. Demonstration of research and library skills through a term paper.

Prerequisite(s): MUSC 110, or equivalent.

Grading: Letter Graded

MUSC 117 - Music and Culture in Latin America

3 unit(s)

Traces development of musical traditions in Latin America. Analyzes formation of musical styles resulting from socio-political, cultural and economic processes.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

MUSC 120 - Worlds of Jazz

3 unit(s)

Course approaches jazz as part of American and global cultural history, exploring the changing social contexts in which jazz musicians in the US and abroad have worked and lived throughout the 20th century and today.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

MUSC 122A - Fundamental Techniques of Woodwinds: Flute, Clarinet, and Saxophone

1 unit(s)

Woodwinds: Flute, Clarinet, and Saxophone. Required for credential. Instrumental emphasis in music education must take two units including clarinet, saxophone, flute, oboe, and bassoon. Choral/general emphasis must take a minimum of one unit to include flute, clarinet and saxophone.

Activity 2 hours.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

MUSC 122B - Fundamental Techniques and Literature: Instrumental

1 unit(s)

Woodwinds: double reeds and saxophone. Required for credential. Instrumental emphasis in music education must take two units including flute, clarinet, saxophone and double reeds. Choral/general emphasis must take a minimum of one unit including flute, clarinet, and saxophone.

Activity 2 hours.

Prerequisite(s): Upper division standing and instructor consent.

Grading: Letter Graded

MUSC 123A - Brass Fundamentals: Upper Brass

1 unit(s)

Upper Brass. Required for credential. Instrumental emphasis in music education must take two units including upper and lower brass. Choral/general emphasis must take a minimum of one unit of brass.

Activity 2 hours.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

MUSC 123B - Brass Fundamentals: Low Brass

1 unit(s)

Lower Brass. Required for credential. Instrumental emphasis in music education must take two units

including upper and lower brass. Choral/general emphasis must take a minimum of one unit of upper brass.

Activity 2 hours.

Prerequisite(s): Upper Division Standing and Instructor Consent

Grading: Letter Graded

MUSC 124 - Special Topics in Music History/Literature

1-3 unit(s)

Content varies to allow presentation of one-time courses by specialists from artist-faculty and guests.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

MUSC 125D - Percussion Techniques

1 unit(s)

Percussion. Required for credential.

Activity 2 hours.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

MUSC 126 - Marching Band Techniques

1 unit(s)

Methods and materials of marching band instruction. Techniques of show development, arranging, drill design, charting, and drill instruction. Principles of band administration, such as budget management, purchasing, and program development. Required for credential.

Prerequisite(s): Upper division standing and instructor consent.

Grading: Letter Graded

Note(s): Offer through Extended Studies.

MUSC 127A - Fundamental Techniques and Literature: Instrumental Upper Strings - Violin and Viola

1 unit(s)

Upper Strings. Required for credential. Instrumental emphasis in music education must take two units including upper and lower strings. Choral/general emphasis must take a minimum of one unit of strings.

Activity 2 hours.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

MUSC 127B - Fundamental Techniques and Literature: Instrumental Lower Strings - Cello and Bass

1 unit(s)

Lower Strings. Required for credential. Instrumental emphasis in music education must take two units including upper and lower strings. Choral/general emphasis must take a minimum of one unit of upper strings.

Activity 2 hours.

Prerequisite(s): Upper division standing and instructor consent.

Grading: Letter Graded

MUSC 129A - Electro-Acoustics 5

1-2 unit(s)

APPLIED LESSONS: Electro-acoustics level 5, incorporating current music technology and instrumentation into projects. For music technology majors.

Prerequisite(s): Audition and instructor consent, MUSC 29D or equivalent

Grading: Letter Graded

MUSC 130A - Piano 5

1-2 unit(s)

APPLIED LESSONS: Piano level 5. Lessons required of BM piano majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 30D or equivalent.

Grading: Letter Graded

MUSC 130B - Piano 6

1-2 unit(s)

APPLIED LESSONS: Piano level 6. Lessons required of BM piano majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 130A or equivalent.

Grading: Letter Graded

MUSC 130C - Piano 7

1-2 unit(s)

APPLIED LESSONS: Piano level 7. Lessons required of BM piano majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 130B or equivalent.

Grading: Letter Graded

MUSC 130D - Piano 8

1-2 unit(s)

APPLIED LESSONS: Piano level 8. Lessons required of BM piano majors every semester.

Prerequisite(s): Audition and instructor consent, MUSC 130C or equivalent.
Grading: Letter Graded

MUSC 133 - Voice

1-2 unit(s)

Required each semester of upper division voice majors. Continuation of MUSC 33. Study of more advanced repertoire and techniques.

Prerequisite(s): Audition or instructor consent.
Grading: Letter Graded

MUSC 133A - Voice 5

1-2 unit(s)

APPLIED LESSONS: Voice level 5. Required of BM vocal majors every semester. Upper division.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor consent, MUSC 33D or equivalent
Grading: Letter Graded

MUSC 133B - Voice 6

1-2 unit(s)

APPLIED LESSONS: Voice level 6. Required of BM vocal majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 133A or equivalent, MUSC 25C or equivalent
Grading: Letter Graded

MUSC 133C - Voice 7

1-2 unit(s)

APPLIED LESSONS: Voice level 7. Required of BM vocal majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 133B or equivalent.
Grading: Letter Graded

MUSC 133D - Voice 8

1-2 unit(s)

APPLIED LESSONS: Voice level 8. Required of BM vocal majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 133C or equivalent
Grading: Letter Graded

MUSC 134 - Strings

1-2 unit(s)

Required each semester of upper division string majors. Violin: All major and minor scales and arpeggios in three octaves; double stops; Kreutzer, Fiorillo, Rode etudes; Bach unaccompanied sonatas and standard concert repertoire, including concerti and sonatas by Vivaldi, Bach, Mozart, Mendelssohn, Beethoven and Brahms. Viola: All major and minor scales in three octaves; double stops; standard etudes including Kreutzer, Mazas, Bruni; Bach suites; all standard repertoire including Block suites, Brahms, Hindemith and Schubert. Cello: All major and minor scales and arpeggios in three octaves; double stops; standard etudes including Duport, Popper, Piatti. Solo literature will include selections by Bach, Beethoven, Boccherini, Brahms, Dvorak, Faure, Haydn, Saint-Saens, Shostakovich and Vivaldi. String Bass: All major and minor scales and arpeggios; Simandl Reinshagen, Bille, Storch, Hrabe etudes. Includes solo literature of Bottesini, Dittersdorf, Dragonetti, Koussevitzky, Hindemith, Marcello, Vivaldi and standard orchestral literature. Harp: Literature and techniques, with solo and ensemble performances. Etudes by Salzedo, Lariviere and standard concert works comparable to Ravel Introduction and Allegro, Salzedo Preludes, Prescetti Sonata and Pierre Impromptu CapriGuitar: Literature and technique of the guitar including studies by Shearer, Casassi, Guiliani, Torrega and Segovia, and solos by J. S. Bach, Carulli, De Visee, Fernando Sor and Paganini.

Prerequisite(s): Audition or instructor consent.

Grading: Letter Graded

MUSC 134A - Strings 5

1-2 unit(s)

APPLIED LESSONS: Strings level 5. Required of BM string majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 34D or equivalent

Grading: Letter Graded

MUSC 134B - Strings 6

1-2 unit(s)

APPLIED LESSONS: Strings level 6. Required of BM string majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 134A or equivalent, MUSC 25C or equivalent

Grading: Letter Graded

MUSC 134C - Strings 7

1-2 unit(s)

APPLIED LESSONS: Strings level 7. Required of BM string majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 135B or equivalent

Grading: Letter Graded

MUSC 134D - Strings 8

1-2 unit(s)

APPLIED LESSONS: Strings level 8. Required of BM string majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 134C or equivalent

Grading: Letter Graded

MUSC 135 - Woodwinds

1-2 unit(s)

Required each semester of upper division woodwind majors. Clarinet: Selections comparable to Mozart Clarinet Concerto, Brahms Sonatas and Weber Concertino. Saxophone: Comprehensive pedagogical approach to study of modern Saxophone technique from classical to jazz to avant-garde. Repertory comparable to Dahl Concerto, Woods Sonata, Wirth Indonesian Landscapes, Snyder Variations. Oboe: Selections comparable to Handel Concerto in G Minor. Haydn Oboe Concerto, Hindemith Oboe Sonata, Barret Oboe Studies. Double-reed construction is required. Flute: Selections comparable to Bach Sonata IV, Debussy Syrinx, Mozart concerti and Varese Density. Bassoon: Sonatas comparable to those of Etler, Saint-Saens and Mozart Sonata for Cello and Bassoon; concerti comparable to those of Weber, J. C. Bach, Mozart and Jacob, and representative excerpts from orchestral and chamber repertoire. Double-reed construction is required.

Prerequisite(s): Audition or instructor consent.

Grading: Letter Graded

MUSC 135A - Woodwinds 5

1-2 unit(s)

APPLIED LESSONS: Woodwinds level 5. Required of BM woodwind majors every semester. Flute, oboe, saxophone, clarinet or bassoon. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 35D or equivalent

Grading: Letter Graded

MUSC 135B - Woodwinds 6

1-2 unit(s)

APPLIED LESSONS: Woodwinds level 6. Required of BM woodwind majors every semester. Flute, oboe, saxophone, clarinet or bassoon. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 25C or equivalent, MUSC 135A or equivalent

Grading: Letter Graded

MUSC 135C - Woodwinds 7

1-2 unit(s)

APPLIED LESSONS: Woodwinds level 7. Required of BM woodwind majors every semester. Flute, oboe, saxophone, clarinet or bassoon. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 135B or equivalent

Grading: Letter Graded

MUSC 135D - Woodwinds 8

1-2 unit(s)

APPLIED LESSONS: Woodwinds level 8. Required of BM woodwind majors every semester. Flute, oboe, saxophone, clarinet or bassoon. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 135C or equivalent

Grading: Letter Graded

MUSC 136 - Brass

1-2 unit(s)

Required each semester of upper division brass majors. Trumpet: Selections comparable to Haydn Concerto, Hummel Concerto, Arutunian Concerto, Neruda Concerto and Hindemith Sonata. Trombone: Selections comparable to Concerto in B flat by Albrechtsberger or 15 Rhythmical Etudes by Bitsch. French Horn: Selections comparable to Concerto in E flat by Strauss, Concerti Nos. 2 and 4 by Mozart and Hindemith Sonata. Baritone Horn: Selections comparable to literature listed for trombone. Tuba: Selections comparable to Sonata Capriccioso by Takzcs, Concerto by Vaughn Williams and Suite No. 2 by Wilder.

Prerequisite(s): Audition or instructor consent.

Grading: Letter Graded

MUSC 136A - Vocal-Instrumental Improvisation

1 unit(s)

Advanced vocal and instrumental private lessons. Development of performing skills in various styles, with emphasis on soloing, reading lead sheets and advanced levels of musicianship and musicality.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

MUSC 136B - Brass 5

1-2 unit(s)

APPLIED LESSONS: Brass level 5. Required of BM brass majors every semester. Trumpet, trombone, french horn, euphonium, tuba. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 36D or equivalent

Grading: Letter Graded

MUSC 136C - Brass 6

1-2 unit(s)

APPLIED LESSONS: Brass level 6. Required of BM brass majors every semester. Trumpet, trombone, french horn, euphonium, tuba. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 25C or equivalent, MUSC 136B or equivalent

Grading: Letter Graded

MUSC 136D - Brass 7

1-2 unit(s)

APPLIED LESSONS: Brass level 7. Required of BM brass majors every semester. Trumpet, trombone, french horn, euphonium, tuba. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 136C or equivalent.

Grading: Letter Graded

MUSC 136E - Brass 8

1-2 unit(s)

APPLIED LESSONS: Brass level 8. Required of BM brass majors every semester. Trumpet, trombone, french horn, euphonium, tuba. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 136D or equivalent.

Grading: Letter Graded

MUSC 137 - Percussion

1-2 unit(s)

Required each semester of upper division percussion majors. Performance on timpani, keyboard percussion and snare drum as well as the accessory percussion instruments. Timpani etudes: Goodman, Firth, Cirone and the classical timpani repertoire. Keyboard repertoire includes Orchestral Mallet Player by Cirone. Goldenberg etudes, standard orchestral literature plus 4-mallet literature. Snare drum methods of Podemski, Whaley and Cirone and the standard orchestral literature.

Prerequisite(s): Audition or instructor consent.

Grading: Letter Graded

MUSC 137A - Percussion 5

1-2 unit(s)

APPLIED LESSONS: Percussion level 5. Required of BM percussion majors every semester. Upper division.

Course is repeatable for up to 2 units.

Prerequisite(s): Audition and instructor consent, MUSC 37D or equivalent.

Grading: Letter Graded

MUSC 137B - Percussion 6

1-2 unit(s)

APPLIED LESSONS: Percussion level 6. Required of BM percussion majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 137A or equivalent, MUSC 25C or equivalent

Grading: Letter Graded

MUSC 137C - Percussion 7

1-2 unit(s)

APPLIED LESSONS: Percussion level 7. Required of BM percussion majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 137B or equivalent.

Grading: Letter Graded

MUSC 137D - Percussion 8

1-2 *unit(s)*

APPLIED LESSONS: Percussion level 8. Required of BM percussion majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 137C or equivalent

Grading: Letter Graded

MUSC 138A - Composition

1 *unit(s)*

Private studio lessons. Advanced applications of the process needed to bring personal musical ideas and concepts to realities, such as compositions or arrangements in concert performance and video productions.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

MUSC 138B - Composition 5

1-2 *unit(s)*

APPLIED LESSONS: Composition level 5. Required of BM composition majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 4A and MUSC 4B, MUSC 38E

Grading: Letter Graded

MUSC 138C - Composition 6

1-2 *unit(s)*

APPLIED LESSONS: Composition level 6. Required of BM composition majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 25C or equivalent, MUSC 138B

Grading: Letter Graded

MUSC 138D - Composition 7

1-2 *unit(s)*

APPLIED LESSONS: Composition level 7. Required of BM composition majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 102, MUSC 103, MUSC 104 and MUSC 138C

Grading: Letter Graded

MUSC 138E - Composition 8

1-2 *unit(s)*

APPLIED LESSONS: Composition level 8. Required of BM composition majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 138D
Grading: Letter Graded

MUSC 139A - Jazz Studies 5

1-2 unit(s)

APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 5. Required of BM Jazz Studies majors every semester. Upper Division.

Prerequisite(s): Audition and instructor consent, MUSC 39D or equivalent
Grading: Letter Graded

MUSC 139B - Jazz Studies 6

1-2 unit(s)

APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 6. Required of BM Jazz Studies majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 139A or equivalent, MUSC 25C or equivalent, MUSC 27A
Grading: Letter Graded

MUSC 139C - Jazz Studies 7

1-2 unit(s)

APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 7. Required of BM Jazz Studies majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 139B or equivalent
Grading: Letter Graded

MUSC 139D - Jazz Studies 8

1-2 unit(s)

APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 8. Required of BM Jazz Studies majors every semester. Upper division.

Prerequisite(s): Audition and instructor consent, MUSC 139C or equivalent
Grading: Letter Graded

MUSC 140B - Jazz Improvisation-II

2 unit(s)

Continuation of MUSC 40A in greater depth and complexity: developing coherent solos and musical conversations, building bebop vocabulary, working with alternate melodic and rhythmic resources. Vocal, instrumental, and transcription exercises. In-class performance. Emphasis will be placed on bebop compositions, complex song forms, and rhythm changes.

Seminar 1 hour/activity 2 hours.

Course is repeatable for up to 6 units.

Pre/Corequisite(s): MUSC 2A, MUSC 2B, MUSC 6, and MUSC 40A; or equivalent.

Grading: Letter Graded

MUSC 140C - Jazz Improvisation-III

2 unit(s)

Continuation of MUSC 140B in greater depth and complexity: advanced transcription projects, style analysis, developing personal improvisatory style, advanced rhythmic, melodic, and harmonic techniques. Emphasis will be placed on complex jazz compositions-primarily those of Wayne Shorter, Chick Corea, and Tom Harrell.

Seminar 1 hour/activity 2 hours.

Course is repeatable for up to 6 units.

Pre/Corequisite(s): MUSC 2A, MUSC 2B, MUSC 6, and MUSC 40A; or equivalent.

Grading: Letter Graded

MUSC 142 - REP: Art Song Repertoire

1 unit(s)

Content varies each semester, with focus on German, French, Italian and Spanish, English and American, or Russian, Polish, Slavic and Scandinavian literature. Performance practice, language, style and history.

Course may be repeated for credit for up to 2 units.

Prerequisite(s): Upper division standing or instructor consent. Seminar 1 hour/activity 2 hours.

Grading: Letter Graded

MUSC 143 - REP: Collaborative Keyboard Performance

1 unit(s)

For piano majors who wish to broaden their pianistic skills by performing with singers and instrumentalists both in studio sessions and recital situations. A maximum of four units may be repeated.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

MUSC 144 - REP: Solo Lit., Performance, Pedagogy

1 unit(s)

Performance of vocal or piano literature studied in studio lessons, with discussion of technique, pedagogy, recital preparation and interpretive, stylistic and linguistic aspects of literature in a master class setting to develop confidence and serve as a forum for exchange of ideas.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

MUSC 145 - REP: Performance Concepts

2 unit(s)

Content varies to allow presentation of one-time courses by specialists from artist-faculty and guests. Repeatable for up to 4 units of credit when topic changes.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

MUSC 146 - Introduction to Applied Music Pedagogy

2 unit(s)

An introduction to the fundamentals of teaching applied music for the performing musician.

Prerequisite(s): MUSC 30D, MUSC 34D, MUSC 35D, MUSC 36E or MUSC 37D

Grading: Letter Graded

MUSC 146A - Pedagogy - Piano

2 unit(s)

For piano majors and established teachers who primarily wish to teach. Teaching techniques and application of these skills from elementary to most advanced levels.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

MUSC 147A - Beginning Conducting

2 unit(s)

Basic choral and instrumental conducting techniques.

Misc/Lab: Seminar 1 hour/activity 2 hours.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

MUSC 147B - Advanced Conducting: Instrumental

2 unit(s)

Advanced instrumental conducting techniques. Rehearsal and performance of instrumental groups under supervision.

Misc/Lab: Seminar 1 hour/activity 2 hours.

Prerequisite(s): MUSC 147A or instructor consent.

Grading: Letter Graded

MUSC 147C - Advanced Conducting: Choral

2 unit(s)

Advanced choral conducting techniques. Rehearsal and performance of choral groups under supervision.

Misc/Lab: Lecture 2 hours/Activity 2 hours.

Course may be repeated for credit for up to 2 units.

Prerequisite(s): MUSC 147A or equivalent

Grading: Letter Graded

MUSC 150A - ENS: Concert Choir

1 unit(s)

Ensemble. Large select choral ensemble, specializing in advanced a cappella and symphonic major works from all periods.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 50A or equivalent, audition and instructor consent

Grading: Letter Graded

MUSC 151 - ENS: University Chorales

1 unit(s)

ENS: Rehearsal and performance of choral masterpieces and music with wide popular appeal. Students involved in the University Chorales will participate in either the SJSU Women's Chorus, Men's Glee Club, or other specialized choral ensemble and will have the opportunity to study and perform high quality choral literature.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 51A or equivalent, audition and instructor consent

Grading: Letter Graded

MUSC 152 - ENS: Opera Theater

1 unit(s)

ENS: Training and performance experience in the field of opera. Fully-staged productions of one-act and conventional length works of varying styles.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 52 or equivalent. Audition and instructor consent.

Grading: Letter Graded

MUSC 153 - ENS: University Symphony Orchestra

1 unit(s)

ENS: Rehearsal and performance of standard orchestral and operatic repertory.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 53 or equivalent. Audition and instructor consent.

Grading: Letter Graded

MUSC 154 - ENS: Symphonic Band

1 unit(s)

ENS: Rehearsal and performance of large symphonic band repertory.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 54 or equivalent. Audition and instructor consent.

Grading: Letter Graded

MUSC 155 - Wind Ensemble

1 unit(s)

Major performing group open to all wind instrumentalists by audition. Select group that performs the most advanced and high quality contemporary and traditional literature for wind ensemble from all periods. Programming changes every semester. Performances can include but not be limited to state and national conferences.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 55 or equivalent. Instructor's Consent

Grading: Letter Graded

MUSC 156 - ENS: Spartan Marching Band

1 unit(s)

ENS: Open by permission to all students who play saxophone, brass or percussion instruments. Performs at all home and selected away Spartan football games.

Activity 2 hours.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 56 or equivalent. Audition and instructor consent.

Grading: Letter Graded

MUSC 157 - ENS: Jazz Orchestra

1 unit(s)

ENS: Big band jazz performance for instrumentalists and singers. Classic and new repertoire. Concert performances.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 57 or equivalent. Audition and instructor consent.

Grading: Letter Graded

MUSC 159 - ENS: Afro-Latin Jazz Ensemble

1 unit(s)

ENS: Performance of Afro-Latin jazz and popular music repertoires of the US, the Caribbean, and Latin America. Ensemble techniques and solo improvisation. Concert performances.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 59 or equivalent. Audition and instructor consent.

Grading: Letter Graded

MUSC 160A - ENS: Choraliers

1 unit(s)

ENS: Small select chamber vocal group specializing in music from all periods, Renaissance to Contemporary.

Course is repeatable for up to 5 units.

Prerequisite(s): MUSC 60A or equivalent. Audition and instructor consent.

Grading: Letter Graded

MUSC 160C - ENS: Chamber Music

1 unit(s)

ENS: In-depth chamber music study and performance of standard repertoire with two or more instruments plus piano.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 160D - ENS: Collegium Musicum

1 unit(s)

ENS: Reinforces music history studies through performance. Authenticating performance of pre-Classical music on period instruments and accurate vocal/instrumental practices. Vocal and instrumental, sacred and secular music performed.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 60D or equivalent. Instructor consent.

Grading: Letter Graded

MUSC 160E - ENS: Jazz Singers

1 unit(s)

Performance of advanced literature for chamber jazz chorus in concerts, festivals, and special events. Performance techniques, improvisation, musicianship and studio-recording techniques.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 60E or equivalent. Instructor consent.

Grading: Letter Graded

MUSC 160F - ENS: Small Jazz Ensembles

1 unit(s)

Small-group jazz performance: standard literature, informal ("head") arrangements. In-class and/or public performances.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 1A, MUSC 1B and MUSC 40A, MUSC 40B: or equivalents.

Grading: Letter Graded

MUSC 160G - ENS: Pep Band

1 unit(s)

Limited to twenty-five woodwind, brass and percussion players; performs at home Spartan basketball games and certain campus functions.

Course is repeatable for up to 5 units.

Prerequisite(s): MUSC 60G or equivalent. Instructor consent.

Grading: Letter Graded

MUSC 160H - ENS: Percussion Ensemble

1 unit(s)

Performing class consisting of percussion majors. Master classes during fall semester.

Course is repeatable for up to 5 units.

Prerequisite(s): MUSC 60H or equivalent. Instructor consent.

Grading: Letter Graded

MUSC 160I - ENS: Jazz Ensemble

1 unit(s)

ENS: Large jazz ensemble focused on learning standard repertoire, style, pedagogy and improvisation.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and instructor consent

Grading: Letter Graded

MUSC 160J - ENS: String Ensemble

1 unit(s)

Chamber works for various string combinations studied and performed. Rehearsal and performance techniques for small chamber groups.

Course is repeatable for up to 5 units.

Prerequisite(s): MUSC 60J or equivalent. Instructor consent.

Grading: Letter Graded

MUSC 160K - ENS: Brass Ensemble

1 unit(s)

Performance of duet, trio, quartet and quintet literature for mixed and homogeneous brass instruments. Literature used represents all style periods with either original or transcription materials.

Course is repeatable for up to 5 units.

Prerequisite(s): MUSC 60K or equivalent. Instructor consent.

Grading: Letter Graded

MUSC 160L - Woodwind Ensemble

1 unit(s)

Chamber works for various woodwind combinations. Rehearsal and performance techniques for small chamber groups.

Course is repeatable for up to 5 units.

Prerequisite(s): MUSC 60L or equivalent. Instructor consent.

Grading: Letter Graded

MUSC 160M - ENS: Saxophone Ensemble

1 unit(s)

Overview of music for saxophone ensemble for two to twenty players. All styles studied from Renaissance to Jazz.

Course is repeatable for up to 5 units.

Prerequisite(s): MUSC 60M or equivalent. Instructor consent.

Grading: Letter Graded

MUSC 160O - Trombone Ensemble

1 unit(s)

Rehearsal and performance of literature for trombone ensemble. Weekly meetings will also include discussion of brass related topics.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 60O or equivalent. Instructor consent

Grading: Letter Graded

MUSC 160S - ModLark - Mobile Device and Laptop Orchestra

1 unit(s)

Music performing ensemble of laptops and mobile communication devices presenting original sonic compositions. Overview of computer music performance, digital instrument design, and collaborative performance practices.

Activity 2 hours.

May be repeated for credit for up to 8 units.

Grading: Letter graded.

MUSC 161 - REP: Styles and Interpretation of Opera I

1 unit(s)

REP: Introduction to styles of opera composition and presentation focusing on opera scenes being presented by the Opera Theater.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): 61 or equivalent. Audition and instructor consent.

Grading: Letter Graded

MUSC 163 - REP: Styles and Interpretation of Opera II

1 unit(s)

REP: Advanced styles of opera composition and presentation focusing on opera scenes being presented by the Opera Theater.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): MUSC 61 or equivalent. Audition and instructor consent.

Grading: Letter Graded

MUSC 164 - New Music Ensemble

1 unit(s)

The New Music Ensemble performs solo, chamber, and large ensemble works drawn from the broad spectrum of contemporary music, including works by living composers.

Activity 2 hours.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and instructor consent.

Grading: Letter Graded

MUSC 165 - Concert Band

1 unit(s)

Concert Band is an ensemble open to all wind and percussion instrumentalists regardless of major. It is designed for instrumentalists that are still developing rehearsal and performance skills in an ensemble setting that culminates in a concert on campus each semester.

Activity 2 hours.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Open to juniors, seniors and graduate students only.

Grading: Letter Graded

MUSC 166A - Mariachi San Jose

1 unit(s)

Mariachi San José is an advanced-level university ensemble performing repertoire predominantly from Mexico's música ranchera genre. The ensemble maintains an active schedule performing throughout the semester for university and community events. Ensemble participation requires audition.

Students are expected to be proficient in mariachi performance practice, as both vocalist and as an instrumentalist on one of the following instruments: violin, trumpet, guitar, vihuela, guitarrón, and/or arpa folklórico.

Course may be repeated for credit for up to 5 units.

Grading: Letter Graded.

MUSC 167 - Electro-Acoustic Music I

3 unit(s)

Overview of electro-acoustic studio production/research techniques and hands-on study of analog, digital and hybrid synthesis techniques related to composition and performance. Introduction to signal processing, MIDI and basic software/hardware systems applications.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): MUSC 4A and MUSC 4B or instructor consent.

Grading: Letter Graded

MUSC 168 - Electro-Acoustic Music II

3 unit(s)

Continuation of MUSC 167, covering advanced synthesis, programming and production. Development of strategies for sound design and music composition toward applications in studio and performance environments. Introduction to algorithmic composition.

Prerequisite(s): MUSC 167 or instructor consent.

Grading: Letter Graded

MUSC 168J - Techniques of Choral Conducting

1 unit(s)

Hands-on course designed to help music educators and conductors gain choral conducting tools as well as refine conducting technique.

Prerequisite(s): Previous conducting experience

Grading: Letter Graded

MUSC 168N - Teaching Music in Choral Rehearsals

1 unit(s)

Survey course designed to help choral music educators and conductors refine skills for conducting and teaching choirs at all levels. Topics include selecting literature, strengthening musicianship, building a choral program, rehearsal techniques and ensemble development.

Prerequisite(s): Previous Conducting Experience

Grading: Letter Graded

MUSC 170A - Fundamentals of Sound Recording

3 unit(s)

Beginning techniques in studio sound and music recording: terminology, tape editing, overdubbing, microphone technique and production techniques.

Prerequisite(s): MUSC 1A and MUSC 1B.

Grading: Letter Graded

MUSC 170B - Intermediate Sound Recording

3 unit(s)

Intermediate sound recording and processing techniques in audio production: emphasis on microphone techniques, analog processing and multi-track production.

Prerequisite(s): MUSC 170A or instructor consent.

Grading: Letter Graded

MUSC 170C - Advanced Sound Recording Production

3 unit(s)

Advanced production techniques in multi-track recording and digital recording, including sound construction, modulation and digital processing. Emphasis on application of techniques to group productions in synchronized audio-visual media.

Prerequisite(s): MUSC 170B or instructor consent.

Grading: Letter Graded

MUSC 172 - The Arts in U.S. Society

3 unit(s)

Study of American arts and artists in their aesthetic, social, and political contexts, focusing on 20th and 21st centuries. Arts examined may include architecture, poetry, music, visual arts, dance, theatre, performance art, and fiction. Special emphasis on issues of cultural diversity and social justice.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with CA 172 / ENGL 172 / TA 172. Humanities is responsible for scheduling.

MUSC 173 - Thinking About Contemporary World Arts

3 unit(s)

An interdisciplinary investigation of the connections between the contemporary arts and global cultures. Use of critical and creative thinking to develop global understanding and to explore personal and cultural identities.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with CA 173 / ENGL 173 / TA 173. Humanities is responsible for scheduling.

MUSC 180 - Individual Studies

1-2 unit(s)

May be repeated up to 4 units of credit.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Upper division standing and instructor and director consent.

Grading: Credit/No Credit

MUSC 181 - Concert Listening II

1 unit(s)

Required active involvement of all music majors in the professional musical life of the campus and community through attending programs from the master list published each semester and writing five critical reviews.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Upper division music major.

Grading: Credit/No Credit

MUSC 182 - Senior Project

1 unit(s)

Senior capstone project for B.A. in music. By advisement and according to degree requirements either a senior thesis, lecture/demonstration or lecture/recital.

Prerequisite(s): Upper division standing, instructor consent and area approval.
Grading: Credit/No Credit

MUSC 185A - Music for Children

3 unit(s)

Music fundamentals for the classroom teacher. Singing, playing instruments, movement, reading notation, creating music. Kodaly, Orff, Dalcroze, techniques emphasized with multicultural approach. Technology for elementary music through lab experience.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

MUSC 190A - Honors Project

1 unit(s)

Prerequisite(s): Upper division standing; instructor and director consent.
Grading: Credit/No Credit

Note(s): MUSC 190B must be completed before total of 3 units is granted.

MUSC 190B - Honors Project

2 unit(s)

Prerequisite(s): MUSC 190A.
Grading: Credit/No Credit

MUSC 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

MUSC 200 - Methods of Music Research & Writing

3 unit(s)

Use and evaluation of resources for music research and writing; problems in critical writing and music literature history.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

MUSC 201 - Seminar in Music History

3 unit(s)

Research and analytical studies on selected topics in music history. May be repeated once for elective credit.

Prerequisite(s): MUSC 200, passage of Graduate Entrance Evaluation or equivalent, and permission of instructor.

Grading: Letter Graded

MUSC 202 - Seminar in Music Systems & Theory

3 unit(s)

Research and analytical studies of selected theoretical and applied compositional techniques in music.

Prerequisite(s): MUSC 200, passage of Graduate Entrance Evaluation or equivalent, and permission of instructor.

Grading: Letter Graded

Note(s): Emphasis may vary.

MUSC 203 - Seminar in Style & Performance Practices

3 unit(s)

Study of the history of performance practices and applications in contemporary performances. May be repeated once for elective credit.

Prerequisite(s): MUSC 200, passage of Graduate Entrance Evaluation or equivalent, and permission of instructor.

Grading: Letter Graded

MUSC 220 - Seminar in Advanced Conducting

3 unit(s)

Problems in conducting, advanced score reading and interpretation.

May be repeated for credit for up to 12 units.

Prerequisite(s): Two semesters of undergraduate conducting (or equivalent) and instructor consent.

Grading: Letter Graded

MUSC 222 - Special Topics in Music

1-3 unit(s)

Study of specialized subjects in music history, theory, performance or education.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

MUSC 224 - Supervised Graduate Study

1-2 unit(s)

Repeatable for credit

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Audition and/or consent of instructor and graduate advisor.

Grading: Letter Graded

MUSC 230 - Graduate Piano Lessons: Secondary

1 unit(s)

Applied piano lessons for graduate student in a secondary area. Continuation of work from undergraduate study.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 232 - Advanced Field Experience--Pedagogy

1 unit(s)

Provides opportunity for the qualified graduate student to be involved in planning and assisting in teaching college courses in music. The work is carried on in conjunction with the regular college teacher and must have this supervising teacher's approval.

Course may be repeated for credit for up to 4 units.

Grading: Credit/No Credit

MUSC 233 - Graduate Voice Lessons: Secondary

1 unit(s)

Applied voice lessons for graduate student in a secondary area. Continuation of work from undergraduate study.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 234 - Graduate String Lessons: Secondary

1 unit(s)

Applied string lessons for graduate student in a secondary area. Continuation of work from undergraduate study.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 235 - Graduate Woodwind Lessons: Secondary

1 unit(s)

Applied woodwind (clarinet, oboe, flute, saxophone or flute) lessons for graduate student in a secondary area. Continuation of work from undergraduate study.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 236 - Graduate Brass Lessons: Secondary

1 unit(s)

Applied Brass (trumpet, French horn, trombone or tuba) lessons for graduate student in a secondary area. Continuation of work from undergraduate study.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 237 - Graduate Percussion Lessons: Secondary

1 unit(s)

Applied percussion lessons for graduate student in a secondary area. Continuation of work from undergraduate study.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 239 - Graduate Jazz Lessons: Secondary

1 unit(s)

Applied Jazz (saxophone, trumpet, guitar, piano, or trombone) lessons for graduate student in a secondary area. Continuation of work from undergraduate study.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 241A - Graduate Applied Lyric Diction

1 unit(s)

Pronunciation and applied execution of correct diction in Italian, Latin, and English for singers in a master

class setting. Performance of specific literature of these languages with emphasis on correct usage of the International Phonetic Alphabet (IPA) for lyric diction.

Activity 2 hours.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

MUSC 241B - Graduate Applied Lyric Diction

1 unit(s)

Pronunciation and applied execution of correct diction in French and German for singers in a master class setting. Performance of specific literature of these languages with emphasis on correct usage of the International Phonetic Alphabet (IPA) for lyric diction.

Activity 2 hours.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

MUSC 242 - Graduate Art Song Repertoire

1 unit(s)

Content varies each semester, with focus on German, French, Italian and Spanish, English and American, or Russian, Polish, Slavic and Scandinavian literature. Performance practice, language, style and history.

Activity 2 hours.

Course may be repeated for credit for up to 2 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

MUSC 250A - ENS: Graduate Concert Choir

1 unit(s)

ENS: Graduate large select choral ensemble, specializing in advanced acappella and symphonic major works from all periods.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 251 - ENS: Graduate University Chorales

1 unit(s)

ENS: Rehearsal and performance of choral masterpieces and music with wide popular appeal. Graduate students involved in the University Chorales will participate in either the SJSU Women's Chorus, Men's Glee Club, or other specialized choral ensemble and will have the opportunity to study and perform high quality choral literature.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 252 - ENS: Graduate Opera Theater

1 unit(s)

ENS: Training and performance experience in the field of opera. Fully-staged productions of one-act and conventional length works of varying styles.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 253 - ENS: Graduate University Symphony Orchestra

1 unit(s)

ENS: Rehearsal and performance of standard orchestral and operatic repertory for graduate students.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 255 - ENS: Graduate Wind Ensemble

1 unit(s)

ENS: Major performing group open to all graduate wind and percussion instrumentalists by audition. Select group that performs the most advanced and high quality contemporary and traditional literature for wind ensemble from all periods. Performances can include but not be limited to state and national conferences.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 259 - ENS: Graduate Latin Jazz Ensemble

1 unit(s)

ENS: Performance of Afro-Latin jazz and popular music repertoires of the US, the Caribbean, and Latin America. Graduate level ensemble techniques and solo improvisation. Concert performances.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 260A - ENS: Graduate Choraliers

1 unit(s)

ENS: Small select chamber vocal group of graduates and undergraduates specializing in music from all periods, Renaissance to Contemporary.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 260C - ENS: Graduate Chamber Music

1 unit(s)

ENS: Graduate level in-depth chamber music study and performance of standard repertoire with two or more instruments plus piano.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 260D - ENS: Graduate Collegium

1 unit(s)

ENS: Graduate. Reinforces music history studies through performance. Authenticating performance of pre-Classical music on period instruments and accurate vocal/instrumental practices. Vocal and instrumental, sacred and secular music performed.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 260F - ENS: Graduate Small Jazz Ensembles

1 unit(s)

ENS: Graduate small-group jazz performance: standard literature, informal ("head") arrangements. In-class and/or public performances.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 260H - ENS: Graduate Percussion Ensemble

1 unit(s)

ENS: Performance class consisting of graduate and undergraduate percussion majors. Master classes during fall semester. Small to larger percussion ensemble works performed.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 260J - ENS: Graduate String Ensemble

1 unit(s)

ENS: Graduate chamber works for various string combinations studied and performed. Rehearsal and performance techniques for small chamber groups.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 260K - ENS: Graduate Brass Ensemble

1 unit(s)

ENS: Graduate level performance of duet, trio, quartet and quintet literature for mixed and homogeneous brass instruments. Literature used represents all style periods with either original or transcription materials.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 260L - ENS: Graduate Woodwind Ensemble

1 unit(s)

Graduate level chamber works for various woodwind combinations. Rehearsal and performance techniques for small chamber groups.

Activity 2 hours.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval.

Grading: Letter Graded

MUSC 260M - ENS: Graduate Saxophone Ensemble

1 unit(s)

ENS: Graduate overview of and performance of music for saxophone ensemble for two to twenty players. All styles studied from Renaissance to Jazz.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Audition and instructor approval

Grading: Letter Graded

MUSC 260O - ENS: Graduate Trombone Choir

1 unit(s)

ENS: Rehearsal and performance of literature for trombone ensemble. Weekly meetings will also include discussion of brass related topics.

Activity 2 hours.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and instructor consent.

Grading: Letter Graded

MUSC 260S - ModLark - Mobile Device and Laptop Orchestra

1 unit(s)

Music performing ensemble of laptops and mobile communication devices presenting original sonic compositions. Overview of computer music performance, digital instrument design, and collaborative performance practices.

May be repeated for credit for up to 8 units.

Grading: Letter graded.

MUSC 264 - Graduate New Music Ensemble

1 unit(s)

The New Music Ensemble performs solo, chamber, and large ensemble works drawn from the broad spectrum of contemporary music, including works by living composers.

Activity 2 hours.

Course may be repeated for credit for up to 5 units.

Prerequisite(s): Audition and instructor consent.

Grading: Letter Graded

MUSC 266A - Mariachi San Jose

1 unit(s)

Mariachi San José is an advanced-level university ensemble performing repertoire predominantly from Mexico's *música ranchera* genre. The ensemble maintains an active schedule performing throughout the semester for university and community events. Ensemble participation requires audition.

Students are expected to be proficient in mariachi performance practice, as both vocalist and as an instrumentalist on one of the following instruments: violin, trumpet, guitar, vihuela, guitarrón, and/or arpa folklórico.

Course may be repeated for credit for up to 5 units.

Grading: Letter Graded.

MUSC 297 - Master's Recital or Composition

1-3 unit(s)

Prerequisite(s): Advancement to candidacy and consent and approval of graduate study instructor, graduate advisor, and School of Music department chair.

Grading: Credit/No Credit/RP.

MUSC 298 - Special Study

1-2 unit(s)

Special study in the field of music (excluding applied instruction).

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Consent of instructor, graduate advisor and the School of Music director.

Grading: Mandatory Credit/No Credit/RP

MUSC 299 - Master's Thesis

1-3 unit(s)

Prerequisite(s): Advancement to candidacy and consent and approval of graduate study instructor, graduate advisor and School of Music department chair.

Grading: Credit/No Credit/RP.

MUSC 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis, composition, or project

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semesters in a thesis, composition, or project class.

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Music Education

MUED 140 - Foundations of Music Education

3 unit(s)

Survey of music education's historical, philosophical, psychological and sociological foundations.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

MUED 142 - Introduction to Music Education: Early Field Experience

1 unit(s)

Introduction to teaching music in the public schools. Includes in-school paraprofessional work in approved music program under supervision of university faculty and master teachers.

Prerequisite(s): Sophomore standing.

Grading: Credit/No Credit

MUED 170A - Teaching Instrumental Music

2 unit(s)

Materials, literature, methods and pedagogy for teachers of instrumental music.

Grading: Letter Graded

MUED 170B - Teaching Choral Music

2 unit(s)

Materials, literature, methods and pedagogy for teachers of choral music.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

MUED 175 - Practicum in Music Education

3 unit(s)

Practical experience in music education including pedagogy, classroom management and practice teaching.

Prerequisite(s): MUED 140, MUED 170, MUED 147A, MUED147B or instructor consent.

Grading: Letter Graded

MUED 184Y - Student Teaching II - Classroom Teaching

4 unit(s)

Minimum 80-120 class periods of classroom, teaching lab or field teaching in music subjects, grades K-12. Includes seminar.

Prerequisite(s): Upper division standing and joint approval of major and education departments.

Grading: Credit/No Credit

MUED 184Z - Student Teaching III-Classroom Teaching

4 unit(s)

To be taken concurrently or in a different semester than 184Y. May be in a different subject or in different school and will be at a different grade level.

Prerequisite(s): Upper division standing and joint approval of major and education departments.

Grading: Credit/No Credit

MUED 188 - Music Ed Trends

1-2 unit(s)

Investigation of current trends in music education. Topics vary with course offering.

Grading: Credit/No Credit

MUED 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Course may be repeated for credit for up to 6 units.

Grading: Mixed Grading

MUED 221 - Foundations of Music Education

3 unit(s)

This course provides an introduction to graduate studies in music education. Topics include; historical contexts; philosophy; sociology, aesthetics; psychology; and learning theory in music education.

Prerequisite(s): Graduate student standing and instructor consent

Grading: Letter Graded

MUED 228 - Research in Music Education

3 unit(s)

This course examines research in music education, concentrating on qualitative, quantitative, and historical methodologies. Attention will focus on applications of research within music education, and the course will culminate in a capstone project using one of these research methodologies.

Prerequisite(s): Graduate student standing and instructor consent

Grading: Letter Graded

MUED 232 - Directions and Issues in Music Education

3 unit(s)

This course examines current issues and directions in music education. Topics include historical, sociological, and philosophical contexts for music education; learning and development issues; curriculum and pedagogy; assessment; applied research in music education; and leadership development.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Graduate student standing and instructor consent

Grading: Letter Graded

MUED 370A - Methodology for Music Educators: Elementary K-8

2 unit(s)

Study of Kodaly, Orff and Dalcroze elementary methods including a multicultural emphasis. A review of materials for the comprehensive elementary music curriculum. Peer teaching/field observations of classrooms, choral and instrumental classes required.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Note(s): Required for certification.

MUED 370B - Methodology for Music Educators: Secondary

2 unit(s)

Prepares secondary music instructors to teach non-performance courses, including music appreciation, theory, technology, history and multicultural survey. Peer teaching and field observations required. Organization of comprehensive secondary music departments included.

Prerequisite(s): MUED 370A.

Grading: Letter Graded

MUED 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semesters in a thesis, composition, or project class.

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Native American and Indigenous Studies

NAIS 1 - Intro to Native American and Indigenous Studies

3 unit(s)

Introduction to the epistemological frameworks of Native American and Indigenous Studies, emphasizing settler colonialism, sovereignty, self-determination, autonomy, and decolonization. Students will learn how to recognize stereotypes and ethnocentrism about Native Americans and Indigenous Peoples that are prevalent today.

Satisfies Area F: Ethnic Studies.

Grading: Letter Graded.

NAIS 2 - California Indigenous Peoples

3 unit(s)

Origins, social organization, geographic and political histories of Native Americans in California, and the effects of colonialism and settler colonialism. Exploration of the evolving relationship of Indigenous peoples and nations with settler colonial societies. Course surveys California Indigenous peoples, selected tribal community histories, federal and state Indian policies, and California Indigenous history.

Satisfies Area F: Ethnic Studies.

Grading: Letter Graded.

Nuclear Science

NUCS 121S - Radiation Safety

1-2 unit(s)

Health hazards involved in working with radioactive substances. Physical nature of hazards, biological effects, standards of permissible exposures, safety precautions and protection techniques. Two units meet State of California recommendations.

Prerequisite(s): Lower division calculus, chemistry and physics.

Grading: Letter Graded

Cross-listed with CHEM 121S / PHYS 121S. Chemistry is responsible for scheduling.

NUCS 126 - Introduction to Nuclear Science

3 unit(s)

Properties of the atomic nucleus. Applications of nuclear science in biology, chemistry, engineering, geology and physics.

Prerequisite(s): Lower division calculus, chemistry and physics.

Grading: Letter Graded

Cross-listed with CHEM 126 / PHYS 126. Chemistry is responsible for scheduling.

NUCS 127 - Nuclear Science Lab

3 unit(s)

Basic techniques and procedures used in nuclear science. Nuclear decay, nuclear reactions, radiation detection and measurements, nuclear analytical methods and tracer techniques.

Misc/Lab: Lecture 1 hour/lab 6 hours.

Prerequisite(s): NUCS 121S, CHEM 100W and CHEM 126 (with grades of "C" or better; "C-" not accepted); or instructor consent.

Grading: ABC-/No Credit

Cross-listed with CHEM 127 / PHYS 127. Chemistry is responsible for scheduling.

NUCS 298 - Research

1-6 unit(s)

Directed individual laboratory work or field studies in radiological health physics and nuclear science for students with adequate preparation. A maximum of 8 units may be repeated.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Instructor consent.

Grading: Mandatory Credit/No Credit/RP

NUCS 299 - Master's Thesis

2-4 unit(s)

Prerequisite(s): NUCS 298, instructor consent and advancement to candidacy for the master's degree.

Grading: Mandatory Credit/No Credit/RP

Nursing

NURS 10 - Leadership I

2 unit(s)

An overview of professional nursing role and scope of practice. Includes: nursing core values, professional role, nursing process, systems theory, code of ethics, Nurse Practice Act, conflict resolution, communication, the transformative process from novice to expert, and self-care strategies.

Prerequisite(s): Admission to Nursing program.

Grading: Letter Graded

Note(s): Nursing BS Semester 1.

NURS 11 - Introduction to Pharmacology

2 unit(s)

An introduction to major medication classifications. Emphasizes the nurse's role in medication administration including assessments, interventions, and expected outcomes of commonly used medications.

Prerequisite(s): Admission to Nursing program.

Grading: Letter Graded

Note(s): Nursing BS Semester 1.

NURS 12 - Health Assessment & Skills I

3 unit(s)

Foundational nursing skills including health assessment, nursing process, communication, psychomotor skills and critical thinking in the context of diverse client populations. Person-centered care and safety are emphasized through the use of simulation.

Lecture 1 hours/Lab 6 hours.

Prerequisite(s): Admission to Nursing program.

Grading: Letter Graded

Note(s): Nursing BS Semester 1.

NURS 13A - Gerontological Nursing Theory

2 unit(s)

Introduction to gerontological nursing, including developmental stages and transitions of aging, expected age-related physiological and psychological changes and assessment findings, promotion of health for the older adult client, resources available to seniors, and end of life issues.

Prerequisite(s): Admission to Nursing program.

Corequisite(s): NURS 13B.

Grading: Letter Graded

Note(s): Nursing BS Semester 1.

NURS 13B - Geriatric Nursing Practicum

1 unit(s)

Provide supervised nursing care to geriatric clients in a variety of healthcare settings. Focus on applying professional fundamental nursing skills including therapeutic communications, nursing assessment and health promotion.

Prerequisite(s): Admission to Nursing program.

Corequisite(s): NURS 13A.

Grading: Credit/No Credit

Note(s): Nursing BS Semester 2.

NURS 20A - Adult Care Management I

4 unit(s)

Concepts related to care of the adult with selected medical-surgical conditions. Emphasis is on the nursing process and developing competence in providing and coordinating nursing care.

Prerequisite(s): NURS 10, NURS 11, NURS 12, NURS 13A, NURS 13B, and NURS 100WE.

Corequisite(s): NURS 20B.

Grading: Letter Graded

Note(s): Nursing BS Semester 2.

NURS 20B - Adult Care Clinical Practicum I

3 unit(s)

Provides supervised nursing care to hospitalized adults and their families. Emphasizes systematic assessment, nursing process, and clinical reasoning. Builds competency in selected nursing therapies, and in developing the role of the professional nurse.

Lab 12 hours.

Prerequisite(s): NURS 10, NURS 11, NURS 12, NURS 13A, NURS 13B, and NURS 100WE.

Corequisite(s): NURS 20A.

Grading: Credit/No Credit

Note(s): Nursing BS Semester 2.

NURS 22 - Health Assessment & Skills in Nursing II

2 unit(s)

Integration of clinical reasoning and client context in performing complex nursing therapies and complex psychomotor skills. Person-centered care and patient safety are emphasized through the use of simulation.

Lecture 1 hour/Lab 3 hours.

Prerequisite(s): NURS 10, NURS 11, NURS 12, NURS 13A, NURS 13B, and NURS 100WE.

Grading: Letter Graded

Note(s): Nursing BS Semester 2.

NURS 32 - Health Assessment & Skills III

1 unit(s)

Focuses on the childrearing and childbearing population with integration of clinical reasoning (nursing process) during health assessments and psychomotor skills to provide safe client care in a variety of settings.

Course may be repeated for credit for up to 2 units.

Prerequisite(s): NURS 20A, NURS 20B, NURS 22, NURS 123A, and NURS 123B.

Grading: Letter Graded

Note(s): Nursing BS Semester 3.

NURS 100WE - Evidence Based Practice Writing Workshop

3 unit(s)

Examines the systematic inquiry of basic research concepts and processes. Evidence-based practice (EBP) results from the appraisal of the best scientific evidence available to guide clinical decision-making and thus to achieve quality patient outcomes.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): Admission to Nursing program. GE A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing.

Grading: Letter Graded

Note(s): Nursing BS Semester 1. Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

NURS 110ITL - Global Influences on Health

3 unit(s)

Examination of major issues influencing health and human services and their delivery on a global scale. The health care needs of a diverse and multicultural population, health care disparities, and strategies to address global health needs are explored. Includes special populations service provision, advocacy, patient/client centered care, psycho-social aspects of disease and wellness, health promotion and education, quality, cost controls, and multidisciplinary team approaches to service delivery.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Note(s): All of SJSU Studies courses require upper division standing.

NURS 112 - Professional Practice Success I

3 unit(s)

First course in a two course sequence focusing on the application of nursing concepts that are essential to successful professional nursing practice: improving clinical reasoning, linking theory to practice, and implementing a plan of self-care for maintaining longevity in the profession.

Prerequisite(s): Admission to the RN to BSN Nursing Program.

Grading: Letter Graded

Note(s): RN to BSN Nursing Semester 1.

NURS 113 - Professional Practice Success II

3 unit(s)

Second course in a two course sequence focusing on the application of nursing concepts essential to successful professional nursing practice: improving clinical reasoning, developing a systems viewpoint, and implementing change in the current healthcare setting.

Prerequisite(s): NURS 100WE, NURS 112, and NURS 171.

Grading: Letter Graded

Note(s): Nursing Semester 2.

NURS 123A - Mental Health Theory

3 unit(s)

Psychiatric-mental health theoretical nursing concepts for culturally diverse clients. Emphasis on therapeutic communication, health promotion and prevention, advocacy and ethical issues for individuals and families with complex health problems.

Prerequisite(s): NURS 10, NURS 11, NURS 12, NURS 13A, NURS 13B, and NURS 100WE.

Corequisite(s): NURS 123B.

Grading: Letter Graded

Note(s): Nursing BS Semester 2.

NURS 123B - Mental Health Practicum

2 unit(s)

Provides supervised nursing care to diverse individuals with mental health conditions in a variety of settings. Emphasis on therapeutic communications and symptom management, screening interventions, health promotion, and interdisciplinary care coordination.

Lab 6 hours.

Prerequisite(s): NURS 10, NURS 11, NURS 12, NURS 13A, NURS 13B, and NURS 100WE.

Corequisite(s): NURS 123A.

Grading: Credit/No Credit

Note(s): RN to BSN Nursing Semester 2.

NURS 136 - Professional Role Development III

2 unit(s)

Expansion of the professional role in the childbearing-childrearing setting to include further application of: evidence-based practice, therapeutic communication, developmentally appropriate teaching/learning strategies, informatics, health literacy, developmental and cultural assessment, leadership and ethical principles, grief and loss.

Grading: Letter Graded

NURS 148AI - Senior Practicum - International Experience

4 unit(s)

Use a systems approach to research, leadership management, theory and beginning clinical proficiency, in collaboration with other health care members in an international setting.

Activity 8 hours.

Prerequisite(s): Final semester of Nursing, BS or Nursing, RN to BSN Concentration, BSN.

Corequisite(s): NURS 138 or NURS 178 or NURS 178A.

Grading: Credit/No Credit

NURS 161 - Leadership II

2 unit(s)

Safe practice of professional nursing, including interdisciplinary communication, bioethical and legal concerns, cost of care, end-of-life care, and health literacy and disparities for culturally diverse clients.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): NURS 20A, NURS 20B, NURS 22, NURS 123A, and NURS 123B.

Grading: Letter Graded

Note(s): Nursing BS Semester 3.

NURS 164AR - Community Health Theory for Nursing BS Program

3 unit(s)

Community health concepts and the care of the population, families, and individuals with complex health problems using health promotion and wellness strategies across the life span. Emphasis on core public health competencies and the influence of health policy on the populations' health.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): NURS 20A, NURS 20B, NURS 22, NURS 123A and NURS 123B.

Corequisite(s): NURS 164B.

Grading: Letter Graded

Note(s): Nursing BS Semester 3.

NURS 164B - Community Health Practicum

3 unit(s)

Provides supervised nursing care to culturally diverse child-rearing families and children using concepts of systems theory in acute care, home and community settings.

Lab 9 hours.

Prerequisite(s): NURS 20A, NURS 20B, NURS 22, NURS 123A, and NURS 123B.

Grading: Credit/No Credit

Note(s): Nursing BS Semester 3.

NURS 165A - Child Health Theory

3 unit(s)

Direct health care of children and the childrearing family in various health care settings. Exploration of bio-psychosocial processes involved in health, life transitions, and illness with identification of related preventive and therapeutic nursing behaviors.

Prerequisite(s): NURS 20A, NURS 20B, NURS 22, NURS 123A, and NURS 123B.

Grading: Letter Graded

Note(s): Nursing BS Semester 3.

NURS 165B - Child Health Practicum

2 unit(s)

Provides supervised nursing care to culturally diverse child-rearing families and children using concepts of systems theory in acute care, home and community settings.

Lab 6 hours.

Prerequisite(s): NURS 20A, NURS 20B, NURS 22, NURS 123A, and NURS 123B.

Corequisite(s): NURS 165A.

Grading: Credit/No Credit

Note(s): Nursing BS Semester 4.

NURS 166 - Simulation I

1 unit(s)

Provides objective-driven learning activities using a variety of simulation modalities. Faculty-guided simulations provide opportunities for developing problem identification and clinical reasoning skills across the lifespan. Reflective thinking is incorporated into all simulated experiences.

Course may be repeated for credit for up to 2 units.

Prerequisite(s): NURS 32, NURS 161, NURS 164B, NURS 165A, and NURS 165B.

Grading: Letter Graded

Note(s): Nursing BS Semester 4.

NURS 167A - Adult Care Management II

4 unit(s)

Concepts and care related to adult medical-surgical clients in the acute care setting. Systems approach integrates human responses to alterations in physiological functioning related to disorders of the musculoskeletal, neurological, gastrointestinal, integumentary, endocrine systems and oncologic disorders.

Prerequisite(s): NURS 32, NURS 161, NURS 164B, NURS 165A, and NURS 165B.

Corequisite(s): NURS 167B.

Grading: Letter Graded

Note(s): Nursing BS Semester 4.

NURS 167B - Adult Care Clinical Practicum II

3 unit(s)

Provides an advanced level of supervised nursing care to hospitalized adults and their families. Emphasizes systematic assessment, nursing process, and clinical reasoning. Promotes development of competency in professional registered nurse role and application of clinical judgment.

Lab 9 hours.

Prerequisite(s): NURS 32, NURS 161, NURS 164A, NURS 164B, NURS 165A, and NURS 165B.

Corequisite(s): NURS 167A.

Grading: Credit/No Credit

Note(s): Nursing BS Semester 4.

NURS 168A - Maternal Newborn Theory

3 unit(s)

Direct health care of newborns and the childbearing family in various health care settings. Exploration of bio-psychosocial processes involved in health, life transitions, and illness with identification of related preventive and therapeutic nursing behaviors.

Prerequisite(s): NURS 32, NURS 161, NURS 164B, NURS 165A, and NURS 165B.

Corequisite(s): NURS 168B.

Grading: Letter Graded

Note(s): Nursing BS Semester 4.

NURS 168B - Maternal Newborn Practicum

2 unit(s)

Practicum provides family-centered care to culturally diverse childbearing families using concepts of systems theory in acute care, home and community settings.

Lab 6 hours.

Prerequisite(s): NURS 32, NURS 161, NURS 164B, NURS 165A, and NURS 165B.

Corequisite(s): NURS 168A.

Grading: Credit/No Credit

Note(s): RN to BSN Nursing Semester 1.

NURS 171 - Theoretical Foundations

3 unit(s)

Theoretical bases for health and illness management of culturally diverse individuals, families, and groups. Concepts include nursing and change theories, quality measurement, patient safety, clinical reasoning and judgment, health promotion, and health literacy.

Prerequisite(s): Admission to the RN to BSN Nursing Program.

Grading: Letter Graded

Note(s): RN to BSN Nursing Semester 2.

NURS 172R - Community Health Theory for RN to BSN Program

3 unit(s)

Community health concepts and the care of the population, families, and individuals with complex health problems using health promotion and wellness strategies across the life span. Emphasis on core public health competencies and the influence of health policy on the populations' health.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): NURS 100WE, NURS 112, and NURS 171.

Corequisite(s): NURS 173.

Grading: Letter Graded

Note(s): RN to BSN Nursing Semester 2.

NURS 173 - Community Health Practicum

3 unit(s)

Utilizes a systems approach to promoting health and wellness for individuals and groups across the lifespan. Applies nursing process to care of clients from diverse populations in the community in a variety of settings.

Clinical 9 hours.

Prerequisite(s): NURS 100WE, NURS 112, and NURS 171.

Grading: Credit/No Credit

Note(s): Nursing Semester 5.

NURS 177 - Senior Preceptorship

4 unit(s)

Independent, precepted experience in a clinical setting. Uses a systems approach integrating knowledge of research, leadership, pathophysiology, and nursing into practice.

Lab 12 hours.

Prerequisite(s): NURS 166, NURS 167A, NURS 167B, NURS 168A, and NURS 168B.

Grading: Credit/No Credit

Note(s): Nursing BS Semester 5.

NURS 177A - Senior Preceptorship

3 unit(s)

Independent, precepted experience in a clinical setting. Uses a systems approach integrating knowledge of research, leadership, pathophysiology, and nursing into practice.

Clinical 9 hours.

Prerequisite(s): NURS 113, and NURS 173.

Grading: Credit/No Credit

Note(s): RN to BSN Nursing Semester 5.

NURS 178 - Leadership III

3 unit(s)

Demonstration of the professional nurse role. Includes integration of theoretical concepts in the practice setting. Encompasses models and theories of nursing management and leadership, teamwork, communication, cultural competence, economics, health disparities, quality improvement, ethics, patient safety, career development.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): NURS 166, NURS 167A, NURS 167B, NURS 168A, and NURS 168B.

Grading: Letter Graded

Note(s): Nursing BS Semester 5.

NURS 178A - Leadership

3 unit(s)

Demonstration of the professional nurse role. Includes integration of theoretical concepts in the practice setting. Encompasses models and theories of nursing management and leadership, teamwork, communication, cultural competence, economics, health disparities, quality improvement, ethics, patient safety, career development.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): NURS 113, and NURS 173.

Grading: Letter Graded

Note(s): BSN Nursing.

NURS 180 - Individual Studies

1-4 unit(s)

Individual study or project work on a selected problem or professional issue in nursing.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Arrangement must be made with a nursing faculty member and approved by the school director during the semester prior to taking the course.

Grading: Credit/No Credit

NURS 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

NURS 200 - Population Based Health Care Systems

3 unit(s)

Planning, policy, organization, and financing of health care systems. Prepares nurses to participate in design, implementation, and evaluation of ethical, cost-effective, quality health care in health care systems to improve health care delivery and client outcomes.

Prerequisite(s): Admission to nursing masters program

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

NURS 201 - Clinical Leadership Role Development

2 unit(s)

The purpose of this course is to prepare students for leadership roles in healthcare through the study, analysis, and application of nursing leadership and management theories and principles.

Prerequisite(s): Acceptance into nursing masters program

Grading: Letter Graded

NURS 202 - Theoretical Foundations

2 unit(s)

Addresses the theoretical underpinnings of nursing practice and research, including a wide range of theories from nursing and other disciplines. Students develop and apply relevant criteria in evaluating theories for practice and research with individuals, families and communities.

Grading: Letter Graded

NURS 205F - Foot and Nail Care

5 unit(s)

A theory-based didactic course incorporating both simulation and skills for the learning of selected disorders of the foot and nail and practice of advanced specialized psychomotor and cognitive skills used to assess and manage the conditions of lower extremity, foot, and nail.

Lecture 4 hours; Laboratory 2 hours.

Prerequisite(s): RN with a minimum of a Baccalaureate degree and at least one year of clinical nursing experience post RN licensure.

Grading: Letter Graded

Note(s): The course consists of 60 hours of didactic learning and 40 hours of practicum. Duration of the didactic portion is five weeks but practicum can be completed within six months upon completion of the didactic portion. Students are required to achieve a final score of at least 80% on the didactic portion and a passing credit in practicum. Upon completion of all the requirements, students will be eligible to take the ostomy specialty exam offered by the Wound, Ostomy and Continence Nursing Certification Board (WOCNCB).

NURS 205O - Ostomy Care

5 unit(s)

A theory-based course incorporating both simulation and skills for the learning of selected disorders of the gastrointestinal and genitourinary systems and practice of specialized psychomotor and cognitive skills used to assess and manage fecal and urinary diversions, continent diversions, fistulas, and percutaneous tubes.

Lecture 4 hours; Laboratory 2 hours.

Prerequisite(s): RN with a minimum of a Baccalaureate degree and at least one year of clinical nursing experience post RN licensure.

Grading: Letter Graded

Note(s): The course consists of 60 hours of didactic learning and 40 hours of practicum. Duration of the didactic portion is five weeks but practicum can be completed within six months upon completion of the didactic portion. Students are required to achieve a final score of at least 80% on the didactic portion and a passing credit in practicum. Upon completion of all the requirements, students will be eligible to take the ostomy specialty exam offered by the Wound, Ostomy and Continence Nursing Certification Board (WOCNCB).

NURS 205W - Wound Care

5 unit(s)

A theory-based continuing education course incorporating simulation, psychomotor skills, and clinical practice. Students develop the knowledge and skills to assess selected disorders of the integumentary and

arterial-venous systems and manage wounds, fistulas, percutaneous tubes, and pressure ulcers.

Lecture 4 hours; Laboratory 2 hours.

Prerequisite(s): RN with a minimum of a Baccalaureate degree and at least one year of clinical nursing experience post RN licensure.

Grading: Letter Graded

Note(s): The course consists of 60 hours of didactic learning and 40 hours of practicum. Duration of the didactic portion is five weeks but practicum can be completed within six months upon completion of the didactic portion. Students are required to achieve a final score of at least 80% on the didactic portion and a passing credit in practicum. Upon completion of all the requirements, students will be eligible to take the wound specialty exam offered by the Wound, Ostomy and Continence Nursing Certification Board (WOCNCB).

NURS 212 - Curriculum Development in Nursing

3 unit(s)

Curriculum development with application to programs in nursing and health education. Focuses on formulation of conceptual framework for curriculum development and utilization in making decisions regarding the objectives, learning experiences, and evaluation strategies.

Grading: Letter Graded

NURS 214 - Nurse Educator Theory and Direct Care Practicum I

4 unit(s)

The theory and clinical course focus on direct care clinical experience with the application of advanced nursing practice. Using advanced nursing concepts, models, and theories, the student will demonstrate culturally appropriate, safe, ethical practice with increasing role responsibility.

Lecture 1 hour, Clinical 9 hours.

Prerequisite(s): NURS 212.

Grading: Letter Graded

NURS 216 - Academic Theory & Practicum II

4 unit(s)

Continuing experience in an advanced nursing practice role focusing on academic / educational theories, models, concepts and strategies relevant to teaching and learning in nursing education and healthcare system. Experience in implementing the educator role with diverse learners and settings.

Lecture 2 hours/Clinical 6 hours.

Prerequisite(s): NURS 200 or NURS 202, NURS 214.

Grading: Letter Graded

NURS 248 - Advanced Health Assessment

3 unit(s)

This advanced assessment course focuses on differentiation between normal and pathologic changes experienced in a primary care practice. Using systems theory framework, students formulate appropriate diagnoses using pertinent symptomatology and etiologies. May be repeated, but not in the same semester.

Prerequisite(s): NURS 200, NURS 202, NURS 104 (or equivalent).

Grading: Letter Graded

NURS 250 - Family Nurse Practitioner Concepts and Theory I

2 unit(s)

Theory and evidence base for primary prevention, health maintenance, health promotion, health screening, health teaching and anticipatory guidance for nurse practitioners with an emphasis on case management techniques and interdisciplinary care. Emphasis on using algorithms and standardized procedures to effect primary prevention

Prerequisite(s): NURS 248, NURS 259, NURS 260

Corequisite(s): NURS 253.

Grading: Letter Graded

NURS 251 - Family Nurse Practitioner (FNP) Concepts and Theory II

2 unit(s)

Theoretical basis of secondary prevention in primary care settings. Theory and evidence to assess and manage acute, self-limiting conditions. Use and development of algorithms and protocols for secondary prevention. Emphasis on use of pharmacologic therapeutic regimens with emphasis on secondary prevention.

Prerequisite(s): NURS 248, NURS 259, NURS 250, NURS 260

Corequisite(s): NURS 254

Grading: Letter Graded

NURS 252A - Family Nurse Practitioner (FNP) Concepts and Theory III

2 unit(s)

Theoretical and evidence base for tertiary prevention for families in primary care settings. Assessment and management of chronic conditions. Development of protocols for tertiary prevention. Integration of knowledge related to primary, secondary, and tertiary prevention.

Prerequisite(s): NURS 248, NURS 259, NURS 250, NURS 251, NURS 260

Corequisite(s): NURS 256

Grading: Letter Graded

NURS 253 - Family Nurse Practitioner Practicum I

2 unit(s)

First clinical practicum increases nurse practitioner competence in the domain of management of patient health/illness status in the areas of health promotion, health protection, disease prevention and management of patient illness; using evidence based clinical practice guidelines.

Misc/Lab: Laboratory 5 hours

Course may be repeated for credit for up to 4 units.

Prerequisite(s): NURS 259, NURS 260, NURS 248

Corequisite(s): NURS 250

Grading: Credit/No Credit

NURS 253ITL - International Family Nurse Practitioner Practicum I

2 unit(s)

Using evidence-based clinical practice guidelines, this first clinical practicum in an international location increases nurse practitioner competence in the domain of management of patient health/illness via health promotion, health protection, disease prevention, and management of patient illness.

Laboratory 4 hours.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): NURS 259, NURS 260, and NURS 248.

Corequisite(s): NURS 250.

Grading: Credit/No Credit

NURS 254 - Family Nurse Practitioner Practicum II

5 unit(s)

Second clinical practicum increases nurse practitioner competence in the domain of management of patient health/illness status in the areas of health promotion, health protection, disease prevention and management of patient illness; using evidence based clinical practice guidelines

Misc/Lab: Lecture 5 hours/Supervision 1.5 hours

Prerequisite(s): NURS 259, NURS 260, NURS 248, NURS 250

Corequisite(s): NURS 251

Grading: Credit/No Credit

NURS 256 - Family Nurse Practitioner Practicum III

5 unit(s)

Final clinical practicum increases nurse practitioner competence in the domain of management of patient health/illness status in the areas of health promotion, health protection, disease prevention and management of complex or chronic patient illness; using evidence based clinical practice guidelines.

Misc/Lab: Lecture 5 hours/Supervision 1.5 hours

Prerequisite(s): NURS 259, NURS 260, NURS 248, NURS 250, NURS 251, NURS 253, NURS 254

Grading: Credit/No Credit

NURS 258 - Professional Issues for Nurse Practitioners

2 unit(s)

Exploration of the current healthcare environment as it pertains to policy development, health planning, and

economic management at the national, state, and local levels. Exploration of equitable distribution of existing resources, policy development, program evaluation, and client/population outcomes.

Pre/Corequisite(s): NURS 250 and NURS 253.

Grading: Letter Graded

NURS 259 - Advanced Clinical Pharmacology

3 unit(s)

This course is designed to prepare family nurse practitioners and nurse educators to accurately describe, administer, and counsel patients regarding appropriate and safe medication regimens. Basic pharmacologic principles and the pharmacologic actions of the major drug classes will be discussed in relation to physiologic systems, with emphasis on the application of these agents.

Grading: Letter Graded

NURS 260 - Advanced Physiology and Pathophysiology for Advanced Practice Nursing

3 unit(s)

Advanced physiology and compensatory mechanisms are examined with emphasis on system interaction, homeostasis, and pathophysiology. Focus for this course is on physiologic processes with clinical application to individuals across the lifespan. Course has both online and in-class components.

Prerequisite(s): Graduate status or instructor consent.

Grading: Letter Graded

NURS 295A - Research Methods

3 unit(s)

This course provides basic principles of research. Novice researchers are familiarized with research methodology. Candidates engage in evaluating public research, and develop and write a feasible proposal for implementation as a research project.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): NURS 200

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

NURS 297 - Master's Project

1-4 unit(s)

Project option is an alternative to thesis option. Students integrate learning from graduate courses and clinical practice by developing a project proposal, implementing and reporting the project in the form of a publishable paper. May not be repeated in the same semester.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): NURS 295A and advancement to candidacy.

Grading: Mandatory Credit/No Credit/RP

NURS 299 - Master's Thesis

1-4 unit(s)

Research proposal developed, research completed and study reported in approved thesis format during three semesters.

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit/RP.

NURS 550 - Doctor of Nursing Practice Foundations for Academic Administration

2 unit(s)

Core elements of academic administration in nursing will be introduced to advanced practice nurses. The course is developed around four concepts: dimensions of the nursing academic administrator role, management aspects of the role, leadership aspects of the role, and cultivating individual leadership.

Prerequisite(s): NURS 583.

Grading: Letter Graded

NURS 574 - The Role of Diversity and Social Issues in Healthcare

2 unit(s)

Analysis of social and cultural factors affecting health among populations defined by age, education, gender, ethnicity, culture, religion, occupation, income, mental or physical disability and language.

Prerequisite(s): Admission to DNP program.

Grading: Letter Graded

Sustainability Focused - SDG 3: Good Health and Well-Being

NURS 575 - Application of Theories in Advanced Nursing Practice

2 unit(s)

Application of theories of nursing, ethics, and teaching-learning to advanced nursing practice and healthcare leadership.

Prerequisite(s): Admission to DNP program.

Grading: Letter Graded

NURS 576 - Application of Biostatistics to Populations

3 unit(s)

Examination of methods to generate and analyze biostatistical data to design, implement, and evaluate programs and policies for the healthcare of populations.

Prerequisite(s): NURS 574, NURS 575, and NURS 583.

Grading: Letter Graded

NURS 580 - DNP Practicum

6 unit(s)

Integration of clinical practice, theory, and research. Development of clinical expertise in management of health problems in selected populations.

Course may be repeated 4 times for up to 24 units.

Grading: Credit/No Credit

NURS 583 - Leadership and Professional Responsibility in Complex Healthcare Systems

2 unit(s)

Analysis of nursing leadership and evidence-based management theories necessary for the leadership of complex healthcare systems. Application of concepts of leadership, management, planning, and evaluation of population based efforts to provide quality affordable care. Analysis of professional roles and responsibilities.

Prerequisite(s): Admission to DNP program.

Grading: Letter Graded

NURS 584 - Technology, Informatics, and Data Management in the Transformation of Healthcare

2 unit(s)

Overview of patient-centered technology and clinical information systems. Application of nursing informatics in healthcare systems. Use of technology in evaluation of clinical outcomes to improve the healthcare system and to evaluate the effectiveness, quality, and efficiency of healthcare programs.

Prerequisite(s): NURS 576, NURS 585, and NURS 587.

Grading: Letter Graded

NURS 585 - Foundations of Evidence-Based Practice

3 unit(s)

Exploration of issues related to evidence-based practice. Development of skills needed to identify, critically appraise, and utilize best evidence.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): NURS 574, NURS 575, and NURS 583.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this doctoral program.

NURS 586 - Transformation of Health Care Systems: Health Policy and Economics

2 unit(s)

Healthcare policies and economics and the political forces that shape them. Role of the DNP in the analysis, formulation, and implementation of healthcare policies.

Prerequisite(s): NURS 591, NURS 592, and NURS 595B.

Grading: Letter Graded

NURS 587 - Principles of Epidemiology

3 unit(s)

Principles and concepts of epidemiology. Distribution and determinants of disease risk in populations across the lifespan. Approach to disease and intervention, identification of cause of disease, response to disease outbreak, disease surveillance, evaluation of screening and prevention, and ethical issues.

Prerequisite(s): NURS 574, NURS 575, and NURS 583.

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

NURS 591 - Instructional Design and Curriculum Development

3 unit(s)

Exploration of philosophical foundations of curriculum, curriculum design, and the development of curriculum frameworks, outcomes, and competencies. Analysis of determinants of learning and the developmental stages of the learning process. Theoretical foundations of teaching-learning emphasizing critical thinking and active learning.

Prerequisite(s): NURS 584, NURS 593, and NURS 595A.

Grading: Letter Graded

NURS 592 - Outcomes Evaluation in Practice and Education

3 unit(s)

Focuses on assessment, measurement, and evaluation of learning and program outcomes in nursing. Explores theories of educational measurement and evaluation and of measures to evaluate teaching effectiveness, student learning, student outcomes, and student clinical performance.

Prerequisite(s): NURS 584, NURS 593, and NURS 595A.

Grading: Letter Graded

NURS 593 - Project Management and Finance

2 unit(s)

Principles of health care economics, third-party reimbursement, costing, budgets and budgeting, variance, economic evaluation methods, and writing a business plan to defend or market a health care program. Management of a successful project or practice emphasizing fiscal planning and control.

Prerequisite(s): NURS 576, NURS 585, and NURS 587.

Grading: Letter Graded

NURS 594 - Application of Evidence-Based Teaching in Nursing

2 unit(s)

Guided experience with a master teacher in nursing. Experiential classroom, clinical, and simulation teaching. Implementation of a teaching unit using principles of evidence-based teaching.

Lecture 1 hour/Lab 2 hours.

Prerequisite(s): NURS 591, NURS 592, and NURS 595B.

Grading: Letter Graded

NURS 595A - Translating Evidence into Reflective Practice I

2 unit(s)

Integration of clinical practice, theory, and research. Development of clinical expertise in management of health problems in selected populations. Identification and development of a project proposal for implementation. Formal defense of proposal and IRB approval, as required.

Prerequisite(s): NURS 576, NURS 585, and NURS 587.

Grading: Letter Graded

NURS 595B - Translating Evidence into Reflective Practice II

2 unit(s)

Integration of clinical practice, theory, and research. Development of clinical expertise in management of health problems in selected populations. Implementation of project proposal.

Prerequisite(s): NURS 584, NURS 593, and NURS 595A.

Grading: Letter Graded

NURS 595C - Translating Evidence into Reflective Practice III Doctoral Project

2 unit(s)

Evaluation of data and completion of doctoral project. Dissemination of results through an oral defense and manuscript submission to a peer-reviewed journal.

Prerequisite(s): NURS 591, NURS 592, and NURS 595B.

Grading: Mandatory Credit/No Credit/RP

Nutrition and Food Science

NUFS 1A - Physical Science of Food

3 unit(s)

Introductory course to the physical, chemical and sensory properties of food for students not majoring in the sciences. Basic structure, function and organization of foods, laws of thermodynamics, systems of

classification, as well as the interactions of energy and matter.

Satisfies B1: Physical Science.

Grading: Letter Graded

NUFS 8 - Nutrition for the Health Professions

3 unit(s)

Nutrients and their functions; recommended nutrient intakes and evaluation of dietary adequacy; relationship of nutrition to optimum health and dietary changes in disease. For nutritional science, nursing and other health profession majors.

Prerequisite(s): CHEM 1A or CHEM 30A (with a grade of 'C' or better), or instructor consent.

Grading: Letter Graded

NUFS 9 - Introduction to Human Nutrition

3 unit(s)

Principles and methodology of nutritional science; standards of nutrient intake; physiological functions and chemical classification of nutrients; nutrient needs throughout the lifespan; relationship between diet and disease; scientific, social, and psychological issues.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

Note(s): Not open to majors.

NUFS 10 - Basic Life Skills

3 unit(s)

Introduction to basic nutrition and culinary concepts for selecting and preparing healthy, budget-friendly foods to establish healthy eating habits for independent living. Emphasis on self-care, wellness, and development of personal resource management skills to foster academic, professional, and personal growth.

Lecture 2 hours/Activity 2 hours.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

NUFS 12 - Data Analytics in Restaurant Operations

3 unit(s)

A comprehensive exploration of the essential aspects of restaurant data, including sales trends, customer behavior, operational efficiency, marketing impact, financial management, employee performance, and menu optimization.

Grading: Letter Graded.

Cross-listed with HSPM 12. Hospitality Management is responsible for scheduling.

NUFS 16 - Science, Physiology, and Nutrition

3 unit(s)

Introduction to life sciences, from chemistry to cellular and physiologic functions, with nutrition as an underlying theme. Interactions with environment, including effect of culture, genetics, and nutrition on susceptibility to disease. Applications of biotechnology in the life sciences.

Satisfies B2: Life Science.

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

NUFS 20 - Sanitation and Environmental Issues in the Hospitality Industry

2 unit(s)

Sanitation in food service, hotel and travel/tourism industries; study of pathogenic organisms and food handling procedures. Occupational health, safety and environmental control in the hospitality industry.

Grading: Letter Graded

Cross-listed with HSPM 20. Nutrition, Food Science and Packaging is responsible for scheduling.

Sustainability Related - SDG 8: Decent Work and Economic Growth

NUFS 21 - Culinary Principles and Practice

3 unit(s)

Introduction to principles of food and beverage production and techniques. Emphasis on quality and culinary standards.

Lecture 2 hours/Lab 3 hours.

Grading: Letter Graded.

NUFS 22 - Catering and Beverage Management

3 unit(s)

Planning and executing catering and buffet functions. Evaluation of alcoholic and non-alcoholic beverages regarding purchasing, storage, preparation, merchandising and regulations.

Misc/Lab: Lecture 2 hours /lab 3 hours.

Prerequisite(s): NUFS 20 or instructor consent.

Grading: Letter Graded

Cross-listed with HSPM 22. Nutrition, Food Science and Packaging is responsible for scheduling.

NUFS 25 - Internship in Foodservice Management

1-2 unit(s)

Approved professional broad-based work experience in foodservice management industry for total of 200 hours. Written report due at completion. A maximum of 2 units may be repeated.

Course may be repeated for credit for up to 2 units.

Prerequisite(s): NUFS 20 and instructor consent.

Grading: Credit/No Credit

NUFS 31 - Professionalism in Nutrition, Food Science and Packaging

1 unit(s)

Professional roles, skills and opportunities in the fields of dietetics, foodservice, food science, and packaging.

Grading: Letter Graded

NUFS 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

NUFS 100W - Writing Workshop

3 unit(s)

Development of skills in scientific and technical writing. How to write a critical review of published writing, a business letter, a scholarly paper, and give an oral presentation.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Allowed Declared Majors: Nursing and pre-Nursing, Occupational Therapy, Public Health, Recreation, Communicative Disorders and Sciences, Nutritional Science, Special Majors, and Individual Studies. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

NUFS 101A - Food Science

4 unit(s)

Experimental study of food and introduction to scientific methods used in food evaluation; functions of ingredients in prepared foods.

Misc/Lab: Lecture 3 hours/Lab 3 hours

Prerequisite(s): CHEM 30B or CHEM 8. College basic food preparation course or instructor consent.

Grading: Letter Graded

NUFS 103 - Food Processing and Packaging I

2 unit(s)

Principles and methods of food preservation/processing and packaging operations. Raw materials handling, effect of processing on nutritional value of foods, packaging and food additives. Recommended: College basic food preparation course.

Misc/Lab: Lecture/lab 5 hours.

Prerequisite(s): CHEM 30B or CHEM 8 or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

NUFS 103L - Food Processing Laboratory

1 unit(s)

Laboratory activities associated with the principles and methods of food preservation/processing and packaging operations; raw materials handling, effect of processing on nutritional value of foods, packaging and food additives.

Prerequisite(s): CHEM 30B or CHEM 8; instructor consent

Grading: Letter Graded

NUFS 104A - Cultural Aspects of Food

3 unit(s)

Regional, ethnic and religious influences on food culture. Activity with foods of several cultures.

Misc/Lab: Lecture/activity 4 hours.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

NUFS 105 - Current Issues in Nutrition

3 unit(s)

Controversial topics, including the relation of nutrition to cancer, coronary heart disease, hypertension, diabetes, eating disorders, osteoporosis and athletic performance; recommended nutrient intakes; and other current issues.

Prerequisite(s): NUFFS 8, NUFFS 9, NUFFS 163 or equivalent introductory course in human nutrition.

Grading: Letter Graded

Sustainability Focused - SDG 3: Good Health and Well-Being

NUFS 106A - Human Nutrition in the Life Span

3 unit(s)

Integrates chemical, biological and social sciences into a comprehensive concept of human nutrition. Emphasis on assessing nutrient status; planning and intervention throughout the life cycle.

Prerequisite(s): NUFS 8 (with a grade of 'C' or better) or passing grade on a challenge exam.

Corequisite(s): NUFS 100W / PH 100W and NUFS 31.

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

NUFS 106B - Research Methodology in Nutrition and Food Science

3 unit(s)

Introduction to research methodology, interpretation and data analysis with a focus on developing strong information literacy skills, as well as critical thinking, reading, and writing skills in refining scholarly writing in the style of the discipline.

Prerequisite(s): STAT 95 or PH 67.

Corequisite(s): NUFS 106A and NUFS 100W / PH 100W.

Grading: Letter Graded

NUFS 108A - Nutrition and Metabolism

3 unit(s)

Chemical and physiological studies of carbohydrate, protein, lipid, vitamin and mineral metabolism. Application to the normal nutrition of human beings.

Prerequisite(s): NUFS 106A, BIOL 66, CHEM 132 (both with a grade of 'C' or better); and NUFS 100W / PH 100W.

Grading: Letter Graded

NUFS 108L - Nutrition Laboratory

1 unit(s)

Chemical and biochemical analysis of nutrients and metabolites in body fluids for the assessment of nutritional status of humans.

Lab 3 hours.

Prerequisite(s): CHEM 132L; STAT 95 or BUS2 90 or PH 167.

Corequisite(s): NUFS 108A.

Grading: Letter Graded

NUFS 109 - Advanced Nutrition

3 unit(s)

Advanced studies of vitamins and minerals. Evaluation and interpretation of nutritional research methodology and findings.

Prerequisite(s): NUFS 106A; CHEM 132 (with grades of 'C' or better in each); NUFS 100W / PH 100W; and BIOL 66; BUS2 90, STAT 95 or PH 167.

Grading: Letter Graded

NUFS 110A - Medical Nutrition Therapy

3 unit(s)

Application of nutritional principles and dietary intake to meet the needs of various pathological conditions.

Misc/Lab: Lecture/activity 4 hours.

Prerequisite(s): NUFS 108A (with grade of 'C' or better).

Corequisite(s): NUFS 109.

Grading: Letter Graded

NUFS 110B - Medical Nutrition Therapy

3 unit(s)

Application of nutritional principles and dietary intake to meet the needs of various pathological conditions.

Misc/Lab: Lecture/activity 4 hours.

Prerequisite(s): NUFS 110A and NUFS 109 (with a grade of C or better in each).

Grading: Letter Graded

NUFS 111 - Foodservice Production Management

3 unit(s)

Principles and procedures for menu planning, production scheduling, volume food production, operation of foodservice equipment, sanitation control and formula costing.

Misc/Lab: Lecture 2 hours/Lab 3 hours

Prerequisite(s): NUFS 101A or HSPM 11; NUFS 8 or NUFS 9; or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

NUFS 113 - Foodservice Systems: Mgmt & Proc

3 unit(s)

Selection and purchasing in foodservice operations: food and equipment and writing food/equipment specifications. Allocation and management of resources in foodservice systems: materials (food and supplies), facilities (equipment and space), human (management and employee labor), operational (time and money).

Misc/Lab: Lecture/lab 5 hours.

Prerequisite(s): NUFS 111 or instructor consent.

Grading: Letter Graded

NUFS 114A - Community Nutrition for Majors

3 unit(s)

Nutrition problems; public policy, advocacy and legislation; government programs; needs assessments; management of community services.

Prerequisite(s): NUFS 106A, senior standing, and instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 2: Zero Hunger

NUFS 114B - Community Nutrition (non-majors)

3 unit(s)

Key nutrition concepts and terms; age appropriate nutritional interventions; nutrition and public policy, advocacy and legislation; government programs and provision of community nutrition services.

Satisfies SJSU Studies Area S. Self, Society & Equality in the U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Sustainability Related - SDG 2: Zero Hunger

NUFS 115 - Issues in Food Toxicology

3 unit(s)

Introduction to toxicology of foods, and food-borne chemicals and organisms. Scientific basis for determining biological and environmental safety of the food supply from food development, growth and production through harvesting, processing, storage and eventual consumption.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

NUFS 116 - Aging and Nutrition

3 unit(s)

The aging process, physiological changes, dietary requirements, diseases, environmental factors, housing, economic status, handicaps, personal relations and current programs for the aged.

Prerequisite(s): One college nutrition course or instructor consent.

Grading: Letter Graded

Cross-listed with GERO 116. Nutrition, Food Science and Packaging is responsible for scheduling.
Sustainability Focused - SDG 10: Reduced Inequalities

NUFS 117 - Food Evaluation Techniques

3 unit(s)

Food evaluation techniques used to evaluate the appearance, aroma, flavor, texture and acceptability of foods. Relationships between sensory and instrumental measurements of color and texture. Work independently and cooperatively to identify sensory evaluation objectives, write hypotheses, design and conduct experiments, and analyze and interpret data. Intended for majors.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): NUFS 8 and NUFS 101A; CHEM 30A, CHEM 30B, CHEM 1A; or instructor consent.

Grading: Letter Graded.

NUFS 118 - Food Chemistry

3 unit(s)

Important classes of food constituents, their nature, occurrence, chemical and biochemical significance, and the changes they undergo during food preservation and processing.

Misc/Lab: Lecture/lab 5 hours.

Prerequisite(s): NUFS 101A and/or NUFS 103; CHEM 30B or CHEM 8; or Instructor Consent

Grading: Letter Graded

NUFS 122 - Chemical Analysis of Food

3 unit(s)

Techniques in chemical analysis of nutrients and other components of food. Planning, conducting and evaluating a scientific experiment and presenting the data in technical written form.

2 hours lecture/3 hours lab.

Prerequisite(s): NUFS 103 or NUFS 101A, NUFS 100W / PH 100W, STAT 95 or PH 67.

Grading: Letter Graded

NUFS 123 - Nutrition for Sport

3 unit(s)

Planning optimum diets for performance and health; metabolism and energy systems; roles of nutrients in physical performance; efficacy of ergogenic nutrition aids.

Prerequisite(s): NUFS 8 or NUFS 9.

Grading: Letter Graded

NUFS 124 - Disordered Eating and Nutrition Therapy

3 unit(s)

Metabolic, physiological, and psychological determinants and effects of disordered dietary behaviors.

Disorders in regulation of food intake, case studies, and different intervention approaches explored. Screening and treatment of disordered eating in athletes emphasized. Opportunities provided to develop counseling strategies.

Prerequisite(s): NUFS 8.

Grading: Letter Graded

NUFS 125 - Child Nutrition Program Administration

2 unit(s)

Study of the components of model child nutrition programs through application of current child health and nutrition principles, education practices, marketing procedures, communication strategies, computer-based nutrient and business analysis and operations management skills.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Note(s): Offered Summer only.

NUFS 134 - Multicultural Complementary and Alternative Medicine

3 unit(s)

Explores complementary and alternative medicine (CAM) in the U.S., emphasizing its evidence-based efficacy and ties to cultural, racial, and individual identities. Dives into the historical and societal influences on CAM, understanding its role in shaping health equity and U.S. healthcare dynamics. Through discussions, writings, and community engagement, students will champion inclusive health practices in a multicultural setting.

Satisfies SJSU Studies Area S - Self, Society & Equality in the U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Students are strongly encouraged to satisfy GE Areas R, S, and V with courses from departments other than the major department. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

NUFS 135 - Health Issues in a Multicultural Society

3 unit(s)

A multidisciplinary interpretation and evaluation of consumer health issues. Impact of cultural variables (including communication methods, socioeconomic status, and traditional beliefs) on health and illness. Interaction of individuals in families and other groups.

Satisfies SJSU Studies Area S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with PH 135. Public Health is responsible for scheduling.

Sustainability Focused - SDG 3: Good Health and Well-Being

NUFS 139 - Hunger and Environmental Nutrition

3 unit(s)

Physiology of hunger/malnutrition on human development and health; political, social, cultural and gender factors that contribute to world hunger; scientific/technological foundation to population research and food production and their effect on the environment.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

NUFS 139ITL - Hunger and Environmental Nutrition

3 unit(s)

The physiology of hunger/malnutrition on human development and health; political, social, cultural, and gender factors that contribute to world hunger; scientific/technological foundations of population research and food production and their effect on the environment.

Satisfies SJSU Studies R: Earth & Environment

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Note(s): All of SJSU Studies courses require upper division standing.

Sustainability Focused - SDG 3: Good Health and Well-Being

NUFS 144 - Food Culture: Consuming Passions

3 unit(s)

Cultural aspects of food as related to regional, ethnic and religious influences. Issue based examination of effects of food behavior on culture, society, health, and economics.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

NUFS 144ITL - Food Culture: Consuming Passions: International Experience

3 unit(s)

Cultural aspects of food as related to regional, ethnic, and religious influences abroad. Issue-based examination of the effects of food behavior on culture, society, health, and economics abroad. Involves an international, study abroad experience.

Satisfies SJSU Studies V: Culture, Civil & Global Understanding

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Related - SDG 2: Zero Hunger

NUFS 150 - Food and Nutritional Toxicology

2 unit(s)

Major classes of food toxicants, their importance, properties, detection, metabolism, control and regulation; and basic issues in food/diet safety and toxicology.

Prerequisite(s): NUFS 103, CHEM 30B or CHEM 8; introductory courses in nutrition and biology and instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

NUFS 151 - Food Microbiology

2 unit(s)

Role of microorganisms in foodborne illness, food quality, spoilage, and preservation. Control of microorganisms in foods. Methods to enumerate, identify, and characterize microorganisms in foods.

Prerequisite(s): MICR 101

Grading: Letter Graded

NUFS 163 - Science of Physical Fitness and Nutrition

3 unit(s)

Use of scientific principles, scientific investigation, and current technological advances to assess the relationship between diet, physical fitness, and disease. Examine scientific literature to evaluate the effects of nutritional intervention on exercise performance.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

Cross-listed with KIN 163 Nutrition, Food Science and Packaging is responsible for scheduling.

NUFS 180 - Individual Studies

1-6 unit(s)

Individual work for majors or minors on special topics by arrangement.

Prerequisite(s): NUFS 8; instructor and department chair consent during semester prior to enrollment.

Grading: Credit/No Credit

NUFS 190 - Nutrition Education and Counseling

3 unit(s)

Education principles and behavior change theories; counseling and communication techniques for nutritionists and dietitians working with individuals and groups.

Prerequisite(s): NUFS 106A or Instructor Consent

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

NUFS 192 - Field Experience in Nutrition and Food Science and Packaging Technology

1-6 unit(s)

Practical application of academic principles in nutrition, food science, packaging, dietetics food management, nutrition education, and/or sports nutrition. Repeatable for a maximum of 6 units.

Misc/Lab: Supervision 3 to 18 hours.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Senior standing in NUFS; instructor consent by end of prior semester.

Grading: Credit/No Credit

NUFS 192I - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

NUFS 194 - Entrepreneurial Nutrition

1 unit(s)

Introduction to entrepreneurial nutrition including professional roles, skills and opportunities.

Prerequisite(s): ENGL 1A or instructor consent.

Grading: Letter Graded

NUFS 201 - Colloquium in Nutrition, Food Science and Packaging

3 unit(s)

Presentation and discussion of original research or specialized studies in Nutrition, Food Science and Packaging by graduate students, faculty & guest speakers.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

NUFS 217 - Issues in Nutrition, Food and Packaging

3 unit(s)

Discussion and critical evaluation of advanced topics in nutritional science, food science and technology, foodservice management, and packaging.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Repeatable for credit.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

NUFS 219A - Advanced Nutrition and Metabolism

3 unit(s)

Advanced seminar course in human nutrition and metabolism that covers sources and interactions among dietary constituents, digestion and absorption, transport, processing storage, and catabolism and excretion as well as the regulation of metabolic homeostasis in normal healthy individuals.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): NUFs 108A & NUFs 109 or equivalent advance courses in Human nutrition and Metabolism, CHEM 132 or equivalent, BIOL 66 or equivalent, advanced course in statistics or biostatistics, or Consent of Instructor.

Grading: Letter Graded

NUFS 219B - Seminar in Advanced Topics in Human Nutrition & Dietetics

3 unit(s)

Advanced seminar on selected topics in human nutrition and dietetics such as: sources and interactions among dietary constituents, nutrition and disease, community nutrition, nutrition education, hunger and environmental nutrition, sustainability, nutrition and culture, and issues of social justice.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): Instructor Consent

Grading: Letter Graded

NUFS 220A - Advanced Medical Nutrition Therapy

3 unit(s)

Assessment and evaluation of nutritional status; diet planning in health and disease; counseling techniques; and medical documentation.

Prerequisite(s): NUFS 110A and NUFS 110B (each with a grade of "C" or better).

Grading: Letter Graded

NUFS 242 - Advanced Foodservice/Restaurant Management

3 unit(s)

Quantitative and qualitative analyses of foodservice/restaurant operations as bases for managerial decision-making.

Misc/Lab: Lecture 3 hours.

Prerequisite(s): NUFS 113.

Grading: Letter Graded

NUFS 243 - Nutrition and Dietetics Leadership

3 unit(s)

Leadership as dietitian and nutrition-related manager in a variety of settings. Quantitative and qualitative analyses of leadership strategies including communication, emotional intelligence and quality improvement.

Grading: Letter Graded

NUFS 257 - Biostatistics in Research

3 unit(s)

Concepts in biostatistics including best practices and skills for managing, analyzing, and interpreting research data within the health profession fields.

Prerequisite(s): An undergraduate statistics course.

Grading: Letter Graded

NUFS 260 - Multidisciplinary Health Promotion in Later Life

3 unit(s)

Multidisciplinary assessment and planning. Principles of promoting health and preventing disability in later life. Physical, psychological, social, cultural, spiritual, and environmental factors that affect length and quality of life.

Prerequisite(s): BIOL 66 or GERO 108 or instructor consent.

Grading: Letter Graded

Cross-listed with GERO 260 / HPRF 260. Nutrition, Food Science and Packaging is responsible for scheduling.

Sustainability Related - SDG 3: Good Health and Well-Being

NUFS 280A - Dietetic Internship

1-12 unit(s)

Supervised professional field experience to fulfill ADA eligibility requirements for registered dietitian examination.

Prerequisite(s): DPD or instructor consent.

Grading: Credit/No Credit

Note(s): Course can be taken for 1, 3, 6, 9 or 12 units.

NUFS 295A - Research Methodology

3 unit(s)

Introduction to scientific methodology, and research design; including refining scholarly search strategies to build a strong scientific base for research, development of research design, data collection, analysis, interpretation and application of research in nutrition, food science and packaging.

Grading: Letter Graded

NUFS 298 - Special Studies in Nutrition, Food Science and Packaging

1-6 unit(s)

Advanced individual research and projects.

Prerequisite(s): Consent of graduate advisor.

Grading: Mandatory Credit/No Credit/RP

NUFS 299 - Master's Thesis

1-6 unit(s)

Prerequisite(s): Advancement to candidacy for the master's degree.

Grading: Mandatory Credit/No Credit/RP

NUFS 1290R - Culminating Experience Supervision

1 unit(s)

This course satisfies the requirement that all graduate students must remain enrolled during semesters in which they are working solely on their theses or projects, for which they have previously received but not cleared an RP grade.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Existing RP grade in a graduate-level thesis or project course

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Occupational Therapy

OCTH 190 - Foundations of Neuroscience for Occupational Therapy

3 unit(s)

Foundations of neuroscience related to occupational performance. Topics include an overview of anatomy and physiology of the human nervous system and the interaction among the central, peripheral and autonomic nervous systems related to function.

Prerequisite(s): BIOL 65 or BIOL 65O, BIOL 66

Grading: Letter Graded

OCTH 192I - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Course may be repeated for credit for up to 12 units.

Grading: Mixed Grading

OCTH 201A - Field Work Experience

3-6 unit(s)

Three months in full-time fieldwork is required to complete this course. Completion of this course is required for Master of Science in Occupational Therapy degree.

Course is repeatable 3 times for up to 9 units.

Prerequisite(s): OCTH 276 and OCTH 286. Open to Masters students only.

Grading: Credit/No Credit.

Note(s): Travel to facility is the student's responsibility.

OCTH 201AD - Field Work Experience

3-6 unit(s)

Three months in full-time fieldwork is required to complete this course. Completion of this course is required for the Occupational Therapy Doctorate degree.

Course is repeatable 3 times for up to 9 units.

Prerequisite(s): OCTH 276 and OCTH 286. Open to Doctoral students only.

Grading: Credit/No Credit.

Note(s): Travel to facility is the student's responsibility.

OCTH 201B - Advanced Field Work Experience

3-6 unit(s)

Three months in full-time fieldwork is required to complete this course. Completion of this course is required for the Master of Science in Occupational Therapy degree.

Course is repeatable 3 times for up to 9 units.

Prerequisite(s): OCTH 276 and OCTH 286.. Open to Masters students only.

Grading: Credit/No Credit.

Note(s): Travel to facility is the student's responsibility.

OCTH 201BD - Advanced Field Work Experience

3-6 unit(s)

Three months in full-time fieldwork is required to complete this course. Completion of this course is required for the Occupational Therapy Doctorate degree.

Course is repeatable 3 times for up to 9 units.

Prerequisite(s): OCTH 276 and OCTH 286. Open to Doctoral students only.

Grading: Credit/No Credit.

Note(s): Travel to facility is the student's responsibility.

OCTH 205 - Mindfulness of Self in Daily Life

3 unit(s)

Mindfulness-based exploration of self in personal life. Focus on personal mindfulness practice informed by the study of the foundations of mindfulness, self-compassion, and interpersonal mindfulness practice which forms the basis for integrating and sustaining mindfulness in daily life.

Prerequisite(s): MBSR program.

Grading: Letter Graded

OCTH 206 - Clinical Practice Skills for Occupational Therapy

3 unit(s)

Introduces foundational clinical practice skills used in occupational therapy intervention (e.g., adaptive equipment, assistive technology, functional mobility, wheelchair fitting and mobility, adapted driving, community mobility) using experiential, kinesthetic learning and case-based scenarios.

Prerequisite(s): Open to Masters students only.

Grading: Letter Graded.

OCTH 206D - Clinical Practice Skills for Occupational Therapy

3 unit(s)

Introduces foundational clinical practice skills used in occupational therapy intervention (e.g., adaptive equipment, assistive technology, functional mobility, wheelchair fitting and mobility, adapted driving, community mobility) using experiential, kinesthetic learning and case-based scenarios.

Prerequisite(s): Open to Doctoral students only.

Grading: Letter Graded.

OCTH 207 - Mindfulness and Quality of Participation in Daily Occupations

2 unit(s)

Explore links among quality of participation in daily life, inter-occupational relationship patterns, level of attention, intention, and attitudes we bring to healthcare and human services practice. Examine relationships of automatic patterns of engagement on health and wellbeing. Implement mindfulness-based approaches into inter-occupational relationships.

Prerequisite(s): OCTH 205.

Grading: Letter Graded

OCTH 210 - Seminar in Occupational Therapy

2-3 unit(s)

Seminar on special topics in occupational therapy. Students will develop knowledge and skills in a selected practice area.

Prerequisite(s): Open to Masters students only.

Grading: Letter Graded.

OCTH 210D - Seminar in Occupational Therapy

2-3 unit(s)

Seminar on special topics in occupational therapy. Students will develop knowledge and skills in a selected practice area.

Prerequisite(s): Open to Doctoral students only.

Grading: Letter Graded.

OCTH 210ITL - Seminar in Occupational Therapy: International Experience

2-3 unit(s)

Gain cross-cultural and -national insight into political, social, cultural, economic factors that influence occupational therapy services outside of the U.S, define the role of occupational therapy and therapists as global citizens, engage local people in its services, explore social, occupational justice issues.

Prerequisite(s): Open to Masters students only.

Grading: Letter Graded.

OCTH 210ITLD - Seminar in Occupational Therapy: International Experience

2-3 unit(s)

Gain cross-cultural and -national insight into political, social, cultural, economic factors that influence occupational therapy services outside of the U.S, define the role of occupational therapy and therapists as global citizens, engage local people in its services, explore social, occupational justice issues.

Prerequisite(s): Open to Doctoral students only.

Grading: Letter Graded.

OCTH 211 - Historical and Theoretical Foundations of Occupational Therapy

3 unit(s)

History of occupational therapy practice, evolution of the concepts and values underlying its theoretical constructs, and the leaders who shaped the profession. Development of ideas, values, and beliefs concerning occupation within the context of historical, social, and scientific advances.

Prerequisite(s): Open to Masters students only.

Grading: Letter Graded.

OCTH 211D - Historical and Theoretical Foundations of Occupational Therapy

3 unit(s)

History of occupational therapy practice, evolution of the concepts and values underlying its theoretical constructs, and the leaders who shaped the profession. Development of ideas, values, and beliefs concerning occupation within the context of historical, social, and scientific advances.

Prerequisite(s): Open to Doctoral students only.

Grading: Letter Graded.

OCTH 212 - Occupations through the Lifespan

3 unit(s)

The development of occupations, their meaning and role in human development through the lifespan, and the conditions that create barriers to engagement in meaningful occupations. Students will analyze how interactions between self and environment influence occupational participation at all ages.

Prerequisite(s): Open to Masters students only.

Grading: Letter Graded.

Sustainability Related - SDG 8: Decent Work and Economic Growth

OCTH 212D - Occupations through the Lifespan

3 unit(s)

The development of occupations, their meaning and role in human development through the lifespan, and the conditions that create barriers to engagement in meaningful occupations. Students will analyze how interactions between self and environment influence occupational participation at all ages.

Prerequisite(s): Open to Doctoral students only.

Grading: Letter Graded.

Sustainability Related - SDG 8: Decent Work and Economic Growth

OCTH 213 - Professional Development I

3 unit(s)

Introduces occupational therapy as a profession and addresses professional organizations, roles, attitudes,

behaviors, and ethics. Explores the influence of culture on worldview, communication, and health behaviors. Students engage in personal and professional self-assessment and goal setting for professional development.

Grading: Letter Graded

OCTH 216 - Evaluation in Occupational Therapy

3 unit(s)

The purpose and process of evaluation in determining need for and outcomes of intervention. Application of measurement theory, theoretical perspectives and practice models for selection, administration, and interpretation of appropriate instruments, including occupational profiles, skilled observation, interviews and standardized tests.

Grading: Letter Graded

OCTH 221 - Occupational Analysis

3 unit(s)

Course focuses on analyzing occupations and occupational performance. Meaning and significance of competence, challenge, and success in occupations are explored through engagement in selected projects. Students learn to structure, adapt, plan, teach, and assess activities for therapeutic use.

Prerequisite(s): Open to Masters students only.

Grading: Letter Graded.

OCTH 221D - Occupational Analysis

3 unit(s)

Course focuses on analyzing occupations and occupational performance. Meaning and significance of competence, challenge, and success in occupations are explored through engagement in selected projects. Students learn to structure, adapt, plan, teach, and assess activities for therapeutic use.

Prerequisite(s): Open to Doctoral students only.

Grading: Letter Graded.

OCTH 222 - Functional Kinesiology for Occupational Therapists

3 unit(s)

Study of body movements based on neurophysiological and biomechanical principles of joint and muscle action correlated with analysis of the body in motion, physiological effects of activity and adaptation to physical dysfunction.

Prerequisite(s): Open to Masters students only.

Grading: Letter Graded.

OCTH 222D - Functional Kinesiology for Occupational Therapists

3 unit(s)

Study of body movements based on neurophysiological and biomechanical principles of joint and muscle action correlated with analysis of the body in motion, physiological effects of activity and adaptation to

physical dysfunction.

Prerequisite(s): Open to Doctoral students only.

Grading: Letter Graded.

OCTH 224 - Occupational Therapy Practice in the Community I

3 unit(s)

Introduction to community focused interventions based on the social model of health and occupational justice concepts, designed to promote health, well-being, social inclusion, empowerment, and health disparity reduction for populations and communities. Focus is on emerging and non-traditional practice settings.

Grading: Letter Graded

Sustainability Focused - SDG 3: Good Health and Well-Being

OCTH 225 - Capstone Evidence-Based MBHHS Practice Project

3 unit(s)

The emphasis of evidence-based practice for Mindfulness-Based Interventions in Healthcare and Human Services is on strategies for selecting, evaluating and analyzing professional literature and engaging in critical analysis of clinical and professional decision making and crafting into a publishable quality mindfulness-based intervention program.

Prerequisite(s): OCTH 205 and OCTH 207.

Grading: Letter Graded

OCTH 226 - Occupational Therapy with Children

3 unit(s)

Occupational therapy practice for children from birth to early adolescence, focusing on integrating knowledge of theoretical frameworks, practice settings, research evidence, clinical reasoning and regulatory and reimbursement policies in the provision of interventions for conditions and disorders experienced in this age group.

Grading: Letter Graded

OCTH 233 - Professional Development II

3 unit(s)

Deeper exploration into occupational therapy leadership, supervision, ethical conduct, advocacy, program development, and management principles related to current service models. Recent legislation and its impact on occupational therapy practice will be reviewed.

Prerequisite(s): OCTH 213

Grading: Letter Graded

OCTH 234 - Occupational Therapy Practice in the Community II

3 unit(s)

Community focused seminar and practicum providing intervention in emerging and non-traditional practice settings and underserved communities. Seminars address the diverse dimensions of practice in the community related to needs assessment, the community site, program development and implementing occupational therapy services.

Grading: Letter Graded

Sustainability Focused - SDG 3: Good Health and Well-Being

OCTH 236 - Occupational Therapy with Youth

3 unit(s)

Occupational therapy practice for adolescents and young adults, focusing on integrating knowledge of theoretical frameworks, practice settings, research evidence, clinical reasoning and regulatory and reimbursement policies in the provision of interventions for conditions and disorders experienced in this age group.

Grading: Letter Graded

OCTH 245 - Introduction to Research Methods

3 unit(s)

Introduction to research methodology and the process of critical inquiry. How one conducts research, including traditions and methods used in occupational therapy and how to understand research publications.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Introductory Statistics. Open to Masters students only.

Grading: Letter Graded.

Note(s): This course satisfies graduate-level GWAR in this master's program.

OCTH 245D - Introduction to Research Methods

3 unit(s)

Introduction to research methodology and the process of critical inquiry. How one conducts research, including traditions and methods used in occupational therapy and how to understand research publications.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Introductory Statistics. Open to Doctoral students only.

Grading: Letter Graded.

Note(s): This course satisfies graduate-level GWAR in this doctoral program.

OCTH 246 - Occupational Therapy with Young Adults

3 unit(s)

Occupational therapy practice for young adults ages 25-40, focusing on integrating knowledge of theoretical

frameworks, practice settings, research evidence, clinical reasoning and regulatory and reimbursement policies in the provision of interventions for conditions and disorders experienced in this age group.

Grading: Letter Graded

OCTH 256 - Occupational Therapy with Middle Aged Adults

3 unit(s)

Occupational therapy practice for adults age 41-65, focusing on integrating knowledge of theoretical frameworks, practice settings, research evidence, clinical reasoning and regulatory and reimbursement policies in the provision of interventions for conditions and disorders experienced in this age group.

Grading: Letter Graded

OCTH 266 - Occupational Therapy with Older Adults

3 unit(s)

Focuses on older adults whose occupational participation and wellness are affected by age associated change, illness, injury, or disability. The occupational therapy process is applied to facilitate independence, remediate dysfunction, adapt to disability, and enhance wellness and quality of life.

Grading: Letter Graded

OCTH 275 - Evidence Based Practice in Occupational Therapy

3 unit(s)

Evidence based practice is explored through lecture, in-class activities and data base research. Emphasis is on strategies for selecting, evaluating and analyzing professional literature in clinical decision making and exploration of quantitative and qualitative analysis to support evaluation of literature.

Prerequisite(s): OCTH 245

Grading: Letter Graded

OCTH 276 - Practicum and Seminar 1A

3 unit(s)

Introductory practicum and seminar in occupational therapy. Students will develop beginning observation, reasoning, and documentation skills through placement at practice sites, and explore the integration of evidence and theory in the practice of occupational therapy through online and on-campus seminars.

Lecture 3 hours/Lab 3 hours.

Prerequisite(s): Open to Masters students only.

Grading: Credit/No Credit.

OCTH 276D - Practicum and Seminar 1A

3 unit(s)

Introductory practicum and seminar in occupational therapy. Students will develop beginning observation, reasoning, and documentation skills through placement at practice sites, and explore the integration of evidence and theory in the practice of occupational therapy through online and on-campus seminars.

Lecture 3 hours/Lab 3 hours.

Prerequisite(s): Open to Doctoral students only.

Grading: Credit/No Credit.

OCTH 286 - Practicum and Seminar 1B

4 unit(s)

Clinical practice in occupational therapy. Students engage in direct intervention in departmental clinics. Seminars, in-service education, direct supervision, and one to one mentoring are used to develop practice skills.

Lecture 4 hours/Supervision 3 hours.

Prerequisite(s): OCTH 276. Open to Masters students only.

Grading: Credit/No Credit.

OCTH 286D - Practicum and Seminar 1B

4 unit(s)

Clinical practice in occupational therapy. Students engage in direct intervention in departmental clinics. Seminars, in-service education, direct supervision, and one to one mentoring are used to develop practice skills.

Lecture 4 hour/Supervision 3 hours.

Prerequisite(s): OCTH 276. Open to Doctoral students only.

Grading: Credit/No Credit.

OCTH 292 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

OCTH 295 - Advanced Research Methods in Occupational Therapy

3 unit(s)

Advanced topics in research methodology and critical inquiry. Instrument development, the human subjects review process, quantitative and qualitative data analysis, interpretation and reporting of results. Critical analysis and synthesis of the gathered information crafted into a publishable quality paper and oral presentation.

Prerequisite(s): OCTH 245 and OCTH 275

Grading: Credit/No Credit

OCTH 298 - Supervised Study in Occupational Therapy

1-3 unit(s)

Special problems assigned for individual study in the occupational therapy Master's program.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): OCTH 286

Grading: Mandatory Credit/No Credit/RP

OCTH 505 - Occupational Therapy Doctorate Exploration I

1 unit(s)

Expands on the process used for critical inquiry and analysis of contemporary knowledge. Students are expected to engage in individualized inquiry in a specific topic area.

Prerequisite(s): OCTH 245D with a grade of B or better.

Grading: Letter Graded

OCTH 515 - Occupational Therapy Doctorate Exploration II

2 unit(s)

Foster the connections among occupation based models and research questions. The student will examine how models can direct the search for evidence to address the research questions.

Prerequisite(s): OCTH 505.

Grading: Letter Graded

OCTH 516 - Evaluations in Occupational Therapy

3 unit(s)

Application of measurement theory, theoretical perspectives and practice models for selection, administration, and interpretation of appropriate instruments, including occupational profiles, skilled observation, interviews and standardized tests.

Grading: Letter Graded

OCTH 524 - Occupational Therapy Practice in the Community

2 unit(s)

Community interventions based on the social model of health and occupational justice; designed to promote health, well-being, social inclusion, empowerment, and health disparity reduction for populations and communities in emerging and non-traditional settings.

Grading: Letter Graded

OCTH 525 - OTD Exploration III

3 unit(s)

Planning for the Capstone Experience and Project, completing the Institutional Review Board (IRB) application, and developing the learning objectives for the Capstone Experience and Capstone Project courses.

Prerequisite(s): OCTH 515.

Grading: Letter Graded

OCTH 526 - Occupational Therapy with Children

3 unit(s)

Occupational therapy practice for children from birth to early adolescence, focusing on integrating theoretical models, research evidence, clinical reasoning and regulatory policies in the provision of interventions for conditions and disorders in this age group.

Prerequisite(s): OCTH 222D.

Grading: Letter Graded

OCTH 533 - Professional Development - Leadership

3 unit(s)

The course explores occupational therapy leadership theories, advocacy, healthcare policy and legislation, mentorship, utilizing inclusive approaches within diverse and multi-cultural contexts of health care and professional organizations, using multi-frame thinking and organizational development change theory.

Grading: Letter Graded

OCTH 534 - Community and Population Health

3 unit(s)

Explores the occupational therapy role in community health promotion through advocacy, policy and legislation, program development, and grant writing. Uses inclusive approaches with stakeholders from diverse and multicultural contexts including health care, community, and professional organizations.

Grading: Letter Graded

OCTH 536 - Occupational Therapy with Youth

3 unit(s)

Occupational therapy practice for adolescents and young adults, focusing on integrating knowledge of theoretical models, research evidence, clinical reasoning and regulatory policies to provide interventions for conditions and disorders experienced in this age group.

Grading: Letter Graded

OCTH 543 - Professional Development - Teaching, Learning, and Service

3 unit(s)

By integrating educational theories and methods with occupational therapy practice, this course introduces students to a variety of evidence-based instructional approaches that are fundamental for success with clients, caregivers, and colleagues.

Grading: Letter Graded

OCTH 546 - Occupational Therapy for Young Adults

3 unit(s)

Occupational therapy practice for adults ages 25-40. Integrating knowledge of theoretical frameworks, practice settings, research evidence, clinical reasoning, and regulatory policies in the provision of interventions for conditions and disorders experienced in this age group.

Grading: Letter Graded

OCTH 553 - Professional Development - Management

3 unit(s)

Management principles related to service and reimbursement models; ethical administrative, supervisory, and consultative practice in occupational therapy settings will be addressed. Ethical decision-making strategies and recent legislation and its impact on management will be covered.

Grading: Letter Graded

OCTH 555 - Qualitative Research Methods in Occupational Therapy

3 unit(s)

Reviews qualitative research designs and application to occupational therapy research. Topics include research questions, key characteristics and methods of qualitative designs; qualitative data collection strategies and analysis techniques including software used for analysis.

Prerequisite(s): OCTH 245D.

Grading: Letter Graded

OCTH 556 - Occupational Therapy with Middle Aged Adults

3 unit(s)

Occupational Therapy Practice for Middle Aged Adults age 41-65, focuses on integrating theoretical models, research evidence, clinical reasoning and regulatory policies in the provision of interventions for conditions/disorders experienced in this age group.

Grading: Letter Graded

OCTH 565 - Quantitative Research Methods in Occupational Therapy

3 unit(s)

Concepts of data analysis and statistical computing, both increasingly used in occupational therapy and the social sciences are introduced in this course. The emphasis is on the practical application of quantitative reasoning, visualization, and data analysis.

Grading: Letter Graded

OCTH 566 - Occupational Therapy for Older Adults

3 unit(s)

Focuses on older adults whose occupational participation is affected by age associated changes, illness, or disability. The occupational therapy process is applied to facilitate independence, remediate dysfunction, adapt to disability, and enhance quality of life.

Grading: Letter Graded

OCTH 575 - Advanced Research Methods and Data Analysis

2 unit(s)

Students learn advanced research methods and quantitative data analysis and how to discern which method is most appropriate for various research applications.

Prerequisite(s): OCTH 245D, OCTH 555, OCTH 565

Grading: Letter Graded

OCTH 576 - Seminar in Professional Practice

3 unit(s)

Students will examine advanced professional practice skills with assistive technologies and devices, including use of telehealth, to enhance occupational performance and foster participation and well-being for persons, populations, and communities.

Grading: Letter Graded

OCTH 585 - Evidence-Based Practice

3 unit(s)

Evidence-based practice in occupational therapy is explored through lecture, in-class activities, and database research. Emphasis is on strategies for selecting, evaluating, and analyzing professional literature for decision-making and knowledge translation addressing practice issues.

Grading: Letter Graded

OCTH 586 - Advanced Occupational Therapy Practice in Mental Health

3 unit(s)

Occupational therapy services in mental health practice will be addressed including service provision across the continuum of settings including inpatient acute care, intensive partial hospitalization programs, criminal justice and reintegration, community models, and private practice.

Grading: Letter Graded

OCTH 591A - Capstone Experience 1

3 unit(s)

Students initiate the capstone experience by completing the site orientation and beginning the data collection to support the OTD Capstone Project. Students implement the agreed upon plan for the Capstone Experience.

Prerequisite(s): OCTH 201AD and OCTH 201BD.

Grading: Credit/No Credit

OCTH 591B - Capstone Experience 2

11 unit(s)

Student completes the required 560 hours for the capstone experience completing the site orientation and completes the data collection to support the OTD Capstone Project. Student meets the agreed upon outcomes for the Capstone Experience.

Prerequisite(s): OCTH 591A and enrollment in the entry-level doctoral program.

Grading: Credit/No Credit

OCTH 595 - Doctoral Capstone Project

3 unit(s)

Student-directed inquiry course is focused on the scholarship of discovery, teaching and learning, application or integration within the occupational therapy profession. Analysis and synthesis of Capstone Experience data will be crafted into a publishable quality paper and oral presentation.

Prerequisite(s): OCTH 201AD and OCTH 201BD.

Grading: Letter Graded

Organizational Studies

ORGS 101 - People & Organizations

3 unit(s)

Study of complex organizations in which people live their lives. Topics include organizational forms and functions; internal social and cultural dynamics; growth and change in material, social and symbolic environments; and ethical issues of organizational life.

Misc/Lab: Lecture 4 hours/Activity 2 hours

Prerequisite(s): Upper Division Standing

Grading: Letter Graded

ORGS 102 - Organizations, Inquiry & Analysis

4 unit(s)

Development of skills to analyze and design organizations. Topics include analysis of environments and resources; use of technology; communication and decision-making; workflow and division of labor; and symbols. Research skills for understanding organizational values, patterns, processes and environments.

Misc/Lab: Lecture 4 hours/Activity 2 hours

Prerequisite(s): Upper Division Standing

Grading: Letter Graded

ORGS 103 - Organizational Studies Capstone

4 unit(s)

Capstone course required of all ORGS majors. Emphasizes team projects working with community or institutional partners to address issues through organizational design or change.

Misc/Lab: Lecture 4 hours/Activity 2 hours

Prerequisite(s): ORGS 101, ORGS 102; or instructor permission

Grading: Letter Graded

Packaging

PKG 107 - Principles of Packaging

3 unit(s)

Basic knowledge of packaging functions, materials and industry. A variety of packaging topics including distribution systems, packaging development, package design, legislation, regulations, societal and environmental issues, ergonomics and packaging careers.

Prerequisite(s): ENGL 1A or equivalent.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

PKG 120 - Artios CAD For Packaging

3 unit(s)

Prepares students for ArtiosCAD (a packaging design tool common to the folding carton and corrugated industries). Introduces basic commands of ArtiosCAD to draw and design the representations for different products. Students use the structure database, change from 2D to 3D models, and make simple animations.

Misc/lab: 2 hours lecture/2 hours activity

Grading: Letter Graded

PKG 121 - Solidworks For Packaging

3 unit(s)

Prepare students for SolidWorks (a computer drawing tool) so they can generate 3-D drawings suitable for specifications and transference to computer-driven cutting tables and 3-D printers to make prototype packages.

Misc/Lab: 2 hours lecture/2 hours lab

Grading: Letter Graded

PKG 141A - Packaging Materials I, Paper, Metal, and Wood Based

3 unit(s)

In-depth study of selected materials to provide a working knowledge of structures, physical and chemical properties, development, evaluation and design. Experiments in applications, design limitations and cost.

Lecture 2 hours/lab 2 hours.

Prerequisite(s): PKG 107 or instructor consent.

Grading: Letter Graded

PKG 141B - Packaging Materials II, Plastics, Composites, and Glass

3 unit(s)

In-depth study of plastic and glass materials in packaging; chemical and physical properties, design, manufacturing, compatibility, and evaluation. Experiments in applications, design limitations and cost.

Misc/Lab: Lecture 2 hours/lab 2 hours.

Prerequisite(s): NUFS 31, PKG 107, PKG 141A or instructor consent.

Grading: Letter Graded

PKG 146 - Packaging for Medical Devices and Pharmaceuticals

3 unit(s)

Chemical and physical properties of medical device and pharmaceuticals packages, fabrications techniques, package testing and evaluation methods, regulatory requirements, ergonomics and child resistant packages, tamper evidence, shelf life and aging, coding.

Misc/Lab: Lecture 2 hours/activity 2 hours.

Prerequisite(s): PKG 107, PKG 141A, PKG 141B or instructor consent.

Grading: Letter Graded

PKG 152 - Globalization and the Environment

3 unit(s)

Scientific approach to goods distribution worldwide, and environmental consequences of shipping materials and packaging, which when discarded become waste. Mutual interests of commerce and environment.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ENVS 152. Environmental Studies is responsible for scheduling.

PKG 156 - Packaging Machinery Systems

3 unit(s)

Evaluation of packaging machinery as a subset of a packaging production system. Component selection, design, and implementation of package filling lines in a production facility. Package design requirements for

filling lines.

Lecture 2 hours/Lab 2 hours.

Prerequisite(s): PKG 107, PKG 141A, PKG 141B, MATH 70, MATH 71 or MATH 71X, STAT 95.

Grading: Letter Graded

PKG 158 - Protective Package Design and Testing

3 unit(s)

In-depth study of protective packaging dynamics; theory and practice of shock, vibration, compression, humidity, temperature extremes. Measurement and analysis of the dist environment, product fragility, package design principles, package testing and evaluation.

Lecture 2 hours/Lab 2 hours.

Prerequisite(s): PKG 107, PKG 141A, PKG 141B, MATH 70, MATH 71 or MATH 71X, STAT 95.

Grading: Letter Graded

PKG 159 - Packaging Material Handling and Distribution

3 unit(s)

Transportation, handling, and storage of packaged goods. Transportation modes, environment hazards, measurement techniques. Military and Hazmat packaging regulations and testing, classification of goods, legal requirements, export packaging.

Prerequisite(s): PKG 158 or instructor consent.

Grading: Letter Graded

PKG 160 - Hazardous Materials Packaging

3 unit(s)

Identification and classification of hazardous materials, standards and requirements, proper documentation practices, identifying and sourcing the proper packaging materials to comply with hazardous materials packaging requires, and testing a package to provide United Nations Performance Orientated Packaging (UN POP) certification for shipping.

Lecture 2 hours/Activity 2 hours.

Grading: Letter Graded

PKG 168 - Advanced Laboratory Testing

3 unit(s)

Laboratory testing course that elaborates on concepts learned in previous classes. The focus is on good laboratory practices along with test methods covered in medical device package testing (PKG 146), packaging materials testing (PKG 141A/PKG 141B), and packaging dynamics testing (PKG 158).

Lab 3 hours.

Prerequisite(s): PKG 141A, PKG 146 and PKG 158.

Grading: Credit/No Credit

PKG 169 - Food Packaging and Preservation

3 unit(s)

This course investigates the interaction of food processing and packaging technology. Content includes food chemistry, microbiology in foods, food processing, and finally how packaging augments these areas in food protection and preservation.

Prerequisite(s): PKG 107 or instructor consent.

Grading: Letter Graded

PKG 170 - Packaging Development and Management

3 unit(s)

Capstone course emphasizing development and evaluation of packaging systems. Specifications and design, marketing criteria, package production, distribution performance, legal and environmental evaluations.

Lecture 2 hours/lab 2 hours.

Prerequisite(s): PKG 107, PKG 141A, PKG 141B, PKG 156, PKG 158 or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

PKG 180 - Individual Studies

1-6 unit(s)

Individual work for majors or minors on special topics by arrangement.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): PKG 107; instructor and department chair consent during semester prior to enrollment.

Grading: Credit/No Credit

PKG 268 - Advanced Laboratory Testing and Analysis

3 unit(s)

Focuses on good laboratory practices along with test methods covered in previous classes, such as medical device package testing (PKG 146), packaging materials testing (PKG 141A / PKG 141B), and packaging dynamics testing (PKG 158). At the completion of the class, students should be able to clearly organize, analyze, and present their data in a clear and concise manner.

Prerequisite(s): PKG 146 and PKG 158.

Grading: Credit/No Credit.

PKG 270 - Package Design for End Use

3 unit(s)

Current Package Design and Influences on Designs.

Grading: Letter Graded

Philosophy

PHIL 9 - Mathematics and Logic for General Education

3 unit(s)

A survey of basic concepts and methods, focusing on logic, computation, sets, numbers, geometry and probability. Emphasis will be placed on using these concepts in daily life and in coping with public issues.

Satisfies B4: Mathematics/Quantitative Reasoning.

Corequisite(s): PHIL 9W required as a corequisite for Math Enrollment Categories M-III and M-IV; and recommended for Enrollment Category M-II.

Grading: Letter Graded

PHIL 9W - Mathematics & Logic for General Education Workshop

1 unit(s)

Companion laboratory-style course for PHIL 9; concurrent enrollment in both is required. Focuses on providing extra help and support for students with both concepts and techniques from propositional logic and from first-order logic.

Corequisite(s): PHIL 9.

Grading: Letter Graded

PHIL 10 - Introduction to Philosophy

3 unit(s)

Perennial problems in philosophy, such as Who am I? What can I know? How should I live? Classical philosophical statements bearing on these issues.

Satisfies C2: Humanities.

Grading: Letter Graded

PHIL 12 - Human Nature and the Meaning of Life

3 unit(s)

Survey of philosophical discussions of various topics related to the definition and understanding of human nature and the meaning of life, including questions such as: In what ways or to what degree (if any) are human beings unique among other forms of life? What is the role of desire in human nature? What is the nature of and/or limitations on human freedom? In what ways are freedom and moral responsibility linked? What is the Meaning of Life?

Satisfies E: Human Understanding & Development.

Grading: Letter Graded.

PHIL 57 - Logic and Critical Reasoning

3 unit(s)

Basic concepts of logic; goals and standards of both deductive and inductive reasoning; techniques of argument analysis and assessment; evaluation of evidence; language and definition; fallacies.

Satisfies A3: Critical Thinking and Writing.

Prerequisite(s): Completion of GE Area A2 with a grade of C- or better.

Grading: Letter Graded

PHIL 61 - Moral Issues

3 unit(s)

Moral philosophy covering major ethical theories and contemporary moral issues, such as abortion, euthanasia, animal rights, capital punishment, and sexuality.

Satisfies C2: Humanities.

Grading: Letter Graded

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

PHIL 66 - Introduction to Aesthetics

3 unit(s)

Issues such as the nature of beauty and ugliness, definition of art, creativity, and interpretation and evaluation of art. Philosophical discussion of works of art and our responses to them.

Satisfies C1: Arts.

Grading: Letter Graded

PHIL 70A - Ancient Philosophy

3 unit(s)

Exploration of primary texts from the global history of philosophy prior to 500 CE, including key works of Plato and Aristotle. Other texts for the course may be drawn from a wide variety of global philosophical traditions, including (but not limited to) texts from Hindu, Buddhist, Confucian, Abrahamic, Greek, Roman, Mesopotamian, and African sources.

Satisfies C2: Humanities.

Grading: Letter Graded.

PHIL 70B - Early Modern Philosophy

3 unit(s)

Exploration of primary texts from the global history of philosophy in the 16th-18th centuries CE. Texts may include works by Descartes, Elizabeth of Bohemia, Cavendish, Locke, Astell, Berkeley, Amo, Hume, and Kant. Other texts for the course may be drawn from a wide variety of global philosophical traditions,

including texts originating in non-European philosophical traditions.

Satisfies C2: Humanities.

Grading: Letter Graded.

PHIL 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

PHIL 96L - Math & Logic for GE Workshop

1 unit(s)

In-depth exploration of concepts, methods, and problem-solving strategies for PHIL 009. Opportunities for additional practice, applications, and feedback.

Corequisite(s): PHIL 9

Grading: Letter Graded

PHIL 104 - Asian Philosophy

3 unit(s)

Philosophical examination of Confucianism, Daoism, Buddhism and some other significant movements of thought originated in Asia. Comparison with Western philosophy.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ASIA 104 / RELS 104. Philosophy is responsible for scheduling.

PHIL 106 - Philosophy of Art

3 unit(s)

Aesthetics covering the main schools of thought about art and selected topics related to specific arts, music, theatre, sculpture, painting, literature, etc.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

PHIL 107 - Philosophy and Literature

3 unit(s)

Philosophical theories presented through philosophical texts and philosophically focused literary works.

Prerequisite(s): 3 units of Philosophy or upper division standing.

Grading: Letter Graded

PHIL 108 - Political and Social Philosophy

3 unit(s)

Equality, justice, rights, liberty, the state, law and revolution. Readings drawn from classical and contemporary sources.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

PHIL 109 - Philosophy of Religion

3 unit(s)

Philosophical issues regarding the existence of a supreme being, evil, mysticism, miracles, reincarnation, faith, the possibility of enlightenment, and the connection between religion and morality.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

Cross-listed with RELS 109. Philosophy is responsible for scheduling.

PHIL 110 - Science, Technology and Human Values

3 unit(s)

The aims, methods and world views of science and technology; such value issues as technological determinism, design aesthetics and moral implications of computer and other technologies.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

PHIL 111 - Medical Ethics

3 unit(s)

(Formerly PHIL/GERO/NURS/HS 111) Selected ethical problems in health care practices. For example, abortion, patient rights, national health care, euthanasia and genetic engineering, with emphasis on philosophical methods.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

Cross-listed with GERO 111 Philosophy is responsible for scheduling.
Sustainability Related - SDG 3: Good Health and Well-Being

PHIL 112 - American Philosophy

3 unit(s)

The eighteenth century beginnings of American philosophy, Transcendentalism, Pragmatism, classic American philosophy, including Emerson, Peirce, James, Santayana, Dewey, and recent developments.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

PHIL 113 - Existentialism and Phenomenology

3 unit(s)

Twentieth century philosophies of experience and human existence. Main topics include description of consciousness, personal authenticity, choice, anxiety, death of God. Philosophers range from Husserl and Heidegger to Sartre and de Beauvoir.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

PHIL 117 - Philosophy of Race

3 unit(s)

Introduces and analyzes the predominant philosophical, cultural and scientific views on race and examines the issue of racism primarily in American culture. Topics include: social construction of race, nature of racism, intersection of race and other systems of oppression (e.g. sexism, classism, ableism etc.), as well as contemporary issues such as race-based medicine, race and the industrial prison complex, immigration, and racial justice.

Grading: Letter Graded

Sustainability Focused - SDG 10: Reduced Inequalities

PHIL 118 - Latin American Philosophy

3 unit(s)

Analysis of main themes of Latin-American, Mexican and Mexican-American thought.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

PHIL 119 - Africana Philosophy and Culture

3 unit(s)

Philosophical examination of the ideological roots of social movements in black diaspora cultures from Be-Bop to Hip-Hop.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

Cross-listed with AFAM 119. Philosophy is responsible for scheduling.

PHIL 120 - Comparative Philosophy Theory & Practice

3 unit(s)

Examination of how different philosophical traditions (distinguished by culture or by style) via their relevant resources can talk to and learn from each other and make substantial joint contributions to our understanding and treatment of a range of philosophical issues.

Prerequisite(s): 3 units of philosophy or upper division standing

Grading: Letter Graded

PHIL 121 - Philosophy and Feminism

3 unit(s)

A philosophical examination of writings that deal with issues of special concern to women, with emphasis on feminist writings.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

Cross-listed with WGSS 121. Philosophy is responsible for scheduling.

Sustainability Focused - SDG 5: Gender Equality

PHIL 122 - Social Justice

3 unit(s)

Critical examination of competing conceptions of justice and their application to social issues in a pluralistic society.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

PHIL 126 - Environmental Ethics and Philosophy

3 unit(s)

Extensions and applications of Kantian, Lockean, consequentialist and other philosophical theories of value to problems of the environment such as pollution, global warming, species depletion and overpopulation.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

Cross-listed with ENVS 126. Philosophy is responsible for scheduling.

Sustainability Focused - SDG 4: Quality Education

PHIL 132 - Ethical Theory

3 unit(s)

Theoretical problems in the understanding of right conduct, value, obligation, justice, and virtue.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

PHIL 133 - Ethics in Science

3 unit(s)

An examination of values and practices in the culture of science. Issues: transmission of values in scientific communities, interactions between scientific and lay communities, historical development of norms of responsible research, cultural influence on scientific values.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

PHIL 134 - Computers, Ethics and Society

3 unit(s)

The nature of privacy in a technologically interconnected world; the role of computer technologies in the exercise of the human intellect and imagination with respect to freedom of expression and the social good; rights and responsibilities of intellectual property ownership.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

PHIL 137 - Puzzles in Innovation and Law

3 unit(s)

Issues surrounding innovation: what exactly innovation is; whether it is created or discovered; why the law should protect it; whether innovators have special natural claims over their innovations; and whether the law ought to aim at a set of rules regarding innovation that maximizes societal well-being.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

PHIL 149 - Metaphysics & Epistemology

3 unit(s)

Such topics as nature of knowledge, skepticism, nature of reality, space, time, substance and causality. Course is repeatable once for credit in different area.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

PHIL 155 - Philosophy of Law

3 unit(s)

Theories of the nature of law, legal reasoning, and morality. Philosophical issues in criminal, civil, and constitutional law.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

PHIL 157 - Intermediate Logic & Language Analysis

3 unit(s)

Predicate logic, methods of proof and some meta theory. Additional systems of logic may be considered.

Prerequisite(s): PHIL 9, PHIL 57, or instructor consent.

Grading: Letter Graded.

PHIL 158 - Philosophy of Language

3 unit(s)

Philosophical investigations into language in view of its relation to reality, thought, and logic.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

PHIL 159 - Philosophy of Mind

3 unit(s)

Problems in connection with emotion, intention, human action and personal identity.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

PHIL 160 - Philosophy of Science

3 unit(s)

Scientific methodology, explanation and verification; science and society. Varying topics from physical, biological and social sciences.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

PHIL 180 - Individual Studies

1-3 unit(s)

By arrangement. Course is repeatable for a total of 4 units.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): Department chair consent.

Grading: Credit/No Credit

PHIL 184 - Directed Reading

1-3 unit(s)

Course is repeatable for a total of 4 units.

Course may be repeated for credit for up to 3 units.

Prerequisite(s): Qualified upper division student.

Grading: Credit/No Credit

PHIL 186 - Professional and Business Ethics

3 unit(s)

Interdisciplinary study of types of ethical problems which arise within the contexts of business occupations and professions. Major ethical theories, critique of economic and criminal justice. Focus is on issues of justice and equality in the U.S. Case studies.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with BUS3 186. Philosophy is responsible for scheduling.

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

PHIL 190 - Seminar in Philosophical Classics

3 unit(s)

Works of a major philosopher or philosophical tradition. Course is repeatable for up to 12 units of credit when a seminar topic is different.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): PHIL 70A and PHIL 70B and 6 units of upper division philosophy or instructor consent.

Grading: Letter Graded

PHIL 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad

Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

PHIL 195 - Seminar in Philosophy of Law

3 unit(s)

Critical examination of topics in legal philosophy.

Prerequisite(s): 3 units of Philosophy and upper division standing.

Grading: Letter Graded

PHIL 289 - Graduate Proseminar

3 unit(s)

Prepares graduate students for graduate work, teaching, professionalism, and future steps' particularly applying to PhD programs or teaching jobs. Topics include: reading philosophy, the writing process, teaching pedagogy, course design, presenting in professional settings, and writing a successful application. Open to advanced undergraduate students who are considering pursuing graduate work in philosophy.

Prerequisite(s): Graduate student or upper division Philosophy major standing.

Grading: Letter Graded

PHIL 290 - Advanced Seminar in a Selected Philosopher or Tradition

3 unit(s)

An exhaustive and detailed study of the entire, or most significant, writings of some outstanding philosopher or philosophical tradition.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course is repeatable for credit when seminar topic is different.

Prerequisite(s): Nine units of philosophy including PHIL 70A and PHIL 70B or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

PHIL 291 - Advanced Seminar in Epistemology and Metaphysics

3 unit(s)

Classical or contemporary problems in knowledge and reality.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course is repeatable for credit when seminar topic is different.

Prerequisite(s): At least one upper division course in epistemology or metaphysics, or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

PHIL 292 - Advanced Seminar in Ethics or Aesthetics

3 unit(s)

Classic or contemporary problems in some value area such as that of moral or aesthetic value. Course is repeatable for up to 12 units of credit when seminar topic is different.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): At least one upper division course in ethics or value theory, or instructor consent.

Grading: Letter Graded

PHIL 293 - Advanced Seminar in Logical Theory

3 unit(s)

Concepts of logic, such as truth and inference, considered on an advanced level. Course is repeatable for credit when seminar topic is different.

Prerequisite(s): PHIL 9, PHIL 157 or instructor consent.

Grading: Letter Graded

PHIL 298 - Special Studies

1-3 unit(s)

Prerequisite(s): Advisor consent.

Grading: Mandatory Credit/No Credit/RP

PHIL 299 - Master's Thesis

3 unit(s)

Prerequisite(s): Advisor consent.

Grading: Mandatory Credit/No Credit/RP

Photography

PHOT 40 - Beginning Photography

3 unit(s)

A Beginning photography course which introduces basic aesthetic issues in (primarily black and white) image making. Introduces photographic technique utilizing digital cameras, electronic image processing and digital printing. Requires a DSLR (digital single lens reflex) type camera. Requires Adobe Lightroom.

Grading: Letter Graded

PHOT 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

PHOT 110 - Black and White Photography

3 unit(s)

A traditional darkroom photography class which introduces black and white film developing, fiber based printing, and image manipulation and presentation techniques. Taught with traditional film and photo paper; requires a film camera, limited number of which department can loan students.

Prerequisite(s): PHOT 40.

Grading: Letter Graded

PHOT 112 - Color Photography

3 unit(s)

An intermediate course introducing principles of color photography, color theory, a refined use of the camera and digital printing techniques. Requires a DSLR (digital single lens reflex) type camera. Requires Adobe Lightroom and Adobe Photoshop.

Prerequisite(s): PHOT 40.

Grading: Letter Graded

PHOT 113 - Alternative Photo Media

3 unit(s)

Explores historical, handmade photographic printing processes which open avenues of expression unavailable through contemporary photographic processes. Cyanotype, Van Dyke, and gum bichromate techniques are covered, as well as creating traditional and digital negatives for contact printing.

Activity 6 hours.

Prerequisite(s): PHOT 40

Grading: Letter Graded

PHOT 114 - Advanced Black and White Photography

3 unit(s)

An advanced exploration of traditional silver based film and darkroom printing, the use of view cameras, and the Zone System. Provides students with the opportunity to explore qualities of expression unique to the gelatin silver process.

Prerequisite(s): PHOT 40 and PHOT 110 or instructor consent.

Grading: Letter Graded

PHOT 115 - Intermediate Digital Imaging

3 unit(s)

An intermediate level course investigating the unique possibilities afforded by contemporary digital imaging. Includes preparation of images for presentation via print, video and/or web. Emphasis upon incorporating digital tools with ongoing development of student work.

Prerequisite(s): PHOT 40.

Grading: Letter Graded

PHOT 116 - Contemporary Issues in Photography

3 unit(s)

Examination and discussion of aesthetic trends and philosophies in photography and related media, their impact on the medium and society.

Prerequisite(s): PHOT 40

Grading: Letter Graded

PHOT 120 - Image and Idea

3 unit(s)

An intermediate course in which students pursue individual projects. Emphasis on diverse strategies of approach and presentation which culminate in a group exhibition.

Prerequisite(s): PHOT 40.

Grading: Letter Graded.

PHOT 121 - Introduction to Studio Lighting

3 unit(s)

Concepts and principles of lighting using both daylight and incandescent light sources and the use of standard studio lighting equipment.

Prerequisite(s): PHOT 40.

Grading: Letter Graded

PHOT 122 - Advanced Lighting: Working with Strobes

3 unit(s)

An advanced lighting course incorporating strobes and professional photographic tools and techniques in the studio and on location that can be applied to commercial advertising photography or fine art imagery. Training on professional-level equipment and software is emphasized.

Prerequisite(s): PHOT 121

Grading: Letter Graded

PHOT 123 - Photography as Illustration

3 unit(s)

Technical and conceptual aspects of producing effective photographic illustrations for fine art and commercial purposes (fine art exhibitions, advertisements, posters, magazines, story illustrations, etc.). Can include studio work, location photography, darkroom work and digital manipulation.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): PHOT 40.

Grading: Letter Graded

PHOT 125 - Special Topics in Photography

3 unit(s)

Photography is a rapidly evolving field of study. In order to keep our curriculum current and add diversity to our staple of course offerings, our Photo 125, "Special Topics in Photography" offers a rotating variety of contemporary topics. Can be repeated for up to 15 units of credit when course topic changes.

Course may be repeated for credit for up to 15 units.

Prerequisite(s): PHOT 112, PHOT 113, PHOT 115, or instructor consent.

Grading: Letter Graded

PHOT 126 - History of Photography

3 unit(s)

Technical developments and aesthetic trends in photography traced from its invention in the nineteenth century to the present day. Slide presentations, discussions, field trips.

Prerequisite(s): ARTH 70B or instructor consent.

Grading: Letter Graded

Cross-listed with ARTH 126. Art and Art History is responsible for scheduling.

PHOT 129 - Professional Practices in Photography

3 unit(s)

Designed to prepare graduating photo majors for practicing their profession. Emphasis will be placed on building a comprehensive portfolio and business identity. Course is repeatable once for credit.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): PHOT 120, PHOT 121, plus two additional upper division photography courses.

Grading: Letter Graded

PHOT 180 - Individual Studies

1-3 unit(s)

Individual work under guidance in field of special interest.

Prerequisite(s): PHOT 110.

Grading: Credit/No Credit

PHOT 192 - International Program Studies

1-9 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

PHOT 197 - Senior Project Photography

3 unit(s)

Advanced course focused on creation or further development of photo-based project to be determined by the student and consisting of new work. Course emphasizes developing professional exit skills, a final body of finished work, and a professional portfolio.

7 hours activity.

Prerequisite(s): 15 units of upper division courses in PHOT.

Grading: Letter Graded

Physics

PHYS 1 - Elementary Physics

3 unit(s)

Mechanics, energy, electricity, magnetism, optics, atomic and nuclear physics, properties of matter; emphasizes practical applications of physics principles to contemporary problems.

Satisfies B1: Physical Science.

Prerequisite(s): The following Declared Majors are not allowed to enroll in this course: Engineering, Chemistry, Geology, Meteorology, Physics, Earth Science.

Grading: Letter Graded

PHYS 2A - Fundamentals of Physics

4 unit(s)

First semester of a two-semester sequence that is non-calculus based and covers the topics of mechanics, heat, and sound.

Lecture 1 hour/Lab 3 hours/Discussion 2 hours.

Satisfies B1: Physical Science + B3: Laboratory.

Prerequisite(s): Algebra. Department permission needed if this course is not required for student's major.

Grading: Letter Graded.

Note(s): Year course. Declared Physics majors not allowed.

PHYS 2B - Fundamentals of Physics

4 unit(s)

Electricity and magnetism, optics and atomic structure.

Misc/Lab: Lecture 3 hours/lab 3 hours.

Satisfies B1 + B3: Physical + Lab Science.

Prerequisite(s): PHYS 2A (with grade of "C-" or better).

Grading: Letter Graded

Note(s): Declared Physics majors not allowed.

PHYS 20 - Invitation to Physics and Astronomy

1 unit(s)

Introduction to the physics department, its faculty, and basic skills necessary for success as a physics major. Topics include relativity and quantum theory for beginners, careers in physics and astronomy, career pathways of BA/BS physics recipients, the role of research in undergraduate STEM education, a historical perspective on the field of physics, and physics/astronomy in the news.

Grading: Letter Graded

PHYS 23 - Animation Physics

3 unit(s)

This course presents principles and concepts of physics relevant to animation and special effects. Students will demonstrate mastery of this scientific knowledge in the critical analysis of films, shows, video games, etc., and in creating their own animated shorts.

Satisfies B1: Physical Science.

Grading: Letter Graded

PHYS 40 - Introduction to Computational Physics

3 unit(s)

An introduction to programming for physics majors who have no previous programming experience. Problem solving, data visualization and analysis using computational methods.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): PHYS 50.

Grading: Letter Graded

PHYS 49 - Introduction to Physics

3 unit(s)

A preparatory course in physics for science and engineering majors, emphasizing significant figures, unit conversions, vectors, quantitative reasoning. Introduction to Newton's Laws and conservation laws. The relevance of physics to science and engineering careers.

Prerequisite(s): MATH 19 or pre-calc placement test

Grading: Letter Graded

PHYS 50 - General Physics I: Mechanics

4 unit(s)

A calculus-based treatment of particle kinematics and dynamics, work, energy, momentum, rotational motion, equilibrium, and simple harmonic motion.

Lecture 3 hours/lab 3 hours.

Satisfies B1: Physical Science + B3: Laboratory.

Prerequisite(s): Writing Enrollment Category I / II / III or GE Area A2 completed (grade of C- or better) or ENGL 1AF (grade of CR); AND, 3 or better on AP Calculus Test, or C- or better in MATH 30/30X. Allowed declared majors: College of Science or Engineering.

Grading: Letter Graded

PHYS 50W - General Physics/Mechanics Workshop

1 unit(s)

A discussion course for students concurrently registered in PHYS 50 General Physics/Mechanics covering problem solving methods as related to topics normally covered in PHYS 50.

Course may be repeated for credit for up to 3 units.

Corequisite(s): PHYS 50

Grading: Credit/No Credit

PHYS 51 - General Physics II: Electricity and Magnetism

4 unit(s)

A calculus-based introduction to electricity and magnetism, covering electric charges, electric and magnetic fields, dc and ac circuits, and electromagnetic waves.

Lecture 3 hours/lab 3 hours.

Satisfies B1: Physical Science + B3: Laboratory.

Prerequisite(s): PHYS 50, MATH 31 or MATH 31X, both with grades of "C-" or better. Allowed declared majors: College of Science or Engineering majors only.

Grading: Letter Graded

PHYS 52 - General Physics III: Waves, Light, Heat

4 unit(s)

Mechanical waves, light, spectra, quantization of electromagnetic radiation; geometric and physical optics; temperature, heat, and thermodynamics.

Lecture 3 hours/lab 3 hours.

Satisfies B1: Physical Science + B3: Laboratory.

Prerequisite(s): PHYS 51 with grade of "C-" or better. Allowed declared majors: College of Science or Engineering majors only.

Grading: Letter Graded

PHYS 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

PHYS 100W - Methods of Research and Communication in Physics

3 unit(s)

Develop communication skills for physics, including proposals, posters, research reports and oral presentations. Research strategies and methodologies for effective communication to general and specialized audiences.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

PHYS 105A - Advanced Mechanics I

4 unit(s)

Dynamics of particles, Newtons laws, Lagranges and Hamiltons equations, conservation laws, symmetry and the laws of physics, oscillations, central-force motion, and non-inertial reference frames.

Prerequisite(s): PHYS 52, MATH 33A, each with grade of "C-" or better.

Grading: Letter Graded

Note(s): Year course.

PHYS 105B - Advanced Mechanics II

3 unit(s)

Dynamics of systems of particles: collisions, rigid body rotations, non-inertial frames, coupled oscillations, waves. This course is strongly recommended for students who are considering graduate study in physics.

Prerequisite(s): PHYS 105A with grade "C-" or better.

Grading: Letter Graded

PHYS 107 - Waves and Oscillations

3 unit(s)

Oscillatory phenomena and their connection to waves. Review of simple harmonic motion and extension to damped, driven, and coupled oscillators. Applications to waves on strings, and basic concepts of electromagnetic and sound waves. Connections to the beginnings of quantum theory are developed.

Prerequisite(s): PHYS 52 (or equivalent coverage of waves and oscillations) and PHYS 105A, both with C- or better.

Grading: Letter Graded

PHYS 110A - Electricity and Magnetism I

3 unit(s)

Theories of electrostatics, magnetostatics, electrodynamics and electromagnetic waves.

Prerequisite(s): PHYS 130, MATH 33A, each with "C-" or better.

Grading: Letter Graded

Note(s): Year course.

PHYS 110B - Electricity and Magnetism II

3 unit(s)

Theories of electrostatics, magnetostatics, electrodynamics and electromagnetic waves.

Prerequisite(s): PHYS 110A

Grading: Letter Graded

PHYS 120A - Electronics, Data Acquisition & Analysis

3 unit(s)

The characteristics of basic analog and digital electronic circuits used in a scientific laboratory. Topics include transistors, operational amplifiers, digital electronic circuits, and computer data acquisition.

Misc/Lab: Seminar 2 hours/lab 3 hours.

Prerequisite(s): PHYS 51 with "C" or better. Physics Majors Only, or instructor consent.

Grading: Letter Graded.

PHYS 120B - Advanced Scientific Measurements Laboratory

3 unit(s)

Modern experimental techniques in the context of modern and solid state physics. Examples include phase

sensitive detection, spectrum analysis, four-point-probe resistivity measurements, and related techniques.

Seminar 1 hour/Lab 6 hours.

Prerequisite(s): PHYS 122 and PHYS 120A both with C or better.

Grading: Letter Graded.

PHYS 120C - Advanced Physics Lab: Optics and Lasers

3 unit(s)

Design of optical systems involving lasers and other common optical components. Use of optical systems to explore interference, holography, and other optical phenomena.

Misc/Lab: Lecture 1 hour/lab 6 hours.

Prerequisite(s): PHYS 52, PHYS 120A and PHYS 158 all with grade of "C-" or better.

Grading: Letter Graded

PHYS 121S - Radiation Safety

1-2 unit(s)

Health hazards involved in working with radioactive substances. Physical nature of hazards, biological effects, standards of permissible exposures, safety precautions and protection techniques. Two units meet State of California recommendations.

Prerequisite(s): Lower division calculus, chemistry and physics.

Grading: Letter Graded

Cross-listed with CHEM 121S / NUCS 121S. Chemistry is responsible for scheduling.

PHYS 122 - Modern Physics

4 unit(s)

Survey of modern physics for science majors, covering special relativity, pre-quantum theory, basic quantum mechanics, atomic and molecular physics, solid state physics, nuclear and particle physics, and cosmology. Historical foundations of these topics will also be presented.

Prerequisite(s): CHEM 1A, MATH 32, and PHYS 52 all with a C- or better.

Grading: Letter Graded

PHYS 126 - Introduction to Nuclear Science

3 unit(s)

Properties of the atomic nucleus. Applications of nuclear science in biology, chemistry, engineering, geology and physics.

Prerequisite(s): Lower division calculus, chemistry and physics.

Grading: Letter Graded

Cross-listed with CHEM 126 / NUCS 126. Chemistry is responsible for scheduling.

PHYS 127 - Nuclear Science Lab

3 unit(s)

Basic techniques and procedures used in nuclear science. Nuclear decay, nuclear reactions, radiation detection and measurements, nuclear analytical methods and tracer techniques.

Misc/Lab: Lecture 1 hour/lab 6 hours.

Prerequisite(s): NUCS 121S, CHEM 100W and CHEM 126 (with grades of "C" or better; "C-" not accepted); or instructor consent.

Grading: ABC-/No Credit

Cross-listed with CHEM 127 / NUCS 127. Chemistry is responsible for scheduling.

PHYS 130 - Mathematical Methods in Physics

4 unit(s)

Mathematical methodologies commonly used in physics, including linear algebra, vector calculus, partial differential equations and complex variables, and their applications to classical mechanics, electricity and magnetism, and quantum mechanics.

Prerequisite(s): MATH 32 or MATH 32X, and PHYS 52.

Grading: Letter Graded

PHYS 140 - Computational Methods in Physics

3 unit(s)

An introduction to the programming of algorithms and numerical techniques pertinent to physical systems.

Misc/Lab: Seminar 2 hours/lab 3 hours.

Prerequisite(s): PHYS 40 or previous programming experience; PHYS 52 with a C- or better. Physics Majors only, or instructor consent.

Grading: Letter Graded.

PHYS 155 - Topics in Physics and Astronomy

3-9 unit(s)

Trending topics of physics and astronomy research and areas of special interest. Content varies by semester.

Course repeatable when topic changes for a total of 9 units.

Prerequisite(s): PHYS 52, and MATH 32 or MATH 32X, both with a C- or better. Or Instructor Consent.

Grading: Letter Graded

PHYS 158 - Modern Optics

3 unit(s)

Thin and thick lens systems. Double and multiple beam interference, holography, Fraunhofer and Fresnel diffraction, Fourier optics, spatial filtering, polarization and birefringence.

Prerequisite(s): PHYS 52 with a C- or better; MATH 32 or MATH 32X.

Grading: Letter Graded

PHYS 160 - Thermodynamics and Statistical Physics

3 unit(s)

The laws of thermodynamics and kinetic theory with introduction to statistical mechanics.

Prerequisite(s): CHEM 1A and PHYS 52 both with a C- or better; MATH 32 or MATH 32X.

Grading: Letter Graded

PHYS 161 - Fundamentals of Quantum Information

3 unit(s)

Introduction to fundamental topics in quantum information science (QIS). Course covers select concepts in quantum theory used in quantum technology including discrete quantum systems, measurements, quantum states, entanglement, and physical implementation of gate operations. Modern applications of QIS are discussed including quantum communication, quantum computing, and physical hardware for quantum bits.

Prerequisite(s): Graduate standing or PHYS 51 and one of the following: PHYS 130 or MATH 33LA or MATH 39. All with C- or better. Or instructor consent.

Grading: Letter Graded.

PHYS 163 - Quantum Mechanics

3 unit(s)

General principles of quantum theories. Wave functions, operator algebra and approximation methods. Applications to atomic structure and solid state physics.

Prerequisite(s): PHYS 122, MATH 33A, PHYS 130, all with a grade of "C-" or better.

Grading: Letter Graded

PHYS 168 - Lasers

3 unit(s)

Properties of lasers and Gaussian light beams. Principles of laser operation and design. Application of lasers.

Prerequisite(s): PHYS 122 and PHYS 158 with a C- or better.

Corequisite(s): PHYS 110B.

Grading: Letter Graded

PHYS 175A - Solid State Physics

3 unit(s)

A detailed treatment of the physics of solids using quantum mechanics, crystallography, electromagnetism, and metallurgy.

Prerequisite(s): PHYS 122 with grade of "C-" or better.

Grading: Letter Graded

PHYS 180 - Individual Studies

1-4 unit(s)

Advanced work in special fields.

Prerequisite(s): Instructor consent. Not available to Open University Students.

Grading: Credit/No Credit.

Note(s): Maximum 4 units of 180/184 may be applied toward graduation.

PHYS 184 - Directed Reading & Professional Development

1-3 unit(s)

Assigned readings of selected books, journals, resource guides, and special papers to fill gaps in training or for contact with new fields. Activities can include mentorship in development toward academic and career goals in physics and/or related fields. Weekly meetings.

Course may be repeated for credit for up to 4 units. See note.

Prerequisite(s): Not available to Open University Students.

Grading: Credit/No Credit.

Note(s): Maximum of 4 units of PHYS 180 / PHYS 184 may be applied toward graduation.

PHYS 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

PHYS 200W - Research and Communication in Physics

3 unit(s)

Learn and develop modern research and communication skills for physics and astronomy, including literature review, proposal writing, posters, research reports, theses, publications, resume/CV, and oral presentations. Research strategies and methodologies for effective communication to general and specialized audiences.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

PHYS 205 - Advanced Dynamics

3 unit(s)

Generalized methods and selected topics in classical mechanics.

Prerequisite(s): PHYS 105A, PHYS 130, and MATH 33A, or equivalents; or instructor consent.

Grading: Letter Graded

PHYS 208 - Introduction to Electro-Optics

3 unit(s)

This course introduces the physical principles of electro-optics including modulators (electro- and acousto-optic), non-linear optics, semiconductor lasers, optical detection and integrated optics with applications.

Prerequisite(s): PHYS 158

Grading: Letter Graded

PHYS 210 - Electromagnetic Theory

3 unit(s)

Advanced topics in electromagnetic theory; Maxwell's equations; solutions of Laplace's and Poisson's equations; Green functions; electromagnetic properties of materials; electromagnetic waves and wave propagation.

Prerequisite(s): PHYS 230.

Grading: Letter Graded

PHYS 220E - Graduate Optics Lab

3 unit(s)

Covers the application of Lasers and Optics with emphasis on topics such as Gaussian beams, Fabry-Perot cavities, Laser oscillators including CW and pulsed operation, non-linear optics, frequency stabilization and Fourier Optics. Communication of scientific content through written communication.

Lecture 2 hours/Lab 3 hours.

Satisfies GEAR: Graduation Writing Assessment Requirement.

Prerequisite(s): PHYS 120C or PHYS 208 or PHYS 258 or PHYS 268.

Grading: Letter Graded.

Note(s): This course satisfies graduate-level GEAR in this master's program.

PHYS 230 - Methods in Mathematical Physics

3 unit(s)

Partial differential equations and special functions: Bessel functions, Legendre polynomials, spherical harmonics; Green's functions; complex variables and contour integrations; matrices and eigenvalue problems; Fourier and Laplace transforms.

Prerequisite(s): MATH 33A and PHYS 130, or equivalents; or instructor consent.

Grading: Letter Graded

PHYS 240 - Computational Physics

3 unit(s)

Numerical techniques and computational methods applied to solving problems from various branches of physics.

Prerequisite(s): PHYS 40, PHYS 105A, and PHYS 163, or equivalents; or instructor consent.

Grading: Letter Graded

PHYS 250 - Quantum Programming

3 unit(s)

Introduction to quantum algorithms and programming a quantum computer. Includes a review of relevant quantum mechanical concepts, topics from linear algebra and complex numbers, spins and qubits, quantum gates and circuits, entanglement, quantum algorithms, such as Deutsch-Jozsa, Grover, quantum Fourier transforms.

Prerequisite(s): Graduate standing, or PHYS 163 and instructor approval.

Grading: Letter graded.

PHYS 253 - Quantum Many-Body Physics

3 unit(s)

From the perspective of quantum information science, the course builds functional understanding of phase transitions and quantum simulations via systems of interacting spins. Systems of non-interacting Bosons and Fermions will be examined, followed by an examination of interacting particles via the Hubbard model and some coverage of numerical solutions for small systems.

Prerequisite(s): Graduate standing and PHYS 161, or equivalent with approval of program advisor.

Grading: Letter graded.

PHYS 255 - Advanced Topics in Physics

3 unit(s)

Selected topics in physics. Topics vary each semester.

Course may be repeated for credit when topic changes.

Prerequisite(s): Suitable upper division background in physics and mathematics.

Grading: Letter Graded.

PHYS 255C - Celestial Mechanics

3 unit(s)

Basic concepts in celestial mechanics emphasizing orbital mechanics and the calculation of orbital perturbation. Topics covered include dynamical principles, potential theory, planetary equations, the disturbing function, Lagrange's perturbation equations and geopotential perturbations.

Prerequisite(s): Senior or graduate standing.

Grading: Letter Graded

PHYS 257 - General Relativity

3 unit(s)

General Relativity is the foundation for modern understanding of space and time. Coverage includes review of Special Relativity followed by the development of the mathematical tools of tensor calculus and Riemannian geometry and derivation of Einstein's field equations from the postulates of General Relativity. Topics covered include the energy-momentum tensor, geodesics, and curvature tensors, as well as applications of the theory to Black Holes, gravitational waves, and cosmology.

Prerequisite(s): PHYS 130 and PHYS 110B, or equivalent. Upper division standing or graduate standing.

Grading: Letter Graded

PHYS 258 - Optics

3 unit(s)

Fourier optics, diffraction theory, imaging and image enhancement, holography and information processing.

Prerequisite(s): PHYS 158 and MATH 33A.

Grading: Letter Graded

PHYS 260 - Statistical Mechanics

3 unit(s)

Classical and quantum statistics with applications to properties of matter. Principles of thermodynamics.

Prerequisite(s): PHYS 160 and PHYS 163.

Grading: Letter Graded

PHYS 263A - Quantum Theory

3 unit(s)

Postulates of quantum theory. The Schroedinger equation and its solution for simple physical systems. Heisenberg's matrix formulation of quantum mechanics. Approximation methods: Time dependent and time independent perturbation theory. Variational method.

Prerequisite(s): PHYS 163, PHYS 230.

Grading: Letter Graded

PHYS 268 - Laser Spectroscopy

3 unit(s)

Importance of spectroscopy. Interaction of radiation with matter. Instrumentation for laser spectroscopy. Examples of various techniques, cw and pulsed.

Prerequisite(s): PHYS 110B, PHYS 158 or instructor consent.

Grading: Letter Graded

Cross-listed with CHEM 268. Physics and Astronomy is responsible for scheduling.

PHYS 275 - Solid State Physics

3 unit(s)

Properties of crystals; electric, magnetic and thermal properties of solids.

Prerequisite(s): PHYS 263A or instructor consent.

Grading: Letter Graded

PHYS 285 - Seminar

1 unit(s)

Meetings for the presentation and discussion of advanced studies in special fields including work by the faculty, guest investigators and graduate students. Topics will vary each semester.

Grading: Credit/No Credit.

PHYS 297 - Directed Research

1-5 unit(s)

Advanced work in special fields. Only open to currently enrolled graduate students.

Course may be repeated for credit for up to 5 units.

Grading: Mandatory Credit/No Credit/RP

Note(s): Not available to Open University students.

PHYS 298 - Graduate Research Report

1-4 unit(s)

Graduate Research Report.

Repeatable for credit.

Prerequisite(s): PHYS 297 and Instructor consent. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

PHYS 299 - Master's Thesis

1-4 unit(s)

Prerequisite(s): Advancement to candidacy for the master's degree. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

PHYS 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in Chem 299, Master's Thesis
Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Political Science

POLS 1 - American Government

3 unit(s)

Institutions and processes of American government and democracy; the U.S. Constitution and California state and local government.

Satisfies American Institutions US2: US Constitution + US3: California Government.

Grading: Letter Graded

Note(s): Satisfies American Institutions requirements in American and California government.

POLS 2 - Introduction to Comparative Politics

3 unit(s)

Comparative analysis of different kinds of political systems; their political institutions, processes and policies; the environments in which they occur and their consequences.

Satisfies D: Social Sciences.

Grading: Letter Graded.

POLS 3 - Introduction to Political Thought

3 unit(s)

Thinking critically about the classic problems of politics; learning how to interpret, discuss and write about historical and contemporary political thought.

Satisfies C2: Humanities.

Grading: Letter Graded

POLS 4 - Introduction to International Relations

3 unit(s)

Introductory survey of major topics in international relations, including global, national and individual causes of war and peace, international cooperation, north-south relations and political economy.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Sustainability Related - SDG 17: Partnerships for the Goals

POLS 15 - Essentials of U.S. & California Government

3 unit(s)

Treatment of essentials of U.S. and California government. Satisfies the American Institutions (US23) and the GE Area D: Social Sciences requirements.

Satisfies D + US23: Social Sciences and US Constitution and California Government.

Grading: Letter Graded.

POLS 16 - Power and Ideas in American Politics

3 unit(s)

Study of power, institutions, and creative ideas in American political thought. Engages work of intellect and imagination in political documents, essays, speeches, letters, short works of fiction, poems, and manifestos.

Satisfies C2: Humanities + US2: US Constitution + US3: California Government.

Grading: Letter Graded

POLS 20 - Controversial Legal Issues

3 unit(s)

Basic concepts in critical thinking as demonstrated in legal reasoning and analysis of contemporary legal issues possibly including abortion, drug testing, offensive speech, affirmative action, gender and sexual preference discrimination, school prayer and pornography.

Satisfies A3: Critical Thinking and Writing.

Prerequisite(s): Completion of GE Area A2 with a grade of C- or better.

Grading: Letter Graded

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

POLS 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

POLS 100M - Political Inquiry

4 unit(s)

Introduction to the scope and methods of political science. Beginning with research design, measurement, and ethical considerations, and including a variety of research methods including surveys, experiments,

interviews, fieldwork, content analysis, and an introduction to quantitative and qualitative analysis.

Grading: Letter Graded

Note(s): Should be taken junior year.

POLS 100W - Writing Workshop

3 unit(s)

Writing skills for majors in political science. Basic materials; research; memos and research reports, press releases, analyses of political/electoral behavior, political speeches.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

POLS 101 - American Government for Teachers

3 unit(s)

Introduction to the institutions and processes of American and California governments with emphasis on meeting CCTC Teacher Preparation Standards. Topics include U.S. Constitution, federalism, political participation, civil rights and liberties, Congress, the presidency.

Grading: Letter Graded

POLS 102 - State Government and Politics

4 unit(s)

This course examines the politics and institutions of U.S. state governments. The structure and powers of state legislatures, governors, and court systems are analyzed. The effect of states' racial, ideological, and economic characteristics on public policy is also explored.

Satisfies American Institutions US3: California Government.

Grading: Letter Graded

Note(s): Satisfies American Institutions requirement in California government.

POLS 103 - Local Government and Politics

4 unit(s)

Offers a theoretical and practical study of local politics and government. The structure, role, and functions of city and county governments are examined. Students gain knowledge of the resources and skills required for effective citizenship in their communities.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with URBP 103. Political Science is responsible for scheduling.

POLS 105 - Congress

4 unit(s)

Examines politics and policymaking in the U.S. Congress. Topics include party leadership, interest groups in Congress, congressional committees, political representation, redistricting and congressional elections, party polarization, and the process of how a bill becomes law.

Grading: Letter Graded

POLS 106 - The United States Presidency

4 unit(s)

Examination of the American presidency. Topics include the historical emergence of the presidency as an institution, the formal and informal powers of the modern presidency, and the tension between the presidency and other federal institutions, most notably Congress.

Grading: Letter Graded

POLS 108 - Political Participation

4 unit(s)

Explores various forms of political participation including voting, community engagement, and social change. Includes consideration of the roles that socialization, media, campaign and elections, and other social and technological factors play in shaping citizen participation.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

POLS 109 - Women and Politics

4 unit(s)

Examines social movement strategies and theories of gender and power employed by differently situated women. Includes critical examination of the relationship between sex and gender, and intersections of race, class, gender, law and nation.

Grading: Letter Graded

Sustainability Focused - SDG 5: Gender Equality

POLS 110 - Race and Politics

4 unit(s)

Examines race and politics in America by focusing on political participation and social movement strategies among minoritized groups. Explores theories of equality, diversity, and justice, and the changing legal relationship between states and citizens.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

POLS 111 - Political Movements

4 unit(s)

Strategies and tactics of past and current US political movements. Local, state, and national government policy making processes and how they are influenced and shaped by organizing campaigns. Students plan, organize, and implement their own campaigns.

Grading: Letter Graded.

POLS 114 - Introduction to Public Administration

3 unit(s)

A broad overview of the theory and practice of public policy analysis and management in the modern context. Topics include aspects of organizational theory, leadership, budgeting, finance, personnel management, problem formulation, analysis and decision making in a political environment.

Grading: Letter Graded

POLS 120 - Law and Society

3 unit(s)

Social and philosophical foundations of law and legal systems and development of legal institutions in various cultures. Anglo-American law and administration of justice in the U.S. emphasized.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

POLS 121A - Constitutional Law: Institutional Powers

4 unit(s)

Examines the U.S. Supreme Court, its processes, and the role it plays in the American governing system. Examination of judicial policy making through cases on judicial review, separations of powers, federalism, commerce, and tax and treaty powers.

Grading: Letter Graded

POLS 121B - Constitutional Law: Civil Liberties

4 unit(s)

Explores the constitutional basis for civil liberties in America. Application of methods of constitutional analysis to cases involving freedom of speech, religion, and the press. Examination of personal privacy rights including abortion, gun rights, and criminal procedures.

Grading: Letter Graded

POLS 121C - Constitutional Law: Civil Rights

4 unit(s)

Explores the constitutional basis for civil rights in America. Application of methods of constitutional analysis to cases involving discrimination, equal protection, and due process. Examination of leading cases related to voting rights, affirmative action, criminal justice, and other issues

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

POLS 122 - Judicial Politics

4 unit(s)

Examines the effects of political forces on judicial behavior. Includes consideration of the roles of interest groups, public opinion, methods of selecting judges, and the importance of judges' personal political beliefs, on judicial decisions.

Grading: Letter Graded

POLS 124 - Introduction to Environmental Law

3 unit(s)

Development, interpretation, application and enforcement of environmental laws, regulations and legal policies by legislatures, courts, administrative agencies and citizens. Examination of air and water quality, hazardous materials, workplace, land use and wetlands regulation, international, ethical and efficacy issues.

Prerequisite(s): ENVS 1 or Instructor Consent.

Grading: Letter Graded

Cross-listed with ENVS 124. Environmental Studies is responsible for scheduling.

POLS 130 - American Public Policy

4 unit(s)

Introduces students to the public policy making process in the American governing system. The politics of agenda setting, policy formulation, and policy implementation are examined. Students learn to analyze and evaluate public policy outcomes.

Grading: Letter Graded

POLS 135 - U.S. Environmental Policy

3 unit(s)

Inquiry focuses on environmental pollution, public attitudes toward environmental problems, interest groups involved in formulation of policy, and the role of government policy makers in shaping the environmental agenda.

Grading: Letter Graded

Cross-listed with ENVS 135. Political Science is responsible for scheduling.

POLS 141 - Politics of Post-Communist Countries

4 unit(s)

Political development and change in countries that have transitioned from communist or socialist systems such as Russia, Eastern Europe, Central Asia, and the Caucasus; internal politics of these countries and relations with other countries.

Grading: Letter Graded

POLS 142 - African Politics

4 unit(s)

Basic concepts, theoretical perspectives, and information to understand the evolution of contemporary African states. Begins with a study of colonialism, and proceeds to nationalism, personalistic and military rule, development, democratization, and inter-state and civil war.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with AFRS 142. Political Science is responsible for scheduling.

POLS 144 - Middle Eastern Politics

4 unit(s)

Study of unfolding events in the Middle East. Themes include: the failure of democratic movements, nuclear proliferation and terrorism, US foreign policy towards the region, the Israel-Palestine conflict, urbanization, gender and human rights.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with JWSS 144 / MDES 144. Political Science is responsible for scheduling.

POLS 145 - Asian Politics

4 unit(s)

Study of unfolding events in Asia. Themes include: the Asian economic 'miracle,' the implications of China's rise for international security, nuclear proliferation and terrorism, and sustainability; specifically, energy, environment and human rights.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with ASIA 145. Political Science is responsible for scheduling.

Sustainability Related - SDG 17: Partnerships for the Goals

POLS 146 - Latin American Politics

4 unit(s)

Survey of the political systems of Latin American countries. Places Latin American countries in a global perspective. Major themes include: civil-military relations, democratization, economic development, social

movements, and foreign relations both within and outside Latin America.

Grading: Letter Graded

POLS 147 - Globalization

4 unit(s)

Considers the impact of economic and political globalization, focusing primarily on nations in Latin America, Asia and Africa. Issues include the effects of multinational production, migration, aid, international institutions and humanitarian intervention.

Grading: Letter Graded

Sustainability Focused - SDG 17: Partnerships for the Goals

POLS 148 - Nationalism and Comparative Political Cultures

4 unit(s)

Comparative analysis of the origin, nature, and impact of nationalism on the politics of Western and non-Western states. Students examine cases where nationalism resulted in conflict, and those in which it supports a stable nation-state. Completion of POLS 2, POLS 3 and POLS 4 highly recommended before enrolling.

Grading: Letter Graded

POLS 150 - War and Peace

3 unit(s)

Fundamental human questions about causes of war, definitions of peace and approaches toward achieving peace from perspectives of historical and contemporary thinkers, including philosophers, political leaders, military strategists and diplomats.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): Not counted as a core course in the international relations subfield.

POLS 152A - International Organizations and NGOs

4 unit(s)

Examines the structures and functions of different types of international organizations (such as the UN, NATO, regional organizations, and non-governmental organizations), and their role in maintaining international peace and security, promoting human rights and economic development, and protecting the environment.

Grading: Letter Graded

Sustainability Related - SDG 17: Partnerships for the Goals

POLS 152B - Model United Nations

4 unit(s)

Structure and operations of the United Nations explored and analyzed through participation in annual U.N. simulation.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): POLS 152A

Grading: Credit/No Credit

POLS 153 - European Union

4 unit(s)

Surveys and analyzes the historical evolution, the institutions, as well as the process of policy making in the European Union. Examines key policy areas: agricultural, social, economic, environmental, and foreign policy.

Grading: Letter Graded

Sustainability Related - SDG 17: Partnerships for the Goals

POLS 154 - U.S. Foreign Policy: Formulation and Administration

4 unit(s)

Consideration of the factors that shape American foreign policy making, including ideology, organization, as well as partisanship, interest groups, and public opinion. Issues considered include relations with the Middle East and Russia, and economic diplomacy.

Grading: Letter Graded

POLS 155 - The Wealth of Nations

4 unit(s)

This course examines how states, international and multinational bodies, and global social movements shape trade, financial, and labor relations. Topics include: international trade and protectionism, the International Monetary Fund and the World Bank, regional integration, and transnational corporations.

Grading: Letter Graded

POLS 157 - International Security

4 unit(s)

Examines theories of international security, debates over sources, conduct and termination of conflict, including but not limited to inter-state war; security decision-making; military and economic strategy; crisis management; regional security; intelligence; new and complex security issues along the war-peace continuum.

Grading: Letter Graded

POLS 160A - Classical Political Thought

3 unit(s)

Critical examination of the foundations of Western political thought and the continuing influence of these foundations; sources chosen from among a variety of pre-Renaissance traditions and include writers such as Plato, Aristotle, Augustine and Aquinas.

Grading: Letter Graded

POLS 160B - Modern Political Thought

3 unit(s)

The basis of the modern state and society as interpreted by political thought between (and including) the Renaissance and the French Revolution; this key period includes writers such as Machiavelli, Hobbes, Locke and Rousseau.

Grading: Letter Graded

POLS 160C - Recent Political Thought

3 unit(s)

The roots of today's politics in the ideas and writers of the nineteenth and twentieth centuries; sources drawn from a variety of recent traditions such as democratic theory, Marxism, political psychology and political sociology.

Grading: Letter Graded

POLS 163 - American Political Thought

3 unit(s)

Critical examination of the origins and development of American politics as seen through theorists, concepts and forces which have shaped American political consciousness.

Grading: Letter Graded

POLS 170V - American Politics in Global Perspective

3 unit(s)

A survey of U.S. and California political institutions and culture in comparison with political institutions and cultures outside the U.S., as well as American Institutions Requirement: US2 and US3.

Satisfies SJSU Studies V + US23: Cultures and Global Understanding. + US Constitution and California Government.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

POLS 177 - Political Psychology

4 unit(s)

Introduction to the interdisciplinary field of political psychology, with a focus on topics including personality and leadership, political cognition, social identity, emotions and attitudes, voting and political behavior, racism and ethnocentrism, ethnic conflict and genocide, nationalism, terrorism, and conflict resolution.

Prerequisite(s): POLS 1 (or other US2-3), PSYC 1, or instructor consent

Grading: Letter Graded

Cross-listed with PSYC 177. Political Science is responsible for scheduling.

Sustainability Related - SDG 10: Reduced Inequalities

POLS 180 - Individual Studies

1-4 unit(s)

Individual study for advanced work in areas where no courses are offered.

Prerequisite(s): Appropriate courses, instructor consent and department chair consent.

Grading: Credit/No Credit

POLS 181 - Internships

4 unit(s)

Offers students the opportunity to connect knowledge of politics, government, and policy making learned in the classroom to real life application through internships with elected officials, non-profit organizations, government agencies, or political campaigns.

Prerequisite(s): POLS 100W and instructor consent.

Grading: Credit/No Credit

POLS 181C - Internship Capstone

4 unit(s)

Application of knowledge of politics, government, and policy making through internships with elected officials, non-profit organizations, government agencies, or political campaigns. Students complete a major capstone paper.

Prerequisite(s): POLS 100W and POLS 100M, and instructor consent. A minimum grade of C- is required to fulfill the BA Political Science capstone requirement.

Grading: Letter Graded

POLS 184 - Directed Reading

1-4 unit(s)

Program of reading and writing created through student/faculty consultation in areas not covered by other courses. Course is not repeatable for credit.

Prerequisite(s): Appropriate courses, instructor consent and department chair consent.

Grading: Letter Graded

POLS 190 - Senior Seminar

4 unit(s)

Culminating experience for the political science major. Seminar class with significant participation required. Specific course topics vary each semester.

Repeatable for credit.

Prerequisite(s): POLS 100W and POLS 100M, or instructor consent. A minimum grade of C- is required to fulfill the BA Political Science capstone requirement.

Grading: Letter Graded

POLS 190H - Honors Thesis

1 unit(s)

Preparation and writing of an original project.

Prerequisite(s): Senior standing. 3.2 overall GPA and 3.5 GPA in the major and instructor consent.

Corequisite(s): POLS 190.

Grading: Letter Graded

POLS 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

POLS 199 - Current Political Issues

1-3 unit(s)

Major political issues of the day. Topics vary each semester. Course is repeatable for credit with instructor consent.

Grading: Letter Graded

POLS 292 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Portuguese

PORT 1A - Elementary Portuguese I

4 unit(s)

Basic skills and structure of the language in the context of culture.

Satisfies C2: Humanities.

Grading: Letter Graded

PORT 1B - Elementary Portuguese II

4 unit(s)

Basic skills and structure of the language in the context of culture.

Satisfies C2: Humanities.

Prerequisite(s): PORT 1A (or equivalent).

Grading: Letter Graded

PORT 20A - Intermediate Portuguese

3 unit(s)

Reading, sentence structure and idiomatic usage in conversation and simple essays.

Prerequisite(s): 2 semesters of college Portuguese (or equivalent or SJSU placement exam).

Grading: Letter Graded

PORT 20B - Intermediate Portuguese

3 unit(s)

A continuation of PORT 20A.

Prerequisite(s): 3 semesters of college Portuguese (or equivalent).

Grading: Letter Graded

PORT 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

PORT 101A - Advanced Portuguese

3 *unit(s)*

Reading, discussion, morphology, syntax and composition.

Prerequisite(s): Four semesters of college Portuguese (or equivalent).

Grading: Letter Graded

PORT 101B - Advanced Portuguese

3 *unit(s)*

Reading, discussion, morphology, syntax and composition.

Prerequisite(s): Four semesters of college Portuguese (or equivalent).

Grading: Letter Graded

PORT 102A - Intro to Portuguese-Speaking Cultures

3 *unit(s)*

Introduction to the culture and civilization of the Portuguese-speaking world, including geography, history, customs, and literature of the different countries. Taught in English.

May be repeated for credit for up to 9 units when content changes.

Prerequisite(s): Four semesters of college Portuguese (or equivalent).

Grading: Letter Graded

PORT 102B - Brazilian Culture

3 *unit(s)*

History, geography, fine art and daily life in Brazil.

Prerequisite(s): Upper division standing

Grading: Letter Graded

PORT 180 - Individual Studies in Portuguese

1-3 *unit(s)*

By arrangement.

Prerequisite(s): Upper division standing in Portuguese (or equivalent) and instructor consent.

Grading: Credit/No Credit

PORT 192 - International Program Studies

1-6 *unit(s)*

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Psychology

PSYC 1 - Introduction to Psychology

3 unit(s)

Psychology is the scientific study of behavior and mental processes. The content focuses on the exploration of major psychological theories and concepts, methods, and research findings in psychology. Topics include the biological bases of behavior, perception, cognition and consciousness, learning, memory, emotion, motivation, development, personality, social psychology, psychological disorders and therapeutic approaches to treatment, and applied psychology.

Satisfies D: Social Sciences.

Grading: Letter Graded.

PSYC 2Q - Identity Development and Prejudice

3 unit(s)

This seminar is designed to facilitate the transition to the university smoothly with a view to an increased understanding of one's cultural identity; and exploring mechanisms and consequences of prejudice and discrimination in American cultural groups.

Satisfies E: Human Understanding & Development.

Prerequisite(s): First term freshmen only.

Grading: Letter Graded

Note(s): All courses with a 'Q' suffix are designated as First Year Experience courses.

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

PSYC 18 - Introduction to Research Methods

3 unit(s)

Psychological research methods and design (experimental, quasi-experimental [correlational], and descriptive investigations) covering observation, instrumentation, and the collection, analysis, interpretation, and reporting of research data as illustrated through a review of original research in a variety of the subdisciplines of psychology.

Prerequisite(s): PSYC 1, and STAT 95.

Grading: Letter Graded

PSYC 30 - Introductory Psychobiology

3 unit(s)

Biological approaches to understanding behavior: evolutionary, genetic, neural and hormonal influences on normal and abnormal behavior.

Prerequisite(s): BIOL 21 or BIOL 65.

Grading: Letter Graded

PSYC 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

PSYC 100W - Writing Workshop

3 unit(s)

Practice in improvement of writing skills appropriate to the broad field of psychology, including essays, reports and scholarly communication.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): PSYC 1; STAT 95 or senior standing; A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Allowed Declared Majors: Psychology Majors/Minors and Behavioral Science Majors only. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

PSYC 102 - Psychology of Childhood

3 unit(s)

Psychological development of children from conception to middle childhood emphasizing normative (typical) development in the context of cognitive, socioemotional, biological, and cultural processes.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 105 - Special Topics in Developmental Psychology

3 unit(s)

Intensive examination of current research and theory in a specialized area of developmental psychology. Course is repeatable for credit when course content changes.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): PSYC 102 or PSYC 112 or PSYC 114 or equivalent

Grading: Letter Graded

PSYC 107 - Psychology of Women

3 unit(s)

Sex-role development of women in terms of bio-social factors involved in intellectual and personal-emotional functions. Psychological theory and research.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

Cross-listed with WGSS 107. Psychology is responsible for scheduling.

PSYC 110 - Adult Psychopathology

3 unit(s)

Nature, causes, assessment, and treatment of behavioral, emotional, and personality problems of adults. Emphasis on psychological, social, and biological determinants of human behavioral and psychological disturbance.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 112 - Psychology of Adolescence

3 unit(s)

Psychological development of adolescents' and young (emerging) adults emphasizing normative (typical) development in the context of cognitive, socioemotional, biological, and cultural processes.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 114 - Psychology of Aging

3 unit(s)

Psychological development of middle-aged and older adults emphasizing normative (typical) development in the context of cognitive, socioemotional, biological, and cultural processes. Course content also includes age-related health problems and their prevention.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

Cross-listed with GERO 114. Psychology is responsible for scheduling.

PSYC 117 - Psychological Tests and Measures

3 unit(s)

Test and questionnaire construction, evaluation and interpretation applied to intelligence and ability tests, personality and adjustment questionnaires, ratings and behavioral observation techniques.

Prerequisite(s): STAT 95.

Grading: Letter Graded

PSYC 118 - Advanced Research Methods in Psychology

3 unit(s)

Descriptive, correlational, quasi-experimental, and experimental approaches: design, methodology, and analysis. Experience designing, conducting, analyzing, and presenting (verbal and written) research findings. Topics include: hypothesis testing, validity, reliability, scales of measurement, questionnaire development, power, statistical significance, and effect size.

Prerequisite(s): Lower division GE complete; STAT 95, PSYC 18, PSYC 100W with a "C" or better (or departmental approval), Upper division standing, Psychology or Behavioral Science majors only.

Grading: Letter Graded

PSYC 120 - Advanced Research Methods and Design

4 unit(s)

Descriptive, correlational, quasi-experimental, and experimental approaches: design, methodology, and analysis. Experience designing, conducting, analyzing, and presenting (verbal and written) research findings. Topics will include: hypothesis testing, validity, reliability, scales of measurement, questionnaire development, power, statistical significance, and effect size.

Misc/Lab: Lecture 3 hours/activity 2 hours.

Prerequisite(s): lower division GE complete; STAT 95; PSYC 100W with 'C' or better (or department approval); Upper Division; Psychology or Behavioral Science Major

Grading: Letter Graded

PSYC 121A - Advanced Research Methods Social/Personality Laboratory

2 unit(s)

Advanced treatment of research approaches used in social and personality psychology. The course focus is shared between traditional laboratory and fieldwork experimental designs and methods. Data collection and statistical data analysis facilitate experiential learning.

Lecture 1 hour/lab 3 hours.

Prerequisite(s): PSYC 100W, and PSYC 118 or PSYC 120, and PSYC 139 or PSYC 154. Upper division standing. Psychology majors only.

Grading: Letter Graded

Note(s): Instructor consent may allow PSYC 121A and PSYC 120 concurrently on a space-available basis.

PSYC 121B - Advanced Research Methods: Cognition/Perception

2 unit(s)

Advanced treatment of research approaches used in cognition and/or perception through traditional laboratory experimental designs and methods. Laboratory-based data collection and analysis facilitate experiential learning.

Lecture 1 hour/lab 3 hours.

Prerequisite(s): PSYC 100W; and either PSYC 135, PSYC 155, or PSYC 158; and either PSYC 118 or PSYC 120.

Grading: Letter Graded

Note(s): Instructor consent may allow PSYC 121B and PSYC 120 concurrently on a space-available basis.

PSYC 121C - Advanced Research Methods: Clinical Laboratory

2 unit(s)

Advanced research methods used in clinical research. The primary focus is on traditional field and laboratory research methodologies. Data collection and statistical data analysis facilitate experiential learning.

Prerequisite(s): PSYC 100W, and PSYC 118 or PSYC 120, and PSYC 110 or PSYC 142.

Grading: Letter Graded

Note(s): Note(s): Instructor consent may allow PSYC 121C and PSYC 120 concurrently on a space-available basis.

PSYC 121E - Advanced Research Methods: Psychophysiology Lab

2 unit(s)

Intensive experiential introduction to applied laboratory work in human psychophysiology and hormonal influences on human behavior. Focus on experimental methodology.

Prerequisite(s): PSYC 100W and PSYC 118 or PSYC 120 and PSYC 129

Grading: Letter Graded

PSYC 126 - Drugs, Brain and Behavior

3 unit(s)

Survey of psychoactive drugs, including prescription and street drugs; social, behavioral and physiological effects of drugs; neural mechanisms of drug action; history of drug use.

Prerequisite(s): PSYC 30 or 3 units of biology.

Grading: Letter Graded

Cross-listed with PH 126. Psychology is responsible for scheduling.

PSYC 129 - Neuroscience

3 unit(s)

Principles of brain organization and function underlying behavior. Topics include neuroanatomy and physiology of language, vision, sexual behavior, memory and abnormal behavior.

Prerequisite(s): Either PSYC 30 and 3 units of biology, or 9 units of biology.

Grading: Letter Graded

Note(s): Not acceptable as an elective in the Biology major.

Cross-listed with BIOL 129. Psychology is responsible for scheduling.

PSYC 135 - Cognition

3 unit(s)

The activity of knowing: acquisition, organization and use of knowledge. Processes involved in that activity, including perception, memory, thinking and language.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 136 - Cognitive Science

3 unit(s)

Focuses on the study of the mind and the nature of intelligence from interdisciplinary perspectives including psychology, computer science, philosophy, linguistics, mathematics, and neuroscience. Topics typically include the history of computer-based approaches to artificial intelligence and expertise, human cognition, neuroscience, language acquisition, and computational approaches to modeling cognitive processes.

Prerequisite(s): PSYC 1 and PSYC 135.

Grading: Letter Graded

PSYC 139 - Psychology of Personality

3 unit(s)

Current approaches to the study of personality and personality processes.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 142 - Child Psychopathology

3 unit(s)

Nature, causes, assessment, and treatment of behavioral, cognitive, and emotional problems of children and adolescents. Emphasis on psychological, social, and biological determinants of human behavioral and psychological disturbance.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 145 - Community Mental Health

3 unit(s)

Comprehensive analysis of community mental health using a socio-ecological framework. Intersection of race, socioeconomic status, gender, sexual orientation, and mental health is examined. Emphasis is on prevention and recovery.

Prerequisite(s): Any 100W or instructor consent.

Grading: Letter Graded

Cross-listed with PH 145 / SOCI 145. Public Health and Recreation is responsible for scheduling.

PSYC 150 - Educational Psychology

3 unit(s)

Development of individuals and how they learn. Intelligence, emotions, interests, social relations as related to development and learning.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

Note(s): No credit for those who have taken EDSC 173.

PSYC 153 - Psychology in the Courtroom

3 unit(s)

Role of psychology in the legal system: legal procedure and adversary system, jury selection, jury decision-making, eyewitness testimony, mental health law, criminal responsibility and legal insanity, expert psychological testimony, role of forensic psychologists.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 154 - Social Psychology

3 unit(s)

Theories, problems and issues in the study of human social behavior.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 155 - Human Learning

3 unit(s)

Memory, forgetting, concept formation, language learning, reinforcement and related topics. Traditional learning concepts, theories and findings with reference to contemporary classroom management, behavior modification and other applications.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 156 - Applied Behavior Analysis

3-6 unit(s)

Survey of applications of behavioral principles to problems of clinical and social importance. Topics include data-based decision making, approaches to promoting skill acquisition, and strategies for assessing and reducing problem behavior.

Course may be repeated for credit for up to 6 units.

Grading: Letter Graded

PSYC 158 - Perception

3 unit(s)

Empirical and theoretical approaches to the psychology of perception with an emphasis on vision. Topics include the perception of form, color, depth and motion as well as the effects of attention and experience.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 160 - Clinical Psychology

3 unit(s)

Survey of clinical psychology as a profession. Emphasis placed on training models, specializations within the field, the scientific study of psychological interventions, and the graduate school admissions process for masters and doctoral level psychotherapists.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 165 - Theory and Methods of Counseling

3 unit(s)

A survey of theories focused on helping and behavior change. Course covers both historical and contemporary psychotherapeutic interventions found in clinical and counseling psychology and evidence based practice approaches in psychotherapy.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 167 - Sports Psychology

3 unit(s)

Psychological aspects of sports, including the value of sports, psychological factors involved in competitive as well as non-competitive athletic activities and the role of sports psychologists.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

Cross-listed with KIN 167. Kinesiology is responsible for scheduling.

PSYC 170 - Industrial and Organizational Psychology

3 unit(s)

Application of psychological theory, research and methodology to the work environment. Topics covered include leadership, power, group processes, motivation, satisfaction and issues in personnel psychology.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 173 - Human Factors

3 unit(s)

Human psychology and physiological characteristics and methods for taking these into account in designs

and development of human-machine systems. Current human factor engineering efforts in lab, design process and operational environment.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 175 - Management Psychology

3 unit(s)

Theory and practice of psychology in organizations and management. Topics include learning, motivation, perception, attitudes, personality, stress, groups, culture, careers, communication, leadership, politics, conflict, cooperation, decision-making and organizational change.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 177 - Political Psychology

4 unit(s)

Introduction to the interdisciplinary field of political psychology, with a focus on topics including personality and leadership, political cognition, social identity, emotions and attitudes, voting and political behavior, racism and ethnocentrism, ethnic conflict and genocide, nationalism, terrorism, and conflict resolution.

Prerequisite(s): POLS 1 (or other US2-3), PSYC 1, or instructor consent.

Grading: Letter Graded

Cross-listed with POLS 177. Political Science is responsible for scheduling.

Sustainability Related - SDG 10: Reduced Inequalities

PSYC 180 - Individual Studies

1-4 unit(s)

Research project in psychology.

Prerequisite(s): 12 units of psychology and instructor and department chair consent.

Grading: Credit/No Credit

PSYC 184 - Directed Reading

1-4 unit(s)

Directed reading on a specific psychological topic.

Prerequisite(s): 12 units of psychology and instructor and department chair consent.

Grading: Credit/No Credit

PSYC 186 - Psychology Field Work

1-4 unit(s)

Supervised field work in a selected area of psychology. Course is repeatable for 4 unit maximum.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Instructor and department chair consent.
Grading: Credit/No Credit

PSYC 190 - Current Issues Capstone

3 unit(s)

Integrative survey of current issues in psychology, how they developed and likely future directions. Completion of the research methods requirement prior to enrollment in this course is recommended.

Prerequisite(s): PSYC 100W and senior standing.
Pre/Corequisite(s): PSYC 118 or PSYC 120
Grading: Letter Graded

PSYC 191 - The Psychology of Prejudice

3 unit(s)

Provides an examination of psychological theory and research related to prejudice and discrimination from the perspectives of both the holders and targets of prejudice. Includes individual and small group exercises to provide experiential learning.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Grading: Letter Graded

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

PSYC 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

PSYC 193 - Behavioral Science in Practice

3 unit(s)

Capstone workshop for behavioral science majors. Students assess methods and knowledge of anthropology, psychology and sociology, and synthesize them by reflecting upon case studies of individual, organizational, community, and global issues. Emphasis is on cooperative learning, reflection and synthesis of skills and knowledge.

Prerequisite(s): Senior standing. Allowed Declared Major: Behavioral Science or Behavioral Science double major.

Grading: Letter Graded

Cross-listed with ANTH 193 / SOCI 193. Anthropology is responsible for scheduling.
Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

PSYC 194 - Cultural Psychology

3 unit(s)

Designed for students who have some background and interest in multicultural and cross-cultural issues. Introduction to how social group membership influences cognition, emotion, identity/the self, intergroup processes, attitudes, and related processes.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

PSYC 195 - Honors Seminar in Psychology

3 unit(s)

Intensive examination of background and current status of student-selected problems.

Prerequisite(s): at least 18 units of PSYC/STAT, PSYC 100W, PSYC 118 or PSYC 120, overall PSYC/STAT GPA of 3.5, Senior Standing

Grading: Letter Graded

PSYC 199 - Senior Honors Thesis

3 unit(s)

Supervised thesis open only to exceptional senior psychology majors.

Prerequisite(s): Senior or graduate standing and instructor consent.

Grading: Mandatory Credit/No Credit/RP

PSYC 200 - Seminar in Personality Theory

3 unit(s)

A survey of contemporary approaches to personality study.

Prerequisite(s): PSYC 139 (or equivalent) plus a total of nine semester hours of upper division psychology courses.

Grading: Letter Graded

PSYC 203A - Clinical Assessment I

3 unit(s)

An in-depth introduction to objective, projective and behavioral assessment techniques used in the clinical evaluation of the behavior and functioning of adults, children and families.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): PSYC 117 (or equivalent).

Grading: Letter Graded

Note(s): MS program priority. This course satisfies graduate-level GWAR in this master's program.

PSYC 204 - Seminar in Developmental Psychology

3 unit(s)

An examination of significant theories, perspectives, and research in developmental psychology.

Prerequisite(s): PSYC 102 (or equivalent).

Grading: Letter Graded

PSYC 208 - Family Assessment and Intervention

3 unit(s)

An interdisciplinary exploration of how therapists can analyze and change interpersonal dynamics in couples and families.

Grading: Letter Graded

PSYC 209 - Psychology of Contemporary Families

3 unit(s)

An overview of current family issues faced by psychotherapists in clinical settings. Emphasis will be placed on identification and conceptualization of these issues from a psychological perspective, stressing integration of issues into clinical practice. MS Clinical program priority.

Prerequisite(s): PSYC 208.

Grading: Letter Graded

PSYC 210 - Advanced Psychopathology

3 unit(s)

Advanced course to provide knowledge and experience in the classification and treatment of disorders of childhood, adolescence and adulthood as they are identified in schools, family interactions and worksite settings. Critical review of research related to the evaluation of treatment strategies.

Prerequisite(s): PSYC 110.

Grading: Letter Graded

Note(s): MS program priority.

PSYC 211 - Child Psychopathology

3 unit(s)

An overview on the nature, assessment and treatment of Child Psychopathology. Emphasis will be placed on understanding DSM-IV diagnoses from a developmental perspective. Objective methods of assessment and empirically supported treatments will be covered.

Grading: Letter Graded

PSYC 212 - Lifespan Development

3 unit(s)

Psychological, biological and social development throughout the life cycle. Interdisciplinary lecture course includes infancy, childhood, adolescence, young adulthood, middle age and old age. Topics include theories, research, influences, changes, problems and patterns of human development.

Grading: Letter Graded

Note(s): MS program priority.

PSYC 219 - HCI for Cyber Security

3 unit(s)

The course covers HCI in cyber security that include: authentication and access control, trust, user privacy and data protections, cyber security in social networking, data protection and security in healthcare, cyber security in eCommerce, mobile, computing & cloud computing, compliance and regulation, visualization tools and techniques in cyber security and privacy.

Prerequisite(s): Graduate Standing.

Grading: Letter Graded.

Cross-listed with ISE 219. Industrial and Systems Engineering is responsible for scheduling.

PSYC 220 - Seminar in Experimental Psychology

3 unit(s)

Applications of experimental method to current problems in psychology. Individual design and experimental work required.

Prerequisite(s): PSYC 120A.

Grading: Letter Graded

PSYC 222 - Gender and Ethnic Issues in Counseling and Therapy

3 unit(s)

Theoretical and practical understanding of gender and ethnic issues in clinical practice, including issues arising from differing socialization, psychological structures, values and cultural assumptions that may affect therapeutic intervention within individuals, couples and families.

Grading: Letter Graded

Note(s): MS program priority.

PSYC 224A - Clinical Psychology Practicum I

3 unit(s)

Supervised experience in the treatment of behavioral and emotional problems of individuals and families.

Prerequisite(s): Same as PSYC 223A.

Corequisite(s): PSYC 223A.

Grading: Letter Graded

Note(s): MS program priority.

PSYC 224B - Clinical Psychology Practicum II

3 unit(s)

Advanced supervision in the treatment of behavioral and emotional problems of individuals and families.

Prerequisite(s): Same as PSYC 224A.

Corequisite(s): PSYC 223B .

Grading: Letter Graded

Note(s): MS program priority.

PSYC 225 - Advanced Group Dynamics

3 unit(s)

Advanced study of the dynamics of small group interaction. Limited supervised training in group facilitation techniques.

Prerequisite(s): PSYC 125 (or equivalent).

Grading: Letter Graded

Note(s): MS program priority.

PSYC 226 - Addictions and Treatment

3 unit(s)

Advanced course in assessment, diagnosis, and treatment, and prevention of substance abuse and dependence and co-occurring disorders in multiple settings. Critical review of research related to the evaluation of treatment strategies are provided from recovery models, family, and individual perspectives.

Prerequisite(s): PSYC 203A and graduate standing in MS psychology program

Grading: Letter Graded

PSYC 228 - Professional Ethics for Psychologists

3 unit(s)

Consideration of ethical and legal issues related to the professional application of psychology. Designed particularly for students involved in field work.

Grading: Letter Graded

Note(s): MS program priority.

PSYC 230 - Seminar in Physiological Psychology

3 unit(s)

An advanced consideration of the neurophysiological correlates of behavior.

Prerequisite(s): PSYC 129 (or equivalent).

Grading: Letter Graded

PSYC 232 - Clinical Psychopharmacology

3 unit(s)

Prepares counseling professionals to understand aspects of drug use, mechanisms of change and clinical outcomes.

Prerequisite(s): PSYC 126 or equivalent.

Grading: Letter Graded

PSYC 235 - Seminar in Cognitive Psychology

3 unit(s)

Theories and current research in cognitive psychology with emphasis on components of cognitive processing from pattern recognition to problem solving. Substantial emphasis on cognitive development and mechanisms of cognitive change.

Prerequisite(s): Graduate standing.

Grading: Letter Graded

PSYC 237 - Psychology of Language

3 unit(s)

Selected topics in the cognitive mechanisms underlying spoken language processing. Topics include the perception, production, acquisition, and evolution of language.

Prerequisite(s): PSYC 135, PSYC 155, LING 101, or LING 161 (or equivalent).

Grading: Letter Graded

PSYC 240 - Research Design and Applied Psychometrics

3 unit(s)

Advanced introduction to issues in psychological research (experimental, quasi-experimental and survey research), measurement, and survey construction (scale development, item analysis, reliability, validity).

Prerequisite(s): Instructor consent.

Grading: Letter Graded

PSYC 243 - Field Work in Psychology

1-6 unit(s)

Supervised field work experience in outside agency settings. Open through consultation only to students in MS programs.

Course may be repeated for credit for up to 36 units.

Grading: Credit/No Credit

PSYC 249 - Field Work in Industrial/Organizational Psychology

1-6 unit(s)

Supervised experience applying psychological and organizational theory and practice in business, industrial and other organizational settings.

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit

PSYC 254 - Social Psychology Seminar

3 unit(s)

Theoretical and practical approaches to the understanding of human behavior within a social context.

Prerequisite(s): PSYC 154 (or equivalent).

Grading: Letter Graded

PSYC 255 - Seminar in Learning

3 unit(s)

Current problems in learning with primary emphasis on learning theory.

Prerequisite(s): PSYC 155 (or equivalent).

Grading: Letter Graded

PSYC 256 - Seminar in Perception

3 unit(s)

Selected issues in visual sensation and perception. Topics include the perception of color, form, depth and motion. Emphasis on the relationship of perception to sensory physiology.

Prerequisite(s): PSYC 158 (or equivalent).

Grading: Letter Graded

PSYC 258 - Methods of Psychotherapy

3 unit(s)

Survey of the theoretical background and practical application of various approaches to psychotherapy.

Prerequisite(s): PSYC 139.

Grading: Letter Graded

Note(s): MS program priority.

PSYC 260 - Crisis and Trauma Counseling

3 unit(s)

Advanced course on trauma including strategies for assessing, managing, short and long term- treatment for acute and chronic stress reactions. Empirically supported risk and protective factors, and evidence-based treatments are covered. Resilience, personal, multidisciplinary, and community perspectives are

emphasized.

Prerequisite(s): PSYC 203A and Graduate Standing in MS Psychology program

Grading: Letter Graded

PSYC 270 - Seminar in Industrial and Organizational Psychology

3 unit(s)

Psychological theory, research and practice in organizations. Topics emphasized include motivation, job satisfaction, communication, leadership, group processes, decision-making, conflict, cooperation, power and organization development and change.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Note(s): MS I/O program priority. This course satisfies graduate-level GWAR in this master's program.

PSYC 271 - Seminar in Personnel Psychology

3 unit(s)

In-depth introduction to relevant methodology, research, applications and issues. Topics include legal issues in personnel, test validation, selection, job analysis, performance appraisal and training and development.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Note(s): MS I/O program priority.

PSYC 272 - Training and Development in Organizations

3 unit(s)

Course will address classic, current, and future issues in training and development. Topics covered include theories of learning, needs assessment, training methodology, program evaluation, management development, and trends that may influence future training and development programs.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

PSYC 273 - Seminar in Human Factors

3 unit(s)

Data and theory of sensory and cognitive psychology and their application to the design of systems used by humans.

Prerequisite(s): PSYC 135 and PSYC 158 (or equivalent).

Grading: Letter Graded

PSYC 275 - Professional Issues in I/O Psychology

3 unit(s)

Address topics and issues faced by I/O psychologists working within organizational settings. Review and analysis of research regarding the application of psychological theory, concepts, and research methodologies. Evaluation and discussion of early career-related ethical issues and professional challenges and strategies.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): PSYC 270 and graduate standing in MS I/O Psychology program

Grading: Letter Graded

PSYC 276 - Groups at Work

3 unit(s)

Group process and performance, types of work groups and tasks, group development (norms, roles and strategies), group leadership approaches and skills, decision-making, team building, high performing and self managing teams.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

PSYC 280 - General Seminar

3 unit(s)

Current psychological literature in selected fields and the development of a specific topic by the student.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Undergraduate major in psychology (or equivalent).

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

PSYC 291 - Method and Design for Applied Research

3 unit(s)

Development and management of applied research programs based on contributions of psychological research and methodology. Criticizing existing and proposed research. Reporting and communicating research results.

Prerequisite(s): PSYC 18 or PSYC 120A; STAT 95 and STAT 115.

Grading: Letter Graded

Note(s): MS program priority.

PSYC 293 - Organizational Development

3 unit(s)

Theory and practice of organization development, including systems thinking; action research; organization assessment and diagnosis; survey development and feedback; individual, group, inter-group and organization-wide interventions; consultant roles; and ethics of practice in organizations.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

PSYC 298 - Special Problems

1-6 unit(s)

Advanced work in areas not covered in any regular course offering. Course is repeatable for a maximum of four units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor consent.

Grading: Mandatory Credit/No Credit/RP

PSYC 299 - Master's Thesis

1-6 unit(s)

Five units required for the M.A.; six units for the M.S.

Repeatable for credit.

Prerequisite(s): Advancement to candidacy for the MA or MS degree and thesis chair permission.

Grading: Credit/No Credit/RP.

PSYC 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project unless concurrently enrolled in another SJSU course

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in a project or thesis class

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Public Administration

PADM 202 - Regional Governance

3 unit(s)

An exploration of current theories, practices, issues and problems in the governance of urban regions in the United States.

Prerequisite(s): POLS 1, PADM 210.

Grading: Letter Graded

PADM 210 - Introduction to Public Administration

3 unit(s)

A broad overview of public administration, including policy analysis, budgeting, personnel, organization, leadership, decision-making and ethics in a political environment. Examination of the theory and application of public management practices at all levels of government.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

PADM 212 - Administrative Research Methods

3 unit(s)

The study and application of principles and methods of social science research and evaluation in a public administration context. Emphasis on learning research designs and using statistics and computers.

Prerequisite(s): Statistics.

Grading: Letter Graded

PADM 213 - Policy Analysis and Evaluation

3 unit(s)

An examination of the application of analytical and administrative tools to solving public problems. Study of the processes of policy formulation and the research and political tools necessary to assess program effectiveness.

Prerequisite(s): Statistics.

Grading: Letter Graded

PADM 214 - Introduction to Public Management

3 unit(s)

A study of current principles and practices of effectively managing public service organizations. Emphasis on critical thinking, project management, and implementation processes.

Prerequisite(s): Statistics.

Grading: Letter Graded

PADM 215 - Public Personnel Administration

3 unit(s)

An overview of personnel management in a political environment and its role in maintaining a democratic society. Methods and problems of job analysis, compensation, staffing, EEO, evaluation, training and union relations.

Prerequisite(s): PADM 210.

Grading: Letter Graded

PADM 217 - Organizational Theory

3 unit(s)

Analysis and application of theories about organizations, including organizational goals, structures, authority, leadership, decision patterns and communications. Emphasis on methods of change and differences between the public and private sectors.

Prerequisite(s): PADM 210.

Grading: Letter Graded

PADM 218 - Public Budgeting

3 unit(s)

A study of current theory, techniques and practice of public budgeting for political decision-making, planning and management. Focus on executive and legislative budget processes, reform efforts, public choice analysis, financial processes and the role of accounting.

Prerequisite(s): PADM 210; ECON 1B (or equivalent).

Grading: Letter Graded

PADM 219 - Public Financial Administration

3 unit(s)

An overview of public financial administration, including microeconomic concepts and techniques, tax theory and policy, user charges, inter-governmental transfers, debt administration and risk management in a political environment.

Prerequisite(s): PADM 218.

Grading: Letter Graded

PADM 220 - Non-Profit Management

3 unit(s)

Focuses primarily on internal nonprofit management issues in the U.S. context; course exposes students to core and emerging theories for a range of topics related to nonprofit management, including leadership, governance, accountability, performance management, resource development and financial management.

Prerequisite(s): PADM 210, PADM 218

Grading: Letter Graded

PADM 223 - Law and Public Administration

3 unit(s)

An overview of legal and political processes affecting relationships among the public, government institutions, administrative agencies and the courts. Focus on major cases related to administrative agency use of rules and orders to implement public policy.

Prerequisite(s): POLS 1 and PADM 210

Grading: Letter Graded

PADM 281 - Public Administration Internship

3 unit(s)

Supervised practical experience in public administration. Focus on integrating student work experiences with the academic program by means of seminars and consultation.

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit

PADM 284 - Directed Reading

1-3 unit(s)

Program of reading and writing created through student/faculty consultation in areas not covered by other courses. Repeatable for credit for a maximum of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Appropriate courses, instructor consent and department chair consent.

Grading: Letter Graded

PADM 295 - Topics in Public Administration

3 unit(s)

An exploration of current theories, problems and techniques in a selected major topic of current importance in public administration.

Grading: Letter Graded

PADM 297 - Advanced Seminar in Public Management

3 unit(s)

This course serves as the "capstone" of the MPA program. It uses an analysis of real world cases to relate principles and theories of public administration to concrete, real world problems. The individual subject papers dealing with the main class topic that earn a grade of A- or better will be published as an electronic journal. The culminating project for this class is the approved prospectus for the PADM 298 project.

Prerequisite(s): Permission of instructor is required.

Grading: Letter Graded

PADM 298 - Special Problems

3 unit(s)

Advanced individual research and projects.

Prerequisite(s): PADM 210, PADM 212, PADM 213, PADM 214, PADM 218; instructor consent; consent of the chair.

Grading: Mandatory Credit/No Credit/RP

PADM 299 - Master's Thesis

3 unit(s)

Independent research conducted under the supervision of a permanent faculty member and two other qualified persons. Emphasis on applying administrative concepts and analytical skills to actual problems of policy and administration in the public sector.

Course may be repeated for credit for up to 6 units.

Grading: Mandatory Credit/No Credit/RP

Note(s): Repeatable once for credit.

PADM 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in a project class

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Public Health

PH 1 - Understanding Your Health

3 unit(s)

Introductory course on the interdependence of the physiological, social and psychological factors influencing the healthy well-being of individuals throughout the life span. Emphasis is on identifying and utilizing both university and community resources to assist in personal and educational development.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

PH 15 - Human Life Span

3 unit(s)

Emphasizes growth and development of the individual from conception to death - perspective on biological, cultural, sociological and psychological changes and continuities during the human life span. Special attention will be given to socioeconomic status, gender and ethnic variations.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Cross-listed with RECL 15. Public Health and Recreation is responsible for scheduling.

Sustainability Related - SDG 3: Good Health and Well-Being

PH 67 - Introductory Health Statistics

3 unit(s)

A practical introduction to the statistical methods used in health, health care, biomedical, and public health settings. Concepts are illustrated with concrete examples that demonstrate how principles operate and are applied to common health problems.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Mathematics Enrollment Category M-I or M-II; for Categories III and IV, completion of a GE Area B4 course with a grade of C- or better.

Grading: Letter Graded

PH 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Repeatable for credit.

Grading: Mixed Grading

PH 99 - Introduction to Public Health

3 unit(s)

Introduces students to the history, ethical foundations, policies, tools, interventions, and essential public health services that shape population health. Will approach public health issues from biological, sociocultural, behavioral, environmental, and political perspectives.

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

PH 100W - Writing Workshop

3 unit(s)

Development of skills in scientific and technical writing. How to write a critical review of published writing, a business letter, a scholarly paper, and give an oral presentation.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level. Allowed Declared Majors: Public Health, Recreation, Communicative Disorders and Sciences, Nutritional Science, and Interdisciplinary Majors.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

PH 102 - Health Team Building

3 unit(s)

Exploration of communication in small group settings and skill development necessary to work effectively, particularly in the health field. Topics include decision making, leadership, and conflict resolution integrating theory and practice.

Prerequisite(s): Upper Division Standing. Completion of PH 1, PH 15, and PH 67 with a minimum grade of C in each. Allowed Declared Majors: Public Health majors or minors only.

Grading: Letter Graded

PH 103 - Introduction to Health Policy

3 unit(s)

Examination of historical and current policies related to public health, stakeholders in health policy making and advocacy, and health policy frameworks for conducting policy analysis and policy making.

Prerequisite(s): Allowed Declared Majors: Public Health Majors and Minors.

Corequisite(s): Any 100W (NUFS 100W or PH 100W preferred).

Grading: Letter Graded

PH 104 - Community Health Promotion

4 unit(s)

Examination of community health issues, and assets, determinants, and levels of intervention. Introduction to approaches to disease prevention, health promotion, and social change to promote health. Application of community health promotion and disease prevention through service learning.

Prerequisite(s): PH 1, PH 15, PH 67, and PH 99. Allowed Declared Majors: Public Health Majors and Minors.

Corequisite(s): PH 102.

Grading: Letter Graded

Note(s): For Fall 2020, this is a 3 unit course with the prerequisites of PH 1, PH 15, and PH 67, and a corequisite of PH 114. Effective Spring 2021, this is a 4 unit course with prerequisites of PH 1, PH 15, PH 67, and PH 99.

Sustainability Focused - SDG 3: Good Health and Well-Being

PH 107 - Aging and Society

3 unit(s)

Social, psychological and physiological aging processes. Implications of aging for individuals and societies, with emphasis on issues related to diversity, equality and gender in the U.S.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all

SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with GERO 107 / SCWK 107. Social Work is responsible for scheduling.

Sustainability Focused - SDG 10: Reduced Inequalities

PH 108 - Health in Later Life

3 unit(s)

Normal age-related health changes and common illnesses in later life. Health status, behavior and attitudes of older adults. The continuum of health care services. Professional and ethical issues in service delivery.

Prerequisite(s): College biological sciences course.

Grading: Letter Graded

Cross-listed with GERO 108. Social Work is responsible for scheduling.

PH 114 - Applications in Community Health Promotion

3 unit(s)

Application of community health promotion and disease prevention through service learning. Collaborate with community-based partners to improve health and reduce disparities.

Prerequisite(s): Upper Division Standing, Major/Minors Only.

Corequisite(s): PH 104.

Grading: Credit/No Credit

PH 118 - Long Term Care Services

3 unit(s)

History and organization of the continuum of long term care for U.S. families, financing and regulatory policies, and factors influencing the quality of care. Professional and ethical issues facing long term care providers.

Prerequisite(s): PH 162.

Grading: Letter Graded

PH 126 - Drugs, Brain and Behavior

3 unit(s)

Survey of psychoactive drugs, including prescription and street drugs; social, behavioral and physiological effects of drugs; neural mechanisms of drug action; history of drug use.

Prerequisite(s): PSYC 30 or 3 units of biology.

Grading: Letter Graded

Cross-listed with PSYC 126. Psychology is responsible for scheduling.

PH 135 - Health Issues in a Multicultural Society

3 unit(s)

Multidisciplinary interpretation and evaluation of consumer health issues. Impact of cultural variables (including communication methods, socioeconomic status and traditional beliefs) on health and illness. Interaction of individuals in families and other groups.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with NUFS 135. Public Health and Recreation is responsible for scheduling.

Sustainability Focused - SDG 3: Good Health and Well-Being

PH 137 - Families, Aging, and Diversity

3 unit(s)

Family relationships of older adults in diverse U.S. ethnic groups. Current patterns of family and formal assistance to elders with disabilities. Critical analysis of eldercare policies and services.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Social Work is responsible for scheduling.

Sustainability Focused - SDG 10: Reduced Inequalities

PH 140 - Human Sexuality

3 unit(s)

Biological and sociocultural facets of human sexuality. Evolution and physiology of sex, reproductive biology/ethics and cross-cultural expression of sexual behavior.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Note(s): Not acceptable as an elective in the Biology major.

Cross-listed with ANTH 140 / BIOL 140. Anthropology is responsible for scheduling.

PH 145 - Community Mental Health

3 unit(s)

Comprehensive analysis of community mental health using a socio-ecological framework. Intersection of race, socioeconomic status, gender, sexual orientation, and mental health is examined. Emphasis is on prevention and recovery.

Prerequisite(s): Any 100W or instructor consent.

Grading: Letter Graded

Cross-listed with PSYC 145 / SOCI 145. Public Health and Recreation is responsible for scheduling.
Sustainability Related - SDG 3: Good Health and Well-Being

PH 158 - Health Communications

3 unit(s)

Introduction to, and application of, health communication concepts, theories, and principles to specific health topics. Students will gain a broad understanding of the role of communication and its complexity as it relates to disease prevention and health promotion.

Lecture 3 hours/lecture 3 hours.

Prerequisite(s): PH 1, PH 15, and PH 67 with a grade of C or better in each. Public Health Majors/Minors only.

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

PH 161 - Epidemiology

3 unit(s)

The study of population-based risks of infectious and noninfectious diseases and how these risks relate to cause, treatment and prevention. Restricted to Majors and minors.

Lecture 3 hours/lecture 3 hours.

Prerequisite(s): Completion of PH 1, PH 15, and PH 67 with a grade of C or better. Upper division standing. Public Health Majors and Minors only or instructor consent.

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

PH 162 - Health Care Organization and Admin

3 unit(s)

Exploration of health economics, financing, insurance theory and contemporary trends in health care organization, management and administration.

Corequisite(s): NUFS 100W / PH 100W or other 100W course. Restricted to Public Health Majors and Minors only or instructor consent.

Grading: Letter Graded

Sustainability Related

PH 164 - Health Social Marketing

3 unit(s)

Introduction to social marketing applications in community health education, including the examination of marketing principles to improve population health problems, and critical evaluation of the effectiveness of social marketing campaigns.

Prerequisite(s): PH 158 and Allowed Declared Majors: Public Health, Community Health Education Concentration only. Or instructor consent.

Grading: Letter Graded

PH 165A - Public Health Leadership Series I

1 unit(s)

Promotes students' adoption of professional behaviors, which will serve them in the classroom, in their interactions with faculty and colleagues outside the classroom, and in their careers upon graduation.

Prerequisite(s): Upper division standing, Public Health majors.

Grading: Letter Graded

PH 165B - Public Health Leadership Series II

1 unit(s)

Prepares students in the major for the internship experience by engaging course participants in self-reflection, continued skill development, and exploration of leadership styles and organizational structures. Students are expected to secure an internship location during this course. Second course in three course sequence.

Prerequisite(s): Upper Division Standing, Public Health majors only, and PH 165A .

Grading: Letter Graded.

PH 165C - Public Health Leadership Series III Fieldwork Experience

2 unit(s)

Practical application of public health theories and principles through an internship at a community health agency, public health data organization, healthcare facility, or other related industry.

Prerequisite(s): PH 165A, PH 165B, and upper division standing.

Grading: Credit/No Credit

PH 165D - Public Health Leadership Series IV

1 unit(s)

Guides graduating seniors in the transition from college to the workforce by engaging in exploring and articulating theoretical and practical leadership styles and personal and professional reflection to further develop personal leadership styles and potential. Fourth course in four course series.

Prerequisite(s): PH 165C, senior standing, and Public Health majors in final semester.

Grading: Letter Graded

PH 167 - Biostatistics

3 unit(s)

Statistical analysis of health and biological data covering measurement scales, random sampling, data quality, data storage descriptive and exploratory techniques, probability distributions, estimation and hypothesis testing, includes an integrated lab activity.

Lecture 2 hours/Activity 2 hours.

Prerequisite(s): PH 67 with a minimum grade of C. Public Health Majors only.
Grading: Letter Graded

Sustainability Related

PH 168 - Theoretical Foundations in Community Health Education

3 unit(s)

Explores the foundations of health education theory across the social ecological model, and the application of theories to understand and improve community health.

Prerequisite(s): PH 104 and Allowed Declared Majors: Public Health/Community Health Education concentration majors only. Or instructor consent.
Grading: Letter Graded

PH 169 - Diversity, Stress and Health

3 unit(s)

Impact of structured inequalities on stress and health of diverse populations. Analysis of physiological/psychosocial health factors related to diversity, as well as behavioral interventions and social actions that mediate stress and optimize health and social justice.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Grading: Letter Graded

Cross-listed with KIN 169. Kinesiology is responsible for scheduling.
Sustainability Focused - SDG 3: Good Health and Well-Being

PH 172 - Contemporary Environmental Health Issues

3 unit(s)

Examines the complex and interdependent relationship between environment and health outcomes. Advances scientific understanding of evolution and biodiversity, ecosystems, population dynamics, sustainability of earth's resources, pest management, solid and hazardous waste, water and air pollution, climate change, and environmental/occupational exposures.

Satisfies SJSU Studies R: Earth, Environment, and Sustainability.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Grading: Letter Graded

Sustainability Focused - SDG 3: Good Health and Well-Being

PH 176 - Introduction to Global Health

3 unit(s)

Examination of global distribution of disease and wellbeing. Explore connections between global health and social/economic development. Multidisciplinary approach to critical problems including HIV/AIDS, malaria, complex humanitarian emergencies, and disasters. Addresses ethics and leadership in global health.

Prerequisite(s): Upper Division Standing.

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

PH 179 - Public Health Capstone

3 unit(s)

Public Health capstone experience. Students analyze a community health problem and create a comprehensive evidence-based community health promotion plan informed by literature, theory, and best practices.

Prerequisite(s): PH 104, PH 161, and PH 100W each with a C or better in each. Senior standing. Allowed Declared Majors: Public Health.

Grading: Letter Graded

PH 180 - Individual Studies

1-4 unit(s)

Individual work on special topics by arrangement.

Repeatable for credit.

Prerequisite(s): Upper division standing, instructor consent and department chair approval. Not available to Open University Students.

Grading: Credit/No Credit

PH 183 - Special Topics in Community Health Education

3 unit(s)

Introduces students to an array of current and emerging topics in community health education. Contemporary topics that are relevant to analyzing and applying insights from health promotion to solve real-life community health problems.

Repeatable for credit when topic changes.

Prerequisite(s): Upper division standing, Public Health majors, PH 165A and PH 165B; or by instructor consent.

Grading: Letter Graded

PH 184 - Directed Reading

1-4 unit(s)

Directed reading in journals and books of authorities in the field of health.

Repeatable for credit.

Prerequisite(s): Upper division standing and department chair consent. Not available to Open University Students.

Grading: Credit/No Credit

PH 188 - Community Health Assessment

3 unit(s)

Introduction to principles and practices of public health assessment. Analyze primary and secondary data to develop and present a community health assessment.

Prerequisite(s): PH 100W, PH 104, and PH 161. Allowed Declared Majors: Public Health Concentration in Community Health Education majors. Or instructor consent.

Grading: Letter Graded

PH 189 - Community Health Education Capstone

3 unit(s)

Introduction to principles and practices in program planning and evaluation. Creation and presentation of an evidence-based community health promotion program plan using assessment from PH 188.

Prerequisite(s): PH 188 and PH 168. Allowed Declared Majors: Public Health Concentration in Community Health Education majors in their final semester.

Grading: Letter Graded

PH 191 - Applied Epidemiology

3 unit(s)

Explores the application of epidemiology. Students learn how to use standard epidemiological software for data analysis, conduct in-depth epidemiological investigations, understand screening in public health practice, and learn about models for infectious disease transmission.

Prerequisite(s): PH 161, PH 167, and upper division standing. Allowed Declared Majors: Public Health majors.

Grading: Letter Graded

PH 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Repeatable for credit.

Grading: Mixed Grading

PH 193 - Special Topics in Population Data Science

3 unit(s)

Current and emerging topics in population data science. Exploration of how data from well-conducted studies can inform policy and public health practice. Repeatable for credit when topic changes.

Course may be repeated 3 times for up to 9 units.

Prerequisite(s): Upper division standing, Public Health majors only, [PH 165A](#) and PH 165B or instructor consent.

Grading: Letter Graded.

PH 195 - Fundamentals of Data Management and Presentation

3 unit(s)

Introduction to widely used techniques for presenting and managing population health data. Provides experience managing data in a variety of formats including Excel, and creating informative graphics using data visualization and mapping software.

Prerequisite(s): PH 161 and PH 167. Allowed Declared Majors: Public Health Concentration in Population Data Science. Or instructor consent.

Grading: Letter Graded

PH 197 - Quantitative Analysis

3 unit(s)

Applied population health quantitative analysis course, which builds on concepts introduced in core courses, epidemiology and biostatistics. Students will conduct data analysis using the Statistical Analysis Software (SAS) package, with a specific focus on public health application.

Prerequisite(s): PH 161 and PH 167. Allowed Declared Majors: Public Health Concentration in Population Data Science. Or instructor consent.

Grading: Letter Graded

PH 198 - Qualitative Methods

3 unit(s)

Introduced students to qualitative research methods with a focus on theory, methodology, and data analysis. Additional topics include: research ethics, study design, rigor in research, critical lens and practical applications.

Prerequisite(s): Upper division standing. Allowed Declared Majors: Public Health Majors and Minors. Or instructor consent.

Grading: Letter Graded

PH 199 - Population Data Science Capstone

3 unit(s)

Students develop a proposal to test a research hypothesis related to a public health problem. Students identify knowledge/research gaps, create a study plan, develop a testable hypothesis, and present the research proposal.

Prerequisite(s): PH 161, PH 167, PH 191, and PH 197. Allowed Declared Majors: Public Health

Concentration in Population Data Science in their final semester. Or instructor consent.

Grading: Letter Graded

PH 200 - Contemporary Practice in Public Health

2 unit(s)

Introduction to the philosophy, ethics, historical roots, and approaches of contemporary public health education and health promotion. Emphasis is on frameworks and strategies used in practice.

Repeatable for credit.

Grading: Letter Graded

PH 201 - Groups and Training: Theory and Practice

2 unit(s)

Addresses the study of group theories, dynamics, and processes in professional context of public health. Students will experience and evaluate team processes such as stages of group development, facilitation, successful communication, conflict, power and influence, problem-solving, and decision-making.

Grading: Letter Graded

PH 205A - Quantitative Methods for Public Health Practice I

3 unit(s)

Integrated approach to the disciplines of Biostatistics and Epidemiology. Develops quantitative skills to evaluate data and make evidence-based decisions. Covers conduct and design of epidemiologic studies, basic biostatistical analyses, biostatistical software, and foundational knowledge of exposure and outcome assessment.

Grading: Letter Graded

PH 205B - Quantitative Methods in Public Health

3 unit(s)

Methods of public health and biostatistical data collection, management, analysis, and reporting using microcomputers, including the detection and control of confounding factors.

Prerequisite(s): PH 205A.

Grading: Letter Graded

PH 215 - Qualitative Methods for Public Health Practice

3 unit(s)

Introduction to qualitative methods, with focus on theory, data collection, and analysis. Students will collect qualitative data and analyze that data using software. Additional topics include research ethics, study design, and community-based participatory research.

Grading: Letter Graded

PH 225 - Evaluation Methods for Public Health Practice

3 unit(s)

Students will become familiar with the concepts of formative, summative, process, impact, and outcome evaluation, ethical considerations, and barriers such as time or resources. Students will develop a viable program evaluation plan for a campus or community partner.

Prerequisite(s): PH 205A, PH 205B, PH 215, and PH 272.

Grading: Letter Graded

PH 261 - Principles of Epidemiology

3 unit(s)

Introduction to epidemiologic concepts and methods with applications to public health practice for students intending to engage in, collaborate in, or interpret the results of epidemiologic studies in the scientific appraisal of community health.

Prerequisite(s): PH 167 or equivalent.

Grading: Letter Graded

PH 262 - Health Policy and Organization

3 unit(s)

Health policy and the organization of health services, with a focus on the United States. Health policy analysis, the policy-making process, health care economics, insurance theory, comparative health systems, and health care quality.

Grading: Letter Graded

PH 265 - Environmental Health

3 unit(s)

Investigation of environmental health issues: risk evaluation, risk management, hazardous materials, occupational health and safety, plus air, water and noise pollution. Learning fundamentals of managing environmental health problems.

Repeatable for credit.

Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

PH 271 - Theoretical Foundations of Public Health

3 unit(s)

Role of theory in shaping practice, research and evaluation that facilitates social change and promotes health across the spectrum of prevention, including individual, community, organization, and policy levels.

Grading: Letter Graded

Sustainability Focused - SDG 3: Good Health and Well-Being

PH 272 - Health Promotion Planning and Evaluation

3 unit(s)

Theory and practice of developing community health programs. Focus on program planning within the context of strategic planning, problem/needs assessment, setting of program goals and objectives, approaches to program evaluation and grant writing.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): PH 271.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

PH 276 - Community Organization and Health Promotion

3 unit(s)

Advanced study of the principles, practices and ethical considerations underlying community organization, health promotion, empowerment and advocacy. Includes examination of the change process and introduction to the skills and tools of effective public health organizing.

Grading: Letter Graded

Sustainability Related - SDG 3: Good Health and Well-Being

PH 277 - Multicultural Communication for Health Professionals

3 unit(s)

Theories and skills of multicultural communication necessary for effective professional practice with diverse clients, communities, staff and colleagues. Examination of concepts and indicators of cultural competence begins with intensive self-study and concludes with community examples.

Grading: Letter Graded

PH 280 - Individual Graduate Studies

1- 3 unit(s)

Individual graduate work by arrangement with the instructor and in consultation with the MPH Coordinator/s. Approval by MPH Coordinator/s required to enroll in the course.

Course may be repeated for credit for up to 9 units.

Grading: Credit/No Credit/RP.

PH 291A - Fieldwork Seminar

1 unit(s)

Preparation for fieldwork placement, with emphasis on (1) self-assessment of strengths, competencies, professional objectives, and fieldwork priorities; (2) identification of fieldwork site and negotiation of Memorandum of Understanding; and (3) planning for professional development.

Repeatable for credit.

Prerequisite(s): PH 200, PH 201, PH 271, PH 272 or instructor consent.

Grading: Letter Graded

PH 291B - Fieldwork Practicum

1-2 unit(s)

Application of theory and skills to health education practice, research, and/or policy under the supervision of a preceptor.

Course is repeatable for up to 2 units.

Prerequisite(s): PH 200, PH 201, PH 271, PH 272, PH 291A or instructor consent. Not available to Open University Students.

Corequisite(s): PH 291P.

Grading: Credit/No Credit

PH 291C - Professional Skills for Public Health Practice

1 unit(s)

Introduction to the fundamental skills used in everyday Public Health practice. Emphasis on writing and presenting at a graduate level, critical thinking, collaboration and professional behavior. Additional topics include professional communication, giving and receiving feedback, professional relationships and interactions.

Grading: Credit/No Credit

PH 291D - Work Experience Practicum

2 unit(s)

Supervised work experience in community, health care organization, or worksite settings.

Prerequisite(s): PH 200, PH 201, PH 271, PH 272, PH 291A.

Grading: Mandatory Credit/No Credit/RP

PH 291P - Professional Development

1 unit(s)

Strategically selected professional development activities to supplement experiences during fieldwork and advance public health career objectives.

Prerequisite(s): PH 291A.

Grading: Credit/No Credit

PH 293 - Public Health Leadership

3 unit(s)

Preparation for leadership in public health. Emphasis is on: policy and politics of health advocacy, ethics in public health education, and final self-assessment of skills for practice and continuing education priorities.

Repeatable for credit.

Prerequisite(s): PH 291A and PH 291B or instructor consent.

Grading: Letter Graded

PH 298 - Graduate Project

3 unit(s)

Development and analysis of independent activity in the field of community health education, health administration or school health.

Repeatable for credit.

Prerequisite(s): Approved graduate project proposal and instructor consent. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

Note(s): More than one semester may be required to complete activity.

PH 299 - Master's Thesis

3 unit(s)

Supervised original research in the field of community health education.

Course is repeatable for up to 6 units.

Prerequisite(s): Approved master's thesis proposal and instructor consent. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

Note(s): One to two semesters and 3 to 6 units required.

PH 1290R - Culminating Experience Supervision

1-3 unit(s)

Continued work on dissertation, thesis, or project or in preparation for comprehensive exams beyond the minimum required units for cases in which final deliverables are still in progress and all other degree requirements except the culminating experience have been fulfilled.

Prerequisite(s): Outstanding RP grade in a preceding semester in a project or thesis class, or RFP in progress.

Grading: Credit/No Credit/No Degree Credit

Public Relations

PR 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad

Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Course may be repeated for credit for up to 6 units.

Grading: Mixed Grading

PR 99 - Introduction to Public Relations

3 unit(s)

Principles, evolution, and professional practice of modern public relations. Concepts of planning and executing effective communication strategies, including message design and distribution, for any organization.

Grading: Letter Graded

PR 190 - Media and Influencer Relations

3 unit(s)

How to promote an organization's brand by developing relationships with traditional and digital news organizations and social media influencers to earn credible third-party content that is ultimately discovered, shared, and drives a desired action.

Prerequisite(s): JOUR 61

Grading: Letter Graded.

PR 191 - Strategic Content Creation

3 unit(s)

Basics of creating and implementing a strategic content marketing plan, introducing students to tools and techniques for delivering valuable, relevant, and measurably effective content on behalf of organizations, guiding students through production of various marketing communication assets.

Prerequisite(s): JOUR 61

Grading: Letter Graded

PR 192 - Case Studies in Strategic Communication

3 unit(s)

Case studies focusing on the problems and challenges faced by a variety of organizations. Practical application of creative problem-solving, theory, and research about "real world" situations.

Prerequisite(s): PR 99.

Grading: Letter Graded

PR 192I - International Program Studies

1-9 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International

Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

PR 193 - Special Event Management

3 unit(s)

The planning and managing of events for the purpose of accomplishing organizational objectives. Emphasis on creative thinking, logistics and practical application of strategies and tactics. A major project is the execution of an actual event.

Prerequisite(s): PR 99 or instructor consent.

Grading: Letter Graded

PR 195 - Strategic Sport Communication and Media

3 unit(s)

Overview of the field of sport communication and media; specific topics include models of sport communication, print and electronic media, sport advertising, public relations, media relations, and employment opportunities. Students critically assess the communication efforts of a sports organization as well as construct their own communications in the field of sport.

Prerequisite(s): PR 99.

Grading: Letter Graded

PR 197 - Introduction to Corporate Internal Communication

3 unit(s)

Internal and employee communications from strategy to tactical delivery. Best practices in building internal communication strategies that support organization business goals, as well as raise employee morale, productivity and collaboration. Topics include building internal communication strategy, planning, platform design, tools and strategic messaging campaigns.

Prerequisite(s): PR 99.

Grading: Letter Graded

PR 199 - Campaign Planning and Management

3 unit(s)

Creative problem-solving in strategic planning and program management. Conceive, develop and present an integrated communications plan to a "real-world" client.

Prerequisite(s): PR 99, PR 190 or PR 191, PR 192, and MCOM 111.

Grading: Letter Graded

Radio - Television - Film

RTVF 10 - The Art of Film

3 unit(s)

Study of the formal, aesthetic, historical, and cultural contexts of film as an art form. GE Area C1.

Satisfies C1: Arts.

Grading: Letter Graded

RTVF 20 - Introduction to Audio for Film & Television

3 unit(s)

Fundamentals of audio production in film and television settings.

Misc/Lab: Lecture 2 hours/Activity 2 hours.

Prerequisite(s): Instructor Consent.

Grading: Letter Graded

RTVF 21 - KSJS On-Air Operations

3 unit(s)

On-Air operation of campus radio station KSJS-FM, FCC, equipment, D.J. interview, sports; all activities and processes required for live broadcasting, music, public service and community service programming.

Misc/Lab: Lecture 1 hour /Activity 4 hours.

Grading: Letter Graded

RTVF 22 - KSJS Radio Programming & Production

3 unit(s)

An introduction to radio programming and fundamental techniques of audio production for KSJS 90.5 FM. Lab experiences in programming, writing, production basics, post-production, including music, public affairs, promotions, interviews. Utilizes radio-audio hardware and software.

Lecture 2 hours/Activity 2 hours.

Grading: Letter Graded.

RTVF 23 - Podcasting For Radio and Digital Media

3 unit(s)

Lessons on storytelling, scriptwriting, sound gathering and interviews using smartphones, audio recording, editing, and developing a "radio voice". Created podcasts to be published, promoted and aired on our campus radio station KSJS 90.5 FM.

Grading: Letter Graded.

RTVF 30 - Introduction to Film & Television Production

3 unit(s)

Fundamentals of film and television production.

Misc/Lab: Lecture 2 hours/Activity 2 hours.

Prerequisite(s): Instructor Consent

Grading: Letter Graded

RTVF 31 - Film and Television Aesthetics

3 unit(s)

Theory of applied aesthetics in video, film, and new media based on an examination of fundamental image and sound production.

Prerequisite(s): Instructor Consent

Grading: Letter Graded

RTVF 80 - Introduction to Media

3 unit(s)

Analysis of the history and evolution of radio (audio) and television (video) in the U.S. Examination of programming, government regulation, advertising, networking, development of electronic media technologies and world media systems.

Grading: Letter Graded

RTVF 82 - Introduction to Film History

3 unit(s)

The history and evolution of the motion picture from 1895 to 1945. Viewing of representative films, study and discussion of major world film movements, important directors, and key genres.

Grading: Letter Graded

RTVF 83 - Digital Media Impact and Analysis

1 unit(s)

Media institutions are examined regarding technology they use/develop, information they distribute, entertainment they provide and influence they bring. Engages exploration into the ways digital media have had an impact on various aspects of contemporary culture such as concepts of community, communication, identity, privacy, property, value systems, economic structures, political institutions, and natural environments. Course content shall develop students' analytical skills and understanding of social science in ways that develop the capacity for informed civic engagement. Understanding how media effects work, how they impact culture, or define reality, requires learning the tools of analysis to study them.

Grading: Letter Graded.

RTVF 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to

study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

RTVF 110 - Media and Culture

3 unit(s)

Critical survey of roles played by electronic media in shaping culture. Media institutions are examined regarding information they distribute, entertainment they provide and influence they bring. Analysis of media sources, messages and audiences.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Related - SDG 4: Quality Education

RTVF 111 - Global Screen Cultures

3 unit(s)

Uses films from previously marginalized national cinemas from around the world as primary sources to teach students to appreciate, understand and compare diverse cultures. Introduces students to alternative modes of filmmaking and analysis.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Course may be repeated for up to 6 units.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded.

RTVF 120 - Intermediate Audio for Film & Television

3 unit(s)

Techniques of audio production and post production for film and television settings.

Lecture 2 hours /Activity 2 hours.

Prerequisite(s): RTVF 20, RTVF 30, RTVF 31, upper division standing or instructor consent. No concurrent enrollment with prerequisites.

Grading: Letter Graded

RTVF 121 - KSJS-FM Radio Activity

1-3 unit(s)

Student participation in radio with KSJS-FM. Activities supervised by area faculty. Open to all students whether lower division or upper-division standing. Repeatable, but only 6 units may be used for graduation.

Course may be repeated for credit for up to 6 units.

Grading: Credit/No Credit

RTVF 122 - KSJS Station Operation & Mgmt

3 unit(s)

Structure and operation of non-commercial radio station KSJS-FM. Theory and practice of radio management, programming, production, public service, sales and engineering. Repeatable, but only 6 units may be used for graduation.

Misc/lab: Lecture 1 hour/Activity 4 hours

Prerequisite(s): Appointment to KSJS management staff or instructor consent.

Grading: Letter Graded

RTVF 126 - Advanced Audio Mixing

3 unit(s)

Postproduction sound, editing, sweetening, and mixing for the film and television industry. Through exploration and hands-on exercises - software and hardware are utilized for audio mixing and sweetening. Covers both the technology and the art of audio mixing to improve the final film and/or media product aesthetically and technically.

Lecture 2 hours/Activity 2 hours.

Prerequisite(s): RTVF 20 and RTVF 120

Grading: Letter Graded

RTVF 130 - Intermediate Film & Television Production

3 unit(s)

Techniques of film and television production.

Lecture 2 hours/Activity 2 hours.

Prerequisite(s): RTVF 20, RTVF 30, and RTVF 31, upper division standing or instructor consent. No concurrent enrollment with prerequisites.

Grading: Letter Graded

RTVF 131A - Post Production: Color Correction

3 unit(s)

Post production course with emphasis on color grading and correction of film and television production projects.

Misc/Lab: Lecture 2 hours/Activity 2 hours

Prerequisite(s): RTVF 130 or instructor consent.

Grading: Letter Graded

RTVF 131B - Post Production Editing & Delivery

3 unit(s)

Editing, post production and delivery techniques for film and television projects.

Misc/Lab: Lecture 2 hours/Activity 2 hours.

Prerequisite(s): RTVF 130 or instructor consent.

Grading: Letter Graded

RTVF 132A - Introduction to Cinematography

3 unit(s)

First in-depth course in cinematography. Principles of motion picture photography explored through lecture, discussions, projects and screenings. Skills of the cinematographer developed by shooting exercises during and outside of class. Appreciation of the art of and technology of cinematography.

Misc/Lab: Lecture 2 hours/Activity 2 hours

Prerequisite(s): RTVF 30 or Instructor consent.

Grading: Letter Graded

RTVF 132B - Advanced Cinematography

3 unit(s)

Advanced, in-depth course in cinematography consisting of mostly hands-on practicum, with lectures as needed. Dramatic scenes are filmed in realistic production shooting situations, both in the studio and on location. Scripts to be photographed are selected by the professor and the students based on the challenges they present.

Misc/Lab: Lecture 2 hours/Activity 2 hours

Prerequisite(s): RTVF 131A or Instructor consent. No concurrent enrollment with prerequisites.

Grading: Letter Graded

RTVF 133 - Film and Television Production Management

3 unit(s)

Analysis of film and television organization and programming concepts, including production management, decision-making processes, technical script breakdown, and its relation to budgeting and finance.

Grading: Letter Graded

RTVF 135 - RTVF Production: Special Projects

3 unit(s)

Principles, procedures and techniques used to produce an advanced-level radio, audio, television or film

project. See department office for specific project information.

Misc/Lab: Lecture 2 hours/Activity 2 hours.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): RTVF 20, RTVF 30, upper division standing or instructor consent.

Grading: Letter Graded

RTVF 136 - Advanced Film & Television Production

3 unit(s)

Creation, production and direction of senior-level project utilizing cinematic language, advanced technical skills, directing talent, and narrative storytelling.

Misc/Lab: Lecture 2 hours/Activity 2 hours.

Prerequisite(s): RTVF 120, RTVF 130; Upper division standing or instructor consent.

Grading: Letter Graded

RTVF 160 - Introduction to Screenwriting

3 unit(s)

Basic principles and practices in writing scripts for film and/or television.

Course may be repeated for credit.

Prerequisite(s): RTVF 020, RTVF 030 and TA 100W, upper division standing or instructor consent.

Grading: Letter Graded

RTVF 161 - Advanced Screenwriting

3 unit(s)

Each student develops an original screenplay through several drafts in this workshop. Drawing on constructive feedback from classmates and instructor. The course focuses on dramatic structure, character and plot development as well as visual language of the screen.

Prerequisite(s): RTVF 160.

Grading: Letter Graded

RTVF 163 - Creating and Writing the Television Series

3 unit(s)

Builds on a student's previous narrative writing experience to provide an intensive study of creating and writing an original television series. Modeling a television writer's room, students study the narrative and dramatic requirements of developing a storyline and characters in the episodic form.

Lecture 2 hours/activity 2 hours.

Course may be repeated for up to 6 units.

Prerequisite(s): RTVF 160 or consent of instructor.

Grading: Letter Graded

RTVF 180S - Individual Studies

1-3 unit(s)

Directed study (special production or research projects) in specified fields not covered by offered courses.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor Consent

Grading: Letter Graded

RTVF 181 - Modern Film History

3 unit(s)

The history and evolution of the motion picture after 1945. Viewing of representative films, study and discussion of major world film movements, important directors, and key genres.

Prerequisite(s): RTVF 82, upper division standing or instructor consent.

Grading: Letter Graded

RTVF 183 - Critical Studies & Research in RTVF

3 unit(s)

Critical and scholarly inquiry into established and emerging areas of criticism, theory and research in RTVF studies. Production of scholarly criticism and research.

Prerequisite(s): RTVF 10, RTVF 80, Upper Division standing or instructor consent.

Grading: Letter Graded

RTVF 185 - Special Topics in RTVF

3 unit(s)

Special topics in radio, television and film. Contact department office for specific topic information.

Repeatable for up to 6 units when topic changes.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Upper division standing. Open to all students lower division students with instructor consent.

Grading: Letter Graded

RTVF 192I - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad

and Away programs.

Grading: Mixed Grading

RTVF 198 - RTVF Internships, Portfolio, Career Prep

3 unit(s)

Supervised internships with approved radio, television, film or media organizations. Written evaluation submitted by sponsor and student after field work. Repeatable for credit up to 6 units.

Misc/Lab: Lecture 3 hours/Activity 9 hours.

Course may be repeated for credit for up to 6 units.

Grading: Letter Graded

RTVF 199H - Honors Program

2-3 unit(s)

Demanding project demonstrating student's ability to do independent action and research. Written thesis or, in the case of the creative project, analysis and evaluation of the aesthetic problem; thesis to be defended orally by the student before a theatre arts staff committee. May be repeated once for credit.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Senior standing/3.0 GPA; by invitation only.

Grading: Credit/No Credit

Cross-listed with TA 199H. Film and Theatre is responsible for scheduling.

Recreation

RECL 10 - Creating a Meaningful Life

3 unit(s)

Study how a meaningful life relates to the freedom to pursue happiness. Examines personal, social, and cultural bases for a creative and successful lifestyle. Learn to recognize and foster creative potential for lifelong personal growth, meaningful rewards, and leisure enjoyment.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

RECL 15 - Human Life Span

3 unit(s)

Emphasizes growth and development of the individual from conception to death - perspective on biological, cultural, sociological and psychological changes and continuities during the human life span. Special attention will be given to socioeconomic status, gender and ethnic variations.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Cross-listed with PH 15. Public Health and Recreation is responsible for scheduling.
Sustainability Related - SDG 3: Good Health and Well-Being

RECL 90 - Foundations of Recreation Parks & Tourism

3 unit(s)

Field of parks and recreation; history of development of the recreation profession; survey of recreation and leisure services.

Grading: Letter Graded

RECL 94 - The Outdoor Recreation Experience

3 unit(s)

Students will explore, understand, and experience firsthand the value, meaning, and benefits of a variety of outdoor recreation activities. Socio-cultural and ecological systems will be examined as they relate to the delivery of outdoor recreation experiences in both the public and private sector.

Grading: Letter Graded

Sustainability Related - SDG 11: Sustainable Cities and Communities

RECL 97 - Event Planning

3 unit(s)

Principles of event planning with emphasis on development and integration of operational strategies in recreation and hospitality management. Application of programming techniques and exploration of career opportunities in event management.

Misc/Lab: Lecture 2 hours/activity 3 hours.

Grading: Letter Graded

RECL 100W - Writing Workshop

3 unit(s)

Developing and enhancing written communication skills in the recreation and leisure profession in the following areas: scientific/technical writing, administrative writing, public-relations-related writing and funding proposals.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Allowed Declared Majors: Recreation and Hospitality Management. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

RECL 110 - Leisure, Life and Contemporary Society

3 unit(s)

Explore conceptual foundations of play, recreation and leisure and their importance in physical, social, psychological and spiritual development across the lifespan. Assess the roles of existing services in enhancing quality of life across social, cultural, economic and environmental realms.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Related - SDG 11: Sustainable Cities and Communities

RECL 111 - Leisure, Culture, and Identity

3 unit(s)

Perspectives of leisure as a source of self-expression and social control related to cultural beliefs, values, and practices and institutionalized social systems. Observation, analysis and critique of history and social structures, leisure and culture, and personal opportunities for change.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Related - SDG 11: Sustainable Cities and Communities

RECL 112 - Foundations of Recreation Therapy

3 unit(s)

Fundamentals of the profession; history, delivery models, theory and practice of Recreation Therapy as a treatment modality for persons whose functional abilities are impaired. Exposure to ADA facility assessment, inclusion, and impact of social attitudes through didactic and experiential learning.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Sustainability Related - SDG 11: Sustainable Cities and Communities

RECL 132 - Recreation Program Planning

3 unit(s)

Learn to plan and implement programs and events for diverse individual, group and community recreation experiences using contemporary needs assessment, outcomes oriented goal setting, program/event selection, leadership techniques and evaluation tools.

Grading: Letter Graded

RECL 135 - Planning and Managing Rec Areas & Facil

3 unit(s)

Content includes legal principles and risk management, as well as fundamentals of facility design and preventive maintenance in recreation, park, and tourism settings. This is a problem-based learning course, including case study, problem solving, project applications, and working with stakeholders.

Grading: Letter Graded

Sustainability Related - SDG 8: Decent Work and Economic Growth

RECL 136 - Principles of Recreation and Park Admin

3 unit(s)

In the context of leadership roles and responsibilities in the field of recreation and park administration, course examines issues related to the organization and administration of human resources, finances, areas and facilities, programs, risk management, and liability.

Prerequisite(s): Upper Division Standing

Grading: Letter Graded

Sustainability Related - SDG 8: Decent Work and Economic Growth

RECL 140A - Spec Interventions in RT:Aquatic Therapy

1 unit(s)

Develop in-depth knowledge and skills related to the facilitation and supervision of a complex Recreation Therapy intervention. Includes equipment use, clinical application of each aspect of the activity or equipment, contraindications, safety, facilitation techniques, costs, industry standards, and evidence-based practices.

Course may be repeated for credit for up to 3 units.

Grading: Letter Graded

RECL 140B - Spec Inter in RT: Behavior Interventions

1 unit(s)

Theory and practice of interventions that positively affect healthy behaviors. Implementing prevention strategies including activity modification, assessment of harmful or disruptive behaviors, and identifying cause and effect relationships. Learn and practice teaching appropriate behaviors, increasing appropriate behaviors, decreasing inappropriate behaviors.

Course may be repeated for credit for up to 2 units.

Grading: Letter Graded

RECL 140C - Spec Inter in RT: Adventure Tx

1 unit(s)

Theoretical, hard, and soft skills related to adventure therapy interventions. Demonstrate skill development

through facilitation. Learn diverse interventions and clinical application, modification, contraindications, and safety precautions for each based on psychiatric diagnosis served.

Course may be repeated for credit for up to 2 units.

Grading: Letter Graded

RECL 143 - Festivals and Community Special Events

3 unit(s)

Principles and applications for effective management of festivals, fairs and community special events; including planning, marketing, financing, evaluating, logistics, consumer behavior, corporate sponsorship, licensing agreements, risk management, and sustainable practices.

Grading: Letter Graded

Sustainability Related - SDG 8: Decent Work and Economic Growth

RECL 144 - Natural and Cultural Resource Interpretation in Recreation and Parks

3 unit(s)

Explore the interpretive approach to communicating value and vision of nature, outdoor recreation and tourism sites. Gain skills to develop and conduct activities such as guided walks, interpretive programs and fireside chats. Learn fundamentals of creating interpretive media such as brochures, displays, and exhibits as well as e-media.

Grading: Letter Graded

Sustainability Related - SDG 11: Sustainable Cities and Communities

RECL 148 - Biofeedback Principles and Practices

3 unit(s)

Conceptual and historical review of Biofeedback theory and practice. Experiential engagement with software, instrumentation, data interpretation and personal reflection. Assessment, treatment, evaluation, and case studies applied to medical and non-medical practices.

Lecture 2 hours/activity 2 hours.

Grading: Letter Graded

RECL 150 - For-Profit Enterprises in Recreation

3 unit(s)

Development of knowledge and skills relating to the variety and types of for-profit recreation enterprises, including planning for and management of commercial ventures, development of corporate identity and market niche, and forecasting of trends and shifts in consumer culture.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

RECL 152 - Non-Profit Leadership & Management

3 unit(s)

Introduction to the historical and philosophical foundations of the Non-Profit sector. Provides a basic understanding of key issues in managing contemporary nonprofit organizations including: organizational behavior; board development; fund-raising; boundary-spanning skills; and developing leadership skills for social innovation and entrepreneurship.

Prerequisite(s): Upper Division Standing.

Grading: Letter Graded

RECL 153 - Youth Development and Services

3 unit(s)

Surveys the field of youth development, its historical roots, sociocultural and psychological development, and contemporary innovations. Develop knowledge of the institutional and programmatic factors that lead to positive developmental outcomes for youth in leisure and human service organizations.

Prerequisite(s): Upper Division Standing

Grading: Letter Graded

RECL 155 - Outdoor Recreation Systems

3 unit(s)

Overview of outdoor recreation in the United States. Study of the historic, social, economic and political factors influencing natural resource protection. Includes a survey of organizations that manage visitors and protected areas to provide quality outdoor recreation experiences.

Prerequisite(s): Upper Division Standing.

Grading: Letter Graded

Sustainability Related - SDG 15: Life on Land

RECL 157 - Sustainable Recreation & Ecotourism

3 unit(s)

Course examines cultural, ethical, environmental and social science issues, and uses applied research methods to achieve competence in making programmatic and resource management decisions for recreational and tourism purposes.

Prerequisite(s): Upper division standing

Grading: Letter Graded

Sustainability Focused - SDG 8: Decent Work and Economic Growth

RECL 157ITL - Sustainable Recreation & Ecotourism: International Experience

3 unit(s)

Course examines cultural, ethical, environmental and social science issues, and uses applied research

methods to achieve competence in making programmatic and resource management decisions for recreational and tourism purposes.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

RECL 160 - Evaluation and Research in Recreation

3 unit(s)

Students will learn about the systematic process for evaluation or research. The course focuses on three main areas: Criteria and research questions, evidence and data (data collection and data analysis), and judgment and interpretation. The course is for students interested in basic information about systematic inquiry using evaluation and research design, data collection and analysis, and data reporting.

Prerequisite(s): RECL 90, RECL 100W, RECL 110

Corequisite(s): RECL 136.

Grading: Letter Graded

RECL 169 - Practicum in Recreation Therapy

1 unit(s)

Supervised 100 hour competency-based field learning in approved health agency (e.g., hospital, community health, municipal). Learning exposes the learner to different populations, interventions, terminology, resources. Learner will observe job task skills, apply knowledge, and gain abilities of Recreation Therapy practice.

Prerequisite(s): RECL 90

Grading: Credit/No Credit

RECL 170A - Pre-Intern Workshop

1 unit(s)

Introduces and prepares upper division majors for senior internship. Includes career goal clarification, resume development and interviewing through both workshops and online delivery.

Prerequisite(s): RECL 90, RECL 100W, RECL 110.

Corequisite(s): RECL 136, RECL 137.

Grading: Credit/No Credit

RECL 170B - Internship in Recreation

10 unit(s)

Supervised 40-hour per week internship (minimum of 12 weeks) in one of a variety of approved agencies (leisure services, park and recreation, or tourism/commercial recreation).

Prerequisite(s): Upper division standing; RECL 136, RECL 160, RECL 170A.

Grading: Credit/No Credit

RECL 170C - Internship in Recreation Therapy

10 unit(s)

Supervised 40-hour per week internship (minimum 15 weeks, 600 hours) occurring in approved health agencies. Supervisor must have a valid CTRS credential. Student develop competencies as identified in the NCTRC Job Task Analysis and ATRA Standards of Practice.

Prerequisite(s): RECL 112, RECL 170A, RECL 187, RECL 193, RECL 197, RECL 198, and RECL 199.

Grading: Credit/No Credit

RECL 180 - Individual Studies

1-4 unit(s)

Individual work investigating special topics/problems through research, applied projects, and/or field experiences. Assessment by project(s) and/or paper(s).

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Upper division standing, supervising instructor approval, and department chair consent.

Grading: Credit/No Credit

RECL 184 - Directed Reading

1-4 unit(s)

Directed reading in journals and books by authorities in Hospitality, Recreation, Tourism and related fields. Assessment by project(s) and/or paper(s).

Prerequisite(s): Upper division standing, supervising instructor approval, and department chair consent.

Grading: Credit/No Credit

RECL 185 - Leisure, Recreation and Aging

3 unit(s)

Theory and practice related to the role of leisure services in maximizing the quality of life for older adults. Interrelationship of leisure and other supportive services for older adults in community and institutional settings.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with GERO 185. Public Health and Recreation is responsible for scheduling.

RECL 187 - Leisure Education in Recreation Therapy

3 unit(s)

Overview of leisure education as it is used both in medical and non-medical settings to improve functioning and wellbeing among diverse clientele. Students will learn historical, philosophical, and contemporary conceptual foundations, evidence-based and practical applications to service delivery.

Grading: Letter Graded

RECL 192 - International Program Studies

1-10 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

RECL 193 - RT Interventions for People with Physical Conditions

3 unit(s)

Theoretical foundations, research, and evidenced based Recreation Therapy interventions for persons with physical, intellectual, and developmental disabilities and other chronic conditions. Focuses on rehabilitation, community reintegration, day programs, and inclusion.

Prerequisite(s): Upper division standing

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

RECL 197 - Recreation Therapy in Mental Health

3 unit(s)

Application of theory, models, concepts and facilitation processes used in Recreation Therapy and related professions for people with mental health conditions. Experiential learning and facilitation of leisure education, clinical interventions, and behavioral change processes used in medical and non-medical settings.

Lecture 2 hours/activity 2 hours.

Prerequisite(s): Upper division standing and RECL 112.

Grading: Letter Graded

Sustainability Focused - SDG 3: Good Health and Well-Being

RECL 198 - Rec Therapy Assessment and Documentation

3 unit(s)

Clinical procedures utilized in Recreation Therapy whereby habilitation/rehabilitation is the primary goal; client assessment, development of behavioral objectives and treatment plans, evaluation, documentation, medical terminology, and charting procedures are covered. Extensive skill development regarding critique and development of assessment tools.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

RECL 199 - Advanced Practices in Recreation Therapy

3 unit(s)

The application and examination of concepts, techniques, research, and legal issues utilized by advanced practitioners and managers. Includes trends and issues related to clinical supervision, reimbursement, quality improvement, legislation, comprehensive program design, and applied research that produces evidenced based practice.

Prerequisite(s): RECL 112.

Grading: Letter Graded

Religious Studies

RELS 1A - Elementary Hebrew

4 unit(s)

Basic skills and structure of the Hebrew language, in the context of the history and range of cultural expressions in the Hebrew speaking world.

Satisfies C2: Humanities.

Grading: Letter Graded.

Cross-listed with HEBR 1A / JWSS 1A. World Languages and Literatures is responsible for scheduling.

RELS 1B - Elementary Hebrew

4 unit(s)

Second level of Elementary Hebrew, further developing students' proficiency in reading, writing, speaking, and listening in Modern Hebrew, delving deeper into the context of the history and range of cultural expressions in the Hebrew speaking world.

Satisfies C2: Humanities.

Prerequisite(s): HEBR 1A (or equivalent).

Grading: Letter Graded.

Cross-listed with HEBR 1B / JWSS 1B. World Languages and Literatures is responsible for scheduling.

RELS 15A - Intermediate Hebrew

3 unit(s)

Developing speaking skills.

Prerequisite(s): HEBR 1A and HEBR 1B (or equivalent).

Grading: Letter Graded.

Cross-listed with HEBR 15A / JWSS 15A. World Languages and Literatures is responsible for scheduling.

RELS 15B - Intermediate Hebrew

3 unit(s)

Developing speaking skills.

Prerequisite(s): HEBR 1A and HEBR 1B (or equivalent).
Grading: Letter Graded.

Cross-listed with HEBR 15B / JWSS 15B. World Languages and Literatures is responsible for scheduling.

RELS 70 - Gods, Guns, Gurus, Grails-World Religion

3 unit(s)

Survey of major world religions, east and west, past and present. Structure and patterns of faith manifest in sacred texts, institutions, rituals, central figures and movements.

Satisfies C2: Humanities.

Grading: Letter Graded

RELS 90 - Bible History and Literature

3 unit(s)

The Bible in context of its history, literary sources and as a reflection of Jewish and Christian traditions. Motifs and themes in light of their original audience, historic usage and contemporary development.

Satisfies C2: Humanities.

Grading: Letter Graded

Cross-listed with HUM 90 / JWSS 90 / MDES 90. Humanities is responsible for scheduling.

RELS 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

RELS 99 - Death, Dying and Religions

3 unit(s)

Is death the end or the beginning? Learn how people integrate the physical, emotional, psychological, and spiritual dimensions of living and dying. Examine religious teachings and practices for making death personally meaningful, socially significant, or even politically powerful.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

Cross-listed with GERO 99 / HUM 99. Humanities is responsible for scheduling.

RELS 100W - Writing in the Humanities & Interdisciplinary Arts

3 unit(s)

Advanced workshop in composition and reading for the critical and comparative study of the humanities and interdisciplinary arts. Students explore and practice the thinking and writing skills that help us communicate insight, critique, interpretation, description, and analysis of arts, literature, history, and culture, including expository writing and library research. Readings and objects of study include a range of topics and at least two different art forms.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second-semester composition course (with a grade of C- or better); completion of core GE; and upper-division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

Cross-listed with AMS 100W / HUM 100W. Humanities is responsible for scheduling.

RELS 102A - Advanced Hebrew

3 unit(s)

Readings, grammar, discussion and composition.

Prerequisite(s): Four semesters of college Hebrew (or equivalent).

Grading: Letter Graded

Cross-listed with HEBR 102A / JWSS 102A. World Languages and Literatures is responsible for scheduling.

RELS 102B - Advanced Hebrew

3 unit(s)

Readings, grammar, discussion and composition.

Prerequisite(s): 12 units of college Hebrew (or equivalent).

Grading: Letter Graded

Cross-listed with HEBR 102B / JWSS 102B. World Languages and Literatures is responsible for scheduling.

RELS 104 - Asian Philosophy

3 unit(s)

Philosophical examination of Confucianism, Daoism, Buddhism and some other significant movements of thought originated in Asia. Comparison with Western philosophy.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ASIA 104 / PHIL 104. Philosophy is responsible for scheduling.

RELS 109 - Philosophy of Religion

3 unit(s)

Philosophical issues regarding the existence of a supreme being, evil, mysticism, miracles, reincarnation, faith, the possibility of enlightenment, and the connection between religion and morality.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

Cross-listed with PHIL 109. Philosophy is responsible for scheduling.

RELS 111 - Special Topics in Jewish Studies

3 unit(s)

Special Topics in Jewish Studies. Topics vary and will be announced each semester. Repeatable for credit under different subtitles. Repeatable for credit when topic changes.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with HIST 111 / HUM 111 / JWSS 111. History is responsible for scheduling.

RELS 114 - Legacy of Asia

3 unit(s)

Interdisciplinary focus on continuity and change in China and India as these ancient civilizations responded to challenges throughout their history.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ANTH 114 / ASIA 114 / HUM 114. Humanities is responsible for scheduling.

RELS 120 - Censors and Icons: Arts and Religion

3 unit(s)

Study of interactions between arts and world religions, using paradigmatic examples (e.g. Eastern Orthodox icons, Muslim architecture, Zen Buddhist calligraphy, Hindu Vedic chant, Biblical poetry) and contemporary developments (e.g. Evangelical Christian films, New Age music, religious themes in literature).

Grading: Letter Graded

RELS 122 - Magic, Science and Religion

3 unit(s)

Exploring the ways in which people have attempted to gain mastery over the natural and supernatural worlds beginning with prehistoric times and concluding with modern day society and the contemporary world.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ANTH 122. Humanities is responsible for scheduling.

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

RELS 131 - Gender, Sexuality, and Religion

3 unit(s)

Women's roles and gendered categories within diverse religions. Feminist critiques, reforms, and creations of religious institutions. The political and feminist dimensions of women's religious experience. Understanding the roles of sexuality in religion.

Prerequisite(s): Upper-division standing or instructor consent.

Grading: Letter Graded

Cross-listed with WGSS 131. Humanities is responsible for scheduling.

Sustainability Related - SDG 5: Gender Equality

RELS 134 - Religion Film & Media

3 unit(s)

Depictions of religion, religions, religious behavior, and religious propaganda in film and media. Exploring these from several perspectives, (e.g. emic and etic, cross-national, aesthetic) and examining the murky problem of "the truth" in the depiction of religious and spiritual experience.

Prerequisite(s): Upper-division standing or instructor consent.

Grading: Letter Graded

Cross-listed with CA 134 / HUM 134. Humanities is responsible for scheduling.

RELS 137 - Introduction to Black Religion

3 unit(s)

Analysis of formation and development of African American religious ideas and institutions (i.e., Christianity, Islam, Judaism) in the Black community and their effect on the African American personality.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with AFAM 137. African American Studies is responsible for scheduling.

RELS 142 - Contemporary Buddhism and its Roots

3 unit(s)

Teachings of Gautama, the Buddha and ways in which those teachings were modified in forms of Buddhism that followed: Theravada in southeast Asia and Mahayana in East Asia.

Prerequisite(s): Upper-division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ASIA 142 / HUM 142. Humanities is responsible for scheduling.

RELS 144 - Chinese Traditions

3 unit(s)

Religious thought and practice of China's three Great Traditions (Buddhism, Taoism and Confucianism) as well as China's Little Tradition (Chinese folk religion). The role of these traditions within traditional Chinese culture and their relevance to the modern world, including China.

Prerequisite(s): Upper-division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ASIA 144 / HUM 144. Humanities is responsible for scheduling.

RELS 145 - Middle Eastern Traditions

3 unit(s)

Introduction to the peoples and cultures of the Middle East through exploration of the cooperation, competition, conflict and dialogues between the ethnic, national, and religious communities of contemporary Middle Eastern countries.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ANTH 145 / MDES 145. Humanities is responsible for scheduling.

RELS 148 - Religion and Anthropology

3 unit(s)

Comparative anthropological study of religious systems and world views; Anthropological theories concerning origin and evolution of religion; structure and function of ritual and myth; types of religious specialists.

Prerequisite(s): ANTH 11, ANTH 25 or instructor consent.

Grading: Letter Graded

Cross-listed with ANTH 148. Anthropology is responsible for scheduling.

RELS 156 - Islam, Politics and the West

3 unit(s)

An in-depth look at the roots of Islamic tradition, law, politics, culture, and society. Emphasis on Islam's growing global prominence; relations with the West; stereotypes and misconception, as well as the nature of the Islamic state.

Prerequisite(s): Upper-division standing or instructor consent.

Grading: Letter Graded.

Cross-listed with MDES 156. Humanities is responsible for scheduling.

RELS 162 - Religion and Political Controversy in the US

3 unit(s)

Contemporary problems (e.g., ecology, abortion, war, gender, sexuality and race) as interpreted by a diverse range of American ethno-religious groups.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

RELS 180 - Individual Studies

1-4 unit(s)

A project.

Prerequisite(s): Religious studies upper-division major or minor and coordinator consent.

Grading: Credit/No Credit

Cross-listed with MDES 180. Humanities is responsible for scheduling.

RELS 184 - Directed Reading

1-4 unit(s)

Prerequisite(s): Religious studies upper-division major or minor and coordinator consent.

Grading: Credit/No Credit

Cross-listed with MDES 184. Humanities is responsible for scheduling.

RELS 190 - Senior Seminar in Humanities

3 unit(s)

Readings, discussions and individual research projects relating to an interdisciplinary theme selected by the instructor.

Pre/Corequisite(s): Upper-division Standing. Any 100W class.

Grading: Letter Graded.

Cross-listed with AMS 190 / HUM 190. Humanities is responsible for scheduling.

RELS 191 - Religion in America

3 unit(s)

History of social and intellectual influence of religious groups, stressing their African-, Asian-, European-, Latin- and Native-American roots. Highlights contact between groups, immigration, religious diversity and syncretism.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with HUM 191. Humanities is responsible for scheduling.

RELS 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Russian

RUSS 1A - Elementary Russian I

4 unit(s)

Elementary Level course that teaches the basics of Russian script and cursive, pronunciation patterns, grammar and sentence structure. Students are able to conduct everyday conversations, read simple texts and write short paragraphs on topics studied.

Satisfies C2: Humanities.

Grading: Letter Graded

RUSS 1B - Elementary Russian II

4 unit(s)

Second semester Elementary Level course. Basics of Russian pronunciation patterns, grammar and sentence structure in the context of culture. Students will be able to conduct everyday conversations, read simple texts and write short paragraphs on topics studied.

Satisfies C2: Humanities.

Prerequisite(s): RUSS 1A (or equivalent).

Grading: Letter Graded

Science

SCI 2 - Success in Science

3 unit(s)

Emphasis on development of study skills, time management, and personal growth needed to transition from high school to university. Orientation to SJSU policies and procedures; and degree and career options in science. Guest lecturers, peer advisors, and community building.

Lecture 2 hours/Activity 2 hours.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded.

SCI 75 - Fundamentals of Leadership and Career Accelerator

3 unit(s)

This course is a foundational course designed to begin preparing students in their sophomore year or first year of transfer to SJSU to practice the leadership habits of mind and workplace skills needed to thrive in 21st century workplaces. Given the increasingly competitive, and globalized job marketplace, this course enables participants to cycle through rounds of interactive experiences and practice to acquire "hard" and "soft" skills needed to succeed. Students will apply these skills in real-life leadership situations and build meaningful networks of peers and adults, all while activating their personal assets and deepening their sense of self and community.

Misc/Lab: 2 hours lecture/ 2 hours lab

Prerequisite(s): ENGL 1A

Grading: Letter Graded

Cross-listed with UNVS 75. Science is responsible for scheduling.

SCI 90 - Success as Transfer Students

2-3 unit(s)

Emphasis on development of study skills, time management, and personal growth needed to transition from community college to university. Orientation to SJSU policies and procedures; and degree and career options. Guest lecturers, peer advisors, and community building.

Misc/Lab: Lecture 1 hour/activity 2 hours/recitation 1 hour.

Grading: Letter Graded

SCI 101 - Leadership and Career Accelerator

3 unit(s)

Prepares students for the increasingly competitive, globalized job marketplace. Through online, peer learning, interactive experiences, and reflection, students build meaningful networks, discover their innate leadership, and cultivate the hard and "soft" skills and habits of mind needed to thrive in twenty-first century workplaces and make positive impact through their careers upon graduation. Aimed at students in their sophomore or junior year or first year of transfer, though all students of all majors can participate.

2 hours Lecture/2 hours Activity.

Prerequisite(s): ENGL 1A or ENGL 1AS with a grade of "C-" or better or complete GE Area A2 with a grade of "C-" or better.

Grading: Letter Graded

Note(s): Why take UNVS 101?

Cross-listed with UNVS 101. Science is responsible for scheduling.

SCI 157SL - Community Action/Community Service

3 unit(s)

A campus-wide service learning program with opportunities for direct involvement with local community services, both off campus and on campus. Weekly seminars held on campus or at the field site, plus four to six hours of community service work per week at the field site.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with COMM 157SL / EDUC 157SL / ENGR 157SL / HA 157SL. Communication Studies is responsible for scheduling.

Sustainability Related - SDG 11: Sustainable Cities and Communities

SCI 180 - Individual Studies

1-4 unit(s)

Work, under guidance, in special fields. Repeatable: Repeatable for credit.

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit

SCI 184 - Directed Reading

1-4 unit(s)

Assigned readings of selected books, journals and special papers chosen to fill gaps in training or to introduce new fields. Evaluation through weekly reports and conferences.

Prerequisite(s): Instructor consent.

Grading: Credit/No Credit

SCI 299 - Master's Thesis

1-6 unit(s)

Thesis development for Plan A MA Natural Science students, to be carried out under direct supervision of a faculty member and committee. Seminar presentation required upon final completion of thesis. Repeatable: Repeatable for credit.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Advancement to candidacy for the master's degree and selection of a thesis committee.

Grading: Mandatory Credit/No Credit/RP

Science Education

SCED 5 - Sustainability, Human Development, and the Earth

3 unit(s)

Introductory course examining the role and interaction of the natural world on the physiological, social, and psychological development of human beings within the context of the environmental, social, and academic community system.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

Cross-listed with GEOL 5. Geology is responsible for scheduling.

Sustainability Related - SDG 11: Sustainable Cities and Communities

SCED 174 - Science Pedagogy for Learning Assistants

3 unit(s)

Learning Assistants (LAs) investigate how people learn and how to support learning as they are immersed in teaching roles in the San José community. Integrates educational theory, pedagogy, content, and practice by focusing on practical concerns and theoretical models of learning.

Lecture 2 hours/Activity 3 hours.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

SCED 175 - Classroom Experiences in Science Teaching

1 unit(s)

The goal of this hybrid online/face-to-face course is to provide students with the opportunity to complete their 45 hours of science teaching observation in California public schools while also reflecting on teaching and learning practices. The course will emphasize the multi-faceted aspects of the teaching profession and most importantly will provide a forum for sharing experiences with other students who are similarly placed. The course will fulfill pre-professional teaching observation experience required of most Single Subject Teacher Credential Programs.

Prerequisite(s): Sophomore or upper division standing. Not available to Open University Students.

Grading: Letter Graded

SCED 184Y - Student Teaching II - Classroom Teaching

4 unit(s)

Minimum 80-120 class hours of classroom, lab or field teaching in appropriate single subject, grades K-12 and related teaching activities/seminar.

Prerequisite(s): SCED 273 (Science Credential Candidates must complete SCED 273 with a grade of "B" or better, "B-" not accepted) and joint approval of the Science Education Program and the Secondary Education Department. Not available to Open University Students.

Grading: Credit/No Credit

SCED 184Z - Student Teaching III - Classroom Teaching

4 unit(s)

Minimum 80-120 class hours of classroom, lab or field teaching in appropriate single subject, grades K-12 and related teaching activities/seminar.

Prerequisite(s): SCED 273 (Science Credential Candidates must complete SCED 273 with a grade of "B" or better, "B-" not accepted) and joint approval of the Science Education Program and the Secondary Education Department. Not available to Open University Students.

Grading: Credit/No Credit

Note(s): May be in different subject/school and will be at a different grade level.

SCED 205 - Methods of Research

3 unit(s)

Introduction to techniques and procedures of scientific research. Each student is required to prepare and defend a working outline of a master's thesis or project in his or her area of concentration.

Grading: Letter Graded

Note(s): Introductory course in statistics or equivalent recommended.

SCED 220 - Theories and Practices in Science Education

3 unit(s)

Introduction to classic and cutting-edge learning theories in science education. Explore research-based understandings of science learning with implications for inquiry and practice. Emphasis on developing expertise in a science education area of interest and contextualizing questions and problems of teaching and learning in educational literature.

Misc/Lab: Lecture/seminar 3 hours.

Satisfies GEAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): Teaching experience preferred. Must be taken during first year in program. This course satisfies graduate-level GEAR in this master's program.

SCED 230 - Science Education Data Analysis

3 unit(s)

Introduction to science education data analysis methods and techniques. Students will engage in both quantitative and qualitative data analysis.

Prerequisite(s): Instructor consent required.

Grading: Letter Graded

SCED 255 - Advanced Natural Science

1-3 unit(s)

Selected topics in natural science or science education.

Repeatable for credit when topic changes.

Grading: Letter Graded

SCED 273 - Secondary School Science

3 unit(s)

Designed to engage teacher candidates (TC) in the methods, learning theories, practices, and instructional and pedagogical approaches for teaching justice-centered science in secondary schools. TCs develop strategies, master techniques, and gain practice-based experience in the promotion of inclusive, inquiry-based classrooms. In addition, TCs learn to design equitable unit and lesson plans that build from young people's experiences and sense making practices, engage in the Next Generation Science Standards (NGSS) and use technology to enhance the learning environment. Theory and practice, instructional techniques, and materials for science in the secondary schools.

6 hours Activity.

Prerequisite(s): CSET Subtest I (test code 215) covers general science content and CSET Subtest II (test codes 217-220) select the subtest II that fits candidate's area of concentration. Life Sciences (test code 217), Chemistry (test code 218), Earth and Space Sciences (test code 219), Physics (test code 220).

Grading: Letter Graded

SCED 285 - Seminar

3 unit(s)

Provides a format for the presentation and discussion of original work by faculty, guest investigators and graduate students.

Course may be repeated for credit for up to 6 units.

Grading: Letter Graded

SCED 297 - Science Education Research

1-3 unit(s)

Research in science education under the supervision of a faculty member associated with the science education program.

Course may be repeated for credit for up to 6 units.

Grading: Credit/No Credit

SCED 298 - Research

1-6 unit(s)

Project development for MS Science Education students, to be carried out under direct supervision of a faculty member and committee. Seminar presentation required upon final completion of project.

Course may be repeated for credit for up to 6 units.

Grading: Mandatory Credit/No Credit/RP

SCED 375 - Colloquium in Science Education

2 unit(s)

Resources and innovations for science curriculum development and instruction. An interface with people and facilities which can enhance Bay Area science instruction. California Teaching Performance Assessment (Cal TPA) preparation and guidance.

Corequisite(s): SCED 184Y or SCED 184Z.

Grading: Credit/No Credit

Note(s): Also open to experienced teachers.

SCED 1290R - Culminating Experience Supervision

1 unit(s)

Continued Work on Thesis

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in a project or thesis class.

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Secondary Education

EDSC 153 - Student Teaching/Seminar for Interns

2 unit(s)

Third of three courses required of second year interns. Action research, peer observation, and self reflection serve as vehicles for examining how instructional design affects student outcomes in content literacy. Includes classroom observations and professional development activities.

Prerequisite(s): EDSC 152.

Grading: Credit/No Credit

EDSC 162 - Language/Literacy Development of L2 Learners

3 unit(s)

Principles of language structure, variation, and usage. First and second language acquisition theories and application of teaching in diverse secondary classrooms. Social and psychological influences on linguistic behavior of students. Cultural and political issues affecting language attitudes.

Prerequisite(s): Program Director consent.

Grading: Letter Graded

EDSC 172A - Social, Philosophical Multicultural Fdn

3 unit(s)

Social, cultural, historical and philosophical concepts in secondary teacher education: Application to problems of curriculum and instruction in multilingual, multicultural classrooms.

Prerequisite(s): Program director consent.

Grading: Letter Graded

EDSC 173 - Psychological Foundations of Secondary Teacher Education

3 unit(s)

Application of developmental cognitive and socio-cultural theories of adolescent psychology and culture as a rationale for teaching and learning.

Prerequisite(s): Program director consent.

Grading: Letter Graded

EDSC 184P - Introduction to Student Teaching

1 unit(s)

Single Subject Credential Teacher candidates engage in a supervised field experience in a public middle school or high school that enables them to complete some of the course requirements for EDTE 208.

Activity 2 hours.

Course may be repeated for up to 2 units for credit.

Prerequisite(s): Enrolled in single subject credential program.

Grading: Credit/No Credit.

EDSC 184X - Student Teaching I

6 unit(s)

Supervised teaching of public middle or high school students. In-class experience ranging from observation to classroom teaching. Emphasis on application of theories examined in foundations courses.

Prerequisite(s): Program director consent.

Grading: Credit/No Credit

EDSC 184Y - Student Teaching II

2-6 unit(s)

Minimum 80-120 class periods of classroom teaching in grades K-12. Related school activities.

Prerequisite(s): Joint approval of major advisor, program director and field placement coordinator.

Grading: Credit/No Credit

EDSC 184Z - Student Teaching III

1-6 unit(s)

Minimum 80-120 class periods of classroom teaching in grades K-12. Related school activities.

Prerequisite(s): Joint approval of major advisor, program director and field placement coordinator.

Grading: Credit/No Credit

EDSC 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Social Science

SOCS 15 - Statistical Applications in the Social Sciences

3 unit(s)

Introduction to statistical applications, particularly statistical inference, including central tendency, variation, normal distributions, probability, estimation, hypothesis testing, measures of association, correlation, linear regression and the analysis of variance.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Math Enrollment Category M-I, M-II, or M-III, or for Category IV, completion of a GE Area B4 course with a grade of C- or better. Corequisite weekly supported instruction required for Enrollment Category M-III, and recommended for M-II.

Grading: Letter Graded

Cross-listed with SOCI 15. Sociology and Interdisciplinary Social Sciences is responsible for scheduling.
Sustainability Related

SOCS 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

History is responsible for scheduling.

SOCS 137 - California History for Teachers

3 unit(s)

Interdisciplinary course to prepare future teachers to teach California history from a wide range of social science perspectives. Includes the diverse history of California's people, politics, and cultures and their impact on the nation and the world. Create and implement teaching strategies for use in classrooms.

Grading: Letter Graded

Note(s): Not acceptable for Economics majors, except double majors; acceptable for Economics minors.

History is responsible for scheduling.

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

SOCS 138 - US History for Teachers

3 unit(s)

Interdisciplinary course to prepare future teachers to teach the United States history from a wide range of social science perspectives. Study of the diverse history of the people, politics, and cultures of the US while examining movements for social justice. Students create and implement engaging strategies for use classrooms.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

History is responsible for scheduling.

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

SOCS 139 - World History for Teachers

3 unit(s)

This interdisciplinary course is intended to prepare future teachers to teach world history from a wide range of social science perspectives. Students will compare the diverse ideas, values, and histories of various world cultures. Students will create and implement engaging teaching strategies for use in their own future classrooms.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): HIST 15 and POLS 15 or AAS 33A and AAS 33B. Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

History is responsible for scheduling.

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

SOCS 177 - Sociology of Education

3 unit(s)

This course applies sociology of education theory to the analysis of the relationship between society and education. The course focuses on race/ethnicity, class and gender in the U.S. educational system.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with SOCI 177. Sociology and Interdisciplinary Social Sciences is responsible for scheduling.

Sustainability Related - SDG 4: Quality Education

SOCS 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

History is responsible for scheduling.

SOCS 195 - Social Science Teacher Preparation

3 unit(s)

In this capstone course Social Science Teacher Preparation majors will synthesize their learning about the theory and practice of Social Science education through the completion of a major portfolio project. Required for majors.

Prerequisite(s): SOCS 177; completed graduation application; or instructor consent.

Grading: Letter Graded

History is responsible for scheduling.

SSCI 90 - Successfully Negotiating Social Science

1 unit(s)

Course designed to help students in the College of Social Sciences, enabling them to learn the skills and

knowledge necessary to become successful students. Students will explore the ways in which different social scientists see, research, analyze, understand and communicate.

Grading: Letter Graded

Social Science Education

SSED 184Y - Student Teaching II - Classroom Teaching

4 unit(s)

Minimum 80-120 class periods of classroom, teaching lab or field teaching in appropriate single subjects, grades K-12 and related teaching activities/seminar.

Prerequisite(s): SSED 378 with a passing grade of "B" or better (B- not acceptable) and joint approval of major and Education departments.

Grading: Credit/No Credit

SSED 184Z - Student Teaching III - Classroom Teaching

4 unit(s)

See SSED 184Y for course description.

Grading: Credit/No Credit

Note(s): May be in different subject/school and will be at a different grade level.

SSED 378 - Social Science Methods

3 unit(s)

For prospective secondary teachers who plan to teach in the social science field. A prerequisite to student teaching.

Grading: Letter Graded

Social Work

SCWK 10 - Introduction to Social Welfare and Social Work

3 unit(s)

Social welfare institutions and the social work profession: its development, knowledge base, value system and specific areas of direct practice.

Grading: Letter Graded

SCWK 100W - Writing Workshop

3 unit(s)

Focuses on developing and enhancing writing and presentation skills vital to the social work profession in the following areas: research, grant writing, clinical documentation, and administration.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

SCWK 105 - Social Work and Environmental Justice

3 unit(s)

Explores evidence-based social work practice and policies to respond to natural and human-influenced domestic and international environmental issues. Provides a social work perspective to environmental issues and its impact on diverse vulnerable populations.

Satisfies SJSU Studies Area R: Earth, Environment, and Sustainability

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter graded.

SCWK 106 - Understanding Diversity Through a Transcultural Lens

3 unit(s)

Enhances understanding of diversity by examining multiple aspects of human expression in cultures and societies outside the US. Using the Transcultural Perspective, students will deepen their knowledge and appreciation of various cultures.

Satisfies SJSU Studies Area V: Cultures and Global Understanding

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter graded.

SCWK 107 - Aging and Society

3 unit(s)

Social, psychological and physiological aging processes. Implications of aging for individuals and societies, with emphasis on issues related to diversity, equality and gender in the U.S.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with GERO 107 / PH 107. Social Work is responsible for scheduling.

Sustainability Focused - SDG 10: Reduced Inequalities

SCWK 110 - Foundations of Social Work Practice

3 unit(s)

Introduction to the history, mission, values, skills and knowledge base of generalist social work practice within a transcultural perspective. Focus on social work practice with emphasis on those populations-at-risk who are disenfranchised and marginalized.

Prerequisite(s): Junior standing, Social Work majors only.

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

SCWK 111 - Generalist Social Work Practice I

3 unit(s)

Knowledge, values and skills for generalist social work practice utilizing problem-solving methods with systems of all sizes. Focus on developing professional relationships, defining issues, communication skills, collecting data and assessing individuals from diverse backgrounds interacting with their environments.

Prerequisite(s): SCWK 110, SCWK 120, SCWK 130, SCWK 140. Junior or Senior standing. Allowed Declared Majors: Social Work.

Corequisite(s): SCWK 141.

Grading: Letter Graded

SCWK 112 - Generalist Practice II

3 unit(s)

Knowledge, values and skills for generalist social work practice with emphasis on families, groups, organizations and communities. Focus on transactions to optimize social well-being and empowerment of individuals, families and communities utilizing strengths and transcultural perspectives.

Prerequisite(s): SCWK 111 (with a grade of "C" or better).

Corequisite(s): SCWK 142.

Grading: Letter Graded

SCWK 120 - Social Welfare Institutions and Policies I

3 unit(s)

Development of social work as a profession, including mission, values, ethics. Development and changes in the philosophy, legislative base and structures for social services as these affect social and economic justice and impact health and well-being.

Prerequisite(s): Junior standing and Social Work majors only.

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

SCWK 121 - Social Welfare Institutions and Policies II

3 unit(s)

Methodology and framework for analyzing social policy and understanding institutional discrimination, particularly related to populations-at-risk and other disenfranchised groups. Political and organizational processes to influence policy development.

Prerequisite(s): SCWK 120, junior standing, Social Work majors only.
Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

SCWK 130 - Human Behavior in the Social Environment I

3 unit(s)

Theories and knowledge of bio-psycho-social development from birth to old age. The dynamics of interacting social systems and culture on human development. Theories and research on risk and resilience. Human diversity and populations-at-risk emphasized.

Prerequisite(s): Junior standing, Social Work majors only.
Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

SCWK 131 - Human Behavior in the Social Environment II

3 unit(s)

Theories and knowledge about families, groups, organizations, and communities from a systems perspective. The impact of discrimination, economic deprivation and oppression on populations-at-risk. Emphasis on the promotion of optimal health and well-being.

Prerequisite(s): Junior Standing. Social Work majors only.
Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

SCWK 140 - Introduction to Field Practicum

3 unit(s)

Direct involvement with community services to provide the student with exposure to clients/client systems prior to Field Practicum I. Six to eight hours weekly in community-based agencies and on-campus seminars.

Pre/Corequisite(s): SCWK 110 and Social Work majors only.
Grading: Credit/No Credit

SCWK 141 - Field Practicum I

2-5 unit(s)

Generalist social work practice with individuals, families and communities from a transcultural perspective in an agency under supervision. Sixteen hours per week required in placement.

Prerequisite(s): SCWK 110, SCWK 120, SCWK 130 and SCWK 140. Junior or Senior standing. Allowed Declared Majors: Social Work.

Corequisite(s): SCWK 111.

Grading: Credit/No Credit

SCWK 142 - Field Practicum II

2-5 unit(s)

Generalist social work practice in an agency setting continued. Emphasis on individuals, small groups and communities from a transcultural perspective. Sixteen hours per week required in placement.

Prerequisite(s): SCWK 111 and SCWK 141. Junior or senior standing. Allowed Declared Majors: Social Work.

Corequisite(s): SCWK 112.

Grading: Credit/No Credit

SCWK 170 - Introduction to Research Methods

3 unit(s)

Scientific and analytic approaches to building knowledge for social work practice, including ethical issues in social research. Evaluation of service delivery systems using qualitative and quantitative research methodologies.

Prerequisite(s): SCWK 110, SCWK 120, and SCWK 130. Junior standing and Social Work majors only.

Pre/Corequisite(s): STAT 95.

Grading: Letter Graded

SCWK 175 - Social Work Senior Seminar

3 unit(s)

An integrative capstone seminar reviewing current trends, problems and issues confronting the profession. Developments and challenges in California and the country for BA level generalist practitioners evaluated in light of the student's own personal and professional goals.

Pre/Corequisite(s): Social Work majors only; must be taken concurrently with SCWK 112 and SCWK 142; or taken in the semester immediately following completion of SCWK 142, and all other Social Work courses must have been completed.

Grading: Letter Graded

SCWK 180 - Individual Studies

1-4 unit(s)

Individual work on special topics by arrangement.

Prerequisite(s): Department major.

Grading: Credit/No Credit

SCWK 192 - Social Work with Families

3 unit(s)

Exploration of various family forms, cultural factors and dynamics influencing family interaction with agencies and community. Practice strategies include assessment, defining strengths and focusing on interventions to promote health and well-being.

Prerequisite(s): SCWK 110, SCWK 120 or SCWK 130 (or equivalent).

Grading: Letter Graded

SCWK 192I - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

SCWK 200W - Social Work Graduate Writing Course

3 unit(s)

Course is a graduate writing course with emphasis on the development of English writing skills for academic purposes. Special emphasis is given on School of Social Work's (SJSU) Transcultural perspective.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

SCWK 202 - Social Policy and Services: History and Values

3 unit(s)

History of social welfare and work with emphasis on diverse populations, particularly Latinos/as, African Americans and Asian Americans. Social policy and social work values in relation to practice issues and social services.

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

SCWK 204 - Social Policy Analysis

3 unit(s)

Frameworks for analyzing social policies using principles of social and economic justice. The role of policy in helping or deterring people in attaining well-being. Focus on diverse populations and populations-at-risk.

Prerequisite(s): SCWK 202.

Grading: Letter Graded

SCWK 212 - Human Behavior in Social Environment I

3 unit(s)

Systems and ecological models presented with the transcultural perspective provide the primary theoretical foundation. Life course perspective is applied from infancy to end of adult life cycle to understand behaviors of individuals and families with special emphasis on marginalized groups.

Grading: Letter Graded

SCWK 214 - Human Behavior in Social Environment II

3 unit(s)

Systems and ecological models provide the primary theoretical foundation. Special focus is given to transcultural perspective within the contexts of mezzo (families and small groups) and macro social work (organizations and communities) with marginalized populations.

Prerequisite(s): SCWK 212.

Grading: Letter Graded

SCWK 215 - Advanced Standing Bridge Integrated

4 unit(s)

Summer bridge course for the Advanced Standing Masters of Social Work Program. It is intended to supplement the foundational knowledge, skills, and values developed by qualified students in respective BSW program.

Grading: Letter Graded

SCWK 220 - Transcultural Generalist Practice I

3 unit(s)

Transcultural generalist practice with client systems, particularly individuals and families, at micro, mezzo and macro levels. Assessment, planning and implementing interventions within a professional relationship, utilizing a strengths perspective, focusing on Latinas/as, African Americans and Asian Americans.

Corequisite(s): SCWK 230.

Grading: Letter Graded

SCWK 221 - Transcultural Generalist Practice II

3 unit(s)

Transcultural generalist practice with client systems, particularly groups, organizations and communities to enhance well-being. Approaches and skills to ameliorate conditions affecting people adversely, particularly those of diverse backgrounds and populations-at-risk. Emphasis on promoting social and economic justice.

Prerequisite(s): SCWK 220 and SCWK 230.

Grading: Letter Graded

SCWK 222 - Transcultural Advanced Generalist Practice I: Family Systems Focus

3 unit(s)

Transcultural advanced generalist practice with an emphasis on family systems, diverse cultural patterns and varying family forms. Assessment of multi-system interactions with communities and organizations, focusing on enhancing the health and well-being of marginalized populations and populations-at-risk.

Prerequisite(s): SCWK 221.

Corequisite(s): SCWK 232.

Grading: Letter Graded

SCWK 223 - Transcultural Advanced Generalist Practice II: Community Systems Focus

3 unit(s)

Methods of community intervention at multiple levels focused on empowerment and developing the strengths of diverse groups, particularly Latino/a, African American, Asian American and other oppressed and marginalized populations. Includes community social work, assessment and interventions.

Prerequisite(s): SCWK 221.

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

SCWK 224 - Advanced Generalist Practice With Spanish Speaking Populations

3 unit(s)

Analysis of culturally relevant services to linguistic minority Spanish-speaking population from a transcultural generalist perspective. Skills to include Spanish language interventions appropriate for cultural access, appropriate assessment, individual, family and group interventions and advocacy for client systems at all levels.

Prerequisite(s): SCWK 221.

Grading: Letter Graded

SCWK 230 - Social Work Practicum I

1-6 unit(s)

Development of transcultural practice skills with families, groups and individuals in their social contexts. Emphasis on developing professional roles and relationships, applying multi-system assessment and interventions, particularly with Latino/a, African American and Asian American clients/client systems.

Course may be repeated for credit for up to 18 units.

Prerequisite(s): Allowed Declared Majors: Social Work.

Corequisite(s): SCWK 220.

Grading: Credit/No Credit

SCWK 231 - Social Work Practicum II

1-6 unit(s)

Development of skills to differentially assess the strengths and capacities of interacting individuals, families, groups, organizations and communities. Application, termination and evaluation of problem-solving interventions from a transcultural generalist practice perspective.

Course may be repeated for credit for up to 18 units.

Prerequisite(s): SCWK 230. Allowed Declared Majors: Social Work.

Corequisite(s): SCWK 221.

Grading: Credit/No Credit

SCWK 232 - Social Work Practicum III

1-6 unit(s)

Development of advanced generalist practice skills with individuals, families, groups, organizations and communities from a transcultural perspective emphasizing family, community and policy practice. Development of skill to use self effectively with diverse clients, colleagues and community members from various backgrounds.

Course may be repeated for credit for up to 18 units.

Prerequisite(s): SCWK 231. Allowed Declared Majors: Social Work.

Corequisite(s): Advanced Courses.

Grading: Credit/No Credit

SCWK 233 - Social Work Practicum IV

1-6 unit(s)

Development of advanced generalist practice skills with the aged, children and youth, health/mental health or educational settings. Developing culturally competent skills to assess, plan, implement and evaluate interventions from transcultural and strengths perspectives to address family and community well-being.

Course may be repeated for credit for up to 18 units.

Prerequisite(s): SCWK 232. Allowed Declared Majors: Social Work.

Corequisite(s): Advanced Courses.

Grading: Mandatory Credit/No Credit/RP

SCWK 240 - Research Methods and Design

3 unit(s)

Scientific method and problems of knowledge. Basic concepts and models of research methodology, qualitative research, program and practice evaluation in social work. Critical analysis of existing research on ethnic minorities and other populations-at-risk.

Grading: Letter Graded

Sustainability Related - SDG 1: No Poverty

SCWK 242 - Research Methods, Data Analysis and Evaluation

3 unit(s)

Basic concepts and models for research methodology applied to the analysis of data in social work. Emphasis on quantitative analysis using microcomputers.

Prerequisite(s): SCWK 240.

Grading: Letter Graded

SCWK 243 - Advanced Standing SW Bridge - Grad

2 unit(s)

Summer bridge course for the Advanced Standing Masters of Social Work Program. It is intended to

supplement the foundational knowledge and skills needed for using research evidence to inform practice and policy.

Grading: Letter Graded

SCWK 245 - Management in Human Services

3 unit(s)

The organization and continuous operation of services delivery systems including the functions of management, decision-making, communication, authority, delegation, planning and staffing.

Grading: Letter Graded

Note(s): An elective.

SCWK 250 - Policy Practice in Health and Aging

3 unit(s)

Critical analysis of the impact of policies related to health and aging particularly those who are Latino/a, African American and Asian American. Assessment of organizations and policy implementation. Development of strategies to promote well-being and social change.

Prerequisite(s): SCWK 204.

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

SCWK 251 - Social Work in Health and Aging

3 unit(s)

Knowledge and skill development for practice from a transcultural multi-systems perspective in aging and health care settings. Emphasis on Latino, African American, Asian American, and other diverse client systems. Conceptual frameworks for practice at micro, mezzo, and macro levels.

Prerequisite(s): SCWK 220 and SCWK 221.

Grading: Letter Graded

Cross-listed with GERO 251. Social Work is responsible for scheduling.

SCWK 260 - Policy Practice in Child and Family Welfare

3 unit(s)

Critical analysis of the impact of social policies on children and families, particularly those who are Latino/a, African American and Asian American. Assessment of organizational structures and policy implementation. Development of strategies to promote well-being and social change.

Prerequisite(s): SCWK 204.

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

SCWK 261 - Social Work Practice with Children

3 unit(s)

Skills and knowledge in working with high-risk children and families from an advanced generalist perspective. Focus on understanding of child and family development as well as assessment and intervention at various levels in a transcultural context.

Prerequisite(s): SCWK 221.

Grading: Letter Graded

Note(s): An elective.

SCWK 262 - Social Work Practice with Adolescents

3 unit(s)

Skills and knowledge in working with diverse populations of high-risk adolescents from an advanced generalist perspective. Focus on understanding adolescent and family development as well as assessments and interventions at various levels in a transcultural context.

Prerequisite(s): SCWK 221.

Grading: Letter Graded

Note(s): An elective.

SCWK 263 - Social Work and the Law

3 unit(s)

Analytical skills to understand the legal system, its functions, organization, jurisdiction and case processing methods. An examination of the legal environment of social work practice in selected settings: domestic violence, child abuse and neglect, sexual abuse and education.

Grading: Letter Graded

Note(s): An elective.

SCWK 265 - Child Welfare Practice in Public and Government Systems

3 unit(s)

This course focuses on advanced child welfare practice relevant to public and government settings. It provides a transcultural, multi-systems approach to working with children, youth, families and communities within the child welfare system, and as they intersect with community-based organizations.

Prerequisite(s): SCWK 231

Corequisite(s): SCWK 232

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

SCWK 267 - Advancing Child Welfare Practice Skills Through Simulation

1 unit(s)

Advanced practice seminar that utilizes a simulation model to provide depth and breadth in knowledge and skill acquisition regarding engagement, assessment, and intervention that promote child safety and the well-being of children and families in the child welfare system.

Prerequisite(s): SCWK 231

Corequisite(s): SCWK 232

Grading: Credit/No Credit

SCWK 272 - Social Work in Educational Settings

3 unit(s)

Examines the promotion of well-being and social change, with emphasis on attainment of educational goals. Individual and family needs are explored in the context of educational policies, organizational dynamics, pupil adjustment and assessment, life cycle development, and advocacy.

Prerequisite(s): SCWK 212, SCWK 214, SCWK 220, SCWK 221.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

SCWK 280 - Policy Practice in Mental Health

3 unit(s)

Critical analysis of the impact of mental health policies on populations-at-risk, particularly those who are Latina/o, African American, and Asian American. Assessment of organizations and policy implementation. Development of strategies to promote well-being and social change.

Prerequisite(s): SCWK 204.

Grading: Letter Graded

Sustainability Focused - SDG 3: Good Health and Well-Being

SCWK 281 - Social Work in Mental Health

3 unit(s)

Knowledge and skill development for advanced generalist practice in mental health settings. Emphasis on Latino/a, African American and Asian American clients/client systems interacting with service delivery systems. Conceptual frameworks for practice at micro, mezzo and macro levels. Social Work program elective.

Prerequisite(s): SCWK 221.

Grading: Letter Graded

SCWK 283 - Psychopharmacology for Social Workers

3 unit(s)

Historical trends and specific cultural, ethnic, gender and age related issues of alcohol and drug use are presented. Psychotherapeutic drugs and the pharmacologic basis of medicines for psychiatric disorders and culturally competent treatment interventions for substance abuse will be discussed. Social Work program elective.

Grading: Letter Graded

Sustainability Focused - SDG 3: Good Health and Well-Being

SCWK 285 - Social Work and Social Problems

3 unit(s)

Examination of selected social problems related to the direct practice of social work that focus on in-depth knowledge of the problems and of the required direct practice skills and techniques.

Course may be repeated for credit for up to 6 units.

Grading: Letter Graded

Note(s): An elective.

Sustainability Related - SDG 1: No Poverty

SCWK 285ITL - Social Work and Social Problems: International Experience

3 unit(s)

Examination of selected social problems related to the direct practice of social work that focuses on in-depth knowledge of the problems and of the required direct practice skills and techniques across cultures.

Course may be repeated for credit for up to 6 units.

Grading: Letter Graded

SCWK 287 - Advanced Generalist Practice in Substance Abuse

1-3 unit(s)

An examination of clinical, policy, and practice issues regarding abuse and dependence of alcohol and other drugs. Analysis and utilization of micro, mezzo and macro considerations related to prevention, harm reduction, drug policies, and current intervention models and treatment approaches.

Grading: Letter Graded

Note(s): An elective.

SCWK 298A - Special Study A

1-4 unit(s)

Planning and implementation of research emphasizing culturally appropriate measures and design strategies. First part of a two-part special project course in which students produce a professionally written project demonstrating an understanding of the knowledge base underlying social work issues and appropriate interventions.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): SCWK 242

Grading: Credit/No Credit/Incomplete.

SCWK 298B - Special Study B

1-4 unit(s)

Planning and implementation of research emphasizing culturally appropriate measures and design strategies. Students continue their work from ScWk 298 A to produce a professionally written project demonstrating an understanding of the knowledge base underlying social work issues and appropriate interventions.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): SCWK 298A.

Grading: Mandatory Credit/No Credit/RP

SCWK 299 - Master's Thesis

1-4 unit(s)

Repeatable for a total of 4 units.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Advancement to candidacy for the master's degree; approval of the college's research committee.

Grading: Mandatory Credit/No Credit/RP

Sociology

SOCI 1 - Introduction to Sociology

3 unit(s)

How does society affect individual behavior and how does individual behavior affect society? Influence of social institutions and arrangements (family, school, workplace, politics, etc.) on roles, groups, values. Basic sociological theories and methods. Careers, specializations. Required for majors, minors.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

SOCI 15 - Statistical Applications in the Social Sciences

3 unit(s)

Introduction to statistical applications, particularly statistical inference, including central tendency, variation, normal distributions, probability, estimation, hypothesis testing, measures of association, correlation, linear regression and the analysis of variance.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Math Enrollment Category M-I, M-II, or M-III, or for Category IV, completion of a GE Area B4 course with a grade of C- or better. Corequisite weekly supported instruction required for Enrollment Category M-III, and recommended for M-II.

Grading: Letter Graded

Cross-listed with SOCS 15. Sociology and Interdisciplinary Social Sciences is responsible for scheduling.
Sustainability Related

SOCI 57 - Community Involvement and Personal Growth

3 unit(s)

Human development in community context, with an emphasis on civic responsibility. The influence of community engagement on individual physiological, social/cultural, and psychological well-being. Participation in a service-learning project in a multicultural organization.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

Sociology and Interdisciplinary Social Sciences is responsible for scheduling.
Sustainability Related - SDG 1: No Poverty

SOCI 80 - Social Problems

3 unit(s)

Sociological analysis of selected contemporary social problems such as housing and homelessness, economy and employment, environment and consumerism, family and divorce, crime and drugs, politics and media, race and gender, wealth and poverty, war and peace. Required for majors.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Sustainability Focused - SDG 1: No Poverty

SOCI 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

SOCI 100W - Writing Workshop

3 unit(s)

Practice in improvement of writing and research skills appropriate to the field of sociology, including formal

reports, journals and articles.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): SOCI 1; A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level. Allowed Declared Majors: Sociology; Behavioral Science; Chicana Chicano Studies; Women, Gender, and Sexuality Studies, and Asian American Studies.

Grading: Letter Graded.

Note(s): Required for Sociology Majors. Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

SOCI 101 - Social Theory

3 unit(s)

Comparative analysis of micro and macro sociological theories and their origins, including, but not limited to, conflict theories, consensus theories, structural functionalism, symbolic interaction and recent theoretical developments. Required for majors.

Prerequisite(s): SOCI 1 (or equivalent) and upper division standing. Allowed Declared Majors: Sociology and Behavioral Studies only. All other majors must have instructor consent.

Pre/Corequisite(s): SOCI 100W.

Grading: Letter Graded

SOCI 104 - Quantitative Research Methods

3 unit(s)

Quantitative research methods including survey research design, hypothesis formulation, questionnaire and interview design, scaling, sampling and data preparation and SPSS analysis. Completion of a class research project plus individual research reports. Required for majors.

Prerequisite(s): SOCI 1 or equivalent, SOCI 15 or approved Statistics course from another school; SOCI 100W, SOCI 101 and upper division standing.

Grading: Letter Graded

Sustainability Related

SOCI 105 - Qualitative Research Methods

3 unit(s)

Philosophy and logic of research design, interviewing techniques, field methods, issues of participant observation, theoretical perspectives, content analysis and qualitative microcomputer techniques. Required for Sociology majors.

Prerequisite(s): SOCI 1 or equivalent, SOCI 100W, SOCI 101 and upper division standing.

Grading: Letter Graded

SOCI 105B - Advanced Qualitative Research Methods

3 unit(s)

Involves planning and conducting an in-depth research project utilizing interviews and/or participant observation. Students will design research project, collect data and take field-notes, code and analyze data, and write-up results. Project may involve exploration of a local issue.

Prerequisite(s): SOCI 1, SOCI 100W, SOCI 101 and SOCI 105.

Grading: Letter Graded

SOCI 116 - Global Society

3 unit(s)

Examination of global social issues, evaluation of the impact of change on world communities and analysis of the response of specific groups to emerging problems and opportunities. Required for majors.

Prerequisite(s): SOCI 1 or equivalent.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

SOCI 118 - Sociology of Human Rights and Social Justice

3 unit(s)

Analyze meanings and practices of human rights violation and promotion by exploring the social consequences of issues such as war crime, sexism, migrant rights, and social displacement and by reflecting on prevailing and alternative institutions for social justice.

Prerequisite(s): SOCI 1 or equivalent

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

SOCI 120 - Contemporary Social Issues

3 unit(s)

A current issue in contemporary society. Content differs each semester. Repeatable for 6 unit maximum of SOCI 120, SOCI 123 or any combination.

Prerequisite(s): SOCI 1 or equivalent.

Grading: Letter Graded

Sustainability Focused - SDG 10: Reduced Inequalities

SOCI 127 - Community-Based Participatory Research

3 unit(s)

This course integrates interdisciplinary theory and practice in developing a situated understanding of community-based participatory research (CBPR) toward redressing environmental inequities. Students will apply these theories and practices in their own environmental research and advocacy projects regarding local environmental issues.

Prerequisite(s): Upper Division Standing

Grading: Letter Graded

Cross-listed with ENVS 127. Environmental Studies is responsible for scheduling.

SOCI 140 - Sociology of Media

3 unit(s)

Examines the historical development of popular mass media and its role in contemporary society. Explores the relationship between culture, social behavior, and various media forms. Analyzes how gender, race, class, and sexuality have been depicted and represented in media images.

Prerequisite(s): SOCI 1.

Grading: Letter Graded

Sustainability Focused - SDG 10: Reduced Inequalities

SOCI 141 - Environmental Sociology

3 unit(s)

This course will analyze how human beings interact with their environment from both macro and micro sociological perspectives. The course will address a number of other relevant topics, including environmental classism, environmental racism and policy responses to environmental problems.

Prerequisite(s): Upper Division Standing

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

SOCI 142 - Critical Native American Studies

3 unit(s)

Investigation of current and historical issues Indigenous peoples in the United States face or have faced. Unpacks the complex relationship Native nations have developed with the United States, and the impact the government-to-government relationship has on Indigenous societies.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

SOCI 143 - Feminist Perspectives on Gender and Education

3 unit(s)

The role of gender in the educational system in the United States from both a historical and contemporary context. Focus on the significance of schools as the primary socializing institution for boys and girls.

Prerequisite(s): Junior standing or instructor consent.

Grading: Letter Graded

SOCI 144 - Education for Liberation

3 unit(s)

Critical and sociological examination of attempts to address inequalities and disparities within community-oriented learning programs and movements. Focus on nonformal learning programs associated with workers; education, adult and lifelong education (including anti-literacy and popular theater), and pro-people popular education (related to national liberation, pro-democracy, human rights, antiracist, pro-migrant, feminist, and youth movements).

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

SOCI 145 - Community Mental Health

3 unit(s)

Comprehensive analysis of community mental health using a socio-ecological framework. Intersection of race, socioeconomic status, gender, sexual orientation, and mental health is examined. Emphasis is on prevention and recovery.

Prerequisite(s): Any 100W or instructor consent.

Grading: Letter Graded

Cross-listed with PH 145 / PSYC 145. Public Health and Recreation is responsible for scheduling.

SOCI 146 - Work, Power, and Leisure

3 unit(s)

Explores power in organizational settings where we work and play, and how those settings affect the family, the economy and communities. Settings examined may include corporations, cooperatives, social change organizations, community organizations, non-profit organizations such as hospitals and schools.

Prerequisite(s): SOCI 1 or equivalent.

Grading: Letter Graded

SOCI 147 - Education and Global Justice

3 unit(s)

Exploration of the relationship between formal education and social justice issues, as well as formulation and evaluation of solutions to educational problems and inequalities. using global, comparative, cross-national, and Third World development evidence.

Grading: Letter Graded

SOCI 148 - Current Topics and Trends in Education

3 unit(s)

Analysis of the current environment of sociology of education from both a macro and micro perspective through sociological, political, philosophical and economic perspectives. Includes the study of qualitative descriptions and quantitative trends of contemporary issues in the field of sociology of education.

Grading: Letter Graded

SOCI 151 - Violence in the Family

3 unit(s)

A sociological examination of violence in families focusing on the causes and consequences of violence and on the ways in which various social institutions and community agencies respond to violence among intimates.

Prerequisite(s): SOCI 1.

Grading: Letter Graded

SOCI 154 - Sociology and Non-Conforming Behavior

3 unit(s)

Sociological analysis of behavior outside of social conventions including crime, mental illness, suicide and chemical dependency.

Prerequisite(s): SOCI 1 or equivalent.

Grading: Letter Graded

Sustainability Focused - SDG 3: Good Health and Well-Being

SOCI 157 - Sociology of Youth Sport

3 unit(s)

Introductory examination of the contemporary social, cultural, and economic significance of youth sport through the lens of various sociological theories. Situates U.S. youth sports within a global context, and examines variations in sporting experiences for youth who differ by race, class, gender, sexuality, religion, and ability. Unpacks how youth sports programs have been used to achieve political ends, and how young athletes have advocated for social justice.

Grading: Letter Graded

SOCI 160 - Immigration and Identity

3 unit(s)

Examination of topics related to immigration and population movements. Includes the historical context of major migrations, legal, political and social issues and debates, opportunities, prejudices, immigrant communities, intergenerational tensions, and social and personal identity pressures.

Prerequisite(s): SOCI 1 or equivalent.

Grading: Letter Graded

Sustainability Focused - SDG 10: Reduced Inequalities

SOCI 161 - City Life

3 unit(s)

The city as a setting for diverse lifestyles. Challenges facing urban dwellers and adaptive strategies they take. Comparison of city, suburb and rural countryside as social environments.

Prerequisite(s): Upper Division or instructor consent

Grading: Letter Graded

SOCI 162 - Race and Ethnic Relations

3 unit(s)

Analysis of racial and ethnic groups in American society; contacts and conflicts; prejudice and discrimination; dominant and subordinate group status; social structure of racial and ethnic inequality within society. Comparison of global race and ethnic relations.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 10: Reduced Inequalities

SOCI 163 - Social Change

3 unit(s)

Analysis of causes, consequences and the role of individuals, organizations and social structures in producing social change.

Prerequisite(s): SOCI 1 or equivalent.

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

SOCI 164 - Social Action

3 unit(s)

The tactics and strategies of social action. Topics may include applying social action to the local community, studying current and past U.S. and international social action organizations, or examining theories of social movements. Repeatable once when content changes.

Prerequisite(s): SOCI 1 or equivalent.

Grading: Letter Graded

SOCI 165 - Poverty, Wealth and Privilege

3 unit(s)

An examination of the causes and consequences of inequality along the dimensions of social class, race/ethnicity, gender, citizenship status, and/or sexualities. Approach may be local, national or global.

Prerequisite(s): SOCI 1 or equivalent.

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

SOCI 166 - Medical Sociology

3 unit(s)

Sociological analysis of medical and mental health institutions, values and roles. Patient-doctor interaction, influence of hospital structure on health care, social class and illness, cultural determinants of illness and related areas of old age (gerontology) and death.

Prerequisite(s): SOCI 1 or equivalent.

Grading: Letter Graded

Cross-listed with GERO 166. Sociology and Interdisciplinary Social Sciences is responsible for scheduling.
Sustainability Related - SDG 3: Good Health and Well-Being

SOCI 169 - Political Sociology

3 unit(s)

Analysis of cultural, social and institutional foundations of political policies and actions. Emphasis on patterns affecting political behavior and processes in the industrialized and developing countries.

Prerequisite(s): SOCI 1 or equivalent.

Grading: Letter Graded

SOCI 170 - Sociology of Family

3 unit(s)

Examines the historical development of family in the context of social, cultural, political, and economical inequalities, and how intersections of gender, race, class, nationality, sexuality, and age impact understandings of family and intimacy. Explores relationships within families and new family forms.

Prerequisite(s): SOCI 1.

Grading: Letter Graded

SOCI 171 - Person and Society

3 unit(s)

Analyzes our "self" as socially created and maintained through everyday interactions. Explores how individuals manage and protect self identity in settings, e.g. school, family, work. Effects of race/ethnicity, gender, sexuality, and age on definitions of self and reality.

Prerequisite(s): SOCI 1 or instructor consent.

Grading: Letter Graded

SOCI 172 - Lesbian, Gay, Bi, Transgender Studies

3 unit(s)

Explores lesbian, gay, bisexual, transgender, and intersex communities. Analyzes sexual behavior, attitudes, and identities from historical, cross-cultural, and "insider" and "outsider" perspectives. Presents social reactions to LGBT movements and persons. Includes current stereotypes, misinformation, and movements to achieve equality.

Prerequisite(s): SOCI 1.

Grading: Letter Graded

Sustainability Focused - SDG 10: Reduced Inequalities

SOCI 173 - Socialization and Identity

3 unit(s)

Personality formation in the context of family, social interaction and institutions of socialization such as workplace, family and community. Emphasis on childhood and the social processes that mold basic beliefs and values in the formation of adult identity.

Prerequisite(s): SOCI 1.

Grading: Letter Graded

SOCI 174 - Sexualities

3 unit(s)

Examines diverse social constructions of sexual intimacy, meanings, identities, practices, and power embedded in relationships, communities and organizations. Sociological themes of morality, control, sexual citizenship, science and the production of sexual subjects, and the political economy of sex may be examined.

Prerequisite(s): SOCI 1.

Grading: Letter Graded

Sustainability Focused - SDG 5: Gender Equality

SOCI 175 - Sociology of Masculinities and Femininities

3 unit(s)

Examination and analysis of social construction of gender through interaction and social institutions. Explores gender-based identities and how intersections of gender, race, class, and sexuality shape men's and women's experiences. Examines theories of gender and gender-based social movements.

Prerequisite(s): SOCI 1.

Grading: Letter Graded

Cross-listed with WGSS 175. Sociology and Interdisciplinary Social Sciences is responsible for scheduling.

Sustainability Focused - SDG 5: Gender Equality

SOCI 176 - Sociology of Everyday Life

3 unit(s)

Examination of micro-sociology, small group processes, and interactions. Using the framework of Everyday Life, this includes studies of power, status, communication, cooperation, conflict resolution, task performance. Provides understanding of small formal and informal groups, work groups and intimate relationships.

Prerequisite(s): SOCI 1 or instructor consent

Grading: Letter Graded

SOCI 177 - Sociology of Education

3 unit(s)

This course applies sociology of education theory to the analysis of the relationship between society and education. The course focuses on race/ethnicity, class and gender in the U.S. educational system.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with SOCS 177. Sociology and Interdisciplinary Social Sciences is responsible for scheduling.
Sustainability Related - SDG 4: Quality Education

SOCI 178 - Sociology of Childhood

3 unit(s)

Examination of sociological issues, theories, and research on childhood from infancy to adolescence, including the role of social institutions in shaping the childhood experience and the emergence of peer cultures that change societies.

Prerequisite(s): SOCI 1.

Grading: Letter Graded

SOCI 179 - Sociology of Higher Education

3 unit(s)

This course will examine the institution of higher education and its relationship to and with society. The course will address a number of other relevant topics, including educational inequalities, student debt and consequences of policy.

Prerequisite(s): Upper division Standing

Grading: Letter Graded

SOCI 180 - Individual Studies

1-4 unit(s)

Prerequisite(s): Instructor consent and department chair approval.

Grading: Credit/No Credit

SOCI 181 - Service Internship

1-6 unit(s)

Supervised placement in practical situations where sociologists are employed, including correctional services, community planning, industry, research, social action and social welfare agencies.

Prerequisite(s): SOCI 1 or equivalent, SOCI 100W, SOCI 101 and upper division standing, or graduate standing. Department Chair approval.

Grading: Credit/No Credit

SOCI 181B - Sociology Career Capstone

3 unit(s)

Capstone course to expand undergraduate senior opportunities and options. Analyzes trends in sociology; explores employment and careers, reflection and assessment of learning in the major.

Prerequisite(s): SOCI 1, SOCI 100W, SOCI 101, and SOCI 104 or SOCI 105.

Grading: Letter Graded

Note(s): Students must have taken at least one of the required research method courses before enrolling in the capstone course.

SOCI 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

SOCI 193 - Behavioral Science in Practice

3 unit(s)

Capstone workshop for behavioral science majors. Students assess methods and knowledge of anthropology, psychology and sociology, and synthesize them by reflecting upon case studies of individual, organizational, community, and global issues. Emphasis is on cooperative learning, reflection and synthesis of skills and knowledge.

Prerequisite(s): Senior standing. Allowed Declared Major: Behavioral Science or Behavioral Science double major.

Grading: Letter Graded

Cross-listed with ANTH 193 / PSYC 193. Anthropology is responsible for scheduling.

Sustainability Related - SDG 16: Peace, Justice and Strong Institutions

SOCI 199H - Senior Honors Project

1-4 unit(s)

Preparation and writing of an original project. Repeatable for a total of 4 units.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Sociology Honors Program student.

Grading: Mandatory Credit/No Credit/RP

SOCI 200 - Sociological Practice

3 unit(s)

Introduces graduate students to the theoretically informed practice of sociology with a particular emphasis on the analysis of social problems. Covers topics such as program evaluation, community and institutional research, and policy advocacy.

Prerequisite(s): Graduate Standing

Grading: Letter Graded

SOCI 201 - Graduate Sociological Theory

3 unit(s)

Introduction to the theories and concepts sociologists use in the study of society. The course emphasizes contemporary social theories, grounded in the classical canon of Marx, Durkheim, and Weber. Application of theory to contemporary social problems. Content may vary with instructor.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Graduate Standing.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

SOCI 204 - Quantitative Data Analysis

3 unit(s)

Covers foundations of statistical analyses as well as the statistical techniques most commonly practiced by quantitative social science researchers such as univariate descriptive statistics, bivariate relationships, and multivariate modeling.

Prerequisite(s): Graduate Standing

Grading: Letter Graded

SOCI 205 - Seminar in Qualitative Research Methods

3 unit(s)

Involves planning and conducting an in-depth research project utilizing interviews and/or participant observation. Students will design research project, collect data and take field-notes, code and analyze data, and write-up results. Project may involve exploration of a local issue.

Prerequisite(s): Graduate Standing

Grading: Letter Graded

SOCI 223 - Seminar in Sociological Issues

3 unit(s)

Analysis of a current issue in sociology which is not covered by other graduate seminars. Content differs each semester. Repeatable once with advisor consent when content changes.

Grading: Letter Graded

SOCI 262 - Seminar in Race and Ethnic Relations

3 unit(s)

Analysis of sociological theories of race relations and racism, social structural conditions of race and racial identity formation, society's institutional policies and practices that affect racial inequality.

Prerequisite(s): Graduate Standing

Grading: Letter Graded

Sustainability Focused - SDG 16: Peace, Justice and Strong Institutions

SOCI 270 - Seminar in Sociology of Family

3 unit(s)

Comparative analysis of institutional forms and family small group systems including alternative life styles and minority families. Problems of the family. Changes in family roles and in family law.

Prerequisite(s): Graduate Standing

Grading: Letter Graded

SOCI 281 - Internship in Sociology

1-6 unit(s)

Supervised placement in practical situations where sociologists are employed: correctional services, community planning, industry, counseling agencies and others. Course is repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Grading: Credit/No Credit

Note(s): Open to graduate students by arrangement with the department.

SOCI 298 - Special Study

1-4 unit(s)

Advanced individual research and projects. May not be related to thesis topic. Course is repeatable for a total of 4 units.

Course may be repeated for credit for up to 4 units.

Prerequisite(s): Consent of instructor and approval by graduate advisor or department chair.

Grading: Mandatory Credit/No Credit/RP

SOCI 1290R - Culminating Experience Supervision

1 unit(s)

Continuing analysis of data and writing of thesis.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP in a preceding semester for a Thesis or Special Project course.

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Software Engineering

SE 116A - Introduction to Computer Graphics

3 unit(s)

Vector geometry, geometric transformations and the graphics pipeline. Basic raster graphics algorithms for drawing discrete lines, clipping, visible surface determination and shading. Display of curves and surfaces. Graphics data structures.

Prerequisite(s): MATH 31 or MATH 31X, MATH 39, CS 146 (with a grade of "C-" or better in each) and previous programming experience in C/C++; Allowed Majors: Computer Science, Data Science, Software Engineering or Applied/Computational Math or instructor's consent.

Grading: Letter Graded

Cross-listed with CS 116A. Computer Science is responsible for scheduling.

SE 116B - Computer Graphics Algorithms

3 unit(s)

In-depth discussion of algorithms and techniques used in computer graphics and their implementation. Topics include: animation, fractals, anti-aliasing, fill algorithms, visible surface algorithms, color and shading, ray tracing, radiosity and texture maps. Substantial programming required.

Prerequisite(s): CS 116A (with a grade of "C-" or better) or instructor consent.

Grading: Letter Graded

Note(s): Offered only occasionally.

Cross-listed with CS 116B. Computer Science is responsible for scheduling.

SE 123A - Bioinformatics I

3 unit(s)

Introduction to algorithms, tools, and databases of Bioinformatics. Biological foundations: central dogma; sequence databases; pairwise alignment algorithms and tools; Blast; phylogenetics. Possible additional topics: protein structure, multiple sequence alignment, next-gen sequencing, epigenetics, CRISPR. Project applying these approaches to real-world problems.

Prerequisite(s): CS 46B or BIOL 31, or instructor consent. Allowed Majors: Computer Science, Data Science, Software Engineering, Biology, Chemistry or MS Bioinformatics.

Grading: Letter Graded

Cross-listed with BIOL 123A / CS 123A. Computer Science is responsible for scheduling.

SE 123B - Bioinformatics II

3 unit(s)

Advanced Bioinformatics algorithms, tools, databases. Biological background; protein structure/function; sequencing technology; sequence identification; transcriptomics; metagenomics; CRISPR. Possible additional topics: functional genomics; protein networks; drug discovery; pathway analysis; immunoinformatics; analysis pipelines; machine learning applications. Project applying advanced approaches to real-world problems.

Prerequisite(s): CS 123A/BIOL 123A/SE 123A; Allowed Majors: Computer Science, Data Science,

Software Engineering, Biology, Chemistry or MS Bioinformatics.

Grading: Letter Graded

Cross-listed with BIOL 123B / CS 123B. Computer Science is responsible for scheduling.

SE 134 - Computer Game Design and Programming

3 unit(s)

Architectures and object-oriented patterns for computer game design. Animation, simulation, user interfaces, graphics, and intelligent behaviors. Team projects using an existing game engine framework.

Prerequisite(s): CS 146 and either CS 151 or CMPE 135 (with a grade of "C-" or better in each); Allowed Majors: Computer Science, Applied and Computational Math, Software Engineering; or instructor consent.

Grading: Letter Graded

Cross-listed with CS 134. Computer Science is responsible for scheduling.

SE 135 - Object-Oriented Analysis and Design

3 unit(s)

Feasibility analysis and system requirements determination, object-oriented design methodology, and information systems design using object-oriented modeling techniques. Emphasis on both theoretical and practical aspects of object-oriented systems analysis and design. Team-based design project.

Prerequisite(s): For SE Majors: CS 46B or for others CMPE 126. See SJSU Catalog for detail list of prerequisites

Grading: Letter Graded

Cross-listed with CMPE 135. Computer Engineering is responsible for scheduling.

SE 137 - Wireless Mobile Software Engineering

3 unit(s)

Mobility analysis, design principles, techniques, and methods for software systems on a variety of wireless and mobile Internet based computing and communication platforms, such as advanced pocket/tablet PCs, GPS, Bluetooth, Infrared, Wi-Fi, and RFID. Design multi-disciplined mobile project.

Prerequisite(s): CMPE 131. Computer Engineering or Software Engineering Majors Only.

Grading: Letter Graded

Cross-listed with CMPE 137. Computer Engineering is responsible for scheduling.

SE 139 - Fundamentals of Data Mining

3 unit(s)

Introduction to data management and data mining, data preprocessing, OLAP and data warehousing, frequent pattern mining and association rules, clustering, classification, web mining, web search, recommender systems, social network analysis.

Prerequisite(s): CMPE 126 or CS 146 (with C- or better). Computer Engineering or Software Engineering Majors Only.

Grading: Letter Graded

Cross-listed with CMPE 139. Computer Engineering is responsible for scheduling.

SE 152 - Programming Paradigms

3 unit(s)

Programming language syntax and semantics. Data types and type checking. Scope, bindings, and environments. Functional and logic programming paradigms, and comparison to other paradigms. Extensive coverage of a functional language.

Prerequisite(s): CS 151 or CMPE 135 (with a grade of "C-" or better); Computer Science and Software Engineering Majors only.

Grading: Letter Graded.

Cross-listed with CS 152. Computer Science is responsible for scheduling.

SE 153 - Concepts of Compiler Design

3 unit(s)

Theoretical aspects of compiler design, including parsing context free languages, lexical analysis, translation specification and machine-independent code generation. Programming projects to demonstrate design topics.

Prerequisite(s): CS 47 or CMPE 102, CS 146, and CS 154 (with a grade of "C-" or better in each); Allowed Major: Computer Science only; or instructor consent.

Grading: Letter Graded

Cross-listed with CS 153. Computer Science is responsible for scheduling.

SE 154 - Formal Languages and Computability

3 unit(s)

Finite automata, context-free languages, Turing machines, computability.

Prerequisite(s): MATH 42 or MATH 42X and CS 46B (with a grade of "C-" or better in each); Allowed Majors: Computer Science, Computer Science and Linguistics, or Software Engineering.

Grading: Letter Graded.

Cross-listed with CS 154. Computer Science is responsible for scheduling.

SE 155 - Introduction to the Design and Analysis of Algorithms

3 unit(s)

Algorithm design techniques: dynamic programming, greedy algorithms, Euclidean and extended Euclidean algorithms, Discrete and Fast Fourier transforms. Analysis of algorithms, intractable problems and NP-completeness. Additional topics selected from: selection algorithms and adversary arguments, approximation algorithms, parallel algorithms, and randomized algorithms.

Prerequisite(s): CS 146 (with a grade of "C-" or better); Allowed Majors: Computer Science or Applied and Computational Mathematics; or instructor consent.

Grading: Letter Graded

Computer Science is responsible for scheduling.

SE 156 - Introduction to Artificial Intelligence

3 unit(s)

Basic concepts and techniques of artificial intelligence: problem solving, search, deduction, intelligent agents, knowledge representation. Topics chosen from logic programming, game playing, planning, machine learning, natural language, neural nets, robotics.

Prerequisite(s): CS 146 (with a grade of "C-" or better); Allowed Majors: Computer Science, Data Science, Applied and Computational Mathematics or Software Engineering; or instructor consent.

Grading: Letter Graded

Cross-listed with CS 156. Computer Science is responsible for scheduling.

SE 157B - Database Management Systems II

3 unit(s)

Survey course. Object-oriented data model, definition language, query language. Object relational database systems. Database trends like active, temporal, multimedia, deductive databases. Web database topics, namely, architectures, introduction to interface languages. Team projects.

Prerequisite(s): CS 157A (with a grade of "C-" or better); Computer Science, Applied and Computational Math, Forensic Science: Digital Evidence, or Software Engineering Majors only; or instructor consent.

Grading: Letter Graded

Cross-listed with CS 157B. Computer Science is responsible for scheduling.

SE 158B - Computer Network Management

3 unit(s)

Principles and technologies of network management: reference models, functions (fault, configuration, performance, security and accounting management), management information, communication protocols, integration, and assessment. Network security and cyber defense: cryptography, key distribution, authentication protocols, network attacks, access control, and example systems.

Prerequisite(s): CS 158A or CMPE 148 (with a grade of "C-" or better); Allowed Majors: Computer Science, Software Engineering or Forensic Science: Digital Evidence; or instructor consent.

Grading: Letter Graded

Cross-listed with CS 158B. Computer Science is responsible for scheduling.

SE 163 - Introduction to Computer Graphics and Augmented Reality

3 unit(s)

Introduction to 2D and 3D vector and pixel graphics, 2D and 3D transformations, world to viewer transformation pipeline, perspective projection, hidden line and surface removal, decoration algorithm and texture mapping, integration of pixel graphics and augmented reality, and hands-on laboratories.

Prerequisite(s): CMPE 127; ENGR 100W; MATH 33LA or MATH 39 or EE 112.

Corequisite(s): ENGR 100W

Grading: Letter Graded

Cross-listed with CMPE 163. Computer Engineering is responsible for scheduling.

SE 174 - Server-side Web Programming

3 unit(s)

Development and deployment of multi-tier web-based applications. Introduction to HTML, XML, enterprise design patterns, web services and database access.

Prerequisite(s): CS 46B (with a grade of "C-" or better); Allowed Majors: Computer Science or Software Engineering Majors.

Grading: Letter Graded

Cross-listed with CS 174. Computer Science is responsible for scheduling.

SE 180 - Individual Studies

1-3 unit(s)

Individual work in computer engineering.

Prerequisite(s): Upper division standing and instructor consent. Not available to Open University Students.

Grading: Credit/No Credit

Cross-listed with CMPE 180. Computer Engineering is responsible for scheduling.

SE 188 - Machine Learning for Big Data

3 unit(s)

Introduction to machine learning and pattern recognition for big data analytics; machine learning concepts, theories, approaches, algorithms, and big data analytic applications; supervised learning unsupervised learning and learning theory.

Prerequisite(s): CMPE 126 or CS 146

Grading: Letter Graded

Cross-listed with CMPE 188. Computer Engineering is responsible for scheduling.

SE 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

Spanish

SPAN 1A - Elementary Spanish

4 unit(s)

Basic skills and structure of the language in the context of culture.

Satisfies C2: Humanities.

Grading: Letter Graded

SPAN 1B - Elementary Spanish

4 unit(s)

Basic skills and structure of the language in the context of culture.

Satisfies C2: Humanities.

Prerequisite(s): SPAN 1A (or equivalent).

Grading: Letter Graded

SPAN 3 - Special Topics in Practical Spanish

4 unit(s)

Spanish 003 is a Special Topics course focused on the practical application of basic Spanish in a number of professional fields such as Health Care, Social Services, Hospitality Management, and Law Enforcement. Repeatable for credit when content changes.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): 9 units of college Spanish (or equivalent).

Grading: Letter Graded

Note(s): Not accepted as preparation for advanced courses. Native speakers see General Information section.

SPAN 4A - Basic Spanish I

4 unit(s)

An Internet-based or on-site course in practical Spanish for use in a variety of professional and everyday activities. For beginners and those who need to improve conversational skills.

Grading: Letter Graded

SPAN 4B - Basic Spanish II

4 unit(s)

An internet-based or on-site course in practical Spanish for use in a variety of professional and everyday activities. A continuation of SPAN 4A for those who need to improve communication skills.

Grading: Letter Graded

SPAN 20A - Spanish for Heritage Speakers I

4 unit(s)

Strengthen and expand the cultural and linguistic resources of heritage learners of Spanish. Study of cultural heritages of Spanish-speaking peoples as well as practice of oral and written skills in Spanish.

Satisfies C2: Humanities.

Prerequisite(s): Knowledge of spoken Spanish and instructor consent.

Grading: Letter Graded

SPAN 20B - Spanish for Heritage Speakers II

4 unit(s)

A heritage speaker of Spanish is someone who grew up speaking and/or listening to Spanish in the home but may have little to no formal exposure to the language. Online course that continues SPAN 20A . Strengthens and expands the cultural and linguistic resources of heritage learners of Spanish through the study of the cultural heritages of Spanish-speaking peoples and the practice of oral and written skills in Spanish.

Satisfies C2: Humanities.

Prerequisite(s): SPAN 20A or knowledge of spoken Spanish and instructor consent.

Grading: Letter Graded

SPAN 25A - Intermediate Spanish

4 unit(s)

Continuation of SPAN 1B. Preparation for advanced courses in the language.

Satisfies C2: Humanities.

Prerequisite(s): One Year of college-level Spanish (or equivalent or SJSU Placement Exam).

Grading: Letter Graded

SPAN 25B - Intermediate Spanish

4 unit(s)

Continuation of SPAN 25A. Preparation for advanced courses in the language.

Satisfies C2: Humanities.

Prerequisite(s): Three semesters of college Spanish (or equivalent).

Grading: Letter Graded

SPAN 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

SPAN 101A - Advanced Spanish

4 unit(s)

Readings, oral discussion, syntax and composition.

Prerequisite(s): Four semester of college Spanish (or equivalent).

Grading: Letter Graded

SPAN 101B - Advanced Spanish

4 unit(s)

Readings, oral discussion, syntax and composition.

Prerequisite(s): Four semesters of college Spanish (or equivalent).

Grading: Letter Graded

SPAN 102A - Spanish Culture

4 unit(s)

History, geography, fine art and daily life of Spain.

Prerequisite(s): Four semesters of college Spanish (or equivalent).

Grading: Letter Graded

SPAN 102B - Hispanic American Culture

3 unit(s)

History, geography, fine art and daily life of Hispanic America.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

SPAN 105 - Spanish Phonology

4 unit(s)

Contrastive analysis of Spanish and English sound systems and application to pronunciation. Language laboratory.

Prerequisite(s): Four semesters of college Spanish (or equivalent).
Grading: Letter Graded

SPAN 110 - Spanish Morphology and Syntax

4 unit(s)

Structural analysis. Comparison of morphological and syntactical patterns of English and Spanish.

Prerequisite(s): SPAN 101B (or equivalent).
Grading: Letter Graded

SPAN 111 - Advanced Spanish Conversation

4 unit(s)

Development of skills for group discussion, dialogue and individual oral presentations on topics pertaining to everyday life, the professions, social problems and the arts. May be repeated once for credit, but only 3 units apply to major.

Prerequisite(s): 4 semesters of college Spanish or advisor consent.
Grading: Letter Graded

Note(s): Native speakers see General Information section.

SPAN 115 - Introduction to Literary Studies in Spanish

4 unit(s)

Introduction to literary studies in Spanish with readings from Spain and Spanish America. Overview of genres and fundamental concepts of criticism.

Prerequisite(s): SPAN 101B or instructor consent.
Grading: Letter Graded

SPAN 120A - Spanish Literature I

4 unit(s)

Notable works from beginning to present.

Prerequisite(s): SPAN 101B, SPAN 102A or SPAN 102B (or equivalent).
Grading: Letter Graded

SPAN 120B - Spanish Literature II

4 unit(s)

Notable works from beginning to present.

Prerequisite(s): SPAN 101B, SPAN 102A or SPAN 102B (or equivalent).
Grading: Letter Graded

SPAN 132 - Special Topics in Spanish for Careers

4 unit(s)

Course will focus on the use of the Spanish language for various professions, and examines in depth selected topics in regard to Spanish in the professional world. Course repeatable when content varies.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Two years of Spanish or instructor consent.

Grading: Letter Graded

SPAN 140A - Spanish American Literature

4 unit(s)

Notable works from beginning to present.

Prerequisite(s): SPAN 101B, SPAN 102A and SPAN 102B (or equivalent).

Grading: Letter Graded

SPAN 140B - Spanish American Literature II

4 unit(s)

Notable works from beginning to present.

Prerequisite(s): SPAN 101B, SPAN 102A and SPAN 102B (or equivalent).

Grading: Letter Graded

SPAN 160A - Hispanic Culture

4 unit(s)

Cultural phenomena, both historical and contemporary, of Spanish-speaking countries.

Repeatable when topic changes for up to 8 units.

Prerequisite(s): SPAN 101B (or equivalent).

Grading: Letter Graded

Cross-listed with SPAN 260A (combined undergraduate/graduate course).

SPAN 160B - Hispanic Linguistics

4 unit(s)

Spanish as spoken in diverse Hispanic cultures.

Repeatable when topic changes for up to 8 units.

Prerequisite(s): SPAN 101B (or equivalent).

Grading: Letter Graded

Cross-listed with SPAN 260B (combined undergraduate/graduate course).

SPAN 160C - Hispanic Literature

4 unit(s)

Outstanding authors or movements of Spain and Latin America.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): SPAN 101B (or equivalent).

Grading: Letter Graded

Cross-listed with SPAN 260C (combined undergraduate/graduate course).

SPAN 170 - Spanish Translation: Theory and Practice

4 unit(s)

Theory and practice of translation for various purposes including literary, scientific, and professional ones. Comparative stylistics of English and Spanish.

Prerequisite(s): SPAN 101B.

Grading: Letter Graded

SPAN 180 - Individual Studies in Spanish

1-3 unit(s)

Individual work by arrangement.

Prerequisite(s): Upper division standing in Spanish (or equivalent with grade of "B") and instructor consent.

Grading: Credit/No Credit

SPAN 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

SPAN 201 - Modern Spanish

4 unit(s)

Analysis of the evolving patterns of syntax and idiomatic construction in the Spanish language of the twentieth and twenty-first centuries. May be repeated for credit when content changes.

Repeatable for credit.

Grading: Letter Graded

SPAN 202 - Seminar in Hispanic Civilization and Culture

4 unit(s)

A comprehensive study of one or more Spanish-speaking countries. A: Andean countries (Colombia, Ecuador, Peru and Bolivia). B: Caribbean (Cuba, Dominican Republic, Puerto Rico and Caribbean coasts of Venezuela, Colombia and the nations of Central America). C: Mexico. D: River Plate Region (Argentina, Chile, Paraguay and Uruguay). E: Spain. May be repeated for credit when course content changes.

Repeatable for credit.

Grading: Letter Graded

SPAN 210 - Old Spanish

4 unit(s)

Analysis of the style and structure of medieval Spanish through selected readings. A fundamental knowledge of Latin is required.

Grading: Letter Graded

Note(s): Alternate years, or on demand.

SPAN 220 - Historical Spanish Linguistics

4 unit(s)

An inquiry into the growth of the Spanish language in Spain and Latin America from the twelfth century to modern times.

Grading: Letter Graded

SPAN 225 - Spanish Dialectology

4 unit(s)

Regional, social, historical, generational dialects that shape Spanish. Research involves readings on dialectology and sociolinguistics, learning to identify characteristics of Spanish dialects and exploring the implications of language contact, linguistic borrowing and code-switching.

Prerequisite(s): Graduate standing or instructor consent.

Grading: Letter Graded

SPAN 250 - Seminar in the Siglo de Oro

4 unit(s)

The works of Cervantes, principal dramatists of the Comedia and other significant authors of the Golden Age. May be repeated for credit when content changes.

Repeatable for credit.

Grading: Letter Graded

SPAN 260 - Seminar in "Modernismo" and the Generation of '98

4 unit(s)

A: Origin and development of the poetry and prose of the Modernista movement in Latin America. B: Examination of the spiritual and intellectual crisis created in Spain by the 1898 Spanish-American War. Representative works of Unamuno, Baroja, Azorin, Valle-Inclan and Antonio Machado. May be repeated for credit when content changes.

Repeatable for credit.

Grading: Letter Graded

SPAN 260A - Hispanic Culture

4 unit(s)

Cultural phenomena, both historical and contemporary, of Spanish-speaking countries.

Repeatable when topic changes for up to 8 units.

Prerequisite(s): SPAN 101B (or equivalent).

Grading: Letter Graded

Cross-listed with SPAN 160A (combined undergraduate/graduate course).

SPAN 260B - Hispanic Linguistics

4 unit(s)

Spanish as spoken in diverse Hispanic cultures.

Repeatable when topic changes for up to 8 units.

Prerequisite(s): SPAN 101B (or equivalent).

Grading: Letter Graded

Cross-listed with SPAN 160B (combined undergraduate/graduate course).

SPAN 260C - Hispanic Literature

4 unit(s)

Outstanding authors or movements of Spain and Latin America.

Repeatable when topic changes for up to 8 units.

Prerequisite(s): SPAN 101B (or equivalent).

Grading: Letter Graded

Cross-listed with SPAN 160C (combined undergraduate/graduate course).

SPAN 270 - Seminar in Contemporary Literature of Spain and Spanish America

4 unit(s)

In-depth study of representative Latin American and Spanish authors of the twentieth and twenty-first

centuries. May be repeated for credit when content changes.

Repeatable for credit.

Grading: Letter Graded

SPAN 280 - Seminar in Romanticism in Spain and Spanish America

4 unit(s)

Philosophical and artistic aspects of the movement, studied through representative Latin American or Spanish works in all literary genres. Focus will alternate each time the course is offered. May be repeated for credit when content changes.

Repeatable for credit.

Grading: Letter Graded

SPAN 298 - Special Study

1-6 unit(s)

Advanced individual research and projects.

Prerequisite(s): Instructor consent.

Grading: Mandatory Credit/No Credit/RP

SPAN 299 - Master's Thesis

3-6 unit(s)

Repeatable for credit.

Prerequisite(s): Advancement to candidacy for the MA degree and advisor consent.

Grading: Credit/No Credit/RP.

Special Education

EDSE 14A - American Sign Language I

3 unit(s)

Introductory course covering basic vocabulary and grammatical structures, appropriate cultural and linguistic behaviors within the deaf community and basic information about the deaf community.

Grading: Letter Graded

EDSE 14B - American Sign Language II

3 unit(s)

Continuation of EDSE 14A. Covers additional basic vocabulary and grammatical structures, cultural and linguistic behaviors within the deaf community and information about the deaf community.

Prerequisite(s): EDSE 14A or instructor consent.

Grading: Letter Graded

EDSE 102 - Intro to Language Development and Disability

3 unit(s)

Introduces the development levels of speech, language, communication, and second language acquisition. Provides an overview of intersectionality, with a specific focus on language, race, and disability.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

EDSE 104 - Early Intervention for Children with Disabilities

3 unit(s)

Introduction to the historical and theoretical roots of early intervention services for young children with or at risk for developing disabilities, including skills and techniques to promote learning while empowering families.

Prerequisite(s): CHAD 60 (or equivalent).

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

EDSE 105 - Supervision Induction Plan Evaluation

3-6 unit(s)

Supervised observation, support and feedback for new special education teachers and evaluation of the induction plan.

Course may be repeated for credit for up to 24 units.

Prerequisite(s): Department consent.

Grading: Credit/No Credit

EDSE 108 - Assessing Young Children

3 unit(s)

Identification, description, and assessment of typical and atypical young children from birth through kindergarten, with an introduction to California learning foundations for children birth-5, and kindergarten state standards. In addition, the course will provide an introduction to ECSE services and collaboration within the local community.

Prerequisite(s): Department consent.

Grading: Letter Graded

EDSE 110 - Students with Autism Spectrum Disorders

3 unit(s)

Introduction to teaching students on the autism spectrum, examination of theoretical foundations of ASD, and applications of evidence-based practices (EBPs) that help provide access to inclusive education.

Prerequisite(s): Special Education Minor

Grading: Letter Graded

EDSE 115 - Introduction to Deaf Culture

3 unit(s)

This course is an introduction to the American Deaf Culture and provides a comprehensive analysis of how Deaf people are understood from a cultural perspective. The identities, contributions and experiences of Deaf people are explored in educational and linguistic context.

Prerequisite(s): EDSE 14A or EDSE 102

Grading: Letter Graded

EDSE 124 - Teach for Social Justice: Language & Disability

3 unit(s)

An overview of second language acquisition and support processes for students with disabilities. Course includes strategies to support emergent bilinguals with disabilities and content delivery in math using a social justice for education lens.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

EDSE 154 - Advanced Fieldwork in ESN and ECSE

6 unit(s)

Supervised teaching of students with extensive support needs or early childhood special education in special and general education settings. Includes campus seminar.

Prerequisite(s): Department consent.

Grading: Credit/No Credit

EDSE 180 - Individual Studies

1-4 unit(s)

Supervised study of a specific problem or topic.

Prerequisite(s): Upper division standing and instructor consent.

Grading: Credit/No Credit

EDSE 192A - Including and Supporting Students

3 unit(s)

Preparation for teaching students with disabilities in general education; provides intervention strategies prior

to referral for special education with policies and procedures regarding placement of and services for students with disabilities, either in special education or within an inclusive classroom.

Prerequisite(s): Department consent

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

EDSE 192B - All Learners: An Introduction to Disabilities

1 unit(s)

Overview of disability incorporating historical, sociocultural, autobiographical and psychological perspectives. Includes the behavioral, developmental and learning characteristics of P-12 students labeled with mild, moderate, and extensive support needs. Introduces information about the 13 disability categories as specified in the Individuals with Disabilities Education Improvement Act (IDEIA) of 2004 and builds on existing law and policy information provided in the previous course (EDSE 192D).

Grading: Letter Graded

EDSE 192C - Inclusive Strategies for Educating Students with Disabilities

1 unit(s)

Designed to familiarize students with evidenced-based and high-leverage practices for meeting the academic, behavioral, and social emotional needs of students with disabilities in inclusive settings.

Grading: Letter Graded

EDSE 192D - Introduction to Special Education Policy and Law

1 unit(s)

Introduces special education policy and laws, situating these policies in the historical context in which they developed while highlighting the rights of all students as outlined in federal policy.

Course may be repeated for up to 2 units.

Grading: Letter Graded

EDSE 213A - Methods for Students with Extensive Support Needs

3 unit(s)

Examination and application of evidence-based instructional strategies that provide access to curriculum aligned with content standards for students with extensive support needs as well as functional skills instruction to successfully transition students with extensive support needs into higher educational, vocational, and community settings.

Prerequisite(s): EDSE 206A and department consent.

Grading: Letter Graded

EDSE 215 - Assessing Students with Disabilities

3 unit(s)

Formal and non-formal evaluation methods to assess students with mild/moderate disabilities and extensive support needs, which include standardized and alternative assessment, RTI, IEP development, case studies, and a comprehensive understanding of evidenced-based practices in assessment.

Prerequisite(s): Department consent.

Grading: Letter Graded

EDSE 216A - Literacy Instruction: Students with Disabilities

3 unit(s)

Examination and application of evidence-based instructional practices for teaching reading and writing to students with disabilities.

Prerequisite(s): Department consent.

Grading: Letter Graded

EDSE 217A - Advanced Fieldwork in Mild Moderate Support Needs

6 unit(s)

Supervised teaching of students with mild moderate support needs in special and general education settings. Includes campus seminar.

Prerequisite(s): Department consent.

Grading: Credit/No Credit

EDSE 217B - Directed Teaching II

6 unit(s)

Supervised teaching experience in educational settings for students with mild to moderate disabilities. Concurrent seminar.

Prerequisite(s): Completion of prescribed credential program including EDSE 217A and departmental consent.

Grading: Credit/No Credit

EDSE 218A - ASD: Moderate to Severe Disabilities

3 unit(s)

Theoretical foundations and application of evidence-based best practices for students with ASD and M/S disabilities including social language interventions, social stories, integrated playgroups, positive behavior support, self-advocacy skills inclusive education, recreation and leisure, and special interventions for young children.

Prerequisite(s): Department consent.

Grading: Letter Graded

EDSE 218B - ASD: Mild to Moderate Disabilities

3 unit(s)

Theoretical foundations and application of evidence-based best practices for students with ASD and M/M

disabilities including social language interventions, social stories, integrated playgroups, positive behavior support, self-advocacy skills, inclusive education, recreation and leisure, and special interventions for young children.

Prerequisite(s): Department consent.

Grading: Letter Graded

EDSE 218C - ASD: Collaboration and Implementation of Best Practices

3 unit(s)

Focus on collaboration and understanding roles of service providers for students with autism spectrum disorders. Team work and strategies for working with educational professionals and parents or significant others in the life of the students with autism spectrum disorders.

Prerequisite(s): Department consent.

Grading: Letter Graded

EDSE 218D - Teaching Students with Autism Spectrum Disorders

3 unit(s)

Theoretical foundations and application of evidence-based best practices for students with ASD including social language interventions, social stories, integrated playgroups, positive behavior support, self-advocacy skills, recreation and leisure skills, collaboration with parents and siblings, and special interventions for young children. The course emphasizes inclusive education for students with ASD.

Prerequisite(s): Department or Instructor Consent.

Grading: Letter Graded

EDSE 220 - Advanced Research Projects in Special Education

3 unit(s)

Advanced application of special education action research projects conducted in diverse educational settings.

Prerequisite(s): Department consent.

Grading: Letter Graded

EDSE 221 - Methods for Young Children with Disabilities

3 unit(s)

Examines the ways in which assessment and evaluation inform the development of curriculum and instruction for young children with disabilities. Focuses on the use of embedded instruction within ongoing routines and activities to address motor, adaptive, cognitive, communication, and social skills development while attending to multicultural/linguistic considerations.

Prerequisite(s): Department consent.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

EDSE 224 - Methods for Emergent Bilinguals with Disabilities

1-3 *unit(s)*

Examines the unique considerations of working with emergent bilinguals with and without disabilities in schools. Teaching applications and a conceptual understanding of the intersections of race, culture, disability, and language will be included and applied to the development of curriculum and delivery of instruction and assessment.

Prerequisite(s): Department consent.

Grading: Letter Graded

EDSE 228A - Topics in Collaboration and Transition

3 *unit(s)*

Strategies for effective communication and collaboration practices with members of the various teams that plan and serve students receiving special education services. Emphasis in planning transitional life experiences across the lifespan.

Prerequisite(s): Department consent.

Grading: Letter Graded

EDSE 230A - Inclusive Pedagogy for Students with M/MSN

3 *unit(s)*

Examination and application of evidence-based and high leverage practices for delivering instruction to students with mild/moderate support needs.

Prerequisite(s): Department consent.

Grading: Letter Graded

EDSE 231 - Issues and Research in Special Education

3 *unit(s)*

Evaluation of research on characteristics and methods of identification of individuals with disabilities; including minority and underachieving students. Current funding issues, research models, research on individuals with disabilities and instructional organization are reviewed and analyzed.

Prerequisite(s): Department consent.

Grading: Letter Graded

Sustainability Focused - SDG 4: Quality Education

EDSE 231X - Educational Research: Design and Implementation

3 *unit(s)*

EDSE 231X is a continuation of the process for the development of educational research, implementation of the study, and writing for the Masters of Arts project or thesis started in EDSE 231.

Prerequisite(s): EDSE 231 and EDSE 285.

Grading: Letter Graded

EDSE 234 - Early Field Experiences in Special Education

1-3 unit(s)

Beginning fieldwork course, including supervised teaching of students with mild/moderate support needs in special and general education settings. Includes campus seminar.

Prerequisite(s): Department consent, passing of CBEST and CSET exams, Certificate of Clearance.

Grading: Credit/No Credit/RP.

EDSE 235A - Movement, Mobility, Sensory and Health

3 unit(s)

Identifies the special services available to students with moderate/severe disabilities and defines the implementation of these services in the school and community. The course will define the role, function and services provided by professionals available to meet the health care and educational needs of students with multiple disabilities. The course will also address appropriate assessment and referral practices for teachers, seizures protocols, basic first aid and universal precautions, medication administration, positioning and handling for students with severe disabilities and feeding techniques.

Prerequisite(s): Department consent.

Grading: Letter Graded

EDSE 241 - Applying Assistive & Instructional Technology

3 unit(s)

Examination and application of evidence-based applications of AT/IT for students with disabilities. This includes the consideration of AT, including AAC, and evaluation for technology to be included in the IEP.

Prerequisite(s): Department consent.

Grading: Letter Graded

EDSE 269 - Supportive Learning Environments for Young Children

3 unit(s)

Critical study of theory, research, and practice related to establishing nurturing and responsive relationships and supportive learning environments in cross-cultural, inclusive, multilingual settings for children and students from preschool through third grade.

Grading: Letter graded.

EDSE 279 - Positive Behavior Support

3 unit(s)

Examination and application of various approaches and strategies for promoting positive social, emotional, and academic learning experiences for students with and without disabilities. Effective class-wide and individual strategies for students, including the assessment of behaviors, design of formal and informal positive behavior support plans, and the implementation and evaluation of such plans.

Prerequisite(s): Department consent.

Grading: Letter Graded

EDSE 285 - Intro to Action Research in Special Education

3 unit(s)

Review of existing scholarship in special education and appropriate design of an action research project.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): Department consent.

Grading: Letter Graded

EDSE 298 - Special Studies

1-3 unit(s)

Supervised study in a specific field of special education; to be taken only with the consent of the division head.

Prerequisite(s): Department consent.

Grading: Mandatory Credit/No Credit/RP

EDSE 299 - Master's Thesis

3 unit(s)

Supervised thesis in the field of special education, to be taken only with chair consent.

Prerequisite(s): Department consent.

Grading: Mandatory Credit/No Credit/RP

Speech Education

SPED 184Y - Student Teaching II - Classroom Teaching

4-6 unit(s)

Minimum 80-120 class periods of classroom, laboratory, or field teaching in appropriate single subjects, grades K-12 and related teaching activities/seminar.

Prerequisite(s): Joint approval of major and Education departments.

Grading: Credit/No Credit

SPED 184Z - Student Teaching III - Classroom Teaching

4-6 unit(s)

See SPED 184Y for course description.

Grading: Credit/No Credit

Note(s): May be in different subject/school and will be at a different grade level.

SPED 242C - Educational Internship in Teaching

4-6 unit(s)

Designed to provide opportunity for supervised teaching on either the elementary or secondary school level on the basis of a special provisional credential.

Prerequisite(s): Matriculation as a Graduate student
Grading: Credit/No Credit

Speech Pathology

EDSP 102 - Communication Development in Children

3 unit(s)

Knowledge about the language learning process and theories as well as the factors that interfere with its normal development. Introduction to linguistic terminology, components in language, stages of language development, bilingualism and language diversity.

Prerequisite(s): Communicative Disorders and Sciences major or instructor consent.
Grading: Letter Graded

EDSP 110 - Survey of Communication Disorders

3 unit(s)

Introduction to person-centered and multicultural perspectives within educational, socialization, and vocational contexts for speech, language, hearing and swallowing disorders across the lifespan.

Prerequisite(s): Communicative Disorders and Sciences major and upper division standing, or instructor consent.
Grading: Letter Graded

EDSP 111 - Introduction to Clinical Phonetics

3 unit(s)

Introduction to speech sound production, rules of the International Phonetic Alphabet, transcription and application.

Prerequisite(s): Communicative Disorders and Sciences major and upper division standing, or instructor consent.
Grading: Letter Graded

EDSP 112 - Fundamentals of Clinical Practice

3 unit(s)

Fundamental principles of clinical practice in speech-language pathology and audiology across the lifespan including ethics, evidence-based practice, and cultural humility.

Prerequisite(s): EDSP 102, EDSP 111, and EDSP 113; or instructor consent.
Grading: Letter Graded

EDSP 113 - Anatomy and Physiology of Communication Disorders

3 unit(s)

Analysis and measurement of the components and processes involved in the production and reception of speech.

Prerequisite(s): Communicative Disorders and Sciences major and upper division standing, or instructor consent.

Grading: Letter Graded

EDSP 120 - Communicative Disorders in Children

3 unit(s)

Overview of communication disorders and relevant treatment strategies for children.

Prerequisite(s): EDSP 102, EDSP 111, and EDSP 113; or instructor consent.

Grading: Letter Graded

EDSP 161 - Neuroanatomy and Neurophysiology of Communication Disorders

3 unit(s)

Neurological substrates and mechanisms underlying typical speech, language, and swallowing function.

Prerequisite(s): Upper division standing and EDSP 113; or instructor consent.

Grading: Letter Graded

EDSP 162 - Communicative Disorders in Adults

3 unit(s)

Overview of communication disorders and relevant management strategies for adults.

Prerequisite(s): EDSP 102, EDSP 111, and EDSP 113; or instructor consent.

Grading: Letter Graded

EDSP 176 - Guided Professional Clinical Observations

3 unit(s)

Guided observation experiences in audiology and speech-language pathology; introduction to: clinical reasoning and clinical mindset; professional conduct; clinician-client interactions and perspectives; efficacy and evidence-based practice; interprofessional collaboration; effective oral, listening, nonverbal, and written clinical communication skills.

Prerequisite(s): EDSP 102 and EDSP 111.

Grading: Letter Graded

EDSP 177 - Practicum in Speech Pathology

1-3 unit(s)

Supervised clinical experience with children and adults who have speech and language disorders.

Course may be repeated for credit up to two times.

Prerequisite(s): EDSP 112, EDSP 120 or instructor consent.

Grading: Credit/No Credit

EDSP 180 - Independent Study in Communicative Disorders and Sciences

1-3 unit(s)

Supervised study in specific topics of communicative disorders and sciences.

Prerequisite(s): Upper division standing and instructor consent.

Grading: Credit/No Credit

EDSP 221 - Research Seminar in Communicative Disorders

3 unit(s)

An overview of the theory, procedures, application and use of research in communicative disorders and sciences; assist in the study of a specific area of applied research from the current professional literature; and assist in the development of a specific research proposal.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

EDSP 222 - School Age Language, Literacy, and Social Communication

3 unit(s)

Explores and discusses connections between listening, speaking, reading and writing with applications in assessing and planning intervention programs for monolingual and bilingual individuals who have developmental or acquired language-learning disabilities. Required for speech-language pathologists.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): EDSP 251, EDSP 259, EDSP 262, EDSP 276 or instructor consent.

Grading: Letter Graded

EDSP 250 - Seminar in Voice Disorders

3 unit(s)

Advanced discussion of human voice production, the perceptual, acoustic, and physiologic characteristics of voice disorders, and clinical implications, with hands-on learning of assessment methods and treatment of functional, organic, and neurological voice disorders across the lifespan.

Grading: Letter Graded

EDSP 251 - Seminar in Phonological Disorders

3 unit(s)

Establishes a level of advanced competency in the knowledge and understanding of phonology and phonological disorders: the procedures of analysis, the assessment of phonological disorders and the establishment of intervention strategies as a logical consequence of diagnostic findings.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded

EDSP 252 - Seminar Fluency Disorders

3 unit(s)

Examines the complex issues related to the clinical management of fluency disorders. Includes contemporary research on etiology, assessment methods and concerns, intervention approaches, interdisciplinary considerations, and technological advancements.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded

EDSP 254 - Seminar in Neurological Disorders

3 unit(s)

Provides an understanding of the neuropsychological, cognitive and linguistic correlates underlying adult neurological disorders. Assessment and treatment for a variety of disorders emphasized.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded

EDSP 255 - Seminar in Motor Speech Disorders

3 unit(s)

Provides an understanding of anatomy, physiology and neurology of motor speech disorders. Emphasis on assessment and treatment of apraxia and dysarthrias.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded

EDSP 259 - Seminar in Language Disorders in Children

3 unit(s)

Provides an understanding of the neuropsychological, cognitive and linguistic correlates of developmental language disorders which underlie the competencies to diagnose and provide treatment for children with language impairments.

Prerequisite(s): Graduate standing or instructor consent.
Grading: Letter Graded

EDSP 260 - Seminar in Dysphagia

3 unit(s)

A review of the anatomic, neurologic, physiologic, and behavioral correlates of normal and disordered swallowing across the life-span. Assessment and treatment of swallowing disorders will be emphasized in children and adults with genetic and acquired disorders.

Prerequisite(s): EDSP 254, EDSP 255, EDSP 265 or Instructor Consent.
Grading: Letter Graded

EDSP 262 - Speech and Language in a Cross-Cultural Society

3 unit(s)

Communication development and disorders in bilingual clients. Emphasis on the assessment of such disorders to the bilingual population.

Grading: Letter Graded

EDSP 264 - Contemporary Professional Issues

3 unit(s)

Organization and development of profit and nonprofit agencies that serve the communicatively impaired. Role and responsibilities of supervisors included.

Grading: Letter Graded

EDSP 265 - Seminar in Cognitive Disorders

3 unit(s)

Provides a framework for better understanding the process of cross-generational communication and the improvement of communication competencies for interaction with cognitively impaired persons.

Grading: Letter Graded

Cross-listed with GERO 265. Communicative Disorders and Sciences is responsible for scheduling.

EDSP 269 - Field Experience in Public Schools - Speech Pathology and Audiology

6 unit(s)

Supervised teaching in speech pathology and audiology. Two hundred clock hours minimum requirement for credential as speech, language and hearing specialist.

Prerequisite(s): TB clearance, CPR, basic physical, Hep B

Grading: Letter Graded

EDSP 276 - Practicum in Advanced Assessment

3 unit(s)

Supervised clinical experience in assessment of a variety of speech/language disorders. Laboratory and classroom experience required.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

EDSP 277 - Advanced Practicum-Speech Pathology

1-3 unit(s)

Working with children, adult, and group clients within a clinical practicum setting including preparing lesson plans, analyzing assessment results, developing and implementing therapy activities, collecting data,

conducting client conferences and writing reports and home programs.

Course may be repeated for credit for up to 12 units.

Prerequisite(s): Graduate standing and instructor consent.

Grading: Letter Graded

EDSP 278 - Clinical Management and Practicum

6-10 unit(s)

Supervised clinical experience.

Prerequisite(s): EDSP 254, EDSP 255, EDSP 276, EDSP 277 and instructor consent.

Grading: Credit/No Credit

EDSP 288 - Seminar in AAC and Communication Disorders

3 unit(s)

Exploration of how augmentative and alternative communication is used for individuals with complex communication needs. The impact of cognition, educational, physical, psychosocial and linguistic aspects of behavior on AAC use, assessment, intervention and research will be explored.

Prerequisite(s): EDSP 255, graduate standing or instructor consent.

Grading: Letter Graded

EDSP 298 - Special Studies

1-3 unit(s)

Supervised study in a specific field of speech-language pathology.

Prerequisite(s): Instructor consent.

Grading: Mandatory Credit/No Credit/RP

EDSP 299 - Master's Thesis

1-4 unit(s)

Supervised thesis work in speech-language pathology.

Prerequisite(s): Instructor consent.

Grading: Mandatory Credit/No Credit/RP

Statistics

STAT 95 - Elementary Statistics

3 unit(s)

Hypothesis testing and predictive techniques to facilitate decision-making; organization and classification of data, descriptive and inferential statistics, central tendency, variability, probability and sampling distributions, graphic representation, correlation and regression, chi-square, t-tests, and analysis of variance. Computer use in analysis and interpretation.

Satisfies B4: Mathematics/Quantitative Reasoning.

Prerequisite(s): Math Enrollment Category M-I or M-II, or for Categories III or IV, completion of a GE Area B4 course with a grade of C- or better.

Grading: Letter Graded

Note(s): Intended for Psychology majors and minors as well as for programs in Behavioral Science, Child Development, Education, Health Science, Nursing, Nutritional Science, Social Science, and Social Work.

STAT 115 - Intermediate Statistics

3 unit(s)

Statistical analysis at the intermediate level; chi-square, analysis of variance, correlation and regression, and topics in experimental design; use of microcomputers for statistical calculations.

Prerequisite(s): STAT 95 (or equivalent).

Grading: Letter Graded

Note(s): Intended for majors in education, nursing, personnel administration, psychology, social service and sociology, and psychology minors.

STAT 235 - Multivariate Analysis

3 unit(s)

Multivariate techniques for analyzing social science data with emphasis on multiple regression, multivariate analysis of variance, factor analysis, discriminant analysis and canonical correlation.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

STAT 245 - Advanced Statistics

3 unit(s)

Advanced problems in statistical analysis. Advanced consideration of hypothesis testing, estimation and analysis of variance.

Prerequisite(s): STAT 115 or instructor consent.

Grading: Letter Graded

Tagalog

TAG 1A - Elementary Tagalog I

4 unit(s)

Develops four Tagalog language skills (listening, speaking, reading, and writing) in three modes of communication (interpersonal, interpretive, and presentational). Course provides the basic skills and knowledge to engage with Filipino social and cultural communities.

Satisfies C2: Humanities.

Grading: Letter Graded

TAG 1B - Elementary Tagalog II

4 unit(s)

Basic skills and knowledge to engage with Filipino social and cultural communities. Covers the contents of Elementary Tagalog textbook, lessons 7-12. Development of four Tagalog language skills (listening, speaking, reading, and writing) in three modes of communication (interpersonal, interpretive, and presentational).

Satisfies C2: Humanities.

Prerequisite(s): TAG 1A.

Grading: Letter Graded

TAG 25A - Intermediate Tagalog I

4 unit(s)

Develops four Tagalog language skills (listening, speaking, reading, and writing) in three modes of communication (interpersonal, interpretive, and presentational) resulting in intermediate level of language knowledge and skills to engage with Filipino social and cultural communities. Covers lessons 1-10 of Intermediate Tagalog textbook.

Prerequisite(s): TAG 1B or equivalent.

Grading: Letter Graded

TAG 25B - Intermediate Tagalog II

4 unit(s)

Develops four Tagalog language skills (listening, speaking, reading, and writing) in three modes of communication (interpersonal, interpretive, and presentational) resulting in intermediate level of language knowledge and skills to engage with Filipino social and cultural communities. Covers lessons 11-20 of Intermediate Tagalog textbook.

Prerequisite(s): TAG 25A.

Grading: Letter Graded

Teacher Education

EDTE 166 - Pre-Professional Experience

1-3 unit(s)

Observation of learners; service as teacher assistants in public school classrooms; tutoring. May be repeated once.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Upper division standing.

Grading: Credit/No Credit

EDTE 180 - Individual Studies

1-3 unit(s)

Supervised study in specific fields of elementary or secondary education not covered by offered courses.

Prerequisite(s): Division head consent.

Grading: Credit/No Credit

EDTE 192 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Letter Graded

EDTE 193 - Introduction to Emancipatory Approaches to Computing

1 unit(s)

To center equity and justice in computer science education, teachers explore the social, cultural, ethical, and legal impacts of computing from the perspectives of individuals, schools, teachers, students, and the global community. They gain an understanding of the landscape of equity and justice issues related to computer science education; develop critical thinking skills about computing and related technologies; and begin to reimagine computer science education and the design of curricular resources to help students create a more just future.

Course may be repeated for credit for a maximum of 6 units

Grading: Letter Graded

EDTE 194 - Computer Practice and Programming

3 unit(s)

In-depth introduction to programming through a survey of three programming languages: Scratch, MakeCode, and Python. Teachers develop a broad range of expertise, see how block and text-based languages work together, and learn how computer science can be used as a tool to deepen engagement with classroom content. Final project addresses how to use computer science concepts to address problems that are relevant to teachers' schools and communities.

Course can be repeated for credit.

Prerequisite(s): EDTE 193

Grading: Letter Graded

EDTE 195 - Connecting Communities Through Computational Thinking and Computing Systems

3 unit(s)

Builds on introductory programming knowledge to solve problems and design systems. Students will learn computational thinking strategies using fundamental computing concepts; understand the role of computer and communication devices in designing and creating innovative solutions; complete activities that investigate computing systems, networks, and the internet; use Scratch, MakeCode, and Python to deepen instructional and pedagogical practices.

Grading: Letter Graded

EDTE 197 - Computer Science Education: Pedagogical Practices for Community Impact

3 unit(s)

Presentation of existing curricular materials. How to modify and create instructional materials to support the integration of computer science content into one's home subject and to engage students in computer science content as an independent subject. Culturally responsive teaching and universal design are highlighted. Design and implementation of a half day set of activities to members of the community followed by reflection.

Repeatable for a total of 6 units.

Grading: Letter Graded.

EDTE 201 - Critical Issues in Education

3 unit(s)

A cross-disciplinary investigation of fundamental value issues of American education in a democratic society, considered in the context of the problems and prospects of world civilizations.

Grading: Letter Graded

EDTE 208 - Educational Sociology

3 unit(s)

Role of education in modern social, economic and political life. The school as institution. Problems in American life which affect and are affected by public schools.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Sustainability Focused - SDG 4: Quality Education

EDTE 208A - Culture, Education and Power for Spanish-English Bilinguals

3 unit(s)

Course addresses current cultural, educational, and equity issues for Spanish-English bilinguals in the USA. It partially satisfies (in conjunction with EDTE 262A and EDTE 297A) the requirements to obtain a bilingual authorization in Spanish by the California Commission on Teacher Credentialing. Spanish fluency

proficiency is needed, as the course will be taught in Spanish (with supports for speakers who have English as a first language).

Grading: Letter graded.

EDTE 208B - Bilingual Educational Sociology

3 unit(s)

Role of education and bilingual education in modern social, economic and political life. The school as institution. Problems in American life which affect and are affected by public schools. Multilingualism in education and its cultural implications, with an emphasis on Spanish-speaking communities.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 6 units.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

EDTE 208M - Culture, Education and Power for Mandarin-English Bilinguals

3 unit(s)

Course addresses current cultural, educational, and equity issues for Mandarin-English bilinguals in the USA. It partially satisfies (in conjunction with EDTE 262M) the requirements to obtain a bilingual authorization in Mandarin by the California Commission on Teacher Credentialing. Mandarin fluency proficiency is needed, as the course will be taught in Mandarin (with supports for speakers who have English as a first language).

Grading: Letter graded.

EDTE 210 - Becoming a Reader at Any Age

3 unit(s)

Theory and practice of teaching beginning and struggling readers and writers, both native and nonnative English speakers.

Prerequisite(s): EDEL 108A or EDSC 138A.

Grading: Letter Graded

EDTE 211 - Developing Academic Language for Reading Across the Curriculum

3 unit(s)

Focus on comprehension across subject areas for first and second language learners: background knowledge, fluency, vocabulary, and metacognition.

Prerequisite(s): EDEL 108A or EDSC 138A.

Grading: Letter Graded

EDTE 212 - Critical Literacy Leadership Practicum

3 unit(s)

This practicum offers candidates the opportunity to develop their literacy leadership stance. Candidates will work collaboratively with colleagues in schools to design and lead Communities of Practice specific to literacy curriculum, instructional methodologies, and culturally and linguistically sustaining practices. Additionally, candidates will design and lead a more formal professional development session specific to school site needs. They will explore and meet with community resources and families to develop understanding of the ways their literacy leadership might expand.

Grading: Letter Graded

EDTE 214 - Learning in a High Tech Environment

3 unit(s)

Teaching and learning with high technology from student-centered perspectives. Lab activities, field observations and investigations in individual areas of specialization. Includes theory to practice, exploring new uses of technology, logistics, leadership roles. May not be repeated in the same semester.

Prerequisite(s): EDIT 122 (or equivalent).

Grading: Letter Graded

EDTE 215 - Culturally and Linguistically Sustaining Literacy Instruction

4 unit(s)

Richly diverse classrooms are filled with students who bring with them a wide range of languages, literacies, and cultural practices. Developing an effective culture of literacy requires an asset-based stance that celebrates each student's unique background, strengths, language ecologies, and ways of engaging as learners. Teachers must learn to reflect on their own background and biases including beliefs about language learning, develop culturally sustaining methods of instruction, incorporate resources that are real and relevant for all students, and learn to honor varied patterns of participation and ways of knowing and communicating.

Ensuring that all students become purposefully literate further requires that teachers broaden their vision for literacy learning, moving beyond increasing students ability in reading, writing, speaking, and listening, towards supporting students' ability to use their literate abilities to observe their world closely, ask critical questions, and add their voices to conversations of consequence.

Grading: Letter Graded

EDTE 216 - Culturally Responsive Assessment for Instruction

4 unit(s)

This course provides research-based, developmental, culturally responsive assessments in literacy for emergent, beginning, second language, and older readers and writers. Assessment and teaching strategies are presented that will enable students to understand the process of reading/writing acquisition and its application. Students will critically analyze assessment data for purposes of instruction and professional development. There is a focus on linguistically and culturally diverse students.

Grading: Letter Graded

EDTE 217A - Practicum Culturally Responsive Assess to Instruct

2 unit(s)

This course provides research-based, developmental, culturally responsive assessments in literacy for emergent, beginning, second language, and older readers and writers. Since it is a practicum, candidates will be expected to work with students and colleagues in schools. Assessment and teaching strategies are presented that will enable students to understand the process of reading/writing acquisition and its application. Students will critically analyze assessment data for purposes of instruction and professional development. There is a focus on linguistically and culturally diverse students.

Grading: Letter Graded/RP

EDTE 217B - Practicum: Culturally Sustaining Literacy Instruct

2 unit(s)

For Reading/Language Arts Specialist Credential or Reading Certificate candidates. In a supervised program, candidates work with struggling readers and implement effective ongoing assessment and instructional strategies to meet the need of diverse struggling readers.

Misc/Lab: 2.5 hour Seminar/1.0 hour activity

Prerequisite(s): EDTE 210, EDTE 211, EDTE 216, EDTE 292

Grading: Credit/No Credit

EDTE 220 - Advanced Critical Literacy Instruction

3 unit(s)

Candidates learn advanced theory and critical methods to collaboratively analyze instructional practices and evaluate student assessment data at grade, school or district levels to plan and provide coaching to educators to strengthen culturally and linguistically sustaining literacy practices.

Grading: Letter Graded

EDTE 223 - Politics, Theory and Practice of Critical Literacy

3 unit(s)

This course will examine the politics of literacy instruction on the local, state and national levels. Students will ground their analysis of policy in examinations of theories of literacy and literacy development. Students will engage in an extended examination of the Science of Learning movement as a case study of how advocates of curricula frame literacy research and theory to engage in public debate.

Grading: Letter Graded

EDTE 224 - Seminar in Educational Psychology

3 unit(s)

Role of psychology in education. Contributions of educational research to current classroom practice and curriculum design. Applications of educational psychology research to current problems in education. Theoretical and practical approaches to understanding learning and teaching.

Grading: Letter Graded

EDTE 242R - Critical Literacy Student Practicum

3 unit(s)

This practicum builds on the learning of prior courses to offer candidates clinical experience as they develop the art and science of literacy teaching through thoughtful assessment, learning design, and feedback for diverse student populations. The focus is on implementation and integration of prior learning. Candidates will work collaboratively with colleagues to understand research-based instructional practices and develop the skill to draw from these practices artfully and responsively. Students will assess, design instruction for, and teach diverse students at varied developmental levels, with an emphasis on: How students learn to read, how students become proficient readers, the relationship between language, reading, and writing, and culturally and linguistically responsive assessment and instructional tools and strategies teachers can use to assist all students, particularly Emergent Bilinguals and historically underserved students. Candidates will learn the power of professional collaboration among peers to better understand their students and their craft, developing a lifelong professional learning mindset.

Grading: Letter Graded

EDTE 245 - Assessment and Instruction for Culturally Sustaining Literacy Leadership

3 unit(s)

Literacy teaching and learning is driven by an inter-related ecosystem of state and local assessments, frameworks and benchmarks, and literacy programs. Mandates are created at the state level, which then frame decisions made at the local level, without full consideration of the cultural and linguistic diversity served by various districts throughout the state. To best serve diverse student populations, literacy educators need to develop the knowledge and experience required to analyze each component of the ecosystem, take a leadership stance, and advocate for variations in assessment, instructional methodologies, and materials that best serve their unique students and community.

Grading: Letter Graded

EDTE 250 - Qualitative Research in Education

3 unit(s)

The role of qualitative research in education and society. Historical theoretical groundings, ethical considerations, procedures in development and evaluation of research proposals, techniques of research data analysis.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Prerequisite(s): EDEL 221 or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

EDTE 250B - Qualitative Research in Bilingual Education

3 unit(s)

The role of qualitative research in education and society. Historical theoretical groundings, ethical considerations, procedures in development and evaluation of research proposals, techniques of research data analysis pertaining with an emphasis on research issues and methods in bilingual education settings.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GVAR in this master's program.

EDTE 260 - Critical Perspectives on Schooling for a Pluralist Democracy

3 unit(s)

Critical study of theory, practice and research related to effective communication in cross-cultural, multilingual settings.

Grading: Letter Graded

EDTE 262 - Classroom Issues in the Language/Literacy Development of L2 Learners

3 unit(s)

Theories of first and second language acquisition and their application to teaching reading, writing and SDAIE in linguistically diverse classrooms.

Prerequisite(s): EDEL 108A or instructor consent.

Grading: Letter Graded

EDTE 262A - Language Methods and Equity for Spanish-English Bilinguals

3 unit(s)

Course develops critical language awareness and skills to teach language and literacy to Spanish-English bilinguals in the USA. It partially satisfies (in conjunction with EDTE 208A and EDTE 297A) the requirements to obtain a bilingual authorization in Spanish by the California Commission on Teacher Credentialing. Spanish fluency proficiency is needed, as the course will be taught in Spanish (with supports for speakers who have English as a first language).

Grading: Letter graded.

EDTE 262B - Classroom Issues in the Language/Literacy Development of Emergent Bilinguals

3 unit(s)

Theories of bilingualism, language acquisition and their application to teaching reading, writing and in linguistically diverse classrooms. The context of bilingualism in the US and the world and the policies that influence bilingual education.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

EDTE 262M - Language Methods and Equity for Mandarin-English Bilinguals

3 unit(s)

Develops critical language awareness and skills to teach language and literacy to Mandarin-English bilinguals in the USA. Examines theories in language development, second language acquisition theories,

language assessment, underground of bilingual education, bilingual education models, policies in bilingual education, and instructional strategies and practices in working with emergent bilingual students at school settings. Partially satisfies (in conjunction with EDTE 208M) the requirements to obtain a bilingual authorization in Mandarin by the California Commission on Teacher Credentialing. Taught in Mandarin (with supports for speakers who have English as a first language).

Prerequisite(s): Mandarin fluency proficiency.

Grading: Letter graded.

EDTE 282 - Assessment and Evaluation

3 unit(s)

Principles of educational assessment and evaluation. Instructional and classroom assessment design. Focus on construction, selection and use of embedded instruments. Interpretation of data for teachers and students' use.

Prerequisite(s): Program director consent.

Grading: Letter Graded

EDTE 290C - Critical Literacy Research Methods

3 unit(s)

Emphasis on research/teacher inquiry with attention to research designs and methods from various disciplinary perspectives for the study of literacy. This course addresses qualitative educational research methods with a focus on critical research, assessments as measures, critical analysis of research, and using research to develop critical, responsive literacy improvement plans.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

EDTE 292 - Writing Across Cultures and the Curriculum

3 unit(s)

Research, theory and practice of writing development of instruction for native and nonnative English speakers. Emphasis on writing in an integrated curriculum.

Prerequisite(s): EDEL 108A or instructor consent.

Grading: Letter Graded

EDTE 294 - Research/Practices in Health and Special Education

3 unit(s)

Introduces students to issues in health and special education that are necessary for them to know and be able to meet their legal and professional responsibilities. The course includes identifying, referring, and supporting students who may be at risk of health problems and have special needs. Students will also learn about effective instruction in health and special education content and skill development and how to create and support a safe and healthy environment for learning for all students.

Prerequisite(s): Upper division or Graduate standing.

Grading: Letter Graded

EDTE 297A - Advanced Issues in Spanish-English Bilingual Education

1 unit(s)

Explores the most current conceptual and equity issues in Spanish-English bilingual education, with an emphasis on developing bilingual teacher agency. Partially satisfies (in conjunction with EDTE 208A and EDTE 262A) the requirements to obtain a bilingual authorization in Spanish by the California Commission on Teacher Credentialing. Taught in Spanish (with supports for speakers who have English as a first language).

Prerequisite(s): Spanish fluency proficiency.

Grading: Letter graded.

EDTE 297B - Advanced Issues in Bilingual Education

1-3 unit(s)

The role of bilingual teacher identity development and networking on the development of teacher agency in their linguistically-diverse communities. Critical sociolinguistics applied to multilingual development in the California and US contexts. Multilingual policy and organization analysis related to bilingual teacher personal and professional development.

Course may be repeated for credit up to 4 units.

Grading: Credit/No Credit.

EDTE 297C - CalTPA Support

1 unit(s)

Provides appropriate support to Multiple Subject Credential or Single Subject Credential teacher candidates as they complete their Cycle 1 and Cycle 2 CalTPA. Explores content, strategies, and resources to enhance CalTPA submissions. Reviews CalTPA examples, rubrics, and assessor feedback to understand CalTPA evidence and response requirements.

Course may be repeated for up to 2 units for credit.

Grading: Credit/No Credit.

EDTE 297F - Field Support

1 unit(s)

Exploration of classroom practices to support student teaching.

Repeatable for credit up to 2 units.

Grading: Credit/No Credit.

EDTE 298 - Special Studies in Education

1-6 unit(s)

Supervised study in a specific educational field.

Prerequisite(s): Consent of program director.
Grading: Mandatory Credit/No Credit/RP

EDTE 299 - Master's Thesis

1-6 unit(s)
Supervised thesis in the field of education.

Prerequisite(s): Advancement to candidacy for the master's degree.
Grading: Mandatory Credit/No Credit/RP

EDTE 1290R - Culminating Experience Supervision

1 unit(s)
Continued work on thesis or project beyond minimum required units, for cases in which final deliverables are still in progress.

Prerequisite(s): RP grade in a preceding thesis or project semester.
Grading: Mandatory Credit/No Credit/RP

Note(s): No Degree Credit.

Teacher Education is responsible for scheduling.

Technology

TECH 15 - Careers in Engineering Technology

3 unit(s)
Introduce students to career opportunities in Engineering Technology. Resume writing, internship seeking, sources of financial aid, Study Abroad, time management, project management, leadership skills, emerging technologies, product design and patents, guest speakers and related industry tours.

Grading: Letter Graded

TECH 20A - Computer-Aided-Graphics

2 unit(s)
Introduction to Computer-Aided-Graphical communication tools. Orthographic projections, section and auxiliary views and dimensioning standards. Development of visualization and technical sketching skills in conjunction with orthographic and pictorial projections. Dimensioning and tolerancing utilizing 2D and 3D commercially available software.

Misc/Lab: 1 hour lecture and 3 hours lab

Grading: Letter Graded

TECH 25 - Introduction to Materials Science and Technology

3 unit(s)

Introduction to materials science including atomic and crystal structures; imperfections and atom movement; phase equilibria and transformations; boundaries; heat treatment of metals; mechanical, physical and chemical properties of materials. Laboratory exercises on processing, microstructure, and properties of engineering materials.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): MATH 18A or equivalent.

Corequisite(s): CHEM 1A or CHEM 30A or equivalent.

Grading: Letter Graded

TECH 30 - Introduction to Python Programming

3 unit(s)

Introduction to Python programming, data types, arithmetic and strings, conditional execution, loops, functions, lists and files, exception handling, sets and dictionaries.

Prerequisite(s): MATH 71 or MATH 71X or MATH 30 or MATH 30X.

Grading: Letter Graded

TECH 31 - Quality Assurance and Control

3 unit(s)

Introduction to concepts and statistical methods that companies use to manage and improve quality. Sampling inspection, statistical process control, quality function deployment, cost of quality, design of experiment and Taguchi's method for designing in quality.

Prerequisite(s): BUS2 90 or equivalent.

Grading: Letter Graded

TECH 41 - Machine Shop Operations and Safety

1 unit(s)

Introduction to basic machine shop safety and skills. Fabrication of mechanical components and assemblies from engineering drawings, performing tolerance inspection and developing fabrication process plans.

3 hours lab.

Course is repeatable for up to 3 units.

Prerequisite(s): ME 20 or TECH 20A or CE 20 or equivalent.

Grading: Letter Graded

Cross-listed with ME 41. Technology is responsible for scheduling.

TECH 42 - Manufacturing and Machine Shop Projects and Practices

1 unit(s)

Individual manufacturing processes and machine shop practices. Fabrication of mechanical components and assemblies in fulfillment of senior, course, special, and approved student club assignments and

projects.

Misc/Lab: 3 hours lab

Course may be repeated for credit for up to 4 units.

Prerequisite(s): TECH 41/ME 41 (with grade "C-" or better).

Grading: Credit/No Credit

Cross-listed with ME 42. Technology is responsible for scheduling.

TECH 45 - Facilities Design & Planning

3 unit(s)

Construction, planning, and maintenance of physical facilities and equipment for manufacturing operations. Sustainable practices and standards, plant facilities layout/design, regulatory and environmental compliance, safety/security, energy conservation. Production line planning and OSHA and NIOSH standards.

Prerequisite(s): TECH 20A or CE 20 or ME 20, or equivalent.

Grading: Letter Graded.

Sustainability Focused - SDG 12: Responsible Consumption and Production

TECH 46 - Machine Operations and Management

3 unit(s)

Machining processes using computer-numerically-controlled and manual machines, including turning, milling, drilling, grinding, and sawing machines. Manual and computer-aided part programming. Management of machining environment including processes, tooling, instruments, equipment, personnel, and safety.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): TECH 41 or ME 41.

Grading: Letter Graded

TECH 60 - Introduction to Electronics

3 unit(s)

Emphasizes practical electronics applications and products. DC and AC theory; Ohm's Law, Kirchhoff's Laws, Power Laws, network theorems, schematic diagrams, instrumentation and measurement, and functions of discrete components.

Lecture 2 hours/lab 3 hours.

Pre/Corequisite(s): MATH 71 or MATH 71X or MATH 30 or MATH 30X or equivalent.

Grading: Letter Graded

TECH 62 - Analog Circuits

3 unit(s)

Semiconductor theory; p-n junction, bipolar transistors, JFETs and MOSFETs, optoelectronic devices. Operational amplifiers and 555 timers. Device applications: comparators, signal generators, active filters, instrumentation amplifiers, voltage regulators and power supplies.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): TECH 60, MATH 71 or MATH 71X or MATH 30 or MATH 30X.

Grading: Letter Graded

TECH 63 - Analog and Digital Circuits

3 unit(s)

Logic gates emphasizing TTL and CMOS. Design techniques. Combinational circuits, counters, registers, multiplexers, Semiconductor theory. Operational amplifiers. Device applications, signal generators, voltage regulators and power supplies.

Prerequisite(s): TECH 60, MATH 71 MATH 71X or MATH 30 MATH 30X or equivalent.

Grading: Letter Graded

Note(s): Lecture 2 hours/lab 3 hours.

TECH 65 - Introduction to Networks

3 unit(s)

Introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced. Students build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): MATH 18A or eligible for MATH 19.

Grading: Letter Graded

TECH 66 - Network Administration

3 unit(s)

Internetworking devices and systems. Network Administration and Support. Enterprise and Distributed Networks. Wide-Area and Large Scale Networks. Solving Network problems. Using the Resources of the Internet. Future networking technologies. Telemeter networks. Manufacturing Automation. Systems Networks, Storage area network.

Misc/Lab: Lecture 2 hours/Lab 3 hours.

Prerequisite(s): TECH 65.

Grading: Letter Graded

TECH 67 - Introduction to Internet of Things

3 unit(s)

Introduction to Internet of Things (IoT) fundamentals, development of the knowledge and skills required for related technologies and hands-on, problem-solving experience. Designing and connecting IoT devices to capture data and control the physical world.

Misc/Lab: Lec 2 hours/Lab 3 hours.

Prerequisite(s): TECH 60, TECH 65.

Grading: Letter Graded

TECH 68 - Internet of Things Systems

3 unit(s)

Cyber-physical systems as control systems, including problem formulation, mathematical representation, and analysis. IoT system components of switching, routing, security, wireless, virtualization, and their integration into end-to-end IoT systems.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): TECH 67.

Corequisite(s): TECH 30 or CMPE 30.

Grading: Letter Graded

TECH 115 - Automation and Robotics

3 unit(s)

Theory and application of automation elements including analog and digital sensors, controllers, indicators, actuators. Control modes for proportional, derivative, and integral control systems. Hands-on integration practices among PLC, robots, automatic identification devices, computers, and other industrial equipment.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): TECH 60; MATH 71 or MATH 71X; and, PHYS 2A & PHYS 2B, or PHYS 50 & PHYS 51.

Grading: Letter Graded

TECH 136 - Software Quality Management

3 unit(s)

Software quality management standard processes and techniques, certification standards. Web programming application. Mobile network applications. Software testing methodology. Role of software quality managers in a computer network system organization.

2 hours lecture/3 hours lab.

Prerequisite(s): TECH 30 or CMPE 30, BUS2 90, and TECH 173

Grading: Letter Graded

TECH 140 - Product Design and Prototyping

3 unit(s)

Advanced product design employing 3D modelling technique. Measure impact of designs focusing on

materials, manufacturing, product use and disposal. Projects based learning incorporating design intent, materials selection and advanced manufacturing technologies. Laboratory exercises for product design, development and fabrication.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): TECH 20A or ME 20; CHEM 1A or CHEM 30B; and, MATH 71 or MATH 71X or MATH 30 or MATH 30X.

Grading: Letter Graded.

Sustainability Focused - SDG 12: Responsible Consumption and Production

TECH 143 - Polymers and Composites Fabrication Technology

3 unit(s)

Fundamental aspects of modern manufacturing technology using polymeric and composite materials. Hands-on activities in casting, molding, coating, thermoforming, and fiber reinforcement. Concepts of design, analysis, and fabrication.

Prerequisite(s): TECH 20A, CHEM 1A, and PHYS 2A.

Grading: Letter Graded

TECH 145 - Lean Manufacturing

3 unit(s)

Exploration and practice of techniques for reducing waste to optimize the value stream in both manufacturing and non-manufacturing environments. Toyota Production System, Value Stream Mapping, 7 Wastes, 5S, Just-in-Time, TPM, Kaizen.

Prerequisite(s): BUS2 90.

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

TECH 146 - 3D Printing and Applications

3 unit(s)

Introduction to technologies in 3D printing, equipment, processes, and materials. Applications for a variety of markets and industry in accelerating time to market for products, improving manufacturing operations, and efficiency. Hands-on experience through CAD design to product realization.

Prerequisite(s): TECH 20A, TECH 25, TECH 140

Grading: Letter Graded

TECH 147 - Manufacturing Analysis & Management

3 unit(s)

Design, operation, and control of economic production systems using techniques to promote sustainability and minimize environmental impact. Emphasis on the physical design of high-performance manufacturing including production flow, scheduling, work flow, layout of manufacturing plants, and material handling.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): TECH 45, TECH 46, and TECH 115.

Pre/Corequisite(s): TECH 140.

Grading: Letter Graded

Sustainability Focused - SDG 12: Responsible Consumption and Production

TECH 149 - Smart Manufacturing

3 unit(s)

Smart manufacturing including sensors used to facilitate Industrial IoT in machine monitoring, data analytics, digital twin modeling and visualization in production and workflow, smart automation, robotic delivery systems, use of machine learning, additive manufacturing, augmented reality, quality control in manufacturing, and industry tours.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): TECH 147.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

TECH 163 - Telecommunications Systems

3 unit(s)

Communication systems. Types of Modulation. Transmitters and receivers. Digital communications. Data transmission. Digital modulation and modems. Multiplexing and multiple-access techniques. Wireless communication systems. Microwave devices. Satellite communications. Fiber optics systems.

Prerequisite(s): TECH 62, TECH 63.

Grading: Letter Graded

TECH 165 - Wireless Communications Technologies

3 unit(s)

Digital wireless technologies. RF Communications. Wireless Personal Area Networks. Wireless Local Area Networks. Wireless Metropolitan Area Networks. Wireless Satellite Fixed Broadband. Wireless Wide Area Networks. Radio Frequency Identification. Wireless Communication in Business. Emerging wireless technologies

Lecture 3 hours/Lab 3 hours.

Prerequisite(s): TECH 63, TECH 65.

Grading: Letter Graded

TECH 167 - Control Systems

3 unit(s)

Theory and applications of feedback systems, transfer functions and block diagrams. Transducers, analog and digital controllers, signal conditioners and transmission. Analysis, testing, and troubleshooting of

electronic systems with feedback.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Prerequisite(s): TECH 63, TECH 115, and CMPE 30 or CS 49C or CS 49J.

Grading: Letter Graded

TECH 169 - Applied Electronic Design

3 unit(s)

Design, test, simulation, development and implementation of electronic systems for control of industrial processes using project management techniques and team work. Hardware, software, and system interfacing.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Pre/Corequisite(s): TECH 167.

Grading: Letter Graded

TECH 170 - Connected Products Applications

3 unit(s)

Introduction to connected products and applications, defining user (UX) for web and software and UX for Connected Things. Presenting models of human-computer interaction, design processes and product/service definition and strategy. Cases studies of IoT systems and design.

Misc/Lab: Lec 2 hours/ Lab 3 hours.

Prerequisite(s): TECH 68.

Grading: Letter Graded

TECH 171 - Network Security & Prevention Management

3 unit(s)

Approaches to IT system security including physical, application, operating system, cyber-, and network security. Using switches, routers, adaptive security appliance, firewalls, and intrusion protection systems to implement comprehensive security policies. IPv4 and IPv6 security, VPN technology.

Prerequisite(s): TECH 170 or BUS4 111.

Grading: Letter Graded

TECH 172 - Database Server System Management

3 unit(s)

Practical big data analytics and management systems. Issues and problems involved in massive on-line repository systems. Current practical techniques for satisfying the needs of such systems. Current approaches that are likely to provide a basis for tomorrows solutions.

Misc/Lab: Lec 2 hours/Lab 3 hours.

Prerequisite(s): TECH 171, TECH 173, TECH 179.

Grading: Letter Graded

TECH 173 - Cloud Computing System Management

3 unit(s)

Technologies, hardware and software applications in cloud computing. Implementation of cloud computing in the enterprise through exploration of public and private clouds, comparison. Performance monitoring of data traffic flow and process improvement for the required server systems.

Prerequisite(s): TECH 30 and TECH 65.

Grading: Letter Graded.

TECH 174 - Blockchain Technology and Applications

3 unit(s)

Fundamentals and applications of Blockchain Technology; transparent, secure, immutable and distributed database used as the underlying technology for Cryptocurrency. Types of Blockchain and real-life applications for potentially disruptive technology and its impact on business world and society.

Prerequisite(s): TECH 30 or instructor consent.

Grading: Letter Graded

TECH 175 - Industrial Internet of Things (IIoT)

3 unit(s)

Techniques to collect and analyze sensor data to maximize industrial systems efficiency through predictive and preventive maintenance, machines monitoring, supply-chain optimization, smart energy, smart grid, big data analytics, smart connected systems, and cyber threats prevention.

Prerequisite(s): TECH 30 and TECH 65; or instructor consent.

Grading: Letter Graded

TECH 176 - Machine Learning Technology and Applications

3 unit(s)

Overview of machine learning in computer network systems with emphasis on practical applications focusing on supervised and unsupervised techniques and methods, including classification and clustering. Emphasis on big data analytics and data mining.

Prerequisite(s): TECH 30 or instructor consent.

Grading: Letter Graded

TECH 177 - Data Science in Industrial Systems Management

3 unit(s)

Focus on applications of descriptive, predictive, and prescriptive analyses in pattern recognition, system improvement and optimization. Data mining techniques, decision tree modeling, regression analysis, and big data management for informed decision making in industrial systems management.

Prerequisite(s): TECH 31 or equivalent courses with instructor consent.

Grading: Letter Graded

TECH 178 - Autonomous Systems Technology

3 unit(s)

Autonomous systems including vehicles, UAV, drones, warehouse and delivery systems, trucks, and shuttles. Review of the fundamental components of such autonomous systems including sensors, vision systems, actuators, embedded computing, intelligent control and predictive modeling, regulations, and ethics.

Prerequisite(s): TECH 115 or TECH 170 or instructor consent.

Grading: Letter graded.

TECH 179 - Cyber Security System Management

3 unit(s)

Key issue associated with protecting information assets. Levels of protection and response to security incidents. Planning for security and management of the system. Application of software, cryptography, encryption methods. Mobile and cloud systems security.

Prerequisite(s): TECH 171 or BUS4 111.

Grading: Letter Graded

Sustainability Related

TECH 180A - Individual Studies in Electronics and Computer Technology

1-4 unit(s)

Prerequisite(s): Upper division standing and instructor consent. Not available to Open University Students.

Grading: Credit/No Credit

TECH 180B - Individual Studies in Manufacturing Technology

1-4 unit(s)

Prerequisite(s): Upper division standing and instructor consent. Not available to Open University Students.

Grading: Credit/No Credit

TECH 180J - Individual Studies in Technology Issues

1-4 unit(s)

Prerequisite(s): Upper division standing and instructor consent. Not available to Open University Students.

Grading: Credit/No Credit

TECH 190A - Senior Project I

3 unit(s)

Half of one-year senior team design projects. Professional development and proposal preparation with feasibility plans, specifications, oral/written reports, and career and professional seminar participation. Project proceeds over two semesters from problem definition and design to validation, prototype

construction, and testing.

Prerequisite(s): ENGR 100W with a grade of C or better and either TECH 115 and TECH 140 and TECH 147, or TECH 170 and TECH 171.

Grading: Letter Graded

Note(s): TECH 190A and TECH 190B sequence must be completed in the same academic year.

Sustainability Related - SDG 12: Responsible Consumption and Production

TECH 190B - Senior Project II

3 unit(s)

Second half of a one-year team project carried out under faculty supervision. Construction, testing, and evaluation of the design from TECH 190A, culminating in demonstrations and written and oral presentations to faculty and peers.

Prerequisite(s): TECH 190A.

Grading: Letter Graded

Sustainability Related - SDG 12: Responsible Consumption and Production

TECH 192 - International Program Studies

1-14 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

TECH 195 - Cooperative Internship

1-3 unit(s)

Provides an educational strategy that links classroom learning and student interest with the acquisition of knowledge in an applied work setting. Students undertake a significant experiential learning opportunity, typically with a company, non-profit, governmental, or community-based organization.

Prerequisite(s): Upper division standing, course contract, instructor consent

Grading: Credit/No Credit

TECH 198 - Technology and Civilization

3 unit(s)

History, development, and use of technology in different cultures. Technology's impact on society, global environment, the workplace, cultural values, gender roles, and newly industrialized countries of the world.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with CMPE 198 / ENGR 198 / ME 198. Technology is responsible for scheduling.
Sustainability Related - SDG 9: Industry, Innovation and Infrastructure

TECH 199A - Special Topics in Electronics & Cmp Tech

3 unit(s)

Fundamentals of being a successful college student on the path to a profession in Industrial Technology. Hands-on project oriented course with applications in manufacturing systems, robotics, plant operation, materials and handling, computer network systems, IoT, and internet hardware. Guest speakers and tours of related industries.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

TECH 199B - Special Topics in Manufacturing Systems

3 unit(s)

Special topics in Manufacturing Systems. Content varies from semester to semester. Repeatable for a total of 6 units.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

TECH 200 - Research Methods for Engineering and Technology

3 unit(s)

Current applied research methods applied to problems in engineering, technology, and other technical fields. Exposure to current literature, scientific/technological research ethics, research and experimental design and methods, skills in research proposal development and locating funding.

Prerequisite(s): STAT 115 (or equivalent) and graduate standing.

Grading: Letter Graded

TECH 230 - Six-Sigma and Continuous Improvement Systems Management

3 unit(s)

Six-Sigma quality systems for design production and business processes. Statistical foundations, implementation strategies, and practical industrial applications. Methods and practices of achieving continuous quality improvement, defect reduction, project planning and management methods to achieve universal participation in process improvement.

Prerequisite(s): STAT 115 or equivalent.

Grading: Letter Graded

TECH 231 - Systems Reliability and Maintainability

3 unit(s)

Analysis of models for systems reliability including static, dynamic, and probabilistic engineering models; reliability estimation and optimization, life cycle prediction techniques; failure modes and effects analysis; maintainability prediction and analysis.

Prerequisite(s): TECH 230.

Grading: Letter Graded

TECH 232 - Advanced Statistical Process Control

3 unit(s)

Analysis of advanced statistical process control (SPC) systems for monitoring and controlling process performance. Statistical methods for sample selection, probability theory, partition of variation, blanket studies, out-of-control action plans, process capability measurement, and SPC implementation strategies and analysis.

Prerequisite(s): STAT 115.

Grading: Letter Graded

TECH 233 - Design and Analysis of Experiments

3 unit(s)

Analysis of experimental design strategies for process and design improvement. Industrial application of single factor, multi-factor, and optimization designs. Experimental analysis using t-tests, ANOVA, Chi-square, linear and multiple regression techniques. Model building and model validation.

Pre/Corequisite(s): TECH 232.

Grading: Letter Graded

TECH 234 - Quality Systems Management: ISO 9000 and 14000

3 unit(s)

Strategies for developing and implementing ISO standards: Project management and planning, cost estimation, supply chain management, audit plans and documentation systems for ISO system compliance. Analysis of ISO 9000 and 14000 quality systems for product design, development and production.

Grading: Letter Graded

TECH 235 - Measurement Systems and Analysis

3 unit(s)

Analysis of variables and attributes methods for measurement systems analysis and control including; repeatability, reproducibility, accuracy, linearity and stability. A survey of measurement and testing systems; dimensional metrology, destructive and nondestructive testing, calibration methods, and inspection equipment and techniques.

Prerequisite(s): TECH 232.

Grading: Letter Graded

TECH 236 - Foundations in Quality Assurance for Software

3 unit(s)

Analysis of software development strategies, design and configuration control systems, development standards, performance measurement, documentation and revision control systems, defect reduction methods, modular design approaches, and software maintainability.

Prerequisite(s): TECH 232, TECH 200, TECH 234, and CS 46A or equivalent.

Grading: Letter Graded

TECH 239 - Design Assurance in Product Development

3 unit(s)

Analysis of product development strategies, understanding design constraints and market conditions, design and configuration control systems, documentation and revision control systems, design for manufacturability, phase review approaches for new product introduction, design reviews, and developing and maintaining design guidelines.

Prerequisite(s): TECH 200, TECH 230 and TECH 234.

Grading: Letter Graded

TECH 241 - Application of Artificial Intelligence in Manufacturing

3 unit(s)

Application of artificial intelligence in manufacturing ecosystems in predicting production and process rates, determination of accuracies, machinery performance analysis, and planning preventive maintenance to optimize system operation, through continuous data collection and analysis.

Prerequisite(s): TECH 30 and TECH 176, or instructor consent.

Grading: Letter Graded

TECH 242 - Vision System Application in Manufacturing

3 unit(s)

Course covers computer vision techniques such as convolution, transformations, segmentations, background subtraction, shape detection, object detection, tracking, and classification. Specific emphasis on practical manufacturing applications such as machinery vision systems, defect detection, packaging, barcode recognition, and safety in production lines.

Prerequisite(s): Graduate Standing or Instructor Consent.

Grading: Letter graded.

TECH 244 - Selective Laser Melting Process

3 unit(s)

Introduction to the latest developments and critical challenges of selective laser melting (SLM) process to provide relevant knowledge and practical experience in developing novel SLM process, equipment, and applications. Project based learning, emphasizing the principles of powder metallurgy in SLM of aerospace

materials.

Prerequisite(s): TECH 146 or instructor consent.

Grading: Letter graded.

TECH 245 - Advanced Solid-State Welding/Joining Processes

3 unit(s)

Introduction to the latest developments and critical challenges of friction stir welding/joining and processing (FSW/J&P) to provide relevant knowledge and practical experience in developing novel FSW/J&P processes, equipment, and applications. Project based learning, focusing on the process principle, metallurgical, and mechanical aspects of FSW/J&P.

Prerequisite(s): TECH 140 or instructor consent.

Grading: Letter graded.

TECH 251 - Cybersecurity Operations Management

3 unit(s)

Apply cybersecurity management principles to analyze cybersecurity policies; approaches to risk analysis; plan for business continuity and disaster recovery; practice incident response to prevent intrusions and attacks; exercise managing firewalls, cloud security, identity management, intrusion detection systems, cryptography, and VPNs.

Prerequisite(s): Graduate Standing and Instructor Consent.

Grading: Letter graded.

TECH 273 - Computer and Network System Auditing

3 unit(s)

Emphasis on information security and security management, computer crime, legal issues, controls and auditing systems, scanning threat reporting. Evaluations of security infrastructures in a controlled environment using vulnerability assessment tools to assess risks and evaluate security controls on the network.

Prerequisite(s): Graduate Standing and Instructor Consent.

Grading: Letter Graded

TECH 290 - Graduate Problems

2-4 unit(s)

Graduate study or research of technical problems.

Prerequisite(s): TECH 200 and instructor consent. Not available to Open University Students.

Grading: Credit/No Credit

TECH 295A - Engineering Technology Project I

3 unit(s)

Advanced individual work in Engineering Technology, including but not limited to research, development, simulation, and/or fabrication and test. TECH 295A is the first semester of a two-semester long graduate

project.

Prerequisite(s): Advancement to candidacy for the master's degree and instructor consent.

Grading: Letter graded/Incomplete.

TECH 295B - Engineering Technology Project II

3 unit(s)

Continuation of TECH 295A. Students complete the in-depth project, write a technical report, and make a comprehensive presentation.

Grading: Letter graded/RP.

TECH 298 - Graduate Project

2-4 unit(s)

Graduate study research of professional problems.

Prerequisite(s): Advancement to candidacy for the master's degree and instructor consent. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

TECH 299 - Master's Thesis

2-6 unit(s)

Prerequisite(s): Advancement to candidacy for the master's degree and instructor consent. Not available to Open University Students.

Grading: Mandatory Credit/No Credit/RP

TECH 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project.

Course may be repeated for credit for up to 16 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in a project or thesis class

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit.

Theatre Arts

TA 5 - Acting

3 unit(s)

Basic acting class for non-theatre arts majors. Exploration of inner and external resources for performance, analysis of text and character, guidelines for successful rehearsal and performance. Learning to be seen, heard, understood and believed.

Satisfies C1: Arts.

Grading: Letter Graded

TA 10 - Theatre Appreciation

3 unit(s)

Study of the historical and cultural contexts of theatre around the world. Seeing and critical writing about plays. Hands-on experiences in the arts and crafts of live theatre.

Satisfies C1: Arts.

Grading: Letter Graded

TA 11 - Script Analysis

3 unit(s)

Detailed analysis of dramatic and screenplay scripts related to performance and production.

Grading: Letter Graded

TA 13 - Great Comedies for Theatre

3 unit(s)

This course is designed to introduce students to comedic dramatic literature and the performance techniques to stimulate the proper audience response.

Satisfies C2: Humanities.

Grading: Letter Graded

TA 17 - Intermediate Acting

3 unit(s)

Scene Study class based on Stanislavsky Method. Students rehearse and memorize contemporary scenes performed for critique by the instructor. Acting techniques will focus on analysis, internal methods and characterization for playing scenes. Lab exercises additionally will include disciplined stage movement and improvisation techniques.

Misc/Lab: Lecture 2 hours/lab 2 hours.

Prerequisite(s): TA 5

Pre/Corequisite(s): TA 11

Grading: Letter Graded

TA 48 - Voice & Movement for the Actor

3 unit(s)

Course focuses on using voice & movement to understand different stages of human life, in its biological and cultural configurations we bring to the stage. Voice and movement shapes, unites and differentiates our communications and expressions as performers.

Satisfies E: Human Understanding & Development.

Grading: Letter Graded

TA 51A - Scenery and Props for the Performing Arts

1 unit(s)

Introduction to facilities, materials and tools; safety guidelines for production shop and stage. Standard construction techniques and production vocabulary.

Grading: Letter Graded

Note(s): Lec and Misc/Lab

TA 51B - Costume for the Performing Arts

1 unit(s)

Costume production laboratory introducing costume construction techniques and materials, basic alteration techniques, costume craft techniques; costume shop organization, management, personnel and equipment.

Misc/Lab: Activity 2 hours.

Grading: Letter Graded

TA 51C - Lighting & Sound for the Performing Arts

1 unit(s)

Introduction to the concepts and tools used in creating lighting and sound for onstage productions. Includes supervised hands-on activity with individual instruction in basic techniques and tools used in lighting and sound for the stage.

Lecture 0.5 hours/Activity 1.5 hours.

Grading: Letter Graded

TA 55 - Intro to Design for Theatre

3 unit(s)

An introduction to the expansive field of visual and audio design for the performing arts, including scenic design, costume design, lighting design, sound design, and video/projection design. In exploring the practice of these rapidly evolving forms, students will exercise strategies for applying creative, fine-arts based solutions to a variety of challenges. Students will learn how theatrical designers collaborate and respond to literary prompts, such as play scripts, with art and technology to create physiological environments that impart psychological and social meanings. Students will also have opportunities to participate directly in university productions through a hands-on practicum (lab) component.

2 hours of Activity/2 hours Lecture.

Satisfies C1: Arts.

Grading: Letter Graded

TA 64 - Make-up for Performing Arts

3 unit(s)

Makeup techniques for stage, television, film and print. Course covers makeup design, makeup materials and two dimensional application techniques. Laboratory work on actual stage productions, video and film shoots.

Misc/Lab: Lecture/demonstration 2 hours/lab 2 hours.

Grading: Letter Graded

TA 91 - Scenic Painting & Props

1-3 unit(s)

Supervised hands-on activity with individual instruction in basic techniques and tools essential to successful stage production in scene painting for the theatre, as well as the many facets of being a property master for theatrical productions.

Lecture 2 hours/Lab 2 hours.

Course may be repeated for credit for up to 6 units.

Grading: Letter Graded.

TA 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

TA 100W - Writing Workshop: Theatre Arts

3 unit(s)

Development of skills appropriate to the theatre profession: criticism, research, publicity and promotion materials, and cover letter and resume composition.

Satisfies Writing in the Disciplines (WID).

Prerequisite(s): A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; and upper division standing. Or Graduate or Postbaccalaureate level. Allowed Declared Majors: Radio/Television/Film, Theatre Arts, Dance, Animation/Illustration, Interdisciplinary Studies.

Grading: Letter Graded

Note(s): Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).

TA 103 - Musical Theatre

3 unit(s)

The repertoire of musical theatre with intensive training in appropriate acting, singing and dance techniques.

Misc/Lab: Lecture 2 hours/lab 3 hours.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

TA 110 - Advanced Acting

3 unit(s)

Preparation, analysis and presentation of styles ranging from Chekhov to Shakespeare are the basis of this advanced scene-study course. Exploration of roles to develop authority, characterization, range and clarity are at the core of this class. Repeatable once for credit.

Misc/Lab: Lecture 2 hours/lab 3 hours

Course may be repeated for credit for up to 6 units.

Prerequisite(s): TA 11, TA 17 and instructor consent.

Grading: Letter Graded

TA 112 - Rehearsal and Performance

3 unit(s)

Analysis and production of a dramatic work that presents unusual problems of background, interpretation, style or meaning. Lectures, discussions, readings; rehearsal of play and participation in other aspects of the final production.

Misc/Lab: Lab hours required.

Course may be repeated for credit.

Prerequisite(s): TA 5, TA 17 or instructor consent.

Grading: Letter Graded

TA 113 - Acting and Professional Career Prep

3 unit(s)

External techniques for playing a role and for beginning a professional career in acting for stage and film are the primary focus of this class. Exercises in the TV studio and theatre will focus on quick study, taking stage, commercial auditions and voice-over practice, along with resume/picture/portfolio selection, audition

techniques, selecting an agent, finding work.

Misc/Lab: Lecture 2 hours/lab 2 hours.

Prerequisite(s): TA 11, TA 17 or instructor consent.

Grading: Letter Graded

TA 116 - Directing

3 unit(s)

Study and discussion of and practice in the fundamental principles of play direction; stage composition, movement, business, tempo; directing procedures; play selection and interpretation; problems in styles, casting and rehearsal and performance.

Misc/Lab: Lecture 2 hours/activity 2 hours.

Prerequisite(s): TA 11, and TA 5 or TA 17.

Grading: Letter Graded

TA 117 - Practice in Acting or Directing

1-3 unit(s)

Director analyzes, casts, rehearses scenes. The actor performs in a variety of roles.

Activity 6 hours.

Course is repeatable for up to 9 units when content changes.

Prerequisite(s): TA 17 or instructor consent.

Grading: Letter Graded

TA 120 - Theatre History

3 unit(s)

Examines the historical roots, many manifestations, and diversity of theatrical performances with particular attention to theatre's role within and between cultures.

Prerequisite(s): TA 11 or instructor consent.

Grading: Letter Graded

Cross-listed with ENGL 120. Film and Theatre is responsible for scheduling.

TA 121 - Topics in Performance History

3 unit(s)

Examines relations between performance and unique historical/cultural conditions that motivate change or continuity in a specific area of performing arts. Not a historical survey, but a problem-centered course that focuses on developing the power to think historically about performance.

Prerequisite(s): TA 11 or instructor consent.

Grading: Letter Graded

TA 127 - Contemporary Theatre

3 unit(s)

Contemporary plays from 1980s to present and important theatre practices for this period. Explores contemporary theatre by critically examining selected plays and productions of the last fifty years. The course will concentrate how the selected plays and productions express the diversity and complexity of postmodern society. The class will look at various performance styles and how they are a direct response and/or reaction to major changes in the social and political landscape. The course will focus on how theatre represents contemporary views of people, events and ideas through specific performance discourses.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with ENGL 127. Film and Theatre is responsible for scheduling.

TA 128 - Introduction to Playwriting

3 unit(s)

Writing in dramatic form: plot structure, characterization, content and theme. Analysis of plays. Exercises in writing.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ENGL 128. Film and Theatre is responsible for scheduling.

TA 129 - Advanced Playwriting

3 unit(s)

Writing in dramatic form-plays, film scripts, television scripts. Study and discussion of models. Criticism of student writing.

Course is repeatable for up to 6 units.

Prerequisite(s): TA 128 (or equivalent) and instructor consent. Upper division standing or instructor consent.

Grading: Letter Graded

TA 131 - Storytelling

3 unit(s)

Course focuses on Storytelling and Creative Dramatics to teach Multiple Subject Credential Students theatre techniques.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

TA 144 - Shakespeare I

4 unit(s)

Major plays such as Twelfth Night, Henry IV, Part I and Hamlet.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with ENGL 144. English and Comparative Literature is responsible for scheduling.

TA 145 - Shakespeare and Performance

4 unit(s)

Course examines in depth several of Shakespeare's plays, specifically addressing issues of performance.

We will discuss each play in the context of its original performance during Shakespeare's time and its life on stage and screen in the ensuing centuries.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with ENGL 145. English and Comparative Literature is responsible for scheduling.

TA 148 - Voice & Movement for Performance

3 unit(s)

Explores the expressive, restorative and communicative nature of movement and voice as applied to human performance, the arts, therapy, education and management. Techniques focus on students developing their "natural voice" and exploring elements of physical expression by examining how the body can communicate story. Course content may change each semester and be tailored to be more advanced for those students repeating the course.

Lecture 2 hours/lab 3 hours.

May be repeated 2 times for up to 6 units.

Prerequisite(s): TA 48 or upper division standing.

Grading: Letter Graded

Cross-listed with CA 148. Film and Theatre is responsible for scheduling.

TA 151 - Lighting Design for Performing Arts

3 unit(s)

Theory and practice of designing lighting for the performing arts. Presents broad-based understanding of the design process and responsibilities; the importance of collaboration and communication in the theatre; and the skill of articulately presenting design ideas visually and orally.

Lecture 2 hours/Activity 2 hours

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Upper division standing, TA 55, and TA 51C; or instructor consent.

Grading: Letter Graded

TA 153 - Costume Design for Performing Arts

3 unit(s)

Theory and practice of designing costumes for the performing arts. Presents broad-based understanding of the design process and responsibilities; the importance of collaboration and communication in theatre; and the skill of articulately presenting design ideas visually and orally.

Lecture 2 hours/Activity 2 hours.

Prerequisite(s): TA 51B and TA 55, or instructor consent.

Grading: Letter Graded

TA 154 - Scenic Design for Performing Arts

3 unit(s)

The theory and practice of designing scenery for the performing arts. This course will provide students a broad-based understanding of the design process and responsibilities; the importance of collaboration and communication in theatre & film; and the skill of articulately presenting design ideas visually and orally.

Lecture 2 hours/Activity 2 hours.

Prerequisite(s): TA 55 and TA 51A, or instructor consent.

Grading: Letter Graded

TA 158 - Model Making & Drafting Film & Theatre

3 unit(s)

Explores the processes, methods, tools, and skills used for scale model making and drafting for stage and screen.

Misc/Lab: Lecture 2 hours/lab 2 hours.

Course may be repeated for credit for up to 9 units.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

TA 161 - Theatre Design Topics

3 unit(s)

Discussion of theatre design including scenic, property, costume, makeup, lighting, sound and facility design. Subject matter varies depending on specialty of faculty. Course is repeatable for credit.

Lecture 2 hours/activity 2 hours.

Repeatable for credit.

Prerequisite(s): TA 55 and upper division standing, or instruct consent.

Grading: Letter Graded

TA 167 - Theatre in Education

3 unit(s)

Equips prospective pre-K to high school educators with the basic knowledge, skills, and strategies to effectively organize and provide sequential and culturally diverse theatre arts education in the school setting and beyond. Emphasis is on theatre arts teaching methods, curriculum development and hands-on theatre experiences.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

TA 168 - Stage Management

3 unit(s)

Exploration of the planning, communication, organizational structure, and practices of stage management. Topics include responsibility, communication, audition and rehearsal supervision, audience services coordination, working relationships with performance and production staff, and the health and safety issues for performers and technical staff.

Lecture 2 hours/lab 1 hour.

May be repeated for credit for up to 6 units.

Grading: Letter Graded

TA 170A - Introduction to Acting and Directing for the Camera

3 unit(s)

Directing and Acting techniques for shaping a narrative and adjusting performance; voice and microphone use, movement for camera, gesture and the frame, role analysis for non-sequential performance, concentration, relaxation. Preparation, performance and critique of taped scenes.

Lecture 2 hours/Activity 2 hours.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): RTVF 130 or TA 17.

Grading: Letter Graded

TA 170B - Advanced Acting and Directing for the Camera

3 unit(s)

Using the grammar of film and narrative storytelling to direct, produce and write contemporary film and television scenes. Use of single- and multi-camera techniques.

Lecture 2 hours/Activity 2 hours.

Course is repeatable for up to 6 units.

Prerequisite(s): TA 170A or RTVF 130 or RTVF 132A.

Grading: Letter Graded

TA 172 - The Arts in U.S. Society

3 unit(s)

Study of American arts and artists in their aesthetic, social, and political contexts, focusing on 20th and 21st centuries. Arts examined may include architecture, poetry, music, visual arts, dance, theatre, performance art, and fiction. Special emphasis on issues of cultural diversity and social justice.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with CA 172 / ENGL 172 / MUSC 172. Humanities is responsible for scheduling.

TA 173 - Thinking About Contemporary World Arts

3 unit(s)

An interdisciplinary investigation of the connections between the contemporary arts and global cultures. Use of critical and creative thinking to develop global understanding and to explore personal and cultural identities.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education, and upper-division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Cross-listed with CA 173 / ENGL 173 / MUSC 173. Humanities is responsible for scheduling.

TA 180 - Individual Studies

1-3 unit(s)

Directed study in specified fields not covered by offered courses.

Prerequisite(s): Department chair consent.

Grading: Credit/No Credit

TA 191 - Theatre Production Workshop

3 unit(s)

Supervised hands-on activity with individual and group instruction in the production of plays and musicals. Areas of participation include scenery construction, painting, properties, costume construction, lighting & sound, running crew, and more. Students learn to use their unique creative potential to further develop their production, design, and technology skills in theatre.

Activity 6 hours.

Course may be repeated for credit for up to 12 units.

Pre/Corequisite(s): TA 51A, TA 51B, & TA 51C, or instructors consent.

Grading: Letter Graded.

TA 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

TA 198 - Internship

3 unit(s)

Supervised internships with approved radio, television or theatre organizations. Written evaluation submitted by sponsor and student after field work. Repeatable for credit up to 6 units.

Misc/Lab: Lecture 3 hours/Activity 6 hours

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Junior or senior standing and instructor consent.

Grading: Letter Graded

TA 199H - Honors Program

2-3 unit(s)

Demanding project demonstrating student's ability to do independent action and research. Written thesis or, in the case of the creative project, analysis and evaluation of the aesthetic problem; thesis to be defended orally by the student before a theatre arts staff committee. May be repeated once for credit.

Course may be repeated for credit for up to 6 units.

Prerequisite(s): Senior standing/3.0 GPA; by invitation only.

Grading: Credit/No Credit

Cross-listed with RTVF 199H. Film and Theatre is responsible for scheduling.

TA 221I - Performing Narratives

4 unit(s)

Practice in the application of theories and methods for performing narratives, broadly construed. Students

will practice creating, directing, and performing work adapted from literary texts, ethnographic interviews, social justice issues, and/or lived experience. Required of graduate students who wish to do thesis performances.

Prerequisite(s): Graduate standing, or instructor consent.

Grading: Letter Graded

Cross-listed with COMM 221I. Communication Studies is responsible for scheduling.

TA 225 - Seminar in Shakespeare

4 unit(s)

A close study of selected plays and of selected major issues in Shakespearean criticism. With prior permission of graduate advisor may be repeatable once for credit.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Classified standing or instructor consent.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Cross-listed with ENGL 225. English and Comparative Literature is responsible for scheduling.

Transportation Management

MTM 201 - Transportation Systems and Society

3 unit(s)

Core transportation knowledge and systems thinking. Characteristics of travel modes and infrastructural elements that produce transportation systems; public, private, and nonprofit actors involved in transportation; transportation systems as levers toward achieving economic vitality, social equity, environmental sustainability, and community goals; and key challenges transportation system managers will face in the coming decade.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

MTM 202 - Introduction to Transportation Funding and Finance

3 unit(s)

Introduces financial and managerial uses of accounting information systems and concepts. Includes standard costs, cost-volume-profit relationships, contribution analysis, budgeting, performance measurement, variance analysis, working capital, valuing capital costs and financing investment decisions. Explores use of complex information decision systems.

Grading: Letter Graded

MTM 203 - Transportation Marketing and Communications Management

3 unit(s)

Emphasizes positioning services to meet the needs of particular groups/market segments and marketing the system to new users/user groups (including developing the public/private sector relationship). Examines strategies for developing the community relationship with marketing and public relations efforts (and using the media to advantage).

Grading: Letter Graded

MTM 214 - Transportation Policy and Regulation

3 unit(s)

Surveys political frameworks of governments as both customer and provider; development of transportation policy with public involvement; and performance measurement with public oversight. Reviews policy impact on intermodal development in seeking to manage public and private objectives and diverse agendas of federal, state and local agencies.

Grading: Letter Graded

MTM 215 - Transportation Planning and Project Development

3 unit(s)

Examines management of transportation planning and project development processes, including: regional and state system-wide planning; project-level planning; environmental review; obtaining governmental approvals and permits; contract management; and project management.

Prerequisite(s): MTM 201 or instructor approval.

Grading: Letter Graded

MTM 217 - Leadership and Management of Transportation Organizations

3 unit(s)

A study of the human resource aspects of managing transportation systems, including labor/management collaboration/negotiation and consultative employee relations programs. Builds skills in leadership and team building within the context of bringing about organizational change in a complex transportation system.

Grading: Letter Graded

MTM 226A - Transportation Emergency Management

3 unit(s)

Examines the role of emergency management within transportation agencies and the role of transportation and related resources in community-wide responses to emergencies disasters. Includes instruction in Standardized Emergency Management Systems (SEMS).

Grading: Letter Graded

MTM 226B - Transportation Security Management

3 unit(s)

Examines contemporary challenges to transportation security. Topics to be covered include: management of infrastructure challenges (such as tunnel, bridge, road and rail vulnerabilities) prevention of and response to theft, work place violence, disruptive terrorism, suicide and placement combing attacks, and their related protection strategies. Students will learn about federal and state grants for security, as well as regional transportation planning for disaster response planning.

Grading: Letter Graded

MTM 226C - Transportation Safety and Compliance Management

3 unit(s)

Examines contemporary challenges to transportation safety and regulatory compliance. Topics to be covered include the history and evolution of safety principles, developing and managing a safety culture, hazard identification and management, along with federal and state regulatory compliance and safety certification processes. Students will also be introduced to the federal rulemaking process and the role of the National Transportation Safety Board.

Grading: Letter Graded

MTM 236 - Managing Technology Innovations in Transportation

3 unit(s)

Management challenges posed by five technological trends: electrification, vehicle automation, connected vehicles and infrastructure, car sharing and ride sharing, and mobility as a service. Topics include: impacts on infrastructure, financing, and labor; managing technologies to support environmental, equity, and economic efficiency policy goals; and supporting collaboration between public agencies and private sector firms.

Grading: Letter Graded

MTM 245 - High-Speed and Intercity Rail: Planning & Design

3 unit(s)

Course introduces students to fundamental principles for managing the planning and design of high-speed and intercity rail projects. Students analyze the challenges and opportunities that high-speed and intercity rail services face in the U.S., given prevailing travel behavior patterns, land-use patterns, and funding sources. Topics include the interrelationship of high-speed rail with conventional intercity rail and urban public transportation, the roles of different levels of government in planning and design, and the delivery and governance of rail corridors and stations. The course takes an international perspective, drawing lessons from around the globe and applying these principles to the U.S. context.

Grading: Letter Graded

MTM 246 - High-Speed and Intercity Rail Operations/Engineering

3 unit(s)

Course introduces students to best practices for managing the engineering and operations of high-speed and intercity rail. Topics covered include day-to-day operational concerns such as customer experience,

service scheduling, and security management. In addition, the class covers strategic issues such as operating blended service that accommodates both passenger and freight service, managing public communications, and contracting approaches for both construction and operations.

Grading: Letter Graded

MTM 250 - Sustainable & Resilient Transportation Management

3 unit(s)

Analysis of the multidimensional relationship between transportation systems and major environmental problems such as climate change, air pollution, noise, diminished water and soil quality, and decreased biodiversity. Exploration of innovative strategies to achieve sustainable and resilient transportation systems, such as zero-emission and other new vehicle technologies, climate resilience and adaptation plans, habitat conservation plans, principles of climate justice, and environmental impact assessment and monitoring. Case studies from across the globe that examine the interplay between sustainable management practices and technological, political, and societal factors.

Grading: Letter Graded

MTM 260 - Project Management in Transportation

3 unit(s)

Reviews project management, program, and portfolio practices defined by the Project Management Institute (PMI) and the International Organization for Standardization (ISO). Examines how those practices apply to transportation and compares project management practices in the US transportation industry to other industry sectors and to general practices in other countries.

Grading: Letter Graded

MTM 283 - MSTM Capstone - Project Design

3 unit(s)

Provides the first part of a culminating experience in which students design and carry out an individual, comprehensive policy or program evaluation. Students conduct background research and develop a Policy or Program Evaluation Proposal that demonstrates their capacity to do independent research, analysis, and writing about a complex transportation management problem.

Prerequisite(s): Completion of 21 units towards the Master of Science in Transportation Management degree

Grading: Credit/No Credit/Incomplete.

MTM 290 - MSTM Capstone - Evaluation Report

3 unit(s)

Provides the second part of a culminating experience in which students design and carry out an individual, comprehensive policy or program evaluation. Students complete a Policy or Program Evaluation following the proposal design they developed in MTM 283. The final report demonstrates their capacity to do independent research, analysis, and writing about a complex transportation management problem.

Prerequisite(s): MTM 283

Grading: Mandatory Credit/No Credit/RP

MTM 297 - Special Topics in Transportation Management

3 unit(s)

Special topics to supplement regularly programmed elective course. Topics can include, but are not limited to, special skills development, labor relations, information systems, legal environment, public policy, and urban planning.

May be repeated for credit when topic changes.

Prerequisite(s): Graduate standing and prerequisite courses as may be specified.

Grading: Letter Graded.

University Studies

UNVS 15 - Statway: Statistics-Concepts & Methods

3 unit(s)

Concepts and methods of statistics with an emphasis on data analysis. Topics include methods for collecting data, graphical and numerical descriptive statistics, correlation, simple linear regression, basic concepts of probability, confidence intervals and hypothesis tests for means and proportions, and chi-square tests.

Lecture 1 hour / Activity 4 hours

Satisfies Completion with a grade of C- or better satisfies the GE Area B4: Mathematics/Quantitative Reasoning requirement.

Grading: Letter Graded

Cross-listed with MATH 15. Undergraduate Education is responsible for scheduling.

UNVS 75 - Fundamentals of Leadership and Career Accelerator

3 unit(s)

This course is a foundational course designed to begin preparing students in their sophomore year or first year of transfer to SJSU to practice the leadership habits of mind and workplace skills needed to thrive in 21st century workplaces. Given the increasingly competitive, and globalized job marketplace, this course enables participants to cycle through rounds of interactive experiences and practice to acquire "hard" and "soft" skills needed to succeed. Students will apply these skills in real-life leadership situations and build meaningful networks of peers and adults, all while activating their personal assets and deepening their sense of self and community.

Misc/Lab: 2 hours lecture/ 2 hours lab

Prerequisite(s): ENGL 1A

Grading: Letter Graded

Cross-listed with SCI 75. Science is responsible for scheduling.

UNVS 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

UNVS 95 - Special Topics in Student Leadership Development

1 unit(s)

University 95 is for students selected as staff for San Jose State University's Summer Transition Programs (e.g., Summer Bridge Resident Assistants and Academic Coaches and Spartan Scholars Program Community Assistants and Academic Coaches). Through a series of lectures, project-based activities, and required readings, students will explore both theoretical and practical elements of leadership.

Course may be repeated for credit for up to 3 units.

Grading: Letter Graded

UNVS 95B - First Year Experience- Academic Success

1-2 unit(s)

University 95 is a series of lectures, project-based activities, and required readings to promote academic success. This course introduces students to university faculty, campus administrators, and campus resources. It also provides students with a wide range of information regarding various institutional academic expectations, university policies and procedures, and practical study skills to prepare them for the successful completion of courses at SJSU.

Grading: Letter Graded

UNVS 96D - Academic Skill Development

1 unit(s)

Development of academic skills to help students succeed in college.

Grading: Credit/No Credit/No Degree Credit

UNVS 101 - Leadership and Career Accelerator

3 unit(s)

Prepares students for the increasingly competitive, globalized job marketplace. Through online, peer learning, interactive experiences, and reflection, students build meaningful networks, discover their innate leadership, and cultivate the hard and "soft" skills and habits of mind needed to thrive in twenty-first century workplaces and make positive impact through their careers upon graduation. Aimed at students in their sophomore or junior year or first year of transfer, though all students of all majors can participate.

Lecture 2 hours/lab 3 hours.

Prerequisite(s): ENGL 1A or ENGL 1AS with a grade of "C-" or better or complete GE Area A2 with a grade of "C-" or better.

Grading: Letter Graded

Note(s): Why take UNVS 101?

Cross-listed with SCI 101. Science is responsible for scheduling.

UNVS 120 - Conceptualizing Complex Problems

3 unit(s)

Introduction to the theme of the Interdisciplinary Studies Minor program. Theme is examined from interdisciplinary perspectives through presentations by a faculty team along with field trips or visits from experts, organizations, and sites. Final public presentation to campus and community.

Prerequisite(s): Must be a declared Interdisciplinary Studies Minor.

Grading: Letter Graded

High Impact Practice: Learning Community

UNVS 121 - Social Problems Topics

3 unit(s)

In-depth study and exploration of the Interdisciplinary Studies Minor Cohort theme. Student teams do field research or apply ideation and design thinking techniques to identify an issue for further research. Final public presentation to campus and community.

Prerequisite(s): Must be a declared Interdisciplinary Studies Minor.

Grading: Letter Graded

High Impact Practice: Learning Community

UNVS 122 - Steps in Real-World Problem Solving

3 unit(s)

Student teams work in-depth on group projects. Final projects and reflections address the problem directly and propose advocacy campaigns, curriculum or policy changes, and other types of solutions. Final public presentation to campus and community.

Prerequisite(s): Must be a declared Interdisciplinary Studies Minor.

Grading: Letter Graded

High Impact Practice: Learning Community

UNVS 123 - HonorsX Explorations

3 unit(s)

In-depth study and exploration of the Interdisciplinary Studies Cohort theme. The topic for the seminar will change each semester. Final public presentation to campus and community.

Prerequisite(s): Must be a declared Interdisciplinary Studies Minor.

Grading: Letter Graded

High Impact Practice: Learning Community

UNVS 124 - HonorsX Research or Practicum Experience

3-6 unit(s)

Students work on well-defined research projects with faculty, or with community and corporate mentors. Requires pre-approval from the HonorsX director.

Prerequisite(s): Must be a declared Interdisciplinary Studies Minor.

Grading: Letter Graded

High Impact Practice: Learning Community

Sustainability Focused

UNVS 125M - McNair Research Colloquium

3 unit(s)

Course is designed to assist students in the SJSU McNair Scholars Program to prepare for graduate study at the doctoral level. Various faculty will lecture on topics including research methodology, research writing, protocol for presenting research results conferences, graduate school experiences and academic expectations.

Prerequisite(s): Students must be accepted in the SJSU McNair Scholars Program.

Grading: Credit/No Credit

UNVS 180 - Individual Studies

1-4 unit(s)

Special topics or projects by arrangement with instructor.

Grading: Credit/No Credit

UNVS 190 - University Internship

1-4 unit(s)

Supervised placement in student support services for advanced students.

Grading: Credit/No Credit

UNVS 195H - Interdisciplinary Research Practicum

3 unit(s)

This practicum will integrate the methods of at least two disciplines to conduct basic and applied research. Undergraduate students will have hands-on experiences working with faculty from different disciplinary traditions in real research projects.

Prerequisite(s): Upper Division Standing

Grading: Credit/No Credit

UNVS 199 - Orientation Leadership Studies

3 unit(s)

This class is designed for students selected by Student Affairs to serve as SJSU Orientation Leaders. Students will learn theoretical/practical aspects of leadership, and receive training in university policies/procedures. Curriculum will apply to students' leadership experiences.

Prerequisite(s): Apply and be selected (fall semester), 2.0 GPA, upper division standing or instructor consent.

Grading: Letter Graded

UNVS 1290R - Culminating Experience Supervision

1 unit(s)

Continued work on thesis or project writing.

Course may be repeated for credit for up to 20 units.

Prerequisite(s): Outstanding RP grade in a preceding semester in a project or thesis class.

Grading: Credit/No Credit/No Degree Credit

Note(s): No Degree Credit

Urban and Regional Planning

URBP 92 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

URBP 101 - The City

3 unit(s)

History and organization of the city, emphasizing contemporary issues and strategies for influencing urban policy.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

College of Humanities and the Arts is responsible for scheduling.
Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 103 - Local Government and Politics

4 unit(s)

Offers a theoretical and practical study of local politics and government. The structure, role, and functions of city and county governments are examined. Students gain knowledge of the resources and skills required for effective citizenship in their communities.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with POLS 103. Political Science is responsible for scheduling.

URBP 110 - Urbanization in the Global South

3 unit(s)

This course explores issues and debates that relate to urbanization in the developing world. Students will gain a general understanding of the concept of urbanization in the developing world, and what are some of the issues, challenges, and policy responses found in these urban environments.

Prerequisite(s): Completion of core GE. Upper division standing.

Pre/Corequisite(s): 100W.

Grading: Letter Graded.

Cross-listed with GEOG 110. Geography is responsible for scheduling.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 120 - Intro to Housing Economics and Policy

4 unit(s)

Historic and policy aspects of housing, focusing on housing characteristics and public sector intervention. Topics may vary. Course may be repeated for credit when topic changes.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Note(s): Offered only occasionally.

College of Humanities and the Arts is responsible for scheduling.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 125 - Urban Anthropology

3 unit(s)

Anthropological theories and methods in analyzing the global effects of urban growth. Relevance of anthropological approach in understanding our local multiethnic metropolitan area.

Prerequisite(s): ANTH 11 or instructor consent.

Grading: Letter Graded

Cross-listed with ANTH 125. Anthropology is responsible for scheduling.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 133 - Introduction to Social Issues in Planning

4 unit(s)

Contemporary social issues related to urban and regional planning. Assessment of community social needs and resident planning. Focus on ethnic areas such as African, Asian and Mexican American neighborhoods.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with AFAM 133 Urban and Regional Planning is responsible for scheduling.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 136 - Introduction to Land Use Planning

4 unit(s)

Land use and facilities planning practices in the context of American cities, emphasizing interrelationships between various land uses and public facilities and service requirements. Study of the role of public law in addressing urban growth and environmental change issues.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ENVS 136. Urban and Regional Planning is responsible for scheduling.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 142 - Introduction to Environmental Planning

4 unit(s)

Environmental sustainability and its application to local planning. Review of regulatory tools and legislation that underlie most environmental planning and current environmental planning topics. Course may be repeated for credit when topic changes.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ENVS 142. Urban and Regional Planning is responsible for scheduling.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 143 - Intro Private Development and Planning

3 unit(s)

Introduction to the real estate development process from preliminary product analysis through planning, construction, and marketing.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

URBP 145 - Race, Policy, and Urban Cities

4 unit(s)

Effects of public policy decisions on inner city populations. Implications of urban planning processes for

differential consumption costs of public goods and services.

Prerequisite(s): Upper division standing.

Grading: Letter Graded

Cross-listed with AFAM 145. African American Studies is responsible for scheduling.
Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 148 - Introduction to Spatial Visualization Technology in Urban Planning

1-4 unit(s)

Lab-based course in digital visualization for urban spatial representation using industry standard software such as Adobe Photoshop, Adobe Illustrator and Trimble Sketch-Up.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with DSGN 148. Urban and Regional Planning is responsible for scheduling.

URBP 150 - Introduction to Municipal Finance

4 unit(s)

An introduction to the theory and practice of municipal finance. Topics include public goals and externalities, the function of the budget, sources of revenues, finance tools, expenditure types, the planning programming-budgetary system (PPBS), and methods of project evaluation.

Prerequisite(s): Upper Division Standing

Grading: Letter Graded

URBP 151 - Introduction to Urban Design

4 unit(s)

Principles, goals and methods of the urban design process. Urban design as the comprehensive treatment of the human-made environment.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with DSIT 151. Urban and Regional Planning is responsible for scheduling.
Sustainability Related - SDG 11: Sustainable Cities and Communities

URBP 152 - Introduction to Urban Design Studio

4 unit(s)

Introduction to the analysis of alternative urban design policies to direct urban form development. Course may be repeated for credit when topic changes.

Misc/lab: Activity 6 hours.

Prerequisite(s): URBP 151 or instructor consent.

Grading: Letter Graded

Cross-listed with DSIT 152. Urban and Regional Planning is responsible for scheduling.
Sustainability Related - SDG 11: Sustainable Cities and Communities

URBP 156 - Introduction to Local Transportation Planning

4 unit(s)

Examination of transportation planning issues addressed at the neighborhood and municipal level such as bicycle and pedestrian planning, traffic calming, and parking policy.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ENVS 156. Urban and Regional Planning is responsible for scheduling.
Sustainability Related - SDG 9: Industry, Innovation and Infrastructure

URBP 163 - Twentieth Century Urban Design

3 unit(s)

History of urban design since 1900, covering theories and practices of urban design in the industrialized world; includes Camillo Sitte, Le Corbusier and Frank Lloyd Wright.

Prerequisite(s): ARTH 70B or URBP 151 or instructor consent.

Grading: Letter Graded

Cross-listed with ARTH 163. Art and Art History is responsible for scheduling.
Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 169 - Introduction to Social Media in Planning

1-4 unit(s)

An introduction to social media tools and their use in urban planning, with a particular emphasis on public participation.

Prerequisite(s): Upper division standing

Grading: Letter Graded

Cross-listed with ENVS 169. Urban and Regional Planning is responsible for scheduling.
Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 175 - Urban Studies Topics

1-4 unit(s)

In depth examination of selected topics. Consult schedule of classes for current offerings. Course may be repeatable for credit with different topic.

Course may be repeated for credit for up to 8 units.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

URBP 178 - Intro to Regional Transport Planning

4 unit(s)

Principles and concepts relevant to transportation planning and policy at the regional level, such as historical and current regional transportation planning processes, the relationship between regional travel demand and transportation infrastructure, and travel demand modeling practices.

Prerequisite(s): Upper division standing

Grading: Letter Graded

Cross-listed with ENVS 178. Urban and Regional Planning is responsible for scheduling.

Sustainability Focused - SDG 9: Industry, Innovation and Infrastructure

URBP 179A - Fundamentals of GIS for Urban Planning

4 unit(s)

Exploration of Geographic Information Systems (GIS) area analysis techniques for spatial information management in local government: planning support systems, needs analysis, envisioning neighborhoods utilizing multiple maps, charts, photos and the Internet. Course may be repeated for credit when topic changes.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with ENVS 179A. Urban and Regional Planning is responsible for scheduling.

Sustainability Related - SDG 11: Sustainable Cities and Communities

URBP 179B - Advanced GIS for Urban Planning

4 unit(s)

Continued study of how geographic information systems (GIS) can be applied to urban and regional planning topics.

Prerequisite(s): URBP 179A or instructor consent.

Grading: Letter Graded

URBP 180 - Individual Studies

1-4 unit(s)

Individual work on special topics by arrangement.

Prerequisite(s): Instructor consent and department chair approval.

Grading: Credit/No Credit

URBP 185 - Environmental Impact Analysis

4 unit(s)

Current environmental impact reports subjected to critical review; determination of alternative procedures and mitigating opportunities; extensive field analysis and practice.

Misc/Lab: Lecture 3 hours/lab 2 hours.

Prerequisite(s): ENVS 1, ENVS 124 or instructor consent.

Grading: Letter Graded

Cross-listed with ENVS 185. Environmental Studies is responsible for scheduling.

URBP 190 - Advanced Environmental Impact Assessment

4 unit(s)

Advanced work in the field of environmental impact assessment. Analysis of EIA documents for regulatory adequacy, consistency with local planning documents and technical accuracy.

Misc/Lab: Lecture 3 hours/lab 2 hours.

Prerequisite(s): ENVS 185 or instructor consent.

Grading: Letter Graded

Cross-listed with ENVS 190. Environmental Studies is responsible for scheduling.

URBP 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

URBP 200 - Seminar on Urban and Regional Planning

4 unit(s)

Overview of the historical development of urban and regional planning in the United States, as well as prominent theories of urban planning practice. Emphasizing the connection between the theoretical and historical material and current planning practice.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 204 - Quantitative Methods

4 unit(s)

Urban research design, measurement, selected statistical research tools and introduction to computer processing. Extensive treatment of survey research.

Grading: Letter Graded

URBP 205 - Private Development and Urban Planning

3 unit(s)

Study of the entire process of private development from preliminary product analysis through planning, construction and marketing.

Grading: Letter Graded

URBP 206 - Market Analysis, Appraisal, & Finance of Real Estate Development

3 unit(s)

Students will be taught the real estate capital markets and the mix of the necessary financing sources required of developments. Students will evaluate criteria used by developers, real estate lenders and capital providers looking to minimize risk and maximize returns on real estate investments.

Grading: Letter Graded

URBP 207 - Real Estate Development Business and Planning

3 unit(s)

This course will introduce students to the California planning system, real estate development entitlement process, and contemporary issues in urban and regional planning.

Grading: Letter Graded

URBP 208 - Urban Real Estate Development Studio

3 unit(s)

This is a capstone studio course designed to immerse students in the real world of urban property development. Students will explore this world by taking part in a major mock-development project of an actual site in the San Francisco Bay Area.

Prerequisite(s): URBP 205 and URBP 206 or instructor consent.

Grading: Letter Graded

URBP 214 - Introduction to Public Management for Urban Planners

3 unit(s)

A study of current principles and practices of effectively managing public service organizations and urban planning. Emphasis on critical thinking, project management, and implementation processes considering urban planning.

Prerequisite(s): URBP 204 or equivalent or instructor consent.

Grading: Letter Graded

URBP 223 - Housing Economics and Policy

4 unit(s)

Overview of the housing situation in the United States; examination of the theory of housing markets and framework for analyzing housing policies; in-depth study of the problem of affordable housing and critical examination of the steps that the public, private, and non-profit sectors have taken to alleviate the problem.

Grading: Letter Graded

Sustainability Focused - SDG 1: No Poverty

URBP 225 - Land Use Planning and Law

4 unit(s)

Study of contemporary growth and land use management techniques used by local, state and federal governments. Examination of the role of public law in addressing urban growth and environmental change issues, and the legal aspects of preparing and administering planning controls and incentives.

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 226 - Regional Transportation Planning

4 unit(s)

Overview of the evolution of key transportation institutions and policies at the metropolitan, state, and federal levels. Assessment of the current challenges facing regional transportation systems and evaluation of different planning and policy approaches proposed to improve the performance of regional transportation systems.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 9: Industry, Innovation and Infrastructure

URBP 228 - Urban Community Development

4 unit(s)

The role, objectives and policies of the urban community development process; the social, economic, political and physical implications underlying community development programs; and relationships of these programs to comprehensive urban planning.

Grading: Letter Graded

URBP 231 - Urban Design in Planning

4 unit(s)

Urban design as part of the planning process; contemporary and historic urban design thought and ways of improving design quality in the urban environment.

Grading: Letter Graded

URBP 232 - Urban Design Studio

4 unit(s)

Through fieldwork and laboratory assignments, the student applies urban design theories, methods and principles to a current urban development issue.

Prerequisite(s): URBP 231 or instructor consent.

Grading: Letter Graded

URBP 233 - Social Issues in Planning

4 unit(s)

Multi-disciplinary study of the principles that guide the growth of a community so all members have equal access to the benefits of living in an urban environment. The course examines the coordination of citizen groups and government bodies to secure needed social services and facilities, champion initiatives that improve quality of life in our community, and engage issues important to underrepresented groups.

Grading: Letter Graded

Sustainability Related - SDG 11: Sustainable Cities and Communities

URBP 234 - Field Study Seminar

1 unit(s)

Discussion and analysis of experience in the planning field under internship programs. May not be counted towards the Master of Urban Planning program of study. Repeatable for credit with approval of the Graduate Student Advisor.

Prerequisite(s): Instructor consent and enrollment in the Master of Urban Planning degree program.

Grading: Letter Graded

URBP 236 - Urban and Regional Planning Policy Analysis: Tools and Methods

4 unit(s)

Analytical approaches to explain and evaluate the public policy making process with particular reference to urban and regional planning and development. Apply quantitative methods such as extrapolation techniques, population and economic projection models, and spatial interaction models for policy analysis.

Satisfies GWAR: Graduation Writing Assessment Requirement.

Grading: Letter Graded

Note(s): This course satisfies graduate-level GWAR in this master's program.

URBP 240 - Environmental Planning

4 unit(s)

Examination of the fundamental concepts and issues related to urban environment that planners face. Focus on land use and open space planning, planning and use of urban resources, interactions of urban residents and the physical environment, and the role of government in formulating appropriate policies and strategies.

Grading: Letter Graded

Urban and Regional Planning is responsible for scheduling.
Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 241 - Planning Sustainable Cities

2 unit(s)

An overview of urban sustainability covering topics such as the origins of urban sustainability, tools for sustainability planning, global dimensions of sustainability (including different approaches to planning across world regions), and visions for creating sustainable futures.

Course may be repeated for credit for up to 6 units.

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 248 - Spatial Visualization Tech in Urb Plan

1-4 unit(s)

Lab-based course in digital visualization for urban spatial representation using industry standard software such as Adobe Photoshop, Adobe Illustrator and Trimble Sketch-Up.

Grading: Letter Graded

Cross-listed with DSGN 248. Urban and Regional Planning is responsible for scheduling.

URBP 250 - Urban Planning Public Finance

4 unit(s)

An investigation of both the theory and practice of local public finance with emphasis on applications relevant to urban and regional planning. Topics include: public goals and externalities; the function of the budget; sources of revenue and expenditure; the planning programming-budgetary system (PPBS); methods of project evaluation; and traditional as well as innovative methods of public finance including property tax, user fee, impact fee, tax increment financing and use of special districts.

Grading: Letter Graded

URBP 255 - Urban and Regional Growth Management

4 unit(s)

Extensive study of causes, consequences and costs of sprawl; study of growth management and smart growth programs at the state, regional and local level, including the rationale, techniques, and economic, political, and organizational implications.

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 256 - Sustainable Transportation Planning

4 unit(s)

Examination of transportation planning issues addressed at the neighborhood and municipal level such as bicycle and pedestrian planning, traffic calming, and parking policy, with a focus on promoting sustainable communities.

Course may be repeated for credit for up to 9 units.

Grading: Letter Graded

Sustainability Focused - SDG 9: Industry, Innovation and Infrastructure

URBP 260 - Environmental Planning Topics

4 unit(s)

In-depth examination of selected topics specifically related to environmental planning. Consult department for current offerings. Course may be repeated for credit when topic changes.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

Sustainability Focused - SDG 11: Sustainable Cities and Communities

URBP 275 - Urban Planning Topics

1-4 unit(s)

In-depth examination of selected topics introduced in the core seminars for the Master of Urban Planning degree. Consult schedule of classes for current offerings. Course may be repeated for credit when topic changes.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

URBP 275G - Geographic Information Systems Overview: Urban Planning Applications

1 unit(s)

An overview of Geographic Information Systems with a focus on applications to urban planning, including demographic data analysis, land use mapping, cartographic techniques and methods for determining the most appropriate display of quantitative data for a variety of intended audiences.

Grading: Letter Graded

URBP 276 - Social Media in Planning

1-4 unit(s)

An overview of social media tools and their use in urban planning, with a particular emphasis on public participation.

Grading: Letter Graded

URBP 278 - Introduction to GIS for Urban Planning

4 unit(s)

Examination of geographic information systems (GIS) applications to urban and regional planning topics. Course may be repeated for credit when topic changes.

Course may be repeated for credit for up to 8 units.

Grading: Letter Graded

URBP 279 - Advanced GIS for Urban Planning

4 unit(s)

Further examination of advanced geographic information systems (GIS) applications to urban and regional planning topics

Course may be repeated for credit for up to 8 units.

Prerequisite(s): URBP 278 or instructor consent.

Grading: Letter Graded

URBP 280 - Planning Research Topics

1-4 unit(s)

In-depth examination of selected planning research topics introduced in core seminars for the Master of Urban Planning degree, such as the social and environmental impacts of planning policies.

Course may be repeated for credit for up to 12 units.

Grading: Letter Graded

URBP 292 - International Program Studies

1-6 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

URBP 295 - Capstone Studio: Community Planning

6 unit(s)

Through fieldwork and laboratory assignments, the student applies theories and techniques of analysis to identify the assets, problems, and opportunities of an urban community.

Prerequisite(s): Instructor consent.

Grading: Letter Graded

URBP 297P - Planning Report Preliminary Proposal

1 unit(s)

Advanced research and proposal writing. Students conduct background research and develop a preliminary research proposal that demonstrates their capacity to do independent research, analysis, and writing about a complex planning problem.

Grading: Letter Graded

URBP 298A - Special Study: Planning Report

3 unit(s)

Advanced research and report writing. Students develop a plan and complete the initial research to write a planning report that demonstrates their capacity to do independent research, analysis, and writing about a complex planning problem.

Prerequisite(s): Graduate Adviser approval. Passage of URBP 297P with a grade of B or better.

Grading: Mandatory Credit/No Credit/RP

URBP 298B - Special Study: Planning Report Completion

3 unit(s)

Advanced individual research and report writing. Students work with a faculty advisor to complete a professional planning report that demonstrates their capacity to do independent research, analysis, and writing about a complex planning problem.

Prerequisite(s): Passage of URBP 298A and Graduate Student Advisor approval.

Grading: Mandatory Credit/No Credit/RP

Vietnamese

VIET 1A - Elementary Vietnamese

4 unit(s)

Basic skills and structure of the language in the context of culture.

Satisfies C2: Humanities.

Grading: Letter Graded

VIET 1B - Elementary Vietnamese

4 unit(s)

Continuation of VIET 1A. Basic skills and structure of the language in the context of culture.

Satisfies C2: Humanities.

Prerequisite(s): VIET 1A or equivalent.

Grading: Letter Graded

Women, Gender and Sexuality Studies

WGSS 10 - Women, Gender, and Sexuality Studies

3 unit(s)

Interdisciplinary introduction to core concepts and analytical tools addressing the diversity of human experience cross cut by gender, sexuality, embodiment, and class location. Students will become familiar with key contemporary and historical debates in both global and local contexts.

Satisfies D: Social Sciences.

Grading: Letter Graded.

WGSS 20 - Women of Color in the U.S.

3 unit(s)

Constructs knowledge of the historical and contemporary experience of women of color. Focuses on Native American, African American, Latina, and Asian American women and considers contributions they have made to the shaping of the nation.

Satisfies D: Social Sciences.

Grading: Letter Graded.

Sustainability Focused - SDG 5: Gender Equality

WGSS 92 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad and Away programs.

Grading: Mixed Grading

WGSS 101 - Sex, Power, and Politics

3 unit(s)

Multidisciplinary introduction to traditional and new images, roles, experiences, ethnic similarities and differences, and contemporary problems of American women.

Satisfies SJSU Studies S: Self, Society & Equality in U.S.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 5: Gender Equality

WGSS 102 - The Global Study of Women

3 unit(s)

Survey of literature on the interaction of gender and forces of globalism.

Satisfies SJSU Studies V: Cultures and Global Understanding.

Prerequisite(s): Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Grading: Letter Graded

Sustainability Focused - SDG 5: Gender Equality

WGSS 107 - Psychology of Women

3 unit(s)

Sex-role development of women in terms of bio-social factors involved in intellectual and personal-emotional functions. Psychological theory and research.

Prerequisite(s): PSYC 1.

Grading: Letter Graded

Cross-listed with PSYC 107. Psychology is responsible for scheduling.

WGSS 112 - Women in the Global Economy

3 unit(s)

Women's participation in the economy, US and internationally: paid employment, consumption, subsistence labor, reproduction, volunteerism. It connects daily life activities with international economic trends, with particular attention to race, class, implications for families and strategies for equity.

Prerequisite(s): WGSS 10, WGSS 20, WGSS 101 or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 5: Gender Equality

WGSS 114 - Politics of Mothering and Reproduction

3 unit(s)

Explore contemporary definitions and values inscribed in issues pertaining to mothers and reproduction. It will be built upon three literatures: discourses of law and legality, discourses of nature and science, and discourses based in feminist thinking.

Prerequisite(s): Upper Division standing or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 5: Gender Equality

WGSS 120 - Special Topics in Women's Studies

3 unit(s)

Focus announced in the schedule of classes. Repeatable for credit with program coordinator approval.

Prerequisite(s): WGSS 10, WGSS 20, WGSS 101 or instructor consent.

Grading: Letter Graded

WGSS 121 - Philosophy and Feminism

3 unit(s)

A philosophical examination of writings that deal with issues of special concern to women, with emphasis on feminist writings.

Prerequisite(s): 3 units of philosophy or upper division standing.

Grading: Letter Graded

Cross-listed with PHIL 121. Philosophy is responsible for scheduling.

Sustainability Focused - SDG 5: Gender Equality

WGSS 131 - Gender, Sexuality, and Religion

3 unit(s)

Women's roles and gendered categories within diverse religions. Feminist critiques, reforms, and creations of religious institutions. The political and feminist dimensions of women's religious experience.

Understanding the roles of sexuality in religion.

Prerequisite(s): Upper-division standing or instructor consent.

Grading: Letter Graded

Cross-listed with RELS 131. Humanities is responsible for scheduling.

Sustainability Related - SDG 5: Gender Equality

WGSS 135 - Trans Studies: Identities, Embodiment, & Politics

3 unit(s)

Introduction to the field of transgender studies. A look at the present moment of transgender experience and embodiment through the lenses of history, science, institutions, cultural production, and activism.

Explores the past and future of trans, transgender, intersex, nonbinary, genderqueer, and transsexual people. Working with the assertion that "the personal is political" that emerged from Feminist of Color scholarship, course is also attentive to questions of race, ethnicity, class, sexuality, legal status, and ability, while introducing transgender identity and politics.

Prerequisite(s): Upper Division standing or instructor consent.

Grading: Letter Graded

WGSS 156 - Black Women's Writing

3 unit(s)

Comparative analysis of the meaning and developmental stages of womanhood for women of African ancestry as depicted in the fiction of women of African ancestry. Emphasis on the role of race and culture in shaping contemporary conceptions of womanhood among Black women.

Prerequisite(s): Upper division standing or instructor consent.

Grading: Letter Graded

Cross-listed with AFAM 156 / ENGL 156. African American Studies is responsible for scheduling.

WGSS 160 - Queering Gender, Race, and Class

3 unit(s)

Queer analysis of race and class diversity; social, political, and economic hierarchies of race, class, and gender in the U.S. Topics may include sexuality, racism, LGBT experience, the welfare system.

Grading: Letter Graded

WGSS 169 - Sexualities and the Body

3 unit(s)

This course explores the social construction of sexuality and the body from a feminist perspective. It investigates various aspects of sexuality and gendered bodies including identity, community, and social movements based on intersections of race, gender, sexuality, culture, and nation.

Prerequisite(s): Upper Division Standing or instructor consent.

Grading: Letter Graded

Sustainability Focused - SDG 5: Gender Equality

WGSS 175 - Sociology of Masculinities and Femininities

3 unit(s)

Examination and analysis of social construction of gender through interaction and social institutions. Explores gender-based identities and how intersections of gender, race, class, and sexuality shape men's and women's experiences. Examines theories of gender and gender-based social movements.

Prerequisite(s): SOCI 1.

Grading: Letter Graded

Cross-listed with SOCI 175. Sociology and Interdisciplinary Social Sciences is responsible for scheduling.

Sustainability Focused - SDG 5: Gender Equality

WGSS 180 - Individual Studies

1-4 unit(s)

Individual work on special topics by arrangement.

Prerequisite(s): Minor or emphasis in women's studies.

Grading: Credit/No Credit

WGSS 182 - Women, Gender, and Sexuality in Literature

4 unit(s)

Representations of women, gender, and sexuality in literature, with special attention to the intersecting structures of race, ethnicity, and class.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

Cross-listed with ENGL 182. English and Comparative Literature is responsible for scheduling.

WGSS 184 - Queer Literary Studies

4 unit(s)

Examination of queerness in literature, history, and culture. Explores queerness as it exists across historical contexts, tracing its manifestations in various literary genres and in other cultural artifacts such as film and television, including the ways gender and sexuality intersect with race, class, and ability, as they relate to identity formation and structures of power.

Prerequisite(s): Upper division standing.
Grading: Letter Graded

Cross-listed with ENGL 184. English and Comparative Literature is responsible for scheduling.

WGSS 189 - Feminist Perspectives on Gender and Religion

3 unit(s)

Contemporary feminist theories analyze premises of gender roles in religious cultures and variety of sexual expressions. Course will allow students understand the diversity of religious cultures and communities, in addition to how geographical, political, and social locations, like ethnicity and class affect the gender debate in religious perspectives.

Prerequisite(s): Upper division standing or instructor consent.
Grading: Letter Graded

Cross-listed with MDES 189. Sociology and Interdisciplinary Social Sciences is responsible for scheduling.
Sustainability Focused - SDG 5: Gender Equality

WGSS 190 - Internship

1-4 unit(s)

On-site experience with community or campus organization or other agency involved with women's issues. Individual and group advising augments the experiential learning. Repeatable for credit with program coordinator approval.

Prerequisite(s): WGSS 101 or instructor consent.
Grading: Credit/No Credit

WGSS 192 - International Program Studies

1-12 unit(s)

Study Abroad and Away transfer credit course. Study Abroad and Away provides students the opportunity to study abroad on long term programs (Exchange Programs, CSU International Programs, and International Student Exchange Programs) and short-term programs (Faculty-Led Programs and Summer School Abroad Programs) for academic credit, offering Alternative Break Programs for cultural immersion, and designing other globally focused opportunities. This course is designated as a placeholder course for Study Abroad

and Away programs.

Grading: Mixed Grading

Zoology

ZOOL 113 - Principles of Systematics

3 unit(s)

Students gain the understanding and skills needed to taxonomically study biodiversity, including the use of morphological and DNA sequence characters to examine phylogeny, and use of a range of biodiversity research techniques and tools.

Lab/Act: Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 115 or BIOL 118 (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with BIOL 113 / BOT 113 / ENT 113. Biological Sciences is responsible for scheduling.

ZOOL 114 - Functional Morphology

3 unit(s)

Develops understanding and skills needed to taxonomically study biodiversity, including the use of morphological and DNA sequence characters to examine phylogeny, and use of a range of biodiversity research techniques and tools.

Lecture 2 hours/Lab 3 hours.

Prerequisite(s): BIOL 115 or BIOL 118 (with a grade of "C" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with BIOL 114 / BOT 114 / ENT 114. Biological Sciences is responsible for scheduling.

ZOOL 115 - Invertebrate Zoology and Natural History

4 unit(s)

The evolution, distribution, structure, natural history and systematics of invertebrates other than insects.

Lecture 2 hours/lab-field trips 6 hours.

Prerequisite(s): BIOL 115 or BIOL 118 (with a grade of "C" or better). Must be a declared major in Biological Sciences; other majors with instructor consent.

Grading: Letter Graded.

ZOOL 116 - Vertebrate Evolution and Natural History

4 unit(s)

Origin, evolution, distribution and natural history of the vertebrates. Development, reproductive patterns,

anatomy, morphology, behavior, ecology and systematics.

Lecture 2 hours/lab 6 hours with several field trips.

Prerequisite(s): BIOL 118 (with a grade of "C" or better), or instructor consent. Must be a declared major in Biological Sciences; other majors with instructor consent.

Grading: Letter Graded

ZOOL 143 - Biogeography

3 unit(s)

Examination of the patterns of biodiversity over space and through time. Using data and models from a variety of sources including botany, zoology, ecology, evolutionary biology, paleontology, and geology, effects of isolation, elevation, and latitude are examined to understand spatial patterns of biodiversity.

Prerequisite(s): BIOL 31 or equivalent (with a grade of "C-" or better), or instructor consent. Must be a declared Biology Major (all).

Grading: Letter Graded

Cross-listed with BIOL 143 / BOT 143 / ENT 143. Biological Sciences is responsible for scheduling.
Sustainability Related - SDG 15: Life on Land

ZOOL 180 - Individual Studies

1-4 unit(s)

Advanced lab work in special fields. Course is repeatable for credit.

Repeatable for credit.

Prerequisite(s): Instructor consent. Must be a declared Biology Major (all).

Grading: Credit/No Credit

ZOOL 186 - Senior Thesis

2-4 unit(s)

Advanced laboratory or field research under supervision of faculty member, culminating in a senior thesis.

Prerequisite(s): Instructor consent. Must be a declared Biology Major (all).

Grading: Credit/No Credit
